what every sponsor should know

WHICH PROGRAM TYPES Appeal most to certain Income groups?	Do you know how all income groups vary in their response to radio programs throughout the hours of the day? WOR, through its intensive sub-surface analysis of the A. C. Nielsen, C. E. Hooper and Pulse of N. Y. reports, can show you how all kinds of people's listening fluctuates from period to period.
WHY CAN EQUAL RATINGS BE MISLEADING ?	More and more smart sponsors realize today that equal ratings are rarely comparable. For instance, WOR recently showed a sponsor that while his rating was the same as that of a com- petitor's show, he was actually attracting 97,800 more listeners than the other sponsor.
HOW DOES THE WEATHER Affect listening?	How do rainstorms, blizzards, hot spells affect the listening people do? For years WOR has clocked the weather vs. listening, not to mention overall seasonal variations as they affect sets in use. These are interesting radio angles that you should know

more about.

Smart sponsors and their agencies make it a habit to check WOR regularly on what its deft research dept. reveals about their shows. They know that WOR can tell them things about listening that nobody else can. And its answers invariably bring them a greater per-penny profit on every penny they invest.

WOR — that power-full station at 1440 Broadway, in New York

MUTUAL

They show the WLS constant audience response

Mustmas Case-histories

At Christmas-time, Midwest housewives are at their busiest-buying, wrapping, mailing, planning...

But never too busy to listen and respond to their neighborly radio station and its advertisers.

50,299 Respond!

Last Christmas season, for example, WLS "Feature Foods" offered a folder of holiday hints and yuletide recipes. 50,299 busy housewives took time to write for it-from cities, towns and farms all over the WLS Midwest!

The WLS Family Album, at 50 cents each, completely sold out its 40,000copy edition during the holiday season. (It has been a sellout each December for 17 years.)

Children Write, Too

From October 23rd to November 20th, 1945, WLS "School Time" received 85,805 requests for cut-out games. And Rex Allen's Midwest listeners demanded 50,086 pictures in October.

WLS listeners are busy, active people-the kind who make such a solid, mass market for all family needs. And *they respond* at every season of the year. Is your sales story reaching the *responsive* WLS audience?

If your business is spring-seasonal, note that WLS sold 63,642 packages

NOV 2 7 1948

Kadios MOST COMPLETE news service ...

With the emphasis today strongly on treatment of news as a determining factor in the classification of a newscast as "local live," radio stations are becoming more aware of the importance and desirability of having at their disposal a complete wire report.

When you have INS—radio's most complete news service —you have the most brilliant and comprehensive service available. With INS, your news department has the power of selection from the widest possible variety of material. INS news dispatches are simply written, easily understandable. You can select what is most suitable to your audience and edit it to fit your individual needs. You get ALL the news you need—

not just a skeletonized version prepared by some distant editor unfamiliar with your local problems.

From the standpoint of public service and high audience appeal the complete INS wire report is the outstanding news source available to radio today.

BROADCASTING... at deadline

SIGNIFICANT changes coming up in exclusive national representation of number of important stations. Ownership shifts, "duopoly" separations and increased facilities largely responsible for impending transfers.

EXODUS of western stations from BMB fold at contract expiration time predicted. Some talk of independent survey parallel to BMB technique in effort to shake latter's validity. Meanwhile other operators feel BMB's faults not in survey but in station management, which "won't try to make BMB system work."

IF ATLANTIC CITY conforms to Chicago convention promises, it should get next NAB meeting. C. E. (Bee) Arney, secretary-treasurer, at seashore Friday to get details of resort's offer. Probable time: September, after vacation rush subsides.

ANNOUNCEMENT coming soon on creation of new radio promotion awards by National Retail Dry Goods Assn. paralleling annual awards to newspapers for best retail displays of year. Radio awards will cover outstanding department store programs by large, medium and small stations.

REPUBLICANS may make new bid for appointment of regular party member to FCC vacancy, even though President Truman can name Democrat under law. Vacancy is that created when Paul A. Porter was shifted to OPA last February.

DON'T COUNT OUT hard-hitting Sen. Charles W. Tobey of New Hampshire as new chairman of Senate Interstate Commerce Committee under Republican control in January. With Sen. Wallace H. White Jr. of Maine, author of Radio and Communications Acts, definitely slated for majority leadership, it is doubted whether he can assume important committee chairmanship too. Sen. Tobey, who last session authored resolution for FCC investigation on FM allocations and Blue Book, had been slated for Banking and Currency Committee but signs now are that he would prefer Interstate Commerce setup.

AT LEAST one practical broadcaster-Rep. Harris Ellsworth, owner of KRNR Roseburg, Ore .- will sit on House Interstate Commerce Committee next session. Publisher also of Roseburg News Review, Rep. Ellsworth appears definitely slated for committee assignment and may head subcommittee on communications. Another likely radio-minded legislator to be named to committee is William Miller, Hartford attorney and World War I hero, who once had been mentioned for appointment to Republican vacancy on FCC.

Upcoming

- Nov. 25: American Marketing Assn., San Francisco Chapter, Mark Hopkins Hotel, San Francisco.
- Nov. 25: NAB Sales Promotion Subcommittee, BMB Board Room, New York.
- Nov. 26: NARBA Engineering Conference resumes 10 a.m., FCC Hatrs.
- Nov. 30-Dec. 2: Natl. Assn. of Farm Directors, Stevens Hotel, Chicago.

Bulletins

AFTER 10¹/₂ hours negotiations, attended by four network presidents and national AFRA chiefs at CBS New York, George Heller, AFRA executive secretary, at 12:30 a.m. Saturday said "certain proposals" had been advanced by networks which were to be weighed at special AFRA board meeting Sunday. AFRA will give definite answer to new proposals at 10:30 a.m. today (Monday) at meeting with network heads at NBC. Before negotiations opened at 1:30 p.m. Friday AFRA had come down from original 35% wage increase demand to 26%; nets had increased 10% raise offer to 17½%. Optimism expressed early Saturday that agreement would be reached today, thereby averting threatened radio tie-up. (Earlier story page 15.)

Business Briefly

COBURN TEST • Coburn Farm Products Corp. (Sondra brand products) appointed Modern Merchandising Bureau, New York, to handle advertising, started three months' test campaign using participations on women's programs, WLIB New York, CKLW Detroit-Windsor.

C-P-P SWITCHING • Colgate-Palmolive-Peet Co., Jersey City, N. J. (Palmolive Soap), effective Dec. 25, switches A Day in the Life of Dennis Day NBC, Thurs., 7:30-8 p.m., to Wed., 8-8:30 p.m. Period to be vacated by Mr. & Mrs. North, which is being discontinued by Andrew Jergens Co. Unidentified sponsor said negotiating with NBC for Thursday night spot. C-P-P agency, Ted Bates, N. Y.

WINE GROWERS SIGN • California Wine Growers Guild, San Francisco, starts Time for Crime Jan. 4 on 80 ABC stations Sat. 10-10:30 p.m. (EST), 52 weeks, Agency, Honig-Cooper Co., San Francisco.

In the heavily-populated Tampa trade area, the tourist business is "big business." And growing bigger! Yet, in this, the industrial and distribution center of Florida, playing host to out-of-state visitors is merely a sideline. The money spent here by these visitors is a huge annual bonus for alert advertisers. This rich territory is best reached with WFLA-morning, afternoon and night! The 5000-watt voice of WFLA is most-listened-to in the heart of the prosperous Florida West Coast market.

5000 WATTS

Feature of the Week

H. V. KALTENBORN, veteran commentator heard on NBC, last week chided radio for ignoring the wishes of listeners and urged broadcasters to indulge in selfcriticism as means of improving radio fare.

Mr. Kaltenborn spoke before the New York Radio Executives Club as the second speaker in a series of three discussing the question "What I Would Do If I Were Running Radio."

Citing the poll of station managers in BROADCASTING TRENDS [BROADCASTING, Nov. 4], Mr. Kaltenborn reminded his audience that broadcasters themselves had said that of all factors, listeners had contributed most and that sponsors and advertising agencies had contributed least to program improvement.

"What then is the logical deduction?" he asked. "It is simply this: Pay more attention to your listeners and pay less attention to your advertisers and your advertising agencies."

The commentator urged broadcasters to solicit listener opinion. The mere assessment of radio audience size, he said, does not disclose "the important factor of the intensity of listening."

Mr. Kaltenborn also has per-

ceived a diminishing of competition among broadcasters. Contrary to the opinion of William S. Paley, chairman of the board of CBS, who at the NAB Convention suggested that competition sometimes lowers standards, Mr. Kaltenborn said, "Instead of too much competition, we have too much imitation."

He urged that broadcasters also "pay more attention to the discriminating minorities among the listening public." He said they would "have to reconcile themselves" to air programs of appeal to such audiences at popular evening listening hours. "It may cut down immediate profits," he said, "but it will help you to lay up treasures in the FCC heaven."

Mr. Kaltenborn referred to the speech by Niles Trammell, president of NBC, at the NAB Convention when Mr. Trammell asked, but did not answer, what kinds of programs are most heavily weighted with public interest. Mr. Trammell's most venerable news commentator answered his chief's questions: "I would vigorously oppose the proposition that the program which attracted the largest number of listeners at any given time is the program that should be on the air at that time."

Remember the story about...

Sellers of Sales

UZ does it," but the person who does it for Duz is attractive Jean Dorothy Lawler, who in-

cludes the Lever Brothers account in her annual six figure purchase of radio time for Compton Adv. Agency, New York.

Born in Mount Vernon, N. Y. in 1917, Miss Lawler attended West-

chester Collegiate Center for two years, taking a general course. She managed to gather s o m e secretarial knowledge there too, and her first job was with Free & Peters, in New York City, as a dictaphone operator. In a short while she became

six month periods, she moved from secretary to assistant timebuyer and then to her present position as timebuyer.

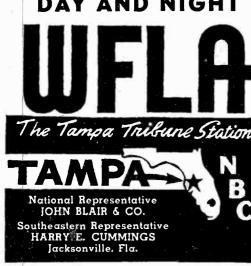

Although her major account is Duz, Miss Lawler also places time in the Canadian market only for Ivory, Crisco and Crisco Flakes and Barsallou.

Her favorite arguments are those she has with her younger brother convincing him that "radio is here to stay," and defending the industry as the best medium. Her brother, Joe, is a sports writer for a Santa Fe, N. M., newspaper and needless to say is an advocate of newspapers. Miss Lawler still lives in her native city of Mt. Vernon. She shares an apartment with her father. She admits that gardening is fun for her but that she lets "Pappy" take care of the vegetables while she fusses with the flowers. To prove that she can cook as well as buy radio time, she personally cans the vegetables that her father grows in their garden.

It's the classic example of the little fellow hanging one on the big guy. A modern example in radio is found in WWDC. We could go into a lot of stuff about programming ... listening audience . . . coverage (even in counties we didn't know we reached). But we like to talk about sales results. And costs per sale. Then we're happy; We've got sales results, facts to gladden the heart of the toughest buyer. Glad to show them to you!

Page 10 • November 25, 1946

Mr. Peters' secretary and eventually office manager for Free & Peters. She worked with the station representatives, who sell radio time, for six years.

JEAN

But in 1942, she switched over to the other side of the radio business-that of buying time. She joined Compton Adv. in that year as secretary to Frank Kemp, then head time buyer for the agency (now media head of Dancer-Fitzgerald-Sample). In a series of

METROPOLITAN, yes . . . the largest, most active and highly concentrated metropolitan center in the world. Yet, New Yorkers are not necessarily sophisticates in their choice of music and entertainment. An example is "Prairie Stars" with Rosalie Allen, an appealing, entertaining, recorded show that has sold itself to New York's vast radio audience. And it can do a selling job for you . . . Monday through Friday . . . 9:30 to 10:30 p.m.

> RALPH N. WEIL, General Manager JOHN E. PEARSON CO., Nat'l Rep.

"Murder at Midnight" proves that Crime can pay!

Now you can get a \$100,000 series of 52 transcribed thrillers—at a price so low it's thoroughly practical for any small budget.

TERRIFIC LISTENER LOYALTY

Typical ratings point out how "Murder at Midnight" gives high return from invested radio time:—In Los Angeles (KFI) it equalled the combined ratings of all other network stations. In San Diego (KFSD) it *exceeded* combined ratings of all other stations. In New York (WJZ) it scored high second on its first rating (4th broadcast) among shows of well established popularity.

"WISH I HAD HAD THIS SHOW PAST 5 YEARS"—says one sponsor

And he said it after only four broadcasts, reports John L. Hogg, Commercial Manager, KOY (Phoenix). Here are a few of many other enthusiastic comments . . . "Our client, Ehret Brewery, delighted with dealer and consumer response. Also rating for 'Murder at Midnight' on WJZ. Renewing contract for additional 13 week period. Congratulations on your terrific productions."

C. D. SPEIER, V. P.

Moore and Hamm (New York)

"Best done mystery show we have ever carried."

> JOE D. CARROLL, Mgr. (KMYC) Marysville, Calif.

"Good quality in every respect, it's building an ever-increasing listening audience. Sponsor well pleased with this program and the benefits derived."

EDNEY RIDGE (WBIG) Greensboro, N. C.

"Sponsor, agency, and ourselves feel quality excellent, production well

done. Show doing a good job for sponsor."

LARRY SCALF (KFSD) San Diego

"Well received in Southern California. Comment unusually favorable."

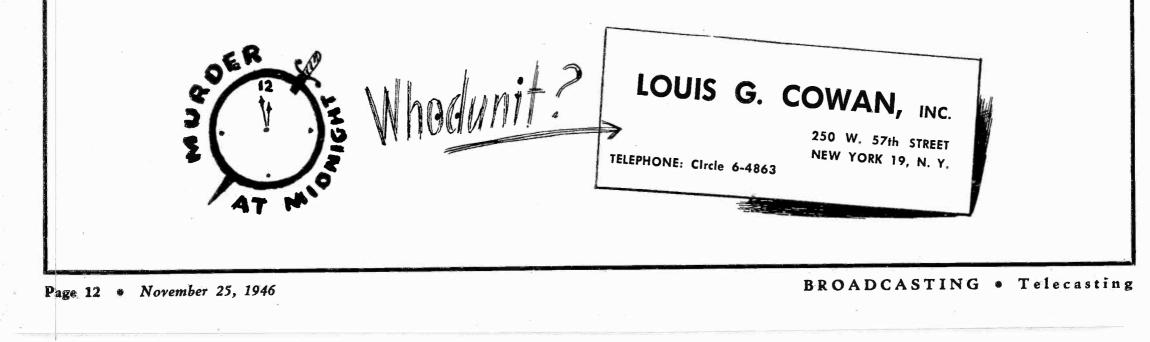

MILTON WEINBERG ADV. AGENCY (Los Angeles)

"Well produced, well written and well played. Successful with our audience."

> OWEN CUNNINGHAM Program Director Hawaiian Broadcasting System

NO WONDER "MURDER AT MIDNIGHT" HAS NEVER LOST A SPONSOR!

It's a network show for local broadcast . . . written, produced and acted by top-notch national talent. If you want crime that really pays, check availability of "Murder at Midnight" in your market—now!

CREDIT TO YOUR STATION

... in smart appearance ... in performance on the air!

RR-30 Three-Channel Remote Amplifier and Power Supply

Raytheon's REMOTE AMPLIFIERS for AM or FM

WHEN YOU WORK a remote pick-up with this Raytheon equipment...you're putting your best foot forward! Your station takes the credit—and deserves it—for the unusual "good looks" and modern, efficient air of this Raytheon Remote Amplifier. It's easy to carry—easy to set up—fast to get going. A favorite with operators and station owners, alike, because of its rugged dependability and engineering excellence.

Both the single and 3-channel models exceed all FCC requirements for FM transmission. Flat frequency response from 30 to 15,000 cps-noise level -60 db or better-less than $1\frac{1}{2}\%$ distortion from 50

to 200 cycles, less than 1% from 200 to 15,000 cycles. High over-all gain of 86 db permits use with high fidelity microphones. Finest quality Weston VU Meters with 4-in. illuminated dials are the same as those used in high fidelity studio equipment. This allows the remote operator to properly "ride the gain" at the source; all standard studio meters of network stations will show identical readings. Immediate delivery. Write today for complete information and prices.

RAYTHEON MANUFACTURING COMPANY Broadcast Equipment Division, 7517 No. Clark Street Chicago 26, Illinois

RR-10 single channel model is entirely self contained, with built-in power supply. Furnished either with or without 4-in. Weston VU Meter. Supplied with a carrying case if desired. Weighs only 20 lbs.

Nationwide AFRA Strike Threat Grows

Networks, Union Locked on Two Issues

By EDWIN H. JAMES

THREAT of a nationwide strike of talent on all four major networks increased last week as negotiations between network representatives and AFRA officials in New York continued without apparent progress.

As BROADCASTING went to press it was reliably reported that the opposing negotiators were "as far apart as ever" on the issues which have caused a deadlock in negotiations since they began Oct. 2.

'Showdown'

Network and union officials as well as advertising agency representatives were to reconvene in what was believed to be a "showdown" conference last Friday at 1:30 p. m. AFRA representatives, it was understood, had decided that if no further progress were made during the Friday meeting, they would call a strike.

The issues on which neither side seemed willing to yield were two:

1. AFRA has insisted upon inclusion of an "unfair station" clause in the network contract, a provision requiring networks to cease feeding programs to stations which refuse to negotiate with AFRA. The networks, rejecting this demand, have described the proposal as a "secondary boycott," which is made illegal by the Lea Act.

2. AFRA has demanded salary increases averaging 35%, the networks have countered with 10%.

A fortnight ago George Heller,

pany would "continue to pay for the time and furnish the networks with the commercials," but it would not pay any announcer to read the commercials or pay any other talent fees.

Meanwhile, AFRA solicited further support from sympathetic unions to bolster its forces in the event a strike were called.

RDG Resolution

The New York local of the Radio Directors' Guild adopted a resolution prohibiting RDG members from crossing picket lines, directing programs on which strikebreaking artists appeared, or engage in any functions normally performed by AFRA members.

While negotiations floundered, broadcasters, advertisers and agencies assessed the prospects of carrying on their network shows without benefit of actors, announcers, singers, or other talent if negotiations failed to prevent the strike.

In the event of a total walkout of all talent, as AFRA promised,

hearing Jan. 13 on WBAL Balti-

more's renewal application and the

Drew Pearson-Robert S. Allen re-

quest for a new station on the same

clear channel assignment were an-

nounced Friday by the Commission.

Observers found them noncom-

networks would find themselves broadcasting few if any live shows except music.

There was no indication that James Caesar Petrillo would pull out his musicians in sympathy with an AFRA strike. An AFM spokesman in New York said that AFRA had thus far not solicited AFM support and that unless it did "Mr. Petrillo will not have anything to say."

It was doubtful that live shows could be replaced with transcriptions. A high official of one transcription company reported in New York that the major firms had pledged not to "strikebreak." This was taken to mean that the companies would not transcribe programs specifically as replacements for live shows cancelled by a strike.

It was considered possible, however, that AFRA would not insist that shows which have already been transcribed be kept off the air.

Some advertisers reported they were considering the use of tran-

scribed commercials which are already on file as insertions in whatever the networks can substitute for the regular programs. Others were known to have debated the possibility of playing back recordings made of past shows.

Other' Unions' Support

Earlier AFRA had obtained the support of numerous other talent unions [BROADCASTING, Nov. 18].

If AFRA issued the strike call, the walkout would be the greatest in radio history, and the first of its kind to hit all four networks simultaneously.

Meanwhile in Hollywood the big question was, "Whither AFRA?" As talks proceeded in New York, suspense increased for allied unions in Hollywood, anxious to determine their position in event of negotiations breakdown. Lack of national AFRA policy line to the West Coast was being variously interpreted.

Following AFRA negotiations in (Continued on page 101)

WBAL Hearing Issues

equipment of the two applicants.

The lack of Blue Book spirit in the issues was more marked in comparison with the issues revealed two weeks ago for hearing on three others of the seven stations set down for hearing on program grounds [BROADCASTING, Nov. 11].

The virtually identical issues on those three—renewal applications of WTOL Toledo, KMAC and KONO San Antonio—raised questions of "promise and performance," commercial and sustaining time, number of spot announcements, time devoted to controversial issues and local live talent programs, network sustaining programs not used, and station revenues and program expenditures. Announced

Consolidation of the Pearson-Allen application with the renewal case was granted on petition of Pearson-Allen, filed by the Washington law firm of Cohn & Marks. The firms of Littlepage & Littlepage and Dempsey & Koplovitz, Washington counsel for WBAL, are expected to file a petition for reconsideration and grant of their application without hearing.

Postponement of the Dec. 2 hearing date previously set for the WBAL application to Jan. 13 for consolidated hearing was authorized under FCC's policy of giving at least 30 days' notice of hearing.

The renewal request of WBAL, most powerful of the seven stations awaiting renewal hearing on program grounds, was designated last February. FCC's Blue Book, citing WBAL as one example of "excessive commercialism" in programming, appeared March 7. The application for WBAL's facilities-1090 kc, 50 kw, fulltime—was filed in September by Drew Pearson, radio commentator and author of the Washington Merry Go Round column, and his former co-columnist, Col. Robert S. Allen [BROAD-(Continued on page 101)

national executive secretary of AFRA, reported that the networks had indicated a willingness to increase their salary counter-proposal if AFRA agreed to eliminate the unfair stations clause. As of Friday morning, neither side had displayed intentions of yielding.

One of radio's biggest advertisers, the Procter & Gamble Co., Cincinnati, asserted that "under no circumstances" would it "cross the picket line in any way." William M. Ramsey, P & G radio director, told BROADCASTING that the com-

ence to programming—the standard hearing question on programs: "To determine the type and char-

mittal, with only a passing refer-

acter of program service to be rendered and whether it would meet the requirements of the population and areas proposed to be served."

Except for a query about the "installation" of Hearst's 50-kw WBAL and that proposed by Pearson-Allen, the four other issues also were "standard." Authorities said the "installation" reference presumably indicated a comparison of transmitters and other

Raises Question

Comparison of the issues in those cases with the issues for WBAL and Pearson-Allen evoked the question: "Has the Blue Book been waived for WBAL?"

For some time the belief had prevailed that FCC was disposed to *nolle prosse* the WBAL Blue Book case, in effect, by putting the burden upon the applicants, rather than on FCC, to bring out program matters.

Merits of Atheist Broadcast Argued

5,000 Listeners Give Views on KQW Grant Of Time to Scott

KQW San Francisco, which granted radio time Sunday morning, Nov. 17, to Robert Harold Scott, Palo Alto, Calif., atheist, to present his views [BROADCASTING, Nov. 18], last week received an unusually heavy volume of mail—much of it from listeners who wrote to support or condemn the right of a radio station to permit an atheist to argue against belief in God over the air.

Of the more than 5,000 letters KQW received commenting on the atheist broadcast, approximately 20% supported the station's right to allow Mr. Scott to speak while 80% were opposed, according to Fred Ruegg, KQW program director. Mr. Ruegg said that nearly three out of four of those supporting Mr. Scott's right to air time professed themselves as being agnostics or atheists.

Decision as to whether additional air time will be given the atheist preacher will be guided by public reaction to the program, the KQW management has indicated. The station said it had received numerous requests from churches and religious leaders for air time to answer Mr. Scott, who had been trying for five years to persuade San Francisco stations to permit him to broadcast. Permission finally was given by KQW only after the FCC had stepped in with an opinion to the effect that since established religions are allowed radio time atheists also should have some.

Comments on the broadcast of atheistic beliefs by Mr. Scott came not only from the Far West, but from other sections of the country. Among the most pertinent was that of Albert L. Warner, head of MBS' news bureau in Washington, D. C., who raised the question: "Is there any good reason for a government agency to interfere in the programming and management of a station to do the equivalent of insisting that a man get a platform to air views for which he has neither eager audience nor broad affirmative support?"

Pointing to the fact that Mr. Scott had been given 30 minutes' air time to preach doctrines of atheism in the middle of Sunday morning radio programs (he replaced choir music from the Salt Lake City tabernacle), Mr. Warner said "there are few people who will question the right of an atheist to speak his mind." "Provided he represented any considerable group of people pressing for a hearing and provided he had anything to say of general interest," Mr. Warner continued, "no doubt a radio station would consider allowing him time." But Mr. Warner did question whether the government should take an interest in such matters to the extent of interfering. "Matters of this sort can be left to the good sense and responsibility of the many diverse-minded radio stations," he said. He concluded with the remark that "there is no more moral reason for government to intervene in a case like this than there would be for government to issue an edict to a newspaper to carry Scott's speech on its front page."

Newspapers Comment

California newspapers, commenting editorially on Mr. Scott's broadcast, were as divided in their opinions as the hundreds of radio listeners who wrote to KQW to express their views.

Los Angeles News was emphatic in declaring that an atheist should be permitted to present his beliefs on the air. "There should, of course, be no question about Scott's right to express his views, to express them in his home, on the street or over the air." The News said further that raising the question of presenting atheist doctrines on the air "strikes at the heart of a really crucial issue—the issue of

Kellogg Replaces

KELLOGG Co., Battle Creek, Mich., Dec. 30 will replace its present show, *Home Edition*, 11:30-11:45 a.m. on ABC five-weekly, with two new shows, *Galen Drake* and *Hollywood Story*, which will share the same time on a split network. Two shows will be used as a test for 13 to 26 weeks at the end of which time one or the other show will be put on full network. Agency is Kenyon & Eckhardt, New York.

Credit Co. Renews

Denying Mr. Scott his right, the *News* continued, would "prove a poor start toward maintaining freedom of speech and inquiry generally to do so."

Taking an entirely different view, the Stockton Record said it would have been better if Mr. Scott had never won his five-year fight with San Francisco radio stations for time on the air. "KQW confesses," the Record said, "the broadcast will be an experiment and will determine if there is sufficient interest in atheism to justify further programs on the same subject. It is an experiment very much like monkeying with a buzzsaw. No good will come of it because atheism teaches no good."

Meanwhile, KQW is as yet undecided what to do with the un-

precedented amount of mail received following Mr. Scott's broadcast. The station indicated the mail may be sent to the FCC along with a full report on the broadcast.

Video Is Used for First Time In Completion of Business Deal

FIRST EXAMPLE of what may be a commonplace occurrence in the near future, a legally binding contract completed via television, took place last week when executives of the Chevrolet Motor Division of General Motors Corp., in Washington, discussed and signed a contract with officials of Allen B. Du Mont Laboratories, in New York.

Contract, covering a 60-minute Sunday evening series of video programs which Chevrolet will sponsor on the two Du Mont television stations, WABD New York and WTTG Washington, starting Jan. 12, 1947, was completed by a closed circuit coaxial cable television conversation between the two groups of principals, in Du Mont studios in New York and Washington. Chevrolet was represented by Nicholas Dreystadt, divisional

general manager and General Motors vice president, T. H. Keating, general sales manager, and C. J. French, advertising manager, who were in Washington to attend a meeting of Chevrolet dealers in that city. In New York were Dr. Allen B. Du Mont, president of the Du Mont Laboratories, and Leonard F. Cramer, executive vice president.

Twin Screens Used

Each group viewed twin screens, one picturing the executives in New York, the other those in Washington. When the discussion was ended and the contracts were signed, the contracts with the separate signatures were televised at each end of the circuit and then were superimposed on a monitoring panel in New York to produce a single document with both signatures. The dual picture was recorded on film to make a permanent record, by a process developed by Win Case, vice president in charge of television of Campbell-Ewald Co., Detroit, advertising agency for Chevrolet.

Commenting on the event, Dr. Du Mont predicted that "the day will surely come when heads of nations will be able to talk to and see each other as clearly and intimately as in this experiment. I envision the day when television signals will traverse the earth." Coast-to-coast television will mean the end of individual city meetings for business, Mr. Dreystadt foresaw. "I could sit at my desk in Detroit and dealers throughout the nation could assemble at their nearest television studio," he said. "By closed circuit, such as this, I could discuss intimately our plans. And they in turn could present their problems. Seeing as well as hearing each other would be of obvious value."

"They've been swarming in here since November 5th!"

Ward's Billion Dollar Triumph: Radio

By FRED SAMPLE

A BILLION DOLLAR sales year is in prospect for Montgomery Ward for the first time in the 74-year history of the retail and mail order

history of the retail and mail order organization—a year marked by the company's most extensive use of radio advertising to promote retail store sales.

A record-breaking monthly gross sales figure of \$112,000,000 was reached in October for the first time since A. Montgomery Ward first set up a small mail order store on North Clark Street in Chicago in 1872.

With a retail advertising budget for 631 stores in excess of \$6,000,-000, Ward's media director, John A. Martin, by the year's end will have placed \$942,300 for program and spot announcement time on 147 stations, 12 of them being the exclusive medium for retail stores. An additional \$140,000 will be spent for talent during the company's current sales year which ends Jan. 31.

The vast merchandising organization spent only \$20,000 for radio advertising over 12 stations in 1942.

The flexibility of radio, coupled with newsprint shortage, were contributing factors in Ward's increased radio activities during the war years—manufacturers turned to war production with the result that sufficient supplies for all stores often were not available, necessitating frequent and sudden changes in planned advertising. Radio offered a more readily revised and effective method of reaching not only Ward's great urban trade but the rural customer as well.

Selectivity Stressed

While a few companies were buying time indiscriminately. Ward's carefully selected stations which offered good coverage of the retail trade area of a single store ... in many cases the more powerful station had to be ruled out because it covered too many stores, resulting in the radio listener from another Ward store area attempting to find radio-advertised merchandise in his home store and being unable to do so because the supply of the item was not sufficient to go around. Consequently stations which enjoyed good farm and urban audiences, particularly in the

Medium Praised as Mail Order Firm Nears Record Year

morning and afternoon hours and which covered one primary trading area, were selected.

A company noted for its exacting standards of advertising in newspapers and catalogs quickly became equally demanding of dignified yet effective radio commercials.

Because many of the smaller stations lost their most competent announcers to the armed services, Ward early in the war started to transcribe twenty spots monthly for local store use.

Recognizing that a special talent is required of radio copywriters, Montgomery Ward employed Mrs. Mary Edwards to direct the radio promotional activities and supervise the radio copywriting staff.

A radio service book containing

125 to 150 spot announcements of varying lengths, is issued monthly to stores using radio and to the stations.

Copy for special sales events, holiday features and "hot" item sales is also prepared for the local store manager's use—the companyapproved radio plan leaves only the merchandising of the advertised item to the local manager.

No High Pressure

Ward avoids the type of announcement which public opinion polls have shown to be offensive to listeners . . . high pressure selling and extravagant claims are studiously avoided. Instead, radio copy is slanted at specific items available in the local stores with hon-

FCC Will Grant Temporary Low Power to Rush FM, Says Denny

Mr. MARTIN

est-to-goodness facts that the customer would normally ask of the sales clerk when making a purchase.

Last September when the company decided to supplement its spot campaign with a live program, Ward advertising executives selected Art Baker and His Notebook for a 15-minute, five-day-per-week morning time presentation for over 100 stores.

Designed to be a relaxing, dignified and friendly human interest show, it has only one restrained general commercial by Mr. Baker near the middle of the program and one 45-second break near the end for local handling according to the sponsoring store's merchandise conditions.

To promote the show in advance of its opening, Ward and participating stations employed teaser spots by other well-known radio personalities. Tag lines were provided for regular commercials and for newspaper ads; special Art Baker lapel buttons with station call letters imprinted; a speciallydesigned store window with station and time identity; a package stuffer for use in direct mail pieces and packages, also indicating the station; paid ads for the newspaper's amusement page; publicity releases, pictures, photos, mats and store interior pieces . . . topping it all as a campaign, the program was supported by additional sales spots throughout the day.

Personnel is Briefed

Because company officials realize the importance of merchandising within the store the items advertised by radio, store personnel are advised with each monthly service book how best to use the announcements it contains . . . repetition of spots and a limited number of items advertised daily, a minimum of minute detail and no great conglomeration of price which the listener finds difficult to grasp characterize the spot campaign. Although the company's tremendous increase in sales cannot be directly attributed to the use of radio, it is recognized as an effective supplement to other means of (Continued on page 86)

SELECTIVITY in choosing radio markets, plus definite standards for commercials, has paid Montgomery Ward handsome dividends. As the 74-year-old mail order house nears its first billion dollar sales year, Ward executives are quick to commend radio for its part in this success—success that has blueprinted an even bigger and better radio budget for next year. TO HELP establish FM as a nationwide service as soon as possible the FCC will issue special temporary authorizations for powers less than those granted, until high-powered transmitters are available, Charles R. Denny Jr., acting Commission chairman, told a committee of the FM Assn. at a luncheon meeting in Washington last week [BROADCASTING, Nov. 18]. Mr. Denny and three other commissioners who attended the FMA meeting, held Monday, pledged support of the FCC in encouraging immediate operation of FM stations. The Commission policy on STA's was, made known when FMA members said many permittees have not put their stations on the air because they could not obtain high-powered transmitters. The FCC members explained that if a station, for instance, is authorized to operate with 20 kw power but can obtain a transmitter of only 1 kw or even 250 w, the Commission will issue an STA for operation at the lower power (Continued on page 95)

Radio's War of Ratings Flares Up Again

A. C. Nielsen Hits Hooper's Diary **Studies**

THE war of the ratings, supposedly ended last summer when the Cooperative Analysis of Broadcasting withdrew from the program audience measurement field and arranged for C. E. Hooper Inc. to take over its unfilled subscriptions, broke out again last week when A. C. Nielsen launched an attack against the Hooper plan to augment its coincidental telephone surveys with diary studies to secure a nationally projectable rating.

Mr. Nielsen is president of A. C. Nielsen Co., a research organization that measures audience behavior by a mechanical device called "audimeter." When attached to a radio receiver, the audimeter records all dial tunings of that set. Last week Mr. Nielsen issued what

U. S. Court Stays FCC Night Grant WQXR - KPMC Win First Round **For Skywave Protection**

WQXR New York and KPMC Bakersfield, Calif., last week won the first round in their court battle to prevent FCC from licensing a nighttime station on their frequency, 1560 kc, in Chickasha, Okla.

The U.S. Court of Appeals for the District of Columbia, on Wednesday issued an order on petition of Interstate Broadcasting Co., licensee of WQXR, staying a grant of the Commission to the Washita Valley Broadcasting Co. for a 250 w station on 1560 kc in Chickasha "so far as it authorizes nighttime operation."

FCC Order Amended

In compliance with the court order the Commission amended its grant, which was for a fulltime outlet, to daytime only. Argument on the appeal of WQXR, filed by Loucks & Scharfeld, was set for Dec. 10 before the appellate court.

The FCC on Aug. 1 granted the Washita Valley application without hearing and subsequently ordered program tests. Under the amended order, however, the tests will be confined to daytime only.

he termed a "frank analysis of the faults and limitations inherent in a technique which Mr. Hooper is apparently trying to revive in a desperate effort to create the nationally projectable ratings which the industry is now demanding.

"But," Mr. Nielsen averred, "the coincidental telephone technique and the diary are inherently incapable of ever providing such ratings. No conceivable combination of the two techniques can remove the serious errors inherent in both, and any combination method introduces some very serious, unsolvable problems too complex for discussion here. The Nielsen Radio Index is the only known method which can produce nationally projectable network ratings on a reliable basis. We are very close to it right now, and our next area expansion step will take us the rest of the way."

The Nielsen letter was evoked by a booklet on projected ratings issued by C. E. Hooper Inc. to explain how diary records kept by listeners can be used to measure "the difference between listening in different places, between different types of people, in single set compared with multiple receiving set homes, in big families compared with small families, in cities compared with towns compared with farms."

The booklet declared. . . . "It

is not the function of the diary to measure audiences. The industry has already accepted the coincidental as a standard unit of measurement." The diary-established differences can be expressed on a coincidental base, the booklet explained, so that all measurements are comparable with the regular Hooperatings "and life is kept simple for both buyer and seller."

Diary Ratings Higher

Diary ratings can be expected to be higher than coincidental ratings, even when taken in the same homes, the Hooper booklet said, because the base is radio homes, which is a smaller number than total homes, used as the base in the telephone coincidental survey; the diary measures "total" listening during a 15-minute period and the coincidental measures momentary listening, which is smaller; a diary is attached to all sets in a home and gets composite listening of all members of the family; "the presence of the diary attached to the radio set, just like the presence of an audimeter, cannot help prompting people to listen more than homes not being sampled."

Disputing that statement, Mr. Nielsen denied that the audimeter affects "either the quantity of listening or the choice of programs" because where the diary is "promi-

ATTACK by A. C. Nielsen, president of research organization bearing his name, on the plan of C. E. Hooper Inc., to augment its coincidental telephone surveys with diary studies to obtain a nationally projectable rating last week touched off anew radio's war of ratings, which had quieted down last summer. Arguments made by the Hooper organization in favor of its plan and by Mr. Nielsen in support of his Nielsen Radio Index are set forth in the accompanying columns.

nently in sight at all times" the audimeter is out of sight and silent; where the diary "requires constant, laborious recording by every individual in the family" the audimeter "requires no action whatever on the part of anyone in the family"; where the work of keeping the diary makes generous rewards for the diary families necessary and continuous use in the same homes impractical, audimeter families perform no service and so require "only a very nominal compensation and the audimeters can be left in the same homes continuously, "thus giving time for any conceivable effect on listening to wear off."

