**Van Halen, "Black And Blue", WB....** No doubt, there are at least four hundred bands in this land who do a pretty good Van Halen cover. Any bar, any Saturday night. There are also a number of groups that even manage to crank out original material that sounds like it could be the fourteenth cut on a thirteen cut album. The bottom line here--as noted by **Rad's** front page remarks--is that your listeners know, even if they're listening to a car radio through a cracked window half way down the block. Even without the "Monsters Of Rock" tour generating heretofore unexplored anticipation levels, "Black And Blue" would still be a rock and roll event of the highest order. As for the song itself, Eddie's playing has never been a better blend of tech and melody, and with the warm weather coming on that lascivious lyric is just perfect. Should be their biggest hit after "Jump".

**Bruce Hornsby & The Range, "Scenes From The Southside", RCA....** Any chartwatcher has to be amazed by the one week action here. It's on virtually every reporting station--with 120 of them listing Heavy to Power play. We tally up 57 play ups in all, with 35 going medium to heavy--and six jamming it Medium to Power. As **KZEL's Al Scott** sez, "We are seeing huge audience reaction and we moved him up in to heavy where we all know the man belongs". World class stats accelerate the single 8-2\*, with #1 status just a spin away for next week. Also note the 6\* Most Requested debut--26 deep in top 5 mentions. There simply aren't more than a dozen records a year that get this big this quick. And obviously all of the above should spell major audience depth demands to you. They want lots of tracks, lots of times. "Look Out Any Window" is the automatic, "Defender Of The Flag" works beautifully as your formatic exclusive--and for spice, treat 'em to the legit version of "Jacob's Ladder". Easily the new standard for brilliant follow up albums.

**John Cafferty and The Beaver Brown Band, "Song And Dance", Scotti Bros....**

From the second drum beat about three seconds into that harpsichord intro, it's readily apparent that John hasn't lost his flair for those quick-set hooks. When you're doing that basic moon-spoon-june approach, the key is to get their attention early on and keep it. And when you've got a riff that rips 'em up--like the chorus in this baby--there's no reason not to jam it to the max. Granted, there's nothin' fancy here, but between his demonstrated sales appeal and a sound you have to be sure of by now, this is close to no risk. Think of it as the musical equivalent of a woman in a bar after five drinks. Your five drinks, that is.

## RECORD OF THE WEEK

**Rod Stewart, "Lost In You", WB....** "I think a lot of people underestimate the value of a rocking Rod Stewart tune" comments **WIOT's Jim Steel**, continuing "This one shows that he still has what it takes to make it to the top".... Actually, we'd say that realization is loud and clear to most of our reporters, as 112 stations gladly come across with first week adds, giving Rod one of his best blastoffs in quite a while--along with a 21\* debut. **KGON's Inessa York** hears "All the right things and that great Andy Taylor touch. I like it!".... From **Stacy Yelton, WKQQ**, "The guitar work is great, nice backup from the Power station and it's something that AOR can deal with--and there's nothing better than good, solid Rod". From **WKFM's Brian Illes**, "I'm sure I'm not the only AOR programmer who viewed the Stewart with at least some trepidation, but surprise, surprise, this is a rock and roll song that we can all play".

## NEW PLAY PRIORITIES

**Paul Carrack, "Double It Up", Chrysalis....** Rock radio asks and rock radio gets. Now that Paul has proven he's one of the few balladeers (or at least mid-tempo guys) with the chops to penetrate the top 10, this should be an automatic. With album sales now approaching 250,000 and all the unbelievable press, we're talking a talent whose time has clearly come. "Double" is undoubtedly the album's hardest rocker--and with the likes of **KSHE, WNEW** and **WNOR** already having played the record, what are you waiting for?

**Jimmy Barnes, "Too Much Ain't Enough Love", Geffen....** As big fans of Jimmy's, dating back to his Cold Chisel days, we're here to tell you he's a guy who could sing the want ads and win. His debut Geffen project 18 months ago put a major dent in playlists once "Working Class Man" cycled into lead cut status--and we don't have to tell you what "Good Times" with **INXS** did for his rep. Now, what he needs to leap tall buildings at this point in his career, is a big hit ballad. Kind of a variation on the "Dock Of The Bay" scenario. He's got the pipes and he's got the promotion--and his best shot yet at across the board acceptance.

**Brian Setzer, "Live Nude Guitars", EMI/Manhattan....** Who us, proud? Though we love Brian's album, we have absolutely no problem further hyping the single with the occasion of the "official" album release. And this week we have plenty of nice comments and even nicer stats to talk about. **'PDH's Pam Brooks** says "This track exposes this stray cat at his strongest in years". **KOAS' Mike Gardner** notes, "I think that it's one of the strongest things he's ever done. Some good rock with country influences".... And here's that research monster **John Lassman** at **KQRS**, "At first the image was a bit scary, but a hit is a hit and this should be a monster".... From **Stephen Page** at **KOME**, "The Stray Cats meet the Eurythmics and the result is another glaring example of masterful production".... Please be aware of the excellent 28 station add week--as well as ups from **KXRX, WGIR, WHEB** and **WVVV**. 61-45\*.

**Sinead O'Connor, "Jerusalem", Chrysalis....** Even if her album weren't approaching 350,000 the show I saw last week at LA's Wilton Theater would still have me back for another front page shot. What can you say, except that the woman takes huge chances and wins--and having seen her live I wish we had been even more bullish on "Mandinka". Be advised that "People" will be coming with a major article--and considering the high percentage phones "Mandinka" pulled, this is one follow up where the gains are well worth the stylistic risks.

**King's X, "King", Megaforce/Atlantic....** "What sounds like Grand Funk meets Thin Lizzy?", asks **WKWQ's Ron Marsh**. And the answer resides conveniently at the top of this writeup! Actually, King's X sounds a lot more like Grand Funk than anyone else--and (correct us if we're wrong) but isn't that the only "hit" seventies sound that hasn't recycled? And the song is really quite interesting. Be impressed with the **KLOS** add--not to mention new air on **WKWQ, WAPL, KXBR, KQWB, and KOZZ**. Need more? Already on **KLOL, KJJO, KRXQ, KSQY, KZOQ, WBAB, WDHA, WFYV, WKLC** and a dozen more.

**T Bone Burnett, "The Wild Truth", Col....** Sooner or later T Bone is going to come up with that million dollar "Money For Nothing" level riff--but in the meantime we're quite sure his miscellaneous playing/producing work is keeping him quite comfortable, thank you very much. No kidding, "The Wild Truth" is another of his patented riffaramas el supremo, complete with the man's signature layered guitars and typically up to date twisted lyrics. It's not the hit we know he has in him--but for killer image and texture it's spot-on nonetheless.

**Melissa Etheridge, "Similar Features", Island....** If you have half an ear, one listen should confirm the fact that this lady has real singing talent. A second careful listen will confirm her writing skills as well. If ever there was a perfect "other woman" track, this is it. In fact, the ever escalating divorce rate might well make this the ultimate upper demo female appeal track. As well as the more passive females like Tracy Chapman are doing, this is one rock poetess who definitely deserves serious-plus consideration.

**Noiseworks, "No Lies", Col....** Whatever you thought of the leadoff track, we urge you to plunge headlong into "No Lies" with nothing but hit expectations. Everyone in this office--from Dawn to Chris to Trapp to the Beaveman and Venetia--is totally turned on by this tune's very direct rhythm and almost indirect tease of a hook. In direct contrast to T-Bone, it's music you don't have to think too much to understand, so let that mind of yours roll on while test driving it on a long straight road.

## IMPACT TRACKS

**Robin Trower, "Tear It Up", Atlantic....** Two very strong leadoff weeks power Trower into our third longest 52-30\* HH move--with a total of 91 now playing, 15 of them heavy. KLOS, KQRS, WCMF, WHJY and WPLR are among 9 increases, and WRXK, WQFM, WHJY, KSJO, KOME and KILO pace the early heavy play reports. KQRS' John Lassman notes, "Just about every guy I know over the age of 25 knows Robin Trower--and knows this song works".... KJOT's Carl Scheider adds, "Davey Pattison is so strong and the standard Trower licks make it a great combo with a fantastic hook".... Brian Illes, WKFM, adds, "The new album should continue to lift his career, picking up where the last one left off. This could be another in the line of great comebacks that started last year".... From WIZN's Tom Van Sant, "The Trower is a natural for us and the audience is clamoring for more".

**Henry Lee Summer, "Darlin' Danielle Don't", CBS Assoc....** As WGLF's Will Douglass says, "This one has a big future, with tons of crossover potential at CHR and AC".... In terms of momentum--as defined by airplay, requests, sales and multi-format penetration, this is probably the most deserving second track on the street. It's new this week on 25, with WONE, WTUE, WVVV, WZEW and WZZQ increasing play and WTUE, WFYV, WRXK, WPLR and KTYD among the early heavies. Also note the 63-43\* advance, one of this week's longest Hard Hundred underlines.

**Graham Parker, "(Get Started) Start A Fire", RCA....** Give this subtle beauty a chance--and it'll get you. As KGON's Inessa York notes, "It's my #1 personal favorite. It's very very subliminal. With all kinds of cute little things going on. I'm just flabbergasted".... From WEQX's Ernie James, "It's Graham and it takes a few listens. But it does grow on you and after that you'll love it".... WWWV's Dave Cowan agrees, "It's gonna take some people numerous listens but it's my favorite add this week. The music and the lyrics will work on you".... KFUM's Dave Ross calls it "An all daypart song with great vocals. It cruises right along. Not a boring second in this one".... Finally, WVVV's Butch Lazorchak comments, "Graham has some of the most brilliant wordplay I've heard in a while. It just reads so well. From day one his stuff has been important and he has just needed a break--and this sounds like it".... Out of the box on 24 stations--including KBCO, WDHA, WLAV, WNEW, DC101, KLBK, KZOQ and WBRU. Debut 88\* HH.

**Y Kant Tori Read, "The Big Picture", Atlantic....** We'll allow you might hear, say, five percent more twitch to the instrumental bed than you might like. But don't let those subliminal at best dance/pop overtones throw you off the scent. Tori has a terrific woman/child delivery--in the Kate Bush school--and some of the most intelligent and unusual lyrics we've come across lately. Most of all, you have to respect her assertive, confident--and well sung vocals. She simply sounds like the kind of lady any smart person would like to spend time with--your audience included.

**Hurricane, "I'm On To You", Enigma....** We're back for another front page shot this week--based on several very interesting developments. First, howabout instant Top 5 phones at WHJY and KJJO? And top 10 response at KUPD? You've got to be impressed by new air on KLOS and KISS, too. Pam Newman also filled us in on the almost forty position Billboard chart move. Granted, it's early, but based on all of the above, it looks to us like that "Na Na Na" chorus could be closing in on a big future.

**John Kilzer, "Red Blue Jeans", Geffen....** Take a one listen hook and whattya get? How 'bout 69 adds after only three weeks, with 25 new believers and ups at WKLS, WHEB and KSQY bringing home a strong 69-46\* gain. KBPI's John Edwards reports, "Very good initial reaction with John. We feel very comfortable with it".... KQRS' John Lassman calls it a "Rockabilly rave up with one hell of a hook".... From WHEB's Scott Laudani, "Kilzer has a great sound that has done a lot in a very short time. Sort of sounds like a rocking Jackson Browne".... WQFM's Downstairs Dan hears "Straightforward stuff with a catchy hook and a great melody", and KEZO's Joe Blood seconds, "We listened to a lot of music, and out of everything on our turntable, this was the song with the best hook".... Already a top 5 phone item at WDVE--and that's a great place to start.

**Eric Clapton, "After Midnight", Polygram....** Next to the Hornsby, EC's the hottest thing on the street. After all, 37 increases and 86 heavies don't lie. And can you believe the early calls! 19 top 5 reports bring in an 8\* debut, representing one of the quickest starting phone records this year. What looks like an easy #1 record moves 13-6\* this week, with action now on 154 reporters. KEZO's Joe Blood has the cool move for the 40+ stations still stuck in medium, "to get a jump on our CHR competition, we've accelerated our play into Heavy".

**Joan Jett, "I Hate Myself For Loving You", CBS Assoc....** They love her where she lives--as WNEW's Lorraine Caruso updates, "Joan is off to a great start in her hometown with heavy rotation and a tie with Cheap Trick for #1 requests".... Actually, the Northeast in general looks good on the phones, with WDHA, WPDH, WEQX, WWZU all on the Top 5 list. KATP's Jim Kelly says, "Joanie baby proves herself again. She's still one of the best female rockers we've got".... From WXRC's Jon Austin, "We put it up on Rock Wars and got great response. Our feeling is that the audience will grow to love it".... WRQK's Greg Morrison seconds, "Her old stuff went over big in the past and this has an anthem type feel and a better hook than her other material".... WEQX's Ernie James adds, "This is JJ country. People go crazy over her and this is as strong as she has ever been".... The Hard Hundred has "Hate" on the go 64-47\*, thanks to 25 adds, 65 to date, and ups from WBCN, KSQY, KFMG, WHEB and WKWQ.

## “HOLD ON TO LOVE”

### **Rad Messick, WDIZ**

“While he’s doing a 360 with the mike and clicking his heels, just remember the guy’s progressive rock image is so strong he could probably cover ‘Copa Cabana’ and get away with it!”

### **Karen A. Small, WGIR**

“One spin was enough to make sure this one wound up on the air where it belongs.”

### **Tom Van Sant, WIZN**

“This song has HIT written all over it and with Yes’ recent crossover success, ‘Hold On To Love’ deserves all our consideration.”

**53\* Hard Hundred**

**58\* R&R Tracks**

**Iron Maiden, "Can I Play With Madness", Capitol....** The "rock radio breakthrough" predictions continue to come to life--as another excellent add week takes Maiden to another formatic high water mark. It's up 68-52\*, with 18 adds, ups at KJJO and KNAC, and Top 5 phones at KBPI, KNAC, KSJO, WOUR, WYNF and WKWQ. Also playing on KAZY, KISS, KISW, KOME, KRXQ, WBCN, WDHA, WHCN, WHJY and WNEW--with a grand total of 56 stations to date.

**AC/DC, "That's The Way I Wanna Rock And Roll", Atlantic....** Lots of play-ups to talk about this week--including WHJY, KFMG, KJJO, KLBK, KSQY, WBLM, WCCC, WDHA and WXRC. More solid adds to report, too--with KBPI, KMOD, WAQX, WIMZ, WTUE, WLZR and KAZY among 12 just in. We also like the heavy rotation list, too--with WRXK, WQFM, WLLZ, WHJY, WHCN, WBCN, KISS and KSJO up front. Naturally, there's a Hard Hundred move to match, 45-37\*.

**John Cougar Mellencamp, "Rooty Toot Toot", Mercury....** The new single scoops up another 26--which nearly doubles the current count to 56--and awards JCM this week's longest 78-48\* advance. Take your cue from the stations already listing it heavy: WDVE, WEBN, WKDF, WNEW, DC101. From WIZN's Tom Van Sant, "It stands on its own as an excellent song. It's a great AOR track. A solid rock tune, not that obligatory CHR extra point song".

**Pink Floyd, "Dogs Of War", Columbia....** The second hottest ticket in the land pays big dividends once again--as the forty-second single from the album rolls up another 23 adds and a 75\* debut to match. It's in regular rotation at 40 reporting stations, including KDKB, KGB-FM, KLAQ, KMOD, KXRK, KYYS, KZAP, WDVE, WHJY, WLAV, WLLZ and WNEW--with WBCN, WFYV, KTXQ and KILO listing heavy play.

**Vinnie Vincent Invasion, "Ashes To Ashes", Chrysalis....** Room is tight--but you'll notice the likes of KUPD, WLLZ, WYNF, WIMZ, WHJY and KISS all made room for the Vinman. Obviously they know what a well oiled machine this project is. Between a 200K initial order, coverage in virtually every guitar oriented periodical and even a special advance to Vinnie's Fan club, it sure looks to us like every special interest base is covered.

**Poison, "Nothin' But A Good Time", Enigma/Capitol....** The request readout looks better all the time--with WYNF, WTUE, WHCN, WBLM, WAAF, KRXQ, KNAC, KLOL, KEZO and KDJK at the top of the list. We're looking at 23 adds this week--including KYYS, WDVE, WEGR, WKLS, KICT, KSJO and WAQX, with an equally healthy slate of increases: 14 total, including KISS, WBCN, WCCC, WHCN, WHJY and WTPA. Comments: Mike Stewart, WIMZ, "It's a smash, there's no doubt. I wanted to add it the first time I heard it, and I'm not a fan".... Ron Marsh, WKWQ, "Poison was the Most Requested song on our All Request show--and we weren't even playing the damn thing! We are now".... And from KFMX's Jon McGann, "We've never played them before, but the last record sold great with no airplay, and we figured that even though targeted toward a younger audience it is accessible for everyone who has to put in a day's work for a day's pay".... 49-35\* on the Hundred.

**Ziggy Marley, "Tomorrow People", Virgin....** "Ziggy is top 5 retail in this market" says WBLM's Robin Mathieu, "And he's getting tremendously positive phone response. He moves to heavy after just two weeks. There's no more reason to hesitate with what we feel will be a multi format smash that's already reacting at retail".... From WRUF's Brian Jordan, "I can't believe the reaction. We just put the song on for a test and it has already nabbed top 5 phones on testing alone!".... Joe Skare, KFMQ, "I've never been a reggae fan, but I like this Ziggy song a lot. 'Tomorrow People' is a cool fresh breeze, a complement to a warm summer afternoon".... The Zigster pulls in 20 more adds, to push his station total to 67--and the 75-49\* underline comes up via 12 increases and 12 heavies.

**Timbuk 3, "Reverend Jack & His Roamin' Cadillac Church", IRS....** WRFX's Mary London advises, "Any morning team in the world that's not using this song should be. It's especially perfect for Charlotte, which is Jim and Tammy country".... From KGON's Inessa York, "Jeez, what an album. This record really woke me up to what a talented duo they are. I don't know where I was on the last album".... WKQQ's Stacy Yelton calls them "The standup comedians of music. They get their point across with a lot of levity".... This week's 15 adds make it 87 now playing--with ups from KBCO, KOZZ, KVRE, WDHA, WMAD, WONE and 6 more factoring to a 48-39\* move.

## ALBUM PLAY PRIORITIES

**Robbie Robertson, "Somewhere Down The Crazy River", Geffen....** How would you describe this record? Well, the usually silent Mark Davis at KDJK says, "It's incredibly haunting, to say the least".... Those words are being echoed by most everyone who's playing it. "Great reaction record" is another phrase being used by WBLM's Robin Mathieu, "Not many songs get 25+ listeners, male and female alike, calling to hear it. This one does and it's #2 most requested".... KZAP, KISW, WHMD, WPDH and KLAQ were among the 12 new adds this week. So was WIOT, where Jim Steel adds, "This one has proven itself in our new music show and it's a very popular female request item".... "Crazy River" also got 13 play increases from the likes of KLOS, KOME, WGIR, WIZN and WKFM. So the Robbie saga keeps rolling along. 26\* this week.

**Aerosmith, "Magic Touch", Geffen....** Here they come again. With a jump of 85 to 65\* on this weeks Hundred, the boys from Beantown appear to have another hot one on their hands. KRQR, WONE, KATP, WQMF and KFMH were among the 16 adds this week, giving them the 5th biggest chart move. The station total is now up to 38 with KBPI, WLLZ, KILO, WHCN, KISS and WAAF on the roster. With the track record these guys have set with 'Permanent Vacation', this one should be a natural. With CHR and MTV burning "Angel" for all it's worth, it's time to pop "Magic" before your Top 40 competition has time to. Or better yet, play it before your AOR rival can beat you to the punch. Better still, sneak it on while the PD is out to lunch.

**BoDeans, "Pick Up The Pieces", Slash/Reprise....** Okay, listen closely to the call letters we're about to give you: KSHE, WLLZ, KLOS, KBCO, WGIR, WRIF and KATP, all among 50 reporters playing this song. Needless to say if they can spin this catchy little platter, there's no reason why you can't. So please don't be telling your Reprise Rep, "There's so much traffic out there, I can't find any room", or, "God, my appendix is about to burst, I have to go to the hospital".... All they might say is, "Hey I've heard that one before".... So make sure to give this tune some more spins in your music meetings. You know the first two tracks worked, and you should have faith this one will too. Comprendo muchachos y muchachas? Si.

*On Tour with Heart!*

**66\* Hard Hundred**

**57\* R&R Tracks**

**The Alarm, "Rescue Me", I.R.S....** You felt the "Rain In The Summertime" and then frolicked in their "Presence Of Love" and now we can hear you yell "Rescue Me"! Well, the only way this Irish foursome can do that is for you to add the song. And please take the 83\* showing this week as a sign of things to come. Who's on the song you ask? WMMR, KISS, WBCN, KPOI, WBAB, WRCN and KFMM, just part of the early 26. Now, if this track were a cover of the Aretha Franklin hit of the same name we could understand a little hesitation. But please be assured we're talking all original material here--and a track record that practically demands play.

**Robert Plant, "Ship Of Fools", Es Paranza/Atlantic....** His reign at the top spot on the Hundred is over. But in the distance we can see yet another challenger forthcoming. As if Dennis Conner was at the helm, this ship's sails are set full, a strong wind at its back and a crew fit and ready for battle as any. Let's face it, I've been watching too much Masterpiece Theater. 131 stations are currently on board, WLLZ, WNEW, KOME, CFOX, KATT, KRXQ, WRCN, KBPI, WZEW, KRQR, WTUE and WGIR are among the 59 stations guiding the rudder and playing it in Heavy or better. All a song needs is a star to navigate by and stations to give it rotation increases. That's enough to make any skipper happy. This week Captain Plant is at 16\* on the HH. Then there was the strawberry incident....

**Dokken, "Heaven Sent", Elektra....** I just got off the phone with Don. He said if this song goes to #1, he'll shave his head. Wow! I had no idea Don Knotts was such a fan! With this album nearing double platinum, the "Monsters Of Rock" tour about to start and the band's cute factor about to peak, now's the time to get on this song. 53 stations are on "Heaven" with KNAC, KOME, WQFM, KMOD and KQWB playing it Heavy or better. Just remember, if this one goes all the way, that "Return To Mayberry" sequel will have a bald Barney Fife. What a frightening thought.

**HARD ACTS TO FOLLOW...**

**Tracy Chapman, "Fast Car", Elektra....** Is this the "Luka" success story revisited? It certainly looks that way to us. WIZN's Tom Van Sant says, "A major success story is brewing here, with album sales debuting ahead of Clapton, Sting, George Harrison and Pink Floyd. She is one of our hottest request items, too".... John Cooper, WPYX, "We are receiving call after call from inquiring listeners. Overwhelming positive response puts it in the top 5 of the week".... Dave Cowan, WWWV, "Retail can't keep it in the stores. By far the top selling new Lp".... Doug Clifton, KBCO, "The TC story continues to be quite impressive. She's top phones for the third week and her retail debut is in the top 5".... and from WNEW's Lorraine Caruso, "It's amazing how the same trend is starting to happen with Tracy as it happened with 10,000 Maniacs. 'Fast Car' is picking up momentum every time it's played".... That momentum is reflected in this week's 65-62\* advance, with two adds, 9 ups, and 53 total stations.

