Broadcast Advern

News

MORE NEWS is good news

THERE IS MORE than one reason why WOR broadcasts 15% more audience-building news day in and day out than the next highestranking news programmed major station in New York.

APRIL 30, 1945

BROAL

The Weekly

This edge in news reflects the *knowing* enterprise that guides all WOR programming. That enterprise is not based on WOR's own wish-fulfillment, but on the continuous, penetrating appraisal of listeners' likes and dislikes by such impartial analysts as Crossley, Inc.

Recently, WOR commissioned Crossley to ask 1,248 men and women, in all income groups, "Why did you turn your radio on?" Dominant and first reason was "tohear news". This outranked the second desire, dance music, by 15.7%.

MUTUAL

Long before — and since — the dark days of 1941, WOR's scientific scrutiny of its program structure has consistently shown that more news is good news, as far as WOR's listeners are concerned. And because news is so *intimate* and *important* today, WOR spots it smartly to add vitality to all its programming and thus ups the impact that every broadcast minute makes on hundreds of thousands of listeners in one of the greatest listening areas on the Eastern Seaboard.

the public wants first

OLD FRIENDS

in

Midwest America

WLS PROGRAMS HAVE BEEN WELCOME VISITORS FOR A LONG WHILE

LIVING so long in the radio hearts of Midwest America, the WLS National Barn Dance and its huge listening audience are really like "old friends." This program, four and a half hours of entertainment every Saturday night, is as regular as dinnertime, as familiar as Dad's favorite carpet slippers.

Many WLS National Barn Dance fans can recall the first program, April 19, 1924, broadcast twenty one years ago by then 500-watt WLS from its Hotel Sherman studios.

They recall the move to Prairie Farmer building studios in 1928; the "forced" change to the old Eighth Street Theater, March 19, 1932, because tickets to the studio broadcasts were all gone for seven months ahead; the crowds that jammed that theater, *paying to see a broadcast* twice every Saturday night, 7:30 and 10 p.m.

Over 1,359,000 Visitors

They have read about the WLS National Barn Dance down through the years in their local newspapers both in and out of Chicago; and in special stories in such national periodicals as Time, Tide, Life, Radio Stars Magazine, Coronet, Christian Science Monitor, and Movie-Radio Guide. They saw or heard the major celebration in December of '41 when the one millionth visitor to the Barn Dance caune to the Eighth Street Theater (total attendance for the thirteen years it has been on the stage is now more than 1,359,000). These listeners treasure memories of opening nights at Illinois, Indiana, and Wisconsin State Fairs, when the WLS National Barn Dance played to capacity throngs.

They recall famous names that were once part and parcel of "their" barn dance: Uncle Ezra, Tony Wons, Bradley Kincaid, Ford and Glenn, Irene Wicker, Alec Templeton, Gene Autry.

Scrap drives, salvage and war bond campaigns, personal appearances at county fairs, theaters, community gatherings! A full length Paramount picture based on the WLS National Barn Dance and using many of its stars!

And all this over a period of 21 years!

This is why WLS programs are "old friends" to their listeners: why WLS programs have the confidence of their huge, responsive audience. This is why they can sell quality products and sound ideas so effectively. For WLS programs, like our personalities, come into Midwest American homes as Old Friends.

WRIGHT FIELD REFERENCE LIBRARY

APR 3 0 1945

For miles in every direction from Philadelphia's downtown area are the city's homes — more individual homes than in any other city in America. These homes in the country's third largest market consume a variety of articles peculiar to home loving families. A knowledge of the life and habits of these families has made The Evening Bulletin the largest evening newspaper in America. Under the new ownership and management of The Bulletin this same knowledge is being applied to the development of an ever increasing circle of listeners for Station WPEN. BROADCASTING... at deadline

Closed Circuit

IF DASHING 31-year-old Bill O'Neil is called to the colors (he is now 1-A), there is a good chance that WJW Cleveland will be sold. Both Scripps-Howard (*Cleveland Press*) and Marshall Field (*Chicago Sun*, New York *PM*, WJJD Chicago and WSAI Cincinnati) are understood to be nosing around on a deal. Young Bill, son of the General Tire-Yankee Network chieftain, is his own employer and hasn't sought deferment although he has two children. He has no disposition to sell unless drafted.

DIFFICULTIES encountered in shifting bona fide bids for WBT Charlotte have caused another delay in disposition of the station by CBS. A half-dozen bids now are being considered and it's likely that final action will come following CBS regular board meeting this week. One top bidder, a syndicate which included A. D. (Jess) Willard, general manager, was forced to drop out but Willard is expected to remain as manager under deal finally made, subject to FCC approval. Present southern operator may get the nod, with the figure in the neighborhood of \$1,500,000.

SWAP of call letters proposed to CBS by Blue, which is promoting its new identity as American Broadcasting Co., apparently isn't working out. Blue proposed that it acquire the call "WABC", now used by CBS key in New York, and that it in return would deliver "WCBS", now used by station in Springfield, Ill. on the Blue. CBS doesn't see it that way.

CESSATION of hostilities in Europe, through proclamation of V-E Day, will not impair operations of the American Forces Network. There is an ambitious postwar program of "occupation troop entertainment" under Lt. Col. John S. Hayes.

PRESIDENT TRUMAN soon will consider his first appointment to the FCC, but chances are he will leave things status quo. Term of Gov. Norman S. Case expires June 30. His reappointment for another seven years as a Republican member appears certain. Chairman Paul A. Porter is understood to be for him.

NATIONAL LABOR Relations Board is all set to file its brief this week with the Second Circuit Court of Appeals in the NABET-network-Petrillo platter-turner dispute. Board has filed a petition for a court decree to enforce its order to NBC and Blue-ABC to recognize NLRB certification of NABET as bargaining agent for platter turners regardless of reprisal threats by James C. Petrillo.

21 CANCELLATIONS

MAJOR NETWORKS cancelled 21 commercial shows Thursday night to air speeches from San Francisco United Nations Conference on International Organization. Cancellations were: NBC 7; CBS and Blue-ABC, each 5; MBS 4.

Upcoming

- May 1: Hearing labor dispute between WAYS Charlotte, N. C., and IBEW before NLRB Washington, 10:30 a.m.
- May 2 (tentative): Meeting Radio and Radar Advisory Committee with WPB on military cutbacks, reconversion.
- May 8-10: NAB Sales Managers Executive Committee, Gunter Hotel, San Antonio.
- May 9: Deadline for briefs and appearances, proposed FCC regulations on financial reports, contracts, ownership and station personnel. (Oral argument May 21.)
- May 16-17: NAB Board of Directors, WOW board room, Omaha.
- May 17: Primary ballots in NAB directors-atlarge election must be in.
- May 23: Oral argument before FCC, WOV New York, transfer of control. (FCC has issued proposed findings denying transfer to Mester brothers.)
- Sept. 5: Clear channel hearings before FCC (postponed from May 9).

Bulletins

PICTURES of the San Francisco United Nations Conference on International Organization, flown to New York, were telecast Friday on WNBT, NBC video station. Films from several sources were compiled for the presentation by Paul Alley, NBC television newsreel editor.

BOB HOPE again heads "first fifteen" in C. E. Hooper's April 30 report on evening network programs. List continues: Fibber McGee & Molly, Walter Winchell, Radio Theater, Screen Guild Theater, Mr. District Attorney, Joan Davis-Jack Haley, Charlie McCarthy, Bing Crosby, Jack Benny, Eddie Cantor, Amos 'n' Andy, Abbott & Costello, Kay Kyser (first half-hour), Hildegarde. William L. Shirer tops Sunday afternoon shows, followed by Nelson Eddy and World Parade.

BASEBALL FOR FIGHTERS

ARMED FORCES Radio Service, beginning May 1, will broadcast to servicemen in all theaters coverage of virtually all baseball games played in New York area. Where commercials are deleted, Sgt. Joe Hasel will fill in, handle recapitulation. Special transcribed summaries by Mel Allen will be shipped to all theaters.

WCNC WOULD MOVE

WCNC Elizabeth City, N. C., 250-w local Mutual outlet on 1400 kc, filed application with FCC last week for construction permit to move both transmitter and studios to Norfolk, Va.

Business Briefly

G-F TAKES BURNS-ALLEN • General Foods Corp., New York, sponsor of Burns & Allen on NBC eight years ago, resumes sponsorship of team under five-year contract effective Sept. 20 on NBC Thursdays 8-8:30 p.m. (EWT) with repeat to West Coast, 8:30-9 p.m. (PWT). Frank Morgan, now in that spot for Maxwell House Coffee, cancels May 31. Several sponsors bidding for his service. Agency, Burns & Allen, Benton & Bowles, Ncw York. Burns & Allen—Lever Bros. show on CBS cancels June 25.

ENOZ ADDS SPOTS • Enoz Chemical Co., Chicago, now using seven stations in test campaign, with addition of WGL Ft. Wayne. Plans call for use of 125 stations in 1946. Agency, Lieber Adv. Co., Chicago.

GENERAL MILLS ON BLUE • General Mills, Minneapolis, understood to be buying 10:30-10:45 a.m. (CWT) on Blue-ABC effective July 2. Agency not yet designated but probably either Knox-Reeves or Dancer-Fitzgerald-Sample.

RAYTHEON BUYS BELMONT ● Raytheon Mfg. Co. has acquired all stock of Belmont Radio Corp. Move authorized at meeting of Raytheon stockholders April 15, announced last Friday.

RAZOR BLADE VIDEO • Pal Blade Co., New York razor blade manufacturer, May 1 will sponsor televised drama, "The History of Shaving", on WABD New York. Agency, Al Paul Lefton Co., New York.

THOMAS STARTS TEST ● Thomas Co., Chicago (hair treatment) starts test campaign WHN New York, May 5, 13 weeks. Agency, Benson & Dall, Chicago.

WHITE SOX SHOW SPONSORS ● Three sponsors participating in *Dugout Interview*, quarter-hour preceding Chicago White Sox broadcasts WJJD Chicago for 24-week season. They are Sunkraft Inc., Chicago (lamps), agency, Salem-Baskin, Chicago; Cook County Dist., Chicago, agency J. R. Kupsick Adv., New York; Czerwiec Lumber Co., Chicago, direct.

NEW PARTICIPANTS • Participating in Sunrise Salute and Housewives Protective League Mon. thru Sat., WBBM Chicago are William Cooper & Nephews, Chicago (Pulvex products for dogs), starting April 30 alternate weeks, 39 weeks. Agency, Lauesen & Salomon, Chicago; and Ready Foods Co. Inc., Chicago (Perk dog food), effective May 7, 52 weeks. Agency, Mason Warner Co., Chicago.

HOME PRODUCTS ON MBS • American Home Products, New York, has ordered full MBS network Mon.-Fri., 9:15-9:30 p.m. starting in June at conclusion of United Nations Conference. Product will probably be Anacin, and program, MBS *Real Stories From Real Life*, heard regularly 9:15 p.m. Anacin Co. is cancelling *Friday on Broadway*, CBS Fri., 7:30-8 p.m., but time may be retained. Agency, Dancer-Fitzgerald-Sample, New York.

WHO IS America's favorite Radio Singer?

• Bob Hope calls him "Bub." Broadway calls him "The Groaner." Hollywood affectionately dubs him "The Little Guy" and gives him an Oscar. But radio listeners call Bing Crosby, "Matchlessly The Best," as they demonstrated in the 1945 Syracuse Area Radio Leadership Study.*

This may get us torn limb from limb by enraged bobby-sockers. But facts are facts and this impartial, authoritative, CPA-certified study shows that it's Bing over The Voice, 16 to 1!

Bing's popularity, year after year throughout America, is not due to ballyhoo or the pipe-dreams of publicity. He gives his audiences what they like: Talent, artistry, and honest performance.

Of course, Bing Crosby's great show is heard over the Syracuse Area's leading station, WSYR. So are the shows of six other stars voted in the first ten by this study which brought responses from one in every twentyeight radio homes in the area.

Seven out of the top 10 singers on WSYR. Man, that's *leadership!*

And naturally WSYR, as a station, leads too. The study shows that at night, for

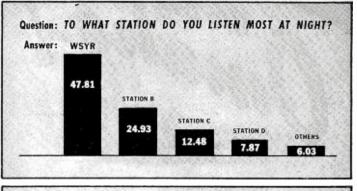

example, WSYR leads the second station better than 2 to I. The bar charts at the right tell the full story of station leadership in this rich, Central New York market.

Mr. Gordon Gray, Radio Station KOIL, Omaha, Nebraska

Dear Mr. Gray:

The nine announcements I had made over KOIL and which have just ended brought the results we were after.

It was farmers and people in surrounding towns that we tried to reach mostly.

We traced enough business directly to the ad to pay for the announcements before they were finished.

Thank you,

S. H. ROSKE

Revolving Panels in KSL's Polyacoustic Studios

LOOKING LIKE something out of Buck Rogers but with proved superiority over standard types of construction are KSL Salt Lake City's new polyacoustic studios designed by acoustic consultant Franklyn Y. Gates. Cylindrical curves are used, he says, because of what they do, not how they look. They are shaped to give a predetermined effect.

As each type of sound, whether instrumental or vocal, has an ideal acoustic environment best suited to bring out its full tonal possibilities, the polyacoustic studios are designed to fully complement various sound-producing agencies to be used in them. One studio is for musical productions another for narration and another for newscasting. The use of revolving cylinders and utility baffles allows even greater specialization. No new wall construction was necessary at KSL and cost of the acoustical treatment was about 60c per square foot. Four studios were treated.

KSL's chief engineer, C. Richard Evans, who supervised construction, says "they take the gloves off the harpist's hands, let the violin out of the gunny sack, and give producer and performer unheard of freedom." Ivor Sharp, KSL vicepresident, says "we are really finding that these studios are working out beyond our expectations."

ED

HAT BEGAN as a potential career in painting gave way to the more exciting field of commercial radio, now Ed Strauchen, senior and partner of Strauchen & McKim, Cincinnati, buys time as a vocation.

Born Dec. 9, 1909, in Rochester, N. Y., early in life Edmund M. Strauchen R. displayed rare talent with crayon and brush. He attended grade and high schools there, winning a two-year scholarship at the Rochester Atheneum Institute where he studied commercial art and advertising.

Then came a threeyear scholarship at the Cincinnati Art Academy. Ed went for the finer things -landscape and portrait painting, now

his hobby. He was one of 15 invited to spend two years at Tiffany Foundation, Long Island, N. Y. academy, returning to Cincinnati in 1935 to open the Strauchen Adv. Agency.

Radio was a promising field and

Ed took on some air accounts. His firm grew and in 1940 Gordon F. McKim Jr., a Cincinnati advertising man, joined him as junior partner. The firm became Strauchen & McKim.

Among national accounts, all of

which use radio, placed by Ed are the George Wiedemann Brewing Co., New-port, Ky.; Queen City Bottling Co., Cincinnati; Polan Industries, Huntington, W. Va. His regional accounts include St. Nicholas Coffee and the Sinton Hotel, Cincinnati.

One to see future possibilities of FM, Ed placed some business for Wiedemann on WMIT Winston-Salem and WENA Detroit, FM outlets.

Ed belongs to the Cincinnati Club, Cincinnati Racquet Club and Camargo Hunt Club. In 1937 he married Nancy Cramer of Cincinnati. They have three children and live on Kuyler Mill Rd., Indian Hill Village, Cincinnati.

LET US Consider TOGETHER We believe:

People make radio broadcasting; not laws. What management wants a station to be, that it can be in purpose and service. Because we firmly believe this we believe in the future of American radio under the American system of free enterprise. We believe in editorial policy which simply means the acceptance of normal responsibility in the conduct of our Community's local affairs. In our case, during the past year, our Station and Management have actively and intensively taken the lead in promoting safety work in Tulsa and vicinity. Eighteen less of fatal accidents have occurred during that year than in the year preceding.

W. B. WAY, General Manager

A Judge Views Radio

To the Editor of the Post-Dispatch:

I have just read in Broadcasting a reprint of your editorial of April 10, "In the Interest of Radio." Let me add my voice to that of others who have commended you for the position which you have taken.

There is no more reason why a newscast should be interrupted for a plug-ugly than that such ads should be inserted in the middle of news stories or editorials in a newspaper; especially when the interruption — deliberately or unconsciously, whichever it may be-is in nauseating contrast to the subject under discussion by the commentator.

It is particularly encouraging that this insistence upon higher professional standards should come from a newspaper-a representative of the profession which has most intelligently through the years defended the guarantees of the first amendment. Only by intelligent anticipation of public reaction and by equally intelligent self-discipline can we prevent legislative intemperance.

NAB Expected to Select Interim President

Broadcaster to Be Named Successor To Ryan

By SOL TAISHOFF

HARD-PRESSED to find a qualified man for the presidency of the NAB because of limited wartime availabilities, the association's presidential selection committee in all probability will recommend another "interim appointment" of a prominent broadcaster to serve from July 1 until total victory.

Involved in War Effort

While no formal recommendations yet have been drafted by the six-man committee, it was evident last week that unless the unexpected happens the committee will conclude that a practical broadcaster be drafted. It appeared equally certain that J. Harold Ryan, incumbent president, will return to his executive post with the Fort Industry Co. July 1, in keeping with the firm commitment made by the NAB Board of Directors at the time he was drafted in early 1944.

G. Richard Shafto, general manager of W1S Columbia, S. C. and chairman of the committee, told BROADCASTING last Thursday that it has become "increasingly evident" that many men who comprehend the public service impact of radio are now engaged in the war effort and propose to serve until final victory. Such men, he added, by virtue of their personal sacrifice and devotion to their sense of public responsibility, "cannot readily be dissuaded to leave their activities at this time".

One More Meeting

The NAB committee will hold one additional meeting before reporting to the board at its session in Omaha May 16-17. At that time it is expected the committee will draft its final report and recommendations and emphasize, among other things, the very narrow segment of available men, either in public life or private industry, for the NAB assignment. Thus, it is logically deduced the committee will recommend the interim appointment, pointing out that after victory a much wider group of qualified men now in Government or war service will be available.

The commitment made to Mr. Ryan, who assumed office on April 15, 1944 to succeed Neville Miller, was that he would not be asked to remain beyond July 1, 1945 unless there were most extenuating circumstances. Mr. Ryan has repeatedly stated that he must return to Toledo, where he will resume direction of the operations of the seven Fort Industry Co. stations.

Long List Scanned

It is presumed the committee, following its next meeting, will be prepared to recommend a broadcaster it would propose to have serve as interim president until the formal conclusion of the war. More than likely the committee will recommend an outstanding broadcaster, well acquainted with radio affairs and presumably with legislative and Washington front problems. Such an individual, of course, would have to obtain an indefinite leave from his regular duties to enable him to spend full time in Washington and to handle the multitudinous operations incident to the NAB presidency.

While it is yet too early to speculate upon possible selections for the interim presidency, it would not be surprising to see the individual plucked from the presidential committee membership itself. In addition to Mr. Shafto, who has asserted he would not be available because of commitments to his principals, the committee includes Mr. Ryan, Don S. Elias, WWNC Asheville; James D. Shouse, WLW Cincinnati; Paul W. Morency, WTIC Hartford, and John J. Gillin Jr., WOW Omaha. Of this group, Mr. Morency alone has had practical trade association experience-he was field director of the NAB nearly 20 years ago.

Committee Active

The NAB board initially set up a three-man committee — Messrs. Shafto, Ryan and Shouse—to select the new president. Last February the committee was enlarged to six. The enlarged committee has held a number of meetings and has sifted a list of many names. At sessions held in New York in March, an original list of 17 names was reduced to eight. Then at a mid-April session in New York, the eight individuals were considered-several of whom personally were inter-viewed. At this writing it is doubted whether there are more than one or two men who might be available, and the committee, as a consequence, has all but concluded that the only plausible approach is for another interim appointment until the war is over.

While the committee was given virtual plenary powers in its selection of an NAB president, it is disposed, in view of developments, to make its recommendations to the full board. The board did not specify compensation to be paid for a permanent head. Mr. Miller, who was the first paid executive of the NAB, having served from 1938 until he resigned to join UNRRA last year, drew an annual compensation at that time of \$35,000 plus \$5,000 in allowances. Mr. Ryan has been drawing \$25,000-a figure he set himself.

Neville Miller Back

By coincidence, but having no.relationship whatever to the NAB deliberations, Mr. Miller returned to his home in Washington last week, after nearly a year in Cairo as deputy chief of the Balkan Mission of UNRRA. He traveled extensively in the Balkans and prior to his return to this country he traveled extensively in Palestine and the Holy Land.

Sponsors Prepare for Summer Season

Some Agencies Delaying Decisions on Show Replacements By HELEN HOUSE

SUMMER replacements on the networks will lean toward dramatic programs and name bands or artists in the popular or semiclassical music field. There will be a dearth of laugh-provoking programs relying on star comedians, with many of the strong comedy shows going off, their leading talent set to entertain servicemen or subject to military service themselves.

Seek Humor

Eddie Cantor, Ed Gardner and Jack Benny are planning armed forces tours, their sponsors granting long-term absences of 16 to 17 weeks. Stars from musical and entertainment shows who will play for servicemen include Bing Crosby. Kraft Cheese Co. replaces Mr. Crosby in Kraft Music Hall, NBC Thurs. 9-9:30 p.m. with show starring comedian Edward Everett Horton, starting July 5, 13 weeks, agency, J. Walter Thompson. The experts on *Information Please* and the Andrews Sisters are also considering tours.

To keep up the balance of humor, agencies and production firms are offering audience participation programs, which need not rely so much on name comedians.

Extent to which the summer layoff eats into the list of favorites can be seen by the most recent C. E. Hooper Inc. list of "First Fifteen" programs [BROADCASTING, April 23]. Of 16 programs (there is one tie), indications are that 12 are going off or dropping lead talent this summer. That includes Sealtest Inc.'s Village Store show, NBC, which loses Joan Davis permanently after June 28 but continues with Jack Haley and same format.

To fill summer periods, half a dozen or more former shows are being revived, including *Summer Silver Theater*, with Conrad Nagel as m.c. CBS Sun. 6-6:30 p.m., replacing Ozzie and Harriet, off June 10, back Aug. 12, Young & Rubicam; J. C. Flippen's Correction Flease, replacing, for Bristol-Myers, Duffy's Tavern NBC Fri. 8:30-9 p.m., off June 8 to Oct. 5, Y&R; B-M's Time to Smile NBC Wed. 9-9:30 p.m., will carry on without Cantor, off June 20, back Oct. 2, Y&R.

Topper Show

One of the new programs is General Foods' Adventures of Topper, a Rockhill Inc. package based on two Thorne Smith "Topper" stories with Stanley J. Wolf producing, Kirby Hawkes, Benton & Bowles, directing. Program starts June 7 on NBC Thurs. 8:30-9 p.m., replacing Dinah Shore. Time shifts for the 15-week summer run of Topper from Y&B to B&B which lined up the show and products from frosted foods to Maxwell House Coffee. Last broadcast. for

FCC Moves Toward Final Allocation Ross Shows Good

Few Days Extension of ten's statement before the Commis-**Deadline After May 1** Is Indicated

WITH its self-imposed deadline of May 1 likely to be extended at least a few days, the FCC last week worked feverishly to complete its final allocations above 25 mc (including FM and television) while some interests made last-minute efforts to bring Congressional pressure to bear on the Commission with reference to FM.

Indications were that the allocations would be completed this week, but formal announcement of the conclusions may not be forthcoming until late in the week or early next. Developments continued to point toward moving FM upward in the spectrum. How far remained a question which only Commissioners could answer and those interviewed last week steadfastly maintained they still had "open minds".

Converter Demonstrated

Considered significant, however, were several license renewals granted Tuesday to FM commercial and noncommercial educational stations and to FM and television experimental outlets. The renewals were approved by the FCC "subject to changes in frequency assignment which may result from proceedings in Docket 6651" (allocations). [For list of stations see FCC Actions, page 74].

In Chicago the Hallicrafters Co. at the invitation of the FCC, conducted a two-day demonstration of a new one-tube FM converter, which will retail for about \$10. "During the period when FM stations are being changed over to the new frequencies a receiver provided with the converter will be able to receive stations in both the new and old bands," said a Hallicrafters announcement.

Meanwhile CBS took issue with a telegram addressed to all Members of Congress on April 20 [BROAD-CASTING, April 23] by Comdr. E. F. McDonald, president of Zenith Radio Corp., Chicago, charging that the networks want FM moved upward to delay the service and enable them to continue their "nearmonopoly."

Gammons Letters

In letters to Chairman Burton K. Wheeler (D-Mont.) of the Senate Interstate Commerce Committee and Chairman Clarence F. Lea (D-Cal.) of the House Interstate & Foreign Commerce Committee, Earl Gammons, CBS Washington director, challenged Comdr. McDonald's contentions that the networks want to delay "their new competitor FM."

"I think the best evidence of how far-fetched these intimations are is the testimony which Paul W. Kesten, executive vice-president of CBS, gave before the FCC during the hearings on reallocations of frequencies," wrote Mr. Gammons. He quoted excerpts from Mr. Kession as follows:

Sion as follows: We are less concerned with where FM is finally placed in the spectrum than that enough space be given to it. Forty frequencies, I believe, are pres-ently available for FM stations. We should like to see that number doub-led and then half again as many fre-quencies added. We recommend, in other words, 100 frequencies for FM broadcasting.

broadcasting. While this is roughly the same num-ber as the frequencies now available in AM broadcasting, it will produce vastly different results. The present 106 frequencies in broadcasting make pos-sible something over 900 stations in the United States, and many of those are squeezed pretty tight. Under a policy of licensing which we hope the Com-mission will adopt, 100 FM frequencies should make possible between 4,000 and 5,000 stations. A rough estimate indicates that at

5,000 stations. A rough estimate indicates that at least 10 nationwide networks could be possible under such a plan, with as many as 25 or 30 stations operating in such of the larger markets as New York, Chicago and Los Angeles.

We arrive at this position by no tech-nical or complicated process, but by a simple philosophic one. It is so simple that I can state it in eight words: We want FM broadcasting to be wholly democratic.

democratic. That objective, translated into terms of space in the spectrum and licensing policy, implies clearly two things: First, that the supply of frequencies, the total number, be enough or more than enough to meet any visible demand. Second, that what we have called the prince-and-pauper status of big and little stations be avoided as the end-result of licensing.

Urges Action

"You can readily see from this statement," concluded Mr. Gammons, "that nothing could be further from the truth than the intimations that Columbia is trying to prevent development of FM broadcasting or is trying to create a monopoly in it; in fact, the exact opposite is true."

In his telegram Comdr. McDonald said: "Every city in the U.S. over 2500 population can, after the war, quickly have an efficient lowcost FM broadcasting station if FM is not crippled by the unnecessary and delaying move proposed by the FCC. . . . If the influence of Congress is to be used in the interest of progress, small businessmen and free speech, regardless of whom it hurts, it must be immediate, as there is no appeal to the courts. May I urge you to go on record with your views to the FCC promptly, as after next week it may be too late."

