NATIONAL BISCUIT COMPANY

Iraditionally in the Public Confidence ...

Consumer confidence in National Biscuit Company has been built by years of producing highest quality products, assuring complete satisfaction. As a result "Nabisco" has become one of the foremost of trademarks in the field of bakery and cereal products. Likewise, the name Havens & Martin, Inc., Stations has become a symbol of confidence among advertisers. The complete job of quality entertainment, superior programming and unexcelled public service provided by the First Stations of Virginia has built a vast and loyal audience in one of the South's richest areas. Join with confidence the growing list of advertisers who convert this unusually responsive audience into sales over WMBG-AM, WCOD-FM and WTVR-TV-Richmond's only complete broadcasting institution.

\$536,054,000

Published every Monday, with Yearbook Numbers (53rd and 54th issues) published in January and July by BROADCASTING PUBLICATIONS, INC., 1735 DeSales St., N.W., Washington 6, D. C. Entered as second class matter March 14, 1933, at Post Office at Washington, D. C., under act of March 3, 1879.

THE HIGH AND THE MIGHTY.....

High atop Cedar Hill overlooking Dallas and Fort Worth, Texas' HIGHEST man-made structure ... 1685 feet above average terrain, KRLD-TV's new transmission tower projects itself into the sky. When completed this fall, thousands upon thousands of brand new North Texans and Southern Oklahomans will be added to Channel 4's wide and rich effective viewing area.

KRLD-TV delivers more audience in Dallas and Fort Worth combined during the cumulative hours 8:00 a.m. until 12:00 midnight, 7 days a week than any other television station.

Channel 4 is the CBS outlet for Dallas, Fort Worth and North Texas 2 BIG, RICH METROPOLITAN MARKETS FOR THE PRICE OF 1!

The make sense buy!

UEL TO DE-MIX FIRE • Lid may blow f at FCC again this week on de-interixture. Comr. John C. Doerfer is drafting oposal to make New York City and her major markets all-uhf, leaving vhfs r reassignment to secondary markets as lea stations (clear channel concept), ereby becoming economically self-suffient and, at same time, providing "periphal" service. His plan presupposes that hf can do adequate urban job and assumes etworks, with no place else to go, would e these outlets.

BeT

OERFER plan was broached at discusons last week at which time Comr. Rosel Hyde again urged consideration of ecoomics in tv allocations. General discussion ose in consideration of five de-intermixre cases argued last month, and which ow won't be decided until after Labor ay $[B \bullet T, July 11]$. FCC now pegs probon as most vexatious and important to the up since final allocations report in 52, and confusion is running riot.

B+T

NYBODY FOR THE CASBAH? • Ima, Mocorro's only tv station, which ligan operation mid-1954, is on block. French-owned (through Crozier Co.) stabn is commercial but has been in red ed is now shut down (story, page 104). (sablanca is center of recent anti-French mest. Telma is being listed for sale by idder, Peabody & Co., through Robert E. Frant of Chicago office.

BeT

ROSPECTS were good at weekend for icrease in FCC Commissioners' pay prior Congressional adjournment about July Whereas administration had recomended increases for executive branch and uasi-judicial agencies which would raise CC from \$15,000 to \$22,500, prospect as that Congress would cut agency stiped to \$20,000-\$2,500 below Congresonal pay. FCC pay was increased from \$10,000 to \$15,000 in 1950.

B+T

CE FOR COMO • Latest build-up being ven *Perry Como Show* to be slotted by BC-TV this fall against highly-rated tekie Gleason program on CBS-TV is reorted signing of top script writer Goodtan Ace to handle writing chores. NBC-V to place one-hour Como show within 30-9 p.m. period, starting Sept. 17.

B+T

CC last week had before it NBC-Westingouse "swap" arrangement whereby netvork's owned facilities in Cleveland WTAM-AM-FM, WNBK [TV]) would be xchanged for Westinghouse's Philadelphia tations (WPTZ [TV] and KYW), with txcess of \$3 million to be paid Westingtouse in cash. Action, however, was deerred because of absence of several FCC members on other business, with likelihood that consideration will be given this week.

closed circuit

SECOND WIND • Extent to which radio is catching its second wind evidenced in activity among Washington consulting engineers and attorneys. Owners, once disposed to stand by because of tv blitz, are now seeking to upgrade facilities through frequency shifts and power increases. Engineers particularly report far greater activity than at any time since end of World War II.

BeT

IN ADDITION to activity in upgrading of am facilities, lawyers and engineers also report new interest in fm, notably along eastern seaboard. One station in Southeast had announced plan to quit fm operation but was deluged with complaints from suburban and remote areas to point where it felt forced to continue. In addition, some 40,000 letters of protest were received in market of approximately 181,000.

BeT

SURPRISE, SURPRISE • Appointment of new top battery of Edward F. Kenehan and James E. Barr as chief and assistant chief, respectively, of FCC Broadcast Bureau, came as surprise to some members of FCC when proposed at last Wednesday's meeting by Chairman McConnaughey (story, page 42). Record vote will show that two members (Hyde and Bartley) questioned transfer of Curtis B. Plummer and Joseph M. Kittner as chief and assistant chief, respectively, of Safety & Special Radio Services Bureau. Comr. Richard H. Mack, sitting in his first meeting, did not participate.

8•T

IT WAS still touch and go last week on U. S.-Mexican deliberations in Washington to reconcile broadcast allocations between countries as essential step prior to continental agreement under NARBA. Delegations were just getting down to business at weekend, with prospect that sessions would terminate this week whether or not agreement is finally evolved. Mexican delegation apparently had instructions to stay not longer than two weeks (story, page 72).

B•T

PUSHING PROGRAMS • Ed Craney, Western broadcaster who has been responsible for many innovations in programming and selling, is using strong medicine to encourage sponsorship of programs rather than announcements. Effective July 1, rate for 14-minute program on his Z Network in Montana was pegged at rate for oneminute announcement. His idea: This should encourage return of good 15-minute shows on radio such as Chevrolet's former *Musical Moments*. Time will tell whether this will mark new trend, according to Mr. Craney. AMONG experts called to Washington last Thursday by Pentagon committee considering revisions of articles covering prisoners of war was Dr. Frank Stanton, president of CBS Inc. Dr. Stanton researched number of psychological problems for military during World War II.

BOT

PROTEST PROSPECTS • Amendment of controverted Sec. 309(c) of Communications Act, authorizing automatic hearings from economic protests, considered likely. With preliminary House action favorable to amendment, which would leave such cases to discretion of Commission rather than make hearings mandatory, and with substantially united front of broadcasters backing FCC's position, informed legislative sources felt action might be taken even with indicated July 31 adjournment.

В●Т

REVIVAL of radio reflected in increases of 10-12% in overall rates being effected by KMPC and KLAC, both Los Angeles.

в∙т

NEW MAN AT NARTB • Next step to round out NARTB's headquarters staff expected to be appointment of Fred Garrigus, Boston public relations man, to fill new job -maintenance of relations with industry and other organizations. This fast-growing function at association has been consuming many weekly hours of President Harold E. Fellows' time, as well as other staff executives. Mr. Garrigus was with CBS in New York at one time and had held public service post at WEEI Boston when Mr. Fellows headed station. Still to be filledvacancy in Legal Dept. caused by shift of Chief Attorney Vincent Wasilewski to government relations, replacing Ralph W. Hardy who becomes CBS Washington vice president Sept. 1.

B+T

WHO goofed? Air Force fought bitterly against permitting ch. 8 KSWS-TV Roswell, N. M., to construct 1,610-ft. tower 43 miles outside of Roswell in place of present 800-ft. tower 10 miles from Walker Air Force Base near Roswell. In fact, base commander originated move when he complained that present tower hindered operations. Now, on heels of initial decision favoring move [B•T, July 4], word comes that Air Force has moved into Walker squadron of night fighters, but they can't do any night flying until KSWS-TV's tower is moved. Also, no small matter, is fact that delay in building new tower-caused by military objections-may cost KSWS-TV owner John A. Barnett from \$25,000 to \$50,000 over what he could have bought steel for if allowed to proceed last year when he first applied.

FFILIATES ACCEPT CBS SINGLE RATE PLAN; IEW MBS SALES PASS MILLION DOLLAR MARK

NGLE RATE PLAN of CBS Radio assured noon Friday when station response to netrk's new affiliation contracts, setting one rate day and evening time (but without reducing ual costs to advertisers), passed 85% of U. S., ount network officials had set as mark needto put plan into effect [B•T, July 4]. (See io network situation report page 31.)

Officials said response reached some 90% day. No turndowns of contract—which also wides for one-year reduction of 20% in ion compensation—were received, although work reportedly negotiating with several staus which have been non-committal. Effective 2 of new plan is Aug. 25.

BS Radio executive commented that ren of contracts after only nine working days -nd in some cases six or seven days because filelayed mailing—was "tribute to affiliates." FIRST advertiser purchases of time on MBS which include participation in Mutual's new "Companionate Radio" service reported Friday by network. Buys represent about \$1 million in gross billings (see story page 31).

Quaker Oats Co., in addition to purchase of 10 saturation (one-minute) segments of Sgt. Preston show, will sponsor for 52 weeks 10 oneminute segments weekly on MBS including five on Keepin' Company, and two on Here's Hollywood, Tuesdays and Thursdays, 12:05-12:10 p.m. (EDT), both Companionate programs, and three participations in MBS' multi-message, 8-8:30 p.m. (EDT) period, Mondays, Wednesdays and Fridays.

Also reported by MBS: Williard Storage (batteries), Cleveland, through Meldrum & Fewsmith, Cleveland, has purchased three participations in multi-message programs for fall and winter campaign, effective Aug. 29.

ales, Promotion Budgets creased by Quality Group

DGETING for sales and sales promotion cvity of Quality Radio Group has been "subtatially" increased, Ward L. Quaal, Crosley madcasting Corp. and QRG president, said day in reporting on board of directors meetheld in Chicago. Mr. Quaal also announced surveys made by major agencies have adated Quality's assertion that its 36 member taions reach 90% of nation's homes.

ulso at Chicago meeting: W. Howard Sumaiville, WWL New Orleans; Don Thorngh, WCAU Philadelphia; Ralph Evans, VO Des Moines; John H. DeWitt Jr., WSM Ihville; Frank P. Schreiber, WGN Chicago; n M. Outler Jr., WSB Atlanta; James ines, WOAI San Antonio; Frank Fogarty, WW Omaha. Board meets again in Chicago November.

Jucal, Regional Advertisers Jered New Ziv Show

CAL and regional advertisers to be offered rothy & Dick, radio program that has been tuired and is being nationally syndicated by deric W. Ziv Co., Alvin E. Unger, vice presiint in charge of sales, was to announce today on.).

Program will be offered across board. Five e-half hour shows will be transcribed per ek with six one-minute commercials (plus ening and closing identifications). Show feaes Dorothy Kilgallen, syndicated newspaper lumnist, and her husband, Richard Kollmar, lio actor and Broadway producer.

BS-TV Signs Roanoke Outlet

FILIATION of WDBJ-TV Roanoke (ch. 7) th CBS-TV as basic optional station, effective et. 1, announced Friday by Herbert V. Akerirg, CBS-TV vice president in charge of stan relations. Station is owned by Times forld Corp., with Ray Jordan general manager.

TvB Signs New Members

FIVE additional stations and one station representative have joined Television Bureau of Advertising, Norman (Pete) Cash, director of station relations, TvB, was to announce today (Mon.). Stations are KTRK (TV) Houston; WCPO-TV Cincinnati; WEWS (TV) Cleveland; WMAL-TV Washington, and WUSN-TV Charleston, S. C. Representative is the Branham Co.

Prudential in Daytime Tv

PRUDENTIAL INSURANCE Co. of America has purchased quarter-hour segment, alternate Mondays, of *Garry Moore* in its first daytime television advertising, in addition to renewing *You Are There*, both on CBS-TV. Firm has dropped sponsorship of *Fibber McGee & Molly* on NBC Radio, effective June 23. Calkins & Holden, New York, is agency.

NBC-TV Daytime Color Drama

PLANS for NBC-TV's first regularly scheduled, afternoon drama series in color, were to be announced today (Mon.) by Thomas A. Mc-Avity, NBC vice president in charge of tv network. Hour-long, Mon.-Fri. telecasts, titled Matinee, will debut Oct. 3, 3-4 p.m.

THOUGHT PROJECTION

NATIONWIDE "thought projection" was to be attempted by Dunninger last Saturday on his Dunninger Show on NBC-TV (Sat., 8:30-9 p.m. EDT) when he invited viewers to receive "message" he previously had written on piece of paper, placed in envelope and sealed. During show, Dunninger tried to project subject matter to viewers. They were asked to write "message" on postcard, addressed to Reuben H. Donnelly Co., Mt. Vernon, N. Y., which will announce findings on Dunninger Show this Saturday.

BUSINESS BRIEFLY

GROVE TO RETURN • Grove Labs (Four Way cold tablets), St. Louis, through Harry B. Cohen, N. Y., planning to use substantially similar campaign in spot announcements as last year when it used about 80 tv and 175 radio stations. Current fall campaign will be launched in October, running 22 to 26 weeks.

VICK FALL PLANS • Vick Chemical Co. (Vapor Rub, cough drops), N. Y., planning annual tv spot announcement campaign to begin mid-September and early October in more than 50 markets. BBDO, N. Y., is agency.

CAMPBELL SOUP SPOTS • Campbell Soup Co., Camden, N. J., planning spot radio announcement campaign this fall for first time in several years. Firm understood to be considering October starting date in about 75 markets. BBDO, N. Y., is agency.

PHARMCO RADIO PLANS • Pharmeo Inc., for its Chooz, Feen-A-Mint and Medigum, preparing daytime, minute-announcement campaign in 200 radio markets, effective Sept. 19, for 26 weeks. Doherty, Clifford, Steers & Shenfield, N. Y., is agency.

RONSON NEWS • Ronson Corp. (pocket and table lighters), Newark, will sponsor Wednesday and Friday segments of *Douglas Edwards* with the News (CBS-TV, Mon.-Fri., 7:30-7:45 p.m. EDT), starting Aug. 24. Agency: Norman, Craig & Kummel, N. Y.

CREOMULSION RADIO • Creomulsion Co., Atlanta, through Tucker Wayne & Co., Atlanta, preparing radio spot announcement campaign to start this fall in South and Midwest.

TEXTILE CAMPAIGN • Pacific Mills, Boston, through J. Walter Thompson Co., N. Y., placing radio spot announcement campaign starting July 31 for one week in about 15 markets.

LEVER RENEWS • Lever Bros. renews Lux Video Theatre, NBC-TV, Thurs., 9-10 p.m. EDT, effective Aug. 25, for 52 weeks. Agency: J. Walter Thompson Co., N. Y. Lever also preparing spot announcement campaign for Silver Dust to start mid-August for 10 weeks in about 40 markets. Sullivan, Stauffer, Colwell & Bayles, N. Y., is agency.

NEW YEAR'S EVENT • Minute Maid Corp., N. Y., will sponsor Tournament of Roses in Pasadena Jan. 1 on NBC-TV (12:15-1:45 p.m. EST). Agency: Ted Bates & Co., N. Y.

MALTEX CONSIDERS • Maltex Co. (cereal). Burlington, Vt., which used spot radio-tv last year, considering similar campaign with newlyappointed agency, Bryan Houston Inc., N. Y. Definite plans won't be made until next month. Agency officially takes over account in September.

KQTV Fort Dodge, la., Dark

KQTV (TV) Fort Dodge, Iowa, ch. 21, reported Friday to FCC it is off air due to burned out transmission line and antenna. Station indicated lightning was cause of forcing it dark. It hopes to return on air in 30-90 days.

at deadline

arquette, Hartford Transfers iled at Commission Friday

PLICATION for FCC approval to sale of . 6 WAGE-TV Marquette, Mich., from Peisula Broadcasting Inc. to Lake Superior moadcasting Co. (WDMJ Marquette) for (0,000 filed Friday. WAGE-TV not yet on . Lake Superior owned by Mining Journal). (Marquette Mining Journal), which is also knority owner of WSAU-AM-TV Wausau, bls. Frank J. Russell Jr., principal owner of tining Journal Co., is 80% owner of WMIQ in Mt., Mich. (Iron Mt. News).

At same time, application for Commission (proval to purchase of ch. 18 WGTH-TV artford, Conn., by CBS for \$650,000 [B \bullet T, 1 1] also filed with FCC. Replacement cost station estimated at \$401,504; that of WGTH, aich is not being sold, at \$200,000.

Balance sheet of General-Times Tv Corp., rensee of ch. 18 Hartford station (owned % by General Teleradio and 45% by Gantt's *Hartford Times*), showed that as of fine 30, 1955, it had total assets of \$433,009, which \$5,289 was in cash. Liabilities ininded \$357,920 to Yankee Div., General Telealio; \$162,356, notes due; \$71,969 old deficits rd \$72,507 current deficits.

(CBS indicated that it had income, after deral taxes, of \$8,894,642 in 1953, and of 16,716,826 in 1954. Income in 1954 included the than \$5 million from sale of minority derests in three broadcast stations. Thes, figites are for CBS Inc.

Application did not disclose how much Gen-I Teleradio was paying *Hartford Times* for 45% interest in WGTH-TV.

OSA-Roberts Get Grant or Odessa Video Outlet

NAL GRANT of ch. 7 at Odessa, Tex., made Odessa Television Co., FCC announced Friy. Odessa Tv is joint venture owned 50% ch by Odessa Broadcasting Co. (KOSA) and cil Roberts of Dallas. Cecil L. Trigg, presint and director of KOSA, will be president d general manager of KOSA-TV.

FCC denied application of another firm, The lessa Television Co., jointly owned by Clarce E. Wilson and Philip D. Jackson. Messrs. Ilson and Jackson have had interests in broadst properties dating back to 1945. In 1953 cy were granted permit for ch. 25 at Oklaoma City (KTVQ [TV]), which they later Id. At present they each have third interest KBOY Medford, Ore.

Mr. Trigg reported Friday that KOSA-TV pes to be on air in 90 days using RCA equipent. Branham Co. will be national reprentative. Station is seeking CBS-TV affiliation. Commission last week approved sale by Mr. oberts of ch. 15 WBLN (TV) Bloomington, I., to Worth S. Røugh (story page 49).

WTRY Troy Sold by Wilder

ALE of WTRY Troy, N. Y., by Harry Wilder nd associates to group of Providence, R. 1., roadcasters for \$500,000 announced Friday. tation (5 kw on 980 kc) bought by Robert Engles, president and general manager, and Providence; Kenneth M. Cooper, general manager, WORC Worcester, Mass., and Maury Loew, former manager, WEAN Providence. Messrs. Engles and Taylor will own 28% each; Messrs. Cooper and Loew, 22% each. Payment will be with \$150,000 in cash, remainder in notes. WTRY is 50% owner of ch. 35 WTR1 (TV) Albany, suspended station. This interest has been assigned to National City Bank of Troy as trustee for individual stockholders (see story, page 76). According to Col. Wilder, WTRI will resume operation if and when FCC turns down proposal to move ch. 10 into Albany area. "Instead of retiring," Col. Wilder said, "I may very well get into the revolving door again." Sale was negotiated by Blackburn-Hamilton Co., station brokers.

Change in Ch. 8 Conclusions Sought by Westinghouse

WESTINGHOUSE Broadcasting Co. petitioned FCC Friday to reconsider Portland ch. 8 tv decision [B•T, July 4]—but only to revise conclusions indicating that parent Westinghouse Electric Corp. was 22.42% owned by aliens. WBC asked that two paragraphs in Portland decision be revised to indicate that "even under the most unrealistic assumptions" 22.42% of Westinghouse "is the maximum number that could be found to be owned by aliens..."

Westinghouse explained that figure of 22.42% was arrived at by witness who was asked to make certain assumptions. "Although the nature and reasons for those assumptions are perfectly clear when the findings are closely read, the conclusions fail to make it equally clear to other than the most careful reader of the entire text that the assumptions are only assumptions and are not facts. The conclusions also make inaccurate quotation out of context not only likely, but almost inevitable."

Communications Act prohibits FCC from granting license to any corporation which in turn is controlled by another corporation where more than 25% of stock is owned by aliens.

In Portland ch. 8 case, Commission affirmed initial decision in favor of grant to North Pacific Television Inc. (Mrs. A. Scott Bullitt).

FCC Pay Boost Proposed

BILL to raise pay of FCC commissioners from present \$15,000 to \$22,500 has been introduced by Rep. Sid Simpson (R-III.). Bill (HR 7387) referred to House Civil Service Committee. It was submitted same week that White House announced it was preparing to ask Congress to raise salaries of Cabinet and sub-Cabinet officers and officials and top staffers of executive agencies (see story, page 46).

UPCOMING

- July 18: Start WSM-Peabody Tv Workshop, Peabody College, Nashville, Tann.
- July 20: Testimonial Dinner to honor Frieda Hennock, Shoreham Hotel, Washington, D. C.

July 22-27: National Audio-Visual Convention, Sherman Hotel, Chicago.

See other Upcomings page 110

PEOPLE

WICKLIFFE W. CRIDER, vice president in charge of television and radio, and G. MAX-WELL ULE, vice president in charge of research, elected to board of directors of Kenyon & Eckhardt. Mr. Crider joined K&E in 1952, before that was BBDO vice president and before that with J. Walter Thompson. Mr. Ule joined K&E in 1949 after service with McCann-Erickson, Chicago. Mr. Ule is president of Radio and Television Research Council and chairman of Advertising Research Foundation subcommittee on radio and television ratings.

ARMIN N. BENDER, WHAM Rochester, recently assistant to television sales manager, appointed general sales manager of Stromberg-Carlson Bestg. Corp. (WHAM-AM-TV).

C. E. MILLER, transmitter supervisor for KOMO-AM-TV Seattle, named chief engineer for Fisher's Blend Station Inc., and Fisher's Television Co., operating KOMO-AM-TV. He succeeds late FRANCIS J. BROTT.

RICHARD H. McGINNIS, formerly with advertising dept., Shell Oil Co., to BBDO, N. Y., as account executive on Ethyl Corp. account.

CHUCK WILDS, veteran supervising timebuyer, N. W. Ayer & Son, N. Y., resigning from agency, effective Aug. 5, and will spend year in Europe with family.

Actors Guild Still Deadlocked With Tv Film Producers

WITH Alliance of Tv Film Producers and Assn. of Motion Picture Producers standing fast against Screen Actors Guild in current tv entertainment film bargaining sessions in Hollywood, SAG announced its board will meet today (Monday) to consider calling a membership meeting on strike vote.

Guild action followed meeting which broke off last Thursday. SAG called on non-ATFP and non-AMPP film producers to attempt independent negotiations. However, independents refused SAG demands, stating they would be governed by results of ATFP-AMPP negotiations.

Main stumbling block is revised residual payment scale asked by Guild. SAG last week reportedly softened its demands somewhat, but bargaining opponents maintained demands still were too high.

SAG contract with tv entertainment film producers expires Wednesday.

Community System Sold

MARTIN F. MALARKEY Jr. and associates, community tv operators in Pottsville. Schuylkill Haven and Minersville, Pa., have bought Harrisonburg. Va., antenna system, it was announced Friday. Harrisonburg system encompasses 600 subscribers, with potential 1,800 hookups, it was reported. It was bought from Frederick L. Allman, owner of WSVA-AM-FM-TV that city. Price was not disclosed. Mr. Malarkey is president of National Community Television Assn.

Gay Plans Virginia Outlet

CONNIE B. GAY, country music personality of Washington, D. C., who in last few months has spread his interests into broadcast owner ship of three stations, Friday filed application with FCC for new am station at Warrenten, Va., on 1420 kc, 5 kw day. Last week Commission approved sale of WVVW-WJPB-1 M Fairmont, W. Va., to Mr. Gay who also has pending before FCC purchase of WWKO Ashland, Ky. (story page 49).

– IN REVIEW —

WINDOWS

OST summer replacement programs try to bld their viewers with light, frothy entertainnt, guaranteed not to raise anyone's temrature. A different approach is taken by *indows*, which started July 8 on CBS-TV as leation fill-in for Edward R. Murrow's *Person Person*. This series, if its first program is pical of those that will follow, strives to chill audience with eerie suspense.

After an overlong, somewhat confusing inoduction about looking through windows into we souls of humanity, the story proper began the a small town household whose two sons be preparing for an outing. They depart. Eveting arrives; father comes home and wants to t his dinner so he can go off to a civic meeting; mother says let's wait for the boys who tight to be home any minute now.

But they don't come home and telephone is show that all the children of this commuy and its neighboring towns are similarly essing. As the tension rises, the mother goes etside to look down the quiet street, usually this time of night ringing with the voices of meldren at their last few minutes of play before dtime.

Late in the evening, Johnny, the 16-year old rot, comes home, alone. The children have righe, he says, in revolt against the behavior rotheir parents. But that he, two weeks over el age limit, must return home. The rest, he was, every child between five and 16, will abbably never come back. They are so well iden, he says, that they can never be found, relatement which a police search proves all too re.

But, says Johnny, there is a chance. The rusing youngsters can hear the school bell in if the grown-ups ring it they may send a mittee back to talk things over. The bell rigs, hour after hour. Finally, three children inpear to negotiate. What, they ask, about the inpear to negotiate. What, about all, do they go on '-righting wars, dropping bombs on children of make r lands?

7 The parents agree to give back the playspund, to treat their children better, to try to backe a better, warless world for them to grow Twin. The committee goes back to the hidden uge, promising to report to the rest of the reldren and, if they agree, they'll all come

time to give the old folks another chance. On sult note the drama ended.

The play got off to a fine start. The suspense robilt slowly. There were a number of excellent star: the street at twilight, deserted and silent; the casual reference, when the children's abtimace first becomes disturbing, to the Pied imper; the little girl member of the committee into haits negotiations to be taken to the batht iom. But the climax lost its dramatic impact

I out of character with children who had alady resorted to drastic action.

Let's credit *Windows* with a start in the right rection, even if it didn't quite come off, and sh the series better luck for the rest of the mmer.

oadcast on CBS-TV, Fri., 10:30-11 p.m. 1 EDT, live from New York.

Consored by American Oil Co. through Joseph Katz Co., and Hamm Brewing Co. through Campbell-Mithun Inc.

by Frank DeFelitta and Mort Abrahams.

reducer: Mort Abrahams; associate producer: Shelley Hull; director: Leonard Valenta (premiere), alternating with John Stix, Jack Garfein, Jose Quintero; technical director: Hal Warner; lighting: Hank Alexander; costumes: Gene Coffin; staging: David Alexander; set designer: Samuel Lev.

Writers: First program, "The Outing," adapted by Shirley Peterson from a story by Julia Savarese.

Cast of "The Outing": Kent Smith, Frances Reid, Michael Allen, Charles Taylor, "Pud" Flanagan, Susan Reilly, Philip Coolidge, Charles Mendick.

AND HERE'S THE SHOW

IT'S BEEN many a moon since these old ears have been titilated by the drolleries of Ransom Sherman. Last June 9, when the old Chicago master appeared in person on *And Here's the Show*—the summer replacement for George Gobel—it was keenly anticipated.

Honest to say, it was the same old Ransom Sherman—looking slightly professorial (as we knew he would)—still slightly off-beat, still with that low level dry wit, but a little dated.

We wondered about that. We scratched our heads, mulled our thoughts, pondered a John Collins, and forced ourselves into deep contemplation (about six inches below the surface of living on a hot, humid summer evening). Finally we found it.

Ransom Sherman belongs to our youth. His style is part of our young days when great things were being done on radio. Sherman belongs, we concluded, to the era which encompassed The Chamber Music Society of Lower Basin Street, Col Stoopnagle and Bud, CBS Workshop, "and now we take you to . . ."

And Here's the Show is a little revue, sort of. Its first guest was humorist Jonathan Winters —who has been on several Gobel stanzas. He did a burlesque of a war movie that was a tour de force of voices and sounds.

The show also had vocalist June Christie, the Double-Daters, a song and dance team, and John Scott Trotter and orchestra, held over from the original Gobel show.

Summing up: Middlin' to good summer fare. Sponsored by Armoun & Co. through Foote, Cone & Belding, and Pet Milk Co. through

- Gardner Adv. Co. Broadcast on NBC-TV, three Saturdays out of
- four, 10-10:30 p.m.

Stars: Ransom Sherman and Jonathan Winters, with the Double Daters and John Scott Trotter's orchestra.

