**Pete Townshend, "The Iron Man", Atlantic....**

The 12-7\* Hard Hundred move for "A Friend Is A Friend" was an eye-opener, and the base of 169 stations is just a whisker away from the saturation point. Another 17 Adds helped, but the 28 Increases were third best as KEZO, KGB, KLOL, KSHE, KSJO, WAOR, WBLM, WIZN, WQMF, WXRT and more step-up rotations, bringing the Heavy or Higher play a shade under 50%. We all knew the audience was ready to eat up some new Townshend, and the Top 5 Request action at KGGO, KOMP, WLAV, WMAD, WYNF and another five back up that belief. WKGB is also seeing major call-out response and Paul Michaels isn't the least bit shocked, "On first listen it becomes obvious that this is a brilliant piece of music. Exactly what you would expect from the man".... Ain't it the truth? It must be a bitch to compete against a body of work matched by so few, but now that "The Iron Man" has arrived it's safe to say Pete is up to the task. The obvious starting point will be the two Who tracks, and here we have a pair containing all the elements of past classics, but also a keen ear to the future. "Dig" is more along the lines of the textured "Don't Let Go The Coat", bright and bouncy but with a bit more muscle. Not to kick a man when he's down, but we can't help pointing out that Simon Phillips is much more suited to the throne of Moon than Kenny Jones ever was. A fact even more apparent on the other Who tune, "Fire". Their update of Arthur Brown's attic acid anthem may not be as furious as the original, but certainly more musical. This is guaranteed to positively melt phones! Another sure-fire reactor is one of the ageless John Lee Hooker vocal contributions, "I Eat Heavy Metal". It's a genuine pleasure to hear the great John Lee in such fine voice, and this is a set of pipes that could be the most imitated in the history of rock and roll. These are just a few of the many highlights of the latest Townshend concept, and it could be just the format that brings out his best work. "The Iron Mask" will do nothing to dispel that hypothesis.

**Don Henley, "The End Of The Innocence", Geffen....**

You can joke all you want about Don and Bruce trying to sound like the Batdorf and Rodney of the 90's on the title track, but the H&H boys are getting the last chuckle as they rocket 9-1\* on the Hard Hundred. Henley has always been one artist able to get sensitive without resorting to mindless mush, and when you get Wayne Shorter to chip in on soprano sax you know the quality of play is first rate. The 170 station base didn't leave much room, but another 5 squeezed aboard, and the 40 Increases easily led the pack on this week's Increase Index. Heavy or Higher at 82% of involved frequencies, and already pulling down the #7 spot on the National Request scene with Top 5's at 21. In a Summer that's already run rampant with big name releases, it would be tough to name one more eagerly anticipated than Don's full "Innocence" album. Even though the tight security surrounding the project has only given us a short lead time to spend with the whole disc, it didn't take long to realize that this will be on air in spades through 1990. Big names abound in credit land, and as far as contributions go it's co-producer Danny Kortchmar that has made the most. "Kootch" co-wrote 6, and is responsible for the instrumental backing tracks on 4 of the record's 10 songs, including the one that everybody and their mother has been waiting for--- the tune with Axl Rose. Appropriately titled "I Will Not Go Quietly", we'll bet a dollar to a donut that this will hit the air first. A rockin' workout that owes a bit to Little Richard's "Rip It Up" in the phrasing department, the only other musician involved is the head of L.A.'s guitar mafia, Waddy Watchel on acoustic. The other main player is Heartbreaker drummer Stan Lynch. Stanley grabs writer royalties on 3, a co-production on 2 and is all over the backing tracks. One of which, "The Last Worthless Evening", could be the next cross format smash, but it has an awful lot of competition. "Gimmie What You Got" smolders with deceptive funkiness, and backing vocals from Edie Brickell and Melissa Etheridge. Old pal J.D. Souther brings his voice and pen for "If Dirt Were Dollars", a song that manages to mention Jesus and Elvis in the same sentence, and "The Heart Of The Matter". This is mainly Mike Campbell's baby, and yet another highlight. There are many more special guests, like Steve Jordan, Pino Palladino, Jim Keltner, Take 6, Ivan Neville and others. But the star of the show remains Don Henley, and his has never been brighter.

**The BoDeans, "Home", Reprise....**

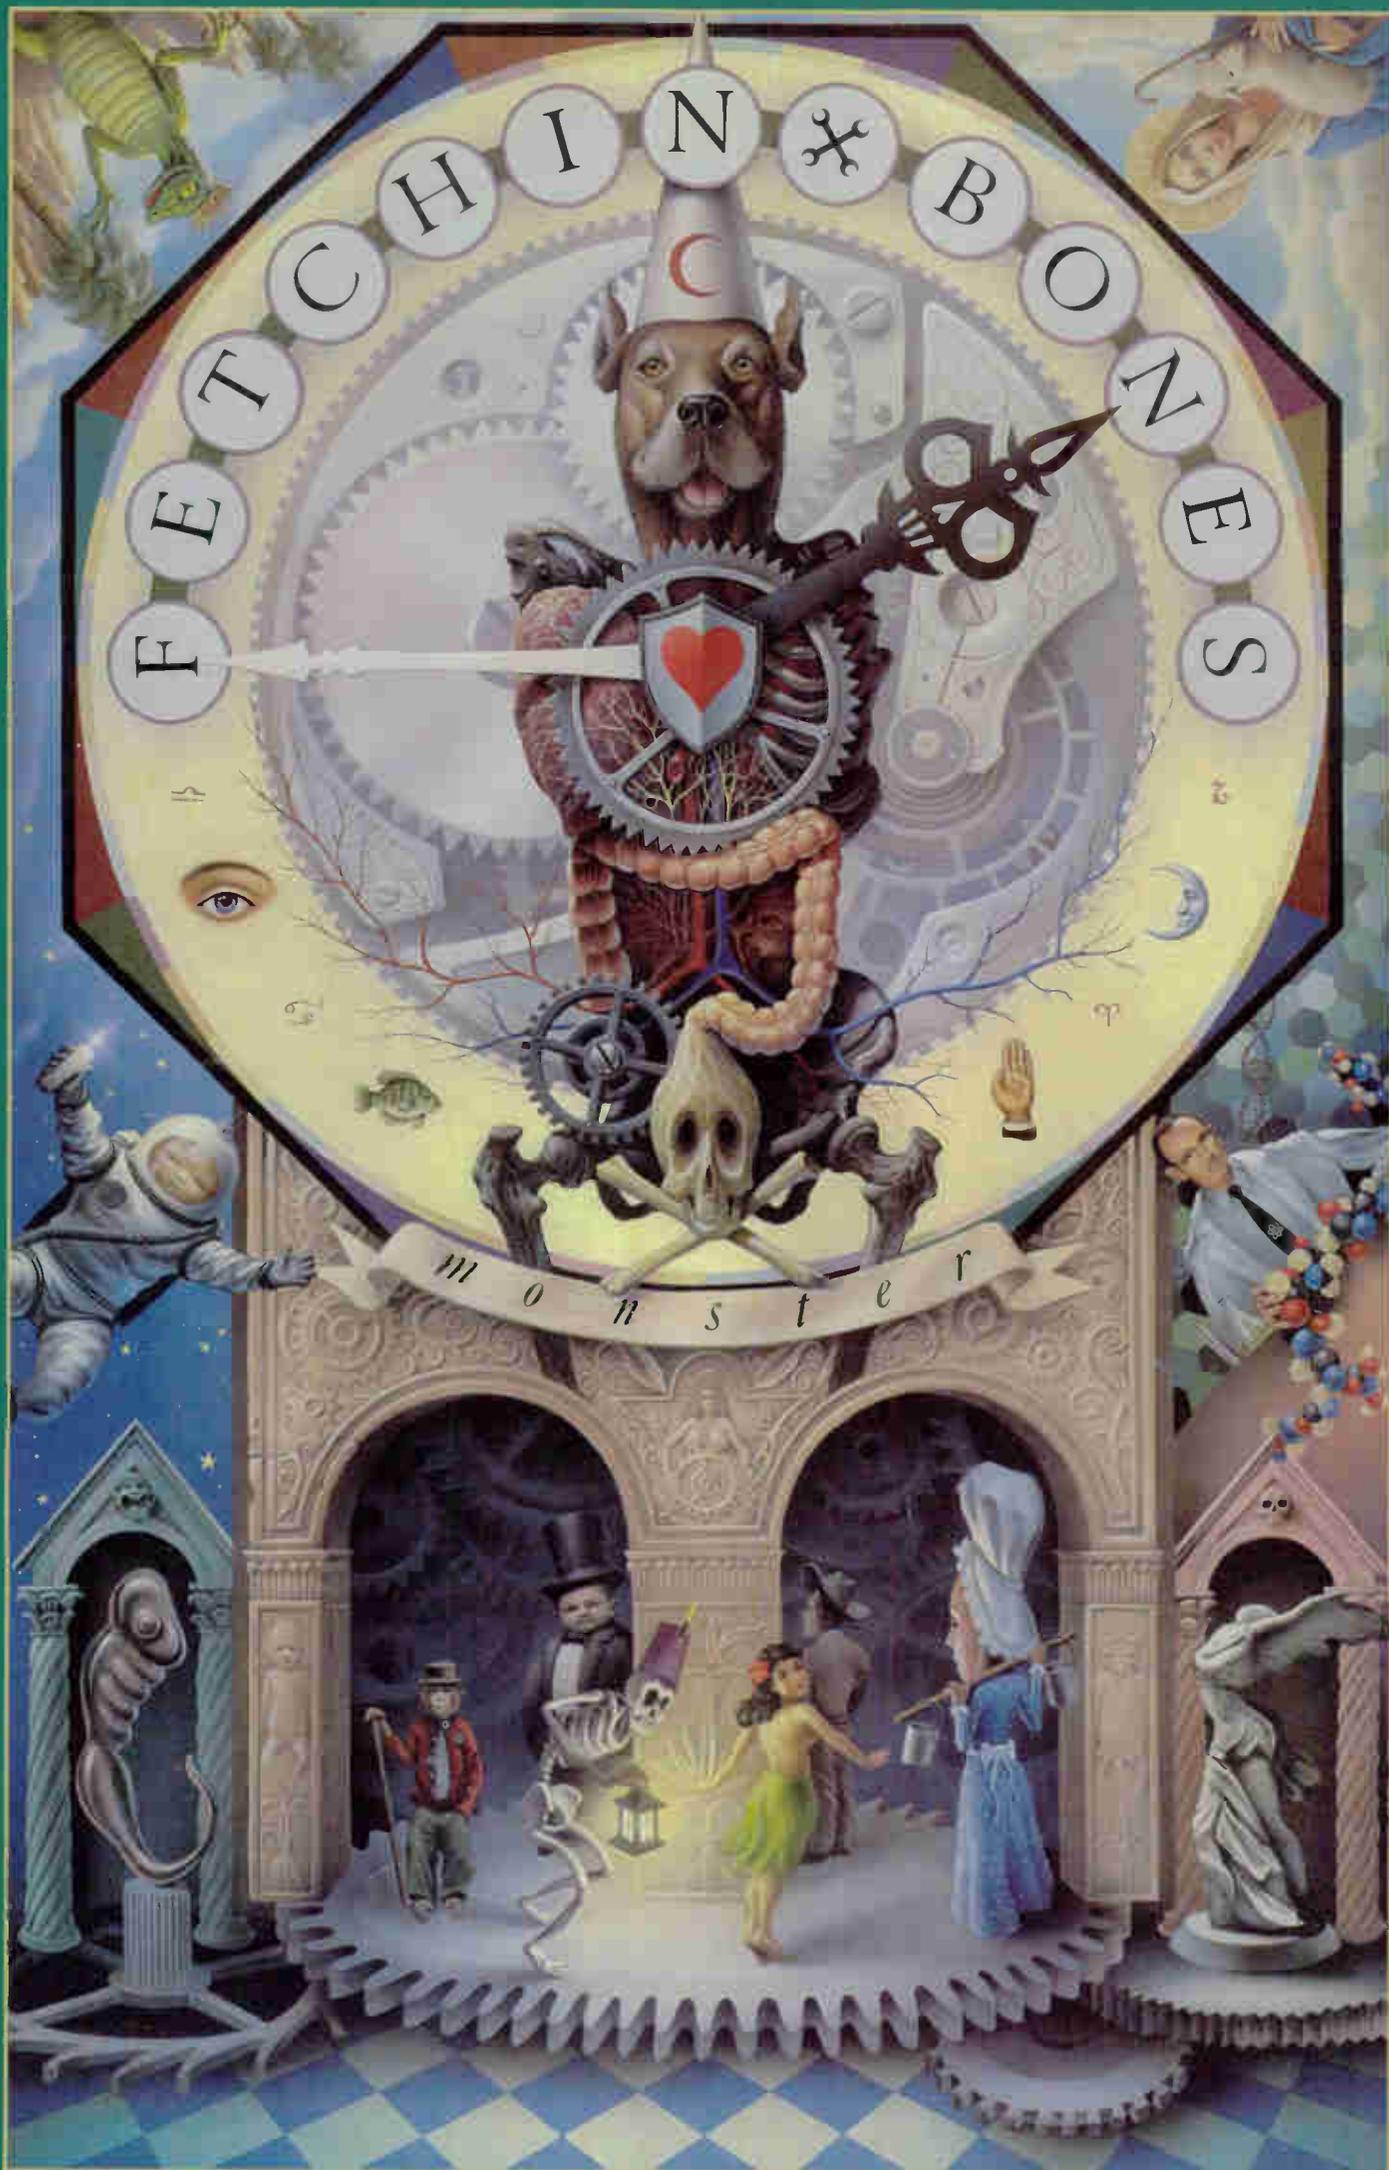

Silly us, we were all ready to pull out the cabin soapbox and gleefully leap up and plead for you to pay attention to one of the Country's best bands. We should have realized that the BoDeans already have a solid support system in place at stations nationwide. "You Don't Get Much" grabbed another 26 Adds, 5 Increases and is pulling premature Top 5's at calls like WHFS and WMDK. That translates into the week's 4th Biggest Mover, 54-36\*. As Chris Herrmann at WHJY says, "Sounds super comfortable next to anything we play, and just might be the tune that introduces this great band to the average AOR listener".... But "Home" is where the heart is, ladies and gentlemen, and the new album bearing that title is about to bring many to the bursting point. We don't even have to sing its praises solo, the community of the committed will do it for us. Witness KBOY's Bob Jeffries, "Rich and colorful, perhaps the album to catapult the Everly Brothers of the 90's into real prominence".... And counterpart Rick Pannek of WAPL, "I've had the opportunity to listen to the new album, and it shows a wealth of talent and maturity that strikes a balance between their first two. One song in particular, 'Good Work', captures the intense energy they display in concert. This has the potential to become a classic Summer song! Give it a listen and see if you don't agree".... Good ears, Rick! This tune has been around since the BoDeans' beginning and finally makes its way to vinyl. A Chuck Berry tribute that is sure to connect with the uninitiated immediately. But the real radio gems here are "Brand New", the Springsteen-ish "Far Far Away From My Heart" (Sammy's "I'm On Fire"?), "Worlds Away", "No One", "Beautiful Rain", "Hand In Hand" and "Red River". We know the line, "They're all great", is used way too often. But this is the rare instance when it's not hype.

**Billy Squier, "Hear And Now", Capitol....**

He may be singing "Don't Say You Love Me", but with a lock at the top of the National Request list the core don't seem to be taking Billy's wish seriously. Three dozen stations report Top 5 phones including KISS, KISW, KJJO, KKDJ, WAOR, WDIZ, WFBQ, WGIR, WIOT, WLZR, WRKI and WYNF. The Hard Hundred says, "Just say HUH!" with a 7-6\* move, and more than a dozen up play, and over 60% are still spinning the first track Heavy or Higher. Thankfully the wait between first taste and the rest of the package has been nowhere near the down time between platters. The whole package is "Hear And Now", so you can safely exhale with the relief that the "Stroke" man is back in the saddle. The place to bop the beam first for all daypart blowout is "Don't Let Me Go". The usual ensemble is augmented by Anton Fig in the drummer's seat, and "Deliverance" fiddle legend Eric Weisberg on this mid-tempo meltdown. But fret not basher fans, the U.S. answer to Bonzo--Bobby Chouinard takes the stool for 60% of the aural proceedings. He's the only man alive that could kick "Tied Up" into the "Misty Mountain Hop", and this won't be the first time that B.S. borrowed a page from L.Z.'s songbook. All's fair in love and guitar riffs, and "G.O.D." certainly contains a bit of "Good Times, Bad Times". But let's be fair, Jimmy Page didn't exactly invent those licks either. While we're on the sound alike subject, "Mine Tonight" suggests Billy has been listening to some Def Lep in his off time, and with "The Work Song" he has given us a '89 update on his "Stroke", with a dash of The Uptown Horns for spice. Desmond Child's Midas touch is evident on the aforementioned "Tied" and "Stronger". The intro of the later would make a perfect segue with The Cars' "Just What I Needed", and Psychedelic Furs' sax man Mars Williams really blows his brains out. Just because we've used a host of names for comparison's sake, don't get the impression that "Hear And Now" is a "Music Minus One" session. This will be immediately recognizable as just what it is, a damn good Billy Squier album.

**Bad English, "Bad English", Epic....**

They could have called themselves Good Polish, and the music produced would have yielded the same result. Group names don't mean a spit when the members have the kind of credentials as the solid rock law firm of Waite, Schon and Cain, INC. But instead of relying on past history, this bunch has approached the bench with their best airplay argument in years. "Forget Me Not" almost lapped the runner-up in the Most Added category with 60 reporters tying a string around their playlists including KLBK, KLOS, KOMP, KQDS, KRQR, KRXQ, KSJO, WEGR, WIXV, WLZR, WRKI, WRXK, WSHE, WTPA and DC101. Another newcomer, Rick MacKenzie at WAAF cuts straight to the chase with, "This could really be a big big song".... We appreciate the economy of verbiage Rick, but you won't have to worry about standing out on a limb if you change that "could" to "will"! Look for the 131 station base to max out in the week ahead, and remember that this is just the beginning blast from the album you now hold in your hand. "Forget" cranks up a 38-20\* move on the Hard Hundred, the fifth best of the week. This reflects a dozen Increases including KEZE, KGB, KZEW and WRIF, and Top 5 Requests at KOMP, WAOR, WAQY, WDIZ and WRUF. Consider yourself warned that this first shot is just the start, the album's opener "Best Of What I Got" is every bit the rockin' reactor. From the stinging Schon intro runs the "fasten your seatbelt" light is on, and whether you buckle-up or not, be prepared for the ride of your life! From the incendiary innuendo of "Heaven Is A 4 Letter Word" and the blues tinged "Rocking Horse", to the power ballad bombast of "Price Of Love" and "Possession" this collection is a loaded gun. The cross format sure shot might be "Don't Walk Away", but set your sights on the whole package for exposure.

Cutting Edge Rock From The Producer Of Living Colour.

**Tangier, "Four Winds", Atco....** "On The Line" has hung the Atco flag back in the face of AOR, and these Philly rockers have proved that the cheese steak don't need cheesecake to make it go down the right pipe. Another two dozen playlists swallow this first taste including KBPI, KDJK, KLAQ, KLBj, KTXQ, WGIR, WPDH, WTKI and WTPA, and the Increases at KAZY, KMOD, KRXQ, WDHA, WEGR, WIMZ, WLZR, WVVV, WZZO and more make for a hearty 32-23\* move on the Hard Hundred blackboard. The spirit of a bygone era may be a main ingredient, but there's no looking back when you digest the entire blue plate special. "Four Winds" serves up a potent brew of core connection that will have paying customers lining up for seconds in the time it takes to say, "Drinks on the house"! Doug Gordon is obviously a writer to remember, and he's also got the brain pan to take on a producer with credentials. Andy Johns is a name that most of us have seen listed on classics since the sixties, and it also makes sense that the same man who twiddled the knobs for Free is behind the glass for vocalist Bill Mattson. Mr. Bill sure sounds like he's plenty schooled in the early grunts and groans of Paul Rodgers, and it's Paul's "Fire And Water" that seems to have made more of an impression than his later day Bad Company. For depth try the title track, "Mississippi", "Fever For Gold", "In Time", "Bad Girl" or "Good Lovin".

## HARD ACTS TO FOLLOW

**Boris Grebenshikov, "Radio Silence", Columbia....** Already a household name in the Eastern superpower, Boris is about to become as familiar in the West as a certain world leader's birthmark. Using his native tongue, Boris has sold Millions of records over the counter and countless more illegal cassettes on the Black Market in a Nation starved for backbeat. On his big label American debut, Boris has used English as a composing language for the first time, and we dare anyone to name him a novice. He's outspoken and sincere, as this issue's profile will attest, part of the territory when you carry the weight of poet laureate of a generation. Anyone who's travelled this highway can certainly take the pressure, but it's the special ones who have the "star quality" to see them through. Forget the avalanche of press and hit the play button on this outstanding piece of Pop perestroika, and before you know it the "Greb" will grab a deserved spot on your Add list. This Dave Stewart produced cooker has enough ringing acoustic guitars to satisfy the toughest of customers, and an emotion packed vocal performance that, glasnost or not, will brighten the gloomiest day. A thumping, infectious backbeat is just another plus in a tune that would get an A+ in any language. Yeah, we know the press is foaming at the mouth over Boris Grebenshikov, but for once it doesn't need a rabies vaccine. This is the real thing, so don't delay in telling Tchaikovsky the news!

**Mr. Big, "Mr. Big", Atlantic....** When the awesome promotional machine of Buch and Flash set their mind, and B/N/F/O/C/M/G/P/S/&/A corporate policy, to the task of breaking a new act it is always a wonder to behold. When Gotham's Batman and Robin of the telephone are given an honest to goodness super talent to spread the word on, all we can say is, "Duck you suckers!" Now that they've been handed Mr. Big as a first class priority, we can only expect an avalanche of devastation in seismic proportions. Why? Because this is a match made in heaven, (or depending on your perspective, hell). You see, the operative word in Mr. Big is talent, and you can bet that by the time we count the coins they will have lived up to their moniker. "Addicted To That Rush" is already locked in at 30, with 26 hopping this week's train including KDJK, KEZO, KISW, KKDJ, KRQR, KRXQ, WEZX, WIMZ and WLZR, and a Hard Hundred debut of 77\*. Messrs. Sheehan and Gilbert have rung up every instrumental award known to mankind for chop credibility, and Pat Torpey has held down the coveted Robert Plant drum seat. Not to mention lead singer Eric Martin's already solid rep as a band leader with a trophy coated throat. We've tallied instant telephone testimonial, such as Tom Sheppke at KISS, "Lots of talent and hopefully an LP that will be around for a long time".... And KZLR's Malcom Ryker, "One listen and I can't get the chorus out of my mind! Guess I'm already 'Addicted To That Rush", and so will your listeners after one spin".... Brainwashing? No! The goods? You bet! For proof, check "How Do You Do", "Big Love" or the ballad "Anything For You".

**Fetchin Bones, "Love Crushing", Capitol....** Ever since their inception this band has earned Alternative accolades for their unique blend of solid rock with a funk fun feel. This is their third Capitol release, and for the first time the energy and power of their live show has been captured on vinyl. The previous pair of platters were produced by Don Dixon, but for "Monster" Ed Stasium sat behind the board. Ed is one of the hottest mix men on the scene due to the record breaking success of Living Colour, and once he caught The Bones live he knew that he wanted to get involved. He has succeeded in delivering the most focused Fetchin record yet, and "Love Crushing" is the perfect introduction for Mainstream airwaves. The spectacular voice of lead singer Hope Nicholls is bound to grab you and your listeners by the ear, and the buzzsaw guitar licks of Aaron Pitkin and Errol Stewart ride heard over one of the funkier rhythm sections around. It's not easy to place a tag on the music of Fetchin Bones, but this first single can certainly rock with the best. The anticipated early Alternative action is already in place, but we see Mainstream coming to the party as soon as they give it a listen.

**Syd Straw, "Future 40's (String Of Pearls)", Virgin....** To those unfamiliar with the critically acclaimed Golden Palominos, or to anyone living outside of the New York tri-state the name Syd Straw probably means little. But to those of us fortunate enough to be familiar with this multi-talented individual, the lovely S.S. is a songbird with serious credentials. She has held many an audience in the palms of her hands as front person for the Palominos, and gained the hard to come by kudos of a slew of peers for her work with same. Signed by Virgin in '87, this is the long awaited solo debut. And that it's outstanding is no surprise to us. She has called in the chips on a host of collaborator's markers, and for the first single snags heavy roller Michael Stipe for a debut sure to put her on the National musical map. Michael lends his pipes to a tune that even the occasional listener will link with "Can't Find My Way Home", and if you think your listeners won't appreciate hearing it, maybe K-Mart needs some check-out help. It's good to know that we weren't the only ones who jumped at the promo package, and we tip our hats to the honesty of Pam Brooks at WPDH, "Well surprise, surprise! Thanks to those clever Virgin folks for my 'Shriek of the Week'. But besides the scream of surprise, this is wonderful. Michael Stipe's vocals certainly enhance, and 'Future 40's' is in the groove".... Hopefully the increase in heart rate won't stop you from getting this deserving new beat on the air where it belongs.

