La Salle Street Listens, Too!

WLS has a most complete market broadcast schedule . . . both farm and security . . . for Chicago and Mid-West listeners. Seven broadcasts daily feature prices on the New York Stock Exchange and Chicago Board of Trade.

A schedule of these broadcasts was recently sent all LaSalle Street broker-

age houses. Dozens wrote back for extra copies—and one broker asked for 5,000 WLS market schedules to enclose in month-end statements.

Here, then, is another indication that the markets—and WLS—are not important on the farm alone. They're vital in Chicago, too!

—are the home-town radio stations and those who call, via the loudspeaker—because they're known and liked for their personal qualities. Many are part of the immediate community—and ALL enjoy acceptance IN the home resulting from long association and genuine friendship.

Consider what this means in promoting YOUR products in the important buying centers of New England, covered by The Colonial Network.

Isn't it logical that you're bound to be

more successful in these communities if you appoint a *local* organization that is *known*—has standing and *acceptance*—in preference to a stranger from afar?

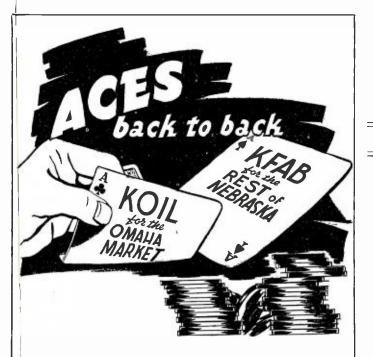

And isn't it obvious that when you can obtain—at economical cost—the loyalty and friendship these 19 Colonial Network home-town stations possess, you are investing in exactly the right mediums for doing the best selling job in one of America's most prosperous, populous, responsive markets—buy-able New England!

RIGHT SMACK IN THE MIDDLE

of the Piedmont Plateau for twenty years

Seldom does a national advertiser run into a selling opportunity like the Piedmont Plateau. • This very heart of the two Carolinas, bounded on the west by mountain country and the east by a coastal plain, rises up out of the Southeast 900 feet above sea level . . . the wealthiest, most fertile, most heavily factory-ed group of Carolina counties (65 of them). With steady buying power due to a nearly perfect balance between industry and agriculture.

AND RIGHT SMACK IN THE MIDDLE

of this unusual tableland-market is CHAR-LOTTE. Textile capital of the world. Pivotal point for all selling in the two Carolinas. The home-city of 50,000 watt WBT.

From Charlotte, national companies reach out to sell the Piedmont Ploteau. More branch offices and factory branches are here than in any other Carolina city.

From Charlotte, national chain stores reach out to buy for the Piedmont Plateau. More buying offices headquarter here, by far, than in any other Carolina city.

And from this very heart of the Piedmont (Charlotte), WBT has for twenty years given its advertisers coverage from within. Building audience loyalty that has set a pace for all rodio. Chalking up selling records that no single station or group of stations in this market can even closely duplicate.

Only with WBT from Charlotte can you profitably reach and sell the Piedmont Plateau.

Ask your nearest Radio Sales office about it.

When in doubt, ask

Some of his friends who knew him as the hardhitting sales manager of WGR and WKBW may be surprised to learn that Lew Avery has always attached more importance to preparation for a call, than to the sales call itself. He personally spends more time digging out facts in our office, than he does pounding the desk in your office. But when he does come to your office, he has something to say.

Contrary, perhaps, to the average conception of radio-station representation, research finds a big place in our daily work here in F&P. Each of our six offices contains a comprehensive collection of marketing and radio statistics-and hardly a week goes by that we don't supply at least one agency or advertiser with a detailed and illuminating report or survey of some kind. . . . An analysis of farm-equipment potentials in the Southeast; a survey of salad-dressing sales in Buffalo; a summary of coffee-buying habits in Iowa; an investigation of candy distribution in Tulsa whatever your needs for information, F&P can probably help you.

Lew and all our fourteen top-notch men at F & P are completely aware that selling is primarily serving. If we can help you dig out a means of improving your results from radio, or of increasing the usefulness of radio for you-well, that's the way we like best to work, in this pioneer group of radio station representatives.

BMI Adequate, Consent Decree Is Studied

Battle Half Won; Reconciliation Not Now Considered; Little Public Complaint; Society Torn by Strife

By SOL TAISHOFF

SATISFIED that a fortnight of ASCAP-less performance already has amply demonstrated the ability of broadcasting to meet all of its music requirements through other sources, the industry now is engrossed in means of establishing Broadcast Music Inc. as a permanent and strictly legal entity in Tin Pan Alley's new order.

No thought currently is being given to reconciliation with

ASCAP, apparently much to the chagrin of the Society. Instead, leading entities in radio are conferring with Assistant Attorney General Thurman Arnold about an agreement which would change the basic organization of BMI to meet requirements of the Anti-Trust Division and avert the criminal litigation proposed by the Government against NAB, NBC, CBS and BMI on grounds of "boycott".

Hardly a Murmur

Other than obviously inspired ASCAP blasts, there has been hardly a murmur of public complaint against the absence of ASCAP music from the networks and the bulk of the independently-owned stations. A survey by C. E. Hooper revealed that during the first ASCAP-less week, audience listening actually increased by 5%. ASCAP nevertheless continued to beat the propaganda tom-toms, but internal strife was reported on the upgrade as writers and publishers lamented the absence of their works on the air.

The crux of the conversations between the Department of Justice and the industry rests in clearance it the source by the networks—hether national or regional—of music. This is a fundamental .nciple demanded by Assistant .torney General Arnold before he will undertake the drafting of a decree to terminate the projected criminal litigation against the broadcast groups.

That ASCAP will be prosecuted in criminal proceedings in Milwaukee within the next week appears to be a foregone conclusion. ASCAP, after weeks of conversation about a consent decree, practically deserted the Anti-Trust Division attorneys on the court-

house steps. This resulted in the sensational announcement by Attorney General Robert H. Jackson that criminal proceedings would be launched in Milwaukee soon.

Following an extraordinary session of the executive committee of the NAB and of IRNA and of the BMI board of directors in Washington Jan. 7, with a number of leading industry figures also present, it was decided to explore the possibilities of obtaining a type of

consent decree from the Department which would impose no undue hardships on the broadcasting industry and guarantee rigorous competition with ASCAP.

On Jan. 8 a three-man committee comprising NAB and BMI President Neville Miller, BMI Executive Vice-President and General Counsel Sydney Kaye, and CBS Attorney Godfrey Goldmark conferred practically all day with Assistant Attorney General Arnold, Holmes Baldridge, chief of the Litigation Section of the Anti-Trust Division, and Victor O. Waters, Special Assistant Attorney General in charge of the copyright proceedings.

It was at this meeting that Mr. Arnold was reported to have insisted upon the clearance-at-the-source plan. The committee was given time in which to hold further conferences with representative in-

dustry groups. Meetings again were held soon in Washington and in New York Jan. 9 and 10.

If the Department is advised the method is acceptable, it is expected work will be started immediately on a conditional consent decree. Should the industry group conclude it cannot procure agreement on cleatance at the source from the major networks, it is clearly indicated the Department will proceed to file criminal informations against the industry groups in Milwaukee within a few days. Simultaneously, the more comprehensive ASCAP suit would be filed.

White Interested

Unless something happens quickly there is likelihood the ASCAP-BMI controversy will get a hearing in Congress. Senator Wallace H. White Jr. (R-Me.), the best informed man on radio in Congress, told BROADCASTING Jan. 10 he felt there was no excuse for the current situation. "I don't know why we should sit back and let these interests fight at the expense of the rest of the people of the United States," he said.

Senator White did not blame either group. He declared, however, that he would either propose an investigation or introduce definite legislation designed to foreclose the possibility of any recurrence of this situation, unless steps are taken swiftly to terminate the current turmoil.

If a consent decree is decided upon by the broadcasting industry groups, it unquestionably will provide for continued operation of BMI on its present basis until such time as ASCAP changes its method of operation, to provide for per-program payment and otherwise reorganize from top to bottom to eliminate practices which the Government regards as clearly illegal. Should ASCAP refuse to take a consent decree, even after BMI had stipulated in that direction, it is expected that reorganization of BMI would await final adjudication of the criminal litigation earmarked for ASCAP.

Possible Hardship

At the extraordinary sessions in Washington Jan. 7, Davd Sarnoff, RCA president and NBC chairman; William S. Paley, CBS president, and a formidable array of attorneys, conferred with the three ex(Continued on page 64)

New Station Facilities Contract Is Offered AAAA by the NAB

PRESAGING a break in conversations between special committees of the NAB and the American Ass'n. of Advertising Agencies, the NAB on Jen. 9 amounced a "recommended" station facilities contract, described by it as a substantial improvement over the old contract form in use since 1933.

Announcement of the new form occasioned surprise on the part of AAAA, whose representatives indicated that it was far from satisfactory to them. Although nothing was said about its effect on the development of a standard invoice form, also being considered by NAB-AAAA committees, it was evident there was considerable feeling among AAAA participants in the meetings.

Commenting to BRODCASTING Jan. 9. Fred Gamble, AAAA managing director, declared that although the provisions of the new NAB contract form had been discussed at a joint meeting Jan. 7, the AAAA timebuyers' committee had not even seen the contract in finished

form until the morning of Jan. 9.

"It caught us by surprise, and it was not a pleasant surprise," he continued. He indicated that in event the AAAA devised a standard form of its own, which would be used by advertising agencies, each contract signing might "turn into a proposition of individual negotiation", with both station and agency having to reconcile differences in their respective contract forms.

In announcing the new contract form, the NAB recognized there was not complete agreement with the AAAA on all points, but described it as "fair and equitable both to stations and to agencies and to advertisers". Copies of the recommended form were sent to NAB member stations, following approval by the NAB executive committee.

Apart from several utilitarian changes in the format of the contract, principal revisions cover clarification of terms and insertion

Extensive Pickups Planned by Nets For Inauguration

All Bands But Naval Exclude ASCAP Numbers in Parade

THE MOST extensive coverage in the history of American radio will be given the third inauguration of President Roosevelt Jan. 20, a survey by BROADCASTING revealed Jan. 10. All major networks will carry descriptions of the ceremonies attendent to the actual swearing in of Mr. Roosevelt at the east front of the Capitol as well as a score of programs depicting sidelights to the main event.

NBC has announced it will short-wave a word picture of the inauguration in Spanish and Portuguese over its shortwave stations, WRCA and WNBI. The description, to be given direct from the Capitol, will be relayed by land lines to Bound Brook, N. J., where it will be shortwaved to South America. Under NBC's new international policy, permitting certain stations in Latin America to rebroadcast its programs, it is expected that the description will have wide distribution from Havana to Buenos Aires.

Many Pickup Points

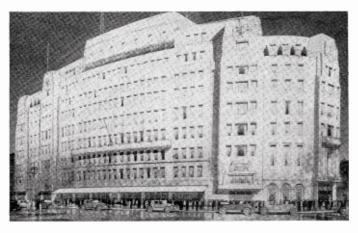

As Broadcasting went to press, neither CBS or MBS had announced shortwave plans but it was expected they would put a description of the event on their own or affiliated shortwave transmitters.

All networks plan to augment their regular Washington staffs with additions from New York. Under present plans NBC and CBS have listed 20 pickup points for describing both the parade and the actual inauguration. MBS to date has listed 14 microphone positions. While no definite time has been set, it is planned to start the broadcast at 11:30 a.m., running until approximately 1 p.m. and then going back on the air at 1:30 or 2 p.m. to describe the parade. Substantially identical arrangements have been made by all networks in this regard.

The radio section of U. S. Office of Education for the second successive inauguration prepared a map of the inaugural ceremonies showing location of microphones of the networks as well as time of ceremonies. Copies of the map were distributed by NAB to all stations with suggestion that they be made available to schools. Idea being that school children could listen to ceremonies and follow them on maps.

The ASCAP-BMI situation has caused some confusion in connection with inaugural broadcast plans but at this writing apparently will not alter radio's plans for its elaborate description of the ceremonies. All bands in the line of march, with the exception of the Navy band-whose leader, Lieut. Charles Benter, is a member of ASCAP, have signified their intention of playing BMI and other non-ASCAP music. In fact, Capt. Thomas Darcy, leader of the Army Band, has written an original composition titled "The U. S. Army" which will get its first public playing Inauguration Day.

BRITISH RADIO CENTER BOMBED

Broadcasting House Bombed, Killing Seven of BBC's Staff

News Announcer Rocked as Bomb Explodes But Sticks to His Mike and Continues With Program

BROADCASTING HOUSE, head-quarters of the far-flung British Broadcasting Corp., an originating point of American and Canadian network broadcasts in London, has been struck twice by German bombs since October, it was officially announced Jan. 7. During the second raid Fred Bate, head of the NBC staff in London, was cut by flying glass [Broadcasting Dec. 15]. At the time Bate was not at Broadcasting House but working in NBC headquarters in the same section of the city.

Seven members of the staff of BBC, it was made known Jan. 7, were killed during the October raid when a bomb failed to explode immediately. As the bomb exploded, Announcer Bruce Belfrage, who has appeared on the stage in the United States, was concluding a news summary. "The postscript tonight..." he began. Then there was the sound of an explosion, heard by millions of listeners. A voice came through the open microphone saying, "It's all right," and Belfrage continued with his news.

On the Job

Frank R. Kelley, writing in the New York Herald-Tribune, Jan. 8, said:

"For some inexplicable reason the BBC did not order its employees out of the building but let them work on with this slightly delayed action bomb nestling in their midst. The bomb went off and killed seven persons . . . The hole in the BBC building was being patched up when, during another raid, a heavy bomb landed alongside a building in Portland Place, blowing out most of the windows and making all the studios above ground unusuable."

Four of the 300 persons on duty or sleeping at the BBC at the time were injured seriously, according to the *Herald Tribune* correspon-

dent. The injured included B. E. Nicolls, program director.

When this missile came down alongside Broadcasting House, which dominates Portland Place, the BBC's roof spotter grabbed his telephone and shouted down to the control room: "Look out, there's a big one coming." Seconds later the bomb went off in Portland Place with a tremendous blast that blew over the roof spotter. He crawled back to his telephone. Came the comment from the control room: "Butter fingers."

Now Underground

A few minutes after this, Broadcasting House, a London showplace, was showered with fire bombs. Two fires which broke out on the third floor were put out after two hours. Damage was so great that BBC now is operating solely from underground studios - all 20 above ground studios being out of commission. The first bombing cut a heavy gash into the BBC building level with the fifth floor on the Portland Place or west side. The building, constructed along ultramodern lines, is about seven years old. Actually it is a shell within a shell, employing the suspended studio type of construction familiar in modern American broadcasting

Eight Canadian Broadcasting Corp. members working with the British Broadcasting Corp. in London were unharmed during the bombings. Officials of the CBC at Toronto on Jan. 7 stated that according to information they had received, none of the CBC men in London had been injured. The CBC men are attached to the BBC and make up the CBC Overseas Unit. They are Ernest Bushnell, CBC program chief on loan to the BBC for North American program supervision; Stanley Maxted, former CBC producer; Bob Bowman, CBC

Shirer Explains Berlin Problems

Censorship Is Strict, Food For Newsmen Is Ample

FOREIGN correspondents in Germany are classed as "heavy laborers" and allowed 1,000 grams (slightly more than two pounds) of meat weekly, or double the normal allowance, William L. Shirer, CBS representative in Berlin now home on leave, told a group of CBS executives and New York radio editors Jan. 3 at a luncheon in his honor.

This extra-heavy diet keeps the American correspondents healthy and friendly, Mr. Shirer stated, adding that while the German people seem to get along very well on their restricted diet, Americans cannot maintain their strength with it.

Strict Censorship

He said that while there has been no interference or curtailment of broadcasts by Americans from Germany for American audiences there has been strict censorship, especially by army officials, since last May. Anything that might have military value for the enemy is ruthlessly blue-penciled, he said. The army also maintains close supervision over all German broadcasts, both domestic and for foreign consumption.

Despite the harsh penalties for Germans caught listening to short-wave programs from abroad, Mr. Shirer expressed the opinion that the BBC has a large audience in Germany, due to its reputation for objective treatment of news. Correspondents are freely permitted to listen to foreign broadcasts, he said, the only restriction being that they must not repeat to German citizens what they hear from abroad.

New BC Disc Program To Reach 100 Stations

BC REMEDY Co., Durham, N. C., after Jan. 20 will release to over 100 stations, in markets where the headache remedy is sold, a group of 26 recorded 60-second announcements by Arthur Godfrey who conducts the Sun Dial on WISV, Washington, and who also is heard on discs, sponsored by the Carnation Co.

Announcements include 20 seconds of Godfrey's songs and 40 seconds of commercials for broadcast daily or several times weekly. The recordings were produced by Charles W. Hoyt Co., New York, agency handling BC's New York advertising, and prepared by NBC radio-recording division in Washington. Agency placing national business for the company is Harvey-Massengale Co., Durham.

special events director in charge of CBC Overseas Unit; Gerald Wilmot and Rooney Pelletier, of the Montreal CBC announcing and producing staffs; Arthur Holmes, of the Toronto CBC engineering staff; Albert Altherre, of the Montreal CBC engineering staff; Jacques de Vaillets, Montreal CBC announcer.

Treaty Nations Aim to Beat Deadline KDKA TRANSFERS TO BLUE NOV.

Engineers to Discuss Technical Matters At Conference

STILL shooting for the March 29 Continental reallocation, pursuant to the Havana Treaty, delegates of the United States, Canada, Mexico and Cuba will meet in Washington Jan. 14 at an engineering conference to adjust assignment conflicts and otherwise compose technical differences in the new broadcast operating structure.

Commissioner T. A. M. Craven, who was head of the American delegation to the 1937 conference in Mexico which drafted the Treaty, again will be chairman of the delegation. An engineer, he was largely responsible for developing the agreement which, among other other things, is destined to end the operation of Mexican border sta-

Other Members

Other FCC delegates are E. K. Jett, chief engineer; A. D. Ring, assistant chief engineer in charge of broadcasting; Gerald C. Gross, chief, international section, and Joseph L. Rauh, Jr., assistant general counsel.

State Department representatives will be headed by Thomas Burke, chief of the Division of International Communications, and his assistants, Francis Colt De-Wolf, Harvey Otterman and Joseph Keating. It is expected Assistant Secretary of State Breckenridge Long, will open the sessions but not actually participate in the informal engineering discussions.

While meeting the March 29 deadline may mean a race against time, Government officials are optimistic, provided no complications develop. It is presumed that final orders and notices covering the assignments can be cleared by the end of January and that stations therefore will have two months within which to comply with the Treaty terms.

The reallocation, as announced Sept. 10 by the FCC, was to affect 777 of the 862 stations then operating or authorized. Since then, however, the number affected has been increased a score by newly authorized stations.

At the Jan. 14 sessions, expected to run about a week, the most seriour consideration will be that of the fate of the notorious border stations. The Treaty itself defi-nitely provides for their silencing as high-powered outlets, with all Class I facilities earmarked for the interior of Mexico. Reports have been current, however, that commitments may have been made by the former Mexican Communications Ministry, prior to the recent presidential elections, under which certain of these stations, temporarily at least, would retain their border assignments with substantial power.

It is obvious that even if everything clicks all down the line, time will be short in meeting the March 29 deadline. The serious bottleneck unquestionably will be production of crystals for stations in this country as well as in Canada, Mexico and Cuba, which must change their assignments. In a substantial number of cases, it is understood, stations have made arrangements with occupants of frequencies to which they are slated to shift, for exchange of crystals.

In cases where directional antennas and new locations are required, the FCC may authorize operation with reduced power until they complete new installations.

Mexican Problem

Little difficulty will be encountered, it is indicated, in reconciling the Canadian allocations with those in this country. The only serious problem expected with Mexico is that of the disposition of the border stations. In the case of Cuba, its revised allocation list has not yet been submitted and probably will be gone over for the first time at the general engineering sessions. The original Cuban list did not take into account the standards specified in the Treaty, and therefore had to be revised drastically.

Since all of the deliberations will be technical and within the framework of the treaty, no departures from the Treaty allocations are contemplated. A gentleman's agreement regarding certain of the channels assigned to Mexico has been entered into and may prove a bone of contention. Moreover, it is understood the Mexican list does not indicate precisely when the Class I facilities assigned to it for use in the interior of the country will be shifted.

No word has been received here as to the makeup of the delegations from the other countries. It is expected, however, that, for the most part they will consist of practical allocations engineers, flanked by foreign office representatives.

Originally the plans for the engineering conference contemplated bilateral sessions, then a plenary session. Mexico, however, suggested the plenary session at the outset, to expedite conversations.

Esso Extra

TWIN BABIES, born Jan. 1 to a 14-year-old Negro mother on Little Edisto Island, near Charleston, S. C., have been named Esso and Essolene—to all appearances inspired by the four-daily Esso Reporter newscasts on WCSC, Charleston. The young mother thinks the names are "very thanks the names are "very the name thinks the names are "very pretty". Last year Standard Oil Co. of New Jersey, spon-sor of the Esso Reporter programs, awarded cash bonuses for multiple births on New Year's Day, but it has not been announced whether the company will rise to the possibility of becoming god-father to Esso and Essolene.

FIVE AFFILIATIONS WITH NBC, MUTUAL

FIRST NEW network affiliations of the new year were announced Jan. 8 by NBC and MBS, with the former stating that WOC, Davenport, Ia., will become a basic Blue outlet on March 16 and the latter

announcing four new affiliates.
WOC, sister station of WHO,

mer interests, operates with 250 watts on 1370 kc.; its network rate will be \$120 per evening hour. NBC at the same time announced that at the same time announced that the date of affiliation with the Blue of WWVA, Wheeling, has been fixed for next May 2. WWVA will then relinquish its CBS affiliation.

THEY WERE IN THE ARMY THEN

First of a Series

THE MILITARY tradition prevails in radio despite the fact that so many of its executives are still young men. This is what some of the broadcasting industry's best known figures looked like when they wore Uncle Sam's uniforms. Can you recognize them? See box on page 10.

TO BLUE NOV. 1

FORMAL announcement has been made by NBC that KDKA, Pitts-burgh, will switch Nov. 1 from NBC Blue to the Red network and WBZ, Boston, will follow suit June 1, 1942. Though these shifts have been indicated for some time, the definite dates had not been fixed. In a notice to NBC clients Edgar

Kobak, vice-president in charge of Blue network sales, reported that with these shifts WWVA, Wheeling, will become the NBC Blue outlet, switching from CBS. No mention was made of the new Boston Blue network outlet supplanting WBZ, through several stations are understood to be under consideraunderstood to be under consideration. Similarly, nothing was said about the new outlet in Pittsburgh when the Red programs shift from WCAE to KDKA. WWVA, slated for 50,000-watt operation, will cover part of that area but it is expected there also will be a local Pittsburgh outlet for the Blue Pittsburgh outlet for the Blue.

In his announcement, Mr. Kobak In his announcement, Mr. Kodak mentioned other improvements in Blue operation. Among these were the increase of WXYZ, Detroit, to 5,000 watts day and night; affiliation of KXOK, St. Louis, on the Blue as of Jan. 1 with 5,000 watts Blue as of Jan. 1 with 5,000 watts day and night and with KFRU, Columbia, Mo. as the bonus station; and the projected increase in power of WJBO, Baton Rouge, to 5,000 watts fulltime, with Feb. 1 the probable date of starting.

Union Leader Widening Schedule of Farm News

P. LORILLARD Co., New York, on Jan. 6 started a 13-week campaign for Union Leader Tobacco using The Farm Market Reporter five times weekly on Michigan Ra-

five times weekly on Michigan Radio Network, including WELL WIBM WBCM WFDF WOODWASH WIIM WKZO.

The program, heard 12:15-12:30 p.m., contains farm reports by George Boutelle, manager of the Michigan Livestock Assn., and music by the Hayloft Serenaders. According to the agency, Lennen & Mitchell, New York, the company will use similar quarter-hour farm report programs three to five times weekly in seven other cities with starting dates set for various times during January.

Lorillard also has been promoting

Lorillard also has been promoting Union Leader since last November Union Leader since last November with farm reports originating in the South St. Paul stockyards, second largest in the United States, on the North Central Broadcasting System of 11 stations in Minnesota, North and South Dakota.

Dr. Pepper on 33 DR. PEPPER Co., Dallas, during the week of Feb. 10 will start a campaign for its soft drink on 33 stations, 30 of which have already been set. Program will be a halfhour variety show, transcribed by Columbia Recording Corp. for to Benton & Bowles, New York agency handling the account, further details of the campaign have not been decided.

SPOT announcement campaign running on a large list of stations throughout the country under sponsorship of Ex-Lax Mfg. Co., Brooklyn, was renewed Jan. 1 for the year, according to Joseph Katz Co., New York, agency

Many Violations Are Claimed **But ASCAP Files No Actions**

Literally Swamped, Says Society, as Listening Posts Are Busy; Texaco Threat is Belittled

ALTHOUGH ASCAP claims it is "literally swamped" with infringements of its catalogs by radio since the vast majority of stations dropped ASCAP performances, it has not yet instituted any actual infringement suits, despite its announcement of Jan. 2 that it would proceed against CBS affiliated stations and the advertiser and agency handling the Fred Allen pro-

At ASCAP headquarters, BROAD-CASTING was told by John G. Paine, general manager, that "we're so flooded with infringements that we don't know what we'll do." He said that recordings of infringements of ASCAP musical numbers have been picked up by listening posts scattered throughout the country. While the Society expected to discover a number of infringements, Mr. Paine said, it was totally unprepared for the quantity that already had turned up.

Delay in Filing

On Jan. 2 ASCAP announced that its attorneys, Schwartz & Frohlich, "were preparing papers for an infringement suit against the Texas Co., Buchanan & Co., its advertising agency, and CBS and all its affiliated stations which carried the Fred Allen program, for copyright violation in the unauthorized use of the musical number 'Wintergreen for President,' on the Fred Allen show last night."

On Jan. 7, however, the Schwartz & |Frohlich office stated that this suit had not been instituted and that no suits would be started within the week, nor were any contemplated until the completion of a survey of infringements now being made by ASCAP.

The song, "Wintergreen for President," the ASCAP announcement said, with music by the late George Gershwin and lyrics by Ira Gershwin, is from the musical show "Of Thee I Sing," an outstanding Broadway success of a few years ago. As soon as the announcement appeared, CBS issued a statement that: "There is absolutely no basis for such a suit. The tune mentioned was not 'Wintergreen for President,' but an original theme melody."

Stating that the ASCAP legal department is trying to analyze the situation preparatory to taking action, Mr. Paine said that "it seems silly to bring so many suits." One publisher-member alone has four infringements, "all on 100-station network hookups," he de-clared, "which if prosecuted and collected for at the statutory minimum of \$250 an infringement would bring this one company damages of \$100,000."

While many of the infringements are believed to be unintentional, Mr. Paine expressed the belief that quite a number are "deliberate steals," and grew indignant over the action of certain sponsors and orchestra leaders who have "paraphrased" their former theme songs, changing only a few notes. "This is an absolute theft and no court in the world will let them get away with it," he de-

Two Bars Involved

In announcing ASCAP's plans for the infringement suit against the sponsor, agency and network of the Fred Allen program, Mr. Paine stated that "The Society in-tends to vigorously defend its composers and authors from piracy and exploitation by the radio monopoly. George Gershwin is dead and cannot protest this piracy, but this Society, which was formed by writers to guard against just this sort of abuse, will protect his es-tate."

Joseph H. Ream, general attorney of CBS, expressed confidence that if ASCAP actually does file this suit the courts will promptly dismiss it. "The alleged infringement deals with only two bars of music," he said, "and of these two bars the notes are entirely differ-ent from 'Wintergreen for Presi-

BMI Sheet Sales Boom

BMI has announced that its numbers enjoyed some 60,000 sheet music sales and about 6,000 orchestrations sold during the final week of December. These figures are all the more surprising because this holi-day week is usually the worst week in the year for sheet music sales, a BMI spokesman explained. Lead-BMI spokesman explained. Leading in sheet music sales among BMI numbers are: "There I Go", with sales of 116,000 copies to date, "I Give You My Word", "I Hear a Rhapsody" and "So You're The

dent' and the rhythm, while similar, is not identical."

Paul Munroe, radio director of Buchanan & Co., also stated his belief there was no infringement in the number performed on the Allen broadcast, but added that to avoid further controversy the theme would probably be changed in fu-ture broadcasts. If the suit is filed, he said, CBS will handle the defense for client and agency as well as for itself and its affiliates.

Failure of ASCAP to follow up its announcement with immediate action has led to a number of expressions from radio men that what ASCAP wanted was publicity and having achieved that goal will let the matter rest. Others predict, however, that having made the announcement ASCAP will have to follow through on the suit to save face with its members.

the group, has, according to the announcement, "assembled jus about all the songwriters who could qualify as instrumentalists," first such aggregation.

Members of the group include Members of the group include Vincent Rose, composer of "Avalon" and "Whispering"; Larry Stock, who wrote "Umbrella Man" Arthur Altman, "Play Fiddle Play"; Walter Kent, "Mama, Wanna Make Rhythm"; Irving Gordon, "Me, Myself and I"; Slam Stewart, "Flat Foot Floogie"; Eddie Edwards, "Tiger Rag"; Eddie Farley, "Music Goes 'Round"; Dor Jacoby, "Fraidy Cat"; Jimmy Mundy, "Springtime in the Rockies": Jacoby, "Fraidy Cat"; Jimmy Mundy, "Springtime in the Rockies"; Guy Wood, "Gentleman Needs & Shave"; Buddy Kaye, "Shades of Twilight"; Al Hoffman, "Little Man You've Had a Busy Day"; Al Lewis is the author of "Blueberry Hill" and "No, No, a Thousand Times No."

Because they belong to ASCAP and "therefore are affected by the boycott of ASCAP music by the radio chains," the announcement states, "they are returning to vaudeville to play their tunes where the public can hear them."

Another instance where ASCAP is taking its fight with radio to the theatre-going public was disclosed by the information that a new verse had been added to "Zip", a number in "Pal Joe", current musical show on Broadway, as follows:

Zip, on the radio Good music is dead. Zip, BMI just means Bad music instead.

Lobbies of New York theatres housing musical shows have, since Jan. 1, been decorated with placards announcing: "Music from This Show Barred From Your Radio by Order of CBS, NBC, MBS, but They Can't Bar It From Your Piano. Buy Your Sheet Music Here."

ASCAP Prepares Radio Drive To Promote Writers and Songs

Live Show in New York, Discs Elsewhere Under Plans With Guest Star to Appear Each Week

PLANS of ASCAP to join the ranks of radio sponsors by presenting a weekly program, featuring its own writers, composers and songs, on time purchased from stations selected from those which have taken out ASCAP licenses, are currently being formulated at the Society's headquarters. Titled ASCAP on Parade, the series will be produced by Billy Rose, written by Oscar Hammerstein and will have Deems Taylor as commentator. A guest star will be featured each week, with Irving Berlin set for the first

Series was announced Jan. 6 by Gene Buck, ASCAP president, as the organization's "own Hit Parade", which will "consist of the genuine 'hit' songs of the day—the real hits that the public is actually buying, singing and dancing to, rather than a group of network controlled synthetic 'hits'." "These ASCAP hits," the announcement continues, "will be selected on an honest country-wide survey."

Code Provision

Just where the program would be staged, whether in a theatre or the studio of one of the New York stations which will carry the series; whether the programs will run for a full hour apiece or only for 30 minutes, and how many and which stations will be used, were questions

which had not been settled last, although ASCAP officials hoped to have the first program ready for

broadcasting Jan. 18.
Series will be broadcast live on stations in the New York metropolitan area and by transcription on other outlets. An attempt will be made to have the programs broadcast Saturday nights, spotted in the period directly preceding the Lucky Strike Hit Parade time wherever possible. Commercials wherever possible. Commercials will be devoted to telling the public ASCAP's side of the music controversy, it was stated, although their exact form has not been determined.

Since the announcement of this series, a number of broadcasters have raised the question of whether the NAB cannot, under the provisions of the industry code providing for equal time to be given to all sides for discussion of controversial questions, ask stations carrying the ASCAP series to give time to NAB spokesmen to present their side of the story.

Another angle of ASCAP's publicity campaign on the "boycotted by radio" theme is the formation of "The Hit Parade Writers and Their Orchestra" by 17 ASCAP members who are instrumentalists as well as composers, which opened a projected vaudeville tour Jan. 9 at the State Theater, Easton, Pa. Al Lewis, vocalist and manager of

ASCAP Control Called Barrier to Bargaining

A CHARGE that ASCAP's control of music on the air prior to Dec. 31 has deprived independent music publishers from free bargaining with radio stations and recording companies has been made by Frank La Val of Addazzio-La Val-Mat-thews, New York music publishers. In a letter to BROADCASTING, protesting against "this private war between BMI and ASCAP which is hurting independent publishers and composers," Mr. La Val cites a case of discrimination from a recording company, whose manager he quotes

as saying:
"The only way of getting your music recorded is by giving a guarantee of 7,500 records or by having your music on the 'Hit Parade'.' Mr. Laval continues: "We know that this is a false statement being that we are not members of being that we are not members of ASCAP. We also know that this company has recorded music for ASCAP publishers without a guarantee." He also cites similar discrimination from a broadcasting

WEST DISINFECTING Co., New York, was erroneously stated as the manufacturer of "CM" in the Dec. 15 Broadcasting in connection with the placing of It Takes a Woman, produced by Basch Radio Productions, New York, and released through Moser & Cotins, New York. Product advertised is "CN".

ASCAP Refused Wisconsin Order

'lans to Appeal Decision of Court on Franchise Tax

NTENTION of ASCAP to appeal rom the decision of the Federal listrict Court in Milwaukee re-uiring ASCAP to pay a 25% franhise tax before it can do business n the State was disclosed Jan. 8 by John G. Paine, ASCAP general nanager.

Terming the Wisconsin statute discriminatory and confiscatory", Mr. Paine said that when such laws ppear the courts usually throw hem out as unconstitutional. He aid ASCAP has no objection to paying reasonable taxes and does io in several States, but that a tax of 25% and one levied against no other individual, company or group n the State except ASCAP is both inreasonable and unconstitutional.

District Judge F. Ryan Duffy, former Senator from Wisconsin, n an opinion growing out of an infringement suit by an ASCAP member against a tavern in West Allis, denied a plea for a temporary injunction, and also held that ASCAP activities in handling in-fringement actions, under the Wisconsin State law, were unlawful.

State License Lacking

The Allis House was charged with infringing the copyright of the composition "The Waltz You Saved For Me", in a suit brought by Leo Feist Inc., an ASCAP member. The court pointed out that neither Feist nor ASCAP has been granted a license in Wisconsin, under the Wisconsin statutes requiring such a license in order to quiring such a license in order to transact business in the State. It is admitted, he pointed out, that Feist had made no attempt to comply with the statute and that the same was true with reference to ASCAP.

Judge Duffy held that Feist, in its motion to strike, admitted that it, through ASCAP, maintains a staff of unlicensed investigators in violation of the State statute. These investigators are alleged to have threatened the defendant that it would sue for alleged infringement if the inn did not enter into a license agreement and pay the fees demanded.

Injunction Unlawful

"Such threatening of a suit is likewise made unlawful under Chapter 177", the court said. Regarding the motion for a temporary injunction, the court held there would seem to be no such emergency or irreparable damage situation which calls for such action ation, which calls for such action at this stage of the controversy.

The court also observed that one or more cases are now before the U.S. Supreme Court in which there is at issue the validity of State legislation pertaining to the rendition of copyrighted music. "The decision of such case or cases (Florida and Nebraska appeals) may throw some light on the issues raised in the case at bar. Such decisions are expected to be rendered prior to the time that the trial of this case can be reached. The motion of the defendant for a injunction will be temporary denied."

