WHICH PROGRAM TYPES APPEAL MOST TO CERTAIN INCOME GROUPS?

YES

WHY CAN EQUAL RATINGS BE MISLEADING?

HOW DOES THE WEATHER AFFECT LISTENING? Do you know how all income groups vary in their response to radio programs throughout the hours of the day? WOR, through its Crossley-prepared Continuing Study of Radio Listening, can show you how all kinds of people's listening fluctuates from period to period.

More and more smart sponsors realize today that equal ratings are rarely comparable. For instance, WOR recently showed a sponsor that while his rating was the same as that of a competitor's show, he was actually attracting 97,800 more listeners than the other sponsor.

How do rainstorms, blizzards, hot spells affect the listening people do? Two weeks out of every month Crossley, Inc. clocks the weather day by day as regularly as its personal interviewers ask people questions. This is an interesting radio angle that you should know more about.

Smart sponsors and their agencies make it a habit to check WOR regularly on what the Crossley Continuing Study of Radio Listening reveals about their shows. They know that WOR can tell them things about listening that nobody else can. And its answers invariably bring them a greater per-penny profit on every penny they invest.

ERVIN

Advertisement number 4 in a series designed to show the close relationship between WLS listeners and our staff, due to their long association with the station.

VETERAN EDITOR

Its no wonder radio listeners in Midwest America feel friendly toward WLS personalities. Most of them have been heard on the station for so long that listeners regard them as old friends. For instance, Julian Bentley, WLS News Editor, has been with the station for 14 years, since 1930. Ervin Lewis, Associate Editor, is a comparative newcomer with 6 years of service at WLS.

These friends of long standing are found not only in the news department. Many entertainers have been heard on WLS for 15 and 20 years. Executives, program staff, even the engineers boast 20-year veterans. And in this long association with the station and its audience, these people have learned to *know* the listeners, know what they like to hear and what will move them to act and *buy*. That's why WLS Gets Results!

In High Quality Microphones

for AM Broadcasting, FM Broadcasting and Television Sound

TWELVE years ago, RCA engineers startled the industry microphone, "the microphone without a diaphragm."

That microphone was the first velocity microphone—and, back in 1932, it was a daring innovation. There was some shaking of heads over the fact that it looked different, worked differently, and moved the pre-amplifier from the microphone case to the equipment rack.

But, the broadcasting industry—which was just then moving into high gear—quickly found out that the Velocity Microphone was more convenient, more dependable and of far better quality than the condenser microphones then in use.

With one accord, broadcasters adopted the RCA Velocity Microphone for all high-quality pickups, and they have been using them in constantly increasing numbers ever since.

Meantime, RCA engineers, not content with the first velocity microphone. have gone on improving it. They designed new mountings, used new materials to achieve higher output, added new finishes. In 1935 they brought out the Uni-directional Microphone, a velocity-type microphone which has a single-sided pickup (as contrasted to the twosided pickup of the standard velocity microphone). And in 1939, the "Combination" Microphone—a model which provides uni-directional, bi-directional or non-directional pickup at the turn of a switch.

Today RCA broadcast microphones are the standard of the industry. Used by NBC, CBS, the BLUE and nearly all regional networks—as well as by most of the independent stations, large and small.

For the best in microphones—and the best in all radio equipment—look to RC⁴!

PORTRAIT OF AN

Enduring MARKET

• Spendable income from the rich East Texas-South Arkansas-North Louisiana area is assured for years to come. Always looked upon as an enduring market this region's rich resources and major industries will provide increasing spendable wealth in the future. Now holding one-fifth of the nation's known oil and the second largest known supply of Natural Gas new fields are constantly being discovered to add to the life of the petroleum supply. Add to this such major industries as cotton, livestock, lumber and varied manufacturing, plus a mild climate which allows year-round operations. It will pay you to investigate this enduring market . . . to find out how you can sell now and build sales for the future. Let us give you more information about this market and how you can cover it completely with 50,000 watt KWKH.

A Shreveport Times Station **CBS** Represented by the Branham Co.

July 10, 1944 • Page 7

It happened at 1220

CONGRATULATIONS came thick and fast when Radio Station WGAR shifted to 1220 kilocycles, and included reports of better reception from listeners, as well as flowers galore.

ONE THOUSAND HANGER CARDS in Cleveland streetcars tell the WGAR story to more than one million riders per day for six months, with a new message each week.

NEWSPAPER READERS couldn't miss the smash announcement ads, some in two colors, that appeared in Metropolitan and rural papers during the week following the changeover.

MOVE from one side of town to the other, and friends still will locate you. But, change the wavelength of a radio station, and you can't simply leave a little note hanging at the old spot on the dial. That is why WGAR, the Friendly Station in Cleveland, went all out in a stashing campaign to post listeners on its recent shift to 1220 kilocycles.

Radio announcements, newspaper ads and streetcar hanger cards started people talking when, with humorous touch, they asked "what's happening at 1220?" Then, in rapid-fire order at the changeover date, came the answer through those same media, plus giant painted boards, 24-sheets, truck signs, window and counter displays in downtown and neighborhood stores ... through book matches, correspondence stickers, playing card giveaways, tent cards in restau-

rants and cards direct-mailed to select lists. As one Clevelander put it . . . "you can't expose your ears or open your eyes without learning that WGAR has moved to 1220 on

Free-Speech Mike your dial!"

TWENTY-SIX NEWSPAPERS with combined circulation of more than one and one-half million carried 163 ad insertions throughout Northern Ohio.

STORE POSTERS featuring network stars were displayed prominently in 2300 retail food and drug outlets throughout WGAR's service area.

SPECIAL PROGRAMS by network talent, as well as live announcements, reminded listeners to make the switch on the appointed day and hour.

COLORFUL OUTDOOR ADVERTISING makes nearly one and onehalf million WGAR impressions every 24 hours through one hundred twenty-six 24-sheets.

BEHIND THE MOVE to a better wave for WGAR were well-known radio men (left to right) John F. Patt, G. A. Richards and Leo J. Fitzpatrick.

TEASERS OPENED a 26-week car hanger card campaign, followed by changeover announcements and program promotion cards to run into the fall months.

175 TRUCK SIGNS carried the news of the change throughout the city and nearby counties.

Norm Siegel of the Cleveland Press said: "There's definitely improvement in WGAR's signal."

EAST AND WEST on the city's two heaviest traffic arteries, giant painted boards flash the WGAR message to radio-minded Clevelanders.

LISTENERS whose house or phone numbers are 1220 won playing cards, and two million WGAR matchbooks were distributed over cigar counters.

RICHARD E. GOEBEL President, Pacific Coast Advertising Co., San Francisco

Says-"We've found that spot broadcasting reaches most of the people, most of the time."

•Bravo, Mr. Goebel! After all is said and done, that's the final and ultimate discovery about spot broadcasting. After twelve years of closest association with the medium, even we are still being constantly surprised that spot broadcasting can sell men's clothes, for instance, at times when "only women are listening"—can sell foods and other feminine interests at *any* hour of the day or night, and even on sports programs!

NEW YORK: 444 Madison Ave.

Plaza 5-4130

•What's the answer? We're sure we don't know, unless it's that spot broadcasting simply does reach a lot of people, all the time! More people per dollar, certainly. Plus the fact that, whether you're buying a 20-second break or a full hour's program, you've got all the listener's attention while you're on the air—you're not competing with other advertisers on the same "page".

Fight Looms for Postwar Shortwaves

Federal Ownership Urged in Some Ouarters

By BILL BAILEY

CONTROL of international shortwave broadcasting following the war looms as a major political issue, with several Government agencies, including the FCC, Office of War Information and Coordinator of Inter-American Affairs reportedly advocating some form of continued Government supervision of the nation's shortwave stations.

Shrouded in official secrecy, the move to perpetuate Government control over international broadcasting is said to be headed by FCC Chairman James Lawrence Fly, who also is chairman of the Board of War Communications and a member of the State Dept. Committee on Postwar Telecommunications.

Reliable sources, however, held that no action would be taken, despite purported pressure by the FCC, OWI and CIAA, until the field of international communications is probed to its innermost depths. To that end 200 or more radio and communications experts will be called to Washington in the near future for conferences on the overall communications picture. Information gleaned from them will help to guide the State Dept. in formulating this country's policies to be presented at the first world conference on telecommunications after hostilities cease.

IRAC Report

Because of the worldwide problem of allocations which will arise in the postwar period, the Interdepartment Radio Advisory Committee made up of Government experts, has been working for months on proposed allocations to be considered at the impending world conference. IRAC is understood to have submitted a report to the FCC, BWC and State Dept. Committee a fortnight ago.

Adding to the allocations problem is the fact that more than 1,600 international shortwave stations have operated since the war on something like 900 or more frequencies, ranging from 2312 to 42,-500 kc, according to competent estimates. In addition several foreign FM stations, as well as those in the U. S,. have been operating in the band above 42,500 kc.

Although it was pointed out that many of the 1,600 stations which have been on the air pouring out propaganda for a score or more of countries have been destroyed in war zones, the problem of allocating certain frequencies to each nation is one which will require not one but several world conferences.

Must Keep in Step

Advocates of Government-controlled shortwave stations in the future point out that the U.S., prior to the war, was the only nation in the world with privately-operated stations. They contend that in the postwar period all international broadcasting of other countries will be controlled or operated by respective governments, and that the United States, to keep in step, must do likewise.

On the other hand there are, in Government, agencies which abhor any kind of Government control over private industry. They contend that America has been built on the foundation of free enterprise, as defined in the Constitution, and that Government operation of international broadcasting would be a definite step towards control of speech and the press, not only on an international basis but domestically as well.

At the outbreak of war seven corporations owned and operated America's international shortwave stations. Under wartime agreements reached in the fall of 1942. time of all U.S. shortwave stations (21 at that time) was leased to the OWI and CIAA, OWI programming two thirds and CIAA the other third. The agreement calls for return of all stations to the private owners after hostilities cease.

In the meantime OWI has planned a total of 36 international shortwave stations, 30 of which have been completed, the remaining six still under construction. Additional stations have been built by Defense Plant Corp. under supervision of the private licensees [BROAD- CASTING, March 13]. Under contract arrangements the private firms have options to acquire the stations, including land, after the war.

The seven firms in whose names the international shortwave stations are licensed are: Associated Broadcasters, also licensee of KSFO San Francisco; CBS; Crosley Corp., Cincinnati, licensee of WLW; General Electric Co., Schenectady; NBC; Westinghouse Radio Stations; World Wide Broad-casting Corp., Boston.

Under Government direction the shortwave stations operate on various frequencies, depending on the time of broadcast and the areas to be reached, at times using as many as 90 frequencies. James O. Weldon, chief of the OWI Bureau of Communications Facilities and a veteran radio engineer, is in charge of shortwave operations [BROAD-CASTING, May 29].

Protecting Investments

In the study of international communications, several schools of thought have arisen as to the most feasible operation of shortwave broadcasting. Those firms which have pioneered in shortwave broadcasting have tentatively lined up proposed commercial networks of standard or medium wave stations in other countries to pick up shortwave programs from America and rebroadcast them over AM stations. Such arrangements have been predicated on the understanding that American broadcasting would continue in peacetime under private operation, thus providing through free competition the best of entertainment.

To protect their investments, made over a period of years, the pioneers in international broadcasting are understood to be planning vigorous opposition to any movement leading to Government domination of that branch of the industry.

One school of thought advocates point-to-point relay with standard band stations in foreign countries rebroadcasting shortwave programs from America and vice versa. Apropos that plan, however, Edwin K. Cohan, technical advisor of World Wide Broadcasting Corp., (Continued on page 28)

New Manpower Rules Easing Station Employment Problem

High Level of Stability in Personnel Noted As Hiring Goes Under Government Service

By JACK LEVY WITH all radio stations under manpower ceilings and hiring of replacements under the control of the U. S. Employment Service, it appeared last week that broadcasting operations had reached the highest level of stability since the outbreak of war.

New War Manpower Commission regulations, placed in effect July 1, while designed to give the maximum protection to producers of critical war items, will benefit radio as an essential activity through restriction of job referrals on less essential and nonessential enterprises.

A cursory survey of stations indicates that many broadcasters are in a better position today as far as manpower problems are con-

cerned than they have been in a long time. Several large stations told BROADCASTING their personnel situation was "fortunate". Others reported only minor employment needs in the way of office or general workers.

Several broadcasters said their problems were largely alleviated when Selective Service regulations issued in May lifted the pressure on men over 26 in essential activities, many of whom were soon to be inducted or in the process of induction. Stations have had an opportunity since that time to make staff adjustments, employing women to fill vacancies and in quite a few cases hiring or rehiring discharged veterans.

Inquiries to stations regarding (Continued on page 64)

FCC Approves WJJD Sale to Field; Randau Heads Station; Harre Manager

MARSHALL FIELD, sole proprietor of the *Chicago Sun* and of PM, last week became the owner of WJJD Chicago, with the FCC's approval of his acquisition of control of the station's stock from the Atlass family for approximately \$700,000.

With the purchase of the remaining outstanding preferred stock, the cost will be approximately \$750,000. Purchase of control was

Mr. Field Mr. Harre

from Ralph L. Atlass, who also operates WIND Gary-Chicago; H. Leslie Atlass, vice-president of CBS in charge of central division operations, and Ralph Louis Atlass, son of Ralph L. Atlass. Philip K. Wrigley, chewing gum manufacturer, was a minority stockholder, along with others.

WIND Move Approved

Application for transfer of WJJD to Mr. Field was filed last March. The station operates on 1160 kc with 20,000 w limited time. KSL Salt Lake City is the dominant station on the clear channel.

The contract for sale also calls for an adjustment in price for any increase or decrease in net worth of the station between Jan. 31, 1944, and the accounting date established. It is understood there will be an adjustment upward.

Ralph Atlass and his associates will continue operation of WIND, which at the same time was granted a modification of its license to change its main studio location to Chicago so the station hereafter will be identified as Chicago instead of Gary. Commissioner Walker voted "no" on the Chicago move.

Mr. Field also has pending before the FCC an application for purchase of WSAI Cincinnati from the Crosley Corp. for \$550,000. This transaction, like the WJJD deal, stems from the FCC's regulation against dual ownership of stations in the same or overlapping

Lockheed Sponsors

LOCKHEED Aircraft Corp., Burbank, Cal., will sponsor A Man Named 'X' on 72 CBS stations starting July 10. The half-hour dramatic show dealing with the activities of the FBI takes to the air in the latter half of the Lux Radio Theatre, 9:30 p.m. for an eight-week run. It has not yet been decided where the show will be placed after that period. Agency is Foote, Cone & Belding, New York. areas, since Crosley also operates WLW in Cincinnati. He also is understood to be considering other station acquisitions.

Clem Randau, business manager of the *Chicago Sun* and former United Press executive, will be in supervisory charge of WJJD operations. The station will continue to maintain headquarters at 230 N. Michigan Ave. WIND, under arrangement with the Field organization, temporarily will use studios at that location until such time as a move can be made with the lifting of restrictions on materials.

"We are going to continue as is," Mr. Randau declared following the FCC action. He formally announced that Arthur Harre, commercial manager of WJJD, has been named manager. Officers are Mr. Field, president; Mr. Randau, vice-president; and Carl Weitzel, manager of the Field Chicago properties, as secretary-treasurer. These officials also will serve as the board of directors.

WMPS, Baptist Church Pact Contemplates Sale

PAVING the way for ultimate sale of WMPS Memphis, in compliance with the FCC's "duopoly" regulations, Memphis Broadcasting Co. and the First Baptist Church of that city have entered into a new contract under which the church will be accorded one hour and 45 minutes per week of time instead of previous provisions in perpetuity, guaranteeing it 5½ hours per week. The new contract involved, in exchange for the recapture of time, payment of \$15,000 to the church. Instead of 5½ hours on Sunday, the new 99-year contract specifies an hour and one-half, with 15 minutes pot announcements per week.

Because of the affiliation of WMC Memphis with the Scripps-Howard organization which, through Scripps-Howard Radio, owns WMPS, the latter station will be sold under the FCC's rule banning multiple ownership in the same areas. A number of bids have been received, it is understood. WMPS operates on 1460 kc with 1,000 w local sunset and 500 w night.

'Freshie' Spots

SUNWAY FRUIT Products, Chicago, "Freshie" dehydrated beverage base, begins sponsorship of a spot campaign, introducing the product to the civilian market for the first time after extensive sale for army use overseas, July 17 on WOR New York and July 10 on WGN Chicago, using one announcement daily until Sept. 1. Fall and winter schedules will be expanded. Agency is Sorensen & Co., Chicago.

Golf Match Sponsored

GEORGE S. MAY Co., industrial engineers, Chicago, is contracting for the full 130 station NBC net for broadcast of the annual Men's Open Amateur & Professional Golf Tourney, Tam-O-Shanter Golf Club, Chicago, Aug. 22-27, featuring Bill Stern. The whole package is estimated at \$14,000. Agency is Jim Duffy Inc., Chicago.

Signal Oil Spots

SIGNAL OIL Co., Los Angeles, in a concentrated campaign, in early July started using. an average total of 180 transcribed announcements per week on more than 35 Pacific Coast stations utilizing those in major market areas. Agency is Barton A. Stebbins Adv., Los Angeles.

Bond Bread Spots

GENERAL BAKING Co., New York, in addition to an expanded spot campaign for Bond Bread on 35 stations in New England and New York, [BROADCASTING, June 19], is also using spot announcements on some 40 stations throughout the Midwest, Southeast and South. BBDO New York handles advertising in New England and New York, Ivey & Ellington, New York, in the South and Southeast, and Mitchell-Frust Adv. Co., Chicago, in the Midwest.

WBTA to MBS

WBTA Batavia, N. Y., on July 16 becomes a fulltime affiliate of Mutual. Station is operated by Batavia Broadcasting Corp. with 250 w on 1490 kc.

1903 Daniel Ioseph Danker 1944

DANIEL JOSEPH DANKER, 41, Pacific Coast vice-president and a director of 'J. Walter Thompson Co., Hollywood, and one of the best known' agency executives in the country, died suddenly July 5 following a midnight heart attack at his Beverly Hills Hotel apartment. With him was his wife, Mrs. Lorena Layson Danker, former Warner Bros. actress.

Mr. Danker had just returned from a 30-day vacation and reported to his office for the first time that day. He seemed in good health up to time of his death. Familiarly hailed as "Danny", he was known for years as the unofficial Mayor of Hollywood because of wide acquaintance with those in films and radio, as well as advertising. Besides his wife, a daughter, Suzanne, 7, survives.

Henry Stantion, Chicago executive vice-president of J. Walter Thompson Co., arrived in Hollywood July 8 to take over operation of that office temporarily.

One of the best-known radio figures on the Coast, Danny Danker was born March 14, 1903 in Boston. He received his early education at Phillips Exeter Academy and his A.B. from Harvard in 1925. He was one of the 10 young college men chosen by J. Walter Thompson that year as apprentices.

When he came to Hollywood as the agency's representative two years later, he was only 24. There was little commercial broadcasting in those days. In early 1930 he established offices in downtown Los Angeles and worked on the Goodrich, Balto Dog Food and other accounts.

He handled the Rudy. Vallee show, then sponsored by Fleischmann's Yeast, in 1933, starting the guest artist vogue. Among other early programs for which he was in large measure responsible and which are still on the air are *Lux Radio Theatre*, *Kraft Music Hall*, and *Chase & Sanborn Hour*.

Danny Danker became a Thompson vice-president in 1937, one of its youngest executives. Talent buying was just one of his functions, however. For a long while he was regarded as Hollywood's No. 1 radio talent buyer.

Local Coverage to Feature Convention

Home Delegates Interviews Are Planned

LOCAL NEWS angles and interviews with home-state delegates will emphasize radio's on-the-spot coverage of the Democratic National Convention which opens July 19 in the Chicago Stadium, three weeks from the day that radio listeners heard Republican Thomas E. Dewey accept the nomination of his party from the same Stadium.

Taking their cue from scores of commendatory letters, telegrams and personal plaudits, broadcasters are planning to supplement network coverage, which will take in the general proceedings, with "home-flavored" news, sidelights, features and descriptive material by commentators and announcers usually heard from their home towns. Direct pickups, transcriptions and overhead telegraphic copy will be utilized by the individual stations. (List of station correspondents on page 26).

Two Network Spots Daily

Network coverage of the Convention, from the call to order of the opening session at high noon July 19 and continuing until the Convention's adjournment after it has selected the party's Presidential and Vice-Presidential candidates, will generally follow the same pattern as that of the Republican National Convention.

As decided upon at a conference in New York last Thursday between J. Leonard Reinsch, Radio Director of the Democratic National Committee, and news executives of the four nationwide networks, the joint broadcasts will start at noon CWT and continue for an hour and the evening broadcasts will start at 9 p.m. CWT and continue for approximately two hours. Broadcast of any session may be extended past the scheduled time if events should warrant such extension.

Opening broadcast Wednesday afternoon will include the address of welcome to the delegates by Mayor Edward Kelly of Chicago, followed by a speech by Scott Lucas, Senior Senator of Illinois, and an address by the Democratic National chairman, Robert E. Hannegan, outlining campaign issues and party policies.

The Wednesday evening Convention broadcast will bring to listeners at home an address on the part women will play in the coming campaign, by Mrs. Charles W. Tillett of North Carolina, assistant chairman of the Democratic National Committee. This will be followed by the installation of the temporary chairman of the Convention, Gov. Robert Kerr of Oklahoma, who will deliver the keynote address.

Thursday afternoon session will

cover presentation of the Convention's permanent chairman, Sen. Samuel Jackson of Indiana, and his address to the assembly, following which the Committee on Platform and Resolutions will make its report.

Balloting Thursday

Thursday evening session broadcast will open with an address by Mrs. Helen Gahagan Douglas of California. Following a second address by a speaker who has not been identified by the Committee, the chairman will call the roll for nominations for President, which will be broadcast as well as the subsequent balloting.

If the balloting for President is not prolonged, there is a possibility that the Vice-Presidential nomination also will be completed that evening, the convention winding up its work in a two-day meeting. Whether this develops or whether the Convention carries over into Friday sessions cannot be predicted at this time.

If President Roosevelt is again chosen as the standard bearer for the Democratic party, the political dopesters predict that he will not fly to Chicago, but that he will broadcast his acceptance speech to the Convention—and the nation from Hyde Park.

Women's Director Named

In addition to the joint broadcasts from the Convention floor, each network is planning special programs. Schedules have not been completely worked out as yet, and probably will be announced during the coming week.

Probably several broadcasts will

RADIO NEWS COVERAGE of the Democratic National Convention was discussed in Washington last Monday (July 3) when the Radio Correspondents Assn. Executive Committee, met with Paul Porter, Publicity Director, and J. Leonard Reinsch, Radio Director, of the Democratic National Committee. Seated (l to r): Mr. Porter, former CBS Washington counsel; Earl Godwin, president of the Association and Executive Committee chairman; Mr. Reinsch, managing director of the Cox stations (WHIO WSB WIOD). Standing (l to r): Richard Harkness, Committee vice-chairman and NBC commentator; Rex Goad, secretary, chief of Transradio's Washington Bureau; Fred W. Morrison, ex officio member, assistant to Fulton Lewis jr., MBS commentator; Bill Costello, treasurer, CBS commentator; D. Harold McGrath, U. S. Senate Radio Gallery superintendent, in charge of the Democratic Radio Gallery.

originate at the sessions of the campaign school for women delegates to the Convention, which will be conducted by Mrs. Tillett and other party women leaders, from the women's division headquarters in the ballroom of the Stevens Hotel.

Women's broadcasts from the convention will be handled by Betty

Goodwin, who has been appointed Director of Women's Features for Radio for the Democratic National Committee. Miss Goodwin in 1936 covered the women's angle of the national conventions for NBC.

Mr. Reinsch, who is on leave from his post as managing director of the Cox stations (WHIO WSB (Continued on page 56)

GOP Convention Lays Foundation For Future Job

By D. HAROLD McGRATH Superintendent, Senate Radio Gallery

RADIO has found its niche in the news coverage field. As a result of its on-the-spot job at the Republican National Convention, the broadcasting profession in the future may well be expected to cover, side by side with newspaper representatives, outstanding news events of general interest.

Attendance a Question

The story of radio's first big spot political coverage goes back to December 1943 when seven men gathered around the desk of Earl Godwin, Blue Network commentator and president of the Radio Correspondents Assn. They met to determine, if possible, how many

radio news persons would attend the 1944 Republican National Conventions.

