WWL Fined \$5000

The FCC has notified Loyola University of the South, licensee of WWL/New Orleans that it has incurred an apparent liability for forfeiture of \$5000 by mislogging the duration of commercial matter broadcast on 13 days in 1975. The fine is a result of incorrect logging of commercial matter for a 90 minute show called "Ernie's Country Show." After the first inquiry by the Commission, the station changed the way it logged the program and began to log the whole show as commercial. The FCC pointed out that in WWL's last license renewal application they indicated that no more than 18 minutes of cm per hour would be broadcast, and that the altered logging also appears to be in violation.

Poli-Rock

Several major recording artists held an informal meeting at a Los Angeles restaurant last Monday (15) to initiate plans to support the California Nuclear Safeguard Initiative, which will be voted on in the public elections in this state June 8th. Many are concerned over the control of nuclear power and the building of power plants. Organizing members in attendance were John Denver, Linda Ronstadt, Jackson Browne, The Eagles along with their manager Irv Azoff, Carly and James Taylor and many others.

Many of the artists will begin appearing in benefit concerts to raise

KRIZ/Phoenix is currently running this very creative campaign "KRIZ Rocks In Your Head" on television and in outdoor advertising. Television spots are voiced by Ken Nordine, famous for the Levi commercials.

The industry involving itself in politics is captured here as Jeff Wald sponsored a fund raising dinner party for California Senator John Tunney. The affair was attended by many key record and radio executives.

(L-R) Calif. Senator Alan Cranston, Paul and Ann Drew, Helen Reddy, Senator Tunney, Wald and Irv Azoff. The party was held at Helen & Jeff's Brentwood estate.

WLS SOUVENIRS

WLS/Chicago's afternoon personality Bob Sirott recently gave away invaluable pieces of WLS memorabilia to his listeners, as the station prepared to remodel their studios. Some of the items that were saved for posterity and given away were; a larger than life poster of former WLS morning man Charlie Van Dyke, complete with the graffiti drawn on Charlie's forehead by his co-workers, a 1970 WLS survey featuring the face of Chuck Buell, and the old studio curtains. According to Sirott, these drapes qualified as a collector's item because "many of the legendary WLS Disc Jockeys stared at these very curtains while thinking of funny things to say over WLS."

"THE PRIZE IS RIGHT"

WAPE/Jacksonville has just kicked off a gigantic on-air giveaway titled "The Prize Is Right." Listeners are given descriptions of the various prizes offered in the contest and then told which participating sponsor's store they can check the retail price of the item in. Jocks later announce which prize they are about to give away, asking for the correct price of that item, and awarding it to the first caller who has checked out the cost in the sponsor's store.

WRKO LETS LISTENERS' LIGHTS SHINE

During a recent weekend, WRKO/Boston let 75 lucky listeners win Electric Light Orchestra LPs and pairs of tickets to the group's concert. At the end of the weekend a drawing was held from all the winners to determine the winner of a month's free electricity, compliments of WRKO.

MUNCHING FOR CHARITY

WIXY/Cleveland's "Sweet" Randy Robins will help local Girl Scouts

kick off their annual cookie sale when he joins in a cookie eating contest. For every cookie Randy eats, his sponsors will buy a box of cookies to be donated to a home for the emotionally disturbed.

CONCERT CONTEST

WISM/Madison gave their listeners a chance to spend "A Royal Night At The Opera With Queen." Contestants sent in postcards saying in 25 words or less why they would like to spend a royal night with Queen. Best reason won limo service to the concert, dinner, a complete Queen library, T-Shirts, concert tickets and a chance to meet Queen backstage after the show. The station also gave away complete Queen record libraries the week of the concert.

NEW CALIFORNIA ROCKER

KPHD/Fresno, sister FM station to KYNO, introduced their new live Rock format this Monday (15). Mike Novak has assumed the program directorship of the new format. Nick Alexander will serve as music director for both AM and FM facilities, and Kris Van Kamp is now assistant PD of KYNO-AM. Plans to change call letters of KPHD to KYNO-FM are in the works.

ANNIVERSARY CELEBRATION

WISE/Asheville is celebrating their 20th anniversary as a Rocker by running a contest called "The Grease Music Game." Listeners are asked to identify an oldie from the '50's that is played each hour. Trick is that they have to name artist song title and year of release in order to win passes to local theaters, tickets to car shows and exhibitions and oldie albums.

BEATLES TRIVIA CONTEST

WSGA/Savannah has produced a montage of Beatles' hits for their latest promotion. Contest is centered around the local showing of the Beatles' feature movie "Yesterday and Today." Listeners who can identify all the songs in the montage win WSGA Beatles T-Shirts and passes to the movie.

MOTORCYCLE GIVEAWAY

WIVY/Jacksonville is giving away more than \$3000 worth of motorcycles in a recent contest. Listeners guess how much the combined weight of the bikes and the station

jocks is in order to rip off one of the cycles.

"ASTARIS BORN"

