Radio's Bad Rap: No Easy Answers

■ by Dana Hall, Sean Ross, and Marc Schiffman

How to fight the negative publicity that radio has endured for the past several years? For panelists at "Battling Radio's Bad Rap," the most

contentious panel of the Billboard/ Airplay Monitor Radio Seminar (held Feb. 6-8 in Miami

Beach), there was little agreement on whether radio really has a problem with listeners, much less how to address it, but a lot of debate on consolidation, independent promotion, and some of the issues that have spurred radio's negative press of recent years.

While indies, voice-tracking, and consolidation have brought radio a weekly barrage of negative consumer-press stories, panelists from all aspects of the music business and media often tended to *Continued on page 5*

WPYM Receives Innovators Award

Rhythmic top 40 WPYM (Party 93.1) Miami has been given *Airplay Monitor's* first Monitor Innovators Award. The award was presented to PD Phil Michaels Trueba at the Billboard/Airplay Monitor Radio Awards Feb. 8 in Miami Beach.

The Monitor Innovators Award recognizes a recently launched station that doesn't just succeed but breaks ground musically. The recipient was determined by the editors and chart staff of *Airplay Monitor* and *Billboard*. (Other Billboard/Airplay Monitor Radio Awards are voted on by the publications' readers.)

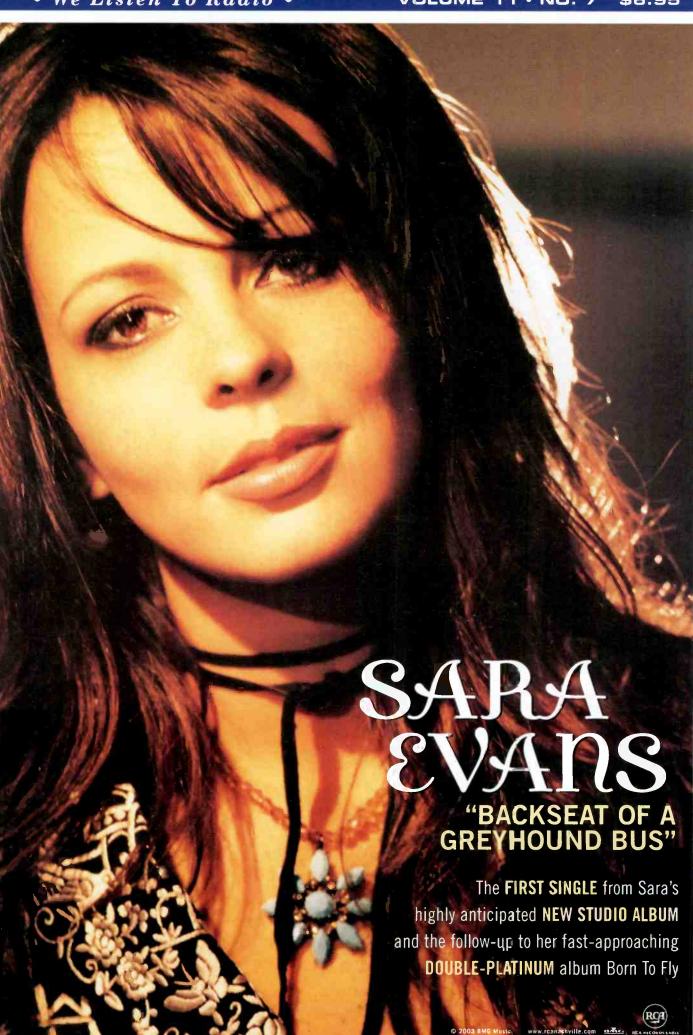

Cox-owned WPYM, the former classical WTMI, launched in January 2002 with a "pure dance"

format that differed from other dancebased rhythmic stations in both its focus and its resources. WPYM was the first full-market signal owned by a major group to concen-

trate strictly on a format that might have seemed too underground for others. Its debut was part of a year in which dance music reasserted itself in the pop mainstream. WPYM was also an important part of the U.S. success story of Daniel Bedingfield's "Gotta Get Thru This," which the station broke in the market as an import.

The Monitor Innovator Award will become an annual part of the Billboard/Airplay Monitor Radio Awards. For a full list of this year's winners, see page 4.

Monitor RADIOACTIVE WINTER THE SPIN

For Traffic, Weather, Think Print?

Think print can't challenge radio for immediacy? Perhaps the most attention-getting billboard for radio folks at the Billboard/Airplay Monitor Radio Seminar wasn't one for a South Florida radio station but one for the Fort Lauderdale Sun-Sentinel, which promised "Traffic 24/7" at "Sun-Sentinel.com," marking a surprising instance of a newspaper co-opting one of radio's traditional positioners. A spokesperson for the paper says there wasn't a specific attempt to target radio with its billboards, which also include "Weather Radar Anytime" and "News Breaks Here."

GETTING A HEAD IN RADIO DOESN'T PAY OFF

Last May, we reported that two listeners had sued active rock KORB Quad Cities, Iowa, after getting the station's logo tattooed on their foreheads. But for tattooed man Richard Goddard Jr., being marked for life by a stupid radio stunt is just the beginning. The Des Moines Register reports that a couple with whom Goddard was staying in a trailer park became tired of his constant complaining and attempted to "teach him a lesson." The two tried to hang Goddard from a ceiling beam, then beat him in the face with a ball-peen hammer. The couple was arrested, while Goddard was released from a hospital after two days.

MANAGEMENT: ONLY ONE COO NOW

Cox Radio restructures its management, with the company's two COOs adding executive VP stripes. VP/co-COO Marc Morgan is now COO, with responsibility for the company's Houston and Atlanta stations. Dick Ferguson shifts his title from co-COO to executive VP and is overseeing Cox's Connecticut stations. Also, four executives shift territorial duties. KISS/KSMG San Antonio VP/GM Caroline Devine is named regional VP, serving over the Honolulu market. Group VP Rich Reis adds Tampa, Fla., oversight. WBAB/ WBLI/WHFM Long Island, N.Y., VP/GM/RVP Kim Guthrie adds the Greenville, S.C., market, while Cox/San Antonio VP/GM/RVP Ben Reed adds the Cox/Tulsa, Okla., cluster.

Longtime country WUSN (US99) Chicago VP/GM Steve Ennen segues to a new position as president/COO of sister company Spark Network Services. That company, originally created by Ennen, generates NTR programs for stations. In other Infinity news, N/T KDKA Pittsburgh GM Michael Young is promoted to senior VP/market manager. Don Olyear continues as GM of the market's FM stations and will report to Young. In St. Louis, VP/GM Beth Davis is upped to senior VP/market manager and adds N/T KMOX to her daily duties.

Back in Chicago, N/T WGN promotes GSM Mark Kreischen to GM, replacing Steve Carver, who joins a Tribune TV station in Atlanta. And WKSC station manager/GSM Paul Agase returns to Infinity as head of sales, according to the Chicago Sun-Times.

A U.S. Bankruptcy Court has approved the sale of R&B WROU (U92) and adult R&B WRNB Dayton, Ohio. WROU goes to Radio One for \$9.5 million, and WRNB will be sold to K-Love Radio Network of Sacramento, Calif., for \$1.2 million (Airplay Monitor, Jan. 17). K-Love plans to flip WRNB to Christian AC upon closing, which could be finalized as early as March. Both stations were owned by RoNita Hawes-Saunders, who filed for bankruptcy last November. Meanwhile, Radio One will have a little more competition of its own for its forthcoming cable network when Major Broadcasting launches a black-targeted cable news channel, MBC News, late this year or early next year, according to The Washington Post.

Universal Music Group inks a three-year deal with Sean "P. Diddy" Combs' Bad Boy label. Terms are undisclosed, but Bad Boy is reported to retain full ownership of its catalog.

FORMATS: KISS JAMS MORE

Top 40 WXSS (Kiss 103.7) Milwaukee takes a more rhythmic lean, although a handful of its pop/rock powers (Kid Rock, Dixie Chicks) remain. Concurrently, PD Brian Kelly says, adult top 40 sister WMYX will lean more rock. WXSS is also losing p.m. driver Wes McKane to

the same shift at KDWB Minneapolis.

After 22 years, top 40 WBZZ (B94) Pittsburgh repositions as "93.7 BZZ." WBZZ continues its search for afternoon and evening talent.

