### HARD ACTS TO FOLLOW

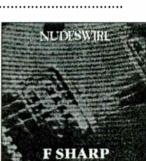

mashing Pumpkins. "Cherub Rock", Virgin It's a shame we all overuse the phrase "It kicks my ass!" because if there was ever a song worthy of the expression, "Cherub Rock" would be it. Nine adds, including KUPD and KOMP, joined KNAC, KIOZ, KRXQ, KAZY, KBPI, KILO, KLOL. KISW, WXTB, WLZR, KQRS, KRXX, KIBZ, WXRT, WAAF and enough others to top the 50 station mark. KRXX and KISW are just two of the P1's getting Top 5 Requests and the album has just gone Gold. "Cherub" is now Top 5 Metal, Top 5 Alternative and Top 10 C.O.R. and AOR is getting it with a Hard Hundred hit of 42\* even before the single's official release. The Chicago foursome crushes the ground beneath every step of Siamese Dream with assistance from Butch Vig. Co-producer and vocalist Billy Corgan nailed down the band's sound when he said, "I was trying to get the sound of things like coughing angels, the king and queen of the prom setting themselves on fire, losers getting laid, high hopes being ripped down and fizzing out." Major programmer John Duncan comments, "It's the stuff at 'LZR!"

**ohn Hlatt, "Perfectly Good Guitar", A&M** John Hiatt has penned thousands of songs over his twenty year career. His music has been reverently covered by a host of impressive artists that includes Bob Dylan, Bonnie Raitt, Iggy Pop and Jeff Healey. Hiatt is our Hard Triple Ace this week because his new single is very adult. He's also mentioned here because "Perfectly Good Guitar" makes just as much sense at AOR. His most recent Little Village success has taken Hiatt to a new level of AOR exposure. He's taken a new approach with this album and come up with his best "down the middle" rock in years with a quintessential ode to the guitar. The youthful driven twist is helped along by producer Matt Wallace (Faith No More), guitarist Michael Ward (School Of Fish) and Brian McLeod (Wire Train). KLBJ, WAVF, KBCO, KDJK and KCQR are some of the early supporters.

**Weights of Starp'', Megaforce** This fresh band was allegedly named after a description of a 17th century witches orgy. Nudeswirl was on top of the central Jersey club scene in New Brunswick in 1990 when the Hard Report found out about them. Their first LP was an independent release that turned heads and led to their Megaforce deal. Their sound is hard to pin down, intriguing to listen to and supported by the fact that the first album stayed in Metal's Top 15 for weeks. Nudeswirl's uniqueness is their strength and we look for a tasty COR/AOR run with "F Sharp".

.....

**Winging Steaks, "Beg, Borrow Or Steal", Capricorn** In the days of massive fragmentation when releases are referred to as made for Triple A, C.O.R., Alternative and Metal, it's nice to find a good mainstream rock record that runs right up the middle. That's what you'll get when you hear Boston's Swinging Steaks. Songwriting is an obvious strength for the band. Their sound is tailor made for AOR radio. Heavy harmonies weave their way in and out of the Steaks' melodies and carry hypnotic hooks. WBCN already reports Top 10 Phones.

.....

**Pariah, "Make Belleve", Geffen** WVCR is on to something. Randy Rhoads and Ace Frehley were two of Kyle Ellison's mentors and, according to him, the men responsible for him picking up the guitar in high school. He played his way through the years and picked up the rest of the band and a strong talent for writing along the way. "Make Believe" stems from Kyle's southern past, weaving musical opinions and attitudes about being force fed religion. Pariah's hard hitting approach is great for a COR/AOR start.

### HARDACTS TO FOLLOW

**Caraberries, "Still Can't...", Island/PLG** The Island folks who decided to sign Irish rock bands made a good move. The amazing voice of 21 year old Dolores O'Riordan and the Cranberries have already captured the Alternative world with high chart marks earlier this year. This week's 12-9\* move combines with MTV rotation and action at key CHR barometers like 99X in Atlanta (#2) to spell big success. Now the thrust of the buzz is at AOR via recent Triple A support. <u>Everybody Else Is Doing It.</u> So Why Can't We? is an amazing retail story that's growing weekly with a total of over 185,000 in the marketplace and 11-13 thousand pieces moving through the doors every week.

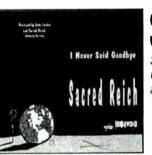

### NEW EMPHASIS TRACKS

Ince Nell, "Can't Change Me", Warner Bros. Vince Neil is now a proven solo commodity. If you recall the success of "Sister Of Pain" and "Can't Have Your Cake", you have all the tools you need to conclude that Neil is doing just fine without his Crue. Now, <u>Exposed</u> delivers "Can't Change Me", the first power ballad from the album and a natural for COR/AORs. KBPI is already on it and gives a big hint for the future. Neil is on his way to Japan for a few weeks and then it's back to the states to join Coverdale/Page for one of the year's hottest bills.

ohn Meilencamp, "Human Wheels", Mercury "What If" now shows up on nearly every AOR list in the Hard data base and has already been to number one. The title cut from <u>Human Wheels</u> delivers an honest, mid-tempo, multi-format touch that may well appeal to more fans than the LP's initial release. The sonics of "Human" have a slightly '60s vibe with a twist that's as current and contemporary as it gets. The video was filmed in 30 different locations and contains stunning visual effects and the end result is a musical package you shouldn't pass on.

**Sacred Reich, "I Never Said Goodbye", Hollywood** Sacred Reich comes to us straight from the Metal ranks with a huge fan base and a ton of "Hard Hitters" support. KZRX, WVCR, and WXZL top the list of early adds and though "Never Said" is heavy and suited mainly for the COR audience, the guitar mix sounds like The Outlaws meet Metallica. The blend produces a very interesting twist with enough mass appeal to warrant comfortable AOR airplay. Based on feedback at **KZRX Larry Mac** says, "Hey—it works!"

**Non Biondes, "Spaceman", Interscope** Rock and roll has never been easy for bands who boast a female lead singer, but Linda Perry and the 4 Non Blondes are doing their best to crush the old mold and make it unusable. Bigger, Better, Faster, More! is now Platinum plus thanks to the Top 10 single "What's Up". WBAB, WHCN, WZXL, KEZE, KEYJ, KCLB, WPDH, WPLR, WRUF, WTPA, WZZO, KXRX and KZRR are some of the 30+ AORs on "Spaceman" already. It's warm and melodic with the same incredibly strong vocal performance that can be found on "What's Up". **WTPA**'s **Chris James** claims, "The way the 4 Non Blondes stirred up this town before we'd be stupid not to play them again. This song has got the goods."

**C** overdale/Page, "Over Now", Geffen "Over Now" is a top 30 single this week and enthusiasm surrounding it is still building. **KXFX**'s **Jim Jump** says, "I'm very pleased to add it to our playlist…". Thirty others including WRIF, KIOZ, WSHE, WTUE, WRCN and KIBZ were happy as well. Lots of new action and Increases at WLLZ, WRZK, WXZL, KSQY and KDJK sparked a 24-16\* LP jump.

**Steve Miller, "Blue Eyes", Polydor** The AOR add count is more than 60 strong (and counting) as WTUE, KYYS, KOME, KCLB, WFBQ and others came in. Seven increases and continuing support from KRXQ, WBAB, WMMR, KSJO and others forced a 47-34\* HH move and boosted the LP chart 34-26\*. Harry Reynolds tells us, "We've had it in at KOZZ since the LP came out and it's getting a lot of requests. At a

recent Reno show the audience knew all the words."

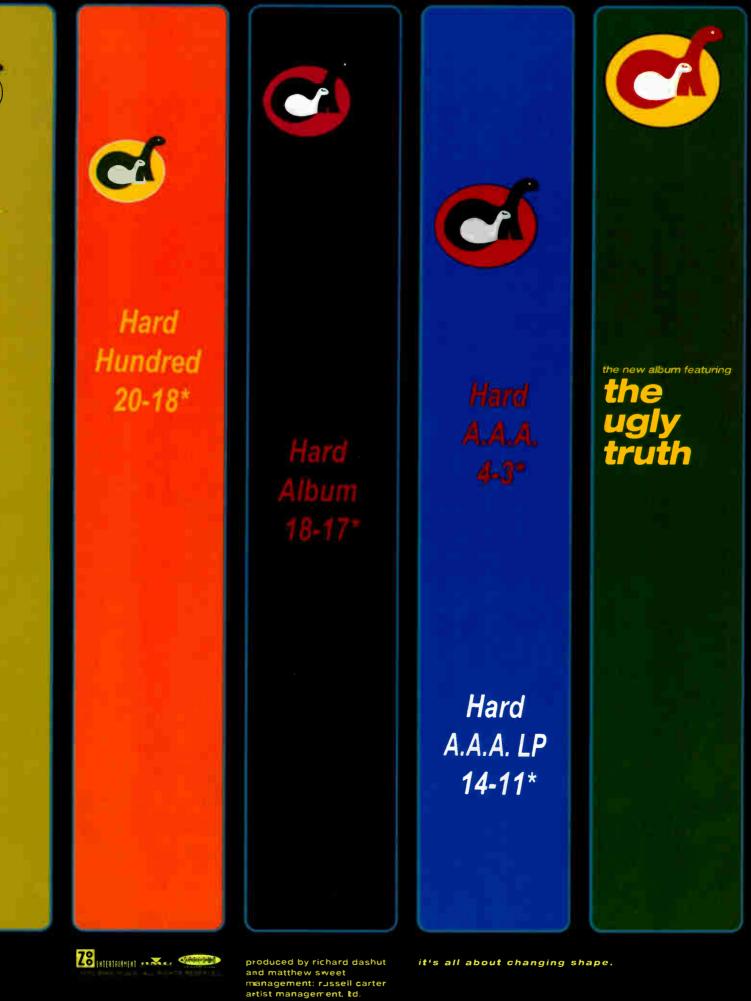

**Red Hot Chill Peppers, "Soul To Squeeze",** are staggering and in fact have made the song more successful than the hit movie that it's in. Twenty one new adds, thirteen Top 5 Phones and eighteen Increases made helped bring home a super week. **WHCN**'s **Pam Brooks** shares, "The Chili Peppers have a signature sound that works. It's infectious to a fault and we love it!"

**Gary Hoey, "Hocus Pocus", Reprise WDIZ's Tim Travis** said all he needed to in five words this week, "Are you stupid? PLAY IT!". "Hocus" was a Top 10 Most added single for the 5th week moving 33-25\* and Top 10 C.O.R.

## ALTERED BEAST

### AOST ACTIVE

lind Melon, "No Rain", Capitol Blind Melon B is still a huge AOR story. If you love the adrenaline rush you get from a big requester, try "No Rain". The Hard Hundred calls the single a Top 10 record this week from 16 with a bullet!

ell Young, "Mr. Soul", Reprise A terrific out of the box week for "Mr. Soul" garnered a Hard Hundred Debut 70\* for Neil Youna's latest Unplugged effort. New action from WMMR, KFOG, WGIR, KOME, KEYJ and others added to early support from majors like WBCN to cap off the week.

aging Slab, "Take A Hold", Reprise **Bobby Cook** says the Slab a is a big success at KRRK. "The calls are coming in for this well constructed, finely crafted—excellent song." "Take" made a C.O.R. Debut of 40\* and jumped 43-36\* on the Hard Hundred with momentum from increases at WXTB,

KRNA and WHEB and 13 new adds including WTUE.

Stone Temple Pllots, "Wicked Garden", Atlantic "Wicked" is wickedly successful with 13 new adds including WMMR, WRIF, KQRS and WIYY. WAAF's Mark Razz thinks, "The song makes a lot of sense for us. They can not be compared to any other band!" Tim Travis at WDIZ says, "50 shots of Penicillin won't make it go away. This one burns!!"

lackfish, "Sweet Sixteen", Epic The lyrics are **B**a little raw but don't be nervous. **Alan** says "At **KILO** we ask every female that calls what they think of the nasty little lyrics. It's not a problem." Blackfish makes a 68\* Hard Hundred Debut with 12 new adds including KIOZ, KSHE, KLBJ, KRZR, WSHE and more. KAZY, KILO and WRXK report Top 5 Phones.

an Moore, "How Does it Feel", Capricorn With a great last minute buzz, lan Moore was a Double Breaker this week. Double digit adds again, Top 5 Phones at 5 and 14 rotational increases helped make the big story for the week. More than 100 signals are on it to date and plenty Moore are set for next week.

**G** andlebox, "Change", Warner Bros. Over 80 AORs currently play "Change" and new support from WMMS, ZROC and WDHA, just to name a few, have paved the way for a 35-31\* HH position this week. Increases from 6 including KSJO and WIYY and Top 5 Phones at KISW and WDRK add new fuel to the fire for week number 9.

IIIIan Axe, "Crucified", I.R.S. Some of the best singles of the year are currently moving up the charts and "Crucified" is one of them. Lillian Axe is on the move with KILO and WRCN among the newly supportive and KBPI, WAOR, KBER, WVCR, The Blaze and KRXQ part of the early base in place. The single grabs a 97-80\* Hard Hundred slot with a C.O.R. Debut 42\*.

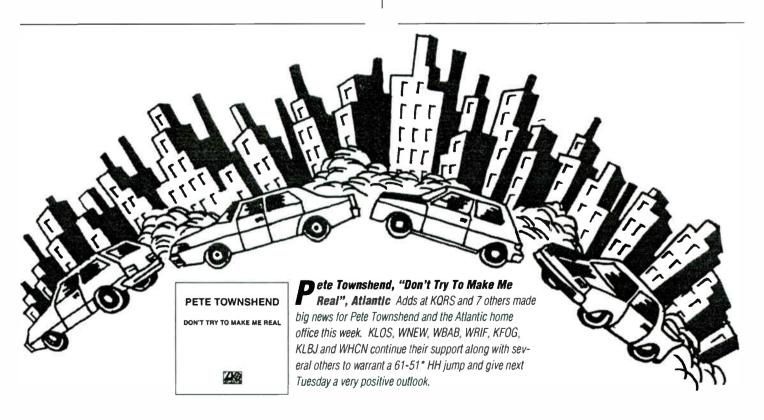

**D** action from The Blaze, WVCR, WXQR and WRZK have pushed this one over the AOR edge. Dirty Looks makes a big Hard Hundred Debut 93\* and an impressive C.O.R. foot-hold of 44\* as well.

