### **Night Of Living Dead Promos:** When Events Go Horribly Wrong

by Jeff Silberman with Dana Hall, Marc Schiffman, and Phyllis Stark

This . . . is our business. Promotions, hit-music radio, America. Each week, in the Promoganda column and elsewhere in these pages, you'll read about scores of fine, upstanding promotions that generate cume, build TSL, and improve a station's image in the community. Promotions that make you proud to be in radio.

Unfortunately, every so often, an event, a stunt, or a simple giveaway can go horribly wrong. To warn our community against repeating these crimes against good nature, someone

has to bring these promotional injustices to light for all to see.

The following promotions you are about to read are true. The names and the call letters have been omitted to protect the incoherent.

#### THE SCAVENGER HAUNT

A while ago, a local top 40 ran the old Treasure Hunt contest around the city. "You have to pick up your list of clues at the station or participating locations, then on a certain day and time, the treasure hunting begins," the promotion director says. "The station doesn't think that more than a couple of people would get the 'one really dif-Continued on page 6

#### **Conclave: PDs Must Seize Initiative On Revenue**

by Jeff Silberman with Sean Ross. Marc Schiffman, and Phyllis Stark

Top 40's radio and revenue resurgence may be in full bloom, yet the prevailing attitude among many speakers at the 1999 Conclave, held July 22-24 in Minneapolis, was to do anything but rest on one's laurels.

At the top 40 panel, KMXV (Mix 93) Kansas City OM Jon Zellner suggested that PDs be

awarded bonuses based on revenue, not ratings, and urged PDs to forge closer relationships with sales management to generate new nontraditional revenue sources. Doing so could avert future pressure to raise already high spot loads. KQKQ (Sweet 98) Omaha, Neb., PD Wayne Coy cites the revenue he generated from his station concert as a way to "contribute to the bottom line, so we don't have to add to our commercial load. Competitively, we're maxed out." Coy noted that Sweet 98's concert brought in \$200,000, as much as Coca-Cola,

making him "his own biggest sponsor." While CKRA Edmonton, Alberta, PD Steve Jones drew gasps in the modern adult session when he noted that his station runs only eight units outside of morning drive, even those PDs facing normal spot loads were finding a way to finesse them. For WBBM-FM (B96) Chicago MD Erik Bradley, running commercial-free hours cast a positive image of the station with listeners, even if the use of such hours meant ultra-high spot loads in other hours.

Another hot topic in both top 40 and rock rooms were Generation-Y (and younger) listeners, who, according to recent studies, are spending less time with radio. "We have decided that we welcome teens. We market to teens. We research teens," said Bradley. But a show of hands suggested that only three PDs in the audience were also researching teens.

#### DID AC RADIO FLUNK?

In the AC panel, PDs debated whether the format spent enough time covering the death of John F. Kennedy Jr., with former WLIT Chicago PD Mark Edwards contending that the format's mostly male PDs had fumbled this hotbutton female topic. But others responded that there hadn't been enough available information when the story broke

As for the increased role of country crossovers at AC, consultant Mike McVay, claiming that country could not effectively own its core artists, now encouraged AC PDs to "take Shania. Just take her." Bobby Rich, PD of AC KMXZ Tucson, Ariz., had a similar take. "We now get back every-thing we lost to country" in the early '80s, he said, predicting that country PDs would be unwilling to play Garth Brooks' new Chris Gaines project.

#### JESSE AND OTHER HOT TOPICS

· Keynote speaker Minnesota Gov. Jesse Ventura won over the standing-room only crowd, even when he complained about "Pig Vomits" [a derisive term for PDs, courtesy of Howard Stern] to a room full of them. Ventura, who said he planned to seek legislation to prevent incumbent candidates from campaigning during working hours, as a response to his having to relinquish his radio talk-host duties when he ran for governor, talked about return-

ing to radio when he leaves the governorship.

Consolidation, a flash-point topic at last year's Conclave, remained top of mind this year. AMFM's Jack Taddeo, describing the process by which his SFX Broadcasting merged into Capstar, then AMFM, said, "I'm not going to stand up here and tell you it was a good time for any of us." But Taddeo said the notion of corporate monoliths blackballing ex-employees or adding records en masse, as some had feared, presupposes a level of knowledge about individual sta-

fering up to 100 commercial-free, high-qualitydio and CD Radio are not going to go on an adare going right at your [advertisers].'

tions that upper management simply does not have. As for interference from above, "unless you're in flames, [corporate] is not going to pay attention to you," Taddeo said. · Satellite radio: At the Emerging Audio Services panel, Elena Sofko of CD Radio asserted that although the satellite services will be of-

audio niche-music formats, "there is room for everyone to exist on the dial together." But at a later session, First Union Capitol's Bishop Cheen told the audience, "If you think XM Radriven economy, you're in Disneyland. They

### **Entercom Buys 43 Sinclair Outlets**

Entercom Communications is buying the Sinclair Broadcast Group for \$821.5 million. The deal covers 43 stations in nine markets, including top 40 WXSS Milwaukee; top 40 WEZB (B97)

and ACs WLTS/WLMG New Orleans; AC WRVR Memphis; top 40/AC WKSE/WMJQ Buffalo, N.Y.; top 40s WNVZ/WWDE and AC WPTE Norfolk, Va.; crossover WJMH Greens boro, N.C.; top 40 WFBC-FM Greenville, S.C.; and top 40 WKRZ Scranton, Pa. In Kansas City, at least three stations will have to be spun off to meet the ownership cap. Sinclair's St. Louis stations are being sold to Emmis in a deal with former Sinclair CEO Barry Drake.