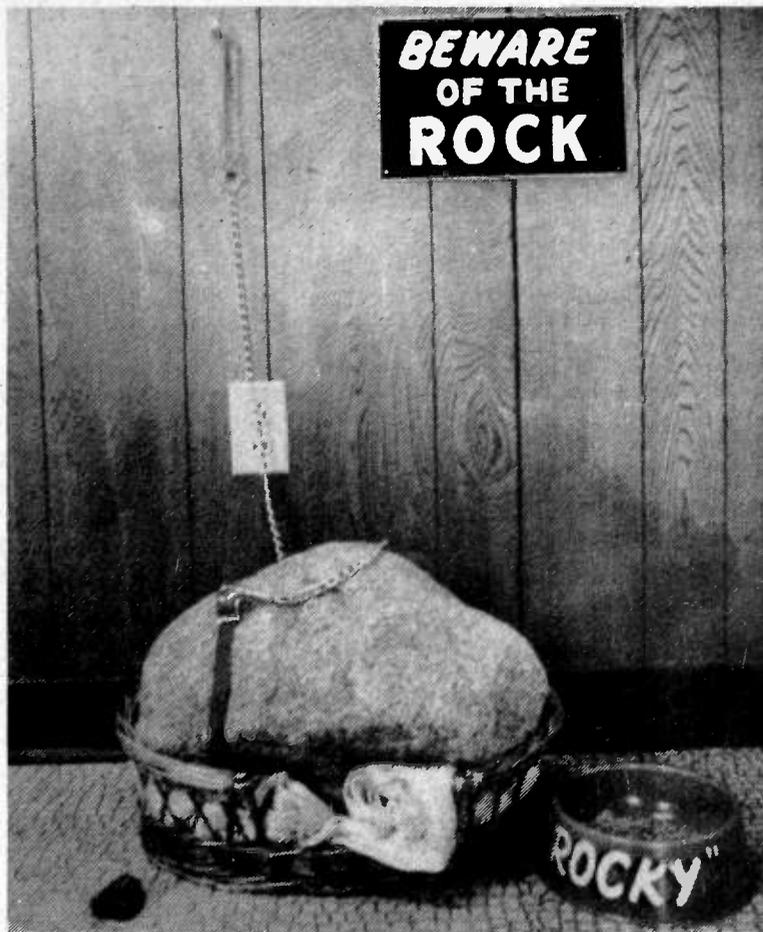

KHJ/Los Angeles' Machine Gun Kelly makes his major film debut in the Barbra Streisand/Kris Kristofferson starring pic "A Star Is Born." Kelly told R&R that he plays "the only antagonistic person in the movie," taking the part of disc jockey and interviewer who gives Kristofferson a hard time on his way to the top. The film has been shooting for 5 weeks on location in Los Angeles, and will move to Phoenix for more filming. Kelly, who uses the name M.G. Kelley for movies, says he has already received other screen offers because of his role in this film.

DRISCOLL LEAVES WCFL

Former WCFL/Chicago program director Johnny Driscoll has announced he is leaving the Chicago station to join Jack McCoy's DPS Inc. as National Director of Programming for the San Diego based company.

CORRECTION

In last week's R&R, we reported that Bill Gardner had resigned from KLIF/Dallas, when in fact Gardner has just left KNUS in the same city.

WGNG/Providence has gained such tremendous response to their Pet Rock contest, that they found it necessary to install "Rocky" the gigantic Pet Rock in their studios to guard against "rock-nappers." Dozens of pets have been awarded to WGNG listeners so far, making them eligible for a trip to one of five famous American "rocks" such as Boulder Colorado, the Golden Nugget in Las Vegas, and Little Rock, Arkansas.

WEAQ/Eau Claire's MD and afternoon drive personality Scott Christenson did his Friday the 13th show from a bed in the center of a local shopping mall. Christenson felt that since the day was so unlucky, staying in bed was the best idea for both himself and mid-day jock John Andrews.

A private party at Denver's Ebbetts Field for Lifesong Records' group Liberty brought out a surprise guest for the festivities. John Denver is pictured here visiting with KHOW-FM staffers. Left to right are: KHOW-FM's Randy Lane, Denver, station's Madeline, John London and Ron Engleman. Top is RCA Denver promo exec Robin Wren.

Clocks Ahead In April

A fairly confusing situation has come about because of legislation passed in the Senate changing the starting date of daylight saving time to March 14. The House has yet to make a decision on the bill, therefore delaying the projected new date. Current law sets April 25 as the date. For this year, Washington speculators can only say that sometime during April we'll have to set our clocks ahead.

Arbitron Expands ADI Reports

Beginning with the 1976 Spring survey, Arbitron Radio will measure and report radio listening in the ADI each time one of the Top 50 ADI markets is measured, according to William McClenaghan, VP and GM, Arbitron Radio. The only exception will be for the ADI markets of Grand Rapids-Kalamazoo and Sacramento-Stockton. Grand Rapids and Sacramento are measured twice each year, but Kalamazoo and Stockton are measured only once. Therefore, the ADI will be measured only in the Spring survey for these two ADI's.

Suzuki Starts Multi-Media Push

U.S. Suzuki's 1976 advertising effort was kicked off this week, with major market spot radio backing up network and spot TV buys. Spots feature the classic "Get Happy" music while the theme of Suzuki reliability and the fun consumers can have on a motorcycle fit into the new commercials.

Continental Expands Ads

A multi-media promotion will be kicked off by Continental Airlines in April. Some of Continental's exclusive service features, such as their "Pub in the Sky" will be featured in the ads. The commercials zero in on leisure and pleasure travelers, along with Continental's "Visit Friends and Relatives" theme. Thirty second radio spots are included in the buys, which will run through the summer months.

FCC Kills Hearings On KROQ

The FCC has abandoned plans to hold hearings on the renewal application of KROQ/Burbank and KROQ-FM/Pasadena. The Commission had originally ordered hearings to be scheduled, but had ruled in a public notice on the case that the hearings would be cancelled because it had been unable to contact the licensees of both outlets by either telephone or mail, and that "the renewal application which had been prepared for submission to the FCC had been intercepted and altered." In addition to hearings on renewal of KROQ-AM to George E. Cameron Jr. Communications and KROQ-FM to Burbank Broadcasting, the application of San Marco Broadcasting Co. to take over the Pasadena signal was also dismissed.

RCA May Close L.A. Plant

RCA Records has confirmed that a recommendation has been made to close their Hollywood manufacturing plant. No specific comments have been made by RCA execs on the move, but one New York spokesman told Daily Variety that a study had been made which recommended that manufacturing be consolidated to their Indianapolis branch only.

New Pan Am Superflight

Pan American World Airways will inaugurate the fastest daily Los Angeles-Tokyo nonstop service in history next month. The new Boeing 747 SP (Special Performance) jet will enable travelers to cut their in-air flight time by 3¼ hours over any other regularly scheduled airline's time.

FCC Drops Hypoing Ban Plans

The Federal Communications Commission has voted six to one to withdraw a proposed ruling which would ban special promotions on radio and TV during rating periods. The FCC cited the fact that such a rule would be virtually impossible to police, and also that a significant segment of the public may like promotional activities. Under Federal Trade Commission guidelines set up in 1965, the Commission will continue to answer and investigate complaints filed on hypoing issues.

FCC Asked To Give Break To Poor

The many expenses involved in dealings with FCC proceedings were the subject of a petition by the Federal Communications Bar Association. The FCBA noted that many costly items, such as witness fees, distribution of proceedings transcripts and deposition costs were a strain to poor people and small organizations when involved with FCC matters. The Bar Association suggested that the Commission adopt guidelines to defray such costs when dealing with lower income individuals or groups.

U.S. Population Changes

Major shifts in age groups of the American population may bring on changes which affect all groups' lives. Projections for the increases or decreases of certain age groups are: Children under the age of 15 should increase by 11.1% by the year 2000, a slower growth pattern than in the past. The effect of this slow increase may be less pressure for building new schools, while smaller families may be less centered around children. The dominance of the teen-age and young adult (ages 15 through 29) will slip during the remainder of this century, with a 5.6% projected drop in population. Besides the obvious lifestyle changes that may occur because of this, crime may decrease as this category is the most crime-prone of all. Adults 30-64 will raise the most dramatically, up 45.7%. Job and housing competition may be in store as more and more Americans reach this age level. Senior citizens will jump in number 34.4%, with more opportunities for travel and leisure expenditures due to improving health and retirement income for most. Female senior citizens are growing even more rapidly in number.