**Stage Dolls, "Love Cries", Chrysalis....** Now here's a band that knows how to make an entrance. The sheer physical presence of this Norwegian trio guarantees that the Stage Dolls will never be able to sneak into a room. All members are near six and a half feet tall with bright blonde mop tops, and the kind of pin-up good looks that cause females of all ages to hit the squeal button. That has served them well in the video for this tune, which is already receiving a large piece of MTV programming. But looks don't make much difference on the wireless, and even if The Dolls were torn and frayed, "Love Cries" has the hook power plus to carry them to the top. Well crafted hard Pop, played and sung with supreme conviction, this is the kind of tune that sounds best blasting out of the dashboard with the top down. The band is familiar in some areas due to their second longplayer being released for a short time here on the now defunct Big Time label. Where "Commandos" had more of a Police slant, especially in the title cut, this new effort is closer to the poppy side of The Outfield. They've never toured the States, but you can bet the reaction to this track alone will make it necessary. Norway's Stage Dolls could turn out to be rock radio's Cabbage Patch Kids!

# HEAVEN

THE NEXT SMASH FROM WARRANT'S GOLD DEBUT LP  
*"Dirty Rotten Filthy Stinking Rich"*

Ken Anthony, KISS

"The track 'Heaven' is an absolute s-m-a-s-h. I thought 'Down Boys' was a great song, but 'Heaven' just floors me. I could take or leave a lot of power ballads, but this is really a superb song. It's got a hook and a half and we've moved it from medium to power after only one week!"

**NEW PLAY PRIORITIES**

**Steve Winwood, "Time Is Running Out", Island....** Back in a time before Michelob had even considered using rock star soundtracks, Steve Winwood issued his very first solo album. The year was 1977, and although this self titled session is his initial outing on his own, it wasn't Steve's first attempt. You see, the seminal Traffic album "John Barlycorn Must Die" was originally planned as a Winwood solo but one thing led to another, and ultimately the band reformed yet again. Thanks to this re-issue we can now enjoy this stellar set on CD for the very first time, and if the original six and a half minute length of "Time" runs too long, there's a brand new 4:40 remix as well. Steve recorded most of this record in his home studio, and played the bulk of the instruments himself. This track has the trademark Winwood organ sound, and is also a product of the famed Winwood/Capaldi writing team. Most of you are already familiar with this funky track, and since the new version is ready to go we don't foresee a problem getting it on the air pronto.

**John Eddie, "The Hard Cold Truth", Columbia....** We don't want to "Swear", but gosh darn it if the first track from John's sophomore effort didn't pick up double digit Adds again! Hopping aboard the hitbound Eddie express this week we find KBOY, KJJO, KKEG, KPEZ, KRZQ, KXFX, WDVE, WLLZ, WRQK and more, joining the already solid support of stations like WNEW, WMMR, WAOR, WAPL, WBCN, WDIZ, WEZX, WGIR, WLZR, WQFM, DC101 and many others. The Hard Hundred shows a 67-59\* move, and the rest of the album finds this Philly rocker all grown up. In the three years since his debut, John has realized that it's his name on the cover, and with that in mind has put much more of his soul into "The Hard Cold Truth". Songs like "Run And Hide" and "Tough Luck (It's Over)" are standout examples of his commitment to incorporate his love of Philly Soul into this new approach. He still grinds out great bar band anthems like "Payday", but for the real theme of the album you don't need to look any further than the lead-off track "Shake My Faith". Special guests include Mellencamp drummer Kenny Aronoff and co-producer T-Bone Wolk.

**Queensryche, "I Don't Believe In Love", EMI....** It's been fourteen months and 700,000 units sold since Queensryche let "Operation:mindcrime" out of the lab. Quite a few stations looked into the "Eyes Of A Stranger", resulting in a Top 40 Hard Hundred showing, but most agree that the potential of this Seattle powerhouse has barely been tapped. The reason for delay could have been Geoff Tate's operatic tendencies, or the band's strict Heavy Metal rep, but on this new one the only thing that could hold it back is a two ton load of cement blocks on your turntable. "I Don't Believe In Love" is the tune that will elevate this inventive group out of pure cult status, and into the Mainstream. They have always done things their own way, and have been reluctant to enter the video sweepstakes. But once they did, we knew it would be with the same degree of class and innovation that they bring to both live and recorded performance. In fact, the long form video featuring six songs linked together, incorporating the album's theme will be released in July. But each are capable of standing on their own, and MTV is already giving this one plenty of play. We suggest doing the same on this fantastic tune, it's the perfect soundtrack for the theater of the mind. On air at WBAB, KISS, KJJO and KRZQ.

**Extreme, "Little Girls", A & M....** They won the MTV Basement tapes a few years back, and changed their name from The Dream. This Boston based band openly admit to worshipping the ground fellow Beantowners Aerosmith walk on, and this second track from their self titled debut does walk that way. This is the song the band wanted out there in the first place, and it's easy to see why. Nasty, surging guitar riffs based on time honored blues licks, and a mouth harp that never seems to come up for air are the main ingredients. And can you think of a better subject than "Little Girls", let's leave the pedophile jokes out, OK? The new vid is done and in the can; ready to pick up where the successful "Kid Ego" clip, left off. Look for more action shots of this incredibly energetic quartet doing their thang "extremely" well. "Kid" was a good song that got swept under way too soon, don't let the same thing happen here.

**Marshall Crenshaw, "Good Evening", Warner Brothers....** "Some Hearts" was the second best mover of the week, with a 96-72\* jump on the Hard Hundred. New at 13 including KEZO, KRZQ, WBEB, WEZX, WKDF and WRIK. Three dozen reporters are on board with active air support, and everyone involved feels that this is Marshall's best in years. He exposed the tune to the Nation on his Late Night With David Letterman appearance, and audience reaction echoed WNGZ's Dominick Milone, "This is a great tune and we can't wait for the album. Welcome back, Marshall".... Well, they didn't all say those words, but the applause meter response was loud and clear. The album has finally arrived, and for a change of pace Crenshaw has included a helping of tasty cover versions. He tackles Richard Thompson's "Valerie", John Hiatt's "Someplace Where Love Can't Find Me", Bobby Fuller's "Let Her Dance" and The Isley Brothers' "Live It Up". The man who has been given the cover treatment many times himself, returns the favor with mainfest glee, resulting in what sounds like his most fun filled album ever. He hasn't lost the ability to pen winners himself, as one listen to "You Shoud've Been There", "On The Run" or "Radio Girl" will attest.

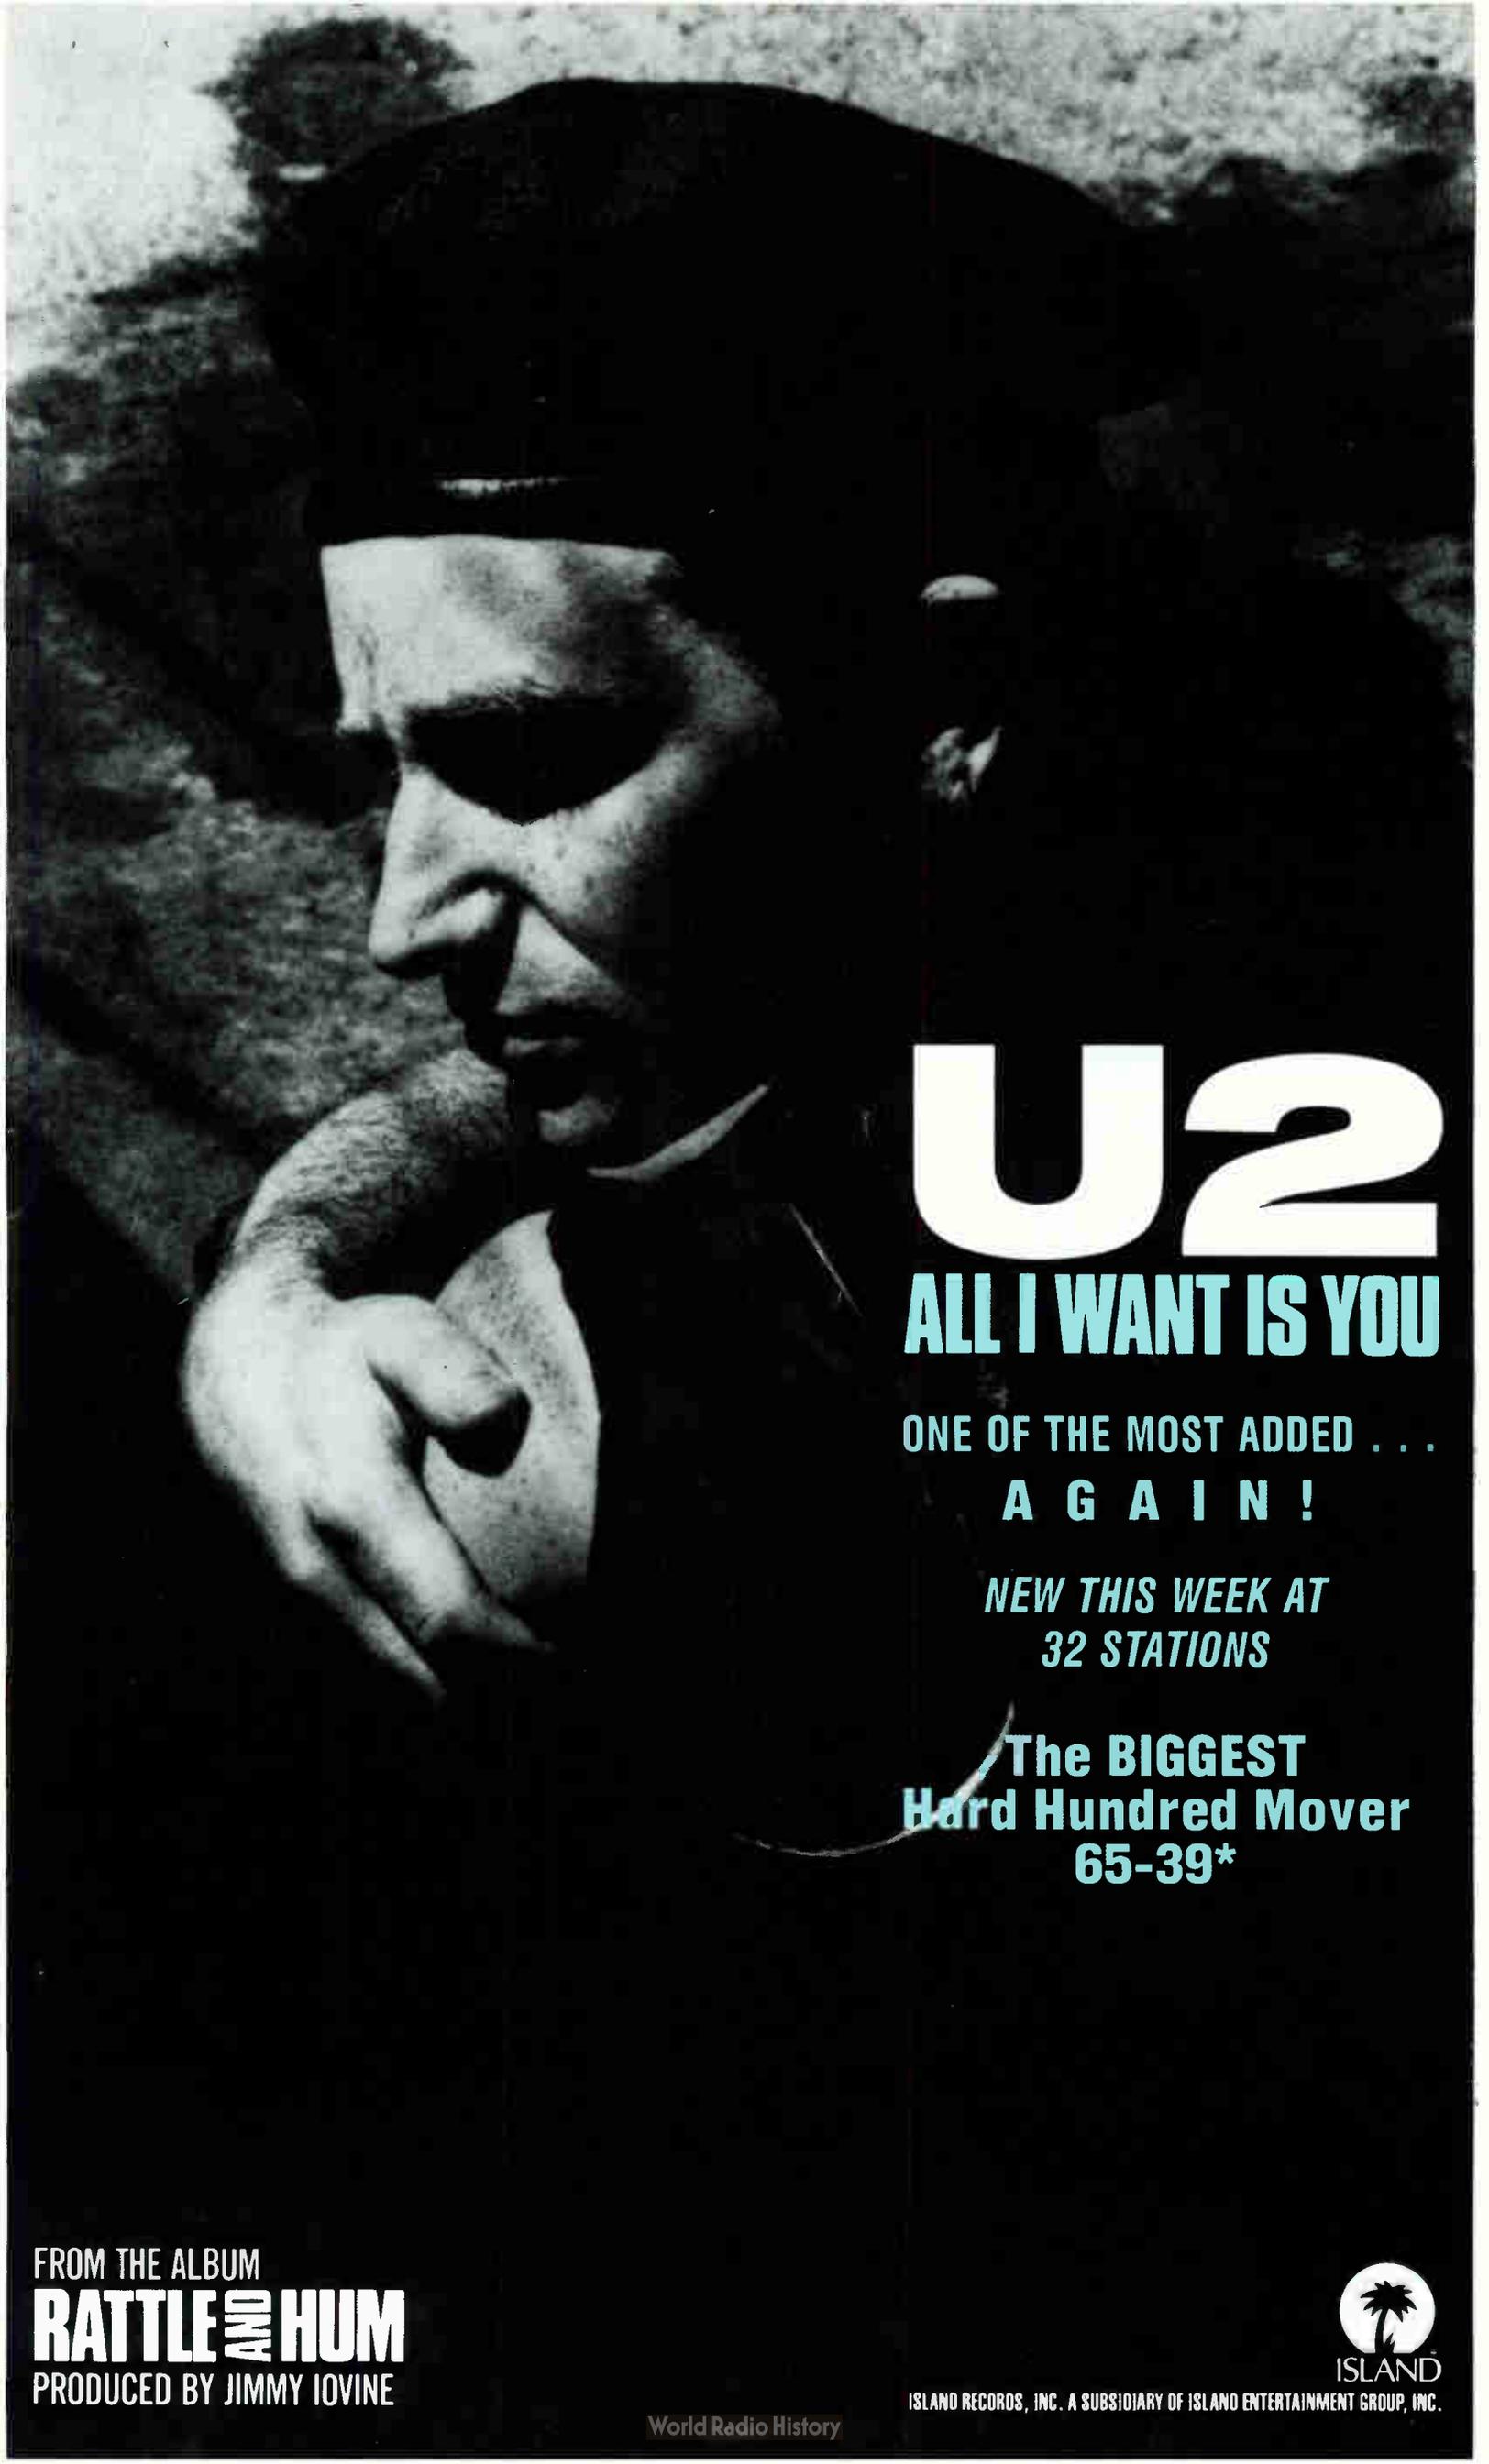

**IMPACT TRACKS**

**Allman Brothers, "Statesboro Blues", Polygram....** This long time format fave has been polished off in a manner truly befitting these legends of the American rock scene. The myths that arise at the mere mention of Duane Allman's name continue to enrich the landscape of Southern inspired rock and roll, and this package proves ample evidence why. His deft playing in tandem with Gregg's youthful vocal punch, combined to grace the airwaves with song after song that served as a blueprint for a generation of emulators. Now, the new Box Set hits your desk as a heartfelt tribute that manages to live up to the impact of this group. With those searing guitar lines on "Statesboro Blues" coming off clean and crisp on this CD configuration, the track makes fifth most added this week with 24 new players. Raves are piling up from folks like Mike Leon at WIOT, "This is a welcome sight to our playlist. Although we're up North, Toledo is definitely Allman country"... Ditto the reaction of WNGZ's Dominick Milone, "This is what rock radio is made of. Pure, raw, blue eyed Southern rock"... With 99 stations already on and a chart move of 37-27\*, this track is getting the Heavy treatment at KFMQ, DC-101, WAAF, WAQY, KKEG, WCCC and WAQX, with new airplay being reported on KRXQ, KATT, KMOD, WONE, KGGO, WPYX and KICT. The phones haven't stopped at WRDU, WZZO, WZEW and WRUF and the voice of New Englander, and WGIR maven, Karen Anderson Small rings true throughout, "I am speechless over the quality of this box set. It is astounding!"... We are certain that the depth of this collection is bound to keep AOR happy all Summer.

**U2, "All I Want Is You", Island....** Nothing is as close to being an automatic as these Irishmen and their inspirational approach to the vicissitudes of rock and roll. They are at that enviable apogee where their material is given instant credence and the airplay to back it up. This might be a source of some discontent if the music or the attitude were somehow out of sync with the dream being projected, but in this instance there can be no doubt that U2 remain true to the vision that set them apart from the crowd so long ago. The reaction to this new offering is dramatic enough to spark a sensational 65-39\* move this week. A move that rides the tide of 32 new reporters including CHOM, WDIZ, WIOT, WBLM, WLLZ, KTYD, KISW, KSHE and WMMR. The ears out there are obviously very pleased with this choice as a follow up. "This has been my favorite "Rattle And Hum" job from the word "go", and with the edit makes perfect sense for our brand of AOR", according to WHJY's Chris Herrmann and his enthusiasm is no less seconded for the diversity of song selection being manifest by others. For instance, WAAF's Rick MacKenzie tells us, "On the new CD we decided to go with the more upbeat "Everlasting Love", and a total of a dozen stations have helped to debut that track at 95\* on the Hard Hundred this week. Some of the reporters on this solid second choice include KITS, WSHE, KTYD, WMMR, WAAF, and WLAV. Continuing interest in the project has also helped put the album on a serious 45-25\* rebound on the LP Chart.

**The Cult, "Sun King", Reprise....** Is it just our imagination or have The Cult fashioned what could be the Shake-N-Baker of the Summer here? From those lizard like bass lines to the freshly economic drum work, the bottom end of this outfit builds the perfect pedestal for those gyrating guitars and the vocal slash of Mr. Astbury. All in all, pretty impressive stuff and the sort of rock and roll that has the radio jumping out of dashboards from coast to coast. "Scorching music this week from The Cult. These guys have earned their place on my endless loop", so sez Steve Becker at KLCX and he should know, because when the sun starts hitting its stride in Oregon they begin prepping those virgins at a fierce rate. So far we track 88 stations on the tune with adds this week from 91X, WHCN, WLVQ, WDVE, KLPX, KTXQ, KMJX, WDRE, KROQ and WSHE leading the way. KSJO is already reporting top five phones on this baby and we spot high profile airplay at KLOL, KSHE, KISW, KLBj and WBAB among others. "The perfect song for Summer", says WRKU's Joe Paiano, "The Cult define the attitude of the season with this one"... That hale and hearty 42-31\* jump this week, keeps "Sun King" arcing in a manner that would do Phoebus proud.

**White Lion, "Little Fighter", Atlantic....** It has become obvious that these boys have more to offer than drop dead good looks and a savage taste for touring. The White Lion success story has been steadily fueled by savvy songwriting, strong playing and a sense of what works and what doesn't. Take the big win they had with "When The Children Cry", touching on a subject that many other hard rocking, tight pant outfits would have never touched. This time out the band puts their punch directly behind the Greenpeace movement. In fact, Mike Tramp has donated all of his revenues from the song to Greenpeace in a move that shows his commitment to be more than mere fashion. With 125 stations on this debut offering the increases are starting to stack up with KISS, WLZR, KMJX, WIXV, WCMF, WDVE and KFMZ among those upping the ante this go round. Big phones have always followed this band and this time out is no exception with KILo, WDHA, WYNF, WAQX, KOZZ, KUPD and WPLR all reporting huge listener reaction so far. The Lion lads are back on the road, this time with Ozzy and Vixen, and the shows will doubtless help to juice the awareness among your rock elite. Track that Hard Hundred hike of 28-21\* and get on board while there's still room.

**Bullet Boys, "Smooth Up In Ya", Warner Brothers....** Talk about touring MoFos! These guys are slamming the turnstiles from one side of the country to the other and the post-show reaction is always the same... more Bullet Boys if you please! For a track that is seeing the Hard Hundred for a second time, this pup is digging up some pretty juicy bones with new adds on KLOL, WYNF, WAPL, WLVQ, WAQY, WKLT and WIOT all joining the parade this week. From Gregg Stone down at KFMX, "The finale saw 7,000 screaming fans with all three bands on stage jamming", to green and groovy Bob Jeffries up North at KBOY, "The Bullet Boys delivered more adrenal intensity that the Hollywood Freeway on a Monday morning", it becomes clear that Bulletmania is a multi regional brushfire that simply won't be quenched. With 92 stations on line and a chart move of 39-33\*, this qualifies as one of the most effective combinations of promotional pressure and touring support that we have seen in the last six months. The Bunny Boys have been saying, "Give it a try", and the band has been driving home the point with shows that sprout insta-fans like MiracleGrow on that cabbage patch out back. Looks like a major cause for celebration for all concerned.

