# **Top 40 Scores Best Numbers Since '92 In Spring Arbitrons**

by Sean Ross with Jonathan Kurant and Frank Saxe

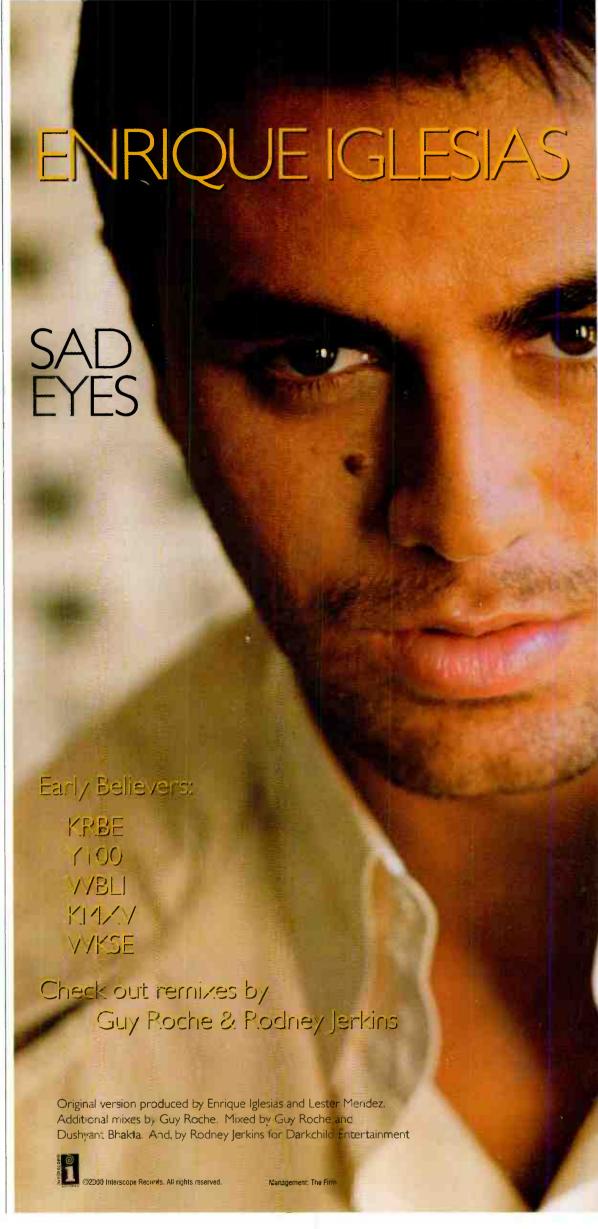

Six months ago, the national ratings news from the fall '99 Arbitrons was great for news/talk radio and Spanishlanguage stations and almost nobody else. The numbers normalized a bit in the winter, but in the just-released spring books, the news was good for almost every format but Spanish and N/T. There was a rock and R&B radio resurgence, country posted its second straight up book after five years of almost continuous decline, and top 40 had its best numbers in eight years.

Airplay Monitor's national analysis of spring books for Arbitron's 92 yearround measurement markets shows N/T radio sull in first place but down 16.3-15.5 12-plus and off sharply from the 20.7 share it had last fall, meaning that the format has, in six months time, gone from its best-ever national number to its lowest number since summer '94. N/T was down seventenths of a share in all adult demos.

AC stations (which included, for our purposes, everything from adult top 40 to soft ACs) were off 13.8-13.5 but still had the No. 1 music format. AC was followed by R&B (12.5-12.9), top 40 (9.8-10.5), country (8.9-9.0), Spanish (7.3-7.2), album rock (6.1-7.5), oldies (5 4-5.6), classic rock (4.9-5.0), modern rock (3.8-3.9), adult standards (3.4-3.2). jazz (2.7-2.8), religious (2.7-2.3), and classical (1.7-1.6).

AC was up in the winter, paced largely by mainstream ACs rather than adult top 40s. But this time, the hotter ACs were up 5.2-5.3, meaning that mainstream AC was off fourtenths of a share. (We've noticed that the two seesaw from book to book.) AC was also below its 12-plus number from spring '99, when it was off 14.5-13.9. While the format was off about three-tenths of a share in most demos, its biggest drop was in 18-34, which was, coincidentally, the site of

### **De Castro To Keynote Seminar**

Veteran manager, group head, and now Netcaster Jimmy de Castro will be the keynote speaker at the Billboard/Airplay Monitor Ra-dio Seminar and Awards, set for Oct. 5-7 at the New York Hilton.

De Castro is the former CEO/president of AMFM—beginning on the station level in the 70s and rising through the ranks of San Francisco, Boston, and Chicago radio before becoming COO of Evergreen Media, which was later merged

into Chancellor Media, now awaiting its own merger into Clear Channel as AMFM. Since retiring from AMFM in February, de Castro

has been working behind the scenes on a soon-to-be-unveiled Internet initiative, Nothing But Net.

For the first time since leaving AMFM, de Castro will publicly speak about the merger of AMFM and Clear Channel, and he'll dis-

his old medium of radio heading.

For more info on registration and discount hotel prices and airfare for the Radio Seminar and Awards, go to billboard.com/ events/radio or call the seminar hot line at 646-654-4660.

### **Latest Buzz: Burns Returns To K.C.**

Veteran programmer Brian Burns, most recently OM of AMFM Raleigh, N.C.'s cluster, returns to his old stomping grounds of Kansas Cityas VP/station manager of Entercom's smooth jazz KCIY (the City), WDAF (61 Country), and classical KXTR, which flips to what he's calling "rock 40" as KRBZ (the Buzz). Burns came to national prominence at another "rock 40" outlet, KXXR, over a decade ago. The Buzz will be targeted to women 18-34, but Burns notes that the station hopes to cut into the audience of several stations and not just heritage top 40 KMXV (Mix 93.3). "We'll be dayparting, with Sheryl Crow in the daytime and Cake at night," he says.

#### JEFF SILBERMAN 323-525-2303 • jsilberman@airplaymonitor.com

Here's a sample hour: Creed, "With Arms Wide Open"; Dave Matthews Band, "Ants Marching"; Goo Goo Dolls, "Black Balloon"; Lenny Kravitz, "American Woman"; Collective Soul, "The World I Know"; matchbox twenty, "Bent"; Eagle-Eye Cherry, "Save Tonight"; Citizen King, "Better Days (And The Bottom Drops Out)"; Alanis Morissette, "You Learn"; U2, "Where The Streets Have No Name"; Red Hot Chili Peppers, "Scar Tissue"; Green Day, "Time Of Your Life (Good Riddance)"; Phish, "Heavy Things"; Nine Days, "Absolutely (Story Of A Girl)"; Tom Cochrane, "Life Is A Highway."

