RADIO PERSONALITIES

and Radio Log

CELEBRATING
TEN
Straight Years of
PHILCO
Leadership

World Radio History

THIS booklet is presented to you with the hope it will greatly increase the enjoyment you receive from your favorite radio stars. In publishing this unique booklet, we have endeavored to satisfy your natural desire to learn how your radio favorites look. Many of their faces are familiar to you; but many more are but names and voices heard over your radio. Now, they are grouped together for you with the names of their programs, in this booklet.

In addition, the latest complete log of Long-Wave Stations and an up-to-date log of principal Foreign Short-Wave Stations is shown. Keep this copy of Radio Personalities and Log near your radio . . . use it as your guide to greater program pleasure.

Enjoy All The Radio Stars With A NEW 1940 PHILCO

Yes . . . with a new 1940 Philco in your home, you will receive thrilling new enjoyment from your favorite radio stars and programs. For Philco, to celebrate 10 straight years of radio leadership, brings you amazing Anniversary Specials. The finest, largest, most outstanding line of Philcos ever offered . . . at *new low prices!* Radios that surpass even Philco's great achievements of the past. Radios that bring you more for your money than ever before . . . more tubes, finer tone and performance, more striking beauty.

And, in addition, we offer you extra liberal trade-in allowances and extra easy terms during this sensational thrift event. Don't miss this opportunity! Come in . . . inspect all the new 1940 Philcos . . . see for yourself why Philco Anniversary Specials are the greatest radio values of all time!

World Radio History

The numbers in the center column below conform with your dial and the radio programs listed in your newspaper. Tune in any station, read your dial and identify the station instantly by referring to the same number in this chart. Note how the stations are grouped geographically so your nearest stations are in one column. Become acquainted with the power code and network symbols. Since all stations shown to the right or left of a number require the identical setting, only the nearest or most powerful can reasonably be expected at one point.

Tune WSM on your dial at 65. Turn one point at a time and hear WEAF, WMAQ, KPO, CFRB, WLW, WOR, WGN, CKAC, WSB, WJR, WBBM, WGY, WFAA, WCCO, WHAS, KOA, CBL, WWL, WABC, and WENR. Begin again with KDKA at 98 and down to 119. Eastern listeners, prevented from hearing more than three dozen network programs, can frequently hear re-broadcasts to the West Coast a few hours later, from some of these super-powered stations bearing the same network symbol as their usual, local stations.

Copyright, 1939, by Haynes' Radio Log, 161 West Harrison St., Chicago

World Radio History

Short wave stations heard most satisfactorily by listeners in North America are listed below. Each symbol represents one-half hour, pointed UP for mornings; DOWN, noon to midnight. If yours is Eastern Standard or Central Daylight Time, rule out the 1st, 3rd, 4th and 5th rows of figures and copy 2nd row of numbers on the other pages. You can quickly see which stations are operating at the time you tune and often identify those heard by chance. Most of the North American Stations operate continuously and are listed at the right without Time reference. Spots for Amateurs, Ships and Aircraft are designated by an "A", "S" or "C" at the left, between megacycle numbers.