**Joanna Dean, "Kiss This", Polydor....** "It's one of the biggest songs of the spring", says KATP's Jim Kelly, "One you can dedicate to anybody. Requests are coming in from all ages".... They're also coming in from some very unexpected places, "One call even came in from the staff at a doctor's office" relates WKDF's David Hall, "It's the biggest reaction record I've come across lately, tons of calls in all dayparts".... WLLZ, KNAC, KISS and KMOD lead a pack of 31 stations already on, with a new add this week from WBCN. It also made a sizable jump on the Hundred 88-80\*. May be the springboard it needs to get more airplay. "Kiss This" is one of those records that gets people talking. A typical conversation would be, "Did you hear that song?" The next thing they want to know is where they heard it. Word of mouth advertising, what a concept. My feelings (and probably a lot of others) about her may be summed up best by KEZE's Curt Cartier, "I want to party with Joanna Dean."

**Soul Asylum, "Sometime To Return", A&M....** Full speed ahead, this one has definitely made an impression. Check out of the box action at WLLZ and WBCN. How often do those guys do that for a new band? Not all that often. With its straight ahead, pull no punches, 90 MPH backbeat, you can't help but get off your buns and dance. It already has a strong Alternative base, but that shouldn't scare you away. This is music that can be dealt with by any mainstream station. If you're a little hesitant, you can always try to get reaction the old fashioned way--with an on-air test.

**James Reyne, "Fall Of Rome", Capitol....** My only question is, "What's taking so long?".... James has been sitting there on the shelf when he should be on the air. This rockin' little ditty has the potential to knock your listeners' socks off, but it's not getting the chance. WRIF, KBPI, KMOD, WTPA, KZOQ and WGIR are part of the 43 stations spinning this Aussie delight. Sure, some folks say, "He sounds like Billy Idol".... Funny, but the last time I checked Billy was a pretty popular guy. Test it, and we think you'll be pleasantly surprised. Currently basking at 73\* on the Hard Hundred.

**Ya Ya, "When The World Cried", Atco....** Have you listened to the lyrics? Not another gory tale of death and violence, but the story of one man's senseless destruction. There have been many songs written about the death of John Lennon and of how he touched so many lives. Adding to that library must have been a tough task, knowing that this event is still a significant bring-down to most people, in spite of the nine years that have past. Most of all, this tribute is perfectly timed with the Hollywood Boulevard Walk of Fame story. WLLZ came out of the box on it, along with 4 others.

**Only Child, "I Believe In You", Rampage/Rhino....** Don't let this little number pass you by. Straight ahead rock with strong vocals. KFMM's Jeff Ivan was heard to say, "Killer track from a very hot sounding band. In fact, I had a couple of calls from people thinking it was the new Van Halen".... New adds are KMOD, WBAB, WCCC, WRUF and WYNF. The guitar intro may have that Bon Jovi feel to it, but these guys appear to have what it takes.

**Divinyl's, "Back To The Wall", Chrysalis....** If I was going to put together a band and was looking for the most unique female vocal sound in the world, I would look no further than Christina Amphlett. Her style is nothing short of perfection. No one, and I mean no one, has her style, sound or seduction. 46 fans have come aboard with WBCN, KDJK, WZEW, KATT, WRCN, KBCO, WDHA, KISS, KFMX and WFYV among them. **WKQQ** just added it, **Stacy Yelton** says, "I've been trying to get it on for weeks, she's got the best voice going out there".... **WIZN's Tom Van Sant** confesses, "I always smile inside when her sneer goes out over the airwaves. A great band not to be overlooked".... If you're looking for a song with that one of a kind sound, here it is. 76\* on the HH.

### **Living Colour, "Middle Man", Epic....**

"Everybody is excited about it", cries **KOAS's Mike Gardner**, "A guitar record with a tad more soul and depth to it".... That opinion is shared by everybody here at the office, where it has quickly become our #1 most requested song. **Curt Cartier** at **KEZE** puts it this way, "Vernon Reid is a certified wiz! Give it a listen if you're not banging it already".... **WNEW's Lorraine Caruso** knows, "It's hip, happening and sounds great on the air. Vernon Reid's guitar licks are incredible".... Along with **NEW, WLLZ** and **KLOS** are jamming to the hottest new group to come out of New York in quite some time. Don't let this song become an "office favorite". Let your listeners in on the fun. It debuts this week at 99\* on the Hundred. **KFMH's Phil Maicke** gets the final word, "The future of rock is in Living Colour".

**Thomas Dolby, "Airhead", EMI/Man....** Alright all you Dolby fans, time to come out of the closet. Not since "Blinded Me With Science" or "Europa and the Pirate Twins" has Thomas struck such a nerve. After one listen you should be hooked with this song's quirky beat and down to the bone lyrics. Are we talking another anthem song? Could be. I'm sure we all know someone described by these lyrics, "She'd like to model or maybe act, or start a magazine, before she signs any big contracts, she better learn to read".... It's subject matter not touched on much anymore, but you know, it's about time. As expected, the musicianship is impeccable with Larry Treadwell laying down a respectable guitar solo at the end. If you haven't seen the video yet, it's a classic. At this time it's on **KROQ** and **WBCN** plus 10 more. Time to reintroduce this man to the masses. This one could do it. Not too funky, not too sweet--I think it's just right.

### **Robert Tepper, "The Unforgiven", Scotti Bros....**

(Read like the bodybuilders on Saturday Night Live) Listen to me now but hear me three seconds from now. I'm here to **PUMP**... this song up. Maybe you didn't notice, but Robert's song debuted this week on the Hard Hundred at 94\*. When they say Hard, are they talking about muscles? They should be, because this song has all the strength to be on your playlist. After a few spins on the air it will **PUMP**... your audience up. So listen to me now, but hear me last week, when you should have added the record. **WRIF** is on this song, that's muscle, you know that? So don't neglect this happening tune, like most of you neglect your bodies. Put it on the air, believe me it will **PUMP**... your station up!!!

## **CHARTSTARS**

**George Harrison, "This Is Love", Dark Horse/WB....** Isn't it great to check in on the Top 30 and see so many familiar names? Why there's Robert, Eric, Neil and now Rod. But the man who's been around the longest is still pumping for the top. With a healthy 8 slot trot this week, George has climbed to 17\* on the chart. **CFOX, KDJK, WRDU, KZAP** and **KMBY** lead a group of 15 new adds this week. **WLUP, KSHE, WMMR, KISS, WNEW, KISW, WLLZ, WDVE, WWDC** and **WRCN** are among the 49 reporters giving it Heavy or better spins. So even though the young whipper-snappers (compared to George) may be dominating the charts, the old boy still has a trick or two up his musical sleeve. Remember it's the quiet ones that you have to look out for.

### **Kings Of The Sun, "Serpentine", RCA....**

"This song will remind you that true rock and roll can make you shake your butt!", shouts **KDXR's Mark Zeiger**. Well if you shake that or any other portion of your anatomy, this is the track to do the trick. And if you just want to stand there and look, we have noticed the ladies in our office are consistently drawn to the 25" when the video hits MTV. In the words of Mister Rogers, "Can you say, smash? Sure, I knew you could".... **Stephen Page** at **KOME** also says a lot, "These guys are gonna be the next Humble Pie! It's full of great hooks and has that great rock sound. It goes right down the middle of that great rock and roll highway".... With 134 on it and only 25 in heavy or better, a landslide of play increases will make this Top 10, easy. **KLOS** added it this week to go with **KATT, WNEW, WRIF, KSJO, KGB, WBCN, KISW, WPYX, KISS, WLLZ, KRXQ, WVVV** and **KKDJ** who are already helping it slither up the chart to 19\* this week.

**Yngwie Malmsteen, "Heaven Tonight", Polydor....** Yngwie must be getting a nosebleed, seeing that he has never travelled to these heights on the chart before--24\* this week and with more adds and play increases. Hell, he may have to invest in a box of Kleenex at this rate. But believe me, he can live with the pain to get the gain. No doubt the addition of Joe Lynn Turner has helped, and one listen will tell you this Swede's axe-attack has never been better. **KBPI's John Edwards** agrees, "The Yngwie is testing very well, it's no surprise with Joe Lynn's front work".... "He's coming on strong in sales and requests", says **WRFY's Mary London**, "Now in our Top 5 and very quickly showing Top 30 sales".... 117 stations are on this one with only 15 in Heavy or better. Talk about massive growth potential. The time to invest is now, with Joe's female appeal and Yngwie's massive and growing following.

### **Glass Tiger, "I'm Still Searching", EMI/Manhattan....**

The accolades keep rolling in on this band's sophomore effort. "We're moving it in to Heavy this week", proclaims **KZEL's Al Scott**, "This is a band that works well for our audience".... So true Mr. Scott, 145 reporters are on it with 9 new adds, including **KLOS**. When it came to rotation increases this week it received the 5th largest play-up total, with **KGB, WPYX, KOME, WRKI, WGIR, KSJO, WAQX** and **KTXQ** in a field of 25. That brings the total number of stations dishing out these Canuck rockers in Heavy or better to 72. **Mike Stewart** at **WIMZ** comments, "Research is coming back Top 10. That's why we moved it to Power, especially with the CHR's in town adding it".... Good point, America got their first taste of this band when AOR played "Don't Forget Me". So don't let your Top 40 competition steal these guys away.... again. Currently 13\* on the HH.

### **Jon Anderson, "Hold On To Love", Columbia....**

How excited do your listeners get when they hear of a new Yes project? Well, this guy is the voice of the group and it's OK with us if you tell them this is a new Yes cut! Only kidding. But we do think his patented vocal style will do nothing but enrich your air sound with class. Now you're probably saying, "Yea, it'll bring in the females, but what about the guys?".... Listen to **WGLF's Will Douglass**, "The vocals are great and we have gotten far more positive male phone response than we expected".... **WMMR, KATT, WNEW, KMOD, WGIR, WHCN, WLLZ** and **WPDH** are among the 57 stations on board at the moment. But we're positive that the number will grow by leaps and bounds in the coming weeks. 53\* on this week's Hundred.

**Treat Her Right, "I Think She Likes Me", RCA....** Who said AOR isn't breaking new acts? Give us a band worthy of serious support and it's easy. These guys are a prime example. Programmers and listeners have taken to THR like T.V. preachers to your checkbook. **Harve Alan at WAAF** can back me up on that statement, "These guys are not only selling but requesting very high. This band is breaking right in front of our eyes".... This week #9 Most Requested. 21 play increases on such stations as KGB, WLUP, KBCO, WHCN, WBAB and WDHA helped the song jump from 23 to 18\*. **WHEB** also gave the boys a play increase where **Scott Laudani** relates, "This band is finally getting the recognition they deserve!".... With such enthusiasm on a project how can you go wrong? If you're not playing it, this might be the week to give more serious thought to Treat Her Right. The vibe I'm catching goes, "I think they like it, that's what I think".

**Rocky Hill, "I Won't Be Your Fool", Virgin....** Read a la Rod Steiger--Submitted for your approval.... You're sitting in a bar in Texas. Bored stiff, then a man appears on stage. Straps on a guitar and begins to play. As the volume rises, so do your spirits. By the time he hits the solo, you're dancing like there's no tomorrow. You've just entered, "The Boogie Zone".... A strange notion? I should say not. **Pam Brooks at WPDH** feels it, "It has just enough of that Texas bar band gumption and tons of talent".... Once again the subject of rotations comes to mind. Out of the 111 stations on the Rockman, only 5 have it in Heavy or better. So if Naumann calls you on Monday, you know what it's going to be about. Not that he has to pressure you. With the way this one is performing, moving it up should be no problem--especially if you want those Ziggy CD's. 28\* this week on the Hundred, with potential as big as The Lone Star State.

## TAKE TWO

**White Lion, "Tell Me", Atlantic....** Forget gold, this sucker's headed for platinum land. If you thought "Wait" was infectious, you ain't heard nothin' yet. When we caught their show in Philly last month, the SRO crowd went bonkers when they played this track. Now on the road opening for Aerosmith, more and more people are being mauled. **KOME, WAPL, KRXQ, WAAF, WLWQ and WDVE** lead the new pack of 11. While **WLLZ, KNAC, KBPI, KISS, WNEW, KDJK, WRCN, KGB, WHCN, KSJO, WTUE and WZEW** make up just some of the 95 total stations. The lead track is still a hot item on the MTV Top 10 most requested videos, but expect this one to take over were it leaves off. On the Album Chart, "Pride" is sitting at 21\*, while the track is continuing it's climb at 32\* on the Hard Hundred.

**Lita Ford, "Close My Eyes Forever", Dreamland/RCA....** You can't take your eyes off of her, but with this one, (like the opening track) the ears will follow. Proving once again that she's more than just a pretty face, Lita and Ozzy may well have a smash on their hands. "I predict this one will be one of our top request getters ever", states **KFMX's Jon McGann**. "When Ozzy's voice kicks in you have to stop everything to listen--and Lita's no slouch either".... **KILO, WHCN, KLOL, WBAB, KDJK, KFMX and WHEB** are among the 26 stations on it. The interesting thing here though, is that one-third of the stations playing this track are reporting Top 5 Phones. That's nothing to sneeze at. **KJOT's Carl Scheider** calls it, "A great song, in the same vein as Aerosmith's 'Angel'".... Quite a comparison, but true. A healthy leap of 9 spaces lands her at 82\* on this week's HH.

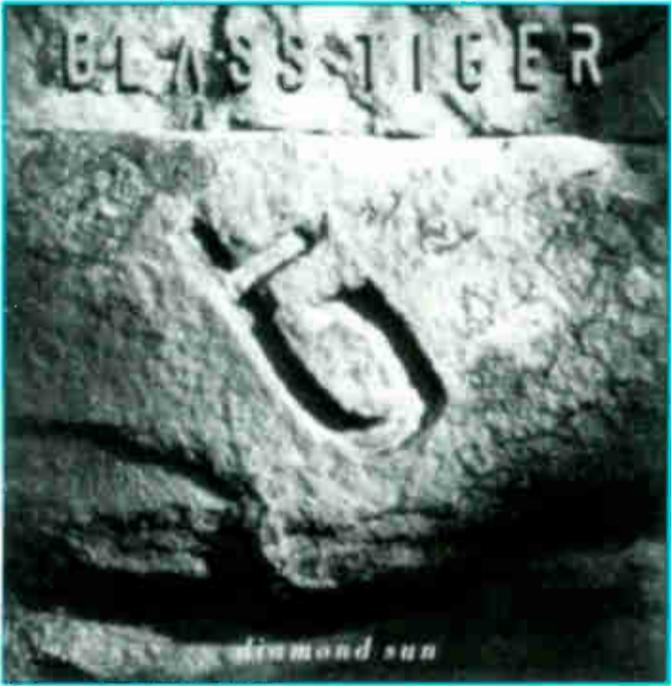

**Pat McLaughlin, "No Problem", Capitol....** A lot of people will soon be able to dig this man's music, now that he has sewn up the opening act honors on the first leg of the Hornsby tour. So if a Bruce date has been announced for your city, you may want to brush up on your Pat. His debut release is chock full of that New Orleans style blues that he's famous for. Some strong calls are behind him already, including **WLUP, KBCO, WRIF, KOZZ, KATT** and the new add this week at **WLLZ**. So give this talented singer/songwriter another chance. 92\* on this week's HH.

**Kingdom Come, "Living Out Of Touch", Polydor....** Following in the footsteps of "Get It On" is going to be tough, but this track has what it takes. With that driving guitar and Lenny Wolff's hot vocals, it's no wonder 93 reporters are in. **WLLZ, KISS, WNEW, KNAC, KBPI, KOME, WHCN, KATP, WNOR, WRIF, KAZY, WBAB, KTXQ and WDIZ** are in that number. **WCKW's Al Nassar** says, "This is what Robert Plant should be doing. This is high power, heavy duty rock".... Everything appears to be going right for these guys. They come out of the box like a lightning bolt and then get the opening slot on the "Monsters Of Rock" tour. Well, it's no fluke, the proof is on the vinyl, or CD'l, whatever it's called as they move to 29\* this week on the Hundred.

**Joe Satriani, "Surfing With The Alien", Relativity....** "This is one artist the audience is really hooking onto here", claims **WHEB's Scott Laudani**, "They're going nuts on this guy. He may need a clothes consultant, but when it comes to guitar playing he has it down pat".... **KGB, WBCN, KISS, KNAC, KOME and WHEB** all have it in Heavy, so does **WIZN**, where **Tom Van Sant** states, "All hail Joe Satriani! The Lp is #1 sales".... **KDJK, WXL, WKFM and KTXQ** are the four new adds this week bringing the station count to 79. Hot phones are sizzling sales seem to follow this man wherever he is being played. Take a look at the Most Requested list, #11 this week. Who said that AOR wouldn't go for instrumental music, what a load of whoooo. Currently **Hanging Ten** on the Hundred at 40\*.

**Neil Young & the Bluenotes, "This Notes For You", Reprise....** When Neil lays his cards down on the table, you know exactly what he means. Is it to obvious he doesn't dig the latest trend of musicians doing commercials? Reading thru the lyrics of the title track, ahhh, I'd say, yeah. "The only problem with the song", claims **KEZE's Curt Cartier**, "is that it's too short".... Whatever the length **KBCO, WMMR, KILO, WPDH, KKDJ and WPYX** are among the 31 stations digging it. It's currently at 72\* on the Hard Hundred. But let's not forget about the initial release. "Ten Men Workin'" is still in the Top 10 at 7\*. **David Hall at WKDF** can't get enough, "It puts me in a good groove. I still crank the radio when it comes on".... 172 reporters are doin' some cranking of their own right now. 96 are in Heavy or better rotation. The album is also high on the charts, sitting at 3\*. We'll leave you with the words of **WIXV's Richard Smith**, "Neil's on, I gotta go dance".

**Jerry Harrison, "Cherokee Chief", Sire/WB....** Now that Jerry is no longer in David Byrne's shadow, so to speak, his full talent is coming to bear on rock radio. This second track proves he can write with the best of them. **KBCO** is a believer and they back that up with an add. **KOZZ, WFNX, WBRU, KLB, WAQX and WPLR** are also on board. If you had success with "Rev It Up" (and who didn't?) this is a follow up not to be ignored.

**WMMR/Philadelphia** celebrated their 20th Anniversary with full frontal assault on the media in Philly. A big birthday party for 50,000 was thrown at the Spectrum with free tickets for the faithful. Local rock heroes The Hooters joined other stars Paul Carrack, Roger Glover, Steve Howe, Glenn Burtnick and Gregg Allman for a night of frenzy, fun and games. The station also screened a one hour broadcast on local TV tracking the station's 20 years in the market. Stars in cars and former staffers were lined up for a non-stop flood of memories and anecdotes about one of America's premiere AOR stations.

**KNX/Los Angeles** has lined up an impressive campaign with major market rockers across the country and in England and New Zealand to get John Lennon a star on the Hollywood Walk Of Fame. Tommy Hedges of the Pollack Media Group told NOISE, "The response has been very gratifying, it's not often that everyone can get behind such a worthwhile cause." The effort is called "John Lennon.... A Star Forever" and is prompting a massive write-in campaign to enshrine John's name. Other stations involved include WLUP, WMMR, WLLZ, KSHE, KGB, WYNF, KAZY, KZAP, KICT and KTXQ.

The object of all their hard work, a star in Mr. Lennon's name on the Hollywood Walk Of Fame.

**WLVQ/Columbus** former morning guy, Lee Randall, is out at the station with the importation of John Fisher and Mark "Wags" Wagner. Lee is looking for a new assignment on the radio rollercoaster and can be reached at (614) 263-6669.

**WRIF/Detroit** MD Bruce McGregor has exited the troubled Great American outlet and is off in search of greener pastures. Bruce was eager to point out that his reasons for leaving were not connected to the recent Pat Still brou ha ha. The buzz is that Bruce is readying himself for another post in the very near future and we hear that he and his wife are settling into a new house in Omaha as we speak. New ownership at KEZO and the attendant changes at that shop could spell a bigtime reunion for Bruce and the boys. In the meantime, back at the ranch, Mark "Wags" Wagner has left WRIF in the wake of his partner Pat Still. Mark has picked up and dropped his considerable talent on the newly restructured morning crew at WLVQ/Columbus. He will be joining John Fisher and J.J. Jeffries for fun and games while the Great American boys in Detroit look for one more replacement for their swiss cheese staff. Well, at least the PD position is almost nailed shut. Word out of the Midwest has WFBQ/Indianapolis PD, Marty Bender, heading to the Great Lakes although neither Marty nor WRIF management could be reached for comment.

**KACV/Amarillo** reports a change in their personnel lineup. New to the MD slot is Brian Frank who is sitting on that phone waiting for your call.

**WIZN/Burlington** is looking for weekend talent with a good working knowledge of 60's and 70's rock and roll. Your T&R should be directed to Steve Cormier at WIZN, PO 123, Vergennes, VT 05491. You can reach him phonewise at (802) 877-6800.

**KRQR/San Francisco** informs us that MD John McCrae has been upped to APD at the station. When I called to congratulate John he snuffed, "Yeah great, twice the work for the same money." Such a man of the world, that John.

**KTCZ/Minneapolis** reports a delightful live broadcast with Bruce Hornsby recently. The staff engineers wired the microphones down a few floors into a restaurant with a baby grand for Bruce to noodle on in between interview segments. The broadcast got rave reviews from the locals and the anticipation at retail for the new Hornsby album is off the scale already.

**KSD/St Louis** has signed with Larry Bruce Communications. As the station fires up their run on the market behind a very high profile morning show, this looks like another move to take it to the streets in a big way.

**WQFM/Milwaukee** is looking for a morning team what with John Millinder on his way out. T&R's from complete, ready to go morning shows should be directed to Brent Alberts at WQFM, 606 W. Wisconsin Avenue, Milwaukee, WI 53203.

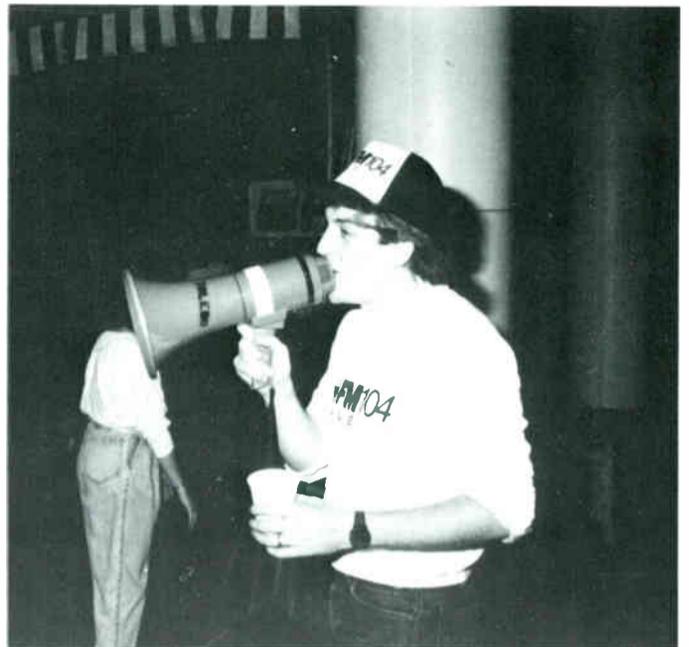

**WFNX/Boston** presented the first ever digitally recorded live concert. Using remote DAT equipment, the station aired the Bears live in all their digital glory. The event marked the first time that digital technology had been used from start to finish in the presentation of a live broadcast on radio.

**KZEW/Dallas** has named John Roberts as their new PD. John crosses town from CHR competition KEGL and there are a few puzzled looking mugs as a result. Evidently when the station was looking at David Grossman for the job last summer they had also spent time talking to John. Once Dave had decided to split the scene, management jumped on John like a duck on a June bug. In other news, Dave Grossman has been considering the possibility of launching a consultancy. Look for more moves soon for all concerned.

