

IN RADIO as in your industry, the public has an uncanny ability to select the best values from any number of competitive offerings. *Best values* are always "popular".

WHO's unmatched audience in Iowa is proof that WHO gives this State the sort of radio it wants and needs. In the mass of 58 Iowa counties shown at right (in which there are many other stations) from 5:00 a.m. to 6:00 p.m., WHO gets an average of 57.1% of all radio listening, according to the 1947 Iowa Radio Audience Survey.

There is only one answer to such listener-preference. That answer is *Top-Notch Programming—Outstanding Public Service*. Write for Survey and see for yourself.

THE NATION'S MOST MERCHANDISE-ABLE STATION

AGAIN, we at WLW are proud to acknowledge the honors bestowed upon us by the 1947 Committee on National Radio Awards of The City College of New York.

For the most effective

all-over station promotion

Δ., .

This is the fourth consecutive year The Nation's Station has received top honors for promotion in this annual competition. And it is the second consecutive year that WLW's All-Over Station Promotion entry has won dual honors . . . the Award of Merit for the most effective promotion in the 50,000-watt station classification . . . the bronze plaque for being selected, among all award winners, for the outstanding achievement in radio promotion during 1947.

Because sound promotion always has been an important function of our station operation, it is indeed gratifying to receive national recognition for our efforts. WLW's promotional activities are basic and two-fold: to keep our listeners informed of our sincere efforts to provide them with the best possible radio service and programming . . . to make our clients' advertising more resultful.

In the country In the suburb. In the city Everywhere

New England listens to YANKEE

The Yankee Network is a dominating sales factor in New England.

Yankee's 23 home-town stations cover more communities, reach more people than any other combination of stations.

Through their Yankee home-town stations New Englanders hear the programs of New England's largest regional network --- plus the programs of Mutual Broadcasting System, the

world's largest network — plus their own local station features sponsored by their local merchants.

That's why it's Yankee for good listening in New England.

That's how you can reach 89.4% of New England's radio homes — with a one-package buy.

Ask your Petry Man for the plan.

Acceptance is THE YANKEE NETWORK'S Foundation

THE YANKEE AND TEXAS QUALITY NETWORKS

Any advertiser can — and most advertisers should — use Spot Radio

-- - - - -

It's one of the most important markets in northeast Iowa-where WMT is the No. 1 station. It's a market worth conquering, a prosperous industrial city of 65,000, widely known for farm machinery and meat packing. Waterloo led the nation in percentage of increase (35%) in business volume for '47 over '46, as evidenced by bank debits. And it's the shopping center for the rich surrounding agricultural section.

Conquer Waterloo too with WMT-the big gun in Eastern Iowa radio, the area's only CBS outlet. Ask the Katz man.

Open Mike

(Letters are welcomed. The editors reserve the right to use only the most pertinent portions.)

Says Agencies Need **More Station Facts**

EDITOR, BROADCASTING:

I have a suggestion to make for what it is worth. Many of your station advertisers fail to give agency people the type of information we so badly need in evaluating radio in competition with other advertising media in their own markets. More information about radio's ability to sell goods, as well as reach so many "radio families," would be of help in allocating to radio a proper place in general advertising budgets. I think someone, probably the NAB, should do the kind of promotion job for radio that the ANPA does for black and white.

> Mrs. Claire Cari-Cari Director of Station Relations Gardner Adv. Agency St. Louis

Changes Strike Responsive Note

EDITOR, BROADCASTING:

By the way, please accept my congratulations on the "New Look' in BROADCASTING. We find your magazine tops in attempting to keep up with this rapidly changing radio industry.

Ralph J. Robinson Exec. Vice President WACE & WACE-FM Chicopee, Mass.

Market Study Story Stirs Recollections

EDITOR, BROADCASTING:

I enjoyed your Mr. Thompson's Washington market spread very much, and got quite a kick out of comparing my own recollections of Washington radio with the facts in the story. It was a swell story, and very readable.

Tom Means

Assistant to John Cowden CBS New York

Sees Market Studies' Value to Industry EDITOR, BROADCASTING:

Study No. 1 of major radio markets included in the March 29 issue of BROADCASTING is well done. Congratulations. Unquestionably, these studies will help radio in survey markets and BROADCASTING will have again proved its value to the industry.

Henry Liebschutz, Advertising Inc. of Washington. Washington, D. C.

First in Major Market Series Called Excellent EDITOR, BROADCASTING:

Have just finished reading the current issue of BROADCASTING. I think the coming series on the study of major radio markets is a wonderful idea. It is a completely thorough and excellent job.

I wonder if you are planning to incorporate the complete series in one volume when it is finished. In the meantime, of course, I will guard them very closely.

Howard E. Stark. Director, Radio Dept., Smith Davis Corp., New York.

Editor's Note: Reader Stark's sugges-tion for publication of the market series in a single volume will be con-sidered later. Favorable action depends upon subscriber interest and publica-tion costs.

Durr's 'Philosophy Of Freedom' Analyzed EDITOR, BROADCASTING:

I read with interest your account of Commissioner Durr's news conference in Chicago [BROADCASTING, March 1].

I was particularly impressed with the following quotation from his address before the Lawyers Guild: "To withhold from the people any information or ideas on the supposition that they may have a harmful tendency is as inconsistent with democracy as to deprive them of the vote out of fear that it may be exercised unwisely. . . . To suppress the advocacy or rational consideration of ideas by a threat of punishment is as much an act of aggression against democratic government as to deny access to the ballot box by force" . . .

I agree whole-heartedly with Commissioner Durr. That is why I insist that the Mayflower dictum stands as one of the most utterly incongruous principles ever laid down by a federal bureau of a democratic nation.

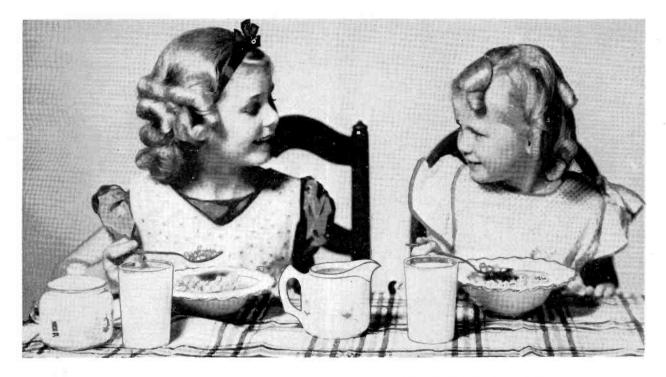

I hope that Commissioner Durr is equally willing to view the implications of the Mayflower ruling with respect to its "suppression of ideas by threat of punishment" as clear-eyed as he apparently does when he considers the rights of political candidates, and the possible invasion of those rights when those candidates are labeled arbitrarily as of questionable loyalty.

If Mr. Durr is completely consistent in his philosophy of freedom, he will vote for the abolition of the Mayflower dictum, when the present hearings are concluded.

> Rex Howell Managing Director KFXJ Grand Junction, Col.

Telestatus Report

ELEVISION broadcasters, present and future, got their first good look at prospecive video nework costs last week.

They blinked, but for the most part chose to keep quiet until they could mull over what they had seen.

• AT&T, which has been providing intercity service along its New York-Washington coaxial cable route without charge, filed with FCC on Monday five alternative rate systems which it proposes to put into effect May 1 [BROADCASTING, March 29]. They would cover all AT&T television network facilities, whether coaxial cable or radio relay.

• Western Union followed on Tuesday with formal submission of the charges it plans to make for use of its two reversible radio beams between New York and Philadelphia, which it has slated for operation before the

AT&T'S CONTEMPLATED COMPLETIONS IN 1948

AT PRESENT AT&T's television relay facilities include one coaxial cable channel each way between New York and Washington and one radio relay channel each way between New York and Boston. The Washington-New York link has tie-ins at Philadelphia and Baltimore.

In June two more channels on the Washington-New York coaxial route are to be added and during the political convention period this four-channel route is to be set up so that three channels will be available for program service out of Philadelphia and leaving one channel for feeding into that city from New York and Washington. This means three convention pickups can be made simultaneously and will alleviate greatly the timesharing situation for the video networks. In June it also is planned to extend the coaxial link from Washington for one-way service to Richmond, Va.

AT&T in October plans to open two-way coaxial service between Cleveland and Chicago with intermediate tie-in at Toledo. The same month a two-channel hookup between Chicago and St. Louis is planned and also a single channel between Cleveland and Buffalo running toward Buffalo. Toledo and Detroit are to be connected by a double-channel coaxial and Chicago and Milwaukee by a single channel running toward Milwaukee.

By the end of the year it is hoped that a double coaxial link will be available between Philadelphia and Cleveland with a tiein at Pittsburgh.

national political conventions in Philadelphia in June and July [BROADCASTING, March 15].

• A revision of AT&T's existing local-channel television rates appeared to be in the offing. Observers thought the pattern was set Tuesday in proposed

AT&T files five alternative rate systems with FCC based on charge of \$35 per airline mile per month for eight hours of daily service. Western Union contemplates \$4,-700 monthly for reversible New York to Philadelphia channel.

local-channel rates filed by New Jersey Bell Telephone Co., a member of the AT&T system.

Though the television network rate structure set up by AT&T is based on a charge of \$35 per airline mile per month for eight hours of service daily, the first use of the intercity facilities would be at the rate of \$25 per mile per month for four hours daily.

The tariffs provide that the \$25, four-hour schedule shall be the base of the monthly rate plan wherever two or more stations must share the use of the interexchange facilities. This would apply along the route of the only coaxial cable currently used or usable for television—the New York-to-Washington link—since stations in each city outnumber the circuits available.

It was felt, however, that the shared-channel schedule will be eliminated as more facilities become available.

For comparative purposes, eight hours' daily service between New York and Philadephia on an unshared channel would cost approximately \$3,905 a month. With two or more stations sharing time on the channel, the monthly rate per station would be \$2.775 for four hours' use daily. Two stations sharing time on the channel in New York, for example, would thus pay a total of \$5,550 for eight hoursfour hours each - while a single station could use the channel for eight hours for \$3,905 at the unshared-channel rate.

Unless suspended by FCC, the rates will become effective May 1. It seemed doubtful that the Commission would intervene unless strong opposition is evidenced by the television industry. Though the rates are substantially lower than those proposed and subsequently withdrawn by the telephone company last summer, some opposition was evident, though its strength and extent could not be judged until the full implications of the tariff schedule could be studied.

Lawrence Phillips, director of the DuMont television network, said he thought it "regrettable that full recognition was not given to the present embryonic state of the industry, the relatively small number of receivers outside of the New York area and the inability of the AT&T to give service on an adequate basis if all networks require the desirable times for transmission."

Mr. Phillips said it was not possible to calculate accurately now the "commercial practicability of television network operation under the AT&T proposed rates," but that a "quick review makes it seem possible that the proposed rates might be practicable under network operations on a really commercial basis. which they cannot be for some time to come."

The Western Union plan

contemplates a \$4,700 monthly charge for one reversible channel between New York and Philadelphia, covering the eight-hour period from 4 p.m. to midnight seven days a week. Each hour added to the 4-12 block on a regular basis would cost \$340 a month, and each extra hour on an occasional-use basis would cost \$25.

(REPORT I)

INTERCITY VIDEO R/

F. E. d'Humy, Western Union vice president in charge of development and research, said his company's service, "unlike any other available by common carrier, provides for the transmission of video programs in either direction over the same channel. The unique two-way, reversible feature provides a major economy for the broadcaster."

It was also pointed out that there will be no added expense for terminal equipment or local loops since WU will beam the signals

(Continued on page 99)

AT&T INTERCITY RATES

ASSUMING that network facilities were available and that AT&T's proposed rates were in effect, the monthly cost of a video network channel for eight hours' daily service between various key cities would be approximately as shown below.

The computations are based on airline mileages, which AT&T defines as the "shortest airline mileage between service points." Thus in determining the cost of a New York-Baltimore channel, for example, it is necessary to use the total airline mileage between the various service points between those cities, not the airline mileage from New York direct to Baltimore.

Cost figures in each case include \$1,000 as the charge for a station connection at each service point—\$500 each—but do not include the local channel charges or the costs of transmitting sound.

Intercity Channel	Approximate Airline Miles	
Boston-New York	188	\$ 7,580

 3:30-10 PM Thursday, Falstaff Brewing sponsors Willage Store on 35 stations.

Big enough to be smallest

Obviously, you've got the best in Radio when you can spend money for a "hig" program and still get listerens of small cost.

That's why the shrew? buy as of Radiothe men who use Radio most and know is best-so overwhelmingly prefer the two top U.S. networks, the TYPE I networks, the "big audience" networks.

Mdventisers can afford to put a 'big" program on a TMEE I network because these networks, with distribution stronger, Better-Balanced facilities and stronger schedules, deliver more customers in more markets to their programs—producing the lowest cost per customer in all Kafio!

And more of the hundred largest users of Radio prefer CBS to any other network. For the unbiased figures show that CBS Helivers its 1. CB audiences at LOWER costs than ANX other network.

B ULOVA WATCH Co., New York, has signed for series of nightly time announcements over WBEN-TV Buffalo, when station begins telecasting in late spring. Bulova is first advertiser to contract for time on WBEN-TV, and also was first sponsor on WBEN when the AM station started in 1930, according to station officials.

ALLIED ARTISTS has appointed Mal Boyd & Assoc., Hollywood, to handle radio exploitation for movie, "Song of My Heart."

CHALFONTE-HADDON HALL, Atlantic City (resort hotel), through its agency, Lamb, Smith & Keen, Philadelphia, has prepared one-minute video films of the hotel, its private beach and varied recreational facilities, for 13-week, twice-a-week test campaign on WFIL-TV Philadelphia. Campaign may be extended to other cities following test.

GOUGH INDUSTRIES, Los Angeles (Philco radio sets), March 23 started for four weeks two weekly 12-minute television series, *Baseball Prevue*, on KTLA Los Angeles. Series consists of video films made of major league baseball teams training in Florida. Agency: Noble Adv., Los Angeles.

SHAW'S, Santa Monica, Hollywood, and Los Angeles (retail jeweler), has appointed Bass-Luckoff of Hollywood to hande advertising. Radio may be used.

NORGE APPLIANCE DEALERS of Charleston, W. Va. area have signed with WKNA Charleston for 780 news broadcasts over one-year period. Contract calls for 10-minute programs Mon.-Fri. 4:30 p.m., 8 p.m., and 11 p.m.

HOLLYWOOD STARS, professional baseball team, has appointed Hunter Adv., Los Angeles, to handle advertising. Budget for season will run between \$5,000 to \$10,000. Radio spots may be used.

FLOTHILL PRODUCTS Inc., Stockton, Calif., has appointed Roy S. Durstine Inc., New York, to handle advertising for its canned fruits and vegetables. Account will be served by the agency's Pacific Coast and New York offices with ROBERT L. NOURSE Jr., Pacific Coast manager, as account executive. Media plans have not been set as yet.

EASTERN COLUMBIA, Los Angeles (department store), has adapted its aural radio jingle to television and is using it twice weekly on television station KTLA Los Angeles—once weekly for 13 weeks on Shopping at Home (started April 1) and once weekly on Olympic Stadium Wręstling Matches broadcast (started March 31). Stodel Adv., Los Angeles, directs store's aural radio and video activities.

36TH DISTRICT Agricultural Assn. has appointed Lisle Sheldon Adv., Los Angeles, to handle advertising for Solano County District Fair being held April 30-May 2 in Dixon, Calif. Spot announcements and interviews from the fair will be carried to all Sacramento stations by remote.

TAN BARK CLUB, Los Angeles, has appointed Roche-Eckhoff & Assoc. to handle publicity for Seventh Annual National Horse Show to be held June 15-20 at the Horse Palace, Hollywood. Budget of approximately \$3,000 is planned. Radio may be used.

JERSEYMAID Milk Products, Los Angeles (ice cream), April 12 starts four-week schedule of five daily spot announcements on two Los Angeles stations, KHJ and KECA. Agency: Mogge-Privett Inc., same city.

N twork Accounts . .

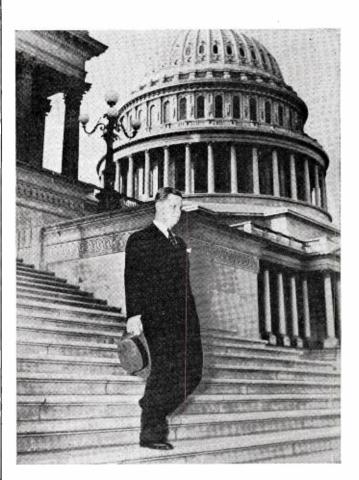

ş.

KE INATOR (refrigerators, electric ranges, home freezers) will spoor Edwin C. Hill's *The Human Side of the News* on ABC Monday driday 7-7:05 p.m., starting April 26. Agency is Geyer, Newell & Gancer Inc., New York.

TON Co., which begins sponsorship of *This Is Nora Drake* on CBS May 10 after four-week sustaining interlude, will continue the daytime program on NBC. Same story and cast will be used on each network.

BROADCASTING • Telecasting

Success Story, American Way

He delivered his first network broadcast as a sustaining news feature for Mutual in November of 1937. The time: 7 p.m. His program was the original news "co-op"—a network show carried locally by Mutual stations and sponsored by (or available for sponsorship by) local advertisers. His first sponsor was the American National Bank, of Denver, which is still with him.

Each year his audience has grown. So have his sponsors. They find they can enjoy the prestige of a network program at local time cost and pro-rated talent cost. They favor the idea of reaching a ready-made, loyal audience with money to spend.

Since Mutual is more than 450 stations, and the Fulton Lewis, Jr. broadcast is sponsored on 299, perhaps there's an opening in your city. If you are (or have) a client with a limited budget and want to make the most of it, get in touch with the Co-operative Program Department, **Mutual Broadcasting System**, 1440 Broadway, NYC 18 —or Tribune Tower, Chicago 11.

NO CLAIMS.

A Start Ban

We have a local program called "The Unseen Advisor". 7.00 P. M. nightly. Sponsored for seven years by the same client. Client recently felt he had saturated his market, dropped the program. We made this announcement: "We are thinking of taking this program off the air. If you want it to stay on, write us a letter." That is all we said. We made that announcement ONCE. We got 7,382 letters. No contest . . . no giveaway . . . no premium. 7,382 letters from one announcement. Period.

they're hot ... and they'll love you

in December as they do in May

Thirty-seven national spot and local advertisers used 50,000-watt WCCO last Summer. Just as they have every Summer for an average of eight years each. Just as they probably will again this Summer.

How come?

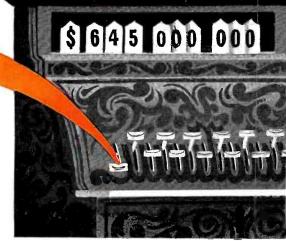

For one thing, WCCO's 37 year-round advertisers know that if they use summer campaigns, chances are their customers will be buying as much of their merchandise next Fall as they're buying this Spring.

But these 37 companies don't buy Summer advertising simply as investments in the future. They have discovered that "dog day" selling pays off during the Summer. Because almost as much cash is spent for retail products in WCCO territory during the Summer as in any other season of the year. More than \$645,000,000 in June, July and August!

To sell one-quarter of your Northwest market – June, July and August – and to make sure that your customers will love you next December as they do this May, join these 37 WCCO Summer advertisers. Just ask WCCO or Radio Sales and we'll show you how to sell 'em while they're hot!

Data supporting statistical summaries are available on request.

ROM oil sales to audience surveys, from program producer to radio directorthat's a capsuled resume of the 16-year period James Fonda has been associated with radio-in one form or another. Jim has been radio director of the Chicago office of Foote, Cone & Belding since last September.

The lean, distinguished gentle-man from Charleston, Miss., was born in 1907. His first big job in

the early 30's served as a convenient springboard for his radio career. Jim was assistant advertising manager of the Pennzoil Oil Co. on the West Coast where an unusual opportunity presented itself in the form of a new audience survey organization. He got in on the ground floor of Radio Survey, which actually antedated both Hooper and Nielsen. As a matter of fact, only the

(1933) and a growing industry was not yet rating-conscious.

The association proved fruitful. One day Jim was called upon to discuss business with Lord & Thomas, forerunner of the present Foote, Cone & Belding. Shortly thereafter he joined the agency as program producer. Branching into the production end, he served as

co-director of talent for FCB's Adventures of Philip Marlowe (for Lever Bros. Pepsodent Div.). He took administrative charge of Hollywood Star Time (for Frigidaire).

While these duties feathered the Fonda cap, Jim still regards as his most interesting assignment a show he produced for the Armed Forces Radio Service in which he served from 1943 to 1946. It was titled Jubilee, a weekly all-Negro

series which AFRS beamed overseas to talent-starved GI's.

Last year Jim transferred to Chicago where he replaced Richard Davis, producer of the Bob Hope Pepsodent show, who temporarily filled the position at the time of FCB's realignment. The Chicago branch, under Mr. Fonda, is concerned with the following programs: Hint Hunt, (for Armour) and por-tions of the Breakfast Club and La-dies Be Seated

(for Toni)-Chicago - originated; Radio Reader's Digest (for Hall-

mark) and Give and Take and This

"We're not so old in the Army List, But we're not so young at our trade." —Kipling, "The Irish Guards."

As of April 2, 1948, Radio Station WOW celebrates its twenty-fifth birthday—which is old, as age goes in the radio business. But ripe age, alone, is no guarantee of effectiveness in love, war or the operation of a broadcasting station.

Age is not so important as wide experience, digested and assimilated, powered by the energy and enthusiasm required to translate knowledge into action.

It is the operational "know-how", born of twenty-five years experience, plus the energy and enthusiasm of its still youthful staff, that keeps WOW tops in its field—tops in listening audience—tops as an advertising medium.

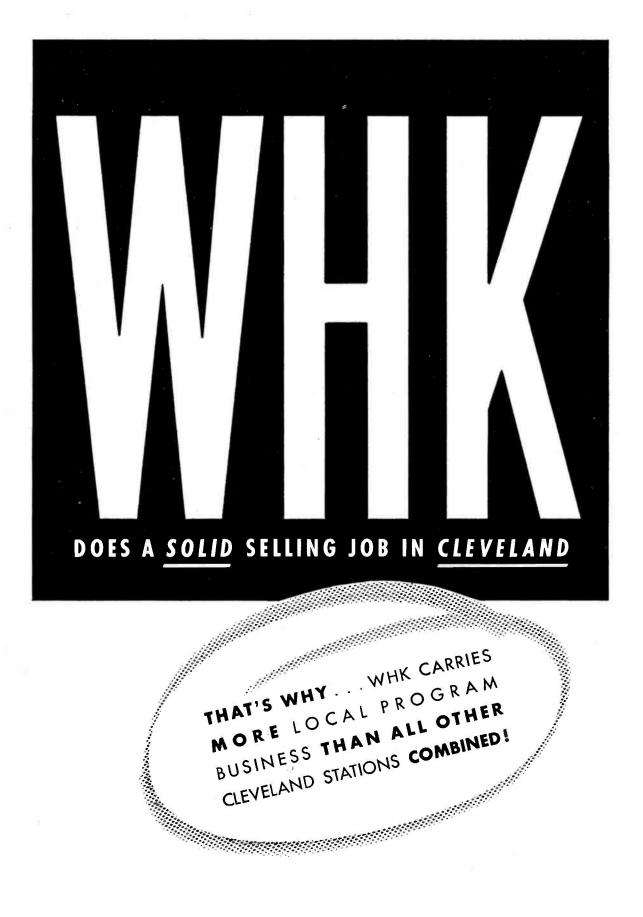

That's why, Mr. Advertiser, in the territory within a radius of 200 miles from Omaha, RADIO WOW CAN DO YOUR ADVERTISING JOB ALONE!

CLEARS AT CROSS ROADS Capital Hearings Begin Today

By RUFUS CRATER

FOR THE FIRST TIME in more than 20 years of radio regulation, a Congressional committee today (Monday) undertakes a hearing to settle the always controversial clearchannel question.

The hearing, on the Johnson Bill (S-2231) to break down clear channels and keep the power ceiling at 50 kw, opens at 10:30 a.m. before the Senate Interstate & Foreign Commerce Committee.

Thirty-four witnesses for and 26 against the bill are in the tentative lineup announced by the Committee Friday, plus

spokesmen for each of the four major networks who will appear in response to specific invitations from the Committee (see list of witnesses this page). With lastminute additions, it was thought the witness list might swell to around 70. About 10 full days of hearings are expected.

The opponents of the bill will be heard first, despite their plea that customary procedure entitles them to last voice.

Even though their witnesses outnumber those favoring the meas-

S-2231 Witnesses

LINEUP of witnesses for and against the Johnson Bill (S-2231) is presented below, subject to lastminute revisions. The opponents will be heard first, starting with the opening of hearings at 10:30 this morning (Monday).

AGAINST THE BILL

Louis G. Caldwell, counsel, Clear Channel Broadcasting Service.

John H. DeWitt Jr., engineering director, CCBS.

James D. Shouse, president, WLW Cincinnati.

Victor A. Sholis, secretary, CCBS.

Roy Battles, farm director, WLW. W. B. Ryan, manager, KFI Los Angeles.

Nelson MacIninch, farm director, KFI.

Roy R. McLain, Paloma Citrus Fruit Assn., Visalia, Calif.

A. E. Isham, director, public relations,

Mutual Orange Distributors, Los Angeles. Eugene C. Jarvis, manager, United

Date Growers Assn., Coachella, Calif.

Verne Jobe, commercial orchard worker, Covina, Calif.

Floyd D. Young, U. S. Weather Bureau, Los Angeles.

Clyde O. Hoober, vice president, California Farm Bureau Federation.

Harry Stone, manager, WSM Nashville. (Continued on page 87)

BROADCASTING • Telecasting

ure, the clear-channel advocates clearly face an uphill fight. Some 700 letters have been received by the Committee since it invited AM broadcasters throughout the nation to give their positions on the bill. Except for those from clearchannel stations, committee spokesmen reported, these almost exclusively have favored the breakdown legislation.

About 70 stations have outlined their positions but asked that they be kept confidential, reportedly because many were fearful of having their views made public.

FCC, which has devoted much of the last three years to study and hearings on the clear-channel ques-

tion, plans to offer no testimony. Its silence was dictated by the pendency of its own decision, which is being held up on instruction of the Senate committee pending completion of the Johnson Bill hearings.

The Clear Channel Broadcasting Service, composed of all of the independently owned 1-A clear-channel stations except KSL Salt Lake City, will lead off the presentation against the bill. The opening day probably will be consumed by testimony of Louis G. Caldwell, CCBS counsel; John H. DeWitt Jr., president of WSM Nashville and CCBS engineering director; James D. Shouse, president of WLW Cincinnati and other Crosley Broadcasting Co. stations; and Victor A. Sholis, director of WHAS Louisville and also of CCBS.

The principal arguments of the main adversaries-the clear-channel advocates and the advocates of clear-channel breakdowns-were summarized in statements given BROADCASTING Friday by Mr. Caldwell of CCBS, and Donald Treloar of KGEZ Kalispell, Mont., who will represent the Montana Assn. of Broadcasters. Mr. Treloar's views will also be representative of those of Ed Craney, head of the Pacific Northwest "XL" stations, long-time opponent of clear channels, and of the other anti-clear channel stations.

The CCBS views, as outlined by Mr. Caldwell, emphasize the dependence of large areas and populations upon clear-channel stations, the "inadequacy" of present clearchannel service from the standpoint of signal strength, and the fallacy of arguments that higher power will threaten smaller stations, tend toward monopoly, or bring large segments of the nation's population under the sway of the social views of a few stations.

The clear-channel supporters also will undertake to convince the committee that enactment of the Johnson Bill will imperil U. S. radio's international position by failing to protect this nation's channel rights under the North American **Regional Broadcasting Agreement** (NARBA).

International effects of the Johnson Bill already have been seen, with U. S. communications authorities in agreement that it will (Continued on page 87)

Utilities' Plan Spreads

By ED KEYS

FM RECEIVERS in the nation's public transportation vehicles will be as commonplace within 24 months as radios in private autos.

This was the amazing prediction -anchored in what appeared to be a strong foundation-by Richard C. Crisler, executive vice president of Transit Radio Inc., Cincinnati, which may be the harbinger of:

• A boon to the entire FM industry.

 Broader fields for sponsors on FM stations.

 Phenomenal growth of the transit radio phase of the industry.

Stimulation to greater radio listening.

Mr. Crisler presented some convincing facts, revolving about encouraging developments and overwhelmingly favorable public reaction to radioizing the public transportation systems of the na-

tion, which would merit the respectful attention of the skeptics. The Transit officials revealed that 96.66% of the passengers surveyed during tests in six American cities wanted FM reception in the transit vehicles regularly.

Surprisingly-consistent results of the surveys were as follows:

I	n j	lav	٥٢
of	se	rvi	ce

Mr. Crisler verified the successful completion March 30 of tri-cornered negotiations between Transit Radio Inc., WCTS Cincinnati (FM affiliate of WKRC, Times-Star station), and the Cincinnati Street Railway Co. to guarantee Cincinnati bus and street car passengers specialized FM program fare to relieve the monotony of rides between shop, office and home.

The contract provided for the immediate installation of FM receivers in 300 of their public conveyances. Installation will be completed in about six weeks.

But this is just the start, Mr. Crisler advises.

The transit company is also going to install FM receivers on the remaining 500 public transportation vehicles at a later date.

When all Cincinnati Street Railway Co. vehicles have been FMequipped the entire transportation system of the city will be humming with music, news, shows, and advertising, because there will not be a public transportation vehicle without it.

Commuters, too, will benefit.

The Cincinnati, Newport and Covington Railway Co., known locally as the Green Line, will also be furnishing entertainment [BROADCASTING, Feb. 29].

WILKINSON RESIGNS Plotkin May Succeed

RESIGNATION of Vernon Wilkinson, for the last three years assistant general counsel of the FCC in charge of broadcast services, was submitted to the Commission last week, effective April 9. Mr. Wilkinson will enter private law practice in Washington.

Mr. Wilkinson joins the Washington radio law firm of Haley & McKenna, which will become Haley, McKenna & Wilkinson.

While no announcement was made at the FCC, it is thought that Harry M. Plotkin, senior assistant general counsel in charge of Litigation and Administration, promptly would be named to the important broadcasting post most active of the legal assignments in the FCC. Mr. Plotkin was named an assistant general counsel in 1944, after having served three years on the FCC's legal staff. He has been the anchor man in the law department on broadcast policy matters.

Mr. Wilkinson, a long-time friend and associate of former FCC Chairman Charles R. Denny, became an assistant general counsel on April 18, 1945, shortly after Mr. Denny was elevated to a com-

Mr. PLOTKIN

missionership, and when now Commissioner Rosel H. Hyde was promoted from assistant general counsel in charge of broadcasting to general counsel. A native of Washington state, he had worked at the Department of Justice with Mr. Denny in the Lands Division. During his incumbency at the FCC he

Mr. WILKINSON

earned a reputation for fairness and objectivity among broadcasters and attorneys in his handling of broadcast matters.

Mr. Wilkinson has headed the broadcasting division in a time of unequalled expansion of the broadcasting field. The number of AM

(Management and Engineering Conference agendas on page 88.)

PROGRAM for NAB convention week in Los Angeles Nov. 17-21 was drawn up Friday at NAB headquarters, including main events of the Management Conference May 17-18 and the Engineering Conference May 20-21.

Panel techniques will be used for both meetings, with prominent speakers covering specific topics and delegates then joining in floor discussion of some of the major issues.

Opening day of the Management Conference will include the keynote address of NAB President Justin Miller in the morning following customary greetings by local dignitaries. A well-known speaker is slated for the Monday luncheon but details had not been completed Friday.

Monday afternoon will be one of the high spots, with the Standards of Practice slated for a working-over by the membership. Revised standards were distributed last week by NAB [BROADCASTING, March 29]. Another high spot comes Tuesday when FCC Chairman Wayne Coy is slated to ad-dress the luncheon. The annual dinner, devoted entirely to entertainment, takes place that evening as final event of the management meeting.

Page 22 • April 5, 1948

NAB will take the "long-hair" out of technical topics to broaden the appeal of the Thursday-Friday Engineering Conference.

New type of seminar, with intricate scientific formulas sidetracked in favor of practical operating problems, is planned. The general idea, according to Royal V. Howard, NAB engineering director, is to talk the language of both the

AAAA

CONVENTION

740.

APRIL 7-9

"Now you take the middle commercial. We have an account . . .

station manager and engineer so that both can learn the latest technical developments.

Management, Engineering Agendas Drafted

Station executives, managers and engineers alike, also will be told how to use these developments in day-to-day operation. Important scientific data will be presented but the format is designed to avoid the classroom aspect generally at engineering meetings,

Drawn for BROADCASTING by Sid Hix

Mr. Howard and Neal McNaughten, assistant director, are polishing off an agenda in which coverage, new methods and dollar-mark talk will dominate. They are following plans approved by the NAB Engineering Executive Committee.

Television Discussions

Most of the Thursday engineering meeting will be devoted to television. Ten engineers active in TV development will take the whole process apart to see what makes it tick. Starting with the radio wave as it leaves the transmitter, they will go into propagation traits of the TV frequencies, transmitter problems, studio equipment, field pickups, coaxial lines and all the way to servicing of receiving sets in the home.

Closing the Thursday proceedings will be discussions and demonstrations of magnetic tape recording. An evening event is planned but is not ready for announcement.

FM comes in for its share of attention Friday morning. Another feature of this session is to be revelation of a new system of measuring co-channel interference. This method is described as an important step forward in that it permits measurements of interference from other stations without shutting down any of the stations involved. Developer of the process is Rob-

(Continued on page 88)

NAB BOARD VOTE

Seven New Directors to Take Office

By J. FRANK BEATTY

NAB's new Board of Directors, facing a list of critical industry problems, will have seven new members when it meets for the first time in Los Angeles May 19, following the two-day industry Management Conference. The old board holds its final meeting May 15.

Six of the seven were elected in the March balloting. The seventh post must be decided in an April run-off election. Calvin J. Smith, KFAC Los Angeles, and Harry W. Witt, KNX Los Angeles, were tied in the 16th District vote.

The 25-man board will reflect few changes in complexion as a result of the elections though several key industry figures will retire at Los Angeles. The new members, however, are broadcasters of long experience. FM engineering strength of the new board will be augmented but these factors are not expected to upset present policies.

With the Standards of Practice slated for Los Angeles action, the board has one new anti-code member in Edward Breen, of KVFD Fort Dodge, Ia. At Atlantic City last September Mr. Breen was one of the hottest code critics advocating instead a simple broadcasters' creed. Later he joined in conducting a nationwide poll designed to show the extent of industry opposition to a code.

The newest set of standards incorporates a creed [BROADCAST-ING, March 29], but at the same time retains many of the limitations opposed particularly by independent stations.

Take Up Code Suggestions

The day after the Los Angeles convention, board members will take up suggestions offered in floor debate on the code. Unless opposition is serious, the board may adopt the new standards finally with provision for minor redrafting. NAB By-Laws give the board complete power to adopt and enforce a code but the directors have been leaning over backwards to produce standards that will have industry blessing and support.

As the international situation becomes more serious, code discussion may be subordinated by the board as well as the membership. On the new board will be many directors who served during the war. Most of the others directed station operations during the period and are familiar with pre-war and wartime broadcasting problems.

NAB already has arranged with Ernst & Ernst, New York auditing firm in charge of voting, to conduct the run-off election. Ballots will be mailed today (April 5) to the 16th district's 81 stations, to be returned to Ernst & Ernst by April 20.

Sixteen directorships were voted

disposed to support Mr. Durr's re-BROADCASTING • Telecasting

NEW NAB directors include (1 to r) Harry Bannister, WWJ Everett Dillard, KOZY Kansas City. No photo available of Detroit; Henry W. Slavick, WMC Memphis; William B. Quarton, Edward Breen, KVFD Fort Dodge, Ja. who was also elected WMT Cedar Rapids, Ja.; Robert Enoch, KTOK Oklahoma City;

on in March, comprising the eight directors-at-large (elected annually) and the even-numbered districts.