Trolleys On Comeback With A New Name

Trolley cars are enjoying the first resurgence of use in decades, under the new-fashioned name of light rail transit. In Boston, 175 new trolleys are soon to arrive on that city's streets, with San Francisco also ordering 100 new cars. Rochester has decided to initiate a light rail transit system in a nearly 20 mile section of the city. Dayton, Ohio also has plans in the making for a similar system. Trolley lovers cite a number of factors in the cities' decision, including construction costs which are much lower than other forms of mass transit. Operating costs are also lower for the cars, since they can be hooked together during peak rush hours and run by one person, and electricity-using cars cause little pollution.

Nationwide Movie Push

More than 200 major markets will be used for Intercontinental Releasing Corp.'s ads for "Call of the Wild" and "Chino" movies. The one week promotions will start on varying dates of the release of the movies. Radio, TV and newspapers are included in the package.

Sardines Are Good For You

Network radio forms the major part of a new advertising push by King Oscar Sardines, backed up by spot radio in selected markets. The humorous 60 second spots point out the high nutritional value of the fish.

ASCAP Files Action

The American Society of Composers, Authors and Publishers has filed against WNHC/New Haven, claiming that 16 of ASCAP's copyrighted songs were performed on the station without authorization. The copyright infringement action seeks statutory damages and asks that WNHC no longer air the material.

Radio On Cable TV

Virginia based National Cable Radio Network will begin radio programming on a cable TV system this month. The system, which will be displayed at the National Cable Television Association convention in April features announcers and current records on the audio portion of the programming, with visual displays of artist, label, album and liner notes on the TV screen. The format is designed to include paid drop-in spots by record companies during the album featured.

FCC Backs Ford's Media Blitz

President Ford's 1976 re-election campaign is getting a helping hand from the Federal Communications Commission. The Commission's repeal of equal time regulations acted to allow Ford to hold press conferences and other "news worthy" interviews without broadcasters worrying about equal time allotments. Ford's campaign has made good use of these factors, holding news conferences and personal interviews with broadcasters in states just prior to their primary elections. Democrats have challenged the FCC's retraction of the ban of news conferences by candidates, and a U.S. Court of Appeals is expected to hand down a decision on the issue imminently.

NBC Logo Sparks New Game

Some Miami advertising execs have taken advantage of NBC's recent logo-designing problem by marketing a new game "The Million Dollar Logo-The Great American Game." Geometrically shaped pieces allow people to design their own logos.

RSO/Polygram Merger?

Negotiations are now taking place between Robert Stigwood's RSO Records and Polygram Inc. on a possible merger of the label. A spokesman for the Stigwood Organization cited British economic and tax problems as the reason for the interest in joining in with a larger company. Polygram already owns nearly ¼ of the stock in RSO. RSO had been holding merger talks with Warner Communications previously.

McCartney Vetos Reunion Plans

Lee Eastman, attorney for Paul McCartney has virtually killed the possibility of the Bill Sargent promoted Beatles reunion. Eastman further stated that any get togethers by the 4 Beatles was not even being discussed. John Lennon's attorney Harold Sider backed up McCartney's statement by saying that he knew nothing about the Sargent deal.

Orange Juice A Drink Hit

Ever since the sugar shortage of the last 2 years, orange juice consumption in the U.S. has grown dramatically. Concentrated OJ leads the way with consumers, with 2% more concentrate being shipped from Florida during the first months of 1976 than the peak of 1974-1975 period. Supplies of concentrate are still big enough to keep prices down.

New Arbitron Radio Product Manager

Arbitron Radio has announced the appointment of James C. Mullen as Product Manager for Arbitron. Mullen will be based at the Beltsville Research and Production Center.

FCC Denies WLIR Review

Stereo Broadcasters, licensee of WLIR/Garden City N.Y. has been denied the opportunity to see certain documents surrounding hearings on their license renewal. Some of the documents which Stereo wanted to see include correspondence between prospective witnesses for the hearing, and some intra-agency memos.

Beef Prices To Rise

The current lower beef prices may soon move upward as production falls back after peak spring and summer activity. Record buying by American consumers will probably help the raise in prices, as more people have started buying beef in greater quantities than during the past 2 inflationary years.

THE ULTIMATE RADIO TRIP

INTRODUCING

It takes three things to get off on the Ultimate Radio Trip. First, you've got to be employed in, or fascinated by, radio. Secondly, you must be able to use your imagination and be able to recognize when something new and good is going down around you. Third, you'll need access to a little corporate cash or pocket change. If number three is a problem, read on anyway - that way you'll at least know what you're missing.

Like all good things, the idea is simple. It's an Audio Magazine. In other words, it's a "Magazine you read with your ears." It's on cassette, it's about 90 minutes long, it consists of totally professional production, it's produced by a company with the largest staff of field recordists in the country, and it's delivered every other week by your mailman. . . it brings you airchecks of hundreds of major contemporary stations, produced articles, interviews with the industry's leaders and innovators, plenty of special features and even a classified advertising section to help people through swinging doors.

JUMP BACK!

Over two years ago, a communications freak, with credentials, figured out that what the radio industry needed was a better way to communicate with itself.

What Craig Erickson conceptualized goes something like this -

The contemporary radio industry has a hard time communicating with itself. After all, how can you communicate in print what is actually happening in radio? You can't! That doesn't mean Claude, Bill, Kal, Bob and the rest aren't doing their jobs, because they are. It simply means something more is needed. An audio tool that will enable us to keep track of where we're going and where we've been. Let's face it, if you're in Atlanta, it's hard to know what they're actually doing in L.A.

Now don't say you don't care what they're doing in L.A. or any other major market. We've got market research to

prove that you do care. We said this was new, and it is -- remember, we're an Audio Magazine. O.K., o.k., so what's in the magazine? The Ultimate Radio Trip. That's not just the title of our first issue, it's a promise for every issue.

NEVER LEAVE THE FARM

Slap Issue One in any cassette machine. Click, Bang, you're off! In an hour, you'll hit 25 markets and enjoy the best piece of production you've heard in a long time. Narrated by Bill Todd, WDAI, Chicago, The Trip starts with Boston getting up and ends with San Francisco getting down. It's schizophrenic, it's funny, it's spiritual, it's enlightening and it's something you don't want to miss. Look at it another way - it's like owning a Magic Transistor Radio. Oh, Sweet Jesus, it sounds good.

AND FURTHERMORE...