**KMJX/Little Rock** spent some time at an in-store with Whitesnake. Pictured are Sarah Miles and Casey Jones flanking the band's Vivian Campbell.

**KBCO/Boulder** got kinetic with their weekend long festival including the Kinetic Fest, Ball and Parade with music from Albert Collins and fun and games from the local populace. The kinetic way of life gets proper treatment at this yearly event and the last weekend was a non-stop party of Rocky Mountain proportions.

IRS agents at a WIOT/Toledo fundraiser pictured just minutes before discovering that the dunking tank was, in fact, filled with sulfuric acid. To the right is PD Keith Masters using a bullhorn so he can be heard above the screaming.

**WLLZ/Detroit** PD, Doug Podell, has announced the signing of a new five year contract with Legacy Broadcasting. Doug has been instrumental in putting the station on top in the market and he is getting ready to stave off the competition as the boys across town try to put together an end around for the Spring Book.

**KGB/San Diego** is looking for world class talent to buff up their weekend staff. If you are currently residing in the area and want to get your foot in the door send that T&R to Ted Edwards at KGB, 7150 Engineer Road, San Diego, CA 92111.

**WZTA/Miami** is throwing their 2nd Annual "Jest Of The West" competition. The station is looking for a local stand-up guy to represent the area at the National Finals to be held at the Improv in Los Angeles. The winner of the Finals will receive 25 previously unused Joan Rivers jokes and a record contract with Rhino.

**WWDC/Washington DC** is getting ready for their 9th Annual Chili Cook Off, the 2nd largest Chili-athon in the country. The belly burner will get going on May 7th and the proceeds will go to benefit the Kidney Association. If any label or band management would like to field a team they should contact Sheryl Wigham at (202) 587-7100.

**KOME/San Jose** is getting ready for their Rock And Roll Expo and want your memorabilia for an auction to benefit poor kids in the area. If any label or manager types want some instant PR all they have to do is get in touch with the station and arrange to give 'em the goods.

**KRXQ/Sacramento** is reported close to a decision on their PD hunt and a few names keep popping up on our Jobometer. Look for an announcement soon about this post. Then we can get on with a new chapter in the developing AOR fight in Sacramento.

**KRNA/Cedar Rapids** is still looking for a new MD. Females are encouraged to apply for this post. Send your T&R's to Mark Vos double quick at KRNA, 2105 A.C.T. Circle, Iowa City, IA 52240.

**WHMD/Hammond** is on the lookout for a morning show with teeth. T&R's should be sent to Timothy Munson at WHMD, 200 E. Thomas St, Hammond, LA 70403.

**WMDK/Peterborough** won the NAB's Best Of The Best award for promotion recently. The station got their award for the "Dave Wallace Farewell Tour", a reference to a personality of theirs who had been forced to leave the country when his application for permanent residence had been turned down by the authorities. Instead of hiding the fact, the station turned a potential negative into a positive by throwing a going away party that lasted a month and culminated in sending a winner to London with Dave. The station got the award for best promotion in a small market category.

**WIXV/Savannah** has taken the interim off the PD and MD titles at their station. This means that Virgil Thompson and Richard Smith finally get those business cards and maybe even a parking space next to the secretary's bullpen.

WGIR/Manchester ran their version of the "Have you seen these children" on these custom printed milk cartons. This marks the third year that they have run this promotion in a four state region.

KLOL/Houston conducted their 5th Annual Rock And Roll Auction with a running total of \$40,000 raised for the National Runaway Hotline. Numerous celebs played in a pick up band that included MD David Sadof and R&R's Harvey "Knuckles" Kojan. Top ticket items included Michael Jackson's shirt, (\$3,700), Springsteen platinum albums, (\$2,700) and a Ted Nugent guitar, (\$2,700), all making for one very big night on the town in a good cause.

WEGR/Memphis is lining up for a beautiful "May-In-Memphis" with music aplenty, canoe fun stuff and an internationally renowned barbecue. The station is getting ahead of the game with promo plans that should effectively corner the market on boats, the blues, and BBQ doglegs.

KTYD/Santa Barbara has been flying candidates in for their PD interviews and we hear that they are narrowing the field considerably. A number of surprisingly high powered names have been mentioned for this gig and, considering that I worked the turf in the 70's, I can't believe that the station can afford some of the talent mentioned in conjunction with the post. I mean, Santa Barbara is a great source of scenery but the cost of living ain't exactly cheap. Look for a decision by next week.

KDKB/Phoenix raised \$70,000 for the Easter Seals Society when they organized a softball tournament as a benefit. Morning ladies, Cindy Wine and Shelly Dunn co-chaired the event and huge crowds of sports enthusiasts jammed the diamonds throughout the tourney. The station is already locked in for another softball extravaganza next year.

KDJK/Modesto is still looking for a morning person to replace the irreplaceable Beaver Brown. Get your T&R's to Mark Davis c/o KDJK, 570 Armstrong Way, Oakdale, CA 95361. I heard a slight twinge of insanity in Mark's voice when he made the call. I think he'd like to resolve this situation real soon.

KDXR/Amarillo has a new number for biz these days. Call Mark and his Texas cohorts at (806) 353-7267. And when you've got him on the line, ask him how many armadillos it takes to put lights on a transmitter tower.

Blaine and Armand Schaubroeck pose with the members of Immaculate Mary just moments after breaking the world's record for LOUDNESS. Would you believe they beat the old Who record of 120 db at 50 meters by blasting an incredible 123 db at 50 meters? Do you believe that they have to hit Armand with a stick to get his attention now? How about the rumor that Armand was arrested for possession of a deadly weapon in the form of his guitar?

## RADIO THROUGH THE LOOKING GLASS THE MD SLANT ON PROMOTION

Last week we spent time with the record industry discussing their growing frustration over radio's accessibility and willingness to do business on new music. After that it was obvious that we needed to touch base with some MD types down in the trenches for another point of view. The gathering storm over industry relations combined with the projected increase in labels and artists could contribute to an even more counterproductive situation than the one currently at hand. It seems obvious that the answer is to clear the channels of communication, we know it needs to be done frequently and these articles are just a small part of the process.

The first thing you notice is that the argument that AOR doesn't stand firm on developing projects raises a few hackles out there. The MD's we talked to pride themselves on giving music a fair shot. "We give a record a minimum of four weeks and track both phones and sales before making that decision. That should be enough time for the song to establish itself.", said **WMAD's Paul Marszalek**. Others felt that the increase in new artists in conflict with heritage acts, frequently on the same label, confused promotional priorities, with the new band getting the short end of the stick. **Mary London** from **WRFX** put it this way, "The criticism being leveled at the format about our shuffling support from one record to another is true to a major extent, but both radio and records are responsible for it. If I'm bombarded by new bands from companies that also have a big push on for an established, platinum grade act, what can I do about it?" The argument that record companies often do themselves damage with overly crowded release schedules surfaced repeatedly.

The people in the middle are the MD's, they get all the heat for songs staying off the playlist but their control of same is limited. Heavy handed consultants or PD's concentrate the power in their hands while subjecting their MD to a barrage of calls and sometimes abuse. **Joe Blood** at **KEZO** got vocal about MD mauling, "I hear all this grumping about young MD's and I have to think, what about all these changes at the labels. I go for months without a local guy sometimes or the territories get changed without rhyme or reason. I mean, have mercy! This is nuts, my Rolodex looks like Viet Nam it's got so much whiteout on it." Joe also informs us that the demands of music previewing have gotten so intense that he goes into the office long before business hours on Monday so he can have 90 minutes to himself before the music meeting.

With a flood of releases every week and a limited number of slots, pre-promotion and certain intangibles become important. **CFOX's Karen Hewko** told us, "Sometimes the presentation makes all the difference. Interesting album cover art can get a record out of the stack and onto the turntable real quick, that's how I found the first **Timbuk 3** album." Karen also voiced concern about what she called, "A lot of substandard signings that are causing great records to be overlooked as a result. I also resent major label pressure pushing aside really good bands like **The Wild Seeds**. We have to be active about looking for those special bands that set the format apart."

When it comes to being worked on a project, the vibe was generally positive. The constructive nature of most local-MD relationships was brought up time and again. Phrases like, "my co-worker", "critical to knowing the music" and "the one person at the label that really knows my station", surfaced in the discussions I had with MD's. **Jerry Trujillo** from **KDKB** put it this way, "It's not really a matter of liking the people involved, this is a business after all, but I do respect the people I work with. Especially if they realize and respect all the time I have put into knowing my market to the best of my ability. Sometimes that means I'm going to turn them down on a

project that is charting well elsewhere but just doesn't fit what this station is all about. When I do that I don't expect them to scream and shout."

Localization came back everytime as essential to the whole process. Frequently, the alphabet soup game of reciting call letters will backfire when a station is locked into a specific local sound. When somebody does go nuclear though you might try what **Joe Blood** does at **KEZO**, "When a guy that is usually pretty mellow starts jumping on me I invite them to have their superior blow me a call so I can explain to him why my answer is, and will remain 'no'. That really puts the ball in the National guy's lap. The local appreciates you taking the heat off him and it generally diffuses the situation."

Frequently the complaint from record companies is about not adding enough records, but when a station is musically intensive and "left of center" the heat can be just as tough. **Paul Marszalek** at **WMAD** frequently deals with that, "Especially if they haven't taken the time to figure out what we are all about. Mostly, that happens when we don't agree on an emphasis track and add something else from the album. I know it doesn't help their chart action but what concern is that of ours?" An expectation that open ended stations equate to an easy add often gets lost in the unique musical vision of such stations. As a matter of fact, these are the stations that lead the way in decrying the "12" strategy of most labels. **Mary London** from **WRFX** adds, "My biggest complaint is when an artist ends up getting treated like product. Just because a few singles don't hit the top ten doesn't mean that the band is without merit for the format. When the record companies are the first to bail on a band because they didn't sell X amount of units, how can the format do otherwise. Look, I'd like to play nothing but current music but, until someone comes up with a way to rethink the format that works, we have to do the best with what we've got."

As far as relations with record people, the MD's we spoke with were unanimous about wanting to concentrate that communication almost exclusively on their local rep. The local gets credit for being capable of answering any question and doing the best job possible for the station when it comes to promotion and program extras like phoners, ID's and in-stores. In fact, National people were frequently cited as time wasters, "what can they tell me that the local guy doesn't know", or, "I only hear from them when it's 'hammer-time'", were among the responses we got. The local rep, at his best, knows the station's character and what records won't work there. They can hear "no" without swallowing a lung and they work as an extension of the station when it becomes time to work at getting that promotional budget from the home office.

The value of indies ran the entire gamut of response possible. "Indies tell me what I already know, give credit to the local guy.", said **Karen Hewko** over at **CFOX** while **KDKB's Jerry Trujillo** told me, "Indies are a big help, they give me a different perspective than the straight label line." When we talked to **Joe Blood** at **KEZO** he said he could gauge a project's "life signs" by the number of indies working it, "When a record goes from being a pure label project to getting the push from four or five indies I know we are dealing with a sick puppy." At the same time Joe was quick to point out the value of indies who, "Tell me more about a project than the labels will. Sometimes they let me know when a project is over just so I can avoid making a mistake. They know I appreciate that and their relationship with me is far more long term than any one given song." **Stephen Page** at **KOME** put it this way, "Working with an indie is as important as getting the information in the first place. I want to know when something is working on a nation-

al level and, more importantly, when it isn't. That helps us stay away from turntable hits and format stiff, with their contacts in numerous markets, indies give me the inside story better than anyone else can."

The general consensus from radio is that the labels need to pinpoint their priorities a bit better and not rush the industry with too many records that effectively cancel each other out. There were a number of comments that voiced concern about the striation of new bands into two exclusive genres, the American Roots Revival and Pop Heavy Metal bands. The concern that this shift would polarize playlists was driven home frequently. Also, make no mistake, the swamping flood of releases currently on the market pose a major frustration for MD's and they share the impatience of many record guys who find the format's restrictive music policies an obstacle. But the overall thrust of these conversations was that the format is actually in better shape than it has been for a long time. The success of bands like Midnight Oil, Love And Rockets and Joe Satriani, not to mention the final justification of those REM fanatics that they were indeed America's best band, has all contributed to an atmosphere where bands like The Church and The Smithereens can count on much more support than would have been possible even one year ago. This new openness to music from bands "beyond the horizon" is a positive indicator of a format making solid adjustments in the right direction. As for the key ingredient of promotion; radio finds it stimulating so long as it doesn't become repetitive or ham-fisted. When the sales aspect of the job overshadows everything else, it shows.

**Soul Asylum "Hang Time" (Twin Tone/A&M)** Now that Minneapolis U.S.A. is clearly marked on the musical map, churning out national success stories like the Replacements and Husker Du, a band like Soul Asylum will keep the city's reputation for hard driving music in tact. Soul Asylum started out loud and thunderous, leaving a trail of independent releases behind along with a live show track record that fans have come to expect. With the latest release, Dave Pirner and company come back swinging, and channel their raw energy into an impressive major label debut. These guys know that if you're gonna break the sound barrier, you better do it with tact and excellence, and their melodic punk-pop assault has the right riff combination guaranteed to PUMP - you up. Ok, so college radio scores one more for discovering the promise of this guitar potent group, but it's time for the rest of radio-America to give the rock audience something to sink its teeth into. "Sometime To Return" is the single to chew on, their best anthem ever. More key kuts to blow outta-shape rockers out of the pool include "Marionette", with its high pitched piano, "Own Up To Me" and "Cartoon".

**Velvet Elvis (Enigma)** Here's Kentucky fried rock at its best, a band of four who create a friendly reminder of early R.E.M. and Let's Active, but rise above that gene pool with a newfangled approach and the musical ingenuity to make it work. Produced by Mitch Easter, the second their album is an ambitious one, proving there is life after southern

pop when you combine guitars with spicier instruments like the sitar, keyboards and harmonica and fold in sparse electronic ambience. It's a combination that's rare, but not overdone. From a quiet beginning comes the big sound of "Over And Out", the rootsy persuasion of "Ambition", and "I Got Everything" which leaps off the record with bright, clear melodies. Velvet Elvis will capture you with the right chords, the right hooks and songs to keep you down for the count.

**Shiva Burlesque (Nate Starkman/Fundamental)** With clarity and intensity likened to Dead Can Dance, this somber outfit from California build small musical miracles in a fantasy-like setting on this self-titled Lp. Jeffrey Clark's voice echoes tones similar to Jim Morrison, and the rest of his lyrics will carry your imagination to its highest. The beauty and danger implied in their music helps make this new found band seem even more spectacular, with galloping drums, graceful instrumentation and hopeful outlook. With first class production, skilled and sensitive song treatment and the guest musicianship of the talented Leslie West (Ophelias) on trumpet, this staggering album is one more feather in the cap of the independent scene. Sprinkle your airwaves with the Cocteau sound of "The Lonesome Death Of Shadow Morton", the layered acoustics in "Indian Summer" or the quirky horns in "Work The Rat". If it passes you by, follow up by contacting Nate Starkman & Son, 544 Mateo Street, Los Angeles, CA 90013 or call Fundamental Records: 404-876-2907.

**Everything But The Girl "Idlewild" (Sire)** It's been a long wait for the return of the smooth and glossy duo, but Ben and Tracy are back with many of the original sounds that stuck in our minds like glue. Even when they ex-

perimented with cocktail lounge orchestration last time around, it's the pure, quiet jazzy sound that suits them best. "Idlewild" is long overdue but well worth it. From the mild go-go beat of "Goodbye Sunday" to the warm tones in "Love Is Here Where I Live", to the soft acoustics of "Shadows On A Harvest Moon" this album is sure to garner healthy reaction. Their tender mood-pop never loses its grip on your heart and the sax is back on the first single, "I Was Always Your Girl". How glad am I to see an EBTG return? Very. Summer won't be long now.

**NEW RELEASES**

**The Zarkons "Between The Idea And The Reality... Falls The Shadow" (Atlantic)** The remake of the Yardbirds "Heart Full Of Soul" serves as the first buzz song on their first major label release. And if you thought this band landed out of nowhere, then see if you recall The Alley Cats. After the addition of drummer Terry Cooley, the Zarkons came into their own and the latest release is in your hands. If a band ever sounded "L.A.", this is the one. A post new-wave, electric guitar punch and high end synthesizer sends the spacey techno-fizz into motion and after that it's ever man for himself. Neat stuff! Check the far out rendition of "Hunchback In The Park", originally a Dylan Thomas poem, and the surreal sounds of "Shoot The Moon".... Have you ever wished you were a Bubbleman? Yay or neigh, Love And Rockets admirers will be pleased to know that the band has recorded a fun side project as the **Bubblemen**. A 3 song 12" that shows the lighter side of the band, bubbling with outlandish licks, buzzes, clicks and so on. It's pure radio fun out now on RCA Records.... **The Chiefs Of Relief** features ex-

Sex Pistol Paul Cook and Matthew Ashman, who used to be in Bow Wow Wow. So, you wonder what the new single "Freedom To Rock" sounds like? Imagine a softer version of Age Of Relief - I mean Age Of Chance and you've got the idea. For the rest of the story, check out more track talk from the spoken word excerpts on the CD single available from Sire Records.... In the **Sinead O'Connor** can do no wrong department, the new mix of "I Want Your Hands On Me" has been completely reworked around the commanding voice of New York rap artist M.C. Lyte. It's definitely been beat boxed up, and echoes Sinead's voice behind a funky rendition that should break her into the club scene in a big way. Sup-urban music to rock the house on Chrysalis Records.... Church member, **Marty Willson-Piper** has branched out and recorded songs for his latest release, "Art Attack". Rykodisc now makes three tracks available on 12" and 3" CD, featuring "She's King" and two B-siders, "Too Round To Be Square" and "On The Tip Of My Tongue". What better to release this package than the week when The Church seizes the number one spot in the Top 100? Rykodisc U.S.A. is located at Pickering Wharf, Bldg C-3G, Salem MA 01970.... Slash Records announces two new releases, first the Canadian band, **Sons Of Freedom** will be released in August (the album to be produced by Matt [Faith No More] Wallace); second, **Burning Spear's** new album is titled "Mistress Music" to be released June 7th.... The next **Ramones** album will be a "best of" Lp, but may I suggest a double album? The title will be Ramones Mania.... An upcoming release announced some issues back was the new **Swans** 12" single of "Love Will Tear Us Apart", originally done by Joy Division (later, New Order). Catching up with the tour in progress, the Swans will perform in these cities: 4/25 San Francisco; 4/27 Dallas; 4/28 Houston; 4/29 Austin; 5/4 Buffalo; 5/5 Toronto; 5/6 Detroit; 5/7 Chicago; 5/9 Cincinnati; 5/11 Washington DC; 5/12 Philadelphia; 5/13 NYC; 5/14 Trenton, NJ. See you there.

**CHARTSTARS**

**Peter Murphy "Love Hysteria" (Beggars Banquet/RCA)** It's been a long time since a club tour spine-tingled an audience like the one waged by Peter Murphy in the New York area last weekend. Two successive nights were still not enough. The new album comes across just as brilliant live, and it's one of those records that just when you think you've chosen your favorite track, another one surfaces and it's time to rethink your choice! "All Night Long" is the lead single at the moment, with depth tracks "Dagnet Drag", "His Circle And Hers Meet" and "Indigo Eyes" falling in quickly. The remake if Iggy's "Funtime" is another no-miss pick. The joke's on anyone who thinks this album is strictly alternative....

Heavy airplay highlights at CFNY, KCPR, KUNV, WFIT, WMDK, WNCS, WRAS, WRVU, WUOG, KRCK, WHTG, KROQ, KTCL, KUSF, WBNY, WDRE, WTSR, WWVU, WXCI and more to follow suit. The album and track are closing in a 4\*, as he crosses America.

**Thomas Dolby "Aliens Ate My Buick" (EMI)** Already top ten bound in its second week, Thomas Dolby's new album sports slew of crazy new twists, fleeting imagery and addresses the downright absurdities of the modern world. What a relief not to be sucked up in a vacuum of pretension, but to let loose and have a laugh while soaking in some great tunes. "Airhead" is by the far the consensus fave, and the new remixed 12" offers three delightful versions of his pop mockery. "Key To Her Ferrari", "Hot Sauce" and "My Brain Is Like A Sieve" also rate high.... New this week at KCMU, WBER, WCDB, WFIT, WGTU, WRVU, CHEZ, KFMU and WBCN, the new total becomes 33 on, with a strong 21-12\* move on the Airplay chart.... Bruce McDonald at WFNX says, "Airhead' makes me realize just how much his music and humor have been missed".... WTSR's Doris Duwe adds, "I love this album. It's far from that typical dull synth-stuff. He matches a great sense of humor with real musical value".... Spike at WHTG says, "It's certainly good to hear Dolby hasn't lost that crazy sense of humor. The whole record is just chock full of neat shit."

**Ziggy Marley "Conscious Party" (Virgin)** You must be unconscious if Ziggy Marley mania hasn't touched your area. The tour is selling out like gangbusters, with even more believers in its aftermath. Retail is booming, and all the elements of a full scale success are in his favor. Now at 3\* Alternative, "Conscious Party" is about to open up with even more play on tracks like "Lee And Molly", "Tumblin' Down", "We Propose" and the title track. A reggae fest is only the tip of the iceberg on this album. It melts world beat with familiar and friendly pop sounds for masses on the edge of the movement, reaching even more ears than ever before.... Paul Kriegler at KRCK says, "Ziggy Marley's album is selling gonzo at retail. There are so many songs to choose from, requests are like mad, and there's just no excuse not to play this album!".... Patrick Ferrise at WWVU notes, "Ziggy's album promotes a greater awareness of reggae. There are two sides of appeal, the roots material and the more mainstream sound that's a great introduction".... Heavy rotation and multiple track airplay is the key at WFNX, KJET, KJQN, KTAO, KUSF, WDET, WFIT, WNCS, WRAS, WRVU, WUOG, WWUH, WKXL, WWVU, WXCI and WXRT.

Not since the wave of awareness set into motion from Suzanne Vega has a female solo artist broken at album radio like Tracy. Although her story is a different one, the passion and emotion are there in full force, and so is radio support. "Fast Car" is blowing out with top 5 phone response at Alternative radio beginning with stations like WFNX, WOXY, WRAS, WWVU, KBCO, KACV, KROQ, WGTU, WGFS, WMDK, WNCS and WWV. There's nothing left field about Tracy, and progressive radio listeners welcome her craft with open arms. Now at 73 Album and Alternative stations combined, she advances to 10\* this week and mainstream progress continues with a 62\* on the Hard Hundred.... Bruce McDonald, WFNX reports, "Fast Car" continues to dominate request lines and initial sales on the Lp have been strong. This record is for real!.... It has been #1 at WHTG already based on requests and sales.... "It's burning up the phones" says KACV's Jamey Carr.... It looks like Mike Thomas from WMDK was right when he predicted "this record will be huge!"

**The Mission U.K. "Children" (PolyGram)**

When you have a song as outstanding as "Tower Of Strength" staring at you, it's hard to dig deeper when callers are demanding to hear it. That's what's happening with The Mission U.K. On their most successful offering to date, Wayne Hussey and company are making a big impression at alternative radio, but an even bigger lunge forward onto the playlists of album radio rockers like WNEW, WBCN, KISS, KRXQ, CHOM, CHEZ, KATP, KATT, KBER, KKDJ, KLOL, WWCK, WRIF and more. A combined total reaches 73 Hard Reporting stations this week, an all time high for this band. One listen to the single and you'll know it's spectacular. It's not a 3 minute "hit", but who's counting? "Beyond The Pale" and "Kingdom" are early buzz tracks on the album, and you can expect the band to uphold their end of the bargain with a tour in late May or early June.

