## WHEN PLG CALLS, PROGRAMMERS SAY "YES!"

hat a story this band has told over the past 20-plus years. Though Yes has had hit after hit throughout its career, the band is clearly riding on a major wave of popularity here in the 90s! With Trevor Rabin's guitar work and production, and the blending of Jon Anderson's, Chris Squire's and Rabin's voices leading the way, "The Calling" has already turned a bunch of heads.

At Rock Radio, "The Calling" bursts out of the blocks with 176 adds (65 of them into heavy), and debuts on the Power Cuts chart at  $\#6^*$  - placement at #1 can not be far behind.

The Album Network is proud to be presenting the World Premiere of *Talk* on Wednesday, March 16, from LA's Hard Rock Cafe. This two-hour special may be yours, exclusively, if you call your Album Network rep now.

"There's a bizarre chemistry that happens when we have the masses decide what's going to be on television or radio or movies," says <b>David Lee Roth</b> in this week's artist feature. "What would we have put on the Sistine Chapel if we'd taken a vote?" One of rock's most quotable figures has some very interesting things to say about narrowcasting, his bigger-than-life image and his new CD, Your Filthy Little Mouth.

### Sammy Hagar "High Hopes"

Given the driving, insistent, filthy nature of the guitars and bass underneath Sammy on "High Hopes," we'd venture to say that he hasn't rocked *this* hard since his days in Montrose! Mike Clink (GN'R) produced this monster, which might explain the inherent power.

"High Hopes" is one of two new tracks on a 12-song set called *Unboxed*, which covers the hits during Hagar's Geffen career (there have been many) and brings his time as a solo artist to an end. Sammy's always been a staple at the format, and with three smokin' Van Halen CDs under his belt, his stock is through the roof now!

## **Cheap Trick**"Woke Up With A Monster" Warner Bros.

If it is possible for these lifelong pop rockers to sound a wee bit alternative, then they've done it with "Woke Up With A Monster." When Zander takes his vocal melody line in the same direction as Nielsen's power chord riffs, Cheap Trick becomes something it's never been. And damn if we don't love every single second of it!

Woke Up With A Monster is Cheap Trick's dozenth (hey, we're writers, so we can take liberties like that) studio record. They have been core artists since before time began, and your listeners are gonna wanna hear "Monster" again and again and again.

#### Sass Jordan Rats

KAUS Impact/MCA

We pity the person (or persons) who owns the dubious distinction of having to choose the singles from *Rats.* You see, as far as we're concerned, a dart throw or a roll of the dice would be the easiest way to pick a hit from this incredible CD. But, somewhere, somehow, somebody must go through potential smash after potential smash, sifting through powerhouse rockers like "Damaged," "Honey," "Ugly," "Head," "Wish," "Slave" and "Pissin' Down," or the softer tunes, such as "Sun's Gonna Rise" and "Give," or the ballads, "Breakin'" and "I'm Not," to try to come up with the follow up to the Top 10 Power Cut "High Road Easy." It is quite simply unfair to expect that it can be done, because there is no clear, obvious choice.

Sass Jordan's third CD, *Rats*, is so fucking awesome that we highly recommend you have your jocks pick tracks at random and let your listeners get a good, long listen to it. Hell, if we were on the radio, we'd be locking ourselves into the booth and playing this sucker non-stop until the S.W.A.T. team broke in and pried the disc from our fingers.

We featured an in-depth article on Sass last week, so if you seek more info on this Canadian talent, that's where you'll find it.

#### Soundgarden Superunknown

Superunknown is the first full-fledged, multi-format, mega-smash release of this year. This fact was apparent to us the very moment "Spoonman" virtually ripped the innards right out of our speakers. Sparks flew and smoke billowed, and we knew that Soundgarden's new CD was one motherfucker of an album. Now, we've had a chance to hear the rest of Superunknown, and we're not sure how we ever lived without it!

Rock Radio, Alternative Radio and RAWk Radio programmers can feel free to experiment with the 15 songs, putting them into various rotations, leaving the CD as an "open" on the playlist, or even challenging their disc jockeys to play a cut that doesn't work (ha, it can't be done!). Guitarist Kim Thayil has always let his Sabbath influences shine, and on Superunknown he does it better than ever. And jeez, can a drummer possibly sound more interesting than Matt Cameron does here? As Cameron's rhythmic counterpart - and the bottom end that balances Thayil's and Chris Cornell's guitars - Ben Shepherd is awesome. And (hello), Cornell has never, ever sounded more passionate, more inventive or more authoritative than he does on Superunknown (and that includes his incredible delivery on Temple Of The Dog).

If you need a list of recommended songs, you've missed our entire point.

#### **Iggy Pop** "Beside You"

Iggy Pop delights in doing things his way. And sometimes, his way just happens to coincide with the way the mainstream is going at the time. For instance, a few years ago there was "Candy," a killer tune that Iggy sang with Kate Pierson of The B-52's. If you recall that nugget, keep it in mind 'cause "Beside You," from Iggy's American Caesar CD, is this year's "Candy." As a background singer, Lisa Germano (fiddle player with Mellencamp and singer/songwriter in her own right) gives "Beside You" a seductiveness not usually associated with this pre-punk/post-punk punk. Look for "Beside You" on our Rock CD

#### **Billy Pilgrim** "Get Me Out Of Here" Atlantic/TAG

TuneUp #112.

The first time we heard this song, which was last summer, we wanted to be as involved with the breaking of it as we possibly could!

And then, when Andrew and Kristian came by and played live for us, we became even more dedicated to the cause. Their incredible vocal harmonies and ability to write a great song is outstanding, especially for a brand new act.

"Get Me Out Of Here" is already a hit at Adult Rock Radio, and has been hanging steady on Power Cuts for weeks with no push at Rock Radio. This is a hit just waiting to happen, and you can see Billy Pilgrim perform it live on "The Today Show" this Thursday, March 10.

#### House Of Large Sizes "Sox On Spot"

Red Decibel/Columbia

My Ass-Kicking Life is the third full-length offering from this Cedar Falls, lowa, trio, though it is probably the first to be massmailed to mainstream rock outlets. Guitarist/singer Dave Deibler, bassist Barb Shilf and drummer John Ganser make up House Of Large Sizes (original drummer Dave Berg retired after recording this album), and together they emit a sound that is too polluted for Top 40, too melodic to be metal and too driving for Adult Rock Radio. But, "Sox On Spot" is just right for both Rock Radio and Alternative Radio.

"Sox On Spot" is way cool and thoroughly right for any station that plays powerful rock n' roll backed by plenty of crunching guitars.

#### **Lucy's Fur Coat**

"Treasure Hands"

Lucy's Fur Coat is the latest group to rise from the San Diego club scene. In fact, they are HUGE in SD, where Stone Temple Pilots opened for them just six months ago! "Treasure Hands," the first single from their debut effort, Jaundice, is guitar-fueled rock, in the same vein as STP or Paw. Hometown stations KIOZ and 91X have been playing this killer cut for a while now (from a 7" the band sent out itself), and KILO and KROQ just added it, too.

For more info on Lucy's Fur Coat, check it out on AN Rock CD TuneUp #111.

### **Doyle Bramhall**

"Other Side Of Love"

As the writer or co-writer of 11 different Stevie Ray Vaughan songs (including "The House Is Rockin'," "Change It," "Life By The Drop" and "Tightrope"), as a drummer on the Vaughan Brothers' Family Style CD and as the father of ex-Arc Angel Doyle II, Doyle's name and music should be extremely familiar to you. On Bird Nest On The Ground, Bramhall's first album, he has collected some of the greatest players in Texas blues; Jimmie Vaughan, Chris Layton, Tommy Shannon and Doyle II all appear on the album.

On "Other Side Of Love," you'll notice just how much Doyle influenced Stevie Ray's vocal style, as the resemblance is uncanny. "Other Side Of Love" will fill a current void at Rock Radio.

### **MATTHEW SWEET**

Matthew Sweet fans will recognize this week's Designated Hitter as one cool collectible. This seven-song sampler kicks off with a Brendan O'Brien-remix of "Devil With The Green Eyes," which we've always felt was the most Rock Radio-ready track from Altered Beast.

Also on this jewel are several live cuts, including Sweet's rendition of Neil Young's classic "Don't Cry No Tears," a thing called "Superdeformed" (heretofore available only on No Alternative and on a previous sampler), the poignant "Someone To Pull The Trigger" (the studio version is on Altered Beast), "Knowing People" (also from Altered Beast) and "I Wanted To Tell You" (the original version was on Girlfriend). "Ultrasuede" was done for Altered Beast, but not used.

Narch 4, 1994 - With all this talk of a seatles reunion concert, the excitement surrounding the Backbeat movie is starting to reach the boiling point. The movie band features Mike Mills of R.E.M., Soul Asylum's Dave Pirner, Dave Grohl of Nirvana and Afghan Whigs' singer Gregg Dulli, among others. Virgin has the soundtrack, and it is making our mouths water Ex-Ozzy axeman Zakk Wylde's new band, Pride & Glory, is going to surprise the hell out of you in late April loyt's album, The Division Bell, will not be ready until April now Gin Blossoms, The Lemonheads, Lenny Kravitz, Toad The Wet Sprocket and Garth Brooks (?) will be contributing songs to a KISS tribute album later this Extreme is in the studio now, with the intention of having a new album by by this summer NICHSSA Etharium will have two new songs on an upcoming film called "Theresa's Tattoo" Pleasure the working title for aughan's next CD, which is due next Are Jimmy Page and R and planning an unplugged gig later this year?

#### **Blind Melon**

"Change"

It took Blind Melon all of a year to go from being an unknown to being a legitimate, double-Platinum-selling, critical fave. "No Rain" put 'em on the map, "Tones Of Home" quelled all fears of a fluke in the making, and "Change" is gonna chisel the name "Blind Melon" in stone. Do you think MTV will be aching to add a third video from this quintet's debut outing? It takes no brains at all to add "Change." None. Zero. Nil. Nada.

### Gin Blossoms

"Until I Fall Away"

Platinum sales have accompanied the large volume of Rock Radio airplay for Gin Blossoms. This ballad is now the fourth cut to be worked from *New Miserable Experience* ("Hey Jealousy" and "Found Out About You" were both Top 5 Power Cuts, while "Mrs. Rita" was also a hit at the format; Top 40 Radio has played the hell out of Gin Blossoms as well).

Arizona's Gin Blossoms have become staples in a relatively short period of time, so there really isn't a good reason to avoid playing "Until I Fall Away." Find it on AN Rock CD TuneUp #112.

## **The Freddy Jones Band** "Take The Time"

Capricorn/WB

Big Head Todd And The Monsters have worked extremely well at Rock Radio this past year. If you focus your attention on that fact, it won't be any trouble at all to imagine playing "Take The Time." This five-piece outfit from Chicago possesses a similar feel to the aforementioned Colorado trio. There are already more than 20 Rock Radio programmers who know how good The Freddy Jones Band sounds on the air, because "In A Daydream" has been bulleted on Power Cuts for many weeks as a result of their support.

Also, TFJB has already gone Top 10 at Adult Rock Radio with its debut major label outing, Waiting For The Night.

A part of last year's "H.O.R.D.E." tour, The Freddy Jones Band is currently on the road with Big Head Todd. Why not take the time to go see them?

#### **Pariah**

"Junk Mail"

Geffen

Sometimes, the easiest way to describe a band's sound is to simply compare it to someone with whom you're already familiar. Sorry, we can't do that with Pariah. We can, however, tell you that this track rocks with the power of, say, Guns N' Roses, with the melody of, maybe, Gin Blossoms, and the dynamics of something along the lines of Scorpions. But to say "Junk Mail" sounds like any of those bands would be all wrong.

Pariah is five guys from San Antonio, Texas, who have a fan club that reportedly numbers 25,000. *To Mock A Killingbird* (don't you just love that title?) is their debut CD, and it was produced by big time producer Tom Werman.

#### Eleven

"Reach Out"

Third Rail/Hollywood

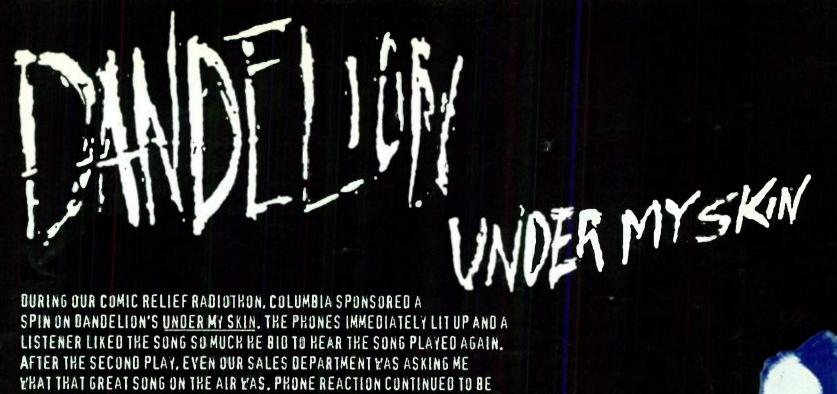

Note: WBZX, WSHE, KIOZ, KISW and KAZY have all added this power groove of a rawker way ahead of the box. For those of you not familiar with those call letters, they represent Columbus, Miami, San Diego, Seattle and Denver. Those programmers wouldn't wait to go with "Reach Out," and as soon as you hear this dark and electric thing, we think you'll know why.

This trio has a pedigree that includes Red Hot Chili Peppers, and they have toured with both Soundgarden and Pearl Jam (more than once with the latter), and *Eleven* is the second effort for Alain Johannes, Natasha Shneider and Jack Irons. "Reach Out" is featured on our Rock CD TuneUp #112.

"'The Calling' goes out of the box and into heavy!' Scott Steele, WRUF

Yes surprises no one with its instant acceptance at Rock Radio. With 176 out of the box adds, "The Calling" is far and away the most added track at the format this week. Sixty-five of the adds go right into heavy, helping this cut debut on Power Cuts at #6\*. Also, "The Calling" hits a first week Homer!

The list of stations adding "The Calling" into heavy is extensive; it begins with WFBQ, KXRX, WRFX, WMMR, KUFO and WSHE. Top 5 requests are already being reported in 10 cities, including Dallas, Seattle and Hartford.

Commenting on the new Yes cut, KNCN's Matt Vaughan says, "The return of huge harmonies! Let's Talk about Yes!" At KOME, Stephen Page exclaims, "Oh man, 'The Calling' is sparkling and vibrant!"

Tom Guild of WRDU notes, "The combination of Rabin and Anderson has revitalized Yes for the 90s," while KZEP's Cody Robbins states, "We love the new Yes offering!"

 $ADDS = 176 \bullet MAJORS = 29$ 

"The packaging was great, but the song was even better!"

Steve Higgs, KOZZ

Once again, Bonnie delights Rock Radio as 76 programmers add "Love Sneakin' Up On You" at the first opportunity. Nine stations went early last week, so her new single enters Power Cuts at #23\* and slugs a leadoff Homer!

Fifteen Rock Radio outlets put Raitt's new single into heavy, including KLOS, KTCZ, WMMR, KMOD and WHCN, while KTXQ, WBAB, WAVF and KDKB also add "Love Sneakin' Up" right out of the box.

Music Director Will Kauffman, of WQCM, points out, "Bonnie has had an unbelievable history, so she's an automatic with us!" At WRDU, Tom Guild calls "Love Sneakin' Up" "smooth and sexy!"

At KZOZ, PD Rick Andrews remarks, "'Love Sneakin' Up On You' is phenomenal; the perfect upperdemo record!" And Guy Dark of WHDQ tells us. "The New Hampshire/Vermont area is totally Bonnie Raitt country!"

## collective soul

"'Shine' will be one of our biggest records of the year!"

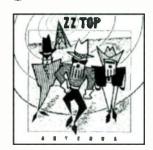

Austin Keyes, WRXK

And the story just keeps getting better...collective soul takes a 50-35\* leap up Power Cuts and slugs a Homer! with "shine," thanks to 33 more adds and nine rotation bumps at Rock Radio. This cut has now scrambled 55 notches up the chart in two weeks.

KEGL, KSHE, WARQ, KORC, WARQ, KXRX. KDKB, WKLL and KILO all join the party this week, while WDIZ (which has been on "shine" for weeks) is giving the song four spins a day now. The first single from collective soul is on more than 75 Rock Radio stations.

WQLZ's Vince Richards comments, "This is a nobrainer for us. We had great calls on our first test!" At KFBD, Brent Hayes muses, "'Shine' is a record that we expect to work very well for us!"

Scott Steele of WRUF declares, "The sales reports showed that these guys are a good bet. This track is definitely going to 'shine.'"

"Do you just wanna grind to 'Breakaway,' or what?'

Pam Brooks, WHCN

Not only have they had the #1 most played rock album in the country for six weeks, but ZZ Top is on the verge of having their second straight Top 10 Power Cut as well. This week, "Breakaway" scores 33 adds and 22 rotation increases, sending it 19-11\* up the airplay chart.

This track is now on 160 outlets, and 10 of those are reporting 20 or more PPWs; KLBJ and WTKX are both spinning "Breakaway" more than four times a day.

KATP programmer Dale Miller waxes on and on and on about this tune: "'Breakaway' is so mass appeal; it is signature ZZ Top, slow, blues rock, And, it is obvious from its chart position that it was an early favorite of programmers!"

At WRXL, Rik Maybee predicts that "Breakaway" will "be around in 15 years," while Jay Gleason of WZXL proclaims, "It is so good it goes right into heavy!"

