At Rock Radio, "Spoonman" limbs 9-7\* on Power Cuts nd takes the #2 honors on he Most Requested Songs hart, while the CD tops the 10st Requested Album chart. Aeanwhile, Soundgarden oars into the Top 10 on the Ilternative Radio chart 12-9\*) and holds onto its 1\* place at RAWk Radio.

Sales-wise, Superunknown absolutely flies out of the stores this week; the CD enters both the Hottest Sales Nationwide and the In-Store Play charts in the lofty #1\* position. It also debuts high on both the Alternative Retail chart (#2\*) and the RAWk Retail chart (#1\*).

We waxed on and on about this CD when we first heard it, so it is really cool to see it getting the response it so richly deserves.

# BEST

The Calling" has been one of the fastest rising, heaviest reacting rock records to come out in quite some time, making *Talk* one of the most highly-anticipated CDs in the past year.

Talk was made by the same five guys that delivered 9-0-1-2-5 and Big Generator, and with Trevor Rabin's guitar work and Jon Anderson's voice leading the way, the new CD has more in common with those two Yes albums than with any others. But, to compare Talk with those two 80s offerings would be unfair. How so? Well, listen to "I Am Waiting," "Real Love," "State Of Play," "Walls," "Where Will You Be" and the three-movement "Endless Dream" to understand.

> Trevor's production and creative genius shine like never before on *Talk*; the dynamic qualities and melodic journeys are breathtaking. This is clearly one of those CDs from which you can play anything and feel comfortable about it.

Note to Yes: Hey guys, we know it's a bit early, but if you're gonna keep putting out music this good, would you mind not making us wait so long in between recordings?

### Pink Floyd "Keep Talking"

Columbia Space, the final frontier...

"Keep Talking" opens with an ethereal soundscape that takes you straight into some sort of tranquil escapeland. Enter super-genius Stephen Hawking's voice, synthesized as it is through the box illness has forced him to use, and "Keep Talking" takes on an otherworldliness that's difficult to describe. Then, when David Gilmour finally comes in, upon a bed of lightly swirled guitars and talk-box licks, you know that Pink Floyd has returned! Thank God!

It's been six and a half years since Gilmour, Mason and Wright graced us with new music, so they had to make it astonishing. Holy shit, they delivered! "Keep Talking" is absolutely crammed with space age sounds and effects that are gonna totally crank on headphones. By the time you read this, you will have had ample time to give "Keep Talking" a whole bunch of spins. If you haven't, then what is wrong with you?

We are the lucky people with the rights to the World Premiere broadcast of *The Division Bell*; Redbeard is hosting, and you can air the two-hour special on Wednesday, March 30... but you better call us now if you want in on this market exclusive special.

#### Woke Up With A Monster Warner Bros.

*Woke Up With A Monster* opens with exactly the type of full throttle, guitar-laden, hook-infested rocker that Cheap Trick patented more than 15 years ago. "My Gang," the lead cut on their 12th album, is all Cheap Trick, just the way we've been digging for so long. Couple that with the appeal of the CD's second track, the Top 20-debuting "Woke Up With A Monster," and you have the recipe for a kick-ass new record from the Tricksters!

Throughout the new CD, Nielsen, Zander, Petersson and Carlos keep the fireworks going; as each subsequent song comes on, Cheap Trick tops itself. From the aforementioned "My Gang" all the way through "Love Me For A Minute," the guys remind us of late 70s Cheap Trick. Whether they've put more power into their pop or more pop into their power, they have gotten it right on these 11 new tunes.

Rock Radio should have all kinds of fun with the Ted Templeman-produced *Woke Up With A Monster*; our picks include "Didn't Know I Had It," "Tell Me Everything," "Let Her Go," "Cry Baby," "Never Out Of Love," "Girlfriends" and "Love Me For A Minute."

#### **Bonnie Raitt**

#### Longing In Their Hearts

With more than 125 Rock Radio stations already on the first single from *Longing In Their Hearts*, Bonnie Raitt was sitting pretty at #21\* on last week's Power Cuts chart. And, with at least 29 adds in each of its two weeks at the format, "Love Sneakin' Up On You" has a whole bunch of momentum going for it right now.

Bonnie Raitt has been a staple at many Rock Radio outlets for two decades or so, and with her unbelievable Grammy showing not so long ago, she planted herself firmly at the rest of the rock stations. So,

World Radio History

# nev

you know what she sounds like by now, and fortunately she hasn't strayed far from the luscious melodies and bluesy, R&B-laced rock that got her here in the first place.

Longing In Their Hearts is gonna be another mofo monster smash at several formats - and, no doubt, at retail. For Rock Radio, the obvious choices are the soulful "Longing In Their Hearts" and the dark and dire "Hell To Pay." The former includes vocals from The Band's Levon Helm, guitars and mandolin from former Range member George Marinelli and percussion from the master, Paulinho Da Costa, while the latter features a couple of members of Jackson Browne's lineup. "Stealing Your Heart Away" is worth checking out, as well.

#### **Primal Scream**

#### "Rocks" Sire/WB

Sire/WB

You've gotten this track on AN Rock CD TuneUp #112, so you should already know that "Rocks" is predicated on big drums, loud guitars and horns. "Rocks," which is straight outta The Stones' early 70s songbook, is the lead cut from Primal Scream's third CD, *Give Out But Don't Give Up.* It is so in tune with the classic sound that classic-driven Rock Radio outlets rely on that it must be a heavy consideration at the format.

Natives of Glasgow, Scotland, Primal Scream is frontman Bobby Gillespie, guitarists Andrew Innes and Robert Young and keyboardist Martin Duffy. The Memphis Horns are a tasty addition on "Rocks."

#### **Jimmie Vaughan**

#### "Boom-Bapa-Boom"

Epic

On his first recording since the much acclaimed and very popular *Family Style* CD that he did with his **li**ttle brother Stevie Ray, Jimmie Vaughan sticks to the Texas blues n' boogie style that has made him one of the best known guitarists ever to come out of Austin. Nile Rodgers (Bowie, David Lee Roth) produced *Strange Pleasure*, Vaughan's forthcoming solo outing, and as is his nature, he brought out all the finest qualities in the artist.

"Boom-Bapa-Boom" is a good-time shuffle that'll make you wanna do the Texas twostep. This sound is not currently being done by anyone on Rock Radio, so jump to it!

#### **The Posies**

#### "Going, Going, Gone"

RCA

This hip, poptunesmithin' Seattle band picked up lots of supporters with last year's hit "Dream All Day," from their own CD, *Frosting On The Beater*. Now, RCA is the fortunate recipient of this killer hookfest, via the skyrocketing soundtrack to "Reality Bites."

The flick is a hit and the soundtrack sold Gold in one week (in the process, screaming 23-9\* on our Hottest Sales Nationwide chart). The Posies' "Going, Going, Gone" is getting heard by a helluva lot of moviegoers and soundtrack purchasers; it is time for Rock Radio to get in on the fun.

#### Sugartooth

"Sold My Fortune"

Four guys that come from LA (three from Los Angeles, one from Louisiana) make up Sugartooth. This band relies heavily on its interpretation of heavy, early, Sabbath-like riffs and dark melodies and topics. On "Sold My Fortune," from the band's self-titled debut, Tim Gruse's guitar riff is a powerful counterpoint to Marc Hutner's killer vocal delivery. Josh Blum (bass) and Joey Castillo (drums) provide a massive rhythm track. And, oh, what a hook!

Seven stations have added this one ahead of the box, five of them right off of our Rock CD TuneUp #112.

The Stevie Ray Vaughan signature sound shines bright on this week's Designated Hitter. Two things contribute to this fact: 1) As a mentor of Stevie Ray's, Bramhall influenced Vaughan heavily; 2) "Too Sorry" was recorded 12 years ago with Stevie Ray and Double Trouble as the back ng band! Doyle ultimately wrote or co-wrote 11 different Stevie Ray songs (see the included flier for details), and he played with Stevie Ray in Austin bands many years ago. Eleven stations picked up on Doyle before the box, including KTXQ, KISS, KLOL, KMOD and KLBJ.

#### **Green Day**

"Longview" Reprise

This Berkeley-based three-piece has already captured the attention of the alternative crowd with *Dookie*, their third release and first for a major label. Top 20 at both Alternative Radio and Alternative Retail, the CD has been Top 5 on the In-Store Play chart and is selling nationwide, where it has been hangin' tight in the Top 80 on the Hottest Sales Nationwide chart.

"Longview" is power-alterna-pop, in the same vein as Possum Dixon.

#### Prong

### "Snap Your Fingers, Snap Your Neck"

Coming off a #1\* showing on our RAWk Radio chart, this New York band is clearly wellensconced at that format. Also, their fourth full-length album, *Cleansing*, is Top 10 on the RAWk Retail chart.

This very heavy metal scorcher is not for everyone (especially the faint of heart), but with its success at RAWk, it stands to reason that your night crew metalheads will be out in force, waiting to hear "Snap Your Fingers, Snap Your Neck"; to give it to 'em is to gain more loyal listeners. WIYY, KUPD, KISW, KNAC and KIBZ refused to wait for the Rock Radio add date.

#### **Course Of Empire**

"Infested"

This one has forced its way into the control rooms at both RAWk Radio (Top 20) and Alternative Radio (Top 30), thanks to an ingenious blend of industrial and metal power. A double drummer attack gives "Infested" more bang for your buck than most hard rock tunes, and the overall approach makes it cutting edge. In fact, if you wanna hear cutting edge, check out the Darwin Goodman mix of this burner - it actually features samples of Benny Goodman's "Sing, Sing, Sing."

Course Of Empire is from Dallas, where they released one indie album (later re-released by Zoo) prior to their current *Initiation*.

#### **The Knack**

"My Sharona"

Just one gander at the way this classic is used in the ultra-hip movie "Reality Bites" is all it takes to realize how huge it could be all over again. The Knack sold two and a half million copies of its debut album. Now, "My Sharona" has been beefed up and remixed for the 90s. "Reality Bites" is massively funny, Winona Ryder was recently on the cover of "Rolling Stone" and RCA wants you to add this.

Did we miss anything?

#### Pearl Jam "Dissident" Epic Associated

Here's one from the five millionselling CD Vs. that has much of the same dynamic feel as "Alive" and "Evenflow." In fact, if not for a different tone to Stone's and Mike's guitars, "Dissident" might easily be mistaken for a track from Ten.

"Dissident" is already on well over 100 Rock Radio outlets. It is also by Pearl Jam. So, how hard could it be to add this track?

#### Gin Blossoms "Until I Fall Away"

With its jangly, hooky opening guitar line and sad, soulful chord progression, "Until I Fall Away" is as close to sounding like a surefire smash as you're likely to find. And, with the enormous amount of Rock Rad o and Top 40 Radio airplay on "Hey Jealousy" and "Found Out About You," Gin Blossoms have become a band whose releases your listeners will be waiting impatiently for.

If you've misplaced your copy of New Miserable Experience, you'll find "Until I Fall Away" on our Rock CD TuneUp #112.

MELISSA ETHERIDGE "All American Girl" Island/PLG + 848869

"This is vintage Melissa! 'All American Girl' is the most explosive track on the album!" **Don Alias, WWBR** 

Melissa rips out of the box with 49 first-week adds for her rocker "All American Girl." Having just started her Yes I Am tour, Etheridge benefits from the support by entering the Power Cuts chart at #37\*; a Homer! is imminent.

WFBQ, WSHE, KUPD, KXRX, WAPL, KEZE and WDHA are just a few of the Rock Radio outlets that add "All American Girl" out of the box. Moreover, Yes I Am re-enters the Hottest Sales Nationwide chart this week.

At WRUF, Scott Steele says, "Anyone can listen to this record at any time and really enjoy it!" KLBJ's Loris Lowe states, "'All American Girl' has a nice Springsteen feel to it!"

Carl Craft at WCIZ explains, "Melissa always works for us, and 'All American Girl' will be no different!" Also, WHCN's Pam Brooks notes, "Melissa delivers incredible vocals, as always; this is great music!"

#### PEARL JAM "Dissident"

"The phone response has been tremendous on ' Dissident'!"

Phil Marlowe, WCCC

Pearl Jam scores again with 47 adds for "Dissident," good enough to put the song well over the century mark in terms of Rock Radio reporters. "Dissident" was already flying up the Power Cuts chart prior to this week, so it zooms 35-19\* and slams a Home! now.

Five stations are already reporting more than 21 PPWs on "Dissident," including WHCN, WQLZ, KRRK, WRCQ and WHMH, while WDIZ's spins go from three to 13 in one week. Also, WIYY, KXRX and WAAF are among the five stations adding this one into heavy.

WMMR's Riki Hofberg tells us, "The street buzz on Pearl Jam is undeniable, and we think 'Dissident' will be huge!" At KTAL, Greg Hanson beams, "There is nothing off this album I don't like!"

WQWK MD Pat Urban calls Pearl Jam "pretty much a no-lose situation you can't lose with any of their music," while Bobbi Jones of WRXR comments, "We're working our way through the album, cut by cut!"

#### CHEAP TRICK Woke Up With A Monster WARNER BROS. - 48428

"Woke Up With A Monster' fuckin' rocks!" Brian Sullivan, WKLT

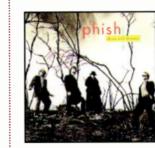

The latest from Cheap Trick is now on 160 Rock Radio stations, thanks to 39 more adds. With the added thrust from 25 rotation bumps, "Woke Up With A Monster" jumps into the Power Cuts Top 15 this week, 19-15\*. Top 5 requests on the new Cheap Trick quadruple this week.

WHMH triples its play on "Woke Up", seven to 21, while WRCN and KRZR each double their PPWs. Plus, WHEB, WTKX, WRCQ and WQLZ are giving this one three spins a day.

At KWHL, Loren Dixon says, "We're really impressed with this new sound!" Vince Richards of WQLZ says of "Woke Up": "It rocks and has a unique sound that will definitely grab your listeners from the very first spin. That's what makes it so good!"

WZXL's Jay Gleason quips, "This 'Monster' goes right into heavy," while KRCH MD Matt Montgomery explains, "We're getting calls on this one already!"

#### PHISH "Down With Disease

"Down With Disease' is Phish's best effort to date! Play it, your audience will love you for it!" Date Miller, KATP

"Down With Disease" sets up Phish's fifth CD (*Hoist*, due 3/29) by nailing down the support of 37 Rock Radio programmers out of the box. Two of those adds go into heavy, as "Down With Disease" starts its Power Cuts ascent at #52\*.

It is too soon to discuss PPWs, but we can tell you that some of the early believers in this Phish track are WNEW, WAVF, WCCC, WHCN, KQXR and KATP; 'NEW, 'CCC and 'HCN are among the seven outlets reporting Top 5 phones already.

A pair of Hartford MDs speak out in favor of Phish this week, beginning with WCCC's Phil Marlowe: "Phish are gods in New England, and they soon will be gods across America! They sell out wherever they play and they finally have the right song. Phish will be as big as the Spin Doctors before the year is over!" At crosstown WHCN, Pam Brooks tells us, "This band has a very strong and vocal following in Connecticut, and 'HCN has supported them through their most recent efforts!"

#### HEART "Back To Avalor

"Heart hasn't lost that special vocal touch!" Ron Stryker, KCLB

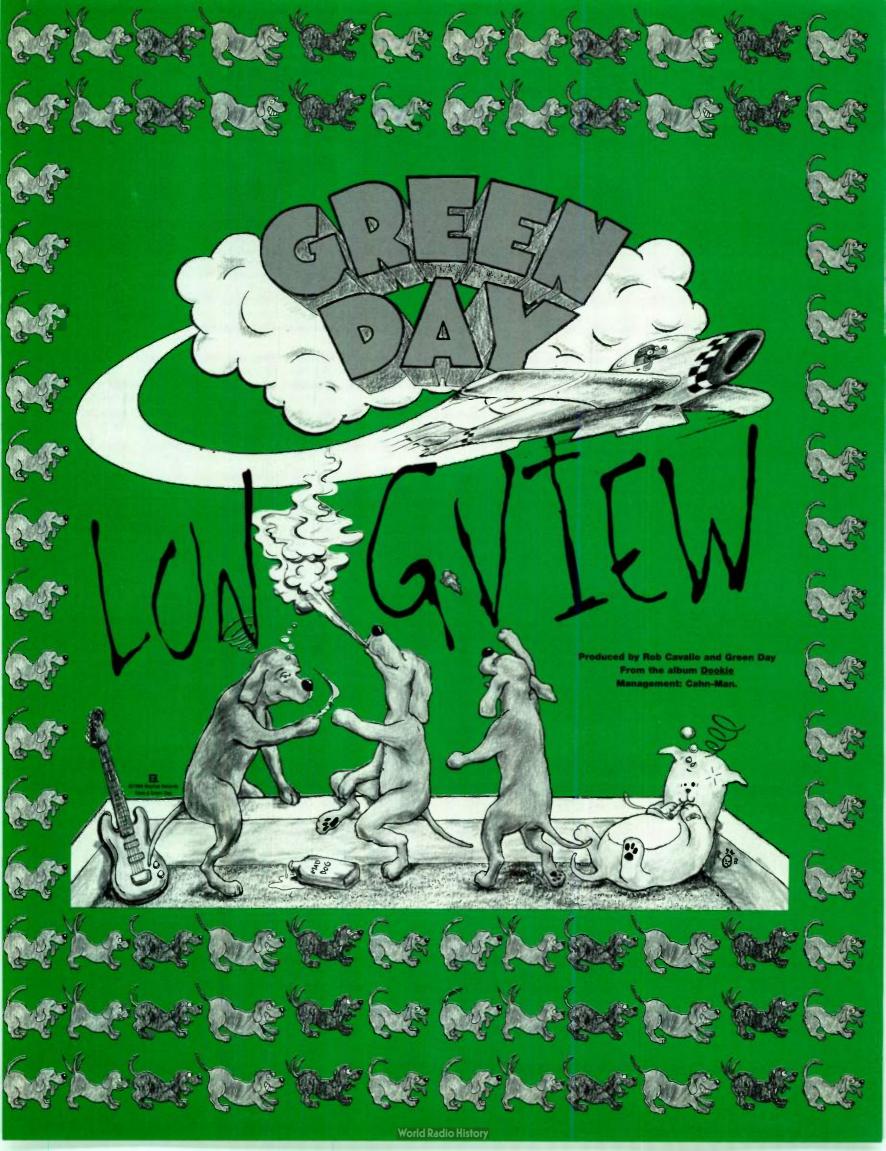

Now that Capitol is officially giving its attention to "Back To Avalon," 29 programmers add the track (including two heavies) this week. It is now on 41 stations, which helps explain the #48\* debut on Power Cuts.