Hooper technique for selecting diary homes begins with a study (Continued on page 87)

Nation Celebrates Radio's Anniversary

Dealers and Broadcasters Join in Observing **Annual Event**

NATIONAL Radio Week opened yesterday (Nov. 24) with stations all over the nation offering special programs and announcements in recognition of the 26th anniversary of broadcasting. Networks joined in observance of the week, Nov. 24-30, and messages of congratulation were received from many persons prominent in public life.

White House recognition of radio's anniversary will be tendered Wednesday when Arthur B. Church, president of KMBC Kansas City, and E. P. J. Shurick, KMBC promotion director, will present President Truman with a leather-bound copy of the book The First Quarter Century of American Broadcasting. Presentation will be made at 11 a.m.

Over 30,000 dealers have decorated windows and display rooms with Radio Week posters. Showings of new models are under way and printed advertising carries the special insignia designed for the week along with appropriate promotion matter.

Others Participate

Special events on the local level will continue through the week, including luncheon club addresses and open house ceremonies. Stations are staging special broadcasts and bringing the Radio Week message to their communities. A Radio Week script for local use was prepared by Ben Miller, of the NAB information department. It portrays radio's role in national life.

drive, is tieing-in its million-dollar broadcasting expansion in the Pacific Northwest with the celebration. KEX Portland, Ore., is dedicating its new studio facilities during the week, with high WRS officials participating.

Individual anniversary celebrations are being held at WBZ-WBZA Boston-Springfield, KYW Philadelphia, KDKA Pittsburgh and WOWO Fort Wayne, starting with special Sunday programs. The week's events include network originations, exchange of greetings and open-house receptions at studios and transmitters.

Westinghouse featured the fact that it has 28 veteran employes with a total of 549 years' service (see photo page 43). WRS Vice President Walter E. Benoit and Stations Manager J. B. Conley have been with the Westinghouse organization 29 and 21 years respectively. Nationwide letter contest on the subject "What I Think About Radio" is being staged by the Assn. of Women Directors under direction of Alma Kitchell, WJZ New York, and Dorothy Lewis, NAB director of listener activity. For letters of 200 words or less, RMA is donating 204 receiving sets, 12 (Continued on page 99)

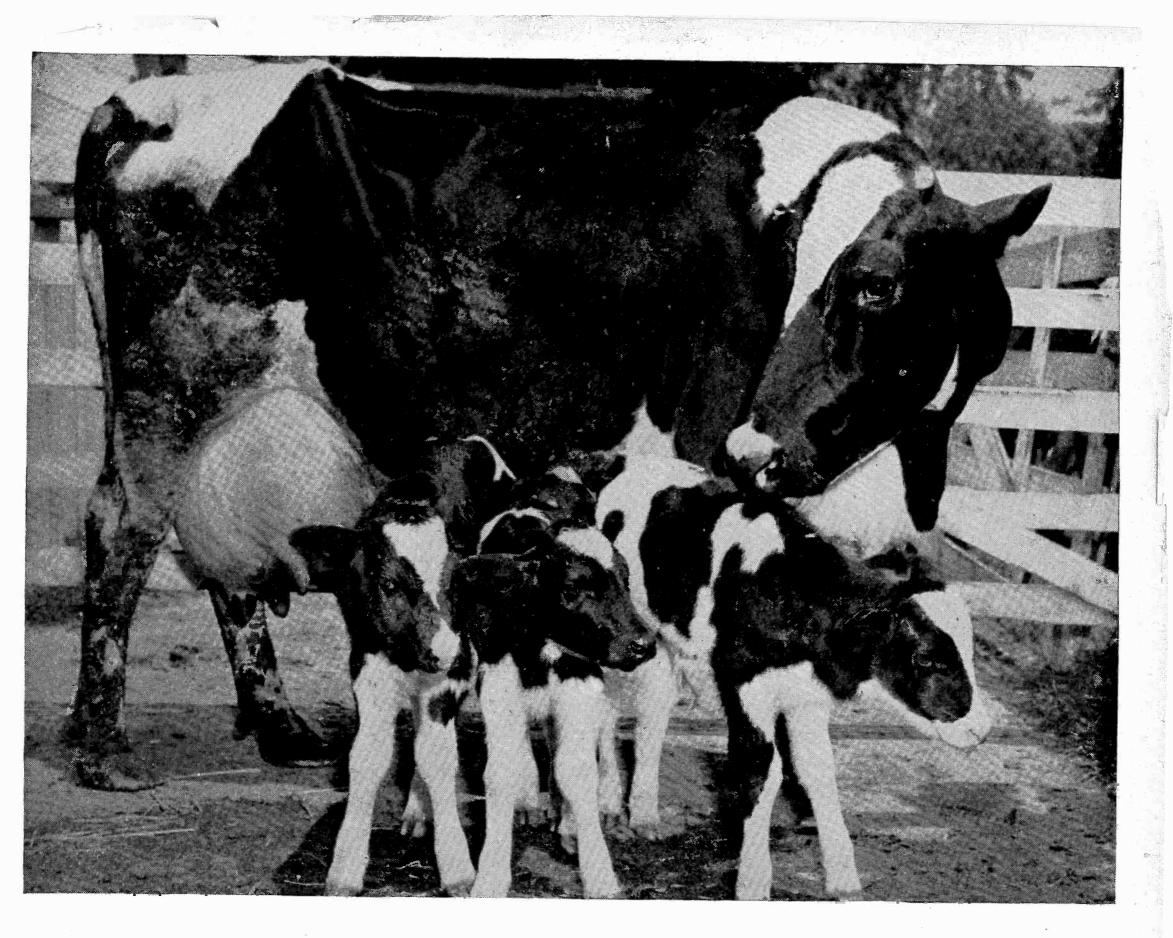

Both WQXR and KPMC Bakersfield, Calif., also operating on 1560 kc, petitioned the FCC for rehearing after the Washita Valley grant, but the FCC, denying the pleas, said that neither station was entitled to skywave protection. Both stations appealed [BROAD-CASTING, Aug. 26]. Pending before the FCC is an application for power increase from 10 kw to 50 kw for WQXR, while KPMC, now operating with 1 kw, seeks 10 kw.

Page 18 • November 25, 1946

The week's events were jointly arranged by NAB and the Radio Manufacturers Assn., with the latter organization taking the lead in promoting the movement and preparing packets for use of distributors, dealers, stations and other interested groups. RMA allotted \$10,000 to finance the week.

Participating in the activities with NAB and RMA are National Retail Dry Goods Assn., National Retail Furniture Assn., National Music Markets Assn. and National Electrical Retailers Assn. Many dealers are using the radio-inevery-room theme developed by RMA and slated for intensive promotion next year.

Westinghouse Radio Stations, under direction of W. B. McGill, advertising director who has spearheaded the nationwide Radio Week

A Rarity

Still looking a little bit bewildered at the world, triplets, a rarity in cow production, pose with their mother on a farm near Los Angeles. Ma is a 6-year old Holstein and the rarities are two boys and a girl.

It's pretty unusual . . . but the smart time buyers who aren't blinded by the glisten of glamor call letters ... think it's terrific!

In a lot of ways we're a rarity in the radio world. We're an independent station in a 5-station town. Four of the stations are network . . . and Baltimore is the 6th largest city in the country.

But it's W-I-T-H, the successful independent, that delivers more listeners-per-dollar-spent than any other station in town.

BROADCASTING . Telecasting

That's why you'll find W-I-T-H in the wiser budgets. How about your list?

Georgia Institute Hears Story of Radio

Industry Expansion And Peace Role **Are Stressed**

STUDENTS attending the Henry W. Grady School of Journalism, U. of Georgia, Athens, heard the story of radio-past, present and future—last week at the first Georgia Radio Institute, sponsored jointly by the Grady School and the Georgia Assn. of Broadcasters.

They learned first-hand of radio's 26-year growth, of a predicted five-billion-dollar expansion in the next five years, of radio's important part in preserving world peace.

Sessions opened Thursday afternoon with a business meeting of the Georgia Assn. of Broadcasters, followed by a reception at 5 p.m. for students and broadcasters. Hosts were the Sigma Delta Chi, men's professional journalistic fraternity; Theta Sigma Phi, women's professional journalistic sorority, and Digamma Kappa, honorary radio fraternity.

Town Meeting' Program

Dr. Harmon W. Caldwell, University president, gave the address of welcome Thursday evening, with Charles A. Smithgall, president of the broadcasters' association and president of the Blue Ridge Broadcasting Co. (WGGA Gainesville), responding.

The ABC Town Meeting of the Air originated on the stage of the U. of Georgia Fine Arts Auditorium in conjunction with the institute. Discussing the topic, "How Can We Avoid a Depression," were Sen. Owen Brewster (R-Me.), Retiring Gov. Ellis Arnall of Georgia, Joseph Borkin, former chief economics adviser and attorney in the Anti-Trust Division, Dept. of Justice, and James L. Wick, authority on economics.

Opening Friday's all-day session was an address by Sol Taishoff, editor and publisher of BROADCASTING, on "Radio's Past." He was introduced by Wilton E. Cobb, WMAZ Macon.

"You Grady school students have great opportunities ahead," said Mr. Taishoff. He traced the history of radio in the U.S., from the early days of regulation by the Dept. of Commerce and crystal-set listening, to the present, touched briefly on the legislative history of radio and told how the Government regulatory body gradually has extended its control over broadcasting. He mentioned some of the "oldtimers" who helped to pioneer radio-among them Lambdin Kay, "whose famous and fetching voice announcing WSB as 'covering Dixie like the dew' is indelibly etched in radio's experience." He recalled when Frank Mullen, NBC executive vice president and gen-

eral manager, was an announcer on KDKA, when William Scripps of the Detroit News and WWJ founded that station in 1920 "while in knee breeches."

Recalls Oldtimers

Mr. Taishoff paid tribute to Arthur Church of KMBC; M. H. Aylesworth, NBC's first president; William S. Paley, CBS board chairman; Mark Woods, president of ABC; Leo Fitzpatrick, now part owner of WGR Buffalo, one-time announcer on the Kansas City Nighthawks, and many others.

He lauded Dean John E. Drewry of the Grady school for his "vision and initiative" in establishing the George Foster Peabody Radio Awards, radio's first national citations for merit.

Radio's progress has been "not unlike the historic progress of the press in this country, except that the press took 200 years to grow to maturity, and radio, profiting by precedent, has taken but 25," said Mr. Taishoff. He likened radio to the newspaper and pointed out that the front page, comics, features, women's pages-all have counterparts in broadcasting. He predicted that stations "will assume their proper role and actually have an editorial period, labelled as such, in which the station will express its opinion on current events, international, national and local."

Urging his listeners to strive to keep radio free, Mr. Taishoff declared: "If radio's freedom goes, all freedoms are lost. That, at long last, has been recognized by other free media. Some day, somehow, Congress or the courts will find words which will establish simply, clearly and firmly this credo of a radio 'as free as the press'."

Willard Sees Expansion

Five billion dollar expansion in the broadcasting portion of the electronics field within five years was predicted by A. D. Willard Jr., NAB executive vice president. He foresaw the expansion in these brackets:

FM--\$1,500,000,000 to \$2,000,000 through construction of 2,000 to 3,000 new stations, with 5,000,000 sets in re-ceivers' hands in 1947 and 15,000,000 FM sets within five years. Television--\$2,000,000,000 to \$2,500,-000,000 with 185 to 190 key cities having television connected by coaxial or radio relay; 1,000,000 television receivers in 1947 and 2,500,000 in the following three to five years.

to five years. AM-\$1,000,000,000 through construction of new stations (600 applications are on file); receiver production already is running 50% above prewar years.

With this industry expansion Mr. Willard anticipates doubling of the fulltime personnel, from 26,000 to over 50,000 employes, along with growth in the group of 26,000 parttime employes. Physical and personnel expansion will bring increased program and labor relations responsibilities, he said.

Observing that set ownership now averages 90%, he said broadcasters must increase their audience by an increase in listening at all hours of the day and night. Sales departments must get additional revenue and universities and the industry together must train technicians and program people.

He predicted that within five years all listeners would be within reach of five to ten reasonably clear broadcast signals. Selective listening will develop, he said, with minority tastes better satisfied. He explained that radio's development will enhance the need for modernization of the 1934 Communications Act.

Industry expansion and addition of more spectrum space for broadcasting will provide unlimited opportunity for those who want to enter the industry. He voiced hope that the industry can rightfully challenge many of the governmental restrictions placed upon it largely on the basis of scarcity of frequencies.

Cites Legislative History

Horace Lohnes of the Washington law firm, Dow, Lohnes & Albertson, discussing "Legal Aspects of Radio," reviewed the legislative history, beginning with the original radio act of 1910. He explained how the FCC has been given juris-(Continued on page 88)

Concern Over FCC Handling of Reports

Release of WCBM Data To Rival Arouses Broadcasters

CONCERN for the privacy of their confidential reports to the FCC was aroused among broadcasters last week after a hearing in which it was revealed that photostatic copies of one station's annual financial reports, supposedly confidential, had been released to a rival applicant without the station's knowledge.

Paul D. P. Spearman, counsel for WCBM Baltimore, whose annual reports for 1942-45 inclusive were disclosed to have been sent in photostatic form to Tower Realty Co., another applicant in the hearing, protested strongly that he had been served no notice of Tower's request for the copies and had had no chance to appear in opposition to the request. Andrew G. Haley, Tower counsel, said he made written request for the information because certain questions on WCBM's application form were answered merely with a reference to information already on file and therefore the information was necessary to make the application complete.

siding over the hearing, ruled that only those portions of the financial reports which were responsive to questions in the application form might be used for cross-examination.

Protesting release of the information without WCBM's knowledge, Mr. Spearman contended that if the Commission planned to release confidential data it should first have given him an opportunity to be heard in opposition.

'No Notice Given'

"No notice on earth was given to Baltimore Broadcasting Corp. (WCBM) or to me as their attorney saying any such request had been made," he declared.

complied with the rule. Regarding the first question, he protested that Tower asked FCC not just for information on income for the past four years, but "for the whole business."

Examiner Stein explained that FCC Rules Sec. 1.206 provides that information filed under Sec. 1.341 (annual reports) and network and transcription contracts filed under Sec. 1.342 "shall not be open to public inspection." A subsection provides that this and other information may "in the discretion of the Commission," be opened to public inspection "upon written request describing in detail the documents to be inspected and the reasons therefore."

Page 20 • November 25, 1946

FCC Examiner Abe Stein, pre-

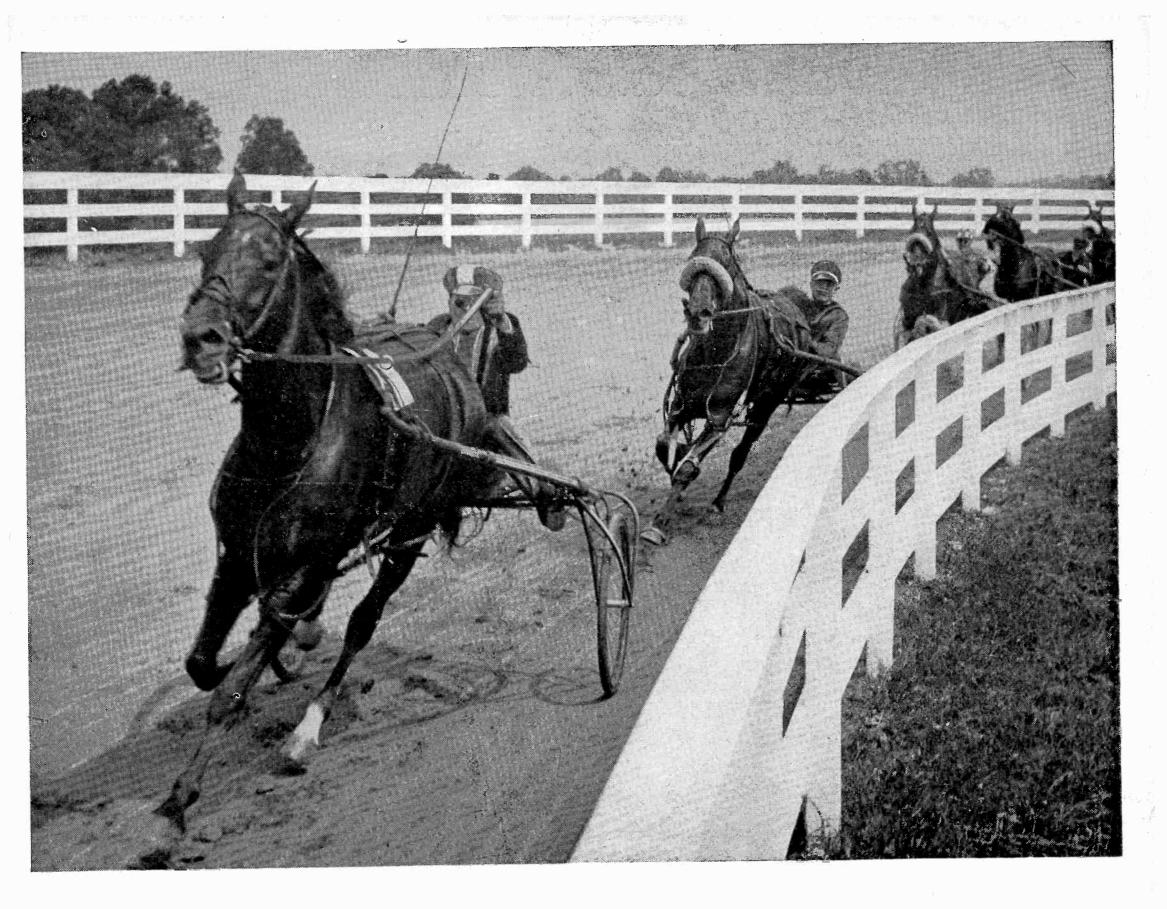

Three questions in the WCBM application form were answered with references to "Form 324"financial reports to the Commission. One related to income for the last four years; one to bank references, and one asked whether WCBM had complied with the rule requiring that reports be filed.

Mr. Spearman contended the reference to Form 324 in answer to the request for bank references was "obviously a typographical error," and that in answer to the third question Form 324 was cited merely as proof that WCBM had

FCC Explains

WCBM spokesmen interpreted the subsection to mean that some affirmative action was required to make the reports available, and should have been preceded by notice to WCBM and an opportunity to appear in opposition to release of the data.

Commission authorities told BROADCASTING that applications are public records, and that when an application question is answered by a citation of information al-(Continued on page 87)

When Rival Media Retaliate on BMB

By FRANCIS N. McGEHEE

IN ALL the uproar about the Broadcast Measurement Bureau, no one in radio seems to have asked the most obvious question:

What are competitive media salesmen going to do to or with these figures?

I will tell you.

The first time a radio salesman stacks a BMB coverage report up against the ABC statement of a big-time magazine or newspaper in competition for a sizable advertising appropriation, he is going to get himself smacked down so hard he will -bounce right up into the ionosphere.

The industry seems to have forgotten that some of the greatest advertising salesmen, some of the most skillful research technicians,

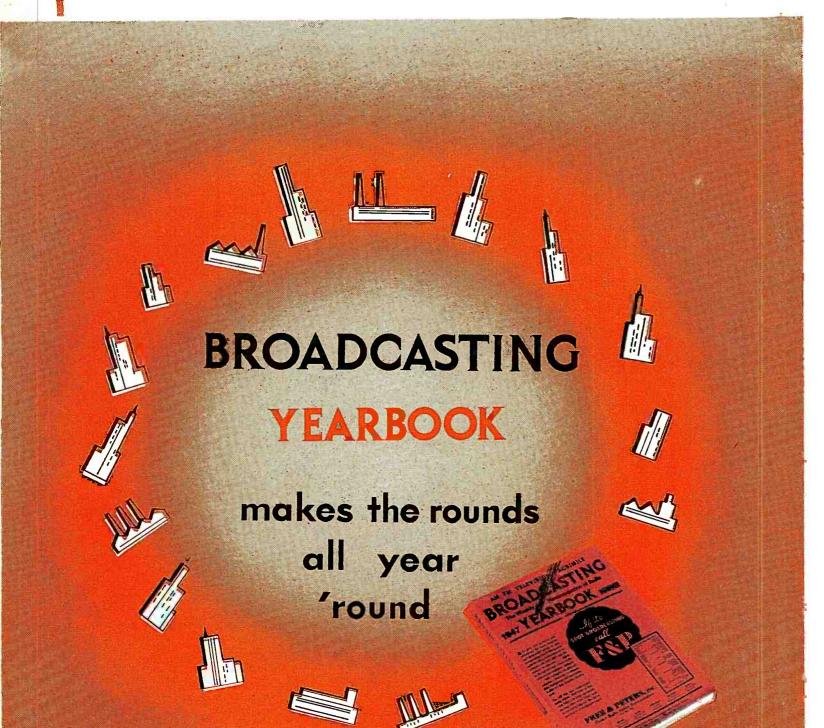

Counter - Attack of Competition With ABC Is Envisioned

are not proponents of the philosophy that radio is the greatest advertising medium in the world.

The brains behind the research and sales divisions of the Curtis Publishing Co., Hearst, Scripps-Howard, American Weekly, This Week, ANPA's Bureau of Advertising, ANAN, several big newspapers, and a number of other media competing with radio will match anything the industry has to offer when it comes to technical research knowledge, resourcefulness, and advertising sales savvy.

Despite official statements from Hugh Feltis, NAB, network and station officials to the effect that BMB is not comparable to ABC, the ink had hardly dried on the first BMB report before the advertising fraternity was seriously trying to use it in a direct comparison with ABC. (BROADCASTING November 4th carries this headline: "Agency Research Head Finds BMB *Exact Parallel* to ABC." The italics are mine.)

And in the hard, exacting, sometimes unscrupulous competition out on the firing line (where the bosses' institutional mouthings are forgotten in the struggle for existence), salesmen must be utter realists.

"If," say they, "BMB isn't a radio ABC, then what the hell is it?"

Having delivered themselves of this euphemism, they will proceed to forget instructions from the ivory tower and do with BMB reports what they think the exigencies of their battles for business demand of them.

They will compare BMB with ABC. They will contend that network "A" has more family coverage than magazine "B," station "C" reaches more people than

FRANCIS N. McGEHEE, a business and sales promotion consultant, numbers among his clients such firms as Scripps-Howard Newspapers Inc., Outdoor Advertising Inc., Douglas Leigh Inc., **Crossley Inc., Cooperative Analysis** of Broadcasting, Metropolitan Sunday Newspapers Inc., The New York Times, S-M News Co. (National Distributors for Reader's Digest, The McCall Corp., Popular Science Corp.). His principal experience therefore has been with media which compete with radio for advertising revenues. He has had sufficient experience in the broadcasting field to understand its problems. His comments on BMB may be considered, therefore, of value in that light. Mr. McGehee wrote an article for BROADCAST-ING August 28, 1944 on an "audit bureau of circulation" for radio.

newspaper "D"—"A comparison of BMB and ABC says so!"

And then, fireworks.

For the position of BMB in any direct comparison with ABC is untenable, and competitive research technicians not only are prepared to prove it, but waiting with wet lips for a chance to deliver a sucker punch to a medium which has been of considerable annoyance (to put it mildly!) in recent years.

Possible Comeback

Confronted by an advertiser with the suggestion that an appropriation is going into radio because of an adverse comparison between BMB and ABC data, the publication salesman will . . .

(1) Observe, in a nice way, of course, that the ABC was organized—and its administrative policies throughout its lifetime have been controlled by—the *buyers* of advertising. BMB has been organized by *sellers*.

YOUR best all-round buy the year 'round is the 1947 BROADCASTING YEARBOOK ... now in production. A circulation of 15,000 is guaranteed covering every segment of the radio field. Regular rates and sizes prevail. Deadline is December 15, 1946. Position allocated in order of reservation. Wire your reservation collect today.

The president of ABC is an *ad*vertiser. The president of BMB is an ex time salesman. (On such thin reeds are major media decisions sometimes hung. And the skillful salesman knows it.)

ABC measures nothing. It simply audits and certifies to advertisers that the measurements made by publishers are accurate and reliable. BMB not only does the measuring, it originated the measuring technique, and "certifies" the (Continued on page 31)

...MINING again will add \$70,000,000 in annual buying power

(as in 1940, before the wartime suspension of gold mining)

MINERS have been extracting mineral riches (an average 45% of California's total) from Beeline earth since '48 . . . when the first Mother Lode gold lay in James Marshall's calloused palm.

Nowadays mining is big business in the area covered by the Beeline stations. Scientific, modern methods have replaced the pan and woodcn cradle. Quicksilver, iron and tungsten ores — 60 different minerals — are mined in Beeline mountains and valleys. That's another reason why this area is a treasure trove of purchasing power — A TWO BILLION DOLLAR MARKET.

What is the Beeline? Not a chain or regional network but a group of five long established key stations, each the favorite in its own community . . . combined for national spot business and providing primary coverage of a 42 county market that rivals Los Angeles in population and tops San Francisco and Seattle combined in retail sales.

Facts for Time Buyers about the 5 BEELINE Stations

Each station in the BEELINE Group (not a network or chain) is dominant in its community, powered for THOROUGH COVERAGE. These stations TOGETHER blanket California's mountain ringed central valleys, plus Reno and wealthy western Nevada. Use all 5 at combination rates. Choose best availabilities on each station without line costs or clearance problems.

KOH

Reno. NBC. Established 1928. The oldest station in western Nevada. KOH "delivers" from 86% to 98% of the Reno audience 18 hours daily. Primary area coverage in 12 counties. 1,000 watts . . . 630 kc.

The Beeline's mineral righ mountains define the market . . . wall it away from effective penetration by outside radio. Beeline stations — operated from INSIDE the mountain barriers — do a top notch selling job.

'New' FCC Hearing Policy Adopted

Applicant Protests, Suggests Oral Argument

A "NEW" POLICY under which FCC in some instances would put engineeringly non-conflicting àn application into hearing with mutually exclusive applications for that same area was revealed last week.

The policy, enunciated by the Commission in an opinion and order designating a 710 kc daytime application for Paris, Tenn., for consolidated hearing with 1340 kc fulltime applications for Paris and nearby Murray, Ky., brought from the applicant for the uncontested frequency a sharp protest, request for reconsideration, and a suggestion that oral argument be held.

The procedure outlined by the

Commission was similar to that ordered, but later rescinded, in the case of three applications for 1050 and 1390 kc at Arlington, Va., and Silver Spring, Md. [BROADCASTING, Aug. 12]. FCC sources said it has precedent in several cases including that followed in the Nashville-Murfreesboro, Tenn., proceeding, which drew the ire of Sens. McKellar and Stewart (D.-Tenn.) because their choice for a grant was given a denial while a political enemy won a grant [BROADCAST-ING, Nov. 11].

In its petition for reconsideration, the Paris applicant for 710 kc argued that "unfair and unjust results" would follow from the procedure of consolidating electrically conflicting and non-conflicting applications in the same communities, and that in FM it would logically require the consolidation of Class A with Class B applications under similar circumstances. It contended the Arlington-Silver Spring and Nashville-Murfreesboro cases differed from the Paris-Murray case in that, at Paris-Murray, more frequencies are available than are being sought.

The case involves three applications for Paris and one for Murray. All originally asked for fulltime use of 1340 kc. Subsequently Kentucky Lake Broadcasting System amended to specify 710 kc, daytime only, and its application was removed from the hearing. Paris Broadcasting Co., then petitioned FCC to put the Kentucky Lake application back into the 1340 kc hearing.

(Other applicants in the case are James A. Dick and William W. Crenshaw trading as Paris Broadcasting Co., for Paris, and Mur-

MUSIC has power— WDAS is the only Philadelphia radio station featuring three hours of classical music every day

... In addition to the usual musical programs, Philadelphia's Outstanding **Full-time Independent Station** features classical music every morning from 10:30 to 12 Noon,

THAT FCC plans under certain circumstances to give comparative consideration to applicants for the same areas even when non-conflicting frequencies are involved was disclosed last week. The policy evoked from one of the applicants in the case in which it was enunciated a protest, a plea that it be reconsidered, and a recommendation that oral argument be held.

ray Broadcasting Co., for Murray.)

In its opinion and order approving the Paris Broadcasting petition -Comr. E. K. Jett dissented, contending the non-conflicting application should be granted-the Commission majority referred to its policy of preferring local residents over non-residents in disputed cases, and pointed out that Kentucky Lake was the only Paris applicant without a Paris resident among its stockholders.

By considering the applications for the two frequencies separately, the Commission "would not be able to give proper weight to the factor of local residence in making its determination between the various applicants desirous of serving Paris, Tenn.," FCC's opinion asserted, adding:

The fortuitous selection by one of several applicants of a frequency which is not in electrical conflict with the other applicants should not require the Commission to grant the application without hearing, nor should it preclude Commission consideration of the fortu-Commission consideration of the factor

Commission consideration of the factor of non-residence in the community or entitle that applicant to prior consid-eration over the other applicants. On the other hand, the granting of the [Paris Broadcasting] petition would permit, in one hearing, not only a com-plete study of the needs of the com-munities involved but also a proper consideration of the qualifications of the applicants who seek to serve the area. . . Moreover it [FCC] will hence-forth employ this procedure in similar situations, since the Commission feels that it will "best conduce to the proper dispatch of business and to the ends dispatch of business and to the ends of justice."

FCC authorities said this procedure would be used only in "similar," not in "all" cases. In view of FCC's inclination to distribute control over the media of mass communications, spokesmen said, it may also be used, for instance, where a non-conflicting applicant also has newspaper interests and a grant to him without a hearing would appear to favor him at the expense of non-newspaper applicants for the same area.

Explaining the Commission's reasoning, they said:

Had Kentucky Lake's daytime application been granted without hearing, non-residents seemingly

and again in the evening would have been given preference while the two groups of local resifrom 10 to 11:30 P.M. dents would have been left to compete for the remaining frequency not only among themselves but with a rival application for another community. If FCC then de-With "MUSIC" like this, cided that more equitable distribuit's no wonder WDAS audiences have been loual tion of radio facilities would result from assignment of the frequency at Murray, rather than for more than a quarter of a century. Paris, the Tennessee town with its population of approximately 6,400 would have a daytime station (on 710 kc) while Murray, with about (Continued on page 77)

in a matter of seconds an amplifier or power supply can be connected or disconnected. Guide strips on the new RCA shelf (Type BR-2A) and guide pins on plug at back of amplifier assure smooth, rapid installation. Levers at front hook into slot in shelf and pull amplifier into place. Sockets on bracket at rear of shelf permit self alignment of receptacle with amplifier plug. (Shown is the BX-1A Power Supply Unit.)

Now... "Plus-11" amplifiers

Two-stage Preamplifier (Type BA-1A)—ideal for use as a microphone preamplifier, turntable preamplifier, booster amplifier, or low-level isolation amplifier. *High* gain: 40 db. *High output:* +10 db. *Low noise level:* -80 db. *Low distortion:* 0.5% rms, 50 to 7500 cycles. *Isolation* factor: approx. 90 db; over 100 db with special Volume Control Kit. Frequency response: ±1 db, 30 to 15,000 cycles. Small size: six units will fit on a 36-B or new BR-2A shelf!

Booster Amplifier (Type BA-2A)—A two-stage unit having applications similar to those for the BA-1A; also valuable where a high-gain amplifier between announce microphone and limiting amplifier is required. High gain: 50 db. Low noise level: -68 db. Low distortion: 0.75% rms, 40 to 15,000 cycles. Frequency response: ±1.5 db, 30 to 15,000 cycles. Compact: two units can be mounted on one 36-B or BR-2A shelf. Features plug-in capacitors and built-in power supply.

for new convenience and speed

The RCA Type BR-2A Shelf fits any standard rack; takes 8¾ inches of panel space. If desired, however, RCA Type 36-B panels and shelves now in use can be easily adapted for plug-in amplifier service.

These versatile, multi-purpose units by RCA will simplify many of your studio setups

A^S easy to install or remove as an electronic tube! Pull a lever near the front of the amplifier and the plug on the rear of the unit is smoothly withdrawn from its socket automatically disconnected from the supply voltage. No longer is it necessary to crawl around to the back of hardto-get-at racks and unsolder or unscrew countless connections. System changes can be made quickly; minutes can be slashed from inspection, servicing, and testing time.

This new RCA line now includes the four amplifiers and one power-supply unit shown. Others will be added in the near future. New, carefully selected characteristics make these units ideal for a large number of studio jobs.

All units use the same standard plug. To assure maximum convenience, a new shelf (Type BR-2A) has been designed. With a few easy changes, however, the conventional RCA Type 36-B panel and shelf can be used, if desired. The necessary accessories are available for this purpose.

Here, we believe, is a real opportunity to modernize your amplifier system—a quick, convenient way to get better performance at low cost. New descriptive leaflets are yours for the asking. Write: Dept. 19-K, Audio Equipment Section. Radio Corporation of America, Camden, New Jersey.

BROADCAST EQUIPMENT RADIO CORPORATION OF AMERICA ENGINEERING PRODUCTS DEPARTMENT, CAMDEN, N.J.

In Canada: RCA VICTOR Company Limited, Montreal

Program Amplifier (Type BA-3A)—one of the most versatile on the market. Ideal as a program, line, or booster amplifier; a high-level isolation amplifier; a cueing or monitoring amplifier, or a driver amplifier (for high-power recording amplifiers, etc.). High gain: 65 db for matching input, 27 db for bridging input. Low noise level (with maximum gain): -52 db. Low distortion: less than 0.5 to 1% rms, depending on output level. Frequency response: ±1 db, 30 to 15,000 cycles. Monitoring Amplifier (Type BA-4A) — Designed for operation at microphone levels. High output of 12 watts is sufficient to drive several speakers or, in some applications, a recording head. Other uses include application as line amplifier for portable and mobile transmitters. High gain: 105 db. Low noise level: -20 db (with maximum gain); -40 db (with minimum gain). Low distortion: less than 3% at 12 watts. Frequency response: ± 2 db, 30 to 15,000 cycles.

Radio Playing a Major Role In NHA-Tucker Lease Story

RADIO FIGURED prominently in ington FM grantee and AM applithe Washington question of who did what to whom in connection with the National Housing Administration's lease cancellation of the Chrysler-Dodge plant in Chicago, while threats of libel suits were made on all sides and two Congressional committees and the Dept. of Justice began investigations.

In the limelight as BROADCAST-ING went to press were these radio personalities: Fulton Lewis Jr. MBS commentator who, on his Nov. 13 broadcast, broke the story that made page one headlines in Washington dailies the following day [CLOSED CIRCUIT, Nov. 18]; Drew Pearson, ABC commentator; Theodore (Ted) Granik, attorney, conductor-moderator of the American Forum of the Air on MBS, Wash-

cant; Earl Godwin, ABC commentator, and Edward M. Kirby, public relations counsel, former NAB Director of Public Relations, wartime chief of the Radio Branch. War Dept. Bureau of Public Relations and AM applicant in Nashville.

Mr. Lewis started Washington buzzing and newspapers probing when he related the story of how National Housing Administration had cancelled a lease originally given the Tucker Corp. on the Chicago Chrysler-Dodge plant by War Assets Administration to manufacture Tucker "Torpedo" automo-biles. He mentioned a "mystery lawyer" and "influence" at NHA. Washington newspapers played the story Monday, quoting Preston

Tucker, president of the corporation bearing his name.

On Sunday night, Nov. 17, Mr. Pearson identified the "mystery lawyer" as Ted Granik, but said the Forum moderator had conducted himself as a good lawyer, had nothing to hide.

Immediately after the Pearson broadcast Mr. Granik, who meanwhile had retained Mr. Kirby as public relations consultant, issued a prepared statement outlining his negotiations with Mr. Tucker. He said he had a "written retainer" in which the Tucker Corp. agreed to issue him 8% of its stock and pay him \$3,000 per month for legal services.

Instructed Attorney

Mr. Granik said he had instructed his attorneys "to take necessary steps to collect the sums which are due to me from Mr. Tucker, his associates and the Tucker Corp. for services performed, according to the contract, and I have also in-

Yes, $3\frac{1}{3}$ billion dollars, that's 72% of Northern California's effective buying income.

ONE COLUMBIA STATION SERVES THEM ALL!

Whistle Stop

HE DIDN'T win, but Disc Jockey Fred Wood of WSNJ Bridgeton, N. J., put on a whirlwind gag campaign, during the recent elections, for Mayor of Carll's Corner. The m.c. of the four-hour nightly record show, Woodchopper's Ball, had a complete campaign with posters, stickers, speeches, spot announcements and "the works." He received a surprising number of write-in votes on ballots cast in South Jersey. Incidentally, Carll's Corner is a highway intersection where WSNJ's studios and transmitter are located.

structed them to commence suit for libel."

On Monday afternoon Mr. Tucker. at a news conference in the Mayflower Hotel, Washington, issued a prepared statement in which he said, among other things: "I have never stated that Mr. Theodore Granik approached me at any time to offer his services. . . . Mr. Granik implied important Government and financial contacts and showed me letters from persons who had appeared on his American Forum of the Air, including Senator Wagner, President Truman and Nelson Rockefeller."