Guest (first broadcast, July 9): June Christic. Producer-director; Robert S. Finkel for Gomal-

co Productions; associate director: Paul Chapin; writers: Irving Taylor and Jesse Goldstein; technical director: John Conn; art director: Frank Swig.

BOOKS

THE TELEVISION ACTOR'S MANUAL, by William Hodapp. Appleton-Century-Crofts Inc., 411 Fifth Ave., New York 18, N. Y., publisher, 349 pp. \$4.

FIPS on casting, acting techniques, resumes, agent selection and effective publicity are given to the aspiring tv actor by Mr. Hodapp, who also treats the opportunities for actors in television. Although big-city television operations are the focal point of Mr. Hodapp's book, he offers how-to suggestions to actors working on the local station level.

The book contains a glossary of terms, list of casting directors and agents, actors' unions, sample contracts and salary seales.

Mid-Gulf States

EDITOR:

I have read Mr. Beatty's article on the Mid-Gulf States area [$B \bullet T$, June 27] and think he has done an excellent job of it, as he did earlier with the Carolinas [$B \bullet T$, March 21].

It is pleasing to contemplate that the market for your services in the South is growing just as it is for all other goods and services.

F. Clifton Toal, Asst. V. P. Southern Railway System Washington, D. C.

EDITOR:

I have just read your excellent article on "The Mid-Gulf States" in the June 27 issue and wish to thank you for an excellent job.

Your series on changing U. S. markets is extremely interesting and informative. A must for anyone concerned with broadcast media.

Please keep up the good work.

Jeremy D. Sprague, Timebuyer Cunningham & Walsh, New York

EDITOR:

... It is very thorough and certainly enjoyable reading and should go a long way in bringing this area to the attention of the rest of the country ...

> P. A. Sieverling, Director Committee of 100 Birmingham, Ala.

EDITOR:

... In listing the total farm income for 1954 and 1953, the value of cotton is estimated at \$16.6 million for 1954 and \$19 million for 1953. We believe this should have been listed as the farm value of cotton seed during the two years since our estimate, based on USDA [U. S. Dept. of Agriculture] statistics, is \$17,048,000 for cotton seed in 1954 and \$19,076,000 for 1953 —close to the same as your figures for cotton.

The farm value of cotton lint produced in Alabama in 1954 amounted to an estimated \$126,316,000, based on USDA statistics. In 1953 it amounted to an estimated \$161,500,000.

Total farm value of cotton and cotton seed, therefore, exceeded \$143 million in 1954 and was better than \$180 million in 1953....

Bill Foreman, Pub. Rel. Mgr. National Cotton Council of America Memphis, Tenn.

[EDITOR'S NOTE: Alabama cotton figure incorrectly omitted important lint total, as pointed out by Mr. Foreman. B.T's farm data were obtained from USDA.]

Cole Compliments

EDITOR:

We would like to order 100 reprints of John Osbon's excellent story on the use of tv film by Cole-Finder, Inc., appearing in the June 13 $B \bullet T$.

Irwin Cole, president of Cole-Finder, Inc., has requested that we pass on to you his compliments on the high level of researching, reporting and presentation in the article. Mr. Cole feels that the story of his success with television films could not have been presented in a more accurate and interesting way.

Morris L. Roth, Account Executive Herbert M. Kraus & Co., Chicago

Paging David Niles

EDITOR:

I don't suppose you conduct a Missing Persons Bureau, but mindful of the fact that $B \bullet T$

gets around, here's what I'd like to know. A couple of years ago, a very nice guy and his b.w. were friends of mine, but somehow we lost touch. This gent was p.d. at KOLO in Reno. Name of Dave Niles. I'd like to know wha' hoppen to him and his frau.

> Vickie Varnum, Continuity Dir. WINK Fort Myers, Fla.

Proof of the Product

EDITOR:

Thanks very much for sending me the proof of ON ALL ACCOUNTS of April 25. I was flattered and honored to be the subject of thir sketch and thought that the writer was mos sympathetic and made the product look a low better than it actually is.

I have been a devoted reader of $B \bullet T$ for a long time and find it to be a constant source of valuable information.

James W. Staples, Office Manager Beaumont & Hohman, Los Angeles

Two for Eight

EDITOR:

Golly me, not only does the *Presque Isle Stat* carry the complete schedule of Loring Televi sion, so does the *Bangor Daily News*. See en closed.

In fact, I'll bet that this is the first televisior

newspaper listing you have ever seen which lists two stations in different cities, both oper ating on the same channel (Loring and M Washington, both on Channel 8).

Murray Carpenter, Pres.

WTWO (TV) Bangor, Me.

[EDITOR'S NOTE: Mr. Carpenter refers to B·T July 4 story concerning the commercial effect (military 'morale' tv stations whose signals jum base boundaries into civilian coverage areas.]

Out of the Brush

EDITOR:

I have felt the power of $B \bullet T!$ The flatterin article you did [OUR RESPECTS, May 2] drev letters and comment from all over the countr.

New RCA 50-kilowatt AM Transmitter BTA-50G

DESIGNED WITH AMPLIPHASE MODULATION

HOW IT WORKS!

RCAAMPL

8

0

Β

0

R Ampliphase

5

Β

E

-

-

0

To produce phase-to-amplitude modulation in the BTA-50G, a carrier wave is developed by a common exciter. This carrier wave is then split and fed to two separate amplifier chains through phase-shift networks that estab-lish a carrier phase difference. These two signals are controlled so that each maintains a pre-scribed phase relationship with the other in accordance with the intensity of modulating signal. This controlled phase relation-ship enables the separate 25-kilo-watt amplifiers, when feeding their outputs into a combining circuit, to produce a maximum level 50-kilowatt amplitude mod-ulated signal.

SIMPLIFIED BLOCK DIAGRAM-BTA-SOG TRANSMITTER

A new concept in AM Broadcasting! ... introduced in RCA's revolutionary new 50-KW AM transmitter

Here is the most significant forward step in AM transmitters since RCA introduced high level modulation—an entirely new 50-KW transmitter using Ampliphase Modulation. Newest and finest in RCA's long line of distinguished AM transmitter designs, it is further proof of RCA leadership in the broadcast equipment field.

HASE

1

0

0

0

Ampliphase cuts transmitter floor space and operating costs by substantial margins. The BTA-50G is housed in four cubicles. It does away with half of present power tubes . . . along with bulky components such as modulation transformers, reactors and accessories. It requires no underfloor trenches, costly water cooling systems, external blowers. And there's no lost air-time—because the 50-KW Ampliphase is remarkably easy to install while your present transmitter is in operation. Then, in most cases, you may keep your old unit as a stand-by.

For complete technical details... and for information on the surprisingly low price... call your RCA Broadcast Sales Representative. In Canada, write RCA VICTOR Company Limited, Montreal.

FACTS ABOUT RCA'S NEW 50-KW AM

- Takes less than 80 square feet of floor space. No underfloor trenches required.
- Lowest operating cost of any 50-KW AM fransmitter.
- Half the tube cost of other 50-KW AM transmitters.
- Uses famous Long-Life RCA 5671 P.A. tubes.
- No Modulation transformer required.

- Completely air-cooled with internal blowers — no air intake ducts necessary.
- Low distortion, excellent frequency response.
- Splatter-free modulation provided by new Ampliphase design.
- Designed to permit remote-control operation.
- New simplified circuitry. Extremely stable operation.

The Only Station Completely Serving THE YOUNGSTOWN MARKET

our respects

to JOHN LOYOLA FITZGERALD

IN many government offices, there are "boys in the back room" who do the spade work for government officials. One such unsung group is in the FCC, where it bears the rather awesome title of The Office of Opinions & Reviews.

It has the vital job of translating FCC actions into written opinions, memoranda and orders.

The job of supervising this activity is significant. Although the Commissioners can decide how a decision should go and why, they can't sit down and write it all out in detail. And, even before the Commission makes a decision, it has to be briefed, the case has to be analyzed, the law noted and the alternatives must be squared with previous rulings and policy. That's the job for the experts.

In charge of the FCC's "back room" detail of nine attorneys, three engineers and an accountant, is a tall (6 ft., 2 in.), rangy, stoopshouldered attorney who was known in his youth as "little Fitz."

He's John Loyola FitzGerald, who came to the FCC last November after almost 20 years in various housing and home financing agencies of the government.

A Native of Seattle

John FitzGerald is Seattle born (Dec. 10, 1908) and bred. He attended local schools and was graduated from the U. of Washington with a B.A. in 1928, and with an LL.B. in 1932. He received his LL.M. from Harvard U. in 1934. He also has an S.J.D. from Georgetown U., Washington, received in 1940.

At Georgetown, Mr. FitzGerald specialized in administrative law. One of his instructors, in radio and communciations law, was John W. (Duke) Guider, now living in New Hampshire, and president and owner of WMOU Berlin, N.H., and president and part owner of WMTW (TV) Poland Spring, Me.

There's a story about how the "little Fitz" cognomen was pinned on the now over-six-foot John FitzGerald. He started grade school in Seattle at the early age of 4½ years. Not that he was any genius, he will instantly admonish, but it was because he raised such a ruckus about wanting to go to school then.

Since he was rather advanced in letters and numbers for one so young, his mother, a schoolteacher, won the school administration's approval for him to start.

So, until he reached manhood, young John was always the smallest boy in his class and

was dubbed, not without reason, as "lik

The teaching influence ran strong in youth. He not only was reared by his scho teacher mother (his father died when he w a toddler), but after graduating from colle he taught at Skohomish, Wash., high sche and for five years, from 1942 to 1947, at t U. of San Francisco (administrative law).

He began his legal career in 1934 with t Home Owners Loan Corp. in San Francisc In 1935, he went to Washington as an attorn in the Federal Savings & Loan Insurance Cor He moved over to the U. S. Housing Authori in 1938 as chief of briefs and opinions (ve similar to the present job at the FCC). In 194 he returned to San Francisco as regional cours for the Public Housing Administration.

From 1947 to 1949, he was in private la practice in Los Angeles. He returned to Waslington as principal land attorney, Housing Home Finance Agency, in 1949. It was from this job that he came to the FCC.

Mr. FitzGerald considers his years with th home and housing agencies as among the mostimulating of his career. This was during th formative years of housing and home legislation when the federal government was opening up new areas in the building and housin field.

As a top legal aide, both in Washington and on the West Coast, Mr. FitzGerald participated in making and executing legal policy.

The chief of the FCC's Office of Opinion & Reviews wears horn-rimmed glasses on a rather thin face that lights up frequently in a smile. He talks in a soft drawl. There is at academic quality about him. His manner is gracious and imbued with personal warmth.

He married the former Genevieve Warren of Bellingham. Wash., in 1937. This was a college romance. They live in the Washington suburb of Silver Spring. Md., with four boys—ranging from age 3 to 15.

Mr. FitzGerald is a member of Theta Chi Delta Theta Phi legal fraternity, and of the Washington, California and U. S. Supreme Court bars. He is a member of St. Bernadette's Roman Catholic Church in Silver Spring

Today, he doesn't have much time for outside activities, but when he had the time he played tennis, handball and basketball. He was also active forensically—debating and dramatics. In law school he was president of his fraternity chapter and a member of the student council, representing his class.

Let's take a close look at the South Bend market. The Metropolitan Area of South Bend (population 232,000) is the Nation's 5th richest in family income. The South Bend-Mishawaka City Corporate Area is Indiana's 2nd largest in income and sales. The 9-county primary coverage area of South Bend's television station WSBT-TV has an Effective Buying Income of \$1,165,630,000.00.

WSBT-TV DOMINATES THIS GREAT MARKET!

Hooper and Pulse show that no other station even comes close to WSBT-TV in share-ofaudience. Therefore, there's only one effective way to reach the television audience of the great South Bend market—that's with WSBT-TV!

PRIMARY COVERAGE AREA: 9 Rich Counties in Northern Indiana and Southern Michigan.

WILLIAM EDWARD WARNER

on all accounts

WILLIAM EDWARD WARNER, timebuy Ted Bates & Co., New York, is convinced to the union of television and advertising is most impressive liaison since Anthony and Cl patra.

But although his reverence for tv had to w for the establishment of the medium, his de sion to enter advertising was taken when was a child.

"I think my father was the biggest influen in my desire to enter advertising," he explaine "I remember during the depression how in pressed he was with advertising people. It w his opinion that they, more than any other bus ness group, were holding up with dignity whi everyone else was panicking and going unde I've never regreted my decision to join the field."

Born in New York City in 1922, Mr. Wa ner was educated at New York U. where h majored in marketing. His first job was in the mail room of Pedlar & Ryan, back in 1941. H advanced there to time estimator, the positio he held when he left to serve in the merchan marines. During the war he was in Europe and the Mediterranean area.

In 1945, Mr. Warner returned to civilian life and another agency, Doherty, Clifford, Steen & Shenfield. At that agency he functioned at head of the billing department where he also acted as liaison with media.

He remained with the agency until 1953 when he accepted a bid from Ted Bates Inc. as assistant timebuyer on the Brown & Williamson account.

Last February he was named a timebuyer and currently services Dromedary cake mixes and grocery store products, both participants on *Today*, *Home* and *Tonight* on NBC-TV; Morton frozen pot pies, Minute Maid, Snow Crop and American Sugar, all of which use television spots. American Sugar also invests in radio.

Amplifying his faith in spot tv as an advertising blockbuster, Mr. Warner observes that "spot television has helped to bring all the grocery products we serve here a long way because of the wonderful flexibility it offers the client and the tremendous impression a sight and sound demonstration can make for the viewer."

Mr. Warner is married to the former Evelyn Hammerle. They have three children, Stephen, 10, Lynn, 7, and Christopher, 3. The family lives in an apartment in Pelham Bay, New York.

Mr. Warner lists golf, baseball and tv viewing as his hobbies.

COLOSSUS OF THE CAROLINAS

This potent plus

WBT's biggest plus—your biggest selling opportunity—is a plus of people.

There are around 2,500,000 of them in WBT's daytime basic service area. And 98% of them possess one or more radios. This works out to a plus of 22.4% over those who take *any* daily newspaper and a plus of 41.5% over those who own a TV set.

Now, in 1955, more of these people are listening to their radios than in 1954. In Charlotte, 49% of the listening, on the average, is to WBT—and WBT beats 31 outside local stations in their own home county.

These are patent and potent plusses for the advertiser who seeks a mass market. WBT has other exclusive plusses, too—such as Grady Cole, HPL and Supermarketing. Your CBS Radio spot salesman will ply you with WBT plusses—a call will tell him you're open-minded.

Capital Gains

... four ways to make them

in Washington, D.C.

Alert advertisers know that it takes vital, persuasive personalities to increase product sales in the nation's capital. They know, too, that enthusiastic, ready-made audiences are a must. And they've found that WRC and WRC-TV provide that special kind of service.

The ladies, bless 'em, take their purchasing leads from Inga Rundvold – the charming young lady who conducts the women's features on WRC-TV's "Afternoon Show" weekdays from 2:00 to 3:00.

Al Ross, the easy-going, talented proprietor of WRC Radio's record show . . . "Your Timekeeper" . . . captivates young and old alike with his musical selections and informal chatter, weekday mornings from 6:15 to 9:30 and from 6:15 to 8:00 on Saturday.

Then there's versatile Willard Scott, a genial young gent who lightly mc's the popular disc jockey sessions "Twilight Tunes" on WRC Radio - 5:35-6:00 p.m. and 7:45-8:00 p.m.

Ray Haney and the top-rated "Little Rascals" captivate the small fry from 9:00 to 9:15 a.m., weekdays; Wednesdays from 7:00 to 7:30 p.m. Saturday from 3:00 to 4:30 p.m. Ray holds the youngsters enthralled with his "Trading Post."

Top WRC, WRC-TV personalities all, and every one a top salesman for advertisers who are making the biggest sales gains in Washington, D.C.

ADIO NETWORKS' BUSINESS HOWS SIGNS OF FIRMING UP

- NBC says 'Monitor' is 72% sold on average weekend
- CBS reports big General Foods and other radio sales
- MBS is on verge of selling 'Companionate Radio' plan

L new patterns of radio networking reyse the downward curve of network billing? Last week there were signs that the decline in the bearrested, might even be turned into upward trend. Here were some of them: Advance reports of advertiser billings on nitor fired a sudden enthusiasm in NBC Raquarters. Consequently, the network now sonsidering steps to extend its weekend conof program service both in station option is on weekends and in network option time ling the Monday-Friday period.

CBS Radio disclosed a number of national ertisers turning to the medium. Among the buys was a General Foods purchase of ticipations, representing alone some \$300,000 unual gross billing for the network.

MBS since June 19 has compiled renewal iness representing \$2,561,000 gross billings was about to sign its first two major adverrs which are including Mutual's "Companate Radio" service plan, possibly adding aner \$1 million (see AT DEADLINE).

ABC Radio, whose billings have steadied the past few years, reported a status quo, its ture complicated somewhat by the decision Swift & Co. and Quaker Oats to drop sponship of *Breakfast Club* [CLOSED CIRCUIT, 19 4].

The new pattern of network radio buys was prticularly noticeable in purchases ranging t m short term saturation to the one-time specl events as well as five-minute segments coss-the-board and 52-week renewal contracts t quarter hours.

In addition to its expanding *Monitor* adverber roster, NBC Radio reported the sale of *uur Nutrilite Theatre*, a new drama series to incorporated into the *Monitor* service, to bringer & Casselberry, through Dan B. Miner C, Los Angeles, and five-minute evening news sements to be programmed Monday-Friday at fied times for 52 weeks by Brown & Williamin Tobacco Corp. (Viceroy & Kools), through d Bates & Co.

The extension of *Monitor*—the service now us 14 hours in network option time—actually liges on a top echelon decision.

Reportedly, the decision may be some months the coming. Robert Sarnoff, NBC executive ve president, is returning today (Monday) bm an overseas trip. Mr. Sarnoff and NBC esident Sylvester L. Weaver Jr., it was said, \$\$1 be presented with the record of *Monitor*, bich has been aired on a full weekend schedbe since June 18.

Already the sales record of *Monitor* has far ustripped the expectations of even its most dent rooters at NBC. In terms of gross billss for the third quarter (July through Sep-

tember), NBC Radio now has \$1,522,600 on the books representing 1,056 gross minutes of commercial time. The service has been 72% sold out on the average. During the July 4 weekend (Saturday and Sunday) the percentage shot up to 97% sold out, a feat that is expected to be repeated on the Labor Day weekend.

At the outset, it was reported, NBC Radio executives had been conservative on the service's immediate future, practically writing off the third quarter with expectations of possibly \$150,000 in gross billings in the till. Thus, *Monitor* has proved to be 10 times more effective than originally believed, it was pointed out.

Among the top advertisers underwriting Monitor are Philip Morris (see story, page 32), Chesebrough Mfg., Chevrolet Div. of General Motors, Western Union, Miller Brewing Co., Socony-Vacuum Oil, Morton Salt and RCA.

Reportedly, NBC Radio may extend the service, should it so decide, at a step at a time, first offering the service, with affiliate approval, in the 11 p.m.-midnight station option time Saturday, and midnight-8 a.m. Sunday and 10 p.m.midnight that same day—these hours also are station option time.

The next step—or alternative—would be to offer the service in network option time, probably in daytime hours, during the weekdays. Reports have placed the time segment at pos-

SLEEP-EZE Corp. (sleeping tablets), Long Beach, Calif., signs with CBS Radio for twice-weekly sponsorship of Young Dr. Malone (Mon.-Fri., 1:30-1:45 p.m. EDT). L to r: John Karol, vice president in charge of network sales, CBS Radio; M. B. Scott, president of M. B. Scott Adv., and Allan Parkinson, Sleep-Eze owner-president. sibly two hours, programmed either in the morning or in the afternoon.

CBS Radio, which currently has set Aug. 25 as the effective date for a change to a single rate [B \bullet T, July 4], reported a definite upsurge.

General Foods, New York, has appropriated approximately \$300,000 for CBS participations.

Other advertisers reported by CBS Radio included Hazel Bishop, Viceroy Cigarettes, Chevrolet, Reynolds Metals, Pet Milk, Kellogg Foods, Gulf Spray and Woolworth.

The largest saturation type of buy was recorded by General Foods which signed a contract with CBS Radio for sponsorship of a total of 18 broadcasts weekly on seven different daytime serials, for its Swans Down Cake Mix.

The General Foods saturation purchase includes segments of the following six daytime serials: Backstage Wife (three segments), Romance of Helen Trent (two segments), Our Gal Sunday (two segments), Young Dr. Malone (three segments), Perry Mason (two segments) and Brighter Day (three segments).

Young & Rubicam is General Foods agency. Hazel Bishop, through Raymond Spector Co., New York, has added another radio network buy to its recent sponsorship of *Wendy Warren News* by purchasing a portion of the *Freddy Robbins* show, 3:30-4 p.m., five times weekly on CBS Radio effective Aug. 1.

Brown & Williamson Tobacco Corp., Louisville (Viceroy cigarettes), effective July 19 picks up two segments of the *Disc Derby* show which also features Freddy Robbins, Tuesdays and Saturdays at 8:30 p.m. Ted Bates & Co., New York, is the agency.

Chevrolet cars through Campbell-Ewald. New York, is turning to CBS Radio to sponsor the Aug. 14 Soap Box Derby.

Other sales: Reynolds Metals, through Buchanan & Co., New York, for a one time coverage of the Hambletonian Races. Wednesday, Aug. 3; Pet Milk, for a firm 52 week renewal contract for its participation on the Arthur Godfrey show, through the Gardner Agency, St. Louis: a 52-week renewal signed last week by Kellogg Foods, through 1 co Burnett, Chicago, for its *House Party*.

At the same time, Gulf Spray recently bought an eight-week summer run of Wendy Warren on CBS Radio, through Young & Rubicam, and Woolworth renewed its hour-long radio show on CBS Radio for another 13 weeks.

MBS reported that its figure represented 13-week renewals by P. Lorillard & Co., through Lennen & Newell: National Biscuit Co., through Kenyon & Fekhardt: Coca-Cola Co., through D'Arcy Adv.; Billy Graham, through Walter F. Bennett & Co.: Lutheran Hour, through Gotham Adv.: Global Frontiers and Wings of Healing, through Century Adv. Also reported was the return to the network on Sept. 12 of Gabriel Heatter, to be sponsored three nights per week (15-minute program) by American Home Products, through Sullivan Stauffer, Colwell & Bayles. One-shot programs included the All-Star Football Game, Aug. 12. co-sponsored by Miller Brewing Co. and Atlantic Refining Co., and the Army-Navy football game in November to be sponsored by All-State Insurance Co.

SIMS NEW COLGATE-PALMOLIVE PRESIDENT

Fills vacancy left by resignation of McConnell earlier this year. Hart elected a vice president and president of Colgate-Palmolive International.

WILLIAM LEE SIMS II, executive vice president of Colgate-Palmolive Co. and president of Colgate-Palmolive International, has been elected president of C-P, E. H. Little, chairman of

the hoard who will continue as chief executive officer of the company, announced last week. Ralph A. Hart, vice president of Colgate - Palmolive International in charge of European sales and advertising, has been elected vice president of the company and succeeds Mr. Sims as president of Colgate-Palmolive International.

MR. SIMS

Mr. Sims in effect fills the vacancy left by Joseph H. McConnell, who resigned the post earlier this year.

Mr. Sims joined the soap organization in 1924 as a salesman. He has headed the company's foreign operations since 1945 and has been parent company executive vice president since 1952. He became a director in 1946 and a member of the executive committee in 1953. He was manager of the company's subsidiaries in continental Europe, with headquarters in Paris. When he returned to the states in 1940, following the outbreak of World War II, he became assistant to Mr. Little, who was then president of the company.

When Colgate-Palmolive International was

formed in 1953, Mr. Sims became its first president, continuing as executive vice president of the parent company.

Mr. Hart started with the Colgate-Palmolive company in 1932 as a salesman for its Canadian subsidiary in Toronto.

Radio-Tv to Emphasize New Philip Morris Drive

NEW national advertising campaign, with both radio and television playing lead roles has been announced by Philip Morris Inc., New York, for its Philip Morris cigarettes. The campaign, which will follow the theme, "Philip Morris . . . Gentle for Modern Taste," was developed by Roger Greene, director of ad-vertising for the cigarette firm, and John R. Latham, Philip Morris brand manager, with Biow-Beirn-Toigo Inc., agency handling the account

On radio, the cigarette firm has purchased the exclusive cigarette franchise on Monitor, NBC Radio's weekend service. The advertising theme will be aired some 14 times throughout each Monitor broadcast on the full NBC network

In television, the campaign hinges on frequent spot announcements in key cities under which both the theme and the art work used in the printed media campaign will be supplemented with further detail to better suit them to television.

Philip Morris has announced that the expanded campaign follows the pattern used in a successful drive launched in Chicago June 20 using identical local media.

Other media which figure in the plans are newspaper space, Sunday supplements and magazines, point-of-purchase displays and billboards.

Carpenter, Macheca, O'Neill Elected D'Arcy Adv. V.P.'s

TWO CREATIVE executives and an account executive were elected vice presidents of D'Arcy Adv. Co. last week.

The newly-elected vice presidents are: Thomas K. Carpenter Jr., who joined the agency in 1954. and who is also copy director in the New York office; Jack Macheca, account executive for Anheuser-Busch Inc., St. Louis. who has been with the agency since 1939, and Dennis J. O'Neill, copy

MR. PARK

ny's 87 product departments. He also had e functional supervision of creative developent, media relations and research, exhibits and ide shows and all graphic arts services.

Hot Pace in Air-Conditioning

AIR-CONDITIONING history—and media history, too—are being made by a Washington, D. C., store that believes in the power of advertising and refuses to believe that nobody buys an air-conditioner after July 1.

The store, John G. Webster Inc., 627 F St. N.W., has sold 1,500 Chrysler Airtemp air-conditioners since July 1 and plans another fortnight of promotion. Unit prices range from \$249 upward. This mass movement of cooling units into Washington homes has been called the biggest sale in air-conditioning history.

Back of the sale is a multi-media campaign using saturation radio-tv spots and newspaper space, with \$2,500 spent in electronic media and the same sum in white space. George C. Webster, head of the store, told BoT a recall check is being made to determine which media drew the most customers.

"Broad acceptance has been built for Chrysler Airtemp units through radio and television," Mr. Webster said. "In this specific promotion, the overall effort of multiple media improved sales greatly." He added that one advertisement and one medium would not do the job.

Nailing down the point, he added, "In planning repeat promotions we will make use of multiple media an essential part of the campaigns."

With the simple theme, "Air-Conditioning Sale," the Webster store used saturation radio-tv spots and full pages in the Sunday, July 3, Star and Post. By 11 a. m. the Webster agency, M. Belmont Ver Standig Inc., was phoning radio and tv stations, taking advantage of their ability to change copy on short notice. The new copy asked the public to wait a while because the store's large staff was loaded for days.

Even with 15 telephone operators, the store lost perhaps half the calls, with some persons saying they had been trying to get through for as long as five hours.

The store was open all day July 3, and July 4 as well. The second day was even busier than the first. With the store jammed, many customers decided to haul their equipment home and do their own installing. The store promised to inspect installations later.

The Airtemp sale had Washington media pretty much to itself that holiday weckend, and enjoyed a monopoly in air-conditioning promotion. The swarm of buyers had Wilson Supply Co., Airtemp distributor, scouring the country for available units. Six carloads were located. Mr. Webster is general manager of the Wilson firm.

All Airtemp dealers in the Washington area rode the buying wave, selling units as fast as they could be obtained. Dealers selling other makes enjoyed a heavy demand when they opened for business July 5 after the long weekend. The Webster store sold 1,000 units the first week.

General Foods Reorganizes Sales Into Two Divisions

SALES REORGANIZATION of several operating divisions of General Foods, White Plains, N. Y., was announced last week by the company. The staff of the now eliminated GF sales division has been assigned to two newly created sales divisions.

These are the Baker-Gaines sales division which will handle products of the company's

All this a few days after the *Wall Street* Journal had carried an article indicating that air-conditioning business falls apart after July 1.

Mr. Webster, 34, took over the plumbingheating-appliance business from his father a decade ago and has built it into one of the nation's important enterprises, particularly in the air-conditioning field. He holds masters degrees in law and engineering, plus a masters degree from Harvard Graduate School of Business Administration and, of course, a master plumber's license.