**Tora Tora, "Walkin' Shoes", A&M....** Having seen this band in their natural element, rocking the citizens of Memphis back on their collective heels, we can testify that Tora Tora is a band with a shining future. The energy and youth of these no-nonsense rockers cuts through the blur of any "babyband" image and shows them for what they are, a solid hard rock band with few pretensions about the star machine and some kick ass tracks to be damn proud of. Among the highlights of this, their debut on A&M, is "Walkin' Shoes" and, if AOR is any judge, the proof is in the pounding, "I can die a happy rocker", says Beth Kepple at WKLS, "We added Tora Tora this week"... As did a dozen other outlets including KOMP, WIYY, KTXQ, WEZX, KFMF and WGLF, bringing the station total to 68 and counting. "These guys sound as cranking live as they do on disc", according to KZLR's Malcolm Ryker who has been an early supporter of the group from their Glue Factory days. Good ears, Malcolm. The audience seems to recognize talent when they hear it also with top phone activity already being reported by KKEG, WEGR, KWHL and WIXV among others. When you're done saying "hello" to this finely crafted rocker, get beneath the skin of this album for some other treats like "Riverside Drive", "Guilty" and "Love's A Bitch" for a quick refresher course on why rock and roll remains the fountain of youth. Showing no signs of age this week, "Walkin' Shoes" powers up for a 55-48\* run on the Hard Hundred and with a series of dates being slated with KIX, there is bound to be even more pressure, from the street up, to give these mannered Memphis lads the shot they deserve.

**MORE HARD ACTS**

**Simple Minds, "Take A Step Back", A&M....** The far reaching epic scale of "This Is Your Land" didn't restrict itself as defined within the parameters of pop song success. With the rumblings of Lou Reed, Jim Kerr and his mates reminded everyone out there just how potent the song form is, and not just for dancin'. At the same time, nobody was playing "Singles Only" with the album. In fact, the interest in this album has been far ranging and spontaneous. The band continues to evoke one of the most potent sounds in your core library and this fresh approach can only add to that renown. So, if you're twitchin' for something slightly more nutritious for your add list, scratch that itch and get on the good foot. Hehhhmph! Moving a healthy 70-63\* on the Hard Hundred, and added this week at KFMF, KITS, KJJO, KKAZ, KRZQ, WAOR, WONE, WRCN and WXVX. Among those who are already in the Heavy airplay line-up are 91X, KACV, KLOS, KUKQ, WDRE and WVVV.

**Saraya, "Get U Ready", PolyGram....** This Spring has yielded more than this state's ample take of precip, for example, this little gem sprouted from the nooks of our humble populace like a cloudburst on a Saturday afternoon. What we have here friends is the brightest and arguably, the most honest rock served up from the boundaries of the Garden State this year. And now, you're saying, yeah, but where can I get more of the good stuff? Look no further seekers. Nope, this isn't an update of the Girl Scout motto, but Sandi couldn't be any better prepped herself. With her pout and delivery straight from operatic *fortissimos*, whattcha problem? In the raw department, nothin's closer to Grade A. Plus, KZLR's Malcolm Ryker comments, "Saraya's 'Get U Ready' couldn't have been a better follow-up. Here's a band that is rapidly establishing themselves with a very distinctive sound. When Sandi opens her mouth, there's no doubt you're rocking with Saraya."... The U gets the big A at almost 18 calls in its first sanctioned week, including KEZO, KILO, KUPD, KZEW, WEGR, WEZX, WHCN, WLLZ, WZZO and mucho others! Taking the HH with a Debut at 78\*.

**Diesel Park West, "When The Hoodoo Comes", EMI....** There are only a few records that make it across the Hard Cabin turntable more than a few times and this one has to be the reigning King in that regard. "Shakespeare Alabama" proves to be one of the most quality consistent and, yet varied, debuts yet of the calendar year. The tone of this record absolutely demands a thorough listen and nobody with ears on either side of their brain pan can deny that the result is wholly positive. The production is energetic but airy enough to maintain force of sound without the ham fisted "Turn it to 11, duude", mentality of some American producers who, frankly, should have their inner ear fused. Best of all, the melodic structure of these songs will strike a sympathetic nerve with those of us who developed our likes/dislikes during the Seventies. The ever-so-succinct Mike Thomas from WMDK offers, "I like Diesel Park West's 'Shakespeare Alabama' a lot. Something new and fresh from England."... On the HH at 85-76\* and new at KITS, KMOD, KRXQ, WBCN, WHTG joining over 30 others including KACV, KXRX, WHFS, WQFM and WZZO.

**Indigo Girls, "Closer To Fine", Epic....** That little reed solo during the bridge may just mistakenly label our little Athens duo as the latest in vogue psychedelic sports ware, but another examination of the lyrics reveals more than fashionable consciousness. They are perfectly at home with their faded blues, but it's not the acid that fades them to comfort. Yep, it's that well-trod path from club to club that has put a world wise tone into their original spunky gumption. And who can claim to have been with them step by step on their continuing sojourn. How about Mike Jones at KISW for one, "A retail explosion has forced our hand on a record I've been championing since day one -- Indigo Girls."... And from WIZN's Tom Van Sant, "We're seeing nothing short of an explosion here on the Indigo Girls - #1 requests and #2 sales! Just amazing."... You know it, sales are the grassroots support for any newborn act and where registers ring, airplay follows in step. Best of all, the national trend promises even greater reaping with the Hard Hundred tracking this song at 58-51\*. The total is over 50 now, with new play from KLPX, WKLT, WOUR, WRQK and requests at KXRX, WIZN, WMAD, WRDU and WROV.

**Concrete Blonde, "God Is A Bullet", I.R.S....** Bullets are apparently no stranger to this outfit, as the folks out west at that other I.R.S. (the good one) can testify. "Free" first scampered across desks several moons ago, and attention has gotten so hung up on the lead track that it's tough to think of the other nine tracks as equal entities. But don't put nasty lines on your face, they've matched themselves on this LP, (long player, little pup, same dif), with some truly impressive bits of playing. The longevity of "God" will effortlessly translate into real support for anything you pick, and until that critical second track is officially announced, follow your whims. We trust your judgment, after all, it's you who put Concrete Blonde into a broader gaze in the first place. Gaining steadily with 7 new stations, including KMJX, WIXV, WKGB, WKLS, WRCN, WRXK and WRXL, Heavy/Power play is already a fact of life at WPLR, KACV, KFMG, KRCK, WBLM, WHEB and many others ready to stand up and be numbered. 36-35\* are the figures on the Hard Hundred.

**Indio, "Hard Sun", A&M....** Vocal timbres not withstanding, you couldn't mistake this for just any old British debut. We'll just say that this could segue into "Your Eyes" or any first side selection from "Ghost In The Machine" and watch the top of your audience's collective head come off. Those daunting echoes are there in all the right spots, and this lad isn't operating on simple emulation. His experience is hard-earned, and he demonstrates his credibility by keeping his stance out of the formidable shadows of his predecessors. There's nothing at stake here but terrific music, handed out unashamedly without all the normal visual trappings that pop affords its figureheads. The red ribbon is not what this musician is after, it's the top of the pedestal rather, and we fully believe he's got the innards for the job. Pam Brooks from WPDH points out to those on the other end, "My current favorite, Indio's 'Hard Sun', is on. Gotta love it."... 77-66\* on the Hard Hundred, added at KLAQ, KLBK, WDHA, WBCN, WPLR and WRQK, and in Heavy at CHOM, KOTR, WGIR, WHTG, WMDK and WTPA.

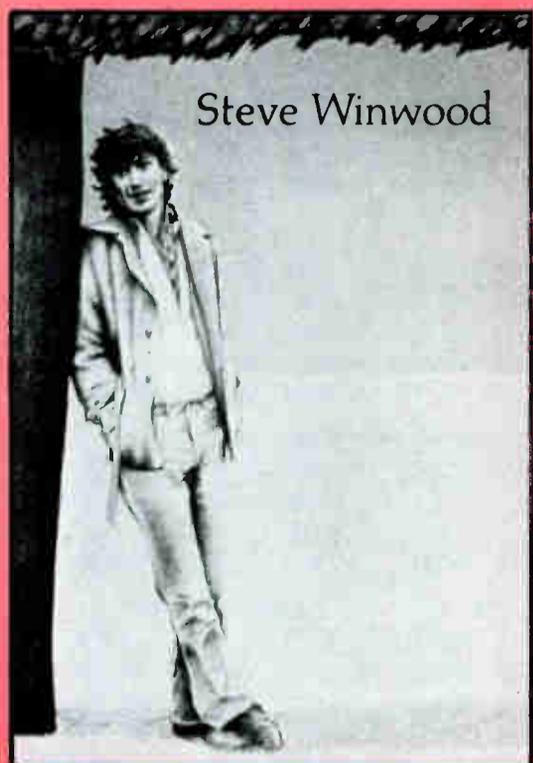

**Badlands, "Dreams In The Dark", Atlantic....** Metal radio has pronounced this super-stud debut to be good enough for #1, now what about you!? The video itself won't let you or your susceptible females forget the chestiness of Mr. Ray Gillen or the hair exquisiteness of Jake E. Lee, but enough of the hormonal extras. This is a band capitalizing on its musicianship and this combo is strong in all departments at that. This first single has been well-chosen, but just try "High Wire" and see what it does for your Ma Bell circuits. Chris Herrmann at WHJY knows his area code and his community, do you? "Another Add goes to Jake E. Lee and Badlands. I've been feeling the buzz on the street on this project for about two months now, and Bill and I feel this one's got it in the grooves with a sound that harkens back to the glory days of Bad Co/Zepplin mid-seventies rock."... No mere 911 job on your considering list, Dis is da real stuff. Clipping the station total at 50 with Adds from WAQY, WLLZ, WLVO and WRIK, and speaking of those smoldering phones, requests are being counted at KFMG, KILO, KNAC, KWHL and WAPL. On the Hard Hundred at 69-60\*.

**John Diesel, "Don't Need Love", Chrysalis....** Live performances are often the extra top spin that puts that new disc right inside the white line (for all you tennis boffos). And this time out it looks like these Perth lads have found the right sweet spot in the album racket. Polish off those puns and follow through with KPEZ's Elise Vander Borgh who interjects, "One thing I did want to mention, Johnny Diesel and The Injectors played live out at the beach and they were just as good there as they were in a nightclub. Give these guys from down under a chance, won't you?"... The Texas tour dates have been netting raves from many a programmer, including KISS' T-Bone, "I've seen these guys a couple of times already and I'd be glad to see 'em again. This one has all the right moves." Another guy named Bone couldn't agree more. "Lookin For Love" has already nabbed its exemplary share of MTV time and just may be on its way to higher proportions in weeks to come. New this week at KDJK, KKEG, KMJX, KWIC, KYYS, KZEW and WYBB, with play already at KEZE, KLLO, KPEZ, KSJO and WRXK. This second track debuts well into the Hard Hundred at 88\*.

**Chris Isaak, "Don't Make Me Dream About You", Reprise....** Even on the title track to this LP, Chris proves his voice is no accident of tone. He flexes those upper registers as surely as any over-trained aria athlete. But what goes behind that larynx is 180 degrees removed from any such theatrical pretensions. The man is 100% real talent and his date with destiny is undeniable. Chris also puts a consummate amount of soul (no matter how caucasian) into the inherent fiber of these compositions. So forget any poly-syllable words we may spew and tack this on to your next meeting agenda, bubba. WXRT's Lin Brehmer called in with some late comments on this very gentleman and, as usual, his radar is functioning like a champ, "Ever since we first put "Dancing" on the air some years ago, the consensus at WXRT has been that Chris Isaak is a 'can't miss' performer."... You bet. 81-74\* and moving fast on the Hard Hundred this track is getting support from KDJK, KSJO, KTCL, WROV, KFMU and dozens of others who know which end of this modern day crooner to squeeze for best results.

**Joe Jackson, "Down To London", A&M....** In the mental checklist of many in Hard Heaven, this is the song supreme on "Blaze Of Glory". Happy campers we to note that this song has been getting a healthy early-on reaction, it almost renews our faith in human kind. Members of the consumer press have likened the album to a very, very hip Broadway show. If so, then this is the tune they leave the aisles humming. In short, this is a pure joy for the senses, and anybody with a fully functioning nervous system would have to agree, as their knees start doing that old reflex metronome. Fast becoming a track with all the marrow to become one of Joe's all-time great tunes, this stellar offering has so many solid moves that the resultant airplay is just a listen away in that next music meet. Nimble he's leapt back into our "Must Play" stack and the Summer soundtrack wouldn't be the same without an instant classic of this stature. Debuting on the Hard Hundred at 86\*, new at 91X, KBCO, KZOQ, WHFS, WOXY and WZXL and already on at KFMH, WIZN, KXRX and lots more.

**CHRYSALIS AND CEMA INK DEAL**

It has been discussed for weeks now, but the word is official and Chrysalis announces their new manufacturing and distribution deal with CEMA. In announcing the arrangement, Joe Keiner of Chrysalis told NOISE, "We are delighted to become part of the CEMA family much earlier than anticipated. We are joining forces at a time of exciting changes and terrific revitalization

within both our companies." On the other side of the fence we have CEMA President Russ Bach telling us, "We have been making significant changes within CEMA over the last four months and the addition of a label of Chrysalis' status and roster is another step forward." The deal follows the worldwide joint venture agreement between the Chrysalis Group and EMI Music Worldwide that made big news on the financial pages earlier this year. We also received this headshot of new AOR/Video Promotion Director Steve Schnur. Nice tie Steve.

**LASHER LEANS ON AOR**

As the SBK organization continues to build we get the official notice of Neil Lasher joining as Director of National Album Promotion for the label. Aside from Neil's many years with Chrysalis, he has also notched duty with Polydor, EMI and Elektra and radio stations WIOT, WIQB and WKLC. As Neil told us, "Coming to work at SBK with Daniel Glass and Charles Koppelman fulfills a life-long dream. Getting in on the ground floor of a great company like SBK is a once in a lifetime opportunity." In the meantime, long tenured LA record guy Rock Allen Dibble joins for that local position in what is sizing up to be a major field staff.

**CAPITOL ELEVATIONS**

In the continuing changes over at the Tower we get official word of a new National Director of Album promotion to replace Ritch Bloom.

Jeff Shane moves West after two years spent on the surf and turf circuit in Miami. Prior to that, Jeff had spent nine years with CBS Records. In making the official announcement, John Fagot told us, "Jeff has earned this promotion through years of exemplary service as a local promotion manager. His attention to detail and obsessive pursuit of an add will serve him well in the album radio arena. Now Jeff, go out and get me some adds." John then closed the discussion by ripping the head off a small mammal and feeding it to his pet python.

**ARISTA GETS BERGER**

News breaks this week that former Island honcho Bill Berger has replaced Don Jenner as Executive VP/GM at Arista. Berger brings a solid rep as one of the more creative individuals at the top of the record biz pyramid and he will be responsible for all areas of label operations including Promotion, Creative, Artist Development, Sales and Publicity. No doubt his arrival will continue the strong profile of the house that Clive built well into the next decade. No word on candidates for his replacement on Chris Blackwell's Island team.

**ENIGMA-FICATION**

The Promotion division at Enigma takes new form this week with some additional bodies signing on. Mark Diller joins from TVT Records for the East Coast Director/National Rock Promotion chair while Ron Cerrito exits Billboard for the Modern Rock job and Claire West will handle AC-Jazz-Urban following her departure from Burns Media. With Sam Kaiser busy building his new organization, the newly juiced Enigma is starting to look like a serious player in more ways than one. Rumors continue to fly that Jon Kirksey will be handling the VP/Rock post and talk of a very aggressive A&R Department continues to fill the pipeline.

**A&M A&R**

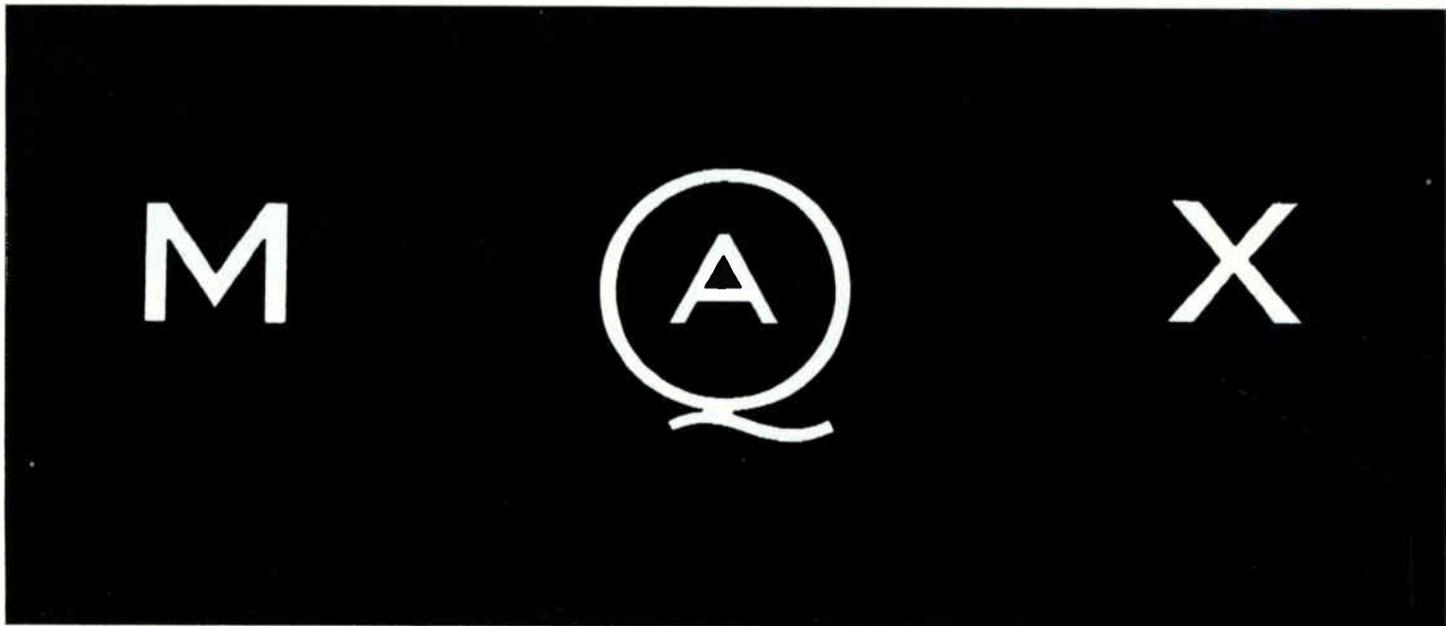

Some new faces in the halls of sounds over at A&M. On the East coast Julie Panebianco joins the team while Mark Mazetti signs on for similar duties out West. Mazetti has been in the field promoting records for the last five years and Julie comes over from the Warner

Brothers organization. In making the announcement, Senior VP of A&R Steve Raibovsky told us, "Each of these people brings unique talents and significant experience to our A&R team."

**STEREO COMPARATIVE COVER ART 101**

The world of product development continues to evolve into new vistas of expression. Late nights are spent by tireless creative dynamos to come up with just the right visual ambience to represent their artists to the world at large. But every once in a while, the wheels grind exceedingly small. Take for instance the big move towards packaging serious female vocalists in natural blue settings that simply reek of wholesomeness, right down to the ripened fields of grain and glasses of milk. Future civilizations could judge us by this sort of stuff ya'know.

**JUNE IS SAFE GARDENING MONTH**

Word is circulating about the hapless Milwaukee guy who was working under his ride around lawn mower when the beast fell off the blocks and severed his manhood in a freak accident. Grown men from coast to coast have been known to faint at the mere mention of this story, so read on at your own risk, 'cause it gets better. After a four man plastic surgeon team worked nine hours to repair the damage a crucial question had to be resolved; where to put the detached member until such time as the operation to rejoin the joint could be effected. What was needed was a splice job that would permit enough blood flow to keep the tissue alive. As a result the surgeons decided to attach the unit to the patient's arm in the interim. In fact, we heard on the WMMR/Philadelphia morning show that this new surgical procedure has been labeled an "Adadictome", or to the layman, an "Elbow Job". And what if they make a mistake on his follow up operation and re-attach his arm to that crucial lap flap instead of his severed snake of love?. Too weird, gotta go, so hey bro, gimme six..

**SPIN BUY-OUT**

Stephen Swid, the "S" in SBK Entertainment, has purchased a sizable chunk of SPIN Magazine following long negotiations and a transfer of some \$4 Million. The mag has been in existence for four years and has posted remarkable growth during that time. Under the new agreement, Swid becomes the Chairman of SPIN with founder Bob Guccione Jr. continuing in his role as Editor & Publisher.

← Stephen Swid and Bob Guccione Jr. seal a deal.

**THE MEMPHIS SURPRISE ATTACK**

It was one of those rare occasions when the hype is outdistanced by the facts. Yes, Memphis is the jewel of the Mid-South. Yep, ribs at the Rendezvous are a near religious experience. And, boy howdy, is this band Tora Tora about to blast the Western world into submission with their 50mm rock and roll attack. The weekend was aptly organized by A&M's crack hit squad and the end result was one of the most enjoyable times I have had in recent recollection. The delightful hospitality displayed by the local populace was refreshing for a kid from Jersey. But, more importantly, we did some serious research following the theme, "In a town where they serve drinks on the street, how drunk do you have to be to get thrown out of a bar?" The answer to that little tidbit and more can be had for the price of some FedExed ribs from the Rendezvous. The actual reason for the trip was the opportunity to witness the return home of Tora Tora after some grueling time on the road. A finer group of lads couldn't be imagined. In fact, "nice" comes off a bit weak when dealing with these Memphis dudes. The rapport they engendered with the homeboys in that stately Southern crowd was infectious to the tenth power and now I know why guys like Howie Castle refuse to leave the city. Among those in attendance were KKEG's Ginger MacKenzie, KATT's Scott Douglass, Z-Rock's Pat Dawsey, Drake and Kelly from WEGR and the presiding spirit of KZLR's Malcolm Ryker, a long time believer in the band. There were a host of print hounds from Metal Edge, Hit Parader, Creem Metal and Rockshots doing their best literati stuff and the video side of things was well represented by folks from Night Tracks and Hitvideo USA. As usual, the A&M team kept us all amused and well fed. J.B. Brenner and his gang must know every great bar and restaurant in America by now and we certainly got our taste down in Memphis. As for the city itself, thanks go out to both Sally and Daye of Ardent Studios for showing me how things work down South, and to the Management of the band for making us all part of the action. Now that we are back in front of the word processors for another week, a couple of things are crystal clear... 1) Tora Tora is going to kick butt out there on the tour trail... and 2) Memphis is getting a big chunk of my vacation budget for next year.

**APACHE SUN SETS**

After less than two years from the inception of the Apache label, both Burt Stein and David Malloy have opted to depart the company for new horizons. Malloy will return to independent production from whence he came and Burt is joining DeMann Entertainment in a managerial position. Look for more on this in the coming weeks.

↑ A slug of Northwest radio types shown here during the Bullet Boys sweep of Portland. With WB's Greg Dorfman and Kenny Puvogel are Bob Jeffries/KBOY, Launi Ray/KZEL, Steve Becker/KLCX, Bill Prescott/KGON and Al Scott/KZEL

↑ WKLS/Atlanta shown presenting a check to the winners of their 2nd Annual Rock Off. The band is called Panda and they are currently doing time for actually trying to cash this big hunk of cardboard.

**SPECIAL REPORTING  
NOTE:**

On the week of July 4th The Hard Report will be closed for reports on both Monday and Tuesday.

Fax Reports will be accepted on both days at (609) 654-6852 and we will be open for phone reports on Wednesday until 3pm.

For those of you with your reports ready ahead of time, we will be accepting calls on Friday, June 30th.

**THE RADIO RUMBLE**

WLLZ/Detroit rubs my nose in it bigtime with their on-air celebrations surrounding the Pistons larger than life sweep of the Lakers. Forward John Salley hit the studio for some high points during the Pistons arduous campaign for the gold. Salley then toasted his team mates with buckets of bubbly and slam dunked the empties. As for the LA crowd, John said, "They were great but when I saw Norm Pattiz sitting at courtside I knew we couldn't lose."

↑ Having some fun now. The Hard Report sofa of shame groaning beneath the Scandinavian poundage of the Stage Dolls, Chrysalis Promo Maven Laura Kuntz and our own Beth Renaud, Dawn Hood and Mike Marrone. Talk about tall! These guys looked like the end result of genetic research when they stood up.

WRKI/Danbury PD Ray Graham has been moved to the position of Program Administrator at the station. Ray continues to be involved but this means that the station is shifting into high gear their search for a new PD.

WPXC/Cape Cod MD David Tyler is exiting on the hunt for new horizons. David departs as of the 29th and leaves an opening yet to be filled. OM Brad Martin will handle music duties in the interim while looking for someone to keep the music community in line while holding down an airshift. Get that T&R in gear, young hopeful.

WMDK/Peterborough got two of their staff members on the list of nominees for Billboard's Radio Awards this year. Janice Bailey was nominated in the category of PD of the Year, while Mike Thomas was nominated in the MD category. Both Bailey and Thomas were among fifteen Modern Rock programmers chosen for consideration this year.

↑ KBCO/Boulder enjoying the sunny weather in this shot as Chrysalis' Geina Horton and Midge Ure share a bench with Doug Clifton.

KZEW/Dallas has reportedly secured a new PD to replace Dale Kelly. Nothing official at deadline but we anticipate a new player up from the secondaries ready to notch his stripes with the big boys in D-Town.

