July 22, 1988

**Europe, "Superstitious", Epic....** How can this song not be a huge success? It's everything that made "Final Countdown" and "Rock The Night" such giant rock radio crowd pleasers--and "Cherokee" and "Carrie" such effective pop to rock crossovers--with more of what made Europe happen in the first place. Let's face it, the real star of the show here is Joey Tempest--and his profile couldn't be any higher unless this was a picture disc. Ron Nevison must have found that "11" position on this particular vocal. And when they were a legit metal band (Can you believe that?), John Norum's presence probably meant something, but now he would have been just another guy playing in the band--and besides, new addition Kee Marcello fits the bill perfectly. Finally, you guys had months to decide on "Countdown", then weeks--and days--to make max use of each successive smash. With simultaneous AOR/CHR service next week, "countdown" has never been more the operative phrase.

**Huey Lewis & The News, "Small World", Chrysalis....** Never is the old "If it ain't broke, don't fix it" saying more appropriate than in the ranks of the platinum plus rock and roll outfits. It's really the rare band that takes chances once guaranteed big retail is in the bag. That's one more reason why we're totally knocked out with "Small World". Huey and the News are exploring all kinds of new avenues, and the end result is all you ask for--creative hits. As WLLZ' Doug Podell says, "As soon as we got our hands on the album we started playing it every hour with great response. The Tower Of Power really adds to the record. The tracks we like best are "Small World" (with good calls on Part 2 with Stan Getz), "You Mean The World To Me", "Walking With The Kid", and the obvious Detroit number "Give Me The Keys". We'll second the emotion on all of those, with high praise also for "Old Antone's" and "Bobo Tempo". Meanwhile, the single pushes 5-4 with 36 power reports, 94 more heavy, and increases from 20.

**Tommy Conwell and The Young Rumlbers, "I'm Not Your Man", Columbia....** As we said on the cover, you've got to believe in pre-tested hits, and this new rendition of a song Philly knows very well is the perfect example. As was the case with manager Steve Mountain's other hit band The Hooters, WMMR played the hell out of Tommy's best material on local Antenna records--airplay that generated close to 100K unit sales. And these days those debut totals are impressive even on a national level. Now you have the album's best reaction track in final form, and I guarantee both versions will knock you on your butt. Furthermore, the man's a monster live--with some of the most exciting stage dynamics you'll see from a new or old act. Great singing, killer playing--and all kinds of really first rate songs. Just watch this space for radio reaction to the huge Philadelphia showcase this week--as all the radio and concert promotion types from all across America discover an act this region already knows is a star.

## RECORD OF THE WEEK

**Little Feat, "Hate To Lose Your Lovin'", WB....** How happy are folks to have Da Feats back on the scene? 124 Outta the Box adds barely tells the story. WEGR's Kelly Cruise confesses, "It makes my putter flutter and my liver quiver".... What, no bladder splatter, m'dear? Then there's Charlie Logan at WYNF and "They're America's untapped natural resource. This record will take the country by storm and Lowell will smile down upon us all. Damn, am I enthused!".... Karen A. Small, WGIR, "This song is a godsend to these summer dog days, putting basic feeling and soul back on the airwaves".... Marty Griffin, KFMF, "The comeback effort of '88".... Anthony Alfonsi, WDVE, "One of the freshest songs we've gotten in quite a while. It's also getting quick phone response".... J.D., WONE, "I was pleasantly surprised by how slick and tasteful this record is. Definitely no disappointment here".... Joe Skare, KFMQ, "Great to hear Little Feat back with something that should be a smash".... Carl Scheider, KJOT, "A distinctive sound that was once ahead of its time will now be a major record for them. Craig does a great job on the vocals".... So, there you have the industry reaction in a nutshell. More on audience response in our next report.

## HARD ACTS TO FOLLOW

**The Reckless Sleepers featuring Jules Shear, "If We Never Meet Again", IRS....** Jules' songwriting is almost always superb, though up til this point, it's universally acknowledged that his work sounds best when interpreted by others. The recent Ian Matthews project of Shear songs on Windham Hill is a great example, the Bangles "If She Knew What She Wants", and Cyndi Lauper's "All Through The Night" is another. Jules' "Phonetics" album really came closest, but it's not til this Reckless Sleepers groove thing that he has sounded radio ready on vinyl. A writer of this stature shouldn't need hard core comparisons, but listen once to the above and tell me it's not a song Jackson Browne would have been proud to write--and record. Hey, breaking up is hard to do--but if the J-man's recent and highly publicized personal upheaval has him sounding this good....

**Flesh For Lulu, "I Go Crazy", Capitol....** It may be two years old, but tell that to those time travellers at HBO. Every time you turn on any cable movie channel, "Some Kind Of Wonderful" is there loud and proud. And we all know about John Hughes knack for picking hits way before their time. In that light the two year wait kind of makes sense. This song reached the top of the alternative charts on the first go round, with a tour that convinced the skeptics that they were really a rock and roll outfit first and foremost. Capitol will be mounting a serious-plus CHR charge on this project--and given the band's much better than average active listener response before, you'd be smart to take a good hard look early this week.

**Shriekback, "Intoxication", Island....** The concept of music as a radio driven renewable resource should have any future sensitive programmer constantly scanning the New Alternative ranks for tomorrow's core crossovers. In that regard Shriekback has to rank at the top of the list. "Nemesis" from 1985's "Oil And Gold" still scores huge requests at progressive stations across the nation--and who didn't love slipping "Gunning For The Buddha" in from last year's "Big Night Music". "Go Bang" is currently #1 on Dawn Hood's alternative rankings, and with the 40K initial order now doubled--it's time to take Shriekback seriously.

**B.A.D., "Just Play Music!", Columbia....** Upon the release of their third album, Big Audio Dynamite are established in a class all their own as kings of the cinematic-dub team. They mix sound bites from movie soundtracks into an eclectic mix of reggae and dance rhythms. As to whether they rock or not, lead man Mick Jones' asks the musical question, "Do I have to twist and shout? Do I have to play the game?" When you have a solid following within the progressive pop audience and return to the scene with a single as strong as this, the answer is clear. The import leaked onto the airwaves and there was no stopping some impressive out of the box play. In the second week of domestic release it's already in Heavy rotation at 10 including WDRE, WXXP, WRCN, WHTG, WFNX, KTCL, KJET, KROQ and KJQN with 23 more making that 79\* Hard Hundred move look like only the beginning for one of the hottest multi-format songs of the Summer. KUPD's Jonathan Rosen says, "When the formula works you 'Just Play Music' that's comfortable. B.A.D.'s new single is definitive and original!"

# CD ON YOUR DESK

**Already On—WMMR WLLZ KFOG!!**

**UB40 (With Chrissie Hynde), "Breakfast In Bed", A&M....** "Red Red Wine" probably marks their high point at AOR, with "If It Happens Again" the other format threat. Chrissie is no stranger to JB and the boys thanks to their previous collaboration on "I Got You Babe", which did fairly well on progressive leaning reporters. I think people really wanted to deal with her--and with them--but the Sonny and Cher connection was tough lunch for a lot of stations. Now, with the success of "Tomorrow People", we're not too proud to exploit that connection on behalf of this easy rolling number. Hey, we could hit you with how well women are doing on the radio--or how well she did long before that.

**NEW PLAY PRIORITIES**

**Jethro Tull, "20 Years Of Jethro Tull", Chrysalis....** First of all, special thanks to Ian and the boys for the special signed import CD set. But that's "H-A-R-D", not "H-A-N-D". Only kidding. I only mention it again to make Marrone even more jealous. You should know this is categorically NOT a greatest hits collection. Of 65 songs, there are only 8 you've played on the air. The rest are live and/or previously unreleased. We've been jamming the package in the office this week, and have to agree with the Sutter choice of "Aqualung" near miss "Lick Your Fingers Clean" as the "new" tune to go after. Thanks in large part to their recent comeback success, Tull has never been hotter--and with advance retail in excess of 100,000, this is one retrospective event you'd be smart to capitalize on.

**Bryan Ferry, "Limbo", Reprise....** We went after this track hot and heavy when the album first hit late last fall, but alas, "Kiss And Tell" garnered most of the early attention and "Limbo" is exactly where it went. Now Bryan's on his first ever solo tour of the states, and the time's right for our favorite from day one. As WMMR's Erin Riley says, "I always thought he was a class act who would do very well if given play here in the Philadelphia market. We did play 'Kiss And Tell' heavily and it worked so well we're going right on this".... WLLZ and WXXP are already in as well.

**Dokken, "So Many Tears", Elektra....** You might not know the current album is now up to 1.6 million units over the counter. You probably also didn't know they've sold over 5 million records over the past five years. And gosh, we hear the Monsters tour even touched down at several large American venues. Hey, you won't find these guys headlining an Amnesty International event, but where you find them on playlists you can practically guarantee major phone action and the kind of listener loyalty that stations like KAZY, KISS, KSJO, KZAP and WLZR are benefiting from. The latest from Dokken's "Back For The Attack" album is going to blow out some doors along the way this Summer. Make sure they don't hit you in the butt when they do.

**Vinnie Vincent Invasion, "This Time Of Year", Chrysalis....** It's no secret the label went out with major league expectations and huge advance orders. After all, Vinnie's was the strongest selling debut album in Chrysalis' history. "Ashes To Ashes" did perform fairly well--with a few stations like WHJY and WHCN pulling down Top 5 phones--but those huge album sales didn't really come around nationally. We know why. This is the cut. **Redbeard** keyed on it right away, and **KTXQ** was one of the few stations to report really big time calls right away. Give a listen and you'll know the bearded one was on target from the git-go.

**"Cocktail Soundtrack", Various Artists, Elektra....** There's all kinds of neat stuff here, but the Satellites' "Hippy Hippy Shake" is the hands down early favorite. As WPDH's Bill Palmeri says, "'Hippy Hippy Shake' is the best use of a minute and 45 seconds since Kenny Stabler was Quarterback (can we use that word?) for the Raiders".... By the way, the group's fun remake of "Don't Pass Me By" also had a great week, with adds at KLBK, KVRE, WRUF and WKLS. Meanwhile, back at the soundtrack ranch, the Starship's "Wild Again" is new on KSQY, KZAP, WLLZ and WCKW. Ditto stations like KBCO and WXRT who have already done well with Bobby McFerrin's "Don't Worry, Be Happy". And yes, Virginia, there's no sense in watching and waiting on JCM's homey rendition of "Rave On", which went on CHOM, WBYR, WJXQ and WZZQ. Get familiar with the above--cause you know it's guaranteed big box office. PS: With the T-Birds up 16-10\* on the HH and heavy on KQRS, KTXQ, KXRX, KGON, KISS, WONE and WDVE are you rotating that one enough? PPS: Hey, how about Robbie Nevil's "Since When", ready to cross that line?

**IMPACT TRACKS**

**Robert Cray, "Don't Be Afraid Of The Dark", Mercury....** Short of the Crayman selling the song to Anheuser-Busch--or even scarier, having cut the deal in the pre-production stage--there's obviously no radio fear here. "Dark" debuts with 139 first week adds and this week's highest 18\* debut--with KXRX and KZEL already listing top 5 phones. Brew Michaels comments, "This should insure Robert's reputation as one of rock radio's most authentic and distinctive performers".... From KFMF's Marty Griffin, "I was into this song for about a minute when I knew it had to go into heavy. What an outstanding follow-up!".... WDVE's Anthony Alfonsi feels, "It reminds me a little bit of Al Green in his heyday. It's another song that doesn't sound like everything else and adds good balance to our playlist".... WEGR's Kelly Cruise adds, "Cray's last album was such a big hit here that we added this one out of the box".... Cyndee Maxwell, KWHL agrees, "It only took one listen to know the new song is a big hit. I like it better than his previous work and have no hesitation to go out of the box on it."

"TIGHTEN UP VOL. '88" ON COLUMBIA CASSETTES, COMPACT DISCS AND RECORDS. FC 44074

**Lita Ford, "Back To The Cave", Dreamland/RCA....** KOMÉ's Stephen Page speaks for most of the guys in this office, "Nice to see Lita has talent and doesn't have to sell herself with her body. Real tight...tune".... Then there's WYNF's Charlie Logan and "OK, so she's a babe and the ad and the poster are revealing. But the only reason we are adding this record is because the music is hot. 'Back To The Cave' will be bigger than 'Kiss Me Deadly'. This lady has her shit together".... From KOZZ's Mark Vaughn, "Lita is amazing, astounding, and quite a guitarist--and on this song she cuts loose".... The third track from the platinum bound album walks in at #4 Most Added this week, taking that current play total to 80--with KDJK, KKDJ, KNCN, WGIR, WHEB, and WKLT already showing play-ups. Early top 5 action includes KJJO, WDHA, WHJY, and WNPQ, with WWZU, KNCN, KJJO and WPLR the first heavies. 62-43\* on the Hundred, this week's third longest move.

**Jimmy Barnes, "Driving Wheels", Geffen....** Two quick weeks and Jimbo's got himself 61 stations on the follow-up. Take the first tune to #3 and rock a little harder the second time around and that's what you get. As KZOQ's Vern Argo says, "It may start a little bit slow, but once it kicks in you've got one of the better tracks for mixing down with your core".... Up 66-50\*, with heaviest early action at KSJO, WCCC, WIZN, WPLR, and WRXK, where Greg Mull updates, "The hook of the record, beside the fact that the lyrics and vocals are strong, is David Lindley's slide guitar. It brings him right into it and sounds great on the radio. Good early response."

**Brian Wilson, "Love And Mercy", Reprise....** "Brian's 'Love And Mercy' is loaded with echoes of another era," says WOUR's Tom Starr, "But it sounds right at home in '88".... CILQ's Joey Vendetta adds, "Nice to see Brian is out of the sandbox and has a new robe! The album is not only well produced, but well written, sung, performed--and perfect for upper demos".... From WHEB's Scott Laudani, "The staff really enjoys the tune, and all it takes is a sunny day for the phones to start lighting up for it as well".... Finally, KBCO's Doug Clifton says, "We added it after lots of discussion. We simply cannot deny the fact that he's perfect for upper demos".... Note the 51-40\* gain, a function of new air on 20 (KBCO, KGB, KISW, KMOD, KQRS, WEZX, WOUR, WWRX), and Ups from KLAQ, KRNA, KTYD, KZAM, WCKW, WIZN and WWWV.

**Britny Fox, "Long Way To Love", Columbia....** WCCC's Joe Marino updates, "Not only is Britny getting great phones and call out with the teens--but the 25-34 males are digging it, too".... WRXK's Greg Mull seconds, "The phones are starting to kick in here, too. As a matter of fact, it was #1 on last night's call sheet--and at this rate could easily be top 5 next week".... Just give that powerhouse MTV response a few more weeks and check the telephone temperature. The channel just bumped the rotation up to medium, and it's still a solid top 5 item there. And the early retail rumblings suggest sales will definitely follow those phones. It's new on 17 including KGB, KLAQ, KZAP, WAAF, WHCN, WIOT, WKDF, WLZR, and WXRC.

**Pete Bardens, "Gold", Cinema/Capitol....** "Gold" shakes loose with this week's longest 90-67\* HH advance--due in large part to another solid double digit add week. It's new on KDJK, KEZO, KOZZ, KRIX, KZOQ, WDHA, WIMZ, WLAV, WQFM and five more. Now on a total of 40 reporting stations, including KBCO, KILO, KKDJ, KLPX, KMOD, KYYS, KSJO, KZAP, WCCC, WDIZ, WDVE, WLVQ, WMMR, WNEW, and WRXK.

**Blue Oyster Cult, "Astronomy", Columbia....** The Cult's remake of their '74 closet classic hits the bricks to the tune of 64 OTB believers--a list loaded with majors: KAZY, KGON, KLOS, KOMÉ, KQRS, KRXQ, KSJO, WHCN, WFBQ, WDIZ, KZAP, KYYS, WLLZ, WLVQ, WNEW, WPLR, and WYNF included. KOMÉ's Stephen Page feels, "This is a particularly sterling tune. Definitely a sizzler. I even like the Stephen King introduction".... KFMQ's Joe Skare adds, "I think it will create quite a buzz around here. They've been rocking so hard for so long it should be hard for a hip AOR to keep these guys off the airwaves".... Ditto J.D. at WONE, "It's one of those records which will reach the outer limits. As a matter of fact, we're already getting calls on it and the Stephen King introduction is a hit".... New at 49\*.

**Cheap Trick, "Don't Be Cruel", Epic....** This was the week it opened up. 31 adds and 46 now on board bring it on at 46\*, with WMMR and KRZQ already reporting power. WYNF's Charlie Logan comments, "They do a wonderful job here. This song will infatuate broad demographics and have me cutting a rug continually".... Again to Stephen Page at KOMÉ and "This has to be the best remake this side of Elvis. Goes over really well".... With the album well past gold and one of the most familiar songs of the past twenty years, how could you go wrong?

**Tracy Chapman, "Talkin' Bout A Revolution", Elektra....** How many programmers really heard Tracy on first listen? I think most of us can relate to this from KWHL's Cyndee Maxwell, "Although I was quite hesitant on Tracy at first, 'Fast Car' really did prove itself. Now there's no waiting on 'Revolution'".... As WPYX's John Cooper puts it, "Tracy continues to sell incredibly well, and 'Revolution' is the perfect follow up".... 22 adds this week signals the start of mass migration toward a follow up that screams to be played--but at a number of reporters, "Fast Car" is still running hard. Witness KXRK's Brew Michaels and "You don't have to take care of a drunk or work at a convenience store to feel the need to break away and roll the dice on a new life. Tracy zeros in on one of life's essential themes ('Born to Be Wild'/'Thunder Road') and climbs into power on the X".... Keep your eye on "Revolution"--Now on 63, up 61-48\*.

**Van Halen, "Finish What You Started", WB....** Though "When It's Love" is still solid top 5 airplay material--and #3 requested Nationally, "Finish" is clearly the driving wheel at this point. It's new on 20 (KDKB, KICT, KISW, KZEW, WQMF, WRFX, WRQK), with KGON, KISS, WAAF and WLZR among 9 play-ups. It's a top fiver at KISS, KQDS, WEGR, WLZR and WPDH. KISS, KQRS and WAAF peg it power, with 35 more heavy--all good for a 27-22\* move. As KZOQ's Vern Argo summarizes, "Their sales are still very good, and the Monsters are hitting Spokane very soon, so momentum on the album is still a major factor for us to deal with".... On that subject, please note the album's return to #1.

**Steve Winwood, "Holding On", Virgin....** The Increase Index tells all--and there Steve's #2 track nails down top honors with 33 play-ups. Factor in 16 adds and 141 already on board and we're talking a flashy 15-7\* gain--far and away this week's biggest overall point gains. Currently in power at 16 and heavy at 55 more.

**Robert Plant, "Dance On My Own", Es Paranza/Atlantic....** Another album play priority you'd be remiss not to call to action. Take your cue from the 33-30\* underline--with 14 adds (KQRS, WIMZ, WLLZ, WRFX, WWCT); increases from KATT, KNCN, KSQY, WAAF, WLVQ and WRIK, and 29 heavy reports.

**REACTION RECORDS**

**Pat Benatar, "All Fired Up", Chrysalis....** The Pat story continues to build with increases at KFMG, KISW, KSHE, KZAP, WFBQ, WRFX and 13 more for a very healthy 171 station base. Let's not forget that 4-2\* move on the HH, no doubt helped along by the fact that 138 of you firehouses are answering the call with Heavy or better rotation. Patty's at #4 Most Requested and when you have KGON, KICT, KMOD, KYYS, KZEW, KZRR, WBCN, WCMF and WDVE listed among the 29 reporting top five action, it's safe to say there is no false alarm here. Let's face it, the welcome back mat is out with "Wide Awake In Dreamland" at #6 on the Album Chart.

**Guns N' Roses, "Sweet Child O' Mine", Geffen....** Guess what, gang? Numero uno national requests again with a 30 station increase since last week. "Sweet Child" picks up 5 more adds from KSHE, WEBN, WKFM, WQMF and WWCT even though the single is breaking at CHR. An 11-8\* move on the HH was helped by 21 increases including KGON, KISW, KYYS, WDIZ, WIYY, WNEW, WPYX, WRXL and WYNF, but even more important is that there are no decreases. What more is there to say? Plenty according to **Eric St. John** at **WNPQ** "Guns N' Roses moves into Heavy and moves to the top of the requests this week. They'll be in town tonight opening for Aerosmith and the audience seems to be more psyched for Guns than they are for Aerosmith".... Or how about **Bob Jeffries** at **KBOY** "Number one phones for the last two weeks...The envelope please...and the winner is...Guns N'Roses!!!"

**Robert Palmer, "Simply Irresistible", EMI/Manhattan....** As predicted in last weeks report, Big Bob takes over the top spot with a 2-1\* move on the Hundred. KGB, KISW, KLPX, KSHE, KZAP, WFBQ, WHJY and 14 more couldn't resist increasing. The simple facts point to what could be Robert's biggest record since the video fueled success of "Addicted To Love". Request wise, we find that GQ dude scoring a 4-2 leap on Most Requested in the Nation with a nearly 50% increase to 43. **Eric St. John** at **WNPQ** comes through with this mouthful, "The Robert Palmer is new to top phones. The women really love this record. Some of our jocks work in clubs around the area and apparently this is the hottest thing out there".... Out of the 176 stations on board, 152 are playing Mr. Palmer in Heavy or better.

**Rhythm Corps, "Common Ground", Pasha/Epic....** Eleven more open the door for the Corps including KGB, KISS, KSJO and WIOT where **Jim Steel** expounds, "After a few weeks of development in the New Music Show, the Rhythm Corps gets a shot. It's one of those songs you can't help but like".... A 24-21\* move has more than us talking, for example the lovely **Beth Kepple** at **WKLS** "The Democratic National Convention has turned Atlanta upside down and 'Common Ground' by Rhythm Corps should be the convention theme, after only two weeks of airplay it's our #2 most requested, is anybody listening?".... Equal time to **Bob Walton** delegate from **WRDU** "We felt from the start that 'Common Ground' was not only smooth and sensitive rock and roll but an across the board hit. And now we have top 5 phones and strong sales to back up our belief".... Bob is not alone, Top 5 phones at **WWRX**, **WOUR**, **WLLZ**, **WDHA**, **WCCC** and 4 more elect Rhythm Corps to the Most Requested for the first time.