#### **MANAGEMENT: LAND LANDS**

Former AC KMXV and KUDL Kansas City OM Tom Land joins Cumulus' Topeka, Kan., cluster as station manager/director of operations. The stations he's overseeing include AC KMAJ, adult top 40 KWIC, and classic rock KDVV (V100). Land is seeking air talent for KWIC, which plans to drop satellite for live programming in late August.

AC WSNE Providence, R.I., GM Jim Corwin

joins crosstown album WHJY and oldies WWBB (B101) in the same capacity, replacing Matt Chase, who exits.

#### **PROGRAMMING: SOLDIERING OFF**

The San Francisco Examiner reports that R&B KMEL has canceled the long-running talk show 'Street Soldiers," which aired on alternate Monday nights and started on KMEL seven years ago. The show continues to air in syndication.

Several call-letter changes to report this week, according to the FCC. New top 40 KRZN Albuquerque, N.M., becomes KCHQ, to go with its Channel 105 moniker. And rhythmic top 40 WKTF (the Beat) Jackson, Miss., becomes WDBT.

Al Chio's new R&B oldies outlet, WPLL (Mega 103.5) Miami, gets new calls and a new middayer. The new calls are WMGE. The host is top 40 vet Leo Vela from Spanish rival WRTO.

Ex-KZZP Phoenix PD Dan Persigehl makes the move to full-time morning man, joining KSRZ (Star 104.5) Omaha, Neb.'s Emjay.

WRVW (the River) Nashville's Jeff Donavan is now PD at WHHY (Y102) Montgomery, Ala.

Scott Fitzgerald, OM of Regent's Redding, Calif., cluster, including adult top 40 KNNN, AC KSHA, album KRRX, country KNRO, oldies KRDG, and N/T KQMS, is the new a.m. host at WGTZ (Z93) Dayton, Ohio, joining Kim Ferris. Fitzgerald is the son of WLW Cincinnati vet Jim Scott. New Z93 PD Ange Canessa is now doing afternoons. In Redding, KRRX PD/middays Casey Freeland is upped to OM.

### **Tight Rhythmic Chart = Backward Bullets**

BACKING UP: In an unusual development, this week's rhythmic audience chart shows five songs that are bulleted despite being pushed backward in rank, reflecting a particularly tight chart between numbers in the midteens and No. 30. Despite the backward movement, all titles are showing healthy gains in audience impressions. Similarly, Citizen King's "Better Days (And The Bottom Drops Out)" (Warner Bros.) is pushed back 14-16 on the mainstream top 40 detection chart but remains bulleted.

Enrique Iglesias enters the AC audience chart this week with "Bailamos" (Overbrook/Interscope), which has already charted at rhythmic and mainstream top 40. As was the case at top 40, Iglesias' major-market support at stations including WALK Long Island, N.Y., WLTW New York, WASH Washington, D.C., and KBIG Los Angeles is helping the record on the audience chart in advance of its arrival on the spins chart.

PERSONNEL FILE: Former Geffen president Bill Bennett is officially named to the same post at Maverick Records.

#### 'Supernatural' Thing

Helping launch the new Santana album "Supernatural" at the Boat House in New York's Central Park, from left, are WHTZ (Z100) New York MD Paul "Cubby" Bryant, Arista senior VP of promotion Richard Palmese, PD Tom Poleman, Carlos Santana, and APD Sharon Dastur.

plementing Nastyman is Lisa Wilcox from modern sister WPLA (the Planet) Jacksonville, Fla., and producer Ken O'Brian, who crosses the street from XHTZ (Z90).

KKRZ (Z100) Portland, Ore., PD Tommy Austin apparently made an offer to morning ace John Murphy he couldn't refuse, as Murphy has lecided not to leave the wake-up show. But he will relocate to L.A., flying up to Portland for four days and doing the fifth show of the week in L.A.

At KMXV (Mix 93.3) Kansas City, morning cohost Mike Kennedy relinquishes the headphones to concentrate full time on his other duties as PD of country sister KBEQ. That station's Brad King segues to KMXV for mornings, where he'll be known as Mike in the interest of continuity.

Adult top 40 WWDE Norfolk, Va., middayer Kenny Walker joins similarly formatted WYXR (Star 104.5) Philadelphia for nights.

AC WDOK Cleveland MD Scott Miller adds the APD title

AC KBFB (B97.9) Dallas middayer Becky Wright joins crosstown oldies KMEO (Memories 96.7) for same, replacing Laurie Bandemire, who joins ABC Radio Network's Lite 2000 format.

WNKS (Kiss 95.1) Charlotte, N.C., morning news reporter/sidekick Terri Blake exits, leaving a choice opening in the Ace and T.J. show.

New rhythmic top 40 KQCH (Channel 977) Omaha, Neb., unveils its first live daypart, as Jason Bradley from sister KSRZ debuts in nights.

Adult top 40 WFKS (Kiss FM) Daytona Beach. Fla., night host Robb Tracy heads to WTCF (Pirate Radio) Saginaw, Mich., for the same shift. At Kiss, production director John Black takes Tracy's midday shift.

