

"Next I suppose you'll be a Chinese Mandarin!"

• Entirely without the aid of mirrors or other legerdermain, our versatile news commentator, H. R. Gross, has now become a full-fledged Chief of the Sac and Fox Indians. He was inducted on September 17, before an audience of several thousand braves and mere pale-faces. But it's the story behind this story, though, in which we believe you'll be interested.

Seems that sometime ago, the noble red men became worried by the diminishing wild life here in the Middle West. One reason was lack of food in winter. So WHO was called on for help. H. R. Gross broadcast an appeal over WHO for funds to buy winter supplies. At once, the money came pouring back—from sportsmen in every state in the Union—from Canada, Mexico and Cuba!

So H. R. Gross is now an honest-to-goodness Indian Chief! But advertisers will find an altogether different significance in this brief item . . . What important message would *you* like to broadcast to the most attentive audience in the Nation?

DES MOINES . . . 50,000 WATTS J. O. MALAND, MANAGER FREE & PETERS, INC., Representatives

 In less than a year KLZ-produced "Lady, Lend an Ear" has completely captured the housewifely interest of 255,000 radio homes in the Denver-Rocky Mountain area. It started off as a 15-minute period of home-making suggestions and household hints. It has grown, by popular demand, into a 45-minute, six-times-a-week program that holds its audience through a flawless blend of showmanship plus.

Local advertisers were first to discover the power of this typical sales-provoking KLZ production. National sponsors lost no time in capitalizing on its popularity and its drawing power. So in less than a year on the air, "Lady, Lend an Ear" has counted on its roster of participating cosponsors leading names in Colorado among retailers and manufacturers of home furnishings, foods and appliances.

Naturally, this type of program . . . designed, planned and conducted by KLZ's

Margaret Moore*, a skilled commentator who for eight years has been creating outstanding women's programs . . . can be made available for a limited number of sponsors. But participation of a few seasonal accounts leaves an occasional spot for those who want a sure, economical road into the hearts of women of this region.

*Dinty Doyle, N. Y. Journal-American columnist, referred to her as "an important lady of radio who should be grabbed by the networks."

VISUAL EVIDENCE of the popularity of KLZ's "Lady, Lend an Ear" is to be found in the SRO sign which usually goes up in KLZ's main studio before this sparkling program goes on the air.

Can any radio station match this record?

Crossley Inc. finds 94% of <u>all</u> sets in use tuned to <u>one</u> station

6 A. M. to 12 midnight... Monday through Fri-

day...in three cities...94% of all sets were

... tuned to WJNO

rom September 25 to 29 (Monday through Friday) Crossley, Inc., measured the radio audience in Palm Beach, West Palm Beach and Lake Worth, (year-round population, 51,780; winter population, 173,000). Crossley Inc. used exactly the same technique they use for the regular CAB survey of program audiences from coast to coast... except that a total of 5,000 calls were made in 5 days in our market; one third as many as Crossley makes during the same period to measure program audiences in all the 33 CAB "checking cities", from New York to San Francisco!

Here's What Crossley Found:

That 94% of all sets in use were tuned to WJNO!

That 99% of all programs heard in this area from 6 A.M. to midnight-Monday through Fridayin three cities-are heard over WJNO! That no program broadcast over any station other than WJNO has even a 1% rating in our market!

That CBS network programs carried on WJNO have very high ratings. Like this: Major Bowes, 31. Professor Quiz, 25. Lum and Abner, 21.

"Strongest Baby in Radio"

So, because we are only three years old, we introduce ourselves as "the strongest baby in radio." And although we don't see how Crossley's findings could be improved upon, we would like to remind you that we now operate on 250 watts, night and day — a power increase that went into effect too recently to influence the Crossley study.

The conclusion is obvious. Only through WJNO can you hope to reach the wealthy Palm Beach market and its environs. No other station gets in!

(TRUE SOUND)

Here's a revolutionary *new* recording system developed by RCA and NBC engineers—the result of RCA's and NBC's vast experience and research in every phase of sound transmission, recording and reproduction. Orthacoustic Transcriptions give you recorded programs that literally sound like Live Studio Broadcasts!

You'll agree, after one demonstration of the new RCA-NBC Orthacoustic Transcriptions, that *here* is the truest recorded sound you've ever heard! You'll hear tone that is vibrant—sparkling with life and warmth. You'll be able to distinguish *every* instrument in an orchestra. You'll hear voices as naturally as if you were face to face with the speaker. In short—sound that seems to breathe with life!

Yes —you'll be able to note the superiority of these new *true-sound* transcriptions even if you've never before been able to discern differences in the quality of sounds!

Orthacoustic Transcriptions provide colorful, living sound because they elimi-

nate over-resonance, ear-ting, needle-hiss, "wows" and "muffles." They are boomproof and distortionless. They reproduce with unmatched fidelity the true sound that goes into the microphone—and nothing else.

But let the new RCA-NBC Orthacoustic Transcriptions speak for themselves! Judge them as your audience will —by *hearing* them in action! Let us *prove* their superiority by comparison with current recordings.

For a long time you've wanted transcriptions that sound like Live Studio Broadcasts. Now NBC makes it possible for you to have them! Ask for a demonstration.

A BACKGROUND OF UNMATCHED EXPERIENCE IN SOUND ENGINEERING

Orthacoustic Transcriptions are a tremendous forward step in recording quality. The unmatched experience of RCA and NBC in every phase of sound transmission, recotding and reproduction—including radio, television, sound movies and records—stands behind them.

RCA-NBC ORTHACOUSTIC TRANSCRIPTIONS

— the truest recorded sound you've ever heard!

They give users of transcriptions these advantages:

- 1 New high fidelity reproduction quality.
- 2 Elimination of distortion, particularly in high frequencies, no "ear-ting."
- 3 A maximum signal-to-noise ratio, no "needle-hiss."
- 4 Entirely *natural* reproduction of speech.
- **5** Greater tone fidelity in reproduction of music.

WASHINGTON, D. C., OCTOBER 15, 1939

First Code Action Brings NAB Discord

By SOL TAISHOFF

Father Coughlin Barred; Elliott Roosevelt Cited, With bargo provisions now pending be-fore Congress as a controversial is-**MBS Action Slated; Industry Showdown Likely**

CAUGHT between a sharp conflict of views of member stations on its interpretation of the new self-regulation code, particularly as to the ban on the use of paid time for discussion of controversial issues, the NAB faces a new crisis which already has had industry-wide reverberations.

Not only Father Charles E. Coughlin, the crusading Detroit priest, but Elliott Roosevelt, second son of the President, also has become en-meshed in the disagreement over controversial broadcasts. Having been informed earlier that Mr. Roosevelt had announced his intention "to violate the code" by presenting personal opinions on the arms embargo in his thrice-weekly com-mentaries over MBS for Emer-son Radio, the NAB Oct. 13 re-ferred the matter to the network for action, holding that Mr. Roose-velt as the "talent" on the pro-gram is subject to network rather than NAB jurisdiction.

Some Won't Drop Coughlin

But it was in connection with the Coughlin broadcasts over a 44station independent network, that serious intra-industry strife has developed and a showdown appears in prospect. After the NAB Code Compliance Committee, headed by Edgar L. Bill, of Peoria, ruled Oct. 3 that neutrality discussions in sponsored broadcasts constituted discussion of a controversial public issue, barred under the Code [see page 13 for text], things began to pop. A number of stations notified the NAB of their intention not to renew the Coughlin broadcasts when current contracts expire. But another group of stations carrying the priest's broadcasts indicated clearly they did not intend to follow the Code Committee edict.

With the majority of Coughlin contracts slated to expire Oct. 29, it was impossible as BROADCASTING went to press to ascertain the precise lineup of stations and their future policies with respect to the Coughlin series. Confusion also developed as to the interpretation of the code provision itself, with one school insisting that the Coughlin series can be renewed for a year under the code, irrespective of the Committee's interpretation.

Several May Quit NAB

In any event, it appeared likely that the Coughlin problem would be focused upon John Shepard 3d, president of the Yankee and Co-lonial Networks. Mr. Shepard has taken the position that by virtue of commitments of certain stations on the 17-station Colonial Network on the 17-station Colonial Network he cannot reject the Coughlin con-tract renewal due Oct. 29 and that his present intention is to continue his present intention is to continue the series. While Father Coughlin himself has refrained from publicly condemning the code, both Leo J. Fitzpatrick, executivevice-president of WJR, Detroit, WGAR, Cleve-land, and KMPC, Beverly Hills, and John F. Patt, vice-president of the three stations, have attacked the action. Mr. Patt on Oct. 5 expressed strong criticism of the Code Committee's action, declaring it went

far beyond self-regulation [see page 12].

There were indications that at the showdown a number of stations might prefer to resign from the NAB, if that course becomes necessary, rather than yield to the Code Committee's interpretations. While the Code Committee itself refrained from mentioning names in its rulings, it was self-evident that during its deliberations it discussed personalities. But it was repeatedly emphasized that the code provision is one of principle and does not deal with individuals.

The Roosevelt situation grew out of a statement in his broadcast of Oct. 7, in which he advised that his remarks "may be cut off the air by the station to which you are listening" because the NAB had adopted a code "in which they set forth that any commercial pro-gram featuring a commentator must not allow that commentator to express an opinion on controversial issues, and the NAB has listed the Neutrality Act and the question of the repeal of the em-

sue which no commentator should express an opinion on personally." He then stated he intended to express opinions.

Following this observation, NAB President Neville Miller discussed the matter with Code Committee members and with T. C. Streibert, vice-president of MBS and WOR. Mr. Roosevelt was to have con-ferred with Mr. Streibert in New York Oct. 13 but was suddenly called to his home in Fort Worth and was due to return to New York for the discussion the following week. Presumably it is felt that Mr. Roosevelt's personal expres-sions of opinion on controversial issues, particularly in connection with neutrality, are in conflict not only with the code but with the announced policies of the major networks to refrain from handling broadcasts which might in any wise jeopardize this country's neutrality.

MBS To Rule on Roosevelt

The fact that Mr. Roosevelt is president of Texas State Network and of KFJZ, Fort Worth, an NAB member, was not used as a basis for the NAB consideration. Because he is featured as "talent" in the

CODE COMMITTEE of the NAB, which met in Washington Oct. 2 and 3 at its first session since the selfington Oct. 2 and 3 at its first session since the self-regulation code became effective and issued an edict which has the effect of barring Father Charles E. Coughlin and other "controversial" speakers from purchase of radio time, except during political cam-paigns on issues subject to ballot. Seated (1 to r) are Ed Kirby, NAB public relations director and Code Committee secretary; Edgar L. Bill, WMBD, Peoria, Committee chairman; NAB President Neville Miller, and Earl Glade, KSL, Salt Lake City. Standing (1 to r) Martin Campbell, WFAA, Dallas; E. M. Spence, NAB secretary-treasurer; E. K. Cargill, WMAZ, Macon; William B. Dolph, WOL, Washington; T. C. Streibert, WOR-MBS, New York; Frank M. Russell, NBC Washington vice-president; Cal Smith, KFAC, Los Angeles and Don Searle, KOIL, Omaha. Harry C. Butcher, CBS Washington vice-president also attended.

Emerson-sponsored MBS series, it was concluded that the matter should be left to the network.

The Code Committee's interpretations at its initial session, as forecast in the Oct. 1 issue of BROADCASTING, were not restricted to the Coughlin situation nor to the Roosevelt problem which developed as an aftermath. The rulings automatically became applicable to such figures as Dr. J. F. Rutherford of Jehovah's Witnesses and The Rev. Walton E. Cole, Unitarian minister of Toledo, who had purchased time on stations to answer Dr. Coughlin and who had complained to the FCC over WJR's refusal to accept his transcriptions.

Townsend Rejected, Too

On Oct. 10 the Code Committee turned thumbs down on sponsored broadcasts in behalf of the Townsend Plan as a controversial question unacceptable under the code. But in California, where project the "\$30 every Thursday" is subject to ballot, it was held that time can be purchased in behalf of or in opposition to the Townsend Plan.

Meanwhile, two picketing developments growing out of the NAB action, and purportedly stemming Coughlin protests, were refrom ported. One was said to have been at CBS headquarters in New York Oct. 1 when former Gov. Al Smith spoke in favor of lifting the embargo and the other at Yankee-Colonial Network headquarters in Boston. Both were said to have been by so-called "Christian Front" movements which have been linked with Fr. Coughlin. CBS, as a precautionary measure, picked up Mr. Smith from its Seventh Avenue studios rather than its main studios. No trouble developed at either place,

Carry Replies to Coughlin

A Coughlin counter-offensive undertaken by the Non-Partisan Committee for Peace Through Revision of the Neutrality Law, headed by William Allen White, of Emporia, Kan., resulted in procurement of time on at least 15 stations carrying the Coughlin broadcasts for Oct. 15. The committee, recently organized, requested time of the 44 stations carrying the Coughlin series immediately following the Coughlin broadcasts in order to reply to the priest. Msgr. John A. Ryan, of Catholic University, and Prof. Charles G. Fenwick, of Bryn Mawr, were to answer the priest. In requesting the time, Mr. White based it on the NAB code and stated that "unlike the Coughlin interests" his organization did not have the necessary funds to pay for the telephone lines to hook up an independent network and that consequently transcriptions would be employed.

The 15 stations agreeing to carry the Committee's broadcast Oct. 15 were given as WAAB, Boston; WCOU, Lewiston, Me.; WEAN, Providence; WJR, Detroit; WLBZ, Bangor; WJAS, Pittsburgh; WTMJ, Milwaukee; WHO, Des Moines: WIBA, Madison, Wis.; WICC, Bridgeport; WKZO, Kala-mazoo; WIRE, Indianapolis; WSAR, Fall River; WTHT, Hartford; WSTP, St. Paul. It was an-

Code's Restrictions on Commentators Are Blow to Freedom, Patt Tells NAB

FOLLOWING is the text of the telegram sent the NAB Code Com-pliance Committee Oct. 6 by John F. Patt, vice-president and general manager of WGAR, Cleveland, and vice-president of WJR, Detroit, and KMPC, Los Angeles:

"Public reaction to your general statement to the press leads me to make the following statement. It is my opinion and that of many broadcasters with whom I have talked that the broadcasters who voted for the adoption of the code, while well-intentioned and having high purposes in mind, have gone too far on the controversial issue question and have taken an unforfunate step from which we may

never be able to retreat. "That step is in the direction of censorship and abridgement of free speech, as time will certainly show whether we like to admit it or not. While most of the code shows careful thinking and high resolve and will be of ultimate benefit to all broadcasters and to the public, the provision on controversial subjects seems to many of us the first shackle on freedom of speech on the radio. It takes away much of the broadcaster's responsibility of judgment for what is in the public interest. It goes beyond mere selfregulation into the realm of stran-gulation, stagnation and censorship.

Merely Reporters

"Did the broadcasters contemplate that this provision of the code would mean that such famous personalities, commentators and speak-ers as W. J. Cameron, Dorothy Thompson, Boake Carter, Lowell Thomas, Edwin C. Hill, H. V. Kaltenborn, John B. Kennedy, Elmer Davis, Hugh Johnson and many others could never again express an opinion on a sponsored program? If that is so, it will surely result in these speakers reducing their talents to that of mere reporters of facts rather than analysts and interpreters; otherwise, they will be

nounced that since other stations from whom no reply had been received or who had given unfavorable replies might wish to reconsider, the committee was sending transcriptions to all carrying the Coughlin broadcast.

Shepard's Viewpoint

Repercussions to the code edict on the fundamental question of controversial issues came on the heels of the committee's action. In the vortex of the resulting controversy were such prominent figures as Messrs. Shepard, Fitzpatrick, Patt, Father Wallace Burke of WEW, and other broadcasters now carrying the Coughlin series. Elliott Roosevelt also quickly found himself deep in the controversy because his broadcasts likewise admittedly fall in the "public controversy category" in connection with the arms embargo.

Mr. Shepard, who personally had appealed to the Code Committee, asserted Oct. 10 it was his present plan to continue the Coughlin series over the Colonial Network through October, 1940. He pointed out that since a number of other limited to those more obscure hours of the day which are now sustaining. Many millions of listeners then will not have easy access to hearing them because the popular evening periods having mass audiences will be restricted to entertainment and informative programs only.

"We of WGAR have never used our facilities to express or exploit our personal or company viewpoints on the listener. We are conscious that many speakers on controversial subjects who have bought time from our station have made statements which were perhaps not ac-ceptable or agreeable to our listeners, but we have been quick to say that they were not our view-points and we have been quick to offer time on an equal basis to per-sons holding opposing views. Nor have we, nor any other broadcaster to our knowledge, ever allowed any organization or individual to usurp more than a limited amount of time which could not be duplicated at once in an equal amount by opposing speakers. We have rarely had one side of a controversial issue given on paid time which was not immediately answered on other paid time and on the same terms.

"We are aware that there are possible excesses in freedom, but in our opinion it would be better to have the excesses than to have the cure that is now proposed. But, in particular, we even believe that self-respecting broadcasters can devise ways and means of permitting speakers on controversial subjects to go on their own sponsored programs and at the same time eliminate any obvious excesses. The financial return to the broadcasters is secondary here to the larger public interest.

"If the code as it now stands is to hold without reasonable amendment, I predict we shall see an emasculation of private enterprise in broadcasting with a solar plexus blow to freedom in this country, and an invitation for further Government regulation."

stations--possibly all save a halfdozen of the 44-had already committed themselves to continue the Coughlin series, he was left no alternative. He added that, as he interpreted the code provisions, the Coughlin series should be handled on the same basis as other pro-grams, which would permit "competitive accounts" to be accorded the same facilities for the same length of time as current running accounts.

Asserting he had advised Stanley Boynton, president of Aircasters, Inc., Coughlin agency, that he would continue to carry the program after Oct. 29, when his present contract expires, provided two conditions were met, Mr. Shepard explained that this commitment does not obligate all of the Colonial Network outlets. Nevertheless. since certain of the stations already had renewed, he said he was dutybound to originate the programs.

It was made obvious that such stations as WJR, Detroit, WGAR, Cleveland, WEW, St. Louis, WJAS-KQV, Pittsburgh, and WHBI, Newark, among others, would continue to carry the Coughlin series. Sev-

eral of the stations which already have renewed their contracts through Aircasters have advised NAB they would abide by the Code Committee's ruling on the controversial issue question and exercise their cancellation options within a two-week period. Among the stations understood to have dropped Coughlin were WFBL, Syracuse, WHAM, Rochester, WTAG, Wor-cester, and WHKC, Columbus. Such stations as WHO, Des Moines, WCKY, Cincinnati, WTMJ, Mil-waukee and KSTP, St. Paul, were understood to be considering dropping the series on the basis of the NAB ruling. In Worcester, WORC is now carrying Coughlin in lieu of WTAG.

Railroading Denied

The NAB committee and President Neville Miller, took sharp issue with the contention of complainants that the code was "railroaded" through the convention in Atlantic City last July. It was pointed out that the NAB began work on the code nearly a year ago and that the first draft was sent to all stations, with attendant publicity, as early as last May. It was adopted by the July convention tion, as amended, by an overwhelming vote of six to one. Moreover, it was pointed out that the social aspects of the code were only slightly amended from their original form as adopted by the con-vention after full discussion. The convention not only approved the code but authorized the machinery to enforce it.

While stations carrying the Coughlin series have been deluged with letters protesting the NAB action, so far as could be learned most of the protests have emanated from individuals. On the other hand, many women's, social and other organizations and groups have commended the code, which also has received generally favorable editorial support.

Union States Position

In its rejoinder, Oct. 7 to Mr. Patt's telegram [see top of this page], Civil Liberties Union, through Arthur Garfield Hays and Morris L. Ernst, general counsel, and Quincy Howe, chairman of the National Council on Freedom From Censorship, declared it struck them as "highly improper for tht Detroit station at which Father Coughlin's programs originate to criticize the new NAB code for de-nying free speech." (Mr. Patt is vice president of WJR and KMPC as well as WGAR).

"Complaint already has been made to the FCC against that station for denying opponents of Father Coughlin an opportunity to reply to him", the Union said. "What Mr. Patt really means is that the profit has been taken out of free speech since hereafter Father Coughlin or anybody else under the rules of the new Code cannot purchase time for the discussion of public issues. This is wholly in the interest of free speech since it puts everybody on the basis of equality and puts people without money on precisely the same footing as people with it. The new code corrects a situation so obviously unfair to free speech as to com-(Continued on Page 72)

Text of First Ruling of Code Compliance Committee . . .

FOLLOWING is the full text of the statement issued by the NAB Code Compliance Committee following its Oct. S meeting in Washington:

While the Committee realizes that the American people, through the dele-gation of the radio franchise, have placed upon the broadcaster final regation of the radio tranchise, have placed upon the broadcaster final re-sponsibility to accept or to reject pro-gram matter in 'the public interest, convenience and necessity,' it neverthe-less recognizes that NAB member sta-tions in the 17th annual convention, July last, shared their program and operating experiences in the adoption of a new Code so that a more uniform and higher level of public service might result throughout the length and breadth of American radio. The Committee has taken these in-to consideration in its deliberations, which have chiefly centered around problems involving the Religious and Public Controversial sections of the new Code.

new Code.

new Code. In approaching the Public Contro-versial section of the Code, which bars the sale of time for such discussions, but which provides that such discus-sions be placed on the air without cost, the Committee emphasizes the under-lying principles involved. There is a limitation to the number of radio channels now available for broadcasting in this country.

broadcasting in this country. There is also a limit as to the num-ber of hours available per day for broadcasting. Newspapers may add any number of extra pages to accom-modate their overflow news and adver-tising columns. No comparable oppor-tunity exists in the daily schedule of a radio station, which must adhere to the hands of the clock. In the absence of any self-imposed policy to the contrary, it is conceiv-able that some individuals or groups with financial means to do so could buy all the available time necessary to monopolize, dominate or control the

buy and the available time necessary to monopolize, dominate or control the discussion of public issues through the radio medium, precluding a fair op-portunity for an opposition without financial resources to present its case to the radio audience.

Public Conference

Such a situation would pervert the function of American radio as a forum of democracy, and would irreparably shatter the confidence of the public in the American system of broadcasting. In order to assure the American people for all time that such an intol-crable misuse of radio facilities cau-not happen, the Code states that 'Time

not happen, the Code states that "Inne for the presentation of controversial issues shall not be sold." The Code does not bar anyone or any group from using radio. It simply denies the right to buy time, for the reasons stated. (Political broadcasts, as defined, are excepted because "at certain times the contending parties want to use and are entitled to use more time than broadcasters could not more time than broadcasters could pos-sibly afford to give away."]

Representative spokesmeu of groups in the field of public controversial isin the field of public controversial is-sues have a perfect right to request time on the air. from a network or station, in accord with the public in-terest therein as outlined in the Code. "Broadcasters shall use their best ef-forts to allot such time free of charge, with fairness to all elements in a given controversy." The headling of public controversial

controversy." The handling of public controversial issues by radio stations is a matter of principle and not one of personalities. Determination of a Public Contro-versial Issue—The Code Compliance Committee realizes that whether a matter is a public controversial sub-ject or not is one sometimes difficult to determine particularly in mational to determine, particularly in national and statewide affairs.

The Committee feels, therefore, that its duty and function is that of render-ing advisory opinions, and of recom-mending procedures through which a succere and uniform understanding of.

and compliance with the Code, may be

and compliance with the Code, may be achieved. Toward such ends, the Committee holds as self-evident that no determi-nation as to the character or classi-fication of a proposed program or ra-dio address can be established until an advance script has been examined by the sterior monorement. the station management. The Committee recommends, there-

fore that

fore that (a) Since discussions of controver-sial public issues have been eliminat-ed from paid commercial broadcasts, adequate time for the presentation of controversial public issues shall con-tinue to be provided free of charge by each station or network, in accord-ance with the public interest there-

(b) All such scripts shall be re-

(b) All such scripts shall be required in advance, for examination in light of the Code.

the spokesman of a controversial pub-lic issue, unless. (d) The spokesmen appear on a public forum type of broadcast reg-ularly presented, in conformity with the Code, as 'a series of fairsided discus-sions of public issues and when con-trol of the fairness of the program rests wholly with the broadcasting sta-tion or network' tion or network.

Without an advance script, no one can determine the complexion of any proposed broadcast.

Controversy Not Barred

This does not mean, of course, that those who wish to discuss matters of public controversy are barred from the

For from it! Through the new Code, representa-tive spokesmen of groups will be given free time to present their viewpoints. in accord with the public interest, pro-gram balance and availability of time. The Committee recognizes that all such representative spokesmen of pub-

such representative spokesmen of pub-lic opinion groupings may broadcast their opinions during time provided free for this purpose, or may take a political position on paid radio time during a political campaign, or may esponse or oppose a "public proposal subject to hallot." The Code adequate-ly covers these provisions. Neutrality—Method of Maintaining of Which is a "Public Controversial Isane" Within the Meaning of the Code—The question of America's neu-trality has raised an interesting point in which the Committee and the in-dividual broadcasters are concerned in the application of the Code.

the application of the Code. Following careful survey of the

members of the Committee drawn from members of the Committee drawn from different sections of the country, and of the issue itself as resolved yester-day in Congress, the Committee feels that while all Americans desire to stay out of war and to preserve neu-trality. the methods of atchieving and maintaining same are matters auto-matically falling within the sphere of 'public controversial issues,' and as such should be presented on free time and not sold.

'public controversial issues,' and as such should be presented on free time and not sold. Definition of a Public Proposal Sub-ject to Ballot—In response to inquir-ies from member stations, the Commit-tee defines a 'public proposal subject to hallot' as one where the proposal itself appears on the hallot to be cast by the individual citizen. Matters pending before a legislative body are not regarded as 'public pro-posals subject to hallot." The NAB Religious Code—The Committee calls attention to the re-ligious section of the Code which rends: "Radio, which reaches men of all creeds and races simultantously, may not be used to convey attacks up-on another's race or religion. Rather it should be the purpose of the re-ligious broadcast to promote the spir-ture demonum and understuding of ligious broadcast to promote the spir-itnal harmony and understanding of mankind and to administer broadly to the varied religious needs of the com-umitr. munity

Me unity." Members of the Committee in at-tendance were: Edgar Bill, WMBD, Peoria, III.; Martin Campbell, WFAA, Dalhas; Edward Cargill, WMAZ, Ma-con, Ga.; Earl J, Glade, KSL, Salt Lake City; Don Searle, KOIL, Oma-ha; Calvin J, Smith, KFAC, Los An-geles; Theodore C. Streibert, MBS; Harry Butcher, CBS; Frank M, Rus-sell, NBC; William B, Dolph, WOL, Washington; Neville Miller, president, NAB; E. M, Kirby, NAB, secretary.

Rule Hearing Deferred

HEARING on the petition of Mayor F. H. LaGuardia of New York, in behalf of the municipally-owned WNYC, to amend FCC rules to permit use of ultra-shortwaves for domestic network transmission, in lieu of wire lines, scheduled for Oct. 16, again has been postponed to Oct. 23. The hearing, postponed several times, is to be before a committee of three commissioners. SMITH BROS., Poughkeepsie, N. Y. (cough drops), will start a spot cam-paign Nov. 1 on about 30 stations, using a varied schedule of quarter-hour newscasts and five to seven an-nouncements weekly. Campaign, placed through J. D. Tarcher, New York, will run through March, 1940.

Housing Survey Tentatively Includes Query on Sets

INCLUSION of a radio questionnaire in the tentative schedule of the Housing Census, to be conduct-ed in conjunction with the 16th Decennial Population Census, will yield an actual house-to-house count of radio homes rather than the sampling that would be furnished by inclusion of the question on the supplementary schedule of the regular population census, accord-ing to the U. S. Census Bureau. The Bureau indicated to BROAD-CASTING Oct. 11 that the Housing Census, which has been authorized by Congress, will be conducted when the necessary appropriation is secured.

Previously the radio question had been included on the supple-mentary schedule employed by the Census Bureau in a sample population census conducted in mid-August in two Indiana counties [BROADCASTING, April 15, June 15, July 1, Aug. 1], first results of which will not be available for several weeks.

'Does This House Have Radio?"

The question, "Does this household have a radio set?", has been included in the tentative schedule proposed for the Housing Census, which will cover an estimated 33 .-000,000 homes. The housing survey will be conducted simultaneously with the population census, and enumeration is to start April 1, 1940. Although Congress has authorized inclusion of housing in the general census program, along with a \$45,000,000 appropriation for carrying on its various phases, an individual appropriation of \$8,-000,000 is sought for the Housing Census itself. An appropriation of approximately \$5,000,000 is to be asked as a supplemental appropri-ation in the First Deficiency Ap-propriation bill brought before Congress when it convenes in regular session in January. This amount would cover the cost of field and office work necessary to gather census data, while the remainder would be spent in compilation of the results and would extend over a period to Dec. 31, 1942.

Speaking to the 11th annual Boston Conference on Distribution Oct. 3, Dr. Vergil D. Reed, assistant director of the Bureau of Census, commented that the Housing Census, the first of its kind ever taken, "is really a stock dividend to every retailer, wholesaler, and manufacturer. It will be of particular importance to the building and construction industries, to real estate, utility, and housing finance interests, and to manufacturers and distributors of household appliances."

In addition to radio, he explained, the housing survey will provide basic facts as to adequacy or inadequacy of housing facilities, age and condition of structures, major repairs needed, and presence or absence of electricity, gas and run-ning water. Data also will be gathered on home mortgages, amounts, interest charges, and amortization arrangements, he added.

News Fees Raised War Correspondents Leave for Front, THOMAS ABANDONS For War Service Hoping to Broadcast Actual Fighting

Greatly Increased Costs For Gathering of News Cited

INVOKING emergency clauses in their contracts with newspapers and radio stations subscribing to their news services, International News Service and United Press have levied special war assessments on all subscribers, amounting to a 15% increase in the normal fees for INS subscribers and a $12\frac{1}{2}\%$ increase for users of the UP service.

Contracts of both UP and INS contain emergency clauses permitting them to assess increases amounting to a maximum of 25% for periods when conditions make extraordinary expenditures neces-sary for good coverage of the news.

Cost of Communications

At INS headquarters it was stated that since the first of Au-gust expenses of covering the European scene had increased by approximately \$10,000 a week. In making the increased assessment, which became effective Oct. 1, INS is not attempting to collect for these back expenditures, it was stated, but on the contrary is still carrying itself a considerable proportion of the current increased costs. Some of the factors contributing to the increase were given as: The shut-off of phone and cable communication between London and Paris, causing intercommunication between these two cities to be routed by way of New York; lack of cable connections between Berlin and New York, forcing the corre-spondents in the German capital to use radio or to phone their copy to Rome and cable it from there; tremendous increases in payrolls and expense accounts, as space-rate correspondents in scattered cities have been made full-time staff men and as both the amount of traveling and the costs of transportation have risen precipitously.

At UP headquarters it was said that costs of this organization's European coverage have increased by about \$2,500 daily over normal, making it necessary to levy the 121/2% assessment on their subscribers early this month. The Associated Press as yet has announced no similar increase.

Transradio's Policy

Transradio Press Service has not Transradio Press Service has not invoked its special war clauses to raise rates to its subscribers, ac-cording to Herbert S. Moore, presi-dent, although he said that the ad-visability of such a move had been carefully studied. "The question is being left open during the present being left open during the present period when peace talk is wide-spread," he said, "but if no truce has come by the end of October the question will be reexamined and a decision made in the best interests of both our clients and ourselves."

Libby Spots in Canada

LIBBY, McNEILL & LIBBY of Canada, Toronto (baby food) starts a transcribed spot announcement campaign two e daily six days weekly on various Ontario and eastern Canada stations in Novem-ber. Account was placed by Mc-Connell, Eastman & Co., Toronto. WHEN the first contingent of American war correspondents offi-cially accredited by the British military authorities left London the week of Oct. 9, bound for the West-ern front "somewhere in France", the party included William Henry of CBS and Arthur Mann of MBS, first radio reporters ever assigned to front line duty. NBC's accredited front line reporter, Brig. Gen. Henry J. Reilly, U.S.A., retired, was absent from the lineup because he had taken advantage of the "pause" in the war to return home for a brief visit, arriving in New York on the *Lisbon Clipper* on Oct. 9.

Exactly how radio's reporters will handle their assignments of covering the Allied front for American listeners is not known. The possibility of arranging for facilities that would permit broad-casts directly from the front, while devoutly hoped for, is not believed to be very great at this time, and it is expected that a more probable solution will be an arrangement that will enable these men to watch whatever goes on at the front and return to some point behind the lines, probably Paris, to broadcast their reports to America. Whether the military authorities will limit the comings and goings of the radio men is likewise unknown, and what sort of broadcasting schedules will be permitted is another question still to be answered.

Aided by Time Shift

The difference in time between Europe and America, it is pointed out, would enable a correspondent to spend the day in the front lines, return to Paris during the evening, go on the air after midnight there and be heard in the United States in the early morning. Possibility of a daily schedule of broadcasts of authentic front line observations is believed slight by special events di-rectors here, however. General opinion is that for a while, at any rate, one or two such broadcasts a week is the most that can be expected.

William Henry, who is acting as CBS representative with the Allied CBS representative with the Allied armies, will also cover the war front for the *Los Angeles Times*. Sporting editor of this paper, Henry went to Europe to cover the preliminaries of the Olympic Games, scheduled to be held in Fin-land in 1940. An experienced radio reporter who had assisted Ted Husing in broadcasting the Ber-lin Olympics in 1936 for CBS, he was pressed into service by this network when the war broke out as assistant to E. R. Murrow, CBS representative in London. With Henry's departure for the front, Larry Le Sueur has been made Murrow's assistant.

In Paris, CBS is represented by Thomas B. Grandin. Eric Sevareid, who has also been stationed in Paris, is temporarily in Brussels. William L. Shirer, chief of the CBS Continental staff, with headquarters in Berlin, has taken advantage of the war "pause" to snatch a few davs' vacation, with Russell Hill relieving him.

Arthur Mann, who was appointed by John Steele, head of Mutual's London and European offices, to

Ready for Front

AN INDICATION of the accoutrements of a radio cor-respondent on the Western Front may be gleaned from the following radiogram sent by Fred Bate to NBC in New York: "General Reilly needs two tunics, one slacks, one two tunics, one slacks, one breeches, boots. Special insig-nia provided, also tin hat, service mask. Maximum bag-gage allowed field in pounds: 50, personal; 50, for ser-vants; baggage, 20; tents, where carried, 50."

cover the front for MBS, was formerly a correspondent for the St. Louis Post Dispatch and is now associated with the London office of the New York Times. Other MBS reporters in Europe include Sigrid Schultz in Berlin, Waverly Root in Paris and James Minifie in Rome.

Gen. Reilly, who will serve as NBC's front line observer when he returns to Europe early in November, is also an experienced foreign correspondent. A graduate of West Point who served in the Philippines and Mexico and as an ambulance driver for the French and British armies during the World War, he joined the *Chicago Tribune* as war correspondent in 1915, successively reporting from the Western Front in 1916 and 1917, the Polish campaigns in 1920 and, more recently, the Civil War in Spain.

NBC has also announced that Warren Irvin, now in Berlin as assistant to Max Jordon, chief of the NBC Continental staff, will be sent to the German side of the front as soon as the Germany Army command approves an accredited list of correspondents. Irvin was formerly with the New York Times before being recently signed as a regular member of NBC's foreign staff. Fred Bate, London chief for NBC, and Howard Claney, well-known announcer who had been studying abroad and had rejoined NBC when hostilities commenced, are covering English happenings, and Paul Archinard is managing the Paris office for NBC.

AP Postpones Action

MEETING of the board of directors of the Associated Press, held in New York, Oct. 3-5, produced no changes in the press service's present arrangements for the sale of AP news to radio advertisers. Because of the pressure of problems arising from the European war which required immediate attention, action on the less pressing subject of changing the regulations covering use of AP news on the air was postponed until the meet-ing of the AP executive commit-tee in December.

Hull at New WHLD

EARL HULL, former chief engineer of WKY, Oklahoma City, and first licensee of that station, will take over the management and operation of the new WHLD, Niagara Falls. N. Y. The new station, authorized on Sept. 1, is licensed to the Niagara Falls Ga-zette Publishing Co. It will operate with 1.000 watts daytime on 1260 kc.

NEWS CURB PLANS

SATISFIED that the basic disseminating media, including radio, news-papers and the movies, have set-tled down in their task of reporting war activities and therefore eliminated danger of commitment of "unneutral" acts, Senator Thomas (D-Okla.) asserted Oct. 12 that he had abandoned his plans for an amendment to the pending Neutral-ity Act to supervise operations of these media.

Recalling he had observed last month that such a move might be desirable, he asserted that voluntary steps taken by the industries have eliminated entirely any desire on his part to foster restrictive legislation.

"As far I can see, nothing espe-cially objectionable is going on now," he declared. He urged that radio commentators should avoid "overdramatization" and lauded the voluntary steps taken by the sev-eral industries during the crisis. He mentioned particularly he did not want to see anything in the nature of a recurrence of the Orson Welles episode, pointing out that in these times it could bring serious consequences.

