Imagine an odyssey to places and eras that are exotic, spiritual, medieval and psychedelic. Rock music that makes some people close their eyes and drift away, and others throw every fiber of their body into motion.

Arriving Sociably Early, The Smithereens Are The Hit O' The Party!

ven with the confusion that always accompanies a rush release, "Miles From Nowhere" beats all comers in the "Rock Radio adds" race. Shooting out of the box with 61 adds, The Smithereens enter the Power Cuts chart at 34*.

Among the early believers in this Rock Radio staple are WNEW, KTXQ, WBZX, KRXQ, WCCC, WAPL, KDJK, WDHA and KEZE, with WPLR adding "Miles From Nowhere" directly to heavy rotation.

A Date With The Smithereens, their fifth offering, won't hit the streets until the end of this month, but that hasn't quelled the buzz beginning to build at the consumer level; the CD is this week's #20 Hot Future at the nation's retail outlets.

'I think this record proves that we're one of the heaviest bands - if not the heaviest - around today," says Vinnie Paul of Pantera. In this week's artist feature, our RAWk Editor Lonn Friend goes the distance with Vinnie, discussing, among other things, the making of their new CD, Far Beyond Driven, which debuts as the #1 selling album in America.

PINK FLOYD · THE DIVISION BELL

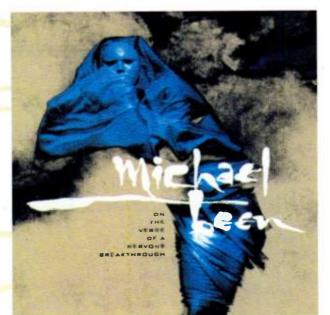

Columbia

With one foot planted firmly in the 90s (it features the first full song to be sung by keyboardist Rick Wright and some words to live by from super genius Steven Hawking, our generation's Albert Einstein) and one foot in the 70s (this CD recalls some of the finer moments of both *Wish You Were Here* and *Animals*), *The Division Bell* is a masterpiece. Gloriously steeped in Pink Floyd tradition, this new album will undoubtedly become a recording by which future Floyd CDs are forever compared.

As every station that carried our World Premiere radio broadcast on the 30th knows, virtually every track on *The Division Bell* is right for Rock Radio (with, perhaps, the only exceptions being a pair of languid instrumentals, "Cluster One" and "Marooned"). Programmers will want to capitalize on the incredible buzz that accompanied the release of "Keep Talking" by spiking the airwaves with multiple cuts, including "What Do You Want From Me," "Take It Back," "High Hopes," "Coming Back To Life," "Poles Apart" and "Lost For Words" (careful, Gilmour uses a "bad" word on this gem).

For more details about Pink Floyd in the 90s, check out Redbeard's indepth interview with the band, brought to you as a four-part series, beginning in our April 15 issue.

Michael Been

"Us" Qwest/Reprise

With hits like "The Walls Came Down" and "Let The Day Begin," The Call was a mainstay at Rock Radio throughout much of the 80s. Continuing in that tradition is the debut solo release from that band's vocalist/bassist, Michael Been. On "Us," which is featured prominently on AN Rock CD TuneUp #113, Michael sounds better than ever; this is simply one aspect of "Us" that makes it perfect for Rock Radio.

Been's (pronounced like BEAN) upcoming album, *On The Verge Of A Nervous Breakthrough*, also features ex-Call members Tom Ferrier and Scott Musick.

The Charlatans "Can't Get Out Of Bed"

Beggars Banquet/Atlantic/TAG

We could go on and on about The Charlatans' contributions to "the Manchester sound" and to Alternative Radio these past few years. But if we did, you might get the impression that this group is somehow not right for Rock Radio. Wrong! One listen to the luscious "Can't Get Out Of Bed" will show you just how viable The Charlatans are.

"Can't Get Out Of Bed" comes from *Up To Our Hips*, their third release.

The Tea Party

"The River" Chrysalis/ERG

Jim Morrison is alive and well, and going by the name of Jeff Martin of The Tea Party!

Okay, so we're stretching the truth a tad here, but Martin does bear an uncanny resemblance to Morrison on this Mediterranean-style rocker from Splendor Solis. This is the Ontario, Canada-based band's second outing (and first for a major label), and with "The River" giving us our first glimpse into this trio's power and accessibility, we figure we'll all be hearing a lot more from The Tea Party as time goes on.

Phish

Hoist Elektra

"Down With Disease" is already a Top 50 Power Cut and receiving airplay on more than 50 reporting stations. And, while extensive touring has broken Phish from its New England base (the quartet is from Vermont), there are now several major market outlets across the country playing "Down With Disease," ranging from WSHE in Miami to KXRX in Seattle.

Hoist is Phish's fifth CD - and their most Rock Radio-ready - and again, it shows the band (singer/guitarist Trey Anastasio, bass player Mike Gordon, drummer Jon Fishman and keyboardist Page McConnell) to share some of the same musical territory as the Spin Doctors and The Grateful Dead. Of course, to the 40,000-some-odd fans who correspond via computer on the so-called "Phishnet," Phish is, in fact, the band to which Spin Doctors and The Dead should be likened.

Phish fans will want to give Hoist a good listen prior to going deeper, but we recommend listening to "Sample In A Jar," "Axilla (Part II)," "Julius" and "Wolfman's Brother."

Fish And Steve Howe

"Time And A Word"

Fishy/Griffin

This Yes nugget is given a whole new treatment by ex-Marillion voice Fish and former Yes guitarist Steve Howe. (Note: Howe was not in the band at the time Yes recorded this song.) Fish's and Howe's take on "Time And A Word" can be found on The Funny Farm Project: Outpatients '93, a compilation of some of Scotland's hottest new bands.

You'll also find this reading of "Time And A Word" on the AN Rock CD TuneUp #113, or call Gina Warren at Griffin for a copy of the entire CD of The Funny Farm Project. (708) 833-6191.

April 1, 1994 - (The following is not some cruel April Fool's joke): "Free As A Bird" is the name of a previously unfinished tune by John Lennon that Paul McCartney, George Harrison and Ringo Starr have completed together; look for this new Beatles recording to be part of a 10-part documentary to air late this year or early next year 🍄 Roger Daltrey's Roger Sings Townshend a live recording featuring Townshend, the Spin Doctors, Linda Perry of 4 Non Blondes, Sinead O'Connor, Alice Cooper and Pearl Jam's Eddie Vedder - is coming sometime this summer Toy Matinee has altered its name to Third Matinee; ex-Mr. Mister singer Richard Page is now the vocalist and their next CD is coming in mid-April Apparently, 0724 OShourne's "farewell tour" last year was premature, as he's now looking for a backing band to hit the road with him after he completes the record he has in the works Look for several new Robbie Robertson cuts on the soundtrack to the flick "Jimmy Hollywood"; call your PLG rep for more info.

Phil Collins "We Wait And We Wonder" Atlantic/TAG

best new Musi

With its insistent drum track and unrelenting drive, "We Wait And We Wonder" is perhaps the most Genesis-like cut from Phil's Both Sides offering. Also, the Scottish feel (set up by the bagpipe opening) makes it a rather progressive-sounding number, also reminiscent of Genesis.

Both Sides is now Platinum, Phil's North American tour starts next month, and Collins still has plenty of fans at Rock Radio. So, wouldn't you want to add "We Wait And We Wonder"?

Peter Frampton "You Can Be Sure" Relativity

Frampton spent several weeks in the Power Cuts Top 5 with "Day In The Sun," signifying an overwhelmingly positive re-acceptance at Rock Radio. The good news is that this follow up is an acoustic/electric jewel that should be just as easy to add for all comers at Rock, Adult Rock and Top 40 Radio.

To add "You Can Be Sure" will be to take full advantage of Frampton's current resurgence in

popularity (the movies "Reality Bites" and "Dazed And Confused" each featured Peter's music, while "Wayne's World 2" paid him tribute and a Bud Light commercial practically deified him). Look for "You Can Be Sure" and a brand new version of "Baby, I Love Your Way" on our upcoming Rock CD TuneUp #114 (coming on April 18).

Candlebox

"Far Behind" Maverick/Sire/WB

MTV has now been programming the clip for "You" for more than four straight months! Candlebox's eponymous debut album was still bulleted in the Top 50 on our Hottest Sales Nationwide chart last week, and both "Change" and "You" were Rock Radio hits (with "You" going Top 10 on Power Cuts).

Seventeen stations went early on "Far Behind," and KISW is already getting heavy phones on this one (and giving it 30 spins a week).

Barefoot Servants

"Fire And Gasoline" Epic

Though we've all known Jon Butcher's voice and guitar playing for years, and had presumably been familiar with Ben Schultz through his own solo material and his guitar work with Stevie Nicks, Rod Stewart and Buddy Miles, among others, it was the Top 10 Power Cut "Box Of Miracles" that put this pair at the forefront of Rock Radio in the mid-1990s.

On "Fire And Gasoline," Barefoot Servants take a bluesier stance than they did on its predecessor. Butcher's voice stands front and center, while the guitar interplay is stellar and the heavy bottom end rocks supreme.

King's X "Fool You" Atlantic/TAG

second treas

Just in time for April Fool's Day, Atlantic has a new King's X track for your dining and dancing pleasure. "Fool You," which comes from the Dogman CD, is jam packed with powerhouse rhythms, passionate and yet melodic singing from bassist Doug Pinnick, and Beatles-like harmonies, courtesy of guitarist Ty Tabor and drummer Jerry Gaskill.

"Fool You" is a clever and timely reworking of the age-old adage "Don't believe everything you hear." Pinnick also makes some poignant comments on the plusses of following a road less-traveled, making this cut a joy to get into.

The Badlees

"Laugh To Keep From Cryin" Rite-Of

This spirited, heartland ballad is moving up the Power Cuts chart, thanks to heavy airplay in the northeast and pockets of the south. If vou've missed it so far, look for "Laugh To Keep From Cryin'" on our Rock CD TuneUp #113.

"Miles From Nowhere' warrants an add because it's so good!" Bil Walker, WROQ

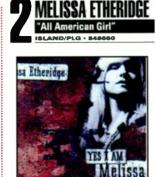

With their first record for RCA, The Smithereens jump out of the box with 61 first-week adds on "Miles From Nowhere." As a result, the first single from A Date With The Smithereens enters the Power Cuts chart at #34*.

Pat, Mike, Dennis and Jim pick up immediate support from the likes of KTXQ, WNEW, KRXQ, WBZX, WCCC, KEZE and WAPL, which means that The Smithereens are effectively spanning the nation's airwaves.

KOME's Stephen Page describes "Miles From Nowhere" as "right up the middle for a Smithereens song; it is instantly recognizable!" And Phil Marlowe of WCCC says, "I've been a Smithereens fan for a long time, and 'Miles From Nowhere' doesn't disappoint. It's pure pop with an edge!"

Comparing the new Smithereens with their last effort, WXKE's Rick West comments, "'Miles From Nowhere' is a little less pop and a little more rock!" At WFYV, Scott Gentle simply calls it "another great track from The Smithereens!"

"All American Girl' is a guaranteed Top 10 hit!" **Riki Hofberg, WMMR**

"All American Girl" shines for a third week at Rock Radio, as 32 stations either add or up their rotation on the song. Thus, Melissa's third track from Yes I Am easily glides 28-21* up the Power Cuts chart.

Melissa Etheridge is now picking up major amounts of spins, as a dozen stations report between two and three plays a day on "All American Girl"; KSEZ leads the way with 27 PPWs and KMKF spikes the tune with 60% more spins than a week ago.

As far as new adds go, KLOS, WMMR, KSHE, WJXQ, KCAL and KGGO lead the way this week.

WWWV MD Debbie Gilbert proclaims "All American Girl" to be "the rock track for Melissa!" Speaking of "All American Girl," Pam Brooks at WHCN states, "This is great music!" Also, KDBM's Wally Feldt declares, "'All American Girl' is another good one from Melissa!"

SUGARTOOTI "Sold My Fortune"

"I've loved 'Sold My Fortune' since I first heard it on The Album Network's Rock CD TuneUp!" Greg Hanson, KTAL

"Sold My Fortune" is a second-week Homer!, as 25 additional programmers up the ante to 80 Rock Radio outlets on the cut. Sugartooth screams 21 points up the Power Cuts chart; the three-week airplay trend of 87-52-31* is quite impressive.

Among the stations joining the fun this week are KUPD, KQRC, WDIZ, KATT, KLBJ, WUFX, KLPX and WTGE.

WQLZ's Vince Richards says that "Sold My Fortune" "caught me from the first listen! Black Sabbath lives on in Sugartooth!" At KOZE, PD Bob Louis tells us that it "sounds like Geffen Records has added another great band to their lineup Sugartooth's 'Sold My Fortune' has all the right elements to be a monster!"

In Seattle, Cathy Faulkner of KISW explains, "'Sold My Fortune' pulled instant curiosity calls!"

PRIMAL SCREAM

"Anyone who grew up digging The Stones is gonna dig this one, too!" Matt Roberts, KBOY

"Rocks" is off to a great start at Rock Radio, holding steady in the Top 5 most added a second straight week. Twenty-four outlets add the new Primal Scream and seven stations bump it up in rotation, leading to a 58-45* jump on Power Cuts. Look for "Rocks" to be a Homer! next week.

Even as WMMS, KDKB, WAPL, WIOT, KLPX, KMOD and WPYX all put the tune into rotation this week, KOZE is up to three spins a day on "Rocks."

At WWBR, Don Alias exclaims, "I was a big fan of their last project, and 'Rocks' jumps right out at you and makes your head spin!" KDJK programmer Beaver Brown calls the latest Primal Scream track "the #1 party record of the summer!"

Kris Kelly of WXQR quips, "If you play this backward, it's BTO's 'Takin' Care Of Business'!" And, at KFFX, Jeff Custer points out that "Rocks" is "the perfect song to hold us over until the new Stones album!"

COLLECTIVE SOUL

"The first time I heard 'Shine,' my reaction was just, 'Wow!'" **Tony Couch, WGBF**

Damn! What a story! Collective Soul's "Shine" has now become the #5 Most Requested Song, the #2 biggest progressing record and a Top 15 Power Cut (it moves 18-14* this week), and it's now on more than 165 Rock Radio outlets! Plus, 35 stations up the rotation this week.

With a buzz developing at retail for Collective Soul, "Shine" accepts a minimum of 30 Plays Per Week from WMMS, WQLZ, KOZE, WUFX and KSEZ, while KATP has it as its #1 most often played track.

Incredibly, this is "Shine"'s sixth consecutive week among the most added tracks at Rock Radio!

KBOY'S Matt Roberts describes "Shine" as the "best thing to come out in years! I was blown away the first time I heard it, and its beauty is in its simplicity!" Bill Walker of WROQ explains that this one deserves his attention because Collective Soul "is doing pretty well at retail in our area!"

BREAKTHROUGH

Produced by Michael Been Mixed by Michael Brauer Other ex-Call guys Scott Musick and Tom Ferrier guest.

"Big Empty' sounds like 'Creep' - and then it rocks!" **Ronni Hunter, WBZX**

You had to listen to the soundtrack from the forthcoming Brandon Lee flick, "The Crow," to hear how good this new one from STP sounds. At least 23 programmers did just that, because that is how many of them added "Big Empty" at Rock Radio this week.

