AREA A TELL METERENGE LIBRA

This was ONE parcel—ONE of 22,500 for

AUG 2 6 1946

Europe!

In response to the "Billboard" program's recent appeals for bundles of food and clothing for starving Europe, this letter and actual package of 22 dresses was received by WHO, along with 22,500 other parcels (weight 110 tons) and \$3,500 cash from thousands of individuals and 749 community groups in 39 states.

Was this WHO program a noon-time smash with movie stars and famous orchestras?

No! The "Billboard" is a public service news commentary program broadcast three nights per week 10:30 to 10:45.

THAT'S WHO PROGRAMMING AND CLEAR CHANNEL SERVICE IN ACTION!

WHO does more than pay lip service to public

welfare activities. WHO *lives* public service—and the public responds as all true believers in radio would expect.

An ideal situation, under the American system the *only* situation that insures highest values for the public, the station and the advertiser alike.

Des Moines . . . 50,000 Watts

WCOP GETS MORE LISTENERS

This arrangement assures even greater audiences for WCOP's new 5000-watt signal. It's another step in the vigorous promotion of WCOP as Boston's most progressive station. New power, new studios, new and aggressive merchandising techniques to help you reach all of Greater Boston...America's third richest market!

Rates and availabilities from any Katz office.

The Billboard

Dealer Tie-Ins Top in Station Ear Promotion

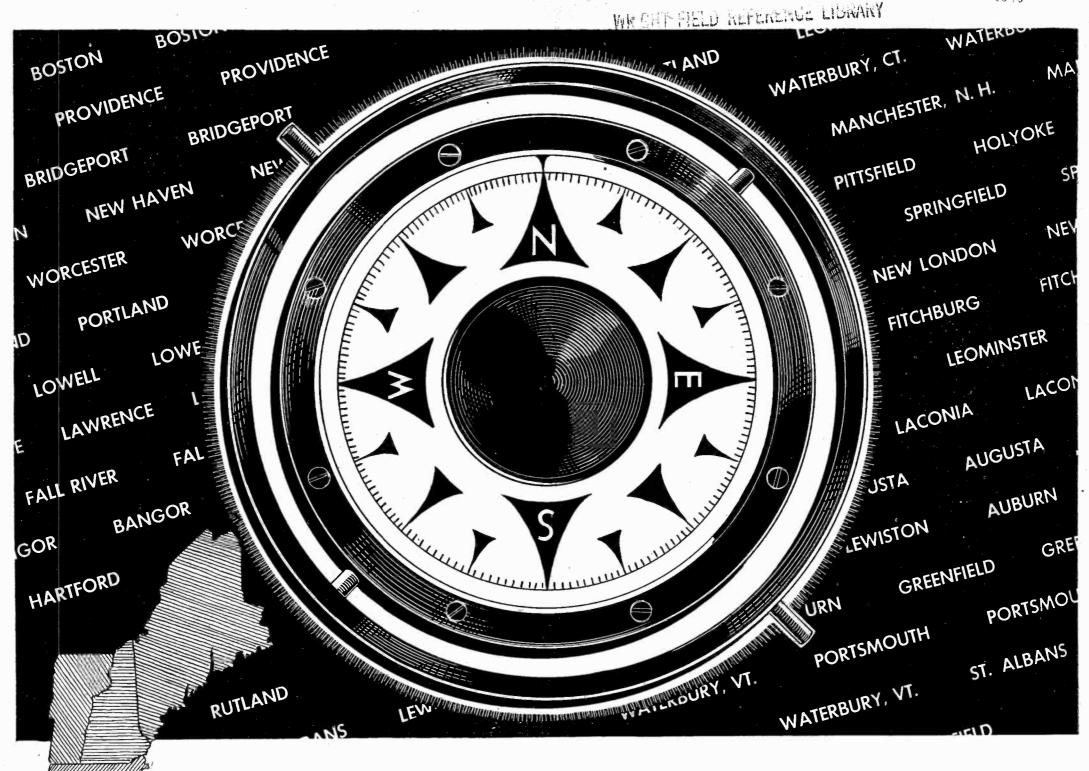

BOSTON, June 29. — WCOP, Cowles's Boston station and local outlet for the American Broadcasting Company, is seeing to it that the recent uppage in power won't be missed by any listener in the coverage area. Besides a sock newspaper, car card and mailing campaign, the station has worked out a reciprocal deal with the Radio Technicians' Guild (an org comprising all radio repair stores in metropolitan Boston) whereby all sets coming into their stores are automatically calibrated for the best reception to WCOP.

Besides this shrewd and practical way of plugging the call letters, the guild is servicing free of charge all radio sets in the WCOP coverage area which are having trouble getting WCOP reception. A call to the station complaining about reception rates a visit from a radio repair man pronto.

In the first four weeks of the agree-ment the guild served 20,000 sets and inserted more than 5,000 WCOP call letters on push-button sets. The agreement calls for two announce-ments per day Monday thru Saturday for the guild, with the arrangement continuing indefinitely. And with radio sets needing plenty of servicing after the war years, the set-up looks good to impress WCOP on a flock of radios.

YANKEE BOXES THE COMPASS FOR YOU IN NEW ENGLAND

Yankee, and Yankee only, points your selling to specific markets throughout New England.

You can't get off course.

Each Yankee station takes you into a center where population density demands the local impact of a hometown station for effective selling. Each of these Yankee stations has Yankee acceptance, plus the recommendation of usage as a sales medium by retail merchants whose coopera-

tion you seek. These merchants are ready to push nationally branded products, locally advertised.

Yankee hometown stations produce for you not only in the downtown areas but in far reaching suburban neighborhood trading zones. Collectively they tie these markets together into an overall sales pattern that makes sense.

When you buy The Yankee Network, you sell New England.

Acceptance is THE YANKEE NETWORK'S Joundation

BROAD CASTING... at deadline

Closed Circuit

UNDERSTOOD last week that Sullivan, Stauffer, Colwell & Bayles, New York (see Respects Sketch, page 50) will soon have another "package-goods" account with billing in neighborhood of 2½ million.

WITH supplies of pens increasing, Parker Pen Co., New York, may buy additional half-hour network show soon. Company currently sponsors newscasts Saturdays, Sundays, 8:55-9 p.m. on CBS. J. Walter Thompson Co., New York, agency.

WHETHER FCC will publish FM application list comparable to that for AM, showing order of processing according to file number [BROAD-CASTING, Aug. 19], reported uncertain. Commission, able to take FM cases in order better than in AM, turned out over 500 decisions in eight months. Pending FM cases total 300, of which 150 are in hearing.

BMI, radio's music publishing subsidiary, grappling with plan for bonus transcriptions of new tunes to subscribing stations along with sheet music distribution. Plethora of free recordings from mushrooming record companies as well as non-BMI publishers brought proposal before last BMI board meeting. Transcription companies aren't happy about free recordings and effect on library services.

IS RADIO version of motion picture "Legion of Decency" springing up? Marked step-up in complaints from theological sources about gags allegedly ridiculing Irish or Catholicism reported from agencies and accounts, with hint of boycotting of products unless remedied,

FCC DECISION on proposed new AM engineering standards this month now considered unlikely, with some Commissioners and many staff members vacationing. Decision, when it comes, still expected to follow lines developed in FCC-industry engineering conference and subsequent hearing before Commission [BROAD-CASTING, July 29, Aug. 12].

NO REPLY yet from J. C. Petrillo to NAB President Justin Miller's "put-up or shut-up" letter of May 20. NAB, which has been building up clean record in AFM relations, planning to shift tactics in move to bring musicians and broadcasters into policy negotiations. Meeting of Industrywide Music Committee may be called in September since network contracts in New York, Chicago and Los Angeles expire next February—"coincidence" attributed to foresightedness of music czar in past negotiations.

FCC's "waiver of hearing" policy, designed to help expedite handling of huge backlog of hearing cases [BROADCASTING, July 1], isn't paying off as well as Commission had hoped. Authorities last week reported only one known

SPONSORS BOAT REGATTA ● Perfect Circle Co., Hagerstown, Ind. (pistom rings), on Sept. 2 will sponsor Gold Cup Motor Boat Races on WXYZ Detroit and ABC Michigan Network. Agency, Henri, Hurst & McDonald, Chicago.

FCC Not to Advise on 'Pot O' Gold' Show

FCC WILL NOT UNDERTAKE to give "advisory opinion" on legality of *Pot O' Gold* or any other specific program with "give-away" characteristics, BROADCASTING learned Friday.

Commission was understood to take position that interpretation of Sec. 316 of Communications Act, which bans lottery broadcasts, should be based not on individual case but on general study of overall problems with opportunity provided for interested parties to present views in hearing.

Comparable view taken by Commission in Washington FM decision [BROADCASTING, Aug. 19], when it ruled that carrying of prize give-away program by WWDC Washington, (TelloTest) should not in itself prohibit grant because "this is a problem generally applicable to a number of stations which are carrying the same program as WWDC...."

At time FCC said it was "engaged in a study to determine the legality of programs of this type"

Pot O' Gold, which enjoyed high rating during 1939-41, sponsored by Lewis Howe Co., slated to return Oct. 3 (ABC) with Lewis Howe again sponsoring for Tums (see story page 19).

In old format, program regarded by FCC as "bad radio" and referred with other shows in 1940 to Justice Dept. for action under antilottery laws. Justice Dept. reported case unprosecutable. Since disclosure of plans for revival of *Pot O' Gold*, reports circulated that FCC would be asked for "advisory opinion" on legality.

Communications Act's Sec. 316, on which questions of show's permissibility are based, provides that "no person shall broadcast by means of any radio station for which a license is required by any law of the U. S., and no person operating any such station shall knowingly permit the broadcasting of, any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all of such prizes."

Conviction carries penalty of \$1,000 fine and/or maximum of year's imprisonment for each day offense occurs.

F.L.E.X-I-B-I-L-1-X Your Cue to Sales!

Today—more than ever, flexibility is a must in planning the many new product campaigns. These fast-moving times with the great need for all types of goods dictate to the advertiser the necessity of keeping abreast of his distribution.

Spot radio is the one medium with the all-important flexibility to meet these needs.

Successful campaigns are built with these stations.

No spot campaign is complete without them.

STUDIO AND STATION EQUIPMENT - TRANSMITTERS

50-kw Transmitter De Luxe for standard broadcasting

Designed to meet the performance specifications of the most critical AM broadcast station owners and engineers, General Electric's new de luxe 50-kilowatt AM transmitter sets new high standards for maximum on-the-air reliability and minimum supervision. Here is the transmitter that majors in clean, straightforward circuits, fewer tubes, fewer components. Here is a 50-kilowatt AM transmitter that meets all FCC standards and the latest proposed RMA standards.

Look at these unmatched features!

Outstanding Design

Air-cooled tubes throughout • Spare tube switching for r-f final amplifier, modulator, and rectifier • Variable high-pressure type capacitors • High-stability crystal oscillator—with dual crystals and instantaneous transfer switch • Continuously variable output coupling • Threestep, push-button control of plate voltage • Power output connects to transmission line through self-contained network that includes effective harmonic filter • Doubleended audio circuits throughout.

Easy-to-get-at

Full-length doors, front and back, provide advantages of "reach-in" and "walk-in" maintenance • Vertical chassis construction for maximum ventilation and accessibility • Components are mounted on frame-supported vertical panels and on side walls for ready accessibility.

Program Protection, Operating Safety

Complete high-speed overload protection without fuses • Automatic lightning flashover protection • Automatic reclosures following overloads and power failures • Electric interlocks and mechanical ground switches • Flameproof transformers, reactors and capacitors-Pyranolfilled • No need for fire-proof vaults • Low supply voltage, 460 volts.

Economical to operate

Tubes operated well under maximum ratings minimize outage time, give longer life • Power input at average program level, approximately 120 kw.

For complete information on the most important 50-kw transmitter in AM broadcast history, call your G-E broadcast sales engineer. nearest you:

Week after week, the year 'round, KFOR does an outstanding job in the public interest. Literally scores of people in the Lincoln area are heard in person over KFOR in interviews and discussions that are of direct interest to the people of Lincoln. Interest in these special features is even greater because, in many cases, listeners know the people they hear on KFOR. That's one way KFOR assures a large, loyal audience in Nebraska's second market. The listeners are there. KFOR can sell them your sales story at surprisingly low cost per listener. Write or wire for availabilities in programs or spots.

EDWARD PETRY CO., INC.

Feature of the Week

KTHT-FM Houston will be on a self-sustaining basis from the first minute on the air, says Judge Ray Hofheinz, president of the station. "We intend to prove that FM broadcasting can be a profitable venture," he continued.

Prior to sending out its first signal the station had contracted six hours a day (180 hours per month) at the rate of \$17.50 per

> hour. The advertisers are: Houston Transit Co., City National Bank, Black Bros. Furniture Co., Foley Dry Goods Co., Zenith Radio and Stromberg-Carlson.

Sponsored time is sold on a basis Mr. Hofheinz of not less than

an hour to a sponsor with institutional type announcements given not oftener than every 15 minutes. No spot announcements are carried. Three of the six advertisers have not previously used local Houston programs.

Last to get its FCC grant, KTHT-FM was first frequency modulation station in Texas to get on the air.

The station won a spirited race to get his broadcasts started Aug. 17, only 17 days after receiving a conditional grant and only two days after permission was given to operate commercially on reduced power and with a special antenna. The judge borrowed a 250 w transmitter and had it rushed by truck from New Orleans, while an antenna was flown from New York.

With this triple turnstile antenna placed atop a wooden pole, first FM program in Texas was broadcast. Present schedule calls for daily operation from 3 to 9 p. m. Judge Hofheinz said that within 10 days the station's broadcast day would be extended from noon to 10 p. m. with six hours sold commercially.

Programs will emphasize good music, and will in no case duplicate the AM shows of KTHT. "If FM is to be competitive to AM and is to offer additional and new service rather than mere optional facilities on a new band, programming must be separate," the judge explained.

Promotion tie-ups include placing FM sets in business offices of sponsors, in club rooms and in showrooms of radio dealers as fast as they are available.

KTHT-FM operates on 98.5 mc. It plans to install a 1000 w transmitter within three weeks and eventually will increase to the full 261,000 w of radiated power authorized in its Class B grant.

BOB

TEW young men get their professional wish right off the campus but Robert Hunter Thurmond did. And so today he's executive assistant to the manager as well as media director of J. Walter Thompson Co., Los Angeles.

A few years ago, he also wished to visit Alaska. Then came Pearl Harbor and he joined the Navy, assigned to air combat intelligence. After 18 months which had him ranging between Kodiak and Attu, h e 's indefinitely postponed any pleasure jaunts in the same direction.

Although new to Los Angeles, he has been with J. W. T. since 1934. Upon graduation from U. California

Berkeley in 1933, he decided to start on a law course until the right spot opened in advertising.

When it did he deserted the campus in a hurry to join the agency's San Francisco office in media. Approximately 18 months later he was placed in charge of media, a position he held until shortly after Pearl Harbor. Following his separation last fall as a lieutenant commander, he returned to J. W. T., as assistant, account executive of the Shell Oil account.

With growth of Los Angeles and the general marketing area as well, the agency deemed it wise to expand operations there. In line with

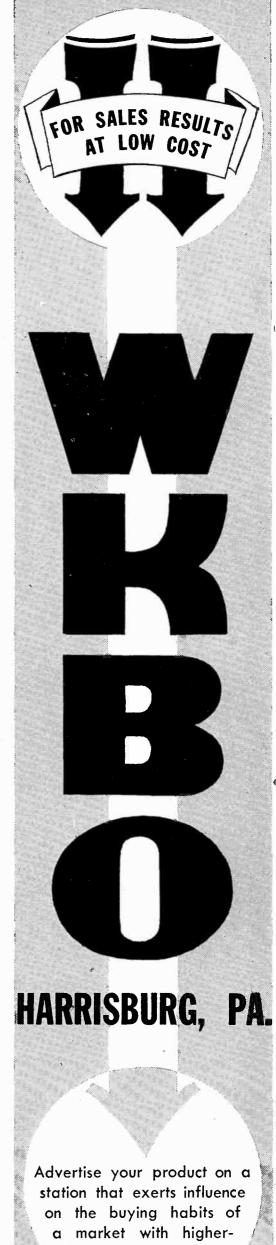

> this. Mr. Thurmond was transferred in June. This time he wished again for an apartment. Wish number three came through too, and now he's a lucky man all over again.

> In his present media responsibilities he finds such active accounts as Douglas Aircraft; Universal Pictures; Air Research Mfg. Co.; Boyle Midway; Calavo Growers of California: Desert Grapefruit Industry; Food Dealers

Adv. Assn. of Southern California; Earl P. Haliburton Inc. and Ford Dealers Adv. Assn. of Southern California.

A native Californian, Mr. Thurmond was born in Carpinteria Valley, Santa Barbara County, July 6,

Single, he devotes much of his spare time to tennis. He has been a member of the San Francisco Ad Club and is a Kappa Alpha.

GET IT FIRST, BUT-FIRST GET IT RIGHT"

Once more that traditional slogan of INS has paid off in dividends to our radio clients.

At 12:52 P.M. (E.D.T.) Thursday, August 22nd, an INS bulletin from Belgrade first revealed the release of the American occupants of a U. S. transport plane, who had been held prisoner by the Yugoslav government for thirteen days. It was nearly three hours later before any other news agency was able to confirm this historic beat of international importance.

Here are some of the congratulatory messages received:

From LELAND C. BICKFORD, Editor-in-Chief, Yankee Network News Service:

"Congratulations due again for your excellent scoop on story of release of American flyers by the Yugoslav Government."

From TED HAAS, News Supervisor, KOIL, Omaha:

"Congratulations on INS' scoop which hit our airwaves more than an hour ahead of all opposition."

From FRED HESS, News Editor, KFOR, Lincoln:

"Congratulations on INS' fine scoop. We were on top with it here." From JACK SHELLEY,
News Editor, WHO, Des Moines, Iowa:

"Congratulations on great INS beat on Yugoslav release interned American flyers. I played hard during noon broadcast today and had clean beat of more than one hour over everybody else in these parts. INS did a wonderful job on the biggest story in recent months."

From DAVE DRISCOLL,
Director of News and Special Events,
WOR, New York:

"That was a great beat you had on the release of the American flyers in Yugoslav. We made very good use of this very good story."

INTERNATIONAL NEWS SERVICE

Don't Make Molehills Out of Our Mountains

The way to reach people in Southern California's mountain surrounded valleys is with Broadcasting Corp. of America's chain of rural radio stations . . .

To a time buyer hundreds of miles away, Southern California's mountains may look like molehills on the map, but what molehills they really are! Towering 5,000 to 10,000 feet high; they form a natural barrier around Southern California's fertile Valleys. They're awe inspiring to tourists but a pain in the neck for "outside" radio stations. Watts bounce off these mountains like hail off a tin roof.

There's only one way to completely and economically cover the Valley of Paradise, Imperial Valley and Coachella Valley. That's with the Broadcasting Corporation of America's stations, located right in the heart of these Valleys and programmed specifically for rural listening. Here in clearly defined areas are the people, the sales potential and the medium for effectively presenting your merchandising message.

A LITTLE EXTRA EFFORT OFTEN GETS A BIG RESULT:

● "Radio—One-Quarter Century of Progress" is a tangible example of extra effort here at F&P. It doesn't contain sales-talk or data on the stations we represent. In fact, it doesn't attempt to "sell" any particular stations at all.

It does give you down-to-earth, double-checked figures on the costs of spot-broadcasting, as compared with newspapers, magazines, and network radio. It does contain facts which may completely change your ideas of media values.

As one very important executive writes us, "It is the most valuable analysis I have ever seen."

If you haven't received a copy, 'phone or write. You'll be glad you did.

Radio Billings Rise Atter Mid-Year Dip

Fall Developments May Bring New Record

RADIO sales, lagging a little during the spring and summer, are picking up as autumn approaches. By year-end total billings will at least equal, and likely surpass those of 1945, last lush year of the war period.

This conclusion was reached by BROADCASTING as a result of its annual summer survey of agencies, advertisers, representatives, networks and stations in metropolitan centers.

Many factors enter into the late 1946 radio scene. Most important

Other Business Index Stories on pages 16, 17, 18, 30, 32, 41, 42, 43, 50, 68, 89.

is the general improvement in manufacturing and distribution operations, bringing a steadier trend in the overall economic situation. Shortages in raw materials, labor unrest and pricing worries are less annoying to businessmen as the end of summer approaches.

Salesmen Sellers Again

Effects of the reckless media buying of business houses flushed with wartime profits began to wear off last winter, bringing a barrage of fretting during the spring months. The approaching fall and winter will more nearly resemble pre-war seasons in that salesmen once again are sellers instead of purveyors of the dotted line.

For the first time in a decadeand-a-half of radio business analysis, BROADCASTING has noted a flattening of the annual sales curve. Even as this trend was being studied, signs appeared that autumn billings would rise sharply and bring the 1946 gross above that of 1945.

Good for Networks

With networks the year has been a good one, but not the booming sort to which they had become accustomed. NBC is at least as good as last year. CBS half-year net income is running \$1,000,000 ahead of 1945 in the face of higher operating costs. ABC is up about 5% from 1945 for the first six months. MBS is pulling up toward the other nationwide hookups with an increase of 47% above 1945.

Choice network time is still a

scarce commodity, an element that keeps grosses from rising too sharply and also keeps alive talk of a fifth national hookup.

Estimates of spot business for the last four months of the year are generally hopeful, with increases of 5% to 15% prevailing. Representatives forecast a good autumn, probably a record one as they note that some advertisers are buying time earlier than usual.

Around the agencies, autumn forecasts range even higher as some timebuyers and radio direc-

ACCUSTOMED to a sales curve that moves steadily upward, with allowance for summer recession, broadcasters looked with concern at the sagging in billings that occurred in the first postwar spring and early summer. In a quick nationwide roundup of all industry segments, BROADCASTING finds ample reason to predict a brisk autumn that may offset losses earlier in the year and wind up with the usual alltime record in billings. In a nutshell, here is what was learned:

NEW YORK—Post-war uneasiness disappearing; spring losses being overcome; cautious optimism prevails

CHICAGO—Vexed by national and international problems that hit manufacturers and buyers alike, agency and radio folk show luke-warm enthusiasm for next few months.

WEST COAST—Highly optimistic; availabilities scarce; spot soaring; long-term contracts being signed.

CANADA—Business is good, with increase over 1945 expected; strikes and material shortages cause concern; many large-city stations sold to capacity.

tors look for gains of 20% or more above last year.

Thus a note of optimism prevails, tempered by the dollar-mark talk around individual stations where the remark heard most often is that business is about the same as last year. Long-range predictions, of course, are definitely on the brighter side.

West Is Optimistic

Exception, of course, is the West Coast where not a pessimist was found. Definite improvement has occurred in the last three months in view of the fact that the feared business slump failed to develop. National and regional network time is hard to find, with many advertisers turning to transcriptions.

Long-term contracts are the thing on the Coast and sponsors are holding on to desirable time. Only decline noted is in the religious advertising field. This is due to the fact that many stations will not sell religious time. Even so, West Coast religious groups are billing over \$2,500,000 this year.

Commercials are now designed to sell goods, replacing in many cases the wartime institutional

(Continued on page 16)

Television

Autumn Expansion Is Seen for Video

Constant Increase Noted In Advertising Contracts

By BRUCE ROBERTSON THE OUTLOOK for television in New York this fall is bright. The three video stations are planning expanded programming; the volume of advertising is constantly increasing; set manufacturers expect to start delivering video receivers to dealers in September. with an increasing flow of sets reaching the market during the fall. More sets mean more audiences; more audiences should attract more sponsors; more sponsors should mean better programs. which should continue the spiral by encouraging more people to buy television receivers.

Programwise, the immediate emphasis will be on sports, for several reasons. First, sporting events are today television's most profes-

sional entertainment. Second, with RCA rapidly catching up on its orders for image orthicon tubes, television can now bring these out-of-studio programs into the home with a clarity and detail that makes home viewing in many cases as good as or better than that in the hall or park where the event is staged. Also, a ball game or fight card provides several hours of video program fare far more easily for the broadcaster than the same amount of time devoted to studio programs.

Liked by Sponsors

Sports have always been ranked among the most popular programs with the television audience and, possibly because of that, with sponsors. Gillette Safety Razor Co., whose sponsorship of the boxing bouts on WNBT (NBC) each Friday evening has keynoted commercial sports telecasting, is being joined this fall by Ford Motor Co.,

which will sponsor the home games of the Columbia U. football team and a varied schedule of hockey, basketball, track, etc., from Madison Square Garden on WCBW (CBS).

If the Brooklyn Dodgers retain their lead in the National League and capture the pennant there is little doubt that the Brooklyn games of the World's Series will be televised—a video "first" that would doubtless rival the telecast of the Louis-Conn fight in interest.

Seven Army football games will be telecast on WNBT, sponsored by Goodyear Tire & Rubber Co., including two from New York and five relayed from West Point. United States Rubber Co. is also bringing its Friday Night Quarterback series, with Columbia Coach Lou Little, back to WNBT this fall.

WNBT is currently on the air (Continued on page 81)

August 26, 1946 • Page 15

Index Finger Points

THE ART OF broadcasting has reached a turning in the road.

This has been apparent to the perceptive eye of a few, but many have missed the guideposts.

This is the beginning of the second year after the war. The first year perhaps ended an era. It was a year attended by mad scrambles for facilities and equipment; by pedantic attacks against American radio, both in official and less-than-official circles. It was a year in which broadcasters, trying to meet impossible commitments under impossible pressures, had little time to think of the future—and what time they did have was given to fretful misgivings about postwar recessions.

And now the turning. In this issue, we present for the 15th consecutive year, the Fall Business Index. To those who have read

previous editions, there will be visible the subtle signs of transition.

Business is good. That slight dip in revenues in the first two quarters has found compensation in rising sales curves now. It would seem then like the other 14 years, would it not?

But you must weigh the evidence carefully. This year, one hears no wild predictions of soaring business to come. There is a different approach. Broadcasters are thinking in terms of more than business.

Some might say—principally the authors—that the Blue Book has brought about this gradual metamorphosis. We don't think so. Nor do we think it arises from listener-pressure. It finds roots in the soil which has nutured America's growth. In springs from competition.

FM. Television. A 20% growth in AM out-

lets. No broadcaster tomorrow will be free from such competition. Such a tremendous growth in a mass medium must lead to one of two results: (1) a diluted audience for stations on the air or (2) a larger audience to accommodate the greater number of facilities.

An Editorial

We foresee accent on the latter development. For the pioneers in radio, and those who are entering the field now, recognize that a Hooper sets-in-use average of 18 or 19% for 1000 transmitters to service is not sufficient, economically, for the two and three thousand stations to come. There must be more listeners for radio; and you get more listeners by wiser programming.

Sets are rolling off the assembly lines. The circulation will be there. Competition will do the rest. But at the end of the fiscal trail, henceforth, we'll be counting listeners before we count dollars.

Radio Billings

(Continued from page 15)
messages that preserved brand
names or promoted the nation's
welfare.

In Chicago few industry spokesmen were willing to venture hopeful predictions for next year, though many concede that business in 1946 has been good. Fear of pressure from printed media is noted among radio folk, along with worries associated with labor problems and material shortages.

With wartime profits a matter of history and with advertisers taking a new interest in the tax dollar, the cozy days of radio salesmen are over and they must now get down to work, many midwesterners believe. Even so, a study of typical comments reveals a reserve based on sober realization of postwar problems, a reserve that would quickly disappear if the autumn increase comes up to their cautious predictions.

Bright Television Prospects

A factor of growing but not major importance is the peacetime development of commercial television. Fall prospects for this medium are definitely bright, judging by comment in New York circles. Advertising volume is rising and expanded programming is under way.

Set manufacturers are planning to deliver some models to dealers in September and later in the autumn will step up their production. More than one manufacturer is tooling up for quantity production of reasonably priced models but this is still at least a month or two away.

Program emphasis of television stations this autumn will be on sports, which provide good entertainment with the modern pickup equipment now used. Should the Brooklyn Dodgers win the National League pennant, the World Series will be broadcast.

In Canada overall broadcasting

business is good. Some stations and groups report increases, the majority see about the same level as last year and a few pessimists anticipate a drop of as much as 10%. In the larger cities many stations are booked to capacity despite economic unsettlement caused by strikes and material shortages.

Food Sponsors Returning

Food sponsors are returning in force to major markets. Government programs, sponsored in quantity during the war, are about through but many accounts off the air for several years are back. Canadian Broadcasting Corp. is heavily booked, having little time available on its national networks. Nights are sold out this season.

Some increase in transcription programming is found in the Dominion and some of these productions are being sent across the border. General increase in Canadian business, reflected in advertising, is attracting American agencies,

with a number of branches opened this year.

Roundups by BROADCASTING staff members in key broadcasting centers will be found on adjoining pages.

Tintex Campaign

PARK & TILFORD, New York (Tintex), has started its semi-annual advertising campaign using one minute spots and chain breaks on about 200 stations effective Sept. 9. Contracts run from 10 to 13 weeks. Agency is Charles M. Storm Co., New York.

Ford Video

FORD MOTOR Co., Dearborn, Mich., Sept. 28 for football season will sponsor telecasts of the Columbia U. football games from Bakers Field, New York, on WCBW New York, CBS television station. Agency for Ford is J. Walter Thompson Co., New York.

Bulova Options

KEEPING pace with current FM interest, Bulova Watch Co., New York, has first option on time signals on several FM stations throughout the country. At present company is using only one FM station, WENA Detroit, with two time signals, seven nights a week, through The Biow Co., New York. As for AM, Bulova will increase its current time signal campaign for the Christmas season by buying an additional number of time signals on various stations. Schedule will begin latter part of September and run until Christmas.

Miles Renews

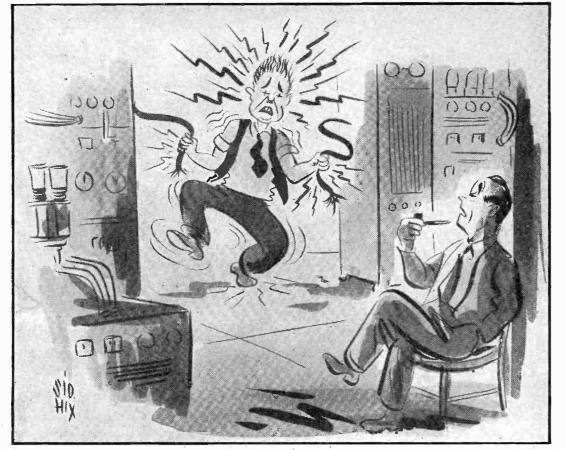

MILES LABS., Elkhart, Ind., which last week switched Quiz Kids from ABC to NBC and dropped National Barn Dance on NBC in favor of The Roy Rogers Show, has renewed the 52 week sponsorship of Lum 'n' Abner, 7-7:15 p.m. (CDT) over ABC, effective Sept. 30.

Paradise Places

BISCEGLIA BROS. WINE Corp., Chicago (Paradise Wine), resumes broadcast advertising Sept. 9 or 16 with chain break and minute transcribed jingles in New York, Chicago, Boston and Buffalo. Stations not yet selected, according to Olian Adv., Chicago, agency handling account.

Signs ABC Spot

BROWN & WILLIAMSON To-bacco Co., through Russel M. Seeds Co., Chicago, begins sponsorship of Fact or Fiction starring Johnnie Neblett, over ABC, effective Oct. 6. Program will be heard Sun. 1:55-2 p.m. (CDT) and marks first five-minute series to be used by sponsor.

"Murgatroyd, sometimes I think you take your job too seriously."

Postwar Radio Uneasiness Disappearing

Cautious Optimism Is Noted Along Radio Row

By EDWIN H. JAMES

LAST SPRING, six months after the Japanese surrender, sales executives inhabiting New York's Radio Row, the business center of U. S. broadcasting, belatedly awoke to the fact that the war was over. They were jittery to note as the easy-come, easy-go economy of war wore off that sponsors whose abnormal incomes had encouraged willynilly purchasing of radio time were now paring their expenditures.

Estimates of the loss of network revenue in the early spring ran to an hysterical high of \$10,000,000. A soberer and probably more accurate assessment of the value of cancelled network time was \$7,340,-453 [Broadcasting, May 20].

Lever Pares

Nor were salesmen's jitters soothed by reports, current at the time, that Charles Luckman, wonder-boy of U. S. soap selling, bellwether of radio advertisers, had decided, upon succeeding to the presidency of the giant Lever Bros., to cut the soap combine's radio appropriation to the bone.

It was true that Mr. Luckman was retrenching in Lever's radio budget, but the money saved thereby was not diverted to other media. The essence of Mr. Luckman's plan seemed to be a reduction in his total advertising appropriation.

Among some radio sales executives the shock of sudden cancellations by wartime sponsors temporarily overcame good sense. As cancellations mounted on their desks, they fearfully visualized distress spreading through the industry. Fortunately, by far the majority of radio's businessmen diagnosed the problem, set about a cure.

Radio's troubles, they knew, were the troubles of most American industries. The economic dislocation that beset the makers of automobiles or sewing needles beset radiomen as well. After five years of producing for a non-competitive and unlimited market, U. S. business was returning to U. S. peacetime business ways. What was needed now was the hard slugging of U.S. salesmanship.

By last week the fat of five years of comparative inactivity had disappeared from radio salesmen's waistlines. Trimmed down to fighting weight, salesmen were working hard, and the results showed it. Much of the loss of the early spring had been overcome. By year's end radio's robust financial health would probably be recovered.

Among New York's executives of

networks, station representative firms and advertising agencies there was a cautious optimism. Said one network vice president: "Business will be good, but I don't think it will break any records."

It was clear that the third quarter of 1946 would reflect a sizable, but not mortally serious, loss of network business. The Aug. 15 network program ratings of C. E. Hooper Inc. revealed that the

total sponsored hour index was 53.5. It had been 66 in a similar period last year.

New business and renewals signed by networks during summer months would be reflected in the latter part of the third quarter and throughout the fourth. It seemed likely that the reflections would be pleasing to any radioman's eyes. (See list of new business and renewals signed by networks.)

The income and billings of the networks seemed to show that 1946 would be a year of anything but famine in the radio business.

Mutual reported a 47.2% increase in gross billings for the first half of the year as compared with billings in the similar period of last year. In the first six months of 1946 Mutual's gross billings were \$13,556,944.16; in the similar period of 1945, they were \$9,209,-353.10.

ABC Business Up

ABC's business also was up, not by the spectacular jump of Mutual's billings but at least enough to indicate that ABC was still healthy. For the first seven months of 1946 ABC's business was \$20,-037,636, or 5.13% above that of the similar period last year.

CBS, meanwhile, reported a nearly \$1,000,000 increase in its net income for the first half of 1946, as compared with the first half of 1945. Figures were \$3,200,-716 for the first half of 1946, \$2,-224,170 for the first half of 1945.

Although NBC had not released figures on billings or income, an executive of that network said that business was at least as good as it was last year. He predicted that for the rest of 1946, NBC's revenue would remain at 1945 levels. NBC's problem, he said, was to find

Chicago

Midwest Lukewarm on Fall Prospects

Stiff Competition Among Media Is Foreseen In Section

By FRED W. SAMPLE

IF RESPONSES of the majority of agency and network executives in Chicago to inquiries as to dollar volume of time buying for the first six months just ended is any criterion, the radio industry faces a period of stiff competition.

Favorite sport among these business leaders at the moment is the waiting game and while many concede that 1946 to date has continued to support the flood of wartime dollars invested in radio in 1945, the statements begin to sound somewhat vague when the subject of 1947 is brought up.

Not Too Optimistic

Reasons for the worried brows of many Chicago radio people are numerous. Most important is the pressure from competing media, including newspapers and magazines suddenly supplied with paperstock worth its weight in gold during the war years. But close behind follow domestic problems associated with reconversion, including labor difficulties and material shortages, and pending contract negotiations with AFRA and the AFM.

In short, few radio executives look to 1947 as a good year to buy yachts and convertible coupes.

In a survey conducted among stations, network sales and advertising agencies, attempts to pry estimates of network and spot revenues for the past six months drew comments ranging from "Sorry, but we can't reveal those figures," to "Don't be

Central Division volume of NBC for the first seven months of 1946 is "about on a par" with the same period last year, but by the end of 1946 the volume may be up as much as 10% to 15%.

Frank Schreiber, WGN general manager, said the station's spot and local business is "satisfactory" and the station may pass its record 1945 total.

At CBS Western Division offices in Chicago and its O&O station, WBBM, Don Roberts, head of network sales, and J. V. McLoughlin, assistant to Frank Faulkner, assistant to H. Leslie Atlass, vice president and general manager, said

prospects for an increase in business looked good, despite the loss of three of its best accounts, Bachelor's Children (Continental Baking Co.), effective Aug. 23, and General Mills' Valiant Lady and Light of the World, effective Sept.

MBS Cheerful

Ade Hult, general manager of the MBS Central Division in Chicago, said business was "excellent" and looked for 1946 to surpass the 1945 total. Mr. Hult pointed to The Websters (Quaker Oats) and Vic & Sade (Fitch) as examples of business that had come into the Mutual fold. He recalled that the MBS half-year gross was up over

ABC's Central Division was noncommittal when the question of revenue was broached but optimistic about fall bookings. Armour Packing Co. is expected to buy a half-hour on ABC, probably The Al Pearce Show which was stymied at the contract signing stage by OPA uncertainty.