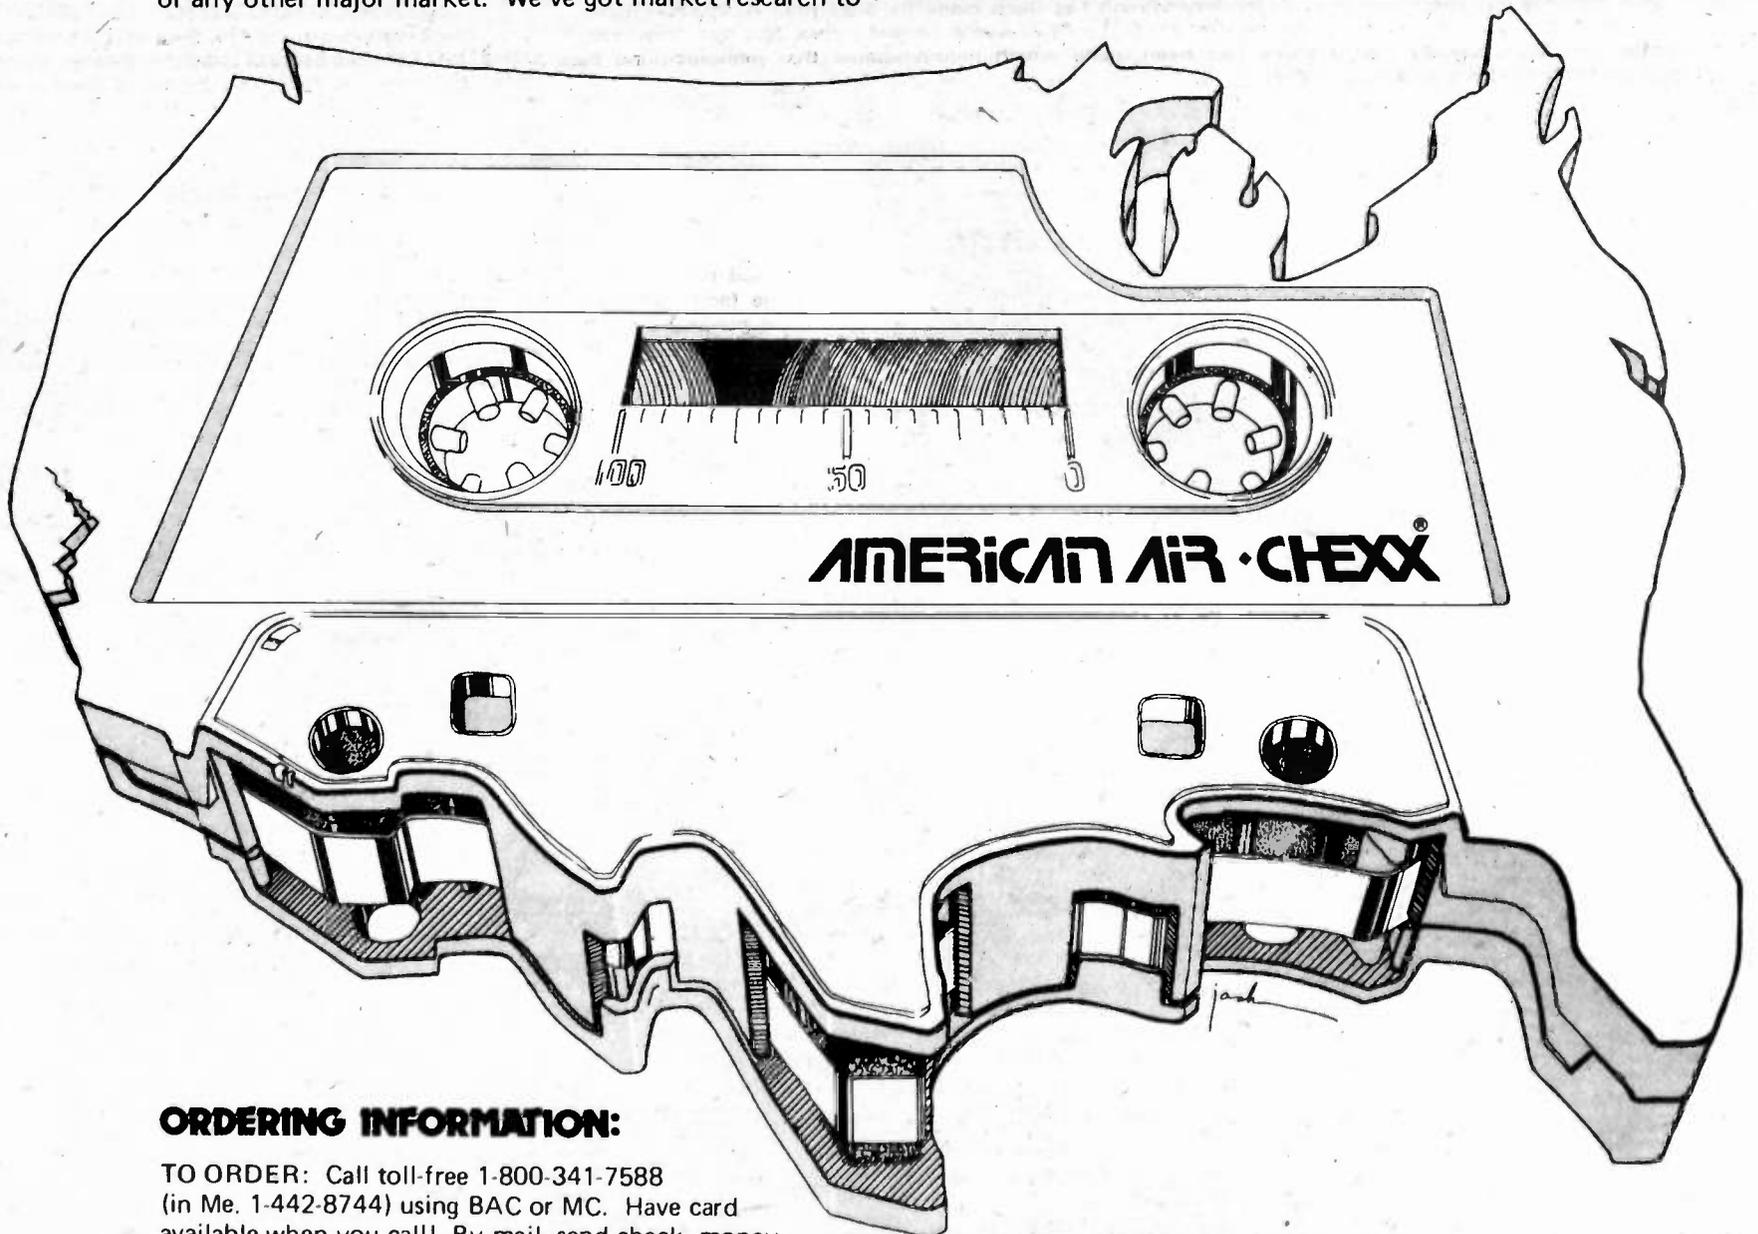

In Issue Two, Narrated by Bobby Ocean, KHJ, Los Angeles, there's an exclusive interview with KCBQ's dynamic P.D. Gerry Peterson, an in-depth listen to contemporary Miami radio, WCFL's farewell to Chicago Rock 'n Rollers, airchecks of some of the country's top morning men, and more. And that's just Issue Two. In succeeding issues, we'll be on the case of AM Stereo, format development, station promotion, syndicated programming, live automation and your act.