**Timbuk 3 "Eden Alley" (IRS)** If you need a refresher course on inspired lyrics and optimum mood/execution, than Timbuk 3 has your number. This musical pair are back with an even better sample of their songwriting finesse and this album proves it. "Reverend Jack..." leads as the single with airplay at over 90 Hard Reporting stations including alternatives WXRT, WWV, WRAS, WOXY, WNCS, KUNV, WHFS, KTCL, KRCK, KACV, KJET and CFNY. Other tunes you can use are "Reckless Driver", "Easy", "Sample The Dog" and "Too Much Sex, Not Enough Affection". It's guaranteed good fun with a musical hook that won't be denied.... KRCK's Paul Kriegler dubs them as "brilliant song writers who will be around for a long time. They are dynamite."

**Dancing Hoods "Hallelujah Anyway" (Relativity)** With a song like "Baby's Got Rockets", the Dancing Hoods find themselves positioned for commercial success now more than ever. Although progressive airwaves are warming up to its unforgettable chorus, a few more listens won't hurt AOR programmers either. This American band has a strong album out now, with an equally strong one to back it up with the last release, "Twelve Jealous Roses". They moved to Los Angeles to record the new record and the location left a fine mark on their sound. Young, fresh and lively, it's still rock 'n' roll that deserves priority play. Early supporters include KACV, KBCO, WHTG, KFMH, KJET, KLOL, KRCK, WBAB, WHFS, WKXL, WMDK, WOXY, WRID, WWVU, WFIT, WDET and more than you think!.... KUPD's Jonathan Rosen says, "This is a real good record. The move to L.A. has inspired them with new influences".... KACV's Jamey Carr proclaims, "This one has more hooks than Dolly's bra!".... WHTG's Mike Marone says, "Rockets' has a killer hook, and there's no reason for any self-respecting AOR station not to play this song."

**Morrissey "Viva Hate" (Reprise)** By the look of that 2\* Airplay chart number, you'd never think he left the Smiths. But the continued support from radio and press proves he's still king of a new music army. Joined by the Durutti Column's Vini Reilly who picks up slack on the guitar

and adds a special new touch to these fab tunes, Morrissey prevails with a #1 tracks position for "Suedehead" and more to back it up like "Every Day Is Like Sunday", "I Don't Mind If You Forget Me" and "Hairdresser On Fire" which is the B-Side of the 12".... WTSR's Doris Duwe confirms, "His album is just as good, if not better than anything The Smiths ever did".... Paul (#1 fan) Kriegler, KRCK asks, "What can be said about a record like this? It's just amazing and Morrissey and Vini make a great pair. The record is the #1 alternative retail item right now in Omaha, and no one else is playing it!" I must admit, the man himself stole the show in the NME issue dated April 9th with some quotes that included one about being in the Smiths, "It's more essential to me than breathing - it's more natural to me than breathing. The whole thing really, is a matter of life and death..."

**HEAVY HITTERS**

**Van Halen, "Black And Blue", WB.....** The Van-Hagar saga continues with the upcoming release of "OU-812". First up to bat is this rockin' grinder. Okay, so maybe it's not quite the hair-splitter you might have expected for the first cut, but it's one of those tunes that gets in your head and **STICKS there!** From the opening few bars of bluesy, "unmistakably Eddie" guitar trix to the power-house Hagar vocals, this song is all Van Halen. It's reminiscent of the softer material from the "Diver Down" era, though Sammy's lungpower gives it some real crunch. Not exactly a blow-you-out-the-door tune, it's a laid back, "we know we're good" answer to the DLR craze of late. The production is crisp and clear - and hey! With flashy guitar slides and suggestive lyrics - who could ask for anything more? Though a lot of people are still up in the air about the addition of "The Red Rocker" to VH, I think this is one of the best collaborations to come from the wacky world of musical chairs. The success of "5150" proved that change is for the good and that VH isn't a one man show. This time around, it's all in the bag.

**Vinnie Vincent, "Ashes To Ashes", Chrysalis....** Well, it comes as no surprise that this record was #1 Most Added Metal and debuted at 37\* on Hard Hitters, they also had a great week on AOR. By next week it will no doubt be making a move on some of the die-hards that make up the top twenty. With all the talent and energy that this band possesses it looks like the Lp will be a stellar success. The masses agree. KFMX's Jeff Ivan says, "Another very hot release is the new Vinnie Vincent Invasion. This record is going to go a long way. Commercial radio will eat this one up. Vinnie is still progressing as a songwriter and guitarist" and Mad Max Hammer quipped, "The Vinnie Vincent Invasion has a great new singer with the same sound in Mark Slaughter. It's "All Systems Go" for the Invasion. This one will do just as well if not better for Vinnie." With the new direction and image the Invasion chose to go with on this project, they've definitely gotten a one way ticket to hitdom.

**Hurricane, "Over The Edge", Enigma....**

These guys are storming the airwaves with a vengeance with their killer kut "I'm On To You" moving 27-11\* on Hard Hitters. But fasten your seatbelts 'cause now the album's on its way. When you combine industrial strength guitar playing with forceful vocals and musicians with an innate sense of melody, you better run for cover - but take your Walkman with you. The experience could be electrifying. The album contains some really diverse material like "I'm Eighteen", "Spark In My Heart", "Give Me An Inch", the title track and "Baby Snakes". WOUR's Kaptain Kasky reported that, "Creeping up ever so slowly, yet with a hell of a lot of power, is the Hurricane project. Those boys rock!". For a little more background on these check out our exclusive interview with lead lungs Kelly Hansen. This week the Hurricane has hit metal blocks on: KFMX, KGB, KSLC, KUCA, KZEL, WARC, WBIM, WGIR, WHFS, WHMH, WNGZ, WOUR, WPYX, WRCN, WSOU, WVVS and Z-ROCK. "I'm On To You" also got adds on AORs like: KDJK, KDXR, KLOS, KISS and WHJY. It's also on KNAC (in heavy) and KJJO (in heavy).

**Killer Dwarfs, "Big Deal", Epic....**

Now that you've all decided to take notice of "We Stand Alone", here's the rest of the album. There are ten killer tracks to listen to and almost all are capable of seeing some serious AOR airplay. KFMX's Jeff Ivan says "The new Killer Dwarfs is right on target. It's a bit commercial so all you gutsy rock stations need to get on this one. Very accessible and solid". The most air-worthy of the songs are "Lifetime", "Breakaway", "I'm Alive" and, of course "We Stand Alone". The other six tunes are much too rockin' for mainstream airplay but you metal-types have no reason not to be all over this one. Best be lookin' for these boys to be chartbound real soon. In the rush to play all the biggies don't forget the little people.

**Leslie West, "Theme", Passport....** I was wondering what happened to the big guy after his appearance in "The Money Pit" as leader of the transvestite metal band, Cheap Girls, fully bearded. Now I know that he was doin' well. Leslie hooked up with bassist extraordinaire player Jack Bruce for this one and it's easy to see that they're musically compatible. This is not really a metal record, more like straight-ahead rock n'roll. AOR's have been adding "Love Is Forever" and getting good response. Now let's see what we can do with it. There are a few heavier tunes to choose from on the record, especially the first cut, "Talk Dirty". Also look into "Red House", "Motherlode" and "I Ate It" for a somewhat more bluesy feel. Look for a debut in a week or two on the Hard Hitters as it is rumbling under as we speak.

**Ronnie Montrose, "The Speed Of Sound", Enigma....** When it comes to well-rounded musicians, Ronnie Montrose is sure to top any list. Not only is he one of rock's premiere guitarists, he also dabbles in fusion and jazz. His works include stints with Van Morrison, Edgar Winter and Boz Scaggs as well as his own power-trio which gave artists like Sammy Hagar, Denny Carmassi (Heart) and Alan Fitzgerald (Nightranger) their kick-start in the music business. This album is Ronnie's second with Enigma, following the critically acclaimed "Mean". Ronnie considers it his finest work to date and rightfully so. It is an emotional and expertly crafted piece of work. From the full throttle approach of "Mach 1" and "Hyper Thrust" to the power of "Windshear" and "Outer Marker Inbound", the sheer beauty of "Zero G" and "Monolith" and of course the wild cover of "Telstar". On every track his guitar takes on another different voice and conjures up very different images. "The Speed Of Sound" is a beautifully creative venture for Mr. Montrose. Guitar enthusiasts will no doubt revel in the many different textures this man explores. Not for everyone, but a delight to the tired ear. KNAC's Ross Goza raved, "Ronnie Montrose is pure rock guitar god personified, and 'Mach 1' SCREAMS!!!!". Ronnie's on: KFMX, KQQK, KRSR, KSLC, WBIM, WHMH, WJUL, WNGZ, WOUR, WPYX, WRFL, WSOU, Z-ROCK and a host of others (AOR included). This week "Speed" debuts 25\* on Hard Hitters.

**Poison, "Nothin' But A Good Time", Capitol....** As if you didn't already know, this - the deadliest of poisons, is now working it's way deep into your iron-clad system and pretty soon it'll take over your mind. Here we see a group of fun-lovin', party guys with a video that's been in the top five of that Dial MTV thang (it debuted at #1) a song that's cruising up the charts (what'd you expect?) and a forthcoming multi-platinum album. I'd say that these boys have it made and why not? Their style has progressed so much since the days of "Cry Tough" and "Talk Dirty To Me" that it doesn't even sound like the same band. On the Hard Hitters chart these pretty cool boys roll in with a 20-18\* move while still moving on the Hard Hundred, 49-35\*. Most Requested AOR shows them at #10 with a few requests on the metal side as well. All I have left to say now is, where's the album???

**Living Colour, "Vivid", Epic....** What's your favorite color baby? Living Colour! Funk lives, and this time around it's done with ESP guitars with DiMarzio pick-ups. They rock on this killer release from Vernon Reid, Corey Glover, Muzz Skillings and William Calhoun. This is a clever, funky example of one of the new directions into which rock is moving. If you're looking for an alternative to thrash, glam, speed metal or any of the stuff that we're being inundated with, then this band is where it's at. This is an excellent album and the single "Middle Man" has done well on AOR and is just starting to get attention in the hard rock/metal world that we call home. It is definitely not for the hardest rocking element on our roster, but those of you who are always willing to try new things, might really find the Colour suits you. Check out "Cult Of Personality", "Which Way To America", "Glamour Boys" and "Middle Man".

**Testament, "Trial By Fire/Nobody's Fault", Atlantic....** Mike Jones, musician extraordinaire and all around cool-type guy said this: "Back when I was playing bars around Boston, I always wanted to do a cover of Aerosmith's 'Nobody's Fault' and now Testament have done a killer cover of this classic song on their latest, 'The New Order'". Hey, if you think that was cool, listen to this from quotemonster Jeff Ivan: "God, is that new Testament album hot! Not just the Ep but the whole album. It's unreal how far these guys have progressed. Every song including the two instrumentals are radio ready. 'The New Order' will blow your mind..." It does seem kind of amazing that these guys can go from playing die-hard thrash stuff like, "Over The Wall" to intelligent music like what we have here. To be brutally honest, I saw them open for Anthrax last year and was not especially impressed. Let's just say that now I am. Especially after their #26 debut this week, a standing that is sure to be obliterated relatively soon. Look for the Lp to hit sometime around May 10.

**Cacophony, "Speed Metal Symphony", Shrapnel....** And now for something completely different -- the words "Speed Metal" are on the cover of a Shrapnel release! This certainly was one of the first things to catch your eye when this shipment finally arrived. Featuring the guitar talents of Marty Friedman and Jason Becker, this album features some of the most innovative playing in years. While Peter Marrino's vocals are not particularly accessible, they fit the music. Speaking of the music, listen for some great drumming by Atma Anur, he also appeared on Tony MacAlpine's "Maximum Security" lp. The album is loaded with incredible guitar-work on tracks like "Savage", "The Ninja" and "Desert Island" but the real masterpiece is definitely "Speed Metal Symphony". This instrumental contains a lot of really intricate stuff and the production gives it a orchestral type of sound in some parts. Some of our reporters have already jumped on this so we can be expecting to see quite a bit more of these guys in the future.

## METAL MUSIC NEWS

Greetings metal dudes and dudettes. This is Sal "Earl Of Earache" Treppiedi reporting from Metal Control Center deep in the heart of Queens, New York. This week we've got part two of our discussion with **Snake** and **Away of Voivod**. So, how 'bout it? Let's get to some news.

Congratulations to **Aerosmith's Steven Tyler**. The "dude" will be marrying his long time clothes designer **Teresa Barrick**. **Aerosmith's** lead vocalist will be tying the knot for the second time on May 28th in Oklahoma. The boys are currently filming a video for "**Rag Doll**" in New Orleans.

**Epic Records** is scheduling three releases for this summer. This first is from Germany's **Accept**. **Rob Armitage**, the man slated to replace **Udo Dirkschneider**, has left and the band is apparently still looking to replace him. The grandfathers of heavy metal, **Slade**, will be releasing a live package. **Suicidal Tendencies** will be releasing their debut Epic Lp. It is still not known if the Lp will be released on **Grinder Records**.

Next is an item which has gotten the Earl as well as other members of the metal community ticked off. On Monday, April 25th, a teenager from Edison, New Jersey committed suicide. According to police accounts, the youth had a copy of **Ozzy Osbourne's** "Tribute" Lp in his possession. Naturally, authorities immediately began to blame his death on the fact that he was listening to heavy metal music. They pointed to the songs "**Suicide Solution**" (Haven't I heard this before?) and "**Goodbye To Romance**". Apparently the teenager, who was 16 years old, had recently broken up with his girlfriend

April 29, 1988

and that led officials to think that because of those two songs the youth chose to take his own life. I'm sorry folks but someone is not smelling the coffee. I would like to know why they blame heavy metal music every time a teenager commits suicide. Are we some kind of scapegoat? Quite frankly I am sick and tired about hearing them blame heavy metal for every teenage crisis this country has. I placed a call to Michael Levine Public Relations, Ozzy's representatives, to get a quote from either Ozzy, his management or his publicist, Mitchell Schneider. When I spoke to Schneider, he said that Sharon Osbourne simply gave a "No comment". I can understand that reaction. It must be tough to not be affected by the accusations. Remember, Ozzy was recently acquitted of any charges regarding the death of a teenager in California once again over the song "Suicide Solution". All I can say is find another scapegoat. What are your comments? The Earl Of Earache wants to know. Send your comments to Sal Treppiedi; Mercenary Records; 330 Hudson St., New York, NY; 10013.

It's time to get to our feature interview. This week we have part two of my conversation with Snake and Away of Voivod.

**VOIVOD: PT II**

**HR:** How will having the backing of a major label help Voivod's situation?

**SNAKE:** I hope that it is going to spread all over. I hope it will help. We have a lot of projects that we want to work on. We want to do a comic book with all the stuff the Voivod has done. We need money to do that. I would like to make a movie someday.

**AWAY:** We hope that this album will spread the word so that we can release all the projects that each member has. We also want to turn a house into a recording studio. We need a lot of money for that. We'd like to sign with a big company and get money. We'd like to play big halls like Metallica and Anthrax have. It will probably take us a long time because we play a different style of music than what people are looking for. People are still looking for satanic lyrics or they are looking for Metallica clones.

**SNAKE:** I think what we are now is music for the '90's.

**AWAY:** We decided at the beginning to do future music. We didn't want to jump into the satanic wave and the "sex, drugs and rock n'roll" thing. We decided to follow our own way. We knew it would take a few years before we got any recognition but it is happening now. We used to be labeled "The worst band in the world". Now, I don't think so.

**HR:** Is it true that when you first formed, only one of you knew how to play his instrument?

**AWAY:** Yeah. Piggy was the only one. he's still learning. He's trying to do new chords that he's never played before. He's into three tone music. In the middle ages, when someone played three tone chords, he generally had his fingers cut off. It is supposed to be satanic music. That is stupid. Paganini almost got his fingers cut. Mozart almost did. When me, Piggy and Blacky tried to get together in 1980, we didn't know shit about playing instruments. Piggy knew because he was older than us. He learned from older progressive, psychedelic music. Me and Blacky were just making noise. So we stopped and got back together in 1982. I practiced about a year and a half. Piggy taught Blacky how to play. When we got back together we all knew something but it was primitive and basic. "War And Pain" is basic and primitive.

**SNAKE:** When it came out people did not know what to think of it. Today, they say "War And Pain" is our best album. With this album maybe they'll like it better.

Next week, we'll talk to Snake and Away about "Dimension Hatross". By the way, how many of you know that Voivod finally put their real names on the back of an album cover? Next week, we'll tell you what they are.

That will do it for this week. By the way, congratulations to Don Kaye on his new job at MJI Broadcasting. Good luck from the Earl. Finally, many of you may have noticed that Mr. Death comments have been absent from this column for the past few weeks. It seems that Mr. Death has been planning his campaign for President. Can you imagine? I understand that Ian "Homeboy" Tafoya of Znowhite is going to be his running mate. Dig it. Until next week, MUYA!!!!

## Hurricane's Kelly Hansen Talking Up a Storm

Through 1987-'88, we've been witness to a continuing cycle of hard rock and metal resurfacing on AOR playlists. So far we have seen bands like White Lion, Iron Maiden, Judas Priest, the Scorpions, Lita Ford and Yngwie Malmsteen (among many others), finally getting some well deserved air on American rock radio. With this renewed interest in harder rocking acts, labels are racing to sign more and more crossover possibilities. Enigma's newest champions, are an L.A. band that boasts the talents of Robert Sarzo (guitar), Tony Cavazo (bass), Jay Schellen (drums) and vocalist Kelly Hansen. Hurricane is an intelligent and talented group, whose hard-hitting brand of melodic rock is the perfect addition to those stations who play both sides of the fence. With things finally beginning to happen for them (on metal programs and AOR) with their newest LP "Over The Edge" and the first single "I'm On To You", Kelly Hansen is nothing short of optimistic about and pleased with, this band's past, present and future.

*Chris:* Let's start off with some background info on the band and how long you've been together and how you all met.

*Kelly:* Okay. About 4 1/2 years ago Kevin Dubrow introduced Robert and Tony, I think it was at a club. Robert came into town from New Jersey to audition for Ozzy's band. He met Tony and they got together and started writing and really made a good connection there. And then they were looking for people to complete a band and a mutual friend of mine and theirs, who's a drummer came up to me and said, "I know these two guys who are looking for a drummer and a singer, are you interested?" and I said, "Sure". So he brought Tony and Robert down to see me at a club where I was playing. I was doing Top 40 stuff at the time. Well I was also doing original stuff on the side.

*Chris:* Weren't you doing some commercials as well?

*Kelly:* Yeah, I did some phone commercials in Denver and I did a Panasonic commercial out here. Every once in a while you get something, the money always comes to you after just one day's work, which really helps - especially when you're a musician (laughs). So anyway, Robert and Tony came down to see me play and I met them and it was funny 'cause that night, you know their hair was all big and they were wearing leather jackets and all.... It was a really funny night. We decided to get together at their rehearsal place, which was a big office building down on Santa Monica Blvd. in Hollywood. They had no P.A. or anything, just some amps set up and they had a 4 track tape machine that they were recording stuff on. I listened and we started to work on "Hurricane". I think that was the first tune we worked on. We moved out of there to Sound City Rehearsal and Robert and Tony one day, by chance happened to be jamming with the drummer from Loudness and they thought, "Man, we need a drummer like this, more hard-hitting, more aggressive". 'Cause the drummer we had was progressive and technical but not very heavy. Our manager who was also handling Lita Ford at the time, was auditioning drummers for her. When Jay came down to audition for that from San Diego, Gary said, "Listen I want you to check out these guys Hurricane". The reason he thought that Jay might be interested, is because it was more than just a side-man type of deal, more than just a hired gun. With us he could have input in the writing and he'd be part of the band. So Jay came down, and he was real nice and cool and when we played everything went real well and that's pretty much how Hurricane was born. We made a demo tape with Kevin Beamish producing, and what we figured was that if the demo tape was passed on, then we'd put out our own Ep. The demo went out and everybody passed

on it, but we said "Screw it, we don't care"... there was already press on the band 'cause of the brother connection and we didn't want to wait 6 months to a year for some record label A&R guy to get up enough guts to bring his boss down to hear us play, so we went to Greenworld with our Ep and recorded two more songs without Kevin ("Take What You Want" and "It's Only Heaven"). We like to get involved in every aspect of the record production. Like we were involved in the album cover concept and the mastering. It made us feel more satisfied and Greenworld was real happy 'cause they thought it was one of the best covers they ever had. We were with them for about six months and then they folded so we were in limbo for a month or two. Then after a while we had some offers from some major labels but we also had this thing with Enigma happening. The reason we decided to go with Enigma was because the top guy there, Bill Hein, came down to see us personally and that meant a lot to us, because we knew it would carry a lot more weight than some low man on the A&R totem pole. Also we felt it was a real family atmosphere at Enigma and we wouldn't be like some small cog in this huge machine.

*Chris:* They've also become very successful in breaking new acts.

*Kelly:* Right, and have become more so. So we signed with them, and then the opportunity came up for the Stryper tour. It was so quick in fact that we didn't even have time to record any new material, we had a week and a half notice before going out on our first national tour. So we repackaged the "Take What You Want" EP and released it on Enigma. We toured 51 or so cities with Stryper, came home did a video then went back out on the road with Gary Moore. Then we came back and went right into the rehearsal studio and started taping all the the new material we'd gathered over the years to try to get a new record out. We then went into pre-production with Mike Clink and Bob Ezrin, who we were lucky enough to get. We recorded the new album in a month and a half.

*Chris:* How did you guys hook up with Mike and Bob and why two producers?

*Kelly:* Well, we were kind of interviewing producers and we had them come down to our manager Gary Ballen's office and they'd play us stuff they'd worked on. Mike came down and was real cool and the vibes with him were real great. Plus I was real impressed with his work on "Sport Of Kings" and of course "Welcome To The Jungle" which I thought was pretty damn good. Then some friends brought down Bob at the same time

to hear us play and then he came down again the next day and we just started working together. That's how it evolved. The great thing about working with both of them was that we hit two ends of the scale. There was also a real personality difference there that filled in the gaps. Mike was real laid back and we got a lot things done that way and then Bob would storm in and say, "Alright try this, 1-2-3 go!" He was very high strung and on the ball and full of good ideas. It made us really come out with our creativity and weirdness. He said, "I want to hear the weirdness in you guys. I don't want to hear you trying to play like what was popular last year. I want you to be on the leading edge of what's happening this year." That's what he got us to do. We were lucky to work with both of them.

*Chris:* Who handles the songwriting in the band?

*Kelly:* Well, we're all equal partners in the songwriting. We decided early on that in the publishing we would all be equal. It was just a matter of keeping everyone putting in their share. So if we find that anyone is only putting in a quarter percent input, we'll have to kick their ass.... but everyone does and everyone brings in ideas. Usually someone will bring in a seed of an idea or a little chunk of a song and we'll all flesh it out and turn it into a whole tune, and that's what I think defines Hurricane tunes. They sound diverse and different but there's always a continuous string through them, as opposed to sounding like one continuous writer all the time. We wanted to sound like a band, not Joe Schmo and his back up band.

*Chris:* Was it ever your intention to be a hard rock/AOR crossover band or was that a byproduct of the kind of music you play?

