It was deja vu for Infinity Broadcasting as the FCC slapped the company with more Howard Stern-related indecency fines — but also approved a major-market station purchase.

The Commission issued a notice late last Friday (5/20) that it intended to fine four Infinity stations a total of \$200,000 for alleged-

ly indecent Stern broadcasts. But at the same time, the FCC approved Infinity's \$60 million duopoly purchase of Cook Inlet's WPGC-AM & FM/Washington.

The scenario was a virtual rerun of February, when Infinity was fined for the Stern show, but allowed to buy KRTH/Los Angeles. So far, Infinity has racked up \$1.8 million in fines related to the multimarket morning mouth.

In announcing the latest fines, the FCC cited "language that describes sexual activities

and organs in patently offensive terms" from the December 6, 1993 and January 19, 1994 "Howard Stern Show" broadcasts. The Commission also noted that the broadcast — in which Stern discussed masturbation and oral sex — aired between 6-10am, when children might be listening. The FCC levied fines of \$50,000 each against Infinity-owned WXRK/

New York, WYSP/Philadelphia, WJFK (AM)/Baltimore, and WJFK-FM/Washington.

Anonymous Complaint

The latest Stern complaints were filed by a WWKB/Buffalo listener. (Although WWKB has not been fined, a Commission

source said its situation is still under review.) The listener, identified only by the pseudonym "Susan Jones," submitted tapes of the program to the FCC.

Infinity opposes the proposed fines and stated Monday (5/23) that it "expects to respond to this Notice opposing the imposition of any fine and contending that the material cited . . . is not legally 'indecent.'

Infinity attorney Steven
Lerman said it is not easy to
measure indecency as defined

by the FCC. "It is very difficult to try to preserve the product and at the same time comply with very vague standards," he said.

The 19-member group—which includes Infinity, Evergreen, Greater Media, Shamrock Broadcasting, NAB, and RTNDA—took particular issue with the Commission's threats of higher fines and license revocation for additional citations while a licensee's original case is pending court review. RADIO BUSINESS

SBA Set To Lift Ban On Radio Loans

Change would help minority entrepreneurs

The **U.S. Small Business Administration**'s ban on radio loans could be history by summer's end.

SBA Assoc. Administrator John Cox told a House subcommittee hearing on minority ownership in communications that public comments, which were due that day (5/20), were heavily in favor of repealing the SBA's "opinion-molder" rule. He said it would take about 90 days for the SBA to complete the process of repealing the rule, which bars government-insured loans to radio stations and other media businesses.

90% Stations Eligible

"The SBA is aware that small businesses in the media industry often have difficulty in raising capital or borrowing money," Cox said. But he assured the panel that the SBA was moving to bring help.

In its filing to support the SBA change, the NAB said removal of the opinion-molder rule would make nearly 90% of radio stations eligible for government-insured loans.

More Capital Seen?

The rule repeal is being backed by the Clinton administration. Assistant Secretary of Commerce Larry Irving testified that dropping the opinion-molder rule would make more capital available to small media businesses, including many owned by minorities. Several witnesses at the hearing, chaired by Rep. Kweisi Mfume (D-MD), said one of the biggest barriers for minority entrepreneurs seeking to enter communications businesses is capital formation.

FCC Chairman Reed Hundt told the same panel that although the Commission has had some success in promoting minority ownership of broadcast licenses, "that is far short of what we should be doing." He assured the panel the Commission will do better in upcoming auctions of licenses for new communications technologies.

EARNINGS

Viacom Counts Cost Of Paramount Takeover

iacom Inc. (AMEX: VIA) an nounced a first-quarter loss attributable to common stock of \$454.1 million (\$3.59 per share), compared to a profit of \$81.0 million (59 cents)

share), compared to a profit of \$81.0 million (59 cents) a year ago. The loss included more than \$300 million in one-time

million in one-time changes owing

to its takeover of Paramount Inc.

Total revenues were \$878.4 million, up from \$470.7 million. Viacom said radio revenues climbed to \$20.8 million, up 12% from \$18.6 million a year ago. Eamings from radio operations were \$5.5 million, up 58% from \$3.5 million.

Viacom owns 14 radio stations, 12 TV stations, MTV Networks, and other communications and entertainment businesses.

efferson-Pilot Communications, a unit of insurance giant Jefferson-Pilot Corp.
(NYSE: JP), reported first-quarter earnings of \$4.5 million, a gain of 7% from a year earlier. The company's radio division posted earnings of nearly \$2 million, up from \$1.1 million.

J-P owns 12 radio stations and three TV stations.

Small-Market Stations Weigh In On EEO Regs

ostly record-keeping and the improbable odds of finding minority hires in some smaller markets are among the problems broadcasters fear if the FCC holds radio to the same EEO regulations Congress mandated for cable TV.

Here is a sampling of comments received by the May 23 deadline:

WAEY/Princeton, WV President Henry Beam said small stations will have problems complying because the minority workforce simply isn't there: "No

one wants to come to a small-town station for small wages." He suggested special rules for stations in smaller markets.

 KURV/Edinburg, TX President
 C. Davis Rankin Jr. lamented the paperwork cost needed to maintain EEO compliance. "We will be diverted from being broadcasters to [being] broadcast file clerks."

• KUTZ/Austin GM Mark Kiester complained the FCC was putting too much emphasis on the EEO process rather than on minority hiring results. He noted that most minority hires are found through networking and not through the FCC-imposed process. "I cannot even begin to describe in detail how many letters, phone calls, postcards, and faxes we have sent to minority organizations that have netted absolutely no leads."

"I've worked with Chris Porter and Mike Henry in three different markets since 1986...in Houston, Washington and Albany. Each and every time our projects were completed successfully, on time...and the respective stations had great books. These aren't your typical research geeks – they're radio guys."

Dear Station Manager,

I am very enthusiastic about my new association with Major Sports.

Major Sports, a division of Major Networks, and I have agreed to bring "Costas Coast To Coast" back to its roots, to the reasons for its original success.

I'll be hosting fresh, new shows a majority of the time, along with some classic broadcasts like Ted Williams, Jim Brown, Larry Bird with Magic Johnson, etc.

We will do the sorts of shows we have always taken pride in – conversations with big name guests and issue oriented shows covering significant topics in greater depth than elsewhere.

Only radio provides this freedom. That's why I couldn't walk away from it. That's why I'm so pleased "Costas Coast to Coast" is back exclusively from Major Networks.

Opus Sues For \$10 Million In New South Staff Raid

pus Media Group has sued New South Communications for more than \$10 million. The reason: Most of the staffers Opus had expected to hire in a Jackson, MS format swap jumped instead to New South to launch a competing Gospel/Urban combo.

The federal lawsuit charges that former WOAD & WJMI GM Carl Haynes and his new employer, New South, "conspired to interfere with and divert Opus advertising and employee contracts" and made false and disparaging misrepresentations to advertisers and listeners.

Opus had planned a call letter and format swap with Holt Media to give Opus a local lock on the Gospel and Urban formats. But before the big switch was to take place, Haynes — who was not a part of Opus's plans — jumped to WZRX & WIIN, taking most of his staff with him.

Opus's suit claims that Haynes and his sales staff told advertisers WOAD & WJMI were moving to the 'ZRX and 'IIN frequencies. "In our view, that's stealing contracts," said Opus President Tom Birch.

New South President Frank Holladay indicated his company wasn't about to back down: "We know of nothing wrong that has been done."

GACC Becomes Citicasters

reat American Communications Co.
CEO John Zanotti has announced the company is changing its name to Citicasters Inc.

"Citicasters identifies the company as a pure broadcaster focused on metropolitan markets," said Zanotti. "We want a new name that will increase our visibility and memorability, particularly among the financial community."

Citicasters will continue to use the Nasdaq trading symbol GACC, but look for that to change soon. The company recently announced plans to sell four of its six TV stations and focus on building its 14-station radio group (R&R 5/13).

The secret ingredient most other research companies put into your plan.

You've heard it all before. "Buy our research and you'll be #1 in the next book." The problem with the claims made by many research companies is they just aren't true. Too many research companies spend their time on packaging, gimmicks, selling formats, working across the street and ignoring the real role of research: providing information that gives station teams an advantage.

Research is a powerful tool. When used properly, research helps stations understand what listeners want and plays an important role in crafting winning strategies and tactics. Research, by itself,

doesn't make numbers go up. It's time that research companies *stop taking undeserved credit* when the numbers go up, unless they want to take the blame when the numbers go down. It's time for a new attitude: no baloney.

Straight talk about research. We're a new research company. We believe in quality research, respect for station teams, and the integrity of market exclusivity.

Radio is a very simple business the goal is to get the highest numbers. In our experience this happens only when a station team, led by a good General Manager and Program Director, maximizes their available resources.

At The Eagle Group we develop a new approach for every client, every time. We start by listening. That's how we understand your unique situation.

To discuss your situation in confidence and learn how The Eagle Group may be able to help you, call Roger Wimmer or Matt Hudson at (303) 980-1888 today.

HOW TO SPEAK HIP

It's Curtains For You

he Iron Curtain may have fallen, but it still managed to drape the English language with various linguistic spinoffs. Journalists and politicians worldwide have raised their own "curtains" to describe the intangible barriers (political, ideological, etc.) between or within nations. So don't leave your listeners hanging ... blind them with your knowledge of the following "curtain" calls:

Bamboo Curtain: A political and ideological barrier between the West and the Communist countries of Asia following 1949's Chinese revolution.

