Today, Napster Is A PD's Toy; Soon, It May Be The Competition

by Jeff Silberman

Buoyed by an abundance of massappeal hit music, surging ratings, and a growing demand for spot inventory, top 40 PDs have every right to feel good right now. Yet somewhere below top 40's radar is this year's new toy. Napster, which has become a fighting word to the record labels and retailers. Is radio immune to the impact of this technology, in terms of how it may affect listening habits or siphon off listeners? While a majority of radio programmers polled for this report are well aware of Napster and have even used it, its presence is mainly being felt only on the most active listeners. However, there is a small but vocal contingent who are concerned about its long-term impact.

Already, three-quarters of the programmers we spoke to are aware of and have used Napster and/or MP3,

either personally or for their stations. "I love Napster," says WKZL Greensboro, N.C., PD Jeff McHugh. "We use it like our own music library. Need a song but the rep from the music label can't seem to get it in the mail? It's no longer a problem!"

"We've used Napster to download some gold library music that we otherwise would have had to go out and buy at the local record store," says AC WSNY (Sunny 95) Columbus, Ohio, PD Chuck Knight.

"I use Napstar all the time to get hard-to-get titles to listen to imme-diately," adds consultant Guy Za-poleon. "Everybody I meet under the age of 21 uses Napster on a regular basis. It's tearing up college campuses and high schools. I've yet to find a title old or new I can't get on Napster.

"I use both Napster and MP3 to check out new music, but it still -

The 13th annual T.J. Martell Music Industry Roast took place June 6 at New York's Irving Plaza. Before they took their shots at this year's honoree, modern WNNX (99X) Atlanta PD Leslie Fram, the dais posed for this picture. Show, from left, are Fram's morning co-host, Jimmy Baron; Susquehanna director of FM programming and MC Brian Philips; Matt Pollack of V2; Ron Poore of RCA, event chairman; Columbia's Kid Leo; consultant Randy Lane; former 99X APD/MD Sean Demery; Fram; Universal Records president Monte Lipman; Capricorn's Nan Fisher; and Fram's husband, Lanny West of JustWest Entertainment.

Clear Channel Ups Poleman, Smith

As Clear Channel and AMFM prepare to merge, the companies continue to create a new management structure. Senior VP of programming and top 40 WHTZ (Z100) New York PD Tom Poleman is upped to regional VP of programming for the East Coast, covering AMFM/ Clear Channel stations in markets including New York, Philadelphia, Boston, Detroit, and Washington, D.C. Poleman will report to senior VP John Fullam.

On the other side of the Mississippi, senior VP of programming Steve Smith is named executive VP for the west, covering stations in markets such as Los Angeles, San Francisco, Chicago, Minneapolis and Sacramento; he will also have additional national format duties. Smith will report to executive VP David Lebow.

In other Clear Channel news, the DOJ is blocking Hispanic Broadcasting Corp.'s \$127 million purchase of three Clear Channel spinoffs, including rhythmic KKFR (Power 92) Phoenix, modern rock KXPK (the Peak) Denver, and oldies KEYI Austin, Texas. The DOJ blocked the sale because Clear Channel owns a 26% stake in HBC. Also, it's buying the Roberts Radio group for \$65.9 million, including adult top 40 WBWZ Poughkeepsie, N.Y.

PROGRAMMING: BACK TO CALL

WKRQ (Q102) Cincinnati OM Mike Marino returns to Southern California, taking the PD post vacated by Don Parker at R&B oldies KCMG (Mega 100) L.A., starting June 26.

Clear Channel Raleigh, N.C., OM Brian Burns, whose oversight included top 40 WDCG (G105) and AC WRSN, is looking for his next career move. His position will be eliminated once the Clear Channel/AMFM merger is consummated. Meanwhile, Mark Kaye, morning producer at G105, leaves to be the morning honcho at WBBO (B98.5) Monmouth/Ocean counties, N.J., joining Kris Gamble and Jen Winter. He replaces Dave Packer, now with AC WFPG-FM Atlantic City, N.J. Exiting G105 with Kaye is promotion director Pam Dziuba.

In Austin, Texas, KHFI PD Leslie Basenberg-Whittle heads to Houston to be MD to PD Jay Michaels at KRBE. Clear Channel VP of programming John Roberts will reinherit KHFI's programming reins, and he'll need a new production director, as Mike McKay also exits.

