Change A Hot Topic At CRS

■ by Deborah Evans Price and Phyllis Stark

Corporate downsizing, illegal downloading, changing business models, the Dixie Chicks controversy and slow charts were just a few of the topics discussed during the "Record Label Heads on the Hot Seat" session during Country Radio Seminar, held March 3-5 in Nashville.

The label heads session was moderated by Charlie Cook of Westwood One with panelists Joe Galante of RCA Label Group, Luke Lewis of Universal Music Group Nashville and John Grady of Sony Music Nashville.

Cook began the session by mentioning the 1,000 layoffs that had just taken place at Warner Bros. and asking panelists for their reactions.

Galante responded, "In the last three years, business has gone down some 20% . . . You have to continually adjust for that. I

ally adjust for that. I think that's what we'll continue to see for a while until we get the model back in shape. The costs in this business ratchet up every year. As you try to hold it down and substitute different ideas, you're still seeing a creep up in cost. If the revenue is not increasing but actually decreasing, there's going to be a problem."

Lewis said, "Everybody says we should be adjust-Continued on page 32

Modern rock is sporting many new faces these days

At Modern Rock

A number of breaking bands—Jet, Switchfoot, the Darkness, Three Days Grace, Lostprophets and Story of the Year—are enjoying their first blushes of success at the format.

Modern's embrace of burgeoning acts is not new, says Oedipus, PD of WBCN Boston, citing breakthroughs by such bands as Evanescence, AFI and Interpol at his station last year.

However, other PDs believe this current crop is larger than normal, in part because of modern rock's identity crisis.

"Modern rock is searching for the next fashion so we can have a renaissance of the format," WNNX (99X) Atlanta PD Chris Williams says. "We need something the kids want to dress like and have represent them. We're searching for the band that's raising its hand."

All six bands have registered hits on the modern rock chart. Three Days Grace's "(I Hate)

Senate Tightens Screws On Indecency

The Senate Commerce Committee has approved tougher legislation to deal with violations of federal indecency rules on TV and radio, increasing the maximum fine to \$500,000 per incident. A third violation would result in a license revocation hearing under the new legislation.

The current maximum fine is \$27,500 per incident. The FCC would have discretion to tailor the fine to the incident and size of the station or company. Another amendment OK'd in the bill would allow the FCC to fine performers, including radio DJs, up to \$500,000 for indecent remarks if "willful intent" can be shown. Current rules allow the FCC to first warn a performer, then employ a fine of \$11,000.

The new bill would also require that the FCC deal with indecency complaints within 180 days. Meanwhile, Clear Channel has paid a record \$755,000 fine to the FCC, \$715,000 of which was for indecent material aired on **Bubba the Love Sponge's** show, which aired on **WXTB** (98)

Rock) Tampa, Fla., and several other Clear Channel stations. Clem was fired by the company last month.

"We fully accept our responsibility for airing inappropriate content, and our company will accept the consequences," Clear Channel Radio president/CEO John Hogan said in a statement.

"Our company simply does not want to be associated with indecency," Hogan said. "We know we can deliver great radio without compromising our integrity as broadcasters."

Meanwhile, Howard Stern has predicted that his syndicated show will be coming to an end due to the FCC's crackdown on indecency. On his March 5 show, Stern stated that fines were going to be handed down against his show for material broadcast in 2001. "This show is over," he said repeatedly. He claimed that the religious right, along with his vocal opposition to President Bush, were the reasons he was in the FCC's crosshairs. When he took to the air March 8, the fines still had not been handed down. Citing sources within the FCC, Stern said that FCC chairman Michael Powell realized that the commission might be turning Stern into a martyr and that it would wait to levy fines against him so as to not disrupt the election.

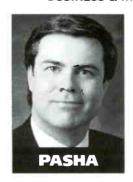

In related news, The Los Angeles Times reports that triple-A KCRW Santa Monica, Calif., jock Sandra Tsing Loh was fired from the station following a taped monologue that aired twice. In the segment that got her fired, she spoke about her husband performing onstage with Bette Midler, saying, "I guess I have to fuck him." She says she had been told the offending word would be bleeped out, but it wasn't. GM Ruth Seymour says that the

fact that it was taped made the incident "more egregious."

Also possibly on the FCC's radar is active rock KRXQ (98 Rock) Sacramento, Calif., morning team Rob, Arnie & Dawn. According to The Sacramento Bee, a late-2002 complaint filed by a listener has been answered by an assistant chief at the FCC saying that the commission "should be resolving the case in the near future."

While the FCC has taken a hardline stance on indecency, and there have been 530,885 complaints this year so far, only 57 of those were not related to the Super Bowl's halftime show.