WITHOUT THE AIR Film With ASCAP Tunes Will -Miss Radio Plugs-

NEWS NOTE from Hollywood, from Hedda Hopper's syndicated column of Jan. 6:

"Producer Kenneth MacGowan started 'The Great American Broadcast' a year-and-a-half ago.

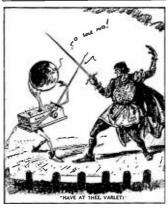

"Now they're actually in production, but the ASCAP war with war with radio is on in swing time, and the great tunes which will be used in the picture cannot be played or sung on the air, which has always helped put them over.

"Where would 'Thanks for the Memory' be without Bob Hope and

Benrus to Enlarge

BENRUS WATCH Co., New York, following its annual sales meeting, has announced plans to add a number of stations to its large list carrying daily time signals. The list will be made up in February by J. D. Tarcher & Co., New York agency, with the schedules starting

HISTORY REPEATS

(This cartoon in the New York World back in 1925 dramatized the clash between radio interests and musical and theatrical managements.)

DENIAL of the report by ASCAP that it had signed a new contract for performance of its music was issued Jan. 10 by WHBL, Sheboygan, Wis. Wayne W. Cribb, manager, said the only license agreements his station has are with BMI and SESAC.

Station Licensees Claimed by ASCAP

A TOTAL of 158 stations have contracted with ASCAP for performing rights for 1941, since expiration of the 5% of gross contracts on Dec. 31, according to an ASCAP analysis. The ASCAP announcement, however, failed to disclose that 32 of the listed stations are noncommercial [noted by asterisks] and therefore do not pay performance royalties. Virtually the entire roster of stations signed are independent nonnetwork outlets.

It is reported that ASCAP has offered stations the option of signing for one year only, though its contract proffer originally was for five years. Presumably, stations are given the option of cancelling contracts on 90

days notice after the first year. WJRD, Tuscaloosa, Ala. WARD, Tuscaloosa, Ala.

Catch in ASCAP Religious Grants

Society Requires Free Plugs In Special Permission

ASCAP's grandiose claims in its warfare with radio that it gives the clergy, education and Government a free license for use of its music, provided the time on the air is obtained without cost, is exploded by the very conditions laid down in its "free license" authorization. This is disclosed in an exchange of correspondence between John G. Paine, ASCAP general manager, and Rev. Charles E. Fritz, pastor of the Ebenezer Evangelical Lutheran Church, of Columbus, S. C. Writing Ray Fritz Dog 21 Mer. provided the time on the air is ob-

Writing Rev. Fritz Dec. 31, Mr. Paine extended permission to the church to use its music in connecwith services broadcast over WIS, Columbia, provided the pro-gram is non-commercial and the time is donated by the station. But he added that the only requirement in granting this permission "is that an announcement be made during the broadcast that the musical portion of the program is being heard through the courtesy of ASCAP". Mr. Paine also observed: "Certainly we would not want the arbitrary attitude of the radio broadcasting industry to interfere with this fine program."

Advertising ASCAP

In carrying its campaign to the pulpit, ASCAP Dec. 23 said it had always given a completely free license for use of its works to all non-sponsored, non-commercial programs broadcast by religious, educational and Federal agencies, and that it "has no intention whatever of departing from that policy".

Rev. Fritz, responding to Mr. Paine's Dec. 31 letter, referred to this announcement and observed that it did not coincide with the requirement that credit be given to ASCAP. The requirement in effect, he said, means that "you ask us to advertise ASCAP".

Rev. Fritz pointed out too that the blanket requirement specifies the announcement that the musical portion of the program "is being heard through the courtesy of ASCAP". He said that at some of his services that may or may not be true and that it never would be entirely true. In certain services no ASCAP music is used at all. He said he was reasonably sure that in the use of most and possibly all hymns it would not be true.

"Thus," stated Rev. Fritz, "to say that the musical portion was by courtesy of ASCAP would not coincide with my sense of truth. I am charitable enough to believe that you do not want our church or any other to advertise your company in connection with our programs of worship, and certainly not to strain the truth with regard to the 'courtesy' granted. Let us not do anything that would mar the beauty that should surround the preaching of the Word in our churches and over the air because of differences in the commercial field."

TO KEEP citizens of Springfield, Ill., continually conscious of the birthplace of the Great Emancipator, WCBS, that city, is inserting "Abraham Lincoln Lived Here" on each hourly station

EXPERT ADVICE on national defense is supplied the Defense Communications Board by the nine-man Industry Advisory Committee. Immediately after the general DCB session Jan. 6, the committee met with the five DCB members—(1 to r) Frank Phelan, president, All-American Cables & Radio Corp.; Louis Pitcher, executive vice-president, U. S. Independent Telephone Assn.; Carl D. Brorein, president, U. S. Independent Telephone Assn.; Col. Sosthenes Behn, president, IT&T; Walter S. Gifford, president, AT&T; R. B. White, president, Western

Union Telegraph Co.; FCC and DCB Chairman James Lawrence Fly Herbert E. Gaston, Assistant Secretary of the Treasury for Coas Guard, DCB secretary; Maj. Gen. Joseph O. Mauborgne, Chief Signa Officer, U. S. Army; Rear Admiral Leigh Noyes, Director of Naval Communications; F. C. Alexander, Jack Kaufman, executive vice-president Globe Wireless Ltd.; Breckenridge Long, Assistant Secretary of State Joseph Pierson, president, Press Wireless; David Sarnoff, president, RCA

Long-Range Defense Program Under Way

Name Committees For Various Functions

WITH RENEWED assurances that long-range planning in the interest of national defense is sought, rather than immediate interference with the operations of communications, the Defense Communications Board Jan. 6 perfected its organization and set in motion 15 industry and Government committees to devise and coordinate operations.

Some 225 delegates and alternates representing Government, industry and labor were present at an all-day round of

executive sessions Jan. 6, at which committees were organized, chairmen and secretaries selected, and tentative agenda developed. Arrangements promptly were made for appointment of subcommittees of key groups to boil down the agenda suggested by DCB and chart definite courses of procedure.

Miller Named

Neville Miller, NAB president, was elected Chairman of the Domestic Broadcasting Committee, with A. D. Ring, assistant chief engineer of the FCC, as secretary. Walter C. Evans, vice-president of Westinghouse Radio Stations Inc., who already is serving in an advisory capacity with manufacturing committees under the National Defense Council, was elected chairman of the International Broadcasting Committee, with P. F. Sil-

ing, assistant chief of the FCC International Division, as secretary.

The broadcast committee named a subcommittee comprising Messrs. Miller, Ring and Maj. Frank C. Meade, of the War Planning Section, Army Signal Corps, which met Jan. 10 to arrange future meetings. The International Broadcasting Committee has called another meeting Jan. 17 in Washington.

The only departure from the

The only departure from the original organization plan was adoption by DCB of a recommendation by the Labor Advisory Committee that labor members be placed on each of the committees having an employer status. This would mean that seven committees of the 11 units in the secondary classification, including both domestic broadcasting and international broadcasting, would have labor members. There will be one voting labor member and one labor alternate for each committee.

Robert J. Watt, legislative representative of the Americal Federation of Labor, was electechairman of the Labor Advisor; Committee, one of the four main committees. He said Jan. 10 tha his committee would make its recommendations for appointment or labor representatives on the various industry groups by Jan. 20. It is presumed DCB will approve such recommendations promptly.

Having completed the broad out line of its scope of activity, the DCB, of which FCC Chairmar James Lawrence Fly is chairman proposes now to move toward coordination of all communications industries and operations to cope with any national emergency that might develop. Its task will be a continuing one, though it hopes to complete a blueprint of its coordinated structure swiftly.

Reports to President

The Board is responsible directly to President Roosevelt, who created it by Executive Order last Sept. 24 [Broadcasting, Oct. 1, 1940]. Members of the Board, in addition to Chairman Fly, are Maj. Gen. Joseph O. Mauborgne, Chief Signal Officer, Army; Rear Admiral Leigh Noyes, Director of Naval Communications; Breckenridge Long, Assistant Secretary of State; Herbert E. Gaston, Assistant Secretary of the Treasury in charge of Coast Guard activities.

The most significant meeting Jan. 6 was that of the Industry Advisory Committee, made up of top officials of leading entities in the communications field, with the DCB membership. This committee is one of the four which will have direct liaison with DCB. The others are the Coordinating Committee, made up entirely of Government officials and headed by E. K. Jett, FCC chief engineer; the Law Committee, made up of Government attorneys and headed by Telford Taylor, FCC general counsel, and the Labor Advisory Committee. The 11 committees having contact with the Board only through the Coordinating Committee will tackle specific problems peculiar to their own spheres of activity.

Because of the national defense complexion of the committee activities, it was agreed that all de-

GATHERED for their first meeting as an entity of the Defense Communications Board on Jan. 6, following the DCB general organization meeting, are members of the Domestic Broadcasting Committee. Seated at front desks are (1 to r) Major Frank C. Meade, War Department; H. A. Lafount, president National Independent Broadcasters; John Shepard 3d, president, FM Broadcasters Inc.; Frank M. Russell, NBC Washington vice-president. At second row of desks are (1 to r) W. E. McFarlane, president, MBS; Louis G. Caldwell, MBS Washington counsel; Harry Butcher, CBS Washington vice-president; Virgil Graham, National Television Systems Committee, alternate for Dr. W. R. G. Baker, of GE and NTSC; Neville Miller, NAB president and chairman of the committee; H. P.

Corwith, Western Union Telegraph Co. At rear are (1 to r) Paul Porter, CBS Washington counsel; William D. Boutwell, Federal Radio Education Committeen Harvey Otterman, State Department; James Baldwin and W. G. H. Finch, Washington representative and president, respectively, of Finch Telecommunications Inc.; Andrew W. Bennett, NIB general counsel, and Edwin M. Spence, NIB managing director. Not in picture were G. L. Best, AT&T; E. W. Stone, executive vice-president, Postal Telegraph-Cable Co.; Andrew D. Ring, FCC assistant chief engineer and secretary of the committee; Dr. C. B. Jolliffe, RCA allocations engineer; Lowell Mellett, director, Office of Government Reports, and White House administrative assistant; Louis Pitcher, executive vice-president, U. S. Independent Telephone Assn.

iberations would be secret. Chairnan Fly will be the sole spokesnan. Since DCB has no Governnent funds, all of the committee nembers and their alternates pay heir own expenses. Meetings can be held wherever convenient for he particular groups.

Chairman Fly was elated over he full attendance at the organiation meetings and the enthusiasm with which the various groups unlertook their assignments. DCB nanded to each committee a tentative agenda. Temporary chairmen, selected from the Government Coordinating Committee, were named for each of the sessions, prior to the election of officers. Francis Colt deWolf, assistant chief of the Division of International Communication of the State Department, presided at both the Domestic Broadcast and International Broadcast sessions, as temporary chairman

Government committee members were instructed by DCB not to vote in the elections. In spite of that, Government men were selected as secretaries of a number of the committees, and in one case—Radio-communications—FCC Assistant Chief Engineer E. M. Webster was elected chairman.

Labor Members

Members of the Labor Advisory Committee, in addition to Chairman Watt, are Joseph P. Selly, of CIO, and Paul E. Griffith, of National Federation of Telephone Workers, who was named secretary. This membership was announced for the first time on Jan. 2. The functions of this committee, originally restricted to submission of "expert advice" on all labor problems, will be broadened to encompass additional functions. At a meeting late Jan. 6, the Labor Advisory Committee apparently convinced DCB that it could contribute considerably more to the work than originally outlined.

The important Industry Advisory Committee, of which David Sar-

Committee, of which David Sarnoff, RCA president, is a member, elected Walter S. Gifford, president

PRINCIPAL clearing house of the Defense Communications Board is its coordinating committee, made up of five Government experts and headed by E. K. Jett, FCC chief engineer. Duties of the coordinating committee include assistance to the DCB in planning and coordinating work, maintaining liaison with the Law Committee, Labor Advisory Committee and Industry Advisory Committee, and supervising the work of other committees reporting directly to it. In a huddle at their first meeting following the general organization session Jan. 6 are (1 to r) Maj. W. T. Guest, War Dept.; Comdr. Earl E. Stone, Navy Dept.; Comdr. J. F. Farley, communications chief, U. S. Coast Guard, Treasury Department; Francis C. deWolf, assistant chief of the Division of International Communication, State Department. Chairman Jett, attending the opening session of the Industry Advisory Committee, was not in photo.

of AT&T as its chairman. Dr. C. B. Jolliffe, RCA engineering executive and alternate for David Sarnoff, was named secretary.

The Telephone Committee named Z. Z. Hugus, assistant vice-president of AT&T, as chairman and Clyde S. Bailey, Washington representative of the Independent Telephone Assn. as secretary

phone Assn., as secretary.

E. R. Shute, vice-president of Western Union, was named chairman of the Telegraph Committee, with FCC Chief Accountant William J. Norfleet as secretary. C. Mills, president of the Mexican Telegraph Co., was elected chairman of the Cable Committee, with FCC Assistant General Counsel James A. Kennedy named secretary. The Radio-communications Committee, in addition to naming Assistant Chief Engineer Webster as chairman, appointed F. M. Ryan, AT&T radio engineer, as secretary.

George W. Bailey, president of the American Radio Relay League, amateur organization, was designated chairman of the Amateur Radio Committee, with Assistant Chief Engineer Webster as secretary.

Paul Goldsborough, president of

Aeronautical Radio Inc., was elected chairman of the Aviation Communications Committee and Ford Studebaker, chief of communications of American Export Airlines Inc., secretary. Capt. John Leonard, of the Michigan State Police, was chosen chairman of the State and Municipal Facilities Committee, with Col. E. L. White, FCC engineer, named secretary. The U. S. Government Facilities Committee is headed by L. H. Simson, of the Agriculture Department, with T. L. Bartlett, FCC attorney, as secretary.

Status Quo Assured

As far as broadcasting goes, repeated assurances have been given by high officials that there is no disposition to disturb the status quo. This may not be as true in the case of international broadcast operations, because that service is fraught with controversial aspects relating to propaganda and counter-propaganda activities of other foreign governments.

It has been emphasized again and again that the domestic broadcasting functions are limited, by

(Continued on page 52)

ARMY TO APPOINT TECHNICAL EXPERT

APPOINTMENT of a leading technical representative of the broadcasting industry—probably a top engineer of one of the larger operating companies—to the Advisory Council of the Army Signal Corps, will be made by Major Gen. Joseph O. Mauborgne, Chief Signal Officer, to aid him in the event of war or extreme emergency. The broadcasting representative would receive a high-ranking reserve commission in the Signal Corps. In time of war, the Army assumes control of internal communications, with broadcasting falling within that sphere. David Sarnoff, RCA president and chairman of the board of NBC, is a senior member of the Council, which represents communications.

David Sarnoff, RCA president and chairman of the board of NBC, is a senior member of the Council, which represents communications, broadcasting and motion pictures. Mr. Sarnoff is a colonel in the Reserve Corps. Western Union, American Telephone & Telegraph, Postal and the independent telephone industry also are represented on the Council.

From the motion picture industry, now preparing training and instruction films for the Army at cost, Gen. Mauborgne recently appointed Nathan Levenson, Warner Bros. vice-president, with a rank of colonel, and Darryl Zanuck, producer of 20th Century Fox, as a lieutenant colonel.

'Friday' Using 43

B-S-H Again Tops Agencies in Total Billings for 1940

Procter & Gamble Also Holds Lead in Sponsor Placement

FOR THE SEVENTH consecutive year, Blackett - Sample - Hummert leads all agencies in the amount of business placed on major networks. The agency's 1940 network billings amounted to \$12,108,788, nearly 41/2 million above the second agency.

Besides its network billings, B-S-H placed spot business amounting to \$2,440,046, bringing total placement of the agency to \$14,548,834 or 16% above its 1939 fig-

B-S-H was the leading agency in time placements on NBC networks in 1940, placing \$9,564,419 to lead all agencies in NBC billings. On CBS its billings totaled \$1,959,603 to put it in sixth place on that network. MBS billings by B-S-H were \$584.765 ton figure for the net \$584,766, top figure for the network.

Compton Adv. was second in NBC billings with \$4,392,855, followed by J. Walter Thompson Co., \$2,972,116; Lord & Thomas, \$2,454,059; Young & Rubicam, \$2,134,921. Leading CBS agency was Benton & Bowles with \$5,928,983, followed by Puthernet & Brone & 155,125

by Ruthrauff & Ryan, \$4,569,185; Young & Rubicam, \$4,362,245; Ward Wheelock Co., \$3,344,475; BBDO, \$2,063,012.

On MBS leading agencies after B-S-H were Ivey & Ellington, \$510,-949; R. H. Alber Co., \$421,421; Erwin, Wasey & Co., \$270,831; J. Walter Thompson Co., \$266,977.

P & G Leads Sponsors

As usual Procter & Gamble Co. was the leading advertiser in place-ment of network business, accordment of network business, according to NBC and CBS figures plus partial MBS data. The P & G total for 1940 was \$10,999,416. In second place was General Foods with a combined NBC and CBS total of \$5,887,349. Other leading sponsors in point of business placed or NBC \$5,887,349. Other leading sponsors in point of business placed on NBC and CBS were Sterling Products, \$5,875,826; Colgate-Palmolive-Peet Co., \$4,334,222; Campbell Soup Co., \$4,044,389; Liggett & Myers Co., \$3,356,713; General Mills, \$3,139,652; Lever Bros. Co., \$3,056,922; Brown & Williamson Tobacco Co., \$2,972,755; American Tobacco Co., \$2,219,421; R. J. Reynolds Co., \$2,127,609. 127,609.

The leading MBS advertisers for 1940 were: Wander Co., \$526,026; Bayuk Cigars, \$510,949; Gospel Broadcasting Assn., \$402,232; General Cigar Co., \$343,681.

New Socony News

SOÇONY-VACUUM Oil Co., New York, continuing its policy of buy-ing news periods on New England and eastern stations, is starting the following news programs: One 5minute and two quarter-hour spots daily on WHEC, Rochester; two 5minute, one 10-minute, and one 15minute period daily on WDEV, Waterbury, Vt.; two 5-minute, and two quarter-hour periods daily on WKNE, Keene, N. H. More stations are expected to be added, according to J. Stirling Getchell Inc., New York, agency handling the account.

Nationwide Wire Is Opened by UP

Exclusive Radio Facilities Permit Improved Service

A TRANSCONTINENTAL wire for the exclusive transmission of radic news was opened Jan. 5 by the United Press. Formerly the UP ra-dio wire was divided into two sections: An eastern wire which ended at Hutchinson, Kan., and a West Coast wire originating in Sacramento and serving the entire Coast from there.

In its announcement of the coastto-coast radio wire, described as the first in the history of radio, the press service says the installation has increased service to western stations from 16 hours a day, six days a week, to 20 hours a day, seven days a week.

Western stations now get all ten of UP's special radio features, in-stead of only two as formerly. News breaking in the East or in Europe can now be flashed directly to western stations, or news from the West Coast directly to eastern stations, without reprocessing or delay, the announcement states, adding that many stations for the first time now have available news written and edited exclusively for broadcasting. The wire extends UP radio facilities into 43 States.

Ahead of Schedule

Described as a goal sought for three years, the coast-to-coast radio wire has become a reality through wire has become a reality through special emphasis given the project by Hugh Baillie, UP president, E. M. Williams, sales manager, and A. F. Harrison, radio sales manager. Wires were spliced (without ceremony, says the announcement) Jan. 5, on which date UP opened new radio news bureaus in Denver and Salt Lake City and increased radio facilities and personnel in its radio facilities and personnel in its bureaus in Kansas City, Portland, Ore., and Los Angeles.

Announcing the new circuit as "the most important development in the history of news to radio," Mr. Harrison said "the new transcon-tinental merger of our radio wires assures faster and more complete news and news features coverage throughout the nation, particularly because of the longer hours of operation of the entire circuit.

Results of News Survey

"Actually, this project is being completed considerably ahead of schedule, due to the acquisition of new clients. Consequently, this phase in the development of our general plan is possible perhaps a year earlier than we anticipated."

A recent survey conducted by UP on the use and sponsorship of its ten features revealed that some stations are paying the entire cost of their news wire service through the sale of these special programs. Tabulated results were:

FCC's HANDS-OFF MUSIC POLICY

Fly's Reply to Musicians' Committee Indicates -Attitude on Situation Will Be Continued-

THAT THE FCC proposes to continue its "hands off" policy in connection with the music copyright fight was indicated Jan. 3 by FCC Chairman James Lawrence Fly, who feels there is reason to believe that the Department of Justice anti-trust proceedings against AS anti-trust proceedings against AS-CAP and segments of the industry responsible for establishment of BMI "may remove any unreasonable restraints which now exist within the musical copyright field and the radio broadcast industry".

Responding to a letter from Douglas Moore, secretary of the Musicians Committee which recently sent to the FCC 7,000 petitions asking for intervention in the controversy, Chairman Fly asserted that the information will be "care-fully considered if the occasion arises when such is pertinent". He gave to Mr. Moore the same answer given recently to E. Frank Hum-mert, vice-president of Blackett-Sample-Hummert, when he sought FCC mediation in the controversy. Mr. Fly pointed out that the dispute has not been presented to the Commission by any of the interested parties and that consequently "no position has been taken with respect to that controversy".

Under the circumstances, he said, "it would be unwise for the Commission to express any opinion as to the relative merits of the claims of the parties involved".

Four Brooklyn Stations Agree on Merger Plan

HAVING terminated some eight years of litigation in the so-called "Brooklyn cases", the four stations in that New York borough on Jan. 10 formally announced signing of agreements whereby they would be consolidated into a single fulltime outlet. Each of the present station owners would hold a 25% interest in the consolidated station, and an application will be filed with the FCC in the immediate future.

The four stations are WLTH, WARD, WBBC and WVFW. They divide time on the 1400 kc. channel, each using 500 watts. Under the agreements, Rabbi Aaron Kronenberg, owner of WARD, will become president of the consolidated operation. Peter Testan, owner of WBBC, will be vice-president; Sam Gellard, WLTH, secretary; Salvatore D'Angelo, WVFW, treasurer. A manager will be retained.

Noble Planning Legal Action As Flamm Operates WMCA

FCC Denies Flamm Petition to Cancel Grant of Transfer, Describing It as Merely Consent

REBUFFED by the FCC in his efort to cancel his sale of WMCA to Edward J. Noble, head of the Life Savers Corp. and former Government official, Donald Flamm is still operating the New York independent station, though signs point to its transfer, either voluntarily or as a result of litigation.

Mr. Noble already has announced his plans to institute legal action in New York for specific performance of contract, under which he agreed to buy WMCA for \$850, 000. The transfer was to have been effected Dec. 31, but Mr. Flamm declined to deliver title after having made oral charges of coercion.

Unless title to the station is transferred shortly, it is indicated Mr. Noble will file with the FCC an application for the WMCA facilities under provisions of the law which permit any qualified citizen to apply for another station's assignment on a public interest showing. Should this course be followed, it is presumed the purchase contract would be dropped, since it is alleged on Mr. Noble's behalf that the contract already has been breached.

Permissive Consent

The FCC in a formal opinion Jan. 8 denied the petition filed Dec. 23 by Mr. Flamm requesting it to cancel the authorization previously given for the transfer of the station to Mr. Noble. The Commission, in a unanimous opinion, with Commssioner Craven not participating, concluded that the matter is one of "private contractual arrangements between the parties". It pointed out that it approved the transfer on Dec. 17 at the request of both parties and that this was not a man-datory order, "but is a permissive consent to the proposal contained in the application".

Under FCC rules, the authorization for transfer does not terminate until 30 days after the FCC action of Dec. 17. Consequently it is presumed that if the title to the station is not transferred by Jan. 17, Mr. Noble will proceed both in the New York courts on specific performance of contract and before the FCC on an application for the choice WMCA facilities — 5,000 watts day and 1,000 night on 570 kc.

Mr. Noble announced Jan. 8, following the FCC's denial of the Flamm petition that he was gratified to learn that the Commission again had found him to be a satisfactory licensee for WMCA. Mr. Noble said he was mindful of the public trust imposed in the operation of a broadcasting station and that "when this contract is carried out and control of the station has been transferred to me, I shall not forget my obligations in that respect."

The sales contract was consummated in latter November, and the FCC approved the transaction Dec. 17 when the parties petitioned it for expeditious action because of the desire to complete the transfer prior to the end of the year. A provision in the contract specified that if it were not consummated by Dec. 31, 90% of the additional taxes which might accrue after Jan. 1 would be assumed by Mr. Noble.

This provision, it now is contended, no longer applies since the FCC had approved the deal before the end of the year and Mr. Flamm had failed to carry through. The \$850, 000 purchase price was understood to have been a "bare bones" price with accounts receivable and other items left with Mr. Flamm. The aggregate consideration, it is estimated, would total \$925,000.

Tax Provision

Reports of a Congressional inquiry and of other dire developments in connection with the transaction, emanating largely from WMCA officials, failed to materialize. Some questions were asked about the transaction during the hearing Jan. 8 of the FCC before the House Subcommittee on Appropriations, but nothing approaching a controversy developed.

In its formal opinion Jan. 8 the FCC said that Mr. Flamm's sole complaint appeared to be that the Commission acted upon the merits of his application without awaiting a response from him as well as from Mr. Noble to its communication of Dec. 13 seeking additional financial information. It said that on Dec. 14 it received a response from Mr. Noble's counsel, William J. Dempsey and William C. Koplovitz, to its inquiry of the preceding day and that no such reply had been received from Mr. Flamm. After the receipt of the information from Mr. Noble, the Commission felt it had all the data it needed, and consequently acted favorably on Dec.

Regarding the Flamm complaint on the Dec. 13 request, the Com-mission said it appeared that his intentions were to "ignore the Commission's request for information and to petition the Commisson to dismiss the application without giving any consideration whatever to its merits".

Greenwood, S. C. Local

FIRST new station grant of 1941 was authorized by the FCC Jan. 7 to Grenco Inc. to operate a local in Greenwood, S. C., with 250 watts on 1420 kc. President and treasurer of the new corporation is Douglas Featherstone, a local attorney, who is 80% stockholder. C. A. Mays, also an attorney, holds the remaining 20% and is vice-president and secretary. It is the community's

LONG flight of 3,000 miles, Los Angeles to New York, was taken in early January by Van C. Newin early samuary by van C. New-kirk, Don Lee program director. Newkirk attended the first regular program directors' meeting held by MBS.

Ideas for Improvement Of Programs Submitted As MBS Holds Session

PROBLEMS on general program operation were discussed Jan. 7-8 by a group of MBS program directors meeting at the Hotel Ambassador, New York. It was the first in a series of such meetings planned to make specific recommendations regarding network program improvement. Ideas will be passed on to the Mutual board of directors and operating board for ratifica-

It was unanimously agreed to broadcast MBS educational programs on scattered schedules pre-sented five days a week as a full hour strip. Emphasis on individual station special events that could be fed to the network was urged. Problems relating to international broadcasts, varied time zones, physical network facilities, and generalized patterns for network identifications were clarified. These suggestions will be submitted to the Mutual board when it meets Jan. 23.

Jan. 23.

Those attending were: Van Newkirk, Don Lee Network; Russell Richmond, WHK-WCLE, Cleveland; Madeline Ensign, WOL, Washington; Herbert Rice, WGR-WKBW, Buffalo; Clifton Daniel, WCAE, Pittsburgh; George Steffy, Colonial Network; Frank Schrieber, WGN, Chicago; Julius F. Seebach and John S. Hayes, WOR, Newark; Brad Simpson, WKRC, Cincinnati; Campbell Ritchie, CKLW, Windsor-Detroit; Don Pontius, Mutual, Chicago, and MBS officials in New York. Adolph Opfinger, MBS program manager, presided. gram manager, presided.

Plan Swan Spots

LEVER BROS. Co., Cambridge, Mass., in an official announcement, confirmed the appointment of Young & Rubicam, New York to handle Swan, a new white floating soap. An extensive campaign has been planned, said to be one of the largest in recent years on behalf of a new product. While the agency has refused to disclose any of its plans, it is understood that spot announcements are being placed on approximately 70 stations.

3 STATIONS GIVEN 5 KW. NIGHT POWER

ALREADY enjoying improved coverage by virtue of location, frequency and conductivity charac-teristics, KFYR, Bismarck, N. D., is expected to increase its secondis expected to increase its secondary coverage job through an action by the FCC Jan. 7 giving it a boost in power from 1,000 to 5,000 watts at night. The authorization is in line with engineering standards under the Havana Treaty. KFYR operates on 550 kc. and will have a directional entance of night. use a directional antenna at night.

Accorded similar power increases were KDYL, Salt Lake City, and WKBH, La Crosse, Wis. KDYL was given an increase to 5,000

was given an increase to 5,000 watts fulltime on 1290 kc., using a directional both day and night. WKBH, on 1380 kc., will install a directional for night use. WJMC, Rice Lake, Wis., was granted a modification of license to change hours of operation from daytime to unlimited, using 250 watts on 1210 kc.

Bulova Budget Increased Third After Record Year

BULOVA WATCH Co., New York, will increase advertising expenditures from \$1,500,000 in 1940 to \$2,000,000 in 1941, Milton H. Biow, president of Biow Co., New York, told salesmen of the watch firm at the anual sales meeting Jan. 8-15. In 1940 Bulova sponsored 8-15. In 1940 Bulova sponsored 337,059 time signals on 202 stations, Mr. Biow said, discussing placement of signals adjoining popular programs. He said dealers are encouraged to tie-in the signals with other promotion. The 1941 radio schedule will be even more extensive than that last year. John H. Ballard, Bulova president, said 1940 was the most successful year in Bulova history. "No small part of the year's gains are

small part of the year's gains are due to the company's program of year-round advertising," he told the Bulova salesmen.

Noxzema Quiz Program Covers Dallas-Ft. Worth

According to Ruthrauff & Ryan, New York, agency in charge, the following cities and stations will be added later in January: KFRC, San Francisco, and KHJ, Los An-geles; WNAC, Boston, and WEAN, Providence; and WICC, Bridge-port, Conn., and WTIC, Hartford. Gunther Brewing Co., Baltimore, also headled by Ruthrauff & Ryan.

also handled by Ruthrauff & Ryan, has been sponsoring the program for the past year on WFBR and WMAL for the Baltimore-Washington area.

THE YEAR 1940 has been the greatest in the 29-year history of Ruthrauff & Ryan, New York, surpassing the top years of 1929 and 1937, according to a report released by the agency.

Trend to More Listening Found by CAB

Little Change Noted in Ranking of First 10 Programs; Art of Programming and Station Selection Advances

By A. W. LEHMAN Manager, Cooperative Analysis of Broadcasting (CAB)

REVIEW of the year's changes in rank of the ten leading programs made by the Cooperative Analysis of Broadcasting revealed but three shows among the first ten in December, 1940, that weren't among them in the last month of 1939. The newcomers were The Aldrich Family, Kay Kayser and One Man's Family. The programs which dropped from the ranks of the leaders to make room for them were Kraft Music Hall, Fitch Band-wagon, and Pot o' Gold. This relative consistency contrasted with the record of the previous year when there were five newcomers among the first ten.

New Leader

In December, 1940, the two leading programs were the same as a year earlier, but they had changed places. Chase & Sanborn, after changing from a full hour to a half-hour yielded the leadership to Jack Benny by a small margin. In third place were Fibber McGee & Molly who, in the preceding year, had risen sensationally from 16th to fourth spot. Lux Radio Theatre held fourth place at the close of 1940, having dropped from third place in the twelvemonth. Next was Bob Hope who rose from seventh to fifth. He had been one of the newcomers of 1939.

Most sensational of the novices of 1940 was the Aldrich Family, which wound up in sixth position after being in 40th place a year earlier. Kate Smith continued to do well during the year following her appearance among the charmed circle of ten in 1939 for the first time in her long career. In December, 1940, she ranked seventh. ber, 1940, she ranked seventh. Eighth place was captured by Major Bowes, marking his sixth consecutive year among the leaders. He had placed sixth in December, 1939. Another new face, Kay Kyser, took ninth place. He ranked 12th a year before. One Man's Family finally joined the leaders in mid-

5.0 - 9.9	30	28.0	36	37.2	36	39.2	
0.0 - 4.9	7	6.3	11	11.3	14	15.2	
							
Total	108	100.0	97	100.0	92	100.0	

placing tenth compared with 13th twelve months earlier.

None of the three programs which failed to hold the pace left the air. They were merely too hard pressed. Between December, 1939, and December, 1940, Kraft Music Hall fell from fifth to 12th place, Fitch Bandwagon from eighth to 11th and Pot o' Gold from tenth to 57th. The career of the latter show had been decidedly meteoric.

In 1940 most of the gaps that had been previously noted among the ten leaders' ratings had been closed or considerably lessened. The two leaders still had a comfortable lead over the third place show, but it no longer appeared insurmountable. Any of the remaining seven shows could easily gain a rung or two within the space of a month.

Table I is based on December, 1940, 1939 and 1938 and shows the distribution of sponsored, evening, network programs according to their ratings. Several trends observed in 1939 apparently continued. The amount of listening increased. Cutting of several leading programs in half made more good time available, lessened competition for the listener's ear at certain choice hours, thus bringing about

a larger number of well rated programs.

The art of programming and of time and station selection continued on a high plane aided to a large degree by improvements made during the year in the CAB. Upon this and other fact-finding organizations, sponsors and their agents lean heavily. The hunger for news which was noted a year ago con-tinued unabated and as the war developed from a Sitzkrieg into a true Blitzkrieg the public turned more and more to the radio for latest reports. There is considerable indirect evidence that the vast amount of listening to news programs accounted for many mentions for programs immediately preceding or following them.

The Ten Leaders

In December, 1940, the ten leading evening programs were:

1. Jack Benny

2. Chase & Sanborn

3. Fibber McGee and Molly
4. Lux Radio Theatre
5. Bob Hope

6. The Aldrich Family

7. Kate Smith Hour

8. Major Bowes Amateur Hour

9. Kay Kyser

10. One Man's Family

Popularity Shifts in 1940

During the year 1940, Jack Benny was on the air eight months. Most of that period he ran a nip and of that period he ran a hip and tuck race for first place with the Chase & Sanborn program, but yielded only in May. He had jumped ahead slightly in January when Chase & Sanborn changed from a full hour to a half hour. At the year end, Benny was pulling away a bit.

Chase & Sanborn, off the air only in July and August, was consistently in second place except for May and two months of June and September when Benny was off the air. In those months the show captured top position. The May achievement was probably aided by the advent of daylight saving. It is interesting to speculate on what would have happened if both shows had remained during the entire summer.

Fibber McGee was quite consistent, starting at fourth in January and February, third in March and April, dropping to fifth in May and June. He and Molly returned from vacation to take fourth place again in October and November and rose to third once more in December.

They Fluctuate

Lux Radio Theatre fluctuated with the popularity of its stars and plays. Its course was as follows: Fifth in January, third in February, fifth in March, fourth in April, sixth in May, second in June, off the air in July and August, second in September, third October and November and fourth in December.

Bob Hope gained substantially Bob Hope gained substantially during the year. He ran eighth in January, seventh in February, sixth in March, ninth in April, fourth in May and after a long vacation, ran fifth in the last three months of the year.

The Aldrich Family was highly unstable and skyrocketed during the course of the year. It evidently gained from a shift in network and from remaining on the air during the summer, thereby gaining audibility. Other shows in the past have also come into their own during the summer, such as One Man's Family, The Hit Parade, and Kay Kyser. The Aldrich Family started the year in 34th position, then ran 24th, 27th, 26th, 25th. The show was not rated for June, due to time and network changes, but showed up in fifth place in July. The last two weeks in June, the Aldriches had been in Jack Benn's spot, which may have had something to do with the sudden jump in the rating. Then they ran eighth, sixth, 11th, 12th and made a remarkable spurt to take sixth in December.