WLCE (Alice 104.5) Philadelphia PD Kurt Johnson is upped to OM of the classic hits/adult top 40 hybrid. Meanwhile, former WLCE MD Joe Proke resurfaces as assistant MD at jazz sister

Several weeks before Radio One closes on KKBT (the Beat) L.A. and moves it to 100.3 FM, its VP of programming, Steve Hegwood, is in the house as a consultant to outgoing owner AMFM. Meanwhile, Dave Ferguson is now doing the voice work for Radio One's mainstream R&B outlets in every market except Washington, D.C., where Radio One's WKYS competes with Ferguson's WPGC-FM.

Former oldies WWBB Providence, R.1., PD Al Brock joins top 40 WMRV/AC WMXW Binghamton, N.Y., and their duopoly partners as director of programming.
WZPL Indianapolis night jock Ted Striker

takes the PD gig at WILN Panama City, Fla.

Adult top 40 WNFB (Mix 94.3) Gainesville, Fla., afternoon driver Scott Berns is upped to PD/ MD/morning host, replacing Chris Chaos, who exits. Berns is also the former PD of crosstown country WQLC...

Classic rock KSFQ (Q101) Santa Fe, N.M., flips to AC as Mix 101.1 under PD John Major.

Former Gannett Radio president (and R&B oldies WXXM Philadelphia consultant) Gerry DeFrancesco and WNVZ/WWDE Norfolk, Va., PD Don London join the Radio Advisory Board of Alan Burns' Pickthehits.com site.

COX KEEPS WTMI CLASSICAL

Matchbox Twenty Logs Second Mod AC No. 1

ALTHOUGH THE GROUP is certainly a mainstay at modern AC, "Bent" (Lava/Atlantic) is only matchbox twenty's second No. 1 at the format, following "3 A.M.," which topped that chart in January '98. "Bent" passed the Airpower mark in the Top 40 Airplay Monitor dated April 21, at which time it also picked up Greatest Gainer and Most New Stations honors. The Airpower designation, which is given to a song when it enters the top 20 of a format's airplay and detection charts (while posting gains on each), is the industry's most accurate predictor of a song destined to be a hit and does the job again here.

SPEAKING OF 1ST IMPRESSIONS ... That's the term we've been using since last June on our Power Playlist pages to show the songs receiving six or more spins for the first time at a given station. This week, we're also using that term instead of Most New Stations on our Impact! page to show you the songs with the most new real airplay (as opposed to reported adds). The 1st 1mpressions box on the Impact! page will tally and rank these 1st Impressions and show the stations where they got their new airplay this week.

PERSONNEL FILE: Active Industry Research president Bruce Tyler is promoted to CEO. AIR also promotes Kevin Powell to VP/GM, Andy Arnold to VP/mainstream top 40, Mark Czarra to VP/modern rock, Colby Crawford to senior director/mainstream top 40/adult, Joe Cash to national director of its "Masters Competition," and Tony Anderson to senior director/rhythmic top 40/crossover.

PANEL CHANGE: KBBT Portland, Ore., exits the adult top 40 and modern AC panels.

WFAN TOPS TOP BILLERS

Duncan's American Radio has released its annual list of the top-billing radio stations in the country. Once again, sports WFAN New York ranked first, billing \$67.5 million last year, a 25% increase over 1998. Howard Stern's home, modern WXRK (K-Rock) New York, ranked second by billing \$54.4 million, followed by crosstown AC WLTW and N/T WINS. Rounding out the top five was top 40 KIIS Los Angeles, which billed \$44.5 million in 1999.

The Radio Advertising Bureau says the second quarter of 2000 got off to a good start, with combined local and national advertising revenues climbing 22% for April, compared with April 1999. The increase in national advertising spending outpaced local ad growth.

AN OVERVIEW OF RADIO PROMOTIONS • BY JEFF SILBERMAN

Surviving The Hot New Station Promotion

Father's Day is the king of the Topical Barometer this week, but the hottest promo news is the rash of stunts built around CBS-TV's hit series 'Survivor." Album rock WZTA (Zeta) Miami will monitor five listeners 24/7 in **Surreal World** for three months. "They'll be forced to band together, using their collective wits to survive," says Camie Dunbar. "Those who succeed will be rewarded with things such as food, cold beer, bigscreen TVs, etc. Those who fail must do without." Surreal World survivors win cash prizes and products from various retail stores.

Adult top 40 KSTP-FM (KS95) Minneapolis morning duo Van and Cheryl picked contestants to stay in a camper for a week, where they will be subjected to certain challenges. "They're allowed only a few select items—everything has to fit into a lunchbox-and every day the contestants will pick two people, and the listeners will finally vote on which one of the two actually leaves," says Melanie Clemons. "The last one left in the camper receives a grand prize of \$5,000." Top 40 WZEE (Z104) Madison, Wis., put

four people on Fanta-Zee Island, a fenced-off area in front of its studios, for four days. Living off of Spam and water, they compete for luxuries like sleeping bags, toothpaste, and razors. Listeners vote one contestant off the "island" each day, until the lone survivor wins a trip.