Wartime Use of Radio

CANADA'S war department. Ministry of National Defence, starts on oct. 17 a weekly series of 15-minute talks entitled *Canada's Fighting Services* to be carried on the full Canadian Broadcasting Corp. na-tional network in English and French. The series was announced French. The series was announced at Ottawa by Prime Minister Mac-kenzie King, who said "a distinctly useful purpose would be served by these talks in that the people of Canada could thus be kept in-formed, as far as it is possible, of the work devolving upon the De-partment of National Defence as a whole and of the progress which was being achieved." The first of the talks will carry introductory was being achieved." The first of the talks will carry introductory remarks by Defence Minister Nor-man McL. Rogers. In addition to this weekly series the CBC will carry an actuality broadcast on Oct. 27 titled A Day In The Life Of A Recruit.

Detrola Sponsors Lewis FULTON LEWIS jr., Washington news commentator, will be spon-sored on a partial MBS network starting Oct. 23 by Detrola Corp.. big Detroit radio manufacturer. He will be heard Mondays, Wednes-days and Fridays, 7-7:15 p.m. and 10:30-10:45 p.m., on about 10 sta-tions of the network, including WOR, Newark, and WGN, Chicago, in the latter period. He will con-tinue on a sustaining or local sponsorship on all other stations of the Mutual Network at 7-7:15 p.m.

Regal Shoe Adds Davis

Regai Shoe Adds Davis REGAL SHOE Co., New York, will sponsor Elmer Davis, CBS war news analyst, three quarter-hours weekly on WABC, New York, be-ginning Oct. 15. Programs, broad-cast 6:30-6:45 p.m., Monday, Wed-nesday and Friday, will augment the company's sponsorship of Drew Pearson and Robert S. Allen, au-thors of Washington Merry-Go-Round, on a national scale over MBS. Cecil & Presbrey, New York, is the Regal agency. is the Regal agency.

ASCAP Starts Retaliations By Filing Infringement Suits

KGIR and KGVO Named in Criminal Actions; Buck Names ASCAP Committee to Study Radio Angle

INFRINGEMENT suits, filed early in October by a number of the publisher members of ASCAP against the owners of KGIR, Butte, and KGVO, Missoula, constitute the first retaliation of ASCAP to the civil and criminal actions brought against it by the Montana broadcasters. As ASCAP has been enjoined from doing business in the State, under a Montana law passed largely through the efforts of the broadcasters of the State, the suits were brought by individual publishers and not by the Society itself.

ers and not by the Society Instant Suits against Mosby's Inc., owner of KGVO, and A. J. Mosby, were filed in the U. S. District Court in Missoula by Harms Inc., charging seven alleged infringements; Leo Feist Inc., charging five infringements; Santley-Joy-Select Inc., for four; Chappell & Co., for five, and Irving Berlin Inc., for six. In the suits against E. B. Craney and KGIR Inc., filed in the Federal District Court in Helena, nine infringements are charged by Harms, five by Berlin and four by Chappell.

ASCAP Names Committee

This action by these publishers followed close on the heels of the attempt of New York detectives to arrest Gene Buck, ASCAP president, and other officers of the organization on bench warrants issued in Montana, charging criminal conspiracy. Mayor LaGuardia halted the police before any arrests had been made [BROADCASTING, Oct. 1]. Although similar warrants had been issued for officials of NBC and CBS, no attempt was made to serve them, it being explained that statements had been sent to Montana authorities asserting they were not guilty of the charges. Refusal of ASCAP executives to send such statements led to the request for their arrest.

Following a meeting of the ASCAP board on Sept. 28, Mr. Buck appointed a committee to study the radio situation and report back to the board. Its members are Irving Caesar, Deems Taylor, Walter Fisher and Herman Starr, the latter head of Warner Bros. music companies. Reports that this committee had been appointed to negotiate with the NAB Copyright Committee were labeled erroneous by John G. Paine, general manager of ASCAP, who told BROADCASTING that "this committee will function entirely within the Society" and that "there is no plan to name any committee to meet with the broadcasters, those negotiations to be carried on in the future as they have been in the past by Mr. Buck, Louis Frohlich, ASCAP attorney, and myself."

The Festival of American Music, eight concerts presented in Carnegie Hall the week of Oct. 1 in celebration of ASCAP's 25th anniversary, was broadcast by WNYC, New York's municipally-owned station, via transcriptions made at Carnegie Hall and broadcast on the afternoons following. This was necessary, as WNYC, which shares time, signed off before the concert time in the evening. WNYC carried all of the concerts except that of Friday evening, which featured swing bands having contracts that bind them to broadcast only for their sponsors.

Offer of the concerts to the major networks was referred by them to Samuel R. Rosenbaum, chairman of the Independent Radio Network Affiliates, for the reaction of his members. He in turn put the question up to his board, a majority of which recommended accepting the programs on a sustaining basis if time was available. The Wednesday night program was broadcast on NBC-Blue and the Saturday afternoon concert on NBC-Red. Neither CBS nor MBS broadcast any of the concerts, although MBS had planned to carry the swing concert but was prevented by the exclusive contracts of the featured bands.

And Then Came Radio

An elaborate Festival program, containing the ASCAP membership roll and portraits of its most famous members, also contains articles by E. C. Mills, chairman of the executive committee, and Mr. Paine, which do their bit to spread the ASCAP doctrine. "With the advent of radio broadcasting as public entertainment and the tremendous and spectacular growth of its popularity," writes Mr. Mills, "composers and authors were almost economically destroyed through a change which occurred in the musical habits of the people. Sales of sheet music and phonograph records rapidly declined. The craving of the people for melody came to be satisfied by radio with the result that royalty income to creators from the normal source of sheet music and phonograph record sales almost disappeared."

Describing the reluctance of the broadcasters to pay for the right to use copyrighted musical works until, through litigation, "the right of the composers and authors to reasonable payment from broadcasters for the use for profit of their copyrighted compositions was sustained," he concludes: "Our Society seeks the most equitable means of making it possible for them [authors and composers] to live comfortably — by protecting them in their lawful rights and collecting for them their infinitesimal portion of the enormous profits made by commercial users of their products in enterprises, which but for the availability of music, could not be successfully operated."

Similarly Mr. Paine in his article, titled "Advancement of Culture", states that ASCAP "in the most practical manner possible is keeping alive the creation of music in the United States. The process by which this is done is a simple one. We make those commercial enterprises that use the music of our

Publishers Syndicate "A fire? Okay, Lady, soon as the Reds finish this inning!"

ASCAP Oversight

IF R E P O R T S emanating from ASCAP's Musical Festival, commemorating its 25th anniversary, are correct, its collective face must be red. During the "swing" concert featuring such maestros as Paul Whiteman, Fred Waring and Glenn Miller, the hit Sunrise Serenade was played at least three times. It is a composition p u blish e d by Jewel Music Co., a member of the Society of European Stage Authors & Composers (SESAC); not ASCAP.

members in the profitable conduct of their business pay for that right and the money which we collect we give to the men and women who create as a reward for their creation and as an encouragement to their continuation.

"We are abused grossly by those from whom we collect money. The dance halls, the taverns, the theatres, the broadcaster and like commercial enterprises, charge us with being a monopoly, heap epithets upon us in the hope that they will make repugnant to the American people the very existence of the American Society, but we fear them not, for on our side and walking hand in hand with us is the right and the knowledge and the conviction that the preservation of the Society and its continuation is necessary if American musical culture is to be preserved and America's musical future assured."

Pure Oil Buys Spots

PURE OIL Co., Chicago, has added twice-weekly 50-word spots on 35 of the 39 CBS stations carrying the thrice-weekly Kaltenborn Edits the News series. The series is sponsored Mondays, Wednesdays and Fridays, and is aired sustaining Tuesdays and Thursdays. Following the sustaining programs, spots have been purchased on a 52-week basis on WADC WWNC WGST WRDW WAPI WCHS WBT WDOD WCKY WBNS WOC WHIO KDAL WDNC WMMN WTAQ WBIG WMFG WNOX WREC WCOC WQAM WCCO WSFA WLAC WDBO WPAR WDBJ WTOC WDAE WHLB WJNO WSJS WFBM WWVA, Wheeling, and KRNT, Des Moines, were recently added to the network for the series. Leo Burnett Co., Chicago, handles the account.

Groundwork Laid For NAB Music Draft of New Concern Drawn

At Meeting Held Oct. 5

REPORTING "encouraging progress" in laying the groundwork for the new \$1,500,000 Broadcast Music Inc. project, Neville Miller, NAB president, declared Oct. 12 that practically all of the initial details had been worked out and that he looked forward to a "going concern" operation within a relatively short time.

short time. At a meeting in New York Oct. 5, members of the Broadcast Music board met with Sydney M. Kaye, special counsel, and approved the draft for the corporate organization. Papers have been filed with the Secretary of State at Albany and registration with the Securities & Exchange Commission in Washington is being perfected.

Paid Head Sought

Meanwhle, the quest for a paid head for Broadcast Music is being continued. President Miller has interviewed a number of individuals in the music publishing field and it is possible an appointment will be made at the next meeting of the corporation's board. The name of Samuel R. Rosenbaum, president of WFIL, Philadelphia, advanced a fortnight ag o, is understood to have received endorsement in several quarters but it is by no means certain that he would accept the post.

post. Once the SEC registration is completed, NAB directors in the 17 geographical districts will schedule regional meetings, to be addressed by President Miller and perhaps other members of the Broadcast Music staff. The plan is to complete the circuit of NAB districts and procure from stations commitments to Broadcast Music of 50% of their payments to ASCAP in 1937. At these meetings, broadcasters will be told of the detailed plan to establish the independent music corporation as a means of introducing competition in the copyright field.

It is expected these district meetings will get underway in late November or December, according to Mr. Miller. Because existing ASCAP contracts expire at the end of 1940, it was pointed out that time is of the essence in perfecting the project.

For Greeting Cards

HALL BROTHERS Inc., Kansas City (Hallmark greeting cards), on Oct. 29 starts Tony Wons Radio Scrapbook, thrice-weekly quarterhour live program on WMAQ, Chicago. The series will follow the program theme formerly used by Mr. Wons on CBS and will be aired on WMAQ, Tuesdays and Thursdays, 12:30-12:45 p. m. (CST), Sundays, 3-3:15 p. m. The deal was set by Frank Ferrin, radio director of Henri, Hurst & MacDonald, Chicago agency which recently got the account.

MCKENZIE MILLING Co., Quincy, Mich. (pancake flour), on Oct. 16 starts a five-weekly 15-minute dramatized serial titled All in the Family on WOWO, Fort Wayne, Ind. The transcribed serial will be followed in a few markets with spot announcements, it is understood. John H. Dunham Co., Chicago, handles the account.

Baseball Carried By 238 Stations Cincinnati Pickup Explained By Crosley Corp. and MBS

THAT the Crosley Corp., whose president, Powel Crosley Jr., is owner of the Cincinnati Reds, did not carry the World Series games or its the boot details of the series games owner of the Onrich Series games on its two broadcasting stations in Cincinnati, WLW and WSAI, was perhaps the strangest situation de-veloping from the broadcasting of that major sporting event of the year, on a special MBS network, sponsored by Gillette Razor Co. A statement explaining the matter was issued by James D. Shouse, vice-president of Crosley, saying that "permission to carry the World Serits broadcasts on WSAI was de-nied, even though we offered to make no charge to the Gillette Ra-zor Co. or MBS."

MBS Explanation

MBS also issued a statement to the effect that its offer of the series to WLW had been rejected. "To furnish organized baseball and the listeners with facilities that would listeners with facilities that would provide the next widest coverage," the network continued, "the facili-ties of WKRC were secured Mutual does not have an affiliation with WSAI." In an earlier release, MBS stated that "up to game time, only six stations offered in the United States refused the Mutual network and Gillette's offer to carry this stiring climax to America's network and Gillette's offer to carry this stirring climax to America's National Pastime. Thus listeners in the areas of Phoenix, Ariz.; Billings, Mont.; Utica, N. Y., and Binghamton, N. Y., may not re-ceive directly the 1939 World Se-rics between the Cincinnati Reds and the New York Yankees."

A total of 238 stations in the United States, Hawaii and Canada carried the exclusive MBS broad-casts of the series, won in four straight games, played Oct. 4-8, by the New York Yankees. Shortwave stations WRUL, Boston, and WGEA, Schenectady, also broad-cast the event cast the event.

Mr. Shouse's Statement

The Shouse statement follows: "The Crosley Corp., operators of WLW and WSAI, take this oppor-tunity to state their deep regret at being unable to supply their audiences with play-by-play descrip-tions of the World Series games. We consider this to be particularly unfortunate in view of the fact that for the first time in 20 years, Cin-cinnati's own team was a participant.

pant. "Station WSAI has for many, many seasons brought complete play-by-play descriptions of all baseball games. However, permis-sion to carry the World Series broadcasts on WSAI was denied, even though we offered to make no charge to the Gillette Co. or the Mutual Broadcasting System, who nurchesed the evelusive broadcast purchased the exclusive broadcast purchased the exclusive broadcast rights from the Commissioner of Baseball. WLW was offered the broadcast of the World Series, but inasmuch as the games were sold this year on a commercial basis we did not desire to break long-term contracts entered into with other advectings in code to cover advect advertisers in order to carry adver-tising for a World Series sponsor. WLW also was offered at no cost for the Series games occurring on days when WLW was available.

"WSAI will resume the broad-

ALL WARMED UP to describe the World Series play-by-play for MBS listeners, under sponsorship of Gil-lette Safety Razor Co., this trio-(1 to r) Red Barber, Stan Lomax (1 to r) Red Barber, Stan Lomax and Bob Elson—were on hand every game of the Series with their scoresheets and special "baseball" mike. The novel microphone (in Barber's hand), was designed by J. R. Poppele, WOR chief engineer. Its base is shaped like a home plate, the standard is a miniature baseball bat, and the mike itself baseball bat, and the mike itself-one of the non-directional, wide-angled "eight-ball" variety—is en-closed in an enlarged replica of a baseball. The bat is aluminum and the housing is spun aluminum al-loy. The instrument was con-structed in the WOR shop.

Gas Assn. Budget

ASSOCIATION of Gas Appliance & Equipment Mfgrs., New York, has approved a budget of \$110,000 for 1940 promotion of "CP" gas for 1940 promotion of "CP" gas ranges, double the 1939 budget. The campaign, divided into spring and fall drives, will tie in with the na-tional campaign of American Gas Assn. Radio, used extensively in the past, probably will be included. The account is handled direct.

casting of baseball games for the entire season of 1940. In making this announcement we do not wish to imply any criticism of the arrangements which have been made, but have merely felt that our listeners are entitled to an explana-tion of the situation."

Major Music Publishers Protest Plan **Of RCA to Demand Fee for Recordings**

A GROUP of Music Publishers Pro-tective Assn. members has entered the lists along with the broadcast-ing industry against the proposed plan of RCA to license stations to broadcast phonograph records. Lin-ing up with the performing artists and the musicians in protest against this move of RCA's, the music pub-lishers have notified the broadcast-ers that licenses given recording ers that licenses given recording companies by copyright owners to record their numbers do not include the right to license their use on

the right to license their use on the air. The following letter, signed by Harry Fox, agent and trustee, was sent Oct. 12 to all radio stations, following a meeting of the pub-lisher group at the New York head-quarters of the Music Publishers Protective Assn: "We have seen the proposal of certain manufacturers of commer-cial nbnograph records to grant to

cial phonograph records to grant to radio stations licenses to broadcast such records. Inasmuch as this as-sociation (MPPA) represents a great many publishers whose copy-righted works are involved, we wish righted works are involved, we wish to advise you that any such pro-posal is not authorized or sanc-tioned by our members. The record-ing licenses granted to the record manufacturers by the copyright owners do not give them the right to demand from you license fees for the broadcasting of phonograph records."

Three Intervene

MPPA, by this action, becomes the third organization to intervene in RCA's attempt to issue licenses in RCA's attempt to issue licenses to broadcasters covering the use of phonograph records on the air, not including the NAB, which per-suaded RCA to postpone the effec-tive date of its licenses from Oct. 1 to Dec. 1 [BROADCASTING, Sept. 1]

1]. National Association of Performing Artists, organization that pro-vided the defense in the RCA-Whittman suit in which the Court found that RCA has the right to limit the use of its records if it so desires, notified broadcasters in August that RCA has not been authorized to collect royalties on behalf of NAPA members and at the same time told RCA that it would

FINAL INSTRUCTIONS from Robert A. Schmid (right), MBS sales promotion manager, are given Western Union Messengers, dressed in baseball outfits, before they start their trot around Gotham to deliver the jigsaw puzzle souvenirs promoting the exclusive MBS-Gillette broadcasts of the 1939 World Series. The full-color puzzle, reproducing a Currier & Ives lithograph titled "The American National Game of Baseball—Grand Match for the Championship at the Elysian Fields, Hoboken, N. J.", was delivered in an envelope "from Gillette . . . to Mutual . . . to You."

"legally resist" its attempts to li-cense stations.

In September the American Federation of Musical and the read the picture by notifying all AFM mem-bers that any assignment of rights in phonograph records to the manufacturing company without consent of the AFM would mean the im-mediate loss of union membership [BROADCASTING, Oct. 1]. Amplifi-cation of this ruling and an explanation of how the union expects to apply it are expected to be is-sued by the AFM executive board during its next meeting, which will be held in New York beginning Oct. 17.

Possibility of Ban

Meanwhile the question has been raised as to whether such action by the AFM would not be a vio-lation of its contracts with the net-work affiliates and the nonnetwork stations, both of which were pred-isated on the premise of the AFM icated on the promise of the AFM that it would not restrict the use of transcriptions and phonograph records by stations employing the agreed quota of AFM members. The contract drawn up by the union and the committee representing nonnetwork stations specifically provides that any station upon en-tering into the agreement with the local union "is granted full rights to . . . broadcast electrical tran-scriptions and phonograph records.

Refusal on the part of AFM to rights in phonograph records to RCA might make it necessary for the company to withdraw its license and to issue instead an order pro-hibiting the broadcasting of any of its records. The phonograph record manufacturers have consistently denied ever deriving any profit from the use of their records in broadcasting, and it is believed they would probably be willing to eliminate the practice altogether unless they are to be allowed to collect a reasonable fee from the broadcasters for its continuance and to issue instead an order probroadcasters for its continuance.

If the AFM does not intend to block the licensing efforts of RCA and the other record manufactur-ers, but instead plans to insure its members getting some extra pay-ment for the broadcast use of the records they helped to make it is probable that such extra payment will have to come from the broadcasters.

Similarly, if the MPPA insists Similarly, if the MPPA insists on an extra payment, that too will probably be passed along to radio. However, since the stations are al-ready paying ASCAP for the privi-lege of broadcasting copyright mu-sic there is serious doubt as to whether another payment to MPPA would not mean paying twice for would not mean paying twice for the same thing.

Fly Sees President

FCC CHAIRMAN James Lawrence Fly conferred with President Roosevelt Oct. 13 for nearly an hour regarding FCC affairs gener-ally. While he made no comment following the conference, Mr. Fly is understood to have given the chief executive a progress report on Commission affairs since he as-sumed its helm six weeks ago.

AFM Pickets Force Shutdown, WPEN Recruits a New Staff

Refusal of Musicians to Enter Definite Pact Leads to Release of Staff Orchestra

AFTER a day-and-a-half of enforced silence occasioned by refusal of CIO announcers, engineers and other employes to break through an AFM picket line, WPEN, Philadelphia, returned to the air Oct. 11 with non-union help.

The strike grew out of a refusal of AFM headquarters or the Philadelphia local to enter into a definite contractual arrangement for union musicians based on the standard form entered into with independent stations, with the result that the staff orchestra was released, according to Harold A. Lafount, general manager of the Bulova radio interests.

As BROADCASTING went to press Oct. 13, the station was still being picketed by the musicians but negotiations were to get underway the following day. AFM headquarters in New York had invited WPEN officials to confer with them and with officials of the Philadelphia local.

Mr. Lafount declared that when the station staff refused to break through the picket line Oct. 10, it became necessary to recruit engineers, announcers and other office help, which was promptly done. There has been a minimum of disturbance to station operations and accounts, he said, since its return to the air.

Adjustment Refused

The burden of the \$42,000 per year contract for musicians was so onerous, Mr. Lafount declared, that the station lost money in 1938 and, based on the present outlook, will also be in the red in 1939. The contract was entered into three years ago by John Iraci, then owner of the station, before the industry had negotiated the standard form of contract with AFM. Subsequently, independent stations negotiated a national contract offered to all stations which provided for an expenditure of $5\frac{1}{2}$ %

Subsequently, independent stations negotiated a national contract offered to all stations which provided for an expenditure of $5\frac{1}{2}$ % of the station's gross to hire union musicians. The contract, however, carried a clause that no station could spend less for musicians than it was disbursing at the time. WPEN, under the $5\frac{1}{2}$ % provision, would have disbursed only about \$12,000 per year as against the \$42,000 figure. When WPEN sought to have the local union (No. 77) in Philadelphia

When WPEN sought to have the local union (No. 77) in Philadelphia alter its contract on the basis of the industry-wide arrangement, the local responded that it had no jurisdiction. The question then was submitted to Joseph N. Weber, president of AFM, who likewise disclaimed jurisdiction. The upshot was that for the last year WPEN has retained 14 musicians on a week-to-week basis but under the salary provisions of the original contract.

Because of the failure of AFM to adjudicate the question and because the sum was far in excess of WPEN's ability to pay, Mr. Lafount said that Arthur Simon, manager of WPEN, on Oct. 7 advised the musicians that the station henceforth would operate without a staff orchestra. There was no question involved regarding wages and hours and the controversy grew out of the refusal to revise the contract.

Picket Line Started

On the following morning, Mr. Lafount related, a picket line was thrown around both the WPEN studios and the transmitter. Because AFM is an American Federation of Labor union, while other station employes belong to CIO unions, it had been implied there would be no general strike. Technicians, announcers and production men, belonging to CIO unions, reported for duty on Sunday and Monday but on Tuesday morning refused to break through the picket lines. Notice was given the station Monday night to that end and the station was therefore unable to open the following day

Soften the following day. So far as known, the WPEN case is the only instance of labor controversy growing out of the AFM contracts forcing shutting down of a station. All other independent stations, it is understood, are operating on the basis of the 5½% of gross scale.

Singing Breaks

THERE'S no monotony about station breaks on KIRO, Seattle. Singing breaks, suggested by Billy Reuter, technician, are performed by a quartet. "Columbia's Voice in Seattle" is one break, sung to the tune of *Columbia*, the *Gem of the Ocean.* After a kiddie program comes this: "Little Jack Horner sat in a corner next to his radio; he stuck in this thumb, pulled out a plum, and said I've got KIRO." Staff members collaborate in writing the breaks, which are scheduled in appropriate spots.

WPEN now is controlled by Arde Bulova, New York watch manufacturer, who acquired it with FCC approval several months ago. Mr. Lafount is a minority stockholder.

On Oct. 9, R. E. Shipp, president of Local No. 28 of the American Communications Assn., CIO union, announced that at a general assembly meeting the local had agreed to "respect the picket line" of the AFM local at WPEN. He asserted ACA is a CIO union affiliate and is the representative union of all the engineers, announcers and production employes employed at stations in the Philadelphia area.

Radio Censorship in Europe Described; German System Called Most Efficient

WHILE the censorship imposed on correspondents by Europe's warring nations is extremely strict, American newspaper and radio men have more latitude than during the last war, in the opinion of John Gunther, Pierre Van Paassen and Hilmar Baukhage, NBC war commentators just returned to America from London, Paris and Berlin, respectively. Conditions in each country were described in a roundtable discussion led by John B. Kennedy on the Blue network Oct. 7.

on the Blue network Oct. 7. German censorship, according to Baukhage, is as efficient as German military operations. "They realize that they'll get a lot better deal out of the whole thing if they treat you sort of humanly," he said, "and if they're going to amputate some of your most glowing periods they're going to give you a little anaesthetic in doing it. Their whole treatment is one of absolute cooperation. Why, they turn over an office to you, they give you carbon paper to make up the books of five copies and sometimes a little refreshment is brought in.

"The worst censor, you know, is not the fellow that cuts out most of your stuff, but the one who won't let you know how much he's going to cut or when it's going to come back. That's where the Germans have it well organized. You know what you can do and you can count on your copy being done in time. It's an efficient machine."

on your copy being done in tount on your copy being done in time. It's an efficient machine." Quite a different picture of censorship was given by Van Paassen. In Paris, he said, "the broadcaster had to present himself three hours before the delivery of his talk at censorship headquarters and produce three copies of his intended comments. The speech was read by several functionaries representing the War Ministry, the Ministry of the Interior and the Ministry of Finance. If approved by all three, a set of stamps and seals was affixed to the document and the broadcaster was allowed to depart, but with the warning that some official would be listening to his talk and that at the slightest deviation from the approved text the broadcast would be shut off."

One evening, Van Paasen said, he had prepared a broadcast dealing with the personal reactions of men leaving for the front and their relatives as he had seen them at railway stations, mentioning "the anguish, the despair, the heart rending scenes of parting." The French censor killed the whole script, telling Van Paassen that he'd seen wrong, that there was no weakness but only determination and resolution. Calling this "pretty rigid censorship", Van Paassen added that all this was before war had actually been declared. "As soon as hostilities opened, the French put a ban on interpretative broadcasts by foreigners and designated native Frenchmen to take our places," he explained.

In London, according to Gunther, radio reporters were "rather severely limited as to what news we could send, but we were quite free to interpret what little there was almost any way we wanted. But we didn't have to get there three hours ahead and we didn't have to have any number of scripts. One scribbled manuscript was enough." Describing some of the trouble caused by inefficient censorship by people "who obviously didn't know

Accounting Group Changed by NAB

Lucy Named as Wilder Quits; Questionnaire Is Sliced

APPOINTMENT of a new Accounting Conmittee, headed by C. T. Lucy, general manager of WRVA, Richmond, was announced Oct. 12 by NAB President Neville Miller, with the retirement of Col. Harry C. Wilder, president of WSYR, Syracuse, from chairmanship of the group.

Col. Wilder relinquished the post up on completion of protracted negotiations with the F CC Accounting Department on financial, program and other questionnaires. The form of the 1939

form of the 1939 Mr. Lucy financial questionnaire, developed after intermittent conferences during the last year, awaits formal approval of the Commission itself after substantial agreement between the NAB Committee and the FCC Accounting Department.

FCC Accounting Department. Slated to go out to stations early this month, the questionnaire has been held in abeyance until formal Commission ratification is forthcoming, now expected by Oct. 24. It is in an 18-page form, compared to a 27-page document sent out last year to cover 1938 fiscal operations of stations. It will cover the calendar year 1939 and must be filed with the FCC by March 1, 1940 [BROADCASTING, Sept. 15].

Standard Log Sought

Other members of the Accounting Committee to serve with Chairman Lucy are H. W. Batchelder, WFBR, Baltimore; N. L. Kidd, WSYR, Syracuse; Earl J. Gluck, WSOC, Charlotte; Harry F. Mc-Keon, NBC auditor; S. R. Dean, CBS assistant treasurer; E. M. Spence, NAB secretary-treasurer, who serves as committee secretary.

The new committee, it was stated, probably will meet late this month to complete a standardized form of station log meeting all of the requirements set forth in the new FCC rules and regulations which became effective Aug. 1. Many stations, particularly smaller units, have suggested adoption of a uniform log meeting all FCC requirements.

In boiling down the FCC financial questionnaire form to an 18page schedule, both the NAB committee and the FCC chief accountant, William J. Norfleet, feel that an effective cooperative job was done. When the conversations began, a form with some 160 pages was projected. Items gradually were eliminated, consolidated and condensed with the result that the new form was produced.

a newspaper from a hole in the ground," Gunther went on to say that those were for the cable correspondents and that in contrast the radio censors were mostly trained experts who did all they could to help the correspondent get his story out, as long as he steered clear of military information, such as the state of the weather, which might advise the enemy that conditions would be good for an air raid.

Third Stipulation Court Test of 'Musico' Program Seen Radio Is Included Signed by Agency As Post Office Finds It Objectionable In Agenda of ANA

FTC Pacts Provide Revision Of Advertising Claims

THE Federal Trade Commission on THE Federal Trade Commission on Oct. 14 announced the third stipu-lation entered into by advertising agencies in recent weeks, the first agency stipulations accepted pur-suant to the broadened powers of the Radio & Periodical Division un-der the Wheeler-Lea amendments to the FTC Act by which an agency is held jointly responsible with the advertiser-client for false and misadvertiser-client for false and misleading advertising claims.

The agencies, all of which signed individual stipulations based on similar agreements signed by their clients, include Raymond Powell Co., Memphis; Ralph H. Jones Co., Cincinnati, and Van De Mark Ad-vertising Inc., Cincinnati.

Agency Agreements

The Powell agency, first to enter a stipulation, accepted Sept. 12 by the FTC, agreed to stop making the FTC, agreed to stop making purportedly misleading advertising claims on behalf of "Blue Star Ointment", distributed by Star Products Co., Houston, Tex., which also signed a similar stipulation. Ralph H. Jones Co., in its stipula-tion, agreed to discontinue alleg-edly misleading representations in advertising a fruit juice product distributed by Kroger Grocery & Baking Co., Cincinnati, which also signed a separate stipulation.

signed a separate stipulation. The Van De Mark stipulation, announced by the FTC Oct. 14, covered the agency's agreement to covered the agency's agreement to discontinue certain representations in advertising "Floradex", a me-dicinal preparation distributed by Harold T. Maloney, trading as Floradex Co., Columbus, O., who previously had entered into a simi-lar stipulation. The FTC also has filed com-plaints, alleging violation of the Robinson-Patman Act in the sale of tobacco products, against P.

Robinson-Patman Act in the sale of tobacco products, against P. Lorillard Co., New York; Brown & Williamson Tobacco Corp., Louis-ville; R. J. Reynolds Tobacco Co., Winston - Salem; Larus & Bro., Richmond; Liggett & Myers Tobac-co Co., New York; Stephano Bros., Philadelphia, and Philip Morris & Co., New York. In another com-plaint filed recently by the FTC, Lady Esther Ltd., Chicago, was charged with the dissemination of misleading representations in the misleading representations in the sale of "Lady Esther Face Cream".

The complaints grant respondents 20 days for filing answers. Among other stipulations an-nounced by the FTC, Luxor Ltd., Chicago, agreed to cease certain representations for its "Luxor Spe-cial Formula Cream".

Noxzema, Pet Sponsor Trout

Noxzema, Pet Sponsor Trout NOXZEMA CHEMICAL Co., New York, which recently dropped the Professor Quiz program on CBS, re-turned to that network Oct. 10 with a thrice-weekly five-minute news pro-gram by Bob Tront for Noxzema Greaseless Cream. During the foot-ball season the Saturday broadcast is heard between halves of Ted Husing's descriptions of football games. Pet Milk Sales Corp., St. Louis, also is sponsoring Trout's five-minute re-views as an added feature on the Mary Lee Taylor program, heard on 57 CBS stations, Tuesdays and Thurs-days, 11-11:15 a. m. Ruthrauff & Ryan, New York, is agency for Nox-zema, and Gardner Adv. Co., St. Louis, for Pet Milk.

TEST case in the courts on Musico, a Friday night half-hour program on WGN, Chicago, and WMBD, Peoria, Ill., appears likely follow-ing a ruling by the U. S. Post Of-fice Department the week of Oct. 9 that the program is objectionable under the lottery laws. The opin-ion was given at the request of the postmaster of Wyoming, Ill., a small town in the primary area of WMBD. WMBD.

Sponsored by National Tea Co. on WGN and by Kroger Stores on WMBD, *Musico* is scheduled to continue on both stations. It is understood that it may be dropped from WMBD following the broad-cast of Oct. 20, although the can-cellation could not be confirmed at H. W. Kastor & Sons Adv. Co., Chi-

cago agency handling the accounts. The radio game was invented by John H. Farwell and is owned by Clef Inc., Chicago. It was tested on WROK, Rockford, Ill., during the summer and started on WGN Sept. 22. Patterned after bingo, Musico is essentially a song identification game. Cards ruled into 25 squares, five to a row, are distributed at the stations and at the stores of the sponsoring firms.

stores of the sponsoring ntms. Each square contains the name of a song. Players check off the titles they recognize as the studio or-chestra plays the tunes. When a horizontal row of five squares is checked all the way across the player "Musicos". Three of the rows are designated as "money rows" and cash prizes are given. The remaining two rows win bask-The remaining two rows win baskets of groceries.

How Prizes Are Offered

On WGN, the "money rows" offer prizes of \$25, \$50 and \$75 to the first listener who correctly completes the particular row mentioned on the broadcast and phones the station. Since every card distrib-uted has at least one row that can be filled, the WGN trunk lines are jammed as soon as the tunes are played. For those who correctly complete the "money rows", but are

Pacific Coast Agencies Start Meeting Oct 26 "TIME, Space and Dollars," will be An ME, Space and Dollars," will be the subject of a talk by Archibald M. Crossley, head of Cooperative Analysis of Broadcasting, New York, radio program evaluator, at the annual convention of the Pacific Council According According to the Council, American Association of the Facilic Council, American Association of Advertising Agencies. Mr. Crossley will speak at the two-day meeting to be held at Del Monte Hotel, Del Monte, Cal., Oct. 26 to 27, according to August J. Bruhn, vice-president of McCann-Erickson, Los Angeles, and chairman of Pacific Coun-cil. Agency men will be joined by guests on the second day and radio executives from all over the Pacific Coast are expected to attend.

Other officers and governors of Pacific Council include W. H. Hors-ley, Pacific National Adv. Agency; Dan B. Miner, Dan B. Miner Co.; Dan B. Miner, Dan B. Miner Co.; David M. Botsford, Botsford, Con-stantine & Gardner; Fred T. Weeks, Brewer-Weeks Co.; Terrell T. Mc-Carty, The McCarty Co.; Don Beld-ing, Lord & Thomas; Fred W. Mey-er, Dan B. Miner Co.; Philip J. Meany, Philip J. Meany Co.; and H. A. Stebbins, Erwin, Wasey & Co. unable to get their phone call through to the station a cash prize of \$100 is offered if they send in their cards with a slogan concern-ing the sponsor. From these cards and slogans a winner is chosen by a board of slogan experts. On WMBD, those listeners who have her with the board of slogan experts. had winning cards but who couldn't get their calls through have been turning in their cards and slogans at local Kroger stores. On WGN, potential winners in this group

have been mailing in their cards. The program has had phenome-nal listener interest since it started. More than a million cards were distributed by National Tea stores in Chicago the second week of the broadcast, according to the agency. On the second broadcast 10,000 phone calls were received at WGN and 50 girls operate the switch-board at present. Since it started on WGN Sept. 22, more than 5,000 prizes have been given, including cash and merchandise.

cash and merchandise. Should a fraud order forbidding the use of the mails be issued by the Post Office Department, it is understood that the Department will be enjoined and a test case started. Opinion of Chicago radio and advertising men is that Musico does not constitute a lottery. The observer of a lattery concerts to be elements of a lottery appear to be some element of chance, the offer-ing of prizes and some legal con-sideration on the part of the par-ticipant. Skill is required by lis-temers to Musico and a considerable knowledge of music is necessary to identfy the selections played. Prizes are, of course, offered on the show but the listener pays no legal con-sideration, for the cards are given to him gratis by the station and the stores for the asking. In some quar-ters, however, it is contended that the mere phone call constitutes "consideration." The so-called "bank night" in theatres was considered a lottery in several States because the participant had paid admission to the theatre, which was held sufficient legal consideration.

KWKH Tests 50 Kw.

TEST operation during daytime of the new 50,000 - watt plant of KWKH, Shreveport, began early in October, and it is now planned to begin fulltime operation with the new power the week of Oct. 22, ac-cording to Jack McCormack, man-ager. A Western Electric trans-mitter has been installed with a full half-wave ground system on a 32-acre site. Three Truscon radia-tors, each 481 feet high, complete the installation, which was directed by Chief Engineer W. E. Antony under the supervision of Paul Godley, consulting engineer.

Jewel Stove on KQV

JEWEL STOVE Co., Detroit (gas ranges), has started five weekly participations on KQV, Pittsburgh. It is understood that the test may be expanded. Holden, Graham & Clark, Detroit, handles the account.

BATTEN, BARTON, DURSTINE & OSBORN has moved its Hollywood offices to larger quarters at 6331 Hollywood Blvd.

Media Expenditure, Consumer Research to Be Discussed

NEVILLE MILLER, president of the NAB, and D. P. Smelser of Procter & Gamble Co., will repre-sent radio at the 35th annual convention of the Association of Na-tional Advertisers to be held Oct. 25-28 at Hot Springs, Va., at which special emphasis will be placed on facts pertaining to the consumer

research movement. First day of the meeting will be a closed session devoted to a discussion of association affairs. Paul cussion of association affairs. Paul B. West, ANA president, will pre-side. Reports will be given under the chairmanship of A. T. Preyer, Vick Chemical Co. by the follow-ing: Newspaper, J. O. Carson, H. J. Heinz Co.; outdoor advertising, D. H. Odell, General Motors Corp.; magazine, Gorden E. Cole, Cannon Mills; advertising production, P. C. Handerson, B. F. Goodrich Co.; 1a-dio, Mr. Smelser; Government re-lations, George S. McMillan, ANA secretary. secretary.

On Oct. 27 scientific methods of determining advertising expendi-tures will be considered under the sponsorship of the Advertising Re-search Foundation, founded by the ANA and the AAAA. Speakers in the different media fields will be: the different media fields will be: Mr. Miller on radio; Edwin S. Friendly, New York Sun, on news-papers; Richard Compton, presi-dent of Compton Adv. Co., on "What is the Meaning of the Ad-vertising Research Foundation?"; Curwin Fulton, president of Out-door Advertising, on outdoor adver-tising, and William B. Warner, president of NPA and McCall's, on magazines. magazines.

