Ron Jacobs Sues Aku & KGMB For \$16 Million

The battle of the morning men in Honolulu has moved from the airwaves to the courts. Ron Jacobs, VP/Programming and morning air personality on KKUA has filed a suit in Hawaii's First Circuit Court against KGMB's veteran morning man, J. Akuhead Pupule (known mostly to his listeners as "Aku"), and Heftel Broadcasting's KGMB because the plaintiff allegedly called Jacobs a "fag" on the air. Jacobs claims that during his morning program Aku spoke to a young listener who called in during a telephone talk segment and the listener brought up the subject of Ron Jacobs. When the call was finished, the next caller told Aku that it was Ron Jacobs' kid who had just called. Aku allegedly replied, "Now you see, we get all those kind of calls and I don't really

think that's true, because, you know, in order to have a kid you gotta be married, and as far as I know, Ron is a fag." Aku's apology the next

day on the air further infuriated Jacobs. In Jacob's suit he claims that Aku's remarks had as their purpose the maligning of his sexual integrity and identity and as a direct and proximate result of such utterances has suffered severe and grievous injuries and damages including, but not limited to the defamation of his character, the holding up of his person and personality to public ridicule, extreme and intense embarrassment, humiliation, and emotional and mental distress. Jacobs goes on to say his earning capacity has been injured because his earning capacity as a radio personality is directly dependent upon public reaction to his presentations, his personality, and his character. Jacobs is suing Aku and KGMB a total of \$16 million on two counts, plus legal fees.

Robin Mitchell To WIFE/Indianapolis

Robin Mitchell resigned as PD of WSAI/Cincinnati to become the new PD at WIFE/Indianapolis. Mitchell told R&R: "I'm very happy to make the move. The new owners

of WIFE are very dedicated to developing the station to its fullest potential and they've given me the budget to do it with." Mitchell begins at WIFE September 1.

Quickies:

The sale of WYOO-FM/Minneapolis to Doubleday Broadcasting and the station's new call letters, KDWB-FM, will take effect September 1. Doubleday's KDWB-AM and the new FM will be able to simulcast 24 hours, since the FM is licensed to suburban Richfield.

Ken Curtis, most recently Program Director of 98Q/Vidalia has been appointed Program Director of KAKC/Tulsa. Curtis will take over his new position within the next two weeks.

Charlie Minor To ABC

Charlie Minor resigned his National Promotion position at A&M to accept the Vice President of Promotion post at ABC Records. ABC Chairman, Jerry Rubinstein, told R&R "The excitement of Charlie Minor joining us at ABC is equaled only by the fact that we now have the best all around executive team in the industry."

Bartell's WMJX License Renewal Held Up

The Commission has designated for hearing the application of Bartell Broadcasting for renewal of license of WMJX/Miami. The Commission said that information before it raised serious questions as to whether Bartell possessed the qualifications to be or remain licensee of WMJX and because of these questions it was unable to find a grant of renewal to serve the public interest. Hearing issues include the facts and circumstances surrounding the April, 1975 broadcast by WMJX of announcements and newscasts concerning a "Devil's Triangle" trip by a station DJ and a subsequent "Find Greg Austin" contest. Questioned is whether Bartell, in connection with the "Devil's Triangle Trip" and "Find Greg Austin" contest broadcast false

or misleading announcements. Further, whether Bartell distorted or falsified newscasts in connection with those broadcasts. The facts and circumstances surrounding preparation and implementation, if any, of representation contained in a January 20th, 1975 letter to the FCC concerning the broadcast of false, misleading or deceptive matter. Also, whether Bartell failed to abide by representation to the Commission in that letter, and finally whether, and if so, the extent Bartell violated FCC rules by failing to exercise reasonable diligence to see that its agents and employees did not issue invoices charging advertisers for commercial announcements not broadcast as purported.

KCBQ/San Diego Alters Survey List Policy

Gerry Peterson, KCBQ/San Diego Program Director, has informed R&R that beginning next week the station will no longer list records on their list unless there is stock available for sale in local record stores. The station list will not reflect any move-

ment on non-stocked records and any non-stocked additions will be held in an unlisted internal category for up to three weeks. San Diego has been "racked" from the Los Angeles area station lists, and Peterson's move is designed to localize the record stores.

UMBRELLA MARKET FIGHTS THE SYSTEM

Three city councils of Orange County, California have taken preliminary action that could result in strict local regulation of audience measurement firms such as Arbitron, Nielsen, Pulse and Source. Responding to a plan proposed by KWIZ/Santa Ana Station Manager Pat Michaels, the Santa Ana city council instructed the city attorney "to prepare an analysis of these suggestions and the necessary enabling legislation for our consideration." The Garden Grove and Anaheim city councils also ordered staff study of such a plan.

Claiming that Orange County's treatment as an umbrella market of Los Angeles has severely damaged its economy, Michaels told the councils that his plan is designed to get the equal treatment the county deserves. The plan, including a requirement that interviewers employed by audience measurement firms register with local police departments, could result in millions of dollars in fines for rating firms if they do not comply.

The U.S. Office of Management and Budget classifies Santa Ana-Garden Grove-Anaheim as the 19th largest Metropolitan statistical area in the country. Michaels was originally invited to speak to the councils because of their concern over lack of Orange County election coverage by Los Angeles broadcasters. Most of the nation's largest audience measurement firms combine Los Angeles and Orange Counties into one market survey.

FLOATING PARTY

96X/Miami listeners were recently treated to the station's "Floating Party." The "Rock of the Atlantic" station took listeners on an ocean boat cruise, complete with Rock bands for entertainment, and free food. Listeners called in to win tickets to the party.

PHONE BOOTH BLITZ

Z93/Atlanta did a twist on the call-out type contest recently during their "Phone Booth Blitz Weekend." Station jocks made calls to random phone booth numbers all over the city. If anyone picking up the phone answered "Z93," they won cash, LPs and other prizes.

THE "LOVE ROCK"

WTOC/Savannah has created a brand new station image, based on the logo "The Love Rock." Program Director Dick Richards says that the new image is an attempt to capture the current "spirit of America," and get the station involved in the community. Station personalities, now dubbing themselves the "Love Jocks," are giving free talks in the area, answering the public's questions on their station and broadcasting in general.

QUACK UP

KSLY/San Luis Obispo morning man Captain Buffoon recently announced to his audience that he was "quacking up." Anytime that listeners caught the sound of the duck on the air and phoned in, they ripped off a copy of Rick Dees' RSO single "Disco Duck." The Buffoon also did bits with the artist himself, Program Director and morning man at WMPX/Memphis.

KDAY REAPS AWARDS

KDAY/Los Angeles has been awarded the Exceptional Leadership award from the Brotherhood Crusade. The station recently raised \$4000 for charity with a celebrity bike-a-thon. Special mentions were made by the Brotherhood Crusade to Program Director Jim Maddox and Community Relations Director Jean Tillman.