WXKS' Kiss Concert Celebrates 25 Years

"Kid" David Corey remembers the Kiss Concert where Elton John went knocking on 'N Sync's dressing room door: "He was acting like a little kid around them; they were his favorite group, and he was so excited. And the guys from 'N Sync [couldn't] believe he was standing there."

Pop royalty rubbing shoulders is the name of the game at the annual WXKS (Kiss 108) Boston extravaganza, which celebrates its 25th

anniversary this year. Since 1979, nearly 400 acts have taken to the stage to participate in what has become the grand dame of top 40 radio station concerts—in total, performing in front of some 360,000 listeners.

"In Boston, the Kiss Concert signifies the kickoff of summer," says Corey, Kiss 108's MD. "Tickets usually sell out before we've announced a single artist in the lineup. People know what to expect, seeing 20 to 25 of the biggest artists on the radio, all in one place."

This year's Kiss concert will take place May 22 at the Tweeter Center in Mansfield, Mass.; venue capacity is 20,000. The lineup for the noon to 11 p.m. affair has not yet been announced, but already pavilion seats in the \$125-\$200 range are nearly sold out. Lawn seats cost between \$65 and \$75.

The Kiss Concert is renowned as the first major-market multi-artist station gala, originally launching as a birthday party for the outlet. It was first held at the Metro in Boston but quickly outgrew the nightclub and moved to the Boston Garden (now FleetCenter). In 1989, it segued to Great Woods (now the Tweeter Center) to enable the event to last throughout the day and evening, with its mammoth bill of up to two dozen artists.

Kiss 108 GM/regional VP Jake Karger notes that "in an age of branding, Kiss Concert is a true brand... Kiss Concert sells out 19,000 seats every year, in advance of a lineup announcement. Close your eyes and picture 19,000 people saying, '1 believe that Kiss will come through for me with a great show, and here's my money.' I can't think of a better bond between a station and audience than buying a ticket on faith and trust. Whether it's Olivia Newton-John surprising the audience in a 'Grease' spoof or Elton John performing in his only radio show ever, we feel that the Kiss Concert is one of a kind."

Of course, the Kiss Concert does more than stir good will and promote a good tan for listeners. For the station, the legendary show is also a ratings-grabber.

"It's our major spring promotion—in fact, our biggest event of the year—and a great ratings and revenue generator," says Corey, who started at Kiss 108 in 1984 as an intern, around the time of Kiss Concert 6. "Historically, we do well in the spring ratings book because after the show sells out, the only way to get tickets is to listen to Kiss and win them." About 2,000 of the 20,000 total tickets are awarded to listeners.

In addition, since 1986, the concert has raised money for the nonprofit Genesis Fund, totaling more than \$1 million to provide services to children with birth defects. The station also supports the Jeffrey Osborne/Kiss 108 clinic, established in 1989 as part of the Genesis Fund. The clinic cares for children who have serious hearing loss or communications disorders. In addition, funds help maintain the Therapy and the Performing

Arts music and dance programs.

Ironically, the station is making less of a big deal about the concert's hallowed 25-year heritage than *Airplay Monitor* is, since it's not nec-

essarily good for a top 40's image to be considered an old-timer. Although the anniversary is noted in the show's logo, Corey says, "We're not talking about the 25-year mark a lot on the air, because we don't want to sound that old. We're really being careful about balancing how much is too much."

He stresses that, as usual, the 2004 lineup will focus on the here and now: no disco divas or '80s dinosaurs as a nod to the anniversary. "We're concentrating on the current. If we invite any long-time artists, they still have to be relevant today."

Like John and 'N Sync, Corey adds that many of the acts are meeting and seeing each other live for the first time.

"The show has become such a big deal that a lot of the artists will hang out all day so that they can see some of their favorite artists perform," he says. "Everyone has the time of their lives."

A song will also receive : utilet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the formart. A song that has been on the charf for mon han 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplan of Audience charfs for the first time with increases in both detections and audience. Greatest Garne awarded to the song with the largest increase in detections fost Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Adulence charts for the first time with increases in both detections and audience. Greatest Gariner awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurrents and are removed from the chart act of weeks.

Artist-Turned-DJ Tony Touch Juggles His Airshift With Making Music

During the past few years, the line between artist and radio personality has been blurred. WWPR (Power 105) New York's Tony Touch is the latest to join the ranks of the latter. The DJ/producer-turned-jock recently returned to his artist roots with "The Piecemaker 2" (Koch).

"I felt there was always an element that was missing as far as my DJ career," Touch says. "I've traveled the world. I've been a tour DJ for a lot of the hip-hop groups. I've done club dates, mix tapes, etc. I've even had plenty of special-guest appearances on all the stations in New York, but I never really took on a full-time

[radio] situation. That was the missing element for me.