With opening week support from KLOS, KYYS, WBAB, WBZX, KEGL, WLZR, WRZX and KUPD, among others, "Big Empty" enters Power Cuts at #57*. KIOZ is already receiving heavy phones.

At WRZX, where "Big Empty" was added right to heavy, Michael Young says, "Here is yet another Stone Temple Pilots hit, from the soundtrack which will be this summer's Last Action Hero!" And KDJK's Jeff Riedel says that "Big Empty" shows STP's "versatility and songwriting ability!"

PANTERA

"I'm Broken"

"This is go-for-the-throat rock, and our listeners go for the phones when it comes to Pantera!" Matt Vaughan, KNCN

Even as 22 Rock Radio PDs show their support for Pantera's "I'm Broken," the band's third offering, Far Beyond Driven, debuts at #1* on our Hottest Sales Nationwide chart! A #58* Power Cuts entry results.

KISS, WIYY, WQFM, KQRC, WRZX, WWBZ, WAAF and KMOD all add "I'm Broken" out of the box, while earlybirds KIOZ, KISW, WKDF and KILO are all reporting Top 5 phones already. Learn more about this Dallas band by reading Lonn Friend's interview, beginning on page 22.

In America's heartland, WRZX MD Michael Young sums it all up this way: "Pantera is the #3 album in Indianapolis this week, and with the success of Vulgar Display..., 'I'm Broken' is a natural add!"

PEARL JAM

"Dissident"

"Dissident' is the staff's favorite song off of Vs.!" Rick West, WXKE

"Dissident" is about to become the Jammers' next Top 10 Power Cut, as the latest cut from *Vs.* hops 15-11* this week. Why? Twenty-two adds and 25 rotation bumps, that's why.

A number of reporters are spinning "Dissident" at least four times a day, including WMMS, WDHA, KTAL, KRZR, KRRK, KOZE, WIQB and KIOZ; phones are lightin' up in 15 cities, such as Indianapolis, Miami, Columbus and Jacksonville.

KATP's Dale Miller says "Dissident" is a "good follow up to 'Daughter' that can be played in all dayparts, but it has that edge your audience can identify with!" And Kris Kelly of WXQR notes the obvious when he tells us, "Pearl Jam is an all-purpose band!"

CRACKER

"Get Off This

"'Low' is still testing like a heavy for us, and early reaction shows 'Get Off This' to be the same way!" Michael Young, WRZX "Get Off This" opens its official Power Cuts run by nabbing 21 first-week adds. The new believers put the

song on 43 Rock Radio

reporters and give it a

70-53* move.

WMMS, WIQB and QMF2 all report between three and four spins a day for "Get Off This," and WDVE, WSHE, WKDF, KDKB and KEZE add their call letters to the list of Cracker supporters.

WTGE/Baton Rouge Music Director David Sorge explains, "We're adding 'Get Off This' because Cracker's always done really well for us!" And, at WTUE, John Beaulieu states, "Amongst all the younger bands out there, Cracker seems to rock a little harder and to fit our station's sound a little bit better!"

GIN BLOSSOMS

"Gin Blossoms have done very well for us, and I'm a sucker for a good pop tune!" Dave Frisina, WAOX

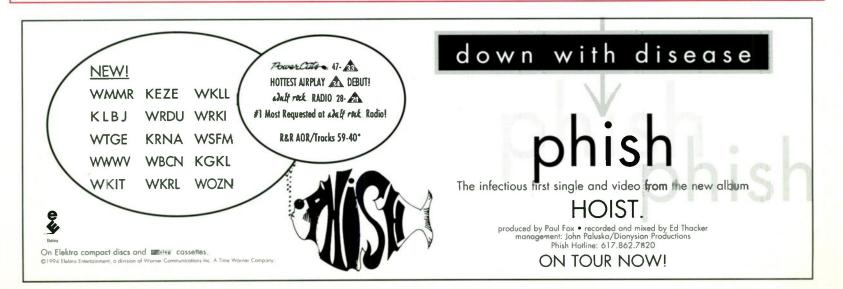

Gin Blossoms are no strangers to these pages, as "Until I Fall Away" is the fourth cut from *New Miserable Experience* to grace them. Eighteen new adds this week push the latest track up Power Cuts, 48-32*.

KSEZ, at 43 PPWs, leads the way on overall spins for "Until I Fall Away," with WNEW, KLPX, WBCN, KCLB, WPYX and WAQX all putting the song into rotation this week.

WRFX's Chris McKee covers a lot of ground when he offers, "No matter how much recognition Gin Blossoms get, they fall short of the recognition they deserve!" Regarding the past year's success of Gin Blossoms, WHCN's Pam Brooks wonders, "Why not continue the story?"

THE DOMINATORS OF POWER GROOVE JUST GOT EVEN HEAVIER

f bass player Rex has his way, Pantera will be the heaviest band in the world one day. Listening to the new Far Beyond Driven, it is difficult to imagine anything harder or heavier. From the fulminating opening bashes of "Strength Beyond Strength" right on through to the last notes of "Throes Of Rejection," these Dallas dudes dish out mindfucking morsels of anger-laced power groove. It's all riffs from hell, courtesy of "Dimebag" Darrell's grinding guitars, a booming bottom end, delivered by Rex and Vinnie Paul (Darrell's brother), and lead screaming, from frontman Phil Anselmo. Then, as if snickering over their surprise ending, Pantera segues into an acoustic cover of Sabbath's "Planet Caravan." In the liner notes, Anselmo writes, "Don't freak out on us. We did the song because we wanted to...we think you'll dig it. If you don't, don't fucking listen to it." Pantera freaks might have bet their lunch money these guys would die before playing a soft, tender song, but Pantera does what Pantera wants to do - and that includes throwing a curve like that.

Far Beyond Driven is Pantera's third album for EastWest America. Thanks in part to the Platinum sales of 1992's Vulgar Display Of Power, the new CD is expected to debut extremely high on our Hottest Sales Nationwide chart (this article went to bed prior to the completion of this week's charts). This slammin' motherfucker is already Top 2 at RAWk Radio and - as of this writing - on its way to #1*.

A couple of weeks ago, after Pantera thrashed the fans at RIP Magazine's 7th Anniversary party to within a quarter inch of their lives, Vinnie got on the phone with RIP's Executive Editor (and our RAWk Editor), Lonn Friend, for this timely interview. Written by Jim Nelson

nterview by Lonn Frien

Okay bud, let's talk about the new record, **Far Beyond Driven**. Phil made a comment on stage at the RIP party, which I thought was really poignant; he said, 'We made a record for Pantera fans. We didn't succumb to the pressure of the industry to make a record that was anything but for the fans.' What did he mean by that?

"Well, first of all, we made the record for ourselves and our fans, you know? We didn't let any powersthat-be try to steer us in any other direction, and I definitely credit Sylvia [Rhone], and the record company, for letting us have our artistic freedom on this. We just felt like for us to be Pantera, we had to make a record that we would be happy with and that our fans would be happy with. And if some new people wanna hop on, cool, but we had to make this for the [longtime fans]."

Were you surprised when **Vulgar Display Of Power** just kept selling and selling, and really late in the day, a lot of the core radio stations started playing songs from it? Were you guys surprised at the longevity of that record?

"No. It still moves about 5,000 to 8,000 copies a week, and we're not on tour and there's no new record out just yet. It's just a word of mouth thing, man. People just continue to find out about it from other people.

"And when radio did get on it, that was cool. It's always fun to hear yourself on the radio, but we don't really listen to the radio that much anyway, so...l think Metallica opened a lot of doors up as far as [putting] heavy music on the radio."

A lot of people think that now that Metallica has moved into the mainstream, as they say, Pantera is going to carry the heavy torch. How does that feel, being the 'heir apparent' to Metallica?

"Hmm...it feels great. I think they did exactly what they wanted to do, and we did exactly what we wanted to do with the music. And, if we're at the forefront of heavy music, great. If somebody else can do

it, that's cool, too. But I think this record proves that we're one of the heaviest bands - if not the heaviest - around today."

A little bit about the new record - I wanna go over a couple of the tracks...'Good Friends And A Bottle Of Pills'? [laughter] Is this a rap song? [laughs]

"It is absolutely not a rap song...it's a very deranged and kinda demented song. We wrote that song at, probably, four o'clock in the morning, when we were all completely trashed. I stumbled onto the drum groove, and they said, 'Man, let's just go with it,' and it was just, 'Let's make a short song - two and a half minutes, and one part, and let's do it,' you know? And it was just funny at first, 'cause it was like haunted house music or something, you know? And then Phil came up with these overbearing lyrics that are just [laughter]...the bottom line was that it's truth. I think just about anybody can relate to being stabbed in the back by somebody, and that's basically what that song's about."

'Five Minutes Alone' was a track that you guys played me in its rough version, early, that night we went out in LA. I thought that track was the next level of Pantera. Where'd that song come from?

"This is a riff we've had for a long, long time, and we just never could quite incorporate it into a song, so to speak. We really liked it, and we spent some time with it.

"And the lyric thing is basically about an asshole whotried to sue us. His father called up and started some BS, and his final statement was, 'Boy, you just give me five minutes alone with that Phil Anselmo and I'll teach that boy a few things.' And so, it was like, 'You give me five minutes alone with that motherfucker and I'll tear his ass up.' That's basically the concept behind that song."

That's totally different than the way I perceived it - I thought 'Five Minutes Alone' was about the fact that everybody gets so much shit in their lives that they need five minutes alone sometimes to catch their breath.

"I think this record proves that we're one of the heaviest bands if not the heaviest around today." Vinnie Paul

"See, that's another interpretation of it. That's why a lot of times, when people ask me, 'What is the song about?' I like to say, 'Look, man - whatever you get from the lyrics, it's open for your interpretation. If you find something else in it, besides what actually is in there, cool.'

"But that's basically the true story about the song, and, along with what you said, everybody definitely needs five minutes alone [chuckles]. It works that way, too."

'I'm Broken' is the first track. And you shot a video with my old friend Wayne Isham, who did the 'Enter Sandman' video for Metallica. How did that go?

"Oh, it went great, man. Out of the videos that we've made, it was probably the funnest to make. We wanted to make, like, an anti-video video. It's just us jamming to ourselves. We did it at the Ambassador Hotel, which is closed down, and we did it in this room called the Acid Room, where they used to store muriatic acid, and stuff to clean the swimming pool."

That's where Robert Kennedy was shot.

"Yep. That's where Robert Kennedy was shot, so it was kind of a weird place. And there are no lights, no props, nothing - it's just us in this room, jamming, to each other. We didn't want to jam to an audience, we didn't wanna jam - you know, we didn't want to be on a proper stage or anything - it was just gonna be like us rehearsing. And you can see, like, the cameramen in the video, you can see the tracks...so it's really raw."

I notice that, along with Terry Date, you're the coproducer. Does that mean you were in the studio a little more often than the rest of the guys?

"You could definitely say that. And the same thing with *Vulgar....* Me and Terry work really good together; I'm pretty much the guy that knows the Pantera sound, and I do a lot of the knob-twisting to make the records sound the way they do, so it's identifiable as the Pantera sound. And Terry's biggest job is to make sure that the vision that we

> have ends up on the CD. And he's really good at helping us remain raw and keep things tough, without slicking 'em up and polishing 'em up. A lot of times, as a musician, you wanna straighten things out or change something to make it more polished, and he'll just go, 'Man, that's nice and raw, let's leave it alone - it's really spontaneous.'

"Also, I think the really good thing about Terry is that he makes the record the bands wanna make - not the record that a producer would wanna make, or the record company would wanna make, or anything like that. He's a *band* producer, not a producer producer."

Was it a real difficult record to make?

"No; actually, it seemed like it took longer, but we did it different from the other two records. [With] the other two records, we would go into a cheap studio and write and record the songs in the demo form. And then, when we'd fly Terry out, we'd get the sounds exactly how we wanted, and then we'd re-record everything, so that process would only take us about five or six weeks, and that was it. Recorded, mixed and all. And we were competing with the demos we really liked a lot of the stuff that was on the demos, but we lost a little bit of the raw-

ness, or the vibe that we had going, when we wrote and recorded the demos.

"So this time, instead of re-recording anything, we flew Terry in from the very start, and we got the sounds that we wanted, and as we wrote each song, we recorded it, so they're really spontaneous. They have the total vibe that we were feeling at the time we wrote [them], and I think there's a lot of magic on the record."

Anything pissing you off these days, or are you just excited about the release of this album, and getting out on the road?

"I'm so excited about this record I can't take it. I'm ready to go on tour." (Editor's Note: Pantera's *Far Beyond Driven* tour begins April 7.)

Who are you taking out for the first leg? "We're taking Crowbar out with us."

Right; that's the band Phil produced?

"Right. And it's gonna be a super-duper cool tour. We're only doing, like, three and a half to four weeks - we're just doing all the major markets, and then we're going to Japan for three weeks. And then, we'll come back to the States [for] an amphitheater tour this summer."

Reflecting Reality:

For mamy weeks now, The Album Network has been preparing the industry for the reality of historical Plays Per Week reporting and the heightened level of accuracy it will bring. In April, we will close the lid on heavy, medium and light reports and open a new door with the institution of Plays Per Week reporting.

Last week, we went to radio programmers across the nation and asked them to voice their opinions on our upcoming switch to Plays Per Week reporting. This week, it's the labels' turn to share how this chart methodology will affect their daily business and its future impact on the music industry, by answering the following two questions:

IP I a y s

#1: How will Plays Per Week reporting affect the way you promote records?

#2: With the future of our chart reflecting actual Plays Per Week, will you utilize them more?

J.B. Brenner - VP/National Album Promotion, A&M

#1: At A&M, we've been trying to adapt ourselves to the new realities of the 90s, as far as actual plays and actual sales are concerned, and how they correlate. We've come up with this amazing theory...we believe airplay sells records! It's going to

help us break out of the top markets that are BDS monitored and try to put that same reality into a lot of our starter stations, who help us get bands off the ground in smaller markets that could be heavily college-weighted.

We're looking at markets where there is a large group of people who buy records; if it's a small market in Missouri, or whatever, with a radio station that is non-BDS, it's still very important to us to know exactly what they're doing, because we can sell records in those markets. We're already able to see Plays Per Week through BDS in the top markets, and this is a logical extension of that, finding out what's going on in the smaller, non-monitored markets.

#2: I think all charts are going to be more reality-based, and they all might get a little closer together. We actually see some of our larger charting records get more plays on the way down a chart, and I think there's been a fallacy in the chart mentality over the years, where records are rushed up and rushed down quicker than they actually go in reality. Maybe that's radio's fault, maybe it's the labels' fault, or maybe it's a combination of the two, but hopefully, a more realistic chart based on Plays Per Week will alleviate that problem.

Neil Lasher - Senior Director/National Album Promotion, ERG

#1: I don't think it will affect the way I work records, because I've always wanted the most plays out of every record I've promoted.

#2: I will slightly. I've always enjoyed and used the Album

Network charts, and now, I'll have a much more realistic read on what's actually happening with my records.

Drew Murray - VP/Rock Promotion, Mercury

#1: It's basically the way we've been working it for the last six or eight months. Plays Per Week is what the sales department looks at to determine what kind of advertising and support to put in the marketplace. It's the way he record business these days...

things are done in the record business these days... reality-based.

Album Network has always been a good, one-stop shop for a general overview of the whole industry, be it just airplay, the rock chart, the adult chart, alternative, retail, etc. So if the Powercuts 100 is more reflective of actual spins, hey, so much the better!