After several weeks of stunting, new move-in KCSX Kansas City finally debuts as triple-A KZPL (97.3, the Planet)

Top 40 KTFM San Antonio PD Mark Jackson exits. He's hanging out in New York while he contemplates his next move; reach him at 210-415-6802. John Cook from sister KRBV (Wild 100.3) Dallas will oversee programming for now.

Guaranty Broadcasting's country WTGE Baton Rouge, La., becomes WYPY. OM Randy Chase says "there may be" a corresponding format change. Rhythmic top 40 KTBT (101.5 the Beat)

Tulsa, Okla., hires rapper and former crosstown KJMM PD Big Juice as PD/night host, replacing Steve Fisk.

Country WSTH Columbus, Ga., APD/MD/middayer Dave Anderson joins country KMFX Rochester, Minn., as PD. WSTH PD Kevin Anderson assumes all of his former duties, including

United Stations Radio Networks teams with Black Enterprise magazine to offer a financial news report several times daily.

Country WIVK Knoxville, Tenn., celebrates its 50th anniversary March 19 with a party at the Knoxville Conven-

tion Center. Among the artists set to deliver spoken tributes are Dolly Parton, Kenny Rogers, Kenny Chesney, Tanya Tucker, Ray Price, Charlie Daniels, and Aaron Tippin. Performing are Joe Nichols, Darryl Worley, Tammy Cochran, and Phil Vassar.

PEOPLE: CALL-IN TO WORK

'80s gold WRQQ (Star 97) Nashville PD Scott Chase found a unique way to introduce his new morning co-host. Local fitness trainer Nicole Beam was the station's caller No. 9. She replaces Lulu, now doing middays at WCGQ Columbus, Ga.

At rhythmic top 40 CISS (Kiss 92), Toronto, longtime p.m. driver Tarzan Dan exits

As previously tipped here, the Dallas Morning News reports that KKBT (the Beat) Los Angeles

morning host Steve Harvey's newly syndicated show debuts on KBFB (the Beat) Dallas Feb. 17.

Following three days of the Todd & Vinnie show at modern KCXX Riverside, Calif., the station became unable to locate morning host Vinnie Krakhorn. As a result, The Todd Show

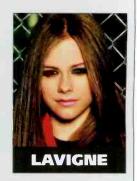

will center around remaining morning man Todd Kelly and a cast of rotating characters

Sk8er Grrl Scores Another Hat Trick

Avril Lavigne's "I'm With You" (Arista) takes over the top spot at both adult top 40 and modern AC this week while maintaining the No. position at mainstream top 40 for a third week. Lavigne has already topped all three charts in the same week, with "Complicated." Before avigne, no artist had ever led all three charts with the same track in the same issue. Goo Goo Dolls came the closest, topping mainstream top 40, adult top 40, and modern AC with both "Iris" and "Slide" but not all three in the same week.

Meanwhile, Arista extends its record streak at No. 1 on adult top 40 to 30 straight weeks and becomes the first label to post three consecutive No. 1s, following "The Game of Love" by Santana Featuring Michelle Branch and Lavigr.e's "Complicated."

BABY TALK: Blake Shelton's "The Baby" gives the Warner/Reprise Nashville team its first country No.1 since Shelton's "Austin" topped the chart for five weeks in summer 2001. Prior to Shelton's pair of No. 1 singles, Warner Bros. hadn't led the chart since June 2000, when Chad Brock's "Yes!" ruled for three weeks.

Shelton ends a six-week stint at No. 1 for Mark Wills, the longest chart-topping stretch for a Mercury country single in more than four decades. Leroy Van Dyke's "Walk On By" dominated for 19 weeks in 1961. In the modern era, Wills' feat surpasses two Mercury titles that each spent five weeks on top: Billy Ray Cyrus' "Achy Break: Heart" in 1992 and Shania Twain's "Love Gets Me Every Time" in 1997.

Seether's "Fine Again" (Wind-up) sets records for longest chart climb on two charts this week. At active, "Fine Again" moves 4-3 in its 32nd week on the chart, eclipsing the 26 weeks it took Chevelle's "The Red" to reach the top three last December. At heritage rock, "Fine Again" moves 6-5 in its 29th week; the Goc Goo Dolls' "Iris" needed 19 weeks to crack the top five in August 1998.

PANEL NEWS: WCOS Columbia, S.C., returns to the country panel following a brief hiatus owing to technical issues.

Party Parties At Monitor Awards

WPYM (Party 93.1) Miami was the first winner of the Billboard/Airplay Monitor Innovators Award for unique programming. PD Phil Michaels Trueba is flanked, from left, by Billboard managing editor Michael Ellis, Billboard senior news editor Marc Schiffman, Airplay Monitor editor in chief Sean Ross, and Billboard senior features editor Chuck Taylor.

After months of on-air tryouts, Adam 12 is named middayer at modern WBCN Boston. He arrives from modern KTEG Albuquerque, N.M., and had also been heard via voice-tracking at modern KTCL Denver.

Adult top 40 KIMN (Mix 100) Denver taps William "Tuna" Rutherford for p.m. drive. Rutherford had worked at KIMN in the '90s when it was a '70s-oldies station and also worked at crosstown KALC (Alice 106). He was last doing mornings at WCOD Cape Cod, Mass. Mix 100 also taps new promotions director Allison Warren from R&B oldies sister KDJM, where assistant promo director Kristen Prideaux gets the nod. Industry vet Ray Mariner and WQZQ Nash-

ville's Cindy Simmons team in afternoons at WSTR (Star 94) Atlanta, replacing Craig Hunt.

Rhythmic top 40 XHTZ (Z90) San Diego inks Pablo Sato from sister KWID Las Vegas as MD; he replaces Slyed, who stays for P/T duties.

At top 40 KCHZ (Z95.7) Kansas City, promotions director Eric Tadda adds APD stripes, p.m. driver Jacqui Lucky is named MD, and middayer Megan Ireland is now voice-tracking overnights, replaced by morning producer Twiggy.

Active WJJO Madison, Wis., night jock the Biatch exits for APD/afternoon duties at active rock sister WQLZ Springfield, Ill., replacing Digs.

Adult top 40 WPTE (the Point) Norfolk, Va., middayer Alex Dahm joins classic rock rival WAFX for nights, replacing Jerry Hoyt.

R&B WIBB (97.9) Macon, Ga., APD/middayer Ava Black exits. Reach her at 478-922-6779.

Valerie Hart joins country KCCY Colorado Springs, Colo., as MD from crosstown top 40 KKMG, where she was APD/midday host. She assumes MD duties from PD Travis Daily.

Top 40 KHFI (Kiss 96.7) Austin, Texas, hires sister KQAR (Q100) Little Rock, Ark., night jock Bobby Bones for similar duties. Bones will continue his show on KQAR via voice-tracking. Also, KHFI PD Jay Shannon moves to afternoons from mornings, where the syndicated Kidd Kraddick show is now heard.

Modern sign-on KBZR (the Buzz) Jonesboro, Ark., announces its lineup. "Crazy" Chuck Carter is in mornings, arriving from middays at top 40 KGKS Cape Girardeau, Mo.; Brandon Baxter joins for middays; Johnny Ringo takes afternoons; and Rob Butler assumes night duties.

Radio's Bad Rap: No Easy Answers

Billboard Monitor

view radio's declining time spent listening of recent years to other factors, rather than public disaffection with radio's music policies. For MediaThink's Tom Barnes, it was spotloads. Yahoo Music's Jay Frank cited the proliferation of new music technologies and broadcasters' willingness to cede the Internet radio space to companies like his because of rovalties

And National Assn. of Broadcasters' (NAB) Dennis Wharton cited the 78% approval rating for radio in a recent NAB-sponsored study. Wharton noted that while TSL has dropped "slightly" over the years, time spent reading newspapers, he noted, has dropped more. Wharton also decried satellite radio, which he claims spent some \$50 million to employ eight public-relations companies to attack radio.

But speaking for the press side, Miami Herald reporter Jordan Levin decried the "circular argu-

ment" that radio research dictates playing familiar music when unfamiliar music isn't exposed in the first place. Why didn't broadcasters actually try doing something more adventurous, Levin asked-a suggestion that broad-

casters on the panel, judging from their reaction, clearly considered naive.

