## **Mainstream PDs Debate '99 Music: Plop Goes The Balance?**

by Jeff Silberman

A wealth of hit product, from a variety of music genres, has long been credited for much of top 40's rejuvenation over the past three years. But now, the consensus of programmers who believe top 40 is still enjoying a bountiful balance of hit music is fraving at the edges. While the majority of stations remain open, at least to some degree, to music from any genre, some PDs say the ack of strong-testing dance or straightforward pop is making it hard to balance the rap, R&B, and modern titles at the format's corners.

Some broadcasters, such as KHS Los Angeles PD Dan Kieley and WHTZ (Z100) New York MD Paul "Cubby" Biyant, still believe that they have the right and ample mix of genres. But others see that balance becoming harder to maintain. "We've

had almost equal percentages of each [genre] during the 'rebirth' phase of the music cycle, which has provided a wealth of great music for top 40 over the past three years," says consultant Guy Zapoleon. "Now, as we enter the [period of] extremes, the pop is squeezed into a smaller percentage. Without this bridge music, it gets harder to play both R&B and rock on the same stations. So you'll see more success for rhythmic and crossover stations, with more album and even 'rock 40' stations being reborn.'

Airplay Monitor asked mainstream top 40 PDs for their takes on how hits from the various genres are performing for them at this time.

## **Universal Announces Consolidation Cuts**

The long-expected announcement of layoffs resulting from the consolidation of PolyGram and the Universal Music Group finally came Jan. 21. A&M, Geffen, Interscope, Island, Mercury, and Motown all suffered losses in what is expected to be the first wave of what may total 1,200 layoffs by the end of the year.

Key executives departing include A&M president/CEO Al Cafaro and VP of East Coast operations Chuck Bliziotis; Geffen chairman/CEO Ed Rosenblatt, president Bill Bennett, and senior VP/GM Bob Catania; and Mercury chairman Danny Goldberg and West Coast GM Alison Hamamura.

According to Billboard Bulletin, Universal Records president of black music Jean Riggins is expected to become VP/GM of the new Universal Records Group, which includes Motown and is headed by chairman Mel Lewinter.

Billboard Bulletin also reports that Universal Music execs are said to be in discussions with DreamWorks chiefs Mo Ostin and Lenny Waronker to bring that label into the Interscope orbit; the Geffen label, now part of Interscope, has handled some functions for DreamWorks. However, sources say, there is some difficulty in working out a reporting system between the

execs and Interscope head Jimmy Iovine.

On the promotion side, Geffen VP of promotion Steve Kline exits, while A&M loses senior VP of promotion Peter Napoliello (310-659-8850, 212-226-3299), national director of pop promotion Ken Lucek, and national promotion coordinators Anne Barron and Andrea Pilot. Exiting regionals include Tony Davis (Dallas), Dick Merkle (Denver), John Nicholson (Houston), and Ed Rivadavia (Minneapolis).

Exiting Island are senior VP of promotion Joe Riccitelli, VP of promotion Dave Sholin, senior national director of pop promotion Ed Green, and national promotion manager Stacy Snowden.

At Mercury, senior VP Bas Hartong, senior VP Dana Millman, national manager of NAC/AC promotion Bill Cason (718-278-6831), and West Coast national crossover person Mike Klein exit.

Island regionals Meredith Hayes (Houston), Julieray MacLeod (Pacific Northwest), Lori Rischer (New York), and Steve Smith (Atlanta) are out. Regionals exiting Mercury are Cherise Gambino (Minneapolis), Bebop Hobel (Atlanta), Kevin Kay (Detroit), Andrea Newton (mid-Atlantic), Dan Phippen (San Francisco), and Rhonda Rose (Dallas).

## Monitor Focuses On Business, Promo

This week, Airplay Monitor gets down to business and charts the business of radio-station promotion with two new columns.