Sky Daniels - VP/Promotion, PLG

#1: Obviously, it's going to make it harder to start records. In the past, so much of what we did was managing perceptions. And nothing, other than superstar acts, really comes in with any equity, and we have to really get a sense

of enthusiasm started and build upon it. Sometimes, the danger of having Plays Per Week, is people who look and say, 'Oh...it only got played that many times.' Thus, that proverbial buzz can be deflated by a nominal amount of Plays Per Week. So, what you really have to do is hope that people on the radio side will interpret that information correctly and allow for the kind of slow, steady build we used to be able to get.

Most records that come in on Plays Per Week, the total plays never amount to what their chart position is, in a heavy, medium, light universe. They never are parallel. A record may be the 20th most played record, but it will be a Top 5 debut on the chart. Suddenly, that's going to shift a lot of what we used to foster and create, in terms of perception. The other side of that is we'll know exactly where we stand; we'll know the reality of the audience, and we'll know the truth of what's going on, and ultimately, radio knows: 'Wow, if you're at #10 in a Plays Per Week position, it's a real hit.' It's not just made up...they know it's real, and there is no longer that subjectivity. #2: Having come from radio to records, my job is to polish the apple. Now, all of the sudden, there's only so much polishing you can do. Our records always, chart-wise, were ahead of their realities, because we were good at promoting, and pushing the records up. Now, your records better be good, because there's no longer going to be all the work of a promotion department reflected in the chart. You're not going to be able to run around and talk people into bumping the rotation; they're gonna see for themselves what's going on. So, will I be able to trust charts more? Yeah. Will I be able to use charts more? Not necessarily.

Matt Pollack - VP/Album Promotion, EastWest America

#1: It makes my job, actually, a lot more focused and a lot more real. Our world is based on reality now, and when I sit down on Monday and Tuesday, two of my primary tools are SoundScan and BDS. If it's not BDS, it's Plays Per Week. If

I'm going to court somebody on numbers, I want to quote reality. It's definitely the direction that the industry has taken, and it's for the better.

#2: Absolutely. No question about it. We've been screaming about this the last couple of years now...the 90s is back to basics. Anything that's going to be able to reflect actual airplay is going to be a viable tool for you. Anything that is fluff, as far as paper goes, is a waste of money, it's a waste of time, and it's got absolutely no business in dealing with our business on a day to day basis. Anything that is a true reflection of reality is going to be a major tool for us in doing our jobs.

Jeffrey Blalock - Senior Director/National Promotion, Capitol

#1: Obviously, the industry as a whole has welcomed the realities that are available with airplay and sales. At Capitol, we have just completed a very extensive study on radio and sales, and the respective markets they reside in. We'll be able to use that informa-

tion to more accurately work the larger markets that make up this study. However, there still exists sales and airplay in small markets that we can't reach. PPWs will be one of the tools to hopefully help give us the reality we've been looking for in these small markets.

#2: I think any time you have a chance to move away from guesswork or reports that really aren't substantiated it is a welcome move. Of course, we will be very interested in knowing what these stations will be doing with our records. We'll be taking a very close look at these, and making sure that our field staff does the same.

Jeffrey Naumann - VP/Radio Promotion, Virgin

#1: It won't, because I'm already working with spins. Of course, I'm working within the parameters of how trades take their reports, heavy-medium-light, but we also use the BDS system as a guide. If I see a light rotation and some-

body's playing it, like, 15 times a week, I'll ask them for a medium or heavy rotation. So, it won't change too much the way I work records.

#2: The charts will be more useful because they'll have a very good potential to be more accurate than they currently are. It still has a higher percentage of the possibility of error than, say, BDS. Not that I'm saying BDS is 100% infallible, but I still think that some people, by verbalizing what they're doing, lie.

Gina Iorillo - VP/Rock Promotion, MCA

#1: Basically, I'll ask, 'How many times did you play it this week, and how many times are you going to play it next week, and can you increase the number of plays?' When we asked for mediums or heavies, we were always asking

for more airplay, so in a sense, it's asking for the same thing, just using different terminology!

#2: I think they've always been important and they always will be. What it will mean is everybody will probably be in a very similar situation. Instead of us quoting R&R, Album Network and Billboard, where sometimes the numbers would be a lot different, I think now, we'll find that they're a lot more cohesive and reflective of one another.

Alan Oreman - Director/Rock Promotion, Geffen #1: The only way this may change

how we're going to work records is, instead of asking for heavies, mediums or lights, which really have no meaning, we'll be asking for 10, 20, 30, etc. spins. So, if Plays Per Week is now the industry

standard, what if we get rid of the Monday and Tuesday mentality and go for airplay on Thursday and Friday? After all, wouldn't it be great if there came a day when we didn't have to call radio on Monday and Tuesday to get tracking, but pulled up your spins from the computer? This way, we could be on the street Monday and Tuesday instead.

#2: What's most important to me, bottom line, is maximum exposure. And if The Album Network's chart will accurately reflect this airplay with Plays Per Week, I'm elated, because it gives more credibility to your chart. It's reality!

Jim Del Balzo - VP/National Album Promotion, Columbia

#1: It's really not going to have any effect, because our ultimate goal is to get people to play the record. The only difference, I think, will be that Thursday and Friday are going to end up being more important days than Monday or Tuesday. I wonder

if radio will change their add days, since it's not just the ol' 'Monday and Tuesday rush to get it into R&R so they could make the streets by Friday' mentality. It's now between all the trades who are doing Plays Per Week, and I'm not sure that Monday and Tuesday are as important as they once were in the record business.

#2: Again, my concern isn't so much the charts as the airplay that the charts reflect. Using the charts more...that's kind of like the tail wagging the dog. The airplay's got to come first, then the charts follow. In a lot of ways, the way we do business is going to slowly evolve over the next six months.

Sarah Haynes - VP/National Promotion, Relativity

#1: I'm already using BDS actively. But for stations that aren't monitored, we'll now be seeing their Plays Per Week, so it will be more effective in the smaller markets for us.

#2: I think the charts are more for radio stations than they are for labels. My biggest concern is how my record does against itself, not against somebody else's. I can look at a particular record that's similar to a record I have out especially if it's a new band - I can see where that band is in comparison to us, and get an idea of where we should

> **31** World Radio History

be. So it will help me in that way, as charts always did. It will just be more accurate.

I feel this is a necessary step for you to do this. Not just the smaller labels like Relativity, but the majors, are starting to move away from [chart] numbers, and have been more concerned lately, and will be more concerned in the future, with airplay, sales and marketing.

Steve Schnur - VP/Rock Promotion, Arista

#1: I don't think it's going to change the way we work records here at all, because we work records on a consistent basis per play and not per report. We've been much more concerned with airplay status than reporting status, for

quite some time. The reporting stature of a particular song or album really hasn't come into concern for as long as I can remember.

#2: Of course. As the charts reflect what's actually happening and what's actually being heard by the audience and at what time they're hearing it, you can get a correlation between what the audience is actually buying from what they're hearing on the radio.

Art Phillips - VP/Rock Promotion, Hollywood

#1: We've been utilizing BDS song activity reports for nearly two years, so our 'methodology' for working records has been geared toward real airplay versus 'chart jamming' for quite some time. We

want to know how many times a week our records are getting played, and seeing how a station rotates its currents gives us a better understanding of that station and the market.

All of our regional people have access to this critical information on a daily basis, so when we see WAXQ hit Eleven's 'Reach Out' 28 times in seven days, or KISW play the song 20 times during the same period, we use that information to help us garner airplay in other markets. We're particularly looking forward to Album Network's implementation of Plays Per Week so we can take a look at some of the smaller markets currently not being monitored by BDS.

#2: Any chart that utilizes actual airplay instead of the antiquated heavy, medium and light rotations is going to be a more accurate and useful tool for radio and the record community. Isn't a chart supposed to be an accurate reflection of airplay? Hopefully, it won't take long for radio to adapt to natural airplay fluctuations that will occur with a PPW chart. A 5 to 3 to 6 move certainly doesn't mean a record is 'over.' You wouldn't bail out on AT&T stock when it goes from \$54 to \$53 a share, would vou?

PANTERA Far Beyond Driven

EastWest America/TAG • 9230

"Pantera outsold both NIN and Soundgarden out of the box!" Mark Burton, Electric Fetus/Minneapolis

While they've had a following with *Cowboys...* and *Vulgar...*, and (going back even further) their independent releases, the mania over *Far Beyond Driven* outdistances anything this band has experienced before.

Ross Hewson, Record & Tape Traders/Baltimore, stated, "We sold 20% more Pantera than Soundgarden!"

With this album, Pantera was in a position where they had to come up with a hard release to meet the unbelievable fan demand... they've succeeded. This record is in-your-face and scorching! Far Beyond Driven breezes right into the #1* slot on the Hottest Sales Nationwide and debuts at #12* on the In-Store Play chart. A total of 175 MarketMakers show Top 50 chart debuts, with 92 of those at #1, including House Of Guitars/ Bochester. Streetside Records/St. Louis, Ace's/Tampa, National Record Mart/Pittsburgh and Record Exchange/Boise, to name a few.

At Rock Radio, "I'm Broken" makes its Power Cuts debut at #58* (it's also among the Top 5 Most Added), while the album holds tight at RAWk Radio at #2*. "I'm Broken" is in On rotation at MTV.

BONNIE RAITT Longing In Their Hearts

"This is old-style Bonnic, and people love it!" Deb White, PennyLane/Kansas City

With two albums for Capitol Records, Bonnie Raitt earned seven Grammys and sold well over eight million records. After close to 20 years of recording and performing, Raitt has reached the status level where she (and her label) does not have to struggle or have a "hit" single to sell a million copies.

Plus, now that she has the security of a large fan base, she has the freedom to expose more of her blues roots in her music. For consumers, buying the new Bonnie Raitt record is no risk!

Longing In Their Hearts debuts at #2* on both the Hottest Sales Nationwide and the In-Store Play chart. A total of 175 buyers report chart debuts, including #1s at Tower Records/ Sunset, Face The Music/ Eugene, HMV/Cambridge, Magic Platter/Birmingham and Atlanta CD/Atlanta, to name a few.

The first single, "Love Sneakin' Up On You," is Top 15 at both Rock and Adult Radio, and Top 20 at Hit Radio, while the album is #3* on the Adult Rock Radio chart. The video has just been added at The Box, while Bonnie Raitt is VH-1's "Artist Of The Month" for April.

SOUNDTRACK Above The Rim Death Rew/Interscope/TAG - 9230

"It just blew out! People are finding out there's a new 2 Pac song on it, and the word of mouth buzz is huge." **Duke Ward, Side 1** Music/Richmond

Can you say "#1 seller?" That's the potential that lies behind the Above The Rim soundtrack. While it's important to know that the film stars Tupac Shakur and Marlon Wayans and that it grossed \$3.7 million in its first week at the box office, the artist lineup is the real show-stealer, as it boasts such talents as SWV, H-Town, Tha Dogg Pound Gangstas (aka Snoop Doggy Dogg, Dat Nigga Daz, Nate Dogg and Big Pimpin' Delemond), Al B. Sure!, Jewell and Aaron Hall, 2nd II None and more.

At least four cuts are targeted for immediate radio support: SWV's "Anything," H-Town's "Part Time Lover," 2nd II None's "Didn't Mean To Turn You Or" and AI B. Sure!'s remake of AI Green's "I'm Still In Love With You," which is receiving Top 35 play at Urban Radio. "Big Pimpin'" by Tha Dogg Pound Gangstas is benefiting from an aggressive street/rap campaign.

The Above The Rim OST hits the Hottest Sales Nationwide at #8*, with 108 total chart debuts mentioned, including Nobody Beats The Wiz/New York #1, Record Theatre/Buffalo #1, Poplar Tunes/Memphis #2, and Wherehouse Ent./LA #1.

WORRISSEY

"He played here a year ago, and we've been getting request calls ever since." Adam Miller, Tower/Portland

Morrissey's new releases are more than welcomed by retailers - talk about low maintenance sales! This is truly an artist whose records fly out the doors on their own!

With the direction of a new manager, 1994 will see Morrissey making a huge new impact Stateside, with aggressive promotions, a major tour and video exposure. The first single, "The More You Ignore Me, The Closer I Get," is already close to a Top 40 debut at Hit Radio (it's among the Most Added singles there), while VIRTUALLYALTER-NATIVE Radio sees a 3-2* move for the album. The video is in Buzz Bin rotation at MTV.

"Vauxhall & I" clocks in at #18* on the Hottest Sales Nationwide, and it moves 20-3* on the In-Store Play chart. A total of 164 accounts report chart debuts, including Lakeshore Records/ Rochester #2, Newbury Comics/Cambridge #3, Northern Lights/ Minneapolis #1, Mad Platter/Riverside #1, Michigan Where House/Lansing #4, Streetside Records/St. Louis #5 and Zia Records/Phoenix #3.

MONKS OF SANTO DOMINGO Chant Angel - 55138

"When the Sinatra came out, I thought we were reaching people that hadn't been in a record store in years, but this is amazing!" David Deeter,

Tower/Stonestown

While Gregorian chant is not a new "fad," until Enigma, other Gregorian chant records just didn't get any significant press or airplay. "Time," "USA Today" and "The Today Show" have all featured Chant in their respective manners, cable TV ads have been placed on CNN, The Discover Channel and The E! Network, and major print ads in the Sunday weekend sections of six big-city newspapers proved effective in helping to create gigantic sales.

To put this success into perspective, know two things: 1) Angel initially shipped 70,000 copies to retail and, just last week, shipped in excess of 300,000 copies; 2) immense credit must be given to Joe McFadden and all of CEMA Distribution for treating *Chant*, from the beginning, as a pop release.

Chant soars 52-30* on the Hottest Sales Nationwide, with another 40 chart debuts reported, bringing total mentions to 108. Number one sales can be found at Rose Records/Chicago (two weeks straight!), Tower Uptown and Downtown/NYC, An Die M u s i k / B a | t i m o r e, Tower/Vienna and Tower/ Stonestown.

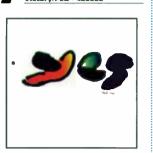

"The performances by Neil and Bruce on the Oscars, equal great sales...again!" **Rich Zubrod, Virgin** Megastore/Costa Mesa

Tom Hanks' Oscar triumph in the "Best Actor" category, and his unforgettable acceptance speech, raised renewed awareness for the *Philadelphia* OST. But the one-two-three punch of Neil Young's and Bruce Springsteen's performances, followed by a win for Springsteen (both were nominated in the category of "Best Music Original Song"), sent record buyers back into the stores...pronto!

The Philadelphia OST explodes with a 31-22* hike up the Hottest Sales Nationwide. Forty-five buyers report chart re-debuts, but the upward moves do the talkin'; Blockbuster Music Plus/Dallas 30-6, Rose Records/Chicago 21-7, Streetside Records/ St. Louis 25-3, Peaches Ent./Miami 42-13, Twisters/ Lincoln 53-10 and Tower/ Sunset 22-6 are just seven out of 79 amazing moves!