Results of director-at-large voting, with past directorship records since 1938 reorganization, follow:

Large Stations-Howard Lane, WJJD Chicago, (1939-42; 1947-48), reelected; Paul W. Morency, WTIC Hartford, (1939-48) reelected; 72 stations eligible to vote, 58 ballots cast.

Medium Stations-T. A. M. Craven, WOL Washington, (1944-48), reelected; G. Richard Shafto, WIS Columbia, S. C., (1942-44; 1945-48), reelected; 570 stations eligible to vote, 384 valid ballots, 18 void.

Small Stations-Clair R. Mc-Collough, WGAL Lancaster, Pa., (1938-39; 1945-48), reelected; Edward Breen, KVFD Fort Dodge, Ia., new, succeeding Robert Mason, WMRN Marion, O., (1947-48); 631 stations eligible to vote, 428 valid ballots, 14 void.

FM Stations-Class A, Willard D. Egolf, WBCC-FM Bethesda, Md., (1947-48), reelected; Class B, Everett L, Dillard, KOZY(FM)

50-mc FM SCRAP Lemke Bill Hearings Held

STAUNCH OPPOSITION to Congressional assumption of authority over frequency allocations was raised last week as the House Interstate & Foreign Commerce Committee completed its hearings on the Lemke Bill (H. J. Res. 78).

The two-day session was devoted to testimony by opponents of the measure, which would give a portion of the 50-mc band to FM in addition to its present 88-108 mc band. Advocates of the measure were heard in February [BROAD-CASTING, Feb. 9].

FCC and RCA in particular took the opportunity to present detailed replies to the oft-repeated charges of Prof. Edwin H. Armstrong, FM inventor, that they individually had held back the development of FM.

Congressional observers felt no inclination, after the hearing, to change their earlier view that there is little chance of the Lenike measure being enacted.

While there was no reference to the Johnson Bill to break down clear channels (S-2231), on which the Senate Interstate & Foreign Commerce Committee opens hearings today (see story page 21), the respective spokesmen for FCC, RCA, and Philco Corp., and representatives of the mobile services made clear that they felt Congress should leave allocation matters to the Commission.

FCC Comr. George E. Sterling pointed out that "even with its background of regularly handling radio matters, and even with its skilled technical staffs, the Commission required more than a month of hearings, and approximately eight months of study and investigation of the evidence submitted, before it was in a position to reach a final decision with respect to the proper place of FM in the spectrum."

He said that "frankly, it seems to us that the only sound basis for a decision in a matter of this nature is a record such as that compiled by the Commission in its November 1947 hearing during

WITNESSES and observers at the Lemke Bill hearings included (1 to r):

PHOTO NO. 1: Dr. C. B. Jolliffe, executive vice president in charge of RCA Labs Division, RCA; F. J. Bingley, technical assistant to the vice president in charge of engineering, Philco Corp.; Henry Weaver, Philco D. C. counsel.

NO. 2: John Howland, Zenith Radio Corp. legal department; Prof. Edwin H. Armstrong, FM inventor, and J. E. Brown, assistant vice president of Zenith.

NO. 3: From the Television Broadcasters Assn., Thad Brown, of Washington counsel; TBA President J. R. Poppele, of WOR New York; Will Baltin, TBA secretary-treasurer.

NO. 4: D. E. Noble, vice president of Motorola Inc., and chairman of Radio Technical Planning Board's Panel 13, and Donald S. Leonard, of the International Assn. of Chiefs of Police.

Page 24 • April 5, 1948

which the services involved set out in detail the basis for their needs for the frequencies. It seems to us that sound regulatory policy would

TWO DAYS of hearing on Capitol Hill last week revolved around the question of whether or not a portion of the 50-mc band should augment the FM 88-108 mc band. Congressional observers were of the opinion that the Lemke Measure stands little chance of being enacted; spokesman for private industry and the FCC also inferred that allocations matters might well be left to the Commission.

such a decision to be require reached in this way instead of by legislation such as H.J. Res. 78."

Above 400 mc

The question of a possible opening up of the band above 400 mc for commercial television inevitably came up, and found both RCA and Philco in opposition to an early move in that direction.

Dr. C. B. Jolliffe, executive vice president in charge of RCA Labs Division of RCA, estimated at one point that color television is "still five years away" though RCA is "working very hard" and has made "a lot of progress" in color work.

Comr. Sterling did not commit FCC on its final plans for its proposal to give to non-broadcast services the present Television Channel No. 1-44-50 mc-which FM interests also are seeking. But he did say that there is "serious ques-

tion" whether FM needs the space more than "the police and other services," and whether intercity relaying-for which some FM spokesmen requested the band-"would make for an efficient use of the limited frequency space available."

He said the Commission is considering the possibility of using studio-transmitter link facilities around 940 mc for FM intercity relays.

Committee attendance at the hearing was relatively sparse as other legislation-notably the debate on the European Recovery Plan-demanded members on the House floor. Principal committee mainstays in the session were Chairman Charles A. Wolverton (R-N. J.), and Reps. Leonard W. Hall (N. Y.), Robert Hale (Me.), Harris Ellsworth (Ore.), and James I. Dolliver (Iowa), all Republicans.

Running account of the two-day session follows:

WEDNESDAY

Comr. Sterling, the first witness, told the committee that the Lemke Bill represented a "most unwise" approach to allocations. He said it fails to take into account either the scarcity of spectrum space or the possible impact of such a law upon the needs of other services. "It would be a most obvious invitation

(Continued on page 78)

WCAU IN MIDDLE Jurisdiction Tiff Forces TV Cancellation

A LABOR jurisdictional dispute which put the station right in the middle snagged WCAU-TV plans to televise the American Opera Co. staging of "Bartered Bride" at the Academy of Music, Philadelphia, March 30 and forced the Bulletin television station to cancel the entire project.

Though permission had been obtained from the opera company and AFM, negotiations hit a snarl when IATSE, the stage hands union (AFL), refused to work with WCAU's CIO technicians and cameramen.

James M. Douglas, business manager of IATSE, Local 8, Philadelphia, told WCAU officials on Monday he was under orders from the international in New York to demand that AFL technicians and cameramen be substituted for WCAU's men-members of CIO's American Communications Assn.or that his group would refuse to work the production.

WCAU officials pointed out that substituting AFL men for their own would be a violation of a WCAU-ACA contract and thus such a move was impossible. Mr. Douglas then reported that he was in no position to negotiate and re-

ferred the WCAU authorities to J. B. Basson, international representative in New York. The station placed a call immediately to Mr. Basson's office, but he could not be reached. Late Tuesday afternoon, however, he had not returned the call.

When no settlement could be reached in the dispute by early Monday Monday evening, officials of WCAU-TV cancelled the television production. It was felt that time was running too short to allow the technicians and program men sufficient period for quality production.

Meanwhile it was indicated at IATSE offices in New York that the union and IBEW, both AFL, have agreed to a 50-50 split on all assignments, which may serve as a guide in such cases as the WCAU-TV-IATSE dispute. IATSE locals have complete autonomy in such matters, it was claimed.

BROADCASTING . Telecasting

AMERICAN TOBACCO

IN A SWIFT reallocation of its \$12,000,000 account. American Tobacco Co. last week named two major agencies to take over its vast advertising schedule.

The appointments were made within three days after Foote, Cone & Belding dropped the account March 25 over a disagree-ment in policy [BROADCASTING, March 29].

Batten, Barton, Durstine & Osborn was designated on Monday, March 29, as agency for the major Lucky Strike portion totalling approximately \$9,500,000 in annual billing.

Sullivan, Stauffer, Colwell & Bayles had been previously named on Saturday March 27 to handle Pall Mall representing a yearly expenditure of about two and a half million dollars.

So sudden were the new moves of the cigarette company that Bernard C. Duffy, president of BBDO, informed BROADCASTING that he became aware of the agency's appointment only shortly before the news was released to the trade. Cutting short a Florida vacation he arrived in New York on Monday to learn that, without even having submitted a formal presentation and presumably on the basis of its general advertising policy, his agency had been named to handle the multi-million-dollar Lucky Strike business.

Explaining that BBDO would formally take over the account "as soon as we can absorb it," Mr. Duffy said that it was yet too early to formulate a specific policy and approach to the new business. Presumably, therefore, there will

No 'Squeeze'

IN REPLY to persistent rumors that Foote, Cone & Belding's relinquishing of the American Tobacco account was in fact a "squeeze play" to effect a change in management at the cigarette firm, Emerson Foote, agency president, issued the following statement last Monday:

"I deny with contempt the insinuation or implication that our firm's decision to resign the American Tobacco account was made with any thought or expectation whatsoever of getting the account back at any time in the future. The decision was made entirely on principleand for no other reason in the world. Some people, being unable to believe that anything is done from an honest motive, thus reveal their own character."

be no immediate change in programming, and the Hit Parade and Jack Benny Shows will continue, at least for the present with no significant variation in format.

One question posed by the new alignment is the disposition of BBDO's Kool Cigarettes account. It is an accepted policy of advertising agencies to service only one cigarette firm at a time, and in line with that principle Mr. Duffy acknowledged that Kools will be released to another agency as designated by the Brown & Williamson Tobacco Corp. Billing of Kools, sponsors of the Red Skelton show, is in the neighborhood of a million dollars a vear.

Total Billing Soars

With the acquisition of the Lucky Strike business, the billing of the agency is estimated now to be in the vicinity of \$70,000,000.

Among the clients already represented by BBDO are E. I. duPont de Nemours & Co., U. S. Steel Corp., National City Bank of New York, General Mills, The B. F. Goodrich Co., Chrysler Corp. (De Soto division), and E. R. Squibb & Son.

The SSC&B appointment of the American Cigarette and Cigar Co. (Pall Mall cigarettes) formerly handled by FC&B was made only two days after the latter agency's resignation of the account. The SSC&B's overall billing is said to be in the neighborhood of \$10,000 .-000. and with the new addition will run close to \$12,000,000.

BBDO, SSC&B Named

Little more than 19 months old, the agency started its career with about \$5,000,000 worth of annual billing. It has thus more than doubled its business in slightly more than a year of operation.

The agency has indicated no plans to change the current programming policy of Pall Mall and it is assumed that for the time being The Big Story will continue in its present form on NBC. William Spire will be SSC&B account executive.

N. W. Ayer & Son has been named to continue handling Lucky Strike television advertising. The agency has already arranged a new weekly show for its client, titled Barney Blake, starting Thursday, April 22, 9:30-10 p.m. on the NBC television network. The agency will immediately take over the spot announcement television campaign.

Foote, Cone & Belding, however, will finish out the Tonight on Broadway series which starts April

New Medium AAAA PROBES TV On Agenda

RECOGNITION of television's rising importance in the advertising world will be given by the nation's advertising agencies at the 30th annual AAAA convention to be held at the Cavalier Hotel, Virginia Beach, Va., this week.

Much of the Thursday morning program will be devoted to video's growth and its impact on the agency business. Presiding will be Thomas D'A. Brophy, Kenyon & Eckhardt, New York AAAA vice chairman.

The three-day convention opens Wednesday afternoon with a closed business meeting followed by organization meeting of the new board.

Scheduled guest speakers are Rep. Karl E. Mundt (R-S.D.), coauthor of the Smith-Mundt Act which reactivated the "Voice of America," and Admiral William H. P. Blandy, commander in chief of the Atlantic Fleet. Rep. Mundt will deliver the main address at the 4-A's annual dinner April 8. Admiral Blandy will speak at the final luncheon April 9.

J. C. Cornelius, BBDO, Minne-apolis, chairman of the 4-A's board, and Thomas D. A. Brophy, Kenyon & Eckhardt, New York, vice chairman, will preside over the business sessions.

First open session, April 8, will be devoted to 4-A's activities in personnel and research, and to an analysis of television. Video topics include: "Dimensions of the Television Industry," by Dr. Peter

Langhoff, Young & Rubicam; "Principal Types of Television Programs and Commercials," bv Walter Craig, Benton & Bowles; "Comments on Current and Future Programming," by Jack Gould, New York Times radio editor; and "Television and the Agency Business," by Kennett W. Hinks, J. Walter Thompson Co., New York.

Election of 4-A's officers is slated for April 7, in a closed session. This executive session will include a discussion of "Running an Agency at a Profit," by Ray Vir Den, Lennen & Mitchell, New York, and a jury of AAAA members.

Entertainment at the conclave includes a golf tournament, a swimming exhibition, motion pictures, dancing, a tennis tournament, and a tour of nearby Williamsburg by members' wives.

Joseph Katz, of the Joseph Katz Co., Baltimore, is chairman of the entertainment committee. Bruce Brewer, of Bruce B. Brewer & Co., Kansas City, is in charge of sports events. Otto Kleppner, Kleppner Co., New York, will handle cocktail party arrangements. Mrs. J. C. Cornelius heads the committee on entertainment for ladies, aided by Mrs. Thomas D'A. Brophy and Mrs. Clarence Goshorn.

Mr. DUFFY

6 at 7 p.m. on WCBS-TV New York. The program is contracted for three weeks. If at the end of the three week session the American Tobacco Co. decides to continue with the show, the N. W. Ayer & Son agency will then assume its production.

The \$12,000,000 void created by Foote Cone & Belding's relinquishing of the American Tobacco account has already begun to fill with the appointment of that agency this week for The Glass Container Manufacturers Institute to handle its million-and-a-half-dollar yearly advertising budget. The industry plans a three year advertising campaign. It is not known whether radio will be used.

3 on AAAA Staff Are Named VP's Turnbull, Scheidker, Beckjorden **Promoted by Association**

AMERICAN Assn. of Advertising Agencies last week named the following as vice presidents: Richard L. Scheidker, to handle public relations, creative services, and commission and cash discount activities for the AAAA; Herald Beckjorden, in charge of media operations, radio production and re-search, and Richard Turnbull, agency administration and mechanical production. All three are former asistant executive secretaries of the association.

Mr. Beckjorden has been in the advertising agency field for 15 years, beginning with financial advertising in the Midwest. He transferred to New York in 1932 and in 1944 was added to the AAAA staff.

Before joining AAAA in 1946, Mr. Scheidker served a four-year term in the Navy, emerging as a lieutenant-commander. Previously he had been vice president and director of the Anfenger Advertising Agency, St. Louis.

Mr. Turnbull joined the AAAA in 1926 as assistant treasurer and since 1945 has been assistant executive secretary.

AFM and Recorders Still Stalemated NBC-RCA Cutdown is Believed Due to Union's Ban

THE AMERICAN FEDERATION of Musicians' ban against performances for records or transcriptions went into its fourth month last week, and there were no indications of early reconsideration of the union policy.

The last official word from James C. Petrillo, AFM president, on the subject came three weeks ago when he reiterated his statement that "we're through recording." A query to his office last week was answered with a similar remark.

Major recording companies were continuing to issue new releases pressed from master records cut before the work stoppage which began at midnight last Dec. 31. The large companies were understood to have accumulated enough masters to provide new releases for at least a year, and, it was believed, none is particularly eager to resolve the AFM situation until the backlogs, amassed at considerable expense, may be diminished.

Meanwhile, an official announcement from NBC and RCA last week confirmed a report in BROADCAST-ING March 15 that NBC's radio recording division activities had been drastically curtailed.

Effective April 1 RCA Victor assumed selling and servicing activities formerly performed by NBC including the processing of masters and the manufacture of pressings from masters recorded for clients by NBC. RCA also took over processing and pressing service for all transcriptions, slide film and phonograph records.

NBC continues to take care of programming and marketing of the NBC Thesaurus, and to provide programming service to advertising agencies and clients. NBC recording facilities were made available in New York, Washington, Cleveland, Chicago, Denver, San Francisco and Hollywood. RCA Victor will maintain sales service offices in New York, Chicago and Hollwood.

The move, which resulted in severe reduction of the NBC radio recording staff, was said to have been an economy measure taken at least in part because of the musicians' ban against recordings.

Quits FMA Post

LEONARD L. ASCH, president and general manager of WBCA Schenectady, N. Y., has submitted his resignation as a member of the FM Assn. board of directors to President Everett L. Dillard, WASH Washington, Resignation was effective April 1. Mr. Asch said he is associated with W. R. David, General Electric Co., also an FM director, in business enterprises and felt two members of the same firm should not be on board. Mr. David leaves GE the April 1.

1868 Burridge Davenal Butler 1948

BURRIDGE D. BUTLER, who disproved the often-expounded theory that radio is a "young man's game," died March 30 at his winter home in Phoenix after a brief illness. He had observed his eightieth birthday on Feb. 5.

In 1926, at 58. Mr. Butler purchased WLS Chicago. It soon became preeminent among stations devoted to farm and rural service. Afterward he acquired control of KOY Phoenix and KTUC Tucson. The stations were operated in conjunction with the Prairie Farmer, published in Chicago, and the Arizona Farmer.

Mr. Butler's death came suddenly. He was strolling in a citrus grove adjacent to his home March 23. He lost balance and fell backwards to the ground. Rushed to St. Monica's Hospital in Phoenix 12 miles away, he died a week later, from complications.

Services in Phoenix

Funeral services were held Friday afternoon in Phoenix. At the behest of his widow, his body was cremated, the ashes to be returned to Chicago for further services. Dr. John W. Holland, staff pastor of WLS, delivered the eulogy. Mr. Butler left no other survivors.

A giant of a man, Mr. Butler had been a familiar figure at NAB sessions for many years. His last appearance was at the 1946 convention in Chicago.

His entire adult background up to the time he purchased WLS from Sears, Roebuck had been that of a militant publisher who dealt in the unorthodox. At various times he had owned 15 different newspapers, all of which had prospered under his direction. Instinctively a journalist, he had been associated with newspaper publishing, some-

times as reporter, more often as publisher and owner, at Grand Rapids, St. Paul, Minneapolis, Kansas City, Omaha, Des Moines and finally Chicago and Phoenix. One of his early assignments was coverage of the Johnstown flood, which he reported for the Associated Press.

At 40, Burridge Butler had planned to retire and devote his time to travel and writing. But he bought the Prairie Farmer in 1909 and from that day on never forsook the typewriter or the microphone.

When radio came along, he seized upon it with the conviction that a broadcasting station could do much for the farmers and would be an ideal companion for his farm publishing activities.

Few people knew about Burridge Butler's philanthropies. He had financed many boys and girls through school. During the first World War, he was Illinois state director of the U.S. Working Boys Reserve. He served as a trustee of Blackburn U., a self-help school for boys and girls, which he had heavily endowed. He was a member of the National Council, Boy Scouts of America.

Born in Louisville

Burridge Davenal Butler was the son, grandson and great-grandson of clergymen. He was born in Louisville Feb. 5, 1868. He left home in his 'teens, after attending public schools. Successively, he sold papers, became a streetcar conductor and worked as a rodman in a steel rolling mill.

Mr. Butler's first wife, the former Winifred Whitfield of Grand Rapids, died in 1904. He married Ina Hamilton Busey in 1906.

A man of many hobbies aside from his philanthropies, Mr. Butler was a member of the Chicago Historical Society, the Art Institute, Chicago, and Field Museum, Chicago. His pet agricultural hobby was growing of cactuses and in other years he roamed the deserts contiguous to his ranch and sometimes into Mexico and California to gather the many species of that plant. He owned an extensive art collection as well as an experimental farm. He maintained two homes, in Hinsdale, near Chicago, and in Phoenix. He attended the Christian Disciples Church.

KNX-FM Starts

KNX-FM, Hollywood outlet of CBS, started operations March 30 with six-hour daily schedule, 3-9 p.m. Station is duplicating its AM program schedule. KNX-FM is assigned Channel 226 (93.1 mc). Effective radiated power authorized under construction permit is 297 kw

'Electronic Brain' For Fax Operation 'Miami Herald' Starts Using New Device It Developed

AUTOMATIC facsimile publishing was launched by the Miami Herald on April 1, and on the same date the Herald increased its daily facsimile editions from two to four. John S. Knight, editor of the paper, who made the announcement, said the Herald had developed and manufactured an "electronic brain" which, in combination with a timing device, "turns the facsimile receiver on, makes it talk, prints stories or pictures and turns the set off to remain silent between editions."

The facsimile editions, presented daily at 9:45 a.m., 12:30 p.m., 2 p.m. and 5 p.m., are broadcast over the 'Herald's FM station, WQAM-FM, and include AP news and photos and local news and photos. More editions are to be added later. Mr. Knight said, and arrangements have been made so that if emergency news breaks extra receivers owned by the Herald will be made available on a lease basis at \$85 a month.

Designed by Gulick

The automatic receivers are located in Miami hotels and in the lobby of the city's public utility company.

The "electronic brain" was designed and constructed by Marion Gulick, Herald facsimile engineer, Mr. Knight said. The Herald embarked on research to simplify receiver operation, he added, after field tests indicated that the original equipment made by General Electric had too many gadgets for customers.

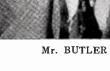

The Herald began sending two facsimile editions daily last Dec. 16, and this schedule was continued until the new automatic operation was launched April 1.

Georgia Institute To Beain Tomorrow Miller, Reinsch Slated to Speak

At Annual Affair THIRD ANNUAL Radio Institute of the Georgia Assn. of Broadcasters opens tomorrow (April 6) at the U. of Georgia in Athens.

Extensive two-day agenda has been set up with such speakers as NAB President Justin Miller; J. Leonard Reinsch, radio adviser to President Truman; Robert Swezey, MBS vice president and general manager; Paul Porter, former FCC chairman; Roy Harlow of BMI; Macon Reed Jr., MBS Washington news staff; Harold Fair, director of NAB Program Dept., and Lee Hart, asst. director of broadcast advertising, NAB.

Last year the Institute attracted over 100 representatives from 22 Georgia stations and this year the committee has set a goal of 200.

TV CLINIC

250 Attend New York Sessions of CBS

OW IS THE TIME to get into television, CBS President Frank Stanton told some 250 owners and top management executives of CBS affiliated stations attending a one-day television clinic at New York's Waldorf-Astoria Hotel last Wednesday.

Declaring that television's meteoric progress is destined to equal if not surpass the outstanding success story of sound broadcasting, Mr. Stanton said:

"Every index of television is on the high upswing. There are about ten times as many receivers in use today as there

were a year ago. Twenty-two stations are now on the air; 74 have filed for construction permits and 177 applications are awaiting action of the FCC. Permits for every one of the 400 stations which will be permitted to operate in the country's 140 metropolitan areas will be assigned before the end of the year. Advertisers in, and revenue from, television are moving up-ward at a fast rate."

Stating that "CBS feels there can be no half-way measures in building a network," Mr. Stanton said the network is "driving under full power to the top." He pointed

out that wherever television stations go on the air they have captured the public imagination. Television, he de-clared, "has already begun changing the fam-

Mr. Lodge

predict its full impact, but it is certain at least to repeat the accelerated growth curve of radio."

William B. Lodge, director of general engineering for CBS, told the meeting that 100 to 120 video stations will be broadcasting by the end of 1949. He described the amount and cost of equipment needed for television operation. from the small satellite station which originates none of its own programs, depending entirely on network service, to the full-fledged metropolitan station with studios. mobile units and complete equip-

ily habits of America. It is

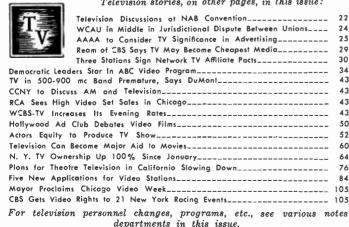

still too early to

in the lowest in-Mr. Moskovics come group. The

average video family is 10% larger than the average aural radio family, he said, with the average owner of a television set having friends in to see television three times a week and averaging 17 hours of viewing time.

Pointing out that television

Television stories, on other pages, in this issue:

TELEVISION stopped traffic in mid-town New York last week when not-so-blase Manhattanites paused to gape as a six-bay super turnstile RCA television antenna was hoisted to the roof of the 36-floor, Daily News Bldg., where it will be installed for WPIX, "New York Daily News" video station. First installation of this new antenna -TF6A-in New York, the WPIX bat-wing will soar 754 feet above the street. It and the transmitter are scheduled to be completed in May, and WPIX is due to go on the gir June 15.

"reaches the whole purchasing board of a family at one time with messages all can understand and remember," Mr. Moskovics said that television will aid in "the giant-size selling job required to move the 150 billion dollars worth of merchandise which will be produced by the nation this year.' Advertisers using television, he said, have increased from 30 in January 1947 to 210 in February 1948. Their use of time also has increased, he reported, citing 159 advertisers using 205 video periods in November, compared with 210 advertisers sponsoring 375 periods in February.

Other speakers representing the network at the one-day video clinic included William C. Gittinger, vice president in charge of network sales, who predicted that AM and TV will complement each other rather than compete: Herbert V. Akerberg, vice president in charge of station relations; Leonard Hole, associate director of television; Lawrence W. Lowman, vice president in charge of television. Mr. Lowman invited those attending the clinic to visit the WCBS-TV facilities in Grand Central Terminal Bldg., where new studios are now under construction.

Edward R. Murrow, CBS news analyst, spoke on world affairs during the luncheon period, when the group also watched a CBS video program. Missus Goes a-Shopping. telecast from a supermarket in a New York suburb and received on video sets in the dining room. In a demonstration of remote pickup techniques, cameras were trained

on the guests, who were able to watch themselves on the receivers viewing screens.

WGN-TV Given Big Sendoff by 'Trib' Chicago Daily Publishes 40-page

Sunday Television Supplement

PREPARATORY to launching of WGN-TV Chicago today (April 5), Chicagoans were greeted over the weekend with a special 40-page Sunday television supplement designed to launch the Chicago Tribune's video outlet in a printed blaze of glory.

Prominently displayed were articles based on interviews with Wayne Coy, FCC chairman; J. R. Poppele, president of Television Broadcasters Assn. and MBS director; Gov. Dwight Green of Illinois, and Mayor Martin H. Kennely of Chicago. A signed article by Frank P. Schreiber, general manager of WGN Inc., and a twocolumn spread by Larry Wolters. Tribune radio editor, telling of initial programming operations tonight at 7, also are featured.

Mr. Coy foresaw television "as an unrivaled medium for spreading cultural and educational under-standing" among the American among the American people and hailed the Midwest as a growing force in the billiondollar industry.

Mr. Poppele, interviewed in New York, urged readers to buy TV receivers now rather than wait for further developments. Present sets would not be obsolete within 10 years, he said, pointing out that he has had a receiver since 1938.

Another highlight of the special section is a glossary of video terms for the layman. Cartoons, brief biographies of WGN-TV personnel, short items and numerous feature articles make up the supplement, which also includes dealer advertising.

AM DUPLICATION NBC, CBS FM Rules Given to FCC

NBC and CBS last week explained to the FCC their rules governing duplication of AM network programs on FM stations.

In a brief paragraph, CBS recited the "equal treatment" policy governing duplication. The policy was outlined in a letter by Julius F.

Brauner, secretary and general attorney, in response to an FCC request to all networks [see MBS and ABC policies in BROADCAST-ING. March 22].

Mr. Brauner said that CBS on Jan. 29 had advised its affiliates as follows:

Iollows: ...beginning Feb. 1, without cost to affiliates or charge to our advertisers, all CBS commercial programs which affiliates carry on AM (with the ex-ception of those programs as to which you have been advised agencies have requested no duplication on FM), and sustaining programs as well, will be made available to our affiliates' FM stations, it being understood that in fairness to network clients all such commercial CBS programs receive equal treatment during your hours of FM operations ... Mr. Rusuner added that the nat-

Mr. Brauner added that the network has not yet formulated policies on non-affiliated FM stations in communities where there are no AM affiliates, or in communities where its regular affiliate does not carry the program on FM but another FM station might desire so to do, pointing to the complexity of the problems.

NBC Regulations

Frank E. Mullen, NBC executive vice president, informed the Commission the network's affiliates may duplicate over their FM facilities. but must carry the programs in the same form as when broadcast over AM, without deletions, additions or modifications. He cited provisions of the interim agreement with American Federation of Musicians that no charge would be made for duplication.

If an NBC affiliate duplicates one commercial program it must duplicate all, within the hours of its

UN Gives Dorothy Lewis Radio Coordinating Post THE APPOINTMENT of Dorothy Lewis as coordinator of women's broadcasts by the United Nations

Mrs. Lewis

Dept. of Public Information, following her resignation from NAB two months ago, was announced last week.

Active in women's organizations and the radio industry for many years, Mrs. Lewis joined NAB in

1942, and was serving as coordinator of listener activities at the time she resigned. She founded and helped build the Assn. of Women Broadcasters, of which she is a lifetime vice president, and also instigated the formation of radio councils throughout the country.

Her new appointment was effective March 29.

BROADCASTING • Telecasting

FM operations, Mr. Mullen wrote. He said the requirement is essential "to avoid unfair discrimination as between advertisers." No such requirement is made in the case of sustaining programs, he told the FCC.

As to non-affiliated FM stations, he wrote:

Application for affiliation from FM station in a community Application for affiliation from an FM station in a community where NBC has no AM affiliate would be treated on the basis of the same considerations as an application for affiliation by an AM station in the community. Requests from such an FM station to carry an occasional network program would also be considered on the same basis as similar requests from a non-affiliated AM station.

As to non-affiliated FM stations in communities where NBC has an AM station which does not duplicate on FM, Mr. Mullen said NBC has not reached the point of providing for FM broadcasting through separate FM affiliation contracts. He reminded that NBC's standard AM contracts provide that it will first offer its AM affiliate a chance to enter an agreement for any FM station it owns in the community. He said this policy envisioned a separate system of FM network affiliation to parallel the present AM network.

Future Policy

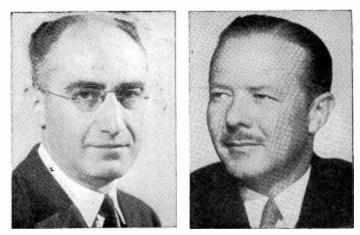

NBC hopes all its affiliates some day will broadcast the network's programs over FM facilities, he told the FCC. If this objective is not attained, then the network will be in position to frame a policy based on its experience.

MBS and ABC had told the FCC they permit affiliates to duplicate on FM. ABC specifies that if any program is duplicated, all must be carried within the FM station's operating hours, whether the programs are commercial or sustaining. MBS said it had a similar requirement applying only to commercial programs.

TV AND FM PROMOTION HEAD RMA AGENDA

TELEVISION and FM promotion activities, along with the "Radioin-Every-Room" and National Radio Week plans, head the agenda of the Radio Manufacturers Assn. board meeting to be held April 8-9 at the Royal York Hotel, Toronto, Ont.

RMA's board and officers will meet for the fifth time with the Canadian RMA. Last year the U. S. group was host at Atlantic City. Max F. Balcom, U. S. RMA president, will preside at the opening session April 8, with the Canadians as guests. Friday morning

NEW AND FORMER presidents of the Radio Pioneers organization are Edgar Kobak (1), president of Mutual, and Mark Woods, ABC president. Mr. Woods turned over the reins to Mr. Kobak at a dinner meeting last Thursday at the Waldorf-Astoria Hotel, New York. The Radio Pioneers, comprising a membership of those with 20 or more years direct association with the industry, discussed expansion plans at last week's sessions.

REAM LAUDS TV May Become Cheapest Of Media, He Save

"TELEVISION is expensive, but from the advertisers' point of view, it may well be the cheapest of all media," Joseph H. Ream, executive vice president of CBS, said April 1 in an address before the Chicago Federated Advertising Club.

"Some people have said that television is the greatest advertising medium ever created by the genius of man," Mr. Ream stated. "I think

this is true, but I prefer to think of it as the greatest sales tool. This is because television is able to do something which none of the other great advertising media can do-it can actually demonstrate the product to the customer."

in that market. It is obvious that this cost of 3½c, which even now is substantially lower than that for any competing demonstration method, will be reduced several times over as the number of television sets expands and as the program, with the demonstration, is carried to other cities through network services." Says Clients 'Amazed'

among the 150,000 television homes

Even where the demonstration technique is not used, seeing the product while it is described "is creating effective demand which continues to amaze our clients," Mr. Ream said. He cited a Ford commercial shown during the telecast of a Brooklyn Dodgers ball game last sumer. The filmed commercial showing Ford trucks in action, Mr. Ream said, was seen by the president of a New York trucking company who thereupon ordered his first Ford truck, writing the sponsor, "I purchased my first Ford because your program convinced me you made a good car."

Mr. Ream also reported that a demonstration of a Lionel toy train televised by WCBS-TV New York produced more than 600 inquiries and 300 sales leads for that company. His final example was the use of video spots preceding sports telecasts to secure outlets for Pepcorn Chips, new food product which had found printed advertising ineffective in expanding distribution. "In three weeks the company had 2,750 new out-lets and it credits this success to the eye-catching sales impact of television," Mr. Ream said.

April 5, 1948 • Page 29

Mr. Ream

"It has been estimated that the cost of demonstrating an automobile to 1,000 prospects is \$5,000-\$5 a demonstration," Mr. Ream continued. "The demonstration of a home appliance in a house-to-house canvass can sometimes be done for as little as 50c per demonstration. A demonstration of a kitchen product by a girl in a store will sometimes cost no more than 10c a person. Yet today on television the demonstration of a product can be projected into the home before the eyes of the family group at a cost of only 3½c.

"This cost has been calculated on the basis of an average evening program in New York City over our television station WCBS-TV, enjoying only the average rating

S. L. Capell, Canadian RMA head, will preside.

Two luncheons and a dinner are on the program. U. S. RMA topics will include reports of its divisions, including those covering sets, parts, tubes, transmitters, amplifiers and sound equipment.

WLWT and WTVR TV Contract NBC

Cincinnati and Richmond, Va., **Raise Total to Three**

WLWT Cincinnati and WTVR Richmond become the second and third affiliates of NBC's television network under contracts signed last week. NBC's first video affiliation contract with KSTP-TV St. Paul-Minneapolis was signed March 17 [BROADCASTING, March 22].

James G. Shouse, president, Crosley Broadcasting Corp., signed for WLWT, video associate of WLW Cincinnati, pioneer NBC affiliate. WLWT began commercial operation Feb. 15 after a period of experimental telecasting as W8XCT.

Shows on Film

The network programs will be recorded on Kinescope film and sent to Cincinnati. Many will be scheduled within 24 hours of their telecasting in New York, according to Mr. Shouse.

Contract for WTVR was ne-gotisted by Wilbur M. Havens, president, Havens & Martin, operator of WTVR and its AM associate WMBG Richmond, which is also an NBC affiliate. Both contracts were signed for NBC by Frank E. Mullen, executive vice president of the network.

WTVR test paterns are now on the air daily. During the "shakedown" period, a regular test pattern will be broadcast 3-5 p.m., Monday-Friday. WTVR plans formal operation about June 1.

STREAM OF FIRSTS

Three Networks 'Leak' Word -Of Television 'Firsts'-

EACH SUCCESSIVE mail delivery fortnight ago brought to the New York Bureau of BROADCASTING fresh news of titantic television feats by the networks, each in turn a historic milestone calculated to stun the opposition.

Diffident NBC lit the fuse with an announcement of "the first station affiliation contract in the history of television"-the signing of KSTP-TV St. Paul-Minneapolis as an NBC video affiliate effective March 17 [BROADCASTING, March 22].

ABC, breathless but not quite wordless, on March 22 permitted the word to seep around that WFIL-TV Philadelphia had been linked as AEC's first television affiliate, thus becoming "the first independently-owned television station to sign a two-year contract as an affiliate of a national net-work."

On March 25, a terse CBS communique disclosed that the "first actual television network affiliation contract in the history of American broadcasting was signed toby WCAU-TV Philadelphia, dav and the Columbia Broadcasting System's television network."

CENSORSHIP

by a press media committee March 29.

Representatives of radio, press and motion picture interests comprising the committee made it clear in a resolution presented to Secretary Forrestal that any system bearing even the slightest resemblance to censorship to prevent security "leaks" would be unacceptable [BROADCASTING, March 29].

"We do not believe," the resolution advised. "that any type of censorship in peacetime is workable or desirable in the public interest.'

