**MARTIKA More Than You Know**  
(Columbia)

Put on your dancin' shoes for this latin flavored entry. It's no doubt inspired by Producer Michael Jay, who's worked with Martika herself, a young Cuban American who also co-wrote the tune. It's catchy, and after hearing it on KIIS's new music hour recently I can say it sounds super on the radio.

# FMQB GRAPEVINE

**EXCLUSIVE GRAPEVINE SCOOP!!!!** At presstime Grapevine grabs a call from POWER 95 PD Larry Berger: "As of today (12/1/88), I have resigned my post here at POWER 95. It was a mutual agreement between management and myself. As for my future plans, I have none. I plan to take a month off to just cool out and take a look around to see what's out there. I've been here for 14 and a half good years through many changes. I will continue to consult (WTNQ, Syracuse, WKRZ, Wilkes-Barre and Party America) and consider whatever else is out there. I may decide to do some more consulting; it seemed like a time for a change."

**Look at the major market gigs now open** - POWER95/NYC; KRBE/Houston; Z93/Atlanta -- plus whatever EZ will do in Philly.

**Big Tip O' The Hat to MCA's Richard Palmese!!** Richard has been promoted to Executive VP/GM for the label. Richard has been with the fold since '83, most recently as VP/Marketing & Promotion.

**MCA's Bobby Shaw** is elevated to VP/Dance Promotion---congratz!

**Twins in Phoenix?** Grapevine is on the (ahem) case: Z93/Atlanta P.D. Bob Case was recruited to program KZZP in Phoenix, right?

**Two weeks before Bob Case officially started at Nationwide's KZZP**...Edens' KOY introduced a new member of the morning team-- a guy named Bob Case! This "Bob Case", however, wasn't exactly major market' material. In fact, as KOY listeners could tell you, he was pretty much a disaster on the air...and finally, after two weeks, he was fired on the air for "incompetence."

**The following Monday**, the Atlanta Bob Case punched in at KZZP. Guerilla war tactics in the desert, hmmmm?

**The Eagles are flyin' together....**In Philadelphia, EAGLE 106 somehow wangled morning team Welch & Woody onto the (NFL) Eagles music video. "It's called 'Buddy's Watching You', and they're selling 25,000 copies of the video around Philadelphia...." Grapevine knows that every station in town was bidding furiously for the Birds tie-in...and Charlie's got his morning team (wearing station tee-shirts) introducing the video!

**Does anybody doubt that "My Prerogative" will go ??**

**"Look at all the media attention RADIO is getting!"** WROQ/Charlotte's Dwayne Ward cites TV and the movies: "Midnight Caller" is about radio....'Almost Grown' has a character who's a P.D....and Oliver Stone's new movie is 'Talk Radio'....Looks like radio's getting the kind of respect it deserves!"

**Ch-Ch-Changes:**

**At EAGLE 106/Philadelphia:** Fast Larry Wax makes a fast lane getaway (back) to 98PXY/Rochester. "He's returning to 98PXY...this time to do mornings", reveals Eaglemaster Charlie Quinn. "We really hate to lose Larry."

**At WKTI/Milwaukee**...Danny Clayton, Assistant P.D. for Todd Fisher, now also juggles M.D. chores. Steve Ludwig joins to do 6-10pm, from WTLQ/Wilkes-Barre.

**At KOY/Phoenix**...Glenn Beck departs for alarm-clock duty at KRBE/Houston. That leaves a major market opening for somebody. (Can your wife/girlfriend tolerate you going to staff meetings with Jessica Hahn?) T&R to Jay Stevens like yesterday....

**At KZEW/Dallas**...And yes, Grapevine KNOWS it's an AOR station...Andre Gardner is paroled from Zoo duty (KZEW went Classic Rock right after he landed there, ya know)....and is itchin' to crank up his headphones at CHR again. Friends, insurance salesmen, and prospective employers can reach Andre at (214) 717-1199.

**At KJ103/Oklahoma City**, P.D. Curt Spain grabs same-city morning guy Ronnie Rocket away from KZBS....

**At HOT 105/Miami**: Mindy has completed her legal non-compete time and officially debuted on the morning show at HOT 105. (Dennis Reese and Keith Isley had some fun: 10th caller to hear Mindy on the air live won \$5,000.)

**At WBNQ**... PD Mike Justin moves P.M.er Scott LaQuinn to mornings and brings in John Weis for P.M. drive & music duties.

**C'est un garcon!** A bilingual stork stop for CKOI/Montreal M.D. Guy-Brouillard-- Yes, it's a boy!

**In Oklahoma City, it's a GIRL!** Grapevine congrats (and a box of Pampers) to KJ103's Curt Spain, proud papa of Brit'ny Leigh. (Watch for a future Up Close! with Curt in the Friday Morning Quarterback.)

**Michelle Does Music...in Phoenix!!** KZZP has appointed Michelle Santosuosso to MD at the station. Michelle was brought on board by Kevin Weatherly in '87 to do research and has kept her ear to the street by being a club jock in the market for years.

**ZOO News...** Zoo Master -Scott Shannon grabs the Grapevine line: "Tapes will be rolling December 23rd for the Six Hour Morning Zoo Christmas Spectacular. We'll have children in singing Christmas carols, special guests and the year in review. Along with the best of the Morning Zoo 1988!"

**Chrysalis Topper Daniel Glass** on the Batphone: "I would like to thank everyone at FMQB & radio for helping us deliver one of the most exciting pop/rock bands in the country--Was (Not Was). You've seen them on Letterman, Saturday Night Live, now see them on tour and you'll agree they're one of the hottest. FMQB was one of the first believers and helped us push people over the fence on this project." HOT TIP-- check out the cut "Walk The Dinosaur" from Was (Not Was)--a monster!!!

**So What's Next ????** 1988--George Michael has done it all. Six top five singles off one album. Talking about his future George commented: "I'd like to be making at least one album a year. With that in mind, I'm thinking of recording almost immediately when I get back. I just want to be making more music & writing more."

says:

"We took a shot with Vanessa Williams' 'Dreamin'' & it's working great. Every time we play it we get great adult female phones and reaction!"

... AND THEY'VE GOT IT DOWN TO AN ART!

FMQB Grapevine (Continued)

Meanwhile at KYKY.... EZ Prez, Alan Box has named KYKY PD Doug McGuire as regional PD. Doug will oversee KYKY; WEZC, Charlotte & WAIW-FM/WOKV-AM, Jacksonville.

Power Skate.... Power 95, N.Y.C. held its annual 'Power Skate' at Rockefeller Plaza by treating over 200 listeners and their families to free skate rental, refreshments, and T-shirts. Many Radio City Music Hall Rockettes joined in for the fun.

Congratz To Karen Eden--air personality at Hot 95.9 and Hot 95.9 MD Zak Szabo. The two co-workers recently tied the knot....

and...KVFM, Logan Utah's 'Terrible' Tim Eberth. Tim & his wife are the new proud parents of Tim Jr....

Cool Yule Fun:

"We figured all our listeners are in the malls shopping"....says a jolly ol' Mike Morgan from Albany. "So WFLY is calling pay phones in local malls. If they answer 'FLY 92', they 'qualify' for a shopping spree!"

KFC = Kentucky Fried Christmas....Z102/Savannah and the Colonel unite for the Kid Patrol, says Ray Williams. "We're going to area hospitals and orphanages, with prizes and KFC goodies, throwing parties...."

Your Christmas Wish- in 25 words or less. That's how WAZY/Lafayette handles Christmas Wish. "We're getting 100- 125 pieces of mail a week", Bob Miller tells us from the Santa Claus booth....

A Toys For Tots concert by WANS....Bill Catcher's making a list of groups and checking it twice, for the Anderson, SC fundraiser on December 16....

Christmas Wish Trips at WOHT....Denny Hartman may have some REAL snow in Muncie/Williamsport by the 25th, so a winner's trip could take 'em someplace WARM!!!!....

In Exeter, they're PARTYING: "Thanks to MCA (for Boys Club)...to Reprise (for Times Two)....to Columbia (for Martika)...and to Critique (for Livingston Taylor)..." The ever-grateful Scott Lief is helping Peter Falconi plot the WERZ Christmas Party for their listeners....

In Kansas City, they're giving away "Christmas Cash"....At least \$1,000 a day, says KXXR's Gary Franklin. "We kept it simple-- just listen for the 'Ho-Ho-Ho' and be the 6th caller!"

In Miami, it's Christmas Wish WAR! Both Y100 and HOT 105 are doin' it!

How do YOU handle Christmas? No, we don't mean the eternal problem of what to buy your mom...Grapevine means that programming question EVERY station faces-- How much Christmas music do you play, and when do you start, and do you play Bing Crosby, or just Bruce Springsteen? Key programmers give you THEIR thoughts in this week's FMQB Question Of The Week.

Tequila Sunrise- Pour us a double: It WILL be a double for the new "Tequila Sunrise" movie, as Ann Wilson pairs with Cheap Trick's Robin Zander for the first single. Capitol's John Fagot & Tom Gorman will be serving LOTS of Tequila Sunrises, we think....Watch for that single, along with the new Duran Duran, later this week....Nice to have some fresh music for December!

Envious Quote of the week....from John McFadden at the Fox in Detroit: "Look at that guy Sam Kinison-- a hit

record AND Jessica Hahn!"

What A Way To Go.... Arista staffers are doing it up right for their meetings. How's a little cruise to St. Thomas, St. Martin & assorted islands sound?

Names On Parade.... Rick Gillette....Chris Ruh....Sean Lynch....Mark Shands....Andre Gardner....Danny Bonaduce....Alf....Sam Kaiser.

Hot Remix Action.... On the way is a hot remix for Kiss...YES KISS! John Luongo has just finished up doctoring "Let's Put The X Back In Sex".....cover your head!!!

Bones For Phones....Leave it to Dave Robbins & Co. at WNCI to come up with the instant promo gimmicks. Last week we read about the Thanksgiving promotions....a local newspaper writer (who the market refers to as Fat Boy) wrote how much he loves nibbling on turkey bones. So the station started giving out cellular phones for turkey bones--'Bones for Phones'. "Our whole building wrecks of garbage from those bones!", exclaims a stinky Pat Mc Mahon. But as usual, it's the little spur of the moment promotions like this that are keeping NCI on top of the heap.

'Bill Bill' Cannon- That's what we're calling WKSE, Buffalo's Paul Cannon. "It's so wonderful to have a winning football team in Buffalo. We've also brought aboard a winner in Jay West. Jay is our new 6p-10p personality from WLUM, Milwaukee." Hell with the Bills Paul--how 'bout them Igles!

In Other Night News.... WHYT, Detroit's Mark Jackson tells us: "We've just brought Bo Daniels on board from Birmingham..a very exciting addition to our air staff." When it comes to street, Mark says the station is very strong: "We talk to 57 club reporters. WHYT doesn't miss a beat when it comes to hot product. On top of that, all our jocks are out in the clubs."

Mark Jackson Bangs out This Week's Urban GO-RILLAS.... Posse On Broadway by Sir-Mix-A-Lot....the new Rob Base....a #1 club record--from Inner City....and Bobby Brown's "Roni" is in power!!!

Born To Be Wilde!!! KDWB PD Brian Phillips has put Bobby Wilde in to handle nights. To get Minneapolis used to his antics, Bobby blasted Steppenwolf's "Born To Be Wild" 60 times in a row!

It Was A Who's Who....at the Beacon in New York for the Keith Richards show.....seen in the crowd..Matt Dillon, Carole King, John Oates, Bill Graham, Rudy Rubini and--was that Brooke Shields we saw exiting with one John 'Broadway' Boulos?????

