Answer It!

Rock Radio And David Lee Roth... A Match Made In Heaven!

ook out everybody, Diamond Dave is back in the saddle! From the day we first heard Van Halen's version of "You Really Got Me" way back in 78, Roth has been at the forefront of the rock n' roll music scene, and here in 1994 he is still living life at full throttle. With the release this week of "She's My Machine," David Lee has declared open season on Rock Radio, bogartin' 143 out of the box adds, more than double his next closest competition. The adds, seven of which go right into heavy rotation, are enough for a #18* debut on the Power Cuts chart.

"She's My Machine" is the first single from *Your Filthy Little Month*, Dave's most diverse album ever. You can let your listeners be among the first in the country to hear this hot new release by signing up for The Album Network's World Premiere radio special. This 90-minute, live program will be hosted by Bob Coburn, and David Lee and his new band will be performing some of his new music live, as well as some Van Halen classics! It airs Wednesday, March 2, and you can get on board by calling your friendly Album Network representative at (818) 955-4000.

"Stevie [Salas] and I have been writing songs like this for four years now but I couldn't do an album like this with <i>Racine</i> . Nobody was ready to hea this kind of stuff," says Sass Jordan of the ballsy nature of her new <i>Rats</i> CD Also in this week's artist feature, Jordan talks about dirty-mouthed women in rock and tells us why she resents working for a living. Don't miss it.	r). n

"The Calling"

Victory/PLG

More than three years after the *Union* CD comes new music from Yes! "The Calling," from the forthcoming *Talk*, is guided by hooks and rides along on the phenomenal guitar work of Trevor Rabin. Jon Anderson's is still the voice of Yes, but unlike much of the music from the Rabin-era Yes, "The Calling" is Yeslength. In other words, the album version is in the 10-minute range, while the radio edit comes in at just under six minutes.

The group for *Talk* is Anderson, Rabin, Chris Squire, Alan White and Tony Kaye - the same five that made the classic 9-0-1-2-5 and *The Big Generator* CDs. It's a stellar lineup, and Yes has delivered a masterpiece of Yesproportions.

Bonnie Raitt "Love Sneakin' Up On You" Capitol

How appropriate that Bonnie's new CD, Longing In Their Hearts, should be released just before this year's Grammy Awards. On this, the first single, Raitt has again given us a soulful, bluesy jewel that reeks of its R&B roots. It's Bonnie singing and playing the hot slide, and she is backed-up here by top shelf players like Scott Thurston, Paulinho Da Costa, George Marinelli, "Hutch" Hutchinson and Ricky Fataar.

For years, Raitt was overlooked by radio, so it is indeed a real thrill to see her new music given the royal treatment. Add this one as soon as you get it.

The Poor

"More Wine Waiter Please" Sony 550 Music

This new label has finally dished up something that Rock Radio can sink its teeth into. The Poor, an Aussie band that is about to release *Who Cares* - its debut offering - up over, has a strong resemblance to AC/DC. The guitars stab furiously, the vocals scream and the hook is so easy to get into, you can't help but join in after the first time you hear it. Oh, and The Poor's James Young happens to share a family tree with Angus and Malcolm, so the AC/DC thing is really relevant.

There are some "bad" words ("No bad words, just bad thoughts") on "More Wine Waiter Please," so be sure and look for the edited Pro-CD from Sony 550 Music.

Beck

"Loser"

What starts out like a blues tune of the Mississippi delta ilk quickly becomes a totally infectious and trendsetting hip-hop sing-along. Beck, who hails from right here in Tinseltown, has already exploded at Alternative Radio, where last week's charts find his "Loser" CD5 at #1* on both the airplay and the Most Requested charts. "Loser" was also sitting pretty at #81* on the Power Cuts chart last week, based on 18 way ahead of the box supporters.

"Loser" is so fucking hip it's frightening, and we believe Rock Radio programmers who realize they are in the 90s must deal with it.

Queen Sarah Saturday

"Seems"

Thirsty Ear/Chaos

"Seems" is ferocious, guitar-distorted-beyondthe-legal-limit power pop. So, it will undoubtedly surprise you to learn that these newcomers did not hone their skills in some ramshackle hole on Manhattan's lower East Side, they did not form in the rain-soaked backstreets of Seattle and they did not pay their dues playing late, late nights in some Minneapolis dive. No, Queen Sarah Saturday calls Durham, North Carolina, home. Surprise!

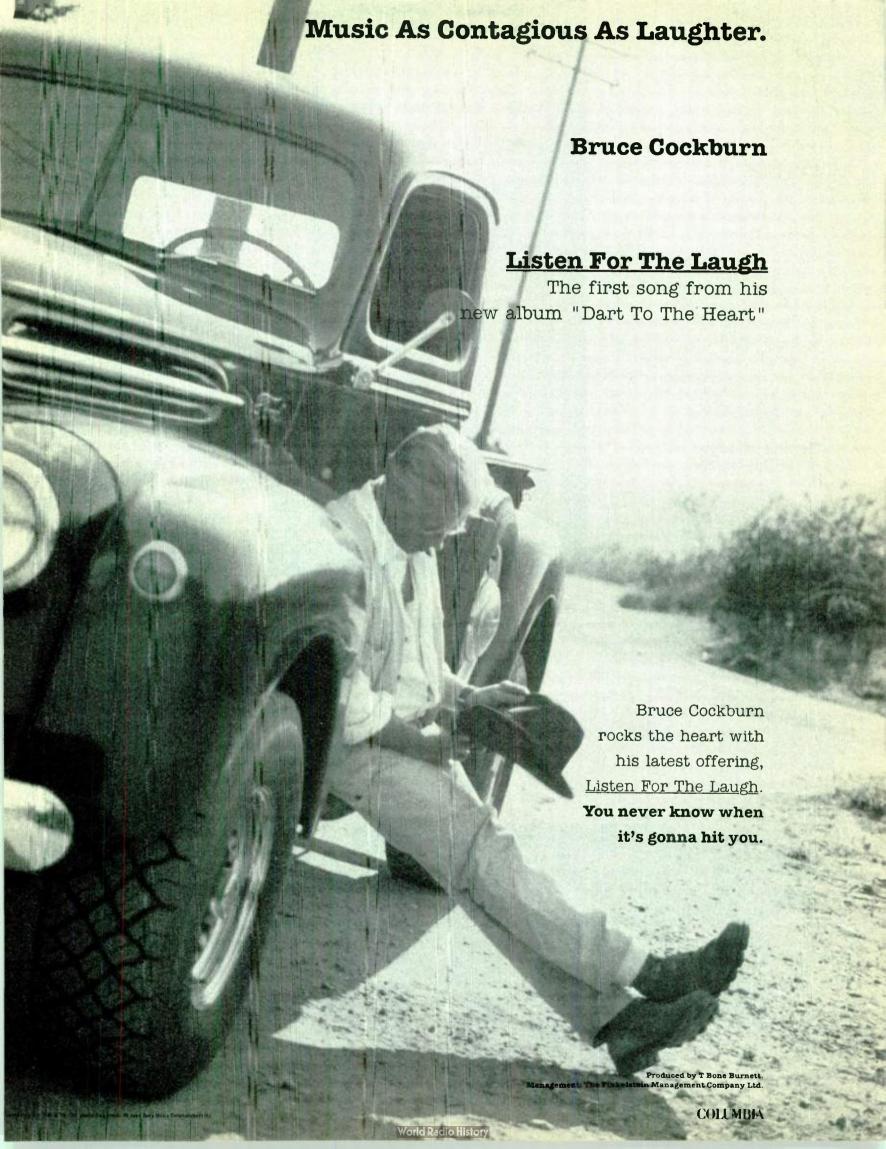

A story is now building at Alternative Radio on "Seems," but once you listen to this inviting piece of rock n' roll, you won't wanna wait for that format to steal the thunder.

NRBQ.

"A Little Bit Of Bad"

Surely everyone has heard of NRBQ. Many of us even know what the letters stand for. But does anyone know why they are such critical favorites and yet have never become a Rock Radio staple in their 25-year history? Now, there is a question that may not have a feasible answer.

Anyway, on "A Little Bit Of Bad," from NRBQ's (it stands for New Rhythm And Blues Quintet, although they're now a four-piece) latest release, *Message For The Mess Age*, the band stirs it up a bit like Los Lobos and mixes in some of the finest qualities of Chris Isaak.

ZZ Top

"Breakaway"

From "Fool For Your Stockings" to "Rough Boy," ZZ Top has always killed with its ballads. That's why it is so cool that our three heroes have recorded this gem for Antenna. "Breakaway" was instantly obvious the first time we all heard it, and even before Rock Radio had been given the official go ahead, 60 outlets had buried their teeth into this suckuh!

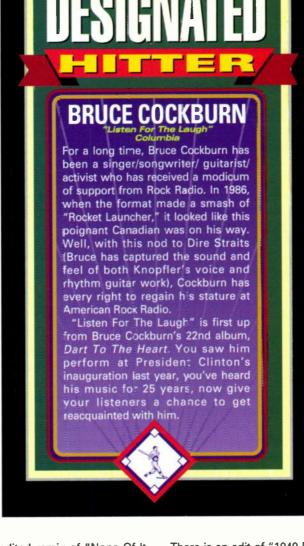

Last week's Album Network BreakOut is screamin' up the Power Cuts chart (it was #37*), and now that RCA's promotion staff is on the case, "Breakaway" will scramble up even faster. Everyone can play "Breakaway."

Open Skyz

"None Of It Matters"

"Every Day Of My Life" opened the doors for this band based in the New York/New England area. At its crest, that tune was a Top 25 Power Cut and was receiving airplay on more than 100 Rock Radio outlets. Now comes the follow up, a stompin' number that loosely falls under the guise of a rock shuffle.

On AN Rock CD TuneUp #111, there is an edited remix of "None Of It Matters," on which the guitars have been brought up. The rendition on the Open Skyz CD is much more Beatlesque, thanks to a prominent sitar. So, take your pick, because either way you can't go wrong with this thoughtful, vibrant rocker.

tremors

The Big F

"Mother Mary" Chrysalis/ERG

This power trio has been busy making a name for itself, predominantly at RAWk Radio. But with "Mother Mary," The Big F has every element necessary to make it "big" at the more mainstream stations as well. In fact, Paul Peterson, who handles music duties at KDKB, says, "'Mother Mary' is a great, bizarre combination of rap and rock - and a prayer. [PD] Tim Maranville and I both love this song!" That love of "Mother Mary" translated into three months of airplay at KDKB/Phoenix, long before anyone asked them to add it!

The album version of "Mother Mary" is on The Big F's Is CD, but the remixed Pro CD is even more right for Rock Radio. We highly recommend getting a copy so you can find out just how good "Mother Mary" is.

Robert Cray

"1040 Blues"

Like it or not, it is just about tax time all across America. So, what better way to deal with that fact than to sing the blues?

There is an edit of "1040 Blues" on our Rock CD TuneUp #111 that comes in at about 30 seconds shorter than the version on Robert's Shame + A Sin CD, so you have a couple of options here.

On this clever, relatable cut, Robert lays down some stylin' blues licks as he laments this time of year. See, even celebrities like Cray gotta pay their dues to Uncle Sam.

DAVID LEE ROTH

"David Lee is back and rockin'!" Debbie Alcocer, KISS

Diamond Dave does it again, nailing down the most adds at Rock Radio this week with "She's My Machine." One hundred and forty-three programmers see fit to add this one out of the box, and the result is a #18* debut on the Power Cuts chart and a leadoff Homer!

The major market reporters come out in force for Roth, as 24 such outlets add "She's My Machine" out of the box -KTXQ, KRXQ, WQFM. KXRX, WRIF, KQRC and WRFX among them. Top 5 phones are already being reported in a number of cities.

Phil Marlowe of WCCC explains, "I wasn't sure how our audience would react to David's return, but judging from the great early phone response, they are very glad he's back!" At WERX, Brent Todd calls "She's My Machine" an "instantly recognizable record that takes us back to the early days of VH!"

In Charlotte, WRFX's Chris McKee comments, "I think this is a record that Diamond Dave has wanted to do for a long time, and the listeners want it as well!"

"Love that bongo mix; 'Breakaway' is blues roots all the wav!"

Stephen Page, KOME

Those bluesbusters are at it again with this slow motion cranker, "Breakaway" answers to the call of 70 adds at the format this week, and coupled with nine rotation increases, that amounts to a 37-19* jump up the Power Cuts chart. ZZ Top also slugs a Homer! this week.

The Plays Per Week have really started picking up for "Breakaway," as WHCN, KOXR, WTAO, WRNO, KRZZ and WQLZ all report between three and four spins a day.

WZXL's Jay Gleason tells us that "Breakaway" is "so good, it goes right into heavy!" At KNCN, Matt Vaughan remarks, "I'm just so glad ZZ Top went back to what got them there. The other style was cool, but this is the sound that made them great!"

Roger The Dodger, of WZNF, says "Breakaway" has "a monster sound that is undeniable. I can't wait to throw it on!" And. WSTZ's Russ Allen states. "Good to hear the boys harmonize. It's something you don't normally hear on a ZZ Top record!"

SOUNDGARDEN

"'Spoonman' is thick enough to use a fork, but you'll want to use a spoon to get every drop!

Tim Travis, WDIZ

Now that everyone has the "Spoonman" CD-Pro, we can get a more precise picture of Rock Radio's response: As of now, 159 stations are on the new Soundgarden track, including 66 newcomers. With four adds to heavy and 18 rotation bumps, "Spoonman" scrambles 27-20* up the Power Cuts

spins Heavy reported by KQXR, KISW and WBZX, where "Spoonman" is getting between 29 and 49 PPWs. Plus, Superunknown, which won't hit stores until March 8, is already the #2 Hot Future at the nation's retail outlets.

Todd McCarthy of WKGB mentions, "When the dust finally settles in Seattle, Chris Cornell will be looked upon as the main force of grunge." At WQLZ, Vince Richards says "Spoonman" is "a reactive song that is definitely radio-friendly. The phones are huge already!" WQLZ is one of 21 stations reporting Top 5 phones.

KOME's Stephen Page believes Soundgarden has been "overlooked way too long," but this track "will put Soundgarden on the map!"

collective soul

"Thank God for sleepers...." Chris James, WTPA

Here is a killer story: New band on indie label gets. picked up by major and immediately gets big league response! This week, Atlanta's collective soul picks up 32 "out of the box" adds at Rock Radio. giving "shine" a massive 90-50* leap up the Power Cuts chart.

WDVE, KISS, WMMS, WQFM, KEZE, WFYV and WAPL lead the pack of new believers in "shine"; WDIZ goes light to heavy and reports Top 5 phones (again); KQXR also reports heavy phones and is spinning "shine" seven times a

Matt Vaughan, MD at KNCN, exclaims, "'shine' is a solid new add, with a real strong hook!" At KATP, PD Dale Miller says, "I think this is different enough to attract the listeners' attention, and it sounds very cool on the air!"

WGBF's Tony Couch calls "shine" a "90s rock hit that is palatable to 18-24 females. It's a hit; the first time I heard it, my reaction was just, 'Wow!'"

MEAT PUPPETS

"The hold music at The Album Network turned me on to this track!"