Rhythmic top 40 KDON Monterey, Calif., locked five listeners in the production room and forced them to live off vending-machine food. The last one wins tickets to see Santana.

Top 40 WNCI Columbus, Ohio, has five women in a pop-up trailer in front of a client locale. Armed with just a lunchbox of personal items, they vote one contestant out each day, until listeners pick one of the two survivors as the

winner of a grand-prize trip and cash.
Country sister WCOL put five listeners (four just quit smoking) on a pontoon boat in a nearby lake. They get one meal a day from a family member and have to fish for an inner tube of food from the station. If they can't reel it in, tough luck. This promo's survivor wins \$1,000.

PROMO TOPIC OF THE WEEK: BEST OF 2000 (SO FAR)

With 2000 nearly half over, we asked our panelists to name their favorite promos so far this year. Here's a sampling of their responses:

Anne-Marie Strzelecki, modern AC WBMX (Mix 98.5) Boston: "The Working Women's Workshop was an event that had applications for the listener and the sales staff. It went outside the realm of music and acknowledged our listeners' lifestyle . . . This particular session dealt with effectively balancing work, family and personal life, and making effective changes to the

areas of your life [that] needed them the most."

Dianna Obermeyer, R&B KPWR (Power 106) Los Angeles: "[For] Who Wants to Be a Hip-Hop Millionaire?, we hired a Regis Philbin sound-alike, who asked hip-hop trivia questions. Listeners scored \$1,000 and qualified for a chance at a million in a Brink's truck. The entire event was broadcast live on [local TV].

Jim Sheehan, album rock KSJO San Francisco: "Our Morning Sickness billboard campaign [shows] pictures of the Lamont and Tonelli morning show pregnant. We went on to do our second annual Miss Morning Sickness Pregnant Bikini Contest.'

Vanessa Thill, rhythmic top 40 KLUC Las Vegas: "The Morning Zoo Mass Wedding for Valentine's Day [had] more than 50 couples married at the same time at a local wedding chapel. KLUC provided the flowers, wedding cakes, honeymoon, wedding gifts, and discounts on tuxedos and wedding dresses."

Donna Talarico of country WGGY (Froggy 101) Scranton, Pa.: "[For] the Kershaw Cook off, 10 'chefs' concocted spicy Cajun recipes, and local celebs judged the food. Qualifiers got tickets and a CD; the grand-prize winner got a limo ride and dinner with Sammy Kershaw the night before the show and front-row seats.

The panel also cited great stunts by others:

Top 40 WKIE (92 Kiss) Chicago staged a Wanna Be in Pictures? campaign, where it looked for listeners who would be included in

its spring outdoor-advertising campaigns.
• Modern WKQX (Q101) Chicago offered listeners \$1,000 for saying "fuck" on the a.m. show of modern AC rival WTMX.

NTR PROMO OF THE WEEK

Country KNIX Phoenix helped celebrate Police Week with a live call-in from a celebration in Washington, D.C., and it appeared at the unveiling of the new police memorial in Phoenix. "We got Secure Horizons/Pacific Care to underwrite the program," says Vicki Fiorelli. "They received promos, PSAs, and spots on all four of [Clear Channel's Phoenix FMs], and the program ran great. Also, all four radio stations sold blue light bulbs for Police Week—using it as a front-porch light showed support of the police."

QUICK HITS

WBMX teamed with the local UPN channel for the "Star Trek: Voyager" Quest for Cash, watch-and-win contest. "A total of \$30,000 was given away, \$10,000 in qualifying money and two \$10,000 grand-prizes," says Strzelecki. Country WYNY (Y107) New York produced

a Passport to Summer Safety Guide, a custom, branded guide to summer safety that can be picked up at any Y107 event. The 16-page guide [has] features on vacationing, pet safety, boating, camping, cooking, insects, etc.," says Jason Steinberg. "For a copy of 'Passport To Summer Safety' and, or info on how to produce your own, call me at 914-592-1071, ext. 107.

Sharing Wealth Of Hits Helps Jim Ryan Continue WLTW Reign As King Of NYC

WLTW (Lite FM) New York PD and AMFM director of AC programming Jim Ryan is a firm believer in the "share and share alike" philosophy in cluster programming. By embracing the hits broken by his AMFM sister stations, top 40 WHTZ (Z100) and rhythmic WKTU, Ryan has maintained Lite FM's reign as the top-rated station in the Big Apple.

