# **Homegrown Hits Dominant At Mainstream T40 In Spring Book**

by Sean Ross

Last fall, when mainstream top 40 PDs were first questioning the preponderance of teen-oriented acts, modern rock was there to fill the gap, becoming the biggest exporter of top 40 hits for the first time in several years. But during the spring book, although modern crossovers maintained a con-

siderable presence at mainstream top 40, it was again homegrown material that predominated at the format. With its own music reclaiming prominence, most other formats contributed less product to mainstream top 40, although, inter-

estingly, modern adult, usually thought of as a transition format, not a starter format, became a bigger exporter than usual.

Airplay Monitor analyzed where

each of the mainstream top 40 hits from our June 4 issue had first charted. After three years of analyzing the chart, we've noticed that mainstream top 40 PDs tend to start more of their own hits in the spring than in the fall, possibly because of the annual fourth-quarter glut of multi-format superstar product. And that was true again this

Mainstream top 40 was either first, or tied for first, on 13 of its 40 charted records. It was first outright on 10. In doing so, it rebounded from the fall, when it was first on 11 songs but only six of them exclusively And it reclaimed the lead

from modern rock, which, last fall, was first on 12 titles, nine of them outright. In the spring, modern rock was first on nine songs, although all of them start-Continued on page 7

# KROQ, KUDL, KPWR Nab Multiple Marconi Noms

Modern rock KROQ Los Angeles, AC KUDL Kansas City, and R&B/crossover KPWR (Power 106) Los Angeles all received multiple nominations for the National Assn. of Broadcasters' Marconi Awards. The winners will be announced at the NAB convention in

Orlando, Fla., on

KROQ nabbed three nominations for legendary sta-

tion of the year, major-market rock station of the year, and personalities of the year, for morning duo Kevin and Bean. KUDL also snared a trio of honors, for large-market station of the year, AC station of the year, and large-market personality of the year for Dan Hurst. KPWR was nominated for major-market station of the year and CHR station of the

Other nominations went to KHKS (Kiss 106.1) Dallas as major-market station of the year, KSTP-FM (KS95) Minneapolis as largemarket station of the year, WXKS-FM (Kiss 108) Boston's Matt Siegel as major-market personality of the year, and KMXB Las Vegas' Mark and Mercedes as medium-market air personalities of the year.

In the format categories, KPWR; WDCG (G105) Raleigh, N.C.; WJMX Florence, S.C.; WNNK (Wink 104) Harrisburg, Pa.; and WZYP Athens, Ala., were the top 40 station of the year nominees, while KUDL; KKCW (K103) Portland, Ore.; WASH Washington, D.C.; KUEL Fort Dodge, Iowa; and WLNH Laconia, N.H., are the AC nominees.

# **Power 106, WWHT Finally Get Their Men**

Two of the stations left hanging when prospective PDs decided to stay with their previous employers have found successors. Extop 40 WKRQ (Q102) Cincinnati PD and modern adult KDMX Dallas PD Jimmy Steal is taking on a new format challenge as VP of programming for R&B KPWR (Power 106) Los Angeles, according to station sources. He succeeds Mike Tierney, who began the gig only to change course and return to VH1.

Meanwhile, after WPXY Rochester, N.Y., APD/MD Mike Danger turned down the chance to replace J.J. Rice, now at WBLI Long Island, N.Y., as PD of WWHT (Hot 107.9) Syracuse, N.Y., WAYV Atlantic City, N.J., PD Tommy Frank jumps at the chance. It's also a directional change for Frank, who moves from an adult-leaning outlet to a rhythmic one. Back at WAYV, APD/MD **Paul Kelly** is upped to PD.

JEFF SILBERMAN 323-525-2303 • jsilberman@airplaymonitor.com

#### **MANAGEMENT: DEFRAN IS BACK**

Former WIOQ (Q102) Philadelphia GM and top 40 veteran Gerry DeFrancesco is the new managing director for Greater Media's R&B oldies WXXM (Jammin' Gold 95.7).

J.D. Freeman, most recently GM of Clear Channel's Dallas outlets, including KDMX, is officially named market manager for its Phoenix outlets, including top 40/adult top 40 combo KZZP/KMXP. Dave Pugh remains GM of those stations, reporting to Freeman, who was previously GM of that market's KMLE.

Former rhythmic top 40 WWLD Tampa, Fla., GM Drew Rashbaum joins crosstown WWMI (Radio Disney) as GM.

#### **PROGRAMMING: IN A PHILLY MOOD**

Radio One Inc. ups WERQ and adult R&B WWIN Baltimore OM Tom Calococci to East Coast director of programming, based in Philadelphia. He'll continue to oversee his former stations, as well as recently purchased WCAV Boston, and will assume the PD position at crossover reporter WPHI (Philly 103.9) Philadelphia. At press time, former WPHI PD Mic Fox was planning to remain with the company in another capacity. At WERQ, APD Dion Summers will assume interim PD duties. Calococci reports to Radio One VP of prograinming Steve Hegwood.

WWKX Providence, R.I., PD Jerry McKenna is named group PD for Back Bay Broadcasters. Meanwhile, Franco, longtime PD of top 40 WOGN New London, Conn., joins Back Bay's modern adult rival WKCD as PD/morning man.

Ex-KYSR (Star 98.7) Los Angeles APD/MD Chris Ebbott is named PD at adult top 40

WAKS (Kiss 100.7) Tampa, Fla. Rick Belcher, PD of N/T WTMJ Milwaukee, is named director of operations for that station and Journal Broadcast Group adult top 40 sister WKTI. This marks Belcher's return to the music-radio world; he was the longtime PD of similarly formatted WIOG Saginaw, Mich.

Adult standards WABY-FM Albany, N.Y., segues to soft AC with ABC's Lite 2000 format.

Former WSHE Orlando, Fla., PD Katherine Brown, displaced by the modern adult outlet's switch to oldies, resurfaces as OM of N/T sister WTKS (Real Radio 104.1)

#### **PEOPLE: KINCAID HAS IT MADE**

WKQI (Q95.5) Detroit afternoons Jo Jo Kincaid picks up some APD stripes

KBKS (Kiss 106) Seattle MD/night host Paul Anthony exits.