Early support for the latest track from *Desire Walks On* comes from KDKB, KRXQ, WCCC, WAPL, WQNY, KEZE, KMJX, KCQR, WDHA and WWCT.

Matt Vaughan of KNCN explains that "Back To Avalon" is "one of the stronger cuts they've released in a while. Heart is a mainstay of the format!" KRZZ's Greg Bergen believes, "You can't go wrong with Heart, and this is the track that Rock Radio and our listeners want to hear!"

WCCC MD Phil Marlowe remarks, "We started playing this three weeks ago, because we thought it was the strongest track on the album!" And, at KRKX, Terry Keys says, "'Back To Avalon' is like a powerful flashback!"

"MMM MMM MMM MMM' should come with a warning label: 'Could be addictive'!" Debbie Gilbert, WWWV

Crash Test Dummies make it to New Action Airplay with 26 adds on "MMM MMM MMM MMM." One of the best-testing records around, this one is getting Top 5 phones in 15 markets (including New York and Seattle). The song scrambles 42-33\* on Power Cuts.

WIYY ups its spins from 10 to 22, while WIQB and QMF2 are both playing the song more than 30 times a week.

KMJX's David Allen Ross states, "We have never played Crash Test Dummies, but this track has something to it!" At WCCC, Phil Marlowe comments. "They're selling (Top 15 nationally) and we're getting Top 5 phones without any real airplay before now!'

COLLECTIVE SOUL

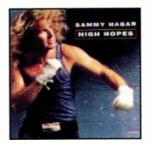

"Collective Soul is Top 5 in all davparts, #3 at night and generating 100% positive reaction!" Strummer, WTKX

Collective Soul has now spent four weeks among the Top 10 most added at Rock Radio with "Shine." as 24 more outlets go on the cut. Plus, 17 upped rotations are reported, giving "Shine" a 29-20\* move up the Power Cuts chart.

Fourteen stations report heavy phones on "Shine," WXTB adds it into heavy and WDIZ, WQLZ and WTKX all report 20 PPWs or more; 'TKX is up from nine spins.

Dale Miller of KATP proclaims, "'Shine' is my #1 most requested song, and we just started playing it! After only a few days, we've moved it from medium up to heavy!" At KWHL, Loren Dixon savs, "Your listeners will be locked in after one spin!"

"Sammy Hagar is the reason I forget to take my birth control pills; I just get so caught up in his music!" Samantha Wolf, WDRK

The anticipation created by "High Hopes" has Sammy's Unboxed as the #7 Hot Future at retail, as it scores with 43 rotation increases and 23 adds this week. A 7-4\* rise on Power Cuts ensues.

Hagar wastes no time picking up the spins, as half a dozen stations are giving "High Hopes" more than 30 PPWs - KIOZ, KSHE and KEZE among them; WIYY nudges the mark with 28 plays.

WBXQ's Mike Thomas offers, "The new Hagar kicks ass, and the phones love it, too!" At WCCC, Phil Marlowe states, "lt's Sammy and it rocks! An instantaneous reaction; play the record!" Matt Montgomery of KRCH exclaims, "It's good to have Sammy rock n' rolling!"

SWASHING PUMPKINS

"If you're not playing 'Disarm,' you're missing a great record! That is not hype...it's the truth!" Michael Young, WRZX

The Pumpkins have a Rock Radio hit on their hands with "Disarm"; the third cut from the Platinum Siamese Dream is now on 101 stations, after a 21-add showing, and it runs 32-22\* on Power Cuts.

This is another one getting major spinage, as WIYY/Baltimore cranks out 42 plays this week, followed by WAAF and QMF2, each in the mid-30s. In all, nine outlets report a minimum of three spins a day.

WQLZ's Vince Richards declares, "It's selling a ton of records and blowing the phones out. It doesn't matter what we play - the listeners want Smashing Pumpkins!" At WROQ, MD Bill Walker admits, "I can see why Smashing Pumpkins have sold-out shows; 'Disarm' is great stuff!"

"Blind Melon may be hard to define, but it's a great CD! I love 'Change'!" Jeff Custer, KFFX

"Change" streaks 66-47\* on the Power Cuts chart, following its 20-add week at Rock Radio. With close to 50 stations airing it, the song will slug a Homer! shortly.

This one from Blind Melon has swiftly collected support from several stations in key markets, WXTB, WDVE, KRXQ. KLBJ, WCCC, WHCN, WAPL and KEZE included. The CD has been certified double-Platinum.

At WDRK, Samantha Wolf says, "I think 'Change' is gonna be Blind Melon's best ever!" And KBAT's Dru Dawson says it "reminds me of Zeppelin. Blind Melon is finally getting the attention it deserves."

As of this writing, the Atlanta-based singer/songwriter duo known as Billy Pilgrim is on the verge of going Top 10 at the Adult Rock Radio format, while their debut single, the mid-tempo ode-to-nature "Get Me Out Of Here," has just been given an official push at Rock Radio.

Andrew Hyra, a graduate of Tulane's law program, hooked up with Emory grad Kristian Bush in Knoxville back in 91, and the duo moved down to Atlanta. While performing their original music in the area clubs, Hyra and Bush recorded two albums independently before coming to the attention of Atlantic Records A&R rep Jennifer Stark. Falling in love with the acoustic feel, the God-like harmonies and the incredible songwriting, in which Kristian and Andrew paint highly vivid wordscapes, Stark signed the pair and off they went to record their first major label album. Along the way, they fell into the able hands of managers Bill Leopold and Mark Graham, who brought legendary producer Hugh Padgham into the project.

Recently, Andrew and Kristian phoned WKLS's Beth Kepple to talk about Billy Pilgrim. A portion of that conversation is featured here.

**BETH:** A lot of people may not know that you aren't really Billy Pilgrim, a person, but that you're two people, Andrew Hyra and Kristian Bush. It's been a long time since I read Kurt Vonnegut's "Slaughterhouse-Five," so could you refresh my memory as to who Billy Pilgrim was, and why you took his name?

**ANDREW:** "In terms of connecting it to what our music is, it's not so much that as much as we really like what the name sounds like. It was kind of difficult to choose a name when we already had one; we were doing it under just our names for, like, two years and coming up with a bit of an alias was a lot more 'wieldy' than saying our names all the time. Anyway, we always wanted to name [our duo], so this gave us the chance to think about it, and ["Slaughterhouse-Five"] was a shared literary influence. We've read quite a bit of [Vonnegut] and we've talked about it on road trips.

"It turned out that Billy Pilgrim really did represent a lot of what we talk about. He has an ability to time-travel through his life and see his whole life, which is kind of what songwriting really should do. It incorporates everything that goes on with what's coming up and what's happening now and what's happened to you."

**BETH:** You both write, you both play guitar, you both sing. Do you have a certain method of taking turns, do you just arbitrarily decide, "I'il do this, you do that," or are you so much on the same wavelength that you don't have to consciously delegate songwriting responsibilities?

**ANDREW:** "No, it's nothing that cosmic. I write a song and Kristian adds a part, he writes a song and I add a part. It's really that simple."

BETH: Do you ever write together?

ANDREW: "We've done it one time, [and it] turned out really well. So it's something that I'm sure we'll be doing some of. But, I'm sure we'll also be exploring our own sides of songwriting, which has really worked so far. It's great because it adds something to it; when you have two people writing separately, you have two different sounds coming out. If we were co-writing together, we'd probably tend to get into a format. He writes a different kind of way and it just makes it a little bit more interesting in terms of listening to it, I think." BETH: Didn't it take just six weeks to do this album?

ANDREW: "Yeah, to record it. But the mixing process kind of dragged out because Hugh got involved."

**BETH:** How did you get involved with Hugh Padgham? **ANDREW:** "We made the record and mixed it with Don [McCollister] and we were working with the company through Jen [Stark]. She got the first mix out to a bunch of managers. Bill Leopold, who we were really impressed with - he's Melissa Etheridge's manager - just really took the bull by the horns and said, 'I think this is good, but I think we can make it better in terms of giving it a little more oomph.'

"Don is an amazing producer, [and the album] was incredible for the amount of time [he worked on it], and he was just besieged with it. He was sitting with it for eight weeks and must have been sick to death of it.

"What Hugh did was bring in a totally fresh ear and a little space and a monstrously cool studio in London. He just pushed it up and made some things a little more distinct. Don went over there and worked on it with him, so they both did it in London on some better equipment."

**BETH:** There's been a ton of Atlanta bands to hit the big time in the last eight years or so: Georgia Satellites, Drivin•N•Cryin, The Black Crowes, The Indigo Girls...and that's just to name a few. Have any of them been influences on you and your music?

**KRISTIAN:** "Anybody you play with, or are around, influences you. All the way to everyone that shows up at a writer's night on a Sunday. All these writers that have been there for a while influence you immediately, and then, when you're in your apartment, in your room, and you're listening to a record, that record may influence you that week. It comes from so many different places and so many different levels.

"Georgia bands have so many different sounds that it's not just Southern rock any more. You can't pinpoint any one thing or another. I don't think Southern bands influence each other too much, because they don't have to."

**ANDREW:** "We don't want to sound like R.E.M., or anybody else that's ever done anything. We certainly respect what they do, incredibly, but they've already done it. I think, by happenstance, sometimes you are going to sound a certain way. But, it's a tough line. How people influence you is much more direct; actually playing with people is a direct influence. You soak it up. When we played with Mathew Kahler and Shawn Mullins (who are both local solo artists), and the people in the scene, they had a huge influence [on us]. They are amazing performers, and everyone who does this deserves whatever comes their way.

"I consider myself very lucky [to have been signed]. It could [have been any] number of people from Atlanta, but a lot of times it's just happenstance and it's hard to thank everybody who really is involved in it."

A music junkle, Beth Kepple is Music Director and half of the morning team at Atlanta's WKLS, 96-Rock.

"If Martinis And Bikinis were a picture, it would be in black and white, as opposed to color," Sam Phillips figures. Why? "It's plain," she explains. Sam will tell you that she believes music should be not only efficient and functional, but should also inspire. In her uncomplicated approach to songwriting - and with the aid of her husband and producer T Bone Burnett (Counting Crows, BoDeans) -Phillips pays homage to that belief, never allowing the arrangements to overshadow her insightful words. Rather, her lyrics are driven by the music, as both elements work to evoke a single emotion.

Phillips has just released Martinis And Bikinis, her third rock record for Virgin. Her first two such endeavors, 1988's The Incredible Wow and 91's Cruel Inventions, were both universally praised, and ultimately given regional play at Alternative Radio. But a funny thing happened on the way to Martinis And Bikinis - the Adult Rock format. Without a real niche to call her own prior to the advent of this exciting new format, her Michael Penn-cum-Beatles-cum-Tom Petty & The Heartbreakers style rock has taken up residence quickly with these stations. In fact, the first single from her new CD, a far Eastern-tinged, Everly Brothers-like number called "Baby I Can't Please You," has Martinis And Bikinis careening up the Adult Rock Radio chart (32-22\*, last week). The album is also comin' on strong at Alternative Radio, where it was the #3 Most Added release a week ago.

Born Leslie Phillips in Los Angeles (and nicknamed Sam), the singer/songwriter was joined on Martinis And Bikinis by Bryan Adams' drummer Mickey Curry and bassist Jerry Scheff (who also plays with Richard Thompson); both are longtime backing members of Phillips.

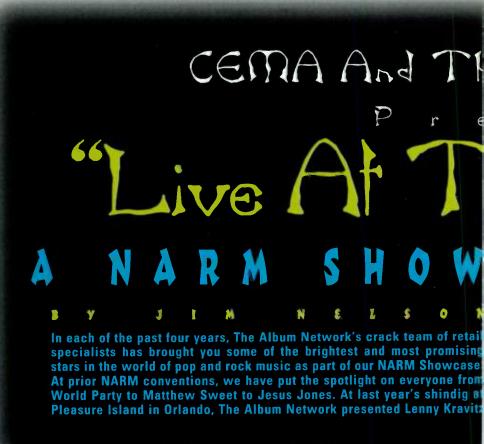

Also playing on the CD were T Bone, R.E.M.'s Peter Buck, Heartbreaker Benmont Tench, David Mansfield (ex-Bruce Hornsby & The Range), Marvin Etzioni (formerly of Lone Justice) and Van Dyke Parks, among others.

IRS A love affair that began in the fall of 1992 continues in 1994, as this

California-based pop/rock trio returns to the spotlight on our NARM Showcase stage.

Dada's roots are deep, dating back to the grade school playground where quitarist/singer Michael Gurley and bass player/singer Joie Calio first became acquainted. As members of rival bands throughout their formative years, Gurley and Calio were acutely aware of each other's presence, but it wasn't until much later that they actually played together. Joining forces in the mid-80s in the now defunct band Louis And Clark, Michael and Joie gained their independence when the group's Louis Gutierrez jumped ship in favor of Mary's Danish. With pop melodies as their guiding light, Calio and Gurley invited drummer Phil Leavitt to join, and the three-piece was complete.

IRS was the first label to tender a recording contract, and with the signed paper in hand, dada set out to make its first album, with Ken Scott (The Beatles, Supertramp, David Bowie) at the helm. Released in September of 92, puzzle enjoyed a nice run at both the Alternative Radio and Rock Radio levels, with the quirky and unforgettable "Dizz Knee Land" ultimately becoming a hit at both formats. Though "Dim" also received Rock Radio airplay, it was the Gen X crowd that fully embraced dada, as "Dizz Knee Land," "Dim" and "Here Today, Gone Tomorrow" were all adopted by Alternative Radio.

Gurley, Calio and Leavitt have just finished up a European tour opening for Crowded House and are planning to return to the studio presently - with Jason Corsaro (Soundgarden) producing - to begin recording their second album. The idea is to have the CD out by July.

Richard Thompson

Capitol Richard Thompson was but a boy of 17 when he helped to form Fairport Convention in 1967, in the process developing a highly influential and, at the time, entirely new amalgamation of musics, hence known as British folk/rock. Already an accomplished guitarist by his late teens, Thompson soon became equally talented with a pen. Over the ensuing 27 years, Richard has recorded countless studio and live albums, including a handful with Fairport Convention and six with his former wife, Linda. So extensive is his body of work that it took three discs and 47 songs for Rykodisc to adequately cover his career

on last year's Watching The Dark: The History Of Richard Thompson. His music, ofttimes trademarked by its cynical bent and gloomy, moody manner, has been covered by R.E.M., John Mellencamp, Elvis Costello and David Byrne, while Richard's mastery of the six-string has led to his playing on more than 50 albums, including such artists as Robert Plant, Bonnie Raitt, Shawn Colvin and Crowded House.

Mirror Blue, Richard Thompson's latest work, has quickly risen to the Top 10 on the In-Store Play chart and is also selling respectably, holding steady on the Hottest Sales Nationwide chart. His distinctive sound - characterized by a baritone voice that falls somewhere between Mark Knopfler's and Chris Rea's and a guitar technique that is clearly influenced by everything from early 60s surf guitar to Dylan's acoustic folk picking - has always been eclectic enough to fall between the cracks of conventional, mainstream radio formats. But now, thanks to the advent of Adult Rock Radio, Mirror Blue has a home; it is a Top 10 record on this particular chart, while going Top 20 on the Adult Rock Retail chart.

This new CD, Thompson's first in nearly three years, was produced by Mitchell Froom and features, among others, Attractions drummer Pete Thomas. Also joining Richard on *Mirror Blue* are longtime associates Jerry Scheff (who also plays with Sam Phillips), John Kirkpatrick, Christine Collister and Phil Pickett. Richard wrote all 13 songs on *Mirror Blue*, including the first single, "I Can't Wake Up To Save My Life," which he recently performed with the CBS Orchestra on David Letterman's show.

Growdea hous

Of the five performers gracing our stage at The Warfield, it is perhaps Crowded House that can claim the highest mainstream profile, thanks in part to their Gold-selling, 1986 debut album, which contained several multi-format radio hits, including "Don't Dream It's Over" and

#### and Blind Melon - before they became household names.

This year, at San Francisco's famed Warfield Theater, we are very pleased and proud to bring you our most ambitious showcase yet, as we offer, in association with CEMA Distribution, Sam Phillips, dada, Richard Thompson, Crowded House and Cracker. So, for this week's artist feature, we profile each of these talented performers and groups.

"Something So Strong." With their subsequent releases, 1988's Temple Of Low Men and 1991's Woodface, these New Zealanders added to their appeal at Alternative Radio, while extensive touring continued to build Crowded House's r eputation as a no-holds-barred, rules-be-damned, downright fun-to-see live band. I have been witness to Neil Finn, Paul Hester and Nick Seymour starting a food fight with the audience - sacrificing the after show platter in the process - and I have seen them invite members of the crowd up on stage to sing with them. No telling what pranks and shenanigans have accompanied their hundreds of shows over the past eight years - or what might happen at the Warfield Theater.

Crowded House's fourth CD, *Together Alone*, has also done quite well for the band. Now a quartet (Neil's brother Tim joined on keys and guitar for *Woodface*, but when he decided to go back to his solo career, Mark Hart was asked to join for this release), Crowded House owned the #1 most played album at Adult Rock Radio as recently as a week ago (*Together Alone* is still Top 10 on the Adult Retail chart). Meanwhile, the new CD went Top 3 at the Alternative level, where it has also been a topselling CD. In fact, at the national level, *Together Alone* continues to sell, having spent eight straight weeks in the Top

Virain

100 (peaking at #48\*), thanks to the multi-format airplay on "Locked Out." Oh, and having "Locked Out" included in the hit movie "Reality Bites" and on its Top 10-selling soundtrack certainly hasn't hurt Crowded House's visibility these days either!

"I get a big kick out of occasionally writing songs like 'Teen Angst,'" notes Cracker's David Lowery. "I feel comfortable with using irony and sarcasm in my songs." It was that huge - and quirky - hit in 1992 that propelled Lowery beyond the college/alternative label he'd earned with his previous band, Camper Van Beethoven, and into the rock mainstream with his new band. With "Low," from Cracker's second endeavor, *Kerosene Hat*, the band has done it again. A Top 10 record at both Rock Radio and Alternative Radio, "Low" takes a more somber bent than "Teen Angst" did, showing Cracker to be equal to that task, as well. The song has also helped Cracker sell more than 450,000 copies of *Kerosene Hat*, the new CD was at #42\* on the Hottest Sales Nationwide chart a week ago and Top 10 on the Alternative Retail chart at the same time.

It's been about four years since guitarist/singer David Lowery and lead guitarist John Hickman formed Cracker in their hometown of Redlands, in the sprawling Riverside/San Bernardino area of Southern California. With Hickman came the same country roots he'd infused into his former band, The Unforgiven, and which had made it possible for him to have played alongside the likes of Willie Nelson and Joe Ely. Together, Lowery and Hickman create a sound that leans a bit more rock than country, though songs like "This Is Cracker Soul," on their eponymous debut release, and "Lonesome Johnny Blues," from *Kerosene Hat*, make no apologies for their blatant country tendencies. On new tunes like "Low," "Movie Star" and "Get Off This" (which has been a mainstay on the Power Cuts chart weeks in advance of any push from the label), Lowery's decidedly British-sounding voice and Hickman's ballsy licks typify the side of Cracker that has them kicking ass at the rock formats.

