Meat Puppets Highlight A Busy Week At Rock Radio!

The very first time we heard that guitar line at the front end of "Backwater," we fell in love with every single glorious, distorted note. Apparently, so did a whole bunch of programmers, because 38 out of the box adds have the Meat Puppets slamming into the #5 New Action Airplay position this week. Lifted from the trio's eighth album, *Too High To Die*, "Backwater" scrambles 23 points up the Power Cuts chart 64-41*.

Heavy phones are being reported first in the band's hometown of Phoenix, but the adds are coming in from all precincts: A list of new adds that includes WRZX, WDVE, KQRC, KSHE, KCAL, WNOR and WAPL gives you a good idea of the widespread support for this song. In fact, WIYY, KQXR and KSEZ are all playing "Backwater" about four times a day already.

What bands like Pearl Jam, Soul Asylum and Nirvana have known for quite some time, the mainstream is starting to realize. Not only is "Backwater" (it's the song that's been on our hold button these past couple of weeks) a hit at Rock Radio, it is also careening up the Alternative radio chart, 25-17*, and the Hottest Sales Nationwide chart, where the onetime cult favorites are posted at #92* this week.

Motley Crue "Hooligan's Holiday"

Elektra

Have you heard this yet? Holy shit, were we ever surprised by the direction Motley Crue has taken on the first track from the upcoming, self-titled CD! With the addition of John Corabi, Motley Crue has left its pop metal/hair band image behind. This year's model is streamlined, bluesy, hard, intense and a real departure from the hits of the past.

"Hooligan's Holiday" is an amazing piece of hard RAWk music that is gonna rip at Rock and RAWk Radio alike.

John Mellencamp "Baby, Please Don't Go"

MCA

This extremely familiar track is given whole new life by Mellencamp. Much more electric than both Them's version and than most of his own current *Human Wheels* album, John's reading of "Baby, Please Don't Go" is anything but a wearisome remake. Rather, it is an entirely 90s interpretation begging for massive airplay.

You'll soon hear John Mellencamp's take on "Baby, Please Don't Go" in the new Nick Nolte/Mary McDonnell/Shaquille O'Neal flick, "Blue Chips."

Elvis Costello & The Attractions "13 Steps Lead Down"

Warner Bros.

This Year's Model. Armed Forces. Together with *My Aim Is True*, these are the albums that made Elvis Costello a staple at Rock Radio. They are also the first two (of many) records that Elvis made with The Attractions. On "13 Steps Lead Down," from *Brutal Youth* - his first album with The Attractions in eight years - Costello has recaptured the forceful, angst-ridden pop qualities that made those records stand head and shoulders above the other post-punk, new wave albums of their time.

It's a whole new era, and a whole new (and yet familiar) Elvis Costello. Rock and Alternative Radio can start creaming now.

Soundgarden

"Spoonman"

A&M

If you're thinking "Seattle sound," forget it! "Spoonman," the lead cut from *Superunknown*, is equal parts 60s psychedelia, alternative, RAWk and experimental rhythms. The guitars are in there, but Chris Cornell's vocals and Matt Cameron's frenetic drums are the focal point. "Spoonman" is a little Beatle-ish, and overly perfect for everyone!

As the long-awaited follow up to the Platinum-plus *Badmotorfinger*, "Spoonman" leads the way and fucking rocks! You will be getting it on Wednesday, February 16. Start the countdown.

October Project

"Bury My Lovely"

Epic

While it may be easier to define this era by the prominence of grunge, metal and "unplugged" sessions, it is infinitely more interesting to assess the overall climate by observing the current musical anomalies. Such is October Project. It is the very uniqueness of "Bury My Lovely" that makes it so appealing.

Formed in 1990 in New York, October Project is a sophisticated, piano-based band that, on "Bury My Lovely," most resembles a more organic version of Eurhythmics from the early 80s. Mary Fahl's resplendent voice is the focal point of this tune, which garners heavy reaction and significant sales wherever it is played - including New York, Philadelphia, Boston and Atlanta. October Project will be playing soon with Crash Test Dummies.

Marillion

"Alone Again In The Lap Of Luxury"

IRS

A decade ago, Marillion benefitted greatly from their likeness to Genesis, scoring major Rock Radio hits with "He Knows, You Know" and "Kaleigh." In 1994, Marillion has released its seventh album, *Brave*, and with it comes this robust piece of rock n' roll melodrama.

"Alone Again In The Lap Of Luxury" begins as a near-ballad, before building to a state of frenzy and threatening to lose all control. Taken from this album which conceptually addresses the nature of truth, "Alone Again" is a stylish tour de force for longtime singer Steve Hogarth.

Joey C. Jones & The Glory Hounds

"Wait All Night"

Tony Nicole Tony

This sophisticated piece of pop rock was written by Robin Zander and Rick Nielsen of Cheap Trick - and it shows. With the strength of Joey's voice leading the way, "Wait All Night" soars on a fluid melody, which peaks at the massive hook, creating major excitement.

Joey C. Jones received a fair amount of success a few years ago with his Dallas band, Sweet Savage, and now he fronts this five-piece that includes Adam Hamilton on drums, Les Farrington on keys, Chris Torok on bass and guitar player Craig Bradford. Their freshman effort is self-titled, and if you want more info, call Tony Lombardi at the label: (818) 784-1969.

KEVN KINNEY

Down Out Law
Mammoth

As the frontman for Drivin'N'Cryin, Kevn Kinney long ago earned our respect and adulation. Now, on this, his second solo outing, Kinney goes it entirely alone, exhibiting a quiet passion that has always been obscured beneath the surface of his music with Drivin'N'Cryin.

If Woody Guthrie were alive today, revisiting the back roads of this land, he would have made an album just like *Down Out Law*. Our Designated Hitter is the whole CD, and everything from "Down And Out Law" to "Eye Of The Hurricane" will add depth to every Rock Radio station's playlist.

On Deck

February 11, 1994 - Gilby Clarke will be the latest member of **Guns N' Roses** to release a solo album. The guitarist's Virgin debut is out in April. Brendan O'Brien is producing the next album from **Stone Temple Pilots**, the recording of which is underway now. It looks like we'll have a **Velvet Underground** box set in late spring. Unconfirmed rumors have **The Black Crowes** in the studio recording their third CD. **Motley Crue's** US tour begins in June.

second trends

Alan Parsons "Oh Life (There Must Be Something More)"

Arista

Alan Parsons makes incredible, intelligent, thoughtful music. He always has. But you know that, right? With "Oh Life" (which has been edited and included on our Rock CD TuneUp #110), Alan has crafted a musical masterpiece, fraught with delectable sounds to delight the ear. And David Pack's impassioned vocal delivery gives "Oh Life" a larger-than-life-itself majesty that is going to sound oh so good on the radio.

Adult Rock Radio and Rock Radio can - and should - have a lot of fun with "Oh Life," which is the follow up to "Turn It Up" from *Try Anything Once*.

John Hiatt "Buffalo River Home"

A&M

Perfectly Good Guitar has already spawned two Rock Radio hits in the title track and "Something Wild." Now comes the melodic piece de resistance from the CD, as Hiatt and his crack band of Michael Ward, Brian McLeod and John Pierce go straight to town on "Buffalo River Home."

From the Neil Young-like guitar licks to the tear-at-the-heartstrings minor chord progression, this one is pure soul and an early favorite among the music freaks here at The Album Network. Look for both the album version and a bonus acoustic recording of this one on AN Rock CD TuneUp #111, on your desk on Valentine's Day.

The Band "Remedy"

Pyramid/Rhino

Initially, The Band was a highly influential entity, whose far-reaching importance to pop and rock music can be heard in the grooves of recent albums by Counting Crows and The Jayhawks, among others. In 1993, 17 years after their last waltz, Rick Danko, Levon Helm and Garth Hudson reformed The Band with Jim Weider, Randy Ciarlante and Richard Bell. As you can hear on their reunion CD, *Jericho*, the music created by these six is every bit as engaging as the songs recorded by The Band in the 60s and 70s.

If you played "Atlantic City" - hell, if you play anything by this recent Rock and Roll Hall of Fame inductee - give "Remedy" serious consideration. In addition to being on *Jericho*, you'll find it on AN Rock CD TuneUp #111.

The Connells "74-75"

TVT

If you're one of the numerous hip programmers who added "Slackjawed" from The Connells' fifth CD, *Ring*, then you don't need to read this. You can simply add "74-75," from the same record, and go on about your business. Knowing how well "Slackjawed" worked, you'll be happy to go with it, we should think.

If, however, you're unaware of the major drawing power of this Georgia six-piece, think of R.E.M. meets the Gin Blossoms, grab your copy of *Ring* off the wall (or call Jim McNeil at TVT for one) and then add "74-75" posthaste. This, like "Slackjawed," is killer Rock Radio fare.

1 CRY OF LOVE

"Too Cold In The Winter"
COLUMBIA • 63404

"People still want to hear more Cry Of Love!"
Mike Childs, WRKR

Amen, Mike.

With two #1 Power Cuts already under its belt, Cry Of Love is going for a hat trick with this one. In its opening week, "Too Cold" takes on 65 new Rock Radio reporters, putting it on 73 stations and giving rise to a #33* debut on the mainstream airplay chart. It will be a Homer! by next week.

Major market reporters like WBCN, KTXQ, KLOS, WMMR and KQRC all add "Too Cold In The Winter" out of the box, and - for those of you who look at this sort of thing - Cry Of Love's *Brother* CD has now sold nearly 200,000 copies.

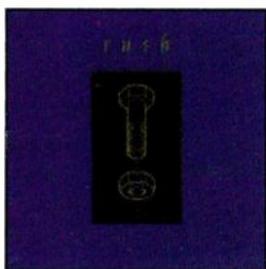

KBQQ's Scott Andrews calls "Too Cold" "another smash for this back-to-basics rock n' roll band; i love it!" At WHDQ, Guy Dark says, "The vocals and music just keep getting better and better!"

Vince Richards of WQLZ comments, "This is a sound that our audience just won't let go of. People love Cry Of Love!" And WZNF's Roger The Dodger states, "It's another great song from a band that works well for us, and sells well, too! There is no reason to not go three deep!"

2 RUSH

"Nobody's Hero"
ANTHEM/ATLANTIC/TAG • 82628

"'Nobody's Hero' is the musical equivalent of the film 'Philadelphia!'"
Jay Sisson, WIXV

A pat on the back goes to all those programmers who ignore the touchy subject matter of "Nobody's Hero" and add it anyway. So far, 101 of you have done just that (56 this week). Four of the new adds go into heavy, including KTXQ and WCCC, while the new support pushes this Rush cut 43-26* on Power Cuts. "Nobody's Hero" is a first-week Homer!

With Rush's US tour underway, the Gold-selling *Counterparts* CD regains its bullet on the Hottest Sales Nationwide chart. KDKB, WBAB, KLOS, WQFM, WRIF and KIOZ all add "Nobody's Hero" this week.

This one promises to be a heavy reaction record, as a couple of PDs point out: At KATP, Dale Miller notes, "One track after another, Rush just gets better and better. We're getting early phones on 'Nobody's Hero,'" while KXUS's T.K. O'Grady tells us, "'Nobody's Hero' is a record we were already getting calls on...it is just good Rush!"

Jeff Custer of KFFX gets right to the heart of it, stating, "What a great message from this great song!"

ADDS = 56 • MAJORS = 7

3 BROTHER CANE

"Hard Act To Follow"
VIRGIN • 87787

"'Hard Act To Follow' is another hit for Brother Cane!"
Peg Pollard, KIOZ

Peg's got it right, as Brother Cane enjoys a six-point increase on the Power Cuts chart off of 51 new adds and 15 rotation increases. Now on 125 of the Album Network's Rock Radio reporters, "Hard Act To Follow" goes 28-22* a week after they kicked off their opening slot for Aerosmith.

In the Plays Per Week column, five stations are reporting at least three plays a day on "Hard Act To Follow," including WCMF (where the song did not register the previous week), KLOL, WBZX, WRIF and KSHE.

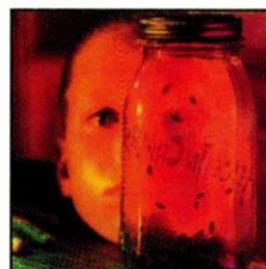

KRCH's Matt Montgomery declares, "'Hard Act To Follow' is everything that makes Brother Cane so great, and more!" At KXUS, T.K. O'Grady says "Hard Act To Follow" is "one of the best tracks on this CD; it is a good, medium-tempo song!"

T.J. Bryan of WDHA remarks, "Brother Cane has done so well with the first two tracks that adding 'Hard Act To Follow' was a no-brainer!" Also, WWWV's Debbie Gilbert points out, "'Hard Act' is loaded with hooks!"

4 ALICE IN CHAINS

"No Excuses"
COLUMBIA • 67828

"AIC is set to break WIDE open with 'No Excuses.' We jumped the gun and moved it to medium the second week!"
T.J. Bryan, WDHA

T.J. is one of 53 programmers who gave "No Excuses" a rotation bump this week. Factor in the 42 new adds, and this lively acoustic number is the lone new track in the Power Cuts Top 10; it moves 13-6*. This new song from the #1-selling *Jar Of Flies* is now on 206 Rock Radio stations.

Thirty-nine stations report Top 5 requests, placing "No Excuses" at #3 on that list, while six outlets are playing it at least four to five times a day (KQXR reports 21 more plays this week than last week, up to 49 from 28!)

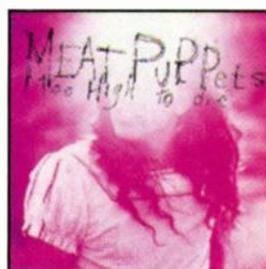

Down in San Diego, KIOZ's Peg Pollard explains, "'No Excuses' is Top 5 phones here, as expected!" WHJY's Sharon Schifino says, "We've been starving for more Alice In Chains!"

Darren Taylor of WKZQ explains, "This is a very cool new style for the band. We're getting good phones already!" Plus, KMJX's David Allen Ross states, "Alice In Chains has given us a strong song that we don't need to day-part! They will be one of the major bands of the 90s!"

ADDS = 42 • MAJORS = 3

5 MEAT PUPPETS

"Backwater"
LONDON/PLG • 828484

"'Backwater' brings a fresh sound back to Rock Radio!"
Dale Miller, KATP

This song, from Meat Puppets' eighth release, makes an immediate and noticeable splash at Rock Radio, picking up 38 adds out of the box. With 21 stations having added "Backwater" early, this cut is now on 59 stations, and it cruises 64-41* on Power Cuts. A second week Homer! seems inevitable.

In addition to new adds at WRZX, WDVE, WNOR, KSHE, WAPL, KQRC and KCAL, "Backwater" is already getting a minimum of 25 PPWs at WIYY, KQXR and KSEZ. KQDS ups its PPWs by nearly a third.

WTPA's Chris James goes out on a limb, proclaiming, "'Backwater' will be #1 in two months!" At WWWV, Debbie Gilbert cautions, "Forget the name and play this great song!"

Guy Dark of WHDQ calls this one from Meat Puppets "a real accessible" song with a "very fresh sound!" WRKR's Mike Childs notes, "'Backwater' really grows on you with every spin!"

"High Road Easy"
IMPACT/MCA • 10980

"'High Road Easy' is a fuckin' great song!"
David Allen Ross, KMJX

Sass has another screamin' week at Rock Radio, pulling in 37 adds and 25 rotation increases on "High Road Easy." After just two weeks, the first track from Jordan's upcoming CD, *Rats*, is on 174 reporting stations, and it zooms 21-13* on the Power Cuts chart.

Ten outlets are now reporting heavy phone action, while KOZE, WQLZ, KQXR and WTKX all tell us of between 29 and 35 plays this week. New on "High Road Easy" this week are WKLS, WBZX, WWBZ, KSHE, WQFM, KQRS and 29 others.

Mike Thomas of WBXQ beams, "I can't believe the huge, quick and massive phone response we got for 'High Road Easy' - we fuckin' love it!" At KUGR, PD Tim O'Rourke concurs: "This is Sass at her best!" he exclaims. "I can't wait for *Rats*!"

"The title of this record should be changed to 'It's A Killer!' Play the darn thing!"
Bob Baron, WAPL

Big Head Todd And The Monsters enter the Power Cuts chart at #59*, the tangible result of 26 new adds at Rock Radio on "It's Alright." Following two Top 10 Power Cuts and a Top 15 track, Big Head Todd seems ready to make it four straight hits at the format.

WLUP, KXRX, KEZO, WGBF, KJOT and KZRR head the list of new supporters of this cut from the near Gold *Sister Sweetly* CD.

Dale Miller of Amarillo's KATP calls "It's Alright" the "most mass appeal record on the album. If you have a hard edge or a soft edge, this one will work for you!" Also, WWVW's Debbie Gilbert says, "This is such a cool song. These guys just put out great song after great song!"

HOLLYWOOD • 61448

"This is a really good, live version of 'Drive,' and you can't beat the cause!"
T.K. O'Grady, KXUS

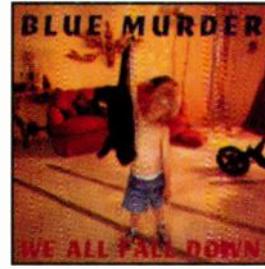

For a third consecutive week, this version of "Drive" gets enough adds to be included in New Action Airplay. This week, R.E.M. fashions 26 adds and nine rotation bumps, good for a 40-29* jump up Power Cuts and a Homer!

In actual spins, KQDI triples its PPWs on "Drive," while KSEZ and WARQ tell us of no less than 24 plays this week. New on the song are WBCN, WHJY, WCCC, KCLB and WDIZ.

At WHJY, Sharon Schifino relates, "R.E.M. doesn't have a live album, and it's nice that it's an upbeat tune as well...it fits nicely!" And Jay Gleason of WZXL calls the *Alternative NRG* recording of "Drive" a "great, live, upbeat version of this wonderful song!"

8 BLUE MURDER
"We All Fall Down"
Geffen • 24419

"I love 'We All Fall Down'; the hook is incredible!"
Chris James, WTPA

John Sykes and Blue Murder benefit from another strong week at the format, as "We All Fall Down" gains an additional 24 adds. Now on 61 Rock Radio stations, this melodic rocker - from the forthcoming *Nothin' But Trouble* - rises nine notches to #43* on the Power Cuts chart.

Leading the battle cry for "We All Fall Down" this week are KIOZ, WBZX, KIBZ, WARQ, KLAQ, WTPA and WTUE.

WKZO's Darren Taylor exclaims, "Good to see these guys back out rockin'! There are some great musicians in this band," while Mimi Griswold of WKLL says, "it has great lyrics, great hooks, harmony - every element of a perfect rock song!"

9 FURY IN THE SLAUGHTERHOUSE
"Every Generation Got Its Own Disease"
RCA • 60382

"'Every Generation...' just flat out rocks! End of conversation!"
Tim O'Rourke, KUGR

Fury In The Slaughterhouse makes Germany proud again this week, owning 22 Rock Radio adds and climbing 11 points up Power Cuts, 57-46*. Also, "Every Generation..." is Top 25 at Alternative and Top 40 at Adult Rock Radio.