"We have sales and are getting requests; it would be dumb not to play 'Backwater'!'

T.K. O'Grady, KXUS

We're talkin' an entire month now on the New Action Airplay pages for the Meat Puppets' "Backwater." This week, an additional 29 stations add it, while 19 outlets up the rotation. The result is a 26-19\* move up Power Cuts.

"Backwater" is now on more than 155 Rock Radio stations, including KUPD. KSEZ and WMAD, where it is getting between 27 and 33 PPWs. Plus, the Too High To Die CD continues to hang tough with a bullet in the Top 100 on the Hottest Sales Nationwide

Don Alias of WWBR strokes everyone when he says, "I heard it on the Album Network hold button and just had to add 'Backwater'!" In Denver, KAZY's Lois Todd explains, "The Meat Puppets' 'Backwater' is on the air and it sounds really right."

WTKX's Strummer states, "Meat Puppets are really cool, and it is nice to break them into the mainstream!" Loren Dixon of KWHL opines, "This is a perfect song, I love it. It has 'hit' written all over it!"

## BRUCE COCKBURN

"'Listen For The Laugh' is another great song from Bruce Cockburn!" **Brent Todd, WERX** 

From his 22nd album. Bruce Cockburn's "Listen For The Laugh" nabs 25 out of the box adds this week (including a heavy add from KTCZ) and enters the Power Cuts chart at #59\*.

Last week's Designated Hitter gets the nod from WHJY, KEZE, WLVQ, WCCC, WAVF and WAQX. while KFOG is already receiving heavy phone action for this one.

WCCC's Phil Marlowe believes, "This is the type of song that will finally get Bruce the recognition he deserves as a musician and as a songwriter!" And Rick West of WXKE tells us, "We're experimenting in upper demo land!"

 $ADDS = 25 \cdot MAJORS = 3$ 

"Cry Of Love is one of the really cool bands from 1993!"

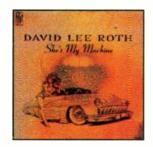

Strummer, WTKX

These guys show no signs of letting up, as "Too Cold In The Winter" again makes it into the Top 10 most added at Rock Radio. Add up the 25 new supporters and the 18 rotation bumps and you have a 22-18\* Power Cuts move for the latest from Cry Of Love.

A half-dozen outlets report at least three plays a day on "Too Cold In The Winter," led by WAAF, where it is getting played more than 40 times a

Jay Sisson of WIXV declares, "The hits just keep on coming from these North Carolina bad boys," while WQBZ's Eric Stevens exclaims, "I love this song! It's the perfect follow up to 'Bad Thing."

 $ADDS = 25 \bullet MAJORS = 3$ 

"'She's My Machine' has really jumped off to a great start, so we moved it up in rotation!"

Chris McKee, WRFX

Roth follows his 143 adds of last week with 25 more this week. Factor in the 27 upward moves and "She's My Machine" roars 18-12\* up the Power Cuts chart. Also this week, hundreds of thousands of Americans heard Your Filthy Little Mouth before anyone else, courtesy of The Album Network's World Premiere special.

"She's My Machine" is barely a week old, but it is already receiving 20 PPWs or more from a variety of Rock Radio reporters. including KILO, KAZY and

At WZXL, Steve Raymond echoes that thought: "It is good to have David Lee back on the rock n' roll airwaves, where he belongs!" Also, Strummer of WTKX minces no words, stating, "Dave is cool!"

 $ADDS = 25 \bullet MAJORS = 6$ 

"'Spoonman' was an easy add!" Rik Maybee, WRXL

Soundgarden's latest is now on more than 180 Rock Radio stations, thanks to 24 more adds. "Spoonman" also goes up in rotation at 27 outlets, giving rise to a superb 20-9\* explosion up the Power Cuts chart.

Superunknown is currently the second most anticipated CD, as the nation's retail outlets gear up for the March 8 release of Soundgarden's fourth album. KISW, WKDF, WBZX, KILO, KAZY and KOZE are all spinning "Spoonman" between three and four times a day.

Chris McKee of WRFX comments, "The hip audience was begging for 'Spoonman'!" At WRXK, Austin Keyes notes, "This one is very interesting to fans, and it is beginning to interest those who are not!"

 $ADDS = 24 \bullet MAJORS = 3$ 

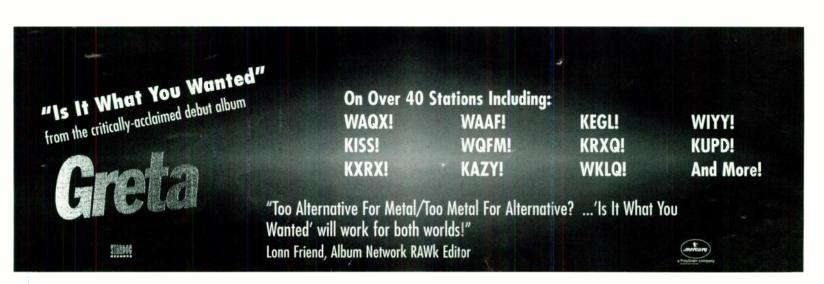

"You can take this one to the bank!" Neil Robbins, WLZR

This new Sony label winds up on New Action Airplay this week with its first Rock Radio release. Australia's The Poor receive 22 adds out of the box, resulting in a #72\* Power Cuts debut.

WBZX, KIOZ, KEGL, WIYY, WLZR, KRXQ and KILO head the list of firstweek believers in "More Wine Waiter Please." KIBZ gets heavy phones from the get go.

KFMX's Kidd Manning beams, "Every band should sound like The Poor!" At WRXK, Austin Keyes explains, "This one is a straight ahead, uptempo record. With no new AC/DC record, this is the one to add!" And Kris Kelly of WXQR says, "It's loud and it's noisy - how could you go wrong?!"

ADDS = 22 • MAJORS = 6

## ower cuts.

## "feel my way" Cathy Faulkner/KISW "Green Apple Quick Step takes everything that is proven in rock and gives it a new twist. 'Dirty Water Ocean' is a success at KISW, and 'Feel My Way' will take them to the next level. Don't think of them as a band from Seattle, think of them as a band with the goods!"

## Following A Slew Of Alterations, David Lee Roth Moves On Full Speed Ahead!

David Lee Roth's resume might read like this: Singer, Platinum-selling songwriter, karate expert, outlandish showman, rock star, Jadies man, adventure traveler. During his 16 years in the spotlight, Diamond Dave has certainly been all these things. Possessing an amazing knack for gettin' it right every time he tries, Roth has always done everything a little bigger and a little better than life itself. When he puts out a record, it sells a million. When he puts on a show, he surprises us with its vivaciousness. And when he goes on vacation, he's as likely to climb the highest mountain as he is to sail down the longest river or canoe his way 'round the widest oceans. And when all is said and done, Dave always seems to have this air about him, this grin that says, "That was sooooo coooooool! What's next?!"

Following 1991's A Little Ain't Enough, David undertook the most dangerous risk of his 38 years: He threw it all away. Gave it all up. Set a new course. David Lee Roth said goodbye to his longtime manager, arrivederci to his old label, au revoir to his band. Then, when it came time to starting a new band, Roth went back to the future and forward into the bast. Happening upon a flyer tacked up to a sign post in his old neighborhood of Pasadena, California, David was placed smack dab in front of his junior high school pal Terry Kilgore. A guitar player working the Southern California circuit at the time, Kilgore had first written songs with Roth back when they were 13 or 14 years old, in Mr. Newman's Music Appreciation class. It was a fortuitous reacquaintance for both of them.

To get himself in the right mood for writing his new album, Your Filthy Little Mouth, David picked up lock, stock and barrel and moved to the deepest, darkest jungle in the world. A place where the natives are so restless they never seem to sleep, where you must keep your wits about you at all times if you ever hope to get out alive. They call this place the lower East Side. Manhattan: New York City. The blonde-haired charmer with a surfer's good looks was suddenly living in the real mean streets.

Recording Your Filthy Little Mouth with producer Nile Rodgers, David Lee worked up a dozen new songs (and reworked the Willie Nelson nugget, "Night Life") that weave in and out of Steely Dan-like arrangements, Van Halen-style hard rock, street-influenced funk, raucous bar band boogie (authenticated by the presence of Travis Tritt) and John Lee Hooker blues stamp. These styles mesh effortlessly on Your Filthy Little Mouth, showing Roth to be as comfortable with his music as he's likely to have ever been in his career.

One morning in early February, David called me to discuss a few 'tings, including his new CD and life as "Diamond" David Lee Roth in 1994.

#### Having spent the past two years in New York City must have had quite an effect on your songwriting.

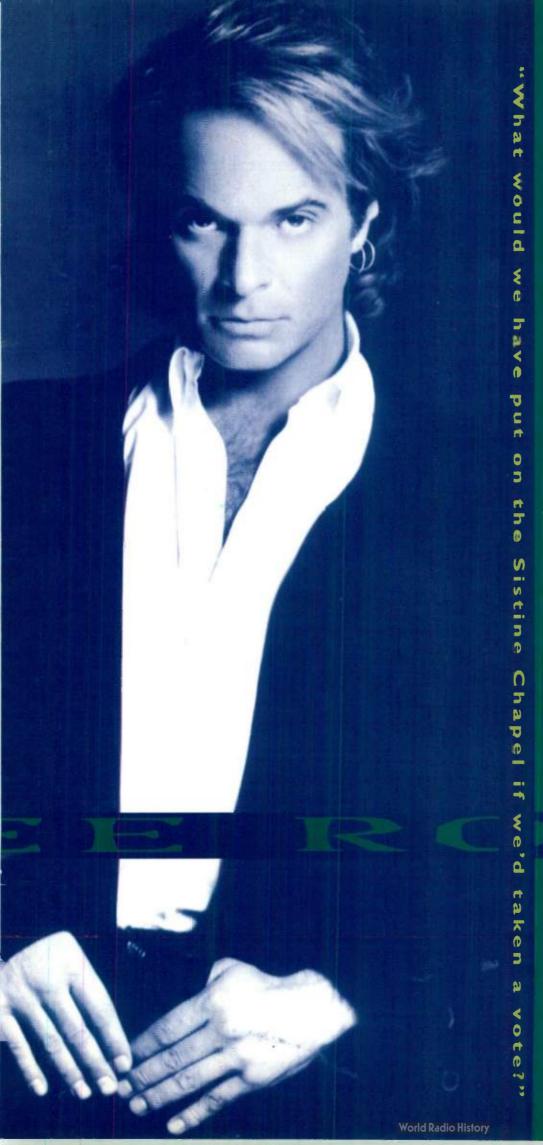

"A geographical change like that is going have a radical effect on you. I'm never sure exactly how [laughs], but that's part of the fun of being an art project - as opposed to simply wearing one [laughs].

"And I think one of the most difficult things for an artist to do, is to be yourself. When you're composing those first several albums, you're drawing from many, many different inspirations - all those bands that you covered in the bars, and all those records that you've been listening to. And after several albums, God forbid you should achieve some suocess, 'cause all the forces-that-be conspire to have you repeat what you did before. And now you have got a lot to think about. Do you repeat yourself as you were before, or do you continue to try and expand? Nine times out of 10, if you just repeat yourself, the very people you're aiming at will be the first to discard you."

### Knowing how and when to expand must also be a difficult aspect of your job.

"Well, in an age of increasing specialization, what I am seeing out on the streets is a white guy with dreadlocks and his nose pierced, he's got a Japanese girlfriend on the back of a Harriey Davidson, he's a llawyer, and they're on their way to get Korean food [chuckler]. Now, how do you tell me what's in his record collection?

"Also, there's a bizarre chemistry that happens when we have the masses decide what's going to be on television or radio or movies - and I am a card-carrying member of the masses...I don't disinclude myself. What would we have put on the Sistine Chape if we'd taken a vote? A Toyota? We would have elected a jury of art people, right? And it would have gone like this: 'Bill, we think you have a wonderful play here; the beginning is wonderful, the love interest really nooked us, and the ending was stunning Bill, think about it, if you could just change Romeo into a Buick. Think about it, k'd! It's what they're all dancing to out there' [laughs]. That's what

happens when we take polls and surveys and masses It's like taking a box of crayons and passing it around a circle of 10 people, and you tell 'em, Okay, take out the colors you don't like and pass the box around.' Halfway through you catch somebody tearing the lid off an empty box [laughs]! 'I didn't like the label!' Art by committee is difficult, at best."

How important is it for you, as an artist, to ignore what's going on around you and still make what's in your heart, instead of what might be in somebody else's heart?

"Well, I come from a very different kindl of background than has existed for a generation or two; there are many, many, many clubs where you can play original music as a new artist or a new band, but there are almost no clubs where you can play Top 40 tunes, or occur versions of other bands, for a live audience. When you learn hundreds of other people's tunes and ther go to commit your pencil to paper, so to speak, who knows what colors are gonna flow first? Or maybe you may make an educated decision to just go with black and white - you don't have to plead minimalism simply because you don't know how to do anything else [laughs]! Unfortunately, 10, 15 years ago, the idea of installing sound systems in these otherwise bar band clubs came into vogue.

"It's sort of like tearing out the school system, and then expecting people to be great writers, great speakers, and great ballplayers. How do you do that with no school? And it's unfortunate that that no longer exists, but since I graduated from that quote-unquote college of musical knowledge - which is nothing more than the local cantina - I've already learned whatever kinda music you're gonna come up with. I've already sung hundreds of tunes that were unplugged, before 'Unplugged' was the thing. And when everybody said, 'We'l, let's plug back in,' I sang and learned those, too. Everything from James Brown to Black Sabbath, from the Dhio Players to ZZ Top. And, it's not a question of even listening to the radio and figuring a direction; whatever the public, in a continually specialized mode, arrives at, I've already learned it."

For almost 16 years, you have been presented as a larger than life kinda guy, a caricature at times. How close is that onscreen David to the David that your family and close friends see on a day-by-day basis?

"What you saw on stage and in the viceos was very much a part of me, and was a perfect reflection of our tribe and our community at the time. I made a couple of videos that turned out to be the 'Wizard Of Oz' of pop video; between 'California Girls' and 'Jus: A Gigolo,' it made the same impact that 'The Wizard Of Oz' made in cinema and on television. And, people still reflect upon those videos as if I made them yesterday. Well, because I danced and dressed up like the scarecrow once. most people properly assume that's the way I'm going to be forever. And I say 'properly' because, with most artists, what you get today is exactly what you get 10 years later - but a little bit world-weary and [chuckles] war-torn. What you get on most people's albums from the first song is what you get on the last song. And it's simply not the case here."

Are you as happy go lucky, as devil-may-care as the image you've always portrayed?

"Well, you're just not used to seeing somebody invoke their sense of humor in deadly serious situations. When you do see it, you get a series like "M A\*5"H\*" on television that lasts for decades. used to work in surgery at

a hospital, and in the emergancy room, on the night shift, here in San Gabriel. I'il tell you how to use a sense of humor [chuckles]. I was on the first bus when they started integrational bussing here in the United States - I know how to use my sense of humor. And sometimes, I have to laugh to win. Sometimes, I laugh in an effort to get you to suspend your disbelief just long enough to make a very serious point. And everything that we've discussed here, Jim, I can discuss very somberly and very soberly, but there's nothing worse than having to deal with a good example [laughs]. I can pump up the room and we could fairly wallow around in my sobriety, if that's your preference [laughter]. But wouldn't you nather [chuckles] kind of sidle up to the bar and, you know, pour out a little philosophy [laughs]?"

## Sykes Joins VH-1 As President

MTV Networks Chairman/CEO Tom Freston taps industry vet John Sykes as President of VH-1. One of the original creators of MTV, Sykes will assume creative and management responsibility for VH-1, replacing Ed Bennett, who resigned to pursue other interests.

"We're thrilled to welcome John back into the MTV Networks family," says Freston. "His strong relationships with artists and executives in the music business, along with his creative skills and programming experience, make him the ideal executive to move VH-1 to the next level - both in the US and internationally. John was one of the primary creative forces at MTV in its early years, and we expect him to apply that talent and energy very forcefully now at VH-1. VH-1 is terrifically well-positioned in the cable industry, with more than 50 million homes, and, over the last several years, it has become a profitable, healthy business for us. John's leadership will help the network build a more active relationship with its audience in the same way that MTV and Nickelodeon have."

"I'm looking forward to returning to MTV Networks to work with Tom and the talented and creative MTV Networks management team," comments Sykes. "The VH-1 audience represents over 50 million households with viewers who are actively involved and interested in new music, cultural trends and social issues. I'm excited about the opportunity to strengthen VH-1's bond with this audience, and to grow VH-1 musically into an even more vital marketing partner with the record industry. As more viewers graduate from MTV and look for programming that meets their music and lifestyle needs, VH-1 has a tremendous opportunity to pick up where MTV leaves off in reaching this powerful market segment."

Sykes joins from his Executive VP/Talent Acquisition & Marketing post at EMI Music Publishing Worldwide. Prior to joining EMI Music Publishing, he was President of Chrysalis Records.

## KBPI Trips Up The Dial

An unusual radio version of musical chairs happened this week, as new

KBPI/Denver owner Secret Communications sold the call letters (not the frequency or facility) to crosstown KAZY/KRFX owner Jacor Broadcasting. KBPI will be relocating up the dial, moving from its current 105.9 frequency to KAZY's 106.7 and relocating to the KAZY building. No official word yet on what the new call letters or format for the former KBPI frequency will be, although Country is strong in the rumor mill.

