WHEELING: **37**^{*} TV MARKET

One Station Reaching The Booming Upper Ohio Valley

NO.8 IN A SERIES: NATURAL GAS

Television Magazine

An outstanding contributor to the prosperous progress and the far-reaching future of the WTRF-TV area is the Manufacturers Light & Heat Company of the Columbia Gas System. Since 1945 Manufacturers has expended more than \$165 million to improve its distribution of vital natural gas to the industrial giants which make the WTRF-TV area the Ruhr of America . . . gas, too, for heating, cooking and cooling to the 425,196 TV homes which comprise the WTRF-TV market, where 2 million people spend $2\frac{1}{2}$ billion annually. Manufacturers \$6 million annual payroll (estimated for the WTRF-TV area) helps make this a super market for alert advertisers.

> Typical of Manufacturers progress is this new \$4 million compressor station at the Majorsville, W.Va., storage field, a vital link in Manufacturers' natural gos distribution system. More than 30 billion cubic feet of gos are in underground storage of Mojorsville.

For availabilities, call Bob Ferguson, VP and Gen. Mgr., or Needham Smith, Sales Manager, at CEdar 2-7777. National Rep., George P.

ARB

KRLD-TV IS FIRST again!

FIRST IN AUDIENCE: ARB's latest Dallas-Fort Worth report shows that KRLD-TV dominates in audience share from sign-on Sunday morning to sign-off Saturday night. The Nielsen Station Index (November, 1958) also shows more TV homes watch KRLD-TV than any other station in the Dallas-Fort Worth area!

FIRST IN POPULARITY: The latest Dallas Telepulse lists 15 out of the top 18 once-a-week shows and seven of the top ten multi-weekly shows — all on KRLD-TV.

FIRST IN AREA OF COVERAGE: KRLD-TV, with its low-band channel, and telecasting with maximum power from its tremendous tower (1,685 feet above average terrain), has the largest circulation of any station in the southern United States!

closed circuit.

DEC. 31 DEADLINE • Dr. George Town, executive director of Television Allocations Study Organization, has New Year's Eve chore which his friends hope won't interfere with festivities in seeing New Year in: He's promised faithfully that he will get final report in mails to members of TASO board of directors before 1959, even if it means Dec. 31 mailing. Since directors must approve report before submission to FCC, looks like it may be mid-January before uhf-vhf propagation and equipment analysis and recommendations are in hands of FCC. TASO has one more project underway. This is study of use of directional antennas. This won't be completed for several months, it's understood. TASO was set up late in 1956, following call for "crash program" by then FCC Chairman George C. McConnaughey.

There's more than ASCAP consent decree's so-called "most favored nations clause" for radio stations to think about in deciding whether they'll (1) sign up for one-year license renewals on present terms -which was ASCAP's offer-or (2) ask court to set "reasonable" rate. Latter is course favored by All-Industry Radio Music License Committee since ASCAP said radio stations would get lower rates no other way [LEAD STORY, Dec. 8]. Some legal experts, pointing out that ASCAP has already renewed number of licenses at present rates until late 1963, interpret consent decree to mean this fact alone will prevent court from fixing higher rates, but there's no universal agreement on this. Others interpret other provisions of decree as not necessarily preventing court, as distinguished from ASCAP. from setting higher rates.

ANOTHER AVENUE . Actually, according to number of experts, there's a third course open to stations, aside from oneyear renewals or court fight. This is to ask for five-year renewals like those ASCAP was granting up to few months ago. These authorities feel that while various consentdecree provisions might or might not keep court from setting higher fees, they specifically would prevent ASCAP itself from refusing to issue five-year renewals like those it's been granting. According to this body of opinion, then, stations individually must decide whether to (1) go to court and take their chances on higher fees; (2) accept one-year renewal and take chances they'll be no worse off than if they went to court, (3) ask for five-year renewal and hope they guessed right and won't have to live five years with rates worse than if they went to court. All-Industry Committee, of course, seems confident that court will lower rates though it agrees such lowered

rates would not be applicable to stations that renewed and didn't go to court.

At urging of affiliates, ABC-TV will change policy on breaks in daytime shows beginning Jan. 5. Network will allow for one 63-second break at end of half-hour shows rather than two 30-second breaks, one at middle, one at end. Affiliates say it's easier to sell one long time period than two short ones. New break will allow for 60-second spot, 3-second local 1D.

SPECTRUM EVALUATION • Lid is tightly clamped on activities of President's Special Advisory Committee on Telecommunications which is making quickie exploration of frequency allocation and management problem [CLOSED CIRCUIT, Dec. 15] with report due by first of year. With only meager information on which to go, it's generally thought that committee is functioning as pilot group and won't attempt to make depth recommendations. Rather it's felt it might recognize need for overall spectrum analysis, either by special government commission or possibly, as proposed on Hill, by joint congressional committee on spectrum utilization and allocations. Report first will go to OCDM Administrator Leo A. Hoegh and thence presumably to President Eisenhower.

Christmas wasn't what it used to be for FCC members and their families. Prior to House Oversight Committee hearings, commissioners found themselves surfeited with all sorts of offerings—mostly delectable edibles like country and Smithfield hams, smoked and fresh turkeys, quail, fruit baskets, cheese, nuts and other delicacies. This year, according to commissioners' wives, pickings have been slim indeed, being mostly calendars, letter openers, candles and other standard non-edible trinkets.

MORE TIME NEEDED • FCC will wind up 1958 exactly where it started year consideration of tv allocations. This Wednesday (Dec. 31) Commission is due for final staff briefing on allocations in hope that it can come close to agreeing on report to Senate when it convenes Jan. 7. But prospects were dim for any conclusive action.

In its consideration of various alternatives [CLOSED CIRCUIT, Dec. 22] cursory consideration has been given to possible easing of vhf situation by moves out of New York and Los Angeles (each having seven v's) possibly two or three assignments. But there are many complications and, unless stations themselves applied for moves, it's feeling nothing can be done short of general reallocation.

1960 • From logistics standpoint, networks would prefer to see national political conventions held in New York in 1960 but would settle for Chicago and, perhaps, not too reluctantly accept San Francisco. Rub is that there's no assurance that conventions will go to same city or that either of three cities will be selected. Still definitely in running are Philadelphia and Miami, with former apparently having much to commend it in eyes of both GOP and Democratic committeemen.

Because Chicago has had all except two Democratic conventions since 1932, other city bidders make no bones about their feeling that Windy City should not have "monopoly" on quadrennial forgatherings. Networks also have let it be known that if same city is selected by both parties, they would want minimum of week separation between conventions. If different cities are selected, their requirements will be mininum of two weeks.

ALL FOR ALVAREZ • Helen Alvarez, who last spring sold her interest in KFMB-AM-TV San Diego and KERO-TV Bakersfield, both California, to co-owner Jack Wrather Jr. [AT DEADLINE, May 12], is looking over tv properties with reported goal of acquiring legal limit of five vhf stations. Possible first of new Alvarez list: KLAS-TV Las Vegas, if preliminary conversations with owner, H. M. Greenspun, also publisher of the Las Vegas Sun, materialize.

There are internal stresses within FCC on how to handle community antenna problem. One school feels that FCC should not authorize microwave relays for CATV unless applicant has consent of originating stations to pick up programs but Common Carrier Bureau, which handles CATV permits, insists this isn't necessary. On other hand, FCC requires consent of originating stations for translators, boosters and other means of providing extended service.

DIM PROSPECT • Incidentally, FCC experts put little credence in suggestion that CATV operators could finance cost of buying tv broadcast rights by selling time to local advertisers [CLOSED CIRCUIT, Dec. 22]. Once they accept advertising for pay, it's pointed out, they would no longer be simply supplying antenna service but actually would become program contractors which would subject them to licensing control as broadcast services.

WITH WJW-TV'S BIG MOVIES!

WJW-TV has skyrocketed to the top with the BIG STARS in all THE BIG MOVIES from Warner Bros, 20th Century, and United Artists. Take the late shows for instance at 11:20 PM-12:45 AM ... an average 9 A.R.B. rating Sunday through Saturday. Add to this the great new Paramount Features and you have a galaxy of stars selling for you. Represented by The Katz Agency, Inc.

THE WEEK IN BRIEF

Are Newspapers Oversold?—Blair-Trendex survey finds 36% of New Yorkers polled say they're not inconvenienced by closing of newspapers in current strike. On business front, radio-tv stations hang out SRO signs, some claim to have signed "strike advertisers" into next month, Page 27.

\$185 Million Worth of Account Switches—Automobile account bumping and wholesale changes among toiletries products helped make 1958 a peak year in agency switches. Settled among others were Buick, Chrysler, some Ford business, some pending Colgate-Palmolive business, the Kolynos affair, Maxwell House, Frigidaire, Swift & Co., Mennen, Pabst and some Chesebrough-Pond's. Page 29.

To Fight Co-op Ad Tax—Trade association and taxpayer groups plan to form ad hoc committee Jan. 6 to fight 10% manufacturers excise tax levied on \$2 billion annual co-op advertising expenditures. Federal Excise Tax Council sponsors meeting. Page 35.

Less Barter for Bon Ami--New 1959 ad budget for Bon Ami Co. delegates barter tv to less conspicuous role as cleanser firm gets set to introduce three new products on radio. Page 36.

Keyes, Madden & Jones Shifts—Chicago agency shuffles people and accounts as Executive Vice President Howard A. Jones moves up to succeed President Edward D. Madden, resigned. Page 36.

Summer Out-of-Home Listening at Peak—So reports Pulse which finds this segment of audience at its highest level in 1958. Survey covers July and August. Page 36.

Soap: Buys and Buyers—B. T. Babbitt Co. purchases Charles Antell Inc. several days after rival Colgate-Palmolive Co. buys Wildroot Co. Page 40.

National Theatres-NTA Deal—Court approval indicated for National Theatres' application to distribute film theatrically, removing roadblock to NT's stock purchase of NTA. Page 42.

Tv Network Gross Up—Billings in October were \$52.2 million for gain of 6.6%; in the January-October period the total went over \$460.6 million for a 10.1% advance. Page 46.

Moscow Trouble Again—NBC's correspondent Irving Levine spanked for censorship violations, denied microphone "until further notice." Move further curtails limited reporting from Moscow, leaves only ABC able to broadcast on the air. Page 46.

Screen Actors Balloted—SAG members are asked for opinion on whether the union should retain research company to conduct study of feasibility of SAG-AFTRA merger. Videotape jurisdictional controversy between the two unions is reviewed in SAG board report. Page 48.

Business Was Better—Tv advertising expenditures totaled \$1.42 billion in 1958, up 10% and an alltime record, NAB yearend summary shows. Radio rose 3% to \$641 million. Arrival of videotape as a basic broadcast facility described by NAB President Harold E. Fellows as one of year's most exciting developments. Page 51. **Tv Horse-Trading Criticized**—Report to House Committee proposes curtailment of station sales. Ban on *ex parte* contacts urged in recommendations by Robert S. McMahon, research specialist. Page 54.

Facing the Oversighters—Legislative Oversight Subcommittee meets in Washington today with congressional mandate to submit report by Jan. 3, when subcommittee expires. Report is far from completed with individual members having many divergent ideas on what recommendations should be included. Page 54.

Boston Ch. 5 Review Set—Boston ch. 5 rehearing begins Jan. 5. Boston Globe intervention bid goes before full Commission. Page 56.

Space Relay Tests—They're proving "excellent" to "near perfect." Atlas satellite communications techniques seen improving utilization of higher bands for long range communications, including tv. But, warning sounded that time is now for allocations for space communications. Page 58.

Radio-Tv in 1957: FCC Reports—Radio-tv broadcasting pushing \$2 billion in total revenues, commissions and talentproduction charges to outside organizations, FCC reports in 1957 annual financial report. Radio revenues in 1957 hit \$517.9 million, income up 11% to \$54.6 million. Tv revenues were \$943.2 million, but income dropped 15.6%, to \$160 million. Page 60.

Right and Wrong—Supreme Court told appeals court is right, wrong—as Justice Dept. and FCC submit views, respectively, on correctness of appeals court ruling that Philco Corp. has right to protest against renewal of licenses of NBC's WRCV-AM-FM-TV Philadelphia. Page **68**.

FCC Turns Down Five Tv Pleas—Commission denies requests for reconsideration of five orders involving television assignments. Page 68.

MR. MCINTOSH

People & Profits: One Point of View— L. R. McIntosh, executive vice president, Grant Adv., Detroit, says in MONDAY MEMO this week that the answer to today's high cost of doing business for the advertising agency (like anyone else) is to get the most output from the best people. It means careful hiring, training and, "inevitably, culling," to achieve top efficiency for best client service and agency net profit, he concludes. Page **89**.

Eidophore Color Projector Unveiled at Science Meeting

New large screen projection tv systemsaid to have contrast ratio as high as 100:1 -ready for first showing anywhere over weekend to national and international scientists attending Washington convention of American Assn. for the Advancement of Science. Gear was previewed Friday.

First demonstration of Eidophore, Swiss development, presented by CIBA Pharmaceutical Products Inc. on Saturday. System used four times at convention, all for live, color productions.

Eidophore, invented in 1939 by Dr. Fritz Fischer, professor of applied physics and director, Dept. of Industrial Research, Swiss Federal Institute of Technology, Zurich, produces 32x24 ft. monochrome, and 16x12-ft. color picture on metallized screen.

Projector is 65x25x48-in., weighs 800 lbs. Light source is 2,000-w xenon lamp. Color added using field sequential (color wheels) system.

CIBA has complete package in 35-ft. trailer. This comprises four tv cameras, two projectors, public address system, two large screens, control equipment. Cost of mobile unit is \$366,000.

Basic principle of Eidophore: Electrical impulses from camera control electron beam which bombards surface of film of oil on concave mirror. Light passing through resulting "wrinkles" in oil film is projected through special grating onto screen. Eidophore system uses electro-optical control of light beam from outside to produce picture (as compared to Schmidt system which uses high intensity tv tube).

Production models of projector expected to cost \$13,000 each for black-and-white, \$16,000 for color. CIBA announced it was working with 20th Century-Fox Film Corp. on broad commercial use of system.

Major Executive Changes Made In Leo Burnett Agency Shuffle

Leo Burnett Co., Chicago-based agency which passed \$100 million billing mark this month, today (Dec. 29), announces major executive shuffle. Mr. Burnett remains as chairman of board and chief executive officer; Richard N. Heath, president, becomes chairman of executive committee, and W. T. Young Jr., executive vice president, moves up to president.

Extensive staff moves also see following take more prominent titles: DeWitt O'Kieffe, director and one of founders, named senior vice president; Draper Daniels, vice president in charge of creative departments, named executive vice president; Joseph M. Greeley, vice president in charge of marketing, named executive vice president;

BROADCASTING

Philip H. Schaff Jr., vice president for finance, named executive vice president; Edward M. Thiele, vice president and director, named senior account supervisor.

Mr. Schaff also was elected to board of directors, as was Eldon M. Sinclair, vice president and manager of Canadian subsidiary.

Move called part of normal evolution to handle expanding business, and one which recognizes talent of agency's younger executives.

TV AUDIENCE UP

Tv network audience continues to gain; up 7% in average evening program audience and 5% in average daytime audience for January-November. Said Television Bureau of Advertising in releasing report Friday (Dec. 26) on 11 months of 1958: "[this] verifies the constant upward swing with the first 11 months of 1958 . . . setting new record highs." TvB reported aver-age weekday daytime programs reached 140,000 more homes per broadcast than in 1957 (total of more than 3.1 million homes), while nighttime program audience had average increase of 556,000 homes (total of more than 8.8 million homes).

Jack Wrather, J. Arthur Rank Join in Tv Crime Production

Jack Wrather organization of Beverly Hills, Calif., and J. Arthur Rank of London will join forces to produce new tv series, Interpol Calling, based on files of International Criminal Police Organization. Production is to start mid-February at Rank Pinewood Studios, London, with Antony Perry as producer. Budget of \$1.4 million has been allotted for 39 programs with world-wide distribution to be handled by Independent Tv Corp., owned jointly by Wrather & Assoc. TeleVision Ltd., London.

Arrangement is second British production

BUSINESS BRIEFLY

FARMING CAMPAIGN • Massey-Ferguson (farm equipment) Racine, Wis., has signed for sponsorship of Jubilee, U.S.A. (Sat. 8-9 p.m.) on "better than 100" ABC-TV stations effective Jan. 10 through end of 1959. Markets are scattered throughout country with exception of New York. Needham, Louis & Brorby, Chicago, is agency.

BOWLFUL • CBS-TV completed sale of sponsorships for its holidays football bowl schedule. Gator Bowl game between Florida and Mississippi past weekend (Dec. 27) bought by Carter Products (Sullivan, Stauffer, Colwell & Bayles), participating with Renault Inc. (Needham, Louis & Brorby) and R.J. Reynolds Tobacco Co. (William Esty Co.). Orange Bowl game between Syracuse and Oklahoma on Thursday (New Year's Day) will be sponsored by Reynolds, Carter and Capital Airlines (last through Kenyon & Eckhardt). CBS-TV already had sold New Year's Cotton Bowl game between Texas Christian and Air Force Academy to Texas Co.

association for Wrather. First was with Sapphire Films Ltd. for production of Four Just Men, also scheduled for early 1959 start. Joint Wrather-Rank announcement hailed association as marking entrance of Rank into tv film field, but last month agreement between Sol Lesser Productions of Hollywood and Sydney Box Tv, Rank subsidiary, was announced for production of minimum of four tv series at Pinewood with overall budget of more than \$5 million [FILM, Nov. 10].

In making U. S. announcement, Mr. Wrather stated: "This entry of the powerful J. Arthur Rank organization into tv production, with their vast experience and distinguished reputation in the world entertainment field, will strengthen ITC and the entire U. S.-British tv industry in the increasingly competitive international market."

ABRITRON'S DAILY CHOICES

Listed below are the highest-rating television network shows for each day of the week Dec. 19-25 as rated by the multi-city Arbitron instant ratings of American Research Bureau. A similar listing of daily leaders will appear in this space each week. The material, supplied to BROADCASTING Friday, covers the week through the preceding night.

DATE	PROGRAM AND TIME	NETWORK	RATING
Fri., Dec. 19	Person to Person (10:30 p.m.)	CBS-TV	23.6
Sat., Dec. 20	Perry Como (8 p.m.)	NBC-TV	29.8

Thurs., Dec. 25	Playhouse 90 (9:30 p.m.)	CBS-TV	19.0

at deadline

Gleason Released From Contract By Lever Bros., Pharmaceuticals

Jackie Gleason will bow out of weekly half-hour on CBS-TV (8:30-9 p.m. Friday), after Jan. 2 show. Lever Bros. and Pharmaceuticals Inc., co-sponsors, have agreed to release him from contract.

Louis G. Cowan, president of CBS-TV, said star would appear in four one-shot specials next season: Two dramatic shows. one musical and show tentatively titled *Mardi Gras.* Mr. Gleason is under \$100,-000 per year contract to network, whether he works or not, until 1972.

Mr. Gleason is said to want to concentrate on special programs, duck "rigors of a weekly comedy series." He had top-rated Saturday night hour program before 1955 season, when he switched to half-hour *Honeymooners* under \$7.5 million contract with Buick. That show was dropped from CBS-TV in 1956 after faltering against Perry Como, has since been in syndication. Latest series began Oct. 3 this year.

Both Lever and Pharmaceuticals have indicated they'll stay on in Friday night time. Top prospect at moment is full-hour western, *Rawhide*, in 8-9 p.m. period. If it gets green light, *Trackdown*, now in 8-8:30 slot sponsored by American Tobacco and Socony, would have to be moved.

Tax Hearing Scheduled

Public hearing scheduled for Jan. 8 by Internal Revenue Service on proposed revisions of excise tax on radio and tv receivers, phonographs, phonograph records and music instruments and exemption from tax of articles sold for use in further manufacture. Hearing will be held in Room 3313 Internal Revenue Bldg., Washington. Persons planning to attend should notify Commissioner of Internal Revenue by Jan. 5. Proposed regulations were published in *Federal Register*, Oct. 10.

KRCA (TV) Increases Spot Rates

Late changes calling for increases of \$25-\$200 in cost of announcements on participating programs at KRCA (TV) Los Angeles go into effect Thursday (Jan. 1) with usual six-month projection to current advertisers. Examples: Spots on NBC News (Mon.-Fri., 6:15-6:30 p.m.) rise from \$400 to \$425; on afternoon movies change is from \$250 to \$300; Charley Chan (10:30-11 p.m. Mon.) and Zobel (same time, Tues.) formerly \$800 gross, with discounts up to 50%, now are \$600 net with no discounts. At same time, KRCA institutes strip rate in Monday-Friday 7-9 a.m. period: \$175 net per week for 20-second spots, \$87.50 net for \$10 second spots. Purchase of basic Class AA station breaks of 20 seconds at \$800 net or 10 seconds at \$400 net entitles advertiser to maximum discounts on all additional spots. One-minute station breaks are now priced at $1\frac{1}{2}$ times applicable 20-second rates.

Justice Dept. Enters Hearing

Dept. of Justice has notified FCC it intends to participate in Boston ch. 5 rehearing on off-record allegations (see page 56). In official petition to FCC, Attorney General Rogers said antitrust division would participate, as it did in Miami ch. 10 rehearing. When Boston case was remanded to FCC to look into *ex parte* charges, court of appeals told Commission to notify Attorney General so he could intervene if he desired. Robert A. Bicks, first assistant to Judge Victor R. Hansen, assistant attorney general in charge of antitrust division, represented Justice Dept. in Miami case and presumably will play same role in Boston.

Sponsors Consider Satellites

Space satellites broadcasting commercials internationally under consideration at highest levels of Ford Motor Co. and Coca-Cola Co., according to statement attributed to Washington communications lawyer Andrew G. Haley, president of International Astronautical Federation. No law against it, Mr. Haley said Friday, but what he meant, he explained, was that he had heard officials of both companies discuss potential use of space relays for such purposes. Gist of statement, he emphasized, was urgent need for international action quickly in allocation of frequencies for space communications.

O'Neill Named WERE Chairman

Hugh M. O'Neill has been elected chairman of board of Cleveland Broadcasting Inc. (WERE Cleveland), station announced over holidays. Mr. O'Neill, member of WERE board since station's beginning in 1949, replaces late Herbert Gleitz.

SLIGHT RETAIL DIP

Department store sales in newspaperless New York estimated from down 1% to up 3% from last year's pre-Christmas season (Thanksgiving to Christmas Eve), according to Dun & Bradstreet. New York's sales correspond to rest of Mid-Atlantic region, compare with 0 to plus 4% sales range posted by country as whole. Dun & Bradstreet noted loss in downtown New York business made up in suburban areas. New York newspapers have been on strike since Dec. 10.

PEOPLE

EUGENE WOOTEN, president of Kennedy, Walker & Wooten, Los Angeles, retired because of ill health. Earl Kennedy succeeds him as president of agency, which on Jan. 15 will change name to Kennedy-Walker. RICHARD BARRETT, formerly of Stromberger, LaVene & McKenzie, Los Angeles, has joined Kennedy-Walker as copy chief.

DAVID CASSIDY, Los Angeles office of Adam Young Inc., has joined Bolling Co. as head of its office in Beverly Hills, Calif. GEORGE W. BOLLING III, former head of Southern California office, is returning to Bolling headquarters in New York. ROGER SHELDON, member of sales staff of KFMB San Diego, Calif., succeeds Mr. Cassidy in Adam Young's L.A. office.

JAMES L. COX, account executive in Glasser-Gailey for past year, elected vice president of Los Angeles agency. He formerly was manager of KDAY Santa Monica, Calif., following 13 years with station relations division of BMI in New York and Hollywood.

JOEL L. MARTIN, formerly with Emil Mogul Co., appointed vice president for research, media analysis and marketing, Gordon Best Co. TOM WHITEHEAD from George H. Hartman Co. to Best as copy chief and LARRY RUBIN, formerly with Lilienfeld & Co., named Best account executive.

HENRY UNTERMEYER, formerly manager of KCBS, CBS-owned radio station in San Francisco, has become San Francisco manager of Bandelier Films, Albuquerquebased producer of tv commercials. San Francisco offices at 750 Sutter St. will be opened Jan. 7.

ROBER SCHULMAN, Pacific Northwest bureau chief for *Time-Life-Fortune*, joins KING-AM-FM-TV Seattle Feb. 1 as director of special features.

Edward Bruce Noakes

Edward Bruce Noakes, 55, vice president and management service director, McCann-Erickson, died night of Dec. 23, after brief illness, at Queens General Hospital, N. Y. Mr. Noakes joined M-E in 1954 from Cecil & Presbrey, N. Y., where he was chairman of executive committee. He had been associated with C&P beginning in 1929. At McCann, he directed agency's activities in behalf of several national advertisers including, The Nestle Co., Schenley Distillers, National Cash Register, Corn Products, Mc-Gregor-Doniger, Esso-Flit, Dorothy Gray and Allied Chemical. His widow, former Anselman Borst, survives, as do two sons and two daughters.

Oregon Station Sold

KRMW The Dalles, Ore., was sold Friday (Dec. 26) by Oliver Earl to Marvin Ling for \$35,000. Mr. Ling owns KAYT Rupert and KWEI Weiser, both Idaho. KRMW is 1 kw daytime on 1300 kc. Broker was Allen Kander & Co.

HEAR HEAR YE

It pleases Shreveport's first television station to announce the appointment of Messra, HARRINGTON, RIGHTER and PARSONS, Incorporated, as ye official national representativeseffective the first day of January in the year of our Lord, Nineteen Hundred and Fifty-nine. All within the sound of my voice take note Hear Ye Hear Ye

Now represented by HARRINGTON, RIGHTER and PARSONS, INC.

sold!...for

billion

dollars!

Food and drug sales in Storer markets totaled eight billion dollars* a substantial share of which was sold through the impact of radio and television stations owned and operated by the Storer Broadcasting Company. "SOLD ON A STORER STATION" is more than a slogan . . . it is a reality.

* 7 billion food, 1 billion drugs as reported by 1957 Sales Management "Survey of Buying Power."

because it stands to reason that all listeners do not prefer the same thing.

Therefore, in order to best serve "most of the people most of the time," KOA-Radio adds variety to every phase of broadcasting.

There's great variety in entertainment as KOA combines the best of network shows with popular local programs. Variety in style and presentation distinguishes KOA's news coverage and public service programming. The appeal of talented variety in personalities is evidenced by KOA's loyal, responsive audiences.

Variety in programming can help you sell more effectively, too. On KOA-Radio, your sales message is unmistakably yours... individualized and delivered to create immediate sales action!

Represented nationally by Henry I. Christal Co., Inc.

OMNIBUS

The competitive intemperance of *Fortune* and *Life* in their recent assays of the television medium might well have been moderated had their editors been on the receiving end of "Dancing Is a Man's Game."

Gene Kelly, entertainer, doubled as television teacher in an Omnibus program that deserves at least the benefits of videotape permanence lent two hours earlier to a New York Giants touchdown. This educational and entertaining Omnibus hour merits more than repetition. It deserves expansion similar programs based on feminine dancing, and then a co-ed version. The package offers materials for a season-long series.