KQXR is already spinning "Every Generation..." four times a day, and KDKB, WLLZ, WQFM and WPLR are a few of the new believers.

In Palm Springs, KCLB's Ron Stryker states, "I really like this song. Kai Wingenfelder has a certain voice about him that is unique and even passionate, without being overemotional!" Rochelle Smith of KQXR tells us, "This is a great song!" Wrapping it up for this week, WGBF's Tony Couch contends, "I fuckin' love it! Enough said!"

SPREADIN' A LITTLE SUNSHINE

It took a pair of slacker cartoon characters to let the cat out of the bag, but the truth is, Beavis And Butt-Head's proclamation that White Zombie's music "didn't suck" was only the icing on the cake.

This four-piece band, which emerged from the dregs of New York's Lower East Side in 1986, had already made major strides at RAWk Radio and retail with its third full-length album, *La Sexorcisto: Devil Music Vol. 1*, by the time B&B came to their senses. Two years and 300 dates of steady touring have pushed the album to Platinum status, and the group (which also includes bassist Sean Yseult, guitarist J and drummer Phil "Philo" Buerstatte) is currently headlining an arena tour with Prong. Later in the spring, White Zombie will head to Germany for the Monsters of Rock Festival.

Lead singer Rob Zombie recently phoned in from a tour stop in Davenport, Iowa, to discuss the success of *La Sexorcisto: Devil Music Vol. 1*.

By George Paul

Now that La Sexorcisto has sold extremely well across the board, have you seen a more varied crowd attending your shows?

"It's kind of hard to tell, because after the first few rows of people, you can't really see who's out there. But for the most part, I've noticed it more on the days off, when I just, like, go to a restaurant or a mall. The kids that come up to me and know the band seem, like, a lot younger and they found out about us through MTV. It used to be that the more diehard metal fans would be into us. Now it's the MTV generation."

Speaking of MTV, the channel has taken much of the credit for breaking White Zombie, through repeated exposure on such shows as "Headbangers Ball" and, more notably, "Beavis And Butt-Head." Do you think they really played a key role in your success?

"Basically, it's been a combination of MTV, touring, radio - all the elements working together. I don't think you can break it down to just one thing. Definitely touring, because if we had been out there all that time and the kids really thought we sucked, I don't think the band would've broke. But you know, our shows now are 10 times bigger than they were before. It's just growing really fast. Judging from the kids' reactions, everyone is just going berserk."

Were you surprised to find out that many mainstream Rock Radio and even Alternative Radio stations added "Thunder Kiss '65" and "Black Sunshine" to their playlists?

"Yeah, because they are stations that swore they would never touch this record. But now it's, like, their #1 Most Requested record. So, that's kind of funny. Things just change, and what sounded unlistenable a year ago now is a big hit. I think radio stations have to stop being so tight and just take chances, because eventually they'll end up playing it anyway. If it's a hit, you can't ignore it. People call Alice In Chains or Primus alternative, but I really don't think there's much difference between us and those bands."

Strangely enough, when you first signed to Caroline Records, before recording Make Them Die Slowly in 89, weren't you considered more of a noise band than a heavy metal one?

"Yeah, the first offer we had back then was from Sub Pop. If we'd went with them, people probably would have looked at the band completely differently. There was a little more money involved with Caroline, but it basically did nothing for us. Sub Pop probably would've turned out better in the long run, but at this point, I don't really care. It all worked out. Whatever it took to get here."

Is there some sort of curse on the band? You've had a terrible problem getting guitarists and drummers to stay around. Can you think of a reason why? And do you think the current lineup, with Philo and J will stay intact for awhile?

"Unless someone gets hit by a train.

"Well, J's been in the band since 1989. Up until then, it was just the fact that when a band is in its forming years and there's no money and no real incentive, it's hard to find people that are willing to work with no payback. People were whining and complaining, [and Sean and I] were just like, 'Then quit. Bye.' You know, we don't care."

So when your previous bandmates weren't putting enough effort into the music, you just said, "Get out?"

"We had Ivan, our last drummer, almost since the first day of the band. It just came down to when the band progressed, he didn't. It wasn't a lack of enthusiasm, it was a lack of talent. It's really hard to find people that are really dedicated, especially in music, because most of them think, 'I'm gonna make a lot of money and meet a lot of chicks.' When they find out that it is a lot of work and a lot of it will suck, they quit."

The guitarist is often the most important element in a rock band. When that vital part changes, so does the musical direction. Do you think White Zombie's overall sound has changed drastically as a result of all the lineup changes?

"It's more like the sound became more focused. You know, as you do something longer and longer, you get a clearer idea of what you're trying to do. It's not as scatterbrained as it used to be. And I think the next album will be the most focused, because even the songs on *La Sexorcisto* were just what we had written up to that point. We weren't quite sure about this, that or anything else."

There was a point when La Sexorcisto first came out where some of the major retailers refused to carry it because of its title, sticker and the graphics on the back that read "Satanophonic sound" and "Route 666." How do you feel about those "Parental Advisory" stickers, and censorship in general?

"Those are like a double-edged sword in a way. I think it's justified in some respects, because there are albums out there that I don't think some kid

who's 10 years old should be listening to. His brain is not ready to figure it out. But on the other hand, if it's prohibiting those records from getting into stores, where people who are old enough can't buy 'em, it doesn't work. But at this point, those stickers have just become something that nobody pays any attention to anyway. They've become meaningless, they stick 'em on everything. We're not trying to be obscene just for the sake of it. If we were going to do that, the music would be a lot different."

You've been fully involved with all aspects of the group, from designing the cover illustrations to editing the music videos. As the popularity of White Zombie grows, can you stay as busy?

"I'm more involved now than ever. You can't let anybody handle anything 'cause they'll screw it up. If you do it yourself and something goes wrong, there's nobody you can blame. I'm very happy to do everything. But sometimes it gets kind of hard when there's not enough time in the day."

Is there a key ingredient that keeps the band worthwhile for you? What would you say makes you stand apart from other musicians in your genre?

"The thing that seems to stand out the most is that there don't seem to be many bands these days that are real, like the full package. The ones who look and sound the same when they're on stage or off stage. A lot of bands, when they're on stage, [have] this phony persona, or it's like, 'We're just regular guys.' Very few bands out there blur the lines. Like Danzig is the same on stage and off. And kids really like that. It's not a style. I always thought The Cramps were a good band for that. You can tell they would be exactly the same even if they didn't have a band.

"With us, you know I look the same and was totally into the same things, I was the same person before the band even started. The band is just another extension of it."

So if a trend comes along, you won't be quick to follow it?

"White Zombie hasn't really changed at all in the eight years it's been around and a lot of things have come and gone. A lot of bands have radically changed what they're about to try and fit in with it. When you're all about one thing, you remain sort of timeless. You're totally hip and unhip at the same time."

One of the things I find most unusual about White Zombie is that you incorporate samples into the music. How did that come about?

"It just seemed to fit. I would hear things in movies and it seemed to blend right in with the song. The general sounds seem to go together well."

How do you choose the samples?

"These days, my brain is always thinking about it, so every time I'm watching movies or TV, or listening to anything, I'm half watching it for enjoyment and half going, 'Wait, that sounds pretty cool. What was that?'"

What can you tell me about your appearance in the upcoming movie "Airheads"?

"We just play ourselves in one scene. It was weird. If you ever wonder why movies cost so much, and why they suck, being part of a movie for just one day totally lets you know why. The amount of money they waste is incredible. We filmed nonstop for 12 hours and our scene in the movie is, like, 40 seconds long. They kept a crew working that long for nothing. It's incredible the way the money is pissed away."

Does that translate to the efficient way you make your videos?

"Our videos have been on budgets that are so small it's pathetic - like \$15,000, which is barely enough to buy the film and rent the camera. Everybody works for free. Everything's like, 'Do it. Hurry up. Fine.' We're making one for the song we did in the movie, and 20th Century Fox is footing the bill, so the budget's a little better."

What was it like working with Iggy Pop on the "Black Sunshine" video?

"He's a pretty easygoing guy. He was totally into it. We knew he liked us from this record we made before we signed to Caroline. We'd always hear people say, 'Oh, Iggy likes you guys.' We called him up to see if he was into it and he came down. His schedule is kinda weird and we hadn't actually recorded the music yet, so that's how the whole spoken-word thing came about. We were sort of looking for a cheesy, 'true-crime' sort of narration and his voice was perfect for it."

L-R: Sean, Rob, Philo and J

"They are stations that swore they would never touch this record. But now it's, like, their #1 Most Requested record. So, that's kind of funny."

Pfeifer To Head Hollywood Records

Walt Disney Company Chairman/CEO Michael Eisner and President Frank G. Wells elevate Hollywood Records VP/A&R Bob Pfeifer to Executive VP.

"We are delighted to have Bob take charge at Hollywood Records," says Eisner. "He is a seasoned and successful executive with solid and broad experience in the music industry, having started out as a recording artist himself."

Adds Wells, "Bob has had great success at Epic Records, where he signed several top recording groups, including those with Platinum albums. Since joining Hollywood Records last summer, he has proved himself capable of leading Hollywood Records to a strong position in the industry."

"We have many excellent people on our staff and many of the ingredients needed to become an aggressive, highly successful organization," states Pfeifer. "We are anxious to develop an aggressive, artist-oriented label."

As VP/A&R at Epic, Pfeifer signed Alice Cooper, Screaming Trees, Joe Satriani, Sepultura, Ornette Coleman and Eve's Plum. He was formerly a member of IRS recording act Human Switchboard, and he recorded a solo album for Passport Records.

EastWest Grabs Thompson As Senior VP/Promotion

EastWest Records America Executive VP Craig Lambert brings former ERG VP/National Promotion Greg Thompson aboard as Senior VP/Promotion. In his new post, Thompson will be based in New York.

"Ever since our company's inception, EastWest has had an executive staff whose skills complement our extraordinary roster," declares Lambert. "Because of his diversity of experience, Greg Thompson will be a tremendous asset to the EastWest family; he knows promotion from the grassroots on up. We welcome Greg with great enthusiasm."

"Combining street savvy with an ability to break major acts, EastWest is the definitive record company for the 90s," notes Thompson. "I'm proud to have an opportunity to help take what Sylvia Rhone and Craig have built to new heights."

Thompson began his career in 1982 at WILS/Lansing. He joined CBS/Sony Records in 1983 as their Michigan College Representative, before heading to Chrysalis, where he rose to VP/Pop Promotion. In 1990, he joined Jeff McClusky and Associates, serving for eight months as VP/GM, before moving to SBK as Senior VP/Promotion.

Pugh Now VP/Programming At TK Communications

KXRX/Seattle PD Bill Pugh returns to Florida as VP/Programming of TK Communications and programmer of WSHE, replacing current PD Ernesto Gladden. In his new role at TK, Bill will be overseeing the programming of Dallas-based oldies station KLUV and Orlando classic rocker WHTQ.

Regarding his decision, Pugh states, "With the uncertainty of the situation here following the sale of KXRX to Alliance Broadcasting, I was offered a great opportunity to return to Miami and work with TK Communications and WSHE, and I felt it was time to take advantage of a great opportunity. I'm looking forward

to working with the staff and becoming more involved with 'HTQ and KLUV."

Pugh has been programming KXRX for eight months. His prior PD posts include WSHE/Miami, WRXL/Richmond, WKLS/Atlanta, WKDF/Nashville and WTUE/Dayton; additionally, he served a stint as National Director/Album Promotion at Atco.

Glass Soars to VP/Marketing At A&M

A&M President/CEO Al Cafaro ups Jill Glass to the post of VP/Marketing. In her new position, Glass will oversee the label's artist development, artist relations, product management and advertising merchandising departments.

In making the announcement, Cafaro tells Album Network, "Jill's primary responsibility as Vice President of Marketing is to translate our artists' vision to the street. Her passion for music and all its possibilities, combined with her very practical experience in sales, promotion and product management, make her perfect for this important job."

Senior VP/GM Jim Guerinot adds, "Jill has developed into a skilled administrator who contributes both a creative and practical vision to the marketing of A&M bands. She is also a great person and a dear friend. I have great confidence in her ability to take on her new area of responsibility."

"My entire professional career has been spent at this incredible company, where I've been given the rare opportunity to make the transition through the alternative, sales, promotion and marketing departments," comments Glass. "My promotion and sales field experience provided the best guerrilla training imaginable for facing the challenges of breaking new artists, experience I've been able to apply every day in my years in marketing. I'm thrilled at the opportunity to participate creatively in the careers of artists such as Soundgarden, Sheryl Crow, Gin Blossoms and John Hiatt."

Glass joined A&M in 1984 as Manager of Special Projects/Alternative Marketing. She relocated to New York in 1988, where she claimed the Regional Sales Manager post, seguing to LA a year later in a similar post. Most recently, she was Executive Director/Marketing.

KRXX Moves To The "Edge"

As we rumored last week, Minneapolis hard rocker KRXX has officially adopted Jacobs Media's "Edge" format, following an LMA by rock rival KQRS. Helming the newly formatted station as PD is 10-year KQRS veteran John Lassman, while OM Dave Hamilton will oversee the operation.

Remarks Jacobs Media President Fred Jacobs, "While every one of our Edge clients is doing well, we are pleased to be working with a major company like Capital Cities/ABC. This investment should make other major broadcasters sit up and take notice that the modern rock format is a viable and profitable option in every market."

Declares Lassman, "For years by default, KTCZ Cities 97 has gotten credit for being the alternative outlet in Minneapolis-St. Paul. That will change soon."

A sample hour of the station included James - "Laid," Dead Can Dance - "The Ubiquitous Mr. Lovegrove," Sinead O'Connor - "You Made Me The Thief Of Your Heart," Crash Test Dummies - "MMM MMM MMM MMM," Tori Amos - "God," Stone Temple Pilots - "Creep" and, of course, staples like The Cure, Depeche Mode, U2 and R.E.M.

Bedi Bags Programming Slot At Prism

DeMers programming consultant Bob Bedi makes his way to Prism Radio Partners as Director of Programming. Bedi will be based at WZZU/Raleigh, overseeing the programming of the station, while serving as a programming resource for Prism's other rock stations, WTFX/Louisville and KRZZ/Wichita. He begins March 15.

Says Prism Executive VP/COO Mike Cutchall, "Bob has worked with our properties over the past few years with a great deal of success. We have very ambitious goals for our company and view Bob's addition to the organization as an important step. We value Bob's skills as a strategist and coach and feel he will be a valuable

contributor to our programming efforts."

"The chance to join the Prism family is the one opportunity that could have drawn me away from DeMers Programming," states Bedi. "Prism is in the process of becoming one of our industry's preeminent companies, and the opportunity to help develop and build out the programming efforts in such a dynamic environment is one I couldn't pass up. Prism has assembled a fabulous group of talent and that was certainly an attraction...there isn't a Prism programmer who I wouldn't want to go into battle with."

Bedi has been with DeMers for seven years, following programming stints at WNIT/Norfolk and WCPZ/Sandusky, and a two and a half year post as OM at WNOR/Norfolk.

Sebastian Now PD At KSLX/Phoenix

KSLX/Phoenix GM Dave Pugh taps radio veteran John Sebastian as the classic rocker's new PD.

"This is my favorite place to live in the world!" enthuses Sebastian. "Great American, the company, and Dave Pugh, the GM, both have the same kind of commitment to winning and expertise that I did, and I felt it would be a great combination."

In the early 80s, Sebastian formed and operated Sebastian, Casey & Associates, a successful multi-format radio consultancy. His prior programming posts include KTWV "The Wave"/Los Angeles, WCOZ/Boston, KDWB/Minneapolis and KHJ/Los Angeles.

Sandusky Snags KUPD & KUKQ-AM

KDKB/Phoenix owner Sandusky Radio enters into an agreement to purchase KUPD and sister station KUKQ-AM for \$20 million.

Regarding the deal, Sandusky President Norman Rau comments, "It's a natural fit for us. Both stations target men with album-oriented rock formats, and the combination will make a compelling buy for our advertisers."

KDKB VP/GM Chuck Artigue will be overseeing all three stations.

Talented, gorgeous and taking the world by storm is Sass Jordan...Sass is seen here sandwiched by MCA's Gina Iorillo (left) and new Motley Crue frontman John Corabi at the Viper Room, where MCA hosted a listening party here in LA last week for Sass' new album, *Rats*.

Sony Music Entertainment did its fair share to keep the action moving at the recent Ninth Annual Rock and Roll Hall of Fame induction ceremonies...shown (l-r) are: Soul Asylum frontman Dave Pirner (who inducted The Animals), Bruce Springsteen, Sony Music Entertainment President/CEO Thomas Mottola and Mariah Carey.

"We've been working on this for quite some time," he notes. "We have a very satisfied seller, and we're very excited buyers! From a practical standpoint, we think it's going to be a great merger; the combination of KUPD and KDKB in the marketplace is a wonderful combination. KUKQ-AM is just starting to surface as a talk radio station, and I'm sure there's a lot there to be garnered and grown, and we're looking forward to it!"

Retail Register

Sony Music Distribution Senior VP/Sales & Field Distribution Danny Yarbrough announces the appointment of Ron Piccolo as VP/Field Sales. This is a newly created position, and Piccolo will oversee field communication and information flow in addition to the expansion of local and regional coverage. He will be operating out of the Rego Park, NY, Sony Branch office. Piccolo has been with Sony/CBS since 1962.

In related Sony news, 13-year company vet Jim Hawn was promoted to VP/National Accounts, based out of the Cleveland Mid-Central Branch. He will be responsible for communication, sales and marketing with the Handleman Company and other key members in the rack jobber community.

Media Play Stores Will More Than Double In 1994

Musicland Store Corporation announces plans to open 30 or more of its Media Play stores within the next 11 months. Adding to their current 14 Media Play outlets in existence, Musicland plans to expand in existing markets (Atlanta, Salt Lake City and Buffalo), open in new large markets (Denver, Charlotte and Syracuse) and also open in some smaller markets (Poughkeepsie and Fargo).

For the new stores, Media Play will utilize the same successful full-media concept already in place in its existing stores. The average location is planned to cover 45,000 square feet, with a selection of books, music and video, all at low prices. Media Play plans to continue establishing the stores as "community activity hubs," where local events are held that relate to the needs of a neighborhood and increase product awareness.

Consolidation, Purchases, Contracts And Market Expansions

In a surprising announcement, the Chicago-based mass merchandiser Montgomery Ward has made public their intention to purchase the

Cambridge, MA-based Lechmere chain. The indication is that Lechmere will still be run as a separate retail chain from Montgomery Ward. It is unclear what effect combining the companies' buying expertise and power will have on future operations as a whole. Currently, 50 audio/video departments in Montgomery Ward are leased and run by Trans World Music Corp., and a lesser number are leased by the Handleman Company.