## Mack Makes National Director/Rock Promotion At Capitol

Capitol's Tasha Mack relocates to the Capitol Tower, as Senior VP/Promotion John Fagot elevates the Dallas-based Local Promotion Manager to National Director/Rock Promotion.

"Tasha is a great example of a person who has used all of her intelligence, work ethic, attitude and personality to rise from within the ranks," says Fagot of her promotion. "It is a pleasure to have people of Tasha's caliber on our team."

"I'm so excited to be back in the national office!" exclaims Mack. "I'm looking forward to working with John Fagot and Gary Gersh, and being an integral part of the future of Capitol Records."

Mack has been with Capitol since 1985, starting as a Coordinator in Artist Relations before seguing to promotion. She got her start at KUPD/Phoenix in the research department, before moving on to TBA Media as Assistant Media Buyer, and finally to Capitol.

## Einstein = Director/Adult Rock Promotion At Mercury

Mercury VP/Rock Promotion Drew Murray elevates National Rock Promotion Manager David Einstein to the newly created post of Director/Adult Rock Promotion.

"Having someone as talented as Dave Einstein in-house, especially given his radio background as one of the true forefathers of this format, made him the obvious choice for this job," says Murray. "Plus, the A&R department here, from

President Ed Eckstine on down, really wants to make a firm commitment musically to Adult Rock, through existing artists, who are growing into this format, and also through signing new bands who are palatable to the format. We want to make a serious investment in Adult Rock, and who better than Dave Einstein, who's respected in the community for both his radio experience and his promotion skills?"

"I'm extremely excited about this opportunity," offers Einstein, "and I'm looking forward to help address the format with Mercury. There are a lot of our artists who should be involved with Adult Rock, and hopefully, I'll be able to lend my efforts to be a conduit for that. I'd like to thank both Drew and David Leach for this opportunity."

Einstein has served as National Rock Promotion Manager since 1991. Prior to joining Mercury, he was with RCA as Local Promotion Manager/Mid-Atlantic. He spent a remarkable 19 years at WHFS/Washington, DC, serving as Operations Manager before joining RCA.

## Lubin Heads To RCA As VP/A&R

RCA Senior VP Dave Novik brings aboard former Elektra VP/A&R Peter Lubin as VP/A&R.

"I'm thrilled that Peter has joined us," offers Novik. "His musical knowledge, artistic sensibilities and creativity will help RCA expand our roster and build a haven for catalog artists. Peter's experience will also assist me in developing a staff of talented, creative A&R people."

"I'm happy to be part of RCA's renewed commitment to rock music, and look forward to making some solid contributions to the roster," comments Lubin. "Working with Joe [Galante] and Dave already feels like a natural fit,

and I'm very impressed with the rest of the team they have assembled. Look for us to be rockin' the house that Elvis built!"

Lubin spent five years at Elektra, and during his tenure he was responsible for signing The Pixies, John Campbell, George Lynch, Guy Clark, Frank Black, Huey Lewis and The Breeders, among others. Previously, he spent eight years with PolyGram, where he signed Robert Cray, Michelle Shocked, Peter Gabriel and the Moody Blues, among others.

## Horton Hears A New OM Post At WTRY & WPYX

Following the resignation of WTRY and WPYX/ Albany programmer Ed Levine to better concentrate on his WKLL/WKRL ownership duties, VP/GM Robert Ausfeld taps veteran programmer Fred Horton as OM. His first day will be April 4.

"Fred comes to us with an enormous broadcast and programming background," states Ausfeld. "I would bet anybody he is one of the Top 10 oldies programmers in the country, and he has an extensive background in Rock Radio as well. His managerial abilities are fantastic, and we're very happy to be bringing Fred back into this market.

"Everything had worked out very nicely with Ed Levine, who will remain as a consultant," continues Ausfeld. "He gets a big round of applause for what he's done with WPYX and WTRY over the years."

"It's great to be back in the Albany market and working with such great AOR veterans like Mason & Sheehan, John Cooper, Cliff Nash and Scorch," observes Horton. "PYX is a great Rock Radio station, and we will just continue to build the radio station based upon what Ed Levine has done with it. There are a lot of things we can do in the marketplace, especially with Mason & Sheehan, that will build them into very strong contenders for mornings in Albany."

"I retired with the belt and have moved on to other ventures!" gushes Levine. "It's basically the culmination of everything I've been working for since 1990, when we first put WKLL on the air. The idea was for me to eventually be working totally for my own company, and now that's happened. There's a lot of work, because we're launching two FM rock stations in the same market, at the same time! To my knowledge, that's never been done before. Consequently, there's double the workload, and there are formidable obstacles that have to be overcome. I decided I needed to get here ASAP, and start working on it. As much as I loved working at 'PYX and some of the other places I've been at over the years, there is a definite difference in intensity level when you're doing it for yourself."

Regarding his role as consultant, Levine explains, "Fred Horton and I go back to the mid-70s together. We've been talking two or three times a week for the last few years anyway, and that won't change. People like John Cooper and Bob Mason and Cliff Nash and Bobby Ausfeld - these are friendships, not just business relationships. I'll come into town once a month, use up all of 'PYX's hotel trade, make Ausfeld take me out to a big, expensive dinner, and then spout off on what I think they should do. Nothing different than I do to all my friends in radio...and now they get the advice for free, too, so aren't they lucky!"

Horton returns to Albany from his PD post at country outlet WYNY/New York. His extensive career history includes a stint as OM/morning man at WGNA/Albany, and PD stops at WTRY/Albany, WDRC/Hartford, WSYR/Syracuse and WAAL/Binghamton.

#### Sony Snags RED And Relativity

Sony Music and Relativity founder/President Barry Kobrin announce Sony Music's acquisition of Kobrin's 50% interest in Relativity Entertainment Distribution (RED), the largest independent distribution company in the US, and the Relativity recording label. Sony Music had previously held 50% interest in RED, which is now wholly-owned by Sony Music.

Commenting on the acquisition, Sony Music Entertainment President/COO Thomas Mottola remarks, "Barry Kobrin founded and built Relativity Entertainment Distribution and the Relativity label into a powerhouse independent record label and the most respected and successful independent distribution network in the music business today. We look forward to building on both companies' achievements."

With Sony's acquisition of his interest in RED, Kobrin will exit the company and intends to continue to be a force in the music industry.

"I am very satisfied with what I've built, and have enjoyed building, over the years," he says. "The Relativity and RED staffs are simply the best, and I've thoroughly enjoyed my relationships with our employees and artists. Sony Music is a large, successful company, and through our working relationship, we shared a vision of success for the 90s. We have shared in building a powerful independent distribution company and a strong label presence in the leading areas of popular music: Rock, alternative and hip hop. Although I'll miss the RED family I've been a part of for the past decade, I wish Sony Music continued success."

#### Derfler Gains VP Stripes At IRS

IRS Senior VP/GM Barbara Bolan taps National Sales Manager Ira Derfler as the label's new VP/Sales.

Regarding the promotion, Bolan tells Album Network, "We've got a job to do, and, in the area of creating sales growth, Ira Derfler will get it done. He's experienced, strong-minded, sure in business and passionate

with music. I like him."

Says Derfler, "I'm delighted to be a part of such a fine organization, and I'm looking forward to being a part of the development of new and exciting artists at IRS Records."

Prior to his hiring at IRS in 1992, he spent 17 years with the Capitol/EMI family, rising to VP/Sales for EMI.

#### Atlantic Restructures Rock Promo Dept.

Atlantic Records has reorganized the Rock division of its National Promotion department, which now comprises the following New York-based staffers: Lea Pisacane - Director/National Album Promotion; Mark Fischer - Associate Director/National Album Promotion; Bonnie Slifkin - National Manager of Progressive/Rock Promotion and Jon Nardachone - National Manager/Hard Rock Promotion. Regarding the reorganization, VP/Danny Buch says, "Atlantic's incredible musical variety, combined with the increasingly fragmented state of Rock Radio, has made this restructuring vital. However, our biggest challenge remains getting all four of these sociopathic individuals extolled within the parameters of the standard industry press release.

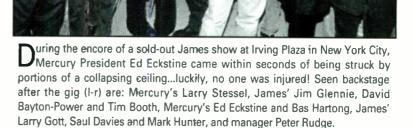

"Pisacane is a photon of unique

energetic credibility; she epitomizes the morning zoo of promotion. The son of a minister, Mark Fischer's gentle persuasion technique was honed via Atlantic's Southern field experience. Slifkin's biting sarcasm, cutting edge intelligence and general depravity make her a joy for all who come in contact with her. Nardachone's brilliance and metalurgic skill round out the department, along with his sense of style and daily fashion statements."

Pisacane has served as Director/National Album

Promotion since 1992. Fischer joined the label in 1991 as the Dallas local promotion rep. Immediately prior to her new appointment, Slifkin was National Album Promotion Coordinator, a post she had held since 1992. Nardachone joined in 1991, rising to National Metal Manager before stepping to this new post.

VP/Video & Media Development at PLG. Her new duties will involve the conceptualization and execution of all music videos and label home videos, as well as working on album packaging and advertising. She will be based at PLG's West Coast offices.

In making the announce-

ment, President/CEO Rick Dobbis comments, "Jeanne has shown a tremendous talent for visualizing exciting imaging for artists across the musical spectrum. By consolidating several areas of responsibility into one, Jeanne and her staff, working with the labels and PLG product managers, will be able to effectively realize the creative vision of our artists through packaging, video and other support materials."

Prior to joining PLG, Mattiussi was head of the video department at RCA, and she headed video and artist development departments for the West Coast offices of Columbia and Chrysalis.

#### Retail Regi\$ter

A French electronics conglomerate, Thomson, has filed a suit against the five biggest record companies in the US. Thomson holds the patents on the arrangement of data on all optical discs (which includes CDs) and indicated in their lawsuit that the record companies have failed to pay licensing fees to manufacture and distribute CDs. Watch this space for more details.

#### Perkins Gains VP Stripes

Scott "Perk" Perkins has been promoted to Vice President/Retail for Music City Record Distributors. Perkins will oversee all operations of the 18 Cat's Compact Disc & Cassette stores, which are located throughout Tennessee and Indiana. Formally, Perkins was Director/Retail, District Manager and Store Manager for Music City.

#### Twisters Offers Unique Atmosphere To Customers

The Lincoln, Nebraska-based Twisters chain has just relocated one of its stores to a new location in Lincoln...and that's not all that's new! This youngest Twisters offers customers a "break" from stale, high-pressure sales environments by bringing in elements that aren't

typically associated with music retailing. They now offer a coffee shop, serve sandwiches and have expanded on the CD listening station concept by creating their own giant listening bar.

Twisters' Ken Adams says, "People really like the freedom of listening to a variety of music at their leisure - the mistake is that we don't often realize how uneducated customers are when they walk into a store. Now, they have the opportunity to listen to an entire album and browse liner notes, all while being

assisted by a staff member who can not only help in product selection, but also inform the customer of related musical styles and relate with them on a very personal basis."

#### Other News And Views

#### Other Moves N' Grooves

Contrary to the March 15 edition of the New York Post, Vince Neil is very much alive and doing quite well, thank you. The Post ran a review of the new Motley Crue album, stating, "Anybody who steps in for the late Crue singer Vince Neil (who died in an auto accident) has major shoes to fill." Needless to say, the phones began ringing off the hook at Vince's publicity company immediately....

Bill Graham Management has opened its first LA office, located at the Wiltern Theatre, the historic venue which is operated by Bill Graham Presents; the office is being overseen by personal manager Kathy Cook. Additionally, Bill Graham Management is spearheading a new custom label at A&M. The as-yetunnamed label will issue two to three albums per year, with its first release, from the Songcatchers, due out this summer.

# FROM LINCOLN CENTER

FOR THE T.J. MARTELL FOUNDATION

"One of our biggest piece count totals ever!" Gail Countryman, Rough Trade/ San Francisco

Superunknown is one helluva record! Everything that happened in the time between Badmotorfinger and Superunknown made it painfully obvious that Soundgarden had reached new territory. Soundgarden members outside projects Temple Of The Dog and Hater helped to create even more appeal, but this train was already on the track!

"Spoonman" is the knockout first single that's Top 10 on Power Cuts (it's also #2 Most Requested), while MTV has the video in Stress rotation. At VIRTU-ALLYALTERNATIVE Radio, Superunknown jets 12-9\* and at RAWk Radio, it's #1\* for a second week.

Superunknown takes its place at #1\* on the Hottest Sales Nationwide and flies 10-1\* on the in-Store Play chart. A total of 212 MarketMakers report chart debuts, 109 of which are #1s, including Wherehouse Ent./LA, National Record Mart/Pittsburgh, Strawberries/Boston, Streetside/St. Louis, Peaches Ent./Miami, Music Blockbuster Plus/Dallas and Best Buy/Minneapolis, along with 25 different Tower Records stores.

# The Downward Spiral

"We sold NIN two to one over Soundgarden! Trent knows what the kids want and he delivers. Our biggest piece count total ever!" Eric Erickson, Wax Trax/Denver

There is **so much** print coverage on Trent Reznor/ Nine Inch Nails right now, you'd think he reinvented rock n' roll...and he may just have! "Musician," "Electronic Musician," "Alternative Press," "Entertainment Weekly," "Rolling Stone" (which gave the record a four-star review!), local Sunday entertainment sections...we could go on. All of this from a guy who is painfully private!

"March Of Pigs" and "Closer" are the tracks that VIRTUALLYALTERNATIVEtype stations are playing, and MTV has the "March Of Pigs" clip in On rotation. Trent loves to tour and is about to embark on one soon.

The Downward Spiral hits the Hottest Sales Nationwide at #2\* and flies 15-3\* on the In-Store Play chart. A total of 192 accounts report chart debuts, including Title Wave/Minneapolis #1, Michigan Where House/Lansing #1, Wherehouse Ent./LA #2, Best **Buy/Minneapolis** #3. Tower/Anaheim #1. Twisters/Lincoln #2 and Newbury Comics/Cambridge #1.

#### BECK Mellow Gold

"Beck is the spokesperson for a new generation." Alan Handel, HMV/Cambridge

Talk about a reactionary song! "Loser" is the kind of single that makes you get up and head for the record store!

Members of CompuServe witnessed the prerelease buzz that ran rampant in the music forum; people would frantically leave messages about "this 'Loser' song." They had to have it, and in some cases, people were sending away for the Bongload 7-inch, and then 10 more people would go crazy over it, etc. As our Hot Future reports grew, it was like watching each market wake up to "this 'Loser' thing!"

"Loser" moves 51-44\* on Power Cuts (it's Top 10 Most Requested) and makes its Top 40 chart debut at Hit Radio, where it's among the Top 10 Most Added singles. MTV has the video in Buzz Bin. At VIRTUALLYALTER-NATIVE Radio, the album is #5\*. The next track for College and Alternative Radio is "Pay No Mind."

Mellow Gold pushes 18-10\* on the Hottest Sales Nationwide, with another 33 buyers reporting chart debuts. Significant upward moves include Kemp Mill/ Baltimore 45-6, Streetside/ Columbus 14 to 1, House Of Guitars/Rochester 47-13, Criminal Records/Atlanta 17-9 and Zip's/Tucson 44-7.

#### VARIOUS Rhythm Country & Blues

"We have a huge display and notorious response from the PBS special." Gina Pignataro, Tower/Tacoma

Rhythm Country & Blues is an important album for many reasons, mostly historical ones. Even before Hank Williams learned to play guitar from a black street musician from Alabama, or country artists honed their craft by covering Big Bill Broonzy songs, the roots that make up country and R&B were tangled.

Those roots have been fused together by some pretty powerful pairings, such as the Aaron Neville/Trisha Yearwood collaboration on Patsy Cline's "I Fall To Pieces," which will be released to Country Radio sometime in May. Sam Moore and Conway Twitty cook up a storm on "Rainy Night In Georgia," the video for which can be seen on TNN and CMT.

From coast to coast, the raves from a wide array of press exposure are being acknowledged in the form of big sales, as Rhythm Country & Blues boogies 23-13\* on the Hottest Sales Nationwide. Healthy upward momentum is noted in the Motor City area, where Michigan Where House/Lansing reports a 44-28 increase, Harmony House shows Top 20 sales and Dearborn Music reports a #16 debut.

# GANG STARR

"This is an innovative, amazing record! DJ Premiere is a genius!" Paul Parreira, HMV 72nd & Broadway/NYC

"We sold out in just three days," "Anything that Guru is involved with will do well," "Guru has godfather status in this genre of music" and "DJ Premiere is God" are just some of the comments we heard from accounts while taking reports on Gang Starr. Since their debut, Step In The Arena, Gang Starr has traveled far in circles of power. DJ Premiere produces for KRS One, Heavy D and Rakim, and we all know how successful Guru's Jazzmatazz was. These solo outings have increased their capacity to attract more fans via that word of mouth buzz and "endorsement by association," along with the fact that the jazz-hop phenom has really helped to widen people's interests, thereby allowing a wider audience to get involved.

The first single is "Mass Appeal," which has been #1\* at Rap Radio for four straight weeks, while the video is in Box Tops rotation on The Box. *Hard To Earn* hits the Hottest Sales Nationwide at #19\*, with 103 chart debuts reported, including Nobody Beats The Wiz/New York #1, Michigan Where House/ Lansing #8 and Tower/ Washington, DC, #6.

"People love it! Pro DJs love the single remix and sales are up 18-4." Ralph Valenzuela, Tower/Phoenix

With all the pre-release attention and a couple of hit videos, Hammer's The Funkv Headhunter sees solid second-week sales. Hammer made a couple of appearances on "The Arsenio Hall Show," most notably in January when he celebrated his fifth anniversary as a performer. The entire show was devoted to Hammer and he performed a few new tracks. The Funky Headhunter moves 15 to 14\* on the Hottest Sales Nationwide, with 24 chart debuts, including Blockbuster Music Plus/Atlanta #3, CD Delight/ Evans City #12 and House Of Guitars/Rochester #26.

The single, "It's All Good," is receiving Top 25 play at Urban Radio, while the video is in Active rotation on MTV. On The Box, the video for "Pumps And A Bump" is #2 and #2 among the Top 10 Rap Clips.