Attending, besides Mr. Godwin, were: Richard Harkness, NBC commentator; Rex Goad, chief of Transradio's Washington Bureau; Fred W. Morrison of Mutual, assistant to Fulton Lewis jr.; Wells (Ted) Church, Radio Director of the GOP National Committee; William Vaughan, acting superintendent of the House Radio Correspondents Gallery, and the writer. Comprising the Radio Correspondents Assn. Executive Committee were Messrs. Godwin, Harkness, Goad and Morrison. They had just been officially apprised that both the Democratic and Republican National Committees had approved the Executive Committee as the supervising body over the radio news galleries at the respective conventions.

Two big questions confronted us. How many stations would ask for seats at the conventions? How many would attend? There was little experience on which to predicate a decision. Since 1916, the newspaper world, utilizing the Standing Committee of the Congressional press galleries, could make its needs known through the Standing Committee as soon as convention sites were chosen.

Radio Given Recognition

Radio's problem was different. Only once before—in 1940—had recognition been given radio as a news gathering medium by either political party. Prior to that, dealings were direct between the national political committees and networks.

In 1940, almost at the last minute, the Republican National Committee recognized the newly-organized Radio Correspondents' Assn. and over the protests of many newspapers allotted to radio 40 of (Continued on page 60)

July 10, 1944 • Page 13

WMT-WOL Swap Approved by IRT Overtures to End

Craven Named to Head Personnel of Both Stations

ADVISED in a formal ruling by the Internal Revenue Bureau last Friday that even-up exchanges of broadcasting stations fall within the purview of "exchange of like property" under the revenue regulations, licensees of WMT Cedar Rapids and WOL Washington last week completed arrangements for a "swap" of the properties. Applications will be filed with the FCC probably today (July 10).

The transaction, which will give the Iowa Broadcasting Co., operated by the Cowles newspaper and radio interests, a Washington outlet had been completed on a tentative basis and only the Internal Revenue Bureau ruling was awaited prior to the filing of the necessary petitions with the FCC. The ruling held that under paragraph 112 (b) (1) of the Internal Revenue Code, an exchange of like property for productive use in trade or business can be made on a tax-free basis provided there is no gain or loss. This ruling creates a precedent in radio transactions.

Others Pending

Two other exchange arrangements now are pending before the Commission-one involving evenup exchange of KTBS Shreveport for KTHS Hot Springs [BROAD-CASTING, May 22]. The other, filed last week, proposes exchange by the Journal Co. of Portland, Ore., of its one-fourth interest in KOIN Portland for a two-thirds interest in KALE Portland [see story on this page].

Petitions to be filed with the FCC will provide for the exchange of ownership of WMT by the Iowa Broadcasting Co. for WOL owned by the American Broadcasting Co. Action normally would be forthcoming within 60 days.

Under the contract each station applies for the assignment of licenses to the other. Each company will sell the other its transmitter and studio equipment at book value. with certain items excluded. It is understood the WOL equipment is valued at approximately \$38,000 and that of WMT at about \$35,000, which would mean a payment to American Broadcasting Co. of the differential of about \$3,000.

It is expected that announcement will be made by both sides that personnel of the stations will not be disturbed. T. A. M. Craven, former member of the FCC, who took over July 1 as vice-president of Iowa Broadcasting Co. in charge of eastern operations, is expected to become general manager of WOL under its new ownership. William B. Quarton, general manager of WMT, will remain in that capacity, with personnel not otherwise disturbed.

IBC, headed by Gardner Cowles Jr., Des Moines publisher and broadcaster and his brother John Cowles, publisher of the Minneapolis Star Journal, also has contracted to purchase WHOM Jersev City and WCOP Boston for \$350,000 and \$225,000, respectively. These transactions likewise await FCC approval.

The Cowles interests also operate WNAX Yankton and KRNT and KSO Des Moines. The latter station has been sold, subject to FCC approval, to Kingsley H. Murphey of Minneapolis for \$275,000. The fact that KRNT, at least in some measure, covers the same territory as WMT, probably had a bearing on the IBC decision to dispose of WMT.

Washington probably will become one of the most competitive radio areas in the country with completion of the WOL transaction and the pending WINX sale to the Washington Post for \$500,000. NBC owns WRC and CBS owns WTOP. WMAL, Blue outlet, is owned by the Washington Star, Washington's sixth station, WWDC, is controlled by Joseph Katz of Joseph Katz Co., Baltimore advertising agency.

Tax aspects of the WOL-WMT transaction were handled by Alvord & Alvord, Washington tax attorneys. Iowa Broadcasting Co. is represented by Segal, Smith & Hennessey and American Broadcasting Co. by Herbert M. Bingham, Washington attorney.

William B. Dolph, executive vicepresident of American Broadcasting Co., would continue in that capacity with the acquisition of WMT. He would direct the station's policies probably retaining his headquarters in Washington. President and principal owner of American is Mrs. Helen Mark, of Washington.

WMT, a basic CBS and supplementary MBS outlet, operates on 600 kc. with 5,000 w fulltime. It maintains studios in Waterloo as well as Cedar Rapids. WOL is on 1260 kc. with 1000 w and is Washington outlet for MBS.

Disc Case Begun

WLB Anxious for Compliance; No Desire to Seize

STRENUOUS efforts to effect compliance with the War Labor Board's order terminating the twovear-old strike of musicians against the Victor and Columbia recording companies were in progress last week as James C. Petrillo, president of the American Federation of Musicians, continued to ignore the WLB mandate.

No Desire to Seize

While neither the Board nor the parties to the case would authorize any statement on their positions, BROADCASTING learned that negotiations are being conducted behind closed doors to settle once and for all the recording controversy and that there is a possibility the issue may be resolved in the next few weeks.

WLB, it is believed, has little desire to apply the drastic measures which would be necessary to force compliance. It has little disposition to seize the recording companies or put the Government in the music business to enforce its authority. Mr. Petrillo has declared the Board "has no power to force us to go back to work for these companies".

Petrillo Must Act

One of the principal obstacles to compliance, it appears, is the Board's firm policy that differences between employer and employe cannot be negotiated at its direction as long as a strike is in progress. Mr. Petrillo, the Board ruled, must first withdraw his ban on making records and negotiate afterwards.

But Mr. Petrillo has repeatedly said he will not send his musicians back to work without a contract and the AFM convention last month unanimously voted that its membership would not accept terms and conditions other than those pre-scribed in the Decca-World and "Four Employer" contracts.

Board's Problem

WLB's problem, obviously, is to prevail upon Mr. Petrillo to conform to its accustomed procedure in handling disputes, which would seem to be a small concession in comparison with the concessions the Board made in virtually ratifying his existing "employment fund" contracts and prescribing contracts involving the same principle for Victor and Columbia. In that en-deavor, the Board will have to exercise the full weight of its prestige.

In the meantime, the formal opinion on the case, which is expected to clarify that part of the Board's order requiring the recording companies to make escrow payments to "a fund", was still being awaited. Officials were unable to say definitely when the opinion will be issued.

WTAD Sold to KGLO; WORD Acquired by Bryan and Davis Third Proposed Transaction Involves Exchange Of KOIN 25% for KALE Two-Thirds Interest

THREE transactions involving changes in station ownership were completed last week, subject to FCC approval. They are:

Sale of WTAD Quincy, Ill., by W. Emery Lancaster, broadcaster and attorney, to Lee Broadcasting Inc., controlled by Lee Radio Inc., licensee of KGLO Mason City, Ia., for \$487,500.

An even-up exchange by the Portland (Ore.) Journal Publishing Co. of its 1/4 interest in KOIN Portland, for the 3% interest in KALE held by C. W. Myers, president and controlling stockholder of KOIN, and Mrs. Josephine Hunt.

Sale of WORD Spartanburg, S. C. Blue outlet by Spartanburg Advertising Co. to Joseph M. Bryan, vice-president of the Jefferson Standard Life Insurance Co., Greensboro, and Smith Davis, head of the Smith Davis Co., newspaper and station financiers, Cleveland, for \$58,500.

The latter two deals are "duopoly" transactions, brought about by the FCC's rule banning dual ownership of stations in the same or overlapping areas. A half-dozen others, falling in the same category, are in negotiation while the FCC has pending some two-score applications involving station sales or transfers, about half of which have to do with the "duopoly" rule.

The Quincy transaction involves purchase of the capital stock of Illinois Broadcasting Corp. by Lee Broadcasting Inc., for the gross figure of \$487,500. The net price, however, is said to be about \$100,-000 less, inasmuch as Illinois now has approximately that amount of cash surplus available for distribution to purchasers of the stock if and when ownership is acquired. WTAD, operating on 930 kc with 1,000 w, is a CBS outlet. Lee Broadcasting is a newly

formed Illinois corporation in which the majority stock is owned by Lee Radio Inc., which operates KGLO, also an affiliate of CBS. KGLO was formerly owned by the Mason City Globe Gazette, a member of the Lee syndicate of newspapers in the Middle West. Certain of these newspapers have radio affiliations.

Minority stockholders of Lee Broadcasting Inc. include Lee P. Loomis, president and a principal stockholder of Lee Radio Inc.; Francis C. Eighmey, manager and minority stockholder of Lee Radio Inc., who directs KGLO; and Clifford Yewdall, Certified Public Accountant of New York. Application for FCC consent to transfer the stock will be filed with the FCC by July 25.

In the Portland transaction, the Journal Co. becomes 100% owner of KALE, MBS-Don Lee outlet 1330 kc with 5,000 w. Mr. Myers, who has directed the operations of both

MacFarlane Travelled With "Monty"

The British garrison had been driven out of Tobruk. Beaten and battered back to El Alamein. MacFarlane waited with the 8th Army for Rommel's drive on Suez. The world waited for the news that the

British had lost Egypt.

MacFarlane saw the miracle of the 8th Army's response to Montgomery's order, "Attack!"

It is this background of living and fighting with "Monty" and his men that gives MacFarlane's broadcasts about the British on the invasion front so much force, so much truth.

It is this once living where news is made that helps

MacFarlane call the news that is to come, with such uncanny accuracy.

He's called the turn on Turkey before Winston Churchill. He tagged Spain's real objective before Franco moved. There are a dozen more examples.

Ian Ross MacFarlane is another W-I-T-H exclusive.

Saipan Tale Told Despite Dust Clouds Six Correspondents

Marines Fight Elements Recording Story of Pacific Battle By MARY ZURHORST

AT SAIPAN on D-Day, Lt. Larry Hays, USMC, writer and announcer, and producer of The Halls of Montezuma, and T/Sgt. Keene Hepburn ferried their wire recorder to a reef lying directly in line of operations. Preceding the first wave of invaders, they recorded for two full hours a description of the invasion and naval bombardment.

This recording was the climax of a series by Lt. Hays and Sgt. Hepburn giving the overall picture of one unit as it goes into an amphibious operation. The wire and Presto recordings were flown 10,000 miles to Marine Corps Headquarters in Washington by the men who made them, arriving last Monday night.

CBS used the record of Saipan D-Day at 11:30 p.m. Monday immediately after it was processed for security and quality by the Marine Corps. Other networks planned to broadcast it throughout the week. The other recordings were being processed last week and were to be used on several network programs as soon as they could be released.

On the Bridge

With an 18-month-old wire recorder with which Sgt. Hepburn had recorded the landings at Namur on Kwajalein, and a portable Presto unit, both comprising about a ton of equipment, Lt. Hays and Sgt. Hepburn left with the Marine unit from an advance base in the Pacific, to proceed to Saipan.

First recordings were made from the signal bridge where the wire recorder, operating with special plugs made aboard the transport so the unit could use the ship's 110 ac power, caught a mock air attack staged as a practice raid. They also recorded the ship's anti-aircraft practice, and got several interviews with crew members.

On the night before the unit went into battle, the two men recorded a community sing below decks, two religious services, and an interview with twin Marines from Brooklyn. As the interview was ending, the ship's signal screamed battle stations and action began.

On D-Day the wire recorder was transferred to a patrol boat which landed on the reef before the combat forces reached the beachhead. On one side were Japanese mortars on the island, on the other side the tremendous spectacle of the U.S. fleet shelling enemy positions, and in front of the reef streamed an endless mass of invaders. From this vantage position the Marine team recorded the battle for Saipan.

Because the smallest assembled unit of equipment weighed over 160 lbs. and was not easily portable, Lt. Hayes went in to the beach and got a close-up picture of the fighting going on there and returned to the reef to record his descriptions. His boat was shelled repeatedly.

On the night of D-Day plus 1 more naval bombardment was recorded. On D plus 2 the equipment was moved into the beach to a spot which had been secured and could be used as headquarters. Then the hatteries ran down and there was no transportation available at the time along the beach. For three days no recordings were made.

Clouds of Dust

"In desperation," Lt. Hays told BROADCASTING, "Sgt. Hepburn and I canvassed the transports for batteries. Finally a Navy lieutenant in charge of radio on one of the ships gave us four 6-volt batteries. each weighing 40 to 60 lbs. In that tossing ocean we had to transfer the batteries six times from one type boat to another."

Once on the island, the recording team had to fight the clouds of dust that clogged up the open reels of the recorder and the microphones. "If it weren't for Sgt. Hepburn's endless care and technical skill, there wouldn't be any recordings," Lt. Hays said. The sergeant had no previcus radio experience.

"We tried everything to keep dust out of the equipment," Sgt. Hepburn said. "Lt. Hays covered the mike with his helmet-it was just a regular studio mike-and sometimes he broadcast with a cloth covering his nose and mouth with the mike under the cloth. But the dust and wind still came through. And we had a lot of trouble with rust, too. That got around the coils of the wire spools

WGN's 20th

WGN Chicago celebrates its 20th birthday with a series of com-memorative events for 8 days beginning July 15. A public exhibi-tion of equipment and photographs demonstrating the station's two decades of broadcasting will be located in the lobby of the Tribune Tower and Harmony Hall, the passageway between the tower and WGN studio.

and made the wire brittle, but didn't seem to affect quality.'

On Saipan, they recorded interviews with war correspondents, many combat personnel "from privates to generals", on-the-spot descriptions of battle action from air bases, and naval bombardment. Sgt. Hepburn figured out a way to strap the wire recorder into the rear cockpit of a "grasshopper" artillery spotting plane, and Lt. Hays flew with Capt. Don Blaha over the entire island describing for 21/2 hours the action he saw from the plane.

On June 28, the two men were flown from Saipan back to the States with their recordings. Neither had had a bath nor had slept in a bed for two months until they reached the West Coast.

WPB ACTS TO MOVE **EXCESS EQUIPMENT**

RAY C. ELLIS, director of the WPB's Radio & Radar Division, last week sent a letter to all radio prime contractors and components manufacturers enlisting their support in getting idle, excess elec-tronic components such as resistors, transformers, capacitors, test equipment meters and scarce types of receiving and transmitting tubes back into production to meet 1944 radio requirements.

Accompanying Mr. Ellis' letter was a new WPB form No. 3644 designed to aid in solving the electronic component, shortage problem. In his letter Mr. Ellis pointed out that "restricted items now listed under WPB Priorities Regulation 13, when reported on the Form WPB-3644, will be offered for sale and transfer to other prime contractors holding war contracts, also to the services and to other essential agencies through the Component Recovery Section [BROADCASTING, March 20].

Mr. Ellis stated that the 1944 electronic end equipment problem calls for a 50% increase above 1943's output, which explains why it is vital to recover and utilize excess and idle stocks on hand.

APPEARING ON THE INITIAL broadcast June 24 of KMBC-FM Kansas City were these executives of CBS and CBS affiliated stations (1 to r): Craig Lawrence, general manager of KRNT Des Moines; Hugh B. Terry, Craig Lawrence, general manager of KRNT Des Moines; Hugh B. Terry, manager of KLZ Denver; Jerry Taylor, vice-president, and Arthur B. Church, president and general manager of Midland Broadcasting Co., operators of KMBC and KMBC-FM; Howard Lane, CBS director of public relations; William Lodge, CBS chief engineer; and Hugh Feltis, general manager of KFAB Lincoln. The new FM station operates on 1500 w from 6 p.m. to KMBC signoff time and all day Sunday, synchroniz-ing its programming operation to that of the sister station.

Accredited to ETO

War Dept. Announces Two Already Arrived in London

INDEPENDENT broadcasters are now being cleared in increasing numbers for assignment to the European Theatre, an Army spokesman said last week. Of the six correspondents accredited by the War Dept., at least two have arrived in London. They are Dave Baylor, representing the Richards stations [WGAR Cleveland, WJR Detroit and KMPC Beverley Hills] and Howard Chernoff [BROADCAST-ING, July 3] of the West Virginia Network [WCHS Charleston. WBLK Clarksburg, WPAR Parkersburg, WSAZ Huntington].

Returning to Europe after being "booted" out of Italy by Mussolini for his writing as a UP Rome correspondent, H. R. Ekins will represent WSYR Syracuse. After reporting to Gen. Eisenhower's Headquarters, Mr. Ekins will proceed to

Mr. Ekins

Mr. Cassidy

France, and possibly Italy. He joined WSYR last September after 19 years with UP, during which time he has covered Washington, Honolulu, Manila, Shanghai, Tokyo, London, Paris, and several other cities now in the war spotlight.

Covered Maneuvers

James Cassidy is covering the European operations for WLW. In 1941 he reported numerous Army maneuvers on the air, and has since been in charge of Army broadcasts for WLW. WDFM Indianapolis is sending Gilbert Forbes, news commentator and analyst, and Erwin Gibson Lewis, is the WLS Chicago accredited correspondent.

The radio reporters will stay in the European Theatre for a minimum of 60 days, or a maximum of 90 days according to the War Dept. agreement for accredited regional or local radio correspondents. They will send their stories back by transcription, cable and regular mail.

Video Sponsors Signed

TWO commercial programs have already been contracted by WWL New Orleans for postwar program-ming on the proposed WWL commercial video outlet for which the station filed application with the FCC several months ago. The sponsors for the video shows are the William B. Reilly Co., distributors for Luzianne coffee, and the D. H. Holmes Co., New Orleans department store.

Stations Give Public Service In Hartford Circus Tragedy

Broadcast Appeals for Aid, Official Instructions; Relief Fund Is Being Raised by WDRC

THE STORY of the tragic Ringling Bros., Barnum & Bailey Circus fire in Hartford, Conn., last Thursday afternoon has been told in network newscasts and the press. But the story of public service performed by Hartford's four stations —WDRC WNBC WTHT WTIC will live for years to come in the hearts of a grateful state and community.

The service drew official commendation from Gov. Raymond E. Baldwin of Connecticut, Mayor William H. Mortensen of Hartford and officials of the Red Cross, police and rescue agencies. From the hearts of hundreds of parents came prayers of thanks when they learned, through radio, that lost children were safe or at least were not dead.

Appeals Broadcast

Within minutes after the first puff of smoke and flames shot skyward from the bigtop the four stations had mobilized for the emergency—not because there was a sensational story, but because they foresaw the job ahead of them. Their first broadcasts were appeals for nurses, doctors, ambulances, station wagons and trucks, ordered to the scene.

They appealed, too, to the public to stay away. Firemen and police were hampered by the panicstricken circus crowds and screams of the injured. Circus employes worked hard to keep order. The band played. Through it all, however, Hartford's stations thought not of the story, but of helping.

Gov. Baldwin went on WTIC Thursday evening to broadcast an official message. The same statement was carried by the other stations. Mayor Mortensen spoke on two broadcasts from his office, both of them aired by WTHT and WDRC. His statements, too, were read over WNBC and WTIC. There was no competition for "firsts". Hartford's four stations worked as one.

Casualty Lists

Throughout Thursday night they all broadcast casualty lists—the dead and injured. Early Friday morning WDRC asked Mayor Mortensen for his approval to raise a relief fund. He thought it was a good idea and within a few minutes the first appeal went out. Over

TODAY AND TOMORROW ON WCSC

TODAY WCSC serves Charleston, as it has for 14 years, with a wellbalanced schedule of the best in radio. Serves *more* of Charleston's husky audience than any other radio station in town.

TOMORROW WCSC will continue serving the Charleston, S.C., market...ranked as A-1* in its prospects for retaining war-time business gains...after the war! *Survey by Dr. Hauser, Bureau of Census

the weekend WDRC devoted all its sustaining time to appeal for funds.

All of the stations cancelled commercial and sustaining programs alike to perform their services. Late Friday all but some 50 or 60 bodies —those burned beyond recognition —had been identified. The stations planned to continue appealing to families or friends of persons known to have gone to the circus and who had not been located in an effort to identify all the bodies.

WNBC Asks for Aid

Within a few minutes after the fire broke out WNBC personnel was ready to function. No bulletins were broadcast, however, because station officials felt that a bulletin might help to sustain the panic at the circus grounds. The first broadcast, at 3:30 p.m., was an official appeal for volunteer nurses, ambulances and station wagons to go immediately to the scene of the disaster.

Milt Berkowitz, news editor; Bob Mooney and Dick Bronson, announcers, were dispatched to the scene by R. D. Tanner, program director. They came back to the station with eye-witness stories. There was no sensationalism in their copy--straight-forward reporting, with public service foremost in their minds.

"One of our biggest jobs, I think," said Mr. Tanner, "was the aid we gave in helping parents to find lost children and assisting children in finding their parents. We sent our men to the Armory for the official list of injured and dead and broadcast the first casualty list at 10:15 p.m."

At 11 p.m. WNBD did an hour's broadcast, giving casualty lists and summarizing instructions and the story. On Friday the station broadcast a statement by the Ringling Bros. & Barnum & Bailey board of directors.

WTIC Breaks Story

WTIC was the first station in the country to broadcast news of the disaster, according to station officials. At 2:50 Thursday afternoon H. B. Van Beynum, publicity director of the Travelers Insurance Co., whose office is on the 23rd floor of the Travelers Tower, saw a dense volume of smoke ascending skyward in the northern section of the city. He called Tom Eaton, manager of the WTIC newsroom, who in turn called police and learned that the circus tent was on fire. In less than three minutes, WTIC was on the air with a flash about the fire.

Soon after WTIC broadcast its first flash, a steady stream of public service appeals from police, the Red Cross, State and local officials were broadcast as they were re-

FRANK DUNNE, New York announcer, has been signed to a 20th Century-Fox acting contract. First assignment is to handle commentary on "Now It Can Be Told".

THE FORERUNNER OF POSTWAR

HIGH-POWER FM SKYSCRAPER INSTALLATIONS

THE first high-power FM transmitter to be installed atop a skyscraper is the 50-kw. REL model 521 equipment, completed in October, 1941 for the Evening News Association in the Penobscot Building, Detroit—first FM station in Michigan.

To those who do not have suitable high ground available, and must therefore use a tall building to obtain sufficient antenna height, WENA (formerly W45D) is of special interest.

Primary power equipment is installed in the basement. The 3-kw. REL driver and the 50-kw. REL amplifier, together with the speech and control equipment, are on the 45th floor, where the studios and offices are located. On the 46th floor are the water circulating pumps, filament motor-generator, and gas tanks for the transmission line. Phasing and matching section for the antenna is on the roof. A 2-bay REL turnstile is mounted above the ball at the top of the tower, as the illustrations show.

This is probably the most difficult installation that any manufacturer of radio transmitters has been called upon to make. To REL engineers, it was another opportunity to apply our unequalled background of experience. The highly successful performance of WENA over a period of nearly three years is proof that the job was well done.

Such is the engineering service available to all purchasers of REL Frequency Modulation transmitters and associated equipment.

PIONEER MANUFACTURERS OF FM TRANSMITTERS EMPLOYING ARMSTRONG PHASE-SHIFT MODULATION

Treasury Suspends Records To Appraise Talent, Scripts

Fifth Loan Transcriptions Used by More Than 800 Stations; Barry Wood Wins Citation

FOLLOWING a previous announcement that all activities except special musical numbers have been completed as of the end of the fifth War Loan Drive [BROAD-CASTING, July 3], the War Finance Division of the Treasury Dept. in a policy statement last week declared it became necessary to let the various Treasury programs lapse to permit a review of available talent, script material, music and other factors.

WFD also pointed out that maintainance of an extensive recording schedule, such as that used in the Fifth Loan, was too heavy a responsibility for interim periods, adding that to continue all of these special transcriptions might serve to impair results from the War Loan drives. Plans are being formulated, however, for the production of recorded programs for release during the Sixth War Loan, tentatively set for late November.

Barry Wood Award

Popularity of the late Treasury disc series is reflected in the number of stations which used them to good advantage. For the series of 48 five-minute sponsorable *Trea*sury Song for Today program 858 stations sent requests; the 24 quarter-hour sponsorable *Treasury Sa*lute programs were used by 875 stations and the special series of four half-hour programs, Four for the Fifth, was requested by 844 stations.