YES

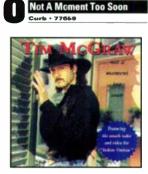

Talk

"We had a huge midnight sale and coupled with the

radio exposure and instore play, tons of interest and sales were generated." Barbara Phascall, Record Revolution/Philadelphia

There has been plenty of interest in this particular lineup of Yes, as Talk looks to be the release that the Yes purists have been waiting for. If you were at the recent NARM Convention in SF, you witnessed the enthusiastic response the iaded industry crowd gave to Jon Anderson and Tony Kave when they appeared in the PGD presentation - multiply that by a million or so and that's what the fans feel! The first single, "The Calling," moves 3-2* on Power Cuts (it's also #3 Most Requested).

Talk debuts on the Hottest Sales Nationwide at #29* and at #15* on the In-Store Play chart. A total of 140 MarketMakers report chart debuts, 116 of which are Top 30 or better, including Tower Uptown/ NYC #4, CD World/South Plainfield #1, Lechmere/ Boston #15 and Music Vision/St. Louis #10.

TIM MCGRAW

"It's that 'Indian Outlaw' song that's driving customers in across the board!" Luann Shockley, Dingleberry's/Dayton

Last year, Tim McGraw was listed in "Country America" magazine as one of 12 artists "Most Likely To Succeed in 1993." His self-titled debut opened the doors to success and his follow up, *Not A Moment Too Soon*, is one of the hottest new country releases.

The first single, "Indian Outlaw," is Top 10 at Country Radio, while the video can be seen on TNN and CMT. From the first day that the video hit CMT as their "Sure Shot" clip, the switchboards at radio stations were lit up with requests!

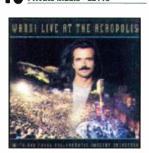

Not A Moment Too Soon debuts at #48* on the Hottest Sales Nationwide, with 59 accounts reporting chart entries, including Twisters/Lincoln #4, Believe In Music/Grand Rapids #13 and Be Bop Records/Jackson #6.

"This is selling big to the acid jazz crowd." Kristen Frederick, Virgin Megastore/LA

The Brand New Heavies are a true gem. They kick out some of the most memorable fusions of jazz, funk and hip-hop, all without the use of (or apparent need for), drum machines, samples or computer sequencers. Judging by the tremendous out of the box sales for Brother Sister, it's obvious that they've increased their fan base since Heavy Rhyme.... The first single, "Dream On Dreamer," is Top 15 at Urban Radio and moves into the Top 30 at Hit Radio, while the video is in Buzz Bin rotation at MTV and is in Heavy rotation on RET

Brother Sister debuts at #50* on the Hottest Sales Nationwide, with 90 MarketMakers showing chart entries, including Kemp Mill/Baltimore #30, Leopold/Berkeley #5, and Orpheum/Seattle #8.

Live At The Acropolis

YANNI

"As soon as we get it in, it's gone again!" Todd Robinson, Gem City Records/Dayton

Todd continues, "We've even had a few customers come in and ask us to hold multiple copies for them." Serious sales continue to be logged for Yanni's immense undertaking. Live At The Acropolis. The 90minute PBS special is still airing in different markets, TV and print advertising is still in place and some retailers are playing the music video in-store contin-However, ually. the announcement of his major US tour is what really sent sales skyrocketing!

Live At The Acropolis races 18-14* on the Hottest Sales Nationwide, with 33 more accounts reporting chart debuts which brings total mentions to 130. Harmony House/Detroit reports a #4 debut chainwide, while Music Millennium/Portland logs a debut at #25.

"Strong in-store play and merchandising, along with local play, move *Motley Crue* 42-34!" Ben Gold, M&F Records/Greenville

Motley Crue has returned to the rock scene after a fouryear hiatus (sans former frontman Vince Neil) with their self-titled sixth album, and the recention has been more than warm! The addition of ex-Scream screamer John Corabi seems to have revitalized the Crue, as Motley Crue displays a harder sound than found on the band's previous albums. The single, "Hooligan's Holiday," is Top 20 on Power Cuts (it's also Top 10 Most Requested and Top 10 Heavy Nighttime). The album is #3* at RAWk Radio. The video for "Hooligan's Holiday" is in On Rotation at MTV.

Fans seem to dig the new, updated version of the Crue. *Motley Crue* is #9* on the Hottest Sales Nationwide and #3* on the RAWk Retail chart. Thirtyone buyers show chart debuts, including Best Buy/Minneapolis #8, Blockbuster Music Plus/Atlanta #2 and Michigan Where House/Lansing #14.

"We're feeling definite effects from heavy play on WCMF and WBER; CTD shoots 9-5!" Jeff Avery, Lakeshore Record Exchange/Rochester

God Shuffled His Feet, showcases the boundarycrossing appeal of the hottest thing to come out of Canada since Bambi Bembeneck was extradited back to the States!

Crash Test Dummies move 11-10* on the Hottest Sales Nationwide, hikes 10-7* at VIRTU-ALLYALTERNATIVE Retail and holds at #2* at Adult Rock Retail. A total of 209 buyers show chart mentions, of which 157 are Top 20 or better, including Universal/Philadelphia 19-6, Strictly Discs/Madison 6-3 and Moby Disc/LA 15-12.

At Adult Rock Radio, it's #7*, and it's also #7 at VIR-TUALLYALTERNATIVE Radio. "MMM MMM MMM MMM" moves 25-22* on Power Cuts (#9 Most Added). The video for "MMM MMM MMM MMM" is in Active rotation on MTV and is in Heavy rotation on VH-1.

"Local radio play on the new tracks helps drive Unboxed sales into the Top 15!" Cara Portnoy, Rockit Records/Boston

The Red Rocker apparently still has the Midas touch, regardless of whether he's fronting Van Halen or going it solo. Sammy Hagar's latest effort, *Unboxed* (a collection of his solo work, plus two new songs), showcases the hard-edged, poprock guitar and gritty vocals that Hager first displayed on Montrose's 1973 debut, and that have characterized his long and successful career.

Unboxed has gotten off to a fast start. "High Hopes," the first single, is lighting up the radio charts, as it's the #4 Most Requested Song and #3 Heavy Nighttime, and it moves 5-4* on Power Cuts. The album rolls 6-5* on the Hottest Airplay Nationwide. With 25 more debuts at retail, Unboxed climbs 53-52* on the Hottest Sales Nationwide and debuts at #15* at RAWk Retail. Debuts include Blockbuster Music Plus/Atlanta #41 and JJ's Ear Candy/Carson City #10.

"Doing better than expected - don't fall asleep, 'Woke Up With A Monster' could be a monster!" Roman Kotrys, Repeat

The Beat/Dearborn

They're ba-ack! With prodigal bassist Tom Petersson coming back into the fold, all four original Cheap Trick-sters are reunited for another turn on the rock n' roll-go-round. While it has been a long stretch since *Live At Budokan*, time has done little to erode the subtly skewed pop spirits and appeal of Robin Zander, Tom Petersson, Bun E. Carlos and wacked-out guitar hero Rick Nielsen.

Woke Up With A Monster is off and running, with a #66* debut on the Hottest Sales Nationwide and a #16* debut at RAWk Retail. Sixty-seven accounts report chart debuts, including Rockit/Boston #7, Repeat The Beat/Dearborn #13 and Cutler's/New Haven #27. Radio has picked up the ball with a 14-12* move on Power Cuts for the single and title track (it's also Top 10 Most Requested and #15 on the Heavy Nighttime chart). The video has just been added at The Box.

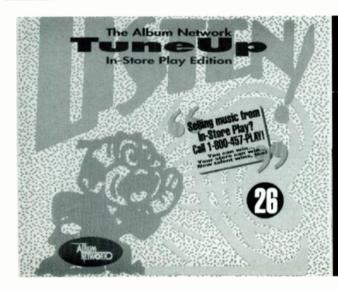

"With tons of WHFS and WIYY play, *Dookie* is doin" good!" **Rachel Morris, Tower/Rockville**

 \odot

While Dookie is Green Day's major label debut, the Northern California quintet have been playing their infectious coalescence of power-pop and punk for the better part of a decade, and their tireless gigging throughout the country is starting to pay off. While Green Day can be called a punk band, they render their aggro-output with a definite flair for the melodic, which demands airplay from an array of stations and formats. Dookie is #9* at VIRTUALLYALTERNA-TIVE Radio, while "Longview" moves 89-73* on Power Cuts. The video is in Stress Rotation on MTV.

Dookie jumps 88-84* on the Hottest Sales Nationwide, and moves 16-13* at VIRTUALLYALTERNATIVE Retail. Chart debuts are reported by 29 buyers, including Tracks/Indianapolis #20 and Odyssey/ Las Vegas #44.

CONFEDERATE RAILROAD

Atlantic/TAG + 825

Confederate Railroad is running right on time, with their self-titled debut now Platinum and ACM's award for Top New Vocal Group. The follow up release, *Notorious*, is already taking off like a shot, as it debuts at #73* on the Hottest Sales Nationwide.

"Daddy Never Was The Cadillac Kind" is the first single up, and it's rapidly climbing the country charts. Currently it breaks through into the Top 50, and the video for this cut is in rotation on CMT and TNN. *Notorious* is getting known early on for pleasing fans, and 41 of our MarketMakers report sales debuts, including National Record Mart/Pittsburgh #40, Record Theatre/Cincinnati #21 and Cat's CDs/Nashville #18.

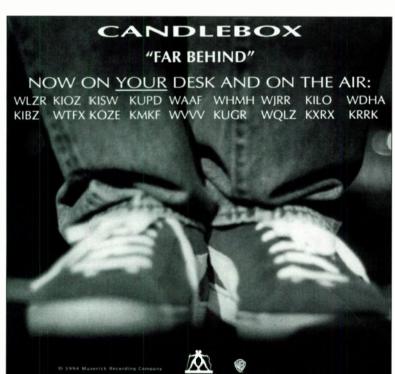

SHERYL CROW

Things are really falling into place for Sheryl Crow, as *Tuesday Night Music Club* jumps 78-74* on the Hottest Sales Nationwide. Activity is still strong at Rock and Adult Rock Radio, for the album and the single, "Leaving Las Vegas," and A&M is set to let the track loose on Hit Radio this week. MTV has the video clip for "Leaving Las Vegas" in Active Rotation, and it can also be seen on The Box. The steady growth in sales and debuts each week is evidence that Sheryl Crow is not going to be denied. Strong sales gains were reported by HMV/Cambridge 38-24, Title Wave/Minneapolis 11-7, Tower/El Toro 92-32 and Music Millennium/Portland 78-22.

Angela Winbush is one lady who has it all; her attributes include songwriting and production skills, a voice to be reckoned with and the kind of class that most women only dream of. With the release of *Angela Winbush*, and its lead track, "Treat U Right," Angela is proving just what strengths a woman does possess.

Angela Winbush jumps 83-80* on the Hottest Sales Nationwide, while collecting another 19 sales debuts. "Treat U Right" moves 11-6* on the Urban Radio chart, and the video clip can be seen on BET. She has now released her latest solo release, *Essex*, and fans couldn't be happier. This Grammy-nominated artist has become known as the epitome of smooth and silky singers.

Essex debuts on the Adult Rock Radio chart at #37* and on the Hottest Sales Nationwide at #88,* with 58 retail debuts being reported. MarketMakers showing strong sales debuts include Music Warehouse/Chicago #21, Atlanta CD/Atlanta #46 and Orpheum /Seattle #4.

BU BEST

Have you been finding that an ever-expanding segment of your clientele is begging for great music that's not outright aggressive, entirely electronic or fueled by distortion? Well, you can thank the muse of Adult Rock and check your hat here; the subdudes have returned with their sparkling debut release on High Street Records, annunciation.

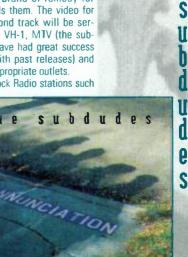

The subdudes have already cultivated a tasteful following with their two previous releases (on Atlantic's Atco label), and with annunciation, the band has reached the often elusive, perfect moment for musicians - the record of a lifetime

The team of the subdudes and High Street must have been conceived just for grand success at the Adult Rock Radio format, and so far, that pairing has paid off. The first emphasis track, "(You'll Be) Satisfied," just scored Top 10 status at the format and it will soon be followed by the undeniable cut "Why Can't | Forget About You.

The bright acoustic guitars, clean percussion, moaning organ, emphatic accordion and searing blues guitar riffs form a natural background for lyrics that are interpreted with so much understated emotion, it's as if you've been stroked by a feather in your sleep. annunciation offers what might result from Los Lobos jamming with the Neville Brothers at a blues festival, and it feels great!

This Tuesday marks the release of annunciation, and since the subdudes tour no less than 100 days a year already, assuredly, they will be out in force giving fans their special brand of remedy for what ails them. The video for the second track will be serviced to VH-1, MTV (the subdudes have had great success there with past releases) and other appropriate outlets. Adult Rock Radio stations such

KFOG/SF and KQPT/Sacramento have welcomed the subdudes to the fold, and as the news of this release spreads while the band tours the US and Europe, you are among the very lucky who have the opportunity to dive deep into annunciation. You'll soon be singing its praises!

Liar IMAGO

There is perhaps no other performer in the realm of popular music who has a presence as magnetic as that of Henry Rollins. Whether it's in a spoken word performance, on stage with the Rollins Band, in magazines, on the silver screen or MTV, Rollins is everywhere.

And everywhere Rollins is, he absolutely commands your attention. Now, with the release of "Liar," the first single from the forthcoming album Weight, Rollins is ready to command your phone lines and your airwaves. If you have any doubts about how wellknown Henry Rollins is among your audience, just a test spin of this twin assault of bone-crushing guitar and Rollins' own pointed observations on liars (and those who perpetually believe them) will convince you.

Michael Been

"Us" Qwest/Reprise

As the bassist and principal songwriter for The Call, Michael Been had an almost unparalleled gift for crafting songs filled with emotion. And as The Call's frontman, Been had a similar gift for wringing the emotion from his songs with his often gut-wrenching vocals. It's now been four years since the last album from The Call was released, and Been surfaces once more with "Us," his debut single as a solo artist. "Us" is filled with driving beats, turbulent guitar and the same dynamic energy and passion that drove The Call (due in no small part due to the fact that 3/4 of the band is featured here), showing that Been has lost nothing at all over the last four years.

Grant Lee Buffalo

"Fuzzy" Maverick/Slash/WB

Grant Lee Buffalo turned a number of heads last year with its captivating debut, Fuzzy, which garnered widespread critical acclaim. For both the uninitiated and those who can't wait for the next full album, Grant Lee Buffalo returns with a track from the With Honors soundtrack, that was also the band's debut independent single and title track from their album. "Fuzzy" is a gentle, rolling, acoustic-oriented track with an eerie, haunting feel that quickly works its way into your brain, practically demanding repeat listens. If you missed out on Grant Lee Buffalo last spring, don't make the same mistake this year by passing over "Fuzzy."

The Crow Soundtrack Atlantic/TAG

Over the last year, Alternative Radio has been inundated with a number of soundtrack and benefit albums that have featured stellar lineups and some equally terrific tracks. But most of those pale in comparison to what The Crow has to offer. With music rang-

ing from Pantera to Jane Siberry to The Cure to Rage Against The Machine, The Crow features new tracks from some of the most exciting names in music today.