WYBR/Springfield checks into the Hard Hotel as a new reporter and we are damn happy to have them on the scene. Welcome to the Hard Cabin gang, and don't try to steal the towels.

KOFY/San Francisco gets back in the news this week. We hear that Philly based Ragan Henry, (buyer of WONE last week), is still acquisition hungry and that the embattled SF signal could be next on his hit list. The company already owns KDIA/Oakland and would like to pair up with a solid FM signal in the market. But what of the continuing legal hassles between current owner Jim Gabbert and the incensed Coalition To Save The City?

⇒ KDGE/Dallas continues to staff up this week with the news that Naylor and King have been signed to handle mornings at the new Edge outlet. Wendy Naylor joins from KDKB/Phoenix and will be holding down the anchor position on the show with Roger King. Roger is an accomplished writer and has suffered through the hell of stand-up comedy prior to joining the staff. Like Wendy, Roger is a transplant from Phoenix, most recently from Y-95.

WRXR/Augusta is in search of a top notch afternoon rocker for their team. Interested players should send their best to PD Mike O'Connor at WRXR, 753 Broad Street, 14th Floor, Augusta, GA 30901.

WDRE/Long Island has gotten some pretty hefty part time talent lined up with news that Columbia's VP/Artist Development hisself Kid Leo has joined for sporadic weekend airshifts. Looks like Kid couldn't resist the impulse to drop in for a cameo here and there, dusting off those pipes for a radio reality check.

KXBR/Springfield has been making significant headway with their CHR-AOR hybrid under the steering influence of Greg Thomas. Greg has transferred from sister station KKBR/Albuquerque and has been with Divine Communications for the last two years. "Reaction to the format has been very good so far and we are seeing the sort of results that were hoped for. What this format does best is maintain your AOR base while splicing on some previously unavailable female demos. The combination is very dynamic." As for the new team, Greg's MD is Bill Clay. Also, the station is being handled by Devine Group PD John Edwards from his base at KBER/Salt Lake City.

KCQR/Santa Barbara PD Willobee resigned this week following some philo-diffs with management. While the station looks for a new PD, Willobee is entertaining offers and working on his tan. You can reach him at (805) 687-7536. Back in the office, MD Rick Williams will hold down the fort until a replacement is found.

↑ WNEW/New York shown backstage at the China Club following the recent Billy Squier showcase in Gotham.

↑ 91X/San Diego grabbed the Who show in their town and turned it into a promotional tour de force. Listeners lined up for their chance to win a secured place in line for when tickets went on sale the next day. Here we see the locals warming their butts on some asphalt waiting for the good news.

KNCN/Corpus Christi reports that their morning guy is history burgers and that leaves our bowling buddy Tim Parker looking for a new wake-up talent right away. Interested candidates should overnight their package to him at KNCN, 5544 Leopard, Corpus Christi, TX 78408-2321.

KCAL/San Bernardino has nabbed the PD of their dreams with word that Rick Shaw is in the building and getting things in line. Rick signs on after a stint at KNX/Los Angeles as MD and he should make a solid run at the market in near record time. No word about any other staff revolutions or changes in musical direction at this time.

← KATS/Yakima former MD Ron O'Brian and APD Darren Johnson shown during a recent promotion where listeners were given a chance at winning a Chrysler LeBaron. Here we see the local law taking umbrage at the duo's attempts to draw attention to their promotion by driving said car through a crowd of pedestrians. Some people just have no sense of humor.

KISS/San Antonio PD Ken Anthony called to trumpet the news that his station is back on the upswing. Recent trends show KISS gaining momentum in the Rock Wars down Tejas way. "We are back to playing rock and roll here again and that has always been what made KISS a great radio station", Ken told us, "When I got here they were reading liners like *More CSNY Than Anybody Else*, now it's more like *When You Want The Scorpions You Want KISS*."

KRQR/San Francisco has been deluged with MD wanna-be's but we hear that the job will be decided shortly with no "big name" candidates getting the nod. In fact, look for interim MD Lorraine Meier to get the post based on a good grasp of the local music scene and some heads up play for Chris and his team by the Bay.

WFYV/Jacksonville named John Leard their new MD this week following a long look for a set of ears. John is also taking care of the 7-12 midnight duties at the station and he will be taking your music calls on Thursday. You can reach John from 3-5:30pm.

WPDH/Poughkeepsie is justly proud of their inclusion in the Billboard Award process this year, which has them listed as one of the Best Station nominees. This comes on the heels Pam Brooks winning a Billboard Award last year for her work as a personality. Looks like those Hudson Valley maulers know their stuff.

↑ WBCN/Boston and members of Tom Tom Club during their concert stop in Boston.

WGCX/Biloxi reports new music hours to the industry at large. Contact MD Lori Dubose on Thursday from 9:30-11:30 with your projects. Adds will be ready as of Tuesday at 12:00 noon. The Hard Report is also happy to welcome WGCX to our family of reporting stations this week.

WKXL/Concord needs part time help and you look like the sort of guy or gal that they have in mind. If you're in the area and you'd like some studio time get your T&R to Renee Blake, WKXL, PO Box 875, Concord, NH 03302-0875.

KBOY/Medford is ready to leap into the Fax Age with a new number for correspondents. Get to them on the wire at (503) 772-6282 and say hello for us.

**JULIAN HITS  
THE HIGHWAY**

a mini interview

We had a chance to chat up Julian Lennon the other day on the eve of his impending worldwide tour. Coming fast on the heels of his first two singles in the States, Jules is priming the pump for some major board thumping from coast to coast. But first, it's off to Europe for a tune up on the warm weather outdoor festival circuit. Seems those happy hunzas in Germany love nothing more than to slop down beer and holler "Ja!" at those big outdoor shows. So with his bags packed and the band all fired up, Julian gave us a call.

**JT:** Last time we spoke you were getting ready for a tour of small clubs to be followed by larger venues. Which one are you about to launch this time?

**Julian:** Actually, it's a mixture of the two. In some towns we will be hitting the smaller clubs and then return for shows in a big hall, so it's all a bit confusing. First thing is to travel to Europe for a series of outdoor shows. They really like outdoor shows in Germany and we will be spending some time there figuring out our song list and the like before coming back to America.

**JT:** Has it been difficult to put a band together?

**Julian:** Not really. Three of the musicians have been with me through the whole last album so we have a good feel for each other. I must say that I am a little apprehensive if only because it has been a couple of years since I was last on the road. It's really quite a decision figuring out what to include in the sets and it feels a bit awkward in a sense. I think I will definitely find out who my fans are this time around.

**JT:** Piece of cake. When do you hit America on this tour sweep?

**Julian:** We will be in America on July 9th and then it's off to Canada for a few dates. We kick off the American leg in earnest on July 25th at the Beacon in New York. Then we will just waltz our way across America and on to the Orient and Australia. I plan on staying out on the road just as long as I can.

**JT:** The first single really ripped 'em up but the second one has had a hard time of it against all the superstar traffic out there right now. It has to be frustrating.

**Julian:** You've got that right. Especially so because I believe in this album more than anything else I have ever done before. But there is a lot of competition out there right now. "You're The One" is still the one for me.

**JT:** Video can be the key. In fact, I was talking to a manager the other day and he told me that his rule of thumb when negotiating with a label was, "Look, if you aren't going to support this band with a strong video push, don't bother to sign them in the first place".

**Julian:** We are waiting to open the door on our next video push and you are right about video making the difference. The shoot is a live performance and it ties into the tour very well. I think it's the best video I have ever done because it really captures the individual personalities of the band. I wanted to show people that this tour will be more than a bunch of faceless musicians backing up the legendary traveling rock star package. These are some of the finest musicians I know and it's a point of pride to be sharing the stage with them. This tour will be much more than me and my piano, although there will be plenty of that as well.

Look for the tour to hit and stick through the Summer haze of the concert season. If you can draw conclusions from such indicators, it might be interesting to note that the biggest single ticket item at the recent KLOL Rock and Roll Auction was Julian's guitar. Frenzied fans bid the six string up to a hefty \$10,000 before someone could call it their own. If that sort of interest translates into ticket sales and more retail growth, the airplay end of the equation is bound to expand as well. Our money is on Julian finishing ahead of the competition by a platinum nose.

**A Tree Grows In Leningrad**

If an aspiring American rock musician was a contestant on Jeopardy, and the answer was "The Big Red Machine", most would know the correct question to be "Baseball's Cincinnati Reds of the mid-Seventies". But if that same situation occurred with an aspiring Russian rock musician, he or she would be just as correct in naming "Melodiya".

As Russia's only official record company they have complete control. They release what they want, when they want, and however they want! That fact in itself is as difficult for us to comprehend, as our National Pastime surely must be to the Russians. But a funny thing happened on the way to the Monopoly board. In a manner not unlike our cultural explosion of The Sixties, a very real rock and roll scene started taking root on Soviet soil. Using everything from homemade cassettes to flexi-disks pressed on discarded X-Rays, the youth of Russia spread the glory of the music.

For the last decade, the most celebrated passenger on this underground railway of sound has been Boris Grebenshikov. Together with his group Aquarium, they used this method to such a staggering degree of success that their tapes could be found in all eleven of Russia's time zones. But don't get the impression that anyone was getting rich. As practitioners of an "un-official" activity, Aquarium operated even further underground then water pipe salesmen in 1966 Middle America. It wasn't until tapes of a few of their many homemade "albums" were smuggled out of the country, and "Red Wave: Four From The U.S.S.R" gained release in the West in 1987, that Melodiya was forced to deal with Boris Grebenshikov. They hastily assembled an eponymous album using songs from "Children Of December" and "Day Of Silver", and issued it to the tune of 200,000 copies sold in hours. Boris wasn't allowed to remix, re-record or add anything to these by now old tapes, and received a paltry 8,000 rubles as compensation.

So now that Boris finds himself in possession of a major recording deal here in the Land Of The Free, you'd figure artistic freedom would be a new adventure. But that's not really the case at all. "Artistic freedom we always had from the beginning, and we still have it in Russia. Because we were never tied up with any official organization at all, I pretty much went my own way. Here I had to deal with marketing and all that nonsense, while over there they just took the tapes we had made on our own". Even though the last album has sold in excess of three million copies in his homeland, Boris confesses, "I still can't get a copy, they're sold out all the time!". There are no special favors granted for rock royalty back home, and Boris gets all of the headaches of stardom, without any of the perks. "Being a rock star means you're being hounded by the people all the time. You don't have any time of your own, although the press is slightly less insistent than here. I mean I can turn them down and they won't come, here they'll come anyway!"

The man who inspires his fans to such a degree that they bring him flowers on the street, was living the life of a squatter. Virtually penniless, "The royalty rate is at least 400% less". But he prefers not to dwell on the negative aspect of counter culture celebrity. "There are a lot of positive sides. I was doing the things I always wanted to do, with no inhibitions and on my own terms". About his step into the Global spotlight Boris explains, "Here I will concentrate more on the Pop side of my music".

The transition to the world stage has been a welcome challenge. Boris is able to work in a more acoustic setting on home turf, but with Dave Stewart at the helm of his Columbia Records debut, he had to explore uncharted territory. "Working with Dave means that Dave tends to think about how it will sound on the radio. These are areas I never thought of before. So I had limitations of strict rhythm and the sort of 'Pop' appeal of the songs. But I like it, be-

**"Things are definitely changing. Two years ago it would have been unthinkable for a group such as ours to be doing large concerts, or to be playing at all officially".**

*cause all the music I've been listening to for the last twenty five years of my life was made in exactly the same way".*

Boris and Dave met through a mutual acquaintance in L.A., and Boris relates, "In five minutes we saw something in each other, a mutual understanding". Familiar with Dave's Eurythmics work, "I consider them one of the best ever!", he was somewhat awestruck to have Annie Lennox singing on the album. "I was shaking inside, their music has always struck me as spiritual and what she communicates to me is very vital". Although "Sweet Dreams" was the first exposure of The Eurythmics in the States, anyone familiar with their first album, "In The Garden", understands that their music does bear near Celtic roots. Another of Boris' favorite females, Chrissie Hynde, put in a guest shot on the record, as well as noted percussionist Ray Cooper.

Sitting in a conference room in New York, Boris confirms that Glasnost and Perestroika are not the pop propaganda that some have suspected, "Things are definitely changing. Two years ago it would have been unthinkable for a group such as ours to be doing large concerts, or to be playing at all officially". On the ability to come to this country to record and perform he states emphatically, "That was totally unheard of, and I couldn't believe it myself!". Would this new found freedom of choice encourage him to take up permanent residence outside of his Leningrad home? "No, I don't need to. Right now I am spending more time here than in Russia". With the impending release of his American debut, it's only natural that Mr. Grebenshikov would be excited, but Boris is even more interested in the future, "I'm excited about the possibility of recording a new one!". That is not such an uncommon statement, by the time the

general population gets to hear an artist's work it has been well lived in. "You see this was done in September and we remixed it slightly in February. All the songs are old for me, so I'm thinking about the next one".

Boris will be taking to the U.S. stages for a tour in late Summer, after a brief visit to Europe. He will only include Sasha, the bass player from Aquarium in his touring band. "I want to keep what we're doing in Russia separate from what I do here. I don't think our style would translate well, I don't want to export it because it would seem kind of silly. An exotic thing, like musicians from India. It's a challenge for me to play something new". Boris is busy auditioning the remaining members, and Dave Stewart is too wrapped up in the new Eurythmic record to be a permanent member of the road gang. But Boris hints, "Maybe he'll be able to fly in for some of the bigger shows, I love playing with him".

After more than twenty years of searching for rock records in, "Open air markets and shops the police would raid every two hours", you can't help but wonder what tops Boris' shopping list in this country's tuneful toy stores. "This very morning I bought Family's first album 'Music In A Dolls House', I never heard it but have been told wonderful things about it. I also bought a George Harrison compilation that I never heard about, and a rare Hollies compilation". As for his current favorites, "I like REM a lot. They are not just an endless repetition of everything that was re-cycled before. They're taking all the same licks, but with their own approach. I think they're great! I also like The Cocteau Twins, they have exactly the same degree of weirdness that a long time standing Tolkien fan like me could appreciate".

"Radio Silence" is ready to hit Air America with the only explosion necessary for better global understanding--- Rock and Roll. One listen to the power and beauty of the album will reveal that "The Big Red Machine" of CBS, has a name that belongs in every line-up. Boris Grebenshikov deserves our help in his jump to major league media attention, and his extraordinary talent is sure to stand out in the box score!

**Syd Straw "Surprise" (Virgin)**

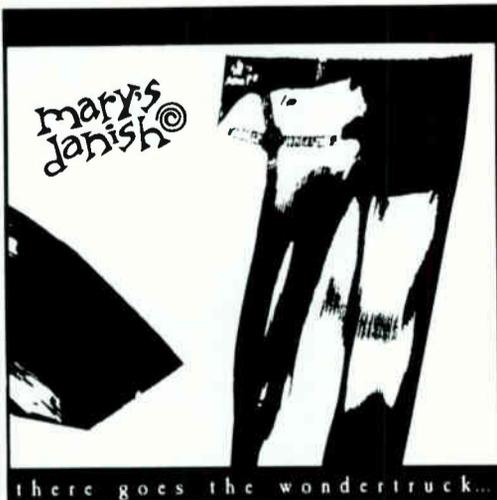

Anyone familiar with her work knows she was among the most stunning of the Golden Palominos. Syd was the one who piped out a breathy whine that tugged at your heartstrings and floated above the low, smooth guitar tones strummed during the "Visions" and "Blast" era. Now she's solo and surrounded by a Who's Who of

avant-garde musicians, pouring every ounce of creativity and ambition into her debut album. The vocal tones she delivers are awe-inspiring, each note softly directed with purpose and emotion. Her dynamic presentation knows no boundaries when it comes to shaping the moods and melodies that form the visions on "Surprise". Just when you hear country twang the electric guitars kick in, and when you turn your attention to the rockin' tempo, she follows it up with ballads that turn a goosebumps into welts. Syd Straw attacks her songs with serious precision, shifting into carefree vocal patterns, and a flighty, soaring pitch that's bittersweet and captivating. There is no voice on earth like hers, and this album establishes what will be a long and promising career. What separates this songstress from the pack is the sound of honesty, one that escapes the tight, nervous control that suffocates purity in return for commercial gain. Dave Alvin, Marshall Crenshaw, Ry Cooder, Richard Thompson, John Doe, Don Was, Van Dyke Parks and Daniel Lanois help sculpt 40-plus minutes of brilliant guitar and keyboards into a swirling backdrop, and Straw lets her magical lyrics do the rest. "Future 40's" with Michael Stipe is the first single, and a fine display of rolling acoustic/electric sounds sets the pace; and for more roar it's "Racing To The Ruins" that does the trick. The comforting melody of "Heart Of Darkness" grows bigger than life and the co-writer of "Sphinx", Peter Blegvad, should be shaking in his boots at the outcome of this witty tune. "Crazy American" is the last rhythmic interlude, and then it's the misty glow of the ballads "Chasing Vapor Trails", "Golden Dreams" and "Almost Magic" that mesmerize with no mercy. I saw Syd on stage last night. She brought the room to its knees with a voice that takes on an entirely new quality live. The Dave Alvin duet was just a part of this miracle, that also included her ambitious version of Peter Holsapple's "Think Too Hard", the first song on the album. Not one radio programmer showed and I'm still wondering why.

**B-52's "Cosmic Thing" (Reprise)** In case you suspected that the B 52's were fizzled out and forgotten about, "Cosmic Thing" settles like magic dust and puts sizzle into the summer that *could have* been a dry one musically speaking. The new wave quirk that saturated the grooves in their hey day still drives the new fangled melodies from busy B's Kate, Cindy, Fred, Keith and new bass player Sara Lee. The music see-saws back and forth in time, recalling memories of the "Rock Lobster", "Private Idaho" days while surging ahead to the new, lush pop themes that prevail on "Cosmic Thing". They're still zany, but the B-52's can hammer out beat-pulsing songs that make you vibrate right along with the crowd. The reaction of commercial/alternative radio to the "Channel Z" and "Cosmic Thing" singles so far, proves that the audience is still alive and ready for more from this spacy quartet. The bustling song line-up boasts a ton of play potential and lighthearted enjoyment reborn with in lively momentum of "Bush Fire", "Love Shack", "Roam" and "Dead Beat Club". The B-52's are definitely back and ready to hit the road. It's been a long time since the Beehive bliss has brought its studio wizardry to the stage, but we're ready and waiting.

**ALL** makes its way onto the airwaves again with the greatest tune the band has ever devised, "She's My Ex", from the new album, "Allroy's Revenge" on Cruz Records. The Descendents connection is finally behind them, a selling point in the beginning, but now All is ready to rock you with crunching bar chords and galloping percussion that carries these pop core tunes right to the center of your brain.

"Allroy's's Revenge" packs enough bounce and direct guitar-powered aim that's just too good to pass up. Album highlights include "Scary Sad", "No Traffic", "Mary" and "Copping Z". It's easy to hear their speedy beginnings completely reinterpreted on this fine disc, but now the music takes on a confident edge that's in your face from start to finish. See them live at CBGB's on Tuesday, July 18th during NMS if you can. Cruz Records is your connection: P.O. Box 7756, Long Beach, CA 90807.... "Can U Dig It?", Pop Will Eat Itself's new single, is finally available domestically via RCA Records. The

techno-dance energy spilled forth by this grebo gang is about to be lapped up by progressive dance clubs in a furious sweep. There's something about the attitude of Pop that just slaps you in the back of the head and wakes you up to its blistering energy. Computer programming aside, you can't deny this pleaser the shot it deserves, because those guitars really come in for the kill. WNHU, KUKQ, KUNV, WRVU, KCPR, WBNY, WFIT, WFNX and WWVU dig it now. The song is taken from the album "This Is The Day... This Is The Hour... This Is This!". Go ahead and make my day.... It's time to *fez* up. The Hard Report staff has been scrambling to get the coolest **They Might Be Giants** promo hats for its very own. They come in a vast array of psychedelic patterns and that cone shape just rocks our world. Of course there's a musical purpose behind the madness, the new single "Purple Toupee". Bar None has also sent it out on 8-track tape and that's one cartridge that I'm having difficulty putting an ear to. a back-up just in case.) You can always go back to the album and serve up the next Giants masterpiece. Soon they'll be an Elektra Records band so make sure you can say "I supported 'em when they were indie kings".... Hoodoo you do? The Hoodoo Gurus are back with a new 12" and new label to back it up. RCA Records releases three songs from the upcoming album "Magnum Cum Louder" this week. Get ready to be blown away by the newly-charged sounds of Australia's finest. When they play it's easy to fall victim to the experience and not regret one moment of it. The grinding groove of "Hallucination" and stadium keyboard dubs on "Where's That Hit" spice up the B-side of what will be their breakthrough single on the front, "Come Anytime". That sweet sounding melody and ringing chorus is back and better than ever, and by now, the Hoodoo Gurus need no introduction to the format that catapulted them into the alternative spotlight.... A crafty move on the part of Capitol Records brings New Model Army back into proper focus, on the new EP featuring "I Love The World". This track was our original rave off the "Thunder And Consolation" album, a record that on a grand scale was swept under the carpet with neglect. Wots up? This is their most spectacular record to date and will stop you dead in your tracks, especially if you've never been an Army fan. Since the band has seen its share of difficulty in getting permission to tour the states (apparently it's finally going to happen this year), the new 12" also includes live versions of "My Country", "Betcha" and flashbacks "51st State" and "White Coasts". This is a great audience buzzer since we hope to be witnessing this band live very soon.... Ed's

Redeeming Qualities are another prize find from Boston's vibrant music scene. This four-piece folk inspired group were voted Best Folk Band in a Boston Phoenix Readers' Poll last year and named Outstanding New Local Act at the Boston Music Awards. Their warm violin and ukulele flavor gives you an instant grimace, and now that the four-song 45 has surfaced on Aurora Records, hopefully Ed's will settle into place across this big land of ours. They have already become a fixture on the northeast club circuit, and songs like "Lawn Dart" are just an example of their sick, shifty humor that sort of grows on you like a fungus. Meet Ed and his Redeeming Qualities soon by contacting Aurora Records, P.O. Box 2596, Jamaica Plain, MA 02130 (617-424-7227). They'll leave the light on for ya.... The Pixies are back in the States and we couldn't be happier to tell you about their upcoming tour: 7/22 Seattle; 7/24 San Francisco; 7/26 San Diego; 7/30 Boston; 8/4 New York City; 8/5 Philadelphia; 8/6 D.C.; 8/8 Cleveland; 8/10 Chicago and 8/11 Minneapolis. Plan early and play the new single "Here Comes Your Man" on Elektra Records.... Whoa! That Arista Records label on the Box Car single, "Free Mason", is no mirage. Arista has lifted the band from Nettwerk Records for mega-distribution in the States. It's

no secret that Box Car is heavily influenced by New Order and it's also no secret that the 15-25 audience flocks out in droves for the stuff. (A hot, sweaty evening at the Downtown Club in Manhattan last night for the Moev/Xymox show refreshed by memory in a flash.) The new 12" contains three new/unreleased mixes of "Free Mason (You Broke The Promise)" and we'll be scoping out a Top 40 crossover on the project. Count yourself in and finish the good work that made this band visible to the majors.... Too Much Joy will have another chapter to add to the stupendous song (*I could write a book about*) "My Past Lives", because a legal representative contacted the band just the other day. Yes, Bozo's attorney's threatened to sue Alias Records artists Too Much Joy because of the digitally sampled Bozo introduction in one of the songs. Sound death-defyin'? We'll see how events shape up, but why not show a little support for the band before they undergo a pounding of the gavel. Now we know why Bozo is smiling - and Too Much Joy seems to have a good outlook as well. Their album "Son Of Sam I Am" is a superior piece of work as we testified on these pages just mere months ago. If you still haven't been privy to their unique pop sounds, contact Alias Records at 374 Brannan Street, San Francisco, CA 94107.... Soundgarden is cutting the European tour short and will return home to commit more fashion offenses is their hometown of Seattle. Evidently, a fan was reprimanded on the streets of London from Mr. Policeman for sporting a "Total Fucking Godhead" tee shirt, and what a beauty it is. They can't help it if it's true. Are you aware of the CD single on A&M Records, "Get On The Snake" from the "Lost Angels" soundtrack? If you play Jane's Addiction look no further.... **Chartspeak:** We're delighted to see a 24\* for the Royal Crescent Mob this week, with the album "Spin The World". The Sire Records debut cranks with the best material yet from Ohio's finest funk rock machine and may we suggest going back for more action on "Nanana"? "Hungry" is hot and still an emphasis track on WHTG, KACV, KCRS, WBRU, WDRE, WHFS, WWVU, with album mentions from KOTR, KRCK, WRER, WBNY, WCDB, WFIT, WKXL, WMDK, WOXY, WRAS, WRVU, WTSR, WXCI and more. WBNY's Gina Galli reports, "They're doing great at #3 and response and retail is better than expected." Kim Saade at WRAS adds, "I love the Royal Crescent Mob. This record has *summer* written all over it! It's a total blast - and the band keeps improving with every release. "Going To The Hospital" is hysterical and "Hungry" sounds great on the air in heavy rotation.".... While commercial ones are scratching their heads as to what to do with the "Batman" soundtrack, the adventurous sector is saying "fat chance" when it comes to holding back on "Batdance" by Prince. The plan is set and it's obvious that this energized compilation is jammed with eclectic delights to stun even the most discriminating listeners. We know what you're doing this week - going to see the movie, hmmm? Holy hits, Batman. In recent years, it seemed like the New York City music scene was becoming known more for its nightclubs than an exciting roster of new bands. That trend has been reversed of late, due to a flood of exciting pioneers cutting their teeth on the Big Apple. Whether it's funk, rap, underground rock, dance music or reggae, the results are amazing when you combine all those styles with rocket-powered rhythms and eclectic stabs of metal. These are the rumblings of 24/7 Spyz, a potent new group that focuses on energy overload to get the job done. The new success of Living Colour and De La Soul along with comparisons to Fishbone, the Chili Peppers and Bad Brains have encouraged a lot of comparisons and misconceptions about this band, but 24/7 Spyz have definitely carved their own niche, reaching out with hooks heavy enough to sink Manhattan. The Spyz are Anthony Johnson on drums, lead vocalist Peter Fluid, Jimi Hazel handling the guitar and Rick Skatore on bass.