The Buzz is currently jockless, running 5,000 songs in a row. Burns says he will be hiring a PD for KRBZ within the next two weeks and seeks air talent for all shifts.

In other programming news, Michael Luczak, OM of Blue Chip/Dayton, Ohio, exits for the longvacant PD post at R&B oldies WZJM (Jammin' 92) Cleveland, replacing Dave Eubanks. That leaves Ange Canessa flying solo as PD of Blue Chip's **WGTZ** (Z93).

WZAT (Z102) Savannah, Ga., PD/afternoon driver Brad Kelly exits. OM John "J.T" Thomas assumes programming duties and goes on-air in

WSSX (95SX) Charleston, S.C., APD/MD/nights Chase Murphy segues to Citadel adult top 40 sister WXLO Worcester, Mass., as PD. Former WXLO morning host Frank Foley returns to the station with previously reported cohost Jen Carter from KMXB (Mix 94.1) Las Vegas.

Beau Richards exits modern AC KCDA (Mix 103.1) Spokane, Wash.

Mack Dixon is the new PD at WMME (92 Moose) Augusta, Maine, replacing OM Jay Thomas. He was PD of adult top 40 WMWX (Mix 99.9) Lewiston, Maine.

New top 40 outlet WXCR Albany, N.Y, switches call letters to WKKF.

Lots of changes at adult top 40 WRQQ (Star 97) Nashville this week, beginning with the departure of PD Bill Catcher. In addition, WNVZ (Z104) Norfolk, Va., taps Star's Michael Bryan for middays. And morning host Downtown Billy Brown moves to afternoons to make room for the syndicated Bob and Sheri show.

Soft AC KEZG (Star 107.3) Lincoln, Neb., applies for new calls KBBK as it flips to adult top 40 B107.3. The entire staff exits or has been reassigned within the cluster. Currently running jock-less, the station will have a new staff within 45 days, says OM Rob Kelly.

Bristol Broadcasting moves top 40 WAEZ Johnson City, Tenn., from its current 99.3 dial position to its newly acquired 94.9 signal. This will upgrade the station from 25 kilowatts to 100. Along with the signal upgrade, WAEZ shifts air staff: PD Gary Blake goes off-air, night jock Jack Tripper segues to mornings, morning man Chris "Hollywood" Mann moves to p.m. drive, and Stevie B., formerly of WQZQ Nashville, joins for nights.

#### **CLEAR CHANNEL CLOSING IMMINENT**

Having finally won FCC approval of its deal to buy AMFM Aug. 15, Clear Channel was at press time preparing to close on the \$56 billion deal. A number of spinoffs are to be consummated, and insiders say a number of new deals that would take Clear Channel into new markets is likely.

At press time, the FCC had released little documentation of its approval, and Clear Channel execs had yet to review the order. FCC lawyers were still trying to determine how many stations Clear Channel must sell, although an FCC source says the number will be 122—or nearly two dozen more than required by the Justice Department. FCC insiders were still unsure when complete details of the FCC's approval will be released.

As part of the AMFM buyout, the FCC has ap-

proved a series of spinoffs to other companies, as well as the creation of a trust to hold a number of stations until Clear Channel is able to sell them.

Meanwhile, former AMFM regional VP George Toulas joins Salem Communications as a senior

In other business news, AC KBIG and adult standards **KLAC** Los Angeles VP/GM **Ed Krampf** adds those duties at AC sister **KOST**. Former KOST GM Ken Christensen will continue to oversee modern AC KYSR (Star 98.7) and N/T KFI.

GSM Chris Clendenen is upped to market manager for the AMFM Roanoke, Va., cluster, including top 40 WJJS. He replaces Joe Conway, who's now GM of KFYI/KGME Phoenix.

Congrats to Joan Gerberding, president of Nassau Broadcasting's Nassau Radio Network, who will receive the 2000 Star Award at the American Women in Radio and Television's national convention Aug. 28.

#### **MONKEY GETS SPANKED**

Arbitron has released revised spring numbers for Biloxi, Miss., after pulling five "media-affiliated" diaries in the market. Most affected is country WZKX, which drops from 7.6 in the original numbers for spring to 5.9, but rhythmic top 40 WXYK (the Monkey) is also off slightly, from a 7.1 to a 6.8 in the new numbers.

#### **PEOPLE: DEES FEVER CONTINUES** Clear Channel's top 40 KZZP Phoenix will be-

646-654-4636 · sgraybow@airplaymonitor.com

### **'Jumpin' 'Finds Its Mainstream Destiny**

Destiny's Child scores its first-ever mainstream top 40 No. 1 with "Jumpin', Jumpin'" (Columbia), besting the No. 3 high point of the group's "Say My Name" in May. "Jumpin' " achieved Airpower status in the July 7 issue of Top 40 Airplay Monitor. On May 28, KHTS San Diego became the song's mainstream top 40 Airplay Leader, the first station to play it 150 times. WHYI (Y100) Miami also played the song 150 times or more by the time it hit Airpower (crosstown rhythmic rival WPOW [Power 96] was an early supporter of the song on the rhythmic side, playing it when most stations were still on "Say My Name").

Last week, Creed's "With Arms Wide Open" (Wind-Up) debuted at mainstream top 40, several weeks after making its initial splash at modern AC. This week, it charts on the adult

top 40 side.

Bon Jovi's "It's My Life" (Island/IDJMG) achieves adult top 40 Airpower status this week. Although the song debuted at mainstream top 40 two weeks before hitting the adult top 40 chart, it becomes an Airpower track at adult top 40 first.

Despite being in its 21st chart week on the adult top 40 airplay and audience charts, Sting Featuring Cheb Mami's "Desert Rose" (A&M/Interscope) is given a bullet on both charts due to its ongoing growth. The record will continue to be eligible for a bullet until it stops gaining in audience and detections. "Desert Rose" is Sting's highest-charting adult top 40 title in

Two debuts on the mainstream top 40 chart are tied in detections: No Authority's "Can I Get Your Number" (MJJ/Maverick) and **Debelah Morgan's** "Dance With Me" (The DAS Label/Atlantic). While both have 1,131 detections, No Authority is placed first, in accordance with Monitor's tiebreaker rules, which state that the song with the most stations is placed first. If the station counts are equal, the tie would then be broken based on the total gain; if that number did not break the tie, the third tiebreaker would be total audience.