His relationship with WWPR developed through fellow mixer DJ Cut.

"Power 105 opened up, and DJ Cut was brought out here to recruit some DJs," Touch says. "We developed a relationship early on when the station first [launched]; the vibes were good, so he made it happen."

Touch was made a weekend personality on the station. However, he wasn't quite ready

to give up his day job. According to Touch, "The Piecemaker 2" was almost finished when he joined the station. So, he had to find a way to balance the two careers.

"It pretty much works hand in hand," Touch says of his dual roles. "I was able to balance it out and not let one conflict with the other. Now that I'm on the promo tour, I have [station management's] full support. They're pretty much letting me do what I need to do to make this album crazy. They see the vision as far as building the name up, because they know it looks good on them if I do well with this album."

WWPR PD Michael Saunders agrees. "We look at it as an opportunity for us to get more exposure," he says. "Obviously, the more he does well and the more albums he sells, the more our name is out there, because he's part of our family. We want to encourage our DJs

to get out there and do those kinds of things." Touch isn't the only artist to grace the airwaves of WWPR as an on-air personality. Veteran rap artists Chubb Rock and Monie Love have been with the station since its launch in 2002.

"My goal is to go after the most talented Saunders says. "With somebody like Chubb Rock, he was basically like clay. He is very talented-all we did was mold him for radio. He has a dynamic voice, presence and delivery . . . Now he has a totally different career that is blossoming. He's at the floor of the pinnacle of his success. He just has so much growth potential.

"With Monie Love, you had someone who was doing radio before we got here, but she was also a celebrity in her own right here in New York," he adds. "We're pleased to have them. To have someone who already came to us with a name like Chubb Rock, Tony Touch, Monie Love, Ed Lover and so many othersit's unbelievable. People almost identify with them immediately, because they can put a face

PUTTING THE 'PIECE' TOGETHER

That familiarity, along with instant access to its target audience, is what may help make "The Piecemaker 2" a success.

Like Touch's previous release, "The Piecemaker" (Tommy Boy), "The Piecemaker 2" features a host of hip-hop A-listers, including P. Diddy, Method Man, Redman, Fat Joe, Slick Rick and dead prez, among others.

For Touch, crafting this album was a return

"I stuck to the same formula as the first album," he says. "That formula comes from my mix-tape days, in particular when I did the '50 MCs' mix tape. I recruited a whole bunch of artists to come down and freestyle.

> I did it three different times with three different tapes with different artists. As a result of that, I was able to develop relationships with a lot of the hottest names in the game. With the success of a lot of DJ albums that came out before me, it opened up the doors for me to secure a deal, and I reached out to the guys that I had relationships with.

Released in association with his Touch Entertainment,

"The Piecemaker 2" also offered the artist more freedom.

"The situation is a little different now," he says. "This is more of a distribution/licensing deal [with Koch]. So, it's on me, too, to make things happen with Touch Entertainment. It gives me an opportunity to really grind and build that up to where it needs to be. Koch has provided an outlet [and] a great distribution opportunity."

While he is the only artist signed to Touch Entertainment, Touch is looking to develop new artists. The next project will likely be the Diaz Brothers—a collaboration between Touch and fellow DJ Doo-Wop.

In the meantime, Touch has used his experience at WWPR and as a DJ to help push his lead sin-

gle, "Ay Ay Ay" featuring Sean Paul. "We put the album out there early," Touch says. "We serv-

iced the majority of the album to all the DJs. That was the song that people jumped on right away. It was working in the clubs as well.

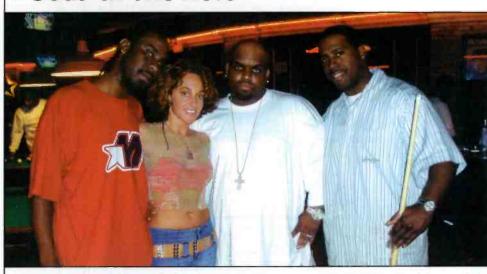

'We just moved forward and let people play what they wanted to play off of the sampler," he adds. "There are a few other stations playing different songs. The Spanish reggae song ["Como Suena"] is getting a lot of spins in certain markets, as is the Wu-Tang record ["Rock Steady"], the Def Squad record ["How You Want It"] and the Bad Boy record ["Non-Stop"]. It has basically been a mix-show thing.

While Touch is an employee of WWPR, Saunders ensured that he wasn't shown any favoritism when it came to his records being played on the station.