Gary Price, General Manager of KDAY, has been named "Manager of the Year" by owners Rollins Broadcasting.

MORE CASH FROM WQXI

WQXI/Atlanta continues its "Super Summer Jam" promotion, with grand prizes awarded rising. The contest series features collages of five records on the air. So far, two winners have already identified the first two collages, winning \$1000 and \$2000 respectively. Now the prize has been upped to \$3000, and the collages are getting harder to identify.

THE CHICKENMAN COMETH

WNCC/Barnesboro, Pennsylvania's "Chickenman" has been actively participating in the numerous Bicentennial year celebrations in the station's area, riding in his custom "Chickenmobile" to various

street dances and parades, handing out prizes.

WRBN DAY AT 6 FLAGS

A recent Saturday was deemed WRBN/Warner Robins, Georgia "Stereo 102 Day" in 6 Flags over Georgia. The amusement park's latest thrill ride, "The Gasp" was the clue for listeners to win tickets. At the sound of the gasp, listeners called in to win tickets plus Gasp T-Shirts.

HAPPY DAYS WEEKEND

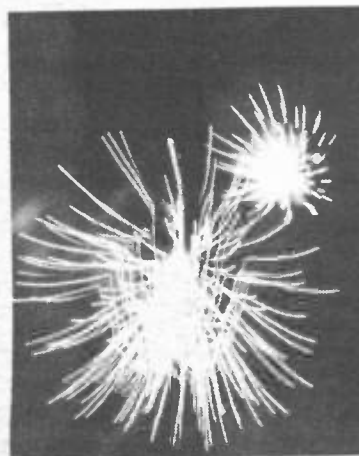

The entire cast of TV's "Happy Days" cut promos for WORG/Orangeburg's "Happy Days Weekend." Music of the 50's and 60's was featured on the air, a special drive-in movie showing of "Rock Around The Clock" was held for listeners, plus giveaways of nostalgic items such as hoola hoops and oldies LP's. Live remotes from shopping centers helped create excitement for the special weekend.

This week marks the 1000th CHUM/Toronto music survey issued. The first CHUM chart, containing 50 titles, was issued in May of 1957, the day the station turned to Rock and Roll. It listed Elvis Presley's "All Shook Up" in the number one slot. With the exception of WHB/Kansas City's chart, the CHUM chart is the longest continuously issued radio music chart in North America. To celebrate the issue, the 1000th chart was printed in the Toronto Sun.

Rock & Roller Rick Derringer (center) paid a visit to WISM/Madison's Charlie "Rock & Roll" Simon (left) before Derringer's sold out concert. Accompanying Derringer on his visit was Tom Gennetti (right), Epic Records.

One of the largest area 4th of July crowds turned out for KROY/Sacramento's celebration. Well over 30,000 watched a monstrous fireworks display, sky divers, free concert, and watermelon eating contest.

KHJ/Los Angeles jocks Bobby Ocean (left) and Dr. John (right) congratulate the winner of KHJ's trip for two to the summer Olympics. The trip include round trip air fare, hotel accommodations and event tickets.

WGNG/Providence recently ran a "Get Closer To Seals & Crofts" contest. The winner did just that as she got together with the duo before their local concert appearance. Pictured (left to right): Jimmy Seals, the contest winner and friend, WGNG's Bob Marshall, and Dash Crofts.

Advertising Low Priority For Consumers

A survey of Americans on reactions to advertising, published by the American Association of Advertising Agencies, shows that most people are not concerned with advertising as much as many critics are, with 89% indicating that they had no concern over ads. The report also notes that advertising is not offensive to most people, contrary to what many critics have said. 88% of those surveyed did think that advertising is essential for business. Three main areas of ad content were brought up by many surveyed, with most wanting consumer benefit information, credibility and esthetics in ads.

New Dollar Coin Coming?

U.S. Mint officials, stating that the current silver dollars are too bulky to handle, may soon introduce a \$1 coin that is smaller than a 50¢ piece, but larger than a quarter. The metal alloy coin would replace silver dollars.

Recycling Cash

The Unique Sales Co. of Hopkins Minnesota has taken advantage of the government's old shredded currency by bottling the cash in apothecary jars and selling them at \$5 a pop. The Department of Treasury's current mode of cash disposal is shredding because of the pollution problems incurred with burning the bills.

Hoola Hoops Here To Stay

The largest manufacturer of Hoola Hoops, Wham-O, notes a rise in popularity of the hoops once again. Since the inception of the fad in 1958, the company says that a resurgence in sales occurs every 6 to 8 years.

FCC Converts To Metric

All applications to the FCC for license, equipment authorization and construction permits will soon use metric units only. No exact timetable for the conversion has been set, the first phase is to use both metric and U.S. equivalents on the applications, followed by total conversion.

NABET President Against ATS

Edward Lynch, NABET International President has protested the Federal Communications Commission's proposed rule allowing use of automatic transmission systems for radio and TV broadcast. Lynch stated that the rule would cause a loss of jobs and may cause a deterioration of service from stations that used the automatic system. The Commission's stand on the issue maintains that use of ATS would free stations from many operating requirements.

September 1st Cutoff For Star Stations

The FCC extended the date for Star Stations to cease operations at WIFE-FM/Indianapolis, KOIL and KEFM/Omaha, and KISN/Vancouver until September 1st. After originally denying the licenses of these stations and giving them 30 days to conclude operations, the Commission allowed the extra time to provide for an orderly transition.

Wynshaw Sentenced For Tax Evasion

Former CBS Records Artists Relations Director David Wynshaw has been sentenced to a year jail term after pleading guilty to two counts of income tax evasion, as well as a conspiracy count. The conspiracy charges involved the set up of several phone companies which issued phone invoices to CBS. Mail fraud charges were dropped against Wynshaw, who began serving his sentence this week.

Broadcast Revenues Up

Metromedia Inc. reports a second quarter net income increase of 94% up to over \$8.6 million from \$4.4 million for the same quarter of last year. Net income for the first six months of the year was up a whopping 150%.

Broadcast and publishing holdings were cited as the reason for Capital Cities Communications' net revenue jump of 25% for the second quarter. First half year figures jumped up 44% from last year.

ABC, despite declines in revenue in some of their entertainment properties, reports that broadcast revenues brought up total revenues 24% and income for the first half up 47%.

RCA's Classics Selling

RCA Records classical line sales have jumped up a dramatic 74% in the first quarter of the year. The label attributes the increase to their new medium-priced line, and a wider selection of artists and albums now available from them.

Britain Blocks Kodak Instants

Polaroid's British division has come to battle with Kodak as they already have in the U.S. The High Court of Justice there issued a temporary restraint against Kodak to market their new instant picture cameras and film. Polaroid claims that Kodak's camera violates their patents. Kodak plans to appeal the British decision.