PANEL CHANGE: KSTJ Las Vegas is removed from the adult top 40 panel, following last week's format change to oldies. There are now 85 adult top 40 reporters.

PERSONNEL FILE: Roadrunner ups senior VP/GM Jonas Nachsin to label president. Warner Music Group national director of pop promotion **Ed Nuhfer** is named director of IT decision support systems, working with WMG's development team for Data on Command.

Former KMEL San Francisco PD Joey Arbagey takes on New York-based A&R duties at

gin airing KIIS L.A. morning star Rick Dees' syndicated show Aug. 28, replacing Ron Upshaw, Don O'Neil, and Jackie West. Dees is also confirmed at Zimmer top 40 KGKS (Kiss 93.9) Cape Girardeau, Mo., where PD Chad Elliott moves to middays and middayer Whitney Thomas moves to afternoons. Dees' syndication folks are promising to announce new stations in San Francisco and San Diego shortly. Meanwhile, new adult top 40 WTCF (Mix 100.5) Saginaw, Mich., which added Dees for mornings last week, also taps Danielle Steele, from crosstown country WKCQ, for middays and Preston Cooper, from the previous rhythmic top 40 format, as APD/MD/nights. PD Mike McDonald will do afternoons.

Longtime rhythmic programmer Mark Shands joins Rick Gillette and Mark Jackson, becoming an MD for the DMX Music service.

KYPT (the Point) Seattle PD/afternoons Garret Michaels has revamped the '80s gold station's morning show, bringing in former **WPLY** (Y100) Philadelphia night jock and **WLNK** Charlotte, N.C., APD/MD Josh Goodman and WNKS (Kiss 95.1) Charlotte, N.C. P/T Eddie Harkenson (who worked with Goodman at the Link). Look for them to be complemented by WWZZ (Z104) Washington, D.C., middayer Lisa Berigan. Meanwhile, WNCI Columbus, Ohio, promotion director Brad Witers re-teams with PD Neal Sharpe as promotion coordinator at WLNK.

WZPL Indianapolis promotion coordinator Kari Johll is upped to programming and promotion coordinator.

WHYI (Y100) Miami afternoon host Kenny Walker has a neat new weekend gig as play-by-play announcer for Miami Dolphins football games at Joe Robbie Stadium.

Several weeks ago, night star Al B. Sylk made a mysterious exit from WEDR (99 Jamz) Miami. Now, Sylk resurfaces in afternoons at crossover R&B **WJHM** (102 Jamz) Orlando, Fla., allowing PD Russ Allen to vacate the afternoon air shift he'd been holding down since March, when he re-placed **Stevie Demann**.

Bill Michaels joins adult top 40 KIMN (Mix 100) Denver for nights from the same at country WXXQ Rockford, Ill., as Spanky.

Jones Broadcast Programming's Delilah is added to nights at ACs CJEZ Toronto and CFQR (Q92) Montreal.

WXLK (K92) Roanoke, Va., alumnus Sid Kelly picks up the night slot at KSLZ (Z107.7) St.

Former KWIN Stockton, Calif., MD/night jock Freeze segues to nights at rhythmic top 40 KSFM Sacramento, Calif.

Jackie Fristoe joins adult top 40 KRXY (Roxy 94.5) Olympia, Wash., for nights, replacing Flash Phillips, now back in Fort Wayne, Ind.

CKIK (Power 107) Calgary, Alberta, moves night jock (and former APD/MD) Maz McFly to middays, replacing Ken Rigel, now with Rogers' new start-up in Victoria, British Columbia. P/T Johnny Staub takes evenings. Laurie Healy assumes McFly's MD duties. Also, Kenny B. from CING (Energy Radio) Toronto joins for P/T.

#### JOCK FACES THE NAKED TRUTH

The Fargo (N.D.) Forum reports that WYYY-FM (Y94) Fargo morning co-host Jill St. John was fined \$300 and sentenced to 90 days in jail as a result of a morning-show prank. She pleaded guilty to falsely reporting a crime after purporting to be a distraught mom and telling cops that morning stunt guy Extreme Jim, at a local park as a human guinea pig to verify mosquito infestation, was running around naked. All but 10 days of St. John's sentence will be deferred for a year. She's also been ordered to apologize on the air, as well as to the police and the officer who responded to the call.

#### **MORE NEWS ON KIDS' LISTENING**

How entwined are children with radio? A new study by Arbitron shows 6- to 11-year-olds respond not only to the music but also to commercials and station-sponsored events and contests. The callback study, conducted in New York, Los Angeles, and Minneapolis, is a follow-up to Arbitron's "Kids And Tweens Listening Study," released earlier this summer. The study also found that in the car-where 85% of kids listen to the radio-kids pick the radio station either all of the time (34%) or some of the time (38%).

#### **VERTICAL HORIZON, PT. II**

Correcting an item in last week's Radioactive: The dispute over Vertical Horizon's failure to appear at a Greensboro, N.C., show last April was resolved earlier this month without a lawsuit being in-

### **Shareholder Files To Block Infinity Buy**

It's de rigueur in mergers, buyouts, and rollups these days, so attorneys for Infinity Broadcasting could hardly have been surprised when a shareholder filed a lawsuit to block Viacom's \$15.5 billion buyout of the Infinity shares it does not own. The share owner, Yehuda Glatzer, claims that because Viacom already owns 64% of Infinity, Infinity's board of directors is selling the company to Viacom for a bargain-basement price. In its offer, Viacom agrees to pay about \$40 a share, which is \$2 above where Infinity is currently trading. In the suit, filed in Delaware Chancery Court Aug. 16, Glatzer charges, "Viacom has tried to take advantage of the fact that the market price of Infinity stock does not fully reflect the progress and future value [of Infinity].'

Salt Lake City-based broadcaster and outdoor advertising company Simmons Media Group hopes to raise as much as \$34.5 million in an initial stock sale. In its filing with the Securities and Exchange Commission, Simmons reveals plans to sell four stations in St. George, Utah, to Crestwood Communications and to focus on mid-size radio and billboard markets in the western U.S. Simmons Media already owns stations in Albuquerque, N.M.; Austin, Texas; and Salt Lake City—where it has been granted two FM construction permits for new stations.