"When I came here in fall '96, we became much more aggressive with current music and hit product crossing over from other formats," Ryan says. "Since then, we've spent 10 out of 14 Arbitrons at No. 1 12-plus, and 11 out of 14 at No. 1 in our target age group. We achieved that consistency simply by playing the big hit records we crossed from Z100 and WKTU. That's one of the things that made this job so easy: the fact that there are other mass-appeal radio stations in New York with big audiences."

'If you go

on a song,

you have to

make a full

commitment

to it '

Jim Ryan Program Director WLTW New York

Owner: AMFM Ratings: 5.4-6.1-5.7-6.4

Obviously, Ryan's aggressive programming, which increased audience sharing with his sister stations, hasn't hurt Lite's ratings. "Although we do share listeners with others, WKTU and Z100 in particular, there are certain kinds of sounds each station starts, and there are others stations jump on," Ryan says. "For instance, WKTU started Ricky Martin, and Z100 started Backstreet Boys, and I started Shania Twain, and now all three play those acts. There's a lot of crossover on current product. But after we all play a Backstreet Boys track, Z100 would follow it with something from Pink, while WKTU would play Sisqó, and we'd follow it with a song from 'Dirty Dancing.' For us, when we surround a Lara Fabian song with familiar songs, [our audience] can become comfortable with new artists sooner."

Here's a sample midday hour on WLTW: Rod Stewart, "Tonight's the Night (Gonna Be Alright)"; All-4-One, "I Swear"; Genesis, "Throwing It all Away"; Police, "Every Breath You Take"; Faith Hill, "Breathe"; Emotions, "Best Of My Love"; Richard Marx, "Hold On To The Nights"; Santana Featuring Rob Thomas, "Smooth"; Journey, "Open Arms"; Elton John, "Goodbye Yellow Brick Road"; k.d. lang, "Constant Craving"; and Whitney Houston & Enrique Iglesias, "Could I Have This Kiss Forever."

WLTW's changes since 1996 have signified a larger sea change at AC. "Kenny Rogers and Michael Bolton are gone from the format, and Barbra Streisand is, too, except at WLTW," Ryan says. "Since she's a New Yorker, we find ways [to play her], but overall, the average age of our listener is 40 years old, and a 40-year-old today has much different music tastes than a 40 years old when we signed on 16 years ago.

year-old when we signed on 16 years ago.
"It's gotten to a point where I constantly say to record reps, 'I really like the song, but Z100 needs to be playing it 50 times a week before we hit it,' "he adds. "I have honest conversations with [Z100 PD] Tom Poleman and [WKTU PD] Frankie Blue about songs. I ask them, 'Are they ready for me yet?' And they tell me yes or no."

The key to finding a hit for WLTW is repetition, something that's often foreign to AC. "If you play a song and believe in it, you have to ro-

tate it enough to find out if it's a hit," Ryan says. "That was one of the big problems at WLIT Chicago a year ago. The rotations weren't high enough. They didn't play currents long enough, so they didn't have a viable catalog and [enough] recurrents to play.

"If you go on a song, you have to make a full commitment to it over a period of time," he adds. "It has to get 300 spins on your station, or a certain amount of exposure on your station and the ones you share audiences with, before you can determine whether that song's a hit. In that sense, I am in favor of stations being more aggressive and playing the right songs more frequently, but you have to do what the market dictates. In Chicago, there's no big mainstream top 40s like Z100 and WKTU to help make WLIT's music familiar. Few titles they play are played on WTMX [the Mix] and [WBBM-FM] B96. Therefore, they're in a tough situation. It's much easier for Jhani Kaye at KBIG, because [top 40 KIIS and modern AC KYSR] can warm up records for Jhani."

Ryan, who also programmed WLIT until KESZ Phoenix PD Mike Del Rosso came aboard, is well aware that not all AC hits work for all AC stations. "People are a product of what they grew up listening to," he says. "New Yorkers have grown up with different kinds of music. WABC used to play James Brown, so R&B music is no stranger to suburban New Yorkers. The only kind of music that they weren't exposed to were certain varieties of hard rock. That's a big difference from the Midwest, where they played the Def Leppards. Rock hits in New York and Chicago are two wholly different things."

WLTW enhances its brand via TV spots, emphasizing both quantity and quality of music. "We wouldn't be where we are today without TV," Ryan says. "Viacom, when they owned us in the '80s and '90s, spent millions to build our brand, and that has been the foundation of our success. Adults have a tendency to take radio for granted. It's like the electric company. They get home, the lights are always on. When they're at work, Lite should always be on, but people might not think about it, so it's important that when they go home at night and watch 'NYPD Blue,' there's a 10-second commercial for Lite."