Blue Curtain: In his book "Crusade: The Untold Story Of The Persian Gulf War," Rick Atkinson discusses the impenetrable barrier separating senior U.S. Air Force generals from the rest of the officer corps: "Within the fraternity of senior Air Force generals, so tightly woven as to be dubbed the Blue Curtain, [a colonel fighter pilot] was said to lack 'good hands' [dexterity in the cockpit]."

Caribbean Curtain: The Washington Post recently used this phrase in reference to the use of U.S. Naval forces off the shores of Haiti: "Unlike the Iron Curtain, the Caribbean Curtain was erected and is maintained by the U.S. government."

Cobweb Curtain: British media coined this phrase to characterize their relations with Buckingham Palace.

Jim Crow Curtain: Adam Clayton Powell — the late African-American politician — invented this phrase to describe the practice of discriminating against and suppressing blacks.

Lace Curtain: Pravda created this phrase when Soviet tourists were banned from travel near Boston. Given the area's large Irish population, wherein the phrase "lace-curtain Irish" symbolizes status and class divisions, it's a bit of an inadvertent pun.

Marble Curtain: Former U.S. VP Hubert H. Humphrey coined this term to symbolize the state of press-government relations.

Nylon Curtain: This term is defined as the protective wall insulating **DuPont**'s corporate culture.

Paper Curtain: A network of bureaucratic obstacles (i.e., paperwork and rules) that conceal the real nature of an organization and obstruct free communications, as seen in this recent *Forbes* magazine excerpt: "There are ways for well-informed investors to at least glimpse what lies behind the paper curtain. Banks are required to publish . . . numbers."

Sand Curtain: This phrase refers to Arab-Israeli relations

Many of the above-mentioned words and phrases can be found in the American Heritage Dictionary Of The English Language, Third Edition (Houghton Mifflin Co./\$40), for which column-compiler Anne Soukhanov served as Executive Editor. For more info, call the publisher at 16171, 725, 5000

Neighborhood Car Mechanics Dominate Industry

he majority of Americans (56%) think the automobile service and repair industry is doing only a "fair of poor" job when it comes to performing quality work for its customers, according to a recent survey by the NYC-based Roper Organization.

Despite — or perhaps because of — this generally negative assessment, consumers are more willing to pay premium prices for auto service and repair than they are for a dozen other different types of services.

Local Connection

Car-owners prefer to stick with a mechanic they trust, therefore pluralities of car owners take their vehicles to a neighborhood mechanic for these 10 common services: auto body repair (52%), state inspections (50%), new tires (46%), tune-ups (43%), major engine repairs (41%), brake jobs (40%), paint jobs (38%), new mufflers (37%), rust-proofing (35%), and oil changes (34%).

Three other services — waxing, washing, and oil changes — are more apt to be done at home.

Guarantees & Warranties

However, nationally-owned chains prove tough competition when it comes to the muffler and tire service areas, racking up 33% and 32% of

the market, respectively. (After all, many such chains guarantee their services.) Getting oil changed at nationally owned chains is substantially less popular, however, drawing only 16% of the market.

Car dealerships might consider offering guarantees and warranties to inspire consumer trust. As it is, car dealerships are used even less frequently than national chains for most services, with the exception of major engine repairs (30%), rust-proofing (21%), and tune-ups (20%)—the latter two of which are sometimes covered under warranty.

Stress & Calorie Consumption

ow we react to what we see affects our caloric intake, according to a recent article in *American Health* magazine.

Men and women were seated at tables filled with cookies, crackers, and candy and shown either a travelogue or gruesome footage about industrial accidents. While the women watching the gruesome footage consumed an average of 111 calories, the men averaged only 99.

Watching the travelogue provoked the opposite reaction. Men pounded down an average 161 calories, while women averaged a mere 73.

Lawn And Garden Business Blooms

ome center and discount department store chains were the hottest retail segment of the 1993 lawn and garden business, according to Clearwater, FL-based *Nursery Retailer* magazine's annual survey.

The magazine also found that the Top 100 retailers racked up \$7.4 billion in total volume sales during 1993 — up 25% more from the year-previous volume of \$5.9 billion

Meanwhile, the Top 10 retailers harvested \$4.05 billion of that total — up from \$3.95 billion in '92. For a look at how these Top 10 stack up individually, check the following chart:

Moving In, Moving Out

mericans' migration from California, New England, and the Midwest to the Southeast and Northwest continues, according to statistics compiled by Evansville, IN-based Atlas Van Lines.

The state with the greatest percentage of people moving out is New York (Atlas reports 89% more people left the state last year than moved into it). California is the only Western state to experience major outward migration, with 36% more movers leaving than arriving (a 4% increase over 1992 figures).

The states with the greatest percentage of people moving in are: Georgia (68% more moves in than out), Montana (63%), Colorado (59%), Tennessee (53%), Alabama (50%), and South Carolina (38%).

More Americans Are Shopping At Night

rocery shopping at night and on weekends is on an upswing, according to a recent survey by the NYC-based Roper Organization.

Average monthly trips to the grocery store have stayed fairly constant since 1989 — 88% of consumers shopped in a grocery store during the past month.

However, changing lifestyles have created new shopping trends, with Americans more apt to patronize grocery stores at these times: 54% on a weekday (up 4% from '89), 42% on a weeknight (up 8%), and 41% on the weekend (up 9%).

This increase is more dramatic among working women — 52% were in a grocery store at night dur-

ing the last month and 51% made a stop on the weekend, up 10% and 13%, respectively, from 1989 figures.

More Fax Privacy

o increase the confidentiality of faxed materials, the Greenwich, CT-based Seal System company has developed a device that seals the faxed document between two sheets of opaque plastic (like an envelope) as it comes out of the fax machine. Only the cover sheet remains visible, so the fax can be distributed with the normal internal mail.

Opening in limited release this week is "Little Buddha," starring Reprise act Chris Isaak, Keanu Reeves, and Bridget Fonda. The film's Virgin Movie Music soundtrack consists of orchestral and Indian music composed and largely played by Elektra artist Ryuichi

Monks Fend Off Treetop Paparazzi!

ou must understand that we are monks, not rock stars," says Brother Miguel of the Benedictine Monks. "But we even found a photographer hiding in a tree with a huge telephoto lens trying to take pictures inside the monastery (People)

Too Hip-Hop

"We insist that people accept us as a hip-hop group. Those people who give Arrested Development credit, but say they don't like hiphop - they don't realize that they do like hip-hop. They should say, 'I like hip-hop, but I don't like all of Speech (Musician).

Denzil Foster - who created En Vogue with partner Thomas McEiroy - discusses their own new group, FMob, in Vibe. He says: "We've had flops before. We like to call them experiments. Some of our artists got lost in music business politics, and sometimes the timing just wasn't right. See, we aim to be the most original producers out there, not the best."

It's Like This . . .

Warren G explains to Vibe, "I'm laid-back, but if somebody press up on me, they'll get pressed up upon . . . My definition of regulate means that if someone tries to do something wrong to you, and you get away from it, then you got to go back and do what you got to

R. Kelly explains his steamy new LP in People: "I became very homy and lonely in the studio and took it all out in my music." He notes, however, "Sex doesn't control me. Take away the sexy bump and grind and you could easily put in gospel lyrics."

The Marryin' Kind

Madonna is in a trial engagement to San Antonio Spurs player Dennis Rodman: she's wearing a three-carat engagement ring and was spotted buying a copy of Modern Bride in West Hollywood (Globe).

White the Star headline screams, "Pregnant Wynonna plans quickie wedding with baby's father," the National Enquirer head reads, "Naomi warns pregnant Wynonna: Your beau's a gold-digging bum."

The Way We Sat

Barbra Streisand waxes enthusiastic in In Style about a West L.A. house she's had 20 years the decorating in particular. "I can't wait for decorators," she says. "I just get visions in my head." She's been redecorating lately: "As you get older and become less hippie-ish," she laughs, "you have to sit on a couch! You can't get up off the floor anymore."

The Fat Prince

A rubber "fat suit" and false beard help Prince look 100 pounds heavier when visiting his Glam Slam clubs incognito, according to the National Enquirer. The Star

Prince reports he's "insanely jealous" of magician David Copperfield for the romance with ubermodel Claudia Schiffer, whom the purple one pursued long and fruitlessly.

Lollapalooza XXV?

"At first it was hard to get anything done [on Lollapaloozal, because nobody believed in the idea." says the tour's originator, Perry Farrell. "Now that we're up to the fourth, if I say I want it to be tooked into the Brazilian rain forest, a team of people gets right to work on that" (Musician).

Universal Language

Tony Bennett tells TV Guide he likes rap because he'd "rather have a verbal revolution than a physical one." He also likes seeing his songs used in films, partly because "they pay me a fortune. More than I got when the original records went to No. 1."

"I've been rich, broke, rich, broke, rich, broke - and I don't want to stop, 'cause I ain't gonna let you know if I'm rich or broke" says Teddy Riley in Vibe. "Everybody has ups and downs and what makes the world go round is money. Everybody wants more money, even if they got some in their pockets."

Ice-T got angry at a Toronto HMV outlet for not displaying his CDs. After they acceded to his demands and redid the display, he then signed autographs until the CDs sold out - 15 minutes later (Star).

Sass Jordan sounds off on marketing pressures in Musician: "I have even heard that some radio stations can't play my record because they're already playing a 'girl'. . There are remarkable similarities between being a female rock & roll musician and being a black rock & roll musician."

Each week R&R sneaks a peek through the nation's consumer magazines in search of everything from the sublime to the ridiculous in music news. R&R has not verified any of these reports.