The tenor of the album is decidedly ominous, which seems to fit well with the movie and the mysterious circumstances surrounding star Brandon Lee's death. The Cure pop up here with "Burn," a suitably moody track that works with slowly building intensity, leaving Robert Smith ample room to weave his vocal artistry. Stone Temple Pilots are also represented with the blues-tinged "Big Empty," which takes the sound that has served the band so well a step further. Also notable here is a welcome reintroduction to the guitar crunch and tight riffing of Helmet, a band who has been away for too long, on the gritty "Milktoast." Also included are great new tracks from My Life With The Thrill Kill Kult, Medicine, Nine Inch Nails (not on the album) and Rage Against The Machine; these bands all weigh in with inspired tracks that exude a variety of moods and emotions.

Adrian Belew

"I See You" Caroline

Kudos to Adrian Belew, whose Caroline debut, Here, continues his trademark prog/pop compositions, most notably in the single "I See You." Written for his wife Martha, "I See You" features the distinctive formula of clear vocals, pop guitar lines and studio tricks that has made Belew's solo contributions the rich works they have been since the initial release of Lone Rhino in 1982. While most pop music gets lost amid cliches and musical pretentiousness, Belew's single displays his ability to craft meaningful songs that showcase his musical prowess with great restraint. In evaluating a man who is perhaps the most innovative pop composer of the last two decades, one must agree with Trent Reznor's assessment: "Adrian Belew is the most awesome musician in the world.

Phish

Hoist Elektra

The stirring, energetic live performances and stylistically eclectic music of this New England quartet have long earned them attention from a group of steadfast fans who rival Deadheads in their sheer devotion. Phish's fifth and most recent release, Hoist, continues their trademark sound, a combination of country, jazz and rock that is pervaded and highlighted by Trey Anastasio's ripping, Santana-like guitar playing. The upbeat, funky strains of "Down With Disease" have already broken free in more than one radio format. Drawing upon ideas that have flourished in classic rock, Phish create a unique and modern sound, characterized by highly stuctured songs and more than competent musicianship. Watch for Hoist to eclipse such previous releases as Picture Of Nectar and Rift in terms of both commercial success and critical praise.

The Charlatans

Up To Our Hips Beggars Banquet/TAG With Up To Our Hips, The Charlatans continue to produce

the appealing pop compositions flavored with melodic guitars and popping rhythms that drew them into prominence out of the Manchester scene of the late 80s. The attention given to sound quality lifts the songs above everyday songwriting, adding edges of ambience and emotion

vocals of Burgess weave confidently through the pleasing interplay of keyboards and guitars in such songs as the leadoff track, "Come In Number 21." Although this style dominates much of the album, The Charlatans are not to be pigeonholed in one context or another, as proven by a track like "Feel Flows," a funk tinged, fullthrottle instrumental that features distorted keyboard and guitar in minimalist progressions over the crashing swing of Jon Brookes' drums.

Inspiral Carpets

Devil Hopping Mute/Elektra

The latest release from the Manchester-based Inspiral Carpets has already permeated Alternative Radio with the burning single "Party In The Sky," and it's sure to follow with many more. The Carpets recruited producer Pascal Gabriel (of EMF fame) to oversee this effort, and the combination has paid off. Gabriel's dance-oriented production values add a new twist to the band's sound, by creating a unique balance of guitar and keyboard which is driven by a drummer made to sound almost machine-like. The result is a pleasing evolution of Inspiral Carpets' sound, from a keyboard-based pop to gutsy, guitar-based dance. This sound reaches its heights in such tracks as "Uniform," "The Way The Light Falls" and "I Want You" (look out for the import single of this song featuring The Fall's Mark E. Smith on vocals). Devil Hopping is a solid indication that Inspiral Carpets are a band who will continue to grow, as surely as they have evolved from their 1988 beginnings, when John Peel declared their "Keep The Circle Round" the best single of the year.

Sister Psychic

Surrender, You Freak Restless

Escaping the cliches that characterize many of their fellow Seattlebased bands, Sister Psychic turns out а strong collection

of rock-edged, pop grooves on their sophomore effort, Surrender, You Freak. Rather than rehashing the retro-Sabbath strains overused by many of their contemporaries, Sister Psychic indulges in the styles of late-80s progressive bands, creating a sound that careens on the delicate tones of warm, acoustic progressions, but comfortably lapses into psychedelic guitar layers and exciting distortion. Tracks to be noted include a unique cover of "Kim The Waitress" and "Velvet Dog," which is already demonstrating to Alternative Radio Sister Psychic's potential for producing distinctive power pop.

Sausage

Riddles Are Abound Tonight Prawn Song/Interscope/TAG

Long before Beavis And Butt-Head were recognized as the cultural authorities on what does and does not suck, a pioneering and weird bassist named Les Claypool was attempting to draw a following committed to the fact that his band sucked. Throngs of moshing teens might tell you that Primus sucks, but they don't even know the full scope of it. Before Primus' trademark funk/thrash received such cruel praise, Claypool was sucking in a different band (a predecessor of sorts) called Sausage. With old time friends Todd Huth (guitar) and Jay Lane (drums), Claypool has reassembled Sausage, a group who helped found the sound that was to become known as Primus. Riddles Are Abound Tonight only features some of the characteristics of Claypool's other group. Atonal guitar and insane drums are not to be found on Sausage's record. Rather, Huth and Lane serve up a dish that, according to Les, is "definitely more groove-oriented." There's still plenty of Claypool's slapping, fretless madness, though, which makes for an interesting combination that has the confidence of an experienced act but the sound of something still fresh.

Sue Stillwagon Manager Metal Promotions Zoo Records

Quite an impressive roster has been built over at Zoo over the past couple of years, and to get an

inside view on the process helping to build up a label from the radio side, industry vet Sue Stillwagon was the subject of our call this week. Her six years at Elektra, and one at Hollywood, working in promotions, gives her a perspective that RAWk central wanted to explore. Since coming to Zoo in January (at the behest of Brad

Hunt), Sue's been vital to the growth of the company. With acts like the amazing Tool, Course Of Empire, Green Jelly, Varga and the forthcoming Spade Ghetto Destruction, there's plenty of diversity at the label, which calls for completely unique battle plans.

Varga caught our immediate attention; this promising Canadian act has just begun to battle to get established. "I really want Varga to go the distance," Sue told us. "We've created a base and it's time to pull together and run with it. It can really be fun when everyone at a label is really into a band. I'm excited about all of the people who have called saying they are truly into the band; some stations are going so far as to add the album ahead of

schedule without hesitation. That makes it exciting."

But what about Green Jelly? Will they be viewed only as a novelty band? "If they had just put out a record, it could have been that way," Sue admitted. "But there is so much more going on which will make it

work. Green Jelly has a pilot for MTV, a cartoon series and a Marvel comic coming out. They'll be all over the place. There will be no ignoring this band."

What else is on the Zoo calendar? "Spade Ghetto Destruction is coming this summer," Sue said. "We'll use a real street approach on that one, to take advantage of the buzz the band created. See, one of the things that you are doing at a new label, besides trying to break new acts, is build a catalog at the same time, so it makes much more sense to build bands organically, to get a real strong base and think long term. That's definitely what happened with Tool. I know that when that band goes Platinum, there will be a big celebration here." Good luck and smart thinking!

Weight

Imago

You can think what you want about Henry Rollins because, basically, he just doesn't give a fuck what you think. To say that Rollins' time has come is the understatement of the year. To say that Henry is about to explode would be much more like it. RAWk, metal, alternative or mainstream, Henry covers it all on his new album, *Weight*. Prime cuts include "Liar," "Step Back," "Disconnect" and "Divine Object Of Hatred," but everything here is phenomenal. I suggest you play the fuck out of this one, 'cause you don't want Henry to come knockin' on your door. With the most credible underground cult following this side of Glenn Danzig, Henry Rollins is primed, and this album will be just what is needed for mainstream acceptance. For the new heavy of 94, he is the perfect fit.

callsgestuyaunptayan

Surgery Shimmer

Atlantic/TAG

You can almost feel the walls sweat when the street tough, punked-up energy of Surgery roars through the speakers. Emerging from the underground via 7-inch singles to land a major deal on Atlantic, Surgery has maintained its 'tude and come up with some sterling rock workouts. "D-Nice" was a great opening track to set the mood, but don't miss "Bootywhack," the trippy "Low Cut Blues" or the Stonesy, naughty "Gulf Coast

Score." There's plenty of Nu Yawk toughness and muscular melodies on *Shimmer* to keep Surgery on playlists for a long time.

Inch

Stresser

There are some major, way cool guitar riffs in this packet, friends, and we were totally taken back by the Smith-like guitar structure and angst-laden, RAWkin' attitude that, together, make Inch an excellent combination. This band is a border basher, rolling over the labels and categories by just being real. Every time you think the band can't possibly come up with another clever, catchy riff, there's one more staring you in the face. You can't go wrong by checking out

"Kermit The Hostage" and the title track, "Stresser"; both worthy candidates for getting Inch more than an inch up.

Stuttering John

"Talk My Way Out Of It"

Atlantic/TAG

Haven't we all wished we'd had moments like this? There you are, kicking the boss in the ass in front of the whole office, while everyone who sees it stands motionless; if you were the class (rock) clown, Stuttering John, you would figure a way to get everybody out of this jam. You'd completely deny it and talk your way out of it, and end up writing a song that would get you a record deal. Fantasy? No, it looks like comedic reality this time, and the joke's on us. Stuttering John infiltrates this RAWkin' world with the guitar-stomping first track off his new album and a powerful, yet tongue-in-cheek vocal style that really works. This is no tall tale folks...this is rock n' roll.

The tonality of Cell is so unique. The guitars have a delightfully thrashy sound, real down, dirty and slinky, giving the band a real immediacy. Even when Cell explores more delicate musical territories, like on "China Latina" or "Goodbye," there's always a feeling that there is an explosion just waiting to happen. Nothing about *Living Room* feels too analytical. It sounds like four guys looking at each other in a room and playing off the vibe, and it works.

Various

come

The Crow

COL COL

It would be hard to come up with another list of bands that would be as cutting edge as the ones selected for the soundtrack to the motion picture "The Crow," whether they be more alternative in nature or sheerly powerful bands. From a RAWk perspective, we are well represented, with cuts from Pantera, Stone Temple Pilots, Helmet and Rage Against The Machine. The initial focus was on Helmet's "Milktoast," and the next track singled out for attention could easily be For Love Not Lisa's alluring "Slip Slide Melting."

Small Ball Paul

You In Flames

Emerging from the underground via St. Louis, Small Ball Paul (obvious Cardinals fans) employs the garage-style, beefy guitar attack with some tasty dynamic touches. "Like Swallows" is a prime example, with a powerful melody that gate meanand into

melody that gets massaged into your brain quite thoroughly. Definitely a cut to consider.

The Obsessed

Video Documentary

This is one extremely cool video that should be checked out by the already converted Obsessed fan and the soon-to-be fan especially! Featuring the likes of Henry Rollins, Phil Anselmo, Cathedral's Lee Dorian, White Zombie's Jay Yunger, L7's Jennifer Finch and dudes from Fugazi, and the list goes on...telling their experiences with WINO and The Obsessed and why it is such a revered band. Also included is vintage tape of WINO's pre-Obsessed band, Warhorse in 78 at a high school and interviews with kids after the show. Also footage of The Obsessed rehearsing in what appears to be an auto repair shop. It's only 27 minutes long, but contains enough info and cool clips to help you understand a little better just what The Obsessed is all about.

the second annual Black Rock Lockdown in Atlanta on May 14, sponscred by Coca Cola, is really looking up. If everybody is confirmed, it could be **Parliament**, **Mother's Finest**, Living Colour, **Fishkone**, Follow For Now, Bad Brains. The Veldt and 24-7 Spyz

The Spyz have reformed; all the original members are back together, and they're booking a national tour that's bound to get them back in the limelight. Jimi Haze and company are far too talented to be between deals for much longer Body Count is now recording for Virgin, and they'll call the new album Born Black Born Dead. sounds like he still has plenty to say I'm sure most of you know that OZZY Oshourne is looking for an all-new band. One of the daly newspapers here (the LA Daily News) ran it as a short story. Yeah, I guess it wouldn't have worked in the classified section Stevie Salas, who co-wrote and co-produced Sass Jordan's album, has officially joined the band. Will they call it Sass Jordan Colorcode? I'm sure Stevie will find plenty of time to do all of his solo stuff as well Thanks to my pal Derek Oliver at EastWest for passing along an advance copy of the Mother Station album, his latest find out of Memphis. This band really smokes; real gutsy, bluesy and rootsy - just a great band. Don't miss this one! Blackie Lawless, whose W.A.S.P. album did some solid numbers at radio, is already back in the studio working on new tunes 🛑 If you're a classic rock fan, you'll probably love the new Robin Trower album. Robin has an all-new band and some great new blues rock tracks to consider. I understand it will be marketed differently, and when it's explained to me, I'll print it in this column. The release date is mid-May That's all I could drudge up this week.

CRYPT KICKER

Are you ready to go under the knife? Good, climb up on the table and strap yourself down because there won't be any anesthesia for this Surgery. Formed in Syracuse in 1987, Surgery immediately headed for The Big Apple where they were quickly snatched up by Amphetamine Reptile Records. A couple of 7-inches, an EP and one full album later Surgery make their major label debut on Atlantic Records with Shimmer. The initial "cut." "Bootywhack" is absolutely brutal in the bass department

with John Lachapelle demonstrating his maniacal four-string prowess. Surgery operate with a Stones feel on "Off The A List." After a tripped-out "Shimmer" things get sharp and speedy again with "Vibe Out" and "Mr. Scientist." "D-Nice" just slices you up with intensity before sliding back into that blues vibe on "Gulf Coast Score." Surgery successfully mix punk, blues and hard rock influences to create their own signature sound on Shimmer and with production by GGGarth Richardson (Rage Against The Machine, Melvins, L7) this one could be big! greg sorrels

Boz Scaggs

Some Change

The Bozman is back and what a great record he gives us! His smooth side is still there, but a little bit 'o Texas grit has returned as well. Some Change will easily rack up multi-Platinum sales and keep Scaggs on the radio for a long while.

He produced the album and plays all the guitars, as well as keyboards and an odd array of other instruments, and, of course, we get to hear his distinctive and soulful vocals again. The album was co-produced by Ricky Fataar, who plays the drums, other percussion instruments and keyboards. Additional guest musicians include Fred Thackett (guitars), James "Hutch" Hutchison (bass), Booker T. Jones (Hammond organ), and Kevin Bents (Rhodes electric piano).

From the beginning to the end, we are treated to consummate musicianship, impeccable production and arrangements, and memorable songs. The five-track sampler gives you an ample taste of the entire album. "Some Change" takes us back to Scaggs' early days and clearly shows those Texas roots, especially with the tasty guitar work (play the full-length version or you'll miss some of the best licks). "Illusion" continues with the Texas blues feel, but also blends a little bit of a jazz groove for flavor. "You Got My Letter" is your basic shuffle with bitin' lyrics and a solid hook. "Fly Like A Bird" has Cajun spice and "Time," a tribute to the blues and soul music Boz loved so much as a boy, builds to an incredible level of power and energy by the end of the song. We could stop here and be more than satisfied, but the album contains more great tracks! In addition to the sampler choices, I really like "I'll Be The One" and "Sierra."