Major Bowes showed flashes of his old-time form. He started the year a poor eleventh, rose to tenth in February, ninth in March and sixth in April, dropped back to eighth in May but was in the money

II-Monthly Rankings of the 11 Programs Which Were Among the Five Leaders for Any One Month During the Year Ending December, 1940

NOTE- Each program type has been allotted the number of hours which all programs in that type represent. The chart is based on the table of program types. Fifteen-minute programs five times a week rate as 1% hours per week, 15-minute programs 3 times a week % hour, etc.

in third spot in June. With the first five shows enjoying vacations in July and August, the clock was turned back to 1937 when the Major consistently led the parade. He passed One Man's Family and Kraft Music Hall which had been ahead of him earlier in the year. With the return of three of the leaders in September, the Major placed fourth then, taking seventh in October and November and eighth in December.

Kay Kyser was in and out of the leaders throughout the year. Month by month he ran as follows: Sixth, ninth, tenth, eighth, seventh, seventh, third, second, fifth, 13th, 11th, ninth.

One Man's Family was consistently among the leaders for the first time in a long career. After starting at tenth, the show placed eighth, seventh, seventh, tenth, third, sixth, fourth, third, ninth, eighth, tenth.

Kraft Music Hall started at a strong third in January, winding up much lower in the fall. After January the month-by-month record, was fifth, fourth, fifth, third eighth, second, fifth, 12th, 20th, 17th, 12th. In the first part of the year the show had little competition but in July it changed to the spot opposite Major Bowes. Bing Crosby was absent from the middle of August to the middle of November.

Your Hit Parade was among the

Beyond ASCAP

INTERESTING outgrowth of the ASCAP-BMI controversy was a package recently sent to WPTF, Raleigh, N. C., by one of its listeners. The package contained three old volumes of some 225 musical selections, with copyrights dating as far back as 1850. The lady listener explained she had heard of the BMI-ASCAP dispute and was sending to the station the whole ing to the station the whole bundle of music, which had been in her family for years and over which she knew ASCAP had no control.

leaders only during the summer months, placing tenth in June, fourth in July, third in August and seventh in September. The rest of the time it ranged from 12th to 19th. This show has always been subject to extreme fluctuations.

Leading Daytime Programs The leading daytime shows in December, 1940 were:

on the Air

- 1. Ma Perkins

- Pepper Young's Family
 Vic and Sade
 Life Can Be Beautiful 5. The Woman in White
- 6. Mary Marlin
- 7. Right To Happiness
- 8. Stella Dallas
- 9. Our Gal Sunday
- 10. Road of Life

In December, 1939, the ten daytime leaders had been:

- 1. Ben Bernie
- 2. Ma Perkins
- Hobby Lobby
 Pepper Young's Family
- 5. Vic and Sade
- 6. The Guiding Light
- 7. Mary Marlin
- The Woman in White
- 9. Stella Dallas
- 10. Goldbergs 10. Road of Life

Perhaps most interesting is the

fact that all ten leaders this past December were five-a-week quarterhour serials. None of the Saturday or Sunday half-hour shows of various descriptions could make the grade. Truly significant of the grip of these homely serials is their consistency year in and year out. The old stand-bys keep about the same rank year after year despite the fact that ratings of daytime programs are more closely bunched. Also of interest is the fact that a single manufacturer, Procter & Gamble, pioneers in presenting multiple daytime serials, sponsored the first seven as well as the tenth ranking show.

Newcomers to the first ten were three in number, Life Can Be Beautiful (which did amazingly well to attain fourth place), Right to Happiness and Our Gal Sunday. Leaders of December 1939 but not 1940 were Ben Bernie who changed to an evening hour, Hobby Lobby which left the air and the Goldbergs.

Taking only the serial dramas for the month of December, Ma Perkins has led for the past three years, Pepper Young's Family placed second in 1939 and 1940, Vic & Sade third in both years and Road to Life tenth in both years.

Sets in Use

The percentage of sets in use at some time during the day had fluctuated very little for some years before the outbreak of present hostilities abroad. For the period from October, 1935, to April, 1940, the low point for the average week-day was reached in July, 1936, at 56.8%. The pre-war high was attained in February, 1937 at 73.4%. Starting with September, 1939, when the war broke out, each monthly figure set a new record for the corresponding month since October, 1935. This trend continued until April, 1940, which failed to better the figure of April, 1938. The all-time high for the average week-day was 76.9% in January, 1940.

Sunday listening shows wider fluctuations than week-days, largely due to outdoor recreation in the summer time. But the trend to greater listening was equally pronounced on this day. In August, 1937, a mere 45.3% of set owners tuned in their sets. This low-point was not even approached in subsequent summers. From July, 1939 there was a steady, month-by-month rise from 56.9% to a new high of 78.3% in January, 1940.

During the standard time period, listening is about 11% greater than during daylight saving time.

Gain in News Audience

The CAB made a special comparison of listening to all news programs, sponsored and sustaining, during the winters of 1939-40 and 1938-9, on Wednesday nights. The national average rating for such programs broadcast between 5 and 8 p.m. (EST), increased 39% from 14.1 to 19.7. For the later hours (8-12 o'clock) on the same night of the week the increase in the rating was even greater, 55% or from 9.7 to 15.1. It appears that in times of emergency people seek late evening news from the radio to sup-

COMMENTATORS congress convened in the House of Representatives restaurant on opening day of the 77th Congress Jan. 3. Pictured by alert WRC-WMAL lensman in the usual order are thought-molders Bauklensman in the usual order are thought-moiders baukhage, NBC; John B. Hughes, Don Lee network; Stephen McCormick, MBS-WOL, Washington; Albert Warner, CBS; Fulton Lewis jr, MBS; H. V. Kaltenborn, NBC; Dorothy Rockwell, WQXR, New York;

Earl Godwin, NBC. Questions before the House included problem of obtaining adequate synonym for "I was told today on the highest authority". Conclave was arranged to debate synonym problem as well as others of mutual concern to the "fingers on the pulse" boys. Possible outgrowth of this impromptu session may be a commentator group to consider knotty problems that they sometimes face individually.

plement their evening newspapers more than in ordinary times.

In December, 1939, the average rating of four sponsored network news programs was 9.6%. A year later the figure for seven such programs was identical. This represents a substantial increase in the audience of such presentations. The old favorites, like Lowell Thomas increased their ratings considerablv.

In the summer of 1939, news and commentators took up 7.5% of sponsored network time compared with 11.9% in 1940. In 1939 this program type ranked ninth out of ten with an average rating of 5.0 compared with a ranking of ninth out of nine with an average rating of 5.4 in 1940. In per cent of time, the type ranked seventh in 1939 and fourth in 1940.

Geographical Areas

Very little difference in listening by geographical areas is evident except for the Pacific Coast, where there are substantially more sets in operation during the early evening hours due primarily to differences in time and the fact that the most popular programs are scheduled on eastern time.

Special Events and Sports

During the year 1940 the CAB continued its custom of issuing ratings from time to time on public events of outstanding interest. 1940 was most prolific in this respect. with a heated political campaign and all the fanfare that goes with it. The audiences of many of the candidates were reported by the CAB during the fall. Also during the year there were numerous reports on sports broadcasts and other national and international events.

President's Addresses

The Jackson Day Dinner address on Jan. 8 attained a rating of 25.2%, bettering the President's rating of 16.7% on the same occasion in 1939. Both were below his mark of 32.6 in 1936.

In a broadcast from Washington over the three major networks 2-2:30 p.m. on Thursday, May 16, the President was reported heard by 22.8% of the set owners interviewed.

His address at Charlottesville,

THEY TRIED RADIO And Carbon Coal Co. Sales -Made 20% Increase-

YOU can't sell coal door to door, and Carbon Coal Co., Des Moines, wasn't satisfied with the results of other sales methods. So it tried radio early in 1940, using Gene

Shumate's Sports Slants on KSO.

Says B. C. Holm, Carbon Coal
v-p: "Almost immediately we began receiving both telephone and personal orders or inquiries about our various grades of Iowa and Eastern coal."

When fall rolled around an intense evening announcement schedule was worked out over both KSO and KRNT.

And here's what happened: "Carbon Coal Co. used no other coal advertising during the 1940 seasons and when the year ended retail coal sales were up more than 20% over the same months in 1939. While 1940 was a better hearing year in general than 1939, it was only 5% better, the other 15% increasing in sales coming from ra-dio."

Carbon's agency is Son de Reg-ger & Brown Adv. Agency, Des Moines.

Va., on June 10, in which he denounced Italy's entrance into the war, produced a rating of 45.5% the highest rating ever recorded by the CAB for a speech of any kind. It was carried by four networks.

Other Events

The ceremonies attendant upon the opening of Congress Jan. 3. 1940, were heard by 16.1% of the radio owners, comparing closely with the figure 16.3 a year earlier.

The late Neville Chamberlain, in a trans-Atlantic broadcast on Jan. 9. was rated at 13.

Col. Charles A. Lindbergh was rated at 7.7 in a broadcast by CBS on May 19.

The speech of King George VI, picked up by the major networks at 1 p.m. Sept. 23, was reported by 7.2% of the set owners interviewed.

The Political Campaign

The political fight officially opened with the Republican National Convention in June. On Monday, June 24, 25.2% of the radio

homes were tuned to the broadcast and on Tuesday, June 25, 27.3%.

The Democrats held their convention in July. On Monday, July 15, the rating was 24.0 and on the next day, 32.9 including mentions for the address of Senator Alben W. Barkley. During the day it had been announced that he would deliver a message to the Convention on behalf of the President.

The acceptance speeches of the Republican nominees were also reported by the CAB. Willkie's speech, broadcast from Elwood, Ind., over all four national networks attained the highest rating recorded for a political speech in the ten years of the CAB's re-search. 37.8% of the questioned owners of radio receiving sets reported having heard the G. O. P. candidate in their homes. In 1936, Alfred M. Landon's speech broadcast from Topeka, Kan., rated 28.5.

17.3% of set owners reported hearing Senator Charles L. Mc-Nary's acceptance address on Aug. 27. The major part of the ceremonies was carried by Mutual, NBC-Red, and CBS.

On Sept. 20, the President's address from Philadelphia, aired over CBS, NBC-Blue and Mutual, rated only 8.9%. The speech was made at 4 p.m. on a Friday.

Political Resume

The closing political speeches came thick and fast. Here is a resume of them:

Oct. 28th — President Roosevelt from Madison Square Garden at 10 p.m., (NBC Red & Blue), 36.4; Wendell L. Willkie from Louisville, at 10:30 p.m. (Columbia),

from Louisville, at 10:80 p.m. (Columbia), 16.5.
Oct. 29 — Wendell L. Willkie from Charleston, W. Va., at 10:30 pm. (NBC Red), 20.7; Joseph C. Kennedy from New York City at 9 p.m. (Columbia), 19.2.
Oct. 30 — President Roosevelt from Boston at 10:15 p.m. (NBC Red, Columbia), 38.7; Dorothy Thompson from New York at 8:30 p.m. (Columbia), 11.7.
Oct. 31—Wendell L. Willkie from Camden, N. J., at 8:30 p.m. (Columbia), 11.7.
Nov. 1—President Roosevelt from the Academy of Music, Brooklyn, N. Y., at 9:00 p.m. (NBC Red, Mutual), 37.3; Cordell Hull from Washington at 9:45 p.m. (NBC Red & Blue), 18.8.
Nov. 2—President Roosevelt from Cleveland, at 9 p.m. (NBC Red, Columbia), 37.0; Wendell L. Willkie from Madison Square Garden at 10:15 p.m. (NBC Red & Blue, Columbia & Mutual), 30.6.
Generally, the President spoke over two or more networks, while

over two or more networks, while Mr. Willkie spoke over one network. On Saturday night the Presi-

AND ALL OKLAHOMA LOVES ELSIE AND ELMER

While most stations are still silent and others are sandwiching bulletins by a sleepy-voiced announcer between transcriptions, WKY is on the air with "Sunrise Roundup," claiming the attention of thousands of Oklahoma farm families with some of the liveliest entertainment of its broadcast day.

"Sunrise Roundup," a WKY-produced feature, broadcast daily from 6:00 to 6:30 a.m., combines the continuity of a day-time strip with the personal loyalty of a rural show. Elmer Putter is wooing Li'l' Elsie, typical 1941 streamlined model farm kids, in typical rural fashion . . . an Aldrich Family with an Oklahoma background. It is fast-moving and sparkling

with vocal and instrumental music and, in addition, incorporates all the news and information of prime interest to rural folk.

Within a few weeks, more than 8,000 requests for the program's original signature song were received.

Behind "Sunrise Roundup" are WKY's superlative production facilities and the full force of its statewide exploitation. It is definitely on the way up and a real opportunity for a sponsor to gain for his product the friendship and loyalty of many thousands of rural Oklahomans.

"Sunrise Roundup" is available for sponsorship in quarter-hour units either three or six times per week. Write or wire for prices and availabilities.

Action by Networks Forecast On Hitch-Hike Announcement

Advertisers Soon to Be Approached on Subject, Says Rosenbaum, Reviewing IRNA Action

ACTION by the major networks to restrict so-called "hitch-hiker" announcements early this year was predicted by Chairman Samuel R. Rosenbaum of Independent Radio Network Affiliates and president of WFIL, Philadelphia, in a Jan. 2 report to the membership.

| Elaborating on the results of conferences of IRNA network negotiating committees with NBC and CBS, Mr. Rosenbaum said that both networks had confirmed their intentions with regard to such announcements and that advertisers soon would be approached.

The NBC negotiating committee is made up of Martin Campbell, WFAA-WBAP-KGKO, Dallas-Fort Worth; Edwin W. Craig, WSM, Nashville; Paul W. Morency, WTIC, Hartford; George W. Norton Jr., WAVE, Louisville; Mr. Rosenbaum. They met with President Niles Trammell, Vice-President Mark Woods and Vice-President and General Counsel A. L.

Ashby.

The CBS negotiating committee comprises Messrs. Don Elias, WWNC, Asheville; Mark Ethridge, WHAS, Louisville; I. R. Lounsberry, WGR-WKBW, Buffalo. They conferred with Edward Klauber, Executive Vice-President; Paul W. Kesten, Administrative Vice-President, and M. R. Runyon, Stations Vice-President.

Plans of Network

"NBC confirmed its intention to carry out, as soon as practicable after Jan. 1, 1941, the commitments previously given to IRNA with regard to restrictions on the so-called hitch-hiker announcements, to the effect that NBC would approach certain of its clients with the request that they bridge their hitchhiker announcements with theme music so as to make them appear as part of the previous program period, and that where sponsors have been producing both a trailer and a following spot in the stationbreak, every effort will be made to induce sponsors to use only one, and to produce that under the procedure just outlined," Mr. Rosenbaum reported.

"Evidence was also submitted of the success with which NBC was meeting in its program of reducing the length of continuities in both sustaining and commercial programs, especially in regard to motion picture promotions. Action was deferred until a subsequent meeting on certain modifications of network practices which IRNA expects to obtain, but which are possibly covered by portions of the proposed network regulations now under discussion by the FCC."

CBS likewise confirmed the commitments with regard to hitchhiker announcements, Mr. Rosenbaum reported. It was also agreed that CBS would recognize and rename its merchandising service,

against which complaint had been registered. Hereafter it will be known as a program promotion department, he reported, the fundamental purpose of which is to be the stimulation of programs on CBS in which cooperation of stations would be requested in special cases. In every case the individual station operator will determine to what extent he should go in pro-gram promotion. The IRNA committee, according to Mr. Rosenbaum, expressed its entire satisfaction with these decisions.

New Armour Series

ARMOUR & Co., Chicago (Treet), on Jan. 20 drops Your Treat and replaces it with a thrice-weekly quarter-hour musical variety program Treet Time on 46 stations. Buddy Clark will act as singing star and m.c. on the program which will feature Frank Kettering and his orchestra and Marie Gifford, Armour's home economist, who will present helpful hints to housewives. present helpful hints to housewives. WPTF Tests 50 kw.

WPTF, Raleigh, according to an announcement by Richard H. Mason, general manager, will be ready for 50,000-watt operation the end of January. With the new Westinghouse-equipped 50 kw. transmitter plant completed and two 370-foot Blaw-Knox towers erected, the sta-tion is now conducting tests. Early engineering estimates show that the station's 5-10 millivolt contour will stretch out 30 to 40 miles more.

Uniting its eastern and western radio wires on January 5, United Press created for the first time in radio history a coastto-coast news wire for radio exclusively.

Simultaneously United Press established new radio news bureaus at Denver and Salt Lake City, added substantially to its radio facilities in the Portland, Oregon; Los Angeles and Kansas City bureaus.

With a single great network now spanning the nation, United Press offers newscasters the fastest, fullest news service in radio.

President Approves Selection Of Kirby for Army Radio Post

NAB Public Relations Director to Serve During Crisis at Liaison to Handle Broadcasting

WITH APPROVAL of President Roosevelt, the War Department Jan. 7 announced the appointment

Mr. Kirby

of Edward M. Kirby, director of public relations of NAB, as expert in broadcasting for the Army on a "dollar-a-year" basis. In his new post, which he is expected to take over about Feb. 1, Mr. Kirby will handle radio liaison for the public relations branch

of the Army, with emphasis on programming and morale-building work.

Predicted by BROADCASTING several months ago [BROADCASTING, Oct. 15], the Kirby appointment will be for duration of the emergency. He will take a leave of absence from the NAB, and presumably will devote full time at the outset to the Army work. Later on, it is presumed, he will be in a position to divide his time between the trade association and the War Department headquarters in Washington.

Takes Oath

A graduate of Virginia Military Institute in 1926, as a second lieutenant, Mr. Kirby originally was slated for reinstatement in the Army reserve with rank of major. Subsequently, however, it was decided to create the post of civilian expert on the "dollar-ayear" basis, with a leave of absence from the NAB, remaining on its payroll. The NAB board approved this arrangement several weeks ago, upon recommendation of NAB president Neville Miller.

The notice of Secretary of War Stimson to Army Chief of Staff General George C. Marshall, reads as follows:

"Edward Montague Kirby is hereby appointed, with the ap-proval of the President, as expert in the field of radio broadcasting at \$1 per annum in the office of the Chief of Staff (second supple-mental National Defense role), to take effect when he shall have entered duty, on which date he will take the oath of office prescribed by Section 1757 of the Revised Statutes of the United States.

"By order of the Secretary of War: John W. Martyn, administrative assistant."

Mr. Kirby took his oath of office Jan. 7. Because he is now assigned to the BMI-ASCAP music situation, he could not report for duty immediately. It is expected, however, that he will take over his new post prior to the end of January.

Mr. Kirby's work at the NAB, it is understood, will be divided among present members of the staff. Russell P. Place, counsel, will take over his functions as secretary of the Code Compliance Committee. Arthur Stringer, promotion director, will take over certain of the public relations functions, with C. E. Arney Jr., assistant to President Miller, supervising part of the public relations and Joe Miller, Labor Relations Director, taking over publicity and press contacts. Paul F. Peter, research director, also will assume portions of the work of the public relations department.

The precise organization of the new Radio Section of the Army has not been completed. Mr. Kirby will report to Lieut. Col. Ward H. Maris, chief of the public relations branch in the office of the Deputy

Hams and WAR

THE War Department has announced that licensed radio amateurs will be given the opportunity of communicating with its network control station, WAR, at specified periods. The action was taken by Army communications of-ficials to train amateurs in Army sending and receiving style. Frequencies used by WAR will be 4,025 and 13,-320 kc.

Chief of Staff. At present there is a Radio & Pictorial Section. The units, however, will be separated, with Mr. Kirby assigned to radio.

Handling all radio liaison for the Department during the current period of non-involvement, the section will seek better coordination of relations with radio in fostering recruiting and in keeping the public informed. Program originations in cantonments, writing of

Private Broadcasting in Time of War Is Advised as Aid to Morale of Public

TEMPERED to provide full voice for morale-building and military defense services, wartime needs of the nation can best be served through private operation of the country's broadcasting facilities. This thesis is developed in a treatise, Controlling Broadcasting in Wartime—A Tentative Public Policy, by Carl Joachim Friedrich, director of the Radiobroadcasting Research Project, conducted under Research Project, conducted under a Rockefeller Foundation grant at Harvard U's Littauer Center, and Jeanette Sayre, his research asso-

The treatise, and another on The Development of the Control of Advertising on the Air, have been printed in booklet form prior to release in Public Policy, publication of the Harvard Graduate School of Public Administration.

Private Operation

According to the Friedrich's academic analysis of the broadcast situation during a time of wartime crisis, both the Government and the public could be account in the country of the count public could be served most satisfactorily under continuing private operation of radio facilities. Although there necessarily would be a bigger Government finger in the pie, possibly through wartime news restrictions and tightening of con-trol over international broadcast activities, a cooperating private in-dustry could at once maintain the Constitutional rights of freedom of expression and at the same time serve the government in the national defense effort, it was pointed out.

Dr. Friedrich cited four basic factors to be considered in de-termining how radio broadcasting should be operated and controlled during a war—military needs, with radio an important weapon in the equipment of armed forces; moralebuilding; national defense against espionage, sabotage and similar activities; the task of maintaining goodwill abroad, particularly in

Latin America.

He also cited three major alternative suggestions for control— putting the entire industry under the armed forces; taking over all broadcasting activities into the

leaving administra-Government Government leaving administra-tion to a civilian director-general, as was done with railroads during World War I; leaving the general broadcasting business as is, but sub-jecting it to a measure of censorjecting it to a measure of censor-ship, presumably under the Army censorship board, and commandeer-ing as much time as may be re-quired for government purposes. The article pointed out that al-though "the legislation now in force (Communications Act of 1934) leaves it entirely up to the President to go as far as he wishes", Congress "evidently recoiled from prejudging what might be the pros and cons of several alternative schemes".

Life As Usual

"Listening to radio has become a major feature of our folkways," Dr. Friedrich commented. "Since Dr. Friedrich commented. "Since morale depends in part upon maintaining as much as possible of the established everyday life, this certainly would suggest going on with broadcasting programs much in the accustomed manner. No doubt, ample time could and should be provided for the Government national." wided for the Government, national, state and local, to reach the citizen and inform him about what is going on. Who should develop these programs is another matter.

"It is more likely to prove convincing, Americans being what they are, if as much as possible in the way of educational and informational material can be presented through channels not obviously governmental in nature. In view of the fact that most radio programming is at present being paid for by advertisers, either directly or in-directly, there is no good reason why this large expense should be added to the Government's already crowded budgetary requirements. The extensive cooperation of sta-tion owners and advertisers with the Government in the present national defense effort points to the fact that in a national emergency broadcasters would go far in producing the 'morale-building' programs which the Covernment grams which the Government would otherwise have to originate itself." scripts for recruiting, and simila activities will be cleared through this unit. There is no censorship aspect involved. Such work, if any would fall within the sphere of th military intelligence rather than the public relations branch.

Diverse Background

It is expected the Radio Section will have an enlarged staff of scrip writers, as well as contact officer: in the various corps areas. Empha sis will be placed upon keeping conscripted "trainees" in touch with home activities and of main taining public morale.

Mr. Kirby was selected because of his familiarity with broadcasting "shop" operations, as well as his military background. His work with the NAB during the last two years has brought him in intimate contact with religious, educational civic and women's groups, as well as the public.

At 34 Mr. Kirby has been public relations director of NAB since its reorganization in 1938. Prior to that he was promotion manager of WSM, Nashville, and of its parent National Life and Accident Insurance Co. After graduation from VMI in 1926, he joined the staff of the Baltimore Sun, and went from that paper to advertising agency work in Nashville, joining C. P. Clark Inc. He is married and has a two-year old daughter.

Heaven, to Advertising Men, is not some nebulous, misty space . . . scattered with angel-wings and harps. Heaven is here . . . and now . . . today.

Heaven is where the Dollars Grow.

Heaven is where a myriad "Stars" shine so brightly, through day and night, that Sales drop down to the Business Man's lap like stardust flung by a million comets.

Heaven is where you can put your money ... and get returns ... not alone from your own star ... but from all the blazing skyful of meteors selected by hundreds of other advertisers, just as determined to shine as you.

Heaven . . . in short . . . is the NBC RED NETWORK.

For the RED "Stars" have been filling the air-waves, day and night, since the first evening of radio. Even by day, their light won't grow dim. With all 7 peak-popular daytime programs...the programs women listen to most . . . the Red keeps drawing its listeners back. They are afraid of missing something they love.

By night, the air fairly crackles with "starlight" . . . with NBC RED's brilliant entertainers ... musicians, comedians, news-casters, great actors ... "names" with such glitter that NBC RED has 4 of the first 5 CAB rated evening programs ... 6 out of the first 10 ... 9 out of the first 15. Look at it another way. Of the first 15 leading nighttime programs, NBC RED has Nos. 1, 2, 4, 5, 8, 10, 11, 12, 15.

So naturally, from Sunday through Saturday...the nation keeps listening...keeps looking to RED as you'd search the Heavens to find the "Big Dipper." They know NBC RED has the comets...the starlight...that far-away outshine all other networks.

They listen . . . and golden stardust falls into your basket ("till" to you!) . . . The Stardust of Sales . . . not alone from your message . . . but from 14 bright years of prestige and distinction in all RED NETWORK programs.

This national audience naturally has great confidence in what the RED offers. They listen . . . they buy.

Here, indeed, is a Heaven for any advertiser. Why not take a piece, for yourself?

CAB to Take Up Proposal to Name a Paid President

By JAMES MONTAGNES

DIRECTORS of the Canadian Assn. of Broadcasters will meet Jan. 19 at the Mount Royal Hotel, Montreal, to complete the agenda for the seventh annual CAB convention starting the following day. Most important first day item on the agenda is the question of appointing a permanent paid president.

It is understood some persons have been approached on their availability for the post, but their names could not be learned.

News Regulation

When the convention opens, broadcasters will have followed for nearly three weeks the new newscast regulations and will be in a position to air their views on this subject, the outstanding Dominion subject, the outstanding Dominion broadcasting controversy of the past year. Copyright problems and the entrance of BMI (Canada) into the Canadian picture will be discussed. Incidentally it is learned that Sidney Kaye, BMI counsel, is to be in Ottawa Feb. 12 for the Canadian Copyright Appeal Board hearings. hearings.

Among entertainments planned Among entertainments planned for the convention will be a pre-convention reception Jan. 19 at the Mount Royal Hotel by All-Canada Radio Facilities, following a meeting of all the stations represented by All-Canada.

Haskins Serial Extended

HASKINS BROS. & Co., Omaha (Spark soap) on Jan. 20 will increase to six the list of Midwestern stations carrying its tranern stations carrying its transcribed Sparks of Friendship dramatic serial, five times a week. Stations are KSTP, St. Paul; WEAU, Eau Claire, Wis.; KRNT, Des Moines; WMT, Cedar Rapids; WNAX, Yankton; WOW, Omaha. The program is being transcribed by Photo & Sound, San Francisco. Agency is Sidney Garfinkel Adv. Agency, San Francisco.

NATIONAL Advertising Agency Network will hold its 10th annual conven-tion at the Palmer House, Chicago, May 28-30.

Canadians Study All-Time Record in Annual Time Sales Few Continuities Convention Plans Registered in 1939 by Major Networks Disputed by FTC

WITH COMBINED time sales for the year near the hundred million dollar mark, the nationwide net-works closed their books in 1940 works closed their books in 1940 registering the largest time sales in network history. Total CBS, NBC, and MBS grosses for the year amounted to a record-breaking \$96,455,603, a gain of 16% over the 1939 cumulative total of \$62,112,801 \$83,113,801.

Not only was a record established with the cumulative total for 1940, but in every month of 1940 each network showed an increase in time sales over the corresponding month sales over the corresponding month of 1939. Ending the year strongly, time sales for December, the second best month of the year, were \$9,306,845, up 14.5% from the \$8,126,601 total for December 1939. Radio activities of the political parties in October swelled the billings for that month to the highest of the year, while the time sales in August were the lowest of any month in 1940.

Upward Trends

CBS led the year-end statistics with a cumulative total for 1940 of \$41,025,549, an increase of 18.8% over \$34,539,665, the corresponding figure for 1939, while CBS time sales for the month of December were \$3,819,898. MBS continued its upward trend in time sales, ending 1940 with a cumulative total of \$4,767,054, or 34.3% over the 1939 gross which was \$3,329,782, while the billings for December amounted to \$576,983.

In the best year of its history,

In the best year of its history, NBC total time sales amounted to more than \$50,000,000. NBC-Red billings of \$39,955,332 for 1940 represented a gain of 9.2% over the \$36,600,736 grossed in 1939, while

Quite Alive

PAUL CONLAN, Hollywood writer of the NBC Signal Carnival, sponsored by Signal Oil Co. completely sound in body and limb, had a frantic time during Christmas week, trying to convince friends that published reports of his death, by a hit-and-run driver, were erroneous. The mistaken identity brought an embarrassing avalanche of embarrassing avalanche of consolation messages to Mrs.

the Red time sales for December were \$3,786,901. NBC-Blue wound up the year with a cumulative total of \$10,707,678, an increase of 23.9% over \$8,643,618, the figure for 1939.

Blue billings for December amounted to \$1,122,972, making the total NBC Blue and Red billings for the month \$4,909,873. Cumulative NBC total for 1940 reached the peak of \$50,663,000, surpassing the 1939 total of \$45,244,354 by

Minor Proportion Set Aside For Further Investigation

A DECLINE in questionable claims in radio advertising is indicated in a comparison of 1939 and 1940 figures on the advertising studios of the Radio & Periodical Division of the Federal Trade Commission.

mission.

During the last half of the 1940 calendar year the Division examined 402,434 commercial continuities obtained from broadcast stations and networks, of which only 10,260 were marked for further investigation, the FCC stated Jan. 10 to BROADCASTING. During the comparable period ending Dec. 31, 1939, 328,127 continuities were examined and 10,508 set aside for further scrutiny, it was stated. was stated.

Scripts Surveyed

These figures relate only to the initiation of inquiry and do not necessarily represent any final adverse action by the FTC, PGad B. Morehouse, director of the Radio & Periodical Division, explained. Actual ETC proceedings on basis of the tual FTC proceedings on basis of the cited continuities probably run well under this figure. In these studies the FTC takes the position that it is not dictating what an advertise and continuities and continuities of the conti tiser shall say, but rather indicating what he may not say under the law.

Statistics on the Division's continuous survey of published and broadcast advertising matter, for the fiscal year running from July 1, 1939, to June 30, 1940, were presented in detail Jan. 3 in the annual report of the FTC. According to the report, the Radio & Periodical Division during the fiscal year received 759.595 copies of comyear received 759,595 copies of commercial radio continuities, including transcriptions, co m prising 1,072,537 pages of individual station script and 445,700 pages of network script. The Division's staff read and marked 684,911 continuities of the property o read and marked 664,911 continuities, of which 22,556 were marked for further study "as containing representations that might be false or misleading", the report stated.

An analysis of all advertising cited as questionable shows that food, drugs, devices and cosmetics accounted for 59.7% of the cases given legal review during the fiscal year—drugs accounting for 33.4%, food 11.2%, cosmetics 12.8%, devices 2.3%. Other products classified were: Specialty and novelty goods, 11.2%; automobile, radio, refrigerator and other equipment lines, 4.9%; home study courses, 2.8%; tobacco products, 1.2%; gasoline and lubricants, 1.6%; poultry and livestock supplies and equipment, 2%; miscellaneous, 16.6%. According to the report, 743 radio and periodical cases were pending July 1, 1939, and 979 on June 30, 1940.

Molly's Line Preferred

"TAIN'T FUNNY, McGee," punch line of the Fibber McGee & Molly program, was tabbed the most popular expression of the past year in a survey taken among the 50,000 youthful members of the Police Athletic League of Greater New York by the officials of the boys' recreational club to find the most used catch phrases of the past 12 months.

THEY held a staff party recently at KOA, Denver, and 51 gathered in the Client's Audition Room to join the festivities. The KOAns abandoned their fun long

enough to get a photo taken for posterity. In the second row center is Manager Lloyd E. Yoder, who is smiling with satisfaction as he fetes the staff.

WESTINGHOUSE RADIO STATIONS 1619 WALNUT STREET · PHILADELPHIA

January 7, 1941

Mr. Sol Taishoff, Editor BROADCASTING National Press Building Washington, D. C.

Dear Sol:

I shouldn't like to let the occasion of your "going weekly" pass without extending my personal congratulations and those of the entire Westinghouse Radio Stations personnel.

Seeing your magazine take this big step forward makes me realize once again that this radio business moves with Paul Bunyan strides. It seems but a few years ago that Westinghouse was fussing around with crude, experimental tubes and antennas. Then came KDKA and a myriad of radio stations throughout the country. Our own group grew, with KYW in Philadelphia, WBZ & WBZA in Boston and Springfield, and WOWO-WGL in Fort Wayne, not to mention the short wave department.

Fortunately, Sol, the radio industry has grown two ways — in size and in quality. I like to think that you and all of us have played a part in that growth. I hope we shall continue to carry our share of the responsibility for better radio — and carry it well.

Once again, our heartiest congratulations to you and your staff for a bigger and better BROADCASTING!

Sincerely yours,

Walter Evans Vice President

Las Vegas Group Abandons Permit

Two in One Town Too Many: 76 New Grants Last Year

ANOTHER of the new stations authorized during 1940 "gave up the ghost" in early January because of a conviction on the part of the construction permit holders that it would not be economically feasible would not be economically leasing to build and operate it. The station is | KFUN, Las Vegas, Nev., for which a CP for 100 watts night and 250 day on 1420 kc. was issued by the FCC last June 5, the same day the Commission granted a station of similar power in the same tion of similar power in the same community—KENO on 1370 kc.

The Las Vegas Broadcasting Co.

Inc., of which Ernest Thwaites Jr. was chief stockholder, voluntarily surrendered the construction permit and informed the Commission that it was "no use" to install the station since the community could not support two outlets. KENO, owned by a partnership consisting of Maxwell Kelch, George Penn Foster and Calvert Charles Applegate, got a head start on KFUN by going on the air last September. This is the second instance during the last year of two new locals Inc., of which Ernest Thwaites Jr.

ing the last year of two new locals being authorized in the same small being authorized in the same small community under the new "survival of the fittest" theory of Commission grants expounded in the Sanders-Dubuque case, with one surrendering its CP because of believed inability to stand the economic strain. The other case involved two new local stations in Salisbury, Md. granted April 13. One (WBOC) went on the air in September, and the other (WMVD) gave up and turned in its permit [BROADCASTING, June 1, 1940].

Two More On The Air

With the surrender of the KFUN With the surrender of the KFUN construction permit, the total number of new station grants during 1940 was 76, still a record [see Jan. 1 BROADCASTING for complete list]. Of these, 35 were already in operation by Jan. 1, 1941, two more having gone on the air as the year drew to an end—WTCM, Traverse City, Mich., and KODL, The Dalles, Ore.

WTCM operates with 250 watts on 1370 kc. Its officers and stockholders are Lester E. Biederman, chief engineer of WTEL, Philadelphia, president, 30%; William H. Kiker Jr., also of the WTEL technical staff, vice-president, 16½%; Drew McClay, WTEL operator. secretary-treasurer. 15%: operator, secretary-treasurer, 15%; Fred H. Zierle, Philadelphia, 16½%; Edward S. Biederman, Detroit, 22%.