Capital and Capitol, by Frank Saxe, is Airplay Monitor's first weekly column devoted to business and regulatory issues. Saxe, who joined Monitor earlier this year from Radio Business Report, will cover broadcast transactions, the Federal Communications Commission, the Justice Department, digital satellite radio, and all the other issues that affect radio programming in the post-deregulation era.

Promoganda, by Jeff Silberman, will show-case the creative efforts of successful promotion directors in all formats. Besides providing a weekly rundown of topical, new promotional ideas centered around relevant topics, Promoganda will feature the Topical Barometer, the first-ever top 10 list of top-of-nind promotion topics. (See page 6.) Before joining Top 40 Airplay Monitor last year as managing editor, Silberman was editor in chief at Network 40, where he wrote the promotion section for six years.

## **Double-Play Spearheads Rhythmic Rebound**

WITH BRITNEY SPEARS' debut single "... Baby One More Time" (Jive) at No. 1 on The Billboard Hot 100 and her album debuting at No. 1 on The Billboard 200, radio interest in the title has increased, particularly at rhythmic, where the song was down 30-31 last week. This issue, "Baby" increases more than 48% in rhythmic detections, up 31-24, with close to a 10% increase at mainstream, where it moves 8-6.

Did OutKast get a boost from last Monday's day of remembrance for Martin Luther King Jr.? The group's "Rosa Parks" (LaFace/Arista), named for (but not otherwise connected to) the civilrights pioneer, sees an 8% gain at rhythmic top 40, where it moves into the top 10, and a nearly 2% gain at crossover. The title had been down in spins on last issue's crossover chart.

As Rod Stewart's "Faith Of The Heart" (Universal) enters the top 10 of the AC chart, it is interesting to note that there is a country version of the song recorded by new Capitol artist Susan Ashton. Meanwhile, Mark Chesnutt's version of "I Don't Want To Miss A Thing" (Decca), first recorded by Aerosmith, moves 7-3 on the country chart.

A little over a year ago, there was curiosity about how well rock act **Green Day** would fare with its first ballad, the acoustic "Time Of Your Life (Good Riddance)" (Reprise). The title debuted at adult top 40 in December '97. This issue, it finally moves to recurrent after 58 weeks on that chart. In yet another indicator of the constantly evolving nature of adult radio, **Hole** makes its first modern adult appearance this issue, with "Malibu" (DGC/Geffen).

PERSONNEL FILE: The Island/Mercury Group names former Top 40 Airplay Monitor director of charts **Theda Sandiford-Waller** national director of singles sales.

Margaret LoCicero, former VP of promotion at Red Ant, is the new head of promotion at Push Records. Her first project is the forthcoming Blessid Union Of Souls single "Hey Leonardo."

PANEL CHANGES: **KTOZ** Springfield, Mo., is added to the adult top 40 and modern adult panels. **WLLD** (Wild 98.7) Tampa, Fla., is added to the rhythmic and crossover panels. **KBMB** Sacramento, Calif., is added as a dual reporter to crossover and R&B. **WJJS** Roanoke, Va., moves from the rhythmic to the mainstream top 40 panel. There are now 76 adult top 40, 42 modern adult, 109 mainstream top 40, and 33 rhythmic top 40 reporting stations.

## **Chancellor Puts Itself On Block**

In a surprise move, Chancellor Media put itself up for sale last week. Specifically, the group announced it was hiring an investment banker to sniff out leads to "maximize shareholder value." Those alternatives "may include, but are not limited to, the sale, merger, or consolidation of one or more of the operating divisions."

The front-runner to buy Chancellor is Clear Channel Communications. "We are certainly going to pursue it," **Lowry Mays** told The Dallas Morning News. Hicks, Muse. Tate & Furst CFO **Tom Hicks** told the paper he's keeping his Chancellor stock.

Elsewhere on Wall Street, Entercom goes public, with its IPO scheduled for this week. Pricing is set for Jan. 28, with stock sale set for the next day. No word on an employee buy-in or benefit program . . . Arbitron's parent company, Ceridian, will split its stock Feb. 10.