His belief in the use of multiplc media is shared by Mr. Ver Standig. "In all but one of our agency's success stories (a blackand-white-only campaign) we found that sales effectiveness is increased through the use of media combinations such as radio-

MR. VER STANDIG

newspapers, radio-tv-newspapers, tv-newspapers or radio-tv with car cards," he says. Calling his organization a "shirtsleeve marketing agency," he described operation of a 500-family consumer panel providing impact and recall measurements as well as sales data of many types.

Mr. Ver Standig has been in advertising 23 years, 10 of them as head of his own Washington agency. His billing is said to run around \$1.5 million a year. Mrs. Helen Ver Standig buys radio and tv time.

The returns aren't in yet from the media check, and more July weekend sales will bring up the 1,500 total to—well, maybe 2,000, or maybe more. The follow-up advertising has been on a more modest basis than the July 3 splash.

There has been a pleasant bonus for the Webster store—hundreds of inquiries for complete home units, which run from \$1,-900 to \$3,000.

The Webster sales staff has been spurred by quotas and prize inducements. Mr. Webster calls it a "Salesarama."

Lessons to be learned from this air-conditioning success story are obvious: Holiday weekend sales can be effective, with as many as two-thirds to three-fourths of families staying home all or part of the weekend; July is a good month to sell air-conditioners, despite some of the experts, and there's nothing like a July heat wave to get people interested in cooling their homes; good time and space is available in most media during holidays; saturation advertising is effective in radio and ty; so is combined media.

Walter Baker, Franklin Baker and Gaines divisions and the Jello-O sales division, which will sell Minute, Calumet, Certo, Sure-Jell, D-Zerta, Swans Down and Jell-O products.

C. A. Kolb has been appointed national sales manager of the Jell-O division. He previously was national sales manager of the GF sales division. Harold J. Colelough southern region manager of the GF sales division headquattering in Atlanta, has been named national sales manager of the Baker-Gaines divisio.

Q: CAN TV MOVE FURNITURE? A: IT CAN, AND THIS IS HOW

KPIX (TV) wanted to know how successful television had proved itself in selling for dealers. So it conducted a nationwide survey of stations to find out what they had learned. These are the results.

CAN TELEVISION move merchandise for retail furniture dealers?

That's a question that until recently posed a problem for which there was no immediate answer for account executives at Westinghouse-owned KPIX (TV) San Francisco. They had confidence in the ability of tv, when properly used, to move the sofa out of the show room into the viewer's home, but that didn't make the salesmen's lot in life any easier. Nor did it sell the retailer usually a devoted newspaper advertiser—on television as a powerful sales tool.

What KPIX needed were statistics and results stories. Necessity, occasionally the mother of research as well as invention, set the wheels in motion in this case for a detailed and comprehensive survey among television stations in the U. S. to determine whether there were local furniture retailers who had conducted successful campaigns on tv. If campaigns were conducted and they were considered unsuccessful, the survey aimed to find out why.

The study, made in December 1954 and January 1955, was conducted under the supervision of Herb Bachman, director of promotion at KPIX. Mr. Bachman told B•T the survey was sparked in a conversation between a KPIX sales representative and one of San Francisco's largest furniture dealers.

"The retailer was convinced that he knew how much business he could count on from the size of his newspaper ads," Mr. Bachman said. "But he was equally sure that tv results couldn't be figured. He wasn't even certain that he could conduct a successful campaign on tv. There weren't any available answers to the questions the retailer asked so we decided on a survey of our own to find them."

The study, from the original idea to the final tabulation, was handled entirely by KPIX. The results, Mr. Bachman believes, represent an excellent cross-section on the furniture retailers' experiences with ty as reported by stations which carried their advertising messages. Questionnaires were mailed to 409 stations in operation when the study was launched. Nearly a third of that number replied-129 in all. Of the total number of responses, 100 were answers accompanied by success stories. The remaining 29 were not all tales of unprofitable television ventures. They also covered stores featuring only one furniture item and reports from stations without retail furniture advertisers.

As the accompanying tables show, the survey indicates that tv is a fine buy for

furniture dealers regardless of market size or quality and type of merchandise-when it is used correctly. "The hypothesis 'can television sell retail furniture' did not turn out to be the important question at all," Mr. Bachman told BoT, "but rather, did the retailer, who understanding his market and the people who were prospective purchasers of his style and quality merchandise, adapt this knowledge to his television advertising." Mr. Bachman pointed out that to those advertisers who did, ty became a very successful means of reaching customers. Misuse of the medium-not flaws inherent in the medium itself-was responsible for the unsuccessful campaign. By way of illustration, Mr. Bachman referred to the experience of one station located in an eastern market with between 150,000 and 450,000 population.

In answer to the KP1X questionnaire, the station reported a decided lack of success in the retail furniture field but passed on the

they did not have a furniture account on the air and specialty stores which were not included in working tables.

experience it had had with furniture clients in hopes it would be of use in the KPIX presentation.

One capsule case history outlined by this station was fairly typical of the ty campaigns that had not worked to the client's advantage, Mr. Bachman said. A wholesale retail outlet in the station's market was interested in increasing sales on its low-priced, wellmade furniture. Before the start of the tv drive the store had made little attempt to sell in quantity to retail customers. Against the advice of the station, the store went ahead with plans to display several pieces of furniture on each commercial and couple the display with hard-sell messages on a relaxed variety show. The station pointed out that hard-sell of any type had proven unsuccessful in the area. The viewers just wouldn't buy it. The station also recommended a more visually appealing line of furniture minus great floral patterns which reproduced poorly.

In spite of the admonitions of professic als, the store went ahead with the plan, (pecting immediate sales results after the fi spot. As the station's prediction had warne the result was only a few scattered inquirit

On the other hand in a market of th very same size in a different geographic are another tv outlet reported "some rather or standing selling successes for three local r tail furniture outlets . . ." in reply to the KPIX questionnaire. In one instance, sale for a furniture outlet increased 35% durir the first six months the store was on ty with a half-hour weekly film program, designe as a test campaign. This advertiser, whic ultimately switched to a live program form; once a week, has commented that "We have never used an advertising medium that doc as complete a selling job as television. I instance after instance we have found the television advertising actually closes sale for us."

As opposed to the cluttered commercial of the unsuccessful advertiser, the furniturclient using the medium successfully generally sticks to details on one item per commercial. As an example, through two t programs 250 mattresses were sold by thi advertiser. Of that number, 125 buyers wernew customers at the store. The long-rangeffect of the two programs added up to some \$12,000 in sales since many of the customers who purchased mattresses also bought other merchandise.

In the preparation of the survey, Mr Bachman explained, two basic considera, tions were involved. They were length of the questionnaire and extent of the mailing of the questionnaire once its content had i been established. "We considered a brief questionnaire which would tend to increase the returns and make tabulation a bit morer flexible. The decision was finally made to request detailed information which would allow us to study the hows and whys of successful campaigns. Of course we also expected that a detailed questionnaire would cut down on the number of responses but ! think there we missed our guess," Mr. Bachman said.

The questionnaire that was finally used asked 27 questions of the recipient covering such points as purposes of a tv campaign, methods of selecting merchandise for television, type of commercial used most frequently, price range of advertised items, type program on which commercials are aired and the degree of success attained through the campaign on television.

With a covering letter explaining the purpose of the survey, the questionnaires went out to all operating U. S. stations. "The decision for a complete mailing was made," Mr. Bachman said, "to determine the role of market size played in sales action to television advertising." As the questionnaires were returned to the station, they were tabulated according to market size and according to response to each question. All questions were designed on a multiple answer format

The complexity of the questionnaire, coupled with the detailed answers which it stimulated from stations, turned the KPIX survey into a sizable research project. The dy turned up facts that all tv stations uld find of value and importance.

Generally speaking, the survey shows that vision is not the cause or effect of the cess or failure of campaigns sponsored furniture retailers. It is simply a means in end. If an advertiser knows his market plans his television advertising accordly, responses to the KPIX survey indie, tv can and will sell merchandise for h. "It became apparent to us from the tranerous responses in the affirmative to wision that the medium no longer was trial," Mr. Bachman said. "As a new illing medium it does a first-rate job for furniture advertiser who puts some ught and planning into his television "roach to prospective customers."

THE PRICES THEY ADVERTISE

In addition to WBRC and WTBC, the network is comprised of WSFA Montgomery; WALA Mobile; WJRD Tuscaloosa; WGAD Gadsden, and WOWL Florence. R to 1 (seated): J. B. Whitworth, U. of Alabama head football coach; Henry G. Crisp, university athletic director; Jeff Coleman, university secretary and director of alumni affairs; standing, Abe Glover, Texas Co. state manager, and Bert Bank WTBC general manager, representing the network.

– FILM –

O'NEIL SET TO BUY RKO RADIO PICTURES

Would acquire library of more than 400 films under terms of proposed \$25 million contract between General Teleradio and Howard Hughes.

GENERAL TELERADIO Inc. appeared close to a deal with Howard Hughes at the weekend, with purchase of RKO Radio Pictures Corp. for \$25 million involved in a plan that would give General Teleradio a library of well over 400 pictures plus two unreleased films and production facilities.

Thomas F. O'Neil. General Teleradio president, and Howard Hughes, chairman of RKO Radio Pictures, were understood to be in virtual agreement as a result of California negotiations. Mr. Hughes has been close to a sale several times in the past, however, without reaching the contract stage.

The transaction does not involve RKO Pictures Corp. or its picture producing subsidiary, RKO-Pathe Inc., controlled by Mr. Hughes and Floyd B. Odlum, it is understood. RKO-Pathe has a New York studio.

General Teleradio operates a Film Div. producing and distributing such films as "Uncommon Valor," "Gang Busters," a package of "A" feature-length films never shown on tv, 30 "A" films that have been shown on tv, "The Greatest Drama," the Fulton Lewis Jr. "Exclusive" and a library that includes animated fairy tales.

RKO Radio Pictures operates a studio in Hollywood. Its distribution unit has branches in over two dozen foreign nations. The two unreleased films are "Jet Pilot" and "The Conqueror." It is understood the proposed contract provides that General Teleradio keep the studio production operation intact. Mr. O'Neil has advocated film programming since tv's early days.

Involved in the transaction, it was said, is a \$20 million tax debt of the film company that can be written off provided film production is continued.

The RKO Radio Picture catalog is said to contain many films suitable for theatre re-runs as well as tv showing.

General Teleradio owns a substantial part of

MBS, with Mr. O'Neil as president. In addition he is a vice president of General Tire & Rubber Co. General Teleradio owns WOR-AM-FM-TV New York; WNAC-AM-FM-TV Boston; KHJ-AM-FM-TV Los Angeles; WHBQ-AM-TV Memphis and KFRC San Francisco. A week ago it agreed to augment its 55% of WGTH-AM-TV Hartford, Conn., by acquiring the remaining 45% from Gannett Newspapers and then to deliver all of WGTH-TV (ch. 18) to CBS [B•T, July 11] for \$650,000. It has agreed to buy WEAT-AM-TV West Palm Beach, Fla. for \$300.000 [B•T, July 4].

RKO Pictures stock is held by Mr. Hughes (1,262,000 shares), Mr. Odlum (1,250,000 shares) and the public (450,000 shares). The company has offered to buy stock held by the public at \$6 a share, with about a fourth of the shares turned back since April of last year.

Sarnoff to Testify July 19 In 16mm Film Antitrust Case

PETITION to take deposition from Brig. Gen. David Sarnoff, NBC board chairman, as an expert in the television field, in the federal antitrust suit to force release of 16mm film print to tv and other use [B•T, June 27] has been filed with Los Angeles District Judge Harry C. Westover. The deposition hearing will be held July 19 in New York by Special Assistant Attorney General Samuel Flatow.

Attorneys for the 11 defendant theatrical motion picture production and distribution firms and six trade organizations named as co-conspirators have the right to be present at the deposition hearings.

Official to Distribute 'Willy'

OFFICIAL FILMS Inc., New York, last week acquired the distribution rights to the *Willy* tv film series from Desilu Productions, Hollywood. The addition of *Willy* raises to 11 the number of series Official films now has available for syndication. General Mills last season sponsored *Willy* over CBS-TV, and starting in September, Official Films will offer the program for syndication.

INSPECTING the set of the new tv series, Adventures of Robin Hood, at Nettleford Studios, Walton-on-Thames, England, are Edward G. Gerbic (I), vice president for advertising of Johnson & Johnson (toilet requisites), and J. Ward Maurer (r), advertising director of Wildroot Cc. (hair preparations). The two firms will co-sponsor the series which debuts on CBS-TV Sept. 26. Richard Greene and Bernadette O'Farrell (above) are stars.

Fidelity

THEY still love Liberace in Atlanta. The Bank of Georgia, which sponsors the Liberace Show on WLWA (TV) Atlanta, enclosed post cards with its monthly statements to depositors, asking their opinion of the tv show. The results: 60% of respondents said they never missed the show, and 25% watched it often. Figures were released last week by Liller, Neal & Battle, Atlanta and New York, advertising agency for the Bank of Georgia. Liberace is a Guild Films program.

Cost of Tv Film Since '49-50 Exceeds \$304 Million Mark

COST of film produced specifically for te vision since 1949-50 exceeds \$304 million, cording to Broadcasting Information Burea latest issue of the Tv Film Program direct issued last week. This sum is said to co some 7,600 hours of tv film product that v be available this fall.

BIB reported that the 7,600 hours does r include the 3,017 hours of feature film; 1 989 hours of western film; 216 hours of π tion picture serials or the 11,494 hours of π tion picture short subjects currently availab

It was estimated by BIB that new produto be shown during the 1955-56 season of about \$92,920,000 to be produced. Accordito Julienne Dupuy, editor of the director much of the production expense must be gained by third and fourth runs.

Elgar Making Sterling Ads In \$500,000 Film Contract

KENEHAN HEADS FCC BROADCAST BUREAU

Dark horse gets nod to succeed Curtis Plummer in FCC job. James E. Barr named assistant chief of division.

APPOINTMENT of Edward F. Kenehan, 42year-old attorney, to be chief of the FCC's Broadcast Bureau was announced last week.

Named as Broadcast Bureau assistant chief was James E. Barr, engineer head of the Bureau's Broadcast Facilities Division.

Bureau chief Curtis B. Plummer and assistant chief Joseph M. Kittner were transferred to the first and second posts of the Safety & Special Services Bureau.

All appointments are effective Aug. 1.

Mr. Kenehan becomes the Broadcast Bureau's second chief. The bureau was established in 1951 when the Commission revamped its organizational blueprint into functional bureaus.

At a news conference last week, Mr. Kenehan said he contemplated no changes within the bureau. "Most of the men have been there a pretty long time," he said, "and they know their jobs."

He declined to discuss such pending broadcast subjects as de-intermixture, the Lamb case and others. "Wait until I've been in the job for a while," he asked.

One of the first things he will have to face up to, he pointed out, was the naming of three division chiefs. These are the Hearing Division,

Edward Kenehan

EDWARD FELIX KENEHAN was born March 1913 in Carlinville, Ill.

Education: U. of Illinois, A.B. and LL.B., 1938; U. of Michigan, Graduate Fellow in

1938-39. Experience: Practiced law in Carlinville. Taught at U. of Missouri Law School. In 1940 was appointed Assistant State's Attorney of Macoupin County, III.

Entered Army

legal research.

MR. KENEHAN

in 1942, served in U. S. and in Philippines, returning to civilian life as a major. Joined FCC as attorney and made chief, New & Changed Facilities Branch (am), Broadcast Division, Law Bureau, March 1946 to December 1948. Joined Washington law firm of Welch, Mott & Morgan in 1948. Became an attorney in Engineering Products Division. RCA, in 1951. Returned to FCC as attorney in litigation division of Office of General Counsel in February of this year.

Personal: Is married to former Pauline Ritchey of Altoona, Pa. They have girl 10 and boy 4½. Is member of Illinois, District of Columbia and U. S. Supreme Court bars. Also of Federal Communications Bar Assn., American Legion and Knights of Columbus. Member of Kenwood Country Club, Bethesda, Md. Broadcast Facilities Division, and the Renewals & Transfers Division. Robert J. Rawson, assistant chief, has been acting chief of hearings; no successor was ever named for Walter R. Powell, who resigned a year ago to join the legal staff of NARTB. Mr. Barr, of course, was chief of Broadcast Facilities.

Unmentioned in past speculation for the post —it had been an open secret over the past few months that a new Broadcast Bureau chief was under consideration—Mr. Kenehan steps into the number one broadcast staff job from a nominal position as an attorney in the litigation division of the Office of the FCC's General Counsel.

He moves up to the \$12,900 position from his present \$9,000 category. The White House has asked Congress to increase pay scales for top level agency staff jobs to \$15,000.

Mr. Kenchan was chief of the New & Changed Facilities Branch (am) in the old FCC Law Bureau, leaving in 1948 to become associated with the Washington law firm of Welch, Mott & Morgan. He joined RCA as an attorney in the Engineering Products Division in 1951, returning to the FCC in February of this year.

When Mr. Kenehan was with the FCC in the immediate postwar years, FCC Comr. Rosel H. Hyde was the Commission's general counsel and head of the Law Bureau.

Mr. Kenehan is a native of Carlinville, III., and a Republican. He received his bachelor's and law degrees from the U. of Illinois in 1938, did graduate work in law at the U. of Michigan in 1938-39. He practiced law in Carlinville and in 1940 was appointed assistant state's attorney for Macoupin County, III. He also taught at the U. of Missouri Law School.

During World War II, he served in the Army in the United States and the Philippines. He was mustered out as a major, and joined the FCC in 1946.

In 1947, Mr. Kenehan was named as one of the original group of FCC hearing examiners. However, he immediately resigned this position to accept the job of heading the broadcast facilities group in the then Law Bureau.

Others Mentioned

Among those who had been mentioned for the Broadcast Bureau post were Christian E. Rogers Jr., engineering assistant to FCC Chairman George C. McConnaughey; William Campbell, engineering assistant to FCC Comr. Robert E. Lee; John L. FitzGerald, chief of Opinions & Reviews, and Mr. Barr.

It was understood that the FCC vote on the appointment of Mr. Kenchan was not unanimous.

Mr. Barr, a Fort Worth native who became a ham operator at the age of 14, has been in charge of the broadcast application processing staff since 1951. He attended Georgia Institute of Technology and Southern Methodist U. After several years as a Southwestern Bell lineman, cable splicer and outdoor construction engineer, he joined Southwest Broadcast Co. (comprising a number of radio stations, with headquarters at the then KTAT Fort Worth). He became an FCC inspector in 1938, serving as a ship inspector in New York City at first and then transferring in 1940 to Washington.

He has attended a number of international radio conventions, including the preliminary North American Radio Broadcast Agreement conference in Havana in 1947 and working on the main conferences in Montreal, Havana and Washington in 1949.

Mr. Plummer, who was one of the architects

of the FCC's tv allocation in the 1952 Sixtl Report & Order, has been active in tv engi neering since the 1945 allocation hearing. Be fore being made Broadcast Bureau chief it 1951, he was chief engineer of the FCC.

Under Mr. Plummer the Broadcast Bureau handled the vast complexities of the tv freezethe end of which resulted in the addition of the uhf band for tv broadcasting and color tv-and the myriad applications for tv stations, includ ing an unprecedented number of comparative hearing cases for grants.

He leaves the bureau struggling with the eco nomic plight of uhf stations and the question of de-intermixture.

Mr. Plummer is succeeding Col. Edwin L White as head of Safety & Special Service Bureau. Col. White has retired from govern ment service.

Still unsettled was the future of Lester W Spillane, assistant chief of the Safety & Special Services Bureau.

Mr. Kittner was assistant to FCC General Counsel Benedict P. Cottone before being named Broadcast Bureau assistant chief in 1951. His most recent activity has been in connection with the Lamb case, where he took over as Commission counsel following the resignation of Mr. Powell.

The Safety & Special Services Bureau handles all radio communications activities other than broadcasting and common carrier. These include police and fire, maritime, taxicab, citizen's radio and industrial activities.

James Barr

JAMES EARL BARR was born in Fort Worth, Tex., in 1907.

Education: Georgia Institute of Technology; Southern Methodist U.

Experience: South western Bell Telephone Co. (lineman, cable splicer, general outdoor construction). Southwest Broadcast Co. (headquartering at then KTAT Fort Worth), 1934. FCC inspector, New York City,

MR. BARR

1938. Broadacst division, Engineering Dept., FCC, 1945; chief, aural facilities division, Broadcast Bureau, 1951; chief, broadcast facilities division (am, fm and tv), Broadcast Bureau, 1953.

Personal: Obtained amateur radio license at age 14. Married to former Maxine Hamilton of Fort Worth. Two children, 8 and 4. Lives in Silver Spring, Md.

Gordon Gray Sworn In

GORDON GRAY, president of U. of North Carolina, took office Thursday as Assistan Secretary of Defense for International Security Affairs. He succeeded H. Struve Hensel in the office which deals with foreign military aid programs, and will be on leave from his university post. He has held a number of top-level as signments in recent years and is president 0 WSJS-AM-TV Winston-Salem, N. C.

Only STEEL can do so many jobs so well

This trade-mark is your guide to quality steel

SEE THE UNITED STATES STEEL HOUR. It's a full-hour TV program presented every other week by United States Steel. Consult your local newspaper for time and station.

Fresh Air Design. That startling building is a parking garage. The walls are made from over 11 miles of USS Stainless Steel strand, held tight under 1000 lbs. tension with American Quality Springs. The strand prevents cars from rolling overboard, and makes this garage one of the most beautiful buildings in Chicago.

Hot Pickles. Those bottled pickles are taking their last ride on a USS Cyclone flat wire conveyor belt. Notice the open mesh that allows heat and steam to escape. Cyclone makes all types of conveyor belts, including types that can actually curve and go around sharp corners

Tomorrow's Sirloin Steak needs a square meal today the South, many farmers treat their pastures with USS Basic Slag-a high phosphorus. high-lime hy-product of U.S. Steel's southern steel-making process. Basic Slag encourages the growth of thick, rich pasture grass.

Portable Steam. It's actually a steam radiator, but you 4 can move it to any room and plug it into any wall socket for fast, even fume-free heat. The radiator is made entirely from USS Steel. As a result, the unit is light and strong; and it heats up 4 times faster than a comparable heavyweight iron radiator.

'PROTEST' BILL STALLS IN HOUSE

Action on FCC-sponsore measure to amend Sec. 309(is rescheduled to sometime th week. Also, Senate subconmittee fails to report on bill.

HOPE that House would act last week of 5614, the FCC-sponsored bill to ameniprotest rule of the Communications Act 309[c]) faded when the lower house resche its consideration of the bill for tomorro later this week.

At the same time, the Senate Commerce committee—which two weeks ago had 1 testimony on its version of the same legisl $[B \bullet T, July 11]$ —failed to make any mov ward reporting a bill to the full committe to the floor.

Meanwhile, the FCC, in response to inqubrought up during the Senate subcomm hearing, told the legislators that:

• Power to use its discretion on wheth grant made without a hearing should be st or not after protest must be included in th quested revision of Sec. 309(c). In many c the Commission said, even though there sufficient apparent evidence that warra a full hearing, it might have information w would indicate that the protest would be c ruled anyway.

• Although it agreed that the Commis must act on a protest within 30 days, the I made it clear that it did not interpret clause to mean that it also had to hold a h ing and come to a decision within that time

• The Commission also held that it she be permitted to use the new provisions those cases which might be remanded by ca action.

USIA Official Pat Campbe Dies Abroad of Heart Attac PATRICK W. CAMPBELL, 64, former brc caster and widely known in theatrical and t fields, died in London July 9 from a he attack while serving as radio-tv program of of the U. S. Information Agency.

Mr. Campbell joined USIA in Febru 1954 and a month later left for London. served as liaison officer with the British Brocasting Corp.

In 1930, he became general manager of West Coast Div. of World Broadcasting S tem and later joined the Don Lee Network the Mutual Broadcasting System as vice prident, station relations director and progrdirector. From 1951 to 1954, Mr. Campt was vice president, secretary and part ow of George Bagnall & Assoc., radio-tv prodtion firm.

He is survived by his wife, Mildred A., w was with him in London at the time.

Ike Feeling Out Congress On Executive Pay Increases

CONGRESSIONAL leaders are being sound out to learn their feelings about an Administtion proposal to increase salaries of Cabinet a commission members. Chairman Styles Bridg (R-N. H.) of the Republican Policy Commit said Thursday the White House will send up pay proposal soon if it is found possible pass the bill by the end of July.

The Administration draft calls for increa to \$22,500 for members of the FCC and sin lar agencies but this may be scaled down if o position develops. Cabinet salaries would increased from \$22,500 to \$30,000 a year.

last week.

the pay tv idea. The *Cincinnati Post* reported that 2,132 readers are unwilling to convert their tv receivers for subscription tv. A total of 68 persons indicated that they would be in favor of paying for home programs.

Knoxville News-Sentinel said that its readers showed a margin of better than 136 to 1 in favor of maintaining the present system of sponsored tv programs for home viewers.

And Edward Lamb, publisher of the Erie (Pa.) Dispatch (WICU [TV]), stated in his newspaper that he was in favor of the continuance of the present system of free tv.

Meanwhile, a proposed system called "Ultravision" was exciting some comment in payand anti-pay-tv circles.

Proposed by Dynamic-Electronics Inc., Forest Hills, N. Y., "Ultravision" envisages the use of several uhf channels for the exclusive use of subscription tv programs. A master antenna (with a uhf converter) would feed these signals into tv sets, connected via coaxial cable to the antenna.

There could be about 100 receivers connected to this type of wire circuit, Dynamic Electronics said.

Also proposed to be used with each receiver is a Television Audience Analyzer, developed by Dynamic-Electronics for Media Measurements Corp. This apparatus can transmit back to a central point information regarding what channel the receiver is tuned to, etc. This data could be used for billing purposes, Dynamic Electronics explained. The audience measure ment information would be so useful, it was said, that a major part of the cost of hooking receivers into a pay tv net might be borne by ad vertisers and others interested in the measure ment data. The data could be fed to centra headquarters via telephone lines or radio trans missions, the proponents pointed out.

Dynamic-Electronics is an electronics man ufacturing, research and development firm It does work chiefly for the government. It consumer products include indoor tv antenna and test equipment.

Puerto Rico Tv Shift Asked

JOINT PETITION for rule making to switcl tv ch. 7 from Ponce, P. R., to Mayaguez, P. Rihas been submitted to the FCC by El Munde Broadcasting Corp. (WKAQ-AM-TV San Juan and Ponce De Leon Broadcasting Co. (WAPA TV San Juan). Both companies are applicant for a ch. 3 outlet in Mayaguez and last Febru ary were designated by the FCC for a consoli dated hearing [B•T, Feb. 28]. Γ , July 4].

h:wport News, Rochester Uhfs Ided to Tv's Casualty List

CH-TV Newport News, Va., left the air night ago and WRNY-TV Rochester, N. Y., ch was not on the air, has asked that its struction permit, issued April 1953, be caned.

h. 33 WACH-TV gave as its reasons for bending: "apathy on the part of national network advertisers" and the "economic ability that is plaguing uhf broadcasting." station began October 1953, suspended rch 1954 and resumed operation six months r, September 1954.

ch. 27 WRNY-TV is the 116th uhf to surder its construction permit and the 145th t-freeze tv station to do so. WACH-TV is 34th operating uhf to revert to construction mit status.

leblo Shift Comment Asked

MMENTS were invited by the FCC last k on a shift of tv ch. 3 from Pueblo to mosa, Colo., as requested by Star Broadling Co. (KCSJ-TV Pueblo). Star contended t at present Alamosa is isolated from any eo service, but that Pueblo, in addition to SJ-TV (ch. 5), can receive tv service from lorado Springs. No application for ch. 3 yet been made, the FCC noted, but KCSJsald it would seek the assignment if the unge were made. Alamosa has only one Ignment, ch. 19, while Pueblo has five chans, three vhfs and two uhfs, KCSJ-TV said. asked that ch. 19 be deleted from Alamosa I another uhf assigned to Pueblo.

Big Aggie makes a winning move for RALSTON PURINA

in the land where TV means "Taint Visible" st

Selling feeds in vast, 5-state Big Aggie Land is no parlor game. But WNAX-570 has the winning system. Take Ralston Purina Feeds in the Checkerboard Bag for example.

Big Aggie Farm Service Editor Chet Randolph airs a 20-minute show for Purina 3 days a week, but his promotion doesn't end there. Chet jumps all over Big Aggie Land promoting Purina. He picks up Purina success stories and makes powerful "local proof" commercials of them . . . he tells Purina dealers how the other guy

is doing it with regular, personal letters . . . he shows up at every major farm show and exhibit to put his popular standing with farmers behind Purina Feeds.