Woolworth, whose Canadian division just sold 120 Woolco stores to Wal-Mart Inc., recently awarded its entire purchasing account to the Handleman Co., adding to the existing 90 stores it already handled. Rank Retail Services was the previous jobber, and they still retain numerous accounts, including Sears, among many others.

Hong Kong will be the next expansion destination for the HMV Group, as they unveil plans for a Superstore that will bring the number of Asian outlets to seven.

Other News And Views

Both Neil Young and Bruce Springsteen have garnered Academy Award nominations in the "Best Achievement In Music, Original Song" category for their contributions to the *Philadelphia* soundtrack, going up against Janet Jackson's "Again" (from "Poetic Justice"), Dolly Parton's & James Ingram's "The Day I Fall In Love" (from "Beethoven's 2nd") and Harry Connick, Jr.'s "A Wink And A Smile" (from "Sleepless In Seattle"). Best of luck to the two Rock Radio institutions, and congrats on the prestigious nominations!

PINK FLOYD AND ALBUM NETWORK BRING RADIO BIG NEWS!

The Pink Floyd Airship touched down as Pink Floyd manager Steve O'Rourke took the podium to announce the US dates. History was made by the Airship, which sailed from Weeksville, NC, to LA in three weeks, marking the first time an airship completed the east to west winter crossing of the continent against the jet stream.

At the podium (l-r) are: BCL President Michael Cohl, Pink Floyd tour Production Director Mark Brickman, Bob Coburn and Steve O'Rourke.

The legendary Pink Floyd has always operated on a grand scale, and this past Thursday, February 3, was no exception, as band manager Steve O'Rourke and concert promoter Michael Cohl of BCL hooked up with The Album Network for a press conference broadcast to announce the group's first North American concert tour in nearly five years - in the proper Pink Floyd, eye-popping style, of course!

The mammoth, psychedelic Pink Floyd Airship (the biggest in the world) that has been sailing across the US, made its touchdown at the Rose Bowl in Pasadena to kick off the ceremony, which was attended by scores of media representatives and beamed out by Album Network to stations across the nation. KLOS' Bob Coburn hosted the event and interviewed O'Rourke, who told the crowd (and assembled radio listeners) of the band's upcoming new album, due March 29, and of the band's eagerness to hit the road again.

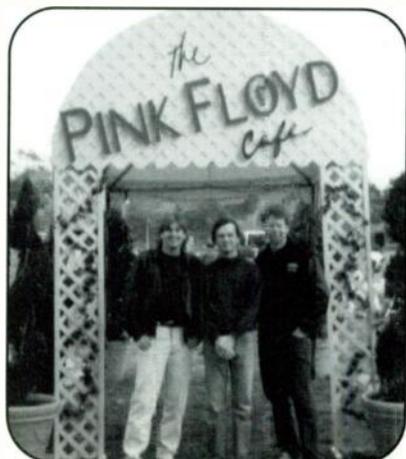

The tour will be one of the most spectacular productions ever undertaken, boasting one of the largest and most complex stages ever utilized; one new technology you can expect to see will be gold lasers, which have been banned in certain parts of the world due to their purported atom-splitting strength! In fact, since there was no space big enough in the private sector to house the massive stage and effects, the band will be rehearsing for the upcoming tour in a secret military hangar. In order to meet the demands of performing in several cities each week, three identical stages will traverse the country via a massive fleet of ground transportation.

Our thanks to Columbia's Paul Rappaport and Larry Jenkins for making this event and broadcast one to remember!

Deep in conversation, Bob Coburn, Mark Brickman, Michael Cohl and Steve O'Rourke fill in Album Network affiliates of the pending tour and new album.

Just before touchdown, the hordes of media folks gathered at "The Pink Floyd Cafe" to munch on sandwiches and sip English tea; pictured are our own Mark Felsot (left) and John Valenzuela (middle), with broadcast host Bob Coburn.

Dates and cities for the tour include:

3/30	Miami, FL - Joe Robbie Stadium (sold out)

1 ALICE IN CHAINS Jar Of Flies

Columbia • 57828

“Customers have been saying how good it is to hear a different side of the band.”

**Erin Tapken,
Relics/Cedar Rapids**

Alice In Chains' career exploded with *Facelift* and has never lost momentum. Along with the heavy touring and airplay that they have been fortunate to reap, consider that, in the past year alone, they've appeared on the covers of mags such as *Spin*, *Guitar World*, *Rip*, *Request*, *Reflex*, *Circus*, *Hit Parader*, *Faces*, *BAM*, *Guitar School* and *Guitar For The Practicing Musician!*

That's all pre-release activity that aided in the creation of anticipation (like that was a problem!). The story at Rock Radio can now take center stage, as the first single, "No Excuses," races 13 to 6* on Power Cuts. Serious Plays Per Week are reported, with WTKX, WQLZ, WBZX and KOCD all reporting 30 or more...WAAF and KQXR both report at least 40 PPW. At RAWk Radio, *Jar Of Flies* moves 13 to 5*.

The #1* spot on the Hottest Sales Nationwide still belongs to *Jar Of Flies*, as 20 more accounts report chart debuts, including Super Club Music Corp. (Atlanta) #5, Kemp Mill (Baltimore) #2 and the Alwilk Records Chain (Livingston).

2 TORI AMOS Under The Pink

Atlantic/TAG • 82867

“She has an incredible following after just one album. Number one debut.”

**David Deeter,
Tower/Stonestown**

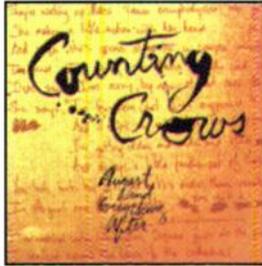

Tori Amos has something that every artist wants...a large and heavily diverse audience. *Little Earthquakes* was her dynamite breakthrough album and with *Under The Pink*, not only is Tori more accessible, but so is her music. She has really evolved since her debut, and this album is set to take her over the top in both sales and airplay.

What's helped to get sales off to an amazing start is the elephantine press coverage in both local and national papers, as well as an appearance on "The Today Show." The first single, "God," moves 82 to 81* on Power Cuts, while the video is in Active rotation on MTV and What's New rotation on VH-1. At Adults Only Radio, *Under The Pink* moves 9 to 8*, while at the Virtuallyalternative format, it goes 6 to 4*.

The 20 to 1* leap on the In-Store Play chart is indicative of retail's support, and customers' curiosity! *Under The Pink* makes its Hottest Sales Nationwide debut at #10*, with 182 total chart debuts, including #1s at Strawberries (Boston), Record Revolution (Philadelphia), Rose Records (Chicago) and Streetside Records (St. Louis).

3 COUNTING CROWS August And Everything After

DGC • 24828

“Great music, backed with high visibility, translates into #1 sales.”

**Bob Briar,
Cutler's/New Haven**

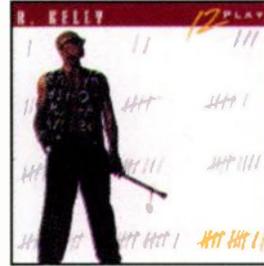

Even if the Counting Crows' now legendary performance on "Saturday Night Live" had never happened, a major increase in overall activity and sales was inevitable. Anyone and everyone that was hip to this record early on felt it was going to pop, knew it was going to happen. They're currently on tour and, trust us, this is the last chance you'll have to see them in a club-like setting!

"Mr. Jones" continues to forge new territories for Counting Crows, as it ranks among the Top 5 Most Added tracks at Hit Radio, with the video making its debut on VH-1. At Rock Radio, the song is #2* on Power Cuts, it's the #1 Most Requested song and album and it's the #1 Heavy Nighttime track. Stations that show more than 30 PPW include WTKX, WBXQ, KSEZ, WDHA, KGKL and WKLQ. The album is #4* at Adults Only Radio and #2* at Virtuallyalternative Radio.

August And Everything After shoots 9 to 3* on the Hottest Sales Nationwide. A total of 227 MarketMakers show chart activity, with upward moves at Believe In Music (Grand Rapids) 2 to 1 and Tower Records (Long Island) 4 to 1.

4 R. KELLY 12-Play

Jive • 41827

“Lots of in-store play and heavy local radio support keeps R. Kelly at #1.”

**Jim Burge, Poplar
Tunes/Memphis**

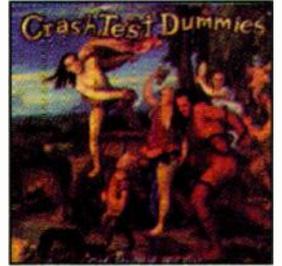

This record has quickly become a powerhouse seller. One listen to the latest single, "Bump N' Grind," can explain it all. The single is Top 10 at Urban Radio and it's close to a Top 40 debut at Hit Radio.

The video is in Heavy rotation on BET and can be seen on MTV. After just three days of airplay on The Box, the clip comes in at #31 there. Starting in April, R. Kelly will be co-headlining a national tour with Salt N' Pepa. He will appear on "The Arsenio Hall Show" on February 14 and will tape a segment for "Soul Train" on the 19th.

But the real story lies at retail, where *12-Play* steals an 8 to 4* jump up the Hottest Sales Nationwide! Check out the action: Sound Warehouse (Dallas) 3 to 1, Super Club Music Corp. (Atlanta) #1, National Record Mart (Pittsburgh) 25 to 15, Strawberries (Boston) 35 to 16, Best Buy (Minneapolis) 30 to 10, Tower Records (Washington, DC) 67 to 47, Warehouse Ent. (LA) 23 to 14 and Record Theatre (Cleveland) 2 to 1. Poplar Tunes (Memphis) and Sound Shop (Nashville) each report #1 sales for three straight weeks!

5 CRASH TEST DUMMIES God Shuffled His Feet

Arista • 18531

“KZON is playing the hell out of 'MMM MMM MMM MMM,' and people come in specifically asking for the band.”

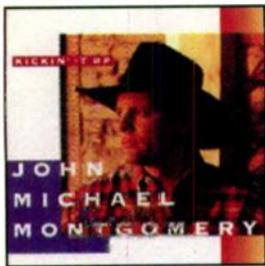

**Dave Schwartz,
Tower/Phoenix**

For anyone who questions the power of Alternative and Adult Alternative Radio, take a look at what's happening with Crash Test Dummies. Both of those formats led the way with airplay support, paving the way for Rock Radio and MTV.

The album is #5* at Adults Only Radio, and it moves 8 to 6* at Virtuallyalternative. The single, "MMM MMM MMM," moves 75 to 72* on Power Cuts, while the video is in Buzz Bin rotation on MTV and has just been added at The Box. "MMM MMM MMM" experienced a phenomenal add week at Hit Radio, where it's #1 Most Added. The Crash Test Dummies are currently on a major market club tour.

God Shuffled His Feet screams 49 to 36* on the Hottest Sales Nationwide and flies 13 to 10* on the In-Store Play chart. Thirty-three more buyers report chart debuts, including the Homer's Chain (Omaha) #28 and Music Vision (St. Louis) #40. Major Market-Maker moves can be found at Warehouse Ent. (LA) 41 to 20, Sound Warehouse (Dallas) 40 to 16 and Streetside Records (St. Louis) 32 to 11.

6 J.M. MONTGOMERY
Kickin' It Up
Atlantic/TAG • 82569

"The effects of in-store play are like we've never seen before!"
Bob Theissen, Coconuts/Cincinnati

Bob continues, "People are buying John Michael Montgomery without even hearing it!" While that may be hard to believe in these wallet-crunching times, it's true. In fact, people that hadn't purchased his first album were asking for *Kickin' It Up* before street date. Why? The answer lies in the single, "I Swear," which is #1 at Country Radio. People are flipping out over this song because the word (somehow) got out that it was a good wedding song. DJs and consumers alike are buying it expressly for that purpose!

Kickin' It Up enjoys a 30 to 21* hike up the Hottest Sales Nationwide, with new chart debuts reported by Super Club Music Corp. (Atlanta) #2, Kemp Mill (Baltimore) #42, Scotti's Records (New Jersey) #36, Roundup Dist. (Seattle) #3 and Poplar Tunes (Memphis) #17.

7 CECE PENISTON
Thought 'Ya Knew
A&M • 840138

"In-store play is really pushing sales! People hear it and love it."
Judy Negly, Independent Records/Colorado Springs

From her humble beginnings singing in churches to her even more humble beginnings singing in the clubs, CeCe Peniston has become one of dance music's most exciting performers. Her talent and delivery, coupled with producers so hot that a frog could burp and they'd make it a hit, result in an entire album of hits and hits to be.

The current single, "I'm In The Mood," is Top 10 at Urban Radio, and it makes its debut into the Top 40 at Hit Radio this week. The video can be seen on BET. *Thought 'Ya Knew* glides 69 to 63* up the Hottest Sales Nationwide, with another 22 buyers showing chart debuts, including Kemp Mill (Baltimore) #22, Record Theatre (Buffalo) #14 and Electric Fetus (Minneapolis) #11.

8 CELINE DION
The Colour Of My Love
S&S Music/Epic • 87555

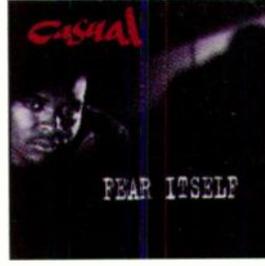

"Sales are busting at the seams!"
Rachel Morris, Tower/Rockville

Celine Dion can celebrate all she wants. *The Colour Of My Love* has been certified Gold and the single, "The Power Of Love," is #1* at both Hit and Adult Radio (the video is in Heavy rotation on VH-1). She is about to embark on her first-ever headlining US tour, which kicked off 2/11 in San Francisco. Also, on 2/6, the Disney Channel aired an hour-long Celine Dion special that included live performances of songs from this album, as well as from her previous works.

The Colour Of My Love powers 18 to 11* on the Hottest Sales Nationwide, with a total of 148 accounts showing sales activity. Upward moves can be found at Tower (Atlanta) 51 to 27, National Record Mart (Pittsburgh) 19 to 7 and The Wall Music Inc. (Philadelphia) 11 to 6.

9 CASUAL
Fear Itself
Jive • 41820

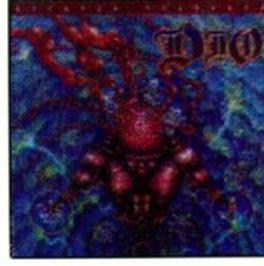

"People have been asking for Casual since November!"
Randy Young, Dr. Wax/Chicago

Casual is a native of that hip-hop mecca known as Oakland. His rapping talents brought him into that underground fold, where he hooked up with Del (of Del The Funky Homosapien) and his family fold of rap artists, Hieroglyphics (which also includes label mates Souls Of Mischief). The word of mouth got started sometime last year with the first single, "That's How It Is," which was a Top 5 Rap single and video, and requests to retail started pouring in.

Fear Itself makes its Hottest Sales Nationwide debut at #73*, with 49 buyers reporting chart debuts, including Dr. Wax (Chicago) #1, Northern Lights (Minneapolis) #13, Criminal Records (Atlanta) #13, Dingleberry's (Dayton) #9, Independent Records & Video (Colorado Springs) #6 and Odyssey Records (Las Vegas) #7, to name a few.

10 DIO
Strange Highways
Reprise • 48527

"Word gets out quickly about a new Dio release, as his built-in audience buys anything he releases."
Dale Bishop, Rockit/Boston

Dio truly does have an amazing following that doesn't need CompuServe or anything or anyone else to tell them when a new record is due. To quote Ker-rang, "This is the finest doom that money can buy." Ronnie James Dio helped to guide Black Sabbath through last year's *Dehumanizer* album, and he's now back with *Strange Highways*.

Word of mouth and exposure at RAWk Radio (where the album moves 30 to 22*) blend together to generate sales and a debut on the Hottest Sales Nationwide at #85*. A total of 53 accounts report chart debuts, including Rock Cafe (Battle Creek) #23, Relics (Cedar Rapids) #5, Record & Tape Traders (Baltimore) #25, CD World (South Plainfield) #15 and Mad Platter (Riverside) #20.

1 CANDLEBOX

Candlebox
Maverick/Sire/WB • 46313

"It's reached our Top 5 thanks to a huge buzz on MTV and airplay on KUPD and KLPX!"

Gary Gamez,
Zip's/Tucson

Candlebox's self-titled debut continues to make inroads at radio, barreling in at #6 on the Most Requested Album chart and rising to #12* on the Hottest Album Airplay chart. The lead track, "You," is #7* on Power Cuts, and it soars this week on the Most Requested Songs (9-6*) and Heavy Nighttime Requests charts. WAAF/Boston, KQXR/Boise and WARQ/Columbia each report more than 30 Plays Per Week. And the video is all over MTV, where it's in Stress rotation.

Candlebox is also burning up the retail charts, jumping 51-45* on the Hottest Sales Nationwide, holding steady at RAWK Retail (#3*) and rising at VIRTUALLYALTERNATIVE Retail (14-13*). Nearly all MarketMakers report increasing sales, including Twisters (Lincoln) 33-6 and Zia Records (Tempe) 7-2.

2 VARIOUS ARTISTS

Alternative NRG
Hollywood • 61449

"We sold out right away, and it debuted in our Top 15 sales."

Dagmar Nelson,
WUXTRY/Athens

With artists like R.E.M., U2 and PM Dawn on this new benefit compilation for Greenpeace, *Alternative NRG* is an out-of-the-box smash.

Radio has responded quickly to this unique album, 36-28* up the Hottest Airplay chart and rises 17-13* on the Adult Radio chart. The lead track, R.E.M.'s live version of "Drive," scores a Homer! on the Power Cuts chart (#29*) as stations like WXRT/Chicago, and WMMR/Philadelphia give it massive support.

At retail the album soars 15-5* on the In-Store Play chart. *Alternative NRG* (a former Retail Best Buy, Issue #776) also reels in over 80 chart debuts, including Virgin Megastore (Costa Mesa) #4, and Strictly Discs (Madison) #2. The album makes its debut on the Hottest Sales Nationwide at #84*.

3 DIG

Dig
Radioactive • 9201

"In-store play and a lot of WRZX airplay have led to a jump into our Top 15."

Steve Wolf,
Music To Go/Indianapolis

Southern California's Dig asks, "Why don't you believe?" in their latest song, and apparently, many of you already do - with more converts to this band already on the way.

Dig continues its climb up the Hottest Airplay (38-36*) and VIRTUALLYALTERNATIVE Radio (18-15*) charts, while holding steady at #27* at RAWK Radio. "Believe" scores a Homer! on the Power Cuts chart (#30*), with WAAF/Boston reporting 22 PPWs. MTV has the video in Buzz Bin rotation. The album also pulls in an impressive debut on the In-Store Play chart, as it debuts at #13*.

Continuing an upward trend, *Dig* rises at VIRTUALLYALTERNATIVE Retail (36-34*), on the Hottest Sales Nationwide (98-95*) and RAWK Retail (12-9*). An ongoing tour and recent MTV promo appearances should add to the boost in sales.

4 CRY OF LOVE

Brother
Columbia • 83404

"This is a great party album. WRKR and in-store play vault *Brother* into the Top 15."

