Top 40 Upstart Outlets See Younger **Demos As Key To Being Competitive**

by Jeff Silberman

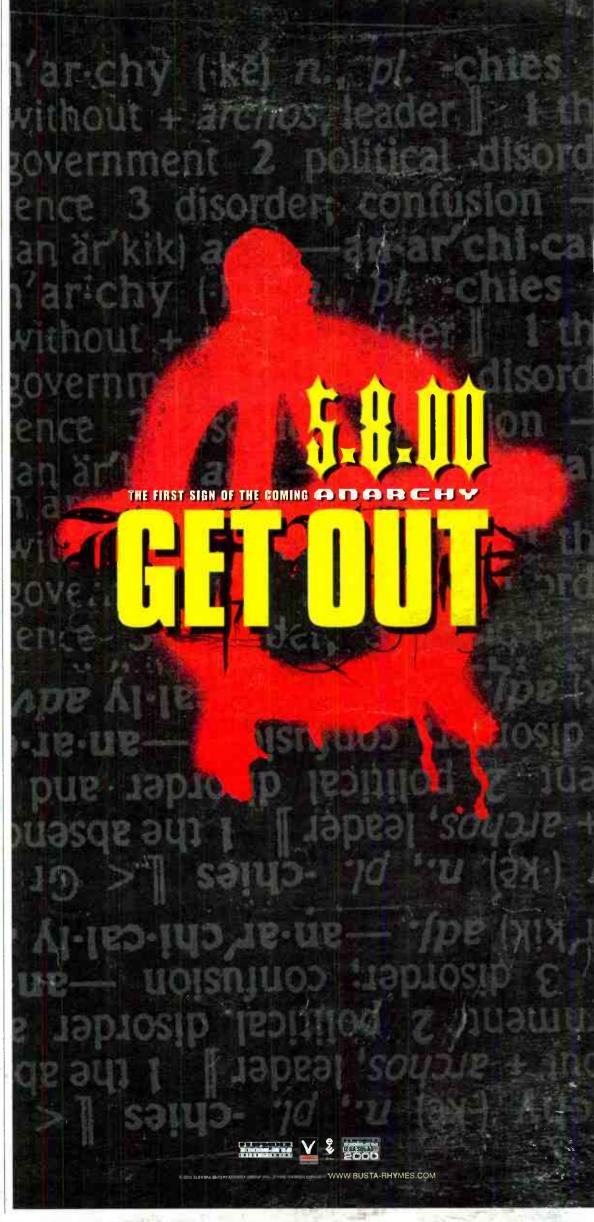

Even when top 40 began getting its legs back in the mid-'90s, most of the stations that began filling the format hole in their markets were operating on the cusp of hot AC. With even high ly rated stations having ditched the format in the early '90s, because they couldn't sell their demos, new top 40s had their eye on adults from the start.