Some members of the KBPI airstaff will be making the transistion, including morning men Dean & Rog, along with some members of the sales staff. PD Bill Betts will not be part of the new team, while the fate of other members of the KBPI staff, including part-time airstaff and the promotions department, is still undecided. At the programming helm of KBPI will be current KAZY/KRFX OM/PD Jack Evans, and KAZY/KRFX GM Don Howe will take over GM duties.

"We're excited about the opportunity that Jacor has created for us in Denver," comments Evans. "The opportunity to pair the wonderful signal of KAZY at 106.7 and the calls of KBPI is the best of both worlds, not to mention the strength this will now give us with KRFX."

"With KAZY being operated not as a radio station but as a tactic, it was inevitable that KBPI would face a long, hard haul," says Betts. "I personally believe that we could have gotten in the face of The Fox, but we'll never know. There was a great opportunity for Great American to double up in Cincinnati, and a great opportunity for Secret Communications to double up in Denver, and I think it's a good situation for both companies. And for Jacor, their tactic worked, and they now own the two greatest AORs in Colorado.

"We've got a great staff, and almost everyone will be offered a job at one of the two stations," continues Betts. "Those who are not will land on their feet running, full speed ahead. Everyone will be better for the change. KBPI rocks the Rockies, and KAZY *still* sucks!"

### Fortney To Pilot Newly Formatted WLAV-FM

Pollowing the purchase of WLAV AM & FM by WKLQ owner Michigan Media, OM Tom Marshall announces a change in direction for the heritage Grand Rapids rock outlet, moving WLAV-FM to a progressive classic rock format. Joining WLAV-FM as PD is former WKLT/Traverse City programmer David Fortney, and moving to APD/MD is Steve LaBenz. Alternative outlet WLAV-AM has gone dark while Michigan Media investigates its options, and PD Mark Steven and MD Marianne Dupree exit.

"The perfect station in the market to do classic rock is WLAV-FM, because they played the music when it was new," explains Marshall. "But it's not your cookie-cutter, classic rock kind of format; there's a lot of depth, and there are many artists being played who are big in this area, but not as big in other areas, like Marillion and Todd Rundgren, for example."

Continues Marshall, "Dave understands the vision...we saw eye to eye right away, and he's somebody I have a lot of confidence in. He can tackle all the different duties, including working afternoon drive, leading the airstaff, designing promotions for the station and understanding how this station complements WKLQ in the marketplace. Our whole intent with Michigan Media is to have two powerhouse FMs in the market, and I'm confident that's going to happen."

"I'm very excited and honored to be joining WLAV," states Fortney. "The station has quite a history in radio, not only in Grand Rapids, but in Michigan and throughout the Midwest. We've just kicked off the classic rock format, and we've had very positive reaction."

Fortney spent nine years at WKLT, the last five years as PD. Prior to that, he was an air talent at WIBM/Jackson.

#### Marrone Makes PD At KIOT

KIOT/Santa Fe, KOYT/Albuquerque GM Ellen Cavanaugh brings FMQB's Mike Marrone aboard the Adult Rocker as PD. Current IPD Stacia Saunders will remain as MD.

Says Cavanaugh of her hire, "We're really trying to build a legacy radio station here in the Southwest, one that is known for taking chances, having high artistic integrity and being highly music-intensive. We really felt that Mike was the guy who would make that happen for us...he's got a great background in

the industry and an excellent command of the music, and I think he's going to be the guy who's going to get us to where we want to go."

"I'm extremely excited...it's like my dream job come true," enthuses Marrone. "All I've ever wanted to do is program a radio station or work in A&R, and I couldn't be happier. I mean, I'm moving to what many people would describe as paradise. I'm looking forward to having my first child born in New Mexico!"

Marrone has spent the last year at FMQB as PAR Director. Prior to that, he was the Alternative Editor of The Hard Report for four years. He helped put WHTG/Asbury Park on the air in 1984, serving as APD/MD, before leaving in 1988.

## Sacramento's KRFD Says "Adios"

LA-based Embarcadero Media nabs three Sacramento radio properties, including Spanish station KRCX-AM, and rocker KRFD and sister station KMYC-AM. KRCX will remain Spanish, while KRFD will drop its rock format on March 11, switching to a "Hot Spanish" format.

"Thanks to everyone for all your help and support...I really mean that," offers MD Jim Naylor. "It's been a long, hard struggle, but I've got no regrets. Hey, we gave it our best shot and did some great radio in the process. The phones are insane...the listeners have not stopped calling since the announcement was made last week. They're the ones who are losing the most."

"The value of what Embarcadero is doing is high when you consider the Sacramento radio market is 12% Hispanic," adds KRFD and KMYC GM Jeff Holden.

"We'll be much larger in our death than we ever really were in life," comments PD Pamela Roberts. "We only had a year to get going, but in that year, we created a legendary station. We had no computer playlist, no consultant and no huge corporation telling us what to do! It was pure."

### Scorps Wage Guns For Tix Campaign

Scorpions, in conjunction with several concert promoters across the country, are joining in the battle against violence on the streets. In Albuquerque and San Antonio, the German rockers are encouraging fans to turn over their guns in exchange for tickets; one pair of Scorpions tickets will be awarded for each weapon submitted.

In Albuquerque, similar campaigns had been previously initiated by the local Ticketmaster outlet, but, according to Ticketmaster, this marks the first time a band is actively participating in the effort.

The "no questions asked" exchange which requires participants to turn weapons directly over to the main Ticketmaster office - is encouraged, but not officially endorsed by, the Albuquerque Police Department. So as to not deter potential participants, the involvement of the authorities is limited to the receipt of the gans from Ticketmaster rather than from the owners. The weapons are then destroyed. To date, the Albuquerque Ticketmaster office has presented authorities with over 200 firearms.

In San Antonio, the guns-for-tickets practice, dubbed the "Drop Your Weapons" campaign, is also being utilized for sporting and other entertainment events.

New partners David Cobb, Bill McNally and Terry Currier announce the formation of Burnside Distribution Corporation (BDC). Based in Portland, BDC was created to accommodate the lack of distribution available to artists in the Northwestern region. There is such an abundance of great music in this area." In partnership with Currier are former Willamette Week Sales Manager David Cobb and Bill McNally, a musician whose prior stints include buyer for Schoolkids Records and National Director/Marketing for Mesa/Bluemoon. # THE BIG F "MOTHER MARY"

MOTHER MARY LET ME JUMP YOUR TRAIN TO SALVATION

Produced By Simon Hanhart,

Ed Stasium and THE BIG F

M.F.C. Management

Tommy Nast: You're quite a youngster for the position you've held so well at EastWest. How old were you when you got this gig?

Matt Pollack: "I started with Atco, which is now EastWest, five years ago. I was 22 years old. I began at Relativity when I was just turning 19. Puberty and records...I did 'em at the same time! Both were great experiences!"

What aspirations did you have about getting into the record business?

"It's weird...ever since I was a wee bit tot, I knew I wanted to do this. Obviously, we all got into this business using the same contrived slogan, 'for the music,' but it is true. I was only 10, and had no idea what the record side of things was about. But as I got older, I got a job in college radio, and I actually had a relative who was in the business, and managed two bands...."

Who, Jeff Pollack?

"Jeff Pollack, actually. I taught him everything he knows about consulting. But I didn't teach him everything I know about consulting!

"I was cramming for college courses and living on my own...I was kicked out of my house at 16. So I was doing my own thing, and after two and a half years of college, I just said, 'Hey - enough of this,' and I took it upon myself to hunt around and get in. Actually, I used to sell clothing to [Relativity President] Barry Kobrin. I went from rags to records, Tommy!"

Matt, you could be described as being full of piss and vinegar. You speak your mind all the time - there are times you could be described as kind of abrasive....

"Tommy, I am fuckin' abrasive! There's one thing I know, and that's my shortcomings and my better parts. I don't know if it's one of my better or lesser attributes...I think it's one of my better!"

How has it helped or hindered you?

"It has absolutely put me back with some people who at times would rather have a sugar coating. But I speak my mind! And, it's definitely hurt me. But in the long run, with people who share the same vision of where they want to go and who are definitely driven, they respect it. Everybody wants to be shot straight. Sometimes I'll open my mouth and put my foot in it, but hey! After I take my foot out of it, it's very rare that I regret it. That's the truth."

How did Craig Lambert come to hire you?

"It was through a couple of radio guys he was close with; he was very close with Steve Smith and you, and a couple of other guys out there, who had good things to say about me when I was in the midst of breaking the Joe Satriani project over at Relativity. It was like, 'Hey - here's a really young, very unpolished, very rough diamond that you're gonna have to whack around and polish up.' I was looked at kind of like a little Lambo or something. It's a compliment, although I'm sick of hearing it. But it's a major, major compliment, and he saw something in me that I think he sees in himself. Our lives are, like, very similar parallels."

That's true...Craig - now there was a mellow guy when he was a promotion person!

"Yeah - he wasn't rough around the edges or full of piss and vinegar! That's the reason we get along so well. He was also out of his house early, and started as an independent at a very young age. He rose through the ranks and was a national in his early 20s. It's almost frightening; it's like a mirror image of the way my career has gone as well. We just hit it off. It was funny, too...Craig is the king of talk. He loves to fuckin' rap. I had an interview with him, and I go and sit down with him, and he's like [raspy voice], 'Alright - here's the way it is!' I didn't get a word in edgewise during the entire interview! But, after that, we hit it off, and he took a lot of heat and a lot of twisted looks like, 'Why are you hiring this guy?' And he was coming from the position of being the very best AOR guy out there, hands down. There was no one near him. But, he still got a lot of weird looks when he made the hire. But fuck 'em all! I got the gig! Ha ha!"

Let's go forward a few years to where you are now. As you look back on 'being polished,' you've made a big impact, and you've proven yourself to be extremely strong executive. Tell us about what's been happening recently at EastWest.

"The label is moving in such an exciting direction. EastWest, as a label, is only about two years old right now. You could liken it to almost a boutique label. We're a major player in every single way, but we've got a much smaller roster than some of the other majors, and because of that, we're able to work a lot harder. The direction of the label is much more street. Our rock department has expanded tremendously with the addition of Walter Winnick on the West Coast; a full-blown alternative guy is now in-house with Joel Klaiman; Pete Rosenblum heads up my college department, and now, with the addition of Greg Thompson, it rounds off the executive staff with new vision and direction that fits in like a glove.

"We have an entire field staff of college reps around the country, and we've got very young, very hip A&R people who are bringing much hipper and much more street-oriented bands to the label. Our records are starting less and less at radio now, and really being marketed through the underground and at the street-level. I am playing a very hands-on role in that development, and it's very exciting, too.

"Not that we're ever going to ignore radio, but at least when we come to radio, we've got something better than just, 'Hey - it's a great sounding record.' We're creating an awareness for radio to make it easier for them to deal with our records. For those who don't know, the bulk of our business had always been R&B and pop. Now, we're equally a force on the rock end as well. And it's growing every single day. In the executive role, I'm overseeing all aspects of that: Rock, metal and alternative, and it's really exciting."

When I was in New York recently, I was fortunate enough to hang out with you guys during your meetings. You played a number of new records for your staff, and one thing that stood out unbelievably was the Pantera.

"We are right now, domestically, knocking on a million units sold on the last release, and over two million units worldwide. The new record is sonically intense. It will go down as the hardest record ever released on a major label. It is so over the top. Here's a band who sold a million units and could have gone in the studio and made a much more commercially accessible record if they'd wanted to. But instead, they decided that they had gotten to this level forfeiting no integrity, and went in there and did what they do best.

part teddy bear. Who am i trying to kid? He's all an bull! He started out as one of the youngest executives to hold down a VP/Album Promotion post, and when given enough rope to hang himself with, he tied that rope into a lasso, and has reeled in many friends at radio, records, the trades and some fine restaurants, no doubt!

So he's part pit bull and

EastWest's Matt
Pollack is defining a
new breed of promo
exec who is both
street-smart and officefriendly. When you
combine the two you
find a style that will
reap just rewards.

In this week's exclusive interview, Matt shares some of his headstrong ideas and previews some great music heading our way this year from EastWest. After you read this, get Matt on the phone and let him share some of the energy he has with you...it's positively contagious!

And they made the hardest record anybody is ever gonna hear. It will blow your tits off!

"At this point, what's so encouraging is the marketplace has changed so much that people in radio are more poised and ready for a Pantera record than they ever have been before. If this record had come out three years ago, there's no way in the world that radio would even have been in the game plan. But you've got guys who played the last one, including Seattle, Boston, LA...I can give you a list of about 35 stations who were not easy converts, but once they'd started playing it, believe me, it became such a core for them. And now they're all over me to get the new record. So we build upon that base every time we go on, but we forfeit nothing.

"This record will ship 600,000 units out of the box, and will be followed by a huge marketing and promotion campaign involving MTV and radio. It's going to be, unquestionably, the most significant metal release of this year, and quite frankly, probably one of the biggest metal records in recent history."

That's a big statement!

"I'd better fuckin' live up to that! Otherwise, you won't be doing any more interviews with me!"

Another act you have on the roster are probably the godfathers of metal, AC/DC.

"We're very excited about that release. It comes out in the fourth quarter. What hipper producer to have working with them than Rick Rubin? What's timeless about these guys is they never did a ballad, they never will do a ballad, and they just keep crankin' out great, straight-ahead hard rock. And that's what's expected of this record."

So tell me your secrets on dealing with radio. What do you think of the Rock Radio format as it stands in 1994, and how do you tackle it best?

"You've got to tackle it differently. You've gotta tackle it in fragments...you can't go out there anymore and attack radio as a whole. You've got to take each particular project, look at what it is, and know where you can go to peg it. You've got a Pantera record? You know you've got a cap of about 50 radio stations that you can go to initially to build a foundation. You've got an alternative-leaning record like my own Buffalo Tom? You know where to go. It's broken down into so many fragments now, just like pop. We've got Adult Rock stations now, for example.

And you've got to be very careful on how you image your band. You can go out there and lay a million radio stations on a record, but at the end of the day, if you go back and focus on a particular fragment of the AOR panel for a particular record, that's where you're going to sell the most, and really capitalize on your

r a particular record, that's where you're going to sell the most, and really capitalize on your airplay. The days of a huge national story out of the box were great, and they still apply to some records, but when you're dealing with records like we have here, which are much more street-oriented, you've got to be very particular about where you take them, and be very careful."

What else can radio expect from EastWest this year?

"More great follow-through with Buffalo Tom, who just finished up their video. On the newer front, we've got what I consider to be a very, very important act in a band called Mother Station. It's like a female Black Crowes with a little bit of Janis Joplin, and all the piss n' vinegar and attitude of Bette Midler. This girl will embarrass you and me put together! She levels me, but she does it with the best intentions. She is a storm, and we're going to bring her out for radio and we're gonna run her ragged! We'll be breaking Mother Station right after the Pantera record, sometime in the latter part of April.

"As we go on here, we develop. We keep it at a very limited run, as far as how many records we work, so we give each one that extra shot. We've got a couple of newer, developing things here, but most of them are going to be real street-oriented rock records. The continue development on some of the rock records, like For Love Not Lisa and Clutch...these are, basically, for lack of a better analogy, like our smaller Panteras: Street bands that develop through intense touring, press and college airplay, so that we have a story to tell radio when we bring it to them. And so it will work when it gets on; it won't be another dead dog on the air."

Tell us something about your personal side. What are you all about outside of the business?

"Tommy - you own the film! You know better than me! The secret of Matt Pollack, and surviving all that we deal with every single day, is absolutely, unquestionably, my beautiful wife Stella. There's no question about it. And that ain't no major stroke."

How did you talk Stella into marrying you?

"A lot of money, and a great rap! All kidding aside...we were high school sweethearts. I'm a hard son of a bitch to live with. Anybody who can put up with me is definitely an angel! She's a tough, Italian chick from the Bronx. Do I need to say more?"

Her family'll keep you in line!
"Exactly. Let's put it this way: I've got the old man to answer to!"

Well Matt, it's a pleasure dealing with you....
"I can't say the same here, Tommy! I'm sorry!"

You love me and you know it....
"I do love you. I love ya like a fuckin' brother!"

Here's to the best of luck with EastWest and your future!

#### SOUNDTRACK Reality Bites

"It's perfect! Is it too soon in the game to call this the 'alternative *Bodyguard*!"

Kevin Walsh, Streetside/Columbia

Kevin's joke may not be too far from the truth! With a kitschy but cool selection of just the right music, for just the right "generation X" film, Reality Bites hits the mark (the film was just released nationwide and clocked in among the Top 10 box office biggies).

The score is by Karl Wallinger and the OST features new music by World Party, Hothouse Flowers, The Posies, Lenny Kravitz, Big Mountain, The Indians, Dinosaur Jr and Juliana Hatfield, along with new recordings of classics such as The Knack's "My Sharona," Squeeze's "Tempted" and U2's "All! Want Is You."

Winona Ryder is on the cover of "Rolling Stone" and "Entertainment Weekly," and Ben Stiller is making the talk show rounds to promote the film. At Hit Radio, Big Mountain's "Baby I Love Your Way" moves into the Top 20. Reality Bites zooms 72 to 23\* on the Hottest Sales Nationwide and flies 13 to 6\* on the In-Store Play chart. Fifty-two accounts show chart debuts for a total of 157 mentions. Upward moves include Tower/Atlanta 50 to 8, Peaches Ent./Miami 50 to 11 and Wherehouse Ent./ LA 76 to 15.