**David Drew, "Green Eyed Lady", MCA....** **KBOY's Bob Jeffries** calls it "The cover track of the year," and based on the really fast reacting phones he could be on the moolah. Here's **WCCC's Joe Marino** and "#1 phones, and we got more calls for it this week than last." **KFMH**, **KKDJ**, **KWHL**, **KPEZ** and **WZBH** also have it top 5--with **KRZQ**, **KWHL**, **WCKW**, **WKWQ** and **WXRC** showing increases. New on 13 (**CFOX**, **KEZO**, **KFMX**, **KSQY**, **KXRX**, **WZEW**, **DC101**), with current play on 95, most of which have it Medium. Underlined again, 44-39\*.

**Poison, "Fallen Angel", Enigma/Capitol....** Adds and increases give Poison this week's fourth longest 79-62\* move. **KRXQ**, **KBOY**, **KFMQ**, **KNAC**, **KTYD**, and **KWHL** highlight 12 stations just in, with **KDJK**, **KKDJ**, **KMJX**, **KNCN**, **WCCC**, **WCKO**, **WGIR** and **WIMZ** reporting increases. Currently on 44--with **KFMG**, **KISS**, **KICT**, **KLOL**, **KZAP**, **WEBN**, **WHCN**, **WHJY**, **WPLR**, **WQFM**, **WRDU** and **WYNF** just some of the calls dressed to impress.

**Cinderella, "Gypsy Road", Mercury....** As we check the stats, this road's direction is strictly a one way street...upward and onward. Increases at **KGB**, **WKLS**, **WEGR**, **WDIZ**, **WDHA**, **KGON**, **KISS** and 7 more with not a downshift in sight. Make sure you've got enough gas because with new passengers **WMMR**, **WBCN**, **KISW** and **WRFX** on board it's gonna be a long ride to the top of the hill. Pulling over to the request lane, 25 attendants show top 5 action including first time drivers **KJJO**, **KOZZ**, **WEGR**, **WHJY**, **WLZR**, **WOUR** and **WYNF**, making Cinderella the #5 most requested highway in America. 29-28\* on the HH.

**Melissa Etheridge, "Bring Me Some Water", Island....** It's early, but based on action to date, we're ready to predict easy top 15 exposure here. At least the 5th consecutive week of double digit add activity takes the play count to 97, with **WPYX**, **WLAV**, **WHCN**, **KOME**, **KKDJ**, **WGLF**, **WIBA** and half a dozen more just in, along with Ups from **KGON**, **KEZE**, **KMOD**, **WIOT**, **WOUR**, **WZEW**, **WIZN**, **KWIC** and five more. **KJOT's Carl Scheider** reports, "We featured it (one song per hour) on Thursday with incredible reaction, which translated into top requests for 'Bring Me Some Water'. Of all the female artists we've added this year she's the strongest. The upper demos and passives are coming out of the woodwork".... **WIOT's Jim Steel** moves it to heavy, saying "Every time we play it we get curiosity calls 20 minutes later, coming from all demos".... and from **WHEB's Scott Laudani**, "Melissa is starting to do great things for us. This is the kind of music that sets us apart".... Up 34-31\*--and, as we said, it's miles from the peak.

**Winger, "Madalaine", Atlantic....** One of the most musically together hard rocking records we've heard lately locks up a killer call letter week--with adds at **KFMG**, **KISS**, **KRZQ**, **KSQY**, **KWHL**, **KXBR**, **WCKO**, **WCMF**, **WKLC**, **WLLZ**, **WLZR** and **WDIZ** where **Rad Messick** comes to the party early, asking "Does this mean I get a date with Debra Winger? A bucket of Buffalo wings? Kip Winger puts a great melody line down over over a solid foundation from Dregs man Rod Morganstein, and it looks to be a winning combination".... From **KWHL's Cyndee Maxwell**, "Winger has a song that our listeners absolutely love. 'Madalaine' is a strong debut for the band."

**Gregg Allman, "Can't Get Over You", Epic....** **Tom Starr** at **WOUR** says it all with one sentence "Continued killer response to the Gregg Allman".... You know what, there's no way out of agreeing with the man. The increases look strictly blue skies with **KLOS**, **KYYS**, **WFBQ**, **WAAF**, **WHJY**, **KLBJ**, **KOME** and **WRFX** among the 26. Last weeks #1 on the increase index holds down the post with Power action on 25, whipping up a 7-5\* move on the Hundred. Top 5 phones on 16 including our brothers and sisters at **KMOD**, **KTYD**, **WDIZ**, **WEGR**, **WIOT**, **WKRR** and **WRKI**. Just to prove this is no one track wonder, how about "Demons" as this weeks 4th largest increase. **Stephen Page** at **KOME** sums it up best "Added 'Demons' from the Allman album, even though it's hard for me to pick a favorite. The band has clicked and the man is definitely in fine form".... Gregg is the proud owner of our highest charting bullet at 5-4\* on the album chart and we don't plan askin' him to give it back.

## MORE HARD ACTS

**Robben Ford, "Wild About You", Geffen....** New action on **KEZO**, **KGON**, **WHCN**, and 4 more propel this string master 99-90\* on the HH. Just ask **Marty Griffin** at **KFMF**, "I can't believe more stations aren't playing the new Robben Ford. What's the matter with you guys? Did you listen to it? Robben's definitely one of the better guitar players around and our audience is screaming for more".... Well Marty, 23 stations are on with steady action on **KBCO**, **KKDJ**, **KRZQ**, **KZAP**, **WCKW**, **WRXK** and 9 more. As far as we're concerned this is one of the finest bluesy/guitar rave-up's to grace vinyl this year. Let's leave the final word to **Kim Alexander** at **WHCN**, "The Robben Ford is just about the coolest song on the face of the planet right now"....Nuff said.

**“BRING ME SOME  
WATER”**

**The Bible, "Crystal Palace", Chrysalis....** One of our pet projects in Hard Heaven is making sure this pop beauty doesn't fall through the cracks. Reverend Bill is in a state of grace this week as 5 more parishoners, KBOY, KQWB, WKQZ, WNGZ and WRQK, come in with adds. Father Mike is yelling bingo because of the Power play at WBAB, WGTU and WRCN. Let's see what the rest of the flock has to say.... **Tim Brandow** at **WWTR**, "After about a half dozen listens we decided to add The Bible's 'Crystal Palace' this week. This song has gotten under our skin".... **Scott Murray, KVRE** "We're happily surprised with The Bible's 'Crystal Palace'".... A 58-54\* move on the HH. For a lot more on this band see the interview in this issue.

**Beatnik Beatch, "Beatnik Beatch", Atlantic....** OK, so this San Francisco band is no box of chocolates in the spelling department. That doesn't seem to bother **Skip Isley** sunning himself at **WWTR**, "Biggest surprise this week is Beatnik Beatch. If you want calls for something besides Guns N' Roses try this one".... Six more grab the tanning butter including **KDJK, KMJX, WEQX** and **WNOR**. Meanwhile, steady rays at **KBCO, WBCN** and 18 more push this beach baby upstream with a 95-87\* move on the HH. So spread out that towel and dig this advice from would be surf dog **Chris Emry** at **WIYY**, "Just play Beatnik Beatch until you wear it out".... Surf's up.

**The Escape Club, "Wild, Wild West", Atlantic....** Total station count is at now at 17 thanks to new action at **KFMH, KROQ, WDHA, WNCS, WRIK** and **WXXP**. There is no escape possible from this infectious beat. Even though it's just out, "Wild, Wild West" is already pulling down top five phones at **WTPA**, steady play at **WNEW, WNGZ, WOXY, WTPA** and 6 more. Leading us to believe that a debut on the HH is just around the corner. Starting Monday (7/25) this one will be the MTV hip clip of the week. Check it out.

**Rebel Heels, "In Hot Pursuit", Atlantic....** Anyone familiar with the atmospheric trademark of Rupert Hine's previous production credits will not be surprised by the fine job on this debut effort by Rebel Heels. Lead vocalist **Liz Laren** has a voice that will draw you in and hook you just like it has the 19 reporters that are already active on the Heels of this sound. We see lots of steady play on **KBCO, KEZO, KZOQ, WLLZ** and 7 more with new adds at 7 including **WHTF**.

**Paul Kelly, "Dumb Things", A&M....** New adds from **KFMQ, WEZX, WRQK** and 2 more bring the Kelly Kount to 74. Top 5 requests at **KTYD, WIXV** and **WMDK** help the 43-41\* move on the HH. **Joe Skare** at **KFMQ** doing his best **Paul Hogan** says "I've been digging Paul Kelly's 'Dumb Things' for quite some time. I really love their sound, they have kind of have a knack for being 80's rock and roll with a 60's flavor".... Heavy or better action at **WEBN, WHTG, KTYD, WDRE, WPLR** and 8 more.

**James Reyne, "Motor's Too Fast", Capitol....** This Australian import got stalled at the starting gate due to some unfair comparisons to a certain light-haired gentleman with a lip twitch bordering on the epileptic. We feel that this is the track that will put all that nonsense to rest. **DC101, KSQY, KXBR, WCKO** and **WIMZ** all shift "Motor's Too Fast" into gear this week and listen to that turbo purr. Take a spin or two around the studio with this one and make sure you don't get caught in the pit-stop without a spare.

## TAKE TWO

**Ziggy Marley, "Tumblin' Down", Virgin....** The second time out for this critically acclaimed album claims 10 more adds and ups this week from **WDHA, WHMD** and **WXXP** and others who help scoot Ziggy 59-52\* on the Hundred. **KBCO, KTCL, WHFS, WHMD, WKFM, WPLR, WRXK** and **WXXP** are already listing Heavy play and the audience has been warm as a day in Jamaica. Other key calls to know and tell include **KLBJ, KZAP, WBCN, WCCC, WKLS, WPLR, WRXK, KRZQ** and **KROQ**. The Jah Train is coming in and your seat is waiting.

**The Church, "Reptile", Arista....** Anyone with doubts about Rock Radio's willingness and ability to deliver second tracks from new hit acts had to be pulling their hair over how long it was taking to slipstream "Reptile" into the "Milky Way" momentum--but now it's finally up and running. Witness new air at **KYYS, WEGR, WWRX, WWTR, CFOX, WAOR, KZAM** and 5 more, backed by play-ups from **KBCO, KGB, KOME, KWHL, KPOI, WCCC, WHFS, WHMD** and **WIMZ**--with no play decreases reported. Currently on 96, with heavy action at 27, including **KLOL, KSJO, KWHL, KZAP, WBCN, WIZN, WPLR, WWWV**, and **KBCO**. 35-34\* on the Hundred.

**In Tua Nua, "All I Wanted", Virgin....** With their first domestic release, Ireland's, In Tua Nua is shaping up as a band to watch. **KBCO, WBCN, KJQN, KTAO, WDHA** and 6 more join early bird **WFNX** with adds this week. **Don Dixon** has handled the production with his usual flare. The sound is definitely more American than any of their previous efforts. **Brian Illes** at **WKFM** is impressed, "Look out for In Tua Nua on Virgin. I burned up the triple play cassette on the walkman. This song has a hook and a half."

**Toni Childs, "Don't Walk Away", A&M....** This Tom Lord-Alge remix is garnering rave reviews from Radioland. **Vern Argo** at **KZOQ**, "Toni Childs has nailed down big retail in the market without any airplay, so we jumped on 'Don't Walk Away' as soon as we could".... Nine more adds this week including **KMOD, KZOQ, WCCC, WKLC, WLAV, WPLR, WTPA, WZEW** and **WHEB** where **Scott Laudani** proclaims "I've spent a lot of time with the Toni Childs tape and have come to the conclusion that this is a great album. 'Don't Walk Away' is particularly welcome and works well on the air."

**Femme Fatale, "Waiting For The Big One", MCA....** I don't think lead singer **Lorraine Lewis** had the same big one in mind as Peter Gabriel, but that hasn't stopped us from wearing the video out here at ranch. The big question around these parts is, what is she doing with that huge pole, and why weren't we invited? Nine stations come in out of the box, so to speak, including **KICT, KJJO, KZAP** and **KZRR**. It's early, but we're predicting the big ones will be lining up for **Femme Fatale** before too long.

**It Bites, "Kiss Like Judas", Geffen....** **Gomer Pyle** would say "Surprise, surprise, surprise", but **Tim Parker** at **KNCN** says "The jocks are really into the new one from It Bites. 'Kiss Like Judas' is one of the most pleasant surprises of this summer".... Debuts at 99\* on the HH with a station total of 16 for the time being. Eight more stations add "Kiss Like Judas" with the roll call including **KJOT, KRQU, WDHA, WFYV** and **WLAV**. Watch this climb with Heavy play already at **KAZY, KDKB** and **WPLR**.

**Steve Forbert, "Running On Love", Geffen....** Eight more adds on Lil' Steve including big boys **KICT, KOZZ, KKDJ** and **WMMR** where **Erin Riley** says "I think the Steve Forbert is just a terrific record overall, and shows that Gary has quite a talent for producing".... With 51 reporters turning the corner we see a run for the roses on this fine comeback effort. So does **Ron Sorenson** at **KBLE** "We've been 'Goin' Down To Laurel' with Steve Forbert since day one. So a new album is cause for great rejoicing especially when it's as good as 'Streets'. We'll probably end up six cuts deep".... Increases at **WNEW, WHFS** and 3 more help Steve clock in with a 71-63\* move on the HH.

**Brian Setzer, "Rebelene", EMI/Manhattan....** As **KOME's Stephen Page** echoes our sentiments, "It was one of my favorites when the album first came in. Glad they've gone with it, and hopefully it will click this time. He's much too underrated".... In addition to **KOME**, there's new air at **KDJK, KKDJ, KMBY, KOME, KRNA, KZAP** and **WKWQ**, with **KXBR, WPLR** and **WRQK** showing increases. Up 85-77\*, with ongoing play at **KAZY, KLBK, KTYD, WBCN, WHJY, WQFM** and more.

'ALLWAYS'

"His technical brilliance combined with his emotional passion has brought the art of guitar playing to a new all time high. If the dictionary had pictures, his name would be next to the definition of 'awesome'. If all of us could make the sacrifices to strive for excellence in our own field as he has in his, the world would be a better place."

**MAJOR MOVERS ARE BOXED AND BOLDED.**  
**> INDICATES A CHART DEBUT.**

They are to the Eighties what the Stones were to the Sixties and Aerosmith the Seventies. They barf on Rockline and they pack in houses from coast to coast while the request lines at radio melt into a post-nuclear lump. Guns N' Roses, are ripping up the chart once again and that inspired double bill with Aerosmith is piling up even more listener awareness, if possible, while the station count is growing by leaps and bounds as well. And where the role model is looking pretty sedate and gentlemanly these days, the Axl onslaught shows absolutely no signs of letting up. New play for "Sweet Child O' Mine" on KSHE, WEBN and WQFM matches up with

increases at WPYX, KMOD, WZZO, KYYS, WDIZ, WNEW and KGON for a hefty 11-7\* debut into the Top Ten. Big requests continue to be reported all across the country including WBCN, KISS, KICT, KPOI, WRDU, WPHD, KTYD, WOUR and WHJY along with a cast of thousands.

New to the Top Ten is Rod Stewart's "Dynamite" with some serious ups in rotation on KKDJ, KYYS, WKDF, WONE and KPOI while steady emphasis play at KISS, KATT, KWHL, WZZO, WMMR, WFYV and KRQR points to a 15-10\* jump this week. In the rush for a second cut from Rod's best received album in a decade, the action at AOR got a bit diffused with other PD fave selections jamming up the pipe. Now that the momentum has swung solidly behind "Dynamite" the push for Top Five status is on. Right behind Rod and gaining speed at a breakneck clip is the Fabulous T-Birds with a 19-11\* week for "Powerful Stuff". Those Powerful players like WEBN are already getting Top Five phones and the number of high rotation bidders on the board increased impressively with WBCN, KWHL, WONE, KQRS, KPOI and WDVE all joining the parade. This from-the-hip slice of Austin rock and roll has just enough R&B swing to grease those upper demos while the lower end will get all hot and bothered by that downbeat dominance and growling vocals. Make no mistake, this is a blue ribbon track for AOR is there ever was one.

Something interesting is going on with the two major debuts this week and the format leaders have reversed position with the format at large as a result. Little Feat charted on the HH at 23\* this week while the Winners Chart placement for their return sits at 14\*. Format leaders have shown a marked preference for this instantly nostalgic piece of music. WRXK, KGB, KZAP, WEBN, KISW, WWDC, KSHE, KLAQ, WBCN, WPYX and The Loop all have joined in playing this OTB sensation with requests piling up already on WEBN, WRDU and WKLS among others. The tour has been a key element so don't miss your shot at a seat in the front row when it comes to town. The other big debut this week sees Robert Cray hitting the Winners Chart at 21\* while the HH ranking sits slightly advanced at 18\*. This effectively swaps the impact of these two songs between the format at large and the premium players with Little Feat getting the better of it this time out. That's not to say that Robert's "Don't Be Afraid Of The Dark" is anything other than a monster because with adds like KMOD, WFYV, WNEW, KICT, KBCO, WNOR, WHCN, KYYS, KEZO and many others it becomes obvious that Cray is back and beautiful. Nothing can stop this man's blues inspired genius and the format is better off for it.

The big developing move this week back in the body of the chart sees glamsters Britny Fox hopping 49-37\* on the Winners Chart. The big move at MTV as "Most Requested" has begun to trickle down, hitting radio with new play on KGB, KLAQ, KLPX, KZAP, WHCN and WIOT and increased airplay KGON, WDIZ, WRKI and KATP. These guys have a strong feel for core sensitive rock that should shore up any playlist looking for help on the lower end.

New stuff on the Winners Chart this week includes the Blue Oyster Cult critically acclaimed return to form "Astronomy". From the Stephen King intro to the ultra refined production to a hook from hell that should leave them gasping for air in the first five rows, this track looks like a solid performer. New play at KATT, KYYS, KLOS, KEZO, WLLZ, WNEW, KQRS and KGON gets the song onto the chart at 41\*, a full 8 slots ahead of their HH ranking. Steve Winwood is also up and running with "Don't You Know What The Night..." clocking in at 47\* with Heavy play on CHOM, WHCN, WONE, WWDC and WLVQ pushing this paean to pop consumerism 9 positions ahead its HH placement.

Paul Kelly also hits the chart this week with "Dumb Things" breaking at 49\* with support play from KPOI, WYNF, KBCO, WFBQ, KYYS, KZAP, KLBK and WBCN. This track represents some of the most formative music yet to come from the fertile ground of Australia and it is interesting to note that WEBN already has it in Power. Paul's songwriting is so far above the norm that comparisons get fuzzy but anyone can appreciate that howling harmonica. Yet another chapter in the Lita Ford story comes to light with "Back To The Cave" sliding in at 50\* this week. Big phones at WNPQ, WHJY and WDHA backs up some steady airplay on WHJY, WYNF, KGB, KZAP, KEZO, WLLZ, KLPX and KLLO. Lita has effectively crafted a multi-media image that is certainly working in the Eighties and that new airplay on WDIZ, WFBQ, KGON, WNEW, KPOI and KLAQ is bound to be followed by more of the same.

**NMS AND THE MASSES**

It wasn't all just revolving bar scenes and six dollar drinks at the latest and biggest NMS. On a commonplace note, the registration process was much improved. Gone were the death march from Bataan lines presided over by thugs with cattle prods. This year things moved along quite nicely thank you. The exhibitor hall was certainly jammed with goodies for pro and novice alike. Dawn Hood's panel on Alternative Radio was a raving success especially in it's attempt to deal with the problem of Alternative Radio being left behind for promotional perks when an act they have broken goes mainstream. There was a real sense of professionalism and accomplishment in the air but there was also some pointed criticism of radio and the industry at large by keynote speaker **Paul McGuinness**. The legendary manager of U2 slammed both AOR and CHR as being musically conservative. Paul went on to state his conviction that the more radical metal bands were among the brightest lights on the current musical landscape. He sighted their willingness to ignore the common wisdom of success and blaze their own path of musical expression as critical to keeping popular music fresh in the face of so much sameness. For more of McGuinness' comments and further NMS coverage check Mike Cooper's Music News in this issue of the HARD REPORT.

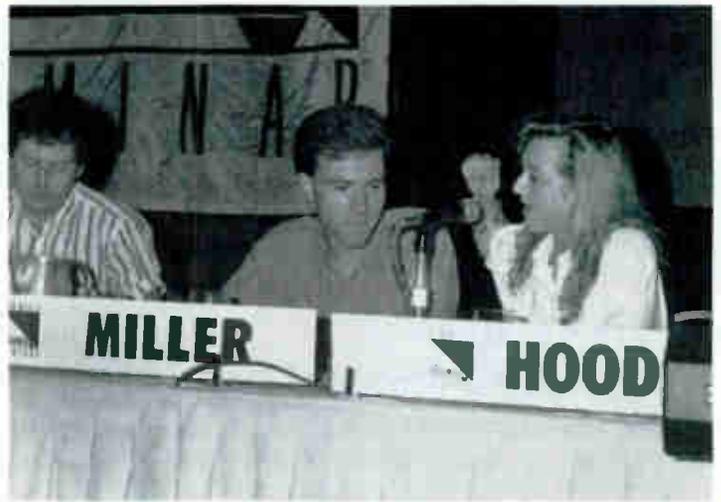

Keynote speaker **Paul McGuinness** looking pretty censorious.

**BILL AND ROSE BBQ NEW YORK**

My Cuervo containment fund is about as dry as Summer in the Panhandle after the big hoop-de-doo Texas style BBQ thrown in a National Ukranian Ballroom, (you figure it out), during the NMS weekend in New York. When we showed up the airconditioner was down for the count and the inhabitants were already doing their best Black Hole Of Calcutta routine. **Bruce Moser's** Buffalo wings did nothing to diminish the blaze felt by numerous unwary participants but they certainly pushed the beer consumption into overdrive real quick. It was nice to see so many good friends cut loose even if my vision was somewhat diminished by 10pm. **Calderone and Loscalzo** from WRCN kept the room hopping and it was great to see **Sue Frey** from WAOR although I could have done without the squirtgun, thank you. A freshly trimmed **Lenny Bloch** dropped in from WPDH and the refugees from Yankee Stadium were only slightly more glazed than the ribs being served. as usual, **Bill and Rose** took care of everything and a good time was had by all. I'm sure that photos will follow and then the lawsuits can really begin. When it came time to leave the Ukranian Ballroom there was a steaming midsummer downpour that was pretty dramatic but nothing compared to the weather front storming in my head all the next day.