THE MESSAGE

If you believe radio has a future, think of American Air-Chexx Magazine as a professional necessity (and a personal pleasure). Not many hypes can say that with as much sincerity.

It will cost you a few bucks to find out whether we blew two years and our sanity to con you OR to deliver a truly unique and exciting magazine. Be the first jock on your block to find out. Call us toll-free.

BLACK Radio

JERRY BOULDING:

Research—How Much Is Necessary?

The question of how much research is necessary for radio is one on which there will be almost as many varying opinions as there are stations. There are some I'm certain that will feel that research applies only to music and that research is simply calling stores and assembling a list. This report will attempt to answer some of the basic questions and differences on re-

search and explain why it is necessary.

The difference is simple. It is a matter of asking yourself, "Do I Want To Guess?" or "Do I Want To Know?" The answers will determine what kind of program-director music director or air-personality YOU are!

Now, we don't want to indicate that research alone can solve your

ratings problems, but we do want to tell you that the right kind of continuing research will definitely let you know who you lost and where they went and why. We do want to tell you that format changes and suggestions based on the right kind of research can make a big difference in your audience, your approach and even your job security. Everyone wants to hire a winner.

Finally, we want to point out that no amount of research can transcend the refusals of the owners, for whatever reasons, to implement the proved methods needed to make a station successful.

In the past we touched lightly on how the ratings services measure the Black audience and the difference in that audience. Now, we want to look at the kind of re-

search that must be done to determine just what programming changes, if any, should be made.

One, of course, is demographic, ascertaining just where the majority of people with the most buying power are located age-wise in your market. For most, it is largely within the 18-49 age group; with more 18s than 49s. There are, of course, exceptions and you must be certain of delineating your target audience accurately before you begin.

Then, having done this, you should survey to determine whether there is a void in programming formats that would reach the target audience, and whether there is a format presently in your market designed to reach the majority of that audience. A study of the ratings services' results in your market is a must here.

If you accept objectivity in determining the demographics and the void, you can then be highly selective in your target audience and format. For example, if you're the only "game" in town, how well do you do what you do? Could you do better if you were to implement or improve on your format? The answer to these questions almost always is "yes." Now, comes the questions of what music to play, what rotation of the music would achieve the best results? We will cover music blend later in a separate section devoted entirely to music selection.

Let's talk about the air-personalities. They should be convincing communicators capable of absolutely flawless on-the-air production during the entire time they are on-the-air. In addition, they should be warm, believable and able to "sell!"

Next, you must blend the non-music ingredients equally as well as the musical ones. A system should be set up for the amount of news, public affairs and other material you feel is important to your community. Once, selected, it too, must be implemented properly and consistently.

Promotion is a large part of any successful radio station today. It has to be done both on and off the air. Something exciting should be happening on your radio station all the time you are in your normal music format. This can help to build new listeners for you who will want to continue listening to see what happens next. This is good for both quarter hour maintenance and cumes.

Finally, consistency must be maintained. The implementation of the research (two steps), assembling the music and rotation, placing the right people in the right time slots and assembling the promotion and other non-musical ingredients, all must happen day after day without error. Add to this blend support from management and time and you have the ingredients of a successful radio station. How much time? In very competitive situations it could take years. I've seen it start to happen, on the other hand, in just a matter of a few short weeks. The nature of the competition, their power, promotional budget, staff, etc., as well as how hard they fight back, often determines how much time before you start to see proven measurable results.

Next week "Let The Music Play"... the story of music research for Black radio and why.

FRAMPTON has regained the position of chart bigshot after a sensational week of airplay. BAD is still doing well, a strong number 2. KINGFISH is racking up incredible airplay and reaction. DYLAN maintained. QUEEN resurged a bit. GENESIS came on real strong. BOZ held firm. 10CC is hanging in there. NYRO and BOWIE are both still healthy. ELVIN had another fantastic week after the big resurgence 3 weeks ago. MULDAUR showed very positive gains. MAC resurged impressively. The albums been all over the chart since early last summer. STARCASTLE remains powerful. KING came back up nicely. WRIGHT is a very stable veteran. SWEET maintained. JOURNEY inched up. BUFFETT is still doing well. CRUISE made tremendous gains. Lots of debuts: YOUNG, HEART, FRANKS, WET, TROWER, OSKAR, and PONTY. OUTLAWS (RCA) came on strong. It gets great listener response wherever played thus establishing itself as an AOR album as well as Country. HARPER bounced back onto the chart. JONI, MELISSA, and ELO almost made the chart.

This chart is based solely on airplay and does not attempt to fabricate a trend. The artists in italics are those receiving the most rapid gain in airplay.

Suggested Albums

NILS LOFGREN

It's been a long road, many years, groups, and albums, since his days with Neil Young and Crazy Horse and along the way, Nils has developed quite a following. Just like label-mate Frampton, this is going to be his year. In terms of material, production, and downright musical quality, this is the best thing Nils has ever done and that's a heavy statement. "Cry Tough" "For Your Love" "Mud In Your Eye" "You Lit a Fire" and more. (A&M)

RICHARD COCCIANTE

This is a very important new album. Cocciante writes blank verse in French, which is translated into Italian and, in the case of this album, English. Absolutely everything about this collection, the lyrics, his performance the instrumentation, and Catherine Arnott's production is overwhelmingly powerful. The music is grabbing on cerebral, cardiac and testicular levels. Don't overlook it. "When Love Has Gone Away" "Here" and "I Was Waiting For You" are among the gems (20th)

SANTANA

The old bite is back. Super clean production by David Rubinson coupled with tight yet driving material place Carlos right back in the positive setting that originally made his band such a sensation. However, it should be pointed out that this album is not a regression of any kind, but rather, a new and fresh approach to Latin flavored Rock. "Take Me With You" "Let Me" and "Gitano" stand out. (Columbia)

