

Local Buy Makes Good!

> Odd Are the Things Sold in This Mad Metropolis. More So, the Rapidity With Which a Certain Station Sells Them

OLD-FASHIONED SILK UNDIES @ \$5.00 Though believed to have quietly expired with the sitz bath, old ladies smell-

ing sweetly of lavender and certain males valiantly support them. Truly a product of limited appeal. But a few seconds' mention on WOR made 10 sales within two hours after the mention. While one crusty old gent, succumbing to a cautious whisper, walked off with 12 pairs . . . at \$60.00.

INDIAN HEAD CLOTH @ 39¢ by the yard A product which has consistently sold about as well as the Peruvian cockcrow.

Not so well. Obviously popular among people who don't circulate, but MUST listen. If they didn't, a 30-second mention on WOR wouldn't bring 25 customers into one store yodeling for Indian Head cloth and an order for  $15\frac{1}{2}$  yds. Rather revolutionary for a staple. POWDER AIR-SPUN FOR FACES @ \$1.00 Maxwell AFB, Ala. 36 With the cosmetic situation as it is, selling a product such as this is about as

Alr University Libr

DEC 2 1 1967

simple as deciphering a diplomat's note au courier. But a 30-second mention on WOR sold twenty boxes of this powder at \$1.00 in one store and heaven only knows how many boxes sold elsewhere, as a result of the mention.

SHOWER CURTAINS (Of All Things!) @ 87.50 People who splash have a tendency to buy things and splurge; \$7.50 being

no piker's price. One large department store had their help clock the people who came in to buy curtains as a result of one WOR mention. Ten mentioned the mention and walked out with curtains. Not bad for a few seconds' selling!

If WOR Can Sell These Odd Products This Fast, It Can Sell Any Good Ordinary Product Twice as Fast

# Good skiers wax the hickory for *SPEED*?

WINTER sports enthusiasts who ski swiftly down the hills and over white-blanketed plains know that the way to speed their flight is to minimize friction between wood and snow.

Your sales message can have a flight as swift and as far if you minimize the friction of distance between the widely-scattered market areas of New England.

The most effective way of expediting your selling campaign is provided by The Yankee Network, comprising fourteen popular local stations, each situated in one of New England's prosperous shopping centers. Linked in a network they give economical but complete coverage of the entire New England market, from the southern boundary of Connecticut to the farthest retail areas of the Pine Tree State.

# And this CBS record tells less than half the story!

For the second consecutive year, Columbia continues its leadership in all three major phases of network advertising:

Columbia, in 1937, carried the greatest dollar-volume of advertising of any network in the history of radio.\*

Columbia, in 1937, was the choice of more of the country's leading advertisers than any other network.\*\*

Columbia, in 1937, continued as the world's largest radio network.\*\*\*

This record, of course, is not Columbia's alone. It was made by the most careful buyers of advertising in the world – who increased their average expenditure for Columbia Network facilities this year over last by 25.9%.

<sup>\*</sup>And did so last year.

<sup>\*\*</sup>And has been for four consecutive years.

<sup>\*\*\*</sup>And has been for five consecutive years.

In the detailed record of these CBS advertisers is the answer to every basic question you can ask about radio advertising: Does radio sell slow turn-over products? Does radio sell quick turn-over products? Is the *institutional* campaign effective on the air? Must it be a 'big' radio program to be successful? The answers to these questions at Columbia are not theoretical or academic. They are written by the advertisers themselves; advertisers who, in a *single* medium, bring everything to the nation – from banking to beans; bread to abrasives; cigars, cigarettes, candy and cars!

But this tells *less* than half the story of the Columbia Broadcasting System in 1937. Throughout the year, some 22,475 different programs were broadcast to the nation over Columbia. More than half of these were programs '*by Columbia*'-produced by the network in the living and challenging fields of Public Affairs, Education, Serious Music, Religion, Special Events and Sports. These programs round out the schedule of the world's largest radio network, bringing the world's *voice*, as well as its goods, home to the nation every day of the year-wherever home may be.

> A brief summary of CBS developments in 1937 is given on the next page.

# From the 1937 CBS record

1300 sustaining broadcasts on National Affairs and News;
290 international broadcasts from, and to, 26 nations;
1250 sustaining and commercial broadcasts of serious music;
1450 educational broadcasts for adults and children.

NEW CBS STATIONS JOINED THE COLUMBIA NETWORK IN 1937. The present total is 108 CBS stations. Concurrently, the Network and its owned and affiliated stations undertook their most extensive programs of construction and improvement of facilities. During the year, over half of the CBS outlets increased their power or installed new high fidelity equipment, vertical antennas, and other improved facilities. The installation in many CBS stations of a revolutionary "Program Amplifier" alone effected an increase in signal intensity equal to that which would be produced by a doubling of power. Biggest item on Columbia's 1937 construction

calendar was the new West Coast Broadcasting Center, covering an entire city block in the center of the movie industry in Hollywood. Ground-breaking ceremonies for the \$2,000,000 project occurred last spring and the structure, which includes an office building and a large radio theatre is expected to be ready for broadcasting by next March. Recently, the Los Angeles Board of Public Works passed a resolution authorizing the new KNX-Columbia site to be named "COLUMBIA SQUARE." In addition to the new broadcasting center, Columbia is setting up an entirely new 50,000 watt transmitter for KNX to be ready for operation concurrently with occupancy of the studios.

#### The COLUMBIA BROADCASTING SYSTEM

### WIN FRIENDS AND INFLUENCE WOMEN

#### in Southern California!

Out here in Southern California there exists a special radio situation which you should know about. One station, in less than a year, has obtained full stature as the territory's *leading* source of radio programs. *Eleven successive monthly surveys of the Los Angeles radio audience have proven conclusively that more people listen to KNX than any other station.* And once they listen, the next thing you know they buy! That's why the major household products shown above currently use *more hours per week on KNX* than all products in this classification use on any other Los Angeles station. KNX is a *buy*-word with manufacturers, because it makes friends out of listeners, and *buyers* out of friends. Incidentally, an up-to-date list of all KNX advertised items is sent regularly to the drug and grocery trade. (Would you like a copy?) This extra service carries your message right through to the point of *sale*.

#### Spot Radio to Continue Upward in 1938 1937 which clearly showed that na-**Business Recession Halts Boom But Year Will Witness** tional advertisers using spot ju-

Another Gain Unless Economic Catastrophe Occurs

SPOT RADIO will have a big year in 1938—a little bigger and a little better than 1937. business than last year and billings will probably be up. Louis Tappé and a little better than 1937.

That prediction is made with only one "if"-if the present business recession doesn't develop into an economic rout.

A careful survey of time buyers and advertisers in the principal centers of the United States and Canada shows that while many campaigns have been sharply curtailed in the last few months, a lot of them will be back in full swing if an anticipated pickup in general business develops by spring, or fall at the latest.

There is less marking of time among advertisers and agencies than might be expected at a time when business charts are pointed downward. Radio advertising is not affected as

seriously as other media by recession curtailment of advertising campaigns.

#### **New Advertisers**

What curtailment actually has occurred has been considerably offset by the entrance of many new advertisers into the spot picture.

Thus the prospects for 1938 are brighter than many have suspected, but the picture is not the rosy one that was painted a year ago. Despite the last-quarter slide in 1937 the year will show a good gain over 1936, but present indications are that 1938 will show a much smaller increase over 1937.

A lot of present placements are on a short-term basis, not surprising in view of the feverish state of the general business mind. Big industries like the auto industry are involved in seasonal, labor, political, used-car and other factors and the effect is felt throughout the husiness field.

#### National Situation

Labor and political unrest may develop into serious advertising factors in 1938 but predictions along this line fall into the realm of pure speculation. Talk among anti-administration advertisers is generally accepted as mostly "bark" rather than "bite" when actual dollars-and-cents business decisions are made.

Following are reviews of sentiment in several cities as obtained by BROADCASTING's representatives, along with a list of leading spot sponsors and their plans for 1938:

#### **NEW YORK**

Consensus of radio directors of 70 agencies surveyed in New York by BROADCASTING is that business in 1938 will hold its present level and may improve, but that an increase comparable to that of 1937 over 1936 cannot be expected. While some said that business is very much better now than it was at this time last year, others said that it is no better, if as good. Generally, they believe that business will vary little from its present level in the immediate future but that next fall will find a definite rise

With With particular reference to spot, Blayne R. Butcher, radio director, Lennen & Mitchell Inc.,

"Spot broadcasting has proven so efficacious for certain of our clients that, in every instance, their current campaigns are being continued through 1938 and plans for expansion are being discussed, with a fair likelihood of accomplishment.

"Spot, with its flexibility and its opportunity to localize broadcast interest, is a natural for the national client's advertising tie-in and seldom fails of achievement if given the right planning and attention. It is a good thing for the broadcasting industry as a whole for station personnel has more incentive to meet the demand for initiative and showmanship with better programming and better better programming and better programs. Thus does the listener profit and, of course, the clients who have helped make financially possible this wider public service." J. Lloyd Williams, time buyer, J.

Stirling Getchell Inc., said the agency will do as much if not more

will probably be up. Louis Tappé, radio director, Schillin Adv. Corp., stated "Business is great; we expect a 20% increase in spot this year. We see no signs of a depression, and our clients report good prospects."

The increased amount of network business makes it difficult for the time buyer to place spots, according to Herschel Deutsch, radio director, Lawrence C. Gumbinner Adv. Agency. He said that while his agency normally prefers spots to networks, the spot advertiser can no longer develop a listening audience because his programs are constantly being shifted due to stations' network commitments.

#### **CHICAGO**

That radio advertising in general suffered during the declining months of 1937 because of the "business recession" was the consensus of leading advertisers and agencies in Chicago, although radio did not suffer as much as other advertising media.

Chicago mail order companies, for instance, clipped their budgets, with Montgomery Ward & Co., Chicago, discontinuing quarter - hour transcriptions on 72 stations, and Chicago Mail Order Co. planning no radio for the first half of 1937 unless business suddenly improves. Sears, Roebuck & Co. is continuing its tests on 6 stations but unquestionably expansion of the program to other markets would be more rapid if general business conditions were better. Other leading radio ad-vertisers that postponed or de-creased their 1937 fall plans were Bunte Candy Co. and Willard Tab-let Co., with Purity Bakeries canceling all radio advertising the first of the year.

The entire picture, however, is far from a gloomy one. An influx of radio advertisers who had never used radio, went on the air successfully during the last quarter of 1937. Among the new spot adver-tisers are F. A. Stuart Co. (Stuart's Dyspepsia Tablets), Scott Powders, Smith Overall Co. (will start Jan. 3), Sayman Products Co. (Sayman's soap) and General Mills

(Corn Kix—a new cereal). Of course, the usual "double-play" trend in radio was evident in

diciously, can build their sales up and grow into network advertisers. Three from spot to network advertisers are: Zenith Radio Corp., a heavy spot advertiser in 1936 which is expending its entire radio appropriation on its Zenith Foundation show on CBS; Procter & Gamble Co. (Drene shampoo), which started out using spots and is currently using the bulk of its radio appropriation on two weekly NBC programs featuring Jimmy Fidler; Skelly Oil Co., now sponsoring the Court of Missing Heirs on a regional CBS hookup.

Regarding spot, Chicago adver-tising executives were of the opinion that there is a marked tendency towards larger space purchases. More five and 15-minute programs are being bought with less purchases being made of the brief chain breaks, 100-word announcements, and smaller size announcements.

Several agency heads complained of the constantly increasing costs of radio time with one of them predicting that "if stations don't quit raising their rates perennially there would be a general exodus of ad-vertisers to other media." There must be a stop to this constant rate-raising and advertisers will soon discover that with high rates, high talent cost, and increased musicians' rates their radio advertising simply won't pay, it was stated.

#### Lesson to Be Learned

One agency executive pointed out that "in boom times newspapers and magazines were continually raising their rates until advertisers suddenly discovered that the results did not warrant the excessive cost and so curtailed their black and white expenditures. The result was a more sane rate adjudgment by the printed media. Radio has still not experienced a major disaster but the honeymoon won't last forever. When the crash comes, and radio stations adjust their rates on a more equitable basis, then the radio business will have gotten out of its infancy stage and be on a more solid foundation."

Two marked trends were pre-dicted in 1938. They were the use of more commercial time in Canada and an increase in foreign-language programs. With Canada putting on better programs, building more powerful stations, receiving more popular American network shows than ever before, placement of more

January 1, 1938 • Page 13

spot business in Canada has already begun to be felt there with even more spot placements to take place there in 1938. The increase will take effect despite the fact that Canadian stations ban the use of transcriptions after 7:30 p. m. Leaders on the Canadian bandwagon are such prominent national advertisers as Procter & Gamble Co. (Oxydol and Kirk's Castile soap) and Miles Laboratories (Alka-Seltzer).

ka-Seltzer). Several Chicago agencies are compiling more data on the foreign language programs and it is likely there will be a substantial increase in 1938 in this type of placements. National advertisers pioneering in this field include Libby, NcNeill & Libby, Procter & Gamble and Alka-Seltzer.

#### DETROIT

The advertising outlook in this automotive eity is so colored by the fortunes of auto sales that in a period of sharply recessed deliveries, such as has been experienced since the introduction of the 1938 models, there is little cheer in the agencies and only slightly more in the offices of the non-automotive advertisers.

The agencies, large and small, work in a frame of mind where the success of forthcoming campaigns is most apt to be predicated on the anticipations of the automotive agencies. Consequently, a survey at this time will not bring out an actual outlook on the future, but an immediate state of mind developed by the circumstances of the moment.

Ment. At this time, and probably until the end of the hard winter period in mid-February, the outlook is most pessimistic. All forms of advertising, radio included, have been pared down. There is a quiet background of belief, however, that the earliest signs of spring will see a renaissance of major proportions, and in this belief there is considerable logic. The root of the present new car sales problem is centered in the numbers of used cars on dealer lots throughout the country, and used cars are most difficult of sale in the winter months.

The automobile promotion experts maintain that spring will see this "log jam" of used cars begin to move, where upon dealers will have more money with which to make trades—something very difficult at this time—and deliveries of new cars will recommence. Advertising in the auto industry is proportioned almost directly to unit sales of new cars. Any pickup of sales, therefore, will be immediately manifested in increased allotments for time.

This circumstance may well make a favorable position for radio spot developments. The auto companies and their agencies are today attempting to steer wide and clear of definite commitments for time or space, inasmuch as they cannot be positive of developments ahead. This accounts for ths dropping of such programs as the *Pontice Varsity Show*, the General Motors Sunday Night Symphony, and the Chevrolet Seymour Simons show, all chain presentations. These were concluded as contracts ran out. No other chain programs appear slated for discontinuance, inasmuch as they are contracted for well ahead.

But, while the major programs are being discontinued, the auto companies want to keep promoting, even though they do not want to tie themselves down to definite contracted obligations. As a consequence, they are turning to spot time, which can be used more or less informally, without the obligation of carrying through an extended series of programs. One of the largest time buyers in Detroit told BROADCASTING that the very uncertainty of the situation made it appear likely that spot announcements would be leaned on heavily, as perhaps the most flexible type of programming possible.

Chevrolet, through Campbell-Ewald Co., is not using as many stations at this time for its Musical Moments series as it was a year ago, when nearly 400 stations were carrying the discs. Somewhat over 200 outlets are now using Musical Moments. DeSoto will be at the end of its 55-station lineup on its transcription show late in January, and likely will not renew for the time being, for the reasons enumerated above. J. Stirling Getchell Inc., is the agency. Olds has wound up a 13-week series of discs featuring Glen Gray, through D. P. Brother. This govers the transportion of This covers the transcription activity among the auto companies, although another phase is the availability to dealers of transcription shots prepared by the agencies and available without charge to dealers. This activity has about tapered out, and will not be much in evidence until spring again.

#### SAN FRANCISCO

In the estimation of a number of San Francisco time buyers, 1938 allotments will be a shade better and that's being very conservative —than the broadcasting business handled in 1937.

One of the staunch supporters of the sound advertising medium —Emil Brisacher, head of the advertising firm bearing his name stated that according to orders already in there will be a substantial increase in all branches of radio advertising — studio, transcription, spot announcement—which will be placed by his office during the next 12 months. Mr. Brisacher is of the opinion that there is a tendency to get away from the spot announcement and that more live talent and transcribed productions will be the order of things this year. He predicted no increase in general in s p ot announcement advertising, stating that many stations are finding it difficult to place spot announcements and on others the cost is all out of line with the other types of radio advertising.

Louis Honig Jr., of the Erwin Wasey & Co. agency concurs with Mr. Brisacher that 1938 will see a decided increase in the business of broadcasting. "Things look very good right at this moment," he said. "I feel certain that it is going to be a good year for radio."

Hassell Smith, manager of Long Advertising Service, San Francisco, was optimistic, likewise, as to the 1938 radio outlook. He stated that in spite of the business recession the latter part of 1937, the half dozen radio shows his agency is handling did a fine selling job for the advertisers. He is of the opinion that the trend is for more live talent shows during the coming year, with spot announcements going almost solely to local independents. It is becoming difficult to get satisfactory spot announcement time on the larger stations, he said.

Miss Ann Director, radio director of J. Walter Thompson in San Francisco, looks forward to somewhat larger appropriations for radio advertising from some of her agency's clients, she stated. She prophesied a good year for radio.

W. S. Day, radio account executive at Leon Livingston Advertising Agency, San Francisco, stated that his agency has already contracted for more radio time than it carried in 1937 and that all of this new business will call for live talent studio programs. He is optimistic over the 1938 outlook.

Richard Holman, radio executive of Rufus Rhoades & Co. Agency, San Francisco, stated that from all indications there would be considerably more sponsored radio productions in 1938. The trend, according to Mr. Holman is toward the live talent show. Several productions now placed by this agency plan to increase their radio activities and several new ones are being planned.

SALES MANAGERS—Who met at Chicago in December to arrange for a national get-together included (seated, l. to r.) W. W. Warner, WAAB, Boston; Purnell Gould, WFBR, Baltimore; Craig Lawrence, KRNT, KSO, Des Moines; Herb Hollister, KANS, Wichita; Standing—J. Leslie Fox, KMBC, Kansas City; Charles C. Caley, WMBD, Peoria; J. Burryl Lottridge, KTUL, Tulsa; Wm. R. Cline, WLS, Chicago; K. W. Church, KMOX, St. Louis; E. Y. Flanigan, WSPD, Toledo; Lewis H. Avery, WGR, WKBW, Buffalo. [See story on page 28.]

#### LOS ANGELES

Although labor conditions throughout the country have had a marked effect on the West Coast market and will continue to do so for some months to come, Pacific Coast agency executives and sponsors too are maintaining an optimistic viewpoint on prospects for 1938.

Regardless of the present business recession, the possibility of strikes and similar conditions, they are of the opinion that a big year is in store for radio, and state that many national and regional sponsors have substantially increased their advertising appropriations. Besides continuing with network shows, several are supplementing with special spot campaigns. Agency executives point out that spot supplements network coverage by filling in the gaps where coverage is weak.

#### Predict Busy Spring

Time buyers in Southern California are looking toward a busy spring season and many predict that the coming year will reach a new peak for spot broadcasting. While loathe to estimate how much spot business will be placed during the next several months, radio executives in the major Los Angeles and Hollywood agencies agree that practically every spot campaign now on the air, and placed from the West Coast, will continue.

In many instances sponsors will increase coverage with additional stations as markets open. Several West Coast agencies report their clients are planning extensive spot campaigns for the spring and early summer using five-minute and quarter-hour transcriptions. Many clients whose budgets are now being made up will, for the first time, include radio in 1938.

Extensive announcement and quarter-hour transcriptions, augmenting live talent programs on local stations will swell the volume of spot business. Many advertisers, it was pointed out, are seasonal, and conduct only short duration campaigns, but they too will increase coverage to include more stations than last year, in several instances doubling their efforts.

With desirable network time at a premium, more and more spot radio will be used nationally, according to a recent survey made by the Raymond R. Morgan Co., Hollywood advertising agency, for one of its clients. Frank Howe, the agency's public relations director, pointed out that clients have shown a preference for transcribed quarter hour script shows, and he declared that that was definitely the trend throughout the country.

"We have found that spot broadcasting has a number of definite advantages over network radio advertising under certain merchandising conditions," he said. "Spot broadcasting can be adapted to specific regional sales and distribution problems, and in many cases it is being used to intensify advertising in metropolitan markets. During the past few months three large national accounts have started programs on a national scale,

Page 14 • January 1, 1938

using transcribed programs produced by our organization, in preference to a live talent network show."

William G. Scholts, president of Scholts Adv. Service, Los Angeles, primarily a regional advertising agency, declared he is looking forward to a bigger and better year, with more radio to be used by cli-ents than in the past. He was also of the opinion that the trend on the West Coast is toward more transcribed quarter and half hour script shows, and stated that spon-sors are willing to use a program that has been tried and proved in another locale.

He called attention to the fact that national and regional adver-tisers often need a local sales push to help dealers and find this in spot schedules. He stated that while network shows are good-will builders, transcribed shows generally do a better selling job, because of that c.oser local tie-in. Accounts han-dled by the Scholts Adv. Service, currently using radio and which are expected to increase their activities during 1938 include Pacific Division of A & P Food Stores, Los Angeles; Holland House Products (beverages), Los Angeles; Dolly Madison Cake Co., Los Angeles, and Continental Food Corp., that city.

In the survey of sponsors which begins on this page BROADCASTING has endeavored to give an indica-tion of their 1938 plans insofar as they had materialized late in December. Naturally the list is by no nieans complete but it covers a good percentage of the major users of spot.

## **Canada Expects Record Year** As Sponsored Programs Soar

**Dominion Becomes Radio-Advertising Conscious; General Business Conditions Continue Good** 

By JAMES MONTAGNES

THE CONCENSUS among Canadian advertising agencies and transcription services is that at last the Canadian advertiser has decided to take radio as a serious advertising medium. This trend became noticeable toward the latter part of 1937, and is expected to speed up during the coming year.

Broadcasters look to 1938 as an extremely good year basing their opinions on this new interest of the Canadian national advertiser in radio, on the big array of United States and Canadian network programs which are being hooked by the government-owned Canadian Broadcasting Corporation for its own and private stations, and on the fact that the recent United States business recession has not been more than psychologically felt in Canada as yet.

Spot broadcasting in Canada, it appears, is a long way behind that of the United States, some agencies going as far as to say three years. Accordingly spot broadcast-ing is expected to show a major increase in the coming year, though some agencies feel it will only little more than equal the record of 1937, which was better than 1936. While Canadian restrictions re-

quire live talent shows during most of the evening hours, it is believed spot campaigns in the early evening and late evening hours close to a big network show are going to be in demand and such time be at a premium.

#### Better Equipment

Another factor that reflects a healthy outlook in the Canadian broadcasting industry is the amount of money being spent by Canadian stations to improve studios and put in new equipment, while many increases in power to 1 kilowatt stations are expected for early 1938 following a large number during the latter part of 1937. This speaks for increased advertising revenue prospects, for Canadian stations have been more or less afraid to spend money on their equipment and studios due to the uncertain attitude of the government. Now that the government-owned CBC is going after commercial business, and making a good job of it accord-ing to agencies and station representatives, the outlook is more favorable to a stabilizing of the industry, to more advertising revenue soliciting by the stations.

Typical of the interest being (Continued on page 46)

#### What Many Spot Advertisers Are Planning in 1938 . . .

Abelson's Jewelry Stores, Newark Has renewed contracts for an-nouncements on three stations and ex-pects to add others during the year. Agency is Schillin Adv. Agency, New York.

Acme Feeds, Forest Park, Ill. Plans to continue in 1938 with five 15-minute market reports six times weekly on seven stations — WLS, WHIO, WIRE, WMT, KROC, KMA, WNAX. A few other markets may be added. K. E. Sheppard Adv. Agency, Chicago, handles the account.

#### Acousticon Dictagraph Co., Toronto

Running a test program early in 1938 for the Toronto market. New on the air in Canada. Agency: All-Canada Radio Facilities Ltd., Toronto.

#### Albers Brothers Milling Co., Seattle

May increase its radio activity dur-ing 1938 and will continue its studio concert program Good Morning To-night on 5 NBC-Red network stations on the Pacific Coast (KPO, KHQ, KOMO, KGW, KFI). Agency: Er-win-Wasey Co., San Francisco.

#### Alkine Laboratories, New York

Has a larger budget for 1938 ra-cio. Client is now using announce-ments on four stations, through Schillin Adv. Agency, New York.

#### All-Canada Radio Facilities Ltd., Toronto

Reports that national spot cam-paigns, handled in 1937 were decid-edly increased over 1936, and anticipates from present bookings that 1938 will be even better.

Mark W. Allen Co., Detroit Plans spot campaign early in 1938 for 2-Drop hand lotion. Frank Pres-brey Co., New York, is agency.

#### American Chicle Co., Long Island City, N. Y.

Running minute transcriptions on about 21 stations for Sen-Sen and will continue with no change. For Adams Clove chewing gum, 50 stations are carrying announcements, and more are to be added. Agency is Badger & Browning & Hersey Inc., New York.

#### American Cranberry Exchange, New York

Limits its radio advertising to the September-January period, and is now finishing up this season's contracts on 12 stations. Agency: Gotham Adv. Agency, New York.

#### American Packing & Provision Co. Ogden, Utah

Early in January starts a weekly quarter-hour transcribed home eco-nomic serial, American Kitchen, on 8 stations (KDYL KLO KILD KTFK KSEI KHO KSUB KEUB), placing through Gillham Adv. Agency, Salt Lake City.

#### American Poultry Journal, Chicago

Using spot announcements on 4 stations, will continue until summer, and possibly through next winter. Agency: Schillin Adv. Agency, New York.

#### American Tobacco Co., New York

Continuing its college news broad-casts for Luckies five minutes, five nights weekly on two stations, and may expand to as many as fifteen sta-tions in college towns. Agency: Lord & Thomas Inc., New York.

American Tobacco Co., New York

Will continue to use spot announce-ments, live news and sports news on about 65 stations, and may add others about 60 stations, and may add others in the course of the year for Roi-Tan cigars. Sponsoring *Treasure Hunt* on six stations, and will use spot an-nouncements from time to time for Cremo cigars. Lawrence C. Gunbin-ner Adv. Agency, New York, is agen-cy for both accounts.

#### Anderson Co., Gary, Ind.

Using announcements on 35 sta-tions for Sleetmaster; will discontinue early in the year and probably re-turn next season. Agency: Schwab & Beatty Inc., New York.

#### Association of Pacific Fisheries. Seattle

Used spot announcements on stations located in key cities throughout the country in 1937 and it is antici-pated will considerably enlarge its ra-dio budget during 1938 for canned salmon. Will either use spot announce-ments, transcribed announcements or short transcribed periods. Agency: J. Walter Thompson Co., San Francisco.

Atlantic States Gas Co., New York

Will probably not return to the air will probably not return to the air in the spring. Last spring and sum-mer used one-minute announcements on 5 stations, cost \$1,000. Agency: Kimball, Hubbard & Powel Inc., New York.

#### Axton-Fisher Tobacco Co., Louisville, Ky.

Planning for 1938 a transcribed spot campaign similar to that of the past year for 20 Grand, Zephyr cigarettes. Agency: McCann-Erickson Inc., New York.

Banfi Corp., New York On participating program of five days weekly WTIC, Hartford, will continue until March, and resume use of radio next fall. Agency: Pettingell & Fenton Inc., New York.

#### Barney's Inc., New York

Barney's Inc., New York Will continue and expand its pres-ent schedule, which includes 7 hour programs and 48 announcements weekly on WHN, New York; 7 quar-ter-hours, daytime, 6 half-hours, eve-ning, 66 announcements weekly on WMCA, New York; and 6 half-hours, daytime, 6 quarter-hours, evenings, a half-hour on Sunday, and 105 an-nouncements weekly on WNEW, New York. Agency: Alvin Austin Co., New York. York

#### Bathasweet Corp., New York

On four stations with announce-ments, participation, news, and quar-ter-hour live program; expects to con-tinue with these and add others. Agen-cy: H. M. Kiesewetter Adv. Agency, New York.