**PASSPORT CUTS**

Despite the incredible amount of press being laid out about how things are going to turn around at the troubled **JEM/Passport** combine, we get disturbing news of layoffs within the firm. A number of staffers have been given their notice, including Alternative Promotion's **Debbie Gregory**, Westcoast Promotion guy **Vic Lentini**, **Linda Wuelfing** who worked with Video Promotion and the company's Publicist **Lowell Cannon**. It remains to be seen if the company can effectively stop the conjecture on the streets that can be counted on to follow this kind of news.

**POP GOES PHILLY**

**Iggy** and his newly formed band of no nonsense rockers including **Psychedelic Furs** and **Hanoi Rocks** alumni hit Philadelphia on his recent nationwide concert swing with **Balaam And The Angel**. It only took a few snarling guitar chords for me to know that I needed to get up close for the full effect of a "Night With Iggy". Sure enough, **Bwana** and I got quickly sucked into a swirling mass of beer and sweat drenched frat kids who were mildly amazed at the two far out old men slamming with amazons and skinheads alike. The exercise was much needed after a great dinner with our friends at A&M including **Al Cafaro** and **Stu Goldberg** along with **WZZO's Todd Heft** and **WEZX's Dave London**. **Iggy's** performance was powerful and focused without being too slick, too controlled. The man remains a consummate edge-walker and the audience was wrapped in every nuance of the show. His sense of energy never flagged and the power of this new bare bones approach rattled at mach one force for the entire set. It was great to see someone so in tune with his own sense of what rock and roll is all about.

Taking a break during some interviews to mark the release of her new album, Atlantic artist **Y Kant Tori Read** posed recently with the folks who are getting here ready for the top. Now here's the IQ test part of this section of Industrial Noise. Try to spot the artist in this picture.

**NEIL KNASHES SOME TEETH**

Alright already. We know everybody and their sister **Flo** has run the **Neil Young** note to MTV but you just gotta love it when someone drives the proverbial nail in with just one swipe of his psychic hammer. And this little ten penny job from Mr. Young is still vibrating right in the frontal lobes of those oh so hip MTV types. To wit....

*MTV, you spineless twerps. You refuse to play "This Note's For You" because you're afraid to offend your sponsors. What does the "M" in "MTV" stand for? Music or money?*

*Signed, Neil Young*

*Long Live Rock And Roll*

Nice little note. So what if it's a tad naive, (of course the "M" stands for Money, Neil. Or maybe it's Monochromatic, or perhaps Mediocre, howabout Middle Aged?). Let's face it, all the flashy graphics and hip clips used for links, (the single best aspect left to MTV), can't disguise a premature hardening of the arteries. At any rate, thanks for slam dunking those self satisfied suits trying to pass for hipsters, Neil.

When **Robert Plant** hit Los Angeles recently you had to use a flamethrower to separate the film colony flotsam from the rock and roll jetsam. Pictured with Robert are **James Woods** and his fiancée **Sarah Owens**, **James Farantino** and Robert. Notice that Farantino is the only guy playing the camera? He's the only person in this shot who needs to.

**WESTWOOD UPDATES**

A couple of enticing programs are about to hit the air with **WW1** the second week of August. **Timothy White** will be spending some time with **Rod Stewart** on his **Rock Stars** show while the **BBC's Pete Drummond** hosts "The Rise And Rise Of U2" with a surplus of never before heard material. Both shows should prove to be highlights for the Summer season.

**SPORTS VIDEO EXPLOSION**

In a recent series of one-to-one interviews **Burns Media** spotted the interest in Sport related videos as a burgeoning field of expansion with the public. A number of respondents had cited the **Sports Illustrated** video premiums as a primary reason for subscribing to the publication. Radio can also profit from this groundswell of consumer interest by keying certain promotional efforts to a sports video package. The combination of radio and sports video is especially effective with those critical male demos.

**LENNON STAR GRANTED**

After a worldwide campaign led by **Pollack Media** to get **John Lennon** a star on the Hollywood Walk Of Fame the city fathers decided to get with the program. The star will be installed sometime this year in response to a letter and petition campaign that saw over 100 stations link up for the effort. **PMG** high priest **Jeff Pollack** told **NOISE**, "The stations did a great job generating real enthusiasm for this long overdue tribute."

We know this shot of **Nesuhi Ertegun** and the **Modern Jazz Quartet** has nothing to do with rock and roll but we wanted to run it anyway because these guys look so fine.

**TRANSTAR TALENT HUNT**

They still need airtalent for the **Transtar Niche 29** format. The opening is afternoon drive and the requirements are a comfortable style that will work from Maine to Hawaii. Send your best stuff to Kurt Kelly at Transtar Radio Network, 6430 Sunset Boulevard, Suite 401, Los Angeles, CA 90028.

Enigma got together with **Al Stewart** to celebrate his signing with the label and the anticipation of his new album. Word has it that final mixing is currently being done on the project and we should have it by the end of Summer.

**THE RADIO RUMBLE**

**WAQX/Syracuse** brought \$4.5 million on the block when picked up by Atlantic Ventures Corporation recently. A spokesman for Atlantic said there would be no substantive changes in the station when they took control in September pending FCC approval. The group has already purchased properties in Rochester and just signed a letter of intent **WRKO/WROR** in Boston for a reported \$28.5 million.

**WRIF/Detroit** will trot onto the playing field for a charity softball game against the Detroit Redwings last week. Last year the Redwings snuffed the **WRIF** team 13-1 so they are talking major revenge in the Motor-town. The gate will benefit a local organization that provides suicide prevention hotlines and free legal advice as well as other community programs.

**WKLC/Charleston** informs us that Duane Doherty slides into afternoons at the station while making his PD gig permanent at the station. Duane's sidekick in affairs of the turntable is John Riggs who is also knocking down middays while working out as MD.

**WYNF/Tampa** guested some Jersey boys when the Smithereens blew into town for a few sets and some rays on the beach. Pictured are WYNF's Jon Volmar, Smithereens members Dennis Diken and Jim Babjak and WYNF's Charlie Logan. And not a chin whisker in the whole bunch.

**KFMQ/Lincoln** went grassroots with the Neil Young video and distributed the clip that MTV won't touch direct to the people. Reprise supplied copies of the video in question and the station swung behind the whole program with a lot of fun had by all. Seems like the average man on the street is very aware of the Neil Young/MTV flap and their sympathies are entirely with Mister Neil. Sounds like a great image builder promotion that you might want to run past your Reprise rep as well.

**WHJY/Providence** named Caroline Fox their interim PD with Ron St Pierre headed back to the AM sister station. Caroline has been with the station for six years and holds down the morning slot. When **NOISE** contacted her she said, "I'm going to prove to management that it is possible to do very well here with this format. I want gangbuster numbers." When asked if Chris Herrmann will remain as MD Caroline enthused, "You better believe it. I couldn't have a better guy to work with."

**WHMD/Hammond** will be going CHR as of August 29th. No consultant will be utilized in their approach which is designed to up the station's billing profile before the all important fourth quarter. "The basic truth is that we were just not successful enough with our current format.", said Catfish when we talked to him recently. "We are already playing a lot of CHR crossover material so this is just a matter of increasing that stance." I told you so Catfish. Going public with your Elvis sighting last week was bound to bring down the hounds of hell on your trail. I knew they would do something fiendish but this switch to CHR is beyond the pale.

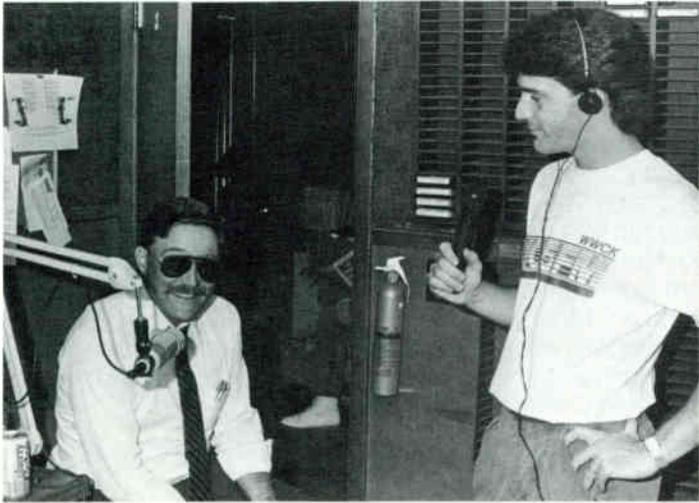

I.R.S. promotional pagan **Barry Lyons** gets casual with WBCN's **Carter Alan** at the recent Boston Rumble.

**WRQK/Canton** has dropped B.D.& A. as their consultants. The station has not announced their intention to sign with anyone else at this time.

**KTWV/Los Angeles** is moving to stem those CHR rumors with word that they are still actively pursuing PD candidates. In other "snooze and you lose" updates, Rick Dees effectively squashed the talk about him jumping ship by resigning with KIIS for five years and the kind of dollars that could choke Edwin Meese, with any luck.

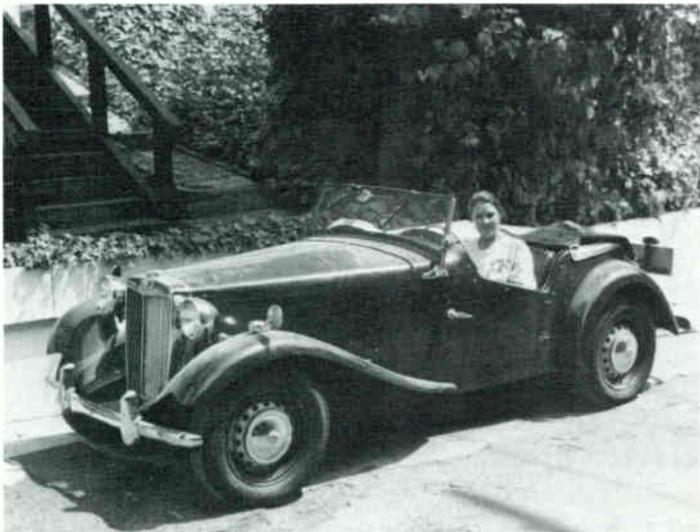

**WWCK/Flint** donated twelve hours of airtime to benefit a local chapter of the Vietnam Veterans of America and raised \$5,000 as a result. The fundraiser was keyed to donations for requests to be played with a neat twist. The further out of the format the request was, the more the donation had to be. So, songs by Prince or John Wayne brought in more money as a result.

**Gary Kangas**, President of VVA Chapter 175 talking with **WWCK's Tom Easton** about the work the Chapter does with vets. Gary then lapsed into an impromptu rendition of "Winchester Cathedral" which netted the cause a solid chunk of change.

**KKSF/San Francisco** has concluded their nearly endless search for the perfect new age morning personality with word that they have hired Blake Lawrence for the job. Blake has spent time in the PD chair at KLOL/Houston and KZFX/Houston and joins Steve Feinstein and the boys for active duty on the Pacific Rim, where men are men and women are seriously disappointed.

**WPYX/Albany** reports new music hours. John will be taking calls Monday and Wednesday through Friday anytime after 2:00pm. In other news, Cliff Nash has left the station for work at WMMR and the staff lineup is as follows: Bob Mason 6-10am, John Cooper 10-1pm, Ed Levine 1-3pm, Grego 3-7pm, Lisa Walker 1-12m and Sue Turk from WPDH joins for overnights. The book was a killer for Ed and the crew so look for more of the same at that happening Upstate rocker.

Like this little car? So do we. Enough, in fact, to put it in the sheet for no particular reason. Pictured is Geffen's **DeDe Whiteside** in her classic MG looking like an extra out of **Dobie Gillis**.

**KCAL/San Bernardino** moved up Penny Drake to take the position of Promotion Director at the station. Penny has trained as coordinator for the department before taking her new post. OM Dana Jang told NOISE, "In the short while Penny has worked in this area she has blossomed into the makings of a great radio Promotions Director."

**WZBH/Ocean City** plays host to the Moody Blues who will hit the Beach for those Summer crowds. The station has certainly lined up a significant amount of goodies for their premiere promotional push and Andy Szulinski of PolyGram gets high marks for helping out.

**WIXV/Savannah** got down and dirty when Robert Plant and Cheap Trick hit Jacksonville. Word is that the folks from Georgia were suitably set back by the show with kudos going out to all the labels involved for their superlative backup.

**WPLR/New Haven MD** Tom Bass reports new music hours. The times to contact him about music are Monday, Wednesday and Friday from 3:00 - 5:00pm.

**KNX/Los Angeles** named Rick Shaw as their acting PD in the wake of Andy Beaubien's departure. The front office is also cranking up tons of verbage in the denial category. "Changing format? Us? Never!" That's the general drift of things coming out of the station right now. Ditto the news that Pollack is out as consultant. This scene should get pretty interesting in the coming weeks.

**KISW/Seattle** and Lynyrd Skynyrd assembled for a celebrity softball game to benefit an area food bank. A turnout of 800 brought in over 2 tons of canned goods, not counting those Budweiser empties.

**WLLZ/Detroit** is getting ready for their annual Riverfest with fun and games for the masses. Like maybe 200,000 masses. The event is a bona fide event for the entire town and providing music for the crowd will be Baxter Robertson opening for headliners Cheap Trick.

**WDIZ/Orlando** announces the dismissal of B.D.&A. from their consultant stable. The station continues to work with Pollack Media Group but Rad and those Florida folks have joined the chorus of folks who are saying "Adios" to a Lee-less Atlanta gang.

**KXRX/Seattle** greased up for a Southern style BBQ at their studios recently. Celeb host Gregg Allman was the reason for all the fun and Epic's Debi Lipetz gets raves for her work with those charcoals. Bet folks are glad that Deb decided to stay close to home.

July 22, 1988

**KBCO/Boulder** had a chance to experience some live music in their justly famous Studio C recently when Melissa Etheridge dropped by. After Melissa knocked out some incredible versions of the music that has made her concert tour a hit across the States, she posed with the boys in that Rocky Mountain sunshine. Left to right is KBCO's Doug Clifton, Melissa, Island's Andy Allen, KBCO's Dennis Constantine and Atlantic's Michael Brannen.

**KRCK/Omaha** gets hard with their new Metal Mondays program hosted by Matt Roberts. Service of Metal and Hard Rock product on vinyl or disc, old or new, is much appreciated. Send the stuff to the station in Matt's name.

**KBOY/Medford** got a chartered lear jet together to whisk five lucky listeners off to Seattle for the Monsters Of Rock show. The promotion has helped up the station's profile in the market as the first place to go for some fun on the road. As for the local scene, the Fab T-Birds and Gregg Allman both hit town recently for some good rocking that had the folks down home grinin' and skinin'.

**WEZX/Scranton** decided not to pick up their option when their contract time rolled around with B.D. & A.. The station has chosen to go it alone for the time being with no new consultant signed as a result of their decision to drop service with B.D. & A.

**WRKI/Danbury** introduced a new feature called Fax Trax. Listeners use the Fax to make requests, share comments, make obscene suggestions and the like. The innovation has brought in about 100 pieces of communication per day to the station and the quality of dialog has been encouraging.

**KLAQ/EI Paso** held a very successful Casino Night promotion to benefit a local charity. A huge warchest of promotional items were donated by the local and national record community in another example of both sides of the fence extending themselves to do some good work.

**WMAD/Madison** responded to all the rumors of their impending format shift to Classic Rock with blanket denials that anything was going on. Then they slashed their entire playlist to ten songs, all in Heavy. Calls to the station get lost in hold hell but it doesn't take a sliderule to figure out that something is afoot.

**KSJO/San Jose** morning monster Perry Stone called the other day after his morning show review in the Hard Report to put me on the air. Segments of the interview were read and Perry got all misty about what a great guy I am before we started assailing each other with charges of B&D weekends and Stern worship. Terms like, "Bozo, rump wrangler and skeeve ball", were tossed back and forth casually while Perry tried to get me to divulge state secrets regarding my conversations with crosstown programming rival Ron Nenni. To say the least, I was not to be drawn out by such a simple ruse. Being on air with Perry was a little like skin grafts without the benefit of anaesthesia, but you know what? I liked it!

**WWTR/Ocean City** announces new music hours. You can reach their new MD Mondays from 12:00 - 2:00pm on Mondays. Her name is Karen Collins and she has just joined the station so be kind.

**WONE/Akron MD** J.D. is still trying to get Carlyne Heldman of MTV to show up for the Annual Soap Box Derby. The event is a natural for those painfully incisive field reports that MTV is known for, (Fredrick's of Hollywood, The Untold Story... The Jersey Shore, Summer Sizzling with Hospital Waste... Keg-ers, Moral Dilemma or Frat House First Ammendment). Stuff like that has really put those guys on the leading edge of electronic journalism and, besides, J.D. has been trying to date Heldman for months now.

**WRIK/Paducah** names Craig Lambert their new PD. Seems that former PD Mike Scott left on vacation one day and never came back. Craig will be taking music calls all week long from 10:00 - 3:00pm. He's a four year vet of the station and a natural for the Programming slot once it became open.

**WOUR/Utica** has been throwing one hell of a 15th Anniversary party for their listeners with all the usual, and some unusual, treats for the faithful. Try this one on for size: sending someone to London for the Springsteen dates at Wembley at putting them up in the royal box with Chryssie Hynde, Christopher Reeves and Boris Becker. Think that winner will remember the station for a few years to come? Ummmm, could be!

#### **ALUMNI UPDATE**

Our old friend and former Music Director **Amy Dahlman** is close to landing a PD job in her beloved upstate New York. Check this space next week for more details.

**KIDS O' PLENTY**

When Bob Catania dropped **Andy Allen** off after the McGathy BBQ last weekend he commented on how lucky Andy was that his wife wasn't having their baby right then what with Andy being slightly, er... umm... well, the worse for wear. Well, sure enough, two hours later labor pains commenced and Andy and his wife were on their way to promo parenthood. The little boy is named David Vincent Allen and he weighed in at a respectable 6 pounds and 15 ounces. Congratulations go out to the entire family although I understand that Andy was in such a state that he thought he was getting twins during the actual birth.

We also hear that MCA promo wizard **Randy Hock** and his wife Ronnie have entered the baby boom in style with the birth of their brand new daughter Alexandria Lee. The little girl did her heavyweight Dad proud by tipping the scales at 9 pounds and 9 ounces when she hit the bricks July 9th.

**POSTSCRIPT**

Longtime force to be reckoned with in the BMG organization, **Allan Stein** was buried last week after suffering a fatal heart attack. Allan had been with the RCA Sales Division for years, working his way up to VP of Distribution and Sales for BMG when they took over the label. Allan was only 37 and his untimely passing effectively shut up shop for the RCA team at the Upper Midwest Conclave. Jim and his boys jumped the next available plane to be back home when they heard the news. All of us at the Hard Report would like to extend our sympathy to Allan's family and friends.

## A CHAT WITH BOO

In this day and age of pre-programmed and big business AOR, unfortunately too much music is heard and nowhere near enough is really listened to. The Bible is a band that demands not only that both sides of your brain be open but your ears and heart as well. Now, don't get the idea that we're talking about Magma style spaceoid freakouts here, oh no. The Bible is, pure and simple, a masterful blend of pop, folk and jazz with a large helping of capital E for emotion.

It is my pleasure to do my first interview for the Hard Report with a band that, I believe, any true music lover will embrace. From the first listen to their brilliant debut, "Walking The Ghost Back Home", up until the five-hundredth time through the stunning follow-up "Eureka", I suspected this to be a band that matters. After speaking with Boo Hewerdine I'm convinced. Hopefully you will be too.

### The Bible

Boo Hewerdine- Vocals, Guitar  
Tony Shepard- Keyboards, Percussion  
Dave Larcombe- Drums  
Neill MacColl- Guitar, Mandolin

**MM:** As a big fan of your first LP "Walking the Ghost Back Home" I was wondering how your approach to recording differed, if at all, on "Eureka"?

**Boo:** Well, we started doing this new record and we went to the big places and anticipated a long recording time and we realized in the end that we didn't need to do that. We did the first record in four weeks and we did this one in ten. So it was getting dragged out a bit but we kept the same spirit. Plus, getting Steve in to produce so he could sort of be someone at the helm really helped. We did the first LP ourselves, but this time we wanted someone to take control of that so we could concentrate on giving our best performance.

**MM:** How did a British band persuade American Steve Earl to take on his first production job?

**Boo:** We heard that he liked "Walking The Ghost Back Home", somehow he had gotten a copy which was really amazing to us. He wanted to come see us while he was over in England, originally he was going to do just one track which made some people a little nervous but not us. As it turned out, he wound up doing the whole album because we worked so easily and fast together.

**MM:** He has a reputation as a bit of a wild man, how did that differ from people you had been used to working with?

**Boo:** Yeah, well we are pretty quiet. I mean we like a cup of tea and all that sort of thing. But underneath it all Steve's the same as us. You know, he's about songs. We didn't have any real wild nights together, we didn't see that side of him although we were with him for quite a time.

**MM:** It really surprises me that Steve Earl would have hunted down a copy of your import LP when there wasn't much American press on the band.

**Boo:** The thing about Steve is he's a real music fan. He was always out hunting new records when he was over there with us. He would sort of go off for a couple of hours and come back with a huge pile of records. He just loved anything new he could get his hands on.

**MM:** What do you think makes the Bible unique?

**Boo:** The thing about this band is, right from the beginning when I started it with just Tony who was involved with jazz, everyone we wrote with and everyone in the band, we all try to bring in some completely new type of music into it, like working with Steve. Neill is a folk player, I was into the punky band scene, Tony's a jazz player. It's kind of a collective type thing.

**MM:** I've read about the band members diverse musical backgrounds could you expand on their experience for our readers?

**Boo:** OK. Well, Tony who plays keyboards for us now only learned since playing with me. He used to be, and still is, a jazz drummer and he's played on some really avant garde records.