Greg Hanson, KTAL

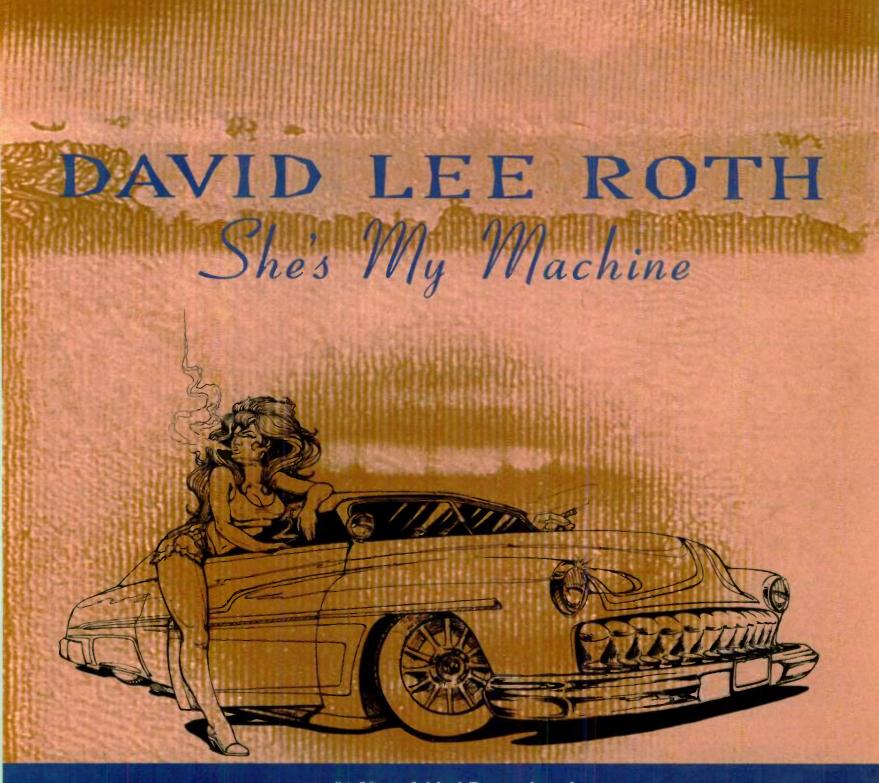

These longtime cult heroes are starting to mirror Soul Asylum's come-fromnowhere success here in 94, as "Backwater" gains another 27 adds and 15 rotation increases at Rock Radio, Support from 128 format reporters has this tune going upward, 31-26*, on Power Cuts.

"Backwater" is receiving heavy phones in places like Phoenix, Austin and Harrisburg, while KEGL, KAZY, WGBF, KLBJ. WPYX, KMJX and WRXK all come on board this

KMJX's David Allen Ross tells us. "I like this more with each listen. The twin guitars and vocals mesmerize me!" At WGBF, Tony Couch declares, "The first time I personally played this record, the phones went crazy with all-positive calls!"

Stevie Lynne of WVVV explains, "We're getting a lot of good phones on 'Backwater,' so it goes to heavy!" Also, WQLZ's Vince Richards claims, "'Backwater' grabbed me, and the listeners as well!"

RUSH "Nobody's Hero" ANTHERMATLANTIC/TAG • 82828

"Plain and simple, 'Nobody's Hero' is a hit!" **Scott Laudani, WHEB**

"Nobody's Hero" is really shaping into a huge hit at Rock Radio, as 27 adds place it in the New Action Airplay Top 10 for a third straight week. Now on 166 stations, this cut from Rush's Counterparts rises 16-9* on Power Cuts.

There are so many stations giving "Nobody's Hero" a humungous amount of spins we can't list 'em all here, but consider that the list includes KTXQ, KSHE, WHCN and WAVF.

Roger The Dodger, who is handling the programming at WZNF, says, "'Nobody's Hero' is a really awesome song! Rush has always been great, but this one surprises me!" And KOZZ's Steve Higgs proclaims, "This is one of my favorite tracks off the album; 'Nobody's Hero' is a solid track!"

MY LITTLE FUNHOUSE "Raintown" GREFFEN: 24487

"If you're looking for something fresh, play 'Raintown'!"

Don Alias, WWBR

Standunder was released roughly a year and a half ago, and yet Geffen is still supporting My Little Funhouse. That faith has paid off in the guise of 21 firstweek adds for the lilting "Raintown." This Irish quintet comes on the Power Cuts chart at #90*.

The story on "Raintown" is just starting to build, as KXRX, KMOD, WRCQ and WNCD fancy themselves pacesetters; they are among the firstweek supporters of this tune.

At KFFX, Jeff Custer calls "Raintown" "a great track on a much overlooked album!" Also, Jim Kallas Of KSQY tells us, "Raintown" is the cut we told Geffen to come with when we first heard the CD!"

WBZX, WDVE, KQRS, KRXQ, WQFM, KLAQ, WJXQ and WKLL are just a smattering of the Rock Radio stations that add "Too Cold In The Winter" this week.

WRXK MD Austin Keyes says, "'Too Cold' feels like the South, and it is a good follow up to two #1 Power Cuts. Plus, Cry Of Love is amazing live!" Vince Richards of WQLZ believes that Cry Of Love's "Too Cold" has a sound "people just don't get sick of!"

Strummer, WTKX

Those increases were, without a doubt, spurred on by the Top 5 phones at 35 of the stations. "Hooligan's Holiday" also gains 20 new supporters, good for a 20-17* jump up Power Cuts.

WKLQ and WHMH lead the way in the PPWs category, each giving "Hooligan's Holiday" better than five spins a day.

KQXR's Rochelle Smith says, "Motley Crue is back and stronger than ever...love the vocals!" Tony Couch of WGBF declares, "They still kick ass with the new sound!" And, WHJY MD Sharon Schifino calls "Hooligan's Holiday" a "good track that is sure to light up the phones!"

POSSUM DIXON "Watch The Girl Destroy Me" BURN DETECTIVE/INTERSCOPE/TAG - 92221

"Oh my God...it's the 'summer's-almost-here song' we've been waiting for!"

Debbie Gilbert,

After a strong showing at Alternative Radio, LA's Possum Dixon kicks off its Rock Radio run with 19 opening week adds. Combined with eight before the box reports, "Watch The Girl Destroy Me" is now on 27 outlets, and it debuts on the Power Cuts chart at #69*.

Of the eight stations playing Possum Dixon prior to add day, nearly half of them upped the rotation this week.

WKZQ's Darren Taylor says, "Possum Dixon has that alternative rock sound that's totally easy to get into...you don't even have to wait for it to grow on you - it's a hit right off!" Plus, WTPA's Chris James figures that "Watch The Girl Destroy Me" could have "come off of INXS' Shabooh Shoobah...."

Jou can
snicker about
"Rats Sass,"
but don't for one
minute forget
about the
musical power
and fury
unleashed
by this lanky,
Torwegian lass.

ess than a fortnight after having her world rocked by a 6.something or other earthquake (please don't tell us that wasn't "the big one"), Sass Jordan is preoccupied with finding a drummer. As I walk into the room where she and her band have been auditioning would-be timekeepers, they are blazing away on something from Rats, the album that has completed this Dixie-born-and-raised lady's evolution from Juno-award-winning singer to bad ass, rawkin' blues wailer. At this stage of the alteration, there is much more of a roughness, a rawness, than Jordan had revealed on either Tell Somebody or Racine.

I take full advantage of the chance for a private performance before she leaves the band to work a few things out on their own. Convening in what amounts to a back room of some sort of a workshop next door, we plop down on the only thing in the place that even resembles furniture - an old piece of eggshell foam padding - and discuss the razor-sharp edge that separates the music of *Rats* from that of *Racine*.

"It's more me," Sass relates matter of factly.

"First of all," she utters with a drawl that gives away her mid-Texas roots (Austin to be precise), "I had a lot more to do with this record, artistically speaking. Not that anyone forced me into anything on Racine. Racine is exactly how I wanted it to be at that time. That's [one] work on its own, and this is another work on its own.

"Rats was co-produced by me, Stevie Salas (Rod Stewart and his own Colorcode) and Nick DiDia (who has engineered Pearl Jam, Stone Temple Pilots and Raging Slab), and I think that mix of people had a lot to do with it, as well.

"Stevie and I have been writing songs like this for four years now, but I couldn't do an album like this with *Racine*. Nobody was ready to hear this kind of stuff. Now, thanks to bands like Pearl Jam, or even Alice In Chains and Metallica, music people have become a little bit more used to hearing heavier stuff. It's more acceptable now. But [then], I was A) female, and B) unknown [laughs].

And to have been this heavy the first time out, I don't think I would've gotten very far. And besides, the reaction to the stuff like this that we were writing four years ago was very negative. It was like, 'Oh my God, you can't do that.'"

So, she didn't. Guilty of knowing just how far to push the envelope with Racine, Sass practiced a bit of self restraint in hopes of getting her music heard. "My goal as an artist is definitely not to be, like, stuck in a fuckin' closet somewhere - I obviously want to be heard. That's why I'm doing this. I've got something to say."

he songwriting team of Jordan/Salas, which contributed four songs to her last album, accounts for all but one track on *Rats*. Ask Jordan about her coconspirator, and she'll throw out words like "utterly brilliant," and then say them again to make sure you know that she ain't kidding. And, she'll emphasize, the two of them write "incredibly well together."

"It just happens," is her explanation of how they write together. "You know what I mean? We concentrate, like, a couple hours a day, or sometimes half an hour a day - it depends on how much we feel like fuckin' off and doing other things. And then it just happens. I knew exactly what I was gonna do this time, and I knew exactly that Stevie was the person I was gonna work with." Sass makes a point of telling me that the other guys in the band are all important, as well, especially bassist Tony Reyes, who co-wrote "Give" with her.

The cast of characters that helped Sass Jordan make *Rats* includes her good friend Ian Moore, Cheap Trick's Tom Petersson, Carmine Rojas (Bowie), Richie Kotzen (ex-Poison) and funkmaster general George Clinton. Moore's playing is all over the Stonesy "Wish" and the Allmans-like "Give," while Clinton turns the intro to "Ugly" into the kind of blues you'd expect to hear being played out on the front porch of some shanty deep in the Mississippi delta...in a tongue-in-cheek sorta way.

"George Clinton is, like, an idol. I mean, George Clinton's the *shit*, you know? I love him." And just how did the onetime head of Parliament wind up vocalizing on *Rats*? "He walked into this bar that me and Nick and Stevie were sittin' in - Stevie's known him for years! - and Stevie started telling him about *Rats*. And George said, 'Well,'" the native New Yorker now adopts a Clintonesque tone as she continues, "'I'm gonna come down and sing on it!'"

And then something really weird happened. "He showed up, two days later. It was great. I couldn't have asked for better. We got tons of stuff that he did that we didn't put on [laughs]! There's miles of it, and it's so cool!"

On "Honey," Miss Jordan sings, with all the subtlety of a cruise missile, "Boy, I want your honey all over me." She laughs when I bring it up. "I figured if Steven Tyler's [doing it], it's about time a girl sang and wrote something just as fuckin' stupid. But, it's a total joke. I wanted to make Stevie and Nick laugh. I thought they'd think it was hysterically funny - which they didn't. They didn't even notice! I was so bummed [laughs]! I was expecting them to be rolling on the floor. I guess they just didn't want me to think they were laughing at me...I thought it was hysterically funny."

Of course, in an era when the likes of Madonna and Polly Harvey have bared their skin along with their souls, that line won't even rate a "Parental Advisory" sticker. In fact, Sass is really just one of many lady rockers who ain't averse to slinging a little grit. "Tori Amos has some gnarly shit! Tori'll come right out and fuckin' go 'Thhbbbppt!' right in your face! She doesn't care. I love her, I think she's amazing. Aimee Mann is fabulous, too. She's brilliant. And who's that

other girl, Liz Phair? I am tame compared to these women." Perhaps wishing to underscore her "tameness," Sass goes on to tell me how the sequence of songs on Rats once went "Give," "Head," "You," "Ugly," "Damaged," "Slave." But, since "You" is now called "Breakin'," it didn't work out.

aving spent a few days with a cassette of *Rats* blaring out of my car speakers, I feel prepared to give Sass my assessment of what I perceive to be a somewhat consistent lyrical direction to the album. I'm right about the consistency, but I'm pretty much wrong about the actual subject matter.

"[It's] dealing with the reality of," she takes a long, reflective pause before continuing, "addictions. There's a lot of addiction stuff in that. There's a lot of that kind of behavior around us all the time; it affects us. Somebody's addictions affect us in one way or another in our culture, almost all of us. Be it our own, or [those of] someone we're close to. Being under the influence of something other than how you really feel, you know?"

And when I mention that the question of whether this subject is tackled from a place of personal perspective is inevitable, Sass figures she'll offer a simple "not any more" in response. She elucidates: "I have been [addicted], and that's what I would say."

Shine a light on the dark topic of addictions and you'll see another side to *Rats'* lyrical bent. Like *Racine*, this CD explores Sass' conviction that we all, inside of us, possess the key to our own destiny. "Shit has gotta go on inside of you before you can change or deal with anything outside of you. Deal with the inside first. And just by virtue of you doing that, that will radiate outward."

ass and I sit on the floor of this back room for close to an hour, covering a myriad of subjects, including a book she recommends I read (the last one Sass told me about quite literally changed the course of my life, so you can bet I'll be reading this one, too), meeting lan Moore through the Arc Angels and the fact that so many people still wanna know where she is from (though she's been changing her story regularly, the truth is she was born in Birmingham, England, she spent some time living in France and ultimately, her family settled in Canada, alternating between Montreal and a farming village called Racine. At least, that's what she told me when I first met her a year and a half ago). She also tells me the thing that tops her list of "things I'll do as soon as I can find the time.'

"[I'm gonna] go and sit on a fuckin' beach on some tropical island [laughs]. How deep is that?! That's what I wanna do, man. I swear to God. And read. That's what I wanna do. I'm the laziest-ass motherfucker you've ever met. I resent having to work [laughs]!"

And other musicians on her list of people with whom she'd like to record? "I would love to work with Dr. John, I would love to work with another female artist, like Chaka Khan. There's a million people: Curtis Mayfield, Al Green. I mean, [they] are, like, gods [to me]! More George Clinton. And Bootsy [Collins], and Little Feat. And then that Bill Laswell stuff, you know, like Golden Palominos yeah - Anton Fier. I'd like to work with a million different people.

"And I'd love to write a book."

Maybe she could call it "The Places I Was Born." It's just a thought.

Booth American And Broadcast Alchemy Form Secret Communications

Secret And Great American Swap WWNK And KBPI

The recently announced merger of certain radio assets between Booth American and Broadcast Alchemy is in its final stages, following the signing of a definitive agreement between the two parties and the adoption of the moniker Secret Communications.

Based in Cincinnati, Broadcast Alchemy's Frank Wood will be President and CEO of the new company. Secret's first transaction will be a station swap deal, in which it will offer its Cincinnati property, WWNK, to Great American, in exchange for KBPI/Denver. The transaction will create duopoly FM combinations for both companies. Great American already owns WKRQ/Cincinnati, while Secret Communications is in the process of acquiring KMII/Denver.

Regarding the deal, Great American Radio Group President David Crowl states, "We think WWNK's soft rock format will make a great strategic fit with Q102, our CHR station in Cincinnati. We will be more competitive and will be able to provide better service to our listeners and advertisers."