## CRASH TEST DUMMIES God Shuffled His Feet

"'MMM MMM MMM MMM' has really taken hold for CTD, as sales drive into the Top 5."

Bill Fuenfhasen, SoundSmart/Springfield

There is so much activity surrounding God Shuffled His Feet. As CTD's single gets even hotter, and with the video in Buzz Bin rotation on MTV, the Crash Test Dummies continue to make more fans with their radio/retail/morning talk show appearances in selected cities. In Austin. where they appeared at Tower Records, Katie Kirby tells us, "It was amazing. At least 600 people showed up, the band played three songs, signed tons of autographs and played a full show later that night."

"MMM MMM MMM MMM MMM" sails 65 to 55\* on Power Cuts and makes its entry at Hit Radio in the Top 30. At Adults Only Radio, the album moves 4 to 3\*. Crash Test Dummies will appear on "The Late Show With David Letterman" on March 15.

God Shuffled His Feet runs 19 to 13\* on the Hottest Sales Nationwide, with 22 more buyers reporting chart debuts. The massive sales story is reflected by upward moves at retailers such as Peaches Ent./Miami 59 to 28, the Homer's Chain/Omaha 41 to 3, Best Buy/Minneapolis 23 to 12 and House Of Guitars/Rochester 29 to 8, to name a few.

## VARIOUS ARTISTS ATribute To Curtis Mayfield Warract Bros. - 48500

"The word is out, in 'Ice' and in the national press, plus it's just plain cool!"

Todd Robinson, Gem City/Dayton

Any music fan who has never heard of Curtis Mayfield has a chance for redemption, and it might start right here with A Tribute To Curtis Mayfield. As Gladys Knight says in the opening of "Choice Of Colors," "Curtis Mayfield had his finger on the pulse of society. Even when we as a people did not know where we were going, Curtis musically led the way."

From Steve Winwood to Bruce Springsteen to Whitney Houston to B.B. King to Branford Marsalis and The Impressions (10 of these hits were recorded by The Impressions while Curtis was the group's leader), the beauty and staying power of this man's music shines through in the cover versions.

Eric Clapton's version of "You Must Believe Me" makes its Power Cuts debut at #98\*, and at Adults Only Radio, the album moves 37 to 33\*. A Tribute To Curtis Mayfield debuts at #68\* on the Hottest Sales Nationwide, with 73 buyers reporting chart debuts, including Tower/Sunset #15, Appletree Records/Chicago #13, Nobody Beats The Wiz/New York #16 and Poplar Tunes/Memphis #13.

## Greatest Hits (1980-1984)

"Our more upscale, older clientele have been waiting almost two months for this collection."

Kristen Frederick, Virgin Megastore/LA

Aretha Franklin has been a mainstay in the vast make-up of the entertainment world for over 30 years, whether it's in a film ("The Blues Brothers"), a TV show ("Murphy Brown") or a hit single. She's back in the limelight once more with this *Greatest Hits* collection and her acceptance of the Grammy Lifetime Achievement Award on last week's broadcast.

A while back, "Entertainment Tonight" did a feature segment on Aretha, and The Fox network was home to her very own TV special. Also, the January issue of "Vanity Fair" ran a major feature on the Queen Of Soul. The first single, "A Deeper Love," is Top 20 at Urban Radio and the video can be seen on both VH-1 and RET

Greatest Hits (1980-1984) debuts on the Hottest Sales Nationwide at #66\*, with 51 buyers reporting chart debuts, including Nobody Beats The Wiz/New York #13, Rose Records/Chicago #38, Tower/New Orleans #21, Valley Records/Sacramento #37 and Abbey Road OS/LA #6.

## R. KELLY 12-Play

"What else can we say? He's been #1 on our chart for over a month!"

Mike Orbinati, Manifest Discs/Greenville

Echoes Randy Coleman, Jr. of BJ Music/Greenville, "It's almost becoming the same old thing - R. Kelly at #1!" Seventeen of our reporting MarketMaker accounts show sales on 12-Play at #1 for two or more consecutive weeks, as airplay on the single, "Bump 'N Grind," turns into ultraheavy sales nationwide.

The single moves 3 to 2\* on Urban Network's Heavy Hits Singles chart and heads into the Top 30 at Hit Radio. The video is a Top 10 clip at The Box and is in Active rotation on MTV. Starting in April, R. Kelly will be co-headlining a national tour with Salt 'N Pepa. He recently appeared on "Arsenio Hall" and "Soul Train."

12-Play makes a major sales statement, as it overtakes all competition to earn the #1\* slot on the Hottest Sales Nationwide! A total of 117 MarketMakers report sales mentions, with significant upward moves at Kemp Mill/Baltimore 3 to 1, Homer's/ Omaha 21 to 12, Face The Music/Rochester 29 to 16 and Tower/Sacramento 23 to 13.

"Sales on Sarah are all from in-store play; we love her here!"

Tommy Schlapak, Music Merchants/Hasbrouck

With unusual vocal stylings and a delivery like no other's. Sarah McLachlan makes her bid for Stateside success with Fumbling Towards Ecstasy. This talented and honest artist treated the Album Network staff to an acoustic performance in our atrium last week, and needless to say, she further endeared herself and her music to us.

The first single, "Possession," is just getting its start at Hit Radio, while Adults Only programmers help move the album 12 to 8\* at the format. With support at retail (it's #2\* on the In-Store Play chart) and exposure in the press ("Entertainment Weekly" gave the album an "A"), Fumbling Towards Ecstasy hikes 69 to 57\* on the Hottest Sales Nationwide, with upward moves including Kemp Mill/Baltimore 29 to 10, Tower/Vienna 63 to 33 and Lakeshore Records/Rochester 3 to 1.

"'The Power Of Love' is strong enough to send Celine to #1."

Pat Conroy, JJ's Ear Candy/Carson

No one seems to have what it takes to keep Celine Dion. out of the boys' club. It used to be that when you thought of her, you thought of "Beauty And The Beast" or "When I Fall In Love." But now it's "The Power Of Love" and if we're right, she's busy creating more lasting impressions to give to her masses of fans.

The single, "The Power Of Love," is Top 20 at Hit Radio and Top 5 at Adult Radio (where it reached #1). The video is in Heavy rotation on VH-1. The Colour Of My Love remains strong at #8\* on the Hottest Sales Nationwide, with a total of 150 MarketMakers reporting chart mentions, 102 of which are Top 20 or better.

"In anticipation of the Grammys, Sting takes a huge jump on our charts -62 to 33."

Bob Bell. Wherehouse Ent./LA

Okay, so Sting is up for just about every Grammy award they make (slight exaggeration, he's up for six) and he's bound to come away double-fisting trophies. Just check the odds in Vegas!

Following Sting's very happenin' pre-Grammy appearance on "The Late Show With David Letterman," Ten Summoner's Tales resurges with a mighty 81 to 49\* leap up the Hottest Sales Nationwide! Chart debuts are reported by 26 buyers, with mega-MarketMaker moves reported by Streetside Records/Cincinnati 67 to 28, Sound Warehouse/ Dallas 96 to 37, Kemp Mill/Baltimore 87 to 56. J&R Music World/NYC 22 to 6 and Strawberries/ Boston 82 to 60.

"Moves 17-2 with a major single and media exposure' Rachel Morris. Tower/Rockville

Arista Records has done many things right in the marketing of their records as of late, especially when it comes to Ace Of Base. They've made a strong effort to keep The Sign sale priced and positioned for the last month and a half, so that customers practically trip over the album as they walk into the stores.

"The Sign" nas been #1 at Hit Radio for three straight weeks, and it finds serious support at both MTV and VH-1, where the video is in Heavy (and we mean heavy) rotation. The Sign sails 10 to 7\* on the Hottest Sales Nationwide. reflecting another solid overall increase in piece count totals. Out of 166 total chart mentions, 120 are Top 20 or better. including National Record Mart/Pittsburgh #5, Music Vision/St. Louis #7 and Pegasus/Salt Lake City #1.

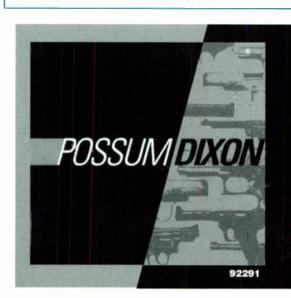

"Pavement is always one of our biggest sellers; it's just great music and as close as it comes to an automatic hit at Pier Platters!'

#### Otis Ball, Pier Platters/Hoboken

Just wait until the kids find out where this road leads! With their unfinished and rough, pop but not quite pop, punk but not quite punk sound, Pavement has amassed the kind of rabid following that the Smashing Pumpkins gained with their debut album, Gish. Matador is a hot label to be on right now, and Pavement's reach is furthered by that buzz, as well as in-store play at retail (it moves 12 to 9\* on the In-Store Play chart).

Crooked Rain, Crooked Rain runs 70 to 63\* on the Hottest Sales Nationwide, with 23 more buyers showing chart debuts. Reporters showing upward moves include Electric Fetus/Minneapolis 41 to 1, Phantasmagoria/Washington, DC, 5 to 1, Tower Downtown/NYC 18 to 9 and Tempo/Hollywood 21 to 10.

## COUNTING CROWS August And Everything After

"Their tour, plus a lot of MTV and Q95 exposure, have pushed sales through the roof."

Steve Wolf, Music To Go/ Indianapolis

Can you say mega-smash? Counting Crows' debut, August And Everything After, is all over the charts and it's easy to see why.

The video is in Heavy rotation at MTV and it's in What's New rotation at VH-1. And "Mr. Jones" is barreling up the Hit Singles chart, where it soars 22-15\*.

### BIG HEAD TODD AND THE MONSTERS

Sister Sweet

"A lot of radio airplay has helped *Sister Sweetly* debut at #5 on our chart. The college crowd loves this band."

Jane O'Connell, Kief's/Lawrence

Giant has been working Sister Sweetly non-stop ever since the album's release last year, and that perseverance is paying off.

"It's Alright" scores a whopping 42-32\* Homer! on the Power Cuts chart, as it nabs 16 adds this week. It's already the #1 song at WSHE/Ft. Lauderdale and WIBA/Madison, while "Bittersweet" is still getting heavy action at WEGR/Memphis and WFBQ/Indianapolis. The video for "It's Alright" was just added into On rotation at MTV.

Big Head Todd And The Monsters are known for their constant touring, and that exposure has been having a positive impact at retail. Stores with noteworthy sales increases include Tracks/Indianapolis 9-7 and Record Exchange/Boise, where the album re-enters at #9.

### Dig

"This is a damn good record! Sales are up because of in-store promotion and customer word-of-mouth."

Tony Rifugiato, Daddy Kool/Sarasota

Dig's self-titled debut continues to make inroads at radio and retail.

Dig leaps 28-25\* on the Hottest Airplay chart and maintains its #10\* hold at **VIRTUALLYALTERNATIVE** Radio, while the lead track, "Believe," jumps 27-24\* on the Power Cuts chart. WAAF/Boston, KIOZ/San Diego and WKQZ/Saginaw are among the forwardthinking stations that have "Believe" in heavy rotation. Retail is reporting increasing numbers for Dig, as it moves 95-93\* on the Hottest Sales Nationwide chart, soars 30-26\* at VIRTUALLYALTERNATIVE Retail and advances 6-5\* at RAWk retail. The band's current tour with Blind Melon should continue to heat up sales for Dig.

Ross Hewson, Record & Tape Traders/Baltimore

#### BEADWETT CORRECTED

"This is a real strong record and sales should be as big for us as the Mazzy Star album. It's that late night, dreamy, floating, driving along a Nevada highway late at night with your lights dimmed feel! They're opening for the Cocteau Twins here, which is going to be a massive show. Luna is just great lifestyle music." Peter Greyy, Orpheum/Seattle

#### US3

Hand On The Torch

Blue Note/Capitol • 80883

Us3 and their feel-good jazz-hop have definitely carved more than a little niche out, as they get funky all across the US on their tour with UB40. Recent press exposure has been large and the lead single and video "Cantaloop (Flip Fantasia)" is crossing over everywhere!

With Us3's debut release, Hand On The Torch, cracking the Top 20 on the Hottest Sales Nationwide (22-19\*), we're mighty proud to have made them a retail Best Buy last December. "Cantaloop" moves 13-10\* at Hit Radio and holds at #42\* at Urban Radio. The video is in Stress rotation on MTV, and it can also be seen on BET. Well over 50% of our MarketMaker panel shows Top 30 sales for Us3. Among those are Tower/Uptown NYC 10-8, Record Theatre/Syracuse 15-9 and Tower Alternative/Costa Mesa 15-6.

### RAGE AGAINST THE MACHINE

Rage Against The Machine

Epic • 52969

Rage Against The Machine, from the rowdy, yet thoughtful group of the same name, has slowly but surely edged itself into the psyche of America (currently moving 32-29\* on the Hottest Sales Nationwide).

The March 10 issue of "Rolling Stone" has a very critical article focusing on the statement made by RATM with their video/song "Freedom," which has been airing on MTV and The Box. It's hard to deny the power and ferocity with which RATM gets their messages across, but it's worth the ride. Accounts reporting strong sales increases include Aces/Tampa 18-7, House Of Guitars/Rochester 76-22 and Newbury Comics/Cambridge 20-11.

#### **CRACKER**

Kerosene Hat

Virgin • 39012

The second release from Cracker, Kerosene Hat, is just this side of reaching Gold, and the boys of Cracker have fired off a second track, "Get Off This" (with an instant hook and "Frampton-esque" guitar line), to keep things cookin'. "Low," the lead track, has successfully crossed the bridge from Alternative to Rock Radio, where it reached the Top 10 on the Power Cuts chart (with airplay at KDKB/Phoenix 26 PPWs and WAAF/Boston 37 PPWs). VIRTU-ALLYALTERNATIVE Radio holds Kerosene Hat at #9\*.

The video for "Low" is in Heavy rotation on MTV and Cracker is still traveling the tour road with the Counting Crows. This is another former retail Best Buy, and it re-debuts

on the In-Store Play chart at #20\* this week. *Kerosene Hat* picks up another 22 retail debuts, with strong sales increases reported by J&R Music World/NY 30-24, PennyLane/Kansas City 60-17 and Tracks/Indianapolis 13-3.

#### **JAMES**

Laid

Fontana/Mercury • 514943

"Laid," the tile track from James' third domestic album, should have a quarantine label, it's so infectious! You just gotta love these charming Brits, whose first video from Laid is finally in Buzz Bin rotation on MTV.

VIRTUALLYALTERNATIVE Radio has Laid at #18, while the single was among the Top 15 Most Added Singles at Hit Radio. With major chains supporting developing artist and listening booth promotions, the third time is a charm for James. Market-Makers reporting noticeable sales increases include Rose Records/Chicago 13-3, Streetside/Columbus 34-3 and Tower/Austin 65-26.

## **CONSCIOUS DAUGHTERS**

Ear To The Street

carface/Priority · 63877

Conscious Daughters' Ear To The Street screamed up the Hottest Sales Nationwide chart this week, moving 97-70\*. The debut release from this East Bay rap/hip hop duo has found popularity with their audience, based on an early, but strong, word-of-mouth buzz (accounting for almost 70% of sales).

That buzz is emphasized by radio and video play; the video for "Something To Ride To (Fonky Expedition)" is in Box Tops rotation on The Box, and at radio, the single crosses to Hit, where it's beginning to get action. Support from the group itself has been helpful - they have been doing many in-store appearances at retail for fans. Accounts showing strong sales gains include Dr. Wax/Chicago 31-13, Manifest Discs/Greenville 31-12 and Wherehouse Entertainment/LA 55-32.

# SOUNDTRACK

Valley Girl

"Oh my Gawd!" The illustrious soundtrack, Valley Girl, is finally out and you'd think that it contained the solution to world peace. Actually, it

Trina

contains something almost as bitchin', unforgettable, classic songs from the totally fabulous early 80s.

Over 25% of our accounts reported that dudes and babes cruised in by the van-load to immediately score their own copy of *Valley Girl*. Some of those debuts came from JJ's Ear Candy/Carson City #2, Y&T Music/Miami #5 and Go Boy/Redondo Beach #1. Once again, Rhino knows how to give the people what they want; take it from us folks here in *the* valley: Like, get over to the Galleria - quick!

#### **DEVELOPING ARTISTS TREMORS**

We must bring your attention to three groups that have been creating a good deal of noise lately: Possum Dixon, on Interscope/TAG, The Indians, on Polydor/PLG, and Paw, on A&M, are all stepping out of the shadows in their own ways. Possum Dixon has won fans over with their "teenage garage band gone punk" style. The first track, "Watch The Girl Destroy Me," has just recently locked in at VIRTUALLYALTERNATIVE Radio (the self-titled album moves 7-6\*), Rock Radio (69-53\*) and even Hit Radio, which is starting to feel their effects. A recent appearance on "Late Night With Conan O'Brian" and video exposure on The Box have had an impact on sales. The Indians, whose track "Bed Of Roses" is included on this week's #1 Bin Burner, the Reality Bites OST, have felt a strong impact from the movie's popularity. They picked up 11 new debuts and are getting strong in-store play at 25% of our MarketMaker accounts. Paw's Dragline is a real fighter, and A&M should be commended for seeing them through to the mainstream. They have been touring since the album's release and their single, "Couldn't Know," is getting attention at RAWk and Alternative Radio. Major chains, have gotten involved in "buy-and-try" programs and will help in turning up the volume on Paw.