Levin also took issue with claims by radio's backers that consolidation has led to more variety, suggesting that Clear Channel did not bring a third hip-hop station into Miami to serve a new audience but to take a bite out of a market segment already served by two other Miami stations. "You don't have a God-given right to the airwaves," she said. "They are a public trust."

Brett Sokol of Miami entertainment weekly New Times pointed out that "radio has gotten an incredible free ride for decades." It has only been in the past year or so that "a handful of media outlets" have shown some teeth in portraying today's corporate, consolidated radio environment. Up until now, "a vast amount of writing on radio has been puff pieces." Sokol also felt it was to be expected that as the radio industry becomes bigger and more consolidated that it's going to attract more media attention.

Entercom VP of programming Pat Paxton encouraged radio to develop a relationship with the local and national consumer press. Sokol suggested that radio people use less jargon. "If a writer is calling you from a mainstream paper, try and put things in a manner as if you were talking to

your listeners." And he urged the programmers themselves to get on the phone. "I hate talking to publicists," Sokol said. Wharton, too, urged radio to "make yourself available."

Levin's contention, first seen in a recent Herald story, that "payola of one kind or another largely drove what got on the air" in Latin radio diverted the panel to a discussion of whether consideration rules music decisions and whether that consideration constitutes payola. Co-moderator Daniel Glass, president of Artemis Records, says he remains shocked by "the somersaults and flips we'll have to do" to get airplay. With a new Pretenders album and tour in the wings, Glass noted, stations would call him for 10 to 20 pairs of Pretenders tickets but not play the new album. But Glass was outspoken in his defense of independent promoters, saying that he believed they were "music purists" and sometimes "more effective than label

> Paxton believed "there's no question some stations will add a record for the wrong reasons, but there's bad people in every industry." Like other broadcasters, Paxton said he can't be expected to

promotion people.

turn down an independent promoter who pays "\$100,000 to \$200,000 to talk to us for 15 minutes a week." But Barnes called it "dubious" to suggest that a promoter is paying \$100,000 a year solely for a series of 15-minute phone calls. The promoter is paying for the relationship, and, Barnes suggested, the radio station gets the money to mitigate the risk of playing unfamiliar music.

A MOOT POINT BY 2004?

So are labels going to make the independent promotion issue moot in 2003, as some observers expect? At the seminar's opening panel, "The VPs Speak," Warner Bros. VP of promotion Dale Connone said, "We are cutting back on indie deals, yet we'll still pay for a good relationship, but it's not like it was the last two years. I'm not going to pay an indie if they don't even talk to the PD.

Universal VP of pop and crossover promotion Dave Reynolds says indies will be the next-to-last item cut and are not going away until it is otherwise necessary to cut a label's own staff, but he also says that indie spending "will diminish if they are ineffective. I actually had one indie say to me, 'Dude, I'm just the toll taker.' We need to just say no to them.

Continued on page 6

Island Def Jam Music Group's Marthe Reynolds and Motti Shulman, left, congratulate rhythmic top 40 WLLD Tampa, Fla., PD Orlando, center, and MD Beata. They're joined by *Airplay Monitor* director of charts Silvio Pietroluongo, right.

Rhythmic Wants Respect

Perhaps the funniest moment at the Billboard/Airplay Monitor Radio Seminar's rhythmic top 40 panel, held Feb. 7, took place when the representative of an independent label began screaming the word "respect," cutting off panelists and an audience member. While that strategy might not have earned much regard from the audience, respect seemed to be at the heart of many of the record/radio issues that were raised

WKTU New York PD Frankie Blue, whose dance-leaning station is often the odd man out on an increasingly rap-driven chart, urged labels to "do your homework, know your people. I find so many record people have no idea of who I am as a person or how to approach me. They just make calls." But Blue's priorities will probably differ from those calling him for a little while longer, since the rest of the panel seemed to agree that only those stations targeted 25-34 could play dance music. Even with old school, KUBE Seattle PD Eric Powers noted, "if it's Gloria Gaynor, it won't work. But if it's A Tribe Called Quest," it will.

But even a hip-hop PD can mess up a label's priorities. WLLD (Wild 98.7) Tampa, Fla., PD Orlando echoed the sentiment of several panelists who complained that labels give up on songs too soon or don't accept when a station has found a different cut from a project. He said, "My station's goals don't always fit your marketing plan."

But MCA's Azim Rasheed defended the labels as he asked radio to be more proactive in communicating its concerns. "It's a partnership. Radio wants to operate separately, and that's where we all lose. We must learn to work together." And Blue agreed that "PDs should take time to understand what labels are dealing with today." Orlando added that "animosity and negativity" were still big problems for the industry overall.

Blue also touched on a "lack of vision" on both sides of the industry. "The people who slash jobs are the ones getting rewarded today. Where are the people who find new ways to make money? There should be more rewards for the boss or person that walks into an office, saying, 'I've found a way to make a few thousand or even a million this year.' Our industry needs more people who do more than just slash jobs and cut budgets."

WHAT ARE CONCERTS WORTH?

With station shows remaining an issue of contention for labels and radio, WPOW (Power 96) Miami PD Kid Curry insisted his station's ratings saw "little or no positive impact" from big shows and documented ratings growth in 2002 after abandoning them. "We got no spike. We were into everything, we were everywhere; shows, county fairs-what did it get us? Nothing."

But Powers saw positives in "working ticket giveaways into quarter-hours" to "reinforcing our station's image." Others in radio both on the panel and in the audience agreed that station revenue was now too dependent on station shows for them to go away

So just because labels would like shows to go away, PDs aren't going to stop asking for acts. Orlando said that "it's getting crazy getting artists to agree to even paid shows. Some VPs are no more of a help than their reps [when it comes to influencing artists]. It seems like we have less clout than promoters, and we're paying. If I'm willing to answer your label's calls, then you should be willing to answer my questions and get it done . . . It should not take from January to June just to get an artist to give you an answer on your show." SKIP DILLARD

Radio's Bad Rap: No Easy Answers

Continued from page 5

But will that just spur radio to try and cultivate label dollars directly? It already has, to some extent, with the Cumulus attempt to take its independent promotion deal in-house. And Connone says he's willing to spend more money marketing through radio directly; the label is planning a Madonna campaign that will address her traditional problems in callout research with a series of spots that precedes the release of the single.

The indie debate evolved into the question of whether *Airplay Monitor* should continue to include overnight spins, often the most manipulated part of a station's programming, in its pages. Jive's Joe Riccitelli and Reynolds were in favor of eliminating overnights. Connone said, "I hate overnight spins, but I don't think you should tamper with the accuracy of the data."

Reynolds also brought up the challenge of reaching the next generation of record buyers. He said, "My daughter is 10... She's now going to get her music directly on the Internet. She can choose what song and which artists she wants to hear, when she wants them. She doesn't have to wait to hear them on the radio. So how are we as labels going to reach those consumers? There is an entire generation out there who doesn't care about radio or, in essence, what we do in promotion."

REACHING THE NEXT GENERATION

So how to reach out to the next generation? At his panel, Frank challenged today's radio to look to new media, which is attracting radio's potential audience. "I haven't heard production that has changed much in the last 10 years," Frank said. In contrast, he pointed out that Fox integrated elements from the John Madden football videogame series into its coverage and saw ratings increase.

Bringing new listeners into the tent was also on the minds of PDs at the Feb. 8 mainstream top 40 panel. One particularly vivid reality check came from Clear Channel/Miami regional VP

of programming Rob Roberts, whose teenager, despite a lifelong access to free music, has downloaded more than 800 MP3s—the point being that it's not about CD prices being too expensive but the hobbyist enjoyment of finding and downloading new music.

WBLI Long Island, N.Y., PD J.J. Rice agreed, citing a story he had recently heard from a record exec about their child going to school where everyone was bringing in burned CDs to share. When the exec gave their child a brand-new CD to bring in, the child balked, saying that it's not cool to bring in commercial CDs and that they would be picked on if they did. And WKZL Winston-Salem, N.C., PD Jeff McHugh definitely senses some cynicism from listeners who ask if Eminem is paying the station to play his songs so often.