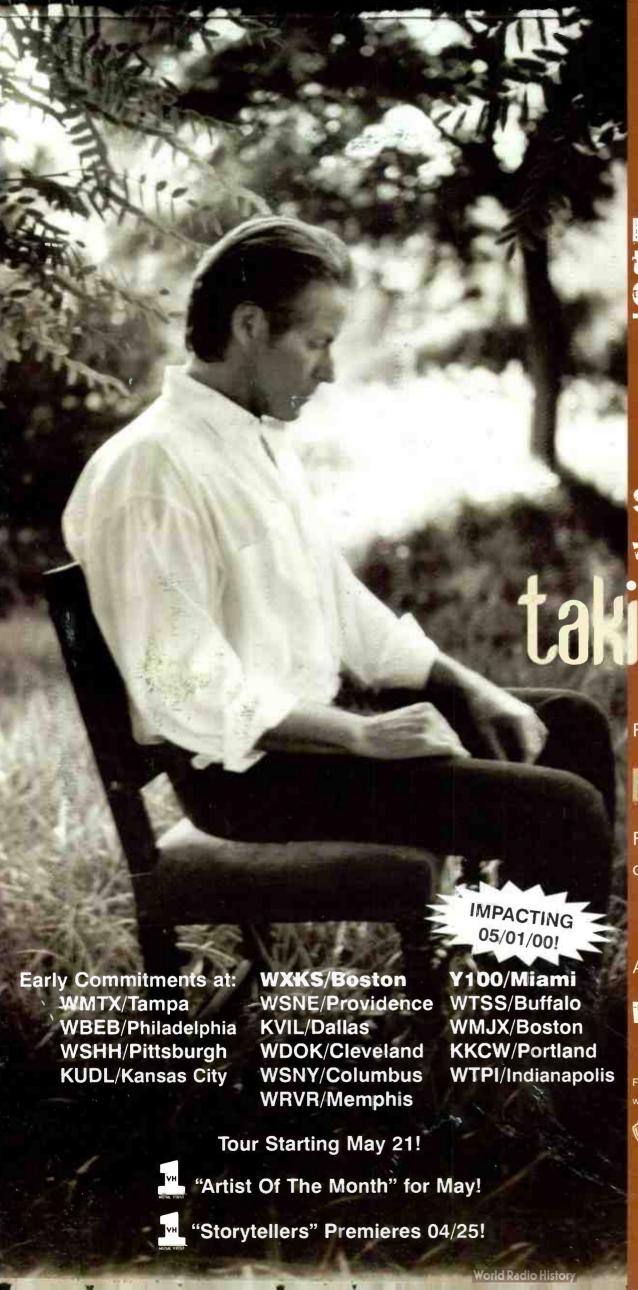

But with an increasing number of markets now getting their second or third top 40, the tack for a significant number of the competitors is to lean younger. Some of those second top 40s, such as WBTS (the Beat) Atlanta and KCHZ (Z95.7) Kansas City, are just slightly to the left of the average mainstreamer but represent a significant contrast to their more adult competition (although KCHZ's rival,

Others, like KPTY (Party Radio) Phoenix, with its emphasis on boy bands, or the new WNOU (Radio Now) Indianapolis, which recalls MTV's "Total Request Live" by mixing the teen acts and extreme rock acts at night, differ considerably from the current paradigm. That these stations exist demonstrates not only the impact of current pop music trends but the economic viability of the young andience. No longer are teens considered an albatross for a station's sales staff.

WWHT (Hot 107.9) Syracuse, N.Y., was one of the first top 40s to attack a heritage rival, WNTQ (93Q), by aiming young. It was also the first station to demonstrate that there might be room for a second top 40 at a time when the industry was just becoming

Emmis' Smulyan Feted; Bill Thomas Exits; New Rhythmic Outlet In Houston

For a radio group that has been conspicuously absent from all the corporate radio acquisition news over the past few weeks, Emmis nonetheless makes headlines on a variety of fronts this week. Chairman **Jeff Smulyan** will be presented with the National Assn. of Broadcasters' National Radio Award at the NAB Radio Show, to be held Sept. 20-23 in San Francisco.

Meanwhile, Radio Unica Network VP/GM/GSM Julio Aponte Jr. will take over as president of Emmis Argentina, where, one week earlier, Emmis' FM News Buenos Aires flipped to Mega 98.3 and its rock nationale format, which plays everything from reggae to grunge rock.

FORMATS: HOUSTON GETS A NEW RHYTHMIC OUTLET

KRTX Houston, which signed on as a young-end Spanish-language station with some English-language music thrown in, has quietly evolved since the beginning of the year. A recent listen to the station found it playing about 90%-95% English-language rhythmic top 40 music, ranging from Eminem and Black Rob to Alice Deejay and even Faith Hill's "Breathe." The station continues to position as "House Party."

With titles from Brian McKnight, Backstreet Boys, and 'N Sync having filtered onto the station in recent weeks, adult top 40 WPLJ New York has added liners touting its increased variety. The station continues to lean to the modern AC side and is still using "no rap" positioners.

Santana Sets Airpower Record

Santana Featuring The Product G&B's "Maria Maria" (Arista) becomes the first song to achieve Airpower status on five different charts in Top 40 Airplay Monitor, cracking the top 20 in both detections and audience at both modern AC and adult top 40 this week. "Maria Maria" was first designated an Airpower title at rhythmic top 40 in November '99. In February, the title achieved Airpower status at mainstream top 40 and repeated the feat a month later at crossover. Airpower is Monitor's identifier of titles that have become a format's consensus hits; "Maria Maria" eventually rose to No. 7 at rhythmic, No. 15 at crossover, and No. 2 at mainstream and remains within the top 20 of all three formats.

Macy Gray scores her first Monitor No. 1, as "1 Try" (Epic) tops the mainstream top 40 audience chart. The title reached No. 2 on the modern AC audience chart and No. 3 on the modern AC and adult top 40 airplay charts. It's currently bulleted at No. 2 on the mainstream top 40 airplay chart.