With Honors OST

Easily, one of the most overlooked bands of last year was Grant Lee Buffalo. Their debut album on Slash, *Fuzzy*, was a deceptive collection of song tales that seemed, at first, to be traditional, acoustic-based songs, but with further listening,

proved to be subtle and adventurous musical explorations. We now have the chance to redeem ourselves as "Fuzzy" (the song), is one of the lead tracks from the soundtrack of the film "With Honors." The movie is about Harvard honor students striking up a relationship with a homeless man. It was directed by Alek Keshishian who did Madonna's documentary, "Truth Or Dare."

1 10

Formed in 1986, Grant Lee Phillips (guitar, vocals), Paul Kimble (bass, vocals) and Joey Peters (drums) gigged around the Southern California club circuit under many guises, both in names and musical styles, until the sound that is now their own emerged. "Fuzzy" was produced by bandmember Kimble, and it fully represents the understated but richly infectious style Grant Lee Buffalo possesses.

There are several other tracks on *With Honors* to take note of, including Belly doing the Tom Jones classic "It's Not Unusual," The Pretenders performing Bob Dylan's "Forever Young," Lyle Lovett's rendition of the Irving Berlin standard "Blue Skies" and Babble's "Tribe," but the standout track for Adult Rock Radio is clearly Grant Lee Buffalo's "Fuzzy."

Dr. John

Television

A prodigious songwriter, killer piano player, singular vocalist and renowned producer, Dr. John (aka Mac Rebennack) is also a one-of-a-kind performer and personality. With *Television* (his GRP/MCA debut), this New Orleans roots doctor and self-proclaimed Crescent City ambassador delivers the follow up to his Grammy Award-winning *Boing Back To New Orleans*. We are treated, once again, to his own brand of funky blues rock with an attitude that is straight from the streets.

Co-produced with guitarist Hugh McCracken, the CD features an allstar cast of musicians, including flutist David Newman, saxophonists Alvin "Red" Tyler and Ronnie Cuber, trumpeter Randy Becker, guitarist George Wadenius (in addition to McCracken), bassist James Genus and drummer Freddie Stahl. Together they create a movin', groovin' sound that is gay-run-teed to get your feet movin' and your booty shakin'!

All the songs on *Television*, were inspired by what we see on television, and as Dr. John puts it, "how it speaks about the condition of our lives and today's society." Several tracks stand out, including "Television," "Witchy Red" and "Shadows." He also does covers of two funk classics; "Thank You (Falletin Me Be Mice Elf Again)" and "Money."

A Tribute To Otis Blackwell

The folks at Shanachie have come up with another great tribute collection, honoring the music of Otis Blackwell. He has written over 1,000 songs that have totaled more than 200 million copies sold! Many of his songs were recorded by such greats as Elvis

istory

Presley, Jerry Lee Lewis, Little Willie John, Peggy Lee and Jimmy Jones.

On Brace Yourself! A Tribute To Otis Blackwell, we are reminded how all-encompassing his music was in the 50s and how vibrant it remains to this day. Everything on this collection is powerful and playable, but I would like to point you to a few tracks that moved me: Graham Parker doing "Paralyzed"; Paul Rodgers singing "Home In Your Heart"; Joe Lewis Walker's rendition of "On That Power Line" and Willie DeVille crooning on "Daddy Rolling Stone." Other songs are performed by Chrissie Hynde, Frank Black, The Smithereens, Tom Verlaine, Deborah Harry, Joe Ely, Sue Foley, Ronnie Spector, Jon Spencer, Dave Edmunds and Kris Kristofferson. There are an equal number of great players represented, including Tony Visconti, Chris Spedding, Steve Cropper, Jon Tiven, Kenny Margolis, Jimmy Destri, Arno Hecht and Crispen Cioe.

Otis Blackwell's music is definitely deserving of a tribute as well done as this one is!

The Badlees

The Unfortunate Result Of Spare Time

Our very own Jim Nelson has been shouting praise for this central Pennsylvania-based quintet ever since their latest release, *The Unfortunate Result Of Spare Time*, came out! I have noticed some tastemaker Adult Rock stations giving this album some exposure, too. Perhaps it is time for you *and* me to spend a little more time with The Badlees and their music.

On The Unfortunate Result Of Spare Time (their third release, but first for Sharkstooth), we are given straightforward and well-crafted songs. The band has essentially remained intact since its inception several years ago, and it features Jeff Feltenberger, Ron Simasek, Bret Alexander, Pete Palladino and Paul Smith. The band's stability is quite apparent via their tight instrumentation and right-on, four-part harmonies.

The Badlees definitely know how to rock with their more upbeat, Southern boogie sounding numbers, but the acoustic-based songs are where their talents really shine. Check out "You're Not The Only One," "Easier Said Than Done," "Little Eddie," the almost gospel-like "A Matter Of Time" and their current emphasis track, "Laugh To Keep From Cryin'."

New Grass Revival

Best Of New Grass Revival

You may or may not be aware of the tremendous talent and innovation New Grass Revival represented in the field of folk/blue grass music (I wasn't), but this collection of their best material is a cram course for the uninitiated, as well as a definitive greatest hits album for those in the know.

Each member was an extraordinary musician possessing depth, talent and originality. Violinist Sam Bush was the founding member of New Grass Revivat in 1971. By the age of 17, he had won the National Junior Fiddle Championship three times in a row! John Cowan joined the Revival in 1974, and his inventive bass playing gave a whole new drive to their sound. He also was the powerful and breathtaking vocalist for the group. When the band reformed in 1981, a new versatility was developed with the additions of Bela Fleck on banjo and Pat Flynn on guitar. Flynn also added a new dimension to the vocals and contributed significantly to the songwriting.

No matter the genre, great musicians playing great music create something special and timeless. New Grass Revival certainly had that unique chemistry. *Best Of New Grass Revival* is a great addition to any Adult Rock station's library, and it deserves some spins!

The Brian Setzer Orchestra The Brian Setzer Orchestra

Brian Setzer has put together a 17-piece band that merges the roots of rock n' roll with the smooth sophistication of big band swing. Recorded at Capitol's historic Studio A with Al Schmitt (who engineered most of Sinatra's biggest recordings), several swing, theme song and rock classics get a treatment unlike any you have heard before! The old Vince Taylor tune, "Brand New Cadillac," has "The Theme From Peter Gunn" in the middle, "Route 66" cooks and "Nightingale Sang In Berkeley Square" really showcases the orchestra's horn section. There are some original tunes on the disc, too, including "Lady Luck," "Ball And Chain" and "September Skies." Finally, The Brian Setzer Orchestra does a down and dirty version of The Stray Cats' classic "Drink That Bottle Down."

Sure, it's jazzy and has traditional arrangements, but the emphasis on the lead guitar in most of the material, and Setzer's distinctive voice makes *The Brian Setzer Orchestra* a joy to listen to. You can have a lot of fun with this one!

C.C. Adcock

C.C. Adcock

It doesn't take long to figure out where C.C. is from and the kinda music he likes to play: Swamp rock. There ain't nothin' half-assed about it, either! Like it says in the liner notes: "Recorded on the banks of the Bayou Vermillion." He wrote several of the songs

himself, including "Couchemal," "What I Like (Womens)," "Kissin' Kouzans" (this song has wild lyrics!) and the instrumentals, "Beaux's Bounce" and "Good Lovin'." There are also cool renditions of "Cindy Lou" and "Sally Sue Brown," but the killer (and probably the best candidate for the radio) is Art Neville's beautiful "I'm Just A Fool To Care."

Don't write C.C. Adcock's debut release off before you give it a good listen. His music is raucous, entertaining and very honest!

Lili Anel Laughed Last

Palmetto

Lili Anel's music has touches of folk, pop and jazz, all combined to create a mature and accomplished sound. Her songs, a collection of personal vignettes and observations, are each arranged appropriately for the subject matter contained within. "On The Run" has a great drum track to augment the uptempo nature of the song, "Love Is It"'s bass solo captures the groove perfectly, the intimacy of "Baby When?" is enhanced by a sensuous saxophone, and the poppier side, "Let Her Go" features an electric guitar that fits perfectly. Throughout, *Laughed Last* showcases Lili's full and confident voice.

This Bronx-born singer/songwriter/musician has been a mainstay in New York clubs like The Bottom Line, The Bitter End and Folk City for many years. She is slated to open for Laura Nyro in the summer.

Randy Newman The Paper OST

Reprise

This Ron Howard film starring Michael Keaton, Glenn Close, Marisa Tomei, Randy Quaid and Robert Duvall is about life at a big city newspaper. All of the music has been composed by Randy Newman. Essentially it is incidental music written directly for the film, but there is one track that deserves your undivided attention: "Make Up Your Mind." It's classic Randy Newman; New Orleans vaudevillian in tone, with his usual animated lyrics. It has been a long time since we've heard from Randy Newman, and the wait is over, even if we only get one track to satisfy us.

Backbeat

Backbeat OST

The Beatles have always been portrayed as those "clean-cut British mop tops" while bands like The Rolling Stones were labeled the "bad boys." Well, the movie "Backbeat" is about to change all of that! The story is set in those early days in Hamburg before The Beatles exploded onto the international music scene and changed the complexion of rock n' roll forever. It tells us they weren't such good boys after all (yeah, yeah).

The soundtrack was produced by Don Was, and it features the talents of Greg Dulli, Don Fleming, Dave Grohl, Mike Mills, Thurston Moore and Dave Pirner. The music is true to the times and it cleary highlights the influence of early American rock n' roll during this period of The Beatles' career.

One of the next rock albums to hit the street in the last six months is undeniably the new Soundgarden. After listening to it at least 50 times, no one can argue with the fact this incredible record will stand the test of time - what a fucking great record! Other killer records that will only help continue to strengthen the format that much more are Green Day and Pavement - both are credible records with a great street buzz. How about that #1 retail debut on Pantera?! 185,000 - wow! Congratulations to Andy and Walter, the gentlemen who brought you White Zombie. Hey, guys, can I get a loan? Now that I've mentioned everyone else's records, I need to bring up one that I feel has the potential to be a rock monster - Sugartooth's "Sold My Fortune" - these guys have made a very cool and genuine rock record that's got hooks - and the album is very deep! This one is worth checking out, and they're going to be on the road all summer - the tooth is loose! We're totally committed to this one! Thanks to everyone for all the spins thus far on Sammy Hagar - from what I'm hearing, the early call-out on this track is great - it's only a few weeks old, so "High Hopes" should be around for a long time! One more band to talk about and I'll shut up! Pride & Glory - Zakk Wylde's band is the shit! Get ready for an incredible record - if you don't already know, Zakk played lead guitar in Ozzy's band and co-wrote all the hits from Ozzy's last album! This record rocks and "Losin' Your Mind" is coming out in four weeks! Get ready! PS: Jesse James Dupree has been in the building! Does that mean we just might have a new Jackyl album this summer?!

For those of us who believe in the purity of sports, here's my Final Four prediction: Knickerbockers, Sonics, Spurs, Bulls. Yes, guys who admit they get paid. Top 5 this week: Yes, Pink Floyd, Cry Of Love, Bonnie Raitt and Sammy Hagar. Adds are Smithereens, Frampton, Jimmie Vaughan and Doyle Bramhall; the first two are common sense, and the Vaughan and the Bramhall should stir some phones. The weather's getting better (short sleeves during the days), and we warmed to the task of giving away a couple of Mustang convertibles (thanks to Mercury's Wayne Fogle - a real classic car nut - for helping us find the 64 and a half!). Jimmy Johnson and Jerry Jones - anybody out there really care? Thanks to Richard Spires of Arista for the Dead tix. The spring book is underway - let's get it on! We're ready, with shows from Sass Jordan, Eddie Money, Barefoot Servants, INXS and some guy named Pink Floyd.

Hello out there in radio land...can it core an apple? Oh, yes it can core an apple, and make applesauce, too! The new Infectious Grooves album should be on your playlists and shredding up the airwaves at this point. If you're not playing it, I'll make Mike Muir call you and get "Violent And Funky," and you know what that's like ... stay tuned for some Infectious Grooves tour information soon. Bang zoom - to the moon! Prong stands poised and ready for the super-band status that has eluded them for some time, and if Metal Radio is any indication, they will soon be there! Cleansing is proving to be one hell of a radio album. Numbers don't lie! The requests are there, too! Your listeners want to hear Prong, don't disappoint them (or me!). Another band on the verge of superstardom is **Sepultura**. Look for them to come your way in the hottest tour of the summer (call for details). In the meantime, play the shit out of "Chaos A.D.," 'cause it will rip the knobs right off the radio. Honey - you're the greatest! Please don't forget about Rob Halford and Fight. Rob was making music when most of us were makin' doo doo in our diapers, and he rocks harder than ever. Please call for giveaways. I want to see Fight on all your playlists! The Poor continues to rocket up the charts and surprise everyone. Don't be caught with your pants down on this one - it will be one of the breakthrough bands of 1994. New album by the king of shock rock - Alice Cooper - coming your way soon. "Unholy War" written by (and with background vocals by) Chris Cornell going for adds 4/12. As always, call for info, giveaways and/or abuse. And awaaaaaay we go! C-ya!

Springtime in the Rockies comes with a fond farewell to the last of the skiable snow. Now l've gotta dig that whitewater raft out of mothballs. Some changes are taking place at the best Adult rock n' roll station in the entire state of the big sky! **Dave Cowan** will shift to Operations Manager, as **Gilbert Broadcasting** adds another station on the FM side. This means that I will take over as Program Director and our 7pm-midnight woman, **Kim Rossi**, will segue into the Music Director's job. The transition period will take a couple of weeks, and new call hours for music will be forthcoming. In the music area, we had a blast with the **Freddy Jones Band/The Samples/Big Head Todd And The Monsters** show. Thanks to **W.A.R.?, Giant** and **Capricorn Records** for their invaluable assistance. Next up is **Tab Benoit**, **The Connells** and **Webb Wilder**, all doing separate dates, which should keep the natives somewhat docile...meanwhile, on air we're seeing success with **Sam Phillips** and **Ben Harper. Elvis Costello** is phenomenal (thanks, **Nancy Stein!**) and the **Pink Floyd** is a monster in and of itself. For great spice, and maybe the meat for your neck of the woods, check out the **Beautiful People, William Orbit, Storyville** and the **Rob Wasserman** CD. Your listeners will thank you. A big thanks to **Beth Tallman** at **A&M**...we knew the **Gin Blossoms** were special when the CD first came out. Remember: You've gotta earn your turns if you wanna surf the earth.

On your desk now: In Paris, back in 78, when Mick and Keith needed a genuine dose of that powerful and soulful Chicago blues harp sound, they looked up Sugar Blue, a rising young talent from America who was living there. Though Mick had recorded some nice harp work over the years, he didn't quite have that technically dazzling, yet passionate sound that Sugar possessed. The resulting collaboration, the funky track "Miss You" from the Some Girls release (one of several Stones releases that Sugar appeared on), was a worldwide smash, thanks to, in a big way, Sugar's infectious harmonica riff. With newfound fame and respect from his work with the Glimmer Twins, Sugar Blue nobly decided to continue his career back in Chicago - the "Blues Mecca" - where he immersed himself in a scene populated by blues elders like James Cotton and Junior Wells. He wanted to, as friend Memphis Slim suggested, "Pay some dues and learn the trade." After Grammy-winning work with Willie Dixon and several import-only solo releases, Sugar Blue has made a masterful musical statement with the domestic Alligator release Blue Blazes. From the fantastic reworking of "Miss You" to the satisfied feel of "Country Blues" to his memorable interpretations of blues standards like "If I Ain't Got You," Blue Blazes showcases Sugar Blue's signature harp style, with its fluid virtuosity and unbelievable emotion. Thanks for reading, Buenas knockers!