Barry Wood, star of the NBC Saturday evening *Palmolive Party*, and known as the "Treasury troubador", was to be awarded a special Treasury citation on that program July 8 by Ted R. Gamble, WFD national director, for his contributions to the Fifth and other War Loans.

As the Fifth War Loan swung into its final week of Bond selling activities toward the \$16,000,000, 000 quota, stations and networks also brought to a climax their promotion activities. Full report of the radio job will be told later, following receipt and compilation of the necessary data by the NAB, Treasury and other agencies.

A Speed Graphic camera, offered during Dave Elman's Victory Auetion on WOR New York and Mutual June 24, brought a total of \$12,037,900 in War Bond purchases, believed to be the largest Bond sale for any single object auctioned on the radio during the War Loan drives. Camera finally went to a Rochester bank for \$8,500,000, with four intervening bidders coming through with their wagers, buying Bonds even though they didn't win the camera. To every Bond bidder for all items offered for sale went a copy of a picture of the Allied invasion on a Normandy beachhead, taken by the U. S. Coast Guard with the Speed Graphic and radioed to New York.

KROW Salutes

Feature of the June 5 New Mexico A & M College half hour program over KOB Albuquerque was the presentation of a script in behalf of the U. S. Forest Service, stressing the purchase of War Bonds and protection of that investment through protection of our natural resources. KOB also reports that the station has sold more than 116 sponsorable Treasury and local programs to promote the Fifth Loan.

The KROW Oakland, Cal. Berkelevana program, sponsored five-weekly by the J. F. Hink & Son Dept. Store, Oakland, had as its theme during the Fifth Loan the presentation of musical salutes to local business firms and war plants for their outstanding War Bond payroll deduction records. Program is also released over KRE Berkeley. Dramatization of the South Pacific battle experience of Phillip (Zeke) Givan, in which he shot a total of 35 Japs, was presented by WLS Chicago on its June 12 Dinnerbell broadcast. Governor Schricker of Indiana proclaimed "Zeke Day" on June 20 to honor the local hero and promote the sale of Fifth Loan Bonds.

Cleveland Athletic Club Bond auction, portions of which were aired by WJW Cleveland, helped raise that city's Bond sale total over the \$102,000,000 mark. Eddy Cantor was a featured entertainer. St. Louis stations are credited for helping that city go over its \$181,665,605 Bond quota eight days before the end of the Campaign. Two performances of the WCKY Cincinnati "Let Freedom Ring" feature at Chillicothe, O., raised a Bond purchase total of nearly \$300,000.

KLZ Denver Fifth Loan promotion features have included special broadcasts on the Victory Theatre program presented by talent of local Army posts; six-weekly reports on Bond sale progress by Governor John C. Vivian, a Bond slogan contest and remote broadcasts from the "On to Victory" captured enemy equipment exhibit and rally, sponsored by the Denver Chamber of Commerce. A Fifth Loan broadcast of the KLZ Barn Dance sold \$105,700 in Bonds.

Scribner Visits Macon

WBML Macon, Ga. on June 24 sponsored a Bond rally which featured G.I. talent from Camp Wheeler in addition to Jimmy Scribner and his "Johnson Family" and other talent. More than \$168,000 in Bond pledges were totaled. Special hour-and-a-half remote presented by KVEC San Luis Obispo, Cal. from the Monday Club, local women's organization, accounted for the sale of \$49,743.75 in Bonds.

A special feature of the WTMJ Milwaukee Bond Drive activities was a two-week series of personal appeals by 125 representatives of 11 different local groups and organizations. Each two or three minute address was aimed at the particular group of the representative speaking and was broadcast at various hours of the day on regular WTMJ programs.

Jerry Strong, early morning m.c. of WINX Washington, was the auctioneer at the Army Air Force "Shot From the Sky" exhibit on the Washington Monument grounds when a wheel assembly from a German Messcherschmidt drew a top

WIOD Stage

Inspired by the success of its "Bank Bond Day" feature, WBT Charlotte, N. C. presented each day during the last two weeks of the Fifth Loan a special "County Bond Day", with a different local county sponsoring Bond sales on its particular day in competition with the other counties. Special WBT promotion and facilities were allotted each county. Bond promotion program of WCED DuBois, Pa., Bonds, Bulletins and Boners, incorporated Bond appeals with up-to-the-minute news reports and human interest anecdotes of boners, submitted by listeners. \$100,000 was the amount of Bonds sold by a half-hour program consisting of a series of local. remotes on WNOX. Knoxville, Tenn. Among featured remotes were pickups from the elevator of a local hotel, police headquarters, USO center and the cab of a, freight engine pulling-out with a load of war products.

Paterson Carnival

WIOD Miami arranged with the local First Federal Savings & Loan Assn. for construction of a War Bond stage beside the loan building on a busy downtown street corner to facilitate presentation of daily Bond promotion activities by local organizations. WIOD loaned public address and other facilities in addition to talent and program direction.

WPAT Paterson, N. J. in conjunction with the Passaic County War Finance Committee and local Chambers of Commerce on July 8 helped stage and broadcast a giant "Invasion Carnival" to offer thanks for the success of the invasion landings, prayers for the outcome of. European military operations and to celebrate the completion of the Fifth Loan.

As a dual celebration of the first year aboard radio Naval Training Schools, Chicago, and the Fifth War Loan, 37 WAVES and radio technicians took over facilities of WBKB Chicago on July 4 for a television presentation written, produced, directed and acted by the technicians and WAVES. Illustrating value of Radio Tech training as a postwar potential, the Navy program included Alvino Rey, electric guitarist, and Lt. Orrin⁷ Tucker, orchestra leader now stationed at Navy Pier, Chicago.

COLLABORATION of cheerful competitors for Knoxville's ever increasing sales are: (1 to r) John Hard, WBIR manager; Claude Frazier, WROL manager; Polly Leinart, WROL staff; and Harry LeBrun, director of WNOX. All three stations has joined forces in a series of advertisements designed to show Knoxville's increase in sales and service.

S OFFICIAL radio program of the Maritime Commission and the War Shipping Administration, designed to recruit experienced seamen for the merchant fleet, Men at Sea, week-ly half-hour Sunday feature, will be heard on NBC for seven weeks beginning July 16. Again heard in the 6:30 p.m. period vacated for the summer by The Great Gildersleeve, the series presents dramati-zations based on the experiences of men and ships, drawn from authentic government records, with names and places altered to conform with security regulations.

* Blue Program Feature

*

A CHILD'S appeal to Isabel Man-ning Hewson, writer of the Blue Network program, The Land of the *Lost*, started a plan initiated on the program July 1. Closest duplicates of toys lost by children will be ob-tained by the Blue Network each week for seven children writing the best reasons for getting them back. Offer will be made on Saturday broadcasts and on repeat broad-casts heard Tuesdays. Repeat broadcasts are a new feature of the program in response to adults who have found an avenue of escape in the children's shows.

* * * Negro Series

IN COOPERATION with the City-Wide Citizens Committee of Har-lem, WMCA New York is presenting a series of programs of American Negro folk songs by a Negro choir. Presented in cooperation with the Writers' War Board and the Radio Directors Guild, as was New World A'Coming, which it re-places for the summer, the series is intended to interpret the Negro's reactions to life as expressed in song. *

WIP Cash Show

NEW CASH award show nn WIP Philadelphia is Sun Ship Question Man, sponsored by Sun Shipbuilding Co. and broadcast thrice weekly. Another new WIP program is titled Easy Does It, which gives helpful hints to housewives, gives neipful hints to housewives, with cash prizes awarded for sug-gestions used. Program is spon-sored thrice weekly by William H. Montgomery Co. under the trade name of Montco.

. * Navy Show

*

WRITTEN, produced and presented by Navy personnel-most of whom were associated professionally with radio before entering the service—On Target, new bluejacket half hour transcribed program, is now heard Saturday on WBBM Chicago. Dramatic sketches and messages of inspiration to our allies and the United Nations are presented.

* ٠ *

WINS Salute

WINS New York has started a weekly half-hour salute to city, town or borough within the station's primary area. First pro-gram hailed the 30th anniver-sary of one of New York's coun-ties, featuring vocalist, Navy hero, and OPA and Board of Trade chief, all from the community itself. Included was a narrative of the county's historical background.

Page 22 • July 10, 1944

WBIG Drive

IN A campaign to reduce absenteeism, WBIG Greensboro, N. C., is cooperating with the Mayor's War Service Committee by airing three daily spot announcements to workers in the city reminding them to report for their next working shift. Spots for followed by a series of five-minute dramatic skits, To Whom It May Concern, depicting the heroic deeds of our fighting men and their sacrifices for those on the home front.

Interviews

* *

PROGRAM titled U. S. and You, originating from Washington, has been renewed for a second 13-week series by WMAZ Macon, Ga. Designed to enable the people in Georgia to hear their friends and relatives in Washington war jobs, each week's program features a member of Congress or a Government official from the state in addition to brief interviews with Georgians employed in the National Capital.

* * *

Critics Views

INSTEAD of reviewing current motion pictures and radio pro-grams, Ona Munson reads what critics say during her weekly quarter-hour digest, Ona Munson in Hollywood, which has been started on CBS Pacific stations.

Education Series

*

* *

DRAMATIZING community educational problems, Schools at War, new series now heard over WCCO Minneapolis, is presented in cooper-ation with the Minnesota Education Assn. Program is heard daily, 6:45 p.m.

* * From Canteen

*

FROM the Hollywood canteen, MBS presents What's the Name of that Song, weekly half-hour pro-gram in which members of the stu-dio audience are asked to identify songs suggested by radio listeners. Warrior Writers

DRAMATIC PORTRAITS of combat correspondents serving with the United States Marine Corps are presented in a series of quarterhour programs started June 29 on WNEW New York. Master Tech. Sgt. Gene Ward, former New York Daily News sport writer and col-umnist and now a combat cor-respondent, is mc. The series en-titled Combat Correspondent, dra-matizes the fighter-writers who go into battle with the leathernecks.

* Farm Service

*

IN SYRACUSE, N. Y., WFBL is presenting a new morning farm program 6:40-7:25 daily with Bob Connell giving vegetable and fruit packers the latest morning prices in remote pickups from his market of-fice. Program consists of farm chatter and music immediately following the 6:40 a.m. sign-on, and includes a three-day harvest weather forecast from the Albany weather station.

* .

Labor Forum

SERIES of weekly Tuesday evening roundtable discussions titled Industrial Relations Forum has been started by WEEI Boston with been started by WEEI Boston with high-ranking representatives and leaders of capital and labor dis-cussing such topics as "Who's to Blame for Absenteeism?". Richard P. Doherty, professor of business economics at Boston U., acts as moderator for the series.

* **KLZ** Feature

*

LATEST public service program of KLZ Denver is Foreign Reportof KLZ Denver is Foreign Report-er, a series of broadcasts given in cooperation with the U. of Colo-rado, the Rocky Mountain Radio Council and the Foreign Policy Assn. of New York, reports of which are used to prepare the scripts. Program features Dr. Stuart Cuthbertson of Colorado U.

Official U. S. Navy Photograph

WAR RECORDINGS just received from U. S. wary Photograph Normandy are played over the loudspeaker in the SHAEF newsroom in London while Edward R. Murrow (right), European director of CBS, types out his next broadcast. Also listening to the film recordings are Lt. Comdr. Don Miller (left), USNR, SHAEF naval censor; Lt. James Shattuck, USNR radio officer, European area, formerly of CBS.

Soldiers' Wishes

CAMP GRUBER, Oklahoma, has its own weekly, half-hour program Behind the Dog Tag on KVOO Tulsa, Sunday 3:30 p.m. (CWT). The program airs the wishes of Gruber soldiers after the wisher works for it in a comedy assignment. One soldier was granted his wish to be mayor of Tulsa for a day and many wishes are fulfilled by listeners. Cpl. Allen Funt is origi-nator and producer of the series.

* 45 CJBC Recitals

YOUNG CANADIAN artists whose ability as students has been outstanding and for whom a future in music is predicted, are heard in two half-hour piano recitals weekly on CJBC Toronto. Each of the young pianists does a series of three broadcasts. Programs are aired Sunday and Wednesday evenings during the summer months. *

New on WWL

TWO NEW PROGRAMS on WWL New Orleans, in keeping with the times, are D-Day Plus, a dramatic chronology of war front events since the invasion's start, and World of Tomorrow, a 15-minute dramatization of things to come. * *

AAF Program

BLUE Network on July 9 started AAF Symphonic Flight as a halfhour weekly program, combining music by an AAF concert orchestra, with six-minute transcribed pickups from London. Army Air Forces men in England answer questions submitted by their buddies in this country. *

* Mistake Skits

MEMBERS of the studio audience are invited to find mistakes in skits presented on *Finders Keepers*, fiveweekly-half-hour NBC program. Cash prizes are given for each error discovered.

CAMPAIGN CARAVAN Col. Barton Gets Arkansas -Votes With Opry Unit-

IF ARKANSAS voters send Col. T. H. Barton to the Senate in-stead of returning Mrs. Hattie W. Caraway, it will be proof of the potency of hillbilly entertainers as political campaigners, according to Max Reid, the Colonel's campaign manager. Col. Barton, president of Lion Oil & Refining Co., has enlist-d the campaign compared of ed the campaign support of the Jamup and Honey Mobile Unit No. 1 of the WSM-NBC Grand Ole Opry on a tour of Arkansas in a modern, streamlined motor caravan.

Col. Barton, a native of Texas, said he hired the WSM Grand Ole Opry traveling show to give the citizens of his adopted state a morale boosting wartime experience and not because he felt the need of showmanship. Members of the oil magnate's entourage in-clude a masseur, a barber and countless secretaries, clerks and stenographers. Radio commentators describe the tour as one of the most potent political campaigns in the history of a state where politics is a rugged calling. From 3,000 to 7,000 persons have already greeted the troupe in each of 11 Arkansas towns.

INVADERS HEAR ALLIED STATIONS

-Beams Entertainment to Troops-

Radio is playing an important part in the Western Europe invasion. Now in full swing, the Allied Expeditionary Forces Service provides broadcasts 17 hours daily to Alkied troops in France. The following article, from American Forces Network, tells of the AFN's part in the AEF program and of its growth in a year.

WHEREVER Allied troops go in the European liberation campaign, their favorite radio programs go along—by air. The Allied Expeditionary Forces Service program, which began operations June 7 [BRDADCASTING, June 12], now is under full schedule of 17 hours daily, beamed directly to the Allied troops participating in the invasion and from reports reaching Supreme Headquarters, Allied Expeditionary Forces, London, this broadcast service has been a Godsend during brief moments of relaxation.

Known as the AEF Program of the BBC, the service is a cooperative enterprise of the American Forces Network, which observed its first anniversary on July 4; the BBC and the Canadian Broadcasting Corp. Originating at one of the most powerful transmitters in the British Isles, this new 17-houra-day service will supply entertainment and news coverage for some time to come as Allied troops move toward Central and Northern France.

60 Hours Weekly

A combination of the best British, American and Canadian programs, augmented by many hours of special programs each week, the broadcasts incorporate an Anglo-American-Canadian flavor. The American Forces Network supplies 60 hours weekly of American programs to the Allied Expeditionary Forces Service. In addition it continues to operate its own service in the United Kingdom, supplying blanket coverage to American troops still stationed in England, Scotland, Wales and Northern Ireland.

AFN was born July 4, 1943, when 40 hours of broadcasting per week was carried on over five low-powered transmitters. Today AFN is using 51 transmitters to broadcast 93 hours weekly. Its staff has grown to 135 enlisted men and women (seven WACS) and seven officers. Operating transmitters in the field are 100 enlisted men, while the 35 stationed at AFN headquarters handle production, announcing, writing, platter-turning and acting for both the AFN and the American portions of the AEF.

In charge of AFN is Maj. John S. Hayes, former assistant to the vice-president of WOR New York. Shortly after his call to active duty as a reserve lieutenant, prior to the war, he was assigned to public relations in the Quartermaster General's office, Washington. Capt. Robert M. Light, Maj. Hayes' executive officer, was a peacetime radio writer and producer. Lt. Jack London, administrative officer, was an announcer before the war.

The new AEF program is on the air from 5:55 a.m. until 11 p.m. daily, while AFN provides programs from 10 a.m. to 11 p.m., Monday through Saturday, and from 8 a.m. to 11 p.m. Sunday.

Col. E. M. Kirby, chief of the War Dept. Bureau of Public Relations Radio Branch, now on detached duty overseas, is Director of Broadcasting Service, SHAEF, and as such is liaison officer between Supreme Headquarters, the AFN and the BBC. Maurice Gorham, former director of the BBC North American Service, is director of the AEF Program.

WJW Will Air Rams

CONTRACT to broadcast the Cleveland Rams, professional football games, for the 1944 and 1945 seasons has just been signed by WJW Cleveland, according to William O'Neil, president of WJW, and Charles F. Walsh, assistant to the president of the Rams. First game will be played Sept. 5. The remaining 11 games will be played Sunday afternoons, with WJW broadcasting directly from Buffalo, Washington, Philadelphia, Chicago, Detroit, Green Bay and Pittsburgh. Earl Harper, sports director of WJW, will handle play-by-play descriptions. For 10 years he has covered college and professional games for Atlantic Refining Co.

WINS to Air Tigers

WINS New York has acquired exclusive broadcast rights in New York for the Brooklyn Tigers football games. Out-of-town games will be covered from ticker reports. Schedule gets underway Oct. 8, when the Tigers meet the Detroit Lions in Detroit. Don Murphy and Stan Lomax, sportscasters, are expected to handle the broadcasts. No sponsor has been reported to date.

KNEW HIM WHEN WSAM Visits Owosso, Mich., Dewey's Birthplace

WSAM Saginaw, Mich., did a "grass roots" job in its spot news coverage of the GOP nomination of Thomas E. Dewey. The station went right to Dewey's birthplace, Owosso, Mich., and interviewed leading celebrities—the only station to conceive the idea. Owosso is in the primary area of WSAM.

Bob Phillips, WSAM manager, interviewed, among others, the attending physician at the birth of the Republican nominee, the mayor, Circuit Judge, Secretary of State, Secretary of the Chamber of Commerce, wife of the Republican county chairman, president and founder of the first "Dewey for President" club, an Owosso aviator, and Gov. Dewey's cousin.

MAINE **SPONSOR!**

\$余

BECAUSE Richard Hallet is an authority on Maine folklore and an accomplished story teller....

BECAUSE he has had some of the most amazing adventures ever heard on land or sea....

BECAUSE he is a well-known author, columnist, speaker, and raconteur and handles every subject whether it be news, whaling vessels, the Red Cross, Maine salvage drives or his own memoirs (i.e. jacking rabbits in Australia — a trip in a Jap fishing boat writing such books as THE LADY AFT and THE ROLL-ING WORLD) in a manner unique, virile, and absorbing! There are thousands of people in WGAN's listening area who can hardly wait till Wednesday nights at 7:45 to hear MAINE TIDE RIPS (which is to say that Richard Hallet's program is really *something* and has been so for a year and a half!).

LISTENERS in 14 Maine Counties, and 1 in New Hampshire are ardent followers of MAINE TIDE RIPS, thereby providing a Golden Opportunity for some lucky Sponsor to tap a rich market. If *you're* interested, write today!

Postwar Shortwave Fight Looms

(Continued from page 11)

in a letter to BROADCASTING (June 29), termed point-to-point transmission as "narrowcasting".

Based on years of study and experience, Mr. Cohan urged private operation of "high-powered" international shortwave stations on a high plane. He contended that American free enterprise can perform outstanding world service through international broadcasting "unhampered by the restrictions of political censorship".

One plan, reported to be under study, would involve an international agreement whereby each nation would be allocated one frequency for a single powerful shortwave station. In America, proponents advocate programming and operation by private industry. They point out that such a method would provide the U.S. with an outstanding international radio voice. By limiting each of the large num-ber of countries interested in shortwave broadcasting to a single powerful transmitter operating on one frequency, a large portion of the spectrum would be freed for development of other services.

Still another contention is that because of limited frequencies, each nation should be restricted to a certain number of shortwave stations, with those in America to be operated by private enterprise, under licenses granted on a merit basis. When the Government wishes to get across its views on some important world problem, time could be leased from the stations.

Donated Time

Broadcasters, on the other hand, are understood to be ready to offer without charge any time necessary for the U.S. to make its views known. They point to the hundreds of hours donated to the war program by AM stations and to the readiness to clear time for the President when he wishes to address the American people. By the same token they would gladly offer their facilities to the Government in world affairs, but the interests which have invested hundreds of thousands of private dollars to develop shortwave broadcasting feel that Government encroachment would amount to confiscation without justification.

It is generally agreed that international broadcasting in the postwar period must be of a higher type than that of prewar experimental days, else listening audiences will be infinitesimal. Even today, with America's transmitters operating on a 'round-the-clock' basis, unofficial estimates place listening audiences, aside from possible undergrounds in enemy occupied territories, at less than 10,-000 the world over.

Success of international broadcasting necessarily will hinge on three important factors, granting that it will be continued with or without Government supervision: (1) Receiving sets easily tuned in without fishing (preferably pushbutton); (2) programs of such high type that owners of shortwave sets will want to tune in; (3) stronger signals than those generally used prior to the war.

While the State Dept. Committee continues its study, the problem of international communications is expected to become a factor in the campaign, in light of the "free radio" plank adopted by the Republican National Convention and in view of similar action contemplated by the Democratic National Convention.

ACA NEGOTIATIONS BEGUN WITH WABF

NEGOTIATIONS are under way between American Communications Assn., CIO, and WABF New York, FM station owned by Metropolitan Television Corp., following an NLRB election giving the ACA the right to represent the station's engineers, announcers and program staff in collective bargaining. Union demands submitted to the station include provisions for job security, closed shop, hiring through union hall, sick benefits, vacations with pay, etc. Following an initial meeting, WABF management is preparing a counter schedule which will be presented to the ACA at the next meeting.

ACA is also negotiating a renewal contract at WCAO Baltimore, where station and union have already agreed that any wage increases will be retroactive to May 2, 1944, ACA reports. Union has petitioned the NLRB for recognition by WBRE Wilkes-Barre whose management, according to ACA, has taken the position that it is not engaged in interstate commerce and therefore is not subject to NLRB jurisdiction.

Union is awaiting the calling of a hearing of its dispute with KYW Philadelphia, which has been certified to the War Labor Board. In that city ACA is also drafting demands to be submitted to WIP for a renewal contract, with any increases retroactive to the expiration of the present agreement, July 17.

Sees British Trend

PUBLIC opinion in Britain "indicates a growing tendency to favor the type of radio program made possible by commercial broadcasting," Lorimer B. Slocum, director of foreign offices of Young & Rubicam, said in an address to the Export Advertising Assn. in New York. Mr. Slocum said the number of advertising agencies in England has been reduced from 500 before the war to 300 or less and that advertisers must "wait their turn".

SCR 499 Goes into Rome with Troops To Broadcast Liberation of the City

By LT. CARL ZIMMERMAN ALLIED FORCE ADVANCE PRESS HEADQUARTERS, Italy --When Rome was liberated, radio was there.

An Army Signal Corps SCR 499 transmitter mounted in a two and one half ton truck moved slowly forward Sunday morning, June 4, with forward elements of Gen. Clark's Fifth

Army. At ten that Lt. Zimmerman

small staff began installing an antenna in a field about four miles from Rome's city limits. Infantry and tanks were moving

through the field while Captain Frederic O. Wickham, Jefferson City, Missouri, chief engineer of this radio station on wheels, directed the erection of an antenna beamed to a transmitter in North Africa for relay to New York and London. A deadline had to be met; the broadcaster's daily schedule was to begin in three hours. There was much to report to radio listeners in the United States and United Kingdom for the Allied troops were occupying the city already.

Good Signal

Within two and a half hours, the 300 watt 499 transmitter went on the air. In preliminary tests, engineers monitoring in North Africa reported the signal excellent. Radio correspondents in

this theater were about to get the best dateline thus far in the war. Don Coe and Gordon Fraser of the Blue, Eric Sevareid of CBS, Seymour Korman of Mutual and Ralph Howard of NBC all were able to step to a microphone and say, "I am speaking to you from an Army transmitter in a field on the outskirts of Rome, a few hundred yards from Highway Six."

As they spoke, Fifth Army tanks and trucks rumbled in the background. During some of the spots aired later in the day, listeners heard the sound of German artillery.

