# Some PDs Feel Return To R&B **Lean At Rhythmic T40 Outlets**

by Jeff Silberman

After a year or so in which a number of previously R&B-dominated rhythmic top 40s found themselves drawn to the teen-pop juggernaut, some rhythmic I'Ds are now sensing a pull back toward the R&B and hiphop side. That change was reflected on The Billboard 200 in the July 29 issue, where 10 of the top 20 bestselling albums were either hip-hip or R&B-based, compared with eight rock/modern rock albums and just two teen-pop titles.

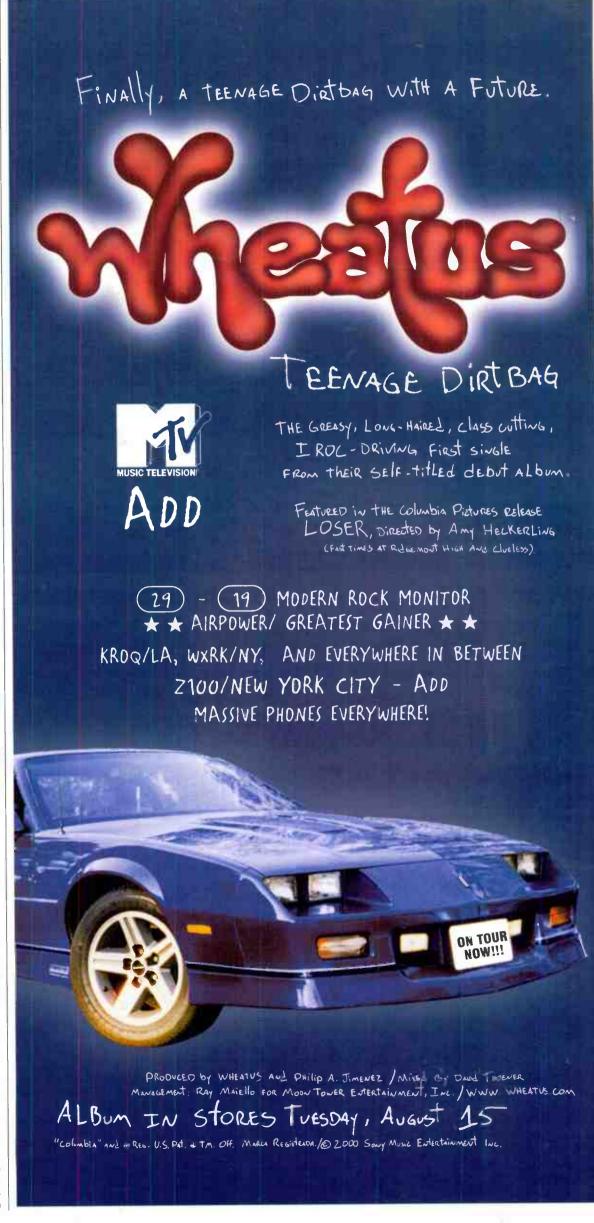

Interestingly, the PDs who say they're feeling more R&B and hiphop these days are in those markets both with and without a significant mainstream R&B competitor. So, for that matter, are the programmers who continue to support 'N Sync, Britney Spears, Jessica Simpson, and Christina Aguilera. All of which continues to point out the wide variance Continued on page 10

### Living With/Without Rival R&B Station

While the rhythmic top 40 panel has only 41 reporters, those stations are as diverse (or perhaps more diverse) than their 120 mainstream counterparts, as demonstrated again by their handling of teen-pop records. While some sta-tions—like KQKS Denver and WLLD Tampa, Fla.—with no mainstream R&B competitors have backed away from the teen acts, WJMN (Jam'n 94.5) Boston has held on to at least a few teen-pop and dance titles, even with a focused R&B competitor, WBOT (Hot 97.7), in the market.

How those stations handle teen pop speaks to a dichotomy on a larger issue. While having R&B competition has forced some stations to tighten their focus and defend the R&B and hip-hop images, others have seen it as a license to concentrate more on controlling the

# **KVIL Sends Chapman To Sister KLUV**

After 31 years as morning man at heritage AC KVIL Dallas, Ron Chapman will move to mornings at oldies sister KLUV on Labor Day weekend. Middayer Ken Barnett, whose various stints with KVIL go back only to 1980, will assume Chapman's duties. Swing staffer Tony Moreno will take half of Barnett's six-hour shift; a replacement is still being sought for the other half of iniddays. The change follows MD John King's return to the air in afternoons, replacing another station veteran, Larry Dixon, who joined Christian AC rival KLTY for middays. Chapman had actually put in for a transfer to KLUV several years ago, according to KVIL sources, but owner CBS/Infinity chose not to make the move until now.

#### **MANAGEMENT: THON ADDS WCOL**

John Potter, VP/GM of Clear Channel's country WCOL Columbus, Ohio, becomes VP/local sales and marketing for the company's Web services group. Tom Thon, VP/GM of top 40 sister WNCI and rock AC WZAZ-FM, adds those duties at WCOL.

#### **INDUSTRY MOURNS ROSENFELD**

Dickie Rosenfeld, 77, the longtime president and GM of KILT-AM-FM and KIKK-AM Houston, died July 19 of congestive heart failure. Recently retired, he was well-known in Houston not only for his charity work and for his penchant for calling everyone "pahdnuh" but for fostering numerous careers and overseeing KILT-AM during its reign as the market's dominant top 40 in the '60s and '70s. During that time, Rosenfeld was responsible for bringing the Beatles to Houston in 1965.