Last day of the convention will be devoted to amusement with a show by the Adribbers Club under the direction of Douglas Meservey of NBC.

BROAD CURB URGED FOR DRUG CLAIMS

FOR DACG CLAMMS MORE STRINGENT regulation of claims made by food and drug ad-vertisers in their radio commer-ciation of Food & Drug Officials, at t h e i r 43d annual convention in Hartford, Conn., late in September. Representing State f o d and drug boards, the officials contended that some of the claims made in radio advertisements if included in

radio advertisements, if included in written advertisements or on labels, would be considered law violations. The group was instru-mental in securing amendment of the Wheeler-Lea act at the last ses-

the wheeler-Lea act at the last ses-sion of Congress, invoking more rigid regulation in these fields. Milton P. Duffy, chief of the California Bureau of Food & Drug Inspection and president of the As-sociation, asserted that in his view "the detrimental effect of radio in heardnesting miledoing information "the detrimental effect of radio in broadcasting misleading informa-tion is in direct violation of the Food, Drug & Cosmetic Act." Dr. George R. Cowgill, of Yale Uni-versity School of Medicine, asserted that the "general impression" con-veyed in the radio advertising in these fields is "usually erroneous". He suggested that radio advertis-ing copy be given the same legal status as newspaper or magazine advertising, observing that in his advertising, observing that in his opinion statements over the radio have thus far escaped regulation.

NO MANCHESTER IND JOURNAL THURSDAY APRIL 27 1939 WEEKLI SIDNEY STUDENTS VISIT CHICAGO

The juniors and seniors of the Sidney school, together with some of the teachers, visited Chicago Monday, the trip taking the place of the junior and senior reception. There were 16 seniors, 24 juniors, and adults were Mr. and Mrs. T. G. Weaver, Josephine Miller, Louise Ireland, and Chloe Borseth. They made the trip by train. They visited the Chicago post office, Board of Trade tower where they saw the board of trade open, Shedd aquar-Planetarium, Field Museum, Art Institute, several department stores, W. L. S. broadcasting station. The final feature was a sightseeing bus ride through the loop.

TALL CORN AND TALL TALES Maize Sweepstakes Ends in Conceded But Grudging – Victory for WHO's Iowa Entry

Editor's Note: Joe Maland, originator of Iowa's Tall Corn Contest, sponsored annually by W H O, appointed us 'Korn Kounsellor' in the WHO-KFH-WCHS sweepstakes, just ended. It was an honor highly esteemed, but we're more than glad the ultimate decision didgian the ultimate accision and n't rest with us as proposed by Mr. Maland. WHO's com-petitors, as the following cor-respondence will disclose, have conceded h o n or s to I o w a, wherefore they will, according to the contest terms, send their States' choicest specimens of ham to lowa's Governor:

MOST Noble Korn Kounsellor: We received the following tele rani from Clark Luther, of KFH, Wichita, admitting that Iowa has the tallest corn with a mature ear in the WHO-WCHS-KFH Tall Corn Contest:

"Have sad story to tell. Our prize specimen with two ma-ture ears also busted like WCHS entry only worse. Far-mer lugging it in exposed stalk inadvertently to Kansas breeze which blew away 3 feet, 2½ inches from midsection cutting length to 15 feet four inches. We are too proud to ask acceptance. Our next best specimen 13 feet 8 inches. Must yield to Iowa entry with thy-roid trouble. Broken hearted. Hams get going. Congratula-tions. Hoping for better luck next year."

As this will require good judgment on your part, let me review briefly the situation. We conducted our Tall Corn contest in connection

with the Iowa State Fair, requiring all en-tries to be in by Aug. 23, which as you know is right in the middle of the growing sea-son. The winning entries were tall

corn with a ma-ture car 18 ft. Mr. Maland 21/2 in. and tall corn with an ear.

but immature, 23 ft. 10% in. Six of the leading agricultural experts in the State were judges so there was rigid enforcement of the rules that stalks should not be broken and pasted together in order to get extraordinary length and, also, that it should be a fully matured ear. From years of experience we have found that other States can raise tall stalks but can not raise corn at the same time. The trick is to pinch the budding ears and let all the nourishment from the soil be used for raising the stalk.

The W. Va. Challenge

About that time, WCHS chal-lenged us with a Tall Corn Contest, which we accepted, subject to the rules and regulations of the Iowa Tall Corn contest, copy of which is enclosed. They terminated their contest about Sept. 23, which gave them an additional thirty days in order to attain height. We, of course, have no objection to this handicap because we know that West Virginia must import all their black soil from either Iowa or Min-

nesota (that great State from which you came—and so did I). We received a telegram from J. B. McLaughlin, West Virginia Commissioner of Agriculture, in-quiring as to the admissibility of broken stalks, to which we advised him that broken stalks were not ad him that broken stalks were not admitted in our contest. His reply was that the stalk was broken in taking the curves on their crooked roads. This, of course, is possible and we did not want to voice the suspicion that it consisted of two stalks of corn tied together. Their broken stalk entry measures 18 ft. 9½ in. We have no definite assur-ance as to whether it had a fully matured ear or not. In the event that it had an ear, but not fully matured, we, of course, would like our entry of 23 ft. 10% in. to be considered.

It looks to me like it will require a man of superior judgment, like yourself, to settle the problem.

J. O. Maland. Vice-President, WHO, Des Moines. *

Korn Kounsellor, BROADCASTING: West Virginia asks no quarter, and although our broken stalk measures 18 feet 9½ inches when put together. we will not embarrass our competitors by asking admis-

sion of this speci-men. We are not suggesting sabo-tage but we un-derstand some folks from Iowa and Kansas registered at our leading hotel recently. Watch our smoke next year, how-

Mr. Kennedy ever! And we are going to take extraordinary pre-cautions against Iowa and Kansas. I should add that West Virginia's unbroken entry in our Tri-State Corn Sweepstakes measured 17 feet 9 inches. At least this tops Kansas.

> JOHN A. KENNEDY, President, WCHS, Charleston, W. Va.

Illinois Central Spots

ILLINOIS CENTRAL RAIL-ROAD, Chicago, on Oct. 15 was to ROAD, Chicago, on Oct. 15 was to start a live quarter-hour legendary drama titled *Cameos of New Or-leans* on WMAQ, Chicago. The Sun-day afternoon show is being tran-scribed by NBC and will be aired starting Oct. 22 on WOW KSTP WTAM WWJ WHO KSD WTMJ. The 26-week series will be broad-cast on KSTP on Wednesdays; on WTMJ on Fridays, and on the other stations in late Sunday afother stations in late Sunday afphy, of the continuity department of NBC-Chicago, the program will describe historical scenes in New Orleans that may be visited today and will promote winter travel to the South via the Illinois Central. Three New Locals Authorized by FCC

Stations Granted in Syracuse, Fort Myers, Cordele, Ga.

THREE new stations were author-ized by the FCC in decisions ren-dered Oct. 3, and a proposed find-ing favoring the authorization of a fourth was approved. The newly-authorized stations are all locals and will be located in Syracuse, N. Y.; Fort Myers, Fla., and Cor-dele, Ga. The proposed finding, which requires later ratification by the Commission favored a new sta-

which requires later ratification by the Commission, favored a new sta-tion in Fremont, Neb. The Syracuse station, a fulltime 100-watter on 1500 kc., will be li-censed to Civic Broadcasting Corp., of which T. Sherman Marshall, Syracuse advertising man, is pres-ident and chief stockholder. Vice-president is George E. Hughes, of New Rochelle, N. Y., and now in radio production for Shell Union Oil Co., who resigns to join the new project. Secretary is Lawrence So-bik, Syracuse attorney.

New Florida Outlet

The Fort Myers station, 100 watts night and 250 day on 1210 kc., will be licensed to Fort Myers Broadcasting Co., of which W. E. Benns Jr. is president; Mrs. W. E.

Benns Jr. is president; Mrs. W. E. Benns, vice-president and treas-urer; R. Julian Skinner, director. Call letters will be WFTM. The Cordele (Ga.) station, 100 watts night and 250 day on 1500 kc., will be licensed to Cordele Dis-patch Publishing Co. Inc., publisher of the Cordele Dispatch. John W. Greer Jr., publisher, is president and 69% stockholder in the cor-poration. Call letters will be WMJM. The proposed new station grant

WMJM. The proposed new station grant in Fremont, Neb., which will be made in routine unless exceptions are filed within 20 days, will go to the Nebraska Broadcasting Corp., and the assignment is 100 watts night and 250 day on 1370 kc. Di-rectors and stockholders are Clark Standiford, former manager and part owner of KGFW, Kearney, Neb., 9 shares; A. C. Sidney, attor-ney, 5 shares; C. C. Marshall, re-tired nurseryman, 1 share; Earle J. Lee, attorney, 1 share; Arthur Baldwin, insurance and real estate, 1 share. 1 share.

FCC Seeks Fund Boost

AN INCREASE of approximately AN INCREASE of approximately one-third in its budget require-ments for the 1941 fiscal year, which begins next July, has been proposed to the U. S. Budget Bu-reau by the FCC. The current ap-propriation is approximately \$2,-000,000, and it is understood the additional funds are sought pri-marily for personnel increases, more intensive supervision of tele-phone activities and renlacement phone activities, and replacement of monitoring and technical equipment in the field.

Barbasol Test

WASEY PRODUCTS, New York WASEY PRODUCTS, New York, is planning a test campaign of transcribed announcements for Barbasol to start late in October on one Salt Lake City and one In-dianapolis station. No further plans have been made, and the sta-tions have not been selected as BROADCASTING went to press. Er-win, Wasey & Co., New York, is the agency.

WSAI BUYS TEAM Then Sells Time to Sponsor -For Nice Profit

THE unique spectacle of a radio station purchasing an equity in a professional football club, then selling the sponsorship of its games at a price considerably higher than at a price considerably higher than it paid for its interest, was pre-sented last month when WSAI, Crosley-owned station in Cincin-nati, acquired what is practically control of the Cincinnati Bengals of the American League. Powel Crosley Jr., owner of WLW and WSAI, who also is owner of the Cincinnati Reds cham-pionship ball team, did not buy the Bengals personally. Instead, the purchase was in the name of the station and was negotiated by

station and was negotiated by James D. Shouse, Crosley vice-pres-ident, and Dewey H. Long, WSAI manager. Sponsor of the Sunday afternoon games is the local Model

arternoon games is the local Model Shoe Co. The Crosley interests thus be-come the second in radio to acquire a pro football team. George A. (Dick) Richards, chief owner of WJR, Detroit, with Leo Fitzpat-rick, WJR executive vice-president and general manager own the Daand general manager, own the De-troit Lions of the National League, and also have an interest, along with John Patt, vice-president and manager of WGAR, Cleveland, in the Cleveland Rams of that league.

P & G Takes Over Show

P & G Takes Over Show PROCTOR & GAMBLE Co., Cin-cinnati (Oxydol), will soon start What's My Name on a network not yet selected. The show was form-erly on CBS under Phillip Morris sponsorship and during the sum-mer replaced the Fred Allen Town Hall Tonight spot on NBC-Red. It features Arlene Francis and Budd Hullick in a half-hour quiz pro-gram. Blackett-Sample-Hummert, Chicago, is agency.

HEAR YE! cried Colonial Network's peripatetic Towne Crier as he appeared on Boston streets at noon during the World Series to draw public attention to the Gil-lette-MBS broadcasts.

Patt Progress

ROBERT PATT, one of the five Patt brothers engaged in the radio industry, has been placed in charge of the placed in charge of the newly-organized sales promo-tion department of WHN, New York. Mr. Patt was for-merly with Free & Peters, New York, and Campbell-Ewald Co. of New York. John Patt is general manager of WGAR, Cleveland; Ralph Patt is general manager of of WGAR, Cleveland; Ralph Patt is general manager of W PAY, Portsmouth, O.; James Patt is director of pub-lic affairs of CBS in Cincin-nati, and Fred Patt, the youngest brother, recently joined KCMO, Kansas City.

Station Transfers Receive Approval **Ouick Action in Transfer to Poughkeepsie Paper**

TRANSFERS of the ownership of TRANSFERS of the ownership of five broadcasting stations were au-thorized by the FCC in decisions Oct. 3, all of which were reached without preliminary hearings in line with the new Commission policy to avoid unnecessary hear-ings and delay in routine cases.

Peter Goelet, owner and founder of WGNY, Newburgh, N. Y., 250 watts daytime on 1220 kc., was authorized to sell the station for \$40,000 to the *Poughkeepsie* (N. Y.) \$40,000 to the *Poughkeepsie* (N. 1.) *Courier*, a weekly newspaper. Ap-plication for the transfer had been filed on Aug. 29, and the speed of its grant indicated not only that newspaper acquisitions of radio stations are no longer an issue but that the Commission is resolved to clear its calendar of cases as rapidly as possible.

R. J. Laubengayer, owner of KSAL, Salina, Kan., and publisher of the Salina Journal, was authorized to transfer the station to a corporation known as KSAL Inc., in which he remains as controlling stockholder. Mr. Laubengayer re-cently sold his newspaper but con-tinues as its publisher for the new owners.

owners. Acquisition of 89.9% of the stock in KABR, Aberdeen, S. D., by H. C. Jewett Jr., wholesale grocer, al-ready holder of 44.6% of the stock, was authorized. This application was also made Aug. 29. Mr. Jewitt acquires the additional stock in sat-isfaction of obligations on the sta-tion held by him in the amount of \$67,660.

Sale of WCHV, Charlottesville, Va., a local, to John F. Arington Jr., formerly of WIOD, Miami, and Mrs. Arington, was authorized. They purchased the 61% interest held by Mrs. Hugh M. Curtler for \$16,500.

Transfer of WTMC, Ocala, Fla., new local which went on the air last July, from John T. Alsop Jr. to Ocala Broadcasting Co., was also authorized. Mr. Alsop, former mayor of Jacksonville, retains 99% of the stock as president of the cor-poration, with Fred S. Bugg as sec-retary-treasurer.

Cranberry List

AMERICAN CRANBERRY EX-CHANGE, New York, from Oct. 26 through Dec. 17 will sponsor its annual campaign for Eatmor cranannual campaign for Eatmor cran-berries using four spot announce-ments weekly on the following sta-tions: WFBR CFRB WTAM WBNS WJR WHIO WKRC WGN WIRE WMBD KSD WOC WMT WCCO KRNT KFJM WDAY KABR WNAX KSCJ WOW WDAF KFBI KOAM WFAA WBAP KLZ KSTM KFI and KSFO. Agency is BBDO, New York.

Kellogg Participations

Kellogg Participations KELLOGG Co., Battle Creek, Mich., on Sept. 18 started a 13-week campaign for All-Bran Flakes using three to five weekly partici-pations in women's programs on WAPI WBZ-WBZA WGN WCKY WGAR KLZ WHO WJR KPRC KFI KSTP WJZ KDKA WHAM WGY KMBC. Kenyon & Eckhardt, New York, handles the account.

KFRC and KHQ Granted 5,000 Watts; Group of Locals Get 250 Watts Night

FIRST of the regional stations to be accorded 5,000 watts power day and night are KFRC, San Fran-cisco, and KHQ, Spokane, which re-ceived the grants under the new rules and regulations on Oct. 3. At subsequent meetings, the FCC is expected to authorize similar grants where no engineering con-troversies are involved in accord troversies are involved in accord-ance with the new rules which clas-sify such stations in the 3-A category

Adding to the group of more than 120 stations already authorized to use 250 watts power day and night, pursuant to the new rules, the FCC at its meetings Oct. 3 and Oct. 10 authorized additional grants in this new local station classification. Stations awarded the

classification. Stations awarded the increases Oct. 3 are: WBTH, Williamson, W. Va. (also authorized to increase hours from daytime to unlimited); WOLS, Florence, S. C.; KFDA, Amarillo; WMSD, Muscle Shoals; KSAN, San Francisco; KORE, Eugene, Ore.; KFPW, Fort Smith, Ark.; WBNY, Buffalo; WHBC, Canton, O.; WFOY, St. Augustine, Fla.; WROL, Knoxville; KONO, San Antonio; WFJB, Marshalltown; WOC, Davenport; KOVC, Valley City, N. D.; KYSM, Mankato,

Minn.; KLBM, La Grande, Ore.; KGKB, Tyler, Tex.; KPLT, Paris, Tex.; WCBS, Springfield, Ill.; KCRJ, Jerome, Ariz.

At its meeting Oct. 10, the fol-lowing stations were given 250 watts night power:

watts night power: WGRC, New Albany, Ind. (also granted increase in hours from daytime to unlimited); WLNH, Laconia, N. H.; KTSW, Emporia, Kan.; K V N U, L og a n, Utah; WENY, Elmira, N. Y.; WCOL, Columbus; W A L R, Zanesville; KPAB, Laredo, Tex.; KOCA, Kil-gore, Tex.; WE D C, Chicago; KWJB, Globe, Ariz.; K O S, Marshfield, Ore.; WKBB, Dubuque, Ia.; WBRK, Pittsfield, Mass., KWNO, Winona, Minn. KWNO, Winona, Minn.

WCOL, Columbus, in addition to its grant of 250 watts fulltime, was authorized to change its frequency from 1210 to 1200 kc.

SYD BROWN, Toronto, producer of The Northern Messenger, Canadian Broadcasting Corp. service during the winter to Canadians living in the Arc-tic, was presented with a sealskin rug by Miss Florence Hirst, a nurse at Pangnirtung, Baffin Island, when she arrived on leave early in October on the annual supply ship's return from the Arctic.

The Announcers Have a Word for It

R ECENTLY on the key station of one of the networks an announcer pronounced "feast", Danzig to rhyme with "fan-zig", and the Pittsburgh Pirates as if spelled "parts". These three errors that marred the late evening news broadcasts may offend the fastidious, but most listeners probably will have a tolerance for one or more of them. A professor may regard them as typical of different sorts of linguistic error to which announcers are liable.

Two of these errors are "spelling pronunciations" of limited or no

currency and the other is dialectal. Yet none of these is so serious an error as a ridiculous attempt to give a foreign pronunciation to an English word. (Tiber, Munich, and Copenhagen are English words.) We expect an announcer to use the pronunciations of a well-educated American who is familiar with the subject.

Tricks of the Tongue

We can sympathize with the announcer's difficulty when we realize this hypothetical American man-of-the-world has to be on speaking terms with more subjects than any real person ever has been. In addition, the announcer is badgered by purists. For example, he must say "program" to rhyme with "ham", while everyone else in radio pronounces it "progrum". He is asked to pronounce Debussy as French, a feat which will throw almost every American from the cadence of his sentence.

An announcer's greatest financial return comes when he is working on commercial programs that present few difficulties of pronunciation. As a cub on sustaining programs with scripts linguistically difficult, he may hardly see the use of taking all the pains necessary to becoming competent in English speech and not too awkward in pronouncing names in French, German, Italian and Spanish (and other languages of a world at war). He sees the pot of gold in being a gagman or a stooge in a radio-vaudeville skit.

The two ideals, of course, are not incompatible. Several of the best commercial men I know are extremely competent in pronunciation.

The broadcasters have encouraged listeners to expect the best English from announcers, but they

But No Matter How It's Pronounced Some Listeners Will Object

By WILLIAM CABELL GREET Associate Professor of English Barnard College, Columbia University

have not given as much sober thought as they should have to the problems involved. Very few stations have the necessary dictionaries available for the use of announcers. Scripts very often, especially news releases, come to the announcer so late he has no time to check with the dictionaries.

Dictionary Difficulties

As a matter of fact, most people in radio don't know how to use dietionaries, and we may as well confess that the critical apparatus of dictionaries is difficult, especially when the most recent information on pronuciation so often appears in prefaces in minute type. The best chance for improvement, I believe, lies in urging everyone interested in radio to study the English language from what is called academically a linguistic point of view. It is not as disagreeable a pill as you would think from the label.

The announcer is, of course, kind of an actor, and it is difficult for most actors to speak naturally that is, like ordinary folk. They may play a part well, but without a part and this side of the foot-

lights their speech is likely to ring false and pretentious. Mark an actor's speech when he serves as his own master of ceremonies in a radio performance. The announcer

has no footlights and no part on which to lean. Most announcers and directors agree that he should try to create the effect of being a genuine and pleasant, but forceful fellow citizen. While an actor characterizes and caricatures, an announcer usually tries to present himself as an unobstrusive, yet interesting, personality of the air. He has to be an ordinary fellow, for his lines are only introductory to characters and personalities of the program.

The announcer is on the side of the audience. When an announcer has only this role of introduction and yet tries to make a more dramatic figure of himself, he often suggests a hand-ringing buller or a gentleman so fine he is superior to his hearers, or at the other extreme, a sideshow or carnival spieler. To appear in mufti is as difficult a task for an actor as for a uniformed official. And that is the announcer's job.

Listeners are the arbiters of an announcer's success, and they have not hesitated to criticize. The criticisms usually are of two kinds: The announcer either does not pronounce a word correctly, or he speaks a highfalutin' unreal English with a so-called "British accent". Letters from listeners usually make the first criticisms, and editorial writers and columnists the second.

Unfortunately, these two criticisms tend to neutralize one another. When announcers attempt to speak correctly rather than idiomatically, they speak an artificial language which, like the mule, has neither pride of ancestry nor hope of progeny. If they take the columnists' score to heart and revolt against the puritan demand for a schoolbook language, they make errors.

Most listeners nowadays will sympathize with an announcer who

FOR TWO YEARS Dr. Greet was speech advisor for CBS. And in that capacity he was probably radio's most thorough and comprehensive listener. Twenty times a day he would drop the work at hand to listen with critical ear to CBS programs, checking the delivery and pronunciation of the network's announcers. Later, at conferences with the announcing staff, he would point out faults and make suggestions. But, despite his far-flung reputation as an authority on speech, Dr. Greet, also lecturer at Bryn Mawr and editor of *American Speech*, is wholeheartedly against pedantry or anything that savors of pedantry. In the remarks that follow he outlines some of his general conclusions and gives some valuable tips—which may serve the public as well as they do members of the radio announcing profession. is in revolt against the pseudo-correctness and the insincere voice of the typical announcers of the 20's, who were encouraged in their fake culture by the Academy's medal for good diction over the air. But, first of all, listeners want an announcer to be correct. To be idiomatic is probably a better ideal, for correctness implies a straitjacket and dullness. As I listened to programs at the rate of 600 a month, I found that on one in ten the announcer used a questionable pronunciation that was at least worth bringing to his attention.

worth bringing to his attention. The variety of material an announcer must handle is so great that he must simply rely upon authorities and try to speak well. Americans generally need to know more about the English language the spoken language. Any group of graduates of American colleges and universities will have studied

almost every subject under the sun except spoken English and the history of the language. H. L. Mencken has asked: "Why

I. L. Mencken has asked: "Why don't American colleges teach their students how to use the big dictionary? Any newspaper reporter knows how, but few if any students."

Using the Dictionary

Mr. Mencken's criticism of college students is just, I believe, whether or not reporters know how to use the apparatus of the dictionary.

ary. The unabridged dictionary is a difficult volume. Linguistic distinctions are fine, it is hard to describe and illustrate them concisely and it is still harder for one without special training and practice to understand many of the distinctions. For indicating pronunciations there is no completely satisfactory phonetic alphabet, and those commonly employed by American dictionaries are very difficult for an inexperienced person to interpret.

Until 1934, with publication of the "Guide to Pronunciation" in the second edition of Webster's New International Dictionary, there was no volume that gave authority for many common American pronunciations—pronunciations distinguished speakers use and that an announcer must use if he is not to hamstring his speech and appear affected or foolish. In the meantime other excellent dictionaries, with revised pronunciations, are appearing among them a new edition of the Thorndike Century Book, designed (Continued on page 62)

Two Federal Attorneys Given Positions on Legal Staff

TWO NEW appointments to the Law Department of the FCC, effec-Law Department of the FOS, here approved by the Commission Oct. 3 on recommenda-tion of William J. Dempsey, gen-eral counsel.

Robert M. Coop-

er, special assist-ant to the Attorney General and FCC liaison in the Department of Justice, was named principal attorncy. Bene-

Mr. Cooper dict Peter Cottone, lawyer on the

staff of Civil Aeronautics Author-ity, was designated senior attorney. Mr. Cooper, who is 31, recently was assigned to a study of the Government's anti-trust suit against ASCAP pending in the New York Federal courts. He has specialized in communications and broadcast matters, however. with such cases as the Western Union-Postal meras the Western Onion-Postal mer-ger assigned to him. It is expected he will continue his departmental studies at the FCC and presumably specialize in litigation earmarked for Supreme Court consideration.

Federal Careers

Mr. Cottone worked under Gen-eral Counsel Dempsey and Assis-tant General Counsel William C. Koplovitz while they were with the Ropioviz while they were with the Federal Power Commission. He was on the special telephone staff of the FCC under Special Counsel Samuel V. Becker during its AT&T investigation several years ago. Since his graduation from Yale Law School in 1934, he has been employed by Securities & Ex-change Commission Danpertment of change Commission, Department of Justice, Power Commission and Civil Aeronautics Authority. He is a native of Brooklyn and took his undergraduate work at Cornell.

Mr. Cooper, it is understood, will participate in the handling of liti-gation in connection with pending petitions of the FCC to have the Supreme Court review decisions of the UI S Court of America for the Supreme Court review decisions of the U. S. Court of Appeals for the District of Columbia involving fundamental jurisdictional issues. A number of new cases are ear-marked for possible appeal to the highest tribunal to settle the jurisdiction of the lower court and the broad question of economic interest in radio litigation.

Mr. Cooper has been with the De-partment since he left school in 1934, joining it as special attorney. The following year he was named special assistant to the Attorney General, which post he has retained since. He has specalized in defending and enforcing orders of the administrative branch of the Government and in recent months in antiment and in recent months in anti-trust work. A native of Philadel-phia, Mr. Cooper took his under-graduate work at the University of West Virginia and graduate work at the University of Wisconsin, specializing in public utility regu-lation and management. He re-ceived his juris doctor's degree from the University of Michigan in from the University of Michigan in 1934.

It is understood no final determination has been reached by the Department in connection with revival

Soap Firm to Expand

LOS ANGELES SOAP Co., Los Angeles, to introduce Sierra Pine Toilet Soap, thru Raymond R. Mor-gan Co., Hollywood, on Oct. 2 started using three transcribed onestarted displayed announcements weekly on KFI KNX KPO and KSFO in a 13-week campaign. Other stations will be added. An-nouncements feature Ted Bliss, announcer, and were cut by Recordings Inc., Hollywood, under direc-ton of Cyril Armbrister, agency producer.

Gillingham Heads FCC Press Staff **TVA Publicity Director Goes To Commission on Loan**

GEORGE O. GILLINGHAM, public relations director of Tennessee Valley Authority, on Oct. 16 joins the FCC in a similar capacity un-der a temporary three-month as-signment during which he will be on leave from TVA. Borrowed at Fly, FCC chairman and former TVA general counsel, Mr. Gilling-ham is one of Washington's best

known Government press relations officials. officials. While the appointment is on a "loan" basis, Mr. Gillingham may be appointed permanently in the near future. He may be designated assistant to the chairman in charge of public relations. This post has been vacant since M. L. Ramsay, press man of Rural Electrification Administration who served tem-Administration, who served tem-porarily under the former Chair-man Frank R. McNinch, resigned several months ago. C. Alfonso Smith, assistant to Mr. Ramsey, who has been serving temporarily as head of the press section, is ex-pected to return shortly to his regular post with the Soil Conservation Service.

Newspaper Career

With TVA since its creation in 1933, Mr. Gillingham is a former New Jersey and Pennsylvania newspaperman. He was born in Baltimore 43 years ago. He served Baltimore 43 years ago. He served as reporter on the Newark Star Eagle; Question Box Editor, New-ark Sunday Call; covered Northern New Jersey for three Philadelphia dailies, and served as ship-news re-porter in New York. He was associ-ate editor and later managing edi-tor of Pathford mergering during tor of Pathfinder magazine, during which time its circulation rose from 550,000 to 1,320,000 weekly, and contributed to Golden Book. Saturday Evening Post, Current History, Bookman, New Yorker and Esquire, among others. Mr. Gillingham is chairman of

the publications committee of the National Press Club and edits the Goldfish Bowl, official organ of the Club. He is a past commander of the National Press Club Post of the American Legion.

of prosecution of the ASCAP mo-nopoly suit in New York, dormant for nearly four years. Mr. Cooper undertook study of the case under instruction from Assistant Attor-ney General Thurman Arnold, in charge of anti-trust work. Mr. Cooper has collaborated with

the FCC in handling a number of communications cases. He is a member of the Inter-Department Radio Advisory Committee for the Justice Department.

Back in Washington

ASSIGNED to his old stamping grounds in Washington is Edward F. McGrady, vice-president of RCA in charge of Labor and Public Re-lations, Designated Washington coautors, Designated washing on Oct. 4 established headquarters in the Trans-Lux Bldg., where NBC is housed, as coordinator of all RCA and subsidiary activities. Former Assistant Secretary of Labor, he is a member of both RCA and NBC boards. Frank Mullen, RCA vice-president in charge of publicity and president in charge of publicity and advertising, who heretofore has spent considerable time in Wash-ington, will concentrate his atten-tions in New York, because of pressure of headquarters activi-ties and by virtue of his recent ap-pointment as Coordinator of Tele-vision for RCA.

Dunn to Get Medal

GANO DUNN, president of J. G. White Engineering Corp. and Cooper Union and member of the boards of directors of RCA and NBC, will receive the Hoover Medal, "awarded by engineers to a public service," according to an-nouncement by a board of awards representing national societies of civil, mechanical, electrical and Medal will be presented to Mr. Dunn under the auspices of the American Institute of Electrical Engineers, of which he is past president, at the AIEE convention in New York next January.

MBS Cooperative

COOPERATIVELY sponsored MBS program, Show of the Week, which returned to the air Oct. 1, is sponsored on nine Mutual stations to date, with more sponsors to be added throughout the year. Sponsors and stations are: Howard Sponsors and stations are: Howard Clothes, New York, on WOR, New-ark, WAAB, Boston, and WFIL, Philadelphia; Ungles Baking Co., Salt Lake City, KSL; Weinbereer Drugs Co., Columbus, WHKC; Cherner Motors, Washington, WOL; Nashville Gas & Electric Co., Nashville, WSIX; Coca Cola Co., New Albany, Ind., WGRC, and Mano-Swartz Furs Co., Baltimore. Mano-Swartz Furs Co., Baltimore, WBAL.

SATEVEPOST STORY LAUDS LONE RANGER

THE Lone Ranger, most widely broadcast program on the air, orig-inated by WXYZ, Detroit, was the subject of a feature article in the Oct. 11 issue of The Saturday Evening Post, written by J. Bryan III, associate editor. Titled "Hi Yo, Silver", the article is the first behind-the-scenes story of the origin and development of the King-Trendle feature and marks the first time the celebrated weekly has devoted a special article to a single radio program.

The story is profusely illustrated with photographs, one of which is the first out-of-character picture of Earle Graser ever released for pub-lication. Graser plays the Lone Ranger role on the air.

The article relates how the Lone The article relates now the Lone Ranger program was conceived by George W. Trendle, president of King-Trendle Broadcasting Corp., owners of WXYZ, and traces its meteoric success. Fran Striker, au-thor of the serial, is described as America's most prolific writer. Mr. Bryan spent several days in De-troit interv.ewing Messrs. Trendle, Striker and Graser, and other mem-bers of the WXYZ staff to procure first-hand information.

Two years ago Life Magazine devoted a two-page spread of pictures to the program activities of WXYZ, with particular emphasis on the Lone Ranger.

Macfadden Dispute

ARGUMENT over censorship between Bernarr Macfadden and NBC [BROADCASTING, Oct. 1] continued right up to and past the final broadcast of True Story Time on the Blue network, Oct. 3. Script submitted for the final program submitted for the infal program contained a discussion of neutrality which NBC rejected as controver-sial and so improper on a commer-cial broadcast. Network, however, offered the publisher a sustaining spot the following evening in which to air his views. When Mr. Mac-fadden, who was confined to his bed with injurise exclaimed in an auto with injuries sustained in an auto accident, found he would be unable to come to the studio, NBC offered to run lines to his bedside or to provide an announcer to read the message, but these offers were declined and the program cancelled.

Bauer & Black Test

BAUER & BLACK, New York (medical supplies), off the air for the last year, has returned with a half-hour Saturday night quiz show on WCCO, Minneapolis, ti-tled Quiz of Two Cities. Copy pro-motes all of the firm's products and as many individual small items are as many individual small items are derstood from reliable sources that should the WCCO test prove successful the show will be extended to a national network. Ruthrauff & Ryan, Chicago, handles the account.

Spots for Broadway Shows ANNOUNCEMENT advertising for two current Broadway productions has been placed on New York sta-tions by Donahue & Coe. of that city. For "Abe Lincoln in Illinois" spot announcements emphasizing the new price scale, with tickets at \$1 top. are used on WQXR and WEVD. "The Little Foxes", sophisticated comedy, is plugged in announcements broadcast Saturdays on WOR immediately pre-ceding the football broadcasts.

7th Anniversary!

Pioneer News Editor of the Southwest!

Seven years and yet a "granpappy" as far as radio news is concerned! Ken Miller, KVOO News Editor, came to KVOO in 1932, with a complete background of newspaper experience, most of it gained on the City Desk. Ken fought the battle of early day news gathering and helped in the formation of radio's own news gathering agencies. He has had a hand in every major development in radio news, serving once as Vice President of the Association of Radio News Editors and Writers.

Today, Ken Miller's News has the largest audience of any feature offered by Oklahoma's Most Powerful Station. A few words from Ken and the mail pours in. His latest offer, a colored war map for 15c, swamped the KVOO Mail Department with thousands of letters.

The KVOO News Department is the only one in Oklahoma carrying the full, daily wire reports of International News Service and the only News Department in the Southwest carrying both International News Service and Trans-Radio Press Service, as well as maintaining its own State Capital Bureau. Whether it be with news or some other feature, cover Oklahoma's Greatest Market through KVOO. 25,000 watts. Unlimited time. Both N. B. C. Networks.

O & M CHIEF ENGINEERS of CBS met in New York headquarters late in September for their annual conference with their chiefs. Front row (1 to r): W. B. Lodge, engineer in charge of radio frequency division; Henry Grossman, eastern division operations engineer; Frank B. Falknor, central division operations engineer; E. K. Cohan, director of engineering; A. B. Chamber-lain, chief engineer; L. H. Bowman, western division operations engineer. Second row (l to r): G. L. Davis, KMOX, St. Louis; J. L. Middlebrooks, engineer in charge of transmitter construction; J. J. Beloungy, WBT, Charlotte; J. M. Tiffany, WKRC, Cincinnati; P. K. Baldwin, WEEI, Boston; H. A. Chinn, engineer in charge of audio frequency division; H. S. McCartney, WCCO, Minneapolis; J. D. Parker, network engineer-ing assistant; G. C. Hutcheson, engineering assistant, radio frequency division; C. M. Hutch of WISV, Wash radio frequency division; C. M. Hunt, of WJSV, Wash-ington outlet for the Columbia network.

Dole Staff Named

Dole Staff Named HAWAIIAN PINEAPPLE Co., San Francisco (Dole Pineapple Juice & Gems), on Oct. 11 replaced Phil Baker's Honolulu Bound with Al Pearce & His Gang on 63 CBS stations, Wednesday, 8-8:30 p.m. (EST), with West Coast repeat, 9-9:30 p.m. (PST). Bradford Browne, recently transferred to Hollywood from the New York of-fice of N. W. Ayer & Son, agency servicing the account, is producer of the weekly program. He handled the show for N. W. Ayer during its Ford sponsorship. Ben Ward, man-ager of the agency's Hollywood of-fice, is director. Bruce Fouche is in charge of publicity. Writing staff includes Monroe Upton, for many years with Pearce; Art Phillips, formerly scripter for Jack Benny and Jack Haley; and Don Prindle, who wrote comedy for the recent Joe Penner radio series. Jack Hasty continues to write the *Eb & Zeb* sketches. Beside Pearce, the cast includes Billy House, comedian; Don Reid, tenor, and Bill Wright. artist is featured each week. H. L Carl Hoff has the orchestra. A guest artist is featured each week. H. L. McClinton, head of N. W. Ayer & Son, New York radio department, was in Hollywood for start of the series.

General Foods V-P's

GENERAL FOODS SALES Co., New York, has named four new vice-presidents, each to have charge of the merchandising of a group of the company's products, as follows: Mrs. E. B. Myers, former director of the consumer service department, merchandising manager of Calumet Baking Powder, Swans-down Cake Flour, Sanka, Kaffee Hag, Certo and Sure-Jell; Clarence Hag, Certo and Sure-Jell; Clarence E. Eldridge, formerly a vice-presi-dent of Young & Rubicam, New York, merchandising manager of Post-Toasties, Post's Bran Flakes, Grape-Nuts and Flakes, Huskies, Whole Bran Shreds and PostO; Ray M. Schmitz of the merchandising department, manager of Jell-O, Jell-O ice cream mix and powder, Minute Tapioca and Minute Puddings; and James Ingram 3rd, for-mer assistant to the vice-president in charge of sales planning, mer-chandising manager of Instant Pos-tum, Postum Cereal, La France, Sa-tina and Log Cabin Syrup.