Last week, matchbox twenty's "Bent" (Lava/Atlantic) debuted at modern AC and adult top 40 with Greatest Gainer and Most New Stations honors; this week, 50 mainstream top 40 stations are showing First Impressions on the title, bringing it on the chart with the format's Most New Stations designation. "Bent" is the group's highest-ever debut at mainstream top

CLEAR CHANNEL COLLECTIVE CONTESTS, CONTINUED

For the record, four group contests identifed in an April 4 story as being conducted by AMFM and Clear Channel are being run only by AMFM outlets. Clear Channel, which will acquire AMFM shortly, is running its own collective contesting. Among the stations participating in Clear Channel's \$10,000 Song of the Day contest, according to their station Web sites, are adult top 40s KDMX Dallas, KHMX Houston, WVMX Cincinnati, and WMMX Dayton, Ohio.

Meanwhile, a number of Clear Channel top 40s, including WNCI Columbus, Ohio; WHYI (Y100) Miami; WFLZ Tampa, Fla.; KKRZ (Z100) Portland, Ore.; KFMS (Kiss 101.9) Las Vegas; WKFS (Kiss 107) Cincinnati; and KSLZ (Z107.9) St. Louis, are par-

ticipating in another group contest, called the Million Dollar Dash for Cash, where winners receive \$5,000 and a trip to **KIIS** Los Angeles' Wango Tango to compete for for up to \$1 million.

'CHICKEN SALAD OUTTA . . .' RECIPE AWARD WINNER

This week's winner is WKZL Greensboro, N.C. When members of the band Vertical Horizon canceled an outdoor charity gig for the station, claiming that cooler-than-usual weather would wreak havoc on their guitars, PD Jeff McHugh started looking for ways to help the charities that would take a hit from the no-show. McHugh's solution: a Vertical Horizon coat drive.

Boss Spring Promos And Easter Beeps

As spring-book promotions continue to dominate the Topical Barometer, we turn our attention to a couple of other high-profile spring occasions. Modern AC WTIC-FM Hartford, Conn., celebrates Secretary Week in two ways. There's the Listen for the Boss Weekend. "Every time you hear your boss 'bossing you around,' the 10th caller wins a pair of tickets to see 'the Boss,' **Bruce Springsteen**," says **Tristano Korlou**. "The [cue] will be something like 'You're late,' 'Where's my proposal?,' and so forth." Also, the station's morning show will host a huge reception for secretaries at a high-end hotel, complete with food, music, and models who'll display the latest fashions.

Paging Peter Cottontail: Country KNIX Phoenix held its annual Easter Beep Hunt for Blind Children. "Once again a local bed store and candy maker have donated candy, Beanie Babies, baskets, and plastic eggs for the hunt," says Vicki Fiorelli. "We hire an Easter bunny and will have free photos with the bunny courtesy of Fuji film. The eggs do beep [a tiny beep-er is inside with the candy], and we have over 100 children from the Foundation for Blind Children finding over 2,000 eggs.

Meanwhile, AC WMAG Greensboro, N.C., hosted its third Eggcellent Easter Egg Hunt and attracted more than 10,000 people, "the largest turnout in the market," says Lisa Fields.

Country WWYZ Hartford, Conn., had its own Nest Egg promotion. The station will broadcast live from a bank on the Saturday before Easter to give away "nest eggs," aka savings bonds, says Stephanie Hogerman. "Listeners can also draw an egg from the Faster baskets for movie premiere passes, T-shirts, chocolate rab-bits, CDs, and a whole lot more. It's a great way to drive traffic to a nontraditional advertiser. when it comes to live broadcasts.

PROMO TOPIC OF THE WEEK: **SPRING PROMO OVERLOAD**

So your big spring promotion is in gear, when suddenly the phone rings and it's a longsought-after potential client who wants to offer a big prize (be it a cruise, major home entertainment center, etc.) for a promotion, but the client wants you to do it now. What to do? Almost half the Promoganda panelists would find a way to creatively add it to the spring book promotion already running, while 35% would run it separately, possibly in an exclusive daypart. The remaining 20% would turn down the promotion unless the client agrees to hold it back until after the current spring promotion. "Clients don't want to compete with the station's priority promotion," says a rock panelist.

Those in favor of working in the new promotion will "find a way to creatively add it to the spring book," says a country panelist. "This happens all the time: You make the giveaway become sales-driven. There are promotional elements that we can do to add value to their giveaway, but for the most part, we make it salesdriven.