Thirtysomething Quote of the week, from WDJX/Louisville's Jill Meyer: "I couldn't wait for my mom to come over on Thanksgiving-- so I could tell her we're playing TOM JONES!"

Never On Monday: OK100/Ithaca calls in from the ski patrol station with a request for record labels: "Please, NO CALLS on Monday-- Call us Tuesday or Wednesday or Thursday or Friday, but NOT on Monday", says M.D. J.J. Rice.

You ARE taking the Timelords seriously, aren't you? If the Dr. Who mystique doesn't hook 'em, then the late-Eighties return of Gary Glitter WILL. We're seein' 10 point moves, #1 phones, the works....

Basia promises a "New Day"....And QV103/Wichita Falls delivers-- "We're doing a December 32 promotion with

### FMQB Grapevine (Continued)

Epic", says Jeff Christenson (Maybe Jeff can't bear the thought of ending 1988). "Epic's helping us out, to give a listener an 'extra day', thanks to Basia. We'll have jocks at seven area 7-11's, doing a Toys For Tots radiothon from 6am- 6pm...." Hope Santa brings some No-Doz to these guys! "And QV103 is GUARANTEEING a 'White Christmas'-- Christmas Eve, we'll come to the winner's house and BLOW 6 inches of snow onto their lawn..."

**Tighter & Tighter in Salt Lake City:** The ink's still drying on the Arbitrands-- KISN 9.2- 7.8; KCPX 8.3- 8.2. (And yes, everybody wants to know about Lou Simon: he should be announcing plans any minute now.)

**Boy, the things we promise to print around here:** "I had the great pleasure of co-hosting my morning show last week with Diane Ercolini, Miss Greater Saratoga and third runner-up for Miss New York." Ms. Ercolini evidently made quite an impression on 102QQ's Ken McGrail!

**Speaking of the Saratoga/Schenectady/Albany market:** It's hard to find blank cassettes for sale-- Everybody's getting ready to aircheck Mike Joseph's newest project, at WGY-FM. Grapevine knows that the staff has been training for two weeks now, and the debut could be any day!

**How many pop acts have sold out New York's Carnegie Hall?** The latest is Tracy Chapman, last Monday. "When Tracy did 'Baby, Can I Hold You'...the place went WILD!" WPST Station Manager (and Grapevine stringer) Tom Cunningham does the concert review: "Chapman did 'Fast Car'....'Talking About A Revolution'...plus several new songs that aren't on the album. I'm tellin' you: Carnegie Hall was PACKED for Tracy!" Elektra's Rick Alden is still testifying about the show-- and about the current single: "'Baby' is a HIT in New York at Z100 and WNEW-FM....It went 31-5 in sales at KISN in Salt Lake City....and with the artist of the year, we're not givin' up on this!"

**Impartial Ears on LA:** Barry Richards phones Grapevine with his impression of L.A. radio-- "Everybody's playing Tone Loc-- it's the hottest thing since sliced bread! And KIIS-FM, at night, sounds like they're playing more rap than POWER 106! And I've gotta say that KIIS-AM sounds HOT-- they're playing all the right Urban and rap stuff...."

**This lady sang the blues...and U2 heard 'em in Ireland:** Yes, "Angel Of Harlem" is U2's tribute to Lady Day-- Billie Holiday. That's her picture on the back of the 12" and 7" sleeves.

**The tornado touched down a quarter mile from my house!** And that's as close as 94Z/Raleigh P.D. Steve Christian ever wants to get to a twister. Kudos to Eastern North Carolina broadcasters for their work during last week's tornado torrent....

**There's a SALES tornado loose:** Edie Brickell is creating a ruckus at retail, says Geffen's Craig Coburn: "We have a 10 day sales total of 206,000, a five day figure of 102,000...and the most recent ONE day count was 29,000!"

**The GALL of this guy!** Actually, WRVQ's Steve Davis is making it by with LESS gall-- Monday's gall bladder surgery was completely successful says Gentleman Jim Payne....Steve will be out for 2-3 weeks recuperation-- You can drop him a get-well card at: 1727 Wilmington Avenue, Richmond, VA 23227.

**The Old 360.....**"and 4 weeks ago, I was sittin here with 4 adds! This week Karyn White was the most added," shouts an excited Stu Cohen. And that's not all fans. Look at what's coming down the road...Rod Stewart....Al B. Sure...Madonna...ZZ Top. Check out next week's Up Close with the Warner Wizard himself, Stu(ski) Cohen!

**Just In Time For Christmas....**is the new Alexander O'Neal album on Epic. Hot 97, New York's Steve Ellis tells us the cut "Sleighride"....the whole Lp--"My Gift To You"--is strong.

**The Shadow Knows....**Grapevine is still answering tons of questions of the when & who nature as to the status of EZ's new Philly property. B97's Shadow Stevens is saying the takeover is slated for late January/early February. Shadow adds: "Our morning team of Walton & Johnson has taken New Orleans by storm. In the last 2 months, the team has gone from a 9 to a 15, share." Who cares??? Why couldn't New Orleans knock off the Jersey Giants last week, Shadow???? That's what we want to know!!!

**The San Francisco Treat...** We hear things are shaping up pretty well for Emmis' X-100 (KXXR). A lot of solid feedback & research is coming back on their direction and call letters. MD Gene Baxter states: "It's great to know that listeners are aware that X-100 is not a new laundry detergent!"

**Just-in at Geffen...** Geffen promotion head, Al Coury has announced that Justin Fontaine will handle Kansas/St. Louis for the big G. Justin most recently was at Capitol.

**"After I moved to Wyoming last month, I asked them for the franchise for steel tights!"** Grapevine tracks Brian Wilson through the snow to KTRS/Casper: "I was looking for the right opportunity, after doing mornings at B104/Baltimore, and the opportunity to work with a major venture capital group came up." So Brian No-He's-Not-A-Beach-Boy Wilson wound up in Casper, putting together a new team. "The guys here deserve a whole hell of a lot of credit for what they've done-- and together, we'll make it even better." Brian's landlord better not lose his deposit money, though: "A bank just gave us \$50 million to go buy more stations!"

**A Little Booth Gossip** from KITY's Rick Upton: "Did you know that the lead singer of Will To Power, Suzy, is the cousin of the big guy--John Booth of our parent company????"

**Battle of the Big Mouths!!** Morton Downey Jr. has been 'on tour' in many cities coast to coast. At Q100 in Allentown, morning maniac, Uncle Bob will be Morton's guest when Mort does his State Theatre appearance. The two debate both national and local issues.

**A Million Dollar Idea--Even Better..** The Arizona State Lottery pot went up to 11 million dollars last week and KZZP went into action. PD Bob Case spits out the dirt: "We dropped lottery tickets off of Phoenix's tallest building and almost caused a riot. Tom Jones performed 'Kiss' in our parking lot the other morning. The panties and hotel keys were flying!!"

**Trendy...** WKZL, Winston-Salem's Chuck Holloway chirps out some digits: "We went from a 7.3 to 7.6 and wound up as the #2 cuming station. 18-34, we went through the roof, especially in morning drive..a 13.8 18 to 34!" Meanwhile, the GM at WKSI resigned last week.

**This Week's Grapevine's Nicknames for Interns...**(selected By WZOU, Boston staffers)--Hey!...Hey You!....Hey You, Come Here!....Hey, I'm hungry--are you ready for lunch!...& Hey, I've got a job for you!

**Your Picks To Click.....in this week's FMQB Grapevine:**

**JERRY DEAN/ KLUC:** Eighth Wonder has everything it takes to make a hit...

**KEVIN McCABE/ Q107:** Tone Loc produces SERIOUS phones...also: Samantha Fox is exploding at retail...and

## QUESTION OF THE WEEK

"HOW DO YOU ENTER SANTA IN SELECTER? FMBQ asks some key programmers about handling CHRISTMAS

### Randy Kabrich, P.D. Q105/Tampa

I don't think there are any set rules about Christmas-- It depends on your market, and the weather, and how much people are into Christmas that particular year. I've played Christmas music, for example, as early as the 5th and as late as the 18th. You don't want to LEAD the market; you want to see how the people are getting into it.

We start with the contemporary music, then play the evergreens only just before Christmas. Q105 actually does callout with them; we mix in the Christmas music with currents on the tape. Some of the things you'd think are really strong can surprise you!

For promotions: We've always done the 12 Days Of Christmas in Tampa...and Q105 will again play solid Christmas music from noon Christmas Eve until noon Christmas Day.

### Todd Fisher, P.D. WTKI/Milwaukee

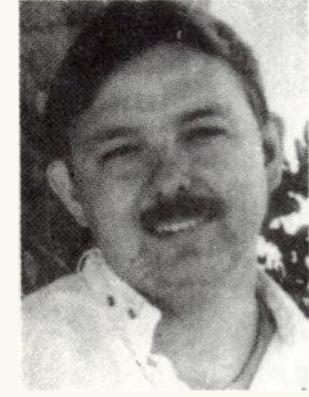

You can't play ENOUGH Christmas music, as far as I'm concerned! WTKI started played it on Black Friday, starting with the Bruce Springsteen "Santa Claus" kind of things. Closer to the 25th, we'll play everything-- including Bing's "White Christmas." The old standards are the BEST!

"Toys For Tots" benefits from our upcoming concert-- we have the Jets, the Boys, and the Boys Club.

By Christmas, you'll hear 3 Christmas songs an hour...Hey, Christmas is HUGE!

### Jerry Dean, P.D. KLUC/Las Vegas

Christmas doesn't have the same feel in the desert-- there's no snow!

I've never been a big one for Christmas music-- KLUC will play maybe one an hour, the week before Christmas. I think that in this day and age, it's hard to play Nat and Bing.

Every year, though, one of our biggest promotions is our Food Drive. As you can imagine, we have lots of transients here-- people come to Las Vegas and literally lose EVERYTHING. We put members of the morning team at local malls-- last year we generated over 10 TONS of food!

As far as I'm concerned, Christmas is OVER by noon Christmas Day-- and it's pretty scary, but our most requested Christmas song-- by ALL demos-- is "Grandma Got Run Over By A Reindeer!"

### Shadow Stevens, B97, New Orleans/EZ Communications

We'll start our Christmas music 2 and a half or 3 weeks out. It's a continuous phasing in of songs starting at 1 per daypart, gradually working up to a few per hour. B97 sticks with all contemporary artists & songs until Christmas Eve when we mix in traditional and contemporary.

Throughout the season, we do a lot of promotions under the Christmas umbrella. The jocks go out and visit a lot of the childrens hospitals. Giveaways usually are geared around what's hot for the year....Nintendo...E.T. video ..lots of gift certificates...

### Rick Upton, (KITY) Power 93, San Antonio

Christmas music is all over the market here, so we don't go all over it. We will play something new & hot right away. For instance, the new Alexander O'Neal will go right on. A few days before, we put in some titles--at the most, 2 an hour. We pull all the music at at noon Christmas day. Yeah, so I'm a grinch!!!

We tie-in a listener/sales promotions by giving away a lot of jewelry. We also get involved with the 'Lighting of the River', a big seasonal event here.

### Gene Baxter, (KXXX) X-100, San Francisco

Personally, I'm a big fan of Christmas music. During the holiday season, it's hard for anyone to avoid Christmas. People will see it & hear it everywhere.

The first week of December, we will start to play the strong contemporary songs...

Band Aid, Eagles, Madonna, U2. As Christmas day gets closer, the frequency will increase and the titles will increase. The songs that burn fast...the Barking Dogs, Elmo & Patsy--you feed in the week before. There are also some good post-Christmas songs--Dan Fogelberg...an even Barry Manilow's 'New Years Eve'.