Meanwhile, Simmons president/CEO David Simmons is awaiting sentencing for his part in a bribery scheme relating to Salt Lake City's bid to host the 2002 Winter Olympics. He pled guilty to a misdemeanor tax charge and admitted he agreed to give the son of an International Olympic Committee member a sham job to qualify for permanent U.S. residency. Under federal law, the FCC could have withheld the new CPs from Simmons Media based on Simmons' guilty pleas, but the FCC ruled his actions were "not sufficient" to deny the licenses.

Up until now, Simmons has been privately held, so it has never released its earnings statements. Yet in its SEC filing, it reveals it had a net loss of \$4,000 on net revenue of \$11 million for the first half of 2000; a significant improvement from a net loss of \$340,600 on revenue of \$10.3 million the previous year.

Elsewhere, XM Satellite Radio has closed on its \$235 million financing deal announced last

month, thereby securing enough funding to get it through its launch. As part of the transaction, American Honda Motor Co. has joined General Motors, DirecTV Enterprises Inc., Clear Channel Communications, and Motient Corp. as key strategic investors in XM.

#### CAPITOL

Cox Radio has been given a 12-month waiver of the FCC's cross-ownership rule in order to buy oldies WFOX Atlanta from Clear Channel. Cox needs the waiver because it owns two newspapers in the market, The Atlanta Journal-Constitution and The Atlanta Journal. Cox had argued that because WFOX is licensed to Gainesville, Ga., 55 miles from Atlanta, the two media do not compete for advertising dollars. The FCC disagrees and will allow Cox to own the station for one year, after which it will need to sell either WFOX or the Journal-Constitution.

sell either WFOX or the Journal-Constitution.

The FCC is flagging Clear Channel's deal to buy rhythmic top 40 WSSP Charleston, S.C., from Concord Media.

Effective Sept. 11, the FCC will impose an across-the-board increase in its application fees charged to licensees and permittees.

#### **NEW MEDIA**

Arbitron has a new Internet ratings competitor with the market entry of MeasureCast Inc. The Portland, Ore.-based company began its third-party streaming audience measurement service Aug. 16, with the announcement that BroadcastAmerica will be its first customer.

While Arbitron's InfoStream ratings system is based on clients' server logs, which are culled for user totals, MeasureCast places its software on the streamers' computers, allowing it to report back ratings in near real-time fashion and release daily measurement reports. MeasureCast says that its server-side technology will record the exact number of streams and that its technology is tailored for streaming media and results in accurate, tamper-proof, and up-to-date audience size and usage information.

U.S. Internet advertising will reach \$16.5 billion by 2005, as companies spend more on Web sites and Internet services, according to a new forecast by Jupiter Communications. Its projection is up from the \$3.5 billion spent in 1999. By 2005, Internet marketing will grow to nearly 8% of total U.S. advertising spending, within striking distance of overtaking radio as the third-most-used media. (Broadcast TV and newspapers will be the top two for the foreseeable future, say analysts). The Internet research firm calculates that by 2005, the average consumer will see more than 950 online ads a day. "The battle within this cluttered environment will be to capture the attention of online users," says Jupiter analyst Patrick Keane.

# TOP 40 TOPICS BY SEAN ROSS

**646-654-4617 · sross@airplaymonitor.com** 

### **Audience Says Janet Still 'Matters'**

I think Janet Jackson caught radio off guard with "Doesn't Really Matter." From the time it came out, it would crop up in the middle of my conversations with programmers, who'd drop into that conspiratorial tone of voice and ask me if I thought it was a real record. Eventually, those questions were replaced by comments along the lines of, "Well, I'm putting the Janet in this week. That one really surprised me." And judging from the Song Activity Reports that show a lot of people just moving that song into power recently, those PDs weren't alone. And their initial response makes me wonder not only if people underestimate the song but perhaps lackson herself deserves more credit.

It's easy to say now, I realize, but I'd liked "Doesn't Really Matter" from the time I'd first heard it on R&B WBLS New York I didn't know if top 40 radio would embrace the song; it had been less than enthusiastic about the singles from "The Velvet Rope," except for "Together Again," but I thought Jackson had—once again—done a pretty good job of updating herself. "Doesn't Really Matter" sounded contemporary but was still of a piece with her other hits.

Then again, Janet's been doing that for more than 15 years now. Her career started almost simultaneously with that of **Madonna** in late '82. But where Madonna's pop breakthrough only took a year, Jackson would wait a little more than three years for her first pop smash. In an era when "Jackson" could have been its own Selector code, it took a few years for "What Have You Done For Me Lately" to bring her out from **Michael's** and **Jermaine's** shadow. Even **La Trya** managed a pop hit first, sort of

Toya managed a pop hit first, sort of.

But even before "What Have You Done For Me Lately," she'd shown considerable promise. And versatility. She'd already made the Minneapolis connection, hooking up with Prince refugee Jesse Johnson before teaming with Jimmy Jam and Terry Lewis for "Control." She'd also experimented with rock'n'roll several months before Michael released "Beat It," adding some B-52's-style guitar to "Come Give Your Love To Me," a record you likely know only if you were in Detroit or an R&B listener at the time. (Incidentally, Jermaine had also made a rock record by then—"Let Me Tickle Your Fancy," meaning that Michael was last in on that one.)

When Jackson finally began having top 40 hits in 1986, she didn't just break through as an artist; she broke the sound barrier at that for-

mat. Industrial sounds had been part of R&B radio ever since **Kraftwerk's** "Trans-Europe Express" in the late "70s. But until "Nasty," the single, you were still more likely to hear machine music at 2 a.m. on college radio than anywhere on top 40. "Nasty" was a radio breakthrough for electronica long before anybody called it that and 12 years before "Ray Of Light."

It's also worth noting that "Nasty" came from the same album as "When I Think Of You," a song that A&M had initially thought might not fit with the rest of the "Control" project. And yet, by providing a change-up from the other singles' sonic blast, it turned out to be probably the most enduring single from the album. It also established Janet as somebody who could make records like "Escapade," "Run Away," and now "Doesn't Really Matter" that were light but not too treacly, long before that sort of delicacy found its place in today's more acoustic R&B.