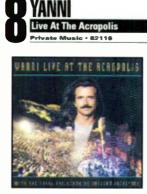

ELVIS COSTELLO

"We're jamming *Brutal Youth* in-store - it debuts at #3 on our chart." **Tony Peterson**,

Tracks/South Bend

Elvis may not be that "angry young man" the press used to love to toy with, but he's grown and changed, yet remained a man of great wit with a penchant for writing tunes that you'll always remember.

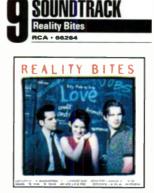

Between the radio exposure and positive reviews, the size of the buzz on Brutal Youth was realized with its #27\* debut on the Hottest Sales Nationwide and a 13-2\* leap up the In-Store Play chart. A total of 166 accounts report chart debuts, including #1s at Tower/Chicago, HMV 72nd & Broadway/ NYC, Tower Uptown/NYC, Rhythms/ Woodstock, Virgin Megastore/LA, Schoolkids/ Ann Arbor and Atlanta CD/ Atlanta, to name a few. The first track, "13 Steps Lead Down," is Top 30 on Power Cuts, while the album moves 4-3\* at Adults Only Radio and is #2\* at VIRTU-**ALLYALTERNATIVE** Radio.

"There's been a lot of media exposure and it's reflected in a big sales increase." Karen Leyda, Tower/Beaverton

Yanni's albums are always heavy out of the box winners, but there's an intensity to sales on *Live At The Acropolis* that is directly related to the PBS special that's airing this month. The press has given this project plenty of exposure, and sale pricing and merchandising at retail have their effect as well, but how many concerts have been recorded and filmed at the historic Parthenon?

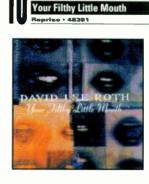

Live At The Acropolis jets 63 to 33\* on the Hottest Sales Nationwide. Debuts include An Die Musik/Baltimore #9 and J&R Music World/NYC #14, while incredible upward moves are noted at Peaches Ent./Miami 77-8, Kemp Mill/Baltimore 74-14, Streetside Records/St. Louis 58-45, Strawberries/Boston 41-14, CD World/S. Plainfield 27-15 and Fred Meyer/Seattle 21-7, to name a few.

"Reality may bite, but this OST doesn't! Constant KPNT play on several tracks makes this OST a store fave." Mark Easter, Music Vision/St. Louis

People are hailing "Reality Bites," the film, as "landmark," something that the 18 to 30 year olds can have that their parents just don't understand. Never mind all that "Generation X" stuff, America's youth knows what they like: Things that speak their language, a la this film.

On MTV, The Knack's video for "My Sharona" is in On rotation, and VH-1 and The Box are playing the clip, too. At VIRTU-ALLYALTERNATIVE Radio. play on tracks from World Party and The Posies helps the album move further into the Top 25. Big Mountain scores again with "Baby I Love Your Way," which is Top 10 at Hit Radio. Reality Bites rolls 9-8\* on a very tight Hottest Sales Nationwide and is #6\* on the In-Store Play chart. Of 198 total chart mentions, 103 are Top 10 or better.

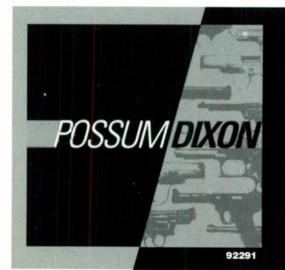

DAVID LEE ROTH

"Radio play and the Album Network broadcast shot interest over the top for DLR." Larry Causak, Record Revolution/Philadelphia

David Lee Roth's Your Filthv Little Mouth is being scooped up by the fans at a rapid rate. The album was heard by hundreds of thousands of fans before street date on one of our world premiere specials, which generated even more excitement when David ripped into some old VH tunes! The first single, "She's My Machine," runs 11 to 9\* on Power Cuts, while the video is in On rotation at MTV and has just been added at The Box.

Your Filthy Little Mouth makes its Hottest Sales Nationwide debut at #62\*, with 93 accounts reporting chart debuts, including Music Warehouse/Chicago #8, The Wall Music Inc./Philadelphia #28, Rockit Records/Nashua #53, Repeat The Beat/Dearporn #16, Tower/Portland #13, Tempo/Hollywood #4 and Dingleberry's/Dayton #8.

"People couldn't wait for this album!" Toni Rivera, Tower/San Francisco

Make no mistake about it: Motley Crue is back and bigger than ever.

The group's latest selftitled release is a certified scorcher, as it makes a #14\* debut on the Hottest Airplay Nationwide and soars 3-2\* at RAWk Radio. The lead track, "Hooligan's Holiday," jumps 15-14\* on Power Cuts and maintains its #2\* hold on the Heavy Nighttime Requests chart. WAAF/Boston and KRZR/Fresno are among the stations giving the song at least 35 Plays Per Week. And MTV just upped the "Hooligan's Holiday" video from Active to Stress rotation.

The reaction to *Motley Crue* at music stores has been equally immense. At presstime, the album had just been released and it jumps 4-3 on the Hot Futures sales projection chart. Expect a massive debut on next week's retail charts.

"KKNB is playing the hell out of 'MMM MMM MMM MMM' and that equals good sales." Ken Adams, Twisters/Lincoln

One of the catchiest tunes of the year has helped make *God Shuffled His Feet* a rock bestseller.

"MMM MMM MMM MMM," the lead track from Crash Test Dummies' second Arista release, advances an impressive 42-33\* on Power Cuts and debuts at #11 on the Most Requested Songs chart. Stations like KROQ/LA and WOXY/Cincinnati are among the many stations that have the track in heavy rotation. The video is in Buzz Bin rotation on MTV and What's New rotation on VH-1. Meanwhile, God Shuffled His Feet soars 36-32\* on the Hottest Airplay Nationwide and it remains a #4\* hit at VIRTU-ALLYALTERNATIVE Radio.

God Shuffled His Feet is also a winner at retail, where it maintains its #11\* hold on the Hottest Sales Nationwide and rises 3-2\* at Adults Only Retail. Nearly 80% of our MarketMaker accounts have the album in their Top 20.

"Radio loves her and she's been making promo appearances, which have

helped boost sales." Mark Burton, Electric Fetus/Minneapolis

Sass Jordan continues to make notable strides at radio and retail.

Her latest release, *Rats*, jumps 7-5\* on the Hottest Airplay Nationwide and moves 27-26\* at RAWk Radio. Fueling airplay support is the lead track, "High Road Easy," which soars 5-3\* on Power Cuts. KLBJ/Austin and WQLZ/ Springfield are among the many stations that are giving the song at least 30 PPWs.

As *Rats* picks up 14 MarketMaker debuts, it holds steady at #87\* on the Hottest Sales Nationwide. The album is progressing at RAWk Retail, where it debuts at #29\*. Stores reporting Top 10 sales include Record Country/ Erie, Relics Records/ Cedar Rapids and Music Emporium/Fenwick Island.

"Exposure on WAQX and MTV has helped Yes I Am re-debut at #7 on our chart."

Emily Kaskela, Last Unicorn/Utica

Yes I Am is proving to be one of those albums with true staying power.

"Come To My Window" is still making an impact at radio, thanks to heavy airplay on stations like WKLS/Atlanta and WLVQ/ Columbus. The song jumps 27-25\* on the Hit Singles chart, while the video is in Active rotation on MTV. Hot on the heels of "Come To My Window" is "All American Girl," which pulls in 49 adds and debuts at #37\* on Power Cuts. Yes I Am soars 32-26\* on the Hottest Airplay Nationwide.

At retail, Yes I Am is getting a second wind; it redebuts at #95\* on the Hottest Sales Nationwide and holds steady at #33\* at Adults Only Retail. Stores with Top 10 sales include Record Revolution/Philadelphia and Budget/Bismarck.

"It's getting a lot of airplay and we've been promoting this album in-store. It

moves 13-10 on our chart." Roberta Cowan, An

Die Musik/Baltimore

After a decade of making music, the Meat Puppets are finally breaking through with *Too High To Die*.

The album soars 16-12\* on the Hottest Airplay Nationwide, due in large part to radio's enormous support for "Backwater," which jumps 16-11\* on Power Cuts. WIYY/Baltimore and QMF2/Louisville are among the stations giving it at least 39 PPWs. And MTV just added the "Backwater" video into Active rotation. Too High To Die advances 9-8\* at VIRTUALLYALTERNATIVE Radio and holds its #29\* position at RAWk Radio.

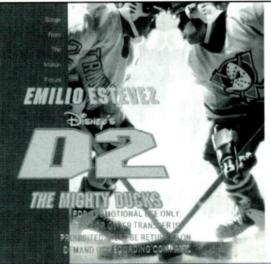

Making more inroads at retail, *Too High To Die* advances 99-97\* on the Hottest Sales Nationwide, debuts at #20\* on the In-Store Play chart and jumps 18-16\* at VIRTUALLYAL-TERNATIVE Retail. The album picks up 22 Market-Maker debuts and is in the Top 10 at Plan 9/Richmond and Rockit/Boston.

## retail chart analysis

#### SARAH MCLACHLAN Fumbling Towards Ecstasy

With a voice as rich as chocolate, Sarah McLachlan is positioned to start knocking off top sales contenders as *Fumbling Towards Ecstasy* confidently moves closer to the Top 50. The album's currently #54\* on the Hottest Sales Nationwide, and now that MTV has added the video for the single "Possession," into On rotation, it won't be staying there long!

Sarah is currently headlining a club tour across the US and will continue to appear on Adult Rock-oriented radio programs throughout March. *Fumbling Towards Ecstasy* has the #7 spot on the In-Store Play chart and the #7\* spot at Adult Rock Radio, and it jumps 24-19\* at VIRTU-ALLYALTERNATIVE Radio. Market-Makers reporting strong sales gains include Virgin Megastore/LA 20-16, Tower/Yonkers 73-38 and Record Theatre/Syracuse 22-11.

MCA definitely roped a winner with

the 8 Seconds soundtrack, by "stay-

ing" with the compelling story of

sure if this is unprecedented, but four of country music's hottest acts are simultaneously riding both the airplay and video charts with tracks from *8 Seconds*: Billy Dean, David Lee Murphy, McBride & The Ride and Brooks & Dunn.

8 Seconds swings up 73-69\* on the Hottest Sales Nationwide. Retailers showing increased sales include: Central South/Nashville 96-28, Record Giant/Amsterdam 49-26 and Granny's/Lewiston 32-3.

Like a pit bull with a soft touch, A&M has stuck with (and is about to deliver big things for) Sheryl Crow's *Tuesday Night Music Club*. Multi-format radio play, along with video exposure on The Box and MTV for the single, "Leaving Las Vegas," helps the release debut at #83\* on the Hottest Sales Nationwide. Sheryl is currently on tour opening for Crowded House.

Tuesday Night Music Club makes its mark at #11 at VIRTUALLYALTER-NATIVE Radio and at #26\* at Adult Rock Radio; it is #53 at Rock Radio. Twenty-six new buyers reported chart debuts, bringing total mentions to 65. Debuts include Virgin Megastore/Costa Mesa #27, Rhythms/Woodstock #15 and CD World/South Plainfield #25.

It's been five years too long since we last had an offering from jazz keyboardist extraordinaire Bob James. Fans of James were very *Restless* during the wait, and that is what he titled this new release, which showcases a "who's who" of the jazz world (including Harvey Mason and Nathan East of James' side project, Fourplay).

Thirty-seven MarketMakers reported in with sales debuts, including PennyLane/Kansas City #21, Dearborn Music/Dearborn #14 and Magic Platter/Birmingham #12.

Since Sam Phillips is a widely recognized name (and voice) among a hip section of consumers, we have to wonder why, up until now, she has not been a stellar smash? One listen to *Martinis & Bikinis* (produced by husband T Bone Burnett) will take care of that! Already, there has been lots of media attention for Sam and her almost indescribable style of writing and singing.

Martinis & Bikinis debuts at #91\* on the Hottest Sales Nationwide and at #8\* on the In-Store Play chart, while it moves 22-16\* on the Adult Rock Radio chart. First-week sales are reported by 70 buyers, including Tower/Chicago #4, Waterloo/Austin #11, Virgin Megastore/LA #15 and Record Exchange/Boise #14.

#### ROB WASSERMAN

CA/GRP \* 4021

Rob Wasserman has rapidly built a fan base at Adult Rock Radio for *Trios*, which climbs 40-38\*, with the help of more than a few luminary musical friends. This release finalizes what he began when he recorded the album *Solos* over 10 years ago, which was, of course, followed by *Duets*.

Pacific Beach, CA.

All of the songs included on *Trios* are new tracks written by one of the "trio" members, and consumers are being drawn in to score their own trio. The radio exposure and fan base interest are responsible for 75% of sales, including those reported by Schoolkids/Ann Arbor 41-29, All That Jazz/Steamboat 37-14 and Tower/Greenbrae 37-18.

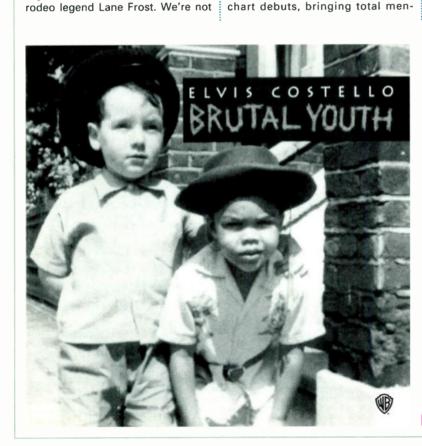

"Stay," the lead track off of *Always & Forever*, the debut release from Eternal, has been creating quite a lasting impression. It already has scored in the Top 10 at Hit Radio and as an Urban Radio cut. The video can be seen on MTV and VH-1.

Get set for a massive media blitz, as Eternal appears on MTV's "Spring Break," the "Arsenio Hall Show," local TV shows and the upcoming CEMA presentation at the NARM convention. *Always & Forever* debuts at #100\* on the Hottest Sales Nationwide, with initial sales reported by Valley Records/Sacramento #12, Independent Records/Colorado Springs #25 and Odyssey Records/Las Vegas #41.

#### FIRST TREMORS

You don't have to go looking for Carmen Sandiego, at least for now; Zoom Express (distributed by BMG) is set to release *Carmen Sandiego: Out Of This World* on March 29. Among the treats included on this album are XTC's first new track in two years, "Cherry In Your Tree," along with material from They Might Be Giants and Rockapella. Greg Lee, host of the insanely popular Carmen Sandiego TV game show, stars on this album. Don't let your kids hate you for life - lay your hands on Carmen Sandiego...while you can!

Line Galaxy 500 that Dean Wareham exploded from was quite possibly the strongest of the forces that collided to form *Bewitched*, the third release from Luna. Already, *Bewitched* has taken form in the minds of existing Luna fans, with a much more developed sound. Even long-term fans of Dean's are ready to phase in with the new audience on the soft, inviting melodies that Luna mixes with slightly melancholy prose on this release.

The first week "Tiger Lily" (*Bewitched*'s lead track) swung into radio stations, it immediately helped crown Luna #1 Most Added at VIRTUALLYALTERNATIVE Radio. Retailers have also been spellbound; they debuted *Bewitched* at #20\* on the In-Store Play chart.

First-week sales saw many Top 20 chart debuts, from New York to Minneapolis to LA. Retailers confirm that Luna's strong fan base has been more than enticed by *Bewitched*, and it's a spell that seems to

be spreading. Victor Van Vugt co-produced this release with Luna, and some very special guests dropped by, including the Velvet Underground's Sterling Morrison and Mercury Rev's Grasshopper. John Baumgartner also adds his magic organ style to a couple of tracks.

"California (All The Way)," "This Time Around" and "I Know You Tried" are just a few more of the incantations that Elektra will be offering to Alternative and Adult Rock Radio. Since Luna has such a powerful pull when they tour, customers will be delighted to learn that the group will once again embark on their own brand of road trip in the next month.

After all the chaos that's been projected at all of us in the past few months, take a chill-pill and cruise into Luna's orbit. You'll soon find that the attraction of *Bewitched* is more than you had imagined and the trance is not so easy to leave.

# NARA NARA 1994 Bigger N'Better Than Ever!

Well, well, well...has it already been a year since the last NARM Convention in Orlando? The answer is yes, as NARM (National Association of Recording Merchandisers) embarks on its 36th annual convention. This will be NARM's biggest convention to date, with well over 3,000 registrants attending (not counting the people who hang in the hotel lobby!).

Not only is this NARM's biggest gathering, but this year's convention will also contain the biggest showcase that The Album Network has put together to date. Thanks to all involved at CEMA, Capitol, Virgin and IRS for their hard work and support beyond the call of duty in helping make this showcase the best we've had, and the only NARM showcase now open up to the public. We wanted to take an early look at this year's convention so Mark Cope caught up with NARM's Executive VP Pam Horovitz for this exclusive interview. Check it out and see ya in San Francisco!

#### Mark Cope: What's developed since the last convention, and how will it affect this year's panels and goals?

**Pam Horovitz:** "I think the first thing they'll notice is that last year, we had a program guide that was a slim little book with a schedule of events and a list of who was there and who was on the exhibit floor. It was a simple affair we produced in-house. This year, we've got a 175-page, glossy, big book. Our goal was to make it a much more useful guide for people once they're there, to let them know what's happening, where, in a lot more detail, and also be able to walk home with something that helps them remember what they heard and saw.

"Last year, we made a real effort to encourage the record companies to showcase more live music at the convention, and we were wildly ecstatic with the number of live acts who were brought. This year, we're going to top last year's numbers...I think we've got over 50 acts coming this year, including product presentations. There are some very exciting surprises at the product presentations, so I'm not even going to tell you how many over that 50 will turn up as surprises, but it's a substantial number. We're going to be working the road crews to the bone for four days!"

#### Looking ahead for a moment, where will the NARM Convention be held next year?

"Next year we're at the Convention Center in San Diego. It's going to be a whole new kind of venue for us. For those who are kind of reading our move to a convention center and groaning...if they've never seen the San Diego Convention Center, it's gorgeous! It's on the water in the harbor. It's open air, and has an amphitheatre - so for a music event, it's going to be cool! It's connected right to the Marriott, so we can still fall back on hotel kinds of things when they make sense, but we can explore fancier exhibits and more music showcases."

#### What do you see as this year's burning topics? Last year was the used CD issue, plus a continuation of the longbox issue.

"I think there's going to be an awful lot of dialogue during the convention on the topic of source tagging EAS, and obviously, we're very disappointed that the recommendation we made at last year's convention still has yet to be implemented."

#### What were your specific recommendations regarding anti-theft source tagging?

"We made a recommendation last year for source tagging for security reasons, using acoustomagnetic EAS technology. You look at any retail magazines, and even our own surveys, and the shrink rate [declining actual size of product] for music products is one of the highest shrink rates out there in all of retail, and that was before the demise of the longbox! So you can imagine what the retail community is living through right now. With a shrink rate as high as we have to deal with, an intelligent approach is one that involves EAS, and an intelligent use of EAS is one that eliminates as much cost from it as you can. If you ask the manufacturing community to apply the tags, which allows purchasing on an industry-wide basis, but more importantly, the tags can be affixed in an automated fashion and placed on the product in such a way that a consumer can't rip them off.