#### FCC: NO FIRE, MAYBE SMOKE

Although he is still reviewing a congressional request asking the FCC to look into connections between record companies and radio groups, FCC Enforcement Division Chief Charles Kelly tells Airplay Monitor he does not believe

there has been any violation of federal payola statutes. But that does not mean there was no wrongdoing, says Kelly. "There are inferences that there may have been some understandings between the record companies and the radio stations." In the case of the **Bryan Adams** deal between Chancellor Media and A&M Records, Kelly says, the broadcaster may have been obliged to disclose the arrangement to listeners.

The FCC will set the wheels in motion this month to allow low-power "microradio," announcing what it would like to do with the service, which the National Assn. of Broadcasters—as well as most broadcasters—strongly opposes. Meanwhile, FCC Chairman Bill Kennard has moved a hearing on radio-ownership rule changes to Feb. 12.

#### SALES: JACOR SELLS CP

Jacor is selling a CP for a suburban Rochester, N.Y., FM signal... Sabre Communications nabs DRMS Communications AC WLBC/WXFN Muncie, Ind., for \$4 million... Quachita Broadcasting is buying two FM CPs in Little Rock, Ark., from Bobby Caldwell for \$100 million

Continued from page 1

of Britney Spears and 'N Sync, respectively, on the Jan. 30 Billboard 200 illustrates the impact teen acts still have on consumers. Yet PDs have claimed that for the last six to nine months, records by teen acts no longer test across the board, and many PDs prefer to daypart these records at night until they test well enough to move into middays. But there are advocates. "It's still some of the best-testing stuff out there," says KDWB Minneapolis PD Rob Morris. "As long as it is carefully scheduled and balanced against rhythmic and modern/pop, it's fine. It adds a depth to the library that a lot of modern ACs and rhythmic top 40s don't have."

KMXV Kansas City PD Jon Zellner takes advantage of the product's multi-demo appeal. "When the Backstreet Boys appeal to teens and their 30-something mothers, that means [the mothers] are taking their daughters to the concerts and are listening to those hits with their daughters on their way to school," he says.

Some PDs cite a "black hole" where the 18-24s don't favor the teen acts as much as teens and those over 30s. Yet, Alan Burns & Associates consultant Jeff Johnson says, "I can think of far-worse things than playing music that appeals to mothers and daughters at the same time."

But many PDs cite the danger of a glut. WSTR (Star 94) Atlanta PD Dan Bowen and KRBE Houston PD John Peake stress the importance of being very selective with the product, to the point where Peake prefers to "play one [hit record of the genre] at a time."

#### THOROUGHLY MODERN AC

Although some PDs still daypart the Sarah McLachlans, Sheryl Crows, and Jewels initially, records by those artists usually become all-day powers, remaining strong with both teens and target-demo women. "It seems that every time a Jewel looks like it should be dayparted, along comes a Sarah McLachlan that's an across-the-board smash to pick up the slack," Johnson says. (Many PDs were surprised by the young-end appeal of McLachlan's "Angel," but WITTZ's Bryant still keeps it out of nights for reasons of tempo.)

For the past six to nine months, modern adult's female artists have been complemented by what WFLZ Tampa, Fla., APD/MD Dom Theodore describes as "pop-ternative" acts, such as Eagle-Eye Cherry, Shawn Mullins, Barenaked Ladies, and the Goo Goo Dolls. "We see no difference between the female singer/songwriter and the male modern AC acts," WSTR's Bowen says. "They all do extremely well in all dayparts; they're our meat and potatoes." Edgier modern product from the likes of Everclear, Offspring, and Eve 6 are normally started in nights before being spread out, with PDs reporting initial interest from males and teens.