**MM:** Didn't he play with Keith Tippett?

**Boo:** Yeah that's right. And then Neill, his parents are Ewan McColl and Peggy Seeger, he used to do tours here with them when he was a teenager. He's been playing since he was four I think. So folk music is well ingrained in him. Dave and I went

to school together and used to be in sort of raucous punk bands.

**MM:** With your musical taste and experience covering such a wide range I can't imagine what you would listen to when not working, what is on your turntable at home these days?

**Boo:** I've only got a cassette player and the tape I left in is by an American group called Color Blind James Experience, have you ever heard of them?

**MM:** No Boo, you've got me there.

**Boo:** They're a group from near here (Boston). It's a really funny record, a bit jazzy and a bit strange. They've got songs like "I'm Considering A Move To Memphis" it's about ten minutes long and all about him walking around Memphis and having a sandwich then losing the sandwich. I also like REM a lot and I buy a lot of old blues and soul things. I used to work in a record warehouse so I have a really big collection. I guess I'm always trying to hear new sounds, whether they happen to be old or not. I listen to everything, anything where I feel someone meant it when they did it. I really want to visit a blues club when we get to Chicago.

**MM:** I see The Bible as a group of very accomplished musicians, with that in mind, if someone said "OK, Boo, I really like the band but if you compromise and do X you'll have a hit single. Essentially what I'd like to know is would you rather stay true to your musical integrity or have hits?"

**Boo:** I can answer that quite honestly because I was in a band that was signed to a major label. I was 20 then and we got sucked into all that back then.

**MM:** What was the name of the band?

**Boo:** It was called "The Great Divide". We never did very well but by a real fluke that was on Ensign Records and they dropped us. It's under really fluke circumstances that we're on Ensign/Chrysalis in America now. Neill was in a band called The Roaring Boys who were the most hyped band ever. So we've been through the whole thing of doing that and both of us were so miserable that I can honestly answer that we're just going to stay true the music because that's more important to us than anything else.

**MM:** Do you think there is a chance that your first LP will ever be released in this country?

**Boo:** I'm trying to talk them into it. I've since gone in and remixed "Graceland" and "Mahalia" and put more tracks on it. It has been released in Australia like that. Kind of a new and improved version of "Walking The Ghost Back Home".

**MM:** You mentioned earlier that Neill had been to America before, is this your first trip here?

**Boo:** It's my first trip here to do music. I came here when I was 16. I had an uncle who payed for me to come over and stay with him for a summer in Oregon. We spent the whole summer going up and down the West Coast together, it was a great summer.

**MM:** It sounds like it. How do you like it this time around?

**Boo:** I have to be honest, we were a bit nervous but we're really enjoying it and looking forward to a tour here.

**MM:** Well, Boo thanks for taking the time and I wish you all the best. I can honestly say I am a major fan of The Bible.

**Boo:** Thank you very much, it was a pleasure chatting with you, cheers.

**NEW RELEASES**

**In Tua Nua "The Long Acre" (Virgin)**  
 Since 1983 this group set the wheels in motion to form what Ireland's music industry voted the #2 national pop act behind U2 last year. With an air of traditional folk influence In Tua Nua molds a modern Euro-pop edge into an exciting collection of songs that venture into new sound territory with a familiar approach. As the first American debut album, "The Long Acre" poses the musical question: Can you afford to overlook this one? The answer is no. The band weaves layers of dramatic guitar work with violin and precision production credits go to Don Dixon as he tactfully blends Leslie Dowdall's voice into each composition with the expertise we've come to expect. It's not likely you'll pass up a group whose progressive to mainstream crossover fate is already in the cards. The first single is already out on CD, "All I Wanted". A striking chorus and Leslie's bright, clear voice makes this one an obvious standout. "Woman On Fire", "Seven Into The Sea", "Some Things Never Change" and "The Innocent And The Honest Ones" quickly jump out as part of an eleven song sweep that proves commercial appeal cannot be counted in beats per minute.

**Reckless Sleepers "Big Boss Sounds" (I.R.S.)** Artists like the Bangles and Cyndi Lauper have scored hits with songs written by Reckless Sleeper Jules Shear, and last year Ian Matthews recorded a whole album of his songs. To expect anything less than first rate compositions on his latest album is unlikely. The gifted songster delivers his lyrics on a silver platter with catchy chord combinations and the pure pop sound already attached to his musical reputa-

tion. "If We Never Meet Again" is certainly one of his finest, with a finely woven chorus that takes only one listen keep you coming back for more. Scott Litt (R.E.M., dB's etc) produces highlighting Shear's distinct vocal charm surrounded by members Steve Holley on drums (Wings, Elton John), bassist Brian Stanley (Bryan Adams), and guitarist Jimmy Vivino (Ronnie Spector, Dion, Wilson Pickett). Heartbreaker Mike Campbell joins in "This Heart", the album's second biggest pleaser, with "Notting Hill Gate" and "I Wake Up Loving You" equally as strong.

**MUSIC NEWS!**

The single of the week is definitely "I've Got A Feeling" by **The Screaming Tribesmen**. A gem lurking around in the New Music Seminar bag, this three-inch CD is a perfect introduction to the upcoming "Bones + Flowers" release in August. Ryko is shipping the 12" this week. The new Screaming Tribesmen release will be a major radio project for Ryko and frankly, this is quite a score.... **The Escape Club** returns with the "Wild Wild West" album on Atlantic Records. Produced by Chris Kimsey, it offers an impressive song line up drenched with guitar energy and a slick rhythm base. The first single is "Wild Wild West", destined for dance action, with the additional flair of "Shake For The Sheik", "Staring At The Sun" and "Only The Rain".... **PolyGram** announces some exciting new artists coming your way this fall. Xymox has been signed worldwide on Wing/PolyGram, Voice Of The Beehive, Adult Net (Brix Smith of The Fall) and Huxton Creepers are among the rest expected this October. 23 Envelope will design artwork for these projects, the company responsible for many of the 4AD

**MUSIC NEWS Continued**

album covers such as the Cocteau Twins catalog.... Taang! Records (P.O. Box 51, Auburndale, MA 02166) has signed The Hard-Ons for the release of "Dickcheese", Australia's current indie best seller.... A new live Ep from **That Petrol Emotion** has been made possible by Mansfield Ltd, 6022 Little Falls Road, North Arlington VA 22207. Recorded live at London's Town & Country club, the Ep captures greats like "Genius Move", "It's A Good Thing" and Pere Ubu's "Non Alignment Pact" plus a special version of Neil Young's "Cinnamon Girl".... **"Married To The Mob"** is the soundtrack compilation to Jonathan Demme's latest movie. It features original unreleased tracks by Sinead O'Connor, Chris Isaak, Ziggy Marley, Tom Tom Club, The Feelies and a remake of the Byrds song "You Don't Miss Your Water" by Brian Eno, his first vocal recording in years. "Liar Liar" by Debbie Harry is the first single. WB will also released the Joy Division singles collection "Substance". This is the same title given to New Order's singles record "Substance", but since the bands are the same minus original lead man Ian Curtis, a challenge is not likely. In fact, the parallel of titles rounds out the concept quite nicely. The classic Joy Division tune "Love Will Tear Us Apart" (the Swans remake currently seeing great a chart position) will naturally be included.... **The Wild Flowers** will tour the U.S. with The Mighty Lemon Drops soon.... A new **Soundgarden** maxi single is available on Sub Pop Records, P.O. Box 20645, Seattle, WA 98102. Churning, psychedelic swirls of guitar and subversive effects are the focal point for a no holes barred dub excursion. "Kingdom Of Come" is one of their best songs yet, and "FOPP", an Ohio Players original is laced with a kaleidoscope of sound. Bon voyage!.... **Frontier Records** will now be distributed in Australia, thanks to a licensing deal recently inked with Virgin

Records Downunder.... The Ramones are shooting a video for "I Wanna Be Sedated", in one take! Response surrounding the "Ramonesmania" single compilation has been bigger than ever at the close of their most successful European tour to date.... **Devo** begins their first U.S. tour in five years in Boulder, Colorado 8/25, covering 50 or more cities. The "Totally Devo" album on Enigma is still strong on the charts with great response to "Baby Doll".... Since yours truly is still winding down from NMS 9 (somebody has got to do something about those glass elevators) it will take some recovery time to list the facts, but Music Now! correspondent Mike Cooper has the convention scoop. Attendance was at another all time high again this year, and standing out on the street waiting to get into club showcases was a familiar ritual. With over 250 bands to choose from the possibilities were endless and a wide variety of panels sharpened the reality of the ever changing music industry. A big thanks to Bruce McDonald/WFNX, Mark Miller/KABL, Jim Keller/KJET, Jetson/WOXY, Denis McNamara/WDRE, Richard Sands/KITS, Oz Medina/91x, John Sigler/RCA and Steve Tipp/WB for appearing on the Commercial Alternative Radio Panel and to those who attended. How do you condense the comments and concerns surrounding such a vital group into a one hour exchange? Come back next year to find out. Hopefully the progressive music community will have doubled by then.

-Dawn Hood

WBCN Rumblemen Albert O. and Steve Strick took time out for a flash even though they were busy totaling points after a pressure filled night of head to head band competition in Beantown. You gotta band? Well they had more music and points than two guys could handle and did like pros. See you next year.

The Top 40 Airplay Chart combines airplay point totals for 12" and albums listed by commercial metal and college reporters

**D'Molls, "777" (12" version), Atlantic....**

From Chicago comes Atlantic's latest adventure in listening. In '84, four guys in ladies underwear (sort of) headed for La La land, snagged a deal in seconds flat, et voila! The D'Molls have become a band destined for a bright future (especially now that they've left their lingerie in L.A.) with crossover possibilities much like their label-mates Winger. Combine some rhythms from the Billy Squier school of music, with some strong and versatile singing and a beat that rocks you till you're feet can't take it anymore and what do you get? Dis. Dat's what. Although this particular version of the song does sound like a metal dance mix you can't miss the potential that this band shows. Fortunately, many of you lucky boyz and goilz have gotten the special mix that was put out on two metal sampler CD's. You know the ones. Well, anyway, that version sports a slightly harder edge with a stronger and lengthier guitar solo and a lot less echo on the vocals. Either way, the song is air ready with the kind of rock/pop feel that is increasing in popularity on the AOR side of life. Be looking for the release of the full album next week.

**Banshee, "Cry In The Night", Metal Blade....**

This band was recently featured on the "Metal Massacre IX" compilation and since then has inked a deal with Atlantic records. Lucky for us, they recorded this five song Ep first and Metal Blade has been kind enough to give it to us. It's a pretty mean record. The guys in the band have definitely got it together, from material to musicianship, they're seriously tight. Ranging in age from 21 to 27, this hungry young Mid-western quartet consists of drummer turned frontman Tommy Lee Flood, guitarist and founding member Terry Dunn, bassist Bill Westfall and drummer Kent Burnham. Flood's vocal range is astounding, especially on the tracks "Back Your Way" and "Cry In The Night". The bass lines of multi-talented Westfall, (he's also been playing sax since age five as well as clarinet, trumpet and flute), weave throughout the powerful melodies and rhythms supplied by the able hands of Dunn. The best of the five tracks is called "I Believe In You" and it's a heavy power ballad with a twist in the chorus. Also check out the remaining cuts, "We Want You" and "The Stranger".

**Slayer, "South Of Heaven", Def Jam/Geffen....**

As expected, these fine gentlemen are having very little trouble storming up the Hard Hitters Chart. This week they took an 18 point jump from 32-25\* perfectly in stride on their way to bigger and better things, which are sure to come in the near future. The Lp is, as you've probably realized by now, the band's finest and most mature effort to date. The return of Dave Lombardo, (a man who can be referred to only as a genius), behind the kit is a welcome change and one that is wholly beneficial. KUPD's Jonathan Rosen is impressed and he commented that, "The new Slayer Lp was well planned. Plenty for the loyals with add-able material... Fast pace on commercial radio is not necessarily a door slammer. Is the song good? That's the only issue.... Uncle Milt's Rivet Of The Week: Slayer 'South Of Heaven'. Soon to be annoying mommies and daddies everywhere." Every metal station should be on at least one new Slayer track. If you're not already, chances are that you will be soon. The reigning kings of "Black Metal" are currently getting play on KCMU, KFMH, KJJO, KUNV, WBCN, WCDB, WDWN, WGBW, WGIR, WHJY, WKNH, WOXY, WRTN, WWVU KNAC and Z-Rock with adds this week on KBER, KFMX, KOZZ, KSJS, WHDG, WHUS, WREK, WRFL, WWUH and WZMB.

**Hittman, "Will You Be There?", SPV/Steamhammer....**

A lot of you may be wondering who these guys are and what they sound like. They are Chuck Kory, Mike Buccell, Dirk Kennedy, Jim Bachi and John Kristen. Five guys from Long Island who pack as hard a musical punch as you can get from a relatively new band.

Continued

These guys have the kind of potential that has rocketed Queensryche to their 10th week at number one on the Hard Hitters chart. In fact, as far as Hittman's overall sound goes, the similarities between them and the 'Ryche are at times amazing. Listening to this record is like listening to what Geoff and the boys sounded like in their very early stages. While the real polish and sophistication is still in its early stages with this band, the atmosphere and musicality is all there. Dirk's vocals easily demonstrate the same kind of range and control that Mr. Tate has, if not fully developed. "Will You Be There?" is the first single from their self-titled debut album. In the forefront on this track is a very strong melody line with dual guitars trading off bold licks and some nice lyrical content to top it off. The production is not the greatest, but luckily it doesn't distort the sound and feel of this promising new act. If you listen to any new release in the next week or two, be sure to put Hittman at the top of your list. We'll be hearing a lot more from these boys in the near future.

**Gargoyle, "Gargoyle"/Screamer, "Target: Earth", New Renaissance....** The latest twosome from the New Renaissance camp includes the long overdue debut Lp from Gargoyle and the latest from the Wisconsin based quintet, Screamer. The Seattle based **Gargoyle** surprised many a listener when their self-titled, three cut, limited edition Ep came out a few months ago. Since then they have also been a featured artist on the second volume of our Hard Hitters sampler CD series. Band members Tim Lachmann, Kevin Sanders, Doug Smith and David Kendall have put together an Lp to be proud of. Trax like "Final Victory", "Out Of The Shadows", "Look Homeward" and "Down To The Ground" tell me that they're out to show the world just what they can do. They are not a thrash outfit, but a group who are more concerned with melody and vocals than pure speed and power.... **Screamer** recorded some of the same type of music - melodic and mature, for their "Target: Earth" Lp. It features eight excellent cuts with lyrics which remind me of Ronnie Dio's mystical tales of rainbows and magic. Bill Carter's vocals are controlled and bursting with energy and power. The melodies of the guitar tandem of Ronnie Valeo and Michael Schantek (this year's nominee for the Alex Masi look-alike contest) compliment the lyrics to the utmost. Listen especially to "Visionary", "Forgotten One" "Heir To The Throne" and the title track for some of this year's best power metal.

**Drive, "Characters In Time", Rampage....** A couple of months down the road and things are finally beginning to happen for this band. I for one am really happy to see it. You people out there in metal land are finally beginning to catch on, which is what helped launch these former Texans up 23-18\* on the Hard Hitters chart this week. From day one this band has shown its impressive songwriting capabilities, talented musicianship and a flair for delivering unique and creative musical ideas with energy and power. Influences like Queensryche and Iron Maiden are especially evident in the bands complex song structure and intense, meaningful lyrics. There is also, however, a touch of the blues running through some of the songs on this Lp. The combination of those two very different musical types creates high-power music that delivers on many levels. Songs like "Stormtrooper", "Kamikaze" and "The Phoenix" are prime examples of this band's youth and vitality. In fact every song on this album can be considered a must play for hard rock/metal block programs. If you haven't given Drive some airtime as of yet, wait no more because "Characters In Time" will no doubt be a success with you and your listeners.

**Pandemonium, "The Kill", Metal Blade....** This native Alaskan band has been relatively dormant for the last few years but have resurfaced with a new set of original tunes, two new covers and a brand new member in guitarist Chris Latham. The bros. Resch, that's David (guitar), Eric (bass), and Chris (vocals) and drummer Dave Graybill were first captured on the infamous "Metal Massacre I" with the track "Fighting Backwards" and since then have released two full length Lps called "Heavy Metal Soldiers" and "Hole In The Sky".

This record represents their best work to date. Tunes like "Your Evil Ways", "Driving Away" and "Cold Night" represent the band's finest songwriting and musical skills. The covers of Sabbath's "Snowblind" and the Golden Earring klassik, "Radar Love" simply rip. The production and engineering of Bill Metoyer are of the caliber you would expect from the same guy who handled the chores on the latest from Flotsam & Jetsam. Also check out "When It Comes To The End" and "Madness Ascending" for that more mystical feel.

**Steeler, "Strike Back", SPV/Steamhammer....** Formed in 1982 these German metallites have worked long and hard to hit these shores with the kind of success they have experienced in their homeland. Having garnered rave reviews from international metal mags with their first release in '84, they consistently increased their sales and following on the European continent. This year SPV has brought their latest Lp (recorded in '87) stateside. With a powerhouse wall of guitars sound and a Rob Halford type vocalist, it's not surprising that American fans have now begun to catch on to what this band has to offer. Band members Axel Rudi Pell (guitar), Peter Burtz (vocals), Jan Yildiral (drums), Herve Rossi (bass) and Tom Eder (guitar) are a metal force bound and determined to spread their particular brand of metallic mayhem this side of the Atlantic and by the looks of things, they've got a pretty good start. This

This talented foursome is headed up by former **Gang Green** members **Chuck Stilphen** and brother **Glen**, (lead guitarist & bassist) **Walter Gustafson** (drums) and vocalist **Morgan Keating**. They deliver hard driving rock in the same fashion as **Seduce**. Guitars up front, raspy & ruff vocals and a bottom section that could pulverize rocks. are a metal act but with a twist. They're rappers and they deliver it with just enough nasty guitars and pounding drums to make it work. This week MC got some adds on a few of our college blocks. Check it out if rap's your thang. They're on Synthicide/Enigma.

-The highlight of last week was of course the **New Music Seminar**. Thousands converged on New York's Marriott hotel for one of the most anticipated events of the music year. Needless to say if you were there, you know what it was like and it's covered elsewhere in this sheet. I did want to share with all you metal heads one of the best quotes to come out of the Seminar. It was from key note speaker **Paul McGuinness** (U2's manager). When asked about radio he had this to say, "...So who's going to play new music in '88? It's not going to be radio. AOR and CHR are a catastrophe..." He then commented that **speed metal and thrash bands who take their music straight to the public and have broken through on a local level are the most interesting current phenomenon while stating that, "Great bands have always known that they had to reject the music being made by everyone else and therefore reject the music business."** He cited Guns N'Roses as a group that "stands out like a beacon in 1988".

## The Hallowed Fate of The Empire

### ACT I, SCENE I (The Party Scene)

Welcome to the wonderfully spacious **Empire Rock Club** in sunny Philadelphia. This shot was taken not too long after **Fates Warning's** gig with **Hallows Eve**. Pictured here with a rather demented **Ray Alder** are (back row) **Combat's** Megabuddy **Scott Givens**, **Brendon Krause**, **WKVU's** **Russ Ceccola** and **Caesar Ettore** and peering over the head of your favorite **Metal Slave** is **Brendon's unknown friend**. The front row has been taken up exclusively by the band.

### ACT II, SCENE I (Same Scene - New Place)

This shot was taken at the **Brick N'Wood** in New Haven, CT. In the back row is **Caesar "camera hog" Ettore**, (as Cheryl says) **Caesar's "paid friend" Bill**, ex-Hallows Eve touring drummer **Tom Knight**, **Metal Blade** punk **Brian Lima** and ex-Hallows road manager **Mark**. The front row is occupied by **Tommy Stewart** and **Stacy Anderson** of **Hallows Eve**.

### ACT III, SCENE II (The Love Scene)

Caught here in this steamy embrace are **Metal Blade's Cheryl Valentine** and **Fates Warning's Ray Alder**. This picture was taken in dreamland as you can see by the photographer's perspective.

### GOODNIGHT SWEET PRINCE (The End)

Can you tell that this is **Caesar Ettore's** favorite occupation? It looks as though our bud had one, (well... maybe two or three), too many on a bus or other mode of public transportation. If you're wondering what happened immediately after this picture was taken, notice the foot in the bottom right corner.

**METAL MUSIC NEWS**

---

Greetings to one and all. This is Sal "Earl Of Earache" Treppiedi reporting from Control Center deep in the heart of Queens, New York. This wee, we will have part two of our conversation with King Diamond as well as a report regarding the on goings at the recent New Music Seminar. Let's get to some news first.

**Blood Feast** has made some personnel changes. The New Jersey based band recently announced the departure of guitarist **Adam Tranquilli**. No replacement has been found. In fact, the band has no immediate plans of replacing Tranquilli. According to **New Renaissance**, **Blood Feast** has cited personal reasons for the departure of Tranquilli. The band is currently recording their second full length Lp which is entitled "The Last Remains". The record is set for a fall release.

New Jersey's **Attacker** are set to sign a European deal with Axis Records in Europe. According to bassist **Lou Ciarlo**, the band needed to get more exposure in Europe. Their latest Lp, entitled "The Second Coming", is currently available on Mercenary Records.

It seems that **Iron Maiden** had some pretty impressive people show up at their New York/New Jersey show. During their set, Maiden was joined by **Lars Ulrich** of **Metallica** for "Run To The Hills" during which he forgot the song, the boys from **Anthrax** for a cover of "Heaven Can Wait" and **Jimmy Schulman** and **Alan Tecchio** of **Hades**. It's safe to say that the crowd got their money's worth.

**Here's some news from the New Music Seminar:**

Had a chance to talk to **Steve "Doc" Wacholz** of **Savatage** who talked about their forthcoming album. According to Doc, the album is going to be more intricate and musical. Once again, **Paul O'Neill** will produce the album with the band. It will be recorded at Bearsville Studios in New York beginning in September. The album will be released by early 1989. Some of the tracks to be included are "Thorzian Shuffle", "Before I Hang", and "One Of The Dead".

**Jon Sutherland**, **William Howell**, **Cheryl Valentine** and **Brian Slagel** were talking up a storm about **Liege Lord**. Their new album "**Master Control**" is scheduled to be released on August 1st. According to the M.B.M. (Metal Blade Mob), this is going to rival the success of fellow Connecticut metalheads **Fates Warning**. Expect some incredible stuff from **Liege Lord**.