CKIK (Power 107) Calgary, Alberta, middayer Paul Boucher exits. John Woodlock, from CKZZ (Z95.3) Vancouver, is his replacement

WAYV Atlantic City, N.J., PD Paul Kelly says the station is retooling its morning show, which is currently hosted by I4-year station vet Spider.

AC WZWW State College, Pa., night jock Sparks

joins top 40 WAVT Pottstown, Pa., for nights.

#### \$99 END OF THE CENTURY SALE

The 1999 Billboard/Airplay Monitor Radio Seminar and Awards promises to be the most important and entertaining convention of the year. And we're making it easier for you to spend Oct. 7-9 at Miami Beach's Fontainebleau Hotel by lowering the radio registration rate to \$99. What's more, the seminar is scot-free if you're nominated for a Radio Award, to be announced on Aug. 13. Call Michele Quigley at 212-536-5002 for info.

### **Fonovisa Execs Plead Guilty In Payola Case**

by Michael Amicone, Billboard

Jesus Gilberto Moreno, chief of promotion for Latin label Fonovisa, has become the first senior record company executive to be convicted under federal payola statutes enacted following the scandals of the 1950s. Moreno entered a guilty plea July 23 in U.S. District Court in L.A. to one misdemeanor count of making an undisclosed payment of \$2,000 to a radio PD. Moreno will pay a \$50,000 fine and faces up to one year in prison when he is sentenced Oct. 18 as part of a plea agreement.

Fonovisa president Guillermo Santiso plead guilty to various counts of aiding and assisting Fonovisa's parent, Univisa Inc., in filing false tax returns. The charges concern \$425,000 in checks Fonovisa wrote through an outside company for disbursement to PDs in exchange for airplay. Santiso faces up to six years in federal prison when he is sentenced Sept. 27.

The label has also pleaded guilty to filing false corporate tax returns for 1992 and has agreed to pay a \$700,000 fine.

#### **Summer Concerts Rule Promotional Roost**

Station concerts once again ruled the Topical Barometer, with summer movies and back to school events not too far behind. Triple-A KKZN (the Zone) Dallas used the Lilith Fair to build up its E-mail database. "We sent an E-mail giving listeners a chance to meet Sarah McLachlan and win Lilith tickets by sending us an E-mail and by listening to the Zone for more chances to win," says Barbara Luchsinger. 'The grand-prize winner, announced during the morning show, became the official Zone reporter [two press passes and front-row tickets] at Lilith. Plus, our Web site had links to the Lilith site and to Ticketmaster online to buy tickets.'

For a Britney Spears concert, top 40 CKIK Calgary, Alberta, asked listeners to fax in their report cards that have either a "B" or an "S' grade to win a chance to meet Britney and see the show from a luxury suite. "Our schools use 'S' as a satisfactory grade," says tutor Michael Godfrey. "The response has been amazing. We can't keep paper in the fax machine. We partnered with a local paper, which is supporting the promotion big time."

#### **PROMO TOPIC OF THE WEEK: TSL PROMOS**

As you might intuit from the large number of PDs now obsessed with "appointment listening," time spent listening is the paramount goal of most on-air promos. According to panelists, 65% of their stunts aim to build TSL, 62% say that's an increase over last year, and 81% say it will be even more important to run them next year. When it comes to best TSL dayparts, 40% cite mornings as the most important time to stage them, 40% cite all daytime shifts, 10% say afternoons, and 10% middays.

Here are a few especially effective TSL pro-

- Modern rock WPLY (Y100) Philadelphia does the Letter of the Day/Word of the Week, where the morning show is "brought to you by the letter X," says Kelly Gross. "People listen all week to get the word of the week on Friday. We try to use big prizes each week, such as trips,
- front-row tickets, and electronic equipment."
   Across the street, R&B WUSL (Power 99) did a Stick It and Win promotion, where "we flooded the market with stickers via on-site promotions, and we used McDonald's as an outlet as well," Simone Jones says. "Then we spotted people with stickers on their car who were lis-

tening to the station. They instantly won tickets to our expo Sistahs! A Celebration of African-American Women and qualified to win a 1999 Mercedes-Benz, to be given away at the event.

- Modern adult KFMB-FM (Star 100.7) San Diego is having great success with its Freeloader Program, a frequent-listener program similar to frequent-flier miles. Listeners earn points by listening or participating with the station, then spend the points on prizes, says Kim Leeds. The Star Web site has the details.
- Rhythmic top 40 KLUC Las Vegas always does well with its Money Vault. "Listeners hear their cue to call in five times per day," Vanessa Thill says. "They cite a six-digit code that could open the money vault to win \$9,800. Listeners are given a 'higher or lower' answer. Those who keep track of the numbers have a better chance to crack the code and win cash."
- The morning show for album rock WPYX Albany, N.Y., offered Winter Survival Tips, bits on how to survive winter in the Northeast. "The 16th caller after the sound effect won a winter survival pack—ice scraper, etc.," says **Nicole** Cyr, who's departing for a new career. "Once a week for a month, a grand-prize winner was drawn for a trip for two to Orlando, Fla.'
- A few weeks ago, we spotlighted modern adult KMXB (Mix 94.7) Las Vegas' Mix'n' Match game. Another TSL generator was its Fly-Away February with WB-TV. "For three weeks on-air, Mix encouraged listeners to watch WB's 'Seinfeld' and 'Frasier' hour to find out the Mix Fly-Away song of the day for the next day and what time the song will play," Jennifer Markham Wynn says. "The next morning, Mark and Mercedes announced what the song is but not what time the song will play. The correct caller when [it] was played won a trip for two to Seattle or L.A. We gave away 15 trips."

