Rhythmic, Adult Top 40: Who Adds Most Songs?

by Marc Schiffman
and Sean Ross

Despite its reputation for being more musically aggressive than mainstream top 40, even the fastest rhythmic top 40 stations are starting fewer new records each week than their counterparts, judging from an analysis of their Airplay Adds. And unlike mainstream top 40, where you can see a pattern of larger groups being more conservative than stations that are individually or small-group-owned, the average number of songs started each week per station doesn't vary that much from owner to owner. *Top 40 Airplay Monitor* also found that to be the case at adult top 40, perhaps because none of the stations were starting much new music.

Last week, *Monitor* began analyzing the number of Airplay Adds—songs receiving six or more spins on a given station for the first time—on each of its top 40 reporters, with an eye toward identifying those groups and stations that started the most and least songs. We were trying to determine whether “consolidated” really equalled “conservative,” as recent press reports have suggested. We found that smaller groups and individually owned stations did indeed add more songs each week. But we also uncovered some prominent exceptions and a wide variance within certain groups.

In mainstream top 40, the two small-market stations owned by Zimmer were the most aggressive on new music, averaging 5.25 adds per week, followed by Bristol Broadcasting's 4.5. Independently owned stations (or those owned by a group with only one mainstream top 40 re-

UMG Caps Indie Promotion Fees

A source at Universal Music Group (UMG) confirms reports that the company has put a cap on the fees it will pay to independent record promoters. An Aug. 16 *Los Angeles Times* report indicated that UMG would cut such fees by 50%, in a move that will reportedly save the company \$25 million per year. A UMG spokesman declined comment.

A WEEK OF CHANGE AT THE TOP

Clear Channel Radio (CCR) COO John Hogan becomes CCR's CEO. He replaces Randy Michaels, who moved to a new-media post last month. Hogan will be based at CC's San Antonio offices.

Former Clear Channel senior regional VP John Fullam joins Infinity Broadcasting as president/COO. He replaces Dan Mason, who exits the company to spend more time with his family, though he'll maintain a hand in the organization on a consultant basis. In other executive news, Dow Jones News reports that a special three-person committee of Viacom's board has been formed to negotiate a deal to keep president/COO Mel Karmazin in place. His contract expires at the end of 2003.

RADIO'S SUMMER OF OUTRAGE

Are radio stunts no longer effective unless someone gets arrested? On Aug. 14, WHITZ (Z100) New York morning-team member Greg "T" Tyndorf was arrested for having himself duct-taped to a utility pole in a busy Carteret, N.J., intersection while holding a sign protesting the departure of a local TV anchor. It's his fourth stunt-related arrest. But the media attention that followed Tyndorf's bust dwarfed that when a pair of WNEW New York listeners were arrested Aug. 15 for attempting to have sex in St. Patrick's Cathedral at the apparent behest of p.m. drivers Opie & Anthony and comedian Paul Mercuro; the latter was also arrested. The public lewdness, obscenity, and exposure charges set off a firestorm of complaints about the station, including one from Catholic League president William Donahue, who told the *New York Post* that the stunt was "a textbook case of how obscenity and blasphemy track each other." As of press time, the duo remained off the air, with "best-of" programming airing instead.

Meanwhile, Tiger Woods wasn't the only one garnering attention at the PGA Championship held at Hazeltine National Golf Club. KDWB Minneapolis morning stunt boy Todd "T-Bone" Downs ran afoul of the law when he tried to bring a chainsaw onto the grounds, according to the *Minneapolis Star Tribune*. He first tried to get in with a weed whacker but was rebuffed by security. That's when he went for the chainsaw and tried to go in through the volunteer gate. Police and FBI then charged him with disorderly conduct and trespassing. Downs is due in court Aug. 26. KDWB PD Rob Morris says a decision has not been made about what action the station will take until after that date.