Fly Praises Industry for War Policy; **Record in WMCA Proceeding Studied**

COOPERATION of the broadcasting industry since the outbreak of hostilities abroad was described Oct. 9 as "an excellent example of industrial self-regulation" by FCC Chairman James Lawrence Fly.

Discussing the neutrality situa-tion in general, the FCC Chairman said the Commission was observing closely all phases of radio and communications activities and was generally gratified over the status of industry activity. Efforts of licen-sees of international broadcast stations to draft their own self-regulation code as a means of avoiding unneutral acts, also were cited by

the Chairman. Meanwhile, the FCC was studying testimony in the case involving revocation proceedings against WMCA, New York, for alleged vio-lation of the Communications Act in connection with purported interception of code messages from Gerception of code messages from Ger-many or Great Britain [BROADCAST-ING Sept. 15]. Because of the ab-sence from the city of several members, it was doubted if formal action would be taken before the Oct. 17 or 24 meeting.

Studying the Record

The record adduced at the all-day hearing Sept. 27, at which WMCA categorically denied wilful violation of the statute, is being studied by members. Little likelihood of drastic action is foreseen, based on the rec-ord, although a sharp warning to stations and possibly a reprimand to WMCA are possible.

It is understood several members of the Commission felt strongly on the matter. Based on the record, however, actual revocation proceedings were considered too extreme. There is the possibility, however, that the entire matter, including the *Herald-Tribune* participation as the actual operator of the equip-ment which intercepted the transmissions, might be turned over to the Department of Justice for further study and possible prosecu-tion. The question to be determined is whether there actually was a technical violation of Section 605 and if that is affirmatively determined, whether the FCC has any discretion under the statute itself.

In some official quarters, it was felt the worst accusation against felt the worst accusation against WMCA was that it exercised bad judgment and that the "scoop" trade paper advertising was ill-advised and inaccurate. Since the original citation, the war hysteria has subsided considerably insofar as radio is concerned, by virtue of voluntarily imposed self-regulation within the industry. Consequently, feeling has bogged down considerably, particularly since there have been no diplomatic complaints, so far as known, because of the purported interceptions.

Published reports of the internal fighting and seething controversy in the FCC have been disclaimed by Commission members. Since Chair man Fly took office Sept. 1, it is reported, internal activities have been harmonious, although there have been expected differences on policy matters. Any semblance of a "crack down" attitude on the part of the FCC insofar as the broad-casting industry is concerned, like-wise was disclaimed. It was reiterated that there is no intention on the part of the FCC to invoke neutrality regulations unless there is provocation.

After Radio

THE SHOW must go on, but radio comes first. At least that's how it works out on Broadway this fall. "See My Lawyer," starring Milton Berle, has moved its Saturday evening curtain time up from 8:45 to 9:15 because Mr. Berle is also starred on the Quaker Oats Co. program Stop Me if You've Heard This One on NBC-Red from 8:30-9 p. m. Saturdays. Simil-arly, "Streets of Paris" is delaying its opening time on Fridays so that Abbott and Costello, who are in the revue's opening scene, may retain their spot on the last quarter-hour of Kate Smith's Variety Hour, on CBS from 8 to 9 for Grape Nuts.

Plans to Build Studios In San Francisco Are Again Pondered by NBC WITH transfer of A. E. Nelson, formerly NBC New York sales manager of the Blue Network, to San Francisco as manager of KPO-KGO, [BROADCASTING, Oct. 1], plans have been revived for the building of new executive offices and studios in that city. This was revealed in early Oc-This was revealed in early Oc-

tober when Mr. Nelson, enroute to San Francisco, spent several days in Hollywood conferring with Don E. Gilman, NBC western division vice-president. Several locations in downtown San Francisco have been scanned, but the most likely site is that on the corner of Stockton and Sutter Streets. Present San Francisco studios have been housed in the 111 Sutter St. Bldg. for 12 years and are the oldest now in use by NBC. Setup is obsolete, and NBC executives believe it advisable

NBC executives believe it advisable to erect a new plant rather than revamp the present quarters. Lloyd E, Voder, formerly man-ager of KPO-KGO, was scheduled to take over his new duties as man-ager of KOA, Denver, on Oct. 15. Robert H. Owen will remain as assistant manager. Mr. Nelson, at one time, was manager of KOA.

New Technical Building Planned by KFI-KECA Planned by **NFI-NEUA** A NEW BUILDING to house the engineering and research division of KFI-KECA, Los Angeles, is be-ing erected in the rear of the for-mer KEHE quarters at 141 N. Ver-mont Ave., now owned by Earle C. Anthony Inc. That firm, by FCC approval, recently bought the fa-cilities of KEHE from Hearst Ra-dio and took over Aug. 1.

dio and took over Aug. 1. The new building, scheduled to be occupied by Dec. 15, is an addi-tion of 3,000 square feet to the tion of 3,000 square reet to the main structure, according to Har-rison Holliway, general manager. Former KEHE studios and execu-tive offices are being remodeled to fit needs of KFI-KECA, and all technical equipment is being revised for both stations at the new plant. A complete modernization has been ordered throughout, Mr. Holliway said. KFI-KECA for many years has been located in the Earle C. Anthony Bldg., 1000 S. Hope St.

New WCNC on the Air

New WCNC on the Air THE new WCNC, Elizabeth City, N. C., authorized last June by the FCC to operate with 100 watts day-time on 1500 kc., made its debut Sept. 26 under the managership of Trim W. Aydlett, local barrel and package manufacturer, who with Aubrey G. McCabe, vice-president of the Norfolk & Caro-lina Telephone Co., owns the sta-tion. It is Western Electric equipped throughout, with a 180-foot Blaw-Knox radiator. Staff members are Nathan Frank, com-mercial mauager; Paul O. Moyle, program director; Louis Highland, chief engineer; Ed Bray, Louis Bigsbee and Frank Facenda, an-nouncers; Jack Siegel and Nick Pieler, engineers.

WHEN Cardinal Mundelein of Chica-go died Oct. 3. CBS and NBC aired network memorial services. WBBM, Chicago. aired the Pontifical Requiem High Mass Oct. 6 for 45 minutes and NBC-Red network broadcast a full hour of that day's services.

Sales of Networks **Breaking Records**

Gain of 13.9% Is Shown for First Nine Months of 1939

CONCLUSION of the third quar-ter leaves no doubt that 1939 will be another record breaking year for network advertising. Cumula-tive gross time sales of the nation-wide networks for the first nine months show \$58,934,734, a gain of 13.9% over \$51,752,511 for the same period of 1938. For Septem-ber, combined billings for time of MBS, CBS and NBC totaled \$6,091,142 as c om pared with \$4,781,338 for September 1938, an increase of 27.4%. For the third consecutive month

increase of 27.4%. For the third consecutive month CBS showed the largest gain, both in dollars and percentage. From \$1,601,755 in September 1938, CBS billings rose to \$2,565,246 for the same month this year, a rise of 60.2%. For the year to date, CBS billings total \$24,167,548, a climb of 21% from the January-Septem-ber 1938 total of \$19,975,532. NBC time sales for September

NBC time sales for September totaled \$3,315,307, of which time on the Red network was billed at \$2,648,892 and time on the Blue at \$2,648,692 and time on the Bide at \$666,415. Compared to the \$2,979,-241 total for September 1938, NBC shows a gain of 11.3%. Cumulative totals of \$25,121,002 for the Red and \$7,389,367 for the Blue give an and \$7,389,367 for the Blue give an NBC cumulative sum of \$32,510,-369 for the year to date, 8.7% ahead of the \$29,902,724 time sales for the same period of 1938. Mutual, with time sales of \$210,-589 during the month, was 5.1%

589 during the month, was 5.1%ahead of the same month of last year, when the total was \$200,342. For the nine-month period MBS shows a total of \$2,256,817 worth of time sold to advertisers, 20.4% better than the total for the first three-quarters of 1938, which was \$1,874,255.

NBC Revising Rates

NEW RATE CARDS for the NBC owned and operated stations, with local rates adjusted to conform to the new network rates, are being prepared by the network, with the first to be issued about Nov. 1. Cards will be issued singly, it was said.

TALKING THINGS OVER, this trio is generally recognized as one of the keenest production groups in radio. They get together every week to discuss and plan the *Kraft Music Hall* program on NBC-Red, Thursday nights, sponsored by Kraft Phenix Cheese Corp. They are (1 to r) Carroll Carroll, writer; Bob Brewster, producer and director; Bing Crosby, star. Carroll and Brewster are with J. Walter Thompson.

AWAKENING BOSTON'S DRUGGISTS A Three-Month Institutional Drive Quickly -Convinces Them of Radio's Value-

By J. BAIN THOMPSON Division of Drug Merchandising WEEI, Boston

IN GREATER BOSTON there are over 1,100 retail drug stores with an annual business running into the millions. It is traditional that the pharmacist regards himself first as pharmacist regards himself first as a professional man, like the doctor or the dentist, and secondly as a business man. For many years I have been associated with the retail druggists of Greater Boston and I have never known of a group of men who adhered so strongly to this tradition. You will, therefore, un-derstand what a job it meant for me to awaken this group to the pos-sibilities of advertising. My whole campaign of education

My whole campaign of education was centered on the Boston Asso-ciation of Retail Druggists which comprises a membership of approximately 400. In this group there fortunately were some who were progressive in spirit and could see the advantages of using modern merchandising methods as applied to their own sales problems. The whole purpose of my campaign was to arouse the druggists to the realization that through the medium of the radio they should send their message of good will and education-al philosophy.

Three-Month Drive

Our sales and merchandising plan was finally adopted and a three-month campaign was started, WEEI was named as the official station of the association in Boston and our broadcasts started in the early spring.

The program was titled Your Neighborhood Druggist Calling and ran for 15 minutes every Satur-day morning at 10 o'clock, with the spokesman known as "The Voice of the Druggist." From the very first broadcast our purpose was to educate the community patron as to what his neighborhood drug store meant to him—that it was not just a place to buy a soda or a lipstick but a laboratory where an experi-enced pharmacist compounded those medical remedies as prescribed by the family doctor.

We supplied every member of the

association with a large flyer call-ing attention to the program, which he put up in his store windows and inside. We also instructed clerks to boost the program, to listen in, and to tie in with the broadcasts. It was agreed there was to be no technical discussion of the drug business nor any druggist member or drug manufacturer on the program.

We put on a special broadcast for Mother's Day, which the president of the association informed us brought fine sales results. Our pro-grams dedicated to Memorial Day and to Father's Day brought hunand to Father's Day brought hun-dreds of expressions of appreciation to the druggists. The same was true of the program we put on for the Children's Hospital, the New Eng-land Peabody Home for Crippled Children, the Boys Clubs of Bos-ton, the Perkins Institute for the Blind, the Disabled American Vet-erans, the Veterans of Foreign Wars and other like worthy pur-poses. We broadcast appeals for blood transfusions, and we made poses. We broadcast appeals for blood transfusions, and we made this program widely discussed throughout Greater Boston. The president of the association wrote us again voluntarily that during the three-month period of the broadcast campaign his member-ship reported satisfactory increases in business. We have congratula-tory letters from public officials and hospitals of Greater Boston. En-thusiastic reports come from na-tional drug advertisers and wholetional drug advertisers and whole-sale drug distributors.

Your Neighborhood Druggist Calling was widely commended by local newspapers for its splendid public service to the mutual benefit of the druggists, the radio industry and WEEI.

Lou Gehrig Serial

WHN, New York, has prepared a script serial titled *Our Coach* for com-mercial sponsorship starring Lou Gebrig, recently retired captain of the New York Yankee's baseball team, with Dick Fishell, WHN sportscaster, as co-producer. According to WHN, the quarter-hour program is ready for sponsorship on that station with addition of other stations, if desired.

CHAIN BREAK PLEA AROUSES CONCERN

NEW REQUESTS from network advertisers that stations accept gratis chain break announcements have tended to revive feeling among network outlets against this practice.

The latest request, from Wade Adv. Agency, placing the Alka-Seltzer National Barn Dance, has caused concern, and probably will be discussed by Independent Radio Network Affiliates Inc. with the Network Affiliates Inc. with the major networks. The platform and principles adopted by IRNA in Chi-cago Sept. 14 specify that affiliates regard station breaks as station time. The platform specifies that networks should provide station breaks of at least 20 seconds be-tween all separate program units, whether sponsored or sustaining, specifically including consecutive sponsored programs of an adver-tiser, whether or not time is pur-chased for programs singly or in bulk. bulk.

bulk. The Wade letter, apparently sent to all NBC Blue stations carrying the National Barn Dance, stated that the client would like the sta-tions to accept a chain break an-nouncement between the first and exceed holf hours of the Allennouncement between the first and second half-hours of the Alka-Seltzer program "without charge, i.e., when you identify your station we would like to have you give a short chain-break announcement for Alka-Seltzer of some 20 to 25 words."

WEEI, WJSV Rates

RATE CARDS for two more CBS RATE CARDS for two more CBS owned and operated stations, WEEI, Boston, and WJSV, Wash-ington, have been issued. WEEI's base rate of \$425 per evening hour jumps to \$475 on Oct. 15, when the new schedule becomes effective. Base rate for WJSV will rise from the present \$300 to \$375 when the station goes on the air with its in-creased power to 50 km probably creased power to 50 kw., probably about the first of the year. New rate schedules for WABC, WBBM, WCCO, WBT and KMOX went into effect Oct. 1 [BROADCASTING, Oct. 1].

Luden's Big Campaign

LUDEN's Inc., Reading Pa. on Oct. 16 started a 20-week campaign for cough drops using quarter-hour news programs, weather reports, station-break announcements and one-minute spot announcements on 55 stations throughout the country. J. M. Mathes, New York, is the agency.

Sept. Billings in Chicago

Sept. Billings in Chicago A NEW September high in network and local billings was reached by five Chicago stations, according to an an-alysis recently made by Wayde Grin-stead, sales promotion manager of WBBM, Chicago. More than 1,000 quarter-hour units were sponsored on the five stations, with 505 of the quar-ter-hour units falling in the non-net-work classification, Mr. Grinstead found. The September billings were higher than any month during 1938, the analysis showed. Stations included in the survey were WBBM WLS WENR WMAQ WGN.

Christmas Tree Series

Christmas Tree Series STAR RADIO Programs, New York, has released its fourth annual Christ-mas series, *The Christmas Tree of* 1939, complete in 25 half-hour scripts. Audition continuity is included in a sales brochure bound in color for pre-sentation to prospective sponsors. The series was written by Lawrence N. Marks and requires only one man for production. production.

Deadline Expires, Rate Scale

Declared to Be in Effect WITH deadline set by AFRA for WITH deadline set by AFRA for settlement having expired, Los An-geles Chapter on Oct. 1 made known to local stations in the Los Angeles and San Francisco areas that rate scales and conditions, as incorporated in the proposed local code, are now in effect. With this notification, local stations were in-vited to negotiate, and several have indicated willingness to bar-reain it screntrad gain, it is reported.

The advertising agency committhe advertising agency commit-tee, headed by Naylor Rogers, for-merly of Raymond R. Morgan Co., Hollywood, recently notified the Los Angeles Chapter that it was un-able to represent the local stations because of a "lack of cooperation". because of a "lack of cooperation". Upon receiving this information, AFRA immediately set up scales and conditions for those not al-ready covered by regional negotia-tion. A copy of the terms and conditions for regionals, which were agreed upon by AFRA and the agency committee some weeks age were sent to all local stations ago, were sent to all local stations. Along with this was a classification of local stations and applicable rates which have been proposed by Los Angeles Chapter.

Some Rates in Effect

AFRA already has in working effect the commercial rates for act-ors, singers and announcers for all networks. This includes regional commercials for this group on NBC and CBS. It also has signed sustaining pacts, covering national, regional and local schedules, with NBC, CBS and Mutual network, as well as with KFWB, Hollywood. A staff contract for KNX, Hollywood, has also been completed.

Negotiations with Don Lee Broadcasting System, for KHJ, Los Angeles, and KFRC, San Francisco, and the regional network, got cisco, and the regional network, got under way Oct. 1 and were ex-pected to be consumated shortly. AFRA has also started negotia-tions with Harrison Holliway, gen-eral manager of KFI-KECA, Los Angeles. There still remain several other stations in the San Francisco and Los Angeles areas to be con-tacted and executives of AFRA expect that negotiatons will be in

expect that negotiations will be in full swing before the end of Oc-tober, with many signed. Los Angeles Chapter has ap-pointed a new executive committee to act as steering body in handling organization business for various organization business for various classifications. Members are Wil-liam Brandt, James Eakins, Thomas Freebairn Smith, Edward Arnold, Ted Bliss, Georgia Fifield, Lucile La Pointe, and Fred Shields, president of the Chapter. I. B. Kornblum, executive secretary and attorney of Los Angeles Chapter, is an ex-officio member. The AFRA board of directors has authorized release of KNX.

has authorized release of KNX, Hollywood, staff writers to Radio Writers Guild of America. Only provision is that RWG comply with terms of assignment by showing it represents majority of the sorie it represents majority of the scripters and is prepared to assume all duties imposed by writers upon AFRA. Combination writers who double as producers, announcers or actors, are not included in the agreement. Jurisdiction over the latter group has not been settled, but amicable settlement is seen.

AFRA Negotiates AFRA and AFM Wage Feud in Chicago; Proposed Single Union On Pacific Coast Recording Code of AFRA Nearly Ready

CHICAGO recording companies and stations have become spectators in another jurisdictional scrap between American Federation of Radio Art-American Federation of Radio Art-ists and American Federation of Musicians, both AFL affiliates. Dur-ing the week of Oct. 2, James C. Petrillo, head of the Chicago Fed-eration of Musicians, sent local recording companies telegrams stating that all recorded programs using AFM musicians must be an-nounced by AFM announcers. As BROADCASTING went to press, Chiing cago recording firms were recording

cago recording firms were recording as usual, for their executives con-sidered their firms outside the union jurisdictional dispute. Background of the controversy is this: For the last two years, WBBM, Chicago CBS station, has employed announcers who are mem-bers of AFM to handle WBBM as-signments. Since last March, an agreement with AFRA to use AFRA announcers on CBS-Chicago originations has been in effect. Script shows originating at WBBM-CBS are announced by AFRA mem-bers. bers.

Mostly Script Shows

On Sept. 26, the CBS program, We the People originated in Chi-cago and was announced by Har-ry Von Zell, who had to return to New York soon after the first net-New York soon after the first net-work show. The repeat broadcast was about to go on when it was learned that the assignment had been given to Jay Sims, a WBBM staff announcer and member of AFM. On AFRA's objection, the program was finally announced by Franklyn McCormick, a member of AFRA. On Oct. 4, the Paul White-man show, *Chesterfield Hour*, origi-nated in Chicago and Tommy Bart-lett, a member of AFM, announced the program.

lett, a member of AFM, announced the program. It is understood that national of-ficials of AFRA wanted to take over the AFM contract with WBBM but Mr. Petrillo refused. He then sent his ruling to the recording companies including World Broad-casting System, NBC (formerly RCA-Chicago), and Blackett-Sam-ple-Hummert, whose Chicago office does considerable recording. Almost all recording done in Chi-

Almost all recording done in Chicago is dramatic script show tran-

OPENING day of the hunting sea-son, Col. W. E. Whitmore, owner of KGFL, Roswell, and KWEW, Hobbs, N. M., killed this antelope.

scribing and very few dance band recordings are made. This resulted from a Chicago AFM ruling some from a Chicago AFM fulling some years ago that recording artists in Chicago must either be members of the Chicago AFM or that stand-bys be paid for. Since few travel-ing dance bands belong to the Chi-cago Federation of Musicians and standbys are costly, few records

have been made. Most of the script shows carry no music except organ music and the majority of script shows cut in Chicago recording studios omit the organ music which is played and filled in at the various stations receiving the transcriptions. Since no dance band recordings carry announcements, it is difficult to follow the logic of the AFM ruling, ac-cording to the industry viewpoint. The recording firms employ no ra-dio talent and their contracts with AFM are national and involve no announcers. No Chicago recording company has local contracts with either AFM or AFRA. As the matter stands, agencies bringing shows to the recording companies are referred to Mr. Petrillo in those cases where music and announcers are used on the same transcription.

Code About Ready

Meanwhile, the local AFRA sit-uation remains the same [BROAD-CASTING Oct. 1] with no arbitra-tion board set up to rule on the dispute between the broadcaster-agency committee and local AFRA officials. From AFRA's point of view a code was agreed on, then dis-puted and the arbitration commit-tee would arbitrate this code. From tee would arbitrate this code. From the committee's point of view, no contract is in existence to arbitrate and even if a board were set up it would have nothing to arbitrate. It appears that the local dispute will not be settled until 1941 when the network AFRA contract expires and the local situation will be dealt with when the national contract is signed.

The code for artists employed in the manufacture of transcrip-tions, which has been in prepara-tion by AFRA for some months, should be ready for presentation to the transcription comparison in the the transcription companies in the near future, according to George Heller, assistant executive secre-tary of the talent union. He de-clined, however, to set any more definite date for the announcement of the union demands or to divulge any details of wages or conditions to be specified.

CBS Leases 4th Theatre

RITZ Theatre, 219 W. 48th St., New York, has been leased by CBS as the network's fourth theatre studio for the presentation of audi-ence shows. The theatre seats 820 ence shows. The theatre seats 820 people, and was first used by CBS for the *Gay Ninetice Revue* on Oct. 14. It will be the scene of the Tues-day evening broadcasts of Walter O'Keefe's *Tuesday Night Party*, sponsored by Lever Bros. for Life-buoy soap. Renovation of the Juil-liard Bldg. across the street from CBS New York headquarters, which the network nurchesed lest which the network purchased last spring, is progressing rapidly, CBS reports. When the alterations are completed the building will contain two large studios, seating 300 apiece, and a number of smaller studios.

Of Actors Said to Solve **Television** Jurisdiction

THE PROBLEM of television jurisdiction, which has been a head-ache to various competing groups in Associated Actors & Artistes of In Associated Actors & Artistes of America, is now expected to be definitely settled with formation of one big union for actors. Under terms of the proposed setup of a single organization, all jurisdic-tions in actor fields, including tele-vision, will automatically come un-der one head der one head.

At present television control is in the hands of the international body of AAAA. It was tentatively placed there several months ago during the dispute between Screen Actors Guild, Equity and American Federation of Radio Artists. SAG opposed the Equity move for con-trol of television. It maintained that Equity was numerically the smallest of the AAAA groups. SAG, with more than 7,000 mem-bers, claimed precedence over the television field, with AFRA next in line by reason of its direct con-

tact through radio. SAG also raised the argument that since television is a combination of radio and motion pictures, it had at least 50 per cent equity in its jurisdiction. In case of a showdown, SAG and AFRA at that time entertained the thought of merging forces and outvoting Equity on the issue. With a single Equity on the issue. With a single organization as planned, this dis-pute will be settled for all time, Hollywood members of SAG and AFRA believe. They pointed out that a single organization will do away with

multiple dues and establish a basic system with one membership card. Under the setup being worked out by AAAA committees, the per-former is to be given free choice in establishing his primary occupain establishing his primary occupa-tion and also assurance of auton-omy in all local branches. There are to be joint offices in larger cities and the right to discipline members will be given to local chapters. Still to be worked out is the question of a common treasury. This has been previously opposed by SAG and other AAAA groups on grounds that it would not be feasible.

Reynolds Begins Pair

R. J. REYNOLDS TOBACCO Co., Winston-Salem, N. C., has started Albert smoking tobacco, both for regional distribution of the product. First program is Casey at the Mike, a quarter-hour sports program feaa quarter-nour sports program fea-turing Eddie Casey, which started Oct. 7 and is heard thrice weekly on 18 Yankee Network stations. The other program, *Grand Old Opry*, has been heard locally on WSM, Nachville for the locat Nashville, for the last ten years, and on Oct. 14 started on a south-ern network of 24 NBC-Red sta-tions, Saturdays from 10:30 to 11 p. m. Agency on the account is Wm. Esty & Co., New York.

P & G on WOR

PROCTER & GAMBLE, Cincin-PROUTER & GAMBLE, Cincin-nati (Teel liquid dentrifrice), has started the five-weekly quarter-hour afternoon disc show Kitty Keene on WOR, Newark, H. W. Kastor & Sons Adv. Co., Chicago, handles the account.

GATES

"20 SERIES" SPEECH CONSOLE EQUIPMENT

Typical 20 series console installation at CKTB, St. Catherines, Ont., Canada

RAPID calculation of the 20 series Console features is difficult as in this popular Gates speech equipment will be found feature after feature either not prevailing in or improved upon in other similar equipment.

20 series popularity is best exemplified by its large number of users plus being chosen by four leading Universities this year for student instruction in operation of the latest in broadcasting equipment.

The moderate price will surprise you.

FCC Granted Test Of Court's Power Will Review Pottsville Case:

Petition of WOW Denied

WHETHER the U.S. Court of Appeals for the District of Columbia has been "usurping" the adminis-trative powers of the FCC will be determined by the U. S. Supreme Court, which on Oct. 9 granted the Government's petition for a writ of certiorari in the so-called Pottsville case

The highest tribunal, at the same The highest tribunal, at the same time, refused certiorari on the pe-tition of WOW, Omaha, from the FCC ruling granting WKZO, Kala-mazoo, fulltime operation on the 590 kc. frequency. The court as-signed no reasons for denial of the petition, which raised technical questions.

Extent of FCC's Power

In the Pottsville case, the De-partment of Justice and the FCC had asked the highest court to re-view the action of the Court of Appeals in mandamusing the FCC to reconsider its denial of the application of Pottsville Broadcasting Co. for a new station in Pottsville, Pa. The question, the FCC con-tended, was whether the lower tribunal has power to issue a writ of mandamus to compel the Commis-sion to reconsider the Pottsville application on the original record and without regard to subsequent ap-plications. It held that the lower court's action is "an unwarranted invasion of the administrative field and that it overrides the basic purpose of the licensing requirements of the Communications Act of 1934."

A similar issue is involved in the so-called Heitmeyer case in which the Appeals Court reversed the FCC action denying a new sta-tion in Cheyenne, Wyo., and or-dered a new hearing on the orig-inal record. The Supreme Court has not yet acted on this petition. It is expected the Supreme Court will schedule the Pottsville arguments in December, after which briefs will be filed.

Also pending before the court is the petition for certiorari of WLW, Cincinnati, from the action of the lower court in sustaining the FCC's decision withdrawing au-thorization to continue operation with 500,000 watts.

Some 30 separate radio cases now are in litigation, of which all, save the three pending in the Supreme Court, are before the Court of Appeals.

Min-It Rub on 8

BRISTOL-MYERS Co., New York, on Oct. 2 began sponsorship of S i d n e y Walton's thrice - weekly newscasts on WOR, Newark, from 4 to 4:15 p.m. as part of the company's news campaign for Min-It Rub on eight stations. The news period is sponsored Tuesdays, period is sponsored Tuesdays, Thursdays and Saturdays, the other three week days, by Whea-tena Corp., Rahway, N. J., which on Oct. 16 will shift the WOR on Oct. 16 will shift the WOR schedule of newscasting to the 8-8:15 a.m. period Mondays, Wed-nesdays and Fridays with Mark Hawley. Young & Rubicam, New York, is the agency for Min-It Rub, and Compton Adv., New York, handles the Wheatena account.

DEPARTMENT STORES RENEW On KSTP Because Salesmen Keep Close Track

-Of Department Heads' Problems

SELLING department stores does

not present any special problem to KSTP, St. Paul, according to Sales Manager Ray Jenkins, who has outlined a definite policy for all salesmen calling on that type of

business. As a result of its department store sales policy, KSTP has re-ceived repeated renewals from

Mr. Jenkins the leading retail firms of Minneapolis and St. Paul. On the air now are the Golden Rule and Shunemans & Mann-heimers of St. Paul, Donaldson's and Powers of Minneapolis, as well as the big Montgomery Ward re-tail store situated in the Midway district. The radio time per store runs between a quarter-hour to a half-hour daily plus special announcements on sales.

Not Far Enough

"The average salesman," says Mr. Jenkins, "merely limits himself to the advertising manager. He calls on him with an idea, talks about coverage and the benefits of radio advertising, leaves him a rate card and departs when the man-ager says he'll think it over. But nothing happens and the same procedure is repeated on subsequent calls.

"Our salesmen, however, go into a store with the knowledge that each individual department buyer, as well as the advertising manager, has a part in the ordering of ad-vertising. In fact the advertising head is merely a buyer himself, working for the individuals who tell him what they want to pro-mote. He is simply their clearing house.

"It is these department heads who spend the store's money, and

FACED with a serious emergency when the line between the studio and transmitter was hit by lightning and put out of commission, along with telephone lines and aux-iliary wires between the two points, WIS, Columbia, S. C., made good use of its transcription cutting equipment in saving several of its network features for listeners.

Although all communication between studio and transmitter was cut, the NBC network line remained intact, and was fed directly to the studio. G. Richard Shafto, WIS manager, after dispatching an announcer to the transmitter to hold the air with a news program on the emergency mike, phoned New York and received permission from advertising agencies and NBC to record the network programs and commercial shows as they came up while studio-transmitter lines remained out. Proceeding with the transcription process, the station carried its network programs, via recordings, only 15 minutes behind schedule.

so when a KSTP salesman visits a store he contacts each individual buyer and assistant buyer, telling his story to them, and keeping them informed through attractive mailing pieces."

Mr. Jenlins himself is a firm believer that radio is an inexpensive (from the standpoint of cost per listener) and necessary adjunct to department store advertising. He points out that department stores can carry their sales messages not only to those who reside in the area where the store is located, but also to those in surrounding, territory, reaching a potential trad-ing area that is rich and worthy of cultivation without the use_of numerous newspaper outlets. The veteran sales manager, who began an immediate and successful drive on department stores when he came to KSTP four years ago, also stresses radio's flexibility, which permits last minute changes in copy, prices or store policies to be-come immediately effective.

The Speed Factor

"Radio is geared to department store procedure," Mr. Jenkins de-clares. "Weather changes can be quickly capitalized when the time element is vital to the successful promotion of sales. Speed is also an important factor in successfully and quickly meeting competitive conditions.

"Then, too, by proper timing, the department store's radio broadcast can reach the housewife when she is planning her day's shopping. Evening programs can be directed at family groups when the pur-chase of larger units of merchandise, such as furniture, rugs and major appliances, can be discussed and decisions made. Thus by care-fully selecting the time of day for the broadcast, by directing the ap-peal to one type or another, the department store can reach the greatest number of people who are logically the best prospects for their various departmental promo-tions. By thoughtful and intelligent planning, the program appeal can be directed to certain income groups, to individuals or to family groups."

Loose-Wiles Spots

LOOSE-WILES BISCUIT Co., Long Island City, New York, on Oct. 16 will start a campaign for Sunshine Krispy Crackers using a half-hour program weekly on Malf-hour program weekly on WBBM, Chicago, titled the Satur-day Sunshine Parade, and the thrice-weekly quarter-hour tran-scribed series The Adventures of Pinocchio on WWJ, Detroit. On Oct. 23, the company will start a quarter-hour transcribed program Uncle Jimmy five times weekly on KWK, St. Louis, KOIL, Omaha, and WMC, Memphis. Newell-Em-mett Co. of New York is the agency.

NORTHROP & LYMAN Co., Toron-to (proprietary), on Oct. 2 started a thrice-weekly transcribed spot an-nouncement campaign on 29 Canadian stations. E. W. Reynolds & Co., Ltd., Toronto, placed the account.

SAM HAYES, NBC Hollywood SAM HAYES, NBC Holly wood commentator, with the new electric timing clock he recently invented and patented. The clock simpli-fies the job of radio directors in keeping their programs within al-lotted time limits, he declares. It tells at a glance how long the program has run and how much more time there is to go. He has been using the clock regularly on his daily quarter-hour NBC-Pacific Red network program, Sperry Break-fast News, sponsored by Sperry Flour Co. Hayes designed the clock without mechanical or electrical knowledge. He believes that it will eventually replace the stop watches now used in radio studios throughout the country.

Colgate in Canada

COLGATE-PALMOLIVE PEET Co., Toronto, (Super Suds, Palmol-ive Soap) started six weekly quarter-hour British United Press ive Soap) started six weekly quarter-hour British United Press newscasts on Oct. 1 to run till Dec. 31, 1940, on CFAC, Calgary; CJOC, Lethbridge, Alta.; CKCK, Regina; CFQC, Saskatoon, Sask.; CKBI, Prince Albert, Sask.; CJGX, Y or k to n, Sask.; CKGB, Tim-mins, Ont.; CKPR, Fort William, Ont.; CFCH, North Bay, Ont.; CJKL, Kirkland Lake, Ont.; CJCS, Stratford, Ont.; CFRB, Toronto; CKCW, Moncton, N. B.; CHSJ, St. John, N. B.; CFNB, Fredericton, N. B.; CHNS, Halifax; CKAC, Montreal; and Transradio News on CJIC, Sault Ste. Marie, Ont.; and for Super Suds only on CJOR, V a n c ou ver; CKY, Winnipeg; CFRN, Edmonton, Alta.; CHRC, Quebec; CJBR, Rimouski, Que. The account was placed by L. J. Haegerty & Associates, Toronto.

Empire State Promotes

NEW YORK STATE Brands & Trade Marks about Nov. 1 will start a promotion campaign for all state-produced farm products using participating home-maker type pro-grams on WSYR, Syracuse. Pro-grams will be tested on WSYR and later extended to other upstate cities. Products promoted will bear the Empire State seal of approval and will include potatoes, apples, grapes, tomatoes, etc. J. M. Mathes, New York, directs the account.

Crosley One-Timer CROSLEY DISTRIBUTING Corp., Cincinnati (radios and refrigerators). on Oct. 7 sponsored a special period on WEAF, New York, giving scores of major sports for the day directly after the Northwestern football game heard on that station. J. M. Mathes, New York, placed the account.

C. Nielsen Co., Chicago.

WKY-ADVERTISED FOR 4 YEARS

• Like the boy who in early spring dips his toes into the old swimming hole and then takes a run and a dive into the deepest part, Superior Feeds tested WKY's power to produce 4 years ago with a few announcements at market report time. Today, President B. C. Eddie says: "I wouldn't trade my radio advertising for all of the other available forms."

The rise from a nice selling item to the biggest selling commercial feed in the state ... a 1938 business 25 percent ahead of 1937 and a 1939 sales record 15 percent above 1938 ... 80,000 requests for a song sheet distributed through dealers would make one feel like that. For the bulk of the Superior Feed Mills appropriation is spent on the air ... over WKY. But WKY is geared to accomplishments like that. It has men who know the Oklahoma market and what its potential is. It has the machinery and talent to produce the kind of entertainment that appeals to the Oklahoma market ... and sells it. It employs methods of program production and merchandising cooperation that attract advertisers ... and keep them on the air.

Dominion Departments Permitted to Release Their News Separately CANADA has followed Great Britain's lead in allowing each Govern-ment department to disseminate its own news, as before the outbreak of war, an Ottawa dispatch states. The government information bu-reau which had been planned and which rumor said would be headed by L. W. Brockington, chairman of the Canadian Broadcasting Corp., has been temporarily set aside. The bureau was to have acted in conjunction with the cen-sorship board. Criticism in Great Britain against the Ministry of Information at London is understood to be responsible for the move in Canada. Under present arrangement, each

department hands out its news through a liaison officer or other spokesman and sends copies of such releases to the Canadian Censor-ship Co-Ordination Committee, headed by Walter S. Thompson. Cabinet news continues to come from the Prime Minister's liaison officer, Walter Turnbul, who was press liaison officer during the Royal Tour this past summer. As-sisting him to coordinate the news is George Hambleton, former Euro-pean correspondent for Canadian Press. It is understood there is some criticism among members of Parliament on the lack of news about Canada's war effort appearing on the air or in the daily press. With the change to pre-war conditions of allowing each department to issue its own news, this lack of news may be overcome.

Broadcasters have received a number of new censorship regulations in recent weeks, all confiden-tial and not for publication. The CBC staff at Toronto is flooded with requests to give talks. Permis-sion must be obtained for each radio talk under censorship regulations, although censorship of script is not necessary.

Ouebec Elections

ALTHOUGH strict censorship has been enforced on political broad-casts in the Quebec provincial elec-tion [BROADCASTING, Oct. 1], the commercial offices of the Canadian Broadcasting Corp., through which all network accounts must be booked, reports considerable activity in arranging small networks for election speeches on Quebec stations. All speeches are censored before being allowed on the air from a studio at which only the speaker and studio staff is present. There are no studio audience broadcasts nor broadcasts of political meetings at this election, which takes place Oct. 25.

New Quebec Station

CKVD, Val d'Or, Que., went on the air Oct. 16 with 100 watts on 1200 Ar Oct. 16 with 100 watts on 1200 kc. The station is owned by La Voix d'Abitibi. Fred Darling, for-merly manager of CKGB, Timmins, Ont., has been appointed manager, and Ed Ryan, formerly engineer at CKGB, chief engineer.

Met. Opera to Resume ALTHOUGH no definite starting date has been announced, NBC will broadcast again this year the Saturday afternoon operas from the Metropolitan Opera House in New York

WHEN Caroline's Golden Store, dramatized script show, started on CBS Oct. 9, Arthur B. Church, head of KMBC, Kansas City, and the produc-tion firm owning the program, held a cocktail party at Chicago's Palmer tion frm owning the program, held a cocktail party at Chicago's Palmer House. Snapped by Chuck Logan, of the publicity department of WBBM, Chicago, are (1 to r), George E. Halley, of Arthur B. Church Productions; Kirby Hawkes, of the radio department of Blackett-Sample-Hummert Inc., Chicago agency handling the show; Mrs. Caroline Ellis, writer and featured artist of the series; Dave Owen, head of production of General Mills (Gold Medal flour), sponsor of the program; Mr. Church; Harry Bingham, Mr. Hawkes' assistant; Fran Heyser, producer of the show.