The program was conceived and executed by dancer Kelly, who undertook to show that dancing has been a masculine art and custom through the ages. A dozen famed athletes—Mickey Mantle, Sugar Ray Robinson, Dick Button, Johnny Unitas, for example—were used in demonstrations of the historical and maneuvering ties between dancing and sports.

Mr. Kelly wisely avoided the maudlin trappings of show business and restrained the arty ingenuity of producers to emphasize functional treatment. His narration was natural and relaxed, priceless traits that occasional minor flubs could not tarnish.

Production costs: Approximately \$90,000. Sponsored by Aluminium Ltd. through J. Walter Thompson; on NBC-TV, Sunday 5-6 p.m. "Dancing Is a Man's Game"

- telecast Dec. 21. Executive producer: Robert Saudek; co-
- directors: William A. Graham and Gene Kelly; writer: Mr. Kelly; m.c.: Alistair Cooke; feature editor: Mary V. Aherne.

SHIRLEY TEMPLE'S STORYBOOK

Strictly for the small fry. That sums up the impressions of two junior high school age girls who saw Shirley Temple's Mother Goose potpourri last week (oddly scheduled too late for most tiny tots). This is how they said it:

Kathy: "I liked it, although I feel it was strictly for the younger set. The program was composed very well. I wouldn't say it was really extremely good in comparison to Shirley Temple's other productions--like Rumplestiltskin, Sleeping Beauty, Beauty and the Beast. Mother Goose was not among Shirley Temple's best. I suppose, though, that in the eyes of the younger children it was good. It was really for them, I guess. Well, I think, naturally, throughout the whole thing they were trying to get down to the children and so they were trying to make it cute, you know, but every once in a while it was too cute. Her young son was about the cutest. It was kind of gooney to put all this love and stuff in, but again I suppose it was to impress the children."

Sue: "I thought it was satisfactory. It wasn't the cutest thing she did, but the costumes were real sweet. The children were darling. I thought the singing was outstanding. This wasn't as good as her other things. I like her playing parts. The color made the program sparkle. It made it so pretty."

Kathy: "I rather like her as a narrator. She's too sweet to play parts. Let the children remember her as a symbol, rather than as an actress."

Need more be said?

- Production costs: Approximately \$125,000. Sponsored on NBC-TV in color and blackand-white, Sunday, Dec. 21, 8-9 p.m. by John H. Breck Co., Hills Bros. Coffee Inc. and Sealtest Div. of National Dairy Products Corp., all through N. W. Ayer & Son.
- Production by Henry Jaffe Enterprises in association with Screen Gems. Producer: Alvin Cooperman: director: Mitchell Leisen: teleplay by Malvin Wald and Henry F. Greenberg, based on Mother Goose rhymes; music by Mack David (lyrics) and Jerry Livingston (müsic); musical director: David Buttolph; choreography: Jon Gregory; costume designer: Gwen Wakeling; art director: William Flannery (sets based on drawings by art class of P.S. 176, Cambria Heights, N.Y.).
- Stars: Shirley Temple, Elsa Lanchester, Billy Gilbert, Carleton Carpenter. Rod Mc-Kuen, Lloyd Corrigan.

DR. I.Q.

The Los Angeles D.A. will never have to investigate this quiz—not only is it painfully obvious that contestants have not been given the answers, but the prizes are so minuscule (in the wake of *Twenty-One* and *The \$64,000 \ Question*) that "fixing" *Dr. I.Q.* would be like John Dillinger knocking over an apple cart.

Why, then, has ABC-TV brought this ancient quiz show, smelling of Mars and Snickers candy bars, to television, to exhibit it in all its poverty and gimmickless state every Monday at 9:30 p.m.? Perhaps the network (which is sustaining the program until it attracts a sponsor, which may take a few years or so) is expanding its history department. Certainly *Dr. 1.Q.* affords ripe material for students writing Ph.D. theses on "The Decline and Fall of the Tv Quiz."

Or perhaps the network is attempting to set a reverse trend by giving such small prizes. On Dec. 22, m.c. Jack Kennedy distributed a grand total of \$78 (editor's note: that's right, 78 dollars, not including the \$60 that The Lady in the Balcony, a continuing participant, was credited with).

While it should never be necessary for the government to investigate the show, it might be well for the Ford Foundation or some educational outfit to determine why the contestants are so obtuse. On Dec. 22, m.c. Kennedy told a southern lady in her middle years that 182 years ago the "father of our country" spent a dramatic Christmas eve that Americans have never forgotten. "For 15 silver dollars, Mrs. -------, where did Gen. Washington spend that dramatic Christmas eve in 1776?" The lady thought for a second and then responded, "Gettysburg?"

Production costs: Approximately \$12,000.

- Sustaining on ABC-TV, Monday, 9:30-10 p.m. Started Dec. 15. Live from Hollywood.
- Producer-writer: Harfield Weedin; executive producer: Selig J. Seligman; director: Hap Weyman; art director: George Smith; research: Emily Rodgers; assistants: Mimi Walters and Kay Christopher.

SEATTLE

In Chicago, it's WBBM-TV! While other stations go round in circles, WBBM-TV stays out front—Chicago's *number one station*, month-in, month-out, according to all three rating services.

The competition, meanwhile, keeps on jockeying for the runner-up spot: during the past year, each station has been in second place at least once and each has been in *last* place at least once.

Channel 2's never-failing popularity is the direct result of a powerhouse CBS Television Network lineup *plus* top-rated local programming. For example, Nielsen shows that month after month WBBM-TV presents Chicago's *highest-rated* feature film show...thirty-minute syndicated film program...daytime adult program... woman's service show...news program... Monday through Friday nighttime strip ...and live variety program.

Keep ahead of the competition yourself. Tell your story on... **WBBM-TV**

Hugh Feltis Hugh Feltis & Assoc. Tower Bldg. Seattle, Wash.

Nose for News

EDITOR:

For years I've been an avid reader of BROADCASTING, especially noting the magazine's coverage of broadcast news among the stations.

I think several people on our AFRTS news staff have done a few things lately worthy of mention. . . . Our 15 daily newscasts are beamed to more than 65 relay stations throughout the world, via shortwave. In many respects, AFRTS Los Angeles is the only contact with home for many U.S. servicemen and is a primary source of straight news for numbers of State Dept. personnel at overseas embassies and consulates

On November 29, Editor Dick Jacobs of AFRTS News telephoned Convair Astronautics to get a first-hand account of the Atlas intercontinental ballistic missile firing at Cape Canaveral. His exclusive beeper interview with President J. V. Naish of Convair Astronautics informed AFRTS audiences overseas that the Atlas is now operational and ready to go to the troops....

After brush fires broke out in the Santa Monica Mountains on November 29, Army Sgt. Wayne Curtis went directly to the scene with a portable tape recorder. He interviewed Los Angeles County Fire Chief Keith Klinger and brought back a report that fire officials were requesting 100 Army personnel from Fort MacArthur to backstop firefighters on the fire line. . .

From our standpoint these events are noteworthy because the Department of Defense, which operates AFRTS, is not a newsgathering agency.

> Sheldon J. Karlan News Editor Armed Forces Radio and Television Service Los Angeles

Pittsburgh Aftermath

EDITOR:

PLEASE SEND 1.000 REPRINTS OF PITTS-BURGH RADIO ARTICLE TO PAUL SCURLOCK BELL TELEPHONE CO. OF PITTSBURGH. . . .

HANK SHEPARD

WAMP PITTSBURGH

EDITOR:

I have just finished reading your fine article on the part that radio played in the United Fund drive in Pittsburgh. Disappointments I have known during my broadcasting career, but never have I felt one so keenly, when I noticed the complete omission of WEEP and our contribution to this very worthy cause. The reasons for this disappointment are many and varied.

WEEP, being just a little over one year old, certainly needs all of the recognition we can get locally and even more so on a national basis. A tremendous amount of work and overtime was expended in offering our facilities and personalities to this united effort. Persons reading this article and knowing something about the Pittsburgh market naturally assume that WEEP did not care to be a part of the community. This is particularly untrue in our case, since we do more in the way of "Good Citizen" service than any other station in town.

James P. Hensley

Vice President-General Manager WEEP Pittsburgh

[EDITOR'S NOTE: Radio earned major credit for putting United Fund over the top there. Story page 27, Dec. 15 issue.]

ANOTHER FABLE OF PROFITS*

(Wha's A Wassail)

NCE UPON A TIME there was a station manager who, with deep feeling, drooled over "Auld Lang Syne" on Hogmanay Night. His wassail bowl was full...overflowing with sentimental reminiscences and good resolve.

When the bright New Year dawned his fine resolutions were dim and vague. Then he met the friendly Bolling man who explained with sympathy and understanding, that he had been looking at the past so much, he was backing into the future.

Today, he has that warm inner feeling for the past and an outward and visible glow of eagerness for the years ahead.

The moral of this story is...warm memories won't kindle new fires.*

*Can kindle, call us.

RCA-6806-The Beam Rower Tube that made 1 million watts of ERP on UHF possible.

11,000 hours on Ch. 28

FLECTRON (680

Read what WBRE-TV's Chief Engineer Charles Sakoski, Sr. says about the RCA-6806 high-power beam tube:

..and

"It is my candid opinion that you have something big in the 6806. One of our 6806 final amplifiers has passed its 11,000th hour of highly satisfactory transmission at full output power and the other 6806 is approaching its 10,000th hour of useful life. The drive power required and output efficiency of these tubes are the same as the day they were installed.

"I wish to point out that we are not squeezing out the last few hours of life from these tubes. All applied voltages including filament remain the same as the day the tubes were installed. Considering the initial cost of the 11,000 plus hour tube, the cost per hour to us is approximately 56 cents and is still going down each hour it is used. Consider the fact that UHF frequencies, one megawatt of power, and color transmission are involved."

Chief Engineer Charles Sakoski, Sr. checking life records of the RCA-6806 (note the 6806 in the PA cavity).

still going strong!

Authorized to operate with a visual power of 1000 kw, ERP, and an aural power of 515 kw, ERP, WBRE-TV is not only making TV station history on Channel 28-WBRE-TV also is setting a record for long tube life in high-power UHF.

WBRE-TV's enthusiastic report on low tube cost per hour of transmitter operation is just one instance among many in which broadcast and television stations are getting "high mileage" on RCA power tubes.

Where lower transmitter tube cost is the goal, RCA power tubes are the answer. Your RCA Electron Tube Distributor stands ready to serve your needs promptly. Just call him.

OUR RESPECTS

to Thomas Webster Chauncey

Call for Mrs. Assensmacker . . . Paging Mrs. Assensmacker!" The year was 1926 and the place was the lobby of the Adams Hotel in Phoenix, Ariz., the city's oldest.

The page boy was Tom Chauncey, 13. Seven days before he had hopped a freight in Dallas, Tex. He got to Phoenix with six cents in his pocket. Now, intent on his new job, he made his way through the Adams lobby-a small boy with lean, sensitive features, and bright, clear blue eyes. His face was solemn. He was going to do this new job well. His high young voice dominated all sounds: "Call for Mrs. Assensmacker Calling Mrs. Assensmacker!"

Ranch foremen and the owners of the big cattle spreads howled with laughter and slapped their thighs. The lobby of the Adams in those days was one immense room, more than half a block long. It was full of men in from the desert and mountains, bent on fun and business-men from the gold and copper mines, sheep ranchers, cotton and vegetable growers of the irrigated desert valleys, cattle buyers, judges, lawyers and politicians. They all threw back their heads and roared.

The boy suddenly realized he was the victim of a practical joke. He could feel his face growing as red as a sunset. But he had accepted the call and he finished it. "I don't think I was ever shy again after that first page," Mr. Chauncey recalls.

Today, the boy who hopped off the Texas freight is the president of KOOL and KOOL-TV in Phoenix and KOLD and KOLD-TV in Tucson: "KOOL is hot and so is KOLD." He reaches 95% of the state's population with his Tv Network of Arizona, composed of the two CBS-TV affiliates, KOOL-TV and KOLD-TV. He also operates the Radio Network of Arizona with CBS Radio affiliates in Phoenix, Coolidge, Tucson and Nogales. He's a leader in civic affairs. And while he has never sought public office, he's a quiet but powerful force in Arizona politics.

He learned about politics as a page boy. The copper-domed State Capitol Bldg. was two miles away, but the real capitol of Arizona was the Adams Hotel. "I was in and out of those smoke-filled rooms all the time," he recalls. "It taught me something valuable: when to keep my mouth shut on matters that didn't concern me."

Young Tom put in two years as a page boy at the Adams and one winter season at the Hotel Westward Ho. Then he became a jeweler's apprentice.

"My employer was Nathan Friedman, God rest his wonderful soul. He was it his seventies then, and he was like a father to me. He paid me \$10 a week and I lived at his home. I ate at least one meal a day with the family. He bought my clothes. And he got me my first car. It cost \$50. I drove him to work in the morning and home at night. We worked from 7 to 7 and often to 9. I swept up the store, polished the glass show cases and the silver and washed and trimmed the windows. At his insistence, I went to night school and took correspondence courses. I learned to design jewelry. And I was given a key to the store."

When the old gentleman died, Mr. Chauncey operated the store for a year while the estate was settled. Then he opened his own business. Tom Chauncey Jewelers, next to the Adams Hotel. That was 18 years ago. Today, three of his original employes and a fourth who has been with him 10 years practically run the jewelry business for him while Tom puts in 14 hours a day in radio and tv. And just a few weeks ago U. S. Secretary of the Treasury Robert B. Anderson named him chairman of the new Broadcasters Advisory Committee for U. S. Savings Bonds.

Tom Chauncey has been a leader in the move to stop pay tv. He started locally long before the networks took heed of the danger. "Pay tv is a captive thing. Ours is a creative industry."

Mr. Chauncey got into radio through the movies and from radio into ty. He became a member of the Governor's Motion Picture Advisory Board for the State of Arizona in 1932. He has been a stand-in for stars, a location hunter, a prop man. Once he and his erstwhile bell captain, Jack Kane, now manager of the Adams, were called upon at 2 a.m. to produce a military staff car-long, sleek, open, and khaki-colored. Practically over the dead body of its owner, they borrowed a suitable car, had it painted in water colors, and delivered it to the movie set at 7 a.m.

As a location seeker, he met cowboy star Gene Autry, who became his friend and business associate. When Mr. Autry bought a radio station, he made Tom its manager.

Tom Chauncey is an original. When he built the KOOL-TV home, there was nothing much to go by. So, without an architect, he sat down with an electronics engineer and designed a station with toy building blocks. Over 100 requests for plans poured in from the U.S., Canada and Hawaii.

Born in Houston in 1913, he is the father of Colleen (Mrs. Frank Meece), 20, twins Karen (Mrs. Don Blomo) and Sharon, 18; and Tom Jr., 11.

FOR THE CONVENIENCE OF DETROIT'S DRIVERS

WKMH TRAFFIC COMMUNICATOR"

a WKMH origination

PADIO

Throughout the peak travel hours of the day the Traffic Communicator, a uniformed policeman broadcasting directly from Detroit Police Headquarters, supplies "The Man on Wheels" with up-to-the-second reports on traffic conditians—accidents, tie-ups, routes to avoid. Special bulletins are rushed on the air seconds after news reaches Police Headquarters. In the City on Wheels, where over 81% of the families own cars—where over

65% use those cars as their principal means of transportation to and from work—this information is a MUST! Here is news broadcasting at its highest level—true public service!

clean sweep!

In 1958, Lestoil's entire advertising budget (\$9,000,000) went into <u>spot television</u>... making this fabulously successful household cleaner the medium's largest singleproduct advertiser! Amazing, for a client which spent just \$10,000 for advertising in 1954. Even more so, when you consider the fact that Lestoil has no large-scale distribution west of the Mississippi and south of Washington, D.C.

This distribution pattern is one reason Lestoil uses <u>spot television</u>. There's no waste circulation: Lestoil puts its money where the product is. Spot television's combination of sight, sound and motion creates demand, forces distribution, sells.

Naturally, the tv stations we represent in New York, Chicago, Philadelphia, Milwaukee, St. Louis and Washington all run Lestoil schedules. (And not hard-to-get announcements in prime time either. Just plenty of low-cost announcements in socalled "fringe" time, 52 weeks a year.)

Ask to see a typical Lestoil schedule. And then let us produce one for you that matches it in economy... and results.

A New Year ... and D News Is Preferred, as Usual

HAVE NEWSPAPERS BEEN OVERSOLD?

- New York strike doesn't bother 35.9%, Blair-Trendex find
- Pulse-WOR study: 91.6% used radio-tv news in last 24 hours
- Radio sales boom as stations capture new January sponsors

The public's vaunted dependence on newspapers was brought into question last week by the findings of a special study conducted in virtually newspaperless New York.

The survey showed that 35.9% of the respondents said they were not "inconvenienced" by the strike that has closed the city's nine major dailies.

Those who did describe themselves as "inconvenienced" by the absence of any particular element of newspapers—including news and advertising—totaled 59.1% of the survey. That figure was further fractionalized by the 23 different reasons respondents cited for their discomfort. "Didn't knows" or those who declined to answer totaled 5%.

The survey was conducted by Trendex for the John Blair radio and tv station representation companies. It consisted of 1,000 interviews based on a random sample covering New York's five boroughs and was made on Friday, Dec. 19, when the strike was in its second week.

Release of the findings coincided with a BROADCASTING business roundup which showed radio stations in particular last week were increasing the sales gains begun the week before [ADVERTISERS & AGENCIES, Dec. 22] and there were signs that some of the "new" local business would run over into January (see below).

The Blair-Trendex survey also coincided with the release of a study conducted by the Pulse Inc. for WOR New York which found that 91.6% of those questioned had listened to radio or tv newscasts during the preceding 24 hours. Of the total, WOR said, 22.6% said they had listened to radio only, 19% to tv only and 50% to both media. Asked whether they depended more on radio or tv for news during the strike, 50.3% named radio, 20.5% designated tv and 29.2% named both, according to the WOR-Pulse findings. This study was conducted in New York on Dec. 12, one week before the Blair-Trendex survey.

Edward P. Shurick, executive vice president of Blair-Tv, said that in authorizing the Trendex study the Blair companies were "not trying to take advantage" of the newspapers in their struck plight, but rather to demonstrate that newspapers, for all their repeated attacks on broadcast media, are not themselves above criticism as to their importance and what they accomplish. One implication was that newspapers might thus find it desirable to go easier on their broadcast competitors, if only out of realization that the tables could be turned.

Arthur H. McCoy, executive vice president of John Blair & Co., supported Mr. Shurick's description of the purpose and also stressed that the strike itself had demonstrated radio's ability to perform "a tremendous coverage job" in news handling. He said stations' news coverage had become better and better since the start of the strike and he was confident the improved coverage would continue after the strike ends.

In the survey, the 1,000 respondents were asked whether they had heard of three major international news events that had broken since the papers closed down. The events, with the percentage who had heard of them shown in parentheses in each case: Launching of the new U.S. satellite (77.2%); Mao Tse Tung's stepping out as premier of Red China (47.5%) and the disastrous fire in a Bogota, Colombia, department store (59.5%).

They were then asked where they had heard these news stories. The results (do not add to 100 because of multiple answers): television 53.8%, radio 52.4%, newspapers 19.5%, and other places 4.3%. A total of 3.3% did not recall or declined to answer. (The newspapers mentioned would be the numerous suburban, neighborhood and foreign-language newspapers not closed by the strike. The "other places" presumably included printed news digests put out by some stations, the New York Central Railroad and others, as well as display summaries, word of mouth, etc.)

Among the 59.1% who said they had been inconvenienced by the strike, the number who said they "miss advertisements of

Crowd gatherer • De Pinna, a fashionable Fifth Avenue clothing store, attracted thousands of midtown shoppers to its gift-laden counters by "donating" a window to the NBC-owned WRCA-AM-TV New York. The stations set up TelePrompTers in the window, fed them continuously with news supplied by NBC. Signs promoted stepped-up newscasts on the stations. The news display was installed Dec. 16, will remain in operation for the duration of the newspaper strike.

NEWSPAPER STRIKE CONTINUED

sales" came to 19.6% of the "inconvenienced" interviewees or 11.6% of all interviewees. Another 0.7% of the inconvenienced (0.4% of total) said they miss the want ads.

Those who said they "miss the news" came to 16% of those who missed anything or 9.5% of the total. In addition, 9.1% (5.4% of all 1,000) "miss special features"; 7.7% (4.6% of total) "miss it all"; 1.4% (0.8% of total) miss "keeping up on current events"; 3.5% (2.1% of total) said they "don't know what's going on"; 13.3% (7.9% of total) felt they were inconvenienced because they "get more news in papers than on radio and television," and 2.1% (1.2% of total) "miss financial news."

A group of 11.9% (7% of total) said they "just like to have a paper every day," while others—generally in small numbers gave such sources of inconvenience as these: "business reasons" and strike is "holding back business," "children miss it [newspaper]," "haven't anything to read," "need visual impression," "need papers for school," "can't follow sports any more," "like to get all news in one package," "like to read news as well as hear it" and, as a few put it, "can't sit and relax without a newspaper."

The survey also undertook to score the popularity of individual newspaper features by asking "which do you miss most?" Observers felt that few of them ranked nearly so high as would be generally expected.

News events took first place with 43.2% of the mentions (again, percentages exceed 100 because of multiple answers). Advertising came second (18.5%) followed by editorials (13.1%) and sports (11.3%).

Ty-radio section got a 4.1% response;

financial and theatre sections 4.5% each; comics 5.9%; Hollywood columns 0.5%; women's page 3.2%; doctor's column 1.4%; features 5.9%; crossword puzzle 1.8%; school page, real estate sections, cartoons and obituaries 0.5% each; inquiring photographer 1.4%.

A total of 10.4% said they missed "everything," while 3.6% "didn't know" and 6.3% said "nothing."

The deadlocked newspaper negotiations led to still more station business in the greater New York market last week.

A spot check of several stations revealed that:

• WMGM billings ran "a minimum of 30%" higher this month than for December 1957. A "tremendous influx" of orders signed over the past 10 days, station officials said, "indicate that January will be a very good month." Typical "happy customer" at WMGM: the 15-store Sunset appliance chain which credited WMGM for sustaining a steady flow of customers.

• WABC: ABC-owned radio station, had a 15-20% billing gain, much of it due to such "new" advertisers as Willougby's, New York camera store chain (which also bought other stations), B. Altman, Montgomery Ward and Colonial Electronics.

• WNEW, already boasting of its "best year," experienced a 30% billing increase, with 25% of this due to strike-bound newspaper advertisers who had turned to radio "in desperation." While most of the business came from film companies and movie exhibitors [ADVERTISERS & AGENCIES, Dec. 22], WNEW was able to persuade Brooklyn Union Gas Co. to stick with the station "beyond the duration of the strike," also

COLUMBIA MEASURES STRIKE IMPACT

Deprived of their daily newspaper "textbooks," student reporters at Columbia U. graduate school of journalism last week did "lab work." Some 80 of them were sent by faculty members onto the sidewalks of New York to report on the effects of the threeweek-old newspaper deliverers strike. Among their findings:

Out of New York's 16,000 newsstands, 10,000 were estimated to have shuttered for the duration, resulting in a 75-80% business decline the first week of the strike. While tv viewing remained constant, radio listening jumped sharply, with New Yorkers seeking news of the world and news of shopping.

Though some employment agencies took to the air (see page 27), two associations representing 200 employment agencies and 11 individual agents reported their business in filling jobs had dropped from 35-75%. Funeral attendance fell 20%, there being no papers to carry obituaries and funeral announcements.

They also learned that city government, deprived of the publicity spotlight offered by newspapers, was "running in low gear," referring principally to public hearings, executive pronouncements and council meetings. Rivalry was reported between WRCA-AM-TV and the New York Central Railroad, both offering commuters "newspapers" of sorts; the NBC-owned station weekly supplying 150,000 news digests to traveling suburbanites, while the NYCRR runs second with a press run of 48,500.

Smaller merchants—those catering to particular customers—were reported feeling the pinch, as were auto dealers, a spot check of whom showed a 5-70% drop in sales. Most of these dealers rely almost principally on newspaper advertising (those who didn't use newspapers showed little ill effect; those who did told the Columbia reporters they "might turn to radio—if we could only buy time"). Also hurt badly: Real estate operators and agents, although some are learning to use radio.

Columbia U. students also talked to executives at C.E. Hooper Inc. who reported ratings of radio up "almost 10%." This was confirmed by spokesmen for The Pulse Inc. While radio went to town, there was no "appreciable change" in tv viewing habits, executives of both A.C. Nielsen Co. and Trendex told the Columbia U. students. Said Trendex: "People's tv habits are solidly entrenched now. . . ."

got Smith-Corona to emulate rival Royal-McBee (which had bought time on radio before the strike was called). Other advertisers at WNEW, both "new and expanded," include Fanny Farmer Candy Shops (normally a pre-yuletide two-week advertiser only), Household Finance Corp., Atlantic City (N.J.) Chamber of Commerce and the Washington Square Development Corp., which, deprived of its real estate listings, used radio to attract prospective tenants.

• WQXR, one of the heaviest-booked stations in town the year-round, could "only accept" a 14% billing increase, signing such unusual (to radio, at least) clients as Hilton Hotels Corp. (to promote New Year's Eve reservations at the Waldorf-Astoria) and Webb & Knapp Realty, whose chic Playbill Restaurant has suffered along with the theatres (see below).

• WRCA, whose sister station WRCA-TV was one of the first to open up time to hard pressed theatrical entrepreneurs by selling Playwrights Co. 30 minutes of post-1 a.m. time, increased its business by "at least 25%." Paramount Pictures Corp., launching what it calls "one of the biggest radio-ty promotions in our history," staged a \$1,000 bill "Buccaneer Treasure Hunt" (for the new Yul Brynner film, "The Buccaneer"). It used the station's entire program schedule for treasure hunt clues. Starting Wednesday night (Christmas Eve) and running for "the duration," WRCA-TV "took back" five minutes of the Jack Paar Show, sold the strip to the League of New York Theatres so that New York viewers could know what plays were playing.

• WMCA said its business was up as high as 40% over last year at this time. It reported it, too, had found a 1959 advertiser among the strike-bound newspaper "regulars." Montgomery Ward, said WMCA, was sold to way on into January.

What made this "test" of radio important was the fact that the medium attracted businessmen who would not have considered radio under any other circumstances. Though the job market was narrowly restricted by lack of classified ads in the newspapers, such employment agents as Office Temporaries Inc. took to the air and filled hundreds of temporary openings. Hard pressed theatre managers found radio helpful in filling houses. Among the theatres buying time were the Coronet (for the Budd Schulberg-Harvey Breit hit "The Disenchanted"), the Bijou (for the Actors Studio production of Sean O'Casey's "Shadow of a Gunman") and the Phoenix (for Graham Greene's "The Power and the Glory").