As far as promotions--we have something up our sleeve...

The singer/songwriter who helped make Palisades Park famous nationally rings up his 48th. Happy birthday, Freddy Cannon. It was on this date 12 years ago that an assassination plot against the late Bob Marley proved unsuccessful. Five heavily-armed men had broken into the reggae singer's house. Tragically, Bob would die of cancer a short time later. The late Beach Boys' drummer, Dennis Wilson, would have been only 44. # UP CLOSE!

## UPCLOSE WITH BILL RICHARDS, P.D. KKBQ, HOUSTON

**FMQB:** What were some of your initial goals to achieve at KKBQ?

**BILL:** I wanted to stabilize the situation here. There hadn't been a jock meeting in two years, air check sessions virtually never happened, and there was a lot of discontent amongst the air staff and the rest of the station. I'm a big believer in getting a staff together that truly "wants it." I'm talking more than just words here. Any station will win if it truly believes it can. You can feel it in the hallways. It rubs off of the other office staff, from salespeople to traffic to bookkeeping, etc.

There wasn't that feeling when I first arrived. It was a good bunch of people that only needed to "believe" again...I also wanted to stop the strong moves being made across town at KRBE. They definitely had the momentum when I got here. Again, you could hear it on the air over there. They were trying to knock off a legendary radio station. That had to be stopped...

One thing that people need to understand is radio station "maturity." By that I mean this: Any established station (especially those in the CHR vein) are extremely vulnerable to "the new kids on the block." That's something that Jeff Wyatt and I talked about a few months ago. Emmis hasn't really hit their maturity level with most of their radio stations. It's much easier to come in and be the new exciting, hip radio station. It happened in Los Angeles with our sister station KIIS when Power went on the air there. It happened here with KRBE. It happens all over the country. Y95 challenging KZZP. HOT97 in New York challenging Z100. Emmis will find themselves in the same position as a number of radio stations (including ours). They will no longer be the new kid on the block. They will have to stave off the challenge from the next "hot" competitor.

When you're in the position that stations like ours are in, it becomes a very tough scenario. You not only have to out-perform the competitors challenging you, you have to out-perform yourself.

In other words, there is a reason that KKBQ is a legendary radio station. It's done some serious damage in this market. At its best, it was the most creative, outrageous, never-before-heard radio station this market had ever been exposed to. That's a tough challenge in and of itself. We continually have that to not only live up to, but to exceed year-after-year-after-year...I'm of the opinion that it's a much tougher programming job holding on to what you've got, than it is to come in and get what you can, because you've got nothing to lose. That's why people like Scott Shannon and Guy Zapoleon are so well respected -- they have fought off some big time challenges.

Our goals at this radio station are to continue to live up to what this radio station has been and what it has meant to so many people. That means being on top of what's happening in this market; musically, promotionally, and in the community. To bring in the best people for the job that not only understand what we're doing, but what it's going to take to get there. We're in a tough fight, especially with Emmis coming in. We needed to put the fight back into the Q. We wear the championship belt, and even though it gets awfully heavy sometimes, we sure as hell aren't going to give it up without a bloody fight. I think I speak for John Lander, Al Brady Law, and the entire KKBQ staff when I say that!

**FMQB:** The Houston market is both plentiful of stations & competitive...where does KKBQ position itself in the market (demo/psychographic)?

**BILL:** We position ourselves as a mass-appeal Top 40 radio station. We really believe we can get an incredible spread of demographics here. The Q-Zoo gets incredible numbers. But one of the things that happens when that happens is that it's tougher to forge a "hip" musical identity. In other words, John Lander and the Q-Zoo have such a strong "personality" image, it's hard to get a strong musical identity as well -- especially in light of a second and third CHR in the market that has no "personality" and focuses instead on the music. I don't think stations like Z100 or KKBQ will ever totally demolish a strong CHR competitor musically -- we just need to be in the ball game.

We need to position KKBQ as mass-appeal as we can, and not go overboard in any one direction. I brought Jerry Clifton in to work with us when I first got here because he had worked in this market himself as a programmer for five years. That's some awfully good background to bounce off of. I didn't bring him in here to do a dance format. That would have been a complete format change for us. That's not what we needed to do. What we needed to do was be a Top 40 radio station that's formally executing itself properly. There was little if any dayparting of music here, and there was a number of other things that I felt we could work on. Jerry Clifton is more than a "one-shot" format consultant. He is a brilliant strategist and isn't limited to "dance..." KKBQ is an extremely aggressive music station -- which is right for this market -- but it is also much more dayparted than a KRBE is. This

## UPCLOSE (Continued)

market is a very active market musically, and we need to reflect that.

Anyone who comes in here (including myself when I first arrived), might be surprised by what they hear. It definitely has a modern feel to it...There is a new "Clear Channel, INC." station that moved its stick in from Beaumont - KHYS "KISS98.5"- that is doing a close version of QUE in New Orleans, which they also own. I think they sound fine. I don't believe they'll throw a knock-out punch of any kind, though. They sound like Al B. Sure/Luther Vandross/Anita Baker/Jody Watley/Paula Abdul, etc. They throw Info Society in for good measure. They had a ton of billboards up when they first moved into the market that said, "The Switch Is On, KISS98.5." They had taxi-backs, too. I think it was a mistake on their part. If "Joe Listener" tuned them in and heard the static, they might never come back. They should have waited until the signal was right. How many chances will "Joe" give 'em?

**FMQB:** Emmis is soon to grab the reigns in Houston...where do you see them heading formatically?

**BILL:** It really doesn't matter. In other words, there's not a damn thing that I can do until they hit the air. Sure, we've heard all the rumors -- keeping it A/C, doing a dance format; AOR, Rock of the 90's (Modern Rock), even country. I won't even say what I'd do if I were them. Let them make their move and then we'll deal with it. Maybe they'll make the wrong move.

**FMQB:** Design your own "Dream Air Staff."

**BILL:** The one I'm working on now. The past doesn't matter. I'm at work creating the "Dream Staff" here. I want everyone here to gel. What mattered in the past isn't relative. I certainly understand the question, but I'm working today on being there tomorrow. Plus, I'll piss-off all the people I don't mention who worked with me before, so this is the easy way out.

**FMQB:** Modern Music certainly succeeds in your market and is now doing well coast-to-coast. Is this one of Top 40's next musical 'pit stops'?

**BILL:** Can we please not label these things. That's the sure sign of death when we do. Dance isn't over. It never was. Rock and roll isn't dead. It never was. Adventuresome music (whether it was in the 40's, 60's or 80's) is just that. If we call it Modern Rock, then so be it. I'd like to think that it's another extension of Top 40 and that we're reflecting a hot sound. Yes, bands like Info Society/Erasure/Depeche Mode/New Order/The Cure, etc. all work extremely well here. But so does Anita Baker/The Beach Boys song/White Lion/Breathe/Bobby Brown, etc. My point is this: it very well may be Top 40's next 'pit stop,' but it will never totally dominate it. Now that's if we're talking pure TOP 40. Is it viable as a format in and of itself? Sure. There is an audience here in Houston for it. I know that that type of stuff dies in Columbus, Ohio for instance. So, I'm not sure if it's viable as a format unto itself nationally. Also, whether you could make money with it or not would be questionable.

**FMQB:** Who would you say have been some of the people in this business that have made a major impression or influence on your career?

**BILL:** Larry Lakoduk, George Burns, Steve Berger, Bill Hennes, Jon Coleman, and many others. Larry Lakoduk, without question, was my greatest influence. He gave me my first chance to program at the tender age of 21, and more importantly, he let me really "be" the program director. He was tough, but fair. He listened to my opinions and thoughts (long before I was PD, too.) Not only that though, I really felt he counted on my opinion -- that it mattered to him. He gave me the confidence I needed to grow and be not only a better program director, but a better person. He let me learn from my own mistakes (and kicked me in the butt for it), but never made me feel like I would do it again.

I always felt like he knew that for every mistake I might make, I would do 10 things to make up for it...George Burns taught me all about Arbitrons/ratings /research, etc. It wasn't just an Arbitron we had to live through, it was something to learn from. Search for the questions and answers it is ready to give you. It made me a better programmer ...Steve Berger for giving me the chance to "show my stuff." Giving me a national programming position with Guy Zapoleon. Steve's a brilliant man. He's fair, demanding, but honest, and I loved working with him. (I could also beat him golfing -- or did he let me beat him?). I could go through all those who affected my career because there are so many. I'm still learning so much from so many: Jon Coleman; Al Brady Law; Gerry DeFrancesco; Jerry Clifton, and that's not to mention all the things I learn from my staff that keeps me growing.

**FMQB:** What do you see yourself doing if you weren't in radio?

**BILL:** Being a professional golfer. A concert pianist (I don't play, but I have it in me), or be in a band.

**FMQB:** What goals do you have down the road for yourself?

**BILL:** I want to consult, but I want to do it with meaning -- not just to be a consultant -- but to truly shape a radio station. I really like the strategy about it all. I'm a strategist. I love dissecting markets. I'd like to be a general manager. I love working with people, getting the best out of people. Doing what so many others have done for me -- pushing them to their extreme limits to truly get the best from them. Making them the best they can possibly be. One thing that means a lot to me is to hear someone who's worked with me say that I was the best programmer they ever worked with. That makes it all worthwhile. We may have kicked and scratched, shed a tear, exchanged some words, but in the end, we were both better for it. That's what it's all about.

**MATTY 'THE HUMDINGER' SINGER - THOUGHTS FOR TODAY**

Insincere praise is worse than no praise at all.

It is easier to be honest with others than with ourselves.

Necessity may be the mother of invention, but frustration is often the father of success.

Fear not that thy life shall come to an end, but rather fear that it shall never have a beginning.

Irving Azoff, Chairman of the MCA Music Entertainment Group stated, "MCA Records' success over the past five years is a testament to Richard's expertise in marketing and promotion. Richard's one of the few guys in the record industry that's a true mensch." Richard Palmese commented, "From day one, our commitment at MCA has been to creatively develop our artists' careers. **CLASS A'S ANGRY OVER NAB OPPOSITION TO POWER HIKE.** Inside story. A growing number of Class A broadcasters are livid at the NAB's position. New Jersey Class A Broadcasters Association is asking the FCC to allow power increases from 3,000 to 6,000 watts. It would improve and expand their coverage area with little interference to other stations. In fact, FCC officials confirm any interference would be negligible. The FCC is basically in favor of the proposal. NAB's present position: It's okay to increase power for some Class A stations that can meet spacing requirements without creating any new interference. But that won't help stations in congested areas who would most benefit from the upgrade. NAB says it is worried about FM quality and remaining competitive. But the NAB may cave in on the issue if pressured enough. Already NAB wrote to the Class A Broadcasters saying they might consider the possibility of the blanket increase -- but no promises.

**WHY THE NAB DOESN'T STAND UP FOR ALL CLASS A's.** Inside analysis. The FCC is apparently in favor of the across the board Class A increase. Thinks the interference will be insignificant when compared to a 30 percent increase in coverage area and potentially higher ad revenue for these class A stations. It's a case of Fritts supporting the interests of the bigger, more powerful broadcasters. The New Jersey Class A Broadcasters claim that the NAB engineering subcommittee who researched the matter does not equally represent Class A stations -- that it has only one true class A member on the committee. The Class A's with NAB would see things differently or stay out of it. And, that in and of itself is a commentary on the sad state of the NAB. Whose trade organization are they? For whom do they speak? C'mon -- if the FCC is willing, get with it and support radio's best interests.