Both NBC and the Blue-ABC ignored Comdr. McDonald's telegram. Although no official comment was forthcoming, it was understood that the two networks took the attitude "he didn't mean us." Blue went on record during oral argument as favoring the Commission's proposal, while NBC took no particular position with reference to FM's position.

Following the Hallicrafters demonstration, a news release from the company said: "Hallicrafters made no claim that the use of the converter is the best way to receive the new FM band. It explained that a converter provides a simple, inexpensive way to keep prewar sets in use when FM frequencies are changed, and that statements to the effect that the public will suffer great financial loss because of obsolescence of present receivers are not accurate."

The tests were performed through Hallicrafters' experimental FM station, W9XHB, located about a halfmile from the company's offices. It operates on 100 mc with power of 50 w. Among invited guests attending the demonstrations were John A. Willoughby, FCC assistant chief engineer in charge of broadcasting, military officials and newsmen.

United Fruit Expands

UNITED FRUIT Co., New York, adding to its spot radio campaign to promote the proper care and preparation of bananas, [BROAD-CASTING, Dec. 4] has placed its "Chiquita banana" jingles on WCPO WKRC and has increased schedule on KRLD. Agency, BBDO, New York.

"I Understand You Need a Widely Traveled Commenator to Cover the

San Francisco Conference!'

Drawn for BROADCASTING by Sid Hix

Radio Knowledge **Approaches White House Post** With an Open Mind, He Says

CHARLES G. ROSS, St. Louis Post Dispatch Washington correspondent who has been named White House press secretary by President Truman, has surprised his friends by revealing a much more extensive knowledge of radio than was expected.

Mr. Ross, named as successor to the Steve Early office 10 days ago [BROADCASTING, April 23], is now in San Francisco covering the World Security Conference, an assignment he will complete for the St. Louis paper before assuming his new duties in Washington.

Reinsch to Atlanta

Leonard Reinsch, who had been designated as Mr. Truman's press and radio aide and then quickly pulled from the job by his employer, Gov. James M. Cox, returned to Atlanta last Wednesday. Mr. Reinsch, as managing director of the Cox radio stations (WSB Atlanta, WIOD Miami and WHIO Dayton), headquarters in the Georgia city. By request he will continue as radio advisor to the President, available on call.

Although Mr. Ross has made no public utterances on his plans for handling the new position to which he was appointed by the man with whom he went to school as a youngster, he has made some relevant informal remarks among newspapermen and intimates.

He has stated, for example, that he approaches the job with an open mind. He has expressed the opinion that he does not believe the White House requires a radio man of extensive technical knowledge on its regular staff.

Charter Heslep, MBS Washington representative, chatted with (Continued on page 72)

Radio Sets Pattern for Worldwide Amity

State Dept. Lauds Cooperation In S-F Coverage

By DAVID GLICKMAN

WITH EARS and eyes of the world focused on San Francisco, radio is supplying a first-hand auditory picture of the United Nations Conference on International Organization which got under way last Wednesday.

As a public service some 41 independent and affiliated stations, plus regional hookups, are supplementing the regular spot reporting by the four major networks and the radio news services. In addition, the British Broadcasting Corp., Canadian Broadcasting Corp. and Australian Broadcasting Corm. are covering daily highlights with interviews over their respective facilities.

Opening Runs Over

Networks and independent stations opened their channels at 4:30 p.m. (PWT) Wednesday for proceedings, with five minutes devoted to atmospheric fanfare before Secretary of State Stettinius, as temporary president of the Conference, took over. He briefly introduced President Truman, who spoke by direct telephone wire from Washington for more than 10 minutes.

Gov. Earl Warren of California and Mayor Roger Lapham of San Francisco officially welcomed the See list of radio reporters and commentators at Conference on page 71.

delegates and those assembled. Secretary Stettinius gave the concluding address.

When ceremonies ran two minutes beyond the 30-minute broadcast time allotted by radio, Blue-ABC commentators were called upon for a series of strictly ad lib comments. Edward Tomlinson, the network's advisor on Latin-American affairs, took over as m.c. Ad libbers included Walter Winchell, H. R. Baukhage, Ray Henle, David Wills, Vincent Sheean, Hedda Hopper, James Abbe and Brig. Gen. Junius Pierce, USA Ret., who filled the succeeding quarter-hour.

Other major networks signed off after the two-minute overlap and returned to their regular schedules. Many of the local independents and those forming temporary regional networks continued to give ad lib fanfare over a period of from 5-15 minutes.

Unexpected problems that upset State Dept. plans for programming Thursday's important plenary session led to a direct appeal by broadcasters to American delegates for better cooperation at future meetings. The session was to open at 3:30 p.m. (PWT) with a 30minute business routine. At 4 p.m. radio was to cut in, each network and station providing five minutes of color and at 4:05 p.m. Secretary Stettinius was to speak. At 3:15 p.m. all of the networks were notified that Secretary Stettinius would begin speaking shortly after 3:30 p.m. Mutual, CBS and NBC hurriedly shifted schedules and went on the air at 3:30; Blue-ABC followed several minutes later, but there was some delay in Mr. Stettinius taking the air. Networks had to fill with ad lib commentaries, awaiting the official speech. Mr. Stettinius finally took the floor.

No Texts of Speeches

Then the address of Soviet Foreign Commissar V. M. Molotov presented a real problem. There was no text. He spoke in Russian. Blue-ABC had an interpreter on hand. CBS brought on George Moorad, just back from Russia, who explained the trend of Mr. Molotov's talk. Then came the English translation. A bombshell exploded when Lloyd Dennis, State Dept. radio advisor, notified the nets that a French version would immediately follow. The Russians had requested it and French had been adopted as one of two official Conference languages. Once more the networks rounded up their commentators for another ad lib session while the speech was delivered in French.

To top it off there was no text of Foreign Secretary Anthony Eden's talk available, so the networks had to rely on telephone signals from Mr. Dennis as the British representative neared the end of his address. Following the plenary session broadcasters pointed out their public service obligation in direct appeals to delegates, avoiding embarrassment to the State Dept.

Thursday night was designated as "United Nations Night" on the Blue, with all network programs between 6-11 p.m. (EWT) keyed to the San Francisco Conference. Cooperation of the broadcasting profession, as displayed during these first days of the Conference, should set the pattern for international amenity, State Dept. officials in charge of radio-press relations declared. All networks and independent stations called upon conceded to the wishes of the State Dept. in selecting broadcast time for the plenary kickoff sessions.

Rotation Plan

While every network and numerous independents have their key men in San Francisco for the opening sessions, a plan of rotating commentators and news analysts has been blue-printed so as not to leave other important news beats unprotected. Earlier plans of the networks have, to a degree, been revised.

Influx into San Francisco is being staggered over the four to six weeks the Conference sessions will be spread. Due to possibility of V-E Day declaration by the United Nations and a watchfulness over President Truman's administration with possible Cabinet changes, it was deemed advisable to hold back some of those radio correspondents with entry to official Washington quarters. It is further anticipated that many of those now in San Francisco for opening sessions will be replaced later, with rotation effective throughout the Conference.

As an example, Fulton Lewis jr., Mutual news analyst, at this writing is remaining in Washington. He will go to San Francisco about mid-May. Meanwhile Fred Morrison, his aide, is feeding him copy via telephone.

Among the Blue-ABC commentators remaining at their posts for the time being are Earl Godwin, Washington; John Kiernan and John B. Kennedy, New York.

Lowell Thomas, covering the European War Theater for NBC, will shift to San Francisco before the Conference adjourns and so will Guthrie Janssen, now in the Middle East, and Robert St. John, New York.

It is expected that Quincy Howe, CBS New York correspondent, returning from a European battlefront tour, will be in San Francisco for the latter days of the Conference. John Daly, also of New York, and Bill Costello of Washington, probably will rotate to the West Coast. Bill Henry, CBS correspondent, returns to his Washington post in mid-May. When Conference sessions fall into pattern others will return to their respective regular assignments.

In several instances out-of-town independents indicated they will send in replacements to ferret out news and fresh angles as the Con-

(Continued on page 70)

FAX EXPERIMENT Times Sends Four-Page Edition to Coas:-----

PRESAGING future transmission of newspapers from coast-to-coast via facsimile broadcasting, the New York Times used wire facsimile last week to transmit a four-page edition of its Wednesday issue to delegates attending United Nations Conference on International Organization in San Francisco.

In New York the four-page condensed version of the *Times* containing 32 columns of news but no advertising was transmitted, half page at a time, over the Associated Press wirephoto facilities. In San Francisco the pages were put together, engravings made and the *Richmond* (Calif.) *Independent* ran off some 2,000 copies on a flatbed press.

The facsimile newspapers, labeled 2 a.m. edition, were placed in the hands of delegates at breakfast, hardly two hours after the transmission. Correspondents saw in this experiment, first of its kind in journalism, delivery of New York newspapers on the West Coast the day of publication, and vice versa, through radio facsimile.

Underground Resistance Kept Alive by Radio, Delegate Says

RADIO last week was credited with keeping the spark of resistance alive in the dark days of the European war.

Addressing a news conference in San Francisco, Victor DeLaveleye, former Minister of Justice of Belgium and originator of the V-for-Victory sign, declared that radio's greatest contribution in the war of words against the Nazis was the broadcast of the V. Member of the Belgian delegation to the United Nations Conference on International Organization, Mr. DeLaveleye was in charge of underground broadcasts to Belgium in the early days of the war when John Salt, North American director, British Broadcasting Corp., was director of BBC's European service.

In January 1941, Mr. DeLaveleye related, the people of Belgium were marking the letters "RAF" on walls, sidewalks and even on Nazi vehicles. The underground sought a single letter to symbolize liberation and victory. The letter V, first letter of the words Victoire and Vrijheid, each meaning freedom, was chosen. Mr. Salt told how, on Jan. 14, 1941, in an underground studio during the height of a blitz, BBC broadcast the first V.

"Someone in the room had just tapped out the three dots and a dash and in a moment someone hummed Beethoven's Fifth and everyone leaped upon it," said Mr. Salt. "At first we used the musical signature but discarded it because of transmission problems and the fact that the music was too obvious. Instead the BBC used three short beats and one long one on a kettle drum."

"Within a fortnight after the first instructions went out over the BBC to use the V sign, reports began to flow in from the underground that the walls of buildings throughout Belgium were being covered with V's," added Mr. De-Laveleye. "Soon the symbol spread like wildfire to France and became the first symbol for liberation in Europe and later the symbol for victory throughout the world.

"All the world owes a debt to radio for the job it did in keeping the spark of resistance alive throughout occupied Europe," said Mr. DeLaveleye.

Breen, KVFD, Wins \$500 Bond NBC SIGNS WARING In Ralston Promotion Contest FRED WARING and his organi-

Second Award Goes to Campbell, WIBC; Powers, of Yankee, Winner in Regional Net Group

SCANNING Ralston promotion material are: Mrs. J. B. Cari-Cari, assistant to radio director, Gardner Adv. Co.; Hal M. Chase, cereal adv. mgr., Ralston Purina Co.; Harold M. Coulter, mgr. audience promotion, of Mutual; Charles Claggett, vice-president, Gardner Adv. Co.

EDWARD BREEN, manager of KVFD Fort Dodge, Iowa, won the \$500 War Bond first prize offered by the Ralston Purina Co., St.

September 1944 to March 1945. \$250 bond, goes

Louis, for the best

and most consist-

ent promotion of

programs from

Mr. Breen

Second prize, a to Alex Campbell,

of WIBC Indianapolis, and Dal Wyant, WHEB Portsmouth, N. H., took third place with a \$100 bond.

Best in the regional network group was James Powers of the Yankee network, who will get a \$100 bond.

The contest, announced last August in BROADCASTING, was open to station managers, promotion managers or anyone responsible for general program and merchandising promotion. Idea was to attract listeners to the Ralstonsponsored program, Tom Mix and His Ralston Straight Shooters. heard five times weekly, 5:45-6:00 p.m. EWT, on 209 Mutual stations, 178 of which submitted scrapbooks.

Mr. Breen started his promotion campaign by getting youngsters together at a party for the Oct. 7 broadcast. He followed with spot announcements, newspaper advertising, handbills, etc. Outstanding was the KVFD wastepaper collecting contest, launched through the Tom Mix Straight Shooter Club. Prize for the most household waste paper was a Tom Mix pony, won by a nine-year-old boy who turned in more than two tons. Fulton Lewis jr., Mutual news analyst, plugged the KVFD contest on a national broadcast with the result that the War Production Board wrote the station asking for full details for possible use elsewhere.

Mr. Campbell's stunt centered around a costumed "Tom Mix" who came into Indianapolis by train and rode through the city in a buckboard.

Other contest winners and the value of bonds they will receive are: fourth, Mel Standage, KOVO Provo, Utah, \$50; Fifth, Barbara Mac-Farland, CKLW Detroit, \$25; sixth, Bert Wick, KDLR Devil's Lake, N. D., \$25; seventh, James R. Curtis, KFRO Longview, Tex., \$25; eighth, Lois Cloksin, KABR Aberdeen, S. D., \$25.

Honorable mention and a gold "Tom Mix whistling ring" will go to each of the following: Bob Mc-Raney WCBI, Bob Gribben KDTH, Victor C. Diehm WAZL, W. H. Cate KBTM, John Tobola, WAYX, John Merdian WSTV, Ken Lufkin KSO, Elwood C. Anderson WEST, Wallie C. Porsow WHBY, Madeline K. Doyle KBON, Mrs. F. V. Cooper WPDQ, H. J. Newcomb, WRJN, Edwin Mullinax WLAG, Mrs. S. W. Anderson KFFA, Byron Hayford WDLP, Frank Bishop KFEL, E. A. Alburty WHBQ, Vann Camp-bell WDEF, Dan Hornsby WATL, Eleanor M. Haling KBIZ, Sue Cornelius WHK, Leroy Woodward WOMI, Verne Sawyer KMO, Fred Fletcher WRAL, R. G. McBroom KFIO.

Judges were Sol Taishoff, publisher of BRJADCASTING, Robert K. Richards, editorial director, and J. Frank Beatty, managing editor.

Agency is Gardner Advertising Co., St. Louis.

FOR MORNING SHOW

zation of 80 persons will replace Happy Feltor's Finder's Keepers 11-11:30 a.m. Monday through Friday as a step in NBC's plan to offer better morning programs. Move to improve the morning listener rating is seen as an attempt to compete with Blue -ABC Breakfast in Hollywood which tops all net shows on morning Hooper ratings.

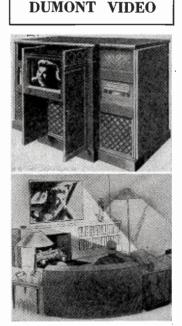

Waring is scheduled to start as a sustainer, but NBC is looking for a sponsor. Net contract with the top-price dance band is for five years starting June 4 and includes provision for an additional weekly half-hour nighttime period.

NBC Midwest Up

NBC CENTRAL division showed a sales increase of 9.6% for the first three months of 1945 over last year, according to Paul McCluer, sales manager. Division handled 25.2% of net's sales during the period. Increase of 9.2% in national spot sales on WMAQ Chicago was scored for the period.

Macy Names Grey

R. H. MACY & Co., New York department store, has appointed Grey Adv., New York, to handle radio and national magazine ads. Radio at present is limited to thrice-weekly program on WOR New York.

CLASSIC AND DELUXE television models were shown last week by Allen B. DuMont Labs. Topphoto shows the classic model Teleset featuring screen, FM, standard broadcast and phonograph, and push-button controls to operate the 'disappearing screen". The deluxe projection Teleset (below) provides for FM reception as well as projected video picture.

DuMont's Postwar Video Set Shown

Home Receiver Combines FM. **Television; Big Screen**

TELEVISION pictures 3 x 4 feet, largest image yet presented for home use, were witnessed Thursday by some 50 radio editors and writers at the studios of WABD New York at the first public showing of the postwar television receiver designs of Allen B. DuMont Labs

The pictures, thrown on a screen by a projector, are more than four times the size of any previously shown in a home type receiver. The DuMont projection receiver is something like a motion picture projector, occupying a cube about 24 inches in each dimension. It was explained that plans are made to reduce this to about two-thirds its present size, so it can be conveniently housed in an end table or similar piece of furniture. A 7-inch tube is used in this unit.

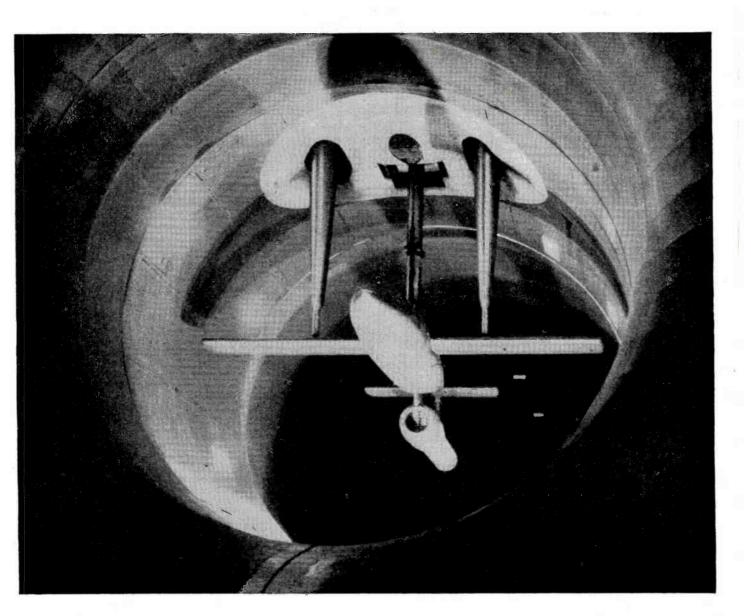

FM Sound and Video

Leonard F. Cramer. DuMont executive vice-president, who conducted the demonstration, explained that the projector had a tested range of picture sizes from 18 x 24 inches to 41/2 x 6 feet. The unit, called the DuMont Home Teletheater, including FM sound and television, will retail for approximately \$1250, Mr. Cramer said, pointing out that before the war a number of manufacturers made radiophonograph combination receivers in this price bracket. A larger unit, for use in clubs, schools, hospitals, small theaters, etc., with a picture 6 x 8 feet, will be priced at about \$1800. he said.

A direct-viewing receiver with a 20-inch tube also was demonstrated, showing pictures 131/2 x 18 inches. These pictures were brighter and showed more contrast than the projected images and while the curve of the tube is still slightly noticeable in the pictures the peripheral distortion is far less than in prewar models. A 20-inch tube with still less curvature, now being made at the Corning Glass plant, is expected to present an almost flat image.

Designs of the DuMont telesets planned for postwar production were exhibited by Mr. Cramer-one a conventional design, the other a modern piece of furniture, designed for DuMont by Herbert Rosengren, industrial designer. Planned to overcome the chief objection to direct-viewing sets that they are too large to fit into the average living room, these receivers when closed, are cabinets 48 inches high, 60 inches wide and 24 deep.

These cabinet telesets, which will contain a radio and a phonograph in addition to television equipment, will retail for about \$1500, Mr. Cramer said. A simple television-FM set with a 20-inch tube, but without the other features, probably will be offered for about \$450, he added.

Robot bomb tested

We selected that wind tunnel picture to make a comparison between pre-testing of airplanes and robot bombs, with pre-testing your purchase of radio time.

But the story behind the picture interested us so much, we thought maybe you'd like to know more about what's going on in that picture.

That's a genuine German robot bomb. It was reconstructed from an infinite number of undamaged parts that were salvaged from nobody knows how many "buzz bombs" that landed both dud and exploded in England.

Here it is given a flight test in the big Wright Field wind tunnel. Just to add another fillip to the story ... for test purposes in the tunnel the robot is suspended upside down!

It didn't take our army long to get the dope on German robot bombs ... and it won't take you long to get the low-down in Baltimore radio ... if you use the successful independent, W-I-T-H.

Tom Tinsley, President

Represented Nationally by Headley-Reed

Mosquito Net Finds Home Methods Best

After Year AES Sure Standard Practice Most Effective

By MAJ. SPENCER M. ALLEN * Chief, Armed Forces Radio Service, South Pacific

YES, the Mosquito Network's sustaining days are over. "New ac-counts" are coming in every day and business is humming on Guadalcanal, in the New Hebrides and New Caledonia. Today, after one year of operating American Expeditionary Stations in the South Pacific, the pioneering is done, and broadcasting has become a routine, business-like procedure. Gone is the haywire. In its place are commercial transmitters and consoles. heavy-duty turntables and recording equipment, professional amplifiers and microphones, on the air hour after hour on split-second schedules. The break-downs and dead air silences are as rare in 1945 as they were common in 1944 when we were limping along on patchedup Jap generators, salvaged transmitters, and makeshift antennas strung among the coconut palms.

Critical Now

But most important, the G.I. audience has accepted radio as an integral part of a soldier's life on a tropical island, along with chow, work, training, movies, mail and beefing. Where once the listener was happy if we played nothing but Harry James recordings all day, he has now become critical. We're in for abuse if we clip the last two minutes of the NBC Symphony to join San Francisco for the news; or if "Your Radio Theater" (Lux, to you) is cancelled; or if we play "Rum and Coca Cola" too many times. In short, the longer we're in operation, the more conservative and demanding the G.I.'s become in their listener tastes. We use the phrase "comparable to standard American commercial broadcasting practices" to indicate the tone by which the Mosquito Network operates.

We now boast of "commercial" and "merchandising and marketing" sections in our stations, for radio's selling ability is just as potent in the Army as it is back home. It amuses me to read articles by ex-radiomen who have returned from overseas, predicting a whole new listener trend is developing because the soldiers are spared those "horrible" commercials. Well, that may be the case in the normal course of radio's development. But I don't believe it will be due to the returning veteran's insistence that he have his radio entertainment served up sterile of any blatant commercials. If the Mosquito Network is any criterion, the service-

* EDITOR'S NOTE—Maj. Allen has been in the writing, production and bushess end of radio for 12 years, with advertising agencies, KMOX St. Louis, KFRU Columbia. Mo.. WGN Chicago, among other stations. man is still getting his "commercials" on the radio. And some of them are blatant.

Before I'm misunderstood, suppose I enumerate our "commercials". Our biggest commodity, of course, is good morale. We believe we sell that automatically just by being on the air with Stateside transcribed shows and good local programs. But there are other "products" that have to be approached from a typical sales angle.

Take mosquito repellent, for instance. Repellent is a liquid issued in a small bottle to each soldier in the tropics. He is told to smear the mixture on his hands and face before going out after sundown to prevent mosquito bites. It's slightly greasy, has very little odor, but it is just a trifle messy, and who wants to take time to smear himself? We were faced with the problem of selling the use of repellent to the G.I. How to do it? Well, most soldiers will go along with a gag, so we sell it to them on that basis. We use "quickie" announcements at sundown, such as "Hey, bud-are you repulsive? If you're meeting Annie (Sopacese for anopheles mosquito) tonight, play hard to get. Use your repellent." Or, "Going out tonight, dogface? Then be sure to wear your Chanel Number Five. Make yourself alluring. Be repellent." They get the idea.

Plug Atabrine

The same is true on selling the use of atabrine. It isn't hard to take and there are no ill effects. It is essential in malarial regions. But soldiers forget. At Guadalcanal the Mosquito Network station features "The Atabrine Cocktail Hour" each evening at 5:30. The program is just fifteen minutes of recordings. The sales approach is purely institutional-no direct reference is made to the taking of atabrine. The gimmick is that the announcer pretends to bring the listener cocktail music from some sumptuous lounge on Guadalcanal, such as the "Fungus Festooned Fern Room", or "The Starlight Roof high atop Hotel DeGink in downtown Guadalcanal". The listener is interested to know from what local and mythical gin mill tonight's "Atabrine

Wrong City

HOUSEWIVES in Los Angeles April 18 hurriedly turned off the pilot lights in their gas stoves at the behest of a radio warning that a main had broken. Upon notice by the local gas company that no lines were broken the police started a check and three hours later discovered that the warning had come via KOB Albuquerque, N. M., where a main had broken.

MAJ. ALLEN

Cocktail Hour" will originate. While he's listening, he hears the word "atabrine" at least twice.

Another mosquito sales problem was the use of the "freon bomb", a small cannister of compressed freon gas and insect-killer. When the spray is released in a tent for five seconds, all insects are killed. In this case we used the Alka-Seltzer technique—"listen to it fizz". At ten o'clock every night the listener hears on his radio: "Listen to it fizz," and the sound of the "bomb" hissing as it releases the spray. Then the blurb: "Better give Annie the brush-off before hitting the sack, men. Use your mosquito bomb."

Singing Commercials

We even use singing commercials. One of them promotes YANK magazine. We unashamedly borrowed from Pepsi-Cola on that one. It goes:

"YANK's the magazine that's hot, Twenty-four pages-that's a lot. News and pix and the Sad Sack,

too; YANK's the service magazine for you."

Our most recent campaign was an ambitious one. The G-2 people at New Caledonia asked us to promote a "silence" campaign--to drive home to the soldier that loose talk is dangerous. So we decided on the Lucky Strike approach--yep, the much - maligned LS/MFT method. Several times a day for a week the radio listener heard the puzzling string of letters "DT SMS DT SMS". Then we broke the translation: "Don't Talk, Silence Means Security."

Corny? Absolutely! "Bad" radio? Could be. Effective? Well, I defy anyone to find one soldier out of a hundred on New Caledonia who doesn't know what "DT SMS" means today.

Information is one of our primary products—indeed, we are organized under the Information-Education Division, Army Service Forces, the parent of YANK magazine, Army News Service, and the Armed Forces Radio Service. And the slogan of the Information-Education Division is, "Not only the best equipped, but the best informed soldier in 'the world." We see to it that the G.I. listener gets news and plenty of it. The American Expeditionary Station at New Caledonia airs fourteen news broadcasts per day—mostly direct rebroadcasts of short-wave pickups from the United States.

At times the question has been put baldly to us: You don't have to make a living out of your stations here, so why cater to the mass tastes? Here's the opportunity to do some education of the masses by giving them the "better things". Actually, we're probably more high-brow than the average station back home. But we don't forget that our servicemen are a cross-section. They want Jack Benny and Bob Hope, Harry James and Kay Kyser, John Charles Thomas and the NBC symphony in just about the same proportion your listeners in New York and Chicago and Los Angeles and Plum Tree Crossing back home want them. So we give it to them in that proportionotherwise, we're going to lose some customers and Tokyo Rose will gain some. If we don't have the following, we will not be accomplishing our mission and getting results.

Fired With Zeal

We came out to the South Pacific last year with our radio stations, fired with zeal to determine two things in radio broadcasting. Here would be the virgin opportunity, we believed, to discover (1) just what is the ideal men's show, and (2) what new sales approach could we develop for a male audience only. Well, after over a year of broadcasting to a he-man audience, we have not yet discovered those two angles. As to the ideal men's show, the nearest approach is perhaps, "Command Performance". But it's not truly a masculine appeal type of show, because everybody goes for it, male and female alike. We've come to the conclusion that American commercial radio methods of the 1940's are still pretty good-at least they're good enough for us. They've done a selling job for the Mosquito Network.