KLUĆ Las Vegas PD Cat Thomas has filled two air-staff vacancies by bringing in former KUBE Seattle MD Chet Buchanan for mornings and former morning man Bo Jaxson for

Dave Swan is the new MD/midday host at modern adult KSRZ (Star 104.5) Omaha, Neb. He replaces Erik Johnson, now the PD of rhythmic top 40 sister KESY. Swan, most recently at classic rock KZFX, was previously in afternoons at top 40 rival KQKQ.

Former top 40 WZJM (Jammin' 92) Cleveland midday host Lee Ann Sommers, displaced by a shift to R&B oldies, resurfaces in middays at R&B rival WENZ (Kiss 107.9).

WRTS (Star 104) Erie, Pa., APD/MD/nights Kasper has taken the MD/afternoons post at WXLK (K92) Roanoke, Va., effective June 21. KYLZ Albuquerque, N.M., p.m. driver

Marino adds MD stripes following the depar-

ture of **Rob Royale.**Top 40 **WZNY** Augusta, Ga., morning host Jordan Zeh joins top 40 WLHR (Hot 107.9) Panama City, Fla., for mornings as Iggy, replacing Troy Tanner, who exits. Also, middayer Cheryl Adams adds a.m. co-host duties. WLHR PD Nick Vance is still searching for overnights.

Top 40 WBHV (B103) State College, Pa., MD/middayer Scott Smith joins modern adult WLNF (Live 95) Biloxi, Miss., in the same capacity, replacing J.J. Michaels, who exits.

WNUC Buffalo, N.Y., afternoon jock Buddy Shula joins crosstown AC WMJQ for sales and P/T air work. PD/middays Chris Atkins is looking for either an afternoon or midday replacement.

"Ric" Reece Higbie, who spent almost two decades as promotion/marketing head, mid-dayer, and swing-shifter at KJYO (KJ103) Oklahoma City, exits.

In Chattanooga, Tenn., Gina Magill enters for afternoons and K.J. Waters exits in nights at WKXJ (Kicks FM). OM Scott Hamilton notes that nights and overnights remain open. Meanwhile at nearby **WALV** (Alive 95) Cleveland, Tenn., ex-'KXJ morning co-host Mark Stevens comes in to do nights, replacing yet another 'KXJ alumnus, **Bobby Corona**.

# **Check Out New Airpower Criteria In Action**

Last week, Monitor made a significant change in the methodology used to calculate Airpower for all top 40 charts. This week, let's look at the new Airpower criteria in action. To be designated Airpower, a title must enter the top 20 of both the detection and audience charts and must be gaining

At modern adult, two titles achieve Airpower status. Fastball's "Out Of My Head" (Hollywood) was in the top 20 of the modern adult audience chart last week and enters the top 20 of the modern adult detection chart this week. The title is gaining in both detections and listeners and thus

Last week, Citizen King's "Better Days (And The Bottom Drops Out)" (Warner Bros.) was top 20 at modern adult in both detections and audience but was showing a loss in audience. This week, 'Better Days" is gaining on both charts and is therefore awarded Airpower status.

Other titles awarded Airpower this week include Jennifer Lopez's "If You Had My Love" (WORK/ERG) at mainstream top 40, which was in the top 20 of the audience chart last week and moves into the top 20 of the detection chart this week, and TLC's "Unpretty" (LaFace/Arista), which simultaneously goes top 20 on both the rhythmic audience and detection charts. Tal Bachman's 'She's So High" (Columbia), moves into the top 20 of the adult top 40 detection chart, and Ja Rule's "Holla Holla" (Murder Inc./Def Jam) enters the crossover detection chart; both already appeared in the corresponding audience charts.

One non-Airpower related note on audience charts: Ricky Martin's "Livin' La Vida Loca" (Columbia) registered first on the audience charts because of his large-market base. The same thing happens this week with Martin's "The Cup Of Life," which debuts at No. 35 on the mainstream top 40 audience chart. It's not just an unusual example of a record charting well after it was worked; it's an unusual case of a World Cup-related record charting in the U.S., a year after the sporting event in question. World Cup records are standard fare in Europe, but only the New Order-related "World In Motion" has gotten any significant airplay over here before.

LABEL MONITOR: Island, Def Jam, and Mercury have officially consolidated under one name, the Island Def Jam Music Group (IDJMG). Effective this week, all titles that formerly showed any one of these as its promotion label will now be credited to IDJMG, with the artist's imprint label listed first.

RCA head of adult radio promotion Cheryl Khaner relocates to Los Angeles and can be reached at 310-358-4013.

Former EMI and N2K promo man Scott Gordon joins Strictly Rhythm for top 40 duties, based

Restless Records adds Mark Radway for Seattle duties and shifts promo man Mike Karsting from San Francisco to L.A. Look for the label to up L.A. rep Rick Sackheim in the near future.

REPORTER CHANGES: Effective this week, rhythmic top 40s KKSS Albuquerque, N.M., and KBOS Fresno, Calif., will report to the mainstream R&B chart. They continue as reporters to the crossover chart. And the following stations are no longer reporting to the crossover panel: KSEQ Fresno, Calif. (which remains a rhythmic top 40 reporter); WGCI-FM Chicago; WJMZ Greenville, S.C.; and WKKV Milwaukee. The latter three continue to report to the mainstream R&B chart. Also, mainstream R&B outlet WHRK (K97) Memphis now dual-reports to the crossover chart.

The following Honolulu stations have returned as reporters: KSSK (AC), KQMQ (mainstream top 40), KXME (rhythmic top 40), and KIKI (rhythmic top 40 and crossover).

KYSR (Star 98.7) Los Angeles afternoon duo Ryan Seacrest, left, and Lisa Foxx, right, try to convince Bret Michaels that there is life after Guns N' Roses.

Top 40 WPRO Providence, R.I., morning producer Beth Hale joins album WKLS (96 Rock) Atlanta for the same.

