A New Day Has Come (EPIC)

Increasingly, No. 1 Isn't Power For All

■ by Sean Ross

When Eminem's "The Real Slim Shady" became a pop-culture phenomenon in 2000, not every mainstream top 40 PD came aboard. "Slim Shady" garnered considerably more mainstream airplay than the rapper's debut, "My Name Is," but not enough to crack the top 10, with many PDs dayparting the song heavily or sitting it out altogether.

But when Eminem's "Without Me" shot to No. 1 at mainstream top 40 in the June 28 issue of *Top 40 Airplay Monitor*, it reflected more than just a sea change in terms of content at the format. By reaching No. 1, despite being in power rotation at only about half of the format's reporters, "Without Me" also contradicts the increasingly widespread outside perception of radio as both more conservative and centrally programmed. In fact, a look at the stats on several recent No. 1s shows that there's less consensus these days, even on the consensus hits.

Top 40 Airplay Monitor analyzed airplay on "Without Me" and the two No. 1 hits that preceded it, Vanessa Carlton's "A Thousand Miles" and Pink's "Don't Let Me Get Me," in the week each reached the top spot. We were looking to see how much consensus there was by top 40 programmers that the No. 1 record in the country was also one of the most important records on their station. We were also looking for a sense of how much unanimity among PDs was necessary to bring a record home.

KZHT Seeks Out Its Own 'Idol'

KZHT Salt Lake City has turned the excitement around *American Idol* into a three-week contest where local artists submit demos and frequent-listener club members vote online weekly. On July 26, five finalists will perform for a panel of five label judges. The grand prize is airplay on KZHT, plus trips to New York and Los Angeles for label meetings. PD **Jeff McCartney** reports that his Web-site traffic is beating sister stations **KIIS** Los Angeles and **WHTZ** (Z100) New York on some days, while the station's listener database has doubled in two weeks.

MICHAEL MAKES IT PERSONAL WITH MOTTOLA

Amid a feud with longtime label Epic Records, **Michael Jackson** held a press conference July 6 to discuss his position on how record labels treat artists, in particular, African-American artists. With civil rights activist the Rev. **Al Sharpton** by his side, Jackson said labels "conspire against the artist. They steal. They cheat... especially against black artists" and went on a rampage against Sony chairman **Tommy Mottola**, referring to him as "a racist," according to a story in New York's *Daily News*. The story says Jackson aligned himself with Sharpton and lawyer **Johnnie Cochran**, who recently formed a coalition to investigate whether recording artists are being financially exploited by record labels.

But a day later, Sharpton told the *New York Post* that he was "taken aback and surprised" by Jackson's attack on Mottola. And an unnamed Sony staffer told the *News* July 9 that Jackson was only playing "the race card against [Mottola]... to wiggle out of financial woes stemming from the flop of his latest release, *Invincible*." The album sold 2 million copies in the States and 6 million copies worldwide. The unnamed executive also blamed Jackson's declining sales on allegations of pedophilia that have plagued the artist's career in recent years.

SALES ON THE MOVE AGAIN

The Radio Advertising Bureau reports that radio revenue continued its upward climb in May, with an 11% gain in national ad sales and a 1% increase in local dollars. The combined total revenue was up 3% over May 2001.

PROGRAMMING: O'BRIEN EXITS 'DVD'

With the official departure of **Tom O'Brien** at modern AC **WDVD** Detroit, **Alex Tear**, PD of top 40 sister **WDRQ**, becomes acting PD.

Crossover R&B **WHTA** (Hot 107.9) Atlanta p.m. driver **Emperor Searcy** adds the title of Radio One director of mix-show play. In this new role, Searcy works with the mixers at all Radio One stations.

Recently arrived PD **Jeff Scott** exits rhythmic top 40 **WQXS** (Star 93.7) Boston.

KBOS Fresno, Calif., ups MD **Pattie Moreno** to PD. The station also taps **Sammy Suarez** from nights. He was last on-air at **WJFX** Fort Wayne, Ind.