Philco Forms Television Broadcasting Division PHILCO RADIO & Television Corp. has formed a Television Broadcasting Division with Ernest B. Loveman as vice-president. Mr. Loveman joined Philco in 1928 as advertising manager. Since 1942 he has been resident vice-president of Hutchins Advertising Co. in

charge of the Philco account. The new division will direct all Philco television, station, broadcasting and network activities, including the recently started television network linking Washington and Philadelphia. Philco also has filed applications with the FCC for commercial stations in New York and Washington.

To millions of people in the rich Missouri Valley-Great Plains area, "Radio Omaha" means "Radio WOW".

From Sioux Falls to St. Joe—from the cornlands of Central Iowa to the cattle country of Western Nebraska—radio listeners have acquired the "WOW habit" over a period of 22 years. Why? Because, with 5000 watts power behind 590 kilocycles, WOW delivers clear, easy-to-listen-to radio programs over an immense area—within 200 miles of Omaha. And because listeners consistently hear the best radio programs on WOW.

Since 1927, WOW has given its listeners NBC programs—the best available anywhere. In addition, WOW has always excelled in its newscasts, and its frequent timely special events.

So that's why "Radio Omaha" means "Radio WOW" ... that's why millions have the "WOW habit".

As every experienced Time-Buyer knows, it's "listener habits" that determine the advertising value of radio media. That's why WOW has been the Number One Radio Advertising Medium in its area for many years—and STILL IS.

What America's youngest network **GREATEST NEWS**

A CAVALCADE OF ANALYSTS, COMMENTATORS, DRAMATISTS AND "PLAIN FOLKS" ARE BRINGING THE SAN FRANCISCO CONFERENCE DOWN TO EARTH FOR BLUE'S LISTENERS.

SUMNER WELLES

One of the best-informed men in America on international relations who is free to speak has joined the American Broadcasting Company as Advisor on the Peace.

We figured out the other day that our radio audience in the course of a week totals the equivalent of five hundred million listeners. And we feel that such an audience deserves the best that radio can give it. There's an obligation, tooan obligation to know what we're talking about. So we looked around for a competent authority to guide us.

We secured as our advisor on world peace an experienced diplomat and statesman: Sumner Welles.former Under-Secretary of State.

In addition to giving us his guidance and counsel, Mr. Welles is appearing personally on a series of programs designed to "give every American a seat at the Conference table."

SUMNER WELLES' PEACE FORUM

A group of four Peace Forums conducted by Mr. Welles ends with the meeting of April 23. These Forums have included such men as President Seymour of Yale University, Senator Pepper, Dr. George Gallup, and many other American leaders of similar standing. Beginning May 1, Mr. Welles will

personally appear on a 15-minute program of commentary on the Conference. With his background of actual service in most of the leading United Nations, Mr. Welles is far better able than most commentators to unravel the intricacies of the Conference and to clarify its true meaning for radio listeners

ORSON WELLES' CONFERENCE FORUM

From this Forum the citizens of San Francisco and the American riom this rorum the citizens of San rrancisco and the American public will be brought up to date on what is happening; what went puone will be brought up to date on what is happening, what went on last week, and what is to come the next. And they'll get a chance to meet foreign delegates and get some ideas of what kind of folks

This Forum is possible because an arrangement has been made with Orson Welles, Free World Association, Americans United, and they are. the American Broadcasting Company for a Forum to take place

every Saturday in San Francisco-whose mayor has supplied the every battering in San Alahobou whose mayor has appared the Civic Auditorium for a setting. This series will be listenable, distinctive, and as significant as

inis series will be instenable, distinctive, and as significant as anything that can be done outside the Conference itself. 27 of the 44 delegates are members of the Free World Association, and will,

accordingly, be available for these Forums.

is doing about the STORY OF OUR TIME

BEN HECHT

wrote a special drama spelling out the significance of the Conference featuring Orson Welles and Commander Harold Stassen. A simple, down-to-earth story by a man whose box-office draw is legendary in Hollywood. Ben Hecht knows how the common people of America feel and what they think. Perhaps better than any other radio writer, he can bring our people the true meaning of the Conference.

WALTER WINCHELL and DREW PEARSON

are broadcasting direct from San Francisco So is Peabody Award winner Raymond Swing; also Baukhage, Vincent Sheean, Edward Tomlinson, David Wills, Ray Henle, Covering the Conference: Walter Kiernen, Earl Godwin, Hedda Hopper and Westbrook Van Voorhis in "Time Views the News."

MILLIONS HEARD "UNITED NATIONS NIGHT" ON THE EVENING OF APRIL 26

All programs – for an entire evening – were slanted toward the Conference

I described on this page, the entire evening of April 26 was devoted to the Conference.

All sponsors and advertising agencies have cooperated in slanting their regular programs toward the Conference.

Newscasters and commentators rounided up the news for you. Lum and Abner (left) presented the down-to-earth small-town viewpoint on the Conference. "America's Town Meeting of the Air" featured Raymond Swing, H. V. Kaltenborn and other top analysts. "The March of Time" presented a Time's-eye view of the Conference and what it means. Fred Waring interpreted music of the United Nations, and "Thu Victory Parade of Spotlight Bands" offered a musical interlude with a special guest commentator.

These, and many other programs in the schedule below, covered every viewpoint on the tremendous decisions to be reached in the San Francisco Conference.

The Blue Network

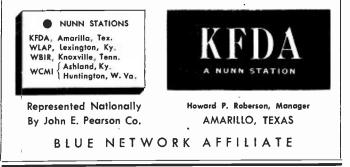

A FEW MARKET FACTS

- (1) Amarillo's retail sales of \$42,333,000 for 1944 show a 60% increase over 1939.
- (2) Amarillo's wholesale volume amounted to over \$152,000,-000 in 1943.
- (3) Amarillo is not only the distribution center for Northwest Texas, but is one of the 5 great distribution centers in Texas.
- (4) The combined receipts for 1944 of just three classifications —cattle, oil and gas, wheat—will run close to \$325,-000,000.
- (5) 92% of the homes in Potter County (Amarillo) have radios—the highest rating in Texas.

KFDA HAS AN IMPRESSIVE "SHARE OF AUDIENCE"

- (6) Let KFDA send you their latest Hooper ratings and other pertinent data.
- (7) Blue Network programs plus outstanding local programs have produced many excellent availabilities. Ask a John E. Pearson man.
- (8) KFDA delivers a "sales punch" in the Amarillo—Northwest Texas market.

CBS Circulation and Listening Area Map Is Sent to Affiliates

CBS has begun distribution to affiliates a listening area and circulation map, first data from the CBS 1944 Listening Area Study, 7th in a series utilizing the controlled mail ballot technique which has been adopted for both the United States and Canadian industry-wide circulation measurement standards [BR)ADCASTING, April23].

An explanation is contained in a brochure, "How CBS Listening and Circulation Areas Are Measured," which states the basic concept that "radio circulation shall include only radio families listening with a known standard of frequency—families counted through scientific sampling of representative radio owners." Reserving the term "coverage" for engineers to use in measuring signal areas, the CBS technique uses "listening areas" and "circulation".

Three Levels

Station effectiveness is shown on three levels: Primary, all counties in which it is listened to by at least two-thirds of all radio families one or more times a week, provided half of those families listen three or more times a week; secondary, counties in which the station is listened to by from onethird to two-thirds of all radio families once or more a week, with onethird of those families listening three or more times weekly; tertiary, counties in which the station is listened to by at least 10 percent of all radio families three or more times weekly.

Local Stations Form Association in Indiana INDIANA Assn. of Local Broadcasters was organized at a meeting in Indianapolis of 10 of the 12 local Indiana stations. Donald A. Burton, WLBC Muncie, was elected president and O. E. Richardson of WJOB Hammond, secretary.

Committee to promote war bond sales includes R. R. Baker, WTRC Elkhart, chairman; John R. Atkinson, WHBU Anderson and President Burton. Special events committee includes Frank Webb, WGL Fort Wayne, chairman; J. Gibb Spring, WASK Lafayette; Harry Burdick and Robert E. Bausman, WHOT South Bend and George M. Jackson WBOW Terre Haute. Next meeting will be held in Chicago.

C. E. HOOPER Inc. opens its new Chicago office in the 230 N. Michigan bidg. May 1. Janet Widner, of the Hooper New York office, will be office manager and Harriet Clemenson, formerly personnel director and secretary to Mr. Hooper, will be assistant manager [BROADCASTING, March 19].

KCMO Kansas City has bought exclusive broadcasting rights for the 1945 season from the Kansas City Blues of the American Assoc. Walt Lochman, director of sports and special events. will report both home and out-of-town games. Within these three levels of counties, two counts of set owners are made: listening area radio families —the total number of radio families living within the three listening levels, and station circulation; the "subscriber" radio families within these three levels who listen at least once a week to the station being measured.

Brochure in considerable detail explains why the controlled mail technique was selected in preference to personal interviews, telephone interviews and conventional mail interviews, and how CBS handled it to produce a 75% return of the 250,000 ballots mailed to that many families.

For practical use, the findings of the survey are projected in six forms, the brochure reports: Station circulation maps, listings of station circulation levels by counties, summary of CBS station circulation, CBS circulation levels for principal cities, CBS network composite maps, special network analyses by clients, sales or trading areas. Station circulation maps are sent only to the individual stations, for reproduction at their discretion. Circulation levels by counties, for principal cities and the network summary are available to stations, representatives, advertisers and agencies. Network county-bycounty listening area maps are generally distributed. Special analyses are made to order for clients and agencies.

Political Plans

CANADIAN RADIO will have an overdose of political broadcasting for several weeks with a provincial election in Ontario and the federal election both taking place June 11, according to announcements made at Toronto and Ottawa. Politicians, party publicity directors, representatives of advertising agencies, Canadian Assn. of Broadcasters and the Canadian Broadcasting Corp. are laying plans to fit in all the electioneering broadcasts on a free and sponsored basis which will be aired by the three major parties in each of the election campaigns. Under CBC regulations practically all political broadcasts must be sanctioned by the CBC for time, so that there will not be a continuous series of political talks on the air, and all network c am p a ig n broadcasts, whether sustaining or sponsored, must be cleared with the CBC.

MANAGERS of eight Iowa stations comprising the Iowa Tall Corn Network attended a meeting of the network held at KROS Clinton, Ia. Group included: William Rambeau and John Livingston, national representatives; George Webber, sales manager of the network; Ken Gordon, net president. Stations comprising network are: KDTH Dubuque, KROS Clinton, KBUR Burlington, KICD Spencer. KVFD Fort Dodge, KTRI Sioux Clty, KFJB Marshalltown, KBIZ Ottumwa.

Ashbacker Appeals **To Supreme Court** WKBZ Asks Review of Plea

Against Fetzer Station

ASHBACKER Radio Corp., operator of WKBZ Muskegon, Mich., last week submitted to the U.S. Supreme Court a petition for a writ of certiorari ordering the Court of Appeals in Washington to review a decision dismissing an appeal from the FCC's grant of an application to Fetzer Broadcasting Co.

The complaint of Ashbacker has been that the Fetzer application for a frequency in Grand Rapids "was in conflict with and mutually ex-clusive of" its own pending application and that the grant was made without hearing thus denying Ashbacker a chance to prove its case [BROADCASTING, March 19]. The petition likewise, claims that the jurisdiction of the Supreme Court is invoked since the order of on its application.

The questions presented to the Court are, when there are pending two conflicting mutually-exclusive applications from the same area for the same wave-length:

1. May the FCC grant one of these applications, ex parte, and simultaneously designate the other for hearing.

2. If so, is the hearing thus offered a fair one in the face of the accomplished grant of the competing application.

3. Does such grant to one of two competing applicants ad-versely affect the interests of the other so as to permit him to sue out an appeal to the Court of Appeals.

The Washington law firm of Segal, Smith and Hennessey is acting as counsel for the petitioner. John E. Fetzer, principal owner of the Fetzer Broadcasting Co., is Assistant Director of Censorship.

Tilden, NBC Spot Sales.

Self - Discipline For Radio Urged Justice Miller Proposes. **Anticipation of Reaction**

ADVICE to broadcasters that intelligent anticipation of public reaction by equally intelligent selfdiscipline will "prevent legislative intemperance" was voiced by As-sociate Justice Justin Miller of the U. S. Court of Appeals in Washington in connection with commercial news broadcasts.

In a letter to the St. Louis Post-Dispatch, supporting its campaign against middle commercials in news sponsorship, Justice Miller commended the newspaper for its position. The letter, published as the lead on the editorial page of the Dispatch April 20, follows:

I have just read in BROADCAST-ING a reprint of your editorial of April 10, "In the Interest of Radio". Let me add my voice to that of others who have commended you for the position which you have taken.

the position which you have taken. There is no more reason why a newscast should be interrupted for a plug-ugly than that such ads should be inserted in the middle of news stories or editorials in a news-paper; especially when the interrup-tion-deliberately or unconsciously, whichever it may be-is in nauseat-ing contrast to the subject under discussion by the commentator. It is particularly encouraging that

discussion by the commentator. It is particularly encouraging that this insistence upon higher profes-sional standards should come from a newspaper—a representative of the profession which has most in-telligently through the years de-fended the guarantees of the first amendment. Only by intelligent an-ticipation of public reaction and by equally intelligent self-discipline can we prevent legislative intem-perance.

GOV. THOMAS E. DEWEY of New York is delivering his annual "report to the people" in two broadcasts on a state-wide hookup of CBS stations, April 27 and May 4, 7:15-7:30 p.m. Each year of his term of office Gov. Dewey has de-livered a similar report on CBS, pre-viously as a single half-hour broadcast.

Net Plan Dropped, WHOM to Be Sold Number of Proposals Made to

Buy Outlet, Says Cowles ABANDONMENT by the Cowles Broadcasting Co. of its original plans to launch a regional network stretching from Washington to Boston was mainly responsible for the decision to dispose of WHOM Jersey City, sale of which is expected within the next few weeks

[BROADCASTING, April 23]. Gardner Cowles Jr., president of the broadcasting organization and of the Cowles newspaper and magazine operations, said last week that the plan initially had been to tie WHOM into WCOP Boston and WOL Washington. The regional network plan was dropped when WCOP contracted with the Blue Network, effective June 15. WOL is the Mutual Washington outlet.

Newspaper Mentioned

It is possible, though unlikely, that the Newark Evening News will acquire WHOM. The newspaper already has contracted to acquire control of WBYN Brooklyn for \$204,000 [BROADCASTING, April 16]. The fact that WHOM is located on the New Jersey side, whereas WBYN is not, might have some bearing on the ultimate transaction.

Mr. Cowles said a number of proposals have been made for WHOM but that no decision had been reached. It probably will be disposed of for the same net price paid for the station less than a year ago-\$350,000, plus adjustments and losses. It appeared evident there was no desire to turn over the station at a profit.

The Newark News obviously could not acquire two outlets under the FCC duopoly regulations. Thus, should a transaction be completed for WHOM, it is presumed the newspaper would dispose of the WBYN agreement. It is doubted whether the Cowles company will seek another New York outlet.

Short Newscast Refused

APPLICATION BY Canadian broadcasters to the Canadian Broadcasting Corp. board of governors at its recent meeting for relaxation of the sponsored newscast regulations, requiring a 10-minute period, to allow a 5-minute sponsored newscast [BROADCASTING, April 16] has been turned down. No reasons were given.

Col. Allen Amputation

COL. ROBERT S. ALLEN, of the U. S. Third Army staff, former Washington columnist and broadcaster of the Washington Merry-Go-Round Blue program, was wounded on April 7 south of Ohrdruf, Germany, the War Dept. annotunced last week. Col. Allen's lower right arm was amputated.

CECIL BROWN has received an award and FRANK SINGISER a citation from the United Businessmen's Assn. of Philadelphia for "excellent presentation of news and outstanding preparation of analyses of events for broadcasts" over WIP Philadelphia. Awards were presented at a dinner April 26.

CFCY Charlottetown, P. E. I., has signed for Press News service, bringing to a total of 43 the number of Canadian stations taking PN wire service.

ONE OF THE WORLD'S BETTER BETTER RADIO STATIONS 50,000 Watts and Blue

REPRESENTED BY JOHN BLAIR δ CO.

in War!

KGW was officially selected by the American Red Cross to launch the 1945 war fund drive in Portland. In response, the station produced another great FIRST; the dramatic eye-witness story of a Coast Guardsman at the Tarawa beachhead.

in Peace!

Early in its history, KGW established itself as a station devoted to humanitarian effort. A weekly two-hour show staged by the "Hoot Owls," a voluntary organization of Portland businessmen, brought joy to shut-ins throughout the Pacific Northwest. Allied with the "Sunshine Division" of the Portland police reserves, the Hoot Owls facilitated immediate aid to many needy Portland families.

in Audience Influence

Show after show, contributing to public welfare, fill the chapters of KGW history. Twenty-three years of insight and foresight in broadcasting has resulted in a succession of pace-setting FIRSTS for this pace-setting station.

ONE OF THE GREAT STATIONS OF THE NATION

Y EDWARD PETRY & CO. INC.

During the two-year period ending in January, a rise of 81.5% was registered by our overall average Hooper. Yes, WSIX has more daytime listeners than any other Nashville station. Remember, too, that BLUE and MUTUAL listeners are the best spenders nowadays. So, with more and more of the million potential buyers in this area listening to WSIX it's no wonder more advertisers are spending more of their radio dollars on WSIX!----the station where your advertising money talks louder.

REPRESENTED NATIONALLY BY THE KATZ AGENCY, INC.

OWI and Treasury Jointly Plan Top Net Seventh Loan Coverage

Total of 679 Assignments Scheduled for Drive To Raise \$14,000,000,000 May 14-June 30

RADIO SUPPORT for the \$14,-000,000,000 Seventh War Loan May 14-June 30, planned jointly by the OWI Domestic Radio Bureau and the Treasury War Finance Division, will elicit widest net coverage of any campaign run heretofore with a total of 679 allocations and scheduled assignments prepared for the networks.

"Within the limits of good showmanship" each network show will be asked to devote an entire program to War Bonds. Special effort will be made to have the top 15 shows in the Hooper rating do one such program before going off the air for the summer.

The greater emphasis placed upon this drive is necessitated by the fact that there will be only two War Loans this year instead of the usual three although just as much money will be raised. Half of the Seventh Loan quota is set for individual investors.

Forces Combined

Radio's part in the drive has been carefully mapped out for the utmost coordination with the advertising and publicity by other media. The OWI and Treasury have joined forces in establishing a radio program service team, operating from the OWI deputy offices ir. New York, Chicago and Hollywood. The teams will confer with every program receiving an allocation in order to supply them with exclusive material and arrange for interviews and guest appearances.

In the past many programs have carried more War Bond appeals than allocated by the OWI, particularly during the first days of the drive. The longer duration of the Seventh Loan, however, makes such a practice dangerous, the OWI feels, since it might result in "shooting the works" during the preliminaries and a lack of message effectiveness in the later and perhaps more critical stages. To avoid this it is suggested that all wishing to devote extra time do so by expanding their regularly scheduled messages to the complete programs mentioned before. The regular allocations have made provisions for reminder copy so no extras are needed in that direction.

In areas where the drive is lagging, the state chairmen of the Treasury's War Finance groups will inform regional OWI radio directors who will then make special requests to offset the deficit.

Although the success of the drive depends on the whole-hearted cooperation of radio, the OWI says, there is still additional reason for careful adherence to the allocation plan and it is essential that the drive does not drain off support from other important Government information programs.

Eight special themes and anniversary days occur during the drive. In cases where a program's allocation falls on any one of these days, the particular theme may be tied in with copy on the drive. Special material is being prepared by the OWI for programs desiring to incorporate the themes.

Special plans for network kickoff programs on May 13, the day preceding the drive, are still under discussion. In the past either special shows by each of the four networks or combined all-star shows broadcast simultaneously on all four have been used.

Secretary of the Treasury Henry Morgenthau in a letter sent Friday to all radio advertisers, agencies, networks and stations cites the necessity for cooperation in the campaign and calls the next few months "crucial to the whole American war effort. The generosity of advertisers, their agencies and broadcasters," he writes, "in allocating radio advertising time to the previous war loan drives encourages us to hope that you will go all-out for a Mightier 7th!'

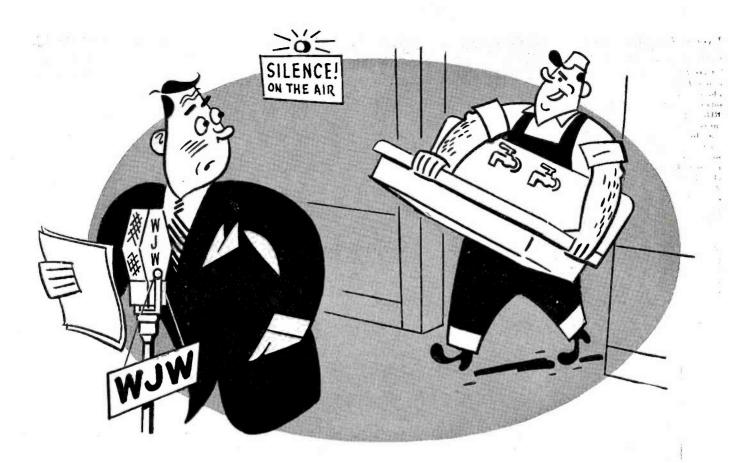

FCC Cut Restored

BY UNANIMOUS voice vote last Wednesday both Houses of Congress adopted a conference report restoring \$4,000 for five new automobiles to FCC's 1946 fiscal year budget, thereby bringing the total appropriation to \$5,005,400, as originally passed by the House. The Senate in March lopped \$4,000, which had been earmarked for new cars, from the budget. The Commission's appropriation now is only \$201,600 less than the \$5,207,000 requested. Congress earlier cut that amount from the proposed regular activities budget [BROADCASTING, Feb. 12].

Hooper Changes C. E. HOOPER Inc. has revamped and expanded its "Hooper Ratings Pocket Piece" to include comparative tabulations of the top 15 programs, showing current, last report and a year ago; program ratings summary; basic audience trends; size of network for each program and rebroadcast time, if any; schedule of network sustainers; use of color blocks to indicate network option time; greater legibility of all charted information.

I.

CJOR Vancouver has moved into its new Radio Theater at 841 Howe St. Studio seats 125 people and includes a reception room, control room, artists' quarters and talk studio.

"HEY, WHERE DO YOU WANT THIS?"

Now, WJW has everything-including the kitchen sink.

The last picture is being hung in our recently expanded offices.

The welcome mat is already out in our new roomy audience Studios.

And the WJW Staff is set up to

handle any and all problems that come our way.

All signs point to WJW's even greater growth. That's saying a lot, too-considering we hung out our sign in Cleveland only 18 months ago and already-WJW is Cleveland's top station in the morning!

quired an interest in and will act as general manager of Raymond Rosen & Co., Philadelphia, distributor of many RCA products.

Mr. Joyce will mr. Joyce take over the re-

sponsibilities handled by Albert Slap, one of the founders of the firm, who died recently. The company was organized in 1926 and has become one of the largest in the country.

HAROLD WEINGELD, released from the Army, and JOHN BERGAMIAN, former-ly in the communications department of American Airlines, have joined the engineering staff of WLIB New York. engineering star of WLLB New York. CLAREK (Red) SAUNDERS, Blue-ABC technician formerly working from KGO San Francisco, has returned to that city after four months in the South-west Pacific. He equipped a B-29 for the historic broadcast over Okinawa by Blue-ABC Correspondent LARRY TIGHE

TIGHE. JOSEPH P. BERRY, supervisor of the Town of Southport, is serving as relief transmitter operator at WENY Elmira, N. Y., replacing JOE MCBENNETT, re-cently inducted and now stationed at Great Lakes Naval Training Station.

Great Lakes Naval Training Station. TAG GREEN, chief engineer of WENY Elmira, N. Y., is the father of a boy. LT. JOSEPH LAMPRECHT, former WFBL Syracuse engineer, is now with a test group, Army Signal Corps, Elgin Field, Fla.

CARL CABASIN, NBC central division field engineer, is the father of a girl.

ROBERT A. BINKEY, formerly of WTOP Washington and more recently in radio-servicing field, has been added to Blue-ABC Hollywood technical staff as vaca-tion relief studio-field engineer.

IVAN EKBERG, from KPRO Riverside, Cal., to KMPC Hollywood as engineer.

BRUCE NEWBORN, Norfolk, Va., district supervisor for Altec Lansing Corp. (radio equipment mfrs.), has been ap-pointed Seattle field engineer replacing MILT OVERMIRE, resigned.

DAVID SCOTT, former WAAT Newark engineer, is engineering chief of the American Forces Network in London.

FRED A. BARROW, Canadian Marconi Co. engineer, has been named factory manager of the firm. ERIC W. FARMER has been promoted to chief factory en-gineer and WALTER S. RAMSDEN to factory production manager.

EDNA CHAMBON to WADC Akron as engineer replacing ILENE MINTZ who is to become a photographer's model in Chicago.

WESTINGHOUSE Electric & Mfg. Co.. Sunbury, Pa., home radio division, has received the company's twenty-fifth Army-Navy E award.

EDWARD J. CONTURE, studio-field engineer for Blue-ABC Hollywood, is the father of a boy.

ACA INTERFERENCE CHARGED TO WWPG

UPHOLDING a complaint against WWPG Palm Beach, Fla., alleging unfair labor practices and interference with union organization, a trial examiner for the National Labor Relations Board recom-mended last week that the Board order the station to bargain with the American Communications Assn. (CIO) as the representative of its employes and make restitution to certain of its personnel for privileges denied.

In an Intermediate Report on a dispute between the station and the ACA, which had requested recognition last June 30 after a majority of the employes had applied for membership, NLRB Trial Ex-aminer Peter F. Ward found that the employer denied holiday privileges to its clerical staff and harassed one of the clerks into resigning in order to discourage membership in the union. Through these and other acts, the examiner concluded, "the respondent was determined from the advent of the union to destroy its majority and to refuse to bargain collectively with it."

The examiner recommended that the station be required to offer to reinstate one of its former clerks in her old or an equivalent job and to reimburse her for any loss of pay she may have suffered through her forced resignation. He also recommended that the clerical staff be compensated for loss of Wednesday half holidays denied them last summer.

Parties to the case are given opportunity for oral argument before the full Board before action is taken on the examiner's report.

Better Dry Cell

"RM" BATTERY, developed for the Signal Corps, has been proclaimed the greatest single development in dry cells in many years. It is a mercury battery, designed for tropical theaters, lasting five times as long as ordinary carbon batteries. Samuel Ruben, an electrochemist of New Rochelle, N. Y., is the inventor. Of interest in the development of postwar miniature radios of the "personal" type, the "RM" weighs not quite two pounds and can be packed in a space less than one foot long and slightly less than 11/2 inches wide. Bulk of pressent production is going into portable Army and Navy radio equipment.