AC WMJX (Magic 106.7) and oldies WROR Boston P/T Kathy Aparo joins R&B oldies WOCL (Power 105.9) Orlando, Fla., for mid-

At modern adult KLAL (Alice 107.7) Little Rock, Ark., p.m. driver Neil Kelly moves to nights as Just John exits. PD Rob Walker adds

Adult top 40 WGNY Middletown, N.Y., morning host Victoria Knight segues to new R&B oldies outlet WBPM (B94) Poughkeep-

AN OVERVIEW OF RADIO PROMOTIONS • BY JEFF SILBERMAN

323-525-2303 · jsilberman@airplaymonitor.com

# **Station Concerts, July 4 Set Off Promo Fireworks**

Station concerts once again ruled the Topical Barometer, with Independence Day coming on strong in second place. While many stations are naturally tying in with fireworks and picnics, country WPOC Baltimore is saluting Mary Chapin Carpenter's new album, "Party Doll & Other Favorites," with a Party Doll on Wheels Fourth of July. New air talent Bob Delmark will pick up one lucky party girl and five of her friends in a limo for a ride to dinner, Carpenter's concert, and a VIP area to watch fireworks. Sheila Silverstein got a bang out of it.

Thinking of the holiday-trip angle is top 40 WPXY Rochester, N.Y., which will take over two stations for a huge pre-Independence Day gas giveaway. Tanks to Tristano Korlou for the idea.

Novel twists in modern rock KEDI (the Edge) Phoenix's "Austin Powers II" promo are free tickets and replicas of Austin's gnarly teeth. Jane Monzures embraces that idea.

For Father's Day, rhythmic top 40 KLUC Las Vegas believes that Father Mows Best, as listeners receive a prize package and qualify to win a lawn mower, tools, etc. Vanessa Thill again shows why she's on the cutting edge.

NBA and NHL fever have hit playoff-contending markets. Top 40 KKRZ (Z100) Portland, Ore., held a Dribble-Off. Each contestant had to dribble two balls at once; the last one dribbling won playoff tickets. "All the TV stations and the local paper came down," says Wendi Foster of the full-court press.

Top 40 WKSE Buffalo, N.Y., is on the Buffalo Sabre bandwagon, as the morning show is setting up its own chocolate factory. Those who find "golden tickets" in the bars win tickets to the NHL Stanley Cup finals. "The donations will benefit Sabre captain Michael Peca's charity of choice, the Juvenile Diabetes Assn.," says Stephanie "Skates" Ringer 'round the competition.

Michael Godfrey of top 40 CKIK Calgary, Alberta, suggests you "spend as much time with them as you can and learn what their expectations of promotions are. That expectation level has a huge impact on how your efforts and role [in the company] will be perceived.

As part of a larger cluster, Diana Buckmann of country **KEEY** (K102) Minneapolis has seen her workload increase. "We now coordinate promotions with the six other stations in the market," she says. "The sales staff has increased, and I have more sales promos to plan.'

Overseeing more than one station can create a problem in where to allocate your efforts and resources. "At the moment, one station [generates] greater revenue, hence more value-added demand, while the other demands a greater need to boost ratings and business," Godfrey says. "It's a challenge to give one priority when they have different needs and objectives. If push comes to shove, you serve the money first, then the station that needs the work."

Stephanie Hogerman of country WBEE Rochester, N.Y., agrees. "We serve the biggest audience first [in order] to not lose any part of it," she says. "It's imperative to find self-sustaining promotions for the biggest station in the group. Some promos can run on their own due to their popularity, along with the station's ratings."

Becoming more common are multiple-station promos such as kids' fests, used-car bonan-zas, and other citywide events. "We're doing this more often," notes Katie Eyerly of R&B KMEL San Francisco. "It works out fine once everyone gets used to the idea, It actually spurs competitive spirit. If all five of us are at the same event, you can bet we each give a little more thought to our on-site activities and presentation. We don't want to look lame in front of our sister stations."

#### **TOPICAL BAROMETER**

#### PROMO TOPIC OF THE WEEK: THE EFFECTS OF CONSOLIDATION

The station-group buying frenzy has died down a bit since its 1997-98 heyday, as evidenced by the fact that 55% of the Promoganda panel's stations haven't changed hands, formats, or become part of a larger market cluster over the past year. Even so, almost 28% of the promo directors now oversee more stations, and more than 17% have new bosses this year.

For those who have a new owner or GM,

#### QUICK HITS: TICKETS AND TRIPS

Promogandists never run out of novel ways to give away tickets. Modern adult KFMB-FM (Star 100.7) San Diego had two teenagers camp out in its Dumpster for 'N Sync tickets. Local businesses added their trash to the fish and dog hair already in the bin. The girl who stood N-Da-Stink the longest won. Kim Leeds gave new

meaning to the term, "talking trash."

CKIK held a 24-hour 'N Sync Ticket Blitz by giving away a pair of ducats each hour from midnight to 10 p.m. the following day. "Parents called in, complaining that their kids wouldn't go to bed, or made them stay up to hear the cue to call," Godfrey says. "We also got complaints about kids skipping school to try to win tickets."

R&B WJTT (Power 94) Chattanooga, Tenn., gave away a trip to the Essence Music Festival in New Orleans with backstage and Coca-Cola Hospitality Lounge access, ground transportation, airfare, French Quarter hotel accommodations-the works. On top of the Coke sponsorship, the contest was leveraged with a local grocery store chain. "We nailed them for a schedule and two remotes—one to kick off the giveaway and the other to hold the grand-prize drawing," Wayne Collins says.

Top 40 WSTR (Star 94) Atlanta will give Jamaican vacations to lucky callers who dial in after hearing "Uncle Clive doin' a cliff dive." PD Dan Bowen's full-gainer got an 8.4, 8.5, and 8.9 in the most recent books.