The committee did recognize the existence of a national security problem in the protection of necessary military secrecy in the fields of scientific research and development of new military weapons.

A wise solution would be the responsibility of the National Military Establishment, the committee suggested, but it acknowledged that this responsibility should be shared to some degree by all media of public information. The resolution recommended that nine representatives of 14 radio, press, and movie organizations be designated by the defense chief as a Security Advisory Council.

"We recommend," the resolution stated, "that these organizations respond and that the council be available to the Secretary for advice and discussion of the security problem from the viewpoint of the press, the radio and the moving picture industry. Establishment of such continuing liaison, we believe, will be mutually helpful to the information media represented and to the Secretary of Defense."

The Security Advisory Council would consist of a representative of the NAB, National Assn. of Magazine Publishers, American So-

Body Is Suggested

CREATION of a radio and press body to serve in an advisory capacity to Defense Secretary James V. Forrestal is under way following rejection of the Forrestal Plan for voluntary peacetime radio and press censorship

> ciety of Newspaper Editors, American Book Publishers Council Inc., Motion Picture Assn., American Newspaper Publishers Assn., National Council of Business Paper Editors, one representative of the three press associations and one representative of the networks.

> Capt. Robert Berry, aide to Secretary Forrestal, told BROADCAST-ING March 31 that letters had been sent to the organizations inviting them to appoint representatives to serve on such a council.

It is believed that Justin Miller, NAB president, would be selected to represent the networks and radio interests.

Secretary Forrestal asked radio and other representatives at a meeting March 3 to advise him on preventing "information which might endanger the United States from being given away to any potential enemy."

A subcommittee, headed by B. J. McKelway, editor of The Evening Star, Washington, subsequently wrote the resolution unanimously adopted by the full committee.

Stations to Get Copies

Mr. Miller, a member of the Mc-Kelway subcommittee, announced that the full report and resolution would be transmitted to the 2,024 stations, networks and associate members comprising the NAB membership and would be reprinted in the weekly NAB Reports.

Five other radio figures were members of the committee voting on the resolution. They were W. R. McAndrew, assistant to vice president of NBC, Washington; Louis G. Caldwell, Washington attorney

(Continued on page 81)

Radio-Press Advisory WMAR-TV Third TV CBS **Affiliate**

Three-Station Network Includes Also WCBS-TV and WCAU-TV

SIGNING of The Baltimore Sun television station, WMAR-TV, as the third outlet in the CBS video network was announced March 29 by CBS. Other

members of the network are WCBS-TV New York and WCAU-TV Philadelphia. Agreement on the WMAR-TV affiliation was reached between Neil H. Swanson and E. K. Jett, representing the

Mr. Jett

Baltimore Sunpapers, and Herbert V. Akerberg and Lawrence W. Lowman for CBS-TV. Mr. Swanson is vice president and executive editor of the Sunpapers; Mr. Jett, former member of FCC, is vice president and director of the radio division of the Sunpapers.

On Air Since October

WMAR-TV, on Channel 2 with aural power of 9 kw and visual power of 17.1 kw, has been broadcasting since October 1947. It operates seven days a week. Station's feeds to the CBS video network are to include coverage of the Pimlico race meeting, highlighted by the Dixie Handicap May 8, and the Preakness May 15.

Terms of the contract were not divulged. It is understood, however, that for the present the pioneer Baltimore outlet also will continue to telecast selected programs of both ABC and DuMont. Since last October WMAR-TV has telecast more than 1,000 hours-a substantial portion of them locally originated.

Signs of the times?

Some time ago everybody bid for that porker. He was a bargain at \$30.50 per hundredweight. Then all of a sudden nobody wanted him at \$22.25 per hundred pounds.

Fortunately, the makers of packaged, branded goods aren't exposed to such fluctuation in prices to the same degree.

But they sure are wide open for sniping by the opposition. Today the battle for brands is on in full sway.

Down here is the country's 6th largest city, if you use radio, there's a way to keep your brand on top and selling.

Use W-I-T-H. That's the hard-working sales station that has become one of the most successful independents in the country. In this big city, W-I-T-H delivers more listeners-perdollar-spent than any other station in town.

Smart time buyers know this . . . they've been using W-I-T-H as the backbone of their schedules. W-I-T-H pays off with low-cost sales.

Try it...chances are you'll like the action it gives you.

Program Sells Self

KLZ Denver has found that one of the most effective ways to sell radio advertising is to advertise on the radio. This sales technique was forcefully and successfully demonstrated by KLZ recently when it used the commercial time of the first week's sustaining appearance of It Pays to Be Ignorant to tell local merchants that the program was available for local sponsorship. The next morning J. Clint Bowman, president of the Rocky Mountain area's Merchants Biscuit Co., called Jack Tipton, KLZ salesman, to claim an option on the Howard Shelton and company show. Before the next show was presented, the biscuit company had contracted for a 52 week's sponsorship of it.

ELIMINATE STA'S

FCC Orders May Oral Argument

ORAL ARGUMENT was ordered by FCC last week for May 7 on the Commission's proposal to abolish granting of special temporary authorizations to AM stations. A number of objections to the proposed change have been received.

Many of the parties which have filed comment on the matter take issue with the Commission's stand that the increasing number of operating FM stations now makes the issuance of STA's unnecessary, particularly in view of the crowded condition of the AM band. Objectors contend that in the small town areas, where STA's are more often sought, FM stations have yet to begin broadcasting. Further it is noted that the public in these areas own relatively few FM receivers.

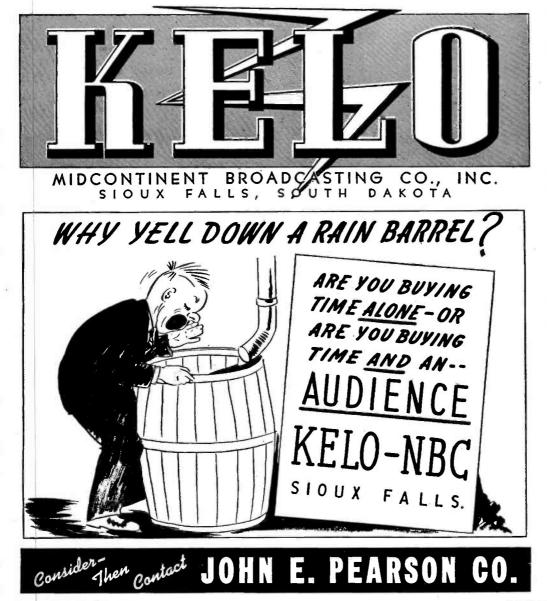

The broadcasters on the whole emphasize the loss to listeners of vital, local special event-public service programs.

STA's as a rule have been granted by the Commission to day-

time-only stations for broadcast in evening hours of important local public events such as high school athletic contests. The stations usually operate on considerably reduced power for these night programs to protect other stations regularly licensed for night operation and entitled to protection, it was indicated.

Asks Postponement

WNYC, New York City-owned outlet (830 kc 1 kw, limited to WCCO Minneapolis), asks that proposed change be postponed at least until the proportion of FM receivers in New York is sufficient to make the effective use of FM facilities comparable to AM. WNYC estimates that only 3% of

New York's set owners have FM. Postponement likewise is asked

by WMRO Aurora, Ill. (1280 kc, 250 w day) for a six-month period. WMRO says Aurora's only FM outlet, WBNU, assigned to The Copley Press Inc., is not yet operating and a small minority of FM receivers exist in the area.

Andrew G. Haley, Washington radio attorney, in behalf of his own KAGH Pasadena, Calif. (1300 kc, 1 kw day) and several other broadcasters, also notes the relatively few operating FM stations and small percentage of receivers in the public's hands. His brief also represents WBEL Beloit, Wis.; WBET Brockton, Mass.; WNOW York, Pa.; KMMJ Grand Island, Neb.; WEEB Southern Pines, N. C.; WSFT Thomaston, Ga.; WAUX Waukesha, Wis.; KWBB Wichita, Kan.; and San Gabriel Valley Broadcasting Co., San Gabriel, Calif., permittee. Most are daytime only stations and some have FM authorizations not yet on the air.

WPFB Middletown, Ohio (910 kc, 1 kw day), cites its STA experience and need for special event privileges. WIL Urbana, Ill., U. of Illinois outlet assigned 5 kw day on 580 kc, and WOI Ames, Iowa, Iowa State College station, assigned 5 kw day on 640 kc, emphasize educational factors involved as well as need for STA's for special athletic events. WKAR East Lansing, Mich. (870 kc, 5 kw day), Michigan State College station, takes like view and believes door should not be completely closed.

Harry J. Daly, Washington attorney, cites the small community need as one reason why STA's should be given more liberally. He urges that more Class IV local stations be assigned.

McCONNELL ELECTED INDIANA GROUP HEAD

PRESIDENT of the Indiana Assn. of Broadcasters for the coming year is C. Bruce McConnell, president of WHOT South Bend and

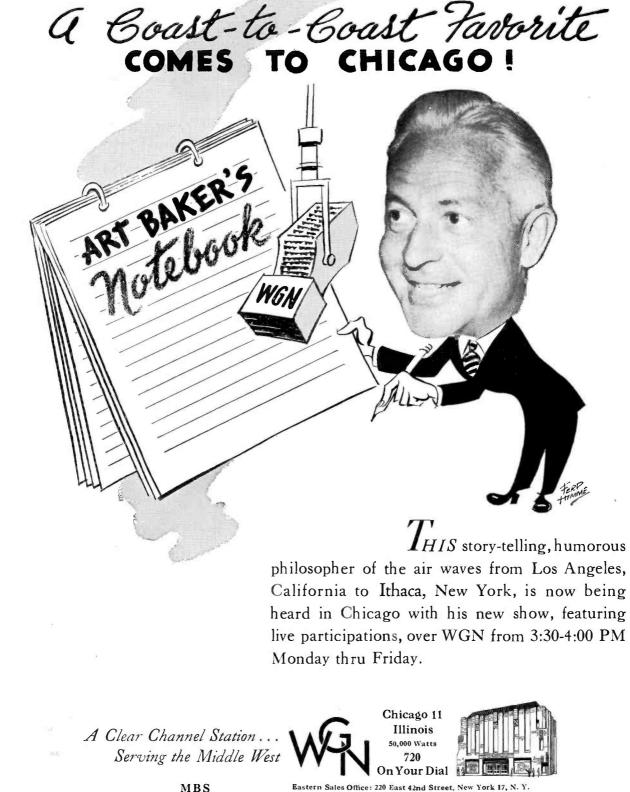

WHBU Anderson and Eighth District director of the NAB. Mr. Mc-Connell, with the following other officers, was elected at a meeting of the association in Indianapolis March 26:

Gerald F. Al- Mr. McConnell bright, WKBV

Richmond, vice president; Warren G. Davis, WSUA Bloomington, secretary; William F. Rippetoe, WBOW Terre Haute, treasurer, and Dan Park, WIRE Indianapolis, executive secretary.

Plans were discussed for dedication of the new radio center to be opened this year at the Indiana State Fair. Next meeting of the association will be held in June.

Taft Next on CBS Presidential Show

THE CBS OFFER of free air time to seven Presidential aspirants brought three acceptances, one tentative acceptance and one refusal as of April 1.

President Truman declined an invitation to appear on the network's Wednesday night *Presidential Timber* series, according to a CBS spokesman, saying he was unable to accept further speaking engagements due to the press of official duties.

Harold Stassen inaugurated the series March 31, 10:30-10:45. Sen. Robert Taft (R-Ohio) is slated to speak this Wednesday April 7. Henry Wallace will air his views on April 21 or April 28. Gov. Earl Warren of California is set tentatively for April 14.

Replies have not yet been re-

ceived from Gov. Thomas Dewey of New York and Gen. Douglas Mac-Arthur, CBS said.

Gov. Dewey also is scheduled to make a political address over ABC on Thursday, April 8, 9:30-10 p.m.

'Times' Spot Drive

AN INTENSIVE spot campaign, believed to be the first sponsored by the New York Times to plug an editorial feature, is scheduled to start April 12 on five New York stations. One-minute spots and station breaks will be heard, mostly in the morning, on WOR WJZ WHN WNEW and the Times outlet, WQXR. Campaign, to run two weeks, will promote publication of Winston Churchill's war memoirs beginning April 16. Advertising was placed by St. Georges & Keyes, agency for the Times.

The Local Touch That Sells!

FM THREAT

DEATH KNELL for FM broadcasting may develop from the present network policies on FM-AM duplication, David G. Taft, manager of WCTS (FM) Cincinnati (affiliate of WKRC) and a director of FM Assn., declared in an official protest to J. N. (Bill) Bailey, FMA executive director.

If continued, the present policy "would relegate FM to a very secondary role and would probably mean that in time it would die out completely," Mr. Taft wrote.

The network requirement that FM stations carry all or none of their commercial musical programs and only sustainers also broadcast over their AM transmitters will have "a very detrimental effect on the future of FM in the average American market," Mr. Taft wrote.

Taft Protests Present Network Policies

If all Cincinnati FM stations with AM affiliates air the same shows, incentive for mass buying of FM sets will be eliminated inasmuch as normal AM sets are cheaper than combinations, he argued. Since static is rarely a problem in Cincinnati and since network lines are limited to 5000 cycles, the public would be denied the advantages of FM, discouraging FM set sales, he contended.

Mr. Taft contended that if FM became a free service, set promotion would be stopped, another "serious blow to FM." He said that "if the network sponsors were given a free ride on the FM station, the local and national spot advertisers would demand the same privilege." He added that if WCTS duplicated, "it would be necessary for us in all honesty to rebate our present and past FM advertisers the full amount billed since our station went on the air."

DEMOCRATIC LEADERS STAR IN ABC TV SHOW

FORERUNNER of what promises to be a summer of political telecasts, ABC and the Democratic National Committee last Wednesday staged an hour-long video program featuring Democratic party leaders picked up in four cities, New York, Philadelphia, Washington and Baltimore. The program, broadcast March 31, 5-6 p.m., was said to have marked the first time a coaxial cable video network has handled a four-point program origination.

Starting in the studios of WFIL-TV Philadelphia with talks by Sen. Francis J. Meyers (D-Pa.) and William N. Roach, Democratic convention manager, who outlined plans for the party's national convention in July, the program switched next to New York, where acting Mayor Vincent Impellitteri and Robert F. Wagner Jr., chairman of the city's planning commission, spoke to the video audience.

Third stop in the political broadcast was Baltimore, for talks by Mayor Thomas D'Alesandro and Gael Sullivan, executive director of the Democratic National Committee. Broadcast concluded in Washington with brief talks by Sen. J. Howard McGrath (D-R. I.) National Committee chairman, Sen. Brien McMahon (D-Conn.) and Sen. Alben Barkley (D-Ky.), minority leader of the Senate.

Produced under supervision of Paul Mowrey, ABC national director of television, the program was broadcast by WFIL-TV Philadelphia, WMAR-TV Baltimore, WABD New York, and in Washington by both WMAL-TV and WTTG.

They keep calling this show names

Names like "the prize comedy package among the season's entrants" (Variety)..."a gladsome gift to network programming" (Billboard)... "CBS' captivating number" (New Republic)... "Very, very, funny" (N. Y. Herald Tribune) ...and stuff like that.

But even those names don't do justice to our mr. ace and JANE.

For how, after all, do you define the dimensions of *big-time* Radio laughter? How can you find a name for the gaiety of the audience — and of the sponsor, too — when Radio comedy is written and played by *experts*?

One clue, of course, is that mr. ace and JANE are the same Goodman and Jane Ace (more name-calling) of "Radio's earliest and sharpest husband-and-wife program" (Time).

Surely it's a surprise to just about nobody that this latest CBS-built program – written, produced and directed by Goodman Ace – is a hit. For it has all the action, situations and lines which make for really big audience laughs. It is expert new Radio comedy with all the "if" removed.

So to listeners all over America...and to the advertiser *now* looking for a better program... CBS can offer no better advice than more name-calling (from the N. Y. Post):

"This is bright, refreshing...Don't miss it..." It's on CBS, Saturday night at 7:00, EST.

Columbia Broadcasting System

WE DON'T WAIT ON CORNERS (Ky.)!

No, Sir, we don't expect a pick-up at Corners (Ky.), or any other little crossroads in the State. Not that we don't have our moments, but rural privacy ain't what we're after! Broadcasting to the Louisville Trading Area *exclusively*, we get picked up every day of the world by many thoupicked up every day of the world by many thousands of people who are ready, willing and able to buy — and who do buy more goods than all the rest of the population of Kentucky, com-

bined! See what we mean? This section of Kentucky is *your* dish, too! How's about a date?

BUYS INTO PAPERS Fort Industry Gets 50% of Dailies

A HALF-INTEREST in the Miami Beach, Fla., Sun and Star, sole local dailies, has been acquired by the Fort Industry Co., it was announced last week by George B. Storer, president of the firm which is licensee of WGBS Miami as well as of AM, FM and video properties in other parts of the country. Price is un-

derstood to be in the neighborhood of \$300,000.

Acquisition of the newspaper interest by the radio firm is one of the few such purchases by broadcasters.

In 1944 Eugene Pulliam, operator of WIRE Indianapolis and WAOV Vincennes, Ind., bought the Indianapolis Star and the Muncie (Ind.) Star for \$2,500,000. In November 1946, the Pulliam interests bought the Arizona Republic and the Phoenix Gazette of Phoenix. Mr. Pulliam, however, was originally a newspaperman who started as a reporter on the Kansas City Star and later established Central Newspapers Inc. in Indiana. The Fort Industry Co. has until now been interested in radio exclusively.

Mr. Storer will become chairman of the board of the Miami Beach Pub. Co., which publishes the Morning Star, the Evening Sun and Sunday Sun-Star. John D. Montgomery will continue as president and publisher of the papers.

WGBS, a CBS affiliate, is assigned 10 kw on 710 kc and holds construction permit for boost in daytime power to 50 kw. The new 50-kw plant is being installed on a site three miles northeast of Hialeah and will afford coverage of entire Caribbean area, station claims. WGBS also holds permit for FM and a request for television Channel 7 (174-180 mc) is pending at FCC.

The other Fort Industry radio interests include: WSPD, WSPD-FM and WTVT (TV) Toledo, Ohio; WAGA-AM, FM and TV Atlanta, Ga.; WJBK, WJBK-FM and WTVO (TV) Detroit; WWVA and WWVA-FM Wheeling and WMMN Fairmont, W. Va., and WLOK and WLOK-FM Lima, Ohio. WSPD is said to be the third commercially licensed station in the U. S., established in July 1921.

J. Harold Ryan, past president

Marts Gets New Position In MBS Central Division

CARROLL MARTS, assistant to Ade Hult, vice president of Mutual's Central Division in Chicago for the last two years, has been named business manager, Mr. Hult announced Tuesday.

Resignation of Dewitt Mower, Mutual's Midwest sales manager, and Robert White, an account executive, also was revealed. Messrs. Mower and White, who are going into business for themselves, plan to book traveling radio shows.

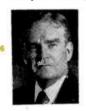

Mr. Marts has been associated with Mutual for five years.

of NAB, is senior vice president of Fort Industry Co. which has headquarters in the New Center Building, Detroit. Lee B. Wailes is vice president in charge of operations.

The Weekly Sun Topics was established in Miami Beach in 1929 with the Sun being started in 1940 as a daily, evening and Sunday paper. The Morning Star was established in 1945. Transaction for the purchase of 50% interest in the papers by the Storer group was handled by Albert Zugsmith, executive vice president of Smith-Davis Corp.

AFA Names 'Advertising Woman of Year' Judges

BRUCE BARTON, chairman of the Board of BBDO, New York, and Henry T. Ewald, president of Campbell-Ewald, Detroit, are to

judge entries for the "Advertising Woman of the Year," national competition sponsored by the Woman's Council of the Advertising Federation of America.

Mr. Barton .

Nominations must reach the council, 330 W. 42nd St., New York, by April 15. Anyone or any advertising group may nominate a

favorite advertising woman for the award in the form of a business letter to the Council. The winner will be announced at the annual AFA convention scheduled to be held in Cincincinnati and

Mr. Ewald cincinnati scheduled to start June 15.

Downey Retires

WILLIAM E. DOWNEY, assistant chief of the Field Engineering and Monitoring Division of FCC, has retired after 30 years of federal radio service. He was honored by about 100 FCC colleagues at a testimonial dinner last Wednesday. Mr. Downey entered federal service in 1918 as an assistant radio inspector with the San Francisco district of the Commerce Dept., later joining the Washington staff of the Federal Radio Commission and its successor FCC. During the last war he was in charge of the wartime Radio Intelligence Division for the South Pacific area.

BROADCASTING . Telecasting

There's a lot more to it than this...

In any kind of business these days you certainly have to get around. But in the highly complex advertising field of Spot Radio there's a lot more to it than this.

To cash in on Spot's tremendous sales-making potentialto give advertisers the kind of expert service they need and want, a number of qualities are required. Weed and Company representatives have them all.

First there's training and experience; you can't even get started without them. Then there are the intangibles of timing, associations, persistence-and maybe even a little luck. But, most important of all-are expert knowledge and plain hard work. For these are the two factors that produce most of the results most of the time ... the two factors that make Weed and Company service so valuable to any advertiser.

Small mug of Bier; a farm editor in the making

what the dickens DOES HE KNOW ABOUT CHICKENS?

The saga of Joe Bier, WOR farm editor. What he can save 4,029,547 farm folks in a year's time, isn't hay!

AT 3 AM SIX DAYS a week, WOR'S Joe Bier sneaks out of bed, checks to see that wife Wilhelmina is covered. At 4:05 he's clomping his heels along the lonely sidewalks of Broadway.

At 5:41 AM, Joe's feeling chipper. The farm news has been snatched off the tickers. Last-minute weather reports and price lists are in. The fruit and vegetable quotations from Washington Market—rushed to WOR five minutes after they were set—are sorted, and stacked precariously close to Joe's cigar.

Joe takes a final look. Potatoes are up. Broilers are down two cents. Joe Bier grins. "Still get a kick out of it," he tells the man in the control room. "Farmers never knew what the market would bring for them before we started broadcasting these early market quotations. Makes me feel good; helping out this way." Joe flicks the ash off his cigar. The clock hand slides to 5:45—and Joe Bier is on the air!

WOR's Farm Editor starts his "News of the Farm" program with a rousing march. It wakes up the farm folks (and Joe) like a stiff bracer of well water. In upstate New York, a farmer listens in the barn while he milks. In New Jersey, a farm family around the kitchen table, waits to hear what Joe Bier says about the weather before the plans for the day are set. All up and down the 18 states where WOR can be heard, farmers check with Joe Bier.

THE BIER WITHOUT THE FROTH: Farmers have a feeling for Joe. He has a built-in, eight-cylinder respect for farmers and they know it. A farm wife put it into words: "Of all the voices I hear on the radio," she wrote, "yours tells more of the man behind the voice than any."

What does the voice tell? That there's no froth to Joe Bier. He's as plain as mashed potatoes. He could

• ••

pass as a member of local Board of Trade. You'd trust him with your last gulp of water on a desert island. Joe's hair is going sparse on top but his salt and pepper mustache is a substantial crop. Behind the bifocals, his eyes look at you square and straight.

Joe Bier is addicted to home and family the way some men are addicted to gin rummy. "My wife, Minnie," he'll say without a trace of self-consciousness, "makes the darned best roast beef, grows the darned best roses." This, after 35 years of marriage. Joe's other loves are his son, his daughter-in-law, his house in Woodhaven, L. I., television, and farmers.

Like all the people who make up WOR, Joe Bier is a friendly soul. He's been with WOR for 18 years, and like Martha Deane, the McCanns, John Gambling and the others... he is the heart and brick and steel that have made WOR loved and great.

FROM HYMNS TO HENS: Joe Bier has sung in almost every church in Manhattan. On December 28, 1921, the Premier Quartet (Joe Bier, Baritone) sang over the wireless-telephone. His wife had to travel ten miles to listen in. From then on, papa Bier was in radio. As an announcer, a singer, and finally as a farm reporter.

"News of the Farm" was the first big-league farm program in the East. (11' years ago, WOR decided it was high time that some station served the 4,029,547 farm folks in the 18 states where WOR can be heard). When Joe Bier became Farm Editor, he plunged into the job like a pitchfork. "You can't help farmers unless you know them," he says. Joe knows them. He speaks at grange meetings and agricultural shows, goes to county fairs and church suppers. If some wiseacre heehaws at farmers, the effect on Joe is like filling his studio with boll weevils. "Farmers"? he lashes out, "Farmers are smart. And modern? Say, I'm the man who knows."

He knows. Because Joe Bier, over WOR, feeds the farmer a mass of modern farm data, and they use it. The U.S. Department of Agriculture, Farm Bureaus, the experimental station of Rutgers and other colleges —all depend on Joe Bier to help get their scientific facts right into the Eastern farmers' homes. continued

Joe Bier making a dawn broadcast from the Voorhees farmstead at Hopewell, N. J.

Farmers credit Joe Bier and WOR with saving their crops, improving their breeds, and adding to their bank balances. "You certainly helped me save my trees," a Connecticut man wrote after an ice storm. Before the ice had a chance to rip branches from the trees Joe Bier had gone on the air, telling the farmers what to do.

"You have no idea what your accurate weather reports mean to me," a farmer reported, "I had only one load of hay get wet and that's a record, seeing all the rain we had during haying". And still another wrote: "The insects were ruining my tomatoes until you told us about that new spray. Much obliged, Joe."

PENETRATING POKING: Joe Bier's WOR program is said to be the most listened-to local farm program on the air. According to some penetrating poking done among 15,000 Eastern farmers by the U.S. Department of Agriculture ... 85% of those who answered queries, said they listened to WOR's Joe Bier. WOR, a station that can be heard by 4,029,547 farm folks, feels proud about serving this important part of the population.

WOR REMINDS THE SPONSOR that WOR can be heard by people in the most highly concentrated farm area in America; and that farm folks hereabouts, have an annual effective buying income of some \$3,051,572,-000. Not exactly hay.

FINALLY, Joe Bier's reputation is a priceless asset for a sponsor. Farmers believe in Joe, in what he says and in what he sells. As one farmer from Pennsylvania wrote him, hieroglyphics and all: "I certainly owe a lot to you and your program, Mr. Bier. Well, got to get out and clean the barn? $@\frac{1}{4}\%$." About 1928, when WOR Farm Editor Bier was a singing man about town

Joe Bier and the man who developed the famous Rutger's tomato—Professor Lyman Schermerhorn discuss the vegetable kingdom.

CCNY Will Discuss AM and Television Fourth Annual Radio, Business Conference Starts April 13

A PANEL of outstanding radio industry figures is slated to open the Fourth Annual Radio and Business Conference sponsored by the City College School of Business, New York, with a discussion of "What Can We Expect from Radio and Television?" on Tuesday, April 13.

Panel members include: Fred Allen, NBC comedy star; Harold E. Fellows, WEEI Boston general manager and CBS manager for New England; Gerald O. Kaye, general sales manager, Bruno-New York (RCA distributor); Gordon Mills, manager of radio department, Kudner Agency; Paul B. Mowrey, national director of television, ABC; Robert A Schmid, vice president in charge of station relations, MBS, and James D. Shouse, president, Crosley Broadcasting Corp. Ted Cott, WNEW New York vice president and program manager, will preside over the panel, which is to start at 8:30 p.m.

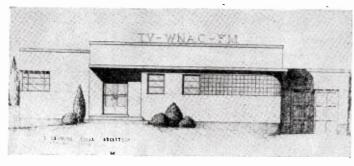

Awards Luncheon

Sessions on Wednesday, April 14, will be highlighted by the Awards Luncheon at the Hotel Roosevelt at noon, when the annual CCNY awards [BROADCASTING, March 29] will be presented by John Gray Peatman, chairman of the National Radio Awards Committee, and associate dean of the College of Liberal Arts and Sciences. This is to be followed by a speech by Arthur Godfrey, CBS star, on "Public Service Possibilities of Commercial Radio," and the presentation of bronze plaques to Rayshow Inc., producer of Goodyear Tire & Rubber's The Greatest Story Ever Told on ABC, adjudged the outstanding program created and broadcast in 1947, and to WLW Cincinnati, for "the outstanding achievement of promotion during 1947."

The afternoon session starting at 2:30 p.m. will be devoted to a panel discussion of "The Business Future of Radio and Television." Panel members include: Harry Bannister, WWJ Detroit general manager; George C. Dibert, J. Walter Thompson Co. vice president; Bruce Dodge, radio production director, Biow Co.; John S. Hayes, general manager, WINX Washington; Noran E. Kersta, director of television, NBC, and Craig Lawrence, general manager, WCOP Boston. A. A. Schechter, MBS vice president, will be panel chairman and moderator.

Paramount Newsreel

PARAMOUNT Pictures is offering a daily video ten-minute newsreel to be sponsored by one advertiser nationally five days a week on an exclusive basis, priced between \$400,000 and \$500,000 for 52-week contract.

ARCHITECT'S drawing shows Yankee Network's new WNAC-TV-FM transmitter under construction in Medford, Mass. The Boston station expects to launch its video outlet in June on Channel 7 (174-180 mc). The tower and antenna will stand 467 feet above ground. Both TV and FM antennas are to be mounted on same pole atop tower. Effective radiated power of the televsion antenna will be 32.7 kw for both visual and aural. WNAC-FM, also under construction, is assigned Channel 253 (98.5 mc).

500-900 MC

Idea for TV Premature, Says DuMont

COMMENTING on a speech given March 23 by Wayne Coy, Federal Communications Commission chairman, at the President's Luncheon of the Institute of Radio Engineers, Dr. Allen B. DuMont, head of the DuMont Laboratories Inc., declared that "the suggestion that

television should utilize some of the higher frequencies between 500 and 900 mc seems to me to be premature."

"There are numerous objections to this suggestion," he continued. "In the first place, the propagation characteristics in this band are very inferior to those of the present assigned television channels. In addition, at the present time it is impossible to build transmitters with comparative power to those transmitters in the present band. Furthermore, the design of receivers to cover both the present band and the band between 500 and 900 mc would be extremely costly.

Receiver Importance

"For some time I have been emphasizing the importance of properly designed television receivers. In the receivers manufactured by this company, extremely good selectivity has been obtained at small additional cost, and with additional stations coming on the air we find that this selectivity is absolutely essential. Certain receivers on the market without this selectivity have encountered difficulty in properly separating the signals from the various stations. We have found that with the selectivity built into our receivers it is possible in many areas to get more stations in the present channels. For instance, it would be possible in Los Angeles to have a station in each of the 13 assigned channels rather than on alternate channels as at present.

"This fact should provide a very considerable number of additional channels in this country. It should be pointed out, however, that in order to obtain the additional channels, it is necessary that all transmitters be located within a relatively short distance of each other, say a mile or two, to maintain the desired ratio between the signal from the various transmitters.

"This is true in the case of Los Angeles, as all transmitters are located on Mt. Wilson. It is possible to accomplish the same thing in any city in the United States where co-channel interference is not a problem. The situation in Los Angeles, for instance, is that there are no other large cities in the immediate vicinity and hence the co-channel problem is not a serious one.

"On the East Coast the problem is somewhat more difficult because of co-channel interference between major cities close together, as for instance, New York, Philadelphia, Baltimore and Washington, although it may be possible to obtain some additional channels along the East Coast by taking into account the ability of properly designed receivers to select stations operating even on adjacent channels."

RCA VICTOR SEES HIGH CHICAGO TV SET SALES

RCA VICTOR expects to sell \$10,-000,000 worth of television sets in the Chicago area in 1948—one third of the volume which forecasters say Chicagoans will buy. But only 2,000 receivers will be available for this sales area between now and July.

H. C. Chapman, Chicago manager of the company, made this announcement before 300 dealers at an R C A Victor "Television Warm-up" Tuesday night at Chicago's Sheraton Hotel.

[•]If freight shipments continue to be curtailed and we are forced to rely on the overburdened trucking industry, if selective service is enacted, taking 5,000,000 youngsters out of industry, if we have industrial mobilization again, di-

WCBS-TV Increases Its Evening Rates Hourly Cost Rises From \$400 To \$700 Under New Cord

WCBS-TV New York has increased its evening rates from \$400 to \$700 an hour under a new rate card for the CBS key video station which became effective April 1. "The increase in charges is moderate," George L. Moskovics, commercial manager of the station, said, "in comparison with the continued upward spiral of set sales."

New card sets up time classifications for WCBS-TV for the first time, designating 6-11 p.m., Monday through Friday, and 12 noon to 11 p.m., Saturday and Sunday, as Class "A" time. All other periods are Class "B" time, with rates 60% of those for Class "A" periods. New card also introduces frequency discounts for WCBS-TV air time, as follows: 5% for 26 times, 10% for 52 times, 12½% for 104 times, 15% for 208 times or more, all to be broadcast within one year.

Class "A" rates are: 60 minutes, \$700; 40 minutes, \$560; 30 minutes, \$420; 20 minutes, \$250; 15 minutes, \$280; 10 minutes, \$235; 5 minutes, \$200; 1 minute, \$150 (for sound film only). Studio facilities for rehearsal purposes are charged at \$200 an hour as used, with availability guaranteed at a ratio of five to one of air time. For studio set-up and strike, the charge is \$50 an hour as used.

Film facilities charges are: 60 minutes, \$125; 40 minutes, \$105; 30 minutes, \$85; 20 minutes, \$75; 15 minutes, \$65; 10 minutes, \$55; five minutes, \$45. Those rates are for sound film and include the prebroadcast run-through that is usually required as well as the actual broadcast. Additional time needed for rehearsal of commentators and interpolation and cueing of material is charged for at the rate of \$100 an hour.

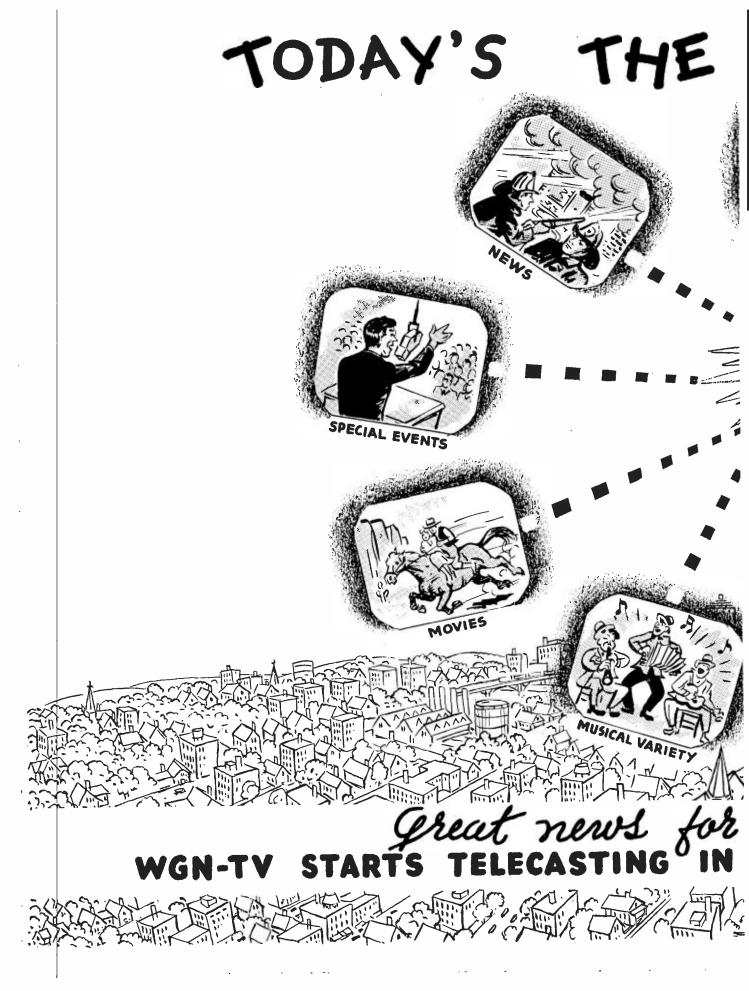

The standard charge for remote pickups is \$800, with normal equipment and crew, including rehearsal at the remote location.