Tidewater Sponsors Two TIDEWATER Assoc. Oil Co. has purchased the quarter-hour Manhunt program, transcribed by Frederic W. Ziv Co. Program is aired weekly on KGLO KFYR WDAY KABR WNAX KSYM WORC KWLM WCCO. Tidewater is also sponsoring the transcribed Pleasure Parade on WEAU Eau Claire, Wisc. Both contracts for 26 weeks are handled by Lennen & Mitchell, New York.

Bill Fox Speaks from "The Fox's Den"

Monday thru Friday 6:30-6:45 P.M.

Indiana's Leading Sports Authority

• After 25 years of continuous and exclusive sports writing in *The Indianapolis News*, "The Great Hoosier Daily," Bill Fox, Jr. has finally been lured out of his den. Now, in addition to his writing, he has been induced to give the folks of Indiana "the low-down" on sports. As conductor of "The Yarnin' Basket," "Shootin 'Em and Stoppin' 'Em," "A Corner In Pigskin," and "Tearing Firma," columns, Bill Fox has built an unparalleled reputation as an authority on all sports, and a following among

Hoosier sports fans which is the envy of the fraternity.

"The Fox's Den" has received enthusiastic favor with listeners in the few months that the feature has been on the air. Mail has been very heavy. Now available for sponsorship. Ask any BLAIR man for further details.

THE GEORGE FOSTER PEABODY RADIO AWARDS

To: CAVALCADE OF AMERICA (Du Pont) . . . Outstanding Entertainment in Drama THE TELEPHONE HOUR (Bell System) . . Outstanding Entertainment in Music WLW, NBC Cincinnati affiliate Outstanding Reporting of News KFI, NBC Los Angeles affiliate Outstanding Program for Youth (PHILHARMONIC YOUNG ARTISTS SERIES) AND A SPECIAL CITATION

KVOO, NBC Tulsa affiliate for its program, SOUTHWEST FORUM

THE ALFRED I. DU PONT RADIO COMMENTATOR AWARD

To: H. V. KALTENBORN (Pure Oil) ... for "distinguished and meritorious performance of public service by aggressive, consistently excellent and accurate gathering and reporting of news by radio and the presentation of expert, informed and reliable interpretation of news and opinion ..."

THE VARIETY SHOWMANAGEMENT REVIEW

In Variety's 12th annual survey of showmanogement three NBC affiliates were awarded plaques: WSB, Atlanta; WKY, Oklahoma City; and WTIC, Hartford. Special citations went to Bristol-Myers for its NBC program, "Mr. District Attorney" and to the NBC Program Department for "Words at Wor."

THE CLEVELAND PLAIN DEALER

In this year's poll by The Cleveland Plain Dealer, NBC programs and stars once again won more first places than all other networks combined—13 out of 18.

THE MILWAUKEE JOURNAL POLL

In the 1945 Milwaukee Journal Listeners' Poll, NBC won 7 out of 14 first places—more than all other networks combined.

THE RADIO DAILY POLL

In Radio Daily's eighth annual poll, 1051 experts —the nation's radio editors and columnists—honared NBC advertisers and their agencies by giving NBC 15 first places out of 26—more than all other networks combined.

THE BILLBOARD FOLL

In Billboard's 14th Annual Radio Editors' Poll, NBC was given 10 out of 18 first places—with all of the top 5 and 8 of the top 10 places in the "Favorite Programs" classification alone.

MOTION PICTURE DAILY-FAME POLL

In this year's Fame poll, NBC was accorded 13 out of 24 first places, including 3 out of 5 in the "Champion of Champions" classification—won this year as for the past nine years by an NBC star.

THE WRITERS WAR BOARD . . "Best-Script-of-the-Month"

More than 33% of the total number of scripts selected each month as Best-Script-of-the-Month have been for NBC programs—with Words at War scripts, chosen 5 times, the only series chosen more than once.

In Confirmation...

• The National Broadcasting Company is America's No. 1 Network. It maintains that established position with stations, stars and programs—consistently the highest rated, the most popular in radio.

And when citations are made for radio excellence, for service to the nation, for cultural contributions, NBC, its independent affiliated stations and its advertisers again take the highest honors—specifically and in whole.

It is gratifying to share these recognitions—not in a spirit of triumph, nor as ultimate judgment of contributions, and not in any implied neglect of others' splendid achievements.

NBC accepts in simple appreciation the critical confirmation of an overwhelming popular vote—the vote that makes NBC The Network Most People Listen to Most.

ENID HAGER CLARKE, former public relations director of WPEN Philadel-phia, has been placed in charge of radio for the Seventh War Loan and the Sal-vation Army campaign in Philadelphia, assisted by MARGARET HANLEY, for-merly of WIP Philadelphia, and ANmerly of WIP Philadelphia, and AN-TOINETTE HIZA.

MARION SABATINI, OWI Domestic Ra-dio Bureau editor of Women's Radio War Program Guide, has been appointed assistant chief of station relations. She will act in a dual capacity, continuing with the old job.

JOHN WILKOFF, former WWSW Pitts-burgh program manager, is to replace MITCHELL B. DeGROOT Jr. as WCAE Pittsburgh promotion manager. Mr. De-Groot joins Blue-ABC promotion staff in New York in New York.

HUGH MacKENZIE, former public re-lations officer with the RCAF, succeeds Ewald Kockritz as WAGA Atlanta promotion manager.

FDR MEMORIAL

CBS Cooperates on Book -Published in Six Days-

SIX DAYS after the death of President Franklin Delano Roosevelt was flashed to the world by radio, Pocket Books Inc. published a 250-page book telling how the news was handled by CBS, and printing many of the tributes to the great leader.

The popular-priced, paper-backed book entitled "Franklin Delano Roosevelt, A Memorial" includes a 54-page compendium of CBS broadcasts from the time the news was first aired at 5:49 p.m. Thursday through the four-day period in which all American radio mourned the President. Following pages record worldwide tributes, prayers, verses and dedicatory remarks broadcast or published here and abroad and excerpts from the late President's speeches outlining his political philosophy. All royalties from the book go "to a charitable cause that was close to the heart of the President."

CBS, mailing the book to friends, included a black-bordered note explaining their cooperation as a share in honoring a "leader whose unique use of radio helped to make him the intimate of all the free-dom-loving peoples of the world."

Radio at O.S.U.

RADIO JOURNALISM will be offered as part of the curriculum of Ohio State University next autumn. according to Dr. James E. Pollard, school director. The students will make use of Ohio State's 25-yearold station WOSU for laboratory purposes. First two years of the course will require science, foreign language, English, American history, political science, economics, sociology and reporting. Two remaining years are a combination of journalism and radio courses with advanced social science.

SPONSORS and broadcasters who want to help the national effort to prevent forest fires can secure scripts for two five-minute dramatic skits or 18 an-nouncements, all approved by OWI, from State or Regional Foresters or Commis-sioners of Conservation.

FOR POSTWAR SPENDING!

\$3,000 Per Detroit Family!

Nearly two billion dollars in savings! That's a lot of purchasing power. It's ready now, in bank savings and War Bonds held by Wayne County (mostly Detroit) residents, and the total is growing larger every week!

REMEMBER that when shiny new cars again take the place of guns in Detroit factories; when materials and labor will again be available to build the tens of thousands of new homes needed in Detroit; when the pent-up desires for new washing machines, radios, refrigerators, appliances, home furnishings—for all kinds of goods and services—will turn Detroit into a sales manager's paradise.

WHEN that day comes you'll want to remember, too, that WWJ is the most listened-to station in this great market... that this radio station offers a direct approach to a huge backlog of savings.

NOW

WABC presents Arlen and Margaret Arlen brings us a few sidelights on her program. Good morning Margaret

Good morning, Harry. And hello everyone . . . I understand this will be a twocolumn commercial for PRINTERS' INK, the weekly magazine of advertising, management and sales. But can't we mention several of our regular sponsors, too?

We might, Margaret. We might mention a few like Celanese Corporation of America or their agency, Young and Rubicam, and how they have 27 PRINTERS' INK subscriptions between them. But, first, tell us about some of the things you've been doing to help the war effort.

Why Harry Marble! You know the help really comes from our audience.

Your audience, Margaret, carries the biggest Hooper rating among the New York women's service commentators. Collecting 30,000 Christmas presents for the boys was really bringing in the bacon. And the 5,244 Easter eggs, well, Armour and its agency, Foote, Cone and Belding (together, they have 35 P. I. subscriptions) should like that. You know, bacon and eggs?

Be serious, Harry, and I'll tell

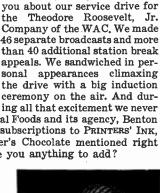

missed a sponsor. General Foods and its agency, Benton and Bowles, another 20 subscriptions to PRINTERS' INK, heard their famous Baker's Chocolate mentioned right on time. Now, Harry, have you anything to add?

Just this, Margaret. In most of the firms who sponsor your pro-gram and in all the agencies who place this business, the men who are interested in advertising read PRINTERS' INK . . . and now this is Harry Marble and Margaret Arlen saying good-bye everyone.

More than 15,000 PRINTERS' INK subscribers build, approve and spend the bulk of the nation's advertising appropriation. Maybe that's why P. I. advertised stations and networks are usually remembered best and used most. It is one of the important reasons why these stations buy P. I. first.

PROGRAMS

ARIATION of the usual small sta-tion pattern of record-spot type of programming is now being used by WWDC Washington in the Monday WWDC Washington in the Monday WWDC Washington in the Monday whrough Friday 9 and to be the periods time is sold on both partici-pating and block basis to a wide va-periods. Time is sold on both partici-pating and block basis to a wide va-ditect of sponsors and commercials fitting into the continuity as part of the former is sold on both partici-pating and block basis to a wide va-ditect of sponsors and commercials fitting on the thouse the sold on both partici-pating and block basis to a wide va-ditect of a sold on both partici-pating session, an inverse auction from the store of a soonsor, particitor to variations. Nominal awards to a word the various activities.

New WNEW Programs

New WNEW Programs WNEW New York is making adjust-ments and additions in its summer program schedule to compensate for loss of several winter programs with the end of the big theater and music sea-son. New programs include "Victory Playhouse", weekly half-hour repeats of war theme shows broadcast on other stations or networks, including month-ly selections of the Writers War Board, and Arch Oboler shows. Another is "WNEW Family Album", weekly quar-ter-hour interview with staff members and artists. A third is "Ask Washing-ton", half-hour show prepared by the accredited press agency of the same name, and which offers to secure for listeners official answers from the White House and other sources on vari-ous questions. Station's previously an nounced tribute to the 25th anniver-sary of radio, a series titled "Radio Around the Worl", starts May 1 and presents each week a view of radio oper-ations of different countries.

Training School Standards Are Drawn For College Radio Journalism Courses

broadcast.

servicemen.

MINIMUM standards for education for radio journalism to guide colleges and universities offering courses in broadcasting news room practice have just been issued by the Council of Radio Journalism.

Five general principles are presented in a letter mailed to schools and departments of journalism by Arthur Stringer, Council secretary.

Principles included are: 1. sound general education; 2. student understanding of importance of radio as a social instrument and its relationship to government, industry and the public; 3. training of professional quality in the skills of radio journalism; 4. teachers equipped by practical experience, education and understanding; 5. access to adequate laboratory equipment and library and other facilities.

Each principle is explained in detail in the letter.

Formulation of the standards is the outgrowth of a joint action by the NAB and the American Assn. of Schools and Depts. of Journalism forming the Council of which F. S. Siebert, director of the School of Journalism, U. of Illinois, is chairman. A standards committee was

named with Mitchell V. Charnley, professor of journalism, U. of Minnesota, chairman. This group drew up the "standards" which have been approved by the council.

Love-Lorn Forum

Love-Lorn Forum ONE LONE man guest-stars weekly on the new Mutual half-hour "Round Table of Romance", forum on the prob-lems of the love-lorn. Elssa Landt, stage and film star, conducts the dis-cussions with Florence Pritchett, New York Journal-American fashion editor: Robin Chandler, director of the Powers Model School; Dorothy Kligallen, Broad-way columnist. and Eloise McElhone, OPA food division supervisor, partici-pating.

Growth of Industry

Growth of Industry PART played by private enterprise in the growth of Canadian business and industry is told in a series of weekly plays "Salute To Industry" heard on CJOR Vancouver. A sustaining pro-gram, firms saluted are not asked to sponsor the programs, leaving construc-tion of the program free from any in-fluence. Local as well as internationally known firms are dramatized.

Aid For Veterans

Ald For Veterans WRVA Richmond has started a new public service series "Veterans, Here's How" to ald returning veterans of World War II. Broadcast Sunday 1:30 p.m., program features Lealie Jones, di-rector of the Veterans Information Service Center in Richmond, who asks typical questions which are answered by citizens interested in the fields to which questions apply.

WSUN Disc Service

WSUN SL. Petersburg in its "Hats Off to the Fagles" program transcribes an interview with a soldier and forwards it to a station in the soldier's home area as a special service. WSUN ask that the station forward transcription copy to the next of kin following re-

Veterans' Program WWJ Detroit is featuring Louis Tend-ler, news analyst, Saturday 6 p.m. on "Veteran's Advisor" to help returned

pating.

Lever Video Formula

LEVER BROS. Co., Cambridge, started a new series of video programs, I Challenge You, April 25 in the company's regular Wednesdays at Nine spot on WABD, DuMont station in New York. Program, originated by Joe Cross, creator of What's My Name, and G. Bennett Larson, manager of WWDC Washington, invites the audience to send challenges to the program in whatever field they wish; the programmers find opponents and the competition is telecast, John Reed King's Thanks for Looking, in which viewers are phoned and asked visual questions via their receivers, continues as the second half of the Lever Bros. weekly hour on WABD. Programs are supervised by Lee Cooley, director of television and daytime radio for Ruthrauff & Ryan, New York, Lever Bros. agency.

The Real Issue

LAST WEEK this journal stated rather plainly its feelings about the Leonard Reinsch fiasco.

We said that Leonard Reinsch had been occupying the White House press and radio secretary's job and that his formal appointment to the position was thwarted as a direct result of pressure brought to bear by certain Washington newspapermen and ex-newspapermen.

The fact that Mr. Reinsch did not get the job was not so much a rebuke to him as it was a body blow to the broadcasting art itself.

Before news of Mr. Reinsch's revolving-door experience at the White House had died down, however, radio learned that it had not been invited by the War Department to participate in a joint press-Congress inspection of Nazi horror camps.

Officials at the War Department, in this instance, explained the matter by saying that other radio newsmen now are on tour in the ETO. So are other newspapermen.

It is incontrovertible that broadcasting, a legitimate and powerful news medium, got the brushoff. Whether this is by design or by oversight does not alter the consequences. If it is by oversight, somebody should buy the responsible party a pair of bifocals—and a radio receiver. If by design, then it's time to make a few changes.

We do not intend to engage in an altercation with any individual. Charles Ross, who succeeds Leonard Reinsch who succeeded Jonathan Daniels who succeeded Steve Early at the White House, is a perfect gentleman, an able newsman, a capable administrator. He will be fair to radio.

The newspaper for which he has been a correspondent and editor these many years, the St. Louis Post-Dispatch, indeed owns a broadcasting station—KSD. We doubt, as a matter of fact, whether Mr. Ross wanted the job any more than Mr. Reinsch wanted it.

But the light-fingered manner in which Mr. Reinsch was dribbled across the floor, only to be thrown into the bleachers instead of into the basket, is an affront to broadcasters everywhere. The fact that a plane sufficient to carry a score of newspapermen to the ETO did not bear one radio newsman also is something more than an oversight.

It is time, and past time, that broadcasters asserted their hard-won position in the news field more militantly. There was a time in our history when newspapermen had to do the same thing. The current trend, consequently, does not make history. It repeats history.

It behooves the nation's press to recognize radio not as an interloper or an upstart, but as a full-grown news contemporary. Radio should have adequate facilities for reporting news in official quarters. Radio is entitled to equal consideration at the White House, in all Government agencies, military as well as civil.

To the extent that it does not have such recognition, freedom of speech and of the press suffer.

Question-Box

SOME BROADCASTERS have been concerned about the possible doubling up of television and FM on the same frequencies, which would permit aural FM transmission when the video signals were off. FCC Chairman Porter has dispelled all doubt on that score in response to an interested broadcaster—A. J. Mosby of KGVO Missoula, Mont.

Television channels, when the assignments are established under the upcoming allocations, Mr. Porter states, will be used for television. And the facilities provided for FM will be used for that service to the fullest extent possible.

The FCC, we think, is on sound ground. It is helpful to all interested in both services to have the issue clarified now. If the Commission had been disposed to permit the dual operation there would have resulted an extravagant use of scarce facilities. FM, as Mr. Porter points out, uses only a 200 kc. channel width even with wide band transmission. Television is a road hog, using a 6,000 kc band.

Even more onerous would have been the threat to standard and prospective FM broadcasters. Dual use conceivably would enable television broadcasters to devote a minimum of time to the video art, filling in with aural transmissions on the sound track as they saw fit. Such operation might have hindered the development of both FM and television.

The FCC, we feel, has made a good start in clarifying this point, and broadcasters are indebted to Mr. Mosby for raising the question. There are other questions which remain unanswered, however. Will dual operation of FM and AM in the same community ultimately be construed as "duopoly" by the Commission? What about television service under the same ownership? Will the Commission authorize transmission of regular AM programs over FM facilities? To encourage development of these new services, the answers should be obvious. But the FCC hasn't yet spoken.

They Want It With

AMERICAN fighting men overseas still are devoted to the American system of broadcasting—and they want it with commercials. Extensive programming experiments conducted by those in charge of various Service outlets around the world have found this to be true.

There is published in this issue an interesting article by Maj. Spencer M. Allen, chief of the Armed Forces Radio Service in the South Pacific, in which he notes that the American form of broadcasting is the only one the soldier-listener wants to hear.

Last week we carried a report, quoting Eleanor Merriman, a Red Cross worker on an Army Hospital Ship, that the wounded veterans aboard desired their broadcasts "sponsored", not sustaining.

In England, where the American Forces Network can be heard by many British residents, some 5,000,000 of them have turned from the BBC to hear American radio fare.

There are many, many other examples of American radio's superiority—case histories in the files of this magazine which space will not permit us to publish. But they prove beyond doubt that the formula is right. It should be free radio's aim to strive always toward even better programming. It has the public, here and abroad, behind it.

Our Respects To -

CAPT. CHARLES WILLIAM HORN

YPICAL of Charlie Horn's method of operation is the story he tells on himself about the arrangements for one of the first broadcasts from the Vatican in

first broadcasts from the Vatican in 1929. He was at NBC's New York studios talking to Marconi in Rome, getting the proposed timing. Loud speakers at both ends of the shortwave circuit were on so that men in the New York and Rome studios could hear the conversation.

"At 9:01 the silver trumpets blow," said Mr. Horn.

"That's right," Senator Marconi answered. "At 9:02 the Pope shows up."

The circuit went dead.

Charlie Horn began shouting into the microphone trying to get Marconi again. After a few minutes of dead air he returned, against a background of subdued snickering from Rome.

"What's wrong?" queried the puzzled Mr. Horn. "What did I say?"

"Well, it wasn't really wrong," Senator Marconi said, "but you put it in a rather quaint way. We would say 'His Holiness attends'. Of course, Mr. Horn, you're a New Yorker."

That same simplification of the complicated, the refusal to be awed by anything or anybody, still characterizes Capt. Horn, Just promoted to that rank in the Naval Reserve, Capt. Horn is assigned to headquarters as a special assistant to the Director of Naval Communications, working in the field which he practically put into operation, international communications.

The youngest looking "oldest man in broadcasting", Capt. Horn was born in New York City July 9, 1894. His first job was with Western Union, so that he could learn Morse Code and communicate with a friend who had moved from the neighborhood.

Through his code knowledge, Charlie Horn became a radio operator with a merchant line when he was 16, sailing to tropical places most boys just dream of.

In 1917 he was commissioned in the Naval Reserve and was made assistant district communications supervisor for the Third Naval District. From 1919, when he went on inactive status, until 1929, he was with Westinghouse.

While with that firm he was responsible for the planning and set-up of Westinghouse's KDKA Pittsburgh, pioneer radio station.

As manager of radio operations in charge of broadcasting stations and later assistant to the v-p of Westinghouse in charge of engineering and production, Capt. Horn arranged many of the 'firsts'' of broadcasting. He han-(Continued on page 44)

THE OUTSIDE* IS DESIRABLE

on the Pacific Coast, too!

You're luckier than the kid in the picture—the"outside" (on the Pacific Coast) is available to you right now if you use Don Lee. For only Don Lee covers this over-2-billion-dollar-market.

A map will show you the reason. Most markets on the Pacific Coast are surrounded by mountains 5,000 to 15,000 feet high —and the long-range broadcasting of other networks doesn't work. Don Lee, however, with 39 local stations, *broadcasts from* within each of these mountain-surrounded markets.

A special Hooper coincidental telephone survey of 276,019 calls (the largest ever made on the Pacific Coast) revealed that *Half of all the retail sales on the Pacific Coast are made OUTSIDE the counties in which Los Angeles, San Francisco, San Diego, Oakland, Portland, Seattle • and Spokane are located

Valley

60% to 100% of the "outside market" listeners were tuned to Don Lee stations.

In the regularly-Hooper-rated cities of the "inside market" Don Lee's coverage is tops, too. Hooper reports show that during the past year all of the shows that switched from any of the other 3 networks to Don Lee received higher Hooper ratings within 13 weeks!

The outside market is plenty important on the Pacific Coast. Make sure you include it in your schedule—buy Don Lee, the only network that delivers *both* markets of the Pacific Coast!

THOMAS S. LEE. President LEWIS ALLEN WEISS, Vice-Pres. & Gen. Mgr. 5515 MELROSE AVE., HOLLYWOOD 38, CAL. Represented Nationally by John Blair & Co.

NEWS COMMENTARY

6:05 to 6:15 P. M. Monday thru Saturday (following Esso News)

Our Respects to (Continued from page 42)

dled engineering on the first broadcasts of a World Series, the first remote studio broadcast, church service, tennis match, opera and countless "firsts" in special events. He says he introduced frequency modulation to broadcasting by modulating KDKA on occasion, until the listeners complained. This was about 1923 before FRC or FCC.

He was the first man to operate two stations on the same frequency under exact control (synchronization). They are WBZ-WBZA Boston-Springfield. And thereby hangs a tale. Westinghouse's WBZA in Springfield was the first of the two. The lack of talent in Springfield necessitated sending most of the entertainment by wire from New York. And this, in 1923 or '24 before the days of networks. Because of the unusual absorption characteristics of New England, the WBZA programs were not reaching Boston. The talent obiected.

So Charlie Horn built a "booster" at Boston. Competitive broadcasting companies objected. They had an agreement in those days not to "outdo" each other in number of stations. "But," Capt. Horn still insists innocently-with a certain twinkle, "that wasn't another station, it was a 'booster'." So he had to develop synchronizing to prove his contention. It later became WBZ Boston.

In 1929 Capt. Horn went to Europe to organize experimental shortwave stations for interna-

tional broadcasting. Westinghouse had already been working with the establishment of shortwave stations in Manchester, England; Buenos Aires and Melbourne. Charlie Horn had been in close contact with these stations, and their early experiments as well as with the BBC, the German Rundfunk and the Phillips Co. in Holland.

When he returned he was made general engineer of NBC, still working with H. P. Davis of Westinghouse who was also chairman of NBC.

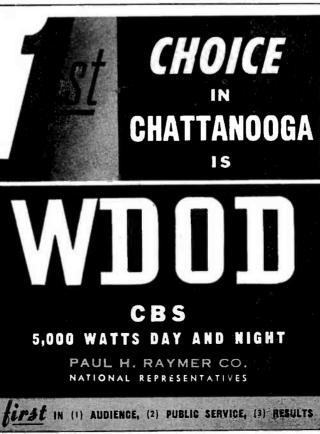

He was among the first to take field strength measurements, doing much to standardize and refine engineering of field strength measurements, upon which are based all FCC allocations as well as directional antenna design.

Video Pioneer

In charge of NBC's television development, arranging for the first UHF video station atop the Empire State building, Capt. Horn conducted some of the first experiments and measurements of the medium. He set up the first relay station for television at Mt. Arny, N. J., in 1931.

When he resigned from NBC in 1941 he was assistant to the v-p and director of research and development. For two years he was technical advisor to Maj. Gen. William J. Donovan at the Office of Strategic Services in a civilian status, then was called to active duty with the Navy in July 1943, with rank of commander, as special assistant to Adm. Redman.

During his career he has attend-

FALSE ADVERTISING CHARGED TO PHILCO

MISREPRESENTATION in radio and other advertising of power, reception capacity and tube content of receivers made by Philco Corp. and Philco Radio & Television Corp., Philadelphia, was charged in a complaint issued last week by the Federal Trade Commission.

According to the complaint, Philco represented and caused its dealers to represent that its sets are equipped with either 5, 6, 8, 9, 10, 11, or 12 fully functioning tubes and will bring in broadcasts from European stations five times easier, stronger and clearer than sets not so equipped.

"The sets so advertised," FTC charges, "contain one or more ballast nonfunctioning, tuning beacon tubes or rectifier tubes which do not perform any recognized and customary function of a radio tube in the detection, amplification and reception of radio signals and will not bring in broadcasts from Europe five times easier."

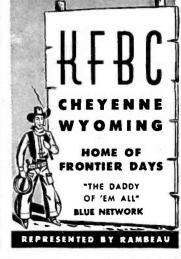

Philco Corp. is named as owning a majority of the stock in Philco Radio & Television and managing, directing and controlling its affairs. The companies are granted 20 days to answer the complaint.

ed many conferences and hearings on national and international conventions all over the world, and has been instrumental in shaping their courses.

He is a Fellow of the Institute of Radio Engineers, Fellow and past president of the Radio Club of America, past president of the New York Electrical Society, honorary member of the Princeton Engineering Society, and had the honor of giving the Cyrus Fogg Brackett Lecture on broadcasting, at Princeton.

Traveling is one of his favorite pastimes and he's done a lot of it. In fact he expects to spend much of his time in Latin America after the war, perhaps in broadcasting. At present he is greatly inter-

ested in solo flying. Speaking of soloing, Capt. Horn in unmarried.

To report the <u>San Francisco Conference</u> to the most people

MUTUAL MAKES THE MOST OF A GREAT RADIO ASSET...

One of radio's greatest assets is its ability to keep regular appointments with millions of listeners at fixed hours, day after day. This consistency is what builds tune-in habits and helps explain the medium's effectiveness.

Mutual is putting this asset to work in its coverage of the World Security Conference in San Francisco, starting April 25. To present this history-in-the-making as a <u>regular program fea-</u> <u>ture</u>, rather than a random-scheduled "special event", we have cleared the 9:15-9:30 period, <u>five</u> <u>nights a week</u>, for the duration of the Conference.