Elsewhere the statement said: "I have stated repeatedly that I do not charge Mr. Wilson Wyatt or anyone in his office with collusion. and at no time have I said that Mr. Granik claimed he could have such action stopped through his influence with NHA or by any other means. I repeat that his actions gave me that impression, however."

Mr. Tucker told correspondents he planned to go before the "District Bar Association" to "explore" the possibilities of filing disbarment proceedings against Mr. Granik.

Following the Tucker news conference Mr. Godwin on his ABC commentary Monday evening referred to the story, said Mr. Granik had tried unsuccessfully to gain membership in the Congressional Radio Gallery, was turned down because he was not a fulltime working newsman.

Mutual officials meanwhile called a meeting of executives in New York on Monday. There had been reports of threatened suits against Mutual by various persons whose names figured in the story. On Monday night Mr. Lewis clarified his earlier broadcast.

McGehee

(Continued from page 22)

accuracy of the measurements.

(2) He will take a BMB station coverage map, mail ballots into the territory on the basis of BMB's distribution formula-and get a different answer from what is shown by BMB reports. He will use BMB's technique, identically.

Or, better still, he will induce the advertiser to test the system this way. He can gamble on the results. When the ballots come back from the field, some scrawled in pencil, some patently frauds, the odds are that he will have concrete evidence that all strata of the public cannot be relied upon to fill out mail ballots intelligently, completely, accurately-and that any research system which depends for its validity upon the intellectual capacity of the general public is doomed to inaccuracy.

Use Radio's Quotes

(3) If that is not the "convincer," he will go to the radio industry itself for more ammunition. No sales strategy is more effective than that which loads a salesman's guns with the other fellow's bullets. Among the supply of fireworks he will find in the radio trade press and other sources, he will exhume WNEW's magnificent, technically sound, experimental study of the BMB research formula (1944). He will quote directly from this study to prove, among other things, that "The mailed ballot inflates station circulation. People who are interested in the subject of a mailed questionnaire are more apt to answer it than are the disinterested." (BMB brushed off this one. It will live to haunt 'em!)

(4) The advertiser may say, "But, didn't Paul West, and Fred Gamble, and D. E. Robinson, George Gallup, Robert Elder, Donald Stettler, and a host of others, and the AAAA, and the ANA, put their stamp of approval on this research method?"

And the salesman will say, "I do not argue with God. But I wonder if any of these people would, in their own businesses, base a major decision upon the results of a mail survey. Certainly, I see no inclination on the part of professional researchers who have approved the BMB method to fire their personal interviewers and go into the mail survey business in a big way."

Mr. McGEHEE

formation you seem to need, and we'll save a lot of money.

"The primary base from which you estimate station circulations is this question:

'List below: the Call Letters of all Radio Stations which you or someone in your family listen to at home AT ANY TIME.'

"WE propose to send ballots to the same families, by the same research method and tabulating system, with only a minor change in the base question:

'List below: the Names of all Magazines which you or someone in your family read at home-AT ANY TIME'."

I don't think advertisers would want this to happen.

I don't think publishers, nor the radio industry, would want this to happen.

But, it could happen.

PROPER INSTALLATION OF TELEVISION URGED PROPER INSTALLATION of television sets in the homes of purchasers and instruction of these new owners in the operation of their video sets is "the greatest immediate problem facing television's advance," Irving Kane, president of Viewtone Television & Radio Corp., said last week at the

company's weekly dealer instruc-

tion series in television. Declaring that the number of dealers with sufficient knowledge to make good installations is still "far too few," Mr. Kane pointed out that no video set can be better than its installation. "A set that successfully passes the rigorous tests in the factory is useless unless properly installed in the home," he said. "Today," Mr. Kane stated, "the mass-produced television set is ready for the public. However, it is a sensitive instrument and can not be handled like a package item across the counter. Dealers must prepare themselves to follow up a sale by proper installation and service to keep a customer satisfied."

Free Radio Needed Says U.S. C.ofC. Unshackled Media Stressed In Released Booklet

VITAL elements in the American economic system are freedom of radio and the press, the U.S. Chamber of Commerce states in a booklet "The American Competitive Enterprise System," published last week.

"The American principle of determining merit and deciding policies through this interchange of opinion and experience has served to single out those measures having the largest promise for worthwhile achievement and to advance them to general adoption," the booklet says.

"In a socialist or dictatorial regime of abridged freedom of speech and of press, of predetermined economic action, and of prescribed education, these valuable springs of progressive thought and action are dammed up at the source. That these freedoms have flourished most freely under the competitive enterprise system is not accidental."

Part of Our System

Reviewing progress under private initiative, the booklet describes "radio with its diversified bill of fare," as one of "the items which our economic system has taken from the realm of luxuries and of undreamed-of conveniences and placed within the reach of the average citizen of present-day United States."

As to political freedom, the booklet recalls that foreign governments, in taking over major industries, also took over radio, newspapers and other publications. "Without controlling thought and ideas, a centrally-planned and operated economic system cannot be made to function effectively," these governments argued.

William K. Jackson, Chamber president, in a statement accompanying the report, said: "The American people plainly have spoken in favor of the free enterprise system. That system has given this country the highest known standard of living. The productive capacity of American enterprise was the decisive force for Allied victory in the World War II."

Hulten Elevated

CHARLES M. HULTEN, deputy director, Office of International Information & Cultural Affairs, State Dept., has been named deputy to William Benton, Assistant Secretary in Charge of Public Affairs. Also, G. Stewart Brown moves from assistant director in charge of areas, OIC, to former Hulten post; William R. Tyler, chief, Southwestern European Branch, European Area Div., OIC, succeeds Mr. Brown. Mr. Benton and Special Assistant John Howe left Nov. 15 for Paris to attend the UNESCO meeting.

November 25, 1946 • Page 31

(5) But if all this is of no avail, the salesman and his publisher, can and may go to advertisers with this proposition: "You evidently agree with the radio industry that BMB is directly comparable to ABC. In any event, you seem satisfied to measure the circulation values of printed media and radio, in a general way, at least, on the basis of ABC vs. BMB.

"We therefore propose to disband the ABC, and substitute the far less expensive BMB circulation measurement. You'll get all the in-

EVEN GODWIN DOESN'T HAVE SOAP, IT SEEMS ROBERT M. MENAUGH, superintendent of the House Radio Gallery, seldom misses Earl Godwin's commentaries on WMAL Washington. When he turned on the radio the other day, explaining to 3-yearold Judy that "Mr. Godwin will tell us about everything," Judy inquired: "Will he tell us where to get some soap, daddy?" The Menaugh family, like scores of other capital residents, was soapless.

Mr. Menaugh next day told the commentator about it. Mr. Godwin thought it was a good human interest story and he told it on the air the next night. Before his program was finished the Menaugh telephone rang. A neighbor offered a bar of soap. Again it rang. Another offered a box of soap flakes. And so on until the Menaughs had been offered several cakes of soap and boxes of washing powders.

Mr Menaugh called Mr. Godwin

Phipps Seeks FCC Permit For New Florida Station JOHN PHIPPS, owner of WTAL Tallahassee, Fla., station, licensee of the Capital City Broadcasting Corp., of which he is sole stockholder, has application pending be-

fore the FCC for a new standard broadcast station at Marianna, Fla. Mr. Phipps is president of the Westbury Securities Corp., which handles securities for the Phipps Estates, and is the grandson of the late Henry Phipps who, jointly with Andrew Carnegie, founded U. FAX IS DISCUSSED IN 'POST' ARTICLE

FACSIMILE broadcasting "has developed fast but with curious results," Robert M. Yoder writes in an article, "Will Your Newspaper Come by Radio?" in the Saturday Evening Post for Nov. 23. "The equipment for facsimile," he states, "is considerably ahead of the plans for utilizing it."

Describing the postwar facsimile system, Mr. Yoder says that the first message sent over it might appropriately have been "It's wonderful but what good is it?" He continues: "For home printing arrived bringing a wagonload of questions; it is something as if the violin had been built before there were any violin players. Only the broad possibilities are clear and they are subject to a host of 'ifs.' "A newspaper so printed and distributed would have no need for the giant presses now used or the pressmen; no need for linotypes or for any type, unless the original editions are set in type; no need for the fleets of trucks which now distribute the papers; no need for newsboys and corner newsstands. But who pays for the receiving sets in subscribers' homes? The engineering, as is so often the case in this off-phase century, is several laps ahead of the economics."

WSIX gives you all three: Market, Coverage, Economy

Soap Availability at Increased Cost Seen Altering Theme of Air Messages

SOAPS, always among the most heavily radio-advertised products, may be given even more extensive radio promotion in the months to come, now that the soap manufacturers are faced with the problem of explaining drastically increased retail prices to housewives.

It was repeatedly pointed out, however, that not enough time has elapsed since the removal of ceilings on soap products for specific plans to be made. Despite the fact that soap makers can now increase their prices to compensate for the increases in their costs for materials and labor, there is still a lack of fats that will keep the soap shortage with us for some time to come, and that will also have its effect on advertising.

One immediate effect of the lifting of ceilings on soap prices was a quick change in the Procter & Gamble Co. spot campaign for Dash in the West to eliminate the jingles to "Buy Dash and Save Cash," which seemed hardly in keeping with a 60% price rise.

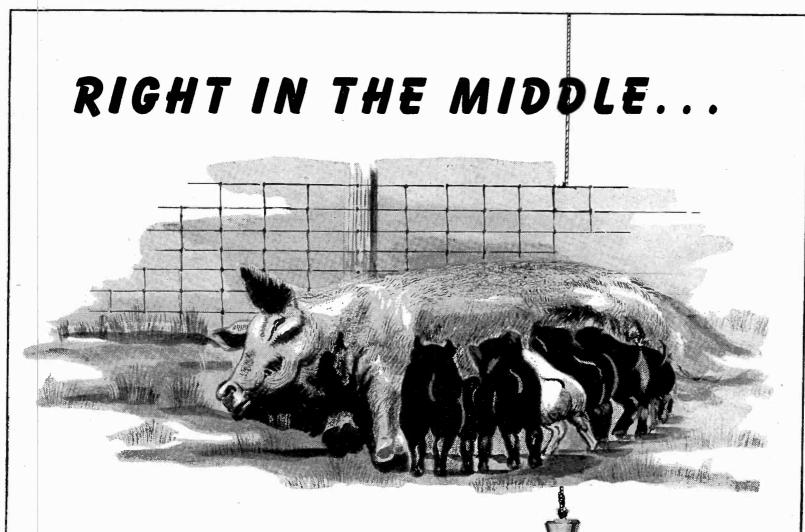

It is reported that another immediate effect of the ceiling removal was to halt copy changes from soaps to detergents and other "soapless soaps" on the part of several companies. Where such a change had been made, as in the case of Colgate-Palmolive-Peet Co., which had switched its radio spot copy from Supersuds to Colgate Dental Cream, it is believed that it may be changed back and the spot schedules maintained. Supersuds agency, William Esty & Co., said however that it has as yet received no directions for any changes in the product's radio advertising.

NEW STUDIOS of KWK St. Louis are to be located in the former Mississippi Valley Trust Co. Bldg., bought for \$100,000, Robert T. Convey, station president, announced.

Randau Quits Post With Field Group John J. Padulo Takes Over As His Successor

CLEM J. RANDAU, director of Field Enterprises, and right-hand man to Marshall Field, multimillionaire merchant, publisher and broadcaster (WSAI WJJD KOIN KJR) resigned his position Nov. 16 to pursue what he declared were "certain other plans which I have been unable to advance while giving full time to *The Sun.*"

In making known his severance with *The Chicago Sun* and other Field interests, Mr. Randau waited until the shock of the wholesale housecleaning on its staff (Bascom Timmons, Washington bureau chief, Warren Brown, sports editor, 144 others) had subsided.

In announcing Mr. Randau's resignation, Mr. Field, on page 2 of *The Chicago Sun*, said he "regretted" Mr. Randau's departure.

"His work has contributed greatly to the progress made by *The Sun.* He was also largely responsible for acquiring and building up our radio stations," Mr. Field declared.

The Chicago publisher said Mr. Randau had "sometime ago" expressed a desire to resign but that he had agreed to remain while certain planned organizational changes, now effected, were being carried out.

Mr. Randau's successor will be his assistant, John J. Padulo, who joined *The Sun* in 1941 as comptroller and was appointed his assistant in 1945.

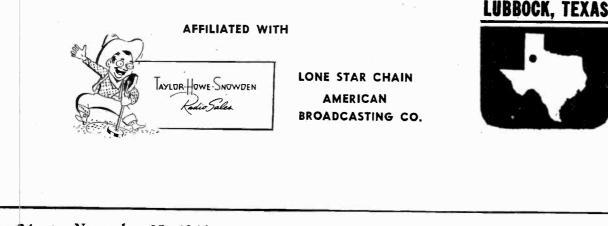

Mr. Randau joined *The Sun* in 1942 and in 1944 became vice president and director of Field Enterprises. Prior to that he was vice president and general business manager of UP.

While Mr. Randau said he was not yet ready to announce his future plans, he told BROADCASTING it "may well include" an interest in radio.

CBC Is Taxed

TORONTO CITY COUNCIL has decided to ask the CBC to pay taxes on its properties in Toronto, Mayor Saunders of Toronto has announced. Government property is tax exempt in Toronto, but with tax exempt property growing annually, city council has decided to

Fight on Exception Clause Pressed

Segal's Plea Expanded As WGAR-WADC

Case Is Argued

FCC, sitting *en banc*, was told anew last week that it should eliminate any proviso or exception clause from its AM multiple ownership rule (Sec. 3.35).

Paul M. Segal of the Washington law firm of Segal, Smith & Hennessey, whose petition to amend the rule is pending before the Commission [BROADCASTING, Oct. 28], expanded his plea for amendment during oral argument on the WGAR Cleveland-WADC Akron case for 50 kw on 1220 kc.

In a supporting brief, Mr. Segal argued that the duopoly rule in its present form "is contrary to the policy of free competition"; is "void because of its uncertainty and is destructive of the administrative process," and is not "in accord with FM and television regulations on multiple ownership."

Philip J. Hennessey Jr., Mr. Segal's law partner, supported the amendment bid in the course of argument on FCC's proposed decision on the now-famed Ashbacker-Fetzer case, heard in the same session Wednesday. Mr. Segal appeared for WADC, in whose behalf he also filed the petition to strike the exception clause from the duopoly rule; Mr. Hennessey appeared for Ashbacker Radio Corp. (WKBZ Muskegon, Mich.).

In its proposed decision on the WGAR-WADC case the Commission had held that other factors outweigh common ownership and overlapping service of WGAR and WJR Detroit and justify a grant of WGAR's application for 50 kw on 1220 kc and denial of WADC's request for the same assignment [BROADCASTING, Oct. 14]. Similarly, FCC proposed to grant Fetzer Broadcasting Co.'s application for a new 250 w Grand Rapids station on 1230 kc (WJEF) and to deny WKBZ's bid to change to that frequency, despite overlap between WJEF and Fetzer's WKZO Kalamazoo [BROADCASTING, Sept. 23].

Network Factor

Louis G. Caldwell of the Washington firm of Kirkland, Fleming, Green, Martin & Ellis, appearing for WGAR, and Percy H. Russell Jr. of the same firm, for Fetzer Broadcasting Co., insisted that FCC's proposed decisions in the respective cases were correct and that waivers of the duopoly rule were justified by the facts.

Mr. Caldwell noted that Mr. Segal's remarks included no mention of the "Blue Book issue" on which

Cash farm income in North and South Dakota was 22 per cent* higher during the first seven months of 1946 than in the same period of 1945, when all previous records for farm income were broken.

Tremendous Government payrolls will further swell buying power in the Dakotas, as work progresses on the giant Missouri Valley development projects a development calculated to cost six billion dollars within the next few years.

Folks here in the Northwest are among the nation's most prosperous—and their prosperity is growing faster than in any other region of the country.

For over twenty-one years the people of the Great Northwest have been turning to KFYR for the best in service and entertainment. No other medium can reach all of them at once. No wonder, then, that more and more advertisers are turning to KFYR. There are still a few availabilities open. Any John Blair man will give you the whole story.

Sheaffer on CBS

W. A. SHEAFFER PEN Co., Fort Madison, Iowa, Jan. 11 starts sponsorship of *The Adventurers' Club* on full CBS network, Sat. 11:30 a. m.-12 noon. New program replaces *Give and Take* show sponsored by Chef Boy-Ar-Dee Quality Foods. Agency for Sheaffer is Russel M. Seeds Co., Chicago, while McJunkin Adv., Chicago, handles Chef Boy-Ar-Dee.

it has been speculated that he will base a court appeal if the proposed decision is made final. One of the factors contributing to the decision favoring WGAR was that WADC planned to broadcast the entire schedule of CBS, which FCC felt would make the station a "conduit" for network programs.

Asked by Comr. C. J. Durr whether he felt the Commission should not consider the past or proposed programming of either station in deciding the case, Mr. Caldwell said his position on the Blue Book was "well known" but that if it were made a yardstick in other cases it should also be applied in the WGAR-WADC case.

Mr. Segal contended that the proviso clause leaves the multiple ownership rule "meaningless" because it says, in effect, that "public interest, convenience and necessity forbid multiple ownership unless public interest, convenience and necessity require it."

Comr. E. K. Jett took exception to his reference to the rule as "meaningless," and pointed out that Cleveland and Detroit are separate metropolitan areas and that there are other stations in Cleveland besides WGAR and others in Detroit besides WJR.

Mr. Segal said it is "more vicious" that the same owners are permitted to operate two stations in contiguous areas; asserting that thereby they secure more coverage than would be possible with a single 50 kw station.

Favors Separation

Asked by Acting Chairman Charles R. Denny Jr. whether he would require separation of ownership of WGAR and WJR even at their present power assignments. he replied, "Yes, I would-not that that's my business." When Mr. Denny suggested that the Commission has been "more lenient" in its interpretation of the multiple ownership rule regarding instances of common ownership that existed when the rule was adopted than with "new situations," Mr. Segal suggested that greater leniency should not be granted simply because an applicant has an "investment."

Broadcasting's Greatest

TIGHEST quality AM performance at lowest possible operating cost-these are key features of General Electric's new 250-watt AM Transmitter.

Advancement in Transmitter Economy for Local AM Stations

In designing the BT-20-A, G-E engineers have pooled the vast facilities of General Electric to give standard-band broadcasters an economical transmitter with every electrical and mechanical feature worth its cost. Circuits are simplified. Gadgets and tricks are eliminated. Numbers and types of tubes are reduced-yet performance of the BT-20-A matches that of high-power transmitters. Ask your G-E broadcast sales engineer for the facts or write to the Electronics Department, General Electric Company, Syracuse 1, N.Y.

Rear view of the BT-20-A with door open

> Type BT-20-A (front view of transmitter)

Look at this!

Greater Program Satisfaction

Very low distortion • Excellent frequency response • Double-ended a-f circuits with stabilized degen-

Greater Program and Personnel Protection

Modern, high-speed overload relay protection system similar to transmitters of high power • Quiet air blower reduces internal cabinet temperature • Filter eliminates trouble-causing dust • Electric door

Greater Accessibility

Easy-to-get-at with modified vertical chassis construction • Full-length doors, front and rear • Completely self-contained with power supply and antenna matching network and harmonic filter •

erative feedback • Electrical specifications fully meet all FCC and latest proposed RMA standards.

Greater On-the-Air Reliability

Advanced-type crystal oscillator attains new level in frequency stability • Oscillator uses duplicate temperature-controlled and hermetically-sealed crystals with instantaneous transfer switch • Ceramic coil forms in all r-f circuits • G-E vacuum capacitor tuned. interlocks and mechanical grounding switches for greater personal safety.

Greater Operating Economy

Substantial savings in power bill (measured power input only 1300 watts at average program level; only 1550 watts at 100 per cent modulation) with figures that invite comparison • Forced air-cooling and clean interior cuts maintenance • Lower tube replacement costs.

Compact space-saving design; only 75" high, 30" wide, and 25" deep.

Greater Beauty

Styled to fit every modern station • Brushed stainless steel trim • Baked synthetic enamel with beautiful opalescent pattern effect.

Greater Investment Value

Low initial cost • Low operating cost • Low obsolescence factor,

Segal Plea

(Continued from page 36)

to unjust results. He submitted a summary of previous FCC actions on cases in which overlapping service of commonly owned stations was involved (see story this issue).

In the Ashbacker-Fetzer case, Mr. Hennessey argued that "both cardinal requirements" of the duopoly rule exist in connection with the Fetzer application-common ownership of two stations and overlap of service between the two -and that therefore the application for the second station should be denied.

To the proposed decision's finding that more equitable distribution of radio service would result from a grant to Fetzer, he replied that nevertheless, under the proposal, "Muskegon remains a one-station city, while Grand Rapids becomes a three-station city." A grant to

Ashbacker to change the frequency of WKBZ, he said, would vacate WKBZ's present assignment (1490 kc) and permit its use by a new station.

The Ashbacker-Fetzer case originally went to the Supreme Court, where Segal, Smith & Hennessey won a decision finding that FCC erred in granting the Fetzer application and simultaneously setting Ashbacker's for hearing. A consolidated hearing was held last April.

In support of the proposed decision, Mr. Russell maintained that no overlap exists between WJEF and WKZO at night, that WJEF has "no listenable signal" in Kalamazoo either day or night, and that Grand Rapids listeners must "shop around" to get satisfactory reception of CBS programs except from WJEF.

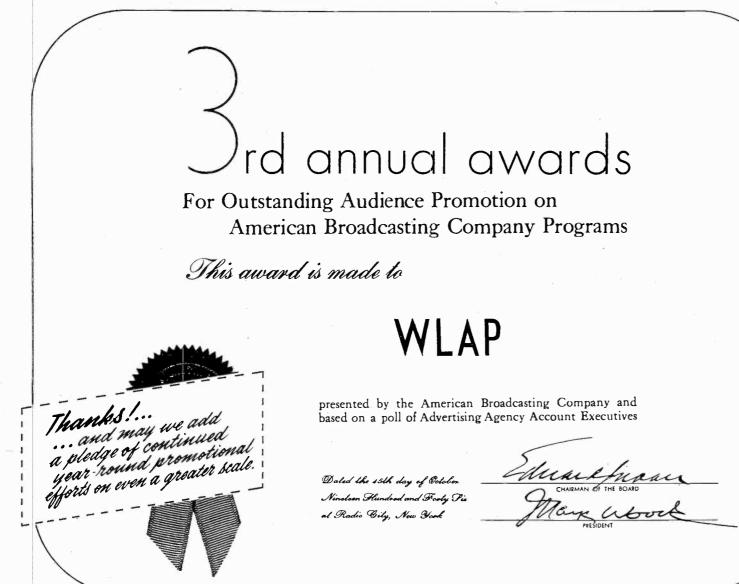

CKOV Kelowna, B. C., now is publishing its four page news magazine "The Okanagan Broadcaster" on a monthly basis.

FROM SOUTH AFRICA came Miss Hermien Dommisse, shown conferring with Davidson Taylor, CBS vice president and director of programs. Active in radio and newspaper work in Capetown and Johannesburg, Miss Dommisse was sent to this country by South African government to study U.S.

radio methods.

Jack Benny Takes Over Hooper Lead

Comedian Is Followed by Hope And Charlie McCarthy

JACK BENNY jumped to first place from last report's ninth position among the first 15 evening programs listed in the Nov. 15 Program Hooperatings Report released last week, with Bob Hope second and Charlie McCarthy third.

Average evening sets-in-use reported were 31.9, up 2.2 from last report, up 2.5 from a year ago. The average evening rating was 10.2, up 0.4 from last report and up 0.8 from a year ago.

Average available homes were 79.7, up 1.0 from last report and up 1.4 from the same period last year.

The current total sponsored hour index was $71\frac{1}{4}$ as compared with 69¼ last report, 82 a year ago.

The first 15 evening programs as listed were: Jack Benny 27.2, Bob Hope 26.7, Charlie McCarthy Show 25.5, Fred Allen 25.2, Fibber Mc-Gee & Molly 24.7, Red Skelton 24.1, Radio Theatre 21.9, Amos 'n' Andy 21.1, Walter Winchell 20.8, Mr. District Attorney 20.3, Screen Guild Players 19.7, Bandwagon 19.2, Great Gildersleeve 16.1, Judy Canova 16.5, Fannie Brice 16.1.

Right to Happiness led the list of the top 10 weekday programs in the Nov. 15 report with When a Girl Marries in second place and Aunt Jenny in third.

Day Sets in Use

Average daytime sets-in-use reported were 15.7, down 0.3 from last report, down 0.7 from a year ago. Average daytime rating was 4.5, up 0.4 from last report, up 0.1 from last year.

Average available homes were 68.9, down 1.3 from last report, down 3.5 from a year ago.

The current total sponsored hour index was 8534, as compared with $83\frac{1}{2}$ last report and 89 a year ago.

The top 10 weekday programs listed were: Right to Happiness 7.7. When a Girl Marries 7.4. Aunt Jenny 6.9, Stella Dallas 6.8, Ma Perkins (CBS) 6.8, Lorenzo Jones 6.6, Young Widder Brown 6.6, Romance of Helen Trent 6.6, Breakfast in Hollywood (Kellogg) 6.5, Pepper Young's Family 6.4, Portia Faces Life 6.4.

Landon, technician, who joined KDKA in February 1921.

FM Pioneers in South Cited; Essex Traces WMIT's Growth

EDITOR, BROADCASTING:

Like A. J. Fletcher of Raleigh, whose letter appeared on page 28 of the Nov. 11 issue of BROADCAST-ING, I noticed that picture in the Oct. 28 issue, showing Messrs. Peace and Whitmire of WFBC in Greenville, S. C., signing a contract for an FM transmitter, and questioned (to myself) the correctness of the statement in the caption that it was contract for the purchase of the "first 50 kw transmitter in the South."

Since it is evident by your publication of both the photo and the letter that you believe your readers are somewhat interested in the history of FM in the South, it occurs to me that a little additional information may serve to fill in some gaps.

First in South

"First on the air in the South" honors probably belong either to WSM-FM in Nashville or WBRL in Baton Rouge—I'm not sure which. According to my information, WSM-FM began broadcasting on March 1, 1941. I don't have a date on WBRL, but they got going along in those early days, also. [Editor's Note: FCC records show that WBRL's license to cover construction permit was issued Nov. 18, 1942. Station had been on prohad been able to deliver up to that time.

The 50 kw amplifier was completed at the factory shortly thereafter, but with a war in full swing, the government decided that all such equipment should be held for possible use by the armed forces. So it was warehoused in Schenectady, until June 1944, when the Navy took it over and shipped it to North Africa, where it was used in jamming radio equipment used by German bombers.

Following the war, and the reallocation of FM frequencies by the Commission, moving WMIT from 44.1 to 97.3 mc, Mr. Gray's contract with GE was revised to cover a complete new 50 kw transmitter, which will provide the 200,000 watts e.r.p. now authorized for the station. Meantime, while awaiting delivery of this new equipment by GE, an interim operation on the high band was begun on March 1, 1946, using a 1 kw convertor purchased from REL. Thus, since March 1 of this year WMIT has been on the air on both 44.1 and 97.3 mc.

The transmitter of WMIT is located on a mountain top, a mile and a quarter above sea level, in order that the station might serve a greater area, rural and urban, beyond any

?

There is nothing more reassuring to a time buyer than the realization that he has bought the right station in a desired market.

NBC top shows, 5000 watts power day and night, and 790 kilocycles assure WMC as the first station in Memphis, beyond any doubt. *

* For years, Hooper reports have verified the above statement.

-the station with the billion dollar market area

gram tests.]

On July 25, 1941, Gordon Gray, owner and operator of WMIT, Mt. Mitchell, "Pioneer FM Station of the Southeast," signed a contract with the General Electric Co. for a 50 kw FM transmitter for that station (then designated as W41MM). Construction of the transmitter plant was begun the following month. On June 1, 1942, the station went on the air with 3 kw temporary reduced power, thus making use of all of the transmitting equipment the manufacturer

Fred Jones Group Asks FCC to Rescind Grant to KMBC for New Kansas Station

FRED JONES and associates in Fred Jones Radiocasting & Television Co. petitioned FCC last week to set aside its grant to KMBC Kansas City for a new station at Concordia, Kan., claiming they filed a mutually exclusive application earlier in the afternoon the day the Concordia grant was made.

The petition said the Fred Jones company filed its request for a new Oklahoma City station on 550 kc with 5 kw day and 1 kw night "about mid-afternoon of Oct. 31, 1946," and added:

"Petitioners are advised and believe that, late in the afternoon of Oct. 31, 1946, after their said application had been received by the Commission, the said application of the Midland Broadcasting Co. [KMBC] was granted by the Commission without a hearing and

50 KW on 680 KC

dayfime coverage

without regard to the mutually exclusive application of petitioners."

The KMBC grant was for a 5 kw daytime station on 550 kc at Concordia, to be programmed primarily from the KMBC studios in Kansas City approximately 170 miles away [BROADCASTING, Nov. 4]. The Fred Jones petition characterized the station as "sort of a 'booster,' although utilizing a different frequency."

Filed by Lovett

The petition, filed by Eliot C. Lovett, Washington counsel for the Fred Jones company, contended that the KMBC application "was accorded action ahead of many applications which were filed prior thereto and which were, apparently, of comparable complexity. However, in Public Notice . . . dated

Asking that the KMBC grant be set aside and the application designated for consolidated hearing with theirs, the Fred Jones group said they will be able to show that their proposed operation will be more in the public interest than the Concordia operation.

The petition said the Fred Jones application had been in process of preparation since before Aug. 15. It carried an affidavit of George E. Gautney, Washington consulting radio engineer, asserting that the two applications are mutually exclusive.

Associates of Mr. Jones in the Oklahoma City firm are C. A. Vose, Streeter B. Flynn, and Dan W. James. Mr. Jones and his wife own KFMJ, new station at Tulsa, and have a grant for an FM affiliate.

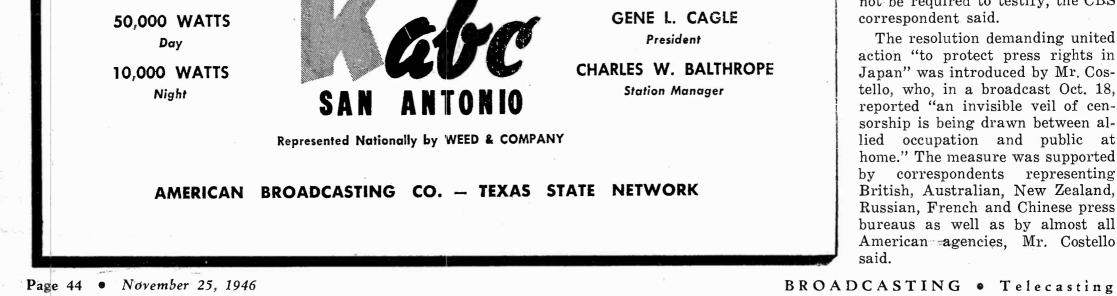

CENSORSHIP BY ARMY JAPAN IS CLAIMED IN

REPORTED apprehension among foreign correspondents in Tokyo about their status in a country under military occupation resulted Nov. 14 in a plan for united action against "repeated efforts by high American Army officers to restrict news coverage in Japan."

Bill Costello, chief of CBS' Far Eastern Bureau, cabled his network that "newspapermen and women representing seven countries voted 38 to 9 to authorize the Executive Committee of the Tokyo Correspondents club to act as guardians of press freedom."

Gayn Summoned

The action was taken after Mark Gayn of The Chicago Sun was summoned to General Headquarters last month and ordered to disclose the source of information in an article he had written. He was told by Army authorities that he could not inform publishers of the matter or obtain legal counsel, Mr. Costello reported. Less than an hour after a delegation of Tokyo foreign correspondents protested the action the matter was dropped, and Gayn was told that he would not be required to testify, the CBS

IMN Revenues Up 300%, Meyer Tells Network Group at Salt Lake Session

INCREASE of 300% in Intermountain Network revenues is a healthy sign of greater industrialization of the four-states area served by IMN, Lynn L. Meyer, sales manager of the network, told 40 representatives of IMN affiliates assembled in Salt Lake City Nov. 14, 15 and 16 [BROADCASTING, Nov. 18]. Mr. Meyer pointed out that the area served by IMN— Utah, Idaho, Wyoming and Montana—is attracting many new industries, including U. S. Steel.

Meanwhile, George C. Hatch, IMN general manager, announced that increased emphasis is to be placed on public service programs, with special efforts to extend IMN's listener interest in rural areas.

Ever-improving MBS service for

IMN stations was pledged by Carl Haverlin, who addressed the regional network representatives at luncheon Nov. 15. Mr. Haverlin stressed the MBS policy of providing local programs for the local market. "The public likes its radio programs slanted for local interest, just as they want local and regional interest in their newspapers—above national and international news," he said.

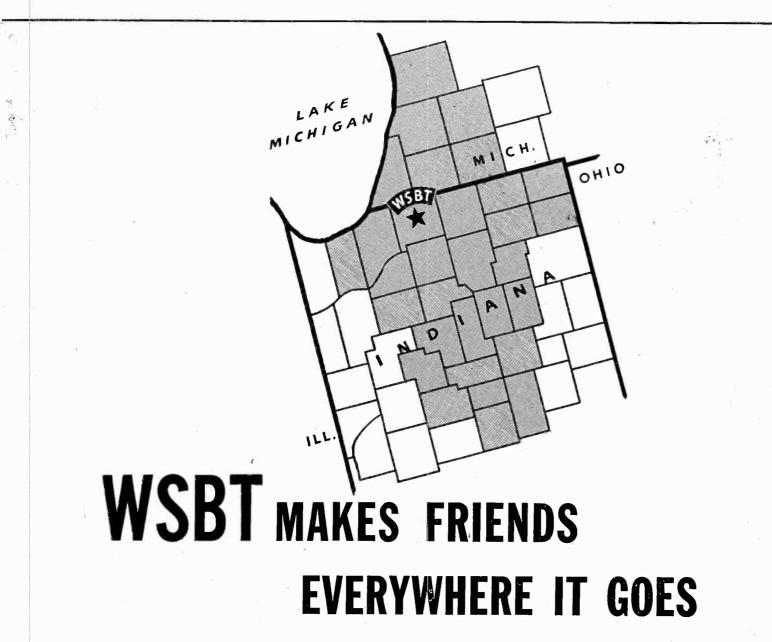

Both Mr. Haverlin and Jim Mahoney, MBS Western Division station relations chief, expressed satisfaction over the opportunity to meet with owners and managers of the full IMN group. "We're extremely hopeful that similar regional gatherings can be arranged at strategic geographical spots

Champion Potato

TOM MURRAY, farm service director of WHAM Rochester, N. Y., now possesses a huge 4 lb. 12 oz. Sequoia potato. It all started when he read on the air of Maine's challenge to Idaho with a potato weighing 4 lb. 5 oz. The Sequoia potato was sent to Mr. Murray by Edward Krenzer, Honeoye Falls, N. Y., on whose farm it was grown, and Harlan Moffett, in whose store it was weighed. It measures 22 inches by 17.

throughout the nation," Mr. Mahoney said. "They are of inestimable value to network representatives who must gain an ever-closer understanding of station problems at the grass roots."

The IMN sessions were held at

WSBT is popular throughout its *entire* coverage area. Consistent mail response comes from listeners in *every* WSBT county. Current mail—addressed to 45 programs—is rethe KALL studios, the Hotel Utah and Salt Lake *Tribune-Telegram*. Separate meetings of members of IMN's Utah, Western Idaho, Eastern Idaho, Wyoming and Montana affiliates were followed by joint sessions highlighted by an inspection tour of new IMN news broadcast facilities in the *Tribune-Tele*gram building.

IMN's meeting was one of the first major radio gatherings ever held in Salt Lake City. Representatives of IMN affiliates in attendance were:

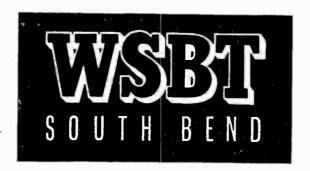

Reed Bullen, KVNU Logan, George Morgan, KLO Ogden, Jack Richards, KOAL Price, Alvin Pack, KALL Salt Lake, and Cliff Talboe, KOVO, Provo, all in Utah; Frank Hunt, KFXD Boise-Nampa, Charles Crabtree, KVMV Twin Falls, Calvin Hale and Frank Bistline, KEYY Pocatello, Joe Gesas and Norris Gesas, Idaho Falls Broadcasting Corp., and Arch Madsen and Cecil Hart, KID Idaho Falls, all of the Idaho group; Harold McCracken, KVRS Rock Springs, Donald Hathaway, KDFN Casper, Jim Carroll, KWYO Sheridan, and A. J. Meyer, KPOW Powell, all in Wyoming, and Don Tannehill, KJRF Miles City, and Franz Robischon, KBMY Billings, representing Montana.

New Manager and News Editor Named at WJBW

APPOINTMENT of Cy Newman as general manager of WJBW New Orleans has been announced by Charles C. Carlson, owner of the station. Mr. Carlson will act in an advisory capacity. Before joining the sales staff of WJBW last June Mr. Newman managed WSSV Petersburg, Va. Mr. Carlson, who formerly was chief engineer at his station, has taken on the title of consulting engineer and Karl G. Seibold has been promoted from chief operator to chief engineer.