🗖 at Benatar, ''Somebody's Baby'',

Chrysalis/ERG KLBJ, WMMR, WSHE, WIOT, KCLB and more than 60 other AORs have added "Somebody's Baby". Pat's move to 38\* leaves little doubt that her music is currently in demand. Riki Hofberg says "the WIMMR audience has always embraced Pat Benatar. She is one of the few respected ladies in rock and roll."

### **STEVE SCHNUR HEADS TO ARISTA**

At presstime, the official announcement was not released, but Industry Noise received confirmation that **Steve Schnur** is indeed leaving his position at **Elektra** and has signed with **Arista**, reportedly as VP/AOR Promotion. **Jay Ziskrout** has wanted to expand into other areas of the company, and he tells us that he will be doing just that, in a position that will be announced shortly. Commented Jay, "I've decided to pursue other interests within **BMG**, although, I will remain in my current position until my new responsibilities are announced. I'm personally very excited for this opportu-

nity to grow and am very enthusiastic and confident in the continuing development of Arista's rock department." Schnur was unavailable for comment, and there is no word from Elektra on his replacement.

### **COSTELLO CONFIRMS CAPITOL DEAL**

In other late breaking deadline news, **PhII Costello** confirmed that he has accepted the VP/Promotion position at the **Capitol** Tower. The deal was finalized late Wednesday (8/18), and his new position will include working with the heads of the departments of the different formats. Phil is expected to report for duty at the Tower in about three weeks, and by that time, **Def American** will have named his replacement... stay tuned.

**Phil Costello** 

### **ROCKIN' IN MONTEREY**

**Henry Broadcasting** has purchased classical **KBOQ/Monterey**, resulting in an LMA with their CHR **KDON**. Among the most immediate changes are the station's format flip to AOR and the change in call letters to **KROQ**, **"K-Rock." Eric Anderson** has been brought in to program the newly formatted AOR, and other staff are expected to be named shortly. Prior to taking this position, Anderson was Assistant PD at **KUFO/Portland**.

Charles Koppelman, Chairman and CEO, EMI Records Group North America, is presented the Black Radio Exclusive Music Publisher of the Year award by publisher Sidney Miller. Koppelman received the award for his commitment and dedication to publishing R&B music.

### JACK SILVER RIDES TO PD POST

Jack Silver has been named Program Director of classic rocker KCLX/San Diego effective immediately. For the past month, Silver has served as on-site consultant for KSDO and KLCX. Prior to that, he programmed WLUP AM/Chicago. Other programming experience includes KISS-FM/L.A., KMEL/San Francisco and KSHE/St. Louis. Silver plans to continue with the station's format, but says, "You might wonder what form of classic rock the station will evolve into. That's about all I can say." Commenting on his new position, Jack stated, "I owe my career to Bill Hard... by the way, does he still work there?"

### WHFS GETS THEIR DAY IN COURT

An Administrative Law Judge with the Maryland Commission on Human Relations has dismissed the three complaints filed by **Pattl Ebbert** against **WHFS-FM**, finding that there was no discrimination or retaliation against Ebbert when she was terminated for engaging in continuing insubordination and assaulting her supervisor. The judge found that Ebbert used complaints filed by her husband, 'HFS onair personality **Damian Einstein**, as well as her own, as "swords" in an effort to force WHFS to structure the sales department the way she wanted it structured. The station had previously been owned and operated by Ebbert's father-in-law, brother-in-law and husband, until it was purchased by **Duchossois Communications**. Ebbert has also filed a civil lawsuit against WHFS, also founded on her termination, and has tried to block the sale of WHFS by filing charges with the FCC. WHFS has filed conterclaims against Ebbert for compensatory and punitive damages. **Alan Hay**, VP/GM of WHFS said that "Ebbert's claims in her civil suit and before the FCC have, in our opinion, even less merit than the three charges which have just been summarily dismissed."

### **MORNING SHOWS AFFILIATES KEEP ROLLING IN**

The **Ron & Ron Radio Network** have been given the green light to sign two more stations, **WFXS/Chattanooga** and **WLAS/Greenville**, NC. This brings the grand total of affiliate stations to seven for the dynamic morning duo. Meanwhile, across town, the **John Boy and Billy Radio Network** announced the signing of their newest network affiliate, **WGCX "Rock 104"** in Mobile, Alabama. The station serves Mobile, Alabama and Pensacola, Florida's Gulf Coast. This marks the first network affiliate outside of the Carolinas.

As part of the world's largest guitar jam **Pete Townsend** struts his stuff for all the **KLOS** listeners who attended the July 29th musical morning festivities.

KLOS morning guys Mark and Brian joined Townsend on stage as he performed "Don't Try To Make Me Real" for all the Southern California "wanna-be-guitargods" who filled the KLOS parking lot.

Townsend made his way into the studio and dazzled KLOS listeners with his performance of "Pinball Wizard."

When all was said and done **Pete Townsend** braved the crowd and not only signed autographs for eager fans but he complied to a pleading request to smash the guitar of a devoted fan.

A Pete shared some on-air spontaneity with Mark and Brian as listeners from as far away as Portland, Oregon waited to see if Townsend would smash any guitars.

Gathering in close at the rush hour jam are Atlantic's Danny Buch, Pete Townsend and KLOS PD Carey Curelop.

### RADIO RUMBLE

**RFX/Charlotte**, the flagship station for Pyramid Broadcasting's "Allan Handelman's East Coast Live," presented the first ever "Rock Radio Programming Conference Of The Air" on Sunday, August 15th in Charlotte, NC. A panel of AOR Program Directors fielded questions from "East Coast Live" listeners network wide. Joining Allan Handleman on the panel were Pat St. John/WNEW-New York, Carey Curelop/KLOS-Los Angeles, Jeff Kent/WRFX-Charlotte, Brian Ellis/WZZU-Raleigh and Ken Carson/WROQ-Greenville-Spartanburg. Some of the topics under discussion were the difficulties of being on "On-air PD", Rush Limbaugh, record company pressure, weird calls air personalities get on the request line, the process of choosing music, Howard Stern and syndication of morning shows.

**STZ/Jackson** APD/Music Director Pam Rivers has been promoted to Program Directo replacing Bob Fonda who had previously exited the station.

**MRR/Muskegon** moves Gene Gregory to mornings and Guy Perry slides into the mid-day slot. Also, Sabrina Fairchild joins the staff as News Director.

**95/Hamilton**, Ontario presented the first ever jelly jump at Mapleview Centre on Wednesday, August 18th continuing through Sunday, August 22nd. Dozens of Y95 listeners jumped into a 12-foot round pool filled with lime green jelly 3 feet deep to retrieve one of 953 car keys for a chance to win a 1993 Honda Civic CX Hatchback. All Jelly Jump participants will return to Mapleview Centre in Burlington on Monday, August 23rd at 6:00pm to try their key in the ignition of the car. Proceeds from the Jelly Jump will go to help Chedoke/McMaster Children's Hospital build a new Play Therapy Room.

**SHE/St. Louis** announced a flood relief benefit concert featuring Jackyl and My Little Funhouse. The concert will be at The American Theater on Tuesday, August 24th. Proceeds will go to the Salvation Army Flood Relief effort benefitting local St. Louis flood victims. Previously, KSHE has raised over \$20,000 collecting money at area malls, and has also collected thousands of pounds of food and cleaning supplies for flood victims. KSHE also offers a 24 hour Flood Relief Hotline, (314) 421-KSHE, to supply up-to-date flood relief information.

**SHE/Ft. Lauderdale** will host its annual Labor Day beach bash at Penrod's on Monday, September 6, from Noon-6:00pm. Ten to 15 thousand rock fans are expected to have fun in the sun. The tentative concert line-up includes Gary Hoey, John Waite, Glen Burtnick, Dog Society, Brother Cane and Blue Oyster Cult. Naya Canadian Spring Water and Coors Light will be sponsoring Labor Day '93. Tickets are available at TicketMaster, \$10.35 for one and get one free from SHE. A portion of net proceeds benefit the Family Service Agencies of South Florida.

**ZZO/Allentown** is beginning to plan the 2nd Annual Rock Relief Auction. This year's event will benefit the American Red Cross Disaster Relief Fun, which will be in serious need of replenishment after assisting the victims of this year's flooding in the midwestern U.S. Last year's auction was the first of its kind in the Lehigh Valley area and raised more than \$14,000 for the American Red Cross efforts to assist the victims of Hurricane Andrew. WZZO is in need of stage clothing, autographed musical instruments, Platinum record awards, autographed posters and autographed box sets. The Rock Relief Auction may also serve as a unique showcasing opportunity for one of your artists — a captive audience of hundreds, with local and hopefully national press on sight. The prospective date for the 2nd Annual WZZO rock Relief Auction is this November. Please direct all calls and questions to Todd Heft/Music Director WZZO at (215) 821-9559.

**CLB/Paim Springs** will be starting two new programs within the next two weeks — Outerlimits (alternative) on Sunday nights from 10pm to midnight, followed by Hardline (hard-edged rock) midnight to 2am. All music calls should be directed to Ron Stryker on Fridays from 12 to 3pm.

**LLZ/Farmington Hills**, collected over 20 tons of food and other products in one week for the midwestern flood victims with the help of Adcraft member and General Manager Buzz Van Houten of 98.7 WLLZ and The Food Bank of Oakland County. WLLZ listeners dropped off donations as the station broadcast live from the parking lot at Fourteen Mile and Orchard Lake Road in Farmington Hills, throughout the week of July 19th. One listener delivered a truck filled with 72 cases of bleach.

### **Blues Festival 1993** The Paramount Theater, NYC 8/10/93 By Earl Douglas

**N** ew York's Paramount Theater was the site of Blues Festival 1993 where, for an evening, you got some of the top names in this thing we call the blues.

Things got rocking early with **The AllIgator All-Stars**, comprised of guitarist **Lonnie Brooks**, harp player extraordinaire **Junior Wells** and The Queen of the Blues, **Koko Taylor**. They each sang one of their own numbers, then during "Wang Dang Doodle" the All-Stars played together. Taylor's "I'm A Woman", which is the female companion to the classic "Mannish Boy", had the crowd hootin' and hollering, as did Wells' version of "Messin' With The Kid".

N ext up was **Buddy Guy**, who's finally getting the recognition he so richly deserves. Whether it's in front of 500 or 5000, Guy really knows how to work a room. He brought the music down several times throughout the program, and everyone in the theater quieted down to listen. Guy ran through a litany of blues standards: "Hoochie Coochie Man", "Five Long Years", "Slipping In", snatches of "Voodoo Chile", "What I'd Say" and **Stevie Ray Vaughn**'s "Cold Shot"; and bar band smokers such as "Knock On Wood" and "Mustang Sally". As far as Guy's guitar playing goes, he displayed the wild frenetic solos that made **Eric Clapton** call Guy the best player in the world. In short, Buddy Guy was his usual stone cold crazy self - he was terrific.

After a brief set change, Texas native **Eric Johnson** took to the stage. The Paramount crowd eagerly accepted the relative newcomer, who broke through big in 1991 with his album <u>Ah Via Musicom</u>. Opening with his hit, "Trademark", Johnson was dazzling with his picture perfect solos and flawless precision. The intro that led into "Cliffs Of Dover" was amazing. I'm looking forward to Johnson's long-awaited follow-up to <u>Ah Via Musicom</u>.

Shortly after 11pm, **B.B. King**, the King of the Blues, took center stage. With his favorite lady **Lucille** and a seven piece band in tow, King opened with "Let The Good Times Roll" and roll they did. Celebrating his 42nd year in the business, King has made the art of blues guitar look effortless with his stinging vibrato and long sustains. His band is also super-tight. Only **James Brown**'s bands of the late '60s and early '70s rivals King's for their togetherness on stage. Sitting down for the last portion of the show, King gracefully coursed through material from his latest LP, <u>Blues Summit</u>. Highlights included "I Gotta Move Outta This Neighborhood/Nobody Loves Me But My Mother", "Guess Who", and the show stopper, "How Blue Can You Get". The program closed with King's biggest hit, "The Thrill Is Gone", which turned into an extended jam that drove the crowd nuts.

F or the encore, King was joined by all of the acts for an impromptu jam on B.B.'s latest single "Playing With My Friends" - which seemed up the overall feelings about this tour. Though it was of marathon proportions (nearly five hours in length), few people left the theater disappointed.

 $B^{\rm lues}$  Festival 1993 might not be receiving the attention the other package tours are getting, but it just might be the best of the lot. Be sure to look for it in your town or hope there's a Blues Festival 1994. It will cure you of those summertime blues.

### INTERVIEW

Krysz & Tell

ryan Krysz started his career in the time honored, part-timer tradition at WPDH/Poughkeepsie back in 1980. Two years later, he was working on his tan at WWTR/Ocean City. Next came a serious jump to WGRQ/Buffalo. WKLC/Charleston was the next significant stop, with IM Communications eventually upping Brian to Group PD in 1986. WHTQ/Orlando was up next, followed by at cup of coffee at WYNF, after which TK Communications enticed Brian back to program WSHE and WHTQ. Two and a half action-packed years later, Brian was off the CHR-land at heritage pop rocker KEGL, "The Eagle," in Dallas. He rebuilt the staff and format, and proceeded to take a serious run at that market's meaty 18-34 audience. The scenario took an interesting twist last September, as The Eagle became the first contemporary hit music station to hire on Howard Stern. Brian predicted quick gains, but that was not to be. This past April, research told him what the market really need was a straight ahead rock and roll station. That's where they've been since, and here's how it's working ...

So nice of you to join me for this interview, Brian.

**Brian:** I'll give you something interesting right off.

Before I took over the station last winter, the station was 35.8 percent teens and 63.2 percent of its audience was 12 to 24.