Five nights a week, in the heart of the nation's radio evening, Mutual's Conference Highlights

will immediately follow Gabriel Heatter, who consistently musters the nation's largest news audiences at the Mutual point on the dial.

Direct to conference headquarters in San Francisco, Mutual has sent a complete staff of ace analysts, including Leo Cherne, Upton Close, Arthur Gaeth, Alexander Griffin, Royal Arch Gunnison, William Hillman, Charles Hodges, Elsa Maxwell, and Edgar Ansel Mowrer.

We believe this <u>regular</u> Conference programming ... plus other planned features and flash news as it occurs ... will enable us to keep an allimportant appointment with a maximum number of American listeners.

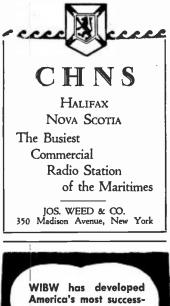

It didn't just happen. We spent time and money learning what they wanted—and that's what we give them. Most people in our area prefer WAIR, a fact that a trial should prove.

ful radio selling technique—"reasons why" delivered as the recommendation of one friend to another.

MARK ETHRIDGE, publisher of the Courier Journal and Louisville Times, which operates WHAS, and STANLEY HUBBARD, president and general man-ager of KSTP St. Paul, were among re-cent White House callers who paid their respects to the new President.

NEVILLE MILLER, former president of the NAB and deputy chief of UNRRA Balkan Mission, returned to his home in Washington last week after 10 months abroad. He lunched with FCC Chair-man PAUL A. PORTER April 24.

DALE TAYLOR, manager of WENY, El-mira, N. Y., is the father of a girl.

JOHN COHAN, formerly with Smith and Bull Adv., Los Angeles, is now manager of KRRV Denison, Tex., replacing B. V. HAMMOND Jr., on leave in the armed service.

ANTHONY M. QUINN, auditor of Don Lee Broadcasting System, Hollywood, has been named secretary-treasurer and elected to network's board of directors. He succeeds E. W. BOLTER.

WM. A. SPEERS, manager of CKRM Re-gina, is recovering from an appendecgina, tomy.

HUGH TERRY, KLZ Denver manager, is new president of the Denver Rotary Club.

Reynolds Heads SCBA

ROBERT O. REYNOLDS, vicepresident and general manager of KMPC Hollywood, was elected president of Southern California Broadcast e r s

Assn. at a luncheon membership meeting in Los Angeles on April 20. He succeeds Lawrence W. Mc-Dowell, commercial manager of KFOX Long

F. Wynne, com-Mr. Reynolds mercial manager

of KGER Long Beach, Cal., was named secretary-treasurer. Organization includes 30 Southern California area stations and the four major networks. Betty Reisa continues as SCBA office manager.

Detroit Ad Course

DETROIT stations, newspapers and the local Retail Merchants' Assn. are offering a six-week course on "Retail Advertising Techniques" given in the studios of WWJ, April 10-May 15. Two of the six meetings are on radio and the retail trade. Both radio meetings are led by Edwin K. Wheeler, WWJ assistant general manager. Harry Bannister, WWJ general manager, Owen F. Uridge, WJR assistant general manager, and Richard W. Jones, CKLW commercial manager, were included in the first discussion. The second featured Lawrence J. Michelson, of Simons-Michelson Agency and Charles G. Burke. WXYZ commercial manager. The lecture series is put on through the cooperation of WWJ WJR WXYZ CKLW, local papers and retailers.

AN ANNUAL license fee of about \$2.95 has been levied, with certain excep-tions, on radio receiving sets in Angola. Portuguese colony in West Africa.

CELEBRATING 16 years in radio are Frank E. Fitzsimonds (1), manager of KFYR Bismarck, N. D., and Fay Brown, N. Dak. State Basketball Tournament announcer. Until four years ago Mr. Brown was on KFYR staff. He returns to cover the tournament.

FRIEDHEIM HEADS **RECORDING FOR NBC**

ROBERT W. FRIEDHEIM, formerly eastern sales manager and business manager of NBC's Radio Recording Division, has been appointed to the new post of manager of the entire division, heading a series of personnel changes and additions announced by C. Lloyd Egner, vice-president in charge.

Henry P. Hayes, who was office manager, becomes business manager of the division under the new alignment. William R. Seth Jr., promotion and advertising director, takes full charge of the promotion activities, succeeding Willis B. Parsons, who is now assistant sales manager.

Wade Barns, formerly a field representative, has been named assistant to Mr. Parsons, and John Keck, previously an announcer at WCAE Pittsburgh, has been added to the sales staff. George Stevens, Chicago market editor for UP from 1938 to 1940 and subsequently manager of Eagle Lock Co., Terryville, Conn., succeeds Mr. Hayes as office manager of the Radio Recording Division.

C. A. Fleming

C. A. FLEMING, 88, president of CFOS Owen Sound, Ont., and the Fleming Pub. Co., Owen Sound, and affiliated with CKFS Cornwall, Ont., died April 19 after an illness of two months. He is survived by three sons and four daughters.

DR. JOHN GRAY PEATMAN, associate professor of psychology, City College of New York, and Tore Hollonquist, chief of the CBS program analysis division, are co-authors of a phychological mono-graph on analysis of listener attitudes toward radio programs through use of the program analyzer developed by Frank Stanton, CBS vice-president, and Paul Lezarsfeld, radio research au-thority. Monograph was published by Stanford Universiay Press for the Amer-ican Assn. for Applied Psychology.

LOREN C. SURLES Jr., formerly on the sales staff of WFBR Baltimore, to Blue-ABC cooperative program depart-ment as sales account executive.

SIDNEY GAVNOR, general sales man-ager of Don Lee Broadcasting System, Hollywood, has been elected to the board of directors of Hollywood Rotary Club.

HENRY GERSTENKORN, assistant gen-HENRY GERSTENKORN, assistant gen-eral sales manager of Don Lee Broad-casting System, Hollywood, has been named radio director of War Finance Committee for southern California area during Seventh War Loan.

dufing Seventh war Losin. DUNCAN A. SCOTT & Co., station and magazine representative with offices in San Francisco and Los Angeles, has re-signed as Pacific Coast division of Joseph Hershey McGillvra Inc. effective May 15. Firm will become West Coast representative for Adam J. Young Jr. Inc., newly formed station representa-tive with headquarters in New York.

RICHARD F. KOPF has been named manager of the Paul H. Raymer Co. Chicago office succeeding WALTER TENNEY. With the station sales repre-sentative for seven years, he is a brother of HARRY KOPF, vice-president of NEC central division, Chicago.

EDWARD D. HOFFMAN, formerly on the accounting staff of Price, Water-house & Co., New York. has been ap-pointed comptroller of WLIB New York.

FLORENCE SCHNEIDERMANN, formerly on the staff of the National Conference of Christians and Jews and the Child Study Assn., joins WLIB as script writer.

EDWIN HALBERT, former program director of WIP Philadelphia and previously with WTAR WARM WKBN, has been named assistant director of network operations at CBS, reporting to HORACE GUILLOTTE, manager.

ACA, WIP Contract

A M E R I C A N Communications Assn., CIO, has negotiated a contract with WIP Philadelphia, calling for five-day work week for all classifications and salaries of \$45 to \$82 weekly for technicians, \$30 to \$46.50 for general utility men, \$24 to \$35.50 for pages or porters, with automatic increases of \$1.50 each six months. Announcers, in addition to scale of \$36 to \$62 weekly, are to receive commercial fees ranging from \$1 for a five-minute show to \$3.50 for a 60-minute program, a fee of 5% of the net for participating or service shows, stand-by fees, etc. ACA estimates that "the average earnings for announcers will be well over the \$200 mark per week." All wage increases are retroactive to July 17, 1944 and subject to NWLB approval. PVT. SLOAN G. FINLEY, former WMC Memphis announcer, is with American Forces Network in London as announcer.

SGT. VARNER PAULSEN, former WIP Philadelphia production manager, is in the same post with American Forces Network in London.

HOMER CANFIELD, assistant manager of NBC Hollywood press department, has been appointed network western division production manager effective May 1, succeeding HOWARD WILEV, transferred to Hollywood production staff.

PÅT KELLY, from KFRC San Francisco as production manager, to KFI Los Angeles as writer-producer. Temporary successor is DON DAVIS, chief announcer.

MELVIN C. MASS, new to radio, to NB() central division sound effects department.

JACK WILLIAMS, KOY Phoenix program director, is the father of a boy.

JOHN CORBETT, released from the AAF, to WFBL Syracuse as announcer.

CHARLES WRAY, released from the Navy, to WCHS Charleston, W. Va.

RALPH SCOTT, from WLW Cincinnati, and GREGORY ABBOTT and JOE BOL-TON, formerly with WOR New York. to WNEW New York as announcers.

JIM HENDRIX, WSM Nashville announcer, is now at Great Lakes Naval Training Center.

GEORGE M. HUNTER, released from Army Special Services and formerly with WBAB Atlantic City, to WWJ Detroit as announcer.

CARLETON W. COLLIN, in charge of informational and educational activities for Michigan State AAA committee, has been appointed director of farm service for WKZO Kalamazoo.

FRANK KOZELUCH has joined KWG Stockton, Cal. to handle agricultural and farm service programs.

JOHN BRADY to WPEN Philadelphia as script writer.

GORDON TUELL, KIRO Seattle announcer, is the father of a girl.

Sarnoff Booklet

WHAT RADIO offers the careersearching veteran is outlined in a booklet, "Opportunities in Radio and Electronics for Returning Service Men," written by Brig. Gen. David Sarnoff, RCA president, and released last week by RCA. Declaring that the advent of television "promises some of the most interesting opportunities ever available to a returning warrior seeking a useful career in peace," Gen. Sarnoff also points out that "television is not all there is to radio today, any more than broadcasting was the limit of radio in 1920. There are endless opportunities for radio research and for exploring in space," he continues. "The 'ether' is still quite a wilderness."

Writers' Guild Meet

THREE regions of the Radio Writers' Guild will hold their second semi-annual meeting of the National Executive Council in Chicago May 23. Chief subject will be the coming negotiations for a national basic minimum agreement for freelance writers.

Lt. Hoffenberg Heads London Office of AFN LT. KARL HOFFENBERG, formerly with WGN Chicago, is new head of American Forces Network, London, filling the vacancy created by the elevation of Lt Col. John S

London, filling the vacancy created by the elevation of Lt. Col. John S. Hayes to the associate directorship of the Troop Broadcasting Service

Lt. Hoffenberg at AFN Mike

SHAEF and the promotion of Major Bob Light to the chief executive post in Paris.

Lt. Hoffenberg, program director since 1943, now supervises AFN's activities from London to the troopsin the United Kingdom and the Continent.

He arrived at AFN on the day of its inception, July 4, 1943, and has played an important part in its growth. Staff Sgt. Harry Lytle, formerly with WBNS Columbus, takes over Lt. Hoffenberg's post as program director.

KHMO Covers

KHMO Hannibal. Mo. gave complete coverage of the tornado which struck parts of Missouri and Illinois, doing \$150,000 worth of damage. Using information from telephone messages and AP, KHMO gave listeners news of the situation from 5:30 a.m. when the station went on the air until the emergency was over. A special on the spot broadcast was carried from the radio room of the Police Dept. in the City Hall, with an appeal from the mayor for trucks to clear debris, and directions to those helping. Response was immediate, and KHMO was credited with being largely responsible, through its broadcasts, for the quick help.

ANOTHER PACKAGE DEAL

Here's your opportunity to get radio's hottest trio doing 78 of the most popular tunes—many with the sensational Ida James as vocalist. There are eight sixteen-inch, 33 1/3 rpm, double-faced transcriptions in this album. You can NOW get these discs at \$75.00 for the whole group.

Y & R COMPLETES RADIO RESHUFFLE

COMPLETING the reorganization of its radio division begun last fall, Young & Rubicam last week appointed four executives as program managers "to provide closer coordination between the division and other branches of the agency, and more thorough supervision of each radio show."

Program managers are Joe Moran, who continues as associate director of the division but is being relieved of his previous assignments to devote full time to developing the new system of administration; Max Wylie, George Mc-Garrett and William Forbes. Mr. Forbes continues as manager of the television and research sections of the agency's radio division.

Y&R also announced the appointments of Ed Duerr, formerly a production supervisor, as manager of radio production; Alexander Stronach Jr., formerly talent supervisor, as manager of the talent department; and of Glenhall Taylor, since 1942 acting head of the agency's Hollywood radio office, as associate director of the radio division.

Gordon D. Cates, vice-president and general manager, heads the administration of the division. The production operation is under Harry Ackerman, vice-president. John Swayze is manager of the radio commercial department; Carlos Franco, associate director of the division, is chief of station relations; Jack Barry operates the division's motion picture section.

Cabrera to Mathes

RAY CABRERA, formerly a brand manager of Carter Products Inc., New York, where he supervised advertising for Carter's Little Liver Pills and Hush, has been named vice-president and account executive of J. M. Mathes Inc., New York. Phillip Richardson, promotion manager for Teel and Drene at Procter & Gamble Co., Cincinnati, joins Carter as brand manager in June, with products still to be assigned. C. E. Douglas is brand manager for Arrid.

McCord Name Change

McCORD Co., Minneapolis agency, will be known as Melamed-Hobbs effective May 1. Louis Melamed has been president and treasurer of McCord and R. W. Hobbs account executive. Agency opened a Chicago office last week headed by F. Clifford Estey [BRJADCASTING, March 26] at 333 N. Michigan. Telephone: State 9522.

UTAH BROADCASTING Co., owners and operators of KUTA Salt Lake City, has changed firm title to Utah Broadcasting & Television Co. Experiments in television are being conducted, and architect's plans have been completed for television studios in KUTA's new building. Construction is to start soon.

QUARTER-HOUR show, "Musical Scoreboard", conducted by Bill Anson for the 1945 baseball seagon on WJJD Chicago and WIND Gary has been started under sponsorship of Atlas Brewing Co., Chicago. Agency is Olian Adv., Chicago.

BABY SNOOKS (alias Fanny Brice) cuts up for "company", in this instance (1 to r): William C. Gittinger, CBS vice-president in charge of sales; William R. Baker Jr., vice-president of Benton & Bowles, agency handling account of General Foods-Post Toasties, sponsor of *Toasties Time* on CBS and featuring Miss Brice; Clarence E. Eldridge, vice-president of General Foods Sales Co., and Charles G. Mortimer, vice-president in charge of advertising for General Foods Corp.

BLAINE-THOMPSON Co., New York, to accommodate increased radio activity and personnel, has taken an additional floor at its present address, 234 W. 44th St. New quarters include a small theater and rehearsal studio as well as new offices. In addition to WALTER LURIE, new creative head, radio department includes MARLO LEWIS, vicepresident and radio director; RICHARD ASH, commercial business manager; MINA BESS LEWIS, in charge of creative copy, and PATRICIA PECK, assistant to Mr. Lewis.

BERT R. GREENE has been appointed account executive and sales and distribution counselor of the Ralph H. Jones Co., Cincinnati. He has served as major with the AAF as area contracting officer for three years and formerly was with Johns-Mansville Corp., New York.

VERNE MEIER, formerly with First Federal Savings & Loan Assn., Detroit, as sales promotion director, to Wolfe-Jickling-Dow & Conkey, Detroit, as market analyst and researcher.

WALLACE F. ELLIOTT, former producer and program director of KROW Oakland, has become a partner in the Rhoades & Davis Adv. Agency, San Francisco.

J. K. STRUBING Jr., vice-president and account executive of Compton Adv.. New York, has been elected a director.

WILLIAM B. LEWIS, vice-president and radio director of Kenyon & Eckhardt. New York, has been named chairman for the radio industry of United Urban League Service Fund.

WILLIAM E. BERCHTOLD, formerly with J. Walter Thompson Co., to Foote, Cone & Belding, New York.

MILTON J. BAKER, formerly of WOL Washington sales staff, to Henry J. Kaufman Adv., Washington, as account executive.

AXEL GRUENBERG, Hollywood producer for Dancer-Fitzgerald-Sample on former NBC "Dreft Star Playhouse", has returned to New York for a new production assignment. Procter & Gamble recently replaced that daily quarterhour dramatic series with "Joyce Jordan" series.

AL SCALPONE, commercial supervisor of Young & Rubicam, Hollywood, is the father of a boy.

JEFFERSON K. WOOD, former head of his own agency, has joined Glasser-Galley & Co., Los Angeles, in an executive capacity on household products and food accounts.

WALLACE F. ELLIOTT, program director and continuity chief of KROW Oakland, Cal., has resigned to assume partnership in Rhoades & Davis Adv., San Francisco.

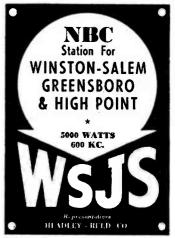

JOHN NELSON, former space-buyer and contact man of McCann-Erickson, San Francisco, has joined The Biow Co., Hollywood, in an executive capacity. MRS. LOIS MUHL, formerly program director of WIS Columbia, S. C., has joined the radio department of J. M. Mathes Inc., New York.

LOUIS M. KNOPP, radio creator, and JOHN K. MORTLAND, account executive, have been elected vice-presidents of Campbell-Mithun Inc., Minneapolis and Chicago agency.

A. R. (Bud) BOOKER, former account executive for West-Marquis Inc., Los Angeles, has opened his own agency, Booker-Cooper Inc., 1709 W. Eighth St., Los Angeles.

Tom Revere Quits Post With Ted Bates Agency

TOM REVERE has resigned as vice-president and radio director of Ted Bates Inc., New York. Agency's radio activities will be conducted principally by William R. Stuhler, former General Foods radio consultant, who joined Bates last October as vice-president in charge of radio production, and by Thomas Harrington, contact man on Colgate-Palmolive-Peet Co., supervising C-P-P programs. Mr. Harrington, who is executive vice-president and chairman of the plan board, was formerly radio chief of Young & Rubicam. Mr. Revere will spend a few months vacationing at his farm in Litchfield, Conn.

Letter From a Philadelphia Time Buyer

LIVING IN PHILADELPHIA, it's easy for me to "make up my mind" between Philadelphia radio stations. I think all Philadelphia stations are good mediums—and I buy time on all of them—but frankly, when I can get it, I would rather have time on WCAU—because for over two decades WCAU has been the station which Philadelphians tune in by force of habit.

Umbrella Coverage is one of the reasons why WCAU is our agency's "first choice" as the place for a program or a spot, and why we often use this phrase in conferences: "Any time is good time on WCAU."

50,000 "FREE WATTS" SURGING OUT IN A GREAT TIDAL WAVE OF POWER IN ALL DIRECTIONS, GIVING "UMBRELLA COVERAGE" OVER A CLEAR NATIONAL CHANNEL

PHILADELPHIA'S LEADING RADIO INSTITUTION

... it once followed the hounds

The orchestral horn, when first used in Europe, was called the French horn everywhere but in France, where it was known as the cor allemand, or German horn. Whether the French horn was developed in France or not, its predecessor was definitely French—a circular bugle still used in France for hunting.

How stopping started

When the French horn was first introduced into the orchestra, music lovers objected to its sharp, loud tones, feeling them more suited to the fields and woods than to the concert hall. About the middle of the 18th century, the celebrated horn player Anton Hampel muted the clear sound of the horn by inserting ins fingers into the bell, or "stopping" the horn. In addition to softening the tone, "stopping" bridged some of the intervals between the harmonics. Composers use the mellow tones produced by "stopping" to achieve a distant, out-of-doors effect.

You push the middle valve down

To complete the deficient scales of the French horn, an Englishman in 1788 invented a method of combining two horns, but the resulting instrument proved too heavy and slow. In 1815 two Germans devised the spring valves which successfully solved the problem and are still used on the French horn. The action of the modern horn is as fast as that of any keyboard instrument.

The modern French horn, with a frequency range of 110 to more than 6,000 c.p.s., has a soft, mufiled tone. To reproduce it with maximum naturalness, use: VERTICAL CUT RECORDINGS!

Electrical Research Products' Division

Western Electric Company 233 BROADWAY, NEW YORK 7, N. Y.

AMERICAN CYANAMID & CHEMICAL Corp., Azusa, Cal. (ground squirrel extermination), in a six-week campaign started April 26 is sponsoring daily participation in "Farming for Profit" and also is using total of 39 transcribed spots on KFPY Spokane, six spots weekly on KRLC Lewiston, Ida., and one per week on KHQ Spokane. Agency is Will Grant Adv., Los Angeles.

PLANET PICTURES Inc., Burbank, Cal., has appointed Gene Grant & Co., Hollywood station representative, to handle advertising and assume representation for commercial and institutional television films.

KUEBLER BREWING Co., Easton, Pa., will sponsor the Frederick W. Ziv Co. "Pleasure Parade" transcribed series five-weekly for 52 weeks on WEST Easton.

INTERNATIONAL TELEPHONE Corp. and associated companies have appointed Pacific Coast Adv. Co., San Francisco, to handle advertising in the West. Agency will serve Mackay Radio, Commercial Cable Co. and All American Cables & Radio Inc. Radio is being considered.

SPERRY Corp., New York, has renewed Paul Manning's Sunday broadcasts from Paris on WOR New York for another year. Placed by Young & Rubicam, New York, broadcasts are recorded and played over the public address systems of Sperry plants during Monday lunch hours.

BKO RADIO PICTURES, Chicago, to promote motion picture "Enchanted Cottage", will sponsor 8 to 15 live and transcribed spots weekly April 30 thru May 4 on following Chicago stations: WMAQ WBBM WGN WCFL WJJD. Placed direct. CHARLES MICHELSON Radio Transcriptions, New York, has sold "The Shadow" transcribed series to Acme White Lead & Color Works, Detroit, for 13 week presentation on KGHL KGVO KDFN WCHS; and to WHB Kansas City, for 26 weeks sponsorship by Cook Paint & Varnish Co. New account for "My Prayer Was Answered" is KODY North Platte, Neb., 39 weeks, Adams Funeral Home.

SHELL OIL Co., St. Louis (petroleum products), is sponsoring 6 p.m. Thursday broadcasts over KSD St. Louis featuring managers Billy Southworth of the Cardinals and Luke Sewell of the Browns.

CARBOLA CHEMICAL Co., Natural Bridge, N. Y. (Carbola, Hylite Water Putty and CCC Louse Killer), has appointed W. L. Wright Co., Rochester, as agency. Radio is considered.

JELUM Inc., Joliet, Ill. (Man's Brown Gravy Mix), has placed its account with MacDonald-Cook Co., South Bend, Ind. WETALENE LABS. Inc., Columbus, O. (household cleanser), is said to have appropriated \$10,000 for promotion campaign to include radio and has named Byer & Bowman Adv., Columbus, as agency.

COCA-COLA Co. export division is sponsoring three Latin American radio programs, one a symphonic concert, in Rio de Janeiro and Sao Paolo, Brazil. Beginning what may expand to a campaign covering the southern republics, Coca-Cola has appointed McCann-Erickson, foreign division, to handle radio advertising in Brazil and Argentina.

FAMOUS FAIRSEX Inc., New York women's clothing store, has appointed Seidel Adv., New York, to handle promotion. Radio may be used.

SAMPLES of Wildroot products were given to M. M. Sillerman (1), president, and Noel Rhys, account executive, of Keystone Broadcasting System, by Gertrude Scanlan, BBDO New York local manager as Wildroot Co., Buffalo, sponsored a series on 65 stations of the network.

MILK FOUNDATION Inc., Chicago, sponsors one to six station break announcements weekly on the following Chicago stations: effective April 23, WGES: effective April 27, WBBM. Firm on April 16 began participation on "Club 560" on WIND. WBBM 52 week contract and other 13 week contracts were placed by McCann-Erickson, Chicago.

SENTINEL RADIO Corp., Chicago, has appointed W. W. Garrison & Co., Chicago, to handle advertising. Radio is considered for next fall.

KILLING - ARNAO Co., Minneapolis (Nalidri), is using three spots weekly on KFI Los Angeles. Contract is for 13 weeks. Campbell-Mithun Adv., Minneapolis, has the account.

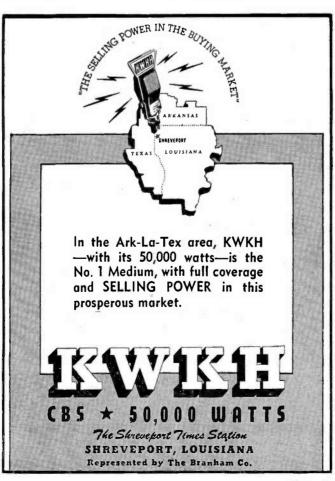

BALL BROS. Co., Muncie, Ind. (fruit jars), on April 16 started three spots weekly on KFI Los Angeles. Contract is for 13 weeks. Agency is Applegate Adv., Muncie, Ind.

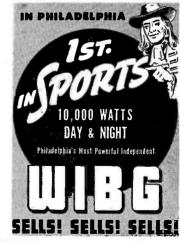

OKLAHOMA CITY INSURORS EX-CHANGE is sponsoring transcribed "Eye-Witness News" on KOCY Oklahoma City for 25 weeks beginning April 15. Agency is Erwin, Wasey & Co., Oklahoma City; transcriptions by Frederic W. Ziv Co., New York.

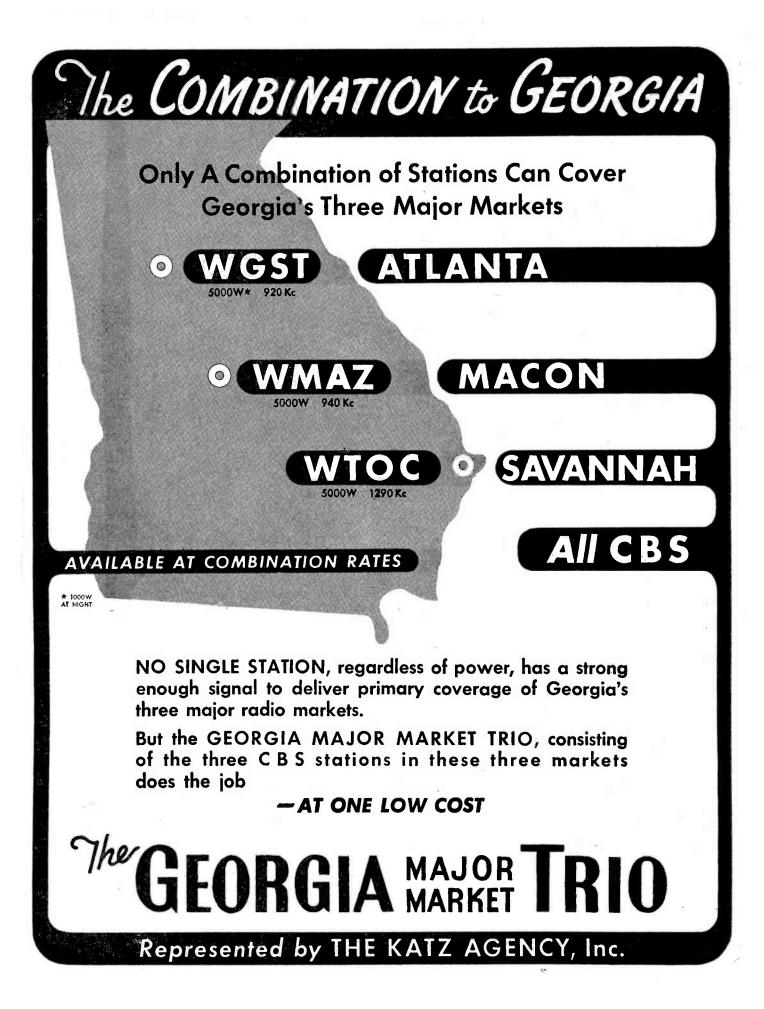

DODDS MEDICINE Co., Toronto (proprietary), has started spots twice weekly on CKEY Toronto. Agency 4s A. J. Denne Co., Toronto.