"With the financial strength of Booth and Alchemy behind us, we can make Secret Communications a colorful force in the radio business," says Wood of the newly formed company. "We start with great markets, interesting stations, acquisition muscle and a balance sheet which we don't have to show anybody. We will attempt to define the concept of 'model citizen' for the radio industry."

KBPI VP/GM Tom Sly says there's no format or personnel changes on the horizon following the deal, stating, "The indication we have from our corporate offices is that everything will remain the same. KBPI will continue to rock the Rockies as we have for the past 20 years."

Garland Garners VP/Promotion Title At Elektra

Frank And Ives Assume VP Roles

Elektra Senior VP/Promotion Jon Leshay taps Bob Garland as VP/Promotion. Additionally, Senior VP/GM David Bither elevates Lisa Frank to VP, Artist Relations/Marketing and Sonia Ives to VP/Video Production. Garland will tackle his new duties from his Denver base, while Frank will remain in New York and Ives in LA.

Regarding Frank's appointment, Bither says, "Lisa's innovative thinking and her comprehensive knowledge of the marketplace have made her an invaluable asset to Elektra." Of Ives' promotion, he remarks, "Sonia's superb creative instincts, as well as her understanding of the demands of producing videos in the contemporary marketplace and the needs of our artists, have proven invaluable to Elektra. I'm very pleased to be making this appointment."

Garland got his start at Arista in 1975, doing promotion from LA. In 1977, he joined Columbia in a local promotion capacity, and quickly rose to VP/National Promotion. In 1992, he formed Artist Development Services, a direct-marketing and promotion consultancy for labels and artist managers. He joined Elektra in October of last year.

Frank rises from her Senior Director, Artist Relations/Promotion post. She has been with Elektra since 1983, serving in a variety of promotion, publicity and artist development posts. Ives climbs from her Senior Director/Video Production role. She joined the label in 1990 as Manager/Video Production.

EastWest America Senior VP/Promotion Greg Thompson ups Senior Director/Top 40 Promotion Valerie DeLong to VP/Pop Promotion. She will report directly to Thompson, and will be based at the company's New York headquarters.

"It is with great enthusiasm that we recognize Val's passion for our music and her extensive knowledge of where pop radio is today," offers Thompson.

"I'm ecstatic at the opportunity to continue working with a company as passionate as EastWest," adds DeLong. "I would like to thank Greg Thompson for his support and endorsement in my expanded role. I am appreciative of Craig Lambert's and Sylvia Rhone's ongoing belief in my abilities."

DeLong began her association with the WEA organization in 1985, serving as Marketing Assistant at the company's Atlanta branch. In 1987, she joined Atco as a Regional Promotion Rep in Atlanta, and relocated to New York City to assume her Senior Director/Top 40 duties at EastWest two years later.

McGuinn Gets The Point

WEQX/Manchester programmer Jim McGuinn makes his way to St. Louis this week as Program Director of alternative rocker KPNT. McGuinn replaces former OM Ken Anthony, who departed the station last month to assume the PD post at KLSX/Los Angeles

"We at River City Broadcasting are extremely pleased to have someone of Jim's ability join our staff," offers VP/GM Dick Stein. "We look forward to The Point being recognized as one of the finest modern Rock Radio stations in America under Jim's leadership."

McGuinn has been programming WEQX for the past four years. Previously, he was MD at WWRX/Providence and APD at WPGU.

Cavanagh Climbs To Operations Director At KTYD

KTYD/Santa Barbara VP/GM David Perry elevates MD Paul Cavanagh to the post of Operations Director. He will be adding programming duties at newly acquired AM talk radio station KQSB while retaining his MD duties at KTYD.

"The recent acquisition of KQSB-AM has led to my duties increasing, since I'm an active participant both in the FM and the AM programming," comments Cavanagh. "Criterion has treated me very well; it's a young, growing company, and I really look forward to years of continued growth here. Both Jim McKeon and David Perry are excellent people to work for."

"We're growing, and Paul is the only one in the building who really has the operations details down," offers Perry. "He really has a great knowledge of the new traffic and computer systems we've been putting in, and he still has the creative talent to make all of this a less sterile environment."

Prior to joining KTYD one year ago, Cavanagh was with Jim McKeon's M3 Marketing, before which he served a three-year stint as APD at KFMU/ Steamboat Springs.

Bakersfield's KKBB Signs Off

KKBB bid adieu to its listeners and staff on Tuesday, February 22, signing off the Bakersfield airwaves as a result of its recent purchase by an as-yet-undisclosed buyer

The news came as a surprise to the B-Rock staff, as the station was performing admirably in its target 25-54 audience. "We're proud to leave with B-Rock on top," says VP/GM Ken Kohl.

PD Steve Hoffman notes, "B-Rock has experienced a tremendous turnaround in the last two years, and that's a great tribute to the team [members] we've had here, many of whom are now placed in P1 markets. I'm hungry as hell to tackle whatever radio challenge is next for me, no matter where it falls on the formatic spectrum."

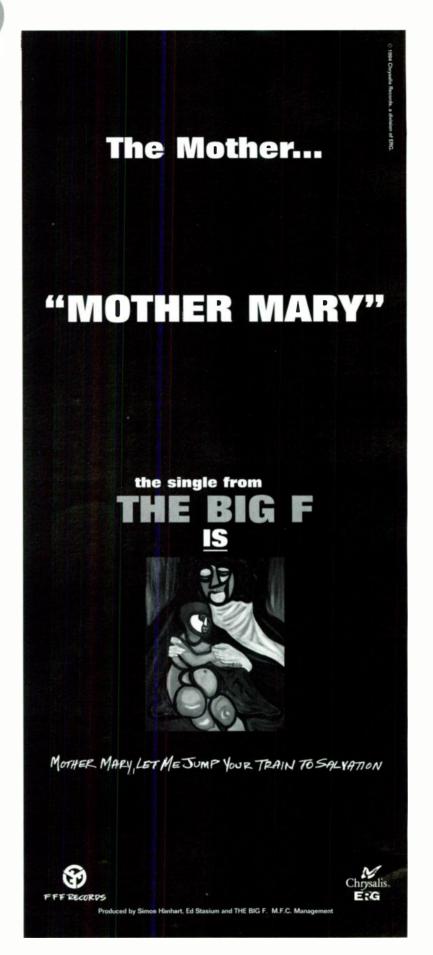

KLOS' Mark & Brian have been syndicating their show on KKBB since June 7 of last year, and KKBB's departure from the scene has started a bidding frenzy of sorts in the Bakersfield market. KLOS PD Carey Curelop tells Album Network, "We've had inquiries from several stations in the market, and we should be making an announcement shortly. Mark & Brian will return to Bakersfield within 30 days, if not faster."

PD/afternoon driver Steve Hoffman can be reached at (818) 708-1039; MD/middayer Craig Marshall can be reached at (805) 633-9487.

Crowe Flies To Columbia As VP/Soundtracks

Columbia President Don Ienner and Senior VP/A&R David Kahne jointly announce the appointment of Maureen Crowe to the newly created position of VP/Soundtracks. In her new post, Crowe will be based in Santa Monica, and will be involved with future film soundtrack releases related to the films "Angie I Says," "Blackout" and "Wolf."

"Maureen's musical sensibility, her instinct and experience with music in film, and her communication ability combine to make her a joy to work with and a colleague to admire," observes Kahne.

"I'm delighted to be at Columbia, and I'm looking forward to many successful soundtracks!" exclaims Crowe. "We have a fantastic roster, something that filmmakers will benefit from a great deal."

Crowe joins Columbia after five years as an independent music supervisor on several major films, including "The Bodyguard," "Wayne's World" and "True Romance." Most recently, she worked on the "Cool Runnings" soundtrack.

Winslow Assumes WNEW MD Post

Newly appointed WNEW/New York programmer Ted Edwards ups Amy Winslow to MD.

"After communicating with Amy over the phone in the weeks before I arrived, and working with her in the few weeks since I've been here, it's obvious that she was the one for the job," explains Edwards. "Beyond that, she is so well loved by the radio and record community that there would have been hell to pay if Amy hadn't been my choice!"

"This is an exciting time for WNEW," says Winslow. "We've got a new PD and a new morning show, which emphasizes the music. I'm thrilled to be a part of the station in this capacity."

Winslow has been with 'NEW since 1987, serving as Music Assistant, AMD and, immediately prior to this appointment, Programming Coordinator.

Gordon And Hall Join Atlas

Atlas Records President Nick Gatfield taps veteran Capitol staffer Rob Gordon as VP/Artist Development. Additionally, Gatfield brings Kevin Hall to the label as Director/Urban A&R.

Regarding Gordon's appointment, Gatfield says, "Rob's creativity and attention to detail in developing and carrying out strategies to break artists are second to none, and I am delighted to have him as part of the Atlas team."

"Kevin's appointment clearly indicates Atlas' commitment to black music," offers Gatfield of Hall's appointment. "I believe he has the right vision to build a roster of first-class artists."

Gordon most recently held the National Director/Field Marketing title at Capitol. Prior to that, he was Capitol's National Director/Artist Development. Hall joins Atlas following a successful A&R stint with PolyGram Music Publishing.

We'd like to bring your attention to a very important album about to be released nationally, on March 11, on Caroline. X Marks The Spot is a voter education benefit CD for South Africa, with 100% of the profits above and beyond the manufacturing and shipping costs being donated by Caroline to the Matla Trust, an organization founded by the efforts of Nelson Mandela to promote voter education. Since South Africa is a country with no democratic tradition, where many eligible voters are illiterate and/or have no identification papers, getting the word out about the country's first free election on April 27 of this year is Matla Trust's #1 priority.

Caroline Records, in cooperation with Tower Records/Video, will underwrite the benefit album. X Marks The Spot contains 15 tracks (including several previously unavailable) from a wide array of Western and African artists, including Peter Gabriel, UB40, Paul Simon, Geoffrey Orvema and Johnny Clegg & Savuka, among many others.

Tower Records/Video has agreed to turn back its profit to the Trust as well. The album holds a suggested list price of \$15.98, and after the manufacturing and shipping costs are covered, approximately \$13 per unit will be donated to the Matla Trust for use in their monumental efforts to ensure fair and open elections to all people in South Africa.

new reporters who have been integrated into the existing account base, has had an incredible effect on the overall ability of The Album Network to remain at the forefront of research information systems.

The overall scope of data gathered from MarketMakers has now been widened considerably enabling the department to give an even fuller picture of sales trends and influences nationwide. With the retail tracking systems that are going on-line, this and other report enhancements continue to keep Album Network ahead of the necessary demand for more data from ever-widening sources.

Under the guidance of AN President Steve Smith, the retail team works diligently to determine the ongoing changes that are occurring in the marketplace and quickly reflect those changes to labels, distribution companies and related parties. VP/Retail Mark Cope states, "We felt a real need to broaden the scope of information we had traditionally been tracking. With the expansion from a Top 50 chart to a Top 100, we have been able to bring in more information on more titles, which has enabled The Album Network to expand not only the volume of information, but our chart coverage as well. Look for more improvements to our retail system very soon. This is just the beginning of our future commitment to retail."

ENIGMA The Cross Of Changes Virgin/Charisma • 39238

"A one of a kind sound that immediately hooks in anyone in earshot!"

Leigh Blumenthal, PennyLane/ Kansas City

Enigma does have a "one of a kind sound" that's finding its way to the most unlikely audiences - the demos on this one are very wide. With the acceptance of "alternative" music into the mainstream, people are now looking even harder for something different, something that brings you somewhere you've never been.

Enigma's music reaches beyond the club scene and into people's living rooms without them even knowing it. Michael Cretu's music has been used to help sell everything from perfume to cars, and attracted movie producer Robert Evans, who asked him to write the title song for the film "Sliver."

The first single, "Return To Innocence," is receiving Top 30 exposure at VIRTU-ALLYALTERNATIVE Radio and is among the Top 10 Most Added songs at Hit Radio. The video is in Five Star rotation on VH-1.

The Cross Of Changes races 7 to 6* on the Hottest Sales Nationwide and is #4* on the In-Store Play chart. Showing #1 sales for a second week, including Sound Warehouse/Dallas, Record Rack/Houston, Rose Records/Chicago and Tower/Boston.

ZHANE Pronounced Jah-Nay Motown • 6368

"Before this release was even ready, there were two hit singles creating a major buzz. Talk about a groundswell!"

Duke Ward, Side 1 Music/Richmond

We have the answer to a major question. What is a Zhane? Jean Norris and Renee Neufville combined their names and surfaced with the moniker that will represent them as they make their way to stardom. And the way things look right now, that's not going to be a very long trip! Zhane knocks down a second week of amazing sales with both the single and video going full force. "Groove Thang" moves 3 to 2* on Urban Network's Heavy Hits Singles chart and sails into the Top 30 at Hit Radio. The video is Top 10 on BET's "Video Soul Top 10" and can be seen repeatedly on MTV.

Zhane appeared on two of television's most popular programs last week - "The Arsenio Hall Show" and "America's Funniest People."

Pronounced Jah-Nay drives 26 to 17* on the Hottest Sales Nationwide, with 31 more buyers reporting chart debuts. But the real sales story can be told in the upward moves: Michigan Where House/Lansing 32 to 8, Kemp Mill/Baltimore 51 to 14, Orpheum/Seattle 42 to 11, Twisters/Lincoln 58 to 18 and Tower/Anaheim 47 to 29, to name a few.

RICHARD MARX Paid Vacation

"Loyal fans and consumers of unadulterated pop dig Richard Marx and women just want to be near him!"

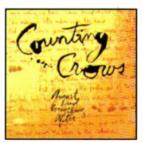

Larry Salzman, Tower/Brea

Richard Marx has the kind of audience that may not be waiting for the record store clerk to open the doors right at 9am to purchase his latest, but nonetheless are active music buyers and loyal fans.

Paid Vacation benefits out of the box from a smash single, "Now And Forever" (which is featured in the Kim Basinger/ Alec Baldwin film "The Getaway"), as well as press coverage, an awareness building appearance on "The Tonight Show With Jay Leno" and sale pricing/displays at retail. "Now And Forever" is #1 at Adult Radio and Top 5 at Hit Radio, with the video in Heavy rotation on VH-1.

Paid Vacation cruises 44 to 30* on the Hottest Sales Nationwide, with another 24 buyers reporting chart debuts. Significant upward moves can be found at Best Buy/Minneapolis 20 to 14, Side 1 Music/Richmond 33 to 20, Lechmere/Boston 35 to 23, Roundup Distribution/Seattle 23 to 16, Gem City Records/Dayton 47 to 35 and JJ's Ear Candy/Carson City 15 to 6.

COUNTING CROWS August And Everything After DGC • 24828

"This record broke really fast. The timing was excellent!"

Scott Perkins, Cats CDs/Nashville

Two weeks ago, we predicted that August And Everything After would hit #1 on the Hottest Sales Nationwide - take a look at that 3 to 1* move this week! With their seventh consecutive appearance in Bin Burners the Counting Crows move to the top with an 11,000 plus increase in overall piece count totals. Out of the 257 accounts that make up Album Network Retail. only 14 are not reporting the Counting Crows!

Thirty-nine MarketMakers show #1 sales, including Wherehouse Ent./LA 4 to 1, Harmony House/Detroit 2 to 1, Tower/Chicago 3 to 1 and House Of Guitars/Rochester 3 to 1. Here's a little tidbit for all of the hardcore Crows fans. The Counting Crows just happen to be George Stephanopoulos' favorite new band!