### Obviously not an easy sell.

**Brian:** And one other point is that 51.5 percent of the station's audience was female.

### And what are we looking at now?

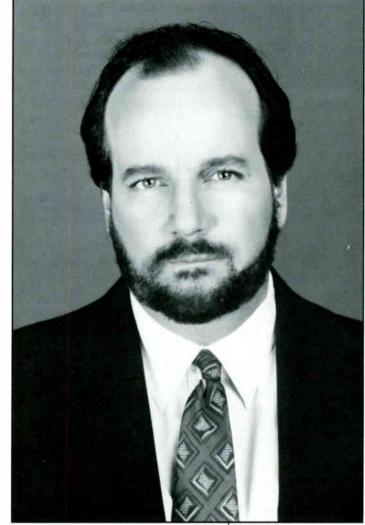

**Brian:** Now, only 11 percent is teens — even less after the last trend — and only 39 percent is 12 to 24.

### Nice turnaround.

**Brian:** Yeah. Even more interesting, though, is that we're about 65 percent male now. So, we went from one extreme to the other. We went from the Michael Jackson station to the Guns N'Roses station, slowly evolving over the past year without a major advertising campaign.

### Stern or not, you've got to promote if you want to crank the cume.

**Brian:** Well, if you look at what Howard brought to the table, or has brought to the table everywhere else, it's a nice chunk of people. His success stories tend to be, first and foremost, 18 to 34. So, what happened about four months into having Howard on the air was that

we decided to follow his lead as opposed to doing our own thing and being the whitebread Top 40. We decided to go where Howard led us. It really wasn't until after we did research last March that we decided to go full blown AOR rock and roll. We did a music test and we asked several perceptual questions and the information we got, basically, was that there wasn't a rock n' roll station in Dallas/Ft. Worth. There was not a station that satisfied the 20 to 30 year olds. They couldn't hear Metallica, Guns N'Roses, or Pearl Jam on Q102. Obviously, 'ZPS didn't play them, so we made a decision based on that information. Also, there was the fact that everything that we were playing tested terribly. All that white pop rock just looked awful.

### Give me some examples.

**Brian:** Robert Palmer, all the Springsteen, The Who looked bad. All of a sudden, I kept seeing they loved Van Halen, they loved Rush, they loved Metallica, and there wasn't a station satisfying those needs outside of Z-Rock with their limited signal.

### Z-Rock just couldn't service the constituency, huh?

**Brian:** We don't have to be a Z-Rock. We don't have to play Danzig and records that are too extreme. The position we are in right now is that we are the rock and roll station. If you want to hear good, uptempo, contemporary AOR in this market, we're the station. That's not a slap at any other station in the market — Q102 has been very successful doing what they do, but, quite frankly, they're like a male A/C station. You know, you hear 'Daytripper' at night, you hear 'Best Of My Love' from The

Eagles at night. They're not as concerned with tempo and with being contemporary, so that's the position we've assumed in the market.

When you signed Stern, you were fairly confident that you could do a straight CHR approach and win with Howard, though, weren't you?

Brian: First of all, I think that the format that we did would work and can work, and it is working in several markets. KMYZ in Tulsa has been very successful, KKYK in Little Rock, which actually changed their designation shortly after R&R changed ours, was also

doing very well. The point of the format was it wasn't so much that we didn't do a good job or that it didn't sound good. When I look back at all the songs that we played trying to be a contemporary hit, pop rock station, there are so few that stood the test of time. When I look at the Del Amitri's that we played and The Heights and things like that, they're just not records that stood the test of time and I think that was part of the problem.

Were you able to show any kind of substantial growth in any cells through that CHR period?

**Brian:** We were shifting a little more adult, but, quite frankly, we really weren't filling the hole in the market. We weren't rock and roll enough to be a rock station, and we weren't pop enough to really be a true CHR. And I think we were probably almost as guilty at the time of doing what I said that CHR's main problem was trying to be too many things to too many people and ending up neither fish nor foul. But it sounded good, and I think if there were more good hit records of that genre, it would have done well. If we had stuck with it, and had not gotten the research back that said, 'Look, there's a hole for a rock station,' then I think that we would have seen success with it.

### Explain why it took so long for you to start rocking since you did so well with that approach at WSHE.

**Brian:** We wanted to get back to the roots of KEGL, as we invented the AOR/CHR hybrid and were very successful at it. Plus, there was no other CHR in the market, than Gannett came in with KHKS.

### Was KTXQ rocking a lot harder at the time?

**Brian:** No, I don't believe that they've changed at all.

If anything, they've changed in the last 30 days since 'ZPS beat them.

### So, that was a significant win for WZPS, wasn't it?

**Brian:** Absolutely. And the trend just the other day was even better. They were up big!

### Did KTXQ dip proportionately?

**Brian:** No, just a little bit. I think that there's always going to be some audience for KTXQ.

### Are you surprised that they've maintained their share?

**Brian:** Not really. They haven't blinked like so many other stations would have. I think that they do some silly things. One of the things that could be their downfall is that they worried too much about what promotions our station was getting and tried to intimidate the record people. While they were messing with us, 'ZPS came in through the back door and stepped on 'em, and now they have no choice but to defend the upper end. They should have left us alone and just said, 'The Eagle wants the 18 to 30 year olds, let's let 'em have 'em!' There's room for us and the classic rock station. But I don't see in the long run that there's room for all three of us.

### Are you concerned that CBS might come after you with the Dallas station they just picked up in that Cox swap?

Brian: I'm not concerned about it because CBS corporate is smart and there are really only two ways for them to go. One is to go after the TK station --- which doesn't have a lot of money -and go oldies. And they certainly haven't been afraid of being the second oldies station in any other market. They're successful with oldies in at least four other markets. That would be the way I would think an intelligent broadcast company would go, or I would keep the station the way it is. They've got some female numbers, they're only four-tenths from being 7th 18+ in women in the latest trend. They're a point and half away from being in the top 5 women 18+. They now have a great combo, women and men.

### When you put Stern on in the morning, was part of your mindset geared to blocking KZPS getting him, since Howard and Jacobs seem to work so well together?

**Brian:** The Mormons would never have picked up Howard.

### Oh, yeah. I forgot. Strike that question.

**Brian:** I still believe, though, that classic rock is not the best format for Howard. I believe a contemporary 18 to 34 format or talk are the best formats for Howard Stern.

### Jeez, it's certainly taken you long enough to start to make things happen with that approach!

**Brian:** I think that what we're doing now will be far more successful than we were initially. In

the three months that we've been doing this, last month we had the best trend 18-34 that this station has had in over a year, and the best 25-54 trend that the station's had in years. And guess what? This new trend beat last month's. Our May monthly extrapolation was half of April and June and only 40% of our July. Arbitron

for the Spring Book undersampled Men 12-34 by about 20%. Even still from last summer, we have increased Men 18-34 by 41%.

### Are you guys spending a lot of money to promote yourselves at this point?

**Brian:** We've spent barely anything. Hand-tohand combat will only help so much. We're going up a couple of thousand people, 18 to 34 persons, every month, and we're still 45,000 cume behind 'ZPS and Q. But we're not that far behind them in shares. Next month, when that bad month falls out, we're going to be right up there.

### *Is there a cultural barrier that has kept Howard from being as big down there as he is in a number of other markets?*

**Brian:** He came out of the chute faster than he has at any other station, and then we had the Waco situation, which proceeded to linger on for weeks and weeks. I blame the decline in numbers on that. The station that Koresch called was KRLD, and they were the station that had leaped and leaped and leaped. And coincidentally the month that Howard goes back up, boom! They're down almost a share.

### You believe that's where your audience went?

**Brian:** No doubt. We expected as soon as it was over for it to come back, but it just took a couple more months. And he's back and he's in a dominant position once more. He's back to being #6 12+ in this trend, and it's going to get better next month when that undersampling is gone. The whole station is going to be better next month with that. We're looking at picking away slowly and developing the station slowly, as opposed to trying to jump up.

### Do you think your GM, Donna Fadal, would sign Howard knowing what she knows now?

Brian: You'd need to ask her that. But I can tell you this, I still think he's the most powerful weapon you can have on your side. There are some negatives. The 10 and 11 o'clock hour has such a tremendous drop after he leaves. The other problem was with Howard going till whenever he wanted, that the people who wanted to hear music didn't know when to come to the station. There are a lot of people who like our music and want to hear it in the morning. We've eliminated some promos, cut back a little on the news and traffic in the morning and got it now to where Howard is ending about 10 o'clock all the time, and I think that is a positive for everyone. The people who like to listen to Howard really can't listen and pay close attention after 9 or so anyway, and the people who want to listen to music at work now know at 10 o'clock that they can come to us for the music that they like. So, I think that is going to help us in the long run.

How much have you hammered Redbeard's persona?

**Brian:** We haven't really done too much with it. Our listeners pretty much are attacking his weaknesses for us. The feedback we get is basically that Redbeard is an egotistical bore. The running gag from most of our listeners is 'Hi, I'm Redbeard and last night I was having dinner with Robert Plant and Mick Jagger came by and we went over to Paul McCartney's house and hung out.' He has taken a positive and almost made it into a negative because he's so into that artist thing. He's not a real person that the people can relate to anymore.

### Who's the last rock star you've hung out with, Brian? Bruce Moser?

**Brian:** Ed Lefler. Well, actually, I'm supposed to have dinner with Duff from Guns N'Roses tonight, so that should be a real treat.

### Behave yourself.

**Brian:** Most listeners don't get the opportunity to do that, so I think that they can grow to resent it when it's shoved in their face all the time. 90 minutes of Lyle Lovett in the studio, and you hear an interview where Redbeard talks more than the person he's interviewing.

### How effective have you been in getting record company support away from that station?

**Brian:** I look at it totally differently from that. We want to be #1 18-34 persons, and we will. And that's all that really matters to us. We'd like a nice balance between 18 to 24 and 25-34's. Those are secondary and tertiary numbers for the Q. They want to be the 30 to 45 year old station. We really don't compete. We share very little music. They don't play Pearl Jam, Stone Temple Pilots, Guns N'Roses, or Metallica. They only play 'You Shook Me All Night Long' and 'Back In Black' from AC/DC.

### But you are known to love to mess with your competitors' minds.

Brian: It's not something that I actively do sit around and think of ways to screw with them because I could do that ten times a day. If you want to know how I can screw with somebody, call Neil Mirsky and ask him. / was in Miami and I used to mess with him everyday, just because he would react to it. Winning that battle means nothing if you don't win the ratings and revenue war. We need to carve out our territory and establish ourselves before we can worry about anybody else. If, six months ago, we were on equal footing with the Q, we would have painted the target on them then. But the bottom line is that we're going for one thing and they're going for something else — they just don't realize it. And I think that is what has hurt them recently. Actually, 'ZPS has been the bio winner overall.

### *Is it short-sighted, though, for you to assume that as the population bulge gets higher, that you can't get some serious action in your 25-54's?*

**Brian:** I think that we're starting to show that already. We talk to people all the time. We're more into winning our audience over one at a time, so I talk to a lot more people. Pantera doesn't appeal to 12 year olds. They appeal to 20 to 30 year olds. You're making a mistake if you think that 25 to 34 year olds aren't buying Metallica, Megadeth, and Pantera CDs. When you really look at it, KISS came out in 1973. They've been around for 20 years. If you were 10 when you bought their album, which I think is probably a little young, you're 30 now. If you were 12 when you bought AC/DC in '76, you're 29 now, okay? It's not little kids anymore. The Scorpions have been around for 16 to 17 years. Rush has been around for 16 or 17 years. This music does not just appeal to 16 to 24 year olds. People buying Jackyl records aren't just 18 to 24.

### Interesting that retail has become such an important tool for you.

**Brian:** I've really gotten away from being worked on things. I look at sales. When I see a White Zombie #30 in this market — where 40% of all records sold are country — that tells me something is going on and I should be playing that. Personally, when I see a Posies, which isn't even in the top 300 sales, I'm like, 'Why should I bother?' I dropped Brother Cane for a couple of weeks to wait and see if anything was real with it. I really want to see records that sell. There are so many new artists out right now, I think the audience can only absorb so many of them. Myself, Duane and T.C. try to pick the ones that the audience is voting for with their pocketbook. The only records that I can say I've had my arm twisted on - and there are two of 'em - 4 Non Blondes and Green Jelly. 4 Non Blondes is now the #2 single and album in the market, and Green Jelly was in the same situation. So, we know we sell records and we know we can, but we're not here to break every new band that comes out, especially when you have Aerosmith and Coverdale-Page and all these big names out. 80% of our playlist are the big names anyway. 10% are the new bands that may have hit singles, and maybe 10% are these up and comers that we're starting at night.

### Which will get two spins a day.

**Brian:** Yeah, two plays until we see how well it works. White Zombie is #1 requests now. But most of our music is safe. What's interesting about it is these are bands that Q doesn't play anyway, so it makes us sound different from them.

### What's the makeup of the Dallas new music pipeline?

**Brian:** I'm sure there's a some MTV there. I've got to give Z-Rock a little credit. They throw so much up against the wall, some of it's gotta stick. And then there's bands that kids may like because of the album cover. You know, that 'Parental Discretion Advised' may fuel some sales. Then they play it for their friends, who play it for their friends, who go out and buy it, who call the station and they may have seen it on Headbanger's Ball or maybe The Edge played it here. There's a lot of things. It doesn't matter who starts them, it's who finishes them as far as I'm concerned.

#### Were you surprised that John Tenaglia didn't stay the course at WSHE and WHTQ after you left?

**Brian:** No. John was pounding me to do classic rock in Orlando for a year and I told him I thought it wouldn't work. My last trend there was a 7.1 and 'DIZ was in the low 5's.

#### TK Communications owner John Tenaglia is known as a demanding, headstrong guy who knows what he wants. Of all of the past WSHE PD's you seemed to have gotten along with him the best. What was the secret of that chemistry?