**LOOK FOR CODY/LEACH'S NEW PROGRAMMING TEST.** Product preview. It will be called the Morning Show Test. Uses a computer system to measure audience response to programming. Here's how it will work: Listeners will be tested in groups of 50. Two to four sittings are used to gather data. Programming collected during one week is edited down and played for the audience. A competitor's programming can also be tested. Respondents react by turning a dial that is calibrated from 0-100. That range coincides with an audience's emotional response to what they are hearing. The thought process used to select a number or letter does not occur -- it's purely emotional. Results are shown as a graph resembling an EKG on a TV screen. Up to five colored lines appear representing different breakdowns such as age, race and sex. Cody/Leach is now offering the Morning Show Test on a format-exclusive basis in each market. For more information call Frank Cody or Owen Leach at (609) 452-9500.

**LATEST WAYS TO HELP RATING RECALL.** Inside information. Here are some useful tips consultant Mike McVay is telling his clients to get higher ratings: 1) Actually state on the air, "Whenever you hear a great mix of music from the 60s and 70s combined with the hits of today, it's gotta be WXXX-FM you're listening to"; 2) Since Arbitron asks for call letters and in the new diary states, "Give us the name of the station you're listening to," add a liner that takes advantage of that terminology like, "Our call letters are KXXX-FM. Our name is Magic101"; 3) Announce the name of your station frequently. State it twice in every jock talk set. Air it three times in recorded promos. The more interaction you have with the listener, the greater the potential for retention.

**REBUILDING THE RAB.** As promised last week, a special report on how to improve the RAB. Now, with CEO Bill Stakelin leaving for station ownership, some concerned radio executives view this as a good time to make the first significant changes in 30 years. RAB has been on the decline for the past five years. Membership is trending downward, and the RAB is having great difficulty appealing to the younger, new breed of entrepreneur that heads our radio groups today. Where once RAB led the fight to get advertisers sold on radio, it is now obsessed with running a mini-NAB. In the last year, the industry has barely heard a peep out of Stakelin and his hand-picked crew. Now, on to the future. Here are some of the things we have been hearing:

- 1) Hire an interim RAB president, a senior statesperson, if you will, who will oversee a period of discovery. Allowing the RAB to aim for new, more meaningful goals and make major changes in its dues system, representation and solicitation procedures.
- 2) Call a "constitutional convention" to establish the organization with new purposes. Instead of a "country club" of board members, a grass roots movement to do something significant about radio's sales problems. Don't hold these meetings in New York!
- 3) Refocus the RAB as a support service. Nationally, it will support the reps in their efforts to increase national business, not just try to close the new-found advertisers. Locally, to support local sales efforts providing stations with on-line help. But, RAB would not actively be involved in local selling. Another idea, help establish local radio clubs in cities where none exist. They are very effective in cities such as Milwaukee, Charleston, Fresno.
- 4) Refocus on sales training. Radio stations need help. They are snapping up private consultants at a record pace. Meanwhile RAB has basically stayed out of the seminar business.
- 5) Establish a clearinghouse for hiring qualified salespeople and support the local effort with computerized testing programs stations can use before hiring new account executives.
- 6) Divide into an AM and an FM division. AM stations have different sales problems than FM. They deserve specialized attention with someone in charge who is looking after their interests.
- 7) Make dues pertain to those services that are purchased. Stop charging stations high dues and offering them the resources of the RAB. Instead, charge a smaller, nominal membership fee and charge stations for those services that they use. Buy a sales training course? You pay for it at a special RAB price.

INSIDE RADIO (Continued)

- 8) Eliminate the RAB Managing Sales Conference. Radio doesn't need its sales association spending its time and resources on doing a redundant convention. Help the NAB with theirs and share in the profits.
- 9) Make the position of president accountable to the membership, not just the board of directors by requiring regional elections as the NAB does. This way the RAB president's focus will always be to please the membership and not the board -- whose interests may vary.

These are just a few ideas. No doubt you agree with some and disagree with others or have ideas of your own. This breather between regimes at RAB is important because it gives the radio industry time to save all that is good about the RAB and purge all that is bad. It's one last chance -- an opportunity for all of us to put politics behind and look ahead to a redefined association which stations want to join. The thing not to do right now is to hire a replacement for Bill Stakelin. To do so dooms the RAB and the person who accepts the job.

November 28, 1988

LEGENDARY WCCO IS ON-THE-BLOCK. Inside exclusive. Goldman Sachs has been retained to sell WCCO-AM/FM/TV in Minneapolis -- perhaps as early as year's end. The price for the radio station combo will be \$80 million. Here's why: Most of the family members have died. The stations are controlled by their estate and to put it bluntly -- the kids don't have sufficient interest in broadcasting to keep the stations. Chairman Thomas Doar has been talking with Americom Media Brokers about playing a role in selling the stations. Goldman Sachs could use the help as they are not primarily radio brokers and the estate wants to get every penny it can from this impressive combo.

SRO'S SALE TO ADAMS MAY BE SHAKY. Inside story. It's not that Steve Adams doesn't have the money. He does. He's one of the wealthiest group owners. But Adams, who is looking to spend some \$19 million for KJET-AM/KZOK-FM, Seattle; KDKO-AM/KHII-FM, Denver; WBZN-FM, Milwaukee -- is having trouble getting the senior financing. Insiders say that the banks don't like iffy financial situations. The SRO stations being purchased are said to be operating in red ink -- that's why the banks are so reluctant. Adams may have to step up and personally guarantee the deal or walk away.

THE JAG DEAL WILL HAPPEN SOON. Inside exclusive. Look for Morton Hamburg and John Gambling to get the full \$44 million, or slightly higher, that they are seeking for WFBR-AM/FM, Baltimore and WFOG-FM, Norfolk. In fact, Americom Media Brokers are almost saying, "Read our lips -- \$44 million." Here's some more inside information: Americom will then spin off WFOG-FM for the new buyer. The original sale and spinoff may happen simultaneously. The sale of the JAG group for the price Hamburg and Gambling want is seen as an impressive maneuver. It allows them to retire JAG's subordinated debt and re-enter the radio ownership market under more favorable conditions.

COSTLY BROKERS SURVEY NO ONE HEARD OF. It's a two-pager sent out by a company called MCL based in Los Angeles. Survey sheet had some 45 brokers listed and respondents were asked to grade the brokers they know. Additional comments were sought. Info about fee structure was requested. Then, once the survey was returned, those filling it out heard back in two weeks that, "The brokers survey is now ready." Cost varied from one to almost four thousand dollars. Still don't know who did it or why, except to make a profit. An inside joke among brokers is that anyone foolish enough to buy the "unknown" study, you don't want to hire anyway.

MORE SELLERS AND MORE RELUCTANT BUYERS. Trend watch. There is more equilibrium in the buyers/sellers market than in recent years. Here's the trend to note: A number of sellers are walking away from deals because the buyers are unwilling to press the prices. In other words, buyers are standing their ground and showing an unwillingness to budget. This makes it harder for brokers to drive up the asking price and maximize the transaction. Among the reasons for the change in attitude: 1) The slight rise in interest rates from nine percent to ten percent; 2) slower radio revenue growth through 1986-87 is forcing debt-heavy buyers to sit on the sidelines. If you're looking to sell, the market promises to be stable through 1989. Buyers think the prices will drop, but unless financing costs increase, they will remain the same. The present multiple is ten -- up from eight in 1985 when interest rates were higher.

RICK DEVLIN GETTING INTO OWNERSHIP. The former RKO radio executive is teaming up with Jon Ferrari to form Devlin and Ferrari. Look for them to purchase WJLK-AM/FM, Asbury Park, NJ for just over \$12 million. The seller is Press Broadcasting which is turning around and buying WBUD-AM/WKXW-FM, Trenton, NJ from Jerry Bresson's Fidelity for \$12 million. Includes a non-compete clause. Insiders say Devlin and Ferrari have their eye on more acquisitions. Texas may be next.

INSIDE INFORMATION. Look for Mike Joseph to unveil what he describes as "the revolutionizing of top 40 -- changing top 40 as we know it today." It will happen on WGY-FM, Schenectady during December.

NATIONAL PROGRAMMING IS RETURNING. First look at a developing trend. It looks like radio is beginning to break its preference for local programming in light of acceptance of satellite programming. In plain talk, two satellite networks (Transtar and SMN) controlling the network business. But you'll see their programming begin to change. More entertainment. Less reliance on "category" formats (an AC, a country, an MOR, etc.). Look for them to adopt a "superstation" approach. One big radio station with personalities, contests and promotions all in one. They won't be marketing just music or just formats. You'll also see them harping on ratings. They are going after them now more than ever before. These moves will change your options in the future. Resistance to current satellite-fed programs may break down more as "superstations" that really entertain become available.

## INSIDE RADIO (Continued)

**BUT NEWS NETWORKS WILL COME ON HARD TIMES.** The networks that face the biggest trouble ahead are ABC, CBS, NBC and Mutual. Less need for news in the judgement of station executives. When they run it, they want it to be local. National news networks are going to be a tough sell into the 1990s. Exceptions: Paul Harvey News which is distinct, in demand and desirable. You'll see more all-news stations cropping up by the early 1990s. Some on FM to service music listeners where they are already tuned. They are likely to be very successful but not before paying a price. News stations take a long time to be profitable and they are costly. But they are money machines once they're up and running.

**STATION SALES.** Ladco Communications selling KTOZ-FM, Springfield, MO to Sunburst II, Inc. for \$1 million. The station is upgrading from a Class A to a C2 -- an increase from 2,400 to 50,000 watts. Broker: Doyle Peterson Media Broker.

**MANAGEMENT.** KSL-AM, Salt Lake City Marketing Consultant Mark Crump appointed General manager of KDXU-AM/KZEZ-FM, St. George, UT. He replaces Bryce Phillip who is now general manager of KID-AM/KSIF-FM, Idaho Falls, ID. . . . WQHT-FM, New York General Sales Manager Judy Ellis promoted to station manager. . . . KFAC-AM/FM, Los Angeles Chairman of the Board and Chief Operating Officer Ed Argow exiting his post. Argow will join Group III Management on a project basis. . . . WTMI-FM, Miami Account Executive Sam Rosenblatt promoted to vice president and general manager of WFTL-AM, Fort Lauderdale. . . . WBLZ-FM, Cincinnati National Sales Manager David O'Donnell appointed vice president and general manager. . . . KJRB-AM/KEZE-FM, Spokane Sales Manager Jeff Johnson promoted to general manager of the stations. A replacement has not yet been named for the sales manager position.

**PROGRAMMING.** WXTZ-FM, Indianapolis Assistant Program Director Scott Apple named program director at WJIB-FM, Boston. WSWT-FM, Peoria, IL Program Director Steve Larson will be replacing Apple at WXTZ-FM. . . . Adult contemporary KOY-AM, Phoenix dropping its format in favor of Transtar's AM Only -- which features original hits of the 40s, 50s and 60s. . . . Easy listening WJYE-FM, Buffalo changing format to all vocal, soft music mix. . . . WRLT-AM/FM, Nashville switched from rock to Transtar's Format 41. New Program Director is Rick Allen, former WQQK-FM, Nashville music director. . . . KKMJ-FM, Austin air personality Jerry Miles named program director of KCHX-FM, Midland, TX. . . . WBLZ-FM, Cincinnati Promotions Director Terry Moore promoted to Operations Manager. . . . WILD-AM, Boston Program Director Elroy Smith appointed new program director at KMEZ-FM, Dallas.