It was officially announced late Sunday that Fifth Army troops had entered Rome and immediately after that a plan to flash the news to the world over radio was put into effect. Mutual Broadcasting System, by luck of the draw in competition among all the broadcasters some days before, was first on the air. BBC followed with a report by

Comdr. Storer Moved

LT. COMDR. GEORGE B. Storer, president of the Fort Industry Co. and Standard Tube Co., has been transferred from the Chicago Naval District to Navy Dept. headquarters in Washington, in the Office of Procurement & Materiel. Comdr. Storer left the active direction of the seven Fort Industry Co. stations (WSPD Toledo; WWVA Wheeling; WMMN Fairmont, W. Va.; WLOK Lima, O.; WHIZ Zanesville, O.; WAGA Atlanta; WFTL Fort Lauderdale) 15 months ago to accept the Naval commission and was assigned as inspection director of the Chicago Naval District. He does not plan to bring his family to Washington for the present.

Wynford Vaughn Thomas. Farnsworth Fowle then went on for CBS, Howard for NBC, Fraser for the Blue and finally Peter Stursberg for Canadian Broadcasting Corporation.

German planes were overhead during these broadcasts. Everyone had to crowd inside the transmitter truck and read from the light of a flashlight and it is safe to say that everyone felt the situation a bit unpleasant if exciting, for a radio transmitter is one of the Luftwaffe's favorite targets. It was right outside the truck, big as life.

Gene English, radio-photo representative for OWI, felt even worse a few minutes later when he went to work transmitting pictures of the occupation to New York and London. There was no room for his equipment inside the truck so he went into operation out in the open. Technical trouble developed and had to be righted in spite of the fact that elaborate blackout preparations went by the board in the process. English and three others of us huddled around the equipment to conceal as much of the light as possible but plenty of it streamed through the ventilation holes of our tarpaulin covering. Pictures were by Capt. Jack Smith, Army Pictorial Service, of troops entering Rome's outskirts and Italians laying flowers over bodies of some American infantrymen who never reached the Eternal City.

Radio and photo transmission continued from this transmitter until more permanent facilities were set up in Rome. It is planned to continue the use of this front line equipment with Fifth Army, for pictures as well as radio.

Helen J. McDermott

HELEN J. McDERMOTT, secre-tary to E. J. Rosenberg, vice-presi-dent of Trans-American Television and Broadcasting Corp., died July 4 as the result of injuries received when she apparently jumped or fell from a New York Central train at Staatsburgh, N. Y.

CHARLES E. COMPTON, radio rep-resentative of George P. Hollingbery Co., Chicago, has announced his en-gagement to Barbara Ortlund, adver-tising copywriter for Marshall Field & Co., Chicago.

morning, the

Which would YOU rather SELL to?

DAY AND NIGHT

KCKN was the first Kansas City station to operate on a 24-hour schedule – day and night, all night.

BASIC MUTUAL

At 6 P.M. KCKN becomes a BASIC station of the Mutual Network bringing Mutual's outstanding night-time shows ta Greater Kansas City's in-the-money, eagerto-buy listeners.

KCKN offers you the all-important MASS MARKET BUYING POWER of Greater Kansas City without the rate penalty of out-state coverage.

Making no effort to interest the thinly-spread farm and small town audience surrounding Kansas City, KCKN appeals exclu-sively and specifically to the whopping Greater Kansas City market. For therein lies the greatest, by far, concentration of buying power between St. Louis and San Francisco.

KCKN is the only Kansas City station programmed solely for metropolitan listeners. Kansas Citians know that day and night they can always depend on KCKN for the programs they like to hear. Which is one reason KCKN consistently does a selling job for its advertisers.

Contact your nearest Capper office for availabilities.

KYW Philadelphia is conducting the second annual Radio Workshop in-augurated last year by Westinghouse Radio Stations Inc. to give public school teachers and principals profes-cional training in presentation of edusional training in presentation of edu-cational programs. By arrangement with the Philadelphia Board of Education, teachers attending may obtain college credit for the course, being conducted through July on a daily basis in the studios of KXW and to be extended throughout the year on a bi-monthly basis. Gordon Hawkins, pro-gram supervisor of Westinghouse Radio Stations Inc., and William C. Radio Stations Inc., and Winnam C. Galleher, educational director of KYW, are in charge of the Radio Workshop. Similar courses are being given this summer by KDKA Pitts-burgh and WBZ Boston.

KOA Denver is conducting a series of tion with the speech department of the U. of Denver. Clarence Moore, KOA program director is in charge.

WENR, Blue Chicago outlet, and the central division of the Blue has sup-plied Chanute Field, Rantoul, Ill., with a large bulletin board schedule of newscasts to be heard daily over the Chicago station.

RAYMOND E. NELSON, director of radio and television of Charles M. Storm Co.. New York, has been elected a vice-president.

WTIC Hartford marked 4th of July ceremonies for Connecticut with a receremonies for Connecticut with a re-ligious and patriotic program broad-cast from the Hall of Flags in the State Capitol. Gov. Raymond E. Baldwin spoke, asking citizens to re-new their oath of allegiance to the flag. Prayers were given by repre-sentatives of Catholic, Jewish and Protestant faiths. Program was re-layed to WELI New Haven, WTHT Hartford, WNLC New London, WICC Bridgenort. Bridgeport.

WFIL Philadelphia, in cooperation with the Archdiocese of Philadelphia, inaugurated a new series of Sunday afternoon religious programs July 2 known as the Philadelphia .Catholic Hour. Program features outstanding speakers of the Archdiocese as well as Catholic choirs.

SPONSORING for the third consecu-tive year the "Miss Greater Cincin-nati Health, Beauty and Talent" pre-liminary to the Atlantic City "Miss America" contest, WCKY Cincinnati will conduct the contest as a war pro-ject, according to L. B. Wilson, sta-tion owner. "Miss Greater Cincinnati", to be crowned the latter part of Aug-ust, will receive a complete wardrobe ust, will receive a complete wardrobe and will be sent to Atlantic City to compete for the national title. Winner of the finals will go on a 90-day War Bond tour. Preliminaries begin July 24.

WSYR Syracuse expects soon to acquire 1,000 ft. of additional floor space to be occupied by the sales department. Meanwhile the program department will be changed to provide extra space for offices.

NBC has issued a special printing in pamphlet form of "Poem and Prayer for an Invading Army," written for NBC by Edna St. Vincent Millay, and read over the network by Ronald Colman on "D-Day". On the cover, booklet bears a line-drawir? of hands closed in prayer, with line describing the occasion of the broadcast, and small NBC microphone symbol on the back cover, the only reference to the network. network.

CJAT Trail, B. C. has offered local retail merchants association a 10-day course in writing advertising copy, by a well-known advertising expert. Sta-tion will conduct the course in the autumn including the preparation of ra-dio, newspaper and direct mail advertising copy.

BEFITTING BRIDE Virginia Thelen, WGN Chicago sales department, were the desk decorations Virginia found upon her return to WGN after her marriage to Ma-rine Pfc. Thad E. Samuels.

CBC INTERPRETS RECORDING RULE

BROADCASTS not acceptable to the Canadian Broadcasting Corp. may not be played simultaneously by transcription over a group of stations, under Regulation 7(m) issued last month by the CBC [BROADCASTING, June 26]. Confu-sion as to the applicability of the regulation brought from J. R. Radford, CBC supervisor of station relations, an interpretation which has been addressed to all stations and agencies in Canada. Text of the interpretation follows:

the interpretation follows: From time to time we are being asked for interpretations of Regulation 7 (m), and in order that there will be no misun-derstanding in the future, I wish to ad-vise you of the following policy which ap-plies to this Regulation. The purpose of the Regulation is to pre-vent a simulation of a network by means of transcriptions are to be used to obtain a wider distribution of the broad-cast than can be procured from a single tations. If transcriptions are to be used to obtain a wider distribution of the broad-cast than can be procured from a single hours. For example, if a broadcast falling in the above category is to be released by transcription and Motical at least three hours must be maintained between the release of a the two distribution of the Broad-tion of the transcriptions are to be used in the above category is to be released by transcription and Motical at least three hours must be maintained between the release of a the table between the release of the state of the strang thet Regulation

must be maintained between the release of each broadcast. I would like to stress that Regulation 7 (m) applies only to those broadcasts which CBC regulations or policies prohibit from network release, and, therefore, there is no prohibition on the simultaneous broadcasting of sustaining or commercial transcribed programmes on two or more stations when such programmes would norstations when such programmes would nor-mally be eligible for broadcasting over net-works or hookups.

WOR Sales Up

WOR New York reports the best June in its history, with total sales 17%, higher than June 1943, previous record for that month. Accounts were largely responsible for the sales rise, with 38 new con-tracts signed for June 1944, and 176 new sponsors signed during the first six months of the year. Sales registered a 12% increase for the first half-year over a similar period in 1943-the best year in the station's history.

KNEW New York on July 8 started a series of five transcribed weekly quarter hour talks What Are We Fighting For, originally broadcast at Army camps under the auspices of the War Dept.

Represented by the Katz Agency

Kroger Withdraws Claims

AGREEMENT to cease and desist from making certain representa-tions regarding Kroger's Clock Bread was entered into last week with the Federal Trade Commission by Kroger Grocery & Baking Co., Cincinnati, and Ralph H. Jones Co., advertising agency for Kroger products. Companies will refrain from representing that the bread has a tonic effect upon the nerves, corrects dietary deficiencies or contains "supercharge" health factors.

New Altec Speaker

ALTEC LANSING Corp., Holly-wood, Cal., has announced the de-velopment of a new type duplex loudspeaker said to deliver in-creased areas of distribution. Speaker is a compact, two-way multi-cellular unit, requiring less than 11/2 cubic feet of floor space and is said to deliver high quality in home radio, phonograph and FM reproductions.

Canada Guild

TO PROMOTE better broadcasting TO FROMOTE better broadcasting practice and more harmonious relations between producers, unions, stations, advertising agencies and other broad-casting interests, the Radio Directors Guild has been formed in Montreal. Application has been made for a prov-incial charter by the group of Mon-treal radio executives who plan to operate cooperatively "for the better-ment of radio". The provisional board consists of Paul L'Anglais, Radio Programme Producers Ltd.; Wilf, Charland, Whitehall Broadcasting Co.; Paul Corbeil, program director of CKAC; Omer Renaud, supervisor of programs for Quebec of the Cana-dian Broadcasting Corp., and manager CBF and CBM; Olivier Carignan, Canadian Adv. Agency; Marcel Pro-vost of the French-language weekly publication Radiomonde. practice and more harmonious relations between producers, unions, stations

JOSEPH M. GLODSEN, former re-search director of the war communi-cations research division, Library of Congress, and previously in charge of research for Norman Bel Geddes & Co., New York, has joined Leo Ne-jelski, newly established public rela-tions and management counsel, as re-search director search director.

New Business

LOCKHEED AIRCRAFT Co., Burbank, Cal. (institutional), on July 10 for 52 weeks, starts *The Man Called X* on 70 CBS stations, Mon., 9:30-10 p.m. (EWT), and with availability shifts to new time after 8 weeks. Agency: Foote, Cone & Beld-ing, Los Angeles.

We Sell Programs

In these days of saturating demand for announcement availabilities we are particularly pleased to point out that by far the largest part of our sales are programs of five minutes and longer.

Every modern means of selling and presenting programs is used. Letters, direct mail, transcriptions and hundreds of presentations similar to the one shown here are employed for this purpose.

But most important of all, these presentations are made in person by men highly specialized and devoted exclusively to the sale of radio.

Time buyers find successful program selling of this kind is constructive and the results are gratifying to the radio stations we represent.

ALL-STAR SPORTS REVIEW

EADED STA

Jim Sawyer is a recognized sports authority with a very large following. Ex-shortstop in the American League, he has been broadcasting sports for soveral years and is a permanent member of the station's staff.

Naturally, with a great baseball background Sawyer is not only a local institution has has the best possible contents in all fields of sports.

During the baseball and forthall seasors me dies 1 play-by-play car s for this station. Hi caseball broadens s were sponsored hast fall by the MATOMAL FAUST CONTAIN, a local bank. The high school basketball games, including the state tournaments are sponsored by the HARRIS FORLIC SERVICE COMPANY. Both of these sponsore have signed him up sizesdy for play-by-play this coming fall and winter.

The program in question -- ALL-STAR SPORTS REVIEW has seen running for two years and, until last month, was sponsored by the MOORF INSURANCE COMPANY six days a week. The MOORE COMPANY decided to drop the program for the summer, but want it back next fall. If in the interim we can secure a 52-week opensor, the stition will withhold him from this provide spontor.

Setting I by to an experienced radio performer with a good these and an appealing sense of humor. He knows aports and aports pepple, and uses conduct and players on his program for interviews. During the summer his because to are confined mainly to hig lengue baseball and

Forgotten Probe

IN THE helter-skelter of war and political news coverage, station sales, FM and television developments and FCC fulminations, folks in radio have all but forgotten what was radio's biggest Washington-front story a scant few months ago—House Select Committee Investigation of the FCC.

There were screaming headlines prior to last fall, when the fiery Rep. E. E. Cox of Georgia resigned as chairman of the Committee. The white heat persisted until the Committee's general counsel, Eugene L. Garey, of New York, resigned under fire four months later. In the meantime the venerable Rep. Clarence F. Lea of California had been named Committee chairman, and there promptly were charges of an Administration "whitewash". Indeed that view might well have been taken, for the investigation was transformed from one of fire and brimstone to a quiescent sort of pink tea, if headlines are the index.

But that's not the case. Actually, only the first phase of the inquiry has been completed. The Committee now has recessed hearings until fall. Meanwhile a new general counsel formally takes over. He is John J. Sirica, able young Washington attorney, who was selected without regard to political considerations and on proven ability alone. Since last April Mr. Sirica has been studying the record of the proceedings which had begun with open hearings the preceding July. He attended all sessions, but allowed Harry S. Barger, the Committee's chief investigator, to complete the first phase.

The FCC, upon insistence of Chairman James Lawrence Fly, now has completed its rebuttal testimony on this first phase—covering activities of the Radio Intelligence Division and the Foreign Broadcast Monitoring Service, along with such collateral matters as draft deferments and foreign language stations.

Mr. Fly had charged that the inquiry had been "star chamber" and that the Commission should be permitted to rebut the Cox-Garey record. To us it appears that thousands of words of trivia have been dumped into the record during these last few months. Anyway, Congress slashed the 1945 FCC budget by more than \$2,000,000, curtailing sharply the RID and FBIS activities, which had been under Committee fire.

Mr. Sirica proposes to lay before the Select Committee facts which should aid Congress in formulating new radio legislation. While the Committee recesses he will delve into the FCC's licensing power to ascertain where the Commission has gone wayward. He is determined to undertake the task dispassionately and impersonally. Those who have seen him perform in the Washington courts relate that he is utterly without fear and that he knows his subject and his adversaries before he undertakes an assignment. By September when hearings are resumed he hopes to have all the facts, good or bad, to lay before the Committee.

If, as a result of the new inquiry, it is developed that the FCC has abused its licensing powers and that the imperfections of the existing law permit abuses, than all concerned should work together im writing a new act. If, on the other hand, it is found that the Commission has hewed to the letter and spirit of the law, then that should be accepted.

There should be agreement, beforchand, on one point. Congress has ordered the inquiry and appropriated the funds for it. Mr. Sirica should be permitted to complete his work without hindrance from any quarter, Administration, FCC, or the leadership of the House. The first phase, now ended, made a mockery of legislative processes.

Ominous Signs

THE INEVITABLE is shaping up in the international shortwave field. Government forces are moving toward Federalized operation of shortwave broadcasting after the war. Despite pledges that these facilities would be turned back to the private operators who developed them for commercial use the American way, plans are fostered behind the scenes to continue Government operation, perhaps through a peacetime OWI or CIAA or both. This comes with more regret than surprise, for it always happens that when Government reaches into fields of private endeavor it is loath to get out. And if Government remains in the international radio field, it is but a short haul to the domestic, particularly in this new era when anywhere is overnight from anywhere.

Freedom to Be Free

OVER AND over again people remark that radio talks about others with a strong voice, but never talks about itself. It's true.

The exception occurred the other day. Dick Harkness, able NBC commentator, chose July 4 to discourse on freedom of radio. He read the free radio-press plank in the Republican campaign platform, adopted at the Chicago Convention. He called upon the Democrats to be equally outspoken.

The Democrats talk about a "thumbnail" platform that can be memorized. It's hard to see how a free radio-press expression could be any more than a sliver rather than a plank.

We're glad a reporter of Harkness' stature addressed himself to radio's freedom. It hasn't been a popular thing. Some reporters know of repercussions from official quarters when radio has deigned to comment on regulation. Repugnant as that may be to democratic principles it has happened—here and recently.

The facts in this case have been duplicated many times. It's the first time within our knowledge that a station has been cited on such a count. But these are different times and the FCC is made up of different men.

In these times, more than ever, it is important that radio speak out fearlessly for its freedom. Few in radio will contend that it is entirely free today.

Our Respects To - .

PAUL McCLUER

F PAUL McCLUER'S late Uncle William, then head of Cochran & McCluer, one of the oldest Chicago real estate firms, hadn't

invited Paul to live with him, he might by now be a college professor, not quite fusty, but certainly frustrated. Uncle Billy, however, according to the present and highly successful young sales manager of the NBC central division, thought a young man ought to work in the big town and watch its wheels go 'round.

Realtor McCluer, Chicago pioneer, had risen with the influential men of the city. Therefore, he introduced Paul to many of his friends, among them Samuel Insull, when that tycoon was nearing the top of his pyramids. Appraising Paul McCluer's ability, Insull placed him in the Chicago Central Station Institute as an instructor for employees of the Insull utilities in Northern Illinois.

McCluer was fitted for the job. At the U. of Illinois, where he took his A.B., he had majored in public speaking and dramatics, and after teaching those subjects at Northwestern Military & Naval Academy, Lake Geneva, Wis., he had returned to the Illinois campus as a professor in the same subjects. Meanwhile he was writing his M.A. thesis, the subject of which, he now recalls wistfully, was "The Greek Proscenium".

Too, by inclination and environment he had shown an early aptitude for such work. Although he was born in Brimfield, Ill., Aug. 3, 1900, he remembers little of that small town, but retraces his following grade- and high-school days as a series of elocution contests and debates before civic leaders in a score of midwest towns. This was as a consequence of his father's itinerant calling, that of a Presbyterian minister whose eloquence was instru-mental in founding or expanding community pastorates in his path. And Paul's college vacations had been spent augmenting the theory he was learning in classes, by travel with Chautauqua units as a platform manager. Now that he looks back, he says the most important phase of that job was re-signing unhappy local sponsors for next year's visit.

As an employe's pedant, however, McCluer wasn't satisfied with his progress. Taking inventory of himself and the business world, he decided to try a field with unlimited possibilities--radio, and in 1928 he joined WENR Chicago as assistant to the manager, with such varied duties as script writer, announcer, and time salesman. By March 1931, when he joined the sales staff of NBC's central division, McCluer found himself in his right (Continued on page 40)

OUTSTANDING PRODUCTION ... key to the high caliber of WMfM programs

When you plan your program on WMFM, depend on its being an outstanding production.

Depend on its being an outstanding production because of WMFM's outstanding facilities. Radio City, the home of WMFM, is one of America's finest local radio plants. The ultra-modern auditorium \therefore the well equipped individual studios, plus the finest in engineering equipment assure WMFM programs of technical perfection.

Add to that the keen production minds, and top-flight talent available for WMFM programs. It's easy to see why WMFM programs are high caliber programs. It's easy to see why WMFM programs are a welcome visitor in tens-of-thousands of Milwaukee and Wisconsin homes.

Several of the most popular WMFM programs are available now for sponsorship. Take advantage of the prestige building, sales stimulating value of a program on WMFM. Let us plan with you to adapt a current WMFM program to your needs or let us work with you in the development of a new program.

Act now. Include WMFM on your fall schedule. Call, write or wire.

Like a satisfying cold drink on a hot summer afternoon, it's refreshing to a Time Buyer to discover a radio station that has all it takes to produce *Results*!

KOA is such a station, with its combination of indisputable, proven *selling* factors.

Here's why KOA advertisers have never been *left* in the cold, and are always *warm* at renewal time:

Dealer Preference (68.8%)* Listener Loyalty (69%)** Top NBC Programs Power (50,000 Watts)

Coverage (Parts of 7 states)

*Ross Federal Survey **NBC Tale of 412 Cities

> Few Stations in the Nation Can Equal KOA's Dominance!

Our Respects to

(Continued from page \$8)

element, numbering among his accounts Miles Laboratories, Johnson's Wax, Fitch's, Compana, Welch's, Household Finance, Ralston, Lady Esther and others.

That one salesman should be responsible for such national advertisers is considered unusual, but no less so is it, Paul McCluer will tell you, than the record of the NBC central division sales force as a whole, a record McCluer with quiet energy is enlarging daily through his sales manager policy of "letting each man mind his own business".

Still Small Town Boy

Mr. McCluer claims he's still a small town boy in some respects, giving as an example his interest in traps and snares when he goes fishing and hunting at grounds picked by Charlie Lyon, NBC announcer, and Andy Devine, the gravelthroated comedian of radio and screen, in the Canadian woods. And then there's the matter of the shareopinion policy carried out in the McCluer family. For eight years his New York City-born wife had her turn, and the McCluers lived in a Chicago apartment. Now, for eight years, it will be Paul's way of life, in a large country house on 10 rugged acres near Libertyville, Ill., where they have a small garden, some chickens, two footloose cocker spaniels and a handy shotgun for occasional pheasants and rabbits who trespass the grounds in season.

Mr. McCluer represents a different school of thought from that of some radio executives, and when he says the future of radio is unbounded, he takes into consideration every phase of the industry, from potential sponsors to future talent. He believes the peace will find hundreds of new and marketwise advertisers, that the emergency of war and laboratory research during this time will prove benefiicial in the technique of production, and he feels that radio education, both before the "mike" and at the receiving end is developing a reservoir of latent talent now in the armed forces.

Pvt. Council Missing

PVT. CARLYLE C. COUNCIL Jr., son of the president of WDNC Durham, N. C., has been reported "missing in action" as of June 1. He entered the service from the U. of North Carolina in April 1943 and went overseas the following September. After further training in North Africa, he went to Italy in November. During the first three months of this year he was hospitalized in Africa, but returned to his company early in April.

WALKER Co. has been appointed exclusive national representatives of KXL Portland, Ore.

HUGH J. BRENNEN, owner of WJAS and KOV Pittsburgh, is at home recovering from a recent gall bladder and cardiac attack. He will be away from his office about a fortnight, it is reported.

JOHN I. PROSSER, former program director of WKY Oklahoma City, has been named general manager of WKAT Miami Beach. He succeeds John C. McCloy, who has been inducted into the armed forces.

HARRY ENGEL. account executive of KWKW Pasadena. Cal., and Patricia Weisberger are to be married in Beverly Hills July 14.

JOHN TORMEY, a supervisor of network operations at CBS, has transferred to WABC New York as account execuive.

E. C. CUNNINGHAM, NBC central division local and spot sales traffic manager, is the father of a girl.

U. S. Army Signal Corps Photo DOWN THE HATCH went James W. Woodruff Jr. (1), executive manager of the Georgia Broadcasting System (WRBL WATL-WGPC), and Weldon Herrin, manager of WRBL Columbus, Ga., during Infantry Day demonstrations at the Ft. Benning (Ga.) Parachute School. They took a ride from Ft. Benning's 250-ft. trainer tower for paratroops.

NEW EDUCATIONAL SERIES FOR TROOPS

A NEW SERIES of programs designed to bring the troops closer to home and broaden their understanding of the war and their part in it will begin soon under the direction of the Education Service of the Armed Forces Radio Service, Morale Services Division, and in cooperation with the four major networks.

About 400 stations and sound systems now in operation in all war theatres are now available to carry the programs. As the fighting fronts are extended, additional facilities will be installed. All members of the U. S. armed forces, on land or sea, will hear the series if at all possible under existing outlets.

Many of the programs will be transcribed after presentation in this country, and then flown to overseas stations. They are designed to be of entertainment as well as educational value.

WBNX broadcasts daily to Metropolitan New York's racial groups which comprise 70% of the population. These milliens, with millions to spend, have their own hurches, newspapers and radio stations. They respond to WBNX programming and public service, the reason why many of the country's largest advertisers today are using WBNX consistently. If your products are merchandised in Greater New York, WBNX should be on your list. Write WBNX, New York 51, N. Y. for availabilities. Or call Meirose 5-0333.

Look to the Future . . .

They were veterans when they joined Farnsworth 5 years ago! These 21 men in the Farnsworth headquarters organization today are all in the same important positions they took in 1939 when Farnsworth expanded its research laboratories and entered into the production of radio, phonographcombinations and television equipment. This intact staff is a true indication of the sound planning and development within the Farnsworth organization.