Dennis Marshall,
Rock Cafe/Battle Creek

The Columbia Records promo staff has done an amazing job in sticking with, *Cry Of Love* at Rock Radio. "Too Cold In The Winter" is the third track, with the first two, "Peace Pipe" and "Bad Thing," both having reached #1 at Rock Radio. "Too Cold In The Winter" makes its Power Cuts debut this week, clocking in at #33*, and it's #1* Most Added at the format. KILQ, WGBF, KSHE and WFYV all report more than 25 PPWs.

The band has been touring almost non-stop since the album's release, both on their own and with Aerosmith.

With the release of a third tune and MTV's support, *Brother* nabs nine new chart debuts at retail, including The Alwilk Chain (Livingston) #24, Sound Shop (Nashville) #7, and CD Delight (Evans City) #31, with upward moves at Rock Cafe (Battle Creek) 20 to 14 and Manifest Discs (Greenville) 81 to 39.

5 BLACK SABBATH

Cross Purposes
IRS • 13222

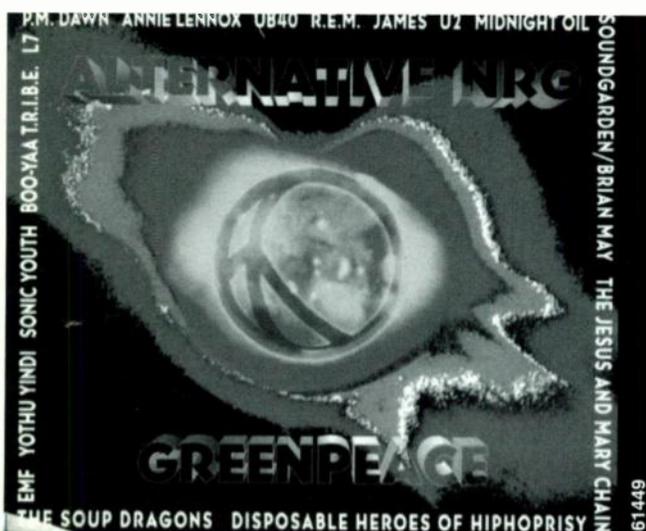

"Airplay has definitely had an effect, and their upcoming concert is really creating excitement."

Debbie Schott,
Budget/Denver

Black Sabbath is back! And people are embracing the return of these rock vets with open arms.

Often considered the "original" heavy metal band, Black Sabbath has been making music for over 20 years since their modest beginnings in Birmingham, England. *Cross Purposes*, featuring longtime members Tony Iommi and Geezer Butler, and new vocalist Tony Martin, has already spawned the single "Back To Eden," which flies 69-61* on Power Cuts. And stations like KQXR/Boise (28 PPW) and KNAC/LA (20 PPW) have made it a 20-13* hit at RAWK Radio.

Retail stores are gearing up for big sales of *Cross Purposes*, as it soars to #5 on the Hot Futures sales projections chart. Expect Black Sabbath's recently launched tour to bring a noteworthy sales impact.

DOMINO

Domino

RAL/Def Jam/Chase • 57761

Domino is very hot right now! "Ghetto Jam," from Domino's self-titled album, has been jammin' the airwaves with Top 40 Radio play (it's Top 35* at Hit Radio) and Urban Radio play (Top 40 at that format), but the most effective of all is the video exposure (it's Heavy on MTV and in rotation on BET as well).

Domino knocks off another upward move on the Hottest Sales Nationwide, skipping 43-33*. The street influenced sounds of California's Domino have taken hold as these MarketMakers report sales gains: National Record Mart (Pittsburgh) 31-12, Tower (Duluth) 72-18 and Valley Records (Sacramento) 31-28.

DEEP FOREST

Sweet Lullaby

550 Music/Epic • 74819

Sweet Lullaby from Deep Forest has steadily grown into a phenomenon for this group of unique but catchy sounding musicians. The title track has sparked a growth for this forest, as the video moves into its tenth week in rotation on MTV (it's currently in Buzz Bin rotation).

Hit Radio is catching on to the excitement over Deep Forest's sound, as "Sweet Lullaby" ascends quickly toward the Top 40. With a strong word of mouth buzz accounting for almost 50% of sales, *Sweet Lullaby* makes another jump on the Hottest Sales Nationwide, from 72-65*, with strong upward moves reported by An Die Musik (Baltimore) 41-25, Manifest Discs (Greenville) 55-25, Mad Platter (Riverside) 43-12 and Orpheum (Seattle) 32-7.

SOUNDTRACK

In The Name Of The Father

Inland/PLG • 518841

"In The Name Of The Father" is a striking film with an equally striking soundtrack. The likes of Bono, Gavin Friday and Sinéad O'Connor have contributed new performances, alongside some classic 60s-era tracks from The Kinks, The Jimi Hendrix Experience and Bob Marley.

The Sinéad O'Connor cut, "You Made Me The Thief Of Your Heart," is getting a good deal of attention at radio. *In The Name Of The Father* debuts on both the Virtuallyalternative Radio chart (at #29*) and the In-Store Play chart (at #19*). It moves 81-80* on the Hottest Sales Nationwide. MarketMakers showing a marked sales

increase include Rolling Stone (Chicago) 43-38, Tower (DC) 22-21 and Virgin Megastore (LA) 17-4.

GREEN DAY

Dookie

Reprise • 45529

Green Day can be mighty proud of their faithful fan base, as this once-indie band made their major label debut with *Dookie*, their fans were right there to support their power-punk-pop favorites with solid sales. Green Day throttles out into the shark pool of the big boys, landing debuts at #83* on the Hottest Sales Nationwide and #4* on the In-Store Play chart.

Green Day will continue spreading that street buzz that made up 38% of their initial sales. Some of the accounts reporting the 79 debuts on *Dookie* include these MarketMakers (all reporting in with a #1 position): Daddy Kool (Sarasota), Wax Trax (Denver), Bionic (Cypress) and Rough Trade (SF).

KRISTIN HERSH

Hips And Makers

Sire/Reprise • 45413

Kristin Hersh has successfully cast off *her own* Throwing Muses background and is set to give Belly's Tanya a run for her money. Kristin's debut solo release, *Hips And Makers*, has been easily grabbing the media spotlight with high anticipation and a helping hand from R.E.M.'s Michael Stipe, who performs a duet with her on the track "Your Ghost."

Hips And Makers has a great first week run, with debuts all around; it's #38* at Virtuallyalternative Radio, #96* on the Hottest Sales Nationwide chart and #6* on the In-Store Play chart. Adult Rock moves the album up 40-34*. Sixty-eight debuts were reported this week. Some of those were from HMV (Cambridge) #7, Garage D 'Or (Minneapolis) #5, WUXTRY (Athens) #6 and Moby Disc (LA) #6.

music buyers who form the "X-ers" who love their music with a nostalgic flavor. With tracks like The Knack's "My Sharona" and World Party's Bowie-influenced track "When You Come Back To Me," *Reality Bites* is a natural favorite.

Reality Bites debuts at #98* on the Hottest Sales Nationwide, as the movie goes into theaters this week. MarketMakers reporting debuts include Music Warehouse (Chicago) #20, Streetside (Bloomington) #14 and Mushroom (New Orleans) #15.

TONY BENNETT

Steppin' Out

Columbia • 57424

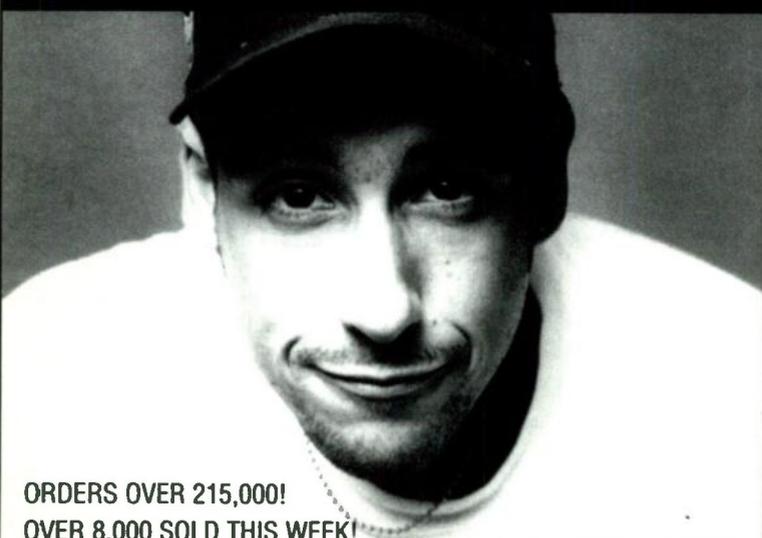

Tony Bennett has single-handedly won the hearts of the largest demographics in music history! Following his appearance at last year's MTV Music Awards, Bennett went on to tour the US on many alternative bills and had huge success with his single "Steppin' Out," which was a surprise add, and then hit, at MTV and now at VH-1.

Now, *Steppin' Out* makes a showing on the Hottest Sales Nationwide, where it debuts at #99*. Accounts reporting debuts include Title Wave (Minneapolis) #88, Tower (Atlanta) #50 and Southwest Wholesale (Houston) #15.

FIRST TREMORS

Via an Album Network live broadcast last week, Pink Floyd landed their airship at the Rose Bowl in Pasadena to announce their upcoming tour dates, that will coincide with the release of their new album that is scheduled to be released on March 29 (no title yet). Combined with new material from Pantera, Motley Crue, Soundgarden and Johnny Cash, it looks like it will be a very green spring!

Sarah McLachlan

Fumbling Towards Ecstasy

Either you are a captivated fan of Sarah McLachlan or you should be. Sarah's last release, *Solace*, was proof of her depth and grace as an artist. Now, *Fumbling Towards Ecstasy* affirms that she's not just a brightly burning talent but an evolving muse that is nourished by her own self-discovery.

Fumbling Towards Ecstasy consists of a dozen poignant portraits of an artist experiencing all the wonder and emotion that comes with the discovery that living each day is like creating a painting with all the colors of love, pain, loss and joy. Many of Sarah's images wrap you in a soft blanket of pleasure, as her thoughts weave themselves into dreams; they slip into your inner world and dance there forever.

The voice of Sarah McLachlan is that of an angel, and the content of her writing comes from a deep place in her soul. It's only natural to want to hold her music very close to your heart. Selections such as "Hold On," "Mary" and "Circles" exhibit what can only come from a tender spirit with a gifted vision. The lyrics of Sarah's songs are surrounded by often delicate, sometimes angry instruments that lock on to the poetry found when a troupe of musicians gives life to the senses.

"Possession" is the lead track from *Fumbling Towards Ecstasy*, and it has easily won the affections of Adult Rock Radio, where it debuted at #37*. Sarah begins her tour on February 23, with the Devlins opening up for her in theaters across the US and Canada. She has already performed some special intimate dates in New York and on Valentines day, she will be appearing on the "Today Show." Customers eager to share some more time in Sarah's mind and under her spell have driven this album to become a Top 10 Hot Future. February 15 is the day ecstasy will be found; Sarah McLachlan has it.

TRIPPING THE WIRES FANTASTIC

A Journey Through The New Electronic Mecca

It's 1994, and the often welcome, sometimes dreaded information superhighway is getting packed with commuters ready to put some miles on their modems. Want to know what's up with Nirvana? How about a brief chat with Neil Young? Or Depeche Mode? Who is the hottest new artist in Israel? What are people the world over saying about the new Guns N' Roses album? Should I add this certain track? With powerful on-line services like CompuServe and Internet bringing music buffs together worldwide, the answers to these questions are merely a keystroke away....

In the interest of preserving the industry's collective sanity, we took a trip down the wires and explored the ports where the elite information and technology services are found. We began with one of the most powerful on-line services today, CompuServe, and witnessed the birth of the Music Vendor forum, an electronic coffee house where consumers and professionals from all walks of life (and all corners of the globe) have set about the business of staying "in the loop." Don't be afraid...get aboard this train before it leaves the station without you!

An Overview Of CompuServe

Since 1979, CompuServe has been considered the precursor for the information technology pipeline of the 21st century. They currently boast over 2,000 on-line services and well over 1.7 million members (and that number is rapidly growing), with local access in over 170 countries. It is almost hard to fathom the amount and depth of information available to members, not to mention the essential capabilities of their electronic mail services.

A great advantage of CompuServe is the fact that you don't need any proprietary software to use the service. Once you have your ID number and password, you can log-on with a local call from almost anywhere globally, with any type of computer that is equipped with a modem. Once on-line, you can access any of the over 700 forums available, including the Music Vendor forum, a place where fans, music industry-types and artists can all meet under one electronic roof.

"This is like just before MTV came on the air," declares Geffen VP/Creative Services, Robin Sloane. "No one understood what to do with it; they thought nobody would even be interested in videos. I feel this is the same type of thing; it's the technology of the next decade, and it's limitless."

All of the areas in the Music Vendor forum can be searched in a variety of ways to make it easy to find exactly what you need, whether you are a label president or a ZZ Top fan. The first area is the bulletin board, where you'll find public postings. Anyone can post and/or respond to a message on any topic (or artist) currently in discussion.

The second area is the library, the most data heavy section within the Music Vendor forum. Once in the library, you can contribute (upload), access (download), or search the three types of files you will find. The first file type is a TXT file (text), where

you'll find various information ranging from artist bios, tour dates and reviews to other general materials that could be of importance to the artist or consumer, such as album liner notes and credits. The second type of library file is a WAV file (a sound file). These files contain approximately 30 second audio samples...usually, they are snippets from songs, but they also may contain sound bites. The final type of file currently found in the library is a GIF file (graphic), which contain a variety of visual images, such as group photos, band and label logos, and other related graphics. Soon, there will be a new type of file available in the libraries, an AVI file (video). This will be an astounding leap forward in the multi-media imaging available to the forum user.

The third area in the forum is the conference room. This is an area where you can go into a "room" and interact live with other members on-line. Often there is more than one "room" in use at a time, and you can pop in for a visit and see what the discussion is all about, or take part in a conference that is held on a regular basis for same-interest users. Although the conference area can hold many people on-line at one time, it is not large enough to accommodate the massive amount of people who want to be on when there is a major artist conference. In that case, the separate "convention center" area on CompuServe is used since it can accommodate about 300 users at any one time.

As the sys-op (system operator) for the Music Vendor forum since its inception just about six months ago, Mike Lawson is responsible for not only overseeing the activities in the forum, but coordinating the live conferences and serving as a liaison between CompuServe and the vendors in the forum. "My idea was to create a vendor forum for record labels, and then explain to those labels and CompuServe how they both needed each other," states Lawson. "This is an interesting medium...it's a combination of talk radio, print magazine and newspaper - there are just so many different parts to this thing."

Michelle Moran, Corporate Communications for CompuServe, ponders the forum's early success: "The Music Vendor forum is extremely popular; it's more popular than we had

expected it to be. It's just a great concept where fans can actually talk directly to the labels and artists with real-time conferencing."

Vendors In The Electronic Loop: Record Labels

RCA's Administrator of Artist Development and Editor-In-Chief of their forum, Lourdes Vitor, defines the relevance of the Music Vendor forum in this way: "I think it's important for people to know what's going on in the music industry not only for us to promote our artists, but to go directly to the consumer through CompuServe. It's a vital link for users and the industry." Not only is it important to get mounds of information, it's equally important to access the precise data that the user wants. This point is well made by Geffen's Robert von Goeben, who is heading up the forum for their label. "When people want to specifically get information about Nirvana, there should be a place that is that narrow," comments von Goeben. "We're not talking about music; we're not talking about alternative music or even Geffen alternative music. We're talking about Nirvana, and you should be able to go directly to the source [the label] and get information about the band."

Other industry-related services are located in the Music Vendor forum as well, including the Creative Musicians Coalition and SXSW (South By Southwest), and final plans are currently on the table of at least 12 major labels to enter the forum and join Warner Bros., Geffen and RCA.

Warner Bros.' Senior VP/Creative Services, Jeff Gold, explains the reason they got involved: "Initially, the most accessed files on CompuServe, America On-Line and Prodigy were the ones our bands were on. We figured that since the fans were asking questions and trading information about our artists, they'd probably go nuts if they were able to get the information right from the source. Initially, we were deluged - it was unbelievable! It's exciting and empowering for me to talk to those people, and equally so for them. How often does a consumer get to send a message directly to a senior person at a record label?"

Undeniably, one of the most amazing features of CompuServe is the ability to hold live conferences between superstar artists and thousands of their fans. By using the convention center area just like you would to organize any mass media event, it is possible to give immediate access to a stunning amount of people worldwide. Warner Bros. has held conferences with Depeche Mode and Lou Reed, which were met with phenomenal success: "We had 12,000 attempted log-ons during our Depeche Mode live conference and 1,000 of those people actually got on," says Gold. "It was the equivalent of an on-line riot!"

Making The Most Of An Incredible Thing

As with any rapidly developing technology, it is hard to see the horizon for CompuServe...the Music Vendor forum has produced the type of phenomenon not often seen in the entertainment and communications industry. Not too surprisingly, all of the forum label participants so far feel strongly about the fact that it provides a way for the consumer to define what is the current pulse of the industry. "This whole [forum] thing is because you need to have constant feedback about how you're

"We had 12,000 attempted log-ons during our Depeche Mode live conference and 1,000 of those people actually got on. It was the equivalent of an on-line riot!"

doing, what your artists are all about and what consumers perceive your artist to be," concurs Vitor. "When people have something that they can download and listen to while they are actually looking at the artist's face, it echoes the experience of going to the record store and putting on headphones to sample the music before you buy."

Jeff Williams of Communitech is a radio consultant who specializes in database marketing. His company, a full-service programming and support group which specializes in 18 to 34-year-old formats, has been riding the technological wave in an effort to break down the information and feed it to programmers nationwide. He keeps his computer humming as he roams the world constantly in search of vital information. "My company

uses the forums on CompuServe as a means of networking," he says. "I can get an idea of what ordinary people are talking about not only nationally, but globally. Since I can't be in LA and I can't spend all of my time calling the labels, when I need to know something, I jump on-line and go into the appropriate library to search for the information I need. I probably get all the same data that is available through a phone call, and I don't spend hours on hold, or dealing with voice mail."

What Are All These People Talking About?

There are certainly a lot of interesting things happening on the 'boards of CompuServe. People from all areas of the industry are logging on and getting nerdy. Whether under an alias ID or running exposed throughout the forum, one can easily have a conversation with label presidents, artists, housewives or just about anyone else!

And are the labels listening? Warner's Jeff Gold offered this story: "I was going through one of our forums and saw 106 messages about Neil Young. About 85% of them were gripes about the same five records that weren't available on CD. The next day, I happened to meet with Elliot Roberts, Neil's manager, and I told him about the situation. He said, 'Well geez, if people are that interested, why don't we put 'em out?' We agreed to it in that meeting, and I posted a message the next day in the forum telling people we were going to remaster and re-release the CDs because they had asked for it. They went bezerk! It was an incredible version of democracy at its best."