BBB Goes Both Ways

The Eastern Pennsylvania Better Business Bureau has introduced a new service that helps businesses settle complaints against consumers, as well as their usual handling of consumer complaints against businesses. Most of the business' complaints handled will involve overdue bills.

FDA Studies High Fiber Breads

At least three new "high-fiber" breads recently introduced are being investigated by the Food & Drug Administration. The FDA is checking the promotional material of the breads to see if nutritional and dietary claims made for the brands are correct.

CAB Issues Air Fare Guide

To help consumers find the lowest air fares available, the Civil Aeronautics Board is making available a guide, "Consumer Facts on Air Travel," to the public. The book outlines what the different types of fares are, and supplies basic questions that consumers should ask travel agents. The book is available free from Distribution Unit, CAB Publications Section, 1825 Connecticut Avenue, N.W., Washington D.C. 20428.

LETTERS

Dear R&R:

As a general proposition, I have always had a high regard for your ability as a publication to perceive the difference between a report and PR puffery. Please don't shake my confidence. The story in the July 16 issue, which has to do with Drew and RKO negotiating or arranging transfer of the Koala Bears to the San Diego Zoo is just Paul Drew bullshit. Two 41P staffers were in my office in Charlotte when this story broke and these are the facts.

The entire arrangement was made through the good offices of Mr. Frank Moore, managing director of 41P Radio in Melbourne, and the Australian broadcasting community. For 12 years the San Diego Zoo has been trying to get the bears. An Australian law prohibited such action taking place. Mr. Moore and his fellow broadcasters arranged for the transfer. Drew and RKO had about as much to do with it as they did with the invention of Rock & Roll radio...namely, nothing.

The Australians are understandably upset at Drew's grandstanding and I think your paper is one place to right this situation and I trust you will print this letter as written. I can guarantee you the Australians are sorry they ever started their Friends Across the Pacific with RKO radio. They meant it to be a project with American Radio, not RKO radio and there is a difference. The kind of hot dog grandstanding that RKO has performed in this issue has irritated our Australian friends beyond belief. Typical, somehow Drew is determined to get to be six feet two. He'll never make it.

Best regards,
Stanly N. Kaplan
WAYS/Charlotte

(Ed. Note: This letter was originally received by R&R's FCC Advisor Jason Shrinky.)

While looking at the July 30 issue of Radio & Records, I discovered a disgusting picture at the top of page 3 in conjunction with a story extolling the virtues of a record company and radio station promotion in which young ladies bared their bosoms before a large audience. I presume the person with the largest or most shapely breasts was eventually declared the winner. I noted on the same page that you are listed as the FCC Advisor for this publication.

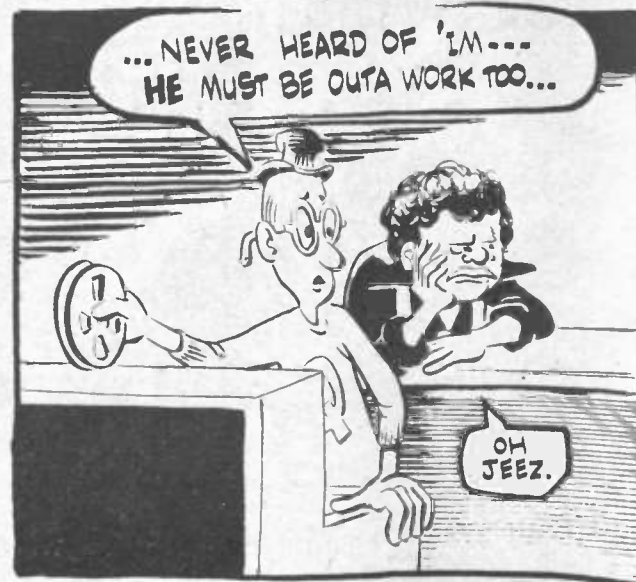

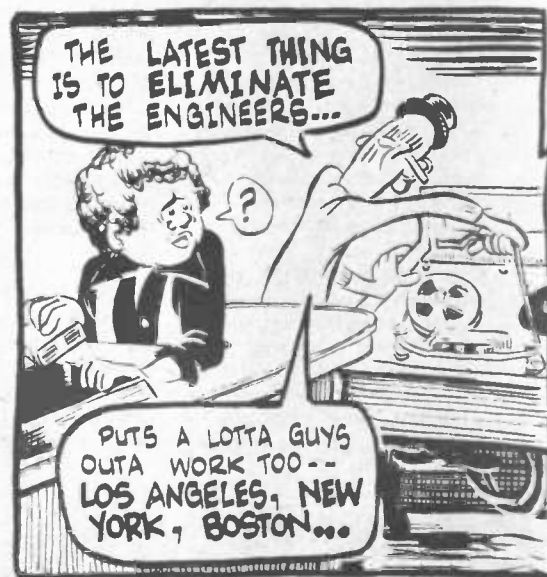

Aside from the fact that such contests are ill-conceived and in the worst possible taste, I was distressed to see the publicity picture prominently displayed in the publication. It would seem to me that printing such a photograph would in no way help the record industry which is frequently under attack for using sex, drugs or other unethical methods of pushing their product. It would also do little for the radio industry which is frequently accused of an "anything for a buck" attitude.

In short, this publication exists because of the record and radio industries, and yet does a great disservice to both by accentuating the immoral.

WHAT'S IT ALL ABOUT

CREATIVE CONCEPT PROGRAMING

PROGRAMING

What's It All About Alice, not an interview show, not a documentary, but a special that utilizes audio production to the fullest. Humor, information, Alice's words and music, produces a unique insight into Alice Cooper, designed for every listener. Included is a behind-the-scenes look at Alice's latest production, Alice Cooper Goes to Hell. 19 months in the studio, and blazing a hot new trail in the world of special programming, What's It All About Alice is ideal for programming.

SALES

What's It All About Alice, for sales and promotion. Twenty-one local availabilities for increased sales revenue. Program includes promo package with inserts for sponsor identification. Re-run rights available for stations requesting market clearance. Promotion tie-ins endless and wide open to your creativity. What's It All About Alice, ideal for sales and promotion.

The Parallel One Playlists

We are now publishing the complete playlists of each reporting P1 station. The advantage of this is that you can see, at a glance, the entire music activity at a station, per their list. Each hit record will continue to be broken out in full in the Parallels. From time to time we will include "guest" stations from Parallel 2 and 3.

All playlists shown reflect the latest information available to us.

on Atlantic Records

Parallel I: Major market stations (top 30 markets) that are format dominant* in their market and/or are the major sales influence. These stations usually play under 35 records in total.

Parallel II: Key stations (31-100 markets) that are format dominant in their respective markets, and influence rack buying patterns for their region. This category also will include some major market stations that are not the dominant ratings/sales influence, but have demonstrated importance in their respective markets. These stations will usually be programming 35 or less total current selections.