Shakira Goes Wild

Shakira, center, joins the hosts of the KRBV (Wild 100) Dallas morning show, Bess Hanley, left, and Alex Valentine.

FORMATS: WKTI CRANKS IT UP

After a brief stretch on the mainstream AC side, WKTI Milwaukee evolves back into its longtime adult top 40 format. Across town, ABC's children's top 40 network Radio Disney expands into Brewtown with the acquisition of former Christian AM WKSH.

WMGE (Mega 103.5) Miami, which had evolved from rhythmic oldies into more of a rhythmic AC format, has eliminated most of its '90s and recurrent music under new PD Tony Banks, who says that the station's emphasis on '80s disco still sets it apart from most of the now-defunct Jammin' Oldies outlets.

Spanish KEBV Monterey, Calif., segues to a bilingual rhythmic top 40 as "97.9 En Fuego: Blazin' Hip-Hop y Mas" under Michael Newman, who also adds KXJM (Jammin' 99.5) Portland, Ore., VP of programming Mark Adams to his Radio Strategies consultancy and to this project. Elektra artist/WQHT (Hot 97) New York p.m. driver Angie Martinez is the voice of the station. Alex C. from KAJM Phoenix is the new PD.

Will Dallas be the latest market to get a dance outlet? Entravision's newly acquired KKDL drops oldies, flips frequencies from 106.5 to 106.7, and is on the air segueing dance records.

Adult top 40 WBXW Blacksburg, Va., flips to classic country as "Bubba 101.7."

A new study from Interep shows that the percentage of national radio dollars spent on the 25-54 demo is down again to 44.7% in 2001 from 48.5% the year before and 55.5% in 1995. By contrast, 18-49 buys now take 19.3% of all radio dollars, up from 17.5% the year before.

The latest study from Arbitron and Edison Media shows that people who have watched or listened to streaming media in the past week (aka streamies) bought more than 1.5 times the number of CDs during the past year than the average American. The study also found that the number of residential subscribers using broadband has doubled in less than 18 months.

PROGRAMMING: L.J. IS EL JEFE

Recently arrived Clear Channel/Oklahoma City VP of programming L.J. Smith couldn't stop at just one market. He's now regional director of programming, adding duties for seven other markets: Tulsa and Lawton, Okla.; Little Rock, Jonesboro, Fayetteville, and Fort Smith, Ark.; and Wichita Falls, Texas.

Adult top 40 WZJO Charleston, W.Va., PD Jay Patricks becomes corporate PD for parent Bristol Broadcasting, overseeing the company's three "Electric"-branded top 40s. He replaces Scott Summers. He'll also be day-to-day PD of WAEZ Johnson City, Tenn. WZJO morning man Ed Roberts picks up PD duties there.

KNIN Wichita Falls, Texas, PD Liz Ryan adds PD/morning-host duties at country sister KWFS.

PEOPLE: CRESCENT CITY CHANGES

Lots of changes at Entercom/New Orleans, as WEZB (B97) morning producer Stevie G. is upped from music coordinator to MD for both that station and modern AC sister WKZN (the Zone). Duncan James, most recently at KPSI Palm Springs, Calif., joins WKZN as APD. Mike Bryan from sister WNVZ (Z104) Norfolk, Va., is B97's new APD/middayer, as Cheryl Robichaux moves from that shift to morning co-host. Night jock Neil Wilson is the new WKZN morning producer.

Crossover R&B WJLB Detroit morning man Tigger exits. He had been doing mornings via satellite since getting the night shift at sister WWPR (Power 105.1) New York.

British top 40 BBC Radio 1 personality Mark Goodier, whose duties include the station's Sunday chart show, will leave at the end of the year after 15 years with the station.