Gil Berry, network sales manager for the ABC Central Division said the Chicago office had con-

(Continued on page 45)

Pacific Circles Expect Heavy Placements

Time Availabilities On Nets, Stations Still Scarce

By DAVE GLICKMAN

BACKED UP by cold facts and figures [Broadcasting, July 29, Aug. 5, Aug. 12], the ever optimistic West Coast continues to maintain that attitude. Business is excellent and broadcasters, station representatives and agency executives expect a continuation of this prosperity throughout the fall and winter. Return of the competitive market brought about by relaxation of OPA regulations is generally regarded on the West Coast as a harbinger of continued heavy radio billings.

With time availabilities still at a premium, prospects for fall and winter as well as early spring of 1947 look good to station owners and managers. Agency executives and advertisers who want choice time face difficulty. The West Coast continues a seller's market.

Spot Running High

Judging from reports gleaned during this survey, spot business more than held its own during the past summer on the West Coast. Stations that feared a slump were delightfully surprised, with spot placement running well ahead of anticipation. As a whole, national advertisers continue to recognize the West Coast as a bonanza territory. They are doubling their efforts with concentrated spot campaigns, hitting the western market with heavy schedules, buying time in major as well as secondary areas.

Many West Coast advertisers will use their first radio in a local test before expanding outside this area. There are others with regional network time who are mulling plans that will take them east of the Rockies. Others will invade the Southwest. Spot announcements and participation programs will be used in specific markets.

Agency men report they are stymied in making plans for clients. Difficulty at the moment, it was pointed out, is finding available and desirable time on stations.

There are still problems of manufacture, packaging and distribution that have slowed up West Coast advertisers. But this, it was explained, will not stop followthrough by advertisers on proposed campaigns as soon as these problems are dissipated. Meanwhile, some of these advertisers are planning to roll with limited budgets to keep their brand names in the competitive market. Pre-war some of these accounts were strictly spot users. Now they want to go regional network, but are short pursed. This likewise causes them

to hold back despite their recognition of the need.

Despite reduced advertising schedules by some firms which continue to face shortages of basic commodities, expanded growth of the West has old advertisers jockeying for bigger shares of the potential buying power. In addition, new firms, recognizing need for establishment of their trade name as well as being conscious of the increasing competition, are planning to use radio as heavily

ERA OF COSTLY SHOWS WANING

Coast Observers See \$3,000-\$8,000 Packages

———Bringing Best Sales Results————

NETWORK and agency executives on the West Coast generally agree that the era of high-priced package shows is on the wane. They believe that the package show of tomorrow, if it is to be sold at all, will of necessity be in the \$3,000 to \$8,000 bracket, since sponsors have found that the best sales results and listeners-per-dollar ratings have been achieved in that category.

The trend, they declare, is toward packages which may be presented to the client as super-economical yet embodying tried formats for audience pull. It is apparent that there won't be an abundance of such material and, with sponsors rapidly making up their minds for fall season, desperation is so strong in certain quarters that they may finally break down and begin to look at "something new" even if source is not a "name."

Cycle of giveaway shows seems to be on the decline. Sure-fire ideas along those lines are meeting cold shoulder at many of the major agencies.

Top comedy shows carry a prohibitive budget and have never been duplicated without use of high-priced stars, so new formats along that line are unlikely. Best bet seems to be mystery and psychological dramas, with proven audience appeal and inexpensive packaging where there is no guest star requirement.

as their budgets will permit.
Added sales stability this year is seen in heavy purchase of political time. Since this is an election year, political time will remain prevalent through October. At that time pre-Christmas advertising is expected to take up any possible

Although not a vital factor in regional network sales, pre-Christmas activity is nevertheless a dominant factor for independent stations in their respective markets. Broadcasters report that commitments on hand from department stores, specialty stores, jewelers and other luxury distributors, indicate heavy use of radio time to attract Christmas shoppers.

Fall and winter radio prospects look much brighter now than they did three months ago, with agencies in San Francisco and Los Angeles weighing budget increases instead of decreases. One Hollywood agency executive even went so far as to say that certain advertisers that had cancelled plans two months ago are now striving to regain available time. Since some markets are currently impossible to penetrate because of non-availability, several advertisers are using select smaller adja-(Continued on page 41)

Canada

Dominion Encouraged by Prospects

Several Sponsors Are Returning After War Absence

By JAMES MONTAGNES

BROADCASTING stations in Canada will continue to stay in the black this fall and winter, judging by the amount of advertising booked and under discussion. A survey of advertising agencies, sponsors and station representatives in Toronto leads to a diversity of opinion as to whether the forthcoming season will be better than the same season a year ago.

All said that business is good. The most pessimistic said business overall might be down 10%. The majority said it would be about the same. Some agencies reported more radio advertising booked, including more accounts.

Capacity Bookings

There is a definite realization that the stations in the larger cities are booked to capacity, are having difficulty clearing time. Stations in some of the smaller markets are losing some business, both on networks and spot business.

Some advertisers are retrenching their radio appropriations due to strikes and shortages of materials, as well as turning to other media. Other advertisers—and this applies especially to food products—who have been out of radio for some of the war years are coming back after test campaigns but sticking to major markets. At least two important network accounts switched some of their programs from network to spot.

Most Canadian network advertisers have continued their programs for the fall and winter season, and some new ones are in the offing. CBC commercial division officials point out that "at present the outlook for network commercial revenues is approximately on a par, or slightly higher, than last year. All time available for commercial programs after 8 p.m. on the Trans-Canada network is entirely taken up. On the Dominion network there still remains a small amount of commercial time during the evening periods but the time availability picture on the Dominion is likely to be almost as tight as on the Trans-Canada before the new broadcasting season opens.

"In the daytime the available commercial periods on the Trans-Canada network are practically all sold. Good daytime periods are available on the Dominion network.

Bookings on the French network have left very little time available in either day or evening periods."

Listings of Trans-Canada and Dominion network time sold shows little change from a year ago, with about the same number of American and Canadian programs. Some of the big name American programs dropped last year, in a change of sponsors—Jack Benny, for example—are not expected back on Canadian stations, and a number of other American network programs have not yet been confirmed for the coming season.

Heavy Industries

To offset any such programs which may not return to Canada, it is understood from agencies that a number of new network programs are still under discussion. Strikes, shortages of materials, and building up an inventory, will play an important part in bringing such programs on the air. For instance, one agency points out that possible network shows are being planned by heavy industries as automobiles, rubber, and electrical appliances. A national insurance company has definite plans for a network program.

During the war years, and as late as last winter, Canadian sta-(Continued on page 68)

Storer Acquires WJBK for \$550,000

Will Sell Existing Ft. Industry Station If FCC Orders; Price New Record

RETURN of George B. Storer to Detroit radio in which he pioneered nearly two decades ago was foreshadowed last week with completion of negotiations for acquisition of WJBK Detroit by Fort Industry Co. from John F. Hopkins Inc., for a record local station figure of \$550,000. The transaction would be subject to FCC approval and necessary transfer papers were to be drafted promptly.

Mr. Storer, a native of Detroit and one of the country's best known broadcasters, has been identified over the years with Detroit ownership, including WGHP (now WXYZ) which he sold to King-Trendle in 1930; CKOK (which became CKLW) which has served as the Windsor-Detroit outlet of CBS and MBS; and until 1938, owned a 16 2/3% interest in WJBK.

The purchase was negotiated by Mr. Storer with James F. (Freddie) Hopkins, president and general manager (45% owner) and Richard A. Connell, automobile distributor and real estate owner (55%) owner, through the law offices of Horace L. Lohnes, Washington. The \$550,000 figure is exclusive of quick assets at closing.

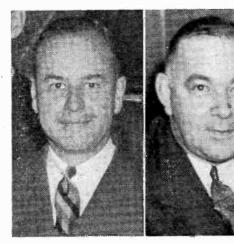

Previous Record

The previous record figure for a 250-watter was established in 1944 when WINX was purchased by the Washington Post from Lawrence J. Heller for \$500,000. At about the same time, however, negotiations were in progress for sale of WJBK to the UAW-CIO Detroit headquarters for \$750,000. This fell through, however, when the union found it would be inexpedient for it to own such an outlet. WJBK operates on 1490 kc. with 250 w. It has enjoyed phenomenal success for a local in a multiple-station market.

Along with WJBK goes a conditional grant for an FM station for Class B service. The WINX purchase did not include an FM grant, and Eugene Meyer, owner of the *Post* subsequently purchased the Jansky & Bailey developmental FM station, W3XO for \$75,000.

Mr. Storer, who several months ago was released from active Navy duty as a commander after wartime service which won him high commendation, has reestablished Fort Industry Co. headquarters in Detroit and has repurchased his former home there. He will actively direct policy of Fort Industry, including the present seven subsidiary stations and the Standard Tube Co., and proposes actively to direct WJBK.

J. Harold Ryan, vice president of Fort Industry and former NAB president, will continue to head-

Mr. Storer

Mr. Hopkins

quarter in Toledo at WSPD, but will direct the company's fiscal operations. Lee B. Wailes, Fort Industry general manager, will remove shortly from Washington to Detroit headquarters. John B. Koepf, assistant to Mr. Wailes, will assume charge of Washington operations, reporting to the new Detroit headquarters.

Mr. Storer asserted that Fort Industry would stipulate in its application for transfer of WJBK that if the FCC feels Fort Industry should not expand the number of stations it operates beyond the

present seven, it would agree to dispose of one of the existing stations within a reasonable time. The Fort Industry stations, in addition to WSPD are WWVA Wheeling, WGBS Miami, WAGA Atlanta, WMMN Fairmont, WLOK Lima and WHIZ Zanesville.

Not Number But Location

On the other hand, it was recalled that the FCC in its recent decision proposing denial of the transfer of KQW San Francisco from the Brunton Brothers to CBS for \$950,000 held that it was not the number of stations, but their location and importance in key markets that should govern multiple ownership policy. It is conceivable that as few as three stations in key markets and with prime facilities could constitute an objectionable concentration ownership, the FCC majority said, whereas a multiplicity of stations with lesser assignments widely separated and in markets having ample facilities might not prove objectionable.

Mr. Hopkins, it is understood, desires to dispose of WJBK to enable him to devote full time to the proposed new station in Ann Arbor tentatively authorized by the FCC last Aug. 9 for James F. Hopkins Inc. for 1600 kc with 1,000 w unlimited. This grant, however, awaits final FCC action.

'Pot O' Gold' Back

LEWIS-Howe Co. New York (Tums) Oct. 3 starts sponsorship of *Pot O' Gold*, featuring Harry Salter's orchestra with vocalists Jimmy Carroll and Vera Holley as well as Peter Donald as m. c., Thurs. 9:30-10 p. m. on ABC. Agency is Roche, Williams & Cleary, New York.

Campbell Replaces

CAMPBELL SOUP CO., Camden, N. J., Sept. 29 replaces *Corliss Archer* on CBS, Sun. 9-9:30 p. m. with *Hildegarde*. Agency is Ward Wheelock Co., New York.

Emerson Expands

EMERSON Radio and Phonograph Corp., New York, last week announced the acquisition of all of the authorized and issued capital stock of Plastimold Corp., Attleboro, Mass., manufacturer of radio plastic cabinets and variety of molded plastic products.

The Plastimold Corp. will serve as a wholly-owned subsidiary of Emerson, according to Benjamin Abrams, president of Emerson, and will continue with the present operating personnel, maintaining the same policies.

Canada Seeks Firmer Radio Control

Committee Report Seen Affecting Private Renewals

By JAMES MONTAGNES

USE OF THREE clear channel frequencies, 860 kc, 990 kc and 1010 kc, for 50 kw stations of Canadian Broadcasting Corp. was recommended by the Parliamentary Radio Committee in its report issued at Ottawa Aug. 17.

Along with recommendation to take over these frequencies from private stations now occupying them, was recommendation for Parliament to allow CBC unlimited loans to finance expansion, to increase its receipt of listener license fees by having the treasury finance the costs of collecting the license fees instead of deducting them from total before paying balance to CBC, and disapproval of giving private broadcasters the right to form a private network.

Parliamentary Committee also recommended that Dr. Augustin Frigon be given security of his post as CBC general manager until he reaches age 65. He is now 58 years old. He is last living member of three-man Royal Commission of 1929 which recommended nationalization of Canadian broadcasting, became assistant general

manager when CBC formed in 1936, general manager in Sept. 1944.

Probably most important recommendation of the committee for the private broadcasters is that dealing with renewal of licenses. The committee stated that it was the duty of the CBC and the Department of Transport, licensing authority, to make sure that the private stations discharge their trust. Said the recommendation:

Blue Book Theme

"That as a condition of the issuance or renewal of any license a station should be required to submit to the CBC Board of Governors an undertaking that it would faithfully perform its duty as a trustee of a radio frequency, and would indicate the amount of time and what proportion of its revenue it is prepared to devote to local community events, the discussion of matters of local interest and the development of local talent and other public service broadcasts.

"By this means it would be emphasized to all that the right to occupy a frequency is a privilege granted to one who thus acquired a temporary monopoly in the use of an air channel which belongs to the people and it would be a constant reminder also to the CBC

and licensing authority of their duty to see that all such persons carry out their obligations to their respective communities."

Regarding the radio appeal board which the Canadian Association of Broadcasters had recommended to the committee, the report points out this should be investigated further by the CBC, Department of Transport and the next session's Parliamentary Radio Committee.

Insofar as the seizure of clear channel frequencies is concerned, the committee felt that the private stations should have known that these would eventually be taken over by the CBC when it was ready to go ahead with its expansion plans. Taking over the frequencies, the committee pointed out, was in accordance with a long-approved policy and believed "there is not and could not be any argument as to the legal rights of the frequency holders. Aside from any notification that may have gone to these station owners, your committee feels that they either were aware or had reasons to be aware of the policy of the CBC and hence must have known, or should have known, that these wave-lengths would have to be developed in order that Can-

(Continued on page 88)

Changes to Be Sought in Record Rule

Plan to Identify Discs By 'Name Talent' Being Prepared

A REQUIREMENT that identifying announcements be made when recordings of "name talent" are broadcast is expected to be sought by several licensees when FCC holds oral argument on its proposed liberalization of the rule on announcement of mechanical records.

NAB board members voted 17-to-6 against such a proposal [BROADCASTING, Aug. 12], but some of the minority six and other licensees were reported last week to be preparing statements supporting a "name band provision" for submission to FCC before deadline for filing exceptions to the proposed rule falls today (Monday). Date for oral argument has not been set.

Among those "considering" submission of suggested changes were NBC, KFI Los Angeles,

Another related story on page 80

KVOO Tulsa, and Fort Industry Co., who with CBS and WGBI Scranton formed the minority six voting against NAB board approval of the proposed rule as it now stands.

CBS was preparing a brief requesting a clarification of the proposed rule.

NBC was said to be planning definitely to submit "something," although the exact nature of the suggestion had not been fully determined. Trend of the thinking was along lines that indiscriminate use of recordings should not be permitted when, either affirmatively or inadvertently, the impression is created that live talent is being used. It was thought the proposed rule might be satisfactory if amended to require identification of recordings as such whenever the name of the talent is announced.

Bamberger Broadcasting Service (WOR New York) already has asked for oral argument and filed a brief primarily concerned with provisions dealing with identification of short spot recordings. J. B. Conley, manager of Westinghouse Radio Stations, and Ed Craney, owner of KGIR Butte, have filed statements generally endorsing the proposed changes. NAB's endorsement was being prepared for filing late last week.

The proposed amendent of the rule (3.407), announced June 3, provides that a recorded program shall be so identified at the beginning and end if it consists of "a speech, news event, news commentator, forum, panel discussion, special event, or any other recorded program in which the element of time is of special significance" and if its presentation would give the

impression that the broadcast was live. Recorded programs less than one minute long would be announced only at the beginning. Subsection (b) provides that any other program of one or more mechanical records need not be so announced, but that there may be no "affirmative" attempt to create the impression of a live broadcast [Broadcasting, June 10].

Bamberger favored Subsection (8), but said it felt the existing rule requiring an appropriate announcement at the beginning of a recorded program of less than five minutes is "entirely satisfactory."

"In actual practice," Bamberger said, "our news programs contain spot recordings up to $2\frac{1}{2}$ minutes in length. An appropriate announcement at the beginning and end of so short a recording is, in our opinion, unnecessary and offensive to the listening audience. If the listener is tuned to our station, he automatically hears the announcement if it is made at the beginning of the recording. If the listener tunes in our station during a recording as short as a minute

to two and a half minutes, such listener would not hear a sufficient amount of the recorded matter to require, or have any interest in, its identification by an announcement at the end of the recording. As a matter of fact, the material in such short recordings is such that the listener is thoroughly indifferent as to whether it is, or is not, a recording. However, to prevent abuse, it may be desirable by rule to require one identifying announcement to be made."

Mr. Cranev told the Commission that KGIR is in "hearty approval" of the proposed changes. "We believe this will materially better broadcasting as it will take off the air the repetitious announcements now heard which mean but little to a listening public," he declared. "We are in hearty accord with letting the public know what it is listening to, and we are in hearty approval of the section which would prohibit broadcasters from trying to mislead the public into thinking that name bands might be in the studio."

Mr. Conley, of WRS Inc., said

tive one and should help to advance the art of broadcasting considerably. While actual operation under the revised rule may require some slight modifications, we are positive that the overall effect would be extremely beneficial." He said it would "be extremely helpful to small stations which schedule numerous transcribed or recorded programs" and might lead "to greater listener acceptance to their programs," thus promoting "a keener competitive situation between stations."

the proposal "is a very construc-

Winner of Crosby Stakes Still Runs

Philco Executive Now Flees From ABC, MBS

STILL slightly wilted and breathless from his successful pursuit of the elusive Bing Crosby, Philco's Vice President James H. Carmine last week found himself the pursued, radio salesmen his pursuers.

Now that he had the crooner's signature on a Philco contract [Broadcasting, Aug. 19], Mr. Carmine was the most popular boy in town. His intention to put transcribed Crosby programs on the air in every U. S. city that had a radio station encouraged at least two networks and many a station representative to chase him with the fervor that matched his own during the winning of Mr. Crosby.

Leaves New York

By week's end, Mr. Carmine had left New York, where executives of ABC and Mutual had engulfed him with sales arguments, for the sanctuary of his home office in Philadelphia. There he would have the chance to think about his choice between the energetic suitors.

Meanwhile, lesser Philco executives and representatives of Hutchins Adv. Inc., the Philco agency, continued to meet with ABC and MBS salesmen in New York.

None of the conferees would predict with certainty what Mr. Carmine's choice would be. Said an ABC executive: "We're still optimistic." Said one of Mutual's chiefs: "The door is by no means closed."

Mr. Carmine kept mum. Even when he gave the nod to one or the other of the networks, the pursuit would not be over, he knew. With the network chosen, there would remain some 300 or 400 stations to do business with. The chase by stations would make the network pursuit look like a slow walk.

Army Extends

U. S. Army Sept. 4 extends Sound-Off With Mark Warnow on CBS for five weeks replacing Ellery Queen in the Wed. 7:30-8 p.m. period. Latter show is taking five week hiatus. N. W. Ayer & Son, Philadelphia, is agency handling Army recruiting.

New Advertising Agency Established By Day, Duke & Tarleton in New York

Mr. Day

Mr. Duke

Mr. Tarleton

FORMATION of a new advertising agency, Day, Duke & Tarleton Inc., with offices in the Marguery Hotel, 270 Park Ave., New York, was announced Aug. 20 by William L. Day, president and treasurer.

Mr. Day, for 15 years vice president, director and chairman of the advisory committee of J. Walter Thompson Co., later succeeded Chester Bowles as chairman of the plans board of Benton & Bowles. Subsequently he held the same position at Foote, Cone & Belding, where he worked on such accounts as Lucky Strike, New York Central, Bourjois & Co., Armour & Co., California Fruit Growers Exchange, and Frigidaire.

Col. Florimond D. Duke, vice president, is now director of UNRRA activities in Greece, and

his plans for returning to business have not been announced. Formerly advertising director of *Time*, *Newsweek* and *Fortune*, he spent 15 months of the war in German prisons, having been captured during a dangerous mission to Budapest.

John V. Tarleton, vice president, former senior art director of J. Walter Thompson, Lennen & Mitchell and William Estv & Co., was president of J. Stirling Getchell Inc. Robert L. Hargraves, vice president and director of media, was director of advertising and market analysis for William Carter Co. The other vice president of the new agency is Ralph Allum, formerly vice president of Blackett - Sample - Hummert and associate director of the War Advertising Council. Samuel H. Weber is secretary.

Log Drive

Floating placidly on the pond, for these logs the long journey's over. They've piled up in log jams . . . they've been tossed by raging rapids. But they made it. The log drive's over.

Many a smart businessman could look at that picture and wonder, "How rough will my trip be when the big production starts and the sales heat goes on?"

We can speak only for one sales help in one market. Our sales help is in radio . . . and we're concerned with W-I-T-H, the successful radio independent. The market is Baltimore.

In this, the sixth largest city, W-I-T-H delivers more

listeners-per-dollar spent than any other station in this five-station radio town.

In the drive for sales . . . the trip can be made smoother in this market with W-I-T-H on the list. Better put her on!

Labor, Management Problems Head Small Markets Agenda

EMPLOYMENT, management and engineering problems lead the list of topics to be discussed by the NAB Small Market Stations Executive Committee at a meeting called by Marshall H. Pengra, KRNR Roseburg, Ore., committee chairman. Committee will meet Sept. 9-10 at the Statler Hotel, Washington.

Likely to come up during the two-day discussions will be the effect of FM stations on the present 650 AM stations that fall in the small market stations category (under 5 kw in cities under 50,000).

Also slated for consideration is the place of small market outlets on the NAB convention agenda Oct. 21-24 at Chicago. A number of station operators are understood to feel that tentative agenda plans [Broadcasting, Aug. 5] should provide more time for the group, comprising over two-thirds of member outlets.

Management Trends

The committee will hear a discussion of the management study series conducted by Arthur C. Stringer, NAB director of special services. Mr. Stringer has been making detailed analyses of all phases of operation at un-named stations representing all parts of the country.

James L. Middlebrooks, NAB director of engineering, will review engineering license problems and describe activities of the department. He is completing work on an engineering handbook to be issued in the autumn.

Audience analyses, including feasibility of revealing Hooper and other surveys to competitive media, will be discussed by Frank E. Pellegrin, NAB director of broadcasting advertising, and Kenneth H. Baker, director of research.

Improvement of local news coverage, uses of BMB data by small market stations and committee services to new stations are listed for discussion. Hugh Higgins, assistant director of broadcast advertising, will describe promotional material, and Lee Hart, also assistant director, will review retail advertising activities of NAB.

Small Market Division work of the association will be reviewed by J. Allen Brown, assistant director of broadcast advertising, who was named to the small market stations post when it was created last autumn.

Act Explanation

A. D. Willard Jr., NAB executive vice president, has been scheduled to tell small market outlets how they are affected by the Lea Act and review latest developments in the music and Blue Book fields. Ivar H. Peterson and Milton

J. Kibler, assistant directors of employe-employer relations, will analyze trends in that field.

Committee members, besides Chairman Pengra, are Glenn Marshall Jr., WFOY St. Augustine; Robert T. Mason, WMRN Marion, O.; William C. Grove, KFBC Cheyenne; Monroe B. England, WBRK Pittsfield; James R. Curtis, KFRO Longview, Tex.; Wayne W. Cribb, KHMO Hannibal, Mo., and Mr. Brown. Board liaison members are Harry R. Spence, KXRO Aberdeen, Wash.; Clair R. McCollough, WGAL Lancaster, Pa.; William B. Smullin, KIEM Eureka, Calif

Chaikin to Grey

SEYMOUR CHAIKIN, formerly with Crowell-Collier Publishing Co., New York, in charge of research for American Magazine, has been appointed director of research of Grey Adv., New York. Following changes in personnel also have been announced by Grey: Martin H. Heller of agency has been appointed assistant account executive; Leo Beck of agency has been appointed copywriter; Kathryn Gearty, formerly with Paris & Peart, New York, has joined Grey as radio script writer; Philip Fried, after service with armed forces, has joined agency as assistant to comptroller; Glenn Foss, formerly with Rochester Typographic Service, Rochester, joins agency's production department.

DISC, AGENCY BOOM

Offices Spring Up Everywhere
——In Hollywood Area——

MUSHROOMING of transcription firms and programs packagers in the Hollywood area during the past year is noted. Some are fly-bynights. Others have established themselves and are accepted by the industry. Transcription producers report that stations are buying more syndicated programs and are selling them to local and regional advertisers. The boom is on again in that field, they declare.

Within six months there has been an expansion of agency operation, with many national firms establishing West Coast offices in San Francisco and the Los Angeles area. With shortage of accommodations, some are working from hotel rooms. Others have converted cottages and houses into offices. Still others have set up shop in stores around town.

Several West Coast regional agencies have likewise expanded. They've established branch offices in New York, Chicago, and other key cities throughout the country to take care of extended operations.

Willard Urges Radio Editorial Policy

Tells Ohio News Clinic Responsibility Must Be Accepted

INDUSTRY swing toward adoption of station editorial policies, long shunned by many broadcasters, was disclosed by A. D. Willard Jr., NAB executive vice president, addressing the Ohio Assn. of Broadcasters news clinic last Tuesday. Clinic was one of a series sponsored since last autumn by NAB.

The association's aggressive stand developed when Robert T. Mason, owner of WMRN Marion, O., asked Mr. Willard "what could be done to enable radio to attain the prestige which is accorded

newspapers through editorializing."

"NAB will do everything to hasten the day when every radio station will build the same position newspapers have built in their editorial policies, and standing up for what they believe is right," Mr. Willard said. He recalled that under the decision in the Mayflower case stations voluntarily gave up editorial privileges, the FCC asserting in the case that no station should have an opinion of its own on controversial matters.

"We have paid the penalty of abiding by this rule," Mr. Willard said. "Why is it that in most communities today a newspaper is a more important factor than a radio station? We don't represent

anything in many respects as a result of accepting the Mayflower decision

"If a paper sees a condition in its community that should be remedied, it gets up and fights. We're wishy washy. The only thing we're 'agin' is sin—and it has to be so obvious we are almost sure there is no contender on the other side of the question. The newspaper stands for what it knows to be proper and right in its community and has gained prestige in standing for those things during the years.

"The time has to come soon when radio will accept the same responsibility. It's your right and duty to determine what your program structure will be. If you want to fight for something you think is right, it's your right to get up and fight for it.

"No one has ever disputed the Mayflower decision, though the Commission has admitted that the ruling could never stand in court. Some station and networks have already begun to have editorial policies and have so labeled them."

The Ohio clinic set a new attendance record for the series, conducted under direction of Arthur C. Stringer, secretary of the NAB News Committee and NAB director of special services. Eighty-three attended, with two other States, press associations and other industry segments represented.

Morning session on news gathering was directed by John Murphy, news editor of WCKY Cincinnati. Glen Jackson, program director of WSPD Toledo, led an afternoon discussion of technical aspects of news handling. Final session on audience analysis and radio news weaknesses was led by Lester Spencer, assistant manager of WHIO Dayton. Main weakness, it was developed, was understaffing of news departments.

Allan Haid, manager of WHIZ Zanesville, described the station's listener panel of 58, which he said had brought station-originated news programs to a higher level than any programs on the station. The programs concentrate on local, regional and state news, with national news "more like a tag line".

Paul Wagner, manager of WPAY Portsmouth, told how the station goes out after its own news and described the close checking of facts. The station recently sent out several thousand postcards telling listeners of the station's news department and soliciting news items.

All-local news programs are successful on WIZE Springfield and WING Dayton, according to General Manager Pat Williams. The stations plan to send scripts of news programs to those whose names are mentioned. WHBC Canton sends two-minute scripts to all of the city's clubs and organizations having noon luncheons.

Clinic plans were in charge of Eugene Carr, radio director of Brush-Moore newspapers; S. Bernard Berk, president of WAKR Akron, and Len Nasman, business manager of WFMJ Youngstown.

Those in attendance follow:

AKRON — WADC, Robert Wilson, Harold Hagemen, Fred C. Bock; WAKE, John W. LaRue, Coleman Scott, Bob French; WHKK, Lew Henry, Harvey Bogen, Emerson Batdorff.

NEW ENGLAND'S DEPARTMENT STORE SALES! Worcester's in the Forefront

Among the metropolitan centers of New England, Worcester leads the parade in Department Store sales increases over Boston, Springfield and Providence. With a 1945 index of 100, according to recent Federal Reserve Bank figures, Worcester climbed to 156. In Boston the same index was 146, in Springfield 148, and in Providence, R. I., 150.

A prosperous, compact market of 200,000 city dwellers and 300,000 more in the immediate Worcester trading area is responsible for this peak showing. Industrially active, and agriculturally pre-eminent too, Worcester thrives month after month. Radio listening habits of these half million people are almost as one. One Hooper rating after another show WTAG with an all day and night audience in excess of all other stations heard in the area combined. When you buy time, buy an audience — aprosperous one.

WBKB, Chicago Video Station, Issues Rate Card Based on Receivers in Area

WBKB, Balaban & Katz television station in Chicago, threw its hat in the ring for a bid for national television recognition. In a statement made Wednesday by Capt. William C. Eddy, WBKB director, advertisers were informed that for the first time in WBKB's history, the Chicago video station felt television had progressed sufficiently to warrant the introduction of a commercial rate card.

Under a new policy to go into effect immediately, WBKB's commercial rate for 1 hour will be \$100; for ½ hour, \$60; for 15 minutes, \$40. Spot commercials, of two minutes duration will sell at \$20 for films and \$30 live, Capt. Eddy said. All charges are discountable to agencies at the standard rate, he added.

In outlining the station's commercial plans, Capt. Eddy said charges were based on the 450 known receivers in the Chicago area, with an average of 10 listeners per set. As sets increase, charges will rise accordingly. For example, with 5,000 to 15,000 sets, the hourly commercial rate will be \$200, increasing to a top of \$1,000 per hour for 35,000 sets or over.

The WBKB director conceded that this might well take two or more years, depending upon the willingness of set manufacturers to establish quotas for receiver production. On the basis of statements made Wednesday by advertising and sales executives of nearly a dozen receiver manufacturers, approximately 5,000 television receivers should be available to the Chicago area by the first of the year.

On this basis, WBKB's charges would be \$375 per hour. The station will offer two hours of rehearsal time for each one hour of commercial time at the rate of \$25 per hour, as well as provide necessary studio and technical facilities. Captain Eddy emphasized the fact that the station will reserve the right to select the commercial programs to be presented and said the station would accept no spot commercials that did not provide a public service such as a time signal or weather report. WBKB will not broadcast straight commercials without some accompanying public service or entertainment feature, he declared.

Captain Eddy also said construction of additional studios estimated to cost \$15,000 would be completed by Sept. 1. This will permit the station to increase its present 20 hours of television broadcasting, he said.

MEEHAN APPOINTED TO RADIO PR POST

C. M. (Tom) MEEHAN, ex-newspaperman and at one time manager of WHP Harrisburg, last week was named director of public relations for Westinghouse Radio Sta-

tions Inc. by J. B.

Mr. Meehan

Conley, WRSI stations manager.

He joined Westinghouse in 1944, serving in the advertising section at Pittsburgh public relations headquarters. He was transferred t o Baltimore, be-

coming publicity representative for the Industrial Electronics and X-Ray Divisions in Baltimore and the Home Radio Division at Sunbury, Pa.

Working in the WRSI headquarters, Philadelphia, he will handle public relations for the station group and coordinate publicity at KYW Philadelphia, WBZ-WBZA Boston-Springfield, KDKA Pittsburg, KEX Portland, WOWO Fort Wayne, along with FM stations in those cities (except Portland) and WBOS Boston, international shortwave outlet.

Mr. Meehan is a graduate of the U. of Maryland. He entered newspaper work in Waynesboro, Pa., later working on the Harrisburg (Pa.) Telegraph, Baltimore Evening Sun and Philadelphia Record. He became managing director of WHP in 1931. From 1935 until he entered the Army in 1942 he was engaged in public relations work.

Affiliation Delayed KIST Santa Barbara, Calif., previously scheduled to become an NBC affiliate Sept. 15, will join network Sept. 29.

Revision of WSM Rental Plan Asked

Applicants Request Removal Of Case From Hearing

A PETITION to amend the rental clause of the long-pending proposed assignment of license of WSM Nashville to a wholly-owned subsidiary of the present licensee was on file with FCC last week, asking that the application be taken out of hearing and granted. Hearing is now slated Oct. 23.

The application, filed in February 1945, proposes to assign the license from National Life & Accident Insurance Co. to WSM Inc. under a 15-year lease in order to separate the station from the insurance company. FCC subsequently called for a hearing to inquire particularly into a provision whereby WSM Inc. would pay the parent corporation a rental of \$100,000 a year plus part of net

Issues included determinations of how the proposed rental would affect WSM's ability to "continue operation in the public interest"; whether it would tend toward "over-commercialization of WSM and hamper its operations in the field of FM broadcasting and television," and what the insurance company's attitude would be regarding rental if WSM's income didn't exceed \$100,000 a year.

The petition proposed to cut the cash rental from \$100,000 to \$50,-000 a year, leaving percentage-ofprofits payments substantially the same as originally proposed. The insurance company would receive nothing on the first \$50,000 (net, after rental but before federal taxes); 50% on the next \$50,000, 60% on the next, 70% on the next, 80% on the next, and 90% on all additional.

Principals Listed

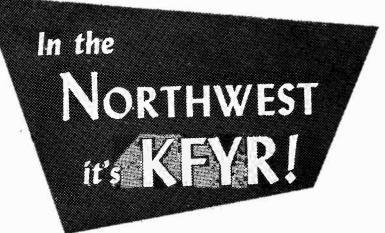

Edwin W. Craig, president of the insurance company, also heads WSM Inc. Other officers of the radio subsidiary are as follows: E. B. Stevenson, vice president (executive vice president of insurance firm); Harry Stone, vice president and general manager; J. E. Wills, secretary-treasurer (vice president of insurance company).

The petition to amend the application was filed Aug. 14 by Reed T. Rollo of the Washington law firm of Kirkland, Fleming, Green, Martin & Ellis, counsel for WSM.

Renews on CBS

INTERNATIONAL SILVER Co., New York, for third consecutive year will sponsor The Adventures of Ozzie and Harriet, featuring Ozzie Nelson and Harriet Hilliard, which returns to the air Sept. 1 on CBS, Sun. 6-6:30 p. m. Agency is Young & Rubicam, New York.

THE LEARN by doing technique again will be employed in the City College of New York radio and television courses which begin Sept. 23. Courses will cover all phases of radio and television.

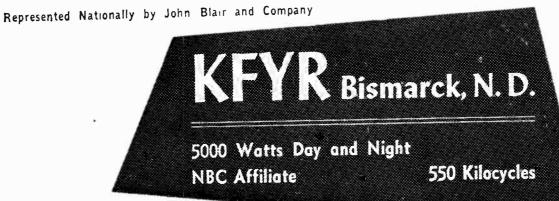

Better than Denver and Toledo Combined!

176,630 radio homes are regularly tuned to KFYR*—more than all radio homes in Denver and Toledo combined! True, there are few large cities in KFYR-land. But so extensive is KFYR's coverage—and so loyal it's listeners—that hundreds of small communities are combined to form one tremendous market—10% larger than Denver and Toledo put together. And only one station can reach it all-KFYR.

Not only is KFYR's circulation a large one-it's a prosperous one as well. In the first two months of 1946, farm income in KFYR-land shot up 44% over the same period of 1945**when an all time record farm income of over half a billion dollars was set in North Dakota alone. National average increase for the same period: 2%.

*NBC's all-county survey of 1944, when population in Northwest was considerably lower than today.

Radio Execs Club Expands Program

SPECIAL ADVISORY Council to Radio Executives Club of New York [BROADCASTING, Aug. 19] is expected to be a step toward making the club a more important influence in the broadcasting industry.

New REC president, Robert D. Swezey, vice president and general manager of Mutual Broadcasting System, said the council will provide a board of experts on whom the club may call for a fresh perspective on its problems.

Network Presidents

Besides Mrs. Eleanor Roosevelt; Justin Miller, NAB president, and Charles Mortimer, General Foods president, the council includes the four network presidents: Mark Woods, ABC: Frank Stanton, CBS; Edgar Kobak, MBS, and Niles Trammel, NBC.

New York independent stations are represented by Herbert L. Pettey, managing director, WHN; Nathan Straus, president, WMCA; Elliott Sanger, executive vice president, WQXR. Women's interests are represented by Mrs. Roosevelt, Mrs. Mary McClung, president, Advertising Women of New York, and Mrs. Dorothy Lewis, NAB coordinator of listener activities.

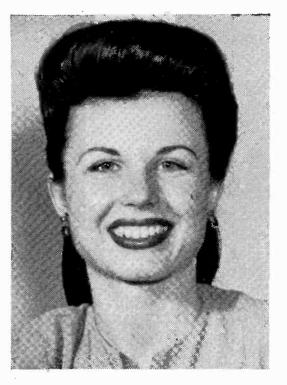

Advertising agency council members are H. M. Dancer, president, Dancer - Fitzgerald - Sample; Louis N. Brockway, executive vice president, Young & Rubicam; Leonard T. Bush, vice president, Compton Adv. Inc.

Mr. Swezey also announced the make-up of several of the club's committees. Hugh Feltis, BMB president, is chairman of the Membership Committee, whose members are Linnea Nelson, J. Walter Thompson, Co., and Frank Silvernail, BBDO. Kolin Hager, assistant to the president of SESAC, is chairman of the Associate Membership Committee, with Warren Jennings, WLW; George Harvey, WGN; Craig Lawrence, WHOM, as members.