**Dawn Hood:** There aren't many bands that start an album off with a song about *Grandma* ("Grandma Dynamite").

**Rick Skatore:** This song is basically dedicated to Jimi our guitar player, whose grandmother was a good influence on him. She'd always asked, "Are you playing your guitar?" all the way back to when he was seven years old. I think one reason we sang about our Grandmas as *Dynamite* is basically because they encouraged us to reach our goals. When we wrote the song it started out as a joke, but then we took it to heart. If people think we're gettin' soft because we sing about our grandmothers we say "no way". Our grandmothers came up during hard times and that's why we wrote it.

**Dawn:** After reading the innersleeve liner notes, I got the impression that there is a strong bond between the members and you are all surrounded by a solid wall of support.

**Rick:** We have a very strong common bond here, and even the people at the record company are like a family to us.

**Dawn:** Are 24/7 Spyz as politically active as some of the songs suggest? Do you involve yourselves in any political activities outside the group or do you let the music speak for itself?

**Rick:** We hope the music will motivate people. There really are no political aspirations outside the band to speak of. You could say that Peter is the most political but it's a lifestyle that the band does not really get caught up in.

**Dawn:** 24/7 Spyz energy is undeniable and the mix of styles you use really bridges a lot of gaps between metal, hard core, rock and R&B audiences. The lyrics are consciousness raising also. Do you think the people who come out to see you play are paying attention to the message, or are they too busy slamming around?

**Rick:** Well, it's hard to say but I think that's where the album really makes a difference. A lot of times we'll be playing to people with an expression on their faces that looks like, "What the hell are you saying!" Now we know they can sing along from the album. Before some of our lyrics weren't clear, but now we can do a song like "Grandma Dynamite" and expect people to join in. The audience is really mixed, and the majority of the time we play there isn't too much moshing and they don't get too crazy (unless they've seen us before). But if it's the first time they've seen us they usually just stop, watch and listen.

**Dawn:** A lot of people have been comparing 24/7 Spyz to other bands, and I'd say there were similarities in style but you definitely own a new sound. What's your reply to this flood of comparisons?

**Rick:** The influences are really kind of funny because we all bring an individual sound to the band. Jimi, the guitar player listened to a lot of Hendrix and so forth; my background is focused on jazz, fusion (Brand X and Weather Report); Peter likes heavy metal and we've even got a drummer who's into Motley Crue. We

never set out and tried to say we were like such and such a band, and the only band that struck us and made us think, "wow - these guys have a feeling for music", is Bad Brains. They're the only band that came across the way we felt about music and they are the forefathers of what's going down now.

**Dawn:** What made you write a song like "Social Plague"? It communicates a strong message.

**Rick:** When I wrote that song it was a time when there was a lot of controversy in the media, about things happening as far as supremacy, the skinhead thing and people screaming about white power and violence on talk shows. There seemed to be a lot of it going on at the time and it really bugged me, because it's not helping America in any way, shape or form. It's just stirring up more garbage and I think we're already passed that. I wanted the song to communicate something like, I don't care what you do, you cannot wipe me off the face of the earth. I'm staying, I'm walking on this planet and I'm going to live my life accordingly. There were a lot of people who struggled to get this far and we're not going to throw it away.

**Dawn:** What is the force behind "Harder Than You"?

**Rick:** Different songs geared to different ideas, but overall the album is about everyday life. You have your love songs that are all nice and stuff, but what happens when somebody screws up? What happens when somebody gets caught cheating? What happens when something personal in your life really gets to you?

You get edged and want to write a song about it. It's real life. We have a song that's called "Spill My Guts" which some people have misinterpreted to mean it's about prostitution, but it's not about that at all. It's about someone trying to lead you into believing a lie they're trying to impress you with. When people try to bullshit their way through life it's the pits.

and that's it." The people applauded us and later on the guy bought a shirt. He came over to us and said he was sorry, that he must have made a fool of himself and that we really kicked ass.... I don't think we have a problem appealing to metal fans or anyone else. Our shows are a lot of fun and people can really get into the music!

# Spyz on the Rise...

The album is about real life experiences that have happened in each one of our lives that we want to share.

**Dawn:** There seems to be a lot of excitement among the hard rock/metal community for 24/7 Spyz too. Have you felt any response from metal fans?

**Rick:** We played with Ludichrist on one of our biggest shows, and before the gig we wondered how the metalheads would react to us as an opening band. There was hair everywhere and about seven black people (the four of us and three guys that came with us). So we started out the show and wondered how it would turn out. Then this guy started yelling, "White power! White power!". The place was packed to the hilt and nobody joined in with him. Peter said, "Excuse me? Is there something you want to say?" And the guy said, "White power rules." Then Peter answered, "Music has no color. There's good music and there's bad music

**Mr. Big, "Mr. Big", Atlantic....** These guys couldn't have picked a better name for themselves. And the "big" wheels at Atlantic are throwing everything they've got behind this exceptional package; one listen to the album and you'll know exactly why. Put aside the "names" involved and you have just another average melodic rock band, right? WRONG. The songs on this Lp show great range and dimension, with all the finesse and ease that comes to the fore when talents of this stature are pooled together. In other words, the songs glide about as if they were put out by group that had, some 5 or more years of history behind them. Okay, so maybe it is kind of hard to ignore who this band is. Paul Gilbert is a six string wonder, Billy Sheehan - well, you know, Eric Martin - a many faceted voice to die for, (which sounds like a mixture of Tesla's Jeff Keith and ex-King Cobra guy Mark Free with a touch of John Waite), and Pat Torpey is up there with the best of the bashers. Big names, big talent - big sound. The songs vary from the boogie beat of the lead single "Addicted To That Rush", to mainstream dreams "Big Love", "How Do You Do", and "Had Enough", to straight ahead rockers like "Take A Walk", (which sounds so much like Tesla it's scary), "Rock And Roll Over", "Wind Me Up" and "Merciless", right down to almost ballad-ish "Anything For You". All in all, one of the most formidable offerings out there. This past week, "Addicted" carried these Big boys up 34-30\* on Hard Hitters and saw a debut at 77\* on the Hard Hundred. Look for even "larger" moves in weeks to come. "Feels so good to be so..." , oh wait a minute - that's Atlantic's OTHER Big band.

**Kings X, "Gretchen Goes To Nebraska", Megaforce/Atl....** I can't say enough about how great and original this band is. Listen to last year's "Out Of The Silent Planet" once more, and then lock your mind onto this new one - it'll amaze you with its powerful intensity and beauty. That's right, a rock record that overflows with stark lyrical imagery and subtle instrumental textures. If the vocal harmonies don't stop you in your tracks, then perhaps the ethereal and philosophical lyrics will. But, if exploring one's inner consciousness or one's existence, isn't exactly what you'd consider having a good time - then listen to the Lp for the music alone. Ty Tabor's clever and cutting guitar playing is like a rich tapestry, under which Jerry Gaskill (drums) and Doug Pinnick (bass/vocals) maintain a rock solid heartbeat, and upon which, Doug brings to life their moody and contemplative stories. The album opens with "Out Of The Silent Planet", a soaring, atmospheric piece - much like you would expect. From there it jumps right into the grooving first single, "Over My Head", then to the dreamy "Summerland", "Everybody Knows A little Something" and into the acoustic piece - "The Difference", (which boasts some of the nicest harmonies on the record), and then, the rocking "I'll Never Be The Same", (Pinnick's soulful wails are a highlight).... and then there's side two. "Mission", "Fall On Me", "Pleiades", "Don't Believe It", (one of the best songs on the record), "Send A Message" and "The Burning Down", all continue this musical journey into the heart and soul of one of Texas' best kept secrets. Well, not so secret anymore, thank god. Listen and discover, Kings X.

**Tangier, "Four Winds", Atco....** Well, it would seem that the Philadelphia/South Jersey area is becoming an increasingly popular place for label A&R types. Once upon a time, you could list all of the major label bands from the area on the fingers of one hand, whereas now, you'd probably need three or four hands and a couple of sets of toes to boot. Tangier has been a staple of the Philly club scene for years, opening for, literally, multitudes of bands, including White Lion on their last pass. In a club environment, this band is indescribable, and while their vinyl offering could never capture their live sound, producer Andy Johns hits damn close to the mark. The monumental single, "On The Line", has been tearing up the mainstream charts for the last week or so and is sure to be a major smash in MTV land as well. Listening to the rest of the Lp, chances are that it will just be the first in a long line of hits for this blues oriented hard rock quintet. Songwriter/guitarist Doug Gordon has worked it so virtually every other song is a sure-fire hit. Take for example the title track, "Four Winds". If it sounds as good on the radio as I think it will, there's no way that this one can miss. The other real standout is "Fever For Gold". The lyrics are a little silly sounding, but since when is that a factor? It's the music that counts. Let's just say that you don't have to be a 49er to see gold in this bands future. In fact, I'm thinking more along the lines of platinum. (J.L.)

**Faith Or Fear, "Punishment Area", Combat....**

At first listen you might swear that this band was just the latest in a long line of thrash acts spewing from the San Francisco area in that their melodic and vocal stylings greatly resemble the music of Bay Area Thrashers such as Intrinsic, Forbidden, Violence, Death Angel, Exodus, and to some degree, even Testament. What you might not believe, is that FOF's stomping grounds are in Southern New Jersey where they were formed in 1986 by guitarists Bob Perna and Chris Bombeke. With the additions of vocalist Tim Blackman, bassist C.J. Jenkins and drummer Rich Lohwasser, the completed lineup began gigging around the area. They were credited with being the most powerful and original thrash outfit around, but you kind of have to be original when you're living in the "new" musical hotbed of South Jersey, ya know? With the release of the "Dehumanize" demo, and the title track's appearance on "Metal Massacre IX", the band were signed to Combat and headed for the studio. Before you is the finished product. Side one starts with one of the Lp's most commanding tracks, "Lack Of Motivation". Also on included on the first side is the amazing, if somewhat unconventional, title track, (look for it when Hard Hitters #5 arrives on your desk soon). Side two opens with the dizzying "What Would You Expect" and follows with "Ripoffs" and the extremely impressive "Instruments Of Death". You might not have expected it, but a band from the P.A./N.J. area, home of Britny Fox and Cinderella, has turned in what could be the best thrash debut of the year. (J.L.)

**Last Crack, "Sinister Funkhouse #17", Roadracer....**

"The world we see is but a powerful, jumbled Sinister Funkhouse, and we are smashing in"... So reads just one of the many cosmic musings found in this band's bio, as well as on the back of this incredible record's cover. I guess the first thing that snaps this record into focus for most people is the uh, cover art. A naked Buddo (lead vocalist), frozen in the stance of the Archer - interesting. Think it'll be censored? Oh well. I'm sure there may be a definite relationship between his stripped-down state and the raw and natural "feel" of this record. As it is, the catalyst behind this band's fierce musical attack is of course, Buddo. Not only is the man prone to writing bizarre, yet thought-provoking lyrics, but his delivery of them is harsh and intense. He is capable of controlled and deliberate vocals, which easily transform into throaty growls, then switch instantly to some ear-splitting and pitch perfect screams. The band is just as intense, and incredibly adept at creating musical mazes around this unique man and his psycho-intensive lyrics. If it all seems too much to digest, then forget all the serious funkiness and weirdness - and just enjoy the wonderfully chaotic nature of it. Soak in all the hard-hitting guitar breaks, tempo changes, the jazz and funk tangents, and hey, the fact that this record, from first track to last, rocks your face. Check out: "Gush Volcano Crush", "The Last Crack", "Slicing Steel" and especially "Terse". Not for the weak of heart.

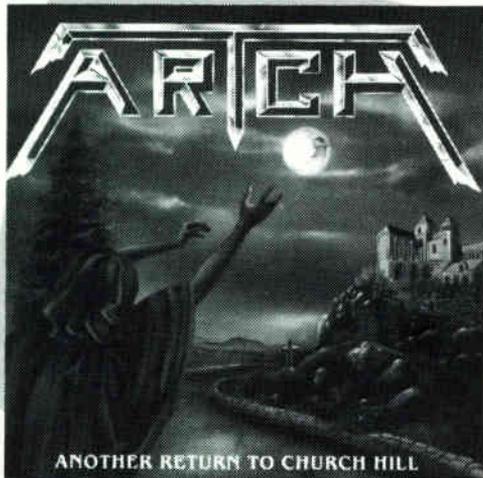

**QUICK PICKS**

**Black Sabbath, "Black Moon" 12", IRS....** Tony Iommi and Co. have been experiencing some really positive chart action and response for this latest album. So well in fact, that they hit the #1 spot a few weeks back and even now are holding tight to 3\* on our Hard Metal chart while also hanging in there on the Most Requested Metal chart - at #6. So, what's up next for these legendary masters of doom? Well, it looks like IRS Metal is out for blood and determined to keep this project steaming full speed ahead with the release of this 12". It is perhaps the best song on the record and is, now get this, actually a really commercial track - it has a hook! Albeit a wittle one. Also on the CD single, for your absolute listening pleasure is the song "Cloak And Dagger", which I believe has never been released before. Check it out A.S.A.P.. Anyhoo, those of you yet to catch the band live, (they've been playing to rave reviews), may have a bit of a wait. Seems the tour's been canceled for the time being while the Sabbs look for a better touring "package". Do catch them when they eventually roll thru... word is they're sounding phenomenal.

**Girlschool, "Head Over Heels" 12", GWR/Enigma....** Okay, there are more than enough "manly" types occupying the metal charts these days, and I think it's time the rock world took some notice of these talented ladies. They've more than paid their dues, and they don't rely on image overprocessing to carry them. They can play their instruments, they can write songs, and they are realistic about where they've been and where they're going. Ten years into Girlschool's up and down career, Kim McAuliffe (since 1984) is still poundin' the roads of Europe and the U.S. with her band of hard rocking friends. In fact, if I'm not mistaken she and drummer Denise Dufort are the only original members left from the 1977 lineup. With current members Chris Bonaci (guitar) and Tracey Lamb (bass) rounding things out, the band has given the world one of their strongest and most accessible records to date, ("Take A Bite"). This is the second single from it, and the best song on the Lp. And as Kim told me recently, "...it's probably the closest thing we have to a "love" song". (Look for the full interview in the next few weeks.) Well, for a love song it rocks with a really strong chorus and some thick and powerful harmonies. This cut should do well across the fence, in the wonderfully wacky world of AOR as well. C'mon folks let's get it happenin' on this side of the Atlantic for these girls. They deserve it.

**CHART AX-SHUN**

**White Lion, "Big Game", Atlantic....** It's good to see that even though this band is stormin' up the AOR charts, (and will no doubt once again saturate CHR programming), that metal hasn't turned a deaf ear to the Tramp clan. "Little Fighter" is currently working both the mainstream and metal rings, but it's by no means the only track worth hittin' on. Be sure to also check out "Dirty Woman", "Living On The Edge", "If My Mind Is Evil" and the best song "Cry For Freedom", (anyone who got misty over "When The Children Cry" will flail themselves unmercifully in homage to this one... ok, maybe that's a bit dramatic, but it really is a good song). This week Mike, Vito, Greg and James leap up 36-25\* on Hard Hitters, with KPGA, KRSR, WHMH, WHVY, WLRA, WMMS, WRTN, WSOU, WXCT, Z-ROCK, ARN, and KNAC (3 tracks deep) among the loyal.

**Sword, "Sweet Dreams", Roadracer...** Mebbe you had a chance to catch this album's first video, "*The Trouble Is*", when it made it's auspicious debut on the Headbanger's Ball a few weeks ago, Mebbe not. If you haven't seen it yet, either you're working too hard, or you just don't care. Either way, I think it's quite a cool clip, and the song is equipped with a hugely hooky chorus, so you can't lose right? This week, on the strength of that track/video and, more importantly, support from KNAC, KISW, KTEC (with top requests), WDNW, WEOS, WERS, WGLS, WHJY, WHVY, WJUL, WMMS, WNYU, WPSU and ARN, these fearless Canadian men move 33-28\* Hard Hitters. Listen to Rich Hughes' majestic vocals in "*Prepare To Die*" and "*Life On The Edge*". Also don't be afraid to try "*Caught In The Act*", "*Land Of The Brave*" and "*State Of Shock*". (J.L.)

**METAL FILINGS**

-It was an auspicious occasion when noted hard rock/heavy metal impresario **Derek Simon**, (known to us Hard types as the dashing, dapper, debonair, magnanimous Mr. Simon), visited his rockin' buddies over at **Concrete**, (in fact, he was there twice!). Radio Promo-meister **Russ Gerrior** had this to say about his meeting with the man, the myth, the legend: "I was awestruck by the immense stature of Derek C. Simon.". You heard it here first kids.

-**Torrid's Motley Stu** recently produced a Spanish television program to aired on the Univision Spanish Network on the subject of heavy metal. The show will be included as a segment on the Network's national program, "*America*". The focus of the show will be on what parents, bands, the PMRC and various psychologists think about metal. Look for appearances by **Gothic Slam** and **Concrete's Gabriel Feliu**. Check the local listings in your area for the Thursday, June 29th broadcast. It starts at 10:30 so don't miss it.

-**Queensryche**, just in case you've forgotten, is the world's greatest band. But aside from that, the movie, (well, it's really a home video), you've all been waiting for, "*Operation: mindcrime*" was recently shot at Long Beach Arena and should be released in July or August. Videos included will be "*Revolution Calling*", "*Operation: mindcrime*", "*Speak*", "*The Needle Lies*", "*Breaking The Silence*", "*I Don't Believe In Love*", "*Waiting For 22*" and "*Eyes Of A Stranger*" and they'll be cohesively linked with conceptual pieces to tell the "*Mindcrime*" story. (Do you know who killed Mary? Well you may just find out!) Although EMI would be more than happy to get the band back out on the road, Chris, Geoff, Mike, Scott and Eddie seem rather content settlin' back in Seattle - since they've already got a large portion of the new record written. They may head into the studio in the Fall to record their next Lp, for an early 1990 (can you believe that - 1990?!) release.

-**Hades** is no more. The band, that is. The North Jersey based progressive thrash outfit parted ways just after the completion of their European tour. Guitarist **Ed Fuhrman** cited personal differences as the cause of the break up.

-More Goo dates. Look for the **Goo Goo Dolls** in these towns on these dates: 7/13-Tijuana; 7/18-San Francisco; 7/20-San Diego and 7/21-Long Beach, CA.... Hot off the European tour is the one and only **Sacred Reich**: 7/29-Oakland, CA; 8/4-Denver; 8/8-Detroit; 8/9-Cleveland; 8/10-Cincinnati; 8/17-Toronto; 8/18-Long Island; 8/19-New Rochelle and still no confirmed Philly date!.... When it was time to come back home from the Metal Blade 7th Anniversary shindig, **Princess Pang's Jeni Foster** elected not to return to the East Coast with the rest of her party. Wonder why!

-When fretmaster **David T. Chastain** gets off the road in late July, he'll be recording a 60 minute instructional video tape. In doing so David joins the ranks of **Paul Gilbert**, **Vinnie Moore**, **Tony**

**MacAlpine** and countless others in the celluloid ranks with this project.

-**Jailhouse**, the band featuring ex-Rough Cutt members **Matt Thorr**, **David Alford** and **Amir Derakh**, will be recording a live five-song Ep at the Roxy on Friday the 30th. Net proceeds from the sale of the Ep will be used to benefit teenage runaway organizations such as **Options House**, a teen runaway shelter and the **National Teen Runaway Switchboard**.

-Publicist **Debra Rosner** has left her position at **New Image Public Relations** to form her own P.R. company. **The Rosner Co.** will handle public relations for **Brunette**, **Britny Fox**, **Cacophony**, **Jungle Alley**, **Mistreated** and the **Royal Court Of China**. Apart from her duties with her new firm, Debra also manages **Brunette**. Her address is 11107 La Maida -- Suite 204, North Hollywood, CA 91601.

-**Death** has parted company with guitarist **Rick Rozz**. Interested parties, (and why wouldn't you be?), should send their best to **Combat Records**.

**BOB AND BLACKIE -- TOGETHER AGAIN**

↑ This shot was taken during **W.A.S.P.** leader, guitarist and vocalist **Blackie Lawless'** visit with the always happy people at **The Krusher**, (KRSR/Las Vegas). Pictured from left to right are **Magic Alex**, **The Lawless One** and **KRSR headmaster Bob**

-In other news, courtesy of **Concrete's Kim Kaiman**: Remember the hit song, many years ago, by **Argent** called "*Hold You're Head Up*"? Well, be on the look out for a cover version which will appear on the debut **PolyGram**, (and **Terry Date** produced) Lp from **Mother Love Bone**.... **Circus Of Power** is back in the studio following their successful West Coast tour. Word is that their live Ep is selling like flapjacks (??) out in them there hills... **Extreme** just finished their new video for "*Little Girls*" and they're still out on the road as we speak. Look for them to be doing selected dates with artists such as **Badlands**, among others.... Finally, the fine folks at **Concrete** are eagerly awaiting your registration forms for this year's **Foundations Forum** type event.

**WHERE THE WILD THINGS ARE**

**Cruising With The Mounties....** There's a whole bunch of wild things up yonder in Vancouver, Canada right now. Motley Crue has been recording up there with producer Bob Rock for the past five months and next door are your ordinary boys next door, Aerosmith. This of course, has led to some new relationships having developed and Steven Tyler coming by to lend his vocal support etc... Nikki Sixx called me up this week to tell me the latest details: "Steven came over and did some singing on this song called 'Time For Change' and then Steven came in with Vince and Bryan Adams (a Vancouver native), to sing on a song called 'Sticky Sweet'. There was this one song called 'Slice Your Pie' and we had been beating it up, going one way and then the other direction and at one point, I just sat down with Steve alone and said, 'God, man, I want to just take it like this, but I can't seem to hit it on the head.' So Steven goes, 'Give me a shot at it', and he walked in put the mike up live, ran the tape and just started jamming to it. And he really gave it a kick in the ass and ended up saving the song." Superman lives next door. But it must be quite a thrill, especially for Nikki who grew up listening to Aerosmith. The record is called "Dr. Feelgood" and should be out in mid-September. But first, the Crue will be playing live in Moscow along with Aerosmith who have decided to get involved.... "Doc McGhee got involved in this partially because of his probation thing, he needed to do something to bring to light the problems of drug abuse. And he started looking around and talking to people and he found out that in Russia, there is a really bad alcohol problem along with heroin and speed. No so much cocaine, because it's not that easy to get there from what I've been told. Lots of things to take your reality away because I guess it's really a f\*\*ked place to grow up I imagine. I don't know, I've never been there. I'll be able to comment more on it when I get back. You know, we don't know that much about Russia. We've never been able to get involved with their culture honestly and this is a chance for us to do that. Motley Crue has donated whole sums from concerts from L.A. Forum and Madison Square Garden to Adult Substance Abuse Program, and to the Make A Difference Foundation and Make A Wish and we can go on and on with the list. All these things that we feel is real important because, us coming from the turbulent backgrounds that the members of Motley Crue came from, we understand where a lot of these kids heads are at. I think everybody has a choice but sometimes you can't make the choice if there isn't a place to go. If you want to quit doing drugs but you don't have a resource to do it or if you don't have the information. (Isn't that what I said last week?) We're not going around preaching and trying to become the Good Guys. We're trying to donate time and money to places so that if there is something that you want to do, then you have a resource. Drugs either work or they don't work. And when they don't work for you anymore, then you should have the resources to not do it. When drugs are working, they're fantastic, but there's a point when they quit working for everybody. We don't do drugs at all at this point. We had a heavy drug abuse problem in the band and it just about destroyed the band in 1987, with me personally almost ending in a tragic heroin overdose."