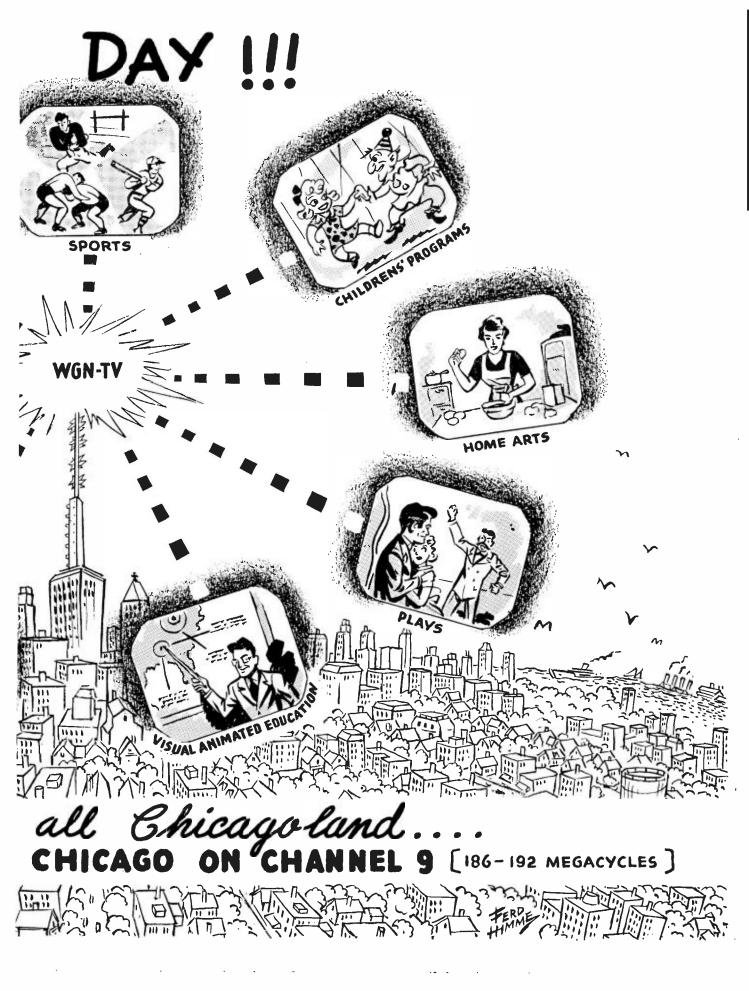

Time signals, on sound film and averaging 20 seconds, cost \$75 each, including the film facilities.

All charges for both air time and facilities are subject to 15% commission to recognized agencies.

WNBT New York also put new rates into effect April 1 [BROAD-CASTING, Feb. 21]: Base rate of \$750 an hour for transmitter time, 7-11 p.m. Monday through Friday and 1-11 p.m. Saturday and Sunday, with three-fourths of the base rate for 5-7 p.m., Monday through Friday, and all other periods at half the base rate. Studio time is \$1,000 an hour; \$250 an hour for film studio; both charges including rehearsal time.

verting vital parts from civilian to military production—then anything can happen to our supply of television sets,' he warned.

Ambidextrous Jim

THE VERSATILITY of James F. Ranney, assistant chief engineer of WPIK Alexandria, Va. was amply demonstrated during the recent grand opening of the E. A. Filene Co-Operative Department Store in Shirlington, Va. Clocks, normally occupying the counter and adjacent space where the WPIK remote equipment was placed, were transferred to shelves behind Mr. Ranney's workshop. During the open-ing rush for bargains, Mr. Ranney not only operated the remote broadcast equipment, but also bowed to consumer clamor for clocks and distributed the timepieces simultaneously.

Approval Seen for Bitner; Liberty Withdraws

PROMPT action by FCC on ABC's re-sale of WOOD Grand Rapids, Mich., for \$850,000 to Grandwood Broadcasting Co. is foreseen in report last Tuesday by the Commission that Liberty Broadcasting Inc. had withdrawn its competitive bid for the station. Liberty's move to dismiss its an. *

Liberty's move to dismiss its application came March 26 as FCC denied its petition to postpone for two weeks the comparative hearing which had been set for March 29 [BROADCASTING, Feb. 23]. Liberty sought the continuance in order to repair its financial condition.

Grandwood is owned by Harry M. Bitner, Indianapolis broadcaster, and his family and associates, while Liberty is principally owned by Roy C. Kelley and Ray M. Veenstra.

WOOD, a 5-kw NBC affiliate on 1300 kc, was acquired by ABC in its \$3,650,000 purchase of KingTrendle Broadcasting Corp., which also included WXYZ Detroit [BROADCASTING, July 22, 1946]. FCC stipulated that ABC must hold WOOD in trust pending resale.

The network subsequently negotiated with Liberty for purchase of WOOD and Commission consent was given in December 1946. The transfer was never consummated, however, and ABC sold the station to Grandwood subject to FCC approval. Liberty then filed a new request under the Avco advertising procedure offering to match

tory." *

age." *

Grandwood's \$850,000 offer [BROAD-CASTING, Nov. 10, 1947].

In seeking continuance of the comparative hearing Liberty advised the Commission it had been refused further extension of a \$350,000 loan commitment from Modern Woodmen of America, Rock Island, Ill., and therefore was no longer financially qualified. The two-week continuance was asked in order to pursue a prospective loan from the International Bank of Washington, D. C.

FCC's order denying the extension request found that both Grandwood and ABC's King-Trendle Broadcasting Corp. opposed any further delay, that "an early disposition of the . . . matter would serve public interest" and that "petitioner is unable to represent that it has a firm commitment for the financial resources which would be consummated if the requested continuance were granted." Thereupon Liberty made and was granted its oral petition for dismissal of its application without prejudice.

After approving the Liberty dismissal the Commission further ordered that the Grandwood application be removed from the hearing docket. An FCC spokesman stated that this necessarily does not mean a hearing on the merits of the proposed individual assignee is precluded. Revised intra-Commission memoranda must be drafted which will be more detailed than the preliminary review which is usual in the comparative proceeding, it was indicated. The closer study might show need for development of certain information in a hearing.

Bitner Family Interests

Grandwood Broadcasting stock is held (50%) by WFBM Inc., largely owned by Mr. Bitner and members of his family; and by Ralph S. Euler (30%), executive vice president of Mellon National Bank and Trust Co., Pittsburgh; his wife, Bertha G. Euler (8%), and Frank R. Denton (12%), vice chairman of the board and chief executive officer of Mellon Bank. WFBM Inc. is licensee of WFBM Indianapolis and operator of WEOA Evansville, Ind.

Messrs. Kelley and Veenstra have about 51% of Liberty Broadcasting. With 13 other Grand Rapids business and professional men, and Paul H. Raymer Co., New York station representative firm, they have subscribed a total \$300,000 for preferred stock. Remaining money was to be obtained in loans.

KYW Award

KYW Philadelphia won an honorable mention "for unusually effective all-over radio station promotion" in the all-over station promotion category of the 1947 City College of New York annual radio awards, to be presented April 14 in New York. KYW was omitted inadvertently in the awards listing in BROADCASTING, March 29.

ARMOUR AND COMPANY GENERAL OFFICES, UNION STOCK YARDS CHICAGO 9, ILLINOIS

> Tulsa, Oklahoma March 15, 1948

Mr. George L. Ketcham Promotion Director Radio Station XTUL Tulsa. Oklahoma

We would like to take this opportunity to again express our appreciation for the splendid cooperation of the KTUL personnel in announcing the winner of the Ford car last week.

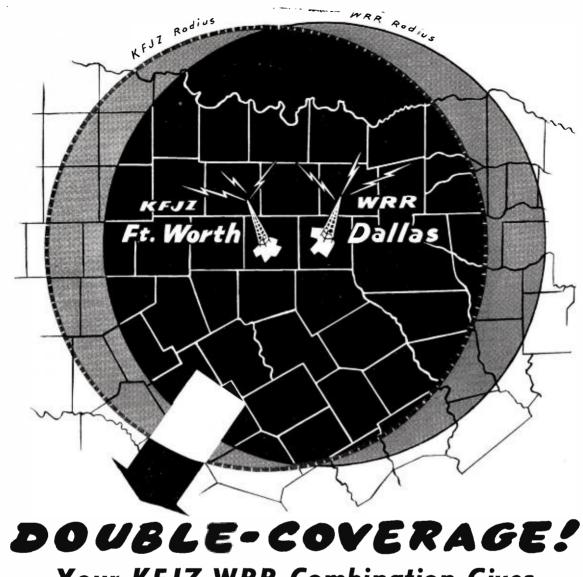

We have heard many comments in regards to the interview which indicates the wide coverage this program had at that time of day. We receive a comparison of the entries in our Chiffon contest each week. At the present time, we only have this for the first three weeks of the contest. and I know you will be interested to learn the percentage of families from Tulsa, entering the contest, has constantly been above the national average. We are interested in the report covering the last week of the contest, for we feel sure we will exceed any previous percentage. We attribute the high percentage of families in Tulsa, entering the contest, to the wide coverage this program has had in this territory. We would like to express our appreciation to you for the many things you have done in the past year, promoting the interest in the Hint Hunt Program and the sale of Armour products.

BRAND NAMES

Folsom Elected Chairman

FRANK M. FOLSOM, executive vice president of the RCA Victor Division, Radio Corp. of America, was elected chairman of the board of the Brand Names Foundation at its annual meeting March 29 in the Waldorf-Astoria in New York. Mr. Folsom, in the merchandising and sales promotion field for 35 years, succeeds Edward S. Rogers, chairman of the board, Sterling Drug Inc., New York.

Henry E. Abt was reelected president of the Foundation; named as vice chairmen of the group were W. T. Holliday, presi-dent, Standard Oil Co. (Ohio), Cleveland, and Donald B. Douglas, vice president, Quaker Oats Co., Chicago. Theophil H. Mueller, president, Julius Kayser & Co., New York, was named chairman of the executive committee, and Gavin MacBain, treasurer, Bristol-Myers Co., New York, was reelected treasurer of the foundation.

New directors elected include: R. H. Lippincott, vice president, Holeproof Hosiery Co., Milwaukee, until April 1950; John W. Hubbell, assistant to president, Simmons Co. New York, until April 1949; F. W. Specht, Armour & Co., Chi-

agency executives, media men and public relations counsellors.

Mr. ABT

Speaking for the national advertiser, Mr. Folsom, the Foundation's new board chairman, compared America's continued acceptance of democracy and free enterprise with this country's "faith in brand names and advertising. All have helped our country make tremendous strides economically and socially," he said.

Other speakers were Stephen A. Douglas, sales promotion director, the Kroger Co., Cincinnati; James Rotto, sales and publicity director, Hecht Co., Washington; Alfred B. Stanford, national director, Bureau of Advertising, American Newspaper Publishers Assn. and C. D. Southard, vice president and director of sales promotion, Butler Brothers, Chicago.

Firms who have been in constant operation for 50, 75 and 100 years were cited during the noon luncheon meeting, at which L. R. Boulware, vice president of General Electric, New York, was the speaker. Mr. Boulware challenged manufacturers to apply the same practices in creating and selling the "job package" as they use in creating and selling their "product package."

WMT Planning Farm Field Day Second Week in July

WMT Cedar Rapids, Iowa, is now making plans to sponsor a National Farm Field Day during the sec-ond week of July. The event will take place on three farms located about 20 miles from the station's transmitter. Iowa State College of Agriculture, Soil Conservation Service and Farm Bureau groups will assist Chuck Worcester, WMT farm service director, and Leo Cole, promotion manager.

All types of farm machinery and equipment will be displayed and operated. Highlight event will be a tractor steeplechase, where tractors having different attachments will be put through an obstacle course. WMT will again display its annual Farm Gadget Show.

RELIGIOUS UNITY Contest on KYW Raises Funds -For Chapel Bells-

AN INTENSIVE DRIVE in behalf of religious unity, inspired by the Chapel of the Four Chaplains which is under construction in. Philadelphia, is the theme of a contest conducted by KYW Philadelphia.

The Westinghouse station is endeavoring to raise money for purchase of carillonic bells to be used in the chapel, which is being built in commemoration of the four chaplains who gave their lives aboard the USS Dorchester in February 1943. Listeners were asked to submit donations plus letters written on the subject: "We had religious unity during the war. How can we maintain it in the peace?" Distinguished representatives of the Protestant, Catholic and Jewish faiths picked the 100 best letters. Writers were awarded tickets for the state-wide premier of "Miracle of the Bells," held in KYW's main auditorium studio.

Chairman of the drive in Philadelphia is Dr. Daniel A. Poling, pastor of Baptist Temple, whose son was one of the four chaplains who died aboard the Dorchester.

RMA ADV. COMMITTEE PLANS SET CAMPAIGN

RMA Advertising Committee last week urged that the experience gained in the successful Hartford test promotion [BROADCASTING, March 29] be applied to "grass roots" campaigns in a number of towns throughout the country by means of a workbook or some similar device. A recommendation to that effect will be placed before RMA board of directors when it convenes with its Canadian counterpart in Toronto this week.

Meeting Tuesday at the Stevens Hotel, in Chicago, the committee devoted the day's session principally to a resume of the Feb. 23-March 6 campaign, built around the slogan, "A Radio for Every Room-a Radio for Everyone. It also approved a subcommittee recommendation calling for observance of National Radio Week Nov. 14-20. Promotion would be on local levels including such or. ganizations as the National Electrical Retailers Assn. and U. S. Junior Chamber of Commerce.

Three representatives of NERA were guests at the luncheon. Clifford Simpson, managing director, outlined a plan for National Radio Week, which would tie in radio dealers with the campaign in cooperation with RMA and NAB.

AMERICAN LEGION has announced new shipping list of 904 stations for "Decision Now," weekly 15-minute transcribed public service program, as result of three-month survey by Na-tional Public Relations Div., Radio Branch. Fill-In use of program series no longer is permitted.

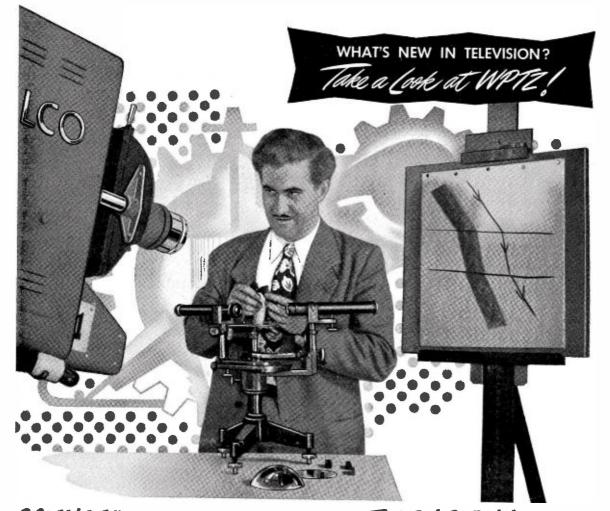

8 Times **BIGGER!**

This year WDNC has a primary of eight times more people making six times more retail sales. This whooping big jump is the result of WDNC's rise from 250 watts at 1490 on the dial to 5000 watts day and 1000 watts night at 620 on the dial. Before selecting your markets and advertising in North Carolina-the South's Number One State-be sure to get the new WDNC story. We and Paul H. Raymer, our national representatives, are at your factual command.

SCIENCE "moves down stage center" in TELEVISION !

WPTZ FIRST IN TELEVISION IN PHILADELPHIA

A few weeks ago, WPTZ produced and broadcast the first of a new series of television programs called "The Nature of Things," featuring Dr. Roy K. Marshall, noted Philadelphia scientist. Perhaps you have seen the show over the NBC television network.

The very first week "The Nature of Things" was on the air, it drew a rating of 214—a most respectable figure, actually higher than three of the five sporting events on the schedule for that week !

Motorola representatives saw the program in New York . . . liked it . . . bought it for the network beginning April 1st!

We're calling this particular program to your attention because for one thing, it substantiates our contention that a television program doesn't necessarily have to be elaborate in order to be effective and entertaining. More than that, however, "The Nature of Things" demonstrates what happens when an engaging personality with a natural flair for showmanship is coupled with experienced production and direction.

If you're contemplating television for your company or your client, we think our experience, facilities and record in television here at WPTZ will be most interesting and valuable to you. If you would like to know more about the service we have to offer please give us a call or drop us a line.

PHILCO TELEVISION BROADCASTING CORP. 1800 Architects Building Philadelphia 3, Pa.

TELEVISION

Philadelphia Astronomer On Motorola Video Series

DR. ROY K. MARSHALL, prominent astronomer and director of the Fels Planetarium in Philadelphia, has been signed by Motorola Inc. for a video series titled *The Nature of Things*, broadcast Thursdays 8:15-8:30 p.m., over the NBC television network. The series began April 1.

Dr. Marshall's programs originate at WPTZ Philadelphia, and are fed to WNBT New York, WRGB Schenectady, WBAL-TV Baltimore, and WNBW Washington. With the aid of visual props ranging from a piano to basketballs, he explains the earth's rotation, atomic energy, earthquakes, or whatever scientific topic is currently in the news.

Motorola agency is Gourfain-Cobb, Chicago.

Bennett Gets Longines

VICTOR A. BENNETT CO., New York, last week was appointed to handle the \$1,000,000 account of Longines-Wittnauer Watch Co., New York, 60% of which will be spent in radio. The company currently sponsors Symphonette, 30minute transcribed musical show, carried on more than 100 U. S. stations. It also uses spots and time signals. Victor A. Bennett is the account executive.

CONGRATULATIONS are delivered by Mayor Frank J. Costello (at microphone), Syracuse, N. Y., at dedication of new studios of WFBL Syracuse. Station officials participating in ceremonies include (I to r): Samuel Woodworth, general manager; Oscar F. Soule, president, and Robert G. Soule, vice president. WFBL, with 5 kw on 1390 kc, has studios in WFBL Bldg., 433 South Warren St.

VIDEO FILMS

Hollywood Ad Club Debates Merits

THEORY and practice conflicted in a panel discussion on film's application to television, sponsored March 29 by the Hollywood Advertising Club.

wood Hotel, pointed out that women influence the purchase of considerable merchandise, and something more than sports telecasts and comparable nighttime fare must be offered to attract them.

Citing his own experience, Mr. Bacher said that movie producers were first unwilling to allow previews of their movie properties on

Hollywood Hotel; later, he said when they realized the sales impact, it was possible to select and choose.

Don McNamara, Telefilm Inc. television director, observed that the present area of profitable film is the modest factual and feature subject handling. He characterized this and commercial spots as the "black ink" film productions at present.

He conceded that film libraries are able to rent at prices below what present production costs allow. But he pointed out that such sources of supply are beginning to thin. Further he pointed out that local attempts to produce free, though live, had to be met with material of universal appeal. In this realm instances of static local sport and women's appeal programs were being done around the country but he felt that Hollywood angles to this type of programming offered a plus factor not available in any other city.

Landers' Viewpoint

Lew Landers, currently directing The Public Prosecutor series for NBC through Jerry Fairbanks Productions believed that "people who are going to produce film must look to the studios" and not to radio or stage. This was disputed in a measure by Mr. Bacher who observed that the force controlling television is that controlling radio which is extending to the new medium.

Rudy Vallee, head of his own independent film video unit, announced that he expected to offer a'23 minute film package featuring Lionel Stander and others in *College Life* originally based on a radio script. If bought, he said that the package would likely be priced in the neighborhood of \$5,-000 per presentation.

Harry MacMahan, head of Five Star Productions, advanced his position in "do's" and "don'ts". Do's: Use color in making original commercials on Kodachrome since it offers better gray values at present and may be used again when the medium is able to transmit color.

Among the don'ts: Don't use radio commercials as script; use actors to demonstrate the product and announcers to handle the commercial sell; don't make one film at a time but think of a series in terms of a theme adaptable to 6 or 13.

Larry Finley, head of his own transcription firm as well as video packaging operation, cautioned against too heavy film investments at present "because you can't get your money back." Recognizing that stations can't operate without programs and sets can't be without programs either, he proposed that set makers subsidize the making of films.

NICKEL NAUSEA

Rochester Newscaster Takes —Off on Kaltenborn Plan-----

THE SUBSCRIPTION RADIO plan of Rolf Kaltenborn was administered a verbal lashing by John W. LaRue in a facetiouslyworded evening newscast over WVET Rochester, N. Y., March 5.

Explaining his absence from the air, Mr. LaRue said he had been the victim of Virus X. During that period he declared he had read an article, carrying Rolf Kaltenborn's byline, in the *Times-Union*, which "made me almost as ill as the flu." He explained that the article was a reprint from the *Saturday Review of Literature*, "an ivory tower which probably aches to be filled with good, profitable advertising."

"How did any one," Mr. LaRue asked his listeners, "ever get the silly idea that your nickel for a paper, or a quarter for a magazine, paid for that item of information or entertainment. If the subscriber had to pay for the production of those media—minus the vast weight of advertising in their pages and counting the vast cost of their production—they would cost him about ten bucks a throw." It was the commercial advertiser, Mr. La-Rue deduced, who paid the bill in this instance also.

"Still, in one sense," continued Mr. LaRue, "the nickel radio scheme has its enticements—even to us. There are some 200,000 radio sets in WVET's primary area. At a nickel a day, that's a potential of \$10,000 a day; \$70,000 a week; \$3,640,000 a year. Whoopee!" Admitting that his analogy was fantastic, he said that there was "still something to be said for this present system, which spends vast sums of money for the origination and betterment of programs, and yet isn't very expensive to anyone."

ZUMA PALMER, radio editor of Hollywood Citizen News for past 20 years, is to be honored at Advertising Club luncheon today (April 5). Milton Samuel, West Coast director of public relations of Young & Rubicam, is general chairman.

NBC RADIO-RECORDING DIVISION

OF THE NATIONAL BROADCASTING COMPANY

and

RCA VICTOR DIVISION

IN THE interest of improved customer service and higher quality recording at lowest possible rates, a realignment of electrical transcription activities in the broadcasting field has been arranged between the National Broadcasting Company's Radio-Recording Division and the RCA Victor Division of the Radio Corporation of America.

Effective April 1, 1948, the RCA Victor Division will sell and service customers directly for processing of masters and manufacture of pressings from masters recorded for clients by the NBC Radio-Recording Division. In addition, the RCA Victor Division will render processing and pressing service for all electrical transcriptions, slide film and phonograph records.

The NBC Radio-Recording Division will continue to handle the programming and marketing of NBC THESAURUS, its recorded musical program service, and NBC Syndicated Programs, comprising complete recorded programs. NBC will continue to supply full programming service to advertising agencies and clients, including production, direction and script writing, and will make available complete studio and recording facilities for master recording and reference recording for clients' use in connection with broadcasting.

Recording facilities of the National Broadcasting Company will be available in New York, Washington, Chicago, Cleveland, Denver, San Francisco and Hollywood.

The RCA Victor Division will maintain sales service offices in New York, Chicago and Hollywood, where processing and pressing facilities for all types of recording are available. RCA Victor will maintain studios in these cities for all types of recording other than recordings used in connection with broadcasting.

Occupational Ills

RADIO held its share of troubles for Robert Cleary, KCMC Texarkana, Tex., engineer March 24. Notified by a neighbor while he was on duty that his apartment was on fire, Mr. Cleary streaked for the door but braked to a halt when he remembered that FCC regulations required him to be on hand when the station was transmitting. When Mr. Cleary eventually arrived home, he was told, the fire apparently started from a short circuit in his home radio set.

ACTORS EQUITY ASSN. TO PRODUCE TV SHOW

ACTORS' EQUITY ASSN., AFL theatrical talent union, is preparing its own video show for inspection by prospective sponsors— *Television Theatre of the Air*, with touring companies of name actors and actresses presenting video adaptations of Broadway hits around a circuit of cities with video facilities.

Bert Lytell will be in charge of the program, which will be produced by Equity and remain Equity property, with profits going into the Actors' Fund. Music Corp. of America is agent.

Pointing out that "it would be impractical for one live company to do a television program every week," Equity said that "it is probable that a show would originate in New York, followed by a performance with the same cast from another city a few nights later."

Frank Lawrence, BBDO Secretary, Dies March 27 FRANK M. LAWRENCE, 75, secretary of BBDO, New York, died March 27. Funeral services were held March 30 in Christ Episcopal

Church. Glen Ridge, N. J. Mr. Lawrence had been associated with the agency since 1896, when it was the George Batten Co. When the agency was incorporated, Mr. Lawrence became secretary as well as media head. After the merger with Barton, Durstine & Osborn, he relinquished the direction of the media department to Ben Duffy, now president of the agency, but continued as secretary.

Surviving are his wife, Mrs. Constance R. Lawrence, and three sons, William W., of the BBDO marketing and merchandising department; Robert N., and Frank M. Lawrence Jr.

WBBM Chicago's "Listen to Cliff" program, [BROADCASTING, March 15], has been given an award by Mt. Prospect Men's Club of that town for "the most original unrehearsed program in radio to interpret the happiness of the American home."

Day-Duke-Tarleton Staff Is Realigned

Promotions, New Appointments Announced by N. Y. Agency

FIVE new appointments and promotions have been announced by Day, Duke & Tarleton Inc., New York.

Robert S. Simpers, formerly an account executive with J. Walter Thompson, joined the agency as vice president. G. Dudley Perrine and Samuel H. Weber were promoted. Mr. Perrine, who was assistant treasurer and assistant secretary, has been named treasurer and secretary, and Mr. Weber, formerly secretary, is a new vice president and general manager.

Maria J. White, who has been radio timebuyer for the Biow Co. and Benton & Bowles, now holds the same position for Day, Duke & Tarleton. Paul S. Valentino, formerly art director for Shellmar Products, New York, is the agency's new art director.

AIR TOO CONTROLLED, SAYS WNYC'S SIEGEL

"A COMPLEX pattern of controlling agencies has developed in the past 25 years in radio broadcasting, contradicting the axiom that the air belongs to the people," Seymour Siegel, WNYC New York general manager, told a gathering of the City Federation of Women's Clubs in New York last week.

Speaking on "Control Factors in Radio," Mr. Siegel listed the "controlling agencies" in broadcasting: FCC broadcasters, advertisers and advertising agencies, educators, and listeners. Outlining how each group has a hand in the control of what may not be aired, the speaker challenged "the argument that the listener hears what he wants on the radio." He suggested that civic and other organizations establish committees to review radio programming, activities of the FCC and the broadcasting trade.

WRFC Planning to Start Soon as Athens Daytimer

WRFC plans to go on the air soon as an independent Athens, Ga., daytime outlet with 1 kw on 960 kc. Staff of the new station has been announced by the permittee, Radio Athens Inc.

General manager is L. H. Christian, formerly manager of WGGA Gainesville, Ga., and WSGC Elberton, Ga. Other staffers: Claude Williams Jr., commercial manager, at one time with WFOM Marietta, Ga.; Charles McClure, program director, formerly with WSB Atlanta; Sue Parks, public relations, previously with WGGA; H. R. Lowery, engineer, from WRDW Augusta, Ga., and F. L. Fitzpatrick, engineer, from Wilmington, N. C.

Sense or Censorship

VOLUNTARY CENSORSHIP for radio and the press as recommended is washed up for the present.

That became evident last week when representatives of the public information media met with Secretary of Defense Forrestal and recommended that the proposed fulltime Information Advisory Unit be rejected. Instead they offered to create an informal security advisory council. (See story this issue.) This proposal from a group representing radio and the printed media makes it a certainty that there will be no formal censorship unless the world situation changes materially for the worse or some overly enthusiastic newsman broadcasts or publishes defense secrets.

Meanwhile in Geneva at the United Nations Conference on Freedom of Information the U. S. asked all nations to eliminate censorshin of news except that "relating directly to the maintenance of national security."

Broadcasters are rightfully jealous of their rights as Americans to present the news in full when it happens. It is in the American tradition. During the past war radio far outstripped all other media because of the speed and accuracy of its reports. Authoritative surveys showed time and again that radio was the first news source.

But while broadcasters are zealous in presen ing full news coverage they also recognize the r responsibility as Americans to safe-guard the nation first. The secret of a new defense weapon must be guarded as carefully by every broadcaster as though a code of censorship did exist.

Fortunately radio's newsmen by and large are the best in the business. The corps of news gatherers and commentators who report from the Capital are almost without exception journalism's top echelon. Some have been trained entirely in radio, others have newspaper and magazine background, but all are well schooled in factual reporting and analysis. The majority have reported World War II at home and abroad.

With men like these handling the news, security, radio news-wise, is in good hands. Common sense needs no censorship.

Code & Competition

FOR THE next seven weeks the Code hot-stoveleague is in session. From now until the NAB convention in Los Angeles May 17-18 all and sundry can digest and dissect the proposed standards for American broadcasters.

hink vast improvements have been he code now is affirmative. It isn't ever will be. But standards have been selder which all in radio can live-

ment ill be considered at the Los Anconvent This should not be a reenactroller. Tt-to-be-forgotten Atlantic City have been ; September. This is no steammittee. Ther of every segment of radio this is not a d by a representative com-wouldn't be work or "Thou-shalt-nots." But There is profile of the work of the work of the work of the work of the second to inflate it.

There is proposition to inflate it. Every plank has bee, platform for radio. Page 56 and study following Page 56 • April 5, 194

the eventful discussions held at Atlantic City.

We do not look for a voice vote, without discussion, at Los Angeles. Of its nature, the code is controversial. All important documents are controversial-the Bible, the Constitution, the Balfour Declaration, the UN Charter.

But by May the code may shrink to secondary status. This world is troubled again. There are more men in uniform. "Defense" construction is being resumed. There's talk of voluntary censorship. Radio, along with all industry and all arts, may be donning war toga again.

More immediate are radio events at home. There are just too many stations for the business available. Reports of rate-cutting are becoming more frequent. In the fight for survival, business heretofore unacceptable (and hardly permissible under the code) is being solicited. All radio thereby gets the black eye.

The newspapers went through it a generation ago. Many of them died. Those that survived adhered, by and large, to rate ethics or were without substantial competition. The big difference is that natural laws of competition prevailed; there was no licensing authority.

What has all this to do with the code? Or with possible war? Everything, because a code, judiciously contrived and observed, will give to radio the virility, health and stability it must have to condition it for any eventuality short of Government intervention. And a healthy radio will frustrate overt moves toward Government ownership. Competition will take its toll. After all, that's the American way.

Burridge Davenal Butler

ON THE OCCASION OF YOUR EIGHTIETH MILESTONE, GREETINGS AND CONGRATULA-TIONS. MANKIND IS BETTER OFF BECAUSE OF YOUR LEADERSHIP, INSPIRATION AND SELFLESS GENEROSITY.

THAT was the message from us to the venerated publisher and broadcaster on Feb. 5 at his winter home in Phoenix, when he was still active in the direction of WLS, KOY, KTUC, the Prairie Farmer and the Arizona Farmer. Last Tuesday death came following complications resulting from a fall.

Burridge Davenal Butler had been a man with a mission from the day he first sniffed printer's ink. By 40 he had owned 15 different newspapers, every one a success. At 58 he ventured into radio, acquiring WLS. He viewed it as an aural companion of the Prairie Farmer-the "Voice of Agriculture," he called it. How completely this station has served its aim may be judged by the fact that it has received more than 19-million listener letters in 18 years.

The story of Burridge Butler is a saga of both American journalism and American radio. He viewed them as synonymous. He once said: "No one can own a radio station any more than he can own a church. We can only consider it a stewardship, for which we are responsible to the people."

Arthur Page, long associated with Mr. Butler, said of his revered chief in the current Prairie Farmer:

Here was a man who dreamed big dreams and galvanized them into action and results. One can hardly quote him without exclamation points. Perhaps never in one human being was there such a combination of driving energy, of hatred for sham and falsehood, and tender idealism and soft sentiment, as in Burridge Davenal Butler.

Radio has benefitted because there was a Burridge Butler as a warrior in its cause. Radio's sympathies are extended to his bereaved widow and to his co-workers who can do no better than continue in the Burridge Butler tradition.

BEVERLY THOMPSON WHITMIRE

ONESTY sometimes produces momentary discomforts for those readily confessing inadequacies. But it also pays handsome dividends to its loyal subscribers. Beverly (Bevo) T. Whitmire's reward for courageous exercise of this rich virtue was appointment as manager of WFBC Greenville, S. C.

Mr. Whitmire got his desserts in this fashion: WFBC took the air with 250 w on 660 kc May 20, 1933. Mr. Whitmire at that time was assuring citizens attractive news fare at his assistant city editor's desk at The Piedmont, Greenville's afternoon newspaper. He also was serving parttime as a newsphotographer for that publication.

Fearful that a few blades of grass might spring from beneath his shoes, he resolutely set out to find an avenue into radio.

A local photo finishing company provided the opportunity. It placed him on the air once a week with a show entitled, Thrills of News Photography. Mr. Whitmire utilized an imaginary scrapbook of news pictures as the dramatic vehicle for bringing to life before his audience news stories he had covered.

The post of WFBC manager became vacant a few months after station began operation. Mr. Whitmire started a campaign to get the job, knowing full well that he was lacking in the experience pre-requisite.

Abundantly armed with confidence and courage, he set off for the office of ex-Senator Roger C. Peace the station's publisher-owner. His six-word appeal, if nothing more, was disarming:

"Send me around to run it," implored the radio neophyte.

"What do you know about radio?" was the not unreasonable retort.

"Nothing, but I'll run the little thing for you," honestly but confidently responded Mr. Whitmire.

The station owner's deep grunt terminated negotiations that day.

Two weeks later Mr. Whitmire was startled to receive instructions from Mr. Peace to "go around and run it."

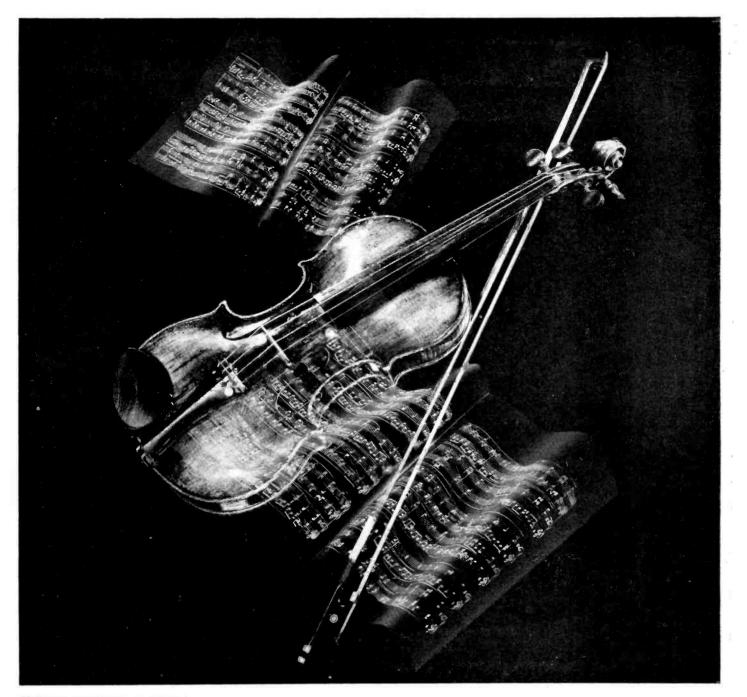

"Any instructions?" Mr. Whitmire asked. "Stay out of my hair and stay off the air"

was the crisp reply.

"Hours?" inquired Mr. Whitmire. "Quit when you get through," he was advised.

"That's all?" Mr. Whitmire wanted to know.

"That's all," was the laconic reply offered by Mr. Peace in promoting Mr. Whitmire from virtual obscurity in the industry to the post (Continued on page 58)

MUSIC WEAVES A SPELL Good music weaves a spell that attracts and holds listeners, keeps them close to the station that gives them the music they love. More than half a million families in and around New York spend so much time listening to WQXR and WQXR-FM that no other station can reach them so effectively. And because these music lovers are better-income families in the world's biggest and richest market . . . advertisers find them valuable and profitable customers. For bigger sales more easily made, use the stations distinguished for good music and the news bulletins of The New York Times.