James Sauter, president, Air Features, heads the REC Program Committee, whose membership includes the program vice-presidents of the four networks—Adrian Samish, ABC; Davidson Taylor, CBS; Phillips Carlin, MBS, and Clarence Menser, NBC, as well as Arthur Pryor Jr., BBDO, and Bruce Robertson, BROADCASTING, with another member to be added.

House Committee comprises Robert A. Schmid, MBS vice president, chairman, and Otis Williams, WBYN. Club's publicity and public relations will be handled by Institute of Public Relations under the direction of Bill Kostka, former head of NBC's Press Dept.

REC 1946-47 season will open Sept. 19 with a business session, the regular meetings to begin Oct. 3. Meetings are held on the first and third Thursdays of each month at 12:15 p.m. at the Hotel Roosevelt, New York.

ONE OF SIX finalists in Tommy Dorsey's nationwide talent search is Peggy Jones, staff vocalist of KFH Wichita, Kan., who has been singing star of Ethel Jane Jamboree for five years. She entered contest while on vacation in California.

RADAR is now being used to obtain data on the velocity and direction of winds at various elevations, the War Dept. has announced. The method uses balloon-borne reflectors which can be tracked to their bursting point, sometimes reaching 100,000 feet above the earth's surface. With radar, visibility is not a limiting factor, at it was in the past.

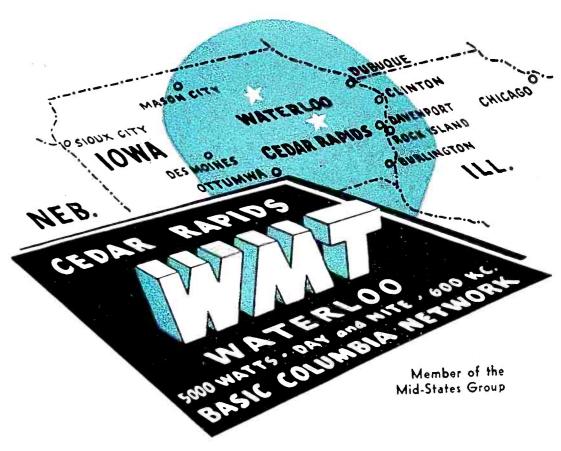

A good mystery means good listening . . . and those famous CBS favorites such as: "CRIME DOCTOR", "INNER SANCTUM", "THIN MAN" and "CRIME PHOTOG-RAPHER" are typical of those good, good CBS programs, that when combined with lowa's finest Radio frequency assures top listening among 1,131,782 people.* Don't be the "victim" of misjudgement. You don't need a "Nick Charles" to discover that WMT is No. 1 station in the best market of a great state at the lowest rate per radio family.

*WMT has a GREATER population within its 2.5 MV line than any other station in the state—with a SPENDABLE, DEPENDABLE income to make your selling job easier.

THE SHREVEPORT TIMES Shreveport, La. In the Ark-La-Tex Area, KWKH, with its 50,000 Watts is the No. 1 Medium with full coverage

New York Business

(Continued from page 17)

time for its waiting list of eager advertisers.

Only two network shows remained open to sponsorship on NBC: Sunday Symphony, which General Motors had relinquished last spring, and part of the Fred Waring Show, in which an unnamed advertiser was said to be expressing interest.

Despite the evidence that the fall and winter of 1946 would not be periods of economic tragedy in radio, some quarters still were harping on the pessimistic notes of early spring.

There was ample evidence to the contrary, however. Fred Allen, Bob Hope, Jack Benny, many another high-priced great of radio would be on the air as usual. And Bing Crosby, who had been pursued by a half-dozen would-be sponsors. finally signed with the Philco Corp. for a weekly transcribed series at a reported \$30,000 a week.

Representatives Bullish

Among station representatives, the outlook for the next half of 1946 was not unlike the network attitude of tempered optimism. A survey of representatives by BROADCASTING disclosed that most regarded the business direction as bullish, but not spectacularly so.

Some reported that advertisers were buying fall time earlier this year. Estimates of spot business in the first six months of 1946 as compared with that of a similar period last year ran from 5 to 18% increase. Only one reported that its business in 1946 was under that of 1945, by about 6%.

Among advertising agencies dealing heavily in radio, estimated increases of fall billings ran as high as 20% above 1945. Most agencies seemed optimistic about the future, both immediate and long-range.

Those with clients which had most felt the pinch of creaking industrial reconversion reported slight decreases in billings, but not in amounts sufficient to cause more than a temporarily wrinkled brow.

One agency predicted 20% increase in its spot and transcription business alone this fall.

Almost all thought that there was evidence of improving economic conditions throughout the nation and that the improvement would naturally be reflected in radio advertising.

In New York last week, radio's healthy future seemed assured. Broadcasting as a business, like most other U. S. industries, had fumbled for a moment at war's end. Now that it had the feel of peacetime practices, its hand was again steady.

NAVY has begun construction of a \$2,000,000 test hangar at the Naval Air Test Center, Patuxent River, Md., to provide facilities for testing radar and other electronic devices installed in air-

SETTLING IN NEW CHAIR as manager of N. W. Ayer & Son Hollywood radio is Glenhall Taylor. Present at inauguration are (1 to r): Marvin Murphy, New York vice president in charge of public relations; Gerold Lauck, New York, executive vice president; H. L. McClinton, New York, vice president in charge of radio; Joseph Stauffer, New York, radio production manager, and Charles Hogen, Hollywood, vice president in charge of service.

More Than One First Class Operator Burdens 250 Watters, Manager Says

EDITOR, BROADCASTING:

I firmly believe, as a small practical broadcaster, that the following facts should be presented to the industry and then to the FCC.

The matter of having to have more than one First Class Operator at a 250 w station is intolerable.

First, why should we be burdened with employes we don't need? All during the war the Commission allowed us to use Restricted Operators. They did a better job here than First Class men, mainly because they would turn the equipment on, leave it on and not try to find out what made it tick.

Now we are forced to have a First Class man sit around doing nothing but drawing his pay to satisfy the FCC Rules. With all the emphasis on public service programs it looks to me as if this money which is being wasted could

Everyone Welcome

ADARM GOBRAIT, first Tahitian to visit the U.S. since the war, was singularly impressed by the Tommy Dorsey show at NBC Hollywood studios Aug. 11. Careful rehearsal awed him most by contrast with informal production methods at Tahiti's station which is on the air twice a week. "Anyone who wants to broadcast goes to the station that day and is put on the air," he said. "If no one shows up, the announcer plays a few records, suggests listeners tune in again on the next broadcast day and signs off." Exceptional reception conditions in Tahiti allow natives to tune in on Los Angeles or San Francisco direct at any time, however, Mr. Gobrait said.

be used to better our program service.

Why couldn't the Lea Bill be applied to this situation? I would much rather employ a musician to sit around than a First Class Operator. At least a musician could play a fill if needed.

I am sure there are others who feel as I do about this situation and I also believe that if the Commission had the real facts from the little 250 watters, trying desperately to render a real service, they would cooperate and change this rule so we could better serve the public interest. If they want the facts I'll come to Washington and explain them at my own expense.

John W. Shultz, WMVA Martinsville, Va.

Aug. 16, 1946

NORTHRUP TO HEAD WAR ASSETS RADIO

ED (Dwight) NORTHRUP, in radio since 1928 and since 1936 identified with Government activities, has joined the War Assets Administration as chief of the radio section, Information Division.

Mr. Northrup joined WSPD Toledo in 1928 as director of broadcasting. His wife, Agnes, was at that time station director, but has since retired from radio.

After working in programming and sales capacities in stations throughout the country, Mr. Northrup became an information officer with the War Production Board. He served successively with the War Dept. and the Treasury Dept., before entering WAA Aug. 19.

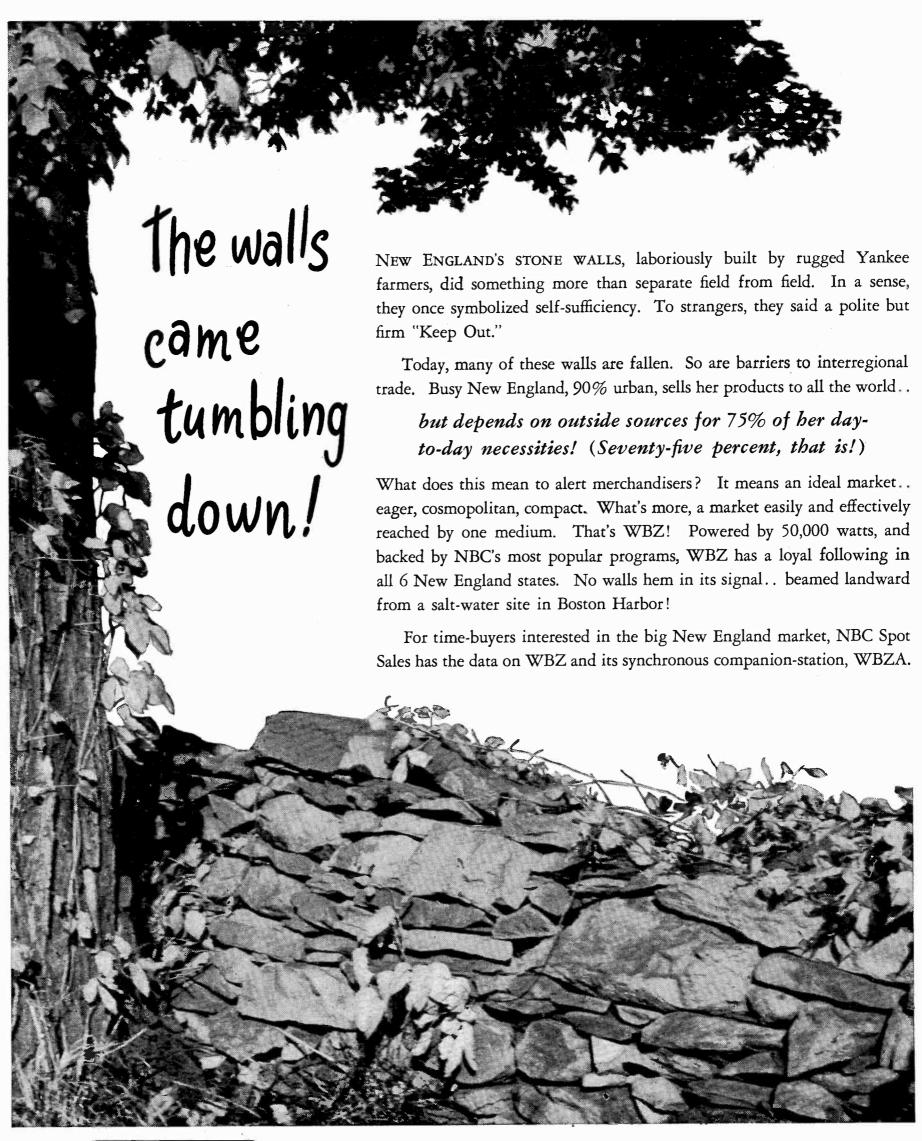

DIRECTED by Roy Martin, The Carolina Troubadours is a new hillbilly group heard on WBIG Greensboro, N. C., daily at 6:05 a.m. Members include George Whitten, Rocky Stone, Bill Childress and Al Farrier.

REPRESENTED NATIONALLY BY NBC SPOT SALES-EXCEPT KEX . KEX REPRESENTED NATIONALLY BY PAUL H. RAYMER CO.

"He says he's studying How Radio Sells, and all he has to do is...

Listen to ABC"

No doubt about it, the place to find out how radio can really sell goods is on ABC. A good many advertisers, particularly those who are reaching ABC's big, nation-wide audience of women during the daytime, are putting more and more of their confidence in ABC as a prime mass selling medium.

Here is what some of the nation's top-notch advertisers are thinking—and doing—about ABC today:

- 1. Swift & Co. has doubled its expenditure on ABC—has signed a five-year contract for a full half hour of the Breakfast Club every weekday morning.
- 2. General Mills has renewed four big daytime shows on ABC for another full year.
- 3. Curtis Publishing Company is continuing with its 15-minute weekday morning program—in addition to the big spot campaign it has just started.
- 4. Libby McNeill & Libby, Sterling Drug, Philco, General Foods, Miles Laboratories, Jergens, Bristol-Myers,

Westinghouse, P & G and many more shrewd buyers of radio time have nailed down valuable ABC franchises.

Tomorrow's "buyers' market" is on the way—and advertisers who recognize the fact that they'll soon have some real, down-to-earth selling to do are making sure of a place on ABC right now. They know that successful mass selling calls for successful mass advertising—and look to ABC to help them deliver the goods to the nation's millions of radio homes.

Today, ABC has very few choice network daytime quarter-hours left unsold. The reason, when you boil it all down, is simply that ABC sells goods and advertisers know it! Maybe there's a spot on ABC that you can use to good advantage to sell your product! Why not find out now?

7 REASONS why more leading advertisers sit up and listen to ABC

- 1. REACHES 22,000,000 FAMILIES, located in practically every major market in
- 2. ECONOMICAL RATES make possible nation-wide coverage of important markets at low cost per thousand listeners.
- 3. 207 STATIONS—covering more of the 300 major U.S. markets from within (actually located in the markets) than any other network.
- 4. EXPERT PROGRAM SERVICE available if and when you want it.
- 5. EFFECTIVE AUDIENCE PROMOTION that keeps building a bigger and bigger audience for ABC advertisers.
- 6. GOOD WILL a nation-wide reputation for public service features that present all sides of vital issues.
- 7. PRACTICAL TELEVISION—program-building on an economical basis.

American Broadcasting Company

A NETWORK OF 207 RADIO STATIONS SERVING AMERICA

FCC Hearings From September 4 Through November 26

COVERING approximately 250 AM, FM, and television cases and providing in some instances for six hearings simultaneously (three in Washington, three in field), an alphabetical list of hearings from Sept. 4 through Nov. 26 was released by FCC last week.

The schedule covers all cases designated for hearing prior to Aug. 1. Carrying out the "orderly consideration" policy enunciated in its Aug. 16 statement of procedure for handling AM cases [Broadcasting, Aug. 19], FCC said cases were scheduled "wherever possible in order of file number of the lowest application involved in the hearing, except that where a hearing date has already been set by the Commission, that date has not been changed in this schedule."

In addition to the following alphabetical listing, FCC has released a version of the calendar to show hearings in chronological order and another to show cases in order of docket numbers. Shown here, in order, are name of applicant, docket number, facilities involved ("R" is for renewal; "AL" assignment of license; "TC" transfer of control; "MP" modification of permit); date hearing starts, and where it will be held:

of assertion. It's the blending of talent, experience and hard work. WWJ's leadership in Detroit dates way back to 1920, when it was the first radio station in the nation. Progressive policies, aggressive pioneering, public service

features and constant catering to the entertainment desires of Detroiters have kept WWJ on top all through the years. Day in and day out, WWJ continues to produce most gratifying results for its advertisers . . . in America's 4th market, where retail sales since the first of the year have averaged 100 million dollars monthly!

Bowles' Rating Shows Sharp Decline

WHAT happens to the U. S. radio audience when broadcasters cancel regular programs for special timely addresses by Government officials? The answer, in one case at least, seems to be that the audience disappears.

A case history of what does happen has been gathered by NBC Research Dept. based on Nielsen audimeter readings. NBC last April 17 put on Chester Bowles speaking in defense of the OPA at a time when that subject was the top news story of the day. Mr. Bowles was put on in place of the popular show Mr. District Attor-

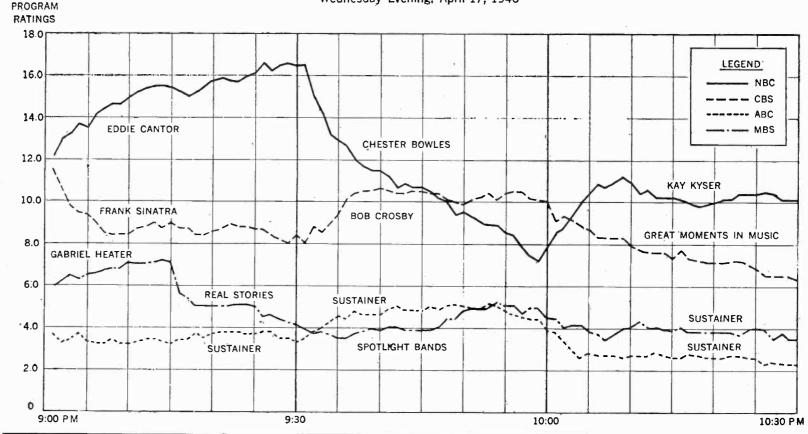

ney. He had all the elements in his favor. He followed a top flight evening program, he had the best half hour, between 9:30 and 10 p.m. He was speaking on a timely subject and was an experienced, highly publicized speaker.

The result of Mr. Bowles' speech, it was readily seen from Chart I, was that the special event program failed to hold the large initial audience delivered by the preceding Eddie Cantor show. The audience fell steadily from a first minute rating of 16.5 to a final minute rating of 7.8.

The effect the public service program had on the Kay Kyser Show, which follows Mr. District Attorney, was also quite marked. Under normal conditions Kay Kyser has part of his audience passed along to him from the show preceding. As a consequence of the Bowles speech the Kay Kyser program inherited an initial audience 47% below normal rating size. A partial early recovery was made by the Kyser show, but the program was never able to regain its normal average rating of 13.6, recovering only to 10.2.

Minute-by-minute Average Nielsen Ratings for Chester Bowles Program and Others

Wednesday Evening, April 17, 1946

CBC Income to Augment Expansion Says Dunton

COMMERCIAL REVENUE of the Canadian Broadcasting Corp., which has been on the upgrade for a number of years, is to be further augmented to "pay the way" for new CBC services, according to A. D. Dunton, CBC chairman. On being questioned at the last session of the Parliamentary Radio Broadcasting Committee on any anticipated increase in commercial revenue, he stated that "it may be said that the new facilities are counted on for an increase in commercial revenue."

New facilities announced by CBC at the hearings were three new 50 kw transmitters at once, new studios, further new 50 kw transmitters and other power increases, and expansion of Dominion network from four evening hours daily to 16 hours a day.

"In our own thinking," Mr. Dunton said, "it (increased commercial revenue) will pay the way of the new facilities. We do not contemplate any difference in the balance between CBC revenue and expenditure; but it is estimated that they will pay the way of the new facilities."

Tower Launched

FROM a microphone high among the trusses of a new 440-foot antenna tower in down town Milwaukee, "Shorty" Kloman, steel erector, opened WFOX's first broadcast (Aug. 15) over the lofty needle. Mr. Kloman built it.

ACA Awards

AWARDS FOR OUTSTANDING contributions to Canadian advertising in 1946 are to be made at annual dinner in November at Toronto of the Association of Canadian Advertisers. Harold E. Stephenson, advertising manager of Canada Starch Co., Montreal, chairman of the ACA awards jury, reports final recommendations have been made on the 33 nominations for outstanding contributions which have reached the association. Three silver medals and a gold medal are to be awarded, and all fields of advertising are represented on the awards jury.

WKY Asks Continuance Of NBC Baritone Loan

FIRST example of NBC's talent farm-out plan is successful enough for Tommy Allen, NBC contract vocalist, to be scheduled for a second 13 weeks at WKY Oklahoma City.

Arrangements for the hold-over, requested by Mr. Allen's sponsor, were made by P. A. Sugg, WKY manager, and Clarence Menser, NBC vice president. Mr. Allen stars on *The Show of Promise*, a 15-minute thrice weekly at 10 p.m., sponsored by Oklahoma Gas & Electric Co. An overseas veteran, the singer won an NBC contract on its *Welcome Home* auditions.

Dodge to FC&B

SHERWOOD DODGE, former account research manager with Mc-Cann-Erickson, New York, and prior to that head field operations officer and head of public opinion research for OPA, has been named vice president and director of media and research for Foote, Cone & Belding, New York.

You've seen these two masks often in connection with the stage. From earliest times they've been the symbols of the drama. The smiling mask of comedy and the grave one of tragedy stand for the two great fields of the theater.

Radio, the theater's most modern form is symbolized in Baltimore by the letters "W-C-B-M." Time buyers know that this symbol represents the two advantages of intensive market coverage at economical rates. By all means, include WCBM in your radio schedule

to insure your product starring before large audiences.

- In every market there are some locally produced "hot" Spot Programs—maybe a fifteen-minute newscast, perhaps a half-hour musical or a hillbilly show—that are often better than others. One advantage of flexible Spot Broadcasting is that you can buy just these market-tested Spot Programs... never being forced to take others.
- No wonder then that more and more leading advertisers are taking the gamble out of radio by buying *pre-tested* shows. They know it pays to play to ready-built audiences in markets of their choice.

• If you have goods to sell, there should be a lesson in this for you. If you are preparing to open new markets—or bolster old ones—call a John Blair man today! He knows the hottest programs... on the hottest stations... in the hottest markets. And he's prepared to help you build better sales.

West Coast

(Continued from page 18)

cent markets where such time is available.

As result of increasing production, commercials are generally doing a sales job today. During war years institutional selling in many cases presented all that was possible. Now direct selling is a factor as familiar trade marks begin to vie for their old share of sales and new names seek a sales foothold.

With both regional and transcontinental network time tight, many sponsors are turning to transcriptions, spotting them on major independent stations where time can be bought. Others are using spot announcements or participation programs. Advertisers are taking what they can get to accomplish a sales job.

More Facilities

Agency executives remind that with new independent stations being established and increased power being granted others, coverage of many markets will be available despite advertisers' inability to obtain regional or national network time.

During war years excess tax money was channelled into national and regional network institutional advertising on large scale. Today a number of smaller purses are being carefully directed to spot radio in selected markets.

The transition from war to peace has resulted in much turnover of accounts on the West Coast during the past year. Agencies are "on edge" at the moment, with no plans formulated for clients in many cases. Some agencies have not handled smaller budgets as wisely as expected. This has caused some of the shuffle.

Agency executives in San Francisco and Los Angeles were reluctant to reveal figures or guess as to what portion of the advertising dollar would be allotted to radio. From evidence on hand, a majority of budgets haven't been made up or are mostly in the talking stage. Many manufacturers and distributors are waiting to see which way prices will go.

When beset by strikes and other labor problems, direct and indirect, western radio sales did not falter. Although these factors produced cancellations in some cases and postponement of contemplated schedules in others, there always were sponsors to take up time availabilities.

Although recognizing the many business hazards, network and station executives frankly expect a new high in every branch of broadcast advertising. This includes local spot, regional, and national network.

Sales managers in major markets are confident that business will continue at an accelerated pace for the next six months at least. Operators in secondary mar-

West Coast Networks Foresee Prosperous Fall and Winter

AS SEEN from business on hand and future commitments signed, executives of four major networks on the West Coast are confident of a bright autumn and winter, with that prosperity continuing through early spring.

"Day of the off-brand merchandise is now over," according to Frank Samuels, ABC Western Division sales manager. Because consumers are not content to sit tight for brand merchandise, he feels they will attempt to buy the best that their dollars can bring. This will be accomplished only through advertising, he pointed out.

From standpoint of the network's regional business, Mr. Samuels is optimistic because of the improved service being offered by power increase of 50 kw authorized for KGO San Francisco, as well as similiar increases expected by three other affiliates on the West Coast. Further network sales strength will be derived from more thorough coverage in New Mexico, Idaho and Arizona, he reports.

At Top Capacity

CBS Western Division is moving ahead at top capacity according to Arch Morton, West Coast sales manager, who says that fall and winter business will be no less than "99% of last year's billings." Im-

kets are also of that opinion. The rose-colored prophesy is gleaned from business on hand.

A healthy condition prevails in the overall picture. Accounts generally are standing pat, holding on to time, both regional network and local time. And they are clamoring for more. All contracts are on long-term basis. That goes for wines, cosmetics, liquid cleaners, grocery items and food products, too. Retailers in general are pretty well sold on radio, too, providing of course, desirable time can be obtained. Department stores, year by year, are showing greater interest in the media, and are allotting increased slices of their advertising budgets to radio.

Film Increases

Film studios, originally forced into radio by lack of newspaper space, have found the medium an excellent box-office builder. As a result, a majority of major film companies and theatre chains as well, will use more radio this coming season. Many have substantially increased their year-round radio advertising budgets, using transcribed and live spots, as well as various type programs on local stations.

There has been a drop of more than 20% in paid religious time during the past year. Part of this is explained by the non-availability of station time. In other cases it is significant to note that many stations have ceased to sell such time.

proved service is also seen through addition of KSDJ San Diego, expected to be in operation by October.

NBC Western Division enters the fall and winter season with more regional network business on the books than ever before in history, according to Robert McAndrews, Western Division advertising and sales promotion manager. This, he explained, has been attained by steady sale of additional western stations to current sponsors. During the summer, for example, 12 advertisers added a total of 25 optional western stations to their network lineups.

KERO Bakersfield joined the network during the summer. KIST Santa Barbara, will join in fall. Improved coverage will also result from KOMO Seattle power authorization for 50 kw. Other NBC stations carded to increase power are KFSD San Diego, KTFI Twin Falls, and KGLU Safford.

More special copy slanted to West Coast listeners, new regional clients establishing manufacturing plants in the Far West and a possible return cycle of radio amateur shows with low cost and wide appeal are predicted by Sydney Gaynor, general sales manager of Don Lee Broadcasting System.

It is conservatively estimated that religious business amounting to an annual \$2,500,000 is being placed currently from the West Coast. Informed agencies claim that an added \$500,000 will be spent by religious accounts before the year-end

Typical of advertisers are the oil companies. During war years they devoted commercials to conservation, war messages and public service. Today they are selling brand names. Those that cut their radio advertising budgets have now increased with added programs and spot announcements augmenting previous efforts.

Standard Oil Co., San Francisco, in addition to weekly Standard Symphony Hour and Standard School Broadcasts on NBC western stations, on Sept. 20 starts weekly 30-minute Let George Do It on 40 Don Lee Pacific and 8 Intermountain stations. Contract is for 52 weeks. Spot announcements are continuing in major and secondary markets.

General Petroleum Corp., Los Angeles, in and out of radio these past few years, on Sept. 9 starts Sam Hayes Sports Roundup on 14 NBC western stations.

Pathfinder Petroleum Corp., Los Angeles, a relatively new firm, recently appointed Davis & Beaven Adv., that city, to handle its account and will announce media plans following a market analysis.

Richfield Oil Co., Los Angeles, on Aug. 14 renewed for 15th year sixweekly Richfield Reporter on 14 NBC western stations.

western stations.
Signal Oil Co., Los Angeles, is augmenting The Whistler on 15 CBS stations with baseball on various Pacific Coast stations. In addition spot announcements are used.

Budget of Union Oil Co., Los Angeles, covers weekly Michael Shayne program on 40 Don Lee Pacific stations. Firm also sponsors Nelson Pringle, news an(Continued on page 42)

alyst, on 11 CBS Pacific stations five

days per week. Sunset Oil Co., Los Angeles, is spon-sor of It Couldn't Happen, on 11 CBS Pacific stations.

Only regional cancellations during summer on NBC were Hoagy Carmi-chael's Show for Safeway Stores (Nu-Made Mayonnaise) and Pict-Sweet Foods Inc. (frozen foods) Saturday night newscast. Both were caused by product shortages, with Safeway retaining three other shows on NBC western stations. Both open periods were re-sold im-mediately with Monday spot to General Petroleum for Sam Hayes' sportscast and Saturday newscast period going to Peter Paul Candy.

Spot Moves Upward

Spot business signed by NBC Spot Sales in Southern California has increased steadily to point where Holly-wood now ranks behind only New York and Chicago in placing on network's rep-resented stations. This picture reflected by NBC is typical of the other three networks—CBS, ABC and Don Lee. Among active national spot accounts in Los Angeles area is United Rexall Drug Co. which moved headquarters

Drug Co., which moved headquarters from Boston during the year, Sunkist, Mutual Orange Growers, Western Stove. Bekins Van & Storage, Mission Appli-ance, are other spot leaders.

Although shortage of many commodities continues and will for many months to come, in the overall picture, grocery items, cereals, flour, enriched breads, wines, cosmetics, vitamins, and pharmaceuticals are standing by their schedules, with liquid cleaners and some food products plan-ning to branch out before the year-

Hunt's Food's Inc., Los Angeles (canned foods), having gone through an extensive expansion this past year, has broad plans for the future. Firm currently sponsors the five weekly What's Doin', Ladies on 21 ABC western stations and uses spot radio in a few selected markets. Report is circulated that firm is interested in a transcontinental show providing desirable network time and type of program can be obtained.

Safeway Stores, Oakland, Calif., continues to sponsor five-weekly Aunt Mary (Kitchen Kraft Flour) and Dr. Paul (Dwight Edwards Coffee), on NBC Western and mid-West stations. Safeway (meats) sponsors weekly Night Editor on 18 NBC Western stations. Peralta Wine Co. (Monte Cristo wines), subsidiary of Safeway, following summer lay-off, on Sept. 3 resumes weekly Count of Monte Cristo on 18 Don Lee California stations.

Safeway Opera Plans

Safeway Stores also plans to sponsor full operas of the San Francisco season over an "elastic" network of independent western stations. Ten full operas will be presented over a five-week period, utilizing per-occasional United Pacific Network list of stations. Each broadcast is to take approximately four hours. Firm sponsored one hour of various operas last year on Don Lee-Mutual stations. Safeway in addition has other regional network programs under consideration for late fall and will continue to use spot radio.

Rosefield Packing Co., (Skippy peanut butter), has expanded weekly half-hour transcribed Skippy Hollywood Theatre to 32 stations and will add others to list as markets are established. Scudder Food Products, Monterey Park, Cal. (Blue Bird potato chips, mayonnaise), continues to use California spot radio time, with newscasts as well as

announcements.
Loma Linda Food Corp., Arlington, Calif. continues to sponsor twice-weekly Burritt Wheeler, commentator on 11 CBS Pacific stations.

Pict-Sweet Foods Inc., (food products), sponsors weekly half-hour Hope Chest on 11 CBS Pacific stations, with Washington State Cooperative Farmers' Assn. (Lynden foods), sponsoring twice weekly 15-minute participation in Meet the Missus on a similar list of CBS stations.

J. I. Fancy Frozen Foods, Stockton, Calif. is a comparatively new user of the media, and is in 12 major markets with both live and transcribed shows. Firm on Aug. 4 started for 52 weeks half-hour Holiday of Homicide on 6 CBS California stations, and is using an extensive transcribed schedule in major midwestern and eastern markets. Others will be added.

Southern Cotton Oil Co., (Wesson Oil, Snowdrift), sponsors Noah Webster Says on NBC Pacific stations, and transcribes program for release in other

Rancho Soup Co., Sunnyvale, Calif., (canned soups), will release a new schedule of spot announcements Sept. 1 on principal western stations.

Beverage Accounts

Not to be forgotten are beverage accounts. Although beer is not so active as it might be for the moment because of Government regulations, wine and other beverages give healthy billing to radio. Besides those using national network, such as Roma Wine Co., spon-soring weekly Suspense on CBS sta-tions, there are wine makers and distributors with heavy spot campaigns on the air.

E & J. Gallo Winery, Modesto, Calif., using 600 transcribed announcements weekly on 60 stations in 32 cities, will add to its list and may extend length of the campaign.

Alta Vineyards Co., San Francisco; Fruit Industries, Los Angeles (wine co-operative) and Franzia Bros., Ripon, Calif. also have spot campaigns in major markets, and will increase coverage with holiday season approaching.

Squirt Co., Beverly Hills, Calif. (grapefruit beverage), with local bottler and distributor tie-in will use spot radio along with other media, according to 1947 schedule being formulated. New advertising and sales promotion plans will be revealed to Squirt bottlers at annual convention in Miami Nov. 18.

In cosmetics, Colonial Dames Inc., Los Angeles, sponsoring five-minute weekly Surprise Theatre on 13 CBS Pa-

weekly Surprise Theatre on 13 CBS Pacific stations. Firm also has spot announcements and special tie-in deals in various western markets. E. O. Anderson Co., Santa Monica, Calif., (Shontex shampoo, hair conditioner), in addition to twice-weekly Fulton Lewis jr. on 8 Don Lee Pacific stations, has expanded into midwestern market and is using participation in Gold Coast Rhythm on WBBM Chicago.

Toni Inc., St. Paul (Toni hair wave), uses thrice-weekly participation in Meet the Missus on 17 CBS western sta-tions. Trimal Labs., Los Angeles (fingernail polish remover), a heavy user of magazine space, will test on KFRE Fresno, Calif., utilizing a daily participation program, starting about Sept. 1. If test is successful, J. W. Marrow, head of firm, contemplates a national spot campaign.

Soap Firms Still Active

Detergents, cleaners and soap advertisers have maintained a steady West Coast schedule during the past year and from survey made, no immediate

changes are anticipated.

Los Angeles Soap Co., Los Angeles (White King, Sierra Pine, Scotch cleanser), is spending approximately \$300,000 yearly in western radio and is expected to continue its present schedule without interruption. In addition to Graeme Fletcher, news five-weekly on NBC west-ern stations, firm sponsors thrice-week-ly Breakfast News on 40 Don Lee Pacific and 3 Arizona stations. News flash announcements and newscasts are also sponsored in Arizona, Oregon, Texas, New Mexico and Colorado. Firm is thinking along expansion lines.

Manhattan Soap Co. (Sweetheart, Blue White), is continuing Bob Garred-News on 13 CBS Pacific stations, thrice week-

Chemicals Inc., Oakland, Calif. (Vano),

sponsors weekly Don't You Believe It on 10 CBS Pacific stations, with transcribed programs in eastern markets. Wilco Co., Los Angeles (Clearex, Bif), has Burritt Wheeler, commentator, on 11 CBS Pacific stations twice weekly. Simoniz Co., (polish), utilizes weekly 15-minute participation in Meet the Missus on 18 CBS Western stations

Missus on 18 CBS Western stations. A comprehensive fall campaign in the ten western states, Alaska and Hawaii, will be started shortly by Fisher Flouring Mills Co., Seattle (Biskit Mix, Zoom), according to John Walker, manager of packaged products division. Firm has allotted \$350,000 to the campaign, and radio is to be used extensively along with other media, he said. Besides the five-weekly James Abbe Observes on 25 ABC western stations, firm will sponsor 20 newscasts weekly on KOMO Seattle and use a heavy spot announcement schedule on other western sta-

Sperry Flour Co. is continuing the six-weekly serial. This Woman's Secret (Drifted Snow flour) and Sam Hayes-News (pancake and waffle flour), on NBC Pacific stations and in addition is using other western radio.

Langendorf United Bakeries, San Francisco, (Pacific Coast chain), on Aug. 6 renewed thrice-weekly Red Ryder on Don Lee Pacific stations.

Interstate Bakeries, Los Angeles (co-operative), has Cisco Kid on 9 Don Lee California stations thrice-weekly. Gravem-Inglis Co., Stockton, (bread), utilizes facilities of KYOS KTRB KWG KGDM to promote its products.

Candy Activity

Despite sugar shortages, firms like Peter Paul Inc., Planters Nut & Chocolate Co., William Wrigley Jr. Co., Brown & Haley Candy Co., maintain their western radio schedules. Guittard Chocolate Co., San Francisco, out of radio for some months, on Aug. 4 resumed with Cooks Cruise on 13 CBS stations, under a 52 week contract. stations, under a 52 week contract.

Among coffee accounts, J. A. Folger & Co., San Francisco, in early August renewed for 52 weeks twice-weekly Breakfast News on 40 Don Lee Pacific and 3 Arizona stations. With OPA relaxing on prices, other western radio will be used by Folger. Other coffee concerns, dormant during the past year, are reviewing their advertising plans, and according to agency executives in the know are contemplating healthy dips into radio again, with some start-ing in the immediate future. Other types of advertisers are also

continuing their radio advertising using newscasts, spots, and transcribed programs. Many of these are in the smaller brackets, but their radio advertising appropriations are heavy.

Big Sunkist Drive

With a bumper crop of Sunkist lemons on hand, California Fruit Growers Exchange, Los Angeles, at reported outlay of \$75,000 for time alone, in mid-August started for 13 weeks using schedule of transcribed announcements on more than 200 Keystone Broadcasting System stations. This is in addition to other spot radio being used by the cooperative.

Precision Medical Labs., North Hol-

lywood, Calif. (Bates Formula), new to radio, is using a total of 84 transcribed singing announcements weekly on KXLA KPRO KFMB KCRA KWG, and with establishment of new markets will add to station list.

Nutritional Research Prods., Los Angeles (Waytrol), is sponsoring weekly Dusty Records on 7 Don Lee South-ern California stations and is using other radio in that area, with expansion considered.

McMahan Furniture Stores, Santa Monica, Calif., (retail chain), in addition to five-weekly Knox Manning, news" on 4 CBS California stations, sponsors newscasts on California locals. Sealy Mattress Co., Los Angeles, has "Alvin Wilder, Commentator," on 14 ABC Pa-cific stations.

Payne Furnace Co., Beverly Hills, Calif. (furnaces), subsidiary of Dresser Industries Inc., Cleveland, with dealer and local distributor tie-in, is increasing its transcribed spot announcement

campaign nationally.
Pacific Finance Corp., Los Angeles (personal loans), has a weekly recorded Your Sunday Favorite on 10 Don Lee Pacific stations.

Seaboard Finance Corp., Los Angeles (personal loans), is another heavy radio advertiser, and is using newscasts and spot announcements on Western stations and those on the Atlantic seaboard.