Other staff changes have been announced at WJBW as follows: Jeff Hug, announcer, becomes news editor; Pat Shannon, who returned to the station in July after serving in the Merchant Marine, becomes assistant commercial manager; added to the announcing staff are Reid Upton, formerly with WSPA Spartanburg, S. C., WFBC Greenville, S. C., and WLAT Conwoy, S. C., Bill Thomas, formerly with WDAK Columbus, Ga., KNOE Monroe, La., and WDSU and WNOE New Orleans, Larry Bradford, formerly at WSMB New Orleans, and Vernon Beaudine, an ex-GI new to radio.

ceived from 33 counties and 101 towns. Wherever WSBT reaches, people listen faithfully, write consistently.

Seeks Union Council

THE executive council of the New York local of Radio Directors Guild is setting up a council of radio unions to discuss mutual problems, similar to the council formed recently on the West Coast. Unions so far asked to join the council are AFRA, RWG, IBEW, NABET, AFM.

Attracts All Youngsters

... Tots To Teen Agers

WTAG has done something about children's programs. There are six of them now locally produced by WTAG from "Fairy Tale Time", (one of the oldest, but for the youngest) to "Time for Teens", a show by and for Teen Agers. In between, right through the week, come "Happiness Unlimited" — the happy hunting ground for "kid" talent, "Mark My Word" — the Junior Town Meeting idea, "Safety Club" — with 5000 members all safety minded and backed by their elders' civic clubs far and near, and "Make Friends with Music" — a musical educational program which blossoms out with full scale concerts in Worcester's Little Theatre. CBS American School of the Air fills another niche. WTAG recognizes tomorrow's listeners as the audience of today. It is leadership of this kind that makes WTAG the greatest radio selling force in Central New England. No wonder more people listen to WTAG than to all other stations heard in the area combined.

INAUGURAL CELEBRATION of Kentucky on the March, a progressive program sponsored by the Committee for Kentucky, was participated in by 15 Kentucky broadcasters with educational, industrial, civic and labor groups, meeting in Louisville on Armistice Day. Program is to be broadcast throughout the state. Attending were (front row, 1 to r): Dorcas Ruthenburg, Dick Fischer, WHAS Louisville; Dewey Long, WKLX Lexington; Miller Welch, WLAP Lexington; Harry McTigue, WINN Louisville. Standing: Hecht Lackey, WSON Henderson; Elmer Sulzer, radio director, U. of Kentucky; J. Bertram Harmon, J. Porter Smith, WGRC, Louisville; C. H. "Red" Fleming, WFKY Frankfort; Harry Callaway, WHAS Louisville; Pruitt Lackey, representing Lackey stations, WPAD WHOP WKTM WSON WCIF.

ASCAP Wins 9-Year West Coast Fight Copyright Privileges Upheld; Licenses to Be Issued

ARMED with a Washington Circuit Court order upholding its copyright privileges, ASCAP last week announced it would issue licenses to Washington hotels, taverns and theaters which for the past nine years have refused to pay fees for ASCAP music.

The court order, returned by Judge J. F. Wright, climaxed a two-year legal procedure. In 1944, ASCAP filed suit for a declaratory judgment to affirm its compliance with a Washington state law of 1937 which regulates public performance of music for profit. The suit was filed after hotels, taverns and theaters had refused payments to ASCAP on the grounds that ASCAP was not complying with the 1937 law.

Radio broadcasters in Washington did not figure in the litigation; all have been paying ASCAP fees.

Speculation that ASCAP might attempt to collect retroactive fees from the hotels, taverns and theaters for the period of the litigation was characterized as uninformed by a Society spokesman in New York. This spokesman said that ASCAP's major concern, now that it had a court order in its favor, would be the issuing of li**CROSBY AND SPONSOR ARGUE ON MUSIC FEE** THE PHILCO Corp. and its \$30,000 per week star attraction, Bing Crosby, last week were still arguing over which ought to pay the royalty fees, amounting to from \$1,000 to \$1,200 per week, for music used on Mr. Crosby's transcribed programs.

Philco insists that the fees ought to be included in the Crosby package, which is reported to be costing \$30,000 per week. Since musical fees were not mentioned specifically in the Philco-Crosby contract, however, it was said, Mr. Crosby believes that Philco ought to pay.

The fee for every popular tune played on a transcribed show is 25 cents per broadcast per station, and for every show tune (music taken from a legitimate show or movie) 50 cents per broadcast per station. Mr. Crosby is heard on ABC stations and 200 others throughout the country. Eight to 10 tunes are played on each of his shows in addition to opening and closing themes. Thus the approximate weekly royalty fee totals between \$1,000 and \$1,200.

censes to establishments using music for profit to insure the collection of fees in the future.

The 1937 Washington state law insists that ASCAP and other groups which hold copyrights file with the state a list of all copyrights which they control. The hotels, taverns and theaters had alleged that ASCAP had failed to provide the necessary documents. It was to obtain a court acknowledgement that it had filed proper notifications that ASCAP instigated the suit. The three largest buyers of program time in Washington, D. C., nation's 7th-largest city, are ALL on WOL two on WOL exclusively!

Program Tests Started at WICY Malone, N. Y.

WICY Malone, N. Y., began program tests Nov. 4. Owned by North Country Broadcasting Co., WICY is 250 w AM station operating independently on 1490 kc with fulltime license. Studios and transmitter are in a re-converted home on the outskirts of Malone.

Mitchell C. Tackley, formerly a major in the Army assigned to War Department Bureau of Public Relations, and later in the State Department, is WICY production manager. Ralph M. Cardinal, of Malone, business man and ex-Army officer, is commercial manager, and Daniel W. Casey, formerly a captain in the radio branch of the War Department's public relations division, program director. Most other staff members are veterans. Charles Walker, formerly of WMSA Massena, N. Y., is chief engineer.

Bing Crosby Selected Captain Of Cleveland's 'Radio Eleven'

BING CROSBY again has been named captain of the Cleveland Plain Dealer's All-America Radio Eleven in the newspaper's 1946-47 Readers' Radio Poll. The crooner polled a three-to-one vote over his nearest rival, Bob Hope.

The poll was conducted in Cleveland and 91 other cities and towns in Ohio, New York and Pennsylvania, under direction of Robert S. Stephan, radio editor.

Besides Crosby and Hope, members of the All-America Radio Eleven are: Fred Allen (NBC); Arthur Godfrey (CBS); Edgar Bergen (NBC); Fred Waring (NBC); Kate Smith (CBS); Don McNeill (ABC); Red Skelton (NBC); Fibber McGee (NBC); Art Linkletter (NBC).

Other poll results were announced as follows:

NAB GROUP TO STUDY PROMOTION PROGRAM EIGHT-POINT industrywide pro-

motion program will be taken up today (Nov. 25) by the new NAB Sales Managers Subcommittee on Sales Promotion, meeting at 10 a. m. in the BMB Board Room, New York. Chairman of the subcommittee is John M. Outler Jr., WSB Atlanta, with Hugh M. P. Higgins, NAB assistant director of Broadcast Advertising, as secretary.

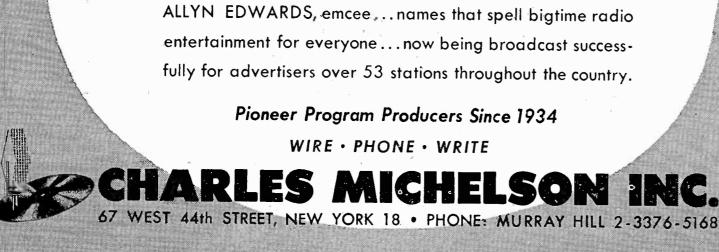

Proposals to come before the subcommittee include: Increasing the sale of extra home radio sets; preparation and distribution of prepared speeches for membership use; means to increase station tune-in; pre-tested ideas for station promotion; industrywide promotion projects for all stations, networks and representatives; greater radio emphasis by national advertisers; cooperation of stations in communities; recording and publicizing individual station performance in public interest.

Members of the new subcommittee, appointed a few days ago, besides Chairman Outler are: Joseph Creamer, WOR New York; Louis Hausman, CBS New York; John Carl Jeffrey, WKMO Kokomo, Ind.; Eugene Katz, Katz Agency, New York; Edward P. J. Shurick, KMBC Kansas City. Safety Discussions SERIES of roundtable safety discussions have been started by WHBC Canton, Ohio, with junior school police and deputy sheriffs appearing on program. Schools have set up merit system with a guest appearance on pro-gram as an award. Show is heard Sat. 12:15 p.m. Participants are presented certificates of merit and are guests of WHBC at luncheon following broadcast.

I Have Seven Alter Egos– All of Them Alike

We illustrate here the security of a radio station executive. He has the easy assurance of being well represented nationally through seven offices—just as if he were there himself.

Additional sales offices for national coverage are an advantage offered our stations by this company. However, we stress now as always not so much the *number* but the *quality* and the ability of the men who make these offices.

Their character, their intelligence and dependability give our stations reason for the assurance of success.

Time Will Tell

IS THE SEMI-commercial station about to make its bow?

Strange projects with Utopian plans for programming are being offered up these days. Some of them stem from a desire to curry favor by going beyond even the FCC's Blue Book intent. Others smack of crackpot schemes to get on the radio bandwagon and reap the profits afterward.

There's the report, for example that the Georgia Baptist Convention is being asked by its radio committee to apply for a state-wide chain of FM stations. That's all right, we imagine, if they apply for non-profit (which implies non-commercial) operation. But they say the stations "would carry enough commercial programs to repay their initial expenses and then would carry only enough commercial broadcasts to defray operating costs." Then there's the FCC grant last month to Rev. J. Harold Smith, who said he would sell time (to himself we suppose) for paid religious advertising.

Look at the radio records. You'll find there were 171 non-commercial educational (or religious) stations in the standard field in 1925. This number dwindled to a mere 30 a decade later. Some of the others folded, but most of them *became commercial stations*. They couldn't stand the no-profit gaff.

There are other aborning stations which are making extravagent commitments about limited commercials, no spot announcements, rigid limitations on the character of advertising accepted, and copy types. Certain of these may be well-intentioned; others pure publicity pap. When these novices find the going rough, they will sell out, or sell anything—before they give up the ghost.

Those who acquire stations under the nonprofit provisions of the statute do so with their eyes open. They should not expect an *open sesame* for full commercial operation after the trial run fizzles.

As for the grandiose gesture boys—those idealists who believe advertisers will spend business dollars to reach a smattering of starry-eyed garret-dwellers—time will tell; time that isn't sold.

How Do You Rate?

for improvement in commercial practices.

Certain no advertiser is interested in buying a station on the basis of rate alone. He wants audience. And the buying habits on both national and local levels, indicate that the sponsor exercises increasing care in selecting his outlets not only for coverage, but also for impact.

If low rates cause high commercialism, and subsequent loss of audience, the cure is obvious.

IF FRED ALLEN, during the frayed-cuff days when he was working vaudeville, had poked as much fun at the medium which provided his cakes-and-coffee, as he does today at radio, a long hook would have slithered out from the wings and dragged him to the exit.

From Stalin to Peron

REPORTS last week from Moscow and Buenos Aires give eloquent testimony to the difference between the free radio of the democracies and the "kept" radio of the dictatorships.

Russia has abolished broadcasts by radio correspondents. Dispatches can be sent "overhead" by radiotelegraph or "ordinary means of communication." Since the Soviet controls everything it is to be presumed that such transmissions are or can be scrutinized in advance.

Argentina, under Strong Man Peron, has reimposed radio censorship. All scripts for transmission abroad must be submitted in advance. The communications ministry calls it "previous intervention."

The authoritarian strongholds profess to allow full freedom. Yet they invoke ordinances obviously designed to withhold from the outside world what goes on within their borders. They also take pains to report to their own people that which they feel is useful and that which their own correspondents are free to obtain in the United States where they have full access to news.

It was largely because of the Argentine Government hot and cold attitude on a free, competitive radio that the Inter-American Broadcasting Assn. was organized in Mexico a few weeks ago by far-sighted Latin-American broadcasters. It was because the Western Hemisphere broadcasters, with the possible exception of Argentina, believe in a free radio that the state-controlled operations in the Soviet and Great Britain were precluded from participation. Besides they are not in the Western Hemisphere.

No explanations are given by either the Soviet or Argentina for their summary actions, usually exercised only in national emergencies. It must be assumed, therefore, that the muzzling of the microphones, is predicated

ROBERT EDMONDS KINTNER

HILE rubbing elbows with the abundant luxuries of Wall Street in pursuit of financial news for the New York *Herald-Tribune* about a dozen years

ago, an ambitious young reporter, only a year out of Swarthmore College, Pa., observed a depressing dissimilarity between the station of a novice newspaperman and that of a financier.

He was earning \$25 a week at the time. "I decided," he says, "that I wanted to go into business."

Last week, 12 years and two succesful careers later, Robert Edmonds Kintner was in business in an impressive way. At the spectacularly youthful age of 37 he had become executive vice president and therefore second in command of the American Broadcasting Co. [BROADCASTING, Nov. 18].

His salary, an ABC secret, doubtless is enough to arouse the admiration of even the Wall Street tycoons whom a scant dozen years ago he had envied. As No. 1 lieutenant of ABC, he exercises a predominant control over the destinies of an organization which last year counted more than \$40 million in gross time sales and which hopes soon to issue \$13 million worth of common stock to finance future growing. Even the graying eyebrows at lunchtime in Delmonico's downtown restaurant would rise slightly at the mention of figures like these.

Such robust fiscal matters do not, however, seem to disturb the rather studied casualness of Mr. Kintner, a man who has been dealing all his adult life with high finance, if not personally at least vicariously. He has come to look upon a million dollars with no more than passing respect.

As a financial reporter for the Herald-Tribune, a newspaper devoted to chronicling in unashamed admiration the wonders of big business ways, Mr. Kintner developed a desire to participate rather than observe. It took him about ten years to make the change, and before he made it he had become one of America's most famous newspapermen. Mr. Kintner had been covering financial stories in Washington for several years when, in 1937, the North American Newspaper Alliance, having lost its Washington columnist, Paul Mallon, to the Hearst press, solicited him and another Herald-Tribune reporter, Joseph Alsop, to write a column.

STUDY UNDERTAKEN recently by a consultant's firm indicates that rates of many stations are far too low, compared to the national average.

Could this not be the reason, the really basic reason, for what has been widely discussed as "excessive commercialism"? A low-rate station which has been slow in adjusting its schedule of income to the rising curve of costs must, by economic necessity, sell more time.

In selling more time, it jeopardizes the operation—or at least, so it would seem in view of recent research which indicates that about a third of our listeners feel that there is room

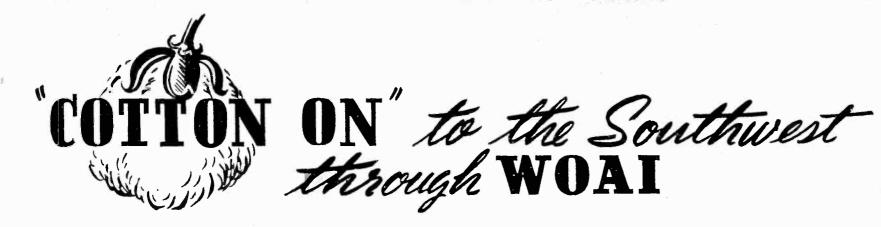

Page 54 • November 25, 1946

upon the wish to hide internal affairs from the world's gaze.

PM, the New York daily tabloid which long has been a sharp critic of advertising practices on radio, has decided to accept advertising—in order to survive. This proves that even an ostrich, with all those priceless feathers, can hold its head under the sand only for so long without suffocating. It also must prove that advertising has definite reader interest, since other liberal tabloids have done well in the same New York market circulationwise, even though they have been "commercial."

The Kintner-Alsop enterprise was an immediate success. The pair not only produced a daily newspaper column which was widely.

(Continued on page 56)

Cotton is still known as "King" in the huge Southwest Texas territory where approximately 1,400,000 bales will be produced this year, according to the Department of Agriculture forecast. This would mean well over \$100,000,000 worth of Cotton in 1946. Like other agriculturists, cotton growers are progressive these days, taking advantage of mechanization, pedigreed seed and WOAI's broadcasts of the weather, the market and other news particularly affecting farmers.

Mr. Robert M. Harper of Martindale, Texas, an outstanding cotton breeder of the South, who is in touch with cotton growers and knows their

necessities and difficulties, says: "Like all farmers in Southwest Texas, the cotton growers are indebted to WOAI for vital news on markets, weather and agricultural tips. I know from traveling around and talking with them that they use and appreciate this service. WOAI's broadcasts are especially valuable for weather and market news because daily papers, in many cases, reach the farmer too late to be of value for this information."

Yes, cotton is still "King" but it has many extremely strong "Barons" such as the tremendous oil industry, sheep and cattle ranching, the fabulously productive fruit and vegetable farms, a huge poultry industry and other agricultural enterprises existing and in the making.

WOAI is the only 50,000 watt, clear channel radio station serving this empire of the Southwest. Its policy is and always has been to serve its listeners with any news of benefit to them in their business and to provide the best of radio entertainment for their families. The success of this policy is well established by expressions of satisfaction from thousands of list-

eners who consistently follow its programs.

Bill Shomette, WOAI's Farm and Ranch Director, Robert M. Harper and Henry Howell, WOAI Farm and Market Reporter

(Continued from page 54)

circulated, but also wrote regularly for the Saturday Evening Post.

In 1938, they published a collection of their *Post* articles in a book called Men Around the President. Mr. Kintner describes it now as "the bad-selling book," a description apparently intended to mark the difference between it and one which they wrote two years later.

The second book was called American White Paper, and it sold 250,000 copies, a number large enough to impress even Mr. Kintner. American White Paper disclosed theretofore unpublished reports of the government's maneuvering in the years of tension preceding World War II. It created enough discussion to establish the team of Kintner and Alsop as two of the most sedulous bloodhounds of the American press.

The next year the team retired from column writing in deference to a more pressing necessityservice with the armed forces. Mr. Alsop joined the Navy. Mr. Kintner became a captain in the Army's G-2, a forbidding domain of hypersensitive secrecy where Mr. Kintner, an unreconstructed reporter, admits he did not feel at home.

He eventually was assigned to join Gen. Dwight D. Eisenhower. then commander in North Africa,

NOTHING"HICKEY" ABOUT US HICKS!

Yessir, us hayseeds out in the Red River Valley are just as dis-criminatin' as anybody! We prefer better radio programming by even wider margins than you city slickers do. Here. for instance, is the way our people listen to WDAY, Station B, and Station C, according to thelatestConlanSurvey:

> WDAY GETS 61.4% OF THE AUDIENCE IN ITS COVERAGE AREA

> > STATION B GETS 9.5% OF THE AUDIENCE

as public relations officer. The plane bearing him to Dakar was jolted in an air pocket, and one of Mr. Kintner's ears, injured in the sudden loss of altitude, became infected. He spent the next several months in Army hospitals. Upon his recovery he became executive officer to Maj. Gen. Alex D. Surles, chief of the War Dept. Bureau of Public Relations.

His service with the Bureau of Public Relations won him the Legion of Merit. He was discharged, for medical reasons, as a lieutenant colonel in September 1944. On Sept. 15, he was elected a vice president of ABC.

Mr. Kintner's emergence as a radio executive was sudden and, he says, unexpected. Before leaving the Army, he had been planning to resume his newspaper column. A somewhat mysterious figure whom Mr. Kintner describes as "a friend" invited him to lunch with Edward J. Noble, chairman of the board of ABC. The invitation was to more than lunch.

"Ed said: 'Why don't you come into radio,'" Mr. Kintner recalls. In no time he was a vice president. He was at first in charge of the network's public relations; later he took charge of news and special events as well.

Mr. Kintner's election as executive vice president was as sudden and unexpected, he says, as his first association with ABC. During a meeting of the ABC board, of whom he is a member, Mr. Kintner was asked by Mark Woods, president of the network, to leave the room.

Mr. Kintner, who is not a taciturn man, was struck speechless by this strange request, and obligingly stumbled from the chamber. In a moment, Mr. Woods called him back, During his brief absence he had been elected as Mr. Woods' chief lieutenant.

Since his association with ABC. Mr. Kintner has become known as the executive who is first to arrive at the office in the morning and last to leave at night. His normal hours are 9 a.m. to 7 p.m., but often he stays on, particularly if important news is breaking. A good news story draws him to the ABC newsroom as a fat pheasant attracts a hound.

His assiduous preoccupation with business probably discourages his wife, the former Jean Rodney, who was a theatrical producer before she married Mr. Kintner. They met in 1939 when she brought a Broadway company to play Outward Bound in Washington. They were married Jan. 11, 1940. They have a daughter, Susan, age 3½. Mr. Kintner was born in Stroudsburg, Pa., Sept. 12, 1909, and attended grammar and high school there. He belongs to no clubs, and his hobbies are few. In the summer he plays tennis. Winters he often attends the theater, his interest in the stage being doubtlessly whetted by his wife.

ABC's McDONALD

New American Vice President -Formerly with NBC-

AT THE same time that Robert E. Kintner was elected executive vice president of ABC (see sketch page 54), Joseph A. McDonald, general attorney and secretary of

the network, was elected a vice president.

Mr. McDonald. a graduate of Webb Institute of Naval Architecture, Fordham Law School, and possessor of a master of laws degree from New

Mr. McDonald

York U., joined ABC in February 1945. Before that he had been with NBC. He joined the NBC legal department in 1932, became the NBC central division attorney, at Chicago, in 1937, returned to New York as assistant general counsel of NBC in 1943. He is a director of Broadcast Music, Inc.

Hour Movie Quiz Is Set In WOR Saturday Spot

A. L. S. Co., New York radio production firm, has sold a new hour quiz show, Movie Matinee, to WOR New York, scheduled to start Nov. 30, 2-3 p. m. Program will consist of questions and answers dealing with the film industry and features Bill Slater as m.c. Scripts are written by Wilbur Stark, vice president of A. L. S., and his wife, known professionally as Kathleen Norris. Show is available for sponsorship.

Firm also reported it is negotiating with ABC to air another of its shows The Con Man, featuring film actor Charles Coburn, scheduled to start about Jan. 1. Rights have been acquired by A. L. S. to do program series on Upton Sinclair's Lanny Budd-Presidential Agent, which will feature Franchot Tone, Nancy Drew and The Bobbsey Twins.

Many smart advertisers are on ABC Eversharp-Schick, Philco, Swift & Co., Carter Products, Derby Foods, Richard Hudnut and the Hastings Manufacturing Co. all recently bought new or additional time on ABC. U. S. Steel, General Mills, Westinghouse, Kellogg, P & G and many more have renewed their contracts for another year. Why? ABC reaches 22,000,000 radio families - at economical rates that make possible a low cost per thousand listeners. More important, ABC sells. If you have a product to sell nationally, follow America's smart advertisers and nail down a franchise nom on ABC.

ERBERT T. ANDERSON, program di-HERBERT T. ANDERSON, program di-rector of WTSP St. Petersburg, Fla., has been promoted to general man-ager of that station. IRWIN A. SIMPSON, who has been acting in the joint capac-ity of president and general manager, continues as president. Mr. Anderson joined WTSP in 1942, becoming chief announcer the following year. After serv-ice with Army Signal Corps during the war, he returned to station as program director.

CAPT. PIERRE BOUCHERON, manager of WGL Fort Wayne, Ind., was main speaker at November meeting of the Association of Metal Engineers. He spoke on his war experiences in Greenland.

ROGER W. CLIPP, general manager of WFIL and WFIL-FM Philadelphia, has been elected vice president of the Philadelphia Convention and Visitors Bureau of the Chamber of Commerce and Board

of Trade. He also has been appointed to the board of governors of the Philadelphia Forum.

GARLAND W. POWELL, station director of WRUF Gainesville, Fla., has been appointed a member of the Foundation Committee of Rotary International for fiscal year 1946-47.

CLARENCE L. MENSER, NBC vice president in charge of programs, Nov. 20 participated in roundtable discussion at National Conference on Prevention and Control of Juvenile Delinquency in Washington.

WALTER J. BROWN, manager of WSPA Spartanburg, S. C., was caller at White House morning of Nov. 15 with Rep. Paul Brown (D-Ga.) and L. S. Moody, secretary of Augusta, Ga., Chamber of Commerce Commerce.

ROBERT A. KELLEY, station manager of WKXL Concord, N. H., has been named assistant basketball coach for St. John's High School, Concord. Basketball star in his school days, Mr. Kelley for 13 years has been nationally approved basketball official. He helped coach Burlington High School group while managing WCAX Burlington.

RALPH K. MADDOX, program director of WFAA-KGKO Dallas, has been appointed manager of

Mr. Maddox

KRIC Beaumont, Tex., effective Dec. 1. Active in radio for 16 pears, Mr. Maddox previously had been with WJDX Jackson, Miss., and production director of NBC Central Division.

EARLE J. GLUCK, president and general manager of WSOC Charlotte, N. C., has present-ed to the Charlofte

and Macklenburg Public Library a portable record and transcription player to further objectives of the library's visual-audio aid department.

BURTON BOATRIGHT, general manager of KWTC Barstow, Calif., is on active Navy duty as captain until Dec. 2, serving with special amphibious group at Coronado, Calif.

Radio Set Output At Alltime Record Sharp Upswing for October In Models With FM

ALLTIME monthly record for radio set production was broken in October, Radio Manufacturers Assn. announced Friday. October output of RMA members (over 90% of entire industry) totaled 1,678,444 compared to 1,323,291 sets in September.

Should the November production match that of October, the 1946 total will surpass 1941's 13,642,334 record by the end of National Radio Week Nov. 24-30, RMA forecast, recalling that it is the first postwar month free of price control.

Output of sets with FM reception rose from 17,541 in September to 23,793 in October. FM sets had totaled 19,642 in July, falling to 13,892 in August. Of October's FM sets 22,191 were console radio phonographs, 833 table models and 769 consoles without phonograph.

Television receivers totaled 827 in October compared to 3,242 in September. Production of radiophonograph consoles, held back by scarcity of cabinets, continued upward to 125,000 in October, a gain of 20,000 over September and in excess of the prewar rate. Other models included 1,128,616 table sets. not including battery sets: 153,800 portables; 170,000 auto radios.

MBS ANNOUNCES TEN ADDITIONAL STATIONS

MBS announced 10 new affiliates last week, bringing the network's total number of stations to 374.

KUOA Siloam Springs, Ark., operat-ing with 5 kw daytime only on 1290 kc and owned by John Brown U., joins the network Dec. 1. WFHG Bristol, Tenn., operating with

1 kw daytime only on 860 kc, owned by

Blanfox Radio Co., joins Dec. 15. WNOK Columbia, S. C., operating with 250 w on 1230 kc, owned by Pal-

with 250 w on 1230 kc, owned by Pal-metto Radio Corp., joins Dec. 15. WRNO Orangeburg, S. C., operating with 250 w on 1450 kc and owned by WRNO Inc., joins Dec. 15. WKDK Newberry, S. C., operating with 250 w on 1240 kc and owned by Newberry Broadcasting Co., joins March 15

WRQN Bidalia, Ga., operating with 250 w on 1450 kc and owned by Bidalia Broadcasting Co., joins Dec. 2.

YOU MAY BE ABLE TO "PASS" A FOOTBALL 82 YARDS*--

BUT-you can't win in western michigan without wkzo-wjef!

If you want to score at least cost with radio in Western Michigan (including the important markets of Grand Rapids, Kalamazoo and Battle Creek) there's really no other choice than WKZO-WJEF. According to the latest network coverage maps, WKZO-WJEF gives you more than TWICE as many

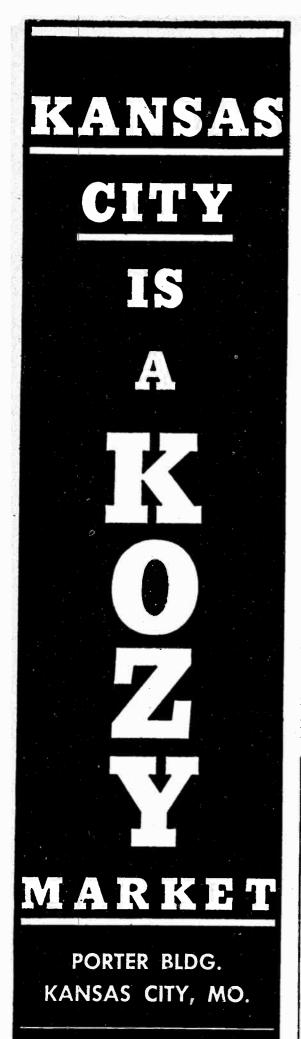

· · And Sa

radio homes as any other combination (nighttime) — which means that your costs-per-family are nearly 200% higher with any other two-station combination than they are with WKZO-WJEF.

Get the data and see for yourself. Write us, or Avery-Knodel, Inc.

^{*}F. Crawford of the Chicago Bears did it in 1935.

Jett Transcribed Talk on FM's Value Sent 10 Stations, Offered to Others

A TRANSCRIBED TALK by FCC Comr. Ewell K. Jett outlining the advantages of FM is being distributed by WWDC Washington. He was interviewed by Mark Austad, WWDC commentator.

Ben Strouse, WWDC vice president and general manager, said the transcriptions would be sent to stations "free on request" unless the demand becomes so great that a charge to cover expenses may be necessary.

Transcriptions already have been sent to 10 stations. WWDC, one of nine Washington FM grantees, first used the talk on Nov. 16, and plans to repeat it frequently.

In the 6½-minute talk Commissioner Jett, former FCC chief engineer, says FM enables listeners to "say good-bye to static"; eliminates fading and assures "strong, pure and even" reception, with greater fidelity; and permits operation of "far more" stations with resultant "keener competition . . . to put on better programs to attract the listener's attention."

Already there are approximately 700 FM stations authorized or on the air, Commissioner Jett reports, adding that "we at the FCC expect some 2,000 . . . in the next few years." Recognizing that AM and FM will prevail simultaneously "for some time to come," he sug-

Mr. Austad and Commissioner Jett.

gests that "the ideal plan" for listeners is to have at least one AM-FM combination. "If I were buying a new radio today I certainly would not buy one that did not include FM," he asserts.

Despite shortages, he points out, "FM sets are coming on to the market in increasing numbers. The latest estimate is that at least five million will be produced next year."

Stations to which transcriptions have been sent include WIL St. Louis; WMGA Moultrie, Ga.; WHA Madison, Wis.; WITH Baltimore; WKRC Cincinnati; WRUN Rome, N. Y.; WCFC Beckley, W. Va.; WPAY Portsmouth, Ohio; WFRO - FM Fremont, Ohio; WCMW Canton, Ohio.

DONALD COOKE Corp., New York and Chicago, has opened two West Coast offices, one at 1680 Vine St., Los Angeles, and the other at 681 Market, San Francisco. The West Coast offices will be managed by GENE GRANT. Donald Cooke Corp. also has added CJOB Winnipeg, Man., to its station list.

MARIAN HAUGH has joined KWG Stockton, Calif., as traffic manager, replacing JAMES E. FOX, switched to sales department.

GEORGE K. UTLEY, formerly with WFAA Dallas, has been named commercial manager of KRIC Beaumont, Tex.

MILTON VANDEVENTER, released from the Navy and former general office and production staff member of KMOX St. Louis, has joined the sales staff of that station. He previously had been with KMOX for five years. During war he served in Pacific.

RADIO REPRESENTATIVES, Toronto, has opened an office at Winnipeg in the Lindsay Bldg., with **TONY MESSNER**, commercial manager of CJOB Winnipeg, as manager.

HORACE STOVIN, president of H. N. Stovin & Co., Toronto, station representative, is on an extended trip to stations in eastern Canada.

BILL KNODEL, executive vice president of Avery-Knodel, Chicago, following three-day annual conference of Intermountain Network, Salt Lake City, is visiting station representative's offices in Los Angeles and San Francisco before returning to Chicago.

MELVIN T. HALES, formerly with Timken Roller Bearing Co., has joined the sales staff of WHBC Canton, Ohio.

WKNE Keene, N. H., has appointed Kettell-Carter, Boston, as New England representative effective Dec. 1.

FREMANTLE OVERSEAS RADIO, New York, foreign station representative, has appointed the Homer Griffith Co., New York, as its representative in Hollywood, San Francisco, Chicago and Dallas.

FM Demonstration

FM broadcasting was demonstrated before members attending the meeting of the San Francisco section of the Institute of Radio Engineers, Nov. 19-21. Through the cooperation of Royal V. Howard, technical director of KSFO San Francisco, Norman D. Neely Enterprises, Pacific Coast representative of Radio Engineering Labs., New York, and the FCC which granted special authorization for transmission on 103.1 mc using call of KRVU Nov. 14-21, an REL Model 518A-DL 1 kw FM transmitter was kept in continuous operation.

ED BERLIANT OFFERS A NEW Service for broadcasters

TO ANYONE who is considering the building or renovating of a broadcasting station, Ed Berliant offers a new plan that will eliminate all construction headaches and at the same time provide more revenue by getting the station on the air months sooner. You just turn over to him all responsibility for getting the job done, at a moderate fee.

This Unique Service Includes:

- 1. Work with foremost consulting engineers
- 2. Preparation of application (except engineering)
- 3. Surveys of sites and listener potential
- 4. Complete construction of building
- 5. All equipment, including scarce items, at no extra cost
- 6. Help in selecting qualified personnel

Ed Berliant draws upon his long years of experience in radio in getting your station on the air. He knows that anybody can follow a blueprint. Ed Berliant not only draws the blueprints in the first place; he builds

MBS Replaces

MBS sustaining replacement for the Coca Cola Friday evening Spotlight Band program which discontinues Nov. 22 will be the Adventures of Bulldog Drummond, which moves from Mon. 8-8:30 p. m. to Fri. 9:30-10 p. m. Monday period will be replaced by another sustainer, Mysterious Traveler.

Republic Steel's Program Launched

Markets for 'Songs America Sings' To Be Increased

REPUBLIC STEEL CORP., Cleveland, has launched sponsorship of an institutional transcribed show Songs America Sings, a World Broadcasting System package, on eight markets and will increase that to 30 markets after the first of the year. The production and talent cost for each program is approximately \$5,000.

The quarter-hour program was custom-built for the advertiser under the personal direction of Herb Gordon, production manager of World Broadcasting System. The show features Lynn Murray and orchestra, Lawrence Brooks, vocalist, and Bill Adams, narrator. It is directed by Henry Heyward and written by Van Woodward.

The agency, Meldrum & Fewsmith, Cleveland, are placing the show only in markets where a Republic Steel Corp. plant is located.

World Broadcasting System also plans to build transcribed institutional programs for a number of other advertisers interested in employe-employer good will advertising. Among those interested for possible sponsorship are Westinghouse Electric Corp. and American Petroleum Institute.

Al Stern Leaves Hart Co. To Form Recording Firm

ALBERT D. STERN, vice president in charge of sales for Frederick Hart & Co., New York recording firm, has resigned to form his own company. His firm will manufacture and distribute film and wire sound recording devices for commercial and home use, for both the domestic and export market.

Mr. Stern has been in recording development work for 14 years. He was responsible for securing adoption of his film recorders by the Signal Corps and Navy, the Navy using them to cover the Normandy invasion as well as several Pacific operations.

Are Just Another Way of Saying ... YOU GET NET RESULTS KXOK ST. LOUIS, MO.

When an advertiser uses a station for the first time, he's just shooting at a profit goal. But when an advertiser rehews his use of the station again and again . . . that means he scored net results! Over 40 regional and local advertisers (not including network advertisers) have renewed use of KXOK from 2 to 7 consecutive years. No wonder more and more leading advertisers are putting their OK on KXOK.

TV Slow in Britain

SIR WILLIAM HALEY, director general of BBC, sees no prospect that television will be expanded on a nation-wide scale in Britain in the near future. Speaking in Glasgow Nov. 7, Sir William indicated there was little likelihood Scottish license holders would get video soon. Experimental work to determine the best line of development still is in progress, he said. London. Sir William continued, remains the favored area for television and is the only section likely to be serviced "for some considerable time ahead." Decisions regarding television development in Britain are made by the Postmaster General, who is guided by the Television Advisory Committee.

WHBC Salute

DISC JOCKEYS across the nation are saluted nightly by Danny Landau, conductor of "The Owls' Club" on WHBC Canton, Ohio. On his record show, aired midnight-1 a.m., Mr. Landau features a different record m.c. each night, plays program theme and gives thumbnail sketch of the artist and station.

by many of the dance band leaders and bid farewell by his colleagues in the sports field.

Army veteran of 3½ years of service, he had been news commentator of OWI New York, working under COL. THOMAS A. LEWIS, ex-commandant of AFRS and now with Young & Rubicam. Mr. Ross entered radio at 13 as actor.

HAROLD M. COOK, program director of WHOT South Bend, Ind., has resigned to enter retail hardware business.

WAVE AIN'T JUMPING FOR JOY (Ky.)!