Helluva Cosmetics!... King Diamond has come under some fire from the lawyers representing KISS. A letter stating that King's facial makeup design comes too close to the makeup design as used by Gene Simmons and thereby presents the possibility of confusing the public was received by King's label offices in NYC. It stated that Kiss' makeup designs are federally registered trademarks which they will protect. The letter called for King to change his makeup and also his similar stage mannerisms and to submit his changes to the lawyers for approval. A label spokesperson for King Diamond said that King was going to change his makeup anyway. In the past, King has also evoked some of the same responses from people who claim that he is ripping off Alice Cooper. In a recent telephone conversation, Alice told me his feelings on the King: "I think he's kind of stepping on dangerous ice. Not with me, but with this whole Satanic thing. I don't think he really believes that he is conjuring spirits up there and if he is, then in his own head, he can open the door. You know, when you invite the vampire in, he's allowed to come in anytime. Alice has never done anything Satanic onstage. I believe in good old American horror. Good old universal horror. But you'll never see any upside crosses or 666's on stage. I don't want to be associated with the Satanic. I don't think he's doing it with the same sense of humor that I do. We created Alice to be the ultimate rock and roll villain, where as I think he (The King) wants to be the high priest of some Satanic cult." Meanwhile, the King, with new cosmetics, will be releasing a new record entitled "Conspiracy" on August 15. One which promises to be interesting since it features the King's own death on it. Ooh boyee! It was recorded at Rumbo Recorders in Conoga Park California which just happens to be owned by a certain couple by the name of Captain and Tennille. This of course led to the obvious collaboration of a lifetime, the King and Tennille. MTV's Headbanger's Ball ran a beautiful picture of the new couple who we've heard ran off to one of the secluded Bahamian islands. Did you know that if you invest at least \$100,000 in any of the islands, you become an automatic citizen. Good thing to know then the government comes around for tax evasion.

Suzanne Vega was the subject of death threats at this past weekend's Glastonbury Festival in England. The annual event, held near Bristol, is one of the biggest outdoor concerts in the U.K., attended by over 45,000 people. The line-up of stars this year included Elvis Costello, Van Morrison, Fairground Attraction and Donovan. Vega topped the bill on the first night, but before she performed, two mysterious phone calls were received, saying that if she appeared she'd be shot. After an extensive search, nothing suspicious was found, and Vega decided to perform anyway. Her set took place without incident. Police, organizers and fans say it was the best Glastonbury festival ever, though there were about 300 arrests, mostly on drug charges, over the three days of performances.

The Who began its 25th anniversary tour Wednesday night in Glen Falls, New York, before about 5,000 people. Pete Townshend played acoustic guitar for most of the show, but still offered some of the trademark windmill guitar strokes that he had said he would not be using on this tour. The three-hour show included "Won't Get Fooled Again," "Who Are You," "Baba O'Reilly," "Substitute" and "Can't Explain." Townshend also played three songs from his "The Iron Man" solo album. A five-piece horn section, three vocalists and two drummers augmented the band's sound. About 3,000 seats in the 8,000-seat arena were cleared to make room for the stage.

Bruce Springsteen has donated \$15,000 to Chope Community Hospital in San Mateo, California. The money is going to a fund-raising program at the county hospital, where a relative of Springsteen was treated for cardiac arrest last year. "His agent called and asked us how much was in the fund and he matched it," says hospital spokesman Tim McMurdo.

Adrienne Brown, the wife of James Brown, has been fined \$5,000 and sentenced to five years probation after pleading guilty to a drug charge in Augusta, Georgia. She's also been

told to continue with drug and alcohol screening. The sentence came because of her arrest in May of last year for possession of PCP. She'd been arrested on a similar charge only a few weeks earlier.

Chuck D of Public Enemy says Professor Griff (Richard Griffin) has been kicked out of the band because of anti-Semitic remarks he made. "Our job is not to offend anybody," Chuck D claims. Griffin was quoted as saying "the Jews are wicked and we can prove this." Chuck D says, "We're apologizing to anyone who might be offended by Griff's remarks."

The U.S. Supreme Court has ruled in a lawsuit that centered on the loudness of Rock Against Racism concerts in New York City's Central Park. The court ruled, in a 6 to 3 decision, that the city can require sponsors of concerts in the park to use a sound system operated by an engineer designated by the city, and that this requirement does not violate the Constitution's protections of freedom of expression. A federal appeals court had ruled that the city should come up with a "less restrictive" way to deal with possible noise problems. "This less-restrictive-alternative analysis has never been a part of the inquiry into the validity of a time, place and manner regulation," said Justice Anthony Kennedy, in writing the court's opinion. "The city's sound amplification guideline is narrowly tailored to serve the substantial and content-neutral governmental interests of avoiding excessive sound volume and providing sufficient amplification within the bandshell concert grounds, and the guideline leaves open ample channels of communication. Accordingly, it is valid under the First Amendment as a reasonable regulation of the place and manner of expression." In a dissenting opinion, Justice Thurgood Marshall said the court "plays to our shared impatience with loud noise to obscure the damage that it does to our First Amendment rights." Marshall called New York City's restriction "an impermissible prior restraint." "Because judgments that sounds are too loud, noise-like, or discordant can mask disapproval of the music itself,

government control of the sound-mixing equipment necessitates detailed and neutral standards," Marshall said in his minority opinion representing the views of three justices. Marshall said the majority's "willingness to give government officials a free hand in achieving their policy ends extends so far as to permit, in this case, government control of speech in advance of its dissemination." "New music always sounds loud to old ears," Marshall added.

Ringo Starr has announced plans to tour with a nine-piece "all star" band featuring Clarence Clemmons on saxophone, Joe Walsh on guitar, Billy Preston and Dr. John on keyboards, and former Band members Levon Helm and Rick Danko. He promises to play "all the songs you know and love," including Beatles songs and his solo material. The 30-city North American tour begins in Dallas on July 23 and ends in Los Angeles on September 3.

Transvision Vamp lead singer Wendy James has denied rumors that she is romantically linked to Australian actor and singer Jason Donovan. The rumors began when the two were seen together in a London bar, but were stopped when James explained that Donovan and her band had become good friends. Apparently, they all dislike the showbiz side of the music industry and enjoy relating to each other as normal people. Transvision Vamp are about to release their second album, "Velveteen," inspired by the film "Blue Velvet."

Chris DeBurgh's "Lady In Red" won't be played at Irish weddings according to guidelines issued to Roman Catholic priests in Dublin. The song is among 30 listed as being unsuitable for use in a marriage ceremony. "Help Me Make It Through The Night" is another song on the blacklist.

Robyn Hitchcock and R.E.M.'s Peter Dinklage team up on one of the tracks on a new album of covers of Byrds tunes. Dinosaur Jr., Richard Thompson and Icicle Works also contribute tracks. Buck and Hitchcock appear as Nigen & The Crosses, a pseudonym they used for a recent London concert. They cover "Wild Mountain Tyme."

Eight fans were hospitalized after being crushed in the crowd at a UB40 concert in their hometown of Birmingham, England. The

problem began to occur when the Pogues were opening, and fans were packed in near the stage. After the Pogues played three songs, the show was interrupted for five minutes while police asked the crowd to move back, and then the Pogues returned to finish their set. "People

were being squashed at the front so the band decided it would be best if they left the stage to let things calm down," says a spokesman for the Pogues. An estimated hundred fans were given first aid at the show.

This year's British Monsters Of Rock Festival, normally held at Castle Donington in August, has been cancelled. Organizers say they won't have enough time to appeal a crowd control order at the site and arrange the event, so they have decided not to hold it this year. A local government had ruled that only 70,000 people should be allowed to attend the show, but promoters feel 100,000 could be handled safely. The dispute isn't expected to affect next year's show, though.

The Grateful Dead will be allowed to play at Washington's RFK Stadium next month, despite the efforts of a District of Columbia Council member who wanted to prevent the band from playing. However, Deadheads will only be allowed to camp in one designated parking lot near the stadium and they will be closely watched by police and private security guards. An aid to councilwoman Nadine Winter says that if there is any trouble the first night, an attempt will be made to cancel the second show. Dead fans turned out for a council meeting to object to the proposed restrictions.

Rick Danko says his reunion with Band colleagues Robbie Robertson and Garth Hudson at the Juno Awards in Canada has

prompted him to begin work on a new solo album. He says several record labels are interested in the LP, which will include a song by the late Richard Manuel, Gerry Goffin and Carole King, called "Breaking New Ground." "I want this new record to span the entire emotional gauntlet -- something up, something down, something sideways," Danko says. "It's like this: The dog has died, the children have grown, and I think it's time for me to take this music a little more serious. I'm too young to retire. Danko and Hudson are playing the Soviet Union and Italy with John Sebastian, Richie Havens, and others as part of "The 69/89 Woodstock Generation Tour." He begins his own 30-city tour with Helm, Dr. John, Joe Walsh, and others, in July.

Washington homeless activist Mitch Snyder has been invited to appear in El DeBarge's video for "Somebody Loves You," which is dedicated to the Housing Now movement. The group will hold a fund-raiser October 6, though the site of the show has not been determined. That date is the night before a Housing Now march on Washington, intended to raise attention for the need for affordable housing.

Imelda Marcos has released a record album. It's a compilation of her husband's favorite love songs. "Imelda Papin Featuring Songs with Mrs. Imelda Romualdez Marcos" is the title of the album, which features Phillipine pop star Papin. "This is all so new to me, but it's nice to be recognized for something positive, something beautiful, like music," she said at a reception for the record's release. There are plans for a music video, as well.

A new Elvis Presley exhibit has opened in Blackpool, England. It includes a private diary and several weapons permits. The exhibit is sponsored by the British chapter of the Elvis fan club, and includes some items imported from Presley's Graceland estate in Memphis. The exhibit also includes Presley's last guitar, a collection of body suits and costumes, Presley's bible and credit cards.

The Commodores are going to play Sun City, even though they expect to be blacklisted by the United Nations Center Against Apartheid. The group plans seven shows beginning July 7. Sun City officials say the group made its decision "only after many months of heart-searching." A spokesman for the white-dominated recreation complex of hotels and casinos says the group will be allowed to make anti-apartheid statements from

the stage without fear of censorship. "We have enjoyed a great deal of success in our career which has given us the opportunity to influence many people," says a statement from the band. "We hope that this continues and that we can act as a \*spokespeople for change in South Africa." The South African Musicians Alliance is calling the black American group "an embarrassment...willing pawns in a political boycott-breaking strategy." The black South African musician group says it will do everything it can to stop the show.

**Pete De Freitas**, drummer for **Echo and the Bunnymen** was killed in a motorbike accident, 14th June. He was only 27. De Freitas had been riding from London to Liverpool in north-west England, to join band members **Will Sergeant** and **Les Pattinson** to rehearse songs for a forthcoming album. He died after suffering multiple injuries from a collision with a car. The car driver, 75 year old **Hanna Chantrel** suffered a broken pelvis. Band members were too upset to comment on the tragedy. **Ian McCulloch**, who left the group last year to start on a solo career said: "It's a very difficult and upsetting time for everyone. I can't think of anything else to say right now." A spokesperson for WEA said this week that **Sergeant** and **Pattinson** are now considering the future of the band. The group's former manager, **Bill Drummond** said: "Pete was a incredibly loveable person. He was the one member of the Bunnymen who understood reason. He was the one who would always unblock situations between bandmembers, or the management." **Pete De Freitas** was born in the Port Of Spain, Trinidad, August 2nd 1961, but later lived in southern England. He joined the group in 1979, replacing "Echo", their drum machine. At the time, he commented: "The machine had a better sense of humour. It didn't smoke so much dope either." In fact, his pounding drum style became the backbone the band had lacked up until that time. In 1986, he temporarily left the group, to form **The Sex Gods**, with **Teardrop Explodes** guitarist **Stephen Johnson** and **Andy Eastwood**, previously a Bunnymen roadie. He rejoined the group in early '87. "He lived for his motorbike and that whole Jack Kerouac lifestyle." says **Bill Drummond**. "He lived it for real and sometimes the band got in the way." De Freitas' last performance was playing drums for the new **Julian Cope** single, "China Doll". he also appeared in the video, ironically riding his motorbike.

Death threats were made towards **Suzanne Vega**, before her performance at last week's Glastonbury Festival, in south-west England. Fortunately, her performance passed without incident. She received two telephone calls on the first day of the festival -- one from a man and the other from a woman -- saying that if she performed at the event, both she and her bassist would be shot. Police took the threats very seriously. 40 officers searched the stage and backstage areas, dressed in bullet-proof clothing. Vega herself declined the offer of a bullet-proof vest and played her set as scheduled, despite the fact that she too had taken the threats seriously. Nothing further happened. This unpleasant incident aside, the festival was extremely successful, from the viewpoint of the local police and fans alike. An estimated 100,000 attended the event, sponsored by the Campaign For Nuclear Disarmament. Donovan's much rumoured supergroup of **George Harrison**, **Clapton** etc. failed to materialize. Instead his "special guests" turned out to be **Edwyn Collins** (ex-**Orange Juice**) and **Osric Tentaacles** (???). Very strong performances were provided by the **Waterboys**, **Van Morrison**, **Fairground Attraction** and the

**Proclaimers**. There were 360 arrests at this year's Glastonbury, mostly for drug related offences, and several people were treated for heatstroke. the medical team also reported the successful delivery of two babies! (Wow! Forget Woodstock revivals!). As in customary at Glastonbury there were plenty of fringe events -- comedians, stalls, street musicians and an enormous late night acid house party. Writers in the music press noted that the festival had been tightened up since it last took place in 1987 and that the organizers managed to cope with all eventualities. Meanwhile, the new look Reading Festival (August 25-27th) looks set to be one of the most successful ever. The event, which has been running every year since the early seventies, finally decided to ditch their heavy metal formula after bad behaviour by fans in recent years. The 1989 festival features **New Order**, **The Sugar-cubes**, **The House Of Love**, **Swans**, **Tack Head**, **That Petrol Emotion**, **My Bloody Valentine**, **Spacemen 3**, **Gaye Bykers On Acid**, **The Pogues**, **New model Army**, **Billy Bragg**, **The Men They Couldn't Hang**, **Green On Red**, **Mary Coughlan**, **Les Negresses Vertes**, **Something Happens**, **The Mission**, **The Wonderstuff**, **Butthole Surfers**, **Voice Of The Beehive**, **Pop Will Eat Itself**, **The Mighty Lemon Drops**, **Jesus Jones**, **Loop**, **Head Of David** and **Word Domination Enterprises**. Promoters report record ticket sales with a high number of applications also coming in from France, Belgium and Holland.

The Prince's Trust Concert will be held this year in Birmingham, in the English midlands, the first time the show has been held outside of London. The annual show started in 1984, founded by Prince Charles with all proceeds going to his charity for disadvantaged young people in the United Kingdom. The show has been famous for its superstar jams, featuring people like **Tina Turner**, **Bryan Adams**, **Eric Clapton** and **Paul McCartney**. At the July 19th show this year, **Swing Out Sister** will be making their live debut, accompanied by **The City Of Birmingham Symphony Orchestra**, conducted by Beatles producer **George Martin**. Other artists on the bill include **Van Morrison**, **Level 42**, **Bryan Adams**, **Natalie Cole**, **Tony Hadley** of **Spandau Ballet**, **Will Downing**, **John Farnham** and **Mica Paris**. As usual Prince Charles and Princess Diana will be attending the concert, which will also be televised in Britain.

**The Pogues** release their brand new single, "Misty Morning *Albert Bridge*" June 26th in the UK on their own Pogue Mahone label. Written by **Jim Finer** in a New Zealand hotel room in early 1988, it features Finer playing a home-made hurdy gurdy. The B-side is a new **Shand MacGowan** composition, "Cottonfields", while the 12 inch also contains an new **Terry Woods/Ron Kavana** song, "Young Ned Of The Hill". The CD contains all of the above, plus "Train Of Love" by **Jem Finer**, which is an added bonus as it will not be featured on the forthcoming Pogues album. The band are currently touring in Europe, and as previously mentioned, will play Reading Festival in England in August.

**UK INDUSTRY NEWS**

Chrysalis UD, who this year have half their shares acquired by EMI are reportedly concerned about the poor performance of Chrysalis in The United States. The US company has reported a \$3.5 million loss in the six months leading to February 28th, according to "Music Week". By contrast, the UK record company and music publishing division has made increased profits.

Island Records is up for sale and it's rumoured that CBS and WEA are in the lead, for the acquisition, which is expected to be announced shortly. Meanwhile, major music publishers have been invited to bid for Island Music's catalogue. U2 manager Paul McGuinness and Island chief Chris Blackwell, are denying rumours that the catalogue, which includes the music of Bob Marley, Free, Roxy Music and Cat Stevens, is about to be sold to one of McGuinness' companies.

The United Kingdom and Italy, are now alone in Europe for not having in force, a levy on blank tapes. The Netherlands last week became the fifth European Community member to legislate a levy. The Dutch parliament's decision also covers future recording formats like DAT and recordable CDs. Royalty payments are also in force in France, West Germany Spain, Portugal and Ireland. Proposed legislation in Britain by the music industry has been thrown out by the UK parliament. The 105 levy in The Netherlands is expected to raise \$7m a year. 85% of the pot will be divided amongst composers, musicians and record companies, while the remainder will go to a fund to support Dutch recordings and facilities. The absence of a levy in the UK and Italy contradicts the European single market agreement for 1992.

According to a recent report published by the British Phonographic Industry, albums here should cost around \$25 (£14). The report's figures show that an Lp in 1962 had an £1.72 price tag. If they'd stayed with the retail price index, they conclude, albums should be over £14 today. At a current price of £6.99 (still rather higher than North American prices) the survey calls albums as bargain entertainment. Analysts believe that the report is timed to counter demands made in recent weeks that the British record industry should lower the price of CDs, currently priced between £9 and £13. The report has increased speculation that the industry may be planning a dramatic price rise in albums instead, to make them comparable to CDs and also hurrying vinyls' decline. There has been a cautious reaction to this theory though, as the industry also fear a dramatic fall in demand for vinyl if price increases were implemented, which is still a major part of their bread and butter.

**IN BRIEF**

Apologies to those who may have found last week's column confusing. This was caused by the combination of two week's reports, which resulted in events and releases being referred to in both the past and the future. We're back in synch this week Atlantic hoppers!... Depeche Mode singer Dave Gahan has been quoted as being appalled by rumours that shortly after attending the premiere in Hollywood of Depeche Mode's "101" movie, Guns N'Roses singer Axl Rose went to barbecue and shot a live pig. Axl apparently took Depeche Mode to a metal club after the screening, The Cathouse. Later he went to a friend's barbecue and allegedly shot the pig. It's not clear whether Mode were at the barbecue or not, but Gahan later said: "As strict vegetarians, we were appalled with the band's behaviour and do not wish to associate ourselves with anyone who goes around shooting animals for fun." Depeche Mode are finishing their next album and release a new single "Personal Jesus" August 29.... Former indie heroes The House Of Love, now Phonogram hopefuls, fly out to Los Angeles to remix their next single, already rumoured to cost \$50,000. "Shake And Crawl" is produced by Stephen Hague, who has previously done some serious knob twiddling for New Order and The Pet Shop Boys.... The Fall release their new concert album "Seminal Live" this week. It's their last for Beggars Banquet and they're already working on their next studio album.... New Order release "Run", their third single from the "Technique" album. It's been

remixed by Scott Litt who produced two R.E.M. albums.... Former Housemartin Norman Cook teams up with rapper MC Wildski, for his new single, for his new single, "Blame It On The Bass Line". Go Discs labelmate Billy Bragg is featured on the flip, "Won't Talk About It". Cook is currently working with The Real Sounds Of Africa and releases an album in late August.... David Bowie's new band The Tin Machine release a single "Under The God" this week in Britain, taken from their recently released self titled album. The cassette single will also have a six and a half minute interview with the group. Maybe he'll explain the strange hair that's currently sprouting out of his face.... Playing around London this week, Bobby Brown, hailed by "The New York Times" as "...a throwback to the explosive performances of 60's soul singers." will be knocking 'em dead at Wembley Arena. R.E.M. plan to guest for one of the two nights Throwing Muses play London, displaying once again their intense rhythm and passion so revered here. Youssou N'Dour, thanks to his friendship with Peter Gabriel, can now make the albums he wants to and can now also fill The Hammersmith Odeon at a stroke. Let's hope the crowd have a genuine interest in the master from Senegal.... The next Tears For Fears album will be called "Sleeping With The Past". The first single is likely to be "Healing Hands".... Husband and wife Dave Stewart and Siobhan Fahey have formed Shakespeare's Sister.

"Keep On Moving" is their current US hit, which debuts at 82 on the Billboard chart.

Cheerio Til Next Week.....Lee Carter

For those of you with your reports ready ahead of time, we will be accepting calls on Friday, June 30th.

## Lin Brehmer, WXRT, Chicago

Only two major complaints this week. CD's and car phones. CD's suck. Yes, I'm serious. They are far more fragile than the initial hype led people to believe. The defects are irreparable. They are rendering the sturdier, fuller sounding records obsolete. CD's are big goddamn pain in the ass. Car phones? Sure, great idea. But don't any of you people still have offices? Do you just wait til you're in your car before you make phone calls? "Hello, Lin? Hi, I'm in my car." Hey, surprise. I thought the crappy fidelity was built into your office phone. "Hey, you still there? Can you hear me?" How about paying a little more attention to that merging semi, pal, and keep in touch.... There have been a slew of local promotion jobs open in Chicago recently. Listen, I realize Dave Benson is tough to deal with, but, this is still a good city to work.... We'd like to thank Chris Isaak and Kenny Dale for joining DJ Wendy Rice on the air for some entertaining live radio. Ever since we first put "Dancing" on the air some years ago, the consensus at WXRT has been that Chris Isaak is a "can't miss" performer. The Connells' show sold out the Metro in a WXRT show last Friday. This seems to be a good market for those guys.... Top 5 single by October -- BoDeans' "When The Love Is Good". Book it. We have seen the future of rock and roll and the first syllable is "Bo".... Our second annual free July 4th concert with the city of Chicago will feature the Fabulous Thunderbirds, BoDeans and Kinsey Report.... Stevie Ray Vaughan's new song is so hot our competitor actually beat the Top 40 station to it. Now that's hot.... Cubs are still in first place. No one's printing World Series tickets. Hot tip of the week: Syd Straw's "You Think Too Hard".

## Jim Steel, WIOT, Toledo

Thanks to everyone who made my life easier the past few weeks, I've been in more meetings now than in the last five years. Special thanks to Dave Tezak at Columbia and the Atlantic folks for the kind gifts.... Tunes in hot rotation at home, Indigo Girls and John Eddie. Remember the turtle always beats the hare.

## Tom Scheppke, KISS, San Antonio

This week adds a couple of acts that hopefully in the weeks and months to come will be huge. First is Mr. Big with "Addicted To That Rush". Lots of talent and hopefully an LP that will be around for a long time.... Also check out Mammoth with "Can't Take The Hurt". They may be five fat dudes, but they make some heavy music.... Finally, Blue Murder is gonna break with "Jellyroll", this one's gonna put them over the top.

## Mike Jones, KISW, Seattle

Guadalcanal Diary exhibited their raunchy-yet-refined rock and roll at our Moore Theater last week. Scorching guitar, an air-tight rhythm section and intelligent songs make this band a must-see for all 'gee, I don't know they've got a funny name" programming luncheads, er, I mean, luminaries.... Over at the Paramount, Violent Femmes brought a tap to the toe, a smile to the face, a lesson to the audience: stage-jumping is so '82.... For a red-hot adult ear-grabber, check out the Kinsey Report's "Midnight Drive". The scorching lead guitar will earn the respect of the most hardened rivthead, while the enlightened aficionado will appreciate the bluesiness.... A retail explosion has forced our hand on a record I've been championing since day one -- Indigo Girls.... Requests have been demanding Skid Row's "18 And Life". Their wish is our etc. A note from the "New Music Guru" Damon Stewart -- thanks to Mark Kates for helping Peter Case find his way to KISW and the New Music Hour. Peter played live on the show and, as always, was brilliant! Don't ignore "Blue Guitar".

## J.D., WONE, Akron

This week WONE gets set for the 4th of July blow-out extravaganza with parties, parades and rock n'roll. The Independence Day weekend promises to be a very busy one with two major downtown fireworks displays, a major concert featuring Bon Jovi/Cinderella/Winger/BulletBoys plus, all the trimmings which go along with celebrating your 213th birthday. There're two very slick projects on the way from some newcomers to the U.S. of A. Both of these acts aren't household names yet, but could be very soon. One is a band known as Texas from Glasgow, Scotland. The lead and emphasis track "I Don't Need A Lover" just knocked me down for a ten count. This band and album is very, very good and well polished. There's a lot of passion and soul which is expressed by this very young and talented outfit. The strong vocal talents of 21-year-old Sharleen Spiteri along with 19-year-old guitar ace Alistair McLaine give this band an unbeatable combination of some very solid rock n' roll with some great bluesy, southern spice to it. Another band which could also be on the horizon to making an impact here is a Norwegian group call The Stage Dolls. Their first single "Love Cries" is a solid blend of terrific guitar riffs along with some dynamite vocals.... Many thanks this week going out to Johnny B. Frank and James Kottak of Kingdom Come for stopping by last week. Once again you guys, the place will never be the same. You guys were terrific and we'll look forward to

seeing and hearing you back here again in Aug./Sept.