KJYO (KJ103) Salt Lake City APD Joe Friday

Ashanti Owns 10% Of Mainstream

Ashanti becomes the first female artist in *Airplay Monitor* history to place four singles simultaneously on the mainstream top 40 chart. This week her latest single, "Happy" (Murder Inc./AJM/IDJMG), is the highest debut of the week at No. 29, while her former top five hit "Foolish" sits at No. 30. She is also a featured artist on two tracks: "What's Luv" (Terror Squad/Atlantic/AG) with Fat Joe at No. 26 and Irv Gotti Presents the Inc.'s "Down 4 U" (Murder Inc./Def Jam/IDJMG), which moves 33-24 in its second week. In January, Ja Rule became the first artist to chart with four singles in the same week. He did so with his "Livin' It Up" and "Always on Time" and as a featured artist on a pair of Jennifer Lopez tracks—"I'm Real" and "Ain't It Funny."

With the new Eminem single "Cleanin' Out My Closet" (Interscope) moving 15-11, both singles from *The Eminem Show* have now beaten the No. 13 performance of the rapper's biggest mainstream top 40 single before this year, "The Real Slim Shady," which peaked at No. 13 in July 2000.

After setting the Nielsen/BDS spin record at mainstream, Avril Lavigne has done the same at adult top 40. Last week's one-week spin total for "Complicated" (Arista) was 3,503, breaking the previous one-week detection record set by the Calling's "Wherever You Will Go," which earned 3,500 spins in February.

PANEL CHANGES: KSMB Lafayette, La., returns to the mainstream top 40 panel after being removed because of technical problems. The mainstream top 40 panel consists of 127 stations.

LABEL NEWS: Phil Quartararo is named executive VP of EMI Recorded Music. He was last president of Warner Bros. . . . *Billboard Bulletin* reports that Universal Records executive VP/GM Jean Riggins has resigned . . . Virgin's Jason McFadden is promoted from national promotion director to senior director of national promotion . . . RCA Detroit local Gerald Hooper has left. He may be reached at 210-771-7244 or geraldfrancis@hotmail.com.

Radio Groups Prepare For Sept. 11

With slightly less than one month to go before the one-year anniversary of the Sept. 11 terrorist attacks, radio is gearing up to mark the occasion in many ways, from montages to moments of silence.

In addition to its stations' local efforts, Clear Channel's nationwide plan is for each station to pause at 8:45 a.m.—the time that the first plane hit the World Trade Center towers—in each time zone and air a special audio sequence that includes a two-minute memorial titled "Tributes and Triumph: America's Day of Remembrance," which will be followed by two minutes of silence and a special message. That will be followed by special programming throughout the day featuring special guests, artists, politicians, air personalities, and other celebrities. The company plans to have 33 reporters and radio hosts broadcasting live from Ground Zero that day.

Clear Channel is making its resources available to other broadcasters for this event, directing interested parties to visit clearchannel.com Sept. 9 for further details and material.

Adult top 40 WPLJ New York PD/morning man Scott Shannon is still planning his station's coverage. He expects to feature appropriate song titles and have preproduced pieces. "We're going to do it as tastefully and respectfully as possible and try to avoid reliving the horror that people went through," he says, adding

that's an issue specific to the New York area.

"It's such a fine line to handle it with respect and without exploitation of the situation. There's a lot of people who really don't want to be reminded of the event," Shannon says. "We've talked to listeners that have just had enough. In their minds, the losses they suffered are not going to change, and they don't want to be reminded of it."

Emmis Communications stations are marking the event in different ways. R&B KPWR (Power 106) Los Angeles morning man Big Boy will share his memories of last Sept. 11 with comments from listeners and hip-hop artists.

Consultant Jeff Pollack is suggesting stations have a moment of silence at 8:46 a.m. ET in observance of the first plane strike and then follow it by playing "One" by U2. Pollack says he believes the song's sentiments about pulling together and moving forward is not only a respectful and understated way of remembering the tragic events of that day but also has broad enough appeal to fit many different special-programming settings.