It's WNAX-570's personal interest that clears the board for Purina. And if you'd like Big Aggie on your side, your Katz man can arrange it.

Don D. Sullivan, Advertising Director. Under the same management as KYTV Channel 9, Sioux City: Iowa's second largest market.

Stay Order Blocking Sale Of KORK, KOLO Is Lifted

CHARGES brought against Donald W. Reolds' purchase of KORK Las Vegas a KOLO Reno do not have sufficient weight warrant a hearing, the FCC ruled last week dismissing the protests of KLAS-AM-TV I Vegas. The Commission further lifted the der staying the consummation of the stati sales.

The grants of KORK Las Vegas to t Southwestern Broadcasting Co. for \$60,000 a KOLO Reno to Western Broadcasting Co. 1 \$190,000 were made April 6 and stayed April [B•T, April 18]. KLAS-AM-TV charged the Mr. Reynolds was offering joint rates for son of his broadcasting and newspaper intere after he had told the Commission that he to not intend to do so. Specifically, KLAS alleg joint rates were being used by KLRJ-TV He derson (Las Vegas), KZTV (TV) Reno a the Las Vegas Review Journal.

At the time the grants were suspended M Reynolds told the Commission volume discour (25% for use of both tv stations) had be discontinued. The *Review Journal*, he said, t "bent over backwards" to be fair to KLAS-T When KLAS-TV refused to pay the *Journ* for printing logs for which it normally charg a fee, the newspaper consented to run the free, Mr. Reynolds stated.

The question of too much concentration mass communications media arose through W Reynolds holdings, as cited by the FCC [B• July 4]:

President, director and majority stockhold of Southwestern Pub. Co., parent company KHBG Okmulgee, Okla., KBRS Springda Ark.; KFSA-AM-TV Ft. Smith, Ark.; KLR TV Henderson, and KZTV (TV) Reno, a has applied for Commission approval of t purchase of KNAC-TV Ft. Smith from Ame can Television Co., which has been schedul for a hearing.

Southwestern also publishes the Fort Smi (Ark.) Times and Southwest American and the parent company of Las Vegas Revie Journal; Bartlesville (Okla.) Examiner and E terprise; Okmulgee (Okla.) Times and Tim Democrat; Ely (Nev.) Times, and the Carn City (Nev.) Appeal.

Stevens Suggests Radio Plan To Penetrate Red Countries

IMPORTANCE of radio as a means of pertrating both the iron and bamboo curtains weenphasized in New York last Thursday by 1 Rev. Paul M. Stevens, director of the Rad & Television Commission of the South Baptist Convention, before leaving for Lond to attend the Baptist World Alliance now session. Mr. Stevens said he intends to pupose to the international Baptist leaders t creation of a world program using radio as instrument for spreading the Christian m sage to Communist-dominated countries.

Mr. Stevens hopes to interest Baptist leads from 60 nations of the free world who are tending the London meeting in approachi station officials in their respective countries wi a plan for an inter-denominational progra Once such a program is successfully underw on an extensive scale, Mr. Stevens said he 1 lieved that time could be obtained from Rat Free Europe and Voice of America for an i tension of what he describes as "a world-wi religious 'Point Four' program."

GOVERNMENT -

TWO DENVER STATIONS CHANGE HANDS

FCC asked to approve sale of KFEL-TV to McCaw. Also sought is transfer of KMYR to Dolph and Pettey.

APPLICATIONS for FCC approval of the sale of two Denver broadcast stations were filed with the Commission last week.

The stations are ch. 2 KFEL-TV and KMYR. KFEL-TV was sold for \$400,000 by broadcast veteran Gene O'Fallon to J. Elroy McCaw [CLOSED CIRCUIT, July 4]. Mr. McCaw also assumes obligations totaling about \$350,000.

A 60-day option to buy 50% interest in KFEL-TV, following FCC approval and consummation of the sale to Mr. McCaw, is held by Tele-Trip Inc., New York aviation insurance firm. The option calls for Tele-Trip to pay exactly half of the outlay for purchase of the station and to assume 50% of the obligations.

Tele-Trip already owns KPOA Honolulu (which it bought for \$400,000 from Mr. McCaw and associates in 1954) and WTAC Flint, Mich.

Purchaser of the ch. 2 Rocky Mountain area station actually is Gotham Broadcasting Co., licensee of WINS New York. It is 75% owned by Mr. McCaw and 25% owned by John D. Keating. The \$400,000 will be paid as follows, according to the application:

Deposit of \$5,000 as earnest money on agreement; a note for \$95,000 at 5% interest and a note for \$300.000, both to be paid off at the rate of \$5,000 a month. The purchase price is to be adjusted to reflect any changes in KFEL-

TV's net worth between April 30 and the consummation date. "Prompt" FCC action, before the FCC's August recess "in view of the financial condition of the transferer," was asked.

KFEL-TV's balance sheet as of April 30 showed total assets of \$679,276, of which \$132,225 were current assets. Current liabilities were listed at \$111,070, notes payable as \$142,543 and long term liabilities as \$44,119. The balance sheet also showed accrued expenses of \$60,864, earned surplus to Jan. 1 as \$68,677, and losses of \$69,022.

Mr. O'Fallon sold KFEL Denver (5 kw on 950 kc) to the Intermountain Network in 1954 for \$275,000. It is now KIMN.

During recent months, Mr. O'Fallon has been active on behalf of subscription television.

Balance sheet for Gotham Broadcasting Co. showed total assets of \$665,508, with cash of \$52,953. Current liabilities were listed at \$529,-832. Gotham lost \$23,441 in 1954, and made \$59,117 in the six 1955 months, the application indicated.

Mr. McCaw owns 100% of ch. 13 KTVW (TV) Tacoma-Seattle and KORC Mineral Wells, Tex. He also owns 50% of KELA Centralia, 33 1/3% of KYAK Yakima and of KALE-AM-FM Richland, all Washington; 50% of KYA San Francisco; 25% of ch. 11 KONA (TV) Honolulu and, through his wife, of KAPA Raymond, Wash.

Mr. Keating owns, in addition to the 25% in WINS, 50% of KYA and 25% of KONA.

The assets of KMYR were bought for a round figure of \$150,000 from F. W. and A. G. Meyer by Dolph-Pettey Broadcasting Co.

ROBERT E. GRANT Nidder, Peabody & Co. First National Bank Building Chicago 3, Illinois Telephone ANdover 3-7350 KIDDER, PEABODY & CO. FOUNDED 1865 NEW YORK BOSTON PHILADELPHIA CHICAGO SAN FRANCISCO Offices and correspondents in thirty other principal cuties in the United States

VICE PRESIDENT Richard Nixon congratlates Taylor Grant, newsman of WPI (TV) Philadelphia, on his 21st year radio-tv as the two met at Temple U graduation exercises where Mr. Nixo made a personal appearance. Mr. Nixo added thot he too was celebrating a 21 anniversary in June—graduation from ca lege. Others who conveyed their person congratulations to Mr. Grant on the occu sion were state Gov. Leader and Mayo Joe Clark Jr. of Philadelphia.

[CLOSED CIRCUIT, July 11]. Dolph-Pettey William B. Dolph and Herbert L. Pettey. cluded in the purchase agreement is a lease land for transmitter and antenna which is s the subject of negotiations.

KMYR began operating in 1941. It is censed for 250 w on 1340 kc, but holds a c struction permit for 5 kw on 710 kc. The s is contingent on the move to 710 kc operati

Balance sheet of KMYR as of May 31, 19 showed total assets of \$201,061, of whi \$134.035 were listed as current assets. Curr liabilities were put at \$13,095, earned surp as \$130,282 and profit for the current peri at \$4,088.

Dolph-Pettey Broadcasting Co. is own 40.2% each by the Messrs. Dolph and Petta and 9.8% each by investment brokers Crutta den & Co., Chicago, and Saunders, Stiver Co., Cleveland.

The company is authorized to issue 1,505,0shares, of which not more than 5,000 shall preferred, and 1.5 million shares divided equa into common and B common stock. The p ferred shares have a \$100 par value; the co mon stocks, 10ϕ .

The investment houses are scheduled to derwrite the issuance of \$300,000 worth 6%, 12-year debentures and 30,000 shares common stock. These will be sold in a un comprising a \$1,000 bond and 100 shares, a price of \$1,000 per unit. This will reali \$256,000 for the broadcasting company, it w stated in the application.

Both Mr. Dolph and Mr. Pettey are veter broadcasters. Mr. Dolph owns 15% and M Pettey, in his wife's name, 25% of KJBS 9 Francisco. KJBS is one-third owner of KUL AM-TV Honolulu, and 27% of KGIL 5 Fernando, Calif. Mr. Dolph also owns 29 of CBS-affiliated, ch. 2 WMT-TV Cedar R² ids, Iowa, and is president of WMT Ced Rapids. He operates a radio production a talent management firm in Washington. M Pettey, one time Loew's Inc. radio executi II is a plastics manufacturer's sales representati Both live in Charlottesville, Va.

HOUSTON FEARLESS EQUIPMENT

Speed is of extreme importance in processing motion picture film for newscasts, special events, interviews, Kinescopes, etc. But quality work should never be sacrificed for speed . . . and needn't be with Houston Fearless processing equipment. That's why *far* more TV stations and networks use Houston Fearless processors than all others combined. They appreciate the ease of operation, the consistently fine results and the high degree of dependability.

There's a Houston Fearless film processor to fit every need: 16mm, 35mm black and white, color, negative, positive, reversal or negative-positive color film . . . from the smallest, most compact unit to the largest installation. Whatever your needs, be *sure* to contact Houston Fearless *first*!

HE POSTWAR YEARS HAVE SPAWNED A BOOM ABOVE THE BORDER

TE Canadian beaver has always been the subol of industry. Today the beavers in Chada are taking lessons from the humans what industry really means.

The fur trading area of the far north has b ome North America's largest uranium pducing center.

Where buffalo once roamed the prairies, indreds of oil derricks now stand in a w Texas."

Dut of the rocky wilderness of northern Lorador is coming the richest iron ore see the discovery of Minnesota's famed sabi range.

A ten-mile tunnel, chopped and blasted though the Rocky Mountains, carries ragor mountain streams to power the world's best aluminum smelter. Five years ago by a few Indians lived on the smelter site. These are not isolated examples. Everysere the story in postwar Canada is one mphenomenal growth.

Dapital investment in Canadian industry im more than tripled in the last 10 years.

In the same period population rose by 25%.

National income jumped from just under \$10 billion to almost \$19 billion.

These developments and new opportunities promised by still untapped natural resources are drawing a flood of outside investment capital from the United States and Western Europe. The American stake in Canada grew from \$5 billion in 1945 to \$8.6 billion at the end of 1953. It has been growing ever since.

American exports to Canada, always high, have expanded to almost \$3 billion a year. And details of recent developments north of the Canadian-United States border indicate Canada will continue to grow as an important market for everything from heavy machinery to coonskin caps.

Most of Canada's 15,500,000 people live close to the international border. Their living and spending habits are almost on a par with those of their neighbors to the south. Even the French-Canadian element, accounting for about a third of the total population and centered mainly in the province of Quebec, is rapidly becoming Americanized.

The 10 major centers of population are the cities of Montreal, population 1,425,000; Toronto, 1,200,000; Vancouver, 577,000; Winnipeg, 373,000; Ottawa, 297,500; Quebec City, 294,000; Hamilton, 278,000; Edmonton, 200,000; Windsor, 173,000, and Calgary, 152,000. The rest of Canada's people are scattered in hundreds of small cities, towns and villages along 5,000 miles from Atlantic to Pacific coasts, from the international border to within 1,000 miles of the North Pole.

Canada's population since the end of World War II has boomed. Some 3,500,000 more people live in Canada now than in 1945. Of these about 1,250,000 are immigrants, mostly from Great Britain and Western Europe. On the streets of most Canadian cities foreign languages are no longer a novelty. Department stores and banks have their staffs of interpreters to help newcomers

The Canadian consumer is buying in a big way ... all the way from British Columbia to Newfoundland, well over 4,000 miles of opportunity for the alert U. S. advertiser.

All you have to do is raise your voice in this booming market. The Canadian is listening for you in every corner of the country. He and his family have bought more than 12 billion dollars worth of products in 1954, in the retail stores alone! They bought more U. S. goods than anyone else, next to Americans. They want to buy more—and they can afford it!

Raise your voice over their favorite local radio stations. When you speak with the voice of local radio, you're heard! Local radio is well-

Wherever your media strategy takes you over the Canadian border, travel the routes that make the most of this multi-billion dollar market—the all-important channels of local, independent radio broadcasting. known and trusted in its communities. It brings its listeners the big network shows—it brings them the local shows, too. Here the community speaks to itself about matters close to its heart —the farm reports, the mining news, the town's social events, the city's backyard chit-chat. Let yourself be heard in this company, and be heard as a friend.

Local radio reaches into 95% of all Canadian homes... in a country where only 38% of the population lives in cities of 30,000 or over. Local radio penetrates... convinces... and does it inexpensively. Come in to the Canadian market, and come in *welcomed*. Come in over local radio.

CANADIAN ASSOCIATION OF RADIO AND TELEVISION BROADCASTERS

108 Sparks St., Ottawa 4, Canada 200 St. Clair Ave. W., Toronto, Ontario

om Holland, Germany, Hungary, Ukraine, oland, Italy, Greece and other European untries.

All these additions to the population have sulted in a continuing demand for new pusing. Everywhere cities and towns are retching their boundaries. As an example, oronto and 12 suburban communities at the beginning of 1954 formed a metropolin area covering 240 square miles, or as uch space as is occupied by the five bor-1ghs of New York less Brooklyn.

New housing right across Canada is being uilt at an average for the past few years of ose to 100,000 units a year. Last year 13,527 new housing units were started, 01,965 were completed.

Housing is not the only construction at eak level in Canada. Schools, hospitals,

roads and commercial facilities such as office buildings and shopping centers are going up at a faster rate than ever before. There has not been as much office building and hotel construction in Canada as in the past two years since the 1928-29 boom. The growing number of young families is causing a school building boom and shopping centers are cropping up across Canada in urban suburban areas. More railways have been built in the last couple of years than for many decades, railways mostly into such new frontier regions as the Quebec-Labrador iron ore region, the new nickel-copper area in northern Manitoba and in the interior of British Columbia. More new roads further north are planned. The construction of the billion dollar St. Lawrence Seaway and its allied electric power projects has started and will

keep construction men busy for another five years.

Construction in the first five months of this year has made new records, with just over \$1 billion being awarded for all types of construction. First contracts have been let for the first nuclear electric power plant in Canada.

Transportation is an important factor in the Canadian economy, with big distances between major trading centers. New express highways are being built in southern Ontario where the heaviest concentration of automobiles is to be found. Ontario is spending over \$220 million on roads this year, almost half the total being spent in all Canada. The first all-paved standard highway is now being built across the country and will be over 5,000 miles long when completed as a joint

"HE CITY SIDE of Canada is exemplified by bustling Montreal, whose 1.5 million people make it the largest city of the dominion. n the background is the St. Lawrence River.

THE COUNTRYSIDE includes such tourist attractions, and therefore money-makers, as Banff National Park, Alberta. Visitors to Canada pour millions into the economy annually.

44 KING ST. WEST, TORONTO, CANADA undertaking of the various provincial governments with the federal Canadian government.

New railroad equipment is appearing on Canada's transcontinental railways for both freight and passenger services. This spring new diesel-powered streamlined passenger trains cut up to 18 hours from the transcontinental run between Halifax and Vancouver. The airlines are busier than ever with transcontinental and international passenger and freight services. A Canadian airline this spring put into service the first turbo-prop passenger aircraft on this continent. Another Canadian airline began regular scheduled passenger service across petroleum-chemical industry being sta d in the Edmonton area; in a vast expan of housing and building in that city; in laying of an oil pipeline westward for miles over the Rocky Mountains to b oil to the Pacific Coast; in another 1, mile pipeline eastward to Superior, Wis., from there for another 550 miles to Sar Ont., where vastly expanded oil refine and petroleum-chemical plants are loca Future natural gas pipelines are to bu that commodity from these western oilfar to the major cities of eastern and cen Canada.

Along with new Alberta oil developm has come oil prospecting in the nearby pr

OIL PRODUCTION in Canada has skyrocketed since World War II. It now furnishes 47% of the country's total requirements.

the North Polar regions between Vancouver on the Pacific Coast and Amsterdam, Holland, cutting 1,000 miles from the conventional air route between these cities. Canadian airlines are flying to almost every part of the world on regular services. So much in demand is air service in Canada that numerous charter services are being licensed in Canada and the United States for use between the two countries.

In every part of Canada there are visible signs of an expanding economy, of a country which has realized it has untapped resources for a world market.

In 1947, for example, a new oil field came into being in central Alberta province, near the city of Edmonton. That started a development which has by no means reached its climax, but has already resulted in a new inces of Saskatchewan and Manitoba. Ca ada is now able to supply enough oil for 47% of its total requirements. Import from the United States and South Americe which only a few years ago accounted fc more than 90% of all the oil used in Ca ada, are now needed to supply only the eastern sections of the country.

Other mineral finds in the northern setions of Canada's three prairie province have resulted in new mining towns beir built in the past few years, in the establish ment of new chemical, synthetic textile an paper plants close to oil, natural gas an hydro-electric power resources.

Those strategic postwar minerals, titaniu for jet aircraft and uranium for atomic proects, have also played a part in keepir Canadians busy. A large titanium deposit i Quebec province is well into developmet

lere are the facts:

) Since the inception of Canadian TV in September 1952, inada has experienced proportionately the fastest growth of opulation coverage by TV of any country in the world. Today, e CBC Television Network, including CBC-owned stations d privately-owned affiliates, serves 1,500,000 television homes 25 major market areas from coast to coast.

?) Additional stations will soon be on the air ... in St. John's, wfoundland (CJON-TV) and Barrie, Ontario (CKVR-TV). w stations are scheduled for operation later in the year in nquieres, P.Q., Sherbrooke, P.Q., Charlottetown, P.E.I., ingham, Ontario, and Lethbridge, Alberta.

3) 75% of the Canadian population is now within the servc range of television stations . . . and of this number, 50% ve television sets.

(+) More live television programs are now produced in Cana than in any country other than the United States.

(i) Canada is second in the world in the number of TV stans, and second in the proportion of the public who watch levision.

The CBC welcomes the opportunity to work closely with statuertising agencies and their clients and to cooperate with statem to the fullest possible extent in the effective use of Canaantan network television, and in the creation and production of banadian talent programs, both French and English.

and prospectors are searching for other deposits as rich. At the same time, research departments of hydro-electric power companies in eastern Canada are at work developing new and cheaper methods of refining titanium for use in jet aircraft engines.

Canadian aircraft companies are working on titanium alloys for more powerful jet aircraft engines. Uranium deposits in Saskatchewan, Ontario and the Northwest Territories are being developed. New mines coming into operation require entire new towns such as Uranium City on Lake Athabaska and Manitouwadge in northern Ontario. Tourists in southern Ontario this summer will see new uranium sites being developed not far from resort areas.

In the virgin forests along Canada's Pacific Coast, some 400 miles north of Vancouver by air, the initial stage of one of Canada's largest electric power projects has just been completed. Fifty miles away from an inlet on the coast, where an Indian village was the only sign of habitation five years ago, an aluminum smelter is now producing the light metal with electricity from a new hydro-electric power plant set inside a mountain. At new docks, freighters from the West Indies bring bauxite for the aluminum smelter. The town of Kitimat is growing rapidly, as thousands of workmen and their families settle in this new industrial center

North from Seven Islands on the St. Lawrence River, a diesel-engined train travels for 360 miles into the uninhabited barrens of Labrador and northern Quebec. Five years ago that railway was only an outline on an engineer's drawing board. Late last

MINING is another Canadian industry on the move. This open pit iron ore works is in northwestern Ontario. Its financing is backed principally by capital from the United States.

year it began to function to bring high grade iron ore from vast deposits unearthed only a decade ago. That iron ore is now being used in steel furnaces in the eastern United States and at Great Lake points in both the United States and Canada. To start that project everything from a pencil for the prospector's record book to the bulldozers to carve out the airstrips had to be flown into this uninhabited region.

All these natural resources developments have focused attention on Canada throughout the world. Money from a number of countries in Western Europe, but especially from the United States, is flowing into Canada in increasing amounts for investment new manufacturing plants of all kinds well as in the development of natural sources. Latest government statistics frc Ottawa show that the oil industry has t largest concentration of outside capital, w about 52% of the industry being owned individuals and corporations in the Unit States, Great Britain and Western Europ

Canadian government. An American company which bought a Canadian government wartime airplane corporation is busy with military aircraft orders. A large number of both British and American engineering and contracting firms have in the past few years opened Canadian subsidiaries to take part in major building construction, including the first Canadian rapid-transit subway system at Toronto, opened early last year. The province of Ontario alone has had over 100 new foreign-owned industrial plants built in its area in the past two years.

United States interests, for example, have bought up existing companies and made a major entry into the retail field in Canada in the past few years. They have entered the chain grocery field in eastern Canada in a big way and have come into the department store and mail order business. In every large

Canadian city new stores of these retail organizations are now being built. British retail chain stores have invaded Canada similarly, though on a smaller scale, in the past two years. These are signs of an important market in Canada.

This activity in Canada has resulted in the growth of non-Canadian capital investment from \$7 billion at the end of 1945 to over \$112 billion at the end of 1953, latest year for which official figures are available.

While United States interest in Canadian natural resources development has been growing by leaps and bounds over the past decade, it is only recently that Europe's financiers have turned to Canada with sizable investments. Not since the days before World War I have British and European capitalists flocked to Canada as they are doing today. World-famous British finan-

The tremendous post-war growth of industrial Canada, so well measured by economists, sociologists and historians, is matched by the music coming from the minds and hearts of the people of Canada.

Yes, There Is Canadian Music!

... and it is the music that Canadians want to hear on Canadian radio and television programs.

By encouraging and stimulating the efforts of Canadian composers of both popular and concert music, BMI CANADA LIMITED and BROADCAST MUSIC, INC. are making it possible for Canadian music to be published, recorded and performed, not only in Canada but throughout the world.

Written and composed by Canadians, published in Canada by Canadian publishers, this music should become the first choice of those advertisers and program producers who want their programs to find the widest possible favor with Canadians.

Netherlands banking and surance interests have formed Canadian ; sidiaries to enter the Canadian market w has seen an influx of a minimum of 10. Hollanders annually over nearly a deci German steel interests are looking into i ore mining developments in northern (bec. Belgian capital has come in a big i into the gasoline distribution industry financial field. European shipping lines now running direct services to the inl Canadian ports on the Great Lakes.

Foreign trade has always been an imr tant factor in the Canadian economy. 0 it was primarily furs; later, mainly agric tural products which Canada exported. N the exports run all the way from wheat cobalt bombs for cancer research, fr wood pulp to automobiles, from iron ore glass ovenware. Imports vary from ma factured goods from the United States Western Europe to raw materials from parts of the world.

As the population has increased in recu years the percentage of exports of goods a services has declined in relation to the gn national product. In the late 20's about 30 of the gross national product was export In recent years only 24% has had to exported. Yet exports are almost up to t peace-time record. Last year Canada (ported goods and services valued at Si billion, of which \$2.3 billion went to t United States, \$652 million to Great Brita \$96 million to Japan, \$95 million to H land, Belgium and Luxembourg, \$45 milli to Brazil, \$48 million to Australia, \$87 m lion to West Germany and \$542 million all other countries.

Canadian imports last year from all t world amounted to \$4 billion, with almo \$3 billion coming from the United State \$400 million from Great Britain, \$167 m lion from Venezuela, \$44 million from We Germany, \$47 million from Holland, B gium and Luxembourg, \$28 million fro India, \$32 million from Brazil, and \$4% million from all other countries.

All this foreign trade keeps Canadia busy at home and abroad. Canada has it tablished a chain of embassies, legations and trade commissioner posts around the glo in the postwar years. Canada drums trade by exhibiting its merchandise and rematerials at trade fairs throughout the work While the bulk of the trade is between Cal ada and the United States, Canadians a hard at work increasing their buying all selling with all countries of all continent Canada stands fourth among the nations the world in foreign trade, following t United States, Great Britain and Weste Germany.

While space precludes a detailed repo on how busy Canadians are in the smalle as well as the largest communities, figur from the official Dominion Bureau of St tistics at Ottawa show the tempo of activit Canadians are earning more money th ever before. Average weekly earnings a now just under \$60, up from an average \$55 in 1952. Last year personal incor

BROADCASTING . TELECASTI

m wages, salaries and all other sources s estimated at almost \$19 billion. That owne is being spent. Last year total exditures on durable goods, non-durable ods and services amounted to about \$16 ion, of which just over \$12 billion was ne in retail stores of all kinds. The balwe went into direct taxes and savings.

Co Canadians the future looks bright. No an authority than James E. Coyne, govor of the Bank of Canada, the central fada's gross national product would douin the next 20 years to \$55 billion, at thay's prices. He also estimated that by 145 Canada's population would increase wher 50% to 23 million, mostly in urban a as, and that the work year would graduad drop in that period from the present abo hours to 1,500 hours. He forecast a i wing consumption within Canada of its un agricultural and other natural products, "c "eater development of secondary industry, a greater share by Canadians in the magement of major industries, many of which are now owned by non-residents. He 's ;led out the continued development of unmunications in Canada, the knitting topaer of the widely separated centers of prulation by trade as well as by railroads, how ways and radio and television networks Pusigns of Canada's growing national ^ahangth.

¹⁰ stadio is everywhere in Canada, in the in the home and in the far reaches of the in the where the defense airplane spotter in the North Polar regions. In all, 96.4% of all characteristic where in Canada have one or more radio characteristic spotter in use.

ada, now covers better than 75% of the ada, now covers better than 75% of the social tion. In mining towns and at defense these in the far north, television stations are use being built for isolated communities.
when every part of Canada will be covered if the as well as by radio. Currently there approximately 1.5 million to receivers in in Canada.

Development of radio and television in hada has not been on as extensive a scale n the United States, primarily because of is smaller population and the large disraces between communities. Radio broadting began in 1921, although there were tions broadcasting non - commercially i ne years earlier at Montreal and Toronto. lay there are 155 independently-owned tions, most of them members of the hadian Assn. of Radio & Television upadcasters, and 21 stations owned and merated by the Canadian Broadcasting rp., a government organization. To give ter coverage in small areas isolated by ysical and geographic obstacles the CBC stem also operates a number of small "wh-attended repeater stations in various borts of the country.

Under broadcasting legislation, CBC opites and regulates all network broadcasting l telecasting in Canada. Almost all stans, both independent and CBC-owned, time. CBC carries numerous sustaining ltural programs on its own stations and ds them to the networks composed of IC and independent stations. For this IC receives a government grant and revee from the national treasury representing

a 15% excise tax on all sales of radio and tv receivers and components.

Practically all radio and tv receivers as well as transmitters are built in Canada, mainly by subsidiaries of U. S. and British companies. This is typical of the development of most industries in Canada. Most components and tubes also are made in Canada, and the electronics industry also supplies military and industrial electronic equipment of all kinds. Prices of radio and tv receivers and components are somewhat higher than in the United States, due to a protective tariff, the 15% excise tax for maintenance of the CBC and a 10% sales tax on the factory price.

Radio receiver sales in 1954 amounted to 431,456 sets with a factory valuation of \$32,012,071. In the first four months of 1955 sales totalled 131,693 sets at \$10,392,856.

Television receiver sales in 1954 were the highest on record, totalling 619,428 sets at \$214,951,315. In the first four months of 1955 new records were established every month, with total sales of 197,183 sets at \$60,754,034.

There are at this date 28 tv stations in operation across Canada, six stations under construction for opening later this year and four applications for new stations. Of the stations now in operation, eight are owned and operated by CBC, which also maintains national program studios at Toronto and Montreal. The Canadian government at present has a policy of permitting only one station in any one city until such time as every part of Canada is covered with tv

All-Canada provides the best . . . the most effective Radio-TV Advertising Service in Canada.

HERE'S WHY

- All-Canada represents 30 key radio stations—(a combined coverage of 5,112,070 radio homes).
- All-Canada represents 16 strategic Canadian television stations—(a combined coverage of 723,470 TV homes).
- All-Canada Programs distribute the finest packaged radio and television shows in Canada.
- All-Canada offers fast, authoritative coverage data and Canadian market information as a service to all clients.