#### THE RAP ON R&B-ACTIVE MARKETS

Probably the most market-sensitive genre is R&B. "It totally depends on the market and ethnic composition, which determines what is massappeal," Johnson says. "The Divine [track] is an all-day record in Washington, D.C., but if you

take that to a market like Kansas City, you can only start [it] at night." Even two relatively R&B-friendly stations like WHTZ and WFLZ will see radically different results. Lauryn Hill is in power rotation at Z100 but gets 24 spins a week at WFLZ. Monifah is a power at WFLZ but, at press time, was getting 19 spins a week at Z100.

As for rap, many PDs still restrict it to nights only, regardless of how those titles sell and request. Again, there's a wide dichotomy from station to station. In the same week, Will Smith's "Miami" was receiving 78 spins at WIOQ (Q102) Philadelphia but only 23 at Z100.

### STRAIGHTFORWARD POP: FEAST TO FAMINE?

Not one programmer argues that there are too many pop ballads these days, which used to be the most prevalent complaint during top 40's dog days. PDs tell us those records usually start out in middays and, once they prove themselves, are played full time, although even without a glut of such songs, some superstar ballads, like "I'm Your Angel" and "When You Believe," have encountered a surprising amount of resistance at top 40.

As for straight-ahead uptempo pop, there's not much of it these days. "We'd like to look at more songs like the Jennifer Paige [track "Crush"], which appeals to all demos," KRBE's Peake says. WFLZ's Theodore adds, "There aren't a lot of songs in that middle anymore. Two years ago, we had [songs by] Spice Girls and Hanson. Those were records that top 40 could own. Now, with the Backstreet Boys and 'N Sync being accepted by AC, we have nothing to call our own.

"Plus, those records served as the ramp between R&B and pop/rock," Theodore adds. "Without it, the station sounds more polarized. People don't like it when we go from a Sarah McLachlan to a Monifah [track]."

Despite Sugar Ray's modern roots, Bryant considers the group's "Every Morning" and Garbage's "Special" as Z100's balance songs between rock and R&B.

Dance/pop elicits the greatest disparity of opinions. On one side are PDs who will tell you instantly that it doesn't test. On the other are Peake, WXKS-FM (Kiss 108) Boston PD John Ivey, and WWZZ (Z104) Washington, D.C., PD Dale O'Brien, who consider it the nussing ingredient in balancing their playlists. "[WBBM-FM (B96) Chicago PD] Todd Cavanah was correct when he said we need more Real McCoys and 2 Unlimiteds," Ivey says. "The problem is that when that music worked, we got such an overabundance that we burned it out."

Positioned in this crossfire is Cher's "Believe." So far, that song has shown young-end strength for early believers—surprising given both dance/pop's traditional upper-demo base and that of the artist. Kieley and Bryant think "Believe" could signal a resurgence of dance hits. KDWB's Morris is more cautious. "Even though Cher is starting to look like the real thing, does that mean we're about to see a dance resurgence? I don't know yet, but at the very least, she adds depth to the format, and that's the beauty of it."

## MONITOR PROFILE

## McKenna Mixes Hip-Hop Intensity, Mainstream Sensibility, And Howard Stern To Heat Up WWKX

Jerry McKenna has worked in a variety of areas in the music industry, from radio gigs at WXKS-FM (Kiss 108) and WZOU Boston to promotion at RCA Records and even a stint at Billboard and Top 40 Airplay Monitor. But he faced a unique challenge last April, when he decided to return to radio as PD of rhythmic top 40 WWKX/WAKX (Hot 106) Providence, R.I.

WWKX's seemingly unlikely marriage of crossover hits and Howard Stern—the only such pairing in the country—has paid immediate dividends. Hot 106 enjoyed a 4.2-5.7 jump in the fall Arbitrons, while Stern soared 3.6-5.8 12-plus and 8.0-13.7 18-34.