"That was the concept, but we're only half the equation. So we put the recommendation out there, asking for the record companies to begin

**World Radio History** 

evaluating the technology. Because it's a magnetitechnology, and because there's still a significan portion of the business that is done on cassettes one of the issues they looked at very carefully wa the impact on magnetic products. We had too, bu had concluded that if you work carefully with th grade of tape involved, it should still be feasible.

"They came back with a pronouncement from RIAA that said, 'We don't want to do it - we'r uncomfortable with the impact on sound quality When they turned the test data over to us, in ou opinion, and in the opinion of every lab that evaluated those test results, the data didn support the conclusion they made. When w asked them to standardize their criteria in their test procedures, they refused to do it. Which leaves u in kind of a funny position...I mean, why wouldn you want us to understand this more clearly?

"Their tests were very inconsistent - both in th methodology and the conclusions that the released. I'll give you one example - one company called one or two dBs 'statistically insignificant Another company called half a dB 'severe degra dation.' In our view, if you can't hear the impact o the tape, who cares? Our view of using the terr 'degradation' is that it's an audio tape - it should b audible. If the decrease in dB quality is not audible then it's not material degradation. And when yo take a couple of dbs worth of impact, but th methodology isn't there to allow an analysis of hor that happened, and it's not consistent with th same kind of procedure done by another compar looking for the same thing, common sense tells yc somebody did something different than the other one. It's been a very frustrating dialogue."

#### Where do you see this going?

"We're actively committed to finding a way to g source tagging implemented. Right now, I suspe we'll go into the convention, keep our ears ope listen to the feedback from all the various segmen of the industry and correlate that information into report which will go back to the Loss Preventic Committee. But, in a period of time when the reta community has lost the longbox and is alread enduring major shrinkage, it's a frustrating situation to be in, being unable to plan for the future."

#### I've noticed that there seems to have been more retailers from other countrie in attendance at the convention last year. Has that been a conscious move on your part?

"We kind of stuck our toe in the water during th last couple of years with getting foreign retailers NARM, and the number this year is really going be bigger than ever. We have companies fro Canada, Mexico, Australia, Japan, the UK, Franc and other countries. It is rapidly becoming a venu that's about much more than just American retailer The labels have been bringing foreign retailers for long time, but the foreign retailer presence is strop enough this year that we're actually hosting cocktail party for these retail companies to let the know we're happy they're here and we intend develop more fully the programming at the convention so that it's not just a one-time novel trip. We'll listen to what they have to say, let the know we're happy that they're here and ask the what we could be doing to make it more usel for them.

"The globalization of music has been there for long time, followed quickly by the globalization of the labels and the distribution entities in nultinational companies. Now it's our turn. It's logical...you've got Tower on several ontinents, and HMV and Virgin going everywhere, Musicland's gone to England, and landleman's in Canada, and everybody is eyeballing Mexico. It's a window of opportunity."

#### Setting back to the good ol' USA, how does NARM help encourage a mall retailer to join and attend the convention, and what are the penefits and advantages for a retailer who has joined NARM?

For many years, I think there was kind of an image of NARM out there that we were really or the big companies only. While we don't make any bones about the fact that all of the major etail and wholesale companies are important members of NARM, for the past five years, re've been very aggressive in our outreach efforts to the independent retailer, in terms of tructuring our dues in such a way that they were affordable. It costs an independent retailer, rho's buying most of their product from a one stop, only \$50 to join. That's not exactly a major nancial strain. The big companies are paying \$2,500 a year. That's a significant swing, in erms of trying to make us affordable to the independent retailer.

"But there are other things we do that give the smaller company who's a member of NARM n edge. They get access to all of the industry-wide merchandising that we have wound round what's now become seven major televised award shows. So, if you want to rechandise around the Grammys, materials come through NARM. If you want to support the CMA Awards or MTV Awards, the Soul Train Awards, the Gospel Music Awards, my one of those campaigns, we'll supply the merchandising materials."

#### nd they can only get it through NARM?

Yes. If they want to have an informed source of information about hat's going on in their own business, we're it. You had to come NARM last year for the used CD study. We funded it. I don't ink any independent retailer would disagree with the atement that used CDs were an issue of primary oncern to the independent marketplace. There's an inual conference that's solely devoted to retail oncerns, there are loss prevention manuals and erchandising manuals and videos and a whole lot of fucational information and legislative support. We ad 29 different bills last year that we were fighting in arious states. And any retailer who found themelves in a state with legislation pending knew that ARM was the first one on the scene, letting them low that it was going on, letting them know that we ere organized and researching the various points 1 the bill and organizing efforts to deal with them. pmetimes that's proactive...we're out there right now dering a federally-sanctioned classical music month r next year."

#### ow do you see your role in the issue of rect to consumer marketing, since NARM is nd of that conduit between the labels and tail and distribution?

Ve see our role as being one of bringing both the appropriate ormation to the right players and the appropriate players together, that the various companies can make informed and intelligent cisions about what the impact of these various technologies will be on e consumer and therefore, ultimately, on their businesses. Since we've been

lowing the mergers and development in technology very closely for several years now, 've seen a lot of the consumer media hype, if you will, about the information superhighway the electronic superhighway translating to the death of retail, which is just ludicrous. First all, there are significant numbers of technical obstacles to overcome, not even getting into discussion about the economic realities of wiring the country for fiber optics. Those sues aside, if you assume that eventually the economics and the technology will be in ace, our stance, regarding the strengths and weaknesses of the various delivery systems, to conclude that there's always going to be a place for retail. Will retail change in response consumer interaction with these direct marketing efforts? Clearly. But retail has been anging and evolving in response to consumer needs forever."

#### ertainly, as an industry, we are becoming more and more of a business rery day.

's all about striking a happy balance between remembering that you're in an exciting enternment business and conveying that excitement to the consumer, while you watch the ttom line at the same time. We've got a consumer project, the results of which will be esented at the convention. We hired a company named Envirosell, which puts time-lapse meras in stores, and then records what the consumer is really doing, as opposed to what ey say they do or remember they do. What we're looking for is the impact of the various archandising variables that are in the store and how they impact the consumer. Do they k at monitors? How does store design affect the traffic pattern? How does packaging affect what they pick up and touch? How are posters working these days? There are a myriad of questions to be answered, and we think this is the real smart way of starting to get at some of those answers, so that stores can begin to plan adequately. That age old question of 'Is this P.O.P. material working?' can be answered."

#### Up until three or four years ago, there were discussion panels, and now, they seem to have been all but eliminated. Is there a reason for that?

"That is really just a question of the nature of the topic that the convention committee comes up with from year to year, and our view of how best to get the information out there. We didn't eliminate them all last year - we had one on kiddie music, and one with retailers talking about the transition to jewel box, and the various approaches being tried in different stores. We had a President's panel one year, and I think everybody loved it. But the next year, it was a different set of topics. This year, the committee wanted a futurist, so we got Watts Wacker, who I think is going to make some absolutely fascinating predictions about our business, including the kinds of music he thinks people are going to be listening to five or 10 years from now. While I'm sure most of the record label presidents have strong opinions of their own on exactly that topic, as do their A&R people, this is somebody from outside the industry coming in with a new perspective on the same things we deal with day in and day out. It's just a chance to throw a new animal into the pot."

> It seems like there's so much more music coming to NARM...I know our showcase is the biggest we've ever done, and it just seems to be getting bigger and bigger. One thing we've done differently this year is involve the public in our showcase.

> > "And I think that's a real logical approach. I had a conversation with Russ Bach about the Warfield Theatre event, and the interplay between pubic and private. I think what you guys are doing is exactly the logical approach...it's a VIP showcase affair for the convention attendees, but it can still be a VIP showcase affair for some radio station listeners, too."

> > > The convention has always been a personal learning experience, and I must say, I do think your entertainment has gotten better just merely by the fact that you've got Jackson Browne closing the convention!

"And thank you, Album Network, for Crowded House and the rest of this great showcase!"

#### We try to do our part, and it seems that on the whole, the convention has become a major entertainment event, much more so than in years past.

"We've got a nice balance of people who not only are business people, but who also have a wide variety of musical tastes. Just as it's difficult sometimes to go out and talk about the 'typical' record store anymore, I'm not sure that there's a 'typical' retail executive anymore. That's a good thing for people when they're talking about what's going to work and not work at a

NARM event these days, musically. The fact that we can put Lena Horne on the same stage with Jackson Browne, and at the same convention have Tony Bennett and Terence Blanchard and Crowded House...."

#### It has really opened up! When I first started going, it seemed like it was strictly the 'old guard,' and that's not a dig at anybody.

"And they didn't necessarily want to hear what was selling - they wanted to hear what they liked!"

And now that whole thing has opened up, you can take in just about any

kind of music you want and learn about any genre of music, any label,

any tape case company...whatever it is that has to do with retail. In

dealing with the various distribution companies here, I find this time a

real enjoyment. Thanks for the preview, Pam, we'll see you

at the convention.

Says Mike Muir, "Here's a band talking about how evil corporations are, and they've signed with one of the biggest corporations in the world. "Selling The Drama" Radioactive

Following the slow burn success of Live's "Operation Spirit" single and Mental Jewelry album, even the most jaded observer had to know that this band was on the verge of far greater things. Now, with the release of "Selling The Drama," from the upcoming Throwing Copper album, the promise Live exhibited on its debut album is fulfilled - and then some. Driven by hooks and passion that most bands only dream of, "Selling The Drama" is an exhilarating track that seizes listener attention immediately and never lets go. "Selling The Drama' should prove to be a watershed track for Live and will firmly establish the band as a force in the coming years. Few things in life are sure things, but "Selling The Drama" is one of them

#### **Primal Scream**

"Rocks"

After departing into the forum of dance ideas, Primal Scream return to more traditional rock n' roll with their latest single, "Rocks," from their impending release *Give Out But Don't Give Up.* The group's songwriting invokes memories of The Rolling Stones' complete adaptation of American blues idioms in their music. The Glasgow, Scotland, band's attempts to capture the essence of US rhythm and blues is quite convincing, right down to the thin, jangling guitar that shapes the song. "Rocks" serves as a testament to Primal Scream's musical eclecticism, demonstrating that they have not become lost in trendy dance beats, but rather, have retained the edgy rock n' roll that characterized them from their birth from The Jesus And Mary Chain in the late 80s.

#### Hole

"Miss World"

Following the success of their 1991 album Pretty On The Inside, Hole has followed up with "Miss World," a strong new single from the band's upcoming DGC debut, Live Through This, Frontwoman Courtney Love extinguishes any remaining sentiment that she is merely some Seattle grunger's wife, and proves that she is one of the most powerful vocalists in today's alternative music scene. The song careens between blistering guitar walls and quieted, moody strumming. Love's voice follows the instrumentation beautifully, grating, screaming and then whispering as she is cued by the song's changes. "Miss World' could be the final element that breaks Hole wide open and catapults them into the land of platinum.

#### ess in ong and voice ttifully, ng as she iss World" ks Hole wide of platinum.

#### **Cotton Mather**

Cotton Is King

As the music industry converges on Austin for South By Southwest, the time could not be better for the release of hometown heroes Cotton Mather's debut, *Cotton Is King.* The band has been a staple on the Austin scene for several years, gradually honing their sound, look (the band performs in suits) and lineup (the cello player is gone now), which brings us to the crisp songcraft and pop melodicism found on *Cotton Is King.* Songs like "Saving Myself" and "April's Fool" are stylish pop gems marked by clean melodies and the magnetic vocal presence of Robert Harrison. But Cotton Mather knows its way around more low key ballads as well. "New King Of Trash," with its off-kilter lyrics and good-natured look at love, is one of the album's stand-outs, and it shows that Cotton Mather is a multifaceted band and a welcome addition from the very productive Austin scene.

**Rvkodisc** 

If you haven't caught on to the sonic drug that is Morphine, you're either not listening or you're as unhip as all your friends say you are. Morphine are the most unlikely and coolest power trio you're likely to hear; they combine bass, drums and saxophone into a smoldering, potent sound that oozes sensual power. On "Thursday," Morphine steps up its attack with a more steadily upbeat and rocking sound. Singer/bassist Mark Sandman is front and center here, delivering a cool, self-assured performance in this track about weekly infidelity.

#### Backbeat

#### Soundtrack

#### Virgin

Though The Beatles are usually remembered for their consistently revolutionary work (first their appealing pop compositions and later their ground-breaking conceptual work of the post-Sgt. Pepper's period), few fans are actually aware of the band's early days on the Hamburg scene. In these days preceding discovery, The Beatles displayed an uncharacteristically reckless spirit that would be fully recognized

in music with the punk movement's emergence during the following decade.

Producer Don Was has emulated that spirit with his soundtrack for the film "Backbeat," an exploration of these early days for the Fab Four (who, at the time, featured Stu Sutcliffe on bass rather than the more famed Beatle). Was coordinates a dream band, including members from Sonic Youth, Nirvana, R.E.M., the Afghan Whigs and Soul Asylum. Particularly notable are the vocals of the Whigs' Greg Dulli, who handles most of the tracks, and Dave Pirner, who makes an effective Paul McCartney stand-in.

With this awesome lineup, Was fashions a soundtrack that produces more of The Beatles' early spirit than their actual sound. This enables the musicians to push themselves to their limits, collaborating with a brilliant punk edge. A project like this couldn't be anything but a winner, as a few forward (or is that retro?) thinking programmers are already proving.

#### Texas "Fade Away"

Mercury

Considering this band's Glasgow, Scotland, background, their title has always seemed rather inappropriate. However, one listen to "Fade Away" reveals the indulgence of American musical idioms that gives Texas's music its appeal and makes their name very appropriate. This single from their third Mercury release, Rick's Road, epitomizes the band's ability to adroitly use a musical vocabulary that is well-versed in blues and roots-oriented rock.

#### Surgery "D-Nice Atlantic/TAG

Surgery was formed in 1987 out of the boredom of collegiate life in Syracuse, New York. The band headed for the Big Apple where they immediately began taking the local underground by storm with their furious, crushing brand of chaotic punk.

The band has built a steady, loyal following on the indie rock scene through touring and their previous work on the Amphetamine Reptile label. Surgery display their no-holds barred approach on "D-Nice," the first single from their Atlantic debut, Shimmer. The power of their thrashing rhythm section is matched by bone-crunching guitar, creating a no-nonsense punk feel, yet still allowing experimental elements like rhythm changes, effects, and guitar soloing into the mix.

#### William Orbit "Water From A Vine Leaf" IRS

This cut from William Orbit's latest album Strange Cargo III explains why he has become renowned as one of the leaders of the techno-ambient genre since its inception in the late 80s. Managing to take time out from his ambitious production schedule, which has included work with The Cure, Depeche Mode and Peter Gabriel, Orbit has assembled an impressive collage of electronic grooves and ambient sounds. The

seductive beats, airy keyboards and soaring vocals of "Water From A Vine Leaf" are an enticing invitation to experience Orbit's musical vision.

#### October Project **October Project** Epic

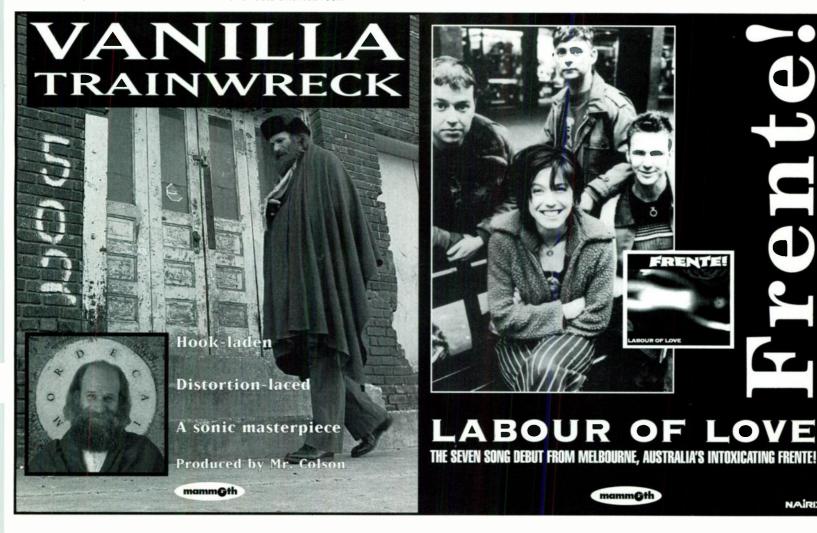

Discovered on the New York club circuit, October Project have garnered a steadily increasing following since the release of this debut album last fall. Much of the band's sound is founded upon the spellbinding voice of Mary Fahl, who guides us through seductive waves of piano and synthesizer. Much of the album's dreamy and ethereal sound, reminiscent of early Cocteau Twins, rests on the production of Glenn Rosenstein, who has worked with Michelle Shocked and Ziggy Marley.

The pace is constantly in the hands of synth player Marina Belica, though, whose collaborative efforts with lyricist Julie Flanders have led them from their college days at Yale University to the greatness that now faces October Project. The album's initial single, "Bury My Lovely," continues to find favor with alternative programmers who recognize that the legions of people buying this record are the same people that listen to their stations.

#### Vanilla Trainwreck Mordecai

North Carolina's Vanilla Trainwreck return with Mordecai, a new album that is sure to cement their growing reputation as one of the most exciting indie bands to emerge in recent years. With a sound that draws on many influences without mimicking any, Vanilla Trainwreck has tightened their sound into a streamlined whole that screams with immediacy and brilliant hooks. From the ominous melodicism of the first single, "Sister," to the more blistering feel of "Pink Smoke." Vanilla Trainwreck barrel through track after track like a band possessed with creating the ultimate mixture of pop hooks and near frenzied guitar. Mordecai is an album brimming with vitality and emotion, from a band that, despite scads of critical raves, has been largely underappreciated.

#### Fat Tuesday "High & Low" Earache/Columbia

Fat Tuesday is the kind of band you might have stumbled across by accident in your past. Out for an evening with your friends, you decide to stop by a local watering hole to check out a local band or two. Instead, you stumble across a road weary group from Minneapolis who light up the night with a show of incendiary rock n' roll that restores your faith in the power of music.

The band captures that same intensity on "High & Low," the first track from their second album, *Everybody's Got One*. Starting with a solitary piano and voice intro, "High & Low" quickly kicks in with a combination of power pop hooks and guitar textures that instantly locks the song into anintoxicating and highly memorable groove. So, to Madame JoJo's, London's premier meeting of incidental and deliberate perverts, temporary home of Smashing, London's premier of distinctive kitsch. This is the most influential club in London at the moment. Not because they've got the highest attendance or are at the cutting edge of new music, but because they smack with the attitude, charisma and vision of the best of British youth culture.