"It takes a little political maneuvering to make good," adds a top 40 ace. "It depends on the onair splash, time available, and demands by the client. Remember, the promotions department serves three masters: the listener, the client, and the stockholder. We need to make 'hurry-up' situations good for the client without damaging the on-air product, because without listeners, it's hard to drum up revenue. [The key] is to stay in constant contact with the clients and their sales reps about what's on the air [and] when the spring book promotions will occur—the time frame when promotional opportunities are at a premium-and to plan ahead.'

If it makes sense to add the prize creatively to the spring-book promotion, we'll add it," a modern AC panelist says. "If it doesn't make sense or clutters up the current promo, we don't do it. As far as upsetting clients: Be careful of letting the inmates run the asylum. It's your promotion; it's your radio station.

For those who prefer running separate promotions during spring, a rock panelist suggests "containing [the new giveaway] in a specific daypart. Morning shows always need cool prizes or hold it in afternoon drive or during the workday. Make sure the way you give it away is different from your current contest.

While a country station is running a big cash contest this spring, "doing a big morning-show promotion wouldn't confuse listeners," says its promo director. "We'd make sure it got its fair share of hype and promotion without making it seem bigger than our cash contest.'

QUICK HITS

Modern AC KDMX (Mix 102.9) Dallas stages a Spring Cleaning Weekend, where you can listen to win a Mix spring cleaning prize pack that includes \$100 in dry cleaning, \$100 in maid service, \$100 in carpet cleaning, and a \$100 gift certificate from Home Depot. And Loren Condron still won't do windows.

Short and sweet: Modern AC WBMX (Mix 98. 5) Boston offers a Secret Listener Salute. "Hear your name, call us back within 30 minutes, win \$1,000," says Anne-Marie Strzelecki.

I can't begin to tell you the number of requests this column gets for animal husbandry promotions. Well, when WSTH (Rooster Country 106) Columbus, Ga., PD Ted Turner and MD Kim Carson found out that artist Craig Morgan collects roosters, the morning show sent him a porcelain rooster. To say thanks, Morgan sent a surprise package to the station: a live rooster! Thus begat a Name the Rooster contest. Prizes will be awarded for the winning name. Dave Anderson must have a lot of cluck

Top 40 Upstarts See Younger Demos As The Key To Being Competitive

Continued from page 1

convinced that most markets could handle one.

"93Q was a fine heritage station with great 25-54 [numbers] and a strong morning show," says WBLI Long Island, N.Y., PD J.J. Rice, who piloted Hot 107.9 in its early days. "Our strategy was to be completely different than the other top 40. So we competed against a strong, talky morning show by playing a lot of music in the morning, and since they were almost AC leaning, we took the total opposite tack, and that open piece of pie was rhythmic music that researched and tested well. At one point last fall, Hot had a 6.1 and 93Q a 6.2, which was the closest the two stations have ever been. We're No. 1 in 12-24, and they're No. 1 in 25-34. A new station can't be the best of both worlds or a broad-based 18-34 station. When you're the clone of a heritage competitor, you'll end up second best."

Of course, in a consolidated radio world, a young-leaning top 40 can also be used as a flanking station to cut into the success of a competing station cluster. WNOU has the potential not only to pull adult-leaning WZPL away from Emmis' adult top 40 WENS but also to draw rhythmic top 40 WHHHI away from Emmis R&B outlet WTLC-FM. "[Yet] we felt that a lot of music WNOU can play simply was not getting much attention in the market," says Emmis executive VP of programming Rick Cummings.

"As Steve Rivers once said, 'When stations are programmed in a market cluster, a focused younger-end station can help out sister stations in the market'-by, for instance, taking away something from a rival adult top 40," Rice says. "Combined, a younger-end top 40 and an AC can take away from an adult top 40, which is what [rhyth-mic top 40] WBTS and [AC] WSB-FM are doing to adult top 40 WSFR (Star 94) in Atlanta."

WBTS PD Mike Abrams also cites the teen acts' multi-demo appeal as a way for the Beat to establish a foothold against Star 94. "We saw a hole in the market and went to fill it," he says. Top 40 is very healthy right now. The younger groups are helping to the point where they not only have a young appeal but they're nonoffensive to adults. They're exhibiting more talent than flash-in-the-pan appeal."

But multi-demo appeal notwithstanding, the youthful acts' ability to attract a sizable teen core is the foundation of these stations' development.

"We have a high teen fol-lowing," says Mike Austin of KCHZ (Z95.7) Kansas City, who's going up against heritage KMXV. We've won the teen race, and we continue to keep running. We're still playing the records the kids like and the adults can grow to like. That music

Not only must the top

has done it for us.