#### Bauer & Black, Inc., Chicago

Will run Ladies of Millions on 22 stations five times weekly, at least, until first of March. Another product of the same firm may be sponsored after that. Blackett-Sample-Hummert, Chicago, is agency.

Beecham's Pills Inc., New York Will continue indefinitely with transcriptions on 4 stations. Agency: Atherton & Currier Inc., New York.

Bell-Brook Dairies, San Francisco

Dell-Brook Dairles, San Francisco Has just recently renewed its tran-scribed serial drama Sonny & Buddy on KYA, San Francisco, three times weekly. Plans to continue throughout 1938 and in addition has just pur-chased three spot announcements weekly on KFRC, San Francisco. Agency is Long Adv. Service, San Francisco.

Benrus Watch Co., New York

Now using time signals on 12 sta-tions, has increased its radio budget for 1938. Agency: Brown & Tarcher Inc., New York.

#### Bireley's, Hollywood

In its 1938 advertising appropria-tion of \$170,000 is including increased radio activity, along with other media, placing through J. Walter Thompson Co., Los Angeles.

#### Blue Moon Cheese Products, Minneapolis

Participates on the Martha Deane program on WOR, Newark. No other plans. Agency: BBDO, New York.

#### Borden Co., New York

Borden Co., New York Will greatly expand the use of local live-talent programs for Borden's Magic Mix, ice cream preparation, which were tested last summer. Agen-cy: Pedlar & Ryan Inc., New York, which also will conduct the usual ra-dio campaign in New York for the ice cream products of the Pioneer Divi-sion of Borden Co.

#### Bosco Co., New York

Participating in two Yankee Net-work programs and using spot an-nouncements in New England and New York for its milk amplifier. No changes are contemplated by the Agency, Kenyon & Eckhardt Inc., Agency, K New York.

Bowey's Inc., Chicago (Dari-Rich) Using quarter-hour transcriptions of its network show on six western stations and plans no change. Agen-cy: Stack-Goble Adv. Agency Inc., Chicago.

#### M. J. Breitenbach Co., New York (Pepto-Mangan)

Will use one-minute transcribed an-4 to May 15. Agency: Morse Inter-national Inc., New York.

(Continued on page \$4)

# **Elliott Roosevelt for Gough; Hearst Plans Other Changes**

President's Son Heads Hearst Radio Inc., Bringing Grabhorn East and Promoting Cormier, Barrett

ELLIOTT ROOSEVELT, second son of the President and a vicepresident of Hearst Radio Inc. since March, 1936, has been elevated to the presidency and general managership of Hearst Radio in charge of its 10 broadcasting stations and its shortwave radiotelegraph activities. He succeeds Joseph V. Connolly as president and Emile J. Gough as general manager, Mr. Gough having resigned Dec. 20 after 27 years in the Hearst employ.

Mr. Gough has not made known his future plans, but he will not remain with Hearst. Mr. Connolly becomes chairman of the board of Hearst Radio Inc. The change was made following conferences between William Randolph Hearst, T. J. White, general manager of the Hearst enterprises, and Mr. Connolly. The three will confer with Mr. Roosevelt in New York Jan. 3 during sessions there of Hearst executives. Mr. Roosevelt will leave Fort Worth, where he has been directing the Southwestern stations of the Hearst group, on Jan. 1 to attend the New York conferences.

#### Grabhorn to New York

Following the conferences, it is understood other changes in the Hearst Radio organization will be made known. Murray Grabhorn, since last September manager of KEHE, Los Angeles, will probably be promoted to a vice-presidency and placed in charge of national sales. Albert Cormier, who is under contract as manager of the organization in addition to his station duties. It is reliably reported that Neal Barrett, manager of KOMA, Oklahoma City, will be recommended for the vice-presidency in charge of the four Southwestern stations of the Hearst group, taking over Mr. Roosevelt's present duties.

Mr. Grabhorn is already en route to New York for the Jan. 3 conferences. His place as manager of KEHE has been taken over by Jack Gross, one-time manager of KWKH, Shreveport, La.

Other changes are pending but are not ready for announcement. Whether Curt Willson, in charge of Hearst Radio sales in New York, and Oscar J. Tunell, treasurer, will remain with the organization, depends upon the Jan. 3 parleys. Expansion of the organization is planned and new men will be placed in various strategic posts.

#### To Travel Among Stations

Mr. Roosevelt expects to spend most of his time visiting the 10 stations of the Hearst group, leaving Grabhorn in charge in New York. He does not plan to relinquish his Fort Worth residence. His wife, the former Ruth Goggins, of Fort Worth, holds an option to purchase KFJZ, Fort Worth local, which Mr. Roosevelt testified before an FCC examiner, was being bought for \$55,000 as a personal venture in no way connected with his Hearst Radio activities. Examiner Hill reported favorably Oct. 22 on the proposed transfer of ownership from R. S. Bishop, but the FCC has yet to act.

Mr. Grabhorn joined Hearst last September after leaving the vicepresidency of John Blair & Co., in charge of its New York offices. He was at one time sales manager of KFRC, San Francisco. Following the resignation of Ford Billings, in charge of Hearst West Coast activities, Mr. Grabhorn has been supervising not only KEHE but also KYA, San Francisco, and has been in frequent consultation with young Roosevelt.

#### Gough Started Group

Mr. Barrett, one of the ace managers of the Hearst group, will continue managing KOMA and will assume supervision of KTSA, San Antonio; KNOW, Austin, and WACO, Waco. Mr. Cormier joined the Hearst organization only recently. He pre-

Mr. Cormier joined the Hearst organization only recently. He previously had resigned as commercial manager of WIP, Philadelphia, and before that was sales chief of WOR, Newark. Mr. Willson also formerly was with Blair.

formerly was with Blair. Mr. Gough is reported to have submitted his resignation immediately upon learning of the reorganization plans of the board. He

ELLIOTT ROOSEVELT

first interested Mr. Hearst in radio, having been managing editor of the old San Francisco Call. In 1927 he was assigned to handle all radio activities of the Hearst organization, which at that time consisted only of the affiliation of WISN, Milwaukee, with the local Hearst newspaper and KYW, then located in Chicago and operating under a program lease arrangement between Hearst and Westinghouse.

Mr. Roosevelt first entered radio in September, 1935, as vice-president and sales promotion manager of the old Southwest Broadcasting System, operating a network of stations in Texas and Oklahoma. He engineered the deal whereby Hearst acquired four of the stations by purchase-KTSA, KNOW, WACO and KTAT in Fort Worth. The latter station, however, was sold to Raymond Buck, Fort Worth attorney.

#### **Central Figures in Hearst Radio Shakeup**

#### **Roosevelt Drops Deal**

HIS three-month option for the purchase for \$57,000 of KABC, San Antonio, having expired, Elliott Roosevelt, newly named president of Hearst Radio Inc., has dropped plans to buy the station. The deal was conditional upon FCC approval of the transfer within the three-month period, but such action was not fortheoming. Mr. Roosevelt planned this purchase as a purely personal investment venture. His wife is also the purchaser of KFJZ, Fort Worth local, also a personal venture, and FCC action is awaited on an examiner's report recommending its transfer for a consideration of \$55,000.

JAY LEWIS ASSOCIATES, New York, and Halpern Adv. Agency, New York, are considering merging in January with offices in the headquarters of the latter at 151 W. 40th St.

#### P & G in New York

PROCTER & GAMBLE Co., Cincinnati (Oxydol) will start a snecial 13-week campaign after the first of the year using five New York stations. The Goldbergs, now on WOR, will be continued on that station as well as WHN. Spot announcements will be used on WMCA, WNEW and WINS. Blackett-Sample-Hummert, Chicago, is agency.

#### **Maxwell House Test**

GENERAL FOODS Corn., New York (Maxwell House coffee). on Jan. 14 will start a new half-hour variety show on WMCA. New York. Program, featuring Mollv Picon. Jewish comedienne, will be heard Fridays at 7:30-8 p. m. for 13 weeks. Agency: Benton & Bowles Inc., New York.

#### **Crosley Appoints Dunville to Post**

#### Aid to Shouse at WLW-WSAI; Herman Named Consultant

APPOINTMENT of Robert E. Dunville as assistant to the general manager of WLW and manager of WSAI, was announced Dec. 22 by James D. Shouse, vice-president of Crosley Radio Corp. and general manager of WLW. Simultaneously, Mr. Shouse announced retention of Chester Herman well known that visual outboar

Simultaneously, Mr. Shouse announced retention of Chester Herman, well-known theatrical authority, as program consultant of the Crosley stations for several weeks, to advise station officials on program development. This marks an innovation in broadcasting since it is the first time any station has gone directly into the theatrical field to procure consulting advice in the same manner as engineering and legal advice.

held to procure consulting advice in the same manner as engineering and legal advice. Mr. Dunville, who joined the Crosley organization Dec. 1, has been serving as Mr. Shouse's assistant since that time. He was with KMOX, St. Louis, as assistant general manager, having served there under Mr. Shouse. He resigned that post to join the Crosley stations. He was formerly promotion manager of the Gardner Motor Co., St. Louis, and later became its advertising manager.

#### **Program Innovations**

As manager of WSAI, Mr. Dunville will continue the station's policy of civic service, he stated. Activities of the station, however, will be broadened along other lincs and many special broadcasts from the station's mobile shortwave unit, together with remote pickups outside the studios, will be introduced. He said several new programs now under preparation will be introduced shortly, along with a series of major activities which have been planned several months in advance.

planned several monums in auvance. In announcing Mr. Herman's retention as program consultant, Mr. Shouse pointed out his long experience in the theatrical field and his keen judgment in selecting talent and building entertainment, should result in improved program standards for the stations. Mr. Herman is stage manager and assistant to Richard H. Berger, producer of the St. Louis Municipal Opera. He has been in the theater for more than 19 years and has had wide experience in vaudeville, motion pictures and legitimate. He formerly worked with such stars as Clara Kimball Young and Antonio Moreno, and helped stage the revival of Flora Dora. Although Mr. Herman's activities are centered in large measure in St. Louis, his home is in New York, and he has had wide acquaintance in the entertainment field.

#### WSAI Goes to 5 Kw.

WSAI, Cincinnati, operated by Crosley Radio Corp., on Dec. 22 was granted an increase in day power from 2,500 to 5,000 watts, effective immediately. The station uses 1,000 watts at night and operates on the 1330 kc. channel. The application has been pending for some time.

NATIONAL Ass'n of Boat Manufacturers. New York, will use WEAF and WJZ, New York, for a series of five programs titled Carefree Cruisers, starting Jan. 7, Agency is Charles J. Cutajar Inc., New York.

Page 16 • January 1, 1938

# Federal Program Scrutiny Considered

#### Mae West Episode Gets Close Study at Commission

SHARPER scrutiny of programs by the FCC, which may portend new policy by that agency in regulating broadcasting generally, was detected in the "Mae West-NBC" incident of the last fortnight now formally before the FCC for consideration.

Pursuant to the request of FCC Chairman Frank R. McNinch, made Dec. 18, that full details be sup-

Dec. 18, that full details be sup-plied the Commission on the inci-dent, President Lenox R. Lohr, of NBC, on Dec. 23 submitted the re-quested data without comment. What ruling the FCC will make is problematical. Chairman Mc-while the FCC has no censorship Ninch pointed out in his letter that powers, it nevertheless must be guided by the provision of the Comglided by the provision of the Communications Act specifying that ob-scene, indecent or profane language shall not be permitted over the air. He said that many com-plaints against the Mae West "Adam and Eve" skit in the Chase "Adam and Eve" skit in the Chase & Sanborn program Dec. 12 had been received, and that there was marked uniformity of thought in the letters variously characterizing the skit as "profane", "obscene", "indecent", "vulgar", "filthy", "dir-ty", "sexy" and "insulting to the American public". He added that the letters bore no evidence of hav-ing been written by cranks or ing been written by cranks or prudes but by "responsible and intelligent citizens".

#### Her Name is Taboo

Climaxing the rapid cycle of events, NBC Dec. 23 announced it had banned the use of Mae West's name in scripts over any of its managed or operated stations ef-fective immediately. The action was taken, it was said, to avoid use of her name in "gags" or the like to block any possible revival of the incident over its stations. It was not in the nature of a reprisal against Miss West, it was said. It was the first time in more than a decade of network broadcasting that such a ban has been instituted.

The incident also had repercussions in Congress, with two mem-bers, Rep. Lawrence J. Connery (D-Mass.) and Rep. O'Toole (D-N.Y.), demanding an investigation of ra-dio along the lines proposed in several pending resolutions. Rep. O'Toole, it is understood, had per-sonally complained to Chairman McNinch.

#### Many Complaints

Because the FCC was in quasirecess over the holidays, it is not expected action will be taken until it holds a meeting early in Janu-Although Chairman McNinch asked NBC to supply names and lo-cations of the some 60 stations that carried the program, fed over its Red network, it is hardly thought any action can be taken against those stations since they had no control whatever over the subject matter. Rep. Connery, in a letter to Chairman McNinch Dec. 18, urged that the Commission revoke the license issued to the station that originated the program—though its originating point was the Hollywood Studios of NBC.

Developments came fast follow-

ing the broadcast. Rev. Father Morris S. Sheehy, head of the De-partment of Religion of Catholic University, Washington, suggested the incident might require exten-sion of the activities of the Catholic Legion of Decency in the movie field to the field of radio. Among other things, he said he would like to go on record as saying that if the FCC "does not investigate this matter we shall shortly have a new lot of commissioners." At a meeting in Washington Dec.

16, Father Sheehy conferred with Stanley Resor, president of J. W. Thompson Co., agency for Chase & Sanborn; Frank M. Russell, NBC Washington vice-president; Msgr. Michael C. Ready, general secre-tary of the National Catholic Wel-fare Conference, and James Hay-den, professor of radio law of Cath-olic University. At the conference it was explained that mistakes had been made, first by J. Walter Thompson Co. and second by NBC. Dr. Sheeby said afterward that as Stanley Resor, president of J. W. Dr. Sheehy said afterward that as far as he was concerned, the expla-Tai as he was concerned, the expla-nations and the apologies offered at the conference Thursday, in public statements the following day and over the air on Dec. 19, would be sufficient and he declared he would pursue the matter no further.

#### NBC Shares Blame

On Dec. 17 Mr. Resor wrote Mr. Lohr expressing regret that the program had given offense to any-one. "The script of this feature of the broadcast was our responsibil-ity," he stated. "It was a mistake, ity," he stated. "It was a mistake, and we can assure the public at large that the same mistake will be made again." not

Mr. Lohr replied that NBC shared with Mr. Resor the regret he expressed and also the responsi-bility in the incident. "Our inter-ests are entirely mutual in striving to give to the American public the which it wants and which it has every right to expect," he said. "NBC can be counted upon to in-tensify its efforts to this end."

In opening its broadcast Dec. 19, Mae West show of the preceding Sunday featured "Snow White and the Seven Dwarfs," Chase & Sanborn made this apology:

"It has been brought to the attention of the sponsors of this pro-gram that a skit on it last Sunday night offended the religious sensibilities of some of our listeners. Our

WITH Janet MacRorie, NBC New

York continuity acceptance editor,

now in Hollywood to confer with

Don E. Gilman, western division

vice-president and Andrew Love, head of the continuity acceptance department, that city, it is gen-

erally expected that more stringent

rules and regulations will be put

into force in censoring broadcast

Mr. Gilman stated that Miss MacRorie's visit to the West Coast has nothing to do with the recent Mae West incident, but he inti-mated that latitude given on pro-grams would be considerably tight-

ened. He implied that no attempt

would be made to stifle opinion

material.

hope is to make each and every hour spent with us both entertain-ing and edifying. We pledge our-selves to that purpose and sincerely regret any unintended offense that may have been given."

NBC disclosed immediately after the incident that the same skit had been played several times before without drawing criticism. Three when NBC broadcast over its Blue when NBC broadcast over its Blue network a program sponsored by the Mexican Tourist Bureau, which included a song poem in Spanish which was regarded by certain Catholic groups as indecent and which resulted in an outcry in Congress for an investigation, with the late Rep. William C. Connery, brother Rep. William C. Connery, brother of the incumbent Massachusetts Congressman as its leading proponent. At that time the demand was made that the stations which car-ried the program be deleted.

#### Inflection Responsible

Don Gilman, NBC Coast vice-president, stated following the Mae West incident that the inflection the buxom screen siren placed "at certain points" caused criticism of the "Adam and Eve" skit, in which she appeared with Charlie Me-Carthy the Edear Bergen dummy

she appeared with Charlie Mc-Carthy, the Edgar Bergen dummy. Following the McNinch request for information, and the receipt of the letter from Rep. Connery de-manding action, the FCC chairman said he had already taken every possible step to get all of the facts before Mr. Connery's letter was received. He said: "I had directed the broadcasting chain to furnish the commission with a copy of the transcript and electrical reproduction of the skit, the names and locations of the stations carrying it and a copy of the contract between the commercial sponsors and the Until this broadcasting company. information is assembled and analyzed the Commission will take no action, as it cannot afford to pre-judge the case".

The incident stirred Hollywood's motion picture colony possibly as much as it did radio. Emanuel Cohen, producer of Miss West's new picture, "Every Day's a Holiday," was reported as debating the advisability of postponing the release date until after the incident showed signs of abating. Moreover, it was reported that all other Hollywood producers were taking steps to in-sure that their star performers would not become involved in any questionable radio offerings. From reliable sources BROAD-CASTING has learned the activities

which led up to the broadcast. The facts indicate that the Mae West script was more strenuously cen-sored than almost any other that has gone on the air.

#### Many Rehearsals

Miss West did not rehearse the sketch completely before it was broadcast and the implication of her insinuating manner of delivery could not be completely checked. She failed to appear for the sched-uled rehearsal in Hollywood stu-dios Friday, Dec. 10. NBC executives flatly rejected the script as it was then written and she was per-sonally consulted when the script was revised. Her revision of the script was rejected by NBC on Saturday, Dec. 11. After an all-day session with the continuity writers, NBC finally accepted the script and this was the skit broadcast. Late Saturday the first rehearsal was held with many an argument over lines and phrases. The Sunday re-hearsal was casual with Miss West running through the lines carelessly without employing her insinuations. According to unofficial re-ports from NBC, no one who heard the last rehearsal suspected that vulgarity could possibly result from the lines given Miss West. There was nothing offensive in the script as written.

No listeners were more surprised than NBC officials who had passed on the script when they heard Miss West's artful inflection and noted the striking change in the way the script seemed to vary from the printed word during her "love scene" with Charlie McCarthy. Once the program was on the air there was no way in which the lines could be toned down. The alternative was to cut the program off the air. Hastily, NBC officials decided that cutting the program would cause more of a negative listener reaction than if it were allowed to continue. That is the NBC story of how the broadcast happened to get on the air.

#### Kirk Leaves Ruthrauff

MYRON KIRK, vice-president and MYRON KIRK, vice-president and radio director, Ruthrauff & Ryan Inc., New York, has resigned that position effective Dec. 31. On Feb. 1 C. Lawton Campbell will become a director and vice-president of the agency, in charge of all radio ac-tivity. Mr. Campbell is now vice-president of General Foods Sales Co. Inc., New York, directing ad-vertising and merchandising of Jell-O, Minute Tapioca and Swans-down. down.

#### **United Drug Spots**

UNITED DRUG Co., Boston (Rexall Products), late in January will use 200 stations for a series of five quarter-hour transcriptions. Camquarter-hour transcriptions. Cam-paign, to promote a Rexall birth-day sale, is in addition to the two similar series placed annually by the company. Agency is Street & Finney Inc., New York; discs are placed by Spot Broadcasting Inc., New York.

#### **Borden on NBC-Red**

BORDEN Co., New York (con-densed milk), on Jan. 31 will start a five-a-week quarter-hour strip on the NBC-Red network featuring *Rush Hughes*, news commentator. Agency is Young & Rubicam Inc., New York.

#### **BROADCASTING** • Broadcast Advertising

and restrict freedom of speech, and and restrict recommon speech, and that the NBC policy in respect to individual rights and protection of sponsors' interests would be zeal-ously guarded. He said that those who have trespassed on good taste in their broadcasts will be the only ones affected by the rulings, what ever they might be.

Meanwhile rumors are being circulated in Hollywood that Culated in Hollywood that Mae West has been consulting with her attorney, Lloyd Wright, on the possibility of suing NBC and J. Walter Thompson Co. in connec-tion with her Dec. 12 broadcast on the network's Chase & Sanborn program. Mr. Wright would nei-ther deny nor confirm the reports.

Strict Copy Checking on West Coast

By NBC Follows Miss. MacRorie's Visit

## **Musical Contract Negotiations** Expected to Close on Jan. 3

Ample Number of Contracts Said to Be Coming in As Deadline Nears: Local Problems Settled

JANUARY 3, 1938, will probably see the completion of negotiations between the American Federation of Musicians and the Independent Radio Network Affiliates and the exchange of contracts signed by individual network stations and local unions. On that date, which has been set as the final deadline by the musicians for acceptance of contracts, representatives of IRNA and AFM will together examine the contracts received and, if the number is sufficient to give the increased employment the union has been fighting for, they will date and exchange the contracts and the first and largest step toward two years of peace between the radio industry and between the radio industry and the musicians it employs will have been taken.

All contracts will be dated Jan. 1, 1938, and will hold for two years, expiring on Dec. 31, 1939. At the time the contracts were first presented to the IRNA membership by its negotiating committee it was pointed out that this date is the same as that on which the station's contracts with ASCAP expire and that the broadcasting industry might find itself handicapped in dealing with either group if the two should combine to force harsher terms from radio for subsequent years.

#### Ample Number Expected

The committee reply was that it had attempted to secure from the AFM a three-year contract but had been unsuccessful, the musicians originally trying to limit the term of the agreement to a single year, and that it felt it was better to face the problem of drawing up two new agreements at once in the latter part of 1939

than to meet a new AFM dead-line on the final day of 1938. It was also pointed out that the coincidence of contract expirations might conceivably work to the advantage of the broadcasters, as if either ASCAP or AFM presents exorbitant demands the other group will side with the broadcasters in resisting them lest its own

interests be affected. Speed with which signed con-tracts were coming into New York last week gave every indication that an ample number would be on hand by the deadline date. When the two committees met on Dec. 15, previous deadline, less than 50 contracts had been received. By Dec. 23 that number had grown to 139, by Dec. 24 to 149, and a fur-ther leap over the Christmas weekend had brought the total to 180 on Dec. 29 with almost a week to go before Jan. 3. This total of docu-ments received from stations by Ernst & Ernst, New York accountants engaged to handle the contracts for the broadcasters, was somewhat under the number the local unions had sent to AFM headquarters by the same date,

when officials of the musicians union estimated their total receipts at approximately 174.

And it was reasonable to believe that this stream would not dwindle during the final week to deadline because both committees were exerting all possible pressure and lending all possible assistance in every community in which the contractual parties were finding it difficult to arrive at an understanding. The networks, too, were co-operating with the IRNA committee in helping their member stations iron out difficulties.

#### Networks Are Signed

A contract had been signed with AFM by CBS for its key stations and it was understood as BROADand it was understood as BROAD-CASTING went to press that a simi-lar contract had been signed by NBC. Individual contracts were signed by the three MBS key sta-tions — WOR, WGN, KHJ — and submitted to the union. but con-tracts signed by AFM officials have not hear returned. Due to the renot been returned. Due to the peculiar organization of this network. these contracts could not be signed by Mutual officials but had to be individually signed at each station.

It is not necessary for contracts from all of the 289 network affiliates to be received for the IRNA-AFM agreement to become effec-tive. If that were so it is extremely improbable that these negotiations would be finished by spring. But the AFM has agreed that when enough contracts have been signed to achieve the employment of a large number of additional staff musicians it will accept that as an indication of good faith on the part of the broadcasting industry and will permit those contracts to go into effect, working out the remaining cases individually as rapidly as may be, but not holding up the majority any longer. Since the larger stations, employing the most musicians, are nearly all signed the present optimism that an agreement can be reached on Jan. 3 seems more justified now than previously.

#### Extensions of Time

Substitution of specific attention to individual problems of stations and local unions for general insistence that all contracts be rushed through to completion began early in December when the IRNA committee realized that the Dec. 15 deadline could not be met and asked each station which had not yet signed a contract to inform the committee of the exact cause of delay [BROADCASTING, Dec. 15]. With these answers and similar data collected by AFM from its locals as a concrete starting point, IRNA committeemen and AFM officials met Dec. 15 and 16 and mapped out their plan of proce-dure, setting Dec. 22 as the next deadline date. Again the time proved too short to round up

**Returns to Omaha** 

DON SEARLE

enough contracts to complete the deal, but when the groups reconvened on Dec. 22 sufficient progress had been made to convince them that the end was in sight. That evening the teletypes of the NBC, CBS and Mutual carried the fol-lowing message to all stations:

"All but a few dozen affiliates have either signed contracts with musicians locals or are now actively negotiating and contracts practically assured. Owing to holiday season it is impossible to ex-pect completion this week. In fairness to vast majority of affiliates who are showing good faith, Weber has agreed at the request of the committee to close this matter finally Jan. 3, 1938. Please cooperate by completing contracts before that date if not yet closed."

The message was signed by Samuel Rosenbaum, WFIL, chairman of the IRNA negotiating com-mittee, and E. J. Gough, who continued with his work as committee Secretary despite his resignation as vice-president and general man-ager of Hearst Radio two days earlier.

#### Delay in Smaller Cities

Queried by BROADCASTING as to the delay, Joseph N. Weber, AFM president, answered that the affiliate stations were not at fault but that the blame lay with the committees for not allowing ample time between reaching their own agreement and their early deadlines. There were many points that needed explaining to the stations and the local unions, he said, and to clear up all the misunder-standings took longer than had been anticipated. This part of the job has been practically completed, he said, and added that as of Dec. 27 he had received contracts covering 95% of the country's larger cities, with only the smaller places proving dilatory.

The anticipated trouble with the stations in the Northwest had been successfully ironed out, it was learned, and a majority of contracts from Seattle and Spokane (Continued on Page 63)

#### Searle New Head **Of Central States**

#### Named to Fill Post Vacated By Resignation of Henry

DON SEARLE, general manager of WIBW, Topeka, and one of the Midwest's best known broadcast executives, on Jan. 1 will assume the

general manage-ment of the Central States Broadtrai States Broad-casting System, operating KOIL, O mah a, and KFAB - KFOR, Lincoln, Neb, with headquar-ters at KOIL. He thus returns to

thus returns to the station which Mr. Henry he helped found in 1925 and which he and his family once owned. He succeeds John M. Henry, who has resigned to devote his time to his writing activities which include contracts with three newspaper surdices for the statement of the st syndicates.

Mr. Searle's resignation from the Capper-owned station at To-peka was announced Dec. 24 at the annual Christmas party of the station's staff. His appointment to the Central States post was made by the directors at their meeting a few days earlier. The directors of CSBS, whose three stations are partially owned by the *Lincoln Star* and *Nebraska Journal*, are Charles Stuart, Joe Seacrest, C. L. Carper and Frank Throop. The Central and Frank Throop. The Central States group also holds an option for the purchase for \$55,000 of WAAW, Omaha, which pends FCC approval. Mr. Searle left KOIL in 1933 to accept the post with the Capper station. He holds no interest in WIBW but controls KMMJ, Clay

Center, purchased about a year ago along with a weekly newspaper, the *Clay Center Sun.* He also is a mi-nority stockholder in KANS, Wich-ita, along with Herb Hollister, KANS manager, one of his closest friends.

Few staff changes are contem-plated, and Reginald Martin is ex-pected to remain in charge at Lincoln.

Mr. Henry has been with Central States for six years. In 1931 he was named studio director of KOIL and in 1932 he was promoted to mana-ger. Later he was also assigned su-pervision of the Lincoln stations. pervision of the Lincoln stations. During the six years he has been with the organization, it has grown from a staff of 30 to 179. He has held the general managership un-der three different owners. Mr. Searle has already completed arrangements to move his family to Om a ha. Succeeding him at WIBW is Ben Ludy, who will be both manager and commercial man-

both manager and commercial manager.