**ONE THING MORE.** Have you picked up on radio's national trend? Not in business, in programming. Transtar and SMN are the strong networks today, not the news networks of ten years ago. Transtar is getting into more entertainment-oriented programming. SMN just surpassed 1,000 affiliates and launched its second "superstation" (oldies). We'll be tracking the significance of radio's willingness to embrace national programming compared to our previous resistance.

## THE GALLAGHER REPORT, 230 Park Avenue, New York, NY 10017... (212) 661-5000

**STEVE ROSS GETS DAY IN COURT.** Chief of \$3.4 billion (revenues) Warner Communications diversified media combine appeals New York State court ruling against Warner acquisition of beleaguered Lorimar-Telepictures Wednesday (November 23). Ross set to prove 1984 agreement between Warner, largest Warner shareholder & Chris-Craft Industries chief Herb Siegel intact (pact bars either party from ownership of broadcast properties outside joint holding company BHC). At issue: three tv stations owned by Lorimar. Properties placed in trust by Warner, Lorimar until sold. Include WPGH-TV (Pittsburgh) plus WSUR-TV, WLII-TV (Puerto Rico). Legal maneuver receives Federal Communications Commission approval. GR predicts 1) appeals court to rule in Warner favor; 2) deal to close by end of year. Meanwhile Lorimar syndication president Dick Robertson prepares talk show "Re-Union" for four-week broadcast on MCA Inc.'s New York metropolitan area tv station WWOR-TV beginning December 19. 30-minute program airs 11 p.m. Focuses on reuniting people (e.g., runaway children with parents, celebrities with people from past).

**ABC'S BRANDON TARTIKOFF DRAGS "DYNASTY" THROUGH SCHEDULING TRENCHES.** ABC Entertainment president turns 13-week commitment to prime time soap opera into season-long effort with aid of 30-hour mini-series "War And Remembrance," holiday specials plus delayed start of Fall 1988 broadcast schedule. Future of program on ABC in question as Stoddard okays mere 13-week flight. Show now in ninth season. Audience rating for season premiere down 22.4% to 12.8. Figure compares to 16.5 rating for 1987 season premiere. Rating decline represents minimum three million drop in home viewing. GR predicts Stoddard to pull plug on show before end of current broadcast season in effort to test audience reception of "Dynasty" replacement. Dramas in development include "Badlands 2005" (space age western), "Cyberforce" (story line revolves around hired "troubleshooters"), "Why On Earth" (alien studies earth, becomes emotionally involved).

**MARKETERS TURN TO HIGH SCHOOL SPORTS PROMOTIONS.** Due to oversaturation of promotions in professional sports field. Reebok International, Coca-Cola commit \$1.6 million over three years to support California Interscholastic Federation (CIF covers 3800 high school sports events in state). First Security Bank of Utah, Hardees, Utah Diary Commission make three-year pledge of \$650,000 to support Utah high school sports activities plus competitions in music, drama. U.S. Bank of Oregon finances Oregon High School Activities Association. California-based School Properties USA chief Don Baird currently negotiates deal between New York State Public High School Athletic Association, major marketers. Works on corporate sponsor programs in Illinois, New Jersey. Baird eager to develop system for national marketers to support competitions in network of seven-eight states to reach consumers at grassroots level. Expands efforts with move into school uniforms, sports products merchandising. E.g., organization markets CIF-Reebok clothing in 100 California retail outlets.

**1989 WATERSHED YEAR IN SUPERMARKET/MARKETER "WARS."** Look for Washington "witch hunt" into food industry regulation to pick up steam as relations deteriorate between supermarkets, packaged goods marketers. Power play by Winn-Dixie Stores, Kroger, Safeway to push "uniform pricing" strategy precipitates review of situation by Federal Trade Commission. FTC chairman Dan Oliver asks Bureau of Economics to probe slotting allowances. Upset as Philip Morris/Kraft merger sends shudders through supermarket ranks. E.g., potential \$10 billion cash flow from Philip Morris tobacco business over next five years able to "subsidize" Kraft push at retail level. Sen. Howard Metzenbaum (D-Ohio) schedules hearings in new Congress on impact of marketing mega-mergers on consumer prices. Added concern of lawmakers: limits to entry by new competition in high-stakes food marketing game.

THE GALLAGHER REPORT (Continued)

Supermarkets to emerge as major "ad medium" of 1990s. Look for stores to become focal point in marketing game plans to establish, nurture brand image. Kroger chairman Lyle Everingham takes bull by horns. Updates distributor image. Pushes "lifestyles" merchandising strategy. Expands deli sections to include prepared meals (customers receive wine recommendation to complement meals). Vons Grocery ceo Roger Strangeland positions Pavillion units as "food fashion" experts. Tracks consumer food trends. Establishes merchandising "laboratory" in 12-member Pavillion chain to test concepts prior to roll to 145 Vons outlets. GR predicts supermarkets to evolve into family "entertainment centers." E.g., information explosion (video kiosks, interactive communications) to fuel in-store product positioning. Marketers under pressure to tailor brand line-up with supermarkets to match creative "presentations" in stores. Ad agencies feel heat to gear radio, cable tv, newspaper ad messages to marketers' products offerings in grocery stores.

MARKETERS OF MONTH. Best Marketer. For November goes to Scott Paper chairman/ceo Phil Lippincott. For aggressive product development (Sofkins adult premoistened cloths), drive into commercial restroom market (In-Sight dispenser system) plus commitment to consumer research (leads to repackaging thrust). Strategy pays off as Scott registers 92% rise in nine-month 1988 net income to \$320 million. 52-year-old executive born Camden, N.J. 1957 graduate of Dartmouth with B.A. Received M.B.A. from Michigan State (1964). Joined Scott 1959. Moved up ranks to v-p planning (1971), v-p consumer products marketing (1971), corporate marketing v-p (1972), packaged products group executive v-p (1977). Assumed presidency 1980, ceo post 1980, chairman 1983. Worst Marketer. Designation goes to Reebok International founder/chairman/ceo Paul Fireman. For 1) failure to meet competitive surge by archrival Nike Inc. in \$4 billion athletic footwear market; 2) confusing "Reeboks let U.B.U." ad campaign developed by Chalt/Day. Company suffers 25% drop in third-quarter 1988 net to \$37 million. To post decline in full-year profit from \$165 million in 1987. 44-year-old Fireman attended Boston University. Left B.C. Recreation v-p sales/treasurer post 1979. Signed with U.K.-based J.W. Foster & Sons for U.S. distribution rights to Reebok footwear. Completed Reebok buyout 1984.

Pleasant Hill, CA 94523... (415) 680-1177

MICHAEL JACKSON: Michael Jackson's movie, "Moonwalker," will be out on video January 10th. CBS Music Video will release the 94 minute long feature with a \$24.98 price tag.

METALLICA: Metallica kicked off their first national headlining tour. They'll tour the midwest and west until Christmas; the east coast after the first of the year.

NEW KIDS ON THE BLOCK: New Kids On The Block are planning to be the opening act on the tour Tiffany will be doing in 1989.

KAREN CARPENTER: The movie about Karen Carpenter starring Richard Marx' girlfriend, Cynthia Gibb, will air January 1st on CBS.

KITARO: Kitaro will have a ten year compilation album out on December 10th, which will include two newly-recorded tracks. He's also the subject of a PBS documentary, which will air in January.

MICHAEL MC DONALD: Michael McDonald has recorded a duet with his wife, Amy Holland. It's an old Jimmy Webb song and they're currently looking for a recording contract. But McDonald says he doesn't want to become known as a "duet artist." "The song is always the main criterion for me," he says, "but you can only do so many (duets) without putting a strain on your relationship with your record label."

BANANARAMA: Bananarama is making plans for their first tour, which will bring them to America in February and back again next summer. So far, the only live shows Bananarama has done were in Japan.

VIXEN: Vixen will be the Scorpions' opening act on the six week European tour they're beginning on January 3rd. In late February, Vixen will do a headlining tour of Japan.

JOHNNY HATES JAZZ: Phil Thornalley is the new singer in Johnny Hates Jazz, replacing Clark Datchler. Thornalley, who just released his debut album on MCA, is really rejoining the line-up -- he was the trio's original singer.

TRACY CHAPMAN: Neil Diamond has recorded Tracy Chapman's "Baby Can I Hold You" for the new album he has coming out at the end of next month, "The Best Years Of Our Lives."

DON JOHNSON SAYS TV VISIBILITY SHOULDN'T BE HELD AGAINST HIM: Two years after his entry into the Top 40, Don Johnson is back with a hit duet, thanks to his collaboration with Barbra Streisand. Although Johnson would never attempt to deny that his singing partner may have some effect on the success of his current record, he's quick to point out that he's pursued music virtually all of his life. "A lot of people just assume I turned to music because of my visibility on TV," he says, "but what they don't realize is that I've struggled right along with everybody else, both musically and as an actor. And I don't think anyone would begrudge someone if they use what's available to them as a vent for their creative juices. On the contrary," he adds, "I would think that any artist worth his weight in salt is going to say, 'Yeah, right on, Dude. There's hope for me.' At least, that's the way I would look at it."

TEENS WATCH TWO HOURS OF VIDEOS EVERY DAY:

The American Academy of Pediatrics says teenagers are watching an average of two hours of rock music videos on television daily. With the exception of performance clips, the academy says 75 percent of videos are sexually suggestive and 56 percent are violent.

WINWOOD GUITARIST PLANNING CAREER MOVES:

Anthony Crawford, guitarist in Steve Winwood's band, says he's working on his debut solo album. Crawford, who has also played with Neil Young on two albums and at the Farm Aid concerts, will play again with Winwood in Japan in March. "And then, hopefully, at that time, I'll have my own career doing something," he says. He hasn't played on any of Winwood's albums, but he thinks that's in the future plans. "Being friends with him the last few months leads me to believe he and I will be friends for a long time," Crawford said. Crawford has been writing songs for some time and has one, "Soldier Of Love," on the Nitty Gritty Dirt Band album.

FLEETWOOD MAC TO START NEXT STUDIO LP IN JANUARY:

Fleetwood Mac plans to go back into the studio early in the new year to start work on the follow-up to their eight-million selling "Tango In The Night." It will be produced by Greg Ladanyi, who did the two new tracks on their just-released "Greatest Hits" package. Billy Burnette says as usual, one of the biggest problems will be choosing from a wealth of material. Lindsey Buckingham did not attend the meetings about the "Greatest Hits" album. But Burnette said other

## TERRY MARSHALL'S DAILY INSIDER (Continued)

members were in touch with him for his input. Sitting in on the meetings to decide what to include on the package, says Burnette, reminded him of last year when they were trying to pick hits to play in their set. Burnette says even with the 14 hits on the album, there were still some that had to be left off. They even had a lot of songs to choose from for the two new tracks and ended up recording two each from Stevie Nicks and Christine McVie. They all spent July and August in the studio working together on the four songs. Burnette says there will also be a video for the other new track, Stevie Nicks' "No Questions Asked," and he thinks it too will be released as a single.

**WILSONS WORKING SOLO BEFORE HEART REGROUPS IN FEBRUARY:** Ann and Nancy Wilson are both busy working on solo projects, but don't worry, they say they already have their Heart homework finished. Ann has recorded the first single from the film soundtrack to "Tequila Sunrise," a song called "Surrender." And Nancy is composing the theme for another movie, which is being written and directed by her husband, Cameron Crowe. That is entitled "Say Anything." Nancy is also working on her animated children's feature, "Dream Friends." Heart plans to be back in the studio in February. They have all the material ready to record and are aiming for a late spring release.