#### **QUICK HITS**

Country KNIX Phoenix put a new twist on the big-money contest. At a Diamondback baseball game, KNIX teamed up with a local dairy and randomly chose a listener, who selected a player and predicted the inning that player would hit a grand slam (the dairy has an ice cream called Grand Slam Sundae). The prize: a year's supply of ice cream and \$1 million. Sure enough, the contestant's player hit a grand slam during the predicted inning. It brought tears of joy to Vicki Fiorelli, who had a long bawl.

Modern rock WPLA (Planet Radio 93.3) Jacksonville, Fla., offers Free Beer Fridays. Every hour from 9 a.m. to 4 p.m. Fridays, caller No. 20 can win a 12-pack of beer after the "Free Beer" jingle is played. The 12-pack is available that day from 4 to 6 p.m. at a local music store. "When winners pick up the beer [a pick-up ratio of 100%, by the way], it's warm and given to the winner by the beer company-not the station—at a non-alcoholic place of business," says Tina Bauernfeind, who showed us proof.

Top 40 WEZB (B97) New Orleans is falling for its Jeep Drop '99, as it will drop a Jeep from a helicopter Aug. 8 right before a New Orleans Zephyr baseball game. On the field will be squares "earned" by winning listeners. Whoever has the square where the Jeep lands wins a new Jeep. Accompanying the drop will be music by **Crash Test Dummies**.

### **Despite Web, Study Says Radio's TSL Rises**

The amount of time spent listening to the radio has steadily climbed over the past four years, while the amount of time Americans spend with TV and newspapers continues to fall. That is according to Lincoln, Neb.-based Fairfield Research, which tracks media consumption. In 1999, the average person spent 2.5 hours a day with radio, up from 2.4 hours the year earlier. In research commissioned for MediaWeek magazine, Fairfield also found that radio outranks TV and print with 18- to 24-year-olds, although it falls second to computers

#### **CAPITOL: FCC RESCINDS FINES**

The FCC has rescinded fines levied against 19 stations for violating Equal Employment Opportunity regulations, nearly one year after a U.S. Court of Appeals said the rules were unconstitutional. Each of the 19 cases involve stations that had not paid their fines and had not filed an appeal. The FCC is exploring ways to revive the regs within constitutional limits.

AMFM New Media Group CEO Steve Hicks is one of the first radio honchos to go on record in support of Texas Gov. George W. Bush's presidential campaign. Hicks was included on a list of 115 top fund-raisers released by the Bush campaign last week. It includes everybody who has raised at least \$100,000 from individuals and/or political-action committees for the campaign. Federal campaign-finance laws limit contributions per election to \$1,000 per individual and \$5,000 per PAC, but there are no restrictions on the amounts that individuals can raise on behalf of a campaign.

#### **NEW MEDIA: XM FILES IPO**

XM Satellite Radio is going public, filing registration papers with the SEC for a \$172.5 million IPO. XM says it will use the proceeds to build its satellite service, scheduled to launch in late 2000. The stock will trade on the Nasdaq exchange under the symbol XMSR.

MP3.com got off to a roaring start, jumping 126% on its first day of trading on the Nasdaq exchange June 21. The stock, initially priced at \$28, peaked at \$105, then settled at \$63.

Meanwhile, the music's industry's largest trade group says Internet piracy is no longer a major concern. "We're past that," said Recording Industry Assn. of America president/CEO Hilary Rosen at an online-music conference last week. Rosen told the crowd that the recording industry is now focused on changing its business model to profit from digital downloads.

Broadcast.com's merger into Yahoo! has been completed; the division has been renamed Yahoo! Broadcast Services.

#### SALES: FLAGGED KWICKLY

Cumulus is buying adult top 40 KWIC (Hot 99.3) and oldies KQTP Topeka, Kan., from Shawnee Broadcasting for \$3 million. But the FCC has flagged the deal, since Cumulus owns

crosstown AC KMAJ and classic rock KDVV.
The FCC has also flagged KGKL Inc.'s purchase of AC KELI San Angelo, Texas, from Earshot Broadcasting, citing concentration concerns. KGKL Inc. already LMA's KELI.

The newly reactivated Keymarket Broadcasting buy's country WASP-AM-FM Pittsburgh from Humes Broadcasting for \$2.875 million

Commonwealth Broadcasting is buying adult top 40 KRLT and N/T KOWL Reno, Nev., from Regent Communications for \$1.25 million . . . Clear Channel is swapping AC KMGW Casper, Wyo., to Mountain States Radio for crosstown classic rock KRVK, adult top 40 KTRS, oldies KMLD, and country KWYY, plus \$2.3 million in cash.