#### **Christian Herald Series**

CHRISTIAN HERALD Magazine, CHRISTIAN HERALD Magazine, New York, on Jan. 2 starts Dr. Daniel B. Polling on two Inter-City network stations, WMCA and WIP, Sunday, 3-3:30 p. m. The campaign may be extended as far west as Chicago. Blackett-Sample-Hunimert, New York, is accent. agency.

A UNIQUE form of Christmas greet-ing was adopted by NBC in sending 12-inch recordings carrying on one side a message from President Lenox R. Lohr in his own voice and on the other a Christmas carol.

FCC to Boost Regional, Local Powers

**By SOL TAISHOFF** 

#### Horizontal Increases to 5,000 and 250 Watts Night Will **Conform to Havana Treaty; Craven Explains Agreement**

TO PAVE the way for the full scale introduction of the Havana broadcast treaty, the FCC is ex-pected to revise its rules governpected to revise its rules govern-ing broadcast station operation within the next month, and among other things will allow horizontal increases of regional station night power from 1,000 to 5,000 watts and of local stations from 100 to 250 watts.

and of local stations from 100 to 250 watts. Commissioner T. A. M. Craven, who headed the American delega-tion to the Havana Conference and who was the parley's moving spirit, indicated the FCC would promptly consider changes in its rules in the hope of having the framework laid for promulgation of the treaty, once ratification is forth-coming from the four principal na-tions. The terms of the agreement, which will signalize a far-reaching revamping of the broadcast band within the next two years, specify might powers of 5,000 and 250 watts, respectively, for regional and local stations. Similarly, they specify that on Class 1-A clear channels power shall be at least 50,000 watts. The existing rules of the FCC prescribe 50,000 watts as the maximum power [BROADCASTING. Dec. 15]. WLW, now using 500,000 watts power; is doing so on an experi-mental basis in such fashion as not to conflict with the rules now in force in this country. Comdr. Craven stated that the treaty spec-

in force in this country. Comdr. Craven stated that the treaty specification on power was necessary in order to accommodate the ex-isting situation in Mexico, one of the parties to the treaty.

#### A Remarkable Task

Meanwhile, reaction to the agree-ment reached in Havana, which was published in its essential de-tails exclusively in the Dec. 15 is-sue of BROADCASTING, generally was highly favorable. There were was highly lavorable. There were discordant notes from certain groups, based on coverage limita-tions which might be invoked as a result of the treaty and from certain stations which felt their assignments would not be improved while those of competitors might be.

Criticism, however, had not be-Criticism, however, had not be-come sufficiently voluable to indi-cate any concerted movement against the treaty. On the whole, sentiment appeared to be that the conference had done a remarkably effective job in getting the North American nations together for the first time in an amicable broad-casting agreement and also in pre-serving the priority status of every serving the priority status of every one of the more than 700 stations

one of the more than 700 stations in the country. At a press conference Dec. 20, Comdr. Craven outlined in detail the scope and effect of the agree-ment. He said that the price paid by the United States to accomplish the favorable result was that of sliding regional and local stations, for the most part 30 kilocycles upward, while certain clear chan-nel stations as well as high power regionals are moved from 10 to 40 kilocycles. He pointed out that all of the 63 stations now assigned to

of the 63 stations now assigned to clear channels retain such posi-tions under new classifications, and that a group of time-dividing clear channel stations are in a po-sition to get full time. More important was the com-missioner's statement that the treaty is sufficiently flexible to care for all of the 700 stations now in operation. Moreover, he emphasized that the degree of flexibility allowed probably would give the Commission sufficient lee-way to rectify certain conditions that might be held inordinately prejudicial to the interest of parprejudicial to the interest of particular stations.

ticular stations. Pending applications for broad-cast facilities, which already have been heard and which might be in conflict with terms of the treaty, probably will be considered by the FCC on the basis of the showings made.

#### Policy of FCC

Should a pending application be in direct conflict with allocations of frequencies to other nations, such as, for example, the abandon-ment of 1010 kc. by the United States for assignment to Canada, it is presumed the Commission will seek to select some other chan-nel as an alternative which would fit into the new allocations scheme

nel as an alternative which would fit into the new allocations scheme. While no definite policy has yet been established, it is assumed that applications not yet heard but seeking facilities which would be affected by the treaty, either can be amended by the applicant or else considered by the FCC in the light of the new assignment of the narticular channel In other words particular channel. In other words, should a pending application for 950 kc. be before the FCC, it might consider that application as one for 980 kc., since all stations on that wave would move to the

new channel anyway. Such questions as these, it was said, must

tions as these, it was said, must be defined as a policy proposition by the FCC at some future time. It is not likely that many sta-tions will be forced to great direct expense by virtue of the impend-ing realignment which, it is hoped, will become effective within 18 months or two years. The shifts in frequency ranging from 10 to 40 kc, but most of which are 30 kcs. upward, it was stated, should not require installation of new anten-nas, since the standards now specrequire installation of new anten-nas, since the standards now spec-ified by the FCC would likely meet requirements for the frequency shifts in practically all cases. All stations changing frequencies, of course, must change their crystal oscillators but this is not an expensive item.

#### **Adequate** Protection

The substantial group of regionals slated to increase power to 5,000 watts will simply be required to limit interference to the 2½ millivolt contour, both supplied to millivolt contour, both supplied to and received from stations on the same channel. Thus, Comdr. Cra-vcn pointed out, they will have the same degree of protection as they have with 1,000 watts or lower night power. But with the in-creased signal they will be in a position to afford greater intensity of service in their present primary areas. Local stations which in-crease to 250 watts at night will be afforded protection to their 4 millivolt line at night. The trend toward use of direc-

The trend toward use of direc-tional antennas will become more marked with the introduction of the new allocations because of the protection standards specified. Moreover, with duplication to occur on all clear channels save those in the 1-A category, the re-quirements for directional radiators will be increased on those channels.

As for its new rules and regula-tions, the FCC staffs, both legal and engineering, have been work-

and engineering, have been work-ing on them for a number of months. Now, with the Havana agreement reached, it is considered likely they will be promulgated within a month, possibly by the end of January. However, actual frequency shifts may not be re-quired for some time to come. That expeditious action is con-templated by the nations involved, to make possible the revision of al-locations at the earliest practica-ble date, was indicated Dec. 21 when President Frederico Laredo Bru, of Cuba, in a message to the Senate, recommended immediate ratification of the Inter-American Convention and immediate ratifica-tion of the North American re-

Schale, recommended immediate ratification of the Inter-American Convention and immediate ratifica-tion of the North American re-gional broadcasting agreement signed during the convention. With the abolition of the 1010 kc. regional channel, which has been assigned to Alberta, Canada, preliminary provision is made in the agreement to care for the sta-tions on it. WHN, New York, will go to the 1050 kc. channel with more power; WNOX, Knoxville, is slat-ed to go to the 990 kc. channel; KQW, San Jose, Cal., goes to 740 kc., and KGGF, Coffeyville, Kan., and WNAD, Norman, Okla., time-sharing stations, are destined for assignment on the 690 kc. chan-nel, which is a 1-A channel as-signed to Montreal. The intention of stations in Mex-ico to use superpower, possibly up to 500,000 watts on certain of its Class 1-A channels, was indicated during the Havana sessions. For example, XEW, Mexico City, like-ly to operate either on 730 or 900 kc., both of which are Class 1-A channels in Mexico City, indicated through its owner, Emilio Ascar-raga, it planned to begin construc-tion possibly of a 200,000 to 300,-000 watt station which would be so built as to make possible 500,-000-watt operation. Border Stations

000-watt operation.

#### **Border Stations**

In this country, policy on use of superpower remains to be estab-lished by the FCC. Under the so-called Craven-Ring report, issued last January and based on exten-sive broadcast hearings, the feasi-bility of superpower technically is recommended but the question of policy with versenet to it was me

recommended but the question of policy with respect to it was re-ferred to the FCC. Presumably this will be considered shortly by the Commission. It is not considered likely that stations in either Canada or Cuba plan superpower at once. There was no indication of it at the Ha-vana sessions. In Mexico, however, ample funds appear to be avail-able for that purpose. Whether building of superpower stations in other nations on the Continent would have any affect on their au-thorization in this country is probthorization in this country is problematical.

Comdr. Craven pointed out that the matter of Mexican border sta-tions, and also of stations in Cuba operating on channels allotted this country or in between them, must (Continued on Page 80)

recently for experimental outdoor televising. One truck provides operat-

ing positions on its roof for Iconoscope cameras and special NBC para-bolic microphones, while a "trolley" antenna for relay broadcasts to Radio City tops the second truck. This unit will be operated by NBC in connection with its experimental Empire State television transmitter.

# Radio Listening Favorite Recreation College Students

#### 'Fortune' Finds 88.1% **Of American Homes**

Have Receivers

THAT 88.1% of all American homes have radios and that listen-ing-in has become the most popular form of recreation in America, are facts determined by the Fortune Quarterly Survey and published in the January issue of Fortune Mag-azine. The total number of men and

the January issue of Fortune Mag-azine. The total number of men and women who preferred listening to the radio to all other forms of recreation was 18.8%. Second in the list came the movies with 17.3%, while in sixth place was the reading of newspapers. In listing radio personalities who rank highest as the people's favor-ites, Fortune commented: "Particularly to be noted is the fact that while reading newspapers is the favorite pastime of 7.1% of the population, news broadcasts elbow their way to thin'd place among a multitude of programs that are designed for pure enter-tainment value and Commentators Boake Carter, Lowell Thomas and Edwin C. Hill have a collective per-sonal following of 16.5% of the listeners. listeners

#### Northeastern Favorites

"In the Northeast, Lowell Thomas "In the Northeast, Lowell Thomas and Boake Carter actually rank in first and second places with Jack Benny third—in spite of the fact that the daily press in this section probably reports world news better and more abundantly than else-where. This has significant bearing upon journalism, for it seems to mean that world news edited by the town criers of the air has a much readier acceptance than news in cold print. Conceivably the freedom of print. Conceivably the freedom of the press may come to be an issue more academic than real."

the press may come to be an issue more academic than real." Of particular interest to broad-casters is the analysis of answers to the question "Do the advertising parts of radio programs annoy you?" Commercial announcements do not annoy 38.1%, do annoy 15.1%, and some of the announce-ments annoy 44.7%. Forty-nine per cent said that they would use their radios more if there were less ad-vertising and 42.2% said they would not. In connection with an article on the NBC Toscanini series which began Christmas night, the Fortune survey showed that 42.5% pre-ferred popular music, 21.5% classi-cal, 31.3% both and 4.7% neither. It was concluded that more than half of the United States likes to listen to classical music and that

listen to classical music and that more than one-fourth can identify Toscanini. The survey concluded that 88.1% of all U. S. homes, in-cluding more than half of the negro homes, have radios.

#### Gallup Survey

Results of the Gallup survey indicate that America's ownership of radio sets as of Jan. 1, 1938, was 24,206,000, or 77% of the nation's estimated 31,500,000 families. Com-piled by the Institute of Public Opinion under the direction of Dr. Opinion under the direction of Dr. George Gallup, director of research for Young & Rubicam Inc. and head of the Institute [BROADCAST-ING Dec. 15], survey figures show that 85% of urban families are ra-dio owners, while only 56% of farm families and 78% of the families in towns under 2,500 population

Fr. Coughlin Completing **Plans for New Program** To Take the Air Jan. 9 PLANS are nearly complete for the start of the new Fr. Charles E. Coughlin series, which will go on the air Jan. 9, according to pres-ent plans. However, time has not yet been cleared on several sta-tions, and the exact starting time is not not accound. The lineau of stayet been theared on several sta-tions, and the exact starting time is not yet assured. The lineup of sta-tions may be that originally slated to carry the talks before they were cancelled in October. This hookup included 36 stations, almost all east of the Mississippi. Most of the Quaker State Network, the Colon-ial net, and much of the WLW line were included in this hookup. Original plans had indicated the likelihood of an evening program during the week, something entire-ly new in the programming of the radio priest. However, it was found that Sunday afternoon time was probably available, and since then planning has developed along those lines. The placing is through Air-

lines. The placing is through Air-casters Inc., Detroit agency. Leo Fitzpatrick of WJR, Detroit, Fr. Coughlin's radio adviser for some time past, is again helping him.

#### **Editors Choose Stars**

CHARLIE McCARTHY won the CHARLIE McCARTHY won the recent radio poll of 400 radio edi-tors conducted by Motion Picture Daily as the "outstanding radio star of 1937." Jack Benny, who held the 1936 title, remains in first place as radio's best comedian with Charlie in second place and Fred Allen running third. The Lux Ra-dio Theatre was voted the most popular dramatic serial and the best nonular orchestra was that of best popular orchestra was that of Andre Kostelanetz. In classical music the New York Philharmonic led the list with the Philadelphia led the list with the Philadelphia orchestra a close second in the polling. Don Wilson repeated his 1936 victory and was chosen the best announcer of 1937. The vot-ing for "best commentator", which title was won by Boake Carter, would have placed President Roose-velt high in the list had votes for him counted in the poll.

# To Air Programs

CBS Survey Shows 95% Have

**Regular Access to Sets** 

Regular Access to Sets COLLEGE students are among the most faithful listeners to radio, yet relatively few of them permit it to interfere with their study-ing even though they listen up to three hours per day. These facts were ascertained by CBS in a survey conducted among representative groups from every class, freshman through senior, at 18 colleges and universities. The findings have been published in a pamphlet *Radio Goes to College* re-leased to CBS stockholders. The survey showed that over 95<sup>r/r</sup>

leased to CBS stockholders. The survey showed that over 95% of all students today have regular access to radio; 64.4% of the men students and 54.3% of the women students, it was also disclosed. have their own radios in their rooms. The other students listen regularly in dormitory "common rooms" at fraternity or sorority houses, in their friends' rooms, etc. "Frankly," reports CBS, "we were surprised at the answer. Sur-prised because we had in mind the demands of classroom and study, of intramural and intercollegiate and social activities."

#### How They Listen

It was found that the average male student reported listening to the radio 3 hours each day, the average woman student 2 hours and 52 minutes. The bulk of listen-ing is done in the evening, but there was an average of almost a half-hour of morning listening and 45 minutes of afternoon. Of all the students interviewed.

minutes of afternoon. Of all the students interviewed, the report continues, 65.3% said they listen frequently for enter-tainment and relaxation, 26.4% occasionally for the same pur-pose; 33.5% to special events, cul-tural and informative programs; 41.2% occasionally to these—thus paralleling quite closely the divi-sion of the entire broadcasting schedule into these categories and showing that students listen in bal-

schedule into these categories and showing that students listen in bal-anced fashion. When asked to name their favo-rite programs, students mentioned more than 700 different programs and CBS proudly points out that 15 of the top 25 selected were CBS features. In asking how radio might comflict with or overlap periods of reatives. In asking now rando might conflict with or overlap periods of study, the survey showed that while some overlapping takes place most students seldom or never lis-ten while studying. The exact figures were:

Listen:	Men	Women	Total
Frequently	18.8%	19.7%	19.16
Occasionally	19.7	19.5	19.6
Seldom	23.7	21.8	23.0
Never	37.8	21.8	38.3

The 18 institutions where the survey was made were Bryn Mawr, Wellesley, Smith, North-western, Syracuse, Vanderbilt, and the state universities of Kansas, Louisiana, Michigan, Minnesota, North Carolina, Pennsylvania, Ohio State, Princeton, Southern Califor-nia, Texas, Washington and Wis-consin. consin.

ELLIOTT ROOSEVELT, vice-presi-dent of Hearst Radio Inc., is sched-uled to discuss facsimile broadcasting before the convention of the Oklahoma Press Association in Oklahoma City. Jan. 20-22.

Page 20 • January 1, 1938

# BIG, YES!

**B**EING reasonably modest guys, the hardest job we have here at WHO is to tell you about the really tremendous job we're doing, without seeming to "pile it on". And yet the story must be told — not to blow ourselves up, but primarily to let you know what you can expect from us. . . . So, modesty aside—

The fact is that WHO covers IOWA PLUS because we give you nearly 90% of the nighttime power of all the *twelve* Iowa commercial stations combined . . . — the fact is that the other eleven stations would cost you in the proportion of over \$3.50 for every \$1.00 spent with WHO . . . — the fact is that for every 600 listeners in Iowa, WHO has an additional 400 in other states—with heaviest concentration, of course, in the surrounding Corn Belt — the PLUS of "Iowa Plus".

The diagram at the right tells the story about power and costs in Iowa. Shall we send you some mail-return maps, too?

WHO operates on a clear channel, at 50,000 watts, full time. The combined nighttime power of all eleven other commercial stations in Iowa is 6,400 watts .... The cost-figures speak for themselves.

## Band Leaders May Kill Golden Goose-An Editorial

THE musicians, it appears, finally have made their "radio killing" to the tune of about \$3,000,000 additional a year. And now the line appears to be forming on the right—the array of other groups who earn their livelihoods from broadcasting and who currently are having their preliminary flirtations with union organizers.

As a matter of fact, the technicians already are fairly well organized, largely under the CIO banner, and announcers, particularly in the major centers, seem to be gearing themselves for a campaign.

There really isn't any limit to the extremes to which these and other groups in broadcasting may go to extract more dollars from the industry. The idea, of course, sprang from the phenomenal success of ASCAP five years ago in completely subjugating broadcasters by demanding—and procuring—a percentage of station gross receipts for the right to perform ASCAP music, despite the fact that perhaps half of the program time and as much of the revenue, has no relationship whatever to ASCAP-controlled music.

Keeping in mind that these unionization activities are very real, we would like at this time to divert attention to another incipient ASCAP-like movement and to advance suggestions for possible counter-activity. It has to do with the performance of phonograph records and the organized efforts of some "performing artists" to collect royalties from stations for such performances.

We choose this, because several important recording artists have assisted us in writing this dissertation. Several suits against stations to enjoin them from performing their recordings have been launched by such band leaders as Waring and Lyman and by the crooner Frank Crumit, as well as others. These were instituted by the National Association of Performing Artists, of which Waring is president. Then there is the American Society of Recording Artists, which seeks to collect from stations, according to their power classifications, from 5 to 15 cents per side per performance, obviously working hand-in-glove with NAPA.

But there hasn't been any final adjudication in the courts of this issue; consequently the right to collect royalties has not been established. Only in Pennsylvania, in the case of Waring vs. WDAS, has there been an adjudication — against the station — preventing it from performing Waring records without his permission.

What are the facts about radio performances of these records? Practically every prominent orchestra in the country today owes its position to the "radio buildup". Phonograph record performances, notably over the smaller stations, have been largely responsible. The popularity thus attained has resulted in the retention of such bands on network sponsored programs, but more than that, in their booking at fancy figures in vaudeville performances by nationwide circuits.

Don't take our word for it. "Fats" Waller, the colored crooner and pianist, says that before his records were performed on the air he had never played in a "white theatre". Now he is being booked at \$7,000 to \$8,000 per week all over the country. And he says: "Please, radio, keep playing my records."

Mal Hallett says he is heartily in favor of radio performance of his records and he agrees "that records that have been broadcast have made many a leader very popular." Paul Pendarvis asserts he appreciates the fact that performance of his records creates a demand for his band, and requests that, at all times when his recordings are broadcast, his name be mentioned.

Johnny Johnson also "appreciates the publicity received from radio stations broadcasting our records." And Kay Kyser says that he has not yet made up his mind, but that he offers no objection at this time to use of his recordings.

Which brings us to our point: If the members of NAPA and of ASRA object, as they do, to performance of their records by radio, there isn't any reason why stations should not acquiesce. Radio would be pleased to refrain from giving them the buildup.

Leaders who are not members of the associations and who do not object to use of their names, of course, can be given the publicity accruing from announcements of their renditions.

And some broadcasters suggest that stations might go a step further. They might elect to discontinue to broadcast music of protesting orchestras picked up and fed on a sustaining basis through networks! After all, why should stations popularize individuals who have publicly proclaimed their intention to combat radio even to the extent of taking court action? There are plenty of high quality transcriptions available, and in addition plenty of band leaders who do not take the same position as some of their colleagues—who owe their success almost entirely to radio.

We hazard the guess that it wouldn't be long before the recalcitrants realized their folly and voluntarily lifted their self-imposed ban!

#### CBS 1937 BILLING BOOSTED BY 24.4%

CBS figures for the record-breaking 1937, as compared with 1936, reveal a 24.4% increase in gross billings, increases in total billings for 13 different industries and a 25.9% greater average expenditure per client. Total 1937 billings were \$28,828,058, an increase of \$5,659,-910 over 1936. The \$8,728,312 spent for daytime gross billings in 1937 almost doubles the amount spent for morning and afterease divertising in 1005

The \$8,728,312 spent for daytime gross billings in 1937 almost doubles the amount spent for morning and afternoon advertising in 1936. Soaps and house hold supplies gained 83.6% over 1936; cigars, cigarettes and tobacco, 64.6%; automotive accounts, 54.6%. Following is a detailed classifiaction build during the December

#### RecordingsMayBeTransportedAbroad Under Decision by Appellate Tribunal

A RULING which appears to have the effect of permitting indiscriminate transportation of phonograph records and transcriptions across international borders without prior authority of the FCC was handed down Dec. 16 by the U. S. Circuit Court of Appeals in New Orleans in the case of Norman Baker, ex-American broadcaster now identified with the Mexican border station XENT, across from Laredo, Tex.

In deciding Baker's appeal from the decision of the District Court in Laredo which held he had violated the Communications Act and particularly the provision designed to prohibit transportation of recordings without FCC authority, the three-judge circuit court reversed the lower court. In effect, it held that the statute was too vague and indefinite and that it did not apply to recordings made on the American side and then physically transported across the border.

#### Merits Not Affected

The court did not go into the merits of the indictments against Baker and his associate E. R. Rood, but simply based its reversal on the conclusion that the statute was not properly construed below. Section 325 (b) of the Communications Act was involved. It reads: "No person shall be permitted to locate, use or maintain a radio broadcast studio or other place or apparatus from which or whereby sound waves are converted into electrical reproduction of sound waves produced, and caused to be transmitted or delivered to a radio station in a foreign country for the purpose of being broadcast from any radio station there having a power output of sufficient intensity and being so located geographically that its emissions may be received consistently in the United States, without first obtaining a permit from the Commission upon application therefor."

Holding that the defendants had no place and no apparatus in Texas for "reproducing the sound waves" and that they only recorded them there, the court added that it may be that what was done was "intended to be prohibited, but the intention is not expressed with the clearness that is required in a penal law." Then it concluded that the law as written, "does not prohibit the recordation of sound waves in the United States and sending the record to Mexico to have the sound waves there re-

#### **ASCAP's Radio Melon**

THE RADIO industry during 1937 accounted for approximately 62% of the gross income of the American Society of Composers, Authors & Publishers, according to John G. Payne, ASCAP general manager. Although complete data is not yet available, the 1937 gross income will total about \$4,500,000, he said. In 1936 the ASCAP gross income was \$4,400,000 with \$3,600,000 distributed to its membership. To the membership will be distributed approximately \$4,500,000 dire 1937 gross income. In 1936 ASCAP's income from radio was also 62% of its total.

#### **National Biscuit on NBC**

NATIONAL BISCUIT Co.. New York, which has been sponsoring Dan Harding's Wife on WMAQ, Chicago, for the past year, on Jan. 3 will start sponsorship of the program on 13 NBC-Red stations. It has been heard on these stations on a sustaining basis. Agency is Mc-Cann-Erickson Inc., New York.

produced and broadcasting."

In the proceedings in the lower courts, the defendants were convicted of violation of the law. While licensed in the name of a Mexican corporation, Baker is recognized as the operator of XENT, broadcasting with reputed power on 150,000 watts on a midchannel in the 910 kc. region.

# Will Be a Good Year for WWJ Advertisers

The fundamental reasons why 1938 will be a good year for WWJ advertisers in Detroit are:

Detroit, Wayne County, Michigan, is America's third market, measured by both payroll and personnel employed.

Detroit's 3.67%\* of the National payroll in business and industry is considerably higher in proportion to the number of people employed than that for any other major city except New York, indicating a high wage scale for this city's industrial workers. During 1937 industrial leaders in Detroit actively participated in an expansion program involving expenditures of \$100,000,000!

WWJ is Detroit's favorite radio station. Actual survey reveals that 39% of the homes of the city prefer WWJ to any other station in this important market!

Investigate the extraordinary possibilities offered by Detroit and WWJ before picking your "must spots" for 1938. \*1935 U. S. Census of Business, published in June, 1937

#### **Roosevelt** Praises **McNinch** Progress

#### **Voices Satisfaction as New FCC Chairman Makes Report**

FOLLOWING luncheon with Presdent Roosevelt at the White House Dec. 17, Chairman Frank R. Mc-Ninch of the FCC told newspapermen that the chief executive re-marked he had done a "bully job" in cleaning up affairs at the Com-mission since taking over its helm as emergency chairman on Oct. 1. It was the chairman's first report on radio matters since he was drafted by the President to assume the chairmanship, although he has been consulted by the White House on numerous occasions since then in connection with public utility and power matters.

The President expressed "a great deal of satisfaction" with the results thus far accomplished, Mr. suits thus far accomplished, Mr. McNinch declared. He enumerated as the major achievements since the beginning of his service the abolition of divisions; the introduc-tion of a policy whereby no sug-gestions may be made from the outside unless they are of record; the delegation of duties to indi-vidual commissioners in lieu of the vidual commissioners in lieu of the division form of operation; and the high frequency allocations from 30,000 to 300,000 kcs.

#### **Revision** of Rules

With those preliminaries out of the way, the FCC plans to devote its major attentions to revision of its major attentions to revision of its rules and regulations. It is con-fidently expected the revised rules will be available early in the new year. Of greatest significance, it is expected, will be technical revi-sions to permit increases in night power of regionals and locals to 5,000 watts and 250 watts, respec-tively, to conform with the terms of the Inter-American treaty on broadcasting worked out in Ha-vana during the conference which ended Dec. 13. [See page 19.] The FCC is expected soon to adopt procedure whereby individ-ual cases, after hearing by examin-

ual cases, after hearing by examiners and oral arguments, will be assigned to individual commissioners for study and recommendation to the full Commission. This prac-tice, followed in the courts, would mean that all commissioners, pos sibly by a rotation process, would be given cases in all phases of FCC jurisdiction, including broadcasting, telephone, telegraph and related matters.

#### **Holiday Apple Series**

WASHINGTON STATE Apples Inc., Seattle, Wash. (apples) staged a pre-Christmas campaign staged a pre-Christmas campaign over approximately 25 key stations in the United States, employing one-minute dramatized announce-ments. The campaign started ten days preceding Christmas and con-cluded the day before. Agency is J. Walter Thompson, San Francisco.

#### **Clairol Plans Spots**

CLAIROL Inc., New York (hair rinse), now sponsoring Let's Go Hollywood weekly half-hour show on 8 stations of the California Ra-dio System, will place transcrip-tions of the program on about 30 stations early in January. Agency is Wm. H. Rankin Co., New York.

Page 24 • January 1, 1938

1871-Judge Bingham-1937

1908-Pete Monroe-1937 (at right)

RADIO MOURNS-The passing of Judge Robert Worth Bingham, owner of WHAS (left), and Herman (Pete) Monroe, WHAS chief an-Bingham, owner of WHAS (left), and Herman (Pete) Monroe, WHAS chief an-nouncer. In the photograph above, one of the latest taken, Judge Bing-ham, who was U. S. Ambassador to the Court of St. James, is shown in the studios of the British Broadcasting Corp., broadcasting a speech being relayed to CBS, of which WHAS is an outlet. In the right photo, "Pete" Monroe is at the right, with Foster Brooks of the WHAS announcing staff, sending flood messages from the head of the Louis-ville & Portland Canal during the Ohio River flood disaster of last winter.

DEATH took its toll twice within as many days last month at WHAS, Louisville, when on Dec. 19 Judge Robert Worth Bingham, 66, American Ambassador to Great Britain, publisher of the Louisville Courier-Journal and Times and founder of Journal and Times and founder of WHAS, passed away at Johns Hopkins Hospital, and on Dec. 20 Herman F. (Pete) Monroe, 29, WHAS chief announcer, died in a Louisville hospital after suffering four days from a blood stream infection.