Parallel III: All other reporting stations. This parallel will also cover stations with longer playlists. It also will include secondary reporters that are not the format dominant station in their market but influence the market considerably.

*Format dominance determined from latest Arbitron survey available at that market.

Most successful AOR programmers will tell you that the healthy AOR station is more than just a continuum of good music, be it "good" based upon subjective critical listening, or researched for justification by public acceptance. There is a definite (although difficult to define) AOR "environment" or "image" which must be created, projected, and maintained before the station entity, as a whole, can be complete. Call it a vestige of AOR's inception period, if you like, but even as late as 1976 there is an environmental/chemical process which goes beyond sound and research to make AOR radio unique in the multi-faceted and often illogical maze of contemporary music radio.

As a result, AOR programmers must constantly play the role of referee in the bout between sound and image regarding music and recording acts.

Interestingly, the image awareness factor of music played (or not played) on AOR radio stems from the genre's original desire to play quality music, primarily, coupled with that which was applicable to the dynamic culture that AOR radio took upon itself to represent. For a long time, the two went hand in hand, but somewhere in the past few years there developed an intangible schism and that's where the conflict of opinions and decisions lie.

The problem takes two forms. First, there are the "sacred cow" artists. These are some of the acts that were at one time a vital part of the Progressive radio scene, lending both pertinent music and culture to the AOR airwaves. Today, many AOR programmers find themselves compelled, to a degree, to play new material from these artists (and even old "dated" stuff even if the material is not musically up to par by today's standards. That's when image takes precedence over sound. Then, there are the artists who never made any contribution, musical or cultural, to the AOR scene, who surprise everybody with a record that is so good (by and for AOR standards) that AOR programmers want to play it. When this occurs, sound wins over image.

Unfortunately, in practice, it's not that cut and dry. The boundaries are changing faster than most programmers can keep up with them.

How ironic that AOR people must deal with such an almost hypocritical and compromising situation which, in fact, is a manifestation of an originally pure and uncompromising intention. Nevertheless, there is a tightrope which must be walked.

Back around 1973, KLOS Program Director, Tom Yates, conducted an extremely interesting and meaningful experiment. MGM Records released a very fine album by the Osmond Brothers called "The Plan" (perhaps you'll remember it). Musically, it was an obvious departure from anything the group had done before, and if it had been released by, perhaps, a group with more of a progressive image or a brand new group with no track record whatsoever, it very well might have been received by AOR radio with overwhelming praise and airplay. MGM realized that they were faced with a situation of sound versus image, so they released an advance copy of "The Plan" in a plain white cover with no credits on it to a few AOR stations to get some sort of reaction. Yates received one such copy and met with Allen Osmond to discuss the matter. Together they listened to the album and, as objectively as possible, picked what they both considered to be the two best cuts. That night, Yates had one of his jocks play what he and Osmond considered to be the second best cut and ask listeners for their reaction. The jock merely said that the album was by a new group and didn't say who they were. That talk show lines were manned to receive all the calls. Of the 40 calls tabulated, 37 were positive and 3 were negative. Then, the jock went back on the air and told the listeners the entire story. He followed that by introducing the other cut (the one determined by Yates and Osmond to be the best on the album), gave it a bit of hype, and asked the listeners to call again with their reaction. Only 29 calls came in and they were all negative. Stimulated by the results of the experiment, Yates tried again. The next night he came down to the station about midnight with a copy of the album "Head" by the Monkees, one of that group's obscure, but good, attempts at making progressive music. One of the outstanding cuts on the album is called "The Porpoise" and he had the jock introduce it as a new record by an unknown group and again, ask for listener reaction. In this case, just about every call was positive. The next night, they did the same thing again, only this time the jock told the listeners who the group was and what he had been up to. Not only were most of the incoming calls negative, but some were even threatening.

Although this isolated series of experiments was conducted a few years ago, the still pertinent questions it brought up (but only partially answered) are: who reacts more to image, the radio station or the audience? Where does one draw the line between quality of sound and listener image acceptability? The onset of research has made this struggle even more difficult for the AOR programmer because, in many cases, artists of questionable image (for AOR radio) are outselling AOR image acts.

According to Paul Payton, Music Director of WHCN, "I was the first to play 'The Porpoise' on WBRU back in 1967. If it's good music, we'll play it, but it's really tricky. At WHCN, we cast the controversial ones to the jocks and let them decide. That's one of the luxuries of being

free-form. I think, however, that the airstaff is more critical of image than the audience. It seems that Progressive radio people often over-estimate the audience hipness awareness level. Listeners just want to get off and it's our responsibility to get them off. With all the competing Rockers in our market all playing much of the same music, who we are is not totally dependent on what we play, but how we present it. Sometimes it's just the setting that can make the difference. Same picture, different frame."

Taking Payton's comments into consideration, perhaps the listeners in the Yates experiment reacted negatively when told who they were listening to only because they felt that it was expected of them. If the record were played, in a real situation, matter-of-factly, without the mystery of part one or the "kicker" of part two, they might have casually accepted the Osmond Brothers on AOR radio and judged it on its own musical merits the same way they would judge a new Doobie Brothers' album.

I asked Payton to define what he thinks are the aspects or qualities of an artist that go into determining image beyond sound. He replied, "I question whether the artist is in it for the money or the music. If the artist is in it for the money and the music, that's OK too. But, when it sound like their only motivation is commercial reward, then they fall out of our image." He went on to mention, "We don't like to play Elvis Presley on this station, but we did play the 'Sun Sessions' album when it came out. In that case we didn't play him for who he is, but, rather, for who he was."

I spoke with Jeff Pollack, Music Coordinator of KBPI, and he told me, "Neil Diamond's latest album is probably the most solid album he's ever done. The fact it was produced by Robbie Robertson made it easier for AOR's to play it, but still it was difficult to decide whether to play it or not. It's very hard to shake an image. I asked Pollack to describe the factors that shape his impressions of an artist's image. "Much has to do with the way the act is promoted. Record companies have a lot to do with it. For example, the Bay City Rollers promotion (trade ads, etc.) was geared to Top 40 radio, while, say, Bad Company was geared to us. Of course, it has to be in the grooves and that tells a lot about eventual image. Images do change, look at Diana Ross, and sometimes records are the collaboration of people with different images like Diamond and Robertson, or now Grand Funk being produced by Frank Zappa. Sometimes we just sit and wait to see what other AOR's do."

Linda Thompson, Music Director of KDKB, told R&R, "As an MD, I try to go on sound rather than image but it isn't always easy to go up against the airstaff. They're the ones I have to convince. I'm successful about 50% of the time. As a result, we've played artists like David Cassidy, but not enough. The audience is very into image." Thompson

went on to explain that one of the ways she determines image is to see whether the artists are album oriented or singles oriented. "If the album only has one good cut and the rest are filler, like it was with albums back in the old days, then I get sceptical."