## MONITOR PROFILE

## **Spring Arbs Forward: Frankie Blue Helps 'The New 'KTU' Shine In The Big Apple**

After blasting out of the blocks with a "worst to first" debut three years ago, rhythmic top 40 WKTU (The New 'KTU) New York settled into a not-uncomfortable groove in the low-4-share range of the Arbitrons. But the recently released spring book shows the station bolting to a 4.5, despite the fact that a lot of the music it initially owned became multi-format, mass-appeal smashes and that its upper-end appeal was, at least temporarily, splintered with the debut of R&B oldies sister station WTJM (Jammin' 105).

VP of operations and programming Frankie Blue takes success in stride. "We work hard on every book," he says. "We've seen the trends every month. We had a good idea of our possible placement, so it didn't come as a total surprise. WKTU has been healthy over the past three years; this spring we were super-healthy. The station locked in on all cylinders in every department, from marketing and programming to promos and production. The whole staff was fired up, and we continued to shine the apple."

Frankie Blue VP Ops & Pgmg WKTU New York

Owner: AMFM
Ratings: 3.9-4.0-4.5

Blue also credits a deep crop of across-theboard hits that helped balance WKTU's sound.
"The big artists really came through," he says.
"We had hits from Whitney Houston, Cher, and
Ricky Martin to the Backstreet Boys, Deborah
Cox, and TLC. New big hits are coming from
Charlotte, Veronica, and the Latin pop of Jen-

nifer Lopez and Enrique Iglesias."

When WKTU signed on in early 1996, it was able to function not only as New York's dance station but also as its mainstream top 40. Now Z100, long returned from its journey into modern rock, can cherry-pick WKTU's biggest hits. But Blue believes that the extra exposure only helps WKTU. "Luckily for us, we're in a position to play some mass-appeal rhythmic and pop records and not just dance product," he says. "Mass-appeal artists give the station more variety without blowing off our core, who still want to hear the Funky Green Dogs."

Here's a sample hour on WKTU: Veronica, "Release Me"; Donna Summer, "Last Dance"; Whitney Houston, "It's Not Right But It's Okay"; K-Ci & JoJo, "All My Life"; Amber, "Sexual (Li Da Li)"; Ricky Martin, "Livin' La Vida Loca"; Backstreet Boys, "I Want It That Way"; Jennifer Lopez, "If You Had My Love"; Company B, "Fascinated"; Enrique Iglesias, "Bailamos"; Deborah Cox, "Nobody's Supposed To"; and 98°, "I Do (Cherish You)."

Then there's AMFM sister station WTJM, which began sharing WKTU's "Got To Be Real"/"I Will Survive" franchise when it signed on last fall. But even though WKTU had already backed down on its disco quotient since its sign-on, it took considerably less of an initial hit than many other stations, something that AMFM had always promised would be the case.

"Any time a station signs on and their target demo is 25-54, there's a threat that they'll cross over into our shares, no matter what the format is," Blue says. "But it's only a demographic threat. With every new station sign-on, an immediate flare goes up in the air, and it gets noticed. The natural instinct is to respond to the new situation; there's a buzz you have to combat. But the key is to stay sharp and prepared to make sure you're at your best. You don't try to become more like the new station. We stayed focused on being the best WKTU we could be."

Even though WKTU was the Big Apple of New York's eye three years ago, Blue thinks that experience hasn't altered his perspective, now that he's part of the radio establishment. "When WKTU signed on, we didn't watch it happen, we made it happen," he says. "We never got caught up in our own hype and buzz. We didn't really believe it was happening. We kept striving to entertain, which is why we became such a case study on a successful launch."

That mentality is responsible for WKTU's aggressive and stylized promotion approach. "We always think big," he says. "We tie ourselves into the best shows, and we create the biggest shows ourselves. We make everything an event, and we constantly try to top the last successful promotion. We give our cash contests a flavor of the lifestyle. This spring, we had the WKTU Rendezvous, which led to our Spring Fling concert. We capped it with a cash giveaway called the WKTU Foreplay. All three [promos] had a sexy edge. We created the magic through the production and our on-air presentation."

The listener-lifestyle flavor can be heard in the veteran air staff. "If you surround yourself with talented people, [the local flavor] will surface," he says. "All our DJs are from the New York area, from the boroughs to the suburbs. They're all on the same page [when it comes to the station's mission statement], but they all have different styles. No two jocks are similar. That's what makes WKTU so special."

Blue is strongly supportive of his air talent, including morning co-host Goumba Johnny, who recently plead guilty to income tax evasion. "I consider him to be one of funniest men in radio," he says. "We want him here every morning. As far as we're concerned, [his conviction] is a personal issue. We consider his personal problems to be a long distance away from his determination to do his job here."