Less than a month earlier, How-Less than a month earlier, How-ard E. Campbell, WHAS chief en-gineer, was found dead Nov. 23 beside his automobile in his ga-rage near the WHAS transmitter, overcome by carbon monoxide gas.

In the passing of Judge Bing-In the passing of Judge Bing-ham, who is succeeded as chief executive of the newspaper and radio properties by his son Barry Bingham, radio lost a pioneer and friend. It was in April, 1922, that Judge Bingham visualized "a radio Judge Bingham visualized a radio telephone broadcasting station" for Louisville and its environs, and secured a license which speci-fied "360 meters for broadcasting music and like matter; 485 meters for broadcasting weather reports." Always under his guidance, the station grew from 500 to 50,000 watts in power, becoming one of the country's most important outlets and enjoying particularly the esteem of its community. Judge Bingham always took a keen personal interest in the station and always encouraged its technical development, assigning his son to work under its manager, Credo Harris, shortly after he had left college.

#### A Pioneer Station

The same inspiration for public service that prompted Judge Bing-ham to give his community a radio when the country had only station a handful led to establishment of extension studios in Kentucky colleges and universities for regular broadcasts. It was his organization that carried on to do the emergenthat carried on to do the enlergen-cy communications work handled by WHAS during the Ohio River flood in January and February, 1937. In recognition of its flood work, WHAS received the Colum-bia Distinguished Merit Award as well as the acclaim of President

well as the acclaim of Freshent Roosevelt and the Red Cross. So moved was Judge Bingham on receiving in London reports of flood conditions in Kentucky, that he hurried home to render what help he could. It was Judge Bingham who was selected as principal nam who was selected as principal speaker at a mass meeting to bolster morale for the task of re-construction, and it was Judge Bingham who, he ar in g WHAS praised by all speakers preceding him on the program, took occa-sion to pay tribute to the excel-lent work done by WAVE, the other Louisville station other Louisville station.

#### Monroe Won Plaudits

It was during the Ohio River flood that "Pete" Monroe gained his greatest fame. He and the rest of the WHAS staff alternated in broadcasting appeals for instruc-tions to relief workers as the station remained on the air for 188½ consecutive hours. He had been an announcer for WHAS since May, 1931.

"Pete" Monroe's voice was stilled on the second anniversary of his marriage to June Cate, known throughout Kentucky for her fine horsemanship. He was associate editor of the National Horseman and counted among his friends many of the nation's celebrities in the horse show world as well as in radio.

#### WSYR Gives Bonus

WSYR, Syracuse, staged its annual family party Dec. 24 and distrib-uted a profit-sharing bonus of \$4,000 to the staff of 38, based on length of service and size of regu-lar salary. In addition, the two women who have been with the station for the longest time were awarded two-week trips to Florida and each member of the staff received a turkey as well as smaller gifts.

#### Conti to Use Radio

CONTI PRODUCTS Co., New York, plans to use radio during 1938 for its castile soap, shampoo and olive oil cream. Agency is Bermingham, Castleman & Pierce, New York.

#### WPG 1130 SWITCH APPROVED BY CITY

AN AGREEMENT, subject to FCC approval, whereby WPG, At-lantic City municipally owned station, will switch its frequency from 1100 to 1130 kc. and 1,000 watts in lieu of its present 5,000 watts power, was signed Dec. 16 by Acting Mayor Frank B. Off, of Atlaning Mayor Frank B. Off, of Atlan-tic City, consummating several months of negotiations between Arde Bulova, New York watch manufacturer and broadcaster, and municipal officials. A consideration of \$75,000 to de-fray the cost of transfer of the present station to a new location, and to compensate it for installa-tion of new equipment and other

tion of new equipment and other expenses, is involved in the trans-action. Transfer of WPG to the 1130 kc. frequency would open the way for consolidation of WOV, New York 1,000-watt station now New York 1,000-watt station now owned by Mr. Bulova, and WBLL, New York time-sharing station operating on the WPG 1100 kc. channel, also Bulova-owned as a full-time unit on 1100 kc. subject to FCC approval. WPG, now oper-ating full time except for two im-content overping hours used doily portant evening hours used daily by WBIL, would become a full time regional station under the projected plan. Mr. Bulova has in mind creation

of an Atlantic Seaboard Network, which probably would be called the International Broadcasting System, coincident with the pro-curement of a full-time outlet in New York City on 1100 kc. through the consolidation of the two sta-tions and the WPG switch.

#### **Pepsodent Perfects Plan To Start Mickey Mouse**

WHEN the Mickey Mouse Theater of the Air starts under sponsorship of Pepsodent Co. (toothpaste), on Jan. 2, NBC will resume broad-casting from the studio theater in which it staged its first Hollywood network appearements approximately

which it staged its first Hollywood network program approximately five years ago. The little theater is on the lot of RKO Radio Pictures Inc., where the NBC Hollywood studios were first quartered. The program, to be heard Sun-days, 2:30-3 p. m. (PST), on NBC-Red network, will include all the characters of the Walt Disney ani-mated cartoons. Disney will be im-pressario of the series. Felix Mills is to direct the orchestra. They will be the only two persons on the weekly program given credit under their own names. Basil Loughrane, Lord & Thomas Chicago producer now on the West Coast, is to pro-duce the series. Carl Stanton of the agency's Hollywood staff will asagency's Hollywood staff will as-sist Dick Creedon, Ted Oslome and Glan Heisch are writers on the show. It is planned to transcribe the weekly program for release in England and Australia. Foreign language transcriptions are also being discussed.

#### Larvex Spring Spots

ZONITE PRODUCTS Corp., New York (Larvex moth-destroyer), will participate in women's programs on 37 stations during the spring house-cleaning season. Announce-ments will be made three days a week for eight weeks, beginning in the middle of March. Agency is McCann-Erickson, New York.

isteners .... where they count!

#### KLZ delivers them to Denver Merchants!

In their stores is where Denver merchants tally radio listeners. Counting customers is their way of counting listeners.

The radio station which best turns listeners into customers and delivers them to merchants in most profitable numbers is the station you'll find most of them using.

Because KLZ is the station in Denver which delivers most customers to the sales counter, department, furniture, jewelry, men's and women's stores all spend more of their radio money with KLZ than with any other station.

This is weighty evidence that KLZ is the station in Denver which is meeting the exacting requirements of the most result-demanding of all advertisers . . . evidence that KLZ is delivering listeners where they count.

AFFILIATED IN MANAGEMENT WITH WEY, OKLAHOMA CITY AND, THE OKLAHOMA PUBLISHING. COMPANY

Entire Radio Division, With Evans as Head, to Be Moved

THE entire radio division of Westinghouse Electric & Mfg. Co., headed by Walter E. Evans, will be moved on or about May 1 from

Chicopee Falls, Mass., to Balti-more, where the company has pur-chased the old plant of the Miller Safe Co. at Wilkins Ave. and Catherine St., about four miles south of the

downtown section Mr. Evans toward Washington. An office and laboratory structure is already under construction, and the plant will be opened as soon as it is completed.

Sixty-five families, including all radio technicians, will be moved to Baltimore where all radio engineerbattimore where all ratio engineer-ing, shop and sales activities will be centered. The plant will repre-sent a weekly payroll of more than \$12,000. Mr. Evans will continue his management of Westinghouse by addressing activities from Baltihis management of Westinghouse broadcasting activities from Balti-more, including supervision of the Westinghouse-owned but NBC-managed WBZ-WBZA, Boston-Springfield; KYW, Philadelphia, and KDKA, Pittsburgh, and also the Westinghouse-owned and oper-ated WOWO and WGL, Fort Wayne, Ind. Among the radio men accom-

Among the radio men accom-panying him will be S. D. Gregory, assistant manager of broadcasting, J. B. Rock, Ralph Harmon, Arthur Goodnow and Leslie C. Paul.

#### Will Go to Cairo

Mr. Evans will sail Jan. 4 on the Exeter with the American delega-tion for Cairo, Egypt, to attend the International Telecommunications Conference. He expects to be gone until March 1 or later, after which the active work of preparation for the moving will begin. Mr. Gregory will be in charge of broadcasting

during his absence. While Westinghouse does not manufacture equipment for commercial broadcasting stations, it manufactures considerable apparatus for the government and at present is working on a large contract for radio range beacons. It is understood the move from Chicopee Falls was largely motivated by the necessity of being closer to Washington.

#### **New Toledo Station**

TOLEDO'S new broadcasting sta-tion, the 100-watt WTOL, a day-time outlet on 1200 kc., will go on time outlet on 1200 kc., will go on the air on Feb. 1, according to Frazier Reams, president of the Community Broadcasting Co., li-censee. Manager is M. E. Kent, for-merly with WJBK, Detroit, and chief engineer is William Siegman, formerly with WXYZ and WJR, Detroit. The remainder of the staff has not yet been selected. Western Electric equipment is being used throughout, with a Blaw-Knox radi-ator. Maurice Johnson, young To-ledo artist, is executing a 25x13-foot mural in the studios in the Bell Bldg. penthouse, expected to become one of the city's show spots.

#### Baltimore Is New American Group to Attend Conference Michigan Network Westinghouse Site At Cairo Is Appointed by the President

WITH allocations of ultra-high frequencies for broadcasting and related pursuits of greatest interest to the broadcasting industry, the International Telecommunications Conference, meeting each five years, will convene Feb. 1 in Cairo, Egypt. The American Delegation, named Dec. 17 by President Roose-velt, sails Jan. 4 on the steamship *Exeter*. The conference is expected to last about four months.

Delegates named by the Presi-dent include Senator Wallace H. White Jr., (R-Maine), chairman; Capt. S. C. Hooper, Navy; Lieut. E. K. Jett, newly named FCC chief engineer, and Francis C. deWolf, Treaty Division, State Department.

#### Craven Going Later

Comdr. T. A. M. Craven, who headed the American delegation to the recent Inter-American Radio Conference at Havana [BROADCAST-ING, Dec. 15], has also been named a delegate but the pressure of his work in Washington has rendered it impossible for him to leave with the delegation sailing Jan. 4. He is trying to arrange his schedule to leave in latter January and to arleave in latter January and to ar-rive in Cairo by Feb. 10. His selec-tion followed initial plans to keep him at home to assist Chairman McNinch in the FCC reorganiza-tion task and in preparing new policies and new rules and regulations. but the State Department insisted but the State Department insistence that he be sent. This insistence grew largely out of the strong de-mand made by the Latin American countries at the Havana Confer-ence, at which he was the leading figure, that he lead them as a bloc in protecting radio rights of the nations of the Western Hemisphere.

Technical advisors named a re Lieut. Col. David M. Crawford, Arnuy Signal Corps; Comdr. Joseph R. Redman, Navy; Comdr. J. F. Farley, chief communications offi-cov Corect Cound: J. H. Simean com-Farley, chief communications offi-cer, Coast Guard; L. H. Simson, com-munications specialist. Department of Commerce; E. M. Webster, act-ing assistant chief engineer; Ger-ald C. Gross, Chief of Internation-al Section, Marion H. Woodward. Senior Telegraph Engineer, and William G. Butts, chief of tariff section, all of the FCC. In addition, Joseph C. Satterthwaite, second sec-retary, American delegation, Bag-dad, and Arthur L. Rich ards. American vice-consul, Cairo, were named secretary general and secre-tary respectively of the American delegation. delegation.

It is expected the delegation will keep in close contact with the FCC, probably via naval communications, during the conference.

Sailing with the delegation will be a number of representatives of broadcasting organizations and commercial companies in this country who will participate as observ-ers. The networks are expected to delegate their European represen-

delegate their European represen-tatives as observers. Possibly the most significant as-pect of the conference from the broadcasting standpoint will be the allocation of high frequencies for broadcasting purposes. The Inter-American Radio Conference held in Havana during November and ear-ly December agreed to go to the Cairo sessions as a unit in sup-port of certain principles of inter-national allocation, including allo-

cation of the band 25,000 to 27,-000 kc. for broadcasting purposes. Those already slated to attend the session as observers for com-mercial companies include E. K. Cohan, technical director of CBS; Dr. C. B. Jolliffe, chief frequency manager of RCA, to represent that company and its subsidiary, NBC, and Paul M. Segal, attorney and general counsel of the American Radio Relay League. In addition, communications c o m p a n y repre-sentatives planning to attend in-clude Paul A. Goldsborough, presi-dent, Aeronautical Radio; C. J. clude Paul A. Goldsborough, presi-dent, Aeronautical Radio; C. J. Pannill, president Radiomarine Corp. of America; A. J. Costigan, traffic manager, Radio Marine: Loyd A. Briggs, and Harry Chad-wick, both of RCA Communica-tions stationed in London; Dr. Frank B. Jewett, president, Bell Telephone Laboratories; C. O. Bickelhaupt, A T & T assistant vice-president; Lloyd Espenschied, Bell Laboratories; S. M. Ryan, A T & T radio engineer; L. F. Morehouse, assistant vice-president at London of A T & T; H. H. Buttner, assistant vice-president, I T & T; Alexander Davidson, I T & T, London; B. H. McGurdy, A. 1 1 & 1; Alexander Davidson, 1 1 & T. London; B. H. McGurdy, A. M. Stevens, Capt. F. G. Loring, P. E. Erikson and Morgan Heiskell, for Commercial Cables; Haraden Pratt, Mackay Radio; K. B. War-ner, executive secretary, ARRL; Werther Secretary, ARRL; Walter C. Evans, Westinghouse E. & M. Co.

WIL Seeks Rehearing of Grant to Star-Times A PETITION for rehearing of the

appeal of WIL, St. Louis, from the decision of the FCC granting the St. Louis Star-Times a construc-

tion permit for a new regional sta-tion in St. Louis to operate on 1250 kc., was filed in the U. S. Court of

Appeals for the District of Colum-bia Dec. 23 by counsel for WIL, Louis G. Caldwell, Donald C. Bea-lor and Percy H. Russell. The court last month suspended the FCC de-cision granting the Start The start

last month suspended the FCC de-cision granting the Star-Times the facility (BROADCASTING Dec. 15). The petition held among other things, that the court completely overlooked the WLL contention that the Commission failed and refused to consider WLL's petition for re-

hearing before it and that the court failed to note that WIL was not

given any hearing upon its peti-tions, that neither of the petitions

was denied or even considered but were simply dismissed for "a sup-posed want of jurisdiction".

Paley at White House

WILLIAM S. PALEY, president of CBS, visited President Roose-velt Dec. 21 at the White House. The nature of the conversation was not disclosed, but it is understood

not disclosed, but it is understood that broadcasting policy matters were not discussed in any detail. Mr. Paley, accompanied by Harry C. Butcher, CBS Washington vice-president, also visited Chairman Frank R. McNinch, of the FCC, whom he met for the first time,

and other members of the Commission. President Lenox R. Lohr, of NBC, was a visitor at the White House the preceding week.

# To Raymer Jan. 1

Group Enjoyed Best Season in 1937 Under WXYZ Leadership

WITH the naming of the Paul Raymer Co. to represent WXYZ, Detroit; WOOD, Grand Rapids, and the Michigan Network, it was an-nounced that WWJ, Detroit, for-merly represented by Raymer, had appointed Craig & Hollingbery to represent it in the national field. It was originally planad to have Devi was originally planned to have Paul Raymer take over WXYZ and WOOD on Jan. 15 but by mutual arrangement this was moved up to Jan. 1.

Michigan Network, whose six member stations other than WXYZ and WOOD will not be represented individually by Raymer, enjoyed its biggest season during 193, the leadership of its key station (WXYZ) in showmanship and mer-(WAYZ) in showmanship and mer-chandising being reflected in the largest list of commercial accounts in its history. WXYZ was the sub-ject of a series of photos in the Dec. 27 issue of *Life*. Its 1937 advertisers were:

## Support for NAB in Changes Is Voiced From the Industry

Future Policy of FCC to Be Outlined by McNinch in **Convention Address; Spence Drafted as Chairman** 

SPONTANEOUS support for the sweeping NAB reorganization plan projected last month by the special NAB committee assigned to that

task has developed, with all signs pointing to adop-tion of a project al ong the line recommended at the 1938 annual convention, slated for the Willard for the Willard Hotel, Washing-ton, Feb. 14-16. Heeding the Committee's re-

Mr. Spence quest for comments on the report, about a score of station operators already have written Philip G. Loucks, Washington attorney serving as committee counsel, wholeheartedly endorsing the plan. Numerous others have given their verbal assent. Sugges-tions, generally of a miscellaneous character, have advocated altering certain phases of the comprehensive project and will be considered by the committee at a meeting sched-uled for Jan. 5, at which time the final report will be drafted for submission to stations at least 30 days in advance of the convention.

#### Interest in Speakers

Proposing retention of a paid president, abolition of the manag-ing director's office, and creation of a half-dozen executive service posts beneath the new executive, the plan beneath the new executive, the plan will come before the February con-vention for action. If it is adopted, then all present officers, including the board of directors, would automatically retire. A new slate of 21 board members, 15 designated from each of 15 radio districts into which each of 15 radio districts into which the country would be divided, and six elected "at large" by the con-vention, would be voted in. The dis-tricts would hold their elections at the Washington convention, should the plan be adopted, so as to ef-fectuate the new organization at once [BROADCASTING, Dec. 15]. While the recorrenjustion plan is

While the reorganization plan is while the reorganization plan is of fundamental significance, since it is generally recognized that un-less one is adopted the NAB as such faces disintegration, with the network affiliated stations already pledged to form an association of their own, there nevertheless is intense interest in other phases of the convention agenda, notably the principal speakers.

Chairman Frank R. McNinch of the FCC for the first time will come face to face with broadcasters as a group, and he is expected to enunciate future policy in connection with broadcast regulation, cov-ering such matters as programs, diversity of ownership and stand-ardized methods of industry fiscal operation. From Chairman Burton K. Wheeler, of the all-important Senate Interstate Commerce Com-mittee, in which radio legislation originates, the convention may receive a birds-eye view of the legis-lative outlook, and more particular-ly his ideas about treatment of all sides of public issues over the air.

The third possibility as a speaker is Bruce Barton, newly-elected Congressman from New York, chairman of Batton, Barton. Durstine & Osborn Inc., an author of note and already talked about as a possible Republican presidential nominee.

#### Spence Drafted Again

Returning to the convention fold after two years of absence is Ed-win M. Spence, general manager of WBAL, Baltimore, who has been drafted for service as chairman of the convention committee. For five years-during the entire tenure of Mr. Loucks as managing director —he served in that capacity. The Reorganization Committee recomfor that post, and his appointment is a virtual certainty.

The reorganization committee, pursuant to the plenary powers given it at the special NAB convention in New York in October, recommended holding of the meeting in Washington on the February dates following its meeting in Washington Dec. 8 and 9. NAB board ratification is a virtual cer-tainty. James W. Baldwin, NAB managing director, on Dec. 20 sent managing director, on Dec. 20 sent a memorandum to his board on these recommendations. He made no recommendation with respect to the dates, but added that he fav-ored a city in the Midwest rather than Washington because it offered greater advantages to the ma-

jority of the members. He recommended approval of the list of speakers proposed by the committee, and endorsed the sug-gestion for Mr. Spence as convention committee chairman.

tion committee chairman. Further study of revision of dues to defray the anticipated added cost of NAB operation under the reorganization plan is being pur-sued by a subcommittee of the Re-organization Committee headed by John Shepard, 3d, Yankee Network president. The plan proposed doub-ling of present dues to buing in boint Disparts, bd; ha inter retwork president. The plan proposed doub-ling of present dues to bring in \$250,000 a year based upon income brackets of stations, with a mini-mum of \$10 per month and a maxi-mum of \$500. It is felt, however, that a more workable system, prob-ably beginning at \$5 per month for stations doing less than \$10,000 a year can be devised. Members of the Reorganization Committee, in addition to Messrs. Shepard and Loucks, are Edwin W. Craig, WSM; Walter J. Damm, WTMJ; Ed Craney, KGIR-KPFA: Edward A. Allen, WLVA, and Mark Ethridge, WHAS, as an ex-officio member.

officio member.

#### **Michigan's Plans**

THE State of Michigan has ap-pointed Fred M. Randall Co., Detroit, as agency to handle the funds allocated by the State for tourist advertising. The legislature appro-priated \$100,000 to be used in 1937 and 1938, Very little of this money and 1938. Very little of this money was used in 1937 when a hastily-placed series of spot announce-ments was aired over a limited number of stations. Although most of the appropriated money for next year of which the balance of the \$100,000 allocation will be avail-able, is already earmarked for mag-azine expenditure, the likelihood is that some will find its way into ra-dio channels. dio channels.

TO FIND out the reactions of bankers to radio advertising the Financial Advertisers Assn., Spo-kane, Wash., is conducting a broad survey among its members. Yet an-other purpose is to develop the sur-vey into a portfolio that will asvey into a portfolio that will as-sist any financial advertising man in building or improving a radio program.

The questionnaire being distrib-uted by Jos. F. Cornelius, advertis-ing manager of the First National Bank, Spokane, is both searching and inclusive. Not only does it seek to learn the number of banks now using radio, but it inquires as to program length, stations selected and listener resonase. Ouestions and listener response. Questions concerning the merchandising of programs and promotional material also included.

"Do you believe radio advertising should be a part of a well rounded advertising program for most banks," the questionnaire a sks. "Please list on the reverse side the names of banks and financial institutions that to your knowledge are using or have used radio, mention-ing the name of the person in charge of the program, if known to you. Also, please attach to this questionnaire a copy of one of your continuities and several commercial announcements."

#### **TOSCANINI DEBUT ON NBC ACCLAIMED**

ARTURO TOSCANINI, famed ARTURO TOSCANINI, famed conductor, made his debut for the season at 10 p. m. Dec. 25 in the first of a series of 10 Saturday night broadcasts in which he is di-recting the new NBC symphony un-der a \$40,000 contract. Both Red and Blue networks were linked for the broadcast originating in Radio the broadcast, originating in Radio City before an invited audience of 1,400 and fed to nearly 150 sta-tions as well as shortwaved to the rest of the world.

Some 23,000 requests had been received for seats in Studio 8-H for the Toscanini series. At the first of the 10 broadcasts, guests were given programs printed on silk. The guest list included famous opera and concert musicians as well as many persons prominent in public life.

New York music critics were enthusiastic in their praise of the Dec. 25 performance and the quality of the symphony as a whole, as well as the various instrumental sections.

#### WGVA Starts April 1

CONSTRUCTION of the new WGVA, Indianapolis, was sched-uled to start early in 1938 under the direction of Glenn Van Auken, Indianapolis attorney who on March 9 last secured a construction permit authorizing the 1,000watt daytime station on 1050 kc. RCA equipment has been ordered and the studios will be located in the Meridian Life Bldg., with the transmitter atop that structure. Mr. Van Auken has not yet selected his manager or staff. He expects to have the station on the air by April 1.

#### **NAB Sales Group Plans Discussions**

#### Will Meet in Washington Day Ahead of the Convention

THE NAB sales manager's group, renamed Broadcast Sales Direc-tors, was completely revamped when the executive committee of the organization held its annual mid-winter meeting at the Hotel Sherman, Chicago, Dec. 16. To provide for more frequent meet-ings by sales managers and greatings by sales managers and great-er flexibility of the organization, 15 sectional groups were created whereas only six sectional groups existed in the past. Meetings will be held by the sectional groups during January, eliminating all preliminary discussion when the NAB convention is held in Wash-ington Feb 14. Realizing that the NAB convention is held in Wash-ington Feb. 14. Realizing that the NAB reorganization will be the main topic of discussion at the Washington meeting, the sales manager's will convene in Wash-ington a day ahead of the regular convention to consider their own convention to consider their own problems.

#### Topics of Discussion

The following topics will be discussed at the sectional meetings: (1) what compensation should be

cussed at the sectional meetings: (1) what compensation should be given program and transcription production campaigns; (2) sales-men's compensation; (3) distribu-tion of compensation between na-tional reps and local salesmen; (4) rate structure: local, regional and national rates, (b) single rate, (c) time and hour discounts, (d) single rate, (e) contiguous rate for continuous programs only. Regarding sales problems the following topics will be discussed: (1) How to keep salesmen work-ing; (2) how to sell new ideas to salesmen; (3) salesmen's reports; (4) methods of sales promotion; (5) where do new ideas come from; (6) contests for new ideas; (7) selling new ideas to prospects; (8) selling department stores; (9) selling specialty stores; (10) sell-ing small retail accounts. The Chicago meeting called by

ing small retail accounts. The Chicago meeting called by Lew Avery, commercial manager of WGR-WKBW, Buffalo, who is chairman of the NAB sales man-ager's group, was attended by the following sales managers: W. W. Warner, WAAB; Purnell Gould, WFBR; Craig Lawrence, KRNT & KSO; Herb Hollister, KANS; J. Leslie Fox, KMBC; Charles C. Caley, WMBD; J. Burryl Lottridge, KTUL; William R. Cline, WLS; K. W. Church, KMOX; E. Y. Flani-gan, WSPD. Following are the section al

gan, WSPD. Following are the sectional chairmen: W. W. Warner, WAAB; Jack Hammond, KYW; Purnell Gould, WFBR; Maurice Coleman, WATL, Jack Gross, KWVA; E. Y. Flanigan, WSPD; William R. Cline, WLS; J. Leslie Fox, KMBC; K. W. Hustod WCCO: Furnet Biches Husted, WCCO; Frank Bishop, KFEL; O. L. Taylor, KGNC; Charles Couche, KOIN; Charles Phillips, WFBL; Fred Palmer, KOY.

A NEW high-frequency experimental broadcasting station to operate on 40.300 kc. with 1,000 watts and to use both amplitude and frequency modulation, was authorized to Jan-sky & Bailey, consulting radio engi-neers of Washington, Dec. 22 by the FCC. The station will use a maximum band of 15,000 kc. for amplitude modulation and 200 kc. for frequency modulation in accordance with FCC rules.

Equipment to fit the job makes short work and lighter work of even the toughest assignments. And, because Station WTIC is a perfect fit for its job, it makes the business of reaching the Southern New England market not only easier but a lot more profitable for advertisers.

All of Connecticut and big sections of Western Massachusetts, Eastern New York and Vermont and New Hampshire are included in WTIC's primary and secondary coverage areas. This includes about 4,000,000 people —who rank, according to government figures, 15% above the national average in spendable income. They use this extra income to account for 23% more retail sales and 50% more food sales per capita than the country at large.

The way WTIC fits their listening habits is shown by Ross Federal's thorough check of these families. This survey found that at any given time 60.72% of these people can be expected to listen to WTIC—while only 24.37% listen to the next most popular station. This 149% greater coverage in the Hartford market is proving a mighty good buy in the experience of other national advertisers. It can prove profitable for you, too!

Write today for our new 32 page brochure giving full details on the Ross Federal Survey and facts about the WTIC billion dollar market.

#### **Arguments Listed** For Sale of WREN

#### Counsel for Kansas City Star And Station File Briefs

BRIEFS presenting arguments on BRIEFS presenting arguments on the proposed purchase for \$295,000 of WREN, Lawrence, Kan., by the *Kansas City Star*, operating WDAF, were submitted to the FCC Dec. 22 by Philip G. Loucks and Arthur W. Scharfeld, counsel for Kansas City Star Co., and George S. Sinith and Harry P. Warner, counsel for R. R. Jackman, et al, owners of WREN. The briefs had been asked at the Nov. 18 oral ar-guments before the FCC. Counsel for the Star interests

been asked at the Nov. 18 oral ar-guments before the FCC. Counsel for the Star interests took the position that acquisition of the station would not create or tend to create a monopoly in the Kansas City area, arguing that control of two out of seven stations in a metropolitan area is not a monopoly. A number of tables re-garding newspaper ownership of control of two or more stations in a community by the same parties were presented in an appendix. The adverse examiner's report in the case, the brief continued, con-travenes not only the policy of the FCC but also its orders dealing with multiple ownership of sta-tions. Further it was stated that the examiner was without author-ity in law to reach a conclusion or make a recommendation involving

make a recommendation involving a change in policy. Qualifications of the *Star* interests to operate WREN were listed.