HOW BIG IS RADIO? By M. L. GAFFNEY CBS Promotion Dept.

WE'RE talking here about a country, whose continental stretch ex-tends across one-eighth the earth's circumference. About its people-132 million people assembled here with equal rights under the law. Equal rights . . but as different as New York and Hawkins Hollow in their harder heritage of blood and brains and boodle.

Young people with strong backs and ambition? We've got millions of them. Established families, with or them. Established families, with homes and cars and ice-boxes all paid for? We've got millions of them. Pretty girls, with duty to pos-terity ahead? We've got millions of them. Tillers of the soil—wearers of the white collar-followers of the union? We've got millions of them.

Race and religion, however-polinace and religion, however-poli-tics and pay envelopes-luck and location - jell them into many moulds. Until our millions-indi-vidually-are as different as Glou-cotomuc and additional Divit cesterman and glamor girl. Birth, citizenship and death they share in common, but other common ties are hard to find. With this exception

28,000,000 American families own radios-85% of all U. S. families.

By City Size

Forty-eight States within these square miles. Three million and more square miles. Three thousand and more counties. Three thousand and more communities-each sheltering 2,500 and more people. And all different.

How different? Let's ship the seasoaked people of New Bedford to, shall we say, Peoria. And take these innocents of Central Illinois, to set them down in Newport. Let's switch the citizens of New Orleans and Minneapolis. Do this, and learn "How different".

Or take a trip along the Missis-sippi-past Davenport and Hanni-bal, Cape Girardeau and Cairo, Memphis, Vicksburg, Natchez. Com-pare these towns with what you see along our Eastern coast from Bid-

dleford to Miami. Do this, and see "How different".

Pittsburgh and Birmingham have furnaces in common. Tulsa and Scranton, fuel. Duluth and Ana-conda, metal. Seattle and Boston, fish. But "commonness" is hard to nsh. But "commonless is nard to find in 3,165 communities—each sheltering 2,500 and more inhabi-tants. With this exception 97% of all U.S. families living in communities of 2,500 and over

own radios.

By Income Level

Our Government lists 31,000 different occupations for its free peo-ple to choose from-31,000 different ways to pay for baby's shoes. All legal—all available to those who have the necessary knack or trick or talent.

There are hundreds of roads that lead their followers to what eco-nomists define as "Upper and Mid-dle Brackets". Hundreds of ways to flatten the wolf's nose and blunt his teeth. Hundreds of ways to pad this life in comfort.

Teaching or preaching will do it as surely if not as well as selling or banking or farming. Or, if you prefer, you can write or act or draw pictures. Or draw on the gloves for a few rounds and a few hundred dollars. Lobsters will do the trick in Maine, just as oranges do in Florida or corn in Iowa or copper in Montana.

That's why America can count its "Uppers" and "Middles" in mil-lions. And that's why their economic status is just about their only common experience. With this exception . .

99% of all U. S. families in upper and middle income groups own radios.

Postscript

"All right," you say, "They all "All right," you say. "They all own radios. But how much do they listen?" Here's how much they listen . . . how much it costs them, too. Last year, they spent a halfbillion bucks to listen; 505 million dollars for sets and tubes, for bat-

RENEWAL DECISION ON KMPC MODIFIED

THE UNUSUAL practice of modifying an opinion rendered in a Tying an opinion rendered in a broadcast case, because of a com-plaint from other than a licensee directly involved, was resorted to Oct. 3 by the FCC in connection with renewal of license granted KMPC, Beverly Hills, Cal., last

The FCC had granted the station a renewal, but in so doing had criti-cized particular accounts broadcast over the station based on comover the station based on com-plaints in connection with its program service. It referred particu-larly to the advertising of "Basic Science Institute" and "Samaritan Institute". These accounts had been broadcast over the station pr or to its change in management and were discontinued by the new management.

The modification, it is understood, resulted from a petition filed by Leland M. Woods, who complained about the reflection upon the Saabout the renection upon the Sa-maritan Institute, an organization which claimed a "48-hour treatment for alcoholism". In modifying its decision, the FCC declared that it was unnecessary to make any find-ing as to whether charges leveled against organizations in other cities performing similar functions were applicable to the Samaritan Institute of Los Angeles. The program, it pointed out, had been discontinued.

New Campbell Series

New Campbell Series CAMPBELL SOUP Co., Camden, N. J., on Oct. 9 started a thrice-weekly program for Franco-Amer-ican Spaghetti on CBS, featuring favorite songs by Lanny Ross, noted tenor and singing star of *Your Hit Parade*, heard on CBS for Lucky Strikes. The program is broadcast in the Eastern and Cen-tral time zones 11:05-11:15 a m tral time zones 11:05-11:15 a. m., the ten-minute period following Bob Trout's newscast, and in the Mountain and Pacific Coast time zones from 1:45 to 2 p. m. (EST). Ward Wheelock, Philadelphia, han-dies the account dles the account.

WKY, Oklahoma City, is originating its *Cameos of Melody* program for coast-to-coast brondcast on NBC, Tues-days, 6:30 p. m. (CST). The pro-gram, produced by Naiph Abodahae, features music by Allan Clark's or-chestra and songs by Lee Norton.

teries and current and repairs to

keep the programs coming in. You can't freeze ice cubes in a radio. You can't read books or darn a sock in feeble light such as their tubes emit. A radio is good for just one thing. To make a program audi-

one thing. To make a program audi-ble; to please its owner's car. A radio is good for nothing else. "All right," you say again. "All right, they listen. But just how much?" To which we answer:

More than they ever did before. The longer they own sets, the

more they listen. Four-fifths of all their sets are used each day.

To get their sleep and earn their bread, of course, consumes most of their time. But radio comes next. Listening to radio is "America's First Activity"... after working and sleeping! Here are the facts.

23,000,000 U.S. families listen to 5.2 hours (per family) each day ... an average of 119,600,000 U.S. family-hours of listening daily!
THE MOST SENSATIONAL PROGRAM EVER TO HIT THE RADIO INDUSTRY!

Program ratings have a for NBC

Program ratings now have a new meaning...one discovered in the most penetrating circulation survey ever made—a survey which proves the Red's regular listening audience of 22,000,000 families is greater than any other network's—and which *also* reveals that 13,000,000 families "listen most" to the Red!

To make another survey isn't necessarily news. But this one literally rolls away a fog that has obscured radio for years!

Never before had there been a measurement of network listening habits of people in *every* city in the U.S. of 25,000 and over...in addition to the cities where leading networks have stations.

Plus that, the research delved into <u>one</u> <u>out of five of all rural counties</u> from coast to coast, adding to the findings among that part of the rural audience living near the cities where large stations are located. "The Other Half" Talks!

From this remarkably complete survey, facts were found which no advertiser can profitably ignore. Facts which will surprise those who have judged network values by program ratings...and prove the error of projecting, on a national plane, ratings made only in station-cities. Also facts based on the testimony of "The Other Half" of the national radio audience the 51% of the country's radio owners neverbefore studied!

Cold figures talk... Dentifrice makers, in the first eight months of '39, invested \$1,274,922 in NBC RED Network time—\$409.761 more than any other network!

new meaning *Red NETWORK* advertisers!

Advertising men tell us this survey is the first to give them a factual presentation of why and how radio works the way it does. A survey that shows them the importance of the fundamentals of radio transmission... the relation of millivolts and listening habits to the curve on a sales chart. It shows how to judge networks on a comparable circulation basis...why dayand night-time coverage are so vastly different...why a C.A.B. rating on the Red Network means a greater nationwide audience for a program than precisely the same rating on another network!

It will pay you to hear this story

We are eager to visit your office and *show* you the results of this survey. We think you'll agree that the proof it offers of the Red's superiority can mean only one thing to advertisers on the Red—*more sales*. That, we believe, is why 79 national advertisers last year spent over \$31,000,000 on the NBC Red Network—more money than was spent in any other single advertising medium in the world!

You can now prove with facts why the Red—the network with the majority of leading programs, day and night, since the beginning of network broadcasting is far and away your most profitable advertising investment!

DL&W Prefers Blue Coal to Red Ink

Wise Choice of Radio Campaign Gives Sales Stimulus

By BRUCE ROBERTSON

Sept. 24 last, The N Shadow, supernatural sleuth with the sepulchral chuckle, started his third

season on MBS. A triple-threat detective, The Shadow has been equally successful in chasing criminals, entertaining listeners and

selling Blue Coal for his sponsor, the Delaware, Lackawanna R Western Coal Co., the only producers of anthracite to venture into network broadcasting. His success as

Mr. Malone

detective is а proved each Sunday afternoon, when, shortly before the conclusion of the half-hour broadcast, he turns the malefactor of that week's adventure over to the police. In the entertainment field, the CAB reported that The Shadow during the 1937-1938 season reached the proud position as the most popular daytime half-hour program on the air and last year, its second year on Mutual, the program achieved a CAB rating of 9.7.

Sales, of Course

As to sales, well, in the first three months the show was on the air sales of Blue Coal increased 10.8% over the same period of the previous year. Nor was this a mere flash in the pan, for Blue Coal sales for the first eight months of 1939 were more than 25% ahead of those during the same period of 1938. Gains like these would be satisfactory in any business but are even more gratifying in the anthracite industry, which, due to increasing competition of oil, gas and coke as means of house heating, has fallen from an annual production of approximately 100,000,-000 tons 20 years ago to a 50,-000,000 ton average now, with the drop being most rapid during the last five years. A good many anthracite produc-

ers watched the declining sales with dismay but, aside from weeping into their beer and wishing for a return of the "good old days", did nothing to turn or even stem the tide. But DL&W is a different kind of company. They had proved that years before, when they developed and patented their unique process for coloring coal, enabling them to offer consumers a coal that could be unmistakably recognized, so that every Blue Coal customer could tell by a glance into his bin that he had received the coal he ordered.

By rendering substitution impossible and trade-marking their own brand of coal, DL&W had licked one of the chief hazards of coal merchandising.

But there still remained another

large obstacle between them and the coal consuming public, the fact that few coal users ever came into contact with their coal dealers. Coal yards, by necessity, are located alongside the docks or freight sidings, places completely outside the normal orbit of most consumers, who order their coal by telephone and pay for it by mail.

So, in their broadcasts, DL&W keep discreetly in the background and turn the spotlight as much as possible onto the "Blue Coal deal-er". The program is presented, not by the "makers of Blue Coal," but by "your Blue Coal dealer". Window streamers, counter cards, signs for dealer trucks, ask people to listen to "our popular radio pro-gram". Each broadcast concludes with a 45-second heating hint by "John Barclay," heating engineer, who tells his listeners that their heating problems can be solved by a call to their local Blue Coal dealer who will send his own John Barclay-trained heating expert around

"These programs were fair enough," says William E. Malone Jr., assistant sales promotion and advertising manager of DL&W, "but they were just run of the mine. As radio entertainment they lacked that individuality that makes Blue Coal, for instance, stand out from all other coals. So, in 1937 when we were talking over advertising plans for the coming winter with our advertising agen-cy, Ruthrauff & Ryan, we were all seeking a program with something special about it. We wanted a show that would catch the public's imagination, a show whose tag line would become a part of the public speech, like the Lone Ranger's 'Hi Ho Silver,' or Joe Penner's 'Wanna buy a duck?'

A Second Career

"Suddenly it occurred to us that in the long-discarded Shadow we had just that thing. His unholy laugh, his whispered 'The Shadow knows,' were properties with a tre-

OUTSTANDING among daytime programs is that weird purveyor of justice and collector of criminals, 'The Shadow'. Outstanding among dramas, also, is the same apparition. But the sales figures of DL&W are no apparition, for sponsors, as radio well knows, want facts rather than fancies. DL&W sales reflect the sponsor's aggressiveness in refusing to let intra-industry troubles wreck the business. From that courageous stand has come a series of sales increases, in direct contrast to the general trends in the anthracite industry. Here is how Delaware, Lackawanna & Western found sunshine in 'The Shadow'.

to check their furnaces without charge.

By use of cut-in announcements the commercials are localized, both to give dealer identification wherever possible and to support the dealer with sales messages prepared specifically to fit his local situation. For example, in New England Blue Coal finds its chief competition from other anthracites and the sales talk is written accordingly. Again, in the Midwest, which is essentially a soft coal area, the commercials stress the advantages of a "clean" fuel. In Washington, D. C., where there is only one distributor of Blue Coal, the commercials mention this company by name as the program's sponsor.

Search for Individuality

DL&W's first association with The Shadow dates back to the winter of 1932-1933, when the company secured the radio rights to the name and the character for use on a series on CBS. But at that time The Shadow was not a real character, but only a sort of cloud hanging over the program, a ghost-like voice announcing "Who mur-dered Adam Addlewit? The Shad-ow knows!" followed by a sinister laugh. The program ran its course and was dropped in favor of Little Italy, a comedy drama serial dealing with Italian-Americans, which in turn made way for Vanishing Voices, a pseudo-scientific drama of a time machine device.

mendous value if we only took advantage of their possibilities. And so The Shadow began a second radio career. We hired the best radio writers we could find to do the scripts. We hired the best actor we could find to portray the title role, who was now a major character in the plot of each program, even though we were forced to agree not to tell the public that The Shadow was really Orson Welles.

A New Idea

"This time we were on the right track, as has been conclusively proved by both the program's popularity and the increased sales of our product, and we have continued along that line. When we lost Welles we engaged Bill Johnstone for the part and there have been no complaints. Arch Oboler, Jerry Devine, Jack Byrne, Ellery Queen and similar top-notch radio writers contribute scripts. This year for the first time we are introducing a note of comedy into our dramas, chiefly in the dialogue between our hero and heroine. This move, which is frankly an experiment and will be dropped if it does not prove successful, was based principally on a survey of entertainment trends during the last war which showed a public turn toward comedy as a relief from the tragic front page news.

"The popularity of the radio pro-gram has caused enterprising toy and novelty manufacturers to put out a wide variety of Shadow merchandise such as masks, guns, hat and cape, makeup and disguise kit, stationery and invisible ink, et cetera ad infinitum. In addition to plugging our program in hundreds of toy and department stores these novelties make unusually good premiums for use by dealers. An-other by-product of the program that gives the Blue Coal dealers a chance for some extra merchandising is the movie version of The Shadow. Grand National made a Shadow picture a couple of years ago and Columbia Pictures is currently distributing a Shadow serial.

Dealer Tieups

"Dealers are urged to cooperate with local theatres through truck and store signs advising readers to 'See the Shadow at the Bijou Tonight and Hear Him Every Sunday and through lobby displays. Contests, such as offering a ton of Blue Coal to the theatre patron guessing the correct weight of a large lump of Blue Coal displayed in the lobby, are frequently staged by our dealers and afford a natural tie-in between movie, broadcast, product and dealer."

Mr. Malone's interest in the program is not confined to sales results alone. Acting on the premise that better programs produce better results, he reads scripts, takes an active part in supervising rehearsals, attends all broadcasts and has frequent conferences with his agency's radio experts regarding the program and ways of making it more valuable to DL&W. Last year Mr. Malone hit on the idea of making The Shadow available to other advertisers outside the distribution area of Blue Coal, both through MBS or by transcriptions. Before the season ended the program was sold in eight or ten cities in the South and West to other sponsors, with an even larger sale expected for this winter. The use of cued local announcements for Blue Coal dealers makes the program unusually well fitted for sale to various sponsors.

Knox Fall Drive

CHAS. B. KNOX GELATINE Co., Johnstown, N. Y., on Oct. 7 began its fall campaign for Knox gela-tine sponsoring Mel Allen's quarterhour weekly football preview on WABC, New York, heard each Sat-urday before the football games broadcast on CBS. On Oct. 9, the company started a five-minute transcribed mystery program five times weekly on KYW, Philadelphia, and a quarter-hour musical program titled *Knox Melody Pu-rade* Monday through Saturday on WCAU, Philadelphia. Kenyon & Eckhardt, New York, is the agency.

Stein Clothing Discs

STEIN Bros., New York (clothing chain store), consistent user of spot radio, on Oct. 1 started for 13 weeks, using an average of five transcribed one-minute dramatized announcements daily, six times weekly, on 46 stations nationally. Allied Adv. Agency, Los Angeles, has the account. Mel Roach is agency executive on the account. Announcements feature Don Wilson and were cut by C. P. MacGregor, Hollywood transcription concern, under direction of Howard Esary Radio Productions, that city.

Code Commotion

RADIO finds itself caught in another riptide over its first code interpretations. The Couglins and the Townsends, the Rutherfords and the Coles are affected, along with numerous local satellites who broadcast about so-called controversial issues.

The broadcasting industry, at the NAB convention in Atlantic City last July, went into the self-regulation problem with its head up and its eyes open. The situation that obtains today was foreseen; it does not come as a surprise. Then why all the shooting from within the industry?

It is one thing to deny a person time because his hair is pink. But it's quite another to adopt a principle, applicable to all, under which time will not be sold for discussion of public controversial issues. It applies equally to J. P. Morgan and Earl Browder; to Bishop Sheil and Rabbi Wise. But it does not bar any station from allotting time gratis for such discussions, nor from according equal time and opportunity to opposing viewpoints on the same basis.

Those who scream out against the code provisions and their interpretation do not take into account all of the circumstances. Radio is not a public utility, open to all who have the price. If that were so, broadcasters would lose control of their microphones and radio might well become a Babel of arm-waving rabble rousers preaching their particular philosophies around the clock simply because they had the price.

The broadcaster, to hold his franchise, must serve the public interest. He can't do that if he must yield to the demands of all who have the price, and then give all opposing viewpoints equal time. He must take into consideration program balance and audience reaction. He must exercise his right of picking and choosing his programs, but in so doing he must not discriminate against any particular class.

The NAB has not set itself up as a dictator, as some contend. It is simply seeking to carry out the mandate of its membership in interpreting the code provisions. It is up to the stations themselves to follow through. The responsibility to serve public interest reposes with each individual licensee, not with the trade association. Current discussions over contract renewals, cancellation notices and the like are questions to be dealt with by the stations and are temporary considerations to which the answer will be found in each individual case. Moreover, as a man-made document, voluntarily imposed, it *can be amended*. If, after trial and error, certain of its provisions prove onerous or unfair, the proper and forthright step would be to modify them.

When the code was adopted last July, we viewed it as a step in the right direction. We still feel that revenue lost today by virtue of its inhibitions can be regarded as insurance for tomorrow's operations. To repudiate the code at this late date would be unfortunate.

'Shocking Discovery'

A "SHOCKING discovery", the nation is told, has been made by the National Committee to Uphold Constitutional Government, headed by the prominent and vociferous anti-New-Deal publisher, Frank Gannett. It is the "discovery" of Section 606 of the Federal Communications Act, which permits the President, in a national emergency, to commandeer radio, even to the point of taking over broadcasting.

To us, it is rather shocking that Mr. Gannett, himself the owner of several stations through affiliation with his newspapers, should have been so long ignorant of this basic provision of communications law. It was in the old Radio Act of 1927. We of the industry have cited it repeatedly, even as far back as the Roosevelt-declared bank holiday of 1933, which had all the earmarks of a "national emergency". The Mississippi-Ohio floods likewise might have constituted the type of "national emergency" which would have justified legally the type of drastic action cited by Mr. Gannett.

"It shocked us, as it will shock the American people to discover that, by declaring that an emergency exists, the President can take advantage of a clause in the Federal Communications Act of June, 1934," Mr. Gannett advised Congressional leaders this month. He pointed out the President has absolute and unlimited power to stop free speech over the radio, to take over all broadcasting to suppress public discussion by radio of views contrary to his own, to seize any or all stations and turn them over to any department of the Government to be run as instruments of Administration propaganda.

We concur in Mr. Gannett's conclusion that the President's power is great and that in our democratic form of government dictatorial powers of that nature should not repose in any single individual. But we do not share his horrendous views on what *might* happen. It hasn't in the past, and the President has been more than friendly to radio and sympathetic with its aims and problems.

Radio through the current crisis has proved beyond any reasonable doubt that it can conduct its affairs without bias or favor and without disturbing the nation's equilibrium. Actually, Radio by the American Plan has contributed greatly to the morale of the people.

Prize Cycle

PROGRAM technique runs in cycles. Audience participation programs, after a rather meek start several years ago, are today the rule rather than the exception. The quiz technique has had a thousand offsprings. Box-top ripping has become a national pastime.

In their lust to stimulate listening, several sponsors, with the acquiescence of networks and stations, have turned to the cash-prize offer. Therein lies a danger. Several are variations of *Bingo* or *Bank Night*, which are barred in some States as lotteries. All of them apparently fall fairly close to the borderline.

The Postoffice Department already has found occasion to label one such program a lottery because the mails are used in the giveaway formula. The Communications Act of 1984 carries a prohibition against lotteries and certain types of gift enterprises.

Widespread development of the cash-prize offers on the air will not help radio. Sponsors, interested only in results rather than in the welfare of the industry, can be expected to flock in increasing numbers to this new twist in audience building. And in so doing, they will try to outstrip their competitors with bigger, better and more sensational prize awards.

To prevent radio from becoming the vehicle for continuous series of prize competitions, we believe networks and stations alike would do well to check the new trend before it gets out of hand.

Legal Twist

A BRAND new philosophy in radio regulation has been adopted by the FCC under which it appears that only the applicant and the Commission will participate in hearings on new broadcast facilities. Other stations may not intervene or seek to have the issues enlarged unless they can prove to the Commission's complete satisfaction beforehand that their interests will be adversely affected, and even then the FCC reserves the right to admit them or not.

It is difficult to reconcile this new polic; with that of former Chairman McNinch whe, upon assuming office two years ago, adopted a "goldfish-bowl" procedure. All comers would be admitted to hearings, under his decree. We fail to see where the new procedure will result in a saving of time and money of applicants, existing stations or the Commission. On the contrary, it appears, the only result can be duplication of effort through rehearings on new issues which unquestionably will be raised by parties adversely affected.

Like other novel approaches, however, it looks as if the new policy eventually will come before the courts. It is a certainty that stations will challenge any procedure that does not give them the right to protect their facilities against undue encroachments. We Pay Our Respects To - Personal

WILLIAM JOHN SCRIPPS

SHOP TALK among oldtimers in the editorial and business offices of the Detroit News now and then takes a reminiscent turn back to the days, more than 20 years ago, when "Little Bill," son of the publisher, made very much of a pest of himself around the place. Because his dad also had a mechanical turn of mind, young Bill would bring his many amateur wireless gadgets to the office to mull over. and at times hard-boiled news and advertising men, scornful then as few of them are today of radio, would have liked nothing better than to kick the cluttering "playtoys" into smithereens.

As a matter of fact, William John Scripps, at age 13, was mere-ly riding a "ham" radio hobby without the slightest thought that it would lead to a career and without even dreaming that his efforts might one day write his name high in radio's hall of fame as a pioneer broadcaster. Out of that hobby grew WWJ, the Detroit News station, with one of the finest studio plants in all radio. Though newspapering is in his blood, Bill Scripps' proudest pursuit among his many and varied activities is that of executive director of WWJ.

It was largely in the Detroit News plant that young Bill-his was partly in deference to the boss' son, though probably more particularly because radio receiving sets linage seemed to offer good prospects, that the newspaper instituted a radio page to tell something about the technical progress of radio. It was for no good reason at all-at least so some of the impatient but forebearing newspaper executives thought at that timethat the Detroit News inaugurated its own broadcasting station.

There is still a battle of historical research going on between Westinghouse's KDKA and the Detroit News' WWJ as to which came first and which is entitled to be regarded as the true pioneer station still surviving. Without attempting to take sides, we can only cite the record as it appears and the claims as made. Lee A White, historian of the *Detroit News*, records that on Aug. 21, 1920, the Detroit station (then 8MK) announced returns of the primary election in Michigan, remaining on the air daily thereafter. For KDKA it is claimed that it broadcast the Harding-Cox election returns of Nov. 2, 1920, and then continued only on a semi-weekly schedule.

Now there is no doubt that both Frank Conrad, founder of KDKA, and young Scripps, founder of WWJ, did some broadcasting bethese dates-on sporadic fore schedule. There is also no doubt that others antedated KDKA and WWJ as broadcasters, notably Dr. Lee DeForest, who broadcast Enrico Caruso from the Metropolitan Opera House as far back as 1910. But WWJ and KDKA both lay claim to being the pioneer "broad-casting station" still in existence. KDKA argues it was operating with its present call letters 16 months before 8MK (later WBL) became WWJ on March 3, 1922. To which WWJ counters that it got its third license (in October, 1921) be-fore KDKA had applied for its first.

Whatever the claims and counterclaims, young Bill Scripps remains one of commercial broadcasting's real pioneers, his station having begun broadcasting on a daily schedule the day after he turned 15. He was born in Detroit, Aug. 19. 1905, attended public schools of that city before going to the Hill School at Pottstown, Pa. and the University of Michigan.

Married in 1923 to the beauteous Virginia Stanley, of Boston, he chose to go into the family's Scripps Motor Co. plant, automobile manufacturer, rather than the newspaper. He started as a machinist, but that lasted only a year. Then he tried banking for a year. Inevitably he returned to the newspaper, where by that time (1926) the radio station he founded was already a going concern.

On the News staff he was a cub reporter before doing a turn at ad-

LOU'IS K. SIDNEY, who has been in Hollywood for two years, on Oct, 16 takes over his former executive post with Loew's Inc. as general manager of with Loew's Inc. as general manager of WHN, New York. He will also assume charge of the organization's theatre department, Mr. Sidney was brought to the West Coast originally as M-G-M radio director when the film studio made an agreement with General Foods Corp. to produce and supply talent for the NBC-Red *Good Years* program. When M-G-M withdrew from participation in the weekly show, Mr. Sidney continued with the film studio as a producer.

CARL E. HAYMOND, manager of KMO, Tacoma, and president of the Pacific Broadcasting System, that city, recently won first place trophy in the radio-press division of the annual golf tournament staged by the North-west Golf Salesmen's Assn. Larry west Golf Salesmen's Assn. Larry Huseby, publicity director of the net-work, tied for second and was also awarded a trophy.

J. S. K. HAMMANN, formerly of NBC and previously sales manager of KYW, Philadelphia, has been ap-pointed Eastern sales representative of Advertising & Selling magazine, New York.

JACK TODD, formerly assistant to Herb Hollister at KANS, Wichita, and onetime program director of WHB, Kanasa City, and manager of KGGF. Coffeyville, Kan., has been named manager of KMMJ, Grand Island, Neb., with Randy Ryan shift-ing over to sales work as commercial manager. KMMJ is owned by Mr. Hollister and Don Searle, director of KOLL, Omaha, and KFAB-KFOR, Lincoln. Lincoln.

P1111. HOFFMAN, formerly with the local sales staff of KSO-KRNT. Des Moines, has been named commercial namager of WNAN, Yankton, S. D., succeeding Ted Matthews.

vertising, circulation and other branches. Always he kept an eye on the radio station, though, having once got it going, his hobbyist in-clinations turned to flying, gliding, iceboating, sailing, deep sea fish-ing, experimental gardening and photography. He wasn't exactly a dilletante, but once a job was done he liked to try something newstill a characteristic.

In 1933 the late beloved Jefferson B. (Jeff) Webb, then director of advertising for the Detroit News and manager of WWJ, suggested that Bill become his assistant, paying particular attention to the technical and commercial side of the station. It was Jeff Webb who conceived and persuaded the newspaper's management, up to then just tolerating the radio station as an adjunct but refusing all offers to sell it, to erect its magnificent Gothic radio plant just across the street from the newspaper plant. He died in 1936, and Bill relinquished all other duties to assume the acting managership of the station and the direction of its construction. In 1937 he took the official title of general manager, though he remains a director of the Detroit News corporation and of the Scripps Motor Co.

To the radio station young Bill brought and still brings the enGORDON S. STUDEBAKER. son of Dr. John W. Studebaker, U. S. Com-missioner of Education, who is direc-tor of the Educational Radio Script Exchange of the U. S. Office of Edu-cation. on Oct. 5 married Miss Janice Fuller at San Francisco. Miss Fuller as been a reporter with the San 'rancisco Chronicle. They will make hasFratheir home in Washington after Oct. 20.

HAYDN EVANS, for the last year commercial manager of WNAN, Yaukton. S. D., has resigned to work on production of Pot o' Gold. new NBC. show for Tums. Mr. Evans and Rob-ert Brilmayer collaborated on the program idea.

DICK KAY, salesman of KCKN, Kansas City, Kan., is the father of a girl born recently.

JACK O'MARA has joined the sales department of WOWO-WGL, Fort Wayne, Ind.

JACK SAMWAYS, of NBC Holly-wood guest relations staff, has resigned to join KTMS. Santa Barbara, Cal., as account executive.

INGHAM STEPHAN ROBERTS. of the commercial staff of KTSA. San Antonio, married Margaret Virginia Thomas Sept. 2,

WILLIAM C. KOPLOVITZ, FCC assistant general counsel, had a ton-silectomy performed Oct. 9 at Emergency Hospital in Washington.

PERCY L. DEUTSCH, president of World Broadcasting System, is vaca-tioning at White Sulphur Springs, W. Va., following an illness of several Va., fo weeks.

C. ARTHUR FIFER recently was named general manager of WTAD, Quincy, Ill.

TYLER SMITII Jr., new to radio, has joined KIEV, Glendale, Cal., as account executive. Cal Cannon, son of David H. Cannon, co-owner of KIEV, who also has joined the sta-tion as account executive, is the father of a boy born Sept. 23.

LES HARRIS, formerly of KOMO-KJR. Seattle, and before that man-ager of KFBL (now KRKO) Everett, Wush. recently joined KROW, Oak-land, as account executive. On Sept. 30 he married Melba Hansen, of San Francisco.

thusiasm of youth and the zest of his instinct for hobbies. WWJ's program standards have always been the highest. Its innovations have been many, and most of these, like the highly successful anti-tuberculosis crusade headed by Paul de Kruif, which later went nationwide, originated with young Bill. Incidentally, a program which started the day the station opened, Tonight's Dinner, is still on the air over WWJ.

High-frequency broadcasting is one of Bill's newest hobbies. If and when television is an everyday practicality, he will be right in the swim. Latest technical development to intrigue him is Armstrong's frequency modulation system. If there's anything new in radio, Bill Scripps will know all about it.

At the ripe old age of 34, Bill Scripps is already a "leading citizen". Besides his corporate directorships, he is a member of the Board of Commerce, a director of the Adcraft Club, a member of the board of the Detroit Symphony Society and a director and publicity chairman of the Detroit Children's Hospital. Mr. and Mrs. Scripps have four children-William Edmund II, 15; Diane, 10; Virginia, 8½; Keith Armiger, 7.

S. W. (Bill) BROWN, for the last two years a member of the announcing and continuity staff of KWTO, Springfield, Mo., has joined the promotion department of Rulston Purinu (Co., St. Louis, as an assistant to L. A. Wherry who is in charge of the radio advertising of Purina feeds for livestock and poultry.

JOHN C. MCCORMACK, manager of KWKH and KTBS, Shreveport, La., has been elected president of the Centenary College Quarterback's Chub, booster club for the Centenary footbuilt team. The organization meets Tuesdays in the College gym and watches movies of the preceding week's game.

JAMES R. LUNTZEL, for the last year on the sports staff of the Chicago American, on Oct. 1 joined KDKA. Pittsburgh, as publicity director succeeding Kay Barr, resigned. Mr. Luntzel for nine years was associated with the Balaban and Katz Theatres in Chicago and prior to that time was ou the reportorial staff of Louisville newspapers.

LENON R. LOHR, president of NBC, on Oct. 12 uddressed the banquet of the Texas Newspaper Publishers' Asan. in Galveston, held in honor of G. B. Dealey, president of the Dallas Neurs, who was celebrating (3) years of service with that organization.

JOHN EWING, owner of KWKH and KTBS, Shreveport, and publisher of the *Shreveport Times*, on Sept. 30 conferred at the White House with President Rosevelt.

JOHN W. HAIGIS Jr., son of J. W. Haigis, owner of WHAI, Greenfield, Mass., and a graduate of Amherst College, has joined the station as director of the news department.

P. H. CUNNINGHAM, formerly in the newspaper advertising field, hus joined KWOC, Poplar Bluff, Mo., as commercial manager, succeeding Cliff Atkinson.

JOHN C. McCLOY, formerly program manager of WROK, Rockford, Ill., on Oct. 1 joined WKAT, Miami Beach, Fla., as assistant to President Frank Katzentine.

MORTON BASSETT of NBC sales department. New York, on Dec. 17 will marry Duvyde Miller of Elmhurst. Long Island.

LESLIE W. JOY, general manager of KYW. Philadelphia, again has been named chairman of the radio committee of the Southeastern Pennsylvania chapter of the American Red Cross. Joy also was appointed to the Founders' Day committee of the University of Pennsylvania for 1939-40.

IIENRY GREENFIELD, who has heen serving as both advertising manager of the Jewish Daily Forward and general manager of WEVD, New York, owned by the newspaper, will heuceforth devote all his time to the station as managing director, Joshua S, Epstein, formerly of Waxelbaum & Co., New York, succeeds Mr. Greenfield at the Daily Forward.

WILLIAM MISKIN, formerly in the travel service field, has joined WMCA. New York, as salesman.

DAVE SUTTON, new to radio. has joined the sales staff of WBBM, Chicago.

G. F. BOURKE, manager of CKCA, Kenora, Ont., has resigned.

JOHN O'HEAR. formerly publicity director of Charleston's Dock Street Theatre and new to radio, has joined the commercial department of WCSC. ('harleston, S. C.

FRED ELSETHAGEN, of the commercial staff of KGVO, Missoula, Mont., is the father of a boy born recently.

WILLIAM ROTE, formerly of WOKO and WABY, Albany, N. Y., has joined the sales staff of WKBN, Youngstown, O.

WYNN NEELY, formerly of WISN and WEMP, Milwaukee, has joined the sales staff of WROK. Rockford, 111.

Specialized Staff Leads to Speedier Handling of News

Control of Judgment, Avoiding Of Duplication Attained

> By JOHN F. PATT Vice-President & General Manager WGAR, Cleveland

DOES news pay? Managers of several hundred Managers of Several Halder broadcasting stations have decided in the past several years that it does. Steadily in-

creasing lists of stations broadcasting news at-tests to the success of news as a broadcast feature. But - does a News Department pay?

That's another Mr. Patt question. Many stations hesitated to build up the overhead by putting one or more full-time news men on the payroll to edit and prepare newscasts.

But a News Department does pay. That, at any rate, is the ex-perience of WGAR, one of the first stations to back up its wire service with an editorial staff.

Two to Edit

When we contracted with INS for trunk wire reports, we did not consider this as the be-all and endall. Rather, we regarded the wire service as a starting point and took on two experienced editors to develop the wire service and local news into a genuinely personalized service to WGAR listeners.

Here are the advantages that ac-crued to WGAR through the staf-fing of a News Department: Consistency in editorial judg-

ment and centralized control of policy

WGAR broadcasts do not dupli-cate those on any other station, in structure and wording. Naturally, there is the coverage of the same major news facts.

Developments of feature angles and local application of wire stories. Closer contact with police and fire departments, city officials, hos-

pitals, etc. Faster action on flash news. The editor "rides" the wire and is not

in danger of missing a flash while engaged in some other task.

Complete coverage while news-cast is on the air. In the case of 15-minute newscasts this is imso the air of the single seven during the air of the single seven during the air of the seven during the air of the seven during the air of the seven during the single seven

And possibly at the top of the list in importance—direct contact with listeners. There are innumer-able occasions when listeners telephone to ask about items they have heard on the air. At WGAR the news editor handles the call and supplies the information. This has made a number of warm friends for WGAR. They advertise by word of mouth, and the station's consistent audience and its reputation as "Cleveland's Friendly Station" are enhanced.

In the WGAR News Department are Editor Ralph Worden, and his assistant, Ted Hanna, Both are experienced newspaper and radio newsmen.

WBBM Sports Sponsors

FOUR sponsored sports programs were recently signed by WBBM, Chicago, to start during October. Stephano Bros., Philadelphia (Marvel cigarettes), through Aitkin-Kynett Adv. Co. is using Sports Huddle, thrice-weekly quarter-hour sports celebrity interviews with Pat sports celebrity interviews with Pat Flanagan and John Harrington, WBBM sportscasters, as m.c.'s. COLLINS NEW 12 Z REMOTE Has Plenty On The Ball

It is football time again and to help you da a better pick-up job, here is Collins new 12Z. Many aperators will be trudging stadium steps again, but instead of carting a van load of equipment, the smart operator will be able to take two steps at a time with his lightweight 12Z.

Inherent Collins quality assures him of the utmost reliability and fidelity. He knows that with the 12Z he can do a studio job anywhere. A shrewd happy man, indeed, is our hero with his new shiny Collins 12Z Remate Amplifier. We say shrewd, because he knows the 12Z is more amplifier for the money than he can buy anywhere else.

with the Newest

PELEVISION demonstrations, of course-but it has been one of the biggest events in a long time here in Salt Lake, judging from crowds attracted and interest displayed.

What does this mean to you, as an advertiser? It means that the people of the intermountain territory look to KDYL for everything that's newest and most interesting-that they will continue to

think of KDYL as the station that "always has it first"-that they will continue to sense KDYL's leadership.