There is so much new and exciting music to inform you of. From 550 Music, we give you Australia's finest, The Poor, and their debut release, Who Cares. The first video/single will be the drinking anthem of the summer, "More Wine Waiter Please." The Poor will be touring the US shortly and will continue all year long. Also from 550 Music, it's our pleasure to bring you the brand spankin' new Infectious Grooves release, Groove Family Cyco. On this, their second full studio record, the entire band was involved in the writing and the production, and as always, the artwork is done by guitarist Adam Siegel. "Violent And Funky." Aside from The Poor and Infectious Grooves, don't forget our other fine acts, like **Prong** (currently headlining a club tour and a big summer tour announce-ment soon to follow) and their single, "Snap Your Fingers, Snap Your Neck," Sepultura (currently headlining a sold-out tour and, again, a big summer tour announcement soon to follow) and their single, "Refuse/Resist," Fight (featuring the metal god Rob Halford with their single, "Immortal Sin," Rage Against The Machine, Pearl Jam and Ozzy, to name a few. Soon to be released on Epic Records, a new band named Motherland at the end of May, and in June, the best Alice Cooper record in decades, plus a new record to scare your neighbors with from Suicidal Tendencies. Thanks again for cranking up the Epic tunes and as always, please call me with any ideas you might have for a promotion or party.

Erin's NARM 1994 Highlights (in no particular order): 1) "Don't panic!" 2) Trying to explain that no, I did not pick Joe McFadden's pocket! Who started that, anyway? 3) Tori Amos' masturbation story and live version of "Icicle." 4) Discussing body piercing with Lou Mann..."it's like a little barbell...." 5) Meeting Adam Duritz and breaking into tears (love will do that to ya when you least expect it). Please don't tell me he really heard me mumble "come home with me!" when he walked by later! (Though I really meant it!) 6) Being named an "honorary babe" by Dutch "Ya Phoney Baloney" Cramblitt. Don't I get a crown or anything? 7) Toad The Wet Sprocket (nothing more needs to be said). 8) Sharing my "I bit the guy with the motorcycle helmet in the front row" story with Johnny Hickman of Cracker. He won't forget it, I'm sure. I love you, Johnny. 9) Meeting Holly, Yvette, Dutch, Mark, Bill, Mike, Charlie, Matt, Lou, Joe, Michelle, Colin, Jim, Robin, Kevin, Roman, Dennis, George, Phil and Michael, and not meeting any lesbians (or none with "lesbian" tattooed on their forehead). The end.

Well, I was going to use this space to write an insightful and witty statement reminding everyone that I'm graduating in May and moving to New York to seek employment, etc. However, instead I feel I must use it to climb up on my soapbox and scream about a grave injustice. What the hell up is with **Mike Muir** publicly putting down **Rage Against The**

Machine? Fer cryin' out loud, they're entertainers above all, does it matter whether their politics are correct or not? I don't think so. What bothers me the most is why **Mike Muir**, a fellow entertainer, would do this so publicly? It sure as hell won't help him sell albums. What is the purpose behind it?

Hey, you wipe the lunch off your face and dive into that big stack of CDs and pull out **Gutted**'s *Bleed For Us To Live* and **Oppressor**'s *Solstice Of Oppression*. We are going for adds Monday, April 11! Check out the packaging of these CDs. This may sound weird, but they look beautiful! You will also be receiving **Sarkoma's** *Integrity*, their second **RLR** release. You'll be shakin' your groove thang all around the station. They have a real funky thrash sound. Add date Monday, April 18 - look for the postcard. And we have **Skatenigs** just around the corner. I can't thank you enough for the fucking amazing, outrageous, phenomenal, super duper support you have all given this **Coven** release. Without radio, where would we all be?

So there I am on the ninth green, putting for my first birdie of the season, well at least I got to putt for a birdie, can you say bogey? Things are good here in the Northwest, as spring has sprung and the Z is rockin'. **Debi Lipetz-Hohlman** told me I would enjoy the new track from **Junkhouse, "Out Of My Head."** One word can desribe this one: Smokin'. Check it out on **Epic Records. Hagar, Collective Soul** and **Candlebox** continue to have great phone action. And, FINALLY, it's great to see **Soundgarden** get the recognition they deserve. See ya....

My first Metal Blade Crusade! I'm so happy. This place rocks. The folks here are the best and the bands are the coolest and sickest ever! We have much going on here. GWAR's This Toilet Earth is officially on sale, on radio, on Beavis And Butt-Head and on "Headbanger's Ball"! Oh yeah, they're on the road, too. Call me for dates. Cannibal Corpse's The Bleeding goes for adds on April 11 with the first track, "Staring Through The Eyes Of The Dead." The video is great. The guys will be in a city near you the end of April/beginning of May. The album hits stores April 12. Many of you may be afraid now, but your request lines will ease your worries. Staring through the eyes of the dead, nothing looks the same. The Organization is still doing great with "Free Burning," which is now on "Headbanger's." Add "Wonder." It has tested with some great phones so far. Coming: Epidemic, Desultory, Mercyful Fate, Chemlab, Skrew and Beats The Hell Out Of Me. On the road: Beats The Hell Out Of Me, Broken Hope, Chemlab, Epidemic, GWAR and Thought Industry.

We've got big things cooking, and though I'm dying to spill the beans, I will have to wait a little longer...that's why I'm going on vacation. I'll be out April 2-10, and then from April 13-16. **Jon Richardson** will be taking my calls in my absence...please be kind to him. SEE YA SOON!

'SHE "Keeps Talking" about **Pink Floyd**! The Division Bell release and world tour kicking off this week in Miami! We're psyched about both! Speaking of concerts, what a show Monday night! **WSHE** welcomed **Pearl Jam** and it was nothing short of spectacular! **Eddie** rules! "**Spoonman**" from **Soundgarden** rules this week! Great tune! Obviously, it's a can't miss 18-34, but it has a real hip adult appeal, too. Blind Melon's "Change" is a change in sound from their previous hits, but it also has appeal across the board...exactly what we want! "Fire And Gasoline" from Barefoot Servants...is that Stevie Ray or what?! Good stuff! And Sugartooth's "Sold My Fortune"...this tune ROCKS! Yeah...huh-huh-huh...ROCKS! I love it! If you like to crank it up, your craving gets satisfied with Sugartooth. Ciao for now!

Bob Lee KOXR

This is the biggest crock of bullshit I've ever heard! My Music Director, who's been bustin' her ass to get the station some kind of recognition with the labels, has just been HUNG UP ON by some dip-wad disc-pusher because I chose to drop her record, due to the fact that I needed to make room for new music (after all, there're only so many minutes in any given day, ya know), and this label madonna, who has been in the past as evasive as hell (until our R&R status, of course), now has the audacity to think she's a better programmer than **Rochelle** or myself! Can you believe that shit? You people had better come 'round to the FACT that you're not dealing with some raw rookie here; in addition, I'm about this close to cutting off almost all label calls altogether and getting back to normal around here.

If, by chance, you're getting the message that some of you are a complete pain in the ass, you're right. I programmed this radio station to where it is now, and I guarantee I'll double the numbers this book with or without 'cha. You have two choices: Treat Rochelle with the respect she deserves and I'll walk 10 miles to do you favors; treat her like shit and you'll have a hell of a time getting through to her - YOU'LL HAVE TO DEAL WITH ME. You don't want to have to do that, believe me. Let me ask you this question: Would you drop the Soundgarden outta hot for the Yes record? From a programming standpoint, as far as Boise's PIRATE RADIO is concerned, no: Reason being that "Spoonman" represents what it is we do on a consistent basis, not the Yes record. I thought I mentioned last week to keep numbers to yourself. Lastly, if you think I sound like a full-blown, inyourfaceprogramdirectorwithabadattitude, ask Tim Dalbec who's gotten adds on PIRATE RADIO without ever having to pick up the phone. This is a good example of an individual who trusts my judgment as far as my own radio station is concerned. I kind of like that attitude - thanks, Tim; your Pavement record'll move to medium next week. Now, have a nice freakinweek.

Dave Lombardi Warner Bros. Records

The album's Gold-plus. The first two tracks from this band were (and are) certified Rock Radio hits. There's no denying that **Candlebox** is a great story for **WB** and the rock format. Now we come to the song that's destined to be a most-added, destined to be *huge* at Rock Radio, destined to be huge at pop, destined to push the album beyond Platinum: **"Far Behind,"** now on your desk, and, if you're like **KISW**, **KIOZ**, **WIYY**, **WLZR**, **KUPD**, **WAAF**, **WDHA**, **WAXQ**, **KRRK**, **KILO**, **KAZY** and **KIBZ**, on your radio station. Thanks for making **Candlebox** such a success story with **"Far Behind,"** we'll all reap the benefits. I'm out.

Westward ho! After a year and a half in Detroit at WRIF, I guess it was time to make a change and check out the western half of the state. You can find me at WKLQ in Grand Rapids, holding down the APD position. Feel free to clutch my hearing device by calling (616) 774-8461.

Depending on which **Crusade** showed up first, you may have already read that 'KLQ kingpin **Tom Marshall** is no longer available for music calls. So what does this mean? Two things. You can get a hold of me from 2-5pm on Tuesday, Thursday and Friday. Similarly, you can call our fine geek - I mean Music Director - **Dave Wellington** (except on weekends). Hey, the next time you hear from me, it won't be this businesslike BS. Hopefully, I'll have something interesting to say. Rock on!

Well, most everyone has not heard from us yet, but I thought that it was about time to give praise to all bands from Seattle, since we are only 300 miles away (it may seem like a ways, but it's really not). Congrats to Soundgarden and Alice In Chains on their recent success with their new albums. I can't believe how good Pearl Jam is! Enough said. KUGR is also in love with the newer stuff from the Emerald City, like Green Apple Quick Step. We plan on hearing lots more from them! However, on an entirely different note, I have come to a decision that it is time for me to move on from KUGR and hoepfully find something in a bigger market. My time in Puilman has been excellent, but one can only handle peas and lentils for so long. So, in short, thanks to all for being so cool over the past year and a half, and maybe I will see you in your town in the near future. On behalf of everyone at KUGR, thanks for making the past year enjoyable for all at the 95-er, and by the way, this past 10 or 11 months have been our most successful in my three years here. Until next time...don't you go changin'! PS: Anyone need the services of a talented young radio junkie? Feel free to call

Greetings from Augusta! Hope all is right in your world, and that the Southern tornadoes managed to miss you. We might as well warn you now that we are going to be a bit out of pocket next week. It's Masters Week here at Augusta National, and Channel Z plans on being right in the middle of it. The Fleshtones came to Augusta last weekend and played to over 1,000 people in an outdoor concert that absolutely blew everyone away. They were, by far, the highlight of Regatta Fest 94. Another big thanks to Howie Klein for giving our morning show an added kick last week with his wit and special goodies. We ended the "Kevin & Klein" kick-off week with a Friday morning live broadcast from GM Tony Powers' house that was a total blast. Thanks to Joe Hodge for dropping in last week. Hope you weren't hurting too much the next morning. Thanks also go out to John at ERG for the help with the Milla interview. She was a doll and we got some great stuff on tape. We've got a Matthew Sweet concert as well as Pearl Jam and Tori Amos tickets to give away this week, so we'll update you on all that next week. In the meantime, Happy Easter, hugs and kisses, and tons of lovin'.

"Bluest Eyes" from Storyville has many of you in a frenzy, and we can't say that we blame you...a most added record everywhere! Doyle Bramhall is exploding at Adult Rock and Rock Radio in major markets (KORS/Minneapolis, WKLS/Atlanta, KSHE/St. Louis). Pat McLaughlin picks up new adds and conversions, as does Rory Block. Vance Gilbert's Edgewise is also still going strong, and please don't overlook The Blazers, who continue to find new believers.

I, for one, am very happy that the trades are taking plays per week to make up their charts. Yeah, sure, BDS can say that they are the only ones who gather true plays with their little gathering system. But let's get real. Until BDS installs gathering systems in each of the markets that they "say" they cover, it will never be a true count of plays. Take the Modesto-Stockton market, as an example. So, bravo to the trades for taking the plays per week step. Note to BDS: If you won't take the time to install a aplays per week gathering station for Modesto-Stockton, why are you sending me a copy of your little plays per week chart? You're wasting postage and my time - it makes great bird cage lining. Now that I have vented spleen, let's talk music. KDJK has been holding out on adding "Harlem" by lan Moore at the request of Capricorn, but we can wait no longer. Please don't let the time lag from "Nothing" to this track deter you from playing "Harlem." Ian Moore is an artist who we believe in here. We get calls almost every day from listeners asking if he is coming back to play another concert. Play "Harlem"!

I love **The Smithereens**, and their new track is fantastic. My only question is to **Don Dixon**. Couldn't you have mixed the vocals a little hotter? **Pat** is drowned out a little. There I go bitching again. You can't get any catchier than **Primal Scream's "Rocks."** This one-listen wonder should be a top request item all spring and into the summer. New bands on the scene that I love are **Collective Soul, Sugartooth** and **The Poor**. Also, one more bitchwhat the hell, I'm in a mood. When does **MTV** play videos? Every time I turn them on, there's some damn show on. Hey, play some videos! Leave the game shows to somebody else. Keep **Jon Stewart**, though; he's cool. Am I through? Yeah. See ya soon. PS: Ask **Jeff Riedel** about hole #11 at Silverado. Splash times three!

If you have found yourself on the aggro tip lately and need a song to musically express your emotions, try "Let Down," because I can think of at least Eleven reasons why you should. 1) Because I said so. 2) The chick rocks out. 3) "The Spoonman" says that there will be a major tour announcement forthcoming. 4) "Let Down" is the new theme song for the ever-slacking Generation X. 5) "Let Down" has maintained Eleven's status on most charts for 26 weeks. 6) Jack Irons has the meanest tattoos this side of modern primitives. 7) They whipped the audience into a frenzy while on tour with Candlebox. 8) "Let Down" has a good beat, you can dance to it, I'll give it an Eleven. 9) The press story is abounding. 10) Have you looked at the Rock Radio story on "Reach Out"? 11) And the final reason why you should play Eleven is that they have never been featured on a Dave Letterman Top 10

I had never heard of **Lucy's Fur Coat** until recently. This wasn't a band like the **Meat Puppets** or **Soul Asylum** that I was familiar with since my college days. This was a band with no story and, ostensibly, no buzz. So why go out of the box on a band that seemingly hasn't got much going for it? The answer is simple: **"Treasure Hands"** is one of the best straight-ahead rock tracks to come down the pike in a long time. With so many artists crossing over from the alternative realm these days, it's refreshing to find a track that's rooted in rock n' roll. You want a hook? It doesn't get much bigger. You want a memorable chorus? One spin and you'll have it locked in your head. Early reaction has been positive, and as this becomes more familiar, we'll be dealing with another monster.

Matt Young Earache Records

Will somebody please stop the pain! I can't take it any longer. The voices inside my head won't go away. Play the new edit version of **"Triad"** or **"NIB"** from **Pitch Shifter** now. Add dates are April 11 and 12. The video is on "Headbanger's"! Fuck it up if ya want to. Fuck it up if you please! **Disgust** destroys! Members of **Discharge** and **E.N.T.** equal hardcore English punk! The first single from *Brutality Of War* is **"An Horrific End."** Play it! **Old, Scorn, Lawnmower Deth, Sleep, Meathook Seed** and **A.C.**! God bless **Earache**! (212) 343-9090.