Geffen's von Goeben adds, "We have an artist who is generating a lot of excitement by the name of Beck. It's a very word of mouth buzz at this point, and for people who ponder, 'I wonder who this Beck is?,' they can go right to our forum, where there are text and sound files, plus discussions on him. They get a really good idea of who Beck is."

E-Mail And The Internet: You Can Get There From Here

Probably the most-used feature of on-line services is electronic mail. The ease of use, lack of limitation by time of day, the speed of delivery and receipt and the incredibly low cost make it too hard not to use. The hundreds of thousands to millions of people who have e-mail boxes internationally have created an entirely new level of communication.

The Internet is an international network of massive proportions which utilizes e-mail to the nth degree. There are an estimated 20 to 40 million people currently roaming the Internet, and you can e-mail any one of them

Robin Sloane

Lourdes Vitor

Jeff Gold

from your local on-line service. At this time, CompuServe offers Internet e-mail and receipt, and by the end of February, they anticipate being able to offer Internet users full access to all of their services and forums. Also by the end of 1994, members should be able to go outbound across the "gateway" (a link or on-ramp from one on-line service that connects with the entire world) and access the Internet.

"Internet absolutely plays a role for us," offers von Goeben. "We have a brand new artist from Israel named Noa. She's somewhat of a star over there, but relatively new to fans in the US. The first thing we wanted to do was to get the word out to people in the Jewish/Israeli community in the US. In talking to people on Internet, I got the name of a person at a university in Israel and I sent him e-mail over the Internet. He then connected me with a whole series of Internet mailing lists, and we sent information about Noa over the Internet to all of the Jewish/Israeli community lists. The response has been great, and we never would have made the connection without this."

Can Anyone Play?

Of course, all these opportunities are also available to be harnessed by those in the related fields, especially radio and retail. After all, isn't it these folks who deal with the artists, product and consumers firsthand? Jeff Williams sees the obvious connection: "I've been telling GMs everywhere that it's not necessarily whether your station is better than another station...it's which station is best informed. The station that knows their audience and is capable of marketing their product the best is the one that is going to not only survive, but prosper. It's all about being able to make money by being the most informed."

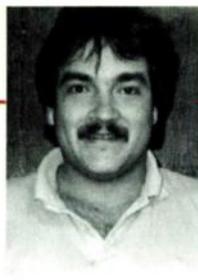

When you are considering the impact that the messages posted constantly by consumers on the bulletin boards have, it's no wonder that Geffen's Robin Sloane has been hearing that some station PDs are adding songs to their playlists because of the interest generated in the forum alone!

Paula Kay Williams is the manager of Digits CD Store in Richmond, VA, as well as a sys-op on four music forums in CompuServe. She immediately recognized the power of this medium and the staggering number of people that would be coming on-line, and she uses it daily to her advantage. "There is such great access to all types of valuable information for the retailer," says Williams. "It is a way to keep in touch with the beat of a broad base of consumers. Both professionals and consumers are often on-line exchanging ideas, concerns and problems they have. That is just as important to the market-sensitive business owner as artist feedback is to the labels."

Advice For The Unconnected

Well, the obvious bit of advice you may have already drawn is - get connected! You just can't afford to be locked out of the data interstate that is being re-paved with the phone lines to become the information superhighway.

We asked each of our contributors to pass on a parting thought for anyone who's at the

interactive line in the sand. Step on up and take a last listen to our panel of cyber cowboys as they part with some priceless advice:

Mike Lawson: "The information age is here,

and you've either got to get with it or you're going to miss out on a huge amount of things. Having just a basic membership with CompuServe and using it only for e-mail is an extremely good bargain. I predict that within five years, every label in the US, or even the world, will either be on-line in the Music Vendor forum or trying to get in."

Jeff Gold: "This is the window into a certain world - the world of the computer literate record consumer. These are people who are cutting-edge and very passionate. The forums provide an ever-changing focus group on your desk every day. You can pose a question one day and come back the next day and you'll have four or five answers from people all around the country. It's really invaluable insight."

Lourdes Vitor: "If you have something of interest to the consumer, how could you not use this and benefit by it? It's literally a new era. I would say to labels, retailers and radio, if you want to direct information about your music, your store or your station, the best way to go about it, in terms of the information superhighway, is to use on-line services."

Michelle Moran: "Industry professionals should be using CompuServe and the forums because of the incredible reach they have, and the variety of people involved globally."

Jeff Williams: "As creative as you are capable of being, you can find endless ways of making this technology work for you."

Paula Kay Williams: "Being on-line has turned me on to a lot of music, and I know that is happening for thousands of other users as well. I have a steady stream of productive and sound industry discussions with not only consumers, but professionals as well. I am able to take a lot of that information I gain and put it to use in our store to benefit our customers, as well as us."

There has been business and government speculation that when the majority of us are on-line, it's possible that a class structure will develop where the disfranchised class will be the computer illiterate, who are likely to be alienated from the most average of things that society will have to offer. This could cause a major shift in the structure of our economy as a whole, not to mention the financial flexibility and stability of the individual. That's a pretty grim look at a mainly positive trend, but worth considering nonetheless, and certainly worth the trip to see your information specialist to discover if you're on-line or not!

For CompuServe membership information, dial (800) 848-8199 - and be sure to tell them The Album Network sent you!

If you would like to correspond with any of our contributors on-line, log-on to CompuServe. Once you are on-line, type GO MUSICVEN. If you wish to direct any comments to The Album Network, you can e-mail us at this ID#: 73501,107 (Holly Sharpe/Album Ntwrk).

Elvis Costello "13 Steps Lead Down"

Warner Bros.

As Elvis Costello hits his 18th year as a recording artist, he looks forward with his latest release while also turning the clock back

with its sound and musical complement.

On his upcoming album, *Brutal Youth*, Costello has reunited with former Attractions members Pete Thomas, Steve Nieve, Bruce Thomas, and friend Nick Lowe. "13 Steps Lead Down" is the first music from the album, and it does not disappoint. With sharp drumming and melodic piano and organ accents throughout the song, "13 Steps Lead Down" involves a satirical take on 12-step programs set to a crisp, uncluttered sound. The music is a spectacular return to form for Costello, who sounds as fresh and vibrant on "13 Steps Lead Down" as he did when he was just a skinny kid with a guitar in 1977.

Therapy? "Nowhere"

A&M

Most of you have already heard this Therapy? track on our CD

#42. Judging by the response we've heard on the track so far, Therapy? has taken yet another giant leap forward in their musical maturity.

From the upcoming *Troublegum* album, "Nowhere" is filled with a great guitar hook and a solid chorus, and it should be an automatic for radio. It's quick, eminently catchy and coming from a band with a following that has grown by leaps and bounds in the past year. "Screamager" cracked barriers for this band in a number of different areas, but with "Nowhere," watch those walls come crashing down.

The Charlatans "Can't Get Out Of Bed"

Beggars Banquet/Atlantic/TAG

Growing up alongside the likes of the Stone Roses and Happy Mondays in the late-80s world of Manchester, England, the Charlatans' creative energy helped spark that town's incredibly productive music scene. The Charlatans return to these shores with a new label and a fresh blast of their unique blend of blue-eyed soul and neo-psychedelia.

"Can't Get Out Of Bed" sports a sound that is alive with a wash of Hammond organ, which works with the smooth vocals of Tim Burgess to produce a sound that calls to mind some of the finest moments of Squeeze. Tight production from Steve Hillage pulls it all together into a big sound that is guaranteed to sound great over the airwaves.

Enigma

The Cross Of Changes

Charisma/Virgin

The collage of smooth dance beats and ethereal textures known as Enigma has returned with its sophomore effort, *The Cross Of Changes*. While the band's name suggests mystery, this is somewhat misleading, considering the shocking success (over eight million copies sold) of its debut album, *MCMXC A.D.*, and the hit single "Sadeness Part 1."

Enigma mastermind Michael Cretu, a native of Romania, charts new ground on this release, straying from the Gregorian ideas of the first album into more modern orchestrations. He continues to ride the line dividing pop and ambient dance ideas, melding drum programming with the lush tones of female vocalists, soulful guitar solos and sparse sampling (including an uncredited sample of Robert Plant screaming "bring it back" from Led Zeppelin's "Battle Of Evermore").

Enigma's appeal is unmistakable, as is evidenced by its popularity with the public and filmmakers, who have used their material in such pictures

as "Boxing Helena," "Single White Female" and "Sliver," which featured *The Cross Of Changes* track "The Age Of Loneliness (Carly's Song)." A number of forward-thinking

stations, including KROQ, have already jumped on the first single, "Return To Innocence," in anticipation of a similar success story this time around.

Teenage Fanclub

"Escher (Up And Down)"

DGC

Anyone who's ever seen the work of artist M.C. Escher will understand the inclusion of his name in the title of Teenage Fanclub's latest single. As with Escher's detailed artwork, Teenage Fanclub incorporate a circular feel into their pristine pop songs (remember "The Concept"?). "Escher (Up And Down)" is no exception, with its flowing sound and mellifluous vocal harmonies, which cast the track into a state of pop euphoria. While listening to this song, bear in mind that beyond this and "Hang On," the first single from *Thirteen*, lie a number of other equally resplendent tracks that deserve your attention. Don't pass by the Fanclub, which is easily one of the brightest pop acts around.

Angelfish Angelfish

Radioactive

Slicing through the fog of their homeland, England, come Angelfish and their debut self-titled album. Fronted by Edinburgh native Shirley Manson, Angelfish's combination of dynamic, Stooge-ian guitars, seductive harmonies and passionate vocals caress you like an iron fist camouflaged with lace gloves. Shirley's voice embodies the paradoxical nature

of Angelfish's music as it simultaneously is sultry and powerfully vibrant, creating the album's irresistible, yet disconcerting atmosphere.

Commencing with "Dogs In A Cage," Angelfish draw you through heavy, celestially adorned melodies supported by elusive undercurrents of pop. "Heartbreak To Hate" (the first single) exudes a forlorn emptiness augmented by painful guitar wails, but it's given a softer regretfulness through Shirley's empathic and soulful vocals. In contrast to "Heartbreak To Hate"'s low-key sense of loss, "Mummy Can't Drive" owns a turbulent urgency in its rumbling groove and demanding beat. Angelfish's popified stylings will entice you, then take a bite out of you with their aggressive hooks. Highlights from *Angelfish* (in addition to the tracks mentioned) include "Suffocate Me," "Sleep With Me" and "You Can Love Her."

The Greenberry Woods

Rapple Dapple

Sire/Reprise

Hailing from Baltimore, The Greenberry Woods play light, airy guitar-pop melodies which exude a cleansing freshness, a la The Byrds and Big Star. Their debut album, *Rapple Dapple*, bubbles with smiling harmonies and comfortable emotionality with a graceful, fluid ease. "Trampoline" (the first single) has surprised many with its massive and growing appeal. "Trampoline" is just the first taste of The Greenberry Woods' cornucopia of pleasing pop delights. Other tracks that will infect you with The Greenberry Woods' happy bug are "#37 Feels So Strange," "Oh Christine," "Adieu," "Nowhere To Go" and "That's What She Said."

Jello Biafra And Mojo Nixon

"Will The Fetus Be Aborted?" b/w "The Lost World"

Alternative Tentacles

Yippee-ki-ay, motherfuckers, it's another musical masterpiece courtesy of Jello Biafra and his latest partner in crime, the inebriated-savant Mojo Nixon. Lyrically, "Will The Fetus Be Aborted?" (a different version than on the album, *Prairie Home Invasion*;) b/w "The Lost World" (not on the album), are classic Biafra; his sardonic wit and cynical mistrust of our beloved elected officials is as cutting and dead-on as it was 14 years ago on the Dead Kennedys' debut album, *Fresh Fruit For Rotting Vegetables*. Musically, the 7" single is a departure from Jello's punk roots, but it's pure Mojo Nixon. Mojo's unmistakable brand of crazed, drunken rockabilly/blues do-si-dos (with maximum Mojo hysteria) fuel the fiery litanies of Jello. This kind of purposeful insanity is rare in nature and rarer still in the non-threatening, inoffensive, complacent world of today's music. If you want a shot of the real stuff, this is it, friend. Jello and Mojo are perfect complements for each other and would make a hell of a ticket for the 1996 presidential campaign. They got my vote.

RAWk

Okay, let's get one thing clear: Even though I received more than 50 calls last week requesting **Motley**, **Soundgarden** and **Pantera** dubs, I DIDN'T MAKE A SINGLE COPY (**John Nagarya**, if anyone would've gotten one, it would have been you, Crue-head from hell). After two and a half years of tip-sheets fucking with the system, you'd think the industry would get the joke....

You can add another log to the awesome advance cassette library here at Club RIP: **NINE INCH NAILS!** (NO, YOU CAN'T HAVE A COPY!) The album's called the *downward spiral*, and it is every bit the **Trent Reznor** genius post-nuclear techno rock monster those in the know have long awaited. There is no more enigmatic band in existence than **NIN**. Their fan base runs from the college and metal undergrounds to the now mainstream **KROQ** pop-alternative - and that base is Platinum-size HUGE.

Yet, they still scare the shit out of RAWk and Album Radio. I had a show for 18 months and not one week went by that I didn't play either "Head Like A Hole" or "Last." But did that influence my affiliate stations? Guess again. Even the forward thinking **Tom Barnes** thought **NIN** was too much for his iconoclastic format. This mentality will inevitably change with the release of *spiral*. Like with **Danzig**, radio will discover there is nothing to fear but fear of programming itself. **Trent's** fans are voracious. The phones will tell the story. My prediction: This album opens Billboard Top 5 and sees one million units by Memorial Day. So let it be written....

Congrats to the super **Sass Jordan** on her mega debut week at radio, and kudos to RAWkers like **KIOZ** for jumping on the smoking "High Road Easy" out of the box. By

FRIEND TO ALL

the way, GREAT party at The Viper Room to ignite the **Sass** locomotive. I drank \$85 a shot, 100-year-old "Louie" and made peace with **Rockin' Peg**. Who could ask for more? Between manager **Lisa Janzen**, MCA/Impact's newfound marketing muscle and CAA's marvelous **Mitch Rose**, **Sass** is gonna have a magnificent 94....

What would you think if I told you that by year's end, Columbia's **Carcass/Entombed/Obsessed** trio could very well accumulate one million units combined, just on the strength of Metal Radio and touring alone? Call me kooky now - call me Nostradamus come Xmas...There's a new shark in the Zoo. Yes, folks, **Jack Russell** and **Great White** have just been inked by Zoo-keeper **Lou Maglia**. Munch, munch...Speaking of Zoo, I had a most pleasant lunch last week with **Hanna Bolte**

and marketing mastermind **Brad Hunt**. To say that this label is the shit is the industry understatement of the year. BMG, how lucky you are....

My young compatriot, **Greg Sorrels**, insisted I listen to the new **Wargasm** album, *Ugly*. I obeyed his passionate plea and lemme tell ya, this record is crushingly cool. I haven't heard such clean machine gun riffing since *Ride The Lightning*...**Guns N' Roses** shot the video for "Since I Don't Have You" last week in LA, which, upon airing, will no doubt add much sauce to the *Spaghetti*. **Axl's**

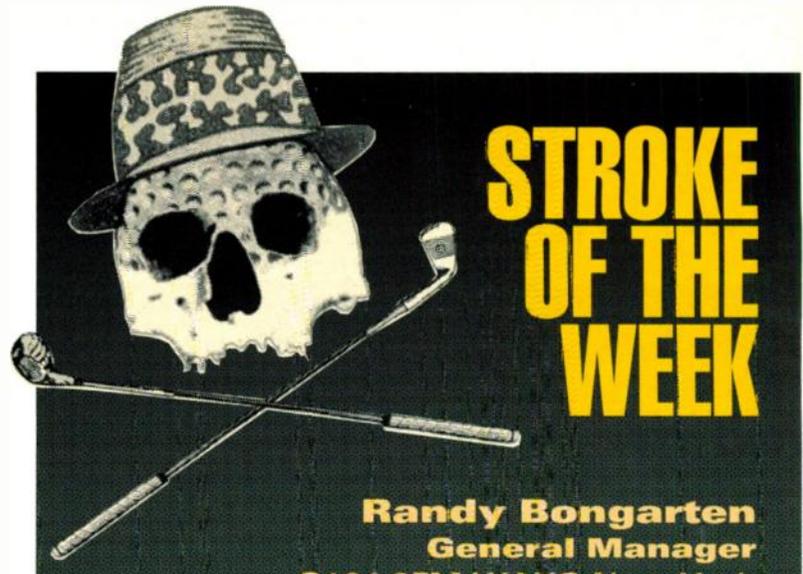

new **Guess Jeans**, drop-dead gorgeous, Amazon damsel, **Jennifer Driver**, stars. Whoa!...I'll be in New Orleans for **Mardis Gras** to check out **Geffen's** new buzz band, **Sugartooth**. Hope to see some of ya there....

"This is the most awesome, relentless band in existence," gushed Atlantic's **Lea Pisacane**. "They're gods!" Now, who was she canonizing? One of the heavy hitters from her prolific label? Not! Try **I Mother Earth**, now "Sonic"-ally raging on New York's **Q104** and MTV's "Headbangers Ball." Hey, folks, this is the killer track from the album. Let it spin...Lonn's **Seismic Shredders**, the third in our fabulously successful series of RAWk CD TuneUps, is a done deal, and your response was tremendous. This earthshaking collection of titanic tunes will hit your desk on February 28. We're contributing a portion of the proceeds to the Southern California chapter of the Red Cross. Thanks for making this one so easy....

A final off the wall thought: It's always bugged the shit out of me how clueless label geeks with lackluster track records seem to leave one gig only to land somewhere else with a beefier title and a fatter, six-figure salary. Upwardly mobile failures make me puke. Anyway, it appears that the offensive coordinator of arguably the worst team in the NFL, the "Lose" Angeles Rams, **Ernie Zampese**, is headed for a new job as offensive coordinator of two-time Super Bowl Champions the Dallas Cowboys. In the words of the immortal **Wayne Campbell**, "Excuse me while I hork!"...Friend out....

Randy Bongarten
General Manager
Q104.3FM-WAXQ New York

One of the really positive signs at RAWk Radio recently has been the emergence of Q104.3FM in New York and their desperately needed "pure rock" format in one of the country's largest markets. We wanted to salute General Manager Randy Bongarten as our Stroke Of The Week, and he was kind enough to pick up the phone to give us some insight on how they got the station off the ground, and reflect on the spotlight the station is under. Our first question to Randy was, do you think a lot of people are watching the station closely? His response was right on the money: "Don't you?" he queried. Absolutely, because we feel there is an incredible need for new, adventurous, heavier RAWk stations. So how did New York's Pure Rock station get a leg up in the vital Tri-State area?