American Urban Radio Networks is offering affiliates programming under the "Operation We Remember" banner. The programming will include an interview with National Security Advisor Condoleezza Rice, as well as discussions with black firefighters in New York. There will also be special reports during the morning and afternoon drive times. **MARC SCHIFFMAN**

exits for crosstown modern rock KHBZ (The Buzz) PD/afternoon duties. KJ103 PD Mike McCoy adds afternoon duties.

Former KSTP-FM (KS95) Minneapolis night host Lisa Wright joins all-'80s rival WXPT (the Point) for mornings. She replaces Carmen & Chris. Ironically, the morning team that replaced the pair at WSSR (Star 95.7) Tampa, Fla.—Jeff & Jen—exits that station this week. Next door at top 40 sister WFLZ, former WLDD (Wild 98.7) Tampa, Fla., night jock Big Mama is now official in that slot.

At adult top 40 WKRR (Q102) Cincinnati, morning host Luka is out.

WHZT (Hot 98.1) Greenville, S.C., taps new promotions director Shellie Bowser from similar duties at rock rivals WPTT/WROQ.

KHXT (Hot 107) Memphis' morning crew—Doc Martin, Tina, and Bushwick Bill—is out.

KMYI (My 94.1) San Diego teams recently arrived APD/MD Mel McKay with PD Duncan

Payton for afternoons.

WXSS Milwaukee taps "Madman" Zannie K. from afternoons at WPYO Orlando, Fla., for its long-vacant night spot. PD Brian Kelly still has openings in overnights to replace Kareem Hilton at WXSS and at sister WMYX to replace David Cruise, now with WPTP Philadelphia.

Clear Channel/Chicago marketing director Melissa McElroy assumes those duties for the company's New Orleans properties, including KUMX, as marketing director Bill Tatar segues to Cox/Houston for the same. The Cox/Houston cluster includes rhythmic KTHT.

Crossover R&B WPGC-FM Washington, D.C., late-night slow-jams show host Todd B. exits.

With the exit of WIOG Saginaw, Mich., APD/MD/middayer Brandon Edwards (*Top 40 Airplay Monitor*, Aug. 16), PD Mark Anderson moves to middays. Morning man Demas will take afternoons.

porter) averaged 3.66 Airplay Adds, followed by Citadel (3.37), Entercom (3.31), Clear Channel (3.30), Susquehanna (3.17), Infinity and Cox (3.08), Radio One (2.92), and Cumulus (2.67). The single most aggressive station was Zimmer's WCIL, Carbondale, Ill., with 6.67 Airplay Adds per week.

Averaging the number of Airplay Adds each reporter made in the six-week period between June 30 and Aug. 4, there wasn't one rhythmic reporter as aggressive as WCIL. Clear Channel's KBOS (B95) Fresno, Calif., was first, with 5.33. Three rhythmic stations averaged more than 5 Airplay Adds per week, while four rhythmic stations would have even made the mainstream top 10.

The most aggressive rhythmic group, American General, had two reporting stations averaging 3.75 Airplay Adds per week, well less than Zimmer's 5.25. And the rest of the pack is much tighter, with independently owned stations (3.42), Infinity (3.37), and Clear Channel (3.26) all separated from American General by less than half a song each week. Notably, Infinity is one of mainstream top 40's more conservative groups; its 3.08 adds made it No. 8 at that format. But in rhythmic, it's No. 3. Similarly, Clear Channel is No. 6 in mainstream but No. 4 here, even though it averages about the same number of adds—3.26 in rhythmic and 3.30 in mainstream top 40.

Clear Channel, despite its perception for conservatism, owned the two most aggressive stations: B95 and KZZP Phoenix, as well as two others in the top 11. It also owned four of the bottom 11. Our most conservative group, Cox, owned two of the four most conservative stations, while none of the remaining Cox signals placed higher than midpack.

The new crop of dance-driven rhythmic may have a reputation for playing obscure music, but they're actually tight with adds. In addition to WPYO, WPYM Miami, WKIE Chicago, WQXX Boston, and WKTU New York averaged between 1.8 and 2.3 Airplay Adds per week.