# MONITOR PROFILE

# Despite New Rivals, Adam Cook Finally Leads WXXL To Orlando 12-Plus Crown

Although WXXL (XL106.7) Orlando, Fla., has been No. 1 in its target demos for many a book, its 7.1-7.6 ascension to the 12-plus market crown in the winter Arbitron book meant more to OM/PD Adam Cook than mere window dressing. "It's a great thing," he says. "We had been knocking on the door for several books in a row. We've been the most consistent station in the Arbitrons for over a year, with a 7 share or higher.

"Our healthy cume has kept us up, as well as our longevity," he adds. We've become the heritage station in the market. I got here in summer of '91, and almost the entire air staff has been here with me since then. We stuck with a game plan and executed it. There have been times when we slipped back a bit, but we stayed on top of it and made slight adjustments, as well as dealt with several ownership changes, and once the timing was right, we were ready."

Adam Cook

six competitors

to earn the

chance to

Owner: Chancellor Media Ratings: 7.1-7.3-7.1-7.6

Having a long-term plan doesn't mean that there hasn't been constant renovation of XL. "Every six months or so, we reinvent the station, from the production values on down," he says. "We're our own worst critics. There also have been times when we had a lot of competition from the modern AC, WSHE, and we had to shore up [our upper] end. They've been flipped to oldies, and now we have to contend with rhythmic WPYO (the Party). What has kept us on top is that we don't overreact. We hold the course and use our cume as leverage. We have the bodies, and everyone else shares more of their audience with us than we with them."

While Cook recognizes that WPYO will serve a market hole, it shouldn't negatively affect WXXL to any great degree. "It's a young, Hispanic-driven format mainly for 15- to 22-year-olds," he says. "They'll do quite well here because the Hispanic community is about 14% of the population. You can already see their effect on the market. They're No. 2 in Hispanics 12-plus. We've held our own against them, but they have taken a dent out of [R&B sister] WJHM [102 Jam2]. So they have their niche, like WS1IE had with 25-34 women. Their question [is], 'Is that niche mass-appeal enough to raise the bar?'

"As far as protecting our end, this station has been very fortunate to have Backstreet Boys and 'N Sync coming out of Orlando," Cook continues. "We're ahead of the national curve and have turned our teens around from a 16 share to a 28. That's healthy, because we're also leading the market with 35-44 women. We're getting a lot out of the mother/daughter top 40 thing. As long as the music's balanced, we'll continue to do well."

Here's a typical hour on WXXL: Whitney Houston, "Heartbreak Hotel"; Sugar Ray, "Fly"; Jennifer Lopez, "If You Had My Love"; Blackstreet & Mya, "Take Me There"; Jordan Knight, "Give It To You"; matchbox 20, "Real

World"; Brandy, "Have You Ever?"; Captain Hollywood Project, "More And More"; Cher, "Strong Enough"; Next, "Too Close"; Sarah McLachlan, "Angel"; 98°, "The Hardest Thing"; and Jay-Z, "Can I Get A..."

With WSHE's demise, "we can go deeper on female singer/songwriters," Cook says. "For us, that happened when we went on Sarah McLachlan's 'I Will Remember You' a lot earlier than we did the first time it came through [as a studio track]. We like to have balance and music from [the modern adult] side of the fence come into our rotations every third or fourth song."

As OM of WXXL and WJHM, Cook has the option of strategically programming both stations to flank rhythmic upstart WPYO. "We could do that in theory, but the truth of the matter is that both stations take care of their P1 audiences," he says. "1 get 13% of my TSL from 40% of my audience, and Jamz does that as well for their P1s. We really pay attention to our P1s and take care of them with better promotions.

"However, if it happens that a competitor comes up with a good promotion, we can use our cume to take it over and get credit for it. Jamz may take one of their promo ideas, but we won't squeeze them musically. They play a lot of titles that neither one of us will ever play, so it would be tough to go that way. We've got to stick to who we are to our audience.

"In fact, we're fortunate to not share a lot of our music with a competitor," Cook adds. "It's an opportunity for us to grow that 25-34 female demo, give us a better balance between all the boy bands, and find something of interest for the 18-24s. That [demo] has been the teen bands' black hole. Even though their songs may test well in call-out, if you ask anyone outside of the station who's not a teen or an older mom about those groups, their response is not good. So while this music has undeniably helped out top 40 stations, too much of this good thing can hurt. You've got to be very careful in how you play that music."

WXXL's 250,000-person cume is 50,000 listeners more than the No. 2 cuming station, so it would seem that Cook would be concentrating on building a bigger TSL. "You can get really wrapped up in that, but there's really not a lot you can do," he asserts. "We do create benchmarks and events for the station. We urge the morning show to be more topical, generating talk in the market. The key is to just have them make more appointments to the station. We can't make them listen from noon to 5 p.m., but we can do things to make them come back a couple of different times, through things like cash contesting."

With a veteran air staff that has largely been with Cook since day one, regular airchecks certainly aren't needed. "It really comes down to keeping them focused," Cook says. "That was more of a challenge recently, as we just moved into a brand-new building that will eventually house all the Chancellor properties. We could lose focus by using all the new equipment, so we're almost our own worst enemy than anyone else out there. But we're not going to get complacent. All we have to do is remind ourselves where we came from and what we've all gone through to get where we are today. A lot of us have started families here, and we're not about to let [all that we achieved] go to waste. All the hard work has paid off. We've gone through five or six different competitors to earn the chance to really explode.

The payoff for Cook? "From a career standpoint, I just want to help the company do whatever they want me to do," he says. "I like the day-to-day stuff. I get excited about working with everybody here, so I don't really worry about what might happen five or 10 years down the road."

# TOP 40 TOPICS BY SEAN ROSS

212-536-5264 · sross@airplaymonitor.com

# **Crossover, Rhythmic Charts: A User's Guide**

The senior VP and his head of crossover promotion called us together. They wanted to know why Airplay Monitor still had separate crossover and rhythmic top 40 charts. With so few rhythmic top 40 stations that weren't dual reporters to crossover, they wondered if there was still any value to a separate rhythmic chart. Their preference was one rhythmic top 40 chart that ranged from WKTU New York to KMEL San Francisco, without all the more traditional R&B outlets that dual-report to our crossover chart—essentially, what you find in other trades. And they believed programmers were confused about what the crossover and rhythmic top 40 charts represented.