With the notion that there's a San Diego music "scene" which is growing stronger every day, and with breakthrough bands such as Rocket From The Crypt and Stone Temple Pilots calling the area home, this "scene" may actually be a serious happening. Well, "scene" or no, you'd better make room in your pad for Lucy's Fur Coat, a group that romps through an untamed set of rough-edged alterno-rock. Their debut release, Jaundice is now out, and with one listen, you'll soon understand why they've been so well received and were immediately in the running for "Best Band" at the San Diego Music Awards. And their co-nominees were none other than RFTC and STP

The lead single, "Treasure Hands," has chunky power chords and steady guitar rhythms that serve as a solid foundation for a slyly melodic, undeniably catchy song. Radio has been consistently adding and increasing rotation on this track, with KWOD/Sacramento, 91X/San Diego and WFNX/Boston giving it notable attention, helping Jaundice move 40-39\* on the VIRTUALLYALTERNATIVE Radio chart. In LA the album is experiencing some of its best sales, with MarketMakers such as Moby Disc/LA, Tower Alternative/Costa Mesa and Peer Records/Irvine reporting Top 20 sales.

The members of Lucy's Fur Coat have been supporting the release of *Jaundice* by playing furiously on tour and making promotional appearances like the one at Tower Alternative's "Lab" store in Costa Mesa, where KROQ was on hand and Tower/San Diego's live remote with 91X, where LFC played a jam-packed gig in the parking lot. LFC will continue burning down the club-house on their US tour, now in progress. The initial press has been massive and positive, including coverage in Spin, Entertainment Weekly, Creem, and Billboard.

Relativity Records has made it just too easy for retailers to get wrapped up in Lucy's Fur Coat, they have Jaundice set at a developing artist price that's almost equal to giving it away! LFC dishes up some crunchy, loud rock n' roll, spiked with a large helping of goofiness for taste. To fully appreciate LFC and Jaundice, you really need to spend a sweaty night in front of the band's stage with songs like "Falling Out" throbbing through you. As our VIRTUALLYALTERNATIVE crew so aptly stated, "LFC is genuine, crazed and louder than hell!" How can you not rip that CD open and slap it on the player right now?!

Well, the secret's finally out, now the truth must be told. I'm married to Karen. As happy as we seem today, it hasn't always been this way; it's been a long, tough road. Just when things seemed to be

working out, bam! - I'd wake to find yet another member of **The Posies** sleeping on our couch. Between the bands and Chris Carey, I couldn't seem to get a moment of rest. And, as if that's not enough, you can't possibly imagine the stress that working at Hits has put on our lives. The day-to-day pressure of filling a column with I's and me's takes a toli only Lonn Friend can comprehend.

Things are looking better, though; she has offered to guit and spend her days shopping for pop records with our 14-yearold Asian houseboy, but I'm fighting that drastic a step. I've offered to quit, and spend my days in stunned worship, but she feels that we need the extra income to support her in the lifestyle she's accustomed to.

Sure, we've talked about having kids, but why risk ruining our relationship with sex? I mean, it is a perfect life....

Yes, WHFS did fire its staff - for about a half a second; then they were all hired back by the new company that owns WHFS. With all the stupid rumors floating around about that station, you'd think the industry had never seen a buyout before...X-96 has a new phone number, (801) 364-9608, and a

If you thought the flight from Australia was long, imagine Henry Rollins' surprise when he got bumped from business to cattle car (they must not have seen "The Chase"). Then, five hours out of Sydney, the plane experienced some minor difficulty which forced it to land in Auckland. Twenty-two hours later (quite a few of which were spent waiting on the plane), Rollins' flight finally took off for the US. Who do you think got to use the armrests on flight? #### The Proclaimers

"Let's Get Married" Chrysalis/ERG

"Let's Get Married," from The Proclaimers upcoming Hit The Highway, displays the band's penchant for upbeat chord progressions flavored with shuffling rhythms that helped propel "I'm Gonna Be" to hit status last summer, some four years after its initial release. The vocals lie above the guitar rhythms in syncopated bits, regularly given fresh meaning through inflections of happiness and depression in the guitar strumming. The Reed Brothers' return to these shores is a welcome one, especially for those who believed in the band when Sunshine On Leith first hit their desks in 1989.

#### **Alison Moyet**

"Whispering Your Name" Columbia

For years, Alison Moyet has been one of the premier vocal talents to grace the alternative music world. From her early years with new wave faves Yaz through to her present day solo work, Moyet has carried songs with a strength and unwavering passion for her craft that few can match. Moyet returns with the much-anticipated new single, "Whispering Your Name," which deftly fulfills all expectations. The track is available in two distinctly different versions, which are in your hands now. The first is an energetic dance mix that works as a bright counterpoint to Moyet's full-bodied voice and the bittersweet lyrics. The second version is an acoustic/ballad version of the song that further enhances Moyet's considerable vocal talents. Both tracks have merits, but for today's alternative station the likely choice is the energetic dance mix which captures all the power and beauty of Moyet's voice without sacrificing the energy needed to segue into the rest of your rotation.

#### Chainsaw Kittens

Pop Heiress

Mammoth/Atlantic/TAG

Since his days fronting Defenestration, Tyson Meade has put out power pop injected with the energy and honest emotions of punk. The latest album by the Chainsaw Kittens, Pop Heiress, continues his musical methodology, and is perhaps the purest example of the creative force behind Tyson. Melody and mayhem combine in Pop Heiress as the Chainsaw Kittens flash heart and soul like the reflection off a highly polished 9mm; a mixture of sex and death, beauty and decadence, and love and hate.

Pop Heiress runs an emotional gauntlet ranging from over-the-top energy to malaise to reflective pensiveness, all fused with an underlying pop style that is arresting yet not preconceived. The result is an honest outpouring of emotion that is simultaneously universal in its appeal and intimate in its mood. Songs such as "Pop Heiress Dies" (the first single), "Soldier On My Shoulder," and "Media Star Hymn" showcase the range of sound and feeling Chainsaw Kittens move through with an unforced grace. *Pop Heiress* will win Chainsaw Kittens far-reaching fan appreciation and critical acclaim. Other standouts include "Sore On The Floor," "Burn You Down," "Justine Find Heaven" and "The Closet Song."

#### **Matthew Sweet**

Son Of Altered Beast

Zoo

Matthew Sweet's remix of "Devil With The Green Eyes," from his recent Altered Beast, is a great example of his songwriting abilities. Sweet's songwriting employs techniques established by groups like America, often drawing upon the interplay possible between a vocalist and acoustic guitars. Sweet's recent rise to the elite of the alternative music world has virtually necessitated the release of Son Of Altered Beast, which includes not only a great remix of "Devil With The Green Eyes," but also a number of live tracks. The live tracks showcase why Sweet's stock has increased so greatly over the recent past, lucidly demonstrating the ease with which Sweet is able to take his songs to unforeseen levels by assembling a great band, plugging in and letting the mood and music take over. Son Of Altered Beast also includes an excellent studio outtake in "Ultrasuede," which is certain to become a fan favorite.

#### **House Of Large Sizes**

"Sox On Spot"

Red Decibel/Columbia

Guitarist Dave Deibler of House Of Large Sizes surely must have been weaned on a diet of bands like Sabbath, which trained him in the importance of a powerful riff. Deibler seems to have taken that lesson to heart, as the single "Sox On Spot" proves. Deibler's guitar growls in furious unison with the bass of Barb Schilf, which lays down a riff that was certainly born somewhere in early 70s England. High-pitched vocals enter the picture with few cares, expressing with angst that life's efforts "are not worth a piece of pie," though House Of Large Sizes' efforts certainly are. Deibler's scorching guitar solo reaches out and grabs the listener, assaulting ears with note flurries and distorted sustain. "Sox On Spot" will definitely prove to skeptics that the heights of rock n' roll can be relived with bands like House Of Large Sizes.

"Panic On"

#### Bruce Cockburn

"Listen For The Laugh"

"Listen For The Laugh," Bruce Cockburn's single from his Columbia release Dart To The Heart, takes one back to the days when guitar playing, sage-like songwriters were a commodity. Cockburn's style is a welcome return to those days. "Listen For The Laugh" carefully envelops one in a lilting harmonic progression, with Ceckburn's voice sliding around wisely, reminiscent of the likes of a Garcia or a Dylan. A horn arrangement completes the emotional position of this song, evidencing Cockburn's highly upbeat approach. A slide guitar solo completes the picture, adding a country twang to a song firmly rooted in endearing pop strains and the omniscient presence of Cockburn.

#### **Machines Of Loving Grace**

"Perfect Tan (Bikini Atoll)" Mammoth/Atlantic/TAG

Hailing from Tucson, Arizona, Machines Of Loving Grace elucidate their thoughts on the state of love in today's society with their latest single, "Perfect Tan (Bikini Atoll)." As vocalist Scott Benzel grinds his voice through processed, mechanical sounding effects, singing, ...And I love you and I hate you/I remember the time I mind-raped you," one starts to understand the meaning of love within the band's apocalyptic vision. Sonically, these Machines match their lyrical intensity with uncompromising industrial beats that are the framework for the riffs of Stuart Kupers. Kupers' quitar and bassline create a closely synched, breakneck motif, part soul and part electricity, completing what drummer Brad Kemp lays down. The track is further complimented by the keyboard explorations of Mike Fisher, whose extra textures round out the sound of Machines Of Loving Grace. Tucson has produced an industrial nightmare that will certainly capture your attention with "Perfect Tan (Bikini Atoll)."

#### General Public

"I'll Take You There"

Epic Soundtrax

The long-rumored and much-anticipated reunion of General Public is now fully at hand with the release of "I'll Take You There," the band's first new release since 1986. The track is pulled from the soundtrack of the upcoming film "Threesome," but this won't be the last we hear of the newly-reunited duo of Ranking Roger and Dave Wakeling, who recently inked a deal with Epic. With a brisk pop feel and an easy, captivating appeal, "I'll Take You There" works nicely into General Public's ska roots, developing into a smooth, breezy track that is bound to satisfy even those most skeptical about this reunion. A perfect reintroduction to a duo that, as both members of The English Beat and General Public, have been incredibly influential on the shape and state of today's alternative music scene.

## **Inspiral Carpets**

"Party In The Sky"

Mute/Elektra

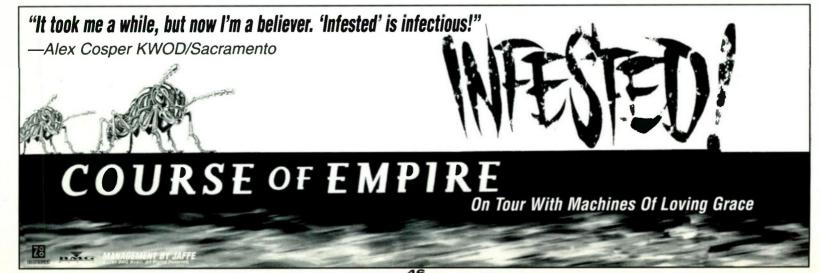

Inspiral Carpets are indeed (as their name might suggest) inspired, as evidenced by the songwriting displayed on the first single, "Party In The Sky," from their forthcoming album Devil Hopping. The Carpets found the song on an affable guitar groove that will make feet tap everywhere as listeners are propelled by the beat. Complimenting this groove with a chorus hook that cannot easily be forgotten, Inspiral Carpets demonstrate their affinity for conflicting imagery, a notion that is exemplified by the song's upbeat evaluation of loneliness. The strength of "Party In The Sky," as well as the band's history, make this a must for the playlists of alternative stations across the nation.

#### **Hector Zazou**

"I'll Strangle You"

TriStar

Hector Zazou's recent TriStar release, Sahara Blue, is surprising programmers across the alternative market with its immediate radio appeal, an appeal epitomized by the success of the single "I'll Strangle You." Considering the herd of talent that contributes to the album (including John Cale and Ryuichi Sakamoto), it is hardly any wonder that Zazou is capable of such captivating work. "I'll Strangle You" is a fine example of what today's mixing technology can produce when the right people are at the helm. Hypnotic, booming drum beats flirt with a reggae-flavored bassline (care of visionary Bill Laswell) and are further complimented by occasional scorching guitars, floating synth chords and effects that sound fresh from a creative DJ's sampler. Add Anneli Drecker's sexy voice and the musings of French actor Gerard Depardieu, and the aural collage that results is the vision of Hector Zazou, a multi-faceted exploration into the future of crossover dance music that a number of stations are already turning into an unexpected hit.

# RAW

've been preaching for the past several months about the New Heavy of 94, and it's unfolding as prophesied: Motley's "Hooligan's Holiday" is a radio monster and the chatter surrounding the Clockwork Orange-esque clip is universally positive. Soundgarden's "Spoonman" assault is in full swing (there is a "No Rain"-style excitement happening at MTV). Less than a month from the release of Pantera's anxiously awaited Far Beyond Driven and even Warner Music Group boss Bob Morgado can't stop talking about Phil and the boys. Now I'm gonna throw one more band into the mix because - after spending an evening at A&M Recording Studios hearing their unfinished album - I can tell with complete certainty this is MEGA, MEGA, MEGA! Biohazard, my friends! With Ed Stasium at the helm, Brooklyn's baddest band of in-your-face hardcore rap/metal gang vocal assassins are out to destroy the planet and claim it as THEIR TURF. All the shit I heard was so fucking honest, loud, real and us it simply stunged me. After a careful cultivation at Roadrupper with a num-

righteous, it simply stunned me. After a careful cultivation at Roadrunner with a number of sincere efforts, **Biohazard** is on the verge of their big label Warner Bros. debut and I see nothing but success on the horizon. "Failed Territory," "Love Denied," "Tales From The Hardside" and "Human Animal" - frightening tracks that assault your lobes and demand your attention. This band has something to say. Listen to 'em. And if you can, catch 'em on the road with **Fishbone** and **Kyuss** - a small prelude to the spring onslaught of their CD release....

The immortal **Scorpions** continue to do huge concert business; **Danzig** shows no signs of slowing down - METAL IS HEALTHY! What was once underground will soon be mainstream. Gimme a pill for my Earache - these are the best of times. Talk about it, tell your friends about it, play the records, don't be afraid, listen to the kids, stay close to the street, fight the desire to hype, trust the instincts of those with conviction and be true to what is HARD and HEAVY. To quote the great **Joey DiMao**, "Wimps and posers leave the hall!"...Fuck, I'm exhausted already....

Watch the Big Label musical chairs as several key players jump their respective ships for new waters. Epic's legendary **Mike Schnapp** will pack up and head for new challenges as Vice President of Rock Music at ERG (Daniel, you wild man). Will he be

### FRIEND TO ALL

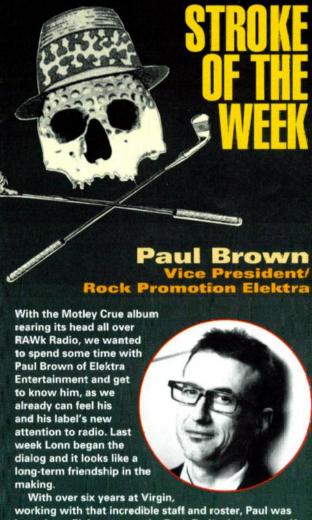

replaced by a metal visitor from the planet Mercury? Metal Blade's **Mike Rittberg** is heading for the former home of **Brian Huttenhower**, who appears to be on his way to a new Field of play; Chrysalis' **Richard Sarbin** will hang a new shingle at Imago; there are GIANT rumors of big changes at **Irving**'s place - new blood seeking new adventures. It's good for the talented individuals involved, as they're allowed to better their respective situations - and it's good for the labels, which will benefit from the new perspectives and ideas fostered by their fresh blood....

Ron Laffitte, who couldn't stop talking about White Zombie 18 months before they broke, now can't stop bending my ear on Rocket From The Crypt. Between Ron and Lewis Largent, I've now started playing my Cargo All Systems Go CD again and I must admit, this shit is killer. Is this coming out on Interscope? I wouldn't know. Except for my golf outings with Tom Whalley, I have about as much interaction with this label as Snoop Doggy Dogg has with the KKK...Thanks to Randy Miller, Harvey Leeds, Jason Flom and all the others who responded so favorably to my comments two weeks back about home-grown American rock bands and the need for MTV to sit up and take notice. Harv and I talked about the network starting an "Apple Pie Rock N' Roll" show - something special interest that could highlight this type of music once a week, a la "Headbanger's Ball" and "Alternative Nation." Keep the heat on, Rock Radio, and it could happen....

Creem magazine's **Tori Amos** cover story was one of the best articles ever written on a music artist anywhere at any time. This mag's improved light years since **Chris Nadler**'s taken over, and I must say, I read the issue cover to cover and thoroughly enjoyed it. Keep using RIP's **Janiss Garza**, **Chris**. Her **Tad** piece was awesome. Call me magnanimous. As Mercury's **David Leach** and manager **Doc McGhee** were teeing off at Riviera last week, I voiced my frustration over the current **Greta** scenario - TOO ALTERNATIVE FOR METAL/TOO METAL FOR ALTERNATIVE. Okay, listen up! **KROQ** and **KNAC** should be playing "Is It What You Wanted." It will work for both worlds. Then, if **KROQ** especially gives this band a shot, perhaps the umbilical cord from Burbank to Broadway will wiggle and the cool clip for this track will get a shot. I can't fathom why this unique band is being so grossly overlooked....