Since then, she's been as consistent a singles artist as Madonna and more consistent than Michael, Prince, or any long-running hitmaker you can think of. She's always tried to make records that are relevant to a new generation of listeners, but she's never begrudged radio hooks or melodies (with the possible exception of "Got 'Til It's Gone," which was more miscalculated than willful). She's managed to keep her credibility at R&B, which doesn't play much of her gold but will usually give her the benefit of the doubt with each new project. And, like Madonna, she's always pushed the envelope in terms of representing assertive female sexuality.

Yet if both artists were radio stations, any perceptual (of PDs, in this case) would likely show Madonna controlling a lot of those images: constant self-reinvention, reliable singles artist, envelope-pushing sexuality, etc. She'd certainly deserve them. But so would Janet. And coming from the generation that remembers when Jackson was too young to be a sex goddess, it's hard to imagine today's PDs being hung up about her appeal to new listeners because she's all of 34 now.

Long story short: Jackson deserves more credit than she's gotten in recent years. While it's probably top 40 programmers' nature to be suspicious of any long-entrenched artist, she hasn't done a lot to betray their trust or prove unworthy of being a core artist. And even when not every PD understood this time, it didn't really matter. The listeners did.

### **Universal Goes Universal**

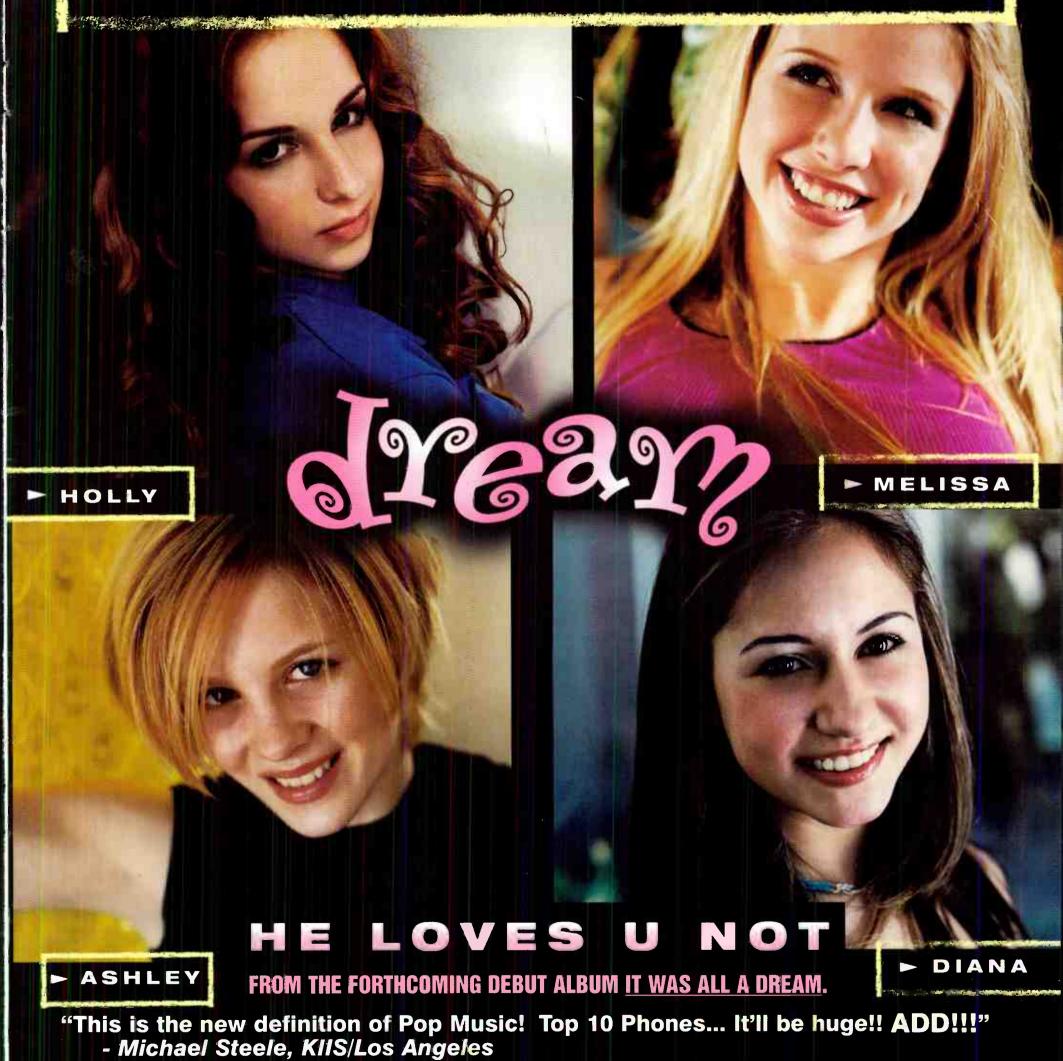

WKSE (Kiss 98.5) Buffalo, N.Y., took listeners to see Mariah Carey, center, in Toronto. Shown with some of the winners, second from left and in front, are WKSE personalities Donny Walker and Shy Guy Shawn and, third from right, PD Dave Universal.

### Vega In Vegas

RCA Records debuted new artist Tarsha Vega at the House of Blues in Las Vegas. Shown, from left, are RCA's Ray Carlton; WPX'? Rochester, N.Y.'s Mike Danger; WNKS Charlotte, N.C.'s John Reynolds; Vega; KLUC Las Vegas' Cat Thomas; and RCA's Ron Geslin, Eric Murphy, and Tony Monte.

AN OVERVIEW OF RADIO PROMOTIONS • BY **JEFF SILBERMAN** 

323-525-2303 · jsilberman@airplaymonitor.com

### **Fall Promo Outlook: Big Bucks Are Back**

In a business where the contesting mantra, practically from day one, has been "cash is king," it should come as no surprise to discover that some big bucks will be flying for radio promotions during the fall book. Scott Meach, director of marketing for American Media & Special Promotions, which specializes in milliondollar contests such as the birthday game, estimates that the number of stations doing such contests this year will increase 75% to 100% over last year. "We've already executed more in 2000 than we did in all of 1999," Meach says.

That number is still in flux, because "we're still working with stations on doing things for this fall," he says. "We started planning fall book promotions with stations as early as June, some even before that, but there's still time to get them ready. It doesn't take us long to put one together-two weeks if need be-although it's best for stations to build them up for a while longer."