Even among listeners still amenable to radio, there are increasing problems maintaining a mother/daughter coalition when, in the words of KMXV (Mix 93.3) Kansas City PD Jon Zellner, "Adults think we're for kids, and kids think we're not cool." With WHYI recently joined by R&B/hiphop sister WMIB (the Beat), Roberts notes that the lowest-testing R&B record usually beats Y100's best-testing song. While PDs were often embarrassed by their format's reliance on teen pop, Roberts says the format "got a little dumber" when those records went away.

With a war on the horizon, WAPE Jacksonville, Fla., PD Cat Thomas said his station has had a crisis plan in place since the aftermath of Sept. 11, 2001. Roberts is already running promos on his station telling listeners that should war be declared Y100 will be there to inform them.

McHugh pointed out that news is not a top 40 station's strong suit, and that while top 40 may not be very good at news, "we are good at emotion." He is instructing his airstaff to talk about emotion and encourage those listeners who call in to also discuss how they're feeling during this difficult time.

Logic act La Bouche performs live at the Billboard/Airplay Monitor Radio Seminar's rhythmic top 40 panel.

THE BRINGBACK FILE

RECORDS THAT WORK BUT AREN'T BEING WORKED

Mercy Me, "I Can Only Imagine" (KRBV Dallas)

How did an 18-month-old Christian AC record make its way onto top 40 "Wild 100"? The song had already gotten 1,500 spins on crosstown KLTY, one of the contemporary Christian format's showplaces, but it came to the station when a listener brought it to morning man Fitz's attention as part of a bit. "Off that one spin, it was the day's most-requested song. Off of two spins, it was the week's most-requested song," APD Alex Valentine says. At press

time, the song was getting about 18 spins per week at the station and prompting calls from all ages and demos along the lines of, "I just wanted to thank you for playing that song. That totally sheds new light on your radio station."

"We also get a handful of calls saying, 'You're not a Christian station. Why are you playing it?' "Valentine says. "We tell them, 'Because it's a great song... Just because we're Wild doesn't mean we don't believe in God.' And they'll say, 'Oh, I love you guys.' "

Mercy Me, signed to Christian label iNO Records, has already released its follow-up album. The group is from nearby Greenville, Texas, and has performed live on KRBV. "I didn't hear this firsthand," Valentine says, "but somebody called me and said that KLTY was giving us plugs on-air for having them come into the studio to perform."

AT40 Weighs Online Callout's Worth

While it has become more common in the top 40 world, adult top 40 PDs were still dubious about the value of doing callout-style research on the Internet, judging from the Feb. 7 format discussion at the Bill-board/Airplay Monitor Radio Seminar. KMXB Las Vegas APD/MD Charisse Fruge said her station was getting rid of its Internet research, which drew only P1s who favored rock records over everything else. In the audience, her boss, OM Cat Thomas, noted the wide variance between some of his Internet numbers and subsequent traditional callout results, calling the former "100% false."

KYKY/KEZK St. Louis PD Smokey Rivers also noted that a rival station has done Internet research and "hasn't seen any benefit." Then again, he wasn't very impressed with traditional callout these days, noting that his daughter received a call from a rival station that was so "unprofessional," she began giving deliberately incorrect responses "just because the [caller was] such an idiot."

While being forced to acknowledge the success of Norah Jones was baffling for mainstream top 40 PDs, who had to fit her on the same radio station as Eminem, there had also been issues for adult top 40 PDs and MDs, with several—like WTIC-FM Hartford, Conn., APD/MD Jeanine Jersey—turning it over to the listeners. While she got "70 calls in 30 minutes" in favor of the song, Fruge said her response was "only 50% positive."

ALL BY MYSELF

At the AC format session, panelists discussed the rise of exclusive AC hits, the topic of a recent Spin column in Airplay Monitor. Ken Payne of WMGF Orlando, Fla., said, "Thank God for the AC artists, because it gives us a meaningful difference from our competitors." But WLIF Baltimore's Bill Pasha disagreed, saying he doesn't care about format exclusivity because the audience doesn't care. The audience, he said, only cares about "hit

records being followed by another one.

Consultant Guy Zapoleon suggested country and Christian music as good avenues of potential AC hits. When an audience member asked whether AC is already playing too many country songs, Zapoleon noted that country represents only a small percentage of what's being played on AC radio. And audience member Gary Nolan of WLTE Minneapolis said, "I don't think the audience perceives those as country songs."

WHAT DID YOU GET FOR CHRISTMAS?

The effectiveness of the all-Christmas format was also debated at the session. Pasha, who successfully made his first foray into the all-Christmas format last year, joked that it did so "exceptionally well" that he plans to start it in March this year. But panelists noted that it was not as effective everywhere. Payne said the success of the all-holiday stunt "is dependent on the market." Last year was his third year doing it in Orlando, and while he noted that "we didn't have the [ratings] pop we had the previous two years," it was still effective.

KMXV/KSRC Kansas City PD Jon Zellner suggested "being a little more conservative and mass appeal" after the holiday stunting in order to keep some of the people who came to the station from other formats.

KRACKERBOX PALACE

At the adult top 40 session, WOMX Orlando MD Laura Francis related the story of how artist Uncle Kracker had played at the opening of a local mall, which the station had described to him only as a station event. When the artist found out, Francis said, he told the station, "There's not enough cuss words" to relate how he felt about having played a mall. At the AC session, Reprise's Phil Costello said avoiding that kind of situation "is the record company's responsibility too, to make sure it is not an undesirable venue."

H=Heavy (55+ Detections), M=Medium (25-54), L=Light (Under 25). Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. * Initial impact: songs appearing on this page for the first time in summary form. Airplay Adds are songs with 6 or more detections at new stations this week. The Airplay Leaderboard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER fitles for which they were Airplay Leaders. Refer to each format's Power Playlists page to see this week's Airplay Leaders.

163/7

Medium (1), Light (2)

H=Heavy (55+ Detections), M=Medium (25-54), L=Light (Under 25). Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience.

Initial impact: songs appearing on this page for the first time in summary form. Airplay Adds are songs with 6 or more detections at new staffons this week. The Airplay Leaderboard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER titles for which they were Airplay Leaders. Refer to each format's Power Playlists page to see this week's Airplay Leaders.

(40)		W Þ	GIRL ALL THE BAD GUYS WANT FFROE/SILVERTONE/JIVE BOWLING FOR SOUP of detections. Songs showing an increase in detections over the previous week, regardless of chart	_	238	0.808	1

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs ere acid gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurrents and are removed from the chart after 26 weeks.

ounce it its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart 20 weeks will generally not receive a bullet, even if it registers an Increase in detections. Airpower awarded to songs appearing in the top 20 on both the Audience. Charts for the first time with increase in detections and audience. Greatest Galner awarded to the song with the largest increase in detections and audience. Greatest Galner awarded to the song with a technicase in detections at the most stations for the first time this week. A song with a gain in detections over the preplaced first if the with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being plastations is placed first. Songs below the top 15 become recurrents and are removed from the chart after 26 weeks.

H=Heavy (30+ Detections), M=Medium (15-29), L=Light (Under 15). Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience.

Initial impact: songs appearing on this page for the first time in summary form. Airplay Adds are songs with 6 or more detections at new stations this week. The Airplay Leaderboard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER titles for which they were Airplay Leaders. Refer to each format's Power Playlists page to see this week's Airplay Leaders.

Congo so	akad bu a		detections. Songs showing an increase in detections over the previous week, regardless of chart m		_	711 .	_

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurrents and are removed from the chart after 26 weeks.

ADULT CONTEMPORARY

FOR WEEK ENDING FEBRUARY 9, 2003

AIRPL Monitor. Nielsen

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

WMIX Roston

Airplay Add (AA) denotes songs with 6 or more detections at station for first time this week.

H=Heavy (55+ Detections), M=Medium (25-54), L=Light (Under 25). Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience.
In Itial Impact: songs appearing on this page for the first time in summary form. Airplay Adds are songs with 6 or more detections at new stations this week. The Airplay Leaderboard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER titles for which they were Airplay Leaders. Refer to each format's Power Playlists page to see this week's Airplay Leaders.

Miami's R&B Battle A Microcosm **Of Format's Competition**

Billboard Monitor

RADIO-2003

WPGC Washington, D.C., MD Sarah O'Connor takes

time out from picking up her

station's awards to accept

congrats from voice-over guru and former WPGC PD Dr. Dave Fergueson at the Billboard/Airplay Monitor

Radio Awards reception.

board/ Airplay Monitor Radio Seminar held Feb. 6-8 in Miami Beach, the battle among heritage R&B outlet WEDR, rhythmic top 40 WPOW (Power 96), and newcomer WMIB (the Beat) wasn't just something to listen to between sessions, it was symptomatic of what they're going through in their own markets. That increased competition, between both stations and owners, was addressed during the opening R&B panel, "The Battle for Miami.