**PINK FLOYD ALBUM HEADS FOR DARK SIDE OF THE MOON:** A copy of Pink Floyd's new live album, "Delicate Sound Of Thunder," went into space with the crew of Soyuz 7, a joint French-Soviet space mission, which blasted off November 26th. One of the cosmonauts displayed the tape when asked at a news conference what they would be listening to while in space. Members of Pink Floyd were also invited to attend the Soviet launch.

**FOGERTY SAYS NEXT RECORD WILL SOUND LIKE CCR:** John Fogerty is heading back to the studio now that he has successfully defended himself against Fantasy Records' two million dollar copyright infringement lawsuit. No longer having to worry about plagiarizing himself, says Fogerty, will definitely have an effect on his music. After the trial, Fogerty went on a San Francisco radio station, which had been urging fans to show their support for him by turning out at the trial, and said his next album will be a return to the Creedence Clearwater Revival sound. Although it's apparently already half-finished, Fogerty says, "My next record is going to sound not just a little, but exactly like Creedence Clearwater Revival. Here we go again."

**ATTORNEY SAYS MELLENCAMP DECISION SETS A PRECEDENT:** A recent court decision that went against John Cougar Mellencamp is being applauded by music publishers as setting a new legal precedent. Mellencamp sued to regain control of his music publishing copyrights, claiming that the publisher had broken a trust or special relationship with him by not promoting his songs. But in ruling against Mellencamp, the judge stated that the law does not recognize any special relationship between artist and publisher, the way it does between an artist and a manager. Attorney Leonard Marks, who won the case for the singer's former manager, says the duty a publisher owes a writer was an open question in American law until the Mellencamp decision.

**CRENSHAW, HIMMELMAN FOR KERSHENBAUM BEFORE CHAPMAN:** Before returning to the studio at the end of February to begin work with Tracy Chapman on her second album, producer David Kershenbaum has a full agenda. At the moment, he's finishing the Pilgrims, two men and two women he compares to early Jefferson Airplane or the New Bohemians. After that, he'll do Island recording artist Peter Himmelman, then Marshall Crenshaw. Kershenbaum says he'll wait until after the Grammy Awards to decide what to do after Chapman.

## "OFF THE RECORD" AUTHOR PLANS SIMILAR COMEDY

**BOOK:** Joe Smith, the Capitol/EMI executive who wrote the new book, "Off The Record," says his publisher, Warner Books, has already accepted the idea for his next book -- an oral history of comedy. "Off The Record" contains 221 brief interviews with top musicians from the big band era to the present, and the comedy book would be similar. Smith says the only problem is having enough time to do it. "But," he says, referring to "Off The Record," "if this one's a success, I'll be pumped up."

## "WHAT I AM" REPRESENTS NEW BOHEMIANS, SAYS

**BRICKELL:** Edie Brickell says she wrote the New Bohemians' first hit, "What I Am," back in 1985 when Dallas was going through a "cosmic trend." "It just came off the top of my head, but it expressed my feelings at the time," she recalled, "because everyone wanted to know your beliefs, your sign -- all that stuff -- and it just got so heavy." But Brickell says the song also expresses what the band is about. She explains, "We don't lay any claims to any kind of style, personality or attitudes. It's just what we are at the time is what we're going to give. That may sound unfocused," she admitted, "but it's more real, life like." Tracy Chapman's producer, David Kershenbaum says the band's debut album, "Shooting Rubberbands At The Stars," is his current favorite.

## SURVIVOR DIDN'T HAVE A STAR IN MIND FOR "SHE'S A STAR":

**A STAR:** The next song released from Survivor's latest album will be Franke Sullivan's favorite, "She's A Star." Sullivan says the song wasn't written with anyone in particular in mind, but "that one chick you have the vibe for, carries that certain thing. There's always one person who's a little bit special, and we chose to call that special girl a star," he said. Survivor has no plans to do a video for the song, but they are planning to tour after the first of the year.

## BON JOVI PART OF HISTORY MAKING PRIME TIME TV

**SPECIAL:** "Free To Be...A Family" will make history as the first prime time entertainment special ever co-produced by the United States and the Soviet Union when it airs December 14th on ABC. It will also mark the first time Jon Bon Jovi has performed on network TV. Hosting the show in the United States is Mario Thomas, accompanied by guest stars Bon Jovi, Whoopi Goldberg, Robin Williams, Carly Simon, Lily Tomlin, Penn and Teller, and Kermit The Frog. A Soviet television personality will be the host in the U.S.S.R. The program, which will also be broadcast nationally in the Soviet Union, links kids and performers from the Hard Rock Cafe in New York with a studio in Russia via satellite. The special features two groups of kids -- forty each from New York and Moscow -- who have been exchanging pen pal letters, photos and souvenirs for the past year. The kids in each country have chosen favorite places and performers to show each other. Bon Jovi's performance will be for a Soviet boy, who was already such a Bon Jovi fan that he sent a tape of the New Jersey group along with his first pen pal letter.

## SHY FOX USES HER OWN COMPOSITIONS FOR 'B'

**SIDES:** Samantha Fox recorded three songs each with six producers for her new album, "I Wanna Have Some Fun," then put two songs from each one on the album. Full Force, who did "I Wanna Have Some Fun" with her, also did "Next To Me." Stock, Aitken and Waterman, who produced a re-make of Dusty Springfield's "I Only Wanna Be With You," which is slated to be the second single, also did "You Started Something." Fox tried her hand at writing for the first time on this, her third album, but she only included one of her compositions, "Confession." She plans to use the rest as 'B' sides on her singles. "I wrote five songs," Fox explains, "but I didn't want to go mad my first time. I didn't want these critics thinking,

**TERRY MARSHALL'S DAILY INSIDER (Continued)**

'Aw, typical, now she's writin' and she stuck 'em all on the album.' It's just a start for me. I just wanted to see people's reaction to the songs I've done."

**SEVEN YEAR OLD TOM RUTHERFORD IN MIKE +**

**MECHANICS VIDEO:** Mike And The Mechanics have shot a video for the song, "Living Years," in England. Mike Rutherford and Brian Robertson wrote the song after both their fathers died and Angie Rutherford gave birth to a baby boy. "It's a funny feeling of generations passing," says Rutherford, "one goes and one arrives." Rutherford cast his seven year old son Tom in the clip. "Without being a ham, I hope, I'm trying to put across this feeling of generations," he explains. Rutherford says he doesn't want to be self-indulgent, he wants to be genuine. He says, "If you're going to have people not acting out as much as putting across these feelings of a father and son relationship, I would feel odd about having actors or extras doing it." Rutherford expects "Living Years" to be the second single from the Mike And The Mechanics album both in the U.S. and England.

**FLEETWOOD MAC:** Billy Burnette, who wrote Gregg Allman's latest hit, "Can't Get Over You," has written and recorded a song, "How Far Can You Go, How Long Will You Last?," for the new movie "Homer And Eddie," starring Whoopi Goldberg and James Belushi. It will be out in 1989.

**SHERIFF SUCCESS WON'T SPOIL FROZEN GHOST SAYS**

**HASSEL:** Frozen Ghost members Wolf Hassel and Arnold Lanni say they wouldn't consider returning to Sheriff even if "When I'm With You" becomes a big hit. "I think that would be like being married five times and getting back with wife no. 1," says Wolf Hassel. He adds that they won't even add the song to Frozen Ghost's set, even though it was written by Lanni. Frozen Ghost has been touring for four months in support of their second album, and are currently opening shows for Honeymoon Suite in Eastern Canada. Hassel says the only effect "When I'm With You" will have on them now is a financial one. Says Hassel, "When Arn wrote the song in 1982, we thought it was a really good song. We all sort of knew that at some point in time, something was going to happen with the song, so we aren't really shocked that something's happened with it. It's just one of those things where you sit back, kind of look at it, and go, 'This is fairly interesting, isn't it?'" Hassel says they haven't been in touch with Fred Curci, who sings the song, in several years. Meanwhile, Frozen Ghost has just completed a second video from their album for the song "Pauper In Paradise."

**MARC ALMOND:** Marc Almond, ex of Soft Cell, who has just released a new solo album, will shoot a video in Las Vegas with Gene Pitney. On Almond's new album, Pitney, remembered for such 60's hits as "Town Without Pity," duets with the English singer on one of his old songs, "Something's Gotten Hold Of My Heart." While in the U.S., Almond will also film a clip for the title cut, "The Stars We Are," in Los Angeles.

**EXPENSE, TIMING CAUSED "MOONWALKER" TO**

**STUMBLE:** Michael Jackson's feature film, "Moonwalker," was turned down by major studios for theatrical release because Jackson and his manager were asking too much money for it, and because both current rock movies have turned out to be box office flops. Studio sources said adding the costs of prints and advertising to the \$8 to \$10 million Jackson wanted for U.S. rights to the film would make a box office profit difficult to achieve. Things might have been different if the two current music films in release, "Imagine: John Lennon," and U2's "Rattle And Hum," hadn't been box office disappointments. After an encouraging opening for a rock film, the box office on the U2 film plunged more than 60 percent the second

week, giving it a gross of less than \$8 million. An executive at Lorimar, which made the Jackson film, said it was "hard to understand" the decision not to release the film on the big screen, especially since it had to be enjoyed with Dolby sound to be appreciated.

**BILLY IDOL PREPARING FOR FIRST ACOUSTIC SET OF**

**CAREER:** Billy Idol will perform the first acoustic set of his career at a benefit in Oakland, California for a suburban San Francisco school for the handicapped. Idol said he accepted the date for the Bridge School because he views doing an acoustic set as a challenge. He'll debut a new song from his upcoming album, "Prodigal Son Blues," plus "Sweet Sixteen" from the "Whiplash Smile" album, and go all the way back to his Generation X days for a third song, "The Untouchable." Idol is sharing the bill with Tracy Chapman, Tom Petty and other stars at the Oakland Coliseum.

## **R. Knox, 74, disc jockey in Phila.**

Robert B. Knox Sr., 74, a radio disc jockey known to thousands of early Philadelphia-area rock and rollers as "the Galloping Gray Ghost," died Friday at the Hospital of the University of Pennsylvania.

Mr. Knox worked in radio most of his life, skipping college to work first as a sports announcer then a disc jockey for the big-band hits of the 1940s. In the early 1950s, however, the airways lit up with songs from Bill Haley and the Comets, Fats Domino and Elvis Presley, and Knox made a shift toward the new sounds.

"He was one of the first at the time to play rock and roll in Philadelphia," said his son, Robert Jr.

Thousands of teenagers tuned their radios to WIBG-AM to hear what Mr. Knox had to play. His immense popularity — along with his prematurely gray hair — earned him his colorful moniker.

The younger Knox said he remembered his father arriving home with boxes of 45s to play for him and his two sisters, as a way of finding out which songs were going to be hits. As a rule, however, Mr. Knox preferred Nat King Cole to rock and roll.

The younger Knox said he also remembered how popular his father was at the time among his classmates in Upper Darby, where the family lived.

"I was in seventh heaven in school," he said.

Mr. Knox's association with rock music came to an end in the early 1960s, when Beatlemania swept in a new generation of disc jockeys. He packed up his turntable and switched to news broadcasting, and eventually became director of the station's broadcast standards.

He quit the radio business when the station closed in the early 1970s, and became executive secretary of the Chestnut Street Businessman's Association, from which he retired in 1979.

He is survived by his wife, Margaret Yager Knox; his son, Robert Jr.; two daughters, Susan Rigby and Marilyn Laughlin, and five grandchildren.

Services will be private.