Another key to Lite's long-term success is its natural evolution. "You have to make changes slowly," Ryan says. "I still consider WLTW as a work in progress. We're still tweaking the station all the time. We just recently hired a station voice and added sweepers in place of some of our dead segues. That really surprised a lot of people. We started with one sweeper an hour; now we're running two an hour, and very soon there'll be no dead segues at all. It's a gradual thing. You can't shake up the audience too much; you have to do it in a way that the audience doesn't realize you changed. In fact, I got a call today from someone who said he just noticed we stopped playing Barry Manilow. Well, we stopped playing him five years ago. That has been the secret to our success even before I got here. It always evolved with the times.

Which explains how teen pop and rhythmic hits have segued to WLTW so seamlessly. "Backstreet Boys [can be] compared to the Beatles," Ryan says. "A lot of people might think that's a terrible thing to say, but they both have pop songs with singalong melodies. What's the difference between 'I Want It That Way' and 'She Loves You?"

As a veteran programmer, Ryan says today's mass-appeal hits are almost "like a flashback. Going through the times of rap and hard rock was tough, because there was such a disparity in sounds, but as long as the groups that top 40 plays are accessible to AC, we will find ways to integrate songs like 'Smooth,' and AC will continue to be an extremely successful format."

Cumulus Restructures To Win Support

With a stock price still near its record low, Cumulus is restructuring top-level management in hopes of winning over skeptics from Wall Street to Madison Avenue. Cumulus chairman/CEO Richard Weening is handing the CEO title and day-to-day operating responsibilities to group president Lew Dickey. Executive VP/director of programming John Dickey has also been promoted to executive VP of Cumulus Media.

With Cumulus having moved from its acquisition-intensive start-up stage to an operating mode, "I believe it is critical [that Lew Dickey] now take the lead role in running the business," said Weening. The news was intended to garner support from analysts, who have largely beat up Cumulus stock in recent months. However, Cumulus stock rose only 25 cents a share to \$11 on June 8 following the announcement.

"Make no mistake, we still have a lot of work to do," says Lew Dickey, who believes the company has done a poor job of maximizing the value of its clusters in terms of revenue. "We've done a pretty lousy job at selling the value of these products. Our rates and pricing policies have let us down, and we're addressing this head-on."

we're addressing this head-on."

The company still needs \$150 million to \$200 million to close on deals it has already announced, including the delayed purchase of 37 stations from Connoisseur Communications, and station spin-offs are a real possibility. While Dickey says there will be "no large sell-off of this company," he concedes it will look at the top half of its portfolio for targets.

With cash seemingly tight, some programmers may wonder what this means for staff and promotion budgets. Dickey says Cumulus will "not save its way into prosperity." He adds, "The programming side of our company has been the shining star." He also claims there's been a 180-degree shift in employee morale since it hit bottom in mid-March during what he describes as the company's "meltdown."

"It has a galvanizing effect on people.

They're coming out fighting, and they want to win," he says. Dickey points out that many have a personal financial stake in seeing the company get back on track, since some are given stock bonuses and others have bought stock at around \$10 a share.

Because both Lew and John Dickey work from Cumulus' offices in Atlanta, the company's operations will shift there from Milwaukee. CFO **Martin Gausvik** will also relocate to Atlanta.

Meanwhile, Midwestern Broadcasting, which is owned by Dickey and Cumulus, has accepted Cox Radio's \$280 million offer for adult R&B WALR Atlanta. Under the agreement, Cox will shift the programming of WALR, which will replace its jazz-formatted WJZF. WALR's signal, 104.7 FM, would be swapped to Salem Communications, which will also get Cox AMs KLUP San Antonio and WSUN Tampa, Fla. Cox gets Salem's religious KKHT Houston, where Cox is getting three other FMs from the Clear Channel spinoffs. In a related announcement, Cox will sell an additional 8 million shares of stock to pay for this and other deals, as well as pay down its debt. Its parent company, Cox Enterprises, will also funnel \$100 million to the radio division.

Quetzal/Chase Capital Partners, the minority media-investment fund set up last November by several big-name media companies to provide funding for minority-owned, -managed, or -controlled companies, announced two more investments. The fund is investing \$4 million in Hookt.com, a New York-based online community and entertainment portal dedicated to hip-hop music. It also invested \$7.5 million in Internet portal Urban Box Office Networks. The total value of deals so far, including the \$30 million investment in African-American-owned Blue Chip Broadcasting announced in March, is \$41.5 million, leaving \$128.5 million to spend.