They got my last scent!^{*}

Nobody, advertising to consumers, should place all their resources in one medium alone—nor believe that anything has taken the place of radio as a powerful, profitable medium. Remember—radio is the most economical mass medium available; it reaches more people more of the time than any other medium... it reaches people when they are eating, working, playing, relaxing, driving, retiring, rising, reading a book—or, yes sir, even standing on their heads. Radio does it ... what else can?

In Montreal, one of Canada's biggest and most profitable markets, your advertising can be most effective with CFCF-RADIO. Our staff is lively, imaginative, and happy here. We do great work because of it. In this huge market, CFCF-RA-DIO enjoys both MASS and CLASS audience. Your advertising will pay off sales-wise because of it. Now, how about it? CFCF-RADIO is represented by All-Canada in Canada, and Weed in the U.S.A.

* Any similarity between characters as portrayed in this ad and actual advertisers, living or dead, is purely coincidental.

NEW SYMBOL of urbanization. Toronto's traffic pains, like others of Canada's large cities, are on the increase This 4½-mile, \$50 million rapid transit system was constructed to help relieve the problem.

stations. This goal has almost been reached and a change in government policy is looked for at an early date. Most Canadian tv stations begin their telecasting day in the early afternoon. Only two cities in Canada now have two stations, Montreal and Ottawa, where the CBC maintains individual stations for the English and French language groups.

Canada is a bilingual country, with two official languages, English and French. This poses an important problem in merchandising. Bulk of the French-language population is located in the province of Quebec. There is in addition a large block of Englishspeaking Canadians living in the city of Montreal. There are also French-language groups spread throughout Canada, mainly in New Brunswick, northern Ontario, Manitoba, Saskatchewan and Alberta. All these island French-language groups have their own radio stations, broadcasting in French, a development of the postwar years. They are tied together in a French-language network with the stations in Quebec province.

The French-Canadian market differs considerably from the English-language market. Advertising messages which are effective in the English-language areas have to be changed to comply with the customs and thinking of the French-language groups. It is not enough just to translate the message into French, for in addition to differences in culture French-Canadian French has evolved its own idioms which differ considerably from French as it is spoken in France. Canadian advertisers have learned by experience to use French-Canadians brought up in Quebec province to translate their advertising into the idiom of Frenchspeaking Canada.

This same thought, it is interesting to note, applies in some degree to English-speaking Canadians. It is not sufficient to use the same advertising message which sells in the United States or Great Britain and expect similar results in Canada. The Canadian differs to some degree from his cousins south of the international border and across the Atlantic. He can best be approached when addressed in his own idiom, as many international advertisers have found out over the years. Which explains in part why so mailarge United States and British advertisit agencies have in recent years opened brand offices in Canada to service their account

Radio and television advertising contin to gain in percentage of total advertising Canada. A report from the Dominion B reau of Statistics, Ottawa, for 1953, late available, shows that 88 advertising agenci in Canada that year placed about \$28 m lion in radio-tv national billings. This w 18.7% of total national advertising in a Canadian media, and was up 1.1% over tj previous year.

There are no official figures on total radia tv advertising in Canada, but a guarded e timate by CARTB places the total last yes of both local and national radio and tv ad vertising at about \$46 million.

MONTREAL

LARGEST Canadian city in population Montreal, with about 1,455,000 people Montreal is the second largest French ! speaking city in the world. The populatio is divided roughly two-third French-speal ing and one-third English-speaking. Radi and television stations in the city are pro grammed accordingly. For the Frenct speaking section there are radio station CBF, owned and operated by the Canadia Broadcasting Corp.; CKAC, one of the old est stations in Canada, founded in 1921. CHLP and CJMS, along with CBFT for tele vision. The English-speaking population has CFCF, which claims the record of being Canada's oldest station, having started op erations in 1919; CBM, owned by the CBO and CBMT for television. Using part Eng lish and part French programming ar CJAD and CKVL, the latter in suburbal Verdun.

Montreal is the world's largest inland poucity, though almost 1,000 miles inland from the Atlantic Ocean. Located on the St. Law rence River, it is the terminus of a vast in land waterways system and headquarters o Canada's two transcontinental railways. is highly industrialized with a variety of in dustries from oil refineries to railway loco motive shops, and the center of the Cana dian garment trade. Montreal and Toront

IN CANADA'S THIRD MARKET **B.C.RADIO** DELIVERS THE CUSTOMERS!

B. C.'s fabulous post-war growth has created a king-size. big-buying market of over 1½ million people—people with a net-buying income 21% greater than the Canadian average.

You cover this rich, responsive market completely when you schedule B.C. radio. 584,000* sets in use now beam your message morning, noon or night into every corner of the province. No other medium gives you such constant, hard-hitting impact ... such outstanding value for your advertising dollars.

British Columbians are radio listeners . . . with money to spend! Small wonder more national advertisers are using more B.C. radio than ever.

divide about equally on being the finan centers of Canada, each having head-oil of five national banks.

In the postwar decade Montreal grown from a city of 903,000 to its pres 1,455,000. It has absorbed about a qua of the immigrants who have come to Can since the termination of World War II. has spread out with new suburban commuties in all directions. Annual building 1 mits have increased from \$21,936,000 1945 to \$205,801,000 in 1954. Retail sa in 1953 were estimated at \$1,350,000,0 Average weekly earnings have increa from \$32.20 in 1945 to \$58.39 in Mai 1955.

TORONTO

SECOND largest city in population, but la est in area, is Toronto on the north shore Lake Ontario. Toronto is the center of C. ada's mining industry, major financing which is done from Bay Street offices. T ronto has a stock exchange which off records more daily transactions than t New York Stock Exchange. The city the largest industrial center in Canada, w industries varying from jet engines and military fighters to breweries.

Many United States and British co panies have their branch plants in Toror and its suburbs, including the vast Canadi Ford and General Motors assembly plan It is the biggest port on the Canadian side the Great Lakes and last year handled 4,9 ships incoming and outgoing, not only fro other Canadian and United States ports, b also from western Europe, South Ameri and the Mediterranean area.

Toronto's population is predominan Anglo-Saxon, but in the postwar years abo 300,000 immigrants from western Euro and Great Britain have given the city a mo cosmopolitan flavor. Toronto is the hub a vast tourist area northward into the 0 tario lake districts. It has the largest numb of American visitors annually, based t motor counts as well as conventions.

Ten years ago Toronto's population w 670,000. Today the population is approxmately 1,200,000. Building permits in d metropolitan Toronto area, which stretch 240 square miles, have jumped from tl 1945 figure of \$11,520,000 to \$336,799,00 last year. Retail sales for 1953 were approimately \$1,450,000,000. Average week earnings have increased from \$32.66 in 19to \$63.60 early this year.

Toronto is served by radio stations CFRI CKEY, CHUM, CKFH, CJBC and CBI the latter two owned and operated by th CBC. Television stations is CBLT (TV).

VANCOUVER

ON THE Pacific Coast, with a backgroun of snowcapped mountains, is Vancouve Canada's third largest city and one of the world's largest ocean seaports. Vancouves population of 577,000 is double that of decade ago. In the immediate postwar yea the trek from all over Canada was towa Vancouver, and the suburban developme attests to this. Building permits in the 1 year postwar period have jumped fro

Vaner's largely English-speaking populawith some Oriental-language groups, in bought mcrchandise and services valat roughly \$500,000,000. Average dy earnings have jumped from \$33.58
45 to \$62.30 this year.

the past ten years Vancouver has becore much more industrialized and today ts industries include oil refineries, steel mi, sawmills, canneries, breweries, autone ve assembly factories, petrochemical wats and numerous light manufacturing nestries. Vancouver is becoming a major mion center, with airlines operating from t it only to all parts of North and South Matrica, but also to Asia and Australasia.

WINNIPEG

transportation hub of central Canada, in tity of Winnipeg is now fourth largest ir n center, with a population of 373,000. this grown from 222,000 at the end of Mild War II. Little more than 80 years it was just a fur trading post. While ly a rail and air transportation center re World War II, it is today a thriving istrial city.

Acce Winnipeg's population depended on crops from western provinces moving ard to the Great Lakes ports and across ocean to Europe, while manufactured s came westward from eastern Canada. by, manufacturing includes a huge garindustry, oil pipeline facilities, electriqappliances, transportation equipment, industries and paper products.

Minnipeg is served by one tv station, VT (TV), and its radio affiliate CBW, owned by CBC, as well as radio sta-CKRC, CKY, CJOB, and by CKSB, s s the Red River in the French-speaking hoboring city of St. Boniface.

Hinnipeg residents in 1953 spent about MI,000,000 on merchandise and service, wording to the latest retail sales estimates. Thing power of Winnipeg workers has intr sed from a weekly average of \$29.60 in 1955 to \$54.79 early this year. Building commits reflect city growth, both industrial Ar residential, increasing from \$7,824,000 m 945 to \$67,879,000 last year.

OTTAWA

¹C NADA's capital city of Ottawa, with a lation of almost 300,000, is about twice is as it was during the peak of World II. Canada's growing importance in d affairs is reflected in the growth of city, which has few industries and is nly a civil service center. Neighboring l, across the Ottawa River in Quebec vince, with a population of 46,000, has eased by only 13,000 in the same period. Itawa's industries are in the main tied in the lumbering business, for which the is ideally located at the junction of the twa and Rideau rivers. Lumber comes 'n the rivers to pulp mills in Hull. In Ottawa there is considerable paper and wood products business, printing, food and beverage business. Retail stores cater not only to a large population, both English and Frenchspeaking, working for the government and industry, but also to a growing diplomatic corps, which has expanded rapidly in the postwar period.

Ottawa retail sales for 1953 are estimated at roughly \$235,000,000 and for Hull at \$35,000,000. Building permits in the Ottawa-Hull area in 1945 amounted to \$3,012,000 and last year to \$65,692,000. Average weekly earnings were \$29.33 in 1945 and early this year were \$55.69.

Ottawa area is served by two tv stations owned by the CBC, CBOT (TV) for the English-speaking population and CBOFT (TV) for the French-language group. CBC operates radio station CBO; independent stations in Ottawa are CKOY and CFRA. In Hull there is a French-language station, CKCH.

QUEBEC CITY

NEXT to Montreal, largest French-speaking city in Canada, is Quebec City, capital of Quebec Province. In Canada's sixth largest city practically all 294,000 inhabitants speak French, though a small proportion are Anglo-Saxon. The population has almost doubled in the postwar decade. The Quebec flag, with the French fleur-de-lis, is seen everywhere. Historic sites, narrow streets and a magnificant location on the heights overlooking the mile-wide St. Lawrence River, have made the city a major tourist attraction, and tourism is its main business.

Quebec City in the past few years has been attracting numerous industries. It is

In the Eastern Maritimes, airways, railways and highways all lead to Moncton—one of Canada's most bustling cities.

But it's the CKCW-TV airways which lead to sure sales in this \$263 million market.

Read the post-war record lately? Moncton — fastest growing in Canada's four Atlantic provinces. Moncton—where thousands of people tote up annual retail sales to \$224 million and where CKCW-TV is the only television station serving the greater part of this market. Exclusively.

If you want exclusive viewers exclusive buyers—put CKCW. TV on the schedule. And if you want loyal listeners—loyal for two decades—add in CKCW RA-DIO. For the facts fast, its Stovin in Canada and Adam Young in the U.S.

VANCOUVER, British Columbia. On Canada's Pacific Coast, it is an industrial seaport for world trade, and is the dominion's third largest city. Honors as an air transportation center are being added to the seafaring reputation it already boasts.

an important shipping center for lumber and grains. The iron ore development in northern Quebec is expected to further push industrialization of the city, with plans for steel industries. Paper production is one of the largest industries.

Quebec's retail stores in 1953 did some \$200,000,000 in business. Building permits in 1945 amounted to \$4,356,000 and last year \$31,143,000. Average weekly earnings were \$49.47 early this year as against \$28.83 in 1945. Quebec has one tv station, CFCM-TV, in which radio station CHRC has a financial interest. Other radio stations serving Quebec are CBV, owned by CBC, CJQC and CKCV.

HAMILTON

THE steel center of Canada is Hamilton, 40 miles west of Toronto on Lake Ontario, with a population of about 278,000. This is up almost 100,000 in the past decade, with many new Canadians settling there in the postwar period. In addition to steel, Hamilton is an important electrical appliance manufacturing center, has automotive parts plants, chemical plants and is a center for the tobacco and fruit crops raised in nearby areas of southern Ontario.

Hamilton, like other Canadian cities, has had a major building boom, not yet finished with industrial expansion of steel mills now underway. Building permits which in 1945 amounted to \$5,556,000, last year totalled \$54,164,000. Average weekly wages in 1945 were \$32.89; early this year they were \$63.79. Retail sales in 1953 were estimated at about \$258,000,000.

Hamilton is served by one tv station, CHCH-TV, jointly owned by the city's radio stations CKOC, CHML and the former CJSH-FM.

EDMONTON

THE oil boom which started in 1947 at Leduc, near Edmonton, resulted in a phenomenal development for that city, most northern large city in Canada. Edmonton is located some 350 miles north of the intetional border, now has a population of at 200,000 as compared to about 95,000 years ago. Large new office buildings hotels attest to the oil industry's grow while petrochemical plants, oil refineries pipelines have become the major indust Edmonton is also the air gateway to northern goldfields, uranium mines and vast new mineral developments in the s Arctic. Edmonton is used by internati airlines on routes to the Orient and Alas

Edmonton's population in 1953 sp about \$195,000,000 in retail stores and 1 services. Building permits have jum from \$7,992,000 in 1945 to \$70,052,0 last year.

Edmonton has one television stat CFRN-TV. Radio receivers are tuned CJCA, which began operations in 19 CFRN, CBX, CHED, French-language t tion CHFA and educational station CKL1 WINDSOR

OPPOSITE Detroit and, interestin enough, south of that city, is the Canad city of Windsor, population about 173,0

BROADCASTING . TELECASTI

cause of its location, Windsor is chiefly automotive city, with main Ford and sler factories located there. Numerous omotive parts manufacturers are also at ndsor, along with breweries and distilies. As a border city, many of Windsor's zens take the bridges, tunnels and ferries ly to Detroit to work there, and there is similar stream of Detroit residents who and the stream of Windsor.

Retail sales in Windsor in 1953 were but \$147,000,000. The population has inased from about 110,000 in 1945, and struction has been mainly of an indusl nature, with building permits for all es of construction amounting to \$28,-5,000, last year as compared to \$1,956,ten years ago. Average wages have reased from \$40.39 in 1945 to \$70.26 ly this year.

KLW-AM-TV is the main station in dsor, with CBC operating radio station E. Proximity to United States gives dsor residents a larger choice of tv stats than is found in any other Canadian .

CALGARY

TE city best known for its annual rodeo, Calgary Stampede, is Canada's tenth gest market. Calgary has long been an portant oil center and is the market for thern Alberta's vast agricultural and ck-raising district. Its industries include t-packing and light manufacturing. Resales in 1953 were roughly \$180,000,b. Building permits in the city, whose ulation has grown from 90,000 in 1945 152,000 today, have jumped from \$7,-4,000 ten years ago to \$47,017,000 last tr.

Calgary has one television station, CHCT-, owned by the city's three radio stans, CFCN, CFAC and CKXL.

MINING MARKETS

INING being a major industry in Canada, number of small cities have grown up in past 30 years about the gold, copper and se metal mines. Typical are Timmins, rkland Lake, Sudbury and Trail, the first ree in northern Ontario, the latter in Brit-) Columbia. Timmins and Kirkland Lake re built mainly about gold mines. Copper d other base metals have been developed some extent since. Kirkland Lake has a pulation of about 16,700 and Timmins out 27,200. Radio station CKGB serves mmins, CJKL Kirkland Lake. Because the metal content of the area radio reption is not good from the outside.

Sudbury is primarily a nickel producing y, having the world's richest nickel mines. s roughly 50,000 people spring from a puriety of east European language groups ind in recent years large French-speaking oups have moved into the region. To serve be French-speaking population, radio staon CHNO began operations in 1947. Other nuage groups are served by CKSO-AM-V, the first independently-owned tv station go on the air in Canada in 1953.

Trail is located in the Rocky Mountains and produces a wide variety of minerals ina uding lead, zinc, silver and as by-products

chemical fertilizers. Its sprawling mines and refineries keep almost 4,000 households going, with a total population of close to 12,500. Retail sales last year amounted to about \$16,600,000. CJAT serves Trail and its environs.

RAILWAY MARKETS

IN ADDITION to the major eities which serve as railway traffic centers, a number of Canadian cities are mainly railway cities. Typical are Moncton, New Brunswick, and North Bay, Ont.

Moncton is the chief distribution point for railways in the Canadian Atlantic Coast provinces. In recent years it has also become an important industrial center, mainly for light manufacturing. Its 29,000 people spent some \$48,000,000 in retail sales in 1953. The city is noted for its annual music festival. Radio and television are supplied by CKCW-AM-TV.

Similarly, North Bay in northern Ontario acts as a rail distribution center for traffic in all four directions. Prospecting for uranium and other strategic minerals in the area in the past few years has brought mining as another possible major industry. Some light manufacturing and assembly industries have begun operations in this city of 20,000, which is served by radio station CFCH and will soon have a television station in operation, for which a recommendation was made by the CBC board of governors in June. To tourists. North Bay is best known as the home of the Dionne quintuplets who were born in suburban Callander.

OANADIAN STATION REPRESENTATIVES, LTD.

affiliated with Adam J. Young, Jr., Inc.

477 Madison Avenue • New York 22, N. Y.

Mr. Vincent Sillitta, Traffic Manager of Clarostat Mfg. Co., Inc., discloses

"How this guided missile gets there on time!"

"....5, 4, 3, 2, 1, fire ... and a Clarostat product helps head the missile for an 'enemy' bomber!

"But before its deadly rendezvous, that tiny part of the missile's 'brain,' a Clarostar resistor, had to keep another vital appointment – with the Guided Missile production schedule. "That date was kept by Air Express!

"We ship up to 15,000 pounds of Clarostat Resistors per month by Air Express. Their sizes range from the one mentioned above-finer than a human hair-to shipments weighing one hundred pounds and more.

"With Air Express help, we can meet extremely exacting delivery specifications. Yet most shipments cost *less* than by any other air service. A 25 lb. shipment from Boston to Toledo, for instance, costs \$6.45. That's 5¢ *less* than the next lowest air carrier—and the service can't be compared?" It pays to express yourself clearly. Say Air Express!

U. S.-MEXICO TALKS START IN CAPITAL

Conference to iron out radio spectrum problems gets underway in Washington.

U. S.-MEXICAN conference to establish a treaty on the use of radio frequencies got off to an amicable start last week in Washington, when the renewed talks (they began last winter in Mexico City) buckled down to specifics.

One American conferee reported that he was "optimistic." That means, he explained, that there was a 50-50 chance of success. He said that by tomorrow or Wednesday, it would be

apparent whether there was going to be a treaty. Primary issue involves the secondary use of North American Class I-A channels. Also among other issues was the category in which

the relatively new 540 kc band should be placed. The U.S. delegation was again headed by FCC Comr. Rosel H. Hyde, with John C. Cross, State Dept., as vice chairman.

The Mexican delegation is headed by Carlos Nunez, chief, international affairs dept., Ministry of Communications & Public Works, with Lazaro Barajas, chief, technical dept., Ministry, vice chairman.

& Welfare, is returning to Houston Aug. become president of the Houston Post (K) AM-FM-TV). She had confided to fr some time ago [CLOSED CIRCUIT, May 23] she expected to resign from the Cabinet a insistence of her husband, former Gov-liam P. Hobby of Texas, who is seriously

President Eisenhower called a special conference Wednesday morning to anno her resignation. "Oveta, this is a sad day, said, recalling their first meeting in Londe 1942 when Mrs. Hobby was head of Won Army Corps. He quoted a comment by retary of the Treasury Humphrey, terming "the best man in the Cabinet."

The President praised her "calm confid" in the face of every kind of difficulty." had planned to resign earlier but refuse act while under political fire in connec with the polio vaccine controversy.

Been in 31 Months

Mrs. Hobby, 50, had been in the Cal 31 months. A native of Kileen, Tex., she i to work for the Post, marrying Gov. Ho publisher, in 1931. She is a conserve Democrat, and supported the Eisenhower (paign in 1952 when Texas went Republi Gov. Hobby, 77, who has been in ill he for some time, becomes chairman of board of the Post.

The President said he was nomina Marion B. Folsom, Undersecretary of Treasury, to succeed Mrs. Hobby in Cabinet. Mr. Folsom is a former treasure Eastman Kodak Co. He joined the Admi tration in 1953.

WCAX Public Affairs Head Admits to Former Red Ties

THE public affairs director of WCAX-AM-Burlington, Vt., testified last week before Senate Internal Security subcommittee that had been a Communist Party member several months" in 1937.

Charles S. Lewis, appearing voluntarily, the Senate unit that he had been recruited i the Communist Party when he worked for now defunct Brooklyn Eagle.

He quit after he had been ordered to "fing a non-striking fellow Brooklyn Eagle empl for a beating.

Mr. Lewis was one of those mentioned CP members by CBS newsman Winston Burdette last month to the Senate secu group [B•T, July 11].

WCAX President C. P. Hasbrook stated, lowing last Wednesday's appearance by Lewis, that he was reserving judgment until could read the full transcript. He said that Lewis had told him the same story when, name was first mentioned by Mr. Burdette

Security Charges Preferred

Mr. Lewis was rigorously questioned ab his work as chief of the radio control bra (RIAS), Office of Military Government American-occupied Germany after World \ II. He said he resigned from government st ice in 1952 after being informed that secu charges had been preferred against him.

Among a dozen newsmen called by the s committee, most of whom had been named Mr. Burdette, was Hans Bruno Meyer, a U correspondent for several German radio tions. Mr. Meyer had worked with Mr. Le in Germany. He was described as a nept of the late Albert Einstein.

GOING PLACES underground with Cities Service...

Cities Service transported more oil through more miles of pipeline in 1954 than ever before in Company history. Reason for this bustling underground activity—more Cities Service customers than ever before in Company history!

WSPA-TV Transmitter Move Hearing Reopened by FCC

RECORD was reopened last week in the FCC hearing on the move of ch. 7 WSPA-TV Spartanburg, S. C., transmitter from Hogback Mt. to Paris Mt. The move is under protest by WAIM-TV Anderson and WGVL (TV) Greenville, S. C., both uhf stations.

On the stand were Walter Brown, president of the Spartanburg tv station, Andrew Ring, WSPA-TV's consulting engineer, and Herbert V. Akerberg, CBS vice president in charge of stations relations.

Mr. Akerberg, under cross examination, told how Mr. Brown sought a CBS affiliation when WSPA-TV was first granted. Since the signal from Hogback Mt. would "look down" into Charlotte—its Grade A contour was almost into the North Carolina city. Mr. Akerberg said—CBS refused to affiliate. This was, Mr. Akerberg explained, because CBS already had a basic affiliation with WBTV (TV) Charlotte. When Mr. Brown reported later that WSPA-TV would move to Paris Mt. CBS agreed to affiliate, Mr. Akerberg said. He declared that it was his understanding that the Paris Mt. site was the permanent site for WSPA-TV.

The Anderson and Greenville stations protested the move of the Spartanburg station's transmitter to Paris Mt. on the ground that it conflicted with the table of allocations—making WSPA-TV a Spartanburg-Greenville station.

Hogback Mt. is 26 miles from Spartanburg, 23 miles from Greenville and 52 miles from

Anderson. Paris Mt. is 27 miles from Spartanburg, 5 miles from Greenville and 34 miles from Anderson. Both are in Greenville County. From Hogback Mt., WSPA-TV would have had city service in Spartanburg, Greenville and Anderson. WSPA-TV maintained, just as it will from Paris Mt.

The protesting stations also charged that WSPA-TV's first move to begin operation temporarily from Paris Mt. was part of a plan to make Paris Mt. the permanent WSPA-TV site.

The case has seesawed between the FCC and the courts. The present hearing was court-ordered last spring [B•T, March 28].

Unions Accused of Financing Radio-Tv Political Campaign

OFFICIALS of the United Automobile, Aircraft & Agricultural Implement Workers of America (CIO) have been subpoenaed by a federal grand jury investigating, at Dept. of Justice instigation, charges of violating federal laws in financing radio-tv broadcasts during political campaigns.

Union records have been subpoenaed in connection with the Michigan senatorial campaign in 1954 and 1955. The grand jury will decide if the union should face trial for support given political candidates, particularly in connection with radio-tv broadcasts by Guy Nunn, commentator. Laws involved are the Corrupt Practices Act and Taft-Hartley Act.

A publicity release from UAW charges the investigation "was inspired and engineered" by John Feikens, Republican political leader, and Arthur E. Summerfield, Postmaster Gen The union contends no money from its ger fund is used to support candidates, adding any contributions have been made from vo tary contributions by CIO-UAW members. radio-tv programs are described as enabling union "to communicate with its members the general public and to stimulate a be understanding of union issues and matter public policy and to encourage greater par pation in citizenship responsibilities."

FCC Threatens to Revoke KSDA License for Non-Filin

FOR FAILURE to file ownership reports, 1 months overdue, the FCC last week orde KSDA Redding, Calif., to show why its lice should not be revoked.

A license was granted the station Sept. 1954. No word has been received from station since, the FCC said. The rules s that ownership reports are to be filed 30 d after a station receives a permit. The Cu mission sent forms to KSDA Nov. 24, 15 and follow up requests were made in Janua March and April, the FCC order showed.

In addition, discrepancies in the owners reports filed by KSDA in June 1954 still h not been cleared, the FCC reported. These ter reports were due 30 days after the origi grant in February, according to the FCC.

Rowland H. Dow is president of KSDA (: w on 1400 kc), which has 30 days to re to the Commission's order.

PRESTO PROUDLY PRESENTS

irouette a triumph of new design... the world's finest hi-fi turntable for professional and home use

opping the achievement reached by all previous PRESTO turnables is the new PIROUETTE T-18. This magnificent mechanism s streamlined to the nth degree ... inside and out. Its beauty nd balance of design ... its brilliant performance ... has inpired the name PIROUETTE ... winning entry in a nationwide RESTO contest run for hi-fi fans and experts. There is no finer hoice than PIROUETTE T-18 for rugged professional use or tome enjoyment.

PIROUETTE has all the revolutionary PRESTO developments

THE

in turntable design. The famous flick shift that selects 3 speeds with a simple sideway motion of the single control lever. The single movable plate on which the 3 idlers are mounted is the heart of the mechanism! Elimination of trouble-making arms and shift cams. All in a heavy weight turntable that looks unbelievably light and graceful... in sleek telephone black and brushed chrome finish. Mounting requires simple rectangular cut-out.

T-18

Commission Gives Approval To Five New Am Operations

FIVE AM stations were granted construction permits by the FCC last Thursday.

In Rusk, Tex., E. H. Whitehead, a local weekly and monthly newspaper publisher, was granted 1580 kc. 500 watts to operate on a daytime-only basis. Thomas F. Alford and F. E. Barr. doing

Thomas F. Alford and F. E. Barr. doing business as the Carthage (Tex.) Broadcasting Co., were granted permission to operate a station there on 1590 kc, 1 kw day.

St. Joseph, Mo., is the site of a new am on 1270 kc, 1 kw day licensed to Broadcast Group Inc. whose principals include J. D. Spears, Peter T. Scott, and Kenneth E. Bigus.

Leo Joseph Theriot was granted a station

for Golden Meadow, La., to operate on 1600 kc with 500 watts day.

A station to operate in Klamath Falls, Ore., was granted C. E. Wilson, P. D. Jackson and W. H. Hansen doing business as K-Lad Broadcasters. The station is to operate on 900 kc, 1 kw day. All K-Lad principals are associated in ownership of KBOY Medford, Ore.

FCC Hearing Issue: Can City Support Second Am Station

THE ECONOMIC potential of a market to support more than one am station became a major issue last week when the FCC postponed the grant of a new am station pending a hearing on a protest.

WKYV Harlan, Ky., had its grant postponed

From their farms alone, each Kansas farm family wound up the year with \$8,830 in the bank—after taxes! That's 52% above the national average!*

What's more, WIBW delivers this entire market—all tied up in a single package. Year in and year out, every Whan survey consistently shows that these big-income farmers listen **more** to WIBW than any other radio station.

We've got the listeners. They've got the cash. Give us the word and we'll give you the sales.

* Consumer Markets, 1955.