Cumulus/Shreveport, La., market PD **Greg Cole** joins country **KNCI** Sacramento, Calif., as APD. Adult top 40 **KBED** was among the stations Cole oversaw.

Rhythmic top 40 **KPRR** (Power 102) El Paso, Texas, hires **Bobby Ramos** as PD/morning host, replacing **John Candelaria**, now PD at **KBFB** (the Beat) Dallas. Ramos was PD/afternoon host at **KZII** Lubbock, Texas. He starts July 15.

CING (Energy 95.3) Toronto, presently a top 40 outlet, taps **Brian DePoe** from the PD post at

AC rival **CJEZ** for its long-vacant PD slot.

KXDC (102.1X) Denver brings **Michael Knight** back as PD for its new dance-leaning rhythmic top 40 format. Knight signed the station on as R&B **KXUU**. Knight is station manager at **KNOU** (U104.1) New Orleans, which is in the process of being sold.

Active rock **KXIX** Bend, Ore., flips to top 40 as Power 94.1. Production director **Mike Flanagan** becomes PD/afternoon host. The station has picked up the syndicated **Kid Kraddick** show in mornings. OM **Rob "Mojo" Walker** is in middays, and **Miggy Santos** takes nights from the same at **KFTZ** Idaho Falls, Idaho.

KSME/AC KQLF Fort Collins, Colo., PD **David Carr** picks up mornings on the AC station. He's followed by **Nancy Newcomer** in middays and **Gerry Dixon** voice-tracking afternoons.

Access Hollywood host **Nancy O'Dell** is bringing the TV show to the radio with a new NBG Radio syndicated :90-second daily "Access Hollywood Radio With Nancy O'Dell," which will be produced late each night and then sent as an MP3 file to affiliate stations.

PEOPLE: SCHAFER SUED BY JUSTICE

WVKS (92.5 Kiss FM) Toledo, Ohio, host **Denny Schaffer** has been sued by the Department of Justice for filing false income tax claims. According to *The Blade*, Schaffer followed the advice of a guest on his show, **Alfred Abdo Jr.**, who also prepared Schaffer's return. Abdo advocates subtracting Social Security tax from gross income before computing taxes. That is, however, illegal.

The Birmingham Business Journal reports that AC **WYSF** Birmingham, Ala.-based syndicated morning duo **Rick & Bubba** are being courted by Turner Broadcasting to appear on the Turner South cable network that serves 6 million viewers across six Southern states. Plans are for the program to be more than simply a rebroadcast of their morning show. The pair already have 23 radio affiliates.

Mainstream R&B **WBLS** New York p.m. driver **Wendy Williams** has signed a book deal with Atria Books. The book will cover her life as a DJ dishing dirt on celebrities, as well as her own personal struggles with drug addiction and her very public battle with former employer and now rival **WQHT** (Hot 97).

Doug "the Greaseman" Tracht returns to the Washington, D.C., airwaves on N/T **WGOP**. Tracht was fired from classic rock rival **WARW** in 1999 after making racist remarks about singer **Laurn Hill**. Community activists prevented his subsequent hiring at a station in the Virgin Islands. He later ended up with a brokered program on several D.C.-region stations for a time. At press time, Tracht was to start his morning shift July 10.

WKIE/WKIF (Energy 92.7/92.5) Chicago goes

jockless in mornings, moving **Jeff Mason** to nights and sending **Luis "2 Live" Lopez** to overnights. Over-nighter **Kyle Kelly**

is now P/T. PD **Chris Shebel** plans to see how the all-music mornings work in the ratings before deciding whether to hire a replacement.

AC **WMGC** Detroit replaces afternoon host **Scott Sherwood** with **Jim Paolucci**. Also exiting the station are overnights **Jeff Jennings** and marketing/promotion director **Julie Maxwell**.