Ferry-Morse Seed Co., Detroit (seeds), in early August renews for 52 weeks, Time for Rolly Langley on 6 CBS Pacific stations.

United-Rexall Enlarges

Although budget increases weren't revealed, United-Rexall Drug Co., will enlarge its cooperative spot radio this coming fall and winter, according to Thomas Lane, director of advertising and calls promotion bedguartered in and sales promotion, headquartered in

Los Angeles.
Firm has five-weekly 15-minute musicals on KFI KHJ KNX KPO WNEW WCOP. In the enlarged spot campaign, several news programs will be developed with other stations added to list, Mr. Lane indicated. BBDO handles United-Rexall cooperative advertising. United-Rexall also sponsors weekly "Durante-Moore Show" on CBS, resuming in mid-September. N. W. Ayer & Son handle production.

Studebaker Pacific Corp. (cars), recently started 30-minute weekly "Melody Hour on 17 CBS western stations.

Hexol Inc., San Francisco (household disinfectant), is testing with a fiveweekly, quarter-hour personality program on KFIO Spokane. Present plans call for extension on national basis in near future.

Arden Farms, Seattle (dairy products), with an advertising budget estimated around \$250,000 annually, devotes 50% to radio and in addition to using spot announcements in Washington and Oregon, also sponsors participation in programs. Additional radio is planned for early next year.

SALES MANAGERS AT WLAC CONFAB

They learn the power of 50 kw radio coverage behind WLAC-advertised products.

QUIZ MASTER Paul Oliphant, WLAC program director, handles the mike. Prizes for correct answers were advertisers' products. Among those in photo are Sterling Beer's Charlie Wells and Esso's A. S. McCalmont.

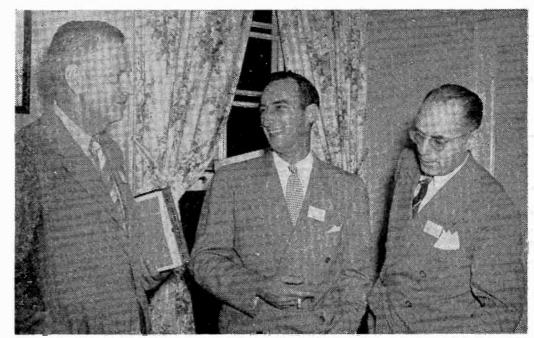

THE SOAP SITUATION is discussed by R. C. Smith (center) of Lever Brothers Company; J. K. Eastham (left) and D. B. Simms (both of Colgate-Palmolive-Peet).

CAMPBELL'S SOUPS, Columbia Records and Swifts Ice Cream were represented by (left to right) Oscar Lucas, Reynolds Carey and J. S. E. Kent.

To make sales managers more fully aware of the intensive radio advertising support of their products, Nashville's WLAC invited a special group to a carefully planned dinner meeting. Charts explained the market coverage on both spot announcement and program schedules . . . and the low advertising cost per family reached. After-dinner entertainment included a quiz about products of firms represented. The enthusiastic response to the meeting indicates a return engagement.

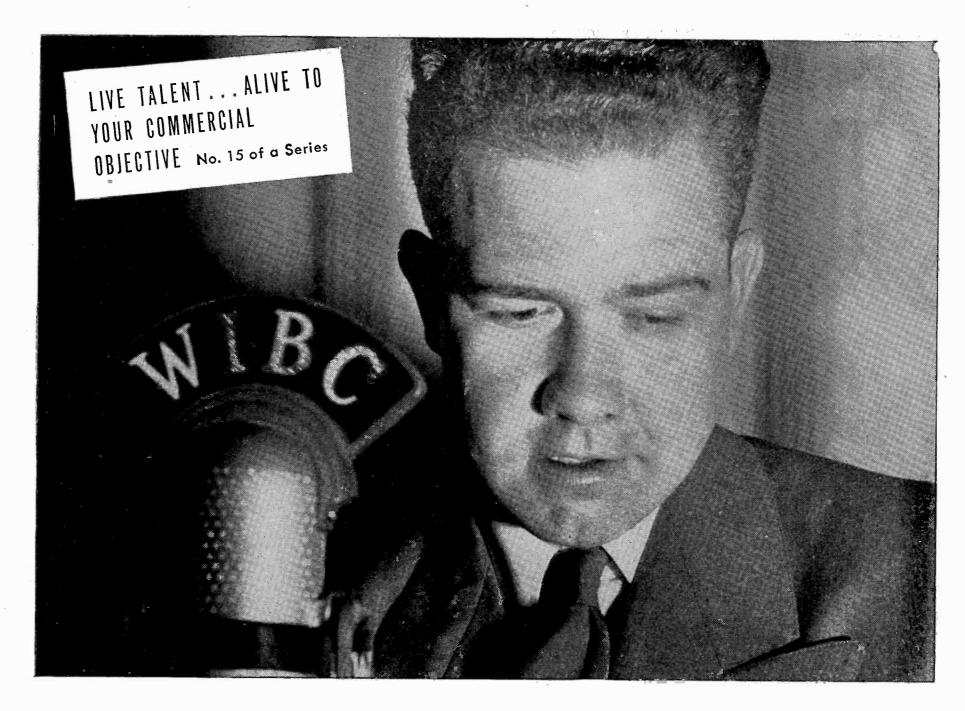

ALLEN BERRY (left) president of McKesson-Berry-Martin, wholesale druggists, with Tom Baker, WLAC, and F. C. Sowell, the station's general manager.

GENERAL ELECTRIC'S J. T. Cates, Nash-Kelvinator's Carl W. Thomas and DLC's Charles Kennedy, talk things over while waiting for the call to dinner.

GOOD FELLOWSHIP among varied lines. Left to right are Frank Rutherford (Beech-Nut Gum); H. A. Beasley (Pet Milk); H. H. Dorris (Lay's Potato Chips) and Allen Buckner (General Foods).

Shelton's Right at Home ...In the Air... Or On It!

Jim Shelton is a man who, one way or another, takes to the air with "the greatest of ease." A staff announcer for WIBC and other outlets before the war, Jim spent the better part of three years on heavy bombers as a flying radio instructor for the AAF. Now, he's back on the air for the fastest growing station in Indianapolis—meaning, of course, WIBC.

Despite his airmindedness, Jim Shelton is no slouch on the street—as is proved by the popularity of his week-day sidewalk show, "You Take the Mike." In addition, he presents three newscasts each afternoon, six days a week . . . emcees the "Barnyard Gang" show . . . also handles special interviews and narration for the "Cares Away" record party.

The versatility displayed by Jim Shelton in doing so many jobs so well is shared by the entire WIBC live talent staff. In every department—continuity, production, presentation—you will find personalities who have been carefully chosen for their background, resourcefulness and ability . . . well schooled in the art of creating live talent shows that sell Hoosiers—Hoosier-style. Ask your John Blair man for facts and figures today!

JOHN BLAIR & COMPANY . NATIONAL REPRESENTATIVES

Owned and Operated by The Indianapolis News

Midwest Business

(Continued from page 17)

tributed "considerably" to the network's estimated \$200,000 increase in national billing, citing the Kay Daumit Inc. (Lustre Creme) sponsorship of Don McNeill's *Breakfast Club* and the signing by Russel M. Seeds & Co. of Johnnie Neblett for a five-minute segment, 1:55-2 p.m. Sundays for Brown & Williamson Tobacco Co.

Agency executives refused to discuss prospective campaigns of clients, either present or future, or radio revenue. However, they admit interest in radio time for many of their accounts, providing material shortages and labor conditions are eased by autumn. Many indicate they are looking for cheaper shows, and are beginning to consider five-minute segments, co-ops and transcribed package programs in place of expensive live productions. As a case in point, Russel M. Seeds has surrendered time for the Hildegarde Show for Brown & Williamson, replacing it with the Neblett five-minute package on a 52-week contract.

Agency Comment

Here are typical answers from Chicago agencies.

Kenneth Craig, radio director, McCann-Erickson: "I'd like to release our figures but it's against company policy. However, Chicago accounts include International Harvester (Harvest of Stars) which recently signed Jimmy Melton, Standard Oil (Ind.) with newscasts in about 18 markets, and Swift & Co. with ABC Breakfast Club. We do think the rest of 1946 will carry us over our 1945 billing."

Fairfax Cone, Foote, Cone & Belding, Chicago: "We're back in the selling game again and I don't think anyone can predict, at least accurately, what 1947 will bring. Our present clients have indicated they expect no retrenchment, but whether they will increase, and how much, is strictly confidential."

The agency's radio department was unable to supply a total for the first six months but said it would compare "favorably" with the same period last year. Biggest radio account is, of course, the *Bob Hope Show* for Pepsodent.

Hal Rorke, radio director of J. Walter Thompson Co., Chicago: "We do not keep separate figures for the Chicago office. On the whole I would say fall business should more than equal our 1945 billing. Providing grain restrictions are lifted, it should increase substantially."

Mr. Rorke referred to the Cole Milling account which had contracted for sponsorship of Smilin' Ed McConnell on MBS but was forced to suspend its proposed campaign due to the government's wheat order. While the Chicago office lost The Seven Up Show due to sugar shortages, and had the Ford account (Bob Crosby Show, CBS) transferred to its New York office, other accounts have gone in

CONTRACT to provide KDTH-FM Dubuque, Iowa, with latest equipment is being signed by F. W. Woodward, owner of KDTH Dubuque. Looking on (1 to r) are Robert Woodward, son of the station owner; Kenneth Gordon, KDTH manager, and E. H. Taylor, Central District manager of broadcast equipment for Graybar Electric Co. New equipment will include a 50 kw Western Electric FM transmitter and Blaw-Knox tower.

heavily for spot business as well as network. Present network accounts include Swift & Co. (ABC Breakfast Club) Elgin Watch Co., (holiday specials), Libby, McNeill & Libby, (My True Story, ABC) and Parker Pen (news, NBC).

Tax Angle

Harlow Roberts, radio director, Goodkind, Joice & Morgan, Chicago: "We couldn't give you an estimate of our 1946 business or its percentage increase because it is divided jointly between Chicago and our Los Angeles office. Our radio accounts use spots almost exclusively at present and providing food shortages and other unnatural conditions improve, should continue to make use of radio."

Mr. Roberts said clients were beginning to have new respect for the tax dollar as a result of the Government's reduction of excess profits tax and that in the future both spot and program buying would get severe examination.

Walter Wade, president of Wade Adv., Chicago: "I wouldn't be in favor of revealing our current billing, but you already know that our 1945 revenue (estimated at \$5,500,000) was nearly \$1,000,000 over 1944. We hope to exceed that amount considerably by the end of the year."

Wade's biggest account is Miles Laboratories which currently sponsors Queen for a Day jointly with Procter & Gamble on MBS, Lum'n' Abner on ABC, National Barn Dance on NBC and Quiz Kids on ABC. Last-named program shifts to NBC and Roy Rogers and cast supplants the 14-year sponsorship of Barn Dance, originated by WLS. Mr. Wade said he saw "no reason" why the agency's billing should not exceed the 1945 total by 10 to 15%.

Should the threatened printing strike develop, agencies look for heavy users of magazines and

newsprint to flock to radio for availabilities. Particularly is this true of the Chicago area, home of some of the world's largest printing plants.

Predicts Rise

In the Twin Cities, A. E. Joscelyn, manager of WCCO, CBS-owned outlet, predicted the station would enjoy the highest billing in its 22 years, topping 1945 by a substantial margin. Tom Dawson, WCCO sales manager, recently back from New York, and Harvey Struthers, WCCO Chicago sales contact, outlined the picture in those centers to Mr. Joscelyn, who sees a 4% to 5% rise in WCCO's sales, and 10% to 12% rise in national spot.

LEGION CRITICIZES FEDERAL INTRUSION

FLAT stand in favor of the American plan of private radio operation and against governmental interference was taken by the 28th annual convention of the American Legion, Dept. of Oregon, NAB has been informed.

In a resolution the Legion resolved in favor of "a continuance of the American System of Broadcasting, which allows freedom of speech and no censorship imposed by any Governmental agency on programs of networks or individual stations." It further resolved "that any censorship of such broadcasting would be a violation of our American Bill of Rights and the freedom for which we have fought."

The convention passed a resolution recognizing the "fine aid and assistance that has been given to the American Legion during the past year by the radio broadcasting industry of Oregon."

DRUG ADVERTISING CRACKDOWN URGED

AUGUST issue of the Journal of the American Pharmaceutical Association editorially urges a cleanup of drug advertising used on the radio.

The Journal comments on an address made by Surgeon General Thomas Parran of the U. S. Public Health Service and on expansion of the Advsory Committee on Advertising of the Proprietary Assn. [Broadcasting, July 29].

"We have a right to expect that radio, and other advertising media, will meet this proposal at least halfway to control wayward proprietary advertisers," the magazine said, pointing out that control is needed to protect the reputable drug manufacturer, pharmacist and physician.

The Journal conceded that "the manufacturers overstepping the bounds with a 'slick' view of medical product advertising are a minority." A similar editorial was carried by the same publication last November.

ABOUT THE PROBLEM IN DAYLIGHT SAVING

Let's face it friends. The three-hour differential between E.S.T. and P.S.T. often poses a bit of a timing problem for Coast to Coast radio advertisers. But back when Daylight Saving reared its pretty head and T.C. programs were delayed an additional hour, something had to be done to prevent the top offerings of our good network from hitting the West Coast in time periods that couldn't possibly command maximum audiences.

Our Business Manager, George Whitney, took the dilemma by the horns (so to speak) and instigated a procedure for KFI which was soon to be followed by all the NBC affiliates in these western parts. This very practical idea was just this: to hold back leading Eastern network programs for release at better audience time periods on the West Coast. Simple, wasn't it?...but so effective!

This plan has made it possible for KFI listeners to hear their favorite shows at their favorite (and normal) times instead of having to rely upon Cousin Kate's memory or little Jimmie's guess as to what happened on what program. Sponsors of these big packages have benefited greatly from this action too,* and we wouldn't be at all surprised if more stations on more networks adopt similar operations when and if Daylight Saving next moves in. KFI benefits sponsors lots of ways. Ask us.

Television May Aid Shopping Say 77%

Results of Kaufmann's Intra-Store Shows Tabulated

RESULTS of intra-store television shows at Kaufmann's, Pittsburgh Dept. Store, June 17-29 [BROADCASTING, July 1], indicated 77% of the viewers thought television might be an aid in their shopping. Tabulation of the survey was completed and announced last week.

Audience for the entire period totaled 59,339—30,256 at eight viewing locations throughout the store and 29,083 at the eleventh floor studio where shows were produced.

The survey form used and the responses listed by percentages follow:

- 1. Do you expect to visit the department mentioned in this telecast. Yes—47. No.—22. Maybe—31.
 - 2. Do you feel television might

Named by Agency

KENNETH L. ROBINSON has been appointed radio director of Arthur Meyerhoff & Co., Chicago, according to announcement last week by Mr. Meyerhoff, agency

head. Mr. Robinson has been acting in that capacity since the death last December of Nelson Shawn. With the agency since 1940, Mr. Robinson previously had been with NBC as continuity editor for four years, it was

contir for Mr. Robinson

four years, it was announced.

RENO IMPASSE Coin Used to Break Deadlock In Ad Club Election

NEW Reno Advertising Club faced an impasse at the very start of its career when Merle Snider, manager of KOH (NBC), and Dave McKay, manager of KOLO (CBS), tied in election for vice president. After efforts to break the deadlock failed, a coin was flipped by Bob Stoddard, manager of KATO, Don Lee-Mutual station. Although Mr. McKay called the toss, Mr. Snider won and became first vice president. The loser was named second vice president.

Other officers are: Thomas C. Wilson, Thomas C. Wilson Adv. Agency, president; Dixie Hammer, advertising manager of Nevada State Labor News, secretary-treasurer. Directors are Lyle Harper, Reno Newspapers Inc.; Jess Heywood, Heywood Outdoor Adv. Co., and Peter Burke, Burke and Weaver Printing Co.

be an aid in your shopping? Yes—77. No—6. Maybe—17.

- 3. Did television bring you to Kaufmann's today? Yes—44. No—56.
- 4. Is this the first time you have seen television? Yes—70. No—30.
- 5. Was the show: Too long—10; too short—13; o.k.—77.
- 6. Was it: Interesting—74; dull—7; fair—19.
- 7. Would you prefer: More entertainment—41; more merchandise—20; more live shows—39.
- 8. Would you suggest Show-by-Television as a permanent Kaufmann feature? Yes—88. No—12.

Of the audience 36% were men, and 64% women.

Many Requests

Store officials said that merchandising response was "as good as had been expected." Many instances of requests to see clothing shown in fashion shows were received and requests to see merchandise from the television show were heard throughout the store.

Kaufmann's found that fashion shows gained and held more attention than any other type of performance. With two exceptions the fashion shows did not feature a single manufacturer or brand name, although in most cases the designer's name was mentioned. Price and store location were given at least once for each dress modeled.

Experiments in straight merchandise presentation with no attempt at dramatization failed to hold audience attention.

Preparing for the showing in March, Kaufmann's sent 150 letters to firms whose merchandise was sold in the store, asking participation. Scripts, story outlines and in a few cases, promises of fully prepared shows were returned. Most of the scripts, however, were prepared in radio technique with stress on dialogue rather than action, and many of the production limitations of television had not been recognized. Considerable rewriting was necessary.

Control Room on View

To keep the presentation within professional lines, a 20 x 60 foot television studio was erected on the 11th floor of the store with a 20 x 10 foot control room situated so the audience might also view the control action. Store electricians installed coaxial cable, provided by RCA-Victor, from the studio to eight viewing locations in the store. A line consisting of telephone wire matched pairs and a monitoring system were installed by Bell Telephone over a seven mile route between Kaufmann's and The Kaufmann Fellowship at The Mellon Institute of Industrial Research.

Rehearsals, under a professional RCA-Victor television director, started June 14. Each 15 minute show required one and one-half to two hours of before-the-camera rehearsal time.

Shows Every Hour

Shows were presented every hour on the hour. Majority of shows presented merchandise of various companies participating: Royal Lace Paper Co. through Kiesewetter, Wetterau & Baker; Aluminum Cooking Utensil Co.; Comprehensive Fabrics; McCall Corp.; Textron; Kittinger Co.; Air-Lume Furniture; Coty; Alligator Rainwear, through Ruthrauff & Ryan; Quaker Lace; Wellington Sears Co. (Martex), through H. B. Humphrey Co.; Eversharp through Biow Co.; Hickey Freeman; Glentex Scarves; Buster Brown Shoe Co. through Leo Burnett Co.; Simmons Co.; North Star Woolen Co. through BBDO; Ideal Toy Co.; Simmons Electronic Blanket: George D. Roper Corp. (stoves); B. Kuppenheimer & Co.: Allegheny Ludlum Steel Co. through Walker-Downing agency.

Minehan Named

FRANK MINEHAN, former media director of Pedlar & Ryan,

Mr. Minehan

New York, and prior to that with Lever Bros., has joined Sullivan, Stauffer, Colwell & Bayles, New York, as media director. In his new post he will be in charge of radio and space advertising for the newly formed New York agency.

Stromberg-Carlson Set Production at New High

PEACETIME radio production of the Stromberg-Carlson Co., Rochester, N. Y., reached an all-time high during the month of June, Lee McCanne, vice president and general manager of the firm, said last week.

He reported that average daily production in July had surpassed the June average, but that an 11-day vacation period in July had cut into the total output. Mr. Mc-Canne said now that stepped-up production has been resumed, August promises to top the June figures, and despite early 1946 strikes in suppliers' plants and a resulting shortage of parts, Stromberg-Carlson radio production has already eclipsed the best pre-war year.

Mr. McCanne said that Stromberg-Carlson is equipping 90% of its floor models for FM reception.

Veterans Service
EMPLOYMENT service committee for veterans attempting to get into the radio industry has been organized by the Press, Advertising and Radio Chapter of the American Veterans Committee. Veterans interested should communicate with Sydney P. Gooze, 20th Century Fox, New York.

The Little Man W

ho is Always There

The "little man" is what we affectionately call our symbol and trade-mark. All WBAL publicity and advertising show the" little man" clothed in an original Lord Baltimore costume. The little man is WBAL.

If you lived in Baltimore, you'd know that you can hardly make a turn without running into WBAL in some way. Because of its powerful programming, Baltimoreans just naturally tune in WBAL—and so, Baltimoreans just naturally hear your message.

Besides, there's a wide-awake Merchandising Department at WBAL that ties up programs at point of sale. That's why we say "Wherever you go in Baltimore, the 'little man' is always there."

Two and two make four—Use WBAL to reach Baltimore.

Editorial

Orderly Processing

THE FCC'S new processing plan for AM applications, carried in a BROADCASTING supplement Aug. 19, appears to be a step in the right direction.

Applicants now will be able to determine with some degree of accuracy the status of their applications.

But there is an additional advantage. An established docket of this sort should give the FCC a ready shield against political pressure. If someone wants a favor done for a friend, he can be told with dispatch that the applicants are being considered in order—and the order is available for all to study.

It will work if that pressure from outside the Commission is resisted. And it should discourage pressure from within the Commission, which is not exactly an unknown factor.

We understand that Acting Chairman Charles R. Denny Jr. principally is responsible for formulating the proposal. He and those who worked on it are to be congratulated, for it reflects sound administration and conscientious planning.

Time thus devoted will produce more gratifying results than effort expended on Blue Books. For, through broadening the competition in radio by speeding up action on applications, we will arrive naturally at the result which is sought artificially in that 137-page palliative of prose: Better radio.

Free Speech-less

THAT CHAP on the editorial staff of the St. Louis Post-Dispatch must be back from his vacation.

He's the one who writes about radio. The fellow, you will remember, who plays the type-writer by ear. The trouble with these prodigies is their inability to transpose from one key to another.

He's still writing about wicked commercialism on radio and his latest sub-title is, "A Phoney Free Speech Issue." He bases his essay on the statement by the American Civil Liberties Union that the FCC Blue Book means more freedom on the air, rather than less.

In fact, on the same editorial page, the ACLU statement is printed in a department entitled, "The Mirror of Public Opinion,"

BROADCASTING carried an editorial on Page 20 of its June 10 issue. It was entitled "Eyelids & Earflaps" (corny, we acknowledge). This editorial viewed the *P-D* campaign somewhat petulantly, since it was written after a pica rule had been applied to the newspaper's advertising lineage. The editorial also said the *P-D* station, KSD, a commercial outlet, admittedly is one of the best stations in the country.

But did anybody reprint our editorial? Nope.

Free speech? Hah! It's a phrase for poets. We are crushed.

Bing's Big Bang

A RADIO Pandora's Box may spring open with the signing of Bing Crosby to go transcription for Philco this fall. It is one of the fruits of the transcribed documentary which came into its own during the war and broke down partially the network resistance to the transcription. Only time will tell whether it is for good or for evil.

With a performer of Bing's stature going 100% wax, the transcribed broadcast gets its greatest impetus since radio began. It is admittedly an experiment, for if Bing's rating isn't maintained, he reverts to live broadcasts. The \$30,000 a week talent fee is a new high for any kind of weekly broadcast. The 600-station combined network-spot schedule proudly proclaimed by Philco is also a record.

Bing, top performer that he is, became weary of the rigors of a weekly rehearsal and broadcast. He wants to package a flock of shows in one sitting, to give him leisure for other pursuits. A high Hooper, phenomenal record sales and brisk competition for his services made it possible for Bing to write his own ticket. That popularity, in the first instance, was cultivated by live radio.

If Bing achieves any degree of success in maintaining his audience rating, other top-flighters will insist upon going wax.

There's a more serious side. The advertiser and his agency, already exerting great influence over programming, would become practically autonomous. Why a network anyway? Just buy the lines or ship air express for simultaneous broadcast, without regard to time differentials. Eliminate the repeat broadcast. The client tailors his own network to suit each schedule.

Would the networks then be able to maintain national service at high level? What would happen to special events coverage; a national emergency; an inauguration; a Bikini atom test; a world's series; Presidential speeches on the state of the nation?

Bing's innovation may be the harbinger of what happens when a performer grows bigger than the medium that made him. It may be duck soup for the advertiser and the agency. But is it good radio—good for the audience?

We think the public will accept a certain amount of transcribed programming, but that it prefers "in the flesh" broadcasts. We think Bing's Hooper won't stand up after a few prerecorded shows with old tunes and antiquated gags.

Beyond everything else, we think that any development which detracts from radio's flexibility as a spontaneous medium will undermine its growth, stifle initiative and head it toward glorified juke-box operation.

WITH FM stations being licensed wholesale the question of call letter assignments arises again to plague broadcasters. FCC's optional system allows regular four-letter calls in cases of joint AM operation, the addition of the suffix "FM" or "TV" following the call. Call letters are a valuable asset. What happens in the future when the AM operation may be dropped, and along with it a call built up over years of good service? Everett Dillard, who has operated KOZY in Kansas City since 1942, has an answer. He does it this way: "KOZY (FM)"—not "KOZY-FM."

Our Respects To _

ROBERT TALCOTT COLWELL

"OFTEN a bridesmaid but finally a bride." That, except for the distortion of gender, might aptly be the legend of Robert Talcott Colwell, partner of the new advertising firm of Sullivan, Stauffer, Colwell & Bayles, New York.

Long the silent support in the marriage of agency and sponsor, Mr. Colwell finally has uttered the "I do" that has entitled him, with his partners, to a place of his own with his own name over the mailbox.

But far from settling down with his memories and scrapbook, Mr. Colwell and his colleagues have already consummated a few memorable projects of their own as they head into their third month of operations with billings already upward of \$5 million.

Mr. Colwell's entry into advertising occurred in 1925 when he exchanged a Phi Betta Kappa key and a BS degree from Colgate U. for a job as copywriter with the Providence, R. I., firm of Livermore Knight advertising agency, composing booklets and house organs.

In 1929, four years and perhaps 300 house organs later, he packed his booklets and moved to J. Walter Thompson Co. in New York, again as copywriter. Later that same year he entered the agency's radio department to sparkplug, through the years, the Eddie Cantor show, the Rudy Vallee program, Lux Radio Theatre, Burns and Allen and Edgar Bergen.

Simultaneously he turned to play writing to author a pre-atomic house-raiser called "Strictly Dynamite." Bought by Hollywood, the movie provided lustre for Jimmy Durante and Lupe Velez and negotiable fodder for Mr. Colwell. He also wrote many of the skits in the first Ziegfeld Follies produced after Florenz Ziegfeld's death.

His by-line has appeared, too, on many magazine articles in Collier's, Life, and Coronet.

In 1936 Mr. Colwell was named a copy-group head at J. Walter Thompson, succeeding Henry Legler who had resigned to form his own agency, Warwick & Legler. In this capacity, he supervised a group of writers turning out copy for Royal Gelatin, Royal Baking Powder, Vermont Maid maple syrup and many other accounts. A year later he was transferred to head still another group of writers working on the Old Gold cigarette and Chase and Sanborn coffee accounts.

In quick succession, starting in 1942, he became vice president in charge of radio programming, then a member of the JWT board of directors in 1943, and in April 1946 he was

(Continued on page 52)

"New York's Most Beloved Radio Station"

"It is a great satisfaction to come home, turn to WQXR and hear the world's finest music," writes a listener in a letter typical of thousands received by WQXR. More than half a million families in metropolitan New York—a city within a city—feel this way about WQXR. They love good music; they tune to WQXR for 62% of their radio listening time. So intense is their interest, over 34,000 of these families pay \$1 a year to receive WQXR's Monthly Program Guide.

It's no wonder that WQXR is "New York's Most Beloved Radio Station"... for you can't be casual about good music... you love it, or you don't. WQXR families are discriminating not only in the programs they choose, but also in the products they buy. Over 53 advertisers use WQXR to sell this important above-average income market. For effective advertising results, buy WQXR... the station noted for good music and the news bulletins of The New York Times.

elected chairman of the company's plan board.

During 1944 Mr. Colwell took a leave of absence from the agency to join OWI as radio chief of the Psychological Warfare division, 12th Army Group in charge of American Army broadcasts beamed at the enemy over Radio Luxemembourg.

Since his return to the U.S. he has presented occasional lectures on radio and advertising before advertising and selling club classes and similar classes at Columbia and New York Universities.

As partner of SSC&B, Mr. Colwell, is in charge of all the creative work for the agency, including copy, art, and production. He will personally be in charge of the com-

mercials on the agency's newly acquired Bob Burns, Ellery Queen and Jimmie Fidler shows.

When the agency started, the partners decided to specialize in packaged foods, drugs and cosmetics. Mr. Sullivan brought with him the Noxzema and Smith Bros. cough drops accounts, reputed to represent over \$2 million together in billings. The agency has also acquired Arrid deoderant (Carter Products) account, along with American Home Products' Anacin, Kolynos, and Bisodol.

Mr. Colwell was born Jan. 25, 1903, in Auburn, N. Y. During his third and fourth years at Colgate U. he obtained part time jobs at a book store and then worked as a reporter on the *Auburn Citizen*.

Eighteen years ago, when he was associated with the Providence R. I., agency, Mr. Colwell met and married the former Louise

Otis. The Colwells have three children, Howard, 16, Richard, 13 and Susan, 8. They live in Pelham, N. Y. Howard has joined the ranks of the CBS pages.

His friends describe Mr. Colwell as a "Lovable guy but a lousy golf-player." His score on an 18-hole course averages 105. Bowling a little and reading much also interest him.

He is a member of the Writers War Board, a member of the Council of the Radio Writers Guild as well as a member of the Council of the Authors League of America, the Pelham Country Club and the Colgate Alumni Assn.

Van Diver and Carlyle Form New York Agency

VERNON H. VAN DIVER, formerly advertising manager of the Union Carbide and Carbon Co., New York, and Paul Carlyle, formerly art director of Grey Advertising, New York, have formed a new advertising agency, Brad-Vern, Van Diver & Carlyle Inc., located in the McGraw-Hill Bldg., New York.

Brad-Vern are the two names of Mr. Van Diver's sons, now in college, and was the name of their trade paper which was absorbed by *Printer's Ink*, New York, approximately two years ago. Mr. Van Diver is president of the new firm; Mr. Carlyle, vice president in charge of art and production.

REVISED CONTRACT MATS TO BE SENT

NEW standard contracts, in mat form, are being prepared by NAB for mailing to stations in the near future. The contract conditions were approved at the Aug. 6-8 NAB board meeting following months of discussion by a joint NAB-AAAA subcommittee.

The new standard contract replaces the 1942 form, still in general use, and includes a number of important changes to take care of developments in broadcast and agency practices.

Subcommittee members were: For NAB—Walter Johnson, WTIC Hartford, chairman; Frank Webb. Lewis H. Avery Inc.; Howard Meighan, CBS; Ben Laird, Green Bay Broadcasting Co.; Sam Bennett, KMBC Kansas City. For AAAA-Carlos Franco, Young & Rubicam; Linnea Nelson, J. Walter Thompson Co.; Charles Ayres, Ruthrauff & Ryan; Frank Silvernail, BBDO; Wilham Maillefert, Compton Adv. Legal aides were John Morgan Davis, formerly NAB general counsel; Don Petty, present NAB general counsel; George Link, AAAA.

CJBR Gives Aid

CJBR Rimouski, Que., came to the rescue of the local technical school with staff members to give a course in radio. Unable to obtain adequate teachers on radio, the school asked CJBR for suggestions, and the station's staff has worked out an arrangement to have staff members give instruction.

Management

Chief news man of WEBC Duluth, Minn., has been appointed resident manager of that station, key outlet of the Arrowhead Network. Under current streamlining of management procedure.

W. C. BRIDGES, general manager, and H. E. WESTMORELAND, director of operations, are released from individual station problems of administration in order that they may devote time to development of the regional network, FM (WDUL Duluth and FM grant to WJMC Rice Lake, Wis.) and the consideration of television facilities. Streamlining also is employed at other outlets of network under resident managerships of CLYDE RIDDLE, WEAU Eau Claire, Wis.; HARRY HYETT, WMFG Hibbing, Minn.; OSCAR PETERSON, WHLB Virginia, Minn.; GREG ROULEAU, WJMC.

WESLEY I. DUMM, president of Universal Broadcasting Co. (KFSO KXLA KXA), is the father of a girl, Penelope Ferance.

JOHN S. LLOYD, program director of WTHT Hartford, Conn., has been named general manager of WACE, new station owned by Regional Broadcasting Co. at Chicopee, Mass. WACE is to begin daytime operation in late September with 1 kw on 730 kc.

GEORGE ALDEN has been named assistant manager of KWBW Hutchinson, Kan.

WAYNE J. HATCHETT has taken over as station manager and chief engineer of KSIB Creston, Iowa, and is in charge of construction of the new station which will begin operations about Nov. 1 with 1 kw daytime on 1520 kc. E. M. HORNING, new to radio, is general manager of KSIB, owned by Southwest Iowa Broadcasting Co. Mr. Hatchett, in technical and management fields of broadcasting since 1930, constructed W9XBY Kansas City, W9XA that city (now KOZY, commercial FM outlet), KBIZ Ottumwa, Iowa and WINN Louisville, Ky.

BUCK HINMAN, production manager of WCBI Columbus, Miss., has been appointed station manager at WROX Clarksdale, Miss.

EDGAR KOBAK, president of MBS, last week was presented with a scroll by the War Dept. for "his outstanding contribution to the welfare and morale of the men and women of the Armed Forces as a member of the New York City Defense Recreation Committee during World War II." The document was signed by Robert Patterson, Secretary of War, and Maj. Gen. James A. Van Fleet, commanding the Second Service Command.

CLARENCE T. (Swannee) HAGMAN, newly appointed general manager of the ABC Central Division and assistant to ED BORROFF, vice president in charge of the division, officially began his new duties last Monday. At present Mr. Hagman is becoming acquainted with the division's overall operations and no specific assignment has been made. It is understood he will work closely with Mr. Borroff on national and network spot business as well as oversee station relations and other division departments.

JAMES MILLOY, vice president of Cowles Broadcasting Co., is to be at WCOP Boston Aug. 26 for series of conferences.

Upcoming

Sept. 2: IBEW National Convention, Sir Francis Drake Hotel, headquarters, San Francisco.

Sept. 9-10: NAB Small Market Stations Executive Committee, Statler Hotel, Washington.

Sept. 11: Brand Research Foundation regional meeting, San Francisco.
Sept. 19-22: Affiliated Advertising Network annual meeting, Salt Lake City,

Oct. 8-9: Kentucky Broadcasters Assn. Executive Committee, Lafayette Hotel, Lexington, Ky.

Oct. 10-11: Television Broadcasters Assn. second video conference, Waldorf-Astoria, New York.
Oct. 21-24: NAB Convention, Palmer

House and Stevens Hotel, Chicago.

Nov. 21-22: Georgia Assn. of Broadcasters Radio Institute, U. of Georgia, Athens.

Networks Naming NAB Delegations

Officials to Attend Chicago Convention in October

NETWORK officials from NBC and ABC scheduled to attend the NAB Convention, Oct. 21-24 in Chicago have been announced.

Headed by Edward J. Noble, ABC chairman of the board and Mark Woods, president, ABC is sending top representatives from all phases of its operations to the Convention.

Keith Kiggins, Robert E. Kintner, Adrain Samish, Fred Thrower, Robert H. Hinckley, Earl E. Anderson, Don Searle and John H. Norton, all ABC vice presidents, will be in the network group attending.

Other ABC department heads who will attend include: Frank Marx, ABC director of general engineering; Francis H. Conrad, station relations manager of ABC's western division; Paul Mowrey, national television director; Earl Mullin, publicity manager; Robert Saudek, director of public service; Ivor Kenway, director of advertising and promotion.

NBC Delegates

In addition to Niles Trammell, president of NBC, the following NBC delegates will attend the convention:

Frank E. Mullen, vice president and general manager; William S. Hedges, vice president in charge of planning and development; F. M. Russell, vice president in charge of the Washington office; Brig. Gen. Ken R. Dyke, vice president in charge of broadcast standards and

practices; C. L. Menser, vice president in charge of programs; O. B. Hanson, vice president and chief engineer.

Easton C. Woolley, director of station relations; Sheldon B. Hickox Jr., manager of station relations department; John Murphy, station relations contact; James V. McConnell, director of national Spot. Sales: William C. Roux national Spot Sales; William C. Roux, manager of national Spot Sales depart-ment; Raymond Guy, radio-facilities

James M. Gaines, manager of WEAF New York; Vernon H. Pribble, manager of WTAM Cleveland; Lloyd Yoder, manager of KOA Denver; H. M. Beville, NBC director of research.

NBC Central Division executives

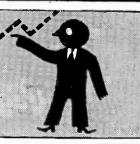

who will also attend the convention include:

I. E. Showerman, manager of the Central Division; Paul McLeur, sales manager; Oliver Morton, Spot Sales manager; Jules Herbeveaux, program manager; Howard Luttgens, chief engineer; Emmons Carlson, promotion manager; A. W. Kaney, manager of station relations; Jack Ryan, press de-partment manager; John Keys, assistant manager of the press department; T. E. Schreyer, engineering operations supervisor; Arthur Jacobson, production manager; William J. Murphy, tion manager; William J. Murphy, manager of the script department; Harold A. Smith, assistant manager of advertising and promotion; William E. Drips, agricultural director; Judith Waller, education director and Eugene Hoge, assistant manager of Network Sales.