STREET TALK.

Group W Pix N/T In SF

an Francisco newspapers say **Group**W is preparing a News/Talk format for recently acquired Classical KKHI-AM & FM — and could kick off this new presentation as soon as next Tuesday (5/31). However, one columnist quotes GM-to-be Blaise Howard as saying he won't be ready to put the station on the air until mid-June at the earliest.

Look for the KKHI call letters to change to **KPIX** to pick up some instant credibility from Group W's **KPIX-TV**. The ST "fun-fone" is still awaiting Howard's comment.

Much Competition For MTV

Latest entrant trying to knock off MTV is a partnership between MuchMusic — Canada's decade-old 24-hour music channel — and Rainbow Programming Holdings, part of the No. 5 U.S. cable operator, Cablevision. The new service is set for a July 1 launch in an estimated 3 million homes, initially airing the Canadian net's programming, complete with Canadian content requirements; but later evolving into a more U.S.-oriented approach.

Meanwhile, there's still that **Time Warner/Sony** channel and maybe that one from **Bertelsmann** as well ...

Sony's Ticket Time Bomb?

Lotsa ticket talk about **Sony** planning a national event ticket service with distribution via ATM machines. No official verification, but Sony reportedly plans legal challenges to **Ticketmaster**'s exclusive venue contracts as part of a concerted effort to challenge the ticket kingpin. Get your ducats early to watch this showdown.

As for the ATM concept ... ST idly wonders what conditions will be like for the typical ATM user on days when a supergroup's tickets go on sale?

And ... isn't there some irony — as at least one industry observer noted — that Sony would challenge Ticketmaster's exclusive deals while fighting a court case to defend *its* exclusive contract with **George Michael?**

Arista Spinoff Rumors Return

Nashville natterings are once again rampant regarding Arista/Nashville Pres. Tim DuBois giving serious consideration to launching a sister label. Fueling the speculation is word that hot indie producer Scott Hendricks is soon to take a new label gig. And aren't DuBois and Hendricks closerthanthis?

Giant Sr. VP/Promo & Mktg. John Brodey is officially leaving the label on May 31.

NAC KTWV (The Wave)L.A. ended its eight-month experiment with a personality morning show last week. Co-hosts Keri Tombazian and Sheryl Bernstein exited, and the station returned to a music-oriented wakeup approach.

Hog Rides Into Tucson

There's a new Classic Rock — KKHG (The Hog) — in Tucson. Owner Apogee also owns KGON/Portland. OM/PD is Gary Shannon. The lineup is Mark & Brian doin' mornings (via satellite), Jerome Fischer (from KGON) rammin' middays, Bob O'Dell (from WWCK/Flint, MI) jammin' afternoons, Laurie Larson (from KKSS/Albuquerque) slammin' nights, and — from crosstown KJYK — Mike Overnite handles . . . you can guess the rest.

Chicago political boss-turned-talk-host Ed Vrdolyak is about to exit WLS-AM & FM, according to Sun-Times columnist Robert Feder. Vrdolyak is said to be upset about plans to put his afternoon show (co-hosted with Ty Wansley) on AM only.

Vrdolyak has been off the air with a throat ailment since late April. Political commentator **Tom Roeser** has been filling in with Wansley.

For the first time in its history, KBCO/Denver is searching outside its hallowed halls to fill the highly coveted PD slot. Some of the bolder aspirants are KTCZ/Minneapolis PD Jim Robinson, ex-KRXQ/Sacramento PD Judy McNutt, ex-WMMO/Orlando PD Cary Pall, and two PDs from the Valley Of The Sun.

WEBN/Cincy won an award from the Ohio AP Broadcasters for best regularly scheduled newscast. The unusual aspect to this honor is that 'EBN is a Rock outlet — one of the few retaining a fulltime news department.

Get-well wishes to KLOL/Houston morning co-host Jim Pruett, who suffered a heart attack over the weekend. He was immediately hospitalized and underwent bypass surgery on Tuesday (5/24). The new episode follows a heart attack six years ago, for which he underwent a triple bypass. Pruett was in good spirits, phoning the station several times from the hospital. His recovery is expected to take from seven to 10 weeks.

"With the opening of Polydor/ Nashville, PolyGram will be even more active in country music," said Shedd. "Ultimately, our goal is to be a major player. We have assembled a team of uniquely talented people who are planning to approach the country music industry in an entirely new light."

Miller commented, "The opportunity to help start a label from the ground up is a dream come true. The faith that has gone into open-

ing up this new venture shows the vision that has propelled PolyGram's aggressive growth." Polydor, which expects to employ

about 20 staffers, has also named Wes Vause Director/Publicity, Danny Bess Director/Finance & Operations, and Cynthia Grimson Director/Product Management.

New Staffers Set

Chong moved quickly to fill staff positions in her new office. She named veteran FCC attorney Jane Mago to the post of Senior Advisor. Other Chong appointees were Richard Welch as Legal Advisor, Jill Luckett as Special Advisor, and Angela Wu as Confidential Assistant.

At R&R's deadline, only one permanent Ness appointment had been announced: Donna Stapleton as Confidential Assistant. Ness also tapped Gregory Vogt and Rosalind Allen as interim advisors.

dia. He also said there is no indication the FCC is trying to prevent broadcasters from appealing their fines.

The coalition disagreed, arguing, "The FCC indecency forfeiture scheme does not provide for prompt judicial review of indecency determinations. Such review is available, if at all, only years after indecency forfeiture proceedings have commenced. In the interim, the FCC seeks to compel compliance with these unreviewed determinations."

The FCC has until June 17 to file its response. A hearing is scheduled for September 13.

with the indecency standard, "Obviously, the Commission doesn't believe Infinity has quite made it," Lerman said.

The news wasn't all bad for Infinity. Commissioner James Ouello. the FCC's most outspoken Stern critic, praised the company for taking "dramatic and ever-improving steps . . . that have resulted in a significant decrease in the number of complaints" regarding Stern's program.

FCC approval of the WPGC sale had hinged on Commission acceptance of a \$2.75 million settlement between Infinity and the African-American Business Association, which contended the Stern program is racist. As part of the settlement, Infinity agreed to: conduct a program to teach minority business people how to create effective radio advertising; set aside \$2 million worth of airtime that program graduates can purchase at deep discounts; and contribute \$25,000 to train African-Americans to be radio talk show hosts.

He previously was Controller of the company's domestic and international theater operations and also served as Director/Special Projects for its Corporate Finance Department. Ferrari also was a Senior Manager/Accounting & Auditing for the accounting firm Ernst and Young.

The new deal includes funding a state-of-the-art digital video/audio production facility and other multimedia ventures (including CD-ROM and video games), expanding Green Jelly's existing fan club through merchandising and direct mail, and developing and producing a pilot for MTV Networks. The joint venture's executive board (I-r): Green Jelly's Steven Shanear, Zoo President Lou Maglia, OJE GM/Green Jelly member Bill Manspeaker, Green Jelly manager Kevin Coogan, Zoo VP/Business Operations Sami Valkonen and VP/Business & Legal Affairs Scott Vanderbilt.

KMPC/L.A.'s Amateur Hours

After KMPC/Los Angeles was acquired by Capital Cities/ABC and flipped to "710 Talk," the station auditioned 363 amateur announcers and talk show hosts for possible full-time positions. Talk show host finalists were slotted one hour of airtime to discuss topics of their choice, conduct interviews, and field phone calls; potential announcers were called back to read radio copy, promotional spots, and PSAs during station breaks. Pictured auditioning is former "Arsenio Hall Show" writer Steven Marmel, one of four talk show host finalists.

Stone Temple Pilots Turn 'Purple'

he Stone Temple Pilots follow up their "Core" debut with "Purple." Brendan O'Brien (Pearl Jam) again produced. The band essays the 11 original songs on their own, with a little guitar help from Butthole Surfers axeman Paul Leary on "Lounge Fly."

A Seattle street person (not the famous "Spoonman," by the way) contributes an unlisted 12th track, thanks to guitarist **Dean DeLeo**, who heard the song and tracked it down. "Big Empty" — heard in "The Crow"—also appears on this record. "Vasoline" (sic) ships to radio this week. The **Atlantic/AG** LP arrives in stores June 7.

Virgin fX Special

Fox's new basic cable fX Channel will make its first major step into the musical arena with "In The Air Tonight: A Television Celebration Of Virgin Records." Boy George, Phil Collins, Peter Gabriel, Janet Jackson, Lenny Kravitz, Meat Loaf, Mike + The Mechanics, Iggy Pop, the Rolling Stones, Soul II Soul, and Traffic will all appear and/or play on the 90-minute special, scheduled to air exclusively on fX Saturday, June 18 at 11pm (PDT/EDT).

The Second Seal

Seal's second set, also titled "Seal," was again produced by Trevor Horn (Yes, Art Of Noise, Frankie Goes To Hollywood). "A Prayer For The Dying" is at radio. The Sire/WB set arrives May 31.

Canonizing Kiss

The latest tribute album — "Kiss My Ass" — collects remakes of Kiss songs by current acts such as Anthrax, Garth Brooks (with Kiss), Dinosaur Jr, Extreme, the Gin Blossoms, Lenny Kravitz & Stevie Wonder, the Lemonheads, Mighty Mighty Bosstones, Toad The Wet Sprocket, and "Shandi's Addiction" (members of Tool, Rage Against The Machine, and Faith No More).

The LP arrives at Rock radio June 1, and though Mercury doesn't have single rights to any one track, the street buzz is on the Kravitz-Wonder number, "Deuce."