40 upstarts play the multi-demo teen hits, but they need to play them far more frequently. "Top 40 is about cume and having as many people come to the party as much as possible, so we rotate our powers 100 times a week," Abrams says. 'If you give the people what they want, when they want it, you're fine. When people turn on a station, they want something to attract their attention, because we're not only competing with other radio stations, we're competing with the In-

ternet, MTV, cell phones—anything that can take their minds off radio. So, when they tune in to [us], they have to know what's going to be played on it. Without that kind of an identity, you're fighting a losing battle.'

BUYING INTO TEEN BUYS

With an unabashedly younger core, these top 40s are also cognizant of the lucrative consumer resources of their audience and know how to mine it for their clients. "Teens today have more disposable income than ever before," says KPTY GM Pat McNally. "They make [purchasing] choices on soft drinks, jewelry, food, clothing, and entertainment. Movie companies have become huge advertisers, as have WB, Fox, and the UPN networks. In no small way, their programming is geared to teens, too."

'We were in the fortunate position of building our own sales staff from total scratch," says Abrams. "A lot of sellers who hadn't sold top 40 before have done a fantastic job of educating clients who have not seen this kind of station in Atlanta since [WAPW] Power 99. It has been an

education process for advertisers. Once they understand what we're about, they've come to the table, and we're do-

ing well in that aspect."
KCHZ has seen success with summer job fairs. "Last week at a local teen nightclub, we had about 20 businesses, such as Mc-Donald's, Pizza Hut, the Army, and even Harrah's

Casinos," Austin says. "We got the clients together at the club, where I did my air shift, and we brought in literally hundreds of kids. It was an incredible turnout. We gave away door prizes, but the biggest prizes were walking out of there with summer jobs. Saleswise, the station did very well,

McNally cites a recent bumper-sticker promotion focusing on a grand prize of 'N Sync tickets and backstage passes. "We gave envelopes to the first 1,200 cars that pulled up to a remote and had a Party Radio bumper sticker put on their car," he says, "Most of the prizes listed in the envelope were station T-shirts, plus there were a lot of CDs and a few DVDs and car stereos thrown in, along with the 'N Sync grand prize. We had people in line, sleeping in their cars the night before, and more got there at 6 a.m. for a 9-till-noon promotion. In all, about 1,500 cars—basically parents doing this for their kids—showed up, because there's a real passion for this music

STAYING HOT OR COOLING OFF?

Now the question is how long these stations will be able to ride the boom in younger-skewed top 40 music. Many of these stations signed on after late 1998, meaning they've already defied pundits who were predicting an end to the boy groups and a return to more "extreme" music. But questions remain about the length of the window of opportunity for younger-end outlets.

"This format continues to be absolutely red hot, as more good music continues to get made," Cummings says. "We feel that this target audience is so active, they're very good about spending money. If they keep consuming these products, we'll do just fine if and when [the cyclical format dip] comes. In the meantime, we see no sign of a dip. Look at [WBBM-FM] B96 Chicago and KHS Los Angeles and the runs they're having. Our conclusion is that we'll be just fine, if we just do it half as well as they're doing it.

"It is exciting to be back in this format [at WNOU], which we haven't done since WLOL Minneapolis," Cummings adds. "It has been a good lesson, watching things develop over the past two years. For a long time, it was very tough to be a dominant top 40, not because of its demo

appeal but because of fragmentation specialists on all sides. I tell you what, though: This format has found its legs and bearing. It's centered again. Whether we can keep it that way depends on the music the record companies make for us. As long as there's a big pop center, we'll have a long run."

'Sure, this can last even longer," Rice says. "When the Backstreet Boys and 'N Sync are selling 10 million to 20 millions records combined, they can't all be to 13-year-old girls. There's also males buying those records, as well as adults. That's why AC stations and adult top 40s like WPLJ New York are adding 'N Sync,

too."
"Look at what's happening now at the format, and you'll still have some programmers who believe that this will burn out," Abrams says. "But in reality, I feel that as long as the audience really likes this music, we shouldn't be the ones to say it's over. That's why we talk to

When Is A Crossover Ready To Cross?

It's been a while since the paradigm of when to cross an R&B record to pop was shattered. Some labels believed they had to have a home run at R&B before even rhythmic top 40 would be interested. Others used rhythmic to start records—e.g., "There You Go" and "Bring It All To Me"—and spread them to both mainstream top 40 and R&B from there. Not being an established R&B hit didn't always hurt an R&B record with top 40 PDs; perversely, there were times when it may have actually helped.