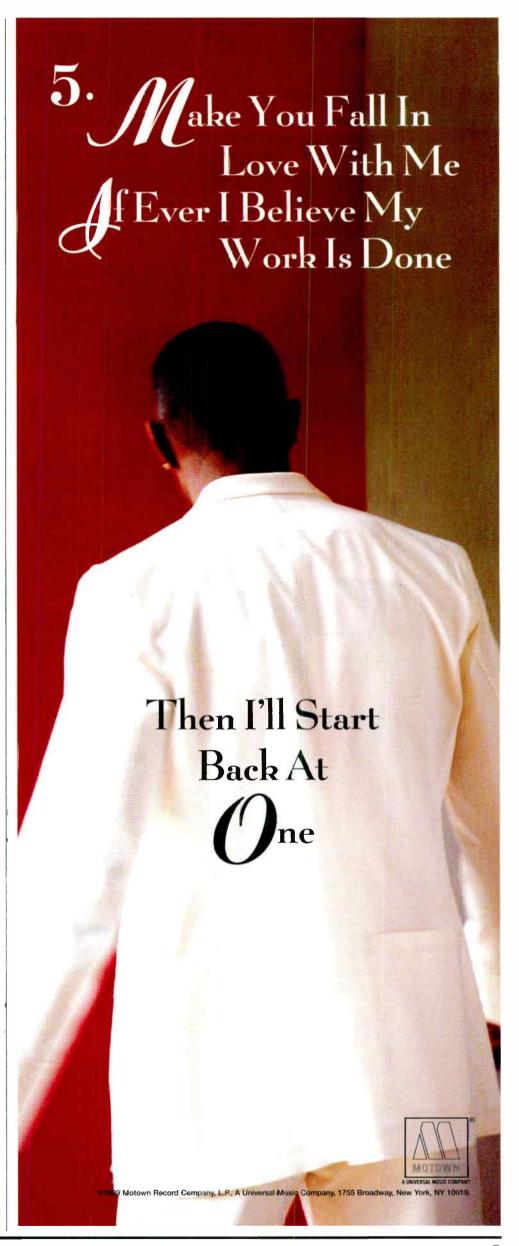

When it comes to spot loads, Blue says, "we're equal to the rest of the marketplace and country. We've increased traffic flow, but we've been able to break through and sell the music in the middle and start of 40-minute sweeps."

How much more of a spot load can WKTU handle? "I'm a programmer, not a general sales manager, so adding more spots is a sensitive issue," he says. "But I realize that ratings and revenue go hand in hand today."

WKTU's initial success spurred several imitators in other markets, most of which are either gone or considerably different than they were at their sign-on. Not so surprising, when you consider that New York is one of the few markets where dance music never waned. "We're too customized for anywhere else but New York," Blue says. "For someone to do a WKTU anywhere else, they'd have to customize it to fit their market. They'd have to really study the history of the music there, to find out what were the big hits, the power golds, and recurrents."

AMFM's rapid growth has meant expanded duties for many of its programmers. Asked about his future goals, Blue hedges somewhat. "My goal is to win at anything I do and to be the best at it," he says. "Right now, I want to entertain one of greatest cities in the world and live up to all of our expectations. One secret to success is getting lucky enough to get in a position to do that. Then you have to perform.

"But what will I be doing in five years? I never think about it," he adds. "I wake up each morning to face the challenge of the day. I want take [my career] to the highest of heights, but what that is, who knows? Maybe I still haven't found what I'm looking for." **JEFF SILBERMAN**

ficult item,' so they don't provide for the possibility of multiple winners in their rules."

Think again. Or, in this case, think in the first place: More than 20 people found that allegedly rare, one-of-a-kind object. "A court ruling determines that the 20-odd winners have to each be awarded the grand prize, either \$5,000 or \$10,000 in cash," says the promotion director.

#### **UNATHLETIC SUPPORTERS**

A sporting-goods company had items to give away in conjunction with a buy. Joking around in the sales meeting, the AC PD said the station could donate jockstraps to the town's upcoming Fourth of July parade for the color guards to use to hold up their flags as they marched.

to hold up their flags as they marched.

One salesman, blessed with an innate lack of humor and even less common sense, took the PD seriously and had 10 jockstraps delivered to the parade. Must have gotten a great package deal.

"I told him he should paint the jocks red, white, and blue and give them away as 'All-American' slingshots," the crotchety PD says. The salesman in question is not available for comment. He's still looking for blue paint.

#### **SOUNDING WAY OFF-KEY**

It was your standard-issue car giveaway, where each qualifier gets a key. The actual ignition key is dropped in a jar, with the remaining number of keys being duds. All told, the jar should hold just enough keys for each qualifier. In this case, 100.

It's the big day. The qualifiers pick keys out of the jar and try to start the car. The first 25, no go. The next 25, too bad. Third batch: "Sorry, thanks for playing, here's some lovely parting gifts."

The last batch of 25. One after the other, the qualifiers pick a key but fail to start the car. The tension builds. "It gets down to the last three qualifiers," says the top 40 promo director. "Except there are *five* keys in the jar! There's a 40% chance that none of the last three qualifiers would get the real key, because of the extras."

The promotion director considers her options. Like a career in phone sales. "As fate would have it, qualifier No. 98 drew the winning key," she says.

#### **GETTING A COLD RECEPTION**

Arizona stations are thought to bake year-round in hot, desert-like conditions. However, locals note that during the winter, it can get more than a bit nippy. Which brings us to the country radio sales whiz who sold a program to Nestea Iced Tea, whereby the station's sports director would go out three times a week in the early morning hours to do samplings at van stops during the morning show. The promo director asserts that sampling iced tea in the dead of winter—even in Arizona—may not be everyone's cup of, well, you know. Of course, such irrefutable logic loses out to the all-important buy.

It's tea time! The sports geek heads to his first van stop. Weather? A cold front has sent the mercury to the high 30s. He's giving away iced tea. Or trying to. Really, really trying to. Sympathetic passersby return the favor by bringing the jock and promotion crew hot coffee.