## Pam Edwards, KGB, San Diego

Every four months or so there seems to be a song that really touches the listeners. No matter how often it's played, they want to hear it again, now! Currently, that song is unquestionably "18 And Life" by Skid Row. There's something there that's touching the masses and turning them into dialing demons.... While watching Tin Machine at their Roxy show, it appeared that David Bowie had unburdened himself of about 20 years and tons of serious baggage. I've never seen him look like he was having such pure fun! Thanks to EMI for getting the opportunity to see one of the greats living it up.

## Carter Alan, WBCN, Boston

Bowie's show in New York debuting Tin Machine was certainly a privilege to witness. I've never seen the man in concert closer than half a football field away. And it was fantastic being in the small, sweaty confines of The World. To get ready for the show, I listened to the Tin Machine album a few more times and found that the Bowie magic was indeed working in those tracks. His new approach is so different than the last three albums that I really found it hard to plug in right away. It seemed to me to just be David's little "garage" thing, but I was wrong. This group recalls Bowie's move from "Ziggy" to "Diamond Dog" or from Thin White Duke to Eno protege. It is a radical change. Now the album is unfolding for me as a full artistic move on Bowie's part which means that many will miss it at first and then fall in love a couple of weeks, months or albums down the line. I have certainly had that problem with Bowie's musical shifts in the past. I'm looking forward to "Heaven's In Here" as the next cut.

## Malcolm Ryker, KZLR, Little Rock

Thanks going to out to A&M for the invite to last week's Tora Tora premier album bash in Memphis. These young guys sound just as cranking live as they do on disc.... Not trying to take away from the King, but, "pass me one of those jelly rolls, baby". Here's the track that's gonna take Blue Murder to the top skillfully composed with a feel that appeals to all the demos.... Saraya's "Get U Ready" couldn't have been a better follow-up. Here's a band that is rapidly establishing themselves with a very distinctive sound. When Sandi opens her mouth, there's no doubt you're rocking with Saraya.... One listen to Mr. Big and I can't get the chorus out of my mind. Guess I'm already addicted to that rush and so will your listeners after one spin.

## David A. Ross, KMJX, Little Rock

First of all, congratulations to Richard Pachter on the baby. By the time you read this, I will be on vacation and the list will be frozen. In August, we kick off the tenth year celebration as the Rock in Little Rock. Magic 105 has proven itself to be a musical powerhouse, not only in Central Arkansas, but in the mid-south as well. We have maintained a decade long stability that has yet to be matched in this market. Our rock format is still intact (and in a bible belt market) along with three of our five original air personalities still on the air. More soon....

## Mike Leon, WIOT, Toledo

It was another killer 104 Rally By The River on the 16th. Rare Earth and Red Siren had this city rockin. Special thanks to both bands as well as Doug Burton from Mercury for their cooperation. Red Siren is unbelievable live and I'm sure Kristin and company will be around for years to come.... If that's not enough Bad Company was also in town that Friday. Another great show and Brian Howe left no doubt in my mind that he is the lead vocalist.... The Allman Brothers' "Statesboro Blues" is a welcome sight to our playlist, it's been always one of my fave Allman tunes and although we're up north, Toledo is definitely Allman country.... In case you have forgotten, 1975-79 were great years for rock n' roll, the Styxs, the Queens and the Meatloafs came to visit on our all Seventies weekend. Believe me, the listeners ate it.

## Karen Andersen Small, WGIR, Manchester

If you need a definition of the classic album radio sound, give Blue Murder's "Jellyroll" a listen. This blues-tinged track goes back to where album radio's began.... XTC's "King For The Day" has the bounce and fresh sound to make any summer memorable.... The Metallica/Cult show will be pounding its way through Manchester soon. The Cult is huge to say the least and "Sun King" will keep the band's radio momentum going full blast!... I am absolutely speechless over the Allman Brothers' "Dreams" boxed set. The quality of this package is astounding! Some of the gems in this set, like "You Don't Love Me/Soul Serenade", the inclusion of rare demos and some of the biggest hits from the band and solo members make for the definitive biography of the Brothers.... Thanks to Elektra's Dave Johnson for all his help during Jackson Browne's recent tour stop here in Manchester. Unfortunately the weather didn't cooperate fully, but several thousand people turned out in the rain to see Jackson turn out the classics and great tracks from "World In

Motion". The sound was wonderful, too!

## Roger the Dodger, KRNA, Cedar Rapids

Big thanks go to Bob Bland of Capitol for his work with the recent Doobies Brothers show. A lot of people had a fun time, Bob, especially Kim.... And now for the real issue at hand, it seems the last time I was dodging the "Crossfire" with Stevie Ray Vaughan, I blew out the monitors in our control room. If that wasn't bad enough, the phone is now malfunctioning from the number of requests the song is getting. I've been locking myself in the control room to keep our OM from eating me alive, so please, save the Dodger, donations accepted in care of the station and I thank you for your support.

## Dan Thomas, KWHL, Anchorage

A belated thank you to John Kohl of Elektra for all the backstage ticket promotional help with Metallica -- much appreciated.... I got caught spawning in lobby, therefore I am demoted to pm drive. Devan Mitchell goes to middays and music hours for me are Wed-Friday 10 am to 2 pm and for Devan Mitchell, Wed-Friday 8 to 10 am.

## Jack Green, KLPX, Tucson

As of this week, calls are Friday Noon-3:00, music day is now on Monday and adds will be ready Tuesday at 2:00.

## Drew Duncan, WZEW, Mobile

We added Adrian Belew O.T.B. and within three weeks he was in Heavy, and he got Top Five phones right after that. He's stayed in Heavy the last few weeks, and still getting Top Ten phones. Most of the response comes from dads, unbelievable (!), plus lots of female response 25+. Try dayparting it if nights are too hard for you. Play it!

## Steve Becker, KLCX, Eugene

The Great Northwest Laid Back Mini-Convention took place recently in Portland. Paying their respects were Kenny Puvoegel and Greg Dorfman from Warner Brothers, Chris Lopez from Mercury, Robert Lince from Atlantic, Debbie Lipetz from Epic, Bob Jeffries from KBOY, Bill Prescott from KGON and Al Scott from The Other Station (I still like you, Commander, are you listening to me?!). The backstage promotion with our winners at Cinderella/Winger/BulletBoys went off without a hitch. Thanks to Chris, Robert and Greg. Finally, met Debbie, a fellow New Yawker (wanna ship in some Nathan's?). Highlight of the convention was Henry Lee Summer popping in after his show and jamming with Cinderella and the rest. P.S. to Kenny: Nice moves. P.P.S. to Bob: Guy, who? Congrats to Rich Pachter and his wife Darlene on the new add.... Bill and Rose McGathy are two of the nicest people in this biz -- it's the distance these days, way out west, but still miss ya!... Scorching music this week include's The Cult's "Sun King" and Tangier's "On The Line". They're on my endless loop.

## Beth Kepple, WKLS, Atlanta

I can die a happy rocker -- we added Tora Tora's "Walkin Shoes" and Concrete Blonde's "God Is A Bullet". More powerful than a locomotive and able to blast stale rock and roll off the air. Today is the first day of summer, the day and night are of equal length, so I gotta go unbalance something.

## Dave Cowan, WROV, Roanoke

"The Turning Point", a local center for battered and abused women will be holding a fundraising auction in October. They've asked WROV to try to obtain some rock and roll celebrity items to be auctioned. Anything that you wonderful record types could send would be appreciated -- especially if it is autographed. Send any items to my attention c/o WROV, P.O. Box 4005, Roanoke, VA 24015. Thanks.

## Bob Jeffries, KBOY, Medford

Phenomenal rock and roll circus in Portland recently: Cinderella, Winger and BulletBoys delivering more adrenal intensity than the Hollywood freeway on a Monday morning. Three finely tuned rock of the 90's machines who know how to please their audience. I did a hormone check during the set (far superior to your standard auditorium methodology), indicating H-levels analogous to either a Central American earthquake or a very close encounter of the crogenous kind. Hospitality gratuities to Greg "Bullet" Dorfman/WB Seattle and Kenny "Bullet" Puvoegel/WB City of the Angels. Kenny, yes, pretty in pink had no idea of the "presence".... And what's that about the Knicks being in the play-offs next year? Bullet Dorf.... I had this vision concerning twins. I don't have any answers, perhaps Countess Lewicki of the National Enquirer?... Bob Lince/Atlantic Seattle, welcome to the Northwest and many thanks for the Winger Winners assistance. Kip Winger's band excites the hell out of everybody -- tight, concise, and to the point.... A plethora of music to include: rich and colorful BoDeans, perhaps the album to catapult the Everly

Brothers of the 90's into real prominence.... Indio continues to build. "Hard Sun" is layered, textured, and savored. Outstanding effort from Gordon Petersen.... Stevie Ray Vaughan was an automatic for Southern Oregon. Well respected and much requested core blues rocker that does it all and drives it home on "Crossfire".... What a pleasant surprise Indigo Girls and "Closer To Fine". Definite upward moves.... Keep an open ear on W.A.S.P. "Forever Free". It caught me by surprise, probably the most accessible W.A.S.P. ever. Excellent product with vocals -- this track is definitely for real!!!... Texas from Glasgow, Scotland. Sharleen Spiteri is fresh, exciting and intelligent. "I Don't Need A Lover" has the earmarks of being very strong.

### Stacy Yelton, WKQQ, Lexington

What would you say about an ALL CURRENT AOR format? That's what it's gonna take to add everything we'd like to add. Thank you.... No comments this week, everything we add is really groovy and doesn't need my embellishment.

### Pam Brooks, WPDH, Poughkeepsie

Well surprise, surprise. Thanks to those clever Virgin folks for my "Shriek of the Week". But besides the scream of surprise, Syd Straw is wonderful. Michael Stipes' vocals certainly enhance, and "Future 40's" in the groove.... Definitely check out Stage Dolls' "Love Cries". Me thinks the lanky blondes will turn out to be more than just pretty boys. "Love Cries" is a cooker. Definitely steamy for the summer.... Thank you, thank you, thank you. Listener response was great. My current favorite Indio "Hard Sun" is on. Gotta love it.

### Anthony Alfonsi, WDVE, Pittsburgh

Thanks to Don Coddington of Mercury for all of his help with Bon Jovi. Thanks to Jon Bon Jovi for calling the station. Thanks to Mark Fritzas of Atlantic for all his help with Skid Row. Thanks to Rachael and Snake of Skid Row for stopping by the station and thanks to the Rev. Billy C. Wirtz for stopping by and visiting the morning show and promoting his new High Tone release "Deep Fried and Sanctified" featuring the single "Tecnic Weenie Meanie" and "Inbred".

### Skip Isley, WWTR, Ocean City

If Batman is as big as everyone thinks it will be, you might want to consider "Electric Chair" from the soundtrack. I know I'm thinking about it already.

### Paul Cavanagh, KFMU, Steamboat/Vail

The late Spring as we should all have noticed has been really hard on playlist for breaking new(er) acts. KFMU has tried to maintain its reputation for being a leader on the new music front. The latest entry on this front is Russian Boris Grebenshikov. Once again Dave A. Stewart has brought to all out attention a performer who, barring any changes in glasnost, will be around performing for years to come. Boris should do this easily once you listen to "Radio Silence" and realize how timely this cut is. Enough said for diplomacy.... Great comeback for Spirit. All original members, all new music, with the same great sound.... Deeper tracks this week on The Doobie Brothers, Jackson Browne, Todd Rundgren and Treat Her Right.... Check out Cindy Lee Berryhill to please a wide demo range.... Softball by this writing is only hours away. The KFMU staff is expecting only minor problems maintaining its undefeated position at this 5th Annual event, which is taking on convention proportions. Always a good time had by all, regardless of the outcome in this little chunk of paradise. Keep tuned for photos.... Get on that bike and ride!!!!

### Rick Pannek, WAPL, Appleton

I've had an opportunity to listen to the BoDeans' album "Home". The LP shows a wealth of talent and maturity that strikes a balance between their first two albums. One track, in particular, "Good Work" captures the intense energy the BoDeans display in concert. It has the potential to become a classic summer song. Give it a listen and see if you don't agree. Thanks to Richard Wolod at Reprise Records for all the help with the BoDeans listening party in Milwaukee. Both Garrett and I will be at the Midwest Conclave in Minneapolis in July. I would like to encourage all radio types to attend. The Conclave has turned out to be one of the few conventions that people can actually stomach! Since I'm very much into new bands, let's make a date to hit the Minneapolis Club scene and see what's hot!

### Tom Van Sant, WIZN, Burlington

10,000 Maniacs played a wonderful show here last night, to the roaring approval of 2,000+. The new tunes sound great in performance. Thanks to Dave and Sid from Elektra for the night out.... We're seeing nothing short of an explosion here on the Indigo Girls - #1 requests and #2 sales! Just amazing.... We're getting set for The Who in Glens Falls, the smallest show they'll play all summer.... And a big hello to WQCR. Welcome to the big leagues, guys. Look around and remember what it's like, 'cause you'll be back in the

minors soon.

### Steve Cormier, WIZN, Burlington

Congrats to my music director Tom Van Sant for his nomination as music director of the year in Billboard. Tom deserves it. Sitting here in Vermont we don't get a lot of recognition, despite the fact that we do a lot of major market promotions. Tom does an outstanding job. He works 12-14 hour days. He's got great ears plus he's a fantastic person to work with and a good friend. Nice job, Tom.

### Dave Kane, WCMF, Rochester

Well, the U.S. Open Golf Tournament was through here last week and I've never seen so many ugly colors and outfits gathered in one place at the same time. Actually, it was quite a happening event and Rochester was proud to have all them great hackers here in town. We did our share of live coverage and abusing the pros.... Stevie Ray Vaughan has gotten people calling in and Tangier and Tora Tora continue to do well also.... Heaviest at home: Prince, Chris Isaak and Tangier.... Thanks to Jack Snyder for taking care of our Great White club show and to Geffen's Kevan Rabat for postal pastries.

### John Riggs, WKLC, Charleston

Special kudos for a record pusher who knows how to make us pay attention. Not always add, but at least sit up and take notice. Big Bill Heltemes from Atlantic. First I come in one morning to find him buzzing around the on-air studio in a bee outfit pushing what he called the killer B's. (Belew, Big Big Sun, Badlands and Blue Rodeo). Then, we get a BIG box full of great Big stuff. A BIG bra, BIG candy, BIG stuff. Mr. Big. We luvs dem crazy rekkid peoples.

### Tom Bass, WPLR, New Haven

I had the opportunity to catch Tin Machine live at The World in the village. The band looked great and the sound was incredible. With only two dates in America, I guess I owe Bill and Rose McGathy lots of love and kisses for this. Also, thanks to everyone at Columbia for letting PLR premier Michael Bolton album this past Thursday.... I'm psyched about this upcoming Wednesday night with PLR's private screening of "Batman"!... We've also got Ozzy coming into town along with White Lion and Vixen next week.... And Eric Hodge at Mercury has convinced me that I've been in this business far too long without seeing Bon Jovi live, so I guess we have to rectify that this Saturday. Should prove to be an interesting week.

### Gregg Stone, KFMX, Lubbock

Well, hello folks! Want to start out by giving Randy from Stardate one hell of a thank you for the Cinderella, Winger, BulletBoys show up in Amarillo, what a concert!!!! Cinderella did a flawless show with great support from Winger and the BulletBoys, the concert finale had all three bands on stage playing to 7,000 screaming fans the Stones' "Jumping Jack Flash", and then they dedicated Skynyrd's "Sweet Home Alabama" to Texas and jammed on it. Great concert (show started at 7:45 and ended at 11:50 with Cinderella playing a good two hours!!!) Thanks to Drew at Mercury, Dan at WEA and Bill at WEA for all the giveaways.... So how about Blackie Lawless? I'm impressed! Hard to believe he had it in him, we're thinking about "Forever Free".... Well, you can call 'em clones but it's a scorcher from Kingdom Come "Who Do You Love" is gonna be a smash, some possible crossover potential here.... Bad English is rocking with "Forget Me Not", Waite has got me liking him for once... Oh yea, Kinsey Report's "Midnight Drive" is worthy of all our playlists. I'm roughing up my PD on this one (Can't you hear McGann screaming!!!).... Along with Badlands, I'm throwing a couple extra punches for this one.... The BoDeans are riding high in our new music show with the possibility of regular rotation next week, can you tell they toured with U2?... Well, it's time for my mandatory metal and round of golf, so we'll S.Y.F.L., take care, peoples. Don't forget that "when she wants it rude she grooves with Mista Bone!!!!" Tit tune here.

### Chris Herrmann, WHJY, Providence

Holy rock and roll, Batman! No superstar releases this week -- phew. No summertime head cold to battle this week -- phew. And, only three adds to report this week -- phew. Getting heavy air this week are both the BoDeans and U2 (might as well be a double for U2....) Only kidding! BoDeans' record sounds super comfortable next to anything we play and just might be the tune that introduces this great band to the average AOR listener.... U2's "All I Want Is You" has been my favorite "Rattle and Hum" job from the word "go", and with the edit makes perfect sense for our brand of AOR.... Our third add goes to Jake E. Lee and Badlands. I've been feeling the buzz on the street on this project for about two months now, and Bill & myself feel this one's got it -- the grooves with a sound that harkens back to the glory days of Bad Co/Zepplin mid-seventies rock.... One last musing, if you haven't yet heard the Batman soundtrack, you're missing out on the best music His Purpleness has ever created! Prince has always enjoyed a direct hook-up to other worldly musical inspira-

tion (Hendrix, Lennon, Gershwin, Ludwig Van and Mozart -- to name a few -- also tapped into this power.) Batman contains stunning ballads ("The Arms of Orion" will be #1 with a bullet this Summer at CHR and AC), urban gorilla funk ("Electric Chair" and "Partyman" rank with "DMSR" and "Head"), while "Vicki Waiting" has just dethroned "When You Were Mine" as my all-time favorite from one of popular music's greatest composers and performers.

### Dominick Milone, WNGZ, Elmira

Hey gang, let's talk Rock n' roll. King Swamp is pulling in major phones. I had to really talk my PD into adding this record, and I give credit to my assistant PD/Program Coordinator Sylvia Benjamin for her undying desire to get the "Swampers" on the air and rocking Elmira. The results? Top Ten Phones!... Allman Brother's "Statesboro Blues" is what rock radio is made of. Pure, raw, blue-eyed southern rock. Let your dreams come true.... Marshall Crenshaw's "Some Hearts" is a great tune. We can't wait for the album. Welcome back Marshall.... P.S. To my protege Todd (Big Balls) McCarthy who as exited as M.D. at WVDR/Ithaca, good luck in what you do, but why do I get the feeling you'll be back somewhere real soon.

### Joe Paiano, WRKU, Youngtown

The Cult delivers the perfect song for summer. "Sun King" defines the attitude of the season.... Great White has been top 5 phones here since we started playing it. "Mista Bone" has been the easiest add this year.

### John Loscalzo, WRCN, Long Island

Tom Calderone and John Loscalzo of WRCN take music calls Thursday and Friday 10-2pm EDT. Adds are available by calling (516) 727-1185 on Tuesdays after 2pm only!... Adrian Belew and his little offspring are performing well for us. Oh Daddy, when are you gonna get a haircut?

### Rick MacKenzie, WAAF, Worcester

WAAF pulled off its annual Beach Dig last weekend with no major hitches or glitches. 107 WAAF listeners were down on their knees digging in the sand for some major prizes. The luckiest winners walked off with a trip to Europe, a powerboat, a jetski, a '90 Mustang and \$5,000 in cash.... Looking at the adds, it's another brand name week. White Lion finally gets on the air this week. Even that one was subjected to major traffic over the past several weeks.... On the new U2 CD, we've decided to go with the more upbeat "Everlasting Love".... And Bad English is on the air this week too.

This could really be a big, big song!

### Paul Michaels, WKGB, Binghamton

Other than the established superstar acts on the scene right now, I would have to say King Swamp remains my favorite album right now. I spend a lot of time with the record and I have yet to burn on "Is This Love" and we have been on it from the second day out.... Queen continues to impress with their return and Jackson Browne's record is impossible to ignore, it's that good.... But the best of the superstar releases has to be Tom Petty. A very solid effort that only enhances his reputation as one of rock's premiere talents.... One first listen, it becomes obvious that Pete Townshend is a brilliant piece of music. Exactly what you would expect from the man.... Our in-house favorite has to be Anderson Bruford Wakeman Howe. We have some huge Yes fans at this station and they are in love with these guys.... Winger stopped by during a concert sweep and favored us with their company. A nicer group of guys it would be hard to imagine in this business.... We went with Tangier and were very surprised by the instant reaction. We knew it was a good song, but didn't expect this kind of reaction.... As for Warrant, this record could be huge. All the elements are there for a smash record. "Heaven" could be their "Every Rose Has Its Thorn", watch this one.

### Elise Vander Borcht, KPEZ, Austin

It was like "Old Home Week" last weekend at my alma mater station's biggest promotion of the year, C-Sculptures, down in Corpus Christi, Texas. Former PD's, MD's and even GM's were on hand for a rockin good time. I'll let Tim Parker from KNCN fill you in on the details.... One thing I did want to mention, Johnny Diesel and The Injectors played live out at the beach and they were just as good there as they were in a nightclub. Give these guys from down under a chance, won't you?... Only Todd Rundgren could take a nursery rhyme and make it a smash hit. I find myself singing "The Want Of A Nail" at the oddest moments.... The Rainmakers finally make it on the list this week. Walkenhorst and company are going to have a hit album, even if it kills them. Hopefully it won't be that drastic, but I would like to see them get the radio recognition they deserve. Looks like they just might.... One more thing, what D-Day of WRXK said in the June 9th trades, ditto for me, too.

### Slats, WKDF, Nashville

Just when you thought a call to 'KDF was time to reach for a Tums, just when you thought Monday was "just

say no' day -- sit down and get a grip! Will ya? We go out of the box on something! Marshall Crenshaw? It ain't no misprint, this is such a pleasant surprise. From those tasty violins to a hook that makes me bend over and pick up my intestines!... Score two for Epic with Medium Adds for Stevie Ray Vaughan and Bad English. But we're kinda bummed that we won't get a "so and so is Batman" award from Harvey Leeds.

## Lisa Walker (aka "Stevie Stevens") WKDF, Nashville

I'm finally settled at KDF, and am loving every minute of it! Our legendary KDF "One For The Sun" concert had something for every rock and roll fan with Eddie Money, John Kilzer, Steve Earle and Red Siren among many others! Highlights included Bubba Skynyrd's appearance with Steve Earle and Traffic Jim's duet with John Kilzer! Nashville's rock and roll bands continue to bowl me over.... Look for "One For The Sun" vets Webb Wilder's forthcoming LP via Island and Walk The West soon to be signed! KDF bought out a whole theatre and arranged our own "Batman" premier while the CHR and urban stations split a movie-company sponsored "sneak". Add to that the always sizzlin' Kidd Redd produced-promos and we owned the "Batman" image in the market. Hyper or not, it's an event! Thanks to everyone who sent well-wishes with regard to my recent throat surgery.... And all my best to Ed Levine who's certain to shake things up in D.C.!

## Dave France, KZOO, Missoula

Adrian Belew owns one killer Summer song! A great tune that the ladies love and everybody can have fun with!

## Maggie McCabe, KCMU, Seattle

Blowing snot just for the fun of it. Actually, I've slowed this habit down due to the warm weather. It makes it a bit tough. Enclosed is the info sheet I mentioned would be on its merry way. Be sure to add us to your CD mailing list cause we got ourselves a player, as we slowly ease into the 80s, I mean the 90s. I'll be in summer school so these are my new office hours, Monday 1-6:00, Tuesday and Thursday 1-4:00. My dad taught me not to trust men whose asses are wider than their shoulders. Please give this some thought and I'll get back to you. One more thing, we do not, I am proud to say, report to R&R. We're just too damn "alternative" god forbid, did I say I love you!

## Jody Petersen, WNGS, Montpelier

Adrian Belew's album hasn't lost its charm over the 8 weeks we've been playing it. As far as we're concerned, he made it big the day he held his first guitar.

## Mike Thomas, WMDK, Peterborough

"Mr. Music Head" reflects Adrian Belew's true musical genius. It's on a par with Todd Rundgren.... BoDeans are also doing very well, does it sound like U2?!!... I like Diesel Park West's "Shakespeare Alabama" a lot. Something new and fresh from England.