BROADCASTING . Telecasting

Respects

(Continued from page 56)

of WFBC station manager. In the 15 years since Mr. Whitmire took over its management WFBC has been highly successful. It will soon begin operating a powerful FM station.

Mr. Whitmire's popularity began spreading at phenomenal speed throughout the community. He became known to Greenville's man on the street simply as "a swell guy," to commentator Robert St. John as "a unique raconteur," and to singer Conrad Thibault as "an excellent host." Author Glenn Allan describes him as being "completely uninhibited."

Intimates suggest that people who say "there's only one like him," are guilty of gross understatement.

Now, as general manager of a 5-kw NBC outlet, owned and operated by the News-Piedmont Co., Mr. Whitmire, familiarly known as "Bevo," is an outstanding civic leader, with a finger in just about every community pie.

Almost single-handedly he captured the interest and imagination of the community and discreetly squeezed the community pocketbook for enough to acquire a home for Greenville's Little Theatre, which has grown to a membership of 2,400 during his two-year tenure as its president.

Seizing an opportunity to buy an

abandoned military theatre, the radio executive spearheaded a successful drive for \$25,000 to purchase and remodel the structure. He supervised renovation of the 500-seat theatre, then adjusted his heavy schedule to permit him to play the role of Jim Conover in "The State of the Union."

Love of the theatre is a family characteristic. The radio official's father years ago managed Opera House, a legitimate theatre, in Greenville.

Other Activities

Somehow, despite the multitude of his other activities, Mr. Whitmire finds time to teach a Sunday school class and act as a guardian angel to an Episcopal Brotherhood of high school boys. He has just wound up a term as treasurer of the Greenville Community Chest and is also active in the Kiwanis Club.

Pars are foreign to Mr. Whitmire's golf score cards. Consequently, he finds it more relaxing to spend some of his "spare moments" in his home workshop.

As if his agenda weren't packed full enough, he reserves time in the summer months to take the helm of his sleek yacht "Lollipop" and take friends for cruises down the nearby Saluda River.

But Mr. Whitmire never permits other activities to detract from his home life, for his chief interests are his wife and young daughter.

He married the former Mildred Edwards of Charleston in 1930.

Who sez there's nothing new in radio? HERE IT IS ! A NEW—ORIGINAL—LIVE TELEVISION SHOW

P. S.—Program Also Adaptable For AM Radio.

Their daughter, Beverly McBee, was nine last Thursday. The family lives in the home in which Mr. Whitmire was born.

The head of the house takes justifiable pride in the concoctions he whips up at the full-size drugstore fountain he installed. Among the visitors duly impressed by the home soda fountain was singer Margaret Speaks, who suggested "Let's change it from Bevo's home to Club Bevo."

Mr. Whitmire's reportorial ability is amply demonstrated when an emergency puts him on the air. When Greenville's largest laundry was destroyed by an explosion and flames a year ago, Mr. Whitmire commandeered the State Highway Patrol chief's car and they sped to the scene. Mr. Whitmire brought listeners an on-the-spot broadcast complete with names of the victims, and interviews with survivors and firemen. This completed, he dashed for the Little Theatre rehearsal only to find himself the only member of the cast on hand. The others were at the fire.

The 44-year old Bevo Whitmire was educated at Sewanee Military Academy, Georgia School of Technology and Columbia U. School of Journalism.

In addition to managing WFBC, he has been an active partner in the Intercity Advertising Co., owner and operator of WAYS Charlotte, WKIX Columbia and WCOG Greensboro. He is one of radio's most energetic ambassadors of good will.

Proven Enthusiasts

CITIZENS of Cedar City, Utah are avid basketball fans. When it became apparent that play-by-play descriptions of the Branch Agriculture College games at Compton, Calif., could not be carried by KSUB Cedar City due to prohibitive costs, 100 of the local residents contributed \$1 to \$25 each to pay for the line and remote control charges.

On All Accounts

(Continued from page 18) with these shows Jim finds extensive travel occupying much of his time and duties.

He is married to the former Margaret Brayton, an actress in her own domain whom he met in his production days on the coast. His hobby is golfing, though he admits to a prejudice against Chicago weather which obviates indulging the sport on a year-around basis. He and his wife live in Chicago.

CBS has announced that "The Adventures of Christopher Wells," network's Tuesday night dramatic series, has been commended by National Safety Council for program's contribution to national safety. Program, sponsored by De Soto Division of Chrysler Corp., Highland Park. Mich., is heard 9:30-10 p.m. Tuesdays. 

J OSEPH J. HERGET, former manager of WCAW Charleston and WBRW Welch, W. Va., has been appointed manager of WHHT Durham, N. C. Mr. Herget previously was program director for West Virginia Network.

H. W. (Bob) BUMPAS, known as ROB-ERT WAYNE in movie and radio circles on West Coast, has been appointed general manager of WCLA Baton Rouge, new station scheduled to take the air about May 15.

WILLIAM B. MURPHY, former manager of KBLF Red Bluff, Calif., has been appointed manager of KSUH Susanville, Calif., new fullitime station to begin operations in late April on 1240 kc with 250 w. Mr. Murphy was with Oregon and Washington stations prior to war service with the Navy.

ARTHUR MUNDORFF, active in radio since 1929 when he joined WMCA New York as engineer, has been named manager of WWDX(FM) Paterson, N. J. He succeeds EDGAR H. TWAMLEY, resigned. WWDX moved into new studios in Paterson's Law Bidg., April 1.

RALPH R. BRUNTON, president of KQW San Francisco, has announced that he will assume managership of the station until a successor is appointed to replace C. L. McCARTHY, general manager, who resigned April i [BROADCASTING March 29].

MAURICE B. MITCHELL, general manager of WTOP Washington, has been elected to board of trustees of American Cancer Society, District of Columbia Div.

WILLIAM S. PALEY, chairman of board of CBS, is the father of a boy, born March 29 at New York Hospital.

AL LEARY, veteran Canadian broadcaster, former manager of CKCL Toronto, and former part-owner of CHUM Toronto, has applied for a television license for Toronto. His brief, prepared by RCA Victor, Toronto, is to come up before CBC board of governors at May meeting.

CHARLES G. BURKE, general manager of KFGO Fargo, N. D., has been appointed member of Cass County Red Cross general committee in charge of communications. He also has been named to head subcommittee in charge of communications and fund raising for Fargo Disaster Committee, permanent city-wide group.

SAM FANTLE Jr., president of KELO Sloux Falls, S. D., has been elected president of Sloux Falls chapter of Michigan Alumni Assn.

PAUL W. MORENCY, vice president of Travelers Broadcasting Service Corp., and general manager of WTIC Hartford, Conn., has been named state radio chairman for American Cancer Society's 1948 fund drive.

CBS "Sound Off" program starting today (April 5) will be aired Mon. 6:30 p.m. (PDST). Frogram formerly was heard Sun. 9 p.m.

HOME OF P. H. HANES Knitting Company

Hanes underwear and hosiery are known and worn the world over. Another big industry within sight of the WAIR tower. Just a part of the great market awaiting the buyer of WAIR time.

Ordinarily, we don't try to sell our advertisers on the idea that we regularly serve their customers who live 497 airline miles from our transmitter. But, when listeners from that distance buy time on KVOO to advertise to their own folks . . . well, we thought other advertisers ought to know about it!

Miles from home

COLORADO KANSAS

CLOVN

MEXICO TEXAS TAN TAN

The Chamber of Commerce out in Clovis, New Mexico, 497 airline miles from Tulsa, now sponsors a half-hour "Clovis Campfire" program on KVOO every Saturday night to tell and sell their friends and our friends on Clovis, the "Cattle Capital" of the west! Produced in Clovis, this show is designed to invite people from all over the west to visit Clovis on business and pleasure.

> The first broadcast drew mail from 16 western states so evidently a lot of folks like to gather 'round the KVOO Clovis Campfire on Saturday nights to hear a swell show!

Thanks, Clovis, for inviting us to be "pardners" with you in sending the "Clovis Campfire" to your friends and our friends all over the west!

EDWARD PETRY & COMPANY, INC. National Representatives NBC AFFILIATE UNLIMITED TIME

AID TO MOVIES-LASKY ABC STOCK

JESSE L. LASKY, veteran of 35 years in the motion picture business, declared television can be the greatest salesman motion pictures ever had in an interview on WCAU-TV Philadelphia.

In the Quaker City to attend the Pennsylvania premiere of "The Miracle of the Bells," which he produced, he told the video audience that television is here to stay and that Hollywood had betten recognize it. He announced that he planned to launch his next film discovery on television prior to any film appearance.

You can't underestimate a product that goes right into the homes of the public you hope to reach," he told Harold Hadley, WCAU-TV news editor. "Instead of attacking television, Hollywood would do well to adapt it to various uses. If we acknowledge it as a competitor, we are not going to be able to serve the best interests of all concerned."

The producer declared that trailers soon will be standard advertising on television screens. He said that he felt the day is not far distant when the major studios would be making film shorts for television use.

Price Amendment Will Be Added

EXPLANATION of the basis on which affiliate stations would be offered stock is contained in an amendment filed by ABC with the Securities and Exchange Commission to its original request for sale of 250,000 shares of its \$1 par value stock [BROADCASTING, March 1].

Plans call for sale of the stock as soon as SEC approves the registration statement and makes it effective. The ABC amendment states that a particular time for the statement to become effective will be requested in a "so-called price amendment" to be filed at a later date. Price, however, cannot be announced until SEC approval is obtained.

According to the amendment, the number of shares offered to each affiliate station will be determined on the basis of compensation received by the station from the network during 1947, with adjustments made for rate changes since that time.

A minimum of 100 shares would be offered to each affiliate with the number in every case a multiple of 100 shares. Each station would be notified of the "firm offering" or the number of shares being offered it and would be furnished a subscription form to be filled out and returned in a specified time.

Each station would then have the further light to subscribe, subject to allotment, for such additional number as he may desire.

Page 60 . April 5, 1948

The company, however, would reserve the right to reject subscriptions of over 36,000 shares to one person. If any extra shares remain after the affiliates have had their chance, the company may offer them to outsiders, but according to the amendment, no such persons have yet been selected.

Proceeds would be used for capital expansion with tentative plans calling for expenditure of \$5,325,-000. Of this, about \$2,000,000 would be spent in 1948 and the balance in 1949.

Even if the proceeds should be less than \$2,000,000, the amendment states, the company intends to proceed with its 1948 expansion program in New York, Los Angeles, Chicago, San Francisco and Detroit on the assumption that any deficiency in available funds will be provided from undistributed earnings or borrowing or sale of other securities in 1948.

More funds will be necessary in 1949, says ABC, in order to carry out the balance of the expansion program. No present plan exists, however, with respect to terms or nature of any future financing.

New Series Is Announced **Bv** Broadcasters Guild

OFFERING a five-weekly, 15-minute transcribed series known as The Road To Gold, James Parks, Hollywood vice president of Broadcasters Guild, today announced the firm's latest program presentation

Dramatizations are stories behind an estimated \$260,000,000,000 of treasures scattered throughout the world, according to official U.S. government estimates.

Packaged by Gilbert A. Ralston & Assoc., The Road To Gold will be produced by 29:30 Productions Inc., Hollywood, under supervision of Stuart D. Ludlum. Mr. Ralston is director of nighttime radio for Procter & Gamble Co., Cincinnati.

Heads Bond Drive

THOMAS H. YOUNG will head the Advertising Council's U. S. Savings Bond campaign as coordinator, the council announced last week. Mr. Young, director of advertising for U.S. Rubber Co. since 1939, served for five years as a director and sponsor member of the Advertising Council, and was elected to rejoin the board this year as a representative of advertisers. He also is a board member of the Assn. of National Advertisers, and has been associated with U.S. Rubber and its subsidiaries since 1916, except for service in the Army during World War I.

GEORGE H. LARUE, former manager of San Francisco office of Long Adv. Service, and previously with ABC Spot Sales, has joined KFPK Sacra-mento, Calif., as sales manager.

R. HENRY NORWEB Jr., former sales promotion manager of WHK Cleveland, Ohio, has moved to sales staff of that station, and THOMAS R. GRAHAM, of promotion department of WHK, has been named salesman for WHKX (FM).

LLOYD P. BURNS, with advertising de-partment of Home News Publishing Co., New Brunswick, N.J. for 10 years, has assumed his new position as com-mercial manager of WDHN New Bruns-wick. WDHN is Daily Home News' 1-kw FM station, which is scheduled to go on the air this spring.

WILLIAM C. MEYERS, sales promotion manager for WGN Chicago since 1945, has been appointed television salesman for WGN-TV. Replacing him as sales promotion manager is DONALD A. GETZ, former coordinator of research in station's commercial department.

WALTER GRAU, formerly of KIST Santa Barbara, Calif., has joined KEEN San Jose, Calif., as sales manager.

JAMES R. CONNOR, formerly with San Francisco office of Forjoe & Co., na-tional station representative, has been appointed manager of firm's Chicago office.

JOHN S. LLOYD, sales manager for WACE and WACE-FM Chicopee, Mass., has opened sales offices at the Hotel Worthy studios of WACE in Springfield, Mass. CHARLES M. TEAGUE has joined station's sales force.

BRANHAM Co. has been appointed as national representative for WEWS(TV) Cleveland, Ohio.

J. NOLAND FRANZ has been appointed administrative assistant-comptroller of KMBC-KFRM Kansas City. He will as-sist ARTHUR B. CHURCH, president, and KARL KOERPER, vice president and managing director.

JOSEPH HERSHEY McGILLVRA has been appointed representative for WFHG Bristol, Va.

ROBERT S. KELLER Inc., New York, has been appointed as national sales promotion representative of WWON Woonsocket, R. I.

NAOMI FINE, head of presentations divisions of the MBS sales promotion department, has been appointed man-ager of sales promotion services for CBS television effective April 5.

BREAKING a chain of championship winners sponsored by newspapers, the team backed by WKRC Cincinnati this year tied for the team championship at the Golden Gloves Tournament in Chicago.

The 1948 Golden Gloves Tournament of Champions boasted entries from 38 major cities of 31 states under the sponsorship of newspapers in 36 cities and stations in only two cities. The WKRC team tied with the Oklahoma City Oklahoman team in point standings with 20 points each and produced two champions and one runner-up, the same honors as were won by the Oklahoman. WKRC for its second year conducted the city championship in Cincinnati and KWDM Des Moines sponsored for its first year the local championship contest in that city.

Check or Money Order, No COD's LO-LAN CRAFTS COMPANY

Box 1782, Hartford, Conn.

The Monona Broadcasting Company, Madison, Wisconsin, had the money but no station. Faced with "impossible" allocation difficulties, they called on Andrew engineers, who succeeded in finding a frequency and designing a directional antenna system. Thus, WKOW was born. Within ten months after the construction permit was granted, Andrew engineers completely designed, built, tuned, and proved performance of a six-tower 10 kw. station – an unusually difficult engineering feat accomplished in record-smashing time. A complete

"package" of Andrew transmission line and antenna equipment was used, again emphasizing Andrew's unique qualifications: Complete engineering service with unsurpassed equipment.

Mr. Harry Packard, General Manager of WKOW, wrote:

"Speaking for the entire staff of WKOW, I would like to congratulate the Andrew Corporation on the remarkable engineering job it performed in helping us get WKOW on the air.

We feel that the technical perfection of our installation is due in great part to the efficiency of Andrew equipment and engineering service.

In particular we wish to thank Mr. Walt Kean of the Andrew Broadcast Consulting Division who was responsible for conceiving and designing the installation, supervising construction of all antenna equipment, and doing the final tuning and coverage surveys."

A total of 13,618 feet of Andrew transmission line and complete phasing, antenna tuning, phase sampling and tower lighting equipment went into this job, complementing the best in engineering with the ultimate in radio station equipment.

So, just write Andrew when you are ready to enter the broadcasting field. Andrew will get you on the air.

N.Y.TV Ownership Up 100% Since Jan.

TELEVISION ownership in the New York metropolitan area increased more than 100% from January to March, with every indication of continued growth, The Pulse Inc. reported last week at the conclusion of its third monthly exploratory survey of video audiences in that area. Survey covered personal interviews with 3,500 families in ten counties in New York and northern New Jersey.

Middle and lower middle income groups own more than 40% of the video sets, with the poorer homes, including non - telephone homes, spending more time watching television than do their, wealthier neighbors. Of the non-telephone homes 94.5% reported use of their video sets "yesterday," as compared to 80.6% of telephone homes.

The five top evening video programs noted during the survey period were the Sunday night hockey game and the Monday evening basketball contest between NYU and Notre Dame on WCBS-TV; WNBT's Friday night boxing matches, WABD's Small Fry Club, Monday through Friday, and the same station's birthday party on Thursday, March 4.

Samples were too small for ratings to be given these programs, but The Pulse announced that its regular monthly video rating service will be started in April, ratings to be based on 100 television homes for each quarter-hour studied.

A Statement in the

Advertisers' Interest

The proposed N. A. B. code wouldn't exist if all radio stations would program their entire schedule with showmanship . . . and spend a greater share of their advertising budget for listener promotion.

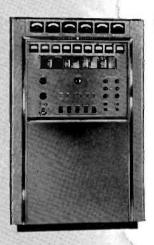

KRNT does just that, and enjoys the highest Hooper ratings in Des Moines. At the same time, KRNT is carrying the largest advertising schedule in its history.

That's listener preference . . . advertiser preference too.

Radio Station KRNT Des Moines, Iowa

50 KW—One of the larger members of the G-E transmitter family. Note wide doors, providing full accessibility for "walk-in" maintenance. Like all high-power G-E transmitters, this model uses transformers filled with a non-inflammable liquid. This eliminates necessity for fireproof vault and lowers installation costs and insurance.

1 KW—Compactness is an autstanding quality of this sturdy equipment. Reliable, high-standard performance makes it an ideal transmitter in its power class. Now in stock and ready for immediate delivery.

General Electric's complete new line of AM TRANSMITTERS – now in production

of exciter-modulator, power amplifier, and rectifier-control units.

TRANSMITTER-CONTROL CONSOLE This versatile unit can be used to control a transmitter of any power rating. The de luxe version, includes a separate clock panel for timing transmitter interruptions; also, an executive type desk and chair of matching color.

froadcast need!

HERE are five outstanding AM units that will help you profit from your station investment. Featuring lower cost per hour of broadcast service, these transmitters are built to one high standard of quality, backed by one source of responsibility. Every detail of this completely new line reflects the unequaled engineering and operating experience of the General Electric Company.*

The G-E line of broadcast equipment covers all your station needs—transmitters from 250 watts to 50,000 watts, complete studio equipment, the AM station monitor and accessory units to fit every requirement.

Whether you are planning a new station or modernizing an existing one, take a big step in the right direction by calling your nearby General Electric broadcast representative (see list below), or write to Transmitter Division, General Electric Co., Electronics Park, Syracuse, N.Y.

*G.E. built its first commercial broadcast transmitter in 1922. Since that time the company has produced broadcast transmitters whose combined power ratings total over 2,500,000 watts.

> 5 KW—An exclusive G-E feature of this transmitter is the spare tube switching of all high-power stages from front panel. Air-cooled throughout, as are all G-E standard broadcast transmitters.

250 Watt—Highest quality performance at lowest operating cost—you profit both ways with this 250-watt AM transmitter. Simplified circuits. Numbers and types of tubes minimized. Immediate delivery from stock.

FCC's Application Forms Considered

COMMITTEE on Radio Broadcasting for the Advisory Council on Federal Reports is to meet April 16 at the U. S. Chamber of Commerce, Washington, to consider criticisms of FCC's new application forms prior to their printing. Meeting has been called by Ben Strouse, general manager of WWDC Washington, committee chairman.

Several communications have been received by the Council in reply to its invitation for comment on the forms [BROADCASTING, March 8]. These include suggestions from the FCC Bar Assn. and Frazier & Peter, radio management consultant.

Comments will be received by Russell Schneider, Advisory Council executive sercetary, 1615 H St., N. W., Washington, up until the date of the radio committee meeting. Criticism must be confined to procedural and not policy matters, Mr. Schneider stated.

Composed of representatives of national business organizations, the Advisory Council has been formed at the request of the Bureau of the Budget to advise in simplifying and improving questionnaire and reporting procedures of Federal agencies. Mr. Strouse succeeded Wayne Coy as chairman of the Committee on Radio Broadcasting when the latter became FCC chairman.

Zoning Board Considers

2 New Towers for KYW SPECIAL HEARING has been

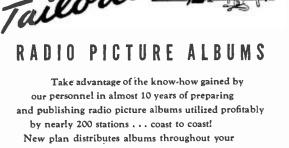

called for today (April 5) by the zoning board of Whitemarsh Township (Pa.) on the application of KYW for permission to erect two 465-foot transmission towers adjacent to its present transmitting site.

R. E. White, KYW manager, wrote the township that the station wants to bring its transmissions to maximum efficiency, in order to be able to invoke international law against XEDP Mexico City, which is beaming programs on KYW's frequency.

KFRB Fairbanks Becomes CBS' 4th Alaskan Outlet

CBS' fourth Alaskan affiliate, KFRB Fairbanks, joined the network Friday, April 2, operating unlimited time with 1 kw on 1290 kc. Other CBS affiliates in Alaska are KFQD Anchorage, KINY Juneau, and KTKN Ketchikan.

Effective May 10, WIOU Kokomo, Ind., 100 w on 1350 kc, replaces WKMO as the CBS affiliate in Kokomo, the network announced. WCUM Cumberland, Md., operating with 100 w on 1490 kc, becomes a basic supplementary CBS station on May 30, bringing to 175 the total of CBS affiliates.

AMERICA OPPORTUNITY LAND, SAYS SARNOFF

DAVID SARNOFF, president and chairman of the board of RCA, said "the United States today is even more the land of opportunity than it was when I arrived here nearly 50 years ago," in an article which appeared in the April issue of American Magazine.

The radio magnate, who started his climb as a \$5 a week messenger boy for a New York Postal Telegraph branch, stated that "in America there's luck enough for all." He disputed the argument that opportunities are fewer today than in his youth by reviewing the future of such scientific discoveries as television, weather controllers, and the ultrafax, an RCAdeveloped communication system combining television and facsimile.

"International television is nearer. than most people realize," he declared, stating that no technical problems remain unsolved.

"Science is forcing world cooperation upon us, [and] we need more science, not less. But we especially need more social science." Mr. Sarnoff wrote. "Industrial science has been, and will continue to be, lavish with its gifts. Our basic problem in creating a better way of life is to learn how best to accept and use those gifts for our spiritual enrichment and the strengthening of our democracy."

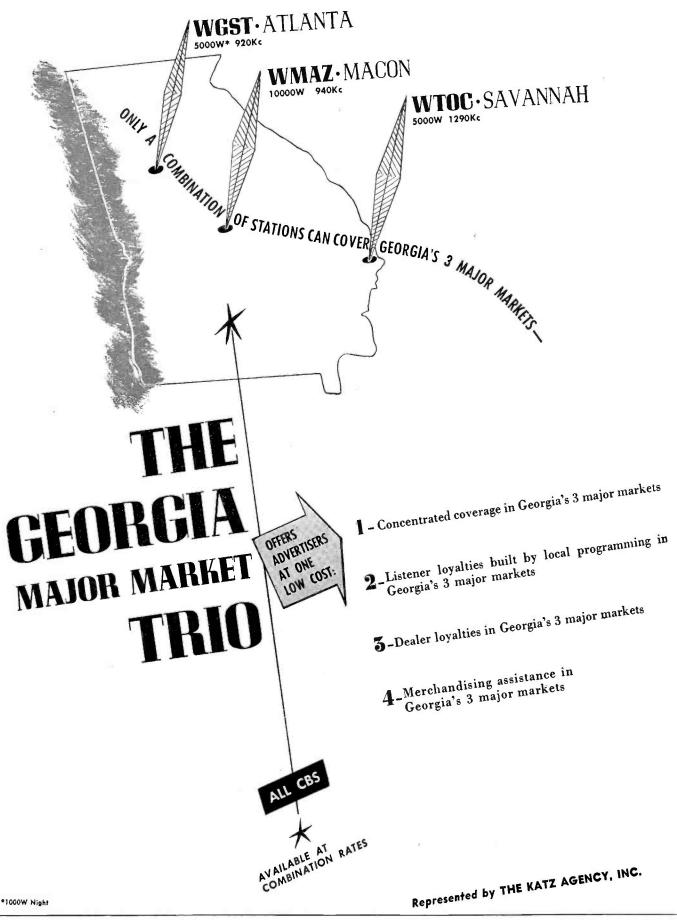

Radio Libel Law Studied At Meeting In Nebraska

FORMULATION of a radio libel measure for introduction in the 1949 Nebraska unicameral session was expected to highlight activities at the annual meeting of the Nebraska Broadcasters Assn. held April 2 at North Platte, Neb.

Harry Peck, KFOR Lincoln, association president, presided over the meeting, which was attended by 20 representatives of 15 stations.

BROADCASTING . Telecasting

In the new Conlan survey KXEL listening runs up to 9.6% more of the total listening homes surveyed than all other stations combined.

KXEL—50,000 watts Josh Higgins Broadcasting Company WATERLOO, IOWA

Represented by Avery-Knodel, Inc.

Vacationers by the thousands pour into Long Island during the summer months. There's no summer letdown!

This summer sell Long Island's extra-large quality market with advertising over WHLI—the station that delivers more listeners per dollar than any other station heard here including the New York City 50,000 watters.

is the ONLY station in Detroit that offers you a <u>complete</u> merchandising operation, plus proved sales power!

Last year a citrus packer (name on request) decided to introduce his line in the Detroit market. Because of its national reputation in merchandising, WXYZ was given the job. In cooperation with the food broker for the account, the station's merchandising staff undertook the complete assignment: jobbers, distribution, point-ofsale promotion, etc. Demonstrations that tied in with WXYZ advertising were conducted in supermarkets ... an average of 600 cans a store were sold ... a total of 26,858 cans sold over a 13-week period. In the first half year, sales zoomed from sixtysixth place to forty-fifth ... and to twelfth place in the second half year!

If you have a product to sell in Detroit, this story is important to you for several reasons...

FIRST: it proves the tremendous sales

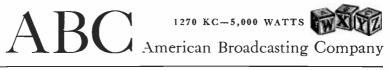

power of the station. Jobbers are willing to cooperate on WXYZ-advertised goods because they know that WXYZ moves merchandise.

SECOND: it illustrates a *complete* merchandising service that is unique in Detroit. It does not consist of just sending out letters and providing the usual merchandising helps...WXYZ's staff of food and drug experts does the entire job from start to finish.

THIRD: it shows you that, at WXYZ, the emphasis is on efficiency and service...on getting more for your advertising dollars than you can get on any other Detroit station.

If you are in the competitive selling market in Detroit—or planning to be—remember: WXYZ is the merchandise-minded medium for your product!

... your best bet-both ends of the alphabet

Call the ABC spot sales office nearest you for information about any or all of these stations!

HERMAN BESS IS NAMED AS DIRECTOR OF WLIB

APPOINTMENT of Herman Bess as director of WLIB New York effective March 29 was announced last week by Mrs. Dorothy S.

Thackrey, president of the station. Mrs. Thackrey added that she has "canceled all negotiations regarding the sale of the station."

manager of

WMCA New

Mr. Bess

York, Mr. Bess resigned that position to head the General Broadcasting Corp., which has applied to the FCC for purchase of WOV New York. Mr. Bess will remain with WLIB until the WOV application is approved, he said.

There will be no personnel changes at WLIB, Mr. Bess said, but the station's programming format will be changed from light classical music and news to block programming of popular music and news starting April 5.

RCA VICTOR's latest table model radio, to retail at \$29.95, is described by the firm as having "powerful receiver in a small hardwood cabinet." With four tubes and one rectifier, set operates on AC or DC.

".... NOBODY wants to legislate the editorial page out of existence, just to be safe. Nobody wants to pass laws requiring both sides of a story . . . These things are common and voluntary practices of the press. Why are fearful persons so certain that it would be different in radio? . . . The federal gag on free expression and the demand for its continuance betray an almost insulting lack of faith in the people who operate radio stations. They betray an almost equal lack of faith in the public intelligence . . . From an editorial in the

Pueblo (Col.) Star-Journal and Chieftain.

* *

"... THE EXISTENCE of [the Mayflower Decision] has contributed to the tremors which afflict radio in the presence of controversy. The FCC's heavy club is its licensing power ... It seems to us that the federal licensing power plus the influence of public opinion is more than ample to control this. A radio station earns its listeners by offering palatable fare. Competition should be suffi-

of comparison... **When the set of the set of**

• Air-cooled radiator type tubes for AM and FM, pioneered by RCA, are famous for their on-the-air dependability and long service life. The everincreasing demand for these tubes enables us to build them in quantity -better than ever-through improved manufacturing techniques and thorough quality control.

cient to insure diversity. Listeners' preferences would police the air against special pleading. To argue otherwise is to contend that the public lacks all discrimination, and that free speech is for all Americans except those who happen to own radio stations."

From an editorial in the Chicago Daily News.

"IT IS not often that we have found occasion to commend Mr. James Caesar Petrillo's labor relations conduct. But unless there is some joker not now discernible in the settlement with the radio networks one can only say of it that he has achieved a measure of statesmanship... Though he has personified for years the labor dictator, made possible under New Deal laws and policy, this performance deserves applause."

> From editorial in New York Herald-Tribune

> > * *

"IT IS NECESSARY to acknowledge at the outset that the constitutional standards for this sort of thing-absolutely unlimited freedom of speech, assembly and the press-cannot apply to radio broadcasting . . . For the sovereign to license anybody and everybody to operate a radio station-even were we all rich enough to buy onewould be to license chaos. We must allocate bands to certain responsible broadcasters. And the sovereign's duty becomes seeing that the use of the common air is for the common benefit . . . The present state of affairs, which amounts to federal censorship, is far from reassuring. An owner's censorship would be even more ominous. But it is not at all true that there is no middle way."

> From editorial in Bergen (N. J.) Evening Record

"... WITH THE abrupt cessation of the radio [logs] usually carried day by day in Spartanburg (S. C.) newspapers . . . The Tribune . . . immediately bcgan publishing a complete weekly radio log . . . Public response to this feature has been so pleasing to us that The Tribune has made it a permanent fixture of the newspaper regardless of any other developments between the local press and radio. As you know, radio and newspapers go hand in hand, like coffee and doughnuts. Together they help build a mighty city or community; pulling apart they can tear it to pieces . . .

From an editorial in The Textile Tribune, Spartanburg, S. C. weekly.

Barrett Is DuMont Video Station Relations Head

HALSEY V. BARRETT, formerly sales promotion manager of CBS Television, joins the DuMont Television Network today (April 5) as manager of a newly created stations relations department.

Announcing the appointment, Lawrence Phillips, director of the DuMont network, pointed out that the network "is entering a period of rapid expansion. Our interest in this phase of television is reflected in the establishment of a stations relations department."

Mr. Barrett was associated with Tide magazine, and with WOR and WNEW New York before the war, during which he served as a lieutenant in the Navy. On his release from service he joined CBS. He is a charter member of American Television Society and is presently chairman of the ATS publicity committee.

THE WORM TURNS And Listeners Do the Giving, Not Station or Sponsor

FROM WNEW New York last week came indications that the public, groaning beneath the weight of free washing machines, refrigerators, radio-phonographs, prefabricated houses and other gifts offered in giveaway shows and contests is a turning worm.

WNEW listeners, egged on by Gene Rayburn and Dee Finch, who conduct a daily show on that station called *Anything Goes*, have sent WNEW more than a thousand widely-assorted items in response to suggestions that they send in "a thing," the station reports.

Prize-winning entry came from Mrs. Edna Norton. She sent WNEW her husband, Charles. "He'll clean your studio, shine shoes, run errands, aid the sound effects man,etc.," she wrote. Messrs. Rayburn and Finch rewarded Mrs. Norton by doing their three-hour morning show on April 1 from the Nortons' Manhattan apartment.

FCC Box Score

FCC BOX SCORE of actions as of last Thursday stands as follows: Standard stations-1,628 licensed, 349 construction permits, 281 applications in pending file, 330 applications in hearing; FM-103 licensed, 151 conditional grants, 768 CPs (of which 343 are on air under special temporary authority) 60 applications pending, 59 applications in hearing; television -seven licensed, 86 CPs (of which 14 are on air), 181 applications pending of which 100 are in hearing.

CAPITAL CASUALTY WPIK Drops FM; Union Demand Threatens Says No Site BBC's Relay Musicale

WPIK-FM Alexandria, Va., at 9 p.m., March 31, ceased operations. Reasons: Economics,-and the overshadowing spectre of television. Sister operation to independent WPIK Alexandria, WPIK-FM was

one of 13 FM stations authorized and one of seven on the air in the metropolitan Washington area (see Washington market story, Study No. 1, BROADCASTING, March 29).

In a public announcement WPIK stated that it was unable to find a suitable site for high-power FM operation and to continue broadcasting on FM "with low power is not economically feasible." The station further pointed out that it believed "television, in a relatively short time, will replace aural broadcasting and therefore make a large investment in FM unwise at this time."

WPIK may soon file for community television facilities, it was indicated. A channel would have to be made available since all four allocated metropolitan video facilities already are assigned.

A written notification of the discontinuance of WPIK-FM was presented to FCC on Thursday by Cohn & Marks, station counsel. Formal petition for dismissal was to be filed Friday.

WPIK-FM went on the air on an interim Class A basis Aug. 18, 1947, using a 250-w transmitter and special antenna on Channel 252 (98.3 mc), and has been operating on that assignment since. A request for modification to specify Class B facility of Channel 290 (105.9 mc) had been designated by the Commission for comparative hearing on April 5 with similar requests of WHIP(FM) Silver Spring, Md., and Northern Virginia Broadcasters Inc. (WARL Arlington, Va.) for new FM station. WPIK-FM has been duplicating WPIK, a daytime station on 730 kc with 1 kw, programming individually until 10 p.m.

Bonus Outlet

Potomac Broadcasting Corp., licensee of WPIK and permittee of WPIK-FM, has not sold the FM outlet as a separate service but rather offered it as bonus to AM advertisers. WPIK went on the air with 250 w on 730 kc in December 1945 and increased to 1 kw on Aug. 18, 1946. Howard B. Hayes, general manager, and Carl L. Lindberg, chief engineer and program director, are chief owners and founders of the stations. Both previously had been engineers at WTOP Washington.

Mr. Hayes told BROADCASTING that about \$10,000 has been spent on operations since the FM outlet went on the air. Regarding television he stated that plans are under serious consideration for entrance into community television. Mr. Hayes indicated the station would request that a channel be made available. In the long range he stated a metropolitan video station is not precluded.

Mr. Hayes stated that any suitable site for high-power FM op-

eration was found to be too distant for efficient operation. Alexandria is in the immediate vicinity of Washington's National Airport and across the Potomac River from the Capital's major military air installations. Several other lesser commercial and private air fields also exist in the Virginia area.

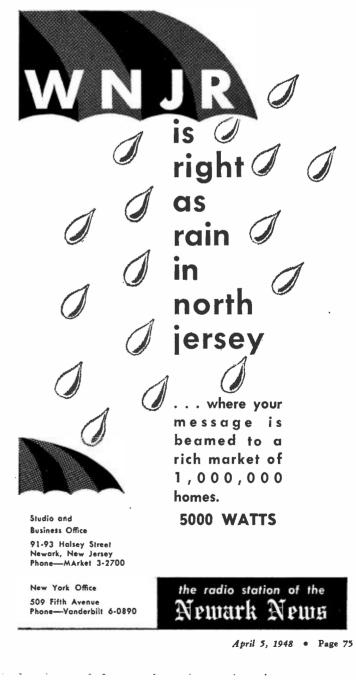

Beside the 13 FM and four video outlets, metropolitan Washington has six fulltime and six daytime standard stations, not including WPIK.

DISCONTINUANCE of radio re-

lay musicals by BBC appeared as a possibility last week after the British musicians' union demanded the present scale be quadrupled.

New York bureau of BBC disclosed Thursday that the union stated relays "will not be permitted unless full BBC studio fee (average about \$10) is paid instead of public relay fee . . . \$2.50. BBC has informed the union that "it cannot agree to pay full studio fees" but it has offered to "double the present rate of payment" of \$2.50.