After several attempts, Profile recording artists **Destruction** have finally made it to America. Vocalist **Schmier** put in an appearance at one of the panels at the Seminar. Following the panel, the Earl had the opportunity to talk to **Schmier** about finally getting to America.

**HR:** What does it feel like to finally be in America?

**SCHMIER:** It's like a dream come true for us. We've been waiting three years to get over. In Europe, we are always hearing stories about how great it is here. Everybody in Germany likes to go to the states because it is really different. It's bigger and more huge. You can do more things here than in Europe. It's more of a party here than in Europe. We were looking forward to it. We had problems with Tommy and the record company and then the promoter could not bring us over because we did not have the proper papers. Now we are here and looking forward to doing a big tour.

**HR:** What's going on with your record company situation?

**SCHMIER:** With the folding of Rock Hotel, everything basically came to a stand still. We sold about 30,000 copies in the first three weeks. Now everything is turning bad. We sold many records in Germany and in Europe. We sold twice as many there. We should be able to do the same thing here. We'll have to wait for the next record to come out to break here.

Personally, the Earl has waited for **Destruction** to come over for quite some time. Next week, I hope to have a review of **Overkill/Destruction** at **L'Amour**.

Let's get to our feature interview. This week we have part two of our feature interview with **King Diamond**. King is scheduled to go out with **Flotsam & Jetsam**. Keep your eye on that one.

**King Diamond: Part II**

**HR:** What can we expect on the **King Diamond** tour?

**KD:** Their is going to be a brand new stage show which is being made at the moment in Sweden. There is going to be a house on stage that you can actually walk in and our of. You can imagine the house on the front cover and then picture what we are going to have on stage. Then we will incorporate an actress to play the part of **Grandma** on stage. The wheelchair that is on the cover and in the booklet is going to go with us as well as **Grandma**. There is also going to be a lot of stuff going on while all this is happening. We are going to be in London shooting the video. Our people have already spoken to some magicians over there. They have given them the lyrics and the music in order to try and come up with some kind of illusion that we can use during the stage show. I'm going to do the entire album on stage. In order to not make our other material suffer, we had to prolong the set. We still want to do stuff from "Abigail", "Fatal Portrait" and some old **Mercyful Fate** stuff as well.

**HR:** How will you divide all that?

**KING:** We'll start off with side one. Then we will tell the audience what is going to happen. We'll then do songs from earlier days. Then we will tell them that we are going to go back and do stuff from the new album. We'll do some more nasty things to **Grandma**. We'll take the story to the end, and a surprise at the end will finish off the show.

**HR:** I suppose you will now keep us in suspense.

**KING:** You will have to wait until we come to your town to find out.

That concludes part two of our interview with **King Diamond**. Next week, we will find out if **Grandma** caused King to make some personnel changes in the band.

Until next week, this is Sal "Earl Of Earache" Treppiedi reminding never to go to a **Combat** party unless they assure you that security will not break it up after it has barely begun. Finally, thank you to everyone who passed along their condolences following the death of my grandmother. A hearty **MUYA** to **Chrisby**, who I missed by a fraction of a second once again, and the **Slave**. **MUYA!!!**

**Sal Treppiedi**

**Night Ranger** recorded their new album, "Man In Motion," without Alan "Fitz" Gerald, who has left the band. "It was a mutual agreement that worked best for all of us," says vocalist and bass player Jack Blades. "He wanted to go off and do his own thing and it gave us the opportunity to open up and harden a wall-to-wall guitar sound." The new Night Ranger LP was produced by Keith Olsen, who has worked with Whitesnake, Foreigner, Pat Benatar and Fleetwood Mac. "There was a lot of excitement during the recording process," Blades says. "I feel that translated into a high-energy record. With this release, we had strong creative direction and we clicked with Olsen. It was the most fun we've ever had making a record."

Former Average White Band members **Hamish Stuart** and **Steve Ferrone** have formed a new band called Easy Pieces. The group also includes session bass player Anthony Jackson and Australian singer Renee Geyer. Easy Pieces will have an album out (on A&M Records) this fall. Some remaining members of AWB have reformed and are currently recording an album for release later this year (on Track Records).

**Emilio Estefan** of the Miami Sound Machine has produced two cuts for Clarence Clemons' upcoming album. He's also working with Julio Iglesias and Pia Zadora. Estefan says he's also been asked to produce the music for a three-part movie on him and Gloria, lead singer of the group. "I really don't want to do it," he says. "It sounds a little too much. Gloria doesn't want to do it either."

**Pee-Wee Herman** says his next film will be with Eddie Murphy. He says he's not supposed to say much about it, but says it's "a story about two guys who become friends and lose the rest of their friends."

**Slave Raider's** "Make Some Noise" is among the songs on the soundtrack to the new film, "License To Drive," which stars Corey Haim and Corey Feldman. Songs from Tiffany, Billy Ocean and the Breakfast Club are also included.

**The Ramones** are planning a promotional video for "I Wanna Be Sedated," in conjunction with their new double "best of" album. The video will be shot in one take, and will feature the Ramones singing the song at normal speed while action takes place them at two to four times normal speed.

**Gary Wright's** new album, "Who I Am," features George Harrison and Steve Farris of Mr. Mister on Guitar. Drummers on the album include Yes member Alan White, Terry Bozzio of Missing Persons and Jim Keltner.

**Ringo Starr** will be appearing on a children's television series which will begin to air on PBS in January. It's called "Shining Time Station," and Ringo's co-stars are an eight-year-old and a nine-year-old. The series, based on the books published in the 1940s by Reverend W. Awdry, is an Americanized version of a British television show. Starr will narrate the program and appear as a miniature character named "Mr. Conductor."

**Andrew Tosh**, the 21-year-old son of Peter Tosh, is looking for a record deal in the U.S. He's released a seven- and 12-

inch single on an independent label. He's been touring the U.S. with his band, Word Sound & Power.

Glass Tiger vocalist **Alan Frew** has undergone arthroscopic surgery on his knee, to remedy an injury that occurred during a benefit soccer game against Iron Maiden in Toronto.

**James Brown** has been indicted by a grand jury on four felony charges stemming from an incident in May in which he allegedly led law enforcement officers on a high speed chase. Brown was indicted on charges of possession of PCP, possession of an illegal firearm, resisting arrest and failure to stop for a blue light and siren. Brown is scheduled to stand trial when he returns from a month-long European tour. He has denied using drugs and said the seven grams of PCP belonged to his wife, Adrienne, who is facing drug charges in Georgia and New Hampshire.

**Doug Boyle** says he didn't expect to become the guitarist in Robert Plant's band. In fact, he says he's not a big fan of Led Zeppelin, and only owns the band's "Houses Of The Holy" LP, which he bought when he was around 11. "I didn't really know anyone into Zeppelin," he says. "I was too young, really. I've done a lot of catching up." Boyle had to learn "Misty Mountain Hop," "Trampled Underfoot," and other Zeppelin tracks for Plant's solo tour. Boyle was recommended to Plant by drummer Chris Blackwell, and he says Plant phoned him about a year ago asking him to come to sessions and rehearsals.

**Members of Chicago** are touring the U.S. in two tour buses. One is for smokers, and the other is for non-smokers. "When we talk about clearing the air, we really mean it," says Robert Lamb, a non-smoking member of the band.

**Canadian rocker Lee Aaron** and her guitarist John Albani have been working on new material, collaborating with Jonathan Cain of Loverboy, Ritchie Sambora and Jon Bon Jovi, and Taylor Rhodes, who wrote several tunes for the Loverboy album "Wildside." Aaron is about to sign a U.S. record deal, and should have a new album out in October. Aaron appears on the Scorpions' track "The Rhythm Of Love."

Those who thought the **Mekons** had gone too far in the country direction may be reassured by drummer Steve Goulding, formerly of the Gang Of Four. The new Mekons album, "So Good It Hurts," is "more poppy sounding," Goulding says. "I don't know why, but it sounds more sophisticated, which is weird because we didn't actually spend any more money or time on it than we usually do, a week to 10 days. It's a consolidation of what we've done before. I hope the next album will be much more radical, go off the deep end a bit more." Goulding admits the band is really only popular along the east coast of the U.S. "We're never going to be big in the midwest," he says. "When you see the difference between what we do and something like John Cougar, it's like an unimaginable gulf. I guess the most we're hoping for is to sell as many records as the Replacements. It's not beyond the bounds of possibilities."

The new EP by **Mass**, "Take You Home," precedes an album, tentatively titled "Reach For The Sky," that should be out in October. The EP was recorded in New Jersey about seven months ago, says singer Louie St. August. "They're songs we knew we weren't going to put on the album, but they were such good songs that we wanted to put them out on something. So we talked to Enigma to get an EP out and they agreed." The upcoming album was recorded in California and produced by Stryper's lead singer, Michael Sweet. "We did a couple of shows with Stryper and we just became friendly," St. August says. "After the first show we gave him a copy of our 'New Birth' album that we did in '85 for RCA. After listening to it for a while, he became a Mass fan. He said he really liked the songs and he'd like to produce us someday." The band will be playing dates in the northeastern U.S. this summer, and plans a more extensive tour, possibly with Stryper, when the album is released.

**Dwight Yoakam's** next album will be out later this summer. It's called "Buenos Noches From A Lonely Room."

**Bonnie Raitt**, who had been without a major label deal for the past year, has been signed to Capitol Records.

**U2's** album and movie will both be called "Rattle & Hum." The first single from the double-album, "Desire," will be released September 19. The LP will be out on October 10. Both precede the film, which will be out the first week of November in the U.S., and the last week of October in England and elsewhere. One disc of the LP will be of live material, the other will include 8 to 10 studio tracks, some of which will be featured in the film.

All total, there will be about 20 songs on the "Rattle & Hum" album.

The **Cruzados** appear in the upcoming film "Road House," performing "Don't Throw Stones" and other tunes. Patrick Swayze stars in the movie.

The **Sugarcubes** have recorded a new version of "Birthday" with the Jesus & Mary Chain.

The **Adult Net**, the band formed by Brix Smith of the Fall, are recording an album with Ex-Smiths guitarists Craig Gannon and Johnny Marr and Ex-Blondie drummer Clem Burke.

**David Bowie** will co-produce and appear in the film "The Delinquents." The film should be out next year. Bowie is expected to contribute to the movie soundtrack.

In the keynote address to the **9th New Music Seminar**, U2 manager **Paul McGuinness** was sharply critical of artists who endorse products, saying it is "offensive" for artists to use rock & roll's "image of freedom" to sell cigarettes or alcohol.

It's hard enough for musicians because AOR and CHR are "practically atrophied," McGuinness said, and MTV is of little help because "new music is being made by people who can't afford to make expensive videos."

"Rock & roll is now the first international language, especially of young people or people who think young," McGuinness commented. "Its practitioners are mostly people who meet their responsibilities head on and are not afraid to draw the audience's attention to current issues which should be addressed by politicians and the media."

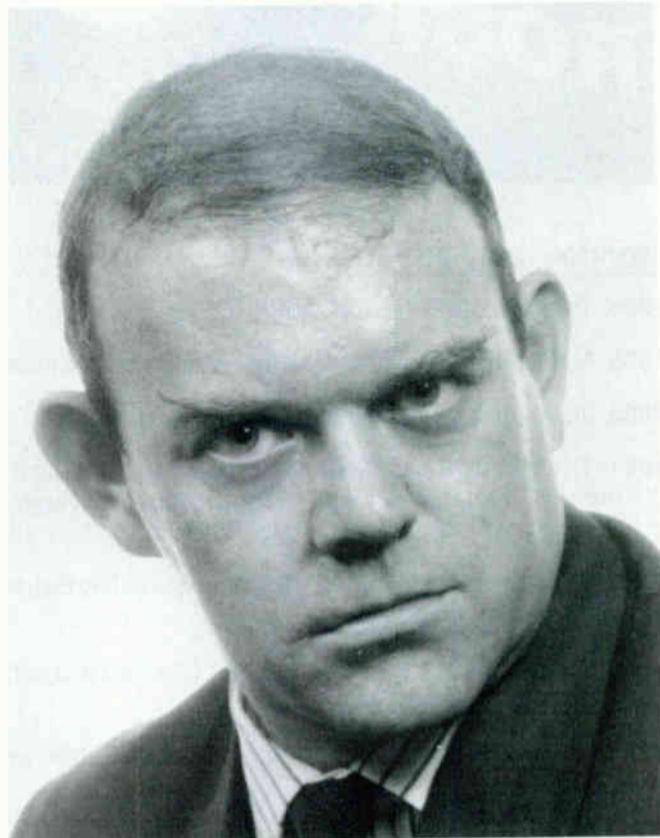

McGuinness says "rock & roll people understand the importance of independence. Rock & roll as an image of freedom is something we should all prize very highly, which is why the current debate about sponsorship is so important."

"I think it is embarrassing to see a major star endorsing a product like Pepsi," McGuinness continued. "It offends my aesthetic sense but, more than that, it seems to contradict all the values that I have associated with rock music."

"What is the point of going to all the trouble of being Michael Jackson and achieving so much musically, creatively and culturally, if you are then prepared to place all that credibility at the disposal of a soft drinks manufacturer for a fee?" he asked. "The artists who've entered into those sorts of deals have certainly diminished in my eyes. You can trust an old warhorse like Neil Young to hit the nail on the head. I laughed my head off when I heard 'This Notes For You'."

"Deep in my heart I am ashamed that there are artists who can make great rock & roll and then sell it to Philip Morris or Michelob or Nike. I think the music is much more precious than that."

After his address, McGuinness elaborated by saying that endorsements are "very distasteful" because of the enormous amount of money involved. "It's ugly and unattractive to see their greed so obviously displayed."

The **1988 New Music Seminar** saw no consensus as to the direction of "new music" this year. Aside from the usual attention to rock independents, the focus seemed to be on rap music, rock music from Europe and the world beat sound.

A Sunday panel on rap music was heavily attended, notes seminar director **Tom Silverman**. "Rap is an area of new music that has pretty much identical features to heavy metal and the rap groups today are doing some of the most exciting new stuff," he says. "This summer there happens to be about five or six incredibly good rap albums out."

"It's bizarre music, it's even more bizarre than heavy metal," he adds. "It's really new music. It's not the same as rap was when it started nine years ago. The rate of evolution is increasing because the acceptance is increasing. It used to be a New York phenomena."

**Seymour Stein**, Sire Records president, and winner of the Joel Webber Prize for Excellence given out at the seminar, says it is counter-productive to limit "new music" by classifying it. "A new band can come out of anywhere," Stein said. "The horizons are endless. You just have to keep your eyes and ears open," Stein says.

The increased sophistication of equipment hasn't meant a commensurate increase in creativity, says **Howard Masey**, of the Center for Electronic Music. "Certainly in America, there is an undue reliance on technology. I think people have to get to the stage where they're using technology creatively," he says.

The increased sophistication has its drawbacks, Stein notes. "If you strive for perfection, you lose the emotion. Some of the best records were made in mono."

A global viewpoint may be helping world beat music, suggests **Mark Josephson**, executive director of the seminar. "The increased political significance of recent activities by rock artists is bringing to the floor the holistic situation. "Americans are living in the same world as people in the Third World," he says. "That's increased everyone's sensitivity...which makes us more accepting of their music."

"The danceability of afro-disco...is part of the reason this is happening," Josephson adds. "The technical ability of the players and the quality of the records is increased, so that records from the second & third world are more listenable to people from the first."

As previously reported in "The Hard Report", U2 will have a new album released this fall. Speculation in London indicates that it will probably be released in October, but plans for a double album may have been abandoned. It will probably still come out to coincide with their concert movie "Rattle And Hum", but according to sources close to the band, a live album release would mean delaying the release of some brand new recorded material the band are working on. According to "The New Musical Express", a single "Desire" will be out in late September.

EMI Records in London have strongly denied last week's "New Musical Express" story alleging a split between Morrissey and his songwriting partner, Stephen Street, although the artists themselves have yet to comment on the story. EMI also denied that Morrissey is teaming up with Communard Richard Coles.

A fan attending Michael Jackson's 15th July concert at London's Wembley Stadium fell 30 feet from some lighting apparatus after clambering up there some time earlier. Staff at the stadium admitted that they should make security tighter after the incident. The youth was taken to the hospital, but despite his injuries, dismissed him self, refusing any treatment. He had been dancing on the canopy for about half an hour, with security staff trying to coax him down, when thousands watched in horror as he plummeted to the lighting platform below.

The Godfathers and their record company Epic are engaged in a bitter dispute over the jacket to their latest single "Cause I Said So". The originally issued jacket features a Warhol style cartoon/photo of Margaret Thatcher with a Hitler moustache - underneath is inscribed the song title "Cause I Said So!" Epic objected to the sleeve and consequently delayed the release of the record in Britain for two weeks. It will now be available in a plain bag with the title in gothic lettering. The Godfathers Peter Coyne has accused Epic of "feble-mindedness". He said "I didn't think it was in the least bit offensive, (satirical TV programme) "Spitting Image" and (satirical magazine) "Private Eye" get away with much worse things about Thatcher; it's supposed to be humourous." he added "It's ironic that the single is called "Cause I Said So" and about doing what you want by not listening to dictators. Epic have proved you can't do what you want. We're thinking of changing the title to "Cause CBS Said So!" CBS/Epic here in London had "no comment whatsoever" to make to "The Hard Report" about the dispute.

Former member of The Bad Seeds, Barry Adamson was rushed to hospital this week after an alleged assault by security personnel at London's Limelight Club. Adamson had gone to the club to see an appearance by his old band, Nick Cave and The Bad Seeds, when he got into an argument with a bouncer after allegedly refusing to climb down from dancing on the bar. He arrived at hospital unconscious where he was immediately operated on for a broken jaw, further complicated by a compacted wisdom tooth, according to doctors. His jaw will be kept wired up for six weeks while his record company Mute say he will be pressing charges against those responsible. The Limelight claim that they were only using reasonable self-defense after Adamson allegedly went to attack a bouncer. The club also claim they were courteous at all times. London bouncers generally have a dreadful reputation for heavy-handed, discriminatory and often brutal behaviour. Most often singled out as the worst offender in the past few years has been The Limelight, according to a variety of sources.

The Christians will be joined by Sly and Robbie and M/A/R/R/S for their next single on Island, a new rendition of The Isley Brothers classic "Harvest For The World" as already exclusively revealed in "The Hard Report". The record will be for charity, with all proceeds going to Disaster Relief; and the video will be made by the same company who produced Peter Gabriel's award-winning "Sledgehammer! Expect this some time in August.

London's legendary **Marquee Club** in Wardour Street will survive. The club will first have to move from its 22 year old site to a disused movie theatre in Charing Cross Road, about a mile away. But it was revealed this week that The Marquee will move back to Wardour Street in three years time to a new complex being built for it. Fears that the club would close first surfaced last year after the longtime owner Billy Gaff, decided to sell it. It seems that the management have bought the club. The Marquee is one of the most integral parts of London's rock history, playing host to young struggling bands like The Rolling Stones, The Who, The Animals, Jimi Hendrix, John Mayall's Bluesbreakers, Rod Stewart and The Police. It first opened in 1962 in Oxford Street and moved to its current site a few years later.

The **Blow Monkeys** return on 25th July with a new single "This Is Your Life". The Blow Monkeys, who have been quite silent for over a year, are working on a new, as yet untitled album which is due for release in September when they also plan some European dates. The single is produced by Stephen Hague and comes in all the usual formats including CD. A limited edition CD will include a new extended mix of the song, plus another two new songs.

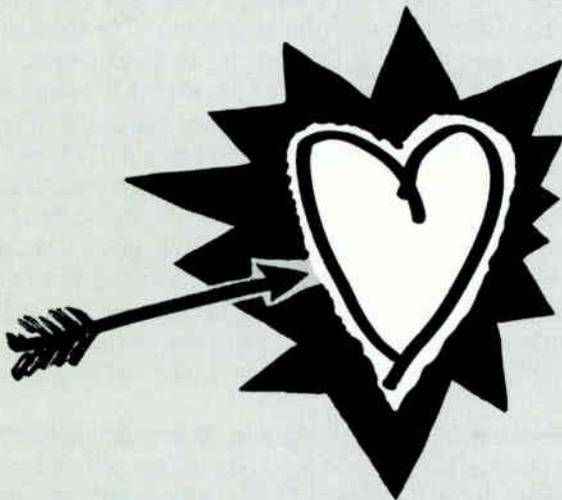

**Stump**, the quirky, arty band who have been wowing the college circuit on both sides of the pond with their debut Chrysalis

album "A Fierce Pancake", look as though they may be about to get a larger audience. The group have released an unexpected remake of one of their best loved ditties "Charlton Heston" called "Charlton Heston Meets The Irresistible Force". Suddenly a hilarious but left-field song has become a groovy house record !! Stump weren't even in the country when the Irresistible Force played around with the original tune. Previously, this production duo had their own debut record "I Want To" banned from most record stores for being - er - penis obsessed. They also produced a new version of "Perfect Skin" for Lloyd Cole. Says the Force's Des: "Most remixes consist of turning up the bass and drums, taking the voices out for a few verses and charging 5000 pounds for it! What we do is closer to arranging." This is certainly true for "Charlton Heston" which bears very little musical relation to the original.

U2, Bruce Springsteen and John Cougar Mellencamp are some of the artists featured on a CBS album to be released in October tentatively called "**Folkwaves - A Vision Shared**". All proceeds are to go to the U.S. label Folkwaves who won all the rights to Woody Guthrie's songs and have been financially ailing in recent years. All the artists will be performing a cover of a Woody Guthrie song. It's rumoured U2's contribution is "Jesus Christ". Other artists include Woody's son Arlo, Willie Nelson, Pete Seeger and Emmylou Harris.