KSTJ Las Vegas morning co-host **Rick Kelly** joins AC **KMZQ** for afternoons as **Ty Santé** moves to nights at the station, replacing **Kat Tyler**. Meanwhile, rhythmic sister **KLUC** promotion director **Vanessa Thil** joins **KMZQ** and adult top 40 **KMXB** as promotion and marketing director, replacing **Renée Reigraf** and **Rob Benson**, respectively. Modern **KXTE** Las Vegas assistant promotion director

Ashanti's 5 Singles Set Record At Crossover

Ashanti becomes the first female artist to have five singles appear on the crossover chart during the same week. Ashanti's former No. 1, "Foolish" (IDJMG), sits at No. 11, while "Happy" is No. 15, and "Baby" is No. 39. She also appears on "Down 4 U" at No. 5 and on "What's Luv?" (Atlantic) at No. 26. **Mase** and **P. Diddy** are the only other two artists to have five singles on the chart during the same week, which they each did in November 1997. Ashanti is also the first artist since **Brandy** in 1998 to chart three singles from the same album simultaneously at crossover.

"Hanging by a Moment" (DreamWorks) by **Lifehouse** moves to recurrent this week at adult top 40 after 73 weeks, meaning **Train's** "Drops of Jupiter (Tell Me)" (Columbia), which is still on the chart, now holds the record as the longest-running adult top 40 song of all time at 74 weeks.

A July 4 holiday remix of "Hero" by **Chad Kroeger Featuring Josey Scott**, created by **KHKS** Dallas and subsequently picked up by other stations in the mainstream top 40 format, was still being reviewed by Nielsen BDS' Digital Verification System at press time. Although the track was not submitted to Nielsen BDS in advance for encoding, its system was able to automatically encode the track (whereby the system automatically tracks the unidentified song) over the holiday weekend. All verified spins identified at press time are reflected on the chart; any additional verified spins will appear in the next issue.

BILLBOARD REPORTS that Universal Music & Video Distribution is leading an effort to put together a test by the majors to see if singles sales cannibalize album sales by making commercially available singles in three test markets. So far, Sony Music has agreed to participate in the test, and BMG executives are said to be discussing it, but EMI Music Distribution and WEA executives couldn't be reached for comment at press time. The test appears to be in response to retailers, who have been clamoring for the majors to get back into the singles market, because they blame the disappearance of commercially available singles as one of the main reasons behind the decline in album sales. UMD plans to start the test in August, but price for the singles couldn't be determined at press time.

THESE STATIONS have been temporarily removed from their respective panels because of technical issues: adult top 40's **KLLY** Bakersfield, Calif., and **KRSK** Portland, Ore.; and AC **KKCW** Portland.

LABEL NEWS: IDJMG's **Dave Bouchard** is the new national director of pop promotion, based in Los Angeles. **Trina Morehouse** is the new regional director of promotion for New York and Philadelphia.

Additionally, a fund for the continuing education of the 10-year-old twins has been established. Donations may be made to **Judy Garlan White, c/o Ipswich Bay Financial Group**, 55 Market St., Suite 208, Ipswich, Mass. 01938. Another foundation that will benefit some of White's favorite charities is also in the planning stages.

Increasingly, No. 1 Isn't Power For All

Continued from page 1

"Don't Let Me Get Me" began its stay at No. 1 with power rotation at 77% of the mainstream top 40 panel and an average of 67 spins.

"A Thousand Miles" was in power rotation at 61% of the mainstream top 40 panel when it reached the top. It was averaging 63 spins per week.

"Without Me" was in power rotation at 52% of our mainstream top 40 reporters with an average of 61 spins.

Nelly's "Hot in Herre," the song that displaced "Without Me" at No. 1 the following week, was in power rotation at 59% with an average of 63 spins.

By comparison, the all-star remake of "Lady Marmalade," the song that was No. 1 for most of late spring/early summer last year, was averaging 64 spins per week at mainstream top 40. Approximately 75% of the *Monitor* panel had that song in heavy, although as a subsequent *Monitor* analysis found, some stations began backing the event record down in rotation almost immediately.