In upstate New York, Ed Levine's Radio Group has reorganized and has a new name: Galaxy Communications. The group owns modern rock WKRL/WKRH/WKLL Syracuse, N.Y.; classic rock WRCK Utica, N.Y.; and classic rock WTKW/WTKV Syracuse.

CAPITOL: LPFM ROCKS

Indigo Girls sang, the politicians spoke, and low-power FM remained a battle point in Washington, D.C. The setting was a conference room in the Senate's office building, as supporters of LPFM hoped to win support.

"Low-power radio can help reverse the current trends of concentration and conglomeration," said Sen. Paul Wellstone, D-Minn., during the rally. Sen. John McCain, R-Ariz., who chairs the Commerce Committee, which would be the first stop for any anti-LPFM bill, also made his strongest pro-LPFM statements to date. "It's huge," says Michael Bracy of the Low Power Radio Coalition about McCain's support. "This sends an important message."

A National Assn. of Broadcasters spokesman says it supports either bill since they "preserve the channel protections and interference-free radio." NPR, which has joined with commercial broadcasters, continues to oppose LPFM as currently crafted.

With McCain backing his own bill, a piece of legislation blocking LPFM's rollout sponsored by Sen. Judd Gregg, R-N.H., is less likely to make it to the Commerce Committee agenda, despite having 36 co-sponsors and being a companion to a House bill that passed in April. Among Gregg's co-sponsors is Sen. Ted Stevens, R-Alaska, who chairs the Senate Appropriations Committee, on which Gregg also sits. Hill insiders say Gregg and Stevens could use their purse-string powers to give the FCC a budget that prohibits it from using any money to implement LPFM, thereby bypassing the Commerce Committee and Sen. McCain.

Several petitions asking the FCC to reconsider its LPFM decision continue to languish at the commission, while a lawsuit filed in U.S. Court of Appeals for the District of Columbia Circuit by the NAB has yet to be acted on

NEW MEDIA: THE BREAKUP SONG

With the court-ordered breakup of Microsoft, its Internet radio product, the Windows Media Player, will be placed in the "applications business" half of the company along with such products as Internet Explorer, Outlook Express, and the company's stake in MSNBC, under a June 7 court ruling by Judge Thomas Penfield Jackson. Microsoft has requested the ruling be stayed until its appeal is heard. If it does not win a stay, the company must turn in a plan by Sept. 7 detailing how it intends to halve itself by Oct. 7.

hasn't replaced going to mom-and-pop record stores, discovering, touching, and digging through new cuts and indie music," says

KUBE Seattle MD Julie Pilat.

At this point, however, the listener buzz on Napster is fairly slight, still heaviest among the young, tech-savvy segment of the audience, which is slim for most top 40s and practically nonexistent for ACs. "If you're computersavvy enough to steal the music with today's technology, you're probably a pretty tertiary radio listener anyway," contends departing Clear Channel Raleigh, N.C., OM Brian Burns. "My concern would be the learning curve of the consumer to use the technology, thereby bypassing terrestrial radio to a larger degree. Why would those people listen to a station that plays 15 minutes of commercials each hour and music we program when they can program for their own tastes through technology?'

"It's a small portion [of our audience]," Pilat says. "But those listeners are definitely buzzing about music on the Internet. What's shocking to me is I had two junior high job shadows last month who had the Eminem album off the Internet before the street

STEAL IT BEFORE YOU CAN BUY IT

About two-thirds of the programmers don't believe Napster is affecting the listening habits of their audience. And those who do? Well, you can forget getting the same impact out of those songs premieres or the Win It Before You Can Buy It weekend. "Whenever we break a new song in, we get callers, especially teens, who, from time to time, like to boast that they've already downloaded the

'Everyday listeners are

presented with more and

more options. You can

or make your station

better'—Jimmy Steal

track weeks or even months before," says Jean Marie Ello, promotion director for CHUM-FM Toronto.

'It makes radio seem a little less glamorous," Pilat says. "If I'm a teen who downloaded the new Eminem off Napster two weeks before the album streets, and my local radio station is 'world premiering' the new Eminem two days before the album hits the stores, it's kinda weak! Both labels and radio have to be on top of the Internet, so we don't lose our edge and impact."

More important, should radio be concerned about what Napster could do to listening levels? "Anything that takes music listening time away from radio, including CD listening, is a threat to TSL," says WXKS (Kiss 108) Boston

PD John Ivey.