Finally, I laid down \$20 and purchased my first ever Pay-Per-View broadcast Saturday night of **Roger Daltrey**'s tribute to **Pete Townshend**. I was most interested in seeing my soon-to-be **Z-Rock** radio partner **Alice Cooper** perform "I'm A Boy" (Coop, ya nailed it!), but was truly impressed by the entire two and a half hour broadcast. Show stealers: **4 Non Blondes' Linda Perry** (her "Doctor Jimmy" and "Acid Queen" were awesome) and **Michael Kamen**'s remarkable music academy orchestra. My only question: Where was **Eddie Vedder**'s "My Generation"? I'll investigate...Next week - **Lonn** does **Les!** Be here, Big Daddy!...Friend out....

Lonn Friend
World Radio History

With over six years at Virgin, working with that incredible staff and roster, Paul was brought to Elektra to run the Rock Radio department. He had a personal joke about the situation: "You work your ass off all your life," Paul said, "to maybe fall on your face, but at least you get the chance." As positive as Paul is in conversation, we'll take that joke as a classic one-liner, and we expect the Elektra radio team to become even more successful in the near future

"I think the perception at radio had been that Elektra

had gone into a strictly marketing mode. I want this staff to go back to radio and work AOR even stronger, making Elektra even more visible at radio. I'm getting the feedback from radio that they feel it."

With two winners like Jessica
Harley (on the East Coast) and Michelle
Meisner (on the West Coast) working with Paul,
RAWk Radio will be very aware of Motley Crue and
the new acts that the label is committed to developing, such as The Afghan Whigs and Phish.

"I'm a big believer that everyone be on the same page, from the office staff to the field staff," Paul told RAWk, explaining his style and philosophy about modern radio. "We need to be tightly focused on what we are trying to achieve, to get the right record at the right station at the right time.

"The most amazing bands in the world are the ones that have the ability to inspire emetion; they run on emotion and connect with emotion. We have some terrific records out and some terrific ones to follow." They'll be connecting, we're sure.

# **Type O Negative**

"Christian Woman"

Roadrunner

Even if Type O Negative vocalist and visionary Peter Steele sounds like a modern, demented Dracula, he still is fascinating. His ultra-baritone

croon is reminiscent of the vocalist of the now-breaking Crash Test Dummies. The dark, doomy, campy, and cool track from the dramatic *Bloody Kisses*, "Christian Woman," will get calls and plenty of attention as Type O assaults RAWk and Mainstream radio. Here's hoping that many will "get it."

#### **Altered State**

"Darkness Visible"

Just in case you overlooked "Darkness Visible" up until now, here is your chance for redemption. "Darkness" is like being snuck up on from behind and cracked in the skull before realizing what's happening. Is it heavy? Yes! Extremely cool guitar, soaked in a flanger until boiling, and an unforgettable chorus are what drive this song into your brain on the first listen. See the light now.

#### Sass Jordan

Rats Impact/MCA

RAWk has a new first lady, and her name is Sass Jordan. Already inflicting serious damage at mainstream radio, Sass wants some serious metal attention. Rats is the album, and if guitar is what you seek, then look no further. There is more kick-you-in-the-ass guitar here than in most so-called alternometal bands around. Sass shows just how dirty she can be on "Damaged," "Pissin' Down," "High Road Easy" and "Ugly." Sass is just plain, fuckin' cool, and if you give her a chance, you'll end up a slave to her. That wouldn't be so bad now, would it?

**Lucy's Fur Coat** 

"Treasure Hands"

The most attractive track on Lucy's Fur Coat's Jaundice album is surely "Treasure Hands," a throbbing, buttrocking stomper. Lucy's raw sound is vibrant and full of energy. It's that energy which makes their live shows legendary. Vocalist Charlie has one of the most interesting new voices in recent memory; it's gutsy, gruff and real.

Grave

And Here I Die...Satisfied

From the depths of death-defying metal lurks yet another beast with an evil tone. Grave has a strong following in the

underground due to a couple of classic cult albums. This six-song sampler has plenty of dark, menacing metal riffs you'd expect from a band named Grave, but it goes deeper than that. Instead of blasting the listener into complete submission, Grave understands melody and dynamics and makes the most of those key elements.

#### Cell

Living Room

Cell has a certain way of working their tunes deep into your brain cells. The great garbage can guitar tone on the opening track, "Milky," really sets a mood. The sensual "Chained" is definitely worthy of attention, as is the driving "Come Around." Real sleepers for RAWk Radio include the off-the-wall, psychedelic, Keef-life, guitar-infested title track, "Living Room," and the even spacier "Fly."

# Surgery

"D-Nice"
Atlantic/TAG

From the bulging bass line to the melodic chord runs, there's a throbbing, punk-like groove in "D-Nice" that is impossible to ignore. Real driving, stomping, sweaty, good old rock n' roll comes real easy for these Nu Yawk RAWkers. This is a good place to start, but the album, *Shimmer*, is deep and loaded. You'll be hearing a lot more from these guys.

#### The Obsessed

"Streetside"

WINO, The Obsessed's guitarist and vocalist, has one of the more distinctive and original sounding voices in all of metal. He can really sing and doesn't have to rely on screaming or yelling to get his songs across. "Streetside" has a riff that threads its way through the song, and your brain! It's tough to forget even after one listen. Pound this one-it will work

The ever-mentioned Randy Rhoads Tribute, which also supports musical scholarsh ps in Randy's name at UCLA, finally came to fruition on February 23 at the Hollywood Palace. This time, five weeks past the earthquake, Rudy Sarzo and John Stix got their show off. The list of those who jammed on Randy's and Ozzy's tunes was remarkable. How's this for a scorecard: Tony MacAlpine, Tony Franklin, Phil Soussan, Thierry Hous, Mark Wood, Ron Young, Simon Wright, Darren Householder, Myron Grombacher, Carmine Appice, Delores and Kelly Rhoads and a few more. Bands that also played mini-sets were Phantom Blue. Love Hate, Medicine Man, Black Market Flowers, Jennifer Batten and Tribe Of Gypsies. The Tribe was introduced by Bruce Dickinson, who has helped fuel the buzz that has made this band the subject of serious abel interest; he was in town taking care of some solo business. Bruce's solo album is supposed to be Jan Lane, who has been touring with the reformed Warrant and doing very well on the road, has decided to go ahead with a solo album. Shay Baby will be producing Heard word that George Lynch has enlisted the services of Bill E. Gar (ex-LSD bassist) and Steve Riley (ex-LA Guns) for his new band. No word on who the singer is. Speaking of LSD, they have a new guitarist and it isn't Warren DeMartin, who has other plans now hanging out at a mastering lab, I heard mention of a four-song Candichox master. What could that be? many unwanted nicknames is 'swag hook,' for my eternal need for new CDs and my ability to get them. But on Saturday, I checked my mail and got only two really bad demos and was very depressed about it. A couple hours later, by courier, I got King's X's Building Blox, a promotion only "greatest hits" album from Atlantic. What a weekend saver that was. Silvio Benvini and Mike Moses, you guys rule! Many thanks! There will never be any more excuses now for RAWk Radio not to pile on the mighty King's X!

When listening to the new Soundgarden you tend to wonder..."What planet are these guys from, and if they are from earth, what dimension do Chris and his cronies have access, from which their unearthly ideas originate?" Superunknown might answer that question, at least that is the title of Soundgarden's latest creation on A&M Records. On Superunknown Soundgarden has crossed the boundary from greatness to genius and boldly define the direction of hard music for

the 90s. Upon first listen, the brilliance and creativity are instantly striking and as you continue the journey it just screams over and over..."This is a fucking monster!"

The first single, "Spoonman," "Limo Wreck,"
"Let Me Drown," "My Wave," "Fell On Black Days," "Superunknown," the Beatlesque "Black Hole Sun" and the list goes on, for this is an album of profound proportions. "Spoonman" is devastating everything in its path at RAWk Radio and that success is just a hint of the full record's potential. In stores March 8, retailers prepare yourselves. Soundgarden's time has come.

Strong Sales In 2 Weeks... SoundScan - 20,000!

Concert Dates Selling Out Across America

It was great seeing so many of my old friends at the Gavin Seminar and getting to meet many others for the first time. The overall positive feedback I received on our new Adult Rock section was very gratifying! However, there does seem to be some misunderstanding in regard to our Adult Retail chart. Allow me to clarify. The retail chart is not meant to merely be a shadow of the Adult Airplay chart. It is meant, rather, to reflect the buying tastes of Adult Rock Radio's audience. This includes certain titles that are not necessarily airplay projects. For example, The Piano soundtrack or the Sleepless In Seattle soundtrack (both of which are selling vigorously) are from movies that primarily appeal to an adult audience and should be included on the chart. Other titles like Cracker, Liz Phair, Us3 and The Ramones are included because an appreciable amount of Adult Rock stations are giving them airplay in one form or another. And still others like Common Thread, Dwight Yoakum, Rod Stewart and Bryan Adams may not be right for programming but, nevertheless, are selling to the audience Adult Rock Radio shares with other formats in their markets. I hope this makes it a little clearer as to our aim with the Adult Retail chart. This chart is one of a kind in the industry and it needs to be generated with a holistic approach.

The New York Times did a great feature story on the Adult Rock format on February 28 in their business section. It quotes John Bradley, Dennis Constantine, Paul Marszalek, Chris Mays and others.

#### **Elvis Costello**

#### **Brutal Youth**

Warner Bros.

Time has proven the amazing staying power of Elvis Costello. His songs have been covered by countless artists and his style has been emulated by almost as many more! From his early days with Stiff Records and on through his many phases, his songs have always shown polish and relevance. Certainly, the warmest memories we have of Costello are the albums he recorded with the famous Attractions. Well, for all intent and purposes, we have that magic combination again on *Brutal Youth*, for alongside Costello once again are Steve Nieve, Pete Thomas, Bruce Thomas and Nick Lowe.

Everyone who listens to *Brutal Youth* will have his or her own particular favorites. I will not presume to tell you which tracks *you* should like and/or play, (beyond "13 Steps Lead Down," of course), so I will simply share with you which tracks / like! "Kinder Murder," "Clown Strike," "Sulky Girl," "Rocking Horse Road" and "Just About Glad" are songs I want to hear again as soon as they are over. There is something about Costello's tunes that always leaves you wanting a little more, while at the same time, each song is complete.

I am not sure whether it was Costello's reunion with his mates, or his return to Pathway Studio (where he recorded My Aim Is True), or simply a need to release some creative energy outside of the Brodsky Quartet, but Brutal Youth is a raw, exciting and honest album that captures everything this prolific artist is admired for.

#### William Orbit

#### Strange Cargo III

Can you spell buzz? There is one definitely a-brewing around William Orbit's "Water From The Vine Leaf." KGSR and KCRW have been early in supporting this track and the reaction they are getting is nothing short of overwhelming! It is now spreading to other stations including KIOT and KBCO. Several of us were also witness to the great reaction this song received at the Gavin Griddle panel. Well, IRS has heard the call and the CD Pro edit (under four minutes) is being pressed at this very moment. This edit will also be on the debut Adult Rock TuneUp on your desk Monday the 14th.

Strange Cargo III is the third in an epic series by multi-instrumentalist/producer/remixer William Orbit. The first in the series, Strange Cargo, was released in 1987, with Strange Cargo II following in 1990. His work with artists such as Sting, OMD, Julian Lennon, The Cure and Seal (he's currently working on Seal's new album) leaves him little time for his own projects, but when you have experienced the full range of Strange Cargo III, you will agree that it was worth the wait. Starting with "Water From The Vine Leaf," and on through the rest of the album, Orbit takes us on a musical journey through space and time. One is quick to realize that there is much more than just dance beats here.

With widespread acceptance and airplay for music by Beautiful People, Us3, Deep Forest and Enigma at the Adult Rock format, giving "Water From The Vine Leaf" a shot on the air should be a natural progression.

#### Luna

#### Bewitched

Elektra

Elektra is very excited about the new Luna album, *Bewitched*, and after just a few listens you will understand why. The band's sound has matured and become much more defined since their debut release, *Lunapark*, a few years ago. All songs were written by the band with lyric credits going to lead guitarist/vocalist Dean Wareham. The album was produced by Victor Van Vugt along with the band.

From track to track on *Bewitched*, you will become almost hypnotized by the subtle musical grooves and restrained vocal delivery. Beginning with "California (All The Way)" to the first emphasis track, "Tiger Lily," to the title track and on through to "Sleeping Pill," Luna slowly draws you into their music. When *Bewitched* is over, you will be in a dream-like state that will leave you feeling relaxed, serene and at peace.

It is important that newer acts are exposed as often as established artists are to keep this format fresh and vibrant. Luna's *Bewitched* fits this situation perfectly.

#### **Tasmin Archer**

#### Shipbuilding

SBK/ERG

Tasmin Archer dazzled all of us with her tremendous debut album, *Great Expectations*, last year, which featured her memorable song, "Sleeping Satellite." To keep our enthusiasm high while she works on her next full- length album, the folks at SBK have put together a great eight-track EP for us.

The first four songs, "Shipbuilding," "Deep Dark Truthful Mirror," "All Grown Up" and "Amsterdam," are renditions of songs written by Elvis Costello and were, once again, produced by Julian Mendelson, who handled the bulk of the production work on Archer's debut release. Even though they preserve the unique feel that Costello songs evoke, Archer manages very nicely to imprint her own style on them as well. The next four songs are live or acoustic versions of the standout tracks from *Great Expectations*. I am sure that "Sleeping Satellite" and "When It Comes Down To It" are still active library tracks for you, so why not freshen them up with these versions?

Tasmin Archer's distinctive voice and powerful music should remain on the air at all times. Shipbuilding is an easy way for you to make that happen!

Loreena McKennitt has the voice of an angel! When she sings, my spirit soars. Although she may be a native Canadian, her music is clearly steeped in the Celtic traditions of her heritage. Images of chivalry, the all-powerful church, castles and misty bogs flit across the mind's eye. On her last album, The Visit, this influence was in full bloom, but there was the hint of other cultural influences at play as well. On The Mask And Mirror, with her exploration of music from pre-15th Century Spain, Morocco and Northern Africa, France and Normandy (she spent much time in these areas to get the inspiration), those newer influences are definitely in the forefront. In mankind's history these cultures may have clashed, but in McKennitt's music, they blend smoothly into a beautiful tapestry of visions and sounds.

With the opening track, "The Mystic's Dream," we are immediately drawn into McKennitt's world. She wrote the lyrics and music for this song, as she did for "Marrakesh Night Market" and "Full Circle." On other songs she has adapted lyrics from several sources and written and arranged the accompanying music. On the emphasis track, "The Bonny Swans," she used a traditional lyrical source; on "The Dark Night Of The Soul" she has borrowed from the writings of the mystic and visionary, St. John of the Soul; on "The Two Trees" the words are from W.B. Yeats, and Shakespeare is quoted in "Prospero's Speech." Finally, "Santiago" is from

traditional music.

All of the tracks intertwine McKennitt's voice with violin, acoustic and electric guitar, exotic percussion, Celtic folk instruments and other sonic textures. Unified by her singular vision, this has the effect of transporting us into other times and other places. The Mask And Mirror expresses, as McKennitt puts it, her "fascination with the spiritual and creative aspects of nature and expression, and the distinction between the religious and the spiritual."

I had the pleasant opportunity to meet and spend some time with Loreena at The Gavin Seminar and I can tell you, she is definitely connected to the universal flow of time and space

### 2ND VIEWING

#### THE PAUL COLLINS BAND From Town To Town

Paul Collins career includes being the lead singer/quitarist of the legendary groups The Beat and The Nerves. Bassist Rick Wagner was with the dB's, as was drummer Will

Rigby. And lead guitarist Arthur Lenin hails from the Greenwich Village coffeehouse circuit. Together, they form The Paul Collins Band. Their sound and approach captures the true spirit of American rock n' roll.

From Town To Town features slice-of-life vignettes. "Some Kind Of Love," with its punchy arrangement and sharp guitar work, is about the search for that one special love and the hope that it is really out there waiting to be found. The melodic and harmonic "Kindness Of Strangers" expresses appreciation for the folks you meet on the road. "I'm Getting Married" is a bouncy little tune that Collins wrote on his wedding day. But "Dark Side" is the song you need to spend more time with. This plaintive, moody, well-crafted track has all the right elements: Powerful lyrics, a strong hook, great guitar playing and a memorable melody.

The gang at Wagon Wheel are in this for the long run, and they plan on targeting their efforts from town to town as The Paul Collins Band continue their relentless tour.

So, if the R&R hot fax is correct, (which itself could be in doubt), five records in the Top 20 went backwards and kept a bullet, while six records in the Top 20 went backwards with no bullet and one stayed the same with no bullet. Who the hell can call that logic?!? Hey, reserve the right to do your business the way you see fit, but pardon the rest of us if we reserve the right to laugh at you while you do it! Whoever makes the rules there should entitle their first book "1001 Ways To Damage Your Credibility And Still Delude Yourself Into Thinking You're Relevant In The Market Place."

#### J.D. WONE

I just would like to thank everyone for all of the support and understanding over the course of the last few weeks. It's been a stunning and overwhelming experience so far here at "The Home Of Rock N' Roll," and I'm looking forward to the challenge of continuing on with the success of WONE! I also would like to take this opportunity to introduce Erin Carman, who will be assisting in some of the music duties. Erin works the night shift (7pm-midnight) and she'll be handling some of the music calls. Call times at the moment will continue to be on Thursday 1-4pm. I will try and continue to take phone calls whenever possible during that time. The "Pick Hit To Click Of The Week": collective soul's "shine."