What constitutes power rotation, of course, varies from station to station. The 67 spins that "Without Me" received at WIOQ (Q102) Philadelphia were well short of the 101 detections that station's most-played record received. But 67 spins made "Without Me" the most-played record at KBFM (B104) McAllen, Texas.

When determining what represented power rotation at a station, we looked at whether a song was in a station's top tier of records—whether a station appeared to have just two or three powers or the once-standard seven to nine. Whenever it was hard to tell from a station's Power Playlist where power ended and the next rotation began, we gave a song the benefit of the doubt and counted it as a power. The same applied if a song appeared to have been moved into power rotation midway through the chart week.

We also included some seemingly dayparted airplay if the total spins were comparable to other powers. KMXV (Mix 93.3) Kansas City dayparts "Without Me" out of weekday mornings and middays, but it was still the station's third most-played title and was still in the same 70-spin range as the No. 1 record, so we counted it as power rotation.

INFESTING IN MIDDLE AMERICA AND NESTING

Obviously, the No. 1 success of "Without Me" says a lot about the mainstreaming of Eminem and top 40's evolution to a younger format, one more driven by active records. Two years ago, massive album sales and consumer press coverage weren't enough to overcome some programmers' reservations. This year, it's possible for one rap record to push another out of No. 1 at mainstream top 40.

There still were stations whose rotations on "Without Me" weren't that different from the way many programmers played "The Real Slim Shady": KRBE Houston gave "Without Me" 25 spins; WIXX Green Bay, Wis., gave it 19; WGTZ (Z93) Dayton, Ohio, was showing 29 detections on the song.

On the other hand, a sea change has clearly taken place at not only KMXV (which only played "Slim Shady" after 7 p.m.) but also stations like WXLK (K92) Roanoke, Va.; WBZZ (B94) Pittsburgh; WQEN Birmingham, Ala.; and WYOY (Y101) Jackson, Miss. Those stations, all of which once had decidedly pop/rock leans, were all powering "Without Me" during the week in question.

While small markets were once more resistant to rap and hip-hop, "Without Me" was No. 2 at both top 40 stations in Columbus, Ga., another market that once tended to the modern AC side.

NOT 'WITHOUT ME' FOR VERY LONG

Two years ago, it was still unusual to see top 40 stations spinning their biggest records

more than 100 times per week. Now, seven stations were giving "Without Me" more than 100 weekly spins, topped by KCHZ (Z95.7) Kansas City with 127 detections. The stations using ultra-high spins still tend to be either a market's challenger or in a rebuilding mode, since KCHZ was joined by WKSC Chicago; WKQI (Channel 95.5) Detroit; KKRZ (Z100) Portland, Ore.; WFKS Jacksonville, Fla.; WKGS Rochester, N.Y.; and KQKQ (Sweet 98) Omaha, Neb.

It should also be noted that a few stations had backed "Without Me" down from power already because they were rotating other tracks from the then just-released album. And while stations that leaned rhythmic or relied heavily on reaction records often had the song in power, not everyone who fit that description did. WEZB (B97) New Orleans' top four songs were all hip-hop records, but "Without Me" wasn't a power there.

'WITHOUT ME' SCORES WITHOUT THEM

"Without Me" was able to reach No. 1 even though four mainstream top 40 reporters were still sitting the song out: WSTR (Star 94) Atlanta; WAPE Jacksonville, Fla.; WNTQ (93Q) Syracuse, N.Y.; and WERO New Bern, N.C. When "Lady Marmalade" went to No. 1 in May 2001, it did so without three stations: Star 94, 93Q, and WKRQ Cincinnati, which was then evolving into adult top 40.