On that last point, I agree with them. We spent a lot of time explaining the difference between the two charts when we separated them two years ago but haven't returned to the issue at length in these pages. At its inception, the crossover chart was designed to serve as a bridge between R&B and rhythmic top 40. Other trades did that, artificially we thought, by placing certain R&B stations on the rhythmic chart. We thought it was fairer to assemble a chart of dual reporters from both top 40 and R&B that had certain musical and philosophical similarities.

If crossover is the bridge, rhythmic top 40 is the destination. The songs that chart there have achieved some degree of acceptance at stations with a top 40 image

We combined rhythmic top 40 stations that played up to 70% R&B music with R&B outlets that spun their powers at least 40 times a week. This week, we've modified the latter criteria. R&B reporters to the crossover chart must now spin their powers at least 45 times a week. They also have to play some hip-hop in all dayparts on a regular basis, even if it's only "Wild Wild West" or "Can I Get A . . ." (The latter also goes for dual reporters from the rhythmic top 40 side.)

The result is meant to represent the most hit-driven stations that specialize in R&B music. It's slower than Monitor's mainstream R&B chart, but it's usually faster on hip-hop (and was so even before our changes). It's not meant to reflect the formatics of reporting stations or the ethnic composition of their audience, just the biggest records at stations playing predominantly R&B music, regardless of who hears them.

By contrast, the rhythmic top 40 chart is meant to measure stations that adhere to the format's original concept of mixing R&B, pop/dance, and pop ballads. We separated the chart in 1997, shortly after the muchimitated debut of WKTU New York. As recently as six months ago, there were very few stations in the WKTU vein and a lot more rhythmic top 40 reporters, ranging from XHTZ (Z90) San Diego to KQKS (K\$107.5) Denver to KSFM Sacramento, Calif., that were 100% R&B, leading many folks, including us, to wonder if there was still a different reality that was worth measuring. But

in recent months, all of those stations have again broadened their music by at least a few titles, whether it's for **Ricky Martin**, **Backstreet Boys**, or **Vengaboys**.

Even if you examine the last chart before those changes took effect, you can still see records moving symmetrically between R&B, crossover, and rhythmic top 40, which was our expectation from the outset. **R. Kelly's** "Did You Ever Think" was, last week, No. 8 at R&B, No. 15 at crossover, and No. 27 at rhythmic. And **Chanté Moore's** "Chanté's Got A Man," a No. 4 R&B hit, was No. 15 crossover and still waiting to debut at rhythmic. The process sometimes works in reverse, too; for example, "Wild Wild West" was No. 5 at rhythmic, No. 7 at crossover, and No. 12 at R&B. And "Tell Me It's Real" by **K-Ci & JoJo** was No. 10 at rhythmic, No. 11 at crossover, and No. 19 at R&B.

If crossover is the bridge, rhythmic top 40 is the destination. The songs that chart there have achieved some degree of acceptance at stations with a top 40 image and expectation among their listeners. Does that mean that mainstream top 40 PDs should only look at the rhythmic chart for potential hits? No. Even in an era when "This Is How We Do It" no longer has to top the Hot 100 before most top 40 PDs will even consider it, there are still R&B hits that mainstream top 40s (and even some rhythmic top 40s) are missing. Unfortunately, a lot of PDs don't regard the R&B chart as a useful tool. The crossover chart is closer to top 40 on the spectrum than mainstream R&B; it's a reliable place to find the R&B hits that you may not already be

(So, of course, is one's own market. It's still a little disappointing that programmers would rather watch the rhythmic panel as a whole, or a few select R&B outlets like KMEL San Francisco and WPGC Washington, D.C., than their own sales reports or their own R&B competition. Top 40 PDs often believe that the consumers who buy R&B records in large quantities aren't their listeners. Well, neither, in most cases, are the folks who listen to KMEL or WPGC, unless your station has Internet listeners. And even in markets where there's little musical overlap, there's still usually 15%-25% cume duplication between top 40 and R&B; 22% of R&B WQQK Nashville's listeners cume top 40 WRVW; 23% of R&B WJBT Jacksonville, Fla.'s listeners cume top 40 WAPE. This means that the R&B hits in those markets have at least some acceptance among their cume, regardless of whether any other station in the country is playing them.)

From the beginning, our goal has been to offer radio as much information as possible. Which charts are useful is for each PD to determine, but it's easy to establish that the crossover chart is neither the same as R&B (where "Livin' La Vida Loca" will never appear) nor rhythmic top 40 (which doesn't contain some top five crossover records). As for the confusion about what the charts mean, we recognize that some is inevitable— PDs have a lot on their plate, just as consumers have their own lives and priorities and don't always understand everything that's happening on their favorite radio station. That said, anybody who looks at our guidelines for the rhythmic top 40, crossover, and R&B charts will find them clearer, more consistent, and with more of a basis in tangibles than in any other trade. They'll also always find Monitor chart administrator Silvio Pietroluongo and myself willing to answer any questions about why we do what we do or offer any information that helps them get more out of the charts.

#### Homegrown Hits Dominant At Mainstream T40 In Spring Book

Continued from page 1

ed outright on the modern rock chart.

Rhythmic top 40 was the third-most-influential format. It was first on eight titles, five exclusively. That's off just a tick from fall, when it was first on nine titles, five outright. Next was modern AC-first on six titles, four exclusively: an improvement from fall, when it was first on six titles but only one exclusively. Mainstream R&B was first on four titles, three outright, compared with spring, when it was first on five and exclusively first on four. Country, album rock, and AC each started one song. Triple-A and adult R&B started none.