#### FCC Power Limited

Counsel for present WREN own-ers reviewed the history of tangible and intangible factors involved in valuation of stations. They took the position that complete supremacy of FCC regulatory authority is best preserved upon the express under-standing that the values in a sta-tion transfer are neither approved nor disapproved, but that only the new license is approved. new license is approved.

new license is approved. The Communications Act con-tains no express authority for FCC inquiry into values ascribed be-tween the parties for the incidence of the Federal license, it was ar-gued. The purchase price as a factual matter is not involved in the case, the brief continues, since the financial qualifications of the purchaser and the suitability of the purchaser are entirely proposed rate structure are entirely without adverse comment.

#### **CBS** Cornerstone Laying

CORNERSTONE laying ceremony of the new \$1,750,000 CBS Holly-wood studio building at Sunset Blvd. and Gower St., has been postponed to Jan. 18 because of the inability to clear network time for the broadcasting of the event. Donald W. Thornburgh, CBS Pa-cific Coast vice-president, will of-ficiate at the ceremonies which will be broadcast nationally at the noon hour. Charles Vands, CBS Pacific Coast production manager, is to have charge of the program.

IN RECOGNITION of his having signed more than \$1,000,000 in time sales during his 3½ years at WOR. Newark, George A. Schmidt, WOR salesman, was presented a handsome Longines watch at the regular week-ly sales meeting of the WOR staff Dec. 20 by Theodore Streibert, vice president and general manager.

#### **Regional Local Power Boosts** (Continued from page 19)

be decided by those nations under the terms of the treaty. Actually, however, he pointed out, such sta-tions are eliminated under the terms of the treaty itself, since the precise location of each station in the clear channel category is specified. Only one "border" sta-tion in Mexico, that at Ensenada, 60 miles below the border in Low-er California, is authorized under the treaty. The station there would be authorized to use 50,000 watts, Comdr. Craven said. On the border situation also,

On the border situation also, Comdr. Craven declared that ru-inous interference, particularly in recent months from Cuban starecent months from Cuban sta-tions operating on our lower pow-ered channels, should be entirely averted. He expressed optimism over the outcome of the confer-ence, not only because of the broad-cast agreement but because in

PROVING THAT-Sid Hix, BROAD-PROVING THAT — Sid Hix, BROAD-CASTING cartoonist, is wrong about home economists (see above car-toon), we present Jane Weston who conducts *Modern Home Forum* on WOWO, Ft. Wayne, Ind. Jane appears to be the answer to all who snort, "If she could only cook", and keeps the WOWO studios packed during her forums.

other phases of the negotiations most cordial relations were estab-lished which should auger well for lished which should auger well for improved diplomatic and commer-cial relationships with South and Central American nations. For ex-ample, he pointed out that the American nations will go to the Gairo Conference as a bloc for the first time in history. Thus, he said, one of the highlights of the con-ference was the fostering of Pan-Americanism".

#### Three Must Ratify

The treaty becomes effective a year after three of the four prin-cipal nations ratify it and the fourth signifies its intention of do-ing so. The latter provision was necessary, Comdr. Craven declar-ed, because the Mexican Senate meets only once a year\_in Decemmeets only once a year—in Decem-ber—and it is impossible to pro-cure ratification at this session. It is anticipated that the Mexican Ministry will indicate its willing-ness to ratify the treaty should the other threa nations ratify it wire other three nations ratify it prior to next December. Summing up, Comdr. Craven said that the conference negotia-

tions, after overcoming serious obtions, after overcoming serious ob-stacles, resulted in an arrange-ment whereby this country loses no stations, eliminates all existing interference of a serious charac-ter yet appeases the demands of Mexico, Canada, Cuba, Haiti and the Dominican Republic, as well as Newfoundland, for adequate broad-casting facilities, and above all, averts chaos in radio in North America. America.

In a formal statement issued at the press conference Dec. 20 Comdr.

Craven stated: "Of great significance is the fact that for the first time in his-tory a decision was made to undertory a decision was made to under-take cooperative action with re-spect to the radio needs of the Americas, because at this Inter-American Conference at Havana it was agreed that the nations of America would collaborate as an effective whole in asserting their common interest in a world-wide international radio conference."

In addition to purely broadcast-ing aspects, he pointed out that the conference made agreements cov-

ering application of radio to inter-American communications includ-ing aviation, police, fixed services, shipping and other services for which radio is useful. Since lines which radio is useful. Since lines of communication are an essential auxiliary to trade, "it should ap-pear to every thoughtful man that the Inter-American Conference at Havana is of significant import-ance to the people of the United States," he said. He added that fa-cilities were made available for exchange of news among Ameri-can nations in a manner that should enable "counter action" against detrimental effects of prooagainst detrimental effects of propaganda poured into South America from Europe. On broadcasting

from E ur op e. On broadcasting Comdr. Craven stated: "The most controversial matter discussed at Havana was North American broadcasting. After a month and a half of strenuous ne-gotiations, agreement was reached whereby the public of the United States can be assured of better broadcasting reception in the fu-ture by reason of the elimination of interference caused by high ture by reason of the elimination of interference caused by high powered radio stations located in neighboring countries. Had agree-ment not been reached in this mat-ter, both Pan Americanism and the rendering of good radio broad-casting service within the United States would have hear endangered States would have been endangered. Without such an agreement the technical conditions on our broad-casting channels would become chaotic by reason of the necessity chaotic by reason of the necessity of other nations to use our chan-nels regardless of interference. Thus an industry was in danger. The fact that agreement was reached is considered an outstand-ing achievement because it is the first time this has been possible after several other attempts in the past few years. "The actual price paid by the United States for the vast im-provement expected in the techni-cal phases of radio broadcasting within the United States is the shifting of the frequency assign-ments of our stations a few kilo-cycles or a few channels from their

cycles or a few channels from their present assignment and in some instances the utilization of a direcinstances the utilization of a difec-tional antenna. The latter is a de-vice developed recently to reduce interference. While this shifting will be a material inconvenience the effect thereof can be overcome in a relatively short period."

Newspaper Circulation **Unhurt by Broadcasting** POINTING out that "in spite of POINTING out that "in spite of the competition of news broadcasts, the newspaper is continuing to make headway in popular esteem," the Royal Bank of Canada in its December bulletin states that news-paper circulation in the United States and Canada during 1937 surpassed all previous records. While other lines of business slummed from 30 to 50% the bulle slumped from 30 to 50%, the bulle-tin states, newspaper circulation in Canada dropped only 5% and in the United States only about

In the United States only about 11%. "Between 1926 and 1937," it is stated, "the gain in newspaper cir-culation in the United States amounted to 16%, and in Canada during the corresponding period the gain was 23%. It is notable that in Canada the rate of expan-cien during these 11 were was in that in Canada the rate of expan-sion during these 11 years was in excess of the rate of growth of population and that in the United States it was almost exactly equal to that growth."

Page 30 • January 1, 1938

# It's the **FIRST** in Alabama

# WBRC Birmingham JOINS THE NBC Red Southcentral JANUARY 1<sup>ST</sup> 1938

WBRC, established in 1925, operates *full time* on a regional-channel frequency of 930 kilocycles, with a power of 5,000 watts day and 1,000 watts night. By broadcasting a great many events of local importance—as well as network programs it has built up a large, loyal following in the Birmingham market. It has the oldest daily sports review in Alabama.

The addition of WBRC, Alabama's oldest radio station and a medium of proved advertising effectiveness, is a real step forward for the Red Network.

## Plan Audit Report Engineering Firm to Compile

**Regular Coverage Reports** 

PLANS to form an "Audit Bureau of Broadcasting Coverage" to compile certified reports of station coverage for advertisers as a possible radio counterpart of the Audit radio counterpart of the Audit Bureau of Circulation in the pub-lishing field, were announced Dec. 21 by Appleby & Appleby, consult-ing engineers of Atlantic City, N.J.

N. J. William H. Appleby, vice-presi-dent and treasurer of the engineering firm, and former commercial manager of WPG, Atlantic City, announced that favorable reactions had been procured from a number of advertising agency and ad-vertiser executives indicating a desire for the projected service.

The plan encompasses coverage audits for stations which would subscribe to the service, with the reports to be submitted to adver-tising agencies and to advertisers. The coverage audit, according to Mr. Appleby, would be based upon two "yardsticks"—one covering field intensity service to determine territorial coverage, by establish-ing a standard minimum signal strength of ½ millivolt above noise levels, and the second to include results of questionnaires, both ur-ban and rural, to determine the number of listeners within the ½ millivolt area. millivolt area.

The engineering firm recently was formed, with Thomas Apple-by, Naval Reserve lieutenant comwilliam, as president, his brother, William, as vice-president and treasurer, and J. W. Mosher, as director of public relations.

The proposed audit bureau, Mr. Appleby stated, has no connection with the project of the Joint Com-mittee on Radio Research, representing the American Association of Advertising Agencies, Associa-tion of National Advertisers, and NAB, to establish a cooperative method of determining station cov-

method of determining station cov-erage and listener reaction. The Joint Committee has been func-tioning for the last two years. Mr. Appleby said that his audit bureau plan "has been approved and accepted by the leading ad-vertising agencies in the country, together with the outstanding na-tional representatives, who agree tional representatives, who agree that there is an immediate demand for an unbiased central bureau to conduct audits and certify accu-rate standardized coverage of broadcasting stations to the local and national time buyer."

#### WBRK Starts Feb. 1

TO BE KNOWN as "The Voice of the Berkshires", the new WBRK, Pittsfield, Mass., is now under construction and will go on the air on or about Feb. 1 equipped with Western Electric transmitting ap-Western Electric transmitting ap-paratus and a 170-foot Lehigh vertical radiator. Harold Thomas, owner of WATR, Waterbury, Conn., who is also licensee of WBRK, will personally assume the management of the new station. Studios are located in the Pittsfield Coal Gas Co Bldg and include as Coal Gas Co. Bldg. and include an Coal Gas Co. Bidg. and include an auditorium seating more than 500. The station, according to S. R. El-man, WATR commercial manager, expects to affiliate with CBS as soon as it begins operating. It will operate with 250 watts day and 100 watts night on 1310 kc.

#### Appleby&Appleby NBC Starts New South Mountain Group; CBS Shifts Its Net Setup in Southwest

NBC will establish a new supple-mentary station group Jan. 3 to be known as the South Mountain group. The new unit will include KTSM, El Paso, Tex., which joins NBC Jan. 3; KOB, Albuquerque, N. M., and KGHF, Pueblo, Col. Rather than make KTSM a link in its Pacific supplementary group [BROADCASTING Dec. 1] NBC de-vised the new classification after lines had been installed from Albur-guerque, 230 miles away, by A. T. querque, 230 miles away, by A. T. Ô. T

A T. Prior to the formation of the South Mountain group, KOB was supplementary to the Pacific unit and KGHF was supplementary to the Blue Mountain group. Avail-able to advertisers on either the Red or Blue network, rates for the evening hour or \$120 per evening hour per station if the stations are used individually. The South Mountain group will be fed from Denver and KOB is no longer available as a unit of the supplementary Pacific group.

The addition of KTSM brings the NBC total to 143 stations. KTSM operates on 1310 kc. with 250 watts day and 100 night, but has pending application for a shift to 1350 kc. with 500 watts full time. Karl O. Wyler is KTSM manager.

CBS announces that KGAR, Tucson, Ariz., is now available to its clients as a bonus station when used in conjunction with KOY, the CRS with the source of the used in conjunction with KOY, the CBS outlet in Phoenix. This addi-tional coverage will not alter the minimum base rate of \$125 per nighttime hour for KOY, according to CBS. The two cities are 105 miles apart and the listening areas of KOY and KGAR have virtually no overlapping territory, reports the market research division of the market research division of CBS. KGAR operates on 1370 kc with 250 watts day and 100 watts night.

#### NBC 1937 Additions

Numerous affiliates were added to the three major networks during 1937. NBC increased its total of associated stations to 143 by adding 41 affiliates, while CBS signed 19 stations to bring its total to 111. MBS added 33 associates and now has 79 stations in its network.

has to stations in its network. Largest single block of stations to be added by NBC were the 10 stations forming the Southern Group. There follows a list of sta-tions added during 1937 by NBC together with the dates of affiliation:

Uon: K G H F, Pueblo, Col., Jan. 1; WEAN, Providence, Jan. 1; WICC, Bridgeport, Conn., Jan. 1; KGNC, Amarillo, Tex., Jan. 1; KARK, Little Rock, Jan. 1; WTCN, Minneapolis, Jan. 1; WGBF, Evansville, Ind., Feb. #### TO THE AID OF FLOOD VICTIMS KSRO Guides Relief Activity in Santa Rosa -Valley in Wake of Torrential Rains-

WHEN FLOODS recently swept the valley in and near Santa Rosa, Cal., KSRO was quick to give complete coverage and service that was publicly credited with saving many lives. As a result of torrential rains almost every telephone line was down. Into the stricken area came the voice of KSRO urging those in distress to fly white flags from their housetops, giving instructions to searching parties.

Officials in adjacent communities were asked to call KSRO every 15 minutes and report on flood stages. As the calls came in they were put on the broadcast loop and the twoway conversations were aired. Hour after hour, KSRO stayed on the air to issue sanitation warnings, give medical information and direct rescue parties. After the danger had passed KSRO broadcast late reports on traffic and highway conditions in the damaged area. Newspapers and prominent state and local officials praised the service given by KSRO and spoke warmly of radio's public value in emer-gencies. Of this service the local press said:

"In the case of Geyersville with its several marconed families, responded to an appeal by KSRO KSRO responded to an appeal by Rev. Miller by urging those in dis-tress to fly a white flag from the top of their dwellings. Within a few minutes after the broadcast, flags were fluttering from the houses and rescue crews imme-diately set out to remove the stricken households. stricken households.

"All in all, KSRO proved itself an invaluable agency in yesterday's trying atmosphere, and for hundreds of residents, was the sole and only means of knowing what was going on in the flood-strewn region."

WROL, KFDM, KRIS, KRGV, KELO, KMED, WHK, KIDO, KTMS, KOAM, CFG, CBM, and KTSM.

#### **CBS 1937 Additions**

The 19 stations which became affiliates of CBS during 1937 include:

anniates of CBS during 1957 in-clude:
KDAL, Duluth; WKBH, LaCrosse; KOY, Phoenix; KGAR, Tucson;
WMFG, Hibbing, Minn.; WILB, Vir-ginia, Minn.; WNBX, Springfield, Vt.; WRDV, Augusta, Ga.; WGBI, Scranton, Pa.; WRVA, Richmond, Va.; WAIM, Anderson, S. C.; WEOA, Evansville, Ind.; WMAZ, Macon; WCOC, Meridian, Miss.; WCHS, Charleston, W. Va.; WPAR, Parkers-burg, W. Va.; WKBB, Dubuque, Ia.; KGLO, Mason City, Ia.; WTAQ, Green Bay, Wis. In the following cities CBS shifted its affiliation: WHK to WGAR, Cleveland; KOL to KIRO.
Seattle. On Jan. 1, 1938, CBS was to shift from WBRC to WAPI, Birming-ham. ham.

#### **MBS 1937 Additions**

MBS added 33 affiliates to its net-work, including the eight stations of the Oklahoma Network which are:

of the Oklanoma Network which are: KADA, Ada; KVSO, Ardmore; KASA, Elk City; KCRC, End; KBIX, Muskogee; KTOK, Oklahoma City; WBBZ, Ponca City; KGFF, Shawnee, Also affiliated with MBS in 1937 were the following stations which are members of the Don Lee North-west group: KXRO, Aberdeen, Wash.; KVOS, Bellingham; KORE, Eugene; KGY, Olympia; KALE, Portland; KRNR, Roseburg; KSLM, Salem; KOL, Seattle; KMO, Tacoma; KFQ. Wenatchee; KIT, Yakima; KELA. Centralia. Other stations affiliating with MBS included KTAT, Ft. Worth: WRR, Dallas; KGGF, Coffeyille. Kan.; WIRE, Indianapolis; WDGY. MinneapolisSt. Paul; WNBF, Bing-hamton; WABY. Albany; KIEM. Eureka, Cal.; K QW. San Jose: WHKC, Columbus. MBS shifted its affiliation from WGAR, Cleveland, to WHK-WCLE, that city. KGA, Spokane, was also added to MBS Sant 26. The arete cards and

WHK-WCLE, that City. KGA, Spokane, was also added to MBS Sept. 26. The rate cards and promotion pieces issued by Mutual do not list KGA, but simply indicate that a Spokane station is an MBS officient affiliate.

#### **KWNO Defers to Jan. 9**

AFTER several delays, the new KWNO, Winona, Minn., authorized to operate with 250 watts daytime on 1200 kc., has fixed its opentime on 1200 kc., has fixed its open-ing date for Jan. 9, according to A. E. Mickel, general manager, until recently manager of KFJB, Marshalltown, Ia. Mr. Mickel an-nounced that L. L. McCurnin, for-merly with KGLO, Mason City, Ia., is supervising the installation, which includes a Western Electric transmitter and 199-foot Blaw-Knox radiator. Mr. McCurnin, he Knox radiator. Mr. McCurnin, he added, will be commercial manager of the new station. Maurice Reutter, chief engineer of KFJB, has left Marshalltown to take a similar position with KWNO. The station is licensed to the publishers of the Winona Republican-Herald,

#### **KFOX** Joins Net

HOWARD LANE, general manager of the California Radio System, announced at Sacramento, recently that station KFOX, Long Beach, Calif. (1,000 watts) has joined the state net, bringing to a total of seven stations now affiliated with the CRS. The others are KFBK, Sacramento; KMJ, Fresno; KERN, Bakersfield; KWG, Stock-ton; KFWB, Hollywood and KYA, San Francisco.

Page 32 • January 1, 1938

Going Places in 1938?

# **OKLAHOMA IS THE PLACE TO GO FOR SALES IN 1938**

• Center of every sales huddle at the start of the new year should be these business-weather maps of the country's foremost forecasters.

Babson, in his December, 1937, sales and credit forecast, describes Oklahoma as one of the regions offering the most favorable sales opportunities in the United States. Oklahoma City is pointed out specifically as one of the cities in which the sales outlook is most favorable.

"The trade outlook for the Southwest," says Brookmire, "is good." Oklahoma income during early 1938 is estimated at 23 percent ahead of last year compared to a 2 percent decrease for the country. . say Babson, Brookmire and Forbes

Forbes Magazine, in its December 15th business pictograph, classes Oklahoma City as one of the United States' best centers of business and the hub of a territory ranking as the third best business spot in the land.

In mapping your sales strategy for 1938, plan a major offensive in Oklahoma. With WKY on your side, you'll go places quickly and economically in this fruitful territory.

# Spot Radio to Continue Upward in 1938

#### **Recession** Checks **Boom; New Rise** Now Seen

#### (Continued from Page 15)

Bristol-Myers Co., New York

Will continue a live talent show over CFRB, Toronto, in 1938 for Sal Hepatica, Ipana toothpaste. Agency: Ronalds Adv. Agency Ltd., Toronto.

Bristol-Myers Co., New York Will continue its daily 15-minute sports summary on WWJ, Detroit. its five-a-week quarter-hour script show on WGN, Chicago, and its daily quar-ter-hour news period on WOR. New York, for Minit Rub. Agency: Young & Rubicam Inc., New York.

#### Brown & Williamson Tobacco Co., Louisville

Louisville Expects to continue without change with sports and news programs on about 20 stations for Big Ben tobacco and Avalon ci garettes. Agency: BBDO, New York.

W. K. Buckley Ltd., Toronto Expects to increase use of tran-scribed programs 75% in 1938 for its medicines. Agency: Broadcast Adv. medicines. Agenc Service, Toronto.

Buick Motor Co., Flint, Mich. Will use spots again in 1938 to announce new models. About 100 sta-tions were used last fall. Agency: Ar-tbur Kudner Inc., New York.

Bulova Watch Co., New York Has set contracts for time signals on 140 stations to run through 1938. Agency: Biow Co., New York.

Bunte Bros., Chicago Did not start usual radio advertis-ing in the fall of 1937. Ferd Bunte. vice-president. aud James Driscoll. ac-count executive of Homer McKee Inc.. Chicago, will soon discuss advertising plans for 1938.

Calcium Carbonate Co., Chicago Currently using spots on a few Wis-consin stations for Hen-Dye, with no definite radio plans for 1938 until re-sults of tests are known. Firm is a new radio advertiser having started in November. K. E. Sheppard Adv. Agen-cy, Chicago, is agency.

Dr. W. B. Caldwell Inc., Monticello, III. Used Monticello Party Line on 70 stations during fall and winter with 35 stations used in summertime. A few additional markets will be added in 1938. Radio expenditure the past year announted to a half million dol-lars with at least that amount to be spent in 1938. Will use no chain pro-grams because of the network ban on laxatives. Cramer-Krasselt Co., Mil-waukee, is ngency.

Campbell Cereal Co., Minneapolis Campbell Cereal Co., Minneapolis Plans to use more radio advertis-ing in 1935 than in previous years. Fifteen stations will carry Jack West-away Under the Sea quarter-hour discs authored by Ray Wilson three and five times weekly starting in Jan-uary and February. Stations already listed include WBBM KDKA WTAM WDAF WCCO WJR and KNX. Ruthrauff & Ryan, Chicago, is agency.

#### Canada Starch Co. Ltd., Toronto and Montreal

and Montreal Has transcription test on CBL. Toronto, and 11 live talent shows weekly out of Toronto covering cook-ing hints, children's stories, sports, on CBL and CFRB. Will continue a live talent sympliony network in the coming year. Agency: Vickers & Benson Ltd., Toronto and Montreal.

Page 34 • January 1, 1938

Canada Dry Ginger Ale Inc., New York.

**Xork.** Will add more stations to the list of 53 now carrying one, five and 15-min-ute spots, Agency : J. M. Mathes Inc., New York.

Canadian Fur Trappers, New York Using announcements on two sta-tions, is considering a live program to start in the spring. Agency: Schil-lin Adv. Agency, New York.

Canadian National Carbon Co. Ltd., Toronto

Toronto Had a test program for Everready in Alberta during the latter part of 1937, and as a result will extend radio advertising to cover Alberta. Sas-katchewan and Manitoba during 1938. Agency: Clarke E. Locke Ltd., To-ronto ronto.

#### Cardinet Candy Co.,

Oakland, Calif. Plans to continue radio activities in Plans to continue radio activities in 1938, having recently renewed weekly feature *The Night Editor* on 10 sta-tions of NBC.Red network in the West (KPO, KFI, KGW, KOMO, KHQ, KOA, KDYL, KGIR, KGHL, KTAR), Agency is Tomaschke-Elliott Inc., Oakland.

Carnation Co., Milwaukee Will add 17 Canadian stations Jan. 3 on its NBC program making a total of 75 stations on the network. No spot outside of continuation of Polish program in Detroit is planned. Firm spent \$490,000 for network fa-cilities in 1937 with radio budget in-creased for 1938. Erwin, Wasey & Co., Chicaco, is agency. Chicago, is agency.

Carter Medicine Co., New York Using spot announcements on a large list of stations, and will prob-ably continue through the summer. Agency: Street & Finney Inc., New York York.

George W. Caswell & Co., San Francisco Will increase radio activities during 1938, estending its *Cassoell Party Re-vue* now heard on the CBS-California stations, KNX-KSFO once weekly on Feb. 1 to four CBS stations in the Pacific N or the west (KOIN, KVI, KIRO and KFFY). Agency is Long Adv. Service, San Francisco.

Chemo Ray, Oakland Will increase radio activity in 1938. Latter part of 1937 used a transcribed program on one California station. Contemplates using three or more sta-tions in the same state. Agency: Rufus Rhoades & Co., San Francisco.

#### Central Shoe Co., St. Louis

Central Shoe Co., St. Louis Spent \$125.000 on spot radio in 1937 with appropriations for 1938 double that amount. Programs are placed by local dealers. Robin Hood shoes (children) currently using Magic Island transcriptions on 30 stations with about 75 planned for 1938. Per-fect-Eze (women's shoes) will use Ports of Coll or Musical Numbers program. The President (men's shoes) will use Captains of Industry. Atlas Radio Corp. is producing the trans-criptions. Kelly, Stuhlman & Zahrndt Inc. St. Louis, is agency.

#### Chappell Bros., Rockford, Ill.

Chappell Bros., Rockford, Ill. Curtailed radio expenditures in 1937. "This was not a reflection on radio," said an agency spokesman, "but sim-ply because of the fact that radio sta-tions took in larger areas than the distribution of the dog food warranted in certain territories." Around \$20,000 was expended on radio in 1937 with present indications that at least the same amount will be spent next year. C. Wendell Muench & Co., Chicago, handles the account.

#### Cheney Bros., New York

Using daily announcements on one New York station, expects to add others soon for its neckwear. Agency: Jay Lewis Associates, New York.

#### Cheramy Inc., New York

Used a small amount of radio ad-vertising during 1937, but has dropped all of it, and has no plans. Agency is Lawrence C. Gumbinner Adv. Agen-cy, New York.

Chevrolet Motor Co., Detroit On Dec. 6 renewed contracts for 13 weeks on Musical Moments, WBS transcription, on 350 stations. This is the 12th consecutive 13-week series, and will probably run indefinitely. Agency: Campbell-Ewald Co., New York.

#### Chicago Engineering Works, Chicago

Used 70 stations at various times during 1937, spending \$150,000 with increased appropriation for 1938, James R. Lunke & Associates, Chi-cago, haudles the account.

#### Chicopee Sales Corp., New York (Chixdown diapers)

Has been testing spot on two or three stations, but cancelled contracts for the next six months. There are no indications as to whether radio will be resumed. Agency: Campbell-Lam-pec Inc. New York.

#### APPEAL OF NEWS BROADCASTS KVOO Commentator Gets to Wondering What Public –Thinks and He Finds Out, With Emphasis-

HAVE NEWS broadcasts lost their listener-interest and become just another regular service fea-ture of radio? How can a station inexpensively prove to prospective sponsors that newscasts have a wide listening audience? In an-swer to these questions, Ken Mil-ler, newscaster of KVOO, Tulsa, Okla., decided to give three radio sets to listeners writing the best letters about their reactions to his news programs.

The offer drew 16,000 letters from 31 states, Canada and Mexico. Mr. Miller chose his fifth annico. Mr. Miller chose his fifth anni-versary as a newscaster to an-nounce the contest and gave the rules at the end of his 6,000th news program. None of the con-test announcements were made after 5 p. m. As a follow-up, he sent each writer a postcard ac-

-----

knowledgment. The cost of the contest was a little over \$200 and the criticisms were worth far more, he says.

A survey of the letters indicates that most people like straight news reporting with short, simple sentences given in a conversational sentence structure should be edited out, the majority of KVOO's lis-teners felt. Listeners further indicated that they like variations of news subject matter.

On the anniversary program, Mr. Miller was congratulated by the mayor of Tulsa and other prominent local persons and a congratulatory wire from Walter E. Moss, president of INS, was read. KVOO subscribes to the INS service.

#### Consolidated Drug Trade Products Inc., Chicago

Largest spot advertiser in the country, spending a million dollars in 1937 with the radio advertising budget for 1938 to be substantially increased, ac-cording to Roland J. Dooley, account executive of Benson & Dall Inc. Chicargo, agency handling the account. The entire advertising appropriation for 1937 was \$1,250,000 with radio getting four-fifths of the business. During the winter \$120,000 monthly will be reart on a diacount of the second will be spent on radio with the num-ber of stations to be reduced in the summer. In the fall of 1938 the regu-

lar budget will again prevail. Recently purchased Krank's Lather Kreme and Blue Bird Nail Polish, both of Minneapolis, and is testing in a few spots, with radio to be used extensively for both products in 1938. McCord Co., Minneapolis, is agency with M. E. Melamed, account executive,

#### Chicago Mail Order Co., Chicago

Used five stations the first quarter di 1937 but is not planning any ra-dio for the first half of 1938 be-cause of current business conditions. Matteson-Fogarty-Jordan Co., Chicago, is agency.