Not only will there be more million-dollar contests, but the stakes will go even higher. Cumulus has already staged a group contest with American Media where one contestant had a chance to roll seven dice and win \$5 million. You can bet the house that it won't be the last big jackpot. "There will be stations doing \$5 million contests this fall," Meach says. "Some are stations for which [we] have previously underwritten million-dollar contests. While a million dollars still speaks very loudly, we are seeing a prize inflation of sorts. Besides Cumulus' group effort, R&B oldies WUBT (the Beat) Chicago recently did a \$5 million contest."

Neither contest had a \$5 million winner, which brings up the common complaint that contests that don't have a big local winner can do more harm than good, perception-wise. "We're aware of that, so we work with stations on creative ways to give prizes away so they don't gain that reputation," Meach says. "Our contests have guaranteed prizes, which are enhanced with an impactful insured prize. With Cumulus, all of the participating stations [in the group contest | had one listener who won a free trip to Las Vegas, free shows, and a chance to qualify to roll the dice for \$5 million."

Although the big dice roll wasn't broadcast live by the contestant's station ("It would've been great theater," says Meach), Cumulus was still sufficiently satisfied with the contest to plan similar ones that are tailored to specific formats this fall. For its part, American Media is coming up with different ways to give away the millions. There are ATM-like cash machines, bank vault runs, choosing the one money bag (out of 100) that has the million(s), and guessing exactly how much the Dow Jones industrial average went up in one day (for news/talk stations).

One contest that worked for triple-A WXRT Chicago was its Virtual All-Star Concert, a \$2 million jackpot for accurately guessing a music sweep. "It can be for specific songs or artists, as long as they rank them in exact order," Meach says. "Of course, there are different ways to execute this. WXRT named six bands, naturally all core acts. They qualified listeners over five weeks, giving \$2,000 to those who called in after hearing their name on the air. More than 50% responded, which WXRT was very happy with. The station randomly selected one qualifier to list the six artists in order, a 720-1 shot, in order to win \$2 million. The person didn't win, but it was still very successful, because it had a great runner-up prize that was given away every day. The \$2 million was just a powerful enhancement."

#### **QUICK HITS**

Country WPOC Baltimore morning host Laurie DeYoung asked listeners to send in rea-sons why they need a family reunion. "The winner gets a complete catered BBQ lunch, hosted by the morning-show cast, that features Laurie's potato salad, the news guys cooking cheeseburgers, and family games like sack races with prizes," says Sheila Silverstein. "We've had an overwhelming response, plus we're flying in a family member and guest and having special yellow T-shirts with a WPOC Laurie DeYoung Family Reunion logo and the winning family's name for a great photo opportunity.

#### Top 40 Scores Best Numbers Since '92 In Spring Arbitrons

Continued from page 1

top 40's biggest gain among adult demos.

#### **TOP 40'S BEST NUMBERS IN YEARS**

Top 40 was up despite a great spring book for the format, which hasn't seen a 10.5 since fall '92. Top 40 was up in all demos but most sharply among teens (36.7-37.9) and 18-34 (14.9-15.6). Viewed separately, rhythmic top 40 was up 3.0-3.4.

Top 40's numbers are encouraging for several reasons. For one thing, it was up even though there weren't many more top 40s than there were in the winter book (177 stations in the spring survey, vs. 175 last time), meaning that the growth isn't just a result of the new signals. Besides, the fact that 18-34, 25-54, and 35-64 are all up means that Eminem isn't chasing away the moms and that the continued presence of 'N Sync and Britney Spears isn't annoying Big Sis too much-both issues that top 40 PDs had worried about.

All three of those acts gave top 40 event records during the spring, meaning that PDs can thank the labels' record-breaking opening-week setup for also helping publicize their stations by association. Wonder what format owns Eminem? Well, all three formats that play him-modern rock, R&B, and top 40—did pretty well this time out.

It's also interesting that while some mainstream ACs have been hoping to thwart top 40's growth by jumping on as much boy-group product as they could, it didn't seem to pay off this time, even though the greater presence of "extreme' records at top 40 could theoretically have sent mothers scrambling for a kid-friendly alternative. (Or a more familiar alternative, since top 40 was more current than it has been in years.)

#### **COUNTRY RECLAIMS UPPER END**

The increasingly aggressive AC format also seems to be sending some of its upper demo back to country radio. After an unusually low 8.2 share in the fall-its lowest numbers since before Garth Brooks-country rebounded in winter and again in the spring. The number of country stations that showed up in a spring book somewhere was up 266-275, always a good sign.

Country's gains, significantly, were almost all at the upper end. It was up 10.0-10.3 35-64 but flat 25-54 (9.0) and off slightly in 18-34 (7.9-7.8). That's not so surprising considering the format's greater musical conservatism and the fact that it's easier to hear "Fishin' In The Dark" or "Lookin' For Love" on the radio than it has been in years. It is a little surprising since there was also a concerted attempt to offer more Rascal Flatts/Yankee Grey variety country rock. But since those acts are a deliberate throwback to the late-'70s/early-'80s heyday of Hank Williams Jr. and Waylon and Willie, maybe those acts have upper-demo appeal too. Male adult numbers were up 6.2-6.7.

#### **AN R&B REBOUND**

R&B stations are still short of their record 13.3 12-plus share last summer, but they've rebounded nicely from a subsequent drop to a 12.1. That number includes mainstream and adult R&B stations, as well as the new clump of R&B oldies outlets. Separately, mainstream R&B was up 6.9-7.1, adult was up 3.0-3.2, and R&B oldies was flat at a 2.6. The combined formats also posted nearly a 25 share in teens (24.3-24.9) but were also up four-tenths of a share in 25-54 (to a 13.0) and 35-64 (to an 11.1).

The R&B numbers suggest that mainstream and adult outlets are reclaiming some of the listening that they lost to "Jammin' oldies" stations. And those R&B oldies outlets, seemingly maxed out, won't now disappear unless owners won't settle for a niche format and start bailing out.

R&B PDs might also take some encouragement from knowing that while there was some superstar product during the spring (Toni Braxton, Sisqó, Aaliyah), the format got a boost from such relative newcomers as Carl Thomas, Avant, and Donell Jones.

#### **SPANISH STREAK ENDS**

Spanish-language stations were down a tenth of a share after six consecutive up books. While the format's move into new markets and onto FM in some old ones had helped Spanish-language radio shatter its own record book after book, the number of Spanish-language stations was down slightly this time, 192-186. And the lower shares for Latin radio in New York (which always contributes a lot of listening to the national equation) probably didn't help either.