Seth Mason of WXRT told us, "Our set up takes the problem into account. We play new records exclusively every Wednesday night and all image acts such as the Stones and Zeppelin are played in their entirety and the audience and airstaff reactions are made known on the air. That covers us when they make albums that are less than par. We also play acts with questionable images when they make music that we think deserves a shot, in the same manner. For example, we just played the new Grand Funk, produced by Frank Zappa. We never played Blue Oyster Cult until their new album, which is doing well on our station. At WXRT, for the most part, we try to avoid heavy metal and Pop acts. They don't fall within our image."

My conversation with Gary Granger, Program Director of WSHE, was very interesting and offered another slant on the topic. Granger said, "I play some things from questionable categories in highly day-parted ways. There is a cut-off point, but there seems to be less and less a problem in this area in AOR radio. We play Olivia Newton-John on this station. Gilbert O'Sullivan was WSHE's first do you or don't you. We did. We use the phones a lot to get audience feedback in this area. The main thing is, if you're going to play a questionable artist, play it. Don't talk about it. Don't dwell on it. If you do it properly, you can use these acts to your advantage, to spark interest in certain people in AOR radio. We are planning an unusual television advertising campaign for the Fall. We'll be taking spots during the mid-day soap operas that many of the women are into. The spots will go something like this, "In 20 minutes you'll be able to hear Neil Diamond on WSHE, or, "WSHE will be playing a selection from the new Waylon Jennings album in 15 minutes."

Granger's planned promotion sounds like a sensational twist on the old TV-radio spot tactic of saying, "Listen now to the radio and win money" because it ties in the music and music ties in the image. Granger and I both agree that it doesn't have to be used only with acts of questionable or varying image.

As time continues to pass, AOR radio is having more and more effect upon the music played on radio of other formats. The price it pays for this is in the form of an image backlash. AOR faces the confusion of the diffusion of artist image and a watered down intensity of radio formats' environmental boundaries.

It is a serious situation that requires careful thought, planning, and disciplined openmindedness. Image goes beyond musical competency and is subject to varied methods of interpretation. Add to that the rapid changes in the cultures that all radio is trying to reflect and you find an element of music programming that possibly can prove to be the deciding factor between the success that comes with contemporary pertinence and the failure that comes with cultural and musical obsolescence, when the dust of change settles.

Chart Summary

STARSHIP is still on top, having an even better week this week than last week. ROD and MILLER traded places, both are tremendously powerful turntable items. BECK maintained. C/N inched up. CHICAGO nudged up. AWB enjoyed significant increases. GINO has one of the most positively received albums in the country. The album came on the chart last week at 16 and moved up to 8 this week. BOC resurged powerfully. FRAMPTON maintained. BENSON inched up. YAMASHITA is a very strong airplay album. HEART added to last week's impressive resurgence and is rapidly becoming obvious as one of the monsters of the year. FURAY continues to grow. M/A also shows healthy growth. BOZ is strong and stable. ALICE came on strong again after a temporary turntable slowdown. Programmers have discovered the many other programmable cuts on the album after an early fling with "Go To Hell." BONNIE was the week's highest debut. CITY shows lots of life. JOHNNY came up nicely. ARMATRADE debuted rather impressively. MAC remains. LIGHTFOOT moved up a bit. The DOOBIES resurged. HUMMINGBIRD had a very fine second week. FUNK debuted. TWILLEY nudged up. JOE debuted. SPRINGFIELD is hanging in there. FERGUSON bounced back onto the chart. ED & JFC debuted. CARLY SIMON, POINT BLANK, and FIRE-FALL almost made the chart, in that order.

This chart is based solely on airplay and does not attempt to fabricate a trend. The artists in italics are those receiving the most rapid gain in airplay.

TRIUMVIRAT

This third LP continues Triumvirat's rise to the first rank of classically-influenced keyboards-based rock groups. With the addition of a fourth member, Triumvirat has mastered a greater diversity of musical styles, drawing flattering comparisons ranging from ILP to Procol Harum.

TOM SNOW

Composer/Singer/Keyboardist Tom Snow is certainly one of the most promising new artists of the year. His album, masterfully produced by Michael J. Jackson, features top supporting players. "Rock & Roll Widow" is the cut that's gathering AOR airplay rapidly, especially at stations leaning to a softer sound and those looking for good midday, female-oriented music.

WHAT DO THESE ALBUMS HAVE IN COMMON?

KSBS 2617

Powerhouse Rock and Roll band polishing the edges with tasteful Jazz arrangements. Sensational guitar work by Frank Pellino sparks an energetic debut collection for a group that many people will soon "care" about. A purist's delight. "Fire" "Packard Electric Blues" "Call It What" "Gone Away"

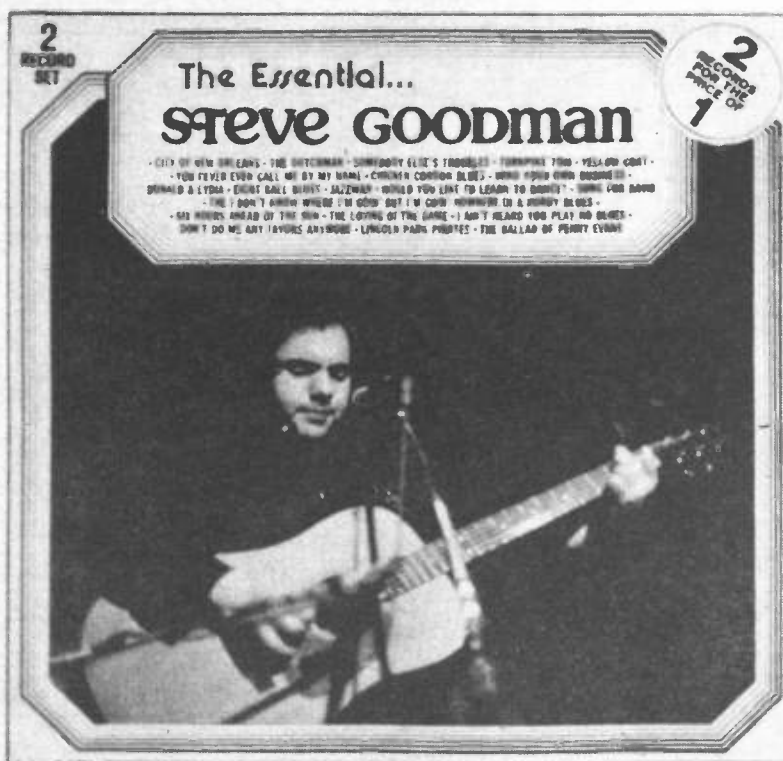

BDS 5661-2

The James Cotton Band/LIVE & ON THE MOVE/Buddah BDS-5661-2 (Cotton's blues-based boogie band creates a positive party atmosphere on this live Lp. It rarely lets up.)