These men are planning post-war products and services and policies now — natural developments of our 19 years of research in the electronic field . . . in television, radio and phonographic reproduction. After the war, Farnsworth will be in a strong position to work with you in all phases of radio and television transmission and reception. Farnsworth accomplishments have received high recognition. Farnsworth possibilities in the future are unlimited.

FIRST POPULAR INTERPRETATION OF TELEVISION. Write for copies of "The Story of Electronic Television." Prepared for the public, it should be useful to you.

"Pied Piper

of the Piedmont"...

He can't toot a note, but he's a flesh-and-blood legend. He's followed by more than 177,000 listening families a week over WBT. In milltowns and cities, mountains and farmlands—from 6:00 to 8:00 A.M. weekdays, 7:00 to 9:00 A.M. Sundays— 47.6%* of all radio families in WBT's 107-county primary service area tune to Grady Cole for farm and weather reports, news and general information.

They write him an average of 8,000 letters and postcards a month. So great is their faith in what he has to say that they plant what he advises, eat what he suggests, *buy what he recommends*. They name babies after him. They come from remote sections to meet him and ask his advice. Thousands declare he could be governor of either Carolina if he chose to run. He doesn't.

The legend of the incredible Grady Cole has been growing since November, 1929, when he first stepped up to a WBT microphone and began his career of public service. He's been a big factor in the successful growth of Piedmont agriculture during these 15 years — and a big factor in the success of many new brands and products in Carolina markets.

Today, 18 national advertisers hold stubbornly to Grady Cole contracts. We'd be glad, however, to put you on the waiting list . . . or help you start a new legend with a WBT show cf your own choosing.

*So says the CBS Listener Diary

Represented by Radio Sales, the SPOT Broadcasting Division of CBS

MARTIN MAGNER, producer-director, is shifting from NBC's central division in Chicago to NBC New York, where he will succeed Wynn Wright as director on Arthur Hopkins Presents.

MRS. ROY PORTER is now an associate of Larry Stevens, former publicity director of BBC, in New York, who opened his own public relations firm at 30 Rockefeller Plaza. New York, last Wednesday. LT. FRED M. WOOD, formerly of WIP Philadelphia, has been transferred to Naval Air Transport Service and is stationed at Miami. He was promoted to his present rank in January, after a year as instructor for Naval flying cadets.

HENRY EAST, news editor of WRBL Columbus, Ga., has returned to the station after temporarily directing the activities of WGPC Albany, Ga. Jim Harding is a new WRBL announcer. Billy Wismer has joined the station as continuity director.

SIDNEY KING has joined WGPC Albany, Ga., in a promotion-programming capacity.

WLW Names Kingsbury

GILBERT W. KINGSBURY, assistant editor-in-chief of the WLW-WSAI Cincinnati newsroom since joining the stations in November, 1942, has been named editor-in-

named editor-inchief, succeeding William Dowdell, it was announced last week by James D. Shouse, vice-president of the Crosley Corp. in charge of broadcasting. Mr. Kings bury, a graduate of the

Mr. Kingsbury

U. of Kentucky graduate of the U. of Kentucky where he majored in journalism, was a reporter and later assistant city editor of the *Cincinnati Post*, before becoming assistant dean and assistant professor at the U. of Cincinnati, where he is still a member of the evening college faculty, lecturing on journalism.

GOP Reactions

RADIO REPORTS Inc., New York, in the July 1 issue of its weekly digest of radio opinion, states that "favorable radio reaction to the Dewey nomination outweighed unfavorable comment, but the GOP platform came in for much more criticism than praise." Report covers 1806 news and discussion programs, monitored from 6 p.m. June 23 to 6 p.m. June 30 in New York and June 21-27 in Los Angeles. Statement prefaces brief digests from the broadcasts of local and network commentators on the Republican party's choice of candidate and platform.

ART PRIMM, announcer of KFRC San Francisco, has joined the station's production staff.

CHARLES BEN DAVIS, formerly with WNOX Knoxville as chief continuity writer and war program director, is now program director of WBIR Knoxville.

WALTER LONG succeeds Otis Henley as news editor and announcer at WCBI Columbus, Miss., and WELO Tupelo, Miss., both stations of the Mid-South Network. Mr. Henley has be come commercial announcer at WCBI.

FOUR newcomers to the staff of WSAZ Huntington, W. Va., are Jack See, announcer; Bernard Sammons and Bill Ratcliffe, salesmen; Barbara Litton, traffic manager.

"Careful, dear — you know WFDF Flint says we musn't lose our ration books."

War Gem Today WHAT WILL THE QUARTZ CRYSTAL DO TOMORROW?

The fabled princes of Hindustan or the wealthy Nizam of Hyderabad never owned a gem more valuable.

The quartz crystal is doing more than rubies or emeralds to protect our way of life against the aggressor.

Cut into tiny wafers the quartz crystal is performing with merit wherever fixed radio frequencies are a "must".

Federal is mass producing frequency control crystals for military use. How many difficult jobs they are doing is a war secret. But their versatility is unlimited.

Even now—in the great FTR research laboratorics—men are finding new uses for

Megatherm, Federal's pioneering induction and dielectric heating equipment, is giving outstanding production line performance in the metals, plastics, food, textile and other industries. To achieve mass production Federal has installed new machinery and new methods to speed crystals on their way to war—and will continue to be a leader in crystal production. Now is the time to get to know Federal.

Newark 1, N. J.

Federal Telephone and Radio Corporation

quartz crystals — pointing the way to widespread industrial and civilian use after the war is won.

Not alone in communications — but in such widespread applications as precision timing and measuring devices, television, supersonics,

pressure gauges, filters, generators, induction

heating devices and automatic control equip-

ment, crystals will find new uses . . . a war gem

will become a peacetime servant.

Five-Minute Series On Hooper Ratings 'Goodrich News' Leads Strips In New Survey Service

RATING information on nationally sponsored five-minute strip programs, a new service of C. E. Hooper Inc., appears in the June 30 evening report for the first time, showing Goodrich News in the lead, followed by Johns-Manville News, Parker Pen News, and Story Teller in that order. Fibber McGee & Molly heads the list of "first fifteen" programs.

Joan Davis with Jack Haley ranks second, Radio Theater third and Screen Guild Players fourth, followed by Charlotte Greenwood, Mr. District Attorney, Frank Morgan-Fanny Brice, Bing Crosby. Take It or Leave It, Walter Winchell, Aldrich Family, Kay Kyser (first half-hour) Eddie Cantor, Hildegarde, Kay Kyser (second half-hour).

Your Hit Parade has the largest number of women listeners per listening sets of those programs included in the list of Hooper subscribers, Gabriel Heatter draws the most men listeners, and Lone Ranger the most children. Subscriber program with the highest sponsor identification index is Radio Theatre, with 89.2.

Average evening program rating, according to the report, is 6.8, down 0.4 from a year ago. Average sets-in-use, 22.0, is down 3.9 from last report, up 0.9 from a year ago. Average available audience is 73.6, down 1.6 from last report, down 2.4 from a year ago.

Canada Day Leaders

CANADIAN DAYTIME programs lead in popularity according to the June daytime national ratings report of Elliott-Haynes Ltd., Toronto research organization, which has just been issued. They Tell Me tops the list with a listing of 17.6, followed by Soldier's Wife with 16.7, Big Sister with 16.6 and Happy Gang with 15.4. Other leading daytime programs are Road of Life in fifth place, followed by Vie & Sade, Ma Perkins, Lucy Linton, Pepper Young's Family and Women of America. Sets in use were highest for Happy Gang with 22.7. All programs show a drop in the number of sets in use in June from the May report. French languageprograms show more sets in use with the leading program Quelles Nouvelles having a program rating of 31.7 and 43.4 of the sets in use. Jeunesse Doree is second in popularity with a rating of 29.6, followed by Joyeux Troubadours (the French version of Happy Gang), La Rue Principale, and Grande Soeur.

Canada Recruiting

DOMINION OF CANADA, Dept. of National Defence, Ottawa (Army recruiting), has started Night Train, quarter-hour transcribed dramatized interviews with men in the services, on practically all Canadian stations. Account was placed by the Advertising Agencies of Canada, Wartime Group, Toronto.

THE BROTHERS WHEELAHAN Bomber Pilot Turns Plane Into 'P24';

—Trainee Gets Out of Tight Spot-

Harold and John Wheelahan

2D LT. JOHN E. WHEELAHAN, B-24 bomber pilot in the European theatre, and his brother, Harold M. Wheelahan, in naval aviation training [BROADCASTING, April 19, 1943], recently had some thrilling experiences. Both are former employes of WSMB New Orleans, where Harold M. Wheelahan, their father, is general manager.

Harold made a single stick landing under adverse conditions at his training base a few months ago. His brother was returning from bombing an cil refinery when anti-aircraft fire disabled the No. 1 & 4 engines of his plane.

Easy Prey

The loss of speed and altitude caused the bomber to become a straggler and drop out of the formation, thus making it easy prey for German fighters. American fighter support was not scheduled for another 20 minutes and the ME 109s swarmed in for the kill. B-24s are noted for their fire-

power in the nose, so the German pilots elected to attack from the tail. However, as the 109s came in, Lt. Wheelahan rolled and turned in steep banks—always keeping the deadly nose guns blazing on the fighters. German pilots had never seen a bomber perform like a fighter and so the first group gave it up as a bad job.

The end was not yet in sight. With the fuel supply exhausted in one of the remaining engines and on a single engine operation, the second wave of six German fighters streamed in for the attack. The lead ship in the formation went down smoking under the deadly fire of the navigator and the others began to close in on all sides.

Like the days of the U. S. Cavalry saving the victims of the Indian attack, from out of the sun roared a squadron of P-38 Lightnings to disperse the German planes.

Lt. Wheelahan limped his B-24 back to England literally on "a wing and a prayer". Next day the commanding officer and members of the crew expressed their praise of a job well done.

- flat within ± 2 db. to 9,000 cycles, with an exceptionally low distortion content.

Measured by the "light" method, the Fairchild Magnetic Cutterhead reveals an ideal curve for instantaneous recording.

And mechanically, it offers exclusive features that damp the moving armature; that permit its accurate adjustment without disassembly of the cutterhead; and that fully modulate the groove at 98 lines per inch with a minimum of distortion — a feature extremely desirable in making masters for pressing.

Standard with the No. 539 Fairchild Recorder, the

No. 541 Magnetic Cutterhead is easily adapted to any recorder.

With professional use in mind, all Fairchild recording instruments are built to meet the exacting requirements of the radio and communications fields. To electronic skill Fairchild has added the plus of exceptional mechanical skill — skill long practiced in .0002" tolerance production of aerial cameras, electronic devices and radio direction finders.

The result of persistent research to provide unusually high volume level recording with exceptionally low distortion content is the No. 541 Magnetic Cutterhead. Descriptive and priority data are available.

West Coast Video Firm Is Headed by Swallow

WITH POSTWAR plans, forma-tion of a new firm, Television En-terprises Inc., headquartered at 9130 Sunset Blvd., Hollywood, has

been announced by John W. Swallow, president. While not revealing names of other corporate members, Mr. Swallow stated the firm will concentrate on commercial advertising film and is prepared to ac-

Mr. Swallow

cept new ideas on television as well as assist in marketing them. Besides having organized a strong production association with major motion picture producing units, Television Enterprises also has made tie-ups with leading Hollywood cartoonists and animators, he emphasized. Considerable work is planned with 16 mm. film.

Pioneer in Pacific Coast radio. Mr. Swallow for the past seven years was NBC western division program manager and resigned that post on June 1 to organize the new corporation. He joined NBC in 1932 as manager of the then newly created Hollywood of-fice. Prior to that he was man-ager of KFAC Los Angeles. Mr. Swallow entered the advertising field in 1928 and was also one of the country's first radio editors.

Educational Video Show Put On by Storm Agency

AS AN experiment in education by He Art Carles M. Storm Co., New York advertising agency, last Wednesday presented an "illus-Wednesday presented an 'illus-trated lecture" on natural history on WABD New York, Du Mont Video station. Plant life 300 million years ago was the subject of non years ago was the subject of the half-hour session, conducted with the showing of slides and ac-tual specimens, by Jay T. Fox, ex-plorer, naturalist and photographer.

If the program is successful, the agency plans a regular educational series as a "television university of the air." According to Raymond E. Nelson, vice-president in charge of radio and television at Storm, the project is an attempt to "find a workmanlike method to combine showmanship and education and to prevent a repitition of the situa-tion in radio where an education program is almost invariably synonymous with low rating."

Peralta on Coast

PERALTA WINE Co., San Francisco (Monte Cristo wine), on Aug. 8 starts sponsoring Count of Monte Cristo on 16 Don Lee California stations, Tuesday, 8-8:30 p.m. (PWT) with transcribed repeat on 10 Don Lee Oregon stations, Tuesdays, 10-10:30 p.m. (EWT). Con-tract is for 13 weeks. Because of an Oregon law forbidding wine advertising on the air before 10 p.m. program will be transcribed for repeat. Agency is Foote, Cone & Belding, San Francisco.

SEARS & AYER, Inc., Chicago, have been appointed national repre-sentatives for KWFC Hot Springs, Ark., according to William E. Ware, general manager of KWFC.

CANADIAN Broadcasting Corp. will use part of its \$100,000 ex-perimental account shortly to set up an FM station at Montreal, where previous experiments in FM where previous experiments in FM had been carried on, Dr. A. Frigon, CBC acting general manager, told the closing sitting of the Parlia-mentary Committee on Broadcast-ing at Ottawa. He also told the committee that 34 Canadian sta-tions had been notified they could increase power to 5 kw increase power to 5 kw.

Answering the brief of the Ca-nadian Assn. of Broadcasters, for the establishment of a three man judiciary board, details of which were presented at the previous seswere presented at the previous ses-sion of the committee by CAB coun-sel, Joseph Sedgwick, Toronto, Dr. Frigon stated that such a body would be inclined to exercise its authority with "more energy than we ourselves who know broadcast-ers' difficulties so well." He stated that the CBC was always impartial when dealing with privately owned when dealing with privately-owned stations.

Divorcement of newspaper ownership from radio stations was urged on the committee by M. J. Coldwell, a committee member and leader of the Cooperative Commonwealth Federation.

The committee is to make its recommendations to Parliament as to changes in the Radio Act and regulations, based on the hearings, and as to whether or not there should be a fulltime chairman of the CBC responsible for policy, with the general manager responsible for administration.

Part of the Assembly Line at Wichita's Beech Aircraft-Beechcraft Photo

America's Number One Boomtown!

Wichita leads them all—the first city in the United States in factory wage earner employment gains! Using 1937 as the base, 100, the Bureau of Labor Statistics has indexed Wichita at 939.4—with only one other city. Long Beach, even a close second. What does this figure mean to you, an adver-tiser?... Just that the constantly increasing number of big money makers has made booming Wichita first in the great Southwest in sound, solid sales gains, too ... with monthly retail sales up to \$16,000,000. Wichita has important money to spend today and is anticipating an ever-progressive tomorrow, with its permanently placed air-craft industries in the Aviation Center of the Americas.

Get This!

We're specialists when it comes to having things laid in our lap with the challenge to "produce or else!"

You advertisers with tough assignments don't scare us —in fact we glory in your company.

Take a ride on the band - wagon that plays to one of America's greatest direct response audiences and gets big results!

Babe Ruth Series

BABE RUTH on July 8 started a Saturday morning quarter-hour sustainer on NBC, similar to his summer program of last year, with a group of New York boys plying him with baseball questions. In turn the baseball star tosses questions at the boys. There is a cash prize for the one who answers the last query on each program, on the service identification of a famous diamond player, now in the armed forces. Ben Grauer, NBC announceer, serves as "umpire."

WHUB to CBS

WHUB Cookeville, Tenn., on July 10 joined CBS as a supplementary outlet. Station, which is nearly four years old, operates on 1400 kc unlimited time and is owned and operated by WHUB Inc.

HOWARD LE SIEUR, production manager of United Artists Corp., New York, has been promoted to sales promotion manager. Previously he was contact man on the Paramount Pictures account for Hanff-Metzger Co., now Buchanan & Co.

during the past few months have definitely placed the "Magnolia State" in the forefront of Southern oil-producing states. Approximately 400 wells are now producing from eight proven fields.

Mississippi is now considered the most potential oil-producing state east of the Mississippi river.

Yes, black gold is bringing about a new era of prosperity in growing Mississippi. Jackson bids fair to become the oil capital of the South Central states. And WJDX —"The Voice of Mississippi" continues to DOMINATE this profitable, growing market, and can give you EXTRA results.

SHOULD AULD ACQUAINTANCE get together sometime? They should, and did, as this picture proves. These old-timers started in radio 22 years ago with Leo J. Fitzpatrick's Kansas City Night Hawks at WDAF with the exception of Owen F. Uridge, a newcomer of only 18 years experience. The veterans at a party honoring Mr. Fitzpatrick are (1 to r): Heinie Klotz, retired and living in Hollywood; Harry Kessell, owner of a Hollywood music publishing company; Steve Cady, former manager of "Gene & Glenn", who owns several California hotels; Mr. Fitzpatrick, WJR vice-president and general manager; Jack Douglas, Los Angeles resident, was the "Old Night Watchman" on WJR Detroit; Mr. Uridge, WJR assistant general manager; Chester Gruber, "Tony Cabootch" of KMOX and WLW, now m.c. on the Coast; Jack Lavin, former Paul Whiteman manager, now in booking business. Lee Mansfield, blind California night club player, is at the piano, as the oldtimers warble in close harmony.

Perfume Plans

WAVERLY LABS., New York, has appointed Badger, Browning & Hersey, New York, to handle advertising for toiletries which include Come to Me perfumes, Creme Cologne and Spar bath foam. With distribution now extending from department to drugstores, firm is expanding promotion as new territories are added. Newspaper schedule may be supplemented by radio in the early fall, when final media plans will be set.

'Blondie' for Colgate

COLGATE - PALMOLIVE-PEET Co., Jersey City (Super Suds), on Oct. 28 will start sponsorship of *Blondie* on CBS Sundays, 8-8:30 p.m. Goodyear Tire & Rubber Co. is discontinuing its Sunday night CBS *Walter Pidgeon* show, making the time available. Talent and format of the *Blondie* series, which had been sponsored by R. J. Reynolds Tobacco Co. for five years on CBS, remains the same. Agency is William Esty & Co., New York.

THE DES MOINES AUDIENCE FOR DINAH SHORE IS ENLARGED

Yes, Dinah Shore and "Birdseye Foods" get a Des Moines audience 68.8% above their national Hooper. Exceptional? Not at all, The 48 CBS commercial evening shows on KRNT average 30.3% higher than their national Hooperating (twinter-spring '44). No wonder more than 150 national and regional advertisers use KRNT in Iowa's No. 1 market, Des Moines. KRNT, DES MOINES • CBS • A COWLES STATION 68.0/0 ABOVE NATIONAL HOOPERATING

INUTES

SECONDS

Continuity of

WHEN YOU SELECT A NEW TRANSMITTER

Off the air, right in the middle of a program—that's the nightmare of operating a radio station. That's when seconds seem like hours, and minutes like eternities. As though you didn't know!

Westinghouse Transmitters have been designed to cut program outage down to an almost unbelievable point. For example:

- 1. Indicator Lights show at a glance which circuit suffered an overload—even though the transmitter has returned to the air . . . making circuit checkup easy.
- 2. Conservative Operation of All Tubes-greatly increases reliability...lengthens tube life.
- 3. Air-Cooled Tubes—eliminate complicated and unreliable water cooling equipment.
- 4. Surgeproof Metal Rectifiers eliminate low voltage rectifier failures.
- 5. *Tube Life Meter* indicates the end of reliable tube life.

Vestinghouse

6. Circuit Breakers supply full overload and undervoltage protection automatically reducing length of outage.

We'll gladly give you complete information on these features, as well as other important advantages of Westinghouse Transmitters, such as: Low Operating Cost, Simplicity of Control, High Fidelity Signals, Ease of Maintenance.

PLACE YOUR ORDER NOW FOR YOUR POSTWAR TRANSMITTER

By placing your order today for a Westinghouse Transmitter, you assure yourself of the fastest possible delivery following the lifting of wartime manufacturing restrictions. We are scheduling deliveries in the sequence in which orders are received. For details, write Westinghouse Electric & Mfg. Company, Dept. 1NB, P. O. Box 868, Pittsburgh 30, Pa. J-08079

Can you answer these Radio Management QUESTIONS?

Have radio's new advertisers been really sold? How do they think when they prepare to buy? How does promotion affect them, what kind do they want? How do they feel about television?...About network option contracts?...About surveys?

> For several weeks Printers' Ink has been releasing the opinions on subjects like these given to its field worker by advertisers and agency executives. Here for the first time, is a reporting of the unbiased, uninhibited, off-the-record kind of talk you have always wanted to lay your hands on. Here are the opinions of your accounts and prospects on the way you do business.

> These bulletins are offered free of charge — no strings attached. They were prepared in an effort to give radio people a firsthand view of the thinking of their advertisers and prospects. In them, we hope you may find an opportunity to increase the effectiveness of station or network promotion in whatever medium you prefer. All you need do to receive the Printers' Ink Radio Bulletins is to ask for them. Just drop us a note.

The material contained in the Printers' Ink Radio Bulletins is highly controversial and occasionally inflammatory so we must restrict its distribution to those who are actually in the broadcasting business and who make their requests on company letterheads. We are extremely sorry, but no other requests can be filled. Page 54 • July 10, 1944

OWI PACKET, WEEK July 31

Thomson Sells 3 Stations Buys Four Newspapers ROY H. THOMSON, owner of CKGB Timmins, CJKL Kirkland Lake, CFCH North Bay and the Timmins Daily Press, has sold the Northern Quebec Broadcasting System (CKRN Rouyn, CHAD Amos and CKVD Val d'Or) in which Jack Cooke was part owner, to Radio Abiti Ltd., Amos, Que. for an undisclosed sum. Hector Authier, M.P. from Amos and former minister in the Quebec provincial government, is president of the new company. Roland Beaudry, of Montreal, is vice-president. New owners are publishers of French periodicals and books. At the same time it was an-

and books. At the same time it was announced that Mr. Thomson had bought four Ontario evening papers, the Sarnia Canadian Öbserver, Galt Reporter, Woodstock Sentinel Review and Welland-Port Colborne Tribune. A license for a 1 kw station was recently issued to the Canadian Observer, Sarnia, but this is not being taken over by Thomson due to the recent regulation prohibiting multiple ownership of stations in the future. The Sarnia license has been taken over by H. M. Hueston, former principal shareholder of the Canadian Observer. The four papers constitute Thomson Publications Ltd. of which R. A. Barford, director of J. J. Gibbons Ltd., Toronto advertising agency, will be general manager.

Western Stations Aid AAF

ALL STATIONS in seven western states are being enlisted by Western Procurement District of the AAF Materiel Command headquarters in Los Angeles to aid in accurate dissemination of production news in that vital war industry area, Major Howard Adams, public relations officer, established the radio news and feature division to make available to stations information regarding contract renegotiations, terminations, lay-offs and rescheduling Major Adams stated that the bureau was established so that broadcasters can present news material in such a way as to avoid a wholesale quitting of jobs thy aircraft workers to find jobs they consider safe. Lt. Joe Brechner, formerly Radio Branch, Bureau of Public Relations, War Dept., has been assigned to assist in servicing the stations.

WCSC Lease Approved

THE FCC has granted voluntary assignment of the license of WCSC Charleston, S. C., to John M. Rivers, president and general manager, on a 12 year plan involving monthly payments of \$1,200 to Liberty Life Insurance Co., Greenville, owner of the station. Mr. Rivers sought to purchase the outlet in 1940 for the sum of \$115,-900, but the transfer was vetoed by the Commission on the grounds that only a partial transfer would be effected and the insurance company would retain "substantial financial control of the licensee corporation" while Mr. Rivers assumed no "rersonal financial obligation".

Canada Budget Revision Called Postwar Radio Aid

CANADIAN broadcasters, along with other Canadian corporations, benefit from the new financial budget provisions brought down in the House of Commons at Ottawa recently. Under the new provisions, which have postwar significance, companies will be able to borrow on the 20% refundable part of the 100% excess profits tax. This refundable portion is to be repaid after the war. It can now be used as collateral for borrowing. Losses in any year may now be charged back one year or forward three years for corporation or excess profit taxes.