#### **PROGRAMMING: GO ADD ALICE**

**Dave Shakes** is now consulting modern AC **KALC** (Alice 106) Denver. Although he was hired by AMFM, Shakes has a one-year contract and will also work for future owner Salem.

**KYLZ** (Wild 106) Albuquerque, N.M., PD **Tom Naylor** crosses the street to program rhythmic top 40 rival **KKSS** (Kiss 97.3).

**KFÖG** San Francisco PD **Paul Marszalek** is officially named VP of music programming for VH1.

Wilmington, N.C., will have a new top 40 by the time you read this, as WAZO launches under cluster OM/PD John Stevens, whose purview also includes album WRQR, and APD Mark Jacobs from crosstown WQSL (All Hit 92.3).

WPZM Huntsville, Ala., flips from country to classic-hits based adult top 40 as Mix 93.3. It's the sister station of heritage top 40 outlet WZYP.

It's official: WCNE (Kiss 97.0) Inches will be blocked.

It's official: WGNE (Kiss 97.9) Jacksonville, Fla., originally WSFJ, now adopts the calls WFKS, formerly on 99.9 FM in Daytona Beach, Fla.

WGLU (Power 92) Johnstown, Pa., will flip frequencies with album WQKK, which was at 99.1. WGLU PD Rich Adams becomes OM of both stations and PD of WQKK, which will drop its simulcast of sister WQWK State College, Pa., opting for locally originated rock programming. WGLU MD Mitch Edwards picks up that station's PD stripes.

Former WCIL Carbondale, Ill., PD J. Jay King takes the PD/afternoons gig at album WZZQ Terre Haute, Ind.

WIVR Paducah, Ky., PD Steve Ocean joins WBAM Montgomery, Ala., for mornings.

#### **INTERNET: STAKING OUT I-TURF**

Former WKLI Albany, N.Y., owner/PD-turned-Internet audio maven Paul Bendat launches a new top 40 Web radio channel in conjunction with teen-oriented site iturf.com. Iturfradio will be targeted to 16- to 19-year-olds. Here's a recent music monitor: Jennifer Lopez, "Waiting For Tonight"; Sugar Ray, "Fly"; Britney

Spears, "Lucky"; Kid Rock, "Only God Knows Why"; Joe, "I Wanna Know"; matchbox twenty, "Bent"; Baha Men, "Who Let The Dogs Out"; Eiffel 65, "Blue (Ba Da Dee)"; Aaliyah, "Try Again"; and Everclear, "I Will Buy You A New Life."

Broadcast Programming's TotalRadio Web Services division is rolling out a set of streaming audio formats stations can put on their Web sites to enhance listeners' online audio options. Among the 40 Web-only formats in development are '70s and '80s gold channels and an all-current top 40 format. There'll also be a new-music-oriented top 40 format similar to KIIS Los Angeles' kiisfini.com. The format streams are available on a barter or cash basis. BP's Ken Moultrie is overseeing the new formats.

#### **PEOPLE: PROMOTIONS IN MOTION**

WXKS-FM (Kiss 108) Boston marketing director Trish Gillis departs.

Vicki Fiorelli is promoted from promotion director of AC KESZ and country KNIX Phoenix to the new position of director of promotions and marketing for all the Clear Channel stations in Phoenix, including adult top 40 KMXP (Mix 96.9) and top 40 KZZP.

After five years at country **WKKG** Columbus, Ind., PD **Scott Michaels** is named APD at AC **WJYE** Buffalo, N.Y.

WSNY (Sunny 95) Columbus middayer Steve Cherry is promoted to MD/afternoons, replacing the exited Rick Michaels. Production assistant/PT Billie Jones is taking Cherry's old midday shift.

day shift.

KCDA (Mix 103.1) Spokane, Wash., morning co-host Jody Shaw joins WXLK (K92) Roanoke, Va., for the same duties. She joins new morning host Greg Valentine from WRHT/WCBZ New Bern, N.C.

WGTZ (Z93) Dayton, Ohio, is looking to add a morning-team member, preferably with digital production skills and singing/acting/writing ability. T&Rs to PD Ange Canessa. Meanwhile, former Z93 morning co-host and Columbus market vet Suzy Waud returns to the air, at least for a week, as morning co-host at '70s oldies WXST (Star 107.9) Columbus.

**CKIK** (Power 107) Calgary, Alberta, taps new morning co-host **Frazier** from **CHIQ** (Q94) Winnipeg, Manitoba.

KQAR (Q100) Little Rock, Ark., P/T Robert

Davis takes the overnight shift full time.

WHZZ Lansing, Mich., night jock Mike
Couchman exits.

KISV (Kiss 94.1) Bakersfield, Calif., is looking for a new afternoon host to replace Phil Marks, who exits for the dotcom world.

#### ATTACK OF THE KILLER DEES

Clear Channel's "Rick Dees Morning Show" is now heard on KSFQ Sante Fe, N.M., and KSAS Boise, Idaho, with more stations to be announced soon. In a related note, Clear Channel's KIZS (Kiss 92.1) Tulsa, Okla., has adopted a cyber-air staff, tapping virtually KIIS afternooner Valentine (Top 40 Airplay Monitor, June 30) for mornings, replacing Andy Barber, who moves to the station's oldies sister; Randi West from WFKS (Kiss 107) Cincinnati for middays; and WFLZ Tampa, Fla., night jock Kane for the same shift. PD Dave Dallow will soon man the only weekday live shift, doing afternoons.