Exception was made by the union for symphony concerts because of concerts contracted for later in the year.

sultant in the power branch of the War Production Board. Subsequently, through 1945, he held the positions of WPB assistant deputy director-general for distribution, deputy director, Office of War Utilities, and director of the latter office.

Other civilian defense bodies were stepping up their organization at the same time.

Spurred formation was under way at the National Defense Department's Office of Civil Defense Planning, under the guidance of Director Russell J. Hopley, who recently revealed that radio and other communications would be the backbone of his organization [BROADCASTING, March 29].

Police Commissioner Arthur Wallander announced revival of New York City's Civilian Defense System March 31.

Col. Barnet Beers, assistant to Director Hopley, told BROADCAST-ING March 31 that the office "is making excellent progress on its organization and is moving forward faster than I've seen similar organizations move before."

The Civil Defense Office, Colonel Beers said, is searching for an expert to serve in the communication section of the technical division, which will also include medicine, engineering, atomic and transportation sections.

Panels of communications experts will be assembled later to offer advice to Mr. Hopley and the communications chief, Colonel Beers said.

Will Contact Plants

The Munitions Board of the National Military Establishment announced March 30 that representatives of the Armed Services are preparing to contact approximately 11,000 industrial plants to discuss types and amounts of products that could be produced for war.

Col. Fred W. Kunesh, chief of industrial mobilization in the office of the Signal Corps chief, revealed that surveys of the radio industry are already in progress and will ultimately cover a total of 600 plans producing or capable of manufacturing electrical and communications materials or products.

Colonel Kunesh, who personally lays the groundwork for surveys before engineers perform their duties, told BROADCASTING March 31 that he has contacted about 30 plants, including some producers of radio parts, and has found officials "very cooperative."

Plant officials appear to be most anxious to proceed with plans, Colonel Kunesh said.

Colonel Kunesh estimated that about 200 plants producing component electrical and communications parts or smaller finished products and 400 plants manufacturing larger finished items would be included in the survey.

Manufacturers of large quan-

BROADCASTING • Telecasting

tity items who have "a long lead time" (longer periods between time of letting contracts and reaching peak production) will be contacted first, the Signal Corps officer declared.

The overall list of plants to be surveyed will be expanded later to include approximately 24,000 of the estimated 86,000 industrial plants of recognizable size and productivity in the United States.

Government officials point out that although the survey will be a great stride in military-industry preparedness, it is but a part of a much greater preparedness activity contemplated.

Military representatives will advise the management of industry the products the Armed Services need in the event of an emergency, the management will select the product it believes itself best capable of producing with maximum speed and volume in an emergency and provide the representative with data concerning production capacities and potential problems.

Thomas J. Hargrave, Munitions Board chairman, in announcing the survey, stated that "although it is projected on the long-range basis, its value to our national security in an emergency, near or distant, is immeasurable. If only partially completed by the time an emergency occurs, the work already completed will be of inestimable assistance in gearing that part of our industry to emergency war production."

BERNADENE HAYES and RAY GORDON have been added to cast of Jerry Fairbanks Productions' (Hollywood) "Public Prosecutor" video film series for NBC.

OPERATION TELECAST

Special Frequency to Be Used ——In Series at AMA Meet

SPECIAL FREQUENCY will be used when Northwestern U. Medical School telecasts series of operations from Chicago's Passavant Hospital to 97th annual meeting of American Medical Assn. June 21-25 in Chicago.

This will prevent restaurants, tavens and homes from picking up operating room scenes, one of which is expected to be the birth of a baby by Caesarean operation.

Receiving screens will be installed in classrooms of the medical school (in downtown Chicago), in the Sheraton Hotel, and at Navy Pier, where sessions of convention are to be held. More than 10,000 physicians are expected to attend the AMA meet.

50 mc FM Scrap

(Continued from page 24)

to the various other services to seek additional frequencies in the same manner," he said.

The former FCC chief engineer reviewed at length the hearings and studies which preceded the decision to move FM from the low band to the high, followed by another hearing when Zenith petitioned unsuccessfully for space around 50 mc for FM in addition to 88-108 mc. The move "upstairs," he insisted, was "based upon engineering considerations which were valid then and are valid now." Chief among these, he said, was the desire to avoid interference from sporadic E layer and F-2 reflections.

In defense of FCC's assignment of television and safety services in the 50-mc region despite the interfarences encountered there, Mr. Stelling pointed out that further development was necessary in the ultrahigh frequency range which is expected to be television's ultimate home. "Accordingly," he explained, "some television channels which might be available for immediate use were allocated in the 50-mc region even though it was known that these channels would be subject to interference."

Other Services

With respect to other services placed in the 50-mc area, he noted that their operations are conducted on an intermittent basis and that the possibility of repeating messages in these services further minimizes the interference problem.

Comr. Sterling rejected as "wholly without substance" such charges as those of J. E. Brown of Zenith and Prof. Armstrong that the grounds for the reallocation of FM have since been proved fallacious, and that FCC acted against the greater weight of evidence. To Prof. Armstrong's claim that K. A. Norton, whose famed "Norton's Curves" were a factor in the reallocation, has since admitted a basic error, he said:

FCC REPRESENTATIVES at the hearings on the Lemke Bill are shown with Comr. George E. Sterling, the Commission's witness. They are 11 to r1: Albert L. McIntosh, chief of the Engineering Department's Frequency Allocation & Treaty Division; Edward W. Allen Jr., chief of the Technical Information Division; Comr. Sterling; Joseph M. Kittner, chief of Litigation Section, Law Dept.; Cyril M. Braum, chief of the FM Broadcast Division, Engineering Dept.

Mr. Norton admitted this prediction to have been in error not only in the recent hearing to which Major Armstrong refers, but also as early as the closed sessions of March 12-13, 1945. You will note, therefore, that this admission of error was made well before the Commission arrived at a final decision with respect to the place of FM broadcasting in the spectrum. In arriving at its final FM decision the Commission in no way relied on this early and erroneous prediction with respect to 80 mc. The statement by Major Armstrong that the heasis for the Commission's action with respect to FM is therefore completely without foundation.

Because of the complexities involved, he said, such errors of prediction "can hardly be said to detract from the stature" of the men who make them.

Answers Armstrong

In response to Prof. Armstrong's charges that a portion of FCC's May 1945 allocations report had been tampered with, Comr. Sterling submitted detailed memoranda recently submitted by FCC Chairman Wayne Coy to Sen. Charles W. Tobey (R-N. H.), acting chairman of the Senate Interstate & Foreign Commerce Committee. Mr. Coy, who investigated the charge at Sen. Tobey's behest, said he found "difference of opinion and judgment on the technical matters

involved, but [no] evidence of dishonesty." The charge related to a sen-

The charge related to a sentence in a secret allocations report and its counterpart in the report as later made public. Prof. Armstrong claimed the secret report recognized a basic error by Mr. Norton while the public report denied any error.

With his letter to Sen. Tobey, Chairman Coy submitted a memorandum by FCC General Counsel Benedict P. Cottone covering the investigation of Prof. Armstrong's charges. Mr. Cottone said "we have found no evidence that the transcript of testimony, the exhibits, or any other data or records upon which the Commission's reports were based have in any way been tampered with or altered."

Changes Explained

Mr. Coy said the change in language was in the handwriting of Cyril M. Braum, now chief of the Engineering Dept.'s FM Division, but that "I am positive that Mr. Braum is not the author. . . . My conversations with him lead me to assert that he performed no other function with respect to this language than to record it on a master copy" which he was keeping as coordinator of FCC staff work on the report. He said Mr. Braum does not recall who suggested the change, but that "I am certain that wherever the change came from, it was first approved by the staff as a proper answer" to the exhibit to which it related.

Mr. Cottone's memo maintained that "it was quite evident from the record in the closed hearing that the 'basic error' attributed to Mr. Norton in Exhibit No. 577 [filed by Prof. Armstrong and others] had not in fact been made.

Mr. Sterling foresaw ultimate use of microwaves for FM intercity relaying, but said FCC meanwhile is considering the feasibility of using studio-transmitter link frequencies—940-952 mc—for this purpose. Preliminary studies, he said, indicate this "may be feasible at least from a technical standpoint."

Mr. Sterling was not questioned by the Committee but may be recalled later.

Mr. Poppele, TBA president, told the Committee that video channels have been reduced from 19 to 13 since 1940 and that further reductions "might very well nullify the investment made in television today by private enterprise and the public, which is supporting television and accepting it with unbounded enthusiasm." He reiterated that 13 channels are inadequate for television.

'Billion-Dollar' Industry

He said television is "now on its way to rapidly becoming a billion-dollar industry," but has been stunted by a shortage of channels and "its backbone can be broken by further channel retrenchment." If Channel 1-44-50 mc-were given to FM, "it might mean that television would be reduced to 11 channels, so that mobile and emergency services could be given adequate spectrum space."

He predicted video set production would increase from 180,000 in 1947 to 750,000 this year and 1,106,000 in 1949; that the dollar value of sets would grow from \$74,000,000 to \$460,750,000 in the same period. Total industry production, he said, was \$4,534,000 in 1946 and \$79,000,000 in 1947, will approximate \$397,000,000 this year and reach \$472,750,000 in 1949.

F. J. Bingley, technical assistant to the vice president in charge of engineering of Philco Corp., said adoption of the Lemke Bill would obsolete existing FM sets and create uncertainties that would slow the production of receivers, and possibly make broadcasters reluctant to take assignments in the 50-mc band since most sets now will not receive that band.

Aside from the "disservice" to FM, he said, the bill would "add a tremendous handicap to television" by cutting the number of channels, and also would be harmful to nonbroadcast services. He maintained that "such important services as television and safety communications . . . should not suffer as a result of unnecessary expansion of FM service, which is already adequately provided for in the 100-mc band."

Under questioning, Mr. Bingley said he did not feel qualified to say whether a trend away from FM is indicated by the continued manufacture and promotion of receivers which do not contain FM.

RCA Position

Dr. Jolliffe, executive vice president in charge of RCA Labs Division of RCA, said the bill would "confuse and delay the advancement of FM and television" and other radio services. Obviously answering Prof. Armstrong's frequent charges that RCA has sought to impede FM, Dr. Jolliffe reviewed at length the company's work in this field, dating to 1924, and in other developments in the higher frequencies.

He said NBC was "the first of the major networks" to apply for an FM license, the first to propose duplication of programs on FM, one of the first to urge FCC to open up the higher frequencies to new broadcasting services, and the first to recommend to FCC that FM be given commercial status.

Dr. Jolliffe asserted:

The statements that RCA and NBC, together with the FCC, CBS, other radio networks, companies and indivi-duals "retarded" FM are utterly ground-less. The only "proof" offered for such charges is the "silent treatment" al-leged to have been given to FM; the assumption that "high policy" at RCA was against FM, and the allegedly inadequate frequency allocations given FM by the FCC.

Armstrong's allegation of the "silent treatment" is based on a newspaper article of 1936 in which the president of RCA did not refer to FM. Nor, for that matter, did he refer to television, because neither of these subjects was germane to his discussion.

germane to his discussion. The assertion that only five channels were made available to FM as the result of the FCC hearing in 1936 is contradicted by the fact that 14, not 5 channels, were allocated—exactly one more channel than commercial tele-vision is developing on today. The allegation that "high policy" dictated disinterestedness in this new service is denied by the activity of RCA in every aspect of FM development. Dr. Tollige coid that "maken

Dr. Jolliffe said that "perhaps Armstrong's greatest error was his assertion that RCA actively opposed FM at the 1940 hearings before the FCC." Actually, he said, "RCA recommended FM."

The RCA Labs executive conceded that television is a "threat to the existing order." More than that, he said, it is "a reality . . . a revolution in broadcasting."

He maintained that FM can not be best promoted via a feud with television, and considered it "unfortunate that Armstrong should lend his name to an attack on television. He has even gone so far as to suggest that the very

REPRESENTING Allen B. DuMont Labs. in opposition to the Lemke Bill in Congressional hearings last week was Dr. Thomas T. Goldsmith, DuMont research director. thing of which he so much complains in the case of FM-moving it to a higher place in the frequency spectrum—be done to tele-vision."

He told the committee that "the television industry could be shaken to its foundations" if the number of video channels is further reduced.

THURSDAY

Dr. Thomas T. Goldsmith, research director, Allen B. DuMont Labs., defended the Commission's action in assigning FM the 88-108 mc band and said that if FM were given the 50-mc band, even for relay, it would encounter interference and fading, present sets would become obsolete, and television service would be "seriously" disrupted.

Rep. Robert Hale (R-Me.), referring to Prof. Armstrong's testimony in February, asked if it were true that adverse decisions by FCC had retarded FM. Dr. Goldsmith replied that it was true to some extent but that the decision was to the "ultimate best good" of the public.

Dr. Goldsmith described FM as "another way of getting sound broadcasting to the public." He said that television will supersede FM by adding sight to sound, but he said later that this might not take place for 10-20 years.

Comparing AM to FM, the Du-Mont executive said that FM was superior only in that it had more programs to offer on more channels. Otherwise, he said, there was practically no difference in urban areas.

IRAC Hit

Daniel E. Noble, chairman of Panel 13, Radio Technical Planning Board, and also vice president of Motorola Inc., Chicago, centered much of his attack on the Interdepartmental Radio Advisory Committee (IRAC), which he said had allocated "more than half of the total useful channels in the radio spectrum below 450 mc."

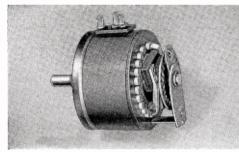

"There seems to be no valid reason," said Mr. Noble, "for the reserve or the storage of a large number of channels by IRAC on the basis of future war-time needs, since IRAC can take control of all channels in time of national emergency.

"If IRAC had not been so profligate in its demand for channels," he continued, "FCC would have had an easier task in allocating channels for commercial and city and state governmental use." In the "desirable" mobile frequency band between 30 and 220 mc, Mr. Noble said that Federal government assignments exceed the non-Federal government mobile assignments by two to one.

The FM problem, he said, requires two decisions: (1) number of channels given to FM should be relative to demands of other important services and (2) selection of spectrum space depends on rela-

50 mc FM Scrap

(Continued from page 79)

tive importance of other services demands.

"In view of the importance of many of the other services, and in view of the fact that FM broadcasting is not essentially a new service, but rather an extension or supplement to the aural broadcast service," said Mr. Noble, "I believe that the allocation of channels to this service was most generous.'

Speaking for the police, fire, forestry and other safety systems, Mr. Noble said he would prefer to have the 88-108 mc band for those services, but that in the FCC hearings, being under oath, he was forced to recommend that FM would be better off in the 88-108 mc band. The mobile services are now asking for 44-50 mc, he said, because "half a loaf is better than none."

FM broadcasters, he said, would deny the use of 44-50 mc to the vital mobile services "in order to provide a limited number of listeners with an additional 6 kc of audio range for listening purposes."

Stressing the importance of the mobile services from a security standpoint, Mr. Noble warned that "if bombs should begin to fall, it would be too late to decide that we could have managed successfully without an extra television channel to watch a prizefight. . . . We wish to see the development of television FM and AM, but within reasonable limits dictated by an intelligent examination of the needs for the vital communication services so important to any plan for national defense."

Two great "pressure groups," federal government and entertainment, he asserted, "have appropriated the lion's share of the useful channels and adequate provisions have not been made for the mobile communications services. . . .'

Complete Rejection Asked

He asked the committee not to take the "easy way" out and shelve the resolution but to "reject it completely and in full sup-

SALE of KVOX Moorhead, Minn., and KVOX-FM Fargo, N. D., for \$92,000 and disposition of half-interest in WABX (FM) Harrisburg, Pa., for \$15,000 were approved last week by FCC. Non-monetary assignment of WAOV Vincennes, Ind., also was approved.

In the KVOX transaction the AM and FM outlets are sold by David D. Shepard, Howard S. Johnson and Richard S. Falhaber to E. M. McKellar and a group of 25 other local business and professional men. The transfer is accomplished through sale of 248 shares (100%) com-mon stock in KVOX Broadcasting Co. Inc., licensee of KVOX and permittee of KVOX-FM. Of the 248 shares, Mr. Shepard owns 99 as *

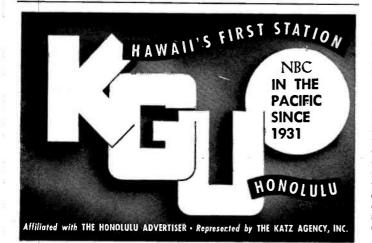

president; Mr. Johnson 99 as vice president, and Mr. Falhaber 25 as secretary-treasurer. Remaining 27 shares are held as treasury stock. Mr. McKellar, who is general plant supervisor of North West Airlines at Fargo, acquires 139 shares, or 56.05%, with the rest divided among the 25 other individuals. An MBS affiliate, KVOX is assigned 250 w fulltime on 1340 kc.

Harold O. Bishop, licensee of WABX, assigns the permit of that FM outlet to a new corporation in which he is president and 50% owner. The other half-interest is held by W. T. Wright, vice president, who is officer and director of Godfrey Cotton Products Corp.

port of the Commission's efforts to provide some measure of relief to the essential mobile communi-cations services." He warned that any attempt by Congress to divide or circumscribe FCC authority "must inevitably lead to a shocking and dangerous state of chaos."

Pressed by Chairman Wolverton on whether Congress should not have the right to question FCC actions since FCC is an administrative agency controlled by Congress, Mr. Noble insisted that it was no place for a committee to meddle. He agreed, however, with Rep. Wolverton that Congress might well look into the IRAC situation, which prompted the chairman to quip that he was glad that the witness had found at least one good use for Congress.

In reply to Rep. Ellsworth, Mr. Noble said he thought IRAC controlled more channels than necessary and was largely responsible for the present problem. He said

Frown on Giveaways PRIZE GIVEAWAYS on quiz shows, where merchandise is donated free, with on-

ly the donor's trade mark name given in presenting merchandise, are to be discouraged, according to Doug Scott. director of broadcast advertising of Canadian Assn. of Broadcasters. In a circular to CAB member stations he asks for opinions so that policy can be formulated, and advises that a number of stations have turned down such free merchandise prize offers.

WGHF (FM) Joins Rural

AFFILIATION of WGHF (FM) New York with the Rural Radio Network Inc., Ithaca, N. Y. [BROADCASTING, March 1], was announced April 1 by W. G. H. Finch, the station's president. WGHF will originate facsimile programs for the other stations in the network starting in June, it was disclosed. The Rural Network is scheduled to begin operations early next month with three of its six projected FM outlets.

were loaded.

Attorney Jeremiah Courtney, representing taxi, auto and bus associations, said it would be a "grave injustice" to give FM a portion of the band.

Clyde Ellis, executive manager, National Rural Electric Cooperative Assn., said his organization needed more communications with repair people in inaccessible areas. He said that farmers would prefer better maintenance of their electricity to more FM.

Rep. Leonard W. Hall (R-N.Y.), a ranking member of the committee, indicated his position when, during questioning of a police witness who had just testified against

WCBM PETITION

ASKING FCC to reconsider its 680-kc grant to WCBM Baltimore [BROADCASTING, March 22], Tower Realty Co. of Baltimore told the Commission last week that its own earlier decision to drop out of the 680-kc case was based on a belief that FCC would not reverse its original proprosal to make the grant to Lanposed decision, and Tower asked caster, Pa.

Tower's petition, seemingly unique, pointed out that FCC's proposed decision anticipated a grant of 680-kc to Lomar Broadcasting Co., Lancaster. That proposal was based on the "equitable distribution" provisions of the Communications Act, and Tower said it did not think FCC would fail to make the proposed decision final. Consequently, the petition said. Tower decided to amend its application and apply for 1470 kc with 1 kw, daytime only, at Towson, Md.

But FCC did reverse its pro-

680 Kc Grant Involved

for rehearing to give consideration to its own application. Tower said its petition to amend to 1470 kc was being withdrawn. The company said:

pany said: \dots If petitioner had known or had adequate reason to believe that the Commission was to reverse its deci-sion \dots on the basis of efficiency of use [of the 680-kc channel], or that a new fulltime station would be author-ized in Lancaster and considered by the Commission as a basis for preferring the Baltimore application, it would not have sought to amend its application. have sought to amend its application, since its decision to amend was based solely on a desire to bring a new radio service to Baltimore, combined with the belief that the proposed decision . . . would not be changed in its final form.

Censorship

(Continued from page 30)

for Clear Channel Broadcasting Service; Theodore F. Koop, news director, CBS Washington; J. R. Poppele, president, Television Broadcasters Assn., and A. A. Schechter, vice president, MBS.

The resolution commended Sec-retary Forrestal "upon steps now being taken . . . to coordinate military establishment policies designed for the quick and full release of all information to the American people compatible with the necessary protection of knowledge which should not be revealed to potential enemies."

"We do believe," the report said, "that consciousness of the fact that security of the nation could be compromised by careless or premeditated publication of classified military information on technical, scientific developments should impose an effective restraint on all responsible media of public information."

Few Violations

Subcommittee questioning of those in charge of information branches of the three armed services revealed only three instances since V-J Day when stories regarded as injurious to security had been deliberately or carelessly published.

"On the other hand, testimony was received from each of the three services attesting the willingness . . . to obtain proper clearance in the 'twilight zone' of security," the subcommitee report disclosed.

Meanwhile, civil-military relations were undergoing changes thousands of miles from the Capital scene. The Army issued a new statement of policy placing correspondents in overseas Army areas directly under control of the Secretary of the Army and the Army Chief of Public Information rather than under overseas commanders.

The Army announced that "unfavorable criticism of Army policies or of an individual will not be considered as a basis for dis-accreditation." The action stemmed from a long controversy between

Center Your Attention on Center of the Dial 860 kc MILWAUKEE

General MacArthur and correspondents. One of the key figures in the verbal exchanges was Bill Costello, CBS correspondent.

NBC TV Newsreel Adds Wednesday Night Period

NBC VIDEO network will broad-cast the NBC Video Newsreel on Wednesdays, 10-10:10 p.m., each week starting April 7, the fourth regular period for this program. The show also is broadcast on Monday, Friday and Sunday nights, the last two sponsored by General Electric Co. and Oldsmo-bile Division of General Motors, respectively.

The ten-minute news program is prepared for NBC by Jerry Fairbanks Productions, under the fiveyear contract recently negotiated between this film manufacturer and the network. Paul Alley, formerly NBC newsreel editor and now with Fairbanks, continues to supervise production of the NBC television newsreel.

Newsman Whitaker at the microphone for a night session.

JIM WHITAKER, newsman and announcer at WWVA Wheeling, W. Va., does such a good job of publicizing his city that Mayor Carl G. Bachman and the city council have appointed him honorary "Sunday Night City Manager" of the city.

City council resolution creating the position cited Mr. Whitaker for his capable coverage of weekly council meetings over the past two years, for community services he had performed and for initiating a rat extermination drive.

"Jim Whitaker," the resolution read, ". . . is hereby authorized to voice the friendship and goodwill of the people and council of the City of Wheeling to the nation on his Sunday evening programs from 11:30 p.m. to 1 a.m." The announcer also was authorized to use his title during his broadcast.

Durr

(Continued from page 23)

Durr has been an avid supporter of racial equality.

All labor elements, non-commercial and educational broadcasters and various cooperative organizations, it is surmised, would rally to the support of Mr. Durr. But the majority of the nation's broadcasters are known to feel that Mr. Durr's philosophy is in the direction of common carrier status and perhaps eventual Government ownership. He has championed every crackdown against the established order in standard broadcasting since he assumed office and was the staunchest advocate of the Blue Book, accepting it as a compromise when his more extreme proposal of setting mathematical formulae of commercial versus sustaining programs was vetoed two years ago.

Mr. Durr, should he decide to enter private law practice, probably would specialize in corporation practice. He practiced law in both Alabama and Wisconsin before joining the Reconstruction Finance Corp. in Washington with the onset of the Roosevelt administration in 1933. He served in various legal and policy capacities with RFC agencies until his appointment to the FCC in 1941. Record Group in W. Va.

"HAIL WEST VIRGINIA" transcriptions were presented to those who attended West Virginia Broadcasters meeting in Charleston March 27. Records of the college song were made through the cooperation of Standard Radio Transcriptions Inc., West Virginia U. and the State Publicity Commission. New officers of the state association elected at the meeting included: John S. Phillips, president, WGKV Charleston; Allen L. Haid, vice president, WMMN Fairmont; and John T. Gelder, secretary and treasurer, WKNA Charleston. Howard Chernoff, manager of WCHS Charleston, is the retiring president. Members of the executive committee are: Melvin Barnett, WHIS Bluefield; John B. Reynolds, WKWK Wheeling; Joe L. Smith, WJLS Beckley; George H. Clinton, WPAR Parkersburg and Mr. Chernoff. Those shown in front row above include (1 to r) Dick Glaser, WTIP Charleston; Mr. Haid, Virginia Cooper, WJLS Beckley; Glacus Merrill, WHAR Clarksburg; Dave Jacobs, executive secretary of the West Virginia U Alumni Association; Mr. Chernoff; Bill Handlan, director of

West Virginia Publicity Commission; and Odes E. Robinson, WCHS.

NAB Board

(Continued from page 23)

tricts must decide quickly if they desire to hold elections at the district meetings scheduled to start in late July [BROADCASTING, March 22]. For example, George D. Cole-

man, WGBI Scranton, Pa., director of District 3, must reach a decision in time to permit mailing of nominating forms by May 29, since the district meets July 29-30 at the Bellevue-Stratford, Philadelphia.

First use of the mail balloting system revealed a flaw in the By-Laws due to lack of provision for incumbents or nominees to withdraw their names if they do not desire to'run. Mr. Gillin, nominated both as district director and director-at-large, was given his choice and withdrew altogether. He has served well over a decade. Mr. Mc-Connell stayed out of the nominating by submitting the name of another station executive for the eligibility list. Messrs. Harris, Ryan and Way preferred not to run for reelection but their names appeared on the ballots under By-Laws requirements because they received nominations.

Suggested remedy for this flaw is a change in the By-Laws giving all noninees a chance to withdraw within five days if their names are on noninating forms.

Twenty-nine persons were nominated twice for vacant directorships in the recent balloting, with one person nominated in three categories.

German Symbols

A DICTIONARY, containing 120 pages of approximately 1,200 German electrical symbols, originally published for U. S. military use is now available for \$3 at Office of Technical Services, Department of Commerce, Washington, D. C. Each symbol is identified according to conventional American designation. Dictionary contains symbols representing switches, relays, selectors, acoustic transmission apparatus, tubes, equipment peculiar to radio television and radar, and communications set-ups.

Independents Seek Two NAB Directors

Cott Starts Petition to Get 5% Membership Support

A MOVE aimed at amendment of the NAB by-laws to assure presence on the NAB board of at least two representatives of non-network stations was started last week by Ted Cott, vice president and program director of WNEW New York.

Mr. Cott, who was one of the leaders of the movement to revise the proposed NAB code, said he was hopeful of acquiring signatures of 5% of the NAB membership, the number needed to initiate a bylaws change, on his petition.

The amendment proposed by Mr. Cott would change Article VI, Section 2, Paragraph B to provide:

There shall be 12 directors-at-large, two from large stations, two from meduum stations, two from small stations and two from non-affiliated (independent) stations. In the event that the station represented becomes affiliated during the tenure of service on the board, the position shall be declared vacant and filled by the board as provided in Section 6.

Mr. Cott said his petition would point out that problems of independent stations are "frequently unlike those of network affiliates." The independents, he said, felt that "their interests could be better protected" if at least two members of the NAB board represented nonnetwork stations.

Meanwhile, approval of the revised NAB code [BROADCASTING, March 29] came from Bernice Judis, vice president and general manager of WNEW. "The early mistake in not taking independent station operations into considera-tion has been rectified," she said. "This is now a genuine industry document, which reflects the experience and participation of hundreds of radio stations. WNEW hopes that its activities in relation to the code have been of positive help in formulating the final standards. Members of our staff have been active in the revisions, and we are pleased that so many of our recommendations have been accepted."

Zoning Board in Philly Studies Tower Complaint

ZONING BOARD of Adjustment in Philadelphia took under advisement last Tuesday application of Franklin Broadcasting Corp. to erect a 350-ft. tower in the Roxborough section of Philadelphia where residents complained against building of the structure. The company has construction and operating permits for an FM station with call letters WFLN.

The company plans to buy the site from Samuel F. Houston, father-in-law of Lawrence M. C. Smith, president of the station. Abraham L. Freedman, attorney for the company, said the station will cost \$75,000 at the outset.

AM GRANTS

THREE 1-KW DAYTIME stations and a fulltime local outlet were authorized last week by FCC. One existing station was granted

improvement of facilities. Seward County Broadcasting Co., owned 65% by Alf M. Landon, ex-Governor of Kansas and 1936 Republican Presidential nominee, received a construction permit for 1 kw daytime on 1270 kc at Liberal, Kan. Mr. Landon is permittee of KCLO Leavenworth, and KTLN Denver, both daytime stations.

Craig Broadcasting Co., Chester, S. C., received permit for 250 w fulltime on 1490 kc. Grant is subject to condition that operation must await switch by WKIX Columbia, S. C., from the local 1490 kc assignment to 1 kw day, 500 w night on 1320 kc.

Pleasant Valley Broadcasting Co., Oxnard, Calif., was assigned 1 kw day on 910 kc. Its petition of Feb. 9 for grant without hearing was dismissed.

Third 1 kw daytime authorization, on 1280 kc, went to Carolina Broadcasters, Anderson, S. C.

KYOS Merced, Calif., was granted change of facilities from 250 w on 1490 kc to 5 kw on 1480 kc with directional antenna at night. Comr. Clifford J. Durr voted for hearing.

KPAN, 250 w-daytime outlet on 860 kc, was granted modification of permit to move transmitter and studio site from Canyon, Tex., to Hereford, Tex. Consent also was given for change of name from Randall County Broadcasting Co. to Hereford Broadcasting Co. Marshall Formby and John Blake are partner-owners.

In related actions the Commission last week also denied petition of S. H. Patterson seeking temporary waiver of condition attached to his permit for KJAY Topeka, Kan., to allow operation on 1440 kc with 1 kw simultaneously with

PEACETIME CENSORSHIP VOTED AT GENEVA MEET

PEACETIME censorship proposal for purposes of national military security was given preliminary approval last Thursday by the International Conference on Freedom of Information meeting in Geneva [BROADCASTING, March 29].

The proposal, part of a joint American-French resolution on gathering and international transmission of news, was adopted 19 to 6 with three abstentions. Voting against the proposal were Canada, Russia, Ukraine, Poland, Yugoslavia and Czechoslovakia, while Argentina, Venezuela and Belgium abstained.

It was understood that Canada, Venezuela and Belgium refused to support the motion on the ground they are against all types of peacetime censorship.

One Fulltimer and Three 1-kw Davtimers Okaved

his KVAK Atchison, Kan., on 1450 kc. KJAY holds CP for 5 kw day, 1 kw night on 1440 kc and FCC has stipulated it may not commence broadcasting until KVAK switches from 250 w on 1450 kc to 1 kw on 1470 kc.

KVAK at the same time was granted modification of its permit for the change to make adjustments in directional array and specify a new transmitter site. Modification included conditions that Mr. Peterson submit data showing that the composite equipment conforms with FCC's rules anl that he divest himself of all interest in the station. There is pending with the Commission an application for assignment of license of KVAK from Mr. Peterson to Albert Alvin Almada, local physician, for \$80,000 [BROADCASTING, April 7, 1947].

An application for modification of the KJAY permit to specify 5 kw night instead of 1 kw was designated by FCC for hearing and KPRO Riverside, Calif., and KEIO Pocatello, Ida., were made parties to the hearing. Mr. Patterson also is owner of KSAN San Francisco.

FCC also denied petition of WERC Erie, Pa., to reinstate its application for change from 250 w on 1230 kc to 5 kw on 1260 kc, directional, and to modify accord-ingly the Commission's Nov. 6, 1947 order. This ruling had enlarged the issues of a Feb. 5, 1947, order for WERC to show cause why it should not move to 1450 kc to also include 1260 kc. WERC then had filed for 1260 kc but in late January FCC dismissed the application as unnecessary. The show cause order had been made upon request by WLEU Erie, which sought to move from 250 w on 1450 kc to 5 kw day, 1 kw directional night, on 1260 kc [BROAD-CASTING, Feb. 10, 1947].

The new station grantees and respective ownerships:

Anderson, S. C.—Carolina Broad-casters, 1280 kc, 1 kw, daytime. Sole owner: John J. Powell, 1933-1936 prin-cipal owner and general manager of WRDW Augusta, Ga.; member, Georgia Legislature, 1942-1946, and since 1941 engaged in management of personal investments.

Chester, S. C.—Craig Broadcasting Co., 1490 kc, 250 w, unlimited. Owners: Alex B. Craig, real estate dealer and farmer, 50%, and Morgan J. Craig, since 1946 on inactive list of Army as major. Major Craig saw active Army service 1942-1946.

service 1942-1946. Liberal, Kan.—Seward County Broad-casting Co., 1270 kc, 1 kw daytime. Partners: Alf M. Landon, independent oil producer, ex-Governor of Kansas and 1936 Republican Presidential nomi-nee, permittee of KTLN Denver and KCLO Leavenworth, Kan., 65% interest; William Lee Larrabee, president, Star Lumber Co., 20%; Wilbur V. Griffith, real estate and insurance dealer, and Ralph E. Colvin, vice president and general manager of Star Lumber, 7½% each.

each. Oxnard, Calif. — Pleasant Valley Broadcasting Co., 910 kc, 1 kw, day-time. Sole owner: Eva Miller Grimes, publisher daily Press-Courier Inc., publisher daily Press-Courier. The grantee has been in newspaper work for 32 years, with Omaha World Herald, and recipient of Pulitzer award for distinguished public service.

KLAN NEWS **Columbus Station Says Coverage** Justified

A. E. MICKEL, general manager of WGBA and WGBA-FM Columbus, Ga, said last week that the stations treated the so-called Ku Klux Klan episode, which led to a demand for revocation of their licenses [BROAD-CASTING, March 29], just as "any hot story would have been."

His statement was in reply to the petition filed with FCC by F. W. New, editor and publisher of the weekly Georgia Tribune at Columbus, who protested the handling of stories purporting to link him with a Klan meeting at which three members of the Columbus Ledger-Enquirer staff claimed to have been mistreated. He said a formal answer will be submitted to FCC by the stations' Washington counsel, Dempsey & Koplovitz.

"While the Columbus Ledger-Enquirer newspapers and the radio stations have common ownership," he said, "the stations operate independently and have in no way whatsoever been influenced by the papers in this case. WGBA and WGBA-FM feature news, and this story was treated as any hot story would have been handled.'

Mr. Mickel denied that the sta-tions "editorialized." The *Ledger* editor, he said, was asked for a statement and recorded an editorial which was broadcast "purely because of its news value." He continued:

Endeavoring to cover both sides of the question, these stations made ar-rangements to use a radio station

studio in Atlanta so that we might obtain a statement by Dr. Samuel Green, Grand Dragon of the Ku Klux Klan. A broadcast loop was ordered in and kept live for five hours so that we might procure such statement, which was broadcast by tape recorder once over WGBA-FM and again over both stations on the following day.

He pointed out that WGBA and WGBA-FM also recorded and broadcast a 15-minute statement by Mr. New, in which "our listeners first learned the details of New's petition [to FCC]." He denied that Mr. New was "challenged" to answer charges, asserting that when Mr. New failed earlier to appear to make the recording this fact was announced "in order to answer the many telephone calls from our listeners."

To claims of censorship, he said that Mr. New agreed, during discussions just before the recording was made, that in a broadcast over another station he had made "certain statements . . . which had no bearing on the case." In the recording for WGBA, he said, Mr. New eliminated these statements and "certain statements" which Mr. Mickel did not consider to be in good taste.

RIGHT PHOTO-Mr. New, as he appeared March 17 at the WGBA and WGBA-FM studios to tape record his statement.