KODL operates with 100 watts night and 250 day on 1200 kc. President and 50% stockholder is V. B. Kenworthy, formerly with KSLM, Salem, Ore. T. M. Hicks, president of the Salem Abstract Co., and Eva O. Hicks each owns 25% of the stock.

Radio's Young Men Honored

Kadio's Young Men Honored

Jack Frye, Dr. Guy G. Suits, Col.
Charles Lindbergh, Mark Stanley,
Oren Root and Dr. George Gallup.

LOAN FIRM ON SIX DAYS A WEEK

Third Largest Association in Country Finds Radio Brings Customers and Builds Good-Will-

RADIO advertising as described RADIO advertising as described and analyzed in a five-panel exhibit that also carried newspaper, magazine, farm journal and other forms of promotion, helped the Minnesota Federal Savings & Loan Assn., Minneapolis and St. Paul, capture first prize for the second successful year in the nationwide advertising contest of the United advertising contest of the United States Savings & Loan League at its 48th annual convention held in Chicago recently.

The prize, a bronze trophy, was in the Group I competition among the largest associations (\$8,000,000 or more) in the country. Minnesota Federal, third largest Federal as-sociation in America, has assets of more than \$20,000,000.

Six Days a Week

Two radio programs, covering six days each week, are on the air regularly for Minnesota Federal. Saturday is the only day the association is off the air. The advertising panel shows actual script in use on the two shows, talent appearing in the programs, pictures of studio audiences attracted to the broad-casts, and graphs in color showing pattern and contents of each pro-

One of the programs, For the Ladies, is presented Monday through Friday. It is a 15-minute spot at 1:45 p.m. with Mary Proal Lindeke interviewing guests, or handling the entire program as a commentary. The statics is WTCN. commentator. The station is WTCN.

Three days a week it originates in the women's lounge in the home office of Minnesota Federal in St. Paul. The other two days of the week it comes from a special studio in the Young-Quinlan Department store in Minneapolis. There is a studio audience for each broadcast, frequently the hostess carrying not only a "Quiet Please" sign, but also one reading "Standing Room Only".

Minnesota Federal also is the Twin Cities sponsor of *The Show* of the Week, a Sunday MBS pro-gram out of New York City. It has been presented on WLOL since Sept. 29. The local participation comes via the commercials drifted in by the local announcer over faded instrumental numbers.

Easy Commercials

Minnesota Federal's commercials are noted for their brevity. In For the Ladies there are only two announcements, one at the opening, the other at the close. The opening announcement identifies the program, tells who the sponsor is, and introduces Mary Proal Lindeke. There is no "middle" commercial. The closing announcement carries the slogan of Minnesota Federal, any special or timely word from the sponsors, and states when the next program will be presented. The total time required for both opening and closing is not more than 1 minute, 30 seconds. The program has been on the air more

than two years.
In The Show of the Week, the opening local announcement, 30 seconds in length, is for identifica-tion purposes only. There are two inside commercials, each about 75 seconds long. The closing is 30 seconds. The total time consumed by the local announcer is not more than 3 minutes 30 seconds.

In addition to building popularity and good-will, the "results" score and good-will, the "results" score card shows that 243 accounts (savings funds) totaling \$139,271 have been specifically credited to radio during the past 12 months.

The figures were supplied by Vern C. Soash, savings department manager of Minnesota Federal, under whose direction the display was prepared for exhibition. The five-panel exhibit after showings in Chicago, St. Paul and in Minneapolis (the second week in December), will be available for display elsewhere. Minnesota Federal radio is placed by Luther Weaver & Associates, Twin Cities agency specializing in radio.

RAYMOND GRAM SWING, MBS commentator, has signed an agreement with Columbia News Service to write a weekly 1,000-word column to be syndicated throughout the British Empire and South America.

FLYING HIGH aboard a TWA plane en route from New York to Chicago recently, Raymond Gram Swing hauled out his typewriter to turn out one of his White Owl Cigar and MBS news commen-

LEWIS-HOWE Co., St. Louis (Tums), on Jan. 8 started a New York City Pot o' Gold program, broadcast simultaneously on three New York stations, WHN, WMCA, and WNEW. Program, which is heard Wednesdays at 8:30-9 p.m., and features Tommy Tucker's or-chestra with Rush Hughes as m.c., originates from the studios of WMCA and is piped to the other two stations. two stations.

Decision to present a New York Pot o' Gold program, patterned after the sponsor's network show of the same name broadcast Thursdays on the NBC-Blue, was based on the large concentration of telephones in the metropolitan area and the relatively few winners from the area on the network program. Stack-Goble, New York, is

IRNA Continues Active, Favors Monopoly Brief

THAT Independent Radio Network Affiliates is a going concern, and suffered no adverse effects from the position taken in the FCC network monopoly investigation by vigor-ously denouncing the FCC Committee's report, was reflected in an announcement Jan. 2 by the organization to its membership.

During 1940, 113 stations paid into IRNA a total of nearly \$8,000

in dues, with the organization at present having a balance of up-wards of \$5,000. Replies received from a substantial majority of these stations approved the IRNA position on the monopoly report and only one station has sent in a formal resignation from IRNA, based on the brief filed with the FCC, it

was reported.

The IRNA executive committee, in meetings in New York last month, unanimously approved the briefs and arguments presented for IRNA at the FCC by Paul M. Segal, counsel, and Samuel R. Rosenbaum, IRNA chairman.

Bunte Renews

BUNTE BROTHERS, Chicago BUNTE BROTHERS, Chicago (Candy), on Dec. 30 renewed for 13 weeks its varying schedule of news, participations, spots, sports and local shows on eight stations. Stations are WBBM, Chicago; WHO, Des Moines; WJR, Detroit; KMBC, Kansas City; KSD, St. Louis; KFAB, Lincoln, Neb.; KOIL, Omaha; WLW, Cincinnati. Firm has added a 13-week test campaign of six announcements weekly on of six announcements weekly on XEAW, Reynosa, Mexico. Presba, Fellers & Presba, Chicago, placed the business.

Land O'Lakes Series

LAND O'LAKES CREAMERIES, Minneapolis (dairy products), for-mer user of transcribed radio programs, on Jan. 15 starts a thriceweekly ten-minute program featurweekly ten-minute program reatur-ing Edgar A. Guest, poet-philoso-pher and Eddie Howard, singer, on 20 NBC-Blue stations. Contract is for 39 weeks. Agency is Campbell-Mithun, Minneapolis.

THE BMI HIT, "Practice Makes Perfect," has been adopted by a Los Angeles trade school, which plays the tune regularly on its loudspeaker and uses the title as the school motto.

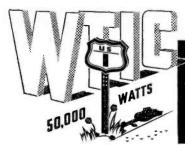

AKE all your dreams of what a good market should be like. Roll them all together and you'll have a perfect picture of Connecticut and the rest of Southern New England—the *richest* market in the whole United States. The facts and figures prove it.

For example, factory man-hours have jumped 30% within a year; the per family effective annual buying income is 39% above the national average; sales of new automobiles are up 48%. The people of this rich industrial area have more money to spend for whatever you want to sell.

WTIC can bring your product to the attention of these people with a welcome and familiar voice—with the impact of 50,000 Watts and the authority of more than 15 years distinguished service as the favorite station of this prosperous Southern New England area.

No, sir. You couldn't wish for a better market or a better means of reaching it.

BUFFALO'S

This is the typical 50-HG installation of seven cubicles placed side by side to form a single attractive unit. WKBW's new 50-kw transmitter will consist of nine cubicles, arranged in line. The two additional cubicles house the rectifier and antenna phasing equipment.

Westinghouse

GOES TO 50,000 WATTS

... selects Westinghouse 50-HG for fidelity, economy and reliability of transmission

Soon ten million listeners, from Maine to South Carolina, will be within range of Station WKBW. Present listeners in the densely populated area of Western New York, Western Pennsylvania, and Eastern Ohio, will welcome the increased signal strength, the new high quality of transmission.

> Control of the last of the las WITH THESE OPERATING ADVANTAGES:

- Air-cooled tubes in all stages.
- Extremely low operating costs. Metal rectifiers throughout, except main high voltage rectifier.
- Inductive neutralization of the power amplifier.
- Equalized feedback.
- Compressed gas condensers.
- Complete elimination of fuses. Spare rectifier tube at operating
- temperature.
- Ease of adjustment. Unit construction throughout.
- Full automatic control.
- Relatively low plate voltages. Conservative operation of all tubes.

National and local advertisers, alike, will welcome the added power of this Buffalo station.

This is the third station receiving a 50-kw construction permit since January 1, 1940, which has selected the Westinghouse 50-HG Transmitter. Only four such construction permits were granted in this period.

That these three stations have each chosen the Westinghouse Transmitter is more than a coincidence. For here is a transmitter that is the last word-in economy, convenience of operation, fidelity and reliability.

This transmitter is designed on the basis of experience gained in actually operating radio stations-Westinghouse owns and operates the first, as well as several of the most powerful, radio broadcasting stations.

It is built by craftsmen who have been manufacturing radio equipment since the earliest days of broadcasting.

It is backed by the ONLY company that manufactures, under its own name and own responsibility, ALL equipment needed for complete radio transmitting station operation.

White Pondering Inquiry Proposal

Tobey Reintroduces Proposal For Senate Investigation

CONTINUING Congressional sentiment looking toward an investigation of the FCC and the radio industry became evident Jan. 6—second day of the 77th Congress—when Senator Tobey (R-N.H.) introduced a counterpart of his August, 1939, resolution calling for a far-reaching radio study by the Senate Interstate Commerce Committee [BROADCASTING, Sept. 1, 1939]. In another Senate quarter, although Senator White (R-Me.) has been engrossed in a legislative study of communications, he does not expect to introduce a resolution for a thorough-going investigation of the communications regulatory scene in the immediate future.

Senator White told Broadcast-ING, Jan. 9 that emergency legislative matters probably would make it desirable for him to forego prompt introduction of his proposed bill [Broadcasting, Jan. 1]. Senator White plans to confer with Chairman Wheeler (D-Mont.) of the | Senate Interstate Commerce Committee, in which radio legislation originates, prior to introducing his resolution, now in preliminary draft form.

Ponders Resolution

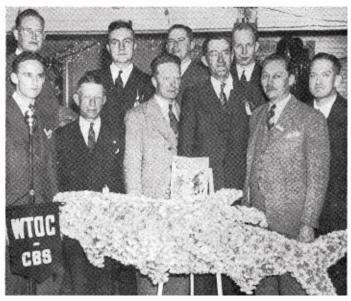

Senator White has in mind a resolution calling for a "fact finding study" of communications regulation, with emphasis on broadcasting aspects. He was impelled to proceed in this way because of the FCC's two-year-old inquiry into network monopoly aspects of broadcasting and because of the apparent effort of an FCC majority to invade business phases of broadcasting in a manner presumably not contemplated by the Communications Act of 1934.

The Tobey resolution provides authorization to the Interstate Commerce Committee for "a full and complete investigation" available.

The Tobey resolution provides authorization to the Interstate Commerce Committee for "a full and complete investigation" covering monopoly in broadcasting or radio manufacture, sale and distribution; administration by the FCCI of the Communications Act of 1934; licensees' operations; contracts; alleged lobbying activities by radio interests. A maximum of \$25,000 is provided for expenses of the committee's hearings, which could be held "during the sessions, recesses, and adjourned periods of the 77th and succeeding Congresses."

With supplementary briefs already filed with the Commission on the network monopoly investigation, that inquiry enters its final phases. Oral arguments were held before the FCC Dec. 2-3, terminating the final hearing phase of the proceedings which got underway in 1938. Because of questions which arose regarding the jurisdiction of the FCC, respondents were permitted to file supplementary briefs on Dec. 2.

Unless Congress launches an investigation of the character envisaged by Senator White or Senator Tobey, it is presumed the FCC will proceed with drafting of its final report, to be made to Con-

FISH made of flowers decorated the Old Salt's Fish Fry held by WTOC, Savannah, Ga., with 500 sportsmen and civic leaders present. Gathered around the floral gem are: Front row (1 to r), Windy Herrin, sports announcer; Rep. Frank A. McNall; Rep. Hugh Peterson; Secretary of State John B. Wilson; E. M. Lipscomb, Old Salt script writer; W. T. Knight Jr., WTOC president: in back row, Ben Williams, the Old Salt; Bill Smart, production manager; Charles N. Elliott, Georgia wild life director; Fred Pfahler, program director.

WHEELER SEEKING SPEECH TIME DATA

AN INDICATION that Senator Wheeler (D-Mont.), of the Interstate Commerce Committee, again is inquiring into the question of giving equal facilities to opposing speakers on controversial issues was given Jan. 7 with the dispatching of a letter by the Senator to President Niles Trammell of NBC.

Asking Mr. Trammell for detailed information on the number of stations, their location and power, which carried his Dec. 30 speech on the war situation, Senator Wheeler observed that the response to his address had been "very large". In the past, the Senator has criticized the networks for failure to provide networks of equivalent size for opposing speakers on controversial issues.

The Senator advised Mr. Trammell that his office had received over 50,000 communications on his address, 93% of which were favorable to the position he took.

RCA Records in New York FOR THE first time in its three-year history, The Music You Want program, sponsored by RCA Mfg. Co., Camden, for Victor records, entered the New York city area with a five times weekly late evening spot on WEAF, New York, preceded by a quarter-hour newscast, also sponsored by RCA. The news program is handled by Ben Grauer, the "RCA Overseas Reporter," giving the latest news on international developments.

RAY O'DAY, singing salesman of WAAF, Chicago, on Jan. 24 will make a guest appearance on the CBS Al Pearce show.

More Corn

EXPANDED from the station's Studio A to the lobby of Hotel Fort Des Moines, the fourth annual WHO Corn Festival, conducted by WHO, Des Moines, drew 791 entries from 166 exhibitors this year, with 11 States and Ontario, Canada, represented. Don Radda, farmer of Washington, Ia., won sweepstakes honors with 150 points, among other items exhibiting the longest ear of corn in the Festival—16% inches. Radda also was winner of WHO's tall corn contest last summer, with a stalk 19 feet 8% inches high.

FCC REQUESTS DATA Time-Sales Figures Must Be ——Sent by Jan. 15——

TO ENABLE it to gauge 1940 time sales for the broadcasting industry, the FCC has dispatched to all stations a single sheet questionnaire covering analysis of station broadcast revenues. The schedule must be executed and signed in duplicate with the FCC as soon as practicable. The Commission requested all responses not later than Jan. 15.

responses not later than Jan. 15. The schedule, a part of the FCC's annual financial analysis of the Broadcasting industry, is sent out in advance of the all-inclusive questionnaire. Each standard broadcast station is asked to file a separate return as of the close of business Dec. 31, irrespective of group ownership or operation. Stations whose total revenues for the year was less than \$25,000 are required only to insert the total amount of revenue for the year, rather than a breakdown.

Mile O' Dimes Campaign Includes 48 Stations In All Parts of Nation

FORTY-EIGHT stations, from New York to San Francisco, up to Jan. 10 had signified their intention of sponsoring "Mile O' Dimes" campaigns in connection with the celebration of the President's Birthday for the National Foundation for Infantile Paralysis, according to Charles C. Barry, director of the "Mile O' Dimes" section of the drive.

Barry, on leave of absence as night supervisor of NBC in Washington, has been on tour for the last two months arranging details for radio participation in the drive. Barry was selected by George Allen, former District Commissioner and now national chairman of "Mile O' Dimes", after he had successfully directed two similar campaigns for the Washington NBC stations, WRC-WMAL.

The cities, stations and station directors of the campaign, where designated, follow:

Chicago-WENR, WLS, WMAQ; Harry Kopf.

St. Louis—KMOX; Merle S. Jones.
Tulsa—KTUL; William C. Gillespie.
Oklahoma City—KOMA; Neal Barrett.
Denver—KOA; Don F. Martin.
Jersey City—WATT; Walter Kelly.
New York—WEAF, WJZ; Clay Morgan.
Pittsburgh — KDKA, WCAE, WWSN.
KQV, WJAS.

Toledo—WSPD.
Columbus—WCOL, WBNS, WHKC.
Cleveland—WHK, WCLE; H. K. Carenter.

Hartford-WTIC; J. F. Clancy.
Detroit-WXYZ; H. Allen Campbell.
Jackson, Miss.-WJDX; Wiley P. Haris.

Fargo—WDAY.
Philadelphia — KYW, WCAU. WIP,

Washington—WRC-WMAL; Carleton D. Smith.

Milwaukee-WTMJ; L. W. Herzog.

Winton Brothers to Buy 48% WLOL Interest

A DEAL was completed Dec. 30, subject to FCC approval, for Charles and David Winton, owners of the Winton Lumber Co., Minneapolis, to purchase the 48% of stock held by Fred Ossanna, Minneapolis attorney, in WLOL, Minneapolis outlet operating fulltime on 1300 kc. using 1,000 watts. Judge John P. Devaney retains the remaining 52% of stock. Edward P. Shurick, manager of the station since its inception June 17, 1940, remains in that capacity. Setup of the organization now has Charles Winton, president; John P. Devaney, vice-president; David Winton, secretary-treasurer. The station is MBS affiliate and key outlet of the regional network, North Central Broadcasting System. It first went on the air June 17, 1940.

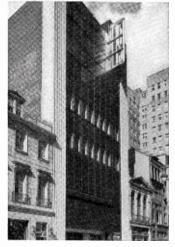

PRESIDENT ROOSEVELT'S fifteenth fireside chat of Dec. 29 enjoyed a rating of 59, according to C. E. Hooper Inc. Based on this rating, it is estimated 16,500,000 families, or about 50,000,000 persons in the United States, heard the talk, the largest audience ever reported by Hooper.

NBC NAT'L SPOT and LOCAL SALES HIT FIVE MILLION PLUS FOR 1940

KYW Goes 50,000 Watts January 16, Serving 1,000,000 Extra Listeners

GREAT NEWS to advertisers is the announcement that Philadelphia's KYW, beginning January 16th, will join the Family of "Big Time" stations operating on 50,000 watts!

This tremendous step-up in power, according to current estimates, will in-

crease the station's area to such a degree that its service will reach at least one mil-

lion additional listeners in Philadelphia. KYW is one of the 17 "Vital Spot" stations which carry NBC Spot Sales service to 11 major money-markets.

WEAF's New Giant-Size Vocal Chords Startle Metropolis

New Signal on NBC RED's Key Station Wakes City With Voice Two to Ten Times as Strong

ON THE MORNING of November 8th, numerous astonished metropolitan families—many of whom leave their radios tuned at night, ready to catch the earlymorning broadcasts—woke with a start to hear a giant-size voice booming through their apartments.

These families had not known that, during the night, WEAF's "voice had changed"... become twice as strong in . four times as strong in Brooklyn . Queens ten times as strong in the heart of Manhattan and throughout Northern New Jersey. Naturally, they were amazed. That

morning, and practically every day since, NBC has heard constant delighted com-ments from radio fans, tired of strug-gling with static, that WEAF now comes in so clear and strong it fairly knocks people out of their chairs . . . stronger than any metropolitan station. Typical of NBC's science and service

is the research that went into this powerful improvement.

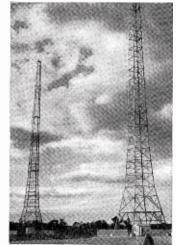

First—the distance between the WEAF transmitter site and the center of New York City has been cut almost in half.

-WEAF's new signal is now conducted in over the "salt water way" of Long Island Sound . . . and salt water is acknowledged the finest conductor for radio signals in the world.

Third—every latest technical im-provement developed by RCA and NBC

engineers has been incorporated in WEAF's new equipment, giving this 50,000-watt. Class 1A. clear-channel statement. tion an efficiency . . . and a reception-appeal . . unparalleled in radio history. Again, NBC RED gives to all adver-tisers the clearest, most vital, most force-

ful voice for telling the public their sales

McConnell Announces New High Established by Spot Division; **Volume Goes Over** \$5,000,000

NBC NATIONAL Spot and Local Sales Department succeeded in bounding up to a new peak in dollar volume for 1940, as shown in figures just released by Manager James V. McConnell.

Time sales booked, as of December 1st, totalled well above five million dol-

lars; additional business in the making as of that date indicated a still higher total before the end of the year.

Increase of Nearly 30%

The gain of some thirty per cent over 1939 indicates the ever-increasing use of NBC's seventeen Vital Spot stations in eleven strategic markets. Many clients have increased their billings greatly or have added more NBC stations to their schedules. In addition, numerous new clients have selected these station outlets for their message during the past year, McConnell reports.

Service Highly Improved

He also called attention to the reorganization work which has been accom-plished during the last several months. Improved sales service and station facilities have been completed in a number of important points, which will make it possible to handle business with increasing efficiency during 1941. Advertisers, he pointed out, have long recognized the great public service rendered by these well-programmed, strategically located stations, a service which will be considerably amplified during the coming year.

Looking to the year ahead and the business already anticipated, it is expected that volume will continue to establish increasing gains for each quarter

of the new year.

Ground Broken for NBC's New \$1,000,000 Studio NBC President, Niles Trammell, Wires Nelson, San Francisco "Go Dig In"

ON NOVEMBER 11th, Al Nelson, Assistant Vice-President and General Manager of Stations KGO and KPO, received a wire from President Niles Tran-mell of NBC that recommendations for the new NBC million-dollar studio in San Francisco had been approved by the Board.

On November 14th-just three days state and county officials, and

thousands of interested San Franciscans, saw ground breaking ceremonies begun at a signal from Mr. Trammell who sounded the familiar NBC chimes, after

a brief talk direct from New York City.
At Mr. Tranniell's command "Dig
In." everyone who could be spared from the studios dug in with long-handled shovels provided by the contractors. Twelve of the girls were dressed in red

and white striped overalls with white blouses and white caps adding considerable color to the event.

Dedication of the new structure is

scheduled to take place in August, 1941.
From that time on these San Francisco listener preferred stations will deliver an even greater service to the public and advertisers alike.

WGY, Schenectady, Reports Year's End Will Reveal **High Sales Gains**

GENERALELECTRIC Station WGY, Schenectady, has been operated by the General Electric Company's own staff since October 1st, 1940. According to Mr. Kolin Hager, WGY Station Mana-ger, a strong sales and promotion campaign has resulted in a number of new accounts and gross time sales should show one of the highest percentage in-creases in the station's history. Mr. Hager was manager of the station

under NBC management and has continued in that capacity under the G-E banner. The station is exclusively represented by NBC National Spot Sales.

WRC to Operate at 5,000 Watts Day and Night

WILLIAM S. HEDGES, Vice-President in charge of the Stations Department for the National Broadcasting Company, announced this week that WRC, Washington, would operate at 5000 watts day

and night in about six weeks.
Kenneth Berkeley, Manager, and John
Dodge, Sales Manager, are completing
plans to back up this power increase with a promotional story, indicating concisely the plus coverage which will be enjoyed by WRC advertisers coincident with the additional power. WRC's increased power is also of importance from the standpoint of national defense, since it is located not only in the nation's capital, but also in the headquarters of

the Army and Navy.

It is expected that Station WMAL will also operate at 5000 watts day and night as soon as plans can be completed.

of the

MUTUAL

BROADCASTING SYSTEM

LISTENS... network grows

Six years ago a four station hook up was the scope of the Mutual Broadcasting System. Today—Mutual is a Coast-to-Coast Network of 168 representative stations.

At the beginning of 1941 MBS reviews 1940, the greatest year in its history, during which MBS added 50 new affiliates; carried 1848 special events of national importance and showed a 40% increase in gross revenue.

The continued growth and development of MBS is assured. The reasons for this are to be found in the Mutual station contract. Here is a Network which inherently raises its affiliated stations to its own level.

Basically, listeners account for the growth of any broadcasting operation. That St. Louis KWK can contribute its part, in a great American Market, has long since been established. Advertisers know this—their present commitments indicate a larger volume for KWK in 1941 than in any previous year.

Curve: E by NE

KEY TO RADIO's impregnable stand against competing media has been one factor—progress. Year by year radio has acquired more listeners, along with more sponsors who spend more money. The year 1940 was no exception.

Absolutely unbiased figures compiled by the Cooperative Analysis of Broadcasting (CAB), Crossley-operated statistical service financed by the Association of National Advertisers and the American Assn. of Advertising Agencies, reveal that the amount of listening increased again last year. Since September, 1939, the number of sets in use has been increasing, reaching a peak last April.

All-time high for an average weekday offers another interesting figure—76.9% of all radio homes contacted had their radios operating.

On another page in this issue Al Lehman, radio and statistical expert of the ANA, analyzes the findings obtained in more than a million phone calls. He takes the data apart and joutlines trends in all phases of listening and programming.

A program trend that will interest broadcasters is the quick decline in popularity of the \$1,000-every-Thursday Pot o' Gold. In the space of a year this program, with its appeal to the acquisitive emotions, has dropped from 10th to 57th place in popularity. To those who would attract a following by sheer merit rather than prize inducements, this trend will be discerned with satisfaction.

Defense Blueprint

BY PRESIDENTIAL proclamation, a Defense Communications Board was created last September, composed of five high-ranking Government officials named to coordinate communications, broadcasting included, to meet national defense requirements. That board drafted a comprehensive plan and called upon all segments of the communications industry, voluntarily and at their own expense, to pitch in for first effort in history toward mobilization of the nation's communications.

If any proof were needed of industry response, it came Jan. 6 at the initial session called by the board. Fifteen committees had been named, representing Government, industry and labor. When Chairman Fly called the meeting to order, there were 225-odd present, or about double the number expected. Committee members had brought along advisors and experts as their alternates. The top men them-

selves showed up and heartily pitched into the job.

The spirit and the energy of the voluntary workers was applauded by the DCB. It was proof sufficient that men in private industry, who may be vigorous competitors in normal times, can forget business differences and sit around the table for the good of the nation. There is much work to be done. Some of the plans to be evolved may be repugnant to the philosophies of the callous, hard-bitten businessmen serving on these committees. It is a safe guess, however, that they will forsake all thought of immediate benefit for their own companies and operations in the interest of the nation's well-being in an hour of need.

Good men have been selected for all of the committee functions—the best the particular industries have to offer. They will give of their time and energy as the exigencies demand. Both the domestic broadcast and the international broadcast committees are admirably staffed, representing cross-sections of all phases of Government and industry. It will be their task to help the DCB blueprint radio's role in preparing for the worst. And that role does not connote Government commandeering of broadcasting but industry collaboration with Government.

It may not be "business as usual" but it will be Radio by the American plan. The President and his aides already have recognized this as the desirable course, not only for reasons of public morale but also because it is the obvious economic answer. The taxpayer cannot be expected to foot the radio programming bill in these days when the tax burden is destined to increase to a new all-time high.

There are many voluntary moves which broadcasting, as an industry, can undertake to ease the immediate burden. For example, we are informed that concern is being evinced over reporting of ship movements by stations along the ceasts—a regular program feature. It is thought such data can be picked up by belligerent raiders or submarines, particularly from clear channel stations, on the over-water haul. The proper move would be for stations carrying such features immediately to eliminate them, or to become more circumspect in their handling. It isn't censorship—just good judgment.

From now on the war situation seems destined to become more intense almost daily. Radio will cooperate. It will sacrifice whenever the need exists. It asks no privileged status or special treatment.

The Radio Arm

THE MEANING of total war, the invention of ruthless dictators, is only too well realized throughout what remains of the civilized world. Radio more than any other medium has carried warnings of the horrors of modern warfare to the fireside.

For radio, the story now is brought appallingly closer home. Nazi planes several times have bombed Broadcasting House in London. Seven persons—all presumably employes of BBC—were killed in one of the bombings of the British Empire's radio nerve-center. Reports from London reveal that at the time of the first hit, a news broadcast was in progress. Millions of listeners heard the explosion. But the newscaster, with hardly a break, carried on. He did not mention the hit, and he did not deviate from his prepared script.

That instant a new tradition in radio was born. It was not prearranged; it just happened. Like the captain of a foundering ship, the announcer stayed on the job. He had the air, and he meant to keep it until his task was finished or an act of God intervened. The men riding the gains stuck to their posts. Had the announcer indicated alarm, or the engineer pulled the plug, the audience might have been terrorized.

To broadcasters the world over the bombing of Broadcasting House carries a message of deepest significance. The broadcasting station, in modern warfare, is a military objective. And the broadcaster, from apprentice announcer to general manager, is an arm of the military establishment, no less responsible for the public welfare than the man in uniform.

We Go Weekly

WITH THIS ISSUE, BROADCASTING begins publication as a weekly. And with the transition from semi-monthly publication, we want to let our hair down and talk shop with our readers, boosters and critics alike, and with our clients.

During these last nine years we have had lots of fun and not a few worries. The industry has been grand to us. We have made many friends and some enemies. There are those who have accused us of an "our industry-cando-no-wrong" complex. It's very true we have tried to defend radio all down the line, and we'll continue that editorial stance. But we've also tried to call our shots as we've seen them, irrespective of who might be hit.

Since we announced our weekly publication plan last fall, the response has been gratifying. Some asked why we should take the gamble in these uncertain times, particularly when we appeared to be doing nicely as a semi-monthly. The reply is that we have always had in mind publication of a weekly. We feel we can do a better editorial job with 52 issues as against 24 during the year. The news will be more timely, though we modestly concede we have had our share of the scoops.

It was rather sad putting the last semimonthly to bed just before New Year's. Since Oct. 15, 1931, our little gang had bled and died with each issue. With a weekly we'll do it just twice as often. Over the years we've had quite a few additions to our staff, and very few deletions. As a weekly we hope to do the same business at the same old stand.

And we still feel the industry can't do very much wrong, at that.

We Pay Our Respects To - Personal

ROBERT GOULD JENNINGS

THOUGH a whirlwind, storybook start has only increased the ambitions of Robert Gould Jennings, vice-president in charge of radio of H. W. Kastor & Sons Adv. Co., Chicago, it has nonetheless taught him to beware of progress that comes easily. Born in Elmira, N. Y., March 31, 1911, this tall 29-year-old Yankee has learned, as he ex-presses it, "The watermelon some fellow tossed in your lap never tastes as sweet as the one you cultivate on your own vine.'

Bob's business career began with a long distance call from his father during latter April, 1930. Then in school in Cincinnati, it was Bob Senior's wish that his son return immediately and enter the family business. During July that same year, he passed away and the younger Bob, as heir apparent, found himself head of the Queen City Knitting Mills, a textile concern employing some 300.

Those were depression years, but, by careful management he took the plant from the red side of the ledger in 1930 to the black side in 1933, despite depression obstacles.

With the textile mills one by one moving southward because of the cheap labor, Bob sold the mill and went back to being a normal youth of 22, so he thought. But he had tasted the joys of business and wanted more.

Experiences followed in quick succession. The purchase of a commercial garage from the estate of a friend, an affiliation with the Knott Hotel Corp., during which time he put together a dance orchestra, and an interest in the American Brewing Co. when beer became legal-all these things made an interesting two years but didn't hold enough promise.

Dissatisfied with prospects, Bob decided to visit relatives and friends in Cincinnati, looking around while he was there. Leaving Elmira one wintry day, he set out alone on the 750-mile drive. During the lonely hours of driving he had an opportunity to think out his plans and he decided that if he had

been able to sell underwear, beer and orchestras, he could sell himself.

Arriving in Cincinnati Jan. 28, 1935, he gave the town a once-over. The next morning he went to the Crosley plant to see Lewis Crosley and was pleasantly surprised to find Mr. Crosley willing to see him. They talked for a few minutes, and then Mr. Crosley referred him to John Clark, manager of WLW and WSAI. In ten minutes Bob was a cub salesman on WSAI.

Those were great days, learning the broadcasting business from the ground up. Bob sold, announced a program from City Hall, produced a show or two that he had placed, and handled any other odd jobs that appeared.

A change came with an order from Kroger Grocery & Baking Co. for the transcribed series, Hot Dates in History. This meant much more than an order for WSAI, as the program was to be transcribed and placed on a sizable list of stations. Asked how he made the sale, Bob said he hounded Ralph Jones, president of the Ralph Jones Adv. Co., Cincinnati's largest agency, until Mr. Jones decided the only way to get rid of Bob was to see him; then continued to hound him with ideas until he found one Mr. Jones liked and thought had possibilities for Kroger. An audition followed, and then the contract.

Bob was elevated to sales manager of WSAI in June, 1935, but the going was tough. The WSAI transmitter was antiquated and situated many miles from town. Thus the station's signal was barely audible in downtown Cincinnati, making it difficult to sell or keep sold. Finally, in 1936 the management decided to build a new transmitter overlooking the city. Then things started to happen. As Bob improved the program and promotional activities of the station, business picked up and the manage-ment voiced their approval by making Bob manager of the station.

In September, 1937, Bob became program director of WLW, in addition to the WSAI work. In No-

NOTES

EARLE J. GLUCK, manager of WSOC, Charlotte, who holds the rank of lieutenant commander in the Naval Reserve, has been appointed to the Naval Reserve Policy Board which meets at the Charleston Navy Yard to evolve policies. It is one of four such backer in the contract of boards in the country.

STAN TAPLEY, assistant manager of CJCS, Stratford, Ont., has been appointed manager of CJCS replacing Frank Squires who has been transferred to CKWX, Vancouver, as manager. Mr. Squires is giving a farewell party to broadcasting and agency friends on leaving CJCS Jan. 17 at the Royal York Hotel, Toronto.

HOWARD MAY, of the sales staff of WMAN, Mansfield, O. and Florence Schiska. WMAN business office em-ploye, late in December announced ploye, late in L their engagement.

ROBERT BRAUN, Hollywood talent representative of KMBC, Kansas City, has returned to his West Coast headnas recurned to his west Coast head-quarters after conferences with Ar-thur M. Church, owner of that station. Braun represents Church packaged ra-dio shows on the West Coast, among them being the Texas Rangers.

VIC BROWN, booking agent, recently joined the talent sales department of NBC, Chicago.

vember he became sales manager of WLW and was made an officer of Crosley Radio Corp., with the title of vice-president in charge of sales and programs. This position he retained until September, 1938, when he decided he wanted experience on both sides of the fence. The decision to affiliate with an advertising agency followed.

From several offers he picked. W. Kastor & Sons Adv. Co., Chicago, where he became new-business man. Soon he moved on to account executive for Procter & Gamble's American Family Soap and the then new product, Teel. With Kastor's radio expanding because of new activities, he was asked to take charge of radio and in March, 1939, became radio director. On Jan. 1, 1940, he was elevated to the radio vice-presidency.

One of Bob's ambitions is to see the quality of radio drama improved. To him the feature of both evening and daytime radio lies in dramatic programs. As an example he cites the upward trend of the

average yearly ratings of dramatic programs as well as the number of new programs of this type. During the last year Bob has noted an encouraging change—a tendency on the part of some to place importance on creative writing, good production, creative acting, and sufficient rehearsals to do justice to the show.

Mrs. Jennings is the lovely young radio actress, Betty Winkler, whose talents also have taken her to the top.

Hobbies to Bob are things that he has not had time to crowd into a busy life. As he puts it, "My only hobby now is radio. I eat it and sleep it, and I have never tired of

Bob has a little house on Chicago's near northside in which there's a radio in every important room. Of course he and Betty take an occasional horseback ride, swim, or evening of dancing, but his main interest is his work, his love of radio.