Eversharp Continues

THE Tonight on Broadway show CBS Mon. 10:30-11 p. m. which was to be replaced last Monday by Lights Out for same sponsor, Eversharp Inc., (injector razors), will continue on a week to week basis until another replacement acceptable to CBS, Eversharp and sponsor's agency, the Biow Co., can be found. CBS was understood to have turned thumbs down on Lights Out. Two shows which are under consideration as replacements for Tonight on Broadway are The Fat Man and Sherlock Holmes.

AGENCIES "

R. MacLAUGHLIN, former commercial manager of WTBA Batavia, N. Y. has opened his own advertising agency at 377 Elliott Sq., Buffalo, N. Y. Agency will handle radio.

LESTER GOTTLIEB, program development manager of Young & Rubicam, New York, has been in Hollywood for 10 days conferring with ROBERT HUSSEY, agency's Hollywood program development chief velopment chief.

ROMA LIND, Midwest publicity and public relations counsellor, has joined Joe H. Langham-

mer & Assoc., Omaha, as director of new publicity and public relations department. Active in the Publicity Club of Chicago, Miss Lind has handled public relations work for such firms as Montgom ery Ward, Allied
Stores, Arkwright Stores, Arkwright Corp. and Cities Stores.

A. STANLEY KRA-Miss Lind MER, former adver-H. W. Baker Linnen Co., has been named assistant to the president of The Chernow Co., New York.

STUART M. STEVENS, former partner in Stevens-Lander-Young Adv., Los Angeles, has joined Gail Hall Adv., that city, to form new agency of Stevens-Hall Adv. Both partners will continue to service accounts. Mr. Hall in addition will supervise production and art with Mr. Stevens in charge of business management and public relations. TOM DEWEY, who has been with Gail Hall for past year, heads copy department of new organization.

PACIFIC COAST Adv., San Francisco, has established a foreign advertising division under direction of FRANK NEWTON. Complete foreign media and market research section is being organized.

FRED L. SHAW, separated from Army as colonel and formerly with J. Sterling Getchell Inc., Detroit, has joined Gray & Co., Denver.

R. A. HARRISON, who formerly operated his own Berkeley, Calif., agency, has joined Long Advertising Service, San Francisco, as account executive.

DON B. W. SEARS Adv., Berkeley, Calif., has moved to Fairmont Hotel Bldg., San Francisco.

ALEX STRUTHERS, separated from Navy and prior to war executive of Struthers Bros. Adv., is to establish his own Los Angeles agency.

EZRA McINTOSH, producer of J. Walter Thompson Co., Hollywood, has shifted to New York to handle NBC "Kraft Music Hall" starting Aug. 29.

RALPH E. BENNETT and RICHARD J. KEEFE have joined Charles H. Mayne Co., Los Angeles, as merchandising and public relations directors, respectively. Mr. Bennett was formerly a sales and merchandising executive of Certainteed Products Corp. and other national firms. Mr. Keefe, separated from Navy. separated fr was formerly in public relations and sales promotion departments of CBS Hollywood.

Triple Trouble

LIGHTNING doesn't strike twice they say. Maybe not, but consider the case of Raymond Keane Adv., Los Angeles. Art Director Jack Tesler, in dashing for a streetcar, tore ligaments of left ankle. Next, Paul Britton, script department chief, dislocated left knee while spending a quiet Sunday at home decorating. Final (we hope) casualty was incurred when Raymond Keane, head of agency, fell in a bowling alley, tearing ligaments in his back.

CRAWFORD U. HALL, former radio director of Locke Johnson & Co., Toronto, has rejoined the agency following his discharge from the Canadian Army as captain. He recently returned to Canada after intelligence service with Canadian forces in Germany.

DOUGLAS PHILPOTT, former Toronto manager of Ruthrauff & Ryan, has joined Spitzer & Mills, Toronto, as account executive. He was managing director of Lehn & Fink (Canada), before joining Ruthrauff & Ryan.

WESTERN ADV., Los Angeles, has moved to new offices at 668 S. Coronado St., Telephone is Tucker 1408.

JANE E. ZENTNER, former head of own advertising agency and radio program in Shanghai, has joined R. B. Atchison Adv., Los Angeles, as radio department copy writer.

JACK HOOD, co-owner of Davis-Hood & Assoc., Los Angeles, is the father of

LANSING MOORE, former head of his own agency, has joined Lawrence Boles Hicks Inc., New York and Baltimore, as account executive.

WILLIAM C. FAUST, former picture editor and more recently in the promotion department of the Philadelphia Evening Bulletin, has joined the publicity and public relations department of Geare-Marston, Philadelphia.

GEROLD LAUCK, executive vice president of N. W. Ayer & Son, Philadelphia, and MARVIN MURPHY, agency's public relations chief, are in Hollywood for

two weeks. G. NORMAN BURK, effective Sept. 1

Mr. Burk

becomes partner in newly formed agency of Pratt & Burk Adv., Benedum - Trees Bldg., Pittsburgh. Former salesman at WCAE Pittsburgh, [BROADCAST-ING, Aug. 19], Mr. Burk joins with Burk joins with RUSSELL PRATT, previously head of agency bearing his name in that city. Previous to his affiliation with WCAE Mr. Burk was with Cleveland diesel en-gine division of General Motors.

HUTCHINSON K. FAIRMAN, formerly with BBDO, New York, has joined the copy staff of Hanly, Hicks & Montgomery, New York, as copy supervisor.

SHIRLEY G. ROSS, former production manager of Erland Adv., New York, has been appointed account executive and office manager of the agency.

JAMES McNOLDY and JOHN KLINKER have been named director of radio and publicity and service director respectively of Kane Adv., Bloomington, Ill. Mr. McNoldy was with Navy public re-lations and Mr. Klinker previously had been sales-production coordinator of Muirson Label Co., Peoria, Ill.

AD FRIED Adv., Oakland, Calif., has organized a foreign language advertising department under the supervision of JAMES A. SCOTT, account executive with the agency. Foreign language shows are being used by agency for certain of its clients on KRE KROW KWBR. AD FRIED, head of the agency, has been appointed publicity chairman for the 26th annual convention of the California-Nevada District of Kiwanis International to be held Oct. 10-12 in

LOREN C. MOORE, art director of Grant Adv., all offices, has been named a vice president of the organization. Mr. Moore has been general art director of the Grant 17-office chain for four years.

GEORGE R. MAREK, account executive at J. D. Tarcher & Co., New York, has been elected a vice president of the agency.

WINSTON NORMAN, magazine and book officer on staff of Admiral Nimitz during war, has joined copy staff of Foote, Cone & Belding, San Francisco.

Some two years ago, the Program Department at WFBR developed and produced a show "It's Fun to Cook." It was sponsored by Schluderberg-Kurdle Co. proprietors of Esskay—one of the best known names in meat on the Atlantic Seaboard.

Originally it was broadcast only three days a week, but devised as it was to help the young, inexperienced house-wife, popular demand raised it to five a week. Some weeks the mail count ran over 2,000—to date

the total mail count is 89,125. That mail has come from every zone in Baltimore and from 18 surrounding counties.

And all because WFBR proved "It's Fun to Cook." No cash prizes—no spectacular offers. What's more Esskay has been able to educate housewives to improved meat buying techniques and to trace definite sales results.

All of which again proves WFBR delivers the real Baltimore Listener—the one who listens and buys.

Mr. Smith

Catholic 'H o u r (NBC) and the Hour of Faith (ABC), as well as directing the NCCM Radio Bureau and handling other radio affairs of the council. Mr. Smith

He will have

has supervised music and production and written continuity for the council's two radio programs for the past four years and originated the format of Hour of Faith. He has written about radio for periodicals and is author of a brochure "The Production of Religious Radio Programs."

Scholarship Winner

CHARLENE JACKSON, program director of KVAN Vancouver, Wash., is this year's scholarship winner of KPO San Francisco-Stanford U. Radio Institute. Named for honorable mention were James C. Smith of KCRA Sacramento, Calif., who also is pastor of Carmichael Community Church, that city; Glen Dunham, Douglas, Ariz.; J. Edwin Arnold, Palo Alto, Calif.; Garrett L. Starmer, Conway, Ariz.; Laurence Field, Leavenworth, Wash.

Lewis Honored

TOM LEWIS, vice president in charge of all radio for Young & Rubicam, has been awarded the Most Excellent Order of the British Empire, degree of Honorary Officer, by the King of England. As commanding officer of the Armed Forces Radio Service, Mr. Lewis also received the Legion of Merit from the U.S. Army.

Wednesday, August 7, 1946

Radio's Lone Stand In Athens GI Riot

Athens, Tenn., Aug. 6.

When Athens was blacked out from the rest of the world last week, as ex-GIs took over with rifles, grenades and tommy-guns in a local election feud, radio was the only medium that kept in touch with the situation throughout. Allen Stout, special events man of WROL, Knoxville, covered the entire GI revolt from start to finish, with WSM, Nashville, taking a feed that lasted from 11 p.m. Thursday (1) until 9 a.m. Friday (2).

The newspapers and press associations were monitoring Stout's broadcast and getting their only news from this source, having been barred by those in control.

According to former Col. Jack Harris, who throughout the war was at the top of Army radio and at the end of the war was chief of communications for General Douglas MacArthur: "This was the most exciting broadcast we have ever heard, beating any live shows the Army itself did during the war." Harris is now asst. gen. mgr of WSM.

The Stout story started Wednesday (31), the day before the election here. Stout figured that this would be a "hot" place and came down here to hook a wire direct to his news room at WROL, 50 miles away. He installed himself in a building in the center of the town.

Thursday afternoon, when things started getting hot as deputy sheriffs were beating up ex-servicemen trying to protect the ballot boxes, Stout told the station he was sure there would be plenty of trouble but that he was sticking.

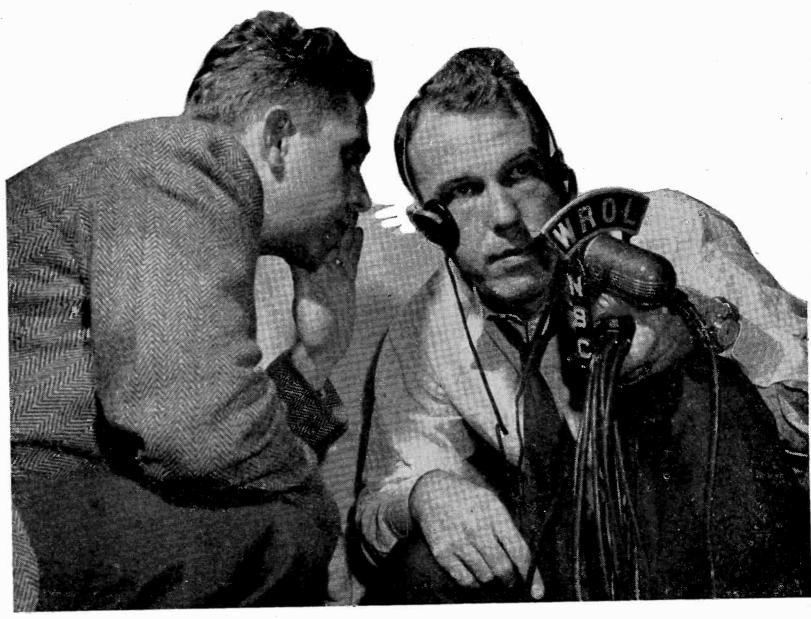

By nightfall, when the ex-GIs started to besiege the jail where the sheriff and his deputies had locked up the ballot boxes, the ex-servicemen in control of the town chased all newspaper reporters and photographers. Stout had been joined by Frank Larkin, of WROL, and together they hid in a little room overlooking the main street. The ex-GIs in control of the town tried to find them, but couldn't.

WSM tried to send a crew into the town by that time, but the Nashville people were turned back at the county line. At 11 p.m., Thursday, Stout started telling of the jail house siege. At 3:30 a.m., Friday, when the shots and shouts, the noise of the grenades, rifles and dynamiting, were carried by WROL and WSM over the line set up and held by Stout.

NBC for EAST TENNESSEE

THE ATHENS STORY

A story of alertness and constructive imagination in radio that is of refreshing interest to every timebuyer. Definitely not a lucky break, this program was scheduled by WROL ten days in advance, and wire circuits ordered four days in advance. Two WROL staff men were on the scene at least eight hours prior to the first broadcast from Athens.

Frank Larkin, left, WROL News Editor and Allen Stout, WROL Studio Director.

Further evidence of WROL's leadership in local programming.

★ Full time local news bureau maintained by WROL.

★ WROL will broadcast exclusively in the Knoxville area the entire schedule of University of Tennessee football games during the 1946 season.

A major advancement in the recording blank field . . .

10 Year **GUARANTEE**

GOULD-MOODY

"Black Seal"

ALUMINUM RECORDING BLANKS

> ... at no increase in price!

After prolonged research and experimentation, we have introduced technological improvements into "Black Seal" blanks that not only increase life span, but materially enhance the other finer characteristics of these blanks. And so positive are we of the worth of these perfected "Black Seals" that we're offering them to you on an unconditional ten-year guarantee basis.

You can't afford to be a recording isolationist . . .

"Black Seal" blanks will not rip up, disintegrate or powder after the first playing if kept in storage for any long period of time. You are in no danger of losing valuable recordings in what, up until now, you have considered your safe library of recording blanks. No matter how well you may be satisfied with your present blanks, you can't afford to be a recording isolationist. Try "Black Seals"—if, for any reason whatsoever, you aren't satisfied, return them at our expense.

Welfare Agency News

WINX Washington began a series of news programs Aug. 21 on activities of the 125 Community Chest agencies in the D. C. area called Your Red Feather Reporter. The weekly show presents Jack P. Houlihan of the Community Chest staff, who gives a weekly roundup of news of the agencies and interviews each week an authority in the field of welfare work.

Gets Watermelons
THE BAPTIST Orphanage at
Oklahoma City wound up with
seven airplane loads of watermelons, thanks to aid by WKY that
city. It all started when melon
growers at Fairview, Okla., asked
WKY Farm Reporter Ed Lemons
to air a watermelon broadcast. Mr.
Lemons said okay, but why not get
state's Flying Farmers to bring
some to the orphanage. They did,
and occasion gave Mr. Lemons opportunity for another on-the-spot
broadcast.

Many Respond

WHEN an appeal for blood donors was made on 11:05 p. m. newscast of WDRC Hartford, Conn., to save life of a Marine from a local community, some 300 responses were received by Middletown (Conn.) Hospital.

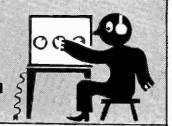

KALL Gets Out the Vote BECAUSE of a lack of interest in Utah's poorly-contested primary elections of Aug. 20, KALL Salt Lake City ran a heavy schedule of get - out - the - vote spot announcements. Prepared with cooperation of the Junior Chamber of Commerce and American Veterans Committee, the spots tied in with all station promotion spots. After plugging a mystery program KALL added, "There's no mystery about good government. It's up to every citizen. Vote in Aug. 20 run-offs. Before November elections the station will present Know Your Candidates Series.

KTUL Aids Housing

ONE-MINUTE spot announcements seeking living quarters for veterans have been a KTUL Tulsa, Okla., feature for several weeks, and are bringing good results, the station reports. Approximately six daily announcements are used, and KTUL turns over its listings to the Veterans Housing Agency. Writer of the spots is Bob Lawson, KTUL continuity man and former Army captain.

CJBQ on Air
CJBQ Belleville, Ont., new 250 w station on 1230 kc, went on the air officially Aug. 15 with recorded greetings being aired as part of opening ceremonies from NBC Thesaurus, CKLW Windsor-Detroit; CFPL London, Ont.; CHOV Pembroke, Ont.; CKSF Cornwall, Ont.; Hastings, England, and special broadcasts being piped to station from CHEX Peterborough and CKWS Kingston, Ont. W. H. Stovin, former RCAF radar division officer, presided at ceremonies as manager of station.

TECHNICAL

APT. W. G. H. FINCH, president of Finch Telecommunications, New York, maker of facsimile equipment, has been granted patent No. 2,404,571 covering new principle of a continuous synchronizing mechanism for keeping both facsimile transmitter and receiver in perfect synchronization, irrespective of power supplies used.

GERALD MOCH, after service with the armed forces, has returned to NBC engineering department in New York.

JOHN SWAFFORD is now chief engineer of KWBW Hutchinson, Kan.

ALLAN T. POWLEY, president of NABET, currently on the West Coast for a series of union meetings, returns to New York headquarters Aug. 26.

LOYD SIGMON, chief engineer of KMPC Hollywood, has been in Philadelphia for 10 days to supervise final engineering details and shipment of new 50,000 w transmitter.

W. G. RICHARDSON and J. E. HAYES, engineers of the CBC Montreal, were given awards of recognition for wartime services to the American Standards Assn. at a meeting at New York Aug. 15.

WALTER STILES, WARREN STEVENS, RONALD CARPENTER and NORMAN YOUNG, control engineers at WEEI Boston, and RALPH COWIE, transmitter engineer at that station, have purchased new Meissner 150-B shortwave transmitters and are operating on 20-meter amateur band. Respective calls are: W1OCS W1BME W1LBC W1HX W1RC.

SYLVANIA ELECTRIC PRODUCTS, Electronics Division, New York, has

announced availability of compact silicon crystal converters for use as first detectors in high frequency superheterodyne receivers. Crystals are preset in small cartridge measuring approximately ¼ inch by ¼ inch and of three types, designed for frequencies up to 10,000 mc.

MILT DANIEL, engineer of KIDO Boise, Idaho, is the father of a girl.

PAUL SCHAFER, after 2½ years in the Army, returns to WOWO Fort Wayne, Ind., as operator.

ALLIED RADIO Corp., Chicago, has announced new RMA-JAN Color Code Guide for radio and electronic type resistors. Rotating discs set correct colors corresponding to resistance values desired.

BOB JONES, formerly on engineering staff of WBBM Chicago, has been appointed assistant chief engineer of KCMJ Palm Springs, Calif., assisting DONALD McBAIN, co-owner and chief engineer.

Books to Be Published

THREE men in radio will have books published next fall and winter by a new publishing firm, Summit Press, which has opened offices at 6 E. 45th St., New York. Jo Ranson and Richard Pack, directors of publicity at WHN New York and WOR New York, respectively, have collaborated on a history of American broadcasting, while Lewis Lane, head of NBC music research department, has written a book of stories and anecdotes about music and musicians.

NEWSPAPER mats, featuring photos and stories of local interest in which WRVA Richmond, Va., figures, are being mailed regularly by the station to weekly papers in the area. WRVA states usage to date is about 75%.

Availability Announced

PRESENTATION announcing availability of new transcribed farm series, "Agricultural Washington," has been mailed to the trade by Farm Radio Productions, Washington firm originating and producing series to be ready in latter September.

KLZ Folder

FOLDER titled "Hear Ye, Hear Ye" and picturing town crier is used by KLZ Denver as promotion for station's news reporting and facilities. Coverage methods are described.

Drug Trade Letter

KEX Portland, Ore., is sending a biweekly newsletter containing drug trade news and KEX advertising programs to the 200 druggists in Portland.

Song Catalog

A LOOSE-LEAF reference book of popular songs 1874-1945 has been compiled by David Silverman, music librarian of WJR Detroit. Included are the most popular standard tunes, 35 alltime best sellers, great singers. songs of the mechanical era and a composers-author index. Mr. Silverman spent four years working up his

DOUBLE HALF WAVE 915-foot Franklin Type antenna of WKY Oklahoma City was designed by Glenn D. Gillett (left), Washingtion radio engineer, four years ago. Then he went to war. He saw it for the first time a few days ago. At right is P. A. Sugg, WKY manager. Tower is second tallest in the nation.

WNAR Norristown, Pa., Begins Program Tests

WNAR Norristown, Pa., new station on 1110 kc with 500 w daytime, began program testing Aug. 16, H. A. Seville, general manager, announced. Schedule runs from 6 a.m. to 8 p.m.

Staff includes: Chuck Whittier, program director; Ken Beghold, production manager; Jackie Greco, traffic manager; George H. Brewer, chief engineer; William Bentz and John Thomas, engineers, and Hal Berg and Don Shea, announcers. Licensee is Rahall Broadcasting Co., also the permittee of WWNR Beckley, W. Va., and connected with the Allentown Broadcasting Co.

WNYC AIRS CANDID THEATRE PROGRAM

A RECORDING of an actual summer theatre rehearsal was to be presented on Aug. 25 on WNYC New York, in a Straw Hat Documentary program. The station set up microphones at the dress rehearsal of "Burlesque" at the Greenwich Playhouse, Greenwich, Conn., where Gus Schirmer is directing Bert Lahr and Arline Francis in the play.

The cast went through rehearsal and everything that went on during the run-through was recorded, including stage direction, asides, criticism and comments, with the actors oblivious to the mikes. In addition Bert Lahr, Arline Francis, Gus Schirmer, Stewart Ewing, producer, and Bob Sylvester, New York Daily News drama critic, were interviewed.

This new stereophonic pick-up was used to make these recordings by the Fairchild Portable Recording Co. New pick-up gives listeners the same perspective as sitting in the audience during the actual performance.

FCC Lumps Three Requests Together

Non-Conflicting Applicant Opposes Procedure

FCC'S ISSUES in the Arlington-Silver Spring case, in which a non-conflicting application was set for hearing with two mutually exclusive requests, formally call for the Commission to decide which two applicants are better qualified and which frequency each should get. The hearing is now set for Sept. 24.

FCC has not yet, however, acted upon the petition of the non-conflicting applicant, Tri-Suburban Broadcasting Corp., which challenges the procedure as precedent for a policy which would retard establishment of new stations if similarly applied throughout the U. S. [Broadcasting, Aug. 12].

The case involves Tri-Suburban's application for 1050 kc at Silver Spring, Md. and those of United Broadcasting Co. and Arlington-Fairfax Broadcasting Co. for 1390 kc at Silver Spring and nearby Arlington, Va., respectively. The latter two, mutually exclusive, were designated July 18 for consolidated hearing. Tri-Suburban's was added Aug. 1.

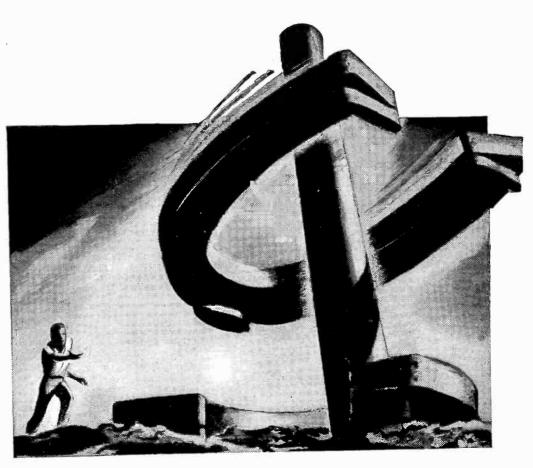

FCC sources reported at that time that a majority of the Commission—the vote was 3-to-2—felt that the two better qualified applicants for the two frequencies should be chosen after a comparative examination of all three. Similar policy has been followed in some cases in the past, they said, particularly where 250-w locals were involved.

Tri-Suburban argued in its petition that it knew of no such policy since normal licensing was resumed last October, and cited specific instances in which it has not been followed. The company asked reconsideration and grant of its application, asserting that its qualifications as a licensee had been passed upon when it received an FM grant.

Issues of the case, available last week, included the usual considerations, with this added: "To determine on a comparative basis which, if any, of the applications... should be granted and which of the frequencies, 1390 kc or 1050 kc, should be assigned to the successful applicant or applicants."

Tri-Suburban is controlled by John W. Kluge, formerly with a wholesale paper company (54%), and Joseph L. Brechner, Veterans Administration radio director (27%). Richard Eaton, publisher of Newsdigest and Mutual commentator, owns United (99%), while a group of local businessmen own Arlington-Fairfax. All three seek daytime-only operation with 1 kw.

JOSEPH A. ECCLESINE, formerly with Advertising Council, New York, and the Treasury Dept., Washington, has joined the promotion department of Time Magazine, New York. Before his association with the Treasury, Mr. Ecclesine was with OWI, previously was NBC network sales promotion manager.

1877: Grand-daddy of all microphones was Alexander Graham Bell's box telephone, into which Thomas A. Watson shouted and sang in the first intercity demonstrations of the infant art of telephony.

pace in Microphone Development

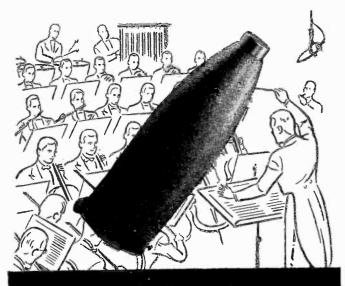

1931: Bell Telephone Laboratories developed the Western Electric moving coil or dynamic microphone. The first of its kind, it was rugged, noiseless, compact, and needed no polarizing energy. Many are still in use.

1935: The first non-directional mike—the famous Western Electric 8-Ball, designed by Bell Laboratories. Small, spherical, it provided top quality single mike pick-up of speech or music from every direction.

1936: Directional with slide-on baffle, non-directional without it, the Western Electric Salt Shaker gave highest quality pick-up at new low cost. Widely used in studios and remotes as well as in high quality sound distribution.

1946: No larger in diameter than a quarter, the 640 Double-A condenser mike (shown with associated amplifier) is ideal for single mike high fidelity pick-ups. It was originally designed as a laboratory test instrument.

What is a microphone? Fundamentally it's a device which converts sound into electrical energy—just what Bell's original telephone did for the first time away back in the seventies.

Today's Western Electric mikes—the Salt Shaker, Cardioid and 640 Double-A—are a far cry from the first crude, close-talking telephone transmitter. But they're its direct descendants.

Year after year, Bell Telephone scientists—through continuing research—have developed finer and finer telephones and microphones.

Year after year, Western Electric has manufactured these instruments, building quality into each one.

Together these teammates have been responsible for almost every important advance in microphone development.

Whether you want a single mike, a complete broadcasting station, or radio telephone equipment for use on land, at sea or in the air, here's the point to remember:

If Bell Telephone Laboratories designed it and Western Electric made it, you can be sure there's nothing finer.

BELL TELEPHONE LABORATORIES

World's largest organization devoted exclusively to research and development in all phases of electrical communications.

Manufacturing unit of the Bell System and the nation's largest producer of communications equipment.

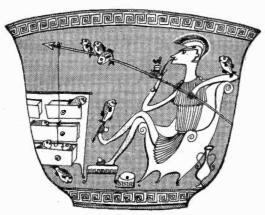

—in summer night time audience

"Facts Consolidated", in a recent survey, found that KROW's summer night time audience rating in Oakland and Berkeley was 9.8—well over TWICE the rating of the top network station, and almost eight times the rating of a leading San Francisco independent station. Isn't that something to KROW about?

Canadian Business

(Continued from page 18)

tions had a considerable slice of revenue from government-sponsored programs. These have now dropped off and while some will continue in the autumn, they will not be on a small scale. Nevertheincome of stations—even smaller ones— has suffered little, for enough national, regional and local spot announcement and five, ten and fifteen-minute programs have been booked to offset the drop in government sponsored business. This trend is continuing this autumn, judging by bookings of station representatives.

Government advertising this fall and winter will consist of a five minute Household Counsellor network show five days weekly for Wartime Prices & Trade Board, a Dept. of Agriculture network program This Hungry World once weekly, a five-week campaign for the Canada Savings Bond Drive in October and November by the Dept. of Finance, as well as a number of spot campaigns for veterans housing, coal and other commodities still in short supply.

The larger advertising agencies report a number of radio accounts this autumn that have been absent several years. Canada has just been through a series of strikes corresponding to those in the United States earlier this year. Strikes in steel, rubber, soda ash, textile and a number of other basic industries are not yet concluded. As soon as production can be developed, these potential radio advertisers will be ready with programs, with others to follow as supplies of retailers increase.

Returning to Radio

While the more pessimistic attribute any losses to radio advertising this autumn to the fact that during recent years advertisers turned to radio because space was scarce in other media, nevertheless the return of advertisers to the air shows that the trend is still toward radio. General Foods, for instance, has been off the air in Canada for some time, taking all its imported American networks off in 1945. Last spring it started test spot announcements, and is expanding this autumn. The English firm selling Lyon's tea, which has had programs on a few stations, is adding to the list of stations with a half-hour weekly show.

Maple Leaf Milling Co., which has had a network show in recent years, is changing to a heavier spot campaign with five and ten-minute transcribed programs on a large number of stations. Quaker Oats is starting a new transcribed program Two Ton Baker on 18 Canadian stations three to five time weekly. In Ontario two Toronto dailies have started big spot announcement campaigns, the Toronto Globe & Mail and the Toronto Daily Star.

Henry K. Wampole Co. (proprietary), off the air several years, is back this autumn with spot an-

OLD AND NEW presidents of Western Association of Broadcasters at Harrison Hot Springs, B. C., are G.R.A. Rice (1), owner of CFRN Edmonton, Alberta, retiring president, and his successor, A. M. Cairns, manager of CFAC Calgary, Alberta.

nouncements twice weekly on 31 stations. McCormick's Ltd. (biscuits), plans to resume radio this autumn. A large food canning company, off the air several years, is planning a large campaign for eastern Canada.

Transcription sales in Canada are up for the coming season. A number of new companies handling transcribed shows are in the field this year, increasing competition. Food accounts especially have bought large numbers of transcriptions. Many of these are American importations, although a number of new Canadian transcribed programs have been developed to keep Canadian talent in Canada. Such Canadian shows are also being sold in the United States. Newest of these productions is the All-Canada Radio Facilities program Reflections, a top Canadian musical talent program. Among advertisers buying transcribed programs for use on a large number of Canadian and Newfoundland stations are G. E. Barbour Co., St. Johns, N. B. (tea, coffee); Geo. Weston Ltd., Toronto, (biscuits and bread); Western Canada Flour Mills, Toronto; Supertest Petroleum Corp., London, Ont. (oil and gasoline); Kellogg Co. of Canada, London, Ont.; H. F. Stanfield, St. John, N. B. (clothing); Byers Flour Mills, Camrose, Alta.

American Branches

An interesting development since the end of the war is the increase in the number of Canadian offices of American advertising agencies, now ten in number. These have been opened to improve service for Canadian branch plants of American companies. Trend of these agencies is to adapt American advertising to Canadian tastes and customs, or to use Canadian advertising entirely for such accounts. They have also brought new accounts to Canada, such as Noxzema Chemical Co. of Canada, Toronto. Until this fall Noxzema had used spot announcements in Canada.

Sept. 7 it starts a network show Mayor of the Town on 27 Dominion network stations, through Ruthrauff & Ryan, Toronto.

Use of Canadian advertising by these agencies is best shown in continuation of government wartime network shows, such as George's Wife for Whitehall Pharmacal, Walkerville, Ont., through Young & Rubicam, Toronto, on 28 Trans-Canada stations thrice-weekly, and They Tell Me thrice-weekly on 30 Trans-Canada stations for Robin Hood Flour Mills, Montreal, through Young & Rubicam, Montreal.

The overall picture of Canadian broadcasting this autumn is good, with little drop from wartime high level, and with every prospect of reaching new highs as production of peacetime consumer goods hits its stride after settlement of strikes and easing of shortages of materials and parts for manufacturing. The industry looks forward to continuing prosperity.

CBC FISCAL REPORT WILL SHOW DEFICIT

TENTATIVE annual statement of the Canadian Broadcasting Corp. for the fiscal year April 1, 1945-March 31, 1946, shows an operating deficit of \$78,425 before providing for depreciation and obsolescence. Statement was filed with the Parliamentary Radio Committee, Ottawa, will not be official until filed in the House of Commons by Minister J. J. McCann.

Statement shows income of \$6,-132,263, made up of \$3,773,284 from annual listener license fees and license fees paid by private broadcasting stations, \$1,683,838 from commercial broadcasting, \$68,440 from miscellaneous sources, and \$606,699 from the Canadian government for operation of the international shortwave station at Sackville, N. B.

Expenses total \$6,210,689, made up of \$2,939,375 for programs, \$1,160,674 for engineering, \$971,-441 for wire lines, \$285,301 for administration, \$145,183 for press and information services, \$130,903 for operation of commercial department, \$577,809 for operation of the international shortwave service.

Balance sheet shows total assets of \$3,822,488, as against current liabilities of \$1,922,571 and capital surplus, reserve for renewals and replacements, and operating surplus from previous years of \$1,909,917.

Sherwood Book

that went to war as mascot of the Eighth Wisconsin Regiment in the Civil War, first told on Miss Sherwood's Let's Go Saturday morning program on WOR New York, has been published in book form by Charles Scribner's Sons, New York (\$1.50). Attractively illustrated by Katherine Milhous, the volume should be a juvenile best seller.

"DON'T WORRY, DEAR, A NERN STATION SAID THAT YOUR NEW SHOES WERE WATERPROOF."

She might have added for his benefit that her new lipstick was waterproof too. For when a NERN station tells a woman about clothes or cosmetics, every claim made for the advertised article is accepted enthusiastically—and remembered. So, if her boy friend's shoes are waterproof, naturally he's not going to get his feet wet.

HUNT'S FOODS, Los Angeles (canned foods), Sept. 9 for 52 weeks renews "What's Doin', Ladies," on 21 ABC Pacific and Mountain stations. Mon. Fri. 2-2:25 p.m. (PST). Agency: Young & Rubicam, Hollywood.

First Fall Meet

FIRST FALL LUNCHEON meeting of Toronto Radio Executives Club was held Aug. 14 with Harry Dawson, engineer, and Joseph Sedgewick, counsel, of the Canadian Association of Broadcasters, discussing position of independent broadcasting stations as presented to Parliamentary Radio Committee. Jim Knox of Ruthrauff & Ryan, Toronto, presided as president of the organization.

NETWORK Accounts

THE Christian Science Publishing Soclety, Boston, Sept. 5 for 39 weeks starts "The Christian Science Monitor Views the News" on ABC, Thurs. 8:15-8:30 p.m. Agency: H. B. Humphrey Co., Boston

BRITISH AMERICAN OIL Co., Toronto, Sept. 26 starts "Pierre Dagenais" on six French network stations, Thurs. 8:30-9 p.m. Agency: Spitzer & Mills, Toronto.

YORK KNITTING MILLS, Toronto, Nov. 3 starts "Singing Stars" on 26 Trans-Canada network stations, Sun. 5:30-6 p.m. Agency: Cockfield Brown & Co.,

GILLETTE SAFETY RAZOR Co., Montreal, Sept. 6 starts for one year "Championship Fights" on 35 Dominion network stations, Fri. 10-11 p.m. Agency: MacLaren Adv., Toronto.

IMPERIAL OIL Co., Toronto, Oct. 19 starts hockey broadcasts on 43 Trans-Canada network stations, Sat. 9:05-10:30 p.m. (EST). Agency: MacLaren Adv. To-

ST. LAWRENCE STARCH Co., Port Credit, Ont. (Beehive products), Oct. 19 starts "Wes McKnight Sportscast" on 20 Trans-Canada network stations, Sat. 6:45-7 p.m. (EST). Agency: McConnell, Eastman & Co., Toronto.

BRISTOL MYERS Co., Montreal (Minit Rub and Vitalis), Oct. 2 starts "Duffy's Tavern" on 29 Dominion network stations, Wed. 9-9:30 p.m. (EST). Agency: Ronalds Adv. Co., Montreal.

UNDERWOOD Ltd., Toronto (office equipment), Oct. 6 starts "Underwood Recital" on 10 mid-eastern Dominion network stations, Sun. 1:30-2 p.m. Agency J. J. Gibbons Ltd., Toronto.

Renewal Accounts

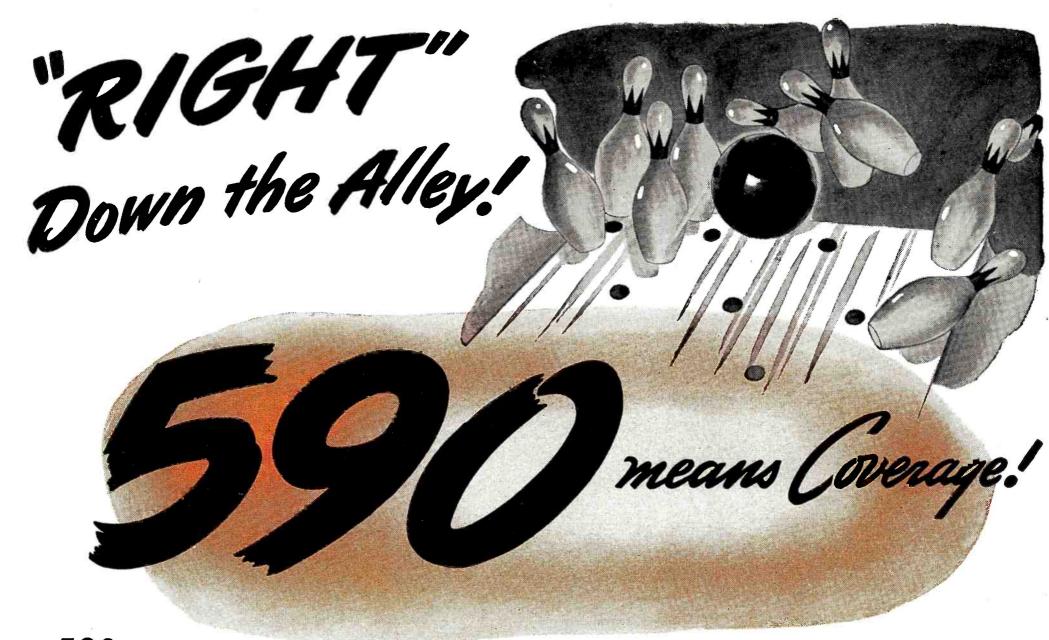

THE CREAM OF WHEAT Corp., Minneapolis, Sept. 21 for 52 weeks renews "Let's Pretend" on CBS, Sat. 11:05-11:30 a.m. Agency: BBDO Minneapolis.