#### Chilean Nitrate of Soda, New York

Now on a small list of southern stations with guarter-hour transcriptions, will continue at least through the early part of 1938. Agency: O'Dea, Sheldon & Canaday Inc., New York.

#### Consolidated Edison Co., of New York.

Using a half-hour evening show on WEAF, New York, which will run until June. Plans thereafter are in-definite. Agency: Lord & Thomas Inc., New York.

#### Conti Co., New York

Plans to use between 6 and 10 sta-tions after Jan. 1 for its soaps, with local live programs and spot an-nouncements. Agency: Bermingham Castleman & Pierce Inc., New York.

Crowell Publishing Co., New York Continuing Jean Abbey, local live quarter-hour program on 16 stations. which has been on for six years, and Carolyn Price, in its fourth year, on 6 stations. Agency: Goyer, Cornell & Newell Inc., New York.

Coyne Electrical School, Chicago Spent about \$2,000 on spot radio in 1937 with about the same amount to be expended in 1938. McJunkin Adv. Co., Chicago, is agency.

#### Cooperative Creamery Assn., Boston

Will probably continue transcribed series in Boston, adding announce-ments later. Agency: Louis Glaser, Boston.

#### Clairol Inc., New York

Now using a Coast network pro-gram, may add half-hour transcrip-tions on about 30 stations. Agency: Wm. H. Rankin Co., New York.

#### Colgate-Palmolive-Peet Co., Jersey City

Will start initial radio advertising Jan. 17 using a daytime dramatic serial as yet unselected. Program will originate in Chicago 4:30-4:45 p. m. (CT) on a split CBS hookup of 15 stations. Will start Jan. 11 with NBC-ded program for shaving cream. No spot is planned. Benton & Bowles, Chicago, is agency.

**BROADCASTING** • Broadcast Advertising

# tone. Difficult phrases and complex

AMPEREY

8494

\$35

The application by Amperex of the modern engineering concept of the space relationship of electrodes in a vacuum tube has resulted in the design of a new type with far greater performance capabilities than the standard 849. Simplification of structure because of this new design has also made possible considerable economies in manufacturing processes which are reflected in the price of these tubes.

#### THE OUTSTANDING FEATURES OF THESE NEW TUBES ARE AS FOLLOWS:

- GREATER FILAMENT AREA
- LARGER PLATE SURFACE
- MORE UNIFORM ANODE HEAT DISTRIBUTION
- A MINIMUM OF INTERELECTRODE INSULATING SPACERS
- 1500 WATTS maximum power output per tube as a Class C, CW amplifier
- 750 WATTS Carrier Power Output, as a plate modulated Class C amplifier
- 250 WATTS Carrier Power Output as a grid bias modulated Class C amplifier
- 250 WATTS Carrier Power Output as a Class B Linear R.F. amplifier
- 1600 WATTS maximum signal power output per pair as Class B. A.F. modulator
- 150 WATTS Undistorted Power Output as a Class A A.F Modulator

The features enumerated above clearly demonstrate that not only can these tubes be used profitably to replace 849's in existing equipment but that they also fill a gap in the air cooled line of tubes for use in equipment where severe derating at high frequencies forced the use of much larger and costlier tubes.

<sup>3</sup> The 849H can be operated at full ratings up to 30 megacycles in many classes of service. It is identical in its characteristics with the 849A. The only point of difference is the grid lead terminal which in the 849H terminates in an arm extending from the side of the bulb.

# AMPEREX ELECTRONIC PRODUCTS, Inc. 79 WASHINGTON STREET BROOKLYN, NEW YORK

#### Currier's Tablets Inc., Los Angeles

Currier's Tablets Inc., Los Angeles Used both live talent and tran-scribed programs as well as spot an-nouncements during 1937 on 25 sta-tions nationally, will continue its pres-ent procedure and is contemplating ex-pansion for 1938 with a possible net-work program. General Adv. Agency, Los Angeles, is in charge.

# to the BROAD CASTING INDUSTRY for a FINE PERFORMANCE in 1937

THROUGH another year American radio has served the public need. In local and national emergencies, in dissemination of knowledge, it towered above the pettinesses of private prejudices. It championed the broader view. It brought happiness into the home. Despite its frailties — and they were admittedly many, to be expected in any young enterprise—it strove for public good. Greater achievements will be gained in 1938.

Page 38 • January 1, 1938

**BROADCASTING** • Broadcast Advertising

ROADCASTING

Broadcast Advertising

J. A. Folger Co., Kansas City J. A. Folger Co., Kansas Chty Will increase its radio appropria-tions for 1938. # WILL EAT,

Maybe it's because we don't have droughts, and are kind of used to eating -- but it's a fact that our Red River Valley people consume 30.3% of all food sold in the three combined states, North Dakota, South Dakota and Minnesota [exclusive of the counties containing Minneapolis and St. Paul]. . . . And WDAY is the station that brings this rich market to you - in one audience, at one low cost. . . Want the figures?

Page 42 • January 1, 1938

#### Union Pacific Railroad Co., Omaha

A consistent user of radio time, on Jan. 2 will start for 52 weeks a week-ly quarter-hour transcribed seria 1 *Etrange As It Seems* on 15 stations nationally. List may be enlarged. l'inced through Caples Co., Chicago.

#### United Air Lines, Chicago

Speut \$5,000 on spot in 1937, with bulk of appropriations on KFI and KHJ, Los Angeles and KFRC, San Francisco. Appropriations may be in-creased for 1938. J. Walter Thomp-son Co., Chicago, is agency.

#### United Drug Co., Boston

Semi-annually places a five-day quarter-hour transcribed program on about 200 stations, will this year add a third series in February. Agency: Street & Finney Inc., New York.

# Utica Knitting Mills, Utica, N. Y. Uses announcements every fall on about 18 stations; expects to use more than usual in 1938. Agency: John Thomas Miller, New York.

# Utilities Engineering Institute, Chicago

Using 12 stations, will add 15 more first of January, Radio campaign in 1937 has been extremely successful. First United Broadcasters, Chicago, is agency.

#### Vick Chemical Co., Greensboro, N. C.

Using 25 and 100-word announce-ments on 80 stations, will continue through the middle of March, starting again in the fall. Has 100-word an-nouncements on 12 Canadian stations through March. Agency: Morse Inter-national Inc., New York.

#### Vickers & Benson Ltd., Toronto

Office reports a number of new ex-perimental spot campaigns, and one client has already signified intention of extending the campaign to more stations later in the year.

#### WTMJ GRADUATES **Biggest Radio Honor Roll** Claimed by Station

CLAIMING to have graduated more radio stars than any other station, WTMJ, Milwaukee, boasts of the following names on its honor roll: Hildegarde, singer; Stanley Morner, singing actor now in Hol-lywood; Lynn Martin, rhythm sing-er now in Hollywood; Uncle Ezra P. Watters, otherwise known as Pat Barrett; Vivian Fridell, star of Backstange Wife: Don McNeill m Pat Barrett; Vivian Fridell, star of Backstage Wije; Don McNeill, m. c. of NBC's Jamboree and Break-fast Club; Happy Jack Turner, singing pianist; Ethel Owen, dra-matic star on Chicago network shows; Burr Lee, Harriet Linehan and Frank Behrens, Chicago act-ors; Louis Roen, NBC announcer; Sally Foster of the National Barn Dance, and John Olson in charge of a series of shows for Ruthrauff & Ryan Inc. WTMJ's feature, Heinie and His Grenadiers is frequently broadcast on the network, as is Russ Winnie, sports expert.

#### Volopet Co., Toronto

Will increase spot campaign in 1938 for chemicals. Agency: Broad-cast Adv. Service, Toronto.

#### Wadsworth-Howland & Co., Malden, Mass.

Using three one-minute transcrip-tions weekly on 35 stations for paint; nuay drop a few stations. Agency: J. Stirling Getchell Inc., New York.

#### Walker-Gordon Laboratory Co., Plainsboro, N. J.

Currently is one of the sponsors for Murtha Deane's cooperative program on WOR, Newark, and also uses spot announcements on WNAC, Boston, Future plans indeterminate. Agency: Young & Rubicam Inc., New York.

#### Walsh Advertising Co. Ltd., Toronto

Office, reports a tendency for Ca-nadian advertisers to become more radio minded, and expect this to have its effect on the 1938 spot business.  $\Delta$  few clients are experimenting with spots and their next appropriations will take into consideration the rewill take into consideration the re-sults obtained from these tests. Programs are tending to stabilize rather than increase.

#### Henry K. Wampole & Co. Ltd., Toronto

The proprietary firm's present spot campaign over about 30 stations is expected to continue in 1938. Agency : Ronalds Adv. Agency Ltd., Toronto.

#### Wander Co., Chicago

Will continue Little Orphan Annie r Ovaltine on 25 NBC-Red network for stations and transcribed versions of the show on 21 stations through June; returning in fall with same schedule. Blackett-Sample-Hummert, Chicago, is agency.

#### Ward Baking Co., New York

Continuing its bread advertising on the air, news programs on WJAX, Jacksouville, and WHKC, Columbus, and spot announcements on WCAE, Pittsburgh, and CKLW, Detroit. Agency: Fletcher & Ellis Inc., New York.

**BROADCASTING** • Broadcast Advertising

#### Wasey Products, New York

wasey Froducts, New York Sponsoring Arthur Godfrey's Sum Dial three mornings weekly on WABC, New York, for Kreml hair tonic, Bar-basol, Musterole and Zemo. Program started Nov. 30 and results do not indicate yet how long it will be con-tinued. Agency: Erwin, Wasey & Co., Inc., New York.

#### Washington State Apples, Seattle Approximately 25 stations in key cities scattered throughout the nation

were used by this cooperative concern during 1937 for spot announcement campaignes. According to present indi-cations the radio campaign will be carried on a larger scale in 1938. Agency: J. Walter Thompson Co., Sen Francisco San Francisco.

#### Western Growers Protective Association, Los Angeles

A seasonal user of radio time, will increase its activity during 1938. As-sociation used daily spot announce-ments on 16 Eastern and Midwestern stations in a fail campaign for Crisp Eatin' lettuce and earlier in 1937 used a similar number for Sweet Eatin' melons. J. Walter Thompson Co., Los Angeles, services the account.

White House Rice Co., Houston After a four-week test on KNX, Hollywood, will launch an extensive Pacific Const campaign in February. Type of program and stations to be used not yet decided upon. Agency is Wm. A. Ingoldsby Co., Los Angeles.

#### Whiting Milk Co., Charlestown, Mass.

Using quarter-hour student pro-grams on WAAB, Boston, will discon-tinue on April 20, Agency: N. W. Ayer & Son Inc. New York.

Wilbert's Products Inc., New York Will continue with a schedule of an-nouncements on WMCA, New York, for its wax. Agency: W. I. Tracy Inc., New York.

Willard Tablet Co., Chicago

Did not advertise as heavily in 1937 as in previous years. Currently using five stations with others likely to be added during 1938. First United Broadcasters, Chicago, is agency.

# Williamson Candy Co., Chicago (Oh Henry)

Now using spot on four stations-WBZ-WBZA, WGY, WTAM and KOA---is currently gathering data on the Oklahoma and Texas markets with the possibility of using radio there in 1938. Agency is John H. Dunham Co., Chicago

#### Shirley Wynn Laboratories, New York

On WMCA, New York, for about three years, expects to continue in-definitely without change. Agency: Erwin M. Frey, New York.

Yellow Cab Co., San Francisco In all probability will increase its activity in 1938. At present it radio is using a spot announcement cam-paign on one station in San Francisco and one in Los Angeles.

#### Zonite Corp., New York

Expects to use announcements on about 40 stations in the spring for Agency : McCann-Erickson Larvex. Inc., New York.

#### Williams on Mutual

J. B. WILLIAMS Co., Glastonbury, Conn., (shaving preparations) is starting a new audience participation program on three Mutual sta-tions. The half-hour weekly show will consist of two teams quizzing each other, winner to receive a cash prize of \$50. Agency is J. Walter Thompson Co. Inc., New York.

Quality recordings require quality processing. That's why leading transcription manufacturers and radio stations specify CLARK pressings.

For 20 years CLARK has been the standard in electrical transcription and phonograph record processing. Both wax and acetate "masters" get careful skillful supervision. They come out right when CLARK does them.

For quality processing-say CLARK.

Page 46 • January 1, 1938

# **Canada Expects Record Year**

(Continued from Page 15)

taken by advertising agencies in spot broadcasting is the report of one large agency with branches in seven Canadian cities that the spot business has gone up considerably in the last 18 months, that no one knows how far it will go in 1938, and that definitely the peak is not nearly in sight.

There is at least one field untouched in Canada, and that is the financial institution. Only one or two such organizations are known to have done anything with radio, and only in a small way. The opinion of a large agency doing mainly financial advertising is that if a program series can be devised, financial institutions may be won over from their conviction that radio is not dignified enough for their business. It must be remembered that the field is also different in Canada because there are only ten banks and these operate on the branch banking system, because trust organizations are entirely separate from banking, and other special Canadian financial conditions.

Business is good in Canada, unemployment has dropped considerably, exports are growing, national revenue has bettered expectations, and a balanced federal budget is looked for when Parliament reconvenes Jan. 27, all signs for an expected record year in radio broadcasting.

D. H. Copeland, vice-president Associated Broadcasting Co. Ltd., Toronto, stated: "We have in the

past few months placed national transcribed and live shows for 46 new and old clients over 48 stations, our company acting in most cases as a radio department for general Canadian advertising agencies. We have found that 1937 has been the best year for radio advertising in Canada, and we have been in business since 1928. The new year promises to be even better, and we expect a fifty per cent increase in the number of our sponsors, while the majority of present advertisers anticipate us-ing bigger campaigns. There has been such an increase of business this past year that since February, 1937, we have had to increase the space of our Toronto office three times, and now occupy an entire floor. There is a definite tendency towards transcription campaigns in Canada, and this tendency will continue to increase during the new year."

Ronalds Adv. Agency Ltd., Toronto, reports that while transcriptions are increasing, if the recently formed regional and national networks of the Canadian Broadcasting Corp. work out successfully, there will be more live talent shows in Canada during 1938. Most of their larger clients are going in for network programs during the new year. Expectations are that 1938 will be a little better than 1937 which in turn has seen more radio advertising than 1936.

Grow & Pitcher Agencies, Toronto, reports that the transcription business in Canada looks as if it will definitely increase at a conser-

ative figure by 300% this winter. Last year, the agency points out, transcription campaigns were practically an innovation in Canada where interest has lagged about three years behind the United States in spot transcription business. Today transcriptions are considered a standard advertising medium in the Dominion. The agency, which imports United States transcriptions, finds that several accounts which tested transcriptions for spot campaigns durings the past year are now definitely in radio advertising with 15-minute spots. Many new Canadian radio advertisers have started and plan to use in the coming year 5 and 15-minute transcription programs. Transcriptions from the United States coming into Canada have to pay a customs duty of about 33%, an added burden as compared to network programs from the United States which come in free of customs duty.

W. Orr, radio account executive, R. C. Smith & Son Ltd., Toronto states: "On a recent trip to the smaller local stations throughout Ontario I found a decided swing from transcriptions to local live talent shows for local advertisers, due mainly to the increase in network programs on the Canadian Broadcasting Corp. regional network. Our largest clients will use networks next year, with one planning to use many small stations on the hook-up not included in the established regional nets. During daylight hours transcription spot campaigns are expected to be a bit better in 1938 as compared to the past year."

#### **Recent Improvements**

Frank Goodman, Young & Rubicam, Toronto, said: "The situation for spot broadcasting in Canada has improved noticeably since the Canadian Broadcasting Corp. announced its national and regional networks. The situation is now better for Canadian advertisers, for many small stations now will be on the national net carrying wellknown United States programs, making spots in between, before or after these programs very valuable. Formerly the only spots of value were carried in the morning to the women listeners, but now things have altered. As a result we are revising next year's spot program accordingly." During 1937 the agency placed transcription campaigns for Bordens Products on two stations.

Cockfield Brown & Co. Ltd., reports from its Toronto office that the prospect for national Canadian spot business looks good, that billings are going to be bigger in the early part of 1938 than in 1937 and that there will be an appreciable increase in the number of stations to be used in the coming year by its clients. Business in 1937, was up over 1936. There has not been any effect of the United States recession in Canada, as far as their business is concerned.

According to Consolidated Advertising Service Ltd., Toronto, there is a tendency to squeeze out small spot announcements, and the agency has had difficulties in placing such campaigns on a number of stations. They have two accounts who will be interested in the 1938 spot campaigns and one interested in a national network campaign.

A. McKim Ltd., reports from its Toronto office a definite increase in national program business in sight

for 1938 as compared to 1937, and that radio placements in the past year amounted to four times the amount placed in 1936. The number of stations used by their clients definitely increased. The agency has a fair amount of spot business in view for the new year, with four campaigns starting shortly after the beginning of the year over from 12 to 30 stations.

four campaigns starting shortly after the beginning of the year over from 12 to 30 stations. The C an a di an Broadcasting Corp.'s Toronto commercial office reports that without doubt the CBC will carry some of the outstanding commercial programs on networks in 1938. There is also an increase in the number of Canadian originating network shows in view for 1938 giving more employment to Canadian musicians. The spot business prospects for CBC stations are on a par with the business carried in 1937. The CBC is in the peculiar position of going after commercial business but at the same time having to keep a balance on the amount of sustaining and commercial programs carried over its own stations and networks, since the CBC is a publicly-owned body to give broadcasting service to Canadians, and is not in business for a profit.

a profit. C. M. Pasmore, radio department head, MacLaren Adv. Co., Ltd., Toronto, states: "We are placing more spot business this winter than ever before. Prospects are fair for a bigger year in 1938. An appreciably larger amount of business was placed in 1937 over the previous year, using more stations with more broadcasts over individual stations."

#### Sees a Big Increase

Edward Gould, radio executive, McConnell, Baxter & E ast man Ltd., Toronto, said: "We are looking forward to a substantial increase in radio activity in 1938. During 1937 many advertisers experimented more or less with radio and found they had been passing up a major medium. Many of our own clients will be on the air in 1938—some of them for the first time—while others will increase existing appropriations. A source of gratification in the past year is the tendency on the part of advertisers to select a better class of program—whether live or transcribed—while frowning on the idea of getting on the air just for the sake of using radio. If this tendency increases, and there is no doubt that it will, Canadian radio vill surely lose the last vestige of 'amateurishness,' which criticism is at present very often leveled at it."

\* affiliated

C.B.S.

NEW

most

LOUISIAN

T. J. Henry, N. W. Ayer & Son of Canada Ltd., Toronto, said: "Spot broadcasting will be heavier in 1938. There is a greater consciousness of radio in Canada in both spot and network business, the latter especially because of the lower rates established by the Canadian Broadcasting Corp. Indications are that business will be definitely better in 1938, using about the same number of stations as 1937. Campaigns will embrace all types of shows, transcribed, live, local and spot announcements."

J. J. Murray, Broadcast Advertising Service, Toronto, said: "We are definitely using more spot programs all the time. Business is very much looking up, and we expect an increase in this agency of 70 to 80% by the end of 1938. All advertisers are taking an interest in radio in Canada."

Nate Colwell, Canadian manager Joseph Hershey McGillvra, Toronto, said: "I believe spot business in Canada will be larger in 1938 than ever before. The proportional growth will be more phenomenal for two reasons: First, because the

#### **Spigot Songs**

THE mystery of music emanating from water faucets in a Memphis fur shop was solved when W. H. Coulter, technician of WMPS, discovered the sound was coming from a water pipe. The fur shop is on the first floor of the Columbian Mutual Building and the broadcasting equipment of WMPS is in the basement. Employes of the fur shop reported that reception was better when the spigot was turned on.

stations have become more progressive in selling time and have cleaned house in recent months; second, because of the fine job the Canadian Broadcasting Corp. has done in bringing national United States accounts into Canada on national networks. Coupled with these reasons is an awakening on the part of advertising agencies to radio business, with many agencies which have left radio alone till now opening radio departments, and several adding radio executives to their staffs. C a n a d i a n broadcasting is farther away from developments made in spot campaigns than in the United States, and the growth this coming year will be the more phenomenal, while at the same time Canadian stations will not feel to such an extent the seasonal slumps in spot business as in the United States. More radio advertising is going in for year round contracts in Canada. Greatest increases will be found in the food, drugs and automotive accounts."

Blaker Adv. Agency Ltd., Toronto, reports that General Foods for Jello, Grape-nuts, Sanka Coffee, Maxwell House Coffee, Calumet Baking Powder and Swans Down Cake Flour as well as the Carnation show will continue in Canada in 1938, with Jello and Carnation going on networks. Maxwell House new 1938 show is being aired in Canada from CBL, Toronto, and CBM, Montreal.

## Who's Blue Now!

THEY'VE been passing around the crying towel in advertising centers.

The printed media boys have been shouting in Cheltenham extra bold that radio has hit the skids during the current business recession. That's their story. The radio story is that

the medium has been hit less seriously than printed advertising.

What of 1938! BROADCASTING wondered about that. It assigned a dozen persons to spend a week finding out what 1938 will bring. They combed the agency and advertiser ranks of the nation.

They agree, of course, that business is off and plenty—right now as timid time buyers pull in their oars. But they also agree that 1938 will be better than 1937, although the jump won't eclipse the 1937 gain over 1936.

A few sour notes are detected: Buyers are champing about the difficulty of picking and holding the time they want. They are mumbling about numerous rate increases and a few even have suggested a conspiracy to club radio into "rate sensibility" just as was done with printed media when their charges were boosted. They are protesting increased costs of talent and music.

If any advice is called for it might be something of the horse-sense type, like this: Give better service and stage more aggressive sales campaigns. There's plenty of business ahead for those who go after it.

## Havana Postlude

THE BROADCAST band, embracing only 106 channels, has been subdivided on paper among six North American nations where only the United States and Canada had divided it before. Not a single one of the 700-odd stations in the United States is sacrificed. Before the Inter-American Radio Conference got under way in Havana Nov. 1, that result was viewed as virtually impossible.

This radio miracle was accomplished after six weeks of strenuous negotiations in which Canada, Mexico and Cuba, as well as Haiti and the Dominican Republic, cooperated admirably in seeking to clear up what might well have become a new era of chaos in radio. But more than that, the result was a real tribute to the diplomacy, tact and ability of Commissioner T. A. M. Craven and his American delegation.

The treaty that grows out of the negotiations of necessity will work a hardship on

Page 48 • January 1, 1938

many stations in this country. It requires a sliding of the broadcast band which will affect the assignments of more than half of the 700-odd transmitters. In certain instances, stations may suffer through possible reduction of coverage, and in isolated cases stations may feel their effectiveness will be seriously impaired.

But there is only one way to look at the broadcast agreement-that is to look at the whole picture rather than the manner in which it may affect an individual station here and there. Without such an agreement, the parasitic operations of so-called "border stations" in Mexico and Cuba would not only continue but would grow more acute, playing even more havoc with operations of stations in this country and in Canada. And, in the sphere of international affairs, we would not have a legal leg to stand on, because the ether is not exclusively ours, or Canada's, or Mexico's. Each nation has a sovereign right to it. Only by a mutual understanding wherein each nation adheres to predetermined technical standards can turmoil be averted. That understanding is written into the Havana agreement. It becomes law a year after three of the four principal nations have ratified it and the fourth signifies its intention of doing so.

It is our fervent hope that the Senate ratifies the treaty early in the new session. We hope just as strongly that stations or station groups, which fear the outcome as it results their own operations, will do nothing to thwart prompt ratification. It should be remembered that the treaty is most flexible insofar as assignments of the 32 channels in the clear category for the United States are concerned. There will be hearings on individual assignments after ratification, if hearings are desired. In the interest of amicable international relations and of good broadcasting, the broadcasters should withhold their fire until after ratification of the treaty.

#### Sex Rears . . .

SOMEONE slipped up rather badly at the J. Walter Thompson agency and at NBC Hollywood headquarters in letting Mae West go on the air during the *Chase & Sanborn Hour* a few weeks ago with a skit burlesquing Adam and Eve which, by the very intonations of Miss West's voice, was full of double entendre even if we accept the excuse that a pre-reading of the script in type made it seem harmless enough.

It was an example of the more baneful Hol-

# The RADIO BOOK SHOP

SIX ARTICLES titled Television Opens Its Eyes, written as a series by Norman Siegel, veteran radio editor of the Cleveland Press, were prepared in latter November for distribution to the Scripps-Howard Newspapers. They cover comprehensively, from the layman's viewpoint, the present and prospective status of the visual art.

lywood "show business" influence, which must be curbed by broadcasters if they are going to maintain their reputation-thus far practically unsullied-of permitting nothing sexy in their productions. FCC Chairman McNinch took official cognizance of the numerous protests he received and is conducting an inquiry, indicating he intends to use the moral force of his office to keep radio clean. Just how individual stations of the NBC network, having no control or foreknowledge of the programs they will receive over the lines, can be properly penalized, even if there be a finding that the program falls under the indecency clause of the Communications Act, is one matter which may be cleared up as a result of his probe.

Maybe the Mae West incident is a blessing in disguise. The immediate effect is to place all stations on their guard. It means closer scrutiny all down the line. And more particularly, it means that the tendency of radio to "go Hollywood" will get a timely squelching. We have always maintained that radio isn't merely show business, as show business would have radio believe. It is cloaked with a public service aspect and holds a public responsibility that show business, with its extravagant ballyhoo methods, will never fathom. Radio should never permit theatrical methods to dominate to the exclusion of public service.

The editorial in our last issue, pointing out that an underground campaign was under way to revive the old Radio Legion of Decency movement, was written several days before the Mae West episode broke as a luscious morsel for the newspapers and the reformers. Then this piece of sheer stupidity played directly into their hands—a stupidity that is only partially condoned by the abject apologies that quite properly followed.

We still believe that radio, standing on its past record, needs no Legion of Decency. When we warned against the Radio Legion movement, we were not referring to the eminent Father Sheehy, who has said he accepted the explanations and apologies and now regarded the incident as closed. We were referring to the underground movement whose prompters were well known to be chronic "antis" and whose chief activity seemed to be to drum up synthetic complaints against radio.

That the amusement trade press was used to convey the initial "feelers" about a projected Radio Legion of Decency, even before the Mae West episode, bears out our statement that the movie people, despite their eager scramble for radio outlets these days, really haven't the best interests of radio at heart. The fact is, after all, Mae West *is* a movie star, whose screen style simply isn't suited to radio. She probably won't be heard again.

We Pay Our Respects To -

#### EWELL KIRK JETT

UNCLE SAM'S Navy, which gave to the FCC its last chief engineer (now FCC Commissioner Tunis Algernon Macdonough Craven) also supplies his successor, Ewell Kirk Jett, USN, retired.

When the Commission at its meeting Dec. 22 named Lieut. Jett its chief engineer, it followed the recommendation of his predeces-sor-Mr. Craven, himself a former naval commander. It has been pretty much that way for years, be-cause in the Navy Lieut. Jett served several tours of duty under Comdr. Craven. And in 1929, when the Federal Radio Commission was an ungainly infant in Washington's reg-ulatory sphere, Comdr. Craven was "loaned" by the Navy to help it organize its engineering activities. He soon had the Navy "loan" Lieut. Jett to the Radio Commission too, and Jett has been there since.

Since Aug. 23, when Comdr. Craven was elevated by President Roosevelt to a commissionership, Lieut. Jett has been serving as acting chief engineer. He had been an assistant chief engineer in charge of all activity other than broadcasting and telephone since the FCC was created in 1934 and had been assistant chief engineer of the predecessor R a d i o Commissioner since 1931. When the FCC appointed him chief engineer, effective Jan. 1, it occasioned no real surprise, but won widespread approbation both within and outside Commission ranks. He was the logical man for the job. It was definitely a "merit" promotion.

Mild-mannered and soft-spoken, Chief Engineer Jett is a veteran of 26 years of continuous communications service, dating back to 1911 when, as a stripling of 18, he enlisted in the Navy and immediately began training as a telegraph and radio operator. He served conspic-uously in both the Vera Cruz campaign and the World War and has been cited several times. When he retired from the Navy in 1929 after physical disability in line of duty, he had completed 18 years of service which carried him through the enlisted ranks to a commission.