"I feel the music junkies who have embraced this technology aren't big radio listeners to begin with," adds KLLC (Alice 97.3) San Francisco PD Louis Kaplan. "Obviously, any alternative listening source won't help TSL and cume, but I think the numbers are too small to measure.

"People still have to hear the songs for the first time [before they want to download them]," says KKRZ (Z100) Portland, Ore., PD Tommy Austin. "People hear songs for the first time on radio stations like Z100 and on MTV, then they use Napster. The kids may be more experimental in downloading new songs, but adults want to hear songs and be familiar with them before they get them, be it at a record store or online. They want to hear familiar stuff; the last thing they think about is downloading new music.

Yet a recent online brouhaha regarding the next Madonna single suggests that superstar product, top 40's bread and butter, would be particularly susceptible to online poaching. Fortunately, buying the actual media still has some advantages. "When they get these Diamond Rio players perfected, it will give consumers another choice for music other than radio," McHugh says. "I bought one, but I

had to return it because it was defective. Then I returned the second one because it wasn't working either. Plus the loading and downloading of songs is very time-consuming, even with a good Internet connection. I think the average consumer is way too impatient for these things. It will one day cut into us a bit if they get them working and userfriendly.

'It seems like everyday listeners are presented with more and more options," says KPWR (Power 106) Los Angeles PD Jimmy Steal. "You can either worry about them or make your station better. I prefer the latter. It is something to deal with, from a marginal perspective at this point, but it will become a bigger and bigger factor. Whatever is going to be done, the initial seeds are being sown now. How it evolves will probably be up to the record labels and legislation.

JOIN IT, FIGHT IT, OR IGNORE IT?

"It's just a utility that enables people to save a trip to the record store," says WNOU (Ra-dio Now) Indianapolis PD Scrap Jackson. "I don't think it's affecting radio now, but it will. It'll cannibalize listening opportunities. Even though, at this point, it's just a threat to record stores by changing the delivery system, it will continue to infiltrate the consciousness of more and more teens and early twentysomethings. We feel it's important for us to embrace the technology and make it part of what we do. As a radio station, we want to be a media bridge that's heavily involved on a one-to-one basis. Rather than turn our backs to it and let it kick us in the ass in a couple of years, we want to figure out creative promotions and marketing [strategies] that have a

hip-by-association value. We can't stop [the technology revolution] from happening, but if we help in being a part of it, we'll be considered favorably by our audience.'

Yet some expect that radio will ignore the longterm implications for short-term profits. "Fortunately, the technology isn't a threat to our mainstream AC station's cume or TSL, but it certainly is to younger demo-targeted top 40s, rock and modern rock stations, and therefore it becomes a threat for our industry's future,'

says Knight. "For the past 20 years, we've jeopardized our future by not programming to the needs of any listeners other than 25- to 54year-olds. Technology is now stepping in to fill the need we choose not to serve. What's troubling is that our industry doesn't seem to realize what is going on here. Where is traditional broadcast radio going to be in another 10 years? My bet is that every station will appeal to 35- to 64-year-olds, because no one younger, or older, will be listening to us. And

why should they?"
"The technology is available today to make terrestrial radio virtually obsolete," Burns says. "However, it is not available to the masses at a consumer-friendly price. Over the next two or three years, however, consumers will be able to wear a pager-size device on their hip that will receive E-mail, wireless streaming audio from the Web, and will have MP3 capabilities of archived music they built to their own tastes. This device will be at a consumer-friendly price of around \$100. The question traditional terrestrial radio needs to ask is, 'Will we have a compelling enough product for them to continue using our content, or will they seek out alternative content sources?' Personalities and localism will become even more important to traditional radio broadcasters.

Which doesn't exactly dovetail with the current corporate climate of cluster programming and virtual air personalities. But that's another

story. Or maybe not.

Everything I Needed To Learn About Top 40, I Learned From Radio Disney

It was the station where my father worked, legendary R&B AM WOL Washington, D.C., that taught me how to use music radio, dragging me away from both the children's records I'd been listening to and from the classical music that my parents were hoping to raise me on. And your station would probably have provided your own kids' indoctrination into pop music if it hadn't been for Radio Disney.

Although adult music has been a part of the children's format from its earliest days in the late 80s, it was Radio Disney's phase-out of most kids' music in favor of what can best be called the greatest kid-friendly adult hits of all timefrom "Hit The Road Jack" to "Kung Fu Fighting" to "Tearin' Up My Heart"—that's finally put it on the industry's radar. And while children's radio never showed up in Arbitron before, we've seen Radio Disney affiliates making print with a few tenths of a share in some recent books. Not bad, considering that it doesn't target diarykeepers and plays music on AM.