Meanwhile, KHTT (K-Hits) Tulsa has filed suit to prevent KIZS from using the positioner "Today's best music." K-Hits owner Renda Broadcasting claims that it received a trademark on it in 1999 and has been using it in its promotions since 1996. However, KIZS VP/GM Rick Cohn told The Tulsa World that his station has no plans to change anything and claimed that K-Hits has no exclusive right to the phrase.

Fanning the fire is a letter sent to KHTT, which, in part, read, "Any idiot with \$50 can register a generic phrase. Sorry you lost your \$50. We think your usage of the phrase is false advertising. Your music sucks, and we're playing all of today's best music and not just some of it." While GM Cohn told The Tulsa World it was a "competitive tactic" that was written with a "sense of humor," KIZS PD Dave Dallow told Monitor that the letter, printed on Clear Channel stationery, did not come from the station itself. ### **Matchbox Twenty Gets First T40 No. 1**

Both mainstream and rhythmic top 40 have new No. I's this week, as **matchbox twenty** hits the top of the mainstream chart and **Nelly** hits the top of the rhythmic chart. "Bent" (Lava/Atlantic) is matchbox twenty's first-ever mainstream top 40 No. 1; the closest the band got to topping the chart came in spring '98, when "3 A.M." peaked at No. 2, held off by **Savage Garden's** "Truly Madly Deeply." "Bent" achieved mainstream top 40 Airpower status in Top 40 Airplay Monitor's May 12 issue. **WZPL** Indianapolis was the song's Airplay Leader, having played "Bent" 150 times or more by April 30.

Although matchbox twenty is No. I on the mainstream airplay chart, the title is only No. 5 on the mainstream audience chart. Conversely, **Aaliyah's** "Try Again" (Blackground/Virgin), which jumps 3-1 on the mainstream audience chart due to heavy large-market rotations, sits at No. 4 on the mainstream airplay chart.

Meanwhile, **Nelly** scores his first No. 1 with "(Hot S\*\*t) Country Grammar" (Fo' Reel/Universal), which achieved Airpower status in Monitor's June 16 issue. **WLLD** Tampa, Fla., played the song 100 times or more by April 9, making the station the song's Airplay Leader. **KBTE** Corpus Christi, Texas, had also played the song 100 times or more when the song was awarded Airpower status and shares Airplay Leader honors.

A long-running title falls off the AC chart this week. "I Do (Cherish You)" by 98° barely missed joining the one-year club, falling off after 48 weeks. It shouldn't trouble the guys from Cincinnati too much, since their next release is imminent.

PERSONNEL FILE: RCA bulks up its adult promotion team, adding former Elektra national promotion manager of radio events **Suzy Changar** as associate director of adult radio promotion and London/Sire's **Adrian Moreira** as senior director of modern AC. Both report to senior director of adult promotion **Cheryl Khaner**, who is expected to be upped within the next few weeks.

Former Columbia L.A. rep Rose Braunstein joins Jive as Southern California regional. Meanwhile, Jive West Coast rep John Henriquez exits for duties at Thump Records . . . C2 national director of promotion Michelle Block exits and can be reached at 201-227-8020 or roadbloc@aol. com . . . Loud Records VP of promotion Kim Hughes exits and can be reached at 310-457-0127.

### **Janet Goes To Hollywood**

Between acting and putting together material for her new album, Janet Jackson, right, manages an exclusive interview with Hollywood Hamilton for AMFM's syndicated "Rhythm Top 30 Countdown."

Judge Sven Erik Holmes set a July 26 hearing on KHTT's request for a temporary restraining order and a permanent injunction against its rival. Clear Channel, of course, has gone to similar lengths to try and prevent stations outside its group from using the handle "Kiss."

#### CUMULUS PLAYS 'WHO WANTS TO BE A MULTIMILLIONAIRE'

The cash grand-prize bar has been raised by American Media and Special Promotions through a group contest with Cumulus Broadcasting. On July 28-29, 50 Cumulus country stations will send contest winners to Las Vegas to see country hitmakers Gary Allan and Sara Evans and have a chance to win one of two big cash prizes. On July 28, five contestants will roll fivelettered dice; if they spell out "Vegas," the lucky roller will pocket \$1 million. But the big prize is on July 29, as 55 contestants will roll seven-lettered dice. Whoever is able to roll the word "Country" will walk way with \$5 million.

### **Surviving The 'Survivor' Promo Avalanche**

What's the difference between network and cable TV? Consider: "The Real World" has been on MTV for nine years, and you can count the stations that have done "Real World" takeoff stunts on one hand. Then CBS comes out with "Survivor," and now you can practically count the number of stations that have refrained from doing a similar contest on the other hand.

The stunts are becoming more imaginative as the "Survivor" deluge continues. Modern WPLY (Y100) Philadelphia locked four listeners in an RV in its parking lot, where they were subjected to '80s band **Survivor's** "Eye Of The Tiger" 24 hours a day, at least 360 times a day. The contestants weren't allowed to shower, leave the RV, or phone their families. They also took part in challenges to win perks like a 10-minute reprieve from the RV, a gourmet meal, a shower, or a massage. The last survivor won a trip for two to Cuervo Nation, a private island owned by Jose Cuervo. Kelly Gross doesn't expect the winner to return any time soon.

Top 40 CKNG (Power 92) Edmonton, Alberta, stuck a group of listeners on a replica of the Santa Maria inside the mammoth West Edmonton Mall for a stunt, prompting the question, "Did Columbus take the wrong turn at Greenland?" Meanwhile, album rival CFBR (the Bear) put 16 local celebrities on a cyber-island, and listeners voted one of them off the island each morning. Since most of the virtually stranded celebrities are local TV and print icons, the station's getting good press from its flesh-and-blood brethren.