Where did some of the format's other best-known stations finish? WBBM-FM (B96) Chicago was tied for No. 14 with 3.5 adds. KXJM (Jammin' 99.5) Portland, Ore., was No.

22 (3.17). KGGI Riverside, Calif.—which is considered a tough add—was just under the median, at No. 27 (2.83). And under new management, XHTZ (Z90) San Diego had 2.67. As for whether competition makes stations more or less aggressive, a look at Honolulu's three rhythmic reporters finds one (KDDB) among the most aggressive, another (KIKI) among the least, and the third (KXME) exactly midpack with 3.17.

GOING NUTS, WITH TWO ADDS A WEEK

At the other end of the spectrum is adult top 40. While that format has become aggressive enough in recent years to take a more central place in label plans, stations are widely thought to have become more conservative over the past 10 months. That, perhaps, is why only WCDA Lexington, Ky., is averaging more than three new songs per week. Or why nine stations are averaging less than 1 Airplay Add per week.

Unlike top 40, an independently owned adult top station wasn't any more likely to start songs. Those stations were No. 5 overall, behind Bonneville, whose stations averaged all of 2 adds per week; Citadel (1.94); Entercom (1.75); and Infinity (1.70). Clear Channel, whose gold-based "Mix" outlets are among the format's tightest stations, averaged 1.57 Airplay Adds, still well ahead of Cumulus (0.94) and ABC (0.78). The adult top 40 showing cements Cumulus' reputation as one of the tightest groups in any format. (It was ninth, albeit not last, in mainstream R&B, the only other format in which we've tallied adds so far.)

As for Clear Channel, it had three stations among the 10 most aggressive and three among the 12 least aggressive. While many of CC's Mix outlets did indeed rank toward the bottom, only WMXL Lexington, Ky. (1.0) and WMVX (0.67) made the bottom tier.

Here are some other prominent stations: WBMX Boston and Infinity sister KAMX Austin, Texas, both averaged 2.17 Airplay Adds. KFMB-FM San Diego averaged 2 a week. WPLJ New York averaged 1.67 Airplay Adds, but that was far more adventurous than sisters WRQX Washington, D.C., and WDVD Detroit, each of which averaged an Airplay Add every third week.

(WDVD, it should be noted, had a new GM and acting PD during the tally period, which tends to trim a station's playlist.) KZZO Sacramento, Calif.; KALC Denver; and KYSR Los Angeles each averaged 1.5 Airplay Adds.

Having recently evolved from mainstream top 40 didn't necessarily mean a station

would still be adding records like one. While WRFY Reading, Pa., and WKRQ Cincinnati were in our top 10, other recent converts—such as WWZZ Washington, D.C. (1.67) and WZPL Indianapolis (1.83)—were midpack. And WNNK Harrisburg, Pa., was one of our bottom-tier stations.

2002's Most Intriguing Stations (So Far)

Usually, I wait until the end of the year to write about the new (or recently revamped) stations that most intrigue me. I'm getting a head start this year not only because there has been a recent spate of sign-ons that fascinate me, but with mainstream radio under almost daily attack in the consumer press, it seemed important to spotlight innovative programming taking place somewhere other than on the Internet or satellite radio. So it was gratifying to be able to find 10 stations (and to have to cut the list down from 15 to fit it here). That said, six of the 10 are on the list because of how they use gold, not today's music. And with the exception of the new crop of dance stations, there aren't any top 40s here—although, to some extent, that's because adventurous top 40s have become the rule, rather than the exception in this format.