So if Radio Disney is now training kids to use top 40, what lessons are they going to bring with them when they graduate to mainstream top 40? Lyrically, we know they'll think it's a much different world out there, since the network is known for its own edits of "Summer Girls" (in which Dad doesn't take off), "C'est La Vie" (in which there's none of that "show you mine/show me yours" business), and "OOPS! ... I Did It Again" (where **Britney Spears** doesn't proclaim her lack of innocence). And while you might think of "Graduation" as having a young-end lyric, it's not germane to Disney's listeners, who are getting Vitamin C's "Vacation" instead.

You can have a lot of fun scrutinizing what Radio Disney allows and doesn't. Twenty-two years later, "Y.M.C.A." is just a song about going to the gym, but "Le Freak" was forced off the air by concerned parents, even though the connection between doing the freak and being a freak is pretty tenuous. Because Radio Disney is looking to replace whole lines, not just reverse out a word here or there, some songs lose their lyrical continuity. And hearing **Lou Bega** plug Goofy and Mickey Mouse into "Mambo No. 5" is kinkier, if you think about it too much, than anything he might be doing with Angela, Rita, et al.

More seriously, there are still adult-themed songs that make the cut. There are breakup songs ("Bye Bye Bye," "Show Me The Meaning Of Being Lonely"), songs about smart women and foolish choices ("Everything You Want"),

and a song about a trial separation ("What A Girl Wants"). But Radio Disney is certainly more kidfriendly than mainstream and rhythmic top 40, since there's no big pimpin' and nobody in a thong-th-thong-thong doing anything untoward with an antelope, like they do on the Discovery Channel. And there's no chance of them being encouraged to "Whistle While You Twurk," since the only classic Disney song now on the charts obviously wouldn't pass muster.

Beyond the lyrics, how is Radio Disney affecting the way kids use radio?

• They're probably hearing the adult hits (or at least those that make the cut) younger. I became aware of pop music around the age of 41/2, but for most of my friends who grew up around the same time, it was closer to ages 6-7. Now, kids are transitioning away from kid music sooner.

 They're growing up without any real distinction between currents and oldies, since Radio Disney is playing a lot of its oldies in fairly fast rotation, e.g., "Do Wah Diddy Diddy" 13 times a week. That's not so different from what I grew up with in the '70s, when WABC New York played so many Four Seasons oldies that it surprised me to learn that they hadn't had a current hit for six years. But somebody who started listening to radio in the mid-'80s/"hot hits" era probably has a much greater sense of hearing songs when they're current and then not hearing them anymore.

 They're growing up with the boy bands and even the girl bands. Some PDs may be hoping to hold the line by not letting any new teen acts in the door if they don't have to. But Radio Disney is still training future generations of listeners to use both the teen acts top 40 plays and those that many PDs are resisting, e.g., S Club 7, Youngstown, Nobody's Angel, etc. And they're still playing "Say You'll Be There" by Spice Girls.

In the end, it's good news that new listeners are learning to use top 40 and the radio. At various times over the past decade, there have been questions about their sustained interest in either. And as an adult without kids, I still find myself drawn over there by one of the odd oldies more than I'd expect ("Say You'll Be There" actually sounded OK again, to my surprise). Having been to the houses of too many friends whose viewing now alternates between "Barney" and "Thomas The Tank Engine," I just hope that by the time I have my own kids they've figured out some TV or movie experience for kids (besides "Toy Story") that's as adult-friendly as Radio Disney.

Songs runked by number of audience, computed by cross-referencing exact times of airplay with Arthron listener data. Songs showing an increase in audience oner the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience A song with a gain in audience over the previous week is placed first if tied with a song with a riccline over the same period. When tied songs are each gaining in audience or each losing audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Mainstream Top 40 Airplay chart.

FOR WEEK ENDING JUNE 11. 2000

Songs ranked by number of detections. Playllats are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

ous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a builet, even if it registers an increase in audience. A song write a gain in audience over the previous week is placed first if bed with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Rhythmic Top 40 Airplay chart.

Monitor POWER PLAYLISTS PHYTHMIC TOP 40

FOR WEEK ENDING JUNE 11, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

First Impressions ([1]) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if thed with a song with a decline over the same peniod. When the songs are each gaining detections or each losing idetections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a builet, even if it registers an increase in defections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections and the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if thed with a song with a dealine over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs believe the top 20 become recurrents and are removed from the chart after 26 weeks.

The chart, reprinted from Rock Airgiay Monitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 68 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks. ©2000/Billboard/BPI Communications