As you read this, I'll be lounging on a yacht in Cabo San Lucas, sipping mucho margaritas, probably cranking my new Henry Rollins CD. Is that cool, or what? I think "Liar" will be a huge song for us this year. This is a great time for ultra-hard tuneage. I just wish the releases would have been more staggered. Frankly, we're more broadbased than that, and can only afford a certain percentage of it. But right now there's NIN, Pantera, Rollins, Fight and Infectious Grooves. I wish we had room for the new Prong record. "Broken Peace" is awesome, and Cheryl, babe, we may have to wait for that track! Oh, and sorry, he's not dead. Sarsippius has his own record coming soon! And I am planning the next vacation already: Woodstock 94. How about one of you nice record geeks planning a fun showcase out on Montauk Point in August, too! Wouldn't that be fun? Tee hee.

Have you noticed the Adult Rock songs that are becoming Top 40 hits? Crash Test Dummies' "MMM MMM

MMM MMM" is a Top 10 song! It's a song with a hook that gets stuck ringing in your head all day. Then there's Melissa Etheridge, Bonnie Raitt, Enigma and Gin Blossoms. It's strange to turn on a Top 40 station and hear this music. But then, this is the year for Adult Rock Radio! Bob Welch has left WXLE in Albany, reportedly to return to his position as lead singer of Fleetwood Mac. The station is now searching for a new PD who would like to roll up his or her sleeves and get into the three-way Adult Rock battle going on in Albany. If you know any potential candidates, please call. The management of the station is committed to the Adult Rock format. At the top of the list this week is the band that mixes Colorado and Louisiana influences. The new Subdudes CD, Annunciation. Our favorite is a real feel-good song: "Angel To Be." Also, listen to "Why Can't I Forget About You," "Miss Love" and "Sugar Pie."

The Boz-man is back. The new album, Some Change, has a couple of gerns on it worth Adult Rock airplay. Our fave is a fun rocker called "You Got My Letter," followed closely by "Some Change." The first song off Peter Himmelman's concept album, Skin, is maybe his best song ever: "With You." A very catchy song for you to consider is "Everybody's Girl" from Kevin Montgomery's new album, Fear Nothing. You'll be singing along by the second chorus. Here's one that's been sitting on the shelf for a month or so, but I keep coming back to it. Frente !: Very acoustic, and very interesting. Frente! is a group featuring lead singer Angle Hart. She has a very unique voice, and the instrumentation (and computer programming) is interesting. Try the title track from their mini-CD, Labour Of Love. Happy Easter. I hope the Easter Bunny was good to you.

Debbi Lyon

Record Country I'm almost recovered from NARM. I've got my voice back and I can hear out of my left ear, so I guess I'm as good as new. Mark Cope, Holly Sharpe and Yvette Ziraldo Oyabe were excellent hosts and hostesses. I'm making out a will before my next convention, or at least the next one that IRS' Barbara Bolan attends. She shoved me into the front seat of a moving cab after the Tower Manager's bash, but she did make sure we all got to the Warfield in time for Sam Phillips' awesome performance. Barbara deserves a long vacation after all she did in San Francisco. It was fun walking

to the Marriott with Dutch "You Phony Baloney" Cramblitt. Ask Tower's Michelle Hurd and Relics Records' Eric Tapken how he got this nickname. We were quite the trio, crashing all the parties and getting up for all the product presentations. CEMA's "Ten Commandments Of Retail" was the coolest. I wish my husband could have seen it!

Thanks to all who added Crowbar Live + 1. It's just a small sample of things to come on the upcoming tour with Pantera. That's right, the best fucking tour of 1994 is just around the corner. And as if that weren't enough, prepare yourself for some live footage of the band on stage in the upcoming video to "Existence Is Punishment." Have you been keeping up with Beavis And Butt-Head? It looks like we've found a few more Crowbar fans. Check out the new episodes and hear Beavis say, "Fat guys are cool!" Demented Ted keeps picking up action everywhere. I'll check out the Edge, Eagle and Q102 on the way out of Dallas...then Magic 105 and KKYK, WEGR, KDF and RLT, IMZ, ROV (maybe the fringe of RXL), QCM, TPA (the fringe of MMR and the DRE simulcast). And, finally, NEW, AXO, BAB and the REAL DRE. All in a period of three or four days. Sounds like a good consultant's trip. Catch you on channel 19...we gone...bye, bye!

You'll notice by looking and listening to the Album Network CD TuneUp #113, the song by The Badlees. Once again, here's that unsigned band popping up. In fact, they have popped all the way up to #90 on the Album Network PowerCuts chart. Not bad for an unsigned band. They have also sold steadily in the Central PA Area for the past three months. Not bad for an unsigned band either. These guys deserve a record deal...'nuff said. Meanwhile, the collective soul record won't guit. It's #1 phones for the third straight week...and that's with a new Pink Floyd out there. Record stores were calling every day waiting for this one to get in store. This one will be in every classic rock library in another 20 years. I have to admit I was the first to doubt whether the Crash Test Dummies record was a real AOR song. One week on the air will prove it deserves to be there. Sure, a singer with four testicles helps...but this one is an across the board smash. Love the Junkhouse, Lucy's Fur Coat and the Pantera.

Soundgarden continues to claim the top spot on this week's RAWk chart, thanks to your continued support of "Spoonman." Keep on it! On your desk this week is the new emphasis track from Paw. Look for Paw on the road for three months this summer, starting April 9. Need more details, give me a call.

What's shakin'? You know that feeling you get when you come across something that sounds fresh on the air and gets an immediate reaction? The kind of records that are few and far between, make you sound hip as shit and restore your faith that what you're doing with your life and frequency is all worth it (aside from strong billing)? Maybe it was Alice's "Man In A Box," or the first time you heard Van Halen filter out of LA. "If 60s Was 90s" you'd get that feeling again. Beautiful People gets the add at WNEW this week after one play, WLVQ is getting #1 phones after only one week of one play a day, and it has stayed on the Adult Rock Most Requested lists and is now up to six weeks. It's selling everywhere it's on. Get this on the air! I could bring up the fact that you'd beat your cross-town rocker and all of CHR-land to the punch. especially now that we're in another book battle. But I'll spare you that approach. Your guts and passion is where it's at, and you're hearing Beautiful People.

Terry Selders Rite-Off Records From the land of Live and Jeffrey Gaines comes central-Pennsylvania's latest Rock Radio sensation, The Badlees. The Badlees play heartfelt, blue collar rock 'n roll, perfectly exemplified on their current single, "Laugh To Keep From Cryin'." It's track 14 on Album Network's CD TuneUp #113 you got last week. You'll see it on the Power Cuts chart, currently at #87*, and in heavy rotation on a bunch of stations. WRLF added it in heavy way back on February 8 and the song continues to be a top request! 'Scuse Me, While I Sue This Guy

S

EV

A 24 year old man filed a lawsuit March 8 in Los Angeles...nothing Aout of the ordinary in the City Of Angels, to be sure, until you consider the fact that the man, James Henrik Daniel Sundquist, claims that he's the son of rock legend Jimi Hendrix!

Sundquist claims that he's the result of a 1969 union between the innovative guitarist and one Eva Sundquist (which allegedly occurred while Jimi was on tour in Stockholm), and he's seeking a share of Hendrix's already much-contested estate.

Before you write Sundquist off as a fraud, you should know that in 1975, a Swedish court upheld his claim. In his lawsuit, he alleges that Jimi's dad, Al Hendrix, and Al's lawyers, concealed his right to a share of Jimi's estate.

Obviously, Sundquist is seeking money - lots of it, probably.

And to add to the legal haze, Al Hendrix is still involved in his own lawsuit, in which he claims an attorney persuaded him to sign away the rights to his son's music in the 70s for a mere \$50,000 a year.

In additional Hendrix news, the long-anticipated reopening of the investigation into the mysterious circumstances surrounding his death is *not* gonna happen; the request for a new inquest was denied by the British government earlier this month. Apparently, after police looked into the case, Britain's Attorney General felt that it didn't warrant further investigation.

The Show Must Go On

Members of a Cleveland Fire Department rescue squad are in hot water with their superiors after giving Billy "The Piano Man" Joel a ride to his gig!

Joel's van was en route to his Cleveland show on March 17 when, about 20 miles south of the city, it was involved in a minor accident. The friendly emergency technicians decided to help out Joel by driving him to the Richfield Coliseum in time for his show.

But good deed or not, the Cleveland Fire Department is concerned that the techs reduced the already small amount of rescue squads available that night.

For their troubles, the techs got autographs from Joel, who defended their actions as "a wonderful display of community spirit." However, Joel didn't mention that the crew originally lied about what they were doing, telling dispatchers they were taking someone to a hospital!

Mountain bike buddy Bob Beckman with his joke from our ride last weekend:

A sergeant and a private are sitting on an airplane. The private is getting ready to skydive for the first time. The sergeant starts to explain the proper way to skydive. He tells the private, "First thing you do is jump; then count to 10 and pull your ripcord. If you have a problem with the main ripcord, pull the backup ripcord. The truck will be there to pick you up." So the private jumps from the plane, counts to 10 and pulls the first ripcord. Nothing happens, so he pulls the second ripcord, and still nothing happens. The private thinks to himself, "Just great - and now I suppose the truck won't be there either."

Rolling On

It's official! Darryl Jones has taken over the bottom end for The Rolling Stones, filling the spot vacated by founding bassist Bill Wyman, who's enjoying his "early" retirement.

Legal Nastiness

Although Ozzy Osbourne has no shortage of fans, apparently none of them was in the jury that found him negligent in a lawsuit in an Orange County court recently.

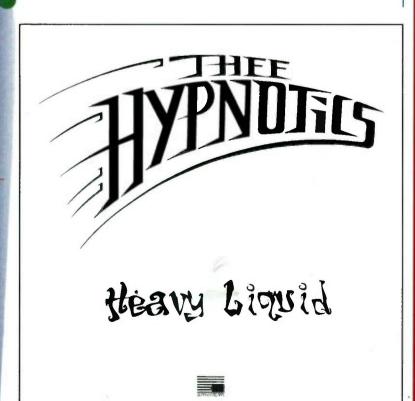

The Oz-ster was being sued by a 43 year old man who suffered a shoulder injury in the stampede created when Osbourne invited fans to join him on stage during a concert at Irvine Meadows Amphitheater on March 28, 1992; he was seeking \$250,000, but ended up with a settlement of \$60,000, which was covered by Ozzy's insurance company.

Osbourne's lawyer was quoted as describing his client's action as "a really

stupid thing to do." Guess you'll be looking for a new band *and* a new lawyer, huh, Ozzy?

Well, it looks like ex-Chili Pepper guitarist Jack Sherman won't be having his day in court. A Los Angeles judge threw out his lawsuit against his former bandmates, ruling that the plaintiff had waited too long after he was fired to attempt to collect damages.

Sherman had attempted to convince the court that, because of his being abused as a child, he was unable to file his case within the threeyear limit; he also had argued that the judge should consider him in a

No matter how many times I'm told this joke, it's funny: Q: How do you get four old women to yell, "Fuck!"? A: Have the fifth one yell, "Bingo!"

special class, because he was an entertainer, making him especially vulnerable to the ruthless people in the biz. Obviously, the judge didn't buy either angle.

Traffic On The Road

By now most of you know that Traffic is back (and if you haven't heard, get out from under that rock!). Founding members Steve Winwood and Jim Capaldi have regrouped and recorded a brand new studio album for Virgin, *Far From Home*, which will hit the racks on May 3.

Traffic will be hitting the road in mid-May for an extensive tour of the US - we don't have to tell you what you'll be missing, 'cause you'll be there, right?

House Of Blues To Grace LA

We've told you before about the way cool House of Blues chain, started up by Hard Rock Cafe co-founder Isaac Tigrett; there are already two of the self-proclaimed "juke joints" open in the states, one in Cambridge, Massachusetts, and one in New Orleans.

Now, a third is coming to Los Angeles, bringing with it the House of Blues' reputation for good food, and great music!

LA's House of Blues will officially open for business on April 30, 1994, with a star-studded roster of performing artists filling up the bill; among the talent expected to show that night is Dan Aykroyd (part owner of the House of Blues chain) and the Blues Brothers Band, blues legend John Lee Hooker and The Black Crowes.

The opening night bash will benefit the Magic Johnson Foundation, which was founded in December 1991 by Earvin "Magic" Johnson, Jr., to raise money to fund HIV and AIDS organizations specializing in youth-oriented programs which emphasize AIDS education, prevention and care.

"I am touched by the commitment Isaac Tigrett and the House of Blues has made to me and my foundation," says the new coach of the Lakers. "The blues transcends generations and unifies cultures, and it is this unity which is the cornerstone in the building of a brighter future for our young people."

Look for more House of Blues locations to open in New York, Chicago, London and Paris!

Nasty N' Weird

Starship vocalist Grace Slick has certainly endured some weirdness Slately. When her Mill Valley, California, home burned down recently, she was forced to relocate to a new house in Tiburon. As if losing her house weren't enough, she and her husband are suing Marin County because firefighters who attempted to save her house apparently lifted some of her stuff!

Slick claims that the firefighters stole backstage passes and a shotgun from the remains of her house. And speaking of the wonderful combination of Grace Slick and shotguns, our story continues: Slick was arrested earlier this month after - allegedly - pointing a shotgun at police officers outside her new house in Tiburon, California.

> From our Invisible pal, we get this: Q: How are men like soap? A: When they get in hot water, they disappear.

The police officers arrived at Slick's house before dawn in response to a phone call from a man claiming a woman was firing a shotgun in the house. They were greeted by one Ira Lee, who came to the door yelling, "Kill me," according to the police.

After the police subdued Lee, they allege that Slick came to the door, shotgun in hand. Then the cops claim that Slick pointed the gun at them and ordered them off her property.

Police reports allege that the officers ordered her to drop the shotgun, but she refused; apparently, the cops got the gun away from Slick after diverting her attention. The shotgun was found to be empty, but the police claim to have found used shotgun shells in the vard.

Slick was arrested on suspicion of felony assault and felony brandishing of a weapon at a police officer, and was released after posting \$7,000 bail. Lee was held for psychiatric evaluation.

Here's some news on the morbid side: Mitch Ryder has written and recorded a song in support of Dr. Jack Kevorkian's "right to die" campaign. As probably all of you know, Kevorkian, aka "Dr. Death," has raised controversy time and time again by helping suffering patients commit suicide.

The Michigan legislature has turned up the heat on Kevorkian, so the doctor has concentrated on a petition drive for a Michigan constitutional amendment that would make doctor assisted suicides legal.

A portion of the profits generated by Ryder's new song, "Mercy," will go to support Kevorkian's petition efforts. And what does Kevorkian think of the song? "Even though I'm not up on popular music, I like this," he enthused. "It's got a lot of rhythm."

This kind of found its way to me last weekend: *Q: What do lawyers use for birth control? A: Their personalities.*

Here's WIXV's Jay Sisson with another joke from his mega-fax: *Q: What happens if you don't pay your exorcist? A: You get repossessed. (Hey, it's been <u>a slow week!)</u>*

That's it for me! I'm Tommy Nast with the Nasty Nooz.