Cry of Love is well on their way to getting their third #1 track with "Too Cold In The Winter." This would be unprecedented at Album Radio! They're on the road with Aerosmith right now and will be touring the rest of the summer. Dandelion continues to build each week with quality call letters like KSHE, WBZX, WKLQ, KCLB, and many others. The record is beginning to sell where it's played and is generating

great phones. Give this one a trial test on the air and see how good it sounds in your mix. **House Of Large Sizes** is a three-piece band from the heartland - Cedar Falls, lowa. These guys (actually two guys and a girl) are phenomenal live and have a really catchy debut record on **Columbia**. The first track this week is "Sox On

Cockburn had one of his
strongest starts ever this week
with "Listen For The Laugh"
and the world awaits The Division Bell from Pink Floyd! One

more thought - how can a radio station located in one of the most conservative cities in the country rotate the hell out of their wide variety of currents, spur sales, break new artists and, most importantly to them, get great ratings in their demo? Hats off to **Gary Allen** and his team at **KEZE** for accomplishing these feats and making both sides of the proverbial fence happy!

WIZN

Burlington's local scene is thriving these days. "The Wizard Of Rock" gets involved mostly in our "What's New" show, and in our sponsoring of the annual battle of the bands, taking place in May of this year. The finals are Friday, May 6, at Club Toast. I was up there for a local AIDS benefit last night, with four very different local acts: Snowplow, Chin Ho, Motel Brown and The Madelines. Snowplow is a new band that sounds a bit like Robert Smith meets the Meat Puppets. Chin Ho has been around for a while, with two releases which have seen some national exposure: Drink and Recovery. I've been a fan of the local scene since I was in school, and I've seen it go through great periods and lulls. I think we could be poised for another great wave of music happening here. As the AOR in town, we play what we can, but the scene is so diverse, it doesn't all fit in our playlist. We can give some local bands airplay support, and have when we've gotten material that fits us. Speaking of Burlington-based rock that fits, wait until you hear

the latest from **Phish!** The new album, *Hoist*, is very, very good. There's a focus, a sharper quality to the work, and there are times it truly rocks out! What it boils down to is **Phish** at their best! If you've thought, "Cool, but too weird," this album will definitely surprise you. The guys are really psyched about it, as is **Elektra**. They should be.

#### **Dave Lombardi**

Warner Bros. Records

Take a look on your desk. You just might've been one of 50 or so stations to receive "Darkness Visible" by Altered State. If you are, rest assured, we're not gonna beat you up for an add next week. In fact, we don't have a set "add date" for this - we just want you to play it! So, please, find a spot, in any daypart, and give this a shot. Of course, you all got something new from us this week, and this one you're expected to add. And, judging by the early response to "Woke Up With A Monster" by Cheap Trick, we're not expecting any problems with adds. This track signifies the band's return to rock n' roll (a move that has all of us, many of you and the band excited!). Also new this week: Brutal Youth, the full album from Elvis and The Attractions. It's a keeper. Oh yes, and for the 35th straight week, Candlebox rules! Congrats to our Grammy winners! Hope R.E.M. was at least one of 'em! I'm out.

### **Bill Walker**

WROQ

First of all, it seems **Michael Cross** at **KJKJ** said it for just about every AOR that was dropped recently by R&R. Caught **Rush** in Atlanta last week...is it me, or are these guys getting better with every tour? **Candlebox** opened; I think we will be hearing from these guys for many years to come. Promotionally speaking - and we do from time to time - **WROQ** will give away a couple of Mustangs in a couple of weeks. In celebrating "30 Years Of Classic Rock N' Roll" (beginning when **The Beatles** hit the shores of America), we're giving away a 94 Mustang convertible and an original 64 1/2

as well. And, for the classic auto-challenged, it's called a 64 1/2 because there were no 1964 Mustangs. Our morning show, "The John-Boy And Billy Big Show," broadcasted LIVE from Lillehammer last week...Tonva was so moved, she forgot to tighten her laces. There is this rumor that won't die, that Pink Floyd is touring, beginning in March...to that end, we held a Dark Side Of The Moon party beginning at 2am, the morning tickets went on sale. Instead of "What would you do for Pink Floyd tix," how 'bout a "Who would you do" contest? Hey, it's just a thought.

### Scott Douglas

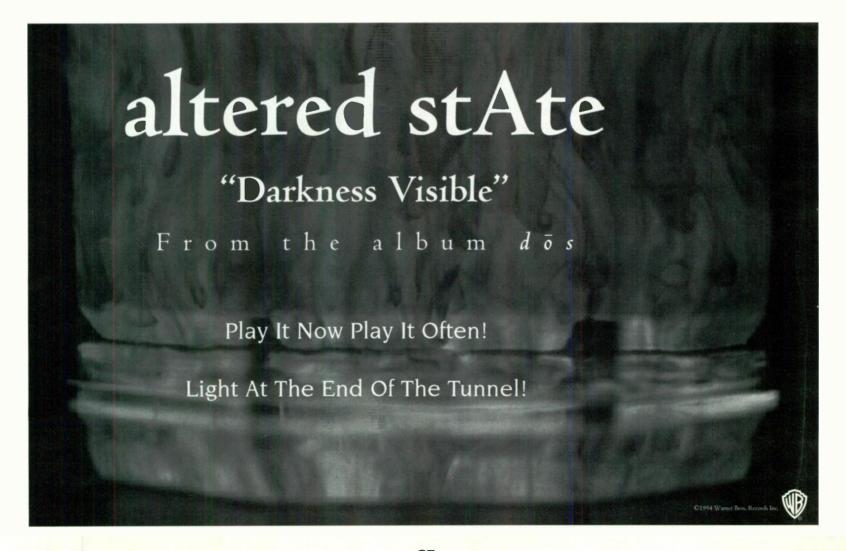

Virgin Records

Smashing Pumpkins robbed! Grammy goes to mainstream U2! What do you expect from a group of individuals who, in the past, voted Jethro Tull as best metal band over Metallica or The Bodyguard as album of the year over Sting's Ten Summoner's Tales? Nobody asked us.... Smashing Pumpkins are right on the verge of a new level with the album Siamese Dream. "Disarm" (no, it's not a tribute to Rick Allen) is just about as cool as it gets. The Pumpkins are well over two million in sales (maybe now they're mainstream, too...what a concept), soldout shows, HEAVY MTV saturation. BDS spins increased by 41% this week. What more do you need? Play the record. It'll be cool...Led Zeppelin, The Who and The Beatles will forgive you. All the Pumpkins are still alive. Are you?

lagy Pop delivers his most accessible record (besides "Candy") yet with "Beside You." Have you even listened to it? I mean, have you really paid attention past the intro? No phone calls, no salespeople in your office scamming you for liners, no jocks tired of playing "Runaway Train"...really listen to the music. You'll be surprised. This is a great track that shows a different angle on a very diverse artist. It's true to form for lggy, but you will be amazed. Don't miss his tour...call me for tickets. I close with Brother Cane and Cracker...BC's "Hard Act To Foilow" not only sounds good on the air, but it smells like a call-out song that could sell some albums. I don't think anyone disagrees that they deserve their day in the sun. Cracker - switch to "Get Off This" (already on Alternative Radio everywhere) as "Low" runs out of gas. This album will be going Gold as this goes to print. While Caesar rests, The Stones keep rolling. Thanks...that's the Scott Douglas Show.

# "Rock N' Roll Peg" Pollard

First, thanks to Sharona, Alan, Warren and everyone at Geffen for the groovy Sammy Hagar dinner at Sammy's favorite Wolfgang Puck hangout in San Francisco. The weekend was awesome and Mr. Hagar was a hoot. "High Hopes" sounds like it could have been on Standing Hampton. Great rock. Geffen has some excellent stuff coming out. The Blue Murder is way cool; so is Sugartooth's

"Sold My Fortune," and the Southern rock trend continues with Zakk Wylde's killer upcoming tune. Lucy's Fur Coat sold 718 units here its first week out! The Poor's record will be huge for us; it's a real no-brainer. "Gentlemen" from The Afghan Whigs is a groovy song. (No, Jessica, us pea-brain COR/ROAR programmers won't call it "too alternative" because, unlike the last track, it isn't.) And, I love the Queen Sarah Saturday song "Seems." Who cut DLR's hair?

Caroline Radio

And they're off! Caroline is coming to the front of the pack with some great new things just around the corner. Bark Psychosis' Hex will be in your little hands in two weeks. Get ready for this spellbinding new sound from their US debut. Next up, an incredible first record from Portland's Peach. Their record, Siesta, was produced by Jon Auer of The Posies and has former Posies guitarist Rick Roberts in the band! This is one you are definitely gonna dig. If you are not familiar with Seefeel, check out their track on the Volume 7 Compilation and get ready for their debut record, Quique, out in April. Get set to be blown away by the new Adrian Belew record, Here. A man with an incredible history moves forward in the 90s. The new one from Fudge is coming, and it is way different from their last one. Be ready to be pleasantly surprised. New stuff from Astralwerks on its way. Barramundi - An Introduction To A Cooler World features Jaydee. If you remember, they had a killer song last year, "Plastic Dreams." Finally, Chuck and I are starting a newsletter and we want all you guys to be a part of it. The section is called "Station Special Of The Month." It is a section where you can say whatever you want. It does not have to be about music! So, if you are interested and want to get something off your chest, give us a call and we can talk about it. All submissions must be typed or written very clearly. Till next time, keep your feet on the ground and keep reaching for the stars! A message from Chuck: Rock is dead, they say. Long live rock!

While you were away at Lillehammer, we've made a few changes at Channel Z in Augusta. I am pleased to announce the arrival of Julie Hoyt, formerly of 96 WAVF in Charleston, SC, and Album 88 in Atlanta. Julie is on the air middays, 10am-3pm, and takes calls 3:30-6pm on Tuesday and Wednesday. Also new with us is Kevin Howard from Album 88 and various positions around Atlanta. I'd like to send special thanks to Lee Durham and Stan Gleason for spending time with us last week. We're fortunate to have The Connells in with us this week, along with Southern up-and-comers Queen Sarah Saturday and Dillon Fence this Wednesday, at the Imperial Theatre. We'll let you know how it goes next week. Among other shows and festivals we're working on, we are looking to assemble a spring fest benefit for around Memorial Day weekend. Pitch Shifter are such friendly guys that they are flying over here this week to talk to all of you! Yes, interviews are happening now (3/10/94). Call us! Radio edit singles for "Triad" are coming; in the meantime, spin "Diable." The tour with Carcass starts in LA on St. Patty's Day. The new Sleep song is

"Aquarian." Play it! Meathook Seed won't go away! "Famine Sector" rocks! Blood From The Soul is makin' a mess of all kinds of shit. This record is a ground breaker. Lou Koller (Sick Of It All) brings his hardcore angst to your CD player! Give him props. Lawnmower Deth are punk! ('Nuff said.) Old's "Happy Tantrum" needs to be on the airwaves for all to enjoy! Scorn is slowly but surely turning heads. Track #9 is "Scorpionic." Play it! God bless Earache! (212) DIE-9090.

Melissa Etheridge played an unannounced club show the night before the Grammys under the name The Ridge.

The tune-up for her solo tour with Matthew Sweet was nothing short of fantastic. I thought the place would erupt when k.d. lang came out and dueted on "You Can Sleep While I Drive." The other highlight - no line for the men's room! This show came after Melissa's opening set for Sting over the weekend when she left 'em stunned at the Meadowlands. Thanks to Paddy Rascona and Sky Daniels for a Melissa-filled weekend. Thanks to Steve Kline for bringing Sass Jordan by last week. She gives a great interview and Rats rocks! Check out the duet with Ian Moore! The Daltrey Sings Townshend show at Carnegie Hall was quite an event. To my ears, Linda Perry stole the show. Thanks to Nicole Dinkle and Alex Miller from Continuum. I also caught Green Apple Quick Step last week with John Sigler and Munsey Ricci, and somehow I ended up missing \$14. On the air, I can't believe how good the response to the Crue has been. It's #1 phones this week and gets bumped to medium. Crash Test Dummies are right behind them in phones and get bumped, too. People are already starting to react to the acoustic version of "Ride The Tide" from The Screamin' Cheetah Wheelies.

It's a killer! As always, it's been a business doing pleasure with you!

#### **Cathy Faulkner** *KISW*

I just finished listening to the new album from The Wildhearts. Earth Vs. The Wildhearts is a solid album of great material. If you are concerned that their song, "Suckerpunch," is a flash in the pan, let me tell you, it isn't. I am very impressed with the new Yes album. I can't wait for the whole album, because I know there is more rockin' stuff waiting for airplay. Finally, I listened to the second release from local (unsigned) band Running With Scissors, and it is amazing. They have certainly matured from their impressive debut release. If you are looking for an act to add to your roster that will get people talking...these guys are the shit. Call their manager, Mark Ball, at (206) 441-0883.

WBCN

Once again I applaud Yes for undercutting their perennial image as one of rock's dinosaurs by releasing a new and freshsounding single. 90125 was an exciting step into the 80s for this band, Big Generator furthered that stance and now "The Calling" charts new territory. I look to Trevor Rabin as a strong catalyst for helping the members of Yes focus their creativity in a very different musical environment from the one they once reigned supreme in. Very well done, indeed! WBCN has had a great run with the last two Samples albums, and after watching them mesmerize the audience at the "H.O.R.D.E." concert here in Boston last summer, we're very interested in playing more. The band's new single, "Still Water," is another obvious winner. Like the previous plug cut from The Last Drag, "Everytime," this song should score well with both our intensive new music audience members as well as those fascinated

mostly by classic rock. I'm looking forward to **The Samples**' return to the Boston area in April. **Smashing Pumpkins**' latest track is the monster. "**Disarm**" promises to be a runaway cross-over smash. We're on **The Breeders** a bit late, but it doesn't matter - "**Cannonball**" is great - and it's on CHR and **MTV. Fury In The Slaughterhouse** has a poignant message in their "**Every Generation Got Its Own Disease**" single. Good requests and interest in just a few weeks!

Virgin Records

Caesar must wake now! Brand new from Virgin this week comes the very commercial radio friendly song, "Beside You" from Iggy Pop. "Beside" has a very similar effect on your senses like "Candy" did a couple of years ago. "Beside You" features Lisa Germano on vocals along side Iggy, and they mesh wonderfully. The intro has a kind of a U2 "With Or Without You" feel, that explodes into a kind of

contained goosebumps raiser. Iggy hits the road in the US this week. See him reek havoc and be entertained for a change. Let's talk about the Smashing Pumpkins. It amazes me there are still programmers who don't get it. My father once told me, "It's better to be thought a fool than to open your mouth and take away all doubt." "Disarm" is about as mainstream and as set up and as familiar as it gets. Does two million plus sales in seven months mean anything to you? And, how about eight weeks of heavy MTV play? Not to mention the powered rotation at alternative. Holy snappin' aresoles, over 50 Top 40s already!

If you still don't get "Disarm," just play it whether you get it or not. I promise you will understand shortly after "Disarm" is played and phones will light up and the call-out goes through the roof. Finally, what would you call a band which consists of Dave Grohl from Nirvana, Mike Mills R.E.M., Thurston Moore and Don Fleming from Sonic Youth and Gumball,

respectively, **Greg Dulli** from **Afghan Whigs** and **Dave Pirner** from **Soul Asylum?** How about **The Beatles?** The supergroup of the 90s is coming soon. Next up from **Cracker** is "**Get Off This.**" The CD is Gold, thanks, it only took seven months! People with small dicks pee on their nuts...the quote of the 90s!

Greed...what a concept. Varga's "Greed" - what a song! On the subject of dollars, Sugartooth's "Sold My Fortune" could possibly rake in some dollars, too. Sugges-

tion, do some stuff around your pad. Put your CD player on repeat and let Black Sabbath's "Cross Purposes" roll. We just sent a happy couple off to London to see Paw play, and we are currently calling dog tags so that four people can go with Sharkman (mornings) and Dave Bolt (afternoons) to broadcast from Universal Studios Orlando! Special bulletin: New morning drive jocks: Alice Cooper (April 11-22nd) and Ted Nugent (May 3-13th). What a drag, huh? Music calls Monday and Tuesday 2-5pm.

Hitting the airwaves C side are Soundgarden and collective soul. Both should set the phones off. Yes is welcomed back, what great harmonies. Rage Against The Machine and Motley Crue own the nights! Wow! CBS cut off Frank Sinatra, that's something Lorena Bobbitt wouldn't have even done...ouch!

Week number four for Tori Amos! A breakthrough week? Perhaps, WNEW. WHCN, KMBY and KTYD all found "God" and added it. Why? Was it sales? (35,826 this week). Was it because Tori was a Top 10 selling rock record for the fourth consecutive week according to SoundScan? Or was it Buzz Bin on MTV and VH-1 airplay? Maybe it's really because recent fan demographic research showed TORI AMOS appeals to an AOR demo (18-34 males make up 56% of her buying public). All of these reasons are contributing factors to the success Tori Amos has achieved. Don't be frightened and do not pre-judge the success, add the record that won't go away. TORI AMOS' "God."

Once again Yes has rolled the dice and come out a winner. Their latest offering, "The Calling," has everything, including a hook that will pull you right out of your seat. After only two spins, we got instant phones. Young or old, you can't help but like it! Looking for a rocker with an attitude, check out The Poor's "More Wine Waiter Please," courtesy of 550 Music/Epic, and best of all, it won't give you a terrible hangover.