Unlike country radio, where it once was necessary to have a record not only on every station but also in heavy rotation on every station to reach No. 1, it has been more common for a song to top the charts without 100% of the mainstream top 40 panel at various times during the past 15 years. While R&B and hip-hop titles were often kept out of No. 1 in the mid-to late '90s by a handful of stations that played them late, or not at all, those records are now likely to find any missing spins more than compensated for by the high rotations on the more active-leaning top 40 stations that favor reaction records, including rap.

The ability of a record to reach No. 1 without every radio station, or without power rotation at nearly half the panel, contradicts the increasingly popular public perception of PDs moving in lock step to orders from headquarters. When "A Thousand Miles" went No. 1, it was in power at Clear Channel's WHTZ (Z100) New York, KIIS Los Angeles, WXKS-FM (Kiss 108) Boston, and KHKS Dallas, among numerous others. But it was not in power at CC's WFLZ Tampa, Fla.; WKSC; or WIOQ.

Similarly, Eminem reached No. 1 with power rotation at Z100, WKSC, KHKS, WFLZ, WKQI, and KDWB Minneapolis. But it was not a power at KIIS, WXKS, WHYI (Y100) Miami, WRVW (the River) Nashville, KZHT Salt Lake City, or KQAR (Q100) Little Rock, Ark. Even "Lady Marmalade," which had high consensus among PDs, was not in power for at least 12 Clear Channel reporters.

Then again, the ability of a song to go to No. 1 with power rotation at half the panel also reinforces what PDs already know anecdotally—that there are fewer consensus hits available to mainstream top 40 now than at any time since the mid-'90s. The relatively smaller percentage of stations rotating the last three No. 1 songs knows this as well.

This doesn't mean there are PDs still calling each other and asking, "So is Eminem a real record?" PDs agree that these No. 1s are real hits—what they don't agree on is the magnitude of those hits or how to act on them. But if there's less consensus on the No. 1 record, then there's also less consensus on the songs below it. In the mid-'90s, a song that reached the top 10 was generally acknowledged to be a legitimate hit. These days, the "Is so-and-so a real hit?" discussions may concern records as high as No. 4 or 5. Even with Eminem, the format may feel empty.

'Less Conversation' Stirs Up A Reaction

As it became clear that the **Elvis vs. JXL** retooling of "A Little Less Conversation" was going to be the No. 1-selling single last week, a friend and I were discussing the numbers. "How," he asked, "did people know to buy this record?"

Since the track was just starting to garner airplay at the time, it was a good question. The Nike ad that propelled the song to the top of the U.K. charts had run in the rest of the world but not here. The song had, however, received some exposure during the World Cup broadcasts. It had also generated a lot of consumer press, just by dint of what it was. One would also guess the collectability of the single also drove sales, just as it had for **Elton John's** "Candle in the Wind 1997."

In any event, that initial surge of excitement showed that at a time when the industry was waiting for a new **Elvis**, the original was surprisingly viable. And it's not the first time.

At the time of his death, **Presley** was still scoring at least one top 40 hit every year. (Those records, incidentally, usually broke out of the same Southern markets that have been early supporters of "A Little Less Conversation": Jacksonville, Fla.; Charlotte, N.C.; Greenville, S.C.; and Huntsville, Ala., among them.) Presley charted one more top 40 hit immediately after his death and remained a country hitmaker for several years. In 1981, as that streak was tapering off, RCA had another pop hit by remixing "Guitar Man," another song from the same period in Elvis' career as "A Little Less Conversation." A year later, on the fifth anniversary of Presley's death, RCA had country success (and a Top 100 entry) with "The Elvis Medley."

That sort of repackaging wasn't unprecedented. RCA had been charting hits by country legend **Jim Reeves** long after his 1964 death. In the late '70s, it began remixing them to add a female duet partner, first **Deborah Allen** ("Baby I Lied"), then the late **Patsy Cline**. (Fortunately, in the early '60s, albums were still filled up with covers of everyone else's hits, so it was possible to find songs that both had recorded.) RCA didn't chart any posthumous duets on Presley, but the Reeves duets were the apparent inspiration for **Natalie Cole's** "Unforgettable."