Radio helped United Artist Corp., which opened "Separate Tables" during the strike. UA preceded and followed this premiere with a blitz spot campaign and during the weekend of Dec. 21-22 racked up "an outstanding gross" of \$33,100 at two theatres.

While radio stations continued to sign up new clients, the New York tv stations —already "over-subscribed"—had to turn them away. To illustrate, WOR last week tabulated increased orders of \$15,000 for a seven-day period; at the same time, WOR-TV could take on only \$6,500 more.

NATIVES RESTLESS ON MADISON AVENUE

\$185 million in 1958 account switches points to continuing uncertainty

With agency mergers and advertising volume on the rise at the year's end, is there a chance for stability in the association of client and his agency?

Though only events in the year 1959 can answer this question, a climb to new peaks in account switch traffic and billing volume this past year indicates anything but a stable situation.

More than \$185 million worth of advertising accounts changed agencies during 1958. In the previous year, a similar estimate placed the account switch volume at the \$130 million level.

Of necessity these estimates are conservative because in general they are confined to the "cream" accounts and to advertisers who buy or at least consider the broadcast media in their ad plans (see table, page 30).

There were two major trends—among the many—responsible for the increased accounts switching: (1) a continued growth of the toiletries business and with it heightened competition and (2) the jarring sales skid in the auto industry.

The toiletries upset revealed itself in the list of accounts which moved from one agency to another. Numerically there were more shifts in toiletries accounts than in any single category including foods, which usually score high in agency movement.

Many of the headliner account switches of 1957 were repeaters last year. These included an overlap of the auto account jostling underway in earnest at the end of 1957 and continuing through 1958.

The departure in late 1957 of General Motors' Buick Div. from Kudner Agency, New York, unsettled Madison Ave. and set off in early 1958 a chain reaction of auto account bumping.

The Lincoln Question • Young & Rubicam, when the year was only a few weeks old, resigned the \$3.5 million Lincoln (Ford Motor Div.) account and left it dangling, a situation that did not iron out until the Buick question was resolved.

It was not long in coming: What could be considered the biggest switch of the year as well as one of the most spectacular in the history of advertising, McCann-Erickson in February landed the \$23-25 million Buick account, simultaneously throwing its \$16-20 million Chrysler advertising (Chrysler, Chrysler Imperial, institutional and export) up for grabs and ending a 14-year association with Chrysler. Thus ended, too, a search started when the General Motors Div. decided to leave Kudner after 22 years.

Chrysler then split its advertising assignments into two parts. Its approximately \$10 million Chrysler Div. went to Young & Rubicam and its institutional and export business (also perhaps as high as \$10 million) went to Leo Burnett Co. Following This was but a beginning in GM's hotrod ride along Madison Ave. Next GM moves—and ones which caused a drastic billing reduction and staff curtailment at Kudner during the year—came at the end of March: Frigidaire Div. with \$6-7 million billing moved from Kudner to Dancer-Fitzgerald-Sample and GMC Truck and Coach, worth about \$1.5 million, moved from Kudner to McCann-Erickson, already busily setting up its servicing of Buick.

Ford continued its game of musical chairs right into this month: It took Edsel out of Foote, Cone & Belding and drove it into Kenyon & Eckhardt and in exchange switched Lincoln from K & E to FC&B. Both accounts were active in network tv. The changes made by Ford placed its two medium-priced autos in one agency and unified its tv program sponsorship.

These were the auto headliners along ad row but not all inclusive. Also worthy of agency's courting of a prospective client, the economics (marketing or sales changes over which the client has no control), a realignment of client management and a change in ad policy, product conflicts within an agency, product reassignment by an advertiser who has more than one agency handling his several products etc.

Some accounts (Buick was included) with long association with their agencies were subject to one or more of these factors leading to unrest and eventual divorce. For example, last fall, General Baking Co. (Bond bread and other bakery products), New York, after a 38-year association with BBDO pulled out its \$1.5 million account and gave it to Compton Adv., J. R. Filbert Inc., Baltimore, after 11 years with Sullivan, Stauffer, Colwell & Bayles, New York, found a new berth with Young & Rubicam (Filbert uses much of its \$1.5 million billing in radio-tv spot).

In addition to Frigidaire, the durable goods field was highlighted by Hotpoint Inc. (tv sets and white goods), Chicago, which transferred its \$3.5 million account

'58's MAJOR SWITCHES: Pages 30-31

mention: once-broadcast heavy Studebaker-Packard which had shifted from Benton & Bowles to Burke Dowling Adams in 1957, moved again in August, lodging its \$7 million budget with D'Arcy Adv., St. Louis.

Since many account switches reflect business trends, the rise of the small foreign car in the market was sure to be felt. Early in the year, Renault automobiles, which had been handled by Mann-Ellis, New York, appointed Needham, Louis & Brorby, New York, for its estimated \$400,000 account. At midyear Standard Triumph Motor Co. took its \$500,000 ad budget out of Gore Smith Greenland Inc. and went to Doherty, Clifford, Steers & Shenfield.

In the transportation area, too, there was the two-way switch of foreign airlines accounts in February when KLM-Royal Dutch Airlines moved from Charles W. Hoyt Co., New York, to Erwin Wasey, Ruthrauff & Ryan, also New York, which thereby picked up an estimated \$1 million in billing. Hoyt meanwhile replaced approximately \$250,-000 by adding Deutsche Lufthansen A. G. of Cologne, Germany, formerly handled by Albert Woodley Co., New York.

Few advertiser categories were sacrosanct in the account shifting. Uprooted were accounts selling foods, skin creams and hair tonics, soaps and cleansers, beers, watches, insurance, meat products and even flowers and religion.

Represented in this huge turnover of accounts were such diverse (and more often than not unrelated) causes as changes in media strategy, personality conflict, an to Compton, Chicago, ending its threeagency structure of Needham, Louis & Brorby, Maxon and J. R. Pershall Co., all Chicago, and by Emerson Radio & Phonograph (two years ago at \$4 million at Grey when it left to appoint Gore Smith Greenland) which switched again appointing Friend-Reiss Adv., New York. (Emerson may be coming back up in billing having absorbed Allen B. DuMont Labs' consumer line).

Ill-Fated Interview • Another holdover from 1957 was the Kolynos toothpaste account, amounting to about \$300,000, which Whitehall Pharmacal had taken away from Grey Adv. after Grey President Arthur Fatt said in a tv interview that he had used the competing Crest toothpaste that morning. Kolynos landed in January at Tatham-Laird. T-L President J. Kenneth Laird had been using Kolynos about six weeks at the time.

There were many changes in the toiletries business other than Kolynos and some of which are mentioned here. Mennen Co. tightened its agency structure by consolidating its accounts at Grey Adv. and Warwick & Legler at the expense of McCann-Erickson and M-E's Marschalk & Pratt Div., both of which had the lion's share of Mennen's \$6 million budget. W & L and Grey now split the billings roughly 50-50, the former agency emphasizing the men's line and Grey the women's and baby products.

Still others: an estimated \$2 million of Lanolin Plus (cosmetics and toiletries), Chi-Continued on page 32

ADVERTISERS & AGENCIES CONTINUED

(Continued from page 29)

cago, from Kastor, Farrell, Chesley & Clifford, New York, to Erwin Wasey, Ruthrauff & Ryan, Chicago; about \$1 million of Stephan's Distributing Corp. (Stephan's dandruff remover hair lotion), Fort Lauderdale, Fla., from J. J. Coppo Co., Baldwin, N. Y., to Cunningham & Walsh, New York; a \$2 million billing of Northam Warren Corp. (Cutex nail polish, Odorono deodorants, other products) from J. M. Mathes to Doyle Dane Bernbach; the Harriet Hubbard Ayer and Pinaud men's toiletries, divisions of Nestle-LeMur Co., from Lewin, Williams & Saylor to R. T. O'Connell Co., New York, a \$3 million billing in Max Factor & Co., Hollywood, products (Natural Wave hair spray, Hi-Fi fluid make-up and fragrance lines) from Doyle Dane Bernbach, New York, to Kenyon & Eckhardt, Los Angeles, ending in June a two-month agency search by the client.

Chesebrough-Pond's Inc. was active in the switch column. It acquired the cosmetics line of Vick Chemical Corp. and named J. Walter Thompson, New York, to handle the Prince Matchabelli and Simonetta lines of perfumes and fragrances and Compton, New York, the Seaforth lines of men's toiletries (both had been handled by Morse International, New York) and moved its Vaseline petroleum jelly to William Esty from McCann-Erickson, and its Pond's Angel Skin from JWT to Compton.

Revlon—active in agency reassignments in 1957—again this year reassigned three of the four products pulled out of Dowd, Redfield & Johnstone, New York and Boston, to C. J. LaRoche, New York, with an estimated \$750,000 billing (much of it in radio-tv) going to LaRoche for Baby Silicare, High Gloss and Sun Bath. Thin Down weight reducing pills are still to be assigned. Revlon also moved That Man cologne from Emil Mogul (which tested the product) to Heineman, Kleinfeld, Shaw & Joseph.

Warner-Lambert Pharmaceuticals moved these accounts: DuBarry and Sportsman lines in the fall from Norman, Craig & Kummel to Lambert & Feasley, New York, and earlier in the year its Bromo-Seltzer (about \$2.5 million) from Lennen & Newell to Warwick & Legler.

Unusual activity was recorded by Colgate-Palmolive: Vel powder, with billings estimated at \$1.9 million, assigned from Lennen & Newell to Norman, Craig & Kummel, which moved in with a recommendation that the bulk of the budget go to tv; Cashmere Bouquet, a \$2 million account and heavily broadcast-oriented (mostly tv), was resigned by Bryan Houston, New York, and placed in the St. Louis shop of D'Arcy Adv. which earlier in the year had obtained C-P's Halo account, another \$2 million plus and a holdover from 1957 (resigned by Carl S. Brown Co.); and after considerable shopping among the seven agencies handling its many products, C-P in June settled on McCann-Erickson to handle its Ajax cleanser, with an estimated \$1.5 million and formerly handled by Bryan Houston.

Bon Ami in the fall fired Weiss & Geller after only 8 of 15 contractual months had elapsed, an action triggered by competitive

HOW PEOPLE SPEND THEIR TIME

There were 126,085,000 people in the U.S. over 12 years of age during the week Dec. 12-18. This is how they spent their time:

71.7%	(90,403,000)	spent	1,741.6	million	hourst	
60.5%	(76,281,000)	spent	1,174.6	million	hours	LISTENING TO RADIO
	(100,994,000)					READING NEWSPAPERS
	(41,104,000)			million		READING MAGAZINES
	(30,460,000)			million		WATCHING MOVIES ON TV
15.4%	(19,379,000)	spent	76.2	million	hours	ATTENDING MOVIES*

These totals, compiled by Sindlinger & Co., Ridley Park, Pa., and published exclusively by BROADCASTING each week, are based on a 48-state, random dispersion sample of 7,000 interviews (1,000 each day). Sindlinger's weekly and quarterly "Activity" report, from which these weekly figures are drawn, furnishes comprehensive breakdowns of these and numerous other categories, and shows the duplicated and unduplicated audiences between each specific medium. Copyright 1958 Sindlinger & Co.

† Hour totals are weekly figures. People—numbers and percentages—are figured on an average daily basis. *All people figures are average daily tabulations for the week with exception of the "attending movies" category which is a climulative total for the week. Sindlinger tabulations are available within two to seven days of the interviewing week.

SINDLINGER'S SET COUNT: As of Dec. 1, Sindlinger data shows: (1) 112,743,000 people over 12 years of age have access to tv (89.4% of the people in that age group); (2) 43,693,000 households with tv; (3) 48,184,000 tv sets in use in U.S.

factors, financial troubles and management shakeups and nearly all of its budget tied in with barter. Bon Ami appointed Cole, Fischer & Rogow, was involved in a legal action and settled out of court with W & G. (Bon Ami cleanser, a \$1.6 million advertiser, had appointed W & G in 1958 after it had resigned Erwin Wasey, Ruthrauff & Ryan in late 1957).

There were agency switches by big food advertisers such as General Foods and Swift.

General Foods Corp., a leading food advertiser, set in motion in 1958 a broad blueprint that already has affected two agencies. Calumet baking powder, D-Zerta, Minute Potatoes, Walter Baker chocolate in total worth about \$3 million in billing were moved from Young & Rubicam and assigned to Foote, Cone & Belding, while GF picked a fourth new agency, Ogilvy, Benson & Mather, New York, to which it assigned the Maxwell House vacuum packed ground coffee which had been handled by Benton & Bowles (\$2-3 million account).

Swift & Co. took its \$4 million advertising parcel at J. Walter Thompson in the spring and carved it up into two parts, assigning \$2 million worth of All Sweet, Vigoro and End-O products to Leo Burnett and another \$2 million in Pard dog food, Swift, Jewell and Swiftning brands to Dancer-Fitzgerald-Sample.

Quaker Oats Co. later shifted a \$3-4 million Ken-L Ration dog food budget from Needham, Louis & Brorby to JWT. The \$1.7 million Rival Packing Co. dog food shifted to Guild, Bascomb & Bonfigli, San Francisco, in September from McCann-Erickson, New York.

Shifts in the beer industry included Pabst Brewing Co., Chicago, which moved a \$6.5 million budget from Norman, Craig & Kummel to Kenyon & Eckhardt. Doyle Dane Bernbach picked up \$1 million in the West End Brewery account shift from Cohen & Aleshire.

The cigarette field was highlighted by the \$5 million account of Philip Morris Co.'s regular and king-sized cigarettes being snared by Leo Burnett Co., Chicago, from N. W. Ayer & Son, Philadelphia; Brown & Williamson Tobacco Co. moving Du Maurier from Erwin Wasey, Ruthrauff & Ryan to Ted Bates. (Both affected broadcast habits --Burnett turning over a portion of the PM budget to tv and Bates apparently planning spot radio for Du Maurier which had been in print.)

Third largest U.S. food chain—Kroger Co.—that figured in 1957 by dropping Ralph H. Jones Co. of Cincinnati to split its \$10 million ad account between Campbell-Ewald, Detroit, and Campbell-Mithun, Minneapolis, again was involved as Campbell-Ewald dropped its share as "unprofitable" and C-M picked up from there becoming the sole agency.

Other top changes:

Broadcast-heavy Nehi Corp., Columbus, Ga., was resigned by Compton Adv., New York, at mid-year but soon found a new home for its total \$3 million budget at D'Arcy Adv., St. Louis. Nehi products include Royal Crown Cola, Nehi flavor and Par-T-Pak. (Nehi formula has been 80% radio-tv spot, 20% newspapers.)

Oral Roberts Evangelistic Assn. moved from C. L. Miller Co. to Keyes, Madden & Jones. It has \$1.75 million in radio-tv.

Florists' Telegraph Delivery Assn., Detroit, uprooted its \$2.8 million advertising budget from Grant Adv. and went to Keyes, Madden & Jones in August. Noted was apparent pressure from among FTDA ranks against putting 90% of its total ad dollar in a single medium—network tv. Critics thought this wasn't the most effective method

More quarter-hour firsts than any other Denver station.

of promotion. FTDA has 11,000 florists members.

Equitable Life Assurance Co., New York, billing \$2-3 million, quit Kenyon & Eckhardt after a long association and appointed Foote, Cone & Belding.

Benrus Watch Co., New York, feeling the pinch of an upswing in non-jeweled watches, left Lennen & Newell in November to go with Grey Adv.

B. T. Babbitt Co. moved its \$2 million budget for Bab-O, Cameo soap and other products from Donahue & Coe to the newly formed Brown & Butcher, New York, at the same time transferring its approximately \$500,000 Glim cleanser account from Doyle Dane Bernbach to Brown & Butcher.

These moves were announced in January and now Babbitt has acquired Charles Antell (see story, page 40), a barter user, and will move that account from "house agency" Paul Venze Assoc., Baltimore, to Brown & Butcher.

Tax Council Mobilizes To Fight Co-op Ad Tax

Relief from the Internal Revenue Service decision imposing excise taxes on manufacturers' co-op advertising budgets will be sought at a Jan. 6 Washington meeting sponsored by the Federal Excise Tax Council. The IRS decision affects an estimated \$2 billion in co-op advertising [ADVERTISERS & AGENCIES, Dec. 22]. About \$400 million in tv-radio co-op advertising is involved.

An ad hoc committee of trade association and taxpayer groups is to be formed at the Jan. 6 meeting.

The council has asked intervention of Congress to have the decision (TD 6340) set aside. In a letter to Chairman Wilbur D. Mills (D-Ark.), of the House Ways & Means Committee, the council voiced its objection to the imposition of excise taxes on money spent by retailers in advertising manufacturers' products in local media.

The council contended the committee should hold immediate hearings in January, prior to the Feb. 1 effective date of the new regulation. It said the hearings are justified by the need of obtaining from revenue officials "the legal grounds for repudiation of administrative policies first announced in 1924 and uniformly recognized since."

This information has been withheld by IRS and Treasury officials, according to the council, which believes taxpayers should have the chance in public hearing to present arguments against the change in policy.

The council maintained the new regulation "flatly repudiates the categorical affirmation of former IRS administrative policies exempting co-op advertising expenditures for manufacturers' excise tax made by Dr. Dan Throop Smith, assistant to the Treasury secretary in charge of tax policy.

"In his appearance before the Forand Excise Tax Subcommittee in January 1956 the council noted that the construction of the law advanced by Dr. Smith at that time was later accepted and confirmed in the report without exception by the Forand subcommittee."

KM&J's Jones Moves Up As Account List Changes

There'll be a new look in faces and accounts at Keyes, Madden & Jones as it prepares to do business in 1959—but the shingle will remain the same.

Howard A. Jones will move up from executive vice president to president of KM&J, succeeding Edward D. Madden, who resigns to join the newly-merged Geyer, Morey, Madden & Ballard [ADVERTISERS & AGENCIES, Dec. 15] as board vice chairman. Freeman Keyes continues as board chairman of KM&J.

MF. Jones told BROADCASTING Monday the agency will retain its present name and acknowledged there may be a few account

ay be a few account shifts, what with the departure of Mr. Madden and others, including John T. McHugh, executive vice president, and David H. Halper, senior vice president and New York general office manager. At the same time, KM&J is preparing to absorb about 23 employes, including

MR. JONES

three executives named officers last week, and three accounts from Donahue & Co.— Chicago after Jan. 1, 1959 [AT DEADLINE, Dec. 1].

Newly appointed to the KM&J board from Donahue & Co. are Paul E. Kelly, William L. LaVicka and George E. Filipetti (creative director), all vice presidents.

Of the remaining top executives at D&C-Chicago, Arthur Grossman, president, reported he will serve as a consultant to KM&J and several of his past clients, and Arthur Decker, senior vice president and general manager, has joined Henri, 'Hurst & McDonald, as senior vice president and board member. It's presumed that Fairbanks Morse account will follow Mr. Decker.

Other board appointments announced by Mr. Keyes at KM&J include Harry B. Goldsmith Jr., senior vice president to executive vice president; Lee J. Marshall, vice president to senior vice president, and Fred E. Willson, vice president and marketing and merchandising director. Harry H. Maus and Messrs. Keyes and Jones have been board members of KM&J, a division of Russel M. Seeds Co., since Oct. 1, 1957. Mr. Maus also is secretary-treasurer.

Other new officers are Dale G. Mehrhoff, account executive to vice president; Richard R. Davis, chief accountant to comptroller, and Pierre F. Marshall, who resigns as advertising director of Bell & Howell to rejoin KM&J as vice president (at Bell & Howell, Robert D. Lipson has been named advertising and sales promotion director and A. D. Grasser sales promotion manager). All appointments are effective Jan. 1, 1959.

The agreement between Keyes, Madden & Jones, Chicago, and Donahue & Co., New York, calls for combining facilities of both agencies in New York, Chicago and Los

Bon Ami Puts Damper On Barter Television

Barter tv has been demoted in Bon Ami Co.'s plan for a "vastly-improved sales picture for 1959," it was announced last week in New York. Its famous chick (trademark), which suffered overexposure to barter [ADVERTISERS & AGENCIES, Sept. 15, Oct. 13], will make another valiant try at laying golden eggs by doubling its total 1957-58 ad budget from \$1 million-plus to \$2.1 million, reversing the ratio of barterto-cash by 2-to-1.

According to its new agency, Cole, Fischer & Rogow, New York, Bon Ami plans spending \$1,330,000 in cash advertising (most of it in radio), knocking back barter "worth" from about \$1 million to less than \$750,000. Even this figure will be trimmed as Bon Ami's barter contracts with stations (effected last year with Guild Films Co.) expire. But Arthur A. Fischer, agency president and media director, said last week that he had ordered no cash tv spots "yet."

Apparently what's behind Bon Ami's turnabout is not only new management's confessed distaste of barter (brought out during the litigation this fall between the client and its former agency, Weiss & Geller Inc.); on top of this comes the implied realization by Bon Ami that it cannot risk introducing a completely revamped and repackaged product line on what it Roses Parade, Minute Maid Corp. through Ted Bates.

Jan. 1 (9:30-10 p.m.) Ford Show, Ford through J. Walter Thompson.

Jan. 4 (9-10 p.m.) *Chevy Show*, Chevrolet through Campbell-Ewald.

Jan. 6 (8-9 p.m.) Eddie Fisher Show, Liggett & Myers through McCann-Erickson.

terms to be a "risky medium"-barter.

Not only has Bon Ami redesigned its three staple products, Bon Ami (powder) Cleaner, Jet Spray Bon Ami and Bon Ami (cake) Cleanser; it now will bow with Bon Ami All-Purpose Liquid Cleanser which is said to be Bon Ami's "answer" to Adell's Lestoil, Lever's Handy Andy, P&G's Mr. Clean and Colgate-Palmolive's Genie as well as Dust 'n Wax and Silver Gloss. These three will use test radio starting in January.

Bon Ami's intent is clear: it will drumbeat its products home. In 10 radio markets, it is scheduling up to 400 announcements a week, ranging in length from 6 seconds to one minute.

Radio Reached Peak Last Summer In Extra-Home Listeners—Pulse

Pulse Inc. reported last week that radio out-of-home listening reached a new high last summer, adding 28.3% to the in-home audience compared to a previous peak of 25.7% registered in the summer of 1957.

In releasing the summary, Dr. Sydney Roslow, director of Pulse, pointed up the level of listening and the importance of the audience in the "overall broadcast picture." In 1951, he said, out-of-home listening added only 17.3% to the in-home audience. The Pulse summary covered 27 major markets throughout the U.S., was the latest in a series begun in 1948.

The study showed an average of 4.9% of all radio families per quarter hour reported in July-August listening away-from-home between 6 a.m. and midnight.

Highest level in the out-of-home listening was reported in New York where 5.4% of the families registered within the awayfrom-home segment. Los Angeles and Bos-
"My Gawd, she's TALL!

ESSIR, she IS tall-l-l — the tallest thing man ever made in North Dakota—WDAY-TV's new antenna, 1206 feet above the ground (1150 feet above average terrain!).

As you know, tower height is extremely important in getting TV coverage—more important than power, though WDAY-TV of course utilizes the maximum 100,000 watts.

So WDAY-TV—with new Tower and new Power—will soon be covering 96% more of North Dakota-Minnesota's best countryside than before—60% more of the prosperous Red River Valley's families than before!

Even before building this tremendous new tower, ratings proved that WDAY-TV is the hottest thing in the Valley. Soon they'll be better and better, and for greater and greater distances!

ton scored next, each with 5.3%.

Among individual markets, the per cent added by the away-from-home audience ranged from 23.6% in Pittsburgh to 31.7% in Cincinnati. The 27 markets contained more than 18.6 million radio families, or 38.4% of the U.S. total.

Atherton & Currier, Kastor Firm to Merge

The consolidation of Atherton & Currier Inc., New York, with Kastor, Hilton, Chesley & Clifford Inc., New York, effective Thursday (Jan. 1) was announced last week by H. Kastor Kahn, board chairman of KHC&C and J. W. Atherton, president of A&C. Combined billing of the new company was placed at about \$18 million.

The new company will be known as Kastor, Hilton, Chesley, Clifford & Atherton Inc. and will move into new offices at 575 Lexington Ave., New York, on March I. Officers of the merged company will be: H. Kastor Kahn, chairman; Peter Hilton, president; Charles E. J. Clifford, vice chairman; W. S. Chesley, chairman of the executive committee and treasurer, and J. W. Atherton, vice president and chairman of the plans board.

KHC&C's 1958 billing is about \$14 million and, a spokesman said, the agency places "a substantial amount of business" in radio-tv for such clients as Drug Research Corp. (Regimen tablets), Carter Products, Smith Bros., and Snow Crop Div. of the Minute Maid Corp.

Atherton & Currier, with billing of about \$4 million in 1958, is heavy in industrial accounts but has used spot radio-tv for such accounts as Potter Drug & Chemical Corp. (Cuticura soap) and Airkem Inc. (deodorant).

The agencies' Canadian affiliates—Bradley, Venning & Hilton Ltd. and Atherton & Currier Inc. also will be merged into a single company as of Jan. 1. Enlarged headquarters will be located in the present Toronto office of Bradley, Venning & Hilton.

Anderson & Cairns Names V.P.s

Election to vice president of three Anderson & Cairns Inc. department heads and one A&C account supervisor was announced Wednesday (Dec. 24) by agency President John A. Cairns. They are:

Murray C. Thomas, media director of A&C since 1952, before that, with media departments of Dancer-Fitzgerald-Sample and Paris & Peart; Sherman E. Rogers, copy chief at A&C since 1955, before that, creative director of Platt-Forbes Inc., consultant for Woodward & Byron Inc., and radio director of Lawrence Fertig Co.; Everett W. Hencke, A&C executive art director since 1953, before that with Fuller & Smith & Ross. Richard Chenault Inc., and Charles Dallas Reach Co. (now Reach, McClinton Co.); and Edmund C. Ridley, with A&C as account supervisor on Seeman Bros., Julius Wile, other accounts he had serviced through associations at J. D. Tarcher & Co., Cecil & Presbrey and Biow Co. agencies. Mr. Ridley has been named vice president in charge of agency relations.

Nothing else like it in Greater New York

Music

Great Albums of Music

IN PROGRAMMING: The voice of WVNJ is unique. It's the only radio station in the entire Metropolitan New York area that plays just Great Albums of Music from sign on to sign off — 365 days a year.

IN AUDIENCE: So different, too. So largely adult — so able to buy — so able to persuade others to buy. And in Essex County alone (pop. 983,000) WVNJ dominates in audience — in quality of audience and in prestige.

IN VALUE: It delivers the greater New York audience for less than 31c per thousand homes by far the lowest cost of any radio station in the market.

Babbitt Gets Antell Following Colgate Buy

B. T. Babbitt Co., New York, 123-yearold cleanser firm, whose Bab-O once upon a time pioneered the way for Colgate-Palmolive's Ajax, last week honed the knife of competition. With Babbitt attempting a "comeback" following years of declining sales, it has followed up Colgate-Palmolive's purchase of Buffalo's Wildroot Co. [AT DEADLINE, Dec. 22] by buying a hair product company of its own. It is buying for "undisclosed amounts of cash" Baltimore's eight-year-old Charles Antell Inc.