"First off, we did some research," Randy confided, "and found there was an opportunity in the marketplace, and we wanted to take advantage of it. In conjunction with Joint Communications and our parent company, we were able to get going." What kind of response has the mighty Q seen so far? "It's going great, the phones are ringing," Randy said. "A lot of people have heard us. We have a real good signal and we're Pure Rock seven days a week. Our playlist ranges from Aerosmith and AC/DC to Metallica. We also are on Nirvana, Pearl Jam, Stone Temple Pilots...we're playing whatever songs we think are hits. We've only been on the air six weeks and the record companies have been very responsive and cooperative." They should be, because getting the best RAWk bands on the air is a great concept. We're wishing Q104.3FM all the best. Turn it up!

Sepultura "Refuse/Resist"

Epic/Roadrunner

The heartbeat of Max Cavalera's son that starts off the album and the song "Refuse/Resist" is a distinctively power-

ful tool employed to convey a message. So are the brutal riffs and the succinct and alarming lyrics that signal the band's concern for mankind's intent to self-destruct. New life is such a sign of hope, war is the ultimate symbol of death. Sepultura's crushing form of metal has grown so much over the years and this is a prime example.

there is a smorgasbord of rock flavors to indulge in here. "Hellbelly" is a catchy ode that attacks evangelical religious types. "Stop It You're Killing Me" begins with the line "The world is fucked and so am I." These are just a couple of tracks from a collection of several songs that should keep Therapy? on the airwaves for months.

The Big F "Mother Mary"

Chrysalis/ERG

"Mother Mary" reveals yet another side of The Big F and their album *Is*. A soft, surreal approach that's embellished with some very tasty guitarwork sets a powerful mood for

history is legendary, through his work with the Tygers Of Pan Tang, Thin Lizzy and Whitesnake. The first single, "We All Fall Down," is a ripper and his cover of the Small Faces' "Itchycoo Park" works well. "I'm On Fire," the only song John doesn't sing, features Kelly Kelling (ex-Baton Rouge) on vocals, and it smokes. There is one common denominator on *Nothing But Trouble*: No matter where you are on this disc, it's only moments before John starts to really burn on his black Les Paul.

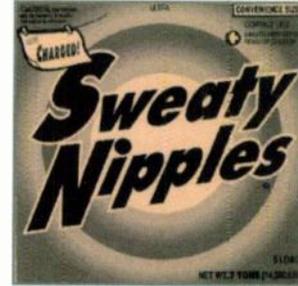

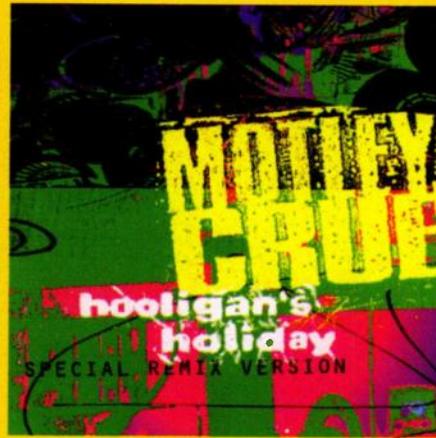

LONN LOVES IT!

MOTLEY CRUE

"Hooligan's Holiday"

Elektra

After five long years, the Crue have finally returned with the follow up to 89's *Dr. Feelgood*. What we have here is a new, improved, 90s version of Motley. Gone are the days of whiny, wimpy vocals as the former singer of The Scream, John Corabi, has put the big ol' boot in blondie's butt. "Hooligan's Holiday" is the first single, and it's a huge departure from the sound normally associated with the Crue. The "Derelict Vision" mix is an industrialized Crue on acid that must be heard (play it and see if your listeners can guess who it is). Beefy guitars, real vocals and an updated sound have the Crue right where they wanna be.

Sweaty Nipples

"Demon Juice"

Megaforce

Although the CD booklet looks like a detergent box, there's hardly anything soapy or clean about *Sweaty Nipples*. The first track, "Demon Juice," has the feel of a sweaty T-shirt that has done some serious pit time. This "load" (Nipple slang for "song") bursts out of the speakers with rattling riffs and supercharged energy, ensuring that this Oregon band

Eleven

"Let Down (Left Out, Laughed At)"

Third Rail/Hollywood

One of the real charms of Eleven is the band's ability to take the basic structure of a three-piece and keep it all organic, but still make each song a distinct experience through their creative use of different instrumentation. A Middle Eastern melody at the beginning of "Let Down" continues to lurk beneath the more powerful guitars and angry vocals, helping the band maintain a tense, mysterious aura that is compelling.

"Mother Mary," the lyrics of which carry an even deeper message. If "Wicked" was your "thing," then try "Mother Mary" for continued education of The Big F.

will get some needed attention.

The Spudmonsters

Stop The Madness

Massacre

As soon as you check out the cover of The Spudmonsters' album, *Stop The Madness*, you will want to hear what these guys are all about. Anyone who shows some mutants holding up the decapitated heads of Vince Neil and Axl Rose deserves a good listen. Upon further examination of The Spuds, you'll find an aggressive, almost punkish band reminiscent of early Anthrax. With 17 tracks to choose from, everyone should be playing The Spudmonsters by now.

Lucy's Fur Coat

Jaundice

Relativity

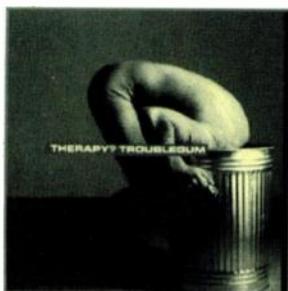

One of the new, well sought after bands from San Diego, Lucy's Fur Coat, is famous for the outrageous antics of their frontman Charlie Ware and their pugnacious live shows. That same vital energy is captured on 12 songs from *Jaundice*. The opening track, "Treasure Hands," has been singled out for immediate attention, and rightfully so, as it rips. Ware's distinct vocals have an urgency and style that will probably make him a focal point for years to come.

Shootyz Groove

"The Craze"

Mercury

For those of you who were not paying attention, here's another chance to be real funky up by Shootyz Groove, a band that had the balls to do a live EP as their major label debut. The heavy-handed verbal interplay between "verbal flows" (rappers/singers) Sense and Season is intense, a bit in your face and right on the guitar beat. But this is only the tip of the iceberg; a full album will probably more righteously expose the talent in this band, but "The Craze" slams for now, and it should be checked out.

CRYPT KICKER

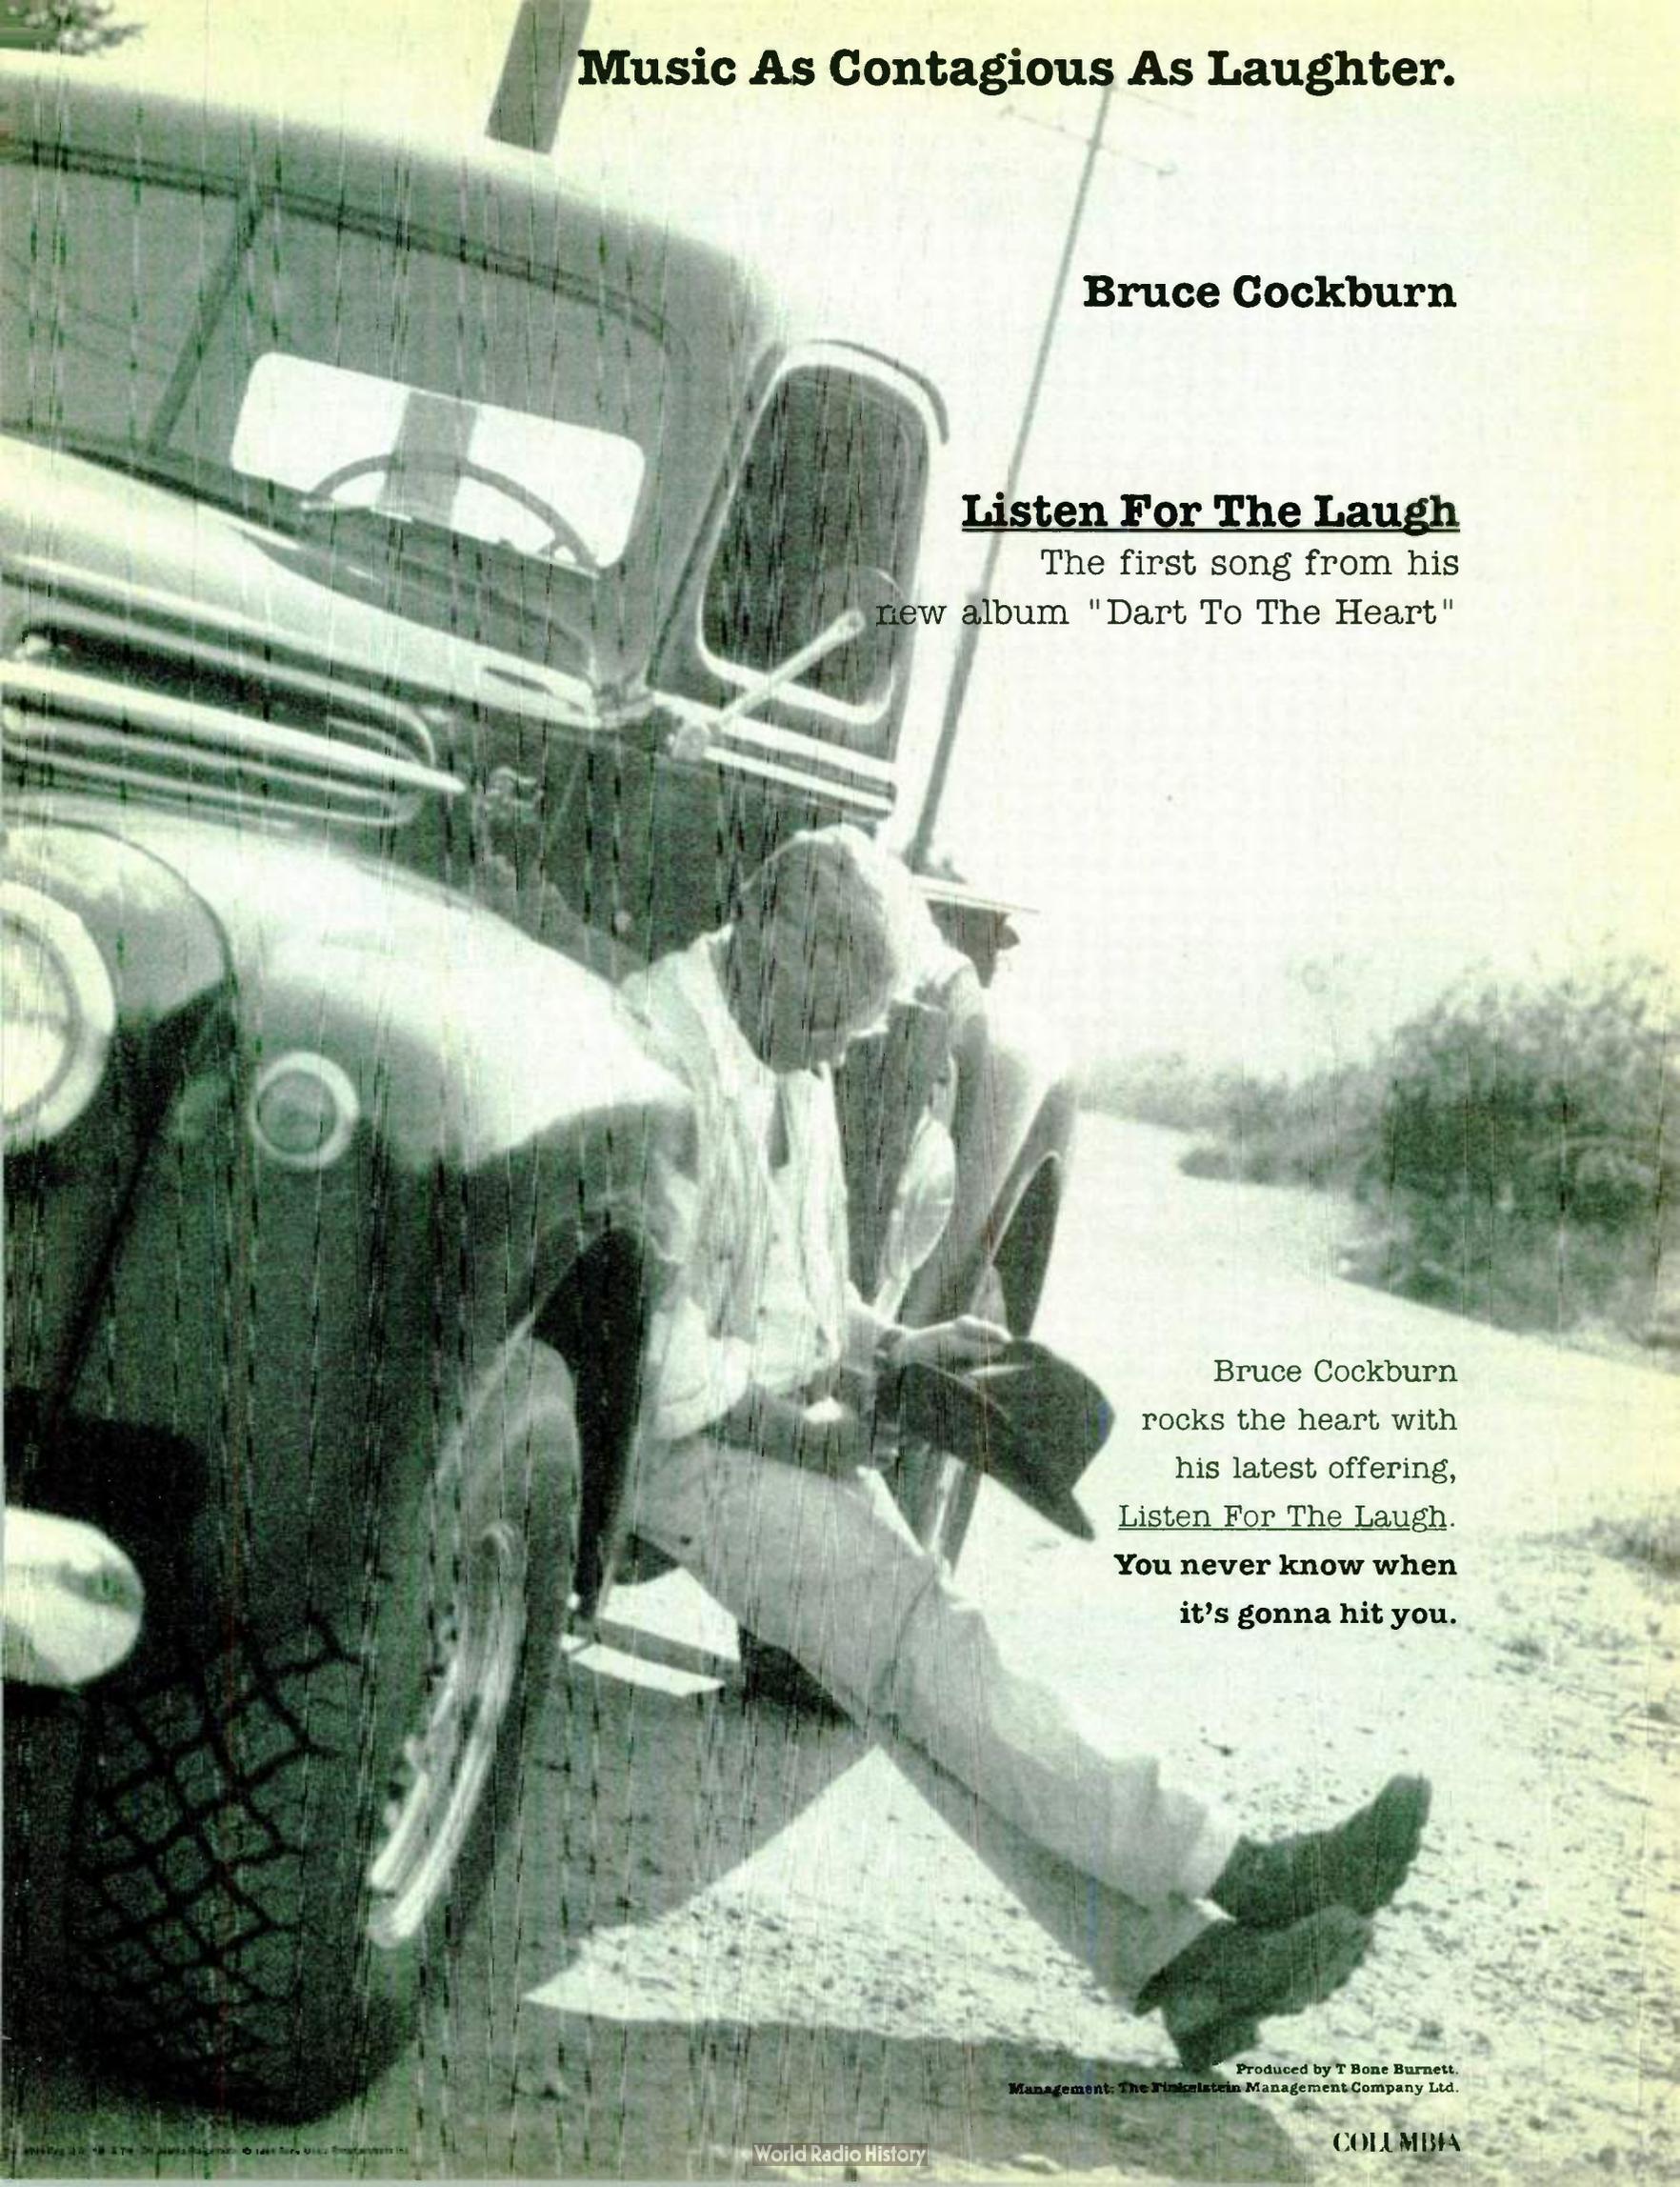

Oh man, this is so fucking cool! What is the next big thing? Wargasm! Wargasm! Wargasm! Yeah boy, this is the shit and it has been a long time coming, too. *Ugly* is the name of the Boston-bred trio's second album. Their first record, *Why Play Around?*, was released in '88 to some critical acclaim but due to legal problems the band was unable to release a new record until now.

The music on *Ugly* is timeless, guitar-driven, down-your-throat heavy dementia. Most bands could learn a lesson or two from Wargasm with their ability to mix it up with slam-it-down rhythms and forget-me-not melodies and choruses.

Songs worthy of a "disturbing the peace" violation include: "Enemy Mine," "Chameleon," "Ugly Is To The Bone," the first single "One Man Army" and "Spirit In Decay." Make sure to dig deep on this one, though, because it's an extremely cool record from start to finish.

Martinis & Bikinis
VIRGIN

Singer/songwriter Sam Phillips is always questioning and redefining her belief system. She began her career as a Christian recording artist for A&M's gospel crossover label, Word Records. During this time she enjoyed considerable success calling herself Leslie Phillips. For the recording of her final record on Word, *The Turning*, she teamed up with T-Bone Burnett as producer. It was here they began to develop a relationship that eventually culminated in their marriage. It was T-Bone who guided her to Virgin Records and her career as Sam Phillips. Their professional collaboration continues to this day, as T-Bone produced this third secular release, *Martinis & Bikinis*, plays on it and even wrote a couple of the songs.