"I got the post through [consultant] Steve Smith, who was hired by WWKX GM/CEO John Maguire. It was their decision to change [the station's handle] from Kix 106 to Hot 106 and to bring in Howard Stern in the mornings. I totally agreed with both of those decisions. Plus, this was the perfect opportunity for me to return to New England radio with a young, growing company.

anyone under
25, hip-hop is

Owner: Back Bay Broadcasting Ratings: 4.3-5.1-4.2-5.7

"What's really interesting is that the station attracts a 57/43 female-to-male ratio, and Stern's audience here is 56/44 female-to-male," McKenna notes. "Granted, a few people thought I was crazy for going to a station that mixed rhythmic hits with Howard Stern, but to me, it made perfect sense. When I lived in New York, I listened to Stern in the morning, then WKTU or [WQHT] Hot 97 the rest of the day. I may be older than our target demo of 18-34 women, but I think a lot of people like listening to Howard Stern as well as rhythmic music. What's more, Howard has become pop-culture hip. He has interviewed artists such as Busta Rhymes, Canibus, and Mariah Carey."

McKenna eases the transition from Stern to the music by cross-promoting with the other dayparts and by inserting time-spent-listening promotions such as Song of the Day, where the title is mentioned during a morning spot break. "We also have Hank the Angry, Drunken Dwarf [a member of Stern's notorious Wack Pack, who actually is an alcoholic and vertically challenged] in the studio, constantly cutting liners. He's from the area—Fall River, Mass.—so he brings a local element to the Stern show."

Could Stern work on other crossover stations? "It could, but it depends on the audience composition," McKenna says. "Our total black and Hispanic audience combined is 8%. Stern could do well on any hip music station with a similar audience composition."

Musically, McKenna says, "there were too many titles when we came in. So we streamlined things and focused solely on 18-24 rhythmic listeners. We concentrated on R&B and hip-hop while retaining elements of dance and old school. As the year progressed, the station continued to evolve. Hip-hop became even more mainstream, getting exposure in USA Today and on the evening news. Lauryn Hill got 10 Grammy noninations. Now, to almost anyone

under 25, hip-hop is the mainstream music they grew up to. Because of that, we've become even more hip-hop-intensive while maintaining a mainstream sensibility."

Here's a sample hour on WWKX: Dru Hill, "These Are The Times"; Bell Biv De Voe, "Poison"; Monica, "Angel Of Mine"; Mase Featuring Kelly Price, "I Like It"; Lauryn Hill, "Can't Take My Eyes Off You"; Will Smith, "Miami"; Queen Pen Featuring The Lost Boyz, "Party Ain't A Party"; Mya Featuring Silkk The Shocker, "Movin' On"; R. Kelly, "When A Woman's Fed Up"; OutKast, "Rosa Parks"; Salt 'N Pepa, "Do You Want Me"; Nicole Featuring Missy "Misdemeanor" Elliott & Mocha, "Make It Hot"; and Jay-Z, "Hard Knock Life (Ghetto Anthem)."

"We initially dabbled with mainstream top 40 hits, but once I got a feel for the market, I found it would be more to our advantage to concentrate on the R&B and hip-hop," McKenna notes. "The only records we play that are out of that realm are dance records, which are used to give the station texture. We're playing Cher in middays, just one spin a day. Unfortunately, as much as I love dance music, I still don't see any resurgence of it happening."

Why not? "It's a combination of things. There are no new artists who are attracting people's interest, and the dance clubs, which used to play celebratory music, are playing very dark, underground tracks. Instead of playing songs with hooks to grab people, the mixers are playing mixes to impress each other, and it hasn't generated enough of a groundswell."

McKenna views the competitive scenario from two perspectives—mornings and music. "When it comes to the morning show, Stern is in a league by himself," he says. "Mancow used to be here, but his station flipped format and blew him out. Overall, we share a great deal with WPRO-FM and WJMN [Janu'n 94.5] Boston. [Jam'n] is a great-sounding station that runs like clockwork. A lot of our cume hears their music, and that influences what we do.

"My philosophy is to get on the hottest records first, and in most cases, we do get on them before Jam'n does," he continues. "Where we differ is that I am a firm believer in Steve Smith's strategy [of putting] a lot of effort into tying artists into the audience through sweepers, drops, and by putting them on the air as nucli as possible. We do that more often than Jam'n."