*

BELOW-The three "Ledger" staff members as they tape recorded their statements March 13, L to r: Mr. Mickel, Photographer Joe Talbot, Reporters Jim Bellows and Carlton Johnson. Bryan Coller, editor of the "Ledger," not in picture, also recorded an editorial on the paper's position.

APPLICATIONS Landon Among Five Asking Channels

APPLICATIONS for five new commercial television stations, including one initiated by Alf M. Landon, ex-Governor of Kansas and 1936 Presidential nominee, were filed last week with FCC.

Partnerships, each composed of the same three independent oil producers, have applied for new commercial video outlets in San Antonio, New Orleans, Phoenix and plan also to seek TV in Corpus Christi [BROADCASTING, March 15].

Channel 5 (76-82 mc) is sought by the group as San Antonio Television Co. at San Antonio, Applicant is a partnership of R. L. Wheelock, W. L. Pickins and H. H. Coffield, independent oil operators. Messrs. Wheelock, Pickins, Cof-field, and John B. Mills, also oil producer as well as stockholder in many Texas, New Mexico, Arizona and Oklahoma hotels, doing business as Phoenix Television Co., seek Channel 5 at Phoenix as Phoenix Television Co. Plans contemplate erection of a 260-foot antena atop the Westward Ho Hotel.

Mr. Landon of Topeka, Kans., doing business as Landon Television Broadcast Co., has applied for Channel 5 (76-82 mc) at Denver. Station would be operated in conjunction with his KTLN, an AM outlet authorized and under construction. An independent oil producer, Mr. Landon also is permittee of KCLO Leavenworth, Kan., and 65% owner of Seward County Broadcasting Co., Liberal, Kan., permittee of new AM sta-tion (see story this issue).

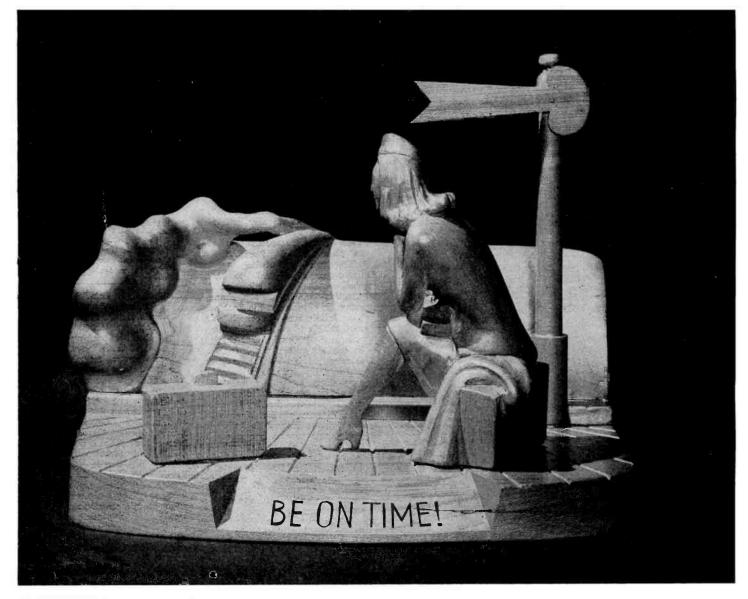

Channel 7 (174-180 mc) in

Omaha is sought by KFAB Broadcasting Co. of Lincoln, Neb., licensee of KFAB Omaha and permittee of KFAB-FM Lincoln. Staff of 70 would include Harry Burke, Omaha, general manager; L. A. Miller, Lincoln, program director.

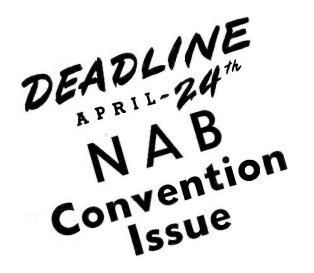

Applicant Principals

The new applicants, facilities requested and ownership include:

The new applicants, facilities re-quested and ownership include: Albany, N. Y.—Hudson Valley Broad-casting Co., Inc. Channel 7 (114-180 mc) effective radiated power 2.4 kw visual, 1.2 kw aural, antenna 1,171 it. over average terrain. Total esti-ing cost \$125,000, revenue \$100,000. Applicant has obtained definite com-mission of the state of the state of the state of wROW Albany and permittee for WROW-FM Albany. Denver, Col.—Alf M. Landon, indivi-dual doing business as Landon Tele-vision Broadcast Co. Channel 5 (16-82 mc) 16.9 visual, 8.5 aural, antenna 370 ft. Initial cost \$180,000, first year operation cost not specified, revenue not specified; programming 75% com-mercial, 25% sustaining. Applicant is sole owner of KCLO Leavenworth, Kan, and KTLN Denver, and 65% owner of Seward County Broadcasting Co., Liberal, Kan., AM permittee. Diberalis (Siso,000, revenue \$75,000, Applicant is licensee KFAB Omaha and permittee KFAB-FM Lincoln. Photens, Ariz.—R. L. Wheelock, W. Fickens, H. H. Coffield and John B. Mills dy b as Phoenix Television Co. Channel 5 (16-82 mc) visual 17.5 kw, 8.7 kw aural, antenna 402 ft. Initial cost \$151,500, first year operating cost \$96,000, revenue NT5,000. Applicant is licensee KFAB Omaha and permittee KFAB-FM Lincoln. Photens, Ariz.—R. L. Wheelock, W. Fickens, H. H. Coffield and John B. Mills dy b as Phoenix Television Co. Channel 5 (76-82 mc) visual 17.5 kw, 8.7 kw aural, antenna 402 ft. Initial cost \$171,500, first year operating cost \$96,000, revenue unknown. Would op-rating basis. Each partner holds one fourth interest. San Antonio, Tex.—R. L. Wheelock, W. L. Pickens and H. H. Coffield, part-nership dyb as San Antonio Television Co., Channel 5 (76-82 mc) 17.86 kw visual, 8.94 kw aural. Initial cost \$190,000, revenue unknown.

Just 3 weeks till deadline . . .

The 1948 NAB Convention Issue will feature an expanded analysis of competitive radio billings. Hitherto unreleased figures on 24 general product groups; product name, amount the sponsor spends, where he spends it and what his money buys. Timely figures based on the last 3 months of 1947 and the first 3 of 1948.

Watch, too, for BROADCASTING'S capsule analyses of radio success stories. Program, type, sponsor, how it's produced, how it's merchandised, what it's designed to accomplish and its sales record.

These two articles, plus regular spot news, NAB features, by-lined stories on current radio problems, assure top readership for the Convention Issue. And for your sales story. Circulation: 16,500 guaranteed. Regular rates. Write, wire or call (collect) for reservation.

PHOENIX

WIS.-ILL. CASE

DECISIONS in the complex, long contested Illinois-Wisconsin scramble for 1480-1490 kc were issued by FCC last week to:

1. Grant request of Radio Wis-consin Inc. for 1 kw fulltime, direc-tional, on 1480 kc at Madison, Wis, and deny application of Edwin Mead for same facilities at Rockford, III. Also denied petition of Radio Wis-consin to amend to request 5 kw day, 1 kw night.

2. Grant application of Village Broadcasting Co. for 250 w fulltime on 1490 kc at Oak Park, III., and approve request of Beloit Broad-casting Co. for 100 w fulltime on 1490 kc at Beloit, Wis.

3. Deny competitive 1490 kc-250 w applications on The Eigin Broad-casting. Co., Eigin; Vincent G. Cof-ey, Eigin, and Community Broad-casting Co., Oak Park, Ill.

In the 1490 kc case Comrs. Wayne Coy, Paul A. Walker and E. M. Webster considered that the application of Community Broadcasting should be preferred to that of Village Broadcasting. Comrs. Walker, Webster and Clifford J. Durr further considered that a grant should be made at Elgin rather than at Beloit and Oak Park.

But Comr. Durr, citing that interference by the proposed Beloit operation to WCLO Janesville, Wis., is substantial within meaning of the Commission's rules, held that Elgin is a more distinct community apart from Chicago than Oak Park and should receive local service. With the majority preferring Oak Park over Elgin, however, he considered that the request of Village Broadcasting should be preferred

Regarding the 1480 kc case. Comrs. Walker, Durr and George E. Sterling would have preferred the Mead application to that of Radio Wisconsin but for the fact the grant to Beloit precluded a grant to Mead.

FCC originally had proposed to approve the Mead request but in supplemental proposed decision in March and final decision in late June 1947 [BROADCASTING, July 7, 1947] the Commission held the Beloit grant took preference over Mead's request. The Mead application had not been filed until April 1946 while the 1490 kc hearings had been concluded in March of that year.

The 1490 kc rulings have fluctuated among Elgin Broadcasting, Village Broadcasting and Beloit Broadcasting individually and in combination. The Commission on Feb. 18 set aside then existing grants to Elgin Broadcasting, as well as Radio Wisconsin, and ordered another oral argument [BROADCASTING, Feb. 23].

Radio Wisconsin is headed by Morgan Murphy of Superior and owned by a group including Harry Sauthoff, former Congressman; Minnesota Tribune Co., and stockholders in Arrowhead Net-work stations and a group of Wisconsin work standing and a group of interesting and Minnesota newspapers. Village Broadcasting is a partnership owned 35% by William L. Klein, who is 80% owner of United Broadcasting Co., and

Chicago radio advertising, transcrip-tion and production firm. Joseph Trin-er, president of Joseph Triner Corp.,

Fourth Ruling Made in 1480-1490 kc Scrap

Oak Park, maker of proprietary medi-cines and wholesale liquor distributor.

cines and wholesale fiquor distributor, and Charles M. Hickman, local attorney, hold 2712% each. Beloit Broadcasting is owned solely by Sidney H. Bliss who with members of the Gazette Printing Co. Southern Wisconsin Radio Inc., subsidiary, is licensee WCLO Janesville, Wis., of which Mr. Bliss has been manager for 15 vents. 15 years.

Network Hits At **TV** Grants Policy

YANKEE NETWORK told FCC last week that its new policy of changes in the television allocations plan [BROADCASTING, March 29] "constitutes legal error."

The protest was filed against the Commission's refusal to hear Yankee's Bridgeport television application-which seeks a channel currently allocated to the Hartford-New Britain area-in consolidation with the Hartford-New Britain applications. FCC ruled that changes in the allocations plan, such as that sought by Yankee, must be preceded by separate rule-making proceedings.

Yankee's protest and request for reconsideration, filed by W. Theodore Pierson of the Washington law firm of Pierson & Ball, contended this process is contrary to the Communications Act and that FCC's rules "clearly provide" that an application that is mutually exclusive with an application for another community's channel "would be entitled to a comparative hearing. . .

FCC's policy, the petition said, is "unreasonable and unfairly discriminatory." Yankee also protested FCC's ruling that the network had failed to offer evidence in support of its request.

As an alternative to its request for reconsideration and admission to the Hartford hearings, Yankee asked that it be allowed to intervene, that the issues be enlarged to include questions with reference to Yankee's qualifications and its proposal to move a Hartford channel to Bridgeport, and that the hearing, set for April 19, be postponed 60 days.

Mr. Lanafitt (1) and Researcher Enrique Salas inspect Guatemalan corn test plot.

AMERICAN FARMERS may fall heir to revolutionary corn growing techniques, thanks to KMA Shenandoah. Iowa.

KMA has been making corn news for the last three years. Its farm service director, Merrill Langfitt, who has traveled more than 41,000 miles during the past year rounding up this news, is presently at Antigua, Guatemala, furnishing daily reports for KMA on the work of Iowa State College's Tropical Research Center there. The Center is an endowment of the May family, owners and operators of KMA.

Earl E. May in 1945 visited President Charles E. Friley of Iowa State College and made suggestion that Guatemala maize might contain characteristics which would materially increase the U.S. yield. Work commenced that year, with Mr. May providing finances and President Friley furnishing scientific "know-how."

Yields have been increased 25 bushels to the acre, according to the KMA officials. Experiments are said to have been more successful than scientists had anticipated. Meanwhile KMA listeners are being supplied news of some of the latest and most spectacular developments in the world of corn.

JOHN ARTHUR has been added to cast of Jerry Fairbanks Productions' "Pub-lic Prosecutor" television film series for NBC.

Clears at Cross Roads

(Continued from page 21)

be impossible to meet the May 1 deadline for submitting proposals for changes in NARBA. The U. S. is understood to be ready to ask for an extension of the present NARBA for at least a year beyond the March 28, 1949 expiration date, in order to accommodate a postponement of the treaty revision conference currently scheduled for August.

Continuation of the clear-channel system unchanged with power limitations kept at 50 kw consequently appeared likely for at least a year longer.

Representatives of the FCC and of the Senate committee told State Dept. officials a week ago that in their view extension of NARBA was the only course open under the circumstances [BROADCASTING, March 29].

At that meeting were FCC Chairman Wayne Coy and Comr. George E. Sterling; Assistant Secretary of State Garrison Norton and Walter Radius, director of the Office of Transportation and Communications under Mr. Norton, and Sen. Edwin C. Johnson (D-Colo.), author of the Johnson Bill and ranking minority member of the Senate committee. Sen. Charles W. Tobey (R-N. H.), acting chairman of the Committee, was unable to attend that meeting but reportedly had already indicated his agreement that an extension of NARBA is necessary.

Stress Service Need

The clear-channel stations will stress to the Committee that "approximately 60% of the area of the U. S. and over 23,000,000 of its population (scattered over virtually all the states) are dependent on skywave service from clearchannel stations for their only nighttime broadcast reception, and a very much larger area and population are dependent on this skywave service for any choice of programs....

"It is conservative to say that over 40,000,000 people in this country are solely dependent on clearchannel stations at night, and many more are dependent on such stations for a choice of programs."

Mr. Caldwell noted that only clear-channel stations provide skywave service and that "the other classes of stations (Class 2, regional, and local) are so hemmed in by interference which they mutually cause to each other at night that they serve only relatively small areas embracing the cities in which they are located and the immediate environs."

Enactment of the Johnson Bill, he insisted, would inevitably increase the number of stations serving city listeners, "at the expense of the all too meager service now available to the many millions who

depend on clear-channel stations for service."

CCBS is expected to make a strong bid for its plan of achieving nation-wide radio coverage through the use of at least 20 clear-channel stations operating with 750 kw power.

Mr. Treloar, representing the views of the Montana Assn. of Broadcasters in particular and regional and local stations in general, told BROADCASTING that "there is no doubt that the independent broadcaster anywhere in the nation today is alarmed because he is in jeopardy, and has shown himself to be in full accord with the Johnson Bill." He continued:

As to the power of a radio station, it comes down to this formula. The greater the power, the bigger the circle. Congress is, in effect, determining the sphere of influence which will be given to one voice of the air. Failure to pass this bill means giving the reins of public information over to one man, regardless of what city he might be from.

As the circle enlarges, so enlarges the influence of one man's voice coming over the super-power station. This voice grows stronger as the local and regional smaller stations go silent because of their natural limitations to compete. If this should happen, small voices all over America would be stilled. Frank, honest discussion of local issues, upon which democracy thrives, will be stiffed if the clear-channel group succeeds in making this airways grab by defeating the Johnson Bill.

Meanwhile, Mr. Craney of the "XL" stations circulated a letter admonishing broadcasters that "if you want to stay in this business of broadcasting you better do everything within your power to see to it that this bill becomes law."

On the other hand, President B. J. Palmer of WHO Des Moines, a clear-channel station, wrote to Sen. Tobey declaring opposition to the Johnson measure on grounds that "it will harm radio broadcasting; that instead of better service to all radio listeners there will be less; that it will seriously jeopardize radio assets and resources now possessed by the U. S."

He maintained that "superpower" is a "myth from the minds of people with little vision."

Col. Palmer also noted that "key stations in the defense pattern in time of war are inevitably clearchannel stations. Only clear channels with ample power can alert given areas and activate regional and local stations in that area. Military records substantiate this."

W. B. Ryan, general manager of KFI Los Angeles, another clearchannel outlet, found it not surprising that advocates of the breakdown bill outnumber its opponents. But, he told Sen. Tobey in a letter, "if justice is to be done the listener, a 'station vote' cannot be given even serious consideration in the decision ..."

He said the rural listener is "the person around whom this whole issue revolves," and that he is willing to abide by the vote of this type of listener.

1900 Frank S. Megargee 1948

FRANK S. MEGARGEE, 47, president of Scranton Broadcasters Inc., which operates WGBI Scranton, Pa., died of pneumonia March 30 in a Scranton hospital.

A radio enthusiast since childhood, when his hobby was constructing his own receiving sets, Mr. Megargee built that hobby into a successful business. Shortly after completing his college education (he was a graduate of Columbia U.), he opened a radio store in Scranton. In the rear of the store he set up and operated a 10-w station, which soon gave birth to WGBI.

Scranton Broadcasters Inc. was organized in 1925 and on Jan. 22 of that year WGBI began operation. Station operates on 910 kc with 1 kw daytime and 500 w at night.

First associates of Mr. Megargee in his radio venture were Al K. Harvey, engineer, and Carl Grossinger. Later Mr. Megargee assumed sole ownership.

Mr. Megargee had made plans to expand WGBI's facilities and had applied for both television and FM permits.

He was also interested in other phases of radio. Before the outbreak of World War II his experiments with shortwave and intercommunication were carried on between trucks using the highways.

Surviving him are his wife, Madge Monaghan Megargee, four daughters and a son.

NAB's Big Wish

(Continued from page 22)

ert A. Fox, of the G. A. Richards stations (WGAR Cleveland, WJR Detroit, KMPC Hollywood). Engineers familiar with the work of Mr. Fox, who is still ironing out kinks in the process, believe it will have widespread use, since interference can be measured at any given point without disrupting broadcast service. Actual ratio of strength of various signals is shown

Stereophonic sound demonstration will be given at the Friday luncheon by Dr. Haldon A. Leedy, acting director, Armour Research Foundation, Chicago. Winding up the Friday afternoon meeting will be an FCC-industry roundtable in which both groups will frankly discuss common problems. A number of FCC engineering specialists are to take part, perhaps including Commissioner George Sterling.

Guests of Weiss

Engineers and managers will be guests Friday evening of Lewis Allen Weiss, Don Lee vice president and general manager, and of Western Electric Co. at the new Mutual-Don Lee studios. Saturday they will take a tour of Mt. Wilson television stations and the observatory.

The NAB Engineering Executive Committee will hold the only executive committee meeting scheduled thus far for convention week. These meetings have been curtailed under the new management conference formula. The engineering group will meet at 8 a.m. Tuesday in the Biltmore, adjourning before sessions resume at 10 a.m.

Though reservation forms for the Management and Engineering Conferences were mailed only a fortnight ago, replies have been coming in rapidly, the NAB reports. Late last week nearly 300 confirmed reservations had been received for the management meeting, with almost 100 received for the engineering session.

Four out of five request rooms or suites in the Biltmore Hotel, scene of the week's proceedings. Available rooms will be allotted in order of receipt of reservations.

To stimulate attendance NAB announced Friday it would give individual "Certificates of Attendance" suitable for framing to every delegate attending, and a trophy for the district having the highest percentage of attendance. The trophy will be a permanent one, to be held each year by the winning district.

Analysis of reservations Friday showed that exactly half come from east of the Mississippi, with

stations has doubled, FM has developed from a few stations to a thousand, and television has grown from a handful of stations to almost 100. His resignation was understood to be dictated by the feeling that he could no longer afford the financial sacrifice involved in government service, in which he has engaged for 15 years.

Now 39, he is a native of Chelan. Wash., and received his B.A. degree magna cum laude from Whitman College at Walla Walla, where he graduated first in his class. Studying under a Carnegie Fellowship, he received the Certificate of the Faculte de Droit, U. of Paris. in 1932, and the following year his Ph.D. degree in international law at American U., Washington, D. C., where earlier he had received his M.A. degree. He received his LLB degree from Georgetown Law School, Washington, in 1938.

Mr. Plotkin is a native of Athol, Mass., and a Harvard Law School graduate, magna cum laude, 1937. From 1937 to 1940 he was with the Chicago firm of Topliff & Horween. He became chief of the litigation and administration division in October 1942, under the Chairman James Lawrence Fly regime, and has figured prominently in all broadcast policy and litigation matters since he became an assistant general counsel.

There was speculation as to Mr. Plotkin's successor-assuming that he is named to the post vacated by Mr. Wilkinson. Most likely appointee is Max Goldman, assistant chief of the division. Others mentioned include William Bauer, television and patent law expert; Edward F. Kenehan, chief of the AM section, Broadcast Division; Richard A. Solomon, of the Litigation section, and Bernard Koteen, chief of the Review Section.

How come WFBR is FIRST in Baltimore?

No radio station was ever accused of modesty. If you have super-power, you blow your top about it. If you sell your time for lunch money, you get up on your hind legs and yell.

But what does a radio station have to sell? An advertiser can't put a

period: 12-6 P.M.

zillion wa'ts in the bank—and no matter if he buys time for 2c a year, it's expensive if it doesn't deliver the goods.

Radio stations sell *audience*—and *that*'s how come WFBR is first in Baltimore!

For October-February, Hooper shows WFBR FIRST in morning period: 8-12 A.M. For October-February, Hooper shows WFBR FIRST in afternoon

During the months of October through February, WFBR led all other stations in Baltimore, according to Hooper Total Rated Time Periods from the Hooper Station Listening Index for the City of Baltimore.*

FACT:

WFBR seats 100,000 studio visitors yearly! WFBR audience broke all Maryland records for March of Dimes contributions! WFBR audience wrote in for 75,000 tickets because of one mention that a few were available! Yes, in America's 6th largest Market, WFBR is your first choice!

*Hooper Station Listening Index—October, 1947, through February, 1948.

JOHN McGIVER, radio and screen writer, has joined WGN-TV Chicago, as scriptwriter. He will be in charge of that phase of station's operation.

ARTHUR NELSON, nationally known puppeter, has been appointed director of marionette shows for WGN-TV Chi-cago. Mr. Nelson and his wife formerly produced marionette shows for BBC television.

KEITH MCKENNEY has been appointed program supervisor for WWJ-TV De-troit.

THIS ISN'T a mischievous boy playing in his mother's kitchen. It's the cook new "women's editor" at WKMO Kokomo, Ind., Billy Clare. Clyde Caswell, WKMO program manager, was looking for someone to direct women's programs when Mr. Clare, a mere 52 inches tall and student at Indiana U., came to the studio and asked for a job. After some consideration Mr. Caswell hired the 26year-old student as a culinary arts announcer and billed him as the "Littlest Chef in the World." The women's editor problem is solved and in Mr. Caswell's words, "the boy is doing a bangup job."

JIM HAWTHORNE started for 13 weeks Jim HAWTHORNE started for 13 weeks two hour weekly recorded music pro-gram "Hawthorne Thing" on two Los Angeles stations, KFVD and KIEV, March 28 for Honest John, Los Angeles Car dealsr. Starting April 12 Mr. Haw-thorne will do same show half-hour weekly for AFRS for 26 weeks.

Talent Wanted

Talent Wanted WBEN-TV Buffalo, which is scheduled to begin regular tele-casting in late spring, has an-nounced a search for talent for its programs and has invited all professional performers and qualified amateurs to audition. Station, which is now telecast-ing test patterns. has extended general invitation to all talent from dancers to jugglers and fashion models to puppeteers. Persons capable of giving enter-tion in fields such as fiying, cooking and photography, also are invited to audition.

BILL JOHNSTONE will play lead in CBS "The Whistler" for Household Fi-nance Corp., Chicago, program's Eastern sponsor. BILL FORMAN plays part for Signal Oil, West Coast sponsor.

EDWARD ARNOLD, star of ABC "Mr. President" program, is on four-state tour of Utah, Idaho, Oregon and Wash-ington as member of President Tru-man's "Overseas Aid Committee" con-sulting with governors and other state and civic officials.

WALTER ARNOLD has replaced OWEN JAMES as announcer of ABC "Mr. President" program.

CY HOWARD, producer of CBS "My Friend Irma," is in New York where he will lecture on radio comedy writing at Barnard College, Columbia U.

KAY CAMPBELL has joined cast of NBC "Katie's Daughter" serial as Mrs. Lola Conway.

D (Archie) GARDNER, star of NBC 'Duffy's Tavern," is the father of a boy born March 25 in Santa Monica, ED boy i Calif.

EVERETT SLOANE, stage and radio ac-tor, has joined cast of MBS "Super-man" series.

LEORA THATCHER has joined cast of NBC serial "Lora Lawton" as Marge Mulvaney.

HUGH TOMAS has been added to cast of NBC "Woman In White."

BILL LEYDON, former disc m.c. of KMPC Hollywood, has started programs on two Los Angeles stations—"Barrel of Dough." daily giveaway show on KFWB, and weekly recorded music pro-gram "Specialties in Music" on KHJ.

Federal's 342-A's END TUBE TROUBLES at

4

CWKI

50,000 WATTS + CBS

SHREVEPORT, LOUISIANA

IDEN D. EWING President

FEBRUARY 14, 1948

MR. C. J. HARRIGON, SALES MANAGER VACUUM TUBE DIVISION FEDERAL TELEPHONE AND RADIO CORPORATION! CLIFTON, NEW JERSEY

DEAR MR. HARRISON:

You will coustless be pleased to know that, since we replaced the opiver-stage tubes in our 50km transmitter with two of your FTR 342-A tubes, we ve had no nore tube trouble.

THIS IS A REAL PELIEF AS PPEQUENT INTERNAL ARCING HAD BEEN CAUSing us pleaty of "Meddackes". Nor Chatfield has probably told you about this situation, but we though you'd like to Hear, first-hard, that your tubes are doing such an Ereclert job for us. From Nor of Ference is the tube for NS.

> VERY TRULY YOURS, RADIO STATION KWKH

WElindo W. E. ANTONY CHIEF ENGINEER

Federal's FTR 342-A water-cooled power tube.

TESTIMONIAL LETTERS like this prove that the extra quality and performance built into every Federal tube really pays off on the job. Long service life—the ability to stand up under severe operating conditions—maintenance of original characteristics for the life of the tube. These are the result of Federal's 37 years of research and experience in designing and manufacturing better broadcast tubes. The result of careful attention to every detail, and vigorous testing all along the line.

FTR An IT&T Associate

Write Federal today for information on broadcast tubes for your requirements. Dept. K909.

TV Morgue

VIDEO is serving the cause of the Los Angeles police department. By special arrangement with Klaus Landsberg, general manager of KTLA Hollywood, city's police will have still pictures of missing and wanted persons aired nightly at 7 p.m. in five-minute public service feature.

FM LOOKING UP

It Will Replace AM, **Damm Declares**

FM EVENTUALLY will replace AM, Walter Damm, vice president and general manager of radio, The Journal Co., Milwaukee, said in Chicago last Wednesday. Mr. Damm addressed the weekly luncheon of the Chicago Radio Management Club.

"Once manufacturers empty their warehouses of present sets -once FM sets become cheaper, nothing can stop it. FM will replace AM as the American system of broadcasting. Whether it will be five or ten years-I don't know." Mr. Damm, who is in charge of WTMJ WTMJ-FM and WTMJ-

TV, said The Journal Co. had increased its audience for network shows since it began duplication on WTMJ-FM, citing the Jack Benny program in particular. The station is duplicating 100%, he said, at a cost of \$35,000 a year.

WTMJ-FM's signal, he reported, has been extending as far as 105 miles beyond Milwaukee, affording better reception than that offered by its AM outlet. At the same time, in answer to a question whether FM would adequately cover the rural areas, he said he believed it would do a fine coverage job, despite eventual limitations which would result from the launching of an increasing number of FM stations.

Gives Views on TV

Mr. Damm also briefly reviewed WTMJ-TV's experiences, including comments on cost of investment, installations, personnel and types of programming. He told the group WTMJ-TV has had operating costs of \$44,000 for the months of January and February. He said the station was realizing about 50% of what he considered "the breakeven point" in revenue.

Foreseeing video as the ultimate standard, he said: "People just won't be satisfied with sound alone . . . it's like going into a theatre and hearing only the dialogue. A televiewer is a 90% audience loss for aural broadcasting during the evening hours."

New WBKB Equipment **Designed by Station Staff**

INSTALLATION of new equipment at WBKB Chicago, the Balaban & Katz video outlet, will make it possible for the station to televise shows "which are not now technically possible in any other station in the country," Capt. Bill Eddy, director, announced Monday. The new facilities, designed mostly by WBKB engineers to specifications of producers and directors, will be completed this year.

Present cameras will be replaced with new-type RCA studio image orthicons. A new control system will provide new methods of dissolving and fading. The station will be equipped to handle any standard type of film. The master control room soon will be able to integrate into a single program live action from two studios, scenes from film or slides on any of six projectors, events transmitted by remote crews, and material from WBKB's South Bend relay network.

C HARLES H. GIRT, former chief en-gineer of WHBC Canton, Ohio, has been appointed chief engineer of WCMW Canton. Mr. Girt joined WHBC in 1941. During war he served with Signal Corps and Office of War Infor-mation in radio capacity, including posts of chief engineer at Radio Ar-donnes, Belgium, and Radio Frankfurt, Germany.

HORACE FOWLER, former engineer at WPEN and KYW Phialdelphia, has joined engineering department at WCAU Philadelphia. He will handle mainte-nance and construction work on WCAU-TV. ALBERT BIZIK, recently with RCA Victor television department, and WILLIAM G. WASHEIM also have joined technical department of WCAU. Both are attached to WCAU-TV transmitter group. group

ROBERT SCHREINER, formerly with Federal Telephone and Radio Co. and Sperry Gyroscope Co., has joined engi-neering staff of WHLI and WHNY(FM) Hempstead, N. Y.

Hempstead, N. Y. RCA TUBE Dept. has announced new lightning arrestor, designed to fit quickly and easily into television and FM receiver installations. Unit is mar-keted at suggested list price of \$1.25. Tube Dept. also has developed ultra-sensitive electronic microammeter, ca-pable of measuring DC currents down to one-billionth of an ampere. New instrument is portable, battery-op-erated, vacuum-tube meter, with list price of \$100.

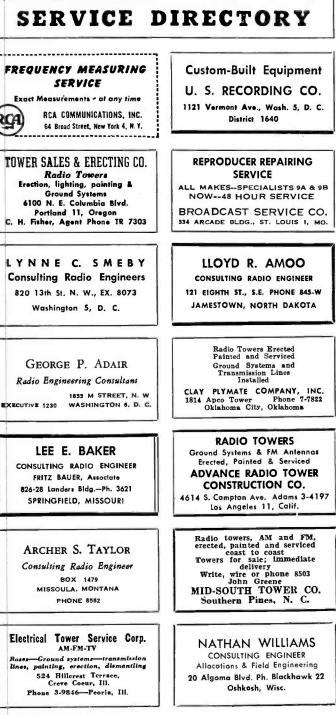

price of \$100. HERBERT W. HOLTSHOUSER, formerly of WBKB Chicago, has joined televi-sion engineering staff of W6XIS, experi-mental television station of KDYL tal television station Lake City. Salt

Salt Lake City. JOHN WELCH, technician at WTIC Hartford, is the father of a boy, Tim-othy, born March 24. GENERAL ELECTRIC Co., Meter and Instrument Div., Schenectady, N. Y., has announced new line of 3½-Inch panel instruments of internal-pivot de-sign, suitable for use in radio, power supplies. transmitters, amplifiers, etc. New instruments, known as Type DO-71, have been especially designed for better readability, according to GE.

CHARLES BURGE of sales staff of KXOK St. Louis, has been elected post surgeon of Downtown Post, No. 6516, of Veterans of Foreign Wars.

HENRY M. SWARTWOOD has been appointed director of advertising of Kaiser-Frazer Corp., Willow Run, Mich. Formerly consultant on advertising and public relations with Kaiser Co., Mr.

Swartwood will assume joint responsibility with HAL BABBITT, director of public relations, and NORRIS NASH, sales promotion manager, for combined operations of company's advertising, public relations and sales promotion departments. Prior to joining Kaiser organization, Mr. Swartwood was in Pacific Coast radio. He had been program manager of KOIN Portland and on board of governors of Oregon State Broadcasters' Assn.

ROBERT M. PRENTICE has been named assistant advertising manager of Calumet-La France Div. of Gen-Mr. Swartwood

eral Foods Corp., effective April 1. Mr. Prentice joined firm in 1938, and served as advertising manager of export division before his new appointment. DAVID W. THURSTON, assistant export advertising manager, succeeds Mr. Prentice in that capacity.

THOMAS M. CURTIN has joined advertising staff of Westinghouse Electric Co., New York, after having served as advertising director of the Cargocaire Enginering Corp., New York.

Signal Oil Co. Sponsors TV-CREATED PROBLEMS Pacific League Baseball

SIGNAL OIL Co., Los Angeles, in co-operation with three other sponsors, March 30 started broadcasts over four stations of Pacific Coast League baseball games to run seven weekly for the next six months. League games broadcast are Oakland Oaks, Hollywood Stars, Los Angeles Angels and Seattle Raniers.

Co-sponsors include Pabst Sales Co., Los Angeles (Pabst Blue Ribbon Beer), on KLAC Hollywood; Brown & Williamson Tobacco Co., Los Angeles (Wing cigarettes), on KMPC Hollywood; Remar Baking Co., Oakland, Calif. (bread), on KLX Oakland; Hanson Baking Co., Seattle (bread), on KING that city.

Fred Haney announces on KLAC; Bob Kelley, KMPC; Bud Foster, KLX, and Leo Lassen, KING. Barton A. Stebbins Adv., Los Angeles, handles Signal Oil account.

REBROADCASTS of daily races of Western Harness Racing Assn. which started April 2 to continue to May 15 at Santa Anita Race Track, are being heard five weekly for half-hour on KLAC Hollywood. Actual running is recorded daily on the spot for rebroadcast in evening.

VIEWED BY MacDONALD

BROADCASTERS, communication companies and set manufacturers have sufficient faith in the future of America to solve the economic and business

Donald, NBC administrative vice president, declared last week. Addressing the 25th anniversary meeting of the Hartford, Conn. Mr. MacDonald

problems posed

by television, John H. Mac-

chapter, National Assn. of Cost Accountants in Hartford on March 30, Mr. MacDonald said the problems created by television necessarily follow any progressive step.

"Obviously, a new industry such as television cannot become profitable immediately; in fact, some years will be required before profits of real consequence will be realized," he said.

CHARLES C. SQUIRES, of NBC research department, won the Advertising Club of New York's Gold Medal Award April 1 for his essay on "What I got out of the advertising and selling course of the Advertising Club of New York."

Light of Happiness

ALTHOUGH STILL sightless, Paul Clark has realized a long-cherished ambition to present piano concerts for

a radio audience. Quarterhour concerts by the 42-vear-old pianist are aired over WHBC Canton, Ohio, Sunday after-

Mr. Clark

noons under sponsorship of the Canton Refining Co. Mr. Clark's pro-gram is introduced by his original theme song. During the program he presents classical, popular and original compositions. The blind musician moved to Canton four years ago searching for employment. Failing to secure industrial employment, he has supported himself through piano playing engagements before service clubs and in places of entertainment. Radio is his newest venture

Hal Styles may solve your problem with a young, ambitious, capable man, vet-eran or non-veteran, who has been thoroughly grounded for eight or more months by radio professionals in an-nouncing, newscasting, control opera-tion and continuity writing. Write or wire Hal Styles, Hal Styles' School of Radio, 8800 Wilshire Blvd., Beverly Hills, Calif. Calif.

For qualified technicians, write or phone: Employment Department, Mel-ville Radio Institute, 15 West 46th St., N.Y.C. Longacre 4-0340.

1. In AM, the Western Electric 1126C level governing limiter prevents splash or short interval adjacent channel interference caused by instantaneous overmodulation-and brings increased coverage more than equal to doubling transmitter power.

2. In FM, it eliminates overswing that might cause over-riding of guard band and distortion in receivers.

3. In any transmission system,

it smoothly but positively prevents overload on power peaks and consequent distortion.