**Jerry Dammers** former member of The Specials, President of Britain's Artists Against Apartheid and the organizer of the recent Mandela Day Concert has now released a new version of "Free Nelson Mandela", four years after the original with The Special AKA. The new version of the song is more mournful and reflective, whereas the first rendition was hammered out onto an addictive calypso beat. It features Ndonda Khuse on lead vocals and Jonas Gwanga on trombone, both South African exiles who have previously worked on the score for the

film "Cry Freedom". Says Dammers in a "Melody Maker" article: "I wanted to do a different version to reflect how I feel about South Africa now. There's a very sad and bitter side to it. The situation actually continues to get worse and worse." Dammers second reason for re-recording "Free Nelson Mandela" was for the record to act as a contrast to all the raz-zamataz of Mandela Day: "I just wanted to get away from this whole "a billion people world wide thing" and do something on a local level for the clubs and deejays to play. The club crowd is just as much against apartheid as those who like big rock shows". Unlike Geldof, Dammers is very much a figure who has kept well out of the limelight, always claiming that it would divert too much attention from both Nelson Mandela and the political issues involved. But he did give his cautious appraisal of the event: "It was only a small party of the overall campaign...The Anti-Apartheid Movement have just done a poll and 94 percent of people in the UK have heard of Nelson Mandela while 74 percent have a very good idea of who he is. Three years ago that percentage would have been tiny. So it showed support and more, but its just chipping away at the foundations. I'm very, very angry about Fox TV censoring it in America. They cut it down to about three hours and they cut out most of the statements people made. They were giving people a false impression of what actually happened." Last weekend over 100,000 people assembled in Hyde Park, central London for a Anti-Apartheid rally. Simple Minds performed their special song "Mandela Day" while speakers including Bishop Desmond Tutu addressed the crowd, which police estimate is the largest number ever gathered for a public demonstration in Britain.

Fifteen unreleased tracks recorded by Jimi Hendrix have been discovered in boxes in storage by Hendrix's manager Chas Chandler. Chandler describes his discovery as "...the most significant find of Hendrix material since his death in 1970." He also claims that the material found was not necessarily rejected songs. "They just weren't right for the mood Jimi was looking for on "Are You Experienced" and "Axis Bold As Love" he told "Sounds". Chandler, who moved back to Britain a year ago still hasn't finished sorting through all the material, some sixty songs worth as well as demos. He also isn't sure how the songs will be released but he's sure he won't be short of offers!

**Ranking Roger**, former member of General Public and The Beat, returns with his new album for IRS "Radical Departure". The album actually isn't much of a departure, still very much plugged into uptempo ska. Roger is going to support Big Audio Dynamite on their UK tour, although in the days of The Beat there would be no question of them playing support. General Public never received even the same moderate following in the UK it did in The States and so for Roger, who has again based himself in his native Birmingham in the English midlands, it's starting again time; appealing to a generation who have barely heard of The Beat. His former partner meanwhile Dave Wakeling has moved to Los Angeles. "He just phoned me up one day and said that he didn't want to tour anymore." says Roger "I still don't know why really."

**UK INDUSTRY NEWS**

According to Tandy U.K. blank CDs could be on the market within two years. And they say that the first CD recorders should sell in stores for around \$500. Erasable discs have already been around in the computer industry but their production is expensive and complex. But Tandy has developed the "Thor" system which differs from conventional aluminum coated CDs and uses two lasers. There is doubt that these can be played at all however on existing Cd machines and record company reaction can be politely described as hostile, to the concept of recording CD onto CD.

**IN BRIEF**

**Pop Will Eat Itself** have had to record a new version of their new single "Def Con One" for radio play after the BBC warned that the record would receive limited play. The source of the problem is the chorus lyric "Big Mac and fries to go" repeated some sixteen times in the record which the corporation feel constitutes advertising...**R.E.M.** are the latest addition to Amnesty International's "Human Rights Now Tour". They join Sting, Peter Gabriel, Tracy Chapman, Bruce Springsteen and Youssou N'Dour at venues all over the world during September and October...Thieves broke into **George Michael's** London offices two weeks ago, making off with his gold discs and causing several thousands worth of damage...**Prince** finally comes over to Britain this week for his first live shows in two years. He plays Wembley Arena for an astonishing seven nights. Meanwhile Michael Jackson is still with us as are Ozzy Osbourne, Se Rogie, Tom Robinson, AR Kane, Joe Strummer & The Latino Rockabilly War, Big Audio Dynamite and Voice of the Beehive - all touring Britain...A new single by **James 'Yaho** is promised for mid-September while a new album on Sire "Strip Mine" comes out a few weeks later....Spotted at Nick Cave's concert at The National Ballroom in north London were Clem Burke (Blondie, Eurythmics), The Cocteau Twins, Wire, AR Kane, The Primitives, The Fall, The Jesus And Mary Chain, Green On Red and That Petrol Emotion to name a few....**The Icicle Works** new single is called "Here Comes Trouble" and is also being issued in a limited edition box set in the UK by Beggars Banquet...Could it have been **New Order** spotted recently in Ibiza, Spain crashing several hire cars, stealing traffic cones, behaving appallingly on the beach and generally being the spoilt rock star?? Can it be New Orders' Peter Hook spotted dancing in Spanish discos to Kylie Mynogue and Rick Astley???...**The Pet Shop Boys** were recently host to 20 Soviet schoolchildren over on a trip and all massive fans. They had written to EMI previous to their trip to request the meeting, where they had copies of their records signed...**CD singles** may end up saving the single format in the UK as has been previously speculated in this column. Almost the entire Top 75 Singles in Britain this week are available as a CD, sales are climbing and industry chiefs expect the format to become the norm.

**UK CHART SURVEY**

"South of Heaven" by **Slayer** is a new entry at 25 in the album charts. The new album by **UB40**, self-titled, enters at 12. "1977-1980 Substance" by **Joy Division** enters at 7, while thanks to his UK appearances, **Michael Jackson's** "BAD"leaps 15 places to 5. Sales of "BAD" have quadrupled since this time last month, increasing his sales from 4,500 copies a week in June to 20,000 copies last week. "The Legend Continues" has also gone back up to the top of the video charts and "Thriller" has re-entered the top 50 albums, selling a tidy 3,000 a week. At the top of the album charts, **Tracy Chapman** has been toppled by "Now 12" part of a long running series of various artists albums combining the mighty forces of Polygram, Virgin and EMI. But "Tracy Chapman" has become the best-selling album of 1988 by a female artist. The album has now sold 400,000 copies in Great Britain. **S-Express** make a strong debut of number 20 in the singles charts with "Superfly Guy" a house record in the style of Curtis Mayfield. Their last record "The Theme To S-Xpress" entered at 25 and proceeded to go to number one for four weeks. It's no change at the top of the singles this week for **Glenn Medeiros'** "Nothing's Gonna Change My Love For You" a surprisingly big seller for such a weak corny ballad.

**Carter Alan, WBCN, Boston**

When George Thorogood rocks live on stage you know he's in his natural element. BCN was very privileged to broadcast George's Great Woods concert live on the radio in front of 10,000 die hard fans. Thanks to EMI Records we also broadcast Brian Setzer's blazing warm up set. The former Cat impressed a hell of a lot of people including myself, who believes that the new band shuts down those Stray Cats. "Rebelene" has all the earmarks of a hit on rock radio and it's quite comfortable here at BCN. I can't say enough about Thorogood except to say thanks for doing it live for BCN George, it was the best.... There are soundtracks and there are soundtracks. Elektra shows everyone how to do it on "Cocktail". The T-Birds is already a fave with John Cougar Mellencamp's "Rave On" a certainty and Little Richard sweetening the whole things.

**Pam Edwards, KGB-FM, San Diego**

Whoa! Robert Cray delivers a stunner that's smoother than one of Drew Murray's pitches. This is a class production all the way. His core audience is there just waiting for the album to get into the stores.... And speaking of a core audience, the arrival of the new Little Feat brought fans out of the woodwork. It had the same effect on our office as the ice cream man did on kids when he drove down the street on a hot summer day. It gets my 'Ripley's Believe It Or Not Vote' for sounding so fine without Lowell George.... Another thumb's up goes to Columbia's Britny Fox. Instant phone response is a given when you start banging this one.

**Erin Riley, WMMR, Philadelphia**

Some of you may already know, but for the last nine months I've been singing backup for a Philadelphia local band called Radio Rodeo. So if you're interested, we're featured on the Album Network Unsigned Bands CD #3, as track #2. And that's me singing my fool head off in the background. Let me know what you think, and if you're calling to offer me a lucrative recording contract, that's OK too.... Everyone around here is so excited that the Little Feat record has finally been released. I've got a little secret for you. Ted Utz somehow acquired a copy of the tape early, being the big Little Feat fan he is, and played it exclusively at full volume all over the office. And so now it lands right into heavy rotation on WMMR and it sounds fabulous.... Went back to Bryan Ferry's "Limbo". I always thought he was a class act and would do very well if given a chance, if played in the Philadelphia market. We did play "Kiss And Tell" pretty heavily, and we're going on "Limbo" because it worked so well.... Think the Forbert is just a terrific record overall, and shows that Gary has quite a talent for producing. I think it's as good as his first record, which I think is terrific.

**John Lassman, KQRS, Minneapolis**

Spring 88 ARB's for Minneapolis/St. Paul: 12+, KQRS 7.9-11.7.... KJJO 4.0 to 5.3.... KTCZ 4.1-4.3. Wow!! What a feeling, for the second time in my career, this is the best book in the history of KQ92. Congrats to KTCZ and KJJO on the upward gains in America's best AOR market. The format is alive and well and living at the country's premiere AOR, 92 KQRS.

**Patty Martin, KSJO, San Jose**

Thanks to Katie Arnold-Pedretty and Polygram for the hospitality with the Scorpions and Kingdom Come as Monsters of Rock terrorized Candlestick Park. Thanks also to Doug Stevens from Warner Brothers and Michelle Meisner from Elektra for the help.... I had a great time at the Buster Poindexter show at the Fillmore, opening the show with San Francisco's Beatnik Beatch. Catching these guys live is what totally hooked me on this band. Atlantic's got something with this one. Beatnik Beatch: the band that sings about Jack Kerouac and the label that fills your office floor with sand. Hey, thanks.

**Bob Bittens, WHCN, Hartford**

For quite some time now, it has been my impression that the industry sees the Hartford rock radio scene as a close battle between a faded heritage giant (WHCN) and a low budget upstart (WCCC). This has been particularly frustrating not only because Arbitron tended to give credence to this view, but because deep in my gut, I know that WHCN was and is far

and away the better sounding radio station: better music, better personalities, better promotions--just a classier act all around. Well, the spring numbers are out, and while the war may not be over, all that is really left to do is a little bit of mopping up. The major battles have been won, and won big. In the spring ratings WHCN has its highest 12 plus share in history at a 7.0. WCCC drops to a 3.6, making this WHCN's biggest lead in the history of the two radio stations. In the metro, we're number one men 18-49, and number two adults 18-49. In the ADI, we're number one men 18-54, and number one with adults 18-34 and 18-44. WCCC is a distant third, fourth, fifth, or sixth, depending on the demo. So cut us a break, will ya! If you want to hear solid rock radio, the way it was meant to be, come to town and check us out. There may be two AORs in Hartford, but there's only one that matters.

**Beth Kepple, WKLS, Atlanta**

The Democratic National Convention has turned Atlanta upside down and "Common Ground" by Rhythm Corps should be the convention's theme. After only two weeks of airplay it is our t#2 requests. Is anyone listening?

**Michael Cross, KJJO, Minneapolis**

Besides having caught a cold from going from air conditioning to 100 degree weather, things are HOT at Hot Rockin' 104. The advance totals are in for the Spring book. And we look good again! In 12+ persons M-S 6A-Mid, KJJO went from 4.1 - 5.3. We think that is impressive for a hard rock format. And we placed 7th in the market overall--beating CHR KDWB again. Nights are of course, the most important daypart to this format, and we did really well in this area. We're ranked #2 in Men 18+ (not including WCCO-AM, which carries Twins baseball), #2 in teens (right behind KQRS), and 7-Midnight, 12+ persons, we're ranked #3. We feel that this format is here to stay despite all the rumors flying around the Cities. Sorry guys...we ain't going nowhere but up!!!.... Muzakly, again some fantastic new rock with John Kilzer going in--we think it smokes!!.... And I couldn't agree more with Mr. Hardy at Megaforce Records--King's X is a band to be reckoned with!!! I haven't been able to quite listening to this band. Yes, they do sound like a cross between Grand Funk Railroad and Crosby, Stills & Nash, but rock a bit more. "Shot Of Love" goes in medium this week--making it the 4th track we've played off this album. Alright, I'll be honest, it's a personal favorite of mine, and I want to expose this band ass much as I can!!! Too good to miss.... Anyhow, I gotta thank 1000 people for the past week or two.... First, thanks to David Coverdale for the interview and the in-depth chat backstage after the Whitesnake show on July 6th. Thanks to Starvin' Marvin of Geffen for the Corona's while waiting for Whitesnake.... And here's the BIG list.... Monster thanks to the following people: James Kottak of Kingdom Come for wearing that awesome Hot Rockin' 104 shirt during the Monsters show at the Metrodome--I got pictures! James, Rick & Danny of Kingdom Come for doing the most crazy radio interview on the air--what a blast--and to Metallica for the gold record and a crazy time backstage, to Scorpions, Dokken and the world's greatest band--Van Halen. True pro's and gentlemen. Thanks to all the hard working record people--Steve (WB, Beau (Elektra), Bill (Polygram), and finally tons of thanks to Phil Collen of Def Leppard for coming out to the station, and to the rest of Def Leppard. Also to Tesla who kicked my ass live!! An incredible concert. Thanks to Penny Barnes of Rhino Records for flying up to see the show, and to all I met at Conclave '88. I wish I could have been there more often but Riverfest and Monsters were standing in the way. Do you think these comments were long enough??

**Paul Nelson, WWCT, Peoria**

Robert Cray delivers more of his polished blues and we know with that Michelob Dark commercial coming soon, everyone will be humming this song. So we have to jump on "Don't Be Afraid".... Little Feat picks up right where "Down On The Farm" left off. It should make for some tasty double shots on Tuesdays.... Have you heard about the Elvis stamp that USA Today is babbling about? Elvis would be good on a stamp because he was fat and bloated like the postal service. I think we'd be better off though with Elvis on the back of a milk carton.

**Brew Michaels, KXRX, Seattle**

KXRX was proud to world premier the new release from Seattle/Tacoma's favorite son Robert Cray last week. "Don't Be Afraid Of The Dark" is a smash follow-up to "Strong Persuader" and should insure Robert's reputation as one of Rock radio's most authentic and distinctive performers.... After presenting the second date on their sold-out reunion tour earlier this spring, KXRX is only too happy to add the new Little Feat out of the box this week.... I was able to convince some traditionalists in this weeks Music meeting to give David Drew's monster rock remake of "Green-Eyed Lady" a shot. The fact that KXRX GM Steve West was instrumental in breaking the original on AM giant KJR makes for some interesting on air trivia.... Also in this week is Crowded House "Better Be Home Soon". I don't personally hear this one as strongly as I did "Don't Dream" or "Something So Strong" but it continues their approach of combining emotional honesty in pop rock song forms.... You don't have to take care of a drunk or work in a convenience store to feel the need to breakaway and roll the dice on a new life, Tracy Chapman's "Fast Cars" zeros in on one of rock's essential themes ("Born To Be Wild"/"Thunder Road") and it climbs into Power on the X this week.... Thanks to Debi Lipetz of Epic for setting up a northwest style southern fried Bar-B-Que with the Gregg Allman Band at the KXRX studios last Monday.

**Mike Boyle, WDHA, Dover**

You've heard the old saying "They picked up where they left off". That's really all that needs to be said about the new Robert Cray track. It's just great!!.... Well, now that so many people have raved about the mystery Geffen band, I hope that it will turn into adds for It Bites. "Kiss Like Judas" is spinning on WDHA and sounds killer!.... If you were there, you know it was lots of fun. Thanks to Bill and Rose McGathy for another fantastic "McGathy Day" at Yankee Stadium. Even though the Yanks lost, the food was a winner. Can't wait to do it again next year!

**John Cooper, WPYX, Albany**

Effective July 25th, I will be available to take music calls after 2pm. Monday and Wednesday through Friday. Adds will be available as usual at noon on Tuesday.... This week we say farewell to Cliff Nash, an 8 year PYX 106 veteran. Cliff is one of the greatest in the radio business and we'll miss him. Best of luck in Philadelphia, Cliff.... The new on air line up at PYX 106 will be Bob Mason, 10am til 1pm John Cooper, 1-3 pm Ed Levine, 3-7 Grego, 7-Midnight Lisa Walker, and new to overnights from WPDH Poughkeepsie, Suzanne Joy (Sue Turk).... The Little Feat record blows me away. We're already getting phones. My feelings echo Lin Brehmer's in that it's too bad that Lowell won't be around to enjoy the success of the new album.... Robert Cray played here a few weeks ago and "Don't Be Afraid Of The Dark" went over big time with the crowd and it sounds great on the radio.... Tracy Chapman continues to sell incredibly well and "Revolution" is the perfect follow up.

**Doug Clifton, KBCO, Boulder**

When Little Feat was in town last month they performed three new songs in concert. At that point we realized they had picked up where they left off nearly a decade ago. They're happy to be back together again, and we're even happier to have them back. "Hate To Lose Your Lovin'" goes straight into a power rotation.... Robert Cray is back with those basic blues again. "Don't Be Afraid Of The Dark" will make a perfect Michelob Dark commercial.... After lots of discussion, we finally added the Brian Wilson cut "Love And Mercy". Simply can't deny the fact that he's perfect for upper demos.... Also new this week, Patti Austin, Karla Bonoff and In Tua Nua.... This past Sunday both Steve Winwood and Tracy Chapman performed at two separate sold out KBCO concert events. It was a lot of fun travelling back and forth between the two. Thanks to Johnny Clegg for stopping by our live broadcast at Fiddlers's Green before the Steve Winwood show.... New Music Express: In the studio performance by Gary Newby of the Railway Children, Gentlemen Without Weapons, Big Audio Dynamite and Fatal Flowers.

**Joe Skare, KFMQ, Lincoln**

Guns N' Roses "Sweet Child O' Mine" seems to be following the footsteps of "Welcome To the Jungle". It's been #1

phones since early June and it doesn't look like any let up is coming soon.... David Drew moves up to #2 most requested, followed Cheap Trick "Let Go", Hurricane "I'm On To You" and Midnight Oil "The Dead Heart".... Great to hear Little Feat back with something that should be a smash.... I think this is a great sounding record from Robert Cray. Anxious to hear the album to see if he strayed bit from the "Strong Persuader" formula which he seems to be following a bit closely.... Also added the BOC "Astronomy" cut, which I think will create quite a buzz around here. They've been rocking so hard for so long it should be hard for a hip AOR to keep these guys off the airwaves.... And I've been digging Paul Kelly's "Dumb Things" for quite some time. Really love their sound, with a kind of a knack for being 80's rock and roll with a 60's flavor. The previous album was great.... Also this weekend, we gave away the Neil Young video, and I just want to thank Kim Poole of Reprise for all of her help. The phones just lit up and people really seemed happy to get it.

**Jim Steel, WIOT, Toledo**

After a few weeks of development in the New Music Show, the Rhythm Corps get a shot. It's one of those songs you can't help but like.... Robert Cray is just a hip guy and the way he makes his guitar talk is just like Campbells' soup...Hmmm, Hmmm Good. Let's just keep our fingers crossed that this doesn't become a song Michelob gets their hands on.... This Def Leppard promotion we're doing is becoming bigger than I ever expected. Now, once again, thanks to Def Leppard, Cliff Bernstein, Peter Mensch, and Doug Burton of Polygram/Mercury.

**Richard Smith, WIXV, Savannah**

Thanks this week to Don Miller of Epic and David Fleischman and Larry King of Atlantic for their help in the Plant and Cheap Trick show in Jacksonville. All our winners and I were rocked by one of the best shows in recent memory. I must sway that Cheap Trick's show was their most precise and energetic show I have ever seen.... A quick note also about some new songs: One is Geffen's Eddie And The New Bohemians. Eddie has a strong voice and the groove gets you where it counts.... The other song is "Don't Go" by the Hothouse Flowers. This song has lots of soul and it feels great when you listen it.

**Stephen Page, KOME, San Jose**

Thank you WB for Little Feat. Great song! Love those guys, they're my heroes and it's great to see them getting the recognition they deserve after a decade of influencing countless other bands and not getting the credit.... Cheap Trick's "Don't Be Cruel" has to be the best remake this side of Elvis. Goes over really well.... Also BOC's "Astronomy" is a particularly sterling tune; definitely a sizzler. I even like the Stephen King introduction.... Added "Demons" from the Allman album, even though it's hard for me to pick a favorite. The band has clicked and the man is definitely in fine form. And that remake of "Every Hungry Woman" kicks ass.... Setzer's "Rebelene" is in. It's too soon to tell, but it was one of my favorites when the album first came. Glad they've gone with it and hopefully it will click this time. He's much too underrated.... Nice to see Lita has talent and doesn't have to sell herself with her body. Real tight tune.... Talk about deep, moody, sensuous vocal quality--Melissa Etheridge's "Bring Me Some Water", a tune I've been working to get in for weeks.

**Brian Illes, WKFM, Syracuse**

Thanks to Bill and Rose for all the hospitality and the baseball bash in New York. It was great to see old friends like Mike Lyons, and to match up some faces with phone voices, trade comments, etc. (and you know who you are). Sorry if I spilled anyone's drinks after the party.... Look out for In Tua Nua on Virgin. I burned up the triple play cassette on the walkman on the plane. This song has a hook and a half.... In the "better late than never" category, Guns N' Roses finally hits the airwaves at WKFM. "Sweet Child O' Mine" is really quite a good song, it's just their image that worries me some.... By the time you read this, normal braincell functions will have returned.

**Tim Parker, KNCN, Corpus Christi**

After only one week on the air Def Leppard "Love Bites" has knocked off Guns N' Roses as the number one most

requested song on KNCN. That's a real shocker, but we responded appropriately by declaring a holiday and throwing a parade in the halls.... Another big mover on the phones is "Somewhere Over The Rainbow" by Impellitteri. This song is getting tremendous response.... King's X has a great song out with "Shot Of Love", everyone should be playing this record. It's a big favorite around here.... The Stryper project is going to be a lot bigger than anyone can possibly guess. Pay attention to this record because it is going to be huge.... The jocks are also really into the new one from It Bites. "Kiss Like Judas" is one of the most pleasant surprises this Summer.