BEHIND the MIKE

FRITZ BLOCKI, one time dramatic critic of the Chicago American, and for the last eight years publicity director of a Chicago theatre chain, will henceforth devote all his time to radio production and writing. Girded for Grid—Paramount Plug—Kansas Ruler— Time on a Dial—Special Recordings

OOTBALL CONTEST conducted by the Barr Jewelry Stores, Philadelphia, in connection with their gridiron review broadcast over WCAU, Philadelphia, every Saturday during the past season, attracted a record total of 37,230 entries, according to George W. Wolfsten, vice-president of the Al Paul Lefton Agency, Philadelphia, which handled the account. The nine-week contest required listeners to determine the winners and the approximate scores of the 12 leading games each week in competition for prizes of three Gruen wrist watches.

of three Gruen wrist watches.
Starting with 1,000 entries the
first week, the contest reached a
peak of 6,200 the weekend of the
Penn-Cornell game for a weekly
average of 4,137. A standing grand
prize of \$1,000 for any contestant
who achieved a perfect score went

Bob Hall, ex-Yale grid star and local attorney, handled the broadcast along with Taylor Grant, WCAU sports commentator.

Paramount's Free Discs

PARAMOUNT PICTURES, Hollywood, to promote the American film industry, is issuing a weekly quarter-hour transcribed program titled Paramount on the Air, to 60 New Zealand and Australian stations. Weekly release contains film industry news supplied by all motion picture studios in Hollywood. In addition, the Paramount radio service also issues a special weekly letter titled Listening-In on Hollywood, to 93 stations in the Antipodes, for reading by staff announcers.

Topeka Yardstick

SHIPPED in individual mailing boxes, WIBW, Topeka, Kan., is distributing to the trade heavy wooden yardsticks impressing a double-side advertising message. In addition to the inscribed yardstick itself, each 36-inch rule is packed with a yard-long paper insert bearing an advertising message built around the theme: "You'll need a big yardstick in 1941 to measure WIBW's selling results for you!"

Szigeti Book

TO PROMOTE the MBS concert series of Joseph Szigeti, well known violinist with the Alfred Wallenstein orchestra which started on Jan. 7, WOR has sent newspapers a pressbook on Mr. Szigeti which includes a cover picture of the violinist, his biography, anecdotes, an art layout, and an article by Robert A. Simon, music critic for the New Yorker magazine and continuity director for the station.

Salute to Sponsors

AS A SPECIAL holiday promotion stunt, KMPC, Beverly Hills, Cal., on Dec. 23 sent a group of four carol singers to serenade sponsors. Quartette made more than 25 appearances in downtown Los Angeles and Hollywood, including all major department stores.

McKinney's Dial

TIME-DIAL for use in figuring the date of the last broadcast of a specified schedule has been issued to the trade by J. P. McKinney & Son, New York and Chicago newspaper and station representatives. On back of the time-dial are listed the stations represented by J. P. McKinney, including five Gannett stations, two affiliated with Gannett. and WRAK, Williamsport, Pa.

Hornet Plugs

CONCEIVED by CKCK, Regina, Sask., a new wrinkle in merchandising reports has caused much comment in Canadian agency circles. Preparing a merchandising report for the agency handling the Listerine account, sponsoring The Green Hornet on CKCK, staff members dramatized on a transcription the parts they took in preparing the report. For example, the salesman who arranged for a screen trailer at a local theatre was waxed making a phone call to the theatre manager, with other conversations between CKCK representatives and merchants arranging for window displays and other merchandising ventures.

REALISTIC audition setting, to emphasize the appeal of Florsheim Shoe Co.'s $Squared\ Circle$ series, was arranged for a prospective sponsor by George Blackwell, director of WBLK, Clarksburg, W. Va. The station set up in the studio a squared circle, arranged dummy fighters, created an arena atmosphere by calling in peanut, popcorn and pop vendors and then ran off a sample show for the local Florsheim dealer. He signed.

BROCHURES

WNAX, Yankton, S. D.—Data on listener response and 1940-41 program schedule, in personally addressed mail folder.

WGES-WSBC, Chicago — Six-page red and white booklet promoting the Polish language programs.

WOWO-WGL, Fort Wayne — Fourpage syllabus of programs with an educational slant.

WKY, Oklahoma City—Pictorial brochure promoting Sunrise Roundup, early morning rural feature on the station.

WWL, New Orleans—Booklet containing brief resumes of 31 WWL programs suitable for sponsorship.

WCNW, New York—Reprint of pictorial page from PM, New York newspaper, noting WCNW as "the New York Negro community's voice".

WMBD, Peoria, Ill.—Plastic-bound "Peoriarea" coverage brochure.

WSGN Studio Shift

WSGN, Birmingham, will move from the Tutweiler Hotel to new studios in the Dixie Carlton by Feb. 1 according to General Manager Henry P. Johnson, who simultaneously announced a new production policy for the station. Under the new setup Bill Terry, station's sportscaster, becomes production manager. Carl Cannon, promotion manager, will take on additional duties spending most of his time developing local public service and educational programs.

Here to Stay

WBT, Charlotte, has settled its long-standing feud with the Charlotte News. The newspaper had been so hostile as to block out the station's call letters when a WBT microphone appeared in a news photo and uniformly prohibited mention of the station in any news story. However, General Manager A. E. Joscelyn persevered and the News in late December started to feature daily program schedules of WBT and other local stations. Publisher W. C. Dowd even ordered fullpage announcements in the paper to announce the new radio schedule feature. Joked Mr. Dowd to Mr. Joscelyn, still in his first year at WBT, after the agreement had been reached: "I guess I must admit that the wireless is here to stay."

After one short year of Times-Star operation

Purely PROGRAMS

'High-Spot' City

Once again, Sales Management has picked Hartford as a "High-Spot" City. Here's the market and the medium for a banner year in 1941. Write Wm. Malo, Commercial Mgr., for further information.

Basic CBS for Connecticut

DVERTISING the attractions of Hawaii, KGMB, Honolulu salutes one of its Mutual affiliates each week in a manner. A U. S. guest, novel manner. A U. S. guest, from the city of the station greeted, goes on the air, specifying a friend back home who is to receive an attractive lei of flowers. KGMB sends the lei to the station KIMB sends the let to the station in the States, which presents it to the recipient. On Jan. 8 WOR, Newark, presented a KGMB lei to a Mrs. Rhew of New York, who had been designated by a friend appearing on the KGMB program.

Impromptu Dramas

NOVEL sustaining dramatic series, Deadline Dramas, started Dec. on NBC co-starring Irene Wicker, noted singing actress, and Robertson White, screen player and writer. At the beginning of the broadcast, members of the studio audience are asked to write down 20-word sentences outlining situations around which dramatic sketches may be built, and William Fadiman, MGM story and book edi-Fadiman, MGM story and book editor, who acts as m.c. for the program, selects the most likely contribution, turns it over to the costars, while he discourses extemporaneously for two minutes on any subject supplied by Edmund Birnbryer of the NBC Script division. At the end of Fadiman's chat, Miss Wicker and Mr. White will step to the microphone and will step to the microphone and present a finished play based on the sentence previously given to them, portraying all the parts between them. In conclusion, Fadiman will review and criticize the deadline

Home-Like Dining

Home-Like Dining
HIGHSPOT of Dinner Music, a
program of recorded light classical
music sponsored nightly at 6:30 on
WQXR, New York, by Schrafft Restaurants, is the commercial, read by
Rex Benware and written by Jim
Frankenberry. In the commercial
Benware recalls some episode of
boybood days with the family conboyhood days with the family, connecting the episode with the desirability of dining at Schrafft's homelike restaurants. Listeners have voluntarily written accounts of their own youthful experiences with the request that they be used on the commercial, and a recent mention of a Schrafft Christmas catalogue deluged the WQXR offices with listeners' requests.

Juvenile Discussions
A WEEKLY series of juvenile discussions presented by the child welfare organization, Youthbuilders cussions presented by the child wel-fare organization, Youthbuilders Inc. of New York, has started on WMCA, New York. Participants, ranging from 8 to 15 years and selected from the New York city grade schools, discuss current topics extemporaneously.

Why Listen? Why Listen? LISTENERS to a 6 a.m. program on KGKO, Fort Worth, recently were offered a phonograph-radio combination for the best 50-word letter on "Why I listen to the radio early in the morning".

CUTE as a button is four-year-old Nancy Jane Burroughs, musical prodigy of WPTF, Raleigh, N. C. Nancy Jane, heard each Sunday afternoon on WPTF's Birthday Party, has shown a remarkable faculty for remembering songs and catching tricky tempos of the popular BMI tunes she sings.

License Free

USING a new twist to introduce Big Freddie Miller, formerly of WFBM, Indianapolis, to his new Midwest audience, WNAX, Yankton, S. D., is conducting a weekly quiz contest during which winners receive free 1941 automobile license plates. The station purchases the plates regardless of the winner's car model or State of residence. All information is checked with the winner's county treasurer, to whom checks are made payable. The initial winner drove a 1935 Chevrolet whose plates cost \$5.10. Although restricted to auto owners, mail response has been extremely heavy, according to the station.

Names and Sources

EXPLANATIONS of the derivations of proper names are given on tions of proper names are given on the new educational program, The Name Explorer, which started Jan. 4 on WJSV, Washington. Com-mentator on the feature is Howard Barker, former research associate of the American Council of Learned Societies and author of articles on speech and nomenclature in na-tional magazines. Listeners are invited to submit their names for analysis.

Orchid Award

AN ORCHID a day is given away by Brunswick Flower Shop, Cleveland, on its five-minute daily musical program on WCLE, Cleveland. The bloom goes to the local news personality judged to have done the best coal dad or most merital and the local and the period and the period and the second and the period and t the best good deed or most meritorious community service the preceding day. Recorded music is used on the program. Gregory & Bolton Adv. Agency, Cleveland, handles the account.

WAVE DOESN'T ZIG ZAG(Ky.)!

Yep, Zag (Ky.) is a sho'-nuff town-but you won't find it on WAVE'S coverage map! What you will find is the lucrative Louisville Trading Area-and that, gentle reader, is what counts in Kentucky! . . . This area, f'rinstance, has 86% more income-tax payers than the rest of the State put together - and defense activities have boosted the pay-roll more than \$1,150,000 a week! . . . WAVE, alone, serves this million-buyer market without waste - gets listener loyalty because it's the only N.B.C. Basic Red Network station within 100 miles! May we tell you more?

OUR TARGET: The world's largest market. **OUR WEAPON:** 5000 WATTS day and night with Directional Antennae, OUR AMMUNITION: Your product programmed with intimate appeal to New York's Melting Pot millions. OUR AIM: To insure results.

Canada's Farm Problems

CANADIAN Broadcasting Corp. on Jan. 21 is inaugurating Farm Ra-tio Forum for Eastern Canada stations on Jan. 21. The program will be the first effort of the CBC to participate in a widely-organized listening group project covering Ontario, Quebec and the Maritime provinces. Cooperating in organizing listening groups are the Cana-dian Federation of Agriculture, provincial departments of agricul-ture and farm organizations. In Farm Radio Forum radio will be used to highlight current farm problems as they exist along the sideroads and concessions of East-ern Canada. Each broadcast will present background and facts regarding farm problems as a basis for discussion. At the end of each network broadcast there will be a five-minute regional commentary originating at CBL, Toronto; CBM, Montreal; CKCW, Moncton, N. B.

Youth's Problems

COOPERATING with the National Congress of Parents & Teachers— NBC-Red on Jan. 6 started the weekly quarter-hour, Citizens All, Mondays, 5-5:15 p.m. (EST). The series is designed to stimulate public interest and action in solving community and school problems affecting youth and will take the form of roundtable discussions, with Dr. Ernest O. Melby, dean of Northwestern U's school of educations of the control of th tion, as chairman. Future programs will bring listeners the perience and theories of authorities in education and social welfare. *

All For Kids

BADGES, maps, membership blanks and parties for kids are incorporated in a new juvenile program, World Adventure Club, starting Jan. 25 on KSTP, St. Paul, under auspices of the Minnesota Federation of Women's Clubs and the remance languages department the romance languages department of Minnesota U. In addition, free scholarships for three University students are given for work on script, dramatization and music for the weekly series.

Old Dominion Folk

INTERVIEWS with prominent State citizens are presented on *The Virginia Traveler*, new weekly series of WRVA, Richmond, carried under joint auspices of the State Conservation Commission and the Virginia Writers' Project. Ira Avery supervises production for WRVA, with Mrs. Eudora R. Richardson, editor of a State guidebook, arranging guest appearances.

Heroic Dramas

PRESENTED under auspices of PRESENTED under auspices of the Daughters of the American Revolution by the local Uptown Players, WJJD, Chicago, on Jan. 6 started a new Heroes of the Northwest dramatic series. The quarter-hour dramatic shows are heard the first and third Mondays of each month.

U. S. Appreciation

BRINGING to the microphone representatives of nearby American Legion posts, the weekly Appreciate America series is presented on KLX, Oakland, Cal., under auspices of District 10 of the American

ANNOUNCERS' SCHOOL AT WSB

Weekly Sessions Cover All Types of Problems as -Mikemen Criticize Each Other's Work-

LOOKING toward long-run dividends resulting from clean jobs of script reading, WSB, Atlanta, has established an "Announcers' School" to give all staff announcers practice and training in pronunciation, diction, enunciation, "selling" of announcements and general knowledge of the news.

Each Monday afternoon the WSB announcing staff meets with Production Manager Marcus Bartlett and Program Director Roy McMillian. First item is a quiz on name pronunciations, covering persons, towns, ships or anything that has gained news attention during the preceding week. Announcers are required to turn in at least five words each week for this list, which is compiled from their offerings.

A second section of the school is a quiz on names in the news. In-

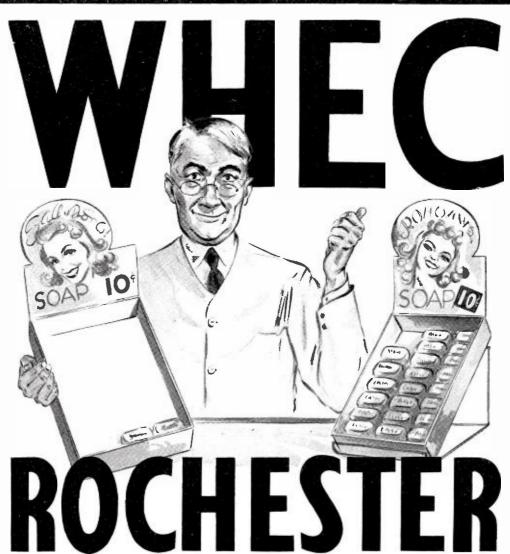

ternational, national and local figures are named, and the announcers are required to identify as many as possible. Another feature, recently added by McMillian, is identification through pictures of five newsworthy persons each week.

The oral part of the meeting, following these two quizzes, is conducted by Mr. Bartlett. Announcers take turns at reading spot an-nouncements and other types of copy. Criticism is offered by other participants. The work of the preby both Bartlett and McMillian, tying in with the station's policy of granting weekly bonuses to announcers—the amount of the bonus determined on the basis of a percentage of station business for each week. Announcers making serious errors may lose part or all of their

bonus, depending on the record.
WSB officials have praised the
system as the best method devised to insure sytematic and conscien-tious work at all times by the an-nouncing staff. Staff members also favor the setup, agreeing they have received much benefit from the school, both in gaining information and securing better coordination of station activities.

COMBINATION studio - transmitter building for WALB, Albany, Ga., will be completed about Feb. 1. It is built on a functional basis, according to Edward J. Lord, WALB general manager, and com-prises four studios, control room, transmitter rooms as well as offices. It is located on the Dixie Highway, on a 20-acre swamp plot.

BASIC CBS-NAT'L REPRESENTATIVES, PAUL H. RAYMER CO.

Address Box 134, BROADCASTING

More Listening, CAB Finds

(Continued from page 20)

dent's address was covered by NBC Red and Columbia; Mr. Willkie's talk by NBC Red and Blue, Columbia, and Mutual.

Sports

During the year the CAB also reported on numerous sports broadcasts including regular reports on football and baseball plus special events such as prize fights and the Kentucky Derby. On May 4, 15.2% of the set owners heard the latter event broadcast between 6:30 and 7:00 p.m.

BOXING-Joe Louis continued to be a great favorite with radio

listeners. The Louis-Godoy fight on June 20, 1940, rated 37.9. One Sept. 6, 14.7% of set owners reported listening to the Billy Conn-Bob Pastor fight. On Dec. 16, the Joe Louis-Al McCoy fight rated 22.1%. None of these ratings came close to the figure of 47.6 scored by Louis and Pastor in 1939 nor the 63.6 attained by Louis and Schmeling in 1938. The latter was broadcast over two networks.

FOOTBALL-The ratings for college football broadcasts follow:

		1940	1939
	5		
	7		23.6
	12		
Oct.	21		87.3
Nov.	2		
	4		35.7
	16		
	18		36.2
Dec.	2		36.0

BASEBALL-During the baseball season the CAB reported monthly on listening to baseball broadcasts. The figures are for actual broadcasts of the games, both major and minor league, heard in the 33 CAB cities. In 1940, interest became more intense month by month as the struggle for the pennants became more furious. This contrasted with the experience in 1939 when the Yankees ran away with the American League race. The ratings for the two years fol-

	1940		1939
April-May	15.9		17.7
June	17.7		17.2
July	18.2		18.7
August	19.3		17.6
September	19.8		16.2
Average	18.1		17.5
The average ra	ating	for	the

average World Series between Detroit and Cincinnati was 25.2 compared with 21.3 for the 1939 series between the New York Yankees and the Cincinnati Reds. The games were broadcast over the Mutual network in both years.

CAB Organization

The foundation for the CAB was laid by the radio committee of the Association of National Advertisers in January, 1929. As a result of the committee's discussion of a study made by Crossley Inc., a number of leading advertisers employed that organization to make individual surveys. Later these were combined into a report for the ANA and at the same time Crossley was requested to submit an outline for a cooperative investigation which would include "the checking of program popularity." The ANA appointed a special committee to work out the details. The field work was started by Crossley Inc., on March 1, 1930.

In 1934 the CAB was reorganized, taking its present set-up as a mutual, non-profit organization with a governing committee of six, three of whom are appointed by the ANA and three by the American Assn. of Advertising Agencies. This committee sets all policies, business, financial and research. Crossley Inc. is still employed to do the field and technical work. The CAB is the official organization for rating radio programs. It is supported

by leading advertisers, agencies and networks on the basis of their respective stakes in radio.

The Method Used

The loosely defined term "recall" should not be applied to the technique the CAB now uses. As the result of 12 years of practice, constant experimentation and revision, it is now using a method which perhaps would be better defined as "the triple check method of identification". Under this method the listener need not remember the exact program name. He or she needs to give sufficient information about the program to enable the investi-gator by cross checking station, time, or description of the program, to enter it on CAB records as having been heard. This method has several outstanding advantages such as speed, accuracy, economy. It obtains the answer to the vital question "Has the program made an impression?"—a factor which advertiser, to be successful, must know.

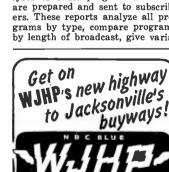

Fifty-two investigators, making calls at eight stated times each day, working simultaneously 168 days of the year in 33 major cities from coast to coast, complete 700,000 interviews based on more than 1,100,000 telephone calls. The geographical distribution of calls coincides roughly with the distribution of radio sets and calls are distributed by income groups in accordance with the distribution of radio set ownership by income groups. Thus the criticism leveled at most telephone surveys, that they reach an undue proportion of persons in the upper income groups, has been eliminated as far as the CAB is concerned.

Reports Issued

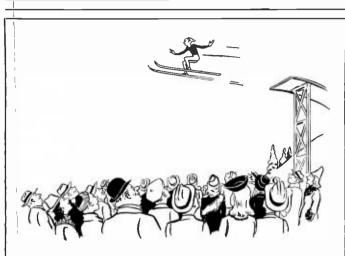

The results of these investigations are sent to subscribers in the form of 24 semi-monthly reports which include ratings for each sponsored network program. Each rating which appears is a percent-age of set owners and not of listeners. To illustrate simply:

If, out of each 100 set-owners who are interviewed in the area covered by a given program, 20 report that they heard it, then the rating which appears in the report is 20. The number of stations carrying a program does not affect the size of the rating.

Semi-annually two complete analyses of radio program audiences are prepared and sent to subscribers. These reports analyze all programs by type, compare programs by length of broadcast, give varia-

H. G. WELLS, JR., General Manager Represented nationally by JOHN H. PERRY ASSOCIATES WM. K. DORMAN, Mgr., 225 West 39th St., N. Y. CITY CHICAGO DETROIT ATLANTA PHILAGELPHIA

IT'S SURE-FIRE!

And if you want an attentive audience in Roanoke and southwest Virginia, tell your story over WDBJ! Because listen: WDBJ is the top station in this neck of the woods. And our listening area embraces an audience that spends upwards of \$400,000,000 at retail a year. What's more, we have convincing evidence that our buying suggestions produce surprising results! Would you like to know more?

ROANOKE, VIRGINIA

Owned and Operated by the TIMES WORLD CORP. CBS Affiliate • 5000 Watts Day • 1000 Watts Night • 930 Kc.

THE BROTHERS ALLEN, of Virginia, now are prime movers in the operation of three Virginia stations which they have formed into the which they have formed into the Tri-City Group as a regional network. At left is Edward A. Allen, president, prominent in industry affairs and vice-president of National Independent Broadcasters, with Philip P. Allen, vice-president of Lynchburg Broadcasting Co., their operating company. They own WLVA, Lynchburg; operate WBTM, Danville; own half of the new WSLS, Roanoke.

tion in popularity preferences both geographically and by income levels, give the relationship between the amount of time devoted to types of programs, and the average popularity of those types. The summer report, for the five months of daylight saving time is based on approximately 292,000 completed interviews with radio set-owners, the seven-month winter report on 408,000.

Annually the CAB issues information on the ebb and flow of the radio audience, comparing the number of sets in operation by years, by season of the year, by parts of the day, by hours of the day, by income levels, by geographical sections.

From time to time special reports and ratings on outstanding events such as political speeches, international crises, prize fights, World Series baseball, football, etc. have been issued

Further the CAB supplies special analyses of radio programs from statistical material already compiled. For example, after a program has been on the air for a season a subscriber can obtain breakdowns showing the relative popularity of the program for A, B, C and D income levels, by cities, major geographical sections or sales areas. Subscribers can also obtain complete case histories of all commercial programs broadcast during the past ten and one-half vears.

How Service Is Used

Subscribers use the CAB report to help them:

1. Determine the best day and hour to select whenever a choice of radio time is offered.

2. Follow the popularity trend of various types of programs and discover when a given type is worn

3. Purchase talent advantageously by comparing the performers on different programs.

4. Decide whether a given season should be included or dropped.

5. Make comparisons between daytime and evening programs.

6. Compare the difference in program audiences by sections of the country, population groups, income levels, etc.

7. Discern by study of the leaders and laggers what makes a good

radio program.

8. Check where the most important competition is and thus find the most desirable time to buy.

The CAB provides withint a fortnight the "box-office" on all sponsored network programs based on a comprehensive, nation-wide sample, regardless of the time of day or night program is broadcast.

Cities Surveyed

The investigation work is regu-

larly carried on in:

Eastern Cities - Boston, New York, Philadelphia, Pittsburgh, Baltimore, Detroit, Cleveland, Buifalo, Cincinnati, Hartford, Providence, Syracuse, Rochester, Washington.

Southern Cities — Louisville, Memphis, Atlanta, New Orleans, Dallas, Houston, Oklahoma City. Midwestern Cities—Chicago, St.

Louis, Des Moines, Kansas City, St. Paul, Minneapolis, Omaha. Pacific Coast Cities—San Fran-

cisco Los Angeles, Portland, Seattle, Spokane.

WCOV, in Montgomery, Is Named in Labor Suit

CHARGED with violation of the Fair Labor Standards Act, WCOV, Montgomery, Ala., has been named defendant in a suit filed by the Wage & Hour Division of the Labor Department in the Federal District Court in Montgomery, according to Robert T. Amis, regional wage-hour director in Birmingham.

Basis of the suit is alleged failure of the station to comply with the minimum wage and over-time provisions of the law, Mr. Amis explained, although the li-censee, Capital Broadcasting Co., also is charged with having failed to keep proper records of the wages paid and hours worked by its employes. In the few actions previously instituted against radio stations by the Wage & Hour Division defendants have entered into consent decrees providing compliance with the Act and in some cases restitution of back-pay to employes.

WOW CREW'S TREK

Quartet Travels 4,000 Miles To Cover Grid Game

THE Rose Bowl game in Pasadena between Nebraska and Stanford meant a 4,000-mile trek for a crew of WOW, Omaha, comprising Fos-ter May, news and special events editor; Tom Dailey, sports editor; Chief Engineer W. J. Kotera, and Chief Recording Engineer Joe Herold. First they journeyed by car to Phoenix to cover Cornhusker practice sessions, which were recorded and used on Dailey's Sportstime with Falstaff programs Dec. 20-Jan. 2, sponsored by Falstaff Brew-

They then went to Pasadena to cover the team's arrival, Rose Bowl parade and other special pickups. The game itself was carried special by WOW and also on NBC-Blue, with Bill Stern announcing. In addition to the Falstaff sponsorship, Foster May's daily broadcasts, in-cluding 500 words of telegraph filed daily, were sponsored by the Chevrolet Zone Dealers of Nebraska and

virtue of the precise language of the President's Executive Order, to the study of "physical aspects" of domestic broadcasting. There is specific injunction against censorship or anything bordering on it.

Significance was attached to the appointment of Lowell Mellett, one of the six assistants to the President and head of the Office of Government Reports, to both the Domestic Broadcasting and the International Broadcasting Committees. In the event of a national emergency, it is predicted in Washington, Mr. Mellett will head the Government information bureau, which would be the counterpart of the George Creel functions during the first World War. Mr. Mellett, a distinguished editor and publicist, has devoted considerable time and attention to radio in the last few years, during his Government service.

Domestic Members

Members of the Domestic Broadcasting Committee and their alter-

Neville Miller, President, NAB, chairman; Andrew D. Ring, FCC assistant chief engineer, secretary; Harry C. Butcher, vice-president, CBS (alternate, Paul Porter); W. E. Macfarlane, president, MBS (alternate, Louis G. Caldwell); Frank M. Russell, vice-president, NBC; Harold A. Lafount, president, National Independent Broadcasters (alternate, Andrew W. Bennett); Lowell Mellett, Office of Government Reports; G. L. Best, engineer, AT&T (alternate, H. H. Carter); William D. Boutwell, chief, Radio Section, Federal Radio Education Committee; John Shepard 3d, president, FM Broadcasters Inc.; W. G. H. Finch, president, Finch Telecommunications Inc. (alternate, James W. Baldwin); Dr. W. R. G. Baker, National Television Systems Committee; Ellery W. Stone, executive vice-president, Postal Telegraph-Cable Co.; Harvy Otterman, State Dept.; Louis Pitcher, executive vice-president, U. S. Independent Telephone Assn., (alternate, Clyde S. Bailey).

Members of the International Broadcasting Committee are: Walter C. Evans, Westinghouse, chairman (alternate, F. P. Nelson); P. F. Siling, FCC international section (alternate for Gerald C. secretary; Nelson Rockefeller, Coordinator of Commercial & Cultural Relations Between the American Republics (alternates, James W. Young, Don Francisco, Edmund Chester); Harry C. Butch-er, vice-president, CBS; Robert S. Peare, manager of broadcasting, General Electric Co.; Neville Mil-ler, president, NAB; John F. Royal, vice-president, NBC; Rear Admiral Stanford C. Hooper, Navy Dept.; Lowell Mellett, Office of Government Reports; Thomas Burke, chief, Division of International Communications; Walter S. Lemmon, president, World Wide Broad-casting Corp. (alternate, Prof. casting Corp. (alt William Y. Elliott).

Hogan & Hartson Firm Is Appointed by NBC

RETENTION of the firm of Hogan & Hartson as Washington counsel for NBC, with Philip J. Hennessey Jr., former staff attorney, as special counsel for the network, was announced Jan. 10 by A. L. Ashby, vice-president and general counsel of NBC.

The Hogan & Hartson firm heretofore has represented CBS in Washington. Duke M. Patrick, former general counsel for the Federal Radio Commission, is radio specialist for the firm. Mr. Hennessey is moving his offices to the Hogan & Hartson suite in the Colorado Bldg. and will collaborate with Mr. Patrick in the handling of NBC matter. He will retain his general radio practice.

CBS is represented in Washington by Paul A. Porter, attorney who heretofore worked with the Hogan firm on special matters. The CBS Law Department in New York, under General Counsel Ralph F. Colin and General Attorney Joseph H. Ream, also is available for Washington matters.

Graybar Transfers Jones

GEORGE I. JONES, Washington sales representative of Graybar, has been transferred to Graybar's Atlantic District, with headquarters in Philadelphia, as manager of the technical equipment department. His Washington during heart been taken to the control of the c ton duties have been taken over by Leslie H. Whitten, general communications sales manager.

WHEN Sports Commentator Graham McNamee (center) went to Pasadena, Cal., to give color description during the NBC broadcast of the Rose Bowl football game Jan. 1, Harry M. Ticknor (left), past-president of the Pasadena Tournament of Roses Assn., presented him, as well as the network, with a parchment scroll "as a token of recognition of and appreciation for a decade and a half of invaluable cooperation and unsurpassed broad-casting achievement." Bill Stern, NBC sports commentator, lends moral support. McNamee on Jan. 1, 1927, broadcast the first Rose Bowl football game heard on the air. It was also the first transcontinental network program to originate from the West Coast.

SCOOP FOR DEBUT Magnolia Series Gets Break

On Plane Crash

MAGNOLIA PETROLEUM Co.'s new 52-week news contract on KRGV, Weslaco, Tex., literally got off to a flying start week of 4 when the station's news editor, Brad Smith, scored a nationwide

Smith got first word of the forced landing of a big 13-ton Navy sea-plane 80 miles northwest of Wes-laco on three inches of water at the Santa Fe Ranch. Smith re-ceived his tip just before the first Magnolia newscast was to be aired,

and after putting a bulletin on the program, left for the scene. Pilot of the big plane made his way to the home of Richard King Sr., grandson of famed Capt. Richard King, pioneer founder of the Great King Ranch, which adjoins the Santa Fe. King had heard Smith's bulletin of the forced landing and could hardly believe his ears when the Navy officer identified himself.

NBC Appoints Miller As Director of Talks

WILLIAM BURKE MILLER, formerly director of night programs for NBC, has been appointed director of talks for the network, according to Sidney Strotz, NBC vice-

president in

charge of pro-grams, to whom grams, to whom Mr. Miller will

report. J. de Jara

Almonte, for-

merly assistant to

the president, has been named night Mr. Miller program manager, succeeding Mr. Miller.

Position of director of talks is a new one, created by Mr. Strotz as a part of the realignment of his department announced last month [BROADCASTING, Dec. 15], when the duties were described as coordinating all forum programs, Govern-mental talks and other programs of conversial or political nature, in cooperation with the program directors of the Red and Blue networks.

SELECTION of members of the cast for The Star Spangled Theater, susfor the star spanged Theater, sustaining program heard on the NBC-Blue Sundays, 8-8:30 p.m., is made by listeners who indicate by letter their choice of current Broadway stars they would like to appear on the program and also the plays they would like to hear. The players who get the most votes, if available, are chosen for the broadcast.

HONOR FOR WLWO Foreign Firms Join Greeting -To Shortwave Outlet-

WLWO, Crosley international shortwave station in Cincinnati, on Dec. 30 received enthusiastic praise from 590 Toledo business execu-tives, civic leaders and traveling representatives of Toledo industrial firms for its unique broadcast from the annual salesmen's dinner sponsored jointly by the Toledo Chamber of Commerce and the Toledo Assn. of Manufacturers' Repre-Assn. of Manufacturers' Representatives. Theme of the meeting was "Toledo Greets the World", with WLWO broadcasting greetings from the gathering to representatives of Toledo firms stationed in far-away lands.

A huge map, erected above the speakers' table, with lights denoting the capitals of the world, registered acknowledgements of the greetings from various cities all over the map. Before the 45-minute broadcast concluded 36 cablegrams had been received from cablegrams had been received from nine Latin American cities, with other wired acknowledgements continuing to pour into Chamber of Commerce offices through the following day. In addition to the WLWO broadcast, a quarter-hour pickup was aired by WLW, Crostley regular broadcast station, with Peter Grant interviewing Toledo industrialists and civic leaders.

Pan American Day at the International Exposition in Cleveland Jan. 13 was also to be climaxed by a WLWO broadcast to Latin American countries, with Jorge Mayoral, Spanish announcer, inter-viewing South American notables in attendance.

Press Functions Of NBC Shifted

Separate Clip Sheets Begun For Red and Blue Nets

A REORGANIZATION of the NBC New York press division activities along individual network lines, with a division of duties and personnel between the Red and Blue networks, was announced Jan. 6 by Frank E. Mason, vice-president in charge of information for NBC. in charge of information for NBC. The daily clip sheet of NBC program publicity on that date was replaced by two new clip sheets, one devoted to Red Programs exclusively and the other to Blue programs.

grams.

Richard Spencer, formerly in charge of the single clip sheet, has been appointed editor of the Red Network clip sheet. He will be assisted by Charles Pekor, previously in charge of commercial program publicity (abolished under the new setup), and by Emil Corwin, who formerly handled special publicity assignments. publicity assignments.

Functions Coordinated

Arthur Donegan, formerly assistant editor of the combined release, is now Blue clip sheet editor, with B. K. Pratt and Warren Gerz as assistants. Mr. Pratt formerly handled special Blue Network publicity and Mr. Gerz acted as a news editor. Photo Editor Florence Marks will serve both papers in that capacity and will continue to handle all requests for pictorial publicity. Other sections of the press division will continue on their present status. present status.

Earl Mullin, assistant press man-

ager, will act as general coordinator for the division, with both clip sheet editors and other section heads reporting to him. William Kostka retains his present title of manager of the division, but the distribution of the new clip sheets nationally instead of only in the least as before adds a national constant. East as before adds a national coordination task to his other duties. In addition to the daily Red and Blue releases, a semi-monthly sheet of feature material will issue, also for national distribution. NBC press departments in Chicago and Hollywood will, however, continue their present publicity service to editors in their respective terri-tories, at least for the time being, while the new service is being tested.

Recognized as a leader in radio educational circles, Dr. Crane, in an address over KDFN, Casper, Wyo, Jan. 2, observing that station's eleventh birthday affirma-tively supported radio by the American plan. Dr. Crane several years ago was the spokesman for the educational group supporting allocation of a fixed percentage of broadcasting facilities for educational purposes and carried the battle to Congress, where it died

Opposed by Crane Asserts Radio Will Progress

By Private Competition EDUCATORS who formerly espoused Government ownership of broadcasting have come to the con-

Free Play to Genius

Asserting that as chairman of several national radio committees he had studied radio as an instru-ment of democracy, Dr. Crane said his group had now come to the conclusion that technical advancement of broadcasting "will proceed fast-er through the free play of American genius in private competition, with Government acting only as the umpire to enforce fair traffic rules". He continued:

"We believe that avenues to the air should be kept open as freely as natural limitations will permit for all those offering constructive service to the listening public. We be-lieve in promotion of school and local public broadcasting stations as a part of an American system demonstrating public service in ways less freely open to business enterprise. We believe that the discovery, the training and the presentation of America's best can be achieved, through cooperation of all parties interested in making radio an effective instrument of democracy. The listeners' welfare is paramount."

In addition to his chair at the university and his chairmanship of the national committee, Dr. Crane also is chairman of the Radio Committee of National Assn. of State Universities and Land Grant Colleges and chairman of the Rocky Mountain Radio Council. In the latter capacity, he was instrumental in organizing the Rocky Mountain Radio Council, now furnishing programs to 19 stations in Colorado and Wyoming.

It has a membership of 28 institutions and citizens' organizations and is supported by contributions from foundations and individuals, Maintaining central broadcasting studios in Denver, the council in the first nine months of its existence developed 795 broadcasts from 16 organizations, including music, entertainment, current history, science, agriculture, literature, economics and public issues.