STEVE HACKETT

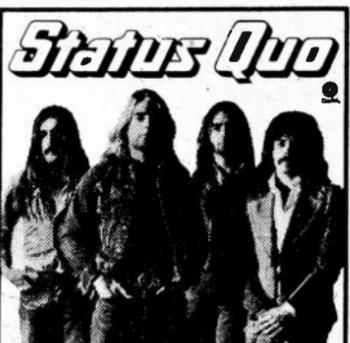

Heavy duty quality stuff! Genesis member Hackett steps out with his own collection displaying superb musical creativity and virtuosity. The sound ranges from full blown and powerful to delicate and mellow. Standard instrumentation plus mellotron, harmonium, arp synthesiser etc, create quite an earful. "A Tower Struck Down" "The Hermit" (Chrysalis)

LEE OSKAR

A smooth tasty concept album tracing the life and career of this talented War member. For the most part, except for some well-placed background vocals, this is an instrumental collection of banded, easy to program exercises in Latin rhythms, Jazz, and Soul that weaves from one to the other effortlessly and effectively. "The Promised Land" "BLT" "The Journey" among others. (UA)

STATUS QUO

If you like Rock and Roll, this album is for you. One of Britain's hottest bands, they might just be ready to crack in the U.S. Even though they are basically new to American consumers, they've been around for quite a long time and the seasoning and polish that they've acquired and display here should impress many of the boogie freaks in your audience. "Rolling Home" is hot. Check out "That's a Fact" (Capitol)

COUNTRY

Direct From Duncan

I hope you'll tune in to the R&R Country section next week for complete pictorial coverage of the 7th Annual Country Radio Seminar. The seminar is this week in Nashville and from early reaction looks to be the best yet. If by chance you can't get down R&R will be there.

Country stations and record companies should direct all Country radio and record industry news and photos to my attention. Send any material you might want publicized to: Jim Duncan c/o RADIO & RECORDS Country, 6430 Sunset Blvd., Suite 1221, Hollywood, California 90028. Again let me remind stations that you need not be a reporting station to get your news in R&R. All news is welcomed and will be printed as space is available.

Service needed: WLOL, St. Paul, Minnesota will change formats from chicken-rock to Country as of April 1. (No foolin'!) Program Director will be TOM WYNN and the music will be handled by MICHAEL O'SHEA. All product old and new is needed immediately. Send to 1370 Davern St. 55116. Phone: (612) 698-5566...WRBN, Warner Robins, Georgia, which will go full time Country as of the first of April also needs service old and new product. The new call letters will be WQCK and all product should be sent to Program Director RICK WIMBERLY, P.O. Box AB 31093. By the way the station needs some good air talent, if you are interested contact PD Wimberly...KRZY, Albuquerque needs record service from all labels...WGEE, Green Bay, Wisconsin also needs service from all labels.

Speaking of WGEE, Green Bay, they are one of our two new reporting stations. Besides WGEE, WCOP, Boston, under the direction of RON DENNINGTON, are the latest two new reporting stations for the R&R Country section. Thank you in advance for all of your help.

JACK RENO, formerly with WUBE, Cincinnati and KOOL, Omaha, among others will be available for any type of air work, programming, music direction, etc. Reno has been taking some courses in college for the past few months and called last week to let me know he is available for work as of April first. He can be reached at (606) 371-5469. Besides an air talent, Reno is a fine Country Music entertainer...BILL COFFEY formerly with WMAQ, is still looking. (312) 593-8572.

CHANGES: BOB WISE, recently with WAKC, Normal, Illinois, has joined KEED, the new Country station in Eugene, Oregon. Wise will do morning drive...New air personality at WPNX, Columbus, Georgia is NORM WODDEL, former News Director of a television station in the market...JIM DREYER joins WUBE as the all night jock. Dreyer is from WLW, Cincinnati...KURT ANDREWS replaces RICK STEWART as Music Director of KXRB, Sioux Falls, S.D.

LORETTA LYNN's autobiography "Coal Miner's Daughter," will be out around the middle of April. MCA Records has planned a "Tribute To A Lady" month during April...MEL TILLIS will guest star on ABC-TV's "The American Sportsman," Sunday March 28...ROY CLARK has just completed taping 11 major guest spots for television during his recent visit to Los Angeles. Some of the upcoming shows include "Donny & Marie Osmond", "The Mac Davis Show" for April 29, and co-hosting of the Mike Douglas Show...CHARLIE WALKER has signed with AWARD Records and his first release, produced by our own BIFF COLLIE will be out to you soon...The pop group THE LETTERMAN have just released a very tasty Country album on Capitol worth a listen...BILL ANDERSON is scheduled to appear on the CBS-TV game show "Match Game" the week of March 24 for five days.

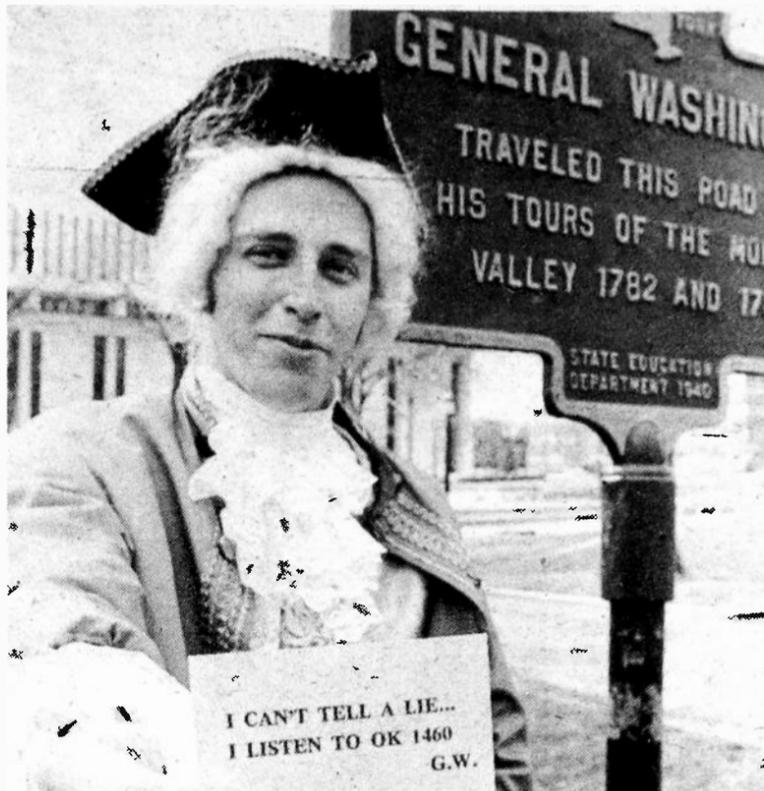

ZELDA SAVAGE of Savage Records in Nashville was calling WENO, Nashville a couple weeks ago to promote a record when she was put through on the contest line to the jock on-the-air. She played along and knew the answer to the question and won that hours prize.