MEYER ARNOLD Co., Greenville, S. C., April 16 started Frederick W. Ziv Co. transcribed "Old Corral" western show on WFBC Greenville, 5 weekly for 52 weeks. Agency is Robert Glass Adv., Greenville.

GABY Inc., New York, has started thrice-weekly participations for suntan lotion on WABC New York, supplementing campaign in other media. Placed thru Al Paul Lefton Co., New York. (Continued on page 56)

AND NOW...the General Electric

INTRA SYSTEM

Television by wire for business, education and industry

The G-E Intra-Tel system can make a store the show place of a community. With it, it will be possible to televise and transmit living pictures throughout the store and in display windows. It is a new sales power that will increase customer traffic on every floor and in every department.

From the television laboratories of General Electric has come a powerful new selling aid for business, a dynamic medium for education, an effective tool for industry. It is G-E Intra-Tel--a television-by-wire system that can carry high-quality pictures and sound and reproduce them anywhere within the range of the system.

• Intra-Tel has great potentialities. In merchandising it can increase store traffic. With an Intra-Tel system dynamic demonstrations can be displayed simultaneously on every floor and in show windows. In education, the Intra-Tel system can bring special demonstrations, lectures, and motion pictures to every classroom. In industry the Intra-Tel system can provide the means for coordinating activities throughout a plant, observe production progress, to peer into inaccessible places or to observe extremely hazardous operations. The Intra-Tel system uses no transmitter and its installation thus requires neither FCC license nor government approval.

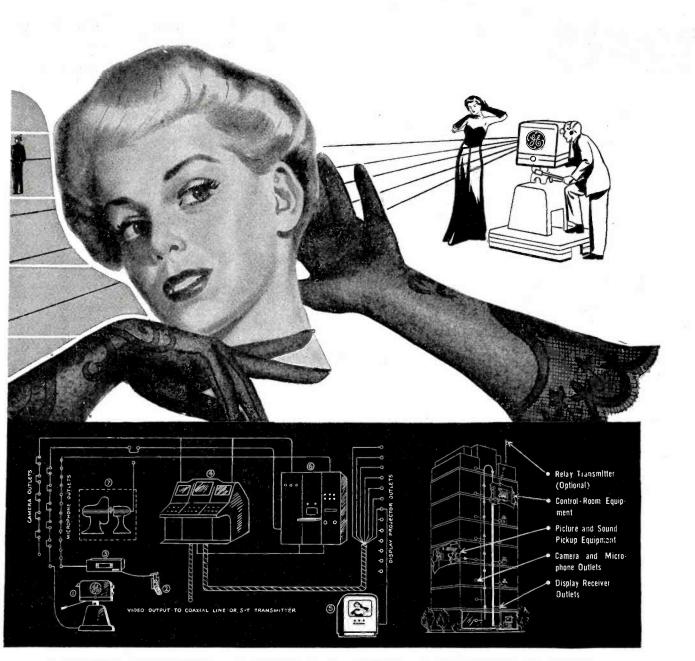

• A G-E Intra-Tel system includes one or more portable pickup cameras, one or more sound microphones, and a control and monitoring console. The entire system is designed so that both picture and sound are fed by cable to any number of home-type or display receivers. If desired, a motion picture projector and film pickup camera can easily be added to the system. Provision can also be made to link the system to any outside local television broadcast station by means of coaxial line or by radio relay.

John DEPARTMEN

• For details on G-E Intra-Tel systems and television broadcast systems, see your G-E broadcast equipment representative, or write for the booklet "Television Broadcasting Post-War," *Electronics Department, General Electric, Schenectady 5, N. Y.*

STUDIO AND STATION EQUIPMENT • TRANSMITTERS

GENERAL B ELECTRIC

A typical G-E Intra-Tel system. With the Intra-Tel system, portable television cameras and sound microphones can be operated from any place in store or plant. Pictures and sound picked up by cameras (1) and microphone with microphone amplifier (2) and (3) are fed by cable to the control and monitoring console (4). Outlets at the console make it possible to feed picture and sound signals by cable to any number of

display receivers (5). Amplifiers and pulse generator (6) maintain signal levels and synchronize scanning, respectively. Film projector (7) is used for motion pictures.

Plan to visit General Electric's great television proving ground — WRGB at Schenectady. Every Wednesday and Friday are "open house" days. Write for the folder, "How to get to Schenectady," or see your local G-E broadcast equipment representative.

ANTENNAS

Establish a delivery priority now on your future television equipment. General Electric offers you the "G-E Television Equipment-Reservation Plan." Write for your copy. It explains how you can assure yourself early delivery of your television equipment.

(Continued from page 52)

(Continued from page 52) BARBARA ANN BAKING Co., Los An-geles (bread), for 52 weeks has started four spots weekly on KFI Los Angeles with similar schedule on KHJ Los An-geles. Firm also sponsors weekly haif-hour "Hollywood's Open House" on southern Cal. Don Lee stations and the 30-minute "Pay Day Quiz" on KMPC Hollywood's Cholts Adv. Service. Los Angeles, services account. SPARKLETTS D RINK ING WATER Corp. Los Angeles (Sparketa Up), April 17 started inning-by-inning fash re-sults of Pacific Coast and major league baseball games on KWKW Pasadena. Spaced at approximately five-minute in-tervals daily schedule will run until September. Raymond R. Morgan Co., Hollywood, has the account.

WM. TAYLOR SONS & CO., Cleveland (department store), is sponsoring half-hour transcribed "Memory Lingers On", six-weekly on WGAR Cleveland. Agency is Edward Hibshman Co., Cleveland.

H. W. (Tex) RODEN, president of Amer-ican Home Foods Inc., has written a third mystery thriller, "One Angel Less" (William Morrow & Co., New York, \$2).

LIT BROS., Philadelphia department store, April 30 placing direct starts local sponsorship on WCAU Philadelphia, of the CBS "Morning News Round-Up" Mon. thru Sat. 8-8:15 a.m.

UNITED DRUG Co., Toronto (Rexall products), has started "Jimmy Durante and Gary Moore" on CFRE Toronto and CKAC Montreal, Fri. 10-10:30 p.m. Agency Is N. W. Ayer & Son, New York, and Ronalds Adv., Toronto.

G. HEILEMAN BREWING Co., La Crosse. Wis., April 16 for 13 weeks started thrice-weekly transcribed chain break spots on Wisconsin Network. Agency is L. W. Ramsey Co., Chicago.

Baseball in N. Y.

LEVER BROS. is placing tran-scribed "Lifebuoy" announcements before and after all games of the New York Yankees and Giants on WINS New York, heard daily. Agency is Ruthrauff & Ryan, New York. Nedick's New York refreshment stand chain, has signed for Don Dunphy's ten-minute sports broadcast before the Sunday games. through Weiss & Geller, New York.

KING JEWELRY Co., Los Angeles (re-tail), on May 7 starts five-weekly quar-ter-hour transcribed series "So the Story Goes" on KHJ Los Angeles. Firm has started five-weekly transcribed ver-sion of "The Shadow" on KHJ and a Sunday night five-minute newscast on KNX Los Angeles. Contracts are for 52 weeks. Agency is Raymond R. Morgan Co., Hollywood.

MURINE Co., Chicago (eye drops), is using thrice-weekly spots on a long term schedule on KROW Oakland. BBDO New York has the account.

TANNER MOTOR LIVERY Co., Los Angeles (bus transportation), in early May starts brief spot campaign on KENO Las Vegas, Nev. Other western stations will be added. Agency is Small, Levitt & Smith, Los Angeles.

Levitt & Smith, Los Angeles. SLAVICK JEWELRY Co., Los Angeles (retail), has increased local sponsor-ship of NBC program "Larry Smith-Commentator" from two to five per week on KFI Los Angeles. Firm also sponsors daily participation in "Art Baker's Notebook" on that station. In addition, the daily sixty-minute record-de "Musical Masterpieces" and six-weekly quarter-hour newscast is spon-sored on KFAC Los Angeles. Daily 15-minute recorded musical "Footlight Favorites" is used on KECA Los Angeles. Angeles. LEVEN BEOS. Teacnet, (Litchurg acce)

LEVER BROS., Toronto (Lifebuoy soap), has started five daily transcribed spots on a number of Canadian stations. Ac-count is placed by Ruthrauff & Ryan. New York

3. B. WILLIAMS Co., Montreal (Glider shave cream), starts in July five-minute sportSceasts Mon. thru Sat. on a number of Canadian stations. Agency is J. Walter Thompson Co., Montreal.

ROGERS-MAJESTIC Ltd., Toronto (re-ceivers and appliances), has appointed J. J. Gibbons Ltd., Toronto, as agency. Plans are underway for an institutional campaign until postwar merchandise is ready.

T. SISMAN SHOE Co., Aurora, Ont. (sport shoes), has started one-minute spots on a number of Ontario stations. Agency is E. W. Reynolds & Co., To-ronto.

HUDSON'S BAY Co., Vancouver (de-partment stores), has started daily com-mentary of local events on CKWX Van-couver. Agency is Cockfield Brown & Co., Vancouver.

PANTHER RUBBER Co., Montreal, in June starts spots five days weekly on a number of eastern Canadian stations. Agency is Stevenson & Scott, Montreal.

CAB Drops Dual **Ratings** System Returns Chronological to **Lists After Pole Taken**

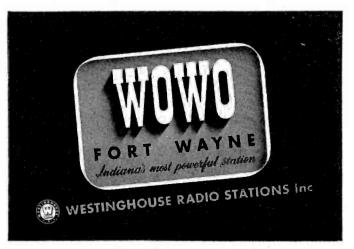

WITH COMPLETION of a year of 81-city interviewing, Cooperative Analysis of Broadcasting has revamped its reports and dropped the dual rating system that showed ratings for the old 33-city base as well as the new expanded system. Leaving only the 81-city ratings, new system was adopted after CAB subscribers voted for the single base. It is accompanied by a return to chronological listings, showing the four networks in parallel

columns. The revised twice-monthly reports also contain alphabetical indices of nighttime programs and of daytime programs separately for weekdays and weekends, as well as popularity ranking lists for daytime and evening programs. Separate tables give the ratings of regional or limited network programs and of national spot programs. The alphabetical listings have been revised to show programs by the names they are generally called by listeners, such as Charlie McCarthy instead of Chase and Sanborn Program. Commentators are now listed alphabetically by first names.

In addition, CAB issues each year three comprehensive reports on sets-in-use, showing variations in listening at various times for each season on a national basis, broken down into seven geographic areas, time zones and cities by size of populations, and three similar program audience reports.

CAB also issues four reports on audience composition, giving sex and age groups for each quarterhour period, and eight brand reports, showing sponsor or product identification. Finally, there are six city reports, showing listening for each of the 81 cities and a breakdown of the audience by stations for each city.

A map showing the cities in which CAB interviews are made, with the number of stations and interviewing units in each city, is in preparation for subscribers.

FM, Video Separate Services, **Chairman Porter Tells Mosby**

CLARIFYING his letter of April 2 regarding the possibilities of broadcasting FM programs on television sound channels, as suggested by A. J. Mosby, general manager of KGVO Missoula, Mont. [BROADCASTING, April 23], FCC. Chairman Paul A. Porter in a letter last Monday to Mr. Mosby made it plain that the Commission regards television and FM as two distinct services, each to be developed in its own right.

"The Commission expects televi-

sion channels to be used for television," wrote Chairman Porter. "Similarly it expects the facilities provided for FM to be used to the fullest extent possible."

Thus the FCC chairman virtually closed the door to a proposal by Mr. Mosby that the Commission consider permitting the broadcast of FM on television sound channels, inasmuch as television might be a service limited to not more than two to four hours daily.

Mr. Mosby has circularized other

MIRACLE

(Ky.)?

Maybe Miracle is marvelous to somebody, but to usand you-it's just another distant settlement. All such communities in the State lumped together wouldn't give you a market equal to WAVE's populous and prosperous Louisville Trading Area (which is all we actually ask you to pay for, though our wave-lengths reach farther than you'd think). You won't get miraculous results from Miracle, but you can expect 'em in Louis-

ville. Shall we WAVE a wand?

Page 58 April 30, 1945 .

broadcasters, from whom he solicited comment. He contends that the present-day broadcaster can't finance the pioneering of both FM and television as separate services, but could pioneer with a combina-tion of the two, "giving regular FM service from the audio channel of his television transmitter along with his regular AM programs and occasional television programs, the listener using his single television receiver for the particular service he chooses."

Following are excerpts from letters addressed to Mr. Mosby by various broadcasters:

J. GORDON WARDELL, General Man-ager, KGBX Springfield, Mo.—In mar-kets such as ours television is going to be almost prohibitive for the first years of operation unless we can find some way to reduce expenses, and I believe your idea would take care of that situation.

Sound take would take care of thist stud-ation. ED CRANEY, KFPY Spokane, KGIR Butte, KXL Portland, Ore. KFFA He-lena, Mont., KRBM Bozeman, Mont.--As long as they are shifting FM up-stairs and admit that television even-tually is going to be shifted upstairs, the argument is to get the FM and tele-vision both shifted upstairs at the present time. Your idea goes along with this, and I think that if you could co-ordinate your plans, you could prob-ably talk sense to the Commission through the Senate and House Inter-state Commerce Committees. MARSHALL H. PENGRA, Manager, KRNR Roseburg, Ore.--I certainly thi..k

FCC Sends Hyde, Marks **To Puerto Rico Hearing** FIVE issues involving WPRP Ponce, Puerto Rico, including petition for voluntary transfer of control from Julio M. Conesa to the Voice of Porto Rico Inc. for \$30,000, and application of Consolidated Broadcasting Corp. for the WPRP facilities (1420 kc with 250 w unlimited) were to be aired in public hearings scheduled to begin April 30 before FCC General Counsel Rosel H. Hyde, sitting as examiner, at the U.S. District Court House, San Juan, P. R. Leonard H. Marks was to represent the Commission. William C. Koplovitz of Dempsey & Koplovitz, Washington, is counsel for Voice of Porto Rico and Frank Stollenwerck, Washington, is appearing for Consolidated. All four attorneys left Washington Wednesday for Puerto Rico. The WPRP case has been pending more than four years.

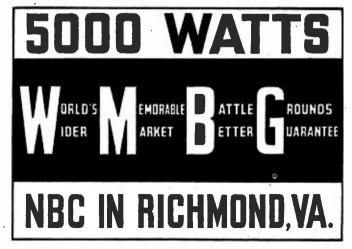

you have an excellent idea in the com-bination of FM and television. . . . Your suggestion would clear the way for many smaller stations to go into the FM field secure in the knowledge that the ultimate development of tele-vision would allow them to proceed in that direction with the minimum amount of change in equipment and the utilization of a single frequency. C T LICX General Manager WRVA the utilization of a single frequency. C. T. LUCY, General Manager. WRVA Richmond, Va.—From our knowledge of the technicalities involved, we are in accord that you seem to have a good idea. It would certainly be interesting to know why such an idea has not been proposed by the Institute of Radio En-gineers or others interested in broad-casting, as your proposal seems both logical and feasible from an operations standpoint.

JOHN M. RIVERS, General Manager, WCSC Charleston, S. C.-Most certainly it would be much more sensible from the standpoint of a radio station to operate the audio part of television as FM rather to have, as it may conceiva-bly be necessary, four transmitters-your AM, your FM, the audio part of television, and the picture part. I do not think there is much doubt that television will combine the audio and pictures in one transmission operation, but the fact remains that if the pro-gram you advocate is adopted by the Commission, then we will end up with only two transmitters, and two sets of employes to worry with.

Text of Chairman Porter's clarifying letter to Mr. Mosby follows:

Text of Chairman Porter's clari-fying letter to Mr. Mosby follows: Reference is made to your further communication dated April 11, 1945 in regard to the use of the sound channel of a television station to provide a sound service when a suitable television program was not available. It appears that I have not made my position at all clear, particularly in re-gard to that portion which you quote: "For example, perhaps the television sound transmitter could be adapted and licensed for both services." What was meant was that it may be possible to design equipment to operate alternate-ly on either the sound channel of a television channel or on a channel in the FM band. I did not have in mind the transmitser can of course, be converted for use on the sound chan-nel of a television station within the tuning limits of the equipment. The Commission cannot agree with you that "If FM is coming into the broadcasting picture, it will be transi-tory a stopgap until television comes into its own, so let it come as an ad-junct to television band." You will note than even if wide band FM is em-ployed on the sound channel of a tele-vision channel it would occupy only approximately 200 kc out of 6,000 kc and, herefore, could not be considered as making use of the chanel. As set forth in the Commission's Pro-posed Report on Allocations above 25 mc, the Commission expects television channels to be used for television channels to be used to the fueliest extent possible.

WGES Chicago, now at 2400 W. Madison St., will move to larger quarters at 2708 Washington upon WPB approval.

100-Watter Income Up 37% for Year FCC Data Shows Figures for **Typical Week During 1944**

THE AVERAGE 100 w broadcast station during 1944 had a gross income of \$40,985, which was 37% more than in 1943, according to an analysis of last year's broadcast revenues by the FCC. There were 28 commercial stations using 100 w in operation last year, of which 24 reported total net time sales of \$983,639, which was an increase of \$263,476 over the \$720,062 reported the preceding year. There were also five noncommercial 100watters in operation. The analysis completed the FCC's survey of station revenues during 1944.

The FCC release continued:

The FCC release continued: All of these stations showed increases in their net time sales; 4 reported in-creases of \$25,000 to \$39,374; 4 of \$10,000 to \$25,000; 8 of \$5,000 to \$10,000; and 8 of \$96 to \$5,000. Ten of the 28 commercial stations serve as outlets for the four major net-works, as follows: Blue, 2 stations; CBS: 1; NBC, 1; and Mutual, 6. Licensees of 13 of these stations, or the companies or individuals owning or controlling them, are engaged in other businesses, as follows: Education. 3; funeral home, 1; hotel operator. 1: motion picture theatre. 2; publishing. 3; religion, 2; and road contractor. 1. These stations are located within the continental United States as follows: Five in Texas; 4 in Pennsylvania; 3 in New Mexico; 2 each in California, Ill-nois, New York, Oregon and Wisconslu: and one each in Alabama, Colorado. Georgia, Indiana, Maine, Montana. Ok-lahoma, South Dakota, Utah, Virginia and West Virginia.

Correction

WKRC Cincinnati will rejoin CBS June 1 as a basic network affiliate and not Mutual as incorrectly stated in BROADCASTING April 2.

KMBC Kansas City in cooperation with the U. of Kansas and the Kansas City public schools will sponsor a radio in-stitute June 11-28. Members of the regular staff under the direction of Dr. Charles F. Church Jr., KMBC director of education, will be: Mortimer Frankel. associate script editor of CBS; George Jennings, director of Chicago Board of Education radio council; Kenneth G. Bartless, director of radio workshop of U. of Syracuse; Marguerite Fleming, director of drama and radio workshop, U. of Kansas; Harold B. McCarthy, di-rector of WHA, U. of Wisconsin: Eliza-beth Goudy Noel, U. S. Office of Edu-cation; Nadine Miller, director of Public Information Service of Kansas City; Charles F. Hunter.

April 13, 1945

Mr. C.J. Lanphier General Manager, WEMP 710 No. Plankinton Avenue Milwaukee 3, Wisconsin

Dear Mr. Lanphier:

Yesterday afternoon, following the unlooked-for announcement of the death of President Roosevelt, an avalanche of telephone calls was experienced at all local telephone offices. We asked WEMP to request the public to refrain from placing unnecessary telephone calls because the heavy load was interfering with the proper handling of urgent war calls. After the broadcast was made, almost immediately the calling load dropped and within a short time the number of calls being placed was more nearly normal.

The assistance given to us in this connection by WEMP was of immeasurable help, and sincere thanks is expressed.

Very truly yours,

(Ra) m

Official Sales Tax returns-a religble index to business in the state — reveal that since 1939 Mississippi businesses have averaged a general increase of over 103 percent*.

For instance, food sales in the state since that time have increased 107 percent; wearing opparel, 159 percent; furniture, 81 percent; general merchandise, 85 percent; and miscellaneous retail business, 164 percent.

This is definite evidence of the upward trend of business in Mississippi. WJDX is the one radio station in Mississippi that offers you effective coverage of this growing, stable market-because WJDX is the D-O-M-I-N-A-N-T "Voice of Mississippi".

VICTORY

Deferred by FCC to Sept. 5

Need of Complete Preparation Emphasized by **Commission in Explaining Postponement**

POSTPONEMENT of the clearchannel hearings from May 9 to Sept. 5 [CLOSED CIRCUIT, April 16, BROADCASTING April 23] was announced last week by the FCC.

In a public notice the Commission said it was of the opinion that "it is important that preparation for the clear-channel hearing be thorough and complete so that the decision can be made upon the basis of a comprehensive record."

. Work Under Way

Pointing out that "substantial preparatory work has already begun," the FCC nevertheless took cognizance of the vital bearing of data now being assembled by three Government - industry engineering committees on the overall phases of clear channel broadcasting. These committees, already at work, are expected to complete their tasks before the Sept. 5 date.

Plans are to make their respective findings available to "interested persons" in advance of the hearing, to permit the various interests to prepare their respective cases. Licenses of more than 50 stations, three major networks, a regional network and several other organizations have filed appearances [BROADCASTING, April 9].

In addition to the three engineering committees, a fourth group on surveys, also composed of Government and industry members, will conduct a survey among listeners in clear-channel areas to determine whether, in the minds of listeners, clear channel stations are providing adequate service [BROADCAST-ING, April 23].

Although the Bureau of Census likely will handle the survey, broadcasters have been asked to participate financially. In its public notice the Commission pointed out that the "desirability of such a survey has been urged upon the Commission by many interested persons" and that "it has been stated that the Commission rather than the industry is best equipped to conduct such a survey."

Industry members are understood to have opposed questions bordering on program control by the Commission. Full cooperation has been offered the FCC, however, by industry members of the committee. Dallas W. Smythe, FCC chief economist, is chairman of the survey group.

FCC HEARING NOTICE

TEXT of the FCC public notice dated April 24 and postponing the clear-channel hearings from May 9 to Sept. 5 follows:

The FCC today announced that the clear channel hearing (Docket No. 6741) scheduled to open May 9, 1945, has been postponed until Wednesday. Sept. 5, 1945, at 10:30 a.m.

Sept. 5, 1945, at 10:30 a.m. The Commission is of the opinion that it is important that preparation for the clear channel hearing be thorough and complete so that the de-cision can be made upon the basis of a comprehensive record. It is apparent after conferences with interested per-sons that this type of presentation can-not be ready in time for May 9. Hence, a postponement at this time is neces-sary. Substantial preparatory work has al-

sary. Substantial preparatory work has al-ready begun in connection with the hearing. Three engineering committees have been established for the purpose of preparing comprehensive reports on the basic underlying data necessary for the hearing. These committees are com-posed of representatives of the Commis-sion and other interested persons. These committees are: committees are:

COMMITTEE 1-Determination of what constitutes a satisfactory sig-nal.

COMMITTEE 2—Determination of what constitutes objectionable in-terference.

COMMITTEE 3-Determination of distances to which and areas over which various signal strengths are

which various signal strengths are delivered. It is expected that these committees will continue their work during the summer and be ready to report well in advance of the Sept. 5 hearing. It is expected that after reports are ready, they will be made available to inter-ested persons in advance of the hear-ing. ing. A

A fourth committee consisting of Commission personnel and other inter-ested persons has also been established.

This committee is concerned with the problem of conducting a survey of lis-teners. The desirability of such a sur-vey has been urged upon the Commis-sion by many interested persons. It has been stated that the Commission rather than the industry is best equipped to conduct such a survey. Full coopera-tion, however, has been offered by mem-bers of the industry. Preliminary meet-ings have already been held by the Commission with representatives of other Government agencies who would cooperate with the Commission in mak-ing survey. It is hoped the re-sults of this survey will be ready for the opening of the hearing on Sept. 5. In addition to the foregoing commit-

the opening of the hearing on Sept. 5. In addition to the foregoing commit-tees, the Commission has also set up staff committees to prepare material on all the issues covered by the proceed-ing. It is expected that members of the industry will likewise proceed diligent-ly in the preparation of their material. The Commission's staff is available at all times for conferences or assistance in connection with this proceeding. Ar-rangements for such conferences should be made through the Commission's General Counsel or Chief Engineer.

Hooper on President PRESIDENT TRUMAN'S third

address since he became chief executive, broadcast at 7.30 p.m. April 25, opening the San Francisco Conference, was heard by 30,-400,000 adult listeners, according to a special survey made for CBS by C. E. Hooper Inc. Address achieved a Hooper Rating of 41.2. The President's address to the joint session of Congress on April 16 had a Hooper Rating of 32.0, his first evening address, April 17, of 53.6.

Hearings on Clear-Channels Luotto Is Absolved In Fascism Charge Rumors Not Factor in WOV **Decision**, Denny Declares

CHARGES that Andre Luotto. New York advertising agency executive, was sympathetic to the cause of Fascism and reports circulating in New York that the FCC proposed denial of the transfer of WOV New York from Arde Bulova and Maj. Harry D. Henshel to Murray and Meyer Mester was traceable to Mr. Luotto's alleged participation in negotiations, were discounted last week by Commis-sioner Charles R. Denny Jr. [CLOSED CIRCUIT, April 2].

"While I did not participate in the WOV proposed decision," said a statement by Mr. Denny, "I know that any rumors that Andre Luotto had anything to do with the decision are wholly false for two reasons

"First, the record shows that Luotto was to have nothing to do with the present transaction. Second, even if Luotto had been associated with the Mesters in the present deal, it would not have adversely influenced the decision because the 1942 charges against Luotto were thoroughly investigated and found to be unsubstantiated.

Previous Application

"Our investigation convinced me that Andre Luotto is a loyal citizen and a person of integrity."