"It's real simple—it has to be good," Saunders says of his airplay criteria. "If he put out something that's bad, I would have to tell him, 'That's not satisfactory.' He has to compete with the Jay-Zs, the 50 Cents, the Sean Pauls, the Missy Elliotts and the Beyoncés, so he does not get a free ride or a free pass because he works here. He has to put out great music, because we have to put it on

"He was fortunate to put out a record that sounds so good, not to mention that you have

'Soul' In The Hole

Arista artist Cee-Lo brought his A-game to Houston and KBXX (the Box) for a retail and radio meet-and-greet at a local pool hall. The event was in support of his sophomore set, "Cee-Lo Green ... Is the Soul Machine." Pictured, from left, are programming assistant K.J., Arista street team rep Paris, Cee-Lo and promotions assistant C Rock.

Locked And Loaded

Roc-a-Fella/Def Jam act Young Gunz stopped by WQHT (Hot 97) New York to promote their debut album, "Tough Love," and new single "Friday Night." Pictured, from left, are Young Gunz's Young Neef, Hot 97's Sway, the duo's Young Chris and the station's Rich Nice.

a major artist on there like Sean Paul," Saunders continues. "And Tony is a tremendous artist in his own right. I have to give him credit

TOUCHED BY RADIO

Touch's experiences at WWPR have also opened up a world of opportunities available to him in radio.

"I would like to develop it and grow," Touch says of his radio career. "Hopefully, one day I can turn it into a syndicated situation—take it more national.

"Right now, I'm also working at the new Clear Channel station in Hartford, Conn., [WPHH], where I'm DJ'ing and hosting on the weekends," he adds. "That's another thing that has opened me up to wanting to get into

With acts like Angie Martinez, Lil Jon, Big

Tigger, Steph Lova and Ludacris all blurring the lines between artist and on-air personality, this seems to be a trend that will remain prominent in radio.

"There is a parallel that runs between radio and records," Saunders says. "We are so closely tied to one another that it's easy to be motivated to want to make a record.

"The jocks here are always watching videos," he adds. "They interact with artists firsthand on the air, obviously, but also off the air. When they hear the stories of how they made it in the music business-from no one knowing them and now they're enormousa jock will look at that and say, 'Well, I've already got some local notoriety in the particular market I'm in. All I have to do is take it to the next level.' And I think artists serve as inspiration for a lot of the jocks that are interested in getting into that

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive abullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for mor than 20 weeks will generally not receive a bullet, even if it registers an increase in detections, Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. When the previous week is placed first if tied with a song with a decline over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Change A Hot Topic At CRS

Continued from page 1

ing our model. [But] we've been adjusting it."

Grady said that prior to his arrival last May, Sony "had gone through some equally horrific changes . . . right before I took this job, so I'm still taking my model out of the box."

Asked how much deeper the major-label cuts can go in Nashville, Lewis said, "We've all got several imprints and promotion staffs. We could lose those the same way the town has lost major and minor labels the last few years."

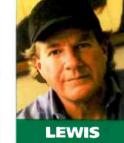

Galante noted, "We have a little disadvantage in this format. In the rest of the world, you can go to several formats at the same time and pop something real quick. We don't have that luxury, so it's a much longer growth curve."

Grady added, "Your batting average has to be a lot higher. We've all been at pop labels that put out 75 to 100 records a year. We can't do that here. We can't develop them that fast. I've been encouraged to be extremely aggressive in the creative [area]."

Dealing with bottom lines and the demands of their corporate bosses was a thread of discussion that prompted candid responses about how corporate expectations mesh with the realities of the country format.

"This is a lousy business in terms of return," Galante said of the record industry. "It's a cash flow business, but it's not really a great return

business, unless you're able to build the assets over a course of time. You have to have a longerterm view of it. I think all of us have worked for executives that had a much longerterm view, and now we have a series of managers coming in that don't understand what it is to make a

record. They honestly don't. They think it shows up on a release schedule and you put it out... There are a whole lot of issues, [because these] people are not record people."

Lewis added, "Another thing we're up against with the powers that be is that they look at Nashville from afar. They're hunting for quarterly results. They think maybe we'll get lucky and catch a Billy Ray Cyrus or Shania Twain, one of these quick hitters [like] the Dixie Chicks, that happens very quickly. [They've been] watching it the past couple of years, and that isn't happening."

DAMAGE FROM DOWNLOADING

The label heads also discussed the damage done to the industry by illegal downloading.

In hindsight, Galante felt the industry "should have embraced Napster... We should have figured a way to work with it, because they had a brand."

Grady agreed. "We should have been involved in developing it instead of being at war with it."

Lewis illustrated just how damaging downloading can be by pointing out that although Shania Twain's current album has sold approximately 5 million copies, "the record came out 14 months ago. There have been over 110 million downloads. Do the math. That's devastating."

During his keynote Q&A session, Clint Black called illegal downloading "dangerous" and noted that it is making the industry "afraid to make challenging music," for fear it won't sell millions. "I've been trying to get the message out to fans that if you love an artist, buy their CD, because the quickest way to make that artist go

away is to steal their music."