#### **MAINSTREAM REASSERTS ITSELF**

Even last fall, mainstream PDs were still starting more than a quarter of their own music. They just weren't starting the largest amount of it. That changed this spring. Mainstream top 40 was first on hits from the Backstreet Boys, 98°, Jordan Knight, Blessid Union Of Souls, 'N Sync, and Christina Aguilera, as well as two hits each from Cher and Britney Spears. It was tied for first on hits from Madonna (with adult top 40 and modern adult), Will Smith (with rhythmic top 40), and Ricky Martin (also tied with rhyth-

If that list of artists sounds familiar, it's probably because many of them were artists that mainstream owned when we last analyzed the chart, specifically Spears, 98", 'N Sync, Backstreet Boys, Madonna, and Smith. Six of the 11 songs that mainstream top 40 started last time were by teen acts. Seven were from teen-oriented acts this time, depending on whether you count Martin as a current or escaped teen act. Last fall, there was one pure-pop record from a brand-new artist, Jennifer Paige. This spring, it was Aguilera who held that distinction. The difference seems to be the resurgence of dance/pop, a genre that had all but disappeared from the format until Cher's "Believe" broke through; now, there are two dance titles, both from the veteran diva.

#### RHYTHMIC STILL DANCING (AT LEAST A LITTLE)

That doesn't mean that rhythmic top 40 has entirely conceded the dance/pop franchise to mainstream top 40, as many believe. The Vengaboys' "We Like To Party!" charted at rhythmic top 40 six weeks before it made the mainstream chart. Other records that rhythmic top 40 started outright were TLC's "No Scrubs" and tracks by Brandy, Jennifer Lopez, and K-Ci & JoJo. It was tied on Monica's "Angel Of Mine" (with mainstream R&B) and tracks by Smith and Martin, an artist whose earlier Spanish-language hits found their first top 40 acceptance on the rhyth-

Mainstream R&B, which became newly influential in the fall after several years of neglect by mainstream top 40, was first on Whitney Houston, Tyrese, and Jay-Z's "Can I Get A..." It was tied for first on Monica. Adult R&B, which didn't start any top 40 hits last fall, again failed to do so during the spring.

In our previous calculations, we haven't included the crossover chart, largely because we've regarded crossover less as a format unto itself and more as a chart that examines the cusp of two other formats, rhythmic top 40 and mainstream R&B. But if you counted crossover as a separate format, it would actually have been first outright on "Angel Of Mine" and tied for first on TLC, Smith, K-Ci & JoJo, Jay-Z, and Hous-

#### STILL HAVE TO PRAISE MODERN

Modern rock's resurgence last fall came after a period in '96-'97 when mainstream top 40 PDs, worried that they had overdosed on modern several years earlier, went through a mini modern backlash. That period is long forgotten now. Modern may be the No. 2 provider of top 40 hits, but it's still formidable, contributing nine songs that it started outright by Sugar Ray, Everlast, Goo Goo Dolls, Smash mouth, Fatboy Slim, Citizen King, the Offspring, Garbage, and Orgy.

That modern rock contributed fewer songs overall but controlled all the songs it started outright says a lot about what's happened in the format over the last six months. In November, when we last analyzed the chart, some of the titles modern rock launched included Shawn Mullins,

Eagle-Eye Cherry, and the New Radicals. That was at a time when modern rock PDs, worried about the encroachment of modern AC, were willing to concede fewer of the poppy-leaning titles to the upstart format. This spring, modern and modern adult were less on each other's tails. And while top 40 PDs didn't pick up any Limp Bizkit or Korn records from modern, the format's contributions to the format were (relatively speaking) modern rock that really rocked.

The fact that modern rock was first outright on all the songs it started also reflects the continuing dynamic where labels go to modern first in hopes of preserving an act's alternative credibility (and the format's good will) and top 40 PDs show little inclination to battle modern for ownership of a record until the labels decide it's their turn. Modern rock charted Everlast nearly five months before top 40 did the same. It had a 13week lead on "Praise You," a 12-week lead on "Why Don't You Get A Job?" and a 10-week lead on Citizen King. "Every Morning" and "All Star" may seem like obvious top 40 hits now. Modern rock charted them for six weeks and three weeks, respectively, before mainstream top 40 did the

#### **MODERN AC: FROM TRANSITION** FORMAT TO STARTER FORMAT?

Meanwhile, modern adult, a format that's never started more than a few top 40 hits outright, was first on current titles from Tal Bachman, Sheryl Crow, Fastball, and matchbox 20. It was tied for first on Robbie Williams (with adult top 40) and Madonna's "Beautiful Stranger."

That modern adult was first on four songs (vs. one last time) is notable, in that it's usually regarded as a transition format by nature. But the harder-rocking modern format was less likely to fight for ownership of Crow, Bachman, or even Fastball this spring. So while many in the broadcast industry wish to view modern AC as a format in decline, its musical influence on main-

stream top 40 is actually increasing.

It's also interesting that "Beautiful Stranger" charted at modern AC at the same time as it did at adult and mainstream top 40. When modern adult PDs played Madonna's "Frozen" last year, it was a source of considerable controversy for a format that preferred to support modern rock artists (or at least those with a neutral image). These days, modern adult stations are less concerned about being "out-of-image," as Shania Twain and Ricky Martin can attest. But it's still noteworthy that they'd take ownership of a Madonna record. And if it's because this song fits sonically for modern adult, well, so did most of the "Ray Of Light" album.

One song that sounds like it would have started at the modern adult format actually didn't. Sixpence None The Richer's "Kiss Me" charted first at adult top 40, beginning a four-month journey to the mainstream chart. That was the only record that adult top 40 owned outright. It was tied for first on Madonna and Robbie Williams.

And one of modern adult's core artists, Sarah McLachlan, charted first at AC with the live version of "I Will Remember You," the only mainstream top 40 hit that AC started during the spring. The studio version of "I Will Remember You," of course, garnered airplay at mainstream top 40, adult top 40, modern AC, and AC during the several-year stretch when it circulated from station to station as a secret-weapon record.

#### **COUNTRY STILL 'IMPRESSIVE'**

Last fall, country was represented at mainstream top 40 by two titles, something that hadn't happened since the early '80s. It didn't repeat that feat this time. But thanks to Shania Twain's 'That Don't Impress Me Much," which was a country hit four months before it charted at mainstream top 40, country has now been represented at mainstream top 40 for at least a year and a half.