As moderator and American Urban Radio Networks VP of entertainment programming Jerry Boulding noted, major corporations now "see the value of the format, not only ratings-wise but increasingly in rev-

enue, making it a much more competitive field in many cities for R&B/hip-hop.

Damon Williams, PD for cable-TV provider Music Choice, stated that in such battles, "the heritage often has the advantage at first but can quickly lose it if the challenger is hipper and more musically focused. They have to stay hungry, and they have to play up their heritage and the value

that has in the community. I heard WEDR run a drop that says, 'Always local, always live,' and that is exactly what I mean."

Sam Weaver, OM of KRNB Dallas, says, "The listeners really don't care if you're heritage or not. They will leave you in a second to check out the new guy. The key is will they come back? Now, they might come back because you are a wellprogrammed station and always have been, but if the new station is just great and it's new, they might stick around.'

Williams also stated that if everyone is playing the same music, and you have all these other choices besides radio to hear music like "satellite or cable or Internet, and you have a competitor, what makes people want to tune in to you instead?'

Mark McCray, PD of WMBX/WJBW West Palm Beach, Fla., adds that when he is with his non-industry girlfriend driving in the car, she's "hitting the buttons on the radio dial whenever a jock talks too much or a song comes on she doesn't know. We as programmers need to understand the way listeners actually listen to us and what's important to them.

Prompted by an attendee's observation that stations weren't just involved in handto-hand combat but also a cluster battle, Weaver asked, "With WMIB signing on, are they really trying to beat WEDR, or are they trying to take it down to position [Clear Channel top 40 sister] WHYI better?

Thomas Lytle, VP of Def Jam, answered with the comment that "if you're Clear Channel and your top 40 station, WHYI,

can get more money per spot than your other formats, of course you want it to do better in the ratings, and you'll do what you have to to make that happen, because it affects your bottom line overall.

WHERE'S THE R&R?

Consolidation was also a concern discussed at the Feb. 8 panel, "Who Took the R&B out of R&B and Hip-Hop?," moderated by J Records VP of promotion Cynthia Johnson. Nate Bell, director of urban program-

ming for Clear Chan-nel/Memphis, says that for him it's a strategy. "I can't play Luther Vandross, because he needs to play on my adult R&B, KIMS; I need to drive listeners there. If I'm playing him on my main-

stream [WHRK], what reason do listeners have to tune in to KJMS?"

Adult R&B WHQT Miami PD Derrick Brown agrees and says most companies now plan it that way. "The entire business strategy at radio has changed. You think in terms of cluster." Sister WBHJ Birmingham, Ala., PD Mickey Johnson adds, "We even have a new term when we talk about pro-

gramming strategy . . 'cluster cooperation.'"

Beyond the fact that radio may relegate certain R&B artists to adult R&B for those reasons, programmers also noted that some artists just don't fit. Johnson said, "There's so much more you can do with a hiphop song or artist, because it fits your image. It's about the cars and the clothes and all that goes along with music that makes your station sound hipper."
Ron "Sugar

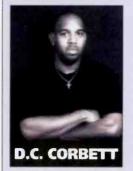

Rear' Williams, PD of WAJZ Albany, N.Y., agrees. "This is a lifestyle, whereas R&B is just a music genre." But Williams adds that he does wish there was better quality R&B to choose from. "Where are the real R&B musicians, the Earth, Wind & Fires of today?"

Ce Ce McClendon, VP

of promotion at Arista Records, argues that labels have fallen short when it comes to R&B. "We need to develop those artists in this genre, then market them better. We have a Toni Braxton album and a Whitney Houston album that are both great, but we can't get mainstream R&B radio to notice. Somewhere along the way, we lost the artist development of R&B acts and lost being able to market them to the next generation, and that's totally our fault.

From the audience, Interscope's Kevin Black suggested that "R&B is in the same place that hip-hop was 10 years ago, so labels need to take that same approach. They need to take R&B to the streets and work it that way, rather than simply trying to get it on radio. That's how we broke rap, and now it dominates.

PASS IT ON...

'Remain humble and hungry, because the same people you see on the way up you see on the way down'

Don Corbett, to his son, WQQK Nashville PD D.C. Corbett

"My father was a very successful Division I basketball coach," Corbett says. "He always said, 'If you treat everybody in the manner that you want to be treated, then the number of problems you'll encounter will be mini-

mal.' These are the words that I live by to this day. And I think I'm doing OK for myself."

3 P.M. FRIDAY: NEW YORK

Songs ranked by number of detections. Songs showing in increase in detections over the previous week, regardless of chart movement. A song will also receive bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for than 20 weeks will generally not receive a builet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Ai and Audience charts for the first time with Increases in both detections and audience. Greatest Garn awarded to the song with the learnest increase in detect. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a galn in detections over the vious week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Heavy (0) Medium (7), Light (76) Airplay Adds: 2 WPWX, WWPR

nce charts for the first time with inons and audience. 🖈 Initial impact: songs appearing on this page for the first time in summary form, Airplay Adds are songs H-Heavy (45+ Detections), M=Medium (25-44), L=Light (Under 25). Airpo with 6 or more detections at new stations this week. The Airplay Leaderboard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER titles for which they were Airplay Leaders. Refer to each format's Power Playists page to see this week's Airplay Leaders.

Be Ya Friend (Approach) Total Stations: 4 Heavy (0) Medium (1), Light (3)

H-Heavy (45+ Detections), M=Medium (25-44), L=Light (Under 25). Airpower awarded to songs appearing on the first time on both the Airplay and Audience charts for the first time with increases in both detections and audience. In this impact songs appearing on this page for the first time in summary form. Airplay Adds are songs with 6 or more detections at new stations this week. The Airplay Lead poard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER titles for which they were Airplay Leaders. Refer to each format's Power Playlists page to see this week's Airplay Leaders.

Mönitor ADULT R8

Compiled from a national sample of data supplied by Nielsen Broadcast Data Systems to Airplay Moni-tor, 41 adult R&B stations are electronically moni-tored 24 hours a day, 7 days a week, © 2003 VNU Business Media, Inc. All rights reserved.

Is Country Secretly In The Middle Of A Boom Period?

Billboard Monitor

RADIO.2003

seminar

Pictured at the Billboard/ Airplay Monitor Radio Seminar are, from left, KZSN Wichita, Kan., MD Dan Holiday, Airplay Monitor director of country charts Wade Jessen, and KZKX Lincoln, Neb., PD Brian Jennings.

Asked if country music could possibly be in the middle of an unrecognized boom right now, attendees at the "Country Community Caucus" session at the Billboard/Airplay Monitor Radio Seminar seemed to universally agree that it is. A spirited, but optimistic discussion marked the session, held Feb. 8 in Miami Beach.

With all the high-profile, late-2002 releases generating so much media attention, KILT Houston APD/MD John Trapane said "it's the same setup" as the early '90s, when country began to take off.

"The stars are lining up again like they did in

'89-'91, leading up to the boom years," WKIS Miami PD Bob Barnett agreed. "There are a lot of young women who can drive the format up again. Are we prepared to take advantage of them because we're so safe and tightened down? We're feeling the

undertow of another revolution just beginning. What are you going to do with it as a station?"

Epic/Monument Records senior VP of promotion Larry Pareigis noted that in those boom years, Garth Brooks "left a huge footprint. Maybe now we're just getting out from under that footprint and looking around and realizing we have all these great artists."

But country programmers and executives first have to recognize the format's assets.

DreamWorks Records national director of promotion Jimmy Harnen summed up the feeling of many when he said, "Country is like a guy who falls off a cruise ship and says, 'Help, throw me a life preserver.' You throw him one and he says, 'No, blue.' "

Trapane said, "Country is our own worst enemy," because it builds stars up, then "beats them down."

WWQM Madison, Wis., PD Mark Grantin said, "We have this mentality that we are a niche, and if anyone tries to get out of the niche, how dare they?"