CHICKS CHAT

Last year's Dixie Chicks controversy also was discussed by the label heads.

Lewis called the backlash against the Chicks "oppressive." And despite not being directly involved, he called it "the scariest moment I've had in my career . . . People have finally gotten up the nerve to say out loud they're not happy with this war, but the fact that somebody was whacked for saying that is crazy."

"I never really thought the punishment befitted the crime," Grady said of the Chicks contro-

versy, most of which predated his time at Sony. "I didn't get it."

But Grady felt that something positive came out of the situation. "This community has become much more politically active," he said. "I ran into Luke right after that happened at a political gath-

ering that neither one of us would have been at—I don't think—if it hadn't finally rung our bell that if you're not willing to be active then you have to put up with what's done to you."

SLOW AND STEADY DOESN'T WIN

All of the panelists bemoaned that the charts are too slow, a perennial topic that was also a concern

during a panel titled "The Music Business Model: The Links in the Business Chain," among others.

When Cook asked the label heads to fill in the blank: "The majority of country PDs are . . . ," Lewis said "overworked" and Galante replied "Numb because of all the things they have com-

ing at them . . . I find them overwhelmed."

GRADY

Most record executives would like to see programmers take more chances with new music, and Lewis called on nonmonitored stations to step out and start new records. "If you're not a reporter," he said, "you can play whatever you want, and nobody will yell at you."

Galante said the industry concentrates too much on No. 1 records when scans are more important.

Lewis said, "We don't want records on the radio that don't sell. Publishers do, but for us, get it off the radio if it's not selling. It's taking up space." But at the "Music Business Model" session, Clear Channel regional VP of programming Gregg Swedberg complained that label promotion execs still beat up programmers to continue playing records that have proved themselves to be stiffs.

After hearing complaints about radio research, KMPS/KYCW Seattle PD Becky Brenner said at the "Music Business Model" session that "it frustrates me when people say research is the problem. Research is not the problem, it's the people who use it if they don't use it right." Brenner also noted that "research doesn't help you pick new music."

DreamWorks senior executive for promotion and artist development Scott Borchetta said that "upwardly mobile, affluent people don't want to hear the same songs over and over." Clear Channel's Alan Sledge disagreed, telling Borchetta "that is fundamentally wrong."

At the label heads panel, radio consultant Jaye Albright pointed out the rising number of country independent labels. Grady acknowledged one

ON THE ROW

Compadre Records Signs Three Artists

Houston-based Compadre Records has signed Lari White, Kate Campbell and Julie Lee to its artist roster. White previously recorded for RCA and Lyric Street Records and most recently ran her own Skinny White Girl Records label in Nashville. Her new album, "Green Eyed Soul," is due June 1.

Campbell previously recorded for Eminent and Compass Records. In August, Compadre will release two newly recorded Campbell albums and will also reissue her 1995 Compass debut, "Songs From the Levee." Newcomer Lee is a Nashville-based roots artist. Her Compadre debut, "Stillhouse Road," is due in July and features guest artists Alison Krauss and Vince Gill.

Also at Compadre, Logan Rogers is promoted to VP/director of A&R. Jenni Finlay joins as manager of label promotion. She previously worked for Virgin Records and Major Bob Music, both in Nashville. Shanna Sturgeon joins as label coordinator. She previously worked at Universal South and Tanya Tucker's Tuckertime Records.

In other news, Santa Monica, Calif.-based Americana label New West Records has signed **Dwight Yoakam**. The label debut by the country singer, whose most recent album "Population: Me" was issued by Audium last year, is expected in 2005.

Mercury Records in Nashville has cut Mark Wills and Anthony Smith from its artist roster. Wills has recorded six albums for the label since 1997, including a greatest-hits package in 2002. He has one platinum- and one gold-certified album to his credit and has landed eight top 10 singles on the country airplay chart, including

the No. 1 hits "Wish You Were Here" and "19 Somethin'." Smith recorded one album for the label, "If That Ain't Country," which peaked at No. 26 on Billboard's Top Country Albums chart in 2002.

Rebecca Lynn Howard, who recently was cut from the MCA Nashville artist roster, has been signed to Arista Nashville.

Lyric Street Records has parted ways with artist Sonya Isaacs after failing to break her at country radio.

Warner Bros. has signed West Texas native Lane Turner to its artist roster. First single "Always Wanting More (Breathless)" has already gone to radio. His debut album, "Right on Time," is due in June and was produced by Scot Sherrod. Turner is managed by Bob Doyle and Associates, published by Major Bob Music and booked by Monterey Peninsula Artists.

Little Big Town and Kevin Fowler join the Equity Records roster, which also includes previously announced acts Clint Black, Shannon Lawson and Carolina Rain.