I'm starting to notice a similar dynamic with some modern rock records now. While mainstream top 40 PDs have been more than happy to give their modern brethren a surprising amount of lead time, even on such obvious smashes as "All Star" or "Every Morning," 550 found early takers on **Nine Days'** "Absolutely (Story Of A Girl)," which is only a few weeks ahead in its development at modern rock. And Capricorn is going straight to top 40 with **Deathray's** "Now That I Am Blind," rather than starting at modern with a harder track from the former Cake members and using a mass-appeal single as cleanup later.

That doesn't necessarily mean that top 40 PDs are being more conscientious about watching the modern rock charts. There are other records in similar stages of development, or further along, and you'd think they would also be picking up some pop airplay by now, e.g., 3 Doors Down's "Kryptonite" or Stone Temple Pilots' "Sour Girl." But their labels haven't gone for those records at top 40 yet. That's usually the best explanation of what has and has not crossed yet. And with that goes the question of label priorities and scheduling. With Barney Kilpatrick newly arrived at Capricorn and hoping to reintroduce the label to pop PDs, he can concentrate on "Now That I Am Blind" right away. Not everybody else can do that, unless a fastbreaking title forces the schedule to change.

I'm not suggesting that top 40 PDs are too early on any of these songs. In fact, PDs usually wait too long on modern crossovers and ridiculously long on R&B ones. But since there's no longer any consistent paradigm on when a crossover record will end up on programmers' desks, do PDs have any consistent rationale for when a record is ready to be on their station?

KKRZ (Z100) Portland, Ore., PD Tommy Austin voiced his rule of thumb earlier this year when he told Monitor that with a crossover/R&B rival, KXJM (Jammin' 95.5), in the market, he tried to find the ground between playing KXJM's hits too soon and helping to legitimize them or playing them too late and letting KXJM own mass-appeal songs. As it happens, Z100 looks as though it has a pretty good handle on things. It's faster on R&B crossovers than the national mean, but it's

been able to maintain an on-air balance, as opposed to being forced into, say, a WFLZ/WRBQ Tampa, Fla., situation, where the latter station overcompensated by going too rhythmic

Very few programmers have that exact market situation. In many markets, the station warming up the R&B records has its own set of African-American P1s to concentrate on and isn't considered part of the top 40 universe as KXIM is. While those stations don't have to be as worried about helping warm up their rivals' music, they're also less likely to "feel" a record from an R&B station. Instead, they let top 40 PDs in other markets start those songs, or they get them from MTV.

My own instinct on crossovers is that there's something to be said for having them on your station when they're powers on your rival, as opposed to letting them circle the country, ending up with you when they're recurrents on the competition. As has been noted in this column before, it's not like taking advantage of the 15%-20% shared listening with a rival is a bad thing. Besides, if your audience isn't feeling a record from your competition, they're certainly not going to hear it on a like station 300 miles away. So why should that station be the acid test on whether a record is ready for them?

The other answer to "when should you cross over a record?" is "as soon as you know. Not necessarily as soon as you know it will be a chart hit, but as soon as you know that it will work on your radio station. Either because you feel that it's the kind of record that performs for you or because you think it will add so much to the entertainment package of a radio station that whether it becomes an "A" isn't

The caveat is that if you add a record early just because you believe, you have to be willing to wait it out. **Stroke 9's** "Little Black Backpack" was a relatively subtle record that per-formed for some stations that could live with it for a while. A lot of PDs-on both the modern and top 40 side—were early believers but wouldn't wait for it to come home. That doesn't mean they shouldn't have played it. It does mean that if they only wanted to risk four or five weeks of airplay, they could have done it when "Backpack" was closer to achieving critical mass, and the end results might have been different.

In the end, the increased number of records going to top 40 first (or at least earlier) is a nice change from three to four years ago, when the format couldn't even have **Hanson** first. Long-term, it has the potential to change programmers' minds about what works or doesn't in their markets. One hopes that the further result of that will be a willingness by PDs to search out more of the songs that are already hits in their markets.

Entercom Reaffirms Violent Lyrics Ban

A year after the Columbine High School tragedy, group owner Entercom is pledging \$2 million in promotional support to community organizations that work with kids to stop violence. Last year, the company gave more than \$1.5 million in support to such groups.