Rhythmic top 40 KYLD (Wild 94.9) San Francisco locked nine DJs in a 12-foot-by-12foot studio for three days in the Ultimate Survivor Game. Morning Doghousers JV, Elvis, Hollywood, and Big Joe were crammed in with Renee Taylor, Strawberry, Big Von, and Hammering Hank, with no showers, TV, or contact with family. Three DJs were voted out by the group and listeners via the Internet each day. The last jock "standing" won a oneweek vacation to a destination of his or her choice, plus the station donated \$20,000 to a charity of the jock's choice. It was all presented on wild949.com.

WGNA (Country 107.7) Albany, N.Y., stuck four listeners into a hot tub full of black-eved peas at a car remote, then had listeners vote one contestant out each hour. The winner scored \$107 cash plus front-row seats and backstage passes for Dixie Chicks.

Crossover R&B KPWR (Power 106) Los Angeles staged a Power Pool Survivor stunt by sinking 16 people in a 13-foot-by-26-foot pool. "They participated in pool challenges and voted each other out of the pool," says **Dianna Obermeyer**. "The last person in won the pool."

In what could be an omen for future intracluster stunts, Clear Channel modern rock WPLA (Planet Radio) and WROO (Rooster Country) Jacksonville, Fla., fielded their own teams of five persons to live in pop-up campers in the stations' parking lot. The winners of the first-day challenge, a game called Baby-Oil Twister, spent 15 minutes in an air-conditioned car. For the second-day challenge, both teams were given musical instruments and had to come up with an original country or rock song. The winners had a lobster dinner. Day No. 3's challenge was a distance-spitting contest involving oysters. The winners won a trip to a restaurant for dinner and watched "Survivor" on big-screen TVs. Leading the cheers was Tina Brandao.

#### NTR PROMO OF THE WEEK: ON THE SAUCE

Country KFKF Kansas City PD/morning man Dale Carter and partner Mary McKenna will have their mugs on Dale & Mary's Country Club Bar-B-O Sauce, which was sent to all of the major supermarkets in the area in time for the July 4 weekend.

It got us in front of 10,000 people taking part in this event.'

Country KZLA Los Angeles has started a Morning Show Hometown Tour with hosts Gene and Julie. "Every Friday morning from 5 to 9 a.m., Gene and Julie take their show on the road to meet listeners and hand out free food.' says Marida Petitjean. "It's a great way to celebrate the summer and meet listeners

R&B WJMZ (107.3 Jamz) Greenville, S.C., is holding Smackdown Thursdays in conjunction with the local UPN affiliate. "When listeners see night jock Rob Laidbac during 'WWF Smackdown,' they must be caller No. 7 to win a Smackdown pack [shirts, posters, CDs, etc.], plus tickets

to see a WWF show," says **Jason Gani**. Country **KNIX** Phoenix morning duo **Tim** and Willy, along with Arizona Diamondback wives, collected socks and underwear for the Back to School Clothing Drive, "which clothes children all year long at a school for homeless children and other low-income schools," says Vicki Fiorelli. "Radio and TV spots asked people to drop off donations at Bank One Ballpark before the Diamondbacks games against the Texas Rangers. Tim and Willy's entire morning show and Diamondback wives were at the main gate with collection boxes.

# Joe Riccitelli's Balancing Act Leads Jive **Above And Beyond The Teen-Pop Boom**

On one hand, Jive Records senior VP of promotions Joe Riccitelli is fortunate to be working three of the hottest pop acts in the world today—Backstreet Boys, 'N Sync, and Britney Spears. With that, however, comes the thorny task of balancing the interests of Backstreet Boys, 'N Sync, and Britney Spears. Not an easy task when two (or all three) of your acts have current records out and all demand top priority. So how does he do it?
"That's a fair question," Riccitelli says. "The

truth of the matter is we're trying to keep some separation between them when [their records] are out at the same time. We feel pretty confident that, as a company, we offer them more than radio promotion, so none of these acts would come to us complaining that we're not paying enough attention to them. It hasn't become an issue, and we don't expect it to be.

"I don't know if there's a secret to paying enough attention to these acts, outside of spending a lot of attention to detail," he continues. "The one thing I have learned since coming to Jive is that this company pays closer attention to detail than any other label I've worked at in this business. Jive is not a promotion-led company but an A&R-led company."

Joe Riccitelli Senior VP/Promotions **Jive Records** 

This company pays closer attention to detail than any other label I've worked at'

Obviously, Jive wasn't hurting when Riccitelli joined from Island Records. "When I started here, Britney's album had just debuted at No. 1," he says. "As far as changing staff goes, this department was poetry in motion, and I'm not the type of guy who wants to walk in the door and create turmoil. The reason why [chairman/ CEO] Clive Calder and [label president] Barry Weiss brought me on board was to sharpen the promotion department's focus and take them to a different level. I'm here to maximize what the company was good at, help it diversify in promoting rock and alternative acts, and eliminate our weaknesses. That's not something you can do in six months. Focusing our key players was important. Adding responsibility to Denise George and hiring Patricia Bock strengthened the national staff. Also, accenting the staff with the arrivals of Tom Cunningham, Lorriane Caruso, and Chuck Field has rounded us out.'

Maximizing Jive's strengths became even more important when 'N Sync came on board. Now, with all three acts commandeering the airwaves, not to mention the deluge of similar acts that followed, Riccitelli is forced to deal with ongoing expectations from some quarters that the teen-pop boom is about to burst. "Back in March of '99, when 'I Want It That Way' came out, programmers started telling me that teen pop was peaking," he says. "[Now], 25 million albums later, we hear it again. I'm not concerned. Why should I be? If we keep putting out the right songs, this is not going to peak."