Album rock, usually represented by a single title, is this spring represented by Lenny Kravitz's "Fly Away," which charted there an incredible 26 weeks before making the mainstream top 40 chart. Triple-A, however, wasn't represented at all. (It had started three top 40 hits during the fall.)

# **Report: Radio Industry 'Transformed'**

The radio industry is facing additional fractionalization, while the impact of ownership concentration is becoming clearer, according to the fourth annual State of the Radio Industry study, prepared by financial firm BIA.

At the end of 1998, the number of owners

had dropped from 5,222 controlling 10,246 stations to 4,241 controlling 10,636 stations. There was also a lot more money to be had. BIA estimates radio revenue grew 12.6% last year, to \$13.8 billion. It says almost 30% of the industry's revenues came from the top 10 markets. And it estimates that 54% of the estimated \$13.8 billion of 1998 ad revenue went to the 25 largest radio owners. The top three billers-Chancellor/Capstar, CBS/Infinity, and Clear Channel/ Jacor-accounted for almost 35% of total industry revenues. Cost-cutting and consolidation efficiencies also account for 35% to 45% increases in cash flow for the public companies studied.

While the pace of consolidation has slowed considerably, BIA CEO/president Tom Buono predicts radio revenue will grow 8.7% this year, 9.3% in 2000, 8.0% in 2001, and 8.7% in 2002.

#### **CAPITAL**

Clear Channel is among the bidders for Seagram's concert division, Universal Concerts. The New York Post reports the price has apparently climbed to about \$175 million.

Emmis Communications is paying \$191.5 million for WB affiliate WKCF-TV Orlando, Fla. The last radio station Emmis bought was WOCD New York, and despite the fact it's been more than two years since it has purchased a U.S. radio station, CEO Jeff Smulyan says radio remains its core business. "When we see value in radio, we won't hesitate to acquire aggressively." In an age when size matters, seller Press Communications, owner of three New Jersey radio stations, couldn't compete on the TV side and plans to focus on radio acquisitions.

CBS CEO Mel Karmazin and entrepreneur **Donald Trump** have something in common: One Central Park West. Karmazin recently laid out \$11.4 million for Trump's 5,500-square-foot penthouse, according to The New York Observer. The 48th-floor penthouse includes a living room, dining room, library, a master bedroom suite, and four additional bedrooms. The paper says a four-way bidding war drove the price north of \$2,200 per square foot.

#### CAPITOL

Sen. John McCain, R-Ariz., and Sen. Joe Lieberman, D-Conn., are introducing legislation to create uniform labeling requirements for music, videos, movies, and video games. The 21st Century Media Responsibility Act would require record companies and other producers to rate a product's violent nature by context and intensity. It also requires that recommended ages be included on the packaging. Retailers would be responsible for enforcing the age restrictions or face a fine of up to \$10,000. One year after the act is signed into law, it would ban the domestic sale and distribution of import CDs and other media not carrying the violence labels. The bill gives the affected industries a sixmonth antitrust waiver to work together in developing a standardized labeling system.

While the FCC is still evaluating several proposals submitted to it from USA Digital Radio, Lucent, and Digital Radio Express for conversion to digital, in-band on-channel (IBOC) radio, the National Assn. of Broadcasters' DAB task force is asking the commission to wait until IBOC testing has been completed in December before moving forward with its lowpower FM (LPFM) radio proposal. The group says it wants the time to determine the full impact of LPFM.

Meanwhile, Lucent says its field testing of overlapping digital and analog signals has shown that the digital broadcast does not degrade the host FM analog signal. This summer, the tests will be expanded to several other stations, including top 40 WPST Trenton, N.J., as Lucent tests prototype transmitters. With listeners expected to use both analog and digital receivers for many years to come, IBOC proponents need to develop a system that blends both signals without distorting either. Digital signals will provide clear reception, say proponents, who add that the quality of reception will be particularly noticeable at the fringes of a coverage area.

Elsewhere, the FCC is holding up Citadel's \$63.5 million purchase of the Fuller-Jeffrey Broadcasting stations in Maine and New Hampshire, including country WPKQ and WOKQ, AC WHOM, and top 40 WJBQ, mod-ern rock WCYI/WCYY, album rock WBLM, and classic rock WXBP and WXBB.

The FCC has flagged two Cumulus dealsits \$3.1 million purchase of top 40 WNSL and adult standards WQIS Laurel, Miss., from Design Media and its \$2 million buy of crosstown adult R&B WJKX from J.L.W. Broadcasting.

#### NEW MEDIA: MORE MEL AND CBS

On the heels of its \$8.3 billion purchase of billboard company Outdoor Systems, CBS is continuing its cross-media presence. It is buying a 35% stake in Switchboard.com, an Internet vellow-page service. No cash is changing hands, although Switchboard will get \$135 million of TV, radio, and outdoor promotion and branding over the next decade, similar to deals CBS has made with Hollywood.com, Storerunner.com, and Office.com. The Web site will be renamed CBS Switchboard.

#### SALES

Clear Channel is buying top 40 KKEZ and country KWMT Fort Dodge, Iowa, from KWMT Radio Inc. for \$7.5 million. Clear Channel is also buying country WCYK, R&B oldies WVSY, and oldies WVAO Charlottesville, Va., from Clark Broadcasting for \$6.35 million.