> For full details on the 1126C, the most widely used level governing amplifier in broadcasting, call your local Graybar Broadcast Representative, or write Graybar Electric Company, 420 Lexington Avenue, New York 17, N.Y.

irect to microwave relay equipnent at the station. WU uses a .5-mc band for video transmission. 'hileo Corp., cooperating with Vestern Union, is rushing the vieo equipment to completion. The Jew York-Philadelphia channels vill be the first link in WU's netvork video relay system.

The AT&T rates apply only to ntercity video channels. Sound hannels and the video links (local hannels) between intercity chaniels and the studio and transaitter are extra, under rates aleady set up.

It has been expected, however, hat AT&T would revise its local hannel charges. Support for this elief was seen when New Jersey Bell Telephone Co. filed its own oroposed local-channel charges. Whether they would mean a raisng or lowering of an individual tation's expenses, authorities said, vould depend upon such variables is the length of the local or stulio-transmitter channels in each tase.

AT&T's proposed intercity tarffs provide five different rate plans: (1) monthly service where illocation of usage, or time sharng, is not required; (2) monthly service where time sharing is necessary; (3) occasional service; (4) nonthly service on intercity links not more than 25 miles long, and (5) occasional service on these shorter links. The latter plans, involving intercity links less than 25 miles long, are almost identical with New Jersey Bell's proposed local-channel charges, and more significance was attached to that resemblance than to the likelihood that there will be any great demand, at least in the immediate future, for intercity network service to cities less than 25 miles distant from other television communities.

In each of the AT&T plans, the proposed rates cover the use of (1) interexchange channel, and (2) station connections. A station

TV Bargain Counter

AN INNOVATION in television programming by WNBW Washington should go a long way toward countering criticism about the high cost of program sponsorship. WNBW has developed a participation variety show, 7:05-7:35 p.m. Tuesday through Saturday on which six different sponsors take part each night. Designed for limited budget advertisers, the show offers each sponsor a one minute television message and demonstration of his product at a cost of \$30 per sponsor. Featured in the show is the promising RCA Victor singing star, Johnny Bradford.

connection is required where a station transmits to or receives from an interexchange channel, and separate connections are required for transmitting and receiving. Thus two station connections would be needed by any station which originates as well as receives network programs.

The rates under the various plans are as follows (fractions of hours are counted as full hours):

MONTHLY SERVICE WHERE CHANNEL SHARING IS NOT REQUIRED: For use of the interexchange channels for eight consecutive hours (or fraction) each day, the rate is \$35 per airline mile per month. Each additional consecutive hour per day costs \$2 per mile per month. For occasional additional hours the cost is 25c per airline mile per hour if the hours are consecutive with the regular daily service period; if the additional hours are not consecutive with the regular service period, the charge is 50c per mile per hour.

Station connection charges are \$500 per connection per month, which covers the regular daily period of eight consecutive hours, plus \$35 per connection per month for each additional consecutive hour per day. For occasional additional hours the charge is \$5 per connection per hour if the hours are consecutive with the regular service period; otherwise, \$10 per hour.

MONTHLY SERVICE WHERE CHANNEL SHARING IS RE-QUIRED: For use of the interexchange channel for eight hours (or fraction) per day, the rate is \$25 per airline mile per month. Each additional consecutive hour of use daily is charged at the rate of \$4 per mile per month. For occasional additional hours the rates are the same as in the monthly service where sharing of facilities is not necessary.

Station connection rates are \$350 a month for four hours' use per day, whether the hours are consecutive or non-consecutive. Each additional hour's use each day costs \$60 per month. Occasional àdditional hours are charged at the rate of \$5 per connection per hour if the additional hours are consecutive with the regular daily period; otherwise, \$10 per connection per hour.

OCCASIONAL SERVICE: The rate for use of the interexchange channel is \$1 per airline mile for the first hour of use and 25c per mile for each consecutive additional quarter-hour. The cost for station connections is \$200 per connection per month, plus \$10 per hour of use. The maximum charge for occasional service, however, will not exceed the charge for service at the monthly rates.

MONTHLY SERVICE ON CHANNELS UNDER 25 MILES: The monthly charge for fulltime use, 24 hours a day, is \$175. plus monthly mileage charges at the rate of \$80 per airline mile for the first eight miles and \$35 per mile for the next 17 miles.

OCCASIONAL SERVICE ON CHANNELS UNDER 25 MILES: The monthly charge is \$175, plus mileage charges as follows: first day, 15% of the monthly charge; each additional non-consecutive day, same; each additional consecutive day, 10%.

Almost identical with AT&T's rates for intercity channels less than 25 miles in length, New Jersey Bell's proposed local-channel charges would be \$175 a month (covering 24 hours of service per day), plus monthly mileage charges of \$20 per one-quarter airline mile for the first 8 miles and \$35 for each additional airline mile.

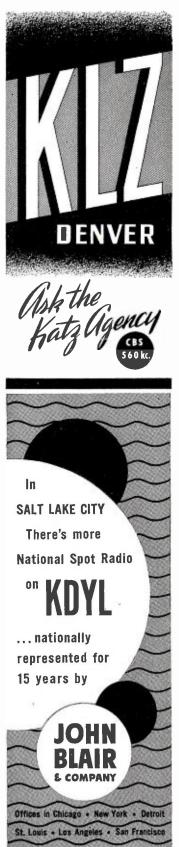

On an occasional-service basis there would be the \$175 monthly charge, plus daily mileage charges of 15% of the monthly service charge for the first day, the same for each additional non-consecutive day, and 10% of the monthly service charge for each additional consecutive day. Studio-transmitter channels would be provided at the same monthly rate as local channels.

The present local-channel charges of AT&T include \$50 per channel for installation; \$20 a month per one-fourth circuit mile for each channel; \$250 for installation of transmitting terminal amplifier, plus a monthly charge of \$60; \$250 for installation of receiving amplifier, and a monthly charge of \$90. Studio-transmitter channels are provided at the localchannel rates.

KDON Expansion

EXPANSION of KDON Monterey, Calif., is under way. A new mountain top transmitter house for KDON-FM is nearing completion atop Mt. Baldy, near Salinas. KDON has applied to FCC for authority to increase its AM power to 10 kw.

SURRENDER OF 3 CP'S IS EXPLAINED BY FCC

REASONS behind surrender of construction permits for one FM outlet and two AM stations have been reported by FCC. The call letters and station authorizations deleted in the past fortnight by the Commission are:

the Commission are: KXSA San Angelo. Tex. (600 kc, 1 kw night, 5 kw day, directional fulltime), Glen H. McClain, E. H. Rowley, James A. Clements. L. M. Rice, Frank Monroe Dowd and Joe H. Torbett, partnership doing business as San Angelo Broad-casters. Grantee found that with poor terrain, proximity of air fields and the directional array necessary it was im-possible to locate a site satisfactory to the Civil Aeronautics Administration. It further was found that construction costs and new competitive stations have increased considerably since grant. WROE Mobile, Ala. (1340 kc, 250 w, fulltime), Gillette Burton and Jessi Burton Jr., partnership doing business as Burton Broadcasting Co. Multiple grants since initial hearing have been found to make continuance of station "economically unsound if not foolish," grantee told FCC. KSBL (FM) San Antonio, Tex. (Class B), Southern Broadcasting Corp. Last November firm was granted completion that grantee either commence interim operation by that time or forfeit per-mit. Conditional grant was first issued in November 1946.

NBC's "Dr. I. Q. Jr." quiz program, cur-rently heard 4-4:30 p.m. (CST) Satur-days, will shift to the 4:30-5 p.m. (CST) period effective April 17. Show is sponsored by Mars Inc. through Grant Adv., Chicago.

ALERT news staffs of radio stations in the midwest area struck by a tornado March 19, arrived on the disaster scene with emergency crews to perform public services and furnish news coverage.

Comprehensive coverage was given by KMOX St. Louis through its co-operative news reporting system organized among community weekly newspapers in that area. The entire news staff of KMOX began phoning acquaintanceseditors of newspapers in the towns hardest hit-when the first news of the tornado was reported. They received regular reports from towns where telephones were still up. The cooperative reporting system has been developed over the past two years by Rex Davis, KMOX news director.

Victims of the tornado-struck area northeast of St. Louis were able to advise relatives of their safety via radio-telephone equipment operated by KXOK St. Louis. Shortly after annoucement of the tornado was made, Bruce Barrington, KXOK news editor, dashed to the scene with the KXOK radiotelephone equipped station wagon. Upon his arrival he granted use of the radio-telephone to victims anxious to contact their relatives. His radio-telephone reports from the scene were broadcast at various times during the day by KXOK. Latest reports of deaths and damage were fed to the ABC Headline Edition news program.

Furnishing on-the-spot coverage for WLBH Mattoon, Ill., were Bob LaMere, program and news director, and Rolland Looper, commercial manager. In addition, they gathered casualty lists at the scene and at the Litchfield, Ill., hospital and made these available to authorities, news services, the American Red Cross and other emergency units working at the scene.

Havoc wrought in three Indiana counties was described for listeners by WIBC Indianapolis. Making arrangements with the U.S. Navy

Stations Provide News **Render Services**

for loan of power equipment, Gene Kelly, newscaster and Jim Shelton chief announcer, joined the emergency caravan bound for Coatesville They recorded eye-witness account: and then proceeded to Hadley and Danville, Indiana, also hit by the tornado, before returning to the studios to prepare a summary. Facilities of the Indiana State Police on the scene were used to relay casualty lists, messages and warnings to the WIBC studios.

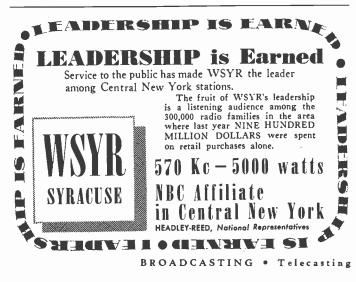

WTAR's mobile unit.

WTAR Norfolk now has a new mobile unit which was put into operation April 1, according to Henry Cowles Whitehead, program manager. Its first big job was the pick-up of the "Canadian American Day" festival at the College of William and Mary, with President Truman, Canadian Prime Minister MacKenzie King, and Virginia's Gov. William Tuck as guests.

The mobile unit contains two recording tables, a 20-w relay broadcast transmitter and receiver, a remote amplifier, and wire recorder among other equipment. All units are fed into a central jack panel so that any part of the equipment may be used in connection with any other part of the equipment.

SECOND annual examination for adver-tising, given by Southern California American Assn. of Adv. Agencies, will be given in Los Angeles April 17 and April 24.

TELEVISION now has its mystery man contest. SweetHeart Soap. Bab-O and Mueller's Macaroni have jointly launched a six-week jigsaw puzzle feature on Missus Goes A-Shopping, WCBS New York audience participation program.

A photograph of a prominent news personality, cut like a jigsaw puzzle, will be assembled gradually before the video cameras, with several pieces added each week. A jingle riddle gives additional clues. Contestants must identify "Mr. Who," write 25 words or less on "What changes television has brought to your home," and write the statement on the back of a wrapper of the sponsors' product.

Duane Jones Co., New York, placed the account.

CLIMB TV BANDWAGON NOW, SPONSORS URGED

SPONSORS should be held to get in television now as insurance to obtain important time frachises for the expansion to come, according to Lee Cooley, television director of McCann-Erickson Inc., who spoke March 25 at a meeting of the Television Assn. of Philadelphia.

He emphasized that his agency did not urge sponsors to enter the medium for the immediate returns to be won, although he did cite instances of big selling jobs television has accomplished.

McCann-Erickson points out to its clients that there will probably be fewer TV hours than AM hours and therefore franchises for good time may become scarce, Mr. Cooley said.

Kenneth Stowman, television director of WFIL Philadelphia and president of the association, announced that the April meeting will be an inspection tour of one of the Philadelphia television stations. Agency executives present were invited.

Roland V. Tooke, vice president of the association and assistant general manager of WPTZ Philadelphia was in charge of program for the March 25 meeting.

WDXY (FM) to Open

WDXY, the WORD Spartanburg, S. C. FM affiliate, is scheduled to begin operations April 14, Walter J. Brown, president of Spartan Radiocasting Co., announced last week. The station has signed an exclusive contract with the Spartanburg baseball club to broadcast all games played by the Peaches this season. Becker's Bakery and Coca Cola Bottling Co. are to be the sponsors, with a contract price in excess of \$12,000.

U. S. Dept. of Agriculture will incor-porate budget menus mentioned by Jeanne Gray on her "Woman's Voice" program on KMPC Hollywood in de-partment's current official food-saving program.

PENING of fishing season, May 30, at Reno, Nev., will be observed by KOH Reno through contest titled 'Cast for cash and hook a prize.'' Sta-tion is inviting all anglers to bring their catches from Truckee River to the studios before 8 p.m. on opening day for weighing. Approximately \$100 in Savings Bonds and cash prizes will be awarded by KOH for the largest trout will be awarded \$50 bond. To promote c o nt est, station is using quarter-card posters, especially printed fishermen's rules, spot announcements and newspaper ads. and newspaper ads.

Award Banquet

Award Banquet BANQUET in honor of 25 area farmers who won Achievement Award Certifi-cates given by WOWO Fort Wayne. Ind. was held by that station March 31. Award winners, together with some 50 county agents, home demonstration agents, soli conservationists, foresters, state and local public officials and their wives attended the banquet at which H. H. Bennett chief, U. S. Soli Con-servation Service, U. S. Dept. of Agri-culture, was featured speaker. Award aired over WOWO.

WPEN Mailing Piece

WPEN Mailing Piece CONGRATULATORY letter to WPEN Philadelphia from Georee L. Keane, of RCA-Victor "Pop" Record Sales. has been revoluted and issued as pro-motion by that station. Letter praises station's part in promoting Victor record. "There I Go." Attached to reprinted letter. which was distributed to the trade. is copy of trade press ad run by Broadcast Music Inc. re-garding the campaign. and card headed. "Do You Know-how to stop the Wheel of Fortune at the pay-off spot? WPEN but its promotion magic puts the bee on buyers"

Dealer Contest

Dealer Contest TO ENCOURAGE druggists and grocers to read "Sales-Aids," merchandising letter prepared by KVOO Tulsa and mailed to 1,585 druggists and grocers in the area, station is conducting let-ter contest. Free commercial advertis-ing is offered as award. Druggists and grocers are asked to write on "I want to read the following information in "Sales-Aids." Best three letters are awarded 100-word commercials. "Sales-Aids" is attractively prepared on legal size paper. Heading is decorated with chocolate-color banner and copy is mimeographed in various colors.

Souvenir Menus

Souvenir Menus DEALER BANQUET held by Massey Harris Co. in Regina, Sask. last month was highlighted by attractive souvenir menus prepared for the occasion by CHAB Moose Jaw, Sask. Station Printed the special menus featuring the Mas-sey Harris "Sagebrush Serenaders" heard on CHAB Fleture of the group appeared on front of menu and full-plage view of CHAB studios was dis-played on back cover.

Air Promotion

Air Fromoton ""TAKING to the air," WJZ New York, April 1 began using a Douglas Leigh dirigible for audience promotion ad-vertising of its programs. Through bilmp's electrically lighted giant ticker tape. WJZ programs are "aired" over New York's five boroughs and adjacent parts of New York, New Jersey and Con-necticut. Flight hours have been set necticut. Flight hours have been set from 4 p.m. until midnight, weather from 4 p.r permitting.

'Radio at Random'

CARMO At RAIMONT LOCALLY-PRODUCED radio column, titled "Radio at Random," is prepared and run in local newspaper three days a week by KOOS Coos Bay, Ore. Space is paid for at advertising rates but column is written in regular news-paper style. Jack Irvine. KOOS news editor, authors the column which is devoted to activities of the station and programs, both local and network.

First series of columns also is presen ing sketches of KOOS staff memb as introduction to the public.

WMAZ News

NEWS DEPARTMENT of WMAZ Mac Ga., is featured in latest mailing pl-prepared by that station. Two-fi sheet presents pictures of news st and views of news room, augmenti story titled "Georgia Radio Stati Puts Local News First." Article y written by Floyd K. Baskette, asso ate professor of journalism at Emu U. Accompanying news sheet is sm folder containing letters from lister praising public service activities . WMAZ. NEWS DEPARTMENT of WMAZ Mac

NBC Booklet

NBC Booklet "BEHIND Your Radio Dial," a w and picture tour of NBC, radio & history of radio in general, was d tributed last week by the network schools and colleges, visitors to N. studios, and women's clubs. The ' page booklet is up-to-date edition "What Goes On Behind Your Rad Dial," which NBC published in 19 New booklet deals with early progra-and methods, new techniques and te vision, FM and facsimile, sound effec engineers, programs, radio's part in w and peace and United Nations a Latin American coverage.

WMAQ Ads

wMAQ Ads SERIES of 26 advertisements in t Chicago Herald-American are bei used by WMAQ Chicago to promote p. grams sponsored by local and netwo clients. Twice-weekly ads, comprisi 140-150 lines, are plugging morning a evening blocks of commercial program on WMAQ.

Ad Awards

DEADLINE for fourth annual Err Proetz Award, given by Women's . Club of St. Louis for most outstan ing creative advertising done by woman during past year, is April Award is open to any advertisi woman in U. S., Canada, Mexico a Cuba. Entry blanks can be obtain from local advertising clubs.

Promotion Personnel

CHARLEY HOLMES, program direct of WDVA Danville, Va., has been a pointed to newly-created position promotion director. He will be respo. sible for publicity, sales promotion, a vertising and merchandising. Coordin tion of sales and program departmen will come under new post also.

JOHN F. HARDESTY, sales promotic director of WOL Washington, D. C., h: been appointed to additional positic of director of publicity for that static:

ROGER RICE of KING Seattle, hi been appointed chairman of awar committee of first annual advertisin awards to be given by Advertisin and Sales Club of Seattle. BILL HUE BACH of KOM O Seattle, has been named chairman of radio division.

HARRY RENFRO, director of publ. relations for KXOK St. Louis, has bee elected senior vice-commander of Downitown Post, 6516, of Veterans c Foreign Wars.

AFRS headquarters in Hollywood wi move to a new site by June, Brig. Ger C. T. Laham, Army's director of Troo Information and Education disclosed is Hollywood recently. Lease is being ar ranged for five years, he said.

Transit

(Continued from page 21)

reen Line and Transit Radio Inc., un. 22 to install FM receivers in 10 of its vehicles. The line serves e Northern Kentucky-Cincinnati etropolitan area.

A new installation wrinkle has en disclosed by Transit Radio .c., which introduces visions of ide expansion.

New rolling stock will be uipped with FM receivers when reaches Cincinnati to be placed

service. Under an agreement tween bus and streetcar manucturers and the transit firms, inallation will be accomplished at e manufacturing plants as transrtation replacements are ordered. Cincinnati strapholders may now nfidently look forward to the .y when they will have radio enrtainment regardless of what iblic transportation vehicle they ay ride.

Contracts signed by the two ansportation firms contained a it fee per vehicle per month and minimum guarantee. Mr. Crisdeclined, in the interest of ansportation officials, to disclose e nature of the minimum guarane, but it was understood that it being kept confidential to avoid e possibility of passengers drawg erroneous impressions or being sinformed about the service.

Morris Edwards, newly-elected esident of Cincinnati Street Railays, who signed one of the conacts for FM broadcast service, served that "radio reception in iblic transportation vehicles was i interesting, modern and proressive development in transportion, in which my company was ippy to participate."

Reactions Vary

Others shared Mr. Edwards' ews, in varying degrees, during 1 actual test of FM equipment Cincinnati vehicles in November 147. Three motor busses and one ectric trolley bus were equipped 1d test runs made. These tests 2: said to have proven that with 1e use of six or eight speakers 1d volume set at low level, music as pleasing without being noisy. Omplete absence of any fading or ectrical interferences throughout 1e metropolitan area was noted, 1s said.

The FM service has been found , be particularly suited to transit perations because of static-free nd noise-free reception.

It was revealed in returns from formal survey conducted among .000 passengers that 3,846 of them ujoyed music and news while ridg, 115 did not. The balance of stes was attributed to erroneously tarket ballots. Ninety-six percent aid they would like to have the ervice regularly.

In many of the other tested cities, ransit officials are seriously conidering action to keep their firms tunned to approaching FM times. n some, only paperwork remains

. .

to effect the conversion to musically-soothed rides.

It is reliably reported that the nation's capital may be the next city providing transportation with a cushion of radio pleasure.

Plans are proceeding also in Baltimore for introduction of Transit Radio initially on 500 busses. E. J. Jett, vice president and director of radio of the Sunpapers and former member of the FCC, is enthusiastic about prospects following tests completed a fortnight ago. The initial installations in Baltimore may be completed by fall, with service to be supplied by WMAR-FM, which then will be operating with its full 20 kw.

Ben Strouse, general manager of WWDC and WWDC-FM, told BROADCASTING April 1 that plans which would allow WWDC-FM to equip some 500 busses and street cars with Transit Radio receivers and speakers, are "progressing very well."

'Very Promising'

Mr. Strouse indicated that only the return to Washington of one of the important negotiating transit officials presently stymies culmination of plans. He described prospects of radio transportation routes in Washington as "very promising and encouraging."

Transit Radio was introduced to the capital city March 15, alternating two weeks of tests between street cars and busses [BROADCAST-ING, March 22]. The tests, in various sections of the city, produced excellent reception.

According to Mr. Strouse each vehicle installation costs \$175, but no expense would accrue to either the bus line or the public for installation or operation of the system.

If granted, the franchise would include a flat fee and percentage agreement and WWDC-FM would program most of the day for the transit audience an easy-to-listento fare of good music, news and sports information and similar programs. Commercials would be sold to advertisers at an estimated rate of about \$1 per guaranteed 1000 transit listeners. The home audience would be a bonus. Commercials would be limited to not more than one every five minutes and to 30second length.

Thus, largely through the efforts of Hulbert Taft Jr., president of Transit Radio Inc., and managing head of the Cincinnati *Times-Star* stations WKRC and WCTS-FM, a germ of an idea is being expanded into a radio advertising industry which may overnight assume multi-million-dollar proportions. Transit Radio, which manufactures the equipment, reportedly intends to act as national media representative in securing this advertising.

Transit Radio's crystal-controlled superheterodyne FM receiver, designed to operate in the high band, is run on power from a customary 12-volt DC bus or trolley battery. Dimensions of the receiver are 19%'' long, 5" wide, 7%'' high. It is usually installed on the floor beneath the seat of the driver, who can control it.

"We hope," Mr. Taft says, "to put FM immediately into a position of providing a mass service which is completely non-competitive with present radio, while at the same time promoting FM as an overall broadcast service. We believe that if we can be assured that millions of people will hear FM every day on public vehicles, they will be more likely to seek it as a home entertainment."

The keen interest of transportation circles in the electronic disposition-soothers was demonstrated April 1, when Mr. Taft addressed the executive conference of the American Transit Assn.—at their request—in French Lick, Ind.

One executive of a national transportation company, according to Mr. Crisler, two weeks ago during a test run with an FMequipped bus on the Ft. Thomas. Ky. run, got a totally unrehearsed sample of the medium's inherent qualities.

A driving rain storm lashing the bus convinced the official that Transit Radio had been "underselling the idea that the company (transit company) is rendering a public service."

Widespread in Two Years

Queried as to when he felt radio installations in busses would reach proportions comparable to radios in private automobiles, Mr. Crisler declared that the period entailed should be "about two years."

Acknowledging that present technical limitations prevented installation of the sets in trains, Mr. Crisler intimated that other applications of the system were under study. He declined to enlarge on this aspect.

Mr. Crisler indicated that "very good" was the most pessimistic view he could utter regarding the system's prospects.

AT&T Gets FCC Approval on Relay

AUTHORITY for commercial operation of its projected New York-Chicago automatic microwave relay link was given to AT&T last Wednesday by FCC.

The authorization was granted in approving the telephone company's applications for reinstatement of construction permits for two terminal stations in connection with the project.

Date of required completion of construction was set as Jan. 15, 1950, and the Commission eliminated its previous requirement that "no charge whatever shall be made for frequency modulation or television program transmission which takes place in whole or in part over these facilities" (AT&T television rate story, page 10).

Chicago TV Week

A PROCLAMATION setting aside April 5 to 12 as "Television Week in Chicago" was announced Monday by Martin H. Kennelly, the city's mayor. The announcement urged citizens "to avail themselves of the opportunities afforded during the period to become better acquainted with this latest contribution to man's progress." Chicago's second television outlet-the Chicago Tribune's WGN - TV — is scheduled to take the air April 5. The pioneer WBKB, operated by Balaban & Katz, began experimental telecasting in 1940.

New Post at State Dept. Assumed by George Allen

GEORGE V. ALLEN, former U. S. Ambassador to Iran, was sworn in Wednesday as Assistant Secretary of State for Public Affairs. He succeeds William Benton, currently heading U. S. delegation to International Conference on Freedom of Information meeting at Geneva.

The day after he took office, Mr. Allen spoke on foreign policy to a joint luncheon meeting of the Radio Executives Club and Overseas Press Club in New York.

CBS Gets Video Rights To 21 N. Y. Race Events

SIGNING of exclusive video rights to 21 top-purse features and stake races at five New York tracks was announced today (April 5) by CBS Television.

The contract, signed by Robert F. Kelley, of the New York Racing Assn., and Lawrence W. Lowman, CBS vice president in charge of television, covers 18 racing days at the Jamaica, Belmont, Aqueduct, Saratoga and Empire tracks.

ABC Promotes Brandt

OTTO BRANDT has been named manager of the eastern division of ABC's station relations depart-

ment, succeeding Ernest Lee Jahncke, who has been assigned as liaison between the network and its television affiliates. Mr. Brandt began his radio career as an NBC page in 1933. He

Mr. Brandt joined ABC's station relations department in 1945.

AL JOLSON takes his NBC "Kraft Music Hall" program to New York for broadcasts of May 6, 13 and 20; on return trip to West Coast, program will originate from Chicago May 27 and Denver on June 3.

ROADCASTING • Telecasting

At Deadline ...

KWK AGAIN GETS 5 KW NIGHT; ROCHESTER, MINN., AM GRANT

KWK St. Louis won its second grant for boost in night power to 5 kw, and Rochester Broadcasting Co. received its second authorization for new station at Rochester, Minn. on 970 kc, in FCC actions Friday. Earlier grants in each case had been set aside by Commission. Rochester grantee company, principally owned by group affiliated with Mayo Clinic, was authorized to use 970 kc with 500 w day and 1 kw night. Its original grant was for 1 kw fulltime but was set aside on claims of interference [BROADCASTING, Sept. 15, 1947]. Spokesmen said need to protect WHA Madison, co-channel daytimer, resulted in lowering daytime power below that for night. Principal stockholder of Rochester Broadcasting is Mrs. Alice P. Mayo, wife of Dr. Charles W. Mayo of Mayo Clinic.

In KWK case, FCC reinstated CP issued last April to increase power on 1380 kc from 5 kw day and 1 kw night to 5 kw fulltime. Grant had been set aside on grounds of co-channel interference to WTSP St. Petersburg, Fla., and WMBG Richmond [BROADCASTING, Sept. 29, 1947]. Reinstating CP, FCC specified that WTSP and WMBG must be protected. KWK will use DA at night.

TRANSCRIPT IN WBAL CASE NOW EXCEEDS 4000 PAGES

THIRTIETH day of WBAL Baltimore renewal hearing, held Friday, highlighted by request of Public Service Radio Corp., competing applicant, for investigation of January anti-vivisection program on WBAL reprinted in affiliated Hearst Baltimore News-Post on Jan. 28. WBAL Manager Harold C. Burke to be recalled this afternon (Monday) on matter.

Public Service, headed by Columnists Drew Pearson and Robert S. Allen, indicated it was interested in how WBAL programming tied in with News-Post editorial policy. Reference also made to Jan. 30 item in paper reporting William Randolph Hearst commended by Voters' League for anti-vivisection stand. WBAL counsel stated vivisectionists declined proffered time to air views.

Most of session devoted to solicitation of station construction cost estimates of WBAL's consulting engineer, Earl A. Cullum. Previous week Pearson-Allen dropped plan for written interrogation of Mr. Hearst upon admittance into public record of full Hearst organization voting trust agreement and amendments. WBAL had held full data not relevant. Case transcript now in exces of 4,000 pages.

TREBIT CORP. OFFICERS

NEW OFFICERS elected by Trebit Corp. (WFDF Flint, Mich.). They are Arthur R. Treanor, chairman of board; Harry Bitner Sr., president; Harry Bitner Jr., vice president and treasurer; Lester W. Lindow, secretary and general manager. Katz Agency appointed station representative. Transfer of control of WFDF from Howard M. and Frederick S. Loeb to Trebit Corp., set for hearing originally, approved in March. Trebit Corp. owned 50% each by Mr. Treanor and WFBM Inc., controlled by Bitner family [BROADCAST-ING, March 22]. Station operation assumed by new owners April 1.

MANSFIELD JOURNAL CO. APPEALS FM ACTIONS

MANSFIELD JOURNAL Co. Friday filed notice of appeal in U. S. Court of Appeals for District of Columbia from actions by FCC in January severing from hearing and granting Class B FM request of WMAN Mansfield, Ohio, and severing Class B FM request of Unity, Corp. [BROADCASTING, Jan. 19]. Mansfield Journal today is to file petition with Commission for rehearing of subsequent March grant to Unity [BROADCASTING, March 22].

Publishing firm, which in January decision received proposed denial for Class B FM as well as for AM facilities of 250 w daytime on 1510 kc at Mansfield, in appeal contended FCC's action circumvented procedure normally established and provided for by Communications Act. It held right to due process of law was denied. Unity Corp., headed by Edward Lamb, is operator WTOD and WTOD-FM Toledo and holds permits for FM facilities in other locations.

ABC PLANS DISC PLANTS, GETS GOVERNMENT CONTRACT

ABC planning to install own recording and transcribing facilities in New York and later Chicago as part of expansion program bolstered by acquisition of government contract worth more than \$1,000,000, it was reported Friday in New York.

Government transcribing, formerly handled by NBC, taken over by ABC month ago. ABC will let subcontracts to transcription manufacturers for government work but will supervise all jobs. Network has not set definite date for expansion in New York and Chicago, but reportedly considering it for this year.

MINNEAPOLIS TV CLAUSE

MINNEAPOLIS television grant to Northwest Broadcasting Co. [BROADCASTING, March 15] Friday was made subject to Minnesota Tribune Co. disposing of its 14.6% interest in Minneapolis Star & Tribune Co. (parent of Northwest Broadcasting) or of its 50% interest in licensee of WTCN and WTCN-TV Minneapolis. Star & Tribune Co. is controlled by Cowles interests. Minnesota Tribune Co. is owned by family and associates of late Frank Murphy. FCC authorities said interlocking interests of Minnesota Tribune in two Minneapolis television grantees was overlooked when Northwest Broadcasting received grant (for Channel 9). Ninety days allowed to achieve separation.

TV HEARING DEFERRED

HEARING on Hartford-New Britain television applications postponed by FCC from April 19 to May 24. With reference to Yankee Network's bid for one of Hartford's channels for use at Bridgeport, FCC deleted sentence of its ruling allowing Yankee 15 days to file rulemaking petition [BROADCASTING, March 29]. Commission planning to pass upon Yankee's request for extension of that deadline when it considers network's petition for rehearing (see story page 86). Two TV channels allocated to Hartford area. There are four applicants, aside from Yankee request to move one channel to Bridgeport.

"Playtime" featuring, Ruth Noyes—5:15 to 5:30, 4 days weekly -sustaining feature..

once upon a time...

... children's radio programs were heard, but not seen. Today, in
 Detroit, they're both SEEN and LISTENED-TO by a wide-eyed
 audience of thousands, in their own homes, through
 WWJ-TV. Detroit's only television station. For 75 minutes daily,
 WWJ-TV caters to "kids", whose enjoyment of
 these programs has been expressed through thousands of letters
 received from children and their parents. Naturally,

WWJ-TV is proud to add this success to its long list of program accomplishments during its first year of operation.

FIRST IN DETROIT . . . Owned and Operated by THE DETROIT NEWS

National Representatives: THE GEORGE P. HOLLINGBERY COMPANY

"Fun and Fables" fecturing Jane Durrell, storyteller -5:30 to 6 daily-sponsored by PHILCO Distributors.

BLAZING new trails" is one way of putting it, another is "setting new standards." Somehow, we prefer to think cf ourselves as the network with its sleeves rolled up-working, expanding, developing new ideas, new techniques -so as to give our listeners better programs and our advertisers a better advertising medium.

In living up to this concept, we've often taken the lead. And because actions speak louder than "copy"-let's look at some examples of this leadership; and at a few things we have up our rolled-up sleeve.

COVERAGE

We developed Listenability – a more dependable measurement of network physical coverage – to give advertisers a clearer picture of what they are buying. Our daytime Listenability figures created something of a stir last Fall; our nightime figures will be released in the near future. Interest in Listenability is gaining because it is practical and always up-to-date.

COVERAGE FROM WITHIN

Here's another Mutual idea, rooted in the conviction (proved by countless surveys) that a station which is the only one in its market, dominates that market—with anywhere from 50% to 90%of the listening. Mutual has nearly 275 such stations—serving about 20% of the U.S. radio homes.

PACKAGE PLAN

To make time-buying easier and to deliver even greater value, we instituted the "Package Plan", whereby an advertiser gets, free of charge, all stations added to the network during the contract year. Since 1945 our Package Plan advertisers have received literally thousands of dollars in "bonus" time.

RATE CONTROL

To the best of our ability we've fought the rising cost of advertising. True, the rates for some of our stations went up - when theirpower and coverage increased. To offset this we have, in three years,adjusted*downward*the rates for 114 of our stations - to the tune of\$2,089 per evening hour. Moreover, we are the only national networkthat is continuing the full-year guarantee on rates (the others havecut it to six months). We think an advertiser should be able tobudget at least a year ahead with some confidence that his costswon't jump.

RESEARCH

We are planning some studies and surveys on one of the most important aspects of radio – just another of the things we have up our sleeve that will be up the advertiser's alley.

STATION CONTRACTS AND CONTACT

After three years of work, we now have all our affiliates on a standard station contract. We also maintain a full staff of field representatives to call on stations and work with them on programming, sales, promotion and overall operations. These two Mutual ideas not only help our affiliates and us, but our advertisers benefit too.

PROGRAM INNOVATIONS

We think our Program people, under the direction of Phillips Carlin, have imagination: it shows up in the p_{-D_2} ams they develop and discover. For instance, Variety said of our new Mutual Neusreel-"It's about time one of the networks got around to a show like this." Opinion-Aire is the only discussion type of show that gives the listeners a chance to express their thoughts. Turenty Questions took a parlor-game and made it national entertainment, while Juvenile Juvy gives the moppets the mike-and what a job they do of it! Other program innovations include Queen For A Day, Heart's Deisre, Meet the Press and the award-winning Family Theater. And Mutual was the first to permit and to use transcriptions for network broadcasts.

PUBLIC SERVICE PROGRAMS

We could a tale unfold about the impact of our two recent series – "War Babies" and "Influence of Radio, Movies and Comics on Children." Our new documentary series based on Civil Rights report, is receiving more bouquets than we can remember in a long time.

CO-OP PROGRAMS

Mutual started the Co-op idea a dozen years ago with the Fulton Lewis, Jr. show: today it's one of the top Co-ops. Mutual started the practice of "big-name" Co-ops. Today Mutual leads the other networks in number of good Co-op shows and in volume-twice as many program sales as the next network.

TELEVISION

Don Lee, our Pacific Coast affiliate, is one of television's real pioneers-having been active in it for the past 16 years. WGN, our Chicago affiliate, will soon be on the air; and WOR will have stations in New York and Washington. Altogether we have 33 stations, mostly in major markets, under construction or with permits. A network organization is in the blueprint stage, and soon we'll be in the network TV picture actively.

SIGNIFICANCE

The progress we've made in the past three years can be expected to continue-because our sleeves are rolled up. Our stations are benehting from affiliation with this kind of network-which explains why we could go from 300 to nearly 500 in two years. And advertisers with eyes on the future, might seriously ponder the advisability of buying Mutual now-for results now and a franchise in the competitive tomorrow.