"Spoonman" continues to burn up the phones on all shifts, as well as Candlebox. Thanks to the morning madmen Mark Bone and Little Ed for making the cherry pie giveaways on President's Day a huge success, without any accidents. Take care and keep rockin'!

Well, it's certainly the end of an era - Mike Schnapp, my friend, my mentor, and probably the best person(ality) in metal, is gone from Epic Records (SOB!). Stay tuned to this same bat channel for news of his replacement (film at 11). Please don't call with questions regarding his whereabouts - he'll be in touch with you soon. Anyway, down to the business at hand: Prong is #1 across the board! Thanks to everyone who plays this record - your good taste shows in the phone response, which is also #1! Prong is on tour now with White Zombie and The Obsessed - call for tickets and giveaways. Sepultura

Again, call if you need tickets or giveaways. Fight is killing 'em overseas, but is soon to be back with a new EP and a new tour that you'll definitely want to check out. Keep Fighting! The big music news this week is the release of a new track from Bonnie Raitt, "Love Sneakin' Up On You." It sounds like a dead ringer for her earlier song, "Love Letter." Bonnie's fans will love it because it's right in the same groove as songs from Nick Of Time and Luck Of The Draw. Rory Block's new album, Angel Of Mercy, shows off her songwriting skills. Rory has a loyal following on the folk/acoustic circuit, and her fans will truly appreciate this album. It's hard to limit it to just one song, so we'll pick three: "Somebody's Baby," "I'll Be Gone" and "Angel Of Mercy." A song that got a lot of attention at the Gavin "On The GRIDdle" session was a song from William Orbit's new release, Strange Cargo III. The song, "Into The Paradise," is already lighting up the phones at KGSR in Austin. If you have played Enigma, Deep Forest and/or Kraftwerk, this song will be perfect for your station.

Many Adult Rock stations are already playing "Listen For The Laugh" from Bruce Cockburn's newest release, Dart To The Heart. Bruce is a fairly major artist for this format. On the album, check out "Burden Of The Angel/Beast" and "Scanning These Crowds" Lately, Lyle Lovett has been showing up in the strangest places (like Mazda commercials). This time he's doing a duet with Al Green, covering the Willie Nelson song

"Funny How Time Slips Away" on a new compilation album, Rhythm, Country And Blues. For an even stranger duet, check out George Jones and B.B. King performing that awful 70s song, "Patches"! Charlie Musselwhite's In My Time is an outstanding collection of tunes with great photos and liner notes that will bring you right into the world of this well-traveled and talented harp player. Try "The Big Boat," "Leaving Blues," "When It Rains It Pours" and "Hear Me Talkin'." Spring is just two weeks away! Get out the barbeque. I can smell the cherry blossoms already. Bring it on....

The Division Bell will soon toll. The sounds of Pink Floyd will soon be heard all over North America with The Division Bell. You all know the excitement and anticipation of their first studio release in seven years and the tour that kicks off March 30. All I can say is hold on just a little longer...'cause it's going to be over the top. Alice In Chains' "No Excuses" sounds so amazing on the air; I hope that everyone has spent time with the entire Jar Of Flies EP...it truly is another side of Alice, and it shows what this band really means to the album format. Cry Of Love's "Too Cold In The Winter" had another amazing week at radio. Their hard work and your

support are building a career rock n' roll band. The shows are selling out everywhere and the sales on Brother climb every week - over 5,000 per week - as "Too Cold In The Winter" helps to rock us into the spring. The story on Dandelion: It's growing like a killer weed every week. Major stations in middle America, like KSHE, WBZX, WQFM and WKLQ, came in this week. So here's the deal - put on your gardening gloves, pull out Dandelion's "Under My Skin" and hear what KISW, WIYY, KISS, WMMS, WLLZ, KUPD and many more stations have heard - an infectious record that your audience will react to when it goes on the air. This weekend, make sure you take the

Bruce Cockburn CD, Dart To The Heart, home with you. It's filled with great music, including the first track at radio, "Listen For The Laugh"...airplay this week comes from the likes of WLVQ, WHJY, WCCC, WHCN, WBLM

and many more. That's it for now....

The Samples are coming to Rock Radio on March 21st with their first AOR single from The Last Drag. "Still Water" is the track and it's fucking good. The Samples have worked it from the ground up for seven years straight touring for 10-11 months out of every year. They've gone from a VW bus to a 45 foot cruiser. They've been through the workings of a major label and back to the grassroots-style of an independent, and they have sold over 300,000 records since the inception of the band. The Samples and Big Head Todd just sold-out 8,000 seats in Ft. Collins, Colorado! We are rallying hard for early support at Rock Radio. Listen to "Still Water," test it and add it! Support this band. Early adds already in from WBCN, WCIZ, WOZN, KWBR, KRFD, WAVF, and then some... Take three minutes and thirtyfive seconds and give this band the shot that they deserve. By the way, I'm looking for a job opportunity...if you know of one, buzz me.

Carlos Santana has compiled an incredible crop of songs from Jimi Hendrix, Marvin Gaye, Bob Marley, Stevie Ray Vaughan and John Coltrane. The album is Sacred Sources 1-Live Forever and if you haven't already listened, please do. Questions are being asked and records are being sold in markets that are playing this wonderful collection. From Rounder, Rory Block had a great week...thanks, guys! The Blazers also seem to have many of you very interested - definitely worth checking out! We're also continuing to see great response with Vance Gilbert and Smokin' Joe Kubek. Antone's/Dos has serviced you with a new release from Pat McLaughlin and be looking for Doyle Bramhall's new album. I can't wait until you hear this one! Okay, modern rock format type people: Looking for that record that could bring you new listeners? All demos, both sexes, immediate reactions, impressive sales? Beautiful People's "If 60's Was 90's" is doing just that (ask Kerry at the Edge Honolulu). We don't have to tell you that it's Top 10 at Adult Modern Radio, (#4 and #9 on two different charts), and it's been out-requesting Counting Crows and Fury In The Slaughterhouse and coming in tied with Beck, yeah Beck, the fastest record to get to #1 Alternative since the first Sunday's album a few years back (if you're already on it, thanks again for your support). And, the sales, THE SALES! 1,500 scanned the first week out! There's no video pushing this one along, gang. ### Pink Floyd Album On The Way

Pink Floyd's massive "Psychedelic Airship" campaign in mid-February (broadcast nationally via The Album Network) brought home the news that the boys would again tour and release a new album.

At the time, not much could be said about the record, but the Nasty Nooz is now pleased to bring you the latest information on *The Division Bell*, the album Pink Floyd intends to release on April 5!

Produced by Bob Ezrin and Pink Floyd's David Gilmour, the bulk of *The Division Bell* was recorded at "Astoria," Gilmour's floating studio on the River Thames in London.

The name of the album comes from a bell in England's Parliament building; when two opposing parties are viciously arguing with each other, the "division bell" is rung to stop the "discussion" (thanks to Columbia's Pam Edwards for that cool tidbit!).

The album credits for *The Division Bell* consist of Gilmour on guitar, vocals, bass, keyboards

and programming, Nick Mason on drums and percussion and Richard Wright on keyboards and vocals, as well as Jon Carin on programming and keys, Guy Pratt on bass, Gary Wallis on percussion, Tim Renwick on guitars, Dick Parry on sax and Ezrin on keys and percussion.

A sampling of song titles on the album includes "Cluster One," "What Do You Want From Me," "Poles Apart," "Marooned," "A Great Day For Freedom," and "Wearing The Inside Out."

You won't be able to purchase *The Division Bell* until April, but The Album Network will be broadcasting the World Premiere of the album at the end of March! Don't miss this once-in-alifetime event!

As for catching the Floyd live on stage, it looks like North America's anxiously awaiting their chance! Already, over *one million* tickets have been sold! Box-office records have been shattered in markets across the continent, and many tour dates are already sold out.

#### The Eagles WILL Soar Again

nce again the Nasty Nooz proves to have a gnarly nose for info...one month ago exactly, we clued our faithful readership into the possibilities of an Eagles reunion tour, and this week, we have positive confirmation!

According to Daily Variety, representatives for the Eagles have hired the supercharged William Morris Agency to book tour dates! Also in the works is a tour reunion album - that is, there'll be a reunion release if legal entanglements can be avoided.

The tour, which will probably begin in late May, is expected to feature Don Henley, Glenn Frey, Don Felder, Joe Walsh and

Timothy B. Schmidt; original members Randy Meisner and Bernie Leadon are not expected to participate. Predictably, former Eagles manager and Giant Records mogul Irving Azoff is at the head of the reunion tour/album effort.

"We still got the magic," quipped the inimitable Walsh about the band's historic plans. "As soon as the non-artform issues are resolved, we'll be out there." Those "non-artform issues" include Henley's "divorce" from Geffen Records and a new development, MCA's lawsuit against Frey.

In what seems to be a similar case to Henley's, last month Frey informed MCA, via a letter, that he would no longer record for the label and was seeking to terminate his recording contract, leading the label to sue Frey for damages.

MCA's seeking \$5 million for damages...they claim that Frey is

flying their coop while he still owes them at least four more albums' worth of new material to fulfill his contract, and they've asked in their lawsuit that Frey be barred from recording for anyone else (namely, the reformed Eagles).

According to those ever present "sources," the legal BS shouldn't affect tour plans, but obviously, they seriously impede plans for a reunion album, live or otherwise.

Watch this space for further developments on this exciting story!

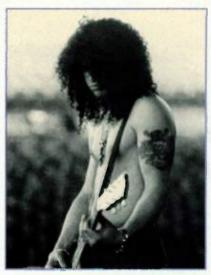

#### Frykowski Receives Royalties

When Guns N Roses included an unlisted bonus track authored by Charles Manson on their latest CD, "The Spaghetti Incident?", they were the targets of massive negative media attention people were shocked that Charles Manson could actually receive royalty income by riding on the band's celebrity coattails.

The furor over "Look At Your Game, Girl" led Axl Rose to release a lengthy statement, but the band stood their ground and

refused to remove the offending song from their album of favorite cover tunes; instead, it was arranged that Manson's sales "take" on the disc was redirected to one Bartek Frykowski, the son of Wojiciech (aka Voytek) Frykowski, who was one of the victims of the Sharon Tate massacre.

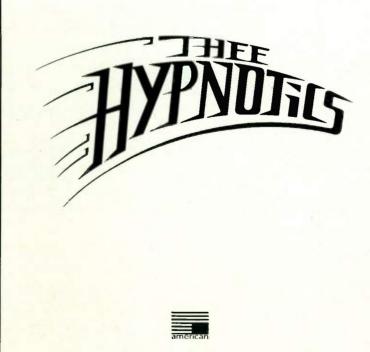

Frykowski received a check for \$72,000 from Geffen Records, the first installment on his \$1.2 million judgment against Manson, at the end of last month. Even though the Gunners raised the ire of

many with their position, they've done some good for Frykowski who, by the way, has been waiting for his settlement from Manson since 1971.

And in more Guns N' Roses news, look for the band's new video for "Since I Don't Have You," which has just been completed. The video features Gary "Dracula" Oldman as a devilish character who makes the members of GN'R offers they can't refuse.

"Oldman is one of our favorite actors of the last decade," says lead guitarist Slash. "He really loosened things up at the shoot; he's such a character and fun to be around, not pretentious at all. It was great to watch him get into character; it's the same kind of energy we have before we go on stage."

Jay Sisson with WIXV thinks this is pretty funny: Q: What do tornadoes and redneck divorces have in common?

A: In each case, someone is bound to lose a trailer.

#### **Blind Rage?**

Shannon Hoon, frontman for the wildly popular Blind Melon, is in trouble with the lawagain. Thursday, February 24, Hoon was charged with attacking security guards and police officers at the American Music Awards show (on February 7).

Authorities allege that Hoon, 26, kicked and punched peace officers during a brawl that arose when he (once again, allegedly) became loud and obnoxious during the awards event.

Even though Hoon seems to be at odds with law and order lately

(remember that Halloween incident last year in Canada?), don't get the wrong idea - he's (along with the rest of Blind Melon) just committed several of his band's tour dates to the support of Amnesty International's National Student Program, a project to organize and educate students in the fight for worldwide human rights.

"I'm interested in knowing more about [Amnesty International], and everybody else in the band is, too," said Hoon. "People need to leave the concerts with a message as well as the music."

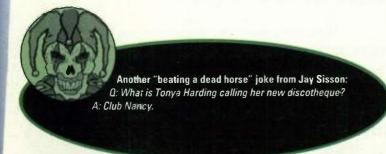

#### In Memory

Capapa" John Creach, the talented violinist who probably achieved his greatest fame with San Francisco psychedelic mainstays the Jefferson Airplane (he also worked with the related Hot Tuna and Jefferson Starship), died on Tuesday, February 22, at the age of 76.

Creach, who spent his early years playing in (and leading) jazz and blues groups, died in a hospital in Los Angeles, where he was being treated for heart and respiratory problems.

Even up to his last years, suffering severe arthritis, the multi-genre instrumentalist kept busy, touring with the Starship and recording and releasing his first CD. And last year, he was presented a W.C. Handy Award, recognizing him as an outstanding blues musician.

"Papa John taught us all things we'll remember well into the next century," said founding Airplane member Paul Kantner. Creach is survived by his wife, Sylvia "Gretchen" Creach, two brothers and a sister.

#### **AMC Update**

Uggghhh...Richard Fields makes my skin crawl! As we put this to print, he's asking poor little Dianca to sit next to him. I can only hope that Dimitri got Gloria's call in time to rescue this little girl from that sick pedophile.

How many people recognized the shrink that took the witness stand in Erica's trial? I couldn't believe that was the guy who played Jack Fenelli in the 70s on "Ryan's Hope"! This dude used to be a stud...now he's bald and gray - and I'm feeling much older!

Did I call it over a month ago when I said Jamaal was gonna be Alec McIntire's kid, or what? Can't wait to see Janet make her Pine Valley debut...although I must admit, these soap operas make a mockery of the criminal justice system when they show this lunatic murderer, after only a couple of years in jail, manage to get plastic surgery, claim to be rehabilitated and get released. I guess that's why they're soap operas, though.

And are we starting to notice some sparks between Brooke and Tom again? I have a feeling the flame will ignite in the next couple of months....

From Mr. Invisible we get this (tell it in your best Chinese accent):

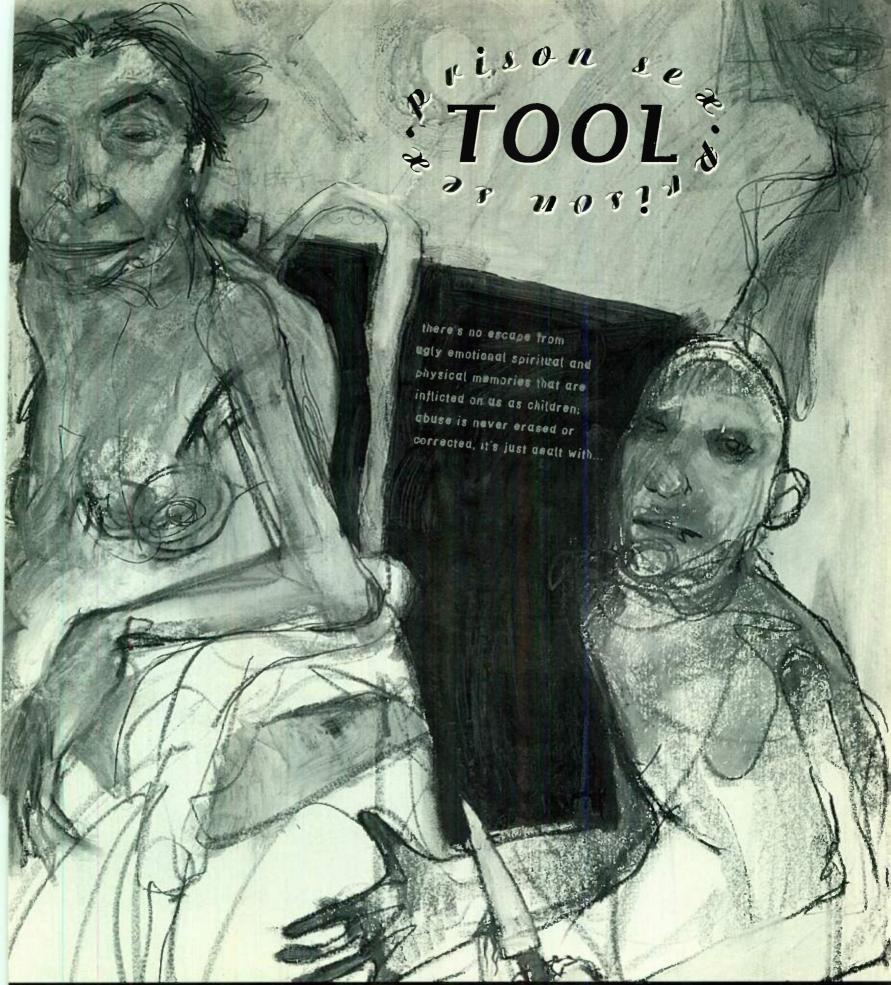

This girl has a lot of trouble getting dates...and it gets to the point where she's sure there's something wrong with her. She goes to see her family's old Chinese doctor. He tells her to undress and to stick her head between her legs. She does. He examines her and then tells her to dress and wait in his office. He comes in a minute later and says, "Well, you have Zachary Disease." She says, "Zachary Disease - what's that?" And the doctor answers, "Your face look Zachary like your butt."