Nor is he concerned that Jive's abundance of teen-pop riches will tag it as a one-dimensional label. "If we're going to be tagged with anything, it's as the most successful independent label in the history of the business. I'll take pride in being tagged that, and I'll take pride in mak-

ing sure that happens.
"[Don't] forget that Jive has also sold millions of records from hip-hop artists. R. Kelly has gone six times platinum, and Joe has gone double-platinum. But it is important for us to grow and diversify, not simply to distance our-

selves from being called just a teen-pop label."

The key to doing that: "The golden rule of any record label is to make sure we're developing new acts while we thrive on the superstars Riccitelli says. "That's how labels like Arista and Columbia stay hot year after year. They're developing new things, especially at this time of the year. We have three new projects that are essential to break: Mystikal, Aaron Carter, and (hed) planet earth. We feel these acts are on the verge of breaking through. We also have important new artists such as Jessica Folker. They'll be our next generation of superstars, because every artist has a [career] curve, and although our big three are not close to theirs now, it could happen a few years down the line.'

Be it superstar or new artist, Riccitelli views his promotional strategy from a hip-hop street-team approach. "We do a lot of things well in advance of each record's release. For Aaron Carter, we're selling his video prior to the record hitting radio, so he'll be more of a known commodity, on top of him selling 100,000 records of his last release on Edel America. We do everything possible to take pressure off radio and make [our records] promotion-proof. Also, during the Britney tour this summer, street teams will hand out Aaron Carter postcards at her shows. That's where the kids are going to be, and we want them to be at least familiar with him long before his record gets to radio.

'There are no automatics in radio." Riccitelli adds. "Few PDs realize the legwork it takes to release a Britney record. Before my arrival here, this staff was setting up Britney's '... Baby One More Time' at least six to eight weeks prior to its impact date. They did street-team work for her at Backstreet Boys tour dates, knowing her target audience would be there. That way, we were able to nail it at radio out of the box.

For new artists, such as European hitmaker Folker, Jive targets specific stations, such as WXKS-FM Boston, WSTR (Star 94) Atlanta, and KBKS (Kiss 106.1) Seattle. "You have to a combination between the quality and quantity of stations," he says. "There has got to be some sort of schematic design where you first go after the quality stations that have a tendency to be more open-minded with that type of record.

"But it's also absolutely true that as radio gets more consolidated, it's harder to find stations that are what Monitor calls Airplay Leaders,' Riccitelli adds. "That's why we have to market our artists better and not strictly rely on radio to do the bulk of that work."

The hip-hop street-team promotion mentality can also work for a rock band such as (hed) planet earth. "Although active rock may not attract more than 8 million in audience, it's still a great catalyst because it reaches very active buyers. To a degree, the format can also help certain records break at modern rock as well. The two [formats] are yin and yang, in that they play

Jive has also had success with such adult rockleaning acts as Jars Of Clay, but Riccitelli is less sanguine about the future success of modern AC, which he predicts "will merge into adult top 40. It's a hard niche to maintain, especially when musical trends don't reflect well on that format." Similarly, he says, "there's just not enough impact at triple-A for us to bite into it. What's funny is that my favorite record this year is the Shelby Lynne, which is only getting airplay, up to this point, on triple-A. Working that record [in other formats] would be the ultimate challenge. Shelby is an artist-development dream. The trick is to strike a balance between art and commerce. But with that being said, when you step out with art, make sure it's prof-**JEFF SILBERMAN** 

# **DOJ OKs Clear Channel/AMFM Merger**

Clearing one of the remaining regulatory hurdles in its \$23.5 billion bid to buy AMFM, Clear Channel has won Justice Department approval for the buyout. Yet several questions remain, including whether Clear Chan-nel will have to spin off as many stations as originally thought and whether it will be allowed to own a 30% stake in outdoor billboard company Lamar Advertising.

The DOJ is requiring Clear Channel and AMFM to sell 99 radio stations in 27 markets, worth \$3.4 billion. Under the agreement, the companies will sell the majority of the stations required before closing the deal. The DOJ will then file a complaint in federal court along with a proposal to resolve the outstanding issues.

In order to meet ownership limits, Clear Channel attorneys had expected to need to sell 110 radio stations, more than the 99 thus far required by the DOJ. A majority of the stations on Clear Channel's list and not on the government's were sold to minority broadcaster Chase Radio Partners, including R&B oldies WFJO Tampa, Fla.; country WPOC Baltimore; rhythmic top 40 KGGI Riverside, Calif.; and N/T KSDO San Diego, as well as adult top 40 KCNL, album rock KSJO, and classic rock KUFX San Jose, Calif. DOJ attorneys could add those stations to their list as part of the settlement package to be filed in court.

As part of the merger, a number of AMFM execs are expected to exit. The latest to announce his departure is senior VP of pro-

gramming Ken Benson.

Meanwhile, Clear Channel continues to build its chain. In a \$57 million sales agreement with Sunburst Media, it has picked up three new markets in the South. The deal gives Clear Channel country KGMY-FM, AC KGBX, modern AC KTÓZ, album rock KXUS, and sports KGMY-AM Springfield, Mo.; country KEAN, adult top 40 KHYS, album rock KEYJ, oldies KULL, and Spanish KBBA Abilene, Texas; and country KAGG and AC KKYS Bryan, Texas.