Companies are granted double depreciation on new capital investment after a date to be set by the government; may write off as an expense, expenditures on scientific research directly or indirectly connected with the business; one-half expenditure for maintenance and r repairs in a period to be fixed, may be allowed against income of previous fiscal periods in computing corporation and excess profit taxes. Customs duty was dropped on many items which have not been imported since Canada went to war to conserve United States dollars. For Canadian broadcasters these budget provisions allow more money for work in the postwar period, since many broadcasters just came out of the red as Canada entered the war, and they have paid excess profits taxes since then.

Convention Coverage

(Continued from page 13)

WIOD) to serve as Radio Director for the Democratic party during the campaign, expected to arrive in Chicago July 10. He will open Convention headquarters in Parlor 21, on the fourth floor of the Stevens Hotel, which will be kept open until after the windup of the Convention. Miss Goodwin will be located at the headquarters of the Women's Division on the third floor of the Stevens, from July 11 until the close of the Convention.

National campaign headquarters will be established in the Hotel Biltmore in New York following the Convention.

Meeting with Mr. Reinsch in New York last Thursday were: Paul White and Bill Slocum Jr. of CBS; Tom Slater of Mutual; Bill Brooks and Carl Smith of NBC; G. W. Johnstone of Blue.

That radio definitely has carved itself a permanent niche in the field of local news coverage is demonstrated by the scores of letters and personal commendations received by those stations which featured their own state delegates in broadcasts not available through networks, during the Republican convention. In some instances station reporters were able to break

North Dakota farmers had 213.2% more farm income in 1943 than in '39-and the national figure was only 128.3%. But '44 will be even better than that, out here in WDAY-land. We're the hub of the Red River Valley. You don't have to take our word for what that means. Look it up in the Encyclopedia Britannica-and read that we're in one of the richest agricultural areas in the world. Better yet, buy some time on WDAY, and read the figures off your sales records! Free & Peters, Inc., knows our availabilities,

FARGO, N. D. ... 5000 WATTS N. B. C. AFFILIATED WITH THE FARGO FORUM FREE & PETERS, NATIONAL REPRESENTATIVES

important announcements from their delegates.

Again most of the stations, along with the networks, will cover the Democratic Convention as public interest service, although many of them have arranged to feed special bulletins to regularly sponsored newscasts. In nearly every case, however, sustaining features will be given top billing.

Among the comments on local angle coverage is one from Merle S. Jones, general manager of KMOX St. Louis. "We continue to receive from our listeners commendation for our coverage of the Republican Convention," he said. "Our listeners report that the local and regional emphasis contained in the KMOX special pickups harmoniously augmented and completed the magnificent general coverage performed by Paul White's CBS staff."

Thomas Tinsley, president of WITH Baltimore, an unaffiliated station, declared that Ian Ross MacFarlane's handling of special newscasts and particularly two news beats, brought commendation not only from listeners but from several newspapers.

Jack Paige, promotion manager of WNAX Yankton, S. D., a Cowles station, commented: "We have had very fine reaction from our coverage of the Republican Convention and look forward to the same results from the Democratic.'

Plans of coverage supplementing networks and news wire services, as announced last week, follow:

New York Stations

Few New York stations were plan-Few New LOFK stations were plan-ning any special coverage beyond bringing their listeners the news as it comes off the wire service tickers. Several, however, have made special arrangements, including WOR, which again will shift the entire Martha Deane program to Chicago for special interviews and women's interest news as it did for the Republican meeting. WQXR, which picked up Gov. Thomas

as it did for the Republican meeting. WQXR, which picked up Gov. Thomas E. Dewey's acceptance address from Mutual via WOR studios, is planning a similar direct live pickup of the Democratic nominee's talk. WHN again will use convention news of the New York Journal Amer-ican, scheduling a daily quarter-hour and five-minute pickup from the city newsroon. Herb Pettey, managing director, will go to Chicago to make arrangements with one of the conven-tion reporters for special daily wire bulletins for WHN. WOV, which had a correspondent's seat at the Republican Convention, but was unable to fill it, may send transcription. WMCA will use its mual New York's municipal sta-tion, also will use its regular news sources. WINS plans to send Gueuther Reinhardt to cover.

KSD Plans Two Daily

Special sustaining broadcasts from Special sustaining broadcasts from the Convention have been scheduled by KSD St. Louis for 5 and 10:15 p.m. These programs will stress politi-cal comment with feature sidelights and when possible gnest speakers will be presented, following the example set at the Republican Convention when Sir Willmott Lewis. London Times correspondent. provided an in-ternational viewpoint for KSD listen-ers.

ers. Special guests and correspondents

NEW RADIO CHIEF of the Democratic National Committee, Leonard Reinsch, is congratulated by Aubrey Morris, president of the Henry W. Grady School of Jour-nalism chapter of Sigma Delta Chi, professional journalistic fraternity into which Mr. Reinsch has been initiated. In the center is Stelljes Nichols, secretary of the Univer-sity of Georgia chapter. Mr. Reinsch is director of the three Cox stations, WSB WIOD WHIO.

Louis Post-Dispatch will of the St. augment KSD's own staff in the spe-cial broadcasts, which will supplement cial broadcasts, which will supplement NBC and news wire coverage. KSD will have a booth at the Convention with direct wires to St. Louis. On the KSD-Post Dispatch staff will be: Raymond P. Brandt, chief Washing-ton correspondent of the paper; Mar-quis Childs, columnist and member of the Post-Dispatch Washington bureau; Churles C. Poss contributing editor: the Post-Dispatch Washington bureau; Charles G. Ross, contributing editor; Ralph Coghlan, editor of the editorial page; Mrs. Jean Lightfoot Coghlan, editorial department; Boyd F. Car-roll, Jefferson City, Mo., bureau; Dr. Roland G. Usher, KSD commentator and chairman of the History Dept., Washington U.

Five Daily on KMOX

Five daily direct broadcasts from Five daily direct broadcasts from the convention city will be aired by KMOX St. Louis, July 19-21 inclusive. in addition to special interviews fea-turing Missouri and Illinois Demo-cratic leaders, Merle S. Jones, general manager, announced. These broadcasts will duplicate service offered its lis-teners by KMOX during the Repub-lican Couvention.

lican Convention. Scheduled pickups from the KMOX studio in the Stevens Hotel will be at 7:45 and 8 a.m. and at 5 p.m. From 7:45 and S a.m. and at 5 p.n. From the Chicago Stadium special broad-casts will be heard at 12 noon and 10:15 p.m. KMOX also will carry com-plete CBS coverage. Representing the station will be Francis P. Douglas, news director; W. R. Wills. former Tokyo correspondent for CBS and KMOX news analyst; Katherine Darst, newspaper columnist who will report the human side of the Conven-tion through a woman's eyes; Gordon Sherman, engineer; Arthur J. Casey,

KMOX director of public relations who will supervise all pickups. WROK Rockford, Ill., will use tran-

with the start overage by Bill Traum, news editor. Records for two daily newscasts will be made by Mr. Traum.

KSO-KRNT Cut-ins

Direct wire cut-ins on every news-cast scheduled will be featured by KRNT and KSO Des Moines, key stations of the Iowa Broadcasting Co. Stanley Dixon, Glen Law and Joe Ryan will cover the Convention for the Des Moines Cowles outlets. Spe-cial interviews will be aired in addicial interviews will be aired in addi-tion to the spot news angles. KRNT's *Newsroom Roundtable*, regular Tues-day feature heard at 9:30 p.m. (CWT), will be broadcast July 18 from Chicago with Messrs. Ryan, Law and Dixon discussing current issues with prominent Democrats.

KSTP Special Coverage

A news writer and aunouncer will represent KSTP Minneapolis-St. Paul, handling special broadcasts as the news warrants. KSTP is permitting no sponsorship of Convention cover-age, handling it as a public service. In addition to direct pickups from the Stadium and Stevens Hotel, KSTP also plans to service its news-casts and to handle special bulletins by overhead. by overhead.

Four Daily on KMA

Four direct pickups daily have been scheduled by KMA Shenandah, Ia., Earl E. May, station general manager, annou nced. In line with KMA's public service policy. the daily broadcasts from the Convention will not be spon-sored. Times are 11:15 a.m., 1 p.n., 6:45 p.m., 10 p.m. Ralph Childs and Owen Saddler will handle the special broadcasts, designed to aurent Blue broadcasts, designed to augment Blue Network coverage.

WJR Service to Sponsors

WJR Service to Sponsors WJR Detroit plans au average of five direct pickups from Chicago with George Cushing, news editor, feeding special Convention news to WJR's regularly scheduled sponsored news-casts. Special interviews with Michi-gan delegates also are planned as part of the station's extra service to sponsors of newcasts, according to Leo J. Fizpatrick, general manager. Assisting Mr. Cushing will be Larry Payne, ann uncer, and Ned Nolan, engineer.

Reilly for WLW

Arthur Reilly will originate his daily newscasts (1:30 and 11 p.m.) for WLW Cincinnati from the Conven-tion. As a pre-Convention feature the WLW World Front, fed to NBC, will originate July 16 at 52 noon (EWT) with Mr. Reilly and Jack Beall, staff commentators, participating with a guest observer, y.t to be selected. Howard Chamberlain, WLW program

GE Wires Democratic Train

GENERAL Electric Co., Schenectady, N. Y. (electronics depart-ment) has arranged to install a wire recorder on a New York Central train taking the Democratic leaders from New York to Chicago for the Democratic Convention. As the train leaves New York, platters will be cut of interviews with the leaders which will then be dropped off in Albany, to be played back on a network which has not yet been determined. Agency is Maxon Inc., New York.

director, is *World Front* moderator. The program was aired from Chicago June 25, preceding the Re⁻ublican Convention.

Six a Day on WNAX

Six a Day on WNAX Two 15-minute broadcasts daily are scheduled by WNAX Yankton, S. D., in addition to network and news wire coverage. Delegates from Iowa, Min-nesota, North and South Dakota and Nebraska will be interviewed from the Stevens Hotel. WNAX also will cut in from Chicago Stadium or the Stevens Hotel. WNAX also will transcribe interviews with Sen. Guy M. Gillette of Iowa and other mem-bers of the Senatorial delegation from the WNAX listening area. Represent-ing the Yanktown station will be Art Smith, program director; Whitey Lar-sen, news analyst; Cliff Todd. chief engineer. engineer.

WSOY Shuttle Service

Since Decatur, Ill., is but three hours from Chicago, WSOX plans no direct pickups. Instead, Easter Strak-er, program director, and Mrs. Grace Patrick, continuity chief, will commute between the Convention and Decatur. doing special broadcasts of highlights according and human interact events of highlights to Charles F. Bruce, commercial man-ager. WSOY also will carry all CBS coverage.

WICA Spots

WICA Ashtabula, O., plans to send Alfred B. Newkirk, news editor, or Walter Wahrath, commentator, to handle overhead spot breaks and color, according to Robert B. Rowley, manager,

KOMA-KTUL Plans

Interest in Oklahoma is unusually keen in view of the fact that Gov. Robert S. Kerr will deliver the key-note address and KOMA Oklahoma (ity and KTUL Tulsa, only Oklaho-ma stations doing special coverage from the Republican Convention, will air direct pickups from the Demo-cratic sessions at 3:30 and 10:30 p.m. daily, with a repeat of the night spot at 7:15 a.m. following mornings. Em-phasis will be on the Oklahoma dele-gation and Gov. Kerr's participation. Other spot features also are planned, according to Kenyon Brown, KOMA manager, who with Bill Bryan, KOMA news editor, will handle broadcasts for both stations. Interest in Oklahoma is unusually news editor, will for both stations.

Awards on Blue

DOROTHY LEWIS, coordinator of listener activities of the NAB, will participate July 10 in a Blue net-work broadcast 1:45 p.m. announcing the winners of a contest for the best letters on the home. Con-test was conducted through women program directors by Parents mag-azine as part of the American Home campaign of the NAB Assn. of Women Directors. Program is the concluding broadcast of the campaign in which 24 national organizations have serviced women program directors ith material de-signed to help strengthen the con-cept of the American home.

MAKIN' THE GRADE IN INCLINE (Ky.)?

If you haven't already found it out for yourself, it's darn tough goin' to make the grade in little towns the likes of Incline (Ky.). But it's a glide in the Louisville Trading Area, where you have 57.5% of the entire State's buying power!... As we may have mentioned before, WAVE is the only station that completely covers the Louisville Area at low cost! ... That's why more and more smart advertisers are concentrating on Louisville, with WAVE. Want all the facts?

Now Is Best Time to Make Mistakes In Television. Asserts R. E. Nelson

"TELEVISION is here right now and the time for experimentation is also now," Raymond E. Nelson, vice-president and director of radio and television of Charles M. Storm Co., New York, told last Thursday's session of the Summer Television Seminar conducted by the Radio Executives Club of New York.

Expressing full cognizance of the future technical developments of television, Mr. Nelson continued: "We feel that television programming will have to come up to those improvements if it is to be fully acceptable to the millions of postwar video set purchasers. We have invested considerable time and money in television, even in what may be called its primitive stages, because we feel that the time to make mistakes is when the television circulation is at a minimum, and we feel that the agency has an obligation to its clients—both pres-ent and future—to fully acquaint itself with television's possibilities at a time when the cost is comparatively small and the mistakes receive relatively little public atten-

tion. "It is worthy of note," he said, "that radio did not reach its full growth until such a time as good radio programming became general. Television's great problem, to our minds, is programming, and its so-lution lies directly in the hands of the advertising agencies and their television directors, who in the case of radio, were dominant in its development as a successful advertis-

IT ALL ADDS UP...TO 3!

Here's a simple-and completely dependable formula for placing your spot announcements in Hartford. Get WDRC's winning combination of coverage, programs and rate! Connect in Connecticut by using WDRC!

ing and entertainment force." The importance of programming was also cited by Arthur Levey, president, Scophony Corp. of America, who described the large screen video receivers for theatres, schools and homes his company plans to put on the market as soon as wartime restrictions are lifted. "A potential buyer of a television set does not purchase it because tele-vision is the greatest scientific miracle of the twentieth century. It is only when television as a form of entertainment can compete with other show business that it will be-come an attraction for the masses." Stating that "it is obvious that

television broadcasters are still faced with a gigantic task in developing a new program technique before they can make television attractive to every home, and then able to pay its way," Mr. Levey added: "No matter how good your program material, I predict it will not mean much unless you show home pictures on far larger screens, at least comparable with home movies-say 24x20 inches.'

Sir Derwent Hall Caine, son of the novelist, who spoke briefly on prewar television in England, de-clared that in addition to the real need for television as a purveyor of entertainment in the postwar era, this new medium can exert a tremendous social influence and can aid in increasing international understanding.

MBS Gross Up

MBS gross billings for June, 1944 amount to \$1,521,703, an increase of 38.3% over the same month last year when the figure was \$1,100,-483. Accumulative gross billings for the first half of this year total \$9,895,760, representing an increase of 67.6% over the same period in 1943, when the total was \$5,902,924.

Zip Adds

ZIP ABRASIVE Co., Cleveland, is continuing to expand its national campaign of thrice-weekly oneminute transcribed announcements for Zip, a deodorant, the latest sta-tion addition being WJW Cleveland. Spot schedule, now running on 50 stations, is placed by James R. Flanagan Adv., New York.

Rehearing Called For Houston Case Texas Star License Plea to Be Considered by FCC

THE FCC last week designated for rehearing the application of the Texas Star Broadcasting Co. for a license to cover the construction permit granted in May [BROAD-CASTING, May 29] for a new local standard station (KTHT) in Houston, Tex., to determine "the truthfulness and accuracy of representations made by or in behalf of the applicant in the application for a construction permit, in the course of the hearings on the application and in communications and documents addressed to the Commission; and to determine the qualifications of the applicant to operate the station in the public interest".

Evidence Permitted

The Commission at the same time denied the petition of the Greater Houston Broadcasting Co. to intervene and for rehearing. It also denied the petition filed by Scripps-Howard Radio Inc. for rehearing, and reinstatement of application for construction permit. The action taken on the Texas Star application, however, provides that the latter petitioners would be given opportunity to present evidence at the KTHT hearing, which the Commission has designated for July 10 "or at such later date as may be fixed upon request of applicant". It was further ordered by the FCC that KTHT request for authority to begin program tests be deferred, "for consideration at the conclusion of the hearing or on July 18, whichever is earlier".

President of Texas Star is Roy Hofheinz, attorney and county judge, who holds 75% of the common stock and 15% of the preferred stock. W. N. Hooper, vice-president and secretary-treasurer, holds the remainder of both stock issues. Mr. Hooper is partner in Dr. Hooper Oil & Realty Co. and the Dr. Hooper Ranch Co. Following the grant by the FCC for reinstatement and conditional grant (pursuant to Jan. 26 Policy) of the Texas Star application for the standard facilities of 250 w unlimited time on 1230 kc,

construction of the station was officially commenced June 12 and completed June 28. Application stated that all of the necessary equipment for the station, except the antenna, had been purchased in January 1942. Original application was filed in October 1940, to be subsequently dismissed following the general "Freeze Order" of Feb. 23, 1942.

Scripps Howard Radio Inc. applied to the Commission for standard assignment in Houston in August 1940, amending that application in February 1941 to request the same local assignment Texas Star had requested in an amendment the preceding month. Following these requests was the application of Greater Houston Broadcasting for the 1230 kc 250 w unlimited time facilities in March 1941. The April 1941 petition of Scripps Howard, seeking reconsideration of an order for consolidated hearing, pointed out that the October 1940 application of Texas Star requested the same assignment as the Scripps Howard application of August 1940. Consolidated hearing was held in October 1941 and further hearing in May 1942 following the "Freeze Order" memorandum, concluded with dismissal without prejudice to refiling at a later date of all three applications.

In May of this year Texas Star filed with the Commission a petition requesting reinstatement and grant (without hearing) of its Houston application in view of the Jan. 26, 1944 policy concluded by the FCC and WPB relating to the use of critical materials for construction purposes. In petitions filed last month by

Greater Houston Broadcasting and Scripps Howard, contention was made that the May 23 action of the Commission granting Texas Star the Houston assignment, taken without hearing or notice, was considered "inequitable" and rehearing, intervention and relief was sought. The order adopted by the Commission last week results from these actions and reopens the issue.

NEW YORK U. in cooperation with the RCA Victor Division of RCA is offering a special summer course in industrial music, consisting of a series of public lectures July 10, 17 and 24 in the university's Music Dept.

KOBAK TO ADDRESS CHAUTAUQUA GROUP

EDGAR KOBAK, executive vicepresident, Blue Network, and other Blue officials will address the Chau-tauqua Assembly on July 28, the Assembly's first Radio Day, during which several Blue programs will originate from Chautauqua or from nearby Jamestown, N. Y., through WJTN, Blue affiliate in Jamestown.

Morning session Radio Day speakers are: Ray Knight, Blue production manager, on "How a Radio Program Goes on the Air"; Dr. W. R. G. Baker, vice-president, General Electric Co., on "Television".

In the afternoon, Alma Kitchell, Blue women's commentator, will speak on "Radio and the Public"; Clete Roberts, war correspondent for the Blue in the South Pacific, on "Radio at the Front", and H. R. Baukhage, Blue news analyst, on "How Radio Brings You the News". Mrs. Kitchell's Women's Exchange program and Ladies Be Seated, with Ed East and Polly, will originate at Chautauqua and the broadcast of Baukhage Speaking will originate in the Jamestown High School, during the afternoon session.

Mr. Kobak, speaking on "Radio as an Agency of Opinion"; Phillips Carlin, vice-president in charge of programs, on "Radio as a Medium of Entertainment," and Paul Whiteman, Blue musical director, on "Radio and Music", make up the evening program.

HE'S THE RICHEST FARMER IN THE U.S.A...!

The California farmer has the highest* cash income per farm in this country. His cash income for 1942 averaged \$8,797 per farm ...! The Beeline is primarily built to serve the Central Valley area of California, plus Western Nevada, where annual retail sales exceed *21/2 billion dollars!

WHAT IS The Beeline

Not a regional network but a group of longestablished key stations, each the favorite in its community . . . combined* on a new basis for National spot business.

Radio Finds News Niche

(Continued from page 13)

the seats usually set aside for the press. Later the Democrats found 26 seats which could be used by radio news personnel.

At the group meeting in Mr. Godwin's office last December, Mr. Morrison, Mr. Church and the writer were the only ones with any previous experience in the problem. We could only guess how many persons might want seats. Four years earlier at the Republican Convention eight seats had been given to each of the three major chains, CBS, MBS and NBC, and six seats to Transradio. Ten seats were available to independent stations and affiliates.

174 Applications

We agreed that radio news coverage had been developing with unusual speed since that 1940 Republican Convention, but we didn't know how many individual stations would send news people to Chicago. We decided to write all stations, asking for any applications, with March 1 as the deadline. BROAD-CASTING broke the story. Nearly 150 applications were received. The deadline was extended to May 1. Another article appeared in BROAD-CASTING. Just before the new deadline, Transradio, Associated Press, United Press and International News Services carried notices on their radio wires to station chiefs.

50,000 Watt...Clear Channel...1180 on Dial... Affiliated with the

NATIONAL BROADCASTING COMPANY

National Sales Representative: GEORGE P. HOLLINGBERY CO.

"The Stromberg-Carlson Station"

When the deadline passed, 174 applications for seats were in, exceeding by 54 the number of seats then available. The Republican National Committee originally set aside five rows of 30 seats each for radio news personnel but informed the Committee later that the number must be cut by 30 to put in a working bench. The seats were restored after it was discovered that the anticipated elimination of one row was not necessary.

Applications had been received from 48 organizations in addition to the four major networks and Transradio Press. More than 60 independent and affiliated stations were included.

Since applications for radio gallery seats came from coast-to-coast and into the deep South the Radio Executive Committee, which had been augmented by the addition of William Costello, CBS Washington commentator, several times questioned whether or not it had oversold the idea. The answer came at the Republican Convention. Independent and affiliated stations arrived on schedule. Only nine individuals failed to appear for their seats and in two cases cancellations were telegraphed.

While nine early applicants failed to appear, their places were taken by others who failed to make requests for seats. These were taken care of by the Republican National Committee. All have since made application for seats at the Democratic Convention.

Local Angle Played

Independents and affiliates discovered that they have a definite place in news coverage. Their work supplements the coverage offered by the chains and the news services. Senators and Governors and Representatives in Congress might be only delegates to the Convention, as far as the national story is concerned, but they are big men in their home communities. Thus individual stations were able to provide exclusive "home-flavored" interviews. And they learned that such programs had wide listener acceptance.

Facilities offered by the Republican National Committee as well as the services accorded to the men and women in the gallery were excellent. Credit unquestionably goes primarily to Mr. Church, who quietly, efficiently and effectively met each problem and solved it. James P. Selvage, the GOP director of publicity, and his able assistant, Robert Pritchard, also contributed much to making certain that the radio setup was able to function satisfactorily.

Plans to make the Democratic coverage as thorough and as satisfactory have been made. The Radio Correspondents' Executive Committee, buttressed by experience, met

NOW COMES WJW Cleveland with photographic evidence that Gov. Thomas E. Dewey made his public utterance, after his first nomination, over WJW at 6:07 p.m. (EWT) June 28 at the Cleveland airport, when he was interviewed by Earl Harper, station special events director. WJW hid under the proverbial bushel, however, and didn't disclose its scoop until after NBC was credited with putting the Republican nominee for President on the air "first" at 6:16 p.m. from the same airport [BROADCASTING, July 3].

with Paul Porter, Director of Publicity for the Democratic National Committee, and J. Leonard Reinsch, Radio Director, on July 3. The cordial reception accorded the Committee's program gave its members assurance that the facilities available will be ample for networks, news services and independent stations.

Code Provides FM Aid

The Radio Correspondents' Assn. has definitely established itself as spokesman for radio newsmen and women in contacts with official and political life. Its Executive Committee, under rules of the Congress, supervises the galleries in the Senate and House. There are now 68 active members, radio news personnel working in Washington. We have more than 100 associate members scattered throughout the country.

The Radio Correspondents' Assn. code is: "The Radio Correspondents' Association has for its aim the promotion of the Radio News Gathering Fraternity and strives to protect the rights and privileges of radio reporters and assist in every way possible to maintain high standards of reporting news by radio, wireless or other similar means of transmission."

It was this program which it endeavored to foster at the Republican National Convention and which" will govern its activities at the Democratic National Convention.

Evans Coffee on 17

DAVID C. EVANS Coffee, St. Louis, started a series of renewals of quarter-hour and five-minute news shows July 3 on the following stations: KLCN KBTM WKRO WSOY WEBQ WJPF WTAD WCBS WTAX WDZ WEOA KFVS KFRU KHMO KWOS KWK KXOK. Renewal contracts were placed by Ruthrauff & Ryan and run for 13 weeks.