### **Dave Cowan, WWWV, Charlottesville**

Number one phones this week come in for Crowded House. This song is very comfortable on the air and the audience is responding positively.... Another big phone performer this week is the new Little Feat. "Hate To Lose Your Lovin'" has jumped right into Top Five phones in less than one week which is pretty encouraging.

### **Art Boerke, WKWQ, Columbia**

It's not particularly hip to admit this, but I never liked Little Feat in the old days. This new track has really turned me around though. "Hate To Lose Your Lovin'" is a real boogie tune, it just jumped out at me the first listen.... Parthenon Huxley "Double Our Numbers" should have been the first track off his album. This is definitely the best song on his record.... Getting Gary Talent to produce his new record was a good move for Steve Forbert. This album represents a big turnaround for the man. It's great to have him back.... Michael Anderson moves into Heavy this week on the push of Top Five phones in the market.

### **Cyndee Maxwell, KWHL, Anchorage**

The Stephen King intro on Blue Oyster Cult's "Astronomy" is great. It's revitalized and strong for today's AOR.... "Goodbye Marlon Brando" is my favorite from Elton's new album. Sure as heck reminds me of the good old Elton we grew up with.... It took only one listen to know that the new Robert Cray is a big hit. I like it better than his previous work and have no hesitation to go out of the box on it.... What can be said about Little Feat? This project is no little feat, it's a big one. I expect heavy phones to come in on this one.... Winger has a song on their hands that our listeners absolutely love. "Madalaine" is a strong debut for this band.... Although I was quite hesitant on Tracy Chapman, "Fast Car" really did prove itself. Now there's no waiting on "Talkin' Bout A Revolution".... And finally, and most importantly, I'm happy to report that in the preliminary Birch numbers KWHL is still Alaska's rock and roll leader. #1 18+, 18-34 and 25-54 combined adults.

### **Curt Cartier, KEZE, Spokane**

What do Melissa Etheridge, Joe Satriani and Robben Ford all have in common? Heavy.... And just how good is the new Robert Cray? Well, the brewers of Michelob Dark are already frothing at the mouth.

### **Vern Argo, KZOQ, Missoula**

Toni Childs has nailed down big retail in the market without any airplay so we jumped on "Don't Walk Away" as soon as we could.... The Fabulous T-Birds moved up in rotation this week based upon very healthy phone action.... The sales for Van Halen are still very good and the Monsters are hitting Spokane very soon, so momentum on this album is still a major factor for us to deal with.... The Jimmy Barnes starts a little slow but once it kicks in you've got one of the better tracks for mixing down with your core.... The audience has really welcomed Huey Lewis back. There's no backlash here. This song is a winner.

### **Bob Walton, WRDU, Raleigh**

Nothing can describe the satisfaction of having a song you really believe in come home in a big way. Such is the case with the Rhythm Corps. We felt from the start that "Common Ground" was not only smooth and sensitive rock and roll but an across the board hit. And now we have top five phones and strong sales to back up our belief. In fact, stores were getting requests for the album two weeks before it was even released. This is a band to not only watch but to support. If their live show is as good as the album, we've got a major act

on our hands.... I never thought I'd get the chance again to say "new Little Feat" on the air and boy does it feel good! When we talk about comebacks at the end of the year, Feats will be right at the top. Feats didn't fail us. We've got instant top five phones and I guarantee the LP will debut at number one sales. Pass the crawfish and let's rock!

### **Scott Laudani, WHEB, Portsmouth**

Melissa Etheridge is starting to do some great things for us. This is the kind of music that really sets us apart.... I've spent a lot of time with the Toni Childs tape and have come to the conclusion that this is a great album. "Don't Walk Away" is particularly welcome and works well on the air.... The staff really enjoys the Brian Wilson and all it takes is a sunny day for the phones to start lighting up for it as well.

### **Al Scott, KZEL, Eugene**

Gregg Allman is holding up real well in this market and the audience is here for the man bigtime, they really like Gregg in this town.... John Kilzer is a fine example of American blues based rock that just won't let go.... Kenny Loggins is an important record for us and this song is one of his best ever.... Debbie Harry's vocal treatment on "Liar, Liar" is haunting. From start to finish this is one killer track.... The John Cougar Mellencamp version of "Rave On" is a very strong piece of music. In an age of covers it's easy to get jaded, but this is the exception to the rule.

### **Tim Brandow, WKQZ, Saginaw**

King's X delivers a really great rock track that we have found room for this week. This one should do well at WKQZ.... After about a half dozen listens we decided to add The Bible's "Crystal Palace" this week. This song has finally gotten under our skin.

### **David A. Ross, KMJX, Little Rock**

Magic 105 rocks on. Lots of great new tunes are out there. The Gregg Allman is possibly his best ever.... Jimmy Page, Joe Satriani, Poison and Guns N' Roses continue to light up the phones.... The song that I'm in love with is Little Feat's "Hate To Lose Your Lovin'".... Thanks to Gene Dries of Warner Bros. for the chance to meet Rod Stewart, and this coming weekend is David Lee Roth and Poison.

### **Bill Palmeri, WPDH, Poughkeepsie**

The Georgia Satellites cut on the 'Cocktail' soundtrack 'Hippy Hippy Shake' is the best use of a minute forty five seconds since Kenny Stabler was the QB for the Raiders.

### **Jeni Gipe, WZBH, Ocean City**

We're having a great time at "The Beach". All of the hard work of putting this thing together was definitely worth it. The response has been all we've hoped for.... The Moody Blues are coming to town and "The Beach" will be there. A big thanks to Andy Szulinski of Polygram for all the big things in store for the show.... Looking forward to the success of the new Tommy Conwell record and seeing some friends in the video.... From Steve Becker, PD.... Thanks to Bill and Rose for a nice outing at the Stadium and the party at night.

### **Bob Jeffries, KBOY, Medford**

Jackson County Fair in Southern Oregon, the great American Pastime, featuring The Fab T-Birds, Gregg Allman, Charlie Daniels and Steppenwolf. If that isn't enough for this week what about a Lear Jet to Seattle for 5 very special winners a la Monsters Of Rock next week? Details forthcoming.... Musically speaking, Little Feat, Gregg Allman, Blue Oyster Cult, Robert Cray, Melissa Etheridge and number one phones for the last two weeks...the envelope please...Guns N' Roses!!!.... David Drew, "Green-Eyed Lady", is the cover track of the year.... Neil Young's got the real thing with best video/concept of '88. Many thanks Michael Linehan/Reprise for video assistance; "This Notes For You".

### **J.D., WONE, Akron**

Lowell George's memory lives on, it's finally good to hear Little Feat back together and keeping their patented sound alive. I must admit I was a little skeptical before I heard the record, however, I was quick to turn my doubts around and was pleasantly surprised because this record is slick and tasteful.

Definitely no disappointments here. Looking forward to the rest of the vinyl. God bless Lowell George.... Another great record this week is the new BOC. Here's another band on the comeback trail. "Astronomy" is one of those records which will reach the outer limits. As a matter of fact we're getting calls on it already and the Steven King introduction is hit.... P.S. Dear Carolyn Heldman: Please send me your best Jello mold recipe, I'm tellin' ya this will be the best dinner you ever had. Hope you can make it to the soap-box derby.

### Joey Vendetta, CILQ, Toronto

It's nice to see Brian Wilson is out of the sandbox and got a new robe! The album is not only well produced, but well written, sung, performed and perfect for upper demos. It's also nice to see my pick for best album of '87 (Guns N' Roses) starting to break at CHR...strange how these things happen.

### Mike Ramsey, KLAQ, El Paso

Thanks to all the labels (too numerous to mention individually...but you know who you are) who provided rock and roll goodies as prizes for our recent KLAQ Casino Night. It was a great success in terms of fun and funds raised for a local charity. We do appreciate the help.

### Scott Murray, KVRE, Santa Rosa

It looks like the summer of '88 proves the famine or feast theory, with the emphasis on feast. For KVRE we've already got two of the top albums of the year in our hands... Robben Ford's excellent new LP and the return of the only band that matters...Little Feat. On the Robben Ford album there is no excuse for not playing something from this outstanding collection, we've been getting top 5 phones on "Help The Poor" and it's only been on the air a week!.... Since Little Feat has always been one of our favorite core artists, "Hate To Lose" goes right in at Heavy on the 'natch'.... We're also real happy with Robert Cray and Steve Forbert. On the Forbert LP try the title cut.... And finally we're happily surprised with The Bible "Crystal Palace".

### Tom Calderone, WRCN, Long Island

Special thanks to the McGathy's for the great Bar-B-Q. Nice to see John Souchak in fine form and Mike Marrone doing his best George Jessell. My thought's on the NMS next week, same Bat time same Bat channel.

### Lorraine Rapp, WAQX, Syracuse

Thanks to Robert Cray for a great show last Thursday night at the Landmark Theater. We gave away a white Fender Stratocaster guitar autographed by Robert after the show. Thanks to Pat Rascona of Polygram for the excellent support as always.... Wild times at Yankee Stadium last Saturday. Thank you Bill and Rose McGathy for all the festivities. Finally met Pam Brooks of WPDH and Kim Alexander of WHCN and got to see a lot of friends.... 95X is celebrating 10 years of great rock and roll in Syracuse. Send birthday I.D's to WAQX, 401 West Kirkpatrick St., Syracuse, NY 13204.... Congratulations to Randy Hock of MCA Records and his wife Veronica on the birth of their daughter Alexandria Lee.

### Skip Isley, WWTR, Ocean City

Biggest surprise this week...is Beatnik Beatch. If you want calls for something besides Guns N' Roses try this one.... I'd like to welcome aboard my new Music Director Karen Collins. She'll be taking calls on Mondays from 12-2.

### Marty Griffin, KFME, Chico

I was into the new Robert Cray for about a minute and knew then that it had to go into heavy rotation. What an outstanding follow-up, and this weeks favorite at KFME.... I can't believe more stations aren't playing the new Robben Ford. What's the matter with you guys? Did you listen to it? Robben's definitely one of the better guitar players around and our audience is screaming for more!.... Little Feat...The comeback effort of 1988!

### Tom Starr, WOUR, Utica

Robert Cray and his new song both hit town the same day and the response to the show and song have been big time. Hopefully "Don't Be Afraid Of The Dark" isn't slated for a certain dark beer commercial. Having the integrity to send an ad

agency packing is another thing. EC might learn from him.... Brian Wilson's "Love & Mercy" is loaded with echoes of another era but sounds right at home in '88.... Gary Wright re-enters earth orbit with a song listeners rated very high in our Grand Jury feature.... Melissa Etheridge, Cinderella, Rhythm Corps and Hurricane lead the pack of recent arrivals generating good phones.... Continued killer response to Gregg Allman. We've been busier than a one armed bass player with our 15th Anniversary celebration, including massive client and listener parties and a series of promotions that have sent listeners globe trotting. Many thanks to Jim Del Balzo at CBS who saw to it that WOUR's London winners took in the Springsteen Wembley show from the royal box in the company of Boris Becker, Chrissie Hynde and Christopher Reeve.

### Charlie Logan, WYNF, Tampa/St. Pete

Date Line Tampa: WYNF jumps 5.9 - 7.0, excuse me while I party!.... Little Feat, a single tear swells in my eye as I think of Lowell George. Goose bumps form on my skin as I listen to "Hate To Lose Your Lovin'". Little Feat is America's untapped natural resource. This record will take America by storm, and Lowell George will smile down upon us all. Damn I am enthused, I can't remember being this stoked about a song in quite a while. Many programmers have strong negative feelings towards programming Little Feat. This song will convince them and the record buying public of what us true believers have known all along, that the Feat are one of the best damn bands in the universe. This will parallel the Dead's success of last year and go beyond.... Cheap Trick do a wonderful job on "Don't Be Cruel", this song will infatuate broad demographics and have me cutting a rug continually.... Robert Cray, after all his success he can still sing the blues. Very cool, yet very hot. This tune is smooth and sensual.... Guns N' Roses is our top 5 phones, everything else starts at 6. Other phone burners are Def Leppard, Impellitteri, a huge reaction to "Over The Rainbow", Dirty Looks, an album I almost overlooked, thanks to Flash and Buch for making me notice.... Great seeing so many folks in New York City this weekend. McGathy is the best and Phil Hardy is a maniac.... Just another note about Lita Ford. Ok, so she is a babe and the ad and poster's revealing, but the only reason we are banging this record is because the music is hot. "Back To The Cave" will be bigger than "Kiss Me deadly". This lady has her shit together.

### Matt Roberts, KRQU, Laramie

The Rhythm Corps is doing well with "Common Ground". It's headed for top requests and it's good to hear fresh new ideas from this band.... Pete Bardens "Gold" is very likeable, a great feel to this song.... Paul Kelly's "Dumb Things" is getting some response from listeners but it's early in the game here at KRQU.

### Carl Scheider, KJOT, Boise

"Powerful Stuff" is indeed the best thing The Fabulous Thunderbirds have released, surpassing the last album hands down. Jimmy Vaughan's guitar work is strong and Kim Wilson's voice carries the song right through.... We featured the Melissa Etheridge album (one song played per hour) on Thursday with incredible reaction which translated into Top requests for "Bring Me Some Water". Of all the female artists we've added this year she's the strongest. This song is an upper demo request item. The passives are coming out of the woodwork.... Little Feat! Record Of The Week. A distinctive sound that was once ahead of its time will now be a major record for them. Craig does a great job on the vocals. We're playing it from the Hard Sampler (about 18 times in row).... We'll probably go with Pete Bardens "Gold" soon. This is a strong upper demo track.

### Kelly Cruise, WEGR, Memphis

From the moment the piano chords bounced out of the speakers, I new Little Feat had returned just the way we remembered them. Craig Fuller's vocals sound surprisingly like Lowell George and the refreshing sound of "Hate To Lose Your Lovin'" makes my putter flutter and my liver quiver.... Robert Cray's last album was such a big hit here that we added his new one out of the box and Memphis rocker Joanna Dean's "Ready For Saturday Night" is a great partyin' rock and roll song from a female point of view.

**David Sadof, KLOL, Houston**

So, did you ever wonder what became of Paul Simon on of The Clash (well bear with me anyway). Apparently Paul has other talents besides playing bass as the new album from B.A.D. features one of his paintings on the cover. Good work, Paul!.... Congratulations to KLOL Asst. M.D. and mother to all Kathy Fletcher Baker and her husband Lee on the adoption of a newborn boy named Chase, as in Manhattan Bank. We hope he owns it someday. Kathy will be on a leave of absence until the middle of August.

**Tom Van Sant, WIZN, Burlington**

Holy Guacamole! Little Feat is back and sounding just great. Ditto on Robert Cray. Two albums I can't wait to hear the rest of, future powercuts for sure.... We have added my favorite Jerry Harrison cut "Man With A Gun" and we're hoping it catches on.... A long list of thanks this week to all our record friends who came up for the WIZN/"Molson Light Blues Cruise", Dave Ross, Danny McCloskey, Alex Miller, Paul Yeskel, Tom Jodka, Don Masters, and especially Clarence Barnes, for the golf lesson, and for doing some badly needed pruning just off the 13th tee. All of the rest of you, the next one is on August 19.... Thanks to John Cafferty for visiting WIZN at 1 P.M. after his show last week, and for swimming with our receptionist Judy.... Birch advances show WIZN staying at a flat 23.7 12+ for next week.

**Chris Emry, WIYY, Baltimore**

Just play Beatnik Beatch until you wear it out.... Little Feat made me feel good all over. I've never felt like that in ten years.

**Tom Bass, WPLR, New Haven**

The Little Feat record was the surprise of the week. It was so good it was spooky.... Music Calls are on Monday, Wednesday, and Friday from 3 to 5 P.M.

**Karen A. Small, WGIR, Manchester**

Little Feat gets down to the basics with "Hate To Lose Your Lovin'". This song is a godsend for the dog days of summer 1988. The new Little Feat, along with the excellent Robert Cray record, puts some basic feeling and soul, no fun intended, back on the airwaves. These fine musicians play just pure unadulterated music without all the clutter.

**Tony Montoya, KKAZ, Cheyenne**

Gregg Allman is definitely is the best southern album he has put out. It has the best southern rock feel, which we have been missing lately.... The Little Feat track goes back to their old sound. It's great to see the band back together again. Lowell George is missed. The new Little Feat, what can I say, is doing him justice.

**Greg Morrison, WRQK, Canton**

The winds of change have regretfully carried Ward Holmes off to Colorado. Until a permanent replacement is named, I will function as Acting PD with Mike Michelli giving valuable assistance. Record type folks are urged to phone Mike Thursday and Fridays from Noon to 2pm and please no calls on Monday. WRQK welcomes Rick Allen to the airstaff. He bolsters our evening attack.

**Fred McFarland, WRFX, Charlotte**

Notes from around the station: Sales receptionist Winston has been grooving to the new Huey Lewis. Kim our "Promotion Babe" says thanks to PolyGram for releasing "Love Bites"--it's about f\*\*king time! The sales staff thanks Charlie Landano from MCA for the backstage passes to Robert Plant (and it wasn't even his show).... Musically Tangerine Dream fans should check out Bill Nelson on Enigma. Also hot are Paul Kelly's "Dumb Things" and Jules Shear/Reckless Sleeper "If We Never Meet Again".... Finally from Promotion Director Mark Gullet to Rod Stewart: "Forget some lyrics dude?"

**Anthony Alfonsi, WDVE, Pittsburgh**

Last week Little Feat performed here and the response was overwhelming. One of the songs they did was "Hate To Lose Your Lovin'", which got a great response and the next day we received the record. We put it on immediately and it's one of the freshest songs we've gotten in a while. It's also gotten

quick phone response.... Robert Cray's "Don't Be Afraid Of The Dark" reminds me a little of Al Green in his heyday. It's another song that doesn't sound like everything else and adds good balance to the playlist.... Thanks to Ritch Bloom and Jack Snider of Capitol for their help with the Smithereens show.

**Joe Marino, WCCC, Hartford**

# 1 phones again on David Drew's "Green-Eyed Lady". As a matter of fact, we got more calls this week than any other.... Rhythm Corps also got huge calls, coming in a close second to David Drew, and call out on both has been fantastic.... Aslan still garners great interest from our listeners. I don't care if others aren't playing it yet, this is a great record, and I'll play it in heavy now.... Britny Fox is not only getting great phones and call out with the teens, but 25-34 males are diggin' it too.

**Jane Fredericksen, KTCZ, Minneapolis**

Important note to all record reps, if you want to talk music with me it is best to call Wednesday thru Friday. Monday I will grab what I can, but I am not always available. Tuesdays are impossible. Adds of the week will be at the receptionist desk by 2 pm Tuesday and she can give them to you. I have to do this, because otherwise I get so bogged down in phone calls that I can't make the trade reports that you are all calling about anyway.... Hot flash from the Midwest: Little Feat performed a firey show at Riverfest last week and this week they are burning up the phone lines. This kind of heat I can stand, no drought of good material this week either.... Jules Shear is back this time with the Reckless Sleepers and an immediate heavy add.... Both Gregg Allman and Crowded House have strong followup albums demonstrating a great deal of depth and versatility.... Special thanks to The Bible for the interview and Al Stewart for the live acoustic performance this week.... Congratulations to Tom Kay and Denise Lutz on another successful Conclave. Each year just gets better and your tireless efforts are greatly appreciated in the industry.

**David Gariano, KZLR, Little Rock**

It's KZ thank you time. Thanks to Pace Concerts' Louie Messina, Dave Parks, Ed Lefler and Warner Bros.' Gene Dries for hospitality beyond the call of duty for KZ95 at the Monsters Of Rock in Memphis. Van Halen kicked major ass! The on stage scenes were beyond belief! Good to see the folks from Eagle 103 (Kim, Drake, Kelly). The Eagle had superb coverage of the Monsters event.... Thanks again to Gene Dries for all the support on Rod Stewart's trip to Lotta Rock. Attention Dave Dannheisser and the Bunnie Patrol, Dries is by far the best promotion man I have ever been associated with. Take good care of him! Talk to you next week!

**Haz Montana, WXLN, Davenport**

Greetings from the Quad Cities new #1 radio station. From the fall to spring Arbitron 12+ Mon - Sun 6a to 12 midnight 97X jumped from a 9.9 to 16.1. That's from fifth to first place. We're also #1 adults 18-34, 18-49 and #2 adults 25-54. Thanks to a sincere apology campaign rebuking our wimpy top forty oriented days of the past. Pure rock and roll in the Quad Cities is here to stay and stronger than ever!!! Thanks also to a lot of hard work, a talented and professional staff, patient friends and every offshoot of the industry and great listeners. Pass the Cuervo!

**Deb Brady, WXXP, Pittsburgh**

What a treat to see Shona Laing perform live. After a harrowing day on the road she and the band captivated a crowd of 400 plus and left them awe struck with "Glad I'm Not A Kennedy". The song has been a top request since it first hit our airwaves a year ago and response to it hasn't let up. Don't let the title fool you. It's a great song that should be played and please let's not hear the cop out, "there's too many female vocals on the air.".... Jeepers Creepers! Reaction to Siouxsie and the Banshee's "Peek A Boo" has been nothing short of spectacular. One week on the air and it takes number one phones.... The Information Society makes the move to Heavy rotation this week. "What's On Your Mind" is more than a dance hit, it's pure energy for the ear.

**Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix**

On the topic of current Irish rock music: Very impressed with Ireland's recent exports Tuesday Blue, Hothouse Flowers and Aslan. I won't waste space trying to be analytical - all three are quite accessible and have an endearing individuality to their sound. A fourth will be a little more familiar to some long time alternative programmers, In Tua Nua. "The Long Acre" is a critical showcase for Leslie Dowdall. She is finally in the drivers seat with a take charge, see me, hear me, feel me attitude. This maturing and talented band exercises a strong desire for airplay. They will achieve it.... Marti Jones' rendition of "You Can't Take Love For Granted" is first rate testimony to a memorable, sweet and sour romantic song from the pen of Graham Parker. Please don't treat this as just another cover song. It's really not. It's simply Jones own individual interpretation and it fits her like a glove.... Reckless Sleepers - let's not dissect this record. Playing it would be a tribute of justice to pop God Jules Shear who more than makes up for the void he's left the last few years.... Thanks to Atlantic for getting behind Beatnik Beach but more, for sticking with Amsterdam's Fatal Flowers. Such stimulating, original music from an often non-original label.... "They said it was written in concrete": Bringing to light Zinc Alloy's question to Slayer's Tom Araya in the latest edition of metal newsletter Foundations, Issue #14 of whether it's a big deal or not as to the pace of "South Of Heaven". Is it a problem with their fans is an interesting question, yet not important. Most programmers like myself who play nearly all speed/slash/core metal would admit to themselves (unless you are Z-Rock or KNAC and a small amount of others) the majority of true album rockers won't program 99% of the extreme, hard fast stuff. The new Slayer Lp was well planned. Plenty for the loyalists with add-able material. And you know what? Flotsam And Jetsam have also, along with Stone and quite a few others. Pleasing the fans and mainstream rock - what a hard medium to achieve, huh? Fast pace on commercial radio is not necessarily a door slammer. Is the song good? That's the only issue.... Uncle Milt's Rowdy Rivet Of The Week: Slayer "South Of Heaven". Soon to be annoying mummies and daddies everywhere.