BDS 5655

Give this one a good listen. Over 250,000 people are already enjoying it.

BDS 5665-2

This great double pocket package contains the timely "Election Year Rag" and the unforgettable "City of New Orleans."

COUNTRY

Direct From Duncan

A couple of Country radio people have record releases I would like to bring to your attention. DON THOMPSON, Program Director of WBAP, Dallas-Fort Worth, has a new single called "Friendly California" on SCR Records. On the same label WWL, New Orleans personality CHARLIE DOUGLAS has released a comedy album called "Me and Dammit Ray." The SCR label, by the way, is owned by KVOO, Tulsa, all night jock BILLY PARKER. According to BOB COLE, all night air talent at WWOK, Miami, the Douglas album is "way funnier than Jerry Clower." Thompson's single, even though it puts down California is very good.

ROBERT W. KNIGHT, Program Director of WCOP, Boston, is trying to put together a Country music seminar for the Northeastern states. Plans are for the sessions to be held sometime in early September. If you would like to participate, your ideas are welcomed. Contact Knight at (617) 267-0123 for more information.

The Program Director of KGRT-FM, Las Cruces, New Mexico, LARRY EDWARDS called to let me know that market will soon sport a new AM 5000 watt facility, KGRT-AM. Edwards is looking for some people including a Music Director-air talent. Send tapes and resumes to him at Box 968, Las Cruces, 88001...JERRY HOWELL, who is doing mid-days on WWVA, Wheeling, West Virginia, is getting out of radio because of necessary eye surgery. Program Director CHARLIE COOK said he is in need of a replacement for that mid-day shift. If interested Cook can be reached at (304) 232-1170. Tapes and resumes to WWVA, Capitol Music Hall, Wheeling, 26003...KUZZ, Bakersfield, needs a newsperson. Tapes and such to PD JAY ALBRIGHT, KUZZ, 1204 North Chester, 93308. Also a note that Albright has taken himself off the morning drive shift and will be on-the-air daily from noon to three. STEVE RANDALL who held that time slot, will be doing the morning drive shift.

HANK DALE, former afternoon jock on WIXZ, Pittsburgh, has been hired by KSON, San Diego for an undisclosed air shift. JACK MALOY will replace Dale as afternoon drive personality on WIXZ...CAROL PARKER, Promotion Director and weekend announcer on WPOC, Baltimore, is doing some TV work for the local CBS station WMAR-TV. She is their new weatherlady. (I tried one time to get on TV, but the manager of the station took one look at me and said I had a great face for radio and should stay with it.)

Just took a look at the ARB ratings for Madison, Wisconsin, to see what effect the new Country station WTSO had on the market in their first book. They totally dominated the market 18 plus audience. (Let's hear it for Country!!) Congratulations to Program Director CHUCK MORKRI and his staff...JAY ALBRIGHT up at KUZZ, Bakersfield deserves the same recognition having come up with the best numbers the station has ever had. Again a Country station dominates the market.

JIM WALTON, Program Manager of WITL, Lansing, Michigan, has split the programming on their AM & FM. Prior to the recent change, both stations simulcast a Modern Country format. Walton has decided, because of listener demands, to continue to program Modern Country on the FM, while the AM will run a more traditional "Country oldies" format. I think a "Country oldies" format could be a very strong format as a competition in a market which has more than one Country station. It has worked in some markets with Rock. Why not for Country?

PROMOTIONS: KSON, San Diego has just added a CB request line for taking requests and getting traffic information...WIRE, Indianapolis, has worked a deal with the local bus company to have a "WIRE Country Coach," complete with the station's logo on the specially painted buses. Certain days of the week will be free-ride day for WIRE listeners...WAME, Charlotte, Program Director EDD ROBINSON is off to Nashville with a group of forty listeners for another WAME "Country Caravan"...KNEW, Oakland-San Francisco, is celebrating their 2nd anniversary with a show featuring CHARLIE RICH and ASLEEP AT THE WHEEL...SNAIL DODGE, Program Director of Country station KUGR, Green River, Wyoming said Asleep At The Wheel just took part in their first Country concert...WTHI, Terre Haute, Indiana, recently held a garage sale which netted \$1000 for the American Cancer Society. KRZY, Albuquerque, ran a 27 1/2 hour radio-thon to raise money for the local Cystic Fibrosis Foundation...KHOS, Tucson, is giving away a free trip to Disneyland. At the sound of the jet, listeners call-in and win an album. Then they are qualified for the trip, which will be given away during a drawing...KYAL, Plano, Texas, has just begun monthly Country shows with feature artists. The acts will perform at a local club...Monument artist LARRY GATLIN recently appeared on WMC, Memphis. Music Director LES ACREE said Gatlin sang harmony live over his records and the audience loved it...KHAK, Cedar Rapids, Iowa, took part in the recent Iowa State Fair. During KHAK Day at the fair they featured SONNY JAMES and he out drew the Rock acts...

While I'm thinking of corn, as you have to when thinking about Iowa, I am reminded of what Frank, the local fruit (and vegetable) man said to me recently: For most guys, the apple of their eye is the sweetest peach with the biggest pear!!

Warner Bros. recording artist Buck Owens appeared recently in Pittsburgh for a special show put on by WIXZ radio. Shown on stage are Owens and his group the Buckaroos. Prior to the show Owens did an on-the-air interview over WIXZ.

After a recent performance by Farr Records' Tom Bresh at the Palamino Club in North Hollywood, California, guests were treated to a champagne party backstage. Pictured left to right: Don Langford, new Program Director of KLAC, Los Angeles; Dave Young, Music Director KMAK, Fresno, California; Carson Schreiber, General Manager Country Division, Farr Records; Tom Bresh; Jay Hoffer, Vice-President Programming KRAK, Sacramento; the humble, but handsome, R&R Country Editor Jim Duncan; and Jim Christoferson, Program Director of KFOX, Long Beach. "A great time was had by all," according to Christoferson.

Recently the 2nd Annual Carowind Jock regatta was held in North Carolina. Radio stations from North and South Carolina were asked to build a boat and a race was held. The winning stations received cash awards that were to be donated to their favorite charity. One participant was Mike Davis, Program Director of WFNC, Fayetteville, North Carolina. Pictures above show Davis prior to his big race; the WFNC boat and also the reason Davis didn't win.

Ellie Dylan

WMAQ, Chicago, evening personality, Ellie Dylan is shown on the new promotion postcards put together by the station. Each personality had a card with their respective photos and signatures included.