McKenna is bullish on Hot 106's future, even with signal limitations. He credits Back Bay Broadcasting owner/COO Peter Ottmar, Maguire, and GM Bonnie Gomes for using WWKX's mont-and-pop stature to its advantage. "We have such a great team," he says. "It's refreshing to solve a problem within the building, without going through a corporate structure. This is the best group of people I worked with since my days at Kiss 108."

McKenna remains influenced by his early career, when he worked under both Sunny Joe White and Steve Rivers at Kiss 108 and WZOU (now WJMN). "My programming philosophy lies somewhere between Sunny Joe and Steve," he says. "Sunny emphasized the entertainment factor and glitz, while Steve taught me about research and formatics. I consider myself very fortunate to work with them, and from each one, I've developed my own perspective. Ironically, now I work with Steve Smith, who also believes in creating a larger-than-life quality on the station but at the same time having a strong structure.

"Having grown up on Kiss 108, I used to believe that if I didn't listen to the station, I felt like I missed something," McKenna says. "I'm trying to re-create that vibe here at Hot 106, and it's just starting to catch on. Within the last year, I've really seen our audience develop a strong affinity to the station."

AN OVERVIEW OF RADIO PROMOTIONS • BY JEFF SILBERMAN

323-525-2303 · jsilberman@airplaymonitor.com

### **Super Bowl, Valentines Dominate Promo Chart**

As the new year begins, the nation's top promotion directors have quickly focused on the Super Bowl and Valentine's Day as topics of premier interest to their listeners. The exclusive Monitor Topical Barometer poll also shows inclement weather, Internet use, and the Golden Globe Awards as choice topics for promotions.

With the big game just days away, stations of all formats have set up high-profile Super Bowl events. Country **KYGO-FM** Denver's **Should I Stay or Should I Go?** offers contest winners the choice of staying in town and getting a complete entertainment center with big-screen TV and a fully stocked Super Bowl party with celebrity visits or a complete package for two to the game, including tickets, limo, hotel, parking-lot party, and \$500. **Garret Doll** helped formulate the question.

Then there's Super Bowl Bingo, from Barbara Luchsinger of triple-A KKZN (the Zone) Dallas: "Create 10 different cards with things like, 'Aikman throws pass,' 'Anderson kicks field goal,' instead of numbers," she says. "It's a great bar promotion. The key is to be very specific. Beer makes folks argumentative."

Rhythmic top 40 KLUC Las Vegas' Vanessa Thill gave her target-demo football widows \$2,500 spending sprees at local malls, with grand-prize sprees in other cities.

grand-prize sprees in other cities.

Top 40 WPXY Rochester, N.Y., rented out a twin-screen movie theater—one to show the game on the big screen, the other to let the winning widows see "You've Got Mail" and "At First Sight." Naturally, a tailgate party in the parking lot will precede the festivities.

THE FINE PRINT: The Grammys' spotlight on female artists should be of greater interest to modern ACs, top 40s, and other female-targeted formats... Inclement weather pertains to deep snow in Rochester, N.Y., and Chicago and to a lack of snow in Denver, site of the Alpine Skiing championships this weekend... VW Beetles, Hummers, and SUVs are highly popular giveaways, but so are electric cars at the traveling auto shows... The impeachment trial is showing considerable burn as a promo topic, as it ranked as high as fourth three weeks ago in test polls.

#### PROMO OF THE WEEK: INTERNET/ E-MAIL CONTESTING

The success of "You've Got Mail" only underscores the growing interest in and use of

the Internet and E-mail. Which raises the question: Should radio get promotionally involved in Internet/E-mail contesting and/or dating?

Definitely, said the majority of our panel. In fact, 45% of the stations are doing it or have done some Internet promotion, while 37% who haven't done it are considering it. Only 18% of the stations aren't considering it. Here are some points they brought up:

 Not surprisingly, World Wide Web site contests are best done during office hours on weekdays, says classic rock WAXQ New York's Paul Miraldi.