In addition to previously announced artists Chely Wright and Angela Wolff, the artist roster for start-up label Vivaton Records will include Curtis Lance, Kimolin "Cissy" Crutcher and the group Tonic Sol Fa.

Trace Adkins is the voice for Kentucky Fried Chicken's new national TV-ad campaign. Adkins' voice will be featured in commercials throughout North America. He beat out more than 500 candidates who auditioned to be the voice of KFC.

Mercury artist Julie Roberts has signed with BMI and EMI Music Publishing.

of the up sides to being an indie is that "they can sell 200,000 and make money," and they can use more grassroots tactics.

Galante said it will be interesting to see where those labels will be three years from now. He acknowledged that indie labels have

produced hit singles but asked, "Where's the follow up?"

CONVENTION CAPSULES

• KZLA Los Angeles OM R.J. Curtis was elected president of the Country Radio Broadcasters' board of directors succeeding Cook. Bill Mayne of Mayne Entertainment was re-elected VP of the board, and Jeff Walker of AristoMedia and Marco Promotions was re-elected treasurer. Gary Krantz of Premiere Radio Networks was elected secretary of the board succeeding Curtis.

Shelia Shipley Biddy of Vivaton Records was elected as a board member. Re-elected to the board were Brenner, Dale Carter of KFKF Kansas City, Mike Dungan of Capitol Records, Susquehanna's Dan Halyburton and WKDF Nashville's Kim Leslie.

Kevin Mason of WQMX Akron, Ohio, was reelected agenda committee chairman for CRS 36. Mike Culotta of WQYK/WYUU Tampa, Fla., was named vice chairman succeeding Jimmy Harnen of Refugee Management International.

 Brad Paisley was the surprise recipient this year of the CRB's annual artist humanitarian award. In his acceptance speech, Paisley dedicated his award to country radio and said, "The greatest teacher I've ever had in terms of [how

to do] charity [work] is country radio."

• KZIA Los Angeles won the radio humanitarian award in the large-market category. WQMX Akron was the medium-market winner, and KGEE Midland, Texas, won in the small-market category.

• During his keynote, Black played two TV spots for his new album, "Spend My Time." The ads featured comedian Kevin Nealon playing a store clerk and noting to a customer that Black's new album "makes you realize how crappy the old stuff was." After playing the spots,

Black extended his apologies to Galante, "who has the catalog on the old crap."

• CRS drew 1,913 full registrants, down from 2,110 last year. An additional 920 people participated in related events this year including the Country DJ Hall of Fame dinner and the Town Hall meeting.

Coming in next week's issue, coverage of the "How Far Is Too Far" indecency panel at CRS.

Epic newcomer Gretchen Wilson, left, emerged from Country Radio Seminar in Nashville as one of the event's most talked about artists. She's pictured here in the Sony suite with KMPS/KYCW Seattle PD Becky Brenner and Sony VP of radio promotion Bill Macky.

New Bands Click At Modern Rock

Everything About You" hit No. 2. Jet flew to No. 3 with "Are You Gonna Be My Girl," and followup "Cold Hard Bitch" is No. 18 this issue. Switchfoot reached No. 5 with "Meant to Live."

Lostprophets' "Last Train Home" and the Darkness' "I Believe in a Thing Called Love" are still moving upward, while Story of the Year's "Until the Day I Die" is a solid top 15 hit. Lostprophets briefly appeared on the chart in 2002 when it peaked at No. 33 with "Shinobi Vs. Dragon Ninja.'

The question is, Are modern rock stations open to these acts or just open to these songs?" radio consultant Jeff Pollack asks. "Each of them delivered a really good song. The question is, What will their second and third songs do? Are these real acts? Only time will tell.

The acts are also receiving airplay on either MTV or MTV2. Lostprophets will be one of the featured bands on MTV's Campus Invasion '04 tour.

FILLING THE VOID

Following the rap/rock days of Limp Bizkit and the garage band movement of the Hives, the Vines and the Strokes—which never really took off at modern rock—the format finds itself looking for the next big thing.

Williams says, "We're stuck between cycles."

Bill Gamble, PD at WZZN (Zone) Chicago, adds that tweaks within the format are paving the way for the new bands. "It's becoming harder and harder for bands like Coldplay and Metallica to exist on the same stations," he says, "and that opens up room on both sides."

Indeed, none of these bands falls into an easily identifiable category. Three Days Grace's "(I Hate) Everything About You" blends Vertical Horizon's modern pop with explosive choruses. Melbourne, Australia's Jet's guitar-driven rock wears its Rolling Stones and AC/DC influences on every chord. Switchfoot's mellower music blends strong melodies with lyrical content about the search

for meaning. Story of the Year is in the pop/ punk vein of Good Charlotte. The Darkness provides over-the-top glam rock redolent of Queen, while Welsh act Lostprophets is in the style of Linkin Park

And the bands' reasons for making music are just as diverse.