Biff Collie INSIDE NASHVILLE

MEDICAL BULLETIN: TAMMY WYNETTE expected to say at St. Thomas Hospital at least one more week, recovering from emergency gall bladder surgery and abdominal adhesions. This is the 4th time in three months Tammy has been hospitalized. She was rushed to emergency late last Thursday night (5th) after suffering severe stomach pains.

REPRISE: "Ole Blue Eyes Is Coming Back!" FRANK SINATRA returns to this area October 21st to concert at Middle Tennessee State University's Murphy center (Elvis has been there three times in the past two years) to reprise his mid-May concert at the Opry House. More about that later.

QUOTES OF THE WEEKS: (To the front gate guard at the JOHNNY CASH home) "The Lord told me to come see JOHNNY CASH!" (Guard) "Didn't the Lord tell you Johnny Cash is in Pittsburgh today?"...Country radio/TC personality T. TOMMY CUTTER, after finishing what the political analyst called a "strong third" in the race for U.S. Congressman from Tennessee's fourth district, "Close only counts in horse-shoes"...(RED SOVINE) "Yeah, but what do I do for an encore?"...A local newspaper writer) "I just saw KRIS KRISTOFFERSON in the 'Sailor Who Fell From Grace With The Sea,' he sure won't win any dove awards this year, will he?"

DATeline: WEBB PIERCE, MEL TILLIS, MERLE KILGORE, JIMMY DEAN, JIMMIE MARTIN, JUNIOR SAMPLES, BUCK OWENS, PORTER WAGONER, and CONNIE SMITH all birthday this week. Biggest crop of Country cakes of the year...JOHN CARTER CASH could be a veteran actor by the time he is a teenager. He, his Mom and Dad, filmed last week their guest segment for "Little House On The Prairie"...ROY ACUFF has been visiting at the Opry. NOT PERFORMING BUT VISITING. He looks good, but is chompin' at the bit to get on stage and perform. He's 74...BOB LUMAN is working like nothing ever happened. He looks good but he's thinner than he's been since high school at 170. He was up to 255...ELWOOD has a new record of a story he wrote about her adopted son. Strong!...MICKEY GILLEY finished his fourth number one album with EDDIE KILROY at Playboy. Maybe someday Gilley and his cousins JERRY LEE LEWIS and Evangelist JIMMY SWAGART will album together. (A family Gospel album perhaps?)

MIKE CARTA'S SHORT STORY OF THE WEEK: HE: "Will you marry me?" SHE: "No!" And they lived happily ever after.

fine Crystal.

UALA-614-G

(Gayle, that is.)

"Crystal" is the eagerly awaited new album from Crystal Gayle and includes her brand new hit single, "One More Time": Number 75 with a bullet in Record World. Number 60 with a bullet in Billboard.

Voted Country Music Association's most promising female vocalist, Crystal Gayle lived up to her promise with her recent Number One Single, "I'll Get Over You" from her hit album, (37 consecutive weeks on the charts) "Somebody Loves You."

For country music fans Crystal Gayle's new album, "Crystal" and single, "One More Time" is what country fans want to keep hearing one more time.

NASHVILLE RADIO STATIONS PULL TOGETHER TO SAVE LOCAL CLUB

Representatives of Nashville radio stations met here earlier last week to form NASHVILLE RADIO which will sponsor and promote a benefit concert for the city's financially troubled showcase club—the Exit/In.

NASHVILLE RADIO includes WVOL WSM-AM, WSM-FM, WKDA-FM, WKDA-AM, WMAK-AM, WLAC-AM, WLAC-FM, WSIX-AM, WSIX-FM, WENO, and 92-Q.

"We hope to enlist the cooperation of every station in this market in sponsoring and promoting this concert," Ted Johnson, Music Director (Pop) at WSM-AM, said.

Jack Crawford, Program Director at WKDA-FM, said that the Exit/In is "providing a lot of great entertainment and exposing a lot of new talent to the people of Nashville." He said that he hoped "this effort is successful and that we are able to preserve the Exit/In as it now exists."

Owsley Manier, President and co-owner of the Exit/In, said the club needs a minimum of \$80,000 to continue operating and successfully resolve the Chapter XI arrangement filed in November.

"We have been profitable for two years now," he said, "but our profit margin is not enough to service the debts incurred in our early years."

The Exit/In opened in September, 1971 and has grown from an original 75-seat showcase for local talent into an industry-oriented showcase club featuring acts of regional, national and international importance. The 225-seat club now showcases an average of more than 300 artists per year.

AUGUST 13: WOMEN'S DAY in Tunisia... As my Uncle Elmo used to say, "Women may not be much, but they're the best other sex we have!"

AUGUST 14: LIBERTY TREE DAY, Massachusetts... Commemorating that historic day back in 1864 when Abraham Applesseed freed the trees!

AUGUST 16-19: REPUBLICAN NATIONAL CONVENTION, Kansas City... Those four tense days during which the nation anxiously awaits the return of their regularly scheduled television programs!... As I'm sure you know, a political convention is where politicians talk themselves red, white and blue in the face!

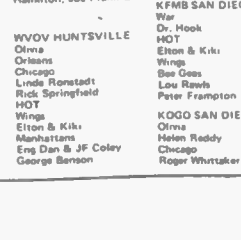

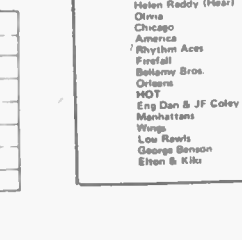

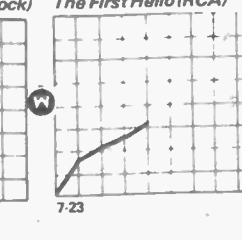

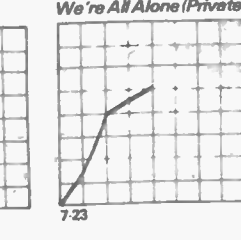

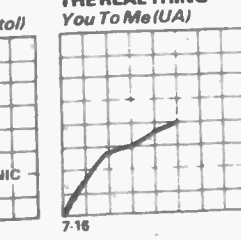

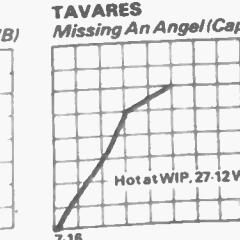

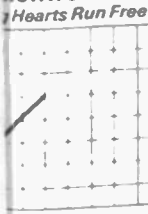

AUGUST 17: Today is NATIONAL TUXEDO DAY; so please give generously when the Volunteer Penguin comes to your door!

AUGUST 19: BIRTHDAY OF OGDEN NASH (1902)... Among other great epics, Nash is the guy who wrote "Candy is dandy, but liquor is quicker!"... In honor of this day, I've written my own little poem: "There once was DJ named Fred/Whose earphones grew out of his head/His voice was quite deep/But he got little sleep/For it hurt to turn over in bed!"