Charges that a previous application for the purchase of WOV in 1942 by the Mester brothers did not get FCC approval because of certain allegations against Mr. Luotto, were made by the House Select Committee to Investigate the FCC. In 1942 Mr. Luotto would have be-come manager of WOV had the Mester brothers purchased the station, it was reported.

Action by the FCC in proposing to deny transfer to the Mester brothers of WOV took place before Mr. Denny was sworn in as a Commissioner. He did serve as FCC general counsel, however, during the time the House Committee charges were aired.

Commenting on Commissioner Denny's statement, Mr. Luotto said: "I am naturally glad to see that the Commission realizes the falsity of the charges brought against me. It is regrettable that unscrupulous persons were allowed to make such charges but I never had any doubt that governmental agencies, even if swayed for the moment, would eventually realize the truth and publicly state it."

DON S. ELIAS, executive director of WWNC Asheville and NAB Board mem-ber, is at Mission Hospital, Asheville, recuperating from surgery performed April 21. He is expected to be released this week.

FAMOUS FAIRSEX Inc., New York women's clothing store, has appointed Seidel Adv., New York, to handle pro-motion. Radio may be used.

FCC Denies Complaint Against WPEN; Sustains Program Duty of Licensees

HOLDING that the Communications Act vests in licensees the responsibility of programming and that the new religious policy of WPEN Philadelphia is "consonant with the licensee's obligation to present a diversified and wellrounded program service", the FCC last week denied petition of the Philadelphia Gospel Broadcasters Assn. that Commission action granting transfer of control to the Philadelphia Bulletin be set aside [BROADCASTING, April 9].

The association, composed of

Fundamentalist churches, had complained because WPEN cancelled most of the religious broadcasts sponsored by member churches of the group.

FCC action came shortly after eight members of the religious groups took an appeal to the Third Circuit Court of Appeals in their effort to restrain WPEN from enforcing its new policy. District Judge William H. Kirkpatrick in Philadelphia had dismissed the church bill in equity against the station licensee [BROADCASTING,

FROM MY WHEAT. B'GOSH!

Red River Valley wheat, noted for its high gluten content, commands premium prices. This alone would be news in a less fertile section. Yet in the rich Fargo area wheat and all other grains account for only about 30% of the farm income, and all the rest comes from widely varied crops!

And listen: Us hayseeds are just as diverse in our spending as we are in our farming! That's why this section looks so rosy to WDAY's varied advertisers. ... Shall we send you a picture?

April 16]. Appellants are Rev. Carl McIntire, Young People's Church of the Air, Word of Life Fellowship, Rev. Theodore Elsner, E. Schuyler English, Highway Mission Tabernacle, Wesleyan Methodist Church, Wiley Mission.

Following is text of a letter sent by the Commission last Tuesday to William S. Bennet, New York, counsel for the gospel association:

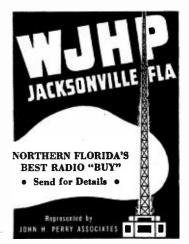

The Commission has considered the petition and complaint which you filed on behalf of Philadelphis Gospel Broad-casters Assn. with reference to the ac-tion of Station WPEN Philadelphis, in discontinuing religious broadcasts which had been appropried by the various or-

tion of Station WPEN Philadelphis, in discontinuing religious broadcasts which had been sponsored by the various or-ganizations in your group. In response to Commission inquiry regarding the new policy in handling religious programs, the station has ad-vised that approximately three hours will be sold for religious programs on Sunday to be divided among the sev-eral religious groups, including the groups which you represent. In addi-tion, approximately three hours will be made available on Sunday without charge to the various religious denomi-nations. Moreover, during the week periods of time will also be allotted for various religious broadcasts. The policy of Congress as expressed in the Communications Act of 1934 con-templates that the selection and presen-tation of radio programs shall be vested in the individual station licen-see. Licensees are, however, required to operate in the public interest and the Commission has construed this obliga-tion as requiring presentation of a di-versided program balance. The Commission has carefully com-

versified program balance. The Commission has carefully con-sidered the matters alleged in your com-plaint and the representations made to it by the licensee of Station WPEN to determine whether there has been a violation of the licensee's obligation to operate in the public interest. The Com-mission is of the opinion that the rep-resentations of Station WPEN are consonant with the licensee's obliga-tion to present a diversified and well-rounded program service. For the fore-going reasons, the Commission has to-day denied your petition.

Standard Brands Show

STANDARD Brands Inc., New York, on May 1 starts a weekly quarter-hour program dramatizing the work of the OPA on WOR New York. Titled Soldiers With Coupons, the program is written and directed by Tex Wiener, regional OPA radio director. Daniel P. Woolley, regional OPA administra-tor, will speak briefly at the start of each broadcast, discussing phases of OPA's fight against inflation, rising prices and the black market. Standard Brands will promote no particular product, taking identification credit only. Business placed by J. Walter Thompson Co., N. Y.

"Sometimes I wish I'd listen to something besides WCSH."

1

something besides WTIC."

"Sometimes I wish I'd listen to something besides WJAR."

"Sometimes I wish I'd listen to something besides NERN"

The peak program and power impact of NERN stations is irresistible to 96.5% of New England's families. And NERN'S listeners respond easily because, though comprising barely more than 6% of the nation's population, they have 11% of the capital resources in U.S. Banks. NBC affiliation brings

all NERN stations the nation's peak programs: FCC authority gives NERN stations New England's peak power. This solid combination, available for only \$312 per daytime quarter-hour, comes with free studio facilities in Boston, Hartford or New York and without line charges. When you buy NERN. you buy a network.

something besides WFEA."

Several More Stations Get Temporary Fans Like Gillette \$108,000 Price Offered Grants Under New Policy of the FCC Video Commercials

PURSUING its policy of commercial vs. sustaining programs the FCC last week is understood to have placed several more stations on temporary license pending replies to new form letters [BROAD-CASTING, April 16].

Although the Commission adopted a "closed-mouth" policy with reference to temporary renewals, after issuing a release a fortnight ago on its new policy, it was understood that a dozen or so of 50 stations placed on temporary license until July 1, come under the category of program-policy scrutiny. These licenses expire May 1. (See FCC actions, page 74, for list.) In some instances the Commission is said to have raised eyebrows because of heavy commercial schedules.

Six other stations were placed on temporary license until May 1, 1948, "upon the express condition that they are subject to whatever action may be taken by the Commission upon their pending appli-cations for renewal." Five, involved in duopoly procedure, are: KFVD Los Angeles and KPAS Pasadena; KGA Spokane, Wash.; KOMO Seattle; KSOO Sioux Falls, S. D. The sixth is KOMA Oklahoma City.

Other actions by the Commission at its regular Tuesday meeting included:

KOB Albuquerque, N. M., grant-

FCC OPINION GRANTS CADILLAC, MICH., CP MEMORANDUM opinion has been

adopted by the FCC granting a construction permit to Midwestern Broadcasting Co., licensee of WTCM Traverse City, Mich., for a new standard local outlet on 1240 ke at Cadillac, Mich. Grant is subject to the requirements of the Commission's Statement of Policy of Jan. 26, 1944, and the procedure notice of Jan. 25, 1945, relating to the use of critical materials for construction purposes.

Headed by Lester M. Biederman, president and general manager, Midwestern will use power of 250 w and unlimited hours at Cadillac. Applicant states that no critical materials are to be employed nor are any utility extensions required as it is planned to use quarters leased in the local American Legion building.

The Commission finds that at present there is no primary service rendered either day or night, and operating as proposed the station would render primary service to 12,422 persons in a 156 sq. mi. area nighttime and 28,733 persons in a 11,120 sq. mi. area daytime. Also noted were letters from local industrial, business and civic interests and that the proposed station would provide "a wholly local program service, without network affiliation". The War Manpower Commission advised the FCC that

ed extension of special service authorization to operate on 770 kc, 25 kw night, 50 kw day, unlimited time, using transmitter authorized under construction permit as modified for six-month period beginning May 1. At the same time the Commission extended the present license of KOB on a temporary basis until Nov. 1, pending final determination upon applications now before the Commission. These issues involve operation with 10 kw night and 50 kw day on 1030 kc and 50 kw day and 25 kw night on 770 kc, as well as 50 kw on 770 kc.

License of WBT Charlotte, N. C., was continued temporarily to July 1 pending determination upon renewal. Under the network regulations CBS must divest itself of WBT. Negotiations for its sale are now pending [CLOSED CIRCUIT. April 231.

Stromberg Names

WESLEY M. ANGLE, president of Stromberg-Carlson Co. since 1934, was elected chairman of the board of directors at the board's annual meeting April 18. Dr. Ray H. Manson, former executive vice-president and general manager, was elected president to succeed Mr. Angle. The former secretary and assistant general manager, Lee McCanne, was named executive vice-president to succeed Dr. Manson.

NEWSCASTS on WFIL Philadelphia will be taken over by the Philadelphia Rec-ord after May 1. The Builetin confines its news programs to WPEN in that city, which it acquired Jan. 1. Waiter H. An-nenberg of the Inquirer has applica-tions pending for FM and television stations.

NBC Finds 94% of Audience **Knew Program Sponsor**

SIGHT and sound commercials used by Gillette Safety Razor Corp., Boston, on its WNBT-NBC television boxing matches have produced a lasting impression on their audience. according to an NBC survey recently completed which showed that better than nine out of ten listeners knew Gillette sponsored the programs.

Sponsor identification added up to 94.4%, the survey showed, with little criticism of the advertising methods used. Some persons queried favored more changes in the still pictures used and others preferred use of live film, but 63.6% of the responses made favorable comments on Gillette's commercials.

NBC's television department on March 5 sent out 4.252 questionnaires on the Monday and Friday night boxing shows. Of those, 1,070 answered, but only 949 had actually seen the programs. Eighty percent of those answering liked the programs "very well", 16.9% were in the "fairly well" category, and those who attend prize fights regularly were most enthusiastic about the telecasts.

C-Z Chemical Spots

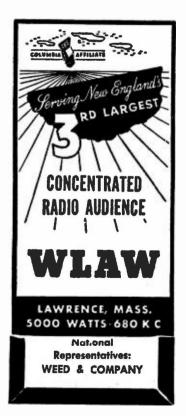

C-Z CHEMICAL Co., Beloit, Wis-, (floor war), is sponsoring series of 8 transcribed Wright-Sonovox spots weekly for 13 weeks, thru Klau-Van Pietersom-Dunlap Assoc., Milwaukee, on: KWTO KGBX KFBI KYSM KFAM KWNC KFYR WDAY KILO KOMA WNAX KTRH KXYZ KTSA.

For KID Idaho Falls ASSIGNMENT of license of KID Idaho Falls from a syndicate of Idaho and Utah businessmen to a new corporation in which part interest is held by Radio Service Corp. of Utah, operator of KSL Salt Lake City and half-owner of KSUB Cedar City, Utah, is re-quested in an application filed with the FCC last week. Price is \$108.000.

Present owners, who purchased the station a year ago from Jack W. Duckworth [BROADCASTING, May 1, 1944], and who wish to devote their attentions to their other interests, according to application, include H. F. Laub, president and 40% owner of KVNU Logan, Utah, and also in the electrical contracting business; L. A. Herdti, Ogden electrical contractor, and Walter Bauchman, Idaho Falls electrical contractor. Each holds a third interest.

Holdings in the new company are: David Smith, president, 30.13%, affiliated with Smith-Hart Motor Co.; Radio Service Corp. of Utah, 24.93%; Joseph E. Williams, vice-president, 18.33%, owner of farm and real estate interests, and Arch L. Madsen, secretary-treasurer, 1.67%, assistant to the general manager of KSL.

CROTON WATCH Co., New York, has appointed Franklin Bruck Advertising Corp., New York, to handle its account effective immediately. Radio may be used later.

Other Fellow's Viewpoint

EDITOR BROADCASTING:

In your issue of April 23, under the heading "FCC Expected to Decide FM's Place in the Spectrum about May 1" there appear two statements on which I would like to comment.

The first statement is:

"So far engineers still are at loggerheads over F2 layer transmission."

This is not correct. The predictions made by Mr. Norton during the October hearing with respect to F2 have now been thoroughly disproved.

The second statement reads as follows:

"Since Sporadic E is held to cause interference 1% of the time at 42 mc, 1/10th of 1% of the time at 60 mc and 1/100th of 1% of the time at 84 mc, it appeared likely that the FM band would begin above 60 mc."

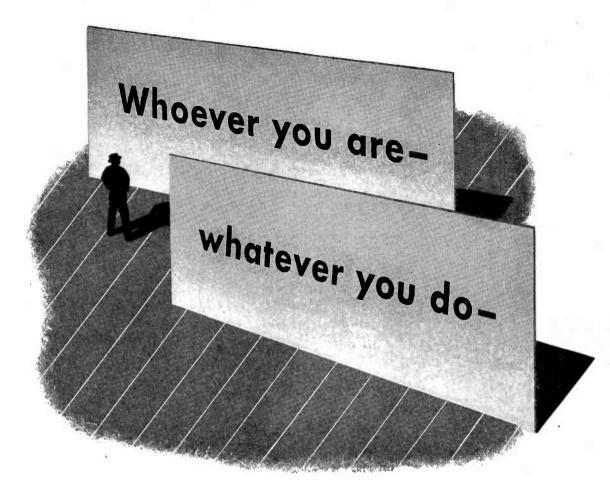

May I point out that in this statement you have confused the percentage of time during which Sporadic E transmission may take place Cadillac is not a critical labor area, with the question of whether or

not interference will occur. The two are not the same.

To determine whether interference occurs the power and range of the transmitters must also be taken into account. On the basis of recordings made of Sporadic E and introduced on behalf of the Commission it has been established in the record, by me, that two FM transmitters, each operating on 44 megacycles and capable of serving ranges of 40 to 50 miles (50 microvolt contour) will not interfere with each other via this type of transmission, even though spaced at the most critical distance for such effect.

It is therefore quite possible to operate the host of local stations within the part of the band for which your article predicts 1% interference from Sporadic E without any trouble from this source whatsoever. Why move them above 60 mc. ?

> EDWIN H. ARMSTRONG Columbia University in the City of New York

YOU NEED hallicrafters EQUIPMENT in high frequency development work

• The new Hallicrafters AM/FM receiver, Model S-36, designed for maximum performance on the very high frequencies. Provides continuous frequency coverage from 27.8 to 143 Mc. Covers old and proposed new FM bands. Rail and motor lines, maritime services and universally expanding aviation are planning new or improved communications systems to keep up with the forward pace. In these and many other fields of science there is an urgent demand for the latest developments in very high frequency and ultra high frequency apparatus. In your work in these fields, look to Hallicrafters for advanced communications and electronics equipment.

ONE MAN IS A POOR AUDIENCE

Sentenced to jail, Paganini, great violinist, played to his jailer a poor audience for such talent.

Be sure your program has a worthy audience! Use:

Baltimore's Listening Habit

In Hooper Check First in Davtime shows.

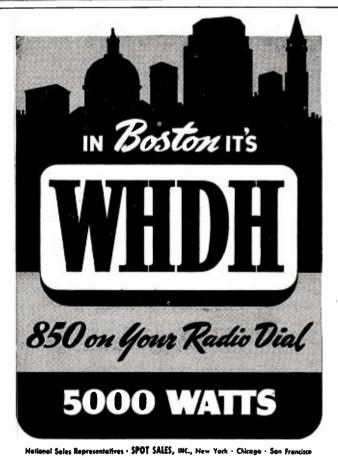

'Ma Perkins' Is Second

FORMERLY SIXTH in the C. E. Hooper Inc. ratings of network daytime shows, Young Widder Brown this month moved up to first place in the "top ten" weekday programs listed in the April report with Ma Perkins coming up to second from its previous fourth spot.

Third was When a Girl Marries. Measured in terms of the number of listeners per radio set. Captain Midnight led the field and Tom Mix took second place. The Tom Mix program also registered the largest number of men listeners per set, according to the April report. Ma Perkins was found to have the largest number of women listeners per set, with Terry and The Pirates ahead in the children's category.

For the first time, Kate Smith Speaks was listed as the program with the highest sponsor identification, registering 71.1%.

Due to the death of President Roosevelt and cancellation of all commercial programs, no figures are included for April 13 and 14. Saturday daytime ratings will be based on interviewing conducted April 21 and will be sent out with the April 30 report, the Hooper organization said.

'Widder Brown' Up RIO DELAY, NARBA Radio Is Effective, **EXTENSION OFFICIAL**

POSTPONEMENT of the Third Inter-American Radio Conference in Rio de Janeiro from June 1 to Sept. 3 and agreement by the U.S. to extend the North American Regional Broadcasting Agreement one year, became official last week.

The Government of Brazil last week notified the State Dept. that the Rio conference would be postponed to Sept. 3 at the request of the U.S. and other American nations, who felt additional time would be needed for preparation.

In a letter to the State Dept. last week, FCC Chairman Paul A. Porter wrote: "On further consideration of the matter in the light of present conditions, the Commission is of the opinion that recommendations should be made for extension of the Agreement (NARBA) for a period of one year from March 29, 1946."

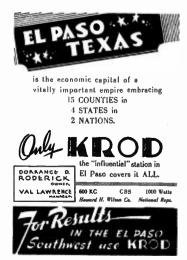

All other nations except Cuba already had agreed to extension.

Publishers Association **Elects Chandler Head**

WILLIAM G. CHANDLER, an executive of the Scripps-Howard organization (WCPO Cincinnati, WNOX Knoxville, WMC Memphis) and president of the Scripps-Howard Supply Co., was elected president of the American Newspaper Publishers Assn. at its annual meeting in New York April 26. He succeeds Linwood I. Noyes, publisher of the Ironwood (Mich.) Globe, who becomes a director of the ANPA for a two-year term.

Other officers named were: David W. Howe, business manager of the Burlington (Vt.) Free Press, vicepresident; Norman Chandler, publisher of the Los Angeles Times, secretary; Edwin S. Friendly, general manager of the New York Sun, treasurer.

Directors named were: E. M. Antrim, busines manager of the Chicago Tribune (WGN); J. S. Gray, publisher of the Monroe (Mich.) News; F. I. Ker, publisher, Hamilton (Ont.) Spectator; William F. Schmick, business manager of the Baltimore Sun.

Cooper Tells AP

ALTHOUGH the airwaves have been used effectively for Associated Press institutional promotion, radio does not yet tell the listener enough about the source of the news, Kent Cooper, AP executive director and general manager, said in his report to the members, submitted at AP's annual meeting April 23 in New York.

"Very much can be done with this medium (radio) in acquainting the public with the AP, its organizations and its people," Mr. Cooper's report read. Stressing the need for "widespread public awareness and appreciation of the meaning and significance of the words 'the Associated Press'," Mr. Cooper wrote, "the fact must be faced that in the swift tempo of this day, fine craftsmanship alone may be ignored."

Six AP directors were reelected for three-year terms, in a vote principally by proxies due to ODT restrictions on travel. Renamed to the directorate are: Roy A. Roberts, Kansas City Star (WDAF); Col. McCormick, Chicago Robert R. Tribune (WGN); Palmer Hoyt, Portland Oregonian (KGW); L. K. Nicholson, New Orleans Times-Picayune; E. Lansing Ray, St. Louis Globe-Democrat; Stuart H. Perry, Adrian (Mich.) Telegram.

Following AP officers were reelected: Robert McLean, Philadelphia Evening Bulletin (WPEN), president; Frank B. Noyes, Washington Star (WMAL), lifetime honorary president; Houston Harte, San Angelo (Tex.) Standard (KGKL), 1st vice-president; Norman Chandler, Los Angeles Times, 2nd vice-president; Lloyd Stratton. secretary; F. J. Starzel, assistant secretary; L. F. Curtis, treasurer, and Claude A. Jagger, assistant treasurer.

Mr. Cooper continues as executive head of the organization.

Filene's Store in Boston Takes WNAC Phone Ouiz WILLIAM FILENE'S Sons Co.,

Boston department store, starting May 2 will sponsor Tello Test quiz program with Fred Lang as m.c. every Monday, Wednesday and Fri-day from 9:15-9:30 a.m. on WNAC Boston, key station of the Yankee Network.

... that keeps the original music and speech alive!

Your station announcer . . . not quality variation . . . should tell your listening audience whether your broadcast is a 'live' or 'recorded' program.

'Live' and 'recorded' quality should be practically indistinguishable!

Fairchild-built recording channels put the fundamental tone and all overtones up to 8,000 cycles on the record at full strength. The bass takes on the character of the individual instruments instead of the all-too-prevalent overall 'boom, boom' which leaves the listener wondering whether the recorded sound is string bass, brass horns, bassoon or drums. At the other end of the sound spectrum, and throughout all intermediate ranges, Fairchild recorded sound comes back over good playback systems with absolute *naturalness*.

No doubt remains in the listener's mind that he's hearing the 'live' qualities of the orchestra, band, or the even-more-difficult-to-record individual performances of the piano or pipe organ.

Fairchild Portable Recorder descriptive and priority data are available. Address *New York Office:* 475 - 10th Avenue, New York 18; *Plant:* 88-06 Van Wyck Boulevard, Jamaica 1, N. Y.

HOOP-LA... ALLEZ-OOP!

KQV's listener ratings on non-net shows jumped 63% since November 1944, the advent of its new ownership and staff. KQV's going places in Pittsburgh, and so are its advertisers.

Radio Sets Peace Pattern

(Continued from page 17)

ference progresses. Personality copy will be held in importance only as related to the actual deliberations of the official delegations, it was stated. Radio executives are fretful that there will not be sufficient copy to hold interest.

Prevailing thought is that big news won't break fast enough to keep the frequencies alive with the multiplicity of programs scheduled. Repetitious reporting, frequently a fault of radio, it was pointed out, will send radio news correspondents scurrying for any scrap of news that might pass muster with the surfeited listeners.

With Paul White, director of CBS public affairs and news broadcasts, sitting it out in New York for any eventualities, Fox Case, western division director of that department, is in charge of all San Francisco operations, coordinating activity of some 25 commentators. news analysts, reporters and writers, who have shifted to the scene from New York, Chicago, Washington, Hollywood and other points. Phil Woodyatt, assistant to Mr. White and CBS San Francisco news bureau manager, is collaborating with Mr. Case.

Chester J. LaRoche, vice-chairman of Blue-ABC, and Robert E. Kintner, vice-president in charge of news and news features, scheduled to be in San Francisco for the opening Conference, are detained in New York for a fortnight. G. W. (Johnny) Johnstone, director of news and news features, was among the first to arrive in San Francisco. He set up shop and will remain throughout the Conference, coordinating the work of 43 commentators, analysts, reporters and assistants.

McCall Supervising

Francis C. McCall, manager of network operations, NBC news and special events division, New York, is supervising all broadcasts for that network. Assistants from New York, Washington, Chicago and Hollywood are covering the sessions. E. B. Canel, director of Latin-American programs, NBC international division, is covering the Conference for shortwave to South America, cooperating also with the Coordinator of Inter-American Affairs. With him is Vicente Tovar, NBC international division commentator of Washington.

John D. Whitmore, Mutual director of news, New York, is supervising all broadcasts for MBS. He has 30 commentators, analysts, reporters, writers and assistants from other parts of the country under his supervision.

Special features of the daily sessions are being shortwaved to all United Nations and liberated areas, as well as enemy-occupied countries and territories.

Armed Forces Radio Service, beside handling shortwave broadcasts to servicemen overseas, also is transcribing programs for release on 400 AFRS stations in the various war zones. OWI overseas division is shortwaving programs to civilians in enemy as well as friendly territory.

Radio's physical setup to handle the heavy load of programs from the Conference is centered in the Veterans' Memorial building, adjacent to the War Memorial Opera House.

Studio Setup

Each of the four major U. S. networks has a space setup of 18 by 38 feet into which studios, control and newsrooms have been thrown up without disturbing any of the existing partitions in the Veterans building. In the draw for location, Blue-ABC came off with the choice pick, sharing space between CBS and NBC but with fewer pillars and corners to contend with.

Radio booths have been erected in the lush Diamond horseshoe circle of the Opera House, giving broadcasters practically front-row position in the 3,200-seat auditorium. All networks, including BBC, have been assigned a box and booth each, with independents occupying one. Networks and independents are pooling facilities to a degree at the Opera House. Instead of the customary 50 or more microphones for such a historic event, broadcasters have agreed to hold the battery of mikes down to a minimum of 10.

Two of these have been assigned to the more than 40 local and outof-town independents. NBC is feeding to BBC with the latter doing the same to Canadian and Australian networks. Blue-ABC also is extending to BBC its transcontinental wire after midnight (PWT) so that the latter can send highlights and programs to New York direct for transmission via trans-Atlantic radio.

In keeping with the dignity of the event, radio, at the suggestion of the State Dept., agreed to eliminate the customary mike pants, with no station or network identification being shown during broadcasts from the War Memorial Opera House.

New Blue Affiliates

WHGB Harrisburg, Pa., now under construction, will join Blue-ABC as a basic supplementary affiliate when it begins operation as a fulltime station, 250 w on 1400 kc, June 15 or sooner. On May 15, KMPC Bakersfield, Cal., 1,000 w on 1560 kc., will become a basic affiliate of the Blue, replacing KERN Bakersfield, 1,000 w on 1410 kc., which will join CBS on that day. KMPC is currently an outlet for Mutual-Don Lee and will continue that affiliation until October 15.

The first exhaustive survey of radio listening in

Western North Carolina

was made by Industrial

Surveys Company.

WWNC is the first station

of its size and the first

outside of a metropolitan

market to subscribe to a

listener diary study. This

study represents reports

covering a greater per-

centage of radio homes

than in any other market

so measured. It includes

those in all 12 counties in

the WWNC daytime primary (and roughly the

night-time primary and

secondary) area.

OUEBEC PROVINCE RADIO PLAN SIGNED

THE QUEBEC Government bill to set up a provincial broadcasting system [BROADCASTING, March 26] was signed by the Lieutenant-Governor of Quebec April 20. Under the bill and its amendments from the original plan the province is authorized to set up a broadcasting system at a cost of not more than \$5,000,000, and can expropriate existing stations to do so.

A three-man commission will manage the system, the commission to be appointed by the Government. The commission will be the active management with the manager receiving \$9,000 annually and the assistant manager \$7,500.

No intimation has been given as yet as to when Radio-Quebec will come into existence. Under international law only the federal government of Canada has jurisdiction to license broadcasting stations, and it is understood no applications for licenses for Radio-Quebec have been received as yet.

WLS-Harold A. Safford, John Strohm. WOR-Bessie Beatty. WOW-Ray Clark. WITH, WWDC-Lan Ross MacFarlane. WPRA Mayaguez, P. R.-Andres Camara.

KNOW-HOW shows how in Western North Carolina

FIRST ALL WEEK

Throughout the WEEK one Western North Carolina station leads all competition. WWNC has a 7-day average MORN-ING rating more than four times that of the second-rating station; an AFTERNOON average better than $2\frac{1}{2}$ -to-1; an **EVENING** average better than 2¹/₂-to-1.

More, WWNC commands virtually half the total audience morning, afternoon and evening.