Last week they placed a punk night in a transvestite bar, and it was the finest move of the year gigwise. First off were Perfect, and that's the reason we're here. Later came the skinniest speed freaks in Brighton, These Animal Men, but we should start, stay, and finish with Perfect. For every winner there's a runner up, a third, and a genius freak forth. And Perfect typify the latter category. The drummer, Dave, was the man behind the Burundi beat of both Adam & The Ants and Bow Wow Wow, and he has re-emerged with a challenging cross of funk, sex, noise and squealing confrontation. With London's fashion and media scenes being gripped by the punk revival, it's good to find some professionals beating the shit out of the part-timers without even trying.

Elsewhere in your favorite noisy little scab abroad, this last week has seen Inspiral Carpets throw an absolutely boss party involving the basics of any bash: Good wine, bad attitudes and fresh moves.

Meanwhile, Morrissey, the only male torch singer the legion of the damned have ever worshipped, has been busy reinforcing his newfound machismo. Only a fortnight ago I informed you of how he has taken to playing soccer in parks with brutal young things; now the would-be thugee has posed on the front page of a new pop mag half naked, brandishing a knuckle duster, facing up to a couple of West Indian bruisers.

Do you remember Public Image? Well the original bass player, Jah Wobble, who has since worked with Sinead O'Connor, has finally got 'round to delivering the goods himself. The sampler for his forthcoming Island album is hotter than a beach bum's ass. Copyright that cliche. The tracks I've had the fortune to hear are "Becoming More Like God," which is Banshee-esque, and "The Sun Does Rise," which is a contemporary sunrise ballad for the wild and wandering. Either way, check the way Jah wobbles and you'll intercept the new Dead Can Dance.

Nick Cave, Johnny Cash and Manic Street Preachers are likely to headline our best festival, Glastonbury, this year, so book your tickets now if you fancy listening to menacing ballads in a field full of earthy spirits and young tearaways.

Despite the fact that they seem to plunder info-duct after info-duct for influences, Blur have surprised the socks off the English Channel editor with "Boys And Girls," an upbeat new wave pop hit which sounds like Wire fronted by Bowie and which has stormed into the charts ahead of Salt N' Pepa and En Vogue. Only time will tell whether Damion and co. are really intelligent or stupid - meanwhile, the clubs are playing the thing to death.

# RAWK

Seven years ago, I came up with an idea to help promote RIP magazine which, at that time, was celebrating its first anniversary. We held the soiree at the old Cathouse on Highland in Hollywood. Seven hundred people attended and it was a great success. The second year, we moved to the Country Club in Reseda. Fifteen hundred people came, and everyone had a great time. Then, in 1989, the RIP party took on new dimensions when **Guns N' Roses** levelled the Park Plaza Hotel, the last **GN'R** club show ever and arguably one of their most crushing performances. In 90, we moved to where we've been ever since, the Hollywood Palladium, and **Faith No More** headlined a bill that also included **Motorhead** and **Masters Of Reality. Ozzy** got

up and did "War Pigs" (it was historic) before the evening ended with an all-out psycho jam featuring members of Metallica, GN'R and Skid Row (also historic). In 91, Pearl Jam, Alice In Chains, Soundgarden and the last-ever performed Temple Of The Dog set resulted in a RIP party that, to this day, folks still talk about (did I forget to mention Spinal Tap with Joe Satriani on guitar?). In 92, Bon Jovi introduced Keep The Faith to the world at the RIP party. I didn't throw our annual bash in the fall of 93 because I couldn't put together the right bill. Then around Xmas, I started having conversations with Pantera. I put the party off until they were available. Then, one fateful night in New York, a bunch of us went out and got really stupid; Scott and Charlie from Anthrax (and S.O.D.), Vinnie, Rex and Darrell from Pantera and Tommy Lee from the Crue were all there. It was that eve the S.O.D. reunion was spawned and, for those of you who attended the 7th anniversary RIP party last Sunday night, you witnessed what true metal pure, heavy, uncompromising, unyielding, guitar-driven, ear-blistering METAL-really is. And this is what the RIP party is all about - it's a forum for baby bands to play in front of a ton of people, and for the big boys, it represents a night of pure, non-corporate, rock-fuckin-jammin.

I must commend every band on the awesome bill, that truly performed with mind-melting excellence - **Strip Mind**, **The Obsessed**, **Entombed**, **Prong**, **Pantera** and **S.O.D**. (Billy Milano the Pavarotti of pain still rules) - I was so sincerely impressed. And to **Stuttering John** - who performed with his band for the first time anywhere in front of the toughest crowd

FRIEND TO ALL

on the planet - hats fucking off, dude! You rocked and didn't get one bottle thrown at your head! A successful debut gig by any standard. Now, for me personally, these parties have historically been highly stressful events where I rarely enjoy the party itself. Not so this year. Sans walkie talkie for the first time, I had a blast, highlighted by sharing the mike with **Phil Anselmo** during **S.O.D.**'s "United Forces." (I hope **Vanessa Warwick** from MTV Europe got footage of this demonstration). I know I didn't get to say hi to half the guests that were there (1200 of the 4000 in the building were VIPs!), but some of ya I caught up with, including **Jesse James Dupree, King's X, Ugly Kid Joe, Slayer's Tom Araya, Tommy Lee, Dizzy Reed** from **GN'R** - and tons o' industry whackos (you know who you are).

I must acknowledge Earache's **Jim Welch** for his amazing stage dive during **S.O.D.** ("**Schnapp**, hold my glasses, I'm goin' in!") Of course, despite all the efforts of those involved, shit does happen. For some unknown, ridiculous reason, **KNAC** - which so skillfully helped promote (and sell out) this party - saw their remote phone line connection get screwed up. While I cannot take the blame for this mishap, I do take responsibility; I apologize to **Bryan Schock** and his crew for the fuck-up and I understand the asshole-widening ol' **Bry** gave me on the air. We deserved it.

As for White Zombie's pulling out of the show at the last minute, **Rob** Zombie came on stage with me and made reference to it, but was uncomfortable airing the dirty laundry in public (*I* aired it with the Metal Shop correspondent, can't wait for the calls). All I can say is, it's Steven Adler revisited and it sucks - it sucks for the band member in trouble, it sucks for one of rock's coolest acts which has finally found their stride and it sucks for the fans. 'Nuff said. In conclusion, I wish to thank the person without whom there wouldn't have been RIP party #1. To some of you, she's The Shit, to others, she's the Bitch From Hell (count yourselves in the minority) - to me, she's the queen. **Kristina**, you rock and I love you...**Ozzy** I can't believe you weren't there...Friend out....

**World Radio History** 

With Soundgarden's *Superunknown* exploding all over the universe, we felt it was the perfect time to

call Jim Guerinot at A&M's marketing department. We've featured Jim in this space previously, and we asked him who we should corner to get an insight on the tremendous Soundgarden set-up and the immediate success of the album. "Call Jill Glass," was his instant response. and our pleasure. As the VP of Marketing behind this campaign, Jill is an integral part of the equation, and on this day she was very gracious and informative.

"Everything about this record has outstripped our supply," she said as we chatted on the phone. "Soundgarden is coming off their first Platinum album and we thought any adjectives we used to describe the new album would sound like too much hype or would look premeditated, so we thought we'd let the fans discover the album for themselves. This strategy called for an 800 number we ran in fanzines and press releases detailing how fans could call and get a preview over the phone. We let the press hear it and set up `midnight madness' at retail outlets; we had all sorts of fan-based marketing ideas. The record stores were so into promoting the album that our six-month allotment of display materials

was all used up before the street date. We knew that the record was so good that just listening to it would be the best tool of all. The reaction was overwhelming, and this album should be Platinum inside two weeks."

Since RAWk has been such big fans of Paw, we wanted to work that into the conversation, and ask Jill how that campaign would continue. The concept is very innovative. "We are going back after the track 'Jessie' again," she said. "We're still convinced that's the hit on the album, and people just didn't know enough about Paw in the beginning. So we've decided to target 25 to 30 markets with a very aggressive promotional giveaway, in-store, rootsy style. We did it already in New York through Q104 and the response was sensational. At A&M we have a theory in marketing that you should keep working on a record until something happens, even if it means going back to a track you believe in. Look at the Gin Blossoms."

Look at A&M and the great team that has beefed up its RAWking department even more by adding Mike Rittberg, who's coming over from the indie trenches of Metal Blade. Thanks. Jill, for the remarkable viewpoint!

#### Rust "Ask The Judge" Atlantic/TAG

San Diego's latest find busts open on "Ask The Judge," the first track from their self-titled debut EP. The seductive intro guitar riff and the bashing power chords are a perfect set-up for the thought-provoking lyrics that are aimed at a very high source. If Rust can continue to come up with songs of this intensity, it will be a very important band.

#### Piss Factory I Melt Belativity

Lizzie Avondet grabs you by the balls, then seduces you with the deadly finesse of a black widow spider. She proves the RAWk genre isn't just for the boys anymore. "Piggy" is the emphasis track, but we also recommend "\$12 Dress" and "Salt." Renowned for their live shows, Piss Factory wants to make a big stink at radio. Don't be scared, now. Piss Factory...a rose should smell as sweet.

Autopsy Severed Survival Futurist/Peaceville

Finally resurfacing is Autopsy's *Severed Survival*, long an underground topic, authored by one of the leaders of the San Francisco death metal generation. You can almost hear the blood dripping as Autopsy's brutal frontal attack is unleashed. If you want to inspire nightmares and horrific ideas, try giving this classic, beastly favorite a whirl.

#### ONNIOVESI The Poor

The Tribut

Who Cares Somy 550 Music

A couple of years ago, an Australian music company sponsored a mini-festival at the Hollywood Palace to showcase some of their hottest rock talent. The majority of the industry came to see The Angels (aka Angel City). Many in that same audience went away as fans of The Poor, which shared the bill. The band was originally called The Poorboys and had to change its name because a band on Hollywood Records had already released an album under that name. The Poor is a romping, stomping, foot-thumping, sweat-soakin' good time. Yes, there is an AC/DC connection (Angus and Malcolm Young are relatives). That can get you attention or comparisons, but either way we feel strongly that there is plenty of steamy rock for all RAWk stations to consider, with or without famous relatives.

#### Twisted Roots Turn To Stone Cherrydisc

We've made mention of Twisted Roots previously in this space, and we feel strongly that there are a couple of tracks worthy of consideration: "Room To Breathe" is a brooding boomer, the title track, "Turn To Stone," has a wicked vibe, and "Dog" has some sterling moments. Dust this off or make a call and check Twisted Roots out.

#### Anathema Serenades

Futurist/Peaceville

Being from Liverpool is surely a cross to bear on this Earth. but it doesn't faze Anathema, which is determined to be doomy no matter what. Vocalist Darren's agonizing vocals sound like a neardeath experience in the making. However, if you dig deeper into the darkness, you will find moments of brightness and hope, even poppy English arrangements that are hidden among the gore and deathly demeanor that dominates the album. Anathema has one fertile imagination and an incredible range of musical styles to pull it all off.

Pan-fucking-tera! Kinda like Phil Anselmo sticking a big, angry fist down your throat and ripping your heart out to chew on while you watch. Not a pretty picture, not a pretty album but that's the way we like things around here. Far Beyond Driven is Pantera's third disc-odestruction on EastWest and by far their most brutally, heavy deed yet. This time the cowboys

from hell do it the only way there is, their way! Heeding of the entire record is mandatory but some of our favorites include: "Becoming," "5 Minutes Alone," "I'm Broken," "Slaughtered," "Shedding Skin," "Throes Of Rejection" and "Planet Caravan.

Vocalist Phil Anselmo is more pissed off than ever while Dimebag Darrell demonstrates how he won so many guitar contests that he eventually became the judge instead of a participant. Drummer Vinnie Paul and bassist Rex are still the tightest, most ruthless rhythm section around. Retailers, you know the routine since Pantera is already a Platinum-plus selling band. Don't disappoint these Lone Star state brutes. Submit or die. **Greg Sorrels**

#### **L**know many of you have questions concerning our switch to historical Plays Per Weel (PPWs) .s opposed to heavy/medium/light reporting. Allow me to clarity: First, we realize that most Adult Rock stations list album titles, and that's okay! If a station is playing multiple tracks from a single album, including soundtracks, tributes and compilations, we are asking that the total plays be combined for the album. Second, some stations'

music systems make actual plays difficult or impossible to calculate at this time. If that is the case, estimates (for each category) that are as precise as possible will be accepted at this time. Third, we want to remind everyone that we are looking for historical plays (previous seven days) - not projectec plays! This will often mean that new adds will not have been placed in rotation yet, and therefore, will not ge a PPW number the first week. Nevertheless, we still want the adds for the week and Top 5 requests. Finally, please understand that there will be some confusion during the transition period from "the old way" to PPWs. However, i is time we move into the 90s and create a more specific album ai-play chart! For many of the Adult Rock stations. this will be their first opportunity to reflect actual Plays Per Week, as BDS only monitors a limited amount of markets. Thanks, in advance, for your understanding and

cooperation!

#### ALISON MOYET

What started as a die-hard cult following for Alison Moyet many years ago has bloomed into full-blown mania! From her early days in the all-female band The Vandals to her punk band, the Vicars, to her blues and R&B band, the Screaming Abduls, to, finally, her stint with Yaz with Vince Clark, Moyet has nurtured a legion of loyal fans. These early years were also when she developed her incredible vocal range and gained the experience and insight she needed to decide what kind of music moved her the most. She went on to sign a solo deal with CBS and has subsequently sold over six million units worldwide with her first three releases, *Alf, Baindancing* and the Grammy nominated *Hoodoo*.

On *Essex*, Moyet continues her personal and musical journey with a variety of strong songs. She wrote or co-wrote 10 of the 11 tracks, which explore such varied subjects as the intricacies of love and lust, philosophical insights about life, accepting responsibility and being able to laugh at one's past mistakes. Her voice radiates confidence and enthusiasm, whether she is belting out "Ode To Boy" and "Another Living Day" or softly singing "Getting Into Something" and "Take Of Me." Other key tracks on *Essex* are the Beatlesque "Falling," the soothing "Satellite" and the Jules Shear-penned "Whispering Your Name."

From the depths of despair to the celestial joys of life, Alison Moyet's unique and expressive music takes you on an emotional roller coaster that you'll want to ride again and again.

#### Texas Ricks Road

Eddie Campbell, Richard Hynd, Johnny McElhone, Ally McElaine and Sharleen Spiteri may be from Glasgow, but their roots are firmly planted in America! Formed in 1986,

Texas' first two releases, *Southside* and *Mother's Heaven*, established them here and abroad. Now Texas is back with their most musically diverse album yet, *Ricks Road*. Recorded at the renowned Bearsville Studios in Woodstock, *Ricks Road* (the name of the dirt road that leads to the studios!) was produced by Paul Fox (10,000 Maniacs, Wallflowers).

From Sharleen's passionate vocal style to Ally's bluesy guitar licks to Eddie's rich organ and piano accents, the influences of R&B, blues, country and roots rock all combine to create a very soulful sound that, as Texas continues to explore American musical idioms, is familiar yet distinct. "So Called Friend" is the kind of song that has you singing the hook even before the song is over. "Fade Away" (featured on the debut Adult Rock TuneUp) has a powerful, yet controlled, energy level. The touching "Listen To Me" showcases Sharleen's vocal range, and "Fearing These Days" and "Winters End" display the more introspective side of the band. Finally, don't miss their great version of Al Green's "Tired Of Being Alone."

This time around, Texas has given us a much broader album, both in lyrical content and musical exploration. Their organic sound should fit perfectly on any Adult Rock station.

#### Milla The Divine Comedy

Milla is much more than just a pretty face! This 19 year old has written all of the material for her dedut release, *The Divine Comedy*, except for "In The Glade," which is a Russian folk song she has chosen to record to commemorate her heritage. She has a distinct vocal style that makes her music interesting and intimate.

Produced and arranged by Rupert Hine (Kate Bush, The Fixx) and Richard Feldman (Shakespear's Sister, T'Pau), *The Divine Comedy* is a compelling collection of hauntingly beautiful songs that tells us about relationships and people in Milla's life. The use of

₩orld Radio Histo

traditional instruments, along with a varied use of voice, generates a dream vision with each song that is complete and unto itself. From "The Alien Song" to "Gentleman Who Fell" (also featured on the debut Adult Rock TuneUp) to "Rub Lane" and "Clock," our interest and imagination are tickled, tweaked and challenged.

Milla is a new and unique musical force to be reckoned with. She has the "something" that makes an artist stand out from the rest.

#### Rory Block Angel Of Mercy

As stated in her liner notes: "Because of her constant touring, incredible succes in Europe, increasing number of television appearances and two W.C. Hand nominations, many are already familiar with Rory Block and her impressiv reputation." Having grown up in New York City, and because of her musica family, Block was exposed to music at an early age. She spent hours in front c her stereo playing guitar along with old records by bluesmen like Tomm Johnson, Son House and Robert Johnson. She met and learned from such fo luminaries as John Sebastian, Stefan Grossman and even Bob Dylan, and fror blues legends like Reverend Gary Davis, Mississippi John Hurt and one of he idols, Son House himself!

Angel Of Mercy is Block's 10th album (produced by Ron Bach), and on it, sh further explores her folk and blues heritage. Her impressive guitar playing and fu soulful voice will impress you as she performs six of her own compositions and tw by Tommy Johnson. She also does an adaptation of an oration by Sojourner Trutl "A Father And Two Sons," which she sings as a duet with her son Jordan. Mai Knopfler plays guitar on "Faithless World," John Sebastian plays harmonica on "I Be Gone" and Brendan Crocker is featured on slide guitar on "Big Bad Agent Man Other standout tracks on Angel Of Mercy are the title track (featured on Adult Roc TuneUp #1), "You Deserve The Best" and "Love Without The Heart."

Having taken several years off from her career to raise a family, Rory has bee touring and recording continuously since the late 70s. Her experience both in lin and in performing comes through loud and clear on *Angel Of Mercy*.

#### Hector Zazou Sahara Blue Trister

Once again, the astute programmers of National Public Radio have chosen to crusade an album that is on the cutting edge. This concept project is based on the works of France's best known poet, Arthur Rimbaud, and was produced an arranged by Hector Zazou. It features a multitude of well-known musician including John Cale, Bill Laswell and Lisa Gerard and Brendan Perry (both froi Dead Can Dance), as well as several musicians and vocalists from Franc Morocco, Ethiopia, Spain and Japan. Sahara Blue explores almost as mar musical realms. The music is inventive, progressive and moving.