## Doug Clifton, KBCO, Boulder

A slow week for music? Well, sort of. Just two new adds for this week as we go with the Peregrins' "True Believer" and Chris Isaak's "Don't Make Me Dream About You".... We added a new track from 10,000 Maniacs -- "Eat For Two".... Also new this week "Depot Street" from Chris Daniels And The Kings, "The Call's" "For Love", Stan Ridgway's "Lonely Town", Stevie Ray Vaughan's "Leave My Girl Alone", Adrian Belew's "One Of These Days", Van Morrison's "I'd Love To Write Another Song", and "Reckoning Day" from the Rainmakers.... Phones: Tuck and Patti still top the request list with Bugs Henderson a very close second, Todd Rundgren is third, Adrian Belew fourth and Paul McCartney rounding out the top five.... Also getting response -- 10,000 Maniacs, Maria McKee and The Indigo Girls.... Ten O'Clock News: Montanas, Cindy Lee Berryhill, Marshall Crenshaw, P.I.L., De La Soul, Pere Ubu, Ella Mental, Tin Machine, Spirit and Cutting Crew. Thanks to Jimmy Buffett, "Fingers" Taylor and The Neville Bros. for stopping by our broadcast from backstage a their Fiddlers Green concerts this past weekend.

## Jerry Rubino, WFDU, Teaneck

Excitement continues to build around these around these grounds anticipating this year's New Music Seminar. As mentioned last week, WFDU-FM has once again been chosen by BMI to be the official host station of the Seminar. In three days we will interview and play music of nearly 125 bands, all of whom are appearing at various venues that week. A complete and up to the minute club update will be broadcast every hour to give our listeners and Seminar visitors a good range of shows to check out. The main idea of the BMI/college radio collaboration is to get independent and unsigned bands a chance to get heard on the radio, something we've been doing since 1976. The range of bands include Alice Donut, Big Dipper, Bullet Lavolta, Dharma Bums, Ed Kuepper, Happy Flowers, House of Freaks, Lemonheads, Miracle Legion, Naked Raygun,

Rhys Chatham, Roger Miller, Old Skull, Pylon, Strange Cave, Stone Roses, etc. Thanks once again to BMI for this opportunity.... The Stranglers, one of the station's biggest "core" bands, has a newly released "Radio One Sessions" EP on import. Within one week, it shoots Top 10! Other notable imports include "Decide" by the Bodines, "Love Is (Not Enough)" by Jah Wobble and a brilliant compilation "Time Between: A Tribute To The Byrds", included highlights, "I'll Feel A Whole Lot Better" by Dinosaur Jr., "Mr. Spaceman" by Miracle Legion, "Eight Miles High" by The Muffs, "Draft Morning" by The Chills and "Wild Mountain Thyme" by Nigel and The Crosses, which is actually Robyn Hitchcock with Peter Buck. It's on Imaginary Records U.K., the same folks who brought us tributes to Syd Barrett, Captain Beefheart and The Kinks.... The staff is all buzzing on "Angel" by Electric Peace. I may be one to crank "Blind Ear" by Celibate Rifles when I need to get loose, but when I need to relax, open up the window, drink a Bass Ale and let the summer breeze blow through, nothing complements this time more than Chris Isaak's "Heart Shaped World". The whole album is a real winner, but "Wicked Game" leads the way. This record is must to all programmers.... Another must -- "Here Comes Your Man" by the Pixies. If you're not playing this record in the upcoming months, your listeners will be considered underprivileged!... Oh, just for the record, since I make it a point to listen to every record I get, I put on Anderson Bruford Wakeman Howe album and nearly fell asleep. What a damn waste of radio time. Wake it up, programmers, the 90s are nearly here!

## Tracy Barnes, Z-Rock National Network, 800-527-4892

Great White comes in again at number 1 - we're really into the album with "Mista Bone" also making great progress and the latest from these dudes, "Move It" charting in at #30. A lot of depth to play. Speaking of.... Badlands! Track number two "Winters Call" already getting real phones.... And "gain banging" into #7, former Z-premier Accept (sounding fine) with "Generation Clash". And watch out for one of our newest premiers - Lion, sounding better than ever. Z-Rock world premier tour #1 is now in full swing with Dangerous Toys taking to the road in selected Z-Rock markets, and fine action from the two tracks we're pounding.... And finally, Bang Tango. On Z-Rock for over five months, getting ready to score a big one with "Someone Like You" - reminds me a lot of The Cult. Great sound! And cool to see a W.A.S.P. CD delivered with "Forever Free" highlighted, a track and album we've been on for quite a while, another of those Z-Rock premiers.... Up to #38 with the latest hot rock from EZO. Thanks to Marko! And thanks too for J.B. at A&M for the Extreme live Z-Rock coast to coast broadcast #25. Over the top and smokin'. Nothing but compliments on our live shows -- several of the bands want our totally superior sound mobile to record live Lps for them. Beats the hell out of WWI! No prisoners!... And, congrats to Scott Shannon on the debut numbers - must have been those trade quotes he stole from me! Way to go, anyway! C-Ya!

## Steve Prue, WKNC, Raleigh

Summer school is about over, I'm going to the beach and it's raining. I'm excited. I managed to see both shows last week. Caught Destruction at one club and Tora Tora at another. Great night and thanks to everyone who helped make it possible.... Looking forward to "Gretchen Goes To Nebraska" by King's X. "Over My Head" is lighting up the phones. Send LP soon!.. Can't wait, 24-7 Spyz are coming to town soon. Gotta run, must find designer keg to match my beach towel.

## Rosanne Samson, WVCB, Loudonville/Albany

Hi ho. White Lion is terrific! "Little Fighter" and "Radar Love" are getting lots of play on the Capital region's air.... BoDeans, Pete Townshend and Andrew Cash are my favorites of the week, and I expect the Peregrins and Chris Isaak to do big things.... I'm not sure what to say about Great White's "Mista Bone". I like it, and we play it, but every time I hear it, it makes me giggle.... Bon Jovi, Skid Row and Bad Company were in Saratoga on Sunday, but I was watching the Beach Boys. Keep that great music playing. Later.

## Norm Osbourne, EMI, 212-603-8668

Diesel Park West deserves your attention now! Listen to "When The Hoodoo Comes" now. This English group has put together a well-crafted album. With the glut of superstar releases past us now, it's time to go back to listen and add this project.... Queensryche's "I Don't Believe In Love" is on your desk now! 700,000 units strong -- this track is a hit! Early adds at WBAB, KISS, KRZO.

## Dave Fleishman, Atlantic, 212-484-7631

When it comes to Adrian Belew, no one can deny the fact that the guy is a magnificent talented musician. Nobody can dispute the fact that Adrian Belew has played with a very large and impressive list of contem-

porary artists and contributed to their success. Adrian's latest solo effort is entitled "Mr. Music Head" and is led by the first track "Oh Daddy". Please give this a serious listen and be aware that there's major video action on "Oh Daddy" on both MTV and VH-1. "Oh Daddy" is a guaranteed "upper demo" special. Adrian Belew's "Oh Daddy" is heartily endorsed by Buch N' Flash Original Communications Media Group Professional Strategies And Associates.

## Alan Oremen, Columbia, 213-556-4990

Had a great honeymoon and now it's back to reality. Columbia Records is starting to burn with some great new music beginning with "My Paradise" by The Outfield. "Babylon" did extremely well and is still current at many stations and this track is a perfect follow-up for summer. If you're not playing this track by now, you really should be. They will be touring the country soon, so stay tuned.... Thank you album radio for breaking Warrant. Talking to everyone this week, "Heaven" is getting major phones. I'm positive that this track will take them way past platinum -- they just went gold! Check out their new video, it's going to be a monster as well. Make sure you talk with your local rep and see how you can win a trip across the country.... "Swear" really does grow on ya. Besides Philly, it's starting to bring in phones across the country.... Please don't forget about Noiseworks' passionate new track "Simple Man". It has been primarily a West Coast project and is doing extremely well from KXRX where it is getting Top Five phones down to KGON, KSJO, KTYD and over to KILQ. In fact, we have a total of 15 stations playing this track on the West Coast and thanks to each and every one of you. Now, it is your turn, so please give this track a second listen.... By now you know Boris Grebenshikov is a huge artist in Russia, he is the first Russian rock artist signed to an American label and his album was produced by Dave Stewart. This is a perfect way to set up "Radio Silence" at your radio station. What is most important is that "Radio Silence" stands up on its own. You definitely should give this one a shot. Your audience will respond if you treat it like an event.... And last but not least, Dangerous Toys is selling records! Ask your metal music directors about it and if they're playing "Sport'n A Woody", there should be some hot phones coming in. Try putting that into a nighttime rotation. They are a band you'll be hearing much more about in the future. That's it for now. Coming soon... James McMurtry.

## Jackie Tesman, Atlantic, 212-484-6002

To reiterate what it was said last week: Some very important Adrian Belew facts: 1) "Mr. Music Head" is a top five alternative album. 2) VH-1 has just added "Oh Daddy" into their newly created five-star rotation category. Do you know what this means?? It means that "Oh Daddy" will be seen 7-8 times a day! 3) MTV has "Oh Daddy" in active rotation. Do you know what that means? It means that "Oh Daddy" will be seen 3-4 times a day. 4) Press is phenomena ever see Adrian Belew in a swimsuit? Look at the latest issue of SPIN. 5) His tour starts on July 6 and runs through August 7th. 6) "Oh Daddy" continues to request big time on radio. 7) His next spotlight alternative/additional track will be "One Of Those Days" 8) Adrian Belew deserves to be played on all of those mainstream AOR stations not afraid to program so called "New Music" - REMEMBER: It ain't so new, it's just a little different.

## Graham Hatch, Atlantic, 212-484-8680

Daddies all over America have been spotted cashing in their Old Spice and polka dot ties for fresh copies of the Adrian Belew record, and radio seems to be noticing. The record is already #1 in Detroit on WDET and Number 3 in Los Angeles on KROQ and the momentum is still headed in the right direction. We are tracking impressive wins across the board with a 6\* on the Hard Alternative chart, a 4\* on R&R's New Rock chart and a 5\* on the Gavin Alternative list. Face it, this is the perfect way to keep that 7 Star a Day energy alive. Adrian is prepping his tour for a July 6th kickoff and you will be getting a chance to see him at the New Music Seminar also. Looks like Boston is fast becoming Belew-town with WFXT adding the record this week and WBCN co-promoting the show at the Paradise. Video action remains hot and heavy with VH-1 maintaining their Five Star Rotation on this great clip and MTV keeping the pressure up with their Active Rotation. Retail is always the measure of a winning record and five day sales on "Mr. Music Head" have spiked impressively. Now, with a little more help from radio, Adrian just might be able to make that downpayment on Disney World by 1990. His daughter would be so proud.

## Chris Baca, EMI, 213-960-4614

Queensryche is our #1 priority, "Eyes Of A Stranger" was a major breakthrough, charting in the mid-thirties. "I Don't Believe In Love" will be the breakthrough track that pushes them to platinum. This will be the next hard rock band to break. They have all the elements, good musicianship and performance, great videos and most important, great songs with something meaningful to say. Ask anyone who played "Eyes" and they'll

tell you the incredible response. This power ballad will go all the way... Diesel Park West picks up another dozen believers. "When The Hoodoo Comes" shouldn't be overlooked. The album has great depth with "Like Princes Do", "All The Myths of Sunday", "Bell Of Hope" and "Don't Be Afraid Of The Night". This band will be stars in the near future... Tin Machine's "Heaven's In Here" is already picking up adds in front of its official add date of July 3rd, as is Richard Marx's "Nothin You Can Do About It", scheduled for July 10.

## Andi Turco, Music Awareness, 818-883-7625

There's something about summer that makes rock n' roll on the radio seem so, well, "right", a prime example being "Walkin Shoes" from Tora Tora. This baby comes on with all the force of a kamikaze pilot and it continues to generate great phone response. With adds from WKLS, KTXQ, WIYY, KOZZ and more plus rotation increases at many stations, this is a bonafide hit record.... Admit it, it's only a matter of time so you may as well play it now. Looking back over the last year or so we have opened our minds, eyes and ears to "new" bands like Sugarcubes, 10,000 Maniacs, The Cure, Concrete Blonde, etc. The success that rock radio has had with these artists proves that there are listeners out there who want to hear new music that challenges their senses. With that in mind, please listen to "Don't Crash The Car Tonight" from Mary's Danish. This L.A. band is stirring up lots of interest on many levels of both the press and radio. If you program a new music show or feature, you may want to give it a try. I think you will be pleasantly surprised.... From the other end of the musical spectrum, we have Badlands featuring whiz Jake E. Lee. He has lots of fans already from his work with Ozzy and there are many more to be made and "Dreams In The Dark" will do the trick. The album is already showing significant sales activity. With quality stations like WLVQ, WLLZ, WHJY, WHEB, KJJO and others you know there's something about to happen in a big way. In just a few short weeks Tom Petty will be kicking off their "Strange Behavior" tour and it is a show not to be missed. Seeing Tom and the band is the next best thing to a religious experience. Just ask Jon Scott. Until next week, take care and thanks for reading.

## Michael J. Schnapp, Epic, 212-975-5987

Accept... on the road... on the chart... on the radio... on the MTV... one the way! Top 10 Metal Charts, Billboard debut 164\*, MTV play and a great general response to these MAJOR German dudes (and one American now) of metal. Accept is back, thumbs up and all. See them blow you away on the road soon.... Also on the road, ready to blow you away is the guy that's been rockin' for over 20 years, the king, Ozzy! More Black Sabbath than Black Sabbath, Ozzy and Geezer together is awesome. And with Zakk Wylde and Randy Castillo, there's no stopping them. Almighty Ozzy on tour through August 12th.... Meliah Rage still getting airplay and "Kill To Survive" is getting Z-Rock's Mike Paine a bunch o' requests.... Also on the Paine-man's show is Suicidal Tendencies. S.T. on MTV Headbanger's Ball. Call for it!... Look for a new Kreator CD single of "Betrayer" in yer box. Everybody yell Kreator and "Betrayer" real loud... shit, I felt it.... Comin' up soon is a CD sampler from Marchello, "Destiny", remember to play Marchello.... Melidian, a band Grampa Munster wants to adopt is in your hands now, as well as the Danger Danger advance cassette. These guys did a killer video you'll all see real soon.... Thumbs up on Danger Danger so get ready.... Alice Cooper's gonna Trash you! Gotta go, but if you need it, 212-975-5987.... Until we bang again!

## Michael Linehan, Reprise, 818-953-3750

As you read this, you should be receiving the BoDeans album "Home". The lead track "You Don't Get Much" has jumped into the 30's and 40's on the tracks charts in just two weeks and has been one of the most added both weeks. New believers include WHJY, WNOR, WBCN, KXRX, KQDS, KJJO and a couple dozen more. When you hear the rest of the album you'll see this group is on the verge of a major breakthrough. For starters check out "Good Work", "Red Rain", "Brand New" and "When The Love Is Good". "You Don't Get Much" is headed for the Top Ten (and beyond) so put it top of the stack for the music meeting, unless of course you are one of the 100+ stations already on it.... The Cult's "Sun King" is cracking the Top 30 tracks and should repeat the performance of "Fire Woman". Massive sales continue and this album will be well past Platinum before "Sun King" has run its course.... Chris Isaak finds new support at WBCN, KBCC, WYBR, WZYC and KRZO among others and is receiving 5-6 plays/day at VH-1. This is quality music for those much sought after adults. Thanks to everyone who came out for last week's promo tour.... Last but not least, Faith No More played an amazing showcase set at the Roxy this week and were joined for the encore by Duff and Slash from You Know Who. This is hard rock that almost defies description. You should definitely listen top "From Out Of Nowhere" for late night or the Metal show and watch for a buzz to build off the street. You will hear a lot more from and about this band.

## Jack Hopke, Chameleon, 213-973-8282

The inability of the musical world to classify or categorize Mary's Danish is reflected in the diversity of radio stations adding "Don't Crash The Car Tonight". Most recently, we were elated to learn of nighttime play on the new "Pirate Radio", KQLZ. Prior to that, 91X, in San Diego, reported that the song had won their weekly "Listeners' Choice" feature by a greater margin than any other winner in recent memory. We've been on MTV and "Night Tracks". It is our hope now that AOR radio will recognize that first phase of growth in a multi-format hit and serve up some danish to its listeners, too. We're sending you the full LP and a video of "Crash" now. A national tour starts next month.

## Missi Callazzo, Megaforce, 201-254-6533

The King has arrived!! It is on your playlist now! King's X is the most incredible band that has ever set foot on the planet Earth! They deserve to be on the radio. One listen to the work of art entitled "Gretchen Goes To Nebraska", and you will be hooked on the band that promises to be the biggest success of the year. If this masterpiece is not on your turntable due to the incompetent hand of the UPS man, call me, and I will personally deliver it to you. The first single "Over My Head" is one of the most mind-blowing videos that has ever been on MTV. Now it is time to do what you do best -- 1-800-DIAL-MTV! After that feel free to go 11 more tracks deep on the album. Then start all over again. That should take you to next year when King's X releases their third album.... In all the frenzy over King's X, I almost forgot to thank the rest of you for finally coming to your senses and adding Trust! Play them, report them, worship them! One last thing! The 12" for "Practice What You Preach" should be hitting your desk by mid-July. This is one of the most brilliant hard-rock albums ever produced. This album will be the one that bring Testament over the top! A worldwide tour will follow. Report Trust and King's X!

## Russell Gerroir, Concrete, 212-645-1360

Greetings to Sis (or is it Mom) Ris. Half brother Bill and I have just discovered the truth. Could the Sister also be our Mother?... Relations aside, Dangerous Toys continues to be impressive at Metal Radio. Look for this one in the Top 10 soon with the help of the Z-Rock market tour and the MTV exposure increasing. The strongest tracks are "Teas'n, Pleas'n", "Scared" and "Sport'n A Woody".... Also doing very nicely is Junkyard as it works toward the Top 20. Junkyard

have picked up a lot of G n'R comparisons and have the potential to be just as big. The lead track is "Hollywood", give it a spin... While you're at the turntable keep spinning Black Sabbath and Metal Church. Look for Sabbath to go back out on the road in support of their new emphasis track "Black Moon". Metal Church too, will be going back out on the road, this time with W.A.S.P. and Accept starting July 7.... Faith No More's lp "The Real Thing" is out and on your desk now. You should all be familiar with "From Out Of Nowhere", also check out "Epic" and "Woodpecker From Mars".... Lastly, also on your desk is Sir Mix-A-Lot (with Metal Church) covering Black Sabbath's "Iron Man". This song combines hard-edged music, funny lyrics and a killer video. This is a must listen.

## Megadon, Amuse America, 212-213-9595

What's up, gang? Sorry for the long delay in contacting everyone, but I've been really busy trying to organize the radio activities here.... First off, I'd like to clue you all in on what went down with Scott Givens and myself at Combat, because I've heard several conflicting stories, each funnier than the last. What essentially happened was we were both offered new positions, gave our notice, and were asked by the powers that be at Combat to stay for a month. We agreed, but less than two weeks later, they decided it would be better if we left right then so they could get used to life without us. So we left on good terms, and here we are. I'm sure gonna miss working with those guys (and especially Dark Angel), but a man's gotta do what a man's gotta do. In three weeks I had to rest up, about a million funny things have happened in my life, but space does not permit me to elaborate here. A phone call will rectify that situation. You've got the number, and the address is: Amuse America, 407 Park Ave. South, Suite 20A, NY, NY 10016. Send me your playlists and hate mail as well.... The release date for EZO's long-awaited "Fire Fire" album is July 11th and it obliterates the debut. Be sure to call if you need anything, these Nip Rockers from Hell are my long-time drinking buddies, and working with them has been nothing short of hilarious so far. Thanks for all the birthday greetings and phone calls, and I'll be annoying you shortly. Keep your pants on....

## Clarissa Garcia, Enigma, 213-390-9969

If you ever want to throw a great party, talk to Metal Blade. The Palace in Hollywood hosted MB's 7th Anniversary Party which featured Lizzy Borden, Little Caesar and Armored Saint. I spent most the night looking for Cheryl Valentine. My mistake was looking

for a platinum blonde instead of a red head. Thanks to Dyana, I eventually found her not far from the upstairs bar (surprising?). Everyone was there, only about 1500 of MB's closest friends. Happy Anniversary to all at Metal Blade and congrats on a job well done.... Sandra Bernhard's record release party for "Without You I'm Nothing" took place at Enter The Dragon in L.A. The fire marshall had to close down the club because it was way over capacity. Brian Slagel, who was standing outside the club after the closing with the rest of us, refused to move and demanded to be physically kicked off the parking lot.... Girlschool and TSOL played at Iguana's in Tijuana, Mexico. Some of us in the promotion department went down to visit the little Mexican town just past the border. Some in our group of five were almost involved in a brawl (not in a Tijuana bar, but at a Denny's in the U.S.). I bought a killer silver bracelet - asking price was \$55, but I paid \$30. And, I was almost traded to a Motorhead fan for a slave bracelet and a Wayne Slapper (I'll explain). The sound sucked at the club (what would you expect?), but both Girlschool and TSOL put on impressive shows. I'm so glad to have TSOL back, by the way. Needless to say, we plan to return to TJ real soon.... I now manage a group of the most unruly rock n'rollers called The Pit Bulls. People have even said that the lead singer needs a muzzle -- you just don't mess with her, especially when she's drunk.... As you can tell, I've been pretty busy lately. Girlschool, Guardian, Barren Cross, Laaz Rockit and "Reach For The Sky" by Mass are happening! Adios, amigos.

## Cheryl Valentine, Metal Blade, 212-645-6208

I'm sooo glad to be back in New York! Our people in L.A. rule, the weather's happenin', there's lotsa foliage, and Dyana and I had a great time, but the general California populous pretty much suck the big one. Industry people are great out there, but I fear that they're the only ones who are (yet another sweeping generalization made by yours truly). Our 7th Anniversary party was the mega-gig with 1,500 people and a guest list valve that was closed off prematurely due to overcapacity.... U.D.O.'s wailin'! You guys pounced on this LP and it's no wonder why. For those of you who are late entries, "Mean Machine" is like mixing U.D.O.'s first LP with "Restless and Wild". What do you lads think of Circus of Power's live EP? Was I right about the rawness or what? Make sure that you don't air the raps by Alex 'cause they tend to be a tad raunchy.... Our new crossover band, Loss For Words, is creating some tumult and rightfully so. Check out "Fear In Disguise" and then imagine them live, playing about 30 songs within 15 minutes. Too bad Razz from WUSB is in Turkey. He'd groove on these cats, huh Dawn?... Ya know how I've been going on and on about Heir Apparent? Well, it's finally coming out! You, too, will be able to bless your ears with an astounding vocalist who can hold "R's". Even Frank Sinatra can't hold consonants! It's time to book but always remember that meat carnage weekends rule at Lima beach house!

## Stewart Morales, Torrid, 914-664-3885

All's cool here at Torrid as Mucky Pup are currently setting up dates for the first leg of their forthcoming U.S. tour. Thanks to the following cool and perceptive stations for adding Mucky's LP, "A Boy In A Man's World" -- KBER, KCPR, KFMH, KPGA, KTEC, KUPD, KUKO, WAIF, WBNY, WCDB, WEOS, WJUL, WKPX, WMMS, WNHU, WNYU, WPSU, WSOU and WTPA. Play Mucky. Add your station to this growing list and add Mucky Pup. Anybody here about the suit that Gene Sinmons is bringing against King Diamond over facial makeup? Too much. I think Bozo the Clown should sue Gene. Bozo could win much more money than Gene could ever get from King. Oh well.

## Kathie Reed Barr, Roadracer/RC Records, 212-219-0077

Hey world, I am a fully-dressed member of the human race again! After 5 days, the kids at TWA decided I was worthy of getting my luggage back from Dallas! Thanks to all who stuck with me through this trauma, and no thanks to TWA!... Did you check out Headbangers Ball this week? It was a Roadracer festival! Sword, Crimson Glory and the debut of Annihilator made for a fun-filled evening of quality entertainment! Now is the time to hit those 1-800-DIAL-MTV request lines! Do it up! Crimson Glory is playing dates in the Ft. Lauderdale/Miami areas as well as Tampa. This is a show not to be missed! The Crimson dudes are hot for phones so if you want to talk to them, give me a call and we'll set it up! Sword will also be conducting interviews and watch for them to start touring the states in July!... David T. Chastain and Leather are in the Ohio area playing dates, they will be hitting the East Coast in the next few weeks. You all should have Leather's "Shock Waves" by now and cranking up tunes like "Along The Battlefield"! This lady will amaze with her power! Attention metal radio world, I officially have an assistant, metal phone slave, his name is Rich Kranjac. He's way cool, and he gives good phone! Next up from the zoo -- Last Crack's "Sinister Funkhouse #17"! Remember that name!