While a recent article in Crain's New York Business suggested that a measurement problem might have been to blame for the lower New York numbers, some format observers say other issues affected listening. Besides the greater appeal of top 40, which also targets Hispanic listeners, one programmer says that labels' rush to help superstars cross to the general market has left him with less quality new material to play. (The crossover issue, by the way, continues to look like a red herring in country, which was up in the winter with two major country-to-pop hits and in the spring with none.)

#### **WAS WINTER A FLUKE FOR ROCK?**

Backed by 6.1-6.5 12-plus numbers this time, album rock's resurgence certainly supports the claims of format supporters who saw the slew of bad winter books as a ratings wobble, not a larger problem. All four rock formats were up, with classic rock continuing to grow (4.9-5.0) and modern up 3.8-3.9. Triple-A, which we count as part of the album rock number, was up 1.0-1.1 by itself.

In the winter, album rock was down sharply with adults, while classic rock was up—a situation we hypothesized could stem from its harder-rocking musical posture. Well, album rock was up 25-54 (7.7-8.2), but it didn't take those listeners back from classic rock (7.0-7.2). It may have taken them back from N/T, however. And while PDs had thought during the winter that rock radio was being eclipsed by the current success of top 40, the rebound took place this time despite strong growth for top 40.

As with R&B, which had a nice mix of new and veteran acts this spring, rock radio got more of a boost from a mix of recent acts (Blink-182, Creed. 3 Doors Down) and veterans (Red Hot Chili Peppers, Metallica) than it did last fall, when many of

> the mid-'90s superstars that modern and album rock shared released new albums that some PDs found disappointing.

> One other interesting note about modern rock: While it was up overall, it was down or flat in every demo except 18-34 (7.5-7.7), something that might also reflect the increasingly heavy nature of its music.

Finally, pop oldies stations seem to have recovered most of what they lost during last year's "Jammin' oldies" boom. Having fallen 5.8-5.3 between spring and fall of last year, they're now back to a 5.6. In 25-54, the format still has a 6.3 share, compared with last spring's 6.9. Then again, R&B oldies is also off in that demo, from a 4.0 share last summer to a 3.4 in the spring.

# MONITOR PROFILE

# **Wynter, Domino, Mathews Make WBTT** Fort Myers, Fla., A Home To Hip-Hop

With successful R&B-based rhythmic top 40s popping up from Anchorage, Alaska, to Johnson City, Tenn., maybe it shouldn't have been much of a surprise earlier this month when Clear Channel flipped country WQNU Fort Myers, Fla., to "the Beat: Blazin' Hip-Hop," picking up the WBTT calls from the company's former rhythmic top 40 in Dayton, Ohio.

The start-up was overseen by three programmers, Clear Channel director of urban programming Doc Wynter, who also oversees WJBT/WSOL Jacksonville, Fla.; Dom "Domino" Theodore, PD of top 40 WFLZ Tampa, Fla.; and new PD Bo Mathews, who had been doing nights at WQNU's mainstream top 40 sister, WOST (Star 100.1), since last fall.

As its positioner implies, WBTT plays hiphop and rap, "with a spattering of R&B titles," says Wynter. "We're going to let people shake their ass from 6 a.m. to midnight.

**Doc Wynter** Director/Urban Prog. Program Director **Clear Channel** 

**Bo Mathews** WBTT

In deciding what direction to take, Wynter says, "we looked at the demographic composition of the market [which is 6% black], and we knew it couldn't be a straight-up R&B [outlet]. We also looked at what the competition was doing. [WXKB] B103 is a mainstream top 40, but they [play] kind of a smorgasbord of music. When I was in town, I heard them playing Marvin Gaye's 'I Heard It Through The Grapevine.'" Mathews adds, "Last night I heard Juvenile's 'Back That Thang Up' into Papa Roach."

While it was clear that nobody was superserving hip-hop and R&B, the programmers had to ask, "Was there a demand for it?" Mathews says, "I looked at SoundScan for weeks before we made the [format] decision, and I would consistently see five or more rap singles selling in the top 10, and that was without any airplay in the market. And now that we're on the air, I've seen records like Dr. Dre's, which was moving down, shoot back up on the charts. We're getting calls from males and femalesyoung and adult alike—who have been starving to hear this type of music on the radio."

Wynter adds, "Even though I am not in the market daily, I know hip-hop works. Now, as we get to know the ethnic composition of our listeners, that will determine the balance of rap to R&B. We'll have to take it on a record-by-record basis. There's no real formula or rules for which R&B records or artists we add and which we do not. For example, Toni Braxton at times takes on an adult stance but will later release a record that has a younger-skewing feel, and so the perception of her as an artist changes depending on the record she has out at the time.

Here's a recent hour on WBTT: Dr. Dre, 'Forgot About Dre"; Missy Elliott, "Hot Boyz"; Trick Daddy, "Shut Up"; 2Pac, "Changes"; Nelly, "(Hot S\*\*t) Country Grammar"; Da Brat, That's What I'm Looking For"; DMX, "What's My Name"; Jagged Edge, "Let's Get Married"; Mystikal, "Shake Ya Ass"; Sammie, "I Like It"; Joe, "I Wanna Know"; Ying Yang Twins, "Whistle While You Twerk"; Sisqó, "Got To Get It"; 504 Boyz, "Wobble Wobble"; Big Tymers, "Get Your Roll On"; and Aaliyah, "Try Again."

And the reasons the Beat can play 16 records

an hour is because it signed on with the pledge to play 10,000 records in a row, commercialfree, backed up by a \$1 million guarantee. That should wrap up sometime after Labor Day," says Wynter, jokingly adding that the station will probably play "10,005 just to be sure . Overall, we are doing the things you typically do at this stage: We are trying to grow our cume by playing a lot of familiar music—recurrents and the hottest hits today—and hitting them frequently." According to Mathews, the station's powers rotate about every 1.5 hours.

But Mathews adds that the station may soon become more musically aggressive. "It may even be sooner than we planned," he says. "It's amazing the immediate reaction we've been getting from listeners. Not only is the cume growing rapidly and new people are tuning in every day, but those people are saying they keep us on exclusively."