NOT YET claiming he is the first person to have conducted a musical broadcast, but wondering if there were any others before him, is Al Pearce, currently heard with his Gang for Dole Pineapple on CBS. His record goes back to 1914—the log of the USS Sherman in Wash-ington, D. C., contains the record of the ship having received by wireless telephone a musical program

conducted by Pearce. A lad of 16 at the time, Pearce broadcast over a radio arc transmitter from a station owned and operated by E. A. Portal, located operated by E. A. Portal, located atop the Garden City Bank in San Jose, Cal. Using an Edison "morn-ing glory" type microphone, Al acted as m.c., and then sang with his brother in an act billed as "Al and Cal", with the theme song "Hello, Hawaii, How Are You?", which was the hit of the 1914 sea-son. Currently he is trying to find out if he was the first person to conduct a music-comedy program conduct a music-comedy program on the air.

Langendorf Increases

LANGENDORF United Bakeries, one of the Pacific Coast's largest bakery concerns and a major radio advertiser, recently expanded its two network shows. News Pic-torial, previously heard thrice-weekly on 24 Don Lee stations, changed time, name and format and is now on NBC-Pacific Red netis now on NBC-Facine Red net-work five days a week as Original Rush Hughes Pictorial. The Phan-tom Pilot is now on Mutual-Don Lee two to three times weekly. Langendorf introduced Wheato-Nuts and Dr. Penland's bread in Colifornia and Washington this California and Washington this year. Leon Livingston Adv. Agency, San Francisco, is agency.

Rolls Razor in Canada

Rolls Razor in Canada RICHARDS GLAS Co., Toronto (Rolls Razors) on Oct. 16 will start a campaign of spot announcements to run three to six times weekly on CHNS, Halifar; CJOB, Sydney, N. S.; CF N B, Fredericton, N. B.; CKCW, Moncton, N. B.; CHSJ. St. John, N. B.; CFCF, Montreal; CKAC, Montreal; CFRC, Kingston, Ont.; CJKL, Kirkland Lake, Ont.; CKCK, Kitchener, Ont.; CFPL, London, Ont.; CKGB, Timmins. Ont.; CKCL, To-ronto; CKLW, Windsor; and a group of western stations. A. McKim Ltd., Toronto, placed the account.

IN ANTICIPATION of two new papas, members of the staff of WJSV, Washington, tossed a baby shower for Joe King, announcer, and Granville Klink, engineer. In and Granville Klink, engineer. In front row (1 to r) are Margaret Legge, assistant bookkeeper; King and Klink; Gladys Hall, secretary to CBS Vice-President Butcher; middle row, Hugh Conover, an-nouncer; Charles Parker, guest re-lations; Robert Pilchior, engineer; Elma Williams, secretary to Chief Engineer Clyde Hunt: top row. Engineer Clyde Hunt; top row, Donald Saunders, engineer, and Harry McTigue, sports. The King baby, a boy, was born Oct. 11 and the Klink baby, also a boy, Oct. 2.

ABDICATION speech of Edward VIII of England in December, 1936, as recorded by World Broadcasting System, has been placed in the steel Crypt of Civilization at Oglethorpe U, Atlanta, along with other recordings.

BUILD SHOWS THAT CLICK!

Everything you need to know to get-

- top-notch shows!
- larger listening audiences!
- unusual sales results!

YOU'LL gain years of production experience . . . overnight . . . by letting John S. Carlile show you how to organize, produce and direct successful radio shows. His new book, "Production and Direction of Radio Programa" is the fruit of a busy decade as C. B. S. production manager. It gets down to brass tacks right from the FIRST page.

from the FIRST page. Here is the A to Z of building shows that click — as entertainment, as commercial broadcasts that sell! You got priceless advice on how to work out your program idea and give it "car appeal", how to organize the production staff for \$50 shows, as well as network extravaganzas, how to balance shownianship whit salexamaship. More than 50 illustrations and diagrams give you the most effective studie setups for musicdramatic and educational shows.

CAN YOU USE THESE IDEAS AND SUGGESTIONS?

- How to produce hundreds of sound effects, from pistol shots to church bells;
- A complete dictionary of radio terms with illustrations of studio sign language;
- How to slant appeal for various audiences;
- How to make the most of your studio, microphone and special equipment;
 Tested rules for checking your production
- progress;
 How to time your show for smoothness and split-second precision;
- and split-second precision;
 How to make a radio speech—(required reading for anyone who is ever likely to go on the air).

SPECIAL OFFER:

See the book at our risk. Pay for it only if you decide to keep it. Keep it only if it gives you many times your money's worth. The coupon will bring you this book on approval.

70% Have One Rate

70% Have One Rate RESPONSE to a query concerning the difference between local and na-tional rates sent by Donahue & Coe, New York, to all stations with whom the agency had placed snot announce-ments advertising the M-G-M motion picture. "The Women". shows that about 70% of these stations have only one rate, with no distinction between national and local advertisers, accord-ing to D. R. Parman, radio director of the agency. of the agency.

Premiums Are Offered By 60% of Sponsors on NBC Nets, Says James

APPROXIMATELY 60% of all advertisers on NBC make some kind of offer to their listeners, E. P. H. James, sales promotion manager of the network, stated at the opening session of the fifth annual Atlantic

session of the fifth annual Atlantic Coast Premium Exposition, held under the auspices of the Premium Asson. of America at the Hotel Astor, New York, Oct. 2-6. Of these, about two-thirds ask for cash, usually ten cents, he said. Tracing the history of premiunus on the air since Oct. 1, 1930, when NBC first granted an advertiser permission to announce an offer over the network, Mr. James said the chief motives behind such offers are to separate prospects from separate prospects from are to other listeners, to get tangible evidence of listening—although he added that the latter reason was largely invalid since no one has ever been able to establish any dependable relationship between the response to an offer and the size of the listening audience, and to send listeners into the dealers' stores.

Describing the various types of premiums that have been success-fully offered over the air, Mr. James said that contrary to gen-eral opinion only about 15% of all offers are aimed at the juvenile audience. Most offers are made to the feminine audience, he added, with very few appeals aimed at the men. To be most successful in radio, he said, the premium should have a short, attractive name, identified if possible with either the program or the sponsor.

NEIL PETREE, president of Baker Bros., Los Angeles (left), largest retail furniture store in the United States, takes a vital interest in the radio activity of the firm he heads and is pictured with Edgar Harri-son Wileman, commentator (right), on a recent Background for Living program, sponsored by the store on KNX, Hollywood. The thrice-weekly quarter-hour program originates from the radio studio which Mr. Petree recently built in the store's 11th story auditorium in downtown Los Angeles. Mr. Petree designed the program, previous radio activ-ity having been confined to spot announcements and participations. Mr. Wileman, head of the firm's interior decoration department, was chosen commentator. Mr. Petree appears at intervals to "confirm the commercials."

Spots Promote Contest

TOTAL of \$1,000 in cash, with \$500 as first prize and 202 smaller prizes, is being offered for a twoprizes, is being offered for a two-week contest period, Oct. 16-27, by Colgate-Palmolive-Peet Co., Jersey City, on its *Ellen Randolph* pro-gram, which started Oct. 9 on a split NBC-Red and Blue network on behalf of Concentrated Super Suds. Prizes are given to listeners conding in the heat convous to the sending in the best answers to the problems faced by Ellen Randolph, the program's featured character. The problems are posed only on the program so contestants must listen in order to compete, while advance transcribed announcements are used on stations carrying the program promoting the contest, but not the product. Benton & Bowles, New York, is the agency.

KONDON MFG. Co., Minneapolis, on Nov. 15 starts thrice-weekly weather reports for Kondon's Nasal Jelly on Larry Elliot's *Rising Son* early morn-ing program on WABC, New York. Agency is Addison Lewis & Associates, Minneapolis.

Tired Hands

WHITE cotton gloves, the gift of John C. Roberts Jr., vice-president of the St. Louis Star-Times, and Ray V. Ham-ilton, manager of KXOK, St. Louis, the Star-Times station, recently were presented Clar-ence G. Cosby, KXOK sales manager, to remedy the dull ache entering his hands from continually congratulating KXOK salesmen for bringing in 30 new contracts during September and continuing the run at the rate of two a day during October. Among a day during October. Among national accounts brought in during the fall rush KXOK lists Wander Co. (Ovaltine), Chicago; Willard Tablet Co. (proprietary), Chicago; Gos-pel Broadcasting Assn., Los Angeles, and Sinoze Co. (proprietary), Chicago.

Royal Dessert Serial

STANDARD BRANDS, New York (Royal Desserts), on Oct. 5 started for 52 weeks, Those We Love, a for 52 weeks, Those We Love, a dramatic serial, on 53 NBC-Red stations, Thursday, 8:30-9 p.m. (EST), with West Coast repeat, 9:30-10 p.m. (PST). Objectivity For Sale

Background, not opinion; research, not rancor, furnish the color which has made Ray Dady's "Sidelights on the News" over St. Louis KWK a standout news program for years. Dady, pioneer newscaster of the Middle West, brings his incisive presentation of the things that make news to a news-hungry audience five days a week. He parades the news against a back-drop of experience which few radio news-casters possess. Two years as sec-retary to a U. S. Congressman, five years as a government employee in Washington, six years of radio presentation, combine with a clear, forceful style to demand audience respect for his views. Right now, "Sidelights on the

Right now, "Sidelights on the News" is available for sponsorship. Call St. Louis KWK or Paul Raymer. Pd. Adv.

KMBCommunique about a..... FRIEND TO FARMERS

PHIL EVANS, widely known livestock market analyst, probably has spoken to more farmers than any other man in America. He has given talks to farmers about their livestock problems in nearly every state, and has just completed a year's daily broadcasts on 45 NBC stations. October 1, Phil Evans joined KMBC, Kansas City, as Director of Farm Service, where he will coordinate farm broadcasts of the station with various govern-mental agencies in the area, and will direct the efforts of a large staff to give Middle Western farm listeners more complete service on world news, livestock, grain, pro-duce and other commodity market reports, and vital, up-to-date information on farming.

WE'RE SOCKING 27 STAFF PEOPLE into KMBC's Early Morning Farm Program to make it the Middle West's most complete service to farmers. You'd be surprised how little you need put into it to reach the tremendously prosperous RURAL audience of KMBC. Ask Free & Peters about 5 AM to 6:45 AM and 12 Noon to 12:30 PM.

October 15, 1939 • Page 59

PRIOR to 1935 no "first aid" directory source existed in the radio advertising industry. Those were sad days. Long hours were spent in vain research. Time-buyers, account executives, advertising managers, station managers, chief engineers a whole industry—were in a constant question-and-answer quandary.

for the Radio Advertising Industry

Naturally, a Yearbook was needed. So in 1935 the editors of BROADCASTING published the BROAD-CASTING YEARBOOK Number, first of its kind, with scores of fully-indexed directories and documentary reference data . . . large, well-tabulated, easy-toread and easy-to-use pages . . . a completely reliable and useful volume.

Cast in the same mold, with yearly refinements, came the 1936, 1937, 1938 and 1939 YEARBOOK Numbers . . . a succession of indispensable, every-day tools for a growing industry.

The 1940 BROADCASTING YEARBOOK Number now is in process of production. Many new features are being added . . . some at the suggestion of the men who use it most, the time-buyers. As before, the new edition stresses *utility*. It must work for everyone in the industry, everyday. Not a museum piece or "special edition", the 1940 YEARBOOK Number will get greater use than ever before.

Small wonder, then, that the 1940 BROADCAST-ING YEARBOOK Number, the year-round advertising buy at regular issue rates, is your *first* advertising choice of the year.

PHONETIC SYMBOLS draw the attention of CBS announcers as Prof. W. Cabell Greet, well-known authority on American speech, points out gradations in enunciation and errors in pronunciation during a conference with members of the network's announcing staff. Listening attentively as he brings out a fine point are Mel Allen, Charles S. Arlington (at left) and Charles Stark (far right), all of them CBS announcers.

Announcers Have a Word for It

(Continued from Page 24)

especially for young people. It deserves mention particularly because of its improved phonetic key.

A sensible person should keep his own speech ways, his own phonetic patterns, when he finds them in good use, even if they are regarded by one dictionary or another as somewhat less to be preferred than others. A man who strives to cut himself off from his roots is suffering from a psychological ailment, and he is courting other troubles. His speech probably will sound false and "ham", his phrasing will be bad, he will tend to speak in single words instead of in phonetic groups, he is apt to overstress the fancy pronunciations that are false for him, and try as he may, he will be inconsistent.

This is not to say that one cannot and should not improve speech, but improvement is best undertaken along the lines of the phonetic pattern native to the speaker. It is not wise to teach or to ask a Midwesterner or Southerner to speak like an Easterner, or to ask either to acquire a British pattern. It is unforgivable to make anyone distrust the fundamentals of his speech-his most characteristic and most important means of expression. It should not be done unless his speech ways are very bad indeed-and never in response to any half-baked, eclectic so-called "standard English".

We must admit that the announcer has a difficult role. Though he is associated with cosmopolitan events, he is not so traveled nor so well educated as his duties really demand. An old-fashioned general education or its equivalent is a requirement for the job, but education alone cannot make a good announcer. For all his shallow fame, he does not receive from listener or producer the kind of respect that his position deserves.

CAREFUL DICTION Sought by WFiL in Private Announcers' Quiz

CALLING attention to what he terms "the Philadelphia lingo", Samuel R. Rosenbaum, president of WFIL, Philadelphia, recently furnished WFIL announcers with a pronunciation quiz sheet for individual "private quiz", containing both the approved pronunciations and "the surrounding Philadelphia patois" to which local announcers might become susceptible. Emphasizing the need for radio announcers to keep their diction "just a triffe better than the average of the listening audience, rather than a triffe looser", and cautioning them not to get "too far out ahead" of the listeners, Mr. Rosenbaum included in his list:

cluded in his list: "Do you say nooz or nyooz for news? I toldeem or I told him? Atsa-stuff or that's the stuff? Ah'll do it or I'll do it? Dub-ya or double-u for W? Mih-yun or millyun for million? Fildeffia or Filadelfia? Skookle or Skoolkill for Schuylkill? Come awn or come ahn for come on? Jellmen or jennle-men or gentlemen? Dennis or dentist? Connie-nennle or continental? Innimate or indimate or intimate? Iddly or Itly or Italy?"

Jay Franklin to Record Weekly Quotation Series JAY FRANKLIN, pro-New Deal Washington newspaper columnist and radio commentator, has announced plans to produce a weekly quarter-hour transcribed series of current events commentaries based on quotations from public figures. Titled Washington Quotes, the series is to consist of short quotations of well-known personalities, read alternately by two or three separate voices, and interpolated between factual explanations of the news highlights of each week, according to Mr. Franklin. It is also contemplated to include a personal quotation by one public figure in each program, along with the indirect quotations read by announcers. Quotes are to be secured both by

Quotes are to be secured both by direct contact with the speakers, through the Franklin news organization, and from regular news service coverage. Merchandising and production plans are still in the formative stage, but Mr. Franklin stated it was planned to start actual production on the programs before the first of the year. World Broadcasting System will cut the transcriptions.

In which we tell of the power of Oregonian Radio Station KEX to make sales for United Piano Company

• Tuning up an effective radio sales program for used pianos is a matter of getting the right idea, the right station, and sticking to a consistent schedule. United Piano Company of Portland had the right idea when they developed a three time a week demonstration broadcast direct from their showroom. And United had the right station when they selected KEX.

H. T. Howell, of United Piano Company, tells what happened:

"KEX has pulled our sales cost down and pushed our sales volume up. Time and time again we have cleared the floor of used pianos by means of our broadcasts, and we have also shown a big increase in the sale of new pianos. KEX is doing a splendid job."

V. Abuell

MORAL: Hitch your radio program to KEX or KGW and watch the Northwest sales roll in.

Page 62 • October 15, 1939

FREDERIC W. ZIV Inc., Cincinnati, has announced a new transcribed show. Lady of Millions, starring May Rob-son, and consisting of 105 quarter-hour programs written by Hector Chevigny. MINNEAPOLIS-ST. PAUL

Doing a Great Job of Cooperating With Community Enterprises . . . It's the Northwest's Most Popular Station.

Here's What They Say-(Excerpts from Letters to WTCN)

"Every year at this time WTCN has been very helpful in broadcasting announcements for the Christmas sale of the Minneapolis Society for the Blind."

"I desire to express to you in behalf of the Minnesota Arrowhead Association's officers and directors, my sincere appreciation for your courtesy in allowing me to present the Minnesota Arrowhead story over your station." S. V. Saxby

"I wish to thank WTCN for its fine ca-op-ra-tion with the Young Peoples Department of the Minneapolis Church Federation". Richard C. Hunter

"The Junior Association is indebted to WTCN for its splendid co-operation in helping us put over our Christmas lighting campaian". Lester A. Malkerson

"May we ask your continued help in the effort to raise our Christmas Scol quoto?" Marguerite Breen

"Thank vou verv much for the time of ven us this morning for a Poppy Dav broadcast". American Leaion Auxiliony

Co-operation received from WTCN during our campaign for funds for the relief of Anoka fornado sufferers."

American Red Cross

AUDIER AND OPPATER OF THE CE DAVID DICATCH-PIALEER EDEC AND MINNEADDIEC THEE.TRIDING ... FREE & PETERS, INC., NATIONAL REPRESENTATIVES, NEW YORY. CHICAGO, DETROIT, LOS ANGELES, SAN FRAN-CISCO

UTSTANDING among the promotion stunts devised by MBS for its exclusive coverage of the 1939 World Se-ries was the group of 3,500 Currier & Ives baseball prints cut into jig-

saw puzzles, each piece represent-ing an MBS station carrying the series.

Further publicity included the use of a specially constructed baseball microphone shaped into the form of a baseball, a bat and home plate for the broadcasts; New York City radio editors were invited to witness one of the games played in the city; giant telegrams were ex-hibited in 500 Western Union telegraph offices in 15 cities, and individual stunts were conducted by some of the stations carrying the

series. WHB, Kansas City, sent out base-balls to 300 advertisers and advertising agencies. WLAP, Lexington, had sandwich men touring streets with portable radios tuned to the Series. WHBF, Rock Island, erected a player board in the bailroom of a player board in the bailroom of Fort Armstrong hotel with a trained technician to operate the plays. WGRC, Louisville, held a Memory Luncheon for baseball vet-erans. WFIL, Philadelphia, adver-tised the series by its float at a water carnival. KUTA, Salt Lake City, hung a World Series sign over the ring at boxing and wrestling matches. Similar stunts covering a wide range of novelties and promo-tion tricks were staged by stations all over the nation in connection with the series broadcasts on the special MBS hookup.

Nashville Bat

SIXTEEN-INCH baseball bat, dis-SIXTEEN-INCH baseball bat, dis-tributed during the World Series, was used as a direct-mail promo-tion by WSM, Nashville. Mailing tag on the bat carried the legend, "Win a World Series in Sales! Send WSM, the station whose pri-Send WS.M, the station whose pri-mary listening area alone produces between 30 and 40 million dollars worth of furniture and wood prod-ucts yearly, to bat for you!"

* **Tillamook Recipes**

TILLAMOOK COUNTY Creamery Assn., Tillamook, Ore. sponsors of *Tillamook Kitchen* with Benny Walker on NBC-Pacific Red net-work, is offering a recipe booklet for listeners writing to the station.

WINDOW of Wabeek State Bank, Detroit, presents an 18-hour daily war bulletin service supplied by WJR, with photos of the station's newsmen, Duncan Moore, Jinnmy Stevenson, Edgar A. Guest Jr. and teach King Jack King.

Promotion-Columbia Veterans-Husks

AMONG promotion stunts em-ployed recently by Fin Hollinger, publicity director of CJLS, Yar-mouth, N. S., is a series of weekly letters to agencies throughout Canletters to agencies throughout Can-ada. With one note was sent a vial of water from the Atlantic, re-ferred to as "an ocean located just off Yarmouth . . . through which \$13,000,000 in spending money) be-tween Yarmouth, Boston and New York; from which come the largest lobster shipments in the world, and in which swim the world a largest in which swim the world's largest and hungriest tuna fish".

A second note, written on canvas duck, pointed out that Yarmouth is the home of one of the largest cotthe admonition, "This is Yarmouth duck, but don't duck Yarmouth for duck, but don't duck Yarmouth for bigger and better sails". On a third letterhead was glued an American penny, explained with "Here is an American penny. With it Yar-mouthians may buy two slices of bread, a fifth of a pint of milk, etc. Over one billion of these American penpise lowue the peckets of America pennies leave the pockets of Ameri-can visitors stepping into the Mari-times through Yarmouth. CJLS ad-vertising will roll a few of them your way".

WFBR Newspaper Tieups EXTENDING its reciprocal tie-ups with Maryland newspapers to 11, WFBR, Baltimore, recently negotiated a time-space exchange agree-ment with the *Baltimore Sun*, ar-ranged by Hope H. Barroll Jr., ex-ecutive vice-president, and Purnell H. Gould, commercial manager, for WFBR, and W. F. Schmick and E. P. Kavanaugh, for the Sun. Through its arrangement with weeklies in other counties in the state, WFBR devotes a daily fiveminute program to news about the county each newspaper serves, re-ceiving in exchange a quarter-page ad each week in the various publications. In addition the station frequently makes special pickups from counties in which it has newspaper tie-ups, receiving extra publicity in cooperating weeklies.

Capital Oomph

*

Capital Oomph ELINOR LEE, home economist of WJSV, Washington, invited Capital redheads to a studio party Oct. 4 to meet Ann Sheridan, queen of the oomph, during her week of personal appearances at the Earle Theatree. An Ann Sheridan Club was formed, with charter and fixings. After the ceremonies, the titianites were guests at the theatre.

* * Sperry's Skillets

Juicer for Cereal Cartons ALBERS BROS. MILLING Co., Seattle, sponsor of the transcribed serial Linda's First Love on KPO, San Francisco, is offering an alum-inum orange juicer for a box top from Albers Carnation Oats.

Ring and Flight

MORGAN JEWELRY Co., San Francisco jewelry firm, for a flat \$99.50 is offering on KYA, San Francisco, a round-trip plane trip to Reno, complete with wedding ring, to customers planning marri-For that price the bride and age. bridegroom-to-be, along with an-other couple of their own choosing, get the all-expense flight, includ-ing taxis to and from the airports. The wedding party may leave San Francisco in the morning, be married in Reno, and return in time for lunch. Sponsor calls it "Cupid's Air Express".

.

New Bulletin PROMOTED as a plus-service for WLS advertisers is a new monthly merchandising bulletin published by WLS, Chicago, for distribution to all wholesale grocers and large chain grocery stores in the Mid-west. The service was started when it became apparent that whole-salers and retailers didn't know which advertisers were sponsoring programs or when these advertisers were running special contests, pre-mium offers and other sales stimu-

Kanawha Boom

lators, according to WLS.

PROMOTION letter sent to agen-cies by WCHS, Charleston, W. Va., calls attention to bustling business resulting from the development of the chemical industry in the Kanawha Valley by Dupont interests, emphasizing the novel use of the district's coal supply in manufac-turing toothbrush bristles and ladies hose. Hinting at a gift of a pair of hose, the station offers to a "go on and on" in response to a postcard answer, all the while plugging the Dupont products.

Photo Posters

KVOE, Santa Ana, Cal., has placed 20 18x20 inch news photo posters, using pictures of Dispatch Photo News Service of New York, in principal downtown stores of the city. Pictures, of current news value, are replaced weekly, with the call letters appearing on the top border of each and commercial copy on one of the programs on the sta-tion imprinted on the lower border.

Exactly Three

THE MOST recent service extended to early morning radio listeners is provided by Jack Gregson's Yawn Patrol on KSFO, San Francisco. Gregson knows no morning program is effective without several "well-laid eggs". He likewise knows many bitter bridal tears are shed over in-ability to cook a three-minute egg. So, each morning with due warning to the ladies to get ready the boiling water, Gregson gives the down beat to Dick Aurandt, who starts bis ourbeatra playing a tune his orchestra playing a tune lasting exactly three minutes. When the tune is over, the eggs are perfectly done.

Coast Displays

COINCIDENT with start of the fall radio season, NBC Hollywood press department has embarked on an ambitious campaign to publicize and merchandise network shows originating from that city. Most impressive is the weekly NBC Fotoimpressive is the weekly NBC Foto-Flashes, a printed photo job built around a different program each week. They are placed in windows of more than 300 radio stores in Southern California. Foto-Flashes include plugs for the program, its personalities, the network and station as well as sponsor.

Second window display deal, set by Hal Bock, NBC western division press manager; is a tie-up with publishers of *Radio News-Week*, fan publication with 80,000 copies distributed weekly through 30 Ralphs Grocery Co. stores in the Los Angeles area. At the cash register of each market is a 16x30 inch framed announcement plug-ging Radio News-Week and the ging Radio News-Week and the NBC Red and Blue network. Blowwith program in formation. These displays are in addition to photos and other exhibits being placed in more than 50 other Los Angeles and Hollywood store and bank windows.

. .

Soup by Campbell KOY, Phoenix, devised a novel way to announce release of the weekly CBS Campbell Playhouse, sponsored by Campbell Soup Co. over that station. A week prior to the starting date, Sept. 10, hot Campbell soup was served to all studio audiences. Auditors were invited to call at the station, witness any of the day's programs origin-ating at KOY, and have a bowl of soup. Several thousand were served during the week.

CBS Oldtimers

WITH 45 advertisers sponsoring 76 programs on CBS this fall, heavi-est schedule in the network's hisest schedule in the network's his-tory, CBS has issued a booklet, "The Measure of a Network—given by the people who know it best", listing these advertisers. Of the total, 11 are beginning their sixth year or more on CBS; nine are starting their fifth year; six their fourth; five their third; five their second, and 10 have started on CES within the last year.

Coast Previews

WPO-KGO, San Francisco, has started a series of "Sneak Prehas views", new program ideas for the trade. Instead of conducting the usual transcribed or live talent au-dition in the studio for a single agency group at a time, invitations are sent agency men on the Pacific Coast. The idea was developed by KPO-KGO Sales Promotion Manager Robert McAndrews.

* *

Week of Letters

KGO-KPO, San Francisco, capi-talized on National Letter Writing Week in October. Spot announce-ments appearing daily on both sta-tions invited listeners to write in and express themselves on their likes and dislikes concernng programs heard over the NBC stations. * *

Ears How

WDZ, Tuscola, Ill., has mailed corn husks to 500 advertisers and agencies on which is printed "O, Shucks! Husk your profits with WDZ, over 2,009,000 'ears'."

KIT'S Own Daily WITH no newspaper on the streets of Yakima, Wash., between the morning and evening editions of the local publications, J. A. Mur-phy, manager of KIT, that city, as promotion for the station and to create good-will among local busi-nessmen, has started publishing a daily mid-day news sheet of his own. Deadlined for 11:30 a.m. and containing a round-up of hot off-the-press local and world-wide news, the sheet, mast-headed KIT Radio Daily, reaches readers by noon each day. It is 8½ x14 in-ches in size and mimeographed on both sides. Distribution is through restaurants in the immediate downrestaurants in the immediate downtown business area. Material is as-sembled, edited and printed at the station under direction of Pete Wick, KIT news editor, a former newspaperman. More than 400 copies are distributed and they must be left in the restaurant after reading for accommodation of other patrons. No advertising is carried, although various programs released by the station are briefly plugged daily. *

Lever Lockets LEVER BROTHERS Co., Cambridge, Mass., sponsor of the Big Sister program on CBS for Rinso, on Oct. 19 will introduce a fall proon Oct. 19 will introduce a fall pro-motional campaign for the program similiar to the offer last fall of cameos modeled after the profile of the featured star, Alice Frost. New offer will be lockets containing pictures of Miss Frost and her co-star, Martin Gabel, whom she mar-ries in the script, which listeners may obtain in return for 15c and may obtain in return for 15c and one Rinso box top. Agency is Ruth-rauff & Ryan, New York.

Omaha Routes ROUTE LISTS covering every drug and grocery store in Omaha, bound in pocket-size booklet form, are offered manufacturers, jobbers and urbicalence a morphondising and wholesalers as a merchandising aid by KOWH, Omaha. The book-lets also include blank space for notes and remarks on calls in addition to the printed retail outlet list.

BROCHURES

WHIO, Dayton, O.: Market data folder combining coverage maps with county-by-county economic statistics for the station's service area. CORN PRODUCTS Sales Co., N. Y.: Eight-page color brochure announcing Oct. 9 start of company's new five-weekly serial, *Society Girl*, on CBS. WTIC, Hartford, Conn.: Illustrated studio, personnel and talent fan maga-zine, offset printed by National Radio Personalities Inc., Peoria, Ill.

FROM THIS bright red structure on the grounds of the Kentucky State Fair at Louisville were dealt out both general information and tickets for the special appearance of WLW's Boone County Jamboree of WLW'S Boone County Jamooree at the fair. Among special promo-tions for the broadcast were two personal appearances of the Jam-boree troupe, one in the Jefferson Dry Goods Co. store and another in the Seelbach Hotel, and news-paper advertising by the store and the hotel calling attention to the "manuser" 'previews".

Without Spinach

GOOD NEIGHBORING in Bingham, Utah, to describe the "Galena Days" celebrathe "Galena Days" celebra-tion for listeners of KDYL, Salt Lake City, Program Di-rector Myron Fox was clapped in the town's festive hoosegow—a "kangaroo jail" hoosegow—a "kangaroo jail" located on the city hall steps —for violating a local ordi-nance, in effect before and during the celebration. The ordinance required all males a p p e a r i ng on Bingham streets to sport a beard of one kind or another. Clean-shaven Mr. Fox had to spend two hours in the jug before he could go about his an-nouncing. nouncing.

ALABAMA football fans are hearing the complete schedules of Alahama and Auburn football games through WBRC and WAPI, Birmingham. Nehi Bot-tiling Co. sponsors the games for Royal Grown Cola. Brondcasts are fed to Ala-bama Network. Leland Childs is an-nouncer for WBRC, and Maury Far-rell for WAPI.

BROADCASTING • Broadcast Advertising

Early Radio Incidents **Recalled** in Wile Book THE DEAN of American radio commentators, Frederic William Wile, a distinguished journalist and Wile, a distinguished journalist and former war correspondent, relates how he happened to start his form-er radio commentary, *The Political* Situation in Washington Tonight, in a chapter titled "Blazing the Radio Trail" in his newly-published book of memoirs, News Is Where You Find It [Bobbs-Merrill Co., \$3,75]

You Find It [Bobbs-Merrill Co., \$3.75]. Mr. Wile relates how he started broadcasting over WRC, Washing-ton, in the fall of 1923, did his job gratis for four years, then asked David Sarnoff, president of RCA, which owned WRC, to place him on the payroll. He was rejected, Mr. Sarnoff being quoted as saying "a selary arrangement was out of "a salary arrangement was out of "a salary arrangement was out of the question anyhow because radio could get all the speakers it wanted on a voluntary basis." He quit, then was paid \$50 a week until William S. Paley, CBS president, offered him a contract at \$10,000 a year, starting March 4, 1929. Mr. Wile relates in his book, which largely is devoted to his evperiences as a relates in his book, which largely is devoted to his experiences as a Washington and foreign newspaper correspondent, many of the side-lights of his radio career, and de-votes a chapter titled "Hello, America!" to his pioneer broad-casts from abroad which started when he accompanied the Ameri-can delegation to the London naval limitations conference in 1930. limitations conference in 1930.

WAAF, Chicago. recently invited its listeners to a roller skating party dur-ing its daily afterpoon Mythical Ball-room. So many fans turned out that Eddie Chase, conductor of the pro-gram, had to hold a second party.

KTBC Stock Setup

INCORPORATION of the group licensed to operate KTBC, new 1,000-watt daytime station on 1120 kc. which went into operation in kc. which went into operation in August and which shares time with the 500-watt WTAW, Texas A. & M. College station, was disclosed Oct. 6 in an application filed with the FCC for transfer of license to the State Capital Broadcasting Assn. Inc. Under the new setup, the stock is divided as follows: R. B Anderson member of the State the stock is divided as follows: R. B. Anderson, member of the State Tax Commission, president, 83 shares; R. A. Stuart, Fort Worth attorney, vice-president, 83 shares; A. W. Walker Jr., professor of law at the University of Texas, secre-tary, 84 shares. The station is man-aged by Richard C. Watts, with Harry Slife as chief engineer.

Public, with Howard Jones set-ting up a WIP microphone each afternoon at 3:15 p.m. at Ninth and Market Streets in downtown Philadelphia to pick up the com-ments, via interviews, of the or-dinary citizen.

Government Activities UNDER title of The United States Government Reports, the Arizona Network has launched a weekly quarter-hour educational feature originated at KOY, Phoenix, con-ducted by the local head of the S. Government Reports Office. He interviews various Federal de-partment heads on their official activities in that state.

Pick Your Noise

A RADIO novelty game on WIND, Gary, Ind., uses hundreds of sound effects. Listeners are supplied charts of the sound effects, and are asked to check the ones heard. Merchandise prizes for the most accurate charts are awarded by Cousin's Jewelry Store, sponsor.

Years of Miracles SENSATIONAL events through which the present generation has lived are dramatized on These Amaring Years, weekly half-hour program on NBC-Blue featuring Howard Vincent O'Brien, creator of All Things Considered, a daily column appearing in the Chicago Da ly News since 1932.

Abounds in Husking WDZ, Tuscola, III., is broadcasting 20 corn husking contests during Cotober. The contests will be re-moted within a 100-mile radius of the WDZ transmitter. Farm women will be featured in one contest, county farm advisers in another.

For the High School SLANTED to high school sports fans, WLS, Chicago, has started a Saturday morning program, Prep Sports. Jimmy Evans, Chicago sports commentator, is heard in a discussion of high school and prep teams, forecasts and predictions.

Busy Chicagoans WIND, Gary, Ind., has started a series called *Chicago at Work*. John L. Sullivan interviews workers at local factories on the thrice-weekly series sponsored by the local New-art's Clothiers.

A SPOT A DAY Proves an Effective Weapon -For Sports Dealer-

ONE DAILY 100-word spot an-nouncament on WFBG, Altoona, Pa., timed for the noon period when most workers in local indus-tries take their lunch hour, has proved an effective advertising ve-hicle for Burchfield & Co., local provide good store according to hicle for Burchfield & Co., local sporting goods store, according to the trade paper, Sporting Goods Dealer. "Our radio advertising costs only \$5.90 a week and it has brought as many as 50 customers to the store in a day," commented Roy Burchfield, an official of the store. "It is easy to check returns from radio announcements. When we announce a special, usually a number of men come to the store number of men come to the store and ask for it.

"Radio advertising is excellent for cleaning stocks at the end of each season. At the end of the last hunting season we had on hand a large quantity of coats. We offered them as a special and they were all moved out in a few days. It is our policy to clear stocks as far as poss.ble each season, rather than have a lot of money tied up in old stocks. This speeds up turnover, enables us to use the money for new stocks and impresses customers with the fact that they are buying fresh me:chand.se every season."

FCC Denials of Intervention Big Promotion Drive **May Bring Court Proceedings**

Attorneys Protest New Policy and Claim That **Rehearings May Be Required in Many Cases**

EVENTUAL court test of the new FCC procedure barring stations from participating in hearings on applications for new facilities unless the FCC is satisfied they can contribute substantially to the proceedings, is seen by virtue of action of that agency Oct. 10.

Sitting en banc the Commission, with two of its members absent, unanimously upheld the action of the Motions Docket on Oct 2 in denying intervention petitions filed by a number of stations which held their interests would be adversely affected if the applications in question were granted. In so doing, the Commission, with Brown and Case absent, upheld the contention of the Law Department, as reflected in the opinion of Commissioner Payne announced Oct. 2. This action had been indicated last month when the presiding commissioner at the Motions Docket reserved rulings on intervention petitions [BROADCAST-ING Oct. 1].

The adverse ruling on interventions brought a deluge of pleadings from attorneys representing stations seeking to intervene, on the ground that it was not in accord with the law or the FCC regulations. All these arguments, however, were rejected by the Commission in sustaining the Motions Docket actions.

Possible Legal Action

Several attorneys, it is understood, are considering possible legal action even at this stage, to enjoin the FCC from holding hearings on particular applications in which they are interested unless they are permitted to participate. It was considered more likely, however, that the majority of the stations would await decisions in the cases and then appeal to the courts, if aggrieved, claiming they were deprived of their rights to full and free hearings by the FCC

The Motions Docket ruling, sus taining the contentions of FCC General Counsel William J. Demp-

LANDSLIDE FOR WNEW,

HOOPER-HOLMES"

sey and Assistant General Counsel William C. Koplovitz, came in the case of WDBO, Orlando, Fla., which has sought to intervene in the hearing of Hazelwood Inc. for a new 1,000-watt station in that city. WDBO, represented by George O. Sutton and Arthur H. Shroeder, also requested enlargement of the issues prescribed for the hearing beyond the question of pure technical interference so that economic issues might be included.

The Payne opinion sharply condemned past practices under which intervention was almost automatic, and stated that participation of parties other than the applicant in broadcast proceedings in many cases resulted in unnecessarily long delays and in expense to both the Commission and applicants. The opinion said that the major function served by interveners in many instances was to "impede the progress of the hearings, increase the size of the record, confuse the issues, and pile up costs to the applicant and to the Commission through the introduction of cumulative evidence, unnecessary crossexamination, dilatory motions, requests for oral argument, and other devices designed to prevent expeditious disposal of Commission business.