Brian: First of all, he's not a bad guy. But the bottom line is, he wants to win, and so do I. I never lost sight of the fact that it was his company. I was always given the opportunity to disagree, and I won many arguments. Like I said, Orlando wasn't classic rock, he wanted to do that a good six months prior to the change after I left. I won a lot of battles, and we compromised a lot. It was very rarely a 'Do it this way,' and it was never 'You do it this way, or I will find somebody else.' We had a good mutual respect for each other, and we both had common goals. We wanted to be successful. I was paid well, and he took good care of me. If I ever needed anything for my family, he took care of it. What more could you really ask for? He gave me an opportunity to see and learn things that I never had the chance to be involved with before. For instance, I met with the bankers when he talked about refinancing. I got to ask questions. If I would've stayed with him, down the road John probably would've helped me get my own station.

### With a carrot like that on the stick, why would you leave?

**Brian:** John understood that I had to see what it was like to work for a company with more resources.

### It sounds like the guy was there for you.

**Brian:** And when I left, he said that if I ever wanted to come back, I could. And that's nice to know.

### If you had your choice of any programming job in America right now, what would it be?

**Brian:** I like the one that I have, and it was always a goal to get here. I think that there are two great opportunities in America right now. One is in L.A. and one is in New York. Again, this is not to say that KLOS is not a good station, but there is no 24 hour contemporary music intensive rock n' roll station in Los Angeles. If you want to hear rock n' roll in mornings, there's none to be heard. And at night, if you want to hear a new song, you have to listen to KROQ and then you can only listen to them for so long, because then they have Love Lines.

### But you've got to agree that Carey's done a great job with a broad spectrum approach.

**Brian:** Well no, Carey single-handedly put two stations out of business. Unfortunately, they are stations that he worked with, not against.

### Gimme a break, Brian, with as many cooks as there were at WYNF...

### Brian: He was the consultant, wasn't he?

Yeah, but there was also Hadges, and obviously Steve Downes had a lot of input, and certainly you know that Sean Portmann had more say-so than anybody. If anything, Carey did a fine job of fixing the mess that Downes inherited when he took the PD job. Plus, I think that Carey has captained a killer turnaround in Los Angeles, what with Mark and

### Brian beating Howard this trend and KLOS beating KLSX and finishing #2 25-54 in the Spring Book.

Brian: I was trying to be funny. But the point is, whether he has done a good job or not, there's an opportunity with another station with a 3.5 to 4 share that just plays Bon Jovi and Def Leppard music all the time. KLOS is getting away with too much. I mean, I heard 'It's Still Rock N' Roll To Me' into 'Plush' on a Sunday afternoon when I was there a couple of weeks ago. I've heard a lot of things like that on the station, but the point is that if there was another station that was totally mainstream playing music in morning and at night, it would do really well. Plus, the jocks talk so much. I mean, you can squeeze another two records an hour with all the yappin' on that station, and that is when they are supposed to be playing music. You could go jockless, play music in that market and get a 3.5 share, I'm convinced.

### But no one's been able to pull that off, from KWST to KMPC to Pirate.

Brian: Pirate was never a mass appeal rock station. When Greg came in, there was already a KNAC. When Scott was there, he had no understanding of AOR. If he would have been a little more rock n' roll, he was probably the closest to it being right. When Carey was there, he was playing '60s Who records into unknown '90s bands. I'm saying you put a tight listed, contemporary rock n' roll station in that market. Not a metal station, not a classic rock station, just a right down the middle, 40/60 signal. Don't do any yappin', no contests, just play lots of music. You're going to get big ratings in at least two dayparts, because people in the market want to hear music. I've heard very little from the average person, positive, regarding Greaseman in that slot.

### We're done with Los Angeles?

**Brian:** I think that I made my point. You may say I'm crazy, but it's the era of niche marketing, and finding a hole, that's the hole for somebody if they'd like to go into that market.

### Agreed, but with all due respect, it's not particularly difficult to see that hole. Filling it is another matter.

**Brian:** I will say this, I think that KNAC has really improved. Schock has the music much more familiar, I think they sound pretty good actually.

### Let's move on to New York.

**Brian:** It's a shame that there isn't a contemporary rocker there. If I owned Hot 97, that's what I would do with it, 97 ROCK, right in the middle of the dial there, great spot. You know, all those years when 'PLJ was successful, there was 'NEW and there also was, at least for a short time, the Doubleday station.

### WAPP.

**Brian:** At least two of them were in the fours. Now, K ROCK is in the fours, primarily because of Howard, and 'NEW is where they're at. I think the same thing that would work in Los Angeles would work in New York. Wouldn't you think that Hot 97, rather than being third in the CHR and fifth in the ethnic race, would want to dive into the rock n' roll arena? 'PLJ is doing well, because they are probably about 75% white pop in their mix anyway. If you want to hear a white pop record, there really is no place to go except 'PLJ, unless you sit through 'NEW, and then you have to sit through something from the '50s or early '60s. And when WXRK, which is much better programmed musically, goes to their talk segments, the listeners have to go to 'NEW or check out 'PLJ, and I think that is why they have done so well. They've attracted the women, who used to listen to 'PLJ when it was rock, and some women who used to listen to 'NEW, aside from also getting some disenfranchised people who are also tired of rap and dance. I think that 'DHA is far too wide, but I think that if they entered New York, they could get what 'NEW's got share wise. Quite frankly, I think that 'DRE sounds the best of them all. They're probably the most enjoyable and fun to listen to, they have character and personality outside of the records.

### Back to the Greaseman for a moment. I'm not buying the whole Greaseman thing at all. In fact, I think that is why 'YSP is having such a hard time with 'MMR at this point.

**Brian:** I think that Tim (Sabean) has done an excellent job, I mean, Tim's music is always very, very good.

### There is no doubt about that. I just think that between Howard, and now Grease, you got a fundamental change in listening patterns.

Brian: You know what, you also got the Eagles, and in New York they're carrying six Jets games. The whole concept of classic rock has always been that if you want classic rock, you tune them in, and you hear classic rock at any time. Well, now that's not true anymore. Now you have to listen to the Greaseman, if you don't like football, you have to listen to the Jets, or you go to 'NEW, and then you have to hear even more bizarre segues. For instance, 'Do Wah Diddy' from Manfred Mann into 'Wicked Garden' from Stone Temple Pilots. I heard it last weekend, I don't remember what time it was, but I think it was in the afternoon. And this 'Classic Rock And More stuff', why, when there is already a station calling themselves classic rock? What is Westinghouse doing? In Detroit, they took a Music Director with no previous PD experience, and put him in one of the three toughest battles in the country, and where are they now? 'NEW takes a guy who hasn't been a program director, it just so happens that he is a good guy, great on the air, and gets along with everybody. This does not qualify him to be a program director in a major market and we all know what's happened since he's been there. It's nice when you can get along with everybody, and it's nice when everybody likes you, but results are the bottom line. Not a lot of people that work for Scott Shannon like him, not everybody who works with me, likes me. I think that Ken Anthony is one of the few guys who are successful, and people like him. Steve Young, he's a good guy who is successful and most people like him and, of course, there's Ed Levine. But most of the time, the people who are perceived to be a little tougher, a little more aggressive, a little more difficult to deal with, they're primarily the ones that win.

### Are you surprised that there is not a New York metro based big signal Alternative?

**Brian:** I think that 'DRE covers enough of the area that someone else wouldn't bother to step into it. When people think of New York, they think of all these signals, but there aren't a lot of signals in New York. People think that it's a big city, that there are all these radio stations,

but they're really aren't a lot of metro signals. There are only two A/C stations, two urban, then there is 'PLJ, Z100, and Hot 97. One country, a couple of classicals, 'NEW, WXRK, WBAI, and that's all there is on the FM dial. You have 'PAT as well, which is beautiful music. The point is that there aren't 50 signals in there.

### Like you deal with in LA.

**Brian:** So, there are less broadcasters to make that move, and I think some of them are a little scared of it, although I would think being number one anglo, 18-34 in New York could make you a hell of a lot of money.

### What do you consider your overview of the most significant ratings, wins and/or turn arounds of the last twelve months?

Brian: In trying to think about what really stands out? I think that the 'ZPS beating Q was quite significant, because something is going to shake out from that. WMMR bouncing back, I think that is fairly significant. I think that they are doing what they should be doing now. They're not afraid to rock a little more. I think that we've all to some degree lost sight of the fact, 'You don't go to bed one night liking Jimi Hendrix and wake up the next day and want to hear Air Supply.' The music that you grew up with is the music that you are going to keep with. And if you liked AC/DC fifteen years ago, you're probably still going to be interested in what their new song sounds like now. I think some people have made the mistake of trying to be more 25-54 by playing more Crosby, Stills, Nash and Young, throwing in some old America, and playing more Beatles, and I don't think it has to be that way. I think that you are going to see tempo driven classic rock, I think vou're going to see Male A/C stations develop, I think that you're going to see 18-34 rock stations, a couple of different genres of them. One being alternative, one being harder rock. I think you are going to see a lot of different things.

### What are your thoughts on morning show syndications?

Brian: I think that there are only a few that work. Ron and Ron have to do one thing that they haven't done, and that's to reintroduce everything they've ever done to their new audience. So many people have said to me, 'It's not going to work, I can only hear topless dancers so many days in a row, it's too inside, I don't get it.' I think they have to go back and reintroduce everything and re-explain everything. Now is the time. They're not on in Tampa, so it's not like they are going to bore the audience there. They should go back to day one and explain every single solitary thing that they do on the radio. Almost to the point as if they were explaining it to a child. Howard doesn't have to, because he doesn't have characters like that, it's an ensemble group. I don't feel when I listen to Howard that I don't get it, from a year ago.

### How do you think Mark and Brian will eventually do?

**Brian:** Well, you see, those guys to me are generically funny, and I think that they'll do well. Again, they're funny guys. I don't think their stuff is too inside. They know a lot of celebrities, which is an advantage as well. If they continue to go on, that's going to be a major attraction to the people in Portland. So, I think that they'll do well. I don't believe we're going to see 50 people syndicating morning shows though. I think it's going to be limited to about 8 or 9, and then, cyclically, everyone is going to want to have their own morning show again. Being local and topical will come back.

### Why has Howard's radio network been slow to grow of late? The last non-Infinity station to sign on was New Orleans, six months ago.

**Brian:** I think that once owners see the last trend and the next trend, and then the Summer book, there will be more people hopping back on, specifically the Southern markets. The Southern markets were a little more hesitant. They wanted to see what was going to happen here.

### You think you were a test market of sorts?

**Brian:** Absolutely. We were the only ones that had the balls to do it. But you know what? Everything in life is a gamble. There are no guarantees. That is one thing that I have learned from this job, but it has made it interesting. In many ways, this has been the most challenging year of my life.

### Even more than working with Big John?

**Brian:** You know, it's really a different thing. When we win here, it's going to be a lot more enjoyable, because it's been damn tough. I wouldn't have guessed that it would've been this difficult.

### Why are you so sure you'll succeed?

Brian: Well, you know, you do what you got to do to win, and according to our research this is our greatest opportunity. I never had research before I came here, and quite frankly, we didn't really do any research before the beginning of this year. We were kind of trying some things, doing more on gut instinct, and looking at it, as opposed to asking the audience what they wanted. Now that we have asked the audience, the response has been tremendous. The phones have been hotter than they have ever been, our promotions are four and five times what they were, and this is just in the last 90 days. We've got a great staff. Our midday guy, Russ Martin, has his own TV show here locally, HOT TV which is going to be syndicated throughout the state. Dwayne Dougherty just kickin' ass in the afternoons, he's going to become a legend in this market, and we have the best night guy in America - T.C. at night. We've got RJ on overnights, working real hard, she loves to go out to promotions and do things. Plus, people tell us we do the best job of executing the Howard Stern show in the country, we have Les and Brad to thank for that. And, by far, we have the best promotion director in the market, Cindy Coyle. We have a real good raw, young talent in production, Jeff Laird. As well, we've got the hardest working staff in this country, from Donna right on down to the interns. We're going to win, because we deserve to win, because no one works as hard as we do.

### IRIPLE ACE

ohn Hiatt, "Perfectly Good Guitar," A&M Not too long ago, a very wise A&M executive told John Hiatt that he is the poster boy for Triple A and fact he's proven once again with the release of **Perfectly Good Guitar**. Triple A greeted the title track with 21 OTB adds and the highest debut of the week at 26". KMTT's Brad Dolbeer wasn't surprised at the early success of the record, "I saw Hiatt in '78 or

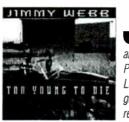

'79 in Portland opening up for Ry Cooder. I knew then that it was just a matter of time until he hit it big. He seems to get a little bit closer with each album, and I think this may finally be the one. He's certainly got the artists' approval. After all, when Bob Dylan covers one of your songs, you know you're doing okay." And as usual, **KBCO's Ginger Havlat** got right to the point, "John Hiatt rocks.... thank you very much."

### THE HOT CORNER

**elissa Ferrick, "Love Song," Atlantic** A masterful musician from Boston, who, at the ripe old age of 22, has already had quite a career. She opened for Morrisey on his 1991 tour, and developed a nice following as a result of both the tour and her experience on the coffeehouse circuit. Her style defies categorization; she possesses the sensitivity and expressiveness of an accomplished singer/songwriter, though

to limit her to that label would be unjust. <u>Massive Blur</u> is a candid and compelling album, and serves as an ample showcase for her talents. The lead track, which displays Ferrick's vocal intensity and her knack for songwriting, is compelling with intimate, confessional lyrics and tremendous honesty. Absolutely perfect for Triple A, this track is sure to endear her to your listeners and add to her legion of admirers.

### Immy Webb, "Too Young To Die" Elektra

Jimmy Webb may not be a household name, but I'll betcha can't find even one person who doesn't know at least one of his songs by heart. "By The Time I Get To Phoenix," "Up, Up And Away," "Galveston," "Wichita Lineman," "All I Know," "MacArthur," that's right, he's the guy that wrote all of those songs and more. He's also recorded five albums of his own, but it's been over ten

years since his last release, **Angel Heart**. Webb credits Linda Ronstadt's involvement as co-producer as part of the reason he returned to the studio to record his latest Elektra album, **Suspending Disbeliet**. And while the title of the first single aimed at Triple A, "Too Young To Die," might seem to be self-explanatory, it's actually a love song to his car — a Shelby 427 Cobra Roadster that Webb bought when he was 21 and has kept ever since.