#### **CAPITAL: CUBAN TO FORM LABEL?**

Broadcast.com founder Mark Cuban is planning to launch a music label in partnership with a major radio group. Speaking at the Plug.In conference July 24 in New York, Cuban said a key component to his business model is radio. "Our focus will be to bring on radio station groups as partners," which, Cuban said, will be exchanged for an equity stake in the label. Radio is critical, according to Cuban, because it will ensure his artists get airplay, as group owners will have a vested interest in an artist's success. Earlier, Cuban told the Web site inside.com, "We think by including the major radio groups, we can tilt demand generation toward our artists and put a hurt on traditional label economics."

Cuban said no deals have been reached with any of the groups. And Clear Channel Radio president Randy Michaels downplayed inside.com's report that it is in discussions with Cuban. Michaels tells Airplay Monitor that "there are no talks taking place with Mark Cuban or anyone else about Clear Channel being in the label business. We have no current intention of starting a label.

Cuban said he will cherry-pick other labels' rosters, offering established acts larger profits, in part because he does not plan on spending any money on artist development. Instead, the money will be funneled back to the artist, the label, and its radio partners.

Entercom has closed on its \$126.6 million

KQRC, jazz KCIY, and classical KXTR Kansas City from Sinclair. In the second part of the deal, approved by the DOJ, Entercom sells KCFX, oldies KCMO-FM, and N/T KCMO-AM to Susquehanna for \$113 million.

On Wall Street, Entravision has announced more details of its IPO. In a filing made with the Securities and Exchange Commission, the company hopes to raise as much as \$539 million when it sells 33.7 million shares, or about 38% of its total shares, to the public at a price of \$15 to \$17 a share. Separately, it has arranged \$600 million in loans from two banks. The Spanish-language broadcaster will use the money on its \$252 million deal for the Latin Communications Group and its \$475 million deal for Z-Spanish Media.

Beasley Broadcast Group has been added to the Russell 3000 Index, as part of the index's annual reworking. The addition may help Beasley's stock, which has gotten little notice from Wall Street since going public in February.

#### **CAPITOL**

Radio pirate turned low-power-FM crusader Stephen Dunifer has lost another appeal to return his pirate station to the air. The U.S. Court of Appeals in San Francisco has ruled that Dunifer has no grounds to challenge at the appellate level the FCC's right to regulate the airwaves. In the 3-0 decision, the court said he must start his challenge to FCC laws at the agency and then take his case to the federal appeals court in Washington, D.C.

The 50-watt Radio Free Berkeley signed on in 1993 from atop Dunifer's roof. A year later, government agents shut it down and fined Dunifer \$10,000—which his attorney says the FCC has never tried to collect. Dunifer is now championing LPFM and is among the more than 300 applicants vying for a station in California. He is also organizing a protest for Sept. 20 to coincide with the opening of the National Assn. of Broadcasters' annual Radio Show.

Perhaps the FCC forgot to fly its stars and stripes earlier this month, so to make up for it, it's flagging a number of deals. As usual, it's delaying sales as it looks into whether any of the buyers will have too much control over a market's advertising revenue. Among the deals flagged are

Cumulus' purchase of classic rock
 WKQB Fayetteville, N.C., from Muirfield

Broadcasting.

 Clear Channel's purchase of AC KTLT, top 40 KNIN, and country KWFS-AM-FM Wichita Falls, Texas, from Apex Broadcasting. It is also taking a closer look at Clear Channel's deal to buy top 40 WDAY-FM, country KFGO-FM, oldies KULW, AC KRVI, N/T KFGO-AM, and sports KVOX Fargo, N.D., from various owners.

Saga Communications' purchase of AC WYXL, country WQNY, oldies WTKO, and N/T WHCU Ithaca, N.Y., from Eagle II

Broadcasting.

 Vero Beach Broadcasting's deal to buy adult standards WOSN Fort Pierce, Fla., from Centennial Broadcasting.

#### **NEW MEDIA**

Arbitron has formed an alliance with Lariat Software under which Lariat will provide Arbitron software for use in the collection of data from streaming media servers for the InfoStream Ratings. The latest InfoStream reports compiled listening to 389 channels from 21 different sources.

A deal between GetMedia and the Radio Advertising Bureau will allow member RAB stations to use GetMedia's Internet site for online CD sales in exchange for a piece of the profits. GetMedia allows stations to create a branded Now Playing music store or, if a station provides a playlist, to sell whatever had been played earlier in the day.

#### Some PDs Feel Return To R&B Lean At Rhythmic T40 Outlets

Continued from page 1

in programming strategies among Monitor's 40 rhythmic reporting stations.

A year ago, KQKS (KS107.5) Denver was playing titles from Backstreet Boys, Christina Aguilera, and Ricky Martin. Last week, the only non-R&B/hip-hop song among its 40 most played was by Voice V. Similarly, WLLD (Wild 98.7) Tampa, Fla., was playing Backstreet Boys, Jordan Knight, Aguilera, and Martin. This year, its non-R&B content is primarily from dance titles by Fragma, La Rissa, etc., making it similar to KXJM (Jammin' 99.5) Portland, Ore., in that regard. And KSFM (Jammin' 102.5) Sacramento, Calif., has eliminated non-R&B/hip-hop from its 40 most-played titles altogether. KSFM does have a rival that's focused on the R&B side, KBMB; the Tampa, Portland, and Denver stations have only AM R&B competitors.

Jerry Clifton's KPTY (Party Radio 103.9) Phoenix, which had gone almost to an all-teen act posture last year, has evolved again; its rival, KKFR (Power 92), seems to have moved away from the teen acts altogether. Another former Clifton client, KRBV (Hot 100) Dallas, that had also hit the teen acts heavily for a minute is in transition again, although teen acts still have some presence there.