Attorneys, in commenting on the action, not only contested its le-gality but held that the new procedure might well increase rather than reduce litigation costs. By preventing stations having a definite economic or technical interest in new applications from appearing in the initial hearing, the FCC might find that it will be forced to authorize rehearings upon motions for reconsideration or as a result of court actions, thus further delaying the handling of such applications, it was pointed out.

It was readily admitted that some reforms might well be insti-tuted in FCC hearing procedure as a means of expediting Commission action but that the extreme pro-

Pinocchio was adapted, produced and directed by Edward Sloman.

cedure adopted hardly accomplishes that purpose.

As enunciated in the WDBO case, the Commission held that the underlying purpose of the rule governing interventions is to limit participation to those persons who will be of assistance to the Commission in carrying out its statutory functions. It stated that WDBO failed to meet the requirement of the present rule. Insofar as WDBO requested permission to enlarge the issues at the hearing, the opinion said that the determination of what issues an applicant should be required to meet is a matter committed by Congress to the discretion of the Commission.

Others Protest

The Commission said that if the issues specified by it in a notice of hearing are in themselves a sufficient basis for denying an application if the applicant fails to sustain its burden of proof, no third party is harmed because the Commission does not also include in the hearing other and different issues, "even though conceivably it may be necessary at some later time for the Commission to designate the application for further hearing if the applicant meets its burden on the issues already specified."

In addition to the opposition to the Payne opinion cited on behalf of WDBO, a number of other stations, through their Washington counsel, contested the ruling as it applied to denials of their inter-vention applications. These included pleadings on behalf of the Clear Channel Group and NBC, which sought to intervene in the hearing on the application of WHDH, Boston, for fulltime operation on the 830 kc. clear channel assigned to KOA, Denver; Scripps-Howard Radio Inc., which sought to intervene in the application of Stuart Broadcasting Co. for a new regional station in Knoxville, Tenn., where Scripps - Howard operates WNOX; and WOAI, San Antonio, which protested the application of KMAC, that city, to change its frequency from 1370 to 930 kc. and increase its power from 250 watts day and 100 watts night, timesharing, to 1,000 watts day and night unlimited time.

The WHDH issue, however, was disposed of when the FCC Oct. 10 postponed indefinitely the hearing on its application for full time on the 830 kc. clear channel. Mabel Walker Willebrandt, former Assistant Attorney General, had represented the station but the Commission was notified prior to the hearing that Andrew Haley, former FCC attorney, had been retained in the case and could not be prepared for the hearing as schednled

'Star Chamber' Charge

Louis G. Caldwell, counsel for the Clear Channel Group of 13 sta-tions, filed three separate pleadings on their behalf protesting the in-tervention denial. Philip J. Hennessey Jr. filed two petitions and a motion to dismiss on behalf of NBC in the same case.

For Scripps-Howard, Paul M. Segal, its attorney, filed a petition to have the FCC review and re-verse the denial of intervention in the Knoxville case. Mr. Caldwell, Reed T. Rollo and Percy H. Russell Jr. filed the petition for review and a request for oral argument in the San Antonio case.

Messrs. Sutton and Shroeder submitted a 15-page response to the Payne ruling in the Hazelwood case. In addition to challenging the action as "unjust, illegal, arbitrary and contrary to existing court decisions", the attorneys took exception to the "public condemnation of the practices which the Commission has created by its own rules and regulations, all of which acts and conditions were brought about with its knowledge, consent and approval." They added that while they sympathized with the Commission in its many problems, WDBO "is in no way guilty nor responsible for the acts and conditions therein set out."

They further held that under the ruling of Commissioner Payne, the Commission undertakes to determine whether the broadcasting service now available to the public in Orlando from WDBO "will be depreciated, jeopardized or destroyed by ex parte proceedings." The ruling, it was contended, might be construed as smacking of "star chamber proceedings" and defeat the argument with respect to saving of time and money if further hearings are to be held on the same application. It was contended that it is far less costly for a petitioner to intervene in a proceeding in its first stage than for the Commission to deny the petitioner intervention and then have the matter threshed out through legal proceedings.

NEW YORK

From zero to 44 million in 20 years!

in two decades research in RCA Laboratories has played a big part in making radio set ownership exceed the figures for any other electrical device

People want radio sets more than they want anything else in the line of electrical equipment. This is proved by the fact that there are in the United States more radio sets than electric irons, or toasters, or washing machines, or vacuum cleaners, or any other electrical device. Even the 44 million radios in this country are not enough. Millions of homes want *more* radios, and want to replace old models with new.

RCA takes pride in the fact that the intense public interest in radio, and the ever-growing market for radio sets, both rest in no small degree on research in RCA Laboratories. From these studies there have come many of the important advances constantly made in set design and performance. But RCA does more. Through the National Broadcasting Company it renders a fundamental service that contributes to the life-blood of the radio business... broadcasting. For interest in buying radio sets depends on a continuous offering of good programs, and constant advance in the art of broadcasting. NBC discovered or developed many of the basic principles of radio entertainment, and is responsible for a large proportion of the advances that have been made in the technical aspects of broadcasting.

This month RCA celebrates its twentieth anniversary, confident that it has rendered in two decades a pioneering service of the utmost importance to a great American industry as well as to the American public.

New Transmission Plan Employs Narrower Band

NEW WAVE transmission system, employing a restricted form of frequency modulation, has been de-veloped by John A. Csepely, of New Haven; Conn., who claims his inven-tion will not only improve the tone quality of radio reception, but also will make possible the operation of a greater number of transmitters in the regular broadcast band and increase the range of television transmission. The new transmission system, applicable to wire, cable and radio transmission, according to its inventor, is based upon the addition of a simple control circuit to the transmitter, with no changes

of any sort required for receivers. Through addition of the newly-devised circuit, which is bridged between microphone and oscillator, present standard broadcast transmitters may be converted into either a high-fidelity or a narrow either a high-fidelity of a harrow band transmitter, Mr. Csepely de-clared. Frequency range is com-pressed during transmission and high-fidelity reproduction is ob-tained at the receiver, he explained. In demonstrations he reported he In demonstrations he reported he has tuned a receiver to WJZ, New York, received the signal, then re-broadcast it across the room via telephone wires, first routing the signal through the special circuit and compressing it from 3,000 cycles to 1,500 cycles, and received the signal, expanded to its original 3,000 cycles on prother set Among 3,000 cycles, on another set. Among advantages resulting from the new type of narrow-band transmission he lists diminished natural and man-made static, less selective fading, effective increase in transmitter power and high-fidelity transmission within a 10 kc. band.

Bunn With Wire Broadcasting C. W. BUNN, formerly general sales manager of Electrical Research Prod-ucts, New York, and a pioneer in the development of talking pictures with Warner Brothers, has been appointed general manager of Wire Broadcast-ing Corp. of America, New York. Mr. Bunn plans to extend the company's wired service to other cities and will supervise the activities of the present associated organizations — Telepro-grams, Telenusic of New York, Muse-Art Corp. of Philadelphia, Television Music of Washington, D. C., Tele-music of New Jersey, Wire Broadcast-ing of New Jersey and of Pennsyl-vania. vania

New York F-M Station Is Proposed by Yankee; Says New Art Is Ready

HOLDING that frequency modula-tion has passed the experimental stage and is ready for everyday operation, Yankee Network, pioneer experimenter with the new "staticless" system of transmission and reception invented by Prof. Edward H. Armstrong, has applied to the FCC for authority to erect two more F-M transmitters—one in the New York metropolitan area and the other on Mt. Washington, N. H. Yankee is now operating W1XOJ atop Mt. Asnebumskit, near Wor-

cester, using 2,000 watts on 43 mc., cester, using 2,000 watts on 45 Inc., and early next year will raise its power to 50,000 watts. A relay sta-tion, WEOD, carries F-M signals from Boston to the transmitter, 43 miles away, using 250 watts on 133.03 mc. Great success has been achieved with the system, leading to the conviction that it is ready to

pass beyond the experimental stage. The proposed New York station would operate with 50,000 watts on 43 mc., using a seven-bay turnstile 43 mC, using a seven-bay turnshe on Prof. Armstrong's tower al-ready erected for his W2XMN at Alpine, N. J. The Mt. Washington station would operate with 5,000 watts on 42.6 mc., and would util-ize the experimental plant already installed there by Yankee under the direction of Paul A. deMars, Yankee chief engineer.

Insurance Program Suit

CLAIMS of the Knickerbocker Broadcasting Co., owner of WMCA, Broadcasting Co., owner of WMCA, New York, that the programs broadcast by Donald Besdine and Morris H. Siegal, insurance ad-visers, were in the public policy and interest, were dismissed in the New York State Supreme Court Oct. 10 by Justice Peter Schmuk, who ruled that the programs were sponsored by the advisers and so were motivated by commercial in-terests. Station's claims were put forward as defenses in the \$550.000 forward as defenses in the \$550,000 damage suit of Metropolitan Life Insurance Co. against the station and the two insurance advisers. Suit is concerned with 22 specific programs.

First Code Act Brings NAB Discord

Father Coughlin Barred; Elliott Roosevelt

Ignores Pact

(Continued from Page 12) mend itself to any reasonable person. It does away with the justified criticism that public discussion has been weighted heavily on the side of those with large sums to buy time.

"Father Coughlin's sponsors apparently do not believe in fair play. They want a 'fair advantage' through the purchase of time. The Civil Liberties Union condemns such an attitude and commends the enforcement of the code in the interests of equal rights for all in the discussion of public issues."

At the NAB, it was stated that none of the commentators mentioned in the Patt telegram actually falls in the category of controversial speakers, insofar as their current commentaries are concerned. Only Elliott Roosevelt, it was indicated, indulges in expression of personal opinions, particularly on the subject of neutrality. In the case of Mr. Cameron, commentator during the Ford Sunday Evening Hour on CBS, it was pointed out that in his current series he is not espousing one view-point as opposed to another and that CBS has so devised its contract with the Ford Company that in the event he does indulge in controversial discussions, equal time will be allowed opposing viewpoints.

Committee Seeks Time

A new complication erupted Oct. 9 when the newly-formed Non-Partisan Committee for Peace Through Revision of the Neutrality Law petitioned the 44 stations carrying the Coughlin broadcasts to give it equal time on Oct. 15 immediately following Father Coughlin's address. Headed by William Allen White, noted publisher of the Emporia Gazette, as chairman, the Committee pointed out that unlike the Coughlin interests it has no funds to purchase telephone lines but it would send transscriptions of good quality to the stations. Mr. White said the request was made so that both sides of the question may be fully pre-sented "in accordance with the spirit and ruling of the NAB sented Code". Such prominent figures as former Gov. Alf M. Landon of Kansas, Frank Knox, publisher of the Chicago Daily News, and Msgr. John A. Ryan of Catholic University, are listed as members of the Committee.

The request brought a deluge of inquiries to the NAB, since it asked for free time to answer Father Coughlin. The NAB response, it was stated, was that under the code provisions the right of rebuttal was apparent and the Committee appeared to be a qualified organization.

Code Group Discussions

The Code Committee sessions Oct. 2 and 3 in Washington were heated. While the issues before the Com-

mittee transcended Coughlin and covered similar bans on such speakers as J. F. Rutherford of Jehovah's Witnesses and Dr. Walton E. Cole, Unitarian Minister of Toledo, who has purchased time to answer Father Coughlin, the situation of the Detroit priest predominated. Technically, several attorneys held the view that under the strict terms of the code, it was possible to continue the Coughlin broadcasts for another year, or until all existing contracts expire. One attorney said it nevertheless would be morally wrong to do so under the interpretations of the Code Committee.

Shepard at Meeting

At the Oct. 3 session of the Code Committee, Mr. Shepard was present with his attorneys, former Commissioner E. O. Sykes and Paul D. P. Spearman. Mr. Spearman, it was reported, pointed out that if the terms of the code were enforced, it might have immediate official repercussions to the detriment of stations. For example, he pointed out, a citation by the NAB that a particular station had openly defied the code mandate, might lead to applications for that station's facilities and render it vulnerable.

The Code Committee did not perfect its compliance machinery, beyond that established by the NAB board, at its September meeting in Chicago. This procedure provides that rulings of the Committee can be appealed to the NAB board, which then will decide upon punitive action. There had been previous talk of expulsion from NAB membership but it is doubted now this course will be pursued.

Rev. Cole announced immediately after the NAB action that he intended to continue his transcribed addresses along non-controversial lines. He said he regarded the new ruling as eminently fair and added he had insisted from the beginning that America is entitled to hear both sides of controversial questions. He said he had never urged that Father Coughlin be silenced but recommended that he should be heard with speakers representing both sides of the many controversial issues he has raised.

Many Voice Support

Support of the code came to the NAB from many organizations and groups. The National Council of Catholic Men, through Executive Secretary Edward J. Heffron, hailed it as a "splendid platform of Democratic broadcasting". William Allen White said he could not see how any "honest, tolerant American citizen who wishes both sides presented can fail to support that code."

Paul B. West, president of the Association of National Advertisers, called it a significant and farreaching step through which broadcasters "have acknowledged and fairly defined their social responsibilities and in broadest sense planned a wise course of action to meet those responsibilities." John Benson, president of the American Association of Advertising Agencies, cited it as "a fine extension of good stewardship".

Other associations which commended the code and its interpretation included the Federal Council of Churches of Christ in America, National Council of Women's Clubs, Boy Scouts of America, Union Theological Seminary, National Education Association, George V. Denny Jr., director of the America's Town Meeting of the Air, Lyman Bryson, director of the People's Platform, and W. Russell Bowie, director of Grace Church, New York City.

NAB buttressed action of its Code Committee by dispatching analyses of the code to members of Congress, national organizations and other groups. President Miller sent to all members of Congress a letter explaining the code's purposes and scope. Inviting comments and suggestions, he said he received nearly 100 responses, all commendatory. Code Committee Secretary Kirby sent to some 3,000 organizations copies of the code and advised them of its purpose and effect. Comments and suggestions likewise were solicited.

To the some 200 complainants who registered protests with the NAB against the Coughlin action, Mr. Kirby sent a letter advising them that their opinions apparently were based upon incomplete information. He pointed out the code did not deny the right of free speech to any man but did just the reverse. He emphasized that the code guarantees that listeners will hear both sides of all controversial issues.

Reactions in Congress

Despite the spadework done, it was apparent that the code operations are not thoroughly understood in Congress. Moreover, there were indications that Coughlin supporters in Congress would stir up a controversy over its provisions. It was learned that a number of inquiries had been made at the FCC by irate Congressmen who wanted to know why the "Government" had instituted such "censorship restrictions". FCC officials explained that the code was a voluntary industry proposition and that the Commission had nothing whatever to do with its drafting or enforcement.

In other Congressional quarters, the view apparently prevailed that the code would prevent candidates for public office from purchasing time. This view was expressed by at least two members of Congress who, however, were straightened out on it. As a result of this misunderstanding, President Miller undertook to inform members of Congress by letter of the purport of the code, with particular reference to the controversial issue phase.

Realizing that an educational job lies ahead, President Miller plans to set in motion a campaign in which radio itself will be used as the primary medium. Following up his address before the Civil Liberties Union in New York Oct 14, carried over an MBS network, he planned to use additional time on other major networks with the code as the theme. It was expected also that Chairman Bill of the Code Committee likewise would make one or more network addresses.

Thought also was given to a regular series of programs using the question-answer technique, in which particular code provisions would be amplified as they apply to particular groups or classifications. For example, the thought was that outstanding leaders in religion, politics, labor, women's activities and other sustantial groups could be interviewed in such a series as a means of conveying to a complete cross-section of the country the impartiality of the code provisions.

AFL Chief Lands Code

Another strong voice in support of the code was heard Oct. 6 over CBS when Matthew Woll, vicepresident of the American Federation of Labor, at its convention in Cincinnati, described it as an important move "in defense of democracy by guaranteeing that radio will continue to provide an open forum for discussion of public is-sues." He said that the industry code guarantees that no one side shall monopolize the airwaves when a great public issue arises, but that all sides-majorities and minorities, rich and poor alike-shall have free access to the microphone to state their case.

"This is in the best tradition of democracy," Mr. Woll said, "and I think the broadcasting industry is to be congratulated for this sane and orderly procedure, which rules out domination either by force of numbers or by force of wealth. On that front, at least, power politics has been defeated."

MOVIES OVERRULED ON FREE TIME BID

REJECTION of a "free offer" of the Motion Picture Producers & Distributors of America Inc., commemorating the 50th anniversary of motion pictures, was advocated by the NAB Oct. 13. NAB reported a script had been offered stations which could be broadcast "free of charge", and which included several plugs for movie productions past, present and future.

NAB stated while the industry desires to render every cooperation to sister industries, it has advised Kenneth Clark of MPPDA that the scripts were unacceptable except on a paid basis, and invited his cooperation in helping members sell the program to local exhibitors. Other free time seekers, the NAB reported, include the Missionary

Other free time seekers, the NAB reported, include the Missionary Servants of the Most Holy Trinity, which has since withdrawn its offer after being informed that the plan to sell books at \$1 a copy was a violation of the code, and the National Dunking Assn., seeking to popularize this custom and sell more doughnuts and coffee.

doughnuts and coffee. "Cost-per-inquiry" propositions from Dietetic Research Laboratories for MVM Reducing Perles, and Interstate Advertising Agency for Sunlit Flower Fields, were judged as in violation of the NAB Code, and the principals so notified.

Claims It Is Unconstitutional

And Asks for Injunction

PURSUING its practice of combat-PURSUING its practice of combat-ing State anti-trust laws, ASCAP has filed an attack upon the 1939 Florida statute, alleging unconsti-tutionality and requesting a pre-li mi n ary injunction. Arguments will be heard Oct. 19 in Jacksonville before a special three-judge court.

The new attack is by a supple-mental bill of complaint in the ex-isting suit of Gene Buck, ASCAP president, against Florida's attor-ney general. The State will seek to compel ASCAP to file a separate suit.

Florida's new statute, supplant-ing one which had been held faulty, requires full disclosure of copyrequires full disclosure of copy-rights by the copyright owners through filing of catalogs with the State comptroller; sanctions blan-ket licensing and blanket fees provided each member of the copyright combination makes available to the user the right to use on a "per piece" basis at prices determined by the copyright owner and filed with the comptroller; prohibits blanket licenses which require payment on programs not using music coming under the license.

Like Newspaper License

The effect of the statute is to re-ASCAP license accorded stations owned by newspapers. It also im-poses a 3% privilege tax for the right to do business in the State. The statute is similar to those in force in North Dakota and Kansas.

The special court to hear the The special court to hear the ASCAP plea comprises Judges Long and Strum of the District Court and Judge Hutchison of the Circuit Court of Appeals. ASCAP's attorneys are Frank Wideman and Manley Caldwell. Appearing for the State are Assistant Attorney General Tyrus A. Norwood, Lucien Boggs, of Jacksonville, and Andrew W. Bennett, NAB counsel, acting as special assistant. E. C. Mills, ASCAP administrative committee ASCAP administrative committee chairman, and Louis D. Frohlich and Herman Finkelstein, ASCAP counsel, planned to participate in the hearing.

Spot Time Sales

EXPENDITURES for spot radio time on 14 New York City stations in July totaled \$776,000 according to the first issue of National Radio Records, New York [BROADCASTING, Oct. 1]. Expenditures indicated in-clude: retail, \$167,771; general, \$524,910; automotive, \$48,092; fi-nemeici \$25,997 The pational total nancial, \$35,227. The national total for the month, NRR reported, was \$5,860,315, broken down to: retail, \$2,925 (only one advertiser, Gallenkamp Stores Co., San Francisco, on 4 NBC-Pacific stations); general, \$5,330,224; automotive, \$495,-581; financial, \$31,585.

RICHARD MARVIN, vice-president of William Esty Co., flew from Holly-wood to Nashville Oct. 12, to attend the following day's broadcast of WSM's Grand Ole Opry, first under the sponsorship of R. J. Reynolds To-bacco Co. for Prince Albert pipe to-bacco hacco.

ASCAP Contests FCC Claims Operator License Policy New Florida Law Remains Unchanged Under New Rules

DISCLAIMING any reported change of policy in allowing ser-vice qualifications for renewal of First Class Telephone Operator li-censes, the FCC on Oct. 4 re-sponded to a group of identical letters of protest received from sev-eral A m e r i c a n Communications eral A m erican Communications Assn. locals scattered over the country. Protests entered by the technician unions centered about the alleged refusal of the FCC to accept studio and control room duty, in lieu of regular transmitter duty, in satisfying the service re-

NAB Hits Critics Of Copy Standard

CRACKING back at the criticism of spokesmen at the convention of Association of Food & Drug the Officials in Hartford, last month, NAB announced Oct. 13 that radio advertising copy is more "strictly and thoroughly policed" than that of any other medium. Unlike any other medium, the NAB Bureau of Advertising stated, radio exerts "voluntary regulation of advertis-ers' claims".

The NAB statement was promp-The NAB statement was promp-ted by suggestions advanced at the conference [see page 18], urging more stringent regulation of claims made by food and drug radio ad-vertisers and that they be subjected to the same scrutiny by Government

officials as newspapers. Declaring the statement unfair and not based on facts, NAB stated the Federal Trade Commission is furnished with scripts of all network commercials and reviews com-mercials in transcription spot pro-grams. However, it said, all sta-tions supply a full week's scripts at quarterly intervals, a practice which has been in form of 1024 which has been in force since 1934. which has been in force since 1934. The statement quoted from the an-nual report of the Trade Commis-sion for the 1938 fiscal year, in which it stated that in general it had received helpful cooperation of nationwide and regional netof nationwide and regional net-works, transcription producers, and some 617 active commercial sta-tions. It added it had observed an interested desire on the part of broadcasters and publishers "to aid in the elimination of false, mis-leading and deceptive advertising". The NAB reply was sent to the food and drug officials in a letter to Edwin G. Wodoward, president of the association, as well as to the speakers who had criticized radio advertising. advertising.

Apply to Transfer WKRC

Apply to Transfer WKRC Formal application for assignment of WKRC, Cincinnati, from CBS to the Gincinneti Times-Star was announced Oct. 12 in conformity with the recently announced \$320,000 purclasse deal [BROADCASTING, Sept. 15]. Hulbert Taft, nephew of the late President and Chief Justice and cousin of Senator Robert Taft of Ohio, is listed as presi-dent of the Times-Star Co., and 10% stockholder. Listed as 40% stock-holders each are Jane Taft Ingals and Louise Taft Semple. William T, Sem-ple is vice-president of the company und C. H. Rembold, secretary-treas-urer. The station on Sept. 24 relin-quished its CBS affiliation in favor of WCKY and wcut on MBS though it will continue to be operated by CBS until transfer of ownership is author-ized. ized.

quirement for renewal of license without re-examination.

Pointing out that the revised operators' rules have not altered the situation prevailing under the the situation prevaiing under the old rules, where a technician per-forming duties not requiring the employment of a licensed radio operator was not to be given credit for such service as a basis for re-newal of license, the FCC in its an-swer declared that "in no case has the Commission knowingly accented the Commission knowingly accepted this service". As for "satisfactory service", that interpretation also is essentially the same in substance as under the old rules, the FCC letter continued.

Justifying the stand against al-lowing studio and control room service as well as actual transmitter duty, the letter stated: "Experience obtained as a result of broadcast station inspections has indicated in many cases operators assigned solely to studio control work for ex-tended periods of time lack intri-cate knowledge of the operation of the transmitter. "The station licensee is responsi-

ble for the proper operation of the station and it is felt that the selec-tion of personnel should likewise be a responsibility assumed entirely by the employer. Whether or not a station licensee required licensed operators for studio work is a mat-ter to be determined by each licen-see. For the Commission to require licensed operators for all positions associated with the technical operation of broadcast stations would be impractical as well as unnecessary. Since the transmitter is always in charge of a properly li-censed operator, it is the Commission's policy to permit the employ-ment of unlicensed personnel in other parts of the broadcast sta-tion's system."

A similar query on the "satis-factory service" interpretation and service requirement also has been service requirement also has been received from Samuel R. Rosen-baum, president of WFIL, Phila-delphia, who pointed out in his let-ter that apparently disparity exists between the rules as promulgated and as interpreted by FCC field of-fices. Mr. Rosenbaum, "speaking for the wainvity of hwadest st for the majority of broadcast sta-tion owners", declared that while owners felt strongly about operators who may attempt gratis re-newals upon alleged but fictitious service, to avoid "undue hardship

To Support Red Cross

ARRANGEMENTS are being com-ARRANGEMENTS are being com-pleted by networks, independent stations and big radio advertisers to support the annual Red Cross Roll Call. Starting Nov. 11 with a full-hour *Red Cross Parade* on NBC-Red, CBS and MBS, 10:30-11:30 p.m. (EST), on which sevratio pink (BDT), on which sev-eral well-known bands, theatre and radio stars will appear from both Hollywood and New York, the Roll Call drive will be supported from Nov. 12 to 25 by spot announce-ments and sketches on sponsored network programs. To about 250 independent stations the Red Cross will distribute, about Oct. 23, two will distribute, about Oct. 23, two quarter-hour recorded dramatic programs, each of which concludes with a short Roll Call appeal. Chapters are being notified to con-fer with local station managers on scheduling.

New CBS N. E. Rates

NEW rate card for CBS New England Network, effective Sept. 15, has been issued by Radio Sales, listing the one-time evening rate at \$1,730, an increase from \$1,625. Since the last rate card was issued. in November, 1938, the night power of WPRO, Providence, R. I., has been increased from 500 to 1,000 watts.

both on employer and employe" the whole subject should be carefully reviewed with an eye to clearing up apparent discrepancies.

FOR BROADCASTERS" 1939 F. T. L., Inc.

- investigate the potential earning power of Finch Facsimile—the system that prints news of the world in the home—while it happens!
- New equipment now available reproduces 2, 4 or 5-column newspaper format at speeds up to 20 square inches per minute. Prass matter, drawings, photos and complete advertisements are reproduced fullsize in fine detail.
- Finch Facsimile can be used with radio, landlines and suitable cable circuits with equal facility. Operates from any source of power and is completely self-synchronizing under all service conditions.

Radio engineers and executives are invited to inspect Finch Facsimile Station W2XBF in operation daily at 1819 Broadway.

FINCH TELECOMMUNICATIONS, Inc. BENDIX, N. J.

N. Y. Sales Office, 1819 Broadway Circle 6-8080

THE FCC has assigned the call letters WNYE to the New York City Board of Education's non-commercial educational broadcasting station onerating on 41100 kc, under the FCC rules of Jan. 27, 1938 [BROADCASTING, 1939 Yearbook, page 370]. Formerly the station was known as WCNY, but the new call was allocated to avoid confusion with the municipal broadcasting station WNYC.

WLS. Chicago, has started two new educational programs under supervision of its director of education. Mrs. Harriet Hester. A quarter-hour Wednesday evening series features highschool choruses from various Chicago high schools. A second quarter-hour series features parent education and is given under auspices of the adult council of the WPA. Various schools who listen regularly to the WLS School Time are invited to see the broadcasts and participate in the singing.

WMAQ. Chicago, has started a halfhour Saturday morning studio program *High School Studio Party.* Students who can act, sing, tell stories, etc., are auditioned for the show and students from all of Chicago's high schools are eligible. No tickets are necessary for admission to the show and in addition to entertainment a part of the program is diven under anspices of the Chicago Radio Council, directed by Harold Kent.

DR. LEE DeFOREST, radio and wireless pioneer, has accepted membership on the board of consultants of CBS' American School of the Air, serving as advisor to the air school in scientific fields in general and radio technology in particular.

A "Must" Book for Station Management

TREATING health, social security, foreign trade, labor welfare, and other problems of democratic government in units of five or six broadcasts encle, the U.S. Office of Education has inaugurated a new plan of educational broadcasting on its Democracy in Action series, now heard Sundays at 2 p. m. (EST) on 107 CBS stations. The first groups of five programs, covering foreign trade, started Oct. 8. Laura Vitrars, formerly Sunday editor of the Washington Post writes the Democracy in Action scripts.

COURSE in radio has been added to the curriculum of the State Teachers College. Trenton, N. J., for the 1939-40 senson, under the direction of Robert B. Maclougall. a member of the radio committee of the National Council of Teachers in English.

KWSC, Washington State College station at Pullman, has increased its *Nchool of the Air* broadcasts by five hours a week for the 1939-40 school senson, now including in its schedule 16 separate programs designed for use in grade and high schools in Washington and neighboring states.

DEPARTMENTS of Education in New Mexico and Louisiana have officially adopted CBS' American School of the Air as part of the curriculum in State schools, thus making a total of six States which have included the CBS series in classroom programs.

THE HISTORY of democracy and its ideals is again being dramatized for children and adults on the weekly educational feature, *Ideas That Came True*, which returned to NBC-Blue on Oct. 5 for the 1930-40 season, with Dr. Rollo G. Reynolds, principal of Hornce Mann School, New York, again acting as narrator.

Boston's Television Girl WINNER among more than 400 contestants in the competition held recently by WBZ-WBZA and RCA in Boston to find Boston's Own Television Girl, Eleanor Aycock numbered among her honors official receptions by Gov. Saltonstall of Massachusetts and Mayor Tobin, a coast-to-coast presentation to radio listeners on NBC-Blue, an airplane trip to New York where, as a guest of the NBC television department, she had a role in an actual television program, and a tour of the New York World's Fair as the guest of Dr. John S. Young, radio and television director of the Fair. Here Miss Aycock is shown during her visit to NBC's Radio City television studios, participating in the program with Glenn Riggs, NBC television announcer. The Boston contest was held in conjunction with a one-week visual broadcast demonstration in the music center of the Jordan Marsh Department Store.

AT THE REQUEST of local school authorities and various Parent-Teacher Associations, KECA, Los Angeles, has resumed its five-weekly quarterhour School Edition of the News, featuring Pat Bishop, commentator. All news is edited carefully in the interest of school children. Vice and crime news, as well as other items which do not mensure up to the standard set by the Los Angeles Board of Education is eliminated. Nothing but news of a current historical nature is broadcast.

Clist. BAYLOR U. Waco, Tex., on Oct. 4 started a weekly half-hour series on Texns State Network, originating from Waco Hall on the campus through WACO. Waco. The series, featuring college symphony, choral and dramatic groups, was arranged by Forrest W. Clough, TSN educational director.

ON THE opening broadcast Oct. 5 of America's Town Meeting of the Air on NBC, George V. Denny, Jr., presi-dent of Town Hall, and moderator of the program, announced details of the \$1.000 essay contest, winners to be announced soon after the contest's closing date on Dec. 4. First prize of \$500 will he awarded the best es-say not exceeding 1.000 words in length on the subject "What Does American Democracy Mean to Me?" Second prize is \$200 and third \$100. Twenty additional nrizes of \$10 ench will he awarded. The winning essay, selected by a committee of prominent Americans, will be printed in Cur-rent History and the Town Meeting Bulletim, and the writer will he in-vited to appear on a Town Meeting broadcast. broadcast.

WNYC. New York's municipal station, on Oct. 9 started the fall schedulo of daily broadcasts by New York City public schools under the puspices of the Board of Education. Two hundred broadcasts on the elementary, academ-ic and vocational high school levels have been arranged and will be pre-sented by the publis under the direc-tion of faculty members. All programs originate from the ultra-high frequen-cy station. To be heard also on WNYC, and are scheduled Mondays through Fridays, at 10:15 a.m., 1:15 a.m., 1:45 p. m. and 3 p. m. A radio com-mittee beaded by Region Burke, as-sociate Superintendent of Schools, will evaluate the education aspects of the programs with a view to making ra-dio programs a regular phase of the school's curriculum.

FURTHER use of radio as an edu-cational medium will be demonstrat-ed late in October when Harvard's Graduate School of Education and Pea-hody College for Teachers, Nashville, Tonn... will coonerate in producing *This Living World* arograms, the Fri-day series of CBS American School of the Air. First of the brondcasts to be arranged throughout New England CHS will be Oct. 27 in Civic Auditor-ium. Springfield, Mass., while later broadcasts from Nashville high school auditoriums will be arranged by Pea-body College. FURTHER use of radio as an eduhody College.

body College. NEW ENGLAND Women's Press Assn, on Oct. 18 will stort its fall brondcasting activities on WORL, Bos-ton, with a special program during which certificates of merit. given on hehalf of the National Federation of Press Women, will be awarded to WORL and Mrs. Mande W. Linscott, conductor of the weekly Women in Re-pieto program on the station. Mrs. Linscott won the award "for the best creative radio brondcast produced by a woman for the State of Massachu-setts", while the station's award is "for foresight and cooperation in spon-soring this outstanding woman's pro-gram."

TOTAL of 100.000 letters of approval TOTAL of 100.000 letters of approval from listeners throughout the country has been received by producers of the CBS program What Price America, heard 25 times since its debut in Jan-uary. The program, produced in co-operation with the U.S. Department of Interior. dramatizes America's struggle to restore and preserve her unitural resources natural resources.

UNIVERSITY of Chicago Round Ta-ble celebrated its seventh network an-niversary Oct. 7. The discussion se-ries featuring prominent educators and public figures is aired on 68 NBC-Red stations in 38 stations to an esti-mated audience of three million.

INDIANA State Teachers College has started its sixth consecutive year of educational broadcasting on WBOW. Terre Haute, with five individual se-ries of programs announced by Dr. Clarence M. Morgan, radio director.

ARIZONA U on Sept. 29 inaugu-ARLIANA U on Sept. 29 inaugu-rated a new series of regular univer-sity radio productions, originating in the campus studio and carried alter-nately by KTAR-KVOA and KTUC-KOY.

PITTSBURGHERS got a demonstration of visual broadcasting the week PITTSBURGHERS got a demonstration of visual broadcasting the week of Oct. 1 through the cooperative efforts of KDKA and the local Spear's store. Operating on a schedule of four performances daily, two in the afternoon and two in the evening, the exhibition telecasts were dedicated opening day by Mayor C. D. Scully, of Pittsburgh, and later presented interviews with local and visiting celebrities, along with entertainment by KDKA staff artists, handled by Ed Schaughency, KDKA announcer. Technical installation was supervised by J. C. Baudino, KDKA plant manager, and operation was supervised by Engineer T. C. Kenney. Spear's store publicized the demonstration with announcements on all five Pitts-burgh stations and full-nage ads in local newspapers. and both the store's store publicized the demonstration with announcements on all hve Pitts-burgh stations and full-page ads in local newspapers, and both the store's and KDKA's merchandising staffs got behind the project. One of the chief eye-catchers employed was the KDKA special events car, a midget Bantam, shown above carrying (1 to r) Nathaniel Spear, president of Spear's; Mayor Scully; Miss Pennsylvania (Ruth Willock), and Miss America (Patricia Donnelly). The car was used to carry artists, staff members and technical experts through Pittsburgh streets daily on their way from the studio to the store for the visual demonstrations.

Television News Notes

RCA-Farnsworth Pact

RUA-Farnsworth Fact A CROSS-LICENSING agreement has been entered into by RCA and Farnsworth Television & Radio Corp. whereby each party acquires the right to use the other's inven-tions in television and other fields, according to an announcement according to an announcement made jointly on Oct. 2. RCA gets a non-exclusive license for television receivers and transmitters and other radio and sound recording and reproducing apparatus under and reproducing apparatus under Farnsworth patents. Farnsworth Corp. receives a standard non-ex-clusive license under RCA patents for broadcast and television receiv-ers and electric phonographs and also other non-exclusive licenses for television and broadcast trans-mitters and for other fields. Neither company acquired any right to issue sub-licenses to third parties under the other's patents.

Book by Lohr

*

LENOX R. LOHR, president of NBC, has written a book on tele-vision broadcasting which will be published early this winter by Mc-Graw-Hill. Volume, which has not yet been titled, will cover visual broadcasting from all angles, engineering, program production, economics, etc., in non-technical language.

To Give Lectures

THELMA PRESCOTT, who re-signed recently from the NBC television production division, has been signed by NBC Artists service de-partment to give lectures on "Behind the Scenes in Television" at women's clubs, drama schools and universities throughout the East. Cincinnati Demonstration WLW, Cincinnati, conducted the first public television demonstra-tion in the city recently when it arranged for installation of technical equipment, installed and manned by RCA, in a local department store. With iconoscopes on the fourth floor of the store, connected by coaxial cable with receivers on the ninth, the station furnished entertainment by studio talent during the six-day showing as well as ar-ranging for talent from local night clubs and interviews with members better ball team. Peter Grant and Charles Woods, WLW announcers, were m.c.'s.

Indians See UTE INDIANS of the Uintah and White River tribes of Eastern Utah recently performed ancient tribal dances and ceremonies for the television audience during a demonstration using the RCA portable equipment conducted by KDYL at the Paris Co. Department Store in Salt Lake City. After repre-sentatives of the two Ute tribes had performed the ancient "Bea1 Dance" and "Turkey Dance", the 89-year-old chief of the Uintahs described in Ute sign language the coming of the whites to Utah.

REVISION of NBC's television schedule will drop Tuesday after-noon and evening programs and start each week off on Wednesday, but will add Saturday evening and Sunday afternoon telecasts to the schedule instead. Arrangements have been made to televise boxing matches in Brooklyn, 9 to 11 Saturday nights and home games of the Brooklyn Dodgers, pro football team. 2:30-4:30 Sunday afternoons.