**C racker**, **"Low**," **Virgin** The group, headed by David Lowery, has endeared many with its brand of earnest, gritty pop, and they are now out with their second album. Recorded in the desert town of Pioneertown, California (in an abandoned soundstage), <u>Kerosene Hat</u> is a cohesive record, managing to maintain that Cracker soul throughout. The general spirit of the record is captured in the first single, with its murky feel

and defiant, brutally honest attitude. Lowery's gruff vocals and lashing guitar work are the band's foremost character traits; they give the band a charisma that transcends demographics, and appeal to anyone with a lust for living and a disdain of pretentiousness. For some insight into Lowery's mindset, check out Spiro's interview in this issue's Alternative section.

his Smither, "Happler Blue," Flying Fish Who better than WYEP's Mikel Elicessor to give us the story on this Triple A artist, "Play the record and then bring the guy in to do a show for you. This guy is an instant catalyst to improve your connections with your community. He's a great guy to work with. He gives killer shows. People love him to death. He performs sitting down and he has the floor miked and he keeps rhythm with his feet — the old fashioned way. He plays so hard for so long that the audience crawls out of the room thor-

oughly exhausted. He's completely the real thing. Everybody has favorite artists that they feel deserve that extra bit of attention, but not many deserve it as much as Chris. He literally came out of New Orleans 20 years ago — one of those overnight sensations that takes years to make. The arrangements on this album are completely sublime. Don't make the mistake of labeling him as a 'blues' aritst and put him on blues shows exclusively. As he'll tell you, he's a blues-influenced songwriter." **KGSR**'s **Jody Denberg** agrees, "Forget about the fact that he wrote 'Love Me Like A Man' for Bonnie Raitt. Just check out his smooth finger-picking and emotional vocals. Chris Smither is perfect for Triple A."

**T** he Paul Collins Band, "From Town To Town," Wagon Wheel Remember when rock and roll sounded unique and fresh? If not, listen to The Paul Collins Band. Some of you may remember Paul Collins from about fifteen years or so ago as a member of The Beat. After releasing two critically acclaimed albums with the band, Collins moved to Europe and began recording and releasing records for his growing audience on that side of the globe. He's back in good of NYC, and after performing as a duo with guitarist Arthur Lenin, the two teamed up with Rick Wagner (bass, vocals) and Will Rigby (drums, percussion) to

form the Paul Collins Band They're first independently released album, From Town To Town, is the perfect vehicle for the band and it immediately caught the attention of longtime fan, KSSY's Greg Roberts, "What a surprise! And a very pleasant one at that. We instantly went three tracks deep and are looking to go two more. Anytime Paul Collins wants to play in our neighborhood, he's welcome to come on by. The phones on this record have been just great. The response has been so positive, "Who was that? We love it!" Several tracks on the album will work at Triple A, including "Going Down Again," "Some Kind Of Love," "It's Not Easy Being Poor," "Dark Side."

Hello to all the faithful and believers of "If it fit's in a CD player, let's give it a shot" music stations. The flow of quality product has been relatively good over the past few months. Healthy new additions to the fold have been, Juliana Hattleid with a fine new album — first single "My Sister" doing well... Early into Imago's Baby Animals and quite happy about that!... Henry Lee Summer sounds wonderful, as do the Bulletboys — we're two or three deep with them... Willie Nile continues to get calls with "Hard Times"... Early feelings on Sylvian/Fripp are positive... Sheryl Crow does "..Vegas" so well... Also gaining response: Johnnie Johnson And The Kentucky Headhunters, Hollyfalth, Ocean Blue, Acid Test, Happy Rhodes and Manlac Street Preachers regardless of what Rolling Stone says. Mainstays like, Aerosmith, Soul Asylum, Almee Mann, Steve Miller, Bob Dylan, Maria McKee, U2, Donald Fagan and Porno For Pyros continue to do well. Cry Of Love, Urge Overkill, Smashing Pumpkins, Raging Slab, Hammerbox and Screaming Jets all have legs and continue to make new converts...

I just wanted to say a quick thank you to Pat Hunt and Frank & Billy Goodman at Trinity Records for sponsoring my trip to Boulder. It's great to be part of a community that is supportive of its smaller and less endowed members. I'm looking forward to meeting everyone at the Summit. See y'all in a matter of days! You know, I get a lot of comments about what and why am I playing this or that... Or, more often than not, why I'm <u>NOT</u> playing something. Well, my feelings are that "If it don't fit in a pigeon-hole...well, maybe it ain't a pigeon."

...And now, in response to NOT seeing the meteor shower, here are some of the Top Ten (or so) things MUSIC DIREC-TORS say to all you FINE RECORD REPRESENTATIVES...

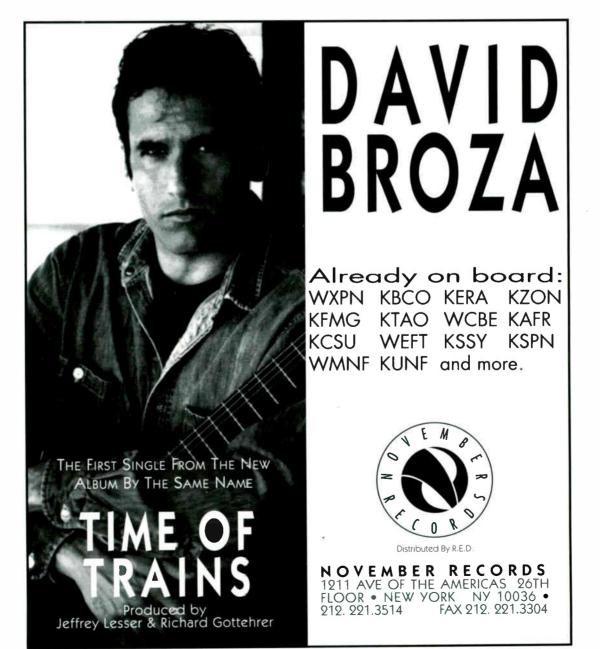

10) CD player broke and the engineer is out of town.

- 9) WHO?? Never heard of them...NOPE, haven't seen it.
- 8) I can't seem to cut the Tamper-Proof label.
- 7) A local community action group complained to the FCC about them.
- 6) Didn't they break up, or something?
- 5) Somebody told me they all were maimed in a bus plunge.
- 4) Didn't they just do the Jane Pratt Show??
- 3) The Fed-X guy took it...really!
- 2) Jay Leno thinks they're cool.
- ...And the number one reason...

1) Arsenio thinks they're cool.

On why your record isn't on our station:

AUX. Response: We just changed our format. We're now LITE AC-AOR-NEW ROCK-COUNTRY-TALK-DANCE-URBAN-NAC-INDUSTRIAL-TRI-LINGUAL-SPEED JAZZ nostalgia... Who do we call for service??? In the words of Julia Louis-Dreyfus..."I LOVE YOU ALL!"

Blues Reviews

Down under King of the Slide Guitar starts off burnin' in this 11-tune set, his second on the Alligator label. Then after rockin' your socks off on three tunes, he mellows into the Canned Heat-ish "Mean Old Airplane" before jetting into the first single, "Working Overtime." Hole's style is squealing, frenetic, screaming guitar work that boils like thick soup that's

been heavily seasoned with the sounds of the Delta bluesmen and electric Chicago players he listened to on record as a teenager. He pays tribute to two of those mentors in covers of Muddy Waters' "I Can't Be Satisfied" and Big Bill Broonzy's "Key To The Highway." Everything else on the disc is penned by Hole, whose writing is also infused with early blues. Phrases from the past are woven in and out of contemporary stories making them all the more passionate. The capper on the set is the acoustic instrumental "Berwick Road," a perfect cut for the AAA format.

The King of the Flying V guitar, Albert King, died this year, unexpectedly. The left-handed guitar giant was in the middle of putting a new record deal together. Since new King Albert is not to be, the next best thing is this two-disc set Rhino has just released, "The Ultimate Collection." Because King's records have been slow to appear on CD, this box is particularly wel-

come; an added bonus is that most of the man's major tunes are here — "Crosscut Saw," "Born Under A Bad Sign," "Blues Power," "Blues At Sunrise," "Angel Of Mercy" and 32 other classic are included. And the pristine sound sure beats those scratchy old Stax records with the grooves worn away. For those wanting to know about King's life and career, the 50-page booklet is chock full of info and a number of cool promo photos. After perusing the booklet and listening to the discs, you are once again reminded that without Albert King many British blues rockers, and particularly Eric Clapton, would have been without inspiration.

Lucky Peterson, I'm Ready, Verve A child prodigy who was making TV appearances and recording at five years old, Lucky Peterson is a mega talent, proficient at writing, arranging, singing and playing a number of instruments. Though he is now an adult, 30 years old to be exact, and could do anything he wanted in music, Peterson has stayed with the blues he learned in his father Buffalo, N.Y., bar. But never has he

had a recorded set that smokes like this 60 minute one that's been released as one of Verve's first blues efforts. On "I'm Ready" Pelerson swings, sings and plays with the sophistication and chops of a jazz artist, the energy of a rocker and the soul of a bluesman. His blood boils over in his guitar licks on cuts like "Junk Yard" and "Don't Cloud Up On Me," the first single from the disc. And it's not all dazzle — Peterson's instrumental "Tribute To The King " (and he means all of them — Albert King, B.B. King, Freddy King and Martin Luther King) is as emotion packed as "Blues Power," "The Thrill Is Gone," "Goin' Down Slow" and the "I Have A Dream" speech all rolled into one Sunday morning sermon. And his organ playing is always in church. As for Peterson's vocals, there's a new huskiness to his singing on slow tunes like his cover of Howlin' Wolf's "Who's Been Talkin'" and the original "Nothing But Smoke." Every cut in this 12-song set is dynamite, bringing Lucky Peterson into his own. Indeed, he's ready.

Champion Jack Dupree, New Orleans Parrelhouse Boogie, Columbia Toss out those used-up vinyl copies of "Weed Head Woman" and "Junker Blues," the CD version of the Champion Jack Dupree classics are here. A barrelhouse piano pounder who was also a boxer (thus the title Champion Jack) and a chef, Dupree left his New Orleans birthplace in 1930, taking his blues and stories North

and eventually to Europe where he lived most of his later life. The 25-song set, "New Orleans Barrelhouse Boogie," is from Dupree's Okeh recording sessions in 1940 and '41. With a rollicking, rolling piano style setting the mood and only a guitar or bass accompanying, Dupree tells tales of gamblin', prison life, junkies and love — lost, found, and on the sly. It's an amazing portrayal of the times and the perfect partner for a double shot of Dupree's more recent recordings in which the themes are more sophisticated and global.

### Blues Interview

Though he'd been playing for decades, few people knew who Dave Hole was until three years ago when the Australian guitarist sent Jas Obrecht of Guitar Player magazine his debut release, "Short Fuse Blues." Obrecht was so impressed by Hole's dynamic slide playing that he contacted Bruce Iglauer of Alligator Records. Iglauer released the set in the U.S. to much acclaim. Hole's second disc, "Working Overtime," is just out, and his first American tour is in the works.

### You're calling from Perth?

Yes, I'm at home here in Perth ---- it's the middle of winter.

#### Although you're on Alligator here in the States, you record there, don't you?

Yes, there's quite a good studio here in Perth. We have a record deal here with Festival Records. They're actually the only Australian major label. We're their only blues group, but they do distribute quite a bit of other blues — the Alligator catalogue for one.

### Is blues blg in Australia?

There's quite a large blues following in Australia, but the population is small so we don't have huge numbers. A lot of blues artists here do find difficulty getting decent record deals because the number sold isn't going to be huge. It's similar to the U.S. I suppose.

### What about blues radio?

That's limited to campus radio and occasional blues shows. I get played on the blues show, campus shows and some airplay on rock radio.

### Are you a star there?

I wouldn't say I was a major star, but I'm fairly well known. That's only happened in the last couple of years since I released my first album. That went very well in Australia, although I'm not as well known as someone like Midnight Oil or INXS who are big rock artists.

### How many copies of that first disc, "Short Fuse Blues," did you sell?

In Australia about 12, 000 so far, and no blues album has sold more than 20,000 copies here. John Lee Hooker's "The Healer" went close I think. I haven't had an update for some time from the States, but I think that's about 20,000.

### What made you decide to choose the blues?

I didn't really choose it, it chose me. I started playing guitar when I was young, about 12. When I was 16, The first blues artist I heard was Muddy Waters. It really got me interested, it communicated to me. I realized it was part of a style of music so I sought out other artists and wound up finding John Lee Hooker and others. As soon as I heard the blues, it was a sort of love affair, it spoke to me, and I switched my musical efforts to blues and that's been it ever since.

### Though you haven't played in the U.S., have you visited here?

I was there as a tourist, visiting. I went to San Francisco, L.A., down to Texas, New Orleans and drove up the Mississippi to Chicago. That was about two years ago. It's a fantastic country, I'm itching to get back. The plan is that I'll tour in late September and October.

### With the band that's on the record?

Yes. I've always toured three-piece up until six months ago, now the keyboard player is in the band.

### Though you're a world away, your lyrlcs seem to have a universal themes. Where did "Stormy Seas" come from?

I'm always a little apprehensive about explaining songs in too much detail but it's really about the troubled times that we're living in and how they affect individuals. Being laid off from work, marriage break-ups, ill-health. It seems quite a lot of people who are important to me are having difficult times in one way or another, and it's affected me of course. It's kind of depressing at times, but that's the motive for that song.

### Do you think that's the middle age blues, or does it have something to do with the economic times?

I don't think it's too much the middle age blues. I'm 45 but it's not me. I've been having quite a good time the last few years, but people around me haven't. I think it's to do with economics partly and the sociological upheaval that's been happening in the last decade.

#### And "Mean Old Airplane?"

That's really just a travel kind of song. A lot of blues songs are about trains taking their baby away. It's always planes now. It's a separation type song.

### That's kind of acoustic-sounding, as is "Can't be Satisfied." I don't remember acoustic tunes on "Short Fuse Blues," so that's new.