*Kelly:* I don't think we sat down and said, "Hey dude, give me a beer and let's try and be an AOR crossover type metal band"....But I think that we all realized there was a necessity to be able to connect on a mass scale. To me everyone seems to think that "commercial" is a nasty word, but I think there's more art in connecting with millions of people as opposed to 5 people in a garage, playing really esoteric music. I think we all feel the importance of the band is the song and presenting it with a melodic approach and that translates into AOR acceptability. You have to start somewhere. We came from the heavy metal area because that's where we're known from and that's what we sound like. We're a very heavy band but we're very melodic and very vocal sounding - so it crosses over that line. This new record shows how much more musical we are than just dirgy heavy metal.

*Chris:* Do you think your music has progressed the way you wanted from the "Take What You Want" mini-album to this one?

*Kelly:* Yes, I think so, though you always want more time to write, to record, to mix and to perform. I'd like to see more of that, but you have to play the game when people are counting on you.

*Chris:* Well, how much importance do you put on the use of videos?

*Kelly:* Well, I like doing videos, probably because I want to be an actor. I like the camera... The whole excitement to it. I don't consider it a chore, plus like I say we like to get involved in every aspect of everything we do.... So we come up with concepts and we work with the directors and I was there for all the editing on the latest video, 'cause I feel I learn a lot that way. Plus, I'm anticipating better success with them and that'll make me feel really good. If you're living in the '80's you have to accept that video is very much a part of the music business now, and like it or not you're gonna do 'em. So, you might as well learn to like them and enjoy them and learn from them.

*Chris:* Tell me a little bit about some of your songs. For example "Baby Snakes" - what a great song! What inspires you to write songs like that?

*Kelly:* (laughs) Well, "Baby Snakes" started out as a double bass drum thing and we were trying to decide whether to do vocals or heavy metal rap or something. Ezrin was on his way home from recording one day and he got this idea. So, he got his kids to go to the phone machine and play out this little thing and then he taped it on the phone machine. He brought it in and played it for us and asked us what we thought. We talked about it, turned it around, edited it and made some changes and it turned out to be "Baby Snakes". What's great is that every guy has been through that situation of calling up a girl and getting blown off and I'm sure a lot of girls have been in the situation of getting calls from a guy they want nothing to do with.... Inspiration comes from all over and all members of the band. Like "Over The Edge" was kind of a story of how we felt about being on the road last year. It happened so fast, and we kind of felt like we were floating somewhere we really didn't belong. We didn't feel comfortable. It was almost like the

name Hurricane had dragged us somewhere new, that was exciting but scary at the same time. We felt like we were living "Over The Edge". "Spark In My Heart" came about when Jay saw an article in BAM Magazine and it showed a picture of a kid playing guitar with this heavy look on his face and it was connected to an ad his mother had taken out. She was looking for her son who'd run away from home, and it said, "Johnny (say his name was that), if you see this ad please call me, I need to see you - I'm dying". So with the song we turned it around and made it into a positive tune about a young person having to make their own way. It says, "This is my time, I've gotta do what I have to". So that's what "Spark In My Heart" is all about. About having to follow that spark in your heart that tells you to go and do what you need to do.

*Chris:* With the influence you exert on your listeners do you feel any special responsibility to them?

*Kelly:* I think that we're a positive kind of band. A song like "Heaven" off the last album is positive but it's also very introspective and very deep. We deal with all of our challenges in a very positive way. I personally feel that that's the way to get through things. Rather than wallowing in your self-pity or depression, you should work through these things in a positive way and know that in five years you'll still be here, you'll be five years older and five years further down the road, but you'll still have good times. You'll still laugh, you'll enjoy life again even if your feeling bad at the moment. Maybe that's an attitude that comes from having a few more years under your belt though, 'cause I know it's much more difficult to do that when your say, 15 or 16. Being exposed to these ideas at that age is a good thing for kids to hear. I think that we don't personally go out and say listen to this song or be responsible because I don't feel that way.... I think that the mere fact that someone who committed suicide, listened to a certain record before they did it, has really no basis in determining whether they were going to kill themselves that day or next week. Otherwise you'd have to say the last book he read, the last movie he saw or the last person he talked to, was also influential in his making that decision. I think that with music, for the most part, not always but for the most part, people love to listen to music to feel better not to feel worse. That's what we're all about. We're just more positive so that's how it comes out.

*Chris:* Which do you prefer; live performance or studio work?

*Kelly:* Well they each have different qualities that I like. In the studio, you always have the opportunity to do it again if it's not right. (laughs) We did a couple of songs live before we recorded them and usually we do it the other way around....It's much easier to know you're doing it right if it's recorded first. Yet, there's nothing like live, especially when the crowd is going wild. The record is really to facilitate us being able to go out and play live. The record is that means to an end - besides selling records.

*Chris:* Your currently going out on tour with MSG, right?

*Kelly:* Yes, Yes! We're doing a benefit in Phoenix on Saturday and then we fly into L.A. and do a benefit with KLOS on Sunday for the Special Olympics and then we leave on tour Monday. We do shows with MSG on Wednesday and Thursday and then we fly back to L.A. to do shows on our own and then fly back out to join up with MSG again. Everything is looking really good right now. I think we're scheduled to go with them 'till the 13th of May, which is only a few weeks but they have another leg scheduled so who knows. Right now we're not scheduled for that so we might go out and headline some clubs on our own. I'm sure we'll pick up something, there's a lot of summer touring going on. We're finally becoming a band that can be real useful to a headliner. I'm sure we'll get all around the country this summer and hope to get to Japan at the end of the year.

*Chris:* Any last things you'd like our readers to know about Hurricane?

*Kelly:* Just that I'm happy with how the record turned out, and working with Clink and Ezrin was a real joy and I know that people listening to the record will be able to tell the growth and the experience we've gained over the last year. It's all coming together.... I can't believe it. It's all happening so fast. So, I couldn't be happier and I'm looking forward to getting around the country and meeting with the retailers and the radio people especially. I love doing that.

**Many thanks to Kelly Hansen, the voice of Hurricane for an incredible interview and to Clarissa for the opportunity. Experience Hurricane on their new record "Over The Edge" on Enigma records and on tour soon.**

**George Michael**, who had to cancel some of his Australian concert dates a couple of months ago because of a throat infection, is still having the same problem. He's canceled two weeks of dates in the European leg of his world tour, because doctors have ordered to him to take a rest. Dates in Finland, Denmark and Germany have been affected.

After 725 weeks, **Pink Floyd's** "Dark Side Of The Moon" has dropped off of Billboard's Top 200 album chart. The LP set a record in 1980 when it had stayed on the charts for 303 weeks, surpassing the record holder at that time, "Tapestry" by Carole King.

**Mick Jagger** successfully defended himself in a federal courtroom in White Plains, New York, against a claim that "Just Another Night" was based on a song by little-known New York reggae musician Patrick Alley. A six-member jury deliberated for two days in the case before rendering its decision. "My reputation is really cleared," Jagger said after the verdict. "If you're well-known, people stand up and take shots at you. It's one of those things in a litigious society." Outside the courtroom, Jagger said the trial was "pointless" and "a bit of a waste of time for everyone." He said the songs were "totally different." "I still believe and I know that's my song," Alley maintained, despite the decision. Alley testified during the trial that he sent copies of his tune of the same name to radio stations in 1979, and sold 28,000 copies of the record. It was in 1983 that Jagger wrote "Just Another Night," which was released on his first solo album two years later. Alley's lawsuit asked for the \$6 million in profits estimated to have come from the album. Testifying in Jagger's defense, the chairman of music theory at the Manhattan School of Music said "any two songs in the world will have similarities." But another witness said a comparison of the songs showed them to be "virtually identical." Jagger also played rough demo tapes of his song for the jury during the eight-day trial, saying he never heard Alley's song until the lawsuit was filed in 1986. Jagger commented that he doesn't like Alley's tune, saying it's "sentimental" and "rather plaintive." "I don't want to cast aspersion on Mr. Alley. A lot of people in this courtroom don't like my music. Personally, I don't really like that song," Jagger said. He also testified that he's always given credit to other musicians when he has recorded their works. Before the case went to the jury, Jagger's attorney accused Alley of taking "cheap" shots at the Rolling Stones singer. Farley had said during the trial that Jagger "can't read the music, but he's got a pair of ears." One of the jurors was said to have gotten so tired of hearing the two songs in question that she "just screamed her head off in the ladies room" before returning to the deliberations.

Sales of compact discs rose 93 percent from 1986 to 1987, according to new figures from the **Recording Industry Association of America**. Sales of singles dropped 13 percent, and sales of record albums fell 15 percent. Cassette sales were up 19 percent. The total value of all pre-recorded music last year was almost \$5.6 billion, the RIAA says, a 20 percent increase from the year earlier and twice the dollar value of sales ten years ago. There were a total number of 706.8 million "units" sold in 1987, including 5.1 million cassette singles.

**David Bowie's** first network special, "The Glass Spider Tour," will air on ABC-TV on June 3rd. A home video will be released three days later, with a \$29.95 list price.

**Don McGhee**, manager of Bon Jovi and Motley Crue, has been ordered to serve 180 days in a community treatment center, pay a \$15,000 fine and be on strict probation for five years. The sentence is part of an agreement following his guilty plea on charges of helping smuggle marijuana into North Carolina. U.S. District Judge Earl Britt has also ordered McGhee to organize anti-drug rock concerts and records, and make a documentary featuring rock performers talking about the perils of drug use. McGhee also has been told to raise money from private sources for anti-drug charities, and to promote and manage free basketball clinics to help spread the word about drug use. Judge Britt says he drew up the unique sentence because of the "uniqueness of the opportunity." "Your actions and activities will be scrutinized more carefully than the average probationer's," Britt told McGhee. "There will be a

lot of people looking over your shoulder." If McGhee violates the terms of his probation, he could be given a five-year prison term. He had pleaded guilty in January to charges of smuggling 18 and a half tons of marijuana into Carteret County, North Carolina, in 1982.

The **British Designers & Art Directors Association** has decided that it won't give out any awards this year for album covers and promotional videos because of "low standards." "We genuinely felt that there was nothing at all that warranted an award," says Edward Booth-Clibborn, chairman of the group. "Designers are just copying and emulating ideas that have been done over the last year. There's no originality and breakthrough." The Pet Shop Boys won last year's record sleeve competition with "Suburbia." "About four years ago sleeve design was exciting and original but now it's become self-conscious, become like a business," Booth-Clibborn adds. "It's lost its innovation, lost its edge and desperately needs a revival." He says the record industry "should be exciting and wonderful, but instead it's become boring and safe."

**Eddie Van Halen** has been released from the Los Angeles hospital where he'd been admitted for a minor infection apparently caught while vacationing in the Fiji Islands. Van Halen are scheduled to begin "The Monsters Of Rock" tour May 27th at the Alpine Valley stadium in Wisconsin.

**Jean-Michel Jarre** is planning another outdoor audiovisual display like the concert he put on in Houston a few years ago. This one will be in London's Docklands, and it's scheduled for September 24. About two million people are expected to gather within five miles of the stage for the \$5 million event. Jarre is still writing the musical score for the event.

Two Los Angeles City Councilmen have announced a \$10,000 reward for information leading to the arrest of the men who shot guitarist **Larry Carlton** outside his home in Hollywood Hills, earlier this month. Carlton is in "a lot of pain," according to his manager, Charlie Lico. He suffered nerve damage from being shot in the neck, and it will take him up to two years to fully recover. Detective Ernie Bassett says there have been few leads in the case, and no motive has been determined for the crime. Carlton's whereabouts are being kept secret until the assailants, two black youths, are caught.

A new series of anti-drug public service announcements is being distributed by **Rock Against Drugs**. The new spots feature David Crosby, Siedah Garrett, Ted Nugent and Wendy & Lisa. "Crosby tells his own poignant story" in his spot, says RAD president Danny Goldberg, "Garrett does an original rap; we caught Nugent backstage, and Wendy & Lisa used a '60s style."

**Boz Scaggs** will have a new album out next month called "Other Roads." It's his first album in eight years. Scaggs, who still lives in San Francisco, plans a worldwide tour beginning in Japan in July. He'll tour the U.S. beginning in September. "Other Roads" features his former band members, Jeff Porcaro, Steve Lukather and David Paich of Toto. Singers Siedah Garrett and James Ingram, and keyboardist/producer Peter Wolf are also on the LP. Most of the songs were written or co-written by Scaggs along with Jim Carroll and Bobby Caldwell.

**Henry Lee Summer** says he's been influenced by the Beatles, Elvis Presley, James Brown, Otis Redding and Randy Travis. "I've never believed in heavy guitar solos," Summer says. "I'm content with just doing three-chord songs. If you buy my records and come out to see me play, then you'll know everything you need to know." Summer is currently on a 60-city tour to promote his new album, "Henry Lee Summer."

Phil Collins has been added to the lineup for the **Nelson Mandela 70th Birthday Tribute** concert scheduled for Wembley Arena in London on June 11th. Dire Straits, Simple Minds, George Michael and Whitney Houston are also on the bill.

Trial has been scheduled for June 13th for two men charged with murdering **Peter Tosh** at his home in Jamaica last September. Dennis Loban, a laborer who was already on parole for murder, and Steve Russell, a chauffeur, were scheduled to go on trial last week, but defense attorneys asked for more time to locate witnesses. The two are charged with the death of Tosh and two other people.

John Fogerty, David Byrne and Taj Mahal were in the audience for the riverboat blues jam at first weekend of the

**New Orleans Jazz & Heritage Festival.** B.B. King, Albert Collins and Stevie Ray Vaughan were the performers on board.

**Mick Fleetwood** of Fleetwood Mac has married his longtime girlfriend, Sara Recor, at the couple's home in Malibu, California. John McVie was best man and the rest of the band, including McVie's ex-wife, Christine McVie, were there as well. Fleetwood Mac begin a six-week European tour in Dublin May 9th.

**Crosby, Stills & Nash** and the Soviet band **Aquarium** will perform in Montreal June 3rd, as part of the 8th World Congress of the International Physicians for the Prevention of Nuclear War. It will be the first time that Aquarium has performed outside the Soviet Union.

The **B-52s** are in New York working on the follow-up album to "Bouncing Off The Satellites." Ric Ocasek is producing the album. Curtis Crowe of Pylon has been drumming for the group since Keith Strickland shifted to guitar following the death of Ricky Wilson.

James Brown, Delbert McClinton and Lou Rawls are among the performers scheduled to appear at the **1988 Beach Music Awards Show** in Chapel Hill, North Carolina on June 5th. The awards are part of a weekend of events in Raleigh highlighting Beach Music, where the official dance is the shag, an offshoot of the jitterbug. Frankie Avalon will host the awards program. Records by Delbert McClinton, Clarence Carter, Buddy Skipper and the Entertainers are among those nominated for Album Of The Year. There are also award categories for Beach Show Club Of The Year and Best Shag Club Of The Year.

**Bob Geldof** has asked to cover "Trick Of The Light," a song on the Triffids' "Calenture" album. Geldof is now working on his second solo album in a London studio.

The **Georgia Satellites** have finished recording their next album, "Open All Night," which should be out in early June. The LP includes ten tracks, including a cover of "Don't Pass Me By." Jeff Glixman, who worked on the band's first LP, again produced this one. Ian McLagan, formerly of Faces, added keyboards to some of the tracks.

**Love Tractor** have left Big Time Records, and are recording new demos at the Drive-In Studio in Winston-Salem, North Carolina, with Mitch Easter producing. Formed in 1981, the band released two albums and an EP on DB Records, and released "This Ain't No Outer Spaceship" on Big Time in late 1986. The band, formed in 1981, is planning a lengthy east coast tour in May with stops in Washington, Philadelphia, New York City and Boston.

"Forty Miles To Saturday Night" is the latest Australian single from **Paul Kelly & The Messengers**, who are known as Paul Kelley & The Colored Girls in their native country.

The team of **Brian Holland, Lamont Dozier and Eddie Holland** has been inducted into the Songwriters Hall of Fame in New York. They performed their songs, "How Sweet It Is To Be Loved By You" and "Baby I Need Your Love" at the 19th annual Songwriters Hall of Fame Awards banquet, sponsored by the National Academy of Popular Music.

The **Smithereens** were named the best rock & roll band at this year's New York City Music Awards. They beat out Marshall Crenshaw, the Ramones, Vernon Reid and Buster Poindexter for the honor. "They're very different acts stylistically, but all are the best at what they do," says Smithereens singer Pat DiNizio. DiNizio adds that he's aware some people take issue with the band's lyrics. "I get called a dour, unhappy individual, but that's not really the case," he says. "Many lyrics are the result of acting like a journalist who externalizes what he sees. If the lyrics were a complete reflection of my personality, I'd have been put away or I'd be on tranquilizers. I've always been interested in love songs -- the light and dark sides of love. Hopefully, I'd like to write about other things some day, but I wouldn't want to write political songs or something stupid like that. On the 'Green Thoughts' album I was just interested in writing about relationships -- and that's something everyone can relate to."

**Prince** has given the **Three O'Clock** one of his songs, "New Telephone," for their next album. Wendy & Lisa will contribute backing vocals to the band for the "Vermillion" album, which is being released by Prince's Paisley Park record label.

**Cinderella** will have their second album, "Long Cold Winter," out in May. It was produced by Andy Johns.

Veteran Australian harmonica player **Chris Wilson** has a new Melbourne-based band called Crown Of Thorns. Wilson, formerly of Harem Scarem, which broke up last year, has done session work with a number of other bands. Crown Of Thorns has released a mini-album, "Gnawing On The Bones Of Elvis," and has just begun live performances.

**Mitchell Froom** is producing Crowded House's next album, tentatively titled "Temple Of Low Men." It's likely to be released in June.

Atlanta's **DB Records** will celebrate its 10th anniversary Memorial Day weekend at the historic Royal Peacock on Auburn Avenue. The Coolies, the Swimming Pool Q's, Fetchin Bones and Right As Rain are among the groups scheduled to perform and participate in a Sunday afternoon jam. The first release on Danny Beard's label in 1978 was the B-52s "Rock Lobster"/"52 Girls." DB will soon release a compilation album of rare or unreleased tracks in connection with the anniversary. "Squares Blot Out The Sun" will include tracks from Pylon, the Fans, the Brains, Oh OK, and the Side Effects.

**Steel Pulse** will be opening for about one month of INXS's Canadian and U.S. dates, starting in mid-May.

**R.E.M.'s** signing to Warner Brothers Records is now official. The lengthy contract was signed in Athens, with Warners chairman Mo Ostin there for the event.

**Phil Walden**, who founded Capricorn Records, has announced he's now managing actor & comedian Jim Varney, best known for his "KnoWhatImean?" character, Ernest P. Worrell. Walden is currently negotiating with some musical artists for representation, and is working as associate producer on a film about his relationship with Otis Redding that is currently under development. Varney, meanwhile, has begun filming "Ernest Saves Christmas" in Florida. Not surprisingly, the film should be out a few weeks before the holiday.

**AC/DC** begin a major U.S. tour in Portland, Maine, on May 3rd. Their dates continue through mid-September, and the tour might be extended.

**Tracy Chapman**, a native of Cleveland, says she was surprised that a major record company wanted to release her material. Instead, she expected to only have her music released on an independent. "Music was never just a hobby for me," Chapman says. "I'd pick up a guitar every day to work on whatever I was writing at the time. I would put my ideas in songs the way some people might put them in diaries or journals."

Rodney Crowell and Rosanne Cash contribute vocals to the debut album from **John Kilzer**.

Members of Motley Crue and Van Halen participated in a benefit concert in Los Angeles for the **Special Olympics** and the **L.A. Junior Chamber of Commerce**.

**Adrian Belew** says it's always enjoyable to record a Bears album. "Most of the songs on the last record weren't even written before we started recording. We just went into the studio and started playing and wrote another 10 songs," he says. "It's a lot of fun. We disagree, but we don't fight." Belew says the band has already finished five songs for its next album and the group is working on another four. "We should have it out by September. I'm also working on my next solo album. It's got lots of wild guitars and voices."

**Brown University** has decided it doesn't want MTV to cover its four-day spring celebration because it doesn't want to be perceived as a party school. A vice president for the school says he didn't like MTV's coverage last year of spring parties at the University of Connecticut, Syracuse University, Indiana University and San Diego State. "It was very clear to us that they emphasized all of the party, social and drinking side of the thing," says Robert Reichley. "I just don't think we have any desire to fall on our own spear and expose ourselves to that kind of thing."

Just out on home video is something called "Arena Brains," said to be an avant-garde short story from noted punk artist **Robert Longo**. Music from the Cure, the Doors, Anita Baker and PIL is featured. Longo produced R.E.M.'s video for "The One I Love," and Michael Stipe is a central character in the story, which is about a guy who gets tired of sitting at home and goes out to have a sandwich.

## BRIT-PICKS Albums:

### "The Innocents" by Erasure (Mute)

One reviewer noted this week that Erasure should be up there next to The Pet Shop Boys and she's absolutely right. This is the duo's third album (following "Wonderland" and the more somber "Circus") and this is undoubtedly their best - breathtakingly addictive synth pop songs that will have Vince Clarke's former colleagues in Depeche Mode green with envy. It will be a particularly strong summer pop album by which time it will probably have gained some momentum in North America. Alternatives should definitely check this out.

### "Barbed Wire Kisses" by Jesus and Mary Chain

A collection of B-sides, acoustic versions and a couple of new songs. Actually sounds a lot better than their last album "Darklands" as this contains a lot of humor and the less serious side of the band. "Kill Surf City" for instance goes for The Beach Boys jugular. Also included their first single "Upside Down", never before on an album and their fab last single "Sidewalking" which, after premiering on British radio, the progressive deejay John Peel lifted up the stylus, put it back to the start and played it again!

## UK MUSIC NEWS

More details are emerging this week concerning the large Amnesty International world tour in the fall called "Human Rights Now!" The tour headlined by Sting and Peter Gabriel, will visit five continents including several third world countries. Sponsored by Reebok, the shoe people, the tour will call by Argentina, USSR, Brazil, Costa Rica, Poland, Zimbabwe, India, China, The Ivory Coast, Thailand and other countries in southeast Asia are to be announced. The latest band to announce their support is REM and it is hoped that they will also join part of the tour. Just confirmed is the excellent African singer Youssou N'Dour. All officials are keen to stress that the tour is not for fund raising, but to raise the level of awareness about both the activities of the organization itself and the Universal Declaration of Human Rights, enshrined into the charter of The United Nations forty years ago.

Holly Johnson, The Stranglers, The Communards, Aztec Camera and Everything But The Girl are some of the artists who will perform at the second annual International Aids Day Festival at London's Wembley Arena May 29th. Many more are expected to join the bill over the next few weeks. The proceeds will be going to Action Against AIDS and The Terrence Higgins Trust, who are primarily involved in building hospices in Britain for AIDS patients.

The Pogues claim that one of their songs was censored on British television. The band had just begun performing a protest song about Northern Ireland called "The Birmingham Six" when the network, Channel Four, faded them out for a commercial break. An angry Pogues manager Frank Murray said: "I was disgusted by what happened...We spent two days rehearsing our songs so they should have had a good idea of our timing - they had 48 hours to get it right. The producer of the show the group appeared on, (a late night live mixture of comedy and music, "Friday Night Live"), Geoff Posner replied on television, by first airing the song in its entirety. "There was absolutely no censorship involved in taking The Pogues out early. If we had wanted to censor them we simply would not have allowed them to perform the song in the first place...It is a live show and if we allow overruns to accumulate then somebody ends up getting cut out altogether." Frank Murray though, remains unsatisfied claiming that the show actually had time to fill by its conclusion.