For Jon Foreman, lead singer of San Diegobased Switchfoot, it's about the message.

The whole record is about yearning for something more than cell phones and modern conveniences," he says. "Making music that hits on a spiritual and emotional level was our goal, rather

than just [music] to tap your foot to."

Conversely, for Nic Cester of Jet, it's all about a few chords and bringing back the days of real rock'n'roll. "Things are just so plastic these days," he says. "We just wanted to remind people that it's four guys who play their instruments and write their own songs. It's not something packaged together by some dickhead in

As Williams sums it up: "The only thing these bands have in common is that they are all different and that the format is diverse, which allows them to have a place at radio."

ROADWORK

While radio was chasing the next trend, many of these acts were quietly playing show after show and developing their fan bases.

Williams continues: "Now there's a vacuum of music, and we're going, 'Cool,' because we're finding there was already word-of-mouth on Switchfoot in Atlanta. People are going, 'Holy cow. We can't believe 99X is playing them.'

Most of these bands are on their first or second full-length album; however, Switchfoot has released two albums on Christian imprint re:think and one album on Sparrow. Its current album, "The Beautiful Letdown," was issued on Sparrow and Columbia.

And the band's fans were willing to follow the group to the mainstream, in part because the band

didn't veer dramatically from its past sound. "We made the record before Columbia ever stepped on board," Foreman says. "The goal was to be the band that your friend told you about."

Other bands found other means of exposure. let got a tremendous boost from the placement of "Are You Gonna Be My Girl" in a TV campaign for Apple Computer's iTunes and iPod, as well as in Electronic Arts' "Madden 2004" videogame.

"Anything that's getting our music recognized whilst providing us with a shitload of cash, I'm going to say 'Yes' to," Cester says

RETAIL WEIGHS IN

Switchfoot and Jet look to be the early sales leaders, but several of the bands are gaining.

According to Nielsen SoundScan, "The Beauti-ful Letdown" has sold 449,000 copies since its release in February 2003. "Get Born" (Elektra) from let has also sold 449,000 since its October release.

Three Days Grace's selftitled Jive album has sold 370,000 units since coming out last July. The Darkness' "Permission to Land" (Atlantic) has moved 334,000 copies since last

September's release.

'[Our music] is not

something packaged

together by some

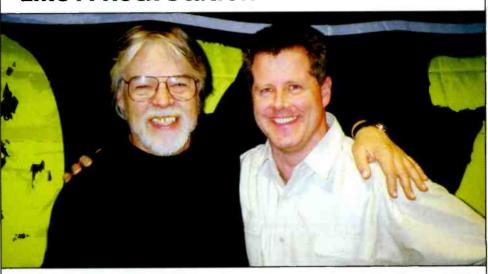

dickhead in a suit'

-Nic Cester, Jet

Story of the Year's "Page Avenue" (Maverick/ Warner Bros.) has sold 250,000 units in three months. Lostprophets' "Start Something" (Columbia) has racked up 116,000 in sales in four weeks.

"Definitely right now the most excitement is around the Darkness," says Chris Brown, VP of marketing and operations for the 10store, Portland, Maine-based Bull Moose Music. "Permission to Land" is the only new modern rock act's release in the chain's list of top 20 sellers

Like A Rock Station

Classic hits WDTW (the Drive) Detroit was the sponsoring station for a national broadcast of Bob Seger's "Greatest Hits II and More" album. Given that Seger's "Like a Rock" is Chevy trucks' anthem and that he's from the Motor City, the whole thing makes perfect sense. Seger, left, hangs with WDTW's new afternoon drive host, Joe Thomas.

HANDICAPPING THE BANDS

Radio programmers say Jet has the best prospects for a long career.

SWITCHFOOT

Williams says, "They will be a band that people will recognize and will have successful music.'

Jet also wins favor with listeners at WZZN, according to Gamble. "Jet's the one we're having the most success with, because it sounds like AC/DC.

PDs are also intrigued by the Darkness.

"They could really surprise a lot of people with their next album taking a direction that [makes]

people realize, 'Hey, this album isn't a joke," Oedipus says. "Do they have the potential to be Queen, or are they the Tubes?"

As for the Darkness snaring three trophies at the Feb. 17 Brit Awards in the United Kingdom, "It means nothing here," Oedipus says.

One issue all the bands must work on, the experts say, is putting a face with the name, since many of the acts remain relatively anonymous. However, the bands say the music will always come before the image.

Switchfoot felt so strongly about the issue that it refused to have its picture on the cover of its album.