The group has also reaffirmed its policy, adapted last June in Columbine's wake, to reject any songs that "advocate or condone criminal violence or which contain ultra-violent content in the context of a socially irresponsible message." The ban extends to advertising for CDs, videos, or games that violate the pol-

CAPITAL: ANALYST HAILS CC/SFX SYNERGIES

In his quarterly analysis of radio, PaineWebber analyst Leland Westerfield sees a strengthening relationship between radio and the music industry, pointing to Clear Chan-nel's "trendsetting" \$4.4 billion buy of SFX Entertainment. The deal gives Clear Channel the ability to tighten its relationship to listeners by differentiating its offerings with locally focused live and Webcast concerts, says Westerfield. With a better ability to "serve the message delivery of national marketers, Westerfield predicts a bigger piece of ad budgets going to Clear Channel and more return on revenue for investors—which he terms "organic growth.

While radio stocks are down 19% for the year to date, Westerfield says, a number of stocks began the year overvalued by as much as 8%. "By my estimation [they] are now 12% below fair value," which he says makes them better buys

Besides Clear Channel, Westerfield says, Emmis, Cox Radio, and Hispanic Broadcasting are in a good position for growth. "Year 2000 advertising growth is living up to its marquee billing," says Westerfield, who has bumped up his ad-growth projection from 6.5% to 8%. In the first quarter, he says, radio advertising grew by 18%. "Prophecies voiced by others that advertising growth would stall after the 1999 holiday season and millennial rush have so far proved false," he adds.

It's now official that Spanish-language broadcaster Entravision is buying Z-Spanish Radio, which owns stations and syndicates programming, for \$475 million. Entravision has also filed a \$615 million IPO.

Cox Radio announces a three-for-one stock split, effective May 12. Cox stock is currently trading at \$74 per share. Cox has also filed with the Securities and Exchange Commission to sell up to \$750 million in stock, in part to help pay for its \$380 million in purchases from Clear Channel in Houston and Richmond. CAPITOL: INJUNCTION ON FCC EEO SOUGHT

At press time, the U.S. Court of Appeals for the D.C. Circuit had yet to rule on a petition, filed by broadcasters' associations from nearly every state, seeking a temporary injunction to block the FCC from enforcing its new equalemployment-opportunities regulations. The rules took effect April 18, and the FCC is moving forward with implementing the regulations by issuing a new EEO form stations will be required to fill out to prove they conducted outreach efforts when filling vacancies.

During this month's House floor debate over low-power FM, Rep. Billy Tauzin, R-La., accused the FCC of violating federal lobbying

MONITOR PROFILE

Jay Michaels Steps Up To Keep KRBE Running At Peak Efficiency

You'd be hard pressed to find a smoother transition than when Jay Michaels was promoted from APD/MD to succeed John Peake as PD of KRBE Houston. Even so, Michaels was surprised when Peake, who's headed to Europe's NRJ chain, shared his decision to move on. "No doubt about it, I was surprised," he says. "Fortunately, John has been very generous. He really helped me in all aspects of being an APD/MD and gave me the tools to grow into the PD position. Though I was surprised he was leaving, John, GM Nancy Vaeth, and [Susquehanna group PD] Rick McDonald have prepared and supported me for moving up, and I have never wavered in my desire to achieve the next step, something I have always wanted to do.

Peake and Michaels have been one of top 40's most successful programming teams since 1996, when Peake was hired from KQKS Denver and Michaels left his APD/MD post at modern KDGE (the Edge) Dallas to join him. "It took us about six months to feel comfortable [at the station]," Michaels says. "We saw an opportunity in the market to mainstream KRBE a bit. We found three records-the Fugees' Killing Me Softly," La Bouche's Be My Lover," and Robert Miles' "Children"—not being played on the station that we felt our audience would accept. At first, some people here were a bit unsure about it, but after the songs went into rotation, everyone warmed up to them. That became a real turning point for us.'

Those songs were key, because they mirrored KRBE's unique heritage mix of modern, techno-pop, and rhythm. "That's why we fought for those songs. They fit the heritage of KRBE," Michaels says. 'La Bouche was an updated version of Erasure. Robert Miles fit in

with the times, when modern rock like Bush was really popular. Those records fit really well, and we started to progress from there."