Upon leaving the Navy, he was immediately appointed a senior radio engineer of the Radio Commission in charge of all services other than broadcasting. He picked up where he left off after having been "loan-ed" to the Commission by the Navy at Comdr. Craven's request.

While he has specialized on services other than broadcasting dur-ing his FCC tenure, Chief Engineer Jett nevertheless is thoroughly familiar with all phases of tech-nical radio. He is the "daddy" of police radio allocations, and has had direct supervision over technical aspects of international, pointto-point, aviation, ship and other communications. Before the advent of the FCC in 1934, he was in charge of experimental television, shortwave broadcasting and other experimental services in the broadcast line which since have been assigned to the broadcast section under Assistant Chief Engineer A. D. Ring.

Although little known to the public. Lieut. Jett, as assistant chief engineer, has had direct charge of the qualifications of some 70,000 radio operators under the jurisdic-tion of the FCC. Of these, 25,000 are commercial operators, including those in broadcast stations, and the other 45,000 hold amateur radio licenses. His office from the start has prescribed the qualifications for operators in all classes of service.

Life began for Ewell Kirk Jett in Baltimore March 20, 1893. After receiving his primary schooling in that city, he enlisted in the Navy in June, 1911. Prior to the World War he served as a telegraph operator and as a radioman on board several warships. He received the Mexican Campaign Award for services in 1913, when he was stationed at the American consulate in Tampico to operate a radio station prior to our Navy's occupation of Vera Cruz. During the World War, he was radio officer aboard the Scattle, which made the first convoy trip to France with troops in 1917. A year later, he was radio officer of the Georgia, which made

W. B. LEWIS. CBS New York vice-president in charge of programs, is in Hollywood to work on the new Ches-terfield program and will remain until the show Switches Peb. 4 to New York. as will Martin Gosch, producer. Writ-ers include Al Lewis, Henry Garson and Tom Langan. Agency is Newell-Emmett Co. Inc. New York.

Emmett Co. Inc. New York. FRED WEBER, general manager of Mutual Broadcasting System. New York, is in Los Angeles on a com-bined business and pleasure trip, hav-ing with Lewis Allen Weiss, gen-eral manager of the Don Lee Broad-casting System, on expansion plans for 1938, and is also making an in-spection tour of the network's 26 af-filtited stations in California. Wash-ington and Oregon.

JOHN BATES, commercial program manager of WOR. Newark, has re-signed effective Jan, 15 to do inde-pendent program production, and will be succeeded by Jerry Dauzig, now in the special events department.

VERNE R. YOUNG. office manager of Loucks & Scharfeld, Washington attorneys, and Mrs. Young on Dec. 23 became the parents of a daughter. WILLIAM RYAN, sales manager of NBC in San Francisco, recently was named chairman of the radio commit-tee of the San Francisco Advertising Club.

areai stations. FRANK U. FLETCHIER FCC attor-ney, and Mrs. Fletcher, are the par-ents of an S½-lb. son, Frank U. Jr., born in latter November. MAX GRAF of Max Graf Produc-tions, San Francisco recently suffered a sprained ankle when he tripped in his studios.

the last convoy yoyage in wartime. It was halfway across the Atlantic when the Armistice was signed.

It was after the war that Radio Gunner Jett was made a commissioned officer, being appointed an ensign from the ranks after competitive examinations. In 1922 he was promoted to lieutenant junior grade, and three years later to sen-ior lieutenant. From 1923 to 1926 he served as radio officer of the Fleet Base Force and as aid to Ad-mirals Chase and Marvell. He served three tours of duty, totaling nine of his 18 years in service, in Washington. Prior to the war he spent his first tour as radio opera-tor at Arlington and after the war he was an officer in charge of Transatlantic radio traffic, spend-ing his last tour as head of the Register Publications Section and assistant communications officer of the Navy department.

Lieut. Jett has attended numer-ous international conferences as delegate or technical advisor for this country. He recently was named by President Roosevelt as delegate to the highly significant International Telecommunications ConferTED JOHNS, formerly of KROW, Oakland, and Frank Buckley recently joined the staff of KGGC, San Francisco, as account executives.

D. E. STEED has joined the com-mercial staff of WPTF, Raleigh, N. C., to handle local retail accounts. C., to handle local retail accounts. DAVID McCOSKER, KFWB, Holly-wood, account executive, after two months in New York and Chicago on station business, has returned to his West Coast headquarters.

W. O. EDHOLM, formerly of WJAG, Norfolk Neb., has joined the sales staff of the Central States Broadcasting: System.

RALPH EHRESMANN, salesman of WMBD, Peoria, has left for a three-month tour of Europe.

HAROLI SMITH general manager-of WOKO and WABY, Albany, has been confined to his home during the last month by illness.

JOHN J. RODERICK has resigned from the commercial staff of WSPR, Springfield, Mass., to join the automo-bile business of Mayor Anthony J. Stopnina, of Chicopee Falls, Mass.

#### Patrick Made Partner

DUKE M. PATRICK, Washington attorney specializing in radio, on Jan. 1 became a partner in the law fan. 1 became a partner in the law firm of Hogan & Hartson, with which he has been associated since March 1, 1933. The firm name until Jan. 1 was Hogan, Donovan, Jones, Hartson & Guider. In addition to Mr. Patrick, Arthur J. Phelan also became a firm member. Mr. Patrick from 1932 to 1933 was general counsel of the former Radio Commission and during the preceding two years had served as assistant general counsel. Radio practice in the Hogan firm is handled by Mr. Patrick along with John W. Guider, a partner, and Karl A. Smith and Lester Cohen.

#### Eugene (Tug) Wilson

EUGENE S. (Tug) WILSON, 58, vice-president of the A. T. & T. Co. since 1920 and well-known in radio circles, died Dec. 19 in his apartment in the Hotel Carhis apartment in the Hotel Car-lyle, New York. A track athlete during his college days at Am-herst, he had been in good health until four days previous. He was a trustee of the Georgia Warm Springs Foundation, headed by President Roosevelt. Surviving are his widow and two sons his widow and two sons.

ence to convene in Cairo, Egypt, on Feb. 1, as the FCC member. In addition to the international conferences he has attended, he made a survey of communications in Alaska last August which included a survey flight to the Arctic Cir-cle and Eastern Siberia as well as over practically the entire Alaskan domain. At the Cairo conference, in which shortwave broadcasting will play an important role due to the demand for widening of the bands, Lieut. Jett is certain to fig-ure prominently. He was a tech-nical advisor at the recent Inter-American Radio Conference in Havana at which the Pan-American nations agreed to attend Cairo as a bloc on this and other matters.

Mrs. Jett is the former L. Viola Ward. They have two daughters, Geraldine, 21, a senior at the Uni-versity of Maryland, and Frances, 18, a senior at the Chevy Chase High School. They reside in Chevy Chase, Md. Lieut. Jett is a Mason and attends the Methodist Episcopal Church. He was chairman of the Washington Section of the Institute of Radio Engineers in 1935.

DONALD A. HIGGINS, formerly publicity director of CBS, has been appointed vice-president and news di-rector of Tom Fizdale Inc., New York. New accounts of the publicity firm are S. C. Johnson & Son's Attorney-at-Law: Fillsbury's Woman in White; Pepsodent's Mickey Mouse Theatre of the Air; Wrigley's Double Everything; and Colgate's show featuring Dale Carnegie.

HELEN HANCOCK, formerly in the program department of KEHE. Los Angeles, has joined the CBS Holly-wood press department in charge of trade news. She replaces Georgia Neff, who has been made secretary to John M. Dolph, executive assistant to Don-ald W. Thornburgh, CBS Pacific Const vice-president.

MISS CLAIRE HARRISON, head of the continuity staff of KWK. St. Louis, is recovering from an appendectoiny.

C. EDWARD GUNDAKER, formerly of WGAL. Lancaster, Pa., has joined WHP, Harrisburg, Pa.

MEREDITH WILLSON. musical conductor on the NBC Good News of 1938 program which emanates from Hollywood, has been signed to a new contract by M-G-M ensuring his con-tinuance with the series for 17 weeks after Lap 1 after Jan. 1.

FRANK BURGER, formerly of WOL, Washington, has joined the an-nouncing staff of WIS, Columbia, S. C. FRANK TOUNG has returned to the announcing staff of WOL. Washing-ton. Frank S. Blair Jr., formerly of WFBC, Greenville, S. C. has also joined the WOL announcing staff.

CHICAGO

# Not Merely A Scoop

 $T_{it}^{O}$  only one industry does BROADCASTING owe its allegiance. Specializing, it tells broadcasters and their kindred advertisers and agency groups all about radio — accurately, completely and untainted by random rumors.

The recent North American Radio Conference at Havana is a case in point. While experts huddled over charts and tables, BROADCASTING kept its readers abreast of every important development. A few hours after they had completed their work the night of December 13, the complete table of allocation provisions, the text of basic provisions of the proposed treaty, and an analytical story, were all in type. Within 12 hours copies of the December 15 edition of BROADCASTING were speeding to its 7,000 subscribers.

No other publication had this data. No other publication gave even a hint of the vital character of these epoch-making deliberations which ultimately will affect the operation of practically every broadcasting station on the North American Continent.

The extraordinary demand for extra copies of the December 15 edition of BROADCASTING attests to the importance placed in the Conference by those taking the long view of radio. BROADCASTING takes pleasure in acknowledging this appreciation of its reporting of an important event.

# CAAA. WAVE COVERS THE MOSTA AND THE BESTA!

Without the 171,200 radio homes that comprise WAVE's audience, that comprise WAVE's audience, the entire Louisville Trading Area would be an insignificant blob on the sales map. *With* these homes, you have practically the whole Louisville market... There are only 97,400 more radio homes available through any other Louisville station. To get those extra 97,400, you must nav any other Louisville station. to get those extra 97,400, you must pay twice as much money as for WAVE's 171,200.... That's the Louisville radio story in brief. May we enlarge?

An N. B. C. Outlet National Representatives: FREE & PETERS, INC.

WECO RADIO PRODUCTIONS. Se-attle, program subsidiary of James R. Lunke & Associates, Chicago and Seat-tle agency, will move to Chicag o after the first of the year. At the same time Gene Baker, manager of the firm's Seattle office, will come to Chi-cago as head of Weco. Mr. Lunke heads the agency. Chicago offices of both firms will be located in Palmolive Bildz. The Seattle office of both agency and production firm are being contin-ued as branch offices. A campaign for 12 sectional groups of lumbermen's organizations is under way. J. C. HETHERINGTON. with CBS

J. C. HETHERINGTON, with CBS in St. Louis and Chicago, since 1931, has joined Ruthrauff & Ryan Inc., Chicago, as radio time buyer. Previ-ously buying had been handled by ac-count executives. Before entering radio Mr. Hetherton was with the Chicago Tribune four years in the business sur-vey and advertising department and before that with Wabash Railways.

TOM DENTON, in Boston as eastern representative of W. Long Co., Chi-cako agency, has been made radio di-rector of the agency. He succeeds V. E. Carr, who resigned to become adver-tising and promotion manager of Ward Baking Co., New York.

HENRI, HURST & McDONALD Inc. Chicago, is reconstructing its studio and control room and adding new equipment, according to Frank Ferrin, radio director.

ALMON BROOKS WILDER, for-merly with Simmonds & Simmonds Co., Chicago, has joined L. W. Ram-sey Co., Chicago, as account executive.

MOORE & HAMM Inc., New York, has absorbed the advertising agency, C. Tyler Kelsey Co., Inc., New York.

MAINTAINING its progressive spirit, KTAR daily presents five quarter-hour sponsored news broadcasts from full-time United Press service!

#### Kern to Mexico City

THE resignation of George Kern, of the radio department of Blackof the radio department of Black-ett-Sample-Hummert Inc., Chicago, to join Publicidad Organizada of Mexico City, the largest advertis-ing agency in Mexico, was an-nounced Dec. 21. Shortly after Jan. Kern becomes account executive with that agency. which handles such products as Chevrolet, Oldsmobile, Frigidaire, Elgin watches, Westclox, Coca Cola, RCA Victor radios, etc. Mr. Kern has been with BSH for the last seven years and latterly has been handling the Oxy-dol account for Procter & Gamble. Formerly he was with BBDO in Chicago.

REX FRAZIER, J. Walter Thomp-son Co. Hollywood script writer, and Mary Titelow, formeny or the agen-cy's New York office, were married in the former city on Dec. 11.

ELLIS ADV. Co., of Buffalo, has opened a Toronto office at 465 Bay St., with J. W. Culliner and A. A. Muter in charge. The agency did not bring any United States clients with it into Canada, but moved in because of Canada's growing radio advertising consciousness. consciousness.

consciousness. DON E. GILMAN, vice president of NBC in charge of the Western divi-sion, recently announced a further ex-tension of Consolidated Radio Artists activities in Northern California, fol-lowing the abandonment of the San Francisco Artists Service some weeks ago. By arrangement with Charles E. Green, national head of CRA. Larry Allen, formerly in charge of NBC Ar-tist Service in San Francisco, becomes San Francisco manager of Consolidat-ed. He assumed his new duties Jan. 1. WILLIAM STEPLENS Inc. Barger

WILLIAM STEPHENS Inc., Bever-ly Hills, Cal., talent agency, has moved to new offices at 8913 Sunset Blvd., that city. Richard Cherwin is in charge of radio.

In charge of radio. CONTINENTAL ADV. Service, Los Angeles, has moved to new offices at 1142 Glendon ave., that city, and has made Will Grant head of its radio de-partment. He was formerly of Hisson-O'Donnell Adv. Inc., Los Angeles, Forrest L. Dolan, formerly of Ellis T. Gash Co. Inc., Chicago, has been added to the staff as production man-ager. Heading the publicity depart-ment are Frances Anderson and Ger-rit E. Roelof.

T. E. CAMPBELL, of Brace Beem-er Inc., Detroit agency, on Dec. 11 became the father of a third daughter. JOE KURTH, formerly on the sales staff of WJJD, Chicago, has joined Critchfield & Co., Chcago, as account executive.

data, talephone Harrison 1161, collect, or wire collect to -DON DAVIS. President, KANSAS CITY, MISSOURI

#### **Agency Held to Be Liable** For Social Security Tax **Covering Artist's Staff**

THE SOCIAL Security Commis-sion recently ruled that the em-ployes of a radio artist are also the employes of the advertising agency contracting with the artist and the agency is responsible for tax deductions. This ruling result-ed from a request by Carson J. Robison, leader of the Buckarcos a thrice-weekly hillbilly act on MBS, to have his position clarified. Mr. Robison is under contract to

MBS, to have his position clarified. Mr. Robison is under contract to Erwin, Wasey & Co. and the agen-cy has the final supervision of the programs prepared by him. In turn, he hires three program as-sistants with whom he shares his salary from the sponsor, Wasey Products Corp. (Musterole and Zemo). The SEC ruled that Mr. Robison was not an independent contractor and that the members of his cast were employes of the of his cast were employes of the agency although they have no di-rect contract with the agency.

rect contract with the agency. Also clarified by the ruling was the \$3,000 maximum security credit allowed each employe. It now ap-pears that if a radio artist had more than one employer and his income from each did not exceed \$3,000 he would be taxed on all salaries. The SEC stated: "If the employe has more than one em-ployer during the calendar year, the limitation of wages to the first \$3,000 of remuneration received the limitation of wages to the hrst \$3,000 of remuneration received applies to remuneration received from each employer with respect to employment during that year." So much confusion has resulted from interpretation of the Social Security Act that many New York correction have acked merforming

agencies have asked performing employes to sign forms covering possible deductions without collecting the tax.

#### **New Program Firm**

New Program Firm A NEW script and transcription producer, to be known as the Little Theater of the Air, started in Chi-cago Jan. 1 with a catalog of over 500 titles available in both script and transcribed form for stations and local advertisers. Heading the new firm are Gale Maritano, for-merly of WXYZ and WMBC, De-troit, and Adela Kay, program and continuity editor of WHIP, Ham-mond, Ind., and formerly with WHAM, Cleveland, and KOIL, Omaha. Dramatic scripts, commer-cials, spot announcements, custom written shows and other syndicate features, are available at syndicate features, are available at syndicate rates from one to 26 weeks, according to the catalog.

ARTISTS & AUTHORS Corp. of America, talent agency, has been or-ganized in Hollywood with offices at 6331 Hollywood Blvd. Arthur M. Landau, who recently disposed of his in-terests in Small-Landau Co., Holly-wood talent agency, and Al J. Leeds head the new organization which is building its own structure in Beverly Hills, Cal. Pete de Lima, well known in West Coast radio and advertising, heads the radio department. Agency is handling actors, directors, producers and writers.

SCRIPT SHOP, new script library service, has opened offices at 10 West 47th St., New York, to syndicate program material. Irving Marcuse, general manager, and Baer Kraut, ed-itor, were formerly with Transcribed Radio Shows Inc.

# Hollingbery Buys Craig's Holdings

Name, Personnel Unchanged; Named WWJ Representative

EFFECTIVE Jan. 1, George Hol-lingbery, head of the Chicago office of Craig & Hollingbery Inc., takes over ownership of the entire com-

pany, having purchased the inly held by the late Norman Craig. Personnel and name of the firm will remain the same with Edward Spencer,

Mr. Hollingbery of KDKA, Pitts-burgh and manager of NBC local sales in New York, who joined the Craig & Hollingbery firm last July, to be vice-president of the firm and manager of the New York office. Mrs. Jean Craig will con-tinue in the New York office. Mr. Hollingbery formely ad

Mr. Hollingbery, formerly ad-vertising manager of the *Chicago Harald & Examiner*, formed his own representative firm in Chicago own representative firm in Chicago in June, 1936. Shortly after he made an arrangement with Nor-man Craig who had started his representative firm in New York in 1934 by which their stations could have both New York and Chicago representation. In Janu-ary, 1937, the partnership of Craig & Hollingbery was formed. In addition to offices in New York and Chicago, the firm has branches in Detroit, Jacksonville and San Francisco. Francisco.

At the same time, Mr. Holling-bery announced that effective Jan. bery announced that effective Jan. 15 his firm will assume exclusive representation of WWJ, Detroit. Represented by the firm in the East are WHAM, WDRC, WOKO, WEEU, WORC, WIBX. Midwest: WWJ, WREN, WEBC, WAAF, KSCJ, WOOL, WJAX, WIOD, WJDX and WBIG.

COLUMBIA ARTISTS Inc., New York, announces the appointment of Lawrence Menkin and Joseph Hill to discrete the second sec Detroit, and before that he was a di-rector and actor with the Province-town Playhouse Guild. Mr. Hill is one-time assistant music editor of the New York Sun and more recently was radio director of the Federal Advertising Agency, that eity.

WHIP, Hammond, Ind., has appoint-ed Valentine Jarosz as special for-eign language sales representative. Mr. Jarosz is also handling special foreigu language programs for WMBC, Detroit, placing 3½ hours of foreigu language programs daily on the De-troit station.

NILES-RICHMAN Co.. New York, on Jan. 1 becomes an advertising agency solely, dropping its station rep-resentation activities.

J. J. DEVINE & ASSOCIATES Inc. New York, has been appointed exclusive national advertising repre-sentative of WMAL, Laurel, Miss., and WCHL, Charlottesville, Va.

GEORGE ROESLER has resigned from the Chicago staff of Joseph Her-shey McGillvra, effective Jan. 15.

#### **New Salt Lake Agency**

R. T. (Dick) HARRIS has resigned his post as program director of KDYL, Salt Lake City, to open his own advertising agency in that city, starting Jan. 3. He will specialize in radio. The new agency to be known as R. T. Harris Advertising Accesser in located in the First No Agency, is located in the First Na-tional Bank Bldg. It will be equipped to handle transcription and mike auditions to accounts.

#### **Paley's Compensation**

ADDITIONAL compensation to William S. Paley, CBS president, has been revised as of Jan. 3, 1987, acording to an amendment filed with the Security & Exchange Commission. The payments, which supplement his salary, are 5% of CBS and subsidiaries up to \$1,000,-000 plus 4% of next \$1,000,000. CBS and subsidiaries up to \$1,000,-000 plus 4% of next \$1,000,000, plus 3% of next \$1,000,000 plus 2% of profits over \$3,000,000. Mr. Paley's contract has been extended to Dec. 31, 1940. Formerly he had received 2½% up to \$600,000 and 5% over that amount in additional compensation compensation.

#### I. J. Fox Spots

1. J. FOX SPOIS I. J. FOX FURRIERS, New York, through Schillin Adv. Corp., New York, is placing a series of one-minute transcriptions for a Janu-ary campaign. Mr. Fox and Sid Walton are featured on the discs which were made by WOR and pro-duced by Louis Tappe of the agen-cy. Stations are WMCA, WHN, WINS, New York; WAAT, Jersey City; WGAR, WHK, WJAY, WTAM, Cleveland.

**BROADCASTING** • Broadcast Advertising

NO DOUBT about the speed adjust-ment on the Presto turntable. It's plainly marked by the sector and arrow. To change speed—simply move the lever. No need to stop the table or motor or renove the transcrip-tion from the table. You can change speed in less than two seconds.

Presto turntables are made for 25, 50 or 60 cycle power. They are suit-able for reproducing either vertical or lateral recordings. There are models to suit any station require-ments. Write for descriptive folder.

table.

#### **New NBC Shows**

NBC, as of Dec. 24, announced 17 NBC, as of Dec. 24, announced 17 new shows starting in January, totaling 11 hours a week. Five of them are on the Blue network: American Cigarette & Cigar Co., American Rolling Mill, Glass Con-tainer Assn., S. C. Johnson & Son, and Quaker Oats Co. On the Red are Benjamin Moore Co., Borden Co., Bristol-Myers Co., Campbell Soup Co. F. W. Fitch & Co. John Soup Co., F. W. Fitch & Co., John Morrell & Co., J. W. Marrow, Na-tional Biscuit, Packer Tar Soap Inc., Pepsodent Co., Quaker Oats Co., and Standard Oil of California.

## Higher Standard of Network Programs NAB Charge Answered Shown in Review of Activities in 1937

FROM the network point of view 1937 appears to have been radio's most successful year and hopes run

high for 1938. William S. Paley, president of CBS, said in his year-end state-ment: "Broadly speaking, CBS is concerned with five major phases of our democratic national life, with America's spiritual well-being, its cultural and educational adits cultural and educational ad-vancement, its economic stability, its political integrity and its rela-tionship with a world of other na-tions. It is estimated that through-out 1938 CBS will present some 3,000 broadcasts, spontaneously keyed and timed to the ebb and flow of life on the American scene, dealing with politics, labor news, national and public affairs."

#### Lohr's Year-End Statement

In his year-end statement, Lenox R. Lohr, president of NBC, said: "Today, we must consider our obli-gation of service to a public that daily is growing more conscious of cultural and educational values." He reviewed NBC's contributions to these ends by referring to the NBC Symphony conducted by Arturo Toscanini, to the appointment of Dr. James Rowland Angell as NBC educational counselor and to de-velopments in shortwave and television.

Alfred J. McCosker, president of WOR and chairman of the board of MBS, stated: "The American

Page 60 • January 1, 1938

public is demanding unceasingly better standards of entertainment and talent. Although radio's sur-prising growth has always been based upon its unpredictability, WOR and Mutual may be depended upon to continue to maintain their status among the nation's broad-casters to see that these demands are kept pace with during 1938." He added that "1937 has been a banner year for us, for the estab-lishment of the Mutual network from coast to coast as one of the nation's major networks became a reality."

#### School Council Suspends

**Its Corporate Activities** ALTHOUGH continuing its cor-porate organization, the National porate organization, the National Advisory Council on Radio in Education, as a result of a recent board meeting, has suspended its activi-ties pending the development of the meeting, has suspended its activi-ties pending the development of the radio educational program of the Federal Radio Education Commit-tee [BROADCASTING, NOV. 15]. Its office will continue at 60 E. 42d St., New York, and it is possible it will continue a publication program even while dormant, according to Levering Tyson, who retains the title of secretary although he is now president of Muhlenburg Col-lege. Officers continue as follows: Robert A. Millikan, president; Liv-ingston Farrand, Meta Glass, Rob-ert M. Hutchins, Walter Dill Scott and Robert G. Sproul, vice-presi-dent; Harry W. Chase, chairman of the board; James E. Russell, vice-chairman of the board; Wil-liam J. Donovan, treasurer. liam J. Donovan, treasurer.

#### **Counsel Sends Bill**

**Counsel Sends Bill** BILLS amounting to \$2,235 and \$1,796, respectively, have been sub-mitted by Samuel H. Kaufman and Eugene S. Parter, who were special counsel in the recent Segal-Smith proceedings before the FCC. They had been engaged on a per diem based on salaries of \$9,000 and \$6, 000 per year, respectively. The Comptroller General must pass up-on the bills before they are paid. Mr. Kaufman, an aspirant for the f e d er a l district attorneyship of New York, was selected and hired York, was selected and hired New upon the instance of Commissioner George H. Payne who later was dis-qualified by his colleagues from sitting in the case.

By San Francisco Fair AN ATTACK upon the recent pub-lished statement of the NAB notifying station members that the Golden Gate International Exposi-tion in San Francisco was not entitled to free time, was made Dec. 18 by Arthur Linkletter, manager of the Radio Division of the Exposition

Declaring that the NAB or its staff should be disabused of a few illusions concerning expositions, Mr. Linkletter said that the San Francisco fair, as in the case of all large fairs, has a strict policy of no paid advertising. Thousands of newspapers and magazines are serviced and not a single inch of space is purchased indoors or out-doors, on the air or off the air, he said.

Denying that the fair is a com-mercial venture, he said it has the backing of the Federal Government to the extent of \$5,000,000, Califor-nia to the extent of \$5,000,000, and 23 other States, 19 foreign govern-ments, and a host of civic and social organizations. He added it is a non-profit corporation pledged to the purpose of "glorifying Western America".

Discussing radio aspects, Mr. Linkletter said that during 1939 the fair plans to install the most modern radio facilities obtainable, housed in a central radio building which will be offered for use free of charge to all networks and sta-tions. Moreover, exhibitors and concessionaires are encouraged to include in their plans budgets for use in sponsoring programs and announcements calling attention to their exhibit. A substantial budget, he said, will be set aside for good sustaining broadcasts which will be available to all stations from the fair grounds.

#### Blackley Heads WSVA

CHAS. P. BLACKLEY has been named to succeed the late Floyd Williams as general manager of W S V A, Harrisonburg, Va. Mr. Blackley has been with WSVA since its establishment in June, since its establishment in June, 1935, and for the past two years has acted as business manager of the station. There will be no ap-pointment to the latter office. Wen-dell Siler, chief announcer, has been designated program director, a position also held by Mr. Wil-liams, who was a major stockholder in WSVA.

INTENSE heat from a fire in a shoe store next door on Dec. 14 forced the entire staff of WCBS. Springfield, III., to vacate the studios and transfer Operations to the transmitter house a few blocks away. Programs were con-tinued without interruption and as soon as firemen had the blaze under control the station's engineers arranged for continued broadcasting from the main studios.

CHRISTMAS GREETINGS—From the station relations department of NBC took this form in cards sent out to their mutual friends by, left to right: "General" Bill Hedges, vice-president in charge of station relations; "Captain" Keith Kiggins, head of the department; Shel Hickox, John Norton, Easton Woolley, Phil Merry-man, Harry Woodman, Otto Brandt, Burt Adams.

# **Radio Bills Continue in Background** As Opening of Regular Session Nears

By WALTER BROWN WITH tax revision, anti-lynching and wages and hours legislation likely to dominate the first part of the regular session of Congress, it is doubtful if any bills dealing with radio or allied interests will re-ceive attention of the national law makers until some time after the

session begins Jan. 3. Senator Duffy (D-Wis.) m a de no effort to bring up the Interna-tional Copyright Convention for Senate ratification at the special session. Just before leaving for his Wirecore to cover de the Wisconsin home to spend the Christmas holidays, Mr. Duffy told BROADCASTING he was taking the reservations which have been pro-posed to the convention with him for study.