MILES LABS., Elkhart, Ind., Sept. 30 renews sponsorship of "Lum 'n Abner" on 135 ABC stations, Mon. through Thurs. 8-8:15 p.m. Agency: Wade Adv., Chicago.

MOTHER PARKER'S TEA Co., Toronto, Sept. 4 renews until May 3 "Musical Mysteries" on six Ontario stations, Sat. 7:30-8 p.m. Agency: A. J. Denne & Co.,

SWIFT CANADIAN Co., Toronto (meats), Nov. 4 renews to Aug. 1 "Courier Confidences" on three CBC French network stations, Mon.-Fri. 10:15-10:30 a.m. Agency: J. Walter Thompson Co., Toronto.

ROBIN HOOD FLOUR MILLS, Montreal (cereals), renewed Aug. 22 for 39

AT 590 KC.

WOW . NEEDS ONLY 5000 WATTS TO DELIVER A 212 MILLIVOLT SIGNAL 100 MILES AT *1100 KC.

AT *1300 KC.

WOULD BE NEEDED AT *1500 KC.

420,000 WATTS

WOULD BE NEEDED

The chart above, based on computations by competent engineers, shows how much MORE power is needed to lay down a 2½ millivolt signal 100 miles from Omaha at frequencies higher than 590. WOW's ½ millivolt contour has been established at nearly 200 miles from Omaha.

 \bigstar These frequencies are approximately those of other full-time stations in the Omaha area.

NBC and the best local programs it is listened to by most people most of the time.

BROADCASTING

Worthy of an Engineer's Careful Consideration

The 201 Series consists of the 201-A which has a single filter stage and 201-B which has a dual filter stage. The latter type is designed to supply filament and plate power for pre-amplifiers, such as Types 106 and 111. The 201 Series also supplies power for associated line amplifiers such as the Langevin 102 Series. Both units of the 201 Series possess excellent regulation and low ripple content.

ACTIONS OF THE FCC

-AUGUST 16 to AUGUST 22.

Decisions . . .

AUGUST 20 BY ADMINISTRATIVE BOARD

WDAR Savannah, Ga.—Granted modification of CP, which authorized a new station, to change type of transmitter to W.E. 451-A-1, for approval of antenna and approval of transmitter location just east of intersections of Hull St. and Perry St. with Shiele St., Savannah. Permittee is granted waiver of Secs. 3.55(b) and 3.60 of Commission's rules;

WMRP Flint, Mich.—Granted modification of CP which authorized a new station, for approval of antenna, approval of transmitter location on Dort Highway and Lapeer Road, Flint, and change studio location to 573 Mary St., Flint. Permittee is granted waiver of Secs. 3.55(b) and 3.60 of Commission's

rules; conditions.

WNOC Norwich, Conn.—Granted modification of CP which authorized a new station, to change type of transmitter to W.E. 350-C, modified, for approval of antenna and approval of transmitter location at Lucas Park Drive, Thamesville, Conn. Permittee is granted a waiver of Secs. 3.55(b) and 3.60 of the Commission's rules; conditions.

WHUM Reading, Pa.—Granted modification of CP. which authorized and

fication of CP which authorized a new station, for approval of antenna and approval of transmitter and studio locations at Hill location 0.2 miles west of Schuylkill River, adjacent to downtown area, Reading, and Berkshire Hotel, 5th and Washington, Reading, respectively. Permittee is granted waiver of Secs. 3.55(b) and 3.60 of the Commission's rules; conditions.

BY COMMISSIONER WALKER

Idaho Falls Bestg. Co., Idaho Falls, Ida.; Eastern Idaho Bestg. & Television Co., Idaho Falls, Ida.—Ordered that the consolidated hearing scheduled for Sept. 18 at Idaho Falls, be removed from Idaho Falls to Washington, to be held on the same date.

AUGUST 20 BY COMMISSION Petition

WQXR New York; KMPC Bakersfield, Calif.—Adopted an order denying petitions filed by WQXR and KMPC for review of the Commission's decision denying their petitions for reconsideration directed against the Commission's grant of March 7, 1946, of application of Washita Valley Bestg. Corp., Chickasha, Okla., and to rescind final order. Also adopted an order denying petitions of WQXR and KMPC requesting the Com-

mission to postpone effective date of its decision and order adopted Aug. 1, 1946, denying their petitions for reconsideration directed against the grant without hearing on March 7, of application of Washita Valley Bestg. Corp., and affirming said grant.

BY ADMINISTRATIVE BOARD

WABK Area of New York City—Granted license to cover CP for a new relay station.

KPDR Alexandria, La.—Granted license to cover CP for a new station to operate on 1490 kc, 250 w, unlimited time. Also granted authority to determine operating power by direct measurement. Licensee is granted a waiver of Secs. 3.55(b) and 3.60 of the Commission's rules; conditions.

WTVL Waterville, Me.—Granted license to cover CP authorizing a new station to operate on 1490 kc, 250 w, unlimited time. Also authority to determine operating power by direct measurement.

KMLB Monroe, La.—Granted license to cover CP which authorized change in frequency to 1440 kc, increase in power to 1 kw-DA, 5 kw-LS, make changes in equipment, install DA for night use and move transmitter. Also night use and move transmitter. Also authority to determine operating power by direct measurement.

WMFT Florence, Ala.—Granted license to cover CP which authorized a new station to operate on 1240 kc, 250 w, unlimited time. Also granted authority to thority to determine operating power by direct measurement. Licensee is granted waiver of Secs. 3.55(b) and 3.60 of rules; conditions.

WPOR Portland, Me.—Same as above except 1450 kc, 250 w, unlimited time. WIKB Iron Mountain, Mich.—Granted modification of CP which authorized a new station, for approval of antenna and approval of transmitter and studio locations at west "C" St., between Pine and Forest, Iron Mountain, Mich., and Dickinson Hotel, west "B" St., Iron Mountain, respectively. Mountain, respectively.

KWCO Chickasha, Okla.—Granted modification of CP which authorized a new station, for approval of antenna and approval of new transmitter location at approx. .2 miles west of U. S. Highway 81, Chickasha, Okla.

W3XEP Camden, N. J.—Granted modification of license to change frequencies to: frequencies to be assigned from time to time as needed by the chief engineer, in experimental television sta-

(Continued on page 77)

Claude R. Porter Rites Held Monday in Capital

FUNERAL services were held Monday for Claude R. Porter, 74, father of George B. Porter, radio attorney who died of suffocation Aug. 11 following a choking seizure in a San Francisco restaurant [Broadcasting, Aug. 19]. Mr. Porter suffered a cerebral hemorrhage Aug. 15 while at his desk at the ICC where he was a Commissioner. He died early Saturday morning.

Announcement of the elder Porter's death was withheld Saturday morning until funeral services had been completed for his son. The commissioner's wife was not notified of her husband's death prior to the son's burial.

Commissioner Porter served as U. S. Attorney in Iowa 1914-18 and then as Special Assistant Attorney General. In 1919 he became chief counsel of the Federal Trade Commission, then special counsel. He was named to the ICC in 1924 and was chairman in 1932. Besides his wife, four daughters survive.

Federal Issues Revised Edition of Radio Book

NEW and revised edition of Reference Data for Radio Engineers, published by Federal Telephone and Radio Corp., is just off the presses.

New volume contains 136 additional pages and more than twice as many illustrations as the 1943 edition. Chapters on transformers and acoustics have been added, and other material has been expanded and brought up to date.

VHF Record

NICKEL PLATE Railroad claims a long-distance record of 63 miles for VHF radiotelephone communication between the Terminal Tower Bldg. in Cleveland and a train opposite the Bellevue, Ohio, yard office. Equipment was produced by Farnsworth Television and Radio Corp., whose engineers pointed out that tests recorded "solid" communications for only 35 of the 63mile coverage. Smaller figure represents the dependable range, they said.

Now... Plus-Mamplifiers

Two-stage Preamplifier (Type BA-1A)—ideal for use as a microphone preamplifier, turntable preamplifier, booster amplifier, or low-level isolation amplifier. High gain: 40 db. High output: +10 db. Low noise level: -80 db. Low distortion: 0.5% rms, 50 to 7500 cycles. Isolation factor: approx. 90 db; over 100 db with special Volume Control Kit. Frequency response: ±1 db, 30 to 15,000 cycles. Small size: six units will fit on a 36-B or new BR-2A shelf!

Booster Amplifier (Type BA-2A)—A two-stage unit having applications similar to those for the BA-1A; also valuable where a high-gain amplifier between announce microphone and limiting amplifier is required. High gain: 50 db. Low noise level: -68 db. Low distortion: 0.75% rms, 40 to 15,000 cycles. Frequency response: ±1.5 db, 30 to 15,000 cycles. Compact: two units can be mounted on one 36-B or BR-2A shelf. Features plug-in capacitors and built-in power supply.

for new convenience and speed

for plug-in amplifier service.

These versatile, multi-purpose units by RCA will simplify many of your studio setups

AS easy to install or remove as an electronic tube! Pull a lever near the front of the amplifier and the plug on the rear of the unit is smoothly withdrawn from its socket—automatically disconnected from the supply voltage. No longer is it necessary to crawl around to the back of hard-to-get-at racks and unsolder or unscrew countless connections. System changes can be made quickly; minutes can be slashed from inspection, servicing, and testing time.

This new RCA line now includes the four amplifiers and one power-supply unit shown. Others will be added in the near future. New, carefully selected characteristics make these units ideal for a large number of studio jobs.

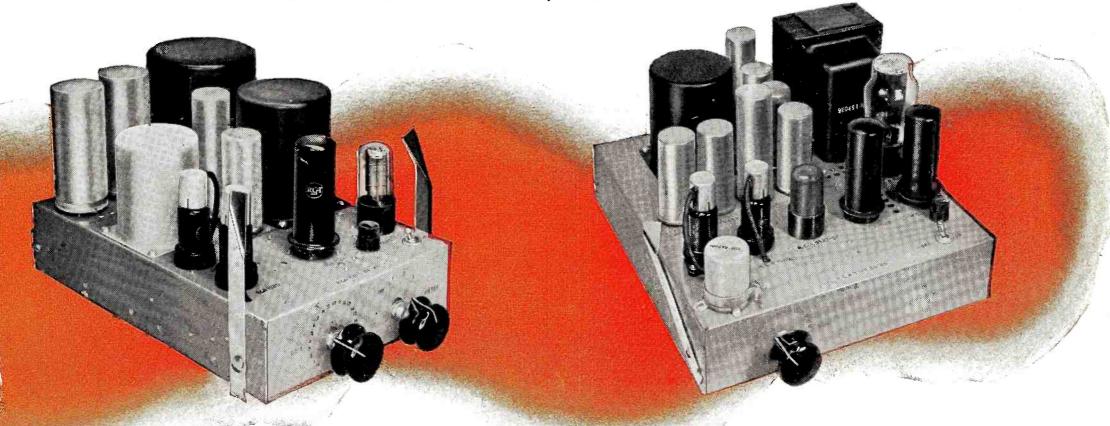

All units use the same standard plug. To assure maximum convenience, a new shelf (Type BR-2A) has been designed. With a few easy changes, however, the conventional RCA Type 36-B panel and shelf can be used, if desired. The necessary accessories are available for this purpose.

Here, we believe, is a real opportunity to modernize your amplifier system—a quick, convenient way to get better performance at low cost. New descriptive leaflets are yours for the asking. Write: Dept. 18-H, Audio Equipment Section, Radio Corporation of America, Camden, New Jersey.

BROADCAST EQUIPMENT RADIO CORPORATION OF AMERICA ENGINEERING PRODUCTS DEPARTMENT, CAMDEN, N.J.

In Canada: RCA VICTOR Company Limited, Montreal

Program Amplifier (Type BA-3A)—one of the most versatile on the market. Ideal as a program, line, or booster amplifier; a high-level isolation amplifier; a cueing or monitoring amplifier, or a driver amplifier (for high-power recording amplifiers, etc.). High gain: 65 db for matching input, 27 db for bridging input. Low noise level (with maximum gain): -52 db. Low distortion: less than 0.5 to 1% rms, depending on output level. Frequency response: ±1 db, 30 to 15,000 cycles.

Monitoring Amplifier (Type BA-4A)—Designed for operation at microphone levels. High output of 12 watts is sufficient to drive several speakers or, in some applications, a recording head. Other uses include application as line amplifier for portable and mobile transmitters. High gain: 105 db. Low noise level: -20 db (with maximum gain); -40 db (with minimum gain). Low distortion: less than 3% at 12 watts. Frequency response: ±2 db, 30 to 15,000 cycles.

PROGRAMS

ORE than 38,000 letters requesting auditions for the "Arthur Godfrey's Talent Scouts" have swamped CBS headquarters since the show made its debut seven weeks ago. Producer-Director Irving Mansfield, and Bessie Mack. who handles auditions for the program, last week still had to go through 67 bags of mail containing approximately 26,000 letters. During past seven weeks 12,000 letters from all over the country have been answered, reported Miss Mack, who has auditioned more than 350 acts a week and approximately 3,000 acts since show started. Mr. Mansfield has personally auditioned more than 500 acts.

Folksong Series

TEX RITTER show will be available on transcriptions to stations and sponsors starting Oct. 14. Mr. Ritter heads company and appears on transcriptions giving historical data on folksongs and personal anecdotes. With offices at 8624 Sunset Blvd., Hollywood, organization has started producing new fall series. George Lee Marks, formerly of CBS Chicago, is writer-producer.

Sightseeing

ON THE THEORY that natives of New York seldom take the sightseeing tours that attract thousands of out-of-town visitors, WNYC, New York's municipal station, will broadcast a circumnavigation of Manhattan Island by the "S. S. Sightseer." Program is scheduled for Aug. 28, beginning at 3 p.m. and will feature the "Sightseer's" regular lecturer and Thomas H. Cowan, veteran New York announcer.

Shortwave Service

SHORTWAVE BROADCASTING is the only service available in summer months to much of northern Canada, CKRC Winnipeg, Man., reports. Its commercial shortwave stations,

CKRX on 11720 kc, and CKRO on 6150 kc, operate daily and have been on air consistently since 1928 when they were the first licensed shortwave broad-casting stations in Canada. Regular CKRC programs are carried, except for a Monday noontime program when CKRX broadcasts a special DX pro-

Hay Fever Data

HAY FEVER SUFFERERS receive daily warnings over WIP Philadelphia. This new series of daily reports coordinates research of several organizations and the pollen count, made by the Jefferson Hospital. City's leading authorities on allergies also are giving series of reports. Data is aired over "Start the Day Right," by Mac McGuire.

Program Resumed

PROCTER & GAMBLE Co., Cincinnati (Ivory soap), sponsor of "Mystery of the Week," on Aug. 19, after a summer hiatus which began July 1, returned the program to 64 CBS stations, east of Chicago. The series, heard Mon. through Fri. 7-7:15 p.m., was formerly heard on western CBS stations. Agency is Compton Adv., New York.

About Pioneers

NEW WEEKLY program series "The Sodbusters," on CBC Dominion network, deals with stories about western Constitution Programs will be Canadian pioneers. Programs will be canadian pioneers. Programs will be produced in localities where pioneers lived. First in series will be dramatization of life of Walter Murray, first president of the U. of Saskatchewan, whose life story will be featured from CEOC Saskatchewan CFQC Saskatoon.

CBC Covers Air Show

EVENTS in Canada's first postwar international air show at Toronto, Aug. 30-Sept. 7, will be broadcast daily by former RCAF Squadron Leader Joel Aldred, now CBC announcer, on CBC national networks. Air show is sponsored by National Aeronautical Association in Canada in interest of peacetime aviation development in Dominion.

Airs Tennis Play

WNYC New York will broadcast the National Amateur Tennis Champion-National Amateur Tennis Champion-ship matches and also the Davis Cup play-offs between the U. S. and Sweden. Both tourneys will be heard from the West Side Tennis Club in Forest Hills, N. Y. Programs will run Aug. 31 through Sept. 8 for national Tourney and Sept. 13 through Sept. 15 for Davis Cup play.

WJTN at Colony

THROUGHOUT summer months WJTN Jamestown, N. Y., has been airing series of programs from Chautauqua (N. Y.) Institute, cultural, educational, musical and religious summer colony. Among many programs regularly aired are concerts, forums and religious serv-

Traffic Safety

BECAUSE of increase in local traffic accident rate, WQAM Miami, Fla., is presenting series of twice-weekly remote programs, "Traffic Observer," conducted by Sgt. J. A. Youell of local police department. First program in on-the-street origination, while second broadcast is done with cruising mobile

'Hometown' Series

WEEKLY "Your Hometown" series has been started by KIDO Boise, Idaho, as public interest program to dramatize growth and development of towns in KIDO area. Transcriptions of each broadcast are played before various groups in the town dramatized.

Station Showcase

BEHIND the scene radio station operations are presented to the listener in new twice-weekly program aired by WNOX Knoxville, Tenn. Titled "Set Your Dial," quarter-hour show interviews WNOX staffers, promotes station. tion's programs.

To Air Games

KFBC Cheyenne, Wyo., will air 1946 football schedules of both U. of Wyoming and Cheyenne High School.

Fashion Report

PARIS FASHION MARKET doings will be aired direct from Paris to WIP Philadelphia by Gertrude Schaeffer Mayers,

fashion coordinator for Gimbel Bros Dept. Store, Philadelphia. Mrs. Mayers has just left on a trip for Gimbel's and will spend a month in London and Paris selecting complete wardrobes and ac-

Video Contest Show

VIDEO audience participation "Stop the Clock," with conshow. testants receiving from 1 to 12 dollars depending on the position of the second hand of a clock at the time they answer questions, began a four-week series on WRGB Schenectady Aug. 14, presented by ABC television department with Richard Goggin as producer.

New ABC Feature

NEWEST feature presentation on ABC called "Take It From Here" started Aug. 22, Thurs. 9:30-9:55 p.m. Program is audience participation show, feature in a series of turing studio participants in series of zany stunts. Program originates in Hollywood.

Dance Spots

STARTING Aug. 21, CBS is originating two weekly programs from the Roseaired Wed. 12:05-12:30 a.m. and Sat. 11:15-11:30 p.m. Series starts with Ray Eberle and orchestra.

Civic Interviews

FIVE minute interview program, "Who's Who," has been started by WRRN Warren, Ohio, following a daily local newscast to acquaint listeners with city officials and persons of local prominence.

KEX Honored

GOLD medal citation awarded by National Board of Fire Underwriters for outstanding public service in fire prevention was presented to KEX Portland. Ore., at 18th annual convention of the Oregon Association of Insurance Agents in Portland last week.

To Air School Games

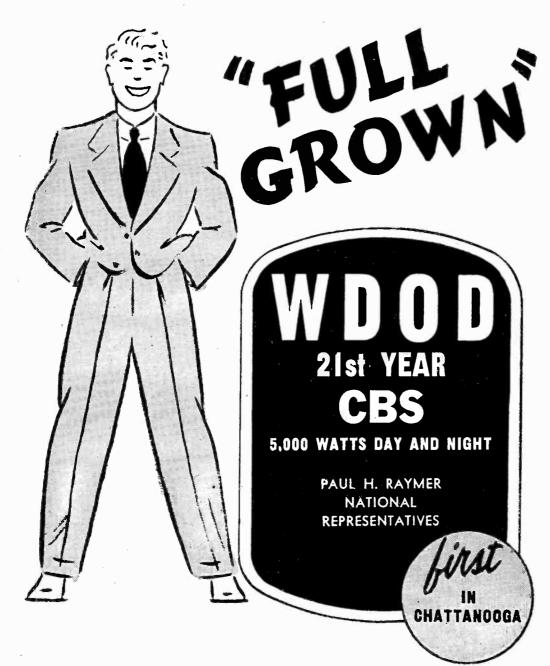

STATIONS of Mid South Network, WCBI WELO WROX WMOX, will carry complete schedule of high school and college football games in their respective Mississippi communities.

Plan Video Survey PLANS for a continuing survey of

the New York television audience to be conducted under the auspices of American Television Society will be discussed by the ATS board tonight (Aug. 26). Several requests for such a service have been requested by video program producers, George Shupert, ATS president, said last week. The society asked Richard Manville, research consultant and ATS board member, to outline specifications for the job. If approved, Mr. Shupert said, the idea will be submitted to video broadcasters, who will be asked to underwrite the job.

Union's Move for Disc Labels To Encounter NAB Opposition

CAMPAIGN of resistance to the IBEW effort to require a union label on transcriptions is developing within the NAB and the subject may be placed on the agenda for the Oct. 21-24 convention in Chicago.

First organized opposition to the IBEW plan, instigated on the West Coast, developed at a meeting of the NAB 15th District (No. Calif., Nev., Hawaii) Aug. 12-13. The association's headquarter's office has taken up the subject but no plan of action has been drawn.

Though the IBEW plan, instigated by Local 1245 embracing the northern two-thirds of Calfornia, ostensibly applies only to cutting of instantaneous recordings, indications have been noted that it

Channel 2, 54-60 mc, to Channel 4, 66-72 mc, change transmitter, and transmitter locations and make changes in antenna system.

might be a foot-in-the-door gesture leading toward a union label on all recordings [BROADCASTING, June 10].

IBEW itself is in an uncertain position, it was learned at the union's Washington headquarters. The union's radio staff does not have direct supervision over the West Coast local, which reports directly to a vice president, and disclaims detailed knowledge of the Coast plan.

Moreover, IBEW is planning complete revision of its union label program covering manufactured electrical products and installations affecting 30 crafts. The union will take up the label program at its San Francisco convention starting Sept. 2, first convention since 1941.

Oct. 1 Deadline

Agreements covering IBEW labels on recordings are provided in a number of IBEW cities, including St. Louis and Chicago. Local 1245, however, has notified stations in its California jurisdiction that effective Oct. 1 members of the local will refuse to broadcast instantaneous recordings and transcriptions not cut by its members.

The local has notified stations that "arrangements are being made gradually to bring about a situation wherein only IBEW-cut transcriptions will be broadcast by members of the IBEW." The notice was sent by Marven C. Larsen, IBEW western representative.

The NAB 15th District at its Aug. 12-13 meeting discussed the problem at length. It asked NAB headquarters to provide counsel to aid the stations in meeting the IBEW threat. Text of the resolution unanimosuly adopted by the district follows:

Whereas demands have been placed before broadcasters of Northern California by the IBEW regarding rubber stamping of transcriptions,

And whereas, these demands if succumbed to by said broadcasters will affect all members of NAB,

It is hereby resolved that 15th District NAB request NAB headquarters staff to immediately make available whatever services are necessary to assist broadcasters in Northern California in meeting these demands, said services to include if deemed necessary the personal West Coast consultation by NAB staff with broadcasters involved and with the counsel which same have already retained

NAB President Justin Miller addressed the Monterey meeting on recent threats to freedom of radio and reviewed effects of the FCC Blue Book. Robert C. Coleson, assistant to President Miller, was at the meeting, which was called by William B. Smullin, KIEM Eureka, Calif., NAB board member. He reported on the August 6-8 board meeting at Estes Park, Col.

Davidson to ABC

WILLIAM DAVIDSON, formerly with J. Walter Thompson Co., New York, as assistant to the chief timebuyer, has joined the station relations department of ABC.

Video Business

(Continued from page 15)

about 20 hours a week, WCBW and WABD (Du Mont) somewhat less, the time varying from week to week in accordance with the amount of sports available. For fall these schedules will be stepped up somewhat; but it is doubtful if the 28-hour weekly minimum set by the FCC as the standard for commercial operation will be achieved by Nov. 1, when it is supposed to go into effect, and another postponement seems likely.

Commercial schedule for WNBT, which in July set a television record with 44 hours, 13 minutes and 31 seconds of sponsored time, includes, in addition to the Gillette poxing bouts, placed through Maxon Inc.: Standard Brands' weekly hour-long variety program, Hour Glass, advertising Chase & Sanborn coffee and Tender Leaf rea, placed through J. Walter Thompson Co.; Bristol-Myers, presenting Mrs. Carveth Wells with a film travelogue for Trushay, through Young & Rubicam; filmed news highlights, sponsored by Standard Oil Co. of New Jersey through Marschalk & Pratt; an educational film series sponsored by Firestone Tire and Rubber Co. through Sweeney & James; The World in Your Home, quarter-hour ilm presented by RCA (direct); time signals for Bulova Watch Co. through Biow Co.; Elgin National Watch Co. through J. Walter Thompson Co.; Waltham Watch Co. through N. W. Ayer & Son; weather reports in cartoon form, sponsored by Botany Worsted Mills (neckties) through Alfred J. Silperstein, Bert Goldsmith Inc. Goodyear Tire & Rubber Co., sponsoring Army football games through N. W. Ayer & Son; United States Rubber Co., sponsoring Friday Night Quarterback through Campbell-Ewald Co.; Borden Co., New York, weekly food program, I Love to Eat, through Young & Rubicam.

WCBW's Sponsors

Fall lineup of sponsors on WCBW, in addition to the Ford schedule, placed by J. Walter Thompson Co., includes a Thursday evening series of news programs sponsored by Gulf Oil Co. through Young & Rubicam, and two quarter-hour programs for Bristol-Myers, one for Ipana featuring the cartoonist, Sid Hoff, the other for Vitalis presenting Bob Edge and a filmed "sports almanac," both placed through Doherty, Clifford & Shenfield.

WABD's current sponsors, all continuing, include U. S. Rubber Co., sponsoring a half-hour film, Seeing Through Science, weekly, hrough Campbell-Ewald Co.; Alexander Smith & Sons Carpet Co., Magic Carpet, half-hour weekly telecast combining live studio program with film, through Anderson, Davis & Platt; a half-hour weekly program for Wanamaker's department store, each program plugging a different product carried by the store and sponsored by the manu-

FULL STAFF will be installed at NAB's expanded Employe-Employer Relations Dept. when Richard P. Doherty takes over as department head in the first week of September. Mr. Doherty was named Aug. 16 to the post [Broadcasting, Aug. 19]. The department has embarked on a greatly expanded labor relations project, providing information on all phases of employment.

facturer of that merchandise; time signals sponsored by Elgin Watch Co. through J. Walter Thompson Co., and Waltham Watch Co. through N. W. Ayer & Son, and weather reports sponsored by Botany Worsted Mills through Alfred J. Silberstein, Bert Goldsmith Inc. These are in addition to the two weekly half-hour periods on WABD purchased by ABC for video program experimentation pending the time when the network will have its own television stations.

Present three - evening - a - week schedule of WABD will be considerably expanded during the fall, first through addition of more remote pickups, chiefly sporting events, and later with more studio and film shows. Station has been televising boxing bouts and midget auto races and expects to add football, wrestling and other such events, for which it anticipates little difficulty in finding sponsors. Du Mont engineers are now developing a compact mobile unit for covering out-of-studio programs and expect to have two such units operating at the station before the end of the year.

Studio Facilities

WABD already has two studios completely equipped for the presentation of live programs, which can be scheduled successively without the usual film interludes telecast while the studio is being reset for the next show, so the station can readily increase its live program schedule. Station also can expand the time allotted to its news bulletin service, with INS headline news telecast through a moving

tape device across the face of the WABD test pattern [BROADCASTING, Aug. 5]. This service, currently on the air from noon to 2 p.m., Monday through Friday, is expected to be of assistance to dealers in their daytime set demonstrations as well as of service to set owners.

American Broadcasting Co. expects to continue its video experiments on an expanded scale this fall, according to Paul Mowrey, national television director of the network. In addition to WABD, ABC also has its programs telecast by WPTZ Philadelphia, WBKB Chicago, WRGB Schenectady and W3XWT Washington. Advertisers sponsoring ABC telecasts pay only production costs, with a minimum fee of \$500, the network itself absorbing the time charges of WABD WPTZ and WBKB (WRGB and W3XWT do not sell time). ABC also on occasion stands part of the production expense, when it is exceptionally high and the program provides experience of sufficient value to its video personnel, Mr. Mowrey said.

Limit Removed

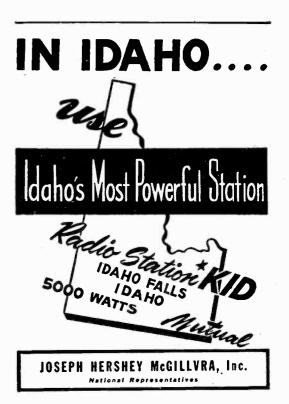

Network has video construction permits for Chicago and Detroit and will push construction as rapidly as possible in both cities, according to Mr. Mowrey, who expressed hope they might begin operating by the end of the year.

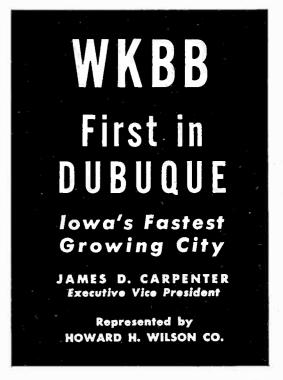

Formerly ABC limited its video clients to four telecasts each, but it recently contracted to produce a ten-week series for Alexander Stores, New York community department store chain, to be telecast on WABD starting Sept. 10. Arrangements are also under way with Grey Adv. Agency for a series of 24 programs, also to go on WABD, to be distributed among six Grey clients.

Mr. Mowrey said that he is now advocating a six-week series to advertisers interested in video experimentation, with the first two programs to be telecast on an out-of-town station and then, after the try-out period, brought to New York for four telecasts on WABD. He said that ABC may increase the time on that station to carry out its fall program plans, but in view of WABD's own plans for expanded activities it seems doubtful if that can be arranged.

In Chicago, where WBKB recently telecast the Tam O'Shanter Golf Tournament under ABC auspices and sponsored by U. S. Rubber Co., ABC will use WBKB for a series of wrestling and boxing telecasts, which would probably be sponsored, to start as soon as the station has received its image orthicon equipment from RCA.

ABC is also continuing its film coverage of major special events—recent ones were the trotting races at Goshen, and the Minneapolis Aquatennial (sponsored by U. S. Rubber) and the Gold Cup motor boat race in Detroit—the films being telecast over a variety of the five television stations with which ABC has working arrangements.

Cain Writer Idea Watched by Radio

Proposed 'Authority' Would Copyright Most Material

WATCHFUL waiting best describes the radio-movie attitude in Hollywood toward recently proposed American Authors Authority conjured up by James M. Cain, novelist and scenarist, in July issue of Screen Writer.

As conceived by Mr. Cain the Authority would copyright in its own name for the writer's benefit all material produced for radio, stage, screen, book or magazine except material produced on salary and not subject to author's copyright.

Other aims call for:

1. Establishment of offices in New York, Chicago, Washington and Los Angeles as well as active lobby liaison at Sacramento, Calif., Springfield, Ill., and Albany, N. Y.

2. Keep accurate records of copyrights and transactions for members.

3. Clearing all deals and advising members of legalities.

4. Lease, but never sell rights under the copyright.

5. Prosecute writer's case in court in capacity of copyright holder.

6. Furnish competent field representatives to deal with networks, stations, movie studios etc. where writer's rights have been infringed.

7. Prepare new copyright law and active support to insure its passage.

8. Fight to promote writer's rights.

9. Financing would come from service charge of approximately 1% against all firms doing business with AAA on each transaction. Ultimate aim would be percentage of audited gross of every network, radio station, book publisher etc. for pooling and division among members or setting aside for the future security.

This plan has been approved in principle by Radio Writers Guild and Screen Writers Guild with detailed study to be handled by committees. A spokesman for radio writers said that no careful study could possibly be concluded before first of year.

Although some decisive opinions have been expressed regarding plan, key radio executives in Hollywood are not alarmed. To begin with, they emphasize this is only a plan and still to be developed. Assuming it is developed two legal questions remain, they point out. These involve anti-trust character of proposal as well as its encroachment upon freedom of speech and thought.

There is an implicit threat of monopoly, expressed in Mr. Cain's remarks. "The writer will send all works to the Authority to be copyrighted in its name for his benefit. The Authority will then say 'we shall copyright for assignment no works except from writ-

Tuhy Planning to Open Law Firm in Washington

STEPHEN TUHY Jr., former FCC attorney and for the past two years with Hayes & Hayes Washington law firm, last week announced he would open his own

effective Sept. 1. Offices will be at 407 Albee Bldg. Prior to join-

law offices spe-

cializing in radio

and related fields

ing the Hayes & Hayes firm, which specializes in both tax and radio law, Mr.

Mr. Tuhy

Tuhy for eight years was with the FCC as a trial attorney in broadcasting.

ers who have become members of the proper guild (screen writers, radio writers, dramatists and authors).

"This will take care of the outlaw contributors who became so menacing to ASCAP at the time of its fight with the radio studios. It will also say we shall lease no rights except to lessors who comply with the basic arrangements of the guilds. The SWG and RWG will say 'we shall permit our writers to work on no material not leased through the Authority' and this will compel every writer in the country hoping for picture or magazine sale to send his work to the Authority for copyright before the magazines or publishers get it."

Finality of this opens question of the young writer's chances. To this, RWG explains that its rolls are open to any radio writer. Therefore, they reason, only man excluded is the man who excludes himself by refusing to join.

Named to New Post

JOSEPH L. RAUH Jr., former FCC general counsel in charge of broadcast division and staff officer to General MacArthur during the war, last week was named general deputy to Housing Administrator Wilson W. Wyatt. Mr. Rauh, who was appointed to the FCC post succeeding William C. Koplovitz, now in private practice in Washington, resigned from the Commission May 27, 1941.

GOODYEAR GRID VIDEO SERIES

GOODYEAR Tire & Rubber Co., Akron, will make its television debut Sept. 21 when it sponsors the first of a series of video pickups of seven of the Army's football games telecast on WNBT New York. Series will include five games from West Point, starting with the Villanova game and including contests with Oklahoma, Cornell, Columbia and West Virginia, and two games from New York, with Duke and Notre Dame. Games from West Point will be brought to New York

Hearings Overlap **Convention Dates**

Denny Recommends Change To Avoid Conflict

CHARLES R. DENNY Jr., acting chairman of FCC, has recommended that the Los Angeles FM hearings be postponed to avoid conflict with the NAB Convention. His recommendation was made following conferences with A. D. Willard Jr., NAB executive vice-president.

Broadcasters had pointed out that the new hearings calendar (see alphabetical listing of all hear ing cases on page 35) schedules 18 FM applications for hearing in Los Angeles from Oct. 14-25, while NAB's first convention since 1942 will be held in Chicago Oct. 21-24

William B. Ryan, vice president and general manager of KFI Los Angeles, one of the FM applicants is an NAB district director. Broadcasters thought that some if not all of the other applicants would want to attend the NAB Convention whether they are members or not particularly in view of the FM panel in which FCC Acting Chairman Charles R. Denny Jr. will participate.

Chronological listing of some of the hearings on the calendar follows:

Sept. 5-6—Long-pending application of KQW San Francisco to increase from 5 to 50 kw on 740 kc and KSFO San Francisco to change from 560 to 740 kc

and go to 50 kw, both directionalized fulltime. Place: Washington.

for broadcast via a special relay system. Series was arranged by N. W. Ayer & Son, New York.

NEW WNEW STUDIOS COST MILLION

Interior view of new WNEW studios.

NEW YORK's first major postwar station development was completed ast week when WNEW moved to ts new quarters at 565 Fifth Ave. Broadcasting from the new studios officially began one second past nidnight, August 24, with Art Ford, conducting the Milkman's Matinee.

In operation only 12 years, NNEW moves into its new quarters high on the list of metropolitan independents. Situated on the north-east corner of 46th Street and Fifth Ave., WNEW will occupy 50,000 square feet, of which 36,000 will be used immediately, and the rest held in reserve for development in FM and television. The station will have more than twice the space formerly occupied at 501 Madison Ave.

Fellheimer and Wagner, archi-

CBS TAKING ADDED NEW YORK OFFICES

CBS, effective Aug. 31, will take over the WNEW New York offices and studios at 501 Madison Ave., when the independent station vacates the 14th and 15th floors of the building and moves into its new studios at 565 Fifth Ave.

According to C. R. Jacobs, acting director of construction and building operations for CBS, the shift will be possible by Oct. 1. The five-year lease for the space was contracted a few months ago with the Gresham Realty Co. Inc.

Two of the studios on the 14th floor will be remodelled and used as non-audience studios. The rest of the studios will be removed and the space converted into offices. It has not yet been determined which CBS departments will occupy this floor.

CBS Radio Sales will move into the 17 offices on the 15th floor as a complete and integrated unit. tects and engineers, designed the new WNEW studios at an estimated cost of \$1,000,000. The studio design embraces the latest electronic and acoustic developments with transmitting equipment by RCA. Acoustic design for the studios is the work of C. R. Jacobs, sound engineer of the architectural firm. He devised a blend of absorptive materials which react to sound in a fashion similar to that of a violin shell. All studio walls and ceilings are polycylindrical.

WNEW has designed its color scheme along lines of optical psychology. Through application of variegated color patterns, substance and body has been provided each of the seven studios. No two studios have the same color scheme.

The station has installed seven clocks, calibrated counterclockwise, enabling engineers to know how much time is left in each 15 minute period. These clocks are a development of WNEW's own engineering department.

Scripts are not going to be used on live shows at WNEW, according to Ted Cott, program director. The scripts will be thrown on the walls of the studios with a movie projector. This type of scriptcasting will also be used when WNEW begins telecasting.