Just out in Britain is the new Simple Minds biography by Adam Sweeting, critic for the London based "Guardian" newspaper and former writer for "Melody Maker". Originally this book had been commissioned by the band as the official biography, but upon reading the finished manuscript, the group, apparently horrified, rejected it and commissioned a Dutch journalist to pen what Sweeting later referred to as "...a load of sycophantic hippy nonsense!" Now four years later

we are at last able to read what the band found so offensive and the answer is, not very much. Mr. Sweeting's sins appear to be referring to "The Glittering Prize" album as "...the runt of the litter.." and to describe a few listens to "Sparkle In The Rain" "...like being hit by a low flying brick.." Apart from anything else the book is a good read and recommended to fans and foes alike. Simple Minds by Adam Sweeting is published by Sidgwick and Jackson priced 7 pounds - 95 in the U.K.

The second "Sense Of Ireland" festival runs from May 1st - 21st at The Riverside Studios in west London, the first was held some eight years ago and among the acts performing was the little known U2! Van Morrison will be performing a date with The Chieftains. Tough new rockers Asland will be showing their teeth, or, as a complete contrast, the contemporary classical music of De Dannan. As a multi media event, there will also be plenty of films, fringe theatre performance and lectures.

UB40, Phil Collins, Midge Ure and The Bee Gees have joined the bill for the Nelson Mandela 70th birthday show at London's Wembley Stadium on 11th June. They join Sade, Dire Straits, Whitney Houston, Simple Minds, George Michael, Eurythmics, Chrissie Hynde and Maxi Priest. The rights to the event being sold to an American television network and once this process is complete, organizer Jerry Damners says he hopes for some American artists to come forward too. (It has been noted by observers here that coincidentally, Bruce Springsteen will be mid-way through his British tour at the time.) Damners also says that he wants the artists who play to have proper sets, not just brief appearances. The Wembley concert will be screened around the world...except South Africa!

The Housemartins final release will most likely be their double album "Now That's What I Call Quite Good" released on GO! Discs 9th May. It spans their career from their first single "Flag Day" to their last "There's Always Something There To Remind Me" and includes their biggest hit "Caravan Of Love" which has never appeared on an album before in the UK. There's also plenty of B-sides and rare tracks including some BBC radio sessions.

"Compact Discs" is the generic title for a range of new four-track CD releases from A&M (UK). Artists in the initial releases include The Police, Styx, Joan Armatrading, The Wild Geese, The Carpenters, Hazel O'Connor, The Alarm, Atlantic Starr, Quincy Jones, Iggy Pop, and Herb Alpert. The series serves two purposes - to replace favorite scratched singles and to put out a few extra tracks on CD that are unlikely to be released in that format. Chart compilers will now be scratching their heads to decide whether the series will qualify as singles, "LPs or albums or all of those!!

Phil Collins, T'Pau, Midge Ure, The Four Tops, Eric Clapton, Rick Astley, Wet Wet Wet, and others will be appearing at this year's Prince's Trust charity concert at London's Royal Albert Hall 5th & 6th June. As usual, the event will be attended by Prince Charles and Princess Diana and all proceeds go towards the trust, which helps disadvantaged young people in Great Britain.

**Carter Alan, WBCN, Boston**

WBCN's Spring Concert Series was graced with a fine rock and roll show from the BoDeans who packed Boston's Metro. The 104 minute show included five live versions of 'BCN's Hits: "Fadeaway", "Only Love" and "Dreams". The group also did a surprise second encore that included "I Wanna Be Sedated!" Most real rockers have already seen this band live but if something has delayed you from doing it, go for it. Thank you to Andy Govatsos and crew from Reprise for the help on the broadcast. Next up in the concert broadcast series is the Alarm, Smitherens and 10,000 Maniacs all this week!... We were a bit apprehensive about the new Rod Stewart record but upon playing on the air, realized that it sounds quite good. Rod has rediscovered his rock and roll roots which have not been lost in the production of "Lost In You".... Also checked out Peter Murphy at the Paradise Theater in Boston. The former lead singer from Bauhaus missed his former bandmates who are now Love & Rockets by only three days when they played the Orpheum. Peter's "All Night Long" sounds great and is well worth adding and playing on the air at 'BCN.... And finally, best album cover of the century: Thomas Dolby takes a big step toward that honor and "Airhead" is a natural.

**Erin Riley, WMMR, Philadelphia**

Thanks you's Part 2. First of all to Paul Carrack and his angelic voice, who even as we speak is singing "Tempted" over the airwaves of WMMR. Warming up his pipes for tomorrow night's big 20th Anniversary shindig at the Spectrum. Secondly to Kevin Sutter for getting him here. Harvey Leeds for feats above and beyond the call of duty. Paul Rappaport and Herb Gordon for the anticipated bash of the century. I have to thank you guys in advance just in case I can't write next week, and to Denny Somach, just for being himself.

**Jim Steel, WIOT, Toledo**

Thanks to everybody who has called with some helpful advice concerning our CD dilemma. Certainly seems as if we're not the only ones with problems either.... A couple of weeks in a row and Robbie Robertson's "Crazy River" has proven itself from our new music show. Seems to be a highly popular female request item.... I think a lot of folks underestimate the value of a rockin' Rod Stewart tune. "Lost In You" shows that Rod still has what it takes to make it to the top.... A couple of tunes are progressing from the new music show. Joanna Dean has a rock and roll anthem for women and Living Colour smokes big time.... P.S. Def Leppard's "Loves Bites" is top 5 phones. Somebody is snoozing.

**Lorraine Caruso, WNEW, New York**

It's amazing how the same trend is starting to happen with Tracy Chapman as it did with 10,000 Maniacs. "Fast Car" is a strong track, picking up momentum every time it's played.... Will & The Kill did a fun rockin' broadcast at the Bottom Line. At age 17, Will Sexton and his band have a lot of potential. Thanks to Randy Hock and Bobby Shaw at MCA.... Joan Jett is off to a great start in her home town with "I Hate Myself For Loving You" in heavy rotation, and tying for #1 requests with Cheap Trick's "The Flame".... Living Colour is also hot in NYC scene with Vernon Reid's incredible guitar licks. "Middle Man" is hip, happening, and sounds strong on the air.... RCA has two home runs, Bruce Hornsby and Graham Parker.... Let's hope Midnight Oil's "Beds Are Burning" goes to #1.

**Mike Boyle, WDHA, Dover**

Being a Graham Parker fan for so long, it's always great to get something new from him. "Start A Fire" is the spark that will keep us playing "The Mona Lisa's Sister" well into the summer. Nice to have you back, Graham.... By the way, for some fun, check out his new version of "Cupid" on the album.... Speaking of nice to have you back, Rod Stewart has done the record he needed to do. It rocks, it rolls and sounds great on the air.... There's a couple of flavor tracks you need to check out this week. First, put Then Jerico's "Let Her Fall" in your CD player

and hit the repeat button.... After two or three times, you'll hear it, too!.... The other record to mention is from Shona Laing, "Soviet Snow" was an easy one listen tune that has a message. Let's not hear any dumb excuse like "There's too many female records on the air"! Just play a good record and watch the reaction.... Thanks this week to Randy Hock and Bobby Shaw at MCA. Will & The Kill were fantastic in NYC. Thanks to Randy for giving up your Monday and bringing Will out for an interview.... P.S. Randy, any truth to the rumor that your favorite color is now pink?

**Joe Blood, KEZO, Omaha**

After three consecutive weeks in Top 5 phones, Cheap Trick's "The Flame" moved from medium to heavy.... To get a jump on the CHR competition, we have accelerated our play on Eric Clapton into heavy and in the same vein we have also upped the Glass Tiger this week.... We listened to a lot of music and out of everything on our turntable the song with the best hook is John Kilzer's "Red Blue Jeans". Even though it is in that generic midwestern feel of John Cougar Mellencamp and Henry Lee Summer, we feel very strongly that it will carry itself.

**Pam Edwards, KGB, San Diego**

Major thanks to Patti Oates and Warners Brothers for the intimate dinner at Rod Stewart's little shack. This place has to be seen to be believed. When Rod asked me if I had seen the ballroom yet, I thought it was a joke. It was no joke. Imagine a 50 foot ceiling, priceless artwork, marble floors, sculptured garden, etc. and you get the picture. Then came the music. Rod is most definitely rocking again! With Andy Taylor's help, Stewart has crafted an exceptional album. Track after track, it is immediately apparent that this will be a major release.... Personal to Mark Felsot (AKA Dance Fever King): Get down!

**Mad Max Hammer, Z-Rock Satellite**

Z-Rock dives deep into the new Poison album "Open Up And Say Ahh". We're about eight cuts deep. Another guaranteed platinum and crossover smash from the L.A. rock pigs. The song "Fallen Angel" is a rippin' smash.... The Vinnie Vincent Invasion has a new singer with the same sound in Mark Slaughter. It's "All Systems Go" for the Invasion. This one will do just as good if not better for Vinnie Vincent.... I really like the Queensryche, but I'd like to see them break out of the eclectic mode. This one will go gold and beyond for them.... The new Testament, besides the track "Nobody's Fault", caters to the headbangers and the real rockers, too.

**Dave Richards, WWRX, Providence**

I don't usually go for this phone bullshit but we added 10,000 Maniacs and instantly the request activity went through the roof. This band is getting phenomenal response and there is no denying it.... Top phone action for Ziggy Marley and Tracy Chapman this week also.

**Pam Brooks, WPDH, Poughkeepsie**

Kick my butt, rock and roll! Have you cranked up that smoking sampler cassette of John Norum on Epic? Not only could I die for his lips but the guy has a real winner here. Full-tilt guitar work and those mournful "my baby done left me" lyrics that make me wanna tell him, come on over to my house. I can't wait to get my hands and ears on the rest of John's vinyl.... Setzer's back to add fervor and flair to the air. Gritty, with a great beat, jamming horns and the babes giving hot back up vocal, wrap this tune up into a neat package that gets our nod. "When The Sky Comes Tumblin' Down" exposes this Stray Cat at his strongest in years.... Another amazing show passed through Poughkeepsie last week. Thank God for a venue like The Chance and all the incredible artists that are on the road right now. I've had the pleasure of catching the BoDeans several times and with every show it becomes more evident why they were voted best new band in Rolling Stone. This show was non-stop energy and all of their super songs trans-

late to the stage and audience in a very positive way. Thanks to Bob Divney for another hot night.... In the vital vinyl department, I love the feel of Rocky Hill's "I Won't Be Your Fool". Just enough of that Texas bar band gumption and tons of talent that make me anxious to find room ASAP.... Thanks to Bill and Rose McGathy for coming up to my neck of the woods for a night on the town. My baseball cap is ready and my appetite is growing.

### **Mary London, WRFX, Charlotte**

Yngwie is coming on strong in sales and requests. Now in our top 5, and very quickly showing within top 30 sales.... Adds this week: Love the Timbuk 3, especially perfect for Charlotte, NC which is Jim and Tammy country. Any morning team in the world that's not using that song now should be.... Scorp's "Rhythm Of Love" goes to heavy. Excellent. A real good album, and I think people will see more and more strength as they go deeper in the album.... Same with Yngwie where "Dreamer" should be an incredible hot track. "Chrystal Ball" and "Deja Vu", too.... Hornsby goes to heavy. I'm impressed that he beat the Grammy new artist jinx and has come back so strong.

### **Inessa York, KGON, Portland**

I wanted to mention that Treat Her Right and Kings Of The Sun are just working very, very well for us. The kind of music that is attention getting and worth the time. "Serpentine" moves to heavy, but other than that there are no chart surprises.... Had a chance to listen to more of the Trower. God, who's this Davey Pattison guy? I really like his voice.... Top 5 personal favorites: Graham Parker #1! It's very, very subliminal, with all kind of quiet little things going on. I'm just flabbergasted.... Also I really woke up to the talented duo that is Timbuk 3. Jeez, what an album. I don't know where I was on that last album.... Rod Stewart's new single would be #3. All the right things and that great Andy Taylor touch. I like it.... John Kilzer is lots of fun.... I'm a fan and the more I hear Bruce Hornsby the more I like it.

### **Ron Marsh, WKWQ, Columbia**

Hey, I love the Hard Hundred on the first page of the sheet, good move.... What sounds like Grand Funk meets Thin Lizzy? Check out Kings X for the answer.... Poison was the most requested song on our All Request Show and we weren't even playing the damn thing! We are now.... With every listen, Graham Parker gets more luscious in our speakers.... Does anyone else think that Pat DiNizio looks like The Count on Sesame Street?... The Scorp's scorch and our mission in the US should be to break the Mission UK.... And, one last thing, what was all this hoopla a few weeks ago about Robert Tep- per?

### **Anthony Alfonsi, WDVE, Pittsburgh**

Rod Stewart's "Lost In You" is something AOR can deal with a lot better than some of the other stuff from Rodney's past. It's a record that doesn't make you cringe, as a matter of fact it's a pretty good record.... Poison's "Nothin' But A Good Time" is definitely a good time record which, of course, will be a big hit with the young people.... Pink Floyd is an automatic as well as White Lion's "Tell Me", especially with album sales still going strong.... I had a chance to see The Affordable Floors, a local band, the other week and they put on a mesmerizing show. They have just released a CD that has some great songs on it. I will be keeping my eyes on them and you should, too.

### **Butch Lazorchak, WVW, Blacksburg**

The Incredible Casuals may not be on everyone's music list but you should dig it out and give it some time. When the chorus on "I Got To Move" kicks in, you know you've got something special.... Graham Parker has some of the most brilliant wordplay I've heard in awhile, it just reads so well. From day one, his stuff has been important, he has just needed a break and this sounds like it.... Tracy Chapman has gotten a lot of good phones for us and moves into heavy this week. I thought we might get some negatives when we put her on the air but I haven't gotten one bad rap phone call. This song has the aura of being a very special record.

### **Curt Cartier, KEZE, Spokane**

I want to party with Joanna Dean.... The only problem with Neil Young's "This Note's For You" is it's too short. Do you think the animals at Reprise could put out an extended, urban, suicide, hung-like-a-pony, downtown, club, deliver-us-from-evil, dance mix?... Michelob sales are going through the roof with Clapton in heavy.... I'm a Rod Stewart fan again.... Buzz Tunes are from Kings Of The Sun, Joanna Dean and Living Colour.... Vernon Reed is a certified Wiz, give it a listen if you're not banging it already.... Quick honey, hide the kids, Maiden madness is a monster. Eddie and his mates kick off the world tour here May 31st.... And, oh yeah, we spun the Ozzy and Lita ballad once. Top ten phones half an hour later. Trust me, this one will set the phones ablaze.

### **Christina, WPLR, New Haven**

I must admit to being slightly startled when I checked the chart position of 10,000 Maniacs. It's been working so well for us I guess I just assumed everyone else was spinning it too. It's incredible how the sales of this album have skyrocketed and, even with the song in our power rotation, it's still a top ten request item for us. Please play "Like The Weather".... Thanks to Capitol's Merv and the Smithereens for being so nice when they stopped by.

God, is that new Testament album hot! Not just the Ep but the whole album. It's unreal how far these guys have progressed. Every song including the two instrumentals are radio ready. The "New Order" will blow your mind.... Another very hot release is the new Vinnie Vincent Invasion. This record is going to go a long way. Commercial radio will eat this one up. Vinnie is still progressing as a songwriter and guitarist. Make sure you get the CD for two extra instrumentals.... Speaking of things to get, go to your local import store and get the Guns N' Roses 12" with live "Whole Lotta Rosie" and "Knocking On Heaven's Door". My audience is dying for those cuts. Major phones.... I would like to publicly apologize to Penny at Rhino for not playing Only Child sooner. Killer track from a very hot sounding band. Sort of Y&T meets Hagar. In fact, I had a couple of calls from people thinking it was the new Van Halen.... Also, throw Sister Double Happiness on your turntable and have some down home fun. "Freight Train" is the track.... Fates Warning still rules for me, I did an hour long segment on them on the show last week with interviews and a lot of the new album. This record smokes.... Other fire burners that you gotta play are Toxik, Znowhite, Riot, Killer Dwarfs and Hurricane. The last two should be on commercial radio now. Thanks to Diana of Metal Blade for all the interviews, CD's and giveaways. Way cool, lady!

**Doug Clifton, KBCO, Boulder**

A busy concert week with Pink Floyd, Bruce Springsteen and Terence Trent D'Arby in town. The hottest show of the week was definitely Springsteen. No one can top his rock and roll show.... Thanks to Joe Schulb for the tickets.... New music this week, Robin Trower, Graham Parker, John Kilzer, Grapes of Wrath and E\*I\*E\*I\*O.... We're getting immediate response to the Eric Clapton collection. We've decided to put the more recent material in as currents and the older stuff into our library.... The Tracy Chapman story continues to be quite impressive. She's top phones for the third week in a row with a retail debut in the top 5.... Bruce Hornsby debuts on phones at #2. The new album is a great followup to "The Way It Is".... Also getting good phones: 10,000 Maniacs, Ruben Blades and Treat Her Right.... This Saturday is the official kick off to the Kineticfest '88 with the Kinetic Parade in downtown Boulder Saturday afternoon, followed by the kinetic ball Saturday night at Boulder's coast starring Albert Collins.... New Music Express: This week we included an interview clip from Ruben Blades plus we played the track "Calm Before The Storm" which received good response.... We also played another cut from Peter Murphy "Dagnet Drag"!... Other artists featured on the NME were Devon Square, live Stranglers and the Mighty Lemon Drops.

**Charlie Foster, WNGZ, Elmira**

We've all heard rumors about David Bowie and Elton John and yet we've never had any problem playing their records. This time a gentleman who lives in an oxygen tent and plays with monkeys comes out with a record that there's question to whether or not we should play it. Fortunately, this artist has also chosen a spectacular guitarist to work with him on the song. Steve Stevens is what MAKES this record and makes "Dirty Diana" eligible for your playlist. Over the weekend, we played "Dirty Diana" and got nothing but positives. All the adult calls were all in favor of Steve Stevens. His work makes this record and therefore it's a record that even though Michael Jackson sings, will do well.

**Mike Marrone, WHTG, Asbury Park**

It's good to see Graham Parker back with Brinsley Schwarz! If this is any indication of the forthcoming album, it sounds to me like it will be his best effort since "Squeezing Out Sparks".... Thomas Dolby's "Aliens Ate My Buick". It's been a long time

since we've had anything new from this nut and it's certainly good to hear TD hasn't mellowed or lost that crazy sense of humor. My personal fave is "Key To Her Ferrari", but the whole record is just chock full of neat shit.... "Majestic Head" from the Soup Dragons is on the air right now at WHTG, and boy, does it sound great. I still think these guys have some kind of "Head" fixation but who could blame them?... Although a couple of really good tracks were left off the X live album like "I Must Not Think Bad Thoughts" and "Cyrano De Bergerac's Back", the double album sounds phenomenal anyway! If you've never played X before because you thought they were a punk band, then listen to this. If you still don't think they fit your format because of preconceived ideas, than you really haven't listened!... Speaking of which, another band that is totally misunderstood is the Dickies. (Unless by some strange reason, all the Dickies fans are in our listening area). By not playing "Killer Klowns", you're missing out on a great audience response track!... Soul Asylum's "Sometime To Return" is one great song that's real catchy. It's becoming a staff fave and it's already in the Top 10 requests.... A couple of new records to listen to are The Prime Movers, The Bone Daddies, Band Of Susans "Thorn Of Blood" and The Chills. Have an electric day. Your pal, Spike.

**Ralph Tortora, WBAB, Long Island**

Do yourself a favor, check out Bobby McFerrin's version of "Sunshine Of Your Love". I guarantee it will flip you out (especially the vocal guitar solo)!... Why does Chris Blackwell always seem to be so damn right? Melissa Etheridge is very special and should be dealt with soon.... Congrats to Danny Buch for his newly acquired and much deserved promotion.... Well, my rock and roll brothers and sisters it's a fact! A great song is being completely overlooked, simply because the band is not on a major label. "Hey Cecelie" by E\*I\*E\*I\*O has proven to be very successful to us, the audience response has been overly positive. I thought with the inroads made by various independent labels recently (Enigma and Relativity most notable), E\*I\*E\*I\*O would have a chance on the national level. Apparently, I'm wrong and it's really a shame because this tune is a killer.... Speaking of killers. Have you heard Bobby McFerrin's version of "Sunshine Of Your Love"?

**Jody Petersen, WNCS, Montpelier**

This week's NCS spring line up is a multi-faceted team of the old guard and new.... Neil Young's at the mound, Tracy Chapman's behind the plate, and on first second and third, Joni Mitchell, Jimmy Cliff and Toni Childs.... Ziggy Marley makes his debut as shortstop, James Taylor is covering right field while the Talking Heads cover left. In the center and outfields, the Smithereens and Midnight oil. Let's play music!

**Paul Kriegler, KRCK, Omaha**

The Soup Dragons make great psychedelic pop music. Listeners loved their last album, and I like the idea of having an interview on the CD single of "Majestic Head". If this is any indication, the album should be dynamite.... Ziggy Marley's album is selling gonzo at retail (top 5 at three stores in the city). So many things to chose from, requests like mad and there's not one excuse not to play this album which is clearly more than just reggae.... The Pixies are such a unique group. Many people call out of curiosity for the new album, "Surfer Rosa". It should pick up on sales soon.... Peter Murphy is starting to perform at retail and we're getting lots of requests for "All Night Long". There's some great music contained on the new album, "Love Hysteria" and it looks like there's more success to come out of Bauhaus than just Love And Rockets alone.... Speaking of Love And Rockets, check out the new Bubblemen 3-song 12". Rap? Hmmm.... Thanks to Mark Cohen for the entire Cure catalog on CD and the home video. A true dude.... Timbuk 3 is dynamite. They are a great songwriting duo who can't be beat. A real catchy song is "Too Much Sex" which was in the movie "DOA".... The Sun And The Moon (ex-Chameleons) is an album that AOR programmers will be kicking themselves, wishing they could play it!

**Joe Simon, KTCL, Fort Collins**

Thomas Dolby and Peter Murphy move into hot rotation this week. These Lps along with the Mission UK are some of the coolest shit to come out in a long time. These albums are what alternative radio is all about. If there were ever any questions about Thomas Dolby's genius, there should be none now. "Aliens Ate My Buick" is a work of art featuring several infectious funky tunes including "Airhead" and "Hot Sauce". Thank you, Mr. Dolby!... As expected, the phones are lighting up for Peter Murphy. Of course, his fans remember him from his days with the phenomenal cult band, Bauhaus. But what we have found is that his Lp sounds so good, that he has garnered an impressive new following of fans who know nothing of his previous work with that band. He is hot, and he is a hit!... The Mission U.K. album is going to be a very strong one. Their tight smooth sound has a cutting edge that won't quit. The Mission U.K. is conquering America and they are legitimate alternative radio monsters!

**Jetson, WOXY, Oxford**

Many thanks to Jim Cortez from Elektra Records for bringing Natalie Merchant of 10,000 Maniacs by the station for an interview. The Maniacs sold out their concert in Cincinnati and tickets on the street were going for \$100 each!... Also it was great to see Tracy Chapman open the show. Her song "Fast Car" has become a major hit for us. It's the #1 request again this week... I'd like to rave about the new Neil Young album. We're three cuts deep on it and Neil's sounding better than ever.... After just one week, Thomas Dolby's "Airhead" has moved to Top 5 requests.