TALENT TIPS: "Ego" -- by Jay Trachman... "He'd do okay here, if only his ego didn't keep getting in the way." If you're like me, you've heard that a few times in your life, and once in awhile, about yourself. You're probably aware that people with weak, rather than strong, egos tend to become performers. (The ones with the strong egos become salesmen.) There was a fascinating article about strong and weak egos in The New York Times last week which I think is worth sharing because it offers some good insights to the performer's mind... It was about a conference on "narcissism" at Boston's Mass. General Hospital. I find the term a little extreme, but they were talking about what I call "strong" versus "weak" egos. Here's what Dr. Paul Ornstein of the U. of Cincinnati says: "Self-esteem depends on how well-developed your sense of self is. We're all exceedingly protective to the extent we feel vulnerable." Hitting home? The great psychiatrist Alfred Adler said: "The deeply narcissistic person feels incomplete, and uses other people to feel whole." Anyone we know?

The Times says "Up to a point, narcissism can help a person be more successful and happy, but in more extreme cases it causes serious problems in relationships and careers." Ever have any of those? Then they display a chart comparing "healthy" versus "unhealthy" narcissism. I'd think of it as "strong ego" versus "weak," but you'll find plenty in here that's familiar...

**Healthy:** Appreciates praise, but does not live for it.  
**Unhealthy:** Has an insatiable craving for adulation. Needs praise to feel momentarily good about self.

**Healthy:** May be hurt by criticism, but the feeling passes.  
**Unhealthy:** Is enraged or crushed by criticism, and then broods for long periods.

**Healthy:** Feels unhappy but not worthless after a failure.  
**Unhealthy:** Failure sets off feelings of shame and worthlessness.

**Healthy:** Feels "special" or especially talented to a degree.  
**Unhealthy:** Feels superior to everyone else, and demands recognition for that superiority.

**Healthy:** Feels good about himself, even if others criticize.  
**Unhealthy:** Reacts to the hurts and injuries of life with depression or rage.

**Healthy:** Self-esteem is steady in the face of rejection, disapproval or attacks. **Unhealthy:** Reacts to rejection, disapproval or attacks with sharp rage or deep depression.

**Healthy:** Does not feel hurt if no special treatment is given. **Unhealthy:** Feels entitled to special treatment, that ordinary rules do not apply.

**Healthy:** Is sensitive to the feelings of others. **Unhealthy:** Is exploitative and insensitive to what others need or feel.

If some of your responses fall into that "unhealthy" category, what can you do about it? Remarkably enough, the article doesn't say, so you'll have to settle for my own thoughts on the matter. First of all, the only that we've achieved so far is to stick a label on human responses; "healthy," "unhealthy." The dumbest thing I could do is point to the "unhealthy" ones and say, "Don't be like that!" That's about as helpful as saying, "Just be yourself!" The truth is, I'm not sure that is any "cure," in the ordinary sense. No one ever cured me of those naughty characteristics. And yet, I'm not that way today (at least, not most of the time).

Another thing: while discussions and charts tend to focus on extremes, because it's easier to illustrate things in black and white, most performers I know are not at the ends of the spectrum; they're somewhere in between...like me: secure in some areas; terribly insecure in others; comfortable in some situations, and terrified in others. Giving in some, protective in others. From my memory of my own growth, I'm not sure how I managed to change; only that, with the passage of years, I have grown more

secure, far more comfortable with myself than I used to be. If there's some process by which you can "cure" the unhealthy narcissist, I don't know of it. The passage of time did it for me, as it probably will for you, too. I only have one suggestion here: when people give you compliments, listen to what they say. Try to be open to the knowledge that at least some people like, not just what you're doing, but who you are.

FEMALE PERSPECTIVE: "Keeping Ourselves Necessary"-- by Barbara M. Richardson, Ft. Wayne, IN... I think a lot about the things that make a station and a person a success. And since I work hard at being a professional, I'm sometimes amazed by people who don't seem to know the meaning of the word. I think it means handling yourself in a professional manner, making sure all the little details are taken care of, that there are no foul-ups, and that whatever is being presented is done correctly. For instance, our big "Majic At Midnight" promotion is coming up. Talk about details! There's a band, decorations, the hall, the tickets, the promos on-air, the fliers to the community, the door prizes, etc. People are going to be spending \$100 a couple to attend; it had better be worth every cent and more, because the success of that night will not only carry with it impressions of who we are, but also make or break the event next year.

How does one make sure a promotion is going to run smoothly and professionally? Try to think of everything that could possibly go wrong. Is there enough food? Enough promotional materials? Enough staff members to help out? How do you handle people who might be upset over something? A contact person? After doing this for three years in a row, we have a fair idea of what to expect and what to cover. After each promotion we always hold a "recap" meeting to discuss problems: what could be better; what went well? What should be done the next year? I believe these meetings are really what lead to the continuing success of the event. We learn from our mistakes, and by discussing and examining them afterward, we can prevent these and others from happening again. I urge you to meet with your people after events and discuss what happened, in order to learn.

I think another key to the success of a station is having no "internal" competition. This is sometimes easier said than done. It also has to do with the kind of personalities hired by the company. I am a fairly competitive person but I know that competing against the people I work with hurts them and me, because it hurts the station as a whole. For instance, I work with another woman who does morning traffic and the midday shift. I've written about Becky before. When people meet me they often call me "Becky" instead of "Barb." This doesn't bother me; we are all on the same team. I'm sure that some people who play with Joe Montana may get tired of the publicity he gets (that they don't), but it doesn't affect their performance on the field. Compete against someone who's striving for the same goal as you? It comes across on the air in your attitude toward that person and it can only hurt.

One other key point in being successful and professional is being on top of things locally. From raising money to buying police cars to saving the local National Weather Service office, if there's a cause, a public service event or something to be involved in, "Majic" is there. I get so frustrated and mad when we miss something. Like recently, the Mickey's Birthday Party at Walt Disney World. Fort Wayne was invited to send ten kids and the mayor down for the party. And we started working just a week and a half earlier to try and get our "Majic Man" down there to broadcast live. By the time I got through

## ONE TO ONE (Continued)

to the right person, all the media lines had been spoken for. We couldn't get press air fare. We had known about Mickey's Birthday for months. We should have started on the event long ago to make it work. Well -- nobody's perfect.

Staying one step ahead is what lets you beat the competition. For instance, we assumed that George Bush was going to win the election. We arranged for our Majic Man On The Street to be in Huntington (home of the Vice President-elect) the day after the election. Majic Mark sounded great, and by thinking ahead we were able to be very topical that morning. This is the kind of stuff that causes water cooler talk; the kind of involvement that has people calling us to be at their event or involved in some way. It's the thing that will keep satellite network stations from becoming market leaders here. It's what will keep our jobs a necessity. Got any other ideas for becoming a success? I'd like to hear from you.

**ARTIST PROFILE: IVAN NEVILLE**...He has long been recognized as an important "up & comer"; Ivan played bass on the Rolling Stones' "Dirty Work" LP and was also a guest performer on Robbie Robertson's recent work. He has been a member of Bonnie Raitt's band and at one time was part of Rufus. Heavy credits for a young man perhaps, but his formidable chops are the evolutionary extension of a rich musical heritage. He grew up surrounded by the New Orleans music of his father and uncles. (Father Aaron's Crescent City lineage extends from his first national exposure with the 1967 hit, "Tell It Like It Is", through his current role in the Neville Brothers' Band.) Ivan's earliest memories are of attending recording sessions. "I think I realized the tradition that surrounded me," he says, "but it wasn't like I paid any special attention to it...I was more into grasping everything and absorbing it. Which is good, because that way I wasn't overpowered by it."

Ivan received his first instrument at age ten, an electric guitar. "I ended up playing bass lines on it, doing songs by Sly Stone and The Jacksons. Then I just left it alone. When I was 15, I decided I wanted to play piano -- Mom's piano. She had gone to grade school with the late, great jazz player James Booker. So every now and then, Booker would pop up at the house, playing everything from Boogie Woogie to Beethoven." Around that time Ivan won a city-wide talent contest. "I'll never forget, the band for that show was The Creators, which included Branford and Wynton Marsalis. I played the piano by myself, and right before I went on I walked into the side mirror of a truck and cut my eye. When I went out on stage I was bleeding real bad." After stints with his own local bands and as keyboard player with the world-renowned Neville Brothers, Ivan moved to California. Hired to play with Rufus, he also made time to find his own voice. "I really started writing then," Ivan remembers. "I found a rehearsal hall called The Alley, and I even lived there for awhile. It wasn't like I went in there planning to make a record; I was just writing because that's what I do."

**PROMOTIONS:** FROM: JOE HANLON, CJLB, Thunder Bay, Ont. -- "Meet The Stars"...CJLB has teamed up with a local concert promoter to give listeners a chance to meet Big Name Talent. Whenever an act is appearing in town, we tie in by giving away their albums, cassettes, tee shirts, and tickets to the show. We then draw from all the "winners" of our hourly contests and give away a "complete concert package," including all of the above, plus a complete cassette library of the stars' albums, autographed pictures, and a backstage visit and photo session with the artist. The city's new Community Auditorium is rated as one of the best concert halls in North America and is helping to lure good acts to perform here. CJLB's deal with the promoter gives him reduced advertising rates in exchange for the cassettes, tickets

and tee shirts. He arranges the backstage visits and we get a sign in the lobby during each performance that reads, "CJLB Welcomes You To Tonight's Performance." We also get to provide an emcee to open each show.

"Papa Piccolino's Christmas Is For Kids"...A pizza chain sets up donation boxes in each of their stores and listeners are encouraged to drop off an unwrapped gift or have the pizza delivery man bring the gift back to the store. One week before Christmas, the CJLB staff along with the pizza employees distributes the gifts to all hospital children's wards. (Don't forget the special hospitals for youngsters with severe handicaps.) Call the hospitals a few days ahead of time and they'll tell you how many kids are there and what would be a good time for a visit. We take along Santa and two "helpers" and set up in the hallway. Then the kids can come up and sit on his knee; Santa goes in and visits any kids who can't leave their rooms. We bring a tape deck with Christmas music, and sing along with a few songs -- music is one thing all kids love. I always end up dropping off a box of leftover gifts at a children's treatment center, so they get a slew of new toys every Christmas, courtesy of CJLB and Papa Piccolino's Pizzas. (Thanks to our Canadian Contributing Editor for a couple of good, adaptable ideas. More holiday stuff... A Boston station teamed up with a local discount store and the Celtics to bring toys to area children. During half-time at a game, six lucky children chosen from entry blanks had two minutes to fill a wagon with toys -- the "haul" was more than \$6000. Toys not gathered by the contestants were donated to Toys For Tots. A Canadian station sponsored a "Christmas Dream", inviting listeners to purchase a new toy for Christmas and leave it under the Christmas tree at the station. They turned over nearly a thousand new toys to local needy children. And, many stations find Christmas Wish promotions effective, where they invite kids and parents to send in a card stating what they'd really like to receive for Christmas. The station selects various winners and gives away things ranging from stuffed animals for tiny tots, to cars for their parents. - Ed.)