#### **Reservations Made**

Four reservations have been proposed by representatives of publishers, moving picture producers, broadcasters and other users of copyrightable material. They are:

Reservation 1. The elimination of any possibility of "oral" copyright being recognized by the United States.

Reservation 2. Clarification of

States. Reservation 2. Clarification of language so that there shall be no possibility of "retroactivity" with respect to copyright works in the public domain in the United States a" the time of adherence. Reservation 3. The safeguarding of contractual rights between the producers and users of copyrightable material, unfettered by the theory of "le droit moral." Reservation 4. The retention by the United States of the absolute right of legal interpretation of the clauses of the Convention in so far as they related to rights in copy-rightable materials.

\* \* \* \* \* \* \* \* \*

Senator Duffy frankly said he doubted the wisdom of attaching the reservations to the convention because if this were done, separate action would be necessary by the 42 countries which are party to the agreement and this would cause an indefinite delay in making the treaty operative. When he returns treaty operative. When he returns to Washington after the holidays, he will have reached a definite conclusion as to the reservations as well as the time he will call for

Senate action. Meanwhile Senator Duffy and Braswell Deen (D-Ga.) are making plans to secure action during the plans to sectire action during the special session on the copyright bill, the controversial feature of which is a provision to repeal the section of the present law that places a \$250 fine against any infringment upon copyright material, leaving the courts no discretion in imposing the penalty. The Duffy bill would remove the mandatory penalty but give the copyright hold-ers full redress in the courts for any infringment, with the courts fixing the damage, if any. Mr. Duffy hopes to have the Sen-ate ratify the convention early in

the regular session and also secure passage of his copyright bill. The demand for a Congressional

investigation of broadcasting and FCC lay dormant until the closing days of the session, but was revived by two members just before the sine die adjournment as a result of the Mae West skit. Rep. O'Toole (D-N, Y.) and Rep. Connery (D-Mass.), brother of the late Repre-Mass.), brother of the late Repre-sentative William Connery who was active in promoting an FCC probe, assailed NBC for the program. Under the heading of "Filth in

KMP ╈ ★  $\star$ "The Station Of The Stars" \* **BEVERLY HILLS. CALIFORNIA** This is the first chance the "New  $\star$ KMPC" has had to make a New HOWARD H. Year's resolution. Here it is, "To WILSON CO. keep up the progress that has Station Representative marked it as 'The Fastest Growing Keep Your Eyes and Ears on Independent Station in Southern This Fast Stepping Station! California!" "

**BROADCASTING** • Broadcast Advertising

Broadcasting," Rep. O'Toole aired his views in the Congressional Rec-ord. He said he would demand an investigation during the regular session in order that the people of the United States "may be assured of decent, clean, and entertaining programs." Rep. Connery voiced a

similar intention. FCC Chairman McNinch's prompt action in ordering an in-vestigation of the Mae West broadvestigation of the Mae West broad-cast matter was favorably received on Capitol Hill and no doubt pre-vented a more serious outbreak against radio broadcasting. The House Interstate Commerce Committee is expected to take up the Food and Drug bill early in the regular session but it will not reach the floor for some weeks. The sub-

regular session but it will not reach the floor for some weeks. The sub-committee in charge of the bill, which is headed by Chairman Lea (D-Cal.) has not yet made its re-port to the full committee but is expected to do so in January. The food and drug bill has already passed the Senate.

#### **Roosevelt and Congress**

OPENING of the 78th Congress will be broadcast directly from the capitol at Washington by the major capitol at Washington by the major networks, starting at noon, Jan. 3. Permission has again been granted to place microphones on the ros-trum so that President Roosevelt's message will be carried as he de-livers it personally. President Roose-velt's address to 49 Jackson Day banquets throughout the country. along with Postmaster General Farley's, will also be broadcast over the networks from the Wash-ington dinner, Jan. 8, 9:30-10 p. m. (EST). p. m. (EST).

LAMBDIN KAY'S noted Christmas charity, the Unorganized Cheerful Givers, raised \$7,000 for the needy of Atlanta, the veteran manager of WSB going before the microphone to help the drive. going before the drive.

# AFRA Ready for Agency Radio Drive; **ARTA Seeks All Employes in Industry**

A DRIVE to sign radio employes of advertising agencies will be started after the first of the year by American Federation of Radio Artists, according to word from AFRA headquarters. This effort puts aside for the moment the AFRA plans to sign up employes

Details of the AFRA campaign in the agency field were not di-vulged but it is understood that membership will be sought from all persons connected with radio departments.

Organized labor ventured deeper into the radio field as the year ended with the distribution to CBS ended with the distribution to CBS employes in New York, while on their way to work, of CIO pam-phlets asking white collar workers to join American Radio Telegraph-ists Association. To NBC, MBS and WNEW went ARTA organizers with similar pamphlets urging "everyone in radio" to join the union. union.

According to Charles H. Klein-man, executive secretary of ARTA man, executive secretary of AKTA local 16, the purpose of the maneu-ver is "the feeling shared by radio employes that it is a natural thing to build industry solidarity by hav-ing all employes members of the union." He added that if a strike were called in a New York key sta-tion the network would be crippled if its clearing stoff refueed to as its clerical staff refused to assist in transferring production to a member station.

Pointing out that New York radio engineers, actors, musicians and announcers are already organized, the pamphlets stated that in 1933 CBS engineers in New York worked on the average of 60-70 hours each week, were paid an average weekly wage of \$29. As members of ARTA, they stated further, CBS engineers in New York work a maximum of 40 hours per week, receive a weekly wage per week, receive a weekly wage of \$65.

The pamphlet continued, "Now it is possible for everyone working it is possible for everyone working in any capacity in radio to join a union—and achieve all these ad-vantages which are possible only by organization. ARTA is organiz-ing all those who are employed by radio broadcasting companies. Here in New York it will include all the uncorgnized employee of NBC unorganized employes of NBC, CBS, MBS and every independent

CBS, MBS and every independent station. "The Wagner Labor Relations Act guarantees your right to be-long to a trade union. Become a member of your union, the ARTA, by filling out the enclosed coupon today." The pamphlet also stated that "a mass meeting for radio broadcasting employes will be held shortly, with speakers of national importance." Effective March 1, pending a national referendum, ARTA will be known as the Ameri-can Communications Association. can Communications Association.

#### Minimum Wage Voted

A standard minimum wage scale for actors, singers and announcers employed on network commercial employed on network commercial programs has been drawn up by the executive board of the Amer-ican Federation of Radio Artists, AFL talent union, and ratified by AFRA local unions in Chicago and Los Angeles, cities in which most

Los Angeles, cities in which most network programs originate. Demands will be presented by the union shortly after the first of the year, but just how union of-ficials will approach the networks or the advertising agencies first was something that the union spokesman refused to discuss. Nei-ther would he disclose any of the terms of the standard salary scale terms of the standard salary scale except to say that separate scales had been established for actors, singers and announcers. AFRA membership now exceeds 4,000, he stated, with expectations of an even more rapid growth after the union has presented and secured

union has presented and secured its demands for network talent. Threatened split between Los Angeles chapter and eastern head-quarters of the American Federa-tion of Radio Artists was averted on Dec. 17 when Norman Field,

BEGINNING

the

of

executive secretary of the South-ern California group withdrew his resignation of that post at a spe-cial meeting held in that ciry. Field's action, supported by the Los Angeles chapter membership and executive board, indicated an ironing out of difficulties between the West Coast group and the na-tional organization. Votes of con-fidence were extended to Field and fidence were extended to Field and Mrs. Emily Holt, executive secre-tary of the national organization, who came to Hollywood from New

Who came to Holywood from New York for the meeting. Mr. Field, who was the first president of Los Angeles chapter, telegraphed his resignation to Carlton KaDell, president, and to the groupting head of the peting the executive board of the nationthe executive board of the hation-al organization on Dec. 12, stating that "a situation has arisen which makes me see that my usefulness has ended". Factional discord had existed ever since Mrs. Holt made her first official visit to Hollywood in any Museukar

in early November. Criticism was originally pointed at Mrs. Holt on the basis of her asserted failure to deal with Los asserted failure to deal with Los Angeles AFRA executives on cer-tain matters which, it is claimed, she took up direct with officers of Screen Actor's Guild in Hollywood. Such action, it was said, was re-garded as an affront to Los An-geles AFRA officers. It was re-sented as an evasion of direct deal-ing and construed in some quer

sented as an evasion of direct deal-ing and construed in some quar-ters as belittling the importance of the local chapter and its board. It was also felt that local autono-my was being threatened and a move under way by the national headquarters to subordinate Los Appeales chapter

Angeles chapter. The Los Angeles group feels that it fostered and organized the original unit from which AFRA developed and it doesn't intend to see its importance nor its repre-sentation in the national setup im-paired. Los Angeles chapter, or-ganized last June, has 900 mem-bers.

#### **Big Foods Plans**

BIG FOODS Inc., Chicago (chain of restaurants), has appointed Reincke - Ellis - Youngreen & Finn Inc., Chicago, as advertising agen-cy. The firm has just concluded a cy. The firm has just concluded a daily one-minute spot announce-ment campaign on WCAE, Pitts-burgh, and plans to start there again in January together with a San Francisco station as yet un-chosen. These are the only two markets planned on being used al-though the restaurant chain has stores in Chicago, San Francisco, Pittsburgh, New York, Baltimore, C in c in n a t i, Kansas City, Des Moines, Minneapolis and Milwau-kee. kee.

MILES LABORATORIES, Eikhart. Ind. (Aika-Seitzer), will start Comedy Stare of Broadway, quarter - hour transcritions thrice weekly on 12 Canadian stations about the middle of January. Wade Adv. Agency, Chicago, handles the account.

**BROADCASTING** • Broadcast Advertising

# **S**TEP AHEAD IN **1938**

KTAT programs are planned to do more than an entertainment job (although KTAT does that remarkably well). Every program is ar-

ranged and timed to get more business for the advertiser by building and holding audiences to which you can deliver your sales and merchandising messages. Affiliated with the Mutual Broadcasting System, KTAT's the showmanship station of the vast Fort Worth market, and gives complete coverage of the richest area in Texas: A population of more than 1,061,751, over 184,230 radio homes, 14,122 retail outlets, and retail sales exceeding \$322,000,000.00 annually.

That's why we sincerely say: Step ahead in 1938!

#### **General Mills Test**

GENERAL MILLS Inc., Minneap-GENERAL MILLS Inc., Minneap-olis, on Jan. 3 will start tests of a new serial, Magnificent Lady, on WGN, Chicago. Program will be broadcast 2:15-2:30 p. m., Monday thru Friday. Sandra Michael, wife of Edward Giebisch, radio direc-tor of Cramer-Krasselt Co., Mil-waukee, is author of the series which will promote either Corn-Kir, General Mills' new cereal. or Kix, General Mills' new cereal, or Softasilk flour. Knox Reeves Adv. Inc., Minneapolis, handles the account.

RCA announced Dec. 17 that it had entered into agreements with Hazel-tine Corp. whereby it acquires non-exclusive licenses in all radio fields under the Hazeltine patents.

### **Music Negotiations**

(Continued from page 18) stations received. Final opposition to accepting Schedule A (standard agreement that is a part of each local contract) was coming from the South, where unionism is at its weakest and where the broadcasters were objecting to the "closed shop" clause. This clause, Section 6 of Schedule A, reads as follows:

"In expending the sums of money required to be spent by the Affiliate, as per the terms of the annexed agreement, Affiliate agrees to employ only members in good standing of the Locals affiliated with AFM as staff musicians. All musicians other than staff musi-cians employed by Affiliate shall likewise be employed upon terms and conditions as agreed upon be-

tween Affiliate and Local Union." Both union and IRNA spokesmen, however, scoffed at any serious difficulty which might further delay proceedings or cause an ad-ditional postponement of the dead-line. Following the Dec. 22 meeting, long distance calls had been made to all cities in which negotiations were lagging and in only a couple of spots was any dissen-sion encountered. Continuing this pressure plan, further meetings be-tween Mr. Weber and IRNA committeemen were scheduled for the final week of 1937, to go over the contracts received and to go after stations and unions still proving recalcitrant.

Contract negotiations between the union and transcription and phonograph record manufacturers,

and between the union and the non-network stations were being held in abeyance pending the com-pletion of the IRNA negotiations.

# Harsh Criticism of FCC Given KFDM Sale Is Favored In Ruling by Appellate Court Chevenne Decision Reversed, Termed "Arbitrary And Capricious" in Strongly Worded Action

INDICATING that it intends to give closer scrutiny to both legal and factual aspects of FCC pro-cedure, the U. S. Court of Appeals for the District of Columbia, to which appeals from FCC decisions which appeals from FCC decisions must be taken, on Dec. 27 reversed the Commission's findings against the application of Paul H. Heit-meyer for a new station in Chey-enne, Wyo. The FCC decision was termed "arbitrary and capricious" in one of the most strongly worded decisione was wordend by the cavit In one of the most strongly worded decisions yet rendered by the court. Associate Justice Justin Miller, recently appointed to the court, wrote the opinion and in it criti-cised the FCC for not making rules and regulations covering the determination of an applicant's financial qualifications. The Com-mission was accain called to too mission was again called to task mission was again called to task for failure to render statements of facts and grounds for decision within reasonable time, thus em-phasizing the court's findings in the WIL-St. Louis Star-Times case [BROADCASTING, Dec. 15] that the Commission must render its state-ment at the time of decision.

#### Writes Precedent

The Heitmeyer case is regarded as highly significant not only in that it takes the Commission and its legal department to task but it writes basic precedent. The

For One Low Rate

... And ring them in the rich cotton-tobacco areas with WIS-WPTF . . . These twin stations, broadcasting on favorable low frequencies. give maximum results for minimum cost in the most profitable market areas in the Carolinas.

Page 64 • January 1, 1938

Sold at one low rate

Heitmeyer application was remand-ed to the FCC for further consid-eration, which means the Com-mission may either rehear it or reach a new decision without further hearing.

ther hearing. Heitmeyer, at present general manager of KLO, Ogden, Utah, and formerly with KEX and KGW, Portland; KNX, Hollywood, and KUJ, Walla Walla, Wash., applied for 100 watts night and 250 day on 1210 kc. The examiner's report was favorable, Cheyenne being the capital of Wyoming and at present having no radio station, but the FCC denied the application May 1, 1936, on the grounds that Heitmeyer did not have adequate financial qualifications. Appeal was thereupon taken by former Senathereupon taken by former Sena-tor C. C. Dill and James W. Gum, Washington counsel.

The court narrowed the issue to the applicant's financial qualifica-tions. It was found that A. L. Glasman, publisher of the Ogden Standard-Examiner and owner of a controlling interest in KLO, had placed \$20,000 to Mr. Heitmeyer's credit as a loan for the construc-tion of the proposed station. Mr. Heitmeyer agreed to pay 6% on the principal and to repay the loan in five years. If the loan were not paid 49% of the stock in the new corporation would be assigned to Mr. Glasman. The court narrowed the issue to Mr. Glasman.

corporation would be assigned to Mr. Glasman. Concerning this point the court said: "It is contended by the Com-mission that appellant has failed to show his financial qualification, because (1) the loan is intended to be secured by the distribution to Glasman of 49% of the stock of the proposed corporation; (2) the value of the corporate stock de-pends on the granting of permis-sion for transfer of the station li-cense to the corporation; (3) this involves in effect the prejudging by the Commission of two appli-cations not yet before it; (4) hence the security for the loan is condi-tioned on a judgment of the Com-mission which it is powerless to make. It would seem on its face to be a rather severe restriction to be a rather severe restriction upon business enterprise and an unnecessary limitation upon the availability of radio service in a particular community. Moreover, it

In Report by Examiner In Keporl by Examiner SALE of KFDM, Beaumont, Tex., regional station on 560 kc., for \$115,000, was recommended to the FCC Dec. 17 in a report by Ex-aminer Tyler Berry. The station is owned by Magnolia Petroleum Co., but has been operated under a \$300 a month lease by Sabine Broadcasting Co., headed by J. M. Gilliam. The purchasing group is Broadcasting Co., headed by J. M. Gilliam. The purchasing group is headed by C. W. Snider, Texas magnate, and his son-in-law, Dar-rell A. Kahn, who is manager of KGKO, Wichita Falls, who are also interested in the application of West Texas Broadcasting Co., seeking a new station in Wichita Falls to replace KGKO when that station is moved to Fort Worth. The FCC has already authorized the KGKO removal, and an exami-ner's report is pending favoring

the KGKO removal, and an exami-ner's report is pending favoring the Snider group for the new sta-tion. The KFDM sale involves a cash payment of \$40,000 upon FCC final approval, a payment of \$20,000 within a year, another of \$40,000 during the second year and a \$25,000 fund to be disbursed by the Magnolia company to pay up debts of the Sabine company. any residue thereafter to be paid to the Sabine company.

would seem to be a particularly arbitrary and futile procedure in a case such as this, where the ap-plicant fully and fairly revealed his plans.

#### No Rule to Guide It

"We look for some measure of financial qualification to guide us. We are referred to no rule or regulation of the Commission suggest-ing a rigid standard. On such an important question we think the public is entitled to have the sta-tute implemented by a regulation setting out clearly and concisely just what the Commission regards as a minimum standard of finan-cial ability.

"In this period of economic un-certainty financing reasonably as-sured five years in advance would seem to constitute much more than seem to constitute much more than the average business security. We cannot require the impossible in attempting to guarantee safety. If the standard of financial respon-sibility required by the Commis-sion in this case were imposed upon the country generally, busi-ness would cease. Under the cir-cumstances, can it be said that the action of the Commission was any-thing but arbitrary, if not capri-cious?"

#### **CBS** Plans to Expand SanFranciscoProduction

SanFrancisco Production A RESUMPTION of major radio production in San Francisco by the Columbia Broadcasting System was announced by Donald W. Thornburgh, vice-president of the Pacific Coast operations for CBS, recently. With the new \$350,000 CBS studios speeding toward com-pletion in the Palace Hotel, Colum-bia is working on plans to shift a number of its major coast-origi-nating productions to San Fran-cisco. The new studios are sched-uled to be completed and ready for occupancy by March 1. In line with this policy, Mr. Thornburgh has just transferred Tom Breneman from Hollywood to San Francisco and named him pro-duction representative in charge of network programs originating in the new San Francisco studios. Breneman came to San Francisco Dec. 26. Several outstanding new shows are now being planned by CBS to originate in San Francisco for Pacific Coast release.

One of the most significant developments in radio service since Broadcasting began

# Sponsors Arrange Hot Springs Will Carry For Baseball Time

#### Kellogg, General Mills and Socony Signing Schedules

KELLOGG Co., Battle Creek, will sponsor baseball in a majority of the American League cities in 1938, having purchased exclusive rights for three cities as well as planning to broadcast games in three others. Kellogg will sponsor American and National league games in Boston on Colonial net-work; will sponsor games in Phil-adenbia: and Detroit games on a work; will sponsor games in the ade.phia; and Detroit games on a Detroit station and Michigan net-work. Kellogg will sponsor Cubs and White Sox games in Chicago on WJJD and St. Louis games on on WJJ KMOX.

MMOX. In the American League, General Mils will sponsor exclusively the Washington road games as well as both the Cleveland home and away games. The company will share sponsorship of Cubs and Sox games with Socony on WBBM for the second successive year as well as broadcasting St. Louis games on KWK. on KWK.

Kellogg had signed up broad-casts of the Sox games in Chicago at a reputed cost of \$75,000 on an at a reputed cost of \$75,000 on an exclusive basis having agreed to sponsor the games either alone or with some other sponsor on two stations. However, P. K. Wrigley, owner of the Cubs, opposed this plan, threatening to broadcast road games of the Cubs when the Sox were playing at home which would have hampered the latter's at-tendance. As a result, both Sox and Cubs games have been thrown open with five stations scheduled

open with five stations scheduled to carry the games. In Detroit, Kellogg sponsored Detroit games on the Michigan network in 1937 using WWJ as the Detroit outlet with Ty Tyson brcadcasting. The sponsor may use thes as a possibility that WXYZ may be used as the Detroit outlet, with Harry Heilmann announcing. In Pittsburgh General Foods will

In Pittsburgh General Foods will breadcast exclusively wired reports of all out-of-town games of the Pittsburgh Pirates. circulation.

#### **New Regional Network**

FORMATION of a new regional network, to be known as the North Central Broadcasting Co., with headquarters in the Empire Bank Bldg., St. Paul, has been disclosed by John W. Boler, general manby John W. Boler, general man-ager. It is planned to start it early in 1938 Mr. Boler announced the following stations have already been lined up, with others to be added: KSTP, St. Paul, and WTCN, Minneapolis, as alternate outlets; WEBC, Duluth; KVOX, Moorhead, Minn.; KATE, Albert Lea, Minn.; KWNO, Winona, Minn.; WEAU, Eau Claire, Wis.; WKBH, LaCrosse, Wis.; KGLO, Mason City, Ia. The latter two are to be supplementary outlets.

#### **Scott Paper Buying**

SCOTT PAPER Co., Chester, Pa., on Jan. 3 will start participation in home economics programs in New England, and on Jan. 17 will add stations in other sections of the country. Contracts call for participations two and three days a week, for 13 or 26 weeks. Stations will total 37. Agency is J. Walter Thompson Co., New York.

#### **Sunkist Disc Series**

CALIFORNIA FRUIT GROWERS Exchange, Los Angeles, has started Sunkist Time, early morning pro-gram six days weekly on 13 sta-tions. Half-hour show is tran-Tions. Half-hour show is tran-scribed by WBS and heard on WOR, WGN, WEEI, CKLW, WCAE, KWK, WHK, WGR, WCAU, WCKY, WFBR. Agency is Lord & Thomas Inc., Los Angeles.

# **Newspaper-Radio Rumor Unverified**

Administration Policy Still Seen as Entirely Unsettled

REPORTS that President Roose-velt had asked Vice-President Garner to sound out Congressional sen-timent regarding legislation deal-ing with newspaper control of radio stations revived speculation in Washington that the administra-tion has such a program in mind, but a series of inquiries failed to substantiate the latest rumor on the subject the subject.

President Roosevelt, when asked at his press conference Dec. 28 for comment on the report printed in the Scripps-Howard papers that Mr. Garner was acting as his emissary in feeling out members of the Senate on legislation to divest newspaper control of broadcasting stations, dismissed the question with the simple statement that he

with the simple statement that he had read the story. Vice President Garner, following a policy of refusing to discuss for publication any reports dealing with White House relations, like-wise declined to comment. He left the impression that there was nothing to the report. The same story made the state-ment that "Frank R. McNinch, new chairman of the Federal Communi-cations Commission, is known to favor divorce of newspapers and

favor divorce of newspapers and radio stations." When questioned regarding this assertion, Mr. Mc-Ninch said:

#### **McNinch Denies Report**

"I have made no statement to anyone that I favor divorce of newspapers and radio stations. The Commission is making a study of this question along with trafficking

this question along with trafficking in radio licenses, regulating net-works and possible development of monopoly in radio facilities, but no conclusions have been reached." Mr. McNinch explained that all these subjects are still in the "study stage" and indicated it would be some time before the Commission would reach any de-cisions. "On newspaper ownership of broadcasting stations I have ma-tured no opinion," he told BROAD-CASTING. CASTING.

CASTING. Senator Wheeler (D-Mont.) has publicly criticised the increasing number of newspaper-owned sta-tions, especially in cities where the ownership has a monopoly on news agencies. The Montana Senator, however, said this week he did not plan to introduce legislation on the subject at the next session of Consubject at the next session of Congress.

Rep. Wearin (D-Iowa) last January introduced a bill prohibiting the issuance of new or renewal radio licenses to newspapers, but no action has been taken on it by the House Interstate & Foreign Com-merce Committee.

In view of the study being made by the FCC of the question of newspaper ownership, there ap-pears little likelihood of any action by Congress on the subject until this is completed and until recom-mendations, if any, are made to Congress.

#### **BROADCASTING** • Broadcast Advertising

Constant Audience A PROMOTION effort to keep its

audience as constant at daytime as at night includes a regular sched-ule of newspaper advertising dur-ing 1938 by WTMJ, Milwaukee. The advertising will promote specific daytime shows over periods of a week to ten days, but during

the entire year's campaign all fea-tures will receive ample advertis-ing. All will be treated indiscrimi-

ng. An win be created indistrimi-nately, commercial or sustaining. The advertising will be carried daily, with "radio page requested," beginning Jan. 2.

#### WSNJ Promotion Sheet

WSNJ Promotion Sheet WSNJ, Bridgeton, N. J., has started WSNJ Radio Press which made its initial appearance recently. First sheet was about 7 x 10 and con-tained advertisements from seven of those using WSNJ airwaves, al-so a complete program listing for the week, and some news concern-ing programs on the air. The lat-est edition contains about twice the space of original sheet and has 38 space of original sheet and has 38 advertisers, along with the listings and news. Circulation has jumped from 2,000 to 7,500. It is published weekly.

bials of Smiles RESPONDING to a \$10 prize for a program title, Listener Bob Rich of Madison, Wis., won the contest broadcast on WOAI, San Antonio, Tex., with the title *Dial a Smile*. According to Lew Valentine, WOAI announcer on the early morning announcer on the early morning variety show, more than 1,000 program titles were submitted by listeners.

Sponsor Salute LOCAL sponsors are given extra publicity on KIDO, Boise, Id., dur-ing its Sunday Salute, a half-hour variety show during which success stories and sponsor showmanship pro described. Datails of the snon are described. Details of the spon sors' rise in business and historical background give the program lis-tener appeal, says KIDO.

Newcomers Welcome EVERY FAMILY moving to Day-ton, O., receives a letter from WHIO asking them to join its lis-teners and enclosing a guest card personally signed by the manager inviting them to visit WHIO's studios. Approximately 30 letters are mailed daily.

#### Nebriowa

WOW, Omaha, has released a lis-tener survey brochure indicating coverage in Nebraska and Iowa. Done in orange and blue, the at-tractive folder lists the mail returns from various cities and towns in this area, which, according to the brochure, is "Nebriowa."

ALL the headaches of planning a radio campaign are over ... everyone agrees it will be "tops" . . . the salesmen go out with renewed enthusiasm.

Then come the heartaches! They find the dealer indifferent . . . he has seen charts and broadsides of four or five advertising campaigns that week . . . he is somewhat confused.

But when he is told the campaign is on WLW, his enthusiasm is aroused . . . he knows from repeated experience the selling impact of

# **NEW RCA FIELD AMPLIFIER!**

Brings you the features you want for field broadcasting!

Specifications of RCA Field Amplifier OP-5...Input Impedance-50 or 250 ohms, as ordered...Four inputs. Output Impedance-500 ohms...Gain-90 db... Power Supply-Standard dry batteries...Dimensions-11¾" high, 18¼" long, 9½" deep ...Weight-about 36 lbs. with batteries...Tubes-4 RCA 1609.

Very small—weighs about 36 lbs.
 Offers "studio quality" transmission
 Has 4 microphone mixers
 Has new low microphonic pentode tubes
 Entirely self-contained, dry battery operated

Just what you've needed for field broadcasting! That's the new RCA OP-5! Is a new single unit field amplifier which weighs about 36 lbs. complete with batteries. Its very small size makes it easy to carry into all sorts of places. Ready for instant use at the flick of a switch.

 $\odot$ 

This useful amplifier has fidelity characteristics exceeding the requirements for studio amplifiers! You can broadcast a baseball game or a symphony concert with it. Its frequency response is uniform within plus or minus 1 db (30-10,000 cycles), distortion below 1%, from 50-7,000 cycles. Noise level below -58 db. No wonder outside pickups sound better with the OP-5!

And the OP-5 has the best of everything. Four ladder-type variable pad mixers. A potentiometer master gain control of rugged noiseless construction, using switch points and high quality fixed resistors. An illuminated volume indicator meter with separate battery for the lamp. And these are only a few of its many features! Some of the others are listed in the box below. Look them over. They'll show you that it will pay you to own an OP-5—the unit that will solve your field broadcasting problems. For full details write to the nearest district office.

The RCA 1609 tubes used in the OP-5 are designed for a special purpose. There is an RCA tube for every purpose in broadcasting.