Definite influences are at play here; musically by the 60s British Invasion, philosophically by the Great Poets she often reads and spiritually by her own personal quest. The six-song sampler you should have just received gives you a good idea where Sam is at today. The songs radiate a feeling of optimism about life and knowledge that we must find balance between our inner and outer selves.

Several guest musicians were involved to help make every song on this album sparkle. They include Mickey Curry, David Mansfield, Colin Moulding, Jerry Scheff, Peter Buck, Van Dyke Parks and Benmont Tench. Phillips' vocal delivery has never sounded better, especially on "Baby I Can't Please You," "I Need Love," "Circle Of Fire" and the John Lennon-penned "Gimme Some Truth."

2ND VIEWING

UNCLE TUPELO *Anodyne*

SIRE/REPRISE

This hard-to-define band from Belleville, IL, has been around for over seven years. They emerged from the punk rock scene, but their musical stance has evolved

considerably since then. *Anodyne* represents the diversity the band now possesses. From the country-tinged "Slate," "Acuff-Rose" and "Anodyne" to more straight-ahead tunes like "The Long Cut" and "Give Back The Key To My Heart," you will easily grasp how they blend instrumental intensity (it seems they can play just about every instrument known to man!) with emotional songwriting to create an honest sound. In fact, the entire album was recorded live from the floor at Cedar Creek Recordings in Austin without any overdubs. It was produced and engineered by Brian Paulson (Slim Dunlap, Joe Henry, Unrest).

Several Adult Rock stations have recently rediscovered *Anodyne*; you should give it another listen, too! By the way, look for a special CD sampler that contains "The Long Cut" and five live tracks coming soon.

The Clash's *London Calling* was THE album that changed my life. When I got turned on to the Ramones, I was a goner. Maybe that's why I like *Bad Religion*. "Struck A Nerve" received heavy airplay on KOCD, based primarily on phones and sales. Those familiar with the band are PLEASED to hear them on the air; those not familiar, including myself, just think it's COOL. I anticipate the same scenario from "American Jesus," but what am I but a 30-year-old female who's supposed to feign an ongoing interest in Bruce Springsteen. Yeah...right. Also showing butloads of interest: Greta, King's X, I Mother Earth and White Zombie. With 32 spins last week, Alice In Chains is easily our #1 request; and please! This is not a "deparure," this is an "extension" and quite simply, a lesson in music appreciation. Finally...The Connells. "74-75"...so pure, it floats.

Jon Nardachone

If you rock hard...I mean, if you really ROCK HARD...you'll love "Lizzy." "Lizzy" is the new Melvins track which just shipped to Hard Rock Radio in the form of a maxi-single. Also featured are three non-CD cuts for the extra strong-willed! Melvins are in the midst of a juant with Rush and then they'll head to Europe with Nirvana. King's X with Scorpions and then Pearl Jam on the road in the US. Killer punk rockers Jawbox hit the highways, as well as Unsane! Coming soon: Surgery, Pantera, Godspeed, Rust, The Crow soundtrack...counting the days till the releases of new Rollins, Kyuss, Zakk Wylde and Quake Rock 94.

KIOZ

A big thanks to Trish at MCA for setting me up for Sass Jordan's listening party at The Viper Room. What a party! Sass' Rats CD rips. "High Road Easy" is not the only great track. The Rush/Candlebox show is here tonight. Can't wait to interview Geddy Lee! Then Candlebox will bip over to our studios to do "Rockline." How fun! Danzig is our huge request record of the moment. (Hey, there's an "alternative" record!) The new Dio record is not bad. "Evilution" sounds great on the air. Blue Murder is cool, too. Wanner, Alan, "Sharon rules!" See you all at Gavin. Call me and invite me to all your groovy convention parties!

Enough snow already! As I write this, New Jersey is getting dumped on with another foot of snow. Old Man Winter can bite me! On to happier things...remember the first time you heard the name 10,000 Maniacs? The music was nothing like you would expect from a band with that name. Same goes for Fury In The Slaughterhouse. "Every Generation Got Its Own Disease" is a tremendous song. The album is surprisingly strong also. Get past the name, and get it on the air. The Furies are the best thing to come out of Germany since Nena! I was listening to Candlebox at home the other day, and "Far Behind" just jumped out at me. What a tremendous tune! Cathy Faulkner was right on the money with this one! The new Elvis Costello is sheer brilliance! Sheryl Crow gets a bump this week as she pulls down #1 phones. I'm looking forward to hearing the new Pink Floyd. If it gave Jim Del Balzo goosebumps, it must be good. By the way, this may just be a rumor, but I hear the corporate sponsor for the Floyd tour is going to be Depends. As always, it's been a business doing pleasure with you.

Mike Luoma

WIZN

This'll be short...I'm writing this Monday night (2/7), and a couple of my friends from Phish are jamming at Nectars; I've got flashbacks to attend to! I've been hearing good things about their upcoming album; I can't wait to actually hear it! The only add this week goes to Raging Slab, with "What Have You Done." Corm's letting me run with this one; he felt the project might be over, but he's willing to give the Slab the benefit of the doubt, since he knows I believe in them. 'Course, it doesn't hurt that the song kicks ass! "What Have You Done" was on the six-pack of Slab we got almost a year ago. It blew many of us away then. It's about time the track gets the push it deserves.

This is the heavyweight contender on *Dynamite Monster Boogie Concert!* The tune gurgles, grunts and slides along, with nice changes that grab your gut and flop you down like a roller coaster. Gotta like it! Plus, having seen the Slab bring down the *Dynamite Monster Boogie* live a couple of times, I have to say that "What Have You Done" really captures the band's live verve and energy. Don't count out the *Dynamite Monster Boogie Concert* just yet: Great songs take time, like good wine. So sip some Slab, slip it in your CD player and crank it up! Speaking of cranking, every once in a while, our metal dude, Mike Wilhide, comes through. This time, he's passed on to us "mainstream types" the new album from the sons of Frank (known as Z): *Shampoohorn* features Ahmet Zappa on vocals and Dweezil on guitar. We've put "Loser" in our jock choice category to give it some night spins. It's a cool tune...we'll see what happens.

Matt Young

Earache Records

Pitch Shifter! *Desensitized* is the record. Pay it! The tour with Carcass starts in March (a true test of patience). Soon, my friends, soon! *Blood From The Soul's "Image And The Helpless"* should be played all over Metal, Punk, Industrial, Hardcore and Alternative Radio! It breaks all stereotypes. Educate your listeners! Old's "Happy Tantrum" is the song for you! Can you say, "before their time"? Scorn's radio song is #9, "Scorpionic." You will instantly recognize it! Play it! Meathook Seed's video for "Famine Sector" is at MTV. Spin the song and remind your listeners how cool it is. Sleep is winding down the *Hawkwind* tour and jumping right on with some metal! The video for "Dragonaut" is also at MTV. The radio song is #5, "Aquarian." Buying a car sucks. Nothing is easy. God bless Earache!

Comelia

Taang!

Godstar is back with even more great songs, their EP "Lie Down Forever" should be in the mail slot this week. The original version of "Kitchen," which Lemonheads covered on *It's A Shame About Ray*, is the third track of six - definitely a novel track. Spore's full-length, *Giant*, is a more mature and complex record - if I had a nickel for every time I have listened to this advance cassette, I wouldn't be needing a rent control, 1970s apartment. In other words, you can't easily get sick of *Giant*; listen carefully, you will be rewarded. If you're a Lyres fan, you're psyched. If you don't really know much about 'em, *Some Lyres* is the best place to start. This is a collection of their greatest songs and outtakes on one record, and the cover art is a great collectible - *Some Girls, Some Lyres* - that's all I'm gonna say. At last, Sam Black Church is hitting the road. Jet's hernia is quickly mending, and he will again be ripping himself apart on-stage beginning in late March. I'm gone.

Lea Pisacane

Atlantic Records

See, I had all these records to talk about, like, there's this radically hip *Bad Religion* record, "American Jesus," and you know how the hip factor of whatever is majorly upped by "Jesus" in the title, but they didn't even need that, 'cause what happens when you're together 10 years, playing 651 shows a year? You either break up or become so tight you can bounce a quarter off you, and the latter is what happened to *Bad Religion* - just go see 'em and you'll see. You'll also see why this band influenced everybody in every garage and every basement in every town in America for the last 10 years. Plus, there's the gods King's X, whose "Dogman" is making listeners dial the phone and say, "What IS that cool sounding song, ferchissake?!" Plus, there's these Lemonheads, won't stop selling no matter what other records are out there competing for the grubby American dollar. Plus, there's the Screamin' And Yellin' And Holerin' Cheatah Wheelies, who just simply ARE THE SHIT, and if you wanna come without touching yourself, RUN to the nearest sweaty club, 'cause they'll be there.

Plus, there's the GODS who are Geddy, Alex and Neil, and "Nobody's Here," and never has a more timely, more personal, more powerful Rush song been written. And y'know, when you're tripping on, like, mescaline or something, and it's been about four hours since you dropped it and you're starting to plateau out, but then you take a toke or two of some really awesome reefer that some guy in the next dorm got in Denver or somewhere and all of a sudden, you're on this major upward swing of highness and you've forgotten all your last-minute term papers for another eight hours? Well, that's exactly what this Rush tour is doing to your life. (What-samatter? You don't get the analogy?) But I can't talk about ANY of these great and wonderful bands on Atlantic Records And Fine Tapes, because the BIG, GIGANTIC, TREMENDOUS, HUMONGOUS, EARTH-SHATTERING news concerns TORI AMOS! Not only, my

dear friends, did she debut on national Soundscan at #12(!), but *Under The Pink's* debut in Boston, Providence, Baltimore (Mott-laaaaa!) and Buffalo was #1! NUMBER ONE! We're talking one. One. I'm not sure if you realize that it doesn't get any higher than that. And, in New York, LA, Chicago, Philly, San Francisco, Atlanta, Seattle, Salt Lake and more that I better not mention, because, Jesus Christ, they're definitely gonna edit me already, she's TOP 5 and TOP 10! Nothing matters but that people adore her and buy her albums and want to commune with her music and her emotions in the darkness of their tapestry-strewn, dimly-lit abodes where, hopefully, they're having sex.

Carter Alan

WBCN

Concrete Blonde's "Mexican Moon" continues to build in New England with a hit single that has won solely on the strength of its haunting, acoustic-based nature and smooth, silky female vocals. After nine weeks, the track is our top request. Originally an album selection for WBCN, it's good to see Capitol "work" this as the latest single. Also performing strongly, although a bit later than around the rest of the country, is Rush's "Cold Fire." After a period of slackened interest through the late 80s, the last two Rush albums (*Roll The Bones* and *Counterparts*) have re-ignited album and ticket sales for this veteran group here in New England. Two upcoming arena sell-outs prove the point. The *Stone Free - A Tribute To Jimi Hendrix* compilation has given WBCN several hits (Clapton, Beck and Spin Docs), now add Belly's "Are You Experienced" to that list. The hard rock blast of the performance and the familiarity of the song firmly pull this band out of the alternative closet. When it comes to covers, I should also mention the excellent Ramones album, *Acid Eaters*. These guys have been around long enough to be called classic rockers! The songs are proven winners - The Who's "Substitute," The Stones' "Out Of Time" and an Eric Burdon delight - "When I Was Young." The punk meets the godfather? You bet, and it's definitely spicing up the airwaves.

Scott Douglas

Virgin Records

On the road this week with Brother Cane on tour with Aerosmith. Can't wait to get back to New Orleans...should be crazy. Airplay doubles on Brother Cane this week. "Hard Act To Follow" is obvious. Cracker is beginning to crack the Top 5 this week. This record will not burn. It just won't. Lenny Kravitz is perhaps receiving more media exposure through the "Reality Bites" movie trailers than any other current artist. "Spinning Around Over You" is a track that only you own. Lenny Kravitz is your artist. Colin James can flavor your midday or morning music logs with some fun reaction music. And, don't forget that Smashing Pumpkins' "Disarm" is officially ready to add on 2/21. Many stations are beginning to get the buzz. Two million in sales. C'mon! Iggy Pop's "Beside You" will arrive soon...you'll be pleasantly surprised. I'll save space till next week...that's the Scott Douglas show....

Chris James

WTPA

Here we go...the third track from the Badloes! It's the local band that won't go away. This, hopefully, will be the one to finally get one of the hottest damn bands, period, signed. Check out "Laugh To Keep From Crying." Looking for that real record with honest to goodness lyrics and a blue collar feel...whoop, here it is. The other biggie of the week: The Meat Puppets. Can you believe this one? Here's the shot of springtime in this winter of hell. This better be #1 by the start of spring. Finally, just to give fair warning to the Melissa folk, we are going to do "Silent Legacy" next. It rocks, and it's the best damn song on the CD.

Don't even listen, just put the record on the air and watch the phones light up. This Valentine's Day (Monday) is the add date for "Oh Life (There Must Be More)" the second Alan Parsons track from his new album, "Try Anything Once," which has already sold over 150,000 units. rock reporters in, including **WDRE**, **KDGE** and **The Point**. (Remember, **Crash Test Dummies** started out at radio just like this.) **"Possession"** belongs on Rock Radio. Be sure to include this on your alternative and/or new music feature shows. Also, be aware that **Chapterhouse's "We Are The Beautiful"** debuted on the modern rock chart at R&R at #27* this week. **WJRR/Orlando** (just rock n' roll) is already playing this track. They are the first AOR to recognize the crossover potential. All of these bands are on tour, so please be sure to see them.

Just arrived in LA six weeks ago, and it has been one shock after another. And I thought you had to be tough to live in Chicago. But there is a reason I'm here. I am the new National Director of Promotion for the adult Album format for **Reprise** and **Warner Bros**. I have been able to reach most of you by now, but if I haven't spoken to you yet, please call me at (818) 953-3713. This is a great format and I am very excited to be part of it. I have already spoken to so many great people who love and respect music and artists. It doesn't get much better than that. **Reprise** is truly starting the year off right with the new release from **Kristin Hersh**. We had a major add week at radio, with big moves on the charts. **Kristin** is on the way to establishing herself at this format. **The Waltons** also continue to build a story. Most stations that are playing this are increasing the rotations very quickly, so all we need is to get this on the air and it will prove itself. **The Bodeans** will not go away. Stations want to keep adding tracks, and we suggest **"Idaho"** and **"Closer To Free."** Inch by inch, step by step, we get stations every week on **Uncle Tupelo**. The sales stories in those markets are instant. **Uncle Tupelo** is the future, and if your CD has cobwebs, clean it off and relisten to **"Slate"** and the long cut. On the **Warner** side - Happy Valentine's Day! Instead of flowers, we are sending you something much better - the first track from **Elvis Costello And The Attractions'** new album, **"13 Steps Lead Down."** We go for adds on Valentine's Day. Ciao.

?!?!?! The question mark with an exclamation point, now, folks! **"Knives"** is the first blast of bloody knuckle Irish rage from the new **Therapy?** full-length, **Troublegum**. Due to a tectonics malfunction we experienced recently here in CA, **Therapy?'s "Knives"** AND **Troublegum** adds are slated for this Monday/Tuesday the 14th/15th. You've got new **Damn The Machine** tracks and the ball is rolling again! **"Silence"** is pulling in phones and the machinization of **"Cat Food"** rocks hard. Pick your criteria and do the right thing. Get your entries in now for the **DTM** jacket contest! Soon you will experience the depths of the **Superunknown**. **"Spoonman"** is the first facet...did I mention double-colored gatefold vinyl with an extra track?

It's Tuesday evening once again. Where does the time go? I could swear I was just sitting here the other day typing my comments, wondering what time I'll eventually get out of here only to return tomorrow at an ungodly hour. Tuesdays are getting predictable. This is scary. **Varga** was the #1 most added record this week at Metal Radio. Thank you, thank you. I love when that happens. **Course Of Empire** hit the road soon with **Machines Of Loving Grace**. Please spend some time with **Initiation**. There's some really great stuff on there, like **"Gear," "Breed," "White Vision Blowout"** and, of course, **"Infested."** The new **Tool** video for **"Prison Sex"** is unbelievably amazing. Even more so than the one for **"Sober."** It will definitely get your attention....

I think it's a very exciting time for the format - the music is some of the best in the last few years, and Rock Radio is breaking bands! There is so much exciting music, how do you play it all?! Thanks for the amazing run on **Counting Crows!** It's definitely going #1 soon, if not already, and there appears to be no burn - the album is doing huge numbers at retail - check your Soundscan - Top 10 - 70,231 this week! And there are at least four more monsters on the album! **Nirvana** is also a huge track at the format, and it seems to be testing very well! **Aerosmith** continues to kick and is selling the **Beavis & Butt-Head** album! Everyone playing **Blue Murder** is telling us the same thing: Immediate phones and **KUFO** is already getting good early research. Top 5 phones at **KBER** and **KEZE**. I think we got one here - give it a spin or two to see how it sounds on the radio. We're now officially Platinum on **White Zombie** - thanks to Rock Radio! And, we've re-entered on the BDS Top 40 at #39*!

Have you listened to **Beck?** Not **Jeff Beck**, **BECK**. Huge at alternative and #1 phones at **WXTB**, **WRZX**, **WMMS** and **WDIZ!** Don't count this one out - you won't be able to get the hook out of your head! Watch out for a brand new **Sammy Hagar** track that rocks, and it's a smash! Coming around March 1. It's the first of two brand new songs, it's called **"High Hopes"** - from a forthcoming greatest hits album titled **Unboxed!** Also, be on the lookout for **Sugartooth** - I love this record, and we're committed to it! It's going to be huge! Please give it a listen! **Zakk Wylde** is coming in April, and it's the shit - get ready for a killer debut! Not to mention new tracks from **My Little Funhouse**, **Duff** and **Pariah!** Our plate is definitely full. In hot rotation on my CD player in my car: **Crash Test Dummies** (this one is going to be huge!)

I'm jinxed! I managed to go on my first road trip since becoming a New Yorker and upon my return, what do I get, a foot of snow! Oh well, I'm learning to use these Yankee shoe condoms and with careful footing, find the subway. I do want to thank all the fine radio folks in North and South Carolina this past week for making me feel like a Southern boy again. Speaking of the South, **Atlantic** has just signed **Collective Soul**,

The rumors of my demise
have been greatly exaggerated. . .

THE CRUSADES

an amazingly talented band whose debut track, "Shine," has impressed several stations in the South. Breaking out of Orlando at WJRR and WDIZ, this record has sold second only to Pearl Jam in that market. **Tim Travis** from **WDIZ** tells me the record is #2 at night and Top 5 requests during the day. Look for us to officially solicit adds February 21. For anyone wanting to find out more, you can call **Tim Travis** at (407) 682-4182. Don't worry, I asked **Tim** before doing this. He said no, then I threatened I would only give him nosebleed tickets to **Rush**, and he became very accommodating.