**Jamey Carr, KACV, Amarillo**

Is Bruce Hornsby great or what? Lots of ladies on the phone wanting "Valley Road".... Speaking of the ladies, Tracy Chapman and Shona Laing rule our request lines.... Ziggy is a runaway and so is Joanna Dean.... Check out the Prime Movers! It is the most overlooked record of the year.... The FCC has turned the market's classic rock station back on, so we'll put our old Black Sabbath records back in the trunk with the beads and black light posters.... Please notice Brian Frank is now listed as MD. Call him! He is so lonely.

**Ivar Hamilton, CFNY, Toronto**

After airplay of the Depeche Mode import "Route 66", the new Ivan Ivan remix has given this song and "Behind The Wheel" a brand new lease on listener response. We moved the record back up the chart and are once again getting top ten phones.... Likewise, those who are skeptical about "Blue Monday '88" should take into consideration that there is a whole new young generation who have just discovered New Order around the time of "Bizarre Love Triangle".... I know there are many stations who had great success with the recent Screaming Blue Messiahs album. The new 12" mix of "I Can Speak American" is quite superior to the original.... Peter Murphy continues to get great response and is possibly one of our best new records on the air right now. "All Night Long" was originally in Murphy's live set when he toured America in 1987.... Thanks to the Godfathers, Love and Rockets, Timbuk 3, and the Bears for interviews this week.

**John Cooper, WPYX, Albany**

The Tracy Chapman story continues. We are receiving call after call from inquiring listeners. Overwhelming positive response places it in the top 5 of the week. We are seeing good initial retail.

**Tom Van Sant, WIZN, Burlington**

Face To Face will break through with the song "As Forever As You". It's their best rock record yet. We can all use more songs with female vocals and Lori Sargant's are some of the best around!... Speaking of female singers, a major success story is brewing in our area with Tracy Chapman. Her album sales

debuted ahead of Eric Clapton, Sting, George Harrison and Pink Floyd. She is one of our hottest request items too. For depth, try "Talkin' 'Bout A Revolution".... Robin Trower is a natural for us and the audience is clamoring for more.... All hail, Joe Satriani! "Surfing" moves into heavy and the Lp is #1 sales.

**Mike Gardner, KOAS, Kealakekua**

Most impressive this week is the Divinyls' new release; followed by Ronnie Montrose, Ziggy Marley, Bill Carter and Jenny Morris. The latter two doing some great basic rock and roll.... We just had a rare concert happening here with Humble Pie. We really appreciated the live rock show here in Hawaii.... Which leads me to invite groups or labels to call me about the possibility of appearing on the big island of Hawaii sometime in the near future. Please call (808) 323-2011.

**Jon McGann, KFMX, Lubbock**

During the tax season, we instituted a program called the "10:40 Blues" at 10:40am; tax advice with a double shot of either classic or contemporary blues artists. It went over well and even though tax time is over, due to popular demand, we continue to run the program five days a week at 10:40. If you've got blues we can use, please send them along to my attention.... Here in sales, Iron Maiden has beaten everybody by far the last two weeks, so I'm glad we put it on. Mostly younger demos, but outrageous calls.... Everyone seems to love the Smithereens, from the oldest listeners down to the youngest.... Like the Rod Stewart. I waited for smoking guitar and I got it.... We've never played Poison, but we're in this time because with no airplay before (not even on CHR), the record sold great, and we figured that although targeted toward a younger audience, it is accessible for everyone who has to put in a day's work for a day's pay.... Also new: Lita Ford. I predict this will be one of our top request getters ever. When Ozzy's voice kicks in, you have to stop everything and listen. And Lita's no slouch when she does her bit either.

**Drake Hall, WEGR, Memphis**

Since Tim Spencer is doing mornings and is up to his weenie in other things, you should call me to talk about music. You can call me Fridays and Mondays Noon-2, and Kelly will keep her same hours, 8-10 Monday morning and after 3pm Friday. So call me or Kelly and we'll take care of bidness.

**Downstairs Dan, WQFM, Milwaukee**

Let's talk about Joanna Dean's hot new footstomper. I tell ya, I love it. Our night-time guy, Killer Kilpatrick has a feature called "Dig It Or Die" at 8:20. He gave this one spin for the first time last week, and generated an incredible amount of positive calls. Terrific response!... Iron Maiden is really retailing well here. We gave it a couple of spins. They're always big in this town, and this is a perfect market record for us.... Hot little rocker from John Kilzer. Straight forward stuff with a catchy hook and great melody.

**Jim Kelly, KATP, Amarillo**

We had an incredible week with Tracy Chapman. If you have any doubts about it, put it on once or maybe twice. It really does work. We moved it up to heavy because it was our #3 request. People are buying it because of play on our station.... Joanna Dean is the biggest song of the spring. It's one of those songs you can dedicate to anybody. Requests are coming in from all ages.

**Harve Alan, WAAF, Worcester**

Thanks to everyone who passed along their best. I can't remember having a better time in my career. I hope everyone gets a chance to hear today's WAAF. I truly believe it's better than ever. When in Boston, please come by and say hi (call first please)!... A couple of music notes. That new John Kilzer is great!... Also listen closely to the new Michael Bolton track.

This one could be as big as "Dock Of The Bay" was.... Local guys, Treat Her Right is not only selling but requesting very high! This band is breaking right in front of our eyes.

### **Dave Ross, KFMU, Steamboat Springs/Vail**

A few goodies that will go in this week are Thomas Dolby's "Airhead", a song with very interesting lyrics and a cool beat. I'm convinced that it will do well here. The entire album is very interesting and I'm grateful that "Aliens didn't eat my Buick".... Graham Parker's "Start A Fire" fits beautifully with what we're doing here. An all day-part song with great vocals. It cruises right along. Not a boring second in this one and I'm looking forward to the Lp.... Tracy Chapman pulls in top requests this week.... I also want to mention that I'll be on vacation for the next two weeks. Tim Jeffries will be taking calls for me.... That's it from the world's only wind powered radio station.

### **John Loscalzo, WRCN, Long Island**

Great names; great programmers: Marconi, Don Berns, Ivar Hamilton, Oedipus, Tom Langmeyer, Charlie Kendall, Scott Muni, Fred X-15 (PD of the future).... Add Tom Calderon to the list with a bullet. Tom takes over the PD slot at WRCN effective immediately. I grew up listening to Tom on 101 WINS and WBMV (take your pick, the believable one). It is an honor to be his first MD on what is certain to be a rocket to stardom.

### **Ted McEnroe, WBRU, Providence**

I've just been sitting here listening to this Graham Parker album. It's great! Guess what, Graham got happy. I don't know what it is but he's happy and it's a great Lp.... Speaking of happy things, how about that Ziggy Marley. It's the kind of tune that makes you want to sit out in the sun, sipping a tall cool beverage. (Wink wink, nudge nudge, say no more.) You gotta love it.

### **Steve McNee, WZXL, Atlantic City**

Loved the Neil Young show last Friday in Philadelphia. Thanks to Bob Weil from Reprise and Rick Cohen from Golden Guru Entertainment.

### **Stephen Page, KOME, San Jose**

Special tip of the hat and mondo thanks to Kevin Knee and the guys at Columbia Records for making the Pink Floyd experience last weekend so memorable. Also thanks for getting that guitar and giant banner signed. Poor children somewhere will have a smile on their face when we auction that stuff off at the Rock and Roll Expo in September.... A note to all you rock and roll managers and record people as long as we're on the subject of our auction. Even though it's in September, it's never too early to donate the goodies. If you want to talk, call the station. We'll work it out.

### **David Hall, WKDF, Nashville**

I have to slightly disagree with those who have called CD singles useless. When the CD single contains an edit or remix they can be very valuable. Sometimes these versions become the more familiar and preferred version. To this date, I refuse to play ZZ Top's "Legs" off the CD. The 12" remix which is far superior sounding is the one that got all the original airplay. The one used on the soundtrack of the video, too. I hope Warner Brothers makes it available on a future ZZ Top CD single. Just like CBS finally made "Pink Cadillac" available on their CD single for "All That Heaven Will Allow". Even if the CD single version is exactly the same, sometimes it's easier and certainly quicker to just, pop it in and cue up the one track rather than search for track 13. Hey, if you really hate em' that bad and don't want to use them ever there's always the local flea market.... Joanna Dean's "Kiss This" is the biggest reaction record I've come across lately. We've been getting tons of calls in all day parts. One call even came in from a staff at a doctor's office.... Balaam and the Angel came in with a great week on callouts. Great response on all demo's. This one ap-

pears to be headed for power rotation soon.... Cheap Trick continues to get great phones and call outs on "The Flame". This is going to be their biggest hit ever. "Lap Of Luxury" is a good album, too. "Let Go" is one of several standouts.

### **Wendy Steele, WLVQ, Columbus**

News Flash! Mark "Daddywags" Wagner (former partner of Pat Still) rejoins WLVQ with John Fisher and J.J. Jeffries in mornings. What a hot team! Wonder who's coming back next?

### **Mark Davis, KDJK, Modesto**

First of all, I want to thank CBS for the incredible time in Europe. Winning that Patti Smyth promotion was one of the most exciting things to happen to me.... Getting back and finding all this great product was wonderful as well as frustrating. Where do you put it!? All I know is what's working for us.... Divinyls' "Back To The Wall" and White Lion's "Tell Me" have the entire staff humming in the halls.... Robbie Robertson is incredibly haunting to say the least.... 10,000 Maniacs is the perfect daytime record.... Now that the music is in place. I still need a morning person!

### **Jane Fredericksen, KTCZ, Minneapolis**

Warmest thanks to Bruce Hornsby and all the folks at RCA for a wonderful, live, on-air Traffic Jam last week. D'Amico Cuchina, a great Italian restaurant downstairs from our studios, generously allowed us to use their baby grand piano. Thanks to their cooperation and some quick footwork on the part of our engineering staff, we were soon wired for sound and able to do both the interview and live performance as a remote in a cozy lounge setting. Listeners were wildly enthusiastic. Said one, "It was the best Traffic Jam in the three years I've listened to your station. . . Listened on my half hour drive home and sat in the driveway with the radio on for another 15 minutes." Again, thanks to Bruce and all the RCA staff for spending so much time with us and for being receptive to a spur of the moment suggestion. I can't remember when we've had so much fun -- and that's what this business is all about, right? Afterwards, Bruce threw out the first pitch at the Twins game (for a strike, no less). Too bad they didn't win that one, but maybe next time.

### **Joe Skare, KFMQ, Lincoln**

I can't believe it but it finally happened. Guns N' Roses have been knocked out of #1 phones by Midnight Oil's "Beds Are Burning" which has really kicked in in recent weeks. #3 is Cheap Trick's "The Flame" followed by Joe Satriani's "Surfing" and Henry Lee Summer's "Darling Danielle" which is getting some good female phones.... Going on this week is Rod Stewart's "Lost In You". It might take you a few listens to warm up to this one, as it did me.... It's great to hear Robin Trower tearing up the airwaves again. He put on a great show here in Lincoln recently.... I've never been a reggae fan but I like this Ziggy Marley song a lot. "Tomorrow People" is a cool fresh breeze, a great compliment to a warm summer afternoon.

### **Lorraine Rapp, WAQX, Syracuse**

We forgive Rod Stewart his CHR trespasses. He's one of the few artists who should have no trouble crossing back over to AOR. "Lost In You" is a solid, rock and roll tune. His voice is so distinctive and familiar, it's great to be playing something new from him. I've heard that the rest of the album is even better.... Meg Stevens is a Music Assistant at 95X. If I cannot get on the phone with you, please talk with Meg. She's a real music lover who will be helping me out in the music department. Thanks!

### **Scott Laudani, WHEB, Portsmouth**

We decided to cut loose and give E\*I\*E\*I\*O a shot. This is a real upbeat sounding band and they contribute a great flavor to the station.... I was real impressed with the new Robin

Trower from the first listen and I am glad to see it doing so well across the country.... This could be the album that turns things around for the Alarm and we are glad to go with "Rescue Me" this week.... Treat Her Right moves up this week. This band is finally getting the recognition they deserve, and we will continue to support their push.... John Kilzer has a great sound that has done a lot in a very short time, it sounds like a sort of rocking Jackson Browne.... Joe Satriani is one artist the audience is really hooking onto here. They are going nuts on this guy. He may need a clothes consultant but when it comes to guitar playing he has it down pat.

### **Bill Clay, KXBR, Springfield, MO**

We're rockin' the Ozarks from Missouri's third largest market. Springfield is the home of Southwest Missouri State University and Drury College. KXBR "The Bear" is the only AOR in the city.... This week Joe Satriani is still Top 5 phones.... Guns N' Roses "Welcome To The Jungle" is still big and Kingdom Come's "Living Out Of Touch" and Leslie West's "Love Is Forever" are coming on strong. A great comeback record.... Also top phones for Midnight Oil.... We do a one hour alternative music show Thursday night where last week we featured X from the new live album, Screaming Blue Messiahs' "Bikini Red", Thomas Dolby "Aliens Ate My Buick", Dancing Hoods "Baby's Got Rockets", and 10,000 Maniacs' "Like The Weather".... On Fridays, it's an hour metal show, "Rock Therapy". This week: Megadeath, Iron Maiden, Malmsteen, Scorpions, and Kings X.

### **Patty Martin, KSJO, San Jose**

Ronnie Montrose moves back into our Top 5 requests. We're also getting tremendous response to Neil Young, The Church, Cheap Trick, Robin Trower and Midnight Oil.... This week we're adding Poison and expect big things from this record.... I also expect big things from Vinnie Vincent. We're testing it this week and I predict a telephone invasion once we put it on the air.

### **Catfish, WHMD, Hammond**

At this very moment, I'm breathing fresh Carolina air without a care in the world. I'm on vacation.... P.S. Everybody puh-leeze check out Tracy Chapman.

### **Mark Zeiger, KDXR, Amarillo**

To paraphrase Twain, the reports of our death have been greatly exaggerated. To paraphrase Nietzsche, what doesn't kill us only makes us stronger. It now appears that KDXR is out of the woods and back on the air permanently. It was incredibly bad luck to get shut down when we did, but our audience has been overwhelmingly supportive. Also thanks to TV and radio coverage, we have a lot of new people sampling us and they seem to like what they hear. Apparently our detractors were anxious to have us get back on. A crank call within 20 minutes of starting back up has some pretty interesting if you think about it.... Don't forget to check the news for our new phone number. The old number won't work anymore.... Play the Kings Of The Sun! "Serpentine" will remind you that true rock and roll can make you shake your butt!

### **Robin Mathieu, WBLM, Portland**

Some of the alternative crossover-to-mainstream records are really coming home for 'BLM.... Midnight Oil and Ziggy Marley are both Top 5 retail in this market and are getting tremendously positive phone response. Ziggy moves to heavy after just two weeks. There's no more reason to hesitate with what will be a multi-format smash that's already racing at retail.... Then there's 10,000 Maniacs. This is a very real record. Many of your listeners probably already own it or know someone who does and listen to it at home. If you're undecided, just put 10,000 Maniacs on the air and it will speak for itself.... One more great reaction record is "Somewhere Down The Crazy River" by Robbie Robertson. Not many songs get 25+ lis-

teners male and female alike on the phones to request it. This one does and it's #2 phones this week.

### **David Sadof, KLOL, Houston**

KLOL would like to thank 7,000 Houstonians and everyone else who helped make our 5th Annual Rock And Roll Auction the best ever. Together, we raised over \$40,000 for the National Runaway Hotline (1-800-Hit-Home) in two and a half hours of bidding. The highlight of the evening was the celebrity jam featuring the Danny Wilde Band, Jon Butcher, Brad Gillis and Jeff Watson of Night Ranger, Richard Marx, Timothy B. Schmit, Mason Ruffner, Rick Richards and Mauro Magellan of the Georgia Satellites, members of Houston's own XOX as well as R&R AOR Editor Harvey Kojan on keyboards, KLOL Pat Fant on drums, and even myself on drums as well. The set list included "Cinnamon Girl", "Get It On (Bang A Gong)", "The Last Time", "Going Down" and "Cherry Cherry". The auction items commanding the most money were Michael Jackson's shirt at \$3,700; Bruce Springsteen's platinum albums at \$2,700; and Ted Nugent's guitar at \$2,700.

### **Richard Smith, WIXV, Savannah**

Nothing like spending your Saturday afternoon romping around the mall with a \$1,000 shopping spree winner. In the May book nothing comes close to giving away cash especially when your winner really needs it. This week our shopping spree moves up to \$2,000. What's next?... Thanks to Deb at Apache and to John Brannen for a fun 45 minute interview on Sunday and thanks for the great new single "Primitive Emotion".... I pushed Virgil over the edge on Ziggy Marley this week. He had doubts but local sales and reaction to testing makes me feel like "Tomorrow People" will work for our market.... As of May 1st, Virgil Thompson and I will no longer be interim PD and MD. We will be the official guys.

### **Jerry Trujillo, KDKB, Phoenix**

Everyone was and still is excited about the Pink Floyd shows last night and tonight. We've had a wonderful promotion surrounding the concerts. We had a Pink Floyd party last Friday night that kicked off our Pink Floyd weekend. We gave away concert packs that included concert tickets, collectors item KDKB Rocks Pink Floyd t-shirts and a copy of their latest album.... We're happy to report that our 7th Annual Easter Seals Softball Tournament, which was cosponsored by Budweiser, held a couple of weeks ago was a tremendous success. We raised \$70,000 for the Easter Seals Foundation. Our morning ladies Cindy Wine and Shelly Dunn, the co-chairpersons for the event, did a great job. We're looking forward to the tournament next year so we can beat this year's goal.

### **Rich Flamingo, KCRK, Walnut Creek**

By the time you read this, I will have experienced the Springsteen Tunnel Of Love Express, not only myself but a couple of my listeners too. Thanks to Kevin Knee for help with the tickets and cassettes.... Also thanks to Howie Klein for being Howie Klein.... Until next week, plug in, tune in, turn on.

### **Kerry Gray, WZEW, Mobile**

Every record store is sold out already. The concert tickets sold almost as fast. With the audience reacting so quickly to Ziggy Marley, we've wasted no time in moving "Tomorrow People" out of light, bypassing medium and into heavy. We've also wasted no time in going deeper on the album and we've chosen "Lee And Molly" as our second track. It's such a great song.... In our desperate attempt to keep "Kick" kicking, we've re-added INXS' "Never Tear Us Apart". After hearing that song in concert, I realized it could be the finest song on the album.... Lynyrd Skynyrd kicks off their tour here in two weeks. In preparation of the live show, we're going with "Comin' Home" off the live Lp.... Another good week for Tracy Chapman as "Fast Car" snags top five phones for the third consecutive week. "Fast Car" has moved fast for us and is now in heavy rotation generating more and more positive feedback.

**Brian Illes, WKFM, Syracuse**

I'm sure I'm not the only AOR programmer who viewed the release of a new Rod Stewart song with at least some trepidation but surprise, surprise. This is a rock and roll song we can all play. I'm anxious to hear if the album has as much depth as the single. Also anxious to see if we'll still like this song in about six weeks.... The new Robin Trower album should continue to lift his career, picking up where the last one left off. This could be another in the line of great comebacks that started last year with the Grateful Dead, Jethro Tull and George Harrison.

**Chris Herrmann, WHJY, Providence**

When I hear a song like Hurricane with its "Na Na Na" chorus, I usually burn on it real quick, but I've heard "I'm On To You" ten times and it just gets better every time. The audience must think so too because with only three plays over the weekend we have notched a hundred requests for the song. This is an instant success story.... Robbie Robertson is knocking them back in middays with his new one.... The Scorpions and Guns N' Roses are smashing and trashing our younger demos like you wouldn't believe.

**Russ Ceccola, WKVU, Villanova/Philadelphia**

To really spite Monte Conner, we split up our dialogues so that he can't say that we share one brain. That puts us up one on Monte 'cause he still shares a brain with his mustache. Anyways, Monte can't be all that bad, because Toxik rules especially "World Circus", "Pain And Misery" and "Heart Attack". This past weekend brought Megadeth, Warlock and Sanctuary to town. A truly awesome show. Thanks go out to Derek Simon and Kay at G.G. Management for getting us an interview with Doro before the show.... Something is going right at Metal Blade with Fates Warning, Hallows Eve and Nasty Savage all released at the same time. It must be Cheryl's doing. The "Ivory Gate Of Dreams" is getting great response.... Blind Illusion is actually pretty good, despite the fact that that blow-off Megadon is behind it.... Finally, I'm going to start pushing Black N'Blue this week. A truly under-rated band.... Riot and Fifth Angel are getting good response here, too, along with Destruction (which boasts my second favorite album cover of the year - second to Uncle Sam's limited edition cover).... This week's trivia question: What has scraggly hair and a stomach that seems to grow bigger every two weeks? Address all answers to me for a free piece of Alice Cooper's blood balloon.

**Bob Lang, WBIM, Bridgewater**

I'm ecstatic to see that I have some bands in my Top Ten that I was raised on like Maiden, Scorpions, Udo and Krokus. I'm predicting that Hurricane and Kings X will be huge with these albums.... I'd like to thank some of the people who have been taking care of me over the past few years. Namely Derek at Concrete, Mike Idlis at PolyGram, Debbie at MCA, Clarissa at Enigma, Phil, Maria and Ed at Megaforce, Cheryl at Metal Blade, Monte at Roadrunner, Megadon at Combat, Peggy at Atlantic and Don Kaye formerly of Noise.

**Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix**

I was forced to be in a van for 11 hours the other night - thank God for advance cassettes! What three did I take with me? The Bollock Brothers, Legal Weapon and Queensryche. Quite a variety and all three sounded mighty, mighty good.... Uncle Miilty's Rowdy Rivet Of The Week: Satan on Steamhammer Records.

**Rich Scroggs, WWVU, Morgantown**

In this world filled with make-up splattered Aerosmith clones from L.A., it is refreshing to come across a band like Blind Illusion. Outside of Voivod, they are the most original sounding band in the realm of speed metal. Blind Illusion, given the right opportunity, could be HUGE!... For those of you who are

looking for something somewhat more obscure, perhaps you should try the new album from Intruder. They play a brand of thrash that's very heavy and at the same time melodic.... The new Chastain record is a refreshing change from the usual guitar oriented releases because Dave can actually write songs.... It has come to my attention that I have received another feeble verbal attack from the Mental Midget of the North, Bill Fischer. Everyone knows that Bill's hostility comes from a profound sexual deficiency. This fact coupled with the knowledge that he isn't as cool as Mike Jones (or anyone else) drives Bill to lash out at anyone who threatens his manhood. I'm certain Clarissa Garcia would be better off with a real man rather than that weenie from Lowell.... By the way, we do not eat dogs in West Virginia, we'd much rather sic them on Yankee troublemakers like Bill Fischer.... I've been watching TV lately and there's a question that's been weighing heavily upon me. Who do you, the readers of the Hard Report, believe to be the superior canine beer spokesanimal. Is it Spuds MacKenzie, famed dance instructor and champion of all trendy people, or is it Alex the lovable dog in the Stroh's commercials who buries whole beer trucks in his neighbor's yard? You be the judge.

**Bill Fischer, WJUL, Lowell**

Boston is trying to clean up after a one-two punch of Megadeth and Company and the Crumbsuckers. Unfortunately not too much can be accomplished because AC/DC is around the corner and Guns N' Roses right afterwards.... After a lame musical winter, it's great to see the music scene in full gear.... Fifth Angel has made it to number one. It's nice to see a band able to do this with no gimmicks, just pure hard rock and roll.... Toxik has also entered and climbed our charts as well as Fates Warning. But with all the pre-release promotion and the fact that Fates Warning is from our neighboring state of Connecticut what else did you expect?... Finally, the dialogues have been getting kind of boring since Monte Conner waved his white flag. Seems like Monte couldn't handle the heat.... Also Clarissa and I would like to thank Cheryl Valentine for the joy gel. I didn't realize two people could have so much fun. Maybe Cheryl should supply all her stations with the stuff. She'd probably find herself the most popular, if not the most effective, promo-pusher around.