You tend, when you're writing and arranging songs, to have an acoustic guitar in your hands, and on those two tunes it felt really good that way. The band thought it sounded good, so we did it with an acoustic guitar. Also it's a variation on the heavy electric sound.

### And Berwick Road has a very soft feel. Was it inspired by Stevie Ray's "Rivlera Paradise?"

Not really. I love everything Stevie Ray did, but that isn't the source of that song. On first album we did a version of Fleetwood Mac's "Albatross," which is a song I've played for years and always enjoyed. And it comes from that instrumental, ballad heritage.

What is Berwick Road?

It's actually in England. I was born in England and that's my family address back there. They lived there for four generations, sold the house only last year. Furthermore my wife comes from the same area of England. She didn't leave until she was 16, and she used to attend the school in that area that's on Berwick Road. So it's very much a nostalgia sort of thing.

#### Yeah, you get that from the tune too. What took your family to Australia?

My father just scraped into the Navy, he was very young. And he came to Australia and loved Perth. A couple of years after he was discharged he immigrated here.

#### Are there blues clubs in Australia, or do you play rock clubs?

There are clubs, and some of them are geared a little bit toward blues. But the main venues we play in Australia are pubs, which are like big bars. They're attached to hotels, and the typical capacity for them is somewhere between 500 and 2,000. That's the main place blues and rock bands play. It's a big circuit. Bands like AC/DC that come out of Australia have cut their teeth on what we call the pub circuit. The clubs tend to be a bit more disco oriented, and they start at midnight.

#### Do you hope this record will cross over to rock?

I try to concern myself mostly with making the music and not too much with the marketing of it. Certainly here in Perth there's a fair chance we'll get a fair bit of rock airplay. The more that it gets to people and sells, the happier I am, but I haven't focused on that aspect in the writing or recording. I've done what felt natural to me. Of course one always hopes it will reach the widest audience possible.

### You play slide from the top of the guitar rather than reaching around the neck. You broke your finger and that's how you started playing that way?

That's right. I was just learning to play slide guitar when I broke my little finger, playing Australian rules football. I had three months with a cast on that little finger so I came up with the idea of putting the slide on my index finger and hanging it over the top of the neck. That's the only way I could get any sound out of the guitar without any pain. Then when the cast was removed I went back to the so-called correct way of playing, but it didn't feel nearly as comfortable so I thought I might as well stick with this.

#### Do you play everything that way or just slide?

Just slide.

You know Jeff Healey, a Canadian blues rocker, plays on top of the guitar.

### You know Jeff Healey, a Canadian blues rocker, plays on top of the guitar.

Yes I did a show with him in Perth. He's fantastic to watch.

### You seem to be a lot more rooted in the Chess era blues, the Chicago electric blues while Healey is more of a contemporary blues rocker.

Yes, that's true. He's a lot younger and his influences are more diverse. I've got a definite rock element in my playing, it's not mainstream blues, it's rock blues that I do. But you're quite correct — it's more rooted in either the Chicago blues or the acoustic things of the '30s, your Robert Johnsons and Charlie Pattons.

### Once you started digging around for the blues, was it hard for you to find those kind of records?

Incredibly hard. When I was learning there was very, very little available. It was a matter of hearing about blues artists long before we actually heard them. We'd hear about this guy who was supposed to be really good, Son House, then we'd spend about two years trying to get an imported copy of Son House. My whole learning experience was a struggle trying to get hold of the actual records. So when I say that Muddy Waters was the first artist I heard — there was no blues section in the record shops — it was just somehow, I don't know, maybe it was sent over here on error

### What was the Muddy Waters record you first heard?

It was the one called Folk Singer with a very young Buddy Guy on it.

Yes, a very cool record. Even though I grew up in America and we could actually see artists like Rev. Gary Davis and the young Crawlin' Kingsnake himself, John Lee Hooker, perform, we had that same kind of little club, I guess you might call it a cult, around people like Son House. I wonder if the de-mystification of the blues, with all the reissues and blues societies, has affected players or listeners?

The availability of blues, especially like the historic recordings, is really a good thing. But there was a cult built up around the blues and the legendary artists that was quite passionate, and I don't know if that's so true today because there is such an availability of the products. You don't have to research it or seek out the recordings, which was part of the process by which we got involved.

#### And a respect for the blues came out of that. Once you were able to find a Mississippi John Hurt record, it was very, very precious.

Yes, you do value something that has taken a great difficulty to get hold of.

#### Those are our modern jump/swing blues players.

Yes, there are quite a lot of good ones doing that, Little Charlie Baty.

### Do you make your living as a musician, playing the blues?

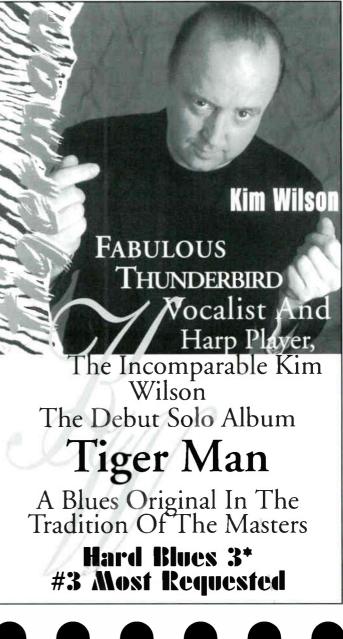

Yes, and I have for 20 years. I won't say it's been a good living. I never had a record out until "Short Fuse Blues" because the companies are based in Sydney, 3,000 miles from Perth, and they look no further than Sydney for new product. The way it happened for me is when I got the money together I recorded "Short Fuse Blues" and started selling it out of my home. Then they got interested, once they saw it was making money.

### Who do you listen to now?

I still listen a lot to those old recordings. But I listen quite a bit to Stevie Ray, he took a step in a slightly different direction, and the music's all the better for that. I like Albert Collins, Robert Cray, I think there's a genuine passion in his blues playing and I like it. John Lee Hooker is still with us, thankfully. Anyone who's out there doing the blues I'll listen to it.

### mashing Pumpkins, "Cherub

**Rock**"/"Siamese Dream", Virgin Heads up everyone... If you miss the boat on this one, you are a sorry sort. 'Sides, you'd have to be downright deaf and/or living in East Gebip (nosuchplace south of Medford) not to know that the Smashing Pumpkins are '93's Nirvana or Pearl Jam — although a very different slice thereof. They're more like an ethereal whoosh of

atmospheric effect washing up on shores of grungy power grind with semidetached male or female (depending on the song) vocals tumbling effortlessly around within. Smashing Pumpkins are huge (pick a chart any chart — check it and see). In fact, Jeffrey Naumann informed me today that the band's already highly acclaimed new.album, "Siamese Dream", is already gold (their debut "Gish" is sure to follow suit now). Congrats are definitely in order to both the band and the label. This has been one of the smoothest, calmest, best handled promotions we've seen in ages — raised off the streets into the alternative huddles, tossed into the metal pit and now, AOR/COR's about to get dosed with rich thick helping of "Cherub Rock". A swinging power groove of a delightfully catchy melody submerged in heavy distorted grinds. Sweet to the ear, though tough enough to crack your head. It's your turn folks... oh, and the world is watching.

Window Construction of the second sec

their self-titled debut. The album was fronted by this song and proceeded to chomp away at the metal chart

with a little help from a heavy, wall-of-sound guitar style and surprisingly steady support from, of all things, Beavis & Butthead. That's right! The wind strewn video for this song was featured (to head-banging and "cool" raves from the disgusting little twerps), very visibly for a good stretch of an episode or two. You can't beat that kind of promotion. You also can't beat the fact that Nudeswirl were a Top Fifteen metal act for many weeks (topping out at 11"), with good sales and great reports handed in from their tours with Danzig and Flotsam & Jetsam. The buzz is still growing in an almost underground way as well — continuing to stir coals of curiosity among young listeners. Now the focus is being shifted towards COR/AOR, and with its fast wah wah chug, slight GNR guitar/bass feel (just ask Beavis & Butthead) and the fresh alternative tilted vocals, the song should fit nicely into the mix. It's crunchy and catchy, while loaded to the hilt with guitars — can't beat that.

**ollyfaith, "Purrr", Epic** This great debut record was serviced to Alternative a couple weeks ago and Metal last week (though not considered a priority for that format). Already it's picking up adds at both formats. It's only right that you folks should be aware of it as well, since it's one of those hard swirling, guitar driven records that just hooks onto you and won't

let go. Hailing from Atlanta, Hollyfaith are a four piece (Kevin Morrison-guitar, David Franklin-bass, Jeff Warneke-drums and Rob Aldridge-vocals), who've been working the Southeastern club circuit for some four years now. Produced by Don Fleming (Screaming Trees, Teenage Fan Club), the record explodes with energy, exudes a variety of speeds and textures, and offers just the right alternative affectation to keep it right on the edge. Big, big guitars support the huge resonant vocals of Aldridge, while the rhythm section crashes madly round about both. They dodge between classic frains, tipsy psychedelic grooves and full on crunch burning rock n'roll — which all adds up to a wholly expressive and strong piece of work. We dig it. Check out "Bliss", "Color Of Blood" (great tune), "Watching, Waiting, Turning", "Whirlwind" or "Who Needs You" (techno tinged). A cool record that continues to grow on us by leaps and bounds. "Purrr".

### CURRENT ORIENTED ROCK

Rock 103's been busy around town as you can see, and caught this shot of the Bon Jovi press conference held at the Merriweather Post Pavilion in Columbus, MD. Rock 103 was present as Jon signed a check made out to the Red Cross for \$100,000 dollars! The proceeds go to the Midwest Disaster victims. Talk about keeping the faith — what a great way to give folks in flooded areas some of that.

Ace Frehley did an in-store before playing Steeltown in Baltimore. Surrounding him are Rock 103 (WXZL) Promotions Asst. Brian "Hoodlum" McBride, Karen Aylor (middays WXZL), Promo Asst. Jo Jo and Rock 103 Promotion Director, Mary Kay LeMay.

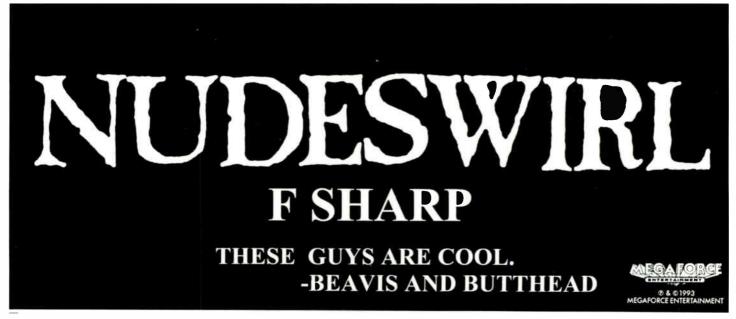

One more shot from KIOZ-San Diego's visit with KISS at their studios, just 'cause it was too great a shot to pass up. Here's PD Greg Stevens playing paper, scissors, rock with Paul Stanley in the KIOZ hallways.

WXZL-Annapolis' Karen Aylor's someone we haven't heard from in a while, so we were thrilled to get a couple of photos from her this week. Yep, she's still alive and rockin' and by the looks of things doing just fine. Here's a shot of her with wonder vocalist James LaBrie (Dream Theater). The band played Pier 6 in Baltimore recently and stopped by Rock 103's studio's for a midday hug. Ahhh.

WAAF-Boston got active, and decided to do something about helping out flood victims in the Mid-west. Here's a shot of WAAD morning jock Greg Hill (center), heading up the station's "Aqua Aid" campaign. The station accepted over 500 gallons of bottled water on July 20th, and promptly sent it on its way. Kudos to them for caring.

#### PROGRESSIVE

The second record from the world's foremost semi-hip band (see interview) is coming out and, just like that, life is good again. Recorded in Pioneertown, California (where the band dodged tumbleweeds and bad-guy bullets at the saloon in order to get the music on tape), Kerosene Hat is darker and more rugged than the last album. The feel of the record is

typified in the first single, an earthy track with the signature Cracker style (soul?) - honesty and humor over scruffy guitars and derelict vocals. The band's tremendous charisma and individuality makes them one of the most loved artists of the alternative world. Be sure to check out the interview with David Lowerv later in this section.

Connellis Steen Junes, TVF Do you remember when R.E.M. went through the exciting transition from underground raves to overground (mainstream) phase? It happened, but that seems long ago now. Well how about a solid musically rounded pop-rock band from North Carolina ready to explode! The Connells, not a new entity, have consistently put out listenable record-

ings for years. "Slackjawed" on first listen is an amazing pop radio friendly song. On more listens, perhaps this is the song The three O'clock never recorded but could have. If there is a band you'd really want to see suceed in '93, it would be the Connells. - Jonathan L.

#### nsa Ennick, "Luvo Simo,"

An extremely talented musician from Boston, Ferrick's style defies categorization. Her skills are much too broad to have her placed in any kind of stereotypical female singer/songwriter category, as her material transcends preconceptions. Her career got off to a formidable start as, at the age of 20, she was invited

to open for Morrisey on his 1991 tour (without having a record deal). She then signed to Atlantic and recorded Massive Blur, an album that serves as an ample showcase for her talents. The lead track is an introspective song that displays Ferrick's intimate, searching vocals and confessional lyrics. It is sure to strike a chord with your listeners and add to her already impressive following.

THE HARD REPORT

AUGUST 20. 1993

**B**arenaked Ladies, "Fight The Power," Warner Brothers One of the most interesting songs on the <u>Coneheads</u> <u>Soundtrack</u>, this hip hop classic is given the once-over by what is arguably Canada's most talented troupe. With a healthy dose of jazz and humor, the band reworks the track, changes a few time stuructures and lyrics from

the original and comes up with a version that puts P.E.'s original in a whole new light. Known for their incredible spice, both on record and live, the Ladies have a tremendous following, many of whom might not even know that this song is on the record. Getting this one out there is sure to please their legions of fans as well as anyone who enjoys something different.