KFI Honored

KFI Los Angeles has been awarded western regional award by Phi Beta fraternity, national music and drama honorary, for its KFI Hollywood Bowl Auditions. Program was named "Most worthwhile and outstanding radio music program in west for year of 1946." W. B. Ryan, station manager, received plaque Aug. 25 at Hollywood Bowl where Audition winners, Lillian Magidow and John Arnold Ford, appeared as soloists with Leopold Stokowski.

FIVE GROUPS SET FOR MOSCOW MEET

FIVE U. S. communications companies will be represented by observers at the five-power telecommunications conference tentatively scheduled to be held in Moscow late next month. List of American observers is being kept down at request of Soviet government, based on shortage of housing facilities in Moscow.

Exact date for conference cannot be fixed by Russia until formal acceptance is received from China. Originally meeting had been scheduled to start Aug. 28 [BROADCASTING, Aug. 19]. The U. S., Great Britain and France asked postponement because of difficulty in naming delegations and handling preliminary details.

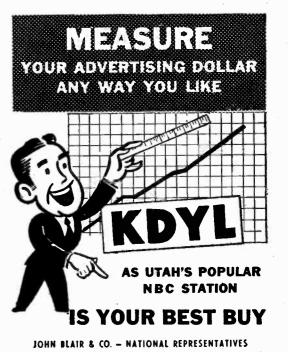

Membership of U. S. delegation will be announced in near future by President Truman, who has been vacationing on the Atlantic. Francis Colt de Wolf is to be chairman of the American delegation, with FCC and other Federal agencies to be represented. Suggestion has been made at State Dept. that technical advisers attend as members of delegation.

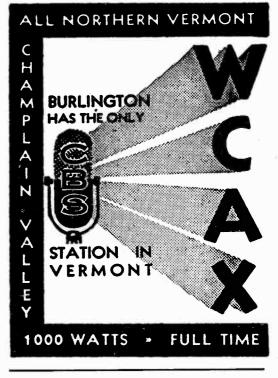

Industry observers planning to attend meeting are F. C. Alexander, assistant vice president, for IT&T group; William G. Thompson, assistant vice president, for AT&T; Phillip F. Siling, engineer in charge of RCA Frequency Bureau, for RCA; Commodore E. M. Webster, director of telecommunications, for National Federation of American Shipping; Col. Frank P. Andrews, vice president, for Press Wireless. A. L. Budlong, assistant secretary, will attend as observer for American Radio Relay League. NAB has not indicated whether it will send an observer.

WABD TELECASTING INS NEWS ON TAPE

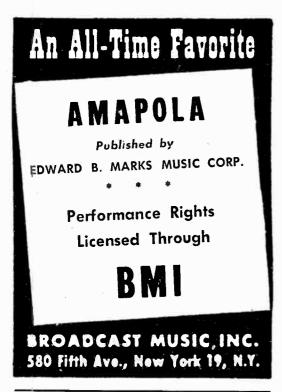

FIRST telecasting of INS news, moving across the face of a WABD New York test pattern at the rate of 60 words a minute, got underway Aug. 19, and is currently on the air from 3 to 5 p.m. Monday through Friday. Anthony J. Pugliese, veteran reporter, desk man and editor, has been appointed special television editor for INS. Program was originally planned for a 12-2 p. m. period but at the request of servicemen who said they were at lunch then, it was shifted to 3-5 p. m. Original pickup was was with two cameras, with the picture of the moving tape that carries the news superimposed on the test pattern. To overcome a resulting loss in brilliance, however, a single camera setup is now used with the newstape running in a groove through the test pattern. Mechanical details were worked out by William McCord, Du Mont engineer, and Robert Conklin, Arthur Sullivan and Paul Sullivan, INS engineers.

FCC Grants 9 New Standard Stations

Estimated Construction Cost of Outlets \$137,000

GRANTS for nine new standard stations representing \$137,000 in estimated construction costs were issued by FCC last Thursday.

When observers pointed out that some of the granted applications were far back on the list released by FCC the week before to show the order in which applications would be considered [BROADCAST-ING, Aug. 19], Commission spokesmen called attention to certain "exceptions" noted in the statement issued with the list.

One was that simple and complex applications, ordinarily kept in separate "processing lines," would be studied together if they involved mutual interference conflicts and if time will be saved by simultaneous examination. It was also pointed out that processing of some applications may be completed before work is finished on others which, although nearer the front of line, involve more complicated problems.

Need of Further Data

Another reason for seemingly by-passing applications, it was explained, is that additional information may be needed before processing can continue on certain cases, with the result that newer cases may be completed while FCC waits for the needed data.

Three of last Thursday's grants were for 250-w fulltime stations on 1230 kc-in Yazoo City, Miss.; Thief River Falls, Minn., and Med-

PW IS ASKING LINES FOR PROGRAM PLAN

APPLICATION for authority to acquire and operate additional leased wire lines between Washington, D. C. and New York, for use in its proposed domestic program transmission service, was filed with FCC last week by Press Wireless.

PW asked for permission to estabish two Class A broadcast lines which would be used to feed Washington-originated material to New York, for transmission to individual stations for rebroadcast if the program service plan is approved.

The proposal [BROADCASTING, April 8, 15] is pending before FCC. An 11-day, FCC-authorized test in May, PW reported, demonstrated that commercial programs may be transmitted successfully without land lines. Shortwave transmissions of programs to stations in various areas of the U.S. were described as "preponderantly successful" and "even the moduplex and relay transmissions were, in the majority, received with quality suitable for rebroadcast" [BROAD-CASTING, June 3].

ford, Ore. Huntsville, Ala., was given a 250-w fulltime outlet on 1450 kc and Palatka, Fla. received a 250-w daytime station on 800 kc. A 1-kw fulltime station was granted for Boise, Ida. on 950 kc, and 1-kw daytime outlets were authorized for Saginaw, Mich. (1210 kc); Tarbora, N. C. (760 kc), and Douglas, Ga. (860 kc).

The grants:

Yazoo City, Miss.—Equal partnership: B. J. Barrier, wholesale gasoline and automobile business; H. T. Barrier,

automobile business; H. T. Barrier, planter and cotton grower, and H. P. Holmes, orchestra leader. 1230 kc 250 w fulltime. Granted Aug. 22.

Thief River Falls, Minn.—Henry K. Arneson, U. S. Employment Service employe, sole owner. 1230 kc 250 w unlimited time. Granted Aug. 22.

Medford, Ore.—Medford Printing Co., publisher of Medford Mail-Tribune. 1230 kc 250 w unlimited time. Principals: Robert W. Rule, president, 89 shares; Ernest R. Gilstrap, vice president, 1 share; Herbert S. Gray, secretary, 5 shares. Granted Aug. 22.

dent, I share; Herbert S. Gray, secretary, 5 shares. Granted Aug. 22.
Palatka, Fla.—Palatka Broadcasting Co. (equal partnership): J. E. Massey, Hahira, Ga. drug store proprietor and L. E. McCall, chief engineer WGOV Valdosta, Ga., proposed manager. 800 kc 250 w daytime operation only. Granted Aug. 22.
Saginaw, Mich.—Lake Huron Broadcasting Co. 1210 kc 1 kw daytime only. Principals: O. J. Kelchner, former man-

casting Co. 1210 kc 1 kw daytime only. Principals: O. J. Kelchner, former manager of WMMN Fairmont, W. U. S. Court to Hear **WQXR-KPMC Case**

Appeal Is Made of Washita Grant on 1560 kc

APPEAL from FCC's Aug. 1 decision which granted without hearing the application of Washita Valley Broadcasting Co. for a new 250-w local outlet on 1560 kc at Chickasha, Okla., is to be filed in U. S. District Court of Appeals for the District of Columbia by Loucks & Scharfeld, Washington legal counsel for WQXR New York and KPMC Bakersfield, Calif., the Commission was informed last Wednesday.

Rights the U.S. "might allege for I-B operation" on 1560 kc at coming conference for revision of NARBA are lost under the decision, according to the appeal which also maintains that the grant was erroneous in that it predetermines without hearing "action to be taken as the result of the clear channel" proceedings and "nullifies any other action which might have resulted from testimony adduced" at such proceed-

Appeal claims WQXR and KPM(either with their present or proposed facilities would receive interference from the new operation. WQXR, now on 1560 kc with 10 kw, has application pending for 50 kw. KPMC, now using 1 kw on that assignment, is asking boost

The appeal asserts the FCC decision "is erroneous as a matter of law insofar as it rests upon the finding that 'Classification of either Station KPMC or WQXR as I-B stations would be in derogation of Cuba's I-B priority to use of frequency 1560 kc under NARBA,' since the Commission's Rule 3.25(b) authorizes I-B operation on 1560 kc pursuant to the provisions of NARBA."

Appeal also claims the Commission erred in denying appellants' petitions for review of the Washita grant without a hearing which would permit KPMC and WQXR opportunity to present their cases.

Du Pont Renews

E. I. duPONT de NEMOURS & Co., New York, following summer lay-off Aug. 26 resumes Cavalcade of America on 143 NBC stations, Mon. 8-8:30 p. m. (EDST). Paul Lukas will star in opening drama, "Passport to Freedom." Agency is BBDO, New York.

Allens Giving Up Multiple Holdings

Withdraw Interest in WBTM and WSLS; Keep WLVA

EDWARD A. AND PHILIP P. ALLEN, substantial stockholders n WBTM Danville, WSLS Roanoke and WLVA Lynchburg, Va., are lisposing of their interests in VBTM and WSLS.

Their resignation from managnent of Piedmont Broadcasting lorp, and Roanoke Broadcasting Corp., respective licensees of VBTM and WSLS, was said o be promoted by a conclusion n their part that "under present ircumstances it would be in the public interest" for them to iquidate their stockholdings in the wo stations. The two brothers vill continue to retain controlling nterest in WLVA.

In addition to severance of the Allen holdings in WBTM and WSLS, the three stations have roted to dissolve the Tri-City Staions Assn. WBTM, WSLS and WLVA have been represented under he single management of the Tri-City network in the field of national and regional advertising. All net profits of the association were disributed equally among the three stations.

Sale of the Allen stock in WBTM nas already been consummated, with the bulk going to present stockholders. Stock in WSLS—approximately 40%—has been offered for sale to present holders of stock in the station, with secand choice going to local corpora-

Reorganization of stock holdings in the two stations was divulged in petitions submitted to FCC in connection with WBTM's efforts to change from local to regional status, but details of the transactions were not disclosed.

WBTM, seeking to move from 1400 to 1390 kc, has been given a tentative denial, proposed grants going to WCSC Charleston, S. C. for an increase from 1 to 5 kw on 1390 kc and to Old Dominion Broadcasting Corp, for a new 1-kw fulltime station on the frequency at Lynchburg. The latter, FCC said, would add a "new competitive" service in the areas served by the three stations with which the Allens were associated.

WBTM subsequently filed a motion to amend to 1250 kc which was granted by Motions Commissioner Rosel H. Hyde. The Commission set the action aside for further consideration, however, after Virginia-Carolina Broadcasting Corp. reported that it had had an application for 1250 kc at Danville pending since last October but had been given no notice of WBTM's efforts to change to that frequency. Commissioner Hyde then reversed his earlier ruling, asserting that a grant of WBTM's petition would "not conduce to a fair and equitable handling of applications . . ."

Now pending are a WBTM peti-

FM Promotion

URGING radio set buyers to purchase only combination receivers, WGH AM-FM Newport News, Va., has launched a vigorous FM promotion campaign, featuring full-page newspaper advertisements. Greater the demand for the sets equipped with FM, the lower the cost at which they can be built and sold, the campaign points out. WGH will duplicate its AM broadcasts on FM as soon as its FM station gets on the air, Raymond B. Bottom, president, announced.

KTRN's FM Promotion Draws Wide Attention

EDITOR, BROADCASTING:

Thanks for the excellent writeup on KTRN [BROADCASTING, Aug. 121.

We have received letters from all over the country asking for tear sheets and more information on the campaign. Our tear sheets are exhausted, but we don't want to turn any one down, so we are reprinting all our promotional material in the form of a four page broadside. Anyone who wants one can have it.

Attached is a tear sheet from the Sunday Times that might interest you.

IBM Device Translates Seven Varied Tongues

RADIO DEVICE which delivers simultaneous translations in seven different languages was used for the first time Aug. 17 at a world teachers conference at Endicott, N. Y.

Distinctive feature is the individual, lightweight radio set, equipped with earphones and an aerial permanently embedded in the shoulder strap, which each hearer wears. He can thus move about the room freely as long as he remains within the loop of an antenna wire circling the auditorium.

Previous system, used at the German and Japanese war crimes trials and various conferences for 15 years, employed wired circuits. International Business Machines is the manufacturer of both.

tion for Commission review of action on the motion, and a counterpetition of Virginia-Carolina asking that Commissioner Hyde's action be sustained.

WBTM is represented by John H. Midlen and William Thomson of the Washington law firm of George O. Sutton. Maurice M. Jansky of Loucks & Scharfeld, represents Virginia-Carolina.

CPs Go to Eight Applicants for FM

Total Granted to Present Time Reaches 223

EIGHT FM applicants were granted regular construction permits by FCC last Thursday, pushing the total to 223. In a ninth case, a regular permit was awarded WFBC Greenville, S. C. (AM station) in lieu of conditions attached to the permit granted previously.

Six of the grants were for Class B and two were for Class A stations. All but two of the grantees are affiliated with standard stations either as licensees or through interests of individual stockholders.

The Commission also announced that it had amended its Rules to incorporate the new policy of withholding from assignment for one year every fifth Class B channel allocated to an area. The amendment adds the following Subsection (c) to Sec. 3.204, Part 3. Subpart (b):

For the period ending June 30, 1947, one out of every five Class B channels tentatively indicated as available to an area shall be withheld from assignment: Provided, however, that the withholding shall apply only to those areas to which at least five Class B channels have been so assigned.

Grants authorized last week were as follows (AM affiliation shown in parenthesis; power is effective radiated power and antenna height is height above average terrain):

WIBM Inc. (WIBM), Jackson, Mich.
—Class A; 105.9 mc (Channel No. 290);
500 w; 305 feet.

—Class A; 105.9 mc (Channel No. 290); 500 w; 305 feet.

Portsmouth Radio Corp. (WSAP), Portsmouth, Va.—Class B; 94.7 mc (No. 234); 29.6 kw; 350 feet.

Alamance Broadcasting Co. (WBBB), Burlington, N. C.—Class B; 101.3 mc (No. 267); 34 kw; 410 feet.

Cowles Broadcasting Co. (KRNT), Des Moines, Iowa—Class B; 101.7 mc (No. 269); 158 kw; 745 feet.

Lamar Life Insurance Co. (WJDX), Jackson, Miss.—Class B; 101.5 mc (No. 268); 69 kw; 580 feet.

Saviers Electrical Products, Reno, Nev.—Class A; 104.3 mc (No. 282); 530 w; 970 feet.

Owensboro Broadcasting Co. (WOMI), Owensboro, Ky.—Class B; 92.3 mc (No. 222); 20 kw; 500 feet.

Freeport Journal-Standard Publishing Co., Freeport, III.—Class B; 102.1 mc (No. 271); 9 kw; 235 feet.

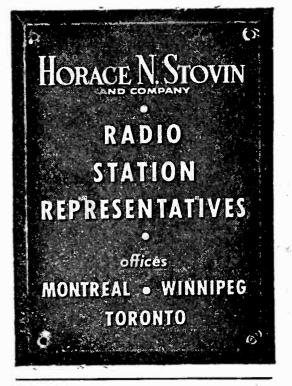

*The Greenville News-Piedmont Co. (WFBC). Greenville S. C.—Class B: *The Greenville News-Piedmont Co. (WFBC), Greenville, S. C.—Class B; 92.9 mc (No. 225); 160 kw; 1120 feet.

Sherman Amsden Plans N. Y. Radiopaging Tests

A ONE-WAY radiopaging service is planned by Sherman C. Amsden who was granted an experimental Class 2 station for general mobile carrier development by FCC last week. Tests will be conducted in vicinity of New York City.

Subscribers to Mr. Amsden's service would be assigned a code number and at stated intervals would listen for their signal on the vest-pocket-size device. If they heard their number, they would know they were wanted on the telephone. They would then call a designated number for the message. The proposed service is for doctors and other professional men.

CBS AND TWO UNIONS APPEAL NLRB CASE

EXCEPTIONS were filled last Thursday by CBS and two unions to the report handed down on Aug. 15 by the regional office of the National Labor Relations Board on the CBS white collar workers challenged votes of the union representative election [BROADCASTING, Aug. 19].

The two unions are the United Office and Professional Workers of America (CIO) and the International Alliance of Theatrical Stage Employes (AFL). Exceptions to the report were sent to the National Labor Relations Board in Washington for a final ruling. The regional board had ruled that 16 of the 23 challenged ballots could be opened and counted.

The filing of the exceptions once again delays the counting of the ballots to ascertain the results. UOPWA needs about five more votes to win the election.

Agreement Made

THE FOUR network representatives met last Wednesday with representatives of the International Alliance of Theatrical and Stage Employes to negotiate a new contract for studio stage hands. Group came to an agreement, which was to be presented to the union last night (Sunday) for approval. Current contract runs until Aug. 31.

Hon. F. W. Ferrin Leo Burnett Co. Chicago, Ill.

Dear Frank:

I sure am glad that we don't have elections every month down here. Dur-

ing the primaries a couple of weeks ago, we took off regular evening pro-grams to bring listeners the latest election returns from seven key cities in the State. This is the first time a State networkof stations had been combined to cover an elec-Naturally, this took a lot of extra ing the broadcasts, engineering and clearing time, but the whole operation went off as smooth as a pair of Myrt's nylons.

'Course that's

to be expected from WCHS!

Press Wireless-ACA Strikers Return to Work; 46 Reinstated

THE TWO WEEK strike of 300 members of the American Communications Assn. protesting the laying off of 46 ACA members by Press Wireless Inc. ended last week. Picket lines around the offices of Prewi at 1475 Broadway were withdrawn at 8:15 Tuesday night and the union took steps to resume normal service.

The decision of the union to return resulted when Arthur S. Meyer, special arbitrator of the United States Mediation Service, and chairman of the New York State Board of Mediation, declared that the ambiguity of a clause in their contract providing for consultation among the parties before any layoff led him to conclude that "neither side" had the right to take unilateral acton in the matter of layoffs.

Must Reinstate Men

In effect, Mr. Meyer's decision provided that Press Wireless must reinstate the forty-six men with retroactive pay to Aug. 7, the day the strike began. On Friday, arbitration began in the offices of the State Board of Mediation, 250 West 57th St. with Mr. Meyer attempting to decide whether 300 other workers who went on strike also should receive retroactive pay for the period of the walk-out.

The other issue is whether the number of layoffs ordered by the company and the proposed downgrading that would result were justified under the company's present operating schedule. It was understood that Mr. Meyer slighted the question of what constituted "unilateral action" on the part of the union on the ground that it was something he should not have been asked to decide. His feeling was said to be that the issue of primary concern was whether the company was justified in taking unilateral action.

Union President Joseph P. Selly in commenting on Mr. Meyer's decision said: "The union is naturally gratified that the arbitrator has decided in its favor . . ." He added that the ruling was justification of the union's contention that arbitration should have preceded the layoff.

A. Warren Norton, president of Press Wireless said it had been the desire of the company to submit the issues to proper arbitration.

The peace was negotiated during an all-night meeting Aug. 17 by a U. S. Conciliation Service panel headed by Frederick R. Livingston of the Washington office of USCS. The meeting culminated in the signing of the agreement at 5:45 a.m. Sunday. By 2 p.m., Sunday union's strike-strategy committee voted unanimous approval. "Both sides seemed satisfied with the terms," said Mr. Livingston in

Washington headquarters last week. International communications, with the exception of Press Wireless, were restored to normal almost immediately after the strike's end. By Wednesday Press Wireless was also functioning again.

NO RADIO LOBBY REGISTERS TO DATE

WHETHER Federal Regulation of Lobbying Act would affect the broadcasting industry remained uncertain last week as registration began under the newly-enacted legislation.

Offices of the Clerk of the House and Secretary of the Senate had received "several hundred" requests for registration blanks. None was from anyone apparently connected with radio, however, according to James D. Preston, clerk to the Secretary of the Senate, and H. N. Megill, Assistant Clerk of the House.

Both sources said they expected heavier registration when Congress convenes. It was pointed out that potential lobbyists could delay registering until legislation of interest to them comes up for action.

Anyone who accepts remuneration for the purpose of influencing legislation must register, according to the act. Quarterly financial reports are required from registrants.

Gerl to Appeal Order On Child-Labor Charge

JOSEPH GERL, president of Sonora Radio and Television Corp., Chicago, said he would appeal "immediately" an order requiring the company to pay \$7,980 damages to the government for having "knowingly employed" child labor.

The original decision, upheld by Secretary of Labor Schwellenbach, was made by the administrator of Wage and Hour and Public Contracts division of the U. S. Dept. of Labor, which found the corporation had employed 24 girls between the ages of 16 and 18 on government contracts in violation of the labor laws.

Mr. Gerl said his attorneys had advised him the order would be reversed on the basis that the women were actually employed by the government during the wartime emergency.

Rexall Resumes

THE Durante-Moore Show, feaauring Jimmie Durante and Gary Moore, sponsored by United-Rexall Drug Co., Los Angeles, returns to the air, Sept. 13 in its regular period, Fri. 9:30-10 p. m. on CBS. Summer replacement, Wayne King, goes off Sept. 6. Agency is N. W. Ayer & Son, N. Y.

STATIONS AID Conciliation Service Thanks Industry for Help

IN APPRECIATION of New York stations' use of an emergency announcement urging union members to attend the ratification meeting scheduled at 7 p. m. Sunday Aug. 18, Edgar L. Warren, director of the U. S. Conciliation Service, sent a letter to a number of radio stations that used the message.

Announcement was included in the first to go out over Press Wire less following negotiations. It was issued by Frederick L. Livingstor of the Washington office of USCS and addressed to radio news editors

"As a result of the stations' cooperation," Mr. Livingston told BROADCASTING, "over 200 union members were present. The presence of that highly representative number made it possible to vote on ratification, and speeded up the strike's end."

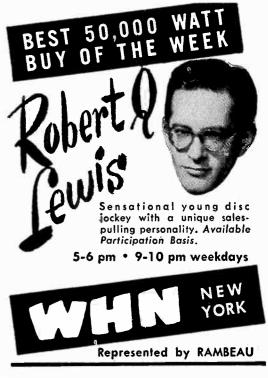

The letter sent to stations stated:

"I wish to take this opportunity to thank your station for its cooperation pursuant to the request of Frederick R. Livingston of my staff in announcing the emergency ratification meeting called on short notice Sunday, Augus 18, by the American Communication. Association. Use of radio made it possible to speed ratification of the agreement worked out by Press Wireless Inc and the Union and thus shorten the

tie-up of international press traffic.
"You will be interested to know that responding to the broadcast announcements, more than two-thirds of the employees participated in the ratification meeting only three hours after the settlement was reached."

Five Join ABC

FIVE NEW affiliates, four of them located in Idaho, Oct. 1 join ABC the network announced last week [CLOSED CIRCUIT, Aug. 12]. New affiliates: KBIO Burley, 250 w 1400 kc, managed by Edward Jansen; KGEM Boise, 250 w 1340 kc. managed by Fentress Kuhn; KEIO Pocatello, 250 w 1450 kc, managed by James Brady; KLIX Twin Falls, 250 w 1340 kc, managed by Frank McIntyre (all these are in Idaho and will be known as the Idaho Group); WRHP Tallahassee, Fla., 250 w 1450 kc, managed by Frank W. Pepper.

Dept. of Justice to Review RMA Hopes to End U. S. Brief in Petrillo Case

THE Dept. of Justice will review the Government's brief in the trial of the U. S. vs. James C. Petrillo, before it is formally submitted to the U. S. District Court, Northern Illinois District, Sept. 19, William J. Connor, assistant to District Attorney J. Albert Woll, told BROADCASTING last week. He outlined legal maneuvers to be taken before the case goes to the Supreme Court.

Should Judge Walter LaBuy find in favor of the Government, the U. S. District Attorney's office will ask for an immediate trial on the merits of the case. This trial may be conducted before a jury or as a bench case. Counsel for Petrillo in Chicago indicated he would waive a jury trial in favor of the bench procedure, inasmuch as a jury could argue only the facts of the case and not the question of the constitutionality of the Lea Act itself.

If Petrillo is successful in obtaining a victory in his motion to dismiss the Government's bill of information against him, the U.S. District Attorney's office will appeal directly to the Supreme Court for a decision on the constitutionality of the Lea Act.

No such course is open to Petrillo in event the court sustains the Government's arguments.

Should this happen, the next step of the defense would be an appeal to the U.S. District Court of Appeals on the ground that the court erred in its findings, or that testimony submitted by the Government in support of the constitutionality of the Lea Act was in contradiction to the Bill of Rights.

If the Court of Appeals decides in favor of the defendant, the Attorney General's office will call on the Supreme Court for a decision. If the Court of Appeals supports the lower court's decision in favor of the Government, the defense then has the right to appeal to the Supreme Court.

Regardless of the outcome, little possibility is seen that the Petrillo case, first to test the constitution-

mi gives you "THE WORLD'S BEST COVERAGE OF THE WORLD'S BIGGEST NEWS"

ality of the Lea Act, will come before the Supreme Court before 1947.

Meanwhile, Mr. Connor said Mr. Woll, now on vacation, had received no word from U.S. Attorney General Tom C. Clark relieving him from the prosecution of the Petrillo case. Action was initiated June 10 as a result of the AFM president's action in calling a strike against WAAF Chicago.

Until such time, he declared, Mr. Woll will continue to supervise the Government's prosecution.

Retail Tube Price Is Increased 20%

OPA Also Publishes New List For Radio Parts Makers

A 20% INCREASE in the retail price of radio tubes as ordered by the OPA effective last Friday will be felt by consumers, with the increase passed on to them. Under previous set-up distributors and dealers had been required to absorb the 20% increase granted manufacturers May 2.

Prior to last Friday's action, the distributor absorbed 4% of the increase, and the dealer 16%. As a result of the new amendment to Order 619, MPR 136, the distributor's prices are increased 4% and the dealer's or retailer's prices increased 20%.

At the same time, OPA published a new price list for increase factors on materials for manufacturers. The list is to be used by manufacturers of radio parts when the manufacturer requests OPA for a price adjustment. It is based on the amount of increase in materials cost.

Total increase cost for radio parts over the base period includes: Cabinets (metal, stamped), 21%; cabinets (plastic), 10%; cabinets (wood, including fabric and leather construction on wood base), 21%; capacitors (fixed, all types except mica), 26%; chokes, 16.1%; coils and windings, 27%; condensors (variable, all types), 35%; electric phonographs, or phonograph recorders or radiophonograph combinations, parts and subassemblies, 20%; packing materials, 33%; resistors (fixed), 9.5%; resistors (variable), 17.5%; sockets, 15%; speakers and speaker parts, 30%; switches, 20%; transformers (radio power and audio) 33%; tubes, 27.5%; vibrators, 22%.

Rodeo Televised

PARAMOUNT video station W6XYZ was to have televized the rodeo from Los Angeles Coliseum yesterday (Aug. 25), relaying pictures to station's transmitter on top of Mt. Wilson by an experimental relay of Bell Telephone Co., while sound travelled by wire to studio on Paramount lot and was radioed from there to Mt. Wilson.

Receiver Ceilings

Representatives Hold Meeting With Price Officials

WITH radio set production running ahead of pre-war rates, Radio Manufacturers Assn. has started an active campaign to remove receivers from OPA controls. Action was taken last week after a meeting of RMA representatives with OPA officials, just a year after repeal of the War Production Board wartime ban on civilian set production.

Joint action by RMA elements is planned, under terms of the OPA extension law, with the three OPA industry advisory committeessets, tubes and parts—cooperating in developing facts on production, inventories and sales. Formal decontrol petitions will be filed.

RMA committees must show that complete lines of receiver models are being produced, that manufacturers are filling orders promptly, and that distributors and dealers have balanced stocks on hand in order to qualify for decontrol. Decontrol action can be taken only when supply and demand are in approximate balance, according to OPA officials.

R. C. Cosgrove, Crosley Corp., president of RMA, said radio set production, already above prewar levels in unit volume, "will probably increase this fall as well as attain a better balance between the suppy of consoles and table model receivers. We believe that the industry can make a strong case for decontrol at the earliest opportunity."

It is unlikely OPA can hand down a decision for several months due to detailed data required and lengthy procedures involved.

The OPA set advisory group also will seek a liberalized reconversion formula under which sets have been priced since last November along with any relief available under the new OPA act which permits substitution of 1940 price base for current October 1941 base in calculating manufacturers'

Mr. Cosgrove is chairman of the OPA Set Advisory Committee; M. F. Balcom, RCA, is chairman of the Tube Advisory Committee, and R. C. Sprague, Sprague Electric Co., is chairman of the Parts Advisory Committee. Messrs. Balcom and Sprague have been invited by OPA to attend a Sept. 9 meeting of advisory committee chairmen under the OPA Machinery Branch.

OPA is expected to issue shortly new regulations setting forth the methods by which an industry can seek decontrol. Another meeting of the set advisory group will be called after the rules are issued.

RCA has announced the development of a radio receiver scaled down for placement on the instrument panel of small private planes. Receiver is allpurpose, covering radio range, weather and traffic control band.

WXYZ Manager

TRYING IT ON for size—James G. Riddell, newly appointed general manager of WXYZ Detroit, sits in his former boss's chair while retiring manager, H. Allen Campbell, points to some unfinished correspondence. Sixteen years ago Mr. Riddell joined WXYZ as a clerical assistant. He was commercial manager under Mr. Campbell up to the time the station was purchased by ABC Aug. 2. Mr. Riddell takes over active management Sept. 2. Mr. Campbell will continue to represent King-Trendle Broadcasting Corp., and the newly formed Central Broadcasting Corp.

FRED CLAIR, chief engineer of WSAP Portsmouth, Va., is the father of a boy, Joseph Frederic.

VIDEO COMMITTEE MEETS IN CHICAGO

Assn. of Chicago Television Committee last Wednesday drew promises from a score of set manufacturers to allocate 20% of their video receivers to the Chicago area. Plans for Chicago's first television exposition were drawn up with the date set for sometime in late winter or early spring, contingent upon ability of manufacturers to meet distribution quotas.

Committee of manufacturers to work out details of proposed exposition was appointed. Chairman of this committee is E. H. Vogle, vice president in charge of sales, Farnsworth Television and Radio Corp. R. A. Graver, vice president and radio director of Admiral Corp., and H. A. Renholm, Chicago regional manager of RCA, are vice chairmen.

Invitations will be extended to broadcasters and agencies to nominate members for other committees to cooperate in drive to make Chicago television conscious. The manufacturers present at the meeting indicated Chicago would get receivers no later than New York and other metropolitan areas and that "at least 5,000 receivers should be available by the first of the year."

(Continued from page 18)

ada might not lose them and that no agency except the CBC would be permitted to do so. Therefore, they should have realized at all times that the wavelengths would at some time be taken over by the corporation (CBC)."

The committee pointed out that the station owners were not being refused licenses to broadcast, nor were their stations being expropriated.

"They (the affected stations on frequency change) will still have the opportunity to broadcast and it is the policy of the CBC to assist them in discovering the best wavelength possible for their use," the report stated.

Stations affected are CFRB Toronto, 860 kc, which will likely shift to 1550 kc or 1010 kc, two of four frequencies offered it; CFCN Calgary, 1010 kc, which will shift to 1060 kc, and CKY Winnipeg, 990 kc, Manitoba governmentowned station, which has been advised to shift to 1080 kc, but whose status under new government policy disallowing provincial governments or their corporations to own broadcasting stations is still unknown. CFRB and CFCN will be allowed to retain 10 kw, which is twice ceiling on other private stations, and CKY is 15 kw. CKY can either be sold to private interests or to the CBC.

By recommending unlimited financing by Parliament to the CBC it will be possible for the CBC immediately to go ahead with its expansion plan of 50 kw stations for CJBC Toronto, moving to 860 kc from 1010 kc; for new 50 kw stations at Winnipeg and Red Deer, Alta.; increasing CBJ Chicoutimi to 10 kw, and other increases as outlined in CBC long range AM expansion plan [BROADCASTING, Aug. 12]. Under new plan for listener license fees CBC will obtain about \$300,050 more annually, for a total of about \$4,300,000 based on the last fiscal year. The general Canadian treasury will stand the \$300,050 collection and administration costs for the listeners licenses.

A possible second French network was recommended to give French listeners the alternative listening now available to English language broadcasting with the Trans-Canada and Dominion networks.

A bill with the recommendations is to be placed before the House of Commons at Ottawa this week, and opportunity to debate the recommendations will then be given.

Writing Courses

RADIO WRITERS GUILD of Chicago took its first step to carry out a resolution made several months ago by announcing a series of lectures on radio writing to start Oct. 2. The courses, to be taught by well known Chicago writers, will cover all types of radio writing.

Request Filed for WORL Sale To Bitner, Perri for \$200,000

APPLICATION for FCC consent to the sale of WORL Boston to Laurence S. Bitner and Dominic J. Perri for \$200,000 before adjustments [CLOSED CIRCUIT, Aug. 19] will be filed Aug. 26. Sellers are Harold A. LaFount, general manager of the Arde Bulova stations, and Sanford H. and George Cohen, New York attorneys.

WORL, a 1-kw daytime outlet on 950 kc, is now on temporary license. The Commission last fall proposed to deny renewal of license, charging misrepresentation in financial reports filed with FCC [BROADCASTING, Oct. 29], but final decision on the case has not been issued.

The proposed sale is to Bitner Broadcasting Co., owned equally by Mr. Bitner, who resigns Sept. 1 as vice president of William Filene's Sons Co. in Boston after more than 26 years with the company, and Mr. Perri, organizer, treasurer and general manager of American Guaranty Corp., Boston. Arthur C. Sullivan, attorney, a director of WLLH Lowell and WLAW Lawrence, Mass., is secretary but has no stock in the firm.

Mr. Bitner is a brother of Harry M. Bitner, an owner of WFBM Indianapolis and WFEA Manchester, N. H. Another brother, Lynn M.,

is general manager of WENY Elmira, N. Y.

Sales price is \$200,000 plus quick assets and receivables not exceeding an additional \$100,000. Messrs. Bitner and Perri paid \$50,000 upon signing the contract and rest is to be paid on date of closing. Contract stipulates that it will terminate if FCC has not given approval within 120 days of filing, and sellers have an option to cancel if Commission consent is not given within 90 days.

All preferred and 40% of common stock of the present WORL licensee, Broadcast Service Organization, is owned by Mr. LaFount, a former member of the Federal Radio Commission. Sanford H. Cohen owns 40% of common stock and George Cohen owns 20%. Their reason for the sale, according to the application, is that Messrs. Bitner and Perri are residents of Boston and will be able to devote more time to the station.

The purchasers contemplate an expansion of public service programming, with an overall program ratio of 71.28% commercial to 28.72% sustaining.

Andrew G. Haley and Philip M. Baker are Washington counsel for Bitner Broadcasting Co. Fisher & Wayland, Washington, represent the present owners of WORL.

BMB's First Publication Shows 99% Of Families In 19 Cities Own Radios

IN 19 U. S. CITIES 99% or more of the families own radios, according to Radio Families—USA—1946, Published today by Broadcast Measurement Bureau, first publication to carry the BMB imprint.

An extension of state data released earlier by BMB [BROADCAST-ING, May 20, May 27, June 2], the 260-page spiral-bound book reports the total families, the percent with radio and the total radio families for every county in the country, for all cities of 50,000 or more population, for all cities of 10,000 or more except where they are part of the metropolitan areas of larger cities, and for all station cities. Research procedure used in developing the figures is explained in detail in one section of the book. Volume also includes 1944 Canadian radio homes figures, supplied by Bureau of Broadcast Measurement, Canadian counterpart of BMB.

Cleveland Heights, Ohio, is the top U. S. city in percentage of radio families, with 99.7%. Oak Park, Ill., is second with 99.6%. Upper Darby, Pa., third with 99.4%. Other cities in which radio ownership is 99% or better include: Evanston, Ill., 99.3%, Irv-

ington, N. J., 99.3%, East Orange, N. J.; 99.2%; Quincy, Mass., 99.2%; Royal Oak, Mich., 99.2%; Lakewood, Ohio, 99.1%; Newton, Mass., 99.1%; Pontiac, Mich., 99.1%; Two Rivers, Wisc., 99.1%, and seven cities with 99%: Cicero, Ill., Dearborn, Mich., Glendale, Calif., Holland, Mich., Neenah, Wisc., North Plainfield, N. J., Racine, Wisc.

Each BMB subscriber and each member of the American Assn. of Advertising Agencies and of the Assn. of National Advertisers will receive one complimentary copy of the report, with additional copies for sale at \$5 each.

Total Incomes in 1945 at Record Level

Exceeded 1944 Despite Cancelling of War Contracts

TOTAL income of individuals last year amounted to \$152,704,000,000, the Dept. of Commerce announced Aug. 25. This figure equalled or slightly exceeded 1944 income in all regions except the Far West, where the dip was slight, despite the sharp cutback in war production after surrender of Japan.

Individual incomes in 1944 totaled \$149,660,000,000, compared to \$75,-852,000,000 in 1940.

Average per capita income of individuals increased from \$575 in 1940 to an alltime high of \$1,150 in 1945, rising 2% from the 1944 level of \$1,133.