**"The Kaptain" Kevin K. Kasky, WOOR's Power Hour**

In spite of their name, (Satan) which we pronounce as "Stan", this band is good. They have some really cool harmonies behind the pounding beat of some well written songs.... The Maiden is doing really well here on the Power Hour.... Ardent has gotten onto the "Ladykillers" compilation from New Renaissance records. That will be great exposure, and then you'll hear why they stayed on top of the Power Hour for 13 weeks without fail.... The new Vinnie is pretty good, and it did some really good rockin' last week.... Barren Cross will be coming to the area next week. These boys cook, and they'll blow away any problems people have with metal of that nature.... For now, I'll close and leave you to melt your cranium in peace.

**Kelly, Robert, Tony and Jay Of Hurricane, Enigma Records,**

Hurricane blows! Speaking to you (or y'all, depending on where you're from), from Denny's in Anytown, U.S.A. Hurricane is alive and well and will be storming into your city soon. We've saddled up the notorious Winnebago (or Winnebagel, depending on where your from). We're eager to bring our new record to you (or youse, depending on where you're from). We're coming out to support our new Enigma release, "Over The Edge". Big Bob (i.e. Bob Ezrin) did a bang-up job on the record as well as Mike Clink. Every day we're gaining new perspectives on where we are in the universe. For instance, working with co-producer "Big Bob" Ezrin, we learned how to stand on our heads for hours at a time and sing sailor chants. With other co-producer "Colonel" Clink (that's with a C), we

discovered that we're taller than ever before or thinner (depending on your eyesight). Speaking of eyesight, check out Hurricane's "I'm On To You" video. Maybe next time we should get a better looking girl (yeah, sure!). Hope your 20/20 eyeballs are firmly planted in your skull when you check out the video. (When Kelly and the beautiful girl drove off into the sunset, they kept going. Neither were heard from for weeks.)

**Pamela Newman, Enigma, 213-640-6869**

**QUESTION:** What record is pulling Top 5 phones at WHJY, Top 5 phones at KJJO and Top 10 phones at KUPD within one week of airplay? **ANSWER:** "I'm On To You" by Hurricane. **QUESTION:** What record was added to KLOS, KISS, KDJK and KDXR in addition to those listed above? **ANSWER:** "I'm On To You" by Hurricane. **QUESTION:** What record jumped 40 points on Billboard's Top Lp chart and had a 10,000 unit reorder in the past week? **ANSWER:** Hurricane's "Over The Edge" featuring the soon to be nationwide smash "I'm On To You". **QUESTION:** What record should you be listening to, considering and adding this week? **ANSWER:** "I'm On To You" by Hurricane!... Ronnie Montrose, the original guitar hero is breaking out of San Jose with phenomenal response at KSJO and KOME. This album is chock full of guitar goodies - have you really listened? Get with it!... The Del Lords' "Judas Kiss" is the record that just won't go away. Checking in with Top 5 phones this week is WRKI, WKFM, WMJY, KDXR and KFMU. The NorthEast is solid as a rock with the Del Lords as the band plays the Bottom Line this weekend and WNEW broadcasts live.... Personal to Rocko: I don't know why you keep insisting on moving to towns famous for seafood. (You know about Maryland crab, don't you?) You're making me dizzy but this should qualify us for an extension on the Labor Day plan.... Lots of luck, California (too cool to clap) won't be the same without you.... Bruce Springsteen shows, where the audience together with the performer, merge into one to form the power and the energy of the evening are 3 hours and 10 minutes of rock n'roll at its finest. When everything we do is working together just right this (a Springsteen show) is what it's like - it's a moment when ALL OF US can be proud.

**Clarissa Garcia, Enigma/Cheryl Valentine, Metal Blade, Sunny Southern California**

As we write this, we're basking in the sun -- surrounded by California hunks, palm trees, and beach goers. Linda Benskin (Metal Blade retail rep) is along for the ride. We're talking about all kinds of things like how Fates Warning is currently in the top five of all metal charts and #130 in Billboard.... Hurricane is at #156\* and "Over The Edge" is gonna go gold. Definitely bands to watch out for and make room for at the top of your playlists.... While we were enjoying the 75 degree weather, we discussed John Bello and Hawker Records. It's a great name, John, but did you think of it when you were spitting goobers at a band you didn't like?... You'll have to excuse Monte and his boring dialogue. After all, he lives in Staten Island.... We got a good laugh at Bill Fischer's grad picture. He looks like he's captain of the tennis team and voted most likely to use Pearl Drops. In reality, we all know that his full name is Bill "I have no friends" Fischer and that he was voted least likely to catch his wife on a night without a headache. We're fighting over whether or not we should send the picture to the trades.... Well, we gotta go. We're gonna cruise around in a convertible with the top down, eat sushi, and all the while, bounce adoring men off of the fender. Sounds like another normal day in So Cal. It should be fun.

**Megadon, Combat, 718-740-5700**

Seems my predictions about Maiden and the Scorp were right, huh? It's that time of year again, where working records becomes a nightmare.... And Priest are putting out an album soon? Yikes!... Anyway, it's time for me to plug my stuff again. Play Virus, play Blind Illusion, and especially play Crumbsuckers. Their tour is packing them in nationwide, all parties involved are extremely happy with the excellent turnout.... By the way, if you're into heavy metal or even just plain ol' rock

n' roll for that matter, Ottawa is not the town for you. If I hear Rick Astley or Terence Trent D'Arby one more time, I'll probably go on a senseless cross country killing spree. Thank God, I'll be in Montreal (for no real reason except it's there) this coming weekend. There should be a border incident involved, so keep an eye on the news Saturday morning.... Highlights of the Ottawa trip: Our tour of the Parliament building being translated in Chinese, visiting the world's dumbest pizzeria, Molson's Stock Ale (sadly unavailable in the U.S.), Star Trek in French ("Le Patrouilles Du Cosmos" I think it's called), and asking fishing locals if they use back-bacon as bait.

**Monte Conner, Roadracer, 212-219-0077**

Finally, Toxik is starting to happen in a big way. "World Circus" climbed from 39-18 last week! The more commercial blocks are finding that although Toxik mixes thrash with melody, the melody most definitely dominates. As far as the harder-edged shows go, I'm finding that the thrash fans in general, are much more open-minded these days, and can appreciate the more melodic speed metal. A far cry from last year, when most thrashers wouldn't tolerate anything less intense than Sodom, Slayer, Death and Bathory. The bottom line is this: Toxik is melodic and accessible enough for the adventurous commercial metallers, yet they still have enough balls to appeal to the now open-minded Joe Thrasher. Tracks to track are "Social Overload", "Voices", "Door To Hell" and the hemorrhage-inducing "Victims." Toxik cheers to: Rudi Mendoza, Mark Snider at MJL Metalshop (the first to give Toxik the thumbs up), Mad Max, Lisa Walker, Jeff Ivan (a god), Ron Stytz, Tom Smith, Cole Gill, Steve K., Razz, Matt O., Bert New, Joe Quirk and Matt Dacey. If you're not on here it's because I forgot you or you've been naughty (except for Caesar - I left him out 'cause he's slime).... Don't forget Znowwhite's "Act Of God" - I'm having a tough time with this because of the intense competition and the fact that everyone's going on Toxik. Znowwhite may be much heavier, but I firmly believe that it is every bit as worthy as Toxik. Check out "A Soldier's Creed" and "War Machine" and you'll be hooked. Znowwhite's Ian Tafoya is a real man!... KING is coming! I sound like Phil Hardy. No, not Kings X (a rockin' band, by the way), KING DIAMOND! You'll have THEM in your hands by June 20th. The back cover has King in a wheelchair! Don't bring them home to mother!! P.S. Megadon - is Garry Shandling a real man? I should think so. P.S.S. Mega congrats to my good friend, Don Kaye. Hope you enjoy your new home at MJL.

**Brenda Umbrell, New Renaissance, 818-846-8883**

Hellion's "Postcards From The Asylum" is now on 85 U.S. stations! All tracks are doing well, with the favorite being their remake of the Judas Priest classic "Exciter". Special thanks to all the stations who have added it! Ear cleaning devices will be sent out soon to those stations who have failed to add Hellion. If you think I'm joking, just wait!... King Kobra is getting ready to release their third album entitled "King Kobra III." Look for a video of "Take It Off" soon on MTV!... Thrash and speed freaks should watch your mailbox for new records from At War and Sepultura. Stand at attention and crank up "Church And State," because a lot of other people are picking this one! Till next week, remember that Hell Is Full!

**Phillip Hardy, Megaforce, 201-254-6533**

KLOS! KLOS! Did the heavens open up and gaze upon my down trodden face last week and finally take pity on my ass to reward me and my team for our efforts? Yes! This is the ultimate vindication for the King's X project. There can be no excuse now about the song's validity, importance, or place and right to be seriously considered. Remember this: We have not yet begun to fight this battle, because this is not a flash in the pan act. We will break this band. The question is whether you're going to be fashionably early or unforgivingly late.... Special thanks to KUPD for bringing King's X to Phoenix to headline their benefit for MS in Tempe's Diablo Stadium. As usual I heard they performed amazingly.... Also special thanks

to David Sadof at KLOL for stepping out into the brave new world by letting people know that just because a band is on the Megaforce label does not automatically mean the record is thrash metal or typical heavy metal.... I can't wait until our classical pianist John Bayless releases his album. I can hear it now, "Does he wear leather? And does the piano have spikes?".... Also congrats to my old stomping grounds WSOU in New Jersey on their gold record award from White Lion. WSOU is the only hard rock in New York City and it pleases me to know that White Lion remembers the people who played their records two years ago, not to mention two months ago.

**Jim McKeon, RCA, 212-930-4309**

Yeah, this Nipper's got some sharpened teeth and a new set of ears on him, if you haven't noticed. Thanks to everyone at album radio who participated in the LITA FORD success story. Don't everyone stand up and take a bow. A few too many of you won't be on the list for gold records, but a lot of you will. "Kiss Me Deadly" snags a CHR breaker this week while the album sells its way to 375,000. Check out lovely LITA in this week's "People". "Close My Eyes" is starting to kick in nicely with over 50 AOR's doing exceptionally well with it. This is a #1 phone record -- guaranteed! We all need to play active records like that.... The KINGS OF THE SUN story is developing well. After six weeks of airplay, we break into the Top 20 everywhere. More good news. Our sales people are reporting that whenever THE KINGS get played instore, records move out the front door. Also the solid MTV medium means 2-3 times per day now. A great new band who's terrific live (you'll see them this summer)!... And how 'bout the next great new band from Boston - T.H.R. (TREAT HER RIGHT). It's one of the best reacting new bands out there. Just ask WEBN.... GRAHAM PARKER has made his best record in over ten years. Those aren't just my words, but are a quote from the four star review in the next Rolling Stone. (The same issue gives T.H.R. 3 and 1/2 stars). This is a killer 25+ record with some sterling Brinsley Schwarz touches. You're really missing something by not seriously considering "Start A Fire".... Listen to a new 12" from PIERCE TURNER called "Mover And Shaker", and get to the SMITHEREENS shows early to see Pierce who's got the opening slot for the whole tour.... I'll sign off with a tip: PETER MURPHY's "All Night Long" will be a #1 Alternative Track shortly, so be ready for this guy to cross to mainstream AOR. He is the next BOWIE. No doubt about it.... Finally, congrats to CHEAP TRICK and the Epic crew. Love to see such a great band back on the map in a big way.... Now get out of the way for HORNSBY. Bruce sends his deepest thanks for the continuing support from album radio. By now you'll have the LP and CD. I recommend you play "Look Out Any Window", "Defender Of The Flag" (a killer crunching format exclusive track), and "Jacob's Ladder". On the ballad side, "I Will Walk With You" will melt hearts.

**Kenny Puvogel, Warners, 818-953-3723**

By now, all of you should be playing "Black And Blue" by Van Halen in heavy rotation. Eddie, Alex, Sammy and Michael are back and better than ever. This is a monster of a rock tune! The album titled "OU812" hits May 24th.... Everybody at WB is extremely excited about the reaction and airplay at AOR and CHR on "Lost In You" by Rod Stewart. The consensus reaction is that it is great to have Rod back with a great rock song. To those of you who didn't add the track this week, we expect you to this week. You can't go wrong! The album titled "Out Of Order" hits May 17th.... Another great week on the Honeymoon Suite record. We are up in powers and heavies and requests. Now that you have the album, the next track we will be keying in on will be "Looking Out For Number One" (Side 1, Cut 1). Thanks for the early adds at KSQY and WEZX.... While on vacation, I had a chance to see the David Lee Roth show in NY. In the year end tabulations, I'm sure this show will end up near the top of shows that I have seen. Of all the great songs in the show, two stand out, one we are working right now "Stand Up" and one that we will be shipping May 17th to AOR radio, "Skyscraper".... A big thanks to Pete for making it a very memorable night for my nephews.... Speak-

ing of great weeks, "This Is Love" by George Harrison had one too. We are now in the teens in all the trades and heading for Top 10! This song has what it takes.... The next track that is already taking off from the "Naked" Lp by the Talking Heads is "Blind". We are now on over 30 AOR stations on this track. We will be shipping an edit/CD pro on "Blind" May 17th. If you need a 15 ips tape on this track contact your local WB rep.... Speaking of next tracks, "Cherokee Chief" is the next up from Jerry Harrison. We are already off to a nice start on this track and we ask all of you to remember the success you had with "Rev It Up" and to act now on "Cherokee Chief".... Personal faves in the CD player at the office include "Italian Shoes" by the Dynatoners, "Freedom To Rock" by the Chiefs Of Relief and "Glory Glory" by Underworld. Give these tracks a listen.... A very big thanks to all the radio and retail folks who were involved with the Honeymoon Suite promo tour. Over & out!

**Craig Marks, Homestead, 516-764-6200**

The Chills "Brave Words" continues to stand out and impress many of the best ears in the business. It's more than just gratifying in a business sense when Lin at WXRT tells me that this is one of the few records he's gotten really excited about all year long. The Chills is a band that a small but passionate bunch of us have been listening to and madly collecting vinyl on for around five years now, and it's damn wonderful to see those with some power and musical influence recognize this band's greatness. It's not like any of these programmers owe me some kind of favor; my "pull" is non-existent. It's just a talented band finally getting an American record out and this record label being fortunate enough to get to work with them. Note to fans: The Chills' "Lost" Ep will be reissued by Homestead sometime this summer. Until then, hunt down their imports (esp. "Kaleidoscope World") and go see them when they come over. (Tour dates TBA next issue).

**Chuck Oliner, Elektra, 609-596-1200**

10,000 Maniacs "Like The Weather" is a hit record with mass appeal. Billboard album chart goes 53\*-42\*. This record is selling over 70,000 units per week and generating mega phones whenever played. Elektra is going to break the Maniacs and you are going to be a part of the success story. So, if you're still sitting on the fence, go ahead and jump. It will be a very soft landing.... Dokken's "Heaven Sent" continues to pick up new believers such as WHJY, WRCN, KCAL and WZZQ. This record lights up phones and this band sells records so join the party and have some fun with those Monsters Of Rock Dokken!... Tracy Chapman's "Fast Car" continues to meet with both critical acclaim and listener reaction. Early believers are already reporting Top 5 phones and instant sales. This artist is right in the pocket for today's coveted upper demos.... Given the opportunity, the Adventures "Broken Land" will come through. Rotation, rotation and more rotation. We will break the Adventures and you will be a part of it.

**Penny M. Barnes, Rampage, 213-828-1980**

This is the second week into the Only Child project, and things are coming along quite nicely. This week we add several more stations to the list of "Believers". These include WRUF, WYNF, WCCC, KFMH, KMOD, WBAB. The album ships this week, so you should see this on your desk shortly. Time and again, we tell programmers how important this record is to us, and about the potential that this band displays. Now we are starting to hear back about how much potential you feel it has. This is great! I must say on the stations who have tested the record so far, we are 10 for 10. So again, do not overlook this record because there is a glut of established artists out there right now all with new records. Only Child is viable, and because it is "new" music it will definitely breathe that breath of fresh air into your playlist. The single is "I Believe In You".... Also, with a fresh new track out there, not to mention a hot new tour with Midnight Oil, are The House Of Freaks. The track is "Black Cat Bone", casting a little voodoo spell in your direction. These guys are an incredible duo, and a talent that has yet to be fully

realized by most of you. Please give this track a chance to be heard. Or if you still are uncertain, go see them play live. This will definitely change your mind!... So this week, make time in your music meeting to listen to House Of Freaks and Only Child. You just may be thanking us next week! Ciao!

**Jeffrey Naumann, Virgin, 213-278-1181**

The Ziggy Marley phenomenon continues on like crazy this week; more adds, more soldout shows, more sales (now over 300,000 really), and more believers. It's about time reggae got its shot again. If you can't feel the excitement in your market yet, it's probably because you live in a cemetery or you're dead. I don't care if you program in Wolfborough, New Hampshire or Chicago, Il, your audience wants to hear Ziggy Marley. There's been nothing but enthusiasm and success stories from every single station. I can't imagine how much more obvious it can be to see, hear and feel a hit record. Every station playing Ziggy is a hero in their eyes and ears for their hipness.... We'll all be celebrating this Memorial Day Weekend with the new music from Steve Winwood on the air. It's called "Roll With It".... To Bruce Hornsby: you are the Master of Jesus.

**Colleen Baxter, SST, 213-835-8977**

And just when you thought your Rolodex was finally up-to-date. If we haven't spoken yet, we will very soon. I'm the new Commercial Radio Promotions Manager here at SST, and I've spent the last three weeks listening to all our new releases and trying to let all you MDs, PDs and ever-so-important DJs know about them. It's been an incredibly busy month here. Our warehouse workers have been breaking their backs to get all our new vinyl out to you.... A record everyone should have by now is the new self-titled Sister Double Happiness Lp. This record is 40 minutes of hard-driving power chord rock and blues, direct from San Francisco. For some energetic, wall-of-sound rock, check out "Freight Train" or "Poodle Dog" (Z-Rock picked it for their power rotation).... We're still getting adds on the fIREHOUSE 12" "Sometimes". If, for some unthinkable reason, you haven't given fIREHOUSE a shot, consider that fact that WXRT, WFNX, KFMH, KTCL, WHFS, KABL and dozens of other commercial stations have found it worthy of their discriminating listenership. The 'HOSE are wrapping up this leg of their U.S. tour now, then they're off to Europe during May and early June. If they didn't make it to your area this time around, look for them this summer when they'll be back through the Midwest.... And lastly, if your station has an alternative music show, be sure to contact me so I can send the new records by the Divine Horsemen, the Tar Babies, Das Damen, Always August, Run Westy Run, etc.

**Victor Lentini, Team USA/Passport Records, 818-500-7677**

It's time for word association! The rules are simple. I'll give you a key word or name, and then I'll illustrate a comparison or a similarity. Now, we'll start with our key name: Leslie West. Now here is what is relative to "Leslie West": KLOS, THEME, KKDJ, New York, K-Rock, "Love Is Forever", KKZX, Passport, WCCC, Redhouse, WPDH, Large, Huge, KJJO, Kramer, WEGR, Jack Bruce, KISS, Good Phones, WPLR, I Ate It, KRCK, Willie Dixon, KPEZ, Love Me Tender, R&R, WBYP, Joe Franco, Talk Dirty, KWHL, Stern, KJOT, Gigantic, KWLN, Paul Orfino, WCKW, Heavy, WRCN, Reno, KFMU, Popular, KKLZ, Mountain, PB6061, KLWD, Mississippi Queen, KPGA, Charting, KXBR, WTCS, Elvis Presley, KILO, Theme for an Imaginary Western, KQWB, Hard 100, KACV, Steven Page, KFMH, Album Network, WRIK, Power Rotation, CD, KTBC, Breakout, Cassettes, Added, WAAW, Z-Rock. Well, those very simply are the rules. See you again next week. Just add the record and you too can play!

**Michael J. Schnapp, SPV USA, 516-783-3040**

Hey, everybody! Thanks for the initial support on the Sodom, Destruction and Satan. Let's keep those records spinning. The retail is jammin', especially with Sodom. Seeing Sodom moving up 23-17 on the Concrete Indie chart makes me happy. Sodom is currently on the Sodomania Tour '88 in Europe, with opening act Whiplash. Sodom will most likely tour the U.S. in June/July, so be ready for Sodomania to come your way.... Other happy news is that there are some more new and cool releases coming soon. While the Raymen and the Bollock Brothers will be out on Blue Turtle Records, Steamhammer Records will be releasing a super band called Assassin. Assassin's "The Upcoming Terror" is out soon followed by their brand new LP "Interstellar Experience". You'll like this one.... Oh, by the way, you should all learn to pronounce Eloy. This is a progressive rock band from Germany that sounds like, Yes-Floyd-Genesis. You should hear this on CD.... I just got some great news. We are going to put the new Mekong Delta Lp "The Music Of Eric Zahn".... That's it for now, except a P.S. to the Orioles. I'm no baseball fan, but f\*\*kin' win already dudes so Bob Rivers can get some sleep, will ya! When they say everybody likes a good loser, they don't mean good at losing. So go spin your disc, okay.

**Rob Steinberg, Break-A-Leg/Contemporary Communications Corp., 215-667-6766**

From Russia With Love. I don't think so. I'm not there, I'm not even here. Well, my visa never came. I tried American Express but they said, "Vee need to zee your weesa. Membership does have its privileges in our party". So, I didn't go to the Soviet Union. To top it all off, I found this out on my birthday, April 26th. Yes, that is a hint. Late cards, gifts and condolence messages are always accepted. I wonder if the Soviets didn't approve me because of that drug smuggling thing behind the iron curtain back in the 50's. Hell, I really can't think of any worse place to be rejected from.... Unless, of course, you're not playing the Scorpions "Rhythm Of Love" in heavy by now. No visa, no Russia, no birthday gifts, no cards, no women in birthday suits and now you're not playing it heavy rotation. What is left of my poor pitiful existence? This is what's left. Out of the box, come to the party, sh\*t happens, cliches are us and so are hits. "Rhythm Of Love" leaps 15-11\* in the Hard Hundred and third most requested, while increasing 54-71 in Power and Heavies. The Lp "Savage Amusement" goes 13-8\* on the Album Chart. Aren't those great numbers? Come on guys, this is my first gig in a couple of years. I need your help and besides I've had a tough week.... McAuley Schenker Group: The album "Perfect Timing" is still showing some favorable signs. Check out the cut "Time". We think this could finally be the one to happen. Don't miss MSG on tour with Vinnie Vincent's Invasion. May 1st in Oakland, May 3 in San Francisco, May 4th in Sacramento, May 5th in Riverside, May 6th in Anaheim, May 7th in Pasadena and May 9th in Phoenix. If you need me, I'll be here. If you have any ideas for "Savage Amusement" or "Monsters Of Rock" promos, please call me. Dah svee dah neeyah

**Deborah Klinger, Apache, 213-466-9958**

"How" to AOR radio from the Apache promotional staff. Starting with this issue, we'll be crusading weekly, and we're ready to rock! It's our chance to re-emphasize important "emotional" (I mean promotional) points to all your "Primitive Emotion"? It's spring, it's in the air, and should definitely be on the air.... John Brannen is in heat and ready to heat up the airwaves. Do it! Till next time.