Their appearance on "Saturday Night Live" has caused a major national sales surge, as has amazing airplay on "Mr. Jones." The song is #1* on Power Cuts for a second week, while at Hit Radio, it's once again among the Top 5 Most Added singles, as it moves into a Top 25 chart position at the format. The video is in Buzz Bin rotation on MTV and What's New rotation on VH-1.

TONI BRAXTON Toni Braxton

"People know a great love song when they hear it!"

Bob Theissen, Coconuts/Cincinnati

The incredible sales story that belongs to Toni Braxton is about to reach even more incredible proportions. The next single, "You Mean The World To Me," is set for release to Hit Radio March 15, and she is nominated for two Grammys.

The fact that this album has been certified triple - Platinum is a testimony to not only her talent, but an incredible follow-through job by Arista. Simultaneous and multiple track airplay was key to attaining an allout sales blast. To her credit, Toni now has a Gold single ("Another Sad Love Song"), while "Breathe Again" is nearing Platinum.

As Toni begins her European tour, "Breathe Again" remains Top 20 at Hit Radio, while the video is in Greatest Hits rotation on VH-1. At BET, the clip is #2, while MTV places it in Active rotation and The Box shows Box Tops rotation. If there ever was an artist tailor-made for the sensual world of music video, it's Toni Braxton.

Toni Braxton pushes 5 to 4* on the Hottest Sales Nationwide, with a total of 156 accounts reporting sales mentions, 74 of which are Top 10 or better.

ACE OF BASE

""The Sign' is really pumping sales. With MTV's help, the album moves 18 to 4."

Mark Easter, Music Vision/St Louis

By now, 50% of this page may took like a tradefomercial for Arista Records, but it is just one barometer of how incredibly hot the company is now, and a measure of their A&R, marketing and promotion savvy. With the success of Ace Of Base, company President Clive Davis has coined a new term - "hip pop"! In just six months' time, The Sign has sold 1.5 million copies, with the first single, "All That She Wants," certified Platinum. The current single and title track has been certified Gold, as it holds down the #1* spot at Hit Radio for a second week. "The Sign" video is in Heavy rotation on MTV and VH-1.

The Sign hikes 11 to 10* on the Hottest Sales Nationwide, with #1 sales reported by Twisters/ Lincoln and Pegasus/Salt Lake City.

"People are aware of the Grammy nominations and want the album."

David Hunwitz **CD Listening Bar/Irvine**

How will "The Bodyquard" film and soundtrack be looked upon by future generations? It would be easy to believe that, with all the history that both formats have made to date, universities of the future would retain the marketing plan for students to examine. "The Bodyguard" is one of Warner Bros. Studios' biggest grossing movie of all time, while the OST has sold 11 million copies to date. The sales onslaught that was generated by the American Music Awards was only the beginning. Wait until Whitney kicks off the Grammy ceremonies with her performance of "I Will Always Love You!" Whitney also graces the cover of TV Guide and Jet magazine.

Selling like a new release, The Bodyguard moves 15 to 13* on the Hottest Sales Nationwide.

CRASH TEST DUMMIES

"We sold out! The single seems to be everywhere and everybody wants to own this infectious record."

Todd Robinson, Gem City/Dayton

While the Crash Test Dummies are obviously benefiting from their "Saturday Night Live" appearance, the sales explosion that is currently being felt would not have been so volcanic had Arista not worked so hard at keeping God Shuffled His Feet visible. Pricing and positioning once again come into play, but the band has been doing numerous acoustic performances on the radio and at retail stores. Crash Test Dummies will appear on "The Late Show With David Letterman" on March 15.

God Shuffled His Feet soars 28 to 19* on the Hottest Sales Nationwide. Chart debuts are reported by 29 buyers, with telltale signs of things to come noted in upward moves at B&T Audio/Denver 10 to 1, Sound Warehouse/Dallas 10 to 5 and An Die Musik/Baltimore 36 to 13.

"This was a romantic, heartfelt gift for lovers on Valentine's Day!" Rich Zubrod, Virgin Megastore/Costa Moss

A box of chocolates and the new Celine Dion album what better way to spark some romance?! This was many accounts' #1 Valentine's Day seller, and there's certainly no problem with the consumer identifying this Canadian artist with her songs - Celine Dion has firmly planted herself in American soil. As Celine wraps up part of her US tour, "The Power Of Love" remains a Top 5 smash at both Hit and Adult Radio, while the video is in Heavy rotation on VH-1.

The Colour Of My Love is green, as whopping sales help Celine move 10 to 8* on the Hottest Sales Nationwide. A total of 146 MarketMakers report sales mentions, with significant upward moves noted by: Dingleberry's/Dayton 22 to 8, Peaches Ent./Miami 5 to 3, Tower/Washington, DC, 63 to 23 and Scott's OS/Indianapolis 41 to 18.

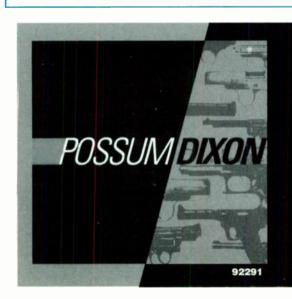

"Airplay from Canadian stations has had people crazy for Sarah for months!"

Rick LeAnnais, Dearborn Music/Dearborn

A Platinum artist in Canada. there are many fans in and out of this industry (count us in!) who would like to see Sarah's name right up there with her other labelmates. To borrow a line from our Best Buy editorial (issue #778), "it's only natural to want to hold her music very close to your heart," and with a tour in progress, a big push at retail via listening posts and developing artist programs, as well as Top 15 exposure at Adults Only Radio and a video on MTV's "120 Minutes" ("Possession"), here's to Sarah being embraced by a whole new audience.

Fumbling Towards Ecstasy makes its Hottest Sales Nationwide debut at #69*, and it moves 12 to 2* on the In-Store Play chart, A total of 107 accounts report chart debuts, including Repeat The Beat/Dearborn #1, Waterloo/Austin #1 and Cutler's/New Haven #19.

ALICE IN CHAINS

Jar Of Flies

Columbia * 5762

"WAXQ, in-store play and their new MTV video have made it our #1 seller."

Emily Kaskela, Last Unicorn/Utica

Alice In Chains has arrived. When Jar Of Flies went into wide release in early February, it made history by becoming the first EP to debut at #1.

The lead track, "No Excuses," scores a Grand Slam! on Power Cuts for the second week in a row. as it jumps 4-3*. "No Excuses" is also flying high on the Most Requested chart (3-2*), and it makes a stunning debut at #2* on the Most Progress chart. Stations like KLOL/Houston and WQFM/ Milwaukee have made Jar Of Flies an 8-4* Hottest Airplay smash. It soars 8-3* at **VIRTUALLYALTERNATIVE** Radio, while it maintains its #3* hold at RAWk Radio, And MTV has the "No Excuses" video in Exclusive rotation.

In terms of sales, Jar Of Flies continues to have a strong presence, as it holds its #1* reign at RAWk Retail.

SMASHING PUMPKINS

Siamese Dream

"People love the Smashing Pumpkins, and we've been playing *Siamese Dream* a lot in the store."

Dave Roos, Cellophane Square/Seattle

Siamese Dream is proving to be one of those albums that keeps churning out hit after hit.

This major label debut from Chicago's Smashing Pumpkins has been a critical and commercial smash, having already spawned the well-received "Cherub Rock" and "Today." The third track, "Disarm," is making waves at radio, as it scores a mighty 67-49* Power Cuts Breakout! leap. KITS/SF and WMMS/Cleveland are among the stations giving Siamese Dream heavy exposure, as it moves 32-31* on the Hottest Airplay Chart. And the "Disarm" video is a favorite at MTV, where it's in Heavy rotation.

Over at retail, Siamese Dream is still a force to be reckoned with, as it holds its #16* position on the Hottest Sales Nationwide chart and stands firm at #7* over at RAWk Retail.

CANDLEBOX

Candlebox

"Heavy WRZX airplay, plus a lot of in-store play, have made *Candlebox* reenter our chart at #6." **John Stinchcomb**, **Tracks/Indianapolis**

One of the biggest rock debut stories of the year comes from yet another Seattle band: Candlebox.

"You," the lead track from their self-titled release, is the #6* Most Requested song for the second week in a row. KIOZ/San Diego is giving "You" 30 Plays Per Week and KQXR/Boise reports 49 PPW, while KAZY/Denver and WIYY/Baltimore are also supporting the track through heavy airplay. MTV has been pounding the video for 14 weeks, and the network currently has it in Stress rotation.

Candlebox is making steady progress on the Hottest Sales Nationwide chart (where it moves 42-41*), while it maintains its #3* hold at RAWk Retail. Stores reporting big sales increases include Tower/Long Island 34-10, Sound Smart/Springfield 20-4 and Budget/Denver 17-1.

JAMES

Latu

Fontana/Mercury * 814943

"James moves 10-8 on our chart, thanks to a recent concert and in-store play."

Ed Zinis, Cheap Thrills/New Brunswick

James isn't a singer, but rather a talented British group with major crossover appeal.

The title track from their latest release, Laid, is already experiencing heavy airplay at KROQ/LA and WDRE/Long Island. "Laid," which features a catchy yodel-like hook, is also getting increased action at WMMS/Cleveland.

As the retail sales figures show, people want their James: Laid soars 67-59* on the Hottest Sales Nationwide, while it remains a #6* hit at VIRTUALLYALTERNATIVE Retail and moves 18-16* at Adults Only Retail. Twisters/Lincoln and Plastic Fantastic/Philadelphia are among the stores that have Laid in their Top 15. James' current North American tour and MTV Buzz Bin rotation will no doubt and have an added effect on sales.

SOUNDGARDEN Superunknown

"Tons of people are looking forward to this album. Radio has been playing 'Spoonman,' and people who can't wait for the album are coming here to buy the single."

Evelyn Dorsey, Tower/Atlanta

Soundgarden's Superunknown doesn't hit the streets until March 8, but it's already causing quite a stir at radio and retail.

The band's trademark crunch is found all over the first track, "Spoonman," which jumps 27-20* on Power Cuts, makes an impressive debut at #25* at VIRTUALLYALTERNATIVE Radio and leaps a whopping 39-16* at RAWk Radio. WBZX/Columbus and KILO/Colorado Springs are among the early supporters that are giving "Spoonman" at least 30 PPWs.

It comes as little surprise that Superunknown is one of the most highly anticipated releases at retail, where it barrels in at #2 on the Hot Futures sales projection chart. MTV just added the "Spoonman" video into Stress rotation, which should increase the buzz on what is already one of the hottest albums of the year.

BEASTIE BOYS

Oh, those Beastie Boys! Fans just gotta have their dose of Some Old Bullshit. This "new" release contains two EPs that have, until now, been unavailable to the US market: Pollywog Stew and Cooky Puss. Also included are two unreleased versions of existing Beastie songs.

Over 50% of the initial sales were attributed to a strong wordof-mouth buzz, helping Some Old Shit climb 39-36* on the Hottest Sales Nationwide. Strong sales increases are reported by Electric Fetus/Minneapolis 30-1, Kemp Mill/Baltimore 72-23 and Zia Records/Tempe 29-8.

Can you say multi-media smash? If you can say Shaquille O'Neal, you sure can! "I'm Outstanding" is the new single from Shaq Diesel that goes 45-39* at Urban Radio; the video is in Active rotation on MTV, it's Top 5 on The Box's Top 10 Rap clips and it can also be seen on BET. Then there's the new book Shaq has, his role in the film "Blue Chips" and his enviable side career as one of the most exposed commercial spokesmen of our time!

It's really no surprise that Shaq Diesel jumps 68-60* on the Hottest Sales Nationwide, with sales influenced equally by radio play, video exposure, and press and TV coverage. MarketMakers showing major sales gains include National Record Mart/Pittsburgh 48-35, Peaches Entertainment/Miami 51-31 and Music Promotions/Columbus 16-11.

PAVEMENT

The road is clear for Pavement to break through to the mass of fans of power-pop music with a sharp edge. Crooked Rain, Crooked Rain is the second release for this group.

Crooked Rain, Crooked Rain debuts on the In-Store Play chart at #12*, accounting for the 25% of sales that were initiated by retail play. Ninety-five debuts are reported for Crooked Rain, Crooked Rain, helping it land a debut at #70* on the Hottest Sales Nationwide. Some of the debuts were reported by Rhino Records/LA, WUXTRY/Athens and Amoeba/Berkeley (all at #1).

The movie, "Reality Bites" is gener-

ating one heck of a demand for the soundtrack! With a lineup that includes World Party, Crowded House, Big Mountain and The Posies among many others, Reality Bites is creating a serious product rush for retailers.

Reality Bites shows upward movement everywhere, including the In-Store Play chart (where it nudges 15-13*) and the Hottest Sales Nationwide (where it soars 97-72*). The single, "Baby I Love Your Way" (from Big Mountain), is the first track to head up the Hit Radio charts (it moves 49-34*, and is the #3 Most Added track). MarketMakers reporting major-big sales jumps include HMV/Cambridge 15-5, Streetside/Columbia 53-22 and Tower/Sunset 54-10.

BJORK

There's no taming Bjork, and just to prove it, she lets loose with the infectious track "Big Time Sensuality," from her album Debut. The video for this single is in On rotation on MTV, and it can also be seen on The Box. This video exposure is responsible for over onethird of current sales on Debut.

Currently, VIRTUALLYALTER-NATIVE Radio has Debut at #20, while it regains strength and moves 91-88* on the Hottest Sales Nationwide, thanks to 22 debuts. Reporters showing sales gains include Tempo/Hollywood 29-17, Wax Trax/Denver 17-14 and HMV/Cambridge 39-30.

RUB WASSERMAN

Rob Wasserman is a name that is familiar to many people. Not just because he's a jazz man, but because of his strong connection to the Grate-

ful Dead

That automatic fan base helps rope in 37 debuts and secure a #98* debut on the Hottest Sales Nationwide. In-store play and word-of-mouth buzz accounted for well over 60% of the initial sales that were seen by MarketMakers who reported debuts. Some of those reporters showing debuts for Trios are HMV/72nd & Broadway #49, Rhino/Albany #4 and Waterloo/Austin #10.

Thanks to the Possum Dixon cut on TuneUp #25, their CD is selling like hotcakes! Also, every time we play the Indians track, we sell the whole album!

Rebecca,

Musicland/E. Lansing

"If That's Your Boyfriend" is the track from Me'Shell NdegeOcello's debut release on Maverick Records, and it has been creating quite a stir at retail recently. The track zooms 50-33* on the Urban Radio charts, while its accompanying video is in Active rotation on MTV.

Plantation Lullabies debuts at #99* on the Hottest Sales Nationwide, with in-store listening posts accounting for almost all of the current sales! MarketMakers showing a significant increase in sales include Tower/Rockville 75-29. Kemp Mill/Baltimore 22-20 and Tower/New Orleans 61-32.

FIRST TREMORS

Over the Valentine's Day week, a new release literally exploded in sales at major retailers nationwide, One Life To Live (SBK/ERG), including Wherehouse/LA, The Wall Music, Inc./Philadelphia, The Wiz/NYC, Strawberries/Boston and Tower stores everywhere. This soundtrack features some of the ABC soap's most romantic moments sung by some of music's hottest, including Billy Dean, Stephanie Mills, Brenda Russell and Michael McDonald, to name a few. SBK/FRG has cleverly crafted an almost foolproof marketing strategy that includes having the songs custom-tailored to fit the soap's story lines, having some of the performers actually written into episodes and publicizing the project to its ready-made audience of hard core TV fans.