We're happy as clams, here at WAVE, and part of the reason is that we don't *have* to gum up our programming, etc., by "jumping" for Joy (Ky.) and all the remote little towns in the State. We do jump — like mad — to do a topnotch job in the Louisville Trading Area, and WAVE is therefore a favorite in its area (which spends 51.9% as much in retail sales as Kentucky's total!)... Joy or no Joy, you'll be happier with WAVE, too!

"Just keep tuned to the News over WFDF Flint, lady." **TONY CHASTIN**, program director of WFVL Miami Beach, is the father of a girl born Nov. 18.

MARIAN ELLIS, conductor of daily "Home Forum" program on WOWO Fort Wayne, Ind., and SAMUEL GIFFORD, announcer and news commentator with that station, were married Nov. 14.

"BUT, DOCTOR, A NERN STATION SAID That all the cares of the day slipped away in this new bubble bath."

And rightly so. Consequently, we can't blame Grandpa for taking a swan-dive into the fountain of youth—and staying there. Of course there's good reason to call a doctor when you find an aquatic Rip Van Winkle in your home, but in Grandpa's case it was a NERN station who gave the good word, and in Grandpa's language that was a command. When he comes out—if ever— Mrs. Winkle can use that new tub cleaner which a NERN station told her about the other day.

WHEN YOU BUY NERN YOU BUY A NETWORK'

HARTFORD, CONNECTICUT

Gosh, we can't help it if you can't buy— "The Quiz of Two Cities"

AN AL BUFFINGTON COMPANY CREATION

Fact is, the Lambert and Feasley Advertising Agency for Listerine Toothpaste just bought exclusive rights to the remainder of the country on the show that seems destined to last as long as the American love of competition itself. More than a radio show, the "Quiz of Two Cities" has proved itself for nine years to be a new type of competitive sport, currently capturing thousands of home town rooters in the following markets:

WFBR, Baltimore-WOL, Wash- ington	W
KFRC, San Francisco—KHJ, Los Angeles	W
KOMO, Seattle-KGW, Portland WCCO, Minneapolis-St. Paul	W
WOW, Omaha — WHO, Des Moines	Ŵ

Boston Colleges Launch Education-by-Radio Plan

AMBITIOUS project in adult education by radio is to be undertaken by six Greater Boston colleges under auspices of Lowell Institute. Joint announcement of the plan, whose purpose is to make available to New England radio listeners the combined cultural resources of participating universities, was made by Ralph Lowell, trustee of Lowell Institute, and presidents of the six colleges-Harvard U., Massachusetts Institute of Technology, Bos-College, Northeastern U., ton Tufts College and Boston U.

The Lowell Institute Cooperative Broadcasting Council has been formed to present the special educational programs over Boston stations. Parker Wheatley, formerly radio director at Northwestern U., Evanston, Ill., and until recently in charge of educational broadcasting for the Armed Forces Radio Service, is director of the Council. George W. Slade, now educational director of WBZ Boston and WBZA Springfield, Mass., will join the Council Dec. 1 as assistant director.

Phone Service to Autos Previewed in New York

THE NEW YORK Telephone Co. last week previewed its new vehicular radio telephone service which will begin on a regular commercial basis Tuesday, when 20 specially equipped automobiles inaugurate the novel telephonic development.

The system uses one frequency in the regular mobile radio band of 152-162 mc provided for the service by the FCC. Range of operation is said to be 25 to 35 miles from the center of Manhattan.

Three classes of service are being offered. Two-way linkage between cars and land phones, or between cars or trucks in pairs; twoway dispatch service between a subscriber's office and trucks only; and a one-way signalling service to mobile units to notify drivers to comply with pre-arranged instructions.

WNEW Names Herbert V. P. in Charge of Sales

IRA M. HERBERT, former WNEW New York national sales director, has been appointed vice

A RTHUR ZIPSER, formerly head of his own literary agency, and W. PATRICK BURKHARDT, previously with Hiram D. Rickert Productions, New York, have formed Zipser and Burkhardt, 1323 Avenue of the Americas, New York. New firm will produce and sell recorded radio shows and commercials.

COVERAGE? RATINGS? SALES? SERVICE?

CHOOSE YOUR <u>OWN</u> YARDSTICK . . . CFRB WILL STAND ON THE FACTS!

> Do you want to reach a mass audience, over a wide area, at the lowest per-thousand cost? BBM PROVES that CFRB delivers the widest coverage in Canada's richest market!

> Do you check popularity? The figures show that CFRB consistently broadcasts most of the shows to which most of the people listen!

> Do you watch results? Ask our year-after-year advertisers who know that CFRB makes SALES because it combines coverage and popularity!

> But stop, you say ... I'm just a listener. What of me? For you, too, we are proud of our past record, alert in our future plans. CFRB is an independent community station. It pays taxes, receives not a penny in license-fee subsidies. But CFRB has a community SER VICE record second to none!

> We are vitally interested in the problems of both majorities and minorities. We broadcast special news, support charities, rise to civic emergencies, carry expensive services which bring the best in the continent's music and fun and inspiration right into your home ... FREE. If only you could see the letters, letters, letters of appreciation in our files!

Yes, choose your <u>own</u> yardstick ... CFRB will stand on the FACTS!

CFRB went on the air in 1926. In radio, twenty years is a not of experience. We are using it now to plan for 1966!

ONTARIO'S FAVOURITE RADIO STATION!

川川川田田

Latest population estimate for Southern California (and a goodly portion of KFI's Primary Area) is 5,243,000...more than 31% over the 1940 Census. We'll grant you that not all of these new residents will remain nor will all those remaining be certain prospects for every seller's product. But one thing is sure. Southern California will be a greater market for all food lines these many years to come. And that little word food should bring to mind KFI's supersalesman for grocery products – ART BAKER! This gentleman with the friendly voice recently celebrated his eighth consecutive year on KFI with the ART BAKER NOTEBOOK-indubitably the most outstanding participating program heard in your Number Three market. ART has long done a knockout job with food accounts and his files contain a list of glowing testimonials as long as the Browns in the phone directory. In fact ART BAKER NOTEBOOK now accepts grocery product participations exclusively, and his Hooper is an eye-opener. Why not check KFI Sales or Edward Petry Co. for all the facts on ART BAKER.

POPULAR PHILLIPS

Tops among the night disc programs that KFI's Bob Phillips conducts is a half hour show bearing the title of "Music For Dreaming." Airing from 1:00 to 1:30 a.m., this program (strictly on the sen-

ULL hour Mon. through Fri. program, "Christmas Express," starts Nov. 26 on WKXL Concord, N. H., taking listeners on tours through Concord stores to promote Christmas gift sales.

Grid Variations

CBS last Saturday (Nov. 23) was to try something new in football broadcast-ing when it broadcast two games at the same time. Red Barber went on the air at 2 p.m., announcing a play-by-play account of the Ohio State-Michigan game. At 2:30 p.m. Gene Shumate of KSO Des Moines went on the air with a description of the Illinois-Northwestern game. The network switched alternately throughout the afternoon to the two games, bringing listeners intermittent play-by-play accounts of the two sectional grid contests.

Public Opinion Check

PUBLIC OPINION questions are now being aired weekly on "What Do You Think," new half-hour program on CJCA Edmonton, Alta. Program is sponsored by Hudson Bay Co., Edmonton department store. Public opinion is questions of local and national im-portance. Answers received are compiled during the week. Then contestants at the broadcast are asked the same ques-tions and if their answers received recompiled tions and if their answers check with those compiled from the newspaper ballots received, the contestant receives a prize.

Harvard Forum

STUDENT directors and faculty of Harvard Law School have arranged a series of eight feature programs, "Harvard Law School Forum," for presentation weekly on WHDH Boston. Views of internationally known leaders are heard

on current controversial issues on the new series started Nov. 15. Among those participating are Edward Stettinius, Philip Wylie, Owen J. Roberts, Robert M. Hutchins, John G. Winant, Thurman Arnold, George Soule, John Fisher, F. S. Northrop, Donald Richberg, Leo Wollman and others. Format includes audience participation.

Students on WHYN

PUBLIC school children are participating in new series of programs started by WHYN Holyoke, Mass., in conjunc-tion with the school department and the Junior League of Holyoke. Heard Thurs. 9-9:15 a.m. the informal, unrehearsed format series shows what the Holyoke schools are doing in education field. Students gather in assembly halls to hear broadcast.

Report by WMCA

APPROXIMATELY 45 hours weekly of blocked time has been sold by WMCA New York, according to station's semi-monthly report released Nov. 15. Following firms have bought participations, spots, and recorded periods: Strauss Stores, Robert Hall Clothes, J. Laskin & Sons Corp., Society for Ethical Culture of New York, Durex Blade Corp., Universal Pictures, Chase National Bank, Buddy Lee Clothes, Franklin-Simon Co.

KFBK School Shows

COOPERATING with local school system, KFBK Sacramento, Calif., has started four weekly "KFBK Goes To School" in 15-minute format. Tuesday show is "Books Bring Adventure," dramatizations of favorite children's stories. "Lands Away" broadcasts on Wednesday is children's approach to geography of distant places. "Life for

Wild Life" aired Thursday is concerned with habits of wild life and need for conservation. Friday programs are re-broadcasts of wire-recorded programs developed in classrooms of city on variety of subjects.

Radio's Job Discussed

NOV. 19 topic of "Rutgers U. Forum" on WAAT Newark, N. J., was "How can radio best serve in the public interest." Participating in discussion were Marguerite Kirk, director of the department of libraries, visual aids and radio for Newark Board of Education; Reggie Morgan, vice president in charge of radio commercial for Ruthrauff & Ryan; Elliott M. Sanger, executive vice president of WQXR New York, and Jerry Baker, program director of WCTC New Brunswick. Marshall G. Rothen, director of broadcasting at Rutgers, is program moderator.

Symphony on WFAA

DALLAS Symphony Orchestra Dec. 5 10:15-11:15 p.m. presents first of current season's series of broadcasts on WFAA that city under cooperative sponsorship of Dallas Morning News, Neiman-Marcus, Sanger Bros., Lone Star Gas Tex-O-Kan, T & P Railway, Dallas Powe and Light Co., Byer-Rolnick Co., The Hagger Co. and Nardis Sportswear, Dallas.

Industry Survey

BUILT on basis of conferences with company officials and visits to different industries in western Michigan, new program series titled "Western Michigan at Work" has been started by WKZO Kalamazoo. In addition to descriptions of operations, interviews with workers and executives are presented.

Johns Hopkins Forum

STUDENTS from various departments of Johns Hopkins U., Baltimore, are par-ticipating on new Wednesday night forum discussion program on WFBR Baltimore. Titled "Johns Hopkins Forum," the 13-week series considers world problems. No written scripts are used on program.

Hobby Interviews

DESIGNED to create interest in hobbies among children of school age new week-ly program on WHBC Canton, Ohio, "What's Your Hobby?" features interviews with youthful hobbyits. Program is presented under the auspices of the Canton Junior League.

Choirs on WFBL

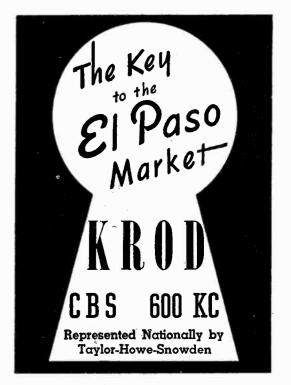

SERIES of quarter-hour Sunday morning programs has been started on WFBL Syracuse under auspices of Syracuse Council of Churches. Titled "The Choir Loft," program weekly features choir of a different local church.

Expands School Shows

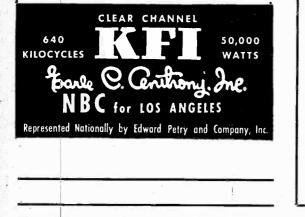

EXPANDED series of programs from public schools has been scheduled by KTBC Austin, Tex., this year with four programs regularly presented by stu-dents from the schools. One of the programs, in evening period, features 360voice a capella student choir.

Changes in Cast

NBC "Don Ameche Show" Dec. 15 makes changes in its cast with intro-duction of Danny Thomas, Frances Langford, and Phil Rapp as writer. Dropped are Pinky Lee, Joanell James and Hal Kanter. Remaining are Don Ameche, Jerry Seelen as special lyric writer and Carleton Alsop as producer.

JOHN C. DOORTY, former account executive of BBDO New York, has joined Shulton Inc., New York soap manufacturer, as advertising director. ARTHUR H. ROGOW, after four years of service with the Army as a colonel in the Quartermaster Corps and before that general manager of Sears-Roebuck Co. stores in metropolitan Boston, has joined Eversharp Inc., New York, as vice president in charge of merchandising.

W. F. BARTON & Son, Oakland (hatchery equipment manufacturer's agent), has placed its account with Ad Fried Adv., Oakland, as has Van S. Labs, that city (drugs and cosmetics manufacturer). Both plan radio.

NETWORK ACCOUNTS

New Business

STERLING DRUG Co., New York (Bayer Aspirin), Dec. 9 for 52 weeks starts "Rise and Shine" on 40 Don Lee Pacific stations, Mon. through Sat. 7:15-7:30 a.m. (PST). Agency: Dancer-Fitzgerald-Sample, N. Y.

PETER PAUL Inc., Naugatuck, Conn. (candy, gum), Nov. 12 for 52 weeks started "Bob Garred-News" on 12 CBS Pacific stations, Tues.-Thurs.-Sat. 7:30-7:45 a.m. (PST). Agency: Brisacher, Van Norden & Staff, Los Angeles.

Renewal Account

STERLING DRUG Co., Windsor, Ont. (Phillips Milk of Magnesia) Jan. 24, 1947, renews for one year "Waltz Time" on 32 Trans-Canada network stations, Fri. 9:30-10 p.m. Agency: Dancer-Fitzgerald-Sample, Chicago.

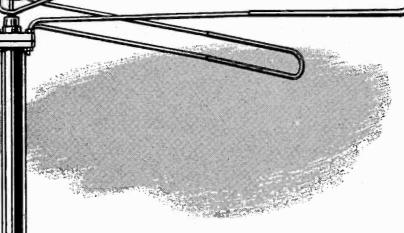

Adds Tele Sponsors

ABC ANNOUNCED the sale of two more television shows in Chicago last week bringing a total of $5\frac{1}{2}$ hours of live sponsored shows weekly on WBKB Chicago. Henry C. Lytton & Sons, Chicago men's store, will sponsor ABC's telecasts of the Sunday hockey games of the Chicago Blackhawks effective Nov. 24 for 14 weeks. Commercials will be handled through Ruthrauff & Ryan, Chicago. Second sale, Stump the Authors, an audience participation show which ABC has been telecasting since Sept. 6 on a sustaining basis, was purchased by Television Assoc., a video packaging and servicing company under the direction of Capt. William C. Eddy, WBKB director. Television Assoc. begins sponsorship on Nov. 29, 9-9:30 p. m. (CST) continuing for an indefinite period.

New Type ''1200'' Andrew Folded Quadrupole FM Antennas Immediately Available

The revenue you'll lose waiting six months or more for a permanent FM antenna can never be made up. The delay may jeopardize your license.

This Andrew "1200" Folded Quadrupole is an emergency rig, ideal for stand-by use after your permanent antenna installation is made . . . and it's available now . . . enabling you to go on the air almost

radiators with FCC approval. Each antenna is factory tuned to the center of your specified channel, and an individually measured radiation pattern is supplied.

The type"1200"FM antenna is priced at only \$200.00 f.o.b. factory. For further information write for bulletin No. 46—or wire your order now for shipment within seven days. RG20/U, available at \$1.25 per foot, or the permanent line will feed the antenna.

immediately.

The "1200" is a small, light folded dipole turnstile. It weighs less than fifteen pounds making it easy to install on any existing support. Its exposed surface, to wind from any direction, is less than a square foot. Two FM installations now are using these

PROMPT FACTORY INSTALLATION SERVICE AVAILABLE

Andrew installation experts are available to handle all types of equipment, antenna, transmission line transmitter, studio equipment, or a complete turnkey job. Full information will be supplied on request.

New Columbus, Ga., FM Station Takes the Air WRBL-FM Columbus, first commercial FM station in Georgia, was scheduled to go on the air Nov. 18, operating on 96.7 mc. Station is owned by Columbus Broadcasting Co., operators of WRBL since 1928. WRBL-FM power is 250 w and the station management states that permanent installations for extension to a metropolitan station of 3,000 w will be under way soon.

WRBL's studios have been remodeled for dual and duplicating program operation. Existing programs heard regularly on WRBL will be broadcast for several hours each day on a duplicating basis by WRBL-FM, while separate operation of the FM station has been set for 1-4 p.m. and 5:30-7:30 p.m. daily. WRBL-FM is using General Electric equipment.

J. W. Woodruff, general manager, and J. W. Woodruff Jr., executive manager of both AM and FM units of WRBL, are expecting a decision shortly on FCC's recent proposal for a 5,000 w grant to WRBL on a frequency of 1420 kc.

Hurd Named to Foreign Trade Committee, NAMA

ARTHUR HURD, director of media research for J. Walter Thompson Co., New York, has been appointed chairman of the Foreign Trade Committee of the

National American Marketing Assn. by Lyman L. Hill, president. The objective of the committee is to prepare an analysis of foreign markets for United States exports; to outline

the sales chan-

nels and adver-

Mr. Hurd

tising and promotion facilities available for selling U. S. products in foreign markets and to outline the place and function of marketing in world trade.

Dr. Vergil D. Reed, associate director of research, for J. Walter Thompson, will act as general consultant to the Foreign Trade Committee.

Former WEC Executive, C. E. Stephens, 63, Dies CHARLES E. STEPHENS, 63,

R. C. OSBORN, chief of the Eureka Engineering Division of the Eureka Williams Corp., has been awarded the Naval Ordnance Development Award emblem for his contribution to the development of the radio proximity fuse during the war.

FRANK KENNEDY, chief engineer of Don Lee Broadcasting System, Hollywood, is convalescing at Monte Sano Hospital, Los Angeles, following surgery. SOUND APPARATUS Co., New York, has developed a twin-recorder which makes simultaneously two records of the same or different phenomena. Recorder is built in rack form, 12¼ by 19 inches. Two synchronous motors are employed, one for the writing pens and one for the two chart speeds. Machine produces graphic recordings and duplicate records in one run.

CHARLES KELLY, operations manager of WTTG Washington, DuMont television outlet, is to instruct in television at Southeastern U., that city, beginning in January.

FRANKLIN SHELLY, engineer at WENY Elmira, N. Y., is the father of a girl. **HERMAN GOODSTINE**, control room operator at WDRC Hartford, Conn., is the father of a girl, Lynette Barbara.

PHILIP LAESER, supervisor of FM and television engineering and EDWARD CORDES, chief construction engineer, WTMJ-FM Milwaukee, arranged and presented educational demonstration in FM to more than 300 science teachers attending annual Wisconsin State Teachers Convention at Marquette U.

M. J. EASTERWOOD, formerly with KSKY Dallas, has been named chief engineer of KRIC Beaumont, Tex.

ALFRED STILL, retired professor of electrical engineering at Purdue U., is author of new book, "Communications Through the Ages, From Sign Language to Television," published Nov. 21 by Murray Hill Books Inc., New York.

EUGENE C. PHILLIPPI, member of the technical staff of KDYL Salt Lake City, and MARY JANE HOLM, KDYL writerartist, have been married.

PAUL BARTHOLOMEAUX, engineer of KVOA Tuscon, Ariz., is the father of a girl.

DUNCAN CHURCH has joined the engineering staff of CHAT Medicine Hat, Alta.

RICHARD SUNIER, former student engineer at WBAA West Lafayette, Ind., has joined the technical staff of WOWO * Fort Wayne as operator.

TOM RAZOVICH, engineer of KFRC San Francisco, has married Helen Malsbury, Latter was identified incorrectly Nov. 11 as Helen Raynar.

CKWX Vancouver expects to inaugurate its new 5 kw transmitter Dec. 1. Transmitter was originally to have been in operation by Sept. 1, but strikes and building equipment shortages have delayed installation.

FRESS WIRELESS has filed application with FCC for a license to furnish deferred commercial service in addition to its present press service. Proposed service would give priority to all press traffic on Press Wireless circuits.

DO YOU KNOW THE ANSWERS?

The Fred A. Palmer Co., pioneer consulting organization, offers to both proposed, and operating AM and FM stations, a background of 75 combined years of management and operating experience. This includes the building of stations from the initial application, through hearings, construction, programming,

FOR PROPOSED OPERATIONS

- 1. Preliminary Surveys
- 2. Preparation of Operations phase of Applications
- 3. Physical requirements
- 4. Rate studies, and preparation of forms, contracts, rate cards
- 5. Staffing and sales training
- 6. Program planning and development
- 7. Station promotion and Public relations
- 8. Traffic control systems
- 9. Financial control methods
- 10. Continuing annual (or oftener) financial and operating studies
 11. Continuing overall "on-the-job" consultation service

Istaffing, sales, to continued profitable operation.

In addition, the service provides regular comparative operating data from hundreds of stations with which we are constantly in close contact, thus insuring an essential supplementary service which progressive station management should have.

FOR EXISTING OPERATIONS

- 1. Monthly operations clinics with station personnel
- 2. Sales training and development
- 3. Advertising and promotion
- 4. Program planning and development
- 5. Traffic Control Systems
- 6. Personnel and job analyses and recommendations
- 7. Annual overall management and operations check-up
- 8. Comparative financial and sales analyses of other stations in the same class
- NOTE: We work closely with the stations' legal and engineering advisors but do neither of these functions.

former vice president of the Westinghouse Electric Corp., New York, at the time of his retirement last year, died Nov. 19 at his winter residence in Delray Beach, Fla. His home was in East Orange, N. J.

Joining Westinghouse in 1900 as an apprentice in the engineering department, Mr. Stephens worked his way up, becoming manager of the supply department, then Eastern district manager, finally commercial vice president. He was elected vice president of the organization in 1932.

Nov. 15 Decisions . . .

BY COMMISSION EN BANC AM-1450 kc

Montana Associates, Mis-Western soula, Mont.-Granted CP for a new station to operate on 1450 kc, 250 w, unlimited time; conditions (Comr. Durr for hearing).

AM-730 kc

WTIK Durham, N. C.—Granted CP to increase power from 500 w to 1 kw, and change type of transmitter, operating on 730 kc, daytime only.

Petition

WEMP Milwaukee, Wis.—Dismissed petition for rehearing or reconsideration directed against the Commission's action of Sept. 5 denying petition of Glenn D. Roberts, et al, to reinstate its application for CP.

AM—1270 kc Lebanon Bcstg. Co., Lebanon, Pa.— Granted license to cover CP which au-thorized a new station to operate on 1270 kc, 1 kw, daytime only.

AM-730 kc

Liberty Bcstg. Co., Pittsburgh, Pa.-Granted request of Liberty Bcstg. Co. for severance of its AM application from its FM application, proposed to be denied, and grant the AM application. The Commission adopted an order making final the grant of application for a new AM station to operate on 730 kc, 1 kw, daytime only (Comr. Durr not participating).

AM-1010 kc

Albermarle Bestg. Co., Albermarle, N. C.-Granted CP for a new station to operate on 1010 kc, 1 kw, daytime only; conditions.

AM-750 kc

Democrat Printing Co., Durant, Okla. -Granted CP for a new station to op-erate on 750 kc, 250, daytime only. AM-840 kc

Okla. Agricultural and Mech. College, Stillwater, Okla.—Granted CP for a new station to operate on 840 kc, 10 kw, daytime only.

AM-910 kc

KVAN Vancouver, Wash.—Granted CP to increase power of KVAN from 500 w

HCTIONS OF THE FCC

NOVEMBER 15 to NOVEMBER 21

to 1 kw, install a new transmitter. change transmitter location, install DA for day and night use, and change time of operation from daytime to unlimited, subject to engineering conditions.

AM-780 kc

Stillwater Publishing Co., Stillwater, Okla.-Granted modification of CP to change frequency from 840 to 780 kc. Modification of CP

Portsmouth, Va.-Granted WLOW modification of CP to change studio location from Portsmouth to Norfolk, Va.

WJHP Jacksonville, Fla.—Granted modification of CP to make changes in directional antenna for night use and to mount FM antenna on top of one element and television antenna on the other, subject to engineering conditions.

Station Deletion

WPNA Alpena, Mich.-Granted authority to withdraw application for a new station granted May 24, 1946, and delete all records relative thereto. Permittee states as reason for deletion that "the city of Alpena is not able to support two broadcast stations."

Petition

Clear Channel Bestg. Service-Denied petition requesting that the Commission reconsider its action of June 21, 1946, whereby it adopted a policy of considering on their individual merits applications involving use of 1-A chan-nels, daytime or limited time, where the proposed station is 750 miles or less from the dominant 1-A station using non-directional antenna on frea quency requested, etc. Written opinion to be issued.

Lackawanna Valley Radio, Scranton, Pa.-Granted CP for a new station, to operate on 1000 kc, 1 kw, daytime only; conditions.

AM-1250 kc

Virginia-Carolina Bestg. Corp., Dan-ville, Va.—Granted CP for a new sta-tion to operate on 1250 kc, 1 kw night, 5 kw-LS, unlimited time, DA-night, provided permittee agrees to satisfy legitimate complaints resulting from blanket interference occurring within the 250 mv/m contour, and subject to the condition that Allen S. Clarke dispose of his interest in WBTM, Dan-ville, Va.

Transfer of Control

KSOO Sioux Falls, So. Dak.-Granted consent to involuntary transfer of control of Sioux Falls Broadcast Assn. Inc., licensee of KSOO, from the estate of Joseph Henkins deceased, to Morton H. and Ruth J. Henkin, (beneficiaries un-der the will of their deceased father). AM-1140 kc

WSIV Pekin, III.—Granted CP to in-crease power from 250 w to 1 kw, and change type of transmitter, operating on 1140 kc.

AM-1380 kc

WTSP St. Petersburg, Fla.—Granted CP to increase power from 500 w, 1 kw-LS, to 5 kw, DA-night; install a new transmitter and change antenna system of station operating on 1380 kc (Comr. Durr for hearing).

Program Authority

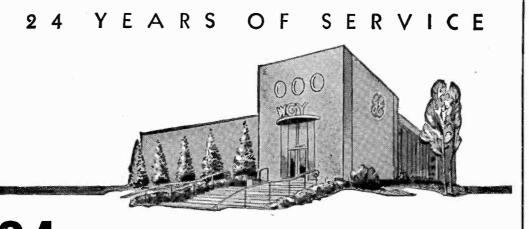

American Bestg. Co. Inc., New York City—Granted renewal of permit to produce recorded programs to be transmitted to Canadian stations for broadcast purposes.

Hearing

KARM Fresno, Calif.; KWCS Pullman, Wash.—The Commission, on its own motion, ordered that, pursuant to the policy appounded in a Public Notice policy announced in a Public Notice Aug. 9, 1946, that the applications of KARM and of KWSC be removed from the consolidated proceeding and from the hearing docket and referred to the pending files to await decision in the clear channel hearing.

Petition KYA San Francisco, Calif.; KROY Sacramento, Calif.; Alvin E. Nelson Inc., San Francisco, Calif.—Granted pe-tition of KYA for reinstatement of its application and accepted amendment to application so as to specify frequency 1060 instead of 1210 kc, and designated said application as amended for hearing in the consolidated proceeding with KROY Harmco Inc. and Alvin E. Nel-son Inc., provided, however, that if, as a result of said consolidated hearing, it appears that, were it not for the aforesaid clear channel hearing and the Commission's on powner of Aug 0 Commission's announcement of Aug. 9 pertaining thereto, the public interest would best be served by a grant of the application of Alvin E. Nelson Inc. then the said application will be placed in the pending files until after said clear

MEASURE YOUR ADVERTISING DOLLAR ANY WAY YOU LIKE

24 YEARS OF ENGINEERING PROGRESS

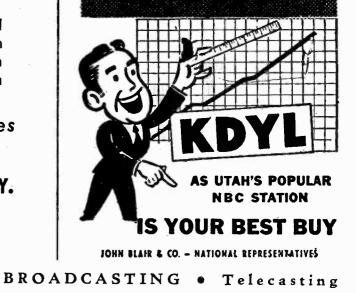

... In the early days of broadcasting, long before fundamental designs were standardized, transmission of radio programs was on a "cut and try" basis. It was then that the General Electric Company, envisioning the future possibilities of broadcasting, established a Development Laboratory at Schenectady using WGY as its proving ground.

As a result of the early developments in this radio laboratory, WGY became one of the first stations in the country to operate regularly with crystal control and 50,000 watts of power and soon after, the first to broadcast a signal of 100,000 watts. These and a score of other engineering firsts have helped give WGY the fine reputation it enjoys today for its high fidelity signal, its enviable record of uninterrupted hours on the air and the technical excellence of its studio program output. Represented Nationally by NBC Spot Sales 50,000 WATTS SCHENECTADY, N.Y. **GENERAL GENERAL**

channel decision has been issued at which time it will be considered in connection with other 1030 kc applications and with any other pending applications with which it might then be in conflict. Further ordered that the orders of the Commission dated Jan. 30 and Feb. 13 designating applications of Harmco Inc. and Alvin E. Nelson Inc. for hearing, be amended to in-clude application of KYA; and further that said petition of Harmco Inc. requesting that its application be removed from the aforesaid consolidated proceeding and granted without further hearing; and petition of Phoenix Bcstg. Inc. KPHO, for unlimited time opera-tion on 1030 kc with 10 kw, at Phoenix, Ariz., be designated for hearing in this consolidated proceeding, be denied, for the reasons stated above.

Petition

Alvin E. Nelson Inc., San Francisco, Calif., and C. Thomas Patten, Oakland, Calif.—Granted petition requesting that application of C. Thomas Patten for a new station in Oakland, Calif., be designated for hearing in the consolidated proceeding involving petitioner's appli-cation, et al, upon the issues heretofore defined in the order dated Aug. 7 issue numbered "5" of which is amended to specify the said proposed opera-tion of Alvin E. Nelson Inc., and further ordered that the order of Feb. 13 designating said application of Alvin E. Nelson Inc. be amended to include application of C. Thomas Patten.

Designated for Hearing

Pittsburg Bestg. Co., Pittsburg, Calif. -Ordered that the application of Pittsburg Bcstg. Co. be designated for hearing in the consolidated proceeding with Harmco Inc., et al, and further ordered that the Commission's order of Aug. 7 designating application of C. Thomas Patten for hearing, be amended by an order of this date consolidating said Patten application in this proceeding, be further amended to include application of Pittsburg Bestg. Co.

License Renewal

KFJI Klamath Falls, Ore.-Granted renewal of license for the period ending Aug. 1, 1949.

Modification of CP

KMPC Los Angeles, Calif.-Granted modification of CP to change DA from day and night to nighttime only, subject to engineering conditions re in-terference, with pending application of Western Bcstg. Associates, Modesto, Calif.

AM-780 kc

General Bestg. Co., Birmingham, Ala. -Granted CP for a new station to operate on 780 kc, 1 kw, daytime only; conditions.

AM-1530 kc

WCKY Cincinnati, Ohio-Adopted a decision and order denying petition of for reconsideration directed WCKY against the Commission's action of May 10, 1946, granting without hearing the application of Patrick Joseph Stanton, for a new station at Philadelphia, Pa., to operate on 1530 kc, 10 kw, daytime only, as the Commission is of the opinion that this grant does not result in interference to petitioner's station WCKY.

Video Exhibit Is Planned For Miami Exposition

THROUGH the cooperative efforts of WGBS Miami and Allen B. Du Mont Labs, television will be displayed and demonstrated at Miami's 50th Anniversary Exposition, opening today (Nov. 25). Beginning with the opening ceremonies each evening, the exhibit will present seven hours of video programming each day, including a football game, fashion, variety and dramatic shows and a number of the WGBS programs. Visitors at the joint exhibit will also be enabled to see themselves on a large television screen. Eight Du Mont technicians accompanied the cameras and other video equipment to Miami, to install and maintain it during the term of the exposition. Three Du Mont officials also planned to attend the show: Leonard F. Cramer, executive vice president; Mortimer W. Loewi, executive assistant to the president; and Herbert E. Taylor Jr., transmitting equipment sales manager.

Swing to Leave ABC

RAYMOND SWING retires from his ABC newscasts on Jan. 3, and Elmer Davis will expand his twiceweekly network cooperative broadcasts to a Monday through Friday quarter-hour news commentary series, 7:15-7:30 p.m. Phillips Packing Co., Cambridge, Md., will sponsor Mr. Davis five times weekly on WJZ New York. Mr. Davis is currently heard on WJZ and ABC under co-op sponsorship on Mondays and Tuesdays, 7:15-7:30 p.m., with Raymond Swing doing the news commentary on the series the remaining three evenings of the five times weekly program.

ABC stated that Mr. Swing is retiring in order to devote more time to writing and lectures, and at some later date in 1947 he is expected to resume his broadcasts on the network with a weekly 15minute program. Agency for Phillips Packing is Aitken-Kynett Co., Philadelphia.

FCC Policy

(Continued from page 24)

3,400 persons, would have a full-time outlet (1340 kc).

The Commission therefore wrote into the hearing issues one calling for determination "on a comparative basis which, if any, of the applications . . . should be granted, and which of the frequencies, 1340 kc, 710 kc, should be assigned to the successful applicant or applicants."

Argument for Policy

Petitioning FCC to reconsider this move and grant its application without a hearing, Kentucky Lake last week insisted that it meets all the requirements of the Commission's rules for non-hearing grants, and argued that the new policy would:

1. Force Kentucky Lake either to withdraw or to spend money and time "in a hearing for a frequency for which it is not an applicant";

2. Deprive Paris of local broadcast service for many months;

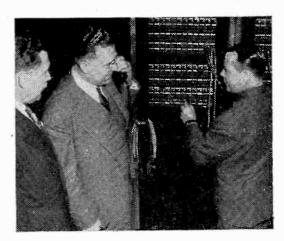

3. Lengthen and complicate the 1340 kc hearing and "if followed in other AM cases and in FM cases will lengthen and complicate hearings on all applications for stations in the same area, since it will not be possible to grant without a hearing a pending application where there is also pending in the same or nearby community any other application for any other frequency, fulltime or daytime."

Six Channels Available

The petition contended that not two but six channels are available in Paris and Murray—910, 1170, 1190, and 1220 kc for daytime use in addition to 710 kc daytime and 1340 kc fulltime. "If after the hearing, the unsuccessful applicants desire a daytime operation, they can be taken care of," the petition asserted.

Kentucky Lake also asked FCC to "spell out more fully" its meaning in the statement that the new

PREPARING to "patch through" the first programs on WLWA, new Crosley Broadcasting Corp. FM station, are (1 to r) Wilfred Guenther, manager of WLWA; R. J. Rockwell, Crosley vice president in charge of engineering; and James D. Shouse, president of the corporation. The station began broadcasting on a regular schedule Nov. 15.

policy will be used in "similar situations."

Regarding local ownership, it asked the Commission whether that factor outweighs all others "such as the policy of granting at the earliest possible date an application for a station in a town where no station now exists, of granting an application without a hearing where there is no conflict (Sec. 1.382 of the Rules and Regulations) and other factors and policies which the Commission has enunciated?"

It has been FCC policy, the pe-

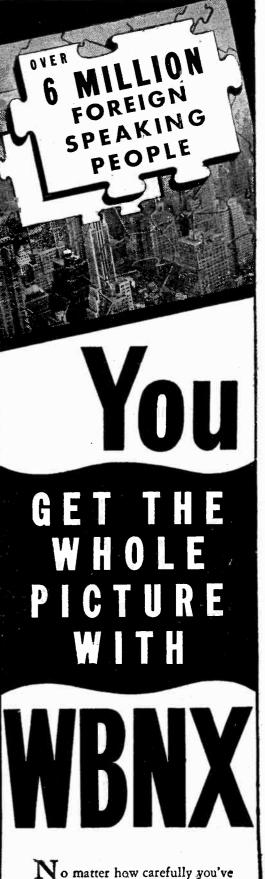

tition continued, to grant daytime stations without hearing while applications for fulltime stations were pending, and to grant nonconflicting applications without hearing "even where other conflicting applications were pending in the same city." But, the petition argued, "it has *not* been the policy of the Commission to consolidate in one hearing the applications on different frequencies in the same city."

The situation has been "somewhat changed" since the opinion was written, by the filing of a new Paris application, for 910 kc, 1 kw, daytime, by Broadcasters Associated, the petition point out. It maintained that the new policy, unless rescinded, would require that the new application also be put into the hearing since it, too, was filed by non-residents of Paris.

FCC's opinion and order putting the Kentucky Lake application back into hearing was adopted Oct. 10 and released Nov. 5. It was published in the *Federal Register* Nov. 16.

What War, Suh?

ORDINARILY J. D. Bloom, chief engineer of WWL New Orleans, signs teletype messages "Bloom WWL." The other day, however, J. D. sent a message to G. for General (or George) Sherman at WBBM Chicago. He signed it with his full name, which is Jefferson Davis Bloom!

IN o matter how carefully you've planned your New York coverage, you're losing a big piece—over six million foreign language prospects—unless your present schedule includes WBNX.

WBNX smoothly dovetails into your New York coverage:

2,350,000 Jewish speaking persons 2,103,737 Italian speaking persons 1,236,000 German speaking persons 578.000 Polish speaking persons 2,50,000 Spanish speaking persons 6,517,737 foreign language prospects

There you get the whole picture.