"You can't play Faith Hill and Shania Twain but you're reaching out for Kid Rock and Bruce Springsteen?" Harnen asked rhetorically. "Why is that?"

ARE WE GROWING AC STARS?

Part of the discussion centered on whether, with so many country records crossing over to AC, the country format is growing the AC and top 40 stars of the future. Grantin said that what the abundance of pop crossovers suggests to him is that pop formats are "searching for hits" and that those hits are "right here" at country.

Jay McCarthy, director of programming for WWYZ Hartford, Conn., and WPKX Springfield, Mass., said the country format has the bankable stars "and not only do we have them, they're global."

But Barnett is "fundamentally opposed" to country acts crossing over to other formats, because when they do, country loses its "exclusive reason for listening" among consumers. He noted that crossover airplay also adds to higher burn scores for country hits.

KUBL Salt Lake City OM Ed Hill said he never has that kind of problem with burn scores. Grantin agreed, saying, "In my market, 'Breathe' and 'Amazed' are not burned out."

Consultant Jaye Albright said, "If we stop playing songs just because they get popular somewhere else, our cume is going to go down . . . If

we get too elitist and refuse to play certain things, we're going to limit our success."

KZKX Lincoln, Neb., PD Brian Jennings said he will take ownership of crossover acts in his market this spring with a billboard campaign patterned after the "Got Milk?" ads that asks, "Got Faith? Got Chicks?"

"We're foolish to think our listeners don't listen to other kinds of music," McCarthy said. Trapane agreed, noting that the station had "one of its best phases when we gave away 75 pairs of 'N Sync tickets.

"When country has succeeded," Trapane added, "it's when we've had a balance of [pop] and traditional."

Country radio consultant Larry Daniels cautioned against going too far in the pop direction. "Country has a unique sound," he said, "and

I honestly feel that if we lose our uniqueness, we won't be as big. I have to ask myself when I hear 'Cry' and [Faith Hill's] latest one, 'Is it country?' A lot of people will say, 'Does it matter?' I think it does. Our format has a unique approach . . . and when a new act comes out that is traditional, it revs us up. We always have our crossover acts from time to time . . . but I have to ask myself, 'Is it too far?' "

"What is too far?" McCarthy replied. "If McDonald's starts making pizza, it's still McDonald's food."

Harnen said, "The scale slides, and I think we have to slide with it."

Trapane said country has become what top 40 once was. "We are the only format that can play a variety of sounds. Every other format is so pigeonholed—active rock, adult top 40, [etc.]."

"Everybody in country is always trying to protect what country was," Harnen said. "That's the death of any artistic [genre]." Harnen decried programmers' ten-

dency to call labels and say, "I want something different, as long as it fits right here."

KTTS Springfield, Mass., OM/PD Brad Hansen said, "I'd be hard pressed to think of any records from the boom years that crossed over. So isn't [crossover] all about money now?"

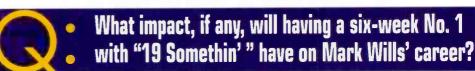

Pareigis said it was but explained that "in the boom years, a No. I record got 75 million to 80 million audience impressions. Now it's 40 million to 42 million, so we're down by half."

AVOIDING COMMON PD ERRORS

Consultants Albright and Mike O'Malley gave a presentation titled "10 Mistakes Even the Best PDs Make." Among the ones they identified are not managing time effectively. O'Malley suggested having systems in place for such events as crisis planning and Christmas music programming so that just a quick turnkey operation is needed to implement the plan when needed.

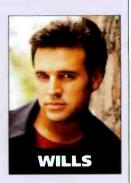

At the country session later in the day, Grantin said he had already written a protocol for the station in the event of war, adding, "I never thought I'd have to write that in my life."

Albright and O'Malley also found that programmers who copy programming from other markets without regionalizing it or understanding why it works in a particular city are making a mistake. Albright said a consultant can "send programming out to 30 markets and the ones that will win are the

Jo-Jo Cerda, PD, KTEX McAllen, Texas: "The affect will be a positive one. Mark has been lingering in the wings for a number of years now, and this may be his time."

Brian Cleary, PD, WWFG Ocean City, Md.: "{This} could be a career-enhancing record for Mark Wills. [But] to move to the next level, it's what comes next that counts ... Mark has to come back with another solid tempo song, not follow up with a ballad ... A ballad could be a hit, but it would send him back to the 'ballad only' corner, making '19 Somethin' '[like] 'Jacob's Ladder'—an exception to the rule. Plus, he needs to get out on the road and become more visible ... I don't perceive Mark as an artist that's out there working it a lot."

Chris O'Kelley, PD, WYYD Roanoke, Va.: "Will having a six-week No. 1 take Mark Wills to a whole new level? I don't think so. 1 do think the label has to bounce back with a very, very strong follow-up, and I think they have it in the new single called 'When I Think of You.' I hope [the six-week No. 1] will make more PDs look at Mark and see that he is and can be a very big part of our format. This isn't the first hit Mark has had and shouldn't be the last. He has been good for the format throughout the mid- to late '90s."

Mike Krinik, PD, WGGY Wilkes-Barre, Pa.: "19 Somethin'" has truly been Mark's signature song, but will it move freight in the stores and tickets at arenas? Only if he has the goods—hit songs—to back it up and puts more into his image. Mark gave us '19 Somethin' '—now give us something even snappier. Songs like 'Don't Laugh at Me' and 'Wish You Were Here' became hits by radio standards, but they don't move a concert audience and excite them."

Doug Montgomery, PD, WBCT Grand Rapids, Mich.: "If the sales accomplishment matches the chart accomplishment for Mark Wills, then he will have it made. It's nice to see one of the truly good guys in the business like Mark have success."

Greg Mozingo, PD, KSD St. Louis: "19 Somethin' " could be a signature song for Mark ... and it certainly helps his career. It gives him added credibility at the radio level and further endears him with the fans. And with each big song comes a bigger expectation. So send us another great one, Mark!"

Dale O'Brian, director of programming, Cumulus/Lexington, Ky.: "I certainly think that it will position him as more than just 'another new guy who got lucky.' It will also give reason to take a serious look at his next single in the first week. Of course, it will also give every record rep that line every programmer loves to hear: 'Hey, he's coming off of [six] weeks at No. 1.' Ah, it never gets old."

Mike Peterson, PD, KSKS Fresno, Calif.: "It will help his career. And the impressive part is that it's not a ballad from Mark! But what's equally as important is the music that's coming next."

Renee Revett, PD, KXKC Lafayette, La.: "Even though Mark Wills has enjoyed previous chart success, this really is his first identifiable hit.... It would be wonderful for Mark to move to a new level. He has worked really hard for a long time, but the move from artist to superstar takes a lot more than a really great hit record. If the rest of it is there, I know radio will be there to support him."

ON THE ROW

Compendia Gives Life To Label

Nashville-based Compendia Music Group has launched Life2 (pronounced "life squared"), a new label with product targeted at 35- to 54-year-old women. Phillip White, VP/GM of Compendia's gospel label, Light Records, adds those duties for Life2. The first project from the label is *Delilah: My Child*, a collection of hand-picked music and commentary from syndicated radio personality **Delilah**. It is due March 4.

Shari Reinschreiber joins All About Country as station liaison and will develop an independent record-promotion arm for the company, which is owned by radio consultant Bill Hennes. Reinschreiber most recently was Northeast regional for Lyric Street Records and pre-

viously worked in promotions at Virgin, Giant, Rising Tide, and Asylum.

Heather McBee has been promoted to director of new media and market research for RCA Label Group. She previously was manager of that department.

Chasity Crouch has joined the Country Radio Broadcasters' (CRB) full-time staff as event support director and assistant to the executive director. Crouch, who initially became involved with the CRB as a volunteer during last year's Country Radio Seminar, has worked part time for the organization since then. She replaces Celeste Irvin, who recently joined the staff of Nashville's Hermitage Hotel.

ones who know how to tailor it to their market." For example, she said, if a programmer wants to copy Bonneville's "the Drive" format, they should "figure out if your [market] is closer to San Francisco or Chicago, because one's working and one's not."