Who I choose to rock my world ain't up for review" ("Ugly"). That's provided in the state and for Sass Jordan it's a simple state and from a hellaciously talented lady! Rats, Jordan's following release to her 92 album, Racine, will be released on March 1. Almost 200 Rock Radio stations have already jumped on the lead track, "High Road Easy" (which scored a Homer! its first week out), immediately driving it into the Top 10 on the Power Cuts chart. At this early stage of the game, the single is averaging almost 20 PPWs at reporting Rock Radio stations.

If you haven't heard Sass Jordan sing, you've missed the stylings of what certainly may be one of the best rock and blues singers of this new generation. Sass has a power and feel in her voice that a not often heard in contemporary artists. And feeling the music is what Sass does best - just think back to her duet with Joe Cocker on "Trust In Me" for the "Bodyguard" OST (which has played on over 10 million record buyers' systems), and then look ahead to cuts like "Give," from her current release.

Jordan has a knack for drawing some of the most soulful players around, and this time is no exception. Stevie Salas co-produced, co-wrote and played guitar for *Rats*, and Nick Didia (engineering master for Pearl Jam and Stone Temple Pilots) was also on board as co-producer. They were joined by other boogie cats like Richie Kotzen, funkster George Clinton and Ian Moore (who lays down some tasty slidework on "Wish").

Sass Jordan and her "Road Rats" will be rockin' the house all across the country when they take to the tour trail. Rock Radio has sunk its teeth deep into Rats and this could very likely prove to be the year and the album to put Sass Jordan over the top. There's never been any question that Jordan has the energy and heart to rock among the best of 'em, and now, with her finely tuned spirit and emotion, she'll be turning the heads of listeners everywhere.

Scene

LA's Troubadour will go down in history as one of the most important rock clubs ever to grace the planet.

Consider this: It was the place an unknown Brit named Elton John made his US debut in front of 600 awestruck people; where Troub regulars The Eagles, Jackson Browne and Joni Mitchell hooked up with David Geffen and went on to become the Platinum backbone of Asylum Records; where a strange comedy duo calling themselves Cheech & Chong were discovered, and where artists ranging from Van Morrison to Black 47, Lenny Bruce to Richard Prior, Kenny Rogers to Neil Young, Jim Croce to Tom Waits, Jimmy Buffet to Pearl Jam and Kiss, The Cranberries, Joan Baez, Janis Ian, Guns N' Roses, Blind Melon and a host of others all carved out names for themselves.

From its humble beginnings as a coffee house in 1957, to the vital role it played during the 60s and 70s, when it championed the singer/songwriter and entire tours were built around whether or not an artist could get a booking at the famous haunt. Doug Weston's Troubadour has written itself into the history books.

The Troub's star has waned a bit in recent years...competition, the money-driven 80s and the advent of the "pay to play" approach have all contributed to its slip. But current Troubadour manager Lance Hubp is out to change all that.

This week, Hubp shares his observations on the way it was, and the way it could be once again. And while the Troubadour is just one club in just one city, its many trials, tribulations and hopes for the future echo the situation many of the nation's heritage nightclubs find themselves in today.

Fruuhadour

Can LA return to its role as the music mecca of the world? Something that it hasn't been for a very long time?

Sure, the major labels are still here. But that's only half the equation. What about the local venues that once played such a fundamental role in developing and showcasing the best of the new, up and coming talent? There are still a few local venues

trying to make a contribution, but, in recent history, the most powerful local venues are those whose presence has made the least contribution - the reason being that their business practices have become entirely about money.

By renting a facility out, one brings yet another element, the promoter, into the equation, and either the ticket price must go up (not good for the

fans), or the band's fees must go down (not good for the band). In most cases, both happens. And then there was the introduction of "pre-sell" (aka "pay to play"), which meant the bands would be asked to buy tickets to their own show at a discount from the promoter, and then resell them to their fans. This proved to be an incredible marketing tool, but, in turn, left the door wide open for a band from, say, Lincoln, Nebraska, whose dad owns the local Cadillac dealership, to buy headline engagements in several of LA's finest venues, regardless of their musical merit. The "pre-sell" monster rears its ugly head once more by compromising the integrity of the bill. Selling the slots on a bill means the seller is looking for a buyer, and the

priority is money, not musical style. The end result is a mosh posh bill, one band heavy metal, followed by an R&B group, then a glam act, then a pop act. And the fans lose again.

The labels fueled this fire by utilizing the very facilities whose business practices would kill the goose that laid the golden egg simply because they were the best equipped. They were better facilities because they were all about money, and could afford that which their competition could not. Expedient for the labels, but shortsighted. The result is that the labels have had to spend a tremendous amount of money sending people around the world to find the music and talent that once came to their doorsteps.

Enough gloom n' doom. That isn't why I am writing this editorial, but rather the foundation upon which I build the following positive argument for the future:

Recently, there have been several positive trends. First, in the past couple of years, local coffee houses have flourished, bringing with them the resurgence of the singer/songwriter in its most basic form. Secondly, there has also been a change in the national market from happy-go-lucky party bands with good looks to raw talent and messages that speak of harder times and struggle - the issues of real life. Sixteen-year-old girls who once clamored to see pretty

boys are now after Eddie Vedder, or buying the new Smashing Pumpkins album. On the local scene, several of the clubs that have recently been only rental houses are trying their hand at experienced over the past few years, we are still a long way from the "family" of musicians that once existed; I could not get four stars on Christmas Eve unless my life depended on it.

Rebuilding the circle, a music community, where the opportunities for collaboration skyrocket, is of utmost importance. The Eagles formed out of just such a circle at the Troubadour. It was a place where the players came when they were out of a project and looking for another, because it was where the players were. The more collaboration, the better chance that a musician will find other kindred souls to create with. In my mind, there is no better example in music of the sum being greater than its parts than The Beatles. They all brought their own special talents, but the sum of their (and producer George Martin's) collaboration was difficult to believe even as it unfolded before my ears.

I believe the change is trying to come. I write in hope of accelerating that end. Instead of accepting the small market share that we have created for ourselves, why not return LA to the music mecca of the world that it once was, thereby increasing our market share of the entertainment dollar, and even increasing entertainment's market share of the total market dollar? Bringing back the magic can do that. There could be more money to go

in-house booking. And the promoters that still utilize 'pre-sale" are becoming fewer, and presently command less money for the slots on their bills. If everyone who

music, whether lover or businessman, ticket-buying fans or industry decision maker, could begin to be more cognizant of the policies perpetuated by the dollars they spend in the LA market and spend those dollars like "votes," for or against any given policy, a change could evolve. It would be positive, the music would explode and the business would flourish.

In the three-plus years I have been at the Troubadour, I have taken part in countless conversations with patrons who tell me about seeing "so and so" here on February 15 of 1964, or May 3 of 1970. Their recollection of the night in question is unbelievably clear as they remember a magical, cherished memory. So many people claim to have been here that fateful night that Elton John was signed that my response has become, 'It must have been a much bigger room that night, because you are at least the thousandth person who has told me that, and our capacity is only 450!' Off the top of my head, I could not tell you where I was on February 15 of 1964, and yet these people have a specific date on the tips of their tongues. They witnessed something extraordinary.

There was a time when, on Christmas Eve, the Troubadour stage would be graced with four national stars, all drinking eggnog and singing Christmas carols, because this was home for them. It was where their family lived. Given all the progress the Troubadour has around, and it wouldn't have to be laid on the backs of the musicians, or be taken at the expense of the music; rather, it would be to their credit.

The most recognized art of any time speaks to the most people of that time by reflecting the important elements of their lives. We now find ourselves in harder times, which has led us to examine ourselves and our society, and we look to art for answers and affirmations. Why not also look at the systems in the local market and ensure that what could come, does?

This is the business of music. It cannot be ignored, nor should it be condemned. Without it, there would not be the opportunity for the artists of the time to fully commit themselves to creating. Like it or not, that freedom and opportunity is financed by the business, and gives us the chance to choose collectively who among us is given that freedom.

A condensed version of this article ran several times in BAM magazine under the title "Stirring It Up." I would like to thank BAM Publications for their support and that opportunity.

In closing, I would like to thank Tommy Nast for being a sounding board on the original article and being the impetus for my writing this expanded version. I would also like to sincerely thank The Album Network for this forum.

Panic On"

We may not be cute, but Arbitron will pay us two bucks to fill out a diary! By now you've had time to spend some time with VIRTUALLY-ALTERNATIVE #2. If the US Mail service still works the way it used to, you should have had a copy sitting on your desk when you returned from San Francisco. From finance to co-op to a behind-the-scenes

look at the music industry, it has it all. Copy the co-op article and pass it on to your GM, GSM and sales people, they need

it!...If you haven't cleared the Cranberries show yet, time is running out. It was produced by former Smiths producer Stephen Street and boasts two unreleased, and unbelievably good, tracks. Call VA at (818) 955-4000. Don't make us clear it across town.

Thank God the weather in San Francisco was sunny and bright, otherwise the convention would have been a complete waste. Before we get too far into this thing, we have to say, "Joel Habbeshaw sucks!" If you know him call him and tell him so. The staff of VA had spent hours in preparation for a closed door session re-enactment of the Harding/Kerrigan battery. We secured a scary black mask, a look-alike iron bar (actually made from soft rubber) and a would be henchman (Joel). All that was left was for Joel to put on the mask, race through the closed door session and strike out at Linda Ryan's leg. Finished with that task, he only had to run a few feet to the VA staff, pick up his cash reward (we should state at this point that we love Linda Ryan and wouldn't hurt her for the world), and head south. Unfortunately, Habbeshaw pussed out, leaving Jed "The Fish" to sum up Arbitron's weak presentation. Next time please come with answers or don't come at all..

Convention highlights: Beirut in the lobby of the St. Francis (did someone really get shot in the Def Jam suite?)...The new and improved Matt Pinfield: Nutri-System would be proud...Jim McGuinn's last- minute, and successful, play for KPNT...Joel Klaiman's Buffalo Tom "listening party" at the Pan Pacific Friday night (call him for details). "Taillights Fade" has got nothing on "I'm Allowed;" too bad you weren't allowed in that listening party. You'd join WDRE, WFNX, WXRT, WBRU, CIMX. WENZ and many others in bringing this track home....

Mike Halloran's twisted sense of humor...Steve Masters' baby photos (thanks for the piggyback ride, Steve)...Tom Calderone's imminent syndication expansion... Stabbing Westward Saturday night. Mark Kordellos' head banging...Kurt Steffek's kind words...Tod Elmore holding court during Machines Of Loving Grace...True rumors about WLAV switching formats (FM to classics, AM to satellite)...Paul Orescan introducing Bridget, a 6'8" transvestite in red sequins, who happens to be in a band, God's Girlfriend, to anyone Bridget thought could help his/her career. No more drinks for Paul....

Super Frank's super-secret meetings...Blaze Brooks, because he is the man. Willobee for NOT managing a band... Sandy Horowitz, because he is the most talented young programmer in the format. Wait a few years, you'll see...Bud Scoppa and Lisa Christiano at Course Of Empire with an open bar tab...Chris Corley getting reamed by a non-English speaking waitress and Beth Littrell, who taught a class in serious trouble causing...Mike Jacobs tossing some worthless trade in the trash...Wendy Naylor and George Gimarc working it in true Texas style...Phil Manning just because he is a stud...lan Scott giving college a serious dose of reality (lan GETS it!)....

Mary Moses, who was in 10 places at once...Jim McNeill for Postrio and "I need a table for 20 with no reservation" weight - and getting it damn fast...Thomas Westfall for doing the same - the only difference being the manager recognized Thomas, called him Mr. Westfall, personally escorted us to our seats and comped us a round of mimosas...Patty Martin, who is one of the most professional and knowledgeable MDs out there...Buzz Fitzgerald quoting Neitzche and not taking any shit... Marco Collins being Marco - which is a good thing...Dom Casual for remaining a font and refusing to become a super hero - even if he is PD...Will someone please hire Shark from KNDD, he needs a full time gig - call me for a smokin tape. Shark also rules for introducing me to Kerri Lee. Kerri and Gabby Modecki should be giving seminars on how to promote a station, they are the best....

Rebecca Jones working the job market...Jeff Marks working college he's more infectious than a virus... Missy Worth at the Stabbers - how long before she gets her own label?...Jon LeShay and Faith Henschel refusing to succumb to convention bullshit and remaining above it... Kevin Weatherly saying trades are of no use to him when what he really meant to say that now that he's hired his APD and MD from a trade, they're of no use to him ouch...We switch to Plays Per Week soon, so get ready...Scott Carter, whose game show was the only highlight of the whole pneumonia-fest... Chris White - can "Jeopardy" be far off?...Ted Taylor, who came close to killing the Arbitron monkey...Sean Maxson - who'd never been to the big city before. Just kidding, Winston-Salem does count....

Promo guys whose asses you should kiss: Ron Poore, because of Rollins; Gary Spivack, because of Live; Todd Bisson - because he's Bisson; Jack Isquith, because of Soundgarden.

"Nothing" Columbia

By now you should all be aware of Stabbing Westward via the cover of last week's VIRTUALLYALTERNATIVE, their subsequent electric performance at the Gavin convention, or the pre-release "Violent Mood Swings" CD5. If you're still in the dark about this band, a quick spin of "Nothing" should clarify matters for you. This Chicago act is a band with an unflinching grasp of how to integrate brutal aggression and stinging melodies into a unified whole with great hooks. "Nothing" begins with a biting guitar riff, supplied by Stuart Zechmann, that makes the song instantly memorable before moving onward with the aggressive vocal attack of Christopher Hall. Stabbing Westward is that rare band that can carry off material brimming with emotion without coming off petulant or pretentious.

Nine Inch Nails

The Downward Spiral Nothing/TVT/Interscope/TAG

Trent Reznor returns with the first full album of NIN material since 1989's groundbreaking Pretty Hate Machine. Since that time, Reznor and NIN have become synonymous with industrial music, a mantle that Reznor seems hesitant to relinquish on The Downward Spiral. The Downward Spiral is both a step forward and a step backward for NIN. The overall tone of the record has more in common with Pretty Hate Machine than it does 1992's bristling Broken EP, relying more on melody and structure and less on brute force.

Contrast is the name of the game, with tracks alternating between aggressive noisemanship (as on "Mr. Self Destruct" and "Big Man With A Gun") and an almost serene, lulling quiet (on tracks such as "Piggy" and "A Warm Place"). Reznor is a master at making this contrast work, as is evidenced by the first single, "March Of The Pigs," which uses a piano break as the song's hook before it dives back into a maelstrom of noise and distortion. While most "industrial" acts are taking the industrial sound to almost ridiculously intense levels, Reznor proves himself at the forefront of the movement with The Downward Spiral, by achieving the same discordant alienation without using angst and aggression as a crutch to do it. Instead, he reinvents himself and his fans' expectations of industrial music with an album of both musical and emotional depth.

VE

Beck

Mellow Gold

Music magazines across America are blaring the "Who Is Beck?" headline, with each trying to grasp and pigeonhole exactly who Beck is and exactly what his music means. Good luck to them all, as *Mellow Gold* pretty effectively proves that there is no pat answer. Who Beck is, is a 23-year-old Los Angeles singer/songwriter, who until the release of the "Loser" single, was only a minor presence on the local coffee house and club circuit. Now, with "Loser" burning down phone lines everywhere, Beck is well on his way to becoming a household word, which is even more remarkable given the eclectic nature of *Mellow Gold*.