KXLR, Little Rock, Arkansas, needs a lady to do the all night show, 12 midnight to 5am. The station will provide an engineer so a license is not necessary. Tapes and resumes to PD LARRY DEAN, P.O. Box 3014, Little Rock, 72203.

JOE LADD of KIKK, Houston told me he thinks DAVE DONAHUE, Operations Director of KHAK, Cedar Rapids, Iowa should fill the gap between his two front teeth with turquoise. For those of you in the audience who don't know Dave, he owns more turquoise jewelry than most Indians.

PROMOTIONS: KBFW, Bellingham, Washington, has put together an "Un-Contest" with the sponsorship of 7-UP, the Un-Cola Contest will be a drawing from cards sent in to the station. First prize a pair of used boots, second prize is a case of the Un-Cola and third prize is a trip to Hawaii...KUZZ, Bakersfield is giving away a V.W. Rabbit to the first person to guess the number of KUZZ's in the car. The station has filled the car with bumper stickers and mugs with the call letters on each...For St. Patrick's Week, WSUN, St. Petersburg has the WSUN Green Machine, a specially decorated car. The car will travel around town looking for houses decorated with green and the station's call letters. The station plans to give away some green for the promotion, cash that is...WHK, Cleveland had their air personalities donate items to be auctioned to raise money for the M.S. Society. They raised over 700 dollars. The highest bids went for morning personality GARY DEE's Cow Bell (\$140) and all night jock DOC LEMON's cowboy hat (\$126).

I over heard a couple of gals talking about falsies and one described them as "extra padded attractions."

WOKO RADIO PUTS ON WASHINGTON BIRTHDAY PROMOTION (And That's No Lie!)

OK Radio/Albany resurrected George Washington in time for his February 17th birthday celebration. George, who looks an awful lot like OK's 7-midnight personality Joe Gallagher, recreated his toss of a silver dollar across the Potomac (really the Rappahannock). He first marched from the state capitol in Albany to the Hudson River where he was unsuccessful in his efforts to reach the other side with his silver dollar. He then traveled to Schenectady in a vain attempt to pitch his coin across the waters of the Mohawk River. He tried a smaller stream next, the Kaydrosseross,

in Saratoga County, home of the Saratoga Revolutionary Battlefield; but Joe's, er, George's arm was beginning to tighten up and he muffed it. Then, on the Banks of Normanskill Creek, George was able to successfully make it to the opposite shore.

OK listeners were given a play by play account by OK News personality Bryan Jackson.

George made various appearances around town passing out cards that read, "I can't tell a lie, I listen to OK 1460, G.W." While in Schenectady, George visited the Off-Track Betting Parlor with hopes of re-couping some of the silver he'd tossed away. It was quite a day for George Washington.

HOT DOG!! As part of the recent March of Dimes Decathlon in Baltimore, WISZ morning personality GEORGE MORAN takes part in the Hot Dog Eating Contest. Local radio and TV talent took part in the Decathlon to raise money for the March of Dimes. Other events included "Paper Airplane Throwing Contests" and "Walking With A Book On The Head Contest."

CHARLIE RICH TO HEADLINE 2ND ANNUAL TRUCK DRIVERS COUNTRY MUSIC AWARDS SHOW

NASHVILLE—Epic entertainer Charlie Rich will be the headline performer when the Second Annual Truck Drivers Country Music Awards Show is presented in McCormick Place, Chicago, on June 26. This will be Rich's second stellar appearance at the trucker's country music event. Rich was the 1975 recipient of The Truck Drivers' Best Country Male Vocalist of the Year Award.

The truck drivers' annual selec-

tion of favorite country music stars in 10 categories is sponsored by Fram Corporation, Radio Shack, and "Open Road Magazine."

The 1976 Show will be the culminating event of Truck Week '76, a broadly-based, industry-wide exposition, and also the mid-point event of a two-day convention of owner-truckers, to be held June 26-27 under sponsorship of The National Independent Truckers Unity Committee.

The ten categories of competition to be voted on by professional truck

Biff Collie INSIDE NASHVILLE

SICK BAY: BOB LUMAN is resting at ST. THOMAS HOSPITAL in Nashville waiting for the doctors' decision on further surgery to correct the ruptured vein in his esophagus. Corrective surgery of this type is NOT highly successful. Bob walked into the hospital after flying here from PARKLAND HOSPITAL in DALLAS, where he stayed for over a week after a near-fatal hemorrhage which required almost 30 pints of blood to replace... LORETTA LYNN spent time at a local Nashville hospital under an assumed name for what the medical report called "flu." Meantime, her associates were busy deflating stories of nervous breakdown and the like. In EVANSVILLE recently, she was the target of a death threat...CONNIE SMITH active again after extensive discomfort during her current (5th) pregnancy. She's due Independence Day, July 4th...

CALENDAR: TENNESSEE ERNIE FORD will accompany 14 OPRYLAND singers and a 12-piece orchestra to WASHINGTON, May 1st to entertain at the 62nd WHITE HOUSE CORRESPONDENTS' DINNER... TERRY and MARY REEVES DAVIS had their 2nd annual cattle sale from their MUSIC CITY HEREFORD RANCH Monday night, drawing almost 400 people from 12 states, held on the Grand Ole Opry House stage...MERV GRIFFIN will spend a week here in June taping his syndicated show, according to BETTY BITTERMAN, one of the show's producers...Over 30 representatives of various tour brokers and sightseeing companies met in Nashville to organize an association of tour companies and guides...WKDA AM-FM in Nashville has been sold for \$1.2 million to DICK BROADCASTING CO. of KNOXVILLE, owner-operator of WIVK, successful country station there...CHARLIE WALKER hosted the ERNEST RUBB RECORD SHOP "Midnight Jamboree" over WSM Saturday night at midnight, and at "Midnight-Thirty" a surprise guest came in and sang for a half hour for him. MERLE HAGGARD made it a most memorable midnight for a record ship full of country travelers. WALKER and his wife, VIRGINIA (All he did was wring his hands!), announced the birth of their newest daughter. (That makes eight for Charlie! That's talent!)

NAMES IN THE NEWS: Super songwriter-record star TOMMY COLLINS (BUCK OWENS was once his lead guitarist) is in Music City to record for the first time in eight years with TOMMY HILL at STAR-DAY-GUSTO. COLLINS' "Roots Of My Raisin" has been at the top of most hit parades lately...JERRY REED's string of bass the other day at Nashville's PERCY PREIST LAKE was topped by a 6½ pound Small-mouth...Remember AUTRY INMAN? He's been named in an alleged conspiracy to manufacture and distribute bootleg copies of hit songs...