All About Television

All About Television TO TELL the radio listener some-thing about television, NBC has started a new series, *Television Backstage*, broadcast each Friday, 1-1:15 p.m., on the Red network. Each week Announcer George Hicks, aided by "Bobby", a 10-year old boy, interviews one of NBC's television executives about this new bind of hencedesting. A H Morkind of broadcasting. A. H. Mor-ton, vice-president in charge of teleton, vice-president in charge of tele-vision, was the first speaker. Among others listed were O. B. Hanson, vice-president and chief engineer; C. W. Farrier, television coordinator; Thomas Hutchinson, manager of television programs; James McNaughton, designer of television sets, and others.

Don Lee Industrial Film

MARKING what is believed to be the first time industrial motion the first time industrial motion pictures have been shown in west-ern television, the Don Lee Broad-casting System, Los Angeles, on Sept. 23 televised over W6XAO a General Motors produced educa-tional film. The video-sound show was fed to 600 teleceivers in Southern Califorzia through W6XAO. Subjects included safe automobile operation: development automobile operation; development of the diesel engine and sequences showing General Motors shops, inethods and materials.

Television Test by Movies

HOW television may be used to ad-vertise motion pictures is being tested by Columbia Pictures Corp., which is preparing special trailers for its feature pictures for televis-ing on W2XBS, NBC's video sta-tion in New York. In exchange for the plug, the picture company also supplys NBC with two short fea-tures for televising. Deal was ar-ranged by Arthur Hungerford of NBC's television staff. Televised trailer for Golden Boy was pre-sented prior to the film's New York opening and the one for Mr. Smith HOW television may be used to adopening and the one for Mr. Smith Goes to Washington will be telecast the day before this film is first shown in New York.

Television and Airlines IN COOPERATION with the Air Transport Assn., organization of 16 of the largest airlines and 20 major manufacturers of aviation equipment, NBC on Oct. 21 will start a series of one-hour televised programs designed to promote air travel. Plane models in the studio and movies will be used and noted figures in the industry will be in-terviewed. Erwin, Wasey & Co., New York, agency for the Assn., will assist NBC in the preparation and presentation of the series.

CBS Television Deferred

ALTHOUGH several months have passed since the date originally scheduled by CBS for the inaugu-ration of its experimental broad-casts, the installation of its video transmitter in New York's Chrysler Tower is still incomplete and the network's television executives are unwilling to make any surmises as to when they will finally get on the air with sight as well as sound pro-grams. Meanwhile, plans for production of visual entertainment are progressing at full speed, it was stated, so that when the technical problems have all been solved the network will be ready immediately to start presenting a varied sched-ule of visual entertainment.

WCKY officially became a Cincinnati station Oct. 10 with approval by the FCC of removal of its main studios from Govington, Ky. to the Gibson Hotel in Cincinnati. All executive offices and main studios are being removed to the Gibson, in which branch offices heretofore have been housed.

KTSA, San Antonio, transferrd its news bureau and equipment to the Municipal Auditorium during the local National Home Show, Sept. 30-Oct. 8, where night news programs were prepared and broadcast on regular schedule. The complete news bureau setup, including a UP teletype, was placed in the orchestra pit of the auditorium, where Charles C. Shaw, KTSA news editor, prepared and read the programs and answered questions of visitors. Jack Mitchell, KTSA production manager, acted as master of ceremonics for the entire Show, introducing stage shows and conducting a quiz programs concerning the exhibits. Bee Morin, staff organist, also played organ programs singhtly. KTSA broadcast the Home Show program, in addition to the news, from the auditorium each night.

NEWS BUREAU of KVOO, Tulsa, is supplementing its war news service by furnishing 15 local business firms with news bulletins to be displayed on windows and bulletin boards. On days when developments occur at high speed, as many as eight sets of bulletins have been sent out.

WNOX, Knoxville, during the annual Tennessee Valley Agricultural and Industrial Fair conducted open air performances of several popular local programs, including two performances of the daily Midday Merry-Go-Round variety show and musical and man-onstreet features.

Page 76 • October 15, 1939

SHIFTS in the production and technical departments of KSL, Salt Lake City, have led to new staff designations by Earl J. Glade, manager, and Ivor Sharp, director of station operations. The new staff lineup follows: Gene Pack, technical director; Willice E. Groves, chief engineer; Glenn C. Shaw, production manager and chief announcer; Farley Baer, assistant production manager; Irma F. Bitner, educational director; Earl J. Glade Jr., news director; Harry Clarke and Francis Urry, production. Thomas H. Axelson heads a new department of public events, sports and promotional activities, with Wayne F. Richards as assistant.

WSM, Nashville, has all its news programs sponsored since the end of daylight time, amounting to six quarterhours a day. Sponsors are Pinex Co., Manhattan Soap Co., Vick Chemical Co., Faultless Starch Co., Peter Paul Inc., and Bristol-Myers Co.

Inc., and Bristol-Myers Co. CBS has arranged six Monday evening concerts from the Curtis Institute of Music, Philadelphia, in addition to the usual afternoon series starting Oct. 16 for the 11th season. Five CBS nrograms each are planned from New England Conservatory of Music, Boston, and Ohio State, Columbus. as part of the network's 1939-40 musical broadcasts, which will also include the sixth year of concerts from Cincinnati's Conservatory of Music.

WGN, Chicago, has started a serial dramatization of *The Guilty Bystand*ers, the novel of Rupert Hughes. Featured on the Friday night quarterhour series is Caroline Fisher, central figure in a story that concerns court witnesses whose reputations are injured by legal innuendo.

MORE THAN 200 employes of NBC-Chicago attended the fall outing held recently at the local Lincolnshire Country Club. Ken Carpenter, NBC-Blue sales chief, was low man at golf. Page Charlie Whipple won the tennis singles and Johnny Wehrheim, of general office, won the ping pong trophy.

eral office, won the ping poing crophy. SINCE the transmitters of WEAF and WJZ, New York, were opened at 6:30 a. m., on weekdays a year ago, the sales department of the two stations reports the period between 7:30-8 a. m. completely sold to commercial sponsors. On WJZ, sponsors are Pinex Co., Commercial Solvents Co., Vick Chemical Co., Peter Paul Inc., and Standard Oil of New Jersey. On WEAF, sponsors are Commercial Solvents Co., Vick Chemical Co., Peter Paul Inc., and RCA Mfg. Co.

Paul Inc., and RCA Mfg. Co. KGKO, Fort Worth, cooperated with WSM and WLAC, Nashville, in carrying the three Dixie Series baseball games between the Fort Worth Cats and Nashville Vols, played in Nashville recently. Herman Gizzard, of WLAC, and Harold Hough, KGKO general manager handled the play-byplay descriptions and commentary, with WSM engineers handling the pickup, carried to Fort Worth via phone wires. The first game was sponsored by Worth Credit Clothiers, Fort Worth, and the other two by T-P Oil Co. of Texas.

Oil Co. of Texas. WRC-WMAL, Washington, on Oct. 1 held the official opening of NBC's "House of the Future" near Washington. Designed as an example of the future American dwelling, groundbreaking ceremonies for the structure were held last May, and WRC-WMAL listeners have been kept advised on construction progress through special programs and announcements. Mary Mason, director of the WRC Home Forum, who was hostess at the official opening, has brondcast her daily programs periodically from the house as it was being constructed. KIT Vakims. Wosh for the ninth

KIT, Yakima, Wash.. for the ninth consecutive year, broadcast a series of daily programs direct from its glass enclosed studio in the Horticnitural building of the Central Washington Fair. Sept. 28-Oct. 1. In addition KIT had a roving reporter on the grounds and also broadcast the evening grandstand pickups, with Hugh Barrett Dobbs as master-of-ceremonies.

Another NBC

FOLLOWING the publicity barrage in Cincinnati telling of WCKY's joining CBS and the WLW-WSAI "exclusive NBC" tieup, radio and agency men rubbed their eyes recently when a fleet of trucks appeared on the streets bearing signs with big red letters, "WCKY—NBC". The trucks, it was learned on further observation, were own ed by National Biscuit Co., which is advertising NBC doughnuts on WCKY with the transcribed Buck Rogers serial.

TWO Green Bay Packer football stars and a sporting goods store are sponsoring the new Football, Facts and Forecasts on WTAQ, Green Bay, Wis., with Al Michel giving facts about stars facing the Packers, immediately before the regular Packer game broadcasts, for Wadhams Oil Co., also sponsoring the games on WTMJ, and then forecasting results of other pro and collegiate games. The program, aired every Sunday afternoon at 1:45 p.m., is sponsored by Arnold Herber, Packer halfback and proprietor of DePere Clothing Store; Charles Goldenberg, Packer guard, and manager of the Auto Acceptance & Loan Corp.. and Gordon Bent Sporting Goods Store. WDGY, Minneapolis, recently broad-

WDGY, Minneapolis, recently broadcast the premiere of the new WDGY Barn Dance, playing before a studio audience of about 1.000. The new series features the Happy Hollow Boys, the Williams Sisters, Ernie Trapp, Thorstein Skarning and his orchestra, and Athild Queber, with Ralph Wayne as m.c.

REDESIGNED to give farmers themselves a wider opportunity to talk about their problems, *Everybody's Farm Hour* on WLW, Cincinnati, has been expanded from a weekly feature to a six-weekly series. In addition to talks by and with farmers and farm representatives and agencies, the series features the music by Josef Cherniavsky and his orchestra. The feature is heard daily except Sunday on WLW, 12:30-1:15 p. m. (EST).

WTAR, Norfolk, carried three special programs in connection with the opening of the new toll-free entrance into the city via a new bridge at Magnolia, Va., including coverage of tapecutting ceremonies at mid-bridge, interviews with visiting Virginia and North Carolina mayors and other notables, and a description of the parade held during the bridge-opening celebration.

(U.P.) WBAL, Baltimore, during the week of Oct. 9 broadcast the regular early evening Esso News Reporter five-minute spot from the stage of the Hippodrome Theatre. The program was handled exactly as in the studio and was announced by Paul Girard and Tom Dane.

WESTERN ELECTRIC commercial department recently entertained col-leagues in the Bell Telephone System at the annual outing and golf party at the Knoll Country Club, Boonton, N. J. Approximately 175 persons par-ticipated in softball games, horse shoe, badminton and golf competition, and prizes were awarded winners at the concluding banquet in the club house.

WRC, Washington, has installed a microphone in the U. S. Weather Bureau to bring morning forecasts direct from headquarters. The Bureau has increased its forecasts to four a day instead of two.

day instead of two. KSTP, St. Paul, was recognized of-ficially as a medium of public infor-mation recently when a U. S. District Court in Minneapolis gave legal re-cognition to un address of Linus W. Glotzbach, state WPA administrator, on the station and the Minnesota Ra-dio Network July 3. The government contended the KSTP address was suf-ficient information and notice to WPA workers as to what conditions of em-ployment would maintain under the ployment would maintain under the new relief act. Attorneys for the de-fense opposed introduction of the radio address as evidence, but Judge M. M. Joyce upheld the government.

THE FIRST portable isolation booth to be used as a standard adjunct for a radio serial on the l'acific Coast has been constructed under supervision of William Rolson, CBS Hollywood producer. It is employed each week on the CBS *Big Toom* program, spon-sored by Lever Bros. The use of a microphone in the booth emphasizes distant noises such as telephone calls, off-stage voices and street sounds.

THEY gave a surprise party re-cently for Bob Kelley, football com-mentator of WGAR, Cleveland. Hosts were members of the Cleve-land Rams pro football team, in which the WGAR-WJR interests have an ownership stake. Kelly de-scribes Rams games for General Mills, whose Wheaties provided the culinary diversion at the party.

Back from the Wars

BRINGING back tales of blackouts and war bustle, Ed McBride and Don Sullivan, singing cowboys featured on Radio Normandie for the last nine months, have returned to their home in South Stirling, N. J., after their contract had been cancelled because of war in Europe. Polishing off their final program on the Euro-pean station Sept. 1, the crooning pair, after some difficulty in getting tickets, man-aged to secure accommodations on the Manhattan and lost no time in hurrying back to the United States, where they are now telling neigh-bors of the overnight thinning of the population of the where they visited, as France declared war and townspeo-ple enlisted, of trainloads of dead and wounded, and the lengthening of rail schedules to permit rerouting to avoid the war zone. Their European engagement was handled by Jesse L. Kaufman Inc., New York.

TECHNICIANS and announcers of KGFJ, Los Angeles, have affiliated themselves with Broadcast Local 15, American Communications Association. Negotiations have been started by the association with Ben S. McGlashan, owner and operator of the station, for a contract covering its members. Other ACA stations in Los Angeles are KRKD. KFVD and KFAC, with mem-bers also in KMTR and KMPC.

FOILOWING the change of frequen-cy of KECA, Los Angeles, from 1430 kc. to 780 kc., the station's local busi-ness for the month of August in-creased 400% over the average of the preceding six months, according to Ken R. Dyke, director of national sales promotion for NBC, KECA is the Blue network outlet in Los Am the Blue network outlet in Los Angeles.

WCKY, Cincinnati, is planning to re-WCKY, Cincinnati, is planning to re-vive the *Doodlesockers* program. for-merly conducted on both WCKY and WLW by Sidney Ten Evck, who re-cently rejoined the WCKY annonne-ing staff after several years at WSMK, Dayton. A new musical unit probably will assist Ten Eyck in the program. PACIFIC Broadcasting System, Ta-coma, comprising 16 stations in Wash-ington and Oregon, and affiliated with the Mutual-Don Lee network, on Sept. 26 observed its second anniversary with a series of special brondcasts. Executives of the network, at a re-cent meeting called to discuss State copyright legislation and action of the NAB at its Chicago meeting, passed NAB at its onlongo meeting, parse-a ban on all sougs tending to "pro-mote war fever". They also pledged "homselves to promote more "cleerfull and variety programs, sponsored and sustaining. Carl E. Haymond, head of KMO. Tacoma, is president, Thayer Ridgway general manager.

WKY. Oklahoma City, ran a direct wire from its studios to Evanston. Ill., when Oklahoma U triumphed over Northwestern U Oct. 7. CBS also brondenst the game with Ted Husing at the microphone.

WMAZ. Mncon, Gn. hns instructed its newscaster, Holt Gewinner. to save every piece of copy mentioning Senators. Representatives, the Gov-ernor and other Georgia officials in order that officeholders may know ex-actly what has been said about them on the station. Copies of the items are mailed out each week with a nota-tion of the date and time of broad-cast. cast.

WCSC, Charleston, S. C., carried its longest remote Sept. 30 when it sent Phil Sutterfield and Edward McGinley Fini Sutterneld and Edward McGinley to Athens, Ga., for a play-by-play description of the Georgia-Citadel football game. The 250-mile pickup was the longest remote in WCSC's nine years of operation.

KMPC, Beverly Hills, Cal., has in-stalled a six-piece all-girl staff or-chestra, directed by Peggy Gilbert.

KMBC, Kansas City, opened the third season of its Saturday night variety show, Brush Creek Follies, Oct. 7 in the local Ivanhoe Temple. The show, featuring 30 studio entertainers, played to capacity audiences Inst year at first-run theatre prices. Changed format for the current weekly series format for the current weekly series includes eliminating amateur contest in favor of an audience participation feature. Due to tight Saturday night schedules, KMBC records two half-hour shows from the stage and airs the program from 10 to 11 p. m. Felix Adams Jr., program director, and Jim-mie McConnell, artist bureau director, produce such manage the show produce and manage the show.

KDYL, Salt Lake City, during the two weeks ending Oct. 1 brandcast 162 remote control features, including the opening of the state fair, the "Galena Days" celebration at Bingham. Utah, KDYL's television demonstration, and fall practice sessions of Utah U's foot-ball team.

WCCO, Minneapolis, entertained more than 100 Minnesota mayors and their wives at a cocktail party on North-west Day, Oct. 5, during the Minne-apolis Century Celebration. During the centennial week, Oct. 1-7, WCCO carried broadcasts several times daily form the Minneapolis Auditorium at from the Minneapolis Auditorium, ex-hibit nucleus, along with interviews with prominent citizens, old residents. and visitors.

and visitors. LONE STAR CHAIN, new Texas regional network, handled its first sponsored football game Oct. 7 when Humble Oil & Refuing Co., Houston, sponsored the broadcast of the Rice-Centenary game direct from Houston. Stations comprising the network are KGKO, Fort Worth: KTSA, San Antonio; KGNC, Amarillo; KRIS, Corpus Christi; KXYZ, Houston, and KRGV, Weslaco.

KRGV, Weslaco. WBZ-WBZA, Boston-Springfield, are carrying a regular schedule of special programs for the army recruiting office to assist in the Army enlistment drive. Arranged by John A. Holman, New England NBC manager, who is a captain in the Signal Corps Reserve, the programs consist of interviews with officers, army band units and descriptions of enlistment require-ments and army life and departments.

Missouri-Illinois Hookup Is Formed KWK, St. Louis, Originating

Point for New Group

FORMATION of the Missouri-Illinois Broadcasting System, com-prising four stations, was an-nounced Oct. 9 by Robert T. Con-vey, president of KWK, St. Louis, and head of the new operation.

vey, president of KWK, St. Louis, and head of the new operation. With KWK as the originating point of all programs, the hookup will include KWOS, Jefferson City, Mo.; WJBL, Decatur, Ill., and WTAX, Springfield, Ill. Operation began Oct. 9 with a liberal schedule of divergified programs to be fail of diversified programs, to be fed

of diversihed programs, to be fed regularly to the stations. Formation of the hookup grew out of experience gained by KWK in feeding its Hyde Park Brewery sponsored sports programs to KWOS last year, along with cer-tain sustaining offerings. Mr. Con-vey said that both local and na-tional educations or withited intervet tional advertisers exhibited interest in the two-station hookup with the result that the Illinois stations eventually were added to form the new network.

Chicago Competition

Mr. Convey said that in the ter-ritory covered by the hookup, there is a rich integrated commercial area, which, although competently serviced by stations within the communities, can be much better served through a combination of stations and a participation in the regional system. He explained that Chicago system. He explained that Chicago and St. Louis wholesalers compete vigorously for Springfield and De-catur markets and that intensive coverage of these two areas was not available heretofore. Ten KWK sustaining programs are fed to the three stations regu-larly under the initial program cohedule Sports reviews prosport

schedule. Sports reviews sponsored by Hyde Park Brewery will be fed to all the stations daily while Alpen Brau beer's daily musical program will be fed KWOS.

Mr. Convey declared the new network will enable the advertiser interested in these regional markets to obtain comprehensive coverage economically both from the stand-point of talent and time cost and merchandising production. He esti-mated that primary radio homes reached by the network will exceed 6,000,000.

Dr. Fahrney Test DR. PETER FAHRNEY & SONS DR. PETER FAHRNEY & SONS Co., Chicago (proprietary). on Oct. 9 started The Sunbeam, thrice-weekly quarter-hour live program on WHO, Des Moines. The firm is using the series as a fall test and would not disclose when the pro-gram might be expanded to other stations. The program features the dramatic yarns of Bill Granger, a small-town newspaper editor who small-town newspaper editor who tells human interest stories. His wife, Martha, is in charge of the woman's page and presents recipes gram. Cramer-Krasselt Co., Mil-waukee, handles the account.

Swift Canadian Spots

SWIFT CANADIAN Co., Toronto (Pard dog food) starts a half-hour Sunday transcription, Fu Manchu, Nov. 5, on CFRB, Toronto, and following weeks on CHNS, Hali-fax; CJRC, Winnipeg; CJOR, Van-couver. J. Walter Thompson Co., Toronto, placed the account.

Tribute to Geo. Dealey

TEXAS and the nation paid tribute Oct. 11 to George Bannerman Dealey, publisher of the Dallas News and operator of WFAA, at a banquet in the Buccancer Hotel, a banquet in the Buccaneer Hotel, Galveston, on the occasion of the 65th anniversary of his entry into Texas newspaper work. Notables from all over the country attended, and speeches were made by Lenox R. Lohr, NBC president; Amon G. Carter, owner of WBAP and KGKO, Fort Worth, and publisher of the Fort Worth Star-Telegram; Walter M. Dear, president of the American Newspaper Publishers Assn.; former Gov. W. P. Hobby, publisher of the *Houston Post*, and others. Sharing honors with Mr. Dealey at the banquet were his wife, whom he met when she ac-componied her fother to Calueston companied her father to Galveston in 1882 with a delegation of the Missouri Press Assn.

RE-ENACTMENT of the CBS Ameri-cans at Work program dealing with the baking industry will be witnessed Oct. 16 by 5000 of the hakers at-tending the American Bakers Assn. convention in New York. convention, in New York.

WISE, Asheville, N. C., To NBC, Opens Oct. 20 THE new WISE, Asheville, N. C., local, will join NBC as its 177th outlet on Oct. 20, the day it dedi-cates its new facilities. The sta-tion will be available as a bonus souther at no additional cost to ad-vertisers using WFBC, Greenville, S. C., which is supplementary to both NBC Red and Blue. Harold H.

Thoms, publisher of the Asheville Daily News, is licensee of the station which will operate fulltime on 1370 kc. with 100 watts. The sta-tion has installed a Gates transmitter. It is understood that Mr. Thoms, who will actively manage the station, plans to dispose of his ownership of the *Daily News* and devote full time to broadcasting.

Studios and offices of WISE are Studios and offices of WISE are located in the Langren Hotel. In addition to the Gates transmitter, the station has purchased a Gates five-channel console and Presto heavy duty turntables with lateral pickups. Station personnel includes Bernard Macy, program director; John Kegell, continuity director; Kenneth Beechboard, production manager; Baxter Barkley, local commercial manager; Willia m Hinn, assistant local commercial manager; Burham Ipock and James Simer; Durham Ipock and James Sims, engineers, and Miss Clara Lathrop, hostess. Mr. Thoms sa'd the station will have available Transradio and INS news.

Mennen's Promotion

MENNEN Co., Newark, has set up extensive promotional campaigns tying in the druggists with the company's Quixie-Doodle broadcasts on MBS east of the Rockies and Bob Garred's news broadcasts on the West Coast. Special window streamers, newspaper ads and other promotional material have been prepared and Mennen sales-men have been supplied with presentation books which give the re-tailers a complete picture of the radio programs and their direct activities on the retailers' behalf. Merchandising campaign was pro-duced by F. S. Dieterich, merchandising manager of the Mennen Co.

A RADIO CORPORATION OF AMERICA SERVICE 66 BROAD STREET NEW YORK, N. Y.

Basic Standards for News Programs Discussed by Women's Radio Group

SUGGESTIONS that the Women's National Radio Committee prepare a set of criteria and distribute them to the women of America for use in evaluating war news and commentaries heard on the air, and that the WNRC prepare a demonstration news program or series to show how they believe war news should be handled by the broadcast-ers, were advanced at a luncheon meeting of writers and civic organ-WNRC auspices at the St. Regis Hotel, New York.

The conference was called to "consider ways in which the stand-ards of news broadcasts may be improved," according to a resolution passed by a recent board meeting of the committee which stated that the committee "is fully cog-nizant of the fact that the broad-casting companies have undertaken with great earnestness the serious with great earnestness the serious responsibility confronting them in the challenge of the world situa-tion" but that it has also received many protests against "hysterical and ill-considered broadcasts of news." Resolution was read by Mme. Yolanda Mero-Irion, chair-man of the WNRC.

Power of the Voice

Opening the discussion, Mrs. Marion Miller, member-at-large of the Committee, said the organiza-tion, which through its affiliated women's groups represents millions of American women, had been troubled over the treatment of troubled over the treatment of world news on the air, particularly by the overly dramatic presenta-tions of some small independent stations, adding that this was not true of the networks.

"Perhaps the news being broadcast was merely an unconfirmed rumor," she said, "and if you list-ened closely enough you would hear that stated, but whereas in reading that stated, but whereas in reading a printed report you have an op-portunity to study it as a whole, with all of its implications, in list-ening to the radio this is much more difficult, as the emphasis of the announcers' voice can com-lately change the meaning." pletely change the meaning.

This point was also emphasized by Will Irwin, author of "Propaganda and News", who said that frequently during the crisis he would listen to some appalling news on the air and the next morning on reading the same news in almost exactly the same words in the paper he would discover that it was not so appalling after all and that his reaction had been due entirely to the emotional appeal of the voice he had heard. Stating

that a thing of this nature cannot be regulated by law, he said the job must be done by the radio in-dustry itself, by setting up trade customs that would require all news to be read in a plain, matter of fact voice, and played down rather than up.

Raymond Moley, editor of News-week, praised radio for its decision to eliminate sponsorship of controto eliminate sponsorship of contro-versial subjects and to present all such discussions fairly and impar-tially on sustaining time, but he criticized severely the "over edi-torializing of even the best com-mentators" who, he charged, are giving the public opinions in place of news. "The way to get what you want," he told his audience, "is to scare the radio companies into givscare the radio companies into giv-ing it to you, for like all big com-panies they are awfully timid."

This point of view was emphatic-This point of view was emphatic-ally contradicted by Jose phine Schain, chairman of the National Committee on Cause & Cure of War, who said that telling the broadcasters "You've got to do this" would do no good as long as most people like schsational things. Stating that her group had had many more complaints about the movies than about radio, and add movies than about radio, and adding that the press was not entirely innocent either, she described the problem as essentially one of edu-cation of the public to higher standards.

What the Public Wants

Asserting that "if nice young men get so enthusiastic over the ments of soap powders we have a right to expect them to become even more excited over some real news," Mrs. Lena Madesin Phillips, president of the International Fedpresident of the International Fed-eration of Business & Professional Women, said that "we can't expect to prevent the broadcasting of a battle from the front lines, if that becomes possible, merely by telling the broadcasters to be good boys, as long as the rank and file want that kind of news." She urged, however, that civic groups through-out the country be organized to protest against the sort of broad-casting that is producing a growth casting that is producing a growth of intolerance, especially among the youth of the nation.

After several speakers had dis-agreed with Mr. Moley's wholesale condemnation of commentators, Mrs. D. Leigh Colvin, State presi-dent of the Women's Christian Temperance Union, suggested that the broadcasters be asked to label news and commentary programs so that each is unmistakably identified as either news or opinion. "I like to hear the commentators," she said, "but I also like to know who the speaker is and who his sponsor is."

Agreeing that most of us need some interpretation of the news, Mrs. Sidonie Gruenberg, executive director of the Child Study Assn., said she felt it would be unfair to ask such a commercial medium as radio to cancel sponsored newscasts and commentators but that "we can ask that the broadcasters keep control of the news."

Mrs. Phillips asked the Committee to draw up a set of points on which a commentator might be judged, a "yardstick" which a list-ener could use in evaluating what

Pepsi-Cola Adds

PEPSI-COLA Co., Long Island City, N. Y., which recently started 15 - second spot announcements weekly on five New York stations, on Oct. 9 joined the list of adver-tisers sponsoring Uncle Don's Montisers sponsoring Uncle Don's Mon-day through Saturday programs on WOR, Newark. Regular commer-cials are made each night for the drink Pepsi-Cola and on Fridays Uncle Don conducts a "dominant night" for the company during which he teaches his listeners the words of the Pepsi-Cola theme song. Newell-Emmett Co. of New York is the agency.

she hears on the air. This suggestion was enthusiastically accepted by the meeting, as was that of Mrs. Miller that the WNRC prepare and, if possible, present on the air, a demonstration broadcast that would show both the radio industry and the public how the women of America want to have news handled over the radio.

Seeks Improvement

Asked why no broadcasters were present, Mrs. Miller said they had not been invited because some of the criticism might have been conand that this was not at all the Committee's intention. She praised the networks for handling a dan-gerous situation very well, but said WNRC wanted to improve the present status of news broadcasting. A meeting of the WNRC would be called in the near future, she said, to present the thoughts of the conference and to work out plans for putting them into effect.

MOVIE ENGINEERS TO DISCUSS VIDEO

TALKS by a number of radio and TALKS by a number of radio and television engineers will be fea-tured at the fall convention of the Society of Motion Picture Engi-neers, Oct. 16-19 at the Hotel Pennsylvania, New York. Ruppert Tells Druggists Of Cincinnati Promotion RICHARD RUPPERT, sales promotion manager of WSAI, Cincinnati, attended the convention of the National Association of Retail Druggists at St. Paul during the week of Oct. 9 by request to ex-

week of Oct. 9 by request to ex-plain how the close promotional co-operation between WLW and WSAI had benefitted retail drug-gists in the trading area of the two stations. A resolution adopt-ed by the Ohio Valley Druggists Assn. petitioned James D. Shouse, Crosley vice-president, to send Mr. Bunnert to the netional convention

Crosley vice-president, to send Mr. Ruppert to the national convention. Herbert C. Freking, executive secretary of the Ohio Valley group, declared the cooperation resulted in the druggists being able to more clearly present their purposes and endeavors to the public. "Although the action of our association in the action of our association in asking WLW and WSAI to send their representative to the national convention of druggists is perhaps unparalleled," he said, "we believe it is fully justified in view of the great assistance these two stations have been able to give us."

LIGGETT & MYERS TOBACCO Co., New York (Chesterfield cigar-ettes), on Dec. 27 replaces Paul Whiteman with Glenn Miller's Or-chestra on 31 CBS stations. Wed., 8:30-9 p. M. Agency: Newell-Emmett Co. of New York.

LEWIS-HOWE MEDICINE Co., St. Louis, on Oct. 25 shifts Qwicksilver from 29 NBC-Red stations, Tues., 7:15-7:30 p.m. to 56 NBC-Blue sta-tions, Wed., 8:30 p.m. (repeat, 11:30-12 midnight). Agency; H. W. Kastor & Sons, Chicago.

C & S Releases Eddy

STANDARD BRANDS Inc., New York (coffee), has agreed to re-lease Nelson Eddy, baritone, from his NBC Chase & Sanborn Hour contract following the Nov. 5 broadcast. The singer asked for release from his contract because of heavy motion picture, concert and recording commitments, according to Danny Danker, vice-president and Hollywood manager of J. Walter Thompson Co., agency servicing the account. Eddy, who has been on the show three seasons, is one of the highest paid artists in radio, drawing \$6,500 weekly for his Chase & Sanborn Hour appear-ances. Don Ameche, m.c., is taking an eight-week leave of absence.

Boes C. R. E. I. Training Pay Dividends?

The success of a school is not indicated by its number of graduates ... but by the number of graduates ... but by the number of graduates EMPLOYEDI A survey made of our resident school graduates of 1934 through 1937 disclosed that 96% WERE EMPLOYED IN THE RADIO AND COMMUNICATION INDUS-TRY WITHIN AN AVERAGE ELAPSED TIME OF ONE MONTH AFTER GRADUATION. Such a rec-ord is proof that C.R.E.I. technical training PAYS because it is PRAC-TICAL. May we send you details?

CAPITOL RADIO ENGINEERING INSTITUTE Dept. B-10 3224-16th St. N.W., Wash., D.C.

Higher Fidelity in Recordings Claimed in RCA-NBC Method

Orthacoustic Reproduction, Developed Recently, Termed First Major Advance in Several Years

A NEW method of recording and reproducing transcriptions, the RCA-NBC Orthacoustic Recording System, has been announced by NBC, which expects to start next month recording all new selections of its Thesaurus library in this manner. Both Standard Radio and Lang-Worth have announced immediate use of the method.

Claimed to be the first major improvement in the recording field in several years, the Orthacoustic system is the product of extended research by the combined engnieering forces of RCA and NBC and is said to be based largely on their experimental work in the transmission of sound on ultra-high frequencies carried in connection with the experimental television broadcasts.

While the new process is not just a single improvement, but rather the combination of a large number of improvements in recording apparatus and techniques, its basic factor is a pre-emphasis of the high and low frequencies during recording. When the transcription is reproduced, the procedure is inversed and the highs and lows de-emphasized, so that the resultant sound is the same as was heard in the studio.

Used With Filter

The de-emphasizing is done by means of a filter which can easily be installed on any standard turntable and requires an expenditure of only two or three dollars for matcrial. The result of this peaking and pulling down is to eliminate to a large degree any motor or gear hum at the one end and needle scratch at the other, resulting in a minimum distortion. This process also reduces the chance for distortion from harmonics created after the tip-up and before the pulldown, as these are also eliminated in the process.

Another change is in the studio setup and placement of speakers and instruments. Instead of using a number of microphones distributed about the studio to pick up the various sounds and blending them all at the control room, only a single mike is now used for the most part, a uni-directional microphone with a pickup at 180°. Thus, instead of an artificial mixture of sounds, unlike anything ever heard in a concert hall or theatre, the listener will hear the actors or orchestra exactly as he would if he were seated in the best seat in the house.

No longer does the mixing engineer change the formula to suit his own ear or mood, strengthening this sound and softening that as fancy dictates, it was stated. Under the Orthacoustic method the program is recorded exactly as it comes out of the studio, that is, as the program producer thinks it should be. If it's good in the studio, it will also be good on the disc. And an improved material for pressings is also being used.

A demonstration of the Orthacoustic (the name comes from the Greek words ortho, meaning true. and akoustic, meaning sound) system, with the new recordings played in contrast to those made under the methods previously used. showed the new ones to be markedly superior in clarity of tone and to have much less surface noise. The voices sounded clearer and more distinct; the music brighter and more colorful.

Tried in Canada

Asked if the difference would be as marked if the recordings were heard on the air instead of in the studio. NBC executives replied that since June the Orthacoustic process had been used in recording programs for the Imperial Tobacco Co. for use in Canada and that the Canadian broadcasters had been extrenely enthusiastic over them. Their first introduction to American listeners will come with the release of the November Tresaurus selections and from then on all NBC transcriptions, both sustaining and custom-built commercials, will be recorded by the new system.

O. B. Hanson, chief engineer of NBC, has sent a letter announcing the Orthacoustic system. together with a technical treatise with

Plumbing & Heating News "Quick, Marie, Off with the Television !"

charts and instructions for adjusting and compensating reproduction equipment to reproduce the new records, and a test time record to all stations in the United States and to all Thesaurus subscribers in foreign countries. The letter points out "in playing old recordings through the new compensated playback equipment that surface noise is materially reduced without much loss of the high frequencies as observed by your listeners, or you may remove the compensation in playing the old records." Change from one to the other is merely a matter of flicking a switch, it is explained.

In addition to cooperating to produce a new recording system. NBC and RCA have also realizend their respective functions in the recording field, with RCA withdrawing from the selling of transcriptions. As it now stands. NBC does the selling and production of programs, RCA the recording and processing of records.

Late Personal Notes

JAMES C. EWELL, vice-president in charge of the Chicago affice of U. S. Advertising Corp., is convalencing at Highland Park Hospital following serious injury in an automobile accident Sent. 30. Mr. Ewell suffered a fractured jaw and a compound fracture of his right leg.

BRICE E. HAYES, formerly with J. Walter Thompson Co. in Chicago. has joined the copy staff of Charles Daniel Frey Co. in that city.

WILLIAM E. WARE. formerly of WCAU, Philadelphia, KRLD. Dallas, and several other stations. has been named manager of KPAC. Port Arthur, Tex., which plans to inaugurate its enlarged facilities Dec. 1. Socs Vratis formerly of KNOW. Austin, and KFJZ, Fort Worth, has joined KFAC as program director and continuity chief, Arba Mock, formerly of KTRH, Houston, has joined the engineering staff of KPAC, succeeding Wilford Nicholson, now with WHBB. Rep Office In St. Louis To Be Opened by Blair

JOHN BLAIR & Co., national representation firm, announces the opening of a St. Louis office, effective Nov. 1, under the direction of J. C. (Chris) Hetherington, who is well-known among Midwestern station and agency men. Mr. Hetherington has resigned from the Chicago office of International Radio Sales to accept the new position. His background in advertising includes eight years with CBS in both Chicago and St. Louis. From 1933 through 1935, Mr. Hetherington was sales manager of KMOX, St. Louis. Following his graduation from Washington U in 1922, he joined the staff of the Chicago and Tribune and later served for three years as general advertising agent of the Wabash Railroad. In announcing the appointment, Mr. Blair said he was opening the

In announcing the appointment, Mr. Blair said he was opening the St. Louis office because of his confidence in the radio developments of many agencies in St. Louis, Kansas City, Des Moines, and other Midwestern cities to be serviced from St. Louis. The address of the new office has not been announced.

WCAU's New Posts

CREATION of three new staff positions at WCAU, Philadelphia, and promotion of staff members to fill them was announced Oct. 13 by Dr. Leon Levy, president. Horace W. store and he'll show you the particular display space that commands the attention of the most customers, and, thereby, creates more sales than other selling space on which he may realize only a normal return. He will probably qualify that choice, however, by adding that even the hottest spot in his store will not produce sales unless there are customers on hand to attract, people on whom selling impressions can be made!

Ask any retailer what he calls a "Hot Spot" in his

Just so, in buying radio stations you choose the "Hot Spots"; those that deliver the largest number of proven listeners, since it naturally follows that the more people who hear your program, that many more will be prompted to buy your product.

In our recent 20-Market Survey, which, incidentally, is one of the most extensive ever undertaken, 159,299 Coincidental Calls were made by the Ross Federal Research Corporation, and the Alberta Burke Research Company, in twenty key cities. The results of that tremendous study may be summed up in one simple, direct statement of fact: An average of 41.2% of those listening to their radios in the 20 markets studied were tuned to WLW, while the audience tuned to the next dominant stations averaged only 29.3%.

Many of you have already seen the 13-Market and the additional 7-Market Studies that illustrate, in detail, this remarkable dominance—and have made that dominance your own. For those of you who have not, we invite you to write, or telephone Transamerican Broadcasting & Television Corporation, or