Tailoring the response to potential war to your

individual market was discussed later at the country session, where Grantin said Madison is "a big protest market," so he can't go too far on the air in support of a war. Trapane, on the other hand, said, "I'm in Houston, where people are buying steaks to watch the war on TV."

weeks will generally not receive a bullet, even if tregisters an increase in detections over the format. A song that has been on the chart for more than 2 awarded to the song registering six or more detections and audience. Greatest Gainer awarded to the song with a gain in detections over the previous week, a song with a gain in detections. Along will also receive a bullet, even if tregisters an increase in detections. Along with the largest increase in detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Additions is placed first. Songs below the top 20 become recurrents and are removed from the chart after 20 weeks.

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

Airplay Adda (11) denotes songs with 6 or more detections at station for first time this week.

Want To Stand Apart? Pay Attention To The Audience

Billboard Monitor

Developing new acts and making your station stand apart from its competition were the main topics at the rock block of the Billboard/Airplay Monitor Radio Seminar, held Feb. 6-8 in Miami Beach. Branding was a key subject at both panels, whether it was growing developing acts into core artists during the "Baby Bands Battle for Bullets" panel or finding a clear-cut identity for radio stations during the "Life in Your Own Lane" panel.

During both sessions, the need to pay more attention to the audience was a key topic. Whether it is shows by such developing bands as Midtown or AFI selling out in Austin, Texas, or computer-savvy listeners calling in for songs that they've downloaded, modern KROX Austin

PD Melody Lee said that the audience is super-informed and that the average listener doesn't know or care about an impact date-thev just want to hear music they're pas-

continues to hear from many stations that "The Red" is still working.

And just as what's between the records is often

what makes a station, what a band is willing to do beyond its music is often what makes it a superstar. Modern WPLY (Y100) Philadelphia MD Dan Fein said that bands need more than a song—they need a face. So whether it's performing at one of his station's live Sonic Sessions shows or staying after a show to sign autographs, many of the artists that get larger have worked to make that happen.

It was also brought up that the sound of formats can change quickly and that it doesn't

take long for listeners to move on to other bands. Lee asked if Creed was the new Matchbox Twenty, embraced initially by rock radio but now ceded to adult top 40. "Who would have thought two years ago that System of a Down, Disturbed, and Mudvayne would not only be played during the day," one panelist pondered, "but be huge artists for modern and active."

Valentine said that listeners will judge a band on a curve, and if a band comes out with a sound that's not expected of them, thev'll be given the benefit of the doubt for one song. But if the band "misses the curve" or puts out a follow-up song that isn't great, the listeners will give up on

The subject of overnight spins was also broached during the first rock session, with many in attendance in

support of songs starting out there. While one panelist knew of a station that gave songs 40 spins per week in overnights alone, Lee contended that there's more overnight listeners in some markets than some stations have during the day, and that many of today's core bands got their first airplay in overnights.

FINDING YOUR OWN LANE

Panelists on the "Life in Your Own Lane" panel, moderated by Virgin VP of rock formats Steve Leeds, addressed differentiation between modern and active rock. Troy Hanson, who moved from active rock at WRIF Detroit to modern at WZTA (94.9 Zeta) Miami, said that the main difference between the two formats is image. Upon arriving in Miami, he switched Zeta from an active to a modern. He said that when he got there, the station was using both "New Rock Alternative" and "The Rock Station" as positioners, and that by focusing the station away from WBGG, the classic rock station, he eliminated the black-T-shirt element of his audience.

best way to distinguish a station from its competition is to "stop watching each other and start watching your audience." Focusing on other stations takes away from focusing on your own, he added. And with WAAF and other Boston sta-

In Louisville, An Actual Fall Increase

With rock radio down almost across the board in the fall Arbitron book, Clear Channel active rock WTFX (the Fox) Louisville, Ky., posted one of the format's handful of increases, up 3.8-4.7 12-plus. OM Michael Lee has been programming the station for eight years, through its evolution from "Hootie to Mudvayne." In that time, he says, "the station has evolved to focus more on its strength, 25-34. In our last trend, we were [on] top 18-34 and fifth 25-54. A lot of active stations have had a hard time achieving both 18-34 and 25-54 success."

MONITOR PROFILE

coming in the near future, either. The latest research shows Disturbed and Rage Against the Machine right up there. I know it's dying out around the country, but we're usually about a year behind, anyway. But we actually had success with rap/rock early. What was happening promotionally in

Last fall, it was the consistency and focus and great team effort. But it's [also] weekly and monthly things we continue to do to keep people talking and keep us top of mind. Right now, we've got Fox Gives You a Heart On for Valentine's Day, where girls call in and do their best fake orgasm to win a pocket rocket. Valentine's Day is the Final

'You can't play Doors

it with Chevelle and

Operations Manager

Disturbed'

and Hendrix

and match

WTFX Louisvill≥, Ky. Owner: Clear Channel Ratings: 3.9-4.6-3.8-4.7

1 P.M.

Tantric, "Breakdown" Korn, "Thoughtless" Pearl Jam, "Jeremy" Kid Rock, "I Am the Bullgod" Metallica, "Master of Puppets"
Taproot, "Poem" Nirvana, "Smells Like Teen Spirit" Disturbed, "Prayer" Seether, "Fine Again" Godsmack, "Awake" Staind, "For You"

What type of sharing do you do with classic rock sister WQMF?

When I first took over, and they were competition, we were sharing about 80% of the titles; now we're sharing less than 10%. We've moved the Van Halen, Doors, and Hendrix over there. We've decided that you really can't be all things to all people. You can't play Doors and Hendrix and match it with Chevelle and Disturbed.

How much music is WTFX playing exclusively in Louisville?

About a third of my currents are exclusive. We're exclusively playing Hot Action Cop, Theory of a Deadman, TRUSTCompany, Audioslave, Blindside, and Crazy Town.

It seems as though you're quite aggressive on new music.

We're selectively aggressive. A lot of it has to do with how it's going to fit in with the rest of the station. We want to make sure that it's something the audience is going to embrace. We want to brand everything as Fox Rock. We're aggressive on certain tunes, and if it doesn't fit, we won't play it.

Did WTFX play any of the so-called neogarage bands?

We played a little bit of the Vines, and that's about it. We have a hard time making the pop and punk stuff work here. It really doesn't meet the listeners' expectations

But rap/rock still works at WTFX.

For this market, it's still working really well. The Limp Bizkits and Korns of the world still react. I don't see any decrease Getoff, in which listeners judge who does the best—with the winner getting a Valentine's porno pack. We've got things like that going on all the time. That Heart On promotion will lead into March Madness, and we're in the hot seat of the basketball capital of the world. Then we'll go out of that into the Kentucky Derby. We also are involved with national contesting as well, which, when combined with the local stuff, really helped us secure the higher numbers.

What type of marketing does the station do? None whatsoever. We're very communityinvolved and are at all the lifestyle events. Also, we look at our Internet site as an extension of the brand. At one time it was ranked No. 12 [among] all of Clear Channel's Web sites for page views, which is amazing for the market size. We model the site after Maxim magazine . . . We're not streaming now, but we plan on going back up by the end of February.

Night jock Cousin Deke and middayer Ron Michaels are voice-tracked [from WMMS Cleveland and WXTB Tampa, Fla., respectively]. How do you make that work?

Both of my people that voice-track either lived here or grew up here. Ron, who's from here, knows all the ins and outs of the town, as well as Cousin Deke, who lived here for several years. They also come here several times a year. They really give us a good advantage over competition that bring in local talent from out of town and really don't **BRAM TEITELMAN**

WAAF Boston PD Keith Hastings said that the tions audible in her market, active WGIR Manchester, N.H., PD Valorie Knight says being local is her point of differentiation. Fein said that with two rock stations battling it out in his market (heritage WMMR and active WYSP) over which is more dominant, his station works the "regular" aspect, attempting to be more of a friendly voice that a typical listener would hang out with as opposed to being larger than life.

And regardless of format, radio has more competition than the similarly formatted station in the market it's going up against, modern WOCL Orlando, Fla., PD Alan Smith said. He said that radio's real competition is TV, the Internet, downloading music, and anything that keeps a station's potential audience from listening.

The panel ended with Leeds asking the respective formats who they thought the biggest artists for their stations would be for the rest of the year. Smith said Linkin Park, to the approval of the rest of the panel. Hastings mentioned Mudvayne, while Knight named Godsmack, and Lee went with the Used.

sionate about. Likewise, whether a station reports modern or active, as long as it's playing the music that listeners want.