CIVILIAN RECEIVERS NOT YET IN SIGHT

INITIAL post-V-E-Day cutbacks are not expected to run more than 10% during the first six months and probably will come in the simpler types of communications equipment, Louis J. Chatten, director of the WPB Radio & Radar Division, said last week in disclosing that he had called the Industry Advisory Committee to meet with him in Washington to discuss reconversion plans.

Mr. Chatten said that it is difficult to predict when production of civilian radio sets will be resumed. explaining that the first communication equipment freed by cutbacks probably will be for air and rail transport and law enforcement. He said that about 98% of the productive capacity of the industry has been diverted to direct military construction since the start of the war.

Candy Series

BEATRICE CREAMERY Co., Chicago, began sponsorship April 23 of 10 spot announcements weekly for 26 weeks, thru Foote, Cone & Belding, Chicago, on WLW Cincinnati.

BAKERSFIELD GOES CBS

Down in the oil country, where KERN has always been the top station, CBS takes over on May 15th to bring listeners the programs of one of the country's great networks.

To users of the Beeline this means excellent availabilities, high ratings, big audiences in Bakersfield.

THE

Not a regional network but a group of longestablished key stations, each the favorite in its community ... combined' on a new basis for National spot business.

> *See McClatchy Beeline rate listing first under California in Standard Rate and Data.

CBS Affiliate Meet Set April 30-May 2

CBS was to open its three-day meeting of owned stations and Radio Sales, April 30 at the Ritz-Carlton, New York, with Frank Stanton, vice-president, presiding. Morning sessions of the regular semi-annual meeting will be devoted to discussions between station managers and other executives, and CBS management. Managers and network operating heads will confer in the afternoon.

Scheduled to participate in the Monday afternoon discussions were Henry Grossman, CBS director of technical operations; Joseph H. Jackson, personnel manager; Howard Lane, director of station relations; James M. Seward, assistant secretary; Paul White, director of public affairs and news broadcasts. Session concludes with a reception by Radio Sales for station executives, clients and agencies.

Tuesday Roundtable

William B. Lodge, CBS director of general engineering, will participate in the Tuesday morning roundtable meetings. Following a luncheon with John Macdonell, United Nations Information Service, as principal speaker, the conference will resume. Participating in discussions will be Douglas Coulter, CBS vice-president in charge of programs; John K. Churchill, research director; Dick Dorrance, director of promotion service for CBS-owned stations; Oscar Katz, assistant director of research; Jan C. Schimek, director of editing and copyright; Frances Farmer Wilder, consultant on programs. A luncheon winds up the session May 2.

Those attending will be: H. Les-lie Atlass, CBS vice-president in charge of the central division and general manager of WBBM Chi-cago; Donald W. Thornburgh, CBS vice-president in charge of western division and general manager. KNX Los Angeles; Carl Burkland, manager, WTOP, Washington; Harold E. Fellows, manager of New England operations for CBS, from WEEI Boston; Arthur Hull Hayes, general manager, WABC New York; A. E. Joscelyn, general man-A. D. Willard Jr., general manager, WBT Charlotte, N. C.; J. L. Van Volkenburg, assistant general manager, WBBM Chicago; J. Kelly Smith, general manager of Radio Sales, Chicago; Howard Meighan, manager of the eastern division of Radio Sales.

Monogram Campaign

DRENO

- KOH

MONOGRAM Pictures Corp., Hollywood, conducted a one-week campaign in connection with the New York opening, April 25, of "John Dillinger", and contemplates buying time nationally as soon as performance dates are set in other cities. Business is placed by Weiss & Geller, New York. WNEW WINS WHN WMCA carried the Monogram 30 and 60-second transscriptions.

Ross Knows Radio

(Continued from page 16)

Mr. Ross while traveling to San Francisco on the correspondents special train last week. Reporting his conversation, Mr. Heslep said Mr. Ross displayed considerable "know how" about radio.

Mr. Ross told the MBS executive how KSD St. Louis, the Post-Dispatch station, helped end a trolley strike there by putting microphones in the mayor's conference. Mr. Ross reflected a wide experience as a listener to radio, and showed an alert interest in programming and peak audience hours.

Mr. Heslep and other radio men told Mr. Ross of the difficulties they encountered in trying to cover the death of President Roosevelt. The question of radio representatives being assigned to Presidential trips was raised. The subject, often a talking piece in Washington, of placing Capitol radio men on a par with major press associations in news coverage, was brought up. On all these matters Mr. Ross was silent, except to state that his mind was open. He said he intended to talk with network representatives and station men soon after he assumed his new role.

Shows Pride in KSD

He expressed great pride in KSD, the station to which he has been closest, and demonstrated more than a casual interest in the station's problems of operation.

Mr. Ross, who is 59, was a 1932 Pulitzer prize winner. He went to school with Mr. Truman in Independence, Mo. He was president of the Gridiron Club in 1933 and chairman of the Overseas Writers in 1927. He taught journalism at the U. of Missouri for 10 years. He was chief Washington correspondent for the Post-Dispatch from 1918 to 1934; editor of the editorial page from 1934 to 1939 and has been contributing editor since that time. The newspaper's publisher, Joseph Pulitzer, has granted Mr. Ross a two-year leave of absence to serve in the White House.

BROADCASTING . Broadcast Advertising

Sponsors Prepare for Summer

(Continued from page 15)

Frank Morgan's Coffee Time NBC Thurs. 8-8:30 is May 31, with summer plans not set. G-F's noon-time Kate Smith Speaks, placed by Y&R for Jello, also switches to promotion of products handled by B&B June 2-Aug. 31, for Sure-Jell or Certo.

Advertisers with summer shows also reported set include Schenley Distillers Corp. (penicillin), resuming *The Doctor Fights*, CBS Tues., 9:30-10 p.m., June 5, 13 weeks, Biow Co., to replace Cresta Blanca Wine Co. (subdivision), *This Is My Best*, BBDO. Also Pabst Sales Co., Danny Kaye, CBS Fri., 10:30-11 p.m. replaced June 8, 17 weeks with Harry James orchestra, program having shifted April 27 from Sat. 8-8:30 p.m., Warwick & Legler.

Others are Reichhold Chemical Co., Detroit Symphony, MBS, Sat. 8:30-9:30 p.m., replaced April 14 to end of Sept. with Symphony of the Americas Sat., 8:30-9 p.m.; Grant Adv., Brown & Williamson Tobacco Corp., Raleigh Room, NBC Tues. 10:30-11 p.m., June 12, 13 weeks with Sigmund Romberg, Russel M. Seeds Co.; American Tobacco Co., Jack Benny, NBC Sun. 7-7:30 p.m., replaced June 3, 17 weeks with Wayne King's orchestra; Pepsodent Co., Bob Hope, NBC Tues. 10-10:30 p.m., replaced June 12, 13 weeks with Man Called X, Foote, Cone & Belding.

Standard Brands Inc. will replace Charlie McCarthy NBC Sun., 8-8:30 p.m., June 3, 13 weeks with Spike Jones—other talent, still to be set according to J. Walter Thompson Co. Philco Corp. again replaces Hall of Fame, Blue-ABC Sun. 6-7 p.m., May 6, 13 weeks with a musical, Philco Summer Show, this year featuring Georgia Gibbs, singer and m.c., with Paul Whiteman and the Merrimacks, with tentative plans to cut to a half-hour, Hut ch in s Adv., Philadelphia, Agency.

Sponsors set to replace their shows, but still undecided on the substitute include: United Drug Inc., *Rexall Radio Show*, CBS Fri. 10-10:30 p.m., July & August,

N. W. Ayer; Electric companies advertising program, *Electric Hour*, CBS Sun., 4:30-5 p.m., a musical show, N. W. Ayer; R. J. Reynolds Tobacco Co., Abbott & Costello, NBC Thurs., 10-10:30 p.m. (probably a short hiatus), Wm. Esty & Co.; Lever Bros., Bob Burns, NBC Thurs. 7:30-8 p.m., off June 28, back Oct. 4 and Amos 'n Andy, NBC Fri. 10-10:30 p.m., off June 29-Oct. 5, both R&R; Kraft Cheese Co., Great Gildersleeve, NBC Sun. 6:30-7 p.m., off July 1, Needham, Louis & Brorby. Outlook for Standard Brands Eddie Bracken show, NBC Sun. 8:30-9 p.m. is uncertain with comedian expected to report for induction late in May and a replacement sought,

Kenyon & Eckhardt. Colgate-Palmolive-Peet Co. will replace Kay Kyser on College of Musical Knowledge Wed. 10-11 p.m. July-August, Ted Bates Inc. Socony-Vacuum Oil Co.'s Information Please, NBC Mon. 9:30-10 p.m., goes off after June 18, and will be replaced, possibly by show starring Met. singer Rise Stevens, through Compton Adv. S. C. Johnson Inc. replaces Fibber McGee & Molly, NBC Tues. 9:30-10 p.m., last broadcast June 19 or 26, probably with Victor Borge in musical comedy. Agency, Needham, Louis & Brorby.

Still Undecided

Among those still mulling pros and cons of going off are E. I. Du-Pont De Nemours, Cavalcade, NBC, possibly off June 25, BBDO; Aluminum Co. of America, Miss Hattie, NBC, Fuller, Smith & Ross; Lewis-Howe Co., Here Comes Elmer, CBS, Roche, Williams & Cleary; Chrysler Corp., Shower of Stars, CBS, without Major Bowes beginning April 26, R&R; Time Inc., March of Time, Blue, possibly the usual hiatus, Y&R; Andrew Jergens Co., Walter Winchell, Blue, probably the usual commentator replacements, 4 weeks, Lennen & Mitchell.

Allis-Chalmers follows Boston Symphony, Blue-ABC with Boston Pop Concerts, May 5 thru July 14, and may continue with Esplanade concerts and then a brief hiatus before regular fall broadcast, Compton Adv. under terms of current 45-week contract. Ford Motor Co. also deciding this weekend on summer schedule for Village Chapel, and Early American Dance, Blue-ABC, with expectation that Stars of the Future will go off permanently at contract's conclusion in June. Agency, J. Walter Thompson Co.

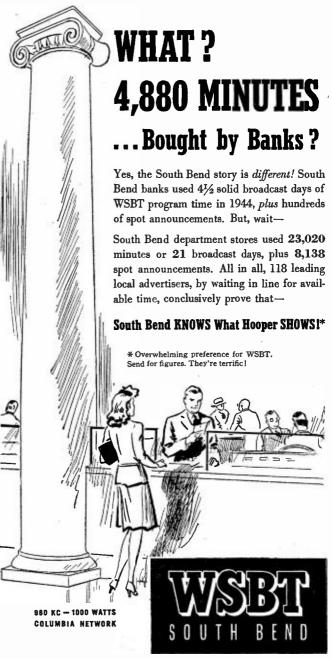

Campbell Soup Co., shifting Jack Carson show, CBS Wed. 8-8:30 p.m. from Foote, Cone & Belding, N. Y. to Ward Wheelock Co., undecided on summer plans. Also in the "undecided" group is Colgate-Palmolive-Peet Co., for Bill Stern, NBC, Ted Bates Inc.

Sponsors going off for the summer and planning no replacement include General Foods Corp. (five shows) Maxwell House Coffee Time, NBC Thurs. 8-8:30 p.m., off May 31, Benton & Bowles; Hop Harrigan, Blue-ABC Mon.-Fri. 4:45 p.m., July thru Sept., Y&R; Kate Smith Hour CBS Sun. 7-8 p.m., off June 10, 13 weeks, Aldrich Family, CBS Fri. 8-8:30, p.m., off two-four weeks, Young & Rubicam, and Toasties Time, CBS Sun. 6:30-7 p.m., off June 10, 13 weeks, Benton & Bowles. Also Lever Bros. Lux Radio Theater, CBS Mon. 9-10 p.m., J. Walter Thompson Co., and Burns & Allen, CBS Mon. 8:30-8:55 p.m., Y&R. Hiatus for latter time includes July 2-Aug. 20, with Joan Davis to come in fall. Theater is off after June 11, back Aug. 13. Lever also takes a hiatus

for Lipton Co.'s *Inner Sanctum*, CBS Tues. 9-9:30 p.m., off after June 26, back Aug. 28 (Y&R).

Others in this category include Petri Wine Co., Sherlock Holmes, MBS Mon. 8:30-9 p.m., off May 28, 13 weeks, Y & R; Procter & Gamble Co., Truth or Consequences, NBC Sat. 8:30-9 p.m., off July 7, 8 weeks, Compton Adv.; Sweets Co. of America, Dick Tracy, Blue-ABC, Mon. Wed. Fri. 5:15-5:30 p.m., off May 28, Ivey & Ellington. P&G also drops Gaslight Gayeties NBC Sat. 8-8:30 p.m. for eight weeks after July 7, Biow Co.

Also George W. Luft Co., Sammy Kaye's Varieties, Blue-ABC, Fri. 10-10:30 p.m., expected to go off May 18, fall plans indefinite.

FIVE EXECUTIVES ARE ADDED BY WOL

WOL Washington has added five widely-known persons to its executive staff including Arthur J. Casey, David H. Harris, Florence Warner, Jack Paige and Kathryn Cravens. George Grim was recently added as war correspondent servicing all Cowles stations [BROADCASTING, March 26].

Mr. Casey, whose KMOX forum St. Louis Speaks won the George Foster Peabody citation, is new executive assistant to Merle S. Jones, WOL general manager, and will direct public relations. Mr. Harris, former WTAG Worcester program production manager, will be program director. WTAG won the George Foster Peabody Award and the duPont Award among others in 1944.

Mr. Paige, who originated the WNAX Midwest Farmer Day, becomes director of special events. Miss Warner, formerly WHOM Jersey City special events director,

Mr. Harris

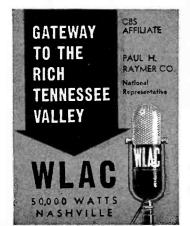

Mr. Page

will be educational director. Miss Cravens, recently women's commentator for WNEW New York, will go overseas for WOL to do special interviews from battle areas.

All of the Cowles stations, including WOL, will be served by Mr. Grim who is already in Europe.

Agronsky Decorated

MARTIN AGRONSKY, Blue-ABC commentator, has received the Asiatic-Pacific service ribbon from Gen. Douglas MacArthur for "sharing the hardships and dangers of combat with United States troops." Gen. MacArthur, in a letter to Mr. Agronsky, cited his "long and meritorious service . . . with the forces of this command," and stated that he had added "luster" to the profession of war correspondent.

MR. CASEY

COMPTON CHAIRMAN OF FOUR-A BOARD

RICHARD COMPTON, head of Compton Advertising, Inc., New York, has been named to a one-year term as chairman of the board of the American Association of Advertising Agencies, it was announced April 24 after tabulation of ballots cast by mail due to ODT restrictions on travel. Mr. Compton, who heads a list of new AAAA officers, succeeds Allen L. Billingsley, of Fuller & Smith & Ross, Inc., Cleveland.

New vice-chairman is Sigurd S. Larmon, Young & Rubicam, New York, and John L. Anderson, of McCann-Erickson, Inc., New York, was reelected secretary-treasurer for another year.

Directors-at-large elected for three years are: Melvin Brorby, Needham, Louis and Brorby, Inc., Chicago; Leo Burnett, Leo Burnett Co., Inc., Chicago, Henry M. Stevens, J. Walter Thompson Co., New York.

Directors elected to represent councils for one year are: Robert E. Lusk, Benton & Bowles, Inc., New York, New York Council; Donald D. Douglass, Harold Cabot & Co., Inc., Boston, New England Council; Norman W. Geare, Geare-Marston, Inc., Philadelphia, Atlan-tic Council; Fairfax M. Cone, Foote, Cone & Belding, Chicago, Central Council; and H. E. Cassidy, the McCarty Co., Los Angeles, Pacific Council.

All other directors-at-large continue in office until expiration of their terms.

Frederic R. Gamble was reelected president of the board of directors. List of AAAA officers and governors of sectional councils, reported in BROADCASTING, April 26 include in addition Lawrence L. Shenfield, Doherty, Clifford & Shenfield, New York Council; and A. W. Seiler, Cramer-Krasselt Co., Milwaukee, Central Council, governors.

RID Meet To Study Spectrum Policing

SPECTRUM policing, latest development in technical equipment and direction - finding

in the postwar period will be stressed during a four-day meeting of regional supervisors and district inspectors - incharge of the FCC Radio Intelligence Division. Called by George

Mr. Sterling

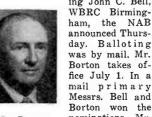

E. Sterling, assistant chief engineer in charge of the RFD, the meetings will open May 1 and conclude on May 4 with a direction-finding demonstration in which supervisors will do work normally detailed to inspectors. Twelve RID supervisors and 22 field inspectors will attend from all parts of the continental U. S., Alaska, Hawaii, Puerto Rico and the Virgin Islands.

Working with Mr. Sterling in preparation for the conference is George S. Turner, chief of the field division, under whose supervision the field inspectors work.

Mr. Sterling is scheduled to speak on the technical phases of RFD before the Baltimore Section, Institute of Radio Engineers, at 8 p.m. May 22 at the Engineers Club, Baltimore.

Borton NAB Director

FRED W. BORTON, president and general manager of WQAM Miami, has been unanimously elected di-rector of NAB District 5, succeeding John C. Bell,

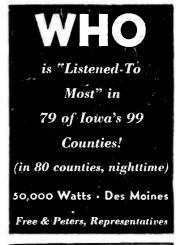

ham, the NAB announced Thursday. Balloting was by mail. Mr. Borton takes office July 1. In a mail primary Messrs. Bell and Borton won the nominations. Mr.

Mr. Borton Bell, however,

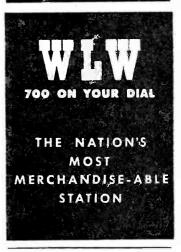

wired all member stations of District 5, comprising Alabama, Florida, Georgia and Puerto Rico, that his health would not permit him to serve another term. Consequently Mr. Borton's election was unanimous

'Boston Globe' Sponsors Luncheon Coast-to-Coast

FIRST coast-to-coast sponsorship of a public service program by the Boston Globe is the Boston Aviation Week luncheon on May 1 to be aired over WNAC Boston, and Yankee and Mutual network. Given by the Chamber of Commerce and broadcast from the Copley Plaza Hotel, the meeting will be heard 1:15-1:30 p.m. (EWT) and will be rebroadcast 10:30-10:45 p.m. that night on WNAC. Agency is John C. Dowd Inc., Boston.

Here's a real opportunity for versatile network caliber announcer, who can handle audience participating and news shows. High basic plus good talent on already available commercials. Propres-sive policy at this New York State. NBC station demands constant building of

FOREST SERVICE TRANSMITTER PLAN

ANTICIPATING use of national forest lands for FM and television relay stations, the Forest Service of the Dept. of Agriculture last week adopted policies and procedures for handling applications for special use permits to install transmitting and receiving facilities on Government land.

Instructions issued to regional foresters said: "A variety of circumstances suggests the need for early action with reference to national forest areas suitable as sites for radio transmitting and receiving stations. Extensive programs for the development of frequency modulation and television systems are merely awaiting the close of the war for their initiation. Discussion of the subject with members of the FCC suggests the desirability of announcement by the Forest Service of adequate policies and procedures. . . ."

Procedure to be adopted will include: (1) examination of site to determine whether establishment of radio facilities would conflict with public interests, (2) advising applicant (if finding is affirmative) that issuance of permit must await FCC authorization of proposed station, (3) transmittal of memorandum by forest supervisor of characteristics of site to Regional Forester, (4) transmittal to Chief of Forest Service and to FCC for use in considering application for station, (5) transmittal of FCC authorization (if granted) to applicant and sub-mittal to Forest Supervisor, (6) issuance of permit to use site with special stipulations.

BROADCAST Measurement Bureau will hold its first board meeting in new quarters in New York May 3. Meeting will discuss problems of the big city non-network station, the foreign language station and other suggestions affecting measuring technique made at recent NAB district meetings.

FCC GRANTS TWO NEW STATIONS

TWO NEW STATIONS, a regional at Key West, Fla., and a local at Talladega, Ala., were granted last week, FCC announced Friday.

Key West grant went to Capt. John M. Spottswood, AUS, Ret., formerly with Army QMC, for 500-w outlet on 1600 kc, unlimited. Voice of Talladega Inc. got 250-w, fulltime station on 1230 kc. Stockholders: Harry Held, businessman, president, 25 shares; Julius C. Vessels, chief engineer, WDOD Chattanooga, vice-president, 5 shares; D. Hardy Riddle, probate judge, secretary-treasurer, 25 shares.

Applicants specified they had materials. Grants were under FCC Supplemental Statement of Policy, Jan. 16, 1945.

PORTER CALLS FOR INTERNATIONAL MERGER

FCC Chairman Paul A. Porter went all-out for an international communications merger in speech before Baltimore Chapter, Morse Teleg. Club of Amer., Friday night. There should be no philosophical barriers preventing U. S. from having greatest communications system possible, he said, adding: "If such a result calls for a consolidation of all our international communications resources—and I believe it does we should not hesitate to adopt such a plan."

International broadcasting, potent in psycological warfare, "can be effectively used for the purposes of peace," said Mr. Porter, who favored "a single American international communications organization." It was the first time Chairman Porter has gone on record on international communications question.

PEABODY HEADS ADVERTISING FOUNDATION

STUART PEABODY, director of advertising, Borden Co., is new board chairman of Advertising Research Foundation; Otis Kenyon, chairman of Kenyon & Eckhardt, is vice-chairman; Paul West, president, Assn. of National Advertisers, reelected secretary, and Frederic R. Gamble, president of the American Assn. of Advertising Agencies, reelected treasurer.

Directors for three-year terms include: Richard Compton, Compton Adv.; H. K. McCann, McCann-Erickson; William G. Palmer, J. Walter Thompson Co., representing AAAA; Lee H. Bristol, Bristol-Myers Co.; Allyn B. McIntyre, Pepperell Mfg. Co.; Gordon Cole, Can Mfrs. Institute, representing ANA. Allan Brown, Bakelite Corp., was elected for year to fill unexpired term of Harold Thomas.

NO HOME SETS SEEN UNTIL 1946

SPEAKING before a joint meeting of the U. S. and Canadian Radio Manufacturers Assn. in Montreal, Louis J. Chatten, director, WPB Radio & Radar Division, predicted resumption of home receiver manufacture will not be possible before first quarter of 1946. WPB plans, he explained, call for some manufacture of radio equipment for essential commercial services and unrestricted production of civilian replacements after V-E Day.

The joint meeting was termed by Presidents R. C. Cosgrove and R. M. Brophy, of U. S. and Canadian RMA's respectively, as presaging era of closer cooperation between two nations.

TROOP JUNCTION GETS BIG PLAY

ALL NETWORKS gave wide coverage to junction of Russian and Anglo-American forces announced by White House Friday. CBS highlighted its programming with recording of announcement of junction to USSR by Joseph Stalin, purportedly first time his voice heard on American radio.

These network voices were heard in comments and descriptions—NBC: Don Goddard, John MacVane, David Anderson, Roy Porter, W. W. Chaplin; Blue-ABC: George Hicks, Gordon Fraser, Baukhage, Jack Parker, Larry Tighe, Herbert Clark; MBS: John V. McDermott, Anne Stringer, Boyd Lewis; CBS: Richard Hottelet, Tris Coffin, Bill Shadel, Larry Leseuer, Maj. George Fielding Eliot, William Shirer, Ed Murrow. OWI overseas service carried White House announcement and statements by Churchill and Stalin.

BMB EDUCATION URGED

EXTENSIVE education among small market stations explaining methods of BMB was suggeted to BMB Board in resolution passed Friday at meeting of Small Market Stations Committee, Washington. Hugh Feltis, BMB president, addressing committee said acceptance of plan by small market stations compares very well with medium and large stations. An average of 53% has subscribed. The average for all stations is 57%.

Committeemen attending were: Robert T. Mason, WMRN Marion, O., chairman; James R. Curtis, KFRO Longview, Tex.; Marshall H. Pengra, KRNR Roseburg, Ore.; David Rosenblum, WISR Butler, Pa.; Harry R. Spence, KXRO Aberdeen, Wash.; Dietrich Dirks, KTRI Sioux City, Ja.

RADIO REACTION

DR. HARRISON SUMMERS, Public Service Division manager of Blue-ABC, told Greater Cleveland Radio Council in address last week that radio does react editorially on issues which have been given general public acceptance. Dr. Summers predicted radio would report conflicts in current San Francisco Conference but would be guarded in approach to such material.

THREE major networks have chosen days during Seventh War Loan on which they will devise special War Bond promotion. NBC has chosen Decoration Day, May 30; Blue-ABC, D-Day Normandy, June 6, and CBS, Flag Day, June 14.

SILENCE TELLS MUCH

FIRST INDICATION that Russian Army had encircled Berlin came when the German voice of radio was silenced April 23. Looking back now, observers interpreted that and the concurrent disruption of telephone service as the first tip-off on USSR's victory march. Only three of the transmitters which have for years blared out Nazidom's boast now remain in operation: Hamburg, Munich and Quisling station at Oslo. Journalists recalled that just five years ago these same signs indicated that Germans had captured the foreign capitals of other nations, since liberated by United Nations.

People

EUGENE S. THOMAS, sales manager, WOR New York, has been nominated for directorship of New York Sales Executives Club. Election May 15.

TED O. THACKREY, editor-general manager, New York Post and director, WLIB Inc., New York, has been elected president of station corp. He succeeds Elias I. Godofsky, resigned.

DUPONT JOINS TBA

E. I. DUPONT DE NEMOURS & Co., photo products dept., was admitted as an affiliate member of Television Broadcasters Assn. and the new School for Social Research as an educational member, it was announced Friday following a TBA board meeting in New York.

WKY Covers the Biggest Part of Its Population, Buying Power and Sales

THE impartial, statewide survey of radio listening in Oklahoma conducted by Dr. F. L. Whan of the University of Wichita, established the fact that WKY is heard regularly morning, afternoon and night by more persons in Oklahoma than is any other station.

WKY delivers primary service, in the morning for instance, to 53.5% of Oklahoma's population. This segment of Oklahoma's population has 58.0% of the state's buying power; 65.2% of the state's farm income; spends 59.4% of all the money spent in retail stores in Oklahoma; does 56.4% of the states food buying and 59.5% of the drug buying.

In the afternoon, WKY delivers primary service to 52.8% of Oklahoma's population and at night to 56.1%. No other station delivers primary service to so many Oklahoma listeners, morning, afternoon or night.

But "coverage" is an incomplete standard of comparison. The same study which measured radio station coverage in Oklahoma, referred to above, also measured actual listening. WKY was not only the station which *covered* the biggest part of Oklahoma, but WKY was the station to which most of the people in this area listened most of the time.

WKY is Oklahoma's FIRST station because it covers and DELIVERS the biggest and best part of Oklahoma. It reaches more people who have more and who spend more. And it gives advertisers the most for their money.