"They can be very effective in building a mailing list with qualified listeners," adds WKRQ Cincinnati's Scott Colebrook, citing the Q102 E-mail club.
 "It would be cool to tie in the course? If the course?

• "It would be cool to tie in [the contests] for Internet service sponsorship," says country WPOC Baltimore's **Sheila Silverstein**.

On a cautionary note, WSTR (Star 94) Atlanta's Dan Bowen warns not to go overboard on them. R&B WJTT Chattanooga, Tenn.'s Wayne Collins and country KNIX Phoenix's Vicki Fiorelli note that most people still don't have Web access. "Listeners without computers think it's unfair," says country KEEY Minneapolis's Diana Buckmann. WPXY Rochester N.Y.'s Tristano Korlou suggests making those contests open via fax or phone as well. But country WYNY New York's Jason Steinberg advises that the contests be exclusive to Net surfers and not mentioned on-air at all. "Do them regularly, so people know to check back often," he says. "Make sure you call all winners by phone, not just E-mail. Our last E-mail contest got a 99% attendance ratio at the event."

As far as an E-mail dating service, WXKS-FM (Kiss 108) Boston's Maria Toufas thinks there are "too many dating services already," and several others thought it would conflict with their own 800-number dating lines.

#### **QUICK HITS**

WPXY's Korlou got his hands on 50 Furbys last September, so the station could give them away during the holidays. How did he know the Furby would be so hot? "I called [area] toy stores around September and asked what's going to be hot for Christmas," he says. "If a handful of toy stores tell you the same thing about what they think will be very hot during the holidays, most likely they'll be correct. The store managers are always pretty honest on what will be hot and what won't

With spring training less than 30 days away, put this in your to-do file: KNIX staged a **Kids Run the Bases** at the Arizona Diamondbacks' luxurious **Bank** One Stadium. Vicki Fiorelli notes that KNIX offered winners' kids the first chance to run the bases at the park before a game, with Diamondbacks manager **Buck Showalter** high-fiving them as they crossed the plate.

Kudos to WAXQ and Paul Miraldi, who snagged tickets to the Broadway smash "The Lion King," which is sold out until the summer of 2000. Initially, they were going to give them away over the holidays, but when three New York firefighters lost their lives, WAXQ held an on-air auction, raising \$13,000 for the Firefighters' Widows and Children's Fund.

## **TV Mirrors Radio's Crossover Struggle**

There has been much written recently about the difference in white and black network-TVviewing habits-how the top 10 shows among whites usually do no better than No. 15 (and usually far lower) among African-Americans, while that audience's favorites often rank outside the top 100 programs among whites. Most articles have been quick to cite the TV gap, stronger among sitcoms than dramas, as further evidence of a racial divide. The most recent, a Dec. 29, 1998, New York Times piece, describes the fallout: Shows with primarily black casts are confined to a few nights-even on the startup networks that the black audience helped put on the map-and under constant pressure to add white characters.

What hasn't been discussed much is the parallels between TV and radio. The startup networks, first Fox, then UPN and the WB, signed on with, essentially, "churban TV." Like the signal-challenged FMs that often became the first in their market to offer some form of R&B music but weren't always comfortable being associated with the African-American audience, those networks established themselves with black-oriented programming and then sought to broaden their appeal, some more successfully than others.

So are black and white listeners polarized now? In certain ways. Even in a market like Washington, D.C., where the ethnic composition of the market is considerable and where the mainstream top 40, **WWZZ** (Z104), is faster than most to acknowledge the biggest R&B crossovers, only 11% of that station's cume is African-American, Only in markets without an R&B station on FM is the figure much higher. a marked change from the '60s and '70s. Gone also, in many places, is the '70s tradition of integrated top 40 air staffs that gave us Chuck Leonard, Walt "Baby" Love, Sunny Joe White, Lee Michaels, Lynn Tolliver, Harry Lyles, Tony Fields, and many others. Even during top 40's early-'90s doldrums, few mainstream top 40 PDs perceived an opportunity, much less a need, to bolster their 12-plus numbers by courting African-American listeners.