Included in income payments are wages and salaries, income from unincorporated business and farms, net rent, interest, dividends, royalties and items such as veterans' benefits, military family allowance and dependency allotments.

New York State, of course, topped the 1945 income total with \$20,-308,000,000. California was second with \$13,124,000,000 and Pennsylvania was third with \$11,134,000,-000.

Effect of Cancellations

Heaviest declines in total income from 1944 to the last quarter of 1945 were in Washington, Oregon and Michigan, where the falling-off was about 10% due to war contract cancellations. These States were among the five in which war production had caused the largest swelling in individual incomes after 1940. The other two States were Connecticut and New Jersey.

In all other States where war production was exceptionally important in bringing up income payments, the rate of payments in the fourth quarter of 1945 was likewise below 1944. These states were

Connecticut, Maine, Maryland, New Jersey, Indiana, Ohio, Kansas and California. The declines ranged between 3% and 6%.

Maintaining the high fourthquarter level last year despite contract cancellations were mustering-out payments to discharged servicemen and unemployment benefits, a sharp rise in income paid out by trade and service establishments stemming from record consumer spending, and a continued advance in income payments by other private nonagricultural industries, according to Commerce Dept.

The State and regional income totals do not reveal severity of readjustment problems in some local areas, the department explained, nor do they show experiences of different population classes since they represent average experience of all income groups.

Most striking gains in average income during the war years occurred in the Southeast, Southwest and Northwest regions, areas of relatively low average incomes, according to the department. In the high-income regions of New England and the Middle East, the advance in per capita income was much less than the national average, wartime developments result-

ing in some narrowing of the wide prewar differences among States and regions.

Per capita income in 1945 ranged from a high of \$1,595 in New York State to a low of \$556 in Mississippi. Other States high in the per capita list were California \$1,480; Connecticut \$1,149; Washington \$1,407; Delaware \$1,381; New Jersey \$1,373; District of Columbia \$1,361; Illinois \$1,360; Massachusetts \$1,321.

KGO-ABC ARE NAMED IN CIO DAMAGE SUIT

A \$100,000 damage suit against KGO San Francisco and ABC was filed Tuesday (Aug. 20) in San Francisco by a CIO union leader after the station cancelled a second speech by a CIO official.

Suit was filed by Donald Henderson, president of the Food, Tobacco and Agricultural Workers Union (CIO), charging the union was damaged by the station's refusal to broadcast talks in behalf of the union by Philip Murray, president of the CIO, and James B. Carey, secretary. The talks were to be made in connection with a forthcoming National Labor Relations Board election.

Church Program Appeal To Teen-Agers Proposed

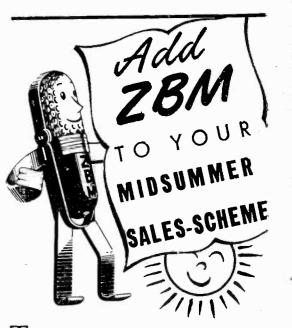

OPPORTUNITY for broadcasters to help solve the juvenile delinquency problem by directing religious program appeal to teen-agers, rather than the church-going group, was seen by J. Leonard Reinsch, director of the Cox stations, in an address Aug. 25 to the Baptist Radio Conference at Ridgecrest, N. C.

Broadening of major appeal of religious broadcasts to reach the unchurched would bring an increase in church attendance just as broadcasts of athletic events increase attendance, he said.

Clifford J. Durr, FCC Commissioner, disussed "FM and Religious Broadcasting" at the radio conference.

Petty Talks to Club

LAWYERS should enter into administrative law on a broader scale to protect rights of clients, now yielding to encroachment of U. S. agencies, Don Petty, NAB general counsel, told the Los Angeles Lawyers Club last Wednesday. Speaking on "Some Legal Aspects of Radio," he reviewed FCC regulatory activities, copyright and labor problems.

To INCREASE their own mid-summer sales, more than 120 thrifty British and American shopkeepers are using ZBM's 250-watts. In this one station market, only ZBM adequately covers Bermuda. Programming balance, therefore, is of first importance—it must serve community and advertiser. ZBM's sensible programming sells. It's acted upon in the shops of 120 local advertisers.

Bermuda's tidy little market of 38,000* is anxious for U. S. products. Rising imports from U. S., now 17 millions, attests that. Are YOU in Bermuda? Write Cole E. Wylie, Mgr.

*Including Kindley Field and U. S. Naval Base.

METHODISTS' RADIO GETS N. Y. CHARTER

THE RADIO Corporation of the Board of Missions and Church Extension of the Methodist Church, New York, a membership corporation without capital stock, last week was granted a charter by New York State. The group's application for an FM station in New York City is now pending.

Chairman of the corporation's board is Bishop G. Bromley Oxnam, president of the Federal Council of Churches and head of the Methodist Churches in the New York area. Dr. Robert Z. Tyler is a director. Objective of the organization is the advancement of religious, cultural, ethical and moral standards in accordance with Christian principles.

Planning an 181/2 hour operating day, the broadcasters would present 65% of their programs live with the remainder transcribed, while not over 10% of the air time from Monday through Friday will be devoted to religious programs. Sunday broadcast schedules will be composed of straight religious programs.

New Pirie Job

WILLIAM S. PIRIE Jr. is the new director of national sales of WFBR Baltimore. Succeeding Mr. Pirie as director of local sales is William R. Dothard, previously a member of the sales staff. Mr. Pirie replaces Andrew H. Hilgartner, who died recently.

Universal Recording Corp., 7121 N. Ridge, Chicago, Ill.

Hammond Novachord—Just recently factory conditioned and in perfect playing condition. WSAZ, Huntington, W.

For sale—One tubular vertical Harrel 165 foot antenna guyed type available about Nov. 1st. Joe Spring, WASK, te, Indiana.

New 250 watt transmitter—Complete with tubes. Unusually well built, modernistic cabinet. Meets FCC requirements. 2711 Ralston Road, Mobile, Alabama.

Highest bidder takes used 250 watt broadcast transmitter. Fully FCC approved. Chief Engineer, KFLW, Klamath Falls, Oregon.

Broadcast equipment, all brand new and in original cartons. One 250 watt Tempco transmitter, one speech control console, one ten watt monitor amplifier, two transcription turntables, two pickup arms. J. W. Birdwell, 1407 Kenesaw Ave., Knoxville, Tennessee.

FCC approved frequency monitor and 250 watt composite transmitter. Box 781, BROADCASTING.

For Sale—A complete FCC approved 250 watt transmitter, two sets tubes, two crystals and limiting amplifier. Recently taken out of service. Make offer. Box 780, BROADCASTING.

Capital Officials Attend MUTUAL ANNOUNCES WTOP's Famine Lunch

FAMINE luncheon was held last Thursday by WTOP, CBS-owned Washington key, to Government food and agriculture officials to demonstrate type of low-calory food available in Greece. Carl J. Burkland, WTOP general manager, was chairman of luncheon, aided by Elinor Lee, WTOP director of women's activities.

Clinton P. Anderson, Secretary of Agriculture, was principal speaker. He described himself as a radio enthusiast and expert on programming as a result of a period of all-day listening while ill recently. Among other Government officials present were Undersecretary of State William L. Clayton; Chester C. Davis, chairman of the Famine Emergency Committee; John R. Steelman, director of OWMR, and his assistant, Commdr. Joseph L. Miller.

Toscanini Is to Direct **NBC** Symphony Hours

ARTURO TOSCANINI, back in this country after a spring and summer series of concerts at La Scala in Milan, Italy, will direct the NBC Symphony Orchestra in 16 Sunday concerts from Oct. 20 to Dec. 8, and Feb. 9 to March 9, 1947, on NBC, 5-6 p.m. Between the two series of eight concerts each, Mr. Toscanini will return to La Scala to conduct opera performances.

Kraft Renews

KRAFT CHEESE Co., Chicago, has renewed The Kraft Music Hall Thursday 9-9:30 p.m. on NBC for another 13 weeks effective Oct. 3. Show's entire cast, with m.c. Eddy Duchin, Edward Everett Horton, Milena Miller, the King Cole Trio and Russ Case's orchestra will continue to be featured on program. Agency is J. Walter Thompson Co., New York.

Form New Firm

FORMATION of Gotham Radio Productions, New York, by four veterans was announced last week. Firm will package radio programs and plans to specialize in "original and entertaining packages at reasonable cost." Officers are Jerry R. Gregoris, president; Morton M. Fleischmann, vice president; James P. Breetveld, secretary; Louis J. Cioffi, treasurer. Offices are located at 120 E. 16th St., New York.

Cast Replaced

PROCTER & GAMBLE'S Glamour Manor, five-weekly 12-12:30 p. m. on ABC, will replace Cliff Arquette and cast in feature role with Kenny Baker, Don Wilson and Sam Herne effective Sept. 30. Show will originate in Hollywood. Program advertises Crisco and Ivory Soap through Benton & Bowles, New York.

8 NEW AFFILIATES

ADDITION of eight more stations to Mutual's list of affiliates was announced last week by the network, bringing total to 337.

Five of the new stations now under construction and expected to become affiliated between Sept. 15 and Nov. 1 are: WTNB Birmingham, operating with 250 w on 1490 kc and owned by Thomas N. Beach; WSBR Duluth, Minn.—Superior, Wis., operating with 250 w on 1490 kc and owned by Ford S. Campbell; WBHB Fitzgerald, Ga., owned by J. Paul Stone and R. M. Ware Jr., operating with 250 w and 1240 kc; WMOC Covington, Ga., with 250 w on 1490 kc and owned by the Covington News Inc.; WKYB Paducah, Ky., operating with 1000 w (daytime only), on 800 kc and owned by the Paducah Newspaper Inc.

WCTA Andalusia, Ala., operating with 250 w on 1340 kc and owned by the Andalusia Broadcasting Co., joins MBS as a bonus station in the South Central Group as soon as lines are established.

Owned and operated by Harold H. Thomas, WHHT Durham, N. C., 1580 kc 1000 w daytime, joined MBS on Aug. 6.

WWNR Beckley, W. Va., owned and operated by Rahall Broadcasting Co. (250 w 1450 kc) became full-time affiliate Aug. 9.

F T C MAY REVAMP BROADCAST CHECKS

SURVEY of Federal Trade Commission's system of checking broadcast programs and continuities will be undertaken by the FTC's Legal Investigation Division, which has taken over the task of finding trade practice violations, according to James A. Horton, chief of the new division [Broad-CASTING, Aug. 19].

Two objectives lie behind the division's inquiry, Mr. Horton said. First, FTC wants to learn if the present checkup system needs revamping and if it can be properly maintained under curtailed funds granted by Congress. Second, the Commission desires to find out if expansion of the broadcasting industry and development of new facets in the art will require revised checkup procedure.

The Radio and Periodical Division, which for a decade has analyzed continuities, programs and publications for possible trade practice violations, was abolished by the FTC reorganization.

In its routine trade practice activities last week FTC approved a stipulation by Mennen Co., Newark, to cease representing that its antiseptic oil is either self-sterilizing or germicidal. Carey Salt Co., Hutchinson, Kan., and McJunkin Adv. Agency, Chicago, agreed to cease alleged misrepresentations on behalf of Carey's mineral supplement salt for livestock.

Census Farm Figures for Eight States Disclose 88% to 93.8% Set Ownership

RADIO set ownership on occupied farms varied from 93.8% to 88% in agricultural census figures for eight States, made public last week by the U. S. Census Bureau. Data were gathered last year by the Bureau and represent ownership as of Jan. 1, 1945. Figures are being released at random for States and counties (preliminary national data appeared in Broadcasting Aug. 5).

In Connecticut 20,436 or 93.8% of the 21,776 occupied farms had one or more radio receivers, with 17,225 farms having telephones and 19,767 having electricity. Most important income sources were dairying, poultry farming and field crops (largely tobacco), farm products totaling \$97,073,460 in value in 1944.

In New Hampshire 16,489 or 93.2% of the 17,785 occupied farms had radio, with 11,795 having telephone and 15,507 having electricity. Leading income sources of New Hampshire farms were poultry and dairy products, totaling \$44,705,967.

Of 3,548 occupied farms in Rhode Island, 3,268 or 92.1% had radios, 2,338 had telephones and 3,146 had electricity. Value of farm products in 1944 was \$16,041,918, with dairy and poultry products as leading income sources.

Vermont's radio farms totaled 21,305, or 90.5% of the 23,549 occupied farms with 14,604 having telephones and 18,462 having electricity. Main source of farm income was dairying, accounting for 70% of the 79,752,863 farm production.

In Oregon 56,254 or 92.1% of the 60,953 occupied farms had radios, with 25,643 having telephones and 48,390 having electricity. Value of all farm products in 1944 was \$257,545,418, with livestock, fruits and nuts, dairy products and poultry as chief income sources.

Of 64,102 occupied farms in North Dakota, 57,769 or 90.1% had radio sets, 23,641 had telephones and 18,612 had electricity. Value of

Russell Appointed

HENRY RUSSELL, music director of NBC Fitch Bandwagon for two years, has been named musical director of network's Western Division effective Sept. 1.

WEEK Readies

WEEK is call of new fulltime 1 kw NBC basic supplementary affiliate on 1350 kc at Peoria, Ill., scheduled to begin operations Nov. 15. Now under construction, station is affiliated in management with WKY Oklahoma City, KLZ Denver and KVOR Colorado Springs, Col. Manager of WEEK is Stanley E. White. Studios are in Commercial National Bank Bldg. Representative is Katz Agency. Promotion folder on Peoria market and rate card have been distributed by West Central Broadcasting Co., station owner.

all farm products totaled \$391,-348,810 in 1944. Principal income sources were field crops and livestock.

South Dakota's radio farms totaled 57,691, or 88% of the 65,52 occupied farms, with 31,145 having telephones and 19,028 having electricity. Total value of farm products in 1944 was \$308,580,772, headed by livestock, field crops, poultry and dairy products.

In Wyoming 11,332 or 89.9% of the 12,596 occupied farms had radios as of Jan. 1, 1945, with 4,054 having telephones and 6,794 having electricity. Farm products in 1944 were valued at \$87,404,969, led by livestock, field crops, dairy and poultry products.

World Scope Adds

SCOPE ENCYCLO-PEDIA, New York, will sponsor its quarter-hour transcribed show Ask Dr. Cyclops on four more stations in addition to series running on WMCA New York. Program will start Sept. 8 for 52 weeks on KFWB, WJJD, WHDH, WIP. Advertiser may increase schedule. Agency is Weiss & Geller, New

Places Regionals

CHEVRON SUPREME Agency is BBDO San Francisco.

GASSTATIONS, San Francisco, Sept. 20 starts weekly half-hour Let George Do It, comedy drama, on full Don Lee and Intermountain Network. Contract is for 52 weeks.

LIGHT BEAM BROADCASTS POSSIBLE

Westinghouse Device Might Be Used for Remote —Pickups of Special Events-

DEVICE for point-to-point voice transmissions on an infrared beam, used by the Navy, was disclosed last week by Westinghouse Lamp Division, Bloomfield, N. J.

Most likely uses in broadcasting would be for remote pick-ups of special events and for sending a program from studio to transmitter, according to J. L. Middlebrooks, director of engineering of NAB. Since distance is limited to the visible horizon the "talking lamp" was not considered practical as a replacement for network program lines.

Because infrared radiations are invisible, the device has great military value as a completely secret means of wireless communication. A similar German device is on display in the main lobby of the Dept. of Commerce Bldg., Washington. Called the photophone, it is a portable unit used for field communications up to distances of about five miles. Another German unit was capable of 20-mile range, according to E. Y. Webb Jr., of the Office of Technical Services, Dept. of Commerce.

Westinghouse system uses caesium vapor which emits infrared rays, modulated by varying the voltage. The German device merely used a light bulb with an infrared filter over it, modulating by means of a movable prism.

Both Mr. Webb and Mr. Middlebrooks said beamcasting is capable of high quality tone reproduction. Present models approximate the fidelity of an ordinary telephone.

Beamcasting is subject to no noise or distortion, but in case of extremely heavy fog or smoke, may be blanked out. Its use would be more economical than telephone because no wires are necessary.

Radiation of infrared signals over 360 degrees to make an open circuit broadcast is a possibility. Source of light would have to be

extremely powerful, however, Mr. Middlebrooks pointed out. Research engineer who designed the Westinghouse system is Dr. Norman C.

Likelihood of beamcasting replacing use of telephone lines in broadcasting was considered remote by both Mr. Middlebrooks and Glenn D. Gillett, consulting radio

J. R. Poppele, chief engineer of WOR New York, said that station used infrared rays to carry transmissions from studios at 1440 Broadway to an FM transmitter at 444 Broadway "three or four years ago." Practical value of the system for broadcasting seems limited, he said.

NAB GROUP AWAITS RADIO FILM SCRIPT

NO DEFINITE commitment of support will be given by National Association of Broadcasters to filming of proposed "Magic in the Air" until Jerrold T. Brandt Productions Inc., Hollywood independent producers, submit completed screen script of same for review, according to the special NAB Hollywood radio committee following recent meeting.

Appointed to act in an advisory capacity for NAB, the committee consists of Sidney N. Strotz, NBC; Don Thornburgh, CBS; Don Searle, ABC; Lewis Allen Weiss, Mutual-Don Lee; Cal Smith, KFAC; and William B. Ryan, KFI, who is also chairman of the group. Robert C. Coleson, assistant to the president, NAB, sits in at all meetings as an observer.

Consensus is that the committee will recommend industry support provided historical background is authentic and the film is one of which both motion pictures and radio can be proud.

Canadian Video

AMERICAN TELEVISION operators are ready to install stations in Canada if given permission by the CBC, Barney Balaban, president of Paramount Pictures, stated in Toronto last week while attending a directors meeting of Famous Players theatre chain. He stated that programs could be piped into Toronto from Buffalo, 60 miles across Lake Ontario from American Toronto. telecasters would be ready to build stations at Toronto, Montreal and possibly Vancouver, he intimated.

FCC Approves Midcontinent Purchase Of KELO, Among Final Duopoly Cases

WINDING UP one of the last of the original duopoly cases, FCC last Thursday approved the sale of KELO Sioux Falls to Midcontinent Broadcasting Co., principally owned by KELO-KSOO Vice President and Treasurer Sam Fantle Jr., for \$100,000 plus Mr. Fantle's 25% interest in the two

The Commission also approved (1) the voluntary assignment of license of KIDO Boise, Ida., from Georgia Phillips to KIDO Inc., of which she owns all but two qualifying shares, and (2) the involuntary transfer of control of WINN Louisville, Ky., from Nelle M. Kendrick as executrix of the estate of the late D. E. Kendrick to herself as an individual.

In the KIDO transaction, Georgia Phillips pays the new firm \$84 as the difference between the \$109,700 par value of stock she receives and the \$109,616 net book value of KIDO's assets. The assignment, which includes an FM conditional

construction permit, was approved on condition that "it is understood by applicant that such grant does not carry with it the right of KIDO Inc. to sell the 1,400 shares of unissued stock [out of 2,500 authorized] to a third party without further Commission action." No money was involved in the WINN trans-

KELO, a 250 w outlet on 1230 kc, and KSOO, a 5-kw limited-time station on 1140 kc but now seeking 10-kw fulltime with protection for the dominant station (WRVA Richmond), are licensed to Sioux Falls Broadcast Assn., principally owned by the late Joseph Henkin and members of his family, Morton H. and Ruth J. Henkin. Separation of ownership of the two Sioux Falls outlets was required under the duopoly rule.

Mr. Fantle owns 98 2/3% of Midcontinent. Associated with him are Evelyn Fantle and Pierce H. Mc-Dowell, banker, who own twothirds of one percent each.

At Deadline...

NEW FCC PROCEDURE SET IN EXPLAINING RENEWALS

FCC's NEW PLAN of announcing reasons when it issues temporary licenses [BROADCASTING, Aug. 5] put into effect Friday for first time in announcement of extension of temporaries for eight standard and two developmental stations. Regular renewals granted 25 AMs.

Four continued on temporary pending receipt of additional information requested under Sec. 308(b) of Communications Act, regarding disclosure of information in applications or supplementary statements: WKRC Cincinnati, KFJZ Fort Worth and auxiliary, KMJ Fresno, KGHF Pueblo.

KSRO Santa Rosa, Calif., extended pending investigation of possible violation of Sec. 310(b), which requires FCC consent before license is transferred.

WAGA Atlanta and WHKC Columbus continued because renewal applications in improper form and returned for correction. WSKB McComb, Miss. continued pending receipt of report of inspection regarding technical operation.

Developmental stations further extended on temporary: W5XIC Dallas (A. H. Belo Corp.), pending final determination on applications of KGKO Dallas-Fort Worth and Belo's WFAA Dallas; and W9XJD Chicago (licensed to WJJD Inc.), pending receipt of renewal application. All extensions to Nov. 1.

Granted regular renewals to Aug. 1, 1949: KANS Wichita; KDLR Devils Lake, N. D.; KFXM San Bernardino; KHBG Okmulgee, Okla.; KICD Spencer, Iowa; KPFA Helena; KWAT Watertown, S. D.; KWIL Albany, Ore.; KWLC Decorah, Iowa; WBIR Knoxville; WCRW Chicago; WGCM Gulfport; WJMC Rice Lake, Wis.; WJNC Jacksonville, N. C.; WJTN Jamestown, N. Y.; WRAL Raleigh; WSBC Chicago; WEDC Chicago; WSLS Roanoke; WCAO Baltimore (Comr. C. J. Durr voting for further inquiry) and auxiliary. Renewed to May 1, 1949: KROD El Paso, KFAR Fairbanks, Alaska. To Feb. 1, 1949: KCRS Midland, Tex., KXO El Centro, Calif. To Aug. 1, 1947: KTOK Oklahoma City (Comr. Durr voting for further inquiry).

WTAX SALE APPROVED

PURCHASE of WTAX Springfield, Ill. by group headed by Oliver J. Keller, president and general manager of Pittsburgh Post-Gazette Publishing Co. and vice president of WWSW Pittsburgh, controlled by Post-Gazette, approved and announced Friday by FCC. Sale, for \$100,000, by Jay A. Johnson, president and 95% owner of WTAX Inc., licensee corporation. Coincident with action FCC granted petition to withdraw competing application of Commodore Broadcasting Corp., licensee of WSOY Decatur, Ill., and holder of conditional CP for Springfield FM station. Other WTAX purchasers are Frederick G. Blackburn, vice president of Union Trust Co., Pittsburgh; Archie Lee, chairman of board, D'Arcy Adv., St. Louis; Noah M. Dixon, president of a Springfield investment firm; Louis F. Gillespie, Springfield attorney.

WBTM DANVILLE, Va., petition seeking FCC review of Motions Comr. Rosel H. Hyde's action of Aug. 9, which denied station's request to switch to regional assignment and amend corporation officers, turned down by Commission Friday (earlier story page 85).

OWNERS' ACTIVE OPERATION CITED IN STATION GRANT

APPLICANT'S PLANS for "greater integration of ownership and operation" were cited by FCC Friday as basis for proposed grant to Grand Canyon Broadcasting Co. rather than N. Pratt Smith for new Flagstaff, Ariz. station on 1340 kc with 250 w fulltime.

"It is believed that the public interest will be better served by a station which is entirely operated by its owners than by a station which is to a more or less extent operated by paid employes, although they are under the general supervision of the licensee on policy matters, since in the former instance a greater assurance is given of the effectuation of the station's proposed policies," FCC said.

Commission said all three owners would participate in proposed Grand Canyon operation: James L. Stapleton, chief operator of KOB Albuquerque, who owns 65% and would be general manager; James Martin Neil Jr. (20%) and Duard K. Nowlin (15%), now also with KOB, and Mrs. Stapleton and Mrs. Neil. On other hand, FCC said, although Mr. Smith would be general manager of his proposed outlet, he would "necessarily have to employ others who will have no ownership interest" to help him. Mr. Smith, given proposed denial of application for 1340 kc at Flagstaff, is now in construction business in Colton, Calif., but has had radio experience at KVNU KOVO KSUB KHUB KPRO KFXM.

HUBERT HEADS FM SECTION

CHARLES HUBER, of FCC Legal Dept., appointed chief of Commission's FM Section Friday. He succeeds Samuel Miller, who moves up to head new Hearings Section [BROADCASTING, Aug. 12]. Mr. Hubert, formerly with New York field office, for year and half has been with Washington headquarters assigned almost exclusively to hearings as examiner or Commission counsel. Was counsel in New York FM and television hearings.

NAB SUPPORTS DISC RULE

NAB Friday filed short statement with FCC supporting proposed revision of Rule 3.407 covering transcription identification. Action taken on order of association's board of directors, which met Aug. 6-8. If FCC decides to hold oral argument on rule, NAB asks permission to participate. Statement signed by Don Petty, NAB general counsel, and Bryce Rea Jr., assistant general counsel.

TRYING AGAIN

SUPPORTED by FCC opinion that "freedom of religious belief necessarily carries with it freedom to disbelieve" [BROADCASTING, July 22], Robert Harold Scott Friday renewed efforts to broadcast in behalf of atheism over MBS, NBC and CBS San Francisco outlets. Appointments scheduled with John Elwood, manager of KPO-NBC and Manager William B. Pabst, KFRC, Mutual outlet. C. L. McCarthy, manager KQW, CBS affiliate, requested 60 to 90-day extension to give KQW attorneys time for study of FCC opinion.

BIOW REJECTS PROPOSED SHOW

AGREEING with NBC, Biow Co. rejected proposed Rudy Vallee show under present talent setup for Philip Morris & Co. sponsorship. Show was to have replaced current Philip Morris Frolics on Sept. 3. Chief difficulty springs from combined agency-network dissatisfaction with last year's format. Present proposed package cheaper by estimated \$5,000 weekly than that of last season, but not so strong talent-wise. Present Frolics remains until satisfactory replacement found, according to Jack Runyon, agency's liaison executive between New York and Hollywood offices.

W6XYZ INCREASES SCHEDULE

ANTICIPATING 1,000 television receivers in Los Angeles by late fall, W6XYZ, operated by Television Productions Inc., subsidiary of Paramount Pictures, will step up weekly schedule to minimum 15 hours at that time. Klaus Landsberg, West Coast television director, said plans are for 30 to 50% sports and special events, 20 to 30% film and 20 to 30% live studio. Two new studios being built on present Paramount lot. Eight cameras on hand.

MBS TO AIR REPUBLICAN FORUM

REPUBLICAN Open Forums throughout country to discuss atomic energy following broadcast forum over Mutual's American Forum of the Air 8:30 p.m. EST Sept. 10. Participators in Republican Open Forums to vote on various aspects of question and results to be tabulated in Washington for top-level Republican policy makers. Radio speakers include Harold Stassen and Clare Boothe Luce.

OPENS IN LOS ANGELES

BOZELL & JACOBS, national agency, opens Los Angeles office at 607 South Hill St., with Joe Jacobs, general manager, in charge of West Coast operations, headquartered in that city. Martin Speckter vice president in charge of Los Angeles office. Telephone, Tucker 6447.

WEEKLY Wednesday clinics, 2:30-4 p.m., conducted by Broadcast Measurement Bureau to acquaint advertisers, agencies, stations and networks with the use of BMI's audience reports continued through Sept. 11. Originally, BMI planned to close sessions Aug. 28.

Closed Circuit

(Continued from page 4)

instance of waiver, though plan (entirely voluntary) announced two months ago.

HELTER-SKELTER pace of manufacturers in dumping AM receivers on market backfiring. Federal Trade Commission already has been advised three out of five standard receivers do not tune entire AM band from 540 to 1600 kc, slopping off at higher end because of careless construction. Believed simple trimmer-condenser adjustments will correct fault, but meantime Radio Mfrs. Assn. expected to sound warning to members lest FTC step in and charge misrepresentation.

THAT AMBASSADOR Richard C. Patterson Jr., you've been reading about in the Yugoslav plane-shooting-down incidents is none other than former executive vice president of NBC, who held forth in Radio City in middle 30s.

PULSE REPORTS DECLINE IN N. Y., PHILADELPHIA

FOR MONTH of August, Pulse Inc. reported summer decline in New York radio listening, with drop of 6.5% in average quarter-hour sets in use from July to August. Sets in use per quarter-hour for 1946 continues above figure for 1945: 20.9% for August this year, compared with 19.8% for August 1945.

New York Pulse reported top ten evening and daytime programs as follows:

EVENING: "SUSPENSE" 12.3, "MR. DISTRICT ATTORNEY" 11.3, "WALTER WINCHELL" 11.0, "BIG TOWN" 10.7, "SCREEN GUILD" 10.3, "THEATRE OF ROMANCE" 10.0, "TAKE IT OR LEAVE IT" 10.0, "ENCORE THEATER" 9.7, "ALDRICH FAMILY" 9.7, "GANG BUSTERS" 9.3.

DAYTIME: "WOR 8 AM NEWS" 6.2, "KATE SMITH SPEAKS" 6.1, "MORNING BALLROOM" 5.8, "HARRY CLARK, NEWS" 5.5, "BREAKFAST CLUB" 5.4, "AUNT JENNY" 5.4, "HELEN TRENT" 5.3 "BIG SISTER" 5.3, "EVENING BALLROOM" 5.3, "BREAKFAST IN HOLLYWOOD" 5.3.

Leading Saturday and Sunday daytime programs: G. PUTNAM, NEWS 6.7, Cincinnati vs Brooklyn (Sun.) 6.3, "COUNTERSPY" 6.3, Frank Kingdon 6.0, "YANKEES VS CLEVELAND (Sun.) 5.7, CINCINNATI VS BROOKLYN" (Sat.) 5.7, "CHILDREN'S HOUR" 5.7, "EVENING BALLROOM" 5.3, "BING CROSBY" (WNEW) 5.0, "MORNING BALLROOM" 5.0.

In Philadelphia, Pulse reported audience still on decline, approximating 7% less in July-August than in May-June. Marked decline between 6 p.m. and midnight seen for July-August below May-June, with drop of 4.6%.

Top ten shows for Philadelphia evening, daytime and week end follows:

Evening: "SUSPENSE" 16.5, "DR. CHRISTIAN" 15.0, "YOUR HIT PARADE" 14.5, "MR. DISTRICT ATTORNEY" 13.8 "SCREEN GUILD" 13.3, "ALDRICH FAMILY" 13.0, "TAKE IT OR LEAVE IT" 13.0, "BASEBALL" 13.0, "SATURDAY NIGHT SERENADE" 11.8, "MR. & MRS. NORTH" 11.0.

Daytime: "BREAKFAST CLUB" 10.6 "MA PERKINS" 10.6, "BIG SISTER" 10.4, "KATE SMITH SPEAKS" 9.8, "YOUNG DR. MALONE" 9.6, "ROAD OF LIFE" 9.4, "HELEN TRENT" 9.3, "OUR GAL SUNDAY" 9.3, "AUNT JENNY'S STORIES" 8.9, "BREAKFAST IN HOLLYWOOD" 8.5.

Saturday and Sunday daytime: "CHILDREN'S HOUR" 14.8, "BASEBALL" 14.8, "BASEBALL" 14.3, "BILLIE BURKE SHOW" 10.8, "LET'S PRETEND" 9.5, "ARMSTRONG THEATRE" 8.8, "STARS OVER HOLLYWOOD" 8.3, "950 CLUB" 7.5, "GRAND CENTRAL STATION" 7.3, "RANGER JOE" 7.3.

CROSBY COMPETITION PREPARES

TO COUNTERACT Bing Crosby recorded series for Philco Corp. on 600 stations starting Oct. 2, NBC Hollywood called meeting for today (Aug. 26). Instigated by Young & Rubicam Inc. meeting will include agency executives, publicity people, talent representatives and others associated with Wednesday night top shows on NBC. Plan is to devise additional promotion for Duffy's Tavern, Great Gildersleeve, Kay Kyser's College of Musical Knowledge and Frank Morgan Show, "big four" to originate from Hollywood this fall.

PUBLISHER TO MAKE RADIO TEST

PRENTICE-HALL, Inc., New York, during two-week period from Sept. 8 to 21 will conduct advertising and promotion test using spot announcements in three cities of 200,000 population to determine whether intensive advertising in cities of this size, not usually included in book publishers' schedules, can be effective. Book to be publicized will be The Miracle of the Bell by Russell Janney, to be published Sept. 9. First city tested will be Richmond, Va. Other two not announced. Agency, Franklin Spier, Inc., New York.

WNOC, WGAT NAME WILSON

WNOC, Norwich, Conn., and WGAT Utica. N. Y., both owned and operated by J. Eric Williams and H. Ross Perkins, appointed Howard H. Wilson Co., New York, as national representative. WNOC with 250 w on 1400 kc; WGAT, which starts in November, with 250 w daytime only on 1100 kc.

8,000,000 SETS PRODUCED IN FIRST RECONVERSION YEAR

RADIO set output totaled 8,000,000 in year following lifting of War Production Board ban, Radio Manufacturers Assn. announced Friday. This compared with 14,000,000 in 1941 but present monthly rate now running ahead of that year after slow start in reconversion.

July production slightly topped June, 1,061,-853 sets as against 1,052,597, RMA member figures show, July 4 holiday and end of OPA controls cutting first week's volume.

FM sets produced in July rose slightly to 19,462. Auto sets totaled 110,375. Only 41 television receivers manufactured in month. Table models again dominated, 770,633 compared to 71,500 consoles and radio-combination models. July output of battery sets (all table and portable) totaled 153,165.

Industry capacity well above present rate, may reach 2,000,000 sets a month. Only 300,000 sets produced in 1945 after ban lifted through WPB had estimated 3,500,000 to 4,000,000 would be made. Million-a-month rate attained last March.

Receiving tube output hit new record in June, 17,979,636, of which 10,442,841 intended for new sets. Total tube production in first half of 1946 was 85,470,800, RMA figures disclose.

AFRA CONVENTION OPENS: 30% INCREASE DISCUSSED

INCREASE of 30% in scale discussed as AFRA opened national convention Friday at Hollywood Roosevelt. Pattern of new contracts also high on agenda, along with proposal to name public relations counsellor.

Future jurisdiction in television and recording fields discussed. Convention opened by President Lawrence Tibbett. Leading names mentioned for next president were Dick Powell and Edward Arnold. Two hundred delegates attended.

BIBLE INSTITUTE PLANS

WEEKLY half-hour of religious music starts Sept. 29 on 200 MBS-Don Lee outlets under sponsorship of Bible Institute, Los Angeles, Sun., 11-11:30 a.m. EST. Institute will spend about \$600,000 annually for time, expanding present thrice-weekly series on Coast. Contract for 52 weeks. Agency, Tullis Co., Los Angeles.

SLATER JOINS R. & R.

TOM SLATER, Mutual's director of special events, resigned to join Ruthrauff & Ryan, New York, as account executive. American Tobacco Co., sponsors of Jack Benny Show, will be one account assigned to Mr. Slater. No replacement at Mutual announced.

REGISTRATIONS SOAR

PREDICTIONS that NAB convention registration in Chicago Oct. 21-24 may reach 2,000, borne out Friday as advance registration passed 500 mark though meeting is still two months away. With association membership now over 1,000, as against half that total in 1942, year of last annual convention, NAB believes registration will double the 976 that year. War conferences were held in 1943 and 1944.

People

OWEN ANDERSON and HOWARD WORM-SER, trade news contacts of CBS and NBC Hollywood, seriously ill and confined to hospital with infected foot and virus pneumonia, respectively.

PAUL STONE, promotion manager of KLAC Los Angeles, resigns effective Sept. 1.

THEODORE A. SMITH, since 1943 sales manager of communications and electronic equipment of RCA's Engineering Products Dept., promoted to general sales manager of Engineering Products Dept.

STANTON OSGOOD, former Navy lieutenant commander, rejoined Young & Rubicam's New York Research Dept.

MARTIN J. DWYER Jr., ex Time advertising executive, named cooperative advertising manager for United-Rexall Drug Co. at Los Angeles headquarters.

FRED EATON appointed sales engineer of Canadian Marconi Co., Toronto. During war he was Canadian naval liaison officer to Registry Communication Components Panel in Philadelphia.

EQUIPMENT MAKERS PLAN DISPLAYS AT MEXICO CITY

MOST major manufacturers of broadcasting and communications equipment will display products at first Inter-American Broadcast Conference, Mexico City, beginning Sept. 30. First week of conference, expected to attract most Latin-American broadcasters, to be devoted to business sessions. In second and third weeks, public to be admitted to equipment displays.

Cosogoes the nation⁷⁷

This is the time for testing. New products are entering an untried market; old products are venturing forth in new packages; war-born improvements are ready to be introduced; changes in price structure, in distribution policies, in sales appeals, await acceptance or rejection of an unpredictable public.

Because the safe and sound approach to problems like these is the intelligent use of test markets, WLW offers its advertisers and prospective advertisers a Test Market Plan, complete in scope, and so thoroughly integrated as to make possible any test or combination of tests...at remarkably reasonable cost.

We invite your study of this plan, and of WLW's facilities for implementing it.

Contact your nearest WLW Sales Office—our representatives will be glad to go over this new Test Market Plan, created by ...

New RADIO PROGRAMS

WOL is now operating at 5000 watts power from a superb new transmitter, which will also house WOL FM, facsimile and color television.

At base rates lower than those of any station of comparable power in any comparable market in the United States, the new WOL signal is geared to deliver a metropolitan area considerably wealthier and more heavily populated than such metropolitan markets as Baltimore, Cleveland and Minneapolis-St. Paul.

WOL's impressive share of national spot and local business, most of which is on a renewal basis, testifies to the sales effectiveness of Washington's fastest-growing station.