The Antell account shifts from its "house agency," Paul Venze Adv. Assoc., Baltimore, to the Babbitt agency, Brown & Butcher Inc., New York, on Jan. 1. Antell formerly was handled by Joseph Katz Co., Baltimore and New York. (Colgate-Palmolive meanwhile issued no clarification on the position of BBDO, Wildroot's present agency but also agency for competing Lever Bros.)

Antell account billing is "as yet" undetermined, B&B president Thomas C. Butcher said last week, since most of Antell's spending has been in broadcast barter. Brown & Butcher is understood to be willing to let its new Antell products ride out their barter contracts for spots in option time, but will take a second, "hard look" at some of the other, less defined, barter slots.

The Antell purchase was announced Tues-

day (Dec. 23) by Babbitt President Marshall S. Lachner, and Antell President Julius J. Rosen. Babbitt purchased "assets, trade names and trade marks" of Antell's domestic and Canadian operations, with take-over date set for this Wednesday (Dec. 31).

Founded eight years ago, Antell can be credited with having inspired the "lanolin school of advertising." In fact, one of Antell's earlier slogans on tv was "the name that made lanolin famous." With its staple product line having centered on such brandname hair products as "Formula 9", Charles Antell recently embarked on manufacture of vitamin candies sold as "Vita Yums" and "Vita Pops."

At Babbitt, the Antell product operations will be run by A.N. Labelle, sales director of the Lambert-Hudnut Toiletries-Cosmetics

PAYOFF A CHRONICLE OF COMMERCIAL PERFORMANCE

RECORD SALES • Mitch Miller, Columbia Records' artists' & repertoire chief, teamedup with Bill Randle, WERE Cleveland, Ohio, disc jockey to promote the former's record, "Christmas Sing-Along With Mitch," for a local store. The store reported 2,390 telephone orders (about \$8,000) for one Sunday afternoon. The bearded a&r man made personal appearances on WERE to direct various 'singing groups; Mr. Randle plugged and played all Mr. Miller's "Sing-Along" albums.

RADIO PULLS TO PARTY • WCKR Miami, Fla., attracted 1.800 to its second Theatre Party (held annually in cooperation with Florida State Theatres) through the sole use of its own facilities. The party includes free refreshments, door prizes and a preview of a movie. Although the event was publicized exclusively on WCKR. the station says people came from as far as 50 miles away.

SWEETS SUCCESS • Kit Kat candy sales shot up about 400% in Pittsburgh following a television spot campaign-competition, WIIC (TV) there reports.. The spot drive on WIIC (and initially on KDKA-TV Pittsburgh) ran September through November. Kit Kat's sales in this period last year were \$6,155. In the same three months this year, \$28,971 worth of the candy was sold. More than 10,000 entries, complete with Kit Kat wrappers, reportedly were received in WIIC's "Name the Wallaby" contest, which had an electric kiddie-car as first prize.

DONUTS AND DUCATS • A live commercial wherein Bob Dale, host of the KFMB-TV San Diego *Early Show* (movies), ate a donut, was the start of a success story for a newly-opened local donut shop. The shop says that within five minutes of the commercial, customers were asking for "those donuts Bob Dale eats." In subsequent spots, when he ate a different kind of donut, the shop reports it sold out of that type. Business, in fact, went up 50% in three days. Another satisfied KFMB-TV customer is Div. of Warner-Lambert Pharmaceutical Co., and prior to this with Colgate-Palmolive. He will be vice president of Babbitt's Charles Antell Div.

It's been no secret that Babbitt has been seeking diversification. Last Aug. 25 Mr. Lachner tipped his hand before the New York Society of Security Analysts by saying, "A substantial part of our gains in the next few years in sales and profits will come through the acquisition of other companies —companies which have been attracted to our new and aggressive marketing set-up."

Though Antell's earnings have been a family matter, Mr. Lachner said last week its contributions to the Babbitt cash register will represent "a sound step toward our goal of \$60-70 million gross sales in the next five years."

the Capri Theatre in San Diego. As part of the movie theatre's spot schedule for "South Pacific," the station announced that the Capri would give 50 free tickets to the show for the best reasons "why I would like to see South Pacific." The theatre received more than 500 letters plus many telephone calls within three days.

Survey of U. S. Commerce Planned by Census Bureau

A nationwide survey of the nation's commerce will be conducted in January by the U.S. Census Bureau. Official questionnaires to be filled out by business firms will provide statistical information for the 1958 Census of Business.

Advertising agencies and related service industries will be surveyed, as will publications. Radio and tv stations, however, will not be sent questionnaires because they report their basic financial data to the FCC.

The census data will represent a picture of the progress of business in selected trades since 1954, when the last such census was conducted.

Spot Radio Costs Rise Slight

National spot radio costs to the advertiser were up only 1.5% in 1958 for "traffic times" (early morning and late afternoon). down 6.4% for nighttime periods and about the same as 1957 for daytime hours other than traffic periods.

These estimates, based on the top 150 markets, were released last week by the Katz Agency, station representation firm, along with its latest spot radio budget estimator now being made available to advertisers and agencies. The estimator computes the cost of 12 one-minute announcements per week for 13 weeks in the 159 markets. Formulas for package plan rates and for estimating the costs of 12 or 24 announcements per week in various cycles are included.

"WRC RADIO for many years has consistently produced business for WOODWARD & LOTHROP." -HARWOOD MARTIN ADVERTISING "WRC RADIO is a long-time favorite of FIRST FEDERAL SAVINGS AND LOAN for reaching the Washington audience." - HENRY J. KAUFMAN & ASSOC.

More and more D.C. advertisers are turning to WRC RADIO

... because WRC RADIO gets results!

Lucky Tiger Mfg. Co. (hair tonic, dandruff treatment, Butch hair wax), Kansas City, Mo., appoints Gardner Adv. Co., St. Louis, effective Jan. 1. David P. Ferris, v.p. and board member, and Charles Butler assigned by agency as account supervisor and account executive, respectively.

FILM

NT MOVES NEARER TO NTA BUY

Federal Judge Edmund L. Palmieri indicated last week he would approve the application of National Theatres Inc. to engage in the distribution of motion pictures to theatres, thereby paving the way for the acquisition by National Theatres of National Telefilm Assoc.'s stock.

Formal approval of NT's application awaited an order to be drawn up by attorneys for Judge Palmieri's signature. During a hearing in the U. S. District Court in New York last Tuesday (Dec. 23), Judge Palmieri asked National Theatres' counsel to make a formal application for a ruling by the court.

David Peck of Cromwell & Sullivan, counsel to NTA, said he was not certain if he would file an order for the judge's signature before the end of the week.

National Theatres, which already has purchased the stock of NTA's three principal officers and has asked its own stockholders to approve an offer to other NTA shareholders [GOVERNMENT, Dec. 22], initiated steps several weeks ago to secure judicial approval of the transaction because of possible antitrust implications. It decided to seek the court's sanction on two possible areas of dispute that might hold up its acquisition of NTA.

The first consideration involved the relationship of NTA and 20th Century-Fox Corp., both of which own a 50% interest in the NTA Film Network. Under the consent decree of the motion picture industry, Fox has agreed not to engage in theatrical exhibition. National Theatres, which was the theatre affiliate of Fox, was proscribed from distributing motion pictures to theatres. During the current hearings, Justice Dept. attorneys voiced the belief that with the acquisition of NTA by National Theatres, Fox once more would be placed in association with a company (NT) from which it was divorced under the consent decree.

The second point in question was that NTA has a subsidiary, NTA Pictures Inc., which distributes motion pictures to theatres. These films are features which NTA acquired primarily for distribution to tv but, in the process, NTA also obtained re-issue rights to theatres. National Theatres, by government order, is prohibited from engaging in theatrical distribution.

It was developed during the hearings that the main stumbling block was the Fox involvement in the NTA Film Network. On Tuesday, Mr. Peck told the court that over the previous weekend NTA had made arrangements to purchase Fox' 50% interest in the NTA Film Network. Mr. Peck said details were being worked out and a transaction would be completed before NT assumed stock ownership of NTA.

Regarding the NTA Pictures angle, Mr. Peck argued that the theatrical rights to features NTA acquired primarily for television was a "minor consideration." He reported that this phase of operation contributes "very little" to NTA's overall gross. Mr. Peck said the theatrical distribution business could not be regarded as "offensive," since it would not restrict competition. This reference was interpreted to mean that NT would not give preference to its own theatres for the exhibition of features it acquires from NTA.

Mr. Peck later said that his formal application will set no limits on the number of films that NT could distribute theatrically, but he noted that as a signatory to the consent decree, it is subject to Justice Dept. scrutiny.

Woodmere to Produce Tv Films

Samuel J. Lefrak, president, The Lefrak Organization of New York, said to be the world's largest builder of multiple dwellings, has become chairman of the board of Woodmere Productions. Woodmere is entering tv production with Miss Bishop, starring Jan Clayton, scheduled to start filming at MGM studios Jan. 5. Second tv series on Woodmere's agenda is Richard Harding Davis, the production firm having acquired the tv rights to the famed journalist's life from MGM. In an announcement admitting an investment of a "considerable amount" in the independent ty and film company, Mr. Lefrak said: "The entertainment business has a vast potential and represents a prize investment opportunity. Today, amusement is as necessary to public consumption as housing, food or clothing."

FILM SALES

ABC Films Inc., N. Y., reports sales in Canada of *The Adventures of Jim Bowie* to Sussex Ginger Ale Ltd. for showing in all Nova Scotia, New Brunswick and Prince Edward Island markets; *Douglas Fairbanks Jr. Presents* to CBC, and *Heraid Playhouse* and *Kieran's Kaleidoscope*, also to CBC, 26 Men to Holson's Brewery, through Mac-Laren Adv., Toronto, for showing on WGR-TV Buffalo and WCNY-TV Watertown, N. Y.

United Artists Associated (AAP) completes first sales of United Artists films since UAA took over distribution of feature film to tv stations. Included are three packages with total of 111 features to WKBW-TV Buffalo (one package of 39 was renewal). WTVR (TV) Richmond bought UA 65, also one of packages. Firm has sold "Yankee Doodle Dandy" (James Cagney as George M. Cohan) to Triangle stations and to three stations in south. Other recent sales to various stations: Warner Bros. features, Sherlock Holmes features, Gold Mine Library, Popeye cartoons, Movieland (post-1948) features and holiday films.

WBBM-AM-TV Chicago, announces purchase of 700 Paramount Picture films starting Jan. 3, 1959, with "solid" nine-day schedule running through Jan. 11 as part of station's observance of "Paramount Week."

Jayark Film Corp., N. Y., reports sale of its "Bozo the Clown" package of cartoons to KDKA-TV Pittsburgh, WSBT-TV South

ΠΡΟΣΤΑΤΗΣ JUNO PROTECTOR OF WIVES

JUNO (Gr.—Hera), the wife of Jupiter, was assigned by the Greeks the chore of looking after married women. Frankly, we don't see how she had much time to give to the job, busy as she was checking out her suspicions about Jupiter and his various amours. No matter—whenever a Greek helpmeet found things a bit sticky around the old homestead, she turned to Juno with an appeal for help. Evidently Juno's concern for wives paid off, as she was much venerated.

But Juno can't hold a candle to the concern we at WCKY feel for housewives—*Cincinnati* housewives, that is. We spend our days entertaining them with good music, giving them the latest news and special features, because we know that housewives control the family purse, and spend the major portion of family money. As a result, WCKY has a large audience of housewives. The June-July '58 Nielsen showed that 73% of our audience is composed of housewives, who lend an attentive ear to sponsors' messages, and that's why smart sponsors such as Kroger and Albers (the two largest food chains here) buy WCKY.

..... And if you want to sell Cincinnati housewives your product, don't call Juno—call Tom Welstead at WCKY's New York office, or AM Radio Sales in Chicago and the West Coast, who'll show you that WCKY is your best buy to reach Cincinnati housewives.

Bend, WBEN-TV Buffalo and WCHS-TV Charleston, W. Va.

Independent Television Corp. announces sale of 24 programs in 14 overseas markets. representing \$200,000 in business, following return of Manny Reiner, ITC v.p. in charge of foreign operations, from six-week trip to Australia and Far East. Lassie was sold to five new markets in Japan and renewal for program signed by Mitsuwa Soap Co. for sponsorship on Radio Tokyo Network, and Cannonball series also to Radio Tokyo for telecast in six cities. Other cities in which ITC shows were sold: Hong Kong, Manila, Sydney, Melbourne and Bangkok.

Ziv Television Programs, N. Y., reports that total sales in 1958 increased by 32% over those for 1957. During 1958, Ziv-Tv introduced two new series on networks—Bat Masterson on NBC-TV and Rough Riders on ABC-TV—and seven series for syndication—Sea Hunt (first and second year product), Target, Mackenzie's Raiders, Bold Venture, Highway Patrol (fourth year) and Dial 999.

Banner Film Inc., N. Y., announces slate of Night Court U.S.A., half-hour tv film series, to KOB-TV Albuquerque, KTVR (TV) Denver, KOLD-TV Tucson, KGUL-TV Houston, WCHS-TV Portland, Me., and KCIX (TV) Nampa, Idaho, and "Banner Feature Film Package" to KTVU (TV) San Francisco, WMAR-TV Baltimore, KOLD-TV, WRCV-TV Philadelphia and WSIL-TV Harrisburg, Ill.

National Telefilm Assoc., N. Y., reports that its "Dream Package" of 85 feature films has been sold in total of 58 markets, with latest sales to WMAL-TV Washington, KTVU (TV) Oakland-San Francisco, WRCA-TV New York, WJAR-TV Providence, KDAL-TV Duluth, KPTV .(TV) Portland, Ore., KONO-TV San Antonio, WHO-TV Des Moines, WHBF-TV Rock Island, Ill. and WCIA (TV) Champaign, Ill.

FILM DISTRIBUTION

Screen Gems Inc., N. Y., reports it is releasing to tv group of 78 feature films from Columbia and Universal libraries. Included in this new "powerhouse" group are "The Killers," with Burt Lancaster and Ava Gardner; "Seven Sinners," with John Wayne and Marlene Dietrich; "Here Comes Mr. Jordan," with Robert Montgomery and Claude Rains, and "A Song to Remember," with Cornel Wilde, Paul Muni and Merle Oberon.

Sterling Television Co., N. Y., has been designated distributor for new series of color tv films shot by Marine Studios, St. Augustine, Fla., at famous Marineland. Series—dealing with underwater life—is titled *Wonders of the Sea*, and has already been sold to Canadian Broadcasting Co.

ON CAMERA

Screen Gems Inc. announces production of its newest video series, *Stakeout*, was set to get underway in and around Ft. Lauderdale, Fla. Series will star Walter Matthau, currently appearing in Harry Kurnitz' Broadway play, Once More, With Feeling. Stakeout deals with activities of Florida Sheriff's Bureau.

CBS-TV has launched new science-fiction series to be written by Rod Serling who will co-produce series with William Self, executive producer at CBS-TV. Pilot film, *Twilight Zone*, went before cameras Dec. 4 at Universal-International studios.

Walden Productions, Hollywood, started filming pilot of *The Thirty-Third*, projected tv series based on voice acknowledgment of phone calls at New York police detective bureau, Dec. 15 at Desilu Studios. Charles Bickford will star as Lt. Shad Rourke and James Goldstone will direct pilot. Jules C. Goldstone, president of Walden, also said that company's *Court of Last Resort*, broadcast last year on NBC-TV, has been sold to ABC-TV which will begin rerunning series in January.

MGM-TV will produce new tv film series, tentatively titled, *Mickey McGenigie*, with navy comedy format. Series will be produced in association with Harry Joe Brown and will be based on *Saturday Evening Post* stories of Adm. Dan Gallery. Mickey Shaughnessy will star. Other details such as producer and writer for the new series have not been announced.

Bernard L. Schubert Inc., N. Y., in association with John W. Loveton, reports new cycle of 39 half-hours in *Mr. & Mrs. North* tv film series will be produced shortly. Group of 57 half-hours of series currently are being carried on 60 stations. Telestar Films Inc., N. Y., distributes *Mr. and Mrs. North.*

Warner Bros., Burbank, Calif, announces that *Torrid Zone*, half-hour tv adventure series, has been added to its schedule of new shows for next year. Howard Pine will produce series, its first episode to begin filming Feb. 2. No star has been named for the program.

Louis Prima and Keely Smith, husband-wife entertainers, have formed partnership with Irving Levin, president of AB-PT Pictures Corp., to produce situation comedy tv series, Louis Prima-Keely Smith Show. Filming will start in January at MGM studios, with Mr. Levin as executive producer, Edmund Chevie, producer, and Ed Simmons, writer.

RANDOM SHOTS

Jack Douglas Productions today (Dec. 29) moves into new headquarters at 8833 Sunset Blvd., Hollywood 46. Telephone: Oleander 5-7790.

National Telefilm Assoc. is opening offices in the Russ Bldg., San Francisco, to service central and northern California and the Northwest, it was announced by Berne Tabakin, NTA vice president in charge of west coast operations. New office will be staffed by Henry P. Long, former vice president of MCA's film syndication division, and Robert Lang, former assistant to the radio-tv director of BBDO.

Network Gross Billings Continue Upward Surge

Network tv gross billings in the 1958-59 season were off to a bullish start. Figures released last week by Television Bureau of Advertising showed billings for the 10 months ended in October to be more than \$460.6 million, 10.1% gain over the same period last year, and for October alone, more than \$52.5 million, or 6.6% ahead of October 1957.

As in September, ABC-TV and NBC-TV showed increases in October (up 23.1% and 10.2% respectively) while CBS-TV billing declined slightly (2.4% in October, 2.6% in September). NBC-TV had nearly filled the monthly billing gap between it and CBS-TV—a difference of about \$1.2 million still existed.

Though October was off a bit, CBS-TV nonetheless chalked up more than \$21.8 million that month, or second highest billing month in 1958 (January was tops for the network). The compilation:

Moscow Bars Levine From Mike, Charging Censorship Violation

The Soviet government last week took microphone privileges from NBC's Moscow correspondent Irving R. Levine, charging he had violated censorship regulations in presenting an interview with Sen. Hubert Hum-

phrey during the latter's heralded visit several weeks ago.

The prohibition to broadcast is "until further notice." He may still file stories via cable or telephone.

Moscow's action was the second involving an American network this year, and leaves only ABC able to broadcast from Moscow. At mid-year CBS' Daniel Schorr was labeled *persona non grata* and that network was denied the privilege of having a correspondent in Moscow [NETWORKS, July 7, *et seq*]. ABC's Moscow man is Henry Shapiro of United Press International.

The latest action was at first thought to pertain only to Mr. Levine. Then, last Tuesday (Dec. 23) *Time-Life* correspondent (and NBC stringer) Edmund Stevens attempted to broadcast, but was cut off the air. He was told the ban against Mr. Levine extended also to him. However the ban on Mr. Stevens was lifted 30 hours later without explanation.

Mr. Levine, by mid-week en route home to participate in an NBC yearend broadcast, stopped off at Copenhagen, Denmark, to air his version of the disputed Humphrey interview. (He noted that Soviet authorities had objected to an earlier interview with the senator after his meeting with Premier

COLORCOPTER PLANNED

NBC-TV will use a new experimental color television system, portable and compact, to present a bird's eye view of the Tournament of Roses parade from a helicopter on Jan. 1 (12 noon-1:30 p.m.). The color pickup equipment, developed by RCA Labs., consists of two units, fully transistorized. The two units are a 20-pound camera and a 45-pound control and monitor. The system, according to RCA, will have application for closedcircuit tv in industry, defense. education and research. Khrushchev.) The second interview dealt with prospects for cooperation on world health, and "when his [Humphrey's] prepared remarks were not passed by the censor by broadcast time, we went on the air anyway—that is, until the censors cut the line dead.

"The material, by the way. was passed three hours later."

When Mr. Levine asked Moscow authorities how long he would be restricted, he was told the ban was temporary, was intended only as "punishment," not an ouster action, and that its duration would depend on how well he behaved himself regarding censorship on telephone calls and cables.

Willet H. Brown Resigns Presidency of Don Lee

Willet H. Brown is relinquishing the post of president of Don Lee Broadcasting System, but will have a "continued association with Thomas F. O'Neil in other areas of RKO Teleradio Pictures Inc." Mr. Brown made this announcement in a memorandum to employes. Henceforth, it was said, KHJ Los Angeles and the Don Lee regional network, KFRC San Francisco and KHJ-TV Los Angeles will be operated "as three individual entities rather than as a single unit."

Mr. O'Neil is chairman, president and treasurer of RKO Teleradio Pictures, owner through its General Tele-Radio Div. of WOR-AM-FM-TV New York, WNAC-AM-FM-TV Boston, KHJ-AM-FM-TV Los Angeles, KFRC-AM-FM San Francisco, WHBQ-AM-TV Memphis, and WGMS-AM-FM Washington, D.C., as well as the Don Lee and Yankee regional radio network, serving the Pacific Coast and New England, respectively.

No other change in management or operation of the Don Lee network or stations is contemplated. Norman Boggs continues as vice president and general manager of KHJ and Don Lee Broadcasting System. Wendell B. Campbell continues as

Merry Ghristmas

THOUGH OTHER THINGS may change in this world of ours, Christmas remains forever the same ... a season of joy and hope and love and faith.

We of Metropolitan Life . . . whose privilege it is to serve so many families in the United States and Canada . . . greet you in the ancient and abiding spirit of that first Christmas observed so long ago under the stars of Bethlehem.

May you know the warmth, the joy and the love of

Christmas as expressed by happy family reunions ... the spirit of Christmas as symbolized by church bells and chimes ... and the faith of Christmas as expressed in our worship of the Almighty.

As a New Year dawns, we hope it will bring you the fullest measure of health, happiness, progress ... and peace and contentment of mind and heart. And may these blessings be with you throughout all the years that lie ahead.

METROPOLITAN LIFE INSURANCE COMPANY (A Mutual Company) 1 Madison Avenue, New York 10, N.Y.

NETWORKS CONTINUED

vice president and general manager of KFRC. John T. Reynolds continues as vice president and general manager of KHJ-TV. The chief difference seems to be that from now on these three executives will report to RKO Teleradio Pictures headquarters in New York instead of to Mr. Brown.

WJQS Drops CBS for MBS

Mutual announced last week that WJQS Jackson, Miss., has joined the network as an affiliate effective immediately. The station had been affiliated with CBS Radio. WJQS operates on 1400 kc with 250 w. It is owned and operated by Dumas Milner Broadcasting Co. Lewis Heilbroner is general manager.

NETWORK SHORTS

CBS Inc. announces proposal to convert its A and B stocks into single class of common stock [NETWORKS, Nov. 17] was approved at special meeting of stockholders in New York last Monday (Dec. 22). Vote was 77.8% for, 0.5% against.

NBC-TV's Steve Canyon Show (Sat. 9-9:30 p.m.) has been moved to Thursday 8-8:30 p.m. time period, replacing Ed Wynn Show which has been dropped. Liggett & Myers, sponsor of both shows, has replaced Canyon with Black Saddle [BUSINESS BRIEFLY, Dec. 22].

PERSONNEL RELATIONS

SAG-AFTRA MERGER SUBJECT OF BALLOT

- 'Impartial' film may be hired
- To carry out study of merger

Along with Christmas bills, members of Screen Actors Guild this week are receiving ballots for their vote on a resolution that SAG "employ an impartial research organization to make a thorough study of the feasibility of merger with American Federation of Tv & Radio Artists and to develop possible merger plans for consideration by the membership."

Drafted by the SAG board, the resolution was submitted to the guild's annual membership meeting held Nov. 25 in Beverly Hills, Calif., which approved it by an overwhelming vote [LEAD STORY, Dec. 1]. Now the entire national SAG membership is being given a chance to ratify or reject that action, with a strong board recommendation for ratification.

The original board resolution had four provisions: for the study of the feasibility of the SAG-AFTRA merger, that AFTRA be invited to join in the study, that other talent unions belonging to the Associated Actors & Artists of America also be invited to participate and that the costs be shared by all participating AAAA branches. (AAAA is the parent AFL-CIO union from which AFTRA, SAG, Actors Equity and other talent unions derive their charters.)

A fifth provision was added to the resolution as an amendment proposed and voted at the membership meeting and approved by the board: "In not more than 90 days from the date this resolution is ratified, a report shall be made to the entire membership on the progress of the survey."

With the ballots, members were mailed a detailed report of the meeting, including a history of attempts of actors to merge their unions dating back to 1938, prepared by the board and read at the meeting by Howard Keel, SAG's new president. "Merger," he commented, "is an appealing idea . . . one card, lower dues, elimination of jurisdictional disputes and greater strength in collective bargaining. . . . However, none of these goals has been realized in their merger plans previously considered.

merger plans previously considered. . . . "All of this indicates that merger is a serious and complex matter, requiring the most careful study. Certainly there are many problems that must be worked out before a plan of merger can become a reality. In any merger plan we should certainly want to know what kind of governing board or boards are involved; how they are to be selected; what their powers are; what influence or authority will the governing board of each branch have in the affairs of the other branch or branches? . . . We should also want to know how a one-card system will be attained. Will a member working only in motion pictures have to pay the same dues that are paid by a member who works in both live tv and in motion pictures? These and many other questions can only be answered by having a concrete merger plan for your consideration."

The videotape situation and the jurisdic-

tional controversy that tape has created between SAG and AFTRA also were reviewed.

John L. Dales, SAG executive secretary, interjected a report of his own of a heretofore undisclosed meeting between himself and William Berger, SAG attorney, and Donald Conaway, national executive secretary of AFTRA, and AFTRA's attorney, Morton Becker.

At this secret session, held Oct. 17 in Colorado, Mr. Dales said, SAG proposed that it and AFTRA appoint committees to work out proposals for tape negotiations. When these proposals had been approved by the two unions, they would then appoint a joint negotiation committee to meet with both AFTRA and SAG employers.

"When the contract had been negotiated, the guild would sign and administer this contract in its field, the film producers, and of course AFTRA would sign and administer the same contract, same rates, in their field with their producers, their employers. Both Conaway and I agreed that if we could work out something along these lines, the independent recording studios, tape studios, would create no problem whatsoever and in fact I went so far as to indicate that if this approach would settle the problem, the guild would be willing to forego any claim to these independent studios. . . .," Mr. Dales stated.

"After day-long discussions . . . we were told by Conaway and Becker that joint negotiations, joint uniform tape rates, (although this would solve the tape problem) were not enough. They said that their members wanted to vote in an NLRB proceeding and that they could not come back with a solution which did not involve merger. . .." (AFTRA's petition for a referendum to determine jurisdiction over all VTR is now before the NLRB.)

Mr. Dales said he felt "disturbed when Conaway and Becker said that not enough came out of the meeting to report it to the AFTRA board. I hope that they have," he added. "1 think both memberships are entitled to know the details of that meeting."

What AFTRA Won From the Networks

Details of the new contract between the American Federation of Television & Radio Artists and the four networks were released last week. The contract, retroactive to Nov. 15, will be submitted to membership for ratification in early January.