As for the rhythmic top 40 PDs who initially sought the black audience with what they saw as hybrid radio stations (mixed air staff, mix of pop/dance and R&B music), those in heavily black markets have had to either super-serve the African-American audience or get out. And in recent months, even some rhythmic top 40 PDs whose audiences are not primarily black have shown little interest in anything other than R&B music.

Mainstream R&B stations, whose non-ethnic composition is usually just a little greater than top 40's black audience, have mostly stopped

trying to cross pop records to their audience. In 1980, it was possible to hear "I Can't Tell You Why" by the Eagles on KMJQ (Majic 102) Houston. Last year, WGCI-FM Chicago briefly played "I'll Never Break Your Heart" by the Backstreet Boys to positive response, *until* it identified the group.

Then there's the musical cross-pollination

Then there's the musical cross-pollination that once existed with R&B. It's still evident on the rock side, even if the rush of rock/rap hybrids we saw two or three years ago has dissipated, save for **the Beastie Boys**, there's still **Everlast** at No. 1 on the modern chart at this writing, with **Sugar Ray** close behind. On the R&B side, we went several years without a "Beat It," "Walk This Way," or "The Other Woman," although **Puff Daddy's** occasional rap/rock experiments and, I suppose, the presence of **Bruce Hornsby** on **2Pac's** posthumous "Changes" showed that there was still some appetite for fusion. If **Ginuwine's** "What's So Different" is a hit on either side, it will be the most obvious rock/R&B fusion record in several years.

So where's the good news here? The best was that the resistance to R&B crossovers at mainstream top 40 finally softened a little last year, even if it should have disappeared altogether. There's also some encouragement to be taken from the initial success of the R&B oldies format. At least in New York, a lot of the new WBIX (Jammin' 105) listeners of my acquaintance are listeners who came of age when Stevie Wonder was still a regular presence on album radio, then stayed with rock radio even after the R&B element disappeared. Even if rap drove a generational wedge between those listeners and their kids, the rise of jammin' oldies suggests there was never any overarching objection to black music.

All of which leads one to hope the situation on the TV side isn't beyond repair but is, perhaps, a function of network programming that doesn't excite many viewers, regardless of race, creed, or color. Just as the logjam at top 40 sort of gave way, one likes to think that another 'Good Times" or "The Cosby Show" is imminent, if only the continuing slew of articles doesn't scare execs out of greenlighting it. Then again, that would mean uniting black and Anglo audiences, not just performers, on one channel, and music radio hasn't accomplished that either. Many of the new R&B oldies outlets are courting a black audience only tacitly, while last year's success of Next, Brandy & Monica, and Usher hasn't done much to reintegrate mainstream top 40's audience. And before programmers can address that issue, they'd have to be admit that it was an

that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 900 detections for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks. © 1999, Billboard/BPI Communications.

Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 900 detections for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks. © 1999, Billboard/BPI Communications.

Based on a national sample of data collected by Broadcast Data Systems. 43 stations from Adult Top 40, Mainstream Top 40, Triple-A and Modern Rock are electronically monitored 24 hours a day, 7 days a week. Songs ranked by number of detections in monitored week. All stations continue to report to their primary format. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 800 detections for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. ©1999, Billboard/BPI Communications

Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records the detections for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. If the top 20 are removed from the chart after 26 weeks. © 1999, Billboard/BPI Communications.

40	33	26	I STILL LOVE YOU ARISTA NEXT	272	30

Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on either chart for more than 20 weeks will not receive a builet, even if it registers an increase in detections. Airpower awarded to those records that attain 2,000 detections (mainstream) or 600 detections (rhythm) for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.