• **CFWM** (Bob 99.9) Winnipeg, Manitoba—You've heard the format (a classic-hits-based adult top 40) before. You've heard the anti-radio positioning before. But Bob 99.9, which went to No. 1 in one book, brings more energy and creativity to these tasks than any similar station since the early **WMVX** (Mix 106.5) Cleveland; one sample liner is along the lines of, "If you're suffering from memory loss, enjoy all the *new* songs of the '80s, '90s, and... whatever on Bob." And the classic hits that spice up this mix aren't just **Journey** and **REO Speedwagon** ballads—there are also Canadian rockers **Rush**, **Loverboy**, and the like, which gives this station an extra "Oh, wow" factor. Hear it at 999bobfm.com.

• **KBIG** Los Angeles—The listeners who are moving into the adult top 40 demos these days aren't the ones who fled top 40 because of rhythmic music; they're listeners who came of age between **Paula Abdul** and **Dr. Dre**. So why aren't there more adult top 40 stations playing the rhythmic hits of the late '80s/early '90s? Or more stations acknowledging the changing demographics of their markets? While **KBIG** is hovering just outside the top 10 12-plus, it's still leading its more conventionally focused sister **KYSR** (Star 98.7), which ought to tell the adult top 40 world something.

• **KJQN** Salt Lake City—Late-'80s modern rock was, in many ways, closer to top 40 in texture than to the neo-**Led Zeppelin** music that took over after **Pearl Jam** and **Nirvana**. But because so many of its hits never made it to top 40, there are many great records from that era that were never played anywhere, at least until modern **KXRK** (X96) decided to spin off a sister station specializing in modern oldies. There aren't many places where this format would work (New York, San Diego, San Francisco, and Los Angeles, maybe), but Salt Lake City was one of the first strongholds for modern rock. So even though I had to do a Google search to determine that I was listening to "The Jet Set" by **Alphaville**, I have no doubt that the locals knew. Streaming at kjq.com.

• **WDRV** (the Drive) Chicago—When it launched last year, I was ready to dismiss Bonnevill's claims that this was a truly new radio station. There are other soft classic-rock stations, right? But the anti-radio presentation (of a more muted, less wacky sort of the Bob variety) and soft rock depth tracks really do combine for something unique.

• **WPYM** (Party 93.1) Miami—The ratings

MONITOR PROFILE

No On-Air Experience Needed, But Xbox Required

During its 15-year existence, **KKFR** (Power 92) Phoenix has gone through the same evolution as many rhythmic top 40s, but it got there sooner than most. PD Bruce St. James says that Power "has always embraced the hip-hop world on some level. In the late '80s, it certainly [leaned] more on the dance genre like most of the country, but by '92 or '93, Dr. Dre's 'The Chronic' really changed top 40 radio and how it viewed playing hip-hop. That's when the evolution began here at Power."

After making a name for himself as MD at sister **KPWR** (Power 106) Los Angeles and later as a PD in San Diego at the predecessor of **XHRM**, St. James joined **KKFR** five years ago. "Even though the station was doing very well, I decided to make the station less mainstream top 40 instead, claiming the hip-hop image and lifestyle completely," he says. "It took a little while, and we had to make some staff and image changes, but it has worked. When I first arrived, we probably sounded more like our competition sounds now—like a bunch of 40-year-old white guys trying to sound hip and cool—but that doesn't work for very long with this audience."

He's referring to Clear Channel's rhythmic top 40 **KZZP**, which became 104.7 **Kiss FM** last year. "Everybody checked them out at first as expected, but now they're back," St. James says. In the spring Arbitron, **KKFR** was up 4.2-4.9 (and up from 3.9 last spring), while **KZZP** was up 4.1-4.3 (and up from 3.6 a year ago).

While **KZZP** does play hip-hop, St. James feels that because "they also play 'N Sync or Britney Spears, that ruins their credibility for the hip-hop audience. You're not really treated as a serious hip-hop station—a station that knows the difference between Jay-Z and Ja Rule."