Contract provisions not disclosed earlier [AT DEADLINE, Dec. 22] include the following: Taped program commercial fee for on camera use by principals in from 6 to 20 cities for 13-week cycle is \$200 and for off camera, \$150; for group performers up to four, \$57.50 each for use in six to 20 cities and \$50 each for group of five or more. In one to five cities, 13-week cycle program commercial taped fees for principal performers on camera, \$145 each; off camera, \$95 each; groups of three and four, off camera, \$57.50 each and group of five or more, off camera, \$50 each.

Network radio fees remain the same as in old contract except for sportscasters, who

Buick photo courtesy GM Photographic

receive 10% increase. In the transcription code, fees for all wild spots (spots used on station breaks or in local participating programs) go up 15%. Sound effect artists will receive 10% increase on all fees.

The national taped commercial fee for session and first use is \$93, with re-run formula totaling \$865 for a 13-week cycle and \$983 for a 26-week cycle. Network radio fees remain as under the old contract except for a 10% increase for sportscasters. ABC-TV and CBS-TV agreed to a formula for payment of fees to performers on network programs sold in foreign markets, established earlier in the year with NBC-TV.

AFTRA negotiators were Donald F. Conaway, national executive secretary; Mortimer Becker, national counsel; Claude McCue, west coast office, Ray Jones and Bud Wolf, central region, and Kenneth Groot, New York. Network negotiators were William Fitts, CBS; George Fuchs, NBC; Richard Freund, ABC, and Joseph Keating, Mutual. Fees are said to be substantially higher

than in the Screen Actors Guild contract.

KCOP (TV) Continues on Air Despite Strike by IBEW Workers

Supervisory personnel at KCOP (TV) Los Angeles have kept the station on the air since 5:55 p.m. Monday (Dec. 22) when 43 members of Local 45, International Brotherhood of Electrical Workers, walked off the job. Earlier that afternoon, KCOP had proposed an armistice until after Christmas, but transmitter and control room engineers and other technical workers, including cameramen and stagehands, chose instead to strike.

Management, money and lighting were described as the three major elements of disagreement between station and union by Kenyon R. Brown, KCOP president. KCOP currently has three management men, not union members, in its engineering.

As to money, IBEW originally asked for a \$10 a week increase, reduced that to \$5 but rejected KCOP's offer of a \$2.50 raise now and another \$2.50 boost for the second year of a proposed two-year contract. The lighting dispute stems from a control device devcloped since the last KCOP-IBEW agreement which management asserts enables a camera operator to control lighting as well, while the union refuses to agree to the elimination of an additional man to regulate studio lighting.

The strike came a week after the expiration of the previous KCOP-IBEW agreement on Dec. 15 and four days after a "final deadline" on Dec. 18. The station lost about five minutes of air time immediately following the walkout but has operated without interruption since then.

PERSONNEL RELATIONS SHORT

WERE Cleveland and National Assn. of Broadcast Employes & Technicians signed four-year contract Dec. 12, described by union as first time it has entered into agreement beyond three years. Contract is retroactive to last Nov. 15 and was described by both parties as involving substantial wage increase.

NO RADIO-TV RECESSION IN 1958

- Records set on all industry fronts, NAB study shows
- Yearend tally: Tv up 10% to \$1.4 billion, radio up 3%

Broadcast advertising expenditures rose to alltime highs in 1958 despite the recessiontv up 10% to \$1.42 billion and radio up 3% to \$641 million.

These compilations, made by NAB, show that number of operating stations, sets-inuse and time devoted to viewing and listening established new records.

In a resume of 1958 broadcasting developments NAB found an increase from 495 to 512 in the number of operating tv stations. The number of sets-in-use was figured at 48.3 million compared to 44.5 million a year earlier. The number of "home hours per day" of televiewing was computed at 259 million, an 8% increase over the 239 million hours a year ago.

Arrival of videotape as an industrywide facility was "one of the most exciting developments of the year," according to NAB President Harold E. Fellows. He anticipates continued growth in use of this recording technique, including inter-station exchange of taped programs. He credited the impact of tv advertising with a strong role in helping the country pull out of the 1958 recession

Mr. Fellows cited these other tv developments:

Protests against proposals by FCC to conduct pay-ty tests; adoption of a ty code ban on white-coat advertising (use of actors to portray physicians, dentists and nurses in commercials); telecasting of an estimated 900,000 public service spot announcements worth at least \$65 million by the 300-odd stations subscribing to the tv code. More than 100 national service organizations and many other local agencies shared the benefits.

The \$641 million estimate of 1958 radio advertising was accompanied by a jump of 400 in the number of radio stations on the air (360 am, 40 fm), a total of 3,869 (3,307 am, 562 fm).

NAB estimated 150 million radio sets are in operation, 100 million of them in homes, 38 million in autos and 12 million in public places. Over 49 million of the 50.5 million U. S. homes have at least one radio. Fm set circulation was estimated at 14 million.

Growing interest in radio and tv station editorializing was cited. Radio programming trends include increased concentration on music-and-news, and good music, giving listeners in metropolitan areas, particularly, a new range of program choices.

A campaign urging travelers to "Look for a Room With a Radio" was started in cooperation with the hotel-motel industry. NAB's Standards of Good Practice for Radio Broadcasters campaign produced over 600 station subscribers. One of the year's technical milestones, the advent of stereophonic broadcasting, promises to produce greater public interest in this type of musical reproduction, the association believes.

Progress was made in the fight for access to courts and public events, NAB noted, citing the American Bar Assn. agreement to

study new techniques in courtroom coverage by microphone and camera. ABA's Canon 35 bans electronic reporting of trials.

Mr. Fellows termed the ABA action the most significant step in the history of broadcasting's campaign against Canon 35. He added, "Broadcasters throughout the United States stand ready to demonstrate that they can broadcast trials and other public proceedings without obtrusion and without any interference with judicial process or individual rights.¹

NAB-Harvard Management Course Open for Registration Next Month

Registration forms for broadcasters desiring to participate in a July 6-17 Broadcast Seminar at Harvard Graduate School of Business Administration will be mailed in January, NAB President Harold E. Fellows announced Dec. 28.

The decision to go through with the NABsponsored project followed "enthusiastic response from radio and tv executives," Mr. Fellows said. He explained the course "will help foster executive skills necessary to keep pace with the rapid growth of radio and tv and encourage the flexible thinking required of successful broadcasting executives."

Seminar enrollment will be limited to 60. Cost of the course will be about \$500 for each student, including room, board, instruction and books. The seminar will explore, primarily through the case method, administrative skills involved in top executive posts. Special broadcasting case material will be developed for the seminar. The project is under the direction of Prof. Sterling Livingston, of the Harvard faculty, who will be aided by other business school professors.

Buning to Northeast NAB Post

John A. Buning has joined the NAB station relations department as field representative for the Northeast. Formerly with the old International News Service, Mr. Buning will serve under William Carlisle, NAB station relations manager. He has a broad technical and executive background in broadcasting, having served with Florida stations and later with ABC and MBS. In World War II he served on the field engineering force of Western Electric Co.

UPCOMING

January

January Jan. 16-17: AWRT national board meeting, Wal-dorf-Astoria Hotel, New York City. Jan. 16-17: Mutual Advertising Agency Network, quarterly business meeting and administra-tive workshop, Plaza Hotel, New York. Jan. 17: Mutual Advertising Council seventh annual meeting, Palmer House, Chicago Jan. 20: Screen Producers' Guild award dinner, Beverly Hilton Hotel, Los Angeles. Jan. 18-21: Newspaper Adv. Executives Assn. annual convention, Edgewater Beach Hotel, Chicago. Jan. 23-25: Advertising Assn. of the West, mid-winter conference, Rickey's Studio Inn, San Jose, Calif.

Jan. 23-25: AWRT, Michigan conference, Detroit.

TRADE ASSNS. CONTINUED

RTNDA Committee Membership Announced by President Renick

Thirteen committees of Radio Television News Directors Assn. have been named by RTNDA President Ralph Renick, WTVJ (TV) Miami. Chairmen and vice chairmen:

Freedom of Information—John F. Lewis, WBAL-AM-TV Baltimore; James Bennett, KLZ-AM-TV Denver. Membership—Harry V. McKenna, WEAN and WPJB-FM Providence, R.I.; John K. Williams, KETV (TV) Omaha, Neb. Publicity—Thomas Powell, WGBI Scranton, Pa.; Robert E. Fahs, WDSU-TV New Orleans. Convention Sites—Jerry Bowman, WERE Cleveland; Arthur J. Smith, WHTN Huntington, W.Va. Wire Policy—Lee White, KROS Clinton, Iowa; Charles Harrison, WMBD Peoria, Ill.

Techniques—Dick John, WKY-TV Oklahoma City; Don Brown, WILL Urbana, Ill. Vocational Film—Julian Hoshal, KSTP-TV St. Paul; G. W. Johnstone, National Assn. of Manufacturers. Constitution — Harold Baker, WFGA-TV Jacksonville, Fla.; Dick Cheverton, WOOD-AM-TV Grand Rapids, Mich. Inter-Station Cooperation—Crawford Rice, WTVT (TV) Tampa, Fla.; Bob Frank, WOC Davenport, Iowa.

Standards of Practice—Sanford Markey, KYW Cleveland; Ralph Shupe, WMOH Hamilton. Ohio. Career Recruiting—Dan Wozniak, Michigan State U.; Jim Magee, WTPA Harrisburg, Pa. Bulletin Advisory— Monroe Benton, WTRY Troy, N.Y.; Bill Williams. WSM-AM-TV Nashville. Protocol —Ted Koop, CBS (no vice chairman).

Somewhat like the unhappy cartoon character huddled in his empty packing box muttering, "People are no damn good," Time Inc. persists in periodically potshooting at television. The current entertainment issue of Life takes up the cudgel from sister Fortune [ADVERTISERS & AGENCIES, Nov 24]. NAB President Harold E. Fellows, however, notes that in this latest criticism, Life disregards some established facts, and also traps itself with certain intra-issue contradiction.

Here's Mr. Fellows' rebuttal:

The current issue of *Life* magazine continues the attack against television that Time Inc. began seven years ago and renewed in last month's *Fortune*. Surprisingly, the *Life* attack disregards and contradicts many facts reported elsewhere in the same issue.

Current popularity of tv westerns is ascribed (page 52) to the "faddish fickleness" of "tv's 'boom or bust' programming." Yet *Life* observes (page 91) that "nothing is more permanent than the public's enchantment with the legends of the Wild West."

The tenor of the *Life* attack is not surprising in view of the fact that Time Inc. publications suffered serious drops in income this year while television revenues were rising. *Time* was down 7% for the first nine months, compared to 1957; *Life* and *Fortune* were each down 12%.

Life in a full-page editorial (page 52) states that tv has created audiences and addicts but has shown little power to create new loyal fans, or to hold them. Yet it describes the Ed Sullivan Show (page 57) as "the granddaddy of varieties" and credits it with presenting a single joke that "simultaneously tickled" about a quarter of the American population.

Again Life revives a Fortune theme that tv economics preclude anything except mediocre programming. The "typical" \$30,000 and \$40,000 budgets of syndicated half-hour westerns are contrasted with the lavish budgets of top Broadway shows and multi-million-dollar movies. Only one sentence deals with the \$600,000 Wonderful Town telecast and the regular weekly high-budget programs. The Playhouse 90, du Pont Show of the Month and Omnibus productions are not even mentioned.

Life ignored television's function as a news and information medium; but it stated, "Unless the pure purpose of entertainment controls at least some tv channels, the medium will continue to

WHICH PAGE OF 'LIFE' DO

FELLOWS: Does the left hand page know what the right hand page is doing?

lose or damage its best talent." This is the crux of *Life's* argument in favor of pay-tv. Apparently *Life* feels there is a good chance that pay-tv would reduce advertising competition from television, though there is no assurance that pay-tv would not be commercially sponsored. The failure of the Bartlesville, Okla., pay-tv test is omitted.

Life quoted Gilbert Seldes, Saturday Review critic, to support its pro-pay-tv thesis, falling into a trap of its own setting because Mr. Seldes has recently declared himself opposed to pay-tv. In the current Review he wrote "... I discover that no one concerned with pay ty is even planning to do the life of Fiorello LaGuardia; everyone is planning to transmit baseball games, movies fresher in date than 'Citizen Kane' but not nearly as good, and whatever else people will pay most to see." Furthermore, Life ignores several reputable polls which show that as many as 96.6% of the people emphatically reject any form of pay television. Veterans of Foreign Wars, Amvets and AFL-CIO have anti-pay-tv policies.

In its pay-tv line of argument (pages 52, 185-6) Life contradicts facts stated on other pages. For example, Life answers its own economic insinuations by saying (page 181) that advertising revenues of "that young and still growing giant, television," are now "over the \$900 million level."

NAB estimates that television advertising expenditures during 1958 at \$1.42 billion, a new high.

According to Life, today's "mediocre" television "is even charged with brutalizing, cretinizing or at least homogenizing our young." *Life* might well have considered the following programs sched-

YOU BELIEVE?

uled during the same two-week period covered by its current two-in-one issue: • A young people's symphony con-

cert conducted by Leonard Bernstein. • An average of two pro football, two pro basketball, two college football and one college basketball games per week-

end. • An original religious opera about Abraham.

• Eric Sevareid reviewing the latest developments in cancer research and volcanology.

• A live performance of the Gian-Carlo Menotti opera, "Amahl and the Night Visitors."

• Small World, with Edward R. Murrow moderating a conversation among Dr. Milton Eisenhower, Luis Munoz-Marin and Dr. Galo Plaza.

• Excerpts from Rodgers and Hammerstein's "Flower Drum Song," with the original cast. on the *Ed Sullivan* Show.

• A tribute to Tschaikowsky on Voice of Firestone.

• Helen Hayes, starring in "One Red Rose for Christmas."

• "The Hasty Heart," the *du Pont* Show of the Month, with Don Murray, Barbara Bel Geddes and Jackie Cooper.

• Walt Disney's Christmas program, featuring all the Disney characters from Mickey Mouse to Snow White.

• Gene Kelly, lecturing and demonstrating the art of the dance on Omnibus.

• The Shirley Temple Storybook presentation of "Mother Goose."

• Burl Ives and John Raitt joining Dinah Shore in an hour of Christmas music.

• Victor Jory reading from Dickens' "Pickwick Papers."

• "The Hallmark Christmas Tree," featuring Cyril Ritchard and Carol Channing.

People are spending less time watching tv, according to *Life*. The truth is they are doing more viewing—4.98 hours per day for the average viewer in the first nine months of 1958 compared to 4.69 hours for the same 1955 period.

Life's proposal that tv entertainment be divorced from advertising isn't quite clear. It notes (page 52) that "from the days when Jack Benny first allowed himself to say 'Jello Again,' the confusion of stars and products, of public art and public selling, has become more and more hopeless."

Is Life questioning Mr. Benny's propriety in selling merchandise? A Life Lucky Strike advertisement (page 86) features a color portrait of Mr. Benny.

TIGHTER FCC CONTROL IS URGED

House study wants tougher rules for station licensing, transfers

The era of "horse-trading" in television stations has drawn a Capitol Hill frown.

A report to the House Committee on Interstate & Foreign Commerce which was made available over the holiday weekend, calls for a ban of trafficking in station licenses and proposes a series of sweeping changes that would give FCC tighter control over broadcasting.

Robert S. McMahon, research assistant to the Subcommittee on Legislative Oversight, submitted the recommendations in a report to Rep. Oren Harris (D-Ark.), chairman of both the Oversight Subcommittee and the parent Commerce Committee.

Mr. McMahon was author of an earlier committee report on the transfer of tv stations [LEAD STORY, May 19]. He joined the Oversight Subcommittee last spring, taking a strong stand against trafficking in licenses. The subcommittee held months of hearings which produced sensational testimony about regulatory practices.

In summarizing Oversight Subcommittee testimony and offering recommendations for new legislation, Mr. McMahon said frequent sales of tv stations soon after comparative grants have made "a mockery of the entire hearing procedure and basis for

Mr. McMahon's solution: FCC should ban a voluntary sale of a station for period of five to six years after the grant unless it can be shown affirmatively at hearings that it is in the public interest. He argues this would take care of applicants interested only in making a capital gain rather than operating a station in the public interest.

Concerned over long delays encountered in securing FCC decisions, Mr. McMahon said it would be better in the long run for FCC to hold hearings in all cases involving station grants and transfers. He cited complaints that Sec. 309(c) of the Communications Act leads to unreasonable delays.

Both FCC and the courts have, by construction, transferred the job of deciding what is in the public interest from the regulatory body to those the Commission regulates, he said, adding, "It would seem that the time has arrived for the Commission to reassume some of the responsibility that it has, by its own inactivity, relegated to the regulated industry."

The "gold-rush" days of 1952-56, when desirable tv frequencies were available, are gone, he said. This can lead to "an increasing amount of 'horse-trading' among channel owners," he said.

As to payoffs or mergers in initial grants, he said FCC should scan these deals carefully and not allow a payoff in excess of proved out-of-pocket expenses.

The matter of *ex parte* contacts, which occupied much of the widely heralded subcommittee testimony, drew a strong recommendation from Mr. McMahon. He urged a legal ban against any *ex parte* or extrarecord representations contact by any applicant or interested person, with criminal and civil sanctions. He said all written or oral communications should be part of the record. He applied the ban to members of Congress or the executive department. Terms of commissioners should be lengthened to 10 to 14 years, he suggested, criticizing the practice of catering to views of the regulated industries in considering acceptable appointments.

Another legislative proposal centers on the role of FCC hearing examiners. Congress should look into the problem, he stated, since there is evidence the Civil Service Commission has proved itself "ill-equipped" to cope with the issue. He contended the powers and independence of examiners should be improved, with all the tools now available to the courts for control of hearings. Both hearings and reports are too long, he indicated.

Congress should consider whether the FCC should be allowed to assess small fines in the case of violations of rules by non-broadcast operations, Mr. McMahon said.

He revived a longtime idea—assessing "fair and equitable fees" to help the agency become self-supporting. He added, "An assessment would have to be made proportionate to annual earnings and investment."

In a series of conclusions Mr. McMahon said the FCC has failed to establish standards on which the nation and industry can rely, with the courts showing increasing concern. The courts, he added, can only pass on points of law and by law are powerless to pass on the wisdom of administrative decision. He reminded there is no appeal from an administrative decision of the FCC when courts have found that legal standards are met.

FCC decision-making policies were criticized in detail. Both Congress and the Commission are blamed for its failure to function effectively as a regulatory agency. Since the Commission is described as unable to formulate standards and policies on its own, Mr. McMahon felt Congress should set the standards. In addition, he said Congress should maintain a continuing review of policy problems and FCC actions.

The 171-page report to the committee includes a 150-page history of federal radio regulation.

OVERSIGHT SPLITS OVER REPORT

The House Legislative Oversight Subcommittee meets in Washington today (Dec. 29) to approve its final report. And, from all indications, the legislators will be split in several different directions on many phases to be included in the report.

As of last Wednesday, the subcommittee staff did not have a concrete draft to submit to the congressmen—because of the many divergent ideas of the congressmen themselves. Seven of the 11 members met in Washington three weeks ago to consider what should go into the report. They agreed on several recommendations to be included [GOVERNMENT, Dec. 15], but since then the subcommittee staff has been deluged with individual ideas members wanted included as a part of the report. For instance, the subcommittee Wednesday morning received several ideas from Rep. John Moss (D-Calif.), as well as criticisms of what had been previously drafted. Rep. Morgan Moulder (D-Mo.) returned from a European trip with several ideas of his own, some of them described as "ridiculous" by a subcommittee source. And by telephone from Arkansas last Wednesday, Chairman Oren Harris (D-Ark.) stated there will be three or four recommendations in the final report which even chief counsel Robert Lishman does not as yet know about.

A subcommittee source disclosed last week that one recommendation, not previously reported in BROADCASTING, to be submitted to members for approval would seek

One of a series of salutes to successful Television and Radio stations across the nation...and to the Northwest Schools graduates who have contributed to their success.

Cartton Cremeens-graduated from Northwest Schools in 1955 and joined KTHV December 10th, 1955. He started as a Production Assistant and later advanced to Announcer and Director. Transferred to the News Department as a Reporter and is now Night News Editor of the KTHV News Bureau.

MR. B. G. ROBERTSON, General Manager

SALUTE TO KTHV-Channel 11 Little Rock, Arkansas

KTHV, ideally located almost in the geographical center of Arkansas, serves most of the state. It is the only CBS Affiliate in the state of Arkansas—and has originated many Network Special Events and News Programs.

Transmitting facilities are high atop Shinnal Mountain-1,756 feet above average terrain -with a 1,175 foot tower. A 12-bay antenna directs a 316,000 watt signal.

*

Here is what Mr. B. G. Robertson, KTHV General Manager has to say about Northwest Schools' graduates:

"Carlton Cremeens is a most versatile employee, well grounded in the fundamentals of television. His knowledge and ability have contributed to the success and growth of KTHV. Carlton's knowledge of television has enabled him to advance rapidly with KTHV."

. . .

GOVERNMENT CONTINUED

an investigation of network television programming. The source said this was being included, although it had not previously been a part of the subcommittee's record. because of the large number of complaints received.

Included in the proposed investigation would be a study of the possibility of direct FCC control of the networks. The subcommittee feels that such a study is necessary to determine if legislation is needed to improve the present quality of tv programming. Mentioned as reasons were discontent over overcommercialization and excessive number of crime programs. The report will take cognizance of a controversy sure to arise over the constitutionality of congressional dictation of programming standards.

Major legislation to be recommended agreed upon at the meeting three weeks ago:

• Stiffer laws dealing with ex parte contacts and attempts to influence members of the FCC. New legislation would provide for both civil and criminal penalties.

• Legislation to require that any communication, written or oral, with any member of the FCC or staff, whether from members of Congress or the Executive Branch. be made a part of the public record. Any commissioner or staffer who failed to make such communications public would be subject to criminal penalties.

• An across-the board code of ethics for all regulatory agencies. The FCC is the only agency which has not submitted a proposed code to the committee. A Commission spokesman said that two proposed changes sent to the subcommittee, including one to place all communications in the public record, was sent in place of the code.

• Repeal of the authorization that commissioners may accept honorariums.

The method of selecting the chairman of the FCC, his term of office and his powers is a subject upon which there is a wide difference of opinion within the subcommittee. However, a recommendation will be made to Congress that the power of his appointment be taken away from the President.

Because of the many individual recommendations given for inclusion in the report, the staff reportedly has had an "impossible" task in preparing an acceptable draft for presentation today. "We went about it backwards," said counsel Lishman. Actually there will be two separate papers going to the committee for its approval, with one based on recommendations for future study.

The report definitely will ask that the subcommittee be continued in some form, possibly as a permanent arm of the House Commerce Committee. Under current law, the Legislative Oversight Subcommittee will expire officially Jan. 3, so some sort of report must be submitted by then.

United Press International last Wednesday published what was alleged to be excerpts of the report. This published material, a subcommittee source stated, consisted partly of what will be submitted to the committee Monday for approval and partly of one individual members own ideas of what should be included. The member was given a preliminary draft the previous day for his study since he was not present at the subcommittee meeting three weeks ago, it was reported.

It was upon learning of this "leak" of the alleged report that Rep. Harris stated there were recommendations to be made not even disclosed to the chief counsel as yet.

"Cockeyed" was the phrase one member used to describe certain recommendations contained in that portion of the report already drafted and other proposals members want inserted.

Judge Stern to Begin Boston Ch. 5 Jan. 5

The petition by the *Boston Globe* for permission to intervene in the Boston ch. 5 rehearing was bucked up to the full FCC last week.

At the same time, special hearing examiner Judge Horace Stern set Jan. 5 for the first prehearing conference in the FCC's second dip into charges of off-the-record conversations with commissioners.

At issue is the FCC's 1957 grant of Boston ch. 5 to WHDH Inc. (Boston Herald-Traveler). Earlier this year allegations were made before the House Legislative Oversight Committee that ex parte representations were made to various commissioners during the FCC's comparative hearing in the ch. 5 case. Last July the U. S. Court of Appeals in Washington remanded the case to the FCC to look into these charges. The court, however, specifically upheld the FCC's action in making the grant to the Herald-Traveler. The Commission reopened the case and assigned Judge Stern to preside. The issues are basically the same as those in the Miami ch. 10 case.

The Globe tried to intervene in the original hearing in 1957. but the Commission denied its request on the ground that it was untimely filed. In its new petition the Globe claimed that it not only has the right to be a party, but has new evidence. This was opposed by WHDH Inc. The FCC's general counsel staff, which has been handling ex parte rehearings, told the Commission the Globe has no inherent right to intervene, but should be permitted to on the question of whether any commissioner should have disqualified himself from voting on the case originally. Chief Hearing Examiner James D. Cunningham last Tuesday morning set the petition for oral argument Dec. 30, but that afternoon cancelled the argument, and referred the question to the full Commission.

Meanwhile, in the Miami ch. 10 case, applicant North Dade Video Inc. filed Wednesday with the FCC a petition asking that the Commission in its oral argument not only hear exceptions to Judge Stern's initial decision [GOVERNMENT, Dec. 8] but also make a final determination as to who gets the grant. Exceptions are due Jan. 14, with oral argument due to be scheduled soon thereafter.

Judge Stern recommended that the ch. 10 grant to National Airlines be revoked and that the Commission hold new proceedings to pick the final grantee. The Miami ch. 10 case also involved *ex parte* representations.

Judge Stern found that former Comr. Richard A. Mack should have disqualified himself, and that National Airlines and WKAT Inc. had participated in or known of off-the-record conversations with Mr. Mack. He suggested that these be considered as part of these applicants' qualifications when a new hearing is held.

Appeals Court Supports FCC On Microwave Application Delay

With slightly more than three weeks' deliberation, the U. S. Court of Appeals for the District of Columbia threw its support to the FCC last week in the Commission's "moratorium" on action on microwave relay grants to common carriers feeding tv signals to community antenna systems in areas where there are tv stations.

The petitioners were six common carriers serving CATV systems in Florida, Wyoming, Texas, Idabo, New York State and Alabama [GOVERNMENT, Dec. 8].

Judges E. Barrett Prettyman, presiding. and David L. Bazelon and George T. Washington were unanimous in denying petitions by a group of common carriers asking the court to order the FCC to act on their microwave relay applications or set them for hearing. The FCC has withheld action on such grants pending a general inquiry (looking toward rulemaking) into, among other things, the effect on regular tv broadcast stations of CATV systems, boosters, translators and other secondary types of television. Also being considered in the FCC inquiry is whether the FCC has jurisdiction over CATV under the Communications Act. The record in the inquiry was closed in July.

The court said: "It was proper for the Commission to institute a general inquiry to determine what general program it should follow in dealing with this multiplicity of problems — jurisdiction, engineering, economics and general national television policy. We think the time from July until now is not so inordinate a delay as to justify the interposition of judicial authority in administrative proceedings midway in that process."