TOPEKA, KANSAS

Ben Ludy, Gen. Mgr. WIBW & WIBW-TV in Topeka KCKN in Kansas City Rep: Capper Publications, Inc. until a full hearing can be held at whi WHLN there is to produce evidence to she the Harlan market lacks economic resourc to sustain two stations.

To support its stand WHLN, owned by ti Blanfox Radio Co., said that "even with ec nomical operation" it has been operating at loss since 1953, including the first quarter 1955.

A grant was made last May without a hearin to Ky-Va. Broadcasting Corp. (WKYV) ft 1410 kc, t kw day. On the same day, WHL was granted a change in facilities from 12 kc, 250 w, to \pm 280 kc, 1 kw day.

WKYV disputed the charge that Harlan car support two stations.

The hearing is to determine if WKYV financially qualified and if the Harlan mark will provide sufficient revenues to the propose station to permit it to adequately serve th public. Also up for determination is whethe the advertising potential is so slight that both stations, the existing one and the propose would go under or force them to provide in adequate service.

Washington Stations Protest Wolfson Refusal of Radio-Tv

REFUSAL of Louis E. Wolfson, financier an chairman of the board of Capital Transit Co Washington, to permit telecasting of his at pearance before a Senate subcommittee dre protests last week from local stations. Sen. P. McNamara (D-Mich.) had said he did not of ject to radio-tv coverage but the witness, whos trolleys and buses were idle because of a strike wouldn't allow pickups. He answered radio-t questions outside the Capitol after completin his testimony.

Protests were made by John S. Haye WTOP-AM-TV president; Leslie G. Arries Jr WTIG (TV) Washington general manager, and William Costello, president of the Radio-Tele vision Correspondents Assn.

WTRI (TV) Transfer Sought

REQUEST was filed last week with the FC⁶ to transfer control of the now defunct ch. 3 WTR1 (TV) Albany, N.Y., from Troy Broad casting Co. (WTRY Troy, N. Y.) to the Na tional City Bank of Troy as trustee for th individual stockholders of Troy Broadcastin Co. Col. Harry Wilder is principal stockholde of Troy Broadcasting Co., which owns 50% of WTRI. The other 50% of the suspende Albany tv station is owned by Stanley-Warne Theatres Inc.

WTRI is fighting the acquisition of ch. 4 WROW-TV (and WROW) Albany by Lowel Thomas and associates. It has also urged tha the Commission establish the Albany-Schenec tady-Troy area as an all-uhf market by remov ing ch. 6 (WRGB [TV] Schenectady), and i opposing the request of WROW to allocate ch 10 to the Albany area (Vails Mills, N. Y.)

Unlock Educational Vhf?

REQUEST to remove the educational reservation from ch. 3 College Station, Tex., was mad July 8 to the FCC by John M. Lawrence III representing a group of local businessmen. If place of ch. 3, the petition suggests the educational reservation be applied to either chs. 4 or 51, already allocated there. No application are pending for any of College Station's frequencies.

Four miles wide and a mile deep... and it belongs to you!

For sheer impact, the Grand Canyon of the Colorado River is a spectacle unmatched in all the world – a titanic gash in the earth's surface four to eighteen miles wide and a mile deep, in which the Empire State Building would be reduced to insignificance. It's a strange land of violent color, where spring flowers bloom down in the canyon while February snows cover the rim. As a national park it belongs to you.

Carved by the waters of the Colorado, the Canyon presents in its rock strata the world's finest record of geologic time. In its task, the mighty, muddy river carries half a million tons of silt a day past any given point – enough material to fill 10,000 freight cars. Small wonder that its waters have been described as "too thick to drink and too thin to plow."

The size, the color, the silence of the Canyon produce a wide range of reactions. Some viewers are exalted... some, humbled...some, mystified...some, frightened. But the Colorado just keeps on with the job. Typically American in spirit, it may get boisterous and rambunctious at times...but its handiwork is the wonder of the world.

Two Youths Arrested For Radioing Fake SOS

PERPETRATORS of a fake SOS-which set off an extensive Coast Guard search-were charged last week with illegal operation of a radio station and with sending false distress messages.

Two youths were said to have broken into a moored vessel in New Jersey and used its voice radio to broadcast that a fishing boat in the Atlantic had exploded and its 21 survivors were being rescued by a foreign submarine.

The Coast Guard made a thorough search for 30 hours and costing between \$50,000 and \$100,000 before it was discontinued. The two boys, age 17 and 21, were arrested by Long Island police and charged by the United States District Court in Brooklyn.

Under present laws the youths may receive a maximum sentence of two years in prison and a \$10,000 fine. However, Rep. Francis E. Dorn (R-N. Y.) last week introduced an amendment to the law which would increase the penalty for illegal use of radio from two to 10 years in jail. The fine remains at \$10,000.

Ike Hires Former CBS Man

EVERETT FREDERIC MORROW, former writer in the CBS press information department, was named last week by President Eisenhower as the first Negro to occupy an important position on his executive staff. Mr.

According to the latest Hooper survey, Station WHEC enjoys the lion's share of the local morning audiences. On your next spot radio campaign, why not tap this vast reservoir of buyers?

With an average share of audience of 53.6, Ed Meath's happy-hearted "Musical Clock," 6:00 to 9:30 A.M., Mondays thru Saturdays, makes him far-and-away Rochester's radio entertainer-your star salesman!

BUY WHERE THEY'RE LISTENING ... ROCHESTER'S TOP-RATED STATION

Representatives; EVERETS, McKINNEY, Inc. New York, Chicago ISE . O'CON ELL CO., Los Angeles, San Francisco

Morrow, of Hackensack, N. J., was named administrative officer for the President's Special Projects Group, coordinating internal management affairs.

The projects group includes Council of Foreign Economic Policy, public works and other top-level agencies. Mr. Morrow was with CBS. for over a year, leaving Sept. 11, 1953. He served on President Eisenhower's 1952 cam. paign train and is a former field secretary of the National Assn. for the Advancement of Colored People.

Mr. Morrow becomes the fourth member of the White House organization with a broad-casting background. The top-level staff includes Dillon Anderson (KTRK-TV Houston), special assistant to the President for national security affairs; Fred A. Seaton (KHAS Hastings, Neb.), administrative assistant and Congressional liaison, and ex-Arizona Gov. Howard Pyle (KTAR Phoenix), liaison representative with federal and state governments.

Second Pittsburgh Uhf Asks for Vhf Channel 11

A SECOND uhf tv station in Pittsburgh last week filed an application with the FCC for ch. 11 there. WKJF-TV (ch. 53) is seeking the vhf assignment that was awarded to WWSW Pittsburgh a fortnight ago in an examiner's initial decision [B•T, July 4], following WWSW's merger with WJAS there.

The bid of WKJF-TV, which had suspended operations, follows that of WENS (TV) (ch. 16) which filed for ch. 11 the same week the examiner's ruling was handed down.

WKJF-TV said the merger of the original applications of WWSW and WJAS represents a new application and should be returned to the processing line. These applicants merged following the dismissal of Westinghouse Broadcasting Co., which purchased KDKA-TV Pittsburgh (then WDTV [TV]) from DuMont Tv Network.

Agnes J. Reeves Greer, permittee of WKJF-TV, added that "uhf cannot survive in Pitts-burgh as new vhf channels go on the air."

WJWL Seeks New Facility

ROLLINS Broadcasting Co., licensee of WJWL Georgetown, Del., has amended its application with the FCC which was designed to transfer WJWL to Philadelphia and apply for a new Georgetown station.

The amendment cancels the move to Philadelphia and seeks to have a new station assigned to Rollins in the Quaker City on 900 kc, 1 kw daytime only with directional antenna.

GOVERNMENT PEOPLE

John P. Barton, program director, KUAM Agana, Guam, to Office of Governor of Guam as special assistant.

Sally Smalley, public service coordinator, Southern California Broadcasters Assn., L. A., to Office of Civil Defense, L. A., as assistant public affairs officer.

Capt. Edward F. Hutchins, USN, detached from duty as officer-in-charge of Armed Forces Radic & Tv Service, Hollywood, to retire after 30 years of naval service; Lt. Col. James Rose at USAF, formerly executive officer of detach ment, assumes command.

20 years ago... and today

They're both BLAW-KNOX Towers over 1000 feet high

The *first* broadcasting tower over 1000 feet high was a Blaw-Knox Tower, shown on the left.

And today we continue to design guyed towers over 1000 feet high ... such as the modern TV tower that accommodates an elevator, shown on the right.

These two examples well illustrate how Blaw-Knox has set the pace in tower design for many years. And why we are prepared to cooperate with you in designing a tower to meet your specific requirements.

For more complete information on the many modern types of Blaw-Knox Antenna Towers, write or phone for your copy of Bulletin No. 2417. Or send us your inquiry for prompt service, specifying height of tower and type of antenna.

surance carried by stations.

NARTB's insurance program has been in development several years. Already it includes a program of tower insurance.

Attending last week's meeting besides Mr. Nunn were Carl J. Burkland, WAVY Portsmouth, Va.; Roger W. Clipp, WFIL Philadelphia; Robert W. Ferguson, WTRF-TV Wheeling, W. Va.; C. T. Lucy, WRVA Richmond, Va.; and Robert T. Mason, WMRN Marion, Ohio. Participating for NARTB were President Harold E. Fellows; Thad H. Brown, tv vice president; Vincent T. Wasilewski, chief attorney; Richard M. Allerton, research manager; Joseph Sitrick, manager of publicity and informational services, and Thomas Coulter, assistant to the radio vice president.

Ad Council Reports Billions Of 1954 Audience Impressions

AN ESTIMATED total of 3.3 billion tv impressions and 1.9 billion radio impressions were made on viewers and listeners during the 1954 campaign of the Advertising Council Inc., non-profit organization supported by business to promote the use of advertising in the solution of non-partisan national problems. These figures were contained in the Council's 13th annual report, released last Wednesday.

Time for the Council's public service announcements was donated for 17 drives conducted in the over-all campaign. The highest impression rate in both radio and television was recorded in the stop-accidents campaign. In that drive alone the Council estimates that television made 734 million impressions and radio 327 million.

The Council stated that the figures were only for those messages heard or seen once in a single home and that they represented announcements made only on network commercial programs. The totals do not include coverage contributed to the campaign by local stations, regional advertisers and on network sustaining programs.

SDX Fellows Nominations Open

NOMINATIONS are open for the annual election of Fellows in journalism, sponsored by Sigma Delta Chi, professional journalism society. Not more than three living journalists with distinguished careers will be selected from a slate of not more than six candidates to be presented at the national convention Nov. 9-12 in Chicago. Any individual, chapter or SDX member may make nominations and the nominees need not be fraternity members. All nominations will be reviewed by a committee of past SDX presidents for selection of the slate. Written nominations should be sent to Sigma Delta Chi headquarters, 35 E. Wacker Dr., Chicago 1, before Nov. 1.

Texas Film Directors to Meet

PLANS for a Texas district regional meeting of the National Assn. of Television Film Directors are being completed. Ernest N. Olivieri, national chairman of NATFD, has announced. The meeting will be held sometime in August with the exact date to be selected later. Texas tv stations wishing details may contact state chairman Jim Bentley, program director of KCEN-TV Temple.

Natl. Agricultural Tv Clinic Set for Sept. at Missouri U.

A NATIONAL agricultural television clinic will be held Sept. 2-4 at the U. of Missouri, under the auspices of the U. S. Dept. of Agriculture and other organizations. The session will be limited to people experienced in agricultural tv: farm directors and station management, agricultural firms who sponsor tv programs and their agencies, and agricultural organizations.

Representatives from networks, agencies and the Ford Foundation Tv Workshop are among those who will lead demonstrations and clinics. The facilities of KOMU-TV Columbia, owned by the U. of Missouri, will be turned over to the clinic.

The National Assn. of Tv & Radio Farm Directors is among the sponsoring groups. Further information may be obtained from the National Project in Agricultural Communications, Michigan State College, East Lansing.

TRADE ASSN. PEOPLE

Fran Riley, information manager, NARTB, Washington, named chairman, newly-formed industry information committee, American Women in Radio & Tv. Other members: Agnes Law, librarian, CBS New York; Marion Annenberg, WDSU New Orleans; Josephine Wetzler, education director, WLS Chicago; Mildred Grace, women's activities director, WELL Battle Creek, Mich.

Adv. Federation of America, N. Y., has moved to 250 W. 57th St.; telephone: Circle 6-2431.

AMERICA'S FIRST TURBO-PROP AIRLINER!

This will be a history-making airplane—the first to be produced in America with modern turbine-propeller engines. This will be an all-new airliner—new from the radar in the nose to the graceful control surfaces in the rear. The Lockheed "Electra" results from combining the abilities of two leading organizations in aviation:

The proven design and construction ability of Lockheed Aircraft. The unequaled operating experience of American Airlines.

SPEED—Cruising at well over 400 miles per hour, the "Electra" will be faster by far than any other transport plane in world operation today.

QUIET—The subdued hum of the turbine engines, with their relative freedom of vibration, coupled with modern techniques of sound-proofing will provide a new atmosphere of quiet relaxation.

COMFORT—This new airplane will introduce a new and heretofore unequaled standard of airline comfort: spacious, club-like lounge; wider, more comfortable reclining chairs; wide-view rectangular windows: air conditioning on the ground as well as in flight: improved cabin pressurization to provide pleasant cruising at all altitudes up to 30,000 feet.

CONVENIENCE — Innovations in passenger convenience will include: carry-on baggage facilities; improved design for faster handling of checked baggage; built-in steps to eliminate ramp delay; individual fixed tables for dining, reading or writing.

The new "Electra" fleet for American Airlines will improve air transportation and strengthen United States air power.

RADIO NEWS PIONEER PAUL WHITE DIES

Former CBS vice president passes away at 53 in San Diego. He is credited with organizing the network's World War II coverage.

INTERMENT of Paul W. White, 53, often called the "Father of Radio News" and former CBS vice president, followed services at Greenwood Memorial Park, San Diego, last Monday. Mr. White died July 9 of a lingering ailment

which had forced his resignation as executive news director of KFMB-AM-TV San Diego last month.

Joining CBS as news editor in 1930, he organized Columbia News Service in 1933 as vice president and general manager when the wire services shunned radio stations and networks.

MR. WHITE

Prior to World War II, following a trip to Europe which convinced him that war was inevitable, he organized for CBS the news coverage which made available to the American public the observations of H. V. Kaltenborn, Edward R. Murrow, Eric Sevareid, Bob Trout, Elmer Davis, John Daly, Maj. George Fielding Eliot and others.

Mr. White resigned from CBS after the

war to live in San Diego and to write "News on the Air," still considered the authoritative textbook on the subject in universities and colleges.

Hc served as associate editor of the former San Diego Journal until its consolidation with a rival newspaper in 1951, whereupon he joined KFMB-AM-TV. The following year he took a leave of absence to assume charge of ABC radio-tv coverage of the national political conventions, after which he returned to his San Diego position.

Frank Stanton, CBS president, issued a statement on Mr. White's death which was broadcast on several network radio-tv news programs. Dr. Stanton said:

"The public as well as radio and television newsmen the world over owe Paul White real tribute for his great leadership in pioneering the patterns for electronic journalism as we know it today. His contribution to the finest traditions in reporting will stand as a mark for others to live and work by."

Newsman Charles Collingwood, who was substituting for Edward R. Murrow on the latter's CBS Radio news show, also took note of Mr. White, commenting on his July 11 broadcast:

"... for many years Paul White was the CBS director of news. He was a true pioneer, for before him there wasn't news on the radio in the same sense that we think of it now, and after him there was. His influence stretched far beyond this network, and what there is of comprehensiveness, accuracy and integrity in the

Putting Junior to Work

TO ENCOURAGE youngsters to earn extra money during the summer months. WRCA-AM-TV New York is introducing the WRCA Junior Sales Club, which will provide any boy or girl with the necessary information in launching a successful business venture. To start this plan, the stations will present a special "Lemonade Stand" program tomorrow (Tuesday) over WRCA-TV (7-7:30 p.m. EDT) giving details of the club. All potential iunior businessmen and women will receive, upon request, a WRCA Junior Sales Club Kit, which includes articles and advice from station personalities on such money-making projects as a lemonade stand, lawn and garden care, magazine sales work, baby-sitting business and golf caddying, among others.

news you get on radio and television, owes much to Paul White."

Howard Chernoff, vice president and general manager of KFMB-AM-TV during part of Mr. White's tenure with the stations, was the only speaker at the funeral, in keeping with a request made by Mr. White. Mr. Chernoff said:

"Paul was a kindly man, patient, considerate, ever trying to improve others at the expense of himself, intellectually honest as few men are and with a keen sense of justice.

"... Paul White created a monument for himself: a monument that, happily, he was able to enjoy in his lifetime. That monument is the technique of radio news reporting as we know it today. No history on radio has ever been written, nor will one ever be written, without recounting the fact that Paul White was the acknowledged father of radio journalism."

Mr. White's family has requested that those who desire may send contributions to the Paul White Memorial Fund, c/o San Diego Zoo, Balboa Park, San Diego.

Mr. White is survived by his widow, Mrş. Margaret White, and two daughters by a former marriage.

KTRE-TV, WITN (TV) Near Commencement of Operations

TWO PERMITTEES for new tv outlets last week disclosed further plans toward going into operation.

KTRE-TV Lufkin, Tex., announced that its 540-ft. tower, "the tallest in east Texas," and been completed over the Fourth of July weekend. According to Richard Lewin, vice president and general manager of the ch. 9 outlet, the station's transmitter is being installed with plans to go on program tests before the end of July.

Formal dedication of KTRE-TV is scheduled for Aug. 31 with a special three-hour telecast from Lufkin's million dollar auditorium. The station will use 26 kw power and plans to carry NBC-TV programs from KPRC-TV Houston via microwave relay.

WITN (TV) Washington, N. C., announced its commencement target date is Sept. 26.

Currently a 921-ft, tower is being constructed 949 feet above sea level. The ch. 7 NBC affiliate will use maximum 316 kw power.

The WITN staff, headed by President and General Manager W. R. Roberson Jr., will include T. H. Patterson, formerly of WRRF Washington, N. C., as commercial manager; Hal Wilson, production manager, and L. E. Hiland, chief engineer.

You've heard it said that necessity is the mother of invention?

"Seems to me plain everyday American initiative is pretty inventive, too. Take the way Union Oil got into the dry ice business.

"Union, you know, supplies much of the natural gas used in Southern California. Well, some years back, we needed to increase the heating value of our gas as it came from the field.

DRY ICE AT THE CUTTING MACHINE.

"We had a choice. We could enrich our product by adding other gases to it. Or we could accomplish the same thing by removing the CO_2 , or carbon dioxide, from it. It was purely a matter of economics.

"We experimented removing the carbon dioxide with a process that had, till then, been used for quite a different purpose. It proved so effective it paid us to take out the carbon dioxide, even if

DRY ICE PACKAGED FOR SHIPPING.

CLARE GARD, PROCESS ENGINEER-THIRTY-FIVE YEARS WITH UNION OIL.

we were to throw it away after we got it out of the gas.

"But that's the point. Instead of throwing the CO_2 away, we surveyed the dry ice industry, built an \$800,000 plant at Santa Maria, and converted our waste carbon dioxide into dry ice.

"That was 1948. Since then we've produced and sold over 102,000 tons of dry ice. And the plant's about paid for. See what I mean by American initiative?"

* * * *

Part of the initiative and inventiveness was Gard's, certainly. He was Process Engineer on the Santa Maria project.

A subsidiary company of ours has since built an ammonia plant which also makes dry ice. Union Oil is now the largest producer of this product west of the Mississippi.

So long as you and Gard and all of us continue to enjoy the encouragement and rewards of America's free competitive economy, this kind of inventive initiative will thrive.

YOUR COMMENTS ARE INVITED. Write: The President, Union Oil Company. Union Oil Building, Los Angeles 17, California.

Union Oil Company of California

MANUFACTURERS OF ROYAL TRITON, THE AMAZING PURPLE MOTOR OIL

Also moving to New York is Robert M. Williams, who has been an account executive with CBS-TV Spot Sales in Chicago since September 1953 and earlier had been with Har-

Saved by the Log

IN THE radio-tv business, a man's fate can hinge on something as seemingly slight as the station program logs. At least Jack Mills, newsman of KSIB Creston, Iowa, is thankful the records showed he was at the microphone on May 7, 1954, thus saving him from further involvement with the FBI on a robbery charge.

Newsman Mills became unnecessarily implicated in the \$15,000 bank holdup in Ohio by being wrongly identified as robbery suspect Frank Hurd. The ex-Mrs. Hurd came across Mills picture in the Hit Parader magazine early this year. Immediately she called the FBI and pointed an accusing finger at Mr. Mills, saying you can find my ex-husband at KSIB and "he's going by the name of Jack Mills."

An investigation ensued. The likeness was almost perfect, even to the scar on the nose and the fact they are both drummers. Fortunately the logs showed Mr. Mills was hard at work on that fateful day, with one hour out for lunch, hardly time to slip out to Ohio and loot the bank.

rington, Righter & Parsons, Chicago, and the Philadelphia Inquirer.

New appointments to the Chicago staff include James E. Conley, who has been national sales manager of WISH-AM-TV Indianapolis Frank R. Hussey, who has served the O. L Taylor Co. and Headley-Reed, and Roberts Reisinger, who moves to CBS-TV Spot Sales from CBS-owned WBBM-TV Chicago.

CBS-TV Spot Sales also has offices in San Francisco, Los Angeles, Detroit and Atlanta.

Maizlish Buys Half Interest In KCMJ Palm Springs, Calif.

PURCHASE of 50% interest in KCMJ Palm Springs, Calif., by Harry Maizlish, presidentowner of KFWB Hollywood, was announced last week by David Margolis, KCMJ president, subject to FCC approval.

No changes are at present contemplated in KCMJ organization. Mr. Margolis announced, with Robert D. Blashek and Norman Lofthus remaining executive vice president and station manager-general sales manager, respectively.

4 Years of Chiropractic College 8 Required for Doctors of Chiropractic

Continual and rigid examinations are devised, not only to educate the student, but to ensure proper use of the knowledge and skills which must be acquired. This wide scholastic background has been designed to meet new healing advances derived from research and experience.

There are 8 chiropractic colleges in the nation which conform to the exacting educational requirements of the National Council of Education of the National Chiropractic Association. To obtain official recognition, the student must first meet professional entrance requirements . . . then must pass all and every scientific course in examinations given during and after a minimum of 4,000 hours in these subjects:

Anatomy, including embryology and

histology 740 hours
Physiology
Biochemistry 180 hours
Pathology and Bacteriology 520 hours
Public Health, sanitation, hygiene 160 hours
Practice of chiropractic principles and technique, neurology and psychiatry, pediatrics, dermatology, urology, oph- thalmology, otolaryngology, first aid
and minor surgery, roentgenology1,960 hours
Obstetrics and gynecology 200 hours

4,000 hours

That is the true story of the educational requirements behind the Doctors of Chiropractic today.

If there is particular information you want, write us or send for the book, "The Truth About Chiropractic." NATIONAL CHIROPRACTIC ASSOCIATION, Inc.,

NATIONAL BUILDING, WEBSTER CITY, IOWA.

3 TRUTHS YOU SHOULD KNOW 550 Insurance Companies Recognize Chiropractic. 1 out of EVERY 5 Americans Avail Themselves of Chiropractic Health Services. 4 Years of Chiropractic College is the Minimum Requirement for Doctors of Chiropractic.

KTIV (TV) Trial Coverage Makes Precedent in Iowa

TV NEWS CAMERAS were admitted to an lowa courtroom to film the proceedings of a murder trial, establishing an lowa precedent as the first news pictures, film or still, ever taken of a court trial there, according to a report from KTIV (TV) Sioux City. KTIV asked District Judge R. G. Rodman for permission to give camera coverage to the trial over which he was to preside, and the jurist's accedence, coupled with approval of defense and pros tion attorneys, opened the door for press ph graphers as well as tv.

According to KTIV, the Iowa Bar Assn. always favored the American Bar Assn.'s Ca 35, which prohibits the taking of photogra in a courtroom during a trial, but the "It experiment" proved to be a success for all c cerned. Judge Rodman, commenting on unobtrusiveness of the cameras, said, ". They [newsmen] displayed very good judgr and conducted themselves in a very exempl manner." A veteran of over 20 years on

Keeping Radio Mobile

WPDQ Jacksonville believes that radio puts its best voice forward by meeting the people of the community on a regular basis in such busy spots as local dairies, farms and feed stores, busy traffic intersections and offices of prominent local business firms.

This "getting-around" by the ABCaffiliate station is accomplished by means of a completely equipped mobile studio in a German *Volkswagon*. Robert Feagin, manager of WPDQ, sums up the station's meet-the-public philosophy in this way:

"These are days to put radio to work in the best way. Let's take advantage of radio's mobility and bring our studio to the public."

The station's engineering staff, directed by Don Donovan and Ernie Haralson, adapted the mobile studio to include facilities for taping, live record shows and interviews. The unit is completely airconditioned and requires only two connections to go on the air: 110 volts and remote telephone lines. It is planned to have a two-way shortwave fm set-up installed to eliminate the need for telephone lines. Two transmitting units also will be installed in the mobile studio and two receivers will be placed on the top of a 17-story downtown office building, with one transmitter and receiver used for the actual broadcasting and the others for

communication with the station.

Some of the special events already covered by means of the mobile unit include six-hour broadcasts of *Musical Sunday* aboard the battleship USS New Jersey and aboard the aircraft carrier USS Lake Champlain; the Mrs. America of 1956 contest at Allinor Village, Fla, some 95 miles south of WPDQ's main studio; a six-hour program from the 19th floor of the new south central home office of the Prudential Insurance Co. of America.

Last week various regular programs began to originate from the mobile unit at sites in and around Jacksonville. For instance, the morning *Crackerjack Show* will be broadcast from key traffic points; *Music Coast to Coast* afternoon show, beamed to the auto audience, will originate at major highway intersections with free Florida orange juice provided to tourists who pull up to the mobile studio, and Glenn Reeves' *Town & Country Tunes* will emanate from dairies, feed stores and farms, with music slanted toward the country audience.

Mr. Feagin reports that this concept of radio broadcasting is receiving widespread favorable comment from residents of northeast Florida and adds that "local sales have zoomed as a direct result of taking radio to the audience in WPDQ's new mobile studio."

WPDQ's mobile studio in action aboard the aircraft carrier USS Lake Champlain in Jacksonville harbor, an example of the "getting around" idea.

Tv at the Ball Game

IGLEY FIELD, Chicago, home of National League Cubs, has opened ecial grandstand where fans can hear audio portion of a tv broadcast over N-TV there, while watching the " action on the playing field. The section, which seats 1,200, has been tipped with seven overhead speakers wich will carry announcer Jack Brickse's comments on the game. WGNhgengineers have arranged the system w that there will be no spill-over of wand into other sections. The system developed by Philip K. Wrigley, rusts president, to make the game more intresting and enjoyable for those who It me fans through watching radio-tv. s not expected to appeal to died-inwool enthusiasts who prefer to folthe game themselves. If the "tv o section" proves popular, the secwill be expanded. 1

Neither Rain Nor Hail ...Nor Broken Boxes!

Red Fowler, local R.F.D. mailman, got an English car—with a right-hand drive so he can stuff mailboxes from behind the wheel.

"It's great!" Red reports. "But it would work a lot better if all box holders would follow regulations. A mailbox should be 40 inches high, on the right of the road . . . within reaching distance from a car window. If one is knocked down, the owner should make repairs pronto."

Come to think of it, Red is pretty good about *his* obligations—delivering packages, supplying stamps, cashing money orders—saving us trips to the Post Office. Let's fix up those boxes so he can get his chores done fast.

From where I sit, obligations always work both ways. For instance, I figure that I'm obliged to respect your right to enjoy your favorite beverage be it coffee, tea, beer, buttermilk or whatever. Why? Because I'd expect you to do the same for me. The Golden Rule should be followed "to the letter" by everyone.

Joe Marsh

Special Delivery

AN unaddressed postcard, bearing the message "please send the free plug; there are 1,981 hooks in the jar." was delivered without delay to WJTV (TV) Jackson, Miss., that station reports. Making the delivery all the more unusual, WJTV adds, is that the show to which the card was sent, but not addressed, is a local, once-a-week telecast.