PETER CETERA: Peter again worked with Patrick Leonard to come up with "Best Of Times" from his Full Moon (Warners) album "One More Story"...Peter says he had "The Best Of Times" as an empty song title rolling around in his head a long time before he finally figured out how to make a song out of it...When Peter and Patrick put down their pens, they rush over to the recording controls -- the pair produced the new album together...Also making the rounds to some (AOR) stations: "You Never Listen To Me." Listen close: that album cut features David Gilmour on guitar...Peter's little black book of sizzlin' singers is pretty up-to-date. His new album's lady friends -- that is, guest artists -- include Siedah Garrett, Bonnie Raitt and Madonna...credited as "Lulu Smith of Scheherazade" (as she was known in her former life?)...He's all solo now, but Peter Cetera was once pretty much the "voice" of Chicago, from the very beginning through album Roman Numeral XVII (or 17 to you Arabic numeral diehards)...To be precisely honest, Peter didn't actually join Chicago (then the Chicago Transit Authority) until two months after the band was formed. Same year, though: 1969...Quick Trivia Quiz: Where was this former lead singer of the band Chicago actually born? Answer: No trick question here. Peter was born in Chicago...His very first solo single? "Glory Of Love," the theme from "The Karate Kid Part II." Right to #1, by the way...His very second solo single? With a little heavenly help from Gospel singer Amy Grant, Peter promptly went to #1 again with "The Next Time I Fall"...Real Peter Cetera fans have a copy of his first attempt at a solo album. It was 8 or 9 years ago, while the band was in a slump and not paying too much attention. Check the used record stores for this giveaway album title: "Peter Cetera"...Peter turned 44 this past September 13th (b: 1944). He swears that the accordion was THE instrument cool dudes played when he was a kid, and THAT's why he chose it for his first musical instrument...Chicago area moms & dads may remember a semi-famous local band from the early 60's called The Exceptions. That was Peter's high school band -- a pretty hot group that even recorded a couple of records...

CHEAP TRICK: "Ghost Town" is the latest single from the guys' 12th album in 11 years, "Lap Of Luxury"...Robin Zander is the main vocal man of the foursome. Rick Nielsen gets most of the writing tasks accomplished. Bun E. Carlos and Tom Petersson help with the stage gear (just kidding!)...Their most recent single, "Don't Be Cruel," wound up becoming the first and only re-make of an Elvis hit to break the Top 10 (it went to #4). Plus, it was the first Elvis song to show up at the top end of the charts since 1972. When Elvis did it his own self. With "Burning Love." Mother -- and Epic -- Knows Best: Guitarist Rick Nielsen says he hated "The Flame" when he first heard the demo. But the band was at a low point in their career and had to put the somewhat mellow tune on their album. Ta-da! Cheap Trick's very first bona fide #1 hit...QQ (Singer Robin Zander on "The Flame"): "Let's put it this way. I don't jump up and down while I'm doing it [on stage], but I enjoy it. It grows on you. Sort of like mold grows on bread." Back in the early Cheap Trick days, around 1976, the band gained their first big following outside of their native Chicago in far-away Los Angeles. "Live At Budokan," in 1979, thrust them into the rock 'n' roll big leagues...Rick Nielsen says a band asked him to produce their next (and now current) album a while back, but he'd never heard of them. It was Poison...Bass man Tom Petersson just barely caught the train: he had dropped out of Cheap Trick several years ago to try a solo career and didn't re-join until just before they started recording "Lap Of Luxury"...Rick Nielsen believes music fans, especially kids, are fickle. Eventually, it's a matter of, "Oh, it's Cheap Trick. We've heard of them already." But he insists the band will persevere regardless, thanks to their motto (and we quote): "Hard work and clean living." Their First Visual: The Cheap Trick logo was designed by an old fan from back in Kenosha, Wisconsin -- Christopher Crowe. He got his dad -- who was in advertising -- to help out with the graphic work. Chris went on to write a lot of "The Rockford Files" and today directs and produces movies...Last we heard, Rick Nielsen's guitar collection had been cut down to a mere 125 or so. He says he had to do it: It was becoming an obsession!

FOUR TOPS w/ARETHA FRANKLIN: "If Ever A Love There Was" is a rare duet between Four Tops lead singer Levi Stubbs and The First Lady of Soul. Plus, as a bonus, a Kenny G. sax solo! All this to kick off the Tops' debut Arista album, "Indestructible"...The Tops' first album for Clive Davis and Arista is filled with admiring collaborators, including Phil Collins on one song and Huey Lewis on another...The Four Tops are: Levi Stubbs, Abdul "Duke" Fakir, Renaldo "Obie" Benson and Lawrence Payton. And they have been for over three decades...The guys met at a high school party in 1954 and joined forces under the name The Four Aims...They signed with Chess Records in 1956 and released their first tune as The Four Tops. Five labels and 8 years later they hit it big with Motown and "Baby I Need Your Lovin'" (1964)...Don't the Tops tire of singing 20-something-year-old songs like "Reach Out?" "We grew up in Detroit," says Levi Stubbs, "and in Detroit you sang, everybody sang." The guys say that they rarely get on each other's nerves and never consider quitting. Besides, says Duke Fakir, "Our wives wouldn't let us. Our children wouldn't let us." Aretha recently re-recorded her classic song "Think" with revised lyrics -- and a new video. It's part of her involvement with the "Don't Drive With Drugs or Drinks" message...Aretha's latest recording from Motown (the city, that is)? She does this year's version of the theme song to NBC's "A Different World." Bill Cosby co-wrote that tune, by the way...Apart from her appearance with the Tops on this single, a Gospel album released earlier this year may be Aretha's last for Arista Records. Something about her needing a seven-figure minimum per album these days. (Now that's r-e-s-p-e-c-t!)

INSIDE STUFF: There definitely was a "Sixties Vibe" floating around the magnificent Cathedral of Saint John The Divine in Manhattan last week (11/26), as a score of heavies came together for a benefit performance for New York's homeless. Sponsored by Seva, known for its crusade against blindness worldwide, the festivities lasted for more than four hours and featured David Crosby, Graham Nash, Laurie Anderson, and Mickey Hart as well as special efforts by Carly Simon and Paul Simon. The music was exceptional as were the noble efforts which spawned the event...Dark Side of the Kremlin Dept.: Talk about a public relations coup! Who would figure the heroic cosmonauts would go vitually ga-ga for Pink Floyd's just-out "Delicate Sound Of Thunder". It's the group's back pages, live, courtesy of Columbia. The spacemen did, however, and as a result, both Nick Mason and David Gilmour, were offered a treat no Westerner could ever hope for. The Floyd founding-fathers were whisked to Baykonur where they observed the U.S.S.R.'s recent space launch in persona from a VIP reviewing stand, no less. They witnessed the November 26th blastoff in awed silence, and then were given a chance to see other interesting places. The Cosmonauts can't seem to take one day of weightlessness without the Floyd. Here's the latest. We expect the spaced-out spacemen to actually drop the disc off to their comrades when they rendezvous at the Soviet's MIR space station. The Fox Network special, "A Rock 'n' Roll Christmas" airs on Sunday, December 11th during prime time. Dennis ("Saturday Night Live") Miller will be the host and Christmas classics will be performed by Pat Benatar, Little Richard, Eddie Money and the Fabulous Thunderbirds. The fanatically meticulous, Malcolm ("This Is Elvis") Leo, promises a very rare clip if Jimi Hendrix doing "Little Drummer Boy", plus footage of Elvis Presley singing, "Blue Christmas."

1988 WAS A BANNER YEAR FOR ROY ORBISON with a cable special, a Greatest Hits record, the TRAVELING WILBURY'S, and a successful tour. The new year looks promising, too, as Orbison's long awaited solo album of new material will be available come February, via Virgin. This as yet untitled album carries on the Wilbury tradition with helping hands

lent by JEFF LYNNE and TOM PETTY. Lynne is co-writing and producing the album while Tom is playing guitar. Also joining Roy are HEARTBREAKERS BENMONT TENCH (keyboards), HOWIE EPSTEIN (bass) and MIKE CAMPBELL, who plays guitar and produced a number of tracks. Other special appearances on the record include BONO, of U2, on "SHE'S A MYSTERY," which he and Roy co-wrote. Orbison's son, WESLEY, also contributed material, as did bassist T-BONE WOLK (most recently with HALL & OATES), songwriter WILL JENNINGS (STEVE WINWOOD) and producer T-BONE BURNETT. With this talented line-up, is it any wonder people are anxious?

"ROCK ROCK ROCK" IS THE TENTATIVE TITLE FOR A COMPILATION ALBUM, due from Warner Bros, featuring songs from the 50's performed by modern artists. Among those appearing on the LP: ELTON JOHN (who performs "I'M READY"), MICHAEL MC DONALD (who does "FOR YOUR PRECIOUS LOVE") and CHAKA KHAN, among others. This diverse collection of artists and songs is produced by RICHARD PERRY and will be available in the early part of the new year.

WE RECENTLY TOLD YOU ABOUT THE MOTLEY CRUE ALBUM due from Elektra in January. It now appears that the release date has been pushed back until spring. Producer BRUCE FAIRBAIRN (BON JOVI, AEROSMITH) is taking the band to Vancouver's Little Mountain Sound Studios in January to record more songs. Ten songs are already completed, including the title track "TOO HOT TO HANDLE," as well as the Crue's version of the BEACH BOYS' "CALIFORNIA GIRLS." Motley Crue will tour Europe first in order to make up dates they had to cancel last year. Upon completion they will tackle the U.S.

SPEAKING OF MOTLEY CRUE (remember VINCE NEAL'S drunken driving episode that took the life of HANOI ROCKS' drummer RAZZLE?) Well, Hanoi Rocks will have a "Best Of" package on shelves later this month that contains 15 tracks and a color booklet. An update on the remaining members of the new defunct band: vocalist MICHAEL MONROE is working on a solo album for Phonogram in New York, ANDY MC KAY is now part of IGGY POP'S band, SAM YAFFA is now with JETBOY and NASTY SUICIDE is in Los Angeles trying to get a band together.

FLEETWOOD MAC'S GREATEST HITS has just hit record stores everywhere, and some of you may have been disappointed to see that the song "SILVER SPRINGS" wasn't included in the package. Well, there's a very good reason for that. STEVIE NICKS, who penned the much sought after 'B' side of the "GO YOUR OWN WAY" single, is planning to include a new version of the song on her forthcoming solo album due in the new year.

SOME ASSORTED PROJECTS FROM SOME ASSORTED ARTISTS TO LOOK FORWARD TO NEXT YEAR: DAVE STEWART is working with ETTA JAMES on a film titled "ROOFTOPS." STING will be in front of the cameras once again, this time in a picture focusing on the 50's founder of the Sandinistas, called SANDINO. And finally, ISAAC HAYES is working on the soundtrack to the film "I'M GONNA GIT YOU SUCKA." They'll be lining up to see this one.

WE MENTIONED T-BONE BURNETT EARLIER. Well, he is currently producing blues great WILLIE DIXON'S new album titled "HIDDEN CHARMS." The 73 year old Dixon is also writing his autobiography, "I AM THE BLUES," to be published next year.

FOR THOSE OF YOU WHO MISSED ITS THEATRICAL RELEASE, you can see it on video: "THE DECLINE OF WESTERN CIVILIZATION PART II: THE METAL YEARS." Scheduled to be released February 23, this in-depth look at the heavy metal scene features interview, performance and lifestyle footage from MEGADETH, OZZY OSBOURNE, MOTORHEAD, AEROSMITH, KISS, POISON, LIZZY BORDEN and FASTER PUSSYCAT, to name a few. This bizarre slice of life was directed by PENELOPE SPHEERIS and is available through RCA/Columbia Pictures Home Video and retails for \$89.95.

## CONGRATULATIONS

Congratulations to RICHARD PALMESE on being elevated to Executive VP/GM at MCA Records. He joined MCA 5 years ago from Arista. He will oversee day-to-day operations in addition to his duties heading marketing and promotion. Ray and I have known Richard many, many years - from the time he first entered the industry. He is one of the best guys and best record men ever to enter the business.