Caplin, Meltzer Heard in Probe On Communism in Communications

Two admitted former members of the Communist Party, both also formerly employed in the broadcasting industry, were witnesses Dec. 17 before the Senate Internal Security Subcommittee.

Jerome Caplin, advertising and public relations executive of Capp Enterprises Inc., New York, stated that he was an active communist worker from 1938-43, but disaffiliated with the party upon entering the Army. He said he worked in promotion for Television Programs of America in 1953-54 and then was with *Producers Showcase* until that program went off NBC-TV in May 1957. The brother of Lil Abner creator Al Capp, Mr. Caplin said that he knew of no communists employed by either TPA or

BROADCASTING

GOVERNMENT CONTINUED

Showcase and that his superiors did not know of his former party affiliation.

Milton Meltzer, script writer and researcher for a CBS Radio program for six months in 1946, told the subcommittee that he was: a communist from 1935-August 1942. Mr: Meltzer said that while writing for the CBS program, which was sponsored by the Veterans Administration, he attended several meetings of writers, many of whom he knew to be communists. He refused to give the subcommittee the names of any of these writers.

In 1949, Mr. Meltzer said that he wrote the script for a radio program, broadcast on WAAT Newark, sponsored by an electrical union. Under questioning of counsel, he admitted knowing the union was communist dominated and that it had been cited as subversive. Mr. Meltzer now is in the public relations department of Charles Pfizer Inc. (chemicals), New York.

The subcommittee is investigating communist activities in mass communications. Following the Dec. 17 session the hearing was adjourned until after the first of the year. No future witnesses have been announced.

NEW VISTAS LOOM IN SPACE RELAYS

The age of space communications, relaying entered its second week last week—with ali tests exceeding expectations.

At the same time, the meaning of the Defense Dept.'s Project SCORE (Satellite Communications by Orbital Relaying Equipment), was hailed with optimism and with foreboding.

A. Prose Walker, manager of engineering, NAB, declared that the successful accomplishment of the Atlas shoot means that within the foreseeable future "effective utilization of spectrum space above 125 mc will be quadrupled." It means, Mr. Walker added, that all line-of-sight frequenciesnow used solely for short range communications—will soon be usable in long range communications. "We could have," Mr. Walker stated, "international television in the vhf band before long."

Andrew G. Haley, astronautical law expert and Washington communications lawyer, warned that a large number and different portions of the radio spectrum must-be "appropriated" to arrange for radio-tv communications with the moon and with mobile and fixed objects in the "great terrestrial-lunar area."

"One cannot overemphasize," Mr. Haley declared, "the demand which will be made in the very near future for radio spectrum and those who are utilizing grants already made must withstand some very serious attacks in the very near future."

Mr. Haley explained that both the CCIR (International Consultative Committee for Radio) and the State Dept.'s Preparatory Committee for the International Telecommunications Conference in Geneva this year will discuss space allocations.

The most significant experiment with the Atlas relay occurred last week when the Fort Stewart, Ga., Signal Corps installation fed seven teletypewriter channels and one

UP IN THE CLOUDS

Two Patchogue, N.Y., station operators made the UPI wires last Tuesday (Dec. 23)—twice. The first was a report that a station there had FCC permission to broadcast from a space satellite. The second was a report it wasn't so.

The stations say it was a hoax, source unknown. UPI says it got a report from a "Herbert Jarvis" that "Suffolk Broadcasting Inc., operator of WPAC" had received the FCC's goahead to rebroadcast 24 hours, including commercials, on fm at 95.7.

(1) Suffolk Broadcasting operates WALK-AM-FM, not WPAC (which is operated by Patchogue Broadcasting Co.); (2) WPAC has no fm; (3) WALK-FM frequency is 97.5 mc, not 95.7; (4) nobody knows "Herbert Jarvis."

voice message into the satellite's tape recorder. These messages were immediately played back, with reception "excellent."

Earlier in the week an Army engineer at the Fort Monmouth Signal Corps Labs in New Jersey was hooked into direct communication with the satellite over Los Angeles through telephone and radio relays cross country. After an introductory message, President Eisenhower's Christmas greetings were fed into the system. The satellite was triggered by the Army's facility at Fort Sam Houston, Tex., and the messages unloaded there, with reception also at Fort Stewart, Ga., and Fort Huachuca, Ariz.

Reception was considered "near perfect," according to Defense Dept. announcement. Because Atlas was tumbling end over end,

some fading was experienced, it was stated. The Army Signal Corps reported Wednesday that its direction finder equipment at the California facility was proving of "major value" in orienting ground communications antenna automatically in the direction of the approaching satellite. The 86th communications test was scheduled for 6:45 p.m. Reduced tests were to be continued through the Christmas holiday, the Army announced, with a return to full

schedule after the holiday. The Atlas satellite was sent aloft by the Air Force Dec. 18 from Cape Canaveral, Fla. It is 85 ft. long, weighs 4½ tons and is traveling at a rate of 17,000 miles per hour. It has a life expectancy of about 20 days.

Doerfer Cites Status Of Radio-Tv at Yearend

The nation now has more radio and tv sets than people and more than three times more sets than automobiles, FCC Chmn. John C. Doerfer said in a yearend statement. He said estimates indicate 150 million radio and 50 million tv sets. There are 9,500 broadcast stations—5,100 regular and 4,400 auxiliaries, he said.

Commercial tv stations authorized are nearly 670 (470 vhf, 200 uhf) and over 500 are on the air (430 vhf, 80 uhf), plus

Medical and nutrition authorities recommend moderation and reasonableness in food choice as a best guide to good health. When a moderate reduction of dietary fat is indicated, a good choice is the cereal and milk serving for breakfast and the late evening snack.

well-balanced nourishment and provide quick and lasting energy. This serving, as shown below, is a good source of many nutrients and provides about 10 per cent of the daily recommendations of high quality protein, important B vitamins, and essential minerals. Served with nonfat milk, the fat content is very low.*

200 tv translators. There have been 60 educational tv station grants and 28 vhfs and 7 uhfs are operating, he added.

More than 90% of the population is in range of at least one operating tv outlet and 75% is in reach of two or more; 85% of all homes have tv.

Commercial fm outlets continue to increase in number with 690 authorizations and 570 on the air, due largely to added revenue from background music and other supplementary sources, the FCC chairman said. There are 150 operating educational fms. Am commercial outlets continued to increase, due largely to the crowding of new daytime-only stations into the broadcast band. Now authorized: 3,400 of which more than 3,300 are operating.

All this creates problems in finding spectrum space and the FCC is studying needs and finding room for more stations by channel-splitting and other means, Mr. Doerfer said. The FCC continues to seek ways of controlling interference between stations and from non-communication electronic devices, he said.

Among major general problems in broadcasting: the Barrow Report recommendations on tv network broadcasting, need for more competitive tv 'facilities, the clear channel rulemaking, daytime broadcasters' request for longer hours and recommendations for additional services by fm stations through multiplexing, FCC Chairman Doerfer summarized.

LAST OFFICIAL TALLY FOR 1957 SHOWS RADIO-TV AT \$2 BILLION

- FCC summary puts broadcast revenue at \$1.5 billion
- Combined sum up 6.1% over 1956; total income off 10%

The radio-tv broadcasting business in 1957 was almost a \$2 billion industry. This is the official estimate by the FCC, which is the only source collecting the dollars and cents reports of networks and stations.

This is how the FCC calculated the 1957 total overall figures, which it released last week:

• Total revenue, \$1.5 billion.

• Commissions to advertising agencies and station representatives, \$204 million.

• Talent and production costs paid to organizations not owned by networks or stations, \$248 million.

• Total, \$1.95 billion.

Radio-tv's \$1.5 billion for 1957 was 6.1% over 1956's combined total of \$1.4 billion. Combined 1957 income was \$214.6 million, a drop of 10.1% from 1956's \$238.8 million. Tv revenue in 1957 totaled \$943.2 million; radio revenue in 1957 reached the

HOW WE COMPARED

Last fall, BROADCASTING'S combined radio-tv YEARBOOK carried this magazine's own estimates of radio time sales for 1957—which for more than 20 years have proved amazingly accurate. Here is a comparison of the radio revenue figures carried in the 1958 YEARBOOK and the official FCC figures released last week:

National Network	BROADCASTING \$ 49,232,000	FCC \$ 47,951,000
Regional & Miscellaneo Network	15 3,924,000	3,709,000
National & Regional		
Non-Networ	k 164,301,000	169,511,000
Local	298,952,000	316,493,000
TOTAL	\$516,409,000	\$537,664,000

HOW SRA COMPARED

Spot radio billings in the first nine months of 1958 totaled \$125,888,000 or 4% more than the comparable period of 1957, Station Representatives Assn. estimated last week.

The estimates represent revisions, based on FCC figures for 1957, of earlier SRA estimates for the two periods. The FCC figures, released last week (see above), placed 1957 spot radio spending at \$169,511,000, whereas SRA had estimated the 1957 total at \$183,097,000.

The new SRA estimate for the first nine months of 1957 (FCC's figures did not include quarterly breakdowns) is \$121,058,000. Earlier SRA estimates for the two nine-month periods had been \$131,397,000 for 1957 and \$136,639,000 for 1958. \$517.9 million mark.

While tv's 1957 income of \$160 million showed a 15.6% decline from 1956's \$189.6 million, radio's \$54.6 million was 11% over 1956's \$49.2 million. Income figures are before payment of federal income taxes. Details of tv's 1957 revenues and income were issued by the FCC last August [GOVERNMENT, Sept. 1].

Radio networks—four national and three regional—plus their 21 owned stations had total 1957 revenues of \$73.5 million, 4.7% over 1956's \$70.2 million. Expenses also totaled \$73.5 million, leaving broadcast income at zero. In 1956, this group of networks and their owned stations reported a \$400,000 profit.

The total revenues of 3,143 non-network owned stations for 1957 were \$444.4 million, up 8.3% over 1956's \$410.4 million. Income for these stations was \$54.6 million, an increase of 11.9% over their 1956 profits of \$48.8 million.

Sale of network radio time hiked to \$51.7 million in 1957, up 6.7% over the 1956 figures; sale of station time to national spot advertisers was \$169.5 million, up 16.5%, and to local advertisers was \$316.5 million, up 6.3%.

There were almost 1,000 radio stations— 959 to be exact—which reported operating losses in 1957. This is 31.1% of the total number of radio stations. In the preceding year the comparable number of red-ink stations was 29.3% of the total. In fm, 44 out of 67 stations operated by non-am licensees reported operating losses during 1957. This compares with 36 out of a comparable 51 in 1956.

Purely fm revenues reported by 180 out of 499 fm stations totaled \$3.1 million in 1957, compared to \$2.4 million for 170 out of 472 fm stations in 1956. Sixty-seven fm-only stations reported a net loss of \$500,-000 for 1957, compared with 51 like stations reporting a \$400,000 loss in 1956.

Radio's Multimillion Markets

Where are the best cities—radiowise-advertisingwise? In the FCC's 1957 financial list of metropolitan areas and other communities having three or more stations, the ranking by total broadcast revenues (\$5 million or more) was as follows:

New York, \$32 million; Chicago, \$20 million; Los Angeles, \$16 million; Detroit and Philadelphia, \$10 million each; Boston, \$8 million; San Francisco, \$7.8 million; Pittsburgh and St. Louis, \$6.2 million each; Washington, D. C., \$6.1 million, and Cleveland, \$5.5 million.

The 11-city total represents a sizable gain. In 1956, the FCC's charts showed only eight cities with \$5 million or more in total radio revenues. They were: New York, \$28 million; Chicago \$18 million; Los Angeles, \$15 million; Detroit and Philadelphia, \$9 million each; Boston, \$6 million, and St. Louis and Washington, \$5 million.

¹ In view of the difficulty in a joint am-fm operation in allocating fm operation expense seperately from am station operation expense, licensees of such stations were not required to report fm station expense separately. As a result, fm industry totals for expense and income are not available. Am-fm licensees, however, were requested to report separately the revenues, if any, attributable to fm station operation if such data were readily available. In only a few instances did am-fm licensees state they were unable to segregate the fm revenues.

Before Federal income tax. Excludes 67 independently operated fm stations. Stations with less than \$25,000 time sales report only total revenues and total expenses. Stations with total time sales of \$25,000 or more, however, accounted for over 99% of the broadcast revenues of the 3,097 reporting stations.

Before Commissions to agencies, representatives and others. Note: CR denotes loss. Includes data for all network owned stations. In prior years, data for Network Key Stations were excluded from this table.

³ Excludes data for 59 stations whose reports were filed late.
⁴ Total revenues consist of total time sales less commissions plus talent and program sales.
⁵ Not all stations in this market operated a full year during 1957.
⁶ Data withheld because third station in this market in operation for short period during 1957.
^{exa} Data not published for groups of less than 3 stations.
^{exa} The station totals on this line differ from those given in Table 5 since that table excludes data for 21 network owned stations while this table includes the data for such stations.

FCC Holds Up Renewals Of Evanston, Chicago Fms

The FCC last week told two fm broadcasters that if their background music simplex operations are to be considered as "broadcasting"---as set forth by an appeals court decision supporting the two stations [AT DEADLINE, Nov. 10]-then the stations are not operating their background music services the way the FCC requires broadcasting to be carried on.

The stations-WFMF (FM) Chicago and WEAW-FM Evanston, Ill.-were told their applications for license renewals are being deferred for the present. The FCC has asked reconsideration by the full U.S. Court of Appeals for the District of Columbia of the November decision by a three-judge panel of that court.

WFMF was told that, assuming such background music operations ultimately are determined to be broadcasting in nature, there are questions as to: (1) whether its "planned music" programming is an abdication of its responsibility as a broadcast licensee to retain control over its programming as public needs may require; (2) whether subscribers to the background music, as "sponsors" under legal definitions, should not be announced and logged as required by law; and (3) whether omissions of station identification and sponsorship from transmissions received by subscribers constitutes a violation of the Communications Act and FCC rules.

The questions on WEAW-FM practices

concerned the foregoing "abdication of licensee responsibility" issue and that of elimination of required announcements from material transmitted to background music subscribers.

Three N.O. Contestants Agree on Interim Plan

Attorneys for the three contestants for ch. 12 in New Orleans Wednesday (Dec. 24) reached agreement on joint temporary operation on ch. 13 pending ultimate awards of the two facilities. They had not cleared details of the plan with clients, but it was reported that WJMR-TV New Orleans, the contestant which has most to sacrifice under the FCC plan laid out the week before [GOVERNMENT, Dec. 22], was agreeable to the plan.

The other two contestants are Oklahoma Tv Corp., licensee of KWTV (TV) Oklahoma City, and Coastal Tv Co. The three would join in temporary operation on ch. 13—using the present WJMR-TV facilities —until final grants of chs. 12 and 13 are made.

The FCC's order said the Commission would decide favorably on applications filed by today (Dec. 29) for joint temporary operation on ch. 13, which is permanently assigned to Biloxi, Miss. (The FCC awarded that channel to Radio Associates Inc. in 1957, but the grant was remanded by the U.S. Court of Appeals for the District of Columbia for re-examination of and findings on the financial qualifications of the applicants. WLOX Biloxi is the other ch. 13 contestant.)

WJMR-TV operates on ch. 20, but has conducted an experimental dual operation on ch. 12 under FCC grant. The FCC canceled WJMR-TV's ch. 12 operation effective next Jan. 1 [GOVERNMENT, Nov. 3] after a hearing required by an appeals court decision [GOVERNMENT, May 26]. WJMR-TV's ch. 12 transmitter is less than the minimum mileage separation required by FCC rules from co-channel WJTV (TV) Jackson, Miss. The court action followed WJTV's appeal on grounds the New Orleans ch. 12 operation was not a bona fide experiment.

The FCC plan for temporary use of ch. 13 in New Orleans provided for operation by WJMR-TV for the month of January if the three file the joint application, with joint operation to follow until the final grant of ch. 12 and "in no event" to continue after ch. 13 is granted in Biloxi.

Community Tv Installation Fees Held Taxable as Income by IRS

Warren Television Corp., a community antenna system in Warren, Pa., was told by the U.S. Tax Court in Washington last week that money received from subscribers as capital contributions to pay for initial installation of equipment is taxable income and that Warren must make up deficiencies in its taxes for 1953-55. The amount Warren owes, according to the Internal Revenue Service, is in excess of \$85,000, but the final figure is subject to recomputation.

The decision by Judge Graydon G. Withey recalled a similar ruling in the case of Teleservice Co. of Wyoming Valley at the beginning of 1957. The capital contributions in the Warren dispute were \$125 for residential subscribers, \$150 for commercial establishments. Warren issued certificates which it later repurchased for \$65 to \$99 each. The Tax Court decision noted that the holders of these certificates could not be considered stockholders.

FCC Examiner Recommends Denial of Engineer's License

A recommendation that the FCC dismiss, with prejudice, the application by Morton Borrow for renewal of his first class radiotelephone operator's license was issued in an initial decision last week by Hearing Examiner Forest L. McClenning.

Mr. Borrow, an engineer at WPEN-AM-FM Philadelphia, refused to answer an FCC questionnaire asking information on present or former membership in the Communist Party or in organizations advocating overthrow of the government by force. Examiner McClenning said he relied on past FCC decisions in similar cases in issuing his initial decison. Mr. Borrow had claimed the FCC had no legal right to ask him the questions.

William B. Caskey, WPEN-AM-FM ex-

GOVERNMENT CONTINUED

ecutive vice president, issued this statement Wednesday (Dec. 24): "WPEN does not feel that it can properly take any position on a matter now pending before the FCC involving one of its employes. When the issue has been decided by appropriate authority, WPEN will then take such action as it deems proper."

FCC Turns Down Five Reconsideration Pleas

The FCC last week denied petitions for reconsiderations of five Commission orders involving television. The petitions: • By WAKR-TV Akron, Ohio (ch. 49):

• By WAKR-TV Akron, Ohio (ch. 49): of FCC's April 23 denial of proposals in rulemaking to shift ch. 12 from Erie, Pa., to Akron or Cleveland-Akron and shift ch. 12 from Flint, Mich., to Saginaw-Bay City-Flint.

• By WCHU (TV) Champaign, III. (ch. 33): of March 21 denial of petitions by WCHU and WTVP (TV) Decatur, III. (ch. 17), asking deletion of ch. 3 in the area or (by WTVP) reservation of ch. 3 for education in lieu of ch. 12. assignment of ch. 12 to Lafayette. Ind., for commercial use and ch. 64 to Champaign-Urbana. WCHU also had asked that license renewal of WCIA (TV) Champaign (on ch. 3) be conditioned on switch to uhf.

• By KCOR-TV San Antonio (ch. 41): of March 3 rejection of KCOR-TV's proposal to share educational ch. 9 with educational interests and denial of KCOR-TV's request for rulemaking to determine the status of educational tv in San Antonio. FCC also deferred action on a KCOR-TV proposal for rulemaking to assign ch. 2 to Bandera, Tex.

• By WCBF-TV Rochester, N. Y. (ch. 15): of Sept. 9, 1957, assignment of ch. 13 to Albany-Schenectady-Troy so as to assign ch. 13 to Rochester as well. FCC noted it's continuing to study possibility of additional vhf in Rochester and if it should appear feasible, the FCC will institute rulemaking to this end; FCC emohasized it is not now passing on WCBF-TV's Oct. 30, 1957, petition asking assignment of ch. 13 to Rochester.

• By WFAM-TV Lafayette, Ind. (ch. 59): of April 7 rejection of WFAM-TV's proposal to shift ch. 10 from Terre Haute to Lafayette and a proposal by WDAN-TV Danville, Ill. (ch. 24) to shift ch. 10 from Terre Haute to Danville. WFAM-TV had asked for an evidentiary hearing.

The FCC terminated proceedings in all dockets involved in its denials.

Approval of WMAM-WMBV-TV Sale Affirmed in Examiner's Finding

An initial decision recommending denial of protests against the FCC's approval of the sale of WMAM and WMBV-TV Marinette, Mich. [CHANGING HANDS, March 24], was issued last week by Hearing Examiner Elizabeth C. Smith. She recommended affirmation of the March 19 grant of sale of 75% of the licensee by W. E. Walker, Joseph D. Mackin and others to Superior

PASS THE SPUDS, MA

It's just not so, Sen. Henry C. Dworshak (R-Idaho) maintains in protesting ads on television claiming rice contains fewer calories—and therefore, is less fattening—than potatoes. He asked the FCC and Federal Trade Commission to order Uncle Ben's rice to stop making such a claim on tv and cited Dept. of Agriculture figures to show that rice contains more calories.

"This food fable has no place on the American video screen," the native of a state renowned for its potatoes stated. "I would advise weight-watchers not to watch tv but to continue to eat potatoes to keep slim and trim." Sen. Dworshak said that "no pallid substitute" could replace the Idaho potato on American dinner tables.

(Wis.) Evening Telegram (Morgan Murphy), Walter Bridges and Norman Postles for \$211,000 plus assumption of \$360,000 in liabilities.

The Marinette stations, meanwhile, have settled differences with two protesting stations—WFRV-TV and WBAY-TV Green Bay, Wis.—(except for matters in hearing status) with WMBV-TV acquisition of ABC-TV affiliation for its lost NBC-TV service [AT DEADLINE, Dec. 22]. Besides the hearing on the sale, the other matter in hearing status is the proceeding resulting from objections by two Green Bay stations to WMBV-TV's application for move of transmitter and for increased power and antenna height.

Justice, FCC Differ On Protest of Philco

The U. S. suffered a split personality last week in a radio case.

The Justice Dept. told the U. S. Supreme Court it thought the appeals court decision in the Philco protest against the license renewals of NBC's Philadelphia stations was correct.

The FCC told the U. S. Supreme Court that the appeals court "misconceived the statutory scheme . . ."

Both statements were contained in the memorandum filed by the Solicitor General last Wednesday.

The Supreme Court asked for the views of the FCC last November [GOVERNMENT, Nov. 17]. Pending before the high court is a petition by NBC, asking that the appeals court's decision be reviewed.

Philco protested to the FCC in 1957 when the Commission renewed the licenses of the NBC-owned Philadelphia stations, WRCV-AM-FM-TV. The FCC turned down the Philco protest on the ground it had no standing. Philco appealed and the U. S. Court of Appeals for the District of Columbia last June reversed the FCC.

Philco contended that it is a competitor of RCA in the manufacturing and sales of appliances and radio-tv equipment and that

Page 68 • December 29, 1958

NBC's ownership of radio-tv outlets in Philadelphia was unfair competition. NBC is owned by RCA.

The government's attitude in its statement to the Supreme Court was that the protest rule in the Communications Act must be interpreted liberally and that the test for a would-be intervenor must be a "common sense one."

The FCC, on the other hand, charged that this raised serious jurisdictional problems as well as "practical difficulties".

The FCC stated: "Indiscriminate extension of standing to force a hearing under Sec. 309(c) can thus have a grave effect upon the Commission's ability to control its docket and allocate its energies and attention to the problems whose merits are most deserving...Clearly, Congress did not contemplate an unlimited class of 'private attorneys general' insofar as the protest procedure was concerned."

Reston Says Government Leaders Use Television to 'Manage' News

Television speeches by the top government officials is a method frequently used to "manage" the news, charged newspaperman James Reston, chief of the Washington bureau of the New York Times.

In an appearance on *The Press and The People*, a film series produced and distributed by WGBH-TV Boston, under a grant from the Fund for the Republic, Mr. Reston said government officials "are inclined more and more to make the big, set presentation of their policy in, say, a television address, where they cannot be questioned, whereas, 10 years ago, the press conference was a much more common thing than it is today." To illustrate his point, he recalled the daily press conferences of Secretary of State Cordell Hull in comparison with those held every two or three weeks by Secretary of State Dulles.

Calling for a close watch on the growing giants of government as they amass greater power, Mr. Reston said government agencies didn't work to suppress the news, though they do tend to play up the good and minimize the bad.

Two Oppose Roberts' Miami Bid

Two more principals in the courtremanded Miami ch. 10 case have filed oppositions to a request by Elzey Roberts [AT DEADLINE, Dec. 8] that he be permitted to apply for ch. 10 if the present license (held by a National Airlines subsidiary) is revoked. Public Service Television Inc., present licensee, said Mr. Roberts' petition is "premature," that he is a "stranger" in the proceeding and that he has "no standing." WKAT Inc. asked the FCC to strike the Roberts petition on the grounds cited the week before by L. B. Wilson Inc. [AT DEAD-LINE, Dec. 15].

WXEX-TV Gets Richmond Call

Ch. 8 WXEX-TV Petersburg, Va., was granted its request for dual identification by the FCC last week. The station will now be allowed to identify itself with Richmond as well as Petersburg.

Government Pre-Emption of Air Opposed by Hagerty in Article

Passage of a law compelling radio and tv stations to yield time for live broadcasts by the President whenever requested is opposed by James C. Hagerty, news secretary to President Eisenhower. Writing in the Dec. 27 Tv Guide, Mr. Hagerty said, "I have never been refused time by the networks. This is a free country and we ought to have free communications. I think it would be a dangerous precedent to give the government power to pre-empt the nation's tv and radio facilities—except in time of national emergency."

Telecast news conferences were a big help after the President's heart attack, Mr. Hagerty said, enabling the public to judge the state of his health from his voice and image. He added the President looks at tv newscasts and occasionally watches a playback of one of his own broadcasts. He tunes sports, westerns, plays and comedy for relaxation. He said Mrs. Eisenhower "is a real tv fan."

AB-PT Backs Shreveport Tv Bid

American Broadcasting-Paramount Theatres Inc. has notified the FCC of its support of Henry B. Clay's petition requesting the Commission to allocate a third vhf channel to Shreveport, La. Mr. Clay, executive vice president and general manager of KWKH-AM-FM Shreveport, asked for the assignment of ch. 10 to that city by shuffling vhf and uhf assignments in El Dorado, Little Rock and Hot Springs, all Arkansas. There are at present two assignments for Shreveport: ch. 3 KTBS-TV and ch. 12 KSLA-TV.

AB-PT, which has a secondary affiliation with each Shreveport tv outlet, told the FCC that without another vhf station in that city, the public is being deprived of a wider choice of program service and AB-PT is "handicapped in its efforts to develop a third competitive network."

College Asks for Channel Change

Indiana Central College, a small, liberal arts college over half-century old, filed a petition at the FCC Wednesday asking that ch. 13 Indianapolis be changed from commercial outlet to non-commercial, educational. Application was signed by Lynd Esch, ICC president. He pointed out that in the FCC's original rule-making proposal, ch. 13 was to be non-commercial, educational.

Indianapolis ch. 13 is held by Crosley Broadcasting Corp.'s WLWI (TV), but a new oral argument on this grant has been scheduled by the FCC in response to an appeals court remand. The case was sent back to the FCC because Comr. T. A. M. Craven, whose vote gave a majority for the grant to Crosley, did not hear oral argument.

WMTW-TV Granted Private Relay

The FCC last week granted ch. 8 WMTW-TV Poland Spring, Me., a private tv intercity relay system. The system will be used for off-the-air pickups of programs from ch. 5 WHDH-TV Boston, Mass.