The music of Beck fits into no easy categorizations. The lyrical content tends to be observational in nature and is filled with off-the-wall humor and whimsy. The music itself is equally off-the-wall, combining elements of folksinging, rap, industrial vocal distortion and rock into skewed bits of musical reality that are both unsettling and refreshing. While "Loser" is an easy single pick, there are other tracks worth your attention here, including "Nitemare Hippy Girl," "Beercan" and "Pay No Mind (Snoozer)," which all contain similar off-kilter arrangements and lyrics.

Sarah McLachlan

Fumbling Towards Ecstasy

Arista

Fumbling is hardly an accurate description of the production of this album, which could be Canadian Sarah McLachlan's finest release. Her third studio effort, Fumbling Towards Ecstasy explores a terrain of smoothly engineered vocal music,

characterized by cool drum beats and inflected with cadential guitar stabs and ambient synth effects. McLachlan has put together a solid band for her material, including longtime Peter Gabriel drummer Jerry Marotta on several tracks, but the shining star of the album is McLachlan herself, of course. Her voice takes us by the hand, leading us from the seductive dance ideas of the opening track, "Possession," to the wrenching emotional longing of "Good Enough." Critics and listeners will quickly realize that Fumbling Towards Ecstasy displays everything that they loved about McLachlan's first two releases, and much more.

Failure

"Moth"

Slash/WB

With more experience both in front of an audience and in the studio under their belts, "Moth," the first single from Failure's sophomore effort, Magnified, is a much more fully realized sound from this LA based-band. Starting with an ominously building beat, "Moth" begins on a quietly melodic level before kicking in with a dramatic intensity, booming guitar sound and a sharp, understated hook. "Moth" showcases a sound that is at once refined and in-your-face powerful, demonstrating that Failure is ready to become more than a critical favorite.

EatEpicure

Fiction/November

Surviving a breakup of three years earlier, Eat have reformed to surpass their former heyday of playing the 80s party scene of King's Cross, England, a time when they and The Cure were the sole acts on Fiction Records. With the release of *Epicure*, the band proves that the shuffling of guitar players between this album and their previous releases has only added to the strength of their musical vision. Vocalist Ange Dolittle fluctuates between gentle crooning over folksy motifs and mysterious whispers that approach the ethereal. Guitarists Jem Moorshead and Max Lavilla complement Dolittle, providing him a range of emotions to work from. Whether they are strumming gently, or laying down a chilling, distorted solo, Dolittle finds the vocal answer. Surprisingly, the band's songwriting techniques include trading instruments and "tying a few on." Don't pass by Eat, and pay particular attention to the sparkling first single, "Shame," which a number of astute programmers have already jumped on.

HE GRANIETE PLANET

It is a welcome sight to finally see Type 0 Negative tour dates. Apparently it took some real convincing to get Steele to put a live show on the road. Bloody Kisses is such an interesting album and it completely lends itself to a mad, visual assault. Can't wait for that one Van Halen has been raring to go back into the studio, and now that Sammy Hanar has finished recording the new songs that will be on his upcoming greatest hits album, they can W CMC, a promising new label that made the move from Europe to the US, is getting a lot busier. Accept, their first really strong act, did very well and is already back in the studio recording another album. They have also signed Yngwie Malmsteen, picking the US rights to his latest album after its Japanese release. Yngwie and his latest band, which includes Mike Viscera (ex-Loudness) on vocals, aren't wasting any time - they're hitting the road ahead of the album's release. CMC has also inked Kix and Blackthorn (a new band that features Graham Bonnet and Bob Kulick) The Sleez Beez were recently spotted finishing an album in New York; they're looking for life after Atlantic as they search for a new label 1 got a chance to hear the final mixes of the new Violet's Demise record that's also headed for release shortly. Most rock fans will recognize a couple of names in the band: Rowan Robertson and Oni Logan. Any preconceived ideas on what this band sounds like will be mere speculation. I was very pleasantly surprised by where this band was headed musically. It's a very ambitious album produced by Dave Jerden, who prefers to work with underdogs and then turns them into contenders ## A newcomer that will be in your face shortly at radio is Downset. I think RAWk Radio will find Rey, the band's vocalist, street poet and social philosopher, quite a talent with a very powerful viewpoint. The first single, "Anger," is a real slammer and should get listeners down with the set real quick # Mr. Big is using the good, old fashioned approach by booking medium-sized rooms and heading out on the road @ L7 is doing studio time with Garth

Jon Sutherland

Richardson, getting their highly anticipated new album together.

Died Pretty Trace

Died Pretty formed in Sydney, Australia, in 1983 when singer/lyricist Ronald S. Peno and guitarist/songwriter Brett Meyers got together. They released their first EP in 1985 and their first full-length album, Free Dirt, in 1986. As a result of the critical acclaim this album received in the British press, they signed to Beggars Banquet. The next several years saw them tour the world relentlessly. They also recorded two more albums, both of which were released in the US. The second one, Every Brilliant Eye, reached the Top 10 on the alternative charts. In 1991, their follow up entitled, Doughboy, was also very successful. More touring was to follow in addition to a new deal with Columbia via Sony Music in Australia. This brings us to Died Pretty's fifth release, Trace (their Columbia debut).

The band is now rounded out with Rob Warren on bass, Joey Hoey on keyboards and Chris Welsch on drums. Their music touches on subjects that are universal. The catchy, lead-off track, "Harness Up" (there is an extended version on the Pro-CD), is a positive affirmation that happiness is sometimes where you least expect it! "Headaround," with its great guitar work and anthem-like qualities, is another song with an uplifting message. "Caressing Swine" takes a serious look at wife-bashing. But, it is "A State Of Graceful Mourning" that displays the depth of emotion Died Pretty is capable of.

This Hugh Jones (Simple Minds, Pale Saints) production affirms the growth Died Pretty have experienced, especially in the areas of melody and arrangement.

Downey Mildew

Slow Sky High Street

Downey Mildew's music will remind you of The Cranberries. The Stone Ponies and even It's A Beautiful Day (am I dating myself?). Throughout Slow Sky there are traditional folk influences, jazz and classical overtones and even a touch of oriental flair. Their musicianship clearly stands out in the creative arrangements, and Jenny Homer's unique vocal style has a presence that commands your attention. Members Charlie Baldonado (quitarist and co-songwriter with Jenny) and Salvador Garza (violin) handled production and string arrangements, respectively. All of this blends together to give Downey Mildew a sound that, in the end, is truly all their own.

Several songs are worthy of airplay. I especially like "Your Blue Eye," "Left Foot Down," "Girls By The Lake," "That He Wrote," "Them That Dream" and "Machine." Be sure to check out the Pro-CD as well, because, in addition to "Left Foot Down," there are a couple of cool bonus tracks.

Rob Wasserman

Trios GRP

This was a once in a lifetime recording event! It had been the dream of bass wizard Rob Wasserman for a very long time. The idea was to bring a diverse group of artists together and put them in a trio setting. Each would have the opportu-

nity to contribute in an immediate and personal way, on all levels. Rob and, more importantly, the bass, would be the divining rod that would draw and

channel this creative energy. Well, it has been three years in the making, with a lot of time and work, but it is now a reality, and Adult Rock Radio has wasted no time in embracing it.

Included are trios with: Brian and Carnie Wilson; Elvis Costello and Marc Ribot; Bruce Hornsby and Branford Marsalis; Jerry Garcia and Edie Brickell; Willie Dixon and Al Duncan; Bob Weir and Neil Young and Chris Whitley and Les Claypool. Many of the above mentioned artists were also involved in the arrangements and the songwriting.

Several producers were involved including John Cutler, Don Was, Dave Grusen and Larry Rosen. Executive production credits go to Wasserman's wife, Clare, and Stephanie Clarke.

Trios completes a trilogy that Wasserman began in 1983 when he recorded Solos. The second in the series was his Grammy-winning Duets, released in 1988.

Pat McLaughlin

Unglued

Pat McLaughlin has been through the school of hard knocks and has turned out stronger because of it! His past includes stints as a short order cook, a carpenter and a world class drifter...he even had a major label deal that resulted in an album that was never released. A few of his tunes have been recorded by other performers (he co-wrote "Daddy's Little Pumpkin'" with John Prine for his Grammy-winning The Missing Years), but what it really comes down to is that McLaughlin just loves to write songs and play them. Enter his new release, Unglued, on Austin, TXbased dos Records. It was produced by Ben Keith (best known for his steel guitar work with Neil Young).

What's attractive about McLaughlin's music is its no-frills, almost gospel-like passion. He seems to be constantly searching for that good groove, and he has certainly found it on Unglued. From the bouncy "Better You Get Ready" to the introspective "Highway Of The Saints" to the sultry "Friendly Bird" and the peaceful "Long Time," you know he is singing from his heart and has finally found some resolve in his life. His drifting days are over, and, as Pat puts it, "The only driftin' I do now, is when I play my guitar."

BINES 88BNEB

Charlie Musselwhite

In My Time

Charlie Musselwhite is easily the grand master of blues harmonica. His career spans over 40 years! On *In My Time*, he steps back a moment to reflect on the three distinct blues eras that not only influenced him, but on which he also had an influence: Acoustic blues, 50s-style swing blues and contemporary blues.

Koko Taylor

Force Of Nature

Alligator

Koko's Farce Of Nature is already doing great at Adult Rock Radio, but I would be remiss if I didn't spotlight it here! Long the Queen Of The Blues, she drives the point home with raw vocal power and conviction. The first-class players that accompany her obviously had to work hard to meet her high standards.

Charles Brown

Just A Lucky So And So

Another veteran of the blues scene, Charles Brown has been making his music for over 50 years in Los Angeles. During the late 40s and early 50s, he ruled! Featured on *Just A Lucky So And So* is saxophonist Clifford Solomon (of Lionel Hampton and Ray Charles fame) and Danny Caron on guitar, with arrangements by Wardell Quezerque.

Doyle Bramhall Ried Nest On The Cround

Bird Nest On The Ground

Texas is certainly a hotbed for blues preservation, and one of that state's brightest "next generation" stars is Doyle Bramhall. He co-wrote several songs with the late Stevie Ray Vaughan and has played the club circuit religiously. *Bird Nest On The Ground* showcases his own unique interpretation of the blues and its many genres.

Luther Tucker

Sad Hours

Another Texas mainstay is Luther Tucker. On Sad Hours we are treated to his more traditional style of blues that pays homage to the early delta masters like Elmore James and Muddy Waters. It is a mixture of originals and renditions that preserves the dark, smokey club atmosphere.

Smokin' Joe Kubek

Texas Cadillac

Don't let anyone tell you that Texas has a shortage of blues players! Smokin' Joe Kubek, his sidekick Bnois King and the band have been on the club circuit forever. One listen to *Texas Cadillac* will tell you that those dates have sharpened the skills of the band to a fine edge. You'll swear you're right there in the

World Radio History front row.

Marvelous. A record unlike any one will hear this year.

Espresso Logic EASTWEST/ATLANTIC/TAG

God, I love Chris Rea's rich and commanding voice! He delivers lyrics like a poet. And because Rea's voice is so singular, it's easy to overlook his other side; his exceptional slide guitar prowess. He only began playing when he was 21, but was quickly able to master the instrument and develop a style that is soulful, subtle and delicate.

Since 1978, this Englishman has been carving a niche for himself as a gifted guitarist/songwriter with his distinctive brand of soft rock that incorporates elements of pop, blues and jazz. The Top 5 hit "Fool If You Think It's Over" (from his debut album What Ever Happened To Benny Santini?) earned him a Grammy nomination for Best New Artist that year. Fifteen years later, he still enjoys only moderate success here, but his popularity around the world is staggering. His relative anonymity in America sits well with him, though. He has always stood for quality music with intelligence, not just commercial appeal.

Espresso Logic, his first album for EastWest, but his ninth release in the US, will certainly take Chris to the next deserved level in the States. It is a compilation of the best material from his past two European albums, Espresso Logic and God's Great Banana Skin. High anticipation has preceded its release, with several Adult Rock stations jumping the gun and playing it via the imports (EastWest is going for adds on the domestic release on Tuesday, March 8). Quite a few tracks will jump right out as you listen. The title track sets the mood for us, and the infectious 'Julia" has a great drum riff, a very uplifting melody and an unforgettable hook. "Johnny Needs A Fast Car" picks you up and takes you along for a cool evening ride, "God's Great Banana Skin" and "Devil And The Deep Blue Sea" showcase his exceptional slide quitar style, and "If You Were Me" features a duet with Elton John (it's also included on Elton's Duets release).

Chris Rea is the sort of artist who has always defied images and expectations. His moody and impassioned Espresso Logic is a bold milestone in his career.

2ND VIEWING

THE SAMPLES The Samples exemplify what good, adult-oriented music is about: Great The Last Drag songs. Impeccable harmonies. Strong W.A.R.? musicianship. Even though The Last

Drag has been out for a while (and has done well), it deserves to remain on the air for many months to come. The band is continuing to sell out everywhere as they tour, and the reviews of their shows have been stellar.

Make the time to take out The Last Drag again and put it in your CD player. As it tracks from song to song, your enthusiasm for the entire project will surely be retindled. "The Silver Ring," "Conquistador," "The Streets In The Rain," "Taxi" and "Carry On" (Larry Wallach's next emphasis track) all possess the same magic "Still Water" has.

There are those certain albums that slowly creep into a station's library and eventually become staples. The Samples' The Last Drag is destined to be one of those albums

Michael Cross KJKJ

As you know by now, Radio & Records has dropped KJKJ and 15 other key AORs that were breaking new msuic by new bands (the reason record companies love R&R reporters). I do not understand why a record company that begs for adds every week, and gets a lot of them at small market radio stations, twists R&R's arms and forces them to drop reporters in all formats, thus saving a reported \$1 million a year. Okay, now add up the total population of those small markets and you end up with over two million people that no longer matter to the industry. That's a lot of lost record buyers who won't be exposed to new music anymore except through MTV - because the AOR has probably quit playing currents and flipped to a classic rock format. Why is it that everyone seemed to bitch about R&R and yet still worship everything they say and do?

If times are changing, it shouldn't matter whether KJKJ is a reporter or not. Isn't an add an add? We proudly report to Album Network, FMQB and the Hard Report. If these trades didn't matter, we wouldn't report to them...but we do, and an add is still an add on those pages. If losing R&R reporting status means an annual \$20,000 loss in promotions, CD/cassette giveaways, time buys, etc., then what's the reason to add any currents from now on? If record companies deem us unimportant, then I would imagine that come Tuesday, their priority record will be really unimportant here. The whole business of record companies living for "breaker" at R&R is coming to an end. BDS is the future, and while we might not have it here in Grand Forks yet, there will be a day when we will and the record companies that decide we're not important today because of the loss of R&R status, will really regret that when BDS takes over. For those labels that still believe we do matter and we do sell records, we can't thank you enough for your continued support.