#### CRUISIN' FOR A LOSIN'

A station stages a call-in cruise giveaway. But the person who types up the winner sheet transposes a name and a number. The result: "While we call the correct number, on-air the jock is announcing the wrong name as the winner," says the promo director. "So, the person we call is awarded the prize, but the other listener, who heard his name announced, calls in for the prize, too. We ended up giving away a second cruise—on our tab."

#### **TOURISTS TRAPPED**

It seemed like a great idea at the time. Then again, so did "Howard The Duck." This promotion director thought a novel way to get free publicity would be to offer a nice prize to listeners who display the call letters while vacationing during the summer, from Memorial Day through Labor Day. "All they had to do was take a photo and send it to us," he says of the Show Us Our Calls While on Vacation stunt. "We received a

grand total of four entries. The best was from one couple who had a banner professionally made and displayed it from the Eiffel Tower."

One little question pops up. Who was there to see it? "My suggestion is to keep a promotion like this in the city you live in," he mutters. "Or, better yet, take it out to a nice, grassy field. And shoot it."

#### **PUTTING IT ON ICE**

Also getting an Eiffel is the top 40 station that staged a French-themed festival. "We decide to have someone carve an ice sculpture of the Eiffel Tower, and inside it is a gift certificate for two round-trip airline tickets to Paris," says the promotion director. "The idea is to guess what time the tickets would fall out of the ice. Whoever guesses right wins the trip."

Problem? The promo ace never thaw it coming. "Three days before the event, I call the restaurant to make sure the ice would be ready," he says. "The manager said the chef who was supposed to carve the ice was fired over the weekend, and they had no idea about the sculpture. Fortunately, we found someone else to do the job."

#### **PRIZE AND PREJUDICE**

Like ringworms burrowed deep in the underbelly of station promotions are a virulent species of swine known as the "prize pig." "By now, we personally know all the prize pigs in town," says the modern rock promotion ace. "In fact, they even rate our jocks, usually based on how many prizes they take home after a remote. One such 'winner' brings his own raw garlic to put on the pizza slices we give away, which created a lovely ambience at a recent remote in a bridal salon.

"Another comp cow is about 50 years old but looks not a day older than 70," he adds. "He thinks he knows more about the station than we do and goes so far as to try to sell our listeners his products—right now, he's hawking digital phones. In other words, he uses our remotes to find his clientele. On the good side, he does wear our T-shirt everywhere he goes. There's a stack of them nicely folded in the back of his car."

#### **PROBLEM? SUTURE SELF**

Familiar with the KISS (Keep It Simple, Stupid!) theory of successful contests? This salesdriven giveaway forgot the simple part but was heavy on the latter. The prize: his-and-her suits. "First off, the contest was totally lacking in excitement, and it ran for two weeks on the air," says the promotion director. "Listeners not only had to listen every day for the DJ to cite a specific number of stitches, they also had to go to the store to enter.

"They did a live remote in the middle of the afternoon for the drawing," he says. "The winner not only had to be present—he or she had to add up all the stitches announced on-air over the two-week period to win the suits. Predictably, very few listeners were on hand, and the woman who 'won' was listening at work but couldn't come down for the drawing." Moral of the story: When it comes to giving away suits, always play close to the vest.

#### **FUGITIVES FROM PROMO JUSTICE**

Four more least wanted promotions. If you have witnessed the following fugitive stunts, do not confront the perpetrators. They may be harmed and innocuous.

- harmed and innocuous.

   Free Fries Friday. Callers get an order of fries, one every hour, from McDonald's. The modern station would've asked for more, but it heard about the "ask for super-sizing, go to jail" law.
- For George Washington's birthday, a client offered to give away a tree and a set of encyclopedias. The PD turned it down, noting that Washington was out of the station's target demo.

• The big-book car giveaway. The dealer offered a Yugo. The adamant promo ace demanded something better—and got a Toyota.

• A soft AC station did a remote from a funeral home. Despite the potential for huge TSE numbers (time spent embalming), when the PD heard about this, he blew a casket.

### **Should Top 40 Take 'Extreme' Measures?**

It was last fall, around the time of the Billboard/Airplay Monitor Radio Seminar, that the predictions began to reach critical mass. Pop music was burning out again; extreme music was going to be the order of the day in short order. All those boy bands were going to burn themselves out, and top 40 wouldn't be able to play the **Korn** and **Marilyn Manson** records that remained.

The advice didn't go unheeded. Top 40 became more of an 18-24 format than ever last fall. PDs began scrutinizing the teen acts more carefully, almost to the point of losing "... Baby One More Time." Both the modern rock crossovers ("Inside Out," "Pretty Fly [For A White Guy]") and the hip-hop crossovers ("Can I Get A . . .") got a little harder. But there wasn't any rush to put Korn and Marilyn Manson on the radio. After all, even modern rock was dealing with those acts reluctantly, at best. And when the audience's desire for straight-ahead pop music didn't dry up on schedule, PDs might have been forgiven if the "extreme" craze wasn't top of mind anymore.

It's 10 months later, and it doesn't appear that the 1.3 million Kid Rock and 1.5 million Limp Bizkit albums have managed to return the issue to the fore, at least for more than a handful of top 40 PDs. Some top 40s, most notably KRBE Houston; WRVQ (Q94) Richmond, Va.; and WXLK Roanoke, Va., are playing "Bawditaba," but it's below the 100-spins mark. "Nookie" is top 10 phones at WKSE Buffalo, N.Y., but, at this writing, only receiving scattered top 40 play elsewhere, and there are no plans to officially work top 40, at least for now. Only one station, KSMB Lafayette, La., has tried both songs.