Set, Tape Volume Rise **Forecast for Next Year**

1959 should be a boom year in the equipment manufacturing field, according to three yearend statements released last year. They said:

Electronics Industries Assn. • Radio and ty sets as well as other consumer goods in the electronics field are expected to return to a \$1.5 billion level in 1959, following a resurgence in late 1958, according to a yearend review by David R. Hull, Raytheon Mfg. Co., president of Electronics Industries Assn.

Total production of \$7.7 billion (factory sales) in 1958 set a new electronics record. The figure was \$100 million above the 1957 alltime record.

Consumer goods, chiefly radio-tv sets showed a decline from \$1.5 billion to \$1.3 billion during the year as a whole. The impact of growing interest in stereo and hi-fi led to the autumn revival along with obsolescence of tv sets and the normal rise in total homes.

Retail sales of tv sets dropped to about 5 million units in 1958 compared to 6.6 million in 1957, Mr. Hull said. Sales of radio receivers of all types dropped from 15.2 million to 12.6 million despite the demand for transistor portables. Phonographs dropped from 4.9 million in 1957 to 4.2 million in 1958.

Electronic guidance and communication

Here's the way the U. S. Commerce Dept., Business and Defense Services Administration, Electronics Div., surveys the growth of the electronics industry since 1947 and its projection for 1959:

Electronics Output in Specified Years, 1947-591 (Value in millions of dollars)

Year	Home-type radio and television receivers, and related products	All other electronic equipment except tubes and com- ponents ⁸	Electron tubes	Semi- conductor devices ⁸	Electronic components other than tubes and semiconductors
1959	1,500e	3,800e	850e	250e	1,500e
1958	1,350p	3,250p	760p	200p	1,340p
1957	1,500	3,100	800	155	1,445
1956	1,470	2,800	780	90	1,360
1955	1,500	2,500	800	40	1,360
1954	1,420	2,470	710	25	1,275
1953	1,593	2,503	734	25	1,445
1952	1,340	2,330	690	20	1,110
1951	1,296	843	473	8	788
1950	1,687	473	443		697
1947	810	469	122		349

-Estimate -Preliminary

Determiningry

 Determiningry
 Data cover manufacturers' shipments. The totals represent the factory value of production or shipments (output) of electronic products, whether incorporated in other products or used in maintenance and repair of end equipment.
 Does not include payments on research and development contracts.
 Data for years prior to 1952 are included in "Electronic components other than tubes and semiconductors."

 Bources: Based on data contained in the Census of Manufactures, the Annual Survey of Manufactures, releases of the Electronic Industries Assn. Marketing Data Dept., and other

sources.

rank next to propulsion in the missile and satellite field, Mr. Hull explained, adding that "without them the moon and universe probes would be useless toys."

General Instrument Corp. • Based on components orders on hand, Martin H. Benedek, board chairman of General Instrument Corp., predicts industry tv set pro-duction in 1959 could be 10-15% higher than the 5 million sets being produced this year. He said the "first truly portable tv sets," fully transistorized, "will probably be marketed within the next year or two." The firm now is heavy in industrial and military electronics and anticipates record sales of \$47 million for the fiscal year ending Feb. 28, 1959, 20% higher than last year's record \$39 million.

ORRadio Industries Inc. • "The tape recording industry has no ailments that a

good dose of salesmanship won't cure," according to J. Robert Orr, president of ORRadio Industries Inc. He forecasts a \$35 million magnetic tape market for 1959, well above this year's estimated total industry sales of \$21 million. He predicted tape sales will hit \$115 million by 1963.

Mr. Orr said the replacement market in tape recorders and the growing boom in stereo will be important factors in the industry's sales picture next year. He said there was a definite spurt during the final quarter of 1958.

MANUFACTURING SHORT

Visual Electronics Corp., N. Y., publishes catalogue of complete line of tv monitoring equipment. Brochure provides full illustration, price, description and other technical data of 25 Conrac tv picture monitors and other VEC equipment.

GOOD MUSIC GROUP CITES MITCH MILLER

Given 'Man of Year' Award

Music for Adult 'Buyers' Stressed

Last spring, Mitch Miller, volatile director of popular artists and repertoire at CBS Inc.'s Columbia Records Div., bristled his familiar beard and accused the nation's disc jockeys of having "abdicated [their] programming to the corner record shop . . . the pre-shave crowd that make up 12% of the country's population . . . zero percent of its buying power . . ." [STATIONS, March 17].

Last Monday, at a New York luncheon, Mr. Miller was hailed as a "trendmaker" and named "man of the year" by a group of stations comprising Better Music Broadcasters.

Carl L. Schuele, president of Broadcast Time Sales Inc., organizer of and station representative for BMB, said Mr. Miller "in his 'Gettysburg address of radio' signaled all broadcasters to take a long look at their programming" and noted Mr. Miller spoke "not only as a professional musician . . . but also as a man who was deeply troubled by an assault upon public taste . . . as a man who knows the business end of radio . . . a man who knows that advertising must pay."

Accepting the bronze plaque and an Arvin high-fidelity am-fm stereo radio, Mr. Miller reiterated his earlier stand by saying, "we must not underrate the taste and intuitive wisdom of the people." He added: "An audience has an insatiable appetite for fresh, varied and unpredictable music. I refuse to picture the listener as passive and slothful. An attentive and alert listener, which to you and your advertising clients means a successful and loyal listener, depends on a constant rotation of rich musical cropsand your [better music] programming proves that this can guarantee a financial harvest bigger and more permanent than radio has ever seen.

Attending the luncheon were representatives of the BMB stations, which include WVNJ Newark, WAYE Baltimore, WJMJ Philadelphia, WDOK Cleveland, KADY St. Louis, KIXL Dallas and XEMO Tijuana-San Diego.

Representing WDOK, Program Manager Wayne Mack noted that "radio is not just a show . . . but a backdrop to a busy day." He called upon more broadcasters to drown out "the neurotic sound" [of the so-called 'top 40' list] with "lush strings . . . and music that wears well." (He also said that a liquor referendum staged by the station drew 2,000 letters within one week and that 90% were against liquor ads on the air.)

Testimonials for good music programming also were offered by Jerome Feniger, vice president of tv-radio programming at Cunningham & Walsh, and his client, Donald Stewart, advertising manager of the Texas Co.; Donald Jacobs. account executive on G. Kreuger Brewing Co. at Grey Adv., and—in absentia—John Reeves, manager of R. H. Macy's record department.

Messrs. Feniger and Stewart referred to

BROADCASTING

the 18-year Texaco sponsorship of the Metropolitan Opera broadcasts Saturday afternoon and said that the two-minute Texaco commercial for 3½ hours of music might seem small. But they pointed out that Texaco gets thousands of letters, many giving unwavering allegiance to the Texas Co. product line because of the client's benevolence.

Mr. Jacobs said Grey and Kreuger had used one of the better music stations— WVNJ—on behalf of Ambassador beer and that WVNJ proved itself well enough to win a contract renewal after a 16-week trial.

The renewal calls for 4,400 more announcements in 1959 and represents a 100% frequency increase.

Mr. Reeves delivered his testimonial by telegram. It pointed out that "lp" albums which account for most of good music station programming—represented 36% of total yearly record unit sales but represented 70% of the dollar volume, which he said proves the importance of previewing lp's on good music stations. In New York alone, he said, lp's account for almost 80% of the dollar volume, a jump of 30% this past year.

Creditors Seek Revamping Of WTVW (TV) Evansville

A petition for reorganization under Chapter X, Federal Bankruptcy Act, has been filed by the president and principal stockholder of ch. 7 WTVW (TV) Evansville, Ind.

The suit was filed in federal court in Evansville Dec. 19 by three companies owned or controlled by Ferris E. Traylor. They claimed the ABC-affiliated station owes them more than \$400,000 and asked that a trustee be appointed to run the station while a plan of reorganization is worked out.

No cessation of WTVW's operations is contemplated, it was announced. The petitioning creditors have guaranteed to underwrite the continued operation of the ch. 7 outlet.

The reorganization request is considered another move in the tangled stockholder affairs of the Evansville station. Earlier this year, some stockholders entered into a voting agreement with Rex Shepp, another principal owner. Later a court injunction was procured forbidding Mr. Shepp to assume management control.

WTVW is also fighting an FCC order which would require it to relinquish ch. 7 for a uhf channel. The Commission is proposing to move ch. 7 from Evansville to Louisville, Ky. Only two weeks ago the U. S. Court of Appeals for the District of Columbia upheld, by a two to one vote, the FCC's rulemaking action in moving ch. 9 into Evansville from Hatfield, Ind., and marking it as reserved for educational noncommercial use [GOVERNMENT, Dec. 22].

WGN-AM-TV Studios to be Moved

Management of WGN-AM-TV Chicago plans to move the station's studios out of the Tribune Tower and has negotiated for purchase of property on city's northwest side as part of "eventual expansion plans,"

BROADCAST CENTER, the new \$600,000 home of WDEF-AM-TV Chattanooga, Tenn., went into operation this month. On the building's two floors are three radio and two tv studios, five control rooms, announcing booths, 36 offices, darkroom, newsrooms, etc. Located at 3300 South Broad St., the building has a total floor area of 32,442 square feet.

according to Ward L. Quaal, vice president and general manager of *Chicago Tribune* radio-tv properties. The land covers 12.3 acres and currently is owned by Bodine Electric Co. and Atlantic Brass Works Inc. If negotiations succeed it's believed physical broadcast properties may be relocated there by the end of 1959. WGN-TV's tower would remain atop the Prudential Bldg. and transmitters on the city's outskirts. The move would be a precedential departure from Chicago's Michigan Ave.

Penn School of Communications To Be M.L. Annenberg Memorial

Annenberg School of Communications is being set up at U. of Pennsylvania by Walter H. Annenberg as a memorial to his father, the late M.L. Annenberg. All communications fields will be covered by the school, according to Dr. Gaylord P. Harnwell, university president.

Walter Annenberg is president of Triangle Publications, operating radio-ty stations, Tv

WUC RADIO

Col. B. J. Palmer, President Ernest C. Sanders, Manager Mark Wodlinger, Sales Mgr.

Tri-City Broadcasting Co., DavenDort, Iowa Peters, Griffin, Woodward, Inc. Exclusive National Representatives Guide, Philadelphia Inquirer and other publications. The school will teach the art, science and

techniques of mass communications, emphasizing radio, tv and publishing. Courses will include liberal arts, social sciences, foreign affairs and other subjects as they relate to the mass media. Undergraduate as well as graduate professional education is proposed. A building will be erected on the university's campus to house the school.

Operating funds will be derived from contributions and fees and will be underwritten over a 10-year period by Annenberg Fund Inc. A grant from Annenberg Foundation will finance the building. An expenditure of \$3 million is involved in the project, which will be open to students in September 1959.

Goldman Named Executive V.P. For Noe Enterprises Stations

Promotion of seven executives at the radio and tv stations owned by Noe Enterprises Inc. was announced last week by James A. Noe, board chairman.

Paul H. Goldman was named executive vice president and general manager of Noe Enterprises, covering KNOE-AM-TV Monroc, La., and WNOE New Orleans, and Ray Boyd, was promoted to vice president and director of engineering for all Noe stations.

New assignments at KNOE-TV are Harry Arthur, vice president and program director; Jack Ansell Jr., vice president in charge of sales and promotion; Ansel Smith, vice president and operations manager, and Mac Ward, vice president and news director. At KNOE, Edd Routt has been named vice president and general manager.

Three Stations Signed in L. A. For Stereo Show in Highest Fi

Radio firsts are hard to come by these days, when broadcasting is nearing its 40th anniversary in the country. but Los Angeles thinks it has one set for New Year's Eve: a six-hour stereophonic program that will combine an am-fm hookup, an fm-fm broadcast and an fm-fm multiple tie-in.

Sponsor of the unique program is Western Sounds, a new organization specializing in custom built high-fi installations. Commercials will highlight products handled by Western Sounds, including Ektacom and Rittenhouse intercom systems, Superscope Stereorecorder, Fisher tuners and amplifiers, University speakers and Omega stereo tapes and discs.

In the am-fm combination, KLAC Los Angeles will make the right pickup and broadcast, KCBH (FM) the left one. In the fm-fm set-up, KCBH will provide the left pickup. KMLA (FM) Los Angeles the right one. Finally, KMLA will make the right pickup and multiplex the left one.

The program will begin at 9 p.m. Dec. 31, with an hour's broadcast of the six stereophonic albums chosen as the best of 1958. From 10 p.m. to 3 a.m. party music suitable for dancing will be broadcast, stereorecorded by 24 orchestras. 16 vocalists and six jazz groups. Western Sounds placed the business direct. The idea was conceived by Edward Altschuler, consultant for Magnetic Recording Industry Assn.
CHANGING HANDS TRACK RECORD ON STATION SALES, APPROVAL

ANNOUNCED

FCC approval.

The following sales of station interests were announced last week. All are subject to

KUEQ PHOENIX, ARIZ. • Leased by Dynamics Inc. (Walter Hall and Carson Cowherd) from Frank Barc, George Sorenson and Jack Caveness for 20 years with an option to purchase, for \$295,000. The transaction was handled by Allen Kander & Co. KUEO is on 740 kc with 1 kw, day, directional antenna.

KABR ABERDEEN, S.D. • Sold to Frank E. Fitzsimonds by Yankton Broadcasting Corp. for \$80,000. Mr. Fitzsimonds is a former general manager of KFYR-AM-TV Bismarck, N.D., and most recently station manager of KBMB-TV that city. The sale was handled by Hamilton, Stubblefield, Twining & Assoc. Inc. KABR is on 1220 kc with 250 w, day.

WNOS HIGH POINT, N.C. • Sold to Charles Doss, commercial manager WROM Rome, Ga., by Statesville Broadcasting Co. for \$67,500. The sale was handled by Blackburn & Co. WNOS is on 1590 kc with 1 kw, day.

KHEM BIG SPRING, TEX. • Sold to Tom Conner, oil distributor, and Robert Bradbury, general manager of KPET Lamesa, Tex., by J. Homer McKinley for \$65,000. The sale was handled by Blackburn & Co. KHEM is on 1270 kc with 1 kw, day.

WAZA BAINBRIDGE, GA. • Sold to Radio Bainbridge Inc. by Joseph M. Grollman for \$50,000. The owners of Radio Bainbridge are Richard N. Hunter, J. W. Woodruff Jr., L. M. George and Joseph Gamble. Mr. Woodruff is president and 60% owner of WGPC Albany and minority owner of WRBL-AM-FM-TV Columbus,

KBCA (FM) to Make Music Debut

KBCA (FM), under construction in Los Angeles, will start Jan. 11 as "the concert station," broadcasting serious music from 7 a.m. to midnight from its studios in the Sunset Sands Hotel, 8775 Sunset Blvd., via its Mt. Wilson transmitter, on 105.1 mc, Saul R. Levine, station president, has announced. Ward Glen, for the past five years program director of KEAR-AM-FM, San Francisco "Good Music" station, has been appointed to the post of operations manager of KBCA.

WDOK Gets Negative Liquor Vote

WDOK Cleveland listeners voted 8 to 1 against the principle of accepting hard liquor advertising on the air. Over 1,500 letters were received. Fred Wolf, WDOK general manager, said the station management opposes spirits advertising on the air on moral grounds but wanted to tap public sentiment. Some listeners opposed liquor sponsorship on the ground it would be inconsistent with the station's better-music policy. Replies came from all socio-economic levels.

both Georgia. Mr. George is vice president, general manager and 40% owner of WGPC. Mr. Gamble is chief engineer of WRBL. Mr. Hunter is a station representative. The sale was handled by the Paul H. Chapman Co. WAZA is on 1360 kc with 1 kw, day.

KERC EASTLAND, TEX. • Sold to Dick Spalding and others doing business as The Circle "S" Broadcasting Corp. by D. J. Brookreson and D. J. Brookreson II for \$22,000 cash. The sale was handled by Patt McDonald, Austin. KERC is on 1590 kc with 500 w, day.

17

APPROVED

of station interests were approved by the FCC last week. Also see FOR THE RECORD, page 79.

The following transfers

110

KBET-TV SACRAMENTO, CALIF. • Sold to Great Western Broadcasting Corp. (J. H. Whitney & Co.) by John H. Schacht and others for \$4.5 million. J. H. Whitney Co. interests: KOTV (TV) Tulsa, Okla.; WISH-AM-TV Indianapolis, WANE-AM-TV Fort Wayne, both Indiana, and KGUL-TV Houston, Tex. Comr. Robert Bartley dissented in this case. KBET-TV is on ch. 10 and is affiliated with CBS-TV.

WTEL PHILADELPHIA, PA. • Sold to WTEL Inc. by E. Douglass Hibbs, Henry N. Cocker and Gertrude C. Hibbs for \$450,-

We salute the **BROADCASTER!!!**

- For the many pleasant hours of enjoyment he brings the American People!
- For the knowledge which he imparts to us every day!
- For bringing us current events and keeping us alert to our responsibilities as citizens!
- For operating his station in a manner which commands respect!

We know the stature broadcasting has attained both as a profession and a business, for never have so many tried to enter the field as in 1958. (As new ones have entered, those of experience have moved up to bigger responsibilities and greater returns.) We are proud of any assistance we may have provided in helping would be broadcasters to achieve their goal and in helping our old friends to move onward and upward. We wish you a Happy and Prosperous New Year and we look forward to many pleasant associations in '59.

Come see us when you're in Washington, D. C.; Chicago, Illinois; Atlanta, Georgia; or Beverly Hills, California. You're always welcome at Blackburn and Company.

000. WTEL Inc. is owned by John E. and George D. Hopkinson and Quentin C. Sturm. These own WKAB Mobile, Ala., and Mr. Sturm also has an interest in WLOI LaPorte, Ind. WTEL is on 860 kc with 250 w, day.

WHCT (TV) HARTFORD, CONN. • Sold to Capitol Broadcasting Inc. (E. D. Taddei, president) by CBS Inc. for \$250,000. WHCT is on ch. 18.

KITO SAN BERNARDINO, CALIF. • Sold to Myer Feldman, Arnold S. Lerner and Raymond Ruff by Marshall S. Neal and others for \$179,435. Mr. Feldman and others sold KOMA Oklahoma City, Okla. to Storz Broadcasting last summer [CHANGING HANDS, August 25]. KITO is on 1290 kc with 5 kw, directional antenna different pattern day and night.

KATE ALBERT LEA, MINN. • Sold to Albert Lea Broadcasting Co. (H. N. Cardozo Jr., president) by Albert Lea-Austin Broadcasting Co. for \$150,000. Richard K. Power, assignee vice president, has interests in WAVN Stillwater, Minn., WCMP Pine City, Minn., and WDBQ Dubuque, Iowa, KATE is on 1450 kc with 250 w and is affiliated with ABC.

KDRO-TV SEDALIA, MO. • Sold to Cook Paint and Varnish Co. by Milton J. Hinlein and others for \$50,000. Cook Paint and Varnish also owns KMBC-AM-TV Kansas City, Mo., and KFRM Concordia, Kan. KDRO-TV is on ch. 6 and is affiliated with ABC-TV.

KOA-TV, WITN (TV) Promotions Get Prizes

Top prize winners on NBC-TV's "Daytime Program Promotion Contest," in which 80 affiliates entered, were promotion managers Dean Faulkner, KOA-TV Denver, and Peggy Cooper, WITN (TV) Washington, N. C., each awarded a \$5,000 first prize.

Winners were announced to affiliates last week in a closed-circuit broadcast by NBC's Kenneth W. Bilby, executive vice president, public relations. The contest, which ran from Oct. 13 through Nov. 7 and was conducted by Al Rylander, director of NBC's exploitation department. Awards totaled \$25,500.

Mr. Faulkner was cited for the basic station conducting the outstanding local promotion campaign in support of NBC-TV's daytime programs, and Miss Cooper for the best campaign by an optional station.

The network toted up the performance of the stations and found the 80 participants had broadcast more than 30,000 onair promotion spots for NBC-TV's daytime programs, and placed more than 100,000 lines of advertising in local newspapers, for a combined value of more than \$1 million. The list of other award winners:

For basic affiliated stations, Arthur R. Garland, WRGB (TV) Schenectady, \$3,000 second prize; John Hurlbut, WFBM-TV Indianapolis, \$2,000 third prize; Frank Reynolds, KFSD-TV San Diego, \$1,500 fourth prize; Kirt Harris, KPRC (TV) Houston, \$750 fifth prize, and Dick Paul, WBRE-TV Wilkes-Barre, \$500 sixth prize.

For optional affiliates, C. Kirk Jackson, WTRF (TV) Wheeling, W. Va., \$3,000 second prize; Roy C. Federson, WDAY-TV Fargo, \$2,000 third prize; Doug Duperrault, KTBS-TV Shreveport, La., \$1,000 fourth prize; David Witherspoon, WRAL-TV Raleigh, \$750 fifth prize, and Edna Seaman, WFBC-TV Greenville, S. C., \$500 sixth prize. All winners also receive an RCA Victor color tv set.

Noted was a variety of exploitation activities including parades staged by 17 affiliates, special contests, local store tie-ins using window and counter displays, outdoor billboards, direct mail pieces and publicity in

TRAVEL PRIZE

George Heffernan, Benton & Bowles, and Charles Dixon, D'Arcy Adv., were first and second prize winners of trips to Europe at a "Christmas Cheer Open House" conducted for New York timebuyers by KUTV (TV) Salt Lake City Dec. 16-17. Mr. Heffernan won airline tickets for two plus \$150 toward expenses, while Mr. Dixon won a ticket for one plus \$75 toward expenses. Station Manager Brent Kirk estimated 350 timebuyers attended the open house, held at New York's Sheraton East Hotel.

local papers. A panel of agency executives and news editors judged the contest.

AWARD SHORTS

WAGA-TV Atlanta's 4-H Hour program has been given trophy for "outstanding service to Georgia agriculture" by Georgia Farm Bureau Federation.

WSB Atlanta, Ga., has received Georgia Farm Bureau Federation award for "outstanding service to agriculture" by station of 5,000 w or over.

Dewey P. Compton, KTRH Houston farm director, has won American Farm Bureau Federation's 1958 radio-tv award for his "outstanding interpretation of agriculture to the American public."

Robert Saudek, producer of much-awarded NBC-TV's *Omnibus* received citation from Boston U. School of Public Relations and Communications for "outstanding work in television."

Bud Clark, newscaster at WIL St. Louis, has received Missouri Associated Press Radio News Assn. award for "outstanding news coverage."

League of Advertising Agencies announces deadline for entries in third annual "outstanding advertising campaign awards" is Dec. 31. Entries should be submitted to League at 220 W. 42nd, New York 36.

Winston B. Linam, general manager of KSLA (TV) Shreveport, La., named city's "outstanding young man of the year" by Shreveport Junior Chamber of Commerce.

BROADCASTING

PROGRAMS & PROMOTIONS

WSB-TV Prayer Show Ushers 1959

WSB-TV Atlanta will ring in the new year with an "All Night Prayer Meeting" scheduled for telecast from the close of regular programming Dec. 31 until the start of NBC-TV's *Today* at 7 a.m. Jan. 1. Dr. Charles L. Allen, pastor of Atlanta's Grace Methodist Church will conduct the marathon sermon on the values of prayer and comment on Bible passages which will be read by Dr. Allen's son, Charles Jr. Viewers will be invited to call in questions or requests for prayer, WSB-TV announced. Presented as a public service. the telecast will last approximately $6\frac{1}{2}$ hours. the station reported.

KEX Stunt Recalls Gold Rush

The gold rush was on within minutes after KEX Portland, Ore., announced its giveaway promotion in connection with the station's second annual "Anniversary Golden Record Jubilee." The announcement by d.j. Russ Conrad that the station's "Solid Seven" personalities had struck gold in the station's parking lot attracted hundred of listeners, KEX reported. The gold mine was a pile of sand in which 100 tiny gold foil nuggets were planted. Each nugget was redeemed at the "KEX Assaying Office," a desk in the station lobby, for merchandise and cash prizes. Prospecting listeners sifted sand for two hours before the last nugget was discovered. KEX devoted 24 hours of continuous broadcasting to playing the all-time "golden record" hits of the past 34 years.

Heat's Off in WHDH-TV Contest

The U.S. Weather Bureau and Boston's L Street Health Club participated in WHDH-TV Boston's contest to promote the Sea Hunt film series. A two-week, all-expensepaid trip for two in Florida was awarded to the viewer who guessed closest to the actual air and water temperatures at noon, Dec. 9, at the L St. beach. On hand as weatherman John Cohen recorded 37.4 de gree water and 29.4 degree air temperatures were several swim suit-clad health clubbers. A Lynn, Mass., woman correctly guessed both temperatures, WHDH-TV announced on Dec. 16.

KMA Show Wins Fans, Sponsors

Capitalizing on the intense interest in high school basketball in the Midwest, KMA Shenandoah, began a twice-weekly threehour program called Fast Break (Tues., Thurs., 8-11 p.m.) four years ago. The program built up coverage, audience response and sponsor interest and this year has 18 sponsors and a waiting list. It provides running scores on as many as 118 games being played in the KMA listening area, and coverage includes final scores and highlights. As one indication of the effectiveness of the program, KMA officials pointed out that more than half of this year's 18 sponsors are repeats from last year. The rapid coverage of games from 118 different locations is achieved through the use of telephone correspondents.

NBC-TV and three daytime advertisers have solved the problem of replacing one daytime tv serial with another from one day to the next without depriving the viewer of the traditional tear-stained denouement. Washing out of Today Is Ours, Procter & Gamble (Compton Adv.), Nabisco (McCann-Erickson) and Armour & Co. (Foote, Cone & Belding) settled on a tv version of Young Dr. Malone, whose trials and tribulations have been radio fixtures since 1939. Suggested NBC-TV and the new show's producers: Why not transfer from Today Is Ours the six major characters and allow them to play out their story on Malone? Come the end of January, Today Is Ours will die off slowly as its characters take their place alongside those featured in Malone. The new series starts today (Dec. 29) at 3-3:30 p.m., Mon.-Fri.

WTAE (TV) 'Shocks' 25 Into Frat

A group of 25 pledges of Tau Kappa Epsilon fraternity at California State Teachers College, California, Pa., became members of the fraternity through a helping hand extended by WTAE (TV) Pittsburgh. One of the requirements for the would-be "Tekes" was to "appear on a live tv show." On Dec. 17, the group participated in three live cut-ins on the station's Shock Theatre.

WDBJ-TV Molds Giant Candle

A 10-20 ft. candle, promoted and made by WDBJ-TV Roanoke, Va., was lighted Dec. 23-25 in front of the local city hall. Wax for the giant taper was solicited from church congregations by the area's ministers. The ceremony of lighting the candle was telecast by WDBJ-TV.

WTCN Playing Numbers Game

Social security numbers of people within the coverage area of WTCN Minneapolis can win the card holders up to \$25,000. This is the amount the outlet is giving away each week in its raffle-by-radio promotion. WTCN announces 18 social security numbers daily. Each is worth amounts up to \$1,000 if the owner presents his card at the studios within 24 hours.