EDWARD A. CARROLL, of WCAU Philadelphia, has been elected chairman of the Philadelphia local. broadcast division, American Communications Assn., CIO. the union reports. Other new officers include: George Frank, KYW vice-chairman; George V. Schisselbauer, WFIL, secretary; James S. Stewart, WFIL, treasurer.

WALTER KEAN, formerly in charge of Western Electric's radio and radar testing projects, has joined the Andrew Co., Chicago as head of the company's new field engineering and allocation service.

BOB COOKE, operator of CHEX Peterborough. Ont., has joined the Royal Canadian Navy.

ORVILLE H. (Dutch) MILLS, engineer of KDKA Pittsburgh, has joined the Merchant Marine as radio operator. He has had 3¹/₂ years previous service.

C. O. ELLIS, former superintendent of telegraph of Rock Island Lines, Chicngo, has been appointed to the new position of superintendent of communications, anticipating new radionic developments in train control, according to W. H. Hillis, operating officer. Hillis pointed out that telegraph was the principal means of railroad communication for many years, but now radio is being used "for contact between yardmasters and conductors and engineers on moving engines and trains."

NICE WINTER is a new member of the engineering staff of WBIG Greensboro, N. C.

R. J. BIELE has been named assistant engineer of the receiver division of General Electric Co.'s Electronics Department, with headquarters in Bridgeport, Conn. He joined G-E's receiver division in 1935.

ANDREW E. HOPPER, former supervisor of the WHN New York engineering staff. now serving with a troop carrier division in England, has been promoted to major.

PETE WILSON, chief engineer of KMTR Hollywood, is the father of a boy.

ALVIN KIMBROW has joined WCBI Columbus, Miss., as engineer and staff artist, with a thrice-weekly early morning show.

ADRIAN LENTZ, WCKY Cincinnati engineer, is the father of a girl.

GARRY DeVLIEG, NBC Chicago recording engineer, is the father of a girl.

ELMER MAKI, formerly of the Yankee Network, is a new member of the control room staff of WAAB Worcester.

ART MILLER, engineer of CKWX Vancouver, and Mrs. Miller, formerly of CKWX, are the parents of a girl.

Gardiner for Thompson

DON GARDINER, Blue Network commentator, has taken over the Sunday 7:15-7:30 p.m. spot vacated on the Blue Network by Dorothy Thompson for Trimount Clothing and is likely to continue broadcasting in the same spot when it goes commercial for Serutan Co. beginning July 23. This was not confirmed, however, by Raymond Spector Co., New York, agency in charge, nor by the network.

USE OF the x-ray as a boon to broadcast transmitter and tube operation has been developed by Merrill R. Mitchell, chief trans-

mitter engineer of WJR Detroit, and is producing such good results that it may well be adopted by stations throughout the country.

Mr. Mitchell uses the x-ray to discover when tubes are about to

Mr. Mitchell burn out, thus preventing interruption of service. In addition, x-ray is used to locate

DON LEE, BLUE PLAN NEW COAST STUDIOS WITH Hollywood studio sites at a premium, Blue Network and Don Lee Broadcasting System are look-

ing for suitable space in "radio row" area to build broadcasting structures of their own. Construction would start soon as critical materials are released.

Blue western division at present rents facilities from NBC at Hollywood Radio City. Consolidated Laboratories recently sold the Melrose Ave. building housing Don Lee Broadcasting System to RKO Radio Pictures. The film company plans to take over premises upon expiration of the network's lease in about 18 months, thus forcing a move.

Don E. Gilman, Blue western division vice-president, upon his return to Hollywood early in July from New York, revealed home office approval to negotiate a studio site deal. With four in vicinity of Hollywood Radio City reportedly under consideration, it is expected that a purchase will be announced shortly.

Meanwhile Blue western division has taken a five year lease on Hollywood Radio Playhouse and will remodel the two story structure at Sunset Blvd. and Highland Ave. to temporarily accommodate KECA, Los Angeles outlet recently purchased from Earle C. Anthony Inc. for \$800,000. Station transfer is awaiting FCC approval. With completion of the new Blue western division headquarters at the war's end, KECA operation will be centered in that structure.

Edward Dudley Naff

EDWARD DUDLEY NAFF, 64, musical director of WRVA Richmond for the past 15 years, died June 19 after an illness of several months. A graduate of Bridgewater College, Peabody Conservatorw and the Licentiate of the Royal Academy of Music, London, Mr. Naff taught music, harmony and theory in several colleges before coming to WRVA. He was a native of Franklin County, Va.

HARRY L. SOMMERER has been named manager of the newly-established office of real estate for the RCA Victor Division of the Radio Corp. of America. He has been in charge of subcontracting operations on war work. trouble in other parts of WJR's 50,000 w transmitter. He found that x-ray is particularly effective in the examination of other parts, especially condensors. "You can plainly see where the trouble is in the condensor," he said. "The film clearly shows where plates have arched over."

Some Other Place

"The problem we faced in the past", he explained, "is that often we thought we had tube trouble but it would turn out to be trouble some other place in the circuit. Now by x-raying the tube and finding it okay we know definitely that the trouble is elsewhere.

"One day I was fooling around with my x-ray equipment and began to wonder what x-rays of tubes would show. Well, I found you can read the plates just like a dentist does. After a little experience you can get the whole story by reading the shadows on the film. You can actually see that a filament is wearing down. "In addition we can now be sure

"In addition we can now be sure none of our tubes is defective when it is first used. And then, of course, routine x-rays of the tubes keep us informed at all times of their condition and we are able to anticipate trouble and correct it before it appears."

market of eastern and central New York and western New England brought together by WGY.

WAIT-WGES Split Awaits FCC Okay

Guthervs Sell Interest in WMRN to Mason

applications TRANSFER were field with FCC last week for a swap of holdings in WAIT and WGES Chicago so Gene T. Dyer and Family would hold major interest in WAIT and Vivian I. Christoph, Elizabeth M. Hinzman and John A. Dver would control WGES. Action was taken to comply with the Commission ruling against dual ownership of stations in the same or overlapping areas.

Although blood relationships exist between certain of the individuals holding interests in the two stations and would continue as such a tie after the proposed shift was effected, the applications pointed out that each individual would maintain station affiliation relationships and would not be influenced by them. Consideration for the shift in each case was set at \$100.000.

Present holdings in the two stations are:

tions are: WAIT-Gene T. Dyer (15%), president, Evelyn M. Ringwald (35%), Elizabeth M. Hinzman (30%), Adelle Moulds (10%), Vivian I. Christoph (9%), and William F. Moss (1%). WGES-Gene T. Dyer (25%), Gene T. Dyer Jr. (24%), Vivian I. Christoph (25%), F. A. Ringwald (10%), Grace V. McNeill (6%), Louis E. Mulds (6%) and William F. Moss 145%)

(4%). Under the proposed rearrangement, holdings would be:

ment, holdings would be: WAIT-G. T. Dyer (19%), E. M. Dyer (35%), G. T. Dyer Jr. (24%), Adele Moulds (10%), L. E. Moulds (6%) and G. V. McNeill (6%), WGES-V. I. Chris-toph (34%), E. M. Hinzman (30%) J. A. Dyer (20%), F. A. Ringwald (10%) and Wm. F. Moss (5%). Application also was filed last

week by WMRN Marion, O., requesting FCC approval for transfer of control of the licensee corporation of that station, Marion Broadcasting Co., from Howard F. Guthery and Florence Guthery to R. T. Mason, president and general manager of the outlet. Transfer stems from option concluded by Mr. Mason in April 1942 to purchase the 101 shares (501/2%) common stock held by the Gutherys for a consideration of \$125 per share until May 31, 1943, with the price to increase at a rate of \$1.00 per share on the first day of each succeeding month thereafter. Mr. Mason at present is holder of the remaining 99 outstanding shares. Application also stated that following FCC approval of the transfer, 100 of the 200 shares outstanding, stock would be retired.

Waring for Glass Firm

OWENS-ILLINOIS Glass Co., Toledo, beginning Sept. 7 will switch from daytime radio to a night show with the sponsorship of Fred Waring's orchestra on the full Blue Network, Thursday, 7-7:30 p.m. Company discontinues Broadway Matinee on CBS Monday through Friday, 4-4:25 p.m. after the Aug. 4 broadcast. Fred Waring was sponsored for five years until June 9 on NBC by Liggett & Myers Tobacco Co, New York.

Capt. Lovette Decorated

CAPT. LELAND P. LOVETTE, former director of Navy public relations, last Thursday was awarded the Legion of Merit for his serv-

in that position. Capt. Lovette, who was in command of a destroyer squadron at Pearl Harbor Dec. 7, 1941, was given a sea com-mand last April. He was replaced

ice to the Navy

as Navy Public Capt. Lovette relations director by Rear Admr. Aaron S. Merrill, Undersecretary of the Navy Bard made the award, at the same time presenting decorations to 12 other Naval officers.

Tower Site Dropped

WMAL, Blue outlet in Washington, has withdrawn its application to construct and operate a 250 ft. FM transmitter tower on two acres of land at Langley in Providence District, Va. Application was cancelled by the Blue outlet after the Fairfax County Board of Zoning Appeals, meeting in special session at the County Office Bldg., Fairfax, Va., denied the application. The appeal of F. D. Richardson, attorney for WMAL, for the continuance of the case, was also denied

NEW NAME GIVEN **RTPB FM UNIT**

A CHANGE in the name of Panel 5 of the Radio Technical Planning Board from "VHF Broadcasting" to "FM Broadcasting" has been announced by W. R. G. Baker, RTPB chairman. This was pursuant to the request made by the Panel Membership of RTPB voted by mail.

The scope of the Panel's functions has been changed to read: "The review and further development of standards with reference to FM broadcasting in the frequency band from 30 to 300 megacycles" (inserting FM). Dr. Baker found the change in title undesirable when the request was first made, and his letter of notification states he has not altered his position. Dr. he has not attered his position. Dr. Baker announced that the result of the mail ballot was "slightly in favor of the change". In the future, he said, this panel will be identi-fied as "Panel 5 on FM Broadcast-ine" ing".

The Board shortly is expected to act on both FM and television re-ports, submitted last spring, recommending allocations in the ultrahigh frequency bands. Each group was disposed to favor assignments for its particular type of service in the lower portions of the band.

HALLICRAFTERS Co., Chicago, has presented \$5,000, representing over-time earned by employes on voluntary basis on D-Day, early last month to Brig. Gen. P. J. Carroll, command-ing general, Vaughn General Hospital, Units of the base of the Hines, Ill., to be used for benefit of wounded soldiers,

miliar music most adults, and some youths too, love to hear! And they can only hear it consistently over WLIB.

BROADCASTING . Broadcast Advertising

NETWORKS DEVOTED 60 HOURS TO GOP

THE FOUR major networks devoted a total of some 60 hours to coverage of the Republican Con-vention from Chicago, a "post-mortem" tabulation shows.

Mutual's total amounted to 16 hours and 12 minutes. CBS reports 80 individual broadcasts, consuming 14 hours and 7 minutes. Of this time 9 hours and 41 minutes came direct from the stadium, and the remainder consisted of exclusive talks from CBS studios set up in the Hotel Stevens.

NBC reports 14 hours and 46 minutes of broadcast time, with 8 hours and 16 minutes direct from the convention floor, 3 hours and 45 minutes representing talks by commentators, and the balance filled by convention round-ups. The Blue reports a total of 15 hours and 27 minutes devoted to convention coverage.

Morrell News

JOHN MORRELL & Co., Ottumwa, Ia. (Red Hart dog food), replaces its quarter-hour Bob Becker's Pet Parade with a weekly news roundup program featuring Alex Dreier, commentator, Saturdays, 10.45 a.m. (EWT), on 127 NBC stations, beginning July 8. Contract is 12 week balance of original 52 weeks contract. Agency is Henri, Hurst & McDonald, Chicago.

FCC to Hear CIO

AFTER denying an original peti-tion the FCC last week designated for hearing on Aug. 15 a second petition of the UAW-CIO protesting renewal May 16 of the license of WHKC Columbus, O., on the grounds that the station was not operating in the public interest [BROADCASTING, June 12]. The Commission ordered United Broadcasting Co., licensee of WHKC, to file by Aug. 5 a statement of fart concerning operation of its station with particular reference to the al legations of the UAW-CIO petition". The union protested because certain portions of a speech written for broadcast by one of its officers were deleted by the station late last summer.

FM Board Meeting

A MEETING of the board of directors of FM Broadcasters Inc. has been called by President Walter J. Damm, WTMJ-WMFM, for Monday, Aug. 28 at the Ambassador-East, Chicago. The meeting, called for 2 p.m., is in conjunction with the Executive War Conference of the NAB in Chicago Aug. 28-31.

MORNING-hour program, Blue Net-work Breakfast Club, has turned away more than 800 persons on a single morning. Those wishing to at-tend the show are required to obtain tickets two weeks in advance through the Blue ticket service.

1

To Radio Editors in Central New England, outside of Worcester[‡], WTAG owes many thanks. In "The Billboard's" recent poll to determine local stations whose public relations have been outstanding in their respective areas, these Editors named WTAG as their first choice, one among 81 of the nation's 920 stations thus recognized.

We regard public relations as a branch of public service, something which has helped in part to maintain WTAG's consistently top rating in Listening Station Indexes. When you buy time, buy an audience from the Inside.

The vote of Worcester's Radio Editor was ruled out by "The Billboards" regulations, which excluded the opinions of Radio Editors of newspaper-owned stations.

BROADCASTING . Broadcast Advertising

Commerce Plans **66** To Resume Facts

PREPARATIONS are under way by the Dept. of Commerce to reestablish the flow of statistical information to business to provide needed facts for postwar operations, Jesse H. Jones, Secretary, announced last week.

In a memorandum to trade associations, trade publications and others interested in business statistics, Secretary Jones called for suggestions in connection with a current statistical program for Government, business and industry.

The program will include information on distribution for both consumer and industrial markets which will be particularly important in the transition from war to peace and in postwar operations for some time to come, according to the department.

FINDINGS OF FCC DENY WILS SHIFT

THE FCC last week announced adoption of proposed findings of fact and conclusions proposing to deny the application filed by the licensee of WJLS Beckley, W. Va., Joe L. Smith Jr., for a construction permit to shift operation of that outlet from its local assignment of 250 w unlimited time on 1240 kc to the regional frequency of 560 kc, with 100 w night and 250 w day, unlimited hours of operation.

The FCC public statement in referance to the action follows:

The rCC public statement In Fei-erance to the action follows: The Commission concludes that the granting of a permit as applied for to change the assignment of WJLS from a local to a regional frequency and operate as proposed, would not be conducive of efficient use of the regional frequency and would run counter to sound allocation prin-ciples, and would extend the daytime service area of the station to include an area of 1390 sG, mi, with an estimated population of 110,741; however, there would be loss in service to a population of approximately 17,000 persons in an area of 63 sq. mi. from WCHS, one of only two stations from which primary service is available in the same area, and the nighttime service of WJLS would be subject to excessive interference. The popu-lation residing retween the normally pro-tected would be 108% as great as the population included within the interference free service area or 10.8 times greater than the allowable maximum contemplated un-der the Commission Rules and Regulations (Sec. 3.29) and Standards of Good En-gineering Practice (pp. 3, 4)."

Spalding Series

A. G. SPALDING & BROS., New York, (athletic equipment), will again sponsor an NBC program starring Babe Ruth (see earlier story on page 52). Titled *Here's Babe Ruth*, series started Satur-day, July 8, 10.30-45 a.m., as a sustainer on the full NBC network. going commercial for 13 weeks, beginning July 29. New York boys will again pitch paseball questions at the diamond star, and will in turn be quizzed by him, with cash prizes going to the winners. Spald-ing will also sponso. the National Tennis Matches at Forest Hills on A specially-built 30-station network, Sept. 3-4 [BROADCASTING, June 26]. Agency is Ferry-Hanly Co., New York.

UNIVERSAL STROBOSCOPE

This handy phonograph turntable speed indicator, complete with instructive folder, is now available grafis to all phonograph and recorder owners through their iocal dealers and jobbers. As a recorder aid the Universal Stroboscope will assist in maintaining pre-war quality of recording and reproducing equipment in true pitch and tempo. reproducing equipment in true pitch and tempo. Universal Microphone Co., pioneer manufacturers of microphones and home recording tauto paying-ment, takes this means of rendering a service to the owners of phonograph and recording seque-ment. After victory is ours – dealer shelves will again stock the many new Universal recording components you have been waiting for.

Employment Problem Eased

(Continued from page 11)

the effect of the new WMC regulations on their employment activities disclosed that it is still to early to determine how the priority referral system operates in practice. Many broadcasters wanted to know specifically how they should proceed in hiring workers under the new regulations and posed several questions regarding the priority referral program.

To guide stations in complying with the new regulations, BROAD-CASTING submitted these questions to national WMC headquarters. The questions and answers follow:

Q. What steps should a radio station take in filling vacancies?

A. If the need is for male workers, they must indicate their requirements to the local USES office. In some areas USES clearance is also required for female workers. Where hiring has been done through established agencies —unions or commercial employment services—they may continue the practice if these agencies have qualified with USES as qualified referral agencies.

Priority Status

Q. What chances would a station have of filling their vacancies?

A. This will depend on competing demands in different areas. If the ordinary efforts of the local USES to refer workers to these vacancies fail to staff the establishment, the USES will give priority treatment to essential activities, depending on the degree of importance of competing demands. Stations wishing to apply for priority must file requests with local USES offices for Form 63.

Q. What industries will have priority over broadcasters in the referral of workers?

A. This will depend on the production urgency and manpower demands of other essential activities at the time priority is requested. A critical war plant in the area which has a sufficiency of manpower may not come ahead of a radio station while an activity equally essential to radio which has greater manpower demands would get preference.

Q. Are discharged veterans also hired through the USES?

A. Yes. Veterans are referred by USES to jobs of their own choosing and remain free agents for 60 days after their first civilian job following discharge.

Q. Can a station exceed its employment ceiling?

A. The local USES office will not accept requests for workers where the employer is exceeding his ceiling. Form 63 should be filed for justification of staff expansion and to show what efforts have been made to reduce turnover, absenteeism, to use minority groups, to upgrade workers, to employ women, to train unskilled workers. Q. How are ceilings set?

A. Ceilings will be set according to the actual number of workers employed by a station on a base date to be determined by the area WMC director. Where a higher ceiling is desired employers will file Form 63 for adjustment. Ceilings are already in effect in some areas.

Q. How are future needs projected?

A. Again Form 63.

Q. Can a station use classified advertising in recruiting workers? A. The new regulations do not

affect the use of classified ads.

Shifting of Workers

Q. Do the new regulations affect shifting of workers from one area to another?

A. No. An announcer or other station employe wishing to leave his job for another must still get a statement of availability but his new employer must obtain a referral from the USES to hire him.

The purpose of the new priority referral program is to equalize the national labor force in the interest of war and war supporting industries. The program extends on a nationwide basis the WMC system of job priorities which has been operating effectively in 14 of the most critical labor shortage areas. It is designed to put the "squeeze" on nonessential activities, to prevent hoarding of superfluous personnel badly needed elsewhere, to recruit workers from areas of labor abundance to areas of labor scarcity, and to prevent a premature exodus of workers from war jobs to nonessential employment.

Phillips Suit Dismissed

CHICAGO Circuit Judge Harry M. Fisher dismissed the suit filed by Emmons C. Carlson, NBC central division promotion manager, against Miss Irna Phillips, radio script writer, for half the profits since 1936 on the radio serial *The Guiding Light*. Judge Fisher declared the suit in which Carlson claimed he was a partner of Miss Phillips and had helped originate the material was "fantastic." Continuing, Judge Fisher pointed out evidence to show Carlson was her partner only in the effort to sell the serial. Miss Phillips, one of the originators of daytime radio drama in Chicago, held her profits intact.

WINN Names Miss Stone

PEGGY STONE, until recently with Spot Sales, New York, is now operating as station representative from temporary headquarters at 304 East 41st St., and has been appointed exclusive representative of WINN Louisville. Before joining Spot Sales in 1942, Miss Stone was associated with Hearst Radio, 1938-1940, and from 1929-1938 was in the CBS station relations department as assistant to H. V. Ackerberg.

INSTANT COMMUNICATION between train dispatchers, engineers and conductors, working as a safety factor in handling passenger trains and speeding up delivery of war material in freight yards and on long hauls, is made possible with Motorola two-way radio-telephone manufactured by Galvin Mfg. Co., Chicago, and utilized by Rock Island Lines, Chicago. Here, an engineer receives instructions from his train dispatcher via radio-telephone while his diesel engine approaches railroad yards. Handset. employing FM, operates as an ordinary telephone with flashing colored lights serving as call signals.

Police Complaint

CONNDEMNING film and radio treatment given law enforcement officers, Los Angeles. Police Employes Union, AFL has adopted a protest resolution and submitted same to Central Labor Council with request that it be sent to the FCC for action. Resolution contended that "large motion picture corporations and certain radio sponsors and producers who, through their own efforts, have utterly without regard for the public welfare, manufactured and distributed motion pictures and have presented radio programs which depict members of the police professions as persons whose mental quotient is that of subn.-malcy."

'Cinderella' Winner

MARIE ROGNDAHL, 20, of Portland, Ore., has been announced as the winner of the "Singing Cinderella" contest conducted through the General Electric Co. Hour of Charm on NBC. The prize—a 13 week contract to appear on the program. Some 10,000 were auditioned during the course of the contest. Agencies are BBDO New York and Foster & Davies Inc., Cleveland.

Ministers Pick Northwestern

FIVE MINISTERS who were awarded NBC scholarship: have elected to attend the third annual NBC-Northwestern U. Summer Radio Institute, according to Judith Waller, director of NBC public service and Institute director. The men attending are Rev. Charles M. Crowe, St. Louis; Rev. Edwin T. Randall, Minneapolis; Rev. Robert S. Steele, Hartford; Rev. Harley Patterson, Buffalo; Frank Elliott, Chicago Theological Seminary. Mr. Elliott is also the winner of \$1000' fellowship which will enable him to work in research at any NBC affiliate station.

LIKE DEATH and taxes, contract signature pictures are inevitable. Because no photographer was present when Holland Furnace Co. signed a contract for sponsorship of *World News Roundup* over NBC, the group reassembled for the picture. L to r, J. P. Roche, president, Roche, Williams & Cleary, agency handling the account; H. H. Boersma, advertising manager, Holland; F. H. Ault, sales manager; W. J. McEdwards, NBC account executive; Phil Stewart, agency account executive; (seated) P. T. Cheff, vice-president and general manager of Holland. Program features Leif Eid, NBC Washington, and foreign correspondents.

Selective Service Act Interpretation On Rehiring of Veterans Is Discussed

BECAUSE of wide interest on the part of radio stations in rights of discharged veterans of World War II to their old jobs, BROADCASTING herewith presents a letter received from Edgar T. Darlington, a member of the engineering staff of WFIL Philadelphia. Conclusions of the writer are correct in substance and fact, according to a check by BROADCAST-ING at Selective Service Headquarters.

EDITOR BROADCASTING:

There is too great a cloud of doubt and misunderstanding hovering over the industry's management and personnel today, concerning the replacement rights of our returning veterans. It could, however, be easily dissolved by citing a few clauses from pertinent sections of the Selective Service Act, and from directives relating thereto.

Section 8, containing the reinstatement details, makes it quite clear that it is providing (exclusively) for "any person who, in order to perform training and service, has left or leaves a position, other than a temporary position." Emphasis of this latter point is basic, to grasp the import of Memorandum No. 190-A, as sent out to Local Draft Boards in May.

'Permanent' Man Defined

Starting with this fundamental premise, and assuming that our thoughts will be confined to servicemen who have thus qualified as a former "permanent" employe, Section 8 goes on to guarantee that "such person shall be restored to such position or to a position of like seniority, status and pay." Further, he "shall be considered as having been on a furlough or leave of absence, . . . shall be restored without loss of seniority . . . and shall not be discharged from such position without cause within one year after such restoration."

Strange as it may seem, many and devious are the constructions placed upon this decisive language. As an aid to Local Boards, Washington issued the interpretative memorandum already mentioned. This reads in part as follows:

"Generally speaking, one who is employed to fill the place made vacant by a person entering service occupies a temporary status, and has no reemployment rights even though he subsequently enters service." Emphasis is again necessary; for such interpretation and application will NOT be an exceptional or isolated instance, but will be the "general", run-of-the-mill, case.