LaBelle Cuts 'Gems'

The current UC single off Patti LaBelle's "Gems" is "Right Kinda Lover," a tune written and produced by Jimmy Jam & Terry Lewis for the "Beverly Hills Cop III" sound-track. The track goes to CHR next month. Teddy Riley also helmed two cuts, including a remake of El DeBarge's "All This Love." Other prime cuts: "Be Through" and a cover of the Dells' classic "Stay In My Corner." The MCA set is due June 7.

House Of Same

"Same As It Ever Was" is the title of the second House Of Pain LP. Producers include Cypress Hill's DJ Muggs, KPWR (Power 106)/L.A.'s Baka Boyz, Diamond D, and HOP's own DJ Lethal. "On Point" ships to rap, CHR, and UC the first week of June. The Tommy Boy LP hits the streets June 7.

MC 900 Ft. American Jesus

"One Step Ahead Of The Spider," the American/WB debut of MC 900 Ft. Jesus, features more live musicians than any of the act's previous records. Group mastermind Mark Griffin produced the 10-song set, which features Living Colour guitarist Vernon Reid on a remake of Curtis Mayfield's "Stare And Stare." "If I Only Had A Brain" is at radio this week. The full set is due June 28.

SCREEN SCENE

Stern's 'Private Parts' Headed For The Screen

is drive to become the legitimate "king of all media" moved forward this week when Howard Stern finally signed a deal to bring his best-selling "Private Parts"

Storn

book to the screen. Stem himself will star in this tale of his life 'n' rise to multimarket fame.

Daily Variety reports Rysher Entertainment is said to have bought the book for a seven-figure sum as well as agreed to pay Stem an acting fee. The film — Rysher's second in progress — will begin shooting this fall in New York with about a \$15 million budget.

'The Cowboy Way' ST

Travis Tritt recorded the title track for "The Cowboy Way," a fish-out-of-water buddy comedy that sports both rock and country songs. Woody Harrelson and Keifer Sutherland star as New Mexico cowpokes who mosey on up to Manhattan to save a pal in distress. The Imagine/Universal film opens June 3.

Bon Jovi's "Good Guys Don't Always Wear White" and the Gibson/ Miller Band's version of "Mammas Don't Let Your Babies Grow Up To Be Cowboys" are the first radio tracks off the 550 Music/Epic Soundtrax LP. The set sports new or previously unreleased tunes from Cracker ("Blue Danube Blues"), Blind Melon (Lou Reed's "Candy Says"), George Thorogood ("Sonny Rides Again"), Jeff Beck & Paul Rodgers (the Drifters' "On Broadway"), James House ("Days Gone By"), and Emmylou Harris ("Too Far Gone"). Licensed tracks from the Allman Brothers Band and En Vogue round out the package, which arrives May 31.

LeMel Takes The Mike

Weeks before **Vee-Jay Records** introduced the **Beatles** to America, a young **Gary LeMel** released his debut album on the label. The ensuing mania overshadowed his debut, and he eventually pursued another career path in music. Now that he's President of Music for **Wamer Bros. Films,** LeMel has returned to his first love.

His solo album of classic movie songs — "Romancing The Screen" — features his interpretations of such tunes as "The Way You Look Tonight," "When I Fall In Love," "Alfie," and "How Do You Keep The Music Playing." Blue Note will have this in stores July 8.

Cobain Film Coming?

The film rights to an unauthorized quickie biography of the late Kurt Cobain have been sold to Paradigm, a midsize talent agency. Dave Thompson's "Never Fade Away" (St. Martin's Paper-

backs/\$4.99) hit the stands less than three weeks after Cobain's April 7 death. It will be adapted for the screen by Richard Dilello, who scripted "Colors" and wrote a Beatles book entitled "The Last Cocktail Party."

Note that there's also a semiauthorized Nirvana bio (Michael Azerrad's earlier "Come As You Are"), but Cobain's family won't allow Doubleday to sell the movie rights.

'Blade Runner' ST

When "Blade Runner" was released in 1982, its Vangelis soundtrack wasn't, owing in part to creative differences between film director Ridley Scott and the studio. Now, according to the Santa Monica, CA-based ICE newsletter, the composer has revived the work, weaving in snippets of dialog and including sections that never made it into the film. AtlanticiAG will release this June 21.

Robert Johnson Biopic

The late bluesman Robert Johnson will be remembered in "King Of The Delta Blues," a biopic to be directed by Charles Burnett ("To Sleep With Anger," the forthcoming "The Glass Shield"). Rhino Films will develop the project in partnership with Tulchin Ades Entertainment. Coincidentally, the screenwriter is also named Robert Johnson (no relation); he's currently directing "The Mike Tyson Story" for HBO.

WAEB-FM's 'Two-Year Plan' Pays Off

■ Station bolts 11.4-15.3 in Winter Arbitron to claim No. 1 perch

You rarely hear about someone in radio setting up a twoyear game plan and having the luxury of sticking with it. But that's the story behind the success of CRB Pop CHR WAEB-FM (B104)/Allentown, according to Station Manager/PD Brian Check.

B104's 11.4-15.3

Brian Check

market victory is especially impressive because of perennial market-leader AC WLEV. Check says, "CHRs normally have lots of turnover in staff and philosophy,

but by sticking with both ends, we've finally grabbed the success we worked for. The credit for holding the line goes to [CRB President] Jim Shea, who realized we had the basics of a strong product and gave us the tools to make it happen.

The two-year plan included throwing out the rulebook for what CHR is supposed to sound like. Instead, Bl04 focused on 18-34 women in all dayparts but nights, presenting the

66

To win in 1994 and beyond, you must have people absolutely dedicated to being No. 1 and willing to put everything else in their lives aside to do it.

Big Numbers At B104

B104's 12+ No. 1 score and 11.4-15.3 surge in the Winter '94 Arbitron wasn't impressive enough, the station was also:

- No. 1 18-34
- No. 1 18-34 women
- No. 2 25-54
- No. 1 teens

features, information, and music that group wanted. Bl04 had an extensive research budget for:

- perceptual studies
- auditorium music testing · ongoing weekly music analysis.
- It took Research/Promotion Director Maggie MacAleer, two fulltimers, and a parttime staff to arrive at the winning facts, but Check says their research has "led to five straight books with cume growth, and the ability to attack WLEV and deliver 25-34 demos without becoming an AC station in the process. By targeting women 18-34 in the daytime and persons 12-34 at night, we successfully walk that tightrope which we can do because we're the only local CHR. The nearest competition is from [Rhythmic CHR] WIOQ/Philly, but we're

beating them everywhere, including

teens by a wide margin.

PROGRAMMER PROFILE

Experience: PD at WKRZ (AM)/Wilkes-Barre; GSM at WAEB; sales/on-air at WCAU-FM/Philadelphia

Programming influences: Gary Berkowitz, Mike Joseph Favorite jocks: Billy Burke, Glenn Kalina

Favorite stations: Former CHR WBSB (B104)/Baltimore

Hobbies: "Radio is my life"

Favorite part of being a PD: "Producing the actual promos myself. I could live in the production room."

Dreaded part of being a PD: "Coming down on the jocks." Personal goals: "To become a GM."

Advice: "Put an on-air product together that's consistent, yet creative and entertaining."

"Tastes in the Lehigh Valley are also significantly different than those in Philadelphia. We play a wider variety of gold - including some BTO, Boston, and Bad Company during the daytime - which other Eastern Pennsylvania CHRs [WKRZ/Wilkes-Barre and WRFY/Reading] seem to do well with also. At night, MD Joe Friday relies heavily on the phones, and he tests a lot of new music during his show. Just about the only thing we won't play is hardcore rap, because listeners don't show a preference for

To The Point

Check is enthusiastic about morning star Ken Matthews and the "B Morning Crew," who joined the station just as the new plan was being implemented. "With all the morning bits and service elements, he still

"That stuff is the antithesis of my personal choice in Top 40 presentation," confesses Check. "I prefer the late '70s-early '80s style of super-intense Top 40 radio, with the battle between [Toronto CHRs] CFTR and CHUM as the center-

piece of my radio fantasy. But this

is 1994, and we've taken bold-

sounding Brian James, who does

all our production, and brought out

a friendlier, more relaxed sound

from him. We even combined parts

of five different jingle packages from JAM to get the sound we wanted."

So far, we've covered Check's first two tenets of winning - "play the right music for the target" and keep "an uncluttered sound." Numbers three and four are "Stay promotionally visible" and "have the right people on the team." Bl04 is currently doing billboards and direct mail. More than 40,000 pieces went out addressed to people who control workplace radios, promoting the "At-Work Network" and promising to give away \$1000 A Day In The Month Of May."

"To win in 1994 and beyond," says Check, "you must have people absolutely dedicated to being No. 1 and willing to put everything else in their lives aside to do it. The key people at Bl04 — including VP/GM Rich Lewis, who provides that dayto-day support - do it, and that

More than 40,000 businesses received this direct mail piece, which aimed to convince them it pays to "bee" at work.

B104's B-Morning Crew big buzzer Ken Matthews gives driving tips to

the station mascot during Allentown's "Downtown 500" event.

MTV has had an influence on our music and our presentation. Those VJs are realsounding — they don't talk at people, they talk with people.

does mean personal sacrifice at times. We run with fewer people, so we have to have better people who are willing to put in more hours. With all that hard work, we have to keep morale high. We all know it's harder to stay No. 1 than it is to get there. But the staff is pumped for the challenge, and we believe we'll be on top again after the spring book."