A GOOD TIME was had by all this Hollywood group, celebrating renewal for 52 weeks by Standard Brands of the weekly NBC serials, One Man's Family and I Love a Mystery. Both are written by Carlton E. Morse (right), caught with a group of NBC Hollywood executives (1 to r): John Swallow, Western division program director; Tracy Moore, Pacific Blue network sales manager; Alex Robb, manager, Artists Service.

Besides manufacturing and distributing the movie juke boxes, the firm will also make and distribute 16 mm. musical films. Vallee will appear in and also supervise production of the films. Three have been completed with Vallee as the star, and two with Gertrude Niesen featured.

EIGHT members of the commercial staff of KTAR, Phoenix, and their sponsors were entertained with a week-long New Year trip to Southern California. The trip was a present for topping a stiff business quota in a six-week year-end sprint. Making the trip with their wives were Dick Heath, commercial manager, Brick Miller, Cecil Jackson, Bill Harvey, Harold Gates and Harold Ritter, salesmen. Mary Lou Watson, commercial department secretary, and her husband also made the trip.

NEW facts on the trolley-bus strike in two Northern Kentucky counties were brought to light in a roundtable discussion on WCKY, Cincinnati, with both sides participating. Newspapers picked up the informa-

tion divulged on the roundtable, arranged by L. B. Wilson, WCKY

The strike started Dec. 15, tying up public transportation for 150,000 Kentuckians and thousands of Cincinnatians having business across

the river. Drama was enacted in the studios when City Manager C. O. Sherrill, of Cincinnati, learning new information during the broadcast in which he participated, tried to organize an immediate conference between conflicting interests. At the roundtable were (1 to r) Mr. Sherrill; J. A. Zanger, v-p Brotherhood of Railway Trainmen; Carl Ebert, Newport, Ky., city solicitor; O. David Zimring, counsel, Amalgamated Assn. of Street, Electric Railway & Motor Coach Employes; Robert Armstrong, Amalgamated representative; Bill Robbins, V.CKY announcer and moderator of the program.

Houston Hearing

APPLICATION of West Publishers Inc., publishing newspapers in Dallas and Austin, for a new regional station in Houston on Jan. 7 was designated for hearing Jan. 7 by the FCC. The company seeks 610 kc. with 1,000 watts power fulltime in Houston, and also is applying for an outlet in Austin. Applications filed for Corpus Christie and Dallas by the company recently were withdrawn.

Song Plagiarism Action Names Benny and Other

A \$250,000 plagiarism suit, naming Jack Benny, star of the NBC Jack Benny Show, sponsored by General Foods Corp. (Jell-O), Dennis Day, singer on that program, and others as defendants, was filed in Los Angeles Federal Court Dec. 31, by Ellen Kelty, Hollywood songwriter. She charges that they "lifted" portions of her song, "I'd Know You Anywhere". Miss Kelty con-tends in her suit that she composed and copyrighted the song in 1937. Later, she averred, the defendants exploited a song by that same title, "which was largely copied" from her original composition. Miss Kelty asked an injunction, an accounting of profits and damages based thereon of "not less than \$250,000". Also named as defendants are Kay Kyser, ASCAP, RKO Radio Pictures, Brigham Vocco and Conn Inc., and 1,000 John Does.

Meyerhoff Heads Agency As Neisser Leaves for Post With Food Concern

WALTER R. NEISSER, since 1929 partner and secretary-treasurer of Neisser-Meyerhoff, national advertising agency with offices in Chicago, Milwaukee and Los Angeles,

on Jan. 1 with-drew from that organization to become secretary of Wyler & Co., manufacturer of soups and bullion cubes.

Arthur E. Meyerhoff, president, will continue as sole owner of the firm which is now

Mr. Meyerhoff titled Arthur Meyerhoff & Co. Before entering the agency field Mr. Meyerhoff was manager of the circulation and promotion department of the Wisconsin News, Milwaukee. In 1929 he resigned his

position with the publication to enter the advertising agency busi-ness in Milwaukee, founding the firm of Neisser-Meyerhoff. By 1932 the business of the company had so expanded that it became necessary to open branch offices in other cities. The home office of the agency was then transferred to Chicago,

Personnel of Arthur Meyerhoff & Co. will remain intact with no one as yet named to hold the position of secretary-treasurer.

Mrs. Firestone's Song

Mrs. Firestone's Song

NEW THEME song of the Voice of
Firestone program, heard Mondays
on the NBC-Red, was written by
Mrs. Idabelle Firestone, widow of the
late Harvey Firestone. Titled, "If I
Could Tell You," the composition replaces "In My Garden," also written
by Mrs. Firestone who, in addition to
being an accomplished pianist, has in
past years composed many unpublished melodies.

HOLLYWOOD Radio Producers' Club has resolved itself into a new organi-zation, the Academy of Radio and Television Sciences. Organized to ad-Television Sciences. Representatives

JOHN BLAIR & Co. has moved its offices in St. Louis to Suite 349-50 Paul Brown Bldg., and the new telephone number is Chestnut 5688. Miss Ruth Sullivan has joined the staff as secretary to J. Chris Hetherington, St. Louis manager.

KMMJ, Grand Island, Neb., has named Headley-Reed Co., Chicago, as national representatives.

RADIO ADVERTISING Corp., New York, announces that Henri W. Molley resigned from that organization, effective Jan. 1.

FRED C. WITMER, for the last three years with the radio department of Blackett-Sample-Hummert Inc., Chicago agency, on Jan. 6 joined Joseph Hershey McGillvra, station representatives, same city.

GEORGE ROESLER, for the last 15 years active in the radio industry, on Jan. 3 joined the Chicago office of The Foreman Co., national representative firm.

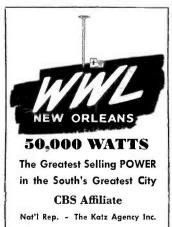

KTMS, Santa Barbara, Cal., has appointed Paul H. Raymer Co., as national representatives.

HOWARD H. WILSON Co., representatives, recently established new offices at 4404 White Bldg., Seattle. Hal Pierce has been placed in charge by Homer Owen Griffith, Pacific Coast manager, who headquarters in Hollywood.

ALICE SHEPHERD, formerly assistant to the radio director of Blackett-Sample-Hummert Inc.. Chicago. on Jan. 6 joined John Blair Co. as head of the promotion department and secretary to Paul Ray, of the sales department.

A & S Lyons Partners

A. & S. LYONS, New York and Hollywood radio talent agency, has announced three new partners in the firm, effective Jan. 1. They are Donald D. Stauffer and William R. Stuhler, both members of the company, and Nat Wolff, who has been conducting his own talent agency since June 15, 1940, when he resigned from Myron Selznick Inc., Hollywood. The three partners will function on radio matters creating new programs, as well as in stage and motion picture activities. Mr. Stauffer resigned two years ago as vice-president in charge of radio of Young & Rubicam, New York, to join Lyons, while Mr. Stuhler became a member of the Lyons firm three years ago after having been radio director of Young & Rubicam.

GREETINGS to Hugh B. Terry (left), recently promoted from sales manager to manager of KLZ, Denver, were extended Jan. 3 by Roy S. Durstine, president of the New York agency bearing his name. Mr. Durstine spoke at a banquet of the Colorado Manufacturer's Assn., and was interviewed on KLZ.

R & R Names Casey

MATTHEW J. CASEY, formerly of Hearst Magazine Corp. and one of the founders of Differential Wheel Corp., on Jan. 8 was appointed vice-president and manager of the Detroit office of Ruthrauff & Ryan. He succeeds Ellis J. Travers, transferred to the agency's New York executive staff to take charge of promotional work. Mr. Casey at one time was associated with Young & Rubicam.

WCAU May Abandon Play-by-Play Baseball

HOME GAMES of major league baseball clubs in Philadelphia, the Athletics and Phillies, will be broadcast next season despite the sharp retrenchment contemplated by radio in carrying play-by-play descriptions. Concern over the baseball broadcasts arose when the clubs were apprised that CBS-operated stations plan to drop daily baseball programs in favor of daytime serials.

WCAU, Philadelphia CBS affiliate, has made no decision and it is expected the station will continue carrying the Shibe Park games. However, final action will not be taken immediately by Dr. Leon Levy, president. If it is decided not to carry the games, it was disclosed that WCAU would have them transferred to another station. Last season WIP carried daily play-by-play descriptions of both clubs for Atlantic Refining Co., feeding the broadcasts to a limited regional network. Sponsorship of the WCAU games last season was split between Socony Vacuum Oil Co. and General Mills, each carrying three days a week.

WCAU has the exclusive broadcasting rights for the Phillies games, reportedly purchasing the rights for five years for \$72,500, and still has four years remaining

Prof. Quiz Film

ALEXANDER SMITH & Sons, Yonkers, N. Y., which starts Feb. 1 with a 13-week campaign of thrice-weekly programs featuring a woman commentator on six New England stations [BROADCASTING, Dec. 15], has prepared a 30-minute film, starring Profesor Quiz and Bob Trout, CBS announcer, to put over its sales story. The picture, titled "Right — 100% Right", was made by Audio Productions, Long Island City, and will be shown to Alexander Smith sales clerks giving them high points on how to match Smith rugs with a housewife's draperies or wallpaper. Anderson, Davis & Platte, New York, is agency.

on the five-year contract. Atlantic Refining Co. has two more years of a three-year contract remaining of its exclusive rights to broadcast the A's games. An agreement entered into between Atlantic and WCAU enables both parties to broadcast the games of either club. General Mills has an option on the 1941 broadcasting of the Phillies games on WCAU. Should the station decide not to carry baseball games in 1941, WCAU would still retain the exclusive broadcast rights, necessitating any sponsorship to clear through WCAU.

In INDIANA only WFBM can give you ALL these PLUS services featuring your program in newspapers, stores, theatres and taxicabs:

- Year-round advertising schedule in Indianapolis Times
- Outstanding window displays in leading stores
- Eye-catching rear tire cover posters on city's largest taxi-cab fleet
- WFBM NEWS—4-page illustrated promotional leaflet carried in these cabs
- Special interior displays in principal department stores

Monopoly Denied In Network Brief

MBS, However, Takes Other Position In Argument

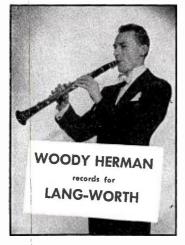

A SHARP clash of opinion on whether the "door of opportunity" remains open in the network broad-cast field was registered by NBC and CBS on one hand and MBS on the other in supplemental briefs filed Jan. 2 with the FCC in connection with the Dec. 2-3 oral arguments on the Network-Monopoly Committee report.

NBC and CBS maintained that competition in the network field to-day points to anything but monopo-ly, and cited MBS's own successful rise in the field to bear out the point. Taking the opposite view, MBS averred that CBS and NBC had so completely tied up desirable facilities, through long-term affiliation contracts with exclusivity clauses and time options, that lit-tle was left for MBS. MBS also observed that formation of an adequate fifth network would be "very difficult".

Nine Nets Possible The dissertations upon the competitive aspects involved in the netpetitive aspects involved in the network situation were offered upon a request by FCC Chairman Fly at the December oral arguments. The briefs filed by the three networks also indicated a similar split in opinion on the jurisdictional question, with MBS holding that the FCC "has ample power under the Communications Act of 1934" to in-Communications Act of 1934" to invoke rules designed to break up the alleged monopoly, and NBC and CBS holding just as firmly that the Commission should not promulgate rules such as the seven proposed regulations previously advanced, citing everything from Congressional intent to Supreme Court decisions [BROADCASTING, Dec. 15].

In addition to the briefs from the three national networks, the FCC also received briefs from Yankee Network, Independent Artists' Representatives, Associated Music Publishers and Roy L. Al-bertson, licensee of WBNY, Buffalo, N. Y., all of whom attacked present network operations.

PACIFIC GREYHOUND LINES, San Francisco (bus transport) on Jan. 5 celebrated its fifth consecutive year in radio on the West Coast and its third consecutive year on MBS in the Western states. Company sponsors Romance of the Highways with program originating at KFRC, San Francisco

AAAA-NAB Order Form

(Continued from page 9)

every contract would be in force no less than 28 days.

In case a broadcast is omitted or interrupted due to cause beyond the station's control, the contract provides the station is liable only for a pro rata reduction in time charges. Thus, if three minutes of quarter-hour program were missed in one way or another, the station would be liable only for rebate for one-fifth of the quarterhour charge. The new firm also provides that the station has the right to cancel a contracted broad-cast in favor of "any event which it deems to be of public importance".

Discounts and Rates

With rate structure based on the most-favored-nation principle, the contract form specifies that additional time purchases under the contract, within a year of the first broadcast, qualify all purchases under the contract for whatever frequency discounts may be granted. Other provisions of the "rates" item, which some stations may find not adapted their rate policies, according to the NAB, in-

If the station revises rates or discounts, the contract may be extended for not more than 52 weeks from the effective date of the revision at the original rates and discounts; if additional time is bought, the rates and discounts prevailing at the date of the contract apply to the additional time for a period of 52 weeks from the effective date of rate or discount revision; all broadcasts placed under the contract within one year from the date of the first broadcast may be combined to earn frequency discounts, except that announcements cannot be combined with fiveminute or longer programs for this purpose.

The form also specifies that agency program material shall comply with the NAB code.

The "indemnity" section deals with responsibilities of station and agency or advertiser in litigation brought by a third party, with the station delegated as defendant or "indemtor" in any action involving "station material" and the agency in any action involving "agency material". The indemnitor is given full and complete control of the defense in litigation, and is responsible for payment of damages or costs that might arise from the judgment.

The NAB-AAAA committee, appointed to work out the new form with the AAAA timebuyers' committee, is headed by Harry C. Wilder, owner of WSYR, Syracuse, N. Y. Other members include R. L. Harlow, Yankee Network; Richard H. Mason, WPTF, Ral-eigh, N. C.; Edward Petry, Ed-ward Petry & Co.; Frank A. Seitz, WFAS, White Plains, N. Y.; Dale Taylor, WENY, Elmira, N. Y.; Lee B. Wailes, Westinghouse manager of broadcasting; Paul F. Peter, research director and Russell P. Place, counsel of NAB.

Ormandy Balks

OPEN CLASH between a symphony orchestra and ASCAP, the first since ASCAP music went off the air Jan. 1, came to light Jan. 7 when Eugene Ormandy, conductor of the Philadelphia Orchestra, announced he would ignore an ASCAP ban on at least one selection dur-ing the orchestra's Jan. 17 broadcast on MBS. He de-clared that he will direct the orchestra in his own arrangement of Handel's suite from "Water Music", to which ASCAP claims rights, on the program and expressed the hope that "the radio stations will have the courage to go along with me". Mr. Ormandy said he had applied for ASCAP but since he had not "signed anything", he was not a member.

ASCAP Authors Get Miller Letter

ON JAN. 1, 1941, the NAB sent an open letter to authors and composers who are members of ASCAP which started out as follows: "This open letter comes to you from more than 600 radio stations representing every section of the United States. Beginning today, it be-comes unlawful for any one of us to use on any one of our programs any song or other musical composi-tion written by any one of you."

Just about the same time ASCAP addressed an open letter to radio advertisers, radio artists and radio listeners, which began this way: "Beginning New Year's Day exactly 1,166 of America's outstanding composers and authors are to be barred from the air by the joint decree of CBS, NBC and MBS."

Sort of Silly

Continuing that the "small group of ASCAP officials to whom you long ago turned over the rights to all of your music" has spotted spies throughout the country to catch any slip on the part of broadcast-ers so they may "call down upon our heads the penalties of the copyright law," the NAB letter continues that "to you who know that, from the very beginning, we have been your largest and best-paying sustance. customer, this must seem a silly situation."

Citing the things about ASCAP "which you know and of which you personally do not approve," the letter reviews also the broadcasters' attempts to negotiate a new contract with ASCAP and the constant rebuffs they received from the Society's management, conclud-

"So now for a time we are not allowed to play any of the music

Members of the AAAA committee are Ned Midgley, BBDO, chairman; C. T. Ayres, Ruthrauff & Ryan; Carlos Franco, Young & Rubicam; William Fricke, AAAA; Fred Gamble, AAAA.

which any of you have written. But it can't be forever. Sooner or later ASCAP's management—or new management—will change methods which even a Federal Court has recently denounced as illegal. And when ASCAP changes these methods it will be ready to do business on a business basis with a friendly industry which is and always has

been its best potential customer.
"For we want your music. We want to give our listeners all of the best of all kinds of music. And we want to pay for music when we use it.

"But—if only because our very use of the air is lent to us by all of the people—we want to keep radio's opportunity an opportunity for all composers and authors. That includes those of you who are ex-tremely well paid as well as those who have not been getting what we consider your share of what ra-dio has been paying. It also in-cludes those thousands of com-posers and authors who are not ASCAP members."

ASCAP's Charges

ASCAP's counter blast states that "on New Year's Day exactly 1,166 of America's favorite composers and authors are to be locked out, frozen out, starved out. Fantastic? But true . . . Everything from symphony to swing by 1,166 of America's favorite composers ruthlesly ordered off the air.

"CBS, NBC and MBS needed music as the last link in their chain. So they jointly combined to organize their own music publishing firm, BMI. They have granted it a practical monopoly of broadcasting music. . . . Beginning New Year's Day the practical effect of this mopay the practical enect of this monopoly will be that only music 'subject to its control' will be permitted on the air, and all other music will be boycotted. This is the real story of why ASCAP is to be barred from the air."

The ASCAP letter concludes: We recognize the problems of bandleaders, musicians, artists. And of advertisers, who invested great sums in shows on the understanding that the chains would supply them with that quality of music used as an inducement for them to buy time on the air. Above all, we recognize a responsibility to the public which needs the inspiration, stimulation and relaxation of music to maintain its morale in these trying times. Broadcasters, Advertisers, Talent—Let's Please the Public!"

per hour on speedier teletypes. More material for more newscasts—result, more sponsors. That's INS.

Problem of Bands on Remotes Clears as Formula Is Devised

Copyright Insurance of \$1,000,000 Is Taken Out By BMI to Cover Its Printed Selections

QUESTION of who should assume responsibility for infringements of ASCAP music if such should arise became a major issue shortly after Jan. I and for a time it looked as if many name orchestras would drop their sustaining programs entirely rather than sign the indemnity agreements offered them by the networks. For a time several bands did cancel their late evening sustaining shows, but by the end of last week the situation appeared to be straightening out.

After Glenn Miller, Eddy Duchin, Sammy Kaye and other leaders had refused to sign the agreements offered them, NBC on Jan. 5 issued the following explanation of its request: "Seeking to clarify the misunderstanding on the part of certain band leaders on the question of indemnifying the network against the inadvertent use of unlicensed music during a broadcast, particularly broadcasts originating outside the studios, NBC announced today the problem was under consideration and a solution was expected to result in mutual protection for both parties.

A Check on Licks

"The sole purpose in seeking protection in the playing of uncopyrighted and unpublished music," the announcement continued, "is to guard both parties against the everpresent danger of an individual musician unconsciously inserting a passage from an unlicensed tune during a 'hot lick' or an 'ad lib' on the air, particularly on remote broadcasts such as hotel or night club pickups."

Joseph H. Ream, secretary and general attorney of CBS, explained Jan. 6 that CBS was concerned only with the out-of-studio pickups, where the network and its employes are powerless to stop an improvisation that might be an infringement until it is too late. "Only the band leader can prevent this from happening," Mr. Ream stated, "and we feel that he should be willing to accept that responsibility." He expressed the belief that the situation was more confused than serious and that it would soon be settled.

While neither NBC nor CBS had made any official statements of settlement by Jan. 10, practically all bands scheduled to perform remote broadcasts were heard at the regular times by that date. Andrew D. Weinberger, attorney for Artie Shaw, Richard Himber, Shep Fields and Raymond Scott, stated that he had worked out a satisfactory arrangement with the networks.

In essence, this plan is that each band leader submits to the network a week in advance the complete orchestrations of all numbers to be included in any broadcast. The network clears these numbers and agrees to accept responsibility for

Anchors Aweigh!

TEMPEST in a teapot which developed among Washington network offices and the U. S Navy Band over ASCAP music has gone up in steam. Band Leader Charles Benter, an ASCAP member, asked the Society to grant his band permission to play its tunes in its regular weekly concerts over NBC and MBS. ASCAP was quick to grant the okay, but NBC smelled a rat and said "no go"—reason being that the network's legal minds felt that regardless of the waiver they were still open to prosecution under the copyright laws. MBS sat tight with no statement but when time came for band to go on MBS it submitted BMI or other non-ASCAP music for clearance. The Navy Band isn't scheduled for NBC again until Jan. 15, but it's non-ASCAP or no music.

any infringement suits brought. If, however, the band leader permits his men to improvise or make changes or additions to the scores submitted and cleared by the networks, he assumes responsibility for any infringement suits based on such material.

Other Agreements

Lee V. Eastman, attorney for Sammy Kaye, Bob Chester and Frankie Masters, said that he had made similar arrangements for these orchestras, the networks indemnifying material submitted and cleared in advance and the leaders indemnifying material performed but not included in the scores.

David Mackay, attorney for Glenn Miller, said that the arrangement worked out for his client differed somewhat from those just cited. Miller agreed to use only material in the BMI catalogs or published by his own company, Mutual

Texas State to BMI

TEXAS STATE Network, which last summer signed up with ASCAP amid a great fanfare of publicity, the first network if not the first broadcasting company to accept an ASCAP license for the time following Dec. 31, 1940, has quietly become a BMI subscriber as well, it is learned on good authority, although TSN is understood to have asked that no publicity be given its BMI contract. Reason for the change of face is said to be BMI's control of performing rights to such a large percentage of the cowboy ballads, hillbilly songs and Latin American tunes, all favorite types of music with listeners in the Southwest.

Music Society, and that the performing rights in the latter's catalog had all been cleared through BMI. Since BMI indemnifies all tunes whose rights it cleared, Miller was thus able to resume his sustaining program without assuming the responsibility for infringement suits that might arise from his broadcasts.

An executive of the WOR program staff said that all of the bands playing remote broadcasts and the management of the places from which these remotes originate have made satisfactory arrangements with the station.

BMI on Dec. 31 wired all member stations that it "had taken out \$1,000,000 of copyright insurance, effective at midnight that night, covering the BMI catalog and protecting member broadcasting stations and their advertisers, advertising agencies and performing artists. Coverage was obtained from three companies: Seaboard Surety Co., \$250,000; underwriters at Lloyd's London, \$250,000, and Indemnity Insurance Co. of North America, \$500,000."

It was explained at BMI headquarters that this insurance covers the BMI, Marks, Peer; Cole and other catalogs whose performance rights are licensed through BMI. Any advertiser, agency or station who is sued for alleged infringement on one of these selections has only to refer the case to BMI, it was explained, which in turn passes it along to the insurance companies for defense.

This refers only to the printed arrangements copyrighted by BMI, but any leader wishing to use his own special arrangement of one of these tunes can submit that arrangement to BMI 48 hours before his broadcast for clearance. If an infringement is found, BMI will notify the leader, and, when cleared, copyright the arrangement which then falls under their indemnity.

WNEW Names Price

IRVING PRICE, formerly in the field of retail advertising and promotion, has been appointed promotion manager of WNEW, New York. Mr. Price's retail associations include national retail advertising director for Sears, Roebuck, Chicago; advertising director for L. Bamberger & Co., Newark; and assistant advertising manager for R. H. Macy & Co., New York.

AFRA REDRAFTING ITS DISC FORMULA

AMERICAN Federation of Radio Artists is starting to redraft the transcription code which it expects to have accepted in the near future. Lengthy conversations with a committee representing the manufactuers of transcriptions last summer have given the union committee a clear understanding of what terms and conditions are acceptable to the industry, and a further discussion of the subject at the last AFRA national convention disclosed the wishes of the membership. Mrs. Emily Holt, executive secretary of the union, said that she expects little difficulty or delay in negotiating a mutually agreeable arrangement.

Studio Notes

REORGANIZING personnel, KGO-KPO, San Francisco, early in January released 14 members from its staffs, including artists, announcers and office workers. Among those affected by the sliakeup were Don Thompson, director of special events and a veteran member of the staff; Ira Blue, commentator: Ernie Gill, music director; Dave McNutt, press department; Fred Fiorello, music library; Grant Pollock, announcer; Judy Deane, singer; male quartet—Armand Girard. George Nickson Roland Drayer, Ed Ulrich; the Three Cheers—Phil-Derry-Hanna; Patricia Sullivan resigned from the continuity department to await the stork. Bob Seal, production manager of KPO-KGO, was appointed manager of the new artists' bureau for the stations, and Glenn Dolberg, program director, is resuming responsibilities for both Seals' and his own position.

TIME-SAVING campaign for the en-TIME-SAVING campaign for the entire radio industry has been conceived by J. R. Poppele, chief engineer of WOR, Newark, who sighs at the labor wasted by the WOR program department in opening the day's continuities in the morning mail. Poppele suggests that all cardioras continuities of the continuities of that all envelopes containing continui-ties be flagged with a red border so that they might easily be segregated, routed and opened and urges agencies to do so.

THOMAS S. LEE, president of Don Lee Broadcasting System, Hollywood, following an annual custom, presented more than 200 employes with a Christ-mas bonus, consisting of a percentage of their month's salary.

FOR the third successive year Royal Crown Cola has signed Phil Sutter-field, announcer of WCSC, Charles-ton, S. C. to do its nightly sports pro-gram six nights a week.

Cupid in Capital

ROMANCE is rampant at WJSV, Washington. When WJSV, Washington. When Louise Hollinger, secretary, announced her engagement in December it marked the first feminine engagement at the station in eight years. Miss Hollinger was married Dec. 28 to Clayton Miller. Since then the following have an-nounced their intention to step off: Toni Poston of Sportscaster Arch McDon-ald's office, Carolyn Har-die, assistant to WJSV's Nancy Dixon and Robert Baker, assistant to Sales Promotion Director John Heiney.

FARM BUREAU of WING, Dayton, O., is sending its interviewer Jim Miles directly to the farmer in a new series of back to the farm broadcasts. Miles makes weekly visits to six farmers in each county in the station's corage area. The interview is transcribed and played back on the Miami Valley & Home Hour.

KTSA, Sau Antonio, and the local dairies cooperated in the annual KTSA dairies cooperated in the annual KTSA Book Drive this year, collecting 8,000 books and more than 10,000 magazines. The book drive was continually plugged before and after programs, with announcements telling listeners that if they would place their books on the porch with their empty milk bottles, the milkmen would pick them up and deliver them to KTSA. In the drive last year over 4,000 books and 7,000 magazines were collected.

BROADCASTS of the WLS Dinnerbell program originated at Illinois U, Urbana, Ill., Jan. 7-9 to make special pickups of the annual Illinois Farmers' Week celebration. A feature of the three-day series was Farm Quiz, a competition between teams of Illinois and Indiana farmers, directed by WLS Farm Program Director Art Page. A remote control schedule of broadcasts will originate at Purdue U, Jan. 15-17, when Indiana Farmers' Week will be held.

WPTF, Raleigh, has started the Doings of the Legislature under sponsorship of BC Remedy Co., Durham, N. C. The daily program features Carl Goerch in day-to-day commentaries on activities of the North Caroline Legislature lina legislature.

lina legislature.

A. F. SOMMER, president of the Cincinnati Traffic Safety Council, has recommended state-wide use of the safety campaign recently conducted by WSAI, Cincinnati. The station obtained cooperation of program sponsors in including brief safety hints on most programs. Mr. Sommer has forwarded the plan to Charles A. Wendorf, safety director of the Ohio department of highways, with the suggestion that it be adopted by the Governor's Safety Council for use by stations throughout the State.

WWI. New Orleans has expended

WWL, New Orleans, has expanded its music department in conjunction with the switch from ASCAP to BMI. Department personnel includes Irvin Vidacovich, director; James Rush, composer and arranger; Jack Kelly, transcriptions; Ray McNamara, organist; Leon Adams, program checking; Dorothy Griffin, secretary.

KSFO. San Francisco, distributed bonus checks representing a week's salary to all station employes as a Christmas present.

WHK-WCLE, Cleveland, are enlarging their newsroom as well as hiring an additional news editor. Lebman Otis continues as news editor and will be assisted by Ray McCoy. formerly of the Cleveland office of the United Press. Station is buying regular Associated Press state and national news wires on a 24-hour heais beginning wires on a 24-hour basis beginning March, 1.

ASSOCIATED PRESS news printer has been installed in the WOR-MBS headquarters in New York, for spot news or bulletin service to MBS during the times WOR is feeding programs to the network. This service will not conflict with the regular schedule of three five-minute AP news programs broadcast on MBS from WGN, Chicago. WOR will continue to use Transradio and United Press for the station's own news service broadcasts. SO THAT they might send holiday SO THAT they might send holiday greetings to their parents and relatives in Great Britain, Clete Roberts, KMPC, Beverly Hills, Cal., special events director, rounded up a group of British refugee children now living with Hollywood film industry members and transcribed a special half hour interview program. The transcription, sent to New York, was broadcast by short wave to England on Christmas Day via WCBX, CBS international outlet.

KROD. El Paso, Tex., carried a play-SO THAT they might send holiday

on Christmas Day via WCBX, CBS international outlet.

KROD, El Paso, Tex., carried a playby-play broadcast of the New Year's Day Sun Bowl game between the Arizona Bull Dogs and Western Reserve Red Cats of Cleveland, with Morrison Qualtrough, of KROD, and Bob Kelley, of WGAR, Cleveland, at the microphone. The game was sponsored locally by the El Paso Natural Gas Co. KSTP, St. Paul, had to combat attempt of local theater meu to block presentation of its "Sunset Valley Baru Dance," staged each Saturday night in the municipally-owned St. Paul auditorium. Theaters held that the radio show hurt their business and protested to the city's commissioner of education, Axel Peterson, whose department directs the auditorium. Peterson ruled that there was nothing in the city charter preventing station from using the hall and if he was to consider the matter any further operators would have to show losses in black and white.

THE WBBM, Chicago, Musical Clock

black and white.

THE WBBM, Chicago, Musical Clock
marked its 12th anniversary of continuous morning broadcasts on Jan.

7. Halloween Martin has conducted
the programs all during that time. The
only important change in the program
since its inception is the addition of
short news periods to augment the
time, temperature and recordings.
Sponsors of the program are Nelson

"CASE HISTORIES"

WDZ pulled 5,062 inquiries for Mon-Oil Company from three 100 word announcements.

WDZ received 1360 \$1 orders for Gardner Nurseries on one 5 min. program daily, 6 days a week for 13 weeks.

WDZ received 1518 Peruna box tops in weeks.

WDZ blankets an area whose farm income alone totals well over \$200,000,000.00 a year! BUT that's just ONE source of the WDZ area's total income. WDZ commands a TRIPLE market. In addition to the prosperous agricultural market, there's the busy urban and industrial markets of Champaign-Urbana, Decatur, Danville, Bloomington and Terre Haute and the booming Southern Illinois oil fields. Hit all three with WDZ!

Write for new easy-to-read bro-chure compiling full information on WDZ.

HOWARD H. WILSON COMPANY Special Representatives

EIGHT announcements by Wilbur Ard, the Song Weaver of KGKO, Dallas, brought this roof-high stack of more than 1,000 books to start a library for the old folks at the Dallas City-County Convalescent Home. Ard was busy for days on end picking up books from express and post office, many from listeners who took them from their own libraries for the benevolent gesture.

KTAR Opens Studios, New Transmitter Plant

KTAR, Phoenix, Ariz., at 12:01 a.m. New Year's morning went on the air with its new 5,000-watt Western Electric transmitter, broadcasting special ceremonies from the downtown studio and new modernistic transmitter building. In addition to Arizona's first 5,000 watt transmitter, the station employs the inland Southwest's first directional antenna array, according to Dick Lewis, head of KTAR and general manager of the ABC Network [Broadcasting, Sept. 15]. Formal dedication ceremonies are planned later.

Two series-fed vertical radiators, one 400 feet and the other 300, both locally constructed, are used by the station, operating on 620 kc. In addition to the new air-conditioned transmitter building, located on a 40-acre tract in Northeast Phoenix, the expansion program included remodeling and enlarging the downtown offices and studios atop the Heard Bldg.

INFLUENZA has swept the staff of WKBN, Youngstown. Back on duty after an attack is Will Douglas, announcer. Still on the way to recovery were Warren P. Williamson Jr., president; J. Lothaire Bowden, manager; Theresa Pryor, hostess.

THE STRING ensemble of WBIG, Greensboro, N. C., directed by Margaret Banks, was selected to play at the Jan. 9 inauguration of Gov. Broughton and at the public reception when the Governor was inducted into office.

AGENCY Appointments

HILLS BROS. Co., New York, to Biow Co., New York, for Dromedary food products. Radio may be used later this year.

GENERAL COSMETICS, New York, division of Allied Products, New York, to Brown & Thomas, New York. No plans made as yet.

PURE FOOD Co., Marmaroneck, N. Y., to H. B. LeQuatte Inc., New York. Company plans to use spots on participating programs.

ENTERPRISE ENGINE & FOUNDRY Company, San Francisco (Diesel engines, food and chemical processing machinery) to Gerth-Knollin Advertising Agency, San Francisco.

GAGE BROTHERS & Co., Chicago (millinery), to Kuttner & Kuttner, Chicago. Radio to be included.

PINAUD Inc., New York (hair treatment), to Paris & Peart, N. Y.

M-DEX Corp., Los Angeles (proprietary), to Guenther, Bradford & Co., that city. J. C. Conway is account executive.

UNION PREMIER FOOD STORES, Philadelphia (super food markets) to J. M. Korn Co., Inc., Philadelphia. Radio has been used extensively in the past.

RAINEY-WOOD COKE Co., Conshohocken, Pa. (Koppers Coke). to Richard A. Foley. Inc., Philadelphia.

TRU-ADE BOTTLING Co., Merchantville, N. J. (Tru-Ade soft drinks), has appointed Wettlin & Co., Camden, N. J., to handle all advertising in the Philadelphia trading area.

M & H SPORTING GOODS Co., Philadelphia, to Julian G. Pollock Co., Philadelphia. Radio is contemplated.

KOKEN COMPANIES Inc., St. Louis (barber and beauty shop supplies), to Gardner Adv. Co., St. Louis.

McKESSON & ROBBINS, New York, to J. D. Tarcher & Co., New York, for Calox toothpowder. No radio plans have been announced.

MORRIS PLAN BANK, Philadelphia (personal loans), to Philip Klein, Philadelphia. Local radio will continue to be used extensively.

LEVER BROS. Co., Cambridge (new Swan soap) to Young & Rubicam, N. Y. FREED RADIO Corp., New York, to J. D. Tercher & Co., N. Y.

Bonus for Draftees

kMBC, Kansas City, will pay a cash bonus, ranging from one to six months' pay, to its employes called for military service, according to a mid-December announcement by Arthur B. Church, KMBC president, at the station's annual Christmas breakfast. The bonuses, amounting to one month's salary for new employes and as much as six months' for six years or more, are to be paid in lump sums or monthly installments to employes or their designates. Of the more than 100 KMBC employes, 57 are between the 21 and 35-year age limits and several are active members of National Guard and Reserve groups. At the Dec. 18 party, in addition to exchange of Christmas gifts, cash Christmas bonuses were distributed to employes with more than nine months' service.

ADAM HATS, New York, on Jan. 17 will sponsor the world's welterweight championship match between Henry Armstrong and Fritzie Zivic at Madison Square Garden on NBC-Blue, with Sam Taub and Bill Stern at the microphone. Glickmans Adv. Agency, New York, handles the account.