If you were in Los Angeles last week, you had to hear **Eve's Plum's** "I Want It All" on **KROQ** - 18 plays last week! **Kevin, Darcy and Gene** are joined by **Q101/Chicago, KEDJ, WFNX and WEQX**...**Eve's Plum** is now on the air at 27 stations...this record explodes with Top 5 phones at **KEDG** in Las Vegas. If you're reading this and you're not playing this anthem, call me and I'll give you 27 reasons why you should get "I Want It All" in rotation. **Deep Forest** continues to sell, sell, another 13,000 pieces this week...beat your **CHR** to "Sweet Lullaby." At the very least, my alternative friends, get this in a HOT recurrent spot. **Flip's "The Great Valediction"** gets early play at many stations...look out for these guys in your town: 2/12 Hoboken, 2/13 Asbury Park, 2/15 NYC, 2/16 Cleveland. Why are folks talking about **Flop**? Because they're the best power pop since the **Buzzcocks** or **Cheap Trick**. See ya till the next tremor. PS: Look out for the **Style Council**-like sounds of **Sensation** and a new record from **Peter Himmelman** on **550 Music**!

The Organization is currently on their headlining tour (**Strip Mind** and **Muzza Chunka** are the openers). The self-titled debut (with the lead track, "Free Burning") is burning up the charts. Take a look for yourself. You can catch the video on "Headbangers Ball" this next week. You can read about them in every major hard rock magazine. The point here is that there is something happening. Don't be left out. Coming in the next few weeks is the **NEW** record from **GWAR**. The lead single is "Jack The World." Headed your way in April is the new **Cannibal Corpse** record, titled **The Bleeding**. You can catch **Cannibal Corpse** currently in the #1 movie in the country, "Ace Ventura: Pet Detective." New **Skrew** in May, along with **Epidemic**. Lastly, we have had riots, floods, fires, earthquakes and, now, mud slides. Where are the locusts?

It's easy to find out how all the **Epic** rockin' records are doing on the charts! Just look at THE TOP OF THE CHARTS! **Prong!** **Sepultura!** **Fight!** Look at the top requested records! **Prong!** **Sepultura!** **Fight!** This probably means your listeners like 'em a lot! And we like that a lot! Other things we like will soon include **The Poor**, **Infectious Grooves**, **XC-NN** and the one, the only, **Alice Cooper**. More **Epic** music for YOU!

First of all, if you haven't seen **Columbia's Jeff Buckley**, put down the TV Guide and get out there. No. Really. He's going to be a star, despite the injustice of humanity and the glorification of mediocre music that we face every day. **Jeff** is worth it. So, I might add, is our own **NRBQ**. Their pristine new album, **Message For The Mess Age** hits the street 2/22. Adds at Adult Rock are 2/14 and Rock Radio is 2/28. The first track is "A Little Bit Of Bad," but the whole album is sweet. If you're going to the Gavin seminar and want to see **NRBQ** at **Slim's** on Saturday, 2/19, your badge will only get you in if it's one of the first 10 through the door, so call us for guest list possibilities.

Candlebox's "Far Behind" is on its way to being the biggest song yet on their self-titled debut. Keep an eye out for that live EP...their live version of "Far Behind" is TO DIE FOR! Should be out in a couple of months. **Tool's "Prison Sex"** and **Alice In Chains' "No Excuses"** are totally beyond phenomenal! Great phones, great reaction.

Dennis Constantine

Broadcast Consultant

Wow! A wonderful new album from **Richard Thompson**. "For The Sake Of Mary" gets this album off on the right foot. **Richard's** new album, **Mirror Blue**, is chock full of commercially-accessible music. **Richard Thompson** has such a great image; this is a perfect album

for Adult Rock stations. "The Way That It Shows" takes us through many emotions, from compassion to rage. Skilled songwriting at **Richard Thompson's** best. "Shane And Dixie" is the 90s version of "Frankie And Johnny." A fun, up rockabilly song. And "Fast Food" should be a big hit with all those who work at McDonalds. Make it a double order of fries, please.

There's a lot of diversity on the new release from the **Young Dubliners**, **Rocky Road**. "Last House On The Street" is a very good adult rocker with a strong hook. "Black And White" is also a very catchy song. **Billy Pilgrim's** debut album has a lot of strength behind the great single "Get Me Out Of Here." **Billy Pilgrim** is 40 minutes of great songs by the duo that uses a man's name to be their identifier. Many of the songs are about staying up at night and pondering the problems of the world. "Insomniac" sets the tone of the all-night worriers. I like the simple acoustic style of "Halfway Home" - a perfect song to play at the end of the work day as people are driving home. This is a very strong debut album. Reminds me of the impact the first **Loggins** and **Messina** album had when it was released, yet it's very contemporary in its sound and spirit. You really can't go wrong with any cut on this album. All right now, who wants to bet when the **Dallas Mavericks** will win another game?

Saw **Candlebox** open up for **Rush** the other night in a sold-out show at the Coliseum here in Phoenix. Watch this band...they will be huge. We're already lookin' at the next track, "Far Behind," and so far in test spins, the reaction has been real positive. Check out **Clutch's "El Jefe Speaks"** for a great night song that'll light up your request line. I knew **Mutha's Day Out** would happen. "Locked" is kickin' into high gear. And we're already thinkin' of checkin' out the song "Green." It'll make the hair on the back of your neck rise. Speaking of necks...**Prong's** latest is blowing out of the stores here in Phoenix...in some stores, it's outselling ZZ Top. My favorites on the CD are "Snap Your Fingers..." and "Test." **Alice In Chains**, **Danzig**, **Type O Negative**, **White Zombie** and **Tool** are still all kicking major fucking ass here in the desert. **Muzza Chunka's "Float"** is not a song you should ignore...it's gettin' great response. And we are looking forward to seeing them in the valley of the sun real soon! Until next time...out.

As you read this, we'll be starting into our next dog tag promotion. We'll be sending someone and a good bud (friend) off to London to check out **Paw!** Music calls are from 2-5pm Monday and Tuesday. More later. **Z Rock**...a better way to paint.

Greetings from Earthquake Central! You should have received a killer CD from an **Album Network** mailing entitled **Live Forever** - a compilation put together by **Carlos Santana**, using material from his own personal collection. It features live cuts from **Jimi Hendrix**, **Marvin Gaye**, **Bob Marley**, **Stevie Ray Vaughan** and **John Coltrane**...you'll find it on **Guts & Grace/Cohiba/Polydor Records**, and the add date is February 15 - enjoy! **Smokin' Joe Kubek** is hot - many stations come in with adds. Along with **Smokin' Joe** on **Rounder** is **Vance Gilbert**, who also had a great week. From **Antone's/Dos**, **Stephen Bruton**, **Sue Foley** and **David Halley** are still getting some heavy-duty airplay. **Stephen** and **Sue** are touring (separately), so check them out if they get to your neck of the woods. **Pat McLaughlin**, who you may remember from his **Capitol** days, is now signed to **Dos**, and his new CD, **Unglued**, should be on your desk. Listen to "Better You Get Ready," "Friendly Bird" and "It's Hard." **Karen Farr's Sistine** on **November** is still strong...check out "Shadowland" and "Winter-time"! Thanks, everyone!

Thank God for the new **Blue Murder** track! It was so great to hear some great, straight-ahead, kick-ass rock again. My audience has been asking about a new release from this band for years, and all indications show that they are very pleased with "We All Fall Down." I can't wait for the full CD. Other releases doing well on

"The Hard Show" include the new **King's X** (thanks to drummer **Jerry Gaskill** for the phoner), **Fight's "Immortal Sin"**, and the new **Dio**. I have also had great response to some of the more rockin' tracks from the new **Mr. Big** and **Saigon Kick** releases. There's already a ton of requests in anticipation of the new **Motley Crue**. Thanks also to recent "Hard Show" guests **Eric Singer** from **Kiss**, **Joe Lynn Turner**, **King's X** and **Rachel Bolan** from **Skid Row**. Once again, please remember, music calls Wednesday, noon-2pm. Eastern only. The phone number is (201) 334-3465. Talk to you soon.

Here we go, heading to the All-Star Break...and it looks like the Seattle Super Sonics are back on track; let's keep our fingers crossed! Another week of great music; check out **W.A.S.P.** on **Capitol**. The track is "Hold On To My Heart." Also, check out the **BoDeans**, **Cry Of Love** and **Rocket From The Crypt** (this one is hairy). Looks like winter has arrived here in the Northwest, and I'm buying stock in **Alka Seltzer Plus** this week. Take care and keep rockin'!

Motley Crue's "Hooligan's Holiday" should be on the air right now! What can I say about this song? This band? How 'bout I keep my mouth shut and let **WKDF's John Nagarya** do the talking: "Definitive proof that **Motley Crue** has entered into the 90s and belongs right next to **Nirvana** and **STP!**" Couldn't have said it better myself. **The Afghan Whigs' "Gentlemen"** PLAY THIS RECORD!

Okay, okay, we've got **Coven** coming your way this week. My intern, **Jeannie**, who many of you have spoken with, and I are stuffing mailing boxes as fast as our little hands can go! In my attempt to be politically correct, "radio impact date" will be Monday, February 28. With their truly twisted, satirical lyrics, sledgehammer-like rhythms and neck-breaking crunch, **Coven's Boneless Christian** will have you laughing hysterically while bashing your head against the wall! **Coven** is not death metal, they are an aggressive thrash band that pokes fun at dark metal. Here are some lyrics for you from the title track, "Boneless Christian": "We could feed every Christian to the hungry and the homeless, but before you do, you'd better make sure they're boneless, and as I fired up the barbeque, I made a suggestion, you bring the chips and I'll bring the Christian." HAHAAHAHA! And hey, **Psycho**, "King Of All Radio," they're baaack! And on your desk soon.

Now is definitely the time for **Die Monster Die**. **Withdrawal Method** is taking off and you're definitely going to want to be on board! Thanks to **WRAS**, **WNHU**, **WRFL**, **WUSC** and **WVFS** for their immediate support of this great band's debut. **DMD** will hit the road in a few weeks, and you New York hipsters can catch them at **Brownies** on 2/23. Advance tapes of **The Moon Seven Times' 7=49** will be arriving this week. Take a listen...you'll melt like butter. Other dynamite releases on the way, including **Nailbomb (Sepultura/Fudge Tunnel side project)**, **Black Train Jack** and **Front Line Assembly**. Call me!

Hey Adult Rock, add **The Samples' "Carry On"** now. It is track #8 from **The Last Drag**, and our official add date is Valentine's Day. Have a little heart. Duh. **The Samples** are selling out shows all over the nation. Seeing is believing...so come out and see the band if you haven't already. **The Samples** are getting closer to Gold with **The Last Drag**. **Still Water** CD5 in production and coming to AOR in a few weeks. Word for the week: **Karma**...or **Dingleberry**...or....

Alert

Rowan and **Martin**, **Martin** and **Lewis**, **Lewis** and **Clark**, **The Pinheads** and "The Howard Stern Show" - some combinations are just meant to be. That's why "The Big One," KB1520, is flying the show's producer, **Gary Dell'Abate (Bababoey)** to "Always A Beach Day" Buffalo, NY, for a **Stern** night soiree at a local hot spot. In addition to the usual butt bongo-style antics one expects at a function of this nature, **The Pinheads** will be giving a featured hard rockin' musical performance, guaranteed to please. A big time to be had by all - I'm sure. **The Pinheads** and talk radio? Hey - **Hendrix** opened for **The Monkees**, so whatever it takes, okay?!

U2 On The Tube?

Irish rock superstars U2 seem to be keeping quite busy lately - if they haven't been on the road with their over the top tour setup, they've been in the studio. Now, in this post-*Zooropa* era, don't assume the band will be taking a break!

Apparently, U2 intends to launch a new venture in the world of television! More specifically (and according to the band's manager, Paul McGuinness), they're planning on starting their own TV network!

Called "Zoo TV," the channel would feature original programming, in addition to movies and - we swear - home shopping! "It will be a guerrilla channel, sort of a hip QVC," explains McGuinness.

And never fear - U2 being the environmental crusaders they are, much of the merchandise that will end up being hawked on "Zoo TV" will be earth-friendly, with music-related items also playing a big sales role.

As for how the band plans to set their TV wheels in motion, McGuinness has explained that "Zoo TV" would be a joint venture with PolyGram. The global corporation's involvement probably won't dampen the irreverent spirit of the "guerrilla channel," which will probably have much of the same feel as U2's tongue-in-cheek arena tour/spectacle.

We mentioned that the band intends to show movies, too...well, McGuinness has compared "Zoo TV"'s cinematic programming to that of Los Angeles' infamous "Z Channel."

For those of you not familiar with "Z Channel," it was one of the original cable subscription channels, and it played mostly cult favorites and film classics.

And, as if "Zoo TV," the channel, weren't enough, McGuinness has also mentioned that he might produce a feature film this year with Bono! U2's larger-than-life frontman has co-written a movie script with US-based screenwriter Nicholas Klein, called "The Million Dollar Hotel."

So far, no movie studio has committed to the film, but we have a feeling that one will in the very near future - and, with all that talk about Bono just itching to get on the big screen, we have a feeling he'll pop up in "The Million Dollar Hotel"!

Stay tuned for more info on "Zoo TV"!

LA Quake Benefits Attract Celebrity Support

Lots of rumors have been circulating in Richter City lately about celebrity-laden earthquake benefits, but not much factual information has been available.

Well, there have been some new developments here in LA, and the LA Times Calendar section had some info on what *could* be up here. First off, comedian Paul Rodriguez and music biz vet Jeff Wald have

announced plans for "Shake, Rattle & Give," a benefit scheduled for March 6 at the Universal Amphitheatre.

Although the sponsoring committee includes several entertainment industry heavies, including David Geffen, the list of confirmed performers is still pretty small at this point, consisting of musicians Randy Newman, Aaron Neville and Trisha Yearwood, and comedians Rita Rudner and Bob Saget.

However, there is another quake benefit in the making right now, and it's got pretty heavy music biz backers behind it, too: Guns N' Roses have teamed up with Ticketmaster CEO Fred Rosen in the hopes of staging a stadium show, possibly at Pasadena's Rose Bowl.

Both proposed benefits are hoping to attract more support than was generated after the Los Angeles Riots two years ago. "There are so many artists centered here in LA," says GN'R manager Doug Goldstein. "But not a whole lot of people jumped up to help following the riots or the [1993] fires."

Goldstein probably isn't worrying too much - with a band like Guns N' Roses already on the bill, it's nearly a given that the show *will* go on.

"People said I was crazy when I was doing this," Rosen states. "But this isn't about me, it's about the music community and the city." Let's hope both benefits get the necessary support, so they can help the many Angelenos in need.

These are the very last Buffalo Bills jokes - I mean it this time:
 Q: What's the new area code in Buffalo?
 A: 044.

Digging Out Danzig

Speaking of the Great LA Quake, the *entire* staff of American Recordings (our fine, fine sponsor) donned hard hats and work clothes to "liberate" Danzig product from their West Coast distribution warehouse in the San Fernando Valley, an area hard hit by the earthquake.

Commandeering a 24-foot truck, the loyal American staffers located valuable boxes of Danzig releases, so they could be immediately shipped to several West Coast record stores that were running dangerously low!

In fact, at the time of the earthquake, Danzig's first, self-titled album, their recent EP, *Thrall - Demonsweatlive*, and their current mega-hit single, "Mother," were receiving total orders of about 25,000 a day!

Talk about pressure, eh? Kudos to the staff at American for putting the extra effort in to help ensure Danzig's sales success!

American's staff loads up on Danzig!

Speaking of American Recordings, wait till you hear Thee Hypnotics' latest record, which was produced by Chris Robinson of The Black Crowes! This is top quality rock from some wild British rockers!

Update from 1991, 1992, 1993 and 1994:

Crazy Eddie

Pearl Jam front-man Eddie Vedder has been summoned to appear in Boulder County Court to deal with a charge of obstructing government operations, because of an incident last Thanksgiving weekend at the University of Colorado.

You may remember our coverage of the incident in the Nasty Nooz; Pearl Jam ended up canceling the last of three shows at the university over disagreements

about concert security policies, which came up after the second show, when campus police interfered with the audience, apparently breaking an agreement they had made with Pearl Jam.

While they were attempting to remove a "disruptive" individual from the mosh pit in front of the stage, Vedder reportedly stopped the show and ordered security to get out of the pit.

At this point, according to police, his comments incited audience members to remove a communications headset from one of the security guards, apparently intimidating the campus police so much that they left the venue, without that certain "disruptive" individual that started the whole damn thing!

Vedder's summons requires that he, or his attorney, appear in court March 1. If he's found guilty, Vedder could receive the maximum sentence of six months in jail and \$750 in fines.

Ironically enough, the band was scheduled to return to Boulder, Colorado, to make up that canceled third date in March - maybe Eddie can stage a concert from the county jail!

We'll keep you posted.

Quicksand/Seaweed Update

There's been a big buzz surrounding the ongoing Quicksand/Seaweed tour that we thought you should be clued in to; the bands are doing incredibly well out on the road. In fact, they've just sold out seven nights in a row, and they had to turn away overflow crowds in Buffalo, New York!

These two bands are part of the future of rock n' roll, and you owe it to yourself to get out and catch them live! Don't say we didn't

Here's Dave Ross at PLG with his jab at the Bills:

Q: Why are the Buffalo Bills and marijuana the same?

A: Both get smoked in a bowl.

Al Tells All

This is the Nasty Nooz, right? Well, in the spirit of that fact, we present you with this titillating tidbit - Ministry and Revolting Cocks mastermind Al Jourgensen makes his debut in Hustler magazine next month!

In his feature article, the godfather of industrial noise music gives his personal opinions on several "men's publications"...from Swank to Velvet, Al's takes on skin magazines are truly...*eye opening*.

As for the rest of the March issue of Hustler, we're in the dark...we only read the articles, ya know?

And here's an old joke from last week with a new twist:
Q: What's the new drink from Tonya Harding and Lorena Bobbitt?
A: Canadian Club with a slice.

AMC Update

So Richard Fields breaks into Erica's apartment, but thanks to Jack Scoming to the rescue, he prevented Erica from either being raped again, or murdering Fields!

Now that the cops have him, will we be seeing the end of this crotchety old fart? I doubt it!

How many times does Edmund have to be the white knight? Brooke dumped all over him and lied on the witness stand about him, yet he's the one who will pull her through this trying time.

He'd better stick with Maria, though. I think she's the best catch on the show!

Any bets on how long Tad and Dixie will last now? Frankly, I thought that when the show's execs brought Tad back, they would handle his and Dixie's storylines better...but they've turned them into an unlikable couple, and at times they even come off like clods!

Can't wait to see the outcome of Erica's trial on her attempted murder charge...catch ya next week!

Dave Auther, our Production Manager, gives us this funny Q&A:
Q: What is Michael Jackson's new band called?
A: The Jackson 5 And Under.

That's it for me! I'm Tommy Nast with the Nasty Nooz.

The Nasty Nooz is written and edited by Tommy Nast and Benjamin Plotkin.