While hip-hop is its core sound, St. James says **KKFR** still embraces some R&B. "Our slogan is 'No. 1 for hip-hop and R&B,' with the balance being about 70/30 rap to R&B. From my experience, R&B songs don't drive as much passion as hip-hop. The biggest Ja Rule record dwarfs the biggest Usher record. That's because males tend to like hip-hop more, and overall, they are more passionate about music, whereas girls tend to be more R&B-driven but less passionate about music in general. Or at least that's my observation of society."

But even with that taken into consideration, St. James adds, "our highest-rated four hours on the station is our late-night slow-jam show, *Lights Out Phoenix*. We just added an hour, starting one hour earlier at 9 p.m., and it's hosted by Melissa 'the Midnight Mamacita.' She gets 20 shares and is rated No. 1 in her time slot. This show gives us our R&B credibility." While the show has been on for almost eight years, St. James says it fully bloomed when Melissa took over a few years ago. "She builds the show

around the slow jams, dedications, and love advice. She's even getting her degree in psychology, because she feels so strongly about helping people and understanding how to handle their problems."

But playing the right combination of hip-hop and R&B is only half the battle, St. James says. "If you have jocks on who don't know what a two-way is or who can't get high scores on Xbox, they probably aren't going to relate to the audience

... [At **KKFR**], we look like, talk like, and act like our listeners. Our airstaff is young and hip and so are the promotion kids. Even the station vehicles are Suburbans rolling on 20-inch rims."

In recent months, **KKFR** has brought in a new four-person morning team, **MG's Morning Mac** house, from **KDON** Monterey, Calif. "MG, Mark Garcia, is very much committed to presenting positive role models for young Latinos, so that's a big part of the show and what he does off-air."

Earlier this year, St. James hired two old friends from Power 106. "Joey and Johnny, also known as 'Da Nutz,' came on board as our afternoon-drive duo... I knew them at Power, first as promotion kids, then we put them on weekends, and eventually they became our night jocks. They were most recently in Oxnard doing separate shifts, but we put them back together... They

have great potential to one day do mornings at this station or one of our sister stations."

In addition to being co-MDs for **KKFR**, Joey and Johnny also run Power's mix-show department. St. James says, "We run 71 hours of mixes every week. We have eight mixers, and they all have a specific shift. We do a mix in every day-part, and we mix all weekend long—and it's always live. I don't believe in running prerecorded mixes. There is an energy and vibe that develops between the audience and DJ when it's done live. And we always partner the same mixer and jock together as well. So our midday jock is always partnered with the midday mixer on-air and when they go out to club events or community appearances."

The on-air personality for the night show is **JXXX**, who St. James says he found when **JXXX** was the MC "at a nightclub one night. He was a college kid, and he had that instant chemistry with the audience, even though he had no radio experience. His ratings are double what the second-place station in the market gets in the time slot."

The other key element to St. James' staff is his midday personality, Mini Salas. "She has been on the air for over four years, and she's my consistency," St. James says. "It's so nice to have someone who you don't have to worry about at all. While you might have a level of maintenance for morning shows or a crazy night guy, having a midday person who you don't have to even think twice about is a dream come true for any PD."

As for promotions, "since music is what we do, we make that the major focus," St. James says. "We try to do three to four really big concert events every year. In fact, I would say we are the station [that] drives the concert business here in Phoenix. While we might not be as big as other cities, we sell a lot of records in this market, and the labels and the artists themselves take notice. That's why we are able to do so much in terms of concert events."

But St. James admits that the concert business isn't doing as well as in past years. "It's happening across the board, not just at station concerts but with all the big tours. They just aren't selling out. Right now we have no concerts planned for the fall. The last one we held was for **Cinco De Mayo**, which by no means was a flop, but it wasn't what we would have done in the past."

Instead, St. James says, the station has already started to do "smaller, more intimate events that are free or win-tickets only. We did a Christmas event last December in a 3,000-seat venue and tied in a charity. And last Fourth of July, we did a free concert with 112 and Ray J at a baseball field. We thought we would get a couple of thousand people to come out, [but when] we had to close down admission, there were 200,000 people."