CALL for Mr. Murphy brings three replies at KIT, Yakima, Wash. Not related, they are J. A. Murphy, manager; Harry B. Murphy, chief engineer, and William Murphy, copy writer.

RADIO GOVERNOR Montana Executive Is Part Owner of KPFA

RADIO claimed another high public office with the inauguration Jan. 6 of Sam C. Ford, of Helena, as Governor of Montana. Gov. Ford, a Republican, is a 10% stockholder of KPFA, Helena, and the station's attorney.

The new Governor is an associate of E. B. Craney, operator of KGIR, Butte, who holds a 40% interest in KPFA. Gov. Ford holds a 10% interest, with Barclay Craighead owning 50%. He became identified with the station upon its creation in 1937 and has been active in its policy operation.

The inauguration message of Governor Ford was carried Jan. 6 over the Z-Bar Network, comprising KPFA, KGIR, KRBM, Bozeman; KGVO, Missoula, and KGEZ, Kalispell. Governor Ford is former Attorney General of Montana and was a judge on the Supreme Court bench. For several years he has been a practicing attorney in Helena.

CPP Publicity Setup

TO HANDLÉ public relations of the accounts of the Colgate-Palmolive-Peet Co., Jersey City, a new organization, Broadcast Associates, New York, has been formed. Director is Arthur Lockwood, formerly with Reiss Adv., New York, and assistant director is Joseph Hevesi, formerly with Benton & Bowles, New York. A committee of three, one from each of the agencies handling the C-P-P accounts—Thomas Buechner, Ted Bates Inc., New York; Arthur F. Marquette, Sherman & Marquette, Chicago; Carroll Rheinstrom, Ward Wheelock Co., Philadelphia — will act in advisory capacity to the newly formed organization, which is headquartered in the New York offices of the latter agency at 444 Madison Ave.

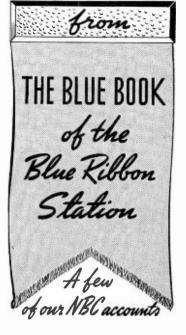

Actions by FTC

FOLEY & Co., Chicago, has entered into a supplemental stipulation with the Federal Trade Commission according to a Jan. 10 FTC announcement, in which it agrees to cease certain representations for Foley's Honey & Tar Cough Syrup. The FTC also has ordered Philip Morris & Co., New York, to cease certain claims for cigarettes, including Philip Morris, English Ovals, Marlboro and Player's Navy Cut. The FTC early in January issued a complaint against G. Kreuger Brewing Co., Newark, N. J., charging misrepresentations in advertising for Ambassador Beer.

Leigh Crosby Joins Stebbins

LEIGH CROSBY, formerly account executive of Lord & Thomas, Los Angeles, has joined Barton A. Stebbins Adv. Agency, that city, as head of the creative department. He will divide his time between the West Coast and New York offices. Crosby was recently vice-president of Gardner Adv. Co., St. Louis, and for many years an account executive of Blackett-Sample-Hummert, Chicago, and is nationally known in advertising and radio.

Ask a John Blair Man

For ASCAP Rumored

TALK of a new transcontinental network with headquarters and key stations in New York and Hollywood, to keep ASCAP music on chain broadcasts, persists on the West Coast. Current report is that two major film studios will join with ASCAP in financing such a chain which would weld together some 200 or more independent stations from coast-to-coast.

It is further reported that several major national advertisers, currently sponsoring spot as well as network programs, are interested. If the project is consummated, they have pledged to support it. While other ASCAP spokesmen in Hollywood delay comment, L. Wolfe Gilbert, West Coast liaison of the organization, stated that legal and financial machinery to create the network has already been set in mo-

Others in the know on the West Coast declare that a fourth transcontinental network would not be practical. Station and agency executives express the belief that a "wax network" similar to the recently reorganized Keystone Broadcasting System, would be more feasible. Under such a setup, it was pointed out, transcribed and recorded ASCAP music as well as musical script shows, could be reeased to stations licensed by that organization.

New Nationwide Chain BMI Adequate; Study Consent Decree

(Continued from page 9)

ecutive boards of the industry groups. It was finally concluded, after much discussion, that the industry should explore the possibilities of procuring an acceptable

The general attitude was that the Department did not have a case against Broadcast Music on monopoly or boycott grounds that would hold water. It was thought by one strong group, led by Mr. Sarnoff, however, that even assuming this was so, it would be desirable to conclude with the Government a stipulation that would meet its requirements and permit BMI to continue its operaions as a formidable compeitor in the music field.

Presumably the position of another group, understood to have been led by Edward Klauber, CBS executive vice-president, was that any decree providing for clearance at the source at this time would work undue hardship. This school of thought felt that clearance at the source should be made conditional upon expiration of current network contracts with affiliates. or when it becomes economically feasible.

When this message was carried to the Department, Mr. Arnold said he could not veer from the principle of clearance at the source, which would make way for a per program or "pay as you use" for-mula. NBC apparently was entirely willing to agree to the clearance-at-the-source plan, as was MBS through its spokesman Theodore C. Streibert, vice-president of WOR-MBS.

In the deliberations of BMI, President Miller was represented as having concurred in the original view of Mr. Klauber that the clearance at the source be deferred until a more propitious time. John Elmer, president of WCBM, Baltimore, also is understood to have agreed. Niles Trammell, NBC president; John Shepard Yankee Network president; Walter J. Damm, WTMJ, Milwaukee, and Mr. Streibert were of the opinion that a stipulated settlement should be worked out with the Depart-ment. Paul W. Morency, WTIC, Harford, later also concurred in that view, with the result that the conversations were opened the following day.

Members Present

Of the total membership of the ioint NAB Executive Committee, BMI Board and IRNA Executive Committee, only one member Edwin W. Craig, WSM, Nashville -was absent during the Jan. 7 session. He was detained at home because of illness.

Among those present at the sessions, including non-committee members, were Messrs. Sarnoff, Trammell, Frank Mullen, executive vice-president, A. L. Ashby, general counsel, and F. M. Russell, Washington vice-president, for NBC; Messrs. Paley, Klauber, M. R. Runyon, vice-president in charge of stations, Harry C. Butcher, Washington vice-president, John J.

Deal for Composers

NAB has issued a booklet, A New Deal for Song-Writ-ers, outlining the basic poli-cies of BMI and ASCAP. Briefly, the policies of BMI are: (1) Authors and com-posers shall not be tied up in long-term contracts, and shall be free to make other publishing arrangements in addition to BMI at any time. (2) Every BMI composer and lyric writer shall be paid in proportion to the popularity of and demand for his music. of and demand for his music.

(3) Highest royalty rates shall be paid to composers and authors. The booklet concludes that "the immediate future for U. S. composers looks brighter than it has for many years" with the establishment. tablishment of BMI "to see that American authors and composers are helped and encouraged."

Burns, special counsel, and Godfrey Goldmark, counsel, for CBS; NAB Executvie Committee, including President Miller, Mr. Elmer, Morency, Herb Hollister KANS, Wichita; Don Searle, KOIL, Omaha; John A. Kennedy, WCHS, Charleston; Broadcast Music Directors Miller, Damm, Elmer, Morency and Shepard and Counsel Kaye, and BMI Special Attorney William G. Mulligan; and IRNA executives Samuel R. Rosenbaum, WFIL, Philadelphia, chairmen; Mark Ethridge, WHAS, Louis-ville; H. K. Carpenter, WHK-W C L E, Cleveland; and Mr. Morency.

The fundamental complaint against BMI is that it is based on ASCAP formula of a blanket license fee. The BMI assessments are based on one-half of the payments made by stations to ASCAP during 1939 - which the Department apparently feels makes it equally culpable with ASCAP. Before a per-program basis of payment can be worked out, the Department contends, clearance at the source must be invoked so that stations then will pay only on programs locally originated in which music of a particular copyright owner is used.

Leading proponent of the view that BMI was headed for trouble under the anti-trust laws because of its ASCAP-like organization was E. B. Craney, general manager of KGIR, Butte, and the industry's most active ASCAP combatant of the last decade. Mr. Craney last August procured from ASCAP an experimental "pay - as - you - use" basis, but it is understood this has never been placed in force. He was in Washington during the week of Jan. 6 but did not sit in the NAB-BMI-IRNA deliberations.

No ASCAP Suits

While ASCAP made much ado about purported wholesale infringements on the air, no formal legal action had been taken up to the time BRODCASTING went to press. Notice had been served that it would proceed against CBS and its affiliated stations, the Texas Co. and Buchanan & Co. because of purported infringement of "Wintergreen for President" on the Fred Allen program Jan. 1. CBS, however, denied that there was any infringement and contended an original theme melody had been used. ASCAP was reported to be recording network and independent station renditions at "listening posts" throughout the country.

Meanwhile, ASCAP continued to indulge in so-called public relations antics reachings heights never before attained even by that well-oiled machine. The public, however, appeared to take it all in a rather disinterested way. Newspaper polls made immediately following the Jan. 1 deadline indicated that the public was almost oblivious of the change. In no few instances, listeners reported they liked the modern arrangements of the old classics and the change from Tin Pan Alley's blatancy.

Reports were current on the West Coast that ASCAP would inspire a new transcription network to assure performances of its tunes. Then there was another report that ASCAP would launch a sponsored program of its own, on a nationwide basis.

ASCAP gave plenty of advance publicity to a board of directors' meeting held Jan. 6, called ostensibly to consider a plan for issuing licenses directly to advertisers, au-

70 BROOKLINE AVE., BCSTON, MASS.

thorizing them to use ASCAP music. The meeting adjourned, however, without taking action and with the only announcement that of "no comment". The advance publicity was that several leading agencies (names not revealed) had asked ASCAP for performing rights licenses, under which they would clear music for the networks.

ASCAP Contracts

Such a development, while talked about by ASCAP in the past, would represent a radical departure from the Society's previous operations, always based on a blanket license to stations, hotels, restaurants and other places where music is performed. Licenses to advertisers would have to be based on a performance arrangement, it is obvious, and this would present the same difficulties of management which ASCAP has claimed are practically insurmountable when broadcasters have requested li censes on this basis.

BMI released an analysis of signed contracts which it claimed showed that of the entire roster of commercial stations, only 60 have ASCAP licenses, upwards of 600 have BMI licenses and 63 have both BMI and ASCAP licenses. The BMI stations range in size all the way from 346 local stations to 50 stations with maximum power of 50,000 watts. They were said to represent more than 95% of the dollar volume of advertising on the air. BMI claimed a total of 674 station members.

It became known that just before the Dec. 31 deadline, ASCAP by telephone and otherwise, offered broadcast stations what in effect amounted to a one-year contract under the blanket license percentage-wise terms, rather than the five-year contract proffered last summer. When asked regarding this development, ASCAP said it finally decided to insert in its fiveyear license form a clause permitting either party to cancel at the end of any year upon 90 days' notice. ASCAP attorneys, it was disclosed, telephoned stations which had made such a request, notifying them it had been granted. It was added that "in accordance with the ASCAP policy of treating all li-censees alike", all stations which had signed with ASCAP were also notified that this same cancellation clause would be available to them.

Asked to comment on a report that the \$800,000 fund which ASCAP had held out of its payment to members last year, pre-

BMI's METHOD OF ROYALTY FEES

Cent-Per-Performance Method Contrasts With That
——Of ASCAP; Performances Being Checked——

HOW BMI will tabulate royalty payments to composers, invoking for the first time compensation based on the actual number of air performances at the rate of one-cent-per-performance, was outlined Jan. 9 by the industry-owned publishing organization. This method, it was said, is in contrast to the ASCAP system of "classification" which does not take into account whether the music is rarely played or in great demand. Here is the BMI logging method:

BMI stations are divided into seven groups each containing the same number of stations, it was explained by Dr. Paul F. Lazarsfeld, director of Columbia University's Office of Radio Research, who is supervising the work. Each group of stations corresponds closely to the other groups, and any one of them is representative of the BMI membership as a whole.

Checking Performances

The tabulation procedure starts with the checking of all performances of every selection played during January by all stations in two groups. It is estimated that during January the BMI Logging Department will examine and tabulate some 60,000 program hours broadcast by more than 100 stations in all 48 states. In the following months different groups of stations will be analyzed. Despite the seeminely large amount of work involved, the process has been so highly systematized that all details of the checking are done by a staff of 20 girls. BMI regards this as refutation of ASCAP's claim that payment on a "per-use" basis is "impractical and uneconomical".

After the number of nerformance of two groups of stations is tabulated, a "sample" is taken as a basis for computing the total number of performances for all BMI stations. Thus by using the BMI "sampling" method, a highly accurate count of the total performances of all BMI music played on all 674 stations is made by checking relatively few broadcasts.

Each time a BMI composition is performed on the air, the composer is paid at the rate of one

sumably to build up a "war chest" for the conflict with the broadcasting industry, had been distributed when the Society found this money was subject to heavy taxation, General Manager Paine asserted that an extra distribution had been made. But he registered vehement objection to the term "war chest". This money, he said, had been withheld for later distribution, whereas the ASCAP "reserve fund" or "war chest" had been established years ago, ready for all emergencies.

INTERNATIONAL HARVESTER Co., Chicago (farm implements), on Jan. 13 started a national spot campaign of six-weekly one-minute announcements in major markets throughout the country. Contracts are of undetermined length. Agency is Aubrey, Moore & Wallace, Chicago.

cent per performance per station. It is estimated that popular songs of "Hit Parade" calibre receive from 100,00 to 180,000 performances during the three months when they are hits. Accordingly, BMI composers of such hits would receive from \$1000 to \$1800 in radio royalties during the most active period of performance of their songs. They would continue to receive compensation in precise proportion to performance each year throughout the life of each copyright, which is 28 years initially and renewable for another 28 years.

Producer - Agent Office Opened by James Parks

JAMES PARKS, formerly radio director of General Amusement Corp., Chicago, and onetime head of the radio department of the William Morris Co., Chicago, and assistant to the radio director of Gardner Adv. Co., St. Louis, on Jan. 8 opened the James Parks Co., producer-agent firm at 8 S. Michigan Ave. Telephone is Central 7980.

Carol Bowers, assistant to Bernice Judis, managing-director of WNEW, New York, and prior to that assistant to the head of the radio commercial department of Benton & Bowles, New York, and assistant to the radio director of Blackett-Sample-Hummert, Chica-

go, will assist Mr. Parks in the new enterprise.

Representation of Quiz Kids, NBC - Blue feature sponsored by Miles Labs. (Alka Seltzer), and Arch Oboler, heard weekly over the NBC-Red network on behalf of Procter & Gamble (Oxydol), in addition to the exclusive representation of J. P. McEvoy, nationally-known writer, and Milton E. M. Geiger, writer, will be handled by this organization. Another client is the Louis G. Cowan Co., Chicago, which, in addition to Quiz Kids, also controls Muŝico, sponsored in the East by the Atlantic & Pacific Tea Co.; You Said It, sponsored on a regional basis by Pure Oil Co., Chicago, and other features.

Levying of Franchise Taxes on Radio Philadelphia Sees Mentioned as FCC Funds Are Studied Public Indifferent

POSSIBLE assessment of franchise taxes on broadcast stations, to defray the cost of FCC operations, was broached Jan. 8 at hearings before the House Subcommittee on FCC appropriations for the 1942 fiscal year beginning next June.

With the revenue requirements of the Government swelled by defense expenditures, questions were asked, it is understood, regarding the possibility of raising funds through assessment of franchise taxes upon broadcast stations and possibly other communications operations.

Defense Funds

Rather than an assessment on a watt basis (it once was suggested that the rate be a dollar-per-watt), the inquiry centered on a percentage of earnings. All past efforts, however, have been dropped because such a tax was construed as dis-criminatory and it would be unfair not to make similar assessments against other industries regulated by Government. That would mean practically the entire industrial structure of the country.

Rep. Wigglesworth (R-Mass.) it was learned, asked what a 15% tax on station earnings might yield, and FCC Chief Accountant William J. Norfleet calculated it would amount to \$2,250,000, based on the \$18,000,000 net of 1939. The FCC was asked to supply financial breakdowns for 1939.

The proceedings before the Committee Jan. 8 were regarded as the most harmonious in years. The FCC seeks an appropriation of \$4,260,-000 for the new fiscal yearcrease of approximately \$285,000 over the current appropriations. Of this amount, it asks \$1,920,000 for national defense activities, or \$320 .-000 more than the amount allotted for 1941 out of special Presidential

The FCC indicated, through Chairman Fly, that it desires to increase the scope of its monitoring operations and to ferret out espionage and other subversive ac-

espionage and other subversive activities in communications.

Rep. Wigglesworth, as usual, led the questioning, with particular reference to station transfers, experimental authorizations and similar actions which he has attacked in the past. The two-hour session, however, was devoid of the sharp criticism of past appropriation hearings.

All six members of the FCC and heads of the various departments attended the session. The Subcommittee will make its report to the full Committee and thence to Congress within the next few weeks.

Wedding Check

DICK CAMPBELL, program director of KGGF, Coffeyville, Kan., is loyal to the broad-casters' music cause. In looking over music for his church wedding, scheduled for St. Valentine's Day, he struck three numbers from the list. "They've got to be BMI," he cautioned his bride-to-be, Kathleen Misch.

Plane Partners

POOLING their finances, five CBS Hollywood aviation enthusiasts have purchased a new three-place Stinson cabin plane equipped with latest instruments, two-way radio and an 80 horsepower motor. Partners in the deal are Russ Johnston, CBS Pacific network program director; Bob Garred, news commentator; Bruce Piersall, engineer; Bill Goodwin and Wen Niles, announcers, respectively, on the Blondie program and Al Pearce Show, both sponsored by Camel. Days off from their radio duties determine turns in taking out the ship on

Salisbury Promoted

MORSE SALISBURY, for 10 years chief of radio service for the Department of Agriculture, on Jan. 6 was named director of informa-tion of the De-partment by Sec-

retary Claude R. Wickard. He had been associate director since De-cember, 1938. Be-fore joining the Department in i n February, 1928, to take the radio post he had been

journalism in Morse Salisbury structor at Wis-consin U. He succeeds Milton S. Eisenhower as Director of Infor-mation, with the latter becoming Land Use Coordinator. Mr. Salisbury is nationally known for his appearances on the NBC-Blue National Farm & Home Hour and still appears frequently on that program. Wallace L. Kadderly continues as Chief of Radio Service.

Ban Lifted for 'Dimes'

AT THE REQUEST of the Radio Committee of the Committee for the Celebration of the President's Birthday, the FCC announced Jan 8 that it had suspended for the period 11 o'clock to midnight, Jan. 25, the requirements of its rules with respect to station identification announcemens, applicable to all stations carrying the "March of Dimes" program.

Few Listeners Show Concern Over Music Situation

ONLY SERIOUS casualty in the ASCAP-BMI situation in Philadelphia has been the loss of a theme song for the Horn & Hardart Baking Co.'s Kiddies Hour on WCAU, which feeds the Sunday show to WABC. Instead of opening with the tune School Days, as it has for the past ten years, it was necessary to substitute an original Child Days to the tune of Bicycle Built for Two.

Although four stations in the territory have signed with ASCAP, WDAS, WIBG, WTEL and WCAM, officials at the six remaining stations, including the network sta-tions, KYW, WFIL, WCAU, WIP, WPEN and WHAT, that have stopped broadcasting ASCAP mu-sic said they received no complaints from their listeners, nor have any commercial programs been can-celled because of the music situa-

Public Reaction

The local press, for the most part, has been pro-ASCAP, both in news and editorial coverage. Practically every newspaper polled listeners and the typical reaction has been that the majority find no difference. The Philadelphia Record, which has devoted more space to the music situation than any of the other four newspapers, reported in its Jan. 2 issue on a poll of 26 persons chosen at random from the telephone directory. Results, as given, showed that 14 said they detected no difference in the quality of mu-sical programs, three said they were too busy to listen to the radio and only nine said they noticed a difference. Of the nine, only two were bitter.

WDAS, only fulltime station that signed with ASCAP, is plugging BMI music more than ever. Pat Stanton, WDAS vice-president and general manager, declared his sta-tion renewed its ASCAP contract only in self-defense as an economic measure since it could not afford to check its music library for copyrights, but was emphatically opposed to the Society in its fight. He pointed out that the station is a charter member of BMI.

Hillary A. Brown, Pennsylvania representative for ASCAP, claimed he had received a flood of complaints from listeners tired of the "monotony of programs." Station spokesmen, on the other hand, reported no such reaction. Mr. Brown said his office has set up more than 50 "listening posts" in Pennsyl-

Precautions Against Sabotage

PRECAUTIONS Against Sabotage at the transmitting plants of WLW and Crosley's new international station, WLWO, near Mason, O., are being increased. A new watchtower, 75 feet high, is being erected on the grounds. A 24-hour crew of guards will be kept on constant duty. A high steel fence recently erected around the property has been floodlighted. Twelve guards are on duty now, day and night, patrolling the grounds. All shruhbery has been removed from the property. These increased precautions follow a fire at the plant early in the winter, when WLWO's metal tuning house was burned mysteriously.

Crucial Decisions Face Advertising, Gilman Declares Must Devote Energies to Part

Nation Plays in Conflict

ALTHOUGH advertising is on its way to a new high for 1941, the road is fraught with many difficulties and crucial decisions. So warned Don E. Gilman, NBC western division vice-president, when guest speaker Jan. 8 at the San Francisco Advertising Club. He pointed out that many of these problems are due to changing trade and marketing conditions. Some are governmental, others internal.

Having for his subject "The Outlook for Advertising in 1941" Mr. Gilman compared the present emergency with conditions in 1918, when advertising was inducted in-to Governmental military service under a Division of Advertising.

Not Yet Enlisted

"In this present world crisis, advertising has not yet been enlisted. It is reasonable to anticipate that in some form during this year we are going to have to lend our talents and energies to whatever part our nation will play in this world conflict. That is going to be a major

activity of advertising before this year is over."

Mr. Gilman called attention to the fact that advertisers may anticipate attempted regulations and some law-inspired "ethics", and pointed out that another threat to the billion dollar industry comes from pseudo economists. Faced as they are with the proposed Government emergency spending plan, legislators too are scrutinizing the advertising industry as a potential new source of tax revenue.

"If we approach 1941 with an intelligent understanding of the consumer movement and cooperate with those agencies in advertising and business which are thinking constructively for the consumer and not merely as a guinea pig from which to extract profits and interest, the destructive consumer movements will gain no headway. On the contrary, constructive consumer interest may be developed.

"Alert, active, educational efforts will combat the economic opposition developed in radical quarters and reflected in punitive suits against advertisers and advertising and in attempts to control or destroy it through punitive taxation.

"Our clients have a serious problem-that of increasing local markets to meet the losses in foreign markets; but to offset that we will have a broadened consumer demand through increased earnings and a reduction, if not almost entire elimination, of unemployment. We want articipate a length of the may anticipate a lowering of the demand for items of luxury. This will be more than offset by the demand for merchandise for normal human comfort. Advertising has a big year ahead of it. Only one question arises: Is advertising ready for it?

PENNSYLVANIA SALT Mfg. Co., Philadelphia (Lewis-Lye), on Jan. 6 started a thrice-weekly one-minute transcribed announcement campaign on WLS, Chicago. Transcriptions featuring Everett Mitchell, were cut by NBC, Chicago. Contract is for 11 weeks. Agency is Sherman K. Ellis, Chicago.

GRINNING their merriest after receipt of 15% Christmas bonus checks, which followed another 5% bonus, the news staff of WJR, Detroit, gathers at the WJR staff party—(1 to r) Edgar A. (Bud) Guest Jr., Jimmy Stevenson, Jack King, Neal Tomy, Duncan Moore.

Funds for Operation of FCC in 1942 Are Increased in Budget to \$4,259,729

FCC BUDGET estimates totaling \$4,259,729 were included in the budget for fiscal 1942, running from July 1, 1941, to June 30, 1942, sent to Congress Jan. 8 by President Roosevelt. The record-breaking budget figure provides funds for considerable expansion of FCC activity, particularly in fields con-cerned with national defense, in-cluding all types of employes from inspectors and engineers to lawyers accountants [BROADCASTING, and Dec. 15].

Funds appropriated for fiscal 1941 operations of the FCC totaled \$2,376,340, which included \$175,000 for relocation of FCC monitoring stations. In addition the FCC received \$1,600,000 from special Presidential funds for national defense work, a substantial share of which was spent for additional equipment necessary to carry on extensive monitoring activities. The 1942 budget provides an increase of \$283,389 over the \$3,976,340 made available to the FCC for 1941.

Defense Funds

Going directly to Congress for its national defense funds, rather than securing them from President Roosevelt, the FCC is seeking an appropriation of \$1,920,000 for its expanded defense activities. It is thought the vast bulk of this sum will go for salaries and expenses of augmented personnel, since much of the extra equipment needed was purchased out of the \$1,600,000 received from the President for 1941.

Further indication that emphasis will be on action during 1942 is seen in the salaries and expense item, totaling \$2,315,229, an increase of \$138,889 over the 1941 appropriation of \$2,176,340. According to the budget outline, this provides continuation of personnel added in 1941, along with additions to the regular FCC field force.

Biggest expansion in personnel is provided in the defense setup, with both departmental and field staffs swelled about one-third. Of the \$1,920,000 sought, \$1,335,350 would go for personal services, with the remaining \$584,650 allocated to other expenses, including supplies, storage, communication service, travel and transportation, rent, technical equipment. According to

budget breakdown, \$322,620 the was allocated for equipment in 1941, while only \$199,935 was set aside in the 1942 figures.

Only unit in the 1942 FCC budget estimates representing a drop from the 1941 appropriation was printing and binding, reduced from \$25,000 in 1941 to \$24,500 for 1942.

Service Benefits Given Iowa Group Personnel

IOWA BROADCASTING Co., licensee of KSO-KRNT, Des Moines, and WMT, Cedar Rapids, under a policy announced Jan. 6 by Vice-President Luther L. Hill, has outlined a compensation plan for em-ployes called for military training. Under the plan fulltime employes are granted leave of absence not to exceed one year and 40 days, with reemployment assured those receiving a certificate of satisfactory military service.

Each fulltime employe of less than a year's service is to receive four weeks' pay, with 12 weeks' pay for employes with more than one-year service. The company also will maintain, at its own expense, participation in the Equitable Life Assurance Society group life insurance during the absence of employes called for training.

MERCHANDISES YOUR PROGRAM!

This complete merchandising and promotion service includes newspapers, magazines, theater trailers, spot announcements, and other general publicity "helps," and plays an important part

in the support of KFRC programs.

Districts of NAB To Hold Sessions

NAB DISTRICT meetings will be held in six cities during the remainder of January, according to a tentative schedule arranged by di-

rectors in those areas.

Edwin W. Craig, director of Dis-Edwin W. Craig, director of Distict 6, comprising Arkansas, Louisiana and Tennessee, has called a meeting Jan. 13 of broadcasters in his area in Nashville, with Ed Kirby, NAB public relations director, and Carl Haverlin, PMI actions relations director. BMI station relations director, as guest speakers.

guest speakers.

Harrison Holliday, director for District 16, comprising lower California, Arizona and New Mexico, has called a meeting for Jan. 17 in Los Angeles. C. E. Arney Jr., assistant to the president of the NAB, will attend.

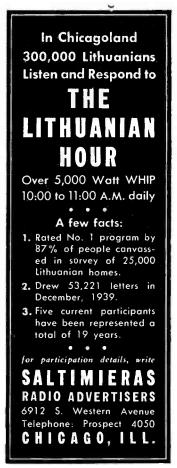

The 15th district, comprising Northern California, Nevada and Hawaii, will convene Jan. 18 in San Francisco under the chairmanship of Director Howard Lane. The district will elect Mr. Lane's successor.

District 17, comprising Washington, Oregon and Alaska, is scheduled to meet Jan. 22 in Portland with C. W. Myers, president of KOIN-KALE, presiding. Mr. Myers' successor will be named.

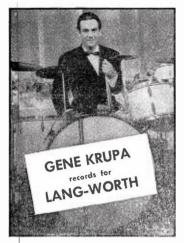

John J. Gillin Jr., director for the District 11 comprising Lays Mis-

John J. Gillin Jr., director for the District 11, comprising Iowa, Missouri and Nebraska, has called a meeting Jan. 25 in Omaha.

Gene O'Fallon, director for the 14th district, comprising Colorado, Utah, Idaho, Wyoming and Montana, has scheduled a meeting for Jan. 27 in Denver.

HENRY M. PEASE, vice-president, on Jan. 7 was elected president of International Standard Electric Corp., communications manufacturing subsidiary of IT&T. He succeeds Col. Sosthenes Belin, who has been acting president and who continues as board chairman.

CLEARS LOSE PLEA IN GRANT TO WHDH

WITHOUT a written opinion, the FCC denied Jan. 8 the petitions of the clear channel group of 14 stations and of KOA, Denver, to intervene in proceedings involving the application of WHDH, Boston, for fulltime on 830 kc., clear channel which will be broken down if the WHDH application is granted finally.

In a proposed decision of the FCC Dec. 6, the Commission majority announced its intention of granting the WHDH application. However, a strong minority opinion was filed by Commissioners Case and Craven, with the clear channel group and KOA seeking to intervene in the proceedings [Broadcasting, Dec. 15-Jan. 1].

The FCC announced simply that it had denied the petition of the clear channel group to intervene. In connection with the KOA petition, since that station is the dominant station on 830 kc., the FCC announced it denied its petition to

intervene and had also denied the WHDH appeal for an extension of time for the filing of exceptions. The Commission said it would receive briefs amicus curiae from the petitioners and others similarly situated within 20 days.

MANAGER WANTED: Several parttime stations which are combining to form a full time outlet in the New York area desire a manager. Must have record of outstanding accomplishment in radio. Give details in first letter, tegether with references, compensations, etc. Bex 153, Breadcasting.

CLASSIFIED Havertisements

Help Wanted and Situations Wanted, 7c per word. All other classifications, 12c per word. Bold face listings, double. BOLD FACE CAPS, triple. Minimum charge \$1.00. Payable in advance. Count three wards for box address. Forms close one week preceding issue.

Help Wanted

Combination Engineer - Announcer — give age, qualifications, references and salary expected. Box 134, BROADCASTING.

Licensed Operator—state qualifications and salary wanted. Also opening for experienced announcer with southern voice. Send recording. WSAV, Savannah, Georgia

Program Director-Announcer—five thousand watt CBS affiliate. Give age, qualifications, references and salary expected. Box 137, BROADCASTING.

Experienced Salesman—for local sales. Five thousand watt CBS affiliate. Population thirty thousand. Give references and complete details. Box 135, BROADCASTING.

Experienced Announcer - Continuity Writer—must be able to take complete charge of Continuity Department. Give age, qualifications, references and salary expected. Box 136, Broadcasting.

Announcer—who cen write copy to work in midwest CBS 1000 watt station. Only applicants who can furnish audition records will be considered. Box 133, BROAD-

An Experienced Radio Advertising Solicitor—between 25 and 32 years, with family, preferably with announcing experience, who wants to advance in an Eastern city of over 100.000 people. Character. credit and ability must stand close scrutiny. Picture and full story first letter. Box 132. BROADCASTING.

SALESMAN — regional network station.
north central states, good market, wants
experienced local salesman, capable
handling all types of accounts. Aged
about 35-years. Steady, honest, sober An
opportunity for the right man. Give
complete details of your experience and
income desired. Box 139, BROADCASTING.

Register With Recognized Employment Bureau—we need salesmen. transradio press operators, combination announceroperators, others except talent. National Radio Employment Bureau, Box 864. Denver. Colorado.

Situations Wanted

ENGINEER—11 years studio and transmitter experience. Thorough construction knowledge. Prefer Eastern station. Excellent references. Box 150, BROADCAST-ING.

Engineer--fir't-class phone license over ten years broadcast experience desires permanent connection. Box 152, BROADCAST-ING.

Transmitter-Control Room Engineer—three years experience. Excellent references. Reasonable salary. Box 149, BROADCAST-ING.

Experienced Announcer-Engineer — desires change where there's advancement; young, ambitious, selling experience, good voice. Transcription, details. Box 146, BROADCASTING.

Transmitter-Control Room Engineer — exceptional experience in maintenance and operation at local station. Employed at present with excellent reason for desiring change. Box 142, BROADCASTING.

Station Manager or Commercial Manager thoroughly familiar with all phases of successful station operation. Business gogetter. Best references. Box 148, Broad-

Situations Wanted (Continued)

Announcer—sports, special events. Expert play by play all sports. Five years experience. Box 141, BROADCASTING.

Chief Engineer—ten years experience installation, maintenance, operation and supervision broadcast station, regional network. Best of references. Age 34, married. Interested in connection with southern station. Box 147, Broadcasting.

Assistant Engineer—desires change. Southeastern United States preferred. Three years operating and construction experience, also installation work. Capable, willing, dependable. sober. Excellent references. Box 146, BROADCASTING.

Announcer—wishes position with network affiliate. Now employed. Especially trained in ad lib, news and m.c. work. Thirty years old, married, college education. Able to write commercial copy and program script. Can assume duties of program director. Can offer best character and professional recommendations. Address Box 144, Broadcasting.

Commercial Manager—man with outstanding record for personal sales and directing successful efforts of staff of major market network station past four years seeks permanent connection with well established station. References prove highest character, ability in local sales and splendid reputation in national field. Go anywhere except deep south or extreme east. Box 143, Broadcasting.

Station Director—desires a change, now operating a mid-west station. Twelve years of experience. Fornerly owned and operated my own station successfully. Took over the operation of present property February first 1939. For the first year since the station took the air over ten years ago it is a profitable enterprise. Best of references on request. S. Mayal Reserve as he broadcast S. Naval Reserve as he broadcast the farewell ceremonies when the Third Division of Washington's First Battalion of the Organized Naval Reserve left for active duty in the Canal Zone. Facing him across the mike is Commander Ar-thur B. McCrary, director of the Naval Reserve for the Washington Area

WKBW Plans for 50 kw.

WKBW. Buffalo, begins fulltime operations with 50,000 watts about July 1, 1941, and will become the exclusive Buffalo outlet for CBS programs in Buffalo except for a few hours on Sunday, the network has announced. WKWB and WGR now share the CBS service to Buffalo. Also effective with its increased power, the evening hour rate for WKBW on the network will be increased from \$350 to \$400 for all contracts becoming effective after Jan. 6, 1941. CBS advertisers whose programs were contracted for before that date and whose broadcasts are not interrupted, will be given protection of the old rate until Jan. 6, 1942.

WTAD. Quincy, Ill., has appointed the Howard H. Wilson Co., Chicago, as national representatives.

WABY, Albany, N. Y., on Jan. 13 joins MBS network, its 173d affiliate.

Quaker Net Developing Several New Programs

ROGER W. CLIPP, coordinator and general manager of Quaker Network, regional web covering the Mid-Atlantic States, announced Jan. 29 that in an effort to build the regional's listening audience and commercial potentialities, sustaining shows will be developed by WEII. Philadolphia or primitating WFIL, Philadelphia, originating key station. Mr. Clipp is general manager of WFIL. Organized es-sentially for statewide broadcasts during the political campaigns, the Quaker regional came into its own commercially during the last year when Fels-Naptha utilized a string of eight stations for The Golden Bars of Melody musical show for three quarter-hours a week. Last month General Baking Co. bought daily quarter-hour periods over 15 stations for a Breakfast Gang variety show.

Since line charges are being paid on the basis of an hour a day, Mr. Clipp decided to take advantage of the available time by developing sustaining shows with commercial possibilities for the regional. The present plan is to produce three quarter-hour dramatized shows, a strip program, sports show and news dramatization following the March of Time pattern. For the latter, it is planned to record the day's news in the evening, playing it back the next morning to the linked stations. At least one of the shows is expected to get under way before the end of January.