**P**aul Westerberg, "Runaway Wind," Sire/Reprise What can you say that hasn't aiready been said about one of the true royal artists of this format? We'll let this simply serve as a reminder that the second single off <u>14 Songs</u> should already be on your desk. Never one to hold back emotion in his music, Westie's sensitive side truly shines on

this track, with its reflective lyrics and enchanting instrumentation. This track serves as the perfect follow-up to the raucous nature of "World Class Fad," and should keep him reigning supreme on the alternative airwaves until well into the fall.

**F** rank Black, "I Heard Ramona Sing," Elektra This three minute and 39 second gem begins with an intriguing one minute and ten second musical carpet leading into the vocal part. Charlesfrancisfrank will tell you, or has already told many of you this is his tribute to the legendary Ramones. "The speed they are-a-traveling, they are the only thing" would be a good clue. It doesn't mat-

ter, Frank could be singing about dog shit on a napkin, but it would still come out sounding like caviar on an island in paradise. If you played a third track from Duran, Depeche then serve up another from an image artist that fits your **format**. — **Jonathan L**.

adiohead, "Stop Whispering," Capitol The next single from the new superstars of alternative radio is a sensitive track that conveys tremendous vulnerability and emotion. Thom E. Yorke's vocals are here at their most expressive, and one listen will tell you that this track has instant widespread appeal. The CD single that you have contains two versions of the song (the original and a remix). The band re-recorded the song (it wasn't happy with the original version) and has included it on the later pressings of the album. The original is the more rocking of the two, having the guitar in the forefront (and some feedback-drenched, raw instrumentation at the song's tail end) while the remix is a bit more subdued. In either case, whichever one you decide to play, it's another winner from one of the true success stories of the vear

ane Child, "Here Not There," Warner Brothers Jane Child — hmmmm, name might be familiar to you. Think back to 1991 and "Don't Want To Fall In Love" which was all over CHR. Now it's time to free yourself from that image -Jane's back with a new album which showcases her ability to cover a very wide-range of stuff, including a couple of tracks that are perfect for alternative radio. With "Here Not There," Jane takes what could easily stand on its own as an exquisite ballad and twists it into some deeper and more complex with twisting, blistering guitar runs interspersed with sampled twittering of birds and Middle Eastern percussion elements. KROQ's already thrown this on a couple of times with some great results and she's wowed the folks on Lovelines. It's time to put away preconceived notions and listen.

he Fall, "Lost In Music," Atlantic/Matador John Peel proclaims The Fall to be "the best band in all the world." I won't go that far, but as a fan since '81 they are as unique as you would like. Branded too English for American radio, undaunted Mark E. Smith has over the years through many labels played his own musical game seemingly with little concern. This has to be one of the sweetest cover songs of this year. Come on, Sister Sledge - what an awesome idea! The beginning and the end might seem a wee bit strange to some, but in between, is the true soul of the song. Start at Light and watch it grow. — Jonathan L.

Non Biondes, "Spaceman," Interscope "Spaceman," the second track from 4 Non Biondes' debut album Bigger. Better, Faster, Morel, is as compelling and powerful as "What's Up!" — Linda Perry's distinctive, in-your-face, feisty wailing is instantly recognizable as soon as the first notes are uttered. There's no denying the impact this band has made at radio — over 800,000 copies sold and the buzz hasn't even come close to dying down yet. Already on this phenomenal track: KEDG, KNDD, WFNX and WWDX.

ranes, "Jewel," RCA This band has enamored programmers with their brand of ethereal, unearthly music that has Alison Shaw's shimmering vocals at the core of their sound. The next single off Forever further displays her tremendous skills and the band's lush instrumentation. It's a well crafted track that's a favorite among people with a ven for ominous and atmospheric English post-pop. Most of the stations that have given the Cranes a shot on their playlists have had marked success with them. It's time to test them out for yourself, and see if your listeners aren't enthralled by this unique, experimental sound.

The Breeders, "Cannonball," Elektra (20/22) The Breeders multiplied like mad this week causing a fantastic debut at 47\*. Stations were into breeding than anything else as The Breeders grab #1 Most Added status. Those want to be fruitful and multiply include: KACV, KBAC, KCMU, KEDJ, KMSA, KNDD, KTCL, KUNV, KXRK, WBRU, WDET, WFNX, WHTG, WIIZ, WLAV, WWVU, WXRT and WZRH. CIMX increase The Breeders

from Medium to Heavy and WNYO have been in Medium Breeder mode. Don't be sterile and boring — be a Breeder!

A bright prospect out of NYC has hit our ears here at the Hard Place. They're called Janet Speaks French, a five piece band with a killer debut EP, called Ne Me Parlez Pas d'Amour (don't talk to me of love), on they're own label, Picket Fence Records. Their talent has been recognized before, as their original demo tape made it to the final round of judging in Musician's Best Unsigned Band contest in 1992.

The songs on the EP are about love's underbelly, the twisted side of relationships that don't get explored all that much musically. The sound has quite a few exotic elements to it, as the hook from the raucous "Dakota Brown" is taken from a Native American chant, and "The World Is Full Of Colors," which has a decidedly Middle Eastern flair. The band has gigged extensively throughout New York State, and it shows in their upstate support. Gary Schoenwetter, overnighter at WEQX and host of "In Your Backyard," a half hour show that runs on Tuesday nights, raves about the band, saying that it "has had tremendous appeal with the listeners."

The band's music evokes images of (a much darker) Del Amitri or a Trip Shakespeare, in that they are intelligent pop songs that take many unpredictable turns. The tracks are filled with a tremendous personal intensity, reflecting on life's

Stan, "Suntan," Hug Records, U.K. If there was ever to be follow-up to the international smash "I'm Too Sexy" by Right Said Fred, Stan would be the man to do it with his hit "Suntan." It's a cool alternative, pop, CHR cross-over record.

Freddie Mercury, "Living On My Own," Parlophone, U.K. This is a very smart re-mix of the Freddie Mercury classic. This track has been re-worked to fit dance-leaning radio and will no doubt get those club goers shakin' it on the dancefloor!

Saidflorence, "Definitely Maybe's" Epic, U.K. A cool up-tempo alternative track with a fast paced guitar edge. It sounds like The Soup Dragons and Charlatans U.K. sped up. Keep Mom and Dad in the closet --- this could be harmful to their eardrums!

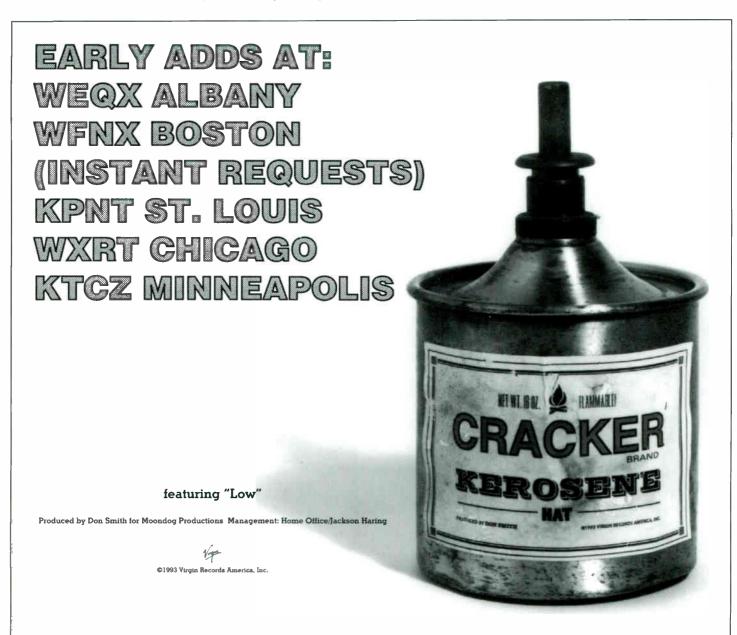

human elements. Add a touch of cynicism and an overall feeling of decadence, and you have the essence of Janet Speaks French. To get a copy of this wonderful release, call (800) JSF-LINE.

Some cool new things on Thirsty Ear have been turning heads around here. Buzzin' hard is **Small Ball Paul**, a band out of St. Louis whose brand of no-holds-barred hard rock rages all over the place. Their eponymous debut EP features four tight, explosive songs that are sure to win many people over. Vicious and direct, the band's material is charged with emotion and a tremendous sense of urgency. Their first full-length should be out in a few months. Next up is the wondrously hooky and melodic self-titled EP from **Queen Sarah Saturday**. Formed three years ago in Durham, North Carolina, the band's sound can best be described as unpretentious power pop with a driving backbone. The material captures a raw beauty with delectable harmonies and biting guitar hooks. Look for their debut full-length later this fall.

A couple of 7" releases should be making their way to your desk soon. The first is "Meaty Greedy/Shun" by **Muzza Chunka** (Rowdy/Arista), an L.A.based band that combines ferocious guitar lines with an aggressive overall delivery that's sure to impress tans of Tool, Helmet and the like. Their upcoming release, Fishy Pants (named after "the feeling that you get when you're all nervous and squirm around like there's fish in your pants") will be out at the end of October. Also, **Vanilla Trainwreck** is out with a new 7" of "Quandry/Florida," two brand new songs that they recorded in their base of NC. Their last full-length, Sounding To Try Like You received some massive play college-wise and turned many people on to their brand of blustery and intelligent rock that boasts many influences. Expect another 7" real soon, and their next full length release should be out in February.

New on Rykodisc is a 38-song, 2-CD anthology of one of the most important bands of the late '70s and early '80s. **The Soft Boys 1976-81** serves as an excellent introduction to the band who, fronted by Robyn Hitchcock, mixed psychedelia with twisted humor and irresistible pop charm. The collection is also sure to please the diehard fan, as it is full of rare gems, including demos and live recordings never before released. An impressive compilation that serves as an excellent profile of the band.

We're eagerly awaiting the new release from **Gil Scott-Heron**, the legendary "forefather of rap" who began his career with the Last Poets (whose albums were re-issued on Restless earlier this year). His powerful, radical spoken-word style was one of the most revolutionary of the turbulent early seventies, and he is an immense influence on the hip-hop artists of today. Heron has been averaging about 200 live dates a year doing, and his forth-coming Spirits (TVT) is his first recorded material in over ten years. Look for it to come out in October.

Just to touch on a few of the things hitting the college front this week (besides Jeff the Intern)... A new CD-pro on EastWest from D.C. hardcore honchos **Clutch** that features the single "A Shotgun Named Marcus" and two other tracks. A powerful display of their heavy hook-ridden intensity. Also, keep an eye out for the new single from **Stereolab**. It's called "Jenny Ondioline (Part 1)" and it features more of the same hypnotically melodic, angelic style and sound we have come to expect from the band.

Things we like: Cracker, Unrest, X-Tal, Catherine Wheel, Barkmarket, Buffalo Tom, and the immense Breeders.

little bit rougher

than the last record.

Did you set out to

do anything differ-

ently in recording

#### this time?

You mean aside from not really having any songs and just renting a truck? (laughs) Yeah, I think only two of the songs that are on the record we've played before. The rest of them, it wasn't like we just made them up in the studio, but I sort of purposely wrote the songs and didn't show them to anybody in the band until we were in the studio, and the band was all into that.

## What was the reason for that?

Because I didn't want to get burned. I just didn't want it to be like work, and it seemed to be a better way. It's something that I've always wanted to do, and it's something that every producer has told me that I could do, but it never ends up that way. They end up making you rehearse and do pre-production and all of that stuff and you start, somewhere part through the record, you start getting burned out

on the songs, But this time it didn't happen. Don Smith is great. I just got together with him before we did the record and he wanted to hear the songs, so I got an acoustic guitar and Johnny got his acoustic guitar and I played him my stuff and Johnny played him his stuff and he just thought it was great and we went and did the record. We didn't really work on it or do anything before that, we just went into the studio. That's why some of the songs don't have any beginnings and ends.

I think that's part of the record's flavor. Did you feel that you got burnt out making

> Well, we were there for about a month, and then Don mixed it, we occasionally went by to see how it sounded. So, it was really just a month.

The record's atmosphere really reflects the location where you recorded it. it's got a real "old West" kinda feel.

Good... Well, you know, it's a pretty weird place. It was a movie set at one time, but it wasn't like a movie that had been there and turned it into a bar. It became a big biker h a n g o u t . Gradually over the years it has mellowed, as have all the Hell's Angels. They seem pretty mellow now.

## Iobbying in Washington.

(Laughs) Yeah well, all it is now is just more or less a little tiny town in the desert. The bar has turned into a big country hangout. You know, on Friday, Saturday nights you get two to three hundred people in there, with usually pretty good country bands. It's kinda

that

## the first one, and you wanted to approach it in a different way?

Yeah, in the sense that, being a musician, you always search for the ideal. We'd be trying to get this one song, and it's like, 'Why can't we get it like that demo we did?' and you just drive yourself crazy. I've done records that have taken 4-5 months to do and you can really get

set with facades, they actually did build all of these buildings and they actually kind of had people who lived out there. It was basically this movie town that Roy Rogers and Gene Autry built along with a bunch of other showbiz partners. They built this place and they used it to make all these amazing westerns. It was abandoned with the demise of the westerns, and these weird desert hillbillies lived out there for a long time. Then the bikers discovered it and started camping and hanging out there, having meetings and what Eventually, this woman not. Francine, who now kinda runs the town her mother built in the late 60's and early 70's, took a gas station

weird, sorta hippie, sorta outlaw, sorta country thing. It's not like Nashville, but it's great. It's a really great place. I don't know how many people really live in the town. They say that the population is 800, but they must include the whole valley and the next two adjoining valleys to have that many people.

#### it's really that small?

Yeah, there is sort of a main street, but I can't imagine that there are more than 100 or 150 people that live in that town.

#### How did you find the place?

I've known about it for a while. I grew up not that far from there, probably about 30 miles from there, but it was on the exact opposite side

of the mountains. It's on the back side of the San Bernardino mountains, the desert side. It's actually up in the mountains, but it's still desert. There's this little road that goes up there and that's where it is. Actually it's great, because when we first got up there the road was washed out. We drove up there anyway, but we weren't supposed to be going down the hill into town. And town was Yucca Valley, that was the big city. If you could imagine.