DONNA FARGO
On The Move (WB)

This album will once again establish DONNA FARGO as one of the top artists in Country Music. Some fresh new themes and arrangements make this by far her best efforts to date. Pay particular attention to: "Patches" which is an across-the-board smash and the uptempo "If You Can't Love All Of Me." An excellent ballad is "I've Loved You All The Way." "Country Girl" is another very strong cut. Bravo.

LARRY GATLIN
With Family & Friends (Monument)

No doubt Gatlin has one of the finest voices in Country Music today and most cuts in this LP are beautiful. The subjects are real and the music is put together very well. Beside the current Top 10 single, "Broken Lady," the best material would be "Warm And Tender" "Fagan's Chapel" and "The Heart Is Quicker Than The eye." Possible "Odetotheroad."

1976 EDITION OF TOM T. HALL - BETHEL CELEBRITY GOLF TOURNAMENT AND CONCERT ANNOUNCED

CHATTANOOGA—With the celebrated Nashville singer-songwriter on hand to aid in briefing the press, officials of the 1976 Tom T. Hall - Bethel Celebrity Golf tournament and Concert revealed details about this year's event.

Dates: Friday and Saturday, May 14-15, at Creeks Bend Golf Club in Chattanooga. Concert date: Friday, May 14, at Memorial Auditorium in Chattanooga.

Benefiting from the proceeds once again will be Bethel Bible School, a home for children whose parents are imprisoned. The school, located in suburban Hixson, depends entirely on donations from the public, since it receives no government funds of any sort, nor does it receive funds from other philanthropic, charitable, or religious organizations, most of which are able to budget just enough for their own kinds of youth programs.

This is the fourth year a Chattanooga golf tournament has been staged to aid in raising money for Bethel, but it's only the second year Tom T. Hall has been involved with the event.

"I heard about Bethel for the first time early in 1975," Hall explains. "I visited Bethel soon afterwards, and that's when I was sold on the home, the program, and the children. Someone suggested that we in Nashville join forces with the Chattanooga folks who had been working on the Tournament during the previous two years. We agreed, we came up with some initial ideas for expansion, such as the concert, and we had a great time. I'm told last year was the most successful thus far, but this year is going to be even bigger."

Basically invitational, the Hall-Bethel Tournament consists primarily of celebrities from the sports world and from the world of entertainment, mostly Nashville-based singers and musicians.

BURT REYNOLDS, LAUREN HUTTON, MIKE DOUGLAS and **JERRY REED** will attend a special premier of the new movie "GATOR" at Nashville's Crescent-Downtown Theater May 21st. Proceeds to benefit the **BILL WILKERSON SPEECH and HEARING CENTER** here. **BILL and GLORIA GAITHER** and their group, Grammy and all, at the **OPRY HOUSE** last night (18th) for a crowd that had been sold out for almost three months! Two days after the tickets went on sale in January, they say all tickets were gone. You'd have to see their show to understand why. It's the most unusual, exciting and beautiful way of worshipping yet devised.

The seventh annual Country Radio Seminar started this morning (19th) at 9:00am. At the rate registrations were coming in last weekend, this year will top them all in attendance. This will undoubtedly be the most exciting and productive working seminar we've ever had. **C.W. McCall, TOM T. HALL, JERRY CLOWER, BILL ANDERSON** top the celebrity list who'll be seriously involved in the 1976 seminar theme: "COUNTRY RADIO NO. 1, A REALITY." I hope to see you here.

POP/ADULT RADIO NEWS

KCRA-SACRAMENTO

Station is running a localized version of the Bicentennial blitz we are all experiencing. It comes in the form of a daily series called "Sacramento Story." The features run ninety seconds and are voiced by local high school and college students.

WFTL-FT. LAUDERDALE

Mike O'Shea, now programming both WLW and WFTL reports terrific success with his most recent promotion. Called "Leap Day" in honor of the twenty-ninth of February, both stations threw a birthday party for any listeners who came by the studios with proof (birth certificate, drivers license, etc.) that he or she was born on a 29th of Feb. The big party consisted of such All-American delights as ice cream, cake, party hats and balloons.

WTRX-FLINT

Program Director Jim Mahanay resigns his position at the station effective March 28th to move to the Mile-High City, Denver and assume the mid-day jock position at KIMN. Jim has been one of our most enthusiastic reporters and we wish him well.

WDAE morning personality Ken Cooper was caught "loafing" on the job. The five-foot long loaf of Cuban bread was delivered by an unidentified lady after he appealed to listeners' sympathy that some folks like bakers and dee jays still have to work. Anyway, a local baker picked up on the broadcast and sent over the long loaf.

POP/ADULT NOTES

BY MIKE KASABO

WNBC PD John Lund put in a stellar performance on Tom Snyder's "Tomorrow" show last week. Topic on the show was "What Makes A Hit Record."

Some activity noted on the Bowen & Richards record "Monique." KNX-FM, and WBAL are giving it solid exposure. Jumps 44-38 at KWAV.

Johnnie Taylor's super rock smash "Disco Lady" is starting to see some daylight at the Pop/Adult level...add WTAE and WGAR.

Maria Muldaur's LP cut "Sad Eyes" is getting good response at KNX-FM, KFI and WKBC-FM.

WIP first station we know of that went on the new Rhythm Heritage record "Baretta's Theme." ABC is rush-releasing it this week.

Jack London, KDWN, calls to tell of great phone action on the Gaylord & Holiday record "Eh Cumpar" and the Captain & Tennille album cut "Shop Around."

The new Susan Jacks went right on WGN and KRMG.

If you recall Margie Joseph came very close to having a major record with "Words (Are Impossible)" about a year ago. Now Donny Gerrard seems to be picking up a lot of steam at the Pop/Adult level with his version...see New & Active for latest airplay.

That French version of "Durham Town" by Roger Whitaker continues to get good action at WGN...and has now been added to WLW, WFTL.

Bette Midler's "Strangers In The Night" added at WGAR, KMEN.

The Lulu "Heaven, Earth & The Stars" jumps 13-10 at KWAV and was just added at WTRX.

From the enough-is-enough department: "Love Will Keep Us Together" by who else? is still number two in phone requests at KMPC.

The Barclay James Harvest record "Titles" makes a good jump at WSAV 30-21.

Well the January/February ARB's are in and overall the Pop/Adult stations either maintained or gained. Los Angeles was one exception with both Pop/Adult AM stations KMPC and KFI dipping.