Our research has led to five straight books with cume growth, and the ability to attack WLEV and deliver 25-34s without becoming an AC in the process.

"Our research has shown that the cleaner the sound, the better we're received by the audience. That's part of our '10-In-A-Row' strategy outside of mornings. It includes four segues, with the jocks talking every other record, but those sets need to have localized substance without useless chatter. MTV has had an influence on our music and our presentation. Those VJs are real-sounding - they don't talk at people, they talk with people.

"I've also got to credit consultant Mike Joseph for demonstrating to me when I worked at WCAU-FM/ Philly that you can edit yourself as a personality but still communicate. That supports one of Bl04's key attributes - being a clean, uncluttered, easy-to-listen-to station. My jocks are now masters at self-editing: They've learned to write out the breaks and then paraphrase without reading or rambling. We even modified our Optimod, so we sound very unprocessed, though we're still competitively loud.

Turning Ratings Into Dollars

Education and station awareness are the keys, says one GM

In markets where Urban radio can be heard, it usually picks up an outstanding share of the markets' listening. But one of the format's major problems has been converting those ratings shares into revenue shares. What can be done about this problem?

Most who have dealt with the issue agree the solution lies in client education. The more clients and potential clients know about the format, the more likely they'll understand the value of ad-

Selling Black Consumers WTLC-AM & FM/Indianapolis VP/GM Paul Major concedes Black radio has always been a tough sell. pointing out that part of the reason is the advertisers' level of confidence in the format's audience as consumers. But he adds, "The

we have today are a little different. Agencies know we have the audience, but it's back to basics: that consumer dollar and what it's worth

"I think it varies from market to market. I found it more difficult to sell the purchasing power of the black consumer in Tampa than in Indianapolis — maybe because of the income levels, maybe because of the employment levels. Indianapolis isn't a larger radio market than Tampa, but it is a larger black market -95% of all the blacks in the metro live in Marion County, and that makes a big difference. These people own their own homes. Most are working, and their household incomes are higher. So the marketing people, the agencies, and the retailers are much more aware of black consumers, as they would be in Chicago, Philadelphia, New York, or any other major market. And that in itself is a plus.

"I'm sure a number of broadcasters in medium and small markets really suffer because they're still trying to sell the validity of the black consumer."

Urban Delivers Results

One of the most attractive aspects of the African-American audience is its loyalty to Urban radio, and Major says stations should use that to their advantage. "We all know the Time Spent Listening among blacks is very high, and most of the radio listening is to Black radio stations. We also know that Black radio motivates. The Black radio audience is more likely to respond to advertising on Black radio because when that message is heard, the listeners feel it's a personal invitation to respond to the message.

"We're selling total audience reach in Indianapolis over 83%. In other words, five out of six black people listen to Black radio — WTLC-AM & FM - each week. Black radio delivers measurable results for an advertiser who needs to reach the entire market. Black radio can

One of the things we've learned about selling Black radio is that we don't just sell spots or air time. We sell a promotion . . . we sell direct involvement in the com-

Crossing Mainstream

Major, recognizing many Urban stations' tendency to align themselves solely with black-oriented events, says he's working toward broadening his station's promotional visibility.

"We're trying to get more involved in some of the more mainstream events in this city," he explains. "For example, the Indianapolis 500 is the largest spectator event in the world you have almost a million people coming into town for one event. In the past, blacks really haven't been a part of that, and many blacks in our community say, 'That's a white thing.' It's not! Why? Because there's a black driver out there, and there are other black people participating in a number of different ways. So we're trying to recognize those people, and we've had a tremendous response. We're trying to tie ourselves into every major event that takes place throughout the year.

Major advises other Urban GMs and GSMs to follow his station's lead in building revenues on a foundation of aggressive station awareness efforts. "If there's a special promotion going on in their city, tie into it. Historically, many of the festival-type events have been pointed toward the white market. Try and be part of it. You've got to be visible at all activities, not just the black events. That helps people recognize the call letters. They'll listen to the station. LON HELTON

The Way We Do The Things We Do

How stations attract listeners in the strangest ways

Hi! My name is **Amanda Helton.** Me and my brother **Brad** have been pressed into service for this week's column — even though Pops vowed we'd never do another one 'cause ours get a better response than his.

We're here because the ol' man is really bummed about the baseball season. Sure, he's been depressed while waiting for his beloved Cubs to break their 0-for 294 slump in the hallowed Wrigley. But what's got him really down is the dismal performance of his R&R Fantasy League Team — the Lonsters. The famed Sports Illustrated cover jinx is a blip on a career compared to the curse Dad puts on players. Just ask '93 and '94 NL MVP Barry ".238" Bonds. Or Oriole/Lonster Brady Anderson, who was 0-for-the-first-week-of-May.

Our fave baseball wannabe is scouring Baseball Weekly looking for an undrafted gem to replace one of his stiffs, so we went through the cesspool known as his desk and picked out the strangest pictures we could find. You know, the only thing that amazes us more than the stuff he does is the stuff you do to get listeners. Here's what we mean.

STAND-UP STARS — Hey, Dad has a collection of these stand-up things, too! Except his are inflatable. It's only when he starts having those rambling conversations with 'em that we get a little concerned. Here, WCOS/Columbia, SC MD Glenn Garrett (I) lures a real live Kathy Mattea — or is she? — down to his basement to see his collection of cardboard country crooners.

KICKIN' IT UP — Finally, some men not dressed up as women ... although, knowing you radio guys, they probably changed into leotards moments after this photo was taken. Exercise guru Richard Simmons (c) tried to talk KSON/San Diego morning guys Tony Randall (l) and Kris Rochester into doing a Rockettes impression, but it looks like all they could do was sweat to the oldies.

AS THE WORM TURNS — What gets us most about you radio people is that you're not content to merely humiliate yourself in crass attempts to get listeners. You insist on reducing them to ridiculous — and sometimes downright disgusting — levels to get tickets to concerts where you not only get in free, but get to hang out backstage, too. A primo example is this poor WUSWIAppleton, WI listener, who promised to eat worms fed to him by morning personality Johnny Winston. Part of the deal was washing 'em down with Worcestershire sauce. Ugh. Here's a tip for would-be worm eaters: Getting a parttime job at the station is an easier way to see a show.

HOOTER HEROES — Here's one the of boy gave to Mom when she questioned him about spending so much time at Hooters. He thought it'd prove the club's workers weren't all females. (Brad offered to make a fact-finding trip, but Mom was afraid it'd stunt his growth.) Unfortunately, Dad neglected to remove the captions from the backs of the pics; that's where we learned this pic is really from a stunt by KYNG/Dallas morning personality Johnny Stone (I) and his producer Jim Verdi to raise money for local charities.

PULCHRITUDE ON PARADE — What is it about you radio guys and dressing up like women? It wouldn't bother us so much except for the fact Dad spent 12 years in Country radio — and he still keeps one of his dresser drawers locked.

The lookers in the top photo come from a contest run by WHYL/Carlisle, PA. Flanking the contestants are VP/Ops/MD Lee Adams (I) and personalities Bob King (second from left) and Christine Smith (r). Resplendent in his pink sweater is station owner/GM Lincoln Zeve (down in front).

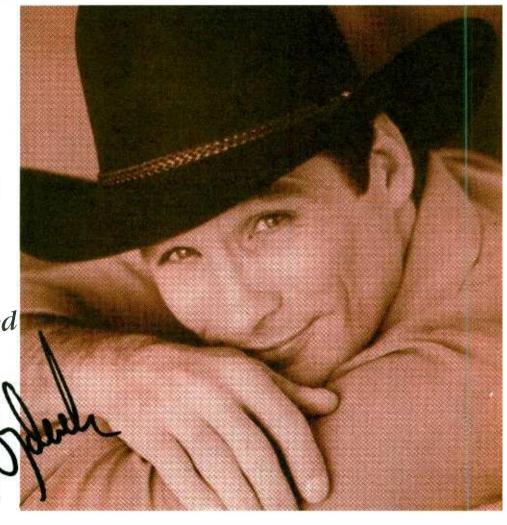

The middle pic comes from WUSY/Chattanooga, where the entire airstaff shamelessly strutted their stuff onstage at a Confederate Railroad concert when the band broke into "Trashy Women." The "trashettes" surrounding CRR's Danny Shirley (center) are (I-r) Gene Lovin, David Earl Hughes, the "Bearman," and Bobby Byrd.

And if it's not Trashy Women contests, it's trying to fool the local paper with a bogus wedding announcement. KDWG/Billings, MT morning teamers Scott Innes (I) and Big "D" Deek Haskins pulled the old "find our picture in the newspaper" contest. Of course, it was in the engagement section. Is it just us, or do these guys look like they're enjoying themselves way too much?

At American Country Countdown, we love to hear from our fans...

Skynyrd Tribute Slated For Fall

In the wake of the successful "Common Thread" and "Rhythm, Country & Blues" compilation projects, MCA/Nash-ville is at work on yet another tribute album — a nod to Southern rockers Lynyrd Skynyrd.

Though the LP is in the beginning stages, tracks featuring Confederate Railroad's Danny Shirley, Terry McBride & The Ride, and the Mavericks have already been recorded. And more are slated during the coming weeks with Wynonna, Alabama, and others. There's no confirmation yet on which Skynyrd tunes will make the final cut. But Shirley has recorded the classic "Simple Man" and Alabama is rumored to be recutting Skynyrd's popular ode to their home state, Sweet Home Alabama." Barry Beckett will reportedly produce several cuts on the project, due in early fall.