Interestingly, there are just as many teen act records on the rhythmic chart as there were one year ago. But the bulk of those records were concentrated between Nos. 25-40 on last week's chart, with only one title, 'N Sync's "It's Gonna Be Me," in the top 20. By comparison, last year's chart had Backstreet Boys, Aguilera, Spears, and Martin—if you consider him a teen act—in the top 15, with two titles by 98° on the chart as well. All of which would imply that while those records aren't having a hard time charting, the number of stations that seem less receptive are keeping them from achieving critical mass.

It's worth noting right away that some of this could be timing. A new 98° single is scheduled for release within days, and the next Backstreet Boys project is due shortly. And KPRR (Power 102) El Paso, Texas, OM John Candelaria believes that the boy-group sound "hasn't peaked yet. At this point," N Sync has got to be hotter than ever, although Backstreet Boys' 'The One' is taking a while to develop. But we don't judge the music by the group. We let each record stand on its own. That's the beauty of top 40. It's more song-driven than artist-driven.

But some PDs are definitely feeling more R&B these days. "We just go with the flow of what the audience is into at the time," says WBBM-FM (B96) Chicago PD Todd Cavanah, who shares some of his music with heritage R&B WGCI-FM. "It could be hip-hop or teen pop. The key is to stay true to the demo, and right now I'm a little surprised that over the last six months, hip-hop and R&B started testing huge and reacting faster."

"It's pop culture in general, and our audience in specific," says KQKS PD Cat Collins. The last research project we did, just a month ago, showed hip-hop a lot bigger than R&B. Eminem and Dr. Dre just happen to be the hot sound, so we lean more hip-hop right now. A year and a half ago, we leaned more R&B, because that's the way our audience leaned.

"I do sense the teen-pop thing slowing

down. If past history is any indication, there should soon be a tidal wave of negativity from young adults against these acts. KOKS has always been positioned with hip-hop and R&B and will continue to play those genres of nmsic very liberally. As always, if another music style comes to us organically through pop culture and is found to be compatible with hiphop and R&B, we will play the biggest of the big from that genre, but the meat and potatoes KQKS is hip-hop and R&B."

"We're being very careful with [teen pop], because we've seen [this happen] before," B96's Cavanah adds. "You'd be an idiot to play all these other teen groups. Remember the way Backstreet Boys broke out? They were already selling out stadiums in Europe. Just because a couple of those bands are really popular doesn't mean every boy band will put out hits.

#### **Living With/Without Rival R&B Station**

Continued from page 1

"hits" and "variety" positions. And there's just as much diversity of opinion among stations without R&B competition.

That said, there are still some PDs who say that having R&B competition allows them to be faster on R&B product. And there are those who, in keeping with a 15-year tradition at the format, expect their R&B rivals to warm up certain types of records, particularly ballads.

"We generally will look at the records that are getting a significant amount of spins [on rival WGCI]," WBBM-FM Chicago PD Todd Cavanah says. "Actually, we're playing more hip-hop than they are these days. We're out-spinning them on 'Slim Shady,' DMX, and Jay-Z, because they're shedding teens and growing adults." On the other hand, he says, "ballads are usually pretty deadly for B96, so to play an R&B ballad, it's got to be huge in call-out before I touch it, which means it would be in power rotation at WGCl for a while.'

"Although there are exceptions where we go on a record as soon as [R&B rival WTLC-FM] does, more often they warm some R&B hits up for us," says WHHH (Hoosier 96) Indianapolis PD Scott Wheeler: "They'll start a song such as an R&B ballad by Toni Braxton, then once it's big

enough, we'll move on it."

At WPOW (Power 96) Miami, "we're not opposed to using [R&B WEDR] to figure out what to play," says PD Kid Curry. "It's usually their four or five biggest songs, as long as they have mass-appeal, such as the Aaliyah, Joe, and Jay-Z." While many rhythmic PDs are more aggressive on hip-hop than ballads, Curry says, there are still songs he considers too male or "too ghetto" that he won't play, "no matter how popular they are on WEDR.'

In R&B-less Denver, "we can be more independent," says KQKS PD Cat Collins. "MD Jon E. Kage and Histen to everything, and if we just love something that we feel hits our core, we'll be the first on it. On the other hand, if we don't care about the record, we have the luxury to sit on the sideline and look at how that record is working in other markets. It allows us to be more independent and probably a bit more conservative

'We have the luxury of sitting back a bit and watching some records develop," says KPRR (Power 92) El Paso, Texas, PD John Candelaria. "MTV has a significant role in that. We also watch the phones and get out in the streets to determine which records are the best. Our goal is to stay with the crowd, not too far in front of them and not

At KXJM (Jammin' 95.5) Portland, Ore., "we can't say we're faster due to an R&B station being present or not present," says PD Mark Adams. "We have to be more reflective of the marketplace, which in Portland is very aggressive even though there is no R&B here. Prior to being in this market, it would be natural to assume that you need not be aggressive, but once I got here, I found that just the opposite is true. The lack of an R&B [outlet] has, in a sense, seriously created a desire for aggressive new music.'

KLUC Las Vegas doesn't have a commercial R&B competitor, although PD Cat Thomas oints out that he does deal with community outlet KCEP, which "does us a great service by warming up some records for us."

Most rhythmics in R&B-less markets have to use other means of finding new music. "More often than not, we rely on our gut," Adams says.
"We're in a bit of a vacuum, in that there's no one else locally who can let us know what's working. It's important to be familiar with the marketplace and to use that latitude in [making] decisions. By now we feel fairly comfortable with our core, [but] we try not to get too comfortable. We triplecheck things to make sure we're on the right records.