The trio has a weekly conference call to discuss new music, so the sound of the Beat is a reflection of what's happening in Tampa and Jacksonville as well as Fort Myers. "We feel our music from Orlando [Fla.], Jacksonville, and Tampa, rather than from southern Florida, like Miami," says Wynter. "But there is a real Dirty South influence. I think the best way to describe it is to say the station takes on the personalities of all three programmers involved. And Bo is the point person who filters it all through his vibe for what would work in Fort Myers.

Although Florida is home to the Backstreet Boys and 'N Sync, Mathews says it's unlikely "at this point for us to play either of them or bands like them. We may evolve down the road, or maybe they'll make harder records someday, but for now, there are two top 40s in the market playing their music. We don't need to.'

Despite its reputation as an older market something that might discourage an 18-34 targeted station—Wynter says Fort Myers is much líke fast-growing Jacksonville was 10 years ago. "It's not a retirement community by any stretch of the imagination."

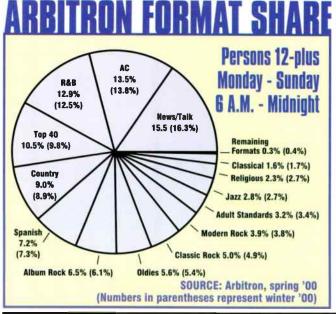

"The town is actually growing younger," says Mathews. "The medium age here, surprising to many, is around 33-34 . . . There's also a new college nearby, so we can tap into that growing population. Since I've been here, I've started to see the downtown area grow in terms of night life with new clubs and restaurants. We plan to turn Fort Myers into a party town.

Can a radio station really change a city's lifestyle? "Oh yes," says Wynter: "With the music we play, the vibe we create in the streets, and the shows that come to town once they start to see the potential audience here. It's a huge untapped community starving for fun things to do."

Mathews has put together a street team of young folks who live the lifestyle. In addition, there are two local jocks on-air-Mathews in afternoons and former WLLD Tampa night crew Big Mama and the Wild Bunch at night. In addition, there will be voice-tracking by Clear Channel-owned KATZ St. Louis MD/middayer Deja Vu in middays and by WJBT morning crew the Flavor Unit in mornings

Wynter says, "It's a cost-effective way of putting in better air talent in a market that may not be able to afford that caliber of air talent. The downside—if there is one—is you might be losing an opportunity for someone locally to have a job. But at the end of the day, that's not what we are here for. We have to put the best talent available on, to enable us to win in the market."

Mathews can work with that. He says, "There is a difference between voice-tracking and syndication. Yes, we lose a local jock, but at least they are preparing a show customized for my market and not just simulcasting for multiple stations at the same time. It's an entirely different presentation and effect." **DANA HALL**

الحرف القالق

# Monitor POWER PLAYUSTS MAINSTREAM TOP 40

#### FOR WEEK ENDING AUGUST 20 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

1st Impressions (F) denotes songs with 6 or more detections at station for first time this week.

# Monitor POWER PLAYUSTS MAINSTREAM TOP 40

#### FOR WEEK ENDING AUGUST 20, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

list impressions (FI) denotes songs with 6 or more detections a station for first time this week.

40	40	2	IMAGINE THAT DEF JAM/IDJMG  detections. Songs showing an increase in delections over the previous we	LL COOL J	390	403

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has bee on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the toz 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the large increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gai in detections over the previous week is piaced first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each lot ing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs failined by further or ductioner, complied by cross-referencing exact times or airplay with Arritron listener data. — Songs snowing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if bed with a song with a decline over the same period. When bed songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Rhythmic Top 40 Airplay chart.

# Monitor POWER PLAYLISTS RHYTHMIC TOP 40

#### FOR WEEK ENDING AUGUST 20, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

1st Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers will increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each issing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in vorquinction with the Crossover Airplay chart.

#### FOR WEEK ENDING AUGUST 20, 2000

Songs ranked by number of detections. Plasifists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

1st Impressions (FI) denotes songs with 6 or more detections a station for first time this week.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections to the song being plaved on more stations is placed first. Songs below the top 20 become recurrents and are remixed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross referencing exact times of airplay with Arbitron Istener data. Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gotine over the same of which refers the previous weeks its placed first if the with a song with a decline over the same of. When tied songs are each paining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

# Monitor PUNER PLAYLIST ADULT TOP 40

WWMX Baltimore

#### FOR WEEK ENDING AUGUST 20, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

otes songs with 6 or more detections at 1st impressions (11) denotes station for first time this week.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each los-ing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

The chart, reprinted from Rock Airplay Monitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 67 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most New Stations awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks. \$2000 Billboard/BPI Communications

# The first single from her debut album DRAMA QUEEN

Julie Nakahara, APD/MD, KLLC/SF (21x)

"Karissa Noel's 'Corrupt' is the most reactive new record we've played in a long time, it is in fact the most requested new song on our playlist. 550's got something here."

Michele Matthews, PD, KTOZ/Springfield (30x)

"More immediate feedback than we've had from any other song this year, out of the box #2 phones and has been there ever since!!"

Donna Miller, APD/MD, KOSO/Modesto - ADD!

"Count me in on Karissa Noel. Like Julie at Alice, I have never had a new song get requests and curiosity calls from the first play like this one. Every jock reports calls after we play 'Corrupt'.'

And just getting started at KMHX/Santa Rosa (20x), KALI/Fresno (21x), KLCA/Reno, WCPT/Albany, KLLY/Bakersfield, KCDU/Monterey, WCDA/Lexington, WJET/Erie

30	30	11	HE'S MY SON MYRRHAWORD/EPIC	MARK SCHULTZ	202	240

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registerings xiv or more detections and audience. Greatest Gainer awarded to the song registering xiv or more detections for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Aduit Contemporary Airplay chart.

#### FOR WEEK ENDING AUGUST 20, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

Tast Impressions (F1) denotes songs with 6 or more detections at station for first time this week.

mpiled from a national sample of data supplied by Broadcast Data Systems. 120 mainstream top 40, 41 rhythmic top 40, 86 adult top 40 and 62 crossower stations are electronically monitored 24 hours a day, 7 days a week. Songs ranked by number of detections. Songs showing an increase in detections over the previous week pardless of charf movement. A song that has been on a charf tor more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charfs for the first time with increases in both detections and audience. Greatest Gair arded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gain detections, the song being played on more stations is placed first. ©2000 Bibliopard/BPI Communications.