**Jamey Karr, KACV, Amarillo**

Tuesday Blue is warming up.... The Primitives have "Crashed" the request line, and I've also been listening to their album in my car for about two weeks. It's crass and raw!.... I welcome back Debbie Harry. This song is perfect for her and it has shades of Blondie at its best. I hate remakes, but I love "Liar, Liar".

**Gina Galli, WBNY, Buffalo**

It took me a couple of listens to get into the new Siouxsie single, but it is really creative and different than what they've put out before. I'm really looking forward to the LP. It's more of a dancy-poppy type angle that takes an acquired taste.... The Primitives have been compared to the Bangles, but I think they're even better, beyond the bubblegum.... The remixed "Blind" by the Talking Heads is really great the way it combines dance/rap with the drums and the horns.... Beatnik Beach is getting pretty good audience response with its rockabilly sound and upbeat rhythm.

**James Wilson, KDVS, Davis**

Everybody should play the Tater Totz album. They do Yoko Ono covers and guitarist Pat Ruthensmear carries on the Germs legacy!

**Scott Carter, KCPR, St. Luis Obispo**

People say the House Of Love are like the Jesus And Mary Chain, but they really know how to play their instruments. The simple melodies are really growing on people.... Peter Koppes (of the Church) is really going places with that atmospheric guitar. The new CD on Rykodisc promises to be very successful.... The Primitives "Lovely" is a great album all around. There are lots of great cuts so don't just play the single.

**Jane Davis, WRAS, Atlanta**

My two favorite albums right now are the Sugarcubes and In Tua Nua. They both have a lot of depth. It's not obvious clone pop and has a long term appeal. I love In Tua Nua and programmed seven cuts with the lead tracks being "All I

Wanted", "Woman On Fire" and "Seven Into The Sea".... Val likes the new Debbie Harry song "Liar, Liar", but then she's an old Blondie fan. She's intrigued - make that enthusiastic!

**Kevin Byrne, WCDB, Albany**

I'm pleased to see that a local band Dirty Face, is doing so well. They've been compared to the Replacements (doing very short songs about their favorite bartender, "Stella"). They've got a sense of humor and put it into their power pop. It's the biggest record of the summer here.... The Ambitious Lovers is a funky album. Especially notable is the work of Arto Lindsay and Vernon Reid, the guitarist from Living Colour. "Love Overlap" is bound to be made into a dance club mix sooner or later.... World Domination Enterprise is doing very well. There's a great cover of LL Cool's "Can't Live Without My Radio." They remind me of Pop Will Eat Itself. The album is a conglomeration of musical styles and they shouldn't be labeled as punk or thrash. It's a combination of all.

**Ron Sorenson, KBLE, Des Moines**

Crowded House is likely to fill to the bursting point with this second release. It's certainly packed full of the good stuff. We're also pleased to hear that Capitol has signed brother Tim Finn to a solo deal!.... We've been "Goin' Down To Laurel" with Steve Forbert since day one. So a new album is cause for great rejoicing especially when it's as good as "Streets". We'll probably end up six cuts deep.... Jules Shear's voice is smoother than ever on the new Reckless Sleepers album and "If We Never Meet Again" is a perfect upper demo AOR record. We like "Wake Up Loving You" too.... Karla Bonoff should have titled her album "It's Like She Never Left". Ms. B picks right back up with excellent songs and a slick as silk performance.... Additional in-house raves this week for B.A.D., Little Feat and Robert Cray.... Thanks to Blackberry Way for the CD compilation. We've played several of their artists in the past and we'll play more, especially from Tom Bright and the Swing Set.

**Lisa Walker, WPYX, Albany**

It was one of the best promotions in Metal Shop History, WPYX 106 took listeners backstage for a press conference with Yngwie Malmsteen's Rising Force. The listeners fired the questions and the whole experience was videotaped and everyone got a video for their memories. The video is hysterical, complete with risque jokes in German and Coors Light commercials done by the official singer himself. Thanks to Yngwie Malmsteen, Joe Lynn, and the entire band for spending over an hour with our listeners. No ego problems here, these guys were a pleasure to work with. Special thanks to Dominique for her help and her attention to detail. The flags were a nice touch. Thanks to Len Lobrighio, Tony Wiggins and all of Iron Maiden for taking good care of my contest winners. It was 100 degrees inside the RPI field house but the Iron Maiden show was the most enjoyable heavy metal show I have seen all year. Great talking to Tom Araya from Slayer. Thanks Derek!

**Lora Porter, KPGA, San Luis Obispo**

It was a great weekend even though I didn't go to the New Music Seminar. People went nuts over the Guns N' Roses giveaways (thanks Arthur)! Here on the Central Coast, Guns N' Roses have slipped into the position of "god". In our regular AOR rotation, they're in heavy and at #6. As far as Hot Metal Soup goes, they've been at number one for four weeks. Another thing that went over big was the new Slayer and the interview with Tom Araya (someone needs to lock Tom in a room by himself with a Beetlejuice video). "South Of Heaven" goes straight into heavy on Hot Metal Soup next week.

**Perilous Cheryl LeBeau, WHUS, Storrs**

Greetings from the state of anxiety. Just returned from New York. Bless everybody who put up with me. Had lots of fun, thanks. Special hello to Lisa Paulon--a real woman (GWAR rules!), the staff at Roadracer (nice welcome sign dudes) and to Tom Callaghan (Alas! A meeting was all too short and parting was such sweet sorrow).... Has anybody got new King Diamond and the Accused. If not, get out! What are you waiting for move! Death Angel is funky and hot, and D.R.I. rules.... Have to wait a month and a half for new Anthrax and Helloween. Oh no, it's the only thing worth living for right now. Later dudes.

**Boobie Bondage, Z-Rock Satellite**

Slayer goes "South Of Heaven" this weekend at Z-Rock Headquarters in Dallas, Texas live. Tom Araya and Jeff Hanneman tell it like it is--they're in power at Z-Rock.... So's Iggy Pop. We fax'd late night with David Letterman re: "Iggy's a must with the most dangerous band in the world". The Pop does "Cold Metal" this Thursday night.... King Diamond is not a "cult" fave. He's #10 with us.... The T-Birds are fab!. Britny Fox are fun anywhere, Winger's happenin'. Billy Milano Mussolini is god. Steaks from hell with Slayer. The D'Molls comin' on. Mad Max will be back from LA-Land next week. Alago, I love you.

**Brad Thiel, KRCK, Omaha**

Metal returns to the Omaha airwaves with the incarnation of Metal Mondays hosted by Matt Roberts. Any and all Metal product on vinyl and disc is greatly appreciated. Please address any stuff to the attention of Matt Roberts.... Thanks to CBS for the Public Enemy tickets. This record does amazing sales with no airplay on "Black" radio stations. We've been featuring "Bring The Noise" and "Don't Believe The Hype" and received calls everytime we play it. Sorry Linda... no record, no add.

**Hugh Surratt, RCA, 213-468-4000**

There are many aspects to this Lita Ford project, not the least of which includes some incredible call letters. "Back To The Cave" is the track for rock radio. And did you know we're staring at 700,000 units?.... In-Pocket Programming Department: Phenomena. Major reaction at KBPI. Such varied radiologists as Messrs. London, Podell, Scheppe and John Edwards are keen on this one. Test it out-guaranteed results.... Strong buzzes on the new Icicle Works and Primitives records are keeping those fingers poppin' at alternative radio.... Next week, Graham Parker's "Don't Let It Break You Down" will be on your desk. It's the hot follow up to "Start A Fire". Also on the horizon, live Hornsby.... "Defenders Of The Flag".

**Old Trouty, Virgin, 212-463-0980**

Hey, hey, they're the Campers. People say they're campin' around. Actually they're touring and standing crowds on their respective ears. A very steady record this one is. It just keeps chuggin' along. Forget the name, check your local retail and listen to this great album. "Gee, Paul, I listen to it a lot at home but...." Remember where you yourself plug in demographically. This was a pretty fair kick off for In Tua Nua. Very classy act. Yes, it's a female lead vocal but I think it's really distinctive. Before I forget, "Nice bra, Lita".... Ziggy Marley's "Tumblin' Down" is pretty much away. I think that it's safe to say that almost all of us are in the same climactic zone and this whole album is just perfect summertime music. Plus, again, check your retail, this one is still as strong as it was out of the box. If those aren't two great reasons to play this record then I'm not wearing a toupee. And the Steve Winwood looks fabuloso on all fronts, so much so that I can't even come up with something wise ass to say on the subject, special thanks to Bill and Rose McGathy for a wonderful afternoon in Yankee Stadium and an even more delightful evening down on Second Avenue. My clothing is still soggy. Let em leave you with a couple of names. Colin James and Sam Phillips. More on these artists when we connect in the Fiber Optic Zone.

**Pamela Newman, Enigma, 213-640-6869**

First of all, if I may make some belated Conclave comments, I'd like to start with a call for an industry-wide boycott of Northwest Airlines. All agreed? I thought so. And to answer the question that's been hot on Brian Taylor's mind, ever since his Minneapolis trip: No, Brian, I don't think they make sneakers with receptacle ends... or at least, not yet. What's being called "the Ultimate Axe Alliance" is getting underway tonight Diego. Ronnie Montrose and Alan Holdsworth sharing the bill and kicking off Ronnie's first nationwide tour in 5 years. Ronnie's put together a three-guitar band and both Stephen Page and Mark Davis have the rave "sneak preview" reviews. "Telstar" could very well be the quintessential upper demo rock radio song of the summer. Carter, I'm sorry we made you wait so long for it! Meanwhile, Stryper is pushing platinum and gets additional votes of support from KTAL and WRQK. Those who have the professional insight to value a records' clear cut performance (that ought to narrow it down a bit) over

their personal attitude will be paying some serious attention to Stryper's "Always There For You"...as obvious a hit as obvious can be.... Hurricane's "I'm On To You" continues to gather Top 5 phones and heavy rotations nationwide. Included are: KTXQ, WQFM, WHJY, KLOS, KSJO, KLOL, KOME, KWHL and that barely scratches the surface...stay tuned for the "radio edit" of "Livin' Over The Edge" coming your way. I wonder how much Harvey Leeds paid Jesse Jackson to make that speech at the convention opener? I wonder if Jesse Jackson's ever heard Rhythm Corps? And last of all-Little Feat making records again...touring again...and even getting played on the radio. Gosh, I guess we must be doing something right after all!!!!

**Chuck Bliziotis, A&M, 212-826-0477**

Iggy Pop epitomizes rock and roll. The record is over 100,000 units. He's blowing away audiences coast to coast. Don't overthink this--"Cold Metal" is quality.... Toni Childs: We're breaking an artist, over 175,000 units. "Don't Walk Away" is in your face.... Last Monday, Marti Jones and friends - Don Dixon, John Hiatt, Graham Parker Janis Ian and company did a prime time upper demo show at the Bottom Line--You'll hear more from us about this, like a special CD. Have you listened to the real one?.... Paul Kelly: Singer/Songwriters are the lifeblood of the business; we've got a great one in Paul Kelly--"Dumb Things" makes for smart programming.... Finally, our artist breakthrough, Michael Anderson--"Sound Alarm" on over 50 stations Heavy or Power-selling albums and making fans. When you're ready, next up "Until You Loved Me".

**Clarissa Garcia, Enigma, 213-640-6869**

Hello dahlinks! I'm back from my European vacation--finally. It's nice to be home where a dollar equals a dollar and you don't have to pay for ketchup to go with your burger and fries. When I was in Europe, I played tourist in grand style. I saw the Pieta and David statues by Michelangelo in Italy, an exhibit of neo-impressionist paintings in Amsterdam, and the Mona Lisa in Paris. But nothing compares to what I saw in Scotland: Men in kilts! I ran into Death Angel quite by accident in a pub in London (of all places). I saw 'em thrash it up at the Hammersmith Clarendon-what a show! I even dropped by the Kerrang! office in London to talk (metal) shop (ha ha ha). Stryper recently made an in-store appearance at the Torrance Warehouse and the response was incredible! KNAC DJ, Thrasher, kept the couple o' thousand or so fans entertained the whole afternoon. I'm glad to see that the Hurricane album, "Over The Edge", is alive and well-Na Na Na Na Na Na. Thank you, my metal programmers (I'm very possessive)-you started it all. Now the whole country is on to Hurricane. The Ultimate Axe Alliance, featuring the nifty guitar work of Ronnie Montrose (or as Ross Goza would say, "Ron Mon") and Allan Holdsworth, has just begun. Call me to set up interviews with the guys. By the way, I taught them how to play guitar. I just can't tour with them because I'll be busy at Enigma. I'm seriously looking forward to Foundations Forum '88. It's about time one o' deez thangs happened out here. Thank you, Concrete. While I was away, I missed all my metal programmers, Chrisby and Jeffie-baby, and waking up to KNAC. Give me a call and tell me what's been going on in your lives during the past two months. Hey what this I hear about a Real Women's club? Are divorced women allowed to join? Just curious.

**Phil "Shot Of Love" Hardy, Megaforce, 201-254-6533**

What a blow-out last Saturday night! Can Bill and Rose McGathy throw a party, or what? So the Yankees lost, no big deal; that's why God created beer. And what a happening group of people in attendance! Very intense! It was very cool getting to meet such notables as Charlie Logan ("ooooh!! squeal! squeal "you're Charlie Logan! Oh my Go!" squeal!! squeal!); Pam Brooks who is undoubtedly the biggest fan of all music I've ever met. Lorraine and Sal of NEW; Mr. and Mrs. Hoover ("I still won't play your record you little monster"); and all the many many others. Oh yeah, to Jan in Vixen; pleasure to have met you, best of luck with your record (and please marry me) but also people let's not forget the guys who could not be at the party because of touring obligations; the guys in King's X. Reports from people around the country are saying that King's X are just laying waste to audiences wherever they

play. The time is right for this band, friends. Let's all make a concerted effort to join with the definite groundswell that is building nationally for the band. "Shot Of Love", the new single is a great place to begin your introduction to the band if you're unfamiliar with them. Don't be a meanie and deprive your audience of such a cool song and band!

**Derek Simon, Concrete Marketing, 212-645-1360**

It's good to see so many stations warming up to "Madaline", the first single from new Atlantic Records artists Winger. KUPD, KISS, WLZR, WLLZ, KFMG, KRZQ and WDIZ are among the new believers this week. KNAC is reporting good phones already and has moved the record into heavy rotation in only its second week. Look for the killer video on MTV in the very near future.... Retail is moving good quantities of Britny Fox records as "Long Way To Love" continues to build at radio. Big phones are translating to big sales. And the amazing video, now in medium rotation on MTV, isn't hurting either.... Ace Frehley's Comet's are about to stun a lot of people with their new track, "It's Over Now". Those of you who thought "Insane" was a little too insane will like this one a lot. Play Ace and watch the your phones light up.... Those of you out there a little more inclined towards hard rock should all have the Rhett Forrester pre-release CD sampler from "Even The Score". Rhett was the voice behind Riot when the band was on the verge of big time success in the early part of the '80s. Check out Rhett. I think you'll like what you hear.... And those of you very inclined to hard rock are probably having a massive love affair with the Slayers "South Of Heaven". The phones at metal radio were good for Slayer even when they didn't have new product out, so I can imagine what they are like now. Tour plans will be announced shortly. Foundations Forum '88 draws nearer. Don't miss out on the year's most important industry hard rock event. Call for details. Bye.

**Donna Geisinger, Passport, 818-500-7677**

It costs \$16,000 for 30 days at the Betty Ford Clinic! \$16,000 dollars!! If you can get together \$16,000 at one time you don't have a drug problem yet!" So says the screamer, Sam Kinison, at the Universal Amphitheater during two sold out shows last week. As a special encore for his more than enthusiastic crowd, Sam brought together Leslie West, Vince Neil, Tommy Lee, Billy Idol, and Stephen Pearcy for renditions of "Jailhouse Rock" and "Wild Thing". The backstage area looked like "Who's Who" in Hollywood with Sean Penn, Heather Locklear (of course), John Cougar, Eddie Money, and lots of other faces that you recognize from TV but aren't completely sure of their names. I'm homeward bound this week to check out what the Democrats think they can put together and enjoy my mother's homemade biscuits. I'll see ya next time!!

**Lynn Oakes, Enigma, 212-741-1255**

Although I'm too young to remember the original 1962 Tornadoes hit "Telstar", I'm not too young to recognize the potential in Ronnie Montrose's version of this classic. Out of the box on WBCN & already pulling in upper demo phones, you can't afford to pass this up! Hurricane's "I'm On To You" continues to explode and conquer at all demos. A Na-na-na song knows no age difference catch 'em live as they blow thru the U.S. and blow your mind.

**Penny Barnes, Rampage, 213-828-1980**

I am gonna utilize this space partially this week to say thanks to all the people I met while in Minneapolis for Monsters last week. Michael Cross especially, a big gracias for letting me camp on your couch for the duration of my stay. Also...Kudos to Scott Klohn, John Lassman, Bryce, and to the guys from Polygram, Elektra and Warner Brothers. Monsters was great. Dokken was looking a little lame however, not nearly the shine that I saw earlier this year when they opened for Aerosmith. By the time this is in print, Monsters will be heading the L.A. way where I plan to check them out again. Bands always seem to shine a little brighter when they hit the City Of Angels for some reason. Speaking of shine, "Only Child" was a shining example of great musicianship at the Roxy Sunday night. They are heading into most major markets the first week of August, so if you can, try and check them out. Kinda Sammy Hagar meets Whitesnake, and that's not a bad combo. The new single is "Save A Place In Your Heart". Lots

of new response this week including KZAP, KZEL and KDJK, Mark, you're a helluva dude!!!! Until we meet again.... See ya!!!

**Janet Getchell, Megaforce, 201-254-6533**

Its NMS time in New York so don't worry about getting any sleep for a while. I have been having a wonderful time hanging out at the seminar but the only problem is that this weekend cost me \$275.00. My car was broken into while I was enjoying the activities. I am still taking glass out of tender parts of my anatomy from having to drive the car back home with all the broken glass in it. OK folks it is time to stop partying and get down to business. MOD has come into your stations by now. HINT it is the one with the great colorful picture of the one legged water skier. If you are the NMS check out one of our Megaforce people, they may be wearing their MOD T-shirt. Now for the real shocker, this MOD is playable on the air. It's cleaner than Phil Hardy's language. One DJ told me he only heard the "F" word as he put it only three times. If you can count less or more give me a call the correct answer could win you a special prize. But seriously folks give this MOD summer fun record a listen, it is wonderful fun. Now Overkill has a great new album out and I want to thank you for all the support. I would take you all for dinner (well only those who have it in their top five) but I just had to replace my window in my car and I can't afford to but you all know it is the thought that counts. Hey if you are at the seminar give me a call and we'll go to a show or something. Also if you see a bum wearing a KSLC T-shirt hit him because he took it from my car. P.S. thank you Jessica for everything, and for you guys who rode in my car Monday morning I hope you didn't get cut on the glass. You probably would have been safer in a taxi, ha ha, oh well welcome to New York.

**Dyana Kass, Metal Blade, 818-981-9050**

And now a little ditty about D.R.I.... It rips, it's hip, you'll flip, so play it! Yea, yea I'm a poet and I know it but seriously people, if you don't play this raw and powerful record you are doing an injustice to your listeners so to keep you from making a terrible mistake, I will personally go down to any radio station who is not playing the much requested "4 Of A Kind", and make the DJ's repeat my little rhyme one hundred times until they are foaming at the mouth with exhaustion and their lips fall off. You know, you could avoid this terrible fate and get me out of your radio station at the same time, if you would just play the new D.R.I. "4 Of A Kind". This action on your part would be beneficial to any DJ's health as well as pleasing to the listeners. So play it will ya?.... Or else submit to the wrath of Dyana from Metal Blade!

**Monte Conner, Roadracer, 212-219-0077**

We've got a new staff member here at Roadracer. Her name is Bonnie Park, she comes from Boston and she'll be helping me out with radio. So call up and give a big welcome to Bonnie and tell her how much you love the King. "Them" continues to make healthy steps up the radio charts and it's only a matter of time until grandma and her invisible guests are sitting at #1. King was the #1 most requested artist last week. Now to me, that means a helluva lot more than any airplay chart. It means that your listeners want the King in a big way. Make them happy and play "Them". Don't let me catch you slacking off or Grandma will be mighty pissed. Remember, I do have your address and I could easily send grandma and "Them" over for a bout of tea. Guess who's blood will be the main ingredient? The "Welcome Home" video continues to get heavy airplay on MTV and King Diamond will be hosting the Headbanger's Ball in early August. Thanks to Rick Krim and all at MTV. King's U.S. tour kicks off on August 12th in Oakland. The full itinerary is forthcoming. Oh yeah, "Them" debuted at 107 on the Billboard chart last week. Not bad considering Abigail peaked at 123.... Once again I feel compelled to bore you with my top ten: Voivod, King Diamond, Slayer, Violence, D.R.I...The Accused, Riot, Testament, Death Angel, and Sepultura. Finally, my heartfelt condolences to Alex, Steve and all at the Noise headquarters, you poor souls will have to share that tiny office with Big Sal Treppiedi. Sounds like a bigger office is in order. On a more serious note - let's all hope for a speedy recovery for Piggy!!! P.S. Thanks to Lisa Paulon at Second Vision for the Voivod C.D.