Our trained, experienced program department will assist in translating your copy. Remember WBNX means New York coverage in any language. Photo: Lotte Errell Pix Photo: Lotte Errell Pix OCO WATTS DIRECTIONAL OVER NEW YORK America's Leading Foreign Language Station

JOHN E. PEARSON CO.

FOUR national advertisers sponsoring juvenile adventure programs over ABC from 5 to 6 p.m. (EST), Monday through Friday, are cooperating with the network and its affiliated stations in a contest open to youngsters 16 years of age and under. Sponsors of the contest, which offers 1,000 prizes for letters in 50 words or less on "Which Program I Prefer," are: Quaker Oats, sponsor of "Terry and the Pirates"; Derby Foods, "Sky King"; General Mills, "Jack Armstrong," and Ward Baking Co., "Tennessee Jed." Cooperative promotion between the sponsors and ABC will include local block material, live announcements, photos and mats of cast members of the four programs, photographs of the prizes and handbills which will be sent to the ABC stations. Contest ends Dec. 6.

WQQW Brochure

BROCHURE done in maroon and black on heavy grey stock has been prepared by WQQW Washington, new daytime outlet to operate on regional channel 570 kc with 500 w. Designed as introduction to Washington advertisers and agencies, brochure follows pattern of mimeographed piece issued several weeks ago. Coverage map, operational data and policies are outlined. Rate card No. 1, effective only for contracts placed before station goes on air, is included.

Agency Promotion Tips

PROMOTION pegs are being sent to local radio stations by BBDO's radio publicity-promotion department whenever the department has worthwhile ideas to pass along. The pegs point up promotional possibilities for that show, including such items as albums, prospective give-aways on the show, displays, facsimile tickets and others. Department has set up this enterprise to assist work-laden local publicity and promotional managers.

Fairchild Catalog

NEW CATALOG has been published by Fairchild Camera and Instrument Corp., Jamaica, N. Y., to display its line of professional sound recording and playback equipment. Performance curves and detailed specifications are given for the Fairchild studio and portable re-

corders, transcription turntable, amplifier-equalizer, magnetic cutter-head, lateral dynamic pickup and "language master" playback.

Signs on Cabs

WGL Fort Wayne, Ind., now is using backs of 65 Safety Cabs in that city to boost station and NBC. Copy reads "Farnsworth WGL Your NBC Station." Frequency is not used. Although signs are painted on, a cut out is provided in pattern for insertion of new WGL frequency when it becomes effective. Station is moving to 1 kw on 1250 kc.

Poster Contest Winner

GRAND prize winner in WTIC Hartford, Conn., Fire Prevention Poster Contest conducted in Connecticut's public and private schools is Joseph Schwarz, who received \$100 saving bond on special events program and is student at West Hartford's William Hall High School. A number of other awards were presented.

Studios Now Open

WCAU Philadelphia is advertising that for the first time since the war the studio building is now open to the public. A staff of receptionists is on duty from 10:30 a.m. until midnight, and the station is making strong efforts to encourage inspection visits.

Script Published

MAGNETIC wire recorder interview aired by WELO Tupelo, Miss., in behalf of Army Recruiting Service, was published in November issue of The Recruiting Rocket, publication of the Mississippi Military Department Headquarters. Program concerned presentation of Bronze Star Medal to T/Sgt. James M. Faulkner Jr., of near Ecru, Miss.

On Jewish Market

TITLED "The Lowest Cost Admission to the World's Richest Market," booklet has been prepared by Joseph Jacobs Organization, New York, which introduces the potential advertiser to the home life, traditions and customs and buying habits of the Jewish people of that city. One section of the booklet is devoted to the Yiddish radio, press and theatre.

School Shows Noted

FOUR page bulletin devoted to the Yankee Network programs of special interest to educational groups has been prepared by the Massachusetts Department of Education for distribution to entire school system of that state. Mutual programs also are listed for inschool, out-of-school and adult listening.

Program Report

DETAILED report of the program activities of WSJS Winston-Salem, N. C., during United Nations Week is contained in brochure prepared and distributed by the NBC affiliate. Also included are reproductions of photos and stories carried by local press concerning station's project.

Studio Visits

MEMBERS of the radio classes of North Texas Agricultural College, Arlington, Tex., are meeting monthly in studios of

Promotion Personnel

JANE A. FLAHERTY, continuity editor of WIBC Indianapolis, has been named assistant promotion director of the station. She will aid SAM WHITE promotion manager, who has assumed new duties as assistant to GEORGE BIG-GAR, WIBC general manager. Miss Flaherty formerly had been with WKMO Kokomo, Ind., and CBS Chicago. EVA-MARIE HEANEY has been named to succeed Miss Flaherty as continuity editor.

ELIZABETH RING, member of the CBS press department, and WILLIAM L. HENNEFRUND, freelance writer, are to be married Dec. 23 in Wilton, Conn., home of the bride.

JO RANSON, WHN New York publicity director, and **RICHARD PACK**, WOR New York publicity director, are co-authors of a book titled "Quiz Book of the Seven Arts," published Nov. 23 by Summit Press, New York \$2.50. New book contains more than 1,000 questions and answers on movie, radio, books, music, theatre, art, dance, and has cartoons by Leo Garel.

WILLIAM FERGUSON, newsroom member of WCAU Philadelphia, has been appointed publicity director of the station. RUDOLPH J. BLOOM, director of research, has been named personnel director. Both posts formerly had been held by JOSEPH T. CONNOLLY who becomes program director Dec. 1.

HAL BOCK, NBC Western Division director of public relations and manager of television department, has been initiated as professional member of Sigma Delta Chi by U. of Southern California chapter.

tions. In addition annual award of plaque to outstanding club in county is planned.

House-Organ Story

PAST ISSUE of the Rocket, house-organ of Zollner-Piston Co., Fort Wayne, Ind., devotes cover and center picture spread to interview meeting of plant employes and WOWO Fort Wayne manon-the-street and to tour of station's studios.

Alberta Publication

NEWS OF ALBERTA stations and programs is contained in a new publication, Edmonton Broadcast Programs, issued in cooperation with Associated Radio Technicians of Alberta. Eightpage paper is issued weekly, gives station program listing and fan news.

Slogan Contest

KWTC Barstow, Calif., currently is conducting a slogan contest to select suitable catch-phrase for use in all promotion. Winner will receive Christmas present of \$50 war bond.

KWG Stockton, Calif., is promoting 4-H activities in San Joaquin County by awarding gavels to chapters for outstanding accomplishments. John Mc-Kenzie, farm editor, makes presenta-

Complete Log of 9 Stations Planned Report to Cover All Outlets in N. Y. Week of Dec. 1

DURING the week beginning Dec. 1, Radio Reports will compile a complete log of nine New York radio stations, covering all broadcasts from 7 a.m. to 11 p.m. and showing every program sponsor, participation, station break, spot announcement and other program details. Stations to be covered by the report are: WCBS, WNBC, WJZ, WOR, WINS, WHN, WMCA, WNEW, WQXR.

As announced last week by Edward P. Loomis, president of Radio Reports, this log is designed primarily to supply an accurate picture of competitive operations to a number of new stations who have expressed the desire for such information. Some stations have already contracted for the report and others are considering it, he said.

Report, Mr. Loomis said, will provide station research and promotion departments with material that will be valuable both in selling and in programming. The New York job may be repeated periodically during 1947, he said, and may also be expanded to other cities, with the collected data broken down by type of product and the information offered to advertisers and agencies.

WAA Advisory Group

INTERDEPARTMENTAL Advisory Committee on Surplus Electronics Disposal was formed Nov. 21 by War Assets Administration. It will aid in forming plans and policies to sell war surplus electronics and act as liaison between WAA, Army, Navy and FCC. Members are: Chairman, James A. Garfield, Assistant Deputy Administrator, Office of Surplus Disposal, WAA; George H. Moriarty, Director, Electronics Division, WAA; Capt. A. R. Taylor, Navy; Hugh W. Hammond, Army Air Forces; George P. Adair, chief engineer, FCC; Charles D. Ellison, WAA, secretary.

with Hollywood headquarters.

Lewis Offers Solution to CBC Clear Problem

NEW SUGGESTION to Canada's clear channel problems was made by Dick Lewis, publisher of Canadian Broadcaster, Toronto, at a talk to the Young Men's Canadian Club, Toronto, on Nov. 18. Mr. Lewis contends that it is not necessary for Canadian Broadcasting Corp. to seize three of the six clear channel frequencies now held by other than CBC stations, if CBC broadcast all its national programs right across Canada on its present frequencies. This would entail shifting of present and planned 50 kw CBC stations to the three frequencies held by CBC.

"The CBC will object," Mr. Lewis stated, "on the grounds that they would no longer be able to arrange their programs by regions, because the same programs would be heard at the same moment right across Canada. This objection will be quite without grounds because on its own chairman's statement, the CBC exists to render a national service while local broadcasting is the responsibility of private stations.

Lewis stated that while his plan would entail certain engineering problems, he has been assured it can be done.

Poll During Forum A TELEPHONE poll of listeners'

WCBS - TV RELEASES FIRST RATE CARD WCBS-TV New York, CBS video

WCBS-TV New York, CBS video station, has issued Rate Card No. 1, effective Nov. 1, 1946. Rates— \$60 for up to 15 minutes, \$90 for 15 to 30 minutes and \$150 for 30 to 60 minutes—have been in effect for some time [BROADCASTING, Oct. 7] but are now for the first time formalized as a rate card.

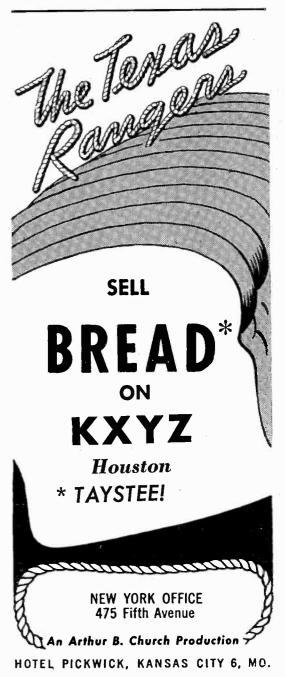

An accompanying letter from George Moskovics, commercial manager, states: "There are so few sets in use today that we do not believe it possible to project an intelligent rating of television's real commercial value. Charges therefore are based on the use of facilities rather than air time. They do not include such variables as cast, sets, properties and costumes."

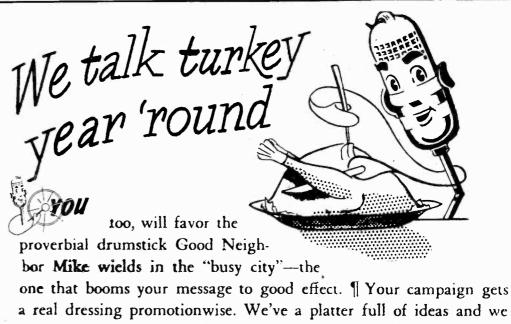

"As yet," Mr. Moskovics said, "CBS has set up no single rule governing the length of commercials. We feel that good practice can be established only by experience."

New Console Equipment

WOR New York has installed new custom-built Western Electric studio control booth equipment in three of its studios. Equipment provides complete studio-operating facilities designed into a single console for flexibility and ease of operation with minimum of controls with switching operations performed by movement of single control. Consoles because of their high fidelity and low noise level can be used to serve both AM and FM radio broadcast transmitters and network lines.

State Dept. May Act in Russian Ban

Columbia Directs Hottelet To Close Bureau In Moscow

IT APPEARED likely last week that the State Dept. will intervene in the Russian ban of U.S. network broadcasts originating in Moscow. Word from the State Dept. came as the Soviet Government rejected American petitions for revoking the Oct. 8 order denying U.S. radio correspondents use of Russian shortwaye facilities [BROADCASTING, Nov. 11].

The Soviet Government made its position clear in a message to CBS Correspondent Richard C. Hottelet, in Moscow. Although the message bore no signature it was plainly a reply to one dispatched a fortnight ago to Premier Stalin by CBS Vice President Edward R. Murrow.

With future broadcasting from the Soviet Union to the U.S. clearly impossible, Mr. Murrow cabled his correspondent to close the CBS Moscow bureau and leave the U.S.S.R.

Last Correspondent

Mr. Hottelet was the last fulltime correspondent of any U.S. radio chain in Moscow. Other networks have been represented by newspaper correspondents.

The Russian message came from the Press Department of the Russian Ministry of Foreign Affairs, according to Mr. Hottelet's report to his headquarters. It explained that radio correspondents had been permitted to broadcast from Russia only because "other forms of communication were made difficult by wartime conditions."

The Soviet Government pointed out that before the war correspondents had been permitted to use only telegraphic communications and that the Oct. 8 order

Crosley Bcstg. Corp., Cincinnati, Ohio —Granted CP for a new station; fre-quency 66-72 (Channel No. 4); visual 34 kw, aural 17 kw power; antenna 603 ft. (Comr. Durr for hearing.) Crosley Bcstg. Corp., Columbus, Ohio —Granted CP for a new station; fre-quency 60-66 mc (Channel No. 3); visual power 48 kw aural 24 kw; an-

visual power 48 kw, aural 24 kw; an-tenna 546 ft. (Comr. Durr for hearing.)

Action in Docket Case The Commission announces adoption of an order making final its proposed decision granting the application of Old Dominion Bcstg. Corp. for a new station in Lynchburg, Va., to operate on 1390 kc, with power of 1 kw, unlimited antenna, and time, using a directional antenna, and granting the application of John M. Rivers for construction permit to increase power of WCSC, Charleston, S. C., from 1 kw day, 500 w night, to 5 kw; using a directional antenna at night only, operating on frequency 1390 kc, unlimited time. Both grants are subject to CAA approval of transmitter site. The application of Piedmont Bcstg. Corp., licensee of Station WBTM, Dan-ville, Va., for CP to change operating assignment of that station from 1400 to 1390 kc, and increase power from 250 w to 1 kw, unlimited time was previously removed from this consolidated proceeding.

represented a return to prewar practices.

"Provision of time for these radio broadcasts is also made difficult," the message said, "because radio transmitters are overburdened."

Mr. Hottelet said he asked the acting chief of the Foreign Office Press Department whether the order specifically excluded correspondents from using radio telephone facilities. "He emphasized that correspondents before the war sent their messages by telegraph," Mr. Hottelet reported to Mr. Murrow. "He further pointed out to me that (the order) specified a return to prewar procedure."

After receiving the Russian Government's rejection from his correspondent, Mr. Murrow cabled Mr. Hottelet: "In view of Russian Government's decision, please close office and proceed soonest Berlin where further instructions awaiting."

'Not Final'

State Dept. officials met queries with the statement that "this is not entirely final," although none would comment beyond saving that the Department had not "given up hope." It was learned authoritatively that conversations already are taking place between U.S. Ambassador Walter Bedell Smith and Soviet officials and that General Smith is stressing the importance of continued broadcasts as a means of strengthening confidence between the peoples of Russia and the U.S.

It was understood that the State Dept. had not taken formal action because some of the networks felt they might work out some agreement with the Soviet Ministry of Information without going through diplomatic channels. Since the U. S. S. R. has turned down private industry's requests, it was reported that the State Dept. now may make formal representations.

It was pointed out that Tass, the Russian news agency, has originated some live broadcasts from United Nations meetings in New York and that this country has not denied Russian radio correspondents facilities for broadcasts to their homeland. Regularly scheduled broadcasts are being originated from U. S. for Russia now. Whether the United Nations Educational, Scientific and Cultural Organization, now meeting in Paris, will take up the Russian ban on U. S. newscasts could not be learned, although it was recalled that one of the prime objectives of UNESCO is the free flow of news between nations. Russia, however, did not attend the original UNESCO meeting some months ago, although an invitation was extended.

in an attempt to encourage a reversal of the Russian order of Oct. 8 [BROADCASTING, Nov. 11] and at the same time Mr. Murrow cabled a request for reconsideration direct to Premier Stalin.

Meanwhile, ABC's executive vice president, Robert E. Kintner, had cabled Lt. Gen. Walter Bedell Smith, U. S. Ambassador to Moscow, a request for clarification of the Soviet ban. Last week Mr. Kintner received a reply.

Mr. Kintner described the message from General Smith as "confidential" and explained he was not, therefore, at liberty to divulge its contents.

Another network executive who refused to be quoted proposed retaliatory action against the Soviet broadcasting ban. "Action should be taken to get Russian representatives of Tass thrown out of the press galleries of both the House of Representatives and the Senate," he said.

Full text of the Russian Government's message to CBS:

In connection with your telegram of Nov. 8, 1946, concerning radio broad-casts from Moscow by your correspond-ent, Richard Hottelet, Press depart-ment, Ministry of Foreign Affairs, USSR,

has been directed by the chiefs of the Ministry to inform you the following: First, previously foreign correspond-ents did not have radio broadcasts from Moscow but sent their correspond-ence by telegraph

ence by telegraph. Secondly, during the war two or three correspondents were given the privilege, as a temporary measure, of transmit-ting news by radio due to the fact that other forms of communication were made difficult by wartime conditions.

Thirdly, the recent halting of these radio broadcasts means the abolition of this temporary measure in the light of the functioning of ordinary means of communication.

Provision of time for these radio broadcasts is also made difficult because radio transmitters are overburdened. Correspondents who temporarily had radio broadcasting facilities may, if they want to, continue their work as before and send their correspondence as they did before the war.

Montgomery Ward

(Continued from page 17)

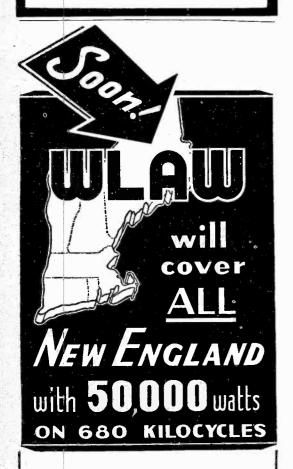

advertising. An increase in the radio as well as newspaper budgets appears in the offing for the ensuing sales year.

No attempts to check the effectiveness of radio as opposed to that of newspaper have been made nor are they contemplated. "We've had good results with both," Mr. Martin pointed out, "and we feel radio has advanced beyond the 'testing' stage.' A combination of both radio and newspaper is the ideal set-up for retail promotion."

FCC Reports

(Continued from page 20)

ready on file, the effect is to incorporate that data by reference and make it a part of the application.

Contee Rose, Baltimore attorney for Tower Realty, attempted to show a variance in the figures on WCBM President John Elmer's income from the station as set forth in a WCBM exhibit and as reflected in the station's annual financial reports to FCC.

A contract was introduced showing that Mr. Elmer, who with his wife owns 49% of WCBM stock, receives 35% receipts of WCBM time sales except those to networks. In the latter case the contract calls for him to receive 20%, but it was testified that he actually receives only 15%. After paying sales expenses, according to the exhibit, Mr. Elmer's net earnings from WCBM in recent years ranged from \$27,516 in 1942 to \$54,435 for the first 10 months of 1946.

Queried about what Mr. Rose called inconsistencies between the exhibit's figures and Mr. Elmer's income as reflected in the financial reports, Mr. Elmer said he was not acquainted with financial details of the company, which were left to his son-in-law, George H. Roeder, WCBM secretary-treasurer and general manager.

Mr. Roeder already had testified and been excused by Examiner Stein. Mr. Spearman noted that he gave counsel for other participants advance notice that Mr. Roeder was the man most familiar with financial details, and told them: "You missed your chance to get your red meat."

Seeks Change to 680 kc

WCBM is seeking to change from 1400 kc with 250 w to 680 kc with 10 kw day and 5 kw night, directionalized fulltime. Tower Realty, headed by Maj. Gen. Philip Hayes, former commander of the 3rd Service Group, U. S. Army, is seeking the same assignment for a new station at Baltimore.

Others in the 680 kc hearing: Foundation Co. of Washington, headed by Elmer W. Pratt, Washington radio attorney, seeking a new Philadelphia station on 680 kc with 10 kw, directional antenna fulltime (Foundation is also a Washington applicant and Treasurer Lawrence J. Heller, former majority owner of WINX Washington, said it might also file for a new Baltimore outlet); WRNY, new station at Rochester, N. Y., applying for fulltime instead of daytime operation on 680 kc, and Lomar Broadcasting Co., seeking a new station at Lancaster, Pa., on 680 kc with 5 kw day and 1 kw night, directionalized. The hearing was conducted Nov. 5-15. In addition to Mr. Stein as examiner, FCC was represented by Theodore Baron as Commission counsel.

Varied Decisions on Overlap Cited by Counsel for WADC

A LOOK at FCC's past interpretations of the multiple ownership rule (Sec. 3.35) was provided last week in a summary presented to the Commission by Paul M. Segal of the Washington law firm of Segal, Smith & Hennessey.

It was submitted by Mr. Segal, counsel for WADC Akron, during his argument for elimination of the "exception" clause of the rule and against, specifically, the proposed waiver of the rule as applied to WGAR Cleveland and WJR Detroit in the WGAR-WADC case involving use of 1220 kc with 50 kw (story page 36).

The list does not include proposed decisions on the WGAR-WADC case, nor on the Ashbacker-Fetzer case, in both of which the Commission ruled other factors justify grants to WGAR in the former and, in the latter, to Fetzer Broadcasting Co. for a new Grand Rapids station whose daytime service would overlap that of Fetzer's WKZO Kalamazco.

By way of comparison with the extent of overlap involved in past decisions, Mr. Segal noted that the daytime overlap between the two Fetzer operations would be 100%. In the WGAR case, he said WJR's service area would overlap WGAR's "in its entirety," with WJR's nighttime fading-free coverage including 75.9% of WGAR's population.

The summary (last three on the list were "existing situations" when the duopoly rule was adopted; others arose later on application for new stations):

Existing station: Hannibal, Mo. Pro-

Jimmy Walker, Former N. Y. Mayor, Dies at 65 JAMES J. WALKER, 65, president of Majestic Records Inc., New York, and at one time mayor of New York City, died on Nov. 18 at Doctors Hospital, New York, as a result of a blood clot on his brain.

Mr. Walker joined Majestic Records, which is a wholly owned subsidiary of the Majestic Radio and Television Corp., as president in March 1945. He is survived by two adopted children, James John Walker II, and Mary Ann Walker, and a sister, Nan Walker Burke.

No successor to Mr. Walker has been announced as yet by Majestic.

posed station: Mexico, Mo. Overlap: existing over proposed, two millivolts per meter, 60% of area; half millivolt per meter, 100% of area. Proposed decision: denial.

Existing station: Washington, Pa. Proposed station: Pittsburgh, Pa. Proposed decision: grant on condition applicant divests Washington station.

Existing station: Steubenville, Ohio. Proposed station: Pittsburgh, Pa. Overlap: existing over proposed, 17.5% of area, 5.4% of population; proposed over existing, 54% of area, 43.3% of population. Proposed decision: grant.

(FM) Existing station: Steubenville, Ohio. Proposed station: Pittsburgh, Pa. Overlap: existing over proposed, 74% of area, 84% of population; proposed over existing, 37% of area, 26.6% of population. Proposed decision: denial.

Existing station: St. Augustine, Fla. Proposed station: Jacksonville, Fla. Overlap: proposed over existing, 75% of area, 50.2% of population. Proposed decision: grant on condition applicant divests St. Augustine.

Existing station: Gulfport, Miss. Proposed station: Biloxi, Miss. Overlap: new station would overlap eastern residential area of Gulfport; existing station over proposed, 60% of area, 23.7% of population (rural). Proposed decision: denial.

Existing station: Winchester, Va. Proposed station: Martinsburg, W. Va. Overlap: existing over proposed, 73% of area, 39% of population. Final decision: denied.

Existing station: Evansville, Ind. Proposed station: Evansville, Ind. Overlap: existing over proposed, 100%; proposed over existing, 20% of area, 33 1/3% of population. Final decision: denied.

(Day) Both stations: Sioux Falls, S. D. Overlap: existing over proposed, 100%. Final decision: denied.

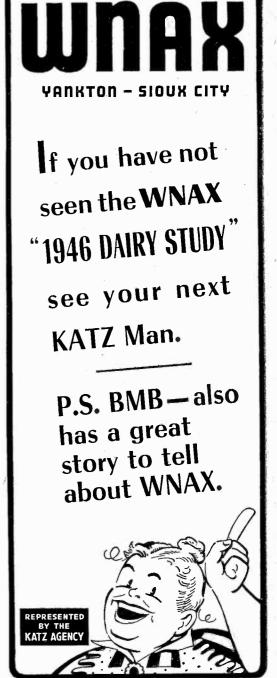

(Night) Both stations: Sioux Falls, S. D. Overlap: none, since existing station does not operate at night. Final decision: denied.

Nielsen

(Continued from page 18)

of U. S. census figures "countyby-county, town-by-town on number of persons in a family, homes owned versus rented, educational level of head of household, occupation of employed persons, etc.," against which the diary sample can be allocated. Next, public individuals such as librarians, school principals, town clerks, etc., are asked to suggest families "meeting the specifications the controls have dictated." These families are sent a questionnaire about their listening habits, size of family, etc. Finally, "the individual is asked if he will cooperate, if generously rewarded, in an important scientific radio survey which will involve the whole family keeping records of its listening for an entire week."

Mr. Nielsen criticized this method as "inevitably" producing an untypical sample, because the families responding are "willing to answer letters, abnormally interested in radio, willing and able to keep detailed records and/or abnormally interested in or in need of compensation." In contrast, he said that this company, by "extensive, meticulous and costly research," has "proved conclusively" that Nielsen Radio Index homes are properly distributed and do not differ from average radio homes in respect to either quantity of listening or type of programs heard.

Ever see a Spartan sell Tractors?

Farmer Cliff Gray sold 57 units of Ford-Ferguson tractors and Mercury and Ford cars within 60 days on his Monday through Saturday program, "The Piedmont Farm Hour". The average price of these 57 tractors and automobiles was \$1500. Total sales: \$85,500.

diction over radio regulation by Congress.

He told of the Commission's multiple grants to small towns, such as the Pocatello, Idaho, situation where five AM stations have been granted to a city of 18,000, thereby making radio the "survival of the fittest."

"Everyone has assumed that there is no right of appeal," said Mr. Lohnes. "If a broadcaster can show that the public interest is going to be harmed, he has a right of appeal. Certainly it could be termed an adverse effect on the public interest if four stations were going to go broke, leaving a community without adequate service."

Mr. Lohnes saw in the FCC Blue Book a violation of the Supreme Court decision in the Sanders Brothers case, when the court held that the FCC had no control over programs or business practices of stations. On the other hand, he pointed to a Court of Appeals decision in the Brinkley license revocation proceeding which held that the Commission had the right to consider past performance in removing licenses.

"Nobody knows what the court is going to say in view of these conflicting philosophies," he said. He urged licensees whose licenses are in the name of other corporations—such as newspapers — to separate broadcasting interests from other businesses.

"In the case of a newspaper owning a radio station and the station license is issued in the name of the newspaper, the publisher cannot sell his property without approval of the Commission," said Mr. Lohnes. "That, in effect, gives the Government control over who shall publish newspapers." He cited the Crosley Corp. sale to Aviation Corp. and the resulting Avco rule.

Mr. Lohnes spoke of limitations placed on FM by the Commission and of the need for remedial radio legislation. Radio, he said, had outgrown the Communications Act of 1934, which in fact is 19 years old because it embodies the old Radio Act of 1927.

Building Peace

At a luncheon session Friday, J.

MARRIED in Detroit Nov. 9 were William J. Scripps, vice president and radio director of Detroit News Co., and Virginia Littlepage, formerly of Maxon Inc., Detroit, and J. Walter Thompson Co., Detroit.

knowledge among peoples is necessary.'

"We in radio must be internationally minded. Our radio managers, program directors, news editors, all must know news, must take the lead in their communities in promoting peace not alone with fine network shows but with locally conceived and produced programs.

"This is a difficult task. Destiny, however, has given American radio the challenge of the ages. May we have the wisdom, courage and foresight to use our facilities to accept the challenge and help build a lasting peace."

At a Friday afternoon session, over which John M. Outler, general manager of WSB Atlanta, presided, Richard S. Nickeson, assistant professor of radio journalism, Grady school, discussed "Production of Copy" and Irvin G. Abeloff, general manager of WLEE Richmond, Va., spoke on "Production on the Air."

Radio's Sales Power

Frank E. Pellegrin, NAB director of Broadcast Advertising, speaking on "Radio Selling in 1947," observed that to achieve success in radio advertising "the product must be right; the program must be right; the audience must be right. This means the application of the 'beamed program technique' whereby a specific program on a specific station or network, at precisely the right time is beamed at the particular type of audience attracted by that program and delike all type of programs; radio uses the human voice, the most effective means of communication; radio appeals most strongly to the emotions; it has won the confidence of listeners; children have more faith in it than in other media; radio advertising is timely; it tells an adequate story; it enters the home by invitation; it sells the right person; it has become the greatest medium of mass communication the world has ever known.

Henry Ringgold, of Edward Petry & Co., also spoke on sales. Promotion discussions were presented by Tom Connally, promotion director of CBS, and E. P. J. Shurick, promotion manager of KMBC Kansas City.

Dean Drewry was assisted in handling the institute by a committee composed of Messrs. Cobb, Outler, Smithgall, Jack Williams, WAYS Waycross, and Dwight Bruce, WOTC Savannah.

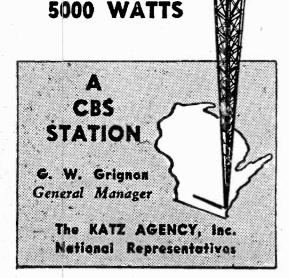

Engineers Discuss Region Agreement Sessions Will Be Resumed in

Washington Nov. 26

FOLLOWING two days of preliminary discussions an informal engineering conference preparatory to drafting U. S. proposals for the Third North American Regional Broadcasting Agreement was adjourned last week until 10 a. m. Tuesday (Nov. 26) in Room 6121, New Post Office Bldg., Washington.

Industry and FCC engineers met Tuesday and Wednesday with George P. Adair, Commission chief engineer, to consider a rough draft of this country's proposals, prepared by the FCC. There was disagreement over some policy matters and the industry engineers requested that Mr. Adair return the draft to the Commission with recommendations for changes.

Tentative agreements were reached on the technical section of the proposed recommendations. which must be filed with the Inter-American Radio Office, Havana, by Jan. 2, 1947. Mr. Adair said the meetings would continue this week until the U.S. proposals are completed. Attending last week's meetings were, in addition to Mr. Adair: E. F. Vandivere, Ralph J. Renton, R. G. Weston, Fanney N. Litvin, James E. Barr, H. W. Graham, all of the FCC; James P. Veatch, RCA, Jay W. Wright, CBS; W. S. Duttera, NBC; John S. Cross, State Dept.; John H. De-Witt Jr., Clear Channel Broadcasting Service; E. C. Page and E. M. Johnson, MBS; Frank Marx and John G. Preston, ABC; H. J. Beecher, Kear & Kennedy, consulting engineers; G. M. Lohnes, Lohnes & Culver, consulting engineers: Jules Cohen, Weldon & Carr, consulting engineers; T. A. M. Craven, Cowles Broadcasting Co. (who signed NARBA on behalf of the U. S.); G. Porter Houston, WCBM Baltimore, as NAB observer.

Page 88 • November 25, 1946

Leonard Reinsch, managing director of the Cox stations and radio adviser to President Truman, said radio's greatest public service opportunity is to help build international peace. His topic was "Radio in the Public Service."

"As the President said at the opening of the UN conference in New York," said Mr. Reinsch, "'Since wars begin in the minds of men, the defense of peace must be constructed in the minds of men, and a free exchange of ideas and sired by that sponsor. When these fundamentals are properly provided, radio will succeed because success is inherent in the characteristics of the medium."

Mr. Pellegrin cited these radio traits: More people are listening every year; more people enjoy it as their favorite source of entertainment and news and as the activity to which they devote more time than to any other except work or sleep; over 89% of all families own one or more sets and 83% of these listen every day; listeners

Ed Willis Is Elected WJOL Joliet Former Owner's President of KBA Kentucky Broadcasters Convene Right to Air Time Defended

At Lexington Nov. 15-16

ED WILLIS, of the Nunn Stations, Lexington, was elected president of Kentucky Broadcasters Assn. at its Nov. 15-16 convention held at the Lafayette Hotel, Lexington. First vice president is Harry McTigue, WINN Louisville, with F. Earnest Lackey, WHOP Hopkinsville, as second vice president and Harry Callaway, WHAS Louisville, secretary.

Directors for the coming year are Porter Smith, WGRC Louisville; Hugh Potter, WOMI Owensboro, retiring KBA president, and Neil Cline, WLEX Lexington. Paducah was named as site for next convention. No date was set.

Legislative committee empowered to acquaint new members of Congress with legislation in which the industry is interested will be named by President Willis. Growing practice among colleges and high schools to charge for broadcast of football and basketball was criticized.

Problems of small stations were analyzed by J. Allen Brown, NAB FCC was told last week that the time-lease which was the basis of its proposed denial of license renewal to WJOL Joliet, Ill., might aptly be compared to the usual contract with an advertiser, so far as its effect on station operation is concerned.

Abe Fortas, former Under-secretary of the Interior, appearing as attorney for A. J. Felman, former owner of the station and holder of the time contract, asserted that the present owners of WJOL retain full responsibility for its operation, that the contract is subject to FCC regulations and the station's rules, and that it has been on file with FCC and its predecessor Federal Radio Commission since 1932 and never before has been challenged.

The contract allocates to Mr. Felman, department store owner, 45 minutes daily (in two specific periods) so long as the station operates, to advertise his business or that of any person or firm doing business with him. When it was brought out that he sells portions

a special interest broadcast in the period allotted to him.

Asked whether the station might schedule another commercial program regularly in the Felman period, he said he thought Mr. Felman's approval would be necessary. But, he said, WJOL might put any program it wished into that period if sponsorship was attributed to Mr. Felman.

WJOL Noncommittal

Richard C. O'Hare of the Washington law firm of Dempsey & Koplovitz, counsel for WJOL, said the station was taking no position either for or against the contract but that it did restrict somewhat the station's control over broadcast time. However, he said, WJOL retains control over "every word" that is broadcast. He estimated the time provided to Mr. Felman under the contract would cost \$7,000 a year "at the lowest rate."

FCC's proposed decision, announced last summer, held that a time-lease for a long, indefinite period renders a licensee "impotent" to assume full responsibility for station operation. It anticipated denial of the renewal application without prejudice to a showing by WJOL, within 30 days of finality of the decision, that the contract was being given no further effect [BROADCASTING, July 22]. WJOL operates on 1340 kc with 250 w fulltime. The present owners, headed by Calvin Wilson of Charleston, W. Va., bought the station in 1945. In approving that transfer, FCC reserved the question of the time contract for consideration with the renewal application.

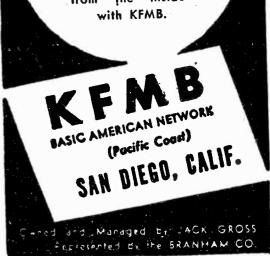

U. S. Census shows San Diego metropolitan district with post-war civilian population of 465,720. San Diego city population jumps 78% over 1940! This lucrative morket is yours "from the inside"

assistant director of broadcast advertising. Arthur C. Stringer, NAB director of special services, held a round table on radio news. At the Friday night banquet William H. Cartwright, of the Detroit office of Edward Petry & Co., described the firm's St. Louis survey.

Plans for the first formal radio instruction courses at the U. of Kentucky were outlined by Elmer Sulzer, head of the university's School of Radio Arts. Delegates were guests of the Nunn stations at luncheon and attended the U. of Kentucky-W. Va. football game.

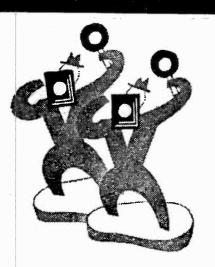

of his time, Acting Chairman Charles R. Denny Jr. questioned whether in effect he isn't operating "a little, 45-minute station."

In support of the analogy Mr. Fortas pointed out that the contract was part of the sale price when Mr. Felman sold the station in 1932 (he also received \$5,000) and that because of it Mr. Felman originally and all purchasers since then have benefited from smaller purchase prices than otherwise would have been charged. He said Mr. Felman had never refused a WJOL request for substitution of

NAB Staff Has Big Part in Area Meets

First Meeting Scheduled For Pacific Coast Jan. 8-10

THREE-DAY "flea circus" programs, in which NAB's headquarters staff will participate to a greater extent than formerly, will be held during the winter when the new "area" plan goes into operation. First of the area sessions will be held Jan. 8-10 in San Francisco when the Pacific Coast segment composed of Districts 15, 16 and 17 meets at the Mark Hopkins Hotel. An eight-man headquarters crew is slated to take part.

The area idea was developed at the new NAB Board of Directors meeting in Chicago Oct. 25, after close of the convention. Under the plan the headquarters group will direct two days of each three-day meeting with each district holding separate meetings on the third day. This plan gives broadcasters a complete program in which special subjects are covered by staff experts. At the same time the autonomy of the separate districts is retained, with the travel burden of officers lightened.