So much to mention...so little time. First stop: Elvis Costello. If you're at a heritage rocker, of if you lean upper-demo or even classic, I can't imagine why you're not playing "13 Steps Lead Down." Many of you play "Pump It Up," "Allison," etc. like Elvis is a heritage artist (which he is), and here we've got said artist returning to his roots. I could see if "13 Steps..." sucked, but it most definitely does not. In fact, it rocks! Which is exactly why you should play this if you're at a lower-demo-leaning station as well. Granted, your audience may not be totally familiar with Elvis, but I doubt if there's any negatives there, and the guy proves he's still hip. There's lots of time left, but just remember, you don't want to be caught with your pants down when the album hits the stores, and you certainly don't want to miss the boat when he hits the road with **The Attractions** in April. This week's **Candlebox** update shows Gold in the near future for the boys, and "Far Behind" in the near future for all youse. We're readying live versions of "Far Behind" and "You" for inclusion on the Pro-CD, and if you've somehow missed this band in spite of its constant touring, you'll get a taste of its explosiveness (and a bit o' Hendrix) through these cuts. Up next from WB; the brand new Cheap Trick, which'll reach your hot little paws in just a week or so. Actually, when I say "brand new," I'm referring to the music, not the band, which features all of the original members you know and love. You'll seel I'm out.

Cathy Faulkner

It is really nice to see more radio stations submitting Crusades. It really helps to hear what's going on in your world. If I had the time to call you, I would. Your comments are a breath of fresh air and very valuable to me...KEEP IT UP! Our morning show, Twisted Radio, has been reporting live from Lillehammer...makes for great radio. No interview with Tonya yet; we'll keep you posted. We did get a chance to chat with **Bill Nye** the Science Guy...check out his Disney show, it's fun and educational. Two bands to keep your eye on (and add) are The Poor and The Wildhearts! The Poor are from Australia and will go on the road with AC/DC. Also, The Wildhearts is SO cool! The song speaks for itself.

Bruce Springsteen's "Streets Of Philadelphia" is his biggest hit in nearly 10 years on a number of

levels. Even the research monsters who love
to bring up the fact that Bruce has never
really tested well are happy to say the
research on "Streets Of Philadelphia" is very good. This is true at
Album Radio and Top 40. Carter
Alan's Crusade last week summed
up the way many people feel about
Bruce past and present: "Bruce
Springsteen's 'Streets Of
Philadelphia' has reignited interest in

the legendary rocker's classic catalog here at WBCN. Much of that music has been on the back burner here for nearly two years, following the overkill and burn from his simultaneous two-album release. With the megawinter still very much with us here in the East, it's great to pull out '10th Avenue Freeze Out' once again!"

Cry Of Love registers another killer week as it approaches airpower in BDS after only two weeks on the air. The story just continues to build as the record continues to sell 5,000 a week and only shows signs of getting stronger. What do Steve Young (KISW), Curtiss Johnson (KUPD), Bob Elliott (WAXQ), John Gorman (WMMS), Ron Valeri (WAAF) and John Robbins (WLLZ) have in common? They are some of America's most astute and conservative programmers. They are also some of the people who have added Dandelion in the last two weeks. This record is also performing and beginning to get phone calls. Make sure you're plugged into this record. It sounds great on the air. Bruce Cockburn has recorded the best rock track he's done in his long career. "Listen For The Laugh" is on your desk now. Get it off your desk and put it on the air.

Sheila - thanks for a successful Gavin Rocks! Extra thumbs up to Ronnie James and Bobby Biohazard. Special thanks to Psycho and Ron Quintana (KUSF) for keeping me up all night. Dio's "Evilution" - phones everywhere! Take note, all you COR types! TOURING: Candlebox with Eleven! Then out again for another leg with Rush! Green Apple Quick Step with Fishbone! Strip Mind is still charging on with The Organization and Muzza Chunka. They wind down March 13 at the RIP party. Morbid Angel bringing new converts on the road with Motorhead and Black Sabbath! YES YES YES. A new Metal World News is on its way soon! 3/8 - add Altered State. You have the track, "Darkness Visible." Spend some time with this and allow your listeners to spend time with it! The band is amazing and shouldn't be overlooked! Call us for more info! Also, don't be the Last In Line for DIO phoners. Call us and we'll set you up.

Hey! Call me if you want your band to play at MTV Spring Break March 8-14 live on the sand in San Diego. I'm recovering from Gavin today. What fun. Thanks to all who made our spectacular San Francisco stay possible. Dave, you are the coolest and you will make I Mother Earth huge. Keep up the head work. Munsey...Munsey...need I say more? It was great to see Judy McNutt, Gregg Steele, Michael Lee, Psycho, Russ and Steve Prue and all my other radio and record buds. Thanks again for the abuse of all your expense accounts! The new Motley Crue sounds great and is requesting

heavy. I like the new **David Lee Roth** (the song, not the haircut!) **Lucy's Fur Coat** is still hot; play 'em! Okay, see you at SXSW?

Hi, everyone! Those folks at Rounder have been bombarding us with great new music...glad to hear so many of you like Rory Block's newest, Angel Of Mercy. The Blazers also have a very cool album seeking your approval. I have a feeling many of you will really dig this. Also, let's not forget about Vance Gilbert and Smokin' Joe Kubek, who continue to see significant action. Moving on to Carlos Santana's project, Sacred Sources 1 - Live Forever...this is an incredible compilation. With a renewed inter-

Incredible compilation. With a renewed interest in reggae, the **Bob Marley** tracks should fit in nicely. And last, but certainly not least, here's what's new from the **Antone's/dos** camp: **Pat McLaughlin**'s new CD, *Unglued*. It's on your desk. Also, be looking for a solo album from **Doyle Bramhall II** - this will knock your socks off! Great seeing everyone at Gavin! Have a terrific week!

It was a busy week at 'DHA. In-studio guests included the Devlins, Blackfoot and Damon Johnson of Brother Cane. Thanks to Capitol's Frank Murray and Virgin's Bridget Hollenback. Thursday was a wacky night. Firstly, Brother Cane opened for Aerosmith at the Garden. From there it was uptown to catch Possum Dixon's rehearsal for Late Night." These guys are definitely a band to see. "Watch The Girl Destroy Me" goes to medium this week. Finally, it was downtown to see Danzig. The crowd was whipped into a frenzy. I'm not sure, but I think I saw Karen Durkot, Bob Divney and Mark DiDia in the mosh pit. You should have seen it when Bill McGathy jumped on stage to jam on "Mother." What a night! The new David Lee Roth is simply the best thing he's done since Eat 'Em And Smile. The Screamin' Cheetah Wheelies go to heavy this week. You MUST check out the acoustic version of "Ride The Tide," featuring John Popper! Keep your earballs peeled for new Smithereens, Jimmie Vaughan, Toad The Wet Sprocket and Schnapp's new band, Junkhouse. As always, it's been a business doing pleasure with you.

From schmoozefest to sneezefest. Any one else leave the Gavin seminar with a San Franciscan cold? That's what I get for saying how much I love rain. It was great seeing so many of you, however, even if it's costing me right now. I think the only time I shut my mouth was when I slept - and I might have kept yapping even then. It was a great honor to bring home the "A3 Station of the Year" award to all my incredibly hardworking KBCO pals. As they say around Oscar time, "Just to be nominated is an honor in itself," but I really did want this for my co-workers, who overcame a few changes and distractions in 1993. Thanks again to all of KBCO's friends in the industry for all the support. And all the tasty tunes. I'm still on a musical high from the showcases at the seminar. Personal favorites: Alison Moyet (who can belt out a tune like no one else) and Colin James (who had my toe tapping so hard I think it actually lost weight). We had only three new adds this week, but hey, we're talking quality here, not quantity. Bonnie Raitt, Bruce Cockburn and The Subdudes. I've done enough stroking for one week, so let's just say we like them all, they sound really good and I predict major phone action. So now, bring on the whole albums. Thanks to Nick Heyward and The Bluesbusters for their recent Studio C performances. And personal thanks to Dee Ann Metzger (Virgin), Danny Cooper (PLG), Dick Merkle (A&M) and Michael Brannen and Bonnie Slifkin (Atlantic).

The Organization continues to gain support every week. It's 90s-style hard rock that deserves your attention. "Free Burning" is a great lead track to start. You can catch the band on their headlining tour across the country. If you don't have a copy of The Organization or you need another copy, please give me a call. Coming in the next few weeks is the new record from GWAR. MTV aired the video for "Jack The World" this past week on "Headbangers Ball." Coming soon: New records from Cannibal Corpse and Skrew. As always, if you need anything, call me. Also, it was great seeing everyone at the Gavin convention.

WIZN

This week we add "Loser" by Z, the Zappa boys (not that disco rap thing going around). This is a great tune! Rhino and Barking Pumpkin initially serviced this to Metal Radio, but there's no way it should be labeled "metal," really! This is great, straight-ahead stuff, nothing but luscious hard rock! Shades of Extreme, - especially the opening acoustic riffs. We've added Diamond Dave's new one, "She's My Machine," which rocks truer than a lot of his earlier solo stuff. The old Van Halen fan in me aches for Alex Van Halen cruising that ride cymbal as the tune rips along, though...it's close, very close! Hope Dave's refocusing works for him this time. Bubbling under this week, we've added a few tunes to our new release lock choice category. This doesn't guarantee airplay, but it is where most of our new music starts. Going in: Bruce Cockburn's "Listen For The Laugh," The Band's "Remedy," Animal Bag's cover of "Wooden Ships" from their new one, Offering, Uncle Tupelo's "The Long Cut" and a few album cuts from Counting Crows; August And Everything After is a very strong piece of work, with amazing depth for a new band. We'll be letting our jocks pick from "Anna Begins," "Perfect Blue Buildings" and "Round Here," in addition to "Rain King" and "A Murder Of One" already in the category.

MCA Records

So...big news this week in the MCA metal offices...I have windows! Since our festive earthquake, my office has resembled a crack house; but I'm happy to report that I now can look outside...yippee! The Sass Jordan full CD should be at all the metal-type stations...listen to "Damaged," "Slave" and "Ugly," play a song and add Sass THIS WEEK! Dig keeps getting airplay and keeps selling...what a beautiful thing! Play Voivod's "The Nile Song"! You know what I think is really cool? Rock Radio is playing Dandelion! What a killer record! See ya!

Nat Lamp KUPD

Soundgarden is kickin' some butt here at 98 KUPD...when setting the rock n' roll table for your listeners, the only silverware needed is a "Spoonman"! The Crue continues to write good Rock Radio tunes. Producer Bob Rock and lead throat John Corabi give the Motley bunch what's needed to rock in the 90s. Warner rep Todd Galli gave us a sneak of the new Cheap Trick; their first offering for "The Bunny" is cool and it rocks....

Chuck P. And John Perrone

Well, now that Gavin is over, it is time for Caroline to start kicking into high gear...the first new thing you will be getting from us is Hex by Bark Psychosis. Some of you have the import single of "A Street Scene"; check it out. If you dig Verve and the Cocteau Twins, you will not want to pass up this mesmerizing record. Next up, Astralwerks gives you Barramundi - An Introduction To A Cooler World, featuring Jaydee and Transformer 2. If you are into Astralwerks' Excursions In Ambience series, this is most certainly for you. The sophomore release from Richmond, VA, sweethearts Fudge is just down the road. It's called Southside Speedway, Also, a new band from Portland, OR, Peach, will have their debut record out in April; it's called Siesta. Back and better than ever is the new one from Mr. Adrian Belew, Here, and it is a treat to all. To use that great cliche, "the next big thing from England" is Astralwerks' latest signing, Seefeel. Quique (pronounced "keek") will be their US debut. Get ready for the cross of My Bloody Valentine and the Future Sounds Of London. Realword has some great stuff coming your way, including new ones from Nusrat Fateh Ali Khan and Sheila Shandra. Still kicking: Research: Incredibly Strange Music. How can any record with Perrey & Kingsley and Fred Lowery miss?! You tell me! Lots o'stuff and more to come. The year has just begun.

a blast. The ultimate schmoozefest. I met some very cool people, and ate way too much. The Virgin showcase with Ben Harper and Sam Phillips was amazing. I love Sam and it was great to see her perform. The entire audience seemed in awe of Ben (and he was awe-inspiring). I'll be prodding our Adults Only (KEKO/"The Echo") to seriously listen to both of them. People are freaking over the new Motley Crue; it's Top 5 phones. Hye, hye, hey, Cracker's "Low" seems to be catching on as well. The Breeders, Danzig and Candlebox are still happening, too. On my wish list: Greta and The Afghan Whigs. Both bands are getting spins on the "Test Dept." and in the club (Club Congress) where I spin a "Test Dept." style show on Thursday nights. The response has been very positive. Both would sound great in regular rotation. On first listen, The Afghan Whigs' entire CD blew me away. Insert "Gentlemen" into any CD player and prepare to be amazed. Pitch Shifter are the words of the day. Say them, think them, repeat them to yourself in multiples of 10, but most importantly, play the record! Desensitized is the kind of record that makes you all tingly inside. Enjoy it! The tour with Carcass is starting in March. How much destruction can your town handle? Sleep is enjoying a break from the road. The

San Fran shows rocked! Sleep's Holy Mountain is a record you can't forget! Roll with "Aquarian" as the new radio single. Meathook Seed is working on the logistics of a mini tour. Stay tuned! If anybody missed an OLD interview last week and would like one, call me. In the meantime, play "Happy Tantrum." Scorn is happening! Spin "Scorpionic" now. Your listeners will love it. Punk lives at Earache. Anybody into Green Day, Sam I Am or Bad Religion (if you are, you're probably not reading a metal Crusade) will love the slapstick humor of Lawnmower Deth! "Buddy Holly" and "Main Squeeze" are two songs you'll flip for. God bless Earache! (212) DIE-9090.

We were a little disappointed to find out that our sister stations, WCIZ in Watertown and WYYS (a CHR) in Ithaca, were dropped as R&R reporters. Then again, we get excellent service here in the P4 sector of Northern New England, so I'm sure our buds in New York will be okay! Anyone who doesn't think "Disarm" from Smashing Pumpkins is an out and out smash oughta quit radio and enter the food-service industry! I can't wait to see 'em at Lollapalooza, especially since they had to cancel their Boston gig a few months ago. Rush's "Nobody's Hero" is bumped to heavy this week. It's the kind of tune I'd expect non-Rush types to enjoy, thereby expanding their already huge fan base. I also applaud the anti-homophobic lyrics. Perhaps hearing the song will open up some minds! Crash Test Dummies were excellent on "Saturday Night Live," the CD's retailing well and
"MMM MMM MMM" is getting phones.

How could I not talk about collective soul and 'Shine" this week? Ferchrissake, it's been my life for the last howeverlong. 25 adds outtathebox, including WDVE, WMMS, KISS and WQFM. Wow. Put it on. They will call. This song sounds like sex to me. But not the stage where you're going at it like a space creature knowing that he's gotta procreate or his boss'll put the blame on him for the extinction of his race. The stage where you're not even sure who you are anymore. Rather the stage where it's still just skin on skin and real slow and if the phone rings you'll actually hear it and you'll feel like your skin is covered with an amber glow and you think you're Helena Bonham Carter making love to Daniel Day-Lewis, which you'll never see on celluloid because he's so devoted to his wife that he won't do sex scenes (is he the ideal man or what?!). THAT's the kind of sex "Shine" sounds like to me.