In 1992, RCA tied in with the 15th anniversary of Presley's death by reseriving "Don't Be

Cruel." That record didn't have the same sort of impact that "A Little Less Conversation" is already showing, but during that period of transition at top 40, a number of artists who had been exiled at the format were suddenly able to have hits again. (John, **James Ingram**, and **Roberta Flack** come to mind.)

With the 25th anniversary of Presley's death, top 40 is again in a period of transition. The early to mid-'90s might not have seemed like such a boom period at the time. Now, the '90s weekends and other specialty shows sound more exciting than a lot of the available current music. It would be ironic if "A Little Less Conversation" fills a void for an uptempo, different-sounding pure-pop record that many artists who are still among us haven't been able to deliver lately.

"A Little Less Conversation" also has the potential to be something that top 40 hasn't had for a while: an adult reaction record. Under top 40's old model, adults were often the only listeners who were researched, and those votes usually trumped sales or request stories. These days, the combination of a younger research target, less patience for a callout story to develop, and a tendency to use callout the way PDs once used sales and requests (to identify records that reacted immediately) means that adults have gone from having too much to say to having a lot less. Maybe that wasn't a problem when the teen acts were providing the format with so many mother/daughter consensus records.

Now, many PDs are more comfortable with records that drive reaction right away than they are with waiting for more than 150 spins for a research story. They don't always feel like they're trying to make their stations determinedly younger, just that they're trying to play the hits that people feel passionately about. So maybe it's time to think of all the records that have generated sales stories in advance of airplay—not just Elvis vs. JXL, but **Josh Groban** and **Norah Jones** as well—as adult reaction records, songs that adults feel as passionately about as their younger counterparts do about the songs they call for. Ten years ago, when adult record buying was harder to spot, identifying those records wasn't as easy. Today, they're more visible than ever. And perhaps the songs that adults care about should have always taken precedent over the ones they don't mind so much once they get used to them.

Fergie's Name Wins 'PLJ Game

Sarah Ferguson, Duchess of York, helped Frank and Kelly Pottis win WPLJ New York's Scott & Todd Big Name Game by being the biggest celebrity to call the station at a listener's behest. Ferguson got \$10,000 for the Mary Bridge Children's Hospital, where 13-month-old Frankie Pottis died after battling leukemia. The Pottises won a new Thunderbird, which will also be donated. Pictured, from left, are WPLJ's Todd Pettengill and Scott Shannon, Ferguson, and Kelly, Dylan, and Frank Pottis.

Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. ○ Songs showing an increase in audience over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in audience does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Mainstream Top 40 Airplay chart.

POWER PLAYLISTS

FOR WEEK ENDING JULY 7, 2002

Songs ranked by number of detections. Playlists are listed in order of TSA weekly come, beginning with the highest-cumulative. Cumes are updated twice weekly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space. * Indicates station reports to both Adult Top40 and Modern AC.

FOR WEEK ENDING JULY 7, 2002

AIRPLAY
Monitor

Nielsen
Broadcast Data
Systems

Songs ranked by number of detections. Playlists are listed in order of TSA weekly come, beginning with the highest-cumulative. Cumes are updated twice weekly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.
 * denotes songs with 6 or more detections at station
 * indicates station reports to both Adult Top40 and Modern AC.

Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrences and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. ○ Songs showing an increase in audience over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in audience does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. RHYTHMIC TOP 40 POWER PLAYLISTS

FOR WEEK ENDING JULY 7, 2002

Monitor
NIELSEN
Broadcast Data
Systems

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

Airplay denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. () Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become re-entrants and are removed from the chart after 26 weeks.

CROSSOVER

POWERPLAY

FOR WEEK ENDING JULY 7, 2002

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

AIRPLAY denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurren-
tants and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Songs showing an increase in audience over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in audience does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurren-
tants and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

Songs ranked by number of detections. () Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurrent and are removed from the chart after 26 weeks.