The original eight-area program, suggested by the board, will be modified to some extent to meet desires of the districts. Itinerary for the winter circuit is starting to take shape under direction of C. E. Arney Jr., NAB secretary-treasurer, and board members.

Opening area meeting will find Districts 15, 16 and 17 in joint session. It will follow immediately the Jan. 5-7 board of directors meeting at the Mark Hopkins Hotel. Districts 15 (No. Calif., Nev., Hawaii) and 17 (Alaska, Ore., Wash.) will assemble intact but District 16 (Ariz., So. Calif., N. M.) may be split.

Some New Mexico stations, along with stations in the western tip of Texas (now District 13), have asked to be included in District 14 (Col., Idaho, Utah, Wyo., Mont., western S. D.) on the ground that travel is easier to Mountain cities and their interests are closer to these States than to the Pacific group.

By-Law Amendment Needed

Amendment of the by-laws of the association is required for revision of districts, with the By-Laws Committee scheduled to meet in Washington Dec. 16-17. Committee members are J. Harold Ryan, Fort Industry stations; Edgar Kobak, MBS; G. Richard Shafto, WIS Columbia, S. C., a board member for medium stations. Messrs. Arney and Don Petty, NAB general counsel, will participate. Pellegrin, director of broadcast advertising; J. Allen Brown, assistant director of broadcast advertising in charge of the Small Market Stations Division; Mr. Petty; Richard P. Doherty, director of employe-employer relations; Kenneth H. Baker, director of research. Robert C. Coleson, assistant to the president, also is expected to take part in this meeting.

Small market stations will occupy a prominent position in the area meetings, with Mr. Brown scheduled to make the entire circuit. Already stations are submitting suggestions for subjects to be covered.

Second Meeting

Second area meeting is scheduled Jan. 13-15 at the Hotel Utah, Salt Lake City, with the geographically large Mountain region (District 14) comprising an area all its own. The program will differ from the San Francisco agenda since only one district will participate. Third day will be devoted to a radio news clinic, called by Director Hugh B. Terry, KLZ Denver. Past news clinics have comprised only small areas covering a

Lynchburg Grant; WCSC Gets 5 kw Old Dominion Gets 1390 kc With 1,000 w Fulltime

AN ORDER making final the proposed decision to grant Old Dominion Broadcasting Corp.'s application for a new station at Lynchburg and the application of WCSC Charleston, S. C., for an increase to 5 kw power fulltime was adopted by FCC last week.

The grant to Old Dominion was for use of 1390 kc with 1 kw directionalized fulltime. The WCSC grant is for an increase in power on 1390 kc from 1 kw day and 500 w night to 5 kw unlimited time with directional antenna at night.

The Lynchburg grantee firm is headed by David Hugh Dillard, 85% owner of Old Dominion Box Corp. which owned 2.08% of common stock and 4.35% of preferred stock of WLVA Richmond, but FCC said the box company had relinquished its holdings in the existing Lynchburg station.

Mr. Dillard, his son, Edward S., and his brother, Dr. Powell G. Dillard, own 20% each in the new radio company. Chapman S. Hoge, brother-in-law of Dr. Dillard, and Robert Harrison Woods, Dr. William Douglas Pedigo, and John L. Dillow own 10% each. Finality to the proposed grant [BROADCASTING, June 10] was authorized after WBTM Danville, Va., which had received a proposed denial of its application to change from 250 w on 1400 kc to 1 kw $\,$ on 1390, amended to specify a nonconflicting frequency.

single State, or less. The clinic plan, directed by Arthur C. Stringer, NAB director of special services, was instituted a year ago and this will be the 16th of the series.

Flea circus schedule is indefinite after the Salt Lake City gathering. Only other area meeting definitely booked is a joint session of Districts 4 (D. C., N. C., S. C., Va., W. Va.) and 7 (Ky., Ohio) at the Roanoke Hotel, Roanoke, Va., April 28-29.

Joint meeting of Districts 10 (Ia., Mo., Neb.) and 12 (Kan., Okla.) was originally planned. Sentiment among stations favors Kansas City as a convention site but difficulty has arisen in obtaining hotel facilities. St. Louis was considered too far east for an area meeting. A similar hotel problem has developed in the proposed area meeting for District 8 (Ind., Micn., except 2 counties), 9 (Ill., Wisc., in part), and 11 (Minn., N. D., Mich. in part, eastern S. D.).

Tentative Schedule

Since one of the main purposes of the area plan is to ease the travel and time problem for NAB executives, a tentative itinerary is being considered for a separate meeting of District 13 (Texas) to be followed in a day or two by an area session covering Districts 6 (Ark., La., Miss., Tenn.) and 5 (Ala., Fla., Ga., P. R.).

Plan to merge the three northeastern district meetings appears doomed but the travel and time problem for the Washington staff is not serious in this part of the country. Stations in District 1 (Conn., Me., Mass., N. H., R. I., Vt.), District 2 (N. Y., N J.) and District 3 (Del., Pa., Md.) have voiced opposition to the area plan and judging by present indications they will meet separately. District 3 is expected to hold its meeting in Baltimore.

NAB budget for the coming year will be taken up by the newlyappointed Finance Committee Dec. 5-6. Committee members are: Clair R. McCollough, WGAL Lancaster and board member for small stations, chairman; John J. Gillin, WOW Omaha, District 10 director; Campbell Arnoux, WTAR Norfolk, District 4 director; Paul W. Morency, WTIC Hartford, District 1 director; Leslie C. Johnson,

Scheduled to take part in the opening area meeting at San Francisco are President Justin Miller; Executive Vice President A. D. Willard Jr.; Mr. Arney; Frank E. WHBF Rock Island, District 9 director.

Membership of other NAB committees will be announced this week as soon as acceptances have been received.

WWNR Manager Quits H. J. FORBES has resigned as manager of WWNR Beckley, W. Va., one of the Rahall stations, effective Nov. 30. N. Joe Rahall, president and general manager of Rahall Broadcasting Co., plans to assume complete charge of WWNR.

Three Stations in New England Are Given NBC Service Awards

WCSH Portland, Me., WTIC Hartford, Conn., and WJAR Providence, R. I., have been formally awarded 20-year plaques by NBC as three of the original six affiliates of the network. Similar presentations are also scheduled for the other three pioneer affiliates, WWJ Detroit, WDAF Kansas City and KSD St. Louis, although NBC has not yet completed arrangements.

WCSH received its commemorative 20-year bronze plaque on Nov. 20 at a dinner held in the Eastland Hotel, Portland. The presentation was made by Sheldon B. Hickox Jr., manager of NBC station relations, to William H. Rines, WCSH managing director. Following the presentation Philip I. Merryman, manager of NBC planning and development, addressed the gathering on "Television, the New Advertising Medium."

Among the guests at the dinner were Lyman S. Moore, Portland city manager, Edward E. Guernsey, manager of WLBZ Bangor; Jack S. Atwood, manager of WRDO Augusta; Creighton E. Gatchell, manager of WGAN Portland; manager of Charles Curtin, WMTW Portland; Carleton D. Brown, manager of WTVL Waterville, Me.; Robert E. Beith, managing editor of both Portland newspapers; John W. Moran, executive secretary to the Governor of Maine and sportscaster for WCSH, WLBZ and WRDO; and Everett Greaton, executive director of the Maine Development Commission.

WTIC, WJAR Also Feted

Meanwhile the network had presented a bronze plaque commemorating the 20th anniversary of the NBC-WTIC affiliation (see photo) to the station at a dinner on Nov. 19 in Hartford [BROADCASTING, Nov. 18]. The plaque was presented by NBC President Niles Trammell to Jesse W. Randall, president of the Travelers Insurance Co., which owns the station. Both Mr. Trammell and Justin Miller, NAB president, addressed the gathering. Other NBC officials who attended the dinner were William S. Hedges, vice president in charge of planning and development, Sydney H. Eiges, press department manager; Mr. Hickox; Thomas McGray, na-

BMB Data Release Is Hit as Premature Coverage Maps Are Discussed By Timebuyers of AAAA

THIRTY-FIVE timebuyers and radio producers associated with agencies affiliated with AAAA, meeting in Chicago last Tuesday, voiced criticism at BMB for what they termed poor timing in releasing BMB data and coverage maps ahead of those to be mailed to agencies.

When members were called on to voice opinion of BMB reports, Bob Mason, general manager of WMAN Marion, Ohio, displayed coverage maps which showed 50% intensity and other maps to indicate intensity county by county in lesser degrees.

Consensus of members present was that some agreement must be reached between BMB, stations and agencies as to the definite percentages by counties that would be given on each coverage map. They agreed that three colors representing 50% intensity and over, 25 to 50% and under 25% would probably be the most satisfactory method of presenting station coverage claims.

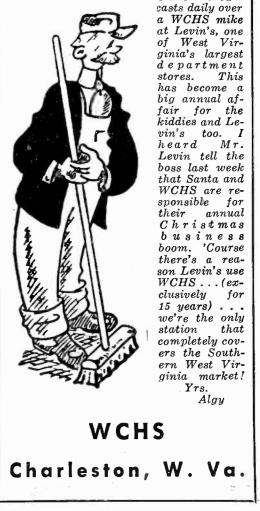

Harlow Roberts, who presided as chairman of the AAAA radio panel, then canvassed each of the 35 members present for their views on the BMB reports. A transcript will be sent to BMB national headquarters, he said.

HOOPER SAYS RADIO SHOULD TAKE LEAD C. E. HOOPER, speaking Nov. 14 before the Advertising Club of Indianapolis, said that "radio, which

operates in a national goldfish bowl, should be the standard-setter for all media of communication, entertainment and enlightenment. Radio's size, radio's universal availability to young and old, radio's inherent effectiveness and influence demand it."

The program-rating executive outlined briefly the manner in which his ratings "select the programs which stay on the air." He said, "the public votes twice a month and the results reach all parties concerned within a few days. The vote is not an opinion but rather a preference expressed in terms of actual listening to a program. It is cast in absolute privacy; it is uninhibited. It is uninfluenced by party affiliation or the oratorical machinations of political candidates. "Each vote is equal to every other vote. The advertiser, the network, the agency-at times our own government-accept the public's decision, within the limits of its applicability, as final," Mr. Hooper sad. "Radio's process of rating its audience, combined with radio's application of the ratings to programming, furnishes the best available example of the pure democratic process at work."

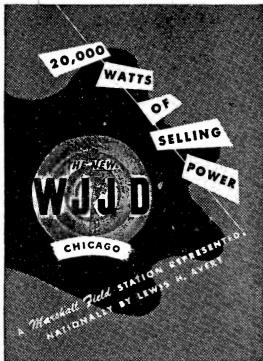

tional program manager and a program manager at WTIC for several years; and Norman L. Cloutier, Radio Recording's Thesaurus program manager, and former associate musical director of WTIC.

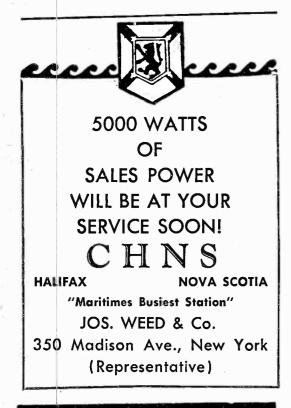

President Miller, speaking on "The American System of Broadcasting Is the Best in the World-Why?" pointed to a "recent. subtle change" in the Government's attitude toward broadcasting freedom and a "dangerous tendency" toward increasing control. He described American radio as "a free

1100 Attend AAAA Eastern Meeting

7 Closed Panels Held; **Chairmen Review** Discussion

MORE than 1100 agency representatives met last Monday in New York at the Waldorf Astoria for the 1946 Eastern Annual Conference of the American Assn. of Advertising Agencies.

The meeting, termed by Robert M. Ganger, New York council chairman, "the most successful and largest conference we've had," consisted of seven panels, all closed to the press. At the evening banquet in the grand ballroom, Time-Life-Fortune Editor-in-chief Henry R. Luce made the principal address, speaking on "U. S. Foreign Policy."

Panel chairmen, meeting with the press at the close of the sessions, outlined briefly the topics covered during the closed group meetings. Of particular interest to broadcasters was the panel on radio production, of which William B. Lewis, Kenyon & Eckhardt vice president and radio director, was chairman.

"Major Problems Facing Radio Production Men Today" was the subject of the two-hour panel over which Mr. Lewis presided. "We discussed the Bing Crosby show at length," said Mr. Lewis. The general consensus throughout this discussion was that it is difficult to judge the merits of transcription by the Hooperating which the Crosby show received.

"Only under controlled conditions could an accurate rating be obtained," said Mr. Lewis. "If Crosby had gone on with a live program for several weeks prior to releasing his transcribed show, then the ratings could be compared and clear results could be determined. A recent survey showed that only 7 per cent of Crosby listeners could detect that his show was recorded and not live."

Says New Ideas Needed

Mr. Lewis summarized the constructive criticism which Harry Ackerman, vice president of program operations at Young & Rubicam, leveled at radio and agencies. Mr. Ackerman said that there is a great need for new ideas in radio. "He thinks that the networks

AT AAAA convention in New York last week H. W. (Tex) Roden, president of American Home Foods Inc., and William C. Gittinger, CBS vice president in charge of sales, enjoy a meal together.

"also thinks advertising agencies should develop systems to bring in new ideas. He thinks advertisers should give serious thought to presenting local and regional radio shows, adding them to their budgets along with their regular network presentations."

Talent costs and musicians' fees for both recorded and live shows were discussed by the radio panel. "In our discussion on packaged programs," said Mr. Lewis, "we stuck to such topics as who should have control of the packaged shows, proper pricing of the shows, and whether or not they should be restricted to stars . . . since in a packaged program, nobody gets much chance to use creative imagination."

BMB Efforts Praised

BMB was the subject of Wick Main, vice president of Ruthrauff & Ryan, who spoke at the research panel meeting. "BMB has already made a tangible contribution to radio research-its 1946 survey of radio station and network audiences," he said. "BMB has made this survey thoroughly, objectively and efficiently according to specifi-

Pans Economy Set-Up

A THRUST at both Western Union and FCC was made last week when J. A. Payne, national president of the Commercial Telegraphers Union (AFL), accused Western Union of impairing service to the public under an "ill-advised and false economy program." He stated that Western Union is closing many offices and reducing working hours of others. The accusations, in a letter addressed to FCC Acting Chairman Charles R. Denny Jr., claimed FCC is hastening "disintegration of proper service" by giving Western Union's applications routine approval to cut down on service in branch and district offices. Mr. Payne demanded more complete investigation of the applications.

cations which called upon BMB to find out how many families listen to stations and where those families live.

"Specifically, the findings represent the number of radio families that listen to each subscribing station once a week or more in those counties and measured cities where at least 10 per cent of the radio families listen to the station at least once a week. (Daytime and nighttime are measured separately.)"

Mr. Main said that this first BMB survey "does not attempt to show how often these families listen to a station or to what programs they listen. As a result, its findings do not indicate audiences to individual programs. I should like to warn against the misinterpretation of the current BMB findings or their use for purposes for which they are not intended.

"The projection of program ratings to station or network BMB audiences is as invalid as the projection of program ratings against so-called coverage. In spite of this fact, I predict that this abuse will be commonly practiced. Yet a Hooperating applied to a network's BMB figure merely indicates ability to multiply; it signifies nothing else."

Talks on Timebuying

William B. Maillefert, of the media department of Compton Advertising, spoke at the media panel on radio timebuying. He suggested that agencies should be more careful in their studies of timebuying now that increased costs are becoming more important in their effect on advertising budgets.

CBS furnished entertainment at the evening banquet. Arthur Godfrey was featured as m.c., while music was presented by Phil Spitalny and his all-girl orchestra.

CROSLEY RECEIVES TWO VIDEO GRANTS

FIRST "double grant" in television went last Thursday to Crosley Broadcasting Corp. (WLW Cincinnati, WINS New York) for new video stations in Cincinnati and Columbus, Ohio.

FCC Comr. Clifford J. Durr voted for hearing in each case.

C B S Where "Dun and Bradstreet"meet "Hooper and Crossley"/ THE VOICE OF THE PALM BEACHES Page 92 • November 25, 1946

haven't created enough new programs," said Mr. Lewis. "In our panel he blamed the advertising agencies for producing proven shows instead of trying out new ideas. He thinks networks should use free time for new and arresting ideas, and as an example of what he meant, he cited ABC for the development of a new idea in originating the Henry Morgan show."

Mr. Lewis said that the Young & Rubicam executive believes talent agencies should develop new talent. "Mr. Ackerman," he said,

Crosley was authorized to operate its Cincinnati video station on Channel 4 (66-72 mc) with visual power of 34 kw and aural power of 17 kw, and antenna height 603 feet.

The Columbus grant was for use of Channel 3 (60-66 mc) with visual power 48 kw, aural 24 kw, and antenna height 546 feet.

Commission spokesmen said that although other companies have grants for more than one video station, Crosley was the first to receive two in a single day.

LEONARD HOLE NAMED TO NEW CBS TV POST

LEONARD HOLE, former director of CBS television plans, has been appointed assistant director of television for the network. Now in his 11th year with CBS, Mr. Hole will retain

many of his current duties connected with future planning both for color and black and white, and in his new assignment will assume many administrative responsibilities in

Mr. Hole

the operation of WCBS-TV New York, CBS television station.

Mr. Hole joined CBS in 1935 as director of the program service department and prior to that was with Benton & Bowles, New York. In 1939 he was placed in charge of CBS television operations, a post he held until joining the Navy in 1942. Assigned to the guided missile program in naval operations, Mr. Hole flew combat missions over France and Germany using aircraft bombs remotely controlled by radio, radar and television. He rejoined CBS in the editing and copyright division upon being released from active duty in the fall of 1945 and in February 1946, was appointed to a new post, director of television plans.

FELDMAN APPOINTED CONSULTANT TO IBD

ARTHUR FELDMAN, former ABC head in London and one-time director of special events for NBC, last week was appointed consultant to the International Broadcast Divi-

sion, Office of International Information & Cultural Affairs, State Dept., Kenneth D. Fry, IBD chief, announced. Mr. Feldman will serve for several months as adviser on pro-

Mr. Fry and John Sheehan, IBD associate chief.

NAB to Present Compromise Proposal for Disc Identification

COMPROMISE plan to ease rules covering identification of recordings, submitted last week by the NAB to its board of directors, is slated for presentation today (Nov. 25) to the FCC hearing on proposed revision of Rule 3.407.

The plan was expected to receive majority approval of board members, though actual poll results could not be learned as BROADCAST-ING went to press. NAB, which last August approved the FCC's proposed revision, will make an appearance at the hearing but late Friday was awaiting completion of the poll before preparing its argument.

Meanwhile ABC proposed four specific exceptions to the general identification requirements—including an exception for programs recorded or transcribed "specifically for broadcast purposes," designed to exclude transcription identification of such programs as Philco Corp.'s Bing Crosby show, carried on ABC.

WPIK Amendment

In the only other brief received in addition to those on file before the oral argument date was postponed from Aug. 26 [BROADCAST-ING, Sept. 2]. WPIK Alexandria, Va., a non-network station, supported the rule in its proposed form but suggested one amendment to clarify "the intention that it is not necessary to identify forum and other programs as a recording, unless the element of time is of special significance."

Identification requirements are eased under the compromise proposal, which was discussed during the Nov. 4 luncheon between NAB President Justin Miller and FCC Acting Chairman Charles R. Denny Jr. and their staffs.

In brief this plan is understood to provide: No identification required for announcements of one minute or less; identification either before or after programs of one to 30 minutes; identification both before and after programs of more than 30 minutes, but in any event identified every 30 minutes.

In briefs filed late last August CBS, NBC, American Federation of Musicians, KFI Los Angeles, KVOO Tulsa and WTMJ Milwaukee told the FCC it had gone too far in its proposed liberalization of Rule 3.407. In general they requested that recordings be identified as such if the talent is identified. They argued that the proposal would encourage broadcasters to use recordings rather than live programs. ABC's proposal for the rule called for these exceptions from before-and-after identification as transcriptions, in addition to programs recorded "specifically for broadcast purposes":

is presented in recorded form not later than one hour following the time of original broadcast during Daylight Saving Time in order to enable a station to preserve the same local schedule in serving a community which remains on Standard Time."

2. Any recorded commercial announcement "whether of more or less than one minute."

3. For recorded program material of one minute or less, identification only at the beginning.

The ABC plan was filed by Joseph A. McDonald, network vice president and general counsel, and Andrew G. Haley, Washington attorney.

WPIK's brief supporting the version of the rule proposed by FCC, submitted by Leonard Marks of the Washington law firm of Cohn & Marks, said that "only through the use of transcriptions can stations such as ours present to their listeners the best talent," and that "no artificial barriers should be placed in [the licensee's] way of utilizing [the transcription] technique in its most effective manner."

FCC's Blue Book, WPIK noted, "recognized the important role of transcriptions . . ."

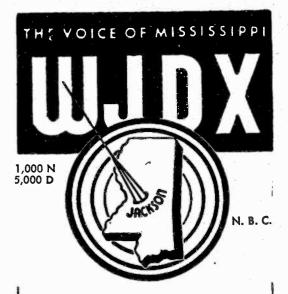

Referring to the Crosby transcription series on ABC, WPIK said "the only difference [from a live broadcast] is that instead of his voice traveling by mechanical means over *telephone wires* it now travels by the mechanical means of transcriptions."

APPLEBY QUITS BUDGET FOR UNIVERSITY POST

PAUL A. APPLEBY, assistant budget director and former vice president and general manager of KIRO Seattle, has resigned effective Jan. 15 to become dean of the

Mr. Appleby

FARM INCOME Almost double

The Mississippi farmers' gross farm income of \$517,-054,000 for 1945 was almost twice the amount of cash received from farming in 1939, the Department of Agriculture reports. This figure was greater than the gross farm income for any of Mississippi's four neighboring states. Alert advertisers will see the opportunity to double their sales among Mississippi's farm families.

WJDX—the DOMINANT "Voice of Mississippi" effectively, efficiently covers this growing market.

viser on programming and related matters to

After leaving NBC in 1942 Mr. Feldman served in an advisory capacity to BBC in London until September 1943, when he became a war correspondent and later head of the London office for ABC. He covered the initial phases of the European invasion, activities in the China-Burma-India theatre, and the landings on Leyte and Luzon in the Philippines.

Mr. Feldman and his wife are applicants for a standard station in Fort Wayne, Ind.

Questions on Daylight Time Asked of Audiences by WLS

A SIX WEEKS survey of time preferences of urban and rural listeners in the states of Illinois, Indiana, Wisconsin and Michigan was released by WLS, only station in Chicago to remain on Standard Time during the summer daylight savings period.

According to the survey, based on postcard questionnaires distributed by WLS to audiences at its weekly WLS National Barn Dance programs from the Eighth Street Theatre, 49% of those who replied to the cards favored Standard Time on a year-round basis. Only 31% favored Daylight Time during the summer months and about 20% favored Daylight Time all year.

Although WLS distributed over 15,000 questionnaires, only 20% or approximately 3,000 were returned. Of these, 2,622 came from residents of 46 states, the District of Columbia and Canada. Total number of cards received from the four state area that is WLS' primary, covered 430 shopping areas and 205 counties. Of the 1,922 cards from this area, 1,502 were classified urban and 402 rural.

Proof Sought

The WLS survey was made to prove the station's contention that rural listeners set their clocks by Standard Time. Actually it indicated just the reverse for both rural and urban listeners. While 304 rural listeners or 75.6%, were in favor of Standard Time the year round, only 163 clocks were set on Standard Time, with 257 clocks operating on Daylight Time. Of the 1,502 urban listeners who replied, 649 or 43.2%, said they favored Standard Time the year round, but only 256 clocks were on Standard, while 1247 were on Daylight Time.

In urban communities, 534 listeners or 35.5% said they favored Daylight Time during summer months only, and in rural communities, only 61 listeners or 15.1% favored Daylight Time during summer months.

WLS has always broadcast on

Chicago Radio Directors Support AFRA in Dispute THE Chicago Radio Directors Guild, through its president, Burr

Standard Time the year round, even though WENR-ABC whose frequency (890 kc) it shares operated on Daylight Savings Time by means of a complicated system of delayed broadcasts. As a result of the survey, WLS executives are convinced that rural listeners accustomed to livestock reports and other farm services have little desire to alter their time schedule during summer months.

KNOX Staff Experienced; Station Lists Its Needs OPERATION of KNOX, Armed Forces Radio Service station at Fort Knox, Ky., is in the hands of experienced radio personnel formerly connected with radio stations

merly connected with radio stations in four states. Oliver G. Holton, KNOX manager, formerly was with KLO Ogden, Utah, and Karl Haberman, chief engineer, was with WGRC Louisville.

Other KNOX staff members include Larry Adams, continuity director, also formerly with WGRC; Bill Beatte, program director, formerly with WGBF Evansville, Ind.; Jackson Bendt, musical director, formerly with WAVE Louisville; Everett Thornton, assistant engineer, formerly radio and PA maintenance, Curtis-Wright Corp., and Verne Holton, continuity and traffic, formerly with KGGM and KOB Albuquerque, N. M.

Mr. Holton, the station manager, commenting on KNOX's needs, says: "Our greatest need is for funds, recording apparatus (16 inch), a baby grand piano and lines from Louisville in order to carry Mutual and American."

KAND Purchasers Amend To Avoid Duopoly Issue

AMENDMENT eliminating KRLD Dallas associates from ownership of Alto Inc., new firm seeking to buy KAND Corsicana for \$25,000, was reported accepted by FCC last week, and the transfer hearing, previously ordered on duopoly issues because some KRLD executives were then among Alto owners, was continued "indefinitely." The hearing had been scheduled for Nov. 19.

James Lawrence Fly, former

Farm Group Plans Three-Day Meeting Agenda of RFD Will Include Rural Broadcast Clinic

ANNUAL meeting of the National Assn. of Radio Farm Directors will be held Nov. 30-Dec. 2 at the Stevens Hotel, Chicago. Herb Plambeck, WHO Des Moines, will preside.

Meetings will open with an informal session at which members can bring up any subject of interest and air any complaints. First formal meeting will be held Dec. 1 with reading of minutes, committee reports and other details. Principal topic will be proposals to change the eligibility clause in the RFD constitution.

Safety Luncheon

A luncheon will be held Dec. 1 under auspices of the National Safety Council. In the afternoon greetings will be received from NAB and other groups. Leslie C. Johnson, WHBF Rock Island, NAB District 9 director, is expected to participate.

President Plambeck will present his annual report after which officers will be elected. Names of new officers will be announced at the annual banquet that night. Speaker will be Frank E. Mullen, NBC vice president and general manager, a pioneer farm broadcaster.

RFD will hold the first annual Farm Broadcasters Clinic Dec. 2. The clinic will cover methods of presenting farm broadcasts along with program and promotion ideas, as well as new techniques in the field.

D. J. Farber Joins NAB As Assistant to Doherty DAVID J. FARBER, economist and labor analyst, last week joined the NAB Employe-Employer Relations Dept. as research economist and assistant to Director Richard P. Doherty. He will be responsible for research activities in the general field of labor economics, including wage matters, collective bargaining practices and personnel management.

Mr. Farber was with the War Labor Board and National Wage Stabilization Board as an economist and prior to that at the Civil Service Commission, He received his BA in political science from Brooklyn College in 1939 and did graduate work in labor relations at American U. He is a member of American Economic Assn. and Delta Sigma Rho.

Low Power FM

(Continued from page 17)

in order to get FM service to the people as quickly as possible. Broadcasters, however, must make every effort to obtain maximumpower transmitters and step up the power by stages, if necessary, until the authorized maximum is attained, the commissioners warned.

Both commissioners and FMA members expressed optimism about the future production of receivers after reports reached the meeting that RCA and Philco, two of the largest manufacturers, soon will be in FM set production. It was brought out that insufficient specific data have been released by manufacturers about the performances of their particular FM sets. The Commission and FMA agreed that FM receivers, to give the best possible performance, should be designed to have adequate sensitivity.

"We have organized a separate and independent industry to promote FM," Roy Hofheinz, operator of KTHT and KOPY Houston, acting chairman of FMA, told the commissioners. "Our members will be FM licensees and applicants, suppliers of equipment, receiver and transmitter manufacturers and anyone with an interest in seeing FM established as the finest medium for broadcasting.

"Our aim," he continued, "is to furnish data and information pertaining to FM broadcasting to our members and to acquaint the American public with the many advantages and fine qualities of FM radio. We will be satisfied only when every American home has an FM receiver."

Mr. Hofheinz told the Commission the FMA plans to serve as liaison between its members and the FCC and other agencies and organizations. "We are indeed grateful for the splendid cooperation extended by the FCC at the inception of our program," he said.

Mr. Denny told the FMA group that in his Chicago NAB convention speech he pointed out the advantages of FM as a broadcasting medium and announced that the Commission believes that FM will eventually supplant standard broadcasting. "We stand ready to do everything possible to carry out this objective," he added.

Attending Monday's luncheon were, besides Messrs. Hofheinz

NAB, RMA APPOINT LIAISON COMMITTEE

NEW joint committee representing NAB and Radio Manufacturers Assn. has been named by the trade associations to bring about closer cooperation in handling major radio problems. Among such problems are developments in FM, television and other radio services, with united consideration of matters of common interest planned.

Formation of the joint group was authorized by the NAB and RMA boards at recent meetings. An early meeting is planned.

Representing NAB are T. A. M. Craven, Cowles Stations; William Fay, WHAM Rochester; Gordon Gray, WSJS Winston - Salem; James D. Shouse, WLW Cincinnati; Carleton D. Smith, WRC Washington.

Representing RMA are Dr. W. R. G. Baker, General Electric Co.; Walter Evans, Westinghouse Electric Corp.; Frank M. Folsom, RCA Victor Division; Paul V. Galvin, Galvin Mfg. Corp.; E. A. Nicholas, Farnsworth Television & Radio Corp.

Field Names Frankel

FIELD ENTERPRISES, Chicago, last week announced appointment of Louis (Tex) Frankel, member of the WJJD Chicago sales department, as advertising director of PM, Marshall Field owned newspaper in New York. Before joining WJJD, Mr. Frankel was classified advertising manager of The Chicago Sun. Mr. Frankel's appointment as advertising director followed an announcement by Mr. Field that the six-year-old non-advertising policy of PM had been abolished.

Thursday to lay plans for the nationwide membership meeting.

At two meetings Thursday New York FM broadcasters pledged their support to FMA. Although no date has been set for the first FMA general membership meeting, Messrs. Marks and Dillard, convention committee members who met with the New York groups, said definite announcement probably would be made this week following a meeting of the full committee.

Plans are to hold a membership organization meeting in mid-December or January, in New York, Washington or Chicago, with a possible convention later in 1947. Attending the New York meetings with Messrs. Marks and Dillard were: Herbert J. Stone, WGHF; Charles J. Oppenheim, WBAM; Ralf Brent, WGYN-FM; Elliott M. Sanger, WQXR-WQXQ; Alvin Hirschmann, WABF; C. E. Arney Jr., NAB; A. Lewis King, chairman of a New York group organized to promote FM in the New York area; Clifford E. Denton, New York Daily News. On behalf of NAB Mr. Arney extended cooperation to the FMA.

Commissioners See RCA Color Video Several FCC Members at Preview

Of Dec. 9 Demonstration

FCC Commissioners and many of their top staff men examined RCA electronic color television developments last Friday in an all-day visit to the RCA plants at Princeton.

The demonstration came little more than two weeks before the Commission opens a full-dress hearing Dec. 9 on the CBS petition for commercial color television in the ultra-high frequencies.

All of the six Commissioners except Paul A. Walker, who was out of town, were slated to attend. The group included: Acting Chairman Charles R. Denny Jr. and Comrs. E. K. Jett, Ray C. Wakefield, C. J. Durr, and Rosel H. Hyde; Earl A. Minderman, assistant to the chairman; and, from the various departments, the following:

Engineering—John A. Willoughby and Geo. E. Sterling, assistant . chief engineers; Edward W. Allen Jr., chief of the technical information division; Geo. S. Turner, head of the field engineering and monitoring division; Edward W. Chapin, chief of division; Louis E. de la Fleur, chief of section; A. P. Walker, radio engineer.

Legal—General Counsel Benedict P. Cottone; Vernon L. Wilkinson, assistant general counsel; Walter E. James, assistant to the general counsel; William H. Bauer, section chief.

Accounting—Dallas W. Smythe, assistant chief accountant, and Le-Roy Schaaff, division chief.

1946 Payments to Yankee Rise 23%, Travers Says

PAYMENTS to Yankee Network stations have increased 23% in 1946, Linus Travers, executive vice president, told owners and management representatives of Yankee's 24 affiliates at Hotel Somerset, Boston, Nov. 18.

Feature of the meeting was announcement of a new RKO Yankee promotion for the forthcoming RKO feature film, "San Quentin," to be released in New England Dec. 5. Terry Turner, RKO publicity chief, said plans call for vast promotion over Yankee, using a new technique in movie advertising on radio. Also on the program were talks by John Shepard III, general manager of Yankee; George Steffy, vice president and program director; Robert Ide, comptroller; Leland C. Bickford, news editor; James S. Powers, director of education, and John Thornton, station relations director. James G. Sandison, manager of Boston office of Edward Petry & Co., discussed the recent St. Louis survey made by Petry called "What Radio Research Forgot."

Time transcriptions are recorded on Audiodiscs AUDIO DEVICES, INC., N. Y. C.

and Denny: Comrs. Ray C. Wakefield, Clifford J. Durr and Rosel H. Hyde; Vernon L. Wilkinson, assistant general counsel in charge of broadcasting; Earl Minderman, assistant to the chairman, and Everett L. Dillard, W3XL Washington and KOZY Kansas City, and Leonard H. Marks, legal counsel for FMA.

Conditionals Are Given 4 FMs While 7 Win Final Approvals

CONDITIONAL GRANTS for four FM stations and construction permits for seven others, plus a permit for a noncommercial educational FM outlet, were issued by FCC last Thursday.

The conditional grants, all for Class B stations and subject to further review and approval of engineering details, went to three AM licensees and to Mary Hardin-Baylor College for Women. Belton. Tex.

AM licensees receiving conditional awards were Northwest Georgia Broadcasting Co. (WGAA), Cedartown, Ga.; Royal Oak Broadcasting Co. (WEXL), Royal Oak, Mich.; Sunshine Broadcasting Co. (KTSA), San Antonio, Tex.

The noncommercial educational FM grant went to the Board of Education of the City of Oklahoma City, for use of 90.7 mc (Channel 214) with 700 w effective radiated power and antenna height 500 feet above average terrain.

FM construction permit recipients, all for Class B stations, included CBS for St. Louis, where it owns and operates KMOX, and United Broadcasting Corp. of Tennessee, owned by International Ladies Garment Workers Union, for Chattanooga, Tenn. They represented the third grant for ILGWU applicants and the fifth

World Denies Recording Studios Sold to United

WORLD Broadcasting System refuted statements released last week by United Broadcasting Co., Chicago, that they had purchased the recording studios at 301 E. Erie St., Chicago.

William C. Hutchings, Chicago manager of World, said that a lease had been signed with United which would permit use of the recording facilities and enable World to function as a sales organization for its library service. World will continue to process its present transcription accounts but stressed the fact that United Broadcasting's lease would expire in the fall of 1947 and that World did not intend to relinquish its transcription and recording department.

for Columbia Broadcasting System.

Telecast Inc., Roanoke Rapids, N. C., gave up its Class B conditional grant, telling the Commission that Roanoke Rapids (Pop. 8,545) is too small to support two FM stations and an AM outlet. WCBT, the AM station there, has an FM affiliate.

FCC approved the assignment of license of WLOU (FM) Detroit from John L. Booth to Booth Radio Stations Inc. (WJLB), wholly owned by Mr. Booth.

The application of Eugene T. Roth trading as Mission Broadcasting Co., KONO San Antonio licensee, for a new Class B FM station was designated for hearing in consolidation with KONO's application for license renewal, awaiting hearing on programming issues.

Construction permits, with certain conditions in each case, went to the following (power is effective radiated power; antenna height, height above average terrain):

Airfan Radio Corp. (KFSD), San Diego —Class B; 100.9 mc (Channel 265); 33 kw; 425 feet. Tribune Co. (WFLA), Tampa, Fla.— Class B; 93.3 mc (No. 227); 46 kw; 490

feet

CBS (KMOX), St. Louis—Class B; 94.5 mc (No. 233); 41 kw; 480 feet. Greensboro News Co., Greensboro, N. C.—Class B; 98.1 mc (No. 251); 23 kw; 450 feet.

Josh L. Horne, Rocky Mount, N. C.-Class B; 103.3 mc (No. 277); 20 kw; 500 feet.

Unity Broadcasting Corp. of Tennes-see, Chattanooga—Class B, 94.9 mc (No.

235); 5.4 kw; 730 feet. Reporter Broadcasting Co. (KRBC), Abilene, Tex.—Class B; 96.9 mc; (No. 245); 46 kw; 760 feet.

Vetter Case Settled

A SUIT involving as principals The Fort Industry Co., owners of WGBS Miami and Stephan A. Vetter over issues growing out of Mr. Vetter's former association with station as manager has been settled out of court. Amount involved was \$58,-466. Announcement of settlement was made to BROADCASTING by George B. Storer, president of Fort Industry Co.