Atlantic Coast Radio is buying top 40 WRED Portland, Maine, from Vacationland Broadcasting for \$1.15 million.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

MAINCTREAM TOD AN AUDITURE

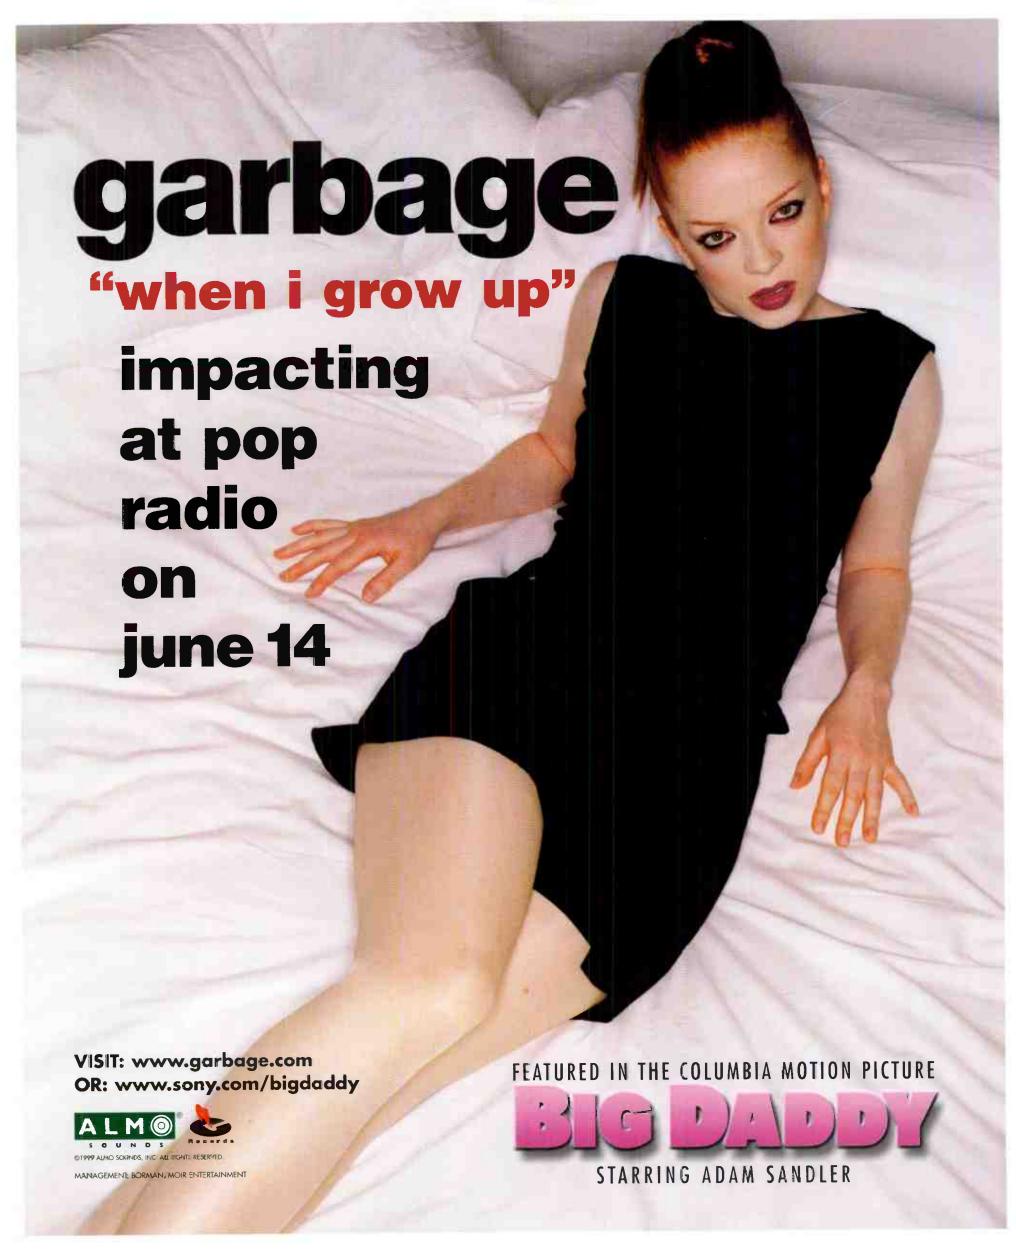

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. 
Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Mainstream Top 40 Airplay chart.

# Monitor RECURRENTS **MAINSTREAM TOP 40**

Recurrents are titles that have appeared on the Mainstream Top 40 Airplay chart for 26 weeks and have dropped below the top 20.

# Monitor POWER PLAYUSTS MAINSTREAM TOP 40

### FOR WEEK ENDING JUNE 6, 1999

Songs ranked by number of detections. Playlists are ilsted in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (FI) denotes station for first time this week. ites songs with 6 or more detection

# Monitor POWER PLAYLISTS MAINSTREAM TOP 40

### FOR WEEK ENDING JUNE 6, 1999

Songs ranked by number of detections. Playilists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

11) denotes songs with 6 or more detections at on for first time this week.

# Monitor POWER PLAYLIST MAINSTREAM TOP 40

WPRO Providence

#### FOR WEEK ENDING JUNE 6, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the apring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

# Monitor POWER PLAYLSTS MAINSTREAM TOP 40

### FOR WEEK ENDING JUNE 6, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

Impressions (FI) denotes songs with 6 or more detections a on for first time this week,

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

# Monitor POWER PLAYLISTS RHYTHMIC TOP 40

#### FOR WEEK ENDING JUNE 6, 1999

Songs ranked by number of detections. Play lists are listed in order of TSA weekly cume beginning with the highest cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

varies depending upon space,
First Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

**CROSSOVER AUDIENCE** 

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Crossover Airplay chart.

# Monitor POWER PLAYUSTS CROSSOVER POWER PLAYUSTS

#### FOR WEEK ENDING JUNE 6, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

ret impressions (FI) denotes songs with 6 or more detections at ation for first time this week.

Songs ranked by number of detections. 
Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Air-power awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

**Y98**.

#### FOR WEEK ENDING JUNE 6 1999

Songs ranked by number of detection. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impression. (11) denotes songs with 6 or more detections a station for first time this week.

Songs ranked by number of detections. Records snowing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet even if it registers an increase in audience. If two records are tied in total audience, the record being piayed on more stations is placed first. Records become recurrents and are removed from this data in conjunction with the Modern Adult Airplay chart.

The chart, reprinted from Rock Airplay Monitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 68 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 1,100 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are field in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks. ©1999 Billboard/BPI Communications

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-reterencing exact times or airplay with Arbitron listener data. 
Records snowing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a builtet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Adult Contemporary Airplay chart.

#### FOR WEEK ENDING JUNE 6, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

regardless of chart movement. A record that has been on a chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarde to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. 1999 Billboard/BPI Communications.