DANA HALL

have leveled off since its winter debut, but not before the first "pure dance" station on a major signal proved that its very focused approach was more mass appeal, at least in Miami, than any one realized. Available at party931.com.

• **WPZE** Atlanta—If it's surprising that more adult top 40s aren't more rhythmic these days, it's doubly so that we're not seeing more gospel on FM. Now that **Radio One** is getting a 6 share (and is No. 3 in the market), that may change.

• **WSNI** (Sunny 104.5) Philadelphia—For years, New York market observers have been predicting that **AC WLTW** (Lite FM) would be vulnerable to an attack from someone softer. Now **WLTW** PD **Jim Ryan** is testing that hypothesis in someone else's market with this gold-based soft AC. It's not the first soft AC to bring back **Barry Manilow** and the **Carpenters**, but there's also a Jammin' Oldies component to this

station that's letting it fill a few holes in the market at once. Hear it at sunny1045.com.

• **WWPR** (Power 105.1) New York—Other stations had started digging in the crates for classic hip-hop, including adult R&B rival **WRKS**, but none to such great effect. The first example of an R&B/hip-hop station to push its way into a market by leaning older than the incumbent, Power has already sent many other R&B stations back to their libraries. Whether it's a long-term change or just today's version of 1993's short-lived old-school craze won't be known for a while.

• **WWZZ** (More Music 104) Washington, D.C.—Alright, I admit it. I wouldn't have blown up top 40 **Z104** or taken a station with signal limitations to adult top 40, up against **WRQX** (Mix 107.3). A year later, however, **WWZZ** is within a share of its better-entrenched rival. And

between some of its lifestyle positioning, its commitment to six units an hour, and the controversially named *McDonald's Morning Show*, it's definitely a unique-sounding station.

• **XHTO** (Hits 104.5) El Paso, Texas—This station has mainstreamed a little since it caught the attention of U.S. record labels, but in its early months, **XHTO** more reflected the Mexican charts than its American counterparts with a lot of relatively obscure dance music and some English-language acts that no longer have hits here (e.g., the latest **Cranberries** single). In doing so, **XHTO** shot into contention in a market where mainstream top 40 hadn't worked in more than a decade. All of which raises the question: Since few listeners know what songs are national hits, why *not* use another country's charts? After all, Mexico couldn't have any fewer consensus hits than our top 40 charts these days.

Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become re-entrants and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. ○ Songs showing an increase in audience over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in audience does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. MAINSTREAM TOP 40

FOR WEEK ENDING AUGUST 18, 2002

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cume, beginning with the highest-cuming station. Cumes are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon station.

denotes songs with 6 or more detections at station

for first time this week.

* Indicates station reports to both Adult Top40 and Modern AC.

MAINSTREAM TOP 40

FOR WEEK ENDING AUGUST 18, 2002

AIRPLAY Monitor

Nielsen
Broadcast Data
Systems

Songs ranked by number of detections. Playlists are listed in order of TSA weekly cumes, beginning with the highest-cumming station. Cumes are updated twice weekly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.

denotes songs with 6 or more detections at station
for first time this week.
* Indicates station reports to both Adult Top40 and Modern AC.

Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections, the song being played on more stations is placed first. Songs below the top 20 become recurrences and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. ○ Songs showing an increase in audience over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in audience does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs ranked by number of detections. () Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage rise in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurren-
ts and are removed from this chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. ○ Songs showing an increase in audience over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in audience does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurren-

Songs ranked by number of detections. (○) Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurrent and are removed from the chart after 26 weeks.

Songs ranked by number of detections. (○) Songs showing an increase in detections over the previous week, regardless of chart movement. A song will also receive a bullet if its percentage loss in detections does not exceed the percentage of monitored station downtime for the format. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Most Airplay Adds awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 15 become recurrents and are removed from the chart after 26 weeks.