Copley Brother Sues, Asks End to Copley Press

SUIT seeking liquidation of Copley Press Inc., operating KCOP (TV) Los Angeles and 15 newspapers in Illinois and California, was filed Thursday in Chicago circuit court by William Nelson Copley of Paris, France, and his three children. The suit charges James S. Copley, Aurora, III., and First National Bank of Chicago, as executors and trustees of the estate of Ira C. Copley, with "gross abuse of fiduciary discretion" in handling \$40 million property. The Copley brothers are adopted children of Ira C. Copley.

Executors were charged with buying properties in California without approval of the Kane County Probate Court. Copley Press bought KLAC-TV from Mrs. Dorothy Schiff, changing the call to KCOP (TV). The station's losses have been reduced by the new owners, it is understood. James S. Copley and the bank are asked in the suit to give an accounting and make good all losses resulting from their "improper conduct."

WALL Predicts Sales Record

ON THE BASIS of the first six months of 1955, which showed total sales 11.6% ahead of last year's period, James M. Patt, president and general manager of WALL Middletown, N.Y., has predicted for this year the greatest sales gain in the station's history. Largest factor this year, he indicated, has been the growth of national spot, running 50% ahead of 1954. Time sales for the past four years at WALL have been setting records, Mr. Patt noted.

Seven Production Posts Filled by KRNT-TV Des Moines

SEVEN new appointments to the production staff of KRNT-TV Des Moines. scheduled to begin operations July 31 as a basic CBS affiliate, have been announced by Guy Koenigsberger, production manager.

Norlan E. Champ, for the past three years display manager of Des Moines' Davidson's Dept. Store, has been named art director.

Producer-directors appointed are Julius P. Etflandt, for the past three years tv director of WOC-TV Davenport, Jowa; Larry A. Mc-Keever, in broadcasting for eight years, the last two as tv director of KMBC-TV Kansas City, Mo., and Jack A. Peterson, former cameraman-director of KFEL-TV Denver.

Beau Silver, former film editor of WTCN-TV Minneapolis, has been named KRNT-TV film editor. Appointed assistant producer-directors are James R. Moon and Tom Hemphill Jr., both of Des Moines.

WABD (TV) Acquires Rights To New York's Phoenix Theatre

ANNOUNCEMENT that WABD (TV) New York has acquired rights to telecast productions of the Phoenix Theatre, off-Broadway theatrical group, during the 1955-56 season, was made last week by Ted Cott, general manager of DuMont Television Network's o&o stations, and T. Edward Hambleton and Norris Houghton, founders of the theatre. The station introduced off-Broadway productions to its audience when it telecast the theatre's musical "Shoestring Revue" in May.

The agreement gives WABD (TV) the right to select for telecast any of the theatre's Monday night "Sideshows," special programs made up of readings, musical works, one-act plays and dance programs. In addition, WABD (TV) may carry any of the five major productions that the theatre offers for limited engagements during the season. The telecast will follow the last stage performance of the productions.

Radio, Tv Found Compatible

RADIO and tv are compatible, say New York's WABD (TV) and WINS. Mutually pleased at results of the first-year "cross promotional" campaign in which each station promotes other's stars and programs, the stations have renewed

WPIX (TV's) Whole New

Libby and Sunkist purchases re for 13 weeks and Schweppes for veeks. All three advertisers signed for participations and 31 station breaks week.

the stations. Mr. Jackson is expected to ake additional duties in the exploitaf Million Dollar Movie and the Autrypackage of films on WOR-TV.

Jackson joined the stations in October as business news editor and in August advanced to manager of publicity.

AP-TV Doubles Local Color

3LING of its local, live color television ale was announced last week by WBAPort Worth, which last Monday began a ray-Friday, 11 a.m. to 1 p.m. slate of shows. A new program, *The Jones Place*, noon to 1 p.m., has been added to the current Texas Living show to effect the schedule boost.

Another regularly-scheduled local show in color on WBAP-TV is the Saturday night, hour-long Barn Dance.

Richard Oberlin Resigns As WHAS-AM-TV News Chief

RICHARD OBERLIN has announced his resignation as news director of WHAS-AM-TV Louisville, Ky., effective Sept. 3. He said that for several years he wanted "to get into the management side of radio and television, find employment in a less public business or go into business for myself." Mr. Oberlin added that at the moment he is considering a "number of possibilities, among them some in local industry." A native of Cleveland, he joined the *Louisville Courier-Journal*, owners of WHAS Inc., in 1941 and five years later moved to the WHAS news department.

In his announcement, he publicly thanked Barry Bingham, president, and Mark Ethridge, vice president, for their advice, assistance and encouragement since his joining the *Courier-Journal*.

The Word

PURCHASER of a forthcoming Arizona-Mexico Baseball League game on KOLD Yuma is the local Episcopal church. Between-innings "commercials" will be an invitation from the minister to listeners to attend Sunday services.

Long Voyage Home

APPARENTLY Mrs. Bradhering guessed she didn't stand a chance to win the guessing contest conducted by WPEN Philadelphia. As it turned out, however, she won the top prize—a vacation in Spain. When WPEN tried to reach her to tell her of her good fortune the station was told: "Sorry, but Mrs. Bradhering is vacationing in Spain." The guessing contest was aired on WPEN's Mambo Dancing Party.

First Hand Report

A SCOOP was scored by Ralph Childs, news editor of KMA Shenandoah, Iowa. while checking on a wire service story on a rain storm in the adjacent area of Torrington, Wyo.-Scottsbluff, Neb. Unable to reach Torrington by phone, he called the newsroom of KOLT Scottsbluff and spoke to Bill Brannen, news director. Mr. Brannen had just left the microphone, after alerting listeners to a possible tornado, and started to describe for Mr. Childs the extent of the rain storm when the feared tornado struck. Editor Childs held on and tape recorded the incident until the six-minute reel was complete. At this point communications to Scottsbluff were knocked out and KMA and "Scoop" Childs, the only ones to know of the disaster, passed the news on to the wire services.

KDKA Sales at High Mark for First Six Months

KDKA Pittsburgh has reported that its local sales during the first six months of 1955 were the highest in the 35-year history of the station. Local sales for the January-June 1955 period were 28% above the same period last year and 115% above the first half of 1953.

May local sales were 7% above the previous high for a single sales month set in October 1954.

L. R. Rawlins, KDKA general manager, pointed out that the station has not only increased its sales volume but is also serving a larger number of accounts and of a more diversified nature than before.

KDKA is owned by Westinghouse Broadcasting Co.

REPRESENTATIVE APPOINTMENTS

WROW-TV Albany, N. Y., appoints Harrington, Righter & Parsons Inc., N. Y., as national representative.

KJBS San Francisco appoints Adam J. Young Jr. Inc., N. Y., as national representative, effective Aug. 10.

L. A. Trinaural Airing

FACILITIES of KFAC-AM-FM Los Angeles and KHJ-FM Hollywood were pooled to present the first trinaural broadcast in Los Angeles radio history at the first concert of the 1955 Hollywood Bowl season July 7. The very high fidelity stereophonic trinaural effect was achieved in the home of listeners by placing an am speaker in the center of the room tuned to KFAC and two fm speakers, one tuned to KFAC-FM and one to KHJ-FM, anywhere from seven to 12 feet on both sides of the am receiver. KHJ and KFAC microphones were set up in corresponding patterns on the Hollywood Bowl stage to insure proper tonal balance for the broadcast.

REPRESENTATIVE PEOPLE

George (Buck) Hurst, former eastern sales representative, KMOX St. Louis, named contact man, sales dept., CBS Radio Spot Sales, succeeding Robert M. Dooley, who has been named account executive in N. Y.

REPRESENTATIVE SHORTS

James S. Ayres Co. (southeastern station representative). Atlanta, opens branch office, 127 W. 7th St., Charlotte, N. C.; telephone: Franklin 5-6146. Gene Sink, former regional sales manager, WLOS-TV Asheville, N. C., is manager, covering N. C., Va. and most of Tenn.

Katz Agency, Atlanta, has moved to 1321 Fulton National Bank Bldg., 55 Marietta St.

That Voice Is Familiar

VHEN Charles Shull, a graduating senor in radio-ty at the U. of Indiana, pplied for a position with WLW Cintinnati, he never dreamed he would find is own work "on the air." But that's what happened when he sent an audition tape of a program he wrote about campus activities, according to the university's radio-tv department. WLW called, requesting permission to use the tape on its college series, For Everyman. It was granted and the program was aired May 28. Indiana U. claims it was the first time, to its knowledge, an audition tape came over the air as an actual program.

Booming Beckley Business

TO PROMOTE their Friday and Saturday "Bargain Day" event, merchants in Beckley, W. Va., purchased 500 extra spot announcements over WWNR there. and the station broadcast around the clock on behalf of the weekend sale. Beginning at 7 p.m. Thursday evening WWNR originated all its programs from a tent on the lawn of the Raleigh County Courthouse. Besides top entertainment, the station reports that participating advertisers made in-person appearances to describe their weekend "specials." The WWNR tent, furniture and 100 prizes for the promotion were provided by the advertisers. The results were so successful, according to WWNR, the Beckley Business Bureau has decided to conduct four similar city-wide promotions yearly.

EVEN LEE WATCHES

Good thing the surrender terms didn't include Channel 8 - Lee would have started the war all over again!

Down in Lee country, folks have been known to pass up seconds of corn pone and chittlins rather than miss a single moment of WHEN-TV.

Naturally, we mean Lee, N. Y., just one of more than 250 upstate communities that stand up and salute every time Channel 8 flashes on their TV screens. Awfully tiring, this saluting business, but with Lee it's a matter of love.

Livin' is rich and easy in Lee, 'cause folks there are buyers. You sellin'?

WICS (TV) Little League Team

WICS (TV) Springfield, Ill., currently is sponsoring a team in one of the 12 Springfield Little Leagues. The station builds its sports programs around the appearances of the young players.

WSJV (TV) Covers Evacuation

NETWORK display was given to film shot by WSJV (TV) Elkhart, Ind., as part of its coverage of a mythical A-bomb evacuation in nearby South Bend. The station aired 25 1Ds and spots urging the cooperation of the people of the area to be evacuated and staged two halfhour and one 15-minute live shows with Civil Defense and South Bend officials appearing to explain the operation. In addition, the station made a sound-on-film one-minute spot of the South Bend mayor which was put on the air the moment the alert for "Operation Exit" was given. Both ABC and CBS News Film commissioned the station to supply sound and silent film of the evacuation for national network showing. WSJV stationed camera crews throughout the city and at evacuation headquarters as well as sending a cameraman up in a helicopter for aerial shots.

Effective September 28, 1955, KMBC-TV joins the nation's most dynamic and fastestgrowing television network, the American Broadcasting Company. For programming details, consult your Free & Peters Colonel or:

DIO-TV ARTISTS PLAN FULL STUDY PAY-TV'S POSSIBLE REPERCUSSIONS

AFTRA spokesmen see possible dangers in toll system in citing necesity of exhaustive survey. Convention in Seattle also indicates urther study is necessary on 'Monitor' before renewing present vaiver agreement.

ROUGH investigation of pay-as-you-see ision, from the standpoint of its possible imon performing artists, was voted by the rican Federation of Television & Radio ts (AFL) meeting in national convention attle July 9-12.

flowing its own study, the AFTRA come was instructed by the convention to all with the Screen Actors Guild and other groups.

FTRA is not opposed to the idea of payu-see television," it was explained to $B \bullet T$ on Courtnay, Seattle local president and ther of the AFTRA national board. "We do

as a potential danger to our members, wer, and so we have authorized an inise study."

recommendation by the Chicago local. AFTRA convention voted to conduct a w of results of the NBC Radio program for before renewing the present waiver agement. The first agreement is scheduled m for six months from the start of the n and the study is to be undertaken not than two months ahead of the waiver's pation.

It arrangement will be renewed, Mr. umay explained, if it is found that the reiship with the network is beneficial to "A members.

Fe convention also defeated a proposal, in has been rejected at previous sessions, rt the convention on a biennial basis. It litherefore, be held in 1956, at a place to anounced later.

IFRA Re-elects Nelson, Imes Officers at Meeting

New b; John Gannon, Chicago; Conrad Nagel, Procession of the Soule, Los Angeles; Wanda

Nriters' Pact Approved

NEW contract covering freelance netork radio writing has been unanimously pproved at concurrent meetings in Los angeles and New York by the Writers Juild of America.

A WGA West spokesman said the conract, to run until March 1958, is idential to the live network tv agreement netotiated last May, except for price diferentials between radio and tv.

Among the provisions of the radio pact are separation of radio and tv rights; greater participation in subsidiary rights; 100% payment for each radio re-use during the limited period of exclusivity; payments of 133% of the minimum for simulcasts, and payments for outlines and coverage for audience participation writers. Ramey, San Francisco; Don Courtnay, Seattle; Dwight Weist, New York. Recording secretary, Evelyn Fryman. Washington. Treasurer, Stan Farrar, Los Angeles.

AFTRA Convention Backs Seattle Union Strike Vote

A STRIKE VOTE against KIRO KOMO KING KJR KXA Seattle by the local chapter of the American Federation of Television & Radio Artists was backed by AFTRA's delegates, assembled in national convention in Seattle. The local also has asked sanction by the Seattle Central Labor Council, without which the strike would not be put into force. Present contract expired March 1. Wage scale for announcers is reported as the key issue with the union seeking an increase from \$105 to \$125 weekly. Stations are said to have offered an increase to \$109.

Screen Guilds Solicited To Support 5-Day Week

SUPPORT of demands of the Screen Actors Guild and the Screen Extras Guild for a fiveday work week was asked by the International Alliance of Theatrical Stage Employes Cameraman's Local 659, Hollywood.

E. T. Estabrook, president of Local 659, which is a leading exponent of the five-day week demand [BoT, June 6], sent wires to both SAG and SEG, asking that they also make similar demands in their current negotiating sessions with the Alliance of Tv Film Producers and the Motion Picture Producers Assn. (major studios).

The IATSE film unions, which reportedly have agreed to make the five-day week a chief demand, will start negotiations with the ATFP and MPPA in New York, in August and October, respectively.

CBS Artists Pick IATSE

INTERNATIONAL Alliance of Theatrical Stage Employes (AFL) announced last week that graphic artists employed at CBS voted unanimously in a National Labor Relations Board election on July 6 for IATSE as their bargaining agent. They will be affiliated with the union's radio and television department, which already covers a number of other CBS groups, including property controllers, special effects and scenery expediters, set decorators, contact reporters and radio set-up men.

Union Named at WOR-AM-TV

INTERNATIONAL Alliance of Fheatrical Stage Employes (AFL) was chosen last week as collective bargaining agent for engineers and technicians employed by General Teleradio Inc. at WOR-AM-TV New York.

The vote in the election, conducted by the National Labor Relations Board, was 98 for IATSE; 10 for the International Brotherhood of Electrical Workers, which previously had represented these employes, and one for no union. There were 120 employes eligible to vote.

Strike at Tv Networks Threatened by Artists

NEGOTIATING COMMITTEE of the United Scenic Artists Local No. 829 met with a representative of the Federal Mediation Service in New York last Friday in an effort to resolve a contract dispute with ABC-TV, CBS-TV and NBC-TV. The union members last Monday authorized the committee to call a strike, if necessary, which could eliminate live presentations from New York studios.

The main issue of the dispute centers around wages for the union's 210 members, employed at the three networks as costume designers, scenic designers and scenic artists. Members have been working without a contract since April 1, when the old agreement expired.

In talks since last April, the union and the networks have not been able to reach an understanding on wages. It is reported that the factions are "far apart" on this provision of the proposed contract, with the union maintaining that the networks' wage offer is "far below" those paid to similar workers in stage and screen employment.

It was learned by B•T that the old contract called for salaries of \$210 weekly for scenic designers: \$157.50 weekly for costume designers: \$159.39 for journeyman scenic artists, and \$198.75 for foremen in the latter group. The networks' offer is reported to be a 7% wage increase for scenic and costume designers, and a 5% raise for scenic artists. The union is pressing for a reported 35% increase in wages for costume and set designers, and a "somewhat larger" raise for scenic artists than

the one proposed by the networks. It is believed that the union is adopting a more conciliatory attitude regarding the scenic artists, because they work a $374^{1/2}$ -hour week, with provision for overtime pay after 40 hours.

One of the complaints regarding set and costume designer employment is that, in theory, they are on an unlimited work schedule, with no set hours, because they are considered "professional" workers. A union spokesman said they often have to work long hours on a sevenday basis, with the average work week at least six days, and without overtime compensation. A network official acknowledged that set and costume designers are "on call" 24 hours a day, and on occasions have to work long hours when a contingency arises, but claimed that it is not a week-in, week-out practice.

Despite the strike authorization, a source close to the union predicted that a walk-out would not be expected over the weekend. He pointed out that following its latest meeting with the Federal Mediation & Conciliation Service, the union planned to meet with the networks and a fact finding board, consisting of representatives of teamster, musician, actor and stage hand unions, before taking its next step.

Film Bargaining Sessions Stalled, SAG's Dales Says

HOLLYWOOD bargaining sessions with the Alliance of Tv Film Producers and the Assn. of Motion Picture Producers, covering actors, singers and announcers in the tv entertainment field, have reached an impasse, John L. Dales, national executive secretary, Screen Actors Guild, said July 7.

In inviting all other tv entertainment film producers not ATFP or AMPP members to start separate negotiations with SAG, Mr. Dales pointed out that the present contract covering tv entertainment film expires at midnight July 20.

Guild is filing with the San Francisco office of the Federal Mediation & Conciliation Service notice that a dispute exists. In the notice, Mr. Dales states that the impasse is "due to inability to arrive at an agreement on basic issues."

KTTV (TV) Cancels 'Hayride' After Union 'Unfair' Ruling

KTTV (TV) Hollywood canceled its Sandy's Hayride program after the Hollywood chapter of American Federation of Tv & Radio Artists declared packager-m.c. C. A. (Sandy) Young unfair.

Published claims by Mr. Young that he was caught in a jurisdictional dispute between AFTRA and Local 47, American Federation of Musicians, were denied to $B \bullet T$ by AFTRA spokesmen. Instead, they claimed Mr. Young had been violating union regulations over "a long period of time."

PERSONNEL RELATION PEOPLE

Stuart Phelps, Hollywood freelance director, elected president, Hollywood local of Radio & Tv Directors Guild, with Tom Baxter, ABC, vice president; Kenneth Finley, ABC-TV, secretary; Tom Belcher, KRCA (TV) Hollywood, treasurer. BS Radio launched its direct coverage with respondent at Geneva, yesterday (Sunday), 2.0-1 p.m. EDT, visiting Washington, Lonto, Paris, Moscow and Geneva for reactions f;overnment officials as well as the man in nestreet. A similar broadcast is scheduled for 24. Daily broadcasts from Geneva will ecarried by CBS Radio, 10:05-10:15 p.m. II. Shows which will spotlight Geneva deepments are: World News Roundup, News Memerica, Allan Jackson and the News, and Evard R. Murrow With the News.

BS-TV coverage includes The American tek with Howard K. Smith as narrator, July and July 24, 7-7:30 p.m. EDT, daily reports of The Morning Show, and Douglas Edwards the news, yesterday through July 22.

n relation to the conference, a special quarchour telecast was scheduled by DuMont ore President Eisenhower's Friday speech. Highlight of the NBC-TV coverage was to ba one-hour documentary yesterday (Sunday),

Mickey's Message

ABC-TV is campaigning for "adult" sponsors, as well as advertisers of children products only, for its new fall *Mickey Mouse Club* Monday-Friday daytime strip.

The network's sales department is sending prospective clients a Mickey Mouse "magic slate" on which is scrawled: "ABC-TV's Mickey Mouse Club is slated to be the magic force in advertising starting this October. It will even reach more adults than the average daytime strip, with excellent cost efficiency. For the full story, call my friend, your ABC-TV salesman." The message is signed by "Mickey."

the same conference, live pick-ups will be carried by the network. Weekdays, Fulton Lewis Jr. and Henry Gladstone will broadcast on MBS from Geneva.

5-5:30 p.m. EDT.

stone will broadcast on MBS from Geneva. Bob Considine's Sunday show, On the Line, originated from the conference yesterday and will have the same point of origination July 24. MBS' Report From Washington, handled by Walter Trohan on Saturday, 7-7:15 p.m. EDT, also is being aired from the conference site.

8-9 p.m. EDT, featuring live and film segments,

one-shot telecast, scheduled by the network for July 24, is "A Special Report on the Big Four,"

NBC Radio will air a special panel discussion

program, "Geneva 1955-Pendulum of Peace,"

tomorrow (Tuesday) 9-9:55 p.m. During the

and titled "Meeting at The Summit."

NBC-TV Names Chester

APPOINTMENT of Giraud Chester as manager of program sales administration for NBC-TV was announced last week by Michael Dann, director of program sales. Mr. Chester, who joined NBC-TV in 1954 as program coordinator, has been serving as business manager of the tv network program department.

CBS-TV Signs Victor Borge

CBS-TV has signed Victor Borge to a contract calling for his exclusive services during the 1955-56 season, it was announced last week by Hubbell Robinson Jr., CBS-TV vice president in charge of network programs.

FRONTIER AIRLINES contracts for a Mon.-Fri. morning newscast to be carried by 24 stations of the Intermountain, Don Lee and Arizona networks and to originate from the studios of KIMN Denver, Colo. The news show will be edited by John Bosman, Intermountain Denver news director, and will be broadcast in Colorado, New Mexico, Arizona, Wyoming, Montana and Utah. L to r: Collin W. Lowder, KIMN vice president-general manager; C. A. Myhre, president of Frontier Airlines; John D. Lindsay, Frontier vice president in charge of sales, and Mr. Bosman.

PUBLIC SERVICE CONTEST SET FOR NBC 0&0 OUTLETS

Denny announces 'leadership' project to intensify stations efforts in furtherance of American way of life. European trip among prizes.

A "LEADERSHIP" contest for NBC-owned stations emphasizing public service was to be announced yesterday (Sunday) by Charles R. Denny, vice president of NBC-owned stations and NBC Spot Sales.

Mr. Denny said the contest was designed "to

bring out the best efforts of the NBCowned stations in interpreting and furthering the American way of life."

The six-month competition among the stations — those eligible include WMAQ - WNBQ (TV) Chicago; WTAM - WNBK (TV) Cleveland; WRCA - AM - TV New York; KRCA

MR. DENNY

(TV) Los Angeles: KNBC San Francisco, and WRC-AM-TV Washington, D. C.—calls upon general managers to marshal each station's personnel, programs and facilities behind the effort.

The winning station, according to the plan, will receive a plaque; the general manager and his wife a trip to Europe to the major capitals; prizes worth \$1,000 to be distributed among the staff by the station's general manager, and a party for all the personnel.

Mr. Denny said that the European trip was "an important aspect" to enable the station's head to observe systems of government and ways of life in foreign countries "in order better to serve his community in interpreting and furthering the American way of life."

Mr. Denny said that arrangements will be made for film and tape-recording coverage of the trip.

The "Distinguished Leadership Award" to be accorded the winning station will be based on the best record in "the two p's—public service and profit," Mr. Denny said, adding that "the role of a broadcasting station in

"—just as KRIZ Phoenix advertised them, Madam—would you like to try them on?"

America's democratic and free enterprise system is clearly summed up in that phrase."

The contest will take in the period from July 4 to Jan. 1, 1956. Areas of public service to be taken into account: social welfare, civic, "living together," "people at work," education and news. Judging by a panel, as yet unselected, will be based on the overall effort, including improvements over a six-month period of the previous year and the "general profit picture of the station." Presentations will be submitted by Jan. 15, 1956, Mr. Denny said.

The stations will not be required to follow a restricted path, Mr. Denny said, with new program series, one-shot special programs, use of existing programs and extension of existing projects, as well as promotion of the total effort, all taken into consideration. "A station will be judged on relative leadership, resourcefulness and creative showmanship in a positive approach to democracy," Mr. Denny said.

DuMont Appoints Koblenzer To Sales Management Post

APPOINTMENT of William Koblenzer, eastern sales manager. DuMont Television Network, as sales manager of the network and Electronicam production services [B•T, July 11], was

announced Tuesday by Ted Bergmann, director of the broadcast division, Allen B. DuMont Labs.

Mr. Koblenzer, who succeeds Gerry Martin, director of sales of the network who has resigned, has been with Du-Mont since 1949 when he joined as an account executive. Before that

tive. Before that time, he had his own radio-ty package firm in

New York, and for more than two years had been in charge of the live radio-tv sales department of Frederic W. Ziv Co.

ABC-TV Medical Series Set

NEW half-hour tv series, *Medical Horizons*, will premiere on ABC-TV Sept. 12, 9:30-10 p.m. EDT, under sponsorship of CIBA Pharmaceutical Products Inc., Summit, N. J., in cooperation with the American Medical Assn. The documentary telecasts will originate from medical centers in the U. S.

J. Walter Thompson Co., New York, will package the telecasts with Fred Carney as producer-director. Series will be supervised by Dr. William T. Strauss of CIBA. According to Dr. Strauss, production of the series "will entail the most extensive series of remote telecasts ever attempted by any medical program."

NBC-TV to Chart Radio-Tv Era

SPECIAL, one-time-only program outlining the change in home entertainment from the crystal radio to the television set has been set on NBC-TV's five owned stations on Saturday (8-8:30 p.m. EDT and PDT). Titled *Big Change*, the show will present Jinx Falkenburg as mistress of ceremonies and will include such personalities as Jessica Tandy and Hume Cronyn, Cliff Norton, John Wingate, Vaughn Monroe, the Kal Kirby Quartet and Ben Grauer. The special telecast, which will be produced by WRCA-TV, also will be carried on WRC-TV Washington, WNBQ (TV) Chicago, KRCA (TV) Los Angeles and WNBK (TV) Cleveland.

CBS-TV Names Gottlie To Head Daytime Show

SUCCESS IN A-TEST REPORTED BY RCA

Analysis released last week on effects to equipment used in atom blast test in Nevada earlier this year.

RCA reported last week that its broadcast equipment, tested less than a mile from the center of a nuclear explosion in Nevada last May, not only survived the blast but could have returned to the air in a few minutes.

According to Theodore A. Smith, vice president and general manager of RCA Engineering Products Div., "not a single tube or component" of the equipment was damaged. Actually, he said, basing his comment on information cleared for release in Washington, only "minor surface damage" was noted.

The civil defense phase of the test made May 5 at the atomic test site in the Nevada desert, some 90 miles from Las Vegas, was held under auspices of the Federal Civil Defense Administration. Member companies of Radio-Electronics-Television Mfrs. Assn. took part.

Mr. Smith said that RCA provided a standard, commercial 250 w radio transmitter and associated equipment that would operate an am station; a mobile radio base station operating in the 25-to-50 mc range, and two mobile radio units installed in automobiles. Equipment was housed less than a mile from the blast center, except for one two-way radio which was placed 10,500 ft, away.

Little Damage to Tower

The minor surface damage to the transmitter, mobile station and two-way radios was caused, he said, by flying glass and debris. The buildings and automobiles in which equipment was installed, however, were either partially or completely destroyed. Virtually no effect was noted on the am station's antenna tower although the blast snapped a smaller one erected for the mobile station, Mr. Smith reported.

The commercial radio transmitter was housed in a building that was heavily damaged. The transmitter, however, Mr. Smith said, came through unscathed but had a power break when lines connected to an outside gasoline generator were severed by falling telegraph poles. Broken lines were repaired in less than 15 minutes, Mr. Smith said, noting "it was evident, in this specific test, that the power failure would have been obviated by underground wiring."

The explosion demolished the house in which the mobile radio station was installed and

hurled the station equipment from the second floor to the top of a pile of debris at ground level. This equipment, he said, was found operative when inspection teams arrived.

Mr. Smith said the radio-equipped automobile nearest the blast center and parked outside the transmitter building was badly wrecked but its two-way radio suffered only minor scratches and dents. It, too, was operative. A second car, placed closer to the blast, suffered only slight damage and its two-way radio was untouched.

Information released by those firms who participated in the Nevada tests must first be cleared with the FCDA.

Capehart-Farnsworth Meets, Unveils New Radio-Tv Line

ANNUAL two-day distribution-dealer convention of the Capehart-Farnsworth Co., radio-tv and hi-fi manufacturing division of International Telephone & Telegraph Corp., was held last week at the Hotel Commodore. New York. More than 500 distributors and dealers from the eastern U. S. attended the meetings.