Zeta's Four: At the Billboard/Airplay Monitor Radio Semi-

nar, three former WZTA (94.9 Zeta) Miami programmers hang with current morning man Paul Castronovo. Pictured, from left, are Gregg Steele, Castronovo, Neal Mirsky, and Archway Broadcasting's Brian Krysz.

The "Baby Bands" panel looked at the proliferation of new acts at rock radio with an eye toward nurturing more of them past that first chart record. Panelists agreed that it's sometimes hard to develop new acts because of the label's priorities and all of the traffic at radio. Modern WJBX Fort Myers, Fla., PD John Rozz stated that in a recent add week there were 16 records going for adds. Lee added that sometimes a label will impact three songs in the same week, stating that one or two are priorities and leaving what could be a promising act lost in the shuffle. But former KQRC (the Rock) Kansas City PD

Neal Mirsky said that a glut of bands gives him more to choose from. "I'd rather choose five songs from 20 going for adds than five songs from 10." Archway Broadcasting's Brian Krysz faulted labels for quick turnover without artist development. "When I started in radio, there were 80 acts that had more than four songs that would be heard on a radio station," he said. "There's maybe 30 now. That's because A&R will sign a band for one song."

But even with those complaints, there are still artist-development success stories. Epic's Cheryl Valentine has worked Chevelle's "The Red" for more than eight months. And now that Epic has

H=Heavy (30+ Detections), M=Medium (15-29), L=Light (Under 15). Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience.

| Initial Impact: songs appearing on this page for the first time in summary form. Airplay Adds are songs with 6 or more detections at new stations this week. The Airplay Leaderboard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER titles for which they were Airplay Leaders. Refer to each format's Power Playlists page to see this week's Airplay Leaders.

Total Stations: 4 Heavy (1) KXR Medium (0), Light (3)

H=Heavy (21+ Detections), M=Medium (14-20), L=Light (Under 14). Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience.

Initial impact: songs appearing on this page for the first time in summary form. Airplay Adds are songs with 6 or more detections at new stations this week. The Airplay Leaderboard ranks taste-maker stations that have been the most successful in identifying future hit songs as measured by the amount of AIRPOWER titles for which they were Alrplay Leaders.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive builet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for mor han 20 weeks will generally not receive a builet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airpla and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the privous week is placed first if fied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the son peing played on more stations is loaked first. Songs below the too 20 become recurrents and are removed from the chart after 26 weeks.

Compiled from a national sample of data supplied by Nielsen Broadcast Data Systems. 108 mainstream rock and 22 triple-a stations are electronically monitored 24 hours a day, 7 days a week. Song-tanked by number of detections. Song-showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its periodage loss in detections of one cuesed the periodage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Sond the song appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song will the largest Increase in detections for the first time this week. A song with a gain in detections over the previous week is placed first if led with a song with a decline over the same period. When filed songs are each gaining detections, the song being played on more stations is placed first.

ROSS ON RADI

BY SEAN ROSS 646-654-4617 · sross@airplaymonitor.com

Radio Hating Is Here: Deal With It

If you attended the panel "Battling Radio's Bad Rap" at the Billboard/Airplay Monitor Radio Seminar, held Feb. 6-8 in Miami Beach, you probably weren't ever bored, as broadcasters and their advocates mixed it up with journalists and others outside the business. But at the end of 75 contentious minutes, no one was much closer to answering some of the questions that two years of bad publicity have brought: Does radio have a real image problem with listeners? Is dissatisfaction with post-consolidation radio an exploitable commodity? How can broadcasters heal their relationship with the press? Instead, the panel ended in a familiar gridlock—broadcasters insisting that radio doesn't have a problem and critics asking, "Well, how do you knowyou can't be more adventurous?," apparently unaware that radio's bone yard is littered with stations that were

So how do we move forward? First, with the acknowledgement that some of the stock answers to the criticisms of the past 18 months haven't served broadcasters very well. Even in the industry, few people buy the statement "We wouldn't accept independent promotion money if the labels weren't throwing it at us." And most daily newspaper writers know that indie deals and other forms of consideration-for-airplay meet the letter of the payola laws, but few regard it as being within the spirit of the rules. And "Well, what about newspapers?" is never likely to make friends or influence anyone

By now, broadcasters should realize that with the Internet, journalists are seeing each other's stories on post-consolidated radio, and many of them are taking their cues from a small handful of sources. If every Clear Channel PD in America answers questions about national contesting or voice-tracking by citing Powerball and McDonald's, well, that just proves the point, doesn't it? Same goes for repeatedly using WBEB (B101) Philadelphia owner Jerry Lee as proof that entrepreneur owners aren't gone, which only makes it seem as though broadcasters are having a hard time coming up with a second example.

In fact, the only stock answer that most reporters can't effectively rebut is, "I wouldn't jeopardize my ratings to play bad records because of indie promotion/concert dates/ etc." With an initial perception that radio is, indeed, super-conservative, most of them aren't aware of just how many contemporary stations are much more aggressive than they used to be, and lower-rated as well.

Radio needs some new answers. And it needs to recognize the need to represent, since unflattering stories in major dailies and trade publications are ending up on the desk of legislative assistants. It might also not be a bad idea to assume, if only for the sake of argument, that radio's declining listenership is an issue that needs to be addressed with listeners, not rationalized away. If listeners told a focus group moderator that your morning man was too talky and not funny, you probably wouldn't bound into the room and go, "Yeah, well, what about your Aunt Sheila?" You would more likely go back and address the issue with your on-air product, even if you didn't personally share their perception. Broadcasters will fight each other for the best visibility in front of a 500-seat club; what if the same effort was going into reclaiming a listener from PlayStation 2 or an iPod?

So what's the strategy for improving radio's bad

rap? It begins, as Entercom VP of programming Pat Paxton noted, with taking the reporter's phone call. Anyone who's determined to use your radio station as a straw man can do so with or without your participation. But by granting access, you're also getting access for your side of the story. Honesty wouldn't be a bad idea, either, Anyone who tried to convince the local paper that their new, itinerant morning man was really an unemployed day laborer who decided to sit on a billboard deserves to have their charity fundraiser attributed only to "a local radio station."

There's also something to be said for making the first phone call yourself. KKDA-FM (K104) Dallas famously confounded the industry a decade or so ago when it made the announcement that it was losing Tom Joyner's syndicated show to the competition. But K104's decision to position itself as the local station and pre-empt its rival's announcement helped guarantee its future dominance.

Broadcasters don't get credit for the innovative stations that exist, even within major groups. WSNI Philadelphia, WPYM Miami, WWPR New York, KPLX Dallas, and WDRV Chicago are already available on the Internet, Local GMs should be publicizing them both to tell radio's larger story and to offer them as a safety valve with a listener who can't find enough choice locally. KROQ Los Angeles, country gold KKNG Oklahoma City, "deep cuts" classic rocker KQMT (the Mountain) Denver, and WHUR Washington, D.C., aren't on the Internet. And if their owners won't pay to put them there, the National Assn. of Broadcasters should, as a way to best demonstrate radio's diversity.

Broadcasters have minimized the public's acceptance, thus far, of satellite radio. Perhaps they should embrace it as their safety valve. In the same way the Web site or the van are used for all the bad sponsor prizes, GMs should point out that major groups like Clear Channel and Radio One with an interest in satellite radio are proud to help offer listeners 200 more choices. Then they can point out that most listeners still prefer free local radio, and that even on satellite, the No. 1 choice is still top 40, not world music.

The record industry has learned to use viral marketing to spread the word about music. Radio could use the teens who are still enthralled with radio to reach those in the next generation of potential listeners who aren't. And even those teenagers who find their music on the Web can be co-opted. For the past 18 months, I've believed that any "make it or break it" feature should be converted to a feature where a listener introduces the great new MP3 that they've found themselves. If the song resonates with other listeners, radio has publicly acknowledged its audience's thirst for new music. If it doesn't, it just shows that the music you're not playing isn't on the air for a reason.

It's natural for broadcasters to want to protect the medium from outside criticism, even at a time when many are conflicted about the state of radio themselves. It's not unlike scuffling with your kid brother but protecting him from bullies. It's hard to accept that journalists, musicologists, or any other outsiders might have a point about radio at this stage. But even those who aren't willing to listen to outsiders are still likely to come to a conclusion that something has to be done if they listen to their own inner voice.