WGTO Adds Voice From The Cold

Canadian visitors to Florida this winter will hear "a voice from home" by listening to WGTO Cypress Gardens, which plans to make northlanders feel at home with a daily newscast direct from Toronto, Ont., featuring newscaster Dave Price. Mr. Price will be heard at 9 a.m., Monday through Saturday, starting Dec. 29.

PROGRAMS & PROMOTIONS CONTINUED

Church Drama Series on KRON-TV

The first of a new series of 13 local, live religious dramas was presented Dec. 21 on KRON-TV San Francisco. Titled Encounter, the half-hour shows are prepared by the Northern California-Nevada Council of Churches. The Sunday telecasts, which will resume on Jan. 18 for 12 weeks, feature professional actors and are being videotaped for delayed telecasting. Works to be dramatized include those by Tolstoi, Dostoevski, Alan Paton and others. The moral stressed in each play is discussed by a panel following the performance. The Dec. 21 Encounter was a special Christmas presentation entitled "The House by the Stable." Dr. Theodore A. Gill, president of the San Francisco Theological Seminary, is program host.

News Class Starts on WJAR-TV

The problems encountered by reporters in getting news from China were presented Dec. 19 in the first assignment of a new Daybreak College series on WJAR-TV Providence, R.I. Entitled "The Press and the People," the series is presented under the auspices of the Fund for the Republic, WJAR-TV announced. Seen on Fridays from 6:30 to 7 a.m., the series provides analysis of reporters' news source problems as well as difficulties in having their stories published. Participants in the first lesson included Louis Lyons, curator of the Nieman Foundation for Journalism at Harvard U.; Theodore H. White, former chief of Time magazine's China bureau, and Professor John K. Fairbanks, director of Modern Chinese Studies at Harvard U.

Russian History on WTTV (TV)

A history of Russia's last 100 years will be telecast by WTTV (TV) Bloomington twice weekly Feb. 3-May 14. The course, originating from the U. of Indiana, is offered for two hours college credit through the university's correspondence study division. The Ford Foundation has granted \$3,000 so that the course can be kinescoped and loaned to other Indiana stations and colleges.

CAPTIVE HEROES

Mr. and Mrs. Ronald Moore of Columbus trapped three chipmunks while vacationing in Colorado last summer. It didn't occur to them then that their new pets would be tv personalities. But a few months and several song hits later, the animals are in show business. WTVN-AM-TV Columbus featured the furry trio as the "recording stars" Theodore, Simon and Alvin of the popular tune, "The Chipmunk Song." As the record played, Ohio's newest celebrities cavorted in holiday abandon for WTVN-TV's cameras.

FOLLOW THAT SLED

WTVJ (TV) Miami maintained a constant "sleigh-watch" Dec. 23-24 to report the progress of Santa Claus on his way South. WTVJ kept viewers informed of the city-by-city, continent-by-continent Christmas journey via 10-and 20-second spots. A week before Christmas, WTVJ dispatched a camera crew on a trip to "the North Pole" to interview the man in the red suit and to ascertain the route he would follow this year. The film was shown on the Ralph Renick Reporting news show Dec. 22. Christmas Eve programming was interrupted for news flashes that Santa was orbiting over Miami.

WIL D.J.'s Club Gives Hope

"Failures" in the St. Louis area may feel they are unsuccessful but at least they are organized, thanks to d.j. Gray Owens' "Complete Failure" club on WIL St. Louis. Mr. Owens has issued more than 10,000 membership cards which certify that "I... am a complete failure because I listen to *The Gary Owens Show* on WIL Radio." Club founder Owens presented the "Failure" award of the year to a 14-year-old boy at the St. Louis Auto Show. Among the prizes were a gold-plated plaque and "the gift that keeps on giving"—an amoeba.

WOV Airs Ceremony From Rome

Coverage of Pope John XXIII's award of the Red Hats to new Cardinals was handled in three phases by WOV New York. For Italian listeners in the New York area, WOV presented direct shortwave reports by Lucio Basco, WOV's Rome reports, on Dec. 18. Mr. Basco also handled English-language commentary on the event for Radio Press, via shortwave. At the same time, WOV's radio and film facilities in Rome were being utilized by WBZ-TV Boston.

KGW Pays Way for Yule Shoppers

Christmas shopping memories for 1958 for Portland Oregonians will no doubt include the service provided by KGW that city through the "Shopper's Special Bus." The station reports that it took over the bus, which travels the downtown shopping area of Portland, for the two days prior to Christmas and offered free rides to all. KGW intends to offer such free transportation for additional days during the next two weeks.

No Seal No Deal

KMPC Los Angeles' Dick Whittinghill will not accept written record requests, states the station. during the Yuletide unless the letter bears a Christmas Seal. This is the eighth no-request-without-seal year for Whittinghill. reports KMPC.

Sept. 19 hearing order to remove WKAN appli-cation from hearing.

INITIAL DECISIONS

INITIAL DECISIONS Hearing Examiner Elizabeth C. Smith issued initial decision looking toward (1) denying pro-tests of Valley Telecasting Co. (WFRV-TV, ch. 5) and Norbertine Fathers (WBAY-TV, ch. 2), both Green Bay, Wis., and (2) affirming Mar. 19 grant of application to transfer control of M & M Bestg. Co. (WMAM and WMBV-TV, ch. 11), Marinette, Wis., from William Walker, et al., to Evening Telegram Co., Norman M. Postles and Walter C. Bridges. Announced Dec. 22. Hearing Examiner Jay A. Kyle issued initial decision looking toward granting application of WSBC Bestg. Co. for new Class B fm station to operate on 93.1 mc in Chicago, Ill., and denying similar application of Electronic Music Co. which was in default for failure to appear and prose-cute. Announced Dec. 23.

OTHER ACTIONS

By memorandum opinion and order, Commis-sion granted petition by Broadcast Bureau and enlarged hearing issues on application of Santa Monica Bestg. Co. for new Class A fm station in Santa Monica, Calif. Announced Dec. 23.

Monica Bestg. Co. for new Class A fm station in Santa Monica, Calif. Announced Dec. 23. By memorandum opinion and order. Commis-sion granted petition by Waiter G. Allen, Hunts-ville. Ala., and reversed hearing examiner's order of April 21 which quashed notice by Mr. Allen to take deposition in proceeding involving his application and that of Marshall County Bestg. Co., Arab, Ala., for new am stations to operate on 1380 kc, 1 kw D. Announced Dec. 23. By memorandum opinion and order. Commis-sion denied motion by Price Broadcasters Inc.. Frederick, Md., to dismiss application of Mono-cacy Bestg. Co., Gettysburg, Pa.; ordered Mono-cacy to file within 20 days of release of memo-randum opinion appropriate amendment to its application reflecting change in legal status of holders of its stock and. if in proper from, amendment will be accepted. Price, Monocacy and Times and News Publishing Co. (WGET). Gettysburg, are in consolidated hearing involving 1320 kc. Announced Dec. 23. By memorandum opinion and order, Commis-sion granted in part to extent of reversing hear-ing examiner's ruling on taking of depositions, and denied in all other respects four petitions by Joseph M. Ripley Inc., Jacksonville, Fia., for review of examiner's rulings on Mr. Ripley's petitions in proceeding on its application and that of Dan Richardson, Orange Park, Fla., for

new am stations: ordered that intemporate lan-guage contained in Ripley petitions be stricken. Chairman Doerfer not participating. (Initial de-cision of Aug. 19 looked toward granting Rich-ardson application and denying Ripley.) An-nounced Dec. 23.

Chainfian Derriet not participating. (initial decision of Aug. 19 looked toward granting Richardson application and denying Ripley.) Announced Dec. 23.
By memorandum opinion and order, Commission denled petition by Summit Radio Corp. (WAKR-TV, ch. 49), Akron, Ohio, for reconsideration of April 23 report and order which denled all proposals and counterproposals in rule making proceeding proposing to shift tv ch. 12 from Frie, Pa. to Akron or Cleveland-Akron, Ohio, and to shift ch. 12 from Flint, Mich., to Saginaw-Bay City-Flint, Mich., and which treminated proceeding. Chairman Doerfer concurred in result and issued statement; Comr. Ford issued concurring statement. Announced Dec. 22.
By memorandum opinion and order. Commission denled petitions by Plains Television Corp. (WCHU (TV1, ch. 33), Champaign, Ill., for reconsideration of Mar. 21 memorandum opinion and order which denied petitions by Plains and by Prairle Television Corp. (WTVP (TV), ch. 17), Decatur, Ill., to deintermix the Champaign-Urbana. Ill., area by deleting ch. 3, neither petitioner proposing that ch. 3 be reassigned to any specific community, and which denied alternate proposal by Prairie to reserve ch. 3 for educational use in Champaign-Urbana in lieu of ch. '12, assign latter channel to Lafayette, Ind., for commercial use, and add ch. 64 to Champaign-Urbana: also denled Plains request that Nov. 5 ty grant of renewal of license to Midwest Television Inc., for station WCLA (TV) to institute uhf operation. Chairman Doerfer concurred in result and issued statement; Comr. Ford issued concurring statement. Announced Dec. 22.
By memorandum opinion and order, Commission (1) denied petition by KCOR Inc. (KCOR-Tv. ch. 41), San Antonio, Tex., for reconsideration of that part of Mar. 3 memorandum opinion and order which rejected that company's proposal to permit sharing to ch. '9 with educational via Antonio, and cide company's proposal to permit sharing to ch. '9 with educational via Antonio, and cide c

assign ch. 2 to Bandera, 1ex. Announced Dec. 22. By memorandum opinion and order, Commis-sion denied petition by Star Bcstg. Co. (WCBF-TV, ch. 15). Rochester, N.Y., for reconsideration of Sept. 9, 1957 report and order which, among other things, assigned ch. 13 to Albany-Schenec-

tady-Troy, N.Y., so as to assign that channel to Rochester as well. Memorandum opinion pointed out that Commission is continuing to study allocation of tv channels in Rochester area, and if it should appear that additional vhf channel can be assigned to that city, it will institute rulemaking designed to achieve this end, and emphasized that it is not now passing on Stars petition filed Oct. 30, 1957, urging assignment of ch. 13 to Rochester. Announced Dec. 22.
By memorandum opinion and order, Commission denied petition by Lafayette Bcstg. Inc. (WFAM-TV, ch. 59), Lafayette. Ind., for reconsideration and evidentiary hearing directed toward April 7 report and order which rejected that company's proposal to shift ch. 10 from Terre Haute, Ind., to Lafayette and proposal by Northwestern Publishing Co. (WDAN-TV, ch. 24), Danville, Ill., to shift ch. 10 from Terre Haute, Ind., to shift ch. 10 from Terre Haute, Sanganett, application of Supreme Bcstg. Co. (WJMR-TV, ch. 20), New Orleans, La., for temporary authority to operate on ch. 13 (Biloxi, Miss., assignment), in New Orleans, La., for period of 30 days from Jan. 1, 1959, subject to following conditions: (a) That on or before Dec. 29, 1958, joint application for temporary authority to operate and relevision Corp. and Coastal Television on ch. 13 by Supreme Broadcasting Co., Oklahoma Television Corp. and Coastal Television hall be filed by Supreme Broadcasting Co., Oklahoma Television Corp. and Coastal Television shall be of no effect unless terms set forth in condition "a" above are met; (c) that operation on ch. 13 at New Orleans shall cease at such time as regularly authorized television service commences in New Orleans on ch. 12 but in no event is to continue beyond time of commencement of operation on ch. 13 at New Orleans shall cease at such time as regularly authorized television service commences in New Orleans on ch. 12 but in any preference redound to Supreme pursuant to time of commencement of operation on ch. 13 at New Orleans sh

Granted request of University Advertising Co., Highland Park, Tex., for extension of time to Jan. 16, 1959, for exchange of engineering ex-hibits in final form in proceeding on its am ap-plication and that of The Henderson County Bcstg. Co. (KBUD), Athens, Tex.

By Commissioner Rosel H. Hyde on Dec. 16

Granted petition by Town and Country Radio Inc., Rockford, Ill., for extension of time to Dec. 22 and Jan. 12, 1959, respectively, to file excep-tions and replies in proceeding on its am ap-plication.

Granted petition by Gordon A. Rogers, Colton, Calif., for extension of time to Dec. 19 to file oppositions to petition by Cannon System Ltd. (KIEV), Glendale, Calif., to enlarge issues in proceeding on their am applications, et al.

By Chief Hearing Examiner James D, Cunningham on Dec. 16

Cummpnam on Dec. 16 Denied petition by Oklahoma Television Corp. for leave to intervene in proceeding on applica-tion of Supreme Broadcasting Co.. New Orleans, La., for mod. of cp for experimental tv broad-cast station.

By Hearing Examiner Thomas H. Donahue on Dec. 17

Continued hearing scheduled for Dec. 19, scheduled prehearing conference for Jan. 6, 1959, at which time hearing date will be estab-lished in proceeding on am applications of Gralla and Gralla, Tujunga, Calif., et al.

By Hearing Examiner Millard F. French on Dec. 16

on Dec. 16 Continued hearing from 9 a.m., Dec. 18, to 9 a.m., Jan. 14, 1959, in matter of assignment of call letters KOFY to Intercontinental Bostg. Corp. for its standard broadcast station at San Mateo, Calif.

By Hearing Examiner Elizabeth C. Smith

on Dec. 17 Scheduled oral argument immediately preced-ing hearing scheduled for Jan. 12 petition by Farmington Bestg. Co., for leave to amend its application for new tv station to operate on ch. 12 in Farmington, N.M. on Dec. 17

By Hearing Examiner J.D. Bond on Dec. 16

Granted motion by WGN Inc., to advance from 10 a.m. to 9 a.m., Dec. 22 further hearing on am applications of Capitol Bestg. Co., East Lansing, Mich., and W.A. Pomeroy, Tawas City-East Tawas, Mich.

By Hearing Examiner Herbert Sharfman on dates shown

on dates shown Scheduled prehearing conference for Jan. 12, 1959, on applications of Tomah-Mauston Bestg. Co. (WTMB), Tomah, Wis. Action Dec. 15. Further continued hearing from Dec. 22 to Jan. 20, 1959, in proceeding on applications of Wabash Valley Bestg. Corp. (WTHI-TV, ch. 10) for renewal of license and Livesay Bestg. Co., for new tv station to operate on ch. 10, both Terre Haute, Ind. Action Dec. 16.

By Hearing Examiner Basil P. Cooper on Dec. 16 Granted motion by Hall Bostg. Co. to extent that written affirmative showing by this appli-cant for fm facilities in Los Angeles, Calif., and Richard C. Simonton will be exchanged by parties by Jan. 22, 1959, and evidentiary hearing will be on Feb. 2, 1959.

By Hearing Examiner Charles J. Frederick on Dec. 16

Hearing scheduled for Dec. 19 on application of Supreme Bestg. Co. (ch. 12), New Orleans, La., for mod. of cp for experimental tv station, is rescheduled for Dec. 22.

License Renewals

Following stations were granted renewal of license: WRCO Richland Center, Wis.; WDWS-FM Champaign, Ill.; WTKM Hartford, Wis.; KGHI Little Rock, Ark.; KPBA Pine Bluff, Ark.; KVLC Little Rock, Ark.; KXLR North Little Rock, Ark.; KBLO Hot Springs, Ark.

That little old cupboard dilemma of Ma's was nothing, really.

Consider Joe Foy, now. He's General Manager of Spartan Stores, Inc., of Grand Rapids. Behind him is his new 310,000 square foot warehouse. When this picture was taken, all those acres and acres of cupboard had yet to be filled.

Yet, once that's done, Joe's job is just barely started. He's got to turn right around and proceed to empty it — and then fill it again and empty it again — umpteen times a year, and do it year after year.

But, whereas Dame Hubbard contemplated her project with knitted brow, Joe approaches his eagerly and with confidence. In the twelve years he's been boss at Spartan, volume has increased 1,000%. It now grosses more than 60 million dollars a year. In all, Joe serves more than 500 stores all over Michigan.

Joe is a modern grocery merchandiser, using modern techniques. He says, "The sale of grocery products requires effective preselling in top-notch advertising media. We know WOOD and WOOD-TV can do this pre-selling job competently." Your sales manager knows the importance of distribution in WOODland. Make certain that distribution is followed by sales. Keep a schedule on WOOD and/or WOOD-TV. Wherever you are, there is a Katz man to help you get it.

WOOD-TV Is first⁻morning, noon, night, Monday through Sunday November '58 AR8 Grand Rapids

WOOD-AM is first-morning, noon, night, Monday through Sunday-April '58 Pulse Grand Rapids

Everybody in Western Michigan is a WOODwatcher

WOODland Center, Grand Rapids, Michigan

WOOD-TV - NBC Basic for Western and Central Michigan: Grand Rapids, Battle Creek, Kalamazoo, Muskegon <u>and</u> Lansing. WOOD - Radio - NBC.

MONDAY MEMO

from L. R. McINTOSH, executive vice president, Grant Adv., Detroit

People & Profits: One point of view

A tall man and his short companion were Sunday-strolling along New York's Fifth Ave, when the bells of St. Patrick's Cathedral began to toll.

"Listen to those beautiful bells," the tall man said.

"What's that you say?" his friend asked, straining for the words.

"I said, aren't those bells magnificent," repeated Mr. Tall.

"I can't hear a word you're saying," said Mr. Small in disgust, "those damn bells are making so much noise."

Moral: It's all in your point of view.

For our purposes here, shift that scene from Fifth to Madison; make our strolling companions an average client and a typical agency executive (which one is which depends on *your* point of view); and imagine their conversation runs something like this:

"Damn your costs," says the client over the clamor. "More service!"

"Damn costs make me nervous, too," replies the distracted agency man.

And so it goes.

From the client's point of view, more services are required from the agency. From the agency's point of view, additional services inevitably mean higher costs.

Don't misunderstand me. We, like all progressive agencies, always have and always will continue to expand all services to all clients. By offering more and better services to clients, agency income increases and nobody wants to argue with income.

At the same time, however, net profit often can decrease.

It's just another example of today's high cost of doing business. Ask any retailer how he feels about high sales volume as opposed to high profit margin in today's market. He's found out the same thing: Additional sales can mean additional costs out of proportion to potential net profit.

What's the answer?

Because clients need the service, and because agencies want to give the needed services, there's got to be one. From my point of view, here's what it is: Get the most output from the best people.

In other words, increase efficiency and productivity through careful planning, hiring, training and promoting, eliminating waste motion and unnecessary (and costly) effort.

I'll illustrate what I mean with an example of a television department.

Ten years ago, converted radio writers were creating commercial scripts for television. In some cases, even print copywriters were switched to the new medium. A similar situation prevailed in the production end. Movie or stage producers took over tv production jobs for agencies. As for the writers, they were unfamiliar with the new medium, although they did know the basic precepts of advertising. Many of the producers were familiar with neither the medium nor the advertising principles. Those were the people who planned, wrote and produced early tv commercials.

The third member of the team was the media man. Accustomed to space or radio time buying, he found himself in an altogether strange and unknown world where infant market statistics and ratings only served to confuse him more.

But now, 10 years later, clients and agencies both have become more knowledgeable, more scientific and professional, in their approach to television. Clients often are as much concerned with sponsor identification as they are with audience ratings. They consider the merchandising benefits of a television program right along with its national, regional or local advertising potential. They pick markets and individual stations (or want them picked) with engineering accuracy, based on research and survey.

All these demands call for a new breed of man in the television area of agency service.

Creative writers, producers, merchandisers, media men, public relations practitioners—all these are involved intimately in today's television advertising. They must be experts in the field where there are few experts, seers in a medium where few can predict what

Lawrence Robert McIntosh, b. Feb. 6, 1918, Olympia, Wash. B.A. journalism-business administration, U. of Washington, 1939. Flew 40 combat bomber missions in Pacific in World War II. Joined National Adv., Seattle, in 1947, later merchandising directoraccount exec. To Grant Adv., N. Y., 1951, as vp in charge international div. In 1952 became assistant to president, also serving as Chicago account exec. on newly acquired Dodge Div. account. Switched to Detroit October 1954 as account supervisor, becoming mgr. of domestic operations Sept. 1, 1957. Married to former Wilma Polzin, Port Angeles, Wash. They have three daughters: Bonnie Kay, 13; Kathryn Ann, 9, and Laurie, 3.

the future holds.

Such men rarely are found within television departments which "just grew" out of print, radio, stage and movies. Yet many television departments did "just grow" and as a result are making do by substituting quantity for quality. In such situations the seeds of spiraling costs take root and flourish.

Uprooting such seeds is the biggest job today's advertising executive faces.

To maintain profits and still provide (and improve) services, individuals in advertising agencies must work at top efficiency, whether writers, producers, account executives, artists, space-time buyers, or secretaries.

Perhaps this sounds too simple. It isn't.

There are all too few of this new breed of talented, productive men to go around—particularly in the television field. Agencies compete for them. Networks compete for them. Production organizations compete for them.

Of course, the law of supply and demand says the situation will balance itself with time. More and better men will enter the field. But in the meantime, every agency will be competing for their services, and sometimes paying a big price to get them.

At the same time, agencies will be training and developing new talent within its own ranks—selecting, promoting and, inevitably, culling.

The next few years will be far from easy ones, but the rewards will be high. Agencies will pay the price, but they will improve service to clients. They will grow and prosper. They will maintain the rate of profit necessary for innovation, expansion and experimentation.

That's one man's point of view.

People and Papers

THE major New York newspapers were taking their lumps last week, and to those contributed by the deliverymen's strike was one added by a special survey conducted by Trendex for the John Blair radio and television station representation companies.

This study, detailed elsewhere in this issue, showed people going along surprisingly well despite the strike-enforced absence of some of the features which are the heart of a newspaper—including its chief product, the news itself. Of the almost 60% who said they were inconvenienced in some way by the strike, only 16%—or 9.5% of the 1,000 interviewed—specifically said they "miss the news," although lesser percentages referred to missing special features, financial news and the like, including some who "miss it all." Almost 36% said they were not inconvenienced at all by the strike.

The importance of newspaper advertising to the reader would seem also to have been overplayed, in the light of these findings. They show that 19.6% of those "inconvenienced," or 11.6% of all surveyed, reported that they "miss advertisements of sales." Other reasons for feeling inconvenience included such diverse factors as strike is "holding back business," "children miss it," "need papers for school," "don't know what's going on," and "can't sit and relax without newspaper," among others.

Of three specific international stories that broke after the strike began, and about which the interviewees were questioned, 53.8%of those who had heard about them said they got the word from television, 52.4% from radio, the rest from suburban or other nonstruck newspapers or other places. The number who had heard of the three events, despite the absence of major dailies, ranged from 77.2% in the case of the new American satellite to 59.5%regarding the fire in the Bogata, Colombia, department store, and 47.5% in the case of Mao Tse Tung stepping down as premier of Red China.

The lesson in all this is not that newspapers are not important, for they are, but rather that perhaps advertisers have been oversold on some of their strong points. To put it another way, while television and radio have their weaknesses—which newspapers play up and exaggerate at every chance—it is obvious that newspapers have theirs too. The Blair stations are to be congratulated for grasping the opportunity to point this up. If they had wished to do so, they could have done it with the eye-gouging type of attack that newspapers are accustomed to make. They are to be commended, too, for their restraint in not doing so.

The Bigger Picture

HERE are far graver implications to the newspaper strike than advertising gains or readership studies. No matter what the survey results no balanced person will question the vital role the newspaper plays in our national economy.

Add to the New York newspaper stoppage the strikes that have crippled two major airlines during their peak season. Transportation over a wide area and newspapers in the world's first market are out of business because of the actions of unions on grounds that to many people appear flimsy and unrealistic.

Labor obviously is feeling its oats after the overwhelming victories last month. Unions had the tax-free money to spend whereas industry can make no tax-free contributions to political candidates.

There are dire forebodings of other strikes between now and the 1960 Presidential elections. Indeed the election may be pitched on the labor versus capital issue.

Bureaucratic Backfire

THE Internal Revenue Service may have displayed more zeal than sagacity in reversing a co-op advertising tax policy that has prevailed for a third of a century. The bureau has adamantly decided to apply manufacturers' excise taxes to money spent by retail dealers in advertising the manufacturers' products in local media.

On the surface a 10% tax, for example, on a \$5 advertising allowance to a local sales outlet amounts to only 50 cents. But a manufacturer allowing a million dollars for co-op advertising isn't likely to pass over lightly an addition of \$100,000 in new taxes to his advertising bill.

Since there is no administrative remedy, the Federal Excise Tax Council, representing taxpayers-advertisers, has wisely decided to ask Congress for a quick hearing. It hopes to place the industry

"Now, a report on how our team fared in the New Year's Day Bowl . . ."

case before the House Ways & Means Committee prior to the Feb. 1 effective date of the new order.

The council is aware of the possible curtailment of the \$2 billion spent annually in co-op advertising (\$400 million in tv-radio), knowing that a cutback in advertising can mean dwindling retail sales of merchandise. Advertising makes sales; sales make taxes. The formula is worthy of more careful study as well as an impartial hearing—democratic devices which apparently were slighted by the tax officials in their sudden reversal of a policy that has prevailed since 1924.

Nightmare of '58

A NY way you look at it, 1958 was not a banner year for broadcasters. Economically, they did not fare too badly, in contrast to what happened in other media. From the regulatory standpoint, 1958 was another year-long nightmare.

Whereas the print media took it on the chin dollarwise, the broadcast media took it from Congress, the FCC, the courts, the Dept. of Justice and, to no one's surprise, the print media.

The newspapers and magazines, in the tradition of the "free press" were unmolested by government, except for the increase in second class rates. The print media are not licensed. Broadcasting is. The fact that both are journalistic media entitled to the same freedom from censorship and the same guarantees under the First Amendment seems to concern no one but the broadcasters.

So the new year will dawn with a new Congress and with probably no discernible change in the punitive approach to broadcasting as "licensed" media. The politicians will rave and rant about programming and allocations and ratings and commercials. They will propose codes to root out influence peddling (in which area they have always been the worst offenders) and they will want to reorganize the FCC. All this because television is big and important and effective. And it is sure-fire headline stuff.

It is too much to expect 1959 to be the year in which broadcasting will be rescued from over-regulation. The first task is to demolish the "licensed medium" intrigue. Stations are licensed because there must be an orderly system of allocation, not because of programming. The license is part of the traffic control system. It was meant to be nothing more.

Politicians will harass broadcasting as long as broadcasting does not fight back. Politicians will respect broadcasters when they assert their rights—as newspapers are respected because of their editorials. The answer is in editorializing. Here, the FCC first must retract its arbitrary edict that stations must "affirmatively" seek out opposing viewpoints to its editorializing. If the FCC isn't persuaded, then the recourse is to the courts.

Responsible broadcasters are venturing into editorializing. The NAB has a committee on it. This is the fundamental fight for freedom. It is to be hoped that real progress can be made in the new year. Meanwhile broadcasters will have to keep their guards up. Freedom never is won easily.

Let KPRG-TV carry you smoothly through a Houston sales campaign