Orr Agency Set

ROBERT W. ORR, former vice president of Lennen & Mitchell, New York, will open his own agency in that city at 270 Park Ave. effective Jan. 1 [BROADCASTING, Oct. 28]. New firm will handle the Andrew Jergens Co. Woodbury account which Mr. Orr supervised while at Lennen & Mitchell. Jergens billings amount to nearly \$5,000,000.

NEBLETT SUCCESSORS SET UP NEW COMPANY

ANNOUNCEMENT of the formation of a new Chicago transcription production company, to be known as Morton-Josef Radio Productions Inc. was made by Morton Jacobson, partner of the late Johnnie Neblett, killed in an airplane crash Sept. 15 [BROADCAST-ING, Sept. 23], and Josef Cherniavsky, former musical director of WLW.

Mr. Jacobson said the new firm was organized to aid in the gradual liquidation of Neblett Radio Productions but stressed the fact that So The Story Goes, Louise Massey & The Westerners and other Neblett programs will continue to be sold under the Neblett label.

The new company will engage in open end transcribed programs, live network packages and for the first time will specialize in dramatized spot announcements and commercial jingles. Mr. Jacobson is president and Mr. Cherniavsky vice president and musical director for the firm, which will retain all employes formerly associated with Neblett Productions.

In announcing the association with Mr. Cherniavsky, Mr. Jacobson said the company is already transcribing several new shows, including Melody Story Time featuring The Hometowners and Hurdy Gurdy Man a juvenile program featuring Angeline Orr Neblett, Mr. Neblett's widow.

Morton-Josef Radio Productions Inc. will occupy the same office space at 360 N. Michigan Ave., Chicago, with Neblett Productions.

BBDO Promotions

THREE major promotions involving BBDO's mid-western offices were announced last week by John C. Cornelius, executive vice president in charge of those offices. Henry H. Haupt, vice president and manager of the agency's Minneapolis office, becomes executive assistant to Mr. Cornelius and John M. Bridge, also of the Minneapolis office will be creative head for all mid-western offices. Succeeding Mr. Haupt as manager of the Minneapolis office will be Edward A. Cashin. All three men are vice presidents. Mr. Haupt will be located in Chicago while Mr. Bridge and Mr. Cashin will continue to make their headquarters in Minneapolis.

By actual survey **TORONTO'S MOST LISTENED-TO STATION DIAL 580**

Page 96 . November 25, 1946

Sign Detroit TV

THE U. S. RUBBER Co., General Mills, Chevrolet and Campbell-Ewald Adv. have contracted to sponsor programs with ABC on the network's new television station being built in Detroit. New station will be constructed at Joy and Greenfield roads, next to the network's standard transmitter, and the studios will be in downtown Detroit, Paul Mowrey, ABC's national director of television, announced last week.

Cast Changes

ON DEC. 18, the cast of "Family Hour," sponsored by Prudential Insurance Co. of America on CBS, will undergo three changes. Rise Stevens, soprano, re-places Patrice Munsel; Jimmy Carroll, tenor, replaces Jack Smith and Ted Malone becomes m.c. The show will retain same format and Al Goodman, who has conducted the orchestra since the program's inception on Aug. 31, 1941, remains as musical director. Benton & Bowles, New York, is the agency.

RMA Tube Figures

OUTPUT of radio receiving tubes in September totaled 17,546,240 compared to the record 20,430,868 production in August, according to Radio Manufacturers Assn. Ninemonth output totaled 137,937,038. Of September's total, 12,241,126 tubes were for new sets, 4,730,268 for replacements and the rest for export and governmental use.

KDIX Sale Asked; Transfers Are Filed KSYL, WJOI, WLAT, WWWB **Shifts Are Before FCC**

SALE of Dickinson Radio Assn., grantee for KDIX Dickinson, N. D., to a group of business and professional men for approximately \$21,500 and acquisition by Harold Wheelahan, WSMB New Orleans vice president and general manager, of half interest in the grantee firm for KSYL Alexandria, La., for approximately \$7,000, were reported to FCC last week for approval.

The Commission also was asked to approve the reorganization of WJOI Florence, Ala., to add a new stockholder; addition of a second partner in WLAT Conway, S. C., and assignment of construction permit for WWWB Jasper, Ala., from Walter W. Bankhead to a corporation which he owns.

In the KSYL assignment, Mr. Wheelahan is acquiring the half interest of Marvin Glazer, who is relinquishing his interest on the advice of his physician. The station, assigned 1400 kc with 250 w fulltime, was granted last March to Sylvan Fox and Mr. Glaser, doing business as Fox Broadcasting Co. Under the proposed assignment Messrs. Fox and Wheelahan would operate it in the name of Radio Station KSYL.

The KDIX transfer is designed to answer the question of duopoly which arose when KGCU Mandan, N. D., applied for increased power. Control of the construction permit for Dickinson, issued in July for 1230 kc with 250 w, would be relinquished by W. H. Walton (28%), F. M. Foster (28%), and Robert B. Cummins (16%), all of whom have interests in KGCU, which is applying for power of 1 kw on 1270 kc instead of its present 250 w assignment on 1270 kc. P. J. Weir, who had 28%, will have 14% in the new partnership. Others: W. K. Johnson, W. O. Rabe, F. P. Whitney, C. R. Dukart, and Leroy Moomaw (14% each), L. W. Veigel (10%), and P. J. Baseflug (6%).

The WJOI reorganization, involving assignment of license from a partnership in the name of Florence Broadcasting Co. to a corporation of the same name, adds L. S. Caine as a new stockholder with one-third stock interest at a price reported by WJOI attorneys as \$7,000. Existing partners and stockholders in the new corporation are Clyde W. Anderson and Joe T. Van Sandt, with one-third interests each. Mr. Caine is a partner with Mr. Anderson in several business enterprises. WJOI is a 250-w outlet on 1340 kc. The WLAT application notifies FCC of a contract, dated July 27, 1945, by which Herman Lee Hanks becomes a co-partner with Loys Marsdon Hawley, present licensee, for \$5,354 payable in \$50 monthly

RADIO DEGREE **Cincinnati College of Music** -Starts Four-Year Course-

COLLEGE OF MUSIC of Cincinnati has now been authorized to confer the degree of Fine Arts in Radio Education by the State of Ohio Dept. of Education.

The four-year degree course, taught by radio professionals. includes 50% of the total credits in radio, the remainder in academic or music subjects. Facilities of WLW Cincinnati are open to the college. In addition, Mrs. Helene V. B. Wurlitzer has endowed the school for complete renovation of existing radio studios in the school, along with construction of modern studios and class rooms.

The Radio Dept. contains five fully-equipped studios, three large classrooms, and a master control room. Studio "A", the largest, covers the entire ground floor. Direct outlets lead to WLW, WSAI, WCPO. The college auditorium is also wired for broadcasting.

Fred Smith, studio director of WLW is managing executive of the Radio College. Uberto T. Neely, for many years on the musical staff of WLW, is the originator and director of the Radio Dept.

STATIONS FLORIDA IN PLAN DEC. 1 SESSION SEMI-ANNUAL meeting of the Florida Assn. of Broadcasters will be held Dec. 1 at the MacFadden-Deauville Hotel, Miami Beach. Presiding will be James M. LeGate, FAB president.

Business meeting starting at 10 a.m. will include a discussion of 2% cash discount by William G. McBride, WDBO Orlando; discussion of Governor Caldwell's Report to the State plan; election of legislative representatives; vote on proposed rotation of NAB 5th District director among three member states.

Speaker at the luncheon will be Sol Taishoff, editor and publisher of BROADCASTING. Afternoon will be devoted to entertainment, with dinner at 7 p.m. NAB President Justin Miller will be dinner speaker. A water show at 9 p.m. will conclude the meeting. Officers of FAB, besides Mr. LeGate, are Glenn Marshall Jr., WFOY St. Augustine, first vice president; Mr. McBride, second vice president; Fred Mizer, WQAM Miami,

DECISION ON NCBS PETITION AWAITED

DECISION was expected this weekend on the petition of North Central Broadcasting Co. seeking reorganization and temporary receivership. Submitted through its board chairman, John W. Boler, petition was taken under advisement Nov. 14 by Judge Richard Gardner in U. S. District Court, St. Paul.

Mr. Boler told the court he had obtained approval of a majority of North Central's creditors to the petition though not in terms of financial indebtedness to reorganize and meet outstanding obligations 100% on the dollar over a period of three years payable quarterly.

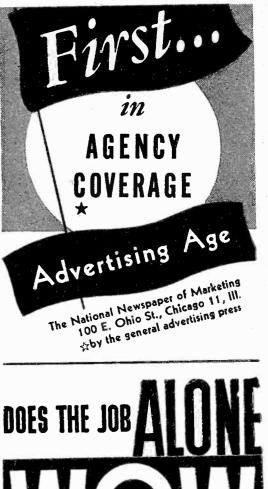

Of the 89 creditors filing suit against North Central and Mr. Boler, 48 stations through counsel said they approved of Mr. Boler's petition and had agreed to his recommendations to meet \$64,242 in back billing. Thirty-three stations with indebtedness amounting to \$80,000 told the court they had rejected Mr. Boler's proposals and eight stations with claims amounting to \$15,000 failed to vote.

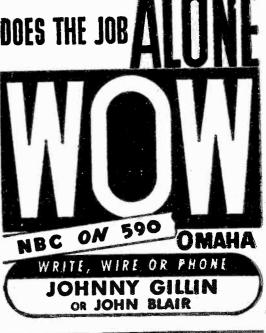

Failure to obtain a majority of creditors consent to his motion would almost automatically force North Central into bankruptcy with the appointment of a referee to liquidate the firm's assets. Possibility of counter claims by North Central against affiliated stations for breach of contract was not commented on by Mr. Boler.

Marketing Conference In Chicago March 10-11

NATIONAL MARKETING Conference sponsored by the domestic distribution department of the U. S. Chamber of Commerce will be held March 10 and 11 at Hotel Stevens, Chicago, Charles M. Isaac, department manager, announces.

Three-fold purpose, Mr. Isaac says, will be (1) to present fundamental facts about distribution and their relation to the job that must be done in expanding markets for goods and services, (2) to reemphasize the need for objective measurement of the effectiveness of the American distribution system and (3) to promote a fuller of effective distribution in the BUSINESS IN American way of living.

secretary-treasurer.

installments. WLAT is on 1490 kc with 250 w.

WWWB, granted last February for 1240 kc with 250 w fulltime, is owned by Walter W. Bankhead, prominent Alabama attorney, son of the late Sen. John H. Bankhead, and himself a former Congressman (for a brief interim period in 1940 following the death of his uncle, former Speaker W. B. Bankhead). The assignment of license to Bankhead Broadcasting Co. involves no change in ownership.

Leonard T. Carlson

LEONARD T. CARLSON, 42, chief engineer of WKBB Dubuque, Iowa, for 11 years, died of a heart attack Nov. 7. The funeral services Nov. 9 were attended by many of Mr. Carlson's friends in the radio industry. Before joining the WKBB staff Mr. Carlson had been employed at WGN and WJJD Chicago. He also had had network and newsreel experience. He was an active member of IRE.

NOW YOU CAN INCREASE YOUR EARNING POWER IN RADIO!

Unless you have had specialized training in radio, under expert guidance—you may not have capitalized completely on your talent. Now is the time—with more and more people coming into radio—to develop your capacities to the fullest degree.

The National Academy of Broadcasting—oldest school in America teaching broadcasting techniques—offers a complete course of study, including announcing, acting, script-writing, etc. Under the direction of Alice Keith, nationally famous author and educator. GI accredited.

Radio Week

(Continued from page 18)

for each of the 17 NAB districts. Winners are to be announced about Feb. 1.

Among letters and telegrams to NAB and RMA from public officials and leaders in educational and military fields were similar letters from Dr. John W. Studebaker, U. S. Commissioner of Education [BROADCASTING, Nov. 18]. Text of his letter to NAB President Justin Miller follows:

I am glad to express my appreciation of the splendid contributions which have been made by radio broadcasting both to the schools and to the families of our country through the long period of development which is now being celebrated during the week Nov. 24-30 as National Radio Week.

I am reminded that Thanksgiving falls within the week so it is proper that we should be grateful for the services which broadcasting has rendered our schools and all our people in supplying information, education and entertainment thus enriching our lives and making us more sensitive to our obligations as citizens of this great country. Certainly, we in America can be truly thankful as well that our system of radio broadcasting is free.

We can be thankful too for the inventive genius which has given us the finest system of radio broadcasting, technically, in the whole world. We can be thankful too for the mass production economies of industry which have made it possible to bring radio receiving sets into many thousands of schools and millions of households in America.

The celebration of this week provides a fitting occasion for me to express, in behalf of the school folk, deep appreciation of the fine cooperation which has been rendered this office by the NAB through the work of the Federal Radio Education Committee. The studies which have been conducted in important techniques in educational broadcasting, the services provided by the Transcription and Script Exchange and the help and advice which have been made readily available through this cooperative effort are additional reasons for us to be thankful at this time.

These are all practical means of bringing the schools, the great foundations

Situations Wanted (Cont'd.)

Chief engineer, sixteen years experience, ten as chief engineer. Experience directional antennae and FM, all phases of construction. Box 294, BROADCAST-ING.

Hal Styles may solve your problem with a young, ambitious, capable man, veteran or non-veteran, who has been thoroughly grounded for eight or more months by radio professionals in announcing, newscasting, control operation and continuity writing. Wire or write KGDM, Stockton, California. sponsoring research and the broadcasting industry together. We look forward to continued cooperation of these agencies in our American life working together for the welfare not only of those of us engaged in the business of education but the people in general.

Gen. Omar N. Bradley, Administrator of Veterans Affairs, in a telegram to President Miller recalled radio's role in returning American servicemen to civilianlife. His telegram follows:

During celebration of National Radio Week Nov. 24-30 I would like to express deep appreciation for invaluable cooperation of American broadcasters. Stations, networks, nationally sponsored programs, advertising agencies and talent have all collaborated magnificently in interest of informing veterans and their familles of insurance and readjustment benefits provided by Congress and a grateful nation. Radio has played a great part in speeding return of American soldiers, sailors, marines and coastguardsmen to normal, useful civilian life. The VA knows it can count on radio industry for continuing help in solving continuing problems.

Radio Not Yet Hurt By Mine Stoppage Broadcasting Held Vital Public Service; FCC Watchful

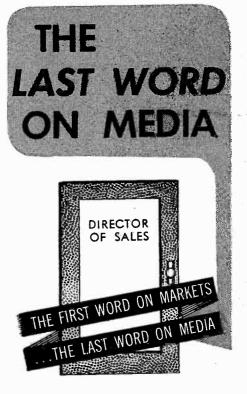

RATIONING of coal and curtailment of power supplies as a result of the mine shutdown last week were not expected to have immediate effect on broadcast stations in general.

At the FCC it was stated that the Commission is observing developments but no official action has been taken. It was explained that broadcasting is a vital public service and would be one of the last to suffer curtailment in event of a long strike. The need for broadcast service actually will increase if the strike continues. During the recent Pittsburgh power strike broadcast stations received credit for much of the success of the campaign to keep down suffering and inconvenience.

A large share of stations have standby power supplies which can be used in event of power shutdowns. Overall power consumption of the industry is trifling, it was stated at the FCC, with all stations together not using more power than a single battleship.

In the District of Columbia the Commissioners ordered a brownout effective Nov. 23 but exempted from its provision such services as broadcasting, radio communication and telephones.

Neither NAB nor Radio Manufacturers Assn. had taken any official action at the weekend. RMA anticipated the possibility of power or coal shortage at individual manufacturing plants but pointed out this was strictly a local problem.

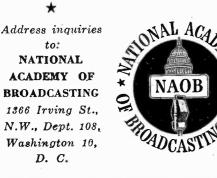

The list of media used in any advertising campaign is a product of many minds.

Advertising department, sales department, research department and advertising agency are among those who influence the selection of individual newspapers and radio stations.

But the all-important final approval—the *last word* on who goes off, who stays on and who is added to the list—rests with the company official in charge of the overall sales and advertising program. His title may be Sales Manager, Director of Sales or Vice President in Charge of Sales, but this executive against whose department advertising is charged as a *sales cost*, is the man with the final say on media.

You'll want the Man in Charge of Sales on your side, FIRST, when he selects the markets where sales of his products will be pushed, and LAST, when he goes over the list of media to give the final word on where his company's advertising dollars will be spent. You'll have him on your side if your story is effectively told by a consistent advertising campaign in his magazine—SALES MANAGEMENT.

Radio Guild (CIO) Wins 2-Year Contract With CBS Covering White Collar Group

A TWO-YEAR contract covering white collar workers at CBS was signed last week by the network and the Radio Guild, United Office and Professional Workers of America (CIO).

According to a CBS announcement, the contract provides for a salary increase of $22\frac{1}{2}\%$ less earlier cost of living raises of approximately 12% given by the network on Sept. 1. An additional 21/2 % has been set aside for recognition of individual merit and other cases deserving special consideration under the company's basic classification plan.

In a separate announcement, the union described the contract as providing for a 25% salary increase, with the minimum starting wage for unskilled workers raised to \$27.50 per week. The general increase, according to the union, averaged \$9.90.

The union also stated that' the contract contained provisions for an overall classification system which will correct inequities and guarantee equal wages for equal work.

The network stated that a compromise agreement was reached on union statutes, under which the union relinquished its original demand for a union shop. In turn the company guaranteed maintenance of the present proportionate union membership.

The contract also provides for a three-week vacation for all those employed over five years at CBS. Nine holidays with pay are pro-

AFRA

(Continued from page 15)

Hollywood others coming up include those of the RDG, Office Employes International Union, AFM, IBEW, NABET and RWG. Support of AFRA in event of strike seemed practical to them but the other Hollywood unions said AFRA had neither sought nor rejected support late Thursday.

This hesitance by AFRA has been interpreted by some unions of smaller membership as a case of bulging muscles strong enough to go it alone. AFRA officials denied that, insisting that lack of position only resulted from lack of advice by national officers. Other sentiments have it that AFRA does not choose to solicit support because it isn't sure of being able to back others in their negotiations to come. Factually this develops from the circumstance that AFRA is divided into four groups-actors, announcers, singers and sound-men. Four groups operationally resemble four unions and assured support from four components was reportedly uncertain in Hollywood, even within AFRA.

vided and double pay will be received by employes on special assignments on these days.

The contract is valid for a twoyear period, expiring Dec. 1, 1948, and may be reopened after one year for reconsideration of wages and arbitration of any differences.

The company continues to exercise its full authority in matters of hiring, promotion and discharge, having agreed with the union on general procedures to be applied in these fields.

The union officials are now formulating plans to extend organization to all other networks.

AFL PLEA AFFECTING WSB, WHIO DISMISSED BY VIRTUE of an even number of votes cast for and against the AFL as a collective bargaining agent for WSB Atlanta and for WHIO Dayton, Ohio, the National Labor Relations Board last week dismissed the AFL petition regarding both stations.

Talley of ballots of Atlanta Journal Co., operator of WSB, held by NLRB Sept. 26, at the request of International Brotherhood of Electrical Workers (AFL), showed of 17 eligible voters, 10 cast valid votes. Two of the ten were for IBEW, eight against, and the one challenged ballot is "insufficient to affect the results of the election." No objections were filed.

Sept. 23 NLRB held elections for a collective bargaining agent for Miami Valley Broadcasting Corp., operator of WHIO, at the petition of the Cincinnati Local Federation of Radio Artists (AFL). Of 14 valid votes cast, seven were for the AFRA local, seven against. The petition was dismissed with no objections by either the employer or petitioner.

Philco Profits Up

PHILCO Corp. had operating profit, before tax adjustments, of \$2,094,206 in third quarter of 1946, compared with \$164,787 in second quarter, John Ballantyne, president, has announced. Operating results in third quarter were equivalent to \$1,151,206, or 77 cents per share of common stock. Sales for quarter totaled \$35,385,-783, compared with \$22,860,876 in preceding three months. Philco reduced operating loss for first nine months of 1946 to \$310,478. Firm's board of directors last week declared regular quarterly dividend of 93% cents per share on firm's preferred stock, 3¾ % Series A. Dividend is payable Jan. 1 to stockholders of record Dec. 14. Board also declared dividend of 20 cents per share on common stock payable Dec. 12 to stockholders of record Nov. 30.

Meyerhoff Is Identified With Milwaukee Petition ARTHUR MEYERHOFF, president of the Chicago agency bearing his name, holds minor financial interest in applicant for new Milwaukee 1 kw daytime outlet on 1430 kc, according to request filed with FCC last week. The applicant, Andave Radio Co., in addition to Mr. Meyerhoff (6 of 100 shares listed), also gave George Grabin of the Meyerhoff agency as holder of 10 shares. Mr. Meyerhoff stated in Chicago that he has no intentions of taking an active interest in the proposed outlet nor in its use as a test market.

Others identified with Andave Radio are: Fred Froede, president, Home Savings Bank, Milwaukee, 24 shares; Sydney Charney, attorney, 20 shares; Gerald Bartell, Navy veteran, 10 shares; Bruno Bitker, 20 shares; Ben Berkin, public relations, five shares; Lee K. Beznor, five shares.

Dorothy Lewis Is Leader At Creighton U. Meeting

CONFERENCE for women broadcasters, one of a series, was held Nov. 21 by Creighton U., Omaha, at which Dorothy Lewis, coordinator of listener activity for NAB, spoke on "Women's Role in American Radio" and presided as chairman. Other participating speakers were Caroline Ellis, KMBC Kansas Wynn Hubler Speece, City; WNAX Yankton; Anne Hays, KCMO Kansas City; Margaret Stoddard, Iowa regional director of listener activity, and Pearl Broxman, WMT Cedar Rapids.

Several of the speakers remained for the Nov. 22 meeting of the Radio Council of Omaha at which Miss Lewis spoke on "Five Freedoms of American Listeners." New officers of the Omaha council are E. M. Hosman, director of adult education, U. of Omaha, president; Rev. Paul M. Smith, S.J., first vice president; Mrs. Laverne Smith, second vice president; Mrs. Claire Magnuson, secretary, and Mrs. George V. Shibley, treasurer.

Krieger Presides

SEYMOUR KRIEGER, graduate of Yale Law School and member of Washington radio law firm of David, Courtney, Krieger & Jorgensen, Nov. 14 presided over the Student Moot Court of the Yale Law School in a session on criminal law. He related experiences as member of Justice Jackson's war crimes staff at Nuremburg.

Opposes Levy

CECIL B. DeMILLE, film producer who two years ago gave up a \$2,050-per-week job as narrator-m.c. of CBS Lux Radio Theatre rather than pay a \$1 AFRA political assessment, warned the Western Growers Assn. annual meeting in Los Angeles last week that compulsory political assessments by labor unions should be outlawed. "If allowed to take hold in the labor movement, these assessments would be one of the strongest weapons in the arsenal of the communist conspiracy," he said. AFRA blackballed him when he refused to pay the \$1 political assessment.

Asbury Park Newspaper Will Build FM Station CONSTRUCTION of a new FM station, WJLK, will start Nov. 26, the Asbury Park (N. J.) Press announces. Call letters embrace initials of the late J. Lyle Kinmonth, for 50 years editor and publisher of the Press. Studios will be located in the newspaper building, and initial operating hours will be 3-9 p.m.

General Electric transmitter and studio equipment and a four-section RCA pylon antenna will be used, and the station will operate at 104.7 mc. Edward J. Content, Stamford, Conn., has been retained as studio consultant.

WBAL Hearing

(Continued from page 15) CASTING, Sept. 23]. They applied in

the name of Public Service Radio Corp.

Six additional stations were added to the renewal-hearing list for programming considerations the same week the Pearson-Allen application was filed: WTOL, KMAC, KONO and WIBG Philadelphia, KBIX Muskogee, Okla., and KGFJ Los Angeles. Issues on the latter three have not been disclosed.

Issues on the WBAL and Pearson-Allen applications are as follows:

1. To determine the legal, technical, financial, and other qualifications of the applicant Public Service Radio Corporation to construct and operate the proposed station, and of the applicant Hearst Radio, Inc. (WBAL) to con-Station WBA operate

Strike Continues

STRIKE of NABET engineers at WDNC Durham, N. C., continued through second week last Thursday with no change in negotiations, J. Frank Jarman, WDNC manager, reported. Station was off the air only few hours at start of walkout Nov. 8 [BROADCASTING, Nov. 18].

tinue

2. To determine the areas and popu-lations which may be expected to re-ceive service from the operation of the station proposed by Public Service Radio Corporation, and which now receive service from Station WBAL, and the character of other broadcast service available to those areas and population.

3. To determine the type and character of program service to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To obtain full information respect-ing the present installation of Station WBAL and the installation proposed by Public Service Radio Corporation.

5. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

At Deadline

BLUE BOOK THEME STRESSED IN KBIX RENEWAL ISSUES

FCC, which skirted Blue Book in setting issues for WBAL Baltimore renewal hearing with Pearson-Allen application (story page 15), more strongly delineated program questions for renewal hearing for KBIX Muskogee, Okla. (1490 kc, 250 w). KBIX hearing Jan. 15 at Muskogee. Issues, also covering KBIX FM application, revealed late Friday, in substance:

1. To obtain full information concerning nature and character of program service rendered by station, with particular reference to amount of time station devoted to broadcasting discussions upon controversial issues of public importance, and per-centage of time devoted to broadcasting local live talent programs.

2. To obtain full information as to whether applicant is attempting, or has attempted, to elimi-nate competition from other media for dissemina-tion of news and information in Muskogee and surrounding areas.

To determine whether applicant failed to pernit KBIX to broadcast full and complete informa-tion concerning affairs and activities of any civic group or organization in or about Muskogee or surrounding areas, with particular reference to affairs and activities of local Chamber of Commerce.

4. To determine applicant's future policy with respect to matters covered by foregoing issues. 5. To determine policies of applicant with regard

to program service to be rendered by proposed FM station, with particular reference to matters cov-ered by issue No. 1.

WOKO MISREPRESENTATION QUESTIONED IN HIGH COURT

U. S. SUPREME COURT questioned counsel Friday afternoon in hearing FCC appeal from appellate court decision reversing Commission denial of WOKO Albany, N. Y., renewal, showing interest in materiality and purpose of WOKO misrepresentations in renewal applications.

Chief Justice Vinson and Justices Jackson, Rutledge, Burton, Reed and Frankfurter queried Harry M. Plotkin, FCC assistant general counsel, and William J. Dempsey, of Dempsey & Koplovitz, WOKO counsel. Mr. Plotkin argued appellate ruling places premium on misrepresentation, with those misrepresenting in better position after discovery than honest applicant if FCC cannot deny facility on that basis.

Mr. Dempsey contended misrepresentation not material since Sam Pickard, former Federal Radio Commissioner and CBS vice president, exercised no influence on WOKO operation while hidden beneficiary of 24% of WOKO stock. He argued FCC failed to give due consideration to applicant's record or ability to serve public. Justice Black did not participate.

"HIT PARADE' SUIT OKAYED

ADVANCE MUSIC CORP., New York, granted permission by New York Court of Appeals

KAND SALE APPROVED; FLY WITH NEW OWNERS

SALE of KAND Corsicana, Tex, (1340 kc, 250 w) to group including former FCC Chairman James Lawrence Fly, 4% stockholder [BROADCASTING, Nov. 18], announced by FCC Friday as approved. Price: \$25,000. Sale by J. C. West and Frederick Slausson, equal owners, to Alto Inc., owned by Mr. West (10%); Wesley W. West, Houston businessman (68%); P. M. Stevenson, business associate of W. W. West (18%); Mr. Fly (4%).

License assignments approved but involving no ownership changes were KFIZ Fond du Lac, Wis. (1450 kc, 250 w) from Reporter Printing Co. to wholly owned subsidiary, KFIZ Broadcasting Co.; and WDSM Superior, Wis. (1230 kc, 250 w) from WDSM Inc. to Ridson Inc., headed by Herman H. Ridder and owned by Ridder family, which purchased station from James J. Conroy and associates for \$150,000 last summer [BROADCASTING, June 17].

FCC called for hearing on proposed sale of WDBC Escanaba, Mich. (1490 kc, 250 w) by Gordon H. Brozek, Frank J. Russell, and Leo J. Brott to Frank J. Lindenthal, John P. Norton and William J. Duchaine for \$39,999.

DIRECTORS GET RAISE

FINAL NEGOTIATIONS between Chicago Radio Directors Guild and ABC, NBC, CBS take place this week following informal agreement late last week between network representatives and Burr Lee, CRDG president. New three-year contract calls for 15% wage increase, with \$82.50 minimum, retroactive to Sept. 1, two weeks paid vacation, four weeks termination notice or two weeks pay after one year employment, and 10% increase at end of 1947 if higher living costs warrant. CRDG so far unable to complete organization of MBS employes.

BOTT OPENS OWN OFFICE

LEO P. BOTT Jr., formerly copy chief-account executive Holder Morrow Collier Inc., Chicago, opens own office Dec. 1 same city. Will serve advertisers and advertising agencies; do other professional writing. Formerly owned Bott Adv., Little Rock; later with BBDO Chicago and Buffalo, Donahue & Coe, N. Y.

MARK WOODS, ABC president, principal speaker at annual luncheon meeting of Metropolitan Opera Guild Friday at Waldorf Astoria, New York, paid tribute to Texas Co., which has sponsored seven seasons of opera on ABC.

EDWARD J. HEFFRON, NAB executive assistant-public relations, in Doctor's Hospital,

SECOND GEORGIA INSTITUTE PLANNED; COBB HONORED

GEORGIA RADIO Institute will be annual affair, Georgia Assn. of Broadcasters and U. of Georgia decided unanimously at concluding session Friday of first Institute in Athens, Ga. (earlier story page 20). Wilton E. Cobb, general manager, WMAZ Macon, Institute general chairman, voted "Radio Man of the Year" by Digamma Kappa, first exclusive radio fraternity in country.

Honorary memberships for meritorious contributions also awarded Carolyn Vance, radio instructor, U. of Georgia; Dean John E. Drewry, Henry W. Grady School of Journalism, U. of Georgia; J. Leonard Reinsch, managing director, Cox stations and radio adviser to President Truman, and, in absentia, Charles A. Smithgall, Atlanta, president, Georgia Assn. Stewart Hopkins, Digamma Kappa treasurer, made awards, announced plans to expand fraternity into national organization.

Sen. Owen Brewster (R-Me.) spoke highly of radio's public service contribution, said there was no definite decision in Senate to investigate FCC but that all executive agencies would be closely scrutinized by new Congress. Dwight Bruce, WTOC Savannah, named chairman next year's broadcasters' committee to work with Dean Drewry on second Institute.

FCC SETS 20-DAY LIMIT IN CONFLICTING REQUESTS

AMENDMENT of Part I, FCC Rules & Regulations, announced Friday including following changes affecting broadcasting (amendment effective Dec. 2):

1. Applications mutually exclusive with applica-tions already set for hearing will be consolidated only if filed at least 20 days before hearing date (date hearing actually starts will govern in cases

(date hearing actually starts will govern in cases of postponement); otherwise, will be dismissed without prejudice, not eligible for re-filing until ap-plications in hearing decided or withdrawn. 2. When hearings waived, record closed as of date waivers filed. Subsequent information, if used, must be served on all parties. Waiver form shortened. 3. Procedure enunciated for handling applications for CP modifications: Those requesting major changes go into "Processing Line"; if minor changes involved, will be handled outside "Processing Line." 4. Persons made parties to hearings must file notice of appearance in triplicate within 15 days thereafter. thereafter.

5. Information FCC is required to give in notices of hearing spelled out in more detail.

WILLIS HEADS GROCER GROUP

PAUL S. WILLIS was re-elected president of the Grocery Manufacturers of America last week at the association's annual three-day conference held in the Waldorf Astoria, New York. Other officers named by the association are: Donald E. Lourie, of Quaker Oats Co., first vice president; Austin S. Igleheart, president of General Foods Corp., second vice president; Mark Upson, of Procter & Gamble, third vice president; H. E. Meinhold, of Duffy-Mott Co., secretary, and B. E. Snyder, of R. B. Davis Co., treasurer.

ARGUMENT in appeal of Churchill Tabernacle, Buffalo, from FCC decision denying

to bring suit against American Tobacco Co. Charges: "Selection of songs appearing on Hit Parade was made inaccurately." Advance Corp. spokesman said firm seeks redress for "financial loss resulting from failure of our songs to appear on the radio program," referred specifically to "Don't Sweetheart Me." Original suit against American Tobacco filed by Advance Music in 1944, but tobacco company asked dismissal. Date for court trial not set.

INCREASE in daytime power of KSAC Manhattan, Kan. from 1 to 5 kw authorized by FCC, announced Friday. Night power remains 500 w. Station on 580 kc, shares time with WIBW Topeka.

Page 102 • November 25, 1946

Washington, with virus pneumonia.

CALL FOR ACTION!

ARGUING on behalf of WOKO Albany, N. Y., renewal, Counsel William J. Dempsey said to U. S. Supreme Court Friday afternoon: "If all the broadcasting stations that made misrepresentations were taken off the air there would be a very serious gap in the spectrum." To which Justice Jackson replied, with twinkle in eyes: "Is that an argument that something drastic ought to be done?"

license renewal to WKBW-WGR Buffalo because of time commitment to tabernacle [BROADCASTING, Oct. 14] scheduled Tuesday morning (Nov. 26) before U. S. Court of Appeals for District of Columbia. James Lawrence Fly, former FCC chairman, and Joseph H. Mowrey, Buffalo, counsel for Tabernacle.

MRS. M. B. SCHARFELD, mother of Arthur Scharfeld, partner in Washington radio law firm of Loucks & Scharfeld, died Friday in Cleveland after extended illness.

NORMAN NOYES, former NBC Hollywood account executive, new Los Angeles manager, Avery-Knodel Inc., succeeding FRANK WEBB, resigned, to manage KVPO Honolulu.

WE ASKED OUR AUDIENCE FOR HELP...

A CHARTERED plane will fly three Midwesterners to New York next week to witness important sessions of the United Nations Assembly.

These three persons will be winners of WLW's United Nations Essay Contest. Their all-expense paid trip is their reward for submitting the best answers—in the opinion of the presidents of four state universities—to this question:

"HOW CAN WLW BEST CONTRIBUTE TO THE INTEREST IN, AND UNDER-STANDING OF, THE UNITED NATIONS?"

What is the reasoning behind such a contest? Simply this: several years ago WLW pledged all its resources and facilities toward keeping its listeners the best informed radio audience in the world. To fulfill that pledge —still our prime objective—we...

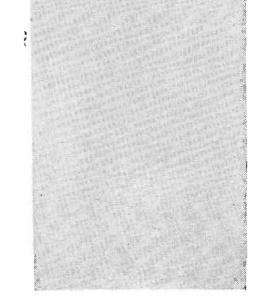

... contracted for the services of the four major newsgathering agencies—AP, UP, INS and Reuters ... expanded our news department to its present strength— 12 expert writers, editors, newscasters and commentators ... sent our own correspondents to report from every major theater of war... established our own Washington News Bureau... sent three listeners—a farmer, a grocer and a housewife—to investigate and report on the famine situation in Europe ... embarked upon a comprehensive program of international broadcasting to establish better understanding between our listeners and their world neighbors.

Now, believing the proceedings of the United Nations to be of extreme importance to every listener, we are seeking a satisfactory means of using our facilities to intelligently report these proceedings—to give impetus and understanding to the concept of the UN.

Thus, the United Nations Essay Contest was conceived —not as a stunt, but to solicit the serious thinking and suggestions of our listeners in an earnest and sincere effort to further meet our obligations as a clear channel station.

KLZ IS

KLZ FARM SAFETY PROGRAM WINS PRAISE AND AWARD IN NATIONAL SAFETY CONTEST

The promotion of safety and accident prevention among farmers was recognized as a most urgent need when KLZ's farm service department was launched last January under the fulltime direction of Olin Watts.

Six months later, KLZ had already done more in this respect than most stations do in a year, winning second place in the 1 to 10 Kw. division of the National Safety Council's annual radio farm safety contest with special praise from the judges "for intelligent planning, promotion and presentation of a year-round campaign and for a realistic approach and appeal to all age levels."

This is the eighth significant national award which has come to KLZ during 1946. The job of serving and selling which KLZ is doing in the Denver region gets plenty of local recognition, too. For instance: More advertisers, local and national, buy more time on KLZ than on any other Denver station.

Farming Is Most Perilous Of Occupations

CHICAGO, Oct. 8. - (AP) - Dr. H. Herman Young of the Mayo clinic at Rochester, Minn., said Tuesday that farming is one of the most hazardous of all occupations. na

ti

liz

Young, in a speech prepared for the farm safety section of the National Safety congress, said a nineyear survey of farm accident cases treated at the Mayo clinic "indicate that some 38,700 farmers were killed

He said also that 133,200 farm residents were killed accidentally, and 10,125,000 non-fatal farm home and work accidents occurred in the United States in the nine-year period.

"The farmer usually is his own boss or employs only a few men, probably carries no accident insurance and is not as conscious of the need for safety measures as those in other industries," Young told the er

He also said the horse is involved in more livestock accidents on the nation's farms than any other ani-