Cathy Faulkner and Steve Young are havin' a ton o' success with their live version of the song, which Maverick/Warner Bros. has agreed to put on a CD-Pro with the album version, so look for that or bother Cathy for a copy like I did! Have you seen Ian Moore play live yet? His "In The Wake Of The Quake" tour is now winding its way through Colorado to the same rave reviews he's become used to. Our next Ian Moore radio offering will be "Harlem." Please take the time to give it a listen and be ready to share it with your audience. They now know and

love Ian, and they're ready and waiting for Moore. The Freddy Jones Band is right now kicking off its tour with Big Head Todd And The Monsters. The bill will hit most every major market in the West and we couldn't be any more excited. You mainstream AOR types should take note that WKLS is having a very good run with "In A Daydream." Just call 'em and ask. 311 is in the studio and sounding great. Peace.

Dom Casual And Scott Smith

KTOZ

Hello again from Springfield. Dom Casual here with news from Channel Z land. We're into our sixth week on the air and things are going very well! Thanks to everyone who has sent us prod-

uct and provided us with prizes for giveaways! The "kids" have been eating it up! I have amended my music call hours to make things easier for us all. They are now Tuesday, 2-5pm and Friday 2-5pm. Scott Smith, our Promotions Director, now joins me in this letter to let you all know about an exciting promotion we have in the works: On Saturday. April 16, KTOZ-FM and the public schools of Springfield are presenting an AIDS benefit concert and auction for the "AIDS Project Of The Ozarks" and "Camp Heartland," a summer camp for children infected with HIV/AIDS. The concert starts at 1pm and runs into the evening. We are looking for bands that will donate their talents to this cause. We will put the bands up and provide any transportation that is needed in town. If you, as a label, cannot provide a band, please dig through your closets and find us some paraphernalia to use in the auction. You know, stuff like signed photos, artists' underwear, anything that would bring a price at the auction. We have already had a lot of bands show interest, and they should be confirming soon. So check your tour dates and call us ASAP. Thanks again for everyone's support. Springfield will never be the same again.

Well, we're back! We would have been back sooner, but a certain someone, who shall remain nameless (Sam says hi, Danny) said he was going to sue for something called copyright crap or whatever. Geez, like he ever gave us any money anyway. Then he said that if we made any comments, he was going to have someone do a **Tonya** on our dad. The worst that could happen is dad wouldn't be able to walk and he would have to keep his fat butt stuck in the recliner and make us get his beer and the remote. Big deal, it's like that all the time anyway! So, wasup?! Dad came home with some cool tunes you people should be playing, like "More Wine Waiter Please" from The Poor. This song is majorly cool, and it majorly rocks. Besides, if you don't play it, we will call you up and "wine" until you do. Well, we got to go, 'cause we are going skiing, which is always a hoot. Nothing like watching your dad come full speed down the hill thinking he's Tommy Moe but looking more like Moe from The Three Stooges. Major geekdom! See ya, Courtney, Ashley and Samantha.

Guitar Recordings

Hiya! How's everyone doing this week? Just a quick update from **Guitar Recordings** land: **Mike**

Keneally is currently on tour with Dweezil Zappa! If you don't have a copy of Mike Keneally's "Rosemary Girl," CALL ME...NOW! Also, Johnny Gale's "Boom Boom" - LISTEN UP - this is a great tune! Have a cool week and let me know what's up...direct phone (914) 935-5247. Or E-Mail Prodigy: RJCD84B, AOL: Meg666; or CompuServe: 73534,516. Cheers!

What a wacky Gavin week it was! I'll spare everyone the nostalgia and random tales of voyeurism (bet you'd like to hear about that!). I couldn't be happier with all of the support that **Die Monster**Die is getting already. Major kudos to all radio folks who are exposing Withdrawal Method to the masses. This band will be on tour beginning March 15, and I've got plenty of giveaways for the asking. Love **Die Monster Die!** Hopefully, you've checked out **Nailbomb**, the side project from **Max Cavalera (Sepultura)** and **Alex Newport (Fudge Tunnel)**. Point Blank is total aggression. Oh, by the **Moon Seven Times?** Bye!

Wargasm is kicking ass with #3 most added and Top 40 debuts. This is a strong record, so play it.

Grave pulls #3 most added and Unleashed pulls #4 most added. Strong debuts next week.

Spudmonsters are a great band; if youdig DRI, then get on this puppy.

Unleashed's "Across The Open

Sea" is pulling Top 30, don't drop this record just because I sent you a live bootleg. Stillborn, Intricate, Mercyless, Comecon are all getting great response; many of you still need to listen to these records. Eyehategod is on tour as we speak, with Buzzoven. Unleashed is coming with Broken Hope and Demented Ted, so beware. Psychosis and Sun should be land-

ing as we speak. Samael has a godly release coming soon. Asphyx master tape just came in. Radio and interviews are available. Retail POP and instores are available. Too many records, and not enough time in Hawaii.

God bless your collective soul! 30-plus Rock Radio stations agreed to "Shine" this week as col-lective soul debuts on the chart as an official Atlantic release. Major market stations WDVE, WMMS, WQMF and KISS have all added this record that has broken out of the Southeast. Week #3 for Tori Amos, who sold another 44,344 pieces. Tori's record is a Top 10 selling rock record, according to Soundscan. That means most of you are playing 30 to 40 other songs on your playlist that are not requesting at the cash register like Tori Amos. Think about it. In two weeks, we will deliver you "Get Me Out Of Here," the debut track from Billy Pilgrim. Billy Pilgrim is a duo from the Atlanta, GA, area (what is it with the Southeast?) that has already conquered the Adults Only charts with a Top 10 album and a Top 5 track. The group is currently out on the road supporting Cowboy Junkies...check them out! Oh my God, snow

Erie's best kept secret, My 3 Scum, are on tour again. This three-piece hard alternative/punk band has been together for five years and we sell lots of their T-shirts, tapes and 7" singles. Here are the dates: March 1 - Bloomfield Bridge Tavern/Pittsburgh; 3/5 The Tas/Binghampton, NY; 3/7 CBGB's in NY at 12:30pm; 3/10 Lost Horizon in Syracuse; 3/11 Friends & Players in Rochester. Smog Veil in Cleveland wants to put out the next record, but it would be cool to get better distribution. For more info, call (814) 899-4402. It was nice speaking to Wendy at Rob Sides' Giant office to get that Clay Walker barcode goofup straightened out. Don't want to miss any Soundscan sales.

What do KROQ, WDRE, WHFS, Q101, KDGE, KEDG, KPOI, 99X, KPNT, WFNX, KEDJ, KXRK, KBBT, KWOD, WBRU, WENZ and KTCL all have in common? SUCCESS stories with Eve's Plum's "I Want It Ali" in major markets. Sales almost doubled in all these cities off of two weeks of airplay or less. Check your Soundscan...if you are an "alternative" station not playing Eve's Plum, your alibi better be air tight, 'cause this song is taking off. Top 5 phones at KEDG/Las Vegas. You want a picture? You want to see a picture? I'll give you a freaking Rembrandt, no, even better yet, an Etch-Osketch, so you can write out the calls. MTV: Eve's Plum now on "120 Minutes"...you get what I'm painting here? Right, a big picture. Seems like modern rock today is either crunch or jingly-jangly. How bout some very cool rhythmic pop? Check out Sensation's "Beautiful Morning," a great balance record for every playlist. KBAC pops this in early. If you're a Style Council, Everything But The Girl

or Johnny Hates Jazz fan, this is for you! The format needs this sound now...plus Sensation's "Beautiful Morning" has a huge hook. Deep Forest continues to sell, sell, sell, heading for Gold. MTV Buzz Bin and the unique rhythms of "Sweet Lullaby" are making word of mouth a promotion force of its own. Still, you should be playing a Gold record that is new for some of your audience. Then watch the phones light up. KROQ, CIMX, KRZQ, WZEW, KDGE and WZRH are still in Deep Forest.

See you on the field with pitchers and catchers...this week.

The Rollins Band's "Liar" on your desk and on the air in five weeks! Henry Rollins on the "Tonight Show" Tuesday, March 1. Henry Rollins article in Entertainment Weekly this week! "The Chase," starring Henry Rollins and Charlie Sheen, opens March 4. The point is, be ready, 'cause Rollins is everywhere and should be added April 5 - don't be late!

You are now wise to the ways of the Superunknown. To reach its next plateau, you must continue to jam "Spoonman"! The foundation for a massive Soundgarden project starts now and begins with you. Do the right thing! The question mark impacted with an exclamation point?! Therapy? cannot and will not be denied, with the strong and streamlined Troublegum! "Knives" leads the way while "Die Laughing," "Nowhere" and "Hellbelly" churn and chug along. Keep up the good work with the new Damn The Machine material. Results of the jacket/autographed CD give-away next week. New in stores: The Rock Radio playing card series! Complete with the "just traded"

subset! Card #1 of the series is a beautiful foilstamped hologram of "the most popular man in San Francisco even though he's in LA."

Larry "Dr. Dub" Wallach W.A.R.?

Yes, people, I'm still alive...the gunshot wound was only superficial and I'm convalescing nicely. The Samples are pushing hard with "Carry On" at Adults Only, so if you haven't heard it or added it. please do. The Last Drag is deep with Adults Only tracks, so stay with me, people. I have a strategy...really. The Samples have been touring the Southeast in a righteous fashion. Sell-outs in Birmingham, New Orleans, Baton Rouge, Miami Beach, Atlanta and New York. Advance sell-outs in Iowa City and Fort Collins. Something is happening here and it's getting bigger and bigger. "Still Water" is coming to AOR in a couple of weeks, so look out for it. It's a peach (or an orange?); WBCN just added it early and it had nothing to do with the shopping spree that Jim and I had last week in Boston with **Oedipus, Carter** and **Steve**. Saks and Lord & Taylor have some great sales now (especially on ties). Rock Radio...my calls are coming soon. The video for "Everytime" is on its way around the country to video programmers, so if you are one, or know of someone who might be interested, please contact Ed "Chiefy" Gold at W.A.R.? at (212) 964-3703. The first US release from Lir will be out in mid-April, and it is so fucking excellent. Look for Lir dates in the Northeast coming in mid-March. They rock. If you know of any low-paying, highstress jobs without any future...let me know. I hate winter.

Okay, we've got Coven adds - AGH! I mean radio impact date, this week, you know what to do. Have you seen the premiere issue of Sex, Tattoos and Rock N Roll? A beautiful, all-color new tattoo mag featuring the best tatts in RN'R. Our own Skatenigs are featured, as well as Butthole Surfers, Eyehategod, Morbid Angel, my good buds, the now defunct Spread Eagle, and many more. Check it out! Skatenigs will also have a track on Album Network's Quake Rock 94 compilation. A Gutted record release party is planned for late March; these guys are fucking great. Just ask the thousand or so kids they blew away at the Michigan Death Fest last month. Wait till you hear the new Gutted and Oppressor. They are both brilliant and, most importantly, original. O-R-I-G-I-N-A-L. You'll find yourself running around the station poking your eyes out and eating them! Really, trust me, it happened to an intern we used to have here. Anyway, I have an assistant named Jeannie doing calls now. She is taking the C&K stations and I'm taking all you Ws. So you'll be hearing from us. Keep pounding out the Victims Of Internal Decay.

Jim Alert Music

Y'know, Ethel Merman was right - there is no business like show business! You meet the nicest people - you *really* do! Take, for example, the fine folks who assembled this past Sunday for the Howard Stern party hosted by Gary Dell'Abate in Buffalo, NY. An assortment of Howard look-alikes and butt bongo enthusiasts came together for fun, frolic and a smokin' set of rock by Alert's own Pinheads, showcasing a handful of new tunes to be included on their upcoming EP release. Good, quasi-clean fun had by all. Thanks again, Gary. And, speaking of upcoming releases, in addition to the forthcoming release from Them Jazzbeards, the intoxicating Highballs, Lowbrows and Presbyterians, we understand Kim Mitchell is back in the studio with master knob twiddler Joe Hardy putting together a brand new collectoin of surefire winners - go Mr. Alogo - go! Just remember - you don't get the show without gettin' the business, okay? You're welcome.

Skinny Puppy On Hold

merican Recordings act Skinny Puppy was forced to A put their upcoming release on hold when keyboardist/drummer cEVIN Key sustained serious injuries on the set of a movie the band was appearing in.

Key fractured his kneecap and his left arm, in addition to sustaining severe lacerations on his face and leg, which required almost 30 stitches. Although he's in great pain right now, and will require physical therapy, Key is expected to recover, fortunately.

The accident occurred on the Culver City, Californiabased set of "Doom Generation." In the scene Key was filming when he was injured, he was playing a hooligan fighting on the hood of a parked car at a drive-in theater.

While the actors were rehearsing the action sequence, two "spotters" repeatedly caught Key as he fell from the car. However, they apparently weren't doing their jobs too well on one particular take - they had left the scene, and Key, not knowing they were gone, hit the ground, hard, on his knee and face (causing one of his teeth to completely puncture his cheek!).

Skinny Puppy will resume recording their American Recordings debut when Key's health improves.

Legal Speedwagon

Alos Angeles jury awarded REO Speedwagon bassist Bruce Hall \$688,000 in damages last week, after four days of deliberation in the case of Hall vs. Ernst & Young.

Hall sued his former accounting/management firm for negligence over three years ago when he found out that Ernst & Young failed to inform him of tax liabilities he was facing because of how they had invested his money. Basically, the company was telling him he was a millionaire when he was actually broke!

"I'm glad we won this case," says Hall, "because it makes the defendants accountable for keeping their promise to keep me informed about my financial affairs. They failed to do this and really let me down."

We'd have to say that's a contender for understatement of the year!

Here's a Sharpe Dunaway bonus joke:

Q: Why did Captain Kirk piss on the ceiling?

A: He wanted to go where no man has gone before.

{Okay, so it's old!}

Nasty Miscellany

Two Notre Dame students were unexpectedly elected to head the university's school government on a platform that promised free football tickets, no more student government - and a university-subsidized Grateful Dead concert!

David Hungeling and Matt Orsagh, two "free-spirited, regular guys," jokingly entered the election race just one week before the deadline; their success took them completely by surprise, but they're trying to fulfill their promise of the Grateful Dead gig.

Guys, we don't think Jerry will appreciate you calling while he's still on his honeymoon!

And for our faithful readership up there in beautiful Alaska, look out for promoter Dan Woods...this guy's claiming he's lined up a festival concert in Anchorage that will feature Nirvana, Alice In Chains, The Breeders, Mudhoney and Cypress Hill. But agents for the artists concerned claim that no dates have been confirmed with Woods.

When Woods was asked why the agents for the artists he's claiming will show say they won't, he explained, "A lot of those agents are into heavy drugs and they get confused." Who's on heavy drugs?

AMC Update

The wedding bells were ringing as Derek and Mimi tied the knot in a nice, small celebration at their apartment. It was weird that everybody was getting along, including Tad and Brooke and Dixie and Edmund!

Will Maria *really* call off her engagement to Edmund to clear the way for him and Brooke to get back together? I hope not. Will Adam take Gloria back, after finding out about her tryst with Alec?

Stewart's heart-to-heart with Adam sure made sense, didn't it?

I'm amazed at the way people in Pine Valley walk in and out of other people's houses. Take, for example, how Alec can just kind of sneak into Wildwynd and kidnap Gloria! I think the producers of the show need to get a little more real on their story lines, especially in situations like that.

Will Erica's trial end with her getting a prison term? We shall see, ASAP.

That's it for me! I'm Tommy Nast with the Nasty Nooz.