The tracks that seem most appropriate for Adult Rock airplay are "I'll Strang You," "Lines," "Amdyaz" and "Black Stream."

#### "don't trust anyone who isn't angry..." —John Trudell

adult rock

johnny damas and me the followup to John Trudell's AKA GRAFITTI MAN, one of the most acclaimed releases of 1992:

"...provides a powerful and transformative listening experience -you can hear the pain and joy in his voice. AKA GRAFITTI MAN will shake you up and make you dance; it challenges your commitment to justice, and above all else, it rocks." \*\*\*\* -ROLLING STONE

Trudell, who appeared the 1993 WOMAD tour, combines passionate spoken-word vocals with a gutsy blues-rock base and traditional Native American music for a powerful listening experience. With johnny damas and me, he has created a brave and eloquent new atbum.

#### Phish Hoist Elektra

Phish is a prime example of how touring is an integral part of developing and breaking a band. In 1993 alone, they performed over 100 shows (with total ticket sales of 311,807) and, to date, they've sold over half a million copies of their previous releases! With this incredible base, they and Elektra are ready to attack radio with Phish's fifth release, *Hoist*.

Phish hold nothing sacred, to them anything is wide-open for humorous examination (including themselves). Much of their tongue in cheek attitude is best understood via their live performances, but this irreverent attitude still comes through loud and clear on the record. Don't let Phish's commentary on today's society fool you, though, because there is some great playing going on. Trey Anastasio (guitar and vocals), Mike Gordon (bass and vocals), Page McConnell (keyboards and vocals) and Jonathan Fishman (drums and vocals) write all the material together and obviously have a lot fun doing it.

Key tracks, in addition to the advanced CD-Pro, "Down With Disease," include "Riker's Mailbox," "Sample In A Jar" and "Wolfman's Brother."

#### Susan Ashton Susan Ashton Sparrow

Susan Ashton has enjoyed tremendous success at the Christian popular music level, selling over 200,000 units each on her first two releases. She has also been nominated for a Grammy. With her third release, simply entitled *Susan Ashton*, she is making a bid for mainstream appeal. If you can get past the Christian connection, you will find an uplifting and personal collection of songs.

Susan Ashton was produced by Wayne Kirkpatrick (who has written songs for Amy Grant, Kim Hill and Michael W. Smith). Several tracks have airplay potential, including "Summer Solstice," "Agree To Disagree" and "Heart Like A Rock." Great acoustic versions of these songs are also featured on a sampler that was shipped along with the album, which also contains an edit of "Summer Solstice."

The Adult Rock format is known to be open-minded about music, caring more about its strength and message than its inspiration. If you give Ashton a shot on the air, I am confident you will be happy with the results.

#### Frente Labour Of Love Mammoth

This Australian quartet makes its American debut with the EP, *Labour Of Love*. Highly acclaimed down under, they have a devout following. They were voted Best New Band in Rolling Stone Australia's Reader's Poll in 1993. Formed in 1991 by guitarist Simon Austin and vocalist Angie Hart, Frente rose quickly through the underground ranks, and ended up with the #1 album on the Australian independent charts last year. This began to bring some international attention to the group, who have now been released in the US on the Mammoth label.

There are five original songs on the album, including "Labour Of Love," "Testimony" and "Paper, Bullets, Walls." They also cover New Order's "Bizarre Love Triangle" and a breathtaking composition by New Zealand singer/songwriter Chris Knox entitled "Not Given Lightly."

Frente has a sound that is a blend of naivete and experience, of lightheartedness and serious concern. They are different, refreshing and unpretentious.

#### **Carrie Newcomer**

An Angel At My Shoulder Philo

The word that comes to mind when listening to Carrie Newcomer's new release, *An Angel At My Shoulder*, is "wholesome." Her music is honest, heartfelt and direct as her powerful voice stands out in front of the reserved arrangements. Each song simply reaches out and seems to put its arms around vou.

Several songs have a friendly charm to them, including "It Goes Both Ways," "Streamline" and "Who Have You Been (And Who Are You Now)." There are also a couple of tracks that have bite: "In The City" and "Playing With Matches." Somehow, when you listen to Carrie Newcomer, you have the comforting feeling that everything is going to be all right!

PRODUCED BY PAUL FOX ADDITIONAL PRODUCTION AND REMINE INFORMED BY GR IMPOGEMENT **Brock** airplay

I there is one artist who clearly defines what the Adult Rock attitude is, it is Bonnie Raitt. Her incredible success with Nick Of Time and Luck Of The Draw vindicated her unwavering commitment to championing unknown songwriters, blues and R&B music, and her strong conviction to play music the way she has always liked to play it, regardless of the latest fad.

After almost three years of anticipation, we have now been rewarded with Longing In Their Hearts, her 12th studio release since she began her recording career 23 years ago! This project was made with many of the same friends and colleagues who had been involved with her on the last two multi-Platinum releases. Reunited with Raitt are Don Was as co-producer, engineer Ed Cherney, bassist James Huchison and drummer Ricky Fataar. There is a long list of musical guests, including Charlie Musselwhite, Richard Thompson (who also wrote a song for the album), Paul Brady, Benmont Tench and Paulinho da Costa. David Crosby and Levon Helm contribute backup vocals and the Memphis Horns join in to add spice on a few tracks.

The advance track, "Love Sneakin' Up On You," is just a small taste of the great depth of material Bonnie has to offer on *Langing In Their Hearts*. She wrote five of the songs herself, including the title track (with lyrics by her husband, actor Michael O'Keefe), "Cool, Clear Water" (my personal favorite), "Feeling Of Falling" and "Circle Dance" Other contributors include Tom Snew and Jimmy Scott ("Love Sneakin' Up On You"), Paul Brady ("Steal Your Heart Away"), Terry Britten and Lea Maalfrid ("Storm Warning") and the beforementioned Richard Thompson, who wrote "Dimming Of The Day."

The core of your Admit Rock audience (myself included) has tremendous respect and admiration for Bonnie Raitt. She has boundless spirit and talent, and on *Longing* In Their Hearts, she gives us all she's got.

#### 2ND VIEWING

#### JOHN TRUDELL Johnny Damas And Me

Many of you may have first been introduced to John Trudell via the Born To Choose compilation. On Johnny Damas And Me, we have a chance to understand

him on a much deeper level. Trudell is well known amongst Los Angeles and New York literary and musical circles as a poet. He is regarded with respect and honor in these circles as a man who has experienced life and has some wisdom to offer. Trudell's subject matter ranges from alienated city life to the tenderness and pain of love to the difficulty the native American cultures are having keeping their traditions alive.

Mark Shark, Quiltman and Ricky Eckstein have composed most of the musical accompaniment. Several guest musicians participated, including Jackson Browne, Gary Ray, Scott Thurston, Wally Ingram and Billy Watts. Key tracks that I think could work on the air are: "Rant And Roll," "See The Woman," "Shadow Over Sisterland" and the Jackson Browne duet, "That Love."

Pink Floyd mania begins! "Keep Talking" kicks off what will be the most important album release of the year. Get ready to ring The Division Bell! (Wasn't it nice that we coordinated the album release with the spring Arbitron?!) Thanks for giving Alice In Chains their first #1 song ever at BDS! We've got a combined total of over 2,800 spins, which is just about as high as it gets! In the next month or so, we'll launch the second track from Jar Of Flies, which is "I Stay Away." Cry Of Love just locked up a month on the road with ZZ Top and should be hitting most of the country between now and summertime. "Too Cold In The Winter" is as hot as a pistol, with close to 900 spins. Up next to enhance your music list: Died Pretty's "Harness Up" and Stabbing Westward's "Nothing" (already getting pummeled at Q104 in New York).

Hopefully, if you're still a music lover, you've treated yourself to the Sass Jordan album in its entirety. This record rocks! "Pissin' Down" is my favorite, along with "Ugly," "Damaged," "Sun's Gonna Rise" and "Save." What are yours? Meahwhile, "High Road Easy" continues to be the first of many big tracks off this album. Look for Sass to be on the road soon. Make sure you see her live show. She's funkier than two week old train smoke, more soulful than a sardine syrup sandwich, and she'll rock you like there's no tomorrow. We've been working the Dig project for 14 weeks and it's still going strong. Records don't stick around this long unless they're real. Don't fight it...feel it! Don't fight it...Dig it! Don't fight it..."Believe" in it! Don't fight it...play it! There's tremendous excitement in the house, as we prepare for Live's second album. The hardest part is waiting. Only a few more weeks and we're "officially" underway, "Selling The Drama" is the first track, Throwing Copper is the album. Yes, there will be a new Boston record. As of this writing, look for the first track on your desk toward the end of April and the album the first part of May.

The Scorps rule! Face The Heat may not have sold well, but the Scorps are still hot. They put on a great show and are always a pleasure to work with; thanks to them and Don Maggi for a great pre-show party and a killer concert. King's X did an excellent opening set, but, no, Doug, you weren't in San Antonio. Oops! Tee hee. The new Crue CD is very cool, Back in The Scream days, John Corabi would have been the first to tell you he has a Steven Tyler fixation (watch him move live), and the influence comes across very well on tracks like "Misunderstood" and "Love Shine." | like "Ti Desth Do Us Part," "Smoke The Sky" and "Welcome To The Numb," too. Is that editable? Look for the Stone Temple Pilots' "Big Empty" this week on yer Crow soundtrack. It's another amazing song from them. Who killed Sarsippius, and why?

We at Clear View Records are finding it hard to contain our excitement about Matter Of Time, the debut album from SYN. Thankfully, many programmers are having the same problem. Here is a recent example: "This small label release should not be overlooked. Matter Of Time has all the qualities of any major label release. Matter Of Time is loaded with tunes sure to get your attention on the first listen. Check out 'Love On My Side,' 'Last Night' and 'Bleed.'" - Dennis Constantine/KBCO. If you share our excitement, and want to let us know directly, please contact me at (213) 624-4258. If you would rather not take our word on this brilliant debut, give Jim Nelson at The Album Network a call.

If you browse these back pages often enough, you know I'm an unabashed fan of our local heroes, Phish! From their bar band days to their current major label cult gods

status, it's been a rush to watch these guys win over more and more fans and become better and more accomplished musicians in the process. Colonel Bruce Hampton And The Aquarium Rescue Unit were in town last Friday, and Jon, Mike, Page and Trey all were up jammin' with them. I got in in time to catch the encores after work and was just blown away! Just amazing! What I also admire about Phish is their level-headed acceptance of their success. They've remained down to earth and haven't forgotten the people and places who have helped along the way. The first show on their upcoming tour is a benefit for the Flynn Theatre here in Burlington, a beautiful old house where Phish used to play. It only holds 1,400 or so, and these guys could easily fill a larger venue, but they want to give back to the community. We're all getting pumped for the show, especially in light of the strength of their new album, Hoist.

You've probably gotten the first track, "Down With Disease." As soon as we got the Pro-CD we got it on the air, and it

quickly began generating massive phones! I might be biased in Phish's favor, but the phones support my contention that "Down With Disease" is gonna be big. We haven't seen rabid phones like this in a long time! We add the song in heavy this week, although with the amount of spins it got out of the new release jock choice category last week, it's already hitting with a heavy impact. Hoist is undoubtedly the band's most radio-friendly release to date, with a depth which is going to surprise those who have been inclined to dismiss them in the past as just one of those hippie bands. I don't want to rave subjectively; with the reaction "Down With Disease" has gotten, I guess I don't have to. Granted, Burlington is their hometown, but this response goes beyond that. Phish is rockin' and people want to hear them bad!

So, do you want to hurt yourself on that cutting edge? Do you want to be the hippest kid on the block? You too can achieve a level of coolness if you stick with a new artist for not just one, but two singles! Sounds too good to be true? Well, people, you can be a part of breaking an artist like...Eleven! On the metal side, tantalize your listeners

with "Let Down," which, after many weeks on the charts, will keep Eleven there! Looking for something with punch that isn't too aggressive for regular format? Try Eleven's rock anthem, "Reach Out." The band is on tour with Candlebox and buzzing in every market they enter! Major tour announcements are on the horizon, so get on the hip tip with this one now!

#### **Diana Smart KWBR**

I'm so excited to be an Album Network reporter! Thanks to all the record folks who supported us in the past! I look forward to service from the rest. Although I wasn't crazy about their last record, I can't get the Phish track, "Down With Disease," out of my CD player! It's an instant for me. I also love the track "Raintown" from My Little Funhouse. If you haven't listened to the entire Counting Crows CD, you're missing out big time! collective soul's "shine" is a great 25-54 record! It's a great generator for the phone lines! See ya!

#### Jon Nardachone

Atlantic Records

In a world which is full of Panteras, Soundgardens, King's Xs and Sepulturas, we must never forget our goal as musical leaders in our respective communities. I know the Pantera record is so brutal that it cuts your hands whenever you touch it and I know the Soundgarden record shines with the brilliance of GOD, etc., etc., etc., the fact is, there is fresh material being released hourly, and it is our deal to weed out the good fresh from the bad fresh, if you know what I mean. In my opinion, Rust is a band worth checking out for the following reasons: They combine raw punk influences with modern hard rock feeling! Rust is leading a new charge of attitude out of San Diego, and it's got Hard Rock Radio written all over it! "Ask The Judge" because "God Is War" ... it's just a good tune!

#### Lea Pisacane

#### Atlantic Records

I don't really have time for this now, so uncontrollably am I jamming, but I GOTTA further spin the collective soul yarn, just for a minute, okay? Even under pain of torture in retribution for being a prosaic, pedestrian, run-of-the-mill, mundane hype android. WCMF adds "shine" two weeks ago, phones within four days. WUFX - stellar early callout research. KATP - #1 phones. NUMBER FUCKING ONE! Look at these slamming-music stations that are on this record (for those of you who think a song needs to get angry to be on a rock station): WXTB, WBZX, KORC, WUFX, WKLL, WARQ, KRRK and more, more, more. Nine stations pulling Top 5 phones, but only five heavies. Wattazat mean? It means REQUESTS offa medium and light airplay. Wattazat mean? It means IT'S A HIT! Plus, the song sounds like a Merchant/lvory sex scene (which you, of course, know, if you're a dedicated follower of Lea Crusades) and everybody doesn't like something, but nobody doesn't like sex. PS: I kissed a boy in a dark, smoky, noisy club last night. It was fun.

#### **Cathy Faulkner** KISW

I am very impressed that WXRT did a special on Seattle...beyond JUST the grunge scene. I was flattered to be called by them to provide information and input as a native and local music fan. Thanks for the opportunity. Oh, if and when Pearl Jam hits your neck of the

woods...please do me a favor (if you go backstage or talk to the crew), ask for Ken Deranieau (Pearl Jam's production manager) and tell him "Katie says jo." Thanks. Jim McKeon is a very safe driver and I failed to thank him for the ride to the Eleven show, so, Jim, thank you for the ride to the show.

I'd like to thank Rush and Atlantic Records for being there during the band's two packed shows at the Centrum. Alex Lifeson and Geddy Lee were very accommodating to our contest winners, and we certainly appreciate it. This tour demonstrates that the Canadian trio has made a full comeback in appeal since 1987, when, on the Hold Your Fire tour, Rush barely sold two-thirds of the seats for the Centrum appearance. It's more than just a recovering economy and a return to the popularity of 70s-styled sounds -Rush is simply making better albums. Counterparts and Roll The Bones have sparked reaction with stronger songs, incisive rhythms and a guitar bite that was underplayed on their late 80s albums. "Cold Fire" did well. "Nobody's Hero" is following suit. The Bono/Gavin Friday collaborations on the soundtrack to "In The Name Of The Father" are brilliant. Not only does the pair turn in a very airplay-

able title track, but their songwriting expertise also provides a strong vehicle for a stunning Sinead O'Connor performance on "You Made Me The Thief Of Your Heart." Sinead's been slagged off so much, it's easy to forget how amazing a singer she can be. Oedipus is having great success with this track on his "Nocturnal Emissions" new music show. Meanwhile, the Bono/Gavin Friday title track is making inroads on the air seven days a week.

KRXO/Sacramento I could never say thanks enough to Shelly Mori and Laura Curtin from Epic for their fine hospitality in the Windy City this past weekend. A lot of friends had told me how great Pearl Jam was live ... words can't prepare you for this experience. I apologize if I have hyped this show too much; it's just that I was that blown away. Don't miss 'em. It doesn't take a genius or even a set of good ears to tell you that Superunknown from Soundgarden is going to be one of this year's biggest albums. "Black Hole Sun" has to be huge. Also, if you ever have the chance to see Buffalo Tom, go for it. I've never seen them, but I know it's a

tough ticket. They've been scheduled to play Peoria twice,

but had to cancel less than a week away...both times. I

guess more important things came down the path. See ya!

Greetings from the road with The Freddy Jones Band. Our tour with Big Head Todd has put the FJB in front of exactly the audiences that should be seeing the show, and the band has let no one down. The dates have all been hands-down sellouts. Thanks to Giant and Todd for letting us tag along. If you rock, FJB's "Take The Time" is for you. If you're an Adult Rocker, check out "One World." Wherever you position yourself, there's a Freddy Jones track for you. We are set to ship lan Moore's "Harlem" on April 5. This is a powerful package with an AOR-tested artist and a dynamite, Ice Cube produced

video. We're prepared to break lan Moore wide open with your help and continued support. We are also ready to bring you the Vigilantes Of Love's "Welcome To Struggleville," so keep an eye out. With 311, the Dixie Dregs and Widespread Panic all in the studio, this is going to be a great year for Capricorn Records. Peace.

Sugartooth should get a shot, Sass Jordan has Top 5 phones and the Brother Cane show on 4/2 at Five Points Music Hall will be the best show of the year...see ya.

Pass the word: Melissa Etheridge is flatout one of the top performers in the business. She kept a capacity crowd at the Landmark Theatre on their feet for two and a half hours with an electrifying show with-

out any overblown gimmicks. One of the secrets to her success is that she keeps it simple; a very hot three-piece band behind her and minimal but effective lighting was all she needed to drive home a well-paced set that drove the crowd over the edge. And, before anyone trys to discount her female-dominated audience, bothh of the first two tracks we've played from her latest album have been Top 5 call-out for us with men. Not only is she terrific on stage, but she was very receptive backstage and generous with her time and attention towards the small crowd of station winners we brought back. To top it all off, following the show, Melissa and her band stopped by the Dinosaur BBQ for some late eats and ended up on a stage the size of a walk-in closet to rock the crowd with a great version of "Pink Cadillac." Multiple thanks to Paddy Rascona; the folks at the Dinosaur want to spring for your first tattoo. Coming up April 22, it's the second annual Syracuse area music awards ("Sammy's") at the Landmark Theatre. Give me a call if you want more information, or if you want to make a road trip for a great night of music and a pretty cool party - last year it was a sold-out house.