Cester wants the motive to re-

main pure. "We're not doing this so we can get recognized. I think that's part of the shame nowadays. People are into being rock stars and being famous, instead of just loving music.

Four Years Later, Spears Back At No. 1

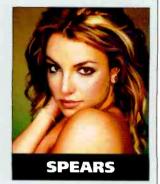

Britney Spears returns to No. 1 on the mainstream top 40 chart for the first time in almost four years, as "Toxic" (Jive) bumps Jessica Simpson's "With You" (Columbia) from the top after a two-

week run. Spears last reigned on the chart in June 2000 with "Oops! . . . I Did It Again." In between No. 1s she has charted with seven other tracks. Only one of them, "Lucky," reached the top 10.

It's another slow climb to the No. 1 spot at adult top 40, as Nickelback's "Someday" (IDJMG) inches its way to the top in its 26th week on the chart. Last issue, Sheryl Crow's "The First Cut Is the Deepest" (Interscope) hit No. 1 in its 24th chart week, which was the third-longest trek to No. 1 at the format up to that point.

Crow's track now rests in fourth place, trailing "Superman (It's Not Easy)" by Five for Fighting at 28 weeks and "Slide" by Goo Goo Dolls and Nickelback's "Someday," which are tied at 26 weeks.

"Someday" is the first No. 1 for Nickelback on the adult top 40 chart. The band's debut at the format, "How You Remind Me," spent 19 weeks at No. 2 in 2001, roadblocked each week by the Calling's No. 1 smash, "Wherever You Will Go."

McGRAW CLOSES IN ON STRAIT ON MOST NO. 1s LIST

Tim McGraw fattens his No. 1 tally on the country chart to 19, as "Watch the Wind Blow By" (Curb) gains 51 detections and rises 3-1. McGraw replaces Toby Keith's "American Soldier" (DreamWorks), which is pushed to No. 2 after one month on top of the chart.

McGraw's 19 chart-toppers move him into sole possession of third place for most No. 1 titles in the Nielsen BDS era (1990 to the present). Alan Jackson leads the list with 22, followed by George Strait with 20. Brooks & Dunn, who were tied with McGraw with 18, now take up residence in fourth place.

McGraw last saw his name atop the page when his "Real Good Man" reigned for two weeks starting in the Oct. 3, 2003, issue.

Elsewhere on the country chart, Trace Adkins grabs his first top five entry in more than six years as "Hot Mama" (Capitol) advances 7-5. His last top five visit was in the Dec. 6, 1997, issue, when "The Rest of Mine" peaked at No. 4.

AEROSMITH, CLAPTON RETURN TO HERITAGE CHART

Two heritage-rock mainstays enter that chart as Aerosmith lands at No. 6 with "Baby, Please Don't Go" (Columbia) and Eric Clapton debuts at No. 29 with "If I Had Possession Over Judgement Day" (Reprise).

All 11 of Aerosmith's charting singles at heritage have made the top 10. The band is now tied with Creed for most top 10 tracks at the format. It also becomes the third act, after the Rolling Stones and Metallica, to have two songs debut in the top 10. "Jaded" entered at No. 3 in January 2001. The No. 6 debut of "Baby, Please Don't Go" is the highest new entry on the chart since Metallica's "St. Anger" came in at No. 5 last June.

Meanwhile, Clapton makes his eighth appearance on the heritage chart as well as at triple-A, where "Possession" enters at No. 15 and claims Greatest Gainer, Most Airplay Adds and Airpower awards.

VANDROSS CHARTS WITH ROGERS REMAKE; RICHIE RETURNS

Luther Vandross moves 26-19 and earns Airpower and Most Airplay Adds honors on the AC chart with "Buy Me a Rose." The track was a No. 1 comeback hit on the country chart for Kenny Rogers in May 2000.

Lionel Richie, who wrote "Lady," a No. 1 pop hit for Rogers in 1980, debuts on the AC chart at No. 30 with "Just for You." Richie last appeared on the chart in the spring of 2001 with the top five "Angel."

The highest debuting song at AC is "Over the Rainbow" (Mountain Apple) by the late Hawaiian artist Israel Kamakawiwo'ole at No. 22. The track, originally released in 1993, is featured in the film "50 First Dates" and has been reserviced to radio.

PLAYLIST AND PANEL CHANGES

The order of the *Airplay Monitor* Power Playlists has been updated for each format to reflect the fall 2003 Arbitron cumes. Stations are listed in descending order according to their TSA weekly cume. Notable station moves include WKHX Atlanta moving into the top five on the country page (6-4) and WBCN Boston moving from 9-5 at modern rock.

WBHH Norfolk, Va., has been removed from the R&B/hip-hop panel as it flips to soft AC.