Gill Rocks Hard Rock

Don Henley, Melissa Etheridge, and Vince Gill will headline a benefit for Friends of Radnor Lake at the premiere of Nashville's Hard Rock Cafe on June 20. Event proceeds will help support preservation efforts for the Music City lake through Henley's Isis Fund, a nonprofit organization that also supports the Walden Woods project and other environmental charities. A portion of the monies will be donated to the Charles Davis Foundation's summer youth camp, which gives inner-city youth the opportunity to visit Radnor Lake and learn about its ecosystem. Two Gibson guitars signed by the Eagles will be auctioned off during the evening as well.

Rainy Day People

Mark Chesnutt and Waylon Jennings teamed up last week to record an updated version of Jennings's 1974 classic, "Rainy Day Woman." Chesnutt rediscovered the tune when a friend brought him a 10-year-old tape featuring a Jennings

Although the two shows will not be part of the network's fall lineup, they could still be picked up as midseason replacements. Incidentally, CBS is returning to Music City in July to film a movie based on the life of singer Dottie West. The film will star Michele Lee of "Knots Landing" fame; Lee will also serve as co-executive producer.

Fond Fourth Farewell

The Statler Brothers will host their annual Fourth of July celebration in Staunton, VA for the final time this year. They will be the only act on this year's bill; past performers include Reba McEntire, Ronnie Milsap, and Johnny Cash. Proceeds from the 25th annual concert will benefit area charities. Station Turns Controversial TV Commercial Into Talk Of The Town

No sooner had I finished last week's column on buying television than I heard an interesting story about **KLOL/Houston**'s spring TV campaign.

Creative Services Manager Sig Izbrand says, "We had no idea the spots would cause this kind of controversy." The commercial features short segments of various rock videos, one of which was Aerosmith's "Living On The Edge." In the video, Steven Tyler is naked with his hands strategically covering his manhood (see fig. A). The commercial aired a few times, and viewers complained.

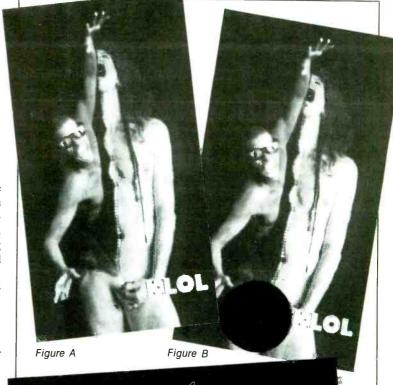

Izbrand says, "Rather than allow the stations to pull the commercials while we scrambled wildly to edit the offending video sequence, we suggested the concept of a modesty patch as an immediate solution. What soon became the infamous blue dot over Tyler's groin was originally intended to appease the outraged viewing public. Ironically, it served to attract more attention than ever" (see fig. B).

Seize The Moment

Having already commanded the spotlight, KLOL found it impossible not to take advantage of the situation. The station ran "Public Notice" ads in the local newspapers. These advised that A) KLOL didn't

know so many people would find the spot offensive; B) the modesty patch was instituted to comply with acceptable community standards; and C) be sure to watch the final airing of the spot, in which the patch would be peeled back (see fig. C).

KLOL's spot ran on all TV outlets for the entire schedule purchased. For the final airing, the modesty patch was pulled back to reveal Mattress Mac, a local celebrity in his own right. Mac, zany owner of a furniture outlet and one of KLOL's biggest clients, is known to viewers as a hyperfrenetic furniture salesman. Izbrand says, "He was a great sport and thrilled to be a part of all the fun, not to mention getting a free plug in the process" (see fig. D].

Air Talent Praises Computer Revolution, Too

I purchased a PC realizing it would facilitate communication between broadcasting professionals. (And here I am faxing you a letter directly from the computer in my home. Go figure.) With bulletin boards, modems, etc., job-hunting for radio talent will be easier and more efficient.

But now, after reading your article ["Praising the Computer Revolution" (R&R 4/29)], I realize how I can use my desktop computer to produce my show at home by interfacing directly with an automation system. PDs and MDs are already doing this with their music-scheduling software. Show prepping, segueing, and special features are all things I would gladly do at my leisure at home well in advance of my show. Hell, doing the voice

tracks at home would be great, too! Personally, I could do without the hour-and-a-half roundtrip commute from my house to my station.

Just turn on the computer, download the local newspaper, get the current weather from a travelers' information update, check the day in music history from an on-line service, perhaps have some phone calls routed to an auxiliary line at my house for some interesting listener interaction. I'm set! What about production? Isn't a digital work-station just a big computer that could also be interfaced from the comfort of my home? And the home unit, software, and on-line and phone fees would probably all be tax-deductible — unlike car expenses to a primary workplace.

WE STAY ON TOP OF THE MUSIC. YOU STAY ON TOP OF YOUR MARKET. Many jocks will see computer automation breakthroughs as a threat. But it's not technology that threatens their jobs — it's greed, a human trait. Certainly there are those who would blow out the entire staff if it meant a new Mercedes. But their success would be short-lived. No matter how good computers are, only a human knows what entertains a human.

As far as incomes are concerned. it seems likely the pay scale would go down. After all, you're only spending an hour to do a four-hour show. But this also gives you an opportunity to be on the air somewhere else! Spend an hour on your show in D.C., an hour on your show in Miami, an hour for St. Louis and Phoenix as well. You could be a syndicated show without the high-pressure, big business drawbacks. You might make more money working about the same amount of time. Or at least be able to do the Dallas AM drive and the Chicago PM drive without racking up frequent flyer

Sadly, you wouldn't have the same special relationships with all the interesting people you'd otherwise meet at these stations. This could be the real casualty of the technology.

View automation systems as a threat if you wish, but that won't not stop their progress. Or you can position yourself to exploit these new innovations to your benefit. Traditionally, people who do the former fill the unemployment lines. People who do the latter fill the history books.

New and improved automation systems can be frightening, just like any new, broadly sweeping development. But they could also help fulfill a DJ's fantasy. Simply because your show is on a Detroit station doesn't mean you can't work in California!

South Spawns Format Converts

After nontraditional sign-ons, WRXQ and WQNF debut in winter book

As the result of duopolies, both WRXQ (96X)/Memphis and WQNF/Louisville are lighting up dark signals with high familiarity in an attempt to lock in 18-34 listeners.

WRXQ/Memphis

"Our sister station is AOR and targets 25-54. We wanted to come in with a station that covered the lower end - 18-34 with an 18-24 slant," notes WRXQ PD/ MD Tony Williams, formerly

Tony Williams

Savage Southwest Regional Promotion Director. "We felt we could cover the whole market with two stations

"We signed on without jocks or commercials - just songs and liners. We had board ops from December until the end of January and played only 100 songs. We wanted to start building cume; the owners [formerly NewMarket Media] wanted to get the station on the air and begin establishing this format.

"We set January 31 as our first day on the air with jocks. In the meantime, I was interviewing and cataloging the music. I didn't hire anybody from the alternative music field because I didn't want any preconceived notions of what people expected Alternative to be.

60% Current

Williams says the station is 60% current and 40% recurrent and gold. "We're still building our library, but it's currently a little over 600 titles. We're pretty broad, and the music is tempo-based. I try to keep soundalike songs together. For example, we'll play Pavement's 'Cut Your Hair' into Bow Wow Wow's 'I Want Candy,' because it's a pop song going into an older song that still has an edge to it.

"Our hottest records play about 40 times per week. Our currents rotate three to five times a day. We use the same philosophy as Top 40, but we're doing it with alternative music. We're playing the hits, rotating them often, and staying with the ones that are working.

Word Of Mouth

After signing on, WRXQ was involved in an ownership transfer to

Radio Equity Partners. "We were somewhat limited by what we were able to do because we couldn't get things approved until they took over." says Williams. "It's been mostly word of mouth. Word travels fast; this is a big city with a smalltown atmosphere. The local weekly alternative newspaper. Memphis Flyer, wrote a three-page article about the station. And in its 'Best of' issue we were voted the secondfavorite radio station after only a month on the air.

'We tied in with Crossroads, a regional unsigned band event. We put out a 96X Crossroads sampler CD and had big displays at the record stores in town. It was one of the best sellers for a while. We promoted it on the air and got a lot of exposure and publicity.

WRXQ also utilized TV advertising to promote the station, Williams says. "We began running television spots at the end of the winter. Promotion Director Diane Hampton produced a 10-second spot which ran on Fox and cable.

Williams admits he didn't want to make a big splash in the ratings out of the box. "This may sound unusual, but when you start extremely well, you have a tendency to fall in the second book. We want to continue to slowly build the station. This is actually where we expected to be after starting with no jocks."

WQNF/Louisville

Eight months ago, AOR WOMF/ Louisville LMA'd WQNF and began evolving into Alternative, using the moniker "'QMF Too." "We signed on with a smorgasbord of rock music that research showed 18-34s had an

Gary Guthrie

affinity for," explains Gary Guthrie, who programs both stations. "It was an effort to see what the customers would pick as building blocks. Virtually every day we responded to feedback and molded the station into what we have today.

While the process runs against the grain of how most would start a station, it enabled us to see what the market would bear and to cherry-pick the direction in real time not off a pre-entry research project that might give incorrect information culled from a small sample vs. the total available audience.

"The major reason behind the station was twofold: We found the cume on a rock station with 'QMF's heritage has very diverse needs. It's tough to play Tori Amos and Lynyrd Skynyrd on the same station. We wanted to satisfy that diversity within our focus and relaunch the 'QMF brand to a budding audience that could become the station's future.'