"For us, it's just MTV and BET," Collins says. "Some people we talk to feel we are the only ones to try more music. Others tell us to take no

# **Bad Ads Are More Than Screaming Car Spots**

An open letter to ad agency creative people: A few months ago, one of you came up with an ad for some automobile or SUV promoting a free CD player offer. Over a music bed that sounded vaguely like **Everlast's** "What It's Like," a "deejay" described the offer at length, refusing to shut up—the implication being that only a CD player would save listeners from having to hear some moron talk all over their favorite songs.

It sort of amazed me that stations were willing to run your ad, although in the current climate, the real surprise would have been the GSM who walked away from it. Guess that answers the question about whether we'll run ads for satellite radio next year. I should also note that I've heard the spot at least five times, but I still don't remember whom it was for, which says something about its effectiveness.

Mostly, I couldn't help thinking that whenever agency spots try to re-create the sound of "real radio," the ads inevitably sound nothing like it, the current "Arby's Radio" spots being the latest example. As most radio folks will tell you, it's been a long time since jocks talked over the middle of songs. Now, if that guy in the auto spot had spent three minutes getting into a stop-set, it would've been right on target.

Í should point out here thát I'm really a fan of great radio spots. I was always the PD asking the production director to put the good ones on a reel for me and the one calling the agency to tell it when I loved a spot (usually a surprise for folks who were only used to complaints). And I've heard some great agency work recently, including a devastating spot on domestic violence for the United Way of Western New York and, at the other end of the spectrum, a BP gasoline ad this winter that turned "They're Coming To Take Me Away, Ha-Haaa!" into "They're coming to tow me away."

But if you guys still think of radio folks as '60s-style pukers who love to hear themselves talk, well, there's a lot I hear in spots that is clichéd and/or self-indulgent. While most PDs would just be happy if the screaming car ads and diet/impotence ads went away, I've got a longer wish list. Why don't you hotshots . . .

Try to get through the next holiday season without any spots where Santa announces that this year, he's turning over his duties to your shopping center or dotcom client. Feel free to retire the Easter Bunny, Cupid, and George Washington as pitchmen, too.

 Set aside the spontaneous, irony-free conversations about products that nobody spontaneously discusses (e.g., "Why won't Ginger go to the prom with me?" "Maybe you're using the wrong industrial caulking supplies!"). Also the phony game shows where your client is always the winning answer. Same for the cute kids refusing to put monmy on the phone while the car dealer does his sales pitch. Or the state troopers who pull motorists over to tell them how much money they could have saved with the right industrial caulking supplies.

 Stop misusing my favorite oldies, particularly in ways that show you don't understand their lyrics. Anybody who'd actually listened to "Street Life" by the Crusaders ("There's always love for sale/A grown-up fairy tale/Prince Charming always smiles/Behind the silver spoon") would never use it to hawk cellular phones. I'd also like legislation preventing songs from being used in spots for movies in which they don't actually appear—we have "sunshine laws" that guarantee public access to government; now it's time for the "Walking On Sunshine" laws. And it's also time to put away the Space Age Bachelor Pad music that's been so overused that it's lost any irony or camp value.

 Stop trying to re-image products as cutting edge with scatological or otherwise inappropriate humor. At Christmas '98, there was a great Yahoo! ad where a 1-900-number dominatrix tortures a masochist by describing holiday mall shopping. But that was an exceedingly welldone ad for a cutting-edge product. A year and a half later, using bodily fluids to hawk office supplies or oil changes is just gratuitous. And it reminds me of my first radio job 18 years ago when I cared more about what I could get away with on the air than what suited my station. Yes. most morning shows have edgier content. Yes, it's an Eminem world, and some adults don't seem to mind living in it. But what's OK among buddies in the vanpool is still a little disconcerting from the person behind the counter.

More than ever, radio and agency creative folks need to be on the same side, since the latter are now responsible for so much more of the former's product. For their part, broadcasters don't do such a good job of showcasing your spots. When they're not burying them in sevenminute clusters, they're blaring "commercial free" and reinforcing listeners' negative per-ception of your life's work. We almost can't blame you for saying anything that will get your product noticed. Ultimately, there needs to be the same sort of dialogue between PDs and advertisers that goes further than just trying to get the most obvious offenders off the air.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has beer on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on buth the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain ill detections over the previous week is placed first if bed with a song with a dealine over the same period. When the disongs are each gaining detections or each losing detections. The song being played on more stations is placed first. # Monitor POWER PLAYLISTS MAINSTREAM TOP 40

#### FOR WEEK ENDING JULY 23, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

1st Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

#### FOR WEEK ENDING JULY 23, 2000

Songs ranked by number of detections. Placifists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

1st Impressions (FI) denotes songs with 6 or more detections a station for first time this week.

ongs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been in the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 0 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest crease in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain detection sover the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

# Monitor POWER PLAYLISTS RHYTHMIC TOP 40

#### FOR WEEK ENDING JULY 23, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

1st Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of charl movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When the songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Songs showing a ... crease in audience or the orevious week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a build, even if it repisters an increase in audience. A song with a gain in audience over the previous wisk is placed first if bed with a song with a decline over the same period. When the dosings are each gaining in audience or wach losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When field songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

The chart, reprinted from Rock Airplay Menitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 67 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart morement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower swarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A scong with a gain in detections over the previous week is placed first if teld with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks. ©2000 Billboard/BPI Communications