Among products introduced at the convention was a transistorized portable radio, about the size of a king-sized cigarette package, which weighs only 6.4 ounces. The audience was told that the radio, termed the TX-10, can be operated for 80 hours on four hearing aid batteries which cost 36 cents each. It can be operated with a miniature earphone, with a matching speaker unit, or installed in an ashtray base with a speaker and powered by house current.

The new C-F line also features two 21-inch color tv sets. One retails for \$795 and the other for \$895. Price range on the new mono-chrome sets runs from \$169.95 to \$389.95.

Standard Electronics Sells New Studio Control Unit

STANDARD ELECTRONICS Corp., Newark, N. J., subsidiary of the Dynamics Corp. of America, last week announced its newly developed "Studicon," a studio control switching unit which enables studio operators to select particular channels for transmission of the studio output.

First installation of the new unit, which eliminates the necessity for a master control.

COLOR SIGNAL CERTIFICATION

A vector display monitoring and test instrument for color signal certification. The VDE-3A incorporates a high-definition Display Oscilloscope, with edge-lighted calibrated overlay. Camera mounting facilities are provided for photographic records of vector display, plus continuous operating check. Equipment features self-calibrating circuits for accurate and dependable signal certification. Protective covers included for safe portability. Display Oscilloscope, Decoder-Keyer, and Burst-Controlled Oscillator available as separate items. The VDE-3A is supplied complete with regulated power supply and mounting rack.

ESTABLISHED 1920

12TH STREET AND FERRY AVENUE

CAMDEN 4, NEW JERSEY

ERNEST DEUTSCH (I), broadcast engineer for Standard Electronics, and Ralph Schlegel, technical facilities supervisor for WOR-AM-FM New York, watch the Studicon control box in operation in the control room of the station. Mr. Deutsch designed and developed the Studicon unit.

is being made at WOR-AM-FM New York. The station's chief engineer, Charles Singer, estimates that the equipment will save WOR \$60,000 in operating expenses, SE reports.

In the 12-studio, four-channel WOR operation a Studicon control box is located in each studio and permits the studio operator to select particular channels for transmission of his studio's output. For each channel, control elements include a lever key which activates the channel, a "channel-in-use" light to notify the other 11 operators, a "studio-on" light to indicate to an operator his studio's control of a channel, an "emergency line amplifier" for use in case of failure of the operating line amplifier, and an indicating lamp which indicates a spare amplifier is being used. These controls, SE explains, are duplicated for each channel.

Bonfig Reports CBS-Columbia Will Put Stress on Quality

CBS-Columbia plans to increase emphasis on the design, development and production of quality television and radio receivers and to strengthen its national distribution system.

These two points highlighted a policy statement issued to distributors last week by H. C.

Bonfig. president of CBS-Columbia, the tv and radio receiver manufacturing division of CBS. The message, sent in the form of a recording, was the first policy message made by Mr. Bonfig since he became president last month.

Mr. Bonfig told distributors not to expect an "overnight rise" on the part of the company, but said CBS-Columbia already has augmented and strengthened its engineering and designing staff with the view of manufacturing improved products. This, in turn, will lead to reinforcement of the company's national distribution system, he added.

MANUFACTURING SHORTS

Rust Industrial Co., Manchester, N. H., is producing new 24-function remote control system. Models 108-0D and 108-1D, units are designed for use in directional and multi-transmitter installations where up to 24 control and metering functions are required and are custom-engineered to each station's specifications, featuring drop down panel construction and no tubes.

Hallicrafters Co., Chicago, has reported 20% increase in tv unit sales, with overall sales of \$5,799.089 and earnings of \$88,197 for fiscal quarter ending May 31. Net profit after taxes was \$363,438 and sales were \$18,635,074 for nine months ending that date. For same three quarters last year sales were \$23,226,340 and firm showed loss of \$1,029,935. In third quarter 1954 sales were \$7,514,119, loss of \$80,598. Company reported profit in all product lines and 825,000 shares outstanding, with biggest unit and sales dollar increases in communications.

Houston Fearless Div., Color Corp. of America, L. A., has introduced new film processor, Labmaster, for processing 16mm negative or positive black-and-white film. Unit is completely self-contained. Film is transported by friction clutch drive and speed of operation is variable from 10 to 35 ft. per minute, depending on type of film, energy and temperature of solutions. Developer and fixer tanks have temperature control and recirculation is provided for developer. All tanks have bottom drains.

Ampex Corp. (magnetic tape recorders), Redwood City, Calif., reports sales of \$8,163,000 for fiscal year ending April 1955 compared to \$5,418.000 previous year and profits after taxes of \$365.736 against \$25,691 fiscal 1954. Outstanding shares are 528,740 and earnings per share after taxes this year are 69 cents compared to six last.

Probescope Co., Long Island City, N. Y., has designed new portable miniature oscilloscope, weighing $8\frac{1}{2}$ lbs., 9 in. high, 6 in. wide, 5 in. deep. Unit has input impedance of 2 megohms shunted by 15 mmfd; 10 to 1 attenuator; vertical sensitivity of 100 mv full scale; sweep rate for 20 c to 30 kc in five steps, according to company.

Ampex Corp. (tape recording equipment), Redwood City, Calif., and John F. Rider Publisher Inc., N. Y., approved for membership in Institute of High Fidelity Mfrs., bringing total to 34.

Phileo Corp., government & industrial div., S. F., moves to Suite 417, 1355 Market St. Lewis J. Boss is regional sales engineer covering northern Calif., Ore., Wash., Idaho, Nev., Utah, Colo., Mont., Wyo., Alaska, and Hawaii, associated with Griffin L. Ashby, formerly with G&I Denver office.

British NTI

IINUTE-BY-MINUTE viewing habits for f tv homes in Great Britain are now in sing measured by A. C. Nielsen Co.'s white v Index division there. Nielsen's patt ated Audimeter device for automatically in a continuously measuring audience size is being used, according to Graham who the division in Oxford. iso to be installed will be the Recordiineter that records data on the number in the people watching a program. Mr. Dowuon said Nielsen expected more than 600 somes will be covered in the London rea.

DADCASTING . TELECASTING

when they will start color, but with CBC beginning next year, it is likely that some of the stations on the microwave network in southern Ontario will install color equipment.

Pilot Studies Completed On Four Canada Tv Centers

PILOT surveys have been made for Canadian television centers for the first time by the Bureau of Broadcast Measurement, Toronto. The first surveys to determine A, B and C zones of coverage have been made for CFPL-TV London, CKCO-TV Kitchener, CKLW-TV Windsor and CHCH-TV Hamilton, all Ontario. The BBM has issued preliminary reports on its findings with estimated number of households in each zone, estimated number of tv households and percentage of tv households.

The four stations in the first survey have overlapping coverage areas which BBM expects to be able to estimate in a later report.

Indonesia, India to See Tv At International Exhibits

TELEVISION will be shown to two Asiatic countries for the first time during the next six months as part of the U. S. exhibit at international trade fairs, the U. S. Information Agency has announced. The fairs will be held at Djakarta, Indonesia (Aug. 12 until Sept. 18), and New Delhi, India (Oct. 29 to Dec. 15).

The Voice of America, broadcasting service of USIA, has assigned A. Vance Hallack, former NBC executive, to recruit local talent in the two Asian countries for the tv programs, which will be shown over closed circuit at the fairs. RCA is supplying the equipment and a 10-man team to produce the shows.

In addition to live programs featuring native talent, Mr. Hallack is expected to schedule programs using American films and kinescopes.

Westerns Elect Dallin

VERN DALLIN, CFQC-AM-TV Saskatoon, Sask., was elected president of the Western Assn. of Broadcasters at its recent annual convention in Jasper, Alta. He succeeds Sid Boyling, CHAB Moose Jaw, Sask. Directors elected were C. J. Rudd, CHUB Nanaimo, B. C.; Bob Buss, CHAT Medicine Hat, Alta.; John Craig, CKX-AM-TV Brandon, Man.; Harold Crittenden. CKCK-AM-TV Regina, Sask., and Maurice Finnerty, CKOK Penticton, B. C.

Canada Tv Set Sales Rise

CANADIAN sale of television receivers continues to boom. In the first five months of 1955 a total of 218.350 sets were sold, valued at \$67,388,429, compared with 158.890 sets sold in the first five months of last year. Most sets sold were in the 21-inch screen size, accounting for 157,321 sets of the total sold this year. The report, released by the Radio-Electronics-Television Mfrs. Assn. of Canada, shows that Ontario continues to be the largest buying area for tv receivers, accounting for 63,750 of the total sold in the January-May 1955 period, with Quebec province accounting for 49,959 tv sets.

----- EDUCATION ---

Tv in Morocco Folds

TELMA, the television broadcasting company operating two stations in Casablanca and Rabat, French Morocco. has been forced out of business by "financial reasons." Stations closed down recently and the set owners formed an organization to secure a return from Telma on expenditures for tv receivers for which there is no further use. There are no other operating tv outlets in the area.

Station Gives \$65,000 To Fla. Educ. Tv Group

EDUCATIONAL TV in Jacksonville, Fla., is nearing reality. The Jacksonville Broadcasting Corp. (WPDQ-AM-FM, applicant for ch. 12 there) last week pledged \$65,000 to Educational Television Inc., applicant for a construction permit to operate on ch. 7 Jacksonville. Educational Tv Inc. represents cultural and educational groups in the Jacksonville area.

The pledge from Jacksonville Broadcasting follows by about three weeks a pledge of a \$69,000 transmitter by WMBR-TV Jacksonville [B•T June 27], and brings total assets of Educational Tv Inc. to \$334,000, according to Dr. Heywood Dowling, president.

In announcing Jacksonville Broadcasting's gift, Dr. Dowling said, "With this gift we are currently in a position to purchase all the remaining equipment we need...."

Commercial KSFO Pledges \$5,000 to Educational Outlet

PLEDGE of \$5,000, to be paid in five annual payments of \$1,000, has been made by KSFO San Francisco to educational KQED (TV) Berkeley (San Francisco), Wesley I. Dumm, president of KSFO, has announced.

The first payment was made on July 1 when

ROMAN WASSERMAN (r), executive vice president-general manager of KSFO San Francisco, and James Day, general manager of educational KQED (TV) Berkeley, hold the \$1,000 check which San Francisco Broadcasters Inc. (KSFO) gave KQED.

Roman Wasserman, who on that day became executive vice president-general manager of KSFO, presented a \$1,000 check to James Day, general manager of ch. 9 KQED. Payments will continue for the next four years, providing KQED continues to operate as an educational station. KSFO said.

The award on behalf of San Francisco Broadcasters Inc., operator of KSFO, was made in a formal presentation over that station.

Educ.-Commercial Tieup Plan Warned Against by Educators

SUGGESTION that the FCC establish a new catagory of "commercial-educational" assignment, proposed by KGTV (TV) Des Moines as a means of switching the educational reservation from ch. 11 there to uhf [B•T, June 6, July 4], was termed "ill-conceived" by the Joint Committee on Educational Tv in a reply brief filed last week with Commission.

"The history of educational institutions oper-

ating standard broadcast stations proves clusively that share-time arrangements betw commercial interests and educators simply not and cannot work," JCET said. It qu from a 1937 study, "Education's Own Static by S. E. Frost Jr., U. of Chicago Press, 1 to show that of the 202 educational station censed in the fifteen years between 1921 1936, only 38 were still in operation at the ginning of 1937.

"This history also proves that when the r riage is broken up it is inevitably the edtional station that is evicted," JCET said. also noted that of the six share-time arraments authorized for commercial tv opera (St. Louis, Phoenix, Lafayette [La.], Monte' Salinas [Calif.], Minneapolis-St. Paul and Reester [N.Y.]), only Rochester still was in eence.

A similar plan for commercial-educatic operation of a commercial assignment is of the proposals in the comparative hearing ch. 10 in the Parma-Onondaga, Mich., area.

In-School Teaching by Ty To Be Tested in St. Louis

A GRANT of \$95,110 made by the Fund the Advancement of Education to KETC (1 St. Louis will be used by the educational c let to finance an experimental program classroom instruction for elementary and s ondary schools.

As explained by Philip J. Hickey, act chairman of the St. Louis Educational Commission, the experimental work will conducted in three areas: a second grade sp ing course; a composition and grammar coufor ninth grade students, and a second school course in science. These courses whe televised over KETC as part of the stion's in-school programming for the nschool year.

Mr. Hickey said the experiment is beundertaken "to determine whether or not c tain educational processes can be given way of television to large numbers of child more effectively than ever before thought p sible." He added that with the current teach shortage this experiment could have a nativ wide effect by demonstrating that certain ty of tv instruction might effectively supplem the traditional classroom work.

Potential 46 Million Audient Forecast for Eductional Tv

TOTAL potential audience for educational when 26 non-commercial stations are on air will be 46 million, the National Citiz Committee for Educational Tv reported ¹ week.

A survey showed, the committee's Execut 1 Director Robert R. Mullen said, that 13 edulu tional stations were under construction, which when joined with the 13 now on the air, v be within reach of the 46 million populace 10 million more than the nation's present sch enrollment.

In about 100 other cities, Mr. Mullen subtree has been sufficient interest in education ty to justify "optimism."

Eleven of the 13 stations under construct are vhf, two are uhf. Of the 13 stations pon the air, 10 are vhf, three are uhf.

EDUCATION SHORTS

U. of Nebraska through its educational out KUON-TV Lincoln, is conducting several be courses including three-semester credit he course, "Education 59," audio-visual educati al materials course for teachers.

GS AND FIREWORKS

Ted Bergmann, Dus managing director, and Ted Cott, genhanager of DuMont's owned-and-operated is, were co-hosts at the affair, held at the ont Tele-Centre studios. In addition to ling refreshments for the children, the stawarded hundreds of prizes and games and ged entertainment by WABD personalities.

T (TV) AIRS DEDICATION

CATION ceremonies for the new Los es Mt. Sinai Hospital, non-sectarian, non-253-bed institution, were telecast by T(TV) Hollywood last month. The hourtelecast included a tv tour of hospital ies, plus commentary by Eddie Cantor. rd Arnold, Richard Boone, Marjorie Lawand others,

STATION STYLE NOTE: Engineers and announcers at KLRA Little Rock claim to be the first station staff in the country to discard "hot long trausers" in favor of "cool, comfortable shorts," but they expect to have plenty of company before summer ends. Here are four KLRA staffers (I to r): Cliff Ford, Al Dent, Ed Summers and Bob Hicks.

TV AND TB

EDUCATIONAL project-contest on tuberculosis, "Tv Spotlights TB," was staged among high school seniors by WBNS-TV Columbus, Ohio, in cooperation with the Tuberculosis Society of Columbus, Columbus Gallery of Fine Arts and Franklin County (Ohio). Seniors were asked to submit a 20-second spot announcement on some phase of TB along with an illustrative sketch. Twenty semi-finalists were selected for accuracy and creative ability from over 300 entrants and were auditioned by a board of judges to reduce the final number to six. The finalists transcribed their own scripts and will be heard with their original artwork over WBNS-TV throughout the summer. In addition the Columbus Gallery is awarding one \$250 and two \$25 scholarships.

'PROPAGANDA'

NEW PROGRAM being aired weekly by WBAL-TV Baltimore is *Propaganda*, conducted by Leona Morris of the Baltimore Junior College faculty. The show, available for college credit, traces growth of propaganda as force for thought control and shows how it has changed the course of history and swayed the masses. Posters, pictures, film clips, books and other media used to influence thought are being used as props and guest experts in the propaganda field are planned.

NEWS AS IT HAPPENS

SPOT coverage of news events as they occur is the format of a new program aired by WMAQ Chicago, with Karin Walsh, city editor of the Chicago Sun-Times. holding down the Night Desk each evening from 10-10:30 p.m. Mr. Walsh carries on two-way conversations with WMAQ roving reporters and listens to police calls. All conversations are heard by listeners, including directions to reporters and calls to public officials to confirm news reports. The program was conceived by William Ray, news director of WMAQ.

LIVE PRIZE

RAYMOND E. SPENCER. personality of KFSD San Diego, Calif., climaxed a six-week contest by awarding himself as first prize to housewife Mrs. MacArthur Gorton Jr. Contestants wrote in letters on why they wanted to win Mr. Spencer's services for a day. Mr. Spencer originated his usual morning shows from the Gorton patio beginning at 5:30 a.m. and Mrs. Gorton used her award to scrub the kitchen and clean the house. Visitors dropped in during the morning to be interviewed and contribute to the Cerebral Palsy Fund. A highlight of the broadcasts was a vivid description by six-year-old Cindy Gorton of the birth of five kittens a few days earlier in the Gorton household.

MOTORISTS in Albuquerque, N. M., are getting a look at the personalities of KDEF there on four billboards located on principal thoroughfares. Disc m.c. Bernard Thomas and News Editor Ben Caine adorn this sign while blowups of personalities Bill Previtti and "Saddlebags" Griffin are featured on others. Three of the billboards are illuminated and the fourth has reflective lettering. KDEF reports receiving many favorable comments from the promotion, even from competitors.

DISC M.C. ON RECORD

SPECIAL 45 rpm record featuring Al Ross, new morning "Timekeeper" personality of WRC-AM-FM Washington, has been mailed to advertisers and agencies by the stations. The record, custom-made by RCA Victor. may be played on home phonographs and it highlights samples of Mr. Ross' *Timekeeper* show. In addition, the stations mailed a clock-shaped brochure describing Mr. Ross and his program.

'GO TO CHURCH TOMORROW'

THIRTEEN 5-minute newscasts each Saturday on WSNJ-AM-FM Bridgeton, N. J., urge listeners to "Go to church tomorrow." Now in its third year, the Go to Church programs are sponsored by 13 businessmen representing 11 Protestant churches. Immediately after each newscast, an invitation to attend church is extended by the business firm, followed by a 30-second recorded message from the businessman's minister. According to WSNJ-AM-FM, the pastors have commented that the programs have resulted in an increased church attendance.

WNCT (TV) KIDDIE CONTEST

KIDDIE King and Queen of Dairy Month contest on a special Dairy Month Show sponsored by the North Carolina Dairy Assn. on WNCT (TV) Greenville, N. C., pulled over 12,000 post cards from viewers voting for their candidates. The crowning of the winners on the Saturday morning *Kiddie Corner* program was attended by 300 studio guests. An ice cream and cake party for the youngsters followed.

ANSWER TO 'MONITOR'

CBS o&o WBBM Chicago is broadcasting its answer to NBC Radio's *Monitor*—a weekend program called *The Mal Bellairs Show*, beamed directly at a "mobile" Chicago audience. The show is aired Saturdays, 1-5 p.m., and Sundays, 1:05-4:55 p.m., and includes reports on the weather, traffic services, news and sports, special tape conversations and other features. As an example, baseball scores are read from sports tickers every half inning under a "new concept in baseball coverage" eliminating the need for airing the play-by-play.

SURVEYS AND SURVEYS

TAKING OFF on promotion pieces which are based on surveys, WRRR Rockford, Ill., has distributed the results of its own which found the station to be the most popular by 971/2 to 2. "Using the most recent survey techniques," WRRR says, "O.A.R.O. (Our Affiliated Research Organization) invited 100 relatives and close friends of the station staff to be interviewed at our studio during various hours of the broadcast day. With speakers turned up loud (to avoid the possibility of O.A.R.O. hearing unfavorable answers) this sample crosssection of Rockford people was then asked this question: To what station are you listening right now? 971/2% said WRRR." The station goes on to explain 2% refused to answer because they had relatives working for other advertising media and could not make a statement unless paid "the customary fee." On the basis of these findings, WRRR determined more people listened to it "than to stations B, C, D, E, F, G, H and XYZ combined." That unaccounted 1/2 %, says the station, is a hazard of research and in this specific survey is a oneeared man who statistically is only a halflistener. In a serious note, the outlet says there are two kinds of surveys: one that is made to prove something (like its exaggerated own) and one made to learn something (to which it really subscribes). "We might be able to kid some advertisers for a while," but "sooner or later the truth will out," WRRR advises.

'MEET THE SPONSOR'

CFGP Grande Prairie, Alta., broadcasts a weekly program, *Meet the Sponsor*, originating in the sponsor's place of business. The show is designed to personalize the local businessman and his place in the community.

OUTDOORS WITH HAL DENT

SPORTING ACTIVITIES ranging from gar hunting to making duck decoys is tured on a new series of television progi-Outdoors With Hal Denton, originatin CBUT (TV) Vancouver, B. C., and being ried weekly on the CBC tv network. The hour programs include telecasts on "threa spinning," a new form of fishing sweeping nada; correct loading of pack-horses; fis in remote areas with use of chartered airpl and demonstrations of taxidermy. The proj is producerd by Hal Denton, a sportsman has fished in practically every part of Ca and who has conducted a sportsman's prog on CBUT for the past two years.

ON A SUNDAY AFTERNOON

PROMOTION campaign to point up the day afternoon music programs of CBS R has been launched by the network and will tinue through the summer. Emphasis is several programs scheduled between 1 6 p.m. To promote the lineup, CBS has chased 1.000 line ads in New York, Bo Chicago, St. Louis, Los Angeles and San F cisco Sunday newspapers, markets where work o&o stations are located. In addi promotion kits containing announcem photos, star biographies, ad mats and mat for disc jockeys and women's commente will be mailed to all affiliates.

KALB SPONSORS MISS CENLA

KALB Alexandria, La., this year sponsored the first time the Central Louisiana Be Pageant, with Walter Melson, manager of station, as m.c. Mr. Melson reports thousa of people from Alexandria and a 150 1 radius attended the event and that no publi in newspapers or other media was used to d the crowd. The pageant was attended by A andria Mayor W. George Bowdon Jr., who sented the Miss Cenla 1955 trophy to the V ning contestant.

INVITATION TO ADVERTISE

INVITATION "to join our family of ad tisers" has been issued to agencies and ad tisers by WDOT Burlington, Vt. The protion says, "WDOT at 1400 on your radio i requests your participation as an active me ber of our family of advertisers. Proudly mi taining our position of second in the area lising habit, your advertising will profit you WDOT continues its rapid growth to the R.S.V.P."

CHRISTMAS IN JULY

IT WAS Christmas in July over the Fourth in San Diego as KFMB there conducted what it terms "the greates promotion ever staged" in the city Emerson transistor radios gift-wrapped in red "Merry Christmas" paper and rib bons complete with firecracker "orna ments" were sent to 100 agency heads and radio station account executives at agencies. Attached were colorful greeting cards displaying a Christmas tree decorated with pinwheels and firecrackers The card said, "We just couldn't wait We're so fired up over KFMB radio and our association with you we had to give you a Christmas gift in July."

All applications handled confidentially,

Radio WFAA

Alex Keese, Manager

On the Spot

-editorials

 $\mathbf{R}^{\mathrm{ADIO}}$ is more than network radio; television more than network tv.

Those elementary truths seem to have been forgotten by some of our contemporaries in the advertising press who have blithely compared national advertising in newspapers and magazines with that on the radio and tv networks and discovered that newspapers are the greatest national ad medium. This finding has naturally been widely reported in the nation's newspapers.

We hate to be a spoilsport, but someone must point out that such a comparison completely overlooks the national spot advertising on radio and tv—estimated at more than \$400 million gross for 1954. When spot business is added to network in tv, the total comes close to the newspapers' national advertising volume for 1954, seems sure to pass it this year and become the top national medium. Adding spot dollars to network in radio gives this medium a far more accurate evaluation than that indicated by network figures alone.

The spacemen may quote Shakespeare's line: "Out damned spot." But let no buyer forget that in the recently published space and time comparisons, some of our media are missing.

Paul W. White, Trail Blazer

IF Paul White had written his own obituary, it would have read: San Diego, July 9—Paul W. White, 53, newsman, died here today. He had served with the United Press, CBS and KFMB-AM-TV San Diego.

Paul White didn't regard himself as newsworthy. Yet he practically invented what we now call electronic journalism. He made radio reporting adult, and it carried over to tv. He created the techniques of radio news writing, departing from the cumbersome style of the printed page. He put together an international newsgathering organization in the teeth of organized newspaper-press association opposition. That was during those broiling thirties, when he founded and headed the CBS News Bureau.

In those days of the press-radio war, Paul White had no patterns to follow. He cut his own. How well he did it is reflected in what prevails today in electronic journalism. He hired Murrow, Kaltenborn, Shirer, Davis, Eliot, Trout, Sevareid, Collingwood, Edwards, Daly, Huntley, among others. He was so dedicated to his task that it broke his health. But he kept on trail-blazing.

After CBS and quasi-retirement to rebuild his health, he joined KFMB. Here, at the local level, he launched a new crusade. He was among the first to editorialize on the air. Through initiative and tenacity, an editorial campaign succeeded in clearing a man wrongly accused of subversion by the Navy. It was but one of many campaigns he conducted until his energy gave out.

For months Paul White knew he was wasting away. He discussed his funeral arrangements with his old friend and former KFMB boss, Howard L. Chernoff. He told him that he wanted no flowers but that any monies contemplated for them be used to establish an exhibit at the San Diego Zoo, one of his favorite places.

This was typical of the dynamo who had covered the biggest stories of his generation and who had organized and sparked the most competent and efficient news organization in radio. He was both tough and gentle. Korea or kids were equally important.

Three years ago he devoted one of his KFMB 15-minute editorials to a 16-year-old lad who had written to him about a job in tv news. He told the boy how to prepare for the career. He advised him not to become a "piece of hlotting paper soaking up what others tell you" but to "learn to examine your information, to weigh it, to reason from it."

"And it's quite possible," he observed, "that prayer and worship will beip, too. That's a matter between you and your conscience and your God."

Ailing at the time, Paul White had a final word for the aspiring newsman:

"Along the way, have fun. Don't save up fun as something you can spend in the twilight of your life. It just doesn't keep. However dominant your ambition, however serious your application

"Here's a real buy! Just repossessed! Loaded with extras! Two-tc ... Hey! This is my car!"

toward self improvement, have fun as you go along, particularly your youth."

Paul White, 53, probably would be with us today if he had h lowed the advice he dispensed so freely.

The Big Picture

C OLOR television development has been disappointingly sl in the year and a half since the compatible system was au orized by the FCC, but there is evidence that next fall color w at last begin to roll.

True, the evidence is fragmentary. Of all the major broadcasti and manufacturing interests, only RCA is talking bullishly abc color. And RCA itself is hedging its public comments with plet of ifs about color set production and prices.

Yet there are persistent trade reports that RCA, and perhaother receiver makers, will get into quantity production by fall color sets which are less expensive than those now available. If production is really on the verge of rolling, it will have to be a companied by a general acceleration of color television programing. Nobody is going to buy a color set, even at lower prices, see what he already sees on his black-and-white receiver.

In the past year both CBS and NBC have broadcast an astonishi volume of color programs, considering the scarcity of color se Both have plans to expand their color schedules next season.

A number of stations have undertaken ambitious color origin tions. Only last week, for example, WBAP-TV Fort Worth doubl its schedule to provide 11 hours a week of local color programmin

The stations which have invested in equipment to originate localize and film shows are, however, the minority. More stations have installed only the gear necessary to relay network color, and son of course, have not touched color at all. The majority of telecaster obviously are waiting until there is more immediate prospect a color audience before they buy colorcasting gear. It is qui understandable that telecasters should hesitate to make a substant investment in color equipment as long as most set manufactur and their dealers and distributors talk little and do less about co set production.

We cannot help feeling, however, that an investment in coequipment and in experimenting with it will pay off for telecast sooner than some expect. It seems to us that the inherent qualit of color television as an advertising medium are so superior to the of other visual media that color tv will explode once the cois pulled.

It will be cheaper and speedier to produce than color advertis in newspapers and magazines. Its color fidelity will equal if i surpass that of the slickest magazines and will make even the b newspaper color look amateurish by comparison.

If television has created an advertising revolution in black-at white, it will create a bigger revolution in color.

FIRST in the land of 10,000 lakes!

Seven years ago, KSTP-TV went on the air the *first* television station in the rich Northwest. Since that time, KSTP-TV has added many "firsts" to its record—first with maximum power, first with color TV—and has maintained leadership in this FOUR BILLION DOLLAR market!

This year, KSTP-TV is breaking all sales records with summer sales reaching new peaks. The reasons are simple. Alert advertisers know that more than $2\frac{1}{2}$ MILLION people will visit the "land of 10,000 lakes" this summer and that they will spend nearly 50 MILLION DOLLARS here in July alone!

These advertisers also know that KSTP-TV has earned a listener loyalty through superior entertainment, talent, service and showmanship that means sales. That's why it's the *first* buy in this important market.

For further information, contact your nearest Petry office or a KSTP-TV representative *today*.