90% Current

WQNF is nearly 90% current and recurrent. The musical spectrum

- 75% AOR Alternative/pop grunge
- 71/2 % CHR/Pop Alternative

THE CLOSER WE GET ... - WIBF/Philadelphia held a Morrissey instore at Tower Records South Street. Posing with the beloved one (c) are 'IBF air personalities Lady Miss Pamela and Mel Toxic.

- 21/2% soft Adult Alternative
- 21/2% industrial

The library covers the remaining 121/2%, combining '80s Alternative and Alternative AOR crossover hits. "Our library is under 500 songs and it's mostly two to three years old,"

We signed on with a smorgasbord of rock music that research showed 18-34s had an affinity for.

— Gary Guthrie

notes Guthrie. "With the market completely devoid of any Alternative history, the most difficult issue has been uncovering what's familiar. Some things hip and alternative in '84 might not work in '94.

"We used music monitors to find common songs for the majority of Alternative stations throughout the country and auditorium music tests.

Most of the action, interest, wordof-mouth, and hype is built around the current acts.

Creating A 'Superstation'

Guthrie opted for the "'QMF Too" identity for marketing purposes. "Fortunately, we had a preexisting 100,000+ cume on 'QMF to promote the station. We use the main 'QMF to showcase the new station by preselling the music 'QMF Too would play every hour, among other things. Other marketing came through promotions such as concerts, for example, our Kentucky Derby Festival in the Park with Eve's Plum, Connells, Material Issue, and Lisa Germano.

"The stations are marketed as a superstation; I look at them as a unit. We're planning to sell the stations as three: 'QMF One' for classic-based AOR listeners, 'QMF Too' for Alternative listeners, or you can make up your own station by choosing the amount you want from each. I'm not confident Arbitron will properly credit our single-name identity; however, our in-house research shows the move was a smart one.'

Artist: Offspring Track: "Come Out

And Play' ◆ LP: "Smash"

• Label: Epitaph

• Essentials: "Smash" is the third release from Orange County, CA's Offspring, who teamed up in high school after being inspired by early Orange County punk rockers TSOL, Vandals, and Social Distortion. They even recruited that era's eminent producer, Thom Wilson. The band soon underwent a lineup change. Dexter Holland (lead singer/guitar) and Greg K (bass) are original members; Noodles (quitarist) and Ron Welty (drums) joined the band seven years ago.

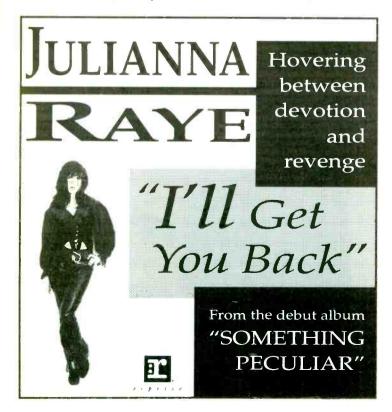

• Artist POV: Holland explains, "Come Out And Play' is about the dynamics of two gangs squaring off; if someone doesn't 'keep 'em separated' [a phrase in the song] there is going to be a fight. The last verse has a message behind

it: This kind of behavior is ultimately self-destructing. By them trying to take out other people. they're going to end up [as the song says] tying their own rope. I write about things people can relate to - with tongue-in-cheek humor behind it."

• Label POV: "The Offspring have garnered a huge following with the punk/skate crowd in the last year and a half," notes Epitaph Marketing Director Andy Kaulkin. "It's great to see the whole thing explode at radio and now MTV. We're an indie label with no major label ties, so it's especially gratifying."

WLW Shines Despite Adverse Weather

Rough weather was a major factor in this winter's sweep. Of course, Full-Service outlets tend to benefit from such situations.

"Bad weather brought in more cume for us this winter," reports WLW/Cincinnati PD Bill Wills. "But our audience continued to grow through the winter and didn't peak in January. The new

Bill Wills

cume liked what it heard and stayed. We're hoping this momentum stays through the spring book.

War Games

WLW registered the most significant Full-Service 25-54 and 35-64 winter-winter gains. "Like war, bad winter weather makes great ratings but fewer people die. You have to play what you're dealt. As a programmer, it's key to realize how to take advantage of it.'

Wills disagrees with those who believe such stations as WLW no longer can be as competitive as before. "Those people don't know how to program. PDs who feel that way are short-sighted and don't think things through. Our people know how to inform, entertain, and play. It's important to provide adults with information they need, but we should also give them a few laughs. Every WLW personality is a franchise guy and knows the team concept. You could build a station around any one of them."

No Rush

With the exception of some weekend ESPN Radio blocks, Wills covers all airshifts with local personalities. Not even Full-Service/Talk staple Rush Limbaugh is part of WLW's lineup.

Wills respects Limbaugh, but asserts, "He does what we've been do-

ing here for years. We're talking about the same things, but my guys do it better. He goes into many markets where Full-Service stations have given up. His show works because he mixes information with entertainment. Stations will find it difficult to attack his beachhead. They'll need to figure out how to go around

Call Letter Confusion

After acquiring crosstown Full-Service WKRC, WLW changed that station's calls to WLWA. was some confusion when it became WLWA," admits Wills, who directed that station for the first eight months before handing day-to-day programming duties to John Phillips.

"It made more sense - John could be more objective. Someone running two Full-Service stations can get into real nightmares with talk show topics. Two people want to do the same thing at the same time. It may be the best issue, but you must give the audience a choice.

"Line extension - like Coke to Diet Coke and Miller to Miller Lite looked like a good idea on paper. But the product wasn't quite there. We weren't able to make a big enough difference between the two stations.

As a result, WLWA has changed calls to WCKY, whose noon-3pm slot is filled with none other than Rush Limbaugh. "Now I don't mind if he does well because he's in the same building," jokes Wills. "The revenue's going into our pocket."

WKTI Celebrates '20 Years In 20 Days'

While some stations casually note their milestones onair, Hot AC WKTI/Milwaukee's 20th anniversary was celebrated with a four-week on-air bash.

Listeners were afforded the chance to win a "20 Years in 20 Days" prize pack, each valued between \$5000-\$10,000. To land a prize pack, designated dialers (caller No. 20, of course) had to list all the prizes it contained. Different prize packs - which focused on major news stories from each of the last 20 years - were announced each day.

Extending TSL

"On the first day of the promotion, we started with 1974," recalls GM Carl Gardner. "Promos for that prize pack ran repeatedly throughout the day. We did 1975 the next day, 1976 the next, etc. The following Monday, we gave one away.

"From a programming standpoint, the idea was for people to listen for long periods and hear the promos for all the details and nuances. We didn't want listeners to have a 'who cares?' attitude. There had to be a big entertainment value payoff. We provided a special reason for our audience to spend a little more time

Making An Effort

According to Gardner, prize pack promos were "highly theatrical and patterned after the 'Last Contest. PD Danny Clayton and the rest of our guys spent lots of time creating theater of the mind. Promos tended to be 90 seconds — even longer in some cases. We didn't worry about a standard length. There was a lot of heavy sweat and tears to get the promos to sound as exciting as they did.'

Adhering to budget guidelines, Gardner notes, "We did some real dealing to get some prizes. We worked with clients and suppliers to get the best possible prices. There was lots of talk on the street and interest in our 'Three Mile Island' package, where we sent people to three Hawaiian Islands.'

Gold Requests

What's more, 'KTI dusted off some tunes from its first 20 years. "Many songs we no longer play. It sparked a little interest in '70s gold that people are jumping on right We played music ranging from

Donna Summer and Bee Gees to '70s rock. We dipped into many different titles and had fun with it.

"For four weeks, phones in the studio melted down. People made all kinds of strange requests that we hadn't heard in years. The entire promotion caused some good old-fashioned excitement.'

however, many FS elements remain on the Susquehanna station, which posted solid 35-65 winter numbers. "This book so

lidifies the fact that we're not a fluke that lives and dies with the San Francisco Giants," states PD Bob Agnew. "We take pride in what we've done. This is the second consecutive win-

Morning Strength

In addition to a heavy sports emphasis, KNBR has a very solid morning show. "Frank & Mike have teamed for 13 years and always are in the Top 5 25-54. Frank celebrated 30 years here; Mike's been here 20.

"The morning show's full-service, but it has 49ers QB Steve Young, Giants Manager Dusty Baker, and Golden State Warriors Coach Don Nelson. It's dotted with sports highlights and extended sportscasts twice an hour."

Part of KNBR's non-Sports programming involves Rush Limbaugh. "He's a 9am-noon gold mine. Our midday numbers are awesome. [Nationally], there's usually a big falloff after Limbaugh's show, but we've been able to hold audience." Limbaugh's show is repeated at midnight.

Tube Talk

KNBR recently launched a cross-promotion with KRON-TV. "Their noon newscast has expanded to 11:30am-12:30pm and simulcasts our show for five minutes each day. They've put a camera in our studio, and we do a Q&A with their noon anchors People can call in to be on radio and TV at the same time."

RANDALL BLOOMQUIST

A Fond Farewell To The King

Talk veterans assess Larry King's role in format's history

On May 27, a notable chapter in Talk radio history will come to an end as Larry King does his last daily radio show for Mutual Broadcasting.

No longer will radios across the country echo with, "We go to Tulsa!" or "What's the question?" delivered in that trademark gruff voice and Brooklyn accent. In its place Mutual is offering a talk

show hosted by comedian David Brenner. Listeners desperate for a King fix can tune to Westwood One's simulcast of King's nightly CNN gabfest — but it just won't be the same

Blazing The Trail?