This record is working in research, requests are building nicely and the stations playing it are really rotating Brother Cane. There aren't many lights to speak of. Play the record. Smashing Pumpkins' "Disarm" is a phenomenon. Alternative stations that were done with this record ages ago are bringing it back. Top 40 Radio could be beating you to the punch. By popular demand, we here at WRZX have installed a brand spankin' new add line! We really had cut it out of the budget, but Tim Hurst of Reprise thought it better if we wouldn't, so we didn't. So, without further adieu, here is the number: (317) 475-7405. Adds will be done Tuesday at 3pm. Generally, give or take an hour or two. A quick thank you to Don Davis at WIOT for driving through Indy and checking out our station. Hopefully, you'll be able to visit, or should I say listen, again real, real soon! Throw this on the air ONCE and your audience will make you a believer. It reacts, just ask Stephen Page in San Jose, Lenny Bloch in New Jersey, Dale Miller in Amarillo, Tim Maranville in Phoenix, Bob Fonda in Tallahassee, Ken Carson in Greenville and all of our friends at Adult Rock Radio, where it's been a Top 10 track and #1 most requested, ahead of Counting Crows and Elvis Costello. Finally, alternative/modern rock has a home in Wichita, and the response has been overwhelming! Spending several years trying to convince management that the market could support some hip radio wasn't easy, but now we have The New 96, a showcase of the top new rock available! The support has been incredible, and currently I'm fighting tooth and nail to get more airtime for the show. I would like to personally thank a few of those who understood the importance of The New 96 when it started: Howie Klein/Sire-Reprise, Caroline, Dee Ann Metzger/Virgin, Relativity, Joe Schuld/Columbia, Don Pratt/Geffen, Mary Tripodi/Atlantic, Chaos, Epic/550, Laura Shostack/Zoo and Debbie Hathaway/Capitol. The more cool new shit we get, the longer the show runs! Call me, fax me, cover me with any news, information or music that will help The New 96! Thanks!

The Wednesday night showcase was a blast and it was great to help out a band that we feel has what it takes to gain national attention. Keep an eve out for People Who Must, playing in your city soon! Saturday night, the Mr. Big/Open Skyz concert was a sell-out! Thanks again to Myra Simpson for all the support! And then, Sunday, we wrapped up the weekend with the Gregg Allman Band down at the 2,500-seat Riverwalk Amphitheater! What a way to start off the outdoor concert season in Augusta!

Week #6 in the continuing saga of Tori Amos. Guess what? KLOS in Los Angeles becomes the seventh major market to add "God." This week, we also saw the additions of KSEZ, KTAL, WJRR and WXZL to the cause. Sales? Another 36,011 up from last week. Get the picture? It's growing. And growing is exactly what collective soul has done the last few weeks. The album will be in stores March 22. The band is playing in Florida this week for WRXK and WDRK, and yours truly will be in attendance. With 80-plus stations in on the record, requests are developing at a feverish level. It's all an effort to give this night jock a more sane Tuesday! Judging from his new CD cover, Sammy Hagar's been hitting the heavy bag, while David Lee's been hitting the dime bag! Both "High Hopes" and "She's My Machine" are medium this week. With such an excellent new CD to their credit, the boys in Soundgarden don't need me to sing their praises, but I gotta say Superunknown is superdeep!

Firstly, I want to thank Album Network and CEMA for the opportunity to attend NARM. I am very proud to be representing Relics Records and other Midwest indie stores. I couldn't have made it without you guys! Secondly, - that new NIN is making everything but a downward spiral, as it climbed to a ball-busting #2 debut! Soundgarden's Superunknown made an impressive #1 debut, just like I knew it would! Thirdly (I'm almost done), thanks to Eliana for the tour and all the gifts. And thanks to Sally Spiegel and everyone at Sony for a damn good evening of Pearl Jam in Chicago. A big thumbs up to Eddie's version of "I Won't Back Down," and how about The Frogs? Lastly, second-week action on Sass, still selling strong...Beck mellowing out and my friends from Chicago, Sphinx, are still on top of things ... what's that? Haven't heard Sphinx? Call me, we've got to talk! Oh yes, I still love the Gin Blossoms from the bottom of my heart (hear that, boys?). See ya at NARM (I'll be the one hanging around all the lesbians)!

This week, I'd like to introduce our new host of the fastest show on earth, "The Thrash Bash," which runs every Sunday night at 10pm. His name is Eric Braverman, we call him E.B. Some of you may know him already as the other Flotsam. He is a co-writer of many Flotsam And Jetsam songs. With Eric's connections in the metal community, we are sure he will bring "The Thrash Bash" to the next level. Rancid Randy is still with us, and will still be heard on the air. On the music front now: Pantera is "not" getting more commercial...they are in your face with their most brutal CD to date. Far Beyond Driven pushes their limits to even further unexplored territory. Check out "Strength Beyond Strength," "Five Minutes Alone," "I'm Broken" and "Throes Of Rejection." Can you say "angry"? Pantera can!

I think David Letterman summed it up best last night when he said, "With a name like the Crash Test Dummies, you'd think they'd be scary, but they're not. I like'm!" And what's not to like?! "MMM MMM MMM MMM" has been one of the most talked about tracks of 1994 at both Alternative and Adult Rock Radio, and now it's making leaps and bounds at AOR. Over 70 stations are in so far. With stations like KLOS, WIYY, WNEW and WMMR coming in, you have to take notice of this track. Cue up "MMM MMM..." and put it on the air, and you'll see what I mean! Already, WTPA, WCCC, WXLP, KXRX and WIYY are pulling big phones. The sucker reacts. The Dummies' album, God Shuffled His Feet, is already Gold, and on its way to Platinum! MTV has had the track in Buzz Bin for seven weeks, so there's no escaping it. Look for the band's forthcoming tour dates as they hit the road with Elvis Costello And The Attractions. Sarah McLachlan is making some big moves at Alternative Radio with "Possession." The track got added to MTV this week, so you'll be able to see Sarah in all her splendor. Sarah's current tour will be taking her through Washington, DC, Hartford and New York City in the next couple of weeks, so take the opportunity and see her live. The next Stick track is "Grind." Stick is currently on tour with Type O Negative. Muzza Chunka rocked Phoenix last Friday. Just ask the folks at KZRX, where they've been spinning "Float" for the last four months. This is an LA band that is to be reckoned with!

I reek of newness, okay?! While I am currently unable to tell you what color socks Tommy Victor is wearing today, I am more than able to ramble at length about how awesome "Cleansing" is. This Prong record is the shit! God bless you for continuing to support them in a #1 fashion in your hearts and hopefully on your playlists, to boot. Please keep in mind that the stars of tomorrow must be your emphasis today (Prong!). By now, your hands have touched upon our latest release by The Poor. Please listen to "Who Cares" right away, as adds were last week. Sepultura is the quintessential metal band, and I certainly hope that you're treating it as such. The band will be touring until it drops dead in order to support your efforts. If you have not seen Sepultura, I highly suggest doing it now. They'll make your head pop off of your neck in no time flat! Fight's "Immortal Sin" is kickin'! I've been hearing it everywhere I go, and it sounds amazing on the air. Rob Halford is the KING! Again, this is something I don't make a habit of: using this column as a way to hype my label's current product. It seems so self-serving. But, once in a rare while, a special piece of music hits you and solidifies the reason I do what I do for a living. This sonic and passionate piece of music is the highly anticipated, closely watched new release from Live. When the well-respected and admired "ears" of the music business, such as Leslie Fram, Marco Collins, Phil Manning, Mike Parish, Rick Michaels, Dave Numme, etc., tell me (not me telling them, mind you) what a special record Live is, then you know something serious is happening here! Sample quotes: "Seliing The Drama' by Live is OFF the scale," says WENZ's Rick Michaels. "This will be one of our biggest records of the year," states 99X's Leslie Fram. Live's "Selling The Drama" is just one out of at

Live's "Selling The Drama" is just one out of at least a handful of modern rock smashes from the album *Throwing Copper*. Thanks to the wizards at the Uni Distribution warehouse, most of you have received "Selling The Drama" early and most of you with two ears on your head have already put this across-the-board hit on the air. Earache Records Pitch Shifter interviews went really well. Thanks to Larry, Leigh, Paul, Wayne, Kelly and everyone else who did one. I just saw the video for "Triad." Holy bejeezus, this thing rocks! A radio edit single with rare tracks will be in your hands soon. Violence follows this band everywhere (like they're not pessimistic enough?!). During a Napalm Death show in England, the band's manager was knocked over in the pit and kicked in the face. The broken nose he suffered kept him from making the trip over here. Then, just before levaing England, the drummer, D, and his girl were walking home from celebrating the start of Pitch Shifter's first American tour when they were jumped and battered with hammers, after announcing they had no money. D's head is a mess, but he will tour. His girlfriend had to get stitches, but she is okay. Wow. Sleep will be on the road with Entombed in April. Blood From The Soul is kickin'. Whew! It's been over a month since we lost the infamous R&R status, and...we're still on the air! I know, I know you might have thought otherwise, but we're still pumping out 100,000 watts of rock 'n roll to the mere 103,000 residents who live around here. We're sure glad they care. To those who have phoned with support and kind words, thanks. To those who read only one chart and ceased calling...we'll, c-ya! On to better business. The new Yes is amazing! Yes, they sound like the old Yes. Yes, their records sound alike, and Yes, that's what we wanted to hear from Yes! Can't wait to hear Talk. I cannot get Alice in Chains off my CD player. It is my favorite album of 1994...so far. From "Nutshell" and "I Stay Away" to the lead track, "Rotten Apple," it's a solid release, and very different from Alice's usual stuff. And even though some say it all sounds the same, Antenna from ZZ Top is a killer album. It's their finest outing since 79's El Loco. Rock 108 is very excited about the weekend of March 25. Cry Of Love arrives on that Friday night to jam, and I cannot wait to see them. Not only was Cry Of Love the most-played new band at this radio station in the past 12 months, but sales tell us our listeners love 'em, too. We sold out the Cry Of Love show within four days of announcing the show. Plus, on that Sunday night at UND's Chester Fritz Auditorium, Jethro Tull plays Grand Forks! The Connells have just finished up their Southern jaunt, trying their best to avoid the snow and ice that the rest of us have been punished with. Mick, Dave, Doug, Peele, Steve and George are now home resting, and towards the end of the month will be back on the road hitting every nook and cranny (such as Lincoln and Bozeman) in addition to revisiting many major markets (such as NYC, Boulder, Richmond and Salt Lake City). Their progress up the charts has been steady and consistent, and their sales have followed suit. Feedback from radio has been strong and immediate, as "'74-'75" continues to pull in requests at WAVF, WRLF, WFXS, WONY, WWV, QMF2, etc. Obviously, those of you who are now playing Cracker and Buffalo Tom realize that the pop/rock/modern thing is appealing to your listeners...now, what are you waiting for? As the lines between formats are becoming more and more squiggly, it's time to start assessing the music for the music's sake, so stop trying to label it and get it on the air. Thank you very much and I will now step off my soapbox. *Ring.* **The Connells. "'74-'75."** What more can I say?

My CD player has been busy this week. John Trudell's new album, Johnny Damas And Me, has some very hooky songs that reflect John's Native American roots. For starters, try "That Love," featuring Jackson Browne! I love this album. If Loreena McKennitt's show ever comes to your town, don't miss the opportunity to see her, It's an incredible show. On her new album, The Mask And Mirror, I like "The Mystic's Dream" and "The Bonny Swans." The new Texas album, Ricks Road, is here! This Scottish band has a contemporary adult sound that gets immediate reaction. Check out the gorgeous "Listen To Me," the soulful "You've Got To Live A Little," the bluesy "I Want To Go To Heaven" and another remake of AI Green's great "Tired Of Being Alone." Speaking of Scottish music, lead singer Angela McCluskey of the Wild Colonials will captivate you with her style on their debut album, Fruit Of Life. The newest in the series of live Mountain Stage recordings arrived this week, The Best Of Mountain Stage, Volume 6. An immediate add is "World Leader Pretend" by R.E.M.. This version is magnificent. Others to get on: Bruce Hornsby's "Girl From North Country" and Cracker's "Mister Wrong." Wow! Well, it's back to the CD player for another stack of CDs that just arrived ....

iz phair, alice in chains, the wild colonials, nick heyward, that dog, wheel, share - etc, etc

## Sting To Headline Fifth Annual Rainforest Benefit

Evice President of the International Board, announced the lineup of artists who are scheduled to perform at this year's Rainforest Foundation Benefit concert at Carnegie Hall.

Of course, Trudie's hubby - Sting - will be an integral part of the event, titled "An Eclectic Night Out," and the performers that will be joining him reflect the nature of the name: Elton John, Branford Marsalis, Aaron Neville, Luciano Pavarotti, James Taylor and Tammy Wynette are among the artists committed to the event, which is set to happen on April 9.

Revlon is sponsoring the event, which will benefit a truly good cause; since its creation in 1989, the Rainforest Foundation has already succeeded in preserving a section of Brazilian rain forest the size of Switzerland!

The concert will begin at 7pm, with a gala dinner immediately following at the Waldorf Astoria. While tickets for the concert have sold out, there is a very limited number of concert/dinner tickets available (at \$1,000 a seat).

If you feel like living large (while helping to save the planet at the same time), shoot a call over to Event Associates at (212) 245–6570. And if you want to support the Rainforest Foundation, but won't be able to make it to Carnegie Hall, call (800) 900-REST.

## For The King

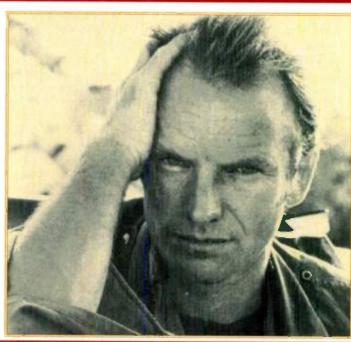

musically.

There's also the possibility that the tribute show will be broadcasted as a pay-per-view event...there will be more details to follow in the coming weeks, but Graceland had already been flooded with calls requesting information and - of course - tickets.

Don't count on being there in person - some sort of a *lottery* is being planned by Graceland to divvy up the available tickets. Watch this space for more news!

Aquick glance at the Los Angeles Times' Sunday Calendar section keyed hus in to a very interesting story that's brewing down in that holiest of American musical shrines, Graceland...seems that an Elvis Presley tribute is in the works!

According to the Times, among the celebs that could be involved are U2's Bono and "The Boss" himself, Bruce Springsteen. Both sound like logical choices; Springsteen was inspired to rock after seeing Presley on "The Ed Sullivan Show," and everybody knows that Bono portrayed a lame-clad character on tour that was suspiciously similar to the "post-Vegas" Presley of the 70s.

When you throw in Bono's version of "Can't Help Falling In Love" (from the *Honeymoon In Vegas* soundtrack), it looks good that Ireland's premier frontman will switch the focus of his adoration from Ol' Blue Eyes to The King.

The tribute event, scheduled for October 8 at the 14,000-seat Pyramid Arena in Memphis, Tennessee, is the first Elvis tribute officially sanctioned by the late entertainer's estate - which is headed up by Presley's ex-wife, Priscilla.

According to Bob Geddes of Avalon Attractions, which is producing the gala event, Ms. Presley believes the timing is finally right for an Elvis tribute event, especially since a portion of its proceeds will benefit the T.J. Martell Foundation.

Although Springsteen and/or Bono would obviously be the focus of the event, you can expect a myriad of artists inspired by The King to participate

## **Trouble In Sony City?**

Mike Muir, the outspoken frontman of punk/metal funksters Suicidal Tendencies and Infectious Grooves, has apparently started a campaign against his equally volatile Sony labelmates, Rage Against The Machine!

Muir feels that Rage, a band that deliberately forces its political inclinations to the fore of its music, is "hypocritical," and says so in no uncertain terms in a new song on Infectious Grooves' forthcoming *Groove Family Cyco*, due out on the first of April.

In the song "Do What I Tell Ya" (a take-off of a lyric from the well-known Rage Against The Machine song "Killing In The Name"), Muir rages against Rage - although he never mentions the band or frontman Zack de la Rocha personally.

A sample line from the song illustrate's Muir's irritation with his labelmates: "Now you're making your political statement/Or are you trying to add to your financial statement/And let's not forget evil corporations/Then why is Sony the sponsor of your presentation?"

Muir told the LA Times, "Here's a band talking about how evil corporations are, and they're signed with one of the biggest corporations in the world...if they wanted to be independent, why didn't they

put their records out on an independent label?"

Muir has pointed out that he's not harshing on his parent corporation - with which he's perfectly happy. His beef? He feels that Rage's left-of-center views just don't fit with their corporate "sponsor."

As for Sony's viewpoint, they apparently don't have a problem with a little in-fighting amongst the musical ranks. And Rage Against The Machine has decided not to comment on the situation.

## Thar's A Possum On Th' Road!

No, we're not talkin' roadkill...Possum Dixon, that hyper-cool new band that's taking radio by storm with the way cool tune "Watch The Girl Destroy Me," is currently on the tour trail, spreading the rockin' good news!

You owe it to yourself to catch this band in action - then you'll be able to tell your kids, "I was there...."

## **Illegal Stain?**

A Toledo, Ohio, musician has sued Living Colour for trademark infringement...he claims he owns the rights to the word "stain," which happens to be the title of the NYC-based band's latest album.

Jon Stainbrook has been using the name "The Stain" for his music and entertainment business for 14 years, and he obtained a federal trademark on the name last November.

Stainbrook's lawsuit, filed at the end of February, names not only Living Colour, but the band's management firm and Epic Records as defendants. In the suit, Stainbrook claims his services are *superior* to Living Colour's and his attorney claims that the band's use of the word "stain" has *injured* Stainbrook's reputation! Can you believe it?!

## **AMC Update**

Don't you just *love* weddings? Maria made a beautiful bride. But don't expect the happiness to last too long...I see Brooke and Edmund as a couple - again - in the very near future.

So Trevor gets put on the spot as Livia's back goes out and she has to be rushed to the hospital. The rookie attorney gets to show his stuff...will he get Erica off this week?

I love the fact that Erica's trying to pull a fast one on Kendall, by letting her think she's forgiven her. How soon before Alec finds out Jamaal is his son?

Last Friday's show, the "Janet Green, This Is Your Life" episode, was the most stupid program I've ever seen in the many years I've watched this show. If they keep doing shows like that, this column might turn into the "General Hospital Update"!

> Some of the women around the office shared this: Q: What's a man's idea of helping around the house? A: Dropping his clothes where it's easy for the woman to pick them up.

I have no idea where this came from: A driver, obviously drunk, was heading the wrong way down a one-way street when a police officer pulled him over. "Didn't you see the arrow, buddy?" he asked the driver. "The arrow?" the confused driver replied. "I didn't even see the Indians!"