Carter on the Blue

CARTER PRODUCTS, New York (Carter's Little Liver pills), on Jan. 7 started a series of weekly mystery dramas, titled *Inner Sanc*tum Mysteries, heard Tuesdays on the NBC-Blue at 9:35-10 p. m. The new series, which is to run 52 weeks, is written by Hyman Brown and features Raymond Johnson. Agency is Street & Finney, New

ALLEN BROWN, formerly assistant manager, has been promoted to station manager of WHMA, Anniston, Alabama, succeeding John S. Pitts.

Three Sponsors Spread

ALBERT KIRCHER Co., Chicago, has placed increased schedules for of its accounts and started a test campaign for a third account. Boyd Nurseries, McMinnville, Tenn.. currently running a series of spot announcements on two stations, on Jan. 13 started a varying schedule of announcements on several Southern stations. Candid Eye, Philadelphia, week-end edition of Philadelphia, phia newspaper, in mid-January will expand its list of stations to approximately 35, using spot an-nouncements and programs. Poultry Tribune, Mount Morris, Ill. (magazine), on Jan. 6 started a test campaign of spot announcements on two stations.

KVOR a Bonus Outlet

CBS has announced that effective Jan. 1, KVOR, Colorado Springs, is being offered as a bonus station to advertisers using KLZ, Denver, with rate of the latter station increased from \$225 to \$250 per evening hour. Advertisers now using KLZ, however, will be charged the old rate until Jan. 1, 1942, while KVOR alone is \$50 per evening

Canada Dry Basketball

CANADA DRY GINGER ALE
Co., New York, on Jan. 7 started
a campaign for Spur, using twice
weekly quarter - hour programs
titled Hoosier Basketball News, on WFBM, Indianapolis. Programs give semi-final and final results of high school championship games. If the programs prove successful as a test, later this year the company plans to expand, according to M. Mathes, New York, the agency.

Brisk Shave Tests

THE ARMAND Co., Des Moines (Brisk Shave Cream), is currently testing daily early morning announcements on WIRE and WFBM, Indianapolis stations. Product is expected to go on a national spot basis in the near future. Ivan Hill is the account executive for the Russell M. Seeds Co., Chicago agency handling the account.

CBS IN NEW YORK GETS FM STATION

WITH commercial operation of FM becoming effective at the start of the new year, the FCC on Jan. 7 granted an application of CBS for a new FM station in New York, operating on 48.7 mc. and covering 8,500 square miles with an estimated population of 12,000,000. The CBS grant was the first since Dec. 5, when the FCC approved seven new FM stations. The new outlet becomes the 26th authorized since the FM experimental restriction was lifted preparatory to Jan. 1 commercial operation [BROADCASTING, Dec. 15].

At the present time more than 50 applications for FM facilities ar; still pending at the FCC. These include applications of Yankee Network and the Worcester Telegram Publishing Co. (WTAG, Worcester, Mass.) to provide FM service to an identical widespread area from practically the same site near Worcester, which have been designated for joint hearing. No date has been set for the hearings and there was speculation the applications would be adjusted without formal proceedings.

CBS plans to install studios and transmitter in the Salmon Tower, located at 42nd St. and Fifth Ave. in downtown New York. Cost will be approximately \$160,000.

New FM Programs

ARRANGEMENTS have be en completed whereby W2XMN, Alpine, N. J., the FM station operated by Maj. Edward H. Armstrong, will broadcast a regular daily schedule of 10 hours of transcribed music, originating in the Associated Recording Studios, New York. Having entered the FM field with application for three stations pending, CBS program service to the Alpine station was discontinued Jan. 14.

P. S. BUSTIN DRUG Co., Toronto (Coldcaps), has placed several announcements daily on CKCL, Toronto, and plans to add other stations.

OPERATORS of half-pint networks, members of Intercollegiate Broadcasting System, left their one-watt hookups long enough to inspect the big master-control board of NBC in New York. Theodore Clements (seated), master control engineer explains the works to William W. Tyng (Harvard '41) and Moton Weber (Columbia '42), while Dr. Franklin Dunham (left) watches. IBS was formed last year at Brown U. Affiliates carry on long-wave broadcasting on campuses with one-watt transmitters.

New FMBI Service

FM BROADCASTERS Inc. has issued a folder pointing out the accomplishments of FMBI in its first year as a coordinating agency for all groups who are active in FM. The association offers representation in Washington, advisory service, liaison between manufacturers and broadcasters and between broadcasters and the public, a promotion and publicity program and a weekly confidential bulletin on late FM developments. FMBI is also starting a weekly public information bulletin on FM, available to anyone interested.

W2XOR, FM station of WOR, Newark, on Jan. 7 started a weekly 45-minute program of symphonic concert recordings and plans to add further musical programs of this type in the near future.

Po you want your F.M. transmitter to be delivered Do you want your F.M. transmitter on the air a promptly? We've already delivered dozens of them Do you want your F.M. transmitter on the air a Do you want your get it, with a full powered refew hours after you get it, with a full powered reliable signal? We've already done this a dozen designs on draw. We've already difference between equipment. Whole world of finished operating equipment. Whole world of finished operating equipment. Then buy whole world of finished operating ahead with F.M.—Then buy and go to it. REL and go to it. REL and go to it.

IN THE ARMY

PHOTOGRAPHS on page 11, left to right: Morrison Wood, radio director of Erwin, Wasey & Co., Chicago, who served as a lieutenant in the 19th Infantry during the war, resigning in 1919 to become an actor on Broadway; Lewis Allen Weiss, v.p. and general manager of Don Lee Broadcasting System, a 4th U. S. Cavalry captain stationed at Schofield Barracks, Hawaii, 1915-1919; Niles Trammell, president of NBC, a lieutenant in the 36th Infantry, 12th Division, during the war who stayed in the Army until 1923 on the staff of Maj. Gen. Charles G. Norton at the Presidio in San Francisco, after which he joined the traffic department of RCA.

Fair Survey Lists Video Preference Medium Now Ready for Home Use, Study Indicates

TELEVISION has improved over last year and is now ready for home use as a major entertainment and educational medium, according to results of a second survey conducted by Harry Gordon, newspaper correspondent, among more than 2,000 visitors to the television demonstrations at the RCA, General Electric, General Motors and Westinghouse Bldgs. of the 1940 New York World's Fair.

Some 2,050 opinions were used as compared to 1,000 tabulated replies in 1939 [BROADCASTING, June 15, 1940]. Questioned this year as to their impressions of images appearing on the television screen, 1,929 voters or 94.1% of the total replied "good reception", 101 answered "poor reception" and 20 had no opinion.

Comparison With 1939

This compares to the 1939 survey when 84% of those interviewed voted between fair and good as against 9% for excellent and 7% for weak. Asked whether they believed that television had improved over last year for practical home use, 85.6% of the voters said yes, 9.8% no, and 4.6% were undecided.

The most desirable period for viewing telecast programs was nighttime as selected by 85.4% of the voters, and the favorite average price the questionnees would invest in television sets was between \$100 and \$200, as expressed by 82.8% of the voters. The year 1941 was chosen in both surveys as the most likely date of purchase.

First place for the second time in the vote dealing with favorite types of television entertainment went to stage plays with the runner-up going to musical programs. Next in order were sports, news events, motion pictures and educational programs.

Of the persons interviewed, according to Mr. Gordon, 1,298 or 57.6% based their opinions on demonstrations; 753 or 33.4% of the total on actual telecasts, and 204 or 9% on news articles on the television field.

Appeal of WKBB For Stay Opposed Administrative Remedies Not

Administrative Kemedies Exhausted, FCC Claims

THE FCC in a brief Jan. 2, answering a petition for a stay order by Sanders Brothers Corp., operators of WKBB, Dubuque, which was filed with the U. S. Court of Appeals for the District of Columbia in an effort to prevent operation of the new KDTH licensed to the Dubuque Telegraph Herald, contends that the court has no power in the case and that the corporation has not exhausted its administrative remedies.

The Commission, through its general counsel, Telford Taylor, and assistant general counsel, Joseph L. Rauh Jr., did not attack the appeal noted by Louis G. Caldwell, attorney for the station, but simply the request for a stay order. Mr. Caldwell, in his appeal brief [BROADCASTING Jan. 1] held that the Commission had failed to consider that the granting of application would "result substantially in a monopoly of the media for general dissemination of intelligence in Dubuque." In its brief the Commission holds that WKBB "is attempting to create an artificial radio monopoly through means of endless litigation."

The FCC brief stated that litigation has already delayed for

The FCC brief stated that litigation has already delayed for more than three years the operation of a new station in Dubuque. The brief contends that "if the court issues the stay order, Dubuque will remain without a station to which both the Commission and the Supreme Court have held it entitled.

WKBB has contended that licensing of another station in Dubuque would ruin it economically. It appealed the original license grant to the Supreme Court, which ruled in favor of the Commission. Since that time the newspaper station has applied for and received a modification in its construction permit, providing fulltime operation and an increase from 500 to 1,000 watts.

W3XJ, Philco's experimental television station in Philadelphia, originated another "first" video broadcast on New Years' Day by televising the annual Mummers' Parade, which was originally scheduled for a WIP broadcast but cancelled because of the music situation. The television cameras were located at the City Hall building, picking up the parade and synchronizing with the music of the bands.

WCAU, PHILCO ASK GRID VIDEO RIGHT

TELEVISION rivalry between Philoc and WCAU in Philadelphia has already manifested itself, though WCAU still awaits FCC permission to proceed with plans to construct a television station. Philoc has been operating its experimental W3XE for several years. The rivalry at present centers on the exclusive television rights for the 1941 Penn football games. Philoc televised the games last season and intends to repeat next season, but now finds WCAU competing for the rights.

WCAU has carried the Penn games for many seasons, sponsored by Atlentic Pefining Co. But in

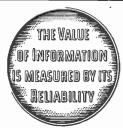

WCAU has carried the Penn games for many seasons, sponsored by Atlantic Refining Co. But in submitting a contract to the university for the 1941 games, the station included television as well as the usual radio rights. Penn officials have held up signing the contract because of Philco's earlier request and now find themselves in a dilemma. While Philco has pioneered in televising the football games at a huge expense, Dr. Leon Levy, president of WCAU, is an alumnus of the school and has also done much in a material way for the university.

Federal Savings Series Gets Group Sponsorship

A GROUP of 19 Federal savings and loan associations of the New York area are jointly sponsoring on WABC, New York, a weekly quarter-hour series of dramatized success stories titled, *The March Through Life*. John B. Kennedy is narrator, assisted by John Holbrook. The new series represents the first time these institutions, all members of the Federal Home Loan Bank System, have used radio collectively.

Based on an article in the Federal Home Loan Bank Review and reprinted in BROADCASTING, Nov. 1, Heffelfinger Radio Features, New York, handling the program on WABC, sent out mailing pieces to members of the Federal Home Loan System all over the country. As a result of the excellent response, The March Through Life will be transcribed for presentation in other cities by similar groups of associations.

DR. G. M. GELDERT, CKCO, Ottawa, as a member of the Ottawa Air Raids Precaution Committee and a controller in the municipal administration of Canada's capital city, has told the Ottawa municipal government that the Air Raids Precaution Committee will ask early in 1941 that all city fire trucks be equipped with shortwave radio receivers.

JOHN BLAIR & COMPANY

National Representatives of Radio Stations

The Other Fellows' VIEWPOINT

Radio's Main Street

EDITOR BROADCASTING:

We note with great interest your editorial on Page 56 of the Dec. 15 BROADCASTING, entitled "Radio's New Main Street". Especially interesting is the third paragraph from which we quote: "The next step, probably will be the radio theatre—a concert hall ground floor main studio. And it will come by popular demand".

Enclosed are photographs and a program from our dedication night, Sept. 18, 1940, of the new WKBZ Studio-Auditorium. This building is separate from our downtown studios and offices in the Michigan Theatre Bldg., and is located at

have anything of unusual size and on numerous occasions we have accommodated groups of from 50 to 100 which was not possible in our downtown studios. In addition, this permits the attendance of the friends of the talent and the general public to witness these special broadcasts.

Until Christmas business took so much of our time, we had at least one special program each week. For these special events, an admission charge of 25 or 35 cents was made and in the main, attendance has been good at these programs.

GRANT F. ASHBACKER WKBZ, Muskegon

the edge of the business district on a main highway where traffic is heavy but parking facilities are good, especially in the evening.

Last spring we purchased a church building, plain but of good construction, and remodeled it, installed auditorium type seats, stage facilities, and making it the finest auditorium of its kind in this part of the state. It seats 700 and we have often played to 2,100 in a single day with special programs by having two performances in the evening and one in the afternoon.

Also Is Rented

A large door is installed at one end of the building which will admit automobiles, trucks, large equipment, etc., so that the auditorium may be used for automobile shows, puppy shows, and other events where seating capacity is not required.

Since the building was opened, we have rented it to several dozen local organizations.

Naturally we use the building for our own programs whenever we

O-Lee-A-O

TROUBLES have been coming in distressing bunches to Program Director Harold Safford and Production Manager Al Boyd at WLS, Chicago. But the blow that felled father was the official pronouncement that all yodels must be cleared by the music department.

New WOR Participator Acquires Four Sponsors

WOR, Newark, is launching a thrice-weekly woman's participating program, conducted by Mrs. Imogene Wolcott, home economist and author, currently heard on 11 Yankee Network stations, Monday through Saturday, on an early morning quarter-hour for the First National Food Stores of New England.

New series, titled Dear Imogene, originates in Boston but is broadcast on WOR only, Tuesdays, Thursdays and Saturdays at 9-9:15 a.m. Of the four sponsors, all handled by the H. S. LeQuatte Inc., New York agency, that have been signed for the WOR series, the following three are currently also sponsoring Mrs. Wolcott on Yankee; Habitant Soup Co., Manchester, N. H. (Habitant soup); Gorton Pew Fisheries, Gloucester, Mass. (fish products); Flako Products, New Brunswick, N. J. (pie crust, corn muffin mix). The fourth sponsor is Pure Food Co., Marmaroneck, N. Y. (Herb-Ox bouillon). WOR has taken ads in the New York daily papers and grocers' trade papers to promote the new program.

The Martha Deane program on WOR, Newark, conducted by Bessie Beatty, has added two new sponsors during January, namely, Olson Rug Co., Chicago, and Rockwood & Co., Brooklyn (confectionery). Other Cooperative sponsors are N. Y. Telephone Co., F. G. Vogt & Sons, R. B. Davis Sales Co., Central Savings Bank, G. Washington Coffee Refining Co., and Philadelphia Dairy Products Co.

Decision Awaited In NAPA's Appeal

DECISION as to the jurisdiction of the case filed against WPEN, Philadelphia, by the National Assn. of Performing Artists, seeking an injunction to restrain the station from playing phonograph records, is expected to be handed down this month by Judge Guy K. Bard of the U. S. District Court. Originally filed last Spring in the Philadelphia Court of Common Pleas by Herbert A. Speiser, NAPA attorney, and then transferred to the jurisdiction of the Federal courts by Philip Werner Amram, station counsel, briefs were filed Jan. 6 by both attorneys on the application of of Mr. Speiser to have the case remanded back to the local courts.

Although both attorneys were prepared for arguments on the question, Judge Bard said that briefs would suffice in rendering a decision. In addition to WPEN, local advertisers sponsoring recorded shows on the station are joined as defendants in the action. Contention of Mr. Amram is that the sponsors are not properly joined, the matter being only between the station and NAPA, and thus the jurisdiction belongs to the Federal courts.

Sam Henry Quits NAB To Enter Sales Field

RESIGNATION of Samuel J. Henry Jr. as director of the Bureau of Radio Advertising of the NAB, effective Feb. 1, to re-enter the station sales field was announced Jan. 10 by NAB President Neville Miller. Mr. Henry joined the trade association in September 1939, after having served as sales promotion manager of World Broadcasting System. He has not announced his immediate plans, though he said he probably would remain in radio sales.

Revision of the functions of the Bureau of Radio Advertising, with greater emphasis on missionary work in local and regional sales planning, is contemplated, Mr. Miller said. Operating under the Sales Managers Committee of the trade association, the Bureau is expected to retain a sales executive to carry on these new functions.

Color Television Exhibited to IRE

Engineers See First Showing Of Direct Pickups by CBS

FIRST public showing of direct color television, actual persons and objects televised in full color, was staged by CBS Jan. 9 to members of the press and the Institute of Radio Engineers. Because the CBS video transmitter is still off air while its frequency is being changed, the demonstration images were transmitted by coaxial cable from the CBS laboratory on the fifth floor at 485 Madison Ave., New York, to studio 21 in the CBS studio building across the street.

Two receivers were used in the press demonstration, which went on at 5 p.m. as a sort of dress re-hearsal for the three IRE showings to accomodate the full IRE convention which opened that day in New York. One was a standard blackand-white receiver, the other table model color receiver especially designed and constructed in the CBS laboratories to demonstrate that the addition of color to the image need not add bulkiness to the receiver.

The color pickup, CBS explained, accomplished with an orthicon tube and, contrary to general expectations, does not require a par-ticularly high light level, by tele-vision standards. A satisfactory color picture can be picked up at a lower light level than is needed for satisfactory black - and - white pictures when the current type of pickup tube is use, it was stated. Special orthicon tubes, now being developed, will require even less

RUSTIC STOREKEEPER Brown, the Rise & Shine Man of WOL, Washington, poses leaning on a porch pillar and behind the counter of the Country Store erected by the station at 14th and Pennsylvania Ave., in the heart of the city, to collect food for local needy families. During a three-week Christmas campaign the following provisions were brought to the Country Store: 210 pounds of salt, 775 pounds sugar, 403 pounds coffee and tea, 518 pounds meat 1,575 pounds flour, 3.474 pounds fresh vegetables, 4,714 pounds

Two features not previously demonstrated are incorporated in the new receiver, CBS says: First, a method of synchronizing the color disc in the receiver with that in the studio by synchronizing impulse: transmitted along with the picture signal so that different power sup-plies at transmitter and receiver will not affect the image received and second, a push button which the viewer at home presses unti the picture appears in its prope colors and then releases, "locking"

the colors in place.

1,575 pounds flour, 3.474 pounds fresh vegetables, 4,714 pounds fresh fruit, 16,822 pounds packaged and canned food, \$408.06 cash, 12 chickens, 1 live pig. From Dec. 11 when the Store opened, until it closed Dec. 23. Brown originated his morning Rise & Shine program from the site.

While not as dramatically strik ing as the colored film demonstra tion put on by CBS last fall [BROAD CASTING, Sept. 15], the contrast be tween the black-and-white and col ored images on the two receiver: clearly demonstrated the superior ity of color. Demonstrations o ity of color. Demonstrations or dropping multi-colored confett and spinning a globe rapidly illus trated the perfect freedom fron blurring or mixing of colors, each bit of color remaining clear an distinct. The laboratory demon stration was naturally confined to subjects less vivid than the flower gardens and beach scenes which added much to the colored movies previously televised and, since was not the first demonstration of color television as the other had been, could scarcely have been re ceived with the same dramatic im

CHIEF ENGINEER SPIES

many improvements in new 23C Speech Input

Now offers uniform frequency response from 30 to 15,000 cycles-total gain of 96 db. Provides complete audio system in one factory-wired and tested unit. Simple to install, operate, maintain. Get full details from

Western Electric

THREE MEMBERS of the staff of WIRE, Indianapolis — Earl Lewis, chief engineer, Gene Alden, assistant chief, and Eddie Kane, announcer—have obtained private pilot licenses. Bob Hite, engineer, is licensed to operate plane transmitters, while Bob Will, announcer, is taking flying instructions. Mr. Lewis recently purchased an Aeronca Chief.

ORVILLE MILLS, formerly of KOMA, Oklahoma City, has joined the engineering staff of WFAA, Dallas. At present, he is stationed at the WFAA-WBAP transmitter.

NEAL McNAUGHTON, formerly chief engineer of KRGV, Weslaco. Tex., has joined the staff of the FCC monitoring station in Puerto Rico. Bill Egerton, chief engineer of KSTA, San Antonio, is temporarily in charge of the KGRV engineering department.

AL McCLELLAN, transmitter engineer of KOA. Denver, as a member of the Naval Reserve, has been called to active duty, reporting to the West Coast.

GLEN MERRIAM, for several years in charge of the recordings at WLW. Cincinnati. on Jan. 5 was transferred to the studio engineering staff.

CLYDE HUNT, chief engineer of WJSV and CBS. Washington, has been elected secretary treasurer of the Washington chapter of the Institute of Radio Engineers, succeeding Commander E. M. Webster of the FCC.

RAY SCHROEDER, chief engineer of KMA, Shenandoah, Ia., is the father of a boy, born Jan. 4.

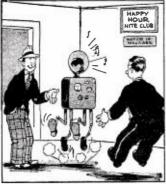

PAUL BERG, engineer of WJJD, Chicago, is the father of a girl born in December.

MIDLAND Radio & Television Schools Inc., Kansas City, reports the placement with broadcast stations of the following graduates: Carl Dierks, KTSW. Emporia. Kan.; Cletus Johnson. KDRO. Sedalia, Mo.; Walter Elgi. KHAS. Hustings. Neb.; R. V. Pearson, WBML, Macon, Ga.

MILTON AUGENSTENE, formerly of KPAC, Port Arthur, Tex., has joined the engineering staff of WWSW, Pittsburgh.

KENETH A. SIMONS, formerly of RCA Television, has been added to the engineering staff of WCAU. Philadelphia. He will work on installation of television and FM equipment.

New York World-Telegram
"This New Device Will Save You the Cost
of One Singer and Two Tap Dancers!"

HOWARD C. LUTTGENS, Central Division engineer, on Jan. 1 announced the appointments of R. S. Davis as junior recording supervisor and V. D. Mills as relief control engineer of NBC, Chicago. Both men were of the engineering department.

FRANK HIGGINS, engineer of WMBD, Peoria, is the father of a baby girl.

ROLAND W. CUDDY, traffic manager of WBTM, Danville, Va., is the father of a boy born late in December.

FRANCIS THISSE, formerly of Philco Radio & Television Corp., has joined the transmitter staff of WSYR. Syracuse, N. Y. He succeeds Paul Lee, who has joined one of the new Watertown stations as chief engineer.

JIB BELOUNGY, chief engineer of WBT, Charlotte, is the father of a boy born Jan. 5.

PRACTICAL EXPERIENCE

CREI PRACTICAL RADIO ENGINEERING TRAINING

makes

Well-Trained Technical Radiomen

The broadcast radioman who spends his own time and money for CREI training to be a better technical man, to be more valuable to your organization, is a man worthy of your recognition.

In completing a CREI home study course, he has met and passed the severe standards which CREI requires for graduation. He has demonstrated among other things, a will to accomplish!

Hundreds of technical broadcast radiomen are or have been CREI students. They may be found in more than 350 broadcasting stations. They often are the best men in your organization. When you need an exceptional man for an exceptional job—SELECT A

Equipment

A NEW 15,000 cycle high fidelity audio transmission line is now in use between the WBBM-CBS studios in the Wrigley building and the station transmitter near Glenview. Ill. First in the Midwest and one of the few such lines installed by AT&T in the entire United States, the new audio transmission line furnishes a constant band 10,000 cycles wide for transmission of local WBBM programs and Columbia network shows originating in the Chicago studios, according to Frank Falknor, CBS Central Division operations engineer and chief engineer of WBBM. Improved quality by a decrease of line noise is expected to be the chief result of the new 22-mile cable.

GRAYBAR ELECTRIC Co. has opened a new branch office in Des Moines. This brings the national total of Graybar Houses to S6. J. P. Lawton has been named manager of the Des Moines branch, with L. E. Williamson as service supervisor.

UNIVERSAL MICROPHONE Co.. Inglewood, Cal., is discontinuing the majority of its type and models of recording muchines, according to Jan. 10 announcement. Production of recorders in 1941 will be confined entirely to one model. Firm will also concentrate on the sale of recording chassis in quantities to manufacturers and jobbers.

CHARLES W. BURTIS, chief engineer of WPEN. Philadelphia, after shopping around for several mouths, purchased a 5 kw, transmitter from Westinghouse. The new transmitter will be ready for operation about the middle of February at the present transmitter site. WPEN will operate 5 (800 watts fulltime, using directional after local sunset on the 920 channel.

S. J. BAYNE Jr. of Birmingham has joined the engineering staff of WBT, Charlotte.

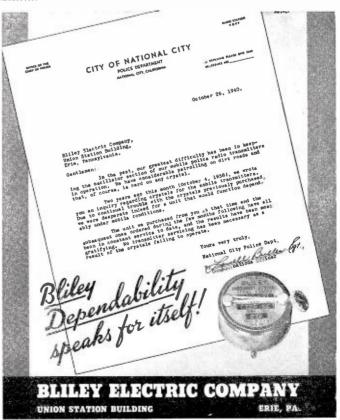

KMA Renewal Is Cited For Alleged Stock Sale

CANCELLING a hearing scheduled in connect.on with the corporate structure of WWL, New Orleans, the FCC Jan. 8 granted the 50,000-watt station a regular renewal of license. The station was one of a number cited by the FCC several months ago in connection with purported management contracts, since it was licensed to Loyola University but operated by WWL Development Co. With the clearing up of data regarding the station's operation, the FCC granted the station's petition for reconsideration and rescinded its hearing order. Similar hearings ordered for four Westinghouse stations and for WGY in Schenectady also had been cancelled after citation.

WWL Gets Renewal

BECAUSE of purported failure to disclose facts involving transfer of a portion of its stock, KMA, Shenandoah, Ia., operated by the May Seed & Nursery Co., on Jan. 8 was cited by the FCC for hearing. The station's renewal of license was designated for hearing — an unusual action in recent FCC procedure. According to Commission records, KMA is alleged to have made a contract under which 25% of its stock would have been transferred to the Central Broadcasting Co., which operates WHO, Des Moines. Other allegations in connection with contractual matters also are made.

KMA operates on 930 kc. with 5,000 watts local sunset and 1,000 watts night. It is an NBC Blue and MBS outlet.

Public Not Aware of Music Imbroglio

Many Comments Given To Stations Prove Favorable

IF MR. and Mrs. John Q. Radiofan are conscious of the fact that their radios are no longer playing ASCAP music, they have as yet given no indication of the fact, either by protesting to their radio stations or by "boycotting" radio in favor of some other form of entertainment.

Polled Jan. 4 by telegraph, 125 stations reported to the NAB they had received a combined total of 113 phone calls and 34 letters and postcards concerning the music situation. A nationwide survey of listening to musical programs on Jan. 2, 3 and 4, conducted by C. E. Hooper Inc., revealed the interesting fact that the total audience to these programs was almost 5% larger than that which heard the some programs during the first week of December.

What Row?

A telephone survey of listener reaction in New York City, conducted New Year's Day by the New York Times, was reported the following morning under the headline, "Music Row is News to Listeners," while the news story itself began, "A majority of radio listeners in the metropolitan area noticed little difference offered over the air yesterday, the first day that three-quarters of the country's stations did without the catalog of ASCAP, according to the results of an informal poll." A similar poll made by the New York World-Telegram Jan. 2 produced this headline: "New Year Daze Leaves Public Hardly Aware of Music War." On Jan. 3 the New York Journal and American also polled listeners, heading its report: teners Cool to Tune Tangle." The lead of this paper's story was: "ASCAP and the radio chains may be waging a bitter struggle over music control, but most New Yorkers aren't too deeply concernedor really don't care one way or the other."

Only ASCAP has discovered any resentment on the part of the listening public. John G. Paine, general manager of the Society, stated Jan. 7 that about 1,800 letters had been received at ASCAP headquarters. A large part of these, he said, were from youngsters who were complaining bitterly about the change in the offerings of their favorite swing bands. Many of the letters, he added, asked why ASCAP wouldn't let the bands use its music, "showing," he said, "how little the writers of the letters understand the true facts of the case."

Hooper Poll

The Hooper poll, comprising telephone calls to more than 30,000 homes picked at random in 31 cities in all sections of the country, covered the following musical programs: Fred Waring, Lanny

Ross, Bob Crosby, Pot o' Gold, Fame & Fortune, Major Bowes, Glenn Miller, Alex Templeton, Cities Service Concert, National Barn Dance, Johnny Presents, Waltz Time, Wayne King, Saturday Night Serenade and Hit Parade. It also covered the following musical-variety broadcasts: Coffee Time, Bing Crosby, Rudy Vallee, Al Pearce, Kate Smith and Uncle Ezra.

The total audience was 4.9% larger than that for the first week in December, providing, according to Mr. Hooper, a "scientifically accurate answer to the contention of ASCAP officials that the audience of listeners had decreased in size." Eleven programs showed much larger gains than the average, the report states: Lanny Ross, Bob Crosby, Coffee Time, Fame & Fortune, Bing Crosby, Cities Service Concert, Waltz Time, Wayne King, Hit Parade and Uncle Ezra.

While the results of the Hooper surveys are usually not available for about 10 days, the wide interest in the public reaction to non-ASCAP music led to a hastening of the process by having reports telegraphed to the New York office of the research firm, where the office force went on an overtime basis to compile the totals.

Station Reaction

Discussing the reaction of the public, as shown by their letters and phone calls to the 125 stations reporting to the NAB, Neville Miller, NAB president, stated: "To stations which have had as many as 56,000 telephone votes during one Amateur Hour, this response can be considered negligible." The 26 NAB directors, each representing a geographical area of the country, reported compliments on the new music totaling 16 phone calls and five letters.

Harold V. Hough, WBAP-KGKO, Fort Worth, wired: "No phone calls, no letters of protest. Have had some favorable reaction from ASCAP IS FOILED
Capital Refuses to Sanction
——Propaganda Show——

ATTEMPTS to promote an ASCAP special—as put on by the Society in San Francisco and Frederick, Md. to propagandize its side of the music fight with radio — in the Nation's Capital during the President's Birthday celebration have failed.

Idea was to bring in ASCAP members and their friends and stage a big show in Constitution Hall featuring the society's music. When the committee arranging the ceremonies in Washington came together for its organization meeting, the ASCAP-backed plan was proposed. According to Richmond Keech, corporation counsel for the District of Columbia and official of the arranging committee, the plan was dropped because of the ASCAP-BMI difficulties and it was decided to stick to the type of entertainment presented in previous years.

older people glad once again to hear their former favorite tunes." Frank M. Russell, NBC vice-president in Washington, reported: "Three letters highly compliment music now being played." "Nothing but favorable reaction," stated Don Searle, KOIL, Omaha.

"Favorable comment from every source on resumption of America's beloved melodies," said Walter Tison, WFLA, Tampa. Edwin W. Craig, WSM, Nashville, reported his station "happier than in 16 years of radio." WINN, Louisville, wired that it has had "compliments from advertisers who until New Year's Eve thought ASCAP controlled all music and were surprised at the vast variety and quality of BMI music."

NBC reported that in the 48 hours after its change-over, its

New York office received 25 letters and four phone calls. From 80 CBS affiliates came reports of a total of four postcards and 83 phone calls in the first 48 hours of CBS non-ASCAP operations, an average of just over one communication per station, with most stations reporting no comment at all. WOR, Mutual key station in New York, reported 10 calls in the first day and no letters.

Other typical comments were:

WWL, New Orleans—"WWL has had no reaction at all during the first 24 hours of operation without ASCAP music." WCAU, Philadelphia—"Have had no unfavorable reaction without ASCAP music." WJR, Detroit—"Have had absolutely no reaction to our operation without ASCAP music." KMOX, St. Louis—"Have not had a single complaint during first 24 hours of operation without ASCAP music." WJSV, Washington—"Had only seven calls during first 24 hours of operation without ASCAP music." WCCO, Minneapolis—"Only five calls. Four of those were complaints about cutting music during game."

"WBT, Charlotte, N. C.—"Up to this hour received no 'phone calls or complaints of any kind from listeners. Of course we have been non-ASCAP since Dec. 1 on a local basis. Only change of today being on network shows and I doubt very much if any listener noticed any change today." KWKH, Shreveport, La.—"Have had few inquiries due to publicity in press, but no complaints on music situation. My opinion—if ASCAP hadn't told the public they wouldn't know the difference." WCKY, Cincinnati—"Have received two phone calls." KRLD, Dallas—"Have had no reaction whatsoever." WHAS, Louisville—"We had one call about ASCAP music during the first 24 hours of

DRIVE TO CONTINUE FOR MUSIC TALENT

WHATEVER the outcome of the radio-ASCAP controversy, the task undertaken by BMI in creating new opportunities for unknown composers will be continued, M. E. Tompkins, general manager of BMI, told the Illinois Federation of Music Clubs Jan. 5. Speaking at a meeting in the Chicago Women's Club, Mr. Tompkins said the struggle was not only of music but of power.

Defining this power as that which a small group had wielded through its control of music, he declared that if ASCAP had truly represented all American creators of music there would have been no so-called battle of music. "The one thing that made it possible to offer opposition to ASCAP," he stated, "was the fact that ASCAP itself closed its doors to so many talented writers."

"Radio has met the challenge of ASCAP by creating greater opportunities for American composers than has ever been known in the United States. This controversy will be ended, sooner or later, one way or the other. The music written by ASCAP members again will be made available to radio stations, but the work we have started will go on."

"He Wants to Audition Tschaikowsky's Fifth Symphony!"

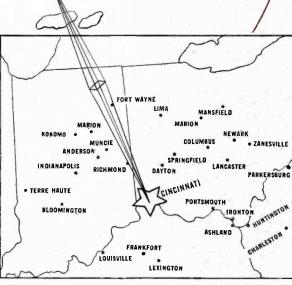

"IT'S A 3 BELL PRODUCT"

—that's the rating given products advertised over WLW by the more than 250 Dot Stores located throughout Greater Cincinnati, Northern Kentucky, and in nearby towns in Ohio and Indiana. The Dot

Food Store Organization, sponsored by the Janszen Company, fully appreciate the value of radio advertising (having a daily program of their own) and accordingly "get behind" those products which are given this important sales stimulant.

Sincerely,

A. Janszen, Pres.
The Janszen Company
Cincinnati, Ohio

REPRESENTATIVES: New York — Transamerican Broadcasting & Television Corp. Chicago — WLW, 230 N. Michigan Avenue. San Francisco — International Radio Sales,

"Someday," you have said to yourself, probably again and again ... "Someday we're going to 5,000 watts! And when we do ..."

In the back of every broadcaster's mind, we think, there has always lurked the vision of a transmitter like the RCA 5-DX... and in designing it we've tried to be true to your dream. We honestly believe it's the finest 5,000-watt de luxe transmitter you've ever seen anywhere. For instance:

Notice the beautiful, streamlined, functional "Unified Front" Panel... formerly available only on custombuilt and 50 KW transmitters.

This functional styling means easiest accessibility. Easiest installation. Easiest operation! It's especially suitable for flush mounting; ideal for

Cooler! Quieter! Lower Operating Costs!

Each chassis is vertically arranged for natural air-flow convection cooling. All circuit-components on all chassis are easier to reach; all circuit components operate cooler. Air-cooled metal-anode tubes are under forced draft: no water, water-pumps, or water-problems.

And far in advance of present standards is the *performance* of the 5-DX! Highest fidelity; highest efficiency! Lowest distortion; lowest operating costs! Write for the 5-DX booklet that tells the whole story.

Use RCA Radio Tubes in Your Station for Finer Performance

"FINGERTIP" CONTROL for Better Operation!

Put the transmitter on the air...switch the tower lights on and off...switch between studio lines ... all with a finger-flick! Complete audio, monitoring and power circuits—the complete station is instantly controllable from the "Finger-tip" console—exclusive with RCA.