As the curtain closes on King's 16year network radio career, I asked Talk veterans to assess his place in format history.

First and foremost, say many Talk experts, King will be remembered as a formatic trailblazer. The success of his coast-to-coast late-night show, they say, revived the dormant network Talk business by debunking the then-current notion that chat programming had to be local in origin and orientation to succeed.

"Larry showed that people would listen to a good talk show regardless of whether it was local or national," says consultant Bruce Marr, who helped launch the Rush Limbaugh show. And for that, Marr and others

say, Limbaugh, Howard Stern and every other successful syndicated talker owes King a debt of gratitude.

But not everyone is willing to go that far. WABC/New York PD John Mainelli acknowledges that King's all-night gabfest was "good for the format." But, he points out, Larry was not the first national talker; and

Larry asked good, concise questions. I think he's better with entertainers than with political people, but that's probably because he cares more about that stuff. -Bruce Marr

his show - which aired in a radio wasteland - was never particularly successful.

"There were guys like Joe Pyne and Herb Jepko doing syndicated shows before Larry," Mainelli points out. "Larry's show never got great ratings and it was never profitable. That wasn't Larry fault; it had more to do with the timeslot. But Rush and Howard do get great ratings and they are profitable. So, I don't think Rush owes Larry anything.'

Good Guests, **Tight Questions**

Even as King prepares to depart radio, the secret of his success remains a major topic of debate among Talk professionals. After 16 years of mulling the question, the dominant theory seems to be that King whom Mutual plucked from the ashes of a Miami broadcast career that crashed in scandal and financial disarray - is a decent interviewer who happened to be in the right place at the right time.

Says one industry figure who expressed a common sentiment: "I think a big part of what made him a success was the fact that he was the first guy to do a national radio talk show. You could have had just about anybody do that show.

However, everyone agrees, King made the most of that opportunity with his interviewing skills, which included a knack for putting people at ease. "Larry asked good, concise questions," says Marr. "I think he's better with entertainers than with political people, but that's probably because he cares more about that stuff.'

Observers also note that King benefitted greatly from his ability to attract notable guests, which grew significantly once his CNN interview program took off.

Indeed, Mainelli says he is looking forward to carrying the simulcast of the CNN show primarily because of the guests - and the callers. "Larry is okay [as an interviewer], but I always look forward to the callers. Larry pitches softballs, but the callers go straight for the throat."

KABC/Los Angeles President/ GM George Green believes King's guest-getting power and gentility with notable visitors helped boost Talk radio's image.

"He brought status and credibility to Talk radio with the kind of guests he had," Green observes. "He elevated the format to a higher level where there was more than just controversy.'

Daytime Death

Reports that King was ready to hang up his headphones began cir-

culating in mid-1993, shortly after his show made its poorly received move from late nights to afternoons. The daytime show drew disappointing numbers and was ultimately rel-

egated to second-tier outlets. In the Top 25 markets, for example, many of his affiliates were suburban or non-Metro stations.

He brought status and credibility to Talk radio with the kind of guests he had. He elevated the format to a higher level where

there was more than just controversy. -George Green

> Several radio execs who asked to remain anonymous say King should never have moved to days, considering he was clearly far more interested in his CNN show. According to one senior network official, King's lack of enthusiasm for radio, which was marked by frequent absences and occasional shortness with callers, marred what should have been a glorious time.

> "Larry should have just announced his retirement [from nights] and spent his last months basking in the adulation," says the executive. "Instead, he took the daytime show and pissed off a lot of people."

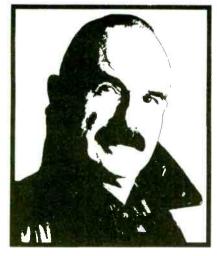

> Why did King fade so quickly in the light of day? The experts are at a loss for definitive explanations, but there is plenty of speculation.

Green points out that interviewdriven talk is not currently in vogue. Others wonder whether King's easygoing "I didn't read the book" approach was too laid-back for afternoon drive. Maybe King paid for his penchant for older-skewing guests, including aged baseball players, Don Rickles, and various government officials.

Or perhaps, as Marr suggests, the problem was with the listeners, not the King. "Maybe we were all just too damn used to listening to Larry King late at night."

Regardless, as Green puts it, "He was a class act and I think radio is going to miss him."

USERS' GUIDE TO A CHANGING WORLD

The most timely, detailed, and easy-to-use airplay information. All formats in one publication!

PLAY RANK – Ranks all songs on the chart by number of plays, no weighting system used.

POINTS – Each station's total plays of a song times the station's individual weight.

Total Points – All stations/points on song added together.

GR: GROWTH RANK -

A qualitative analysis that ranks the songs that showed the most growth over the previous week in airplay and audience impact.

MOST ADDED - You can see both the quantity (number of stations adding a song) and quality (Add Factor) of adds.

MOST INCREASED PLAY

A quantitative analysis that ranks songs that showed the most increase in the total number of plays over the previous week.

AF: ADD FACTOR

Measures the quality of the adds by combining the total weights of stations adding a song.

Insight Into Who's Adding A Song

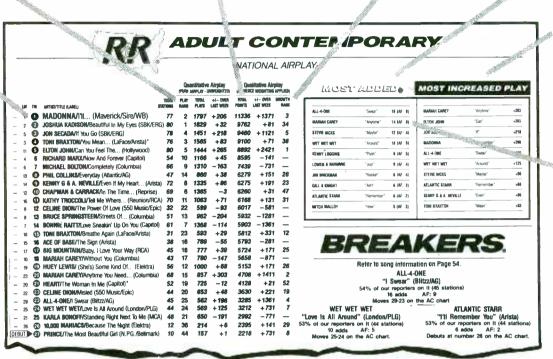

The Add Factor gives you a quick analysis of the audience size of stations adding a song. In a situation with the same or similiar number of stations adding a song...the one with the higher AF has the stations with larger audiences adding it.

CHART BULLETS -

Given to any song that shows airplay growth (increase in points over previous week).

R&R WEIGHTING FORMULA

Each station eams its own weight in points, based on the size of its audience and how effectively it reaches that audience. The base elements of the formula include: AQH, cume, and the station's turnover. We process these raw numbers through simple reduction and limiting formulas to bring the large numbers down to a manageable size, and keep any single station from having a weight increase greater than the average of the ten stations preceding it.

2 CHARTS IN 1 - Qualitative & Quantitative

Read the Stats Top To Bottom And Left To Right

READ DOWN the 1-50 column in the Chapman & Carrack song information box to see how the song is performing in markets 1-50. There are no stations playing the song 50+ times this week, 2 playing it 40-49 times, 1 playing it 30-39 times, and so forth. At the bottom of the column, the information's totaled: 27 stations in markets 1-50 are playing the song a total of 478 plays.

READ ACROSS the 30-39 plays row to find out how many stations across all markets are playing the song with that frequency: 1 station in the top 50 markets is playing it 30-39 times, 3 stations in markets 51-100, etc. At right, you can see that 9 total stations are playing it 30-39 times for a total of 302 plays, followed by the difference from the previous week.

SONG INFORMATION

Each line gives you a different way of looking at a song's airplay

REAR WEIGHTING FORMULA: Each station earns its own weight in points, based on the size of its audience and how effectively it reaches that audience. The base elements of the formula includer: AQH, Cume, and the station's turnover, We process these raw numbers through simple reduction and limiting formulas to bring the large numbers down to a manageable size and keep any single station from having a weight increase greater than the average of ten stations preceding it.

AUDIENCE IMPACT: A station's turnover figure is used to determine the approximate number of weekly plays a song needs on a station to be exposed to the average quarter-hour persons a minimum of one time.

Here's How to "Read Between the Lines"

## 2 CHARTS IN 1

## **QUANTITATIVE**

The most heard song may not always be the song with the most plays. Pure airplay is one important evaluator... it shows the number of stations and their commitment to it.

A good example is the Tevin Campbell song, #22 on the chart but 40 in Play Rank, with only 41 stations.

**QUALITATIVE** 

The qualitative level of evaluation brings each station's

Quick conclusion: Must have many large market stations playing it in good rotations.

(Examination of the actual song stats confirms that over 70% of the airplay is concentrated in the top 50 markets.)

- Points reflect the size of markets and audience of the stations (Qualitative)
- Plays reflect the number of plays each station gave a song (Quantitative)

#### ADD FACTOR **INSIGHT INTO WHO'S** ADDING A SONG

More than just the quantity of stations

The Add Factor gives you a quick analysis of the audience size of stations adding a song. In a situation with the same or similar number of stations adding a song, the one with the higher AF has the stations with larger audiences adding it.

#### WEET AUDELO

| ANGELA WINBUSH       | "Inner"   | 32 | (AF: | 12) |
|----------------------|-----------|----|------|-----|
| GUESSS               | "it's"    | 30 | (AF: | 11) |
| SHAI                 | "Place"   | 24 | (AF: | 11) |
| QUEEN LATIFAH        | "Black"   | 24 | (AF: | 8)  |
| SNOOP DOGGY DOGG     | "Doggy"   | 24 | (AF: | 6)  |
| BLACKGIRL            | "90's"    | 17 | (AF: | 6)  |

| MARIAH CAREY         | "Anytime" | 13 | (AF: | 5)  |

Because these two have the same AF it becomes clear that Shai, with fewer stations, was added on stations with larger audiences in larger markets.

Me'Shell with 8 less stations than Snoop has the same AF. Me'Shell is reaching a larger audience with its station mix.