Kid Rock and Linp Bizkit have done pretty well without top 40 radio. Top 40 radio, for its part, has done just fine with the music readily available to it at the moment. So it would be easy enough for all parties to just go on about their business. Except that it's a little hard for me to just ignore anything that sells 1.5 million records in a month. It's not Airplay Monitor's place to advocate any particular record. But I'd like to share a few thoughts about how "Nookie" or "Bawditaba" would fit in at mainstream top 40 if PDs did acknowledge them.

I. No record sounds hard forever. When WHTZ (Z100) New York was, for all intents, a modern rock station, it played some records that, to me, had no discernable hooks or melody. Hearing "Violet" by Hole or "Bullet With Butterfly Wings" by Smashing Pumpkins on Z100 just made me feel kinda old. Several years later, both those songs are a lot more

palatable to me (which doesn't mean I hear a hook yet in, say, "Stinkfist" by Tool).

Because no record sounds hard forever, top 40 is full of library titles, bring-backs, and 5 o'clock-whistle records that were barely acknowledged by the format at the time. "What I Like About You" hardly seems like a cuttingedge rock record now, but it did in 1980, when it peaked at No. 42. And back then "I Wanna Be Sedated" wasn't even on top 40's radar screen. Regardless of whether they're right for top 40 now, "Nookie" or "Bawditaba" could be the 5 o'clock-whistle records of the future. So PDs may as well at least try to find out whether their audience has come around on them now.

2. Top 40 has, at various times in its history, played records that were just as hard as either "Nookie" or "Bawditaba." It's now possible to discern the hooks and melody in, say, "Round And Round" by Ratt, but I'm not sure I ever heard them in "Smoke On The Water" by Deep Purple or "Barracuda" by Heart. No matter. Before they were "classic rock that really rocks," they were all top 40 hits, even without the benefit of hip-hop beats to make them more female-friendly. And "Smoke On The Water" was on top 40 at the same time as "Sing" by the Carpenters (meaning that it was needed, if for no other reason, as an antidote).

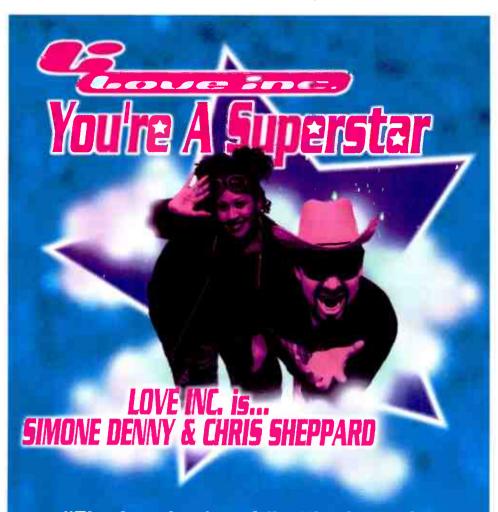

3. Even if Kid Rock and Limp Bizkit don't turn out to be right for mainstream top 40, there's plenty of modern rock that is, and, as usual, PDs don't seem to be searching it out until the labels decide to put it in front of them. For that reason, you have to appreciate a **KZHT** Salt Lake City that didn't wait for "What's My Age Again?" to be worked to top 40. Unfortunately, that's still the exception, as the lag time between modern and top 40 on "Steal My Sunshine" demonstrates (or the fact that there was any lag time between modern and top 40 on "All Star").

Rather than using mainstream pop's failure to implode as justification for ignoring rock's "extreme" acts, top 40's ongoing stability gives us the ability to treat that genre like we do any other, cherry-picking the best stuff. There will be 12-24s who embrace some "extreme" rock just because they can't hear it on top 40. There will be a like number of listeners, particularly those conditioned by MTV, who just regard those songs as part of the "hit music" universe. The trick is figuring when and if those songs filter into the top 40 listener's frame of reference. It's not a task we have to undertake because the format is in trouble without it but one we should undertake nevertheless.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

## Monitor POWER PLAYLISTS MAINSTREAM TOP 40

FOR WEEK ENDING JULY 25, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. 
Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Rhythmic Top 40 Airplay chart.

There's a hot new song out. It's the bomb. And you want to track how well it's doing on your station as well as your competition's. Well, you're flying with the right folks. With our state-of-the-art technology we can tell you when, where and how many times that cut was played. Plus, with our new partner, SoundScan, we can get you local and national sales results. Give us a call at (212)556-9421. You'll see there's no comparison. And, hey, you're not even bartering precious radio time with your competition.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Crossover Airplay chart.

#### FOR WEEK ENDING JULY 25, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressors [1] denotes songs with 6 or more detections station for first time this week.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

#### FOR WEEK ENDING JULY 25, 1999

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week waries depending upon space.

First Impressions (II) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. 
Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are to in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this data in conjunction with the Modern Adult Airplay chart.

The chart, reprinted from Rock Airplay Monitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 68 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks. ©1999 Billboard/BPI Communications

Songs ranked by number of audience, computed by cross-referencing exact times of airolay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are fixed in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Adult Contemporary Airplay chart.