KRBE continued to grow as the modern rock trend segued to the Lilith sound of female singer/songwriters and even when that went out of vogue. "We always try to keep on eye on where the music's going when we book our spring concerts," Michaels says. "John and I try to predict the next big thing. The singer/song-writer thing didn't seem like it was going to slow down at all until the second Jewel and Alanis albums. Even though they both had good songs, we saw the audience's appetite [for them] slow down. We tried over the past year to play them, but they didn't catch the audience's attention. However, a great record is a great record, and if they come out with an amazing record, we'd love to play it. They need another great record.

The only artist of that ilk that our audience still has a huge appetite for is Sarah McLachlan, 'Angel' and 'I Will Remember You' are two of our piggest records.

Here's KRBE in afternoons: Kid Rock, "Only God Knows Why"; Jay-Z, "Can I Get A..."; Tina Cousins, "Pray"; matchbox twenty, "Back To Good"; Christina Aguilera, "What A Girl Wants"; Missy "Misdemeanor" Elliott, "Hot Boyz"; Goo Goo Dolls, "Black Balloon"; Amber, "Sexual (Li Da Di)"; Westlife, "Swear It Again"; Inoj, "Love You Down"; Mark Morrison, "Return Of The Mack"; Savage Garden, "Crash And Burn"; and Santana Featuring The Product G&B, "Maria

expect call-out for a complicated record like that. I felt it was an amazing record, so we stuck with it, and we're still playing it to this day. Robbie Williams' 'Angel' is another record that needed time to develop. John and I both thought it would be a smash, and it has been in power for quite a long time. Not every record can be like a Britney Spears song and go up the charts quickly. Those [slow-developing] records

"If a rap record isn't calling out, even if it requests huge, it's not going anywhere," Michael continues. "But now we're finding rap records calling out. We can't get rid of ODB's 'Got Your Money.' It's top 10 research in all demos, which is great, because it proves that you can hear all the best music on one radio station.'

give our station balance.

Besides maintaining KRBE's momentum, Michaels' main order of business is finding his successor as MD. "We're looking everywhere, from people in-house to candidates across the country. We're not in any hurry to just find anyone. We need someone who has that KRBE vibe, which is hard to put into words. That person has to be familiar with the heritage of KRBE and appreciate certain sounds, such as Alice Deejay's 'Better Off Alone,' which we played real early. The next MD will have to be familiar with records that may not be national top 10 hits but are 'KRBE records.' We want to be early on them to fill that Depeche Mode gap."

The importance of KRBE's musical identity pervades every daypart, including mornings. "For our spring promotion concept, Diva Dollars 2000, morning host Sam Malone names the diva song of the day at 6, 7, and 10 a.m.," Michaels says. "After we play two of that diva's songs in a row, the 104th caller wins \$1,000. Not only do we give people money, but it rein-

forces our music position."
In middays, Michelle Fisher dips into KRBE's heritage by playing nonstop "energy" music. "It brings people back to a time when that music was hot-the early '90s of En Vogue and Depeche Mode mixed with upbeat currents by Sonique and Destiny's Child," he says. "It's get-

ting a huge response.' Now ensconced in his "dream job," Michaels is eager to keep the good times rolling. "I want to take the station to the next level with my own style," he says. "We're aware of the market situation, but we don't react to other people. We improve our product every day regardless of competition. The bottom line is that competitors have come and gone, and KRBE continues to be very healthy and a fun place to

carefully monitor how those songs were added and dayparted. "'N Sync, Backstreet Boys, Christina Aguilera, and Britney Spears are part of a pop cultural phenomenon," Michaels says. 'We're playing three tracks from 'N Sync's new album. But we're not OD'ing on [the genre], because we're very cautious about the sound-alikes. We want them to prove themselves with national exposure before they can saturate our airwaves. We really examine them song by song. That's why we're on Mandy Moore's 'I Wanna Be With You;' it doesn't sound like the others.

Like most majors, KRBE relies on call-out, but Michaels is conscientious about giving records a decent shot before testing them. "If we spin a record enough and it's still not calling out, there's nothing we can do about it," he says. "But we always try to give each record a fair chance. You can't add 'Black Balloon' and play it 25 times and

Songs ranked by number of audience, computed by cross-relemencing exact times of airplay with Arbitron listener data. Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same penod. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Mainstream Top 40 Airplay ch

A song that has been on the chart for move than 20 viceks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are bach gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When ted songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs being the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of detections. Songs showing an increase in detection: over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

The chart, reprinted from Rock Airplay Menitor, is compiled from a nabonal sample of data compiled by Broadoust Data Systems. 68 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a builet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this waek. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs lelow the top 20 become recurrents and are removed from the chart after 26 weeks. © 2000 Billboard/BPI Communications