In complicated, border-line cases, where conflicting claims exist as to who was "permanent" and who was "temporary", final determination will naturally rest with the Courts. But to make such honest doubts and counter-claims as uncommon as possible, Memo. 190-A cites various conceivable circumstances, and attempts to iron them out in advance of needless litigation.

Thus, where a business has legitimately expanded during a veteran's absence, the memorandum goes on to say that: "Some of the factors to be considered are:

(1) was the position newly created?

(2) was the veteran the first occupant thereof?

(3) was it intended as a "wartime" or as a "permanent" position? (4) what were the circumstances and agreements at the time of the original employment?

(5) after employment commenced, was the relationship between the employer and employee such that they contemplated a permanent relationship in the ordinary sense of industrial or commercial practice?"

After bringing order out of chaos by these helpful suggestions and interpretations, a later paragraph in 190-A (due to its severely abrupt wording) has led a few otherwise-stable minds to completely discard all of the foregoing, carefully worked-out details, and to substitute unwarranted assumptions and conclusions. This latter paragraph reads:

"A returning veteran is entitled to reinstatement in his former position or one of like seniority, status and pay even though such reinstatement necessitates the discharge of nonveteran with a greater seniority."

If this were literally true, and to be taken at its face value, it would result in situations like this: A station had a pre-war staff of ten permanent engineers. Six entered the service. Six "duration" or "temporary" men were hired to fill their places. These latter 6 also were subsequently absorbed into the Army. Now, if ALL his returning veterans (12) are guaranteed reinstatement, and must "not be discharged for one year," this station owner will be compelled to carry a staff of 16 engineers in place of his normal ten. (We have purposely used low numerals for simplicity, but you can readily picture the front-office anguish when a more typical staff is considered.)

However, the two main disconcerting angles have fortunately been cleared up by Selective Service Coordinators whom we contacted; and we would feel that this letter had not been in vain, if BROAD-CASTING could pass them along to the industry at large:

(1) no employer will be required to hire more men than the number on his original staff;

(2) the clause last quoted means: a returning veteran "whose formerly-held permanent position qualifies him for re-employment rights under Section 8 of the Act" is entitled to reinstatement . . . even though it means discarding a nonveteran who holds greater seniority. (As an example: where a business has shrunk during a veteran's absence, and the staff was cut in half; the returning "permanent" veteran is entitled to employment, even though he may "bump" a man of longer seniority out of bottom place on the list.)

With one additional quote we close: "It is the character of relationship between the employer and employee, whether "temporary" or "permanent", that should govern rather than the particular assignment being carried out at the time of entering into service."

EDGAR T. DARLINGTON

ting the audience of Nova Scotia's most thickly populated area it is hardly necessary to stress the fact that the station is

CHNS Halifax, Nova Scotia

WTAD Sold

(Continued from page 14)

KOIN and KALE, relinquishes all association with the latter station, and some months ago separated personnel, equipment and studio and office space between the stations. paving the way for the transaction.

Myers Increases Control

The Journal will turn over 121/2% of its KOIN stock to Mr. Myers and the remaining 121/2% to Mrs. Hunt. widow of C. Roy Hunt, former manager of the stations, in exchange for the 1/3 interests in KALE held respectively by the latter. Mr. Myers, who has held control of KOIN, under the transaction increases his interest to approximately 3% of that station, which operates on 970 kc. with 5,000 w and is a CBS outlet.

The sale of WORD by Spartanburg Advertising Co. would leave that company with WSPA, 5000 w CBS outlet on 950 kc. WORD is a Blue Network outlet and operates on 1400 kc with 250 w fulltime. General manager of both stations, on leave, is Walter J. Brown. executive assistant to Justice James F. Byrnes, Director of War Mobilization. A. B. Taylor, prominent South Carolina business executive and lumber man, is president and principal owner of the Spartanburg Advertising Co. Donald Russell, general counsel to Mr. Byrnes, and Mr. Brown, are minority stockholders. Major Edney Ridge, general manager of WBIG, Greensboro, and U. S. Marshal, was identified with the transaction and is expected to supervise operation of WORD under the new ownership. Application shortly will be filed with the FCC seeking approval.

Station Rep Group Asks Binghamton Standard CP

APPLICATION for a new local standard station in Binghamton, N. Y., was filed with the FCC last Friday by Binghamton Broadcasting Co., a partnership composed of Joseph H. McGillvra, Agnes I. McGillvra and Adam J. Young, who also operate the station repre-sentative firm of Joseph H. McGillvra Inc. Facilities requested for the new station are 1450 kc with 250 w and unlimited time.

WLAK Lakeland, Fla., also applied to the Commission last Fri-day for voluntary assignment of its license from Lake Region Broadcasting Co., a corporation, owned by S. C. Ward, to Mr. Ward trading as Radio Station WLAK.

Michigan College of Mining & Technology, Houghton, Mich. is applicant for a new noncommercial educational FM station to operate on 42,100 kc with power of 3,000 w and with special emission. Hearst Publications Inc. (San Francisco Examiner Dept.), San Francisco, seeks FM facilities of 44,300 kc. Application was returned as incomplete.

ANA SEEKS PUBLIC **BUSINESS OPINION**

WHAT the American people think of American business will be measured by a continuing study of pub-lic attitudes now being prepared by the Assn. of National Advertisers, it was announced last week by Paul West, ANA president. Designed to help business in all its public relationships, including war and postwar advertising, the study will "keep industry more closely in touch with the thinking and feeling of factory, office and service workers, farmers, house, returning veterans and others".

Study, to be conducted by Opinion Research Corp., Princeton, N. J., under supervision of ANA Public Relations Committee, follows a test survey whose results were discussed at the ANA May meeting [BROADCASTING, May 8]. Printed in booklet form, these results are being distributed to ANA members this week.

General public attitude, as shown by the test survey, was one of approval toward the wartime activities of American business, with War Bond and salvage ads making the greatest impression of all war theme advertising. A substantial percentage of persons endorsed such war theme advertising. With a minimum of suspicion of false motives behind it, few persons indicating belief that tax evasion was a major motive for advertisers today.

Stoess Leaves Crosley After 21 Years Service WILLIAM C. STOESS, veteran musical director - conductor of WLW-WSAI Cincinnati, last week

can Broadcasting

Telev ision Corp., New York, headed by John Clark, former WLW general

general

Mr. Stoess

Mr. Stoess, a violinist, started on the original Crosley station in 1921 when Powel Crosley Jr. broadcast from his home. He played vio-lin, announced and did general chores. He was director of music for the Crosley stations from 1926-1938. In the last few years he has been a staff conductor. Mr. Stoess directed one of the early-day network commercial musical shows, the Flying Dutchman. For several years he directed the NBC Vocal Varieties, sponsored by Tums.

Wise Expands

WILLIAM H. WISE & Co., New York, will expand its spot campaign for books and magazines to some 100 stations according to Huber Hoge & Sons, New York, agency. Plan now includes spot schedule, which has been expanding for the past few months, and spot announcements at varying frequencies, running for an indefinite period on KFBK KLX KMJ KOL KFAC KXL WAIT WBAL WBBM WCAE WCAR WDBO WEAF WJZ WORL WSNY.

Quality Bakers Cutting New Half-Hour Program

QUALITY BAKERS of America, New York, cooperative group of independent bakers, last week becutting transcriptions of a gan half-hour musical variety program to be released in the fall to member bakers for placement on local stations. Projected series, *This Is Hollywood*, featuring a different Hollywood star each week with John Reed King as m.c., may sup-plement Sam Adams, Your Home Front Quartermaster, a quarterhour series or may replace it.

Schenley Plans

SCHENLEY DISTILLERS Corp., New York, on July 26 for five weeks discontinues Your Date With Cugat on MBS Wednesday 8:30-9 p.m.. and is understood to have retained a weekly five-minute period on the network to be donated to the Red Cross during the pro-gram's summer hiatus. Program will probably originate from the West Coast when it resumes in the fall for Dubonnet. Agency is Wil-liam H. Weintraub & Co., N. Y.

New Helbros Show

HELBROS WATCH Co., New York, July 16 starts Quick As a Flash on 30 MBS stations Sunday 6-6:30 p.m, expanding to 116 MBS stations Sept. 10. New series is an audience participation program which will present historical and mystery dramas. Current Helbros program, *Pick and Pat Time*, on 12 MBS stations Tuesday, 8:30-9 p.m. goes off the air after the July 11 broadcast. Agency is William H. Weintraub & Co., New York.

Peanut Project

RADIO advertising will figure in RADIO advertising will hgure in an advertising and publicity pro-gram adopted recently by the Na-tional Peanut Council, entailing expenditure of about a million dollars during the next three years in the over-all campaign. Radio enpropriation will be determined appropriation will be determined sometime in September, according to J. Walter Thompson Co., N. Y.

ELECTRIC COMPANIES, cooperatively sponsoring Report to the Nation on CBS Wednesday, 10:30-11 p.m. will discontinue the program after the July 19 broadcast, and have secured a musical show from the West Coast in October. Agency is N. W. Ayer, N. Y.

Radio Aids in Circus Fire

(Continued from page 18)

ceived, as the city and State went all-out in its efforts to aid in rescue operations. Chief Announcer Bernard Mullins and George Bowe of the production department, were hurried to the circus in a WTIC truck a few minutes after the first flash was given. At 6 p.m. they broadcast an eye-witness story.

Extra telephones were set up at WTIC to answer the many calls from grief-stricken parents. Through the Red Cross each operator was given a list of the injured at the three Hartford hospitals. When an inquiry was made, the list was checked and the station helped to locate some of the injured. Gov. Raymond E. Baldwin spoke over WTIC at 5:15 p.m. He asked the people to be calm and told how the Red Cross and other agencies were caring for the injured.

WDRC Mobilized

WDRC, from the very moment word came of the tragic circus fire, mobilized its staff which had been trained for war emergency duties. The fire could be seen from the penthouse WDRC studios. Extra telephone operators were put on to handle the immediate flood of calls.

Jack Stevens, the station's commentator dispatched to the scene, interviewed survivors, watched the

THE ROOSEVELT"

Rooms with bath from \$4.50.

Other Hilton Hotels From Coast to Coast:

TEXAS, Abilene, El Paso, Longview, Lubbock, Plainview; NEW MEXICO, Albuquerque; CALIFORNIA, Long Beach, Los Angels, The Town House; MEXICO, Chihuahua, The Palacio Hilton. Hilton Hotels. C. N. Hilton, President. dead and injured being removed, talked to police and fire officials, and then raced back to the station to write a 15-minute broadcast, which went on at 6:30. The entire Stevens program, *News Digest of the Air*, was devoted to the fire.

WDRC and the Hartford Courant, morning newspaper, then made a tieup and the station began broadcasting the names of the dead, injured and other pressing information. Police department orders were broadcast, as well as instructions where families could view the dead. From the Courant the names of 400 to 500 persons were telephoned directly into the studio, and all commercials were interrupted.

WDRC-WTHT Cooperate

Walter B. Haase, program manager, offered the station's facilities to Mayor Mortensen, who accepted with thanks and made two 15-minute broadcasts from his office over both WDRC and WTHT, the WTHT engineer handling technical details. The Mayor gave instructions to the populace on both broadcasts. He praised civilian defense agencies and others who cooperated in rescue work.

Aubrey L. Maddock, secretary of all civilian defense agencies in Hartford, read the casualty lists over both stations, a task which occupied most of the night and was resumed on Friday.

General Manager Franklin M. Doolittle of WDRC telephoned Mayor Mortensen Friday morning, offering to set up a circus fire relief fund and the Mayor told WDRC to go ahead. Mr. Doolittle donated \$500 for the station as the first contribution. WDRC gave up all sustaining spots and programs for the weekend to call for funds which might be needed by the families of the dead and injured. Within a few minutes after the first bulletin went out, calls started coming in with contributions.

Mayor Mortensen praised Mr. Doolittle and WDRC for its work during and after the tragedy.

WTHT Withholds Flash

At 2:43 p.m. Thursday a roaring fire was visible from the office windows of WTHT. Delaying an important report of the circus fire until some tangible news could be given on a scheduled basis in order to avoid further panic among the townspeople, carefully worded reports and appeals for nurses' aides and volunteers were aired. At 3:15 some idea had been gleaned of the scope of the tragedy.

Avoiding any attempt at on-thespot coverage for fear of hampering efforts of rescue squads and for fear of further alarm and panic, the regular WTHT schedule was abandoned and news appeals and allied service announcements were broadcast constantly through cooperation of the staff of the *Hartford Times*, station licensee. WTHT was able to present at an early hour casualty lists which grew in completeness toward midnight.

At 9 p.m. Mayor Mortensen was given emergency facilities at his office for the first factual official report of the tragedy. Again at 10:15 the facilities of the two stations were joined for an official casualty list from the Mayor's office. The clogged switchboard at WTHT was manned until early morning hours, aiding in the dissemination of information on inquirles about specific individuals.

"The horror of the holocaust and its impact on this city was of such tremendous proportion that WTHT did all in its power to provide good public service and to avoid the spectacular, said Glover De Laney, general manager. "Our first duty was to do all we could to help keep the people informed. No efforts were made to make 'shows' of any broadcasts."

CBS Educational **Programs on AFRS**

Servicemen and Women Will Hear Recorded Series

SCIENCE and geography pro-grams of the CBS American School of the Air will be heard on the Forces Radio Service Armed throughout the world, starting Oct. 9, through arrangements made between the network and the War Dept.'s Morale Services Division, Army Service Forces.

Programs will be recorded at the time of the original broadcasts and flown to some 400 armed forces radio service stations and sound systems at battle fronts, on transport and hospital ships and submarines, and in general hospitals in the United States. The Army will publish a special guide to the program, supplementing CBS regular listeners manual.

CBS programs to be broadcast are the Monday Science Frontiers series, which outlines postwar job opportunities created by science, and New Horizons, geography series giving background on countries where the armed forces are now fighting. Music and literature programs may also be used by the AFRS, and arrangements are being made to rebroadcast a number of CBS Transatlantic Call programs. Network is planning future school scripts to conform with the Army Education Branch's policy to use AFRS for broadcasting educational programs carefully checked for accuracy, impartial on controversial matters and directed to the overseas listener in the armed forces.

Another program to be heard by the service forces through AFRS outlets is They Call Me Joe, a series of 12 dramas telling the story of the war effort activities of various national and racial groups, starting on NBC Saturday, July 22 as a presentation of the NBC University of the Air. This program will also be recorded and flown to AFRS 400 station outlets.

ARCH OBOLER, radio dramatist, and Stephen Longstreet, author, have collaborated in editing a book titled *Free World Theatre*, composed of a series of radio playlets dedicated to the war effort by prominent authors. Plays were originally heard in 1942 on the Blue network [Random House \$2.75].

Need More 'Folksy' Copy, Latin Ad Man Tells Us

ADVERTISERS using the South American market are advised strongly to have their selling messages prepared by South Americans, in the July issue of The Inter-American. Article takes up various idiosyncracies of the Latin American consumer in regards to advertising, and cites a number of examples of "boners" pulled by North American advertising agencies which are said to have cost their clients thousands of dollars in lost sales. The author is Ricardo H. Pueyrredon, head of Pueyrredon Propaganda, Latin American advertising agency.

"Altogether too much advertising is created in the United States by Central Americans, whose language, customs and psychology differ enormously from ours", he writes. Copy prepared in this country, he continues, loses much of its forcefulness and lacks a "folksy quality" which the Argentine, for example, is quick to detect.

Do you have any Broadcasting Equipment? We will pay highest prices for any and all types.

New Commercial Video, Three Standard, NAVY, NETS PLAN Five FM Applications Filed With FCC

APPLICATIONS for new broadcast facilities filed with the FCC last week include requests for five new FM stations, three standard outlets and a new commercial television station.

The Philadelphia Inquirer, recent applicant for a new commercial video outlet, last week applied for a new FM station to operate on 48,100 kc with a coverage of 15,500 sq. mi. Estimated cost is \$150.500. Crosley Corp., licensee of WLW-WSAI Cincinnati, seeks an FM station to be located in Dayton, O., on 46,100 kc with 8,000 sq. mi. coverage. Estimated cost is between \$150,000 and \$160,000. Crosley is also holder of a construction permit for an experimental television station, W8XCT.

Seek Standard CPs

Licensee of WBAL Baltimore. Hearst Radio Inc. has filed for an FM outlet in that area on 43,700 kc. Coverage asked is 8,857.6 sq. mi. and estimated cost is \$65,000. Leonard A Versluis, operator of WLAV Grand Rapids, Mich., is applicant for an FM station on 46,100 kc with coverage of 6,460 sq. mi. Estimated cost for the outlet is \$28,000. WBOW Terre Haute, Ind. seeks FM facilities of 48,700 kc with 7,442 sq. mi. coverage. Estimated cost is \$25,200.

Commercial television facilities on Channel 3 are sought by WGAR Cleveland. Sister station, WJR Detroit, already has FM and commercial video applications on file with the Commission and the other G. A. (Dick) Richards outlet, KMPC Hollywood, is expected to do likewise in the near future, it was reported last week.

New standard station to operate unlimited time on 1560 kc with 1,000 w is requested for Houston, Tex., by Texas Broadcasters, a partnership composed of Fred Weber, executive vice-president and 121/2% owner of WDSU New Orleans; E. A. Stephens, auto dealer, WDSU president and 50% owner of that station, who also is candidate for the U.S. Senate; and William H. Talbot, local attorney and holder of real estate and oil interests. Each of the partners has one-third interest in the partnership. Transmitter for the station has been purchased from WDSU along with other equipment, application stated.

J. W. Birdwell, former owner of WBIR Knoxville, Tenn., seeks standard facilities at Nashville, Tenn. of 1240 kc, 250 w and unlimited hours of operation. Sale of WBIR by Mr. Birdwell to J. Lindsay Nunn and Son was granted by the Commission last Januarv.

Inter-City Advertising Co., licensee of WAYS Charlotte, N. C., last week filed application for a new standard local station in Columbia, S. C. to operate on 1490

kc with 250 w and unlimited time. Inter-City Advertising is owned by a partnership composed of George Dowdy, president; J. Horton Doughton, treasurer; B. T. Whitmire, vice president, also manager of WFBC Greenville, S. C.; and Harold H. Thoms, secretary, who is owner and manager of WISE Ashville, N. C. and applicant for a new local outlet in Durham, N. C.

Press-FM Applicants

Noncommercial educational FM station is sought in an application filed by the Board of Education, Sewanhaka High School, Floral Park, New York to operate on several frequencies-42,100, 42,300, 42,500, 42,700, 42,900 kc, with power of 250 w and special emission. The Board of Education of Newark in the County of Essex, Newark, N. J., also requests a noncommercial educational FM station, to operated on 42,500 kc with 500 w and special emission.

WSAU Wausau, Wis. applied to the FCC last week for a construction permit to change frequency from 1400 kc to 1230 kc and increase power from 250 w to 5,000 w.

Applications filed late during the previous week at the Commission and not heretofore reported include requests for FM outlets by Poughkeepsie Newspapers Inc., Poughkeepsie, N. Y. and Gannett Publishing Co., Augusta, Me., and also a new standard application filed by Chattahoochee Broadcasters, Marietta, Ga.

Operators of WKIP Poughkeepsie, N. Y., Poughkeepsie Newspapers, seek FM facilities of 44,-300 kc and coverage of 10,198.5 sq. mi. Estimated cost is \$46,000. Gannett Publishing Co., licensee of WGAN Portland, Me., files for a new FM station to be located at

PACIFIC COVERAGE

REPRESENTATIVES of the four major networks met in New York last Monday with Lt. Comdr. J. Harrison Hartley, officer in charge of the radio section. Navy Office of Public Relations, to discuss coverage of Pacific battle operations.

There will in all probability be a pooling arrangement similar to the one used successfully by network correspondents accredited to the Navy for the European invasion. Because of the vast distances of the Pacific area, however, methods of communication and assignments different from those of the European operations will have to be employed. Plans are now being formulated by the Navy and the networks.

Network heads present at the New York meeting were: Everett Holles, Paul White, Phil Woodyat, CBS; Bill Brooks, NBC; John Whittemore, Mutual; G. W. Johnstone, Blue.

SKINNAY ENNIS, discharged from the Army after 15 months of han-dling the band at Santa Anita (Cal.) air base, is organizing a new orchestra, and returns to the NBC Bob Hope Show in the fall.

Augusta, Me. Frequency asked is 49,100 kc, with 3,968 sq. mi. coverage and an estimated \$31,333.23 cost.

Chattahoochee Broadcasters, which seeks Marietta, Ga. standard facilities of unlimited time on 1230 kc with 250 w, is composed of Fred B. Wilson, assistant to the president of the Georgia Power Co., Atlanta, and Channing Cope, manager of the agricultural division of that company. Mr. Wilson holds two-thirds interest in the partnership, Mr. Cope the remaining onethird.

Silberstein, Goldsmith Issue **Retail Research Booklet**

POSTWAR advertising will be diverted from traditional channels by new media, including television, according to a study of postwar retailing by Alfred J. Silberstein, Bert Goldsmith Inc., New York advertising agency.

Second of a continuing study undertaken by the agency on future business operations, the 36-page booklet covers the major knowledge of retailing in developing new markets and finding more consumers for goods after the war.

Covers Video

Television, as stated, will give stores an opportunity to present merchandising visually in the home.

Pre-war promotion schedules will be resumed with the establishing of cut-price and seasonal efforts. it is stated. Much advertising will be directed to the lower income groups which will possess accumulated savings and relatively high earnings.

Printed lines will be advertised more extensively, it is stated, with a greater proportion of lines to be branded and established with the consumers through advertising.

A copy of the booklet may be obtained from the agency whose address is 9 East 40th Street, New York 16.

Donaldson to Kudner

RICHARD DONALDSON, former director of research of Celanese Corp., New York, previously re-search head of Ward Wheelock Co., New York, has been named manager of the research department of Arthur Kudner Inc., New York, it was announced last week by Dr. Franklin R. Cawl, research director. As part of a general expansion of the department, in process for the last year, Dr. Cawl also announced the appointments of Dr. Edward Yordan and Robert Gans to the executive staff of the research department. Dr. Yordan was a close associate of Miller McClintock, now president of Mutual, in industrial and traffic research industrial and traffic research from 1936 to 1943. Mr. Gans was formerly supervisor of field operations for the A. C. Nielsen Research Co. and later handled research for Street & Finney, New York.

McClain to Seminary

JAMES W. McCLAIN, heard on JAMES W. Account, heard on NBC as "Dr. I.Q." for three years, has enrolled in the Seabury-West-ern Theological Seminary. While studying for the ministry he will carry on his radio program, which will originate at nearby points, allowing him to carry on his studies without interruption.

FIVE more stations have signed for the special AP radio wire through Press Assn. They are: KYW Phila-Press Assn. They are: KYW Phila-delphia: KALB Alexandria, La.; KIT Yakima, Wash.; KIDO Boise, Ida.; WEED Rocky Mount, N. C.

Service Station Operator

Numa Lane, operator of a prominent Phillips "66" service station in Kansas City, thinks of radio's service to his needs in terms of "Reports on cold waves, floods—information about road conditions—letting the motorist know rationing and government rulings."

Above the Call of Duty

News coverage is more than "man bites dog." In radio news coverage, the human element has become an important factor on numerous occasions. KMBC's news department, with Erle Smith as editor, has built for KMBC the deep respect of its listeners, not only for alert coverage of news as it happens, but for that service above the call of duty. Such awareness of radio's responsibility to the community in times of need is not only the reputation of KMBC but its promise for the future. No small wonder a waiting list exists for the opportunity to affiliate oneself with a KMBC news program.

HELEN BARR

WKY's new home service director has been a popular radio personality with New England women for many years. She comes to Oklahoma as an experienced beauty consultant, fashion commentator, home decorator, and culinary expert to bring women a daily program of inspiration and information covering their many fields of personal interest.

A Woman's Program Without Price!

• On July 3, Helen Barr, WKY's new home service director, initiated a new series of programs of broader, more practical service to Oklahoma women than anything heretofore attempted in this region. "Six Keys to Better Homemaking," a six-a-

"Six Keys to Better Homemaking," a six-aweek quarter-hour series at 8:45 a.m., is bubbling with ideas, suggestions, observations and advice all stitched together with the fascinating thread of Helen Barr's comment and conversation.

Departing from the usual single-track direction of women's programs, "Six Keys" is purely a WKY service to women (and not for sale) whose pattern is of original design, embracing all the primary interest of all women—in their homes, their children and themselves.

Being of such service to Oklahoma women has been such a longtime, fundamental policy of WKY that women of this area just naturally regard WKY as their favorite station.