AUGUST 19: BIRTHDAY OF ORVILLE WRIGHT (1871), aviation pioneer... All I know is if God had meant for us to fly, we would have been born with built-in luggage compartments!

Calendar, topicals, record lines, jock bits... For a free sample issue, write: O'LINERS, 366 West Bullard Avenue, Fresno, California 93704.

31 WFTL, 21 WREC, 105 WSIX, 43 WSAV, 198 KMPC, 95 KRNT, 85 WGAR, 22 KAKE and reporting hot at KEX, WMAL, KNBR, KCRA, KMBZ, WIP, WFIR, WASH, KVI, WNEW, WTMJ, KFI, WGY and others.

With Starland Vocal Band's "Afternoon Delight" being possibly the biggest record so far this year, we'd like to pass along this picture and following information from Bob Hughes, Program Director WASH: "There is a saloon here (Washington D.C.) called Clyde's, which has an afternoon snack menu entitled, "Afternoon Delight." One day Bill and Taffy Danoff, principles in the group, wandered in to have a drink and some food—and flash—the menu inspired the song." Anyway, the station took advantage of this recently by reserving the back room at Clyde's and invited listeners in to taste the "Afternoon Delights." Pictured are people from WASH, RCA, Clyde's and members of Starland Vocal Band.

POP/ ADULT NOTES

BY MIKE KASABO

Jefferson Starship's "With Your Love," which has only been out a few short weeks, is already making impressive gains at several stations...19.9 WEEI-FM, 15.5 KUKI, 16.10 KOFM, just to mention a few.

The Peter Dinklage record "If You Walked Away" starting to show up with strong play at WBAL, KITE, WATR and KMBZ.

The new Beach Boys is "It's O.K." New Doobie Brothers "Wheels Of Fortune."

Early interest in the Perry Botkin Jr. record "Nadia's Theme." It's the music you heard during the Olympics that was played in the background during the slow motion replays of the women's gymnastics competition. It's also the theme from the soap opera "Young and Restless." Anyway, it went right on WIP and KIIS.

The Maxine Nightingale record making some good moves now including a jump into the top ten (16-10) at WSAV.

The Walter Murphy record "A Fifth Of Beethoven" appears to be having somewhat of a second wind with many Pop/Adult stations. It jumped 19-11 on this weeks P/A 40 due to chart jumps like 16-1 KRNT, 24-14 WNBC, 22-4 WIXY to mention a few.

Gordon Lightfoot's "The Wreck Of The Edmund Fitzgerald" getting good early action at KITE and WIXY.

Eydie Gorme, who's been absent from the charts for quite awhile, is picking up solid airplay action with her version of "What I Did For Love." Key adds include WFTL, WTMJ and KNBR.

"Superstar" by Paul Davis picked up good new play at WASH and WSAV.

"(Don't Fear) The Reaper" by Blue Oyster Cult showing amazing growth at WEEI-FM in Boston jumping 12-4. Program Director Peter Miller is the same guy who first played "Popsicle Toes" by Michael Franks.

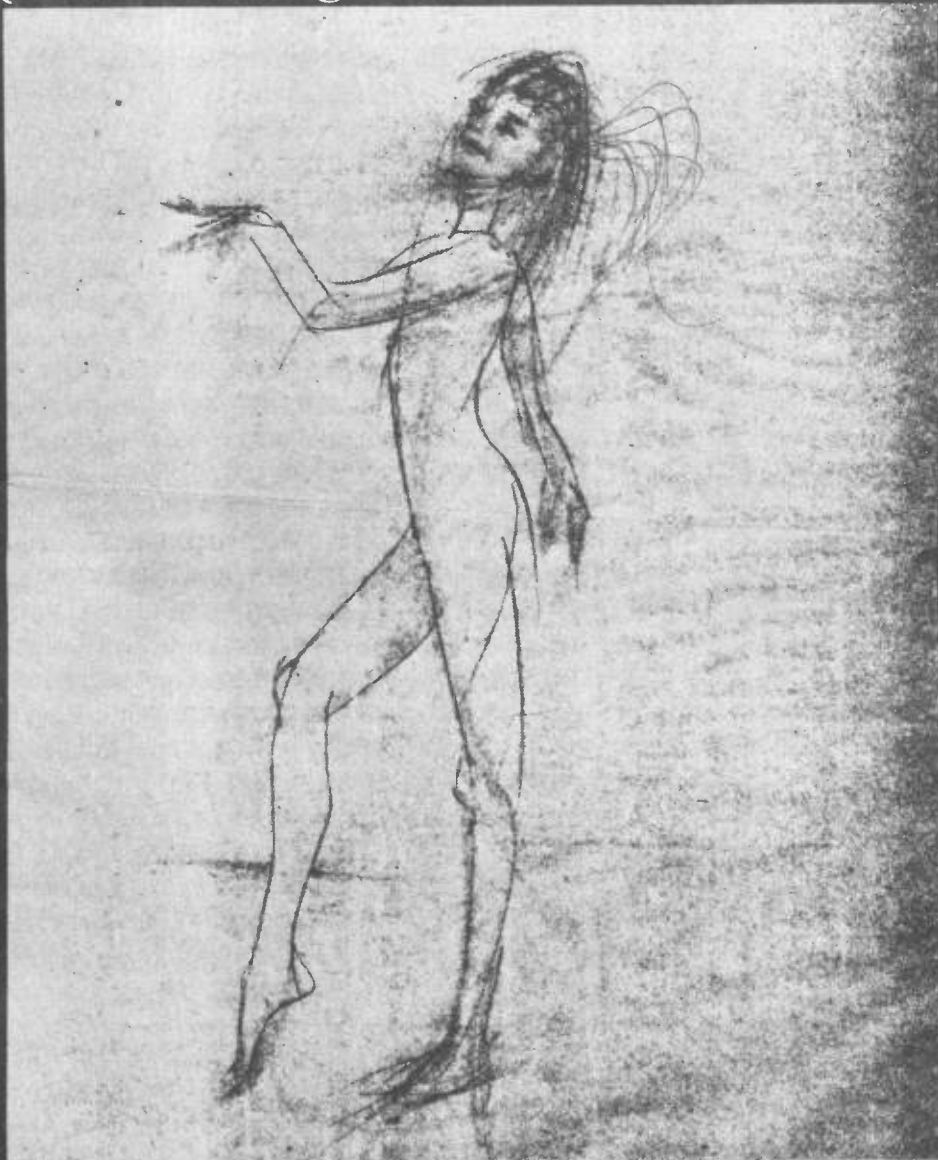

The Peter Allen record "The More I See You" appears to be picking up again with new play at WSB, WTMJ, KBLF, WSM.

The record industry lost one of its best promotion people last week with the death of Joe Maimone. Not only one of the most effective promo men around, Joe was loved by all who came in contact with him. He worked for Capitol records for over twenty years. We'll all miss him.