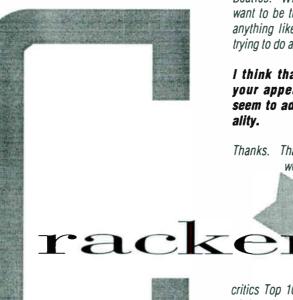

#### Didn't it present a bunch of logistical problems recording there?

It did, a little bit, but that's all the stuff I

sorta get off on. People have a hard time figuring out where you were and it was also really cold because it was winter, and we were up pretty high, about 5,000 feet, so it was really cold out there. We had this big, cavernous barn type of place that we were recording in, and it hadn't really occurred to us until we got there that we would have to have some kind of heat, and that was sort of the big thing we had to deal with. We spent three days figuring out what to do about it. We finally figured out that we could rent those big, outdoor heat umbrella things that they have on restaurant patios. These propane heaters, they're on this big stand and they have a big dome on the top that reflects the heat back to you. We found a restaurant supply place in Palm Springs, an hour and a half away, where we could rent those. Generally, I don't know if there were any problems, but it was just great that we totally had to get a list going, like 'Oh, we need all these guitar supplies, we need strings, we need this, we need a tube for this amp, etc.' and send our assistant, our "helper guy," send him off, and see him in six hours. We had little things like power problems, because the weather was really bad, so we just didn't record. The tape machine died a couple of times. We had the usual studio problems. You'd have to wait a whole day to get somebody up there with something new.

Are you the first band that's recorded there that you know of?

That's interesting, because I thought that this was a place that only me and my manager sort of new about. It seems that everybody who knows

this place doesn't tell anyone else about it, 'cause you're like 'oh, this is so great.' As it turned out, we were up there, and it all these other people would drop by from time to time. A lot of people came through. Victoria Williams was up there, Howe Gelb from Giant Sand used to live up there, but just moved back, I guess. Jim Lauderdale, the country guitarist for Emmylou Harris, also lives up there. I think the Parsons ranch, as in Graham Parsons, their family ranch, is about ten miles from there, up the canyon.

#### I take it that you wanted to avoid the New York/L.A. scene.

I'm just not really into going to New York or L.A., especially to do anything creative. I like L.A., but the whole entertainment business just drives me crazy. I've done eight records, and I'm just getting so tired of the business side of stuff. It's always so depressing to me. If someone came up to me from the record company and said, 'Hey, look, we gave you this much money, we expect you to sell this many records,' I can deal with that. In fact, I would almost rather that people did that, instead of running around, 'blah, blah, blah.' I just really don't know how to do that, and I've never really been particularly fond of trying to be hip. I've been kinda lucky that people see us as a hip band. Actually, they usually see us as a semi-hip band and that's actually what I am trying to be.

#### What do you mean?

I don't know, I'm not interested in being the next big thing, hip-wise. Even in Camper, it's weird because we came out of the underground scene, but we were always interested in making pop music. We weren't trying to be the next punk rock. We were trying to be the next Beatles. With Cracker, we don't want to be the next rave music or anything like that. I've never been trying to do anything like that.

#### I think that is a big part of your appeal. People really seem to admire your individuality.

Thanks. That's good, that's what we're trying to do. We're not trying to be in the LA weekly

critics Top 10 poll at the end of the year. That stuff doesn't matter.

Your last record was a pretty major factor in turning the masses onto alternative. I wanted to get your feelings on the whole scene now that the term is essentially meaningless.

You know, alternative music probably sells more than mainstream. I never really knew. My whole feeling, whatever we are going to call this music, is that there is a scene where the people listen to pop music, but kinda obscure pop

L've been kinda lucky that people see us as a hip band. Actually, they usually see us as a semi-hip band and that's really what I am trying to be.

and the second

music, and there is something weird about it. That whole scene has been given all these different names, and it's supposedly into this and into that, but actually I've sorta been there for ten years now. I'm sorta one of the main groups in that scene and I'll probably always be there to a certain extent. In the time that I have been here, it's had at least four different names. At first it was this 'post-punk' and then it was called 'college rock' and then 'indie' or 'alternative'.

## But it has never reached the audience that it is now.

That's true, but you know, I was just actually thinking the other day about how the guy from Stone Temple Pilots, with his little beard, looks more like Dobie Gillis than a real beatnik. That sorta said something to me. That's what happens when alternative becomes the big thing that it is. I've sorta given up on commentary on the music scene because invariably you piss everybody off, even people

that you're not trying to piss off. I'm just try-

ing to make music that I like to make, basically for myself, and I hope that I will never do anything bogus. In that way, I'm being kinder to our fans than if I tried to give the fans really what they wanted because then maybe I wouldn't be happy. I think that ultimately that's better, and it's worked so far. It's worked for eight records now, so I'm not really going to change that. In five years, somebody will be asking me 'What do you think about being called this,' whatever the next word for alternative is.

> So you don't find that people expect you to hold some kind of a torch?

People do expect me to hold a t o r c h , because l was in C a m p er V a n Beethoven. But I have to politely decline, because I'm not sure what torch I should be holding, and why I should be holding it. Because the only thing that I've ever tried to do was to make music that I like and that's what I'm still doing, and I'm not going to get involved with the name of what something is called.

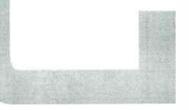

#### What would you say to all the young bands out there?

Young bands really need to get their own thing. I was thinking about this. All the new music that's coming out, the ultimate roots of it are at least ten years old. I'm not criticizing it. Even today, I really like a lot of the bands that are coming out, but ultimately it's not much different from 1983. It's kinda the same thing. I think that it's time for something new. I

would have to say, you yourself can never be cool. It's other people that see you as cool or don't see you as cool, so you should ultimately end up doing what you want. Play your own music, play what you really feel is cool and good, and ultimately people will respect you more for it. It may take you ten years, like it kinda has for me, but it will happen.

There were two Camper records on Virgin, so you

#### obviously know the organization well. What's their attitude concerning this record?

of their way to kick

butt for us. All I ask is that they do that, and then we'll go out and play really good live shows, and play lots of them. That's what we've always done, and it's a nice little bargain. They kick ass, we kick ass.

Michael Plen has always been a Camper and Cracker fan. I can call him anytime that I want and say 'Hey, we need this' and he'll make it happen for us, it's just great. That's the whole thing that, from the Camper days, we've seemed to have made a lot of friends with radio people. We knew the

radio people better almost than the company.

## So what's in store for the next couple of months?

Well, we have to do one more video. We did one already. We have to start rehearsing eventually, and we are waiting to see what we're going to do as far as touring.

#### I love the record's artwork.

Thanks. I just collected a bunch of stuff and gave it to a man who then gave it to somebody else to assemble it. It started with the Cracker record, but I've always been like 'Just get somebody who is good. It's a product after all, dammit! Tell people what it's about!.' That's sorta always been my approach to that, and then when it came to Cracker, we made a big deal of it being a product, to the point of making it so self-conscious that it's ironic. The artwork is just a bunch a photos and things we found in Pioneertown and around, stuff to make a collage.

## You covered a Dead song on this record.

We covered "Loser," which is my favorite song. It's funny because Johnny and Davey didn't really know that it was a Dead song, and we just played it. They had never heard it. It's totally obscure and, if you're not a Deadhead, you don't know it. I just sorta acted like it was some new song that I was writing and then later told them that it was a Dead song.

#### Were they surprised?

Yeah, and it worked out real good. It was just a B-side at first, but everybody really loved it, so it went on the record. Why a re tracks 13 and 14 listed as "no songs"?

What's up with that? Well, it's because Don wanted to leave out two numbers. I don't know why, but he wanted to skip two numbers,

and I think he wanted to do that for no apparent reason. Virgin doesn't know that, they wouldn't let us do that, because it was too long, but it's too late now. We just went ahead and mastered it that way. They really didn't want us to, but my general philosophy is always say 'yes,' and if you can do whatever you want to, then just do it.

#### You know, a number of people wanted to know your views on martinis.

Vodka up with an olive.

## Do you want to share a recipe?

The whole thing about drinking martinis is that you should never make them yourself. You should find a bartender that you like. I think it's a vodka drink. I don't really believe in gin martinis. That's my view of it.

#### I'm glad you shared your opinion. I think that gin/vodka question really tugs at people's brains.

(Laughs) Well, I know it's controversial, but I don't want to get involved in it. That's my own personal view. It is America, and everybody is allowed to hold their own views whether or not a martini should really be made from gin or not.

## METAL PICK

**ight, "Nailed To The Gun", Epic** Ever since he announced its formation, there has been immense speculation as to what Rob Halford's new outfit would sound like. Would they be "classic" metal due to his umpteen years fronting leg-

ends in their own time, Judas Priest? Would the music be a crunchy caterwaul spurned from the influence of Rob's much talked about liaisons with Pantera and bands of that ilk? What, what, what?! You may now put all shaky theories aside, as the first fistful of Fight comes blasting your way, via the lead track "Nailed To The Gun". A song rife with gun control controversy, "Nailed" is just a hinting of Rob's more topical lyrical approach on the forthcoming "War Of

Words" album (in-stores September 14th). Musically, it's a bristling cauldron of rapid fire riffs and drum kicks hammering through a double layer of vocals --- high trademark Halford wails on one end, dastardly growls on the other. The song's split down the middle with a blazing guitar duel as well. Rob has, in fact, put together an exceptionally mean sounding band: Russ Parish-guitar, Brian Tilse-guitar, Jay Jay-bass and ex-Judas Priest drummer Scott Travis. They are, for the most part, newcomers to the scene, but they certainly seem to have enough muscle to make their names mean something in no time at all. The musical blend is a perfect one, pounding somewhere between classic heavy metal, modern angst driven, adrenalin fueled power groove and full on grind. Heavy, fast, hard and attitudinal as all hell. Also included on the CD pro is a nasty little Bulletproof Re-mix as rendered by, who else, J.G. Thirlwell. And in grand Epic tradition, a second track has also been included for your earsplitting pleasure — the outrageously fierce, "Kill It" (with a Dutch Death Re-Mix, naturally, by Attie Bauw). These two tracks are perfect launchers for "War Of Words" --- which, by the way, is extremely diverse and will reveal sides of Rob Halford not heard or felt since "Touch Of Evil". Maybe even a few new ones at that. It's a killer album, and one that's destined to be one of the hugest releases heading into Fall, no matter what. That'll hit in a few, but for now hammer the power grinds of "Nailed To The Gun" and/or "Kill It"

## Hard Rock Heavy Metal

Strip Mind, "Bastard", WB This talented and aggressive foursome (Stu Shoaps-vocals/guitar, Billy O'Malleyguitar/vocals, Tim Catz-bass and Sully Ernadrums) first came to notoriety under the moniker Seka — rocksters from Boston, who left lasting impressions with their critically acclaimed Taaang! release, "Love Shim". A record many folks still enjoy. A few trademark disputes later with the infamous porn queen of the same name, the band re-emerged as Strip

Mind (having signed to Sire Records in the interim). A band raised on punk, dedicated to hardcore ethics and blessed with an equal smattering of thrashy metal sensibilities, Strip Mind are an extremely heavy proposition for the metal masses. Not content to grunge along the well strewn paths of crossover, the band are forthright in their noncommittal attitude. They play fast, angular, heavy and with a bizarre sense of humor (check some of the lyrics on the album when you get it), not willing to be cast into any set-in-stone categories, just determined to bash around where they can. Metal radio is their natural haven. And everything begins with "Bastard" (from the forthcoming, "What's In Your Mouth" album). With a powerful Wrathchild like vocal rap and groove, the band rip solidly through alternate sequences of hardcore meets Metallica grind, hinting slightly at their punk roots. A touch of the past colliding pleasantly with modern day slam, "Bastard" is a grand example of unbridled attitude and tight musicianship. The full album doesn't hit for almost a month, so blast this one to your heart's content. And F.Y.I, we saw Strip Mind perform at NMS this year and they cranked, so we encourage you to catch their set at Foundations Forum '93.

#### wdge Tunnel, "Grey",

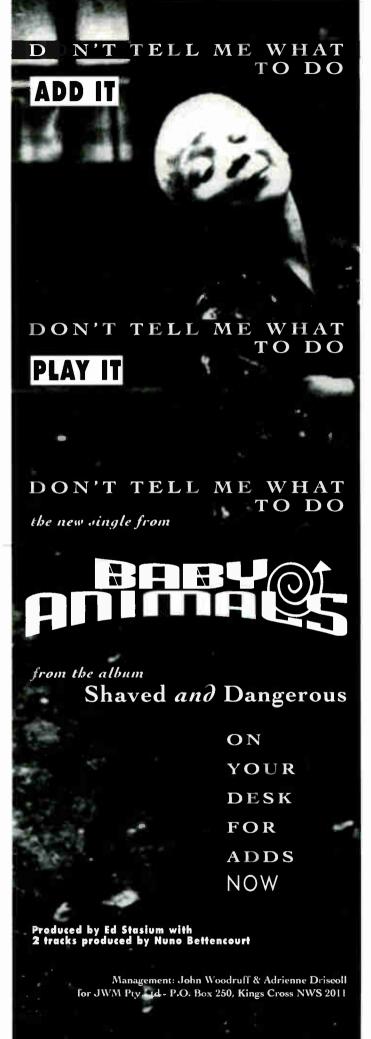

**Earache/Columbia** The newly sealed deal between grindcore gurus, Earache Records and monolithic major, Columbia, has certainly proven already to be an enormously successful and fruitful experience for all involved parties. It's also proving a wonderful catalyst for such evolving sensations as Cathedral, Entombed and this outstanding grind trio. Not your typical band no matter how you slice them, Fudge Tunnel (Alex Newport-guitar/vocals, Dave Ryley-bass and Adrian

**Parker**-drums) are forboding in their dark outlook on the human species (mega-negative), but still motivating in their blasting confrontational music. Initially setting up ranks in the metal/alternative realms, via the critically praised Earache released "Hate Songs In E Minor". An unparalleled explosion of exactly what the tilled described, it embedded itself on the charts and within the collective metal consciousness. Most folks will remember the band's wild cover of Cream's "Sunshine Of Your Love" as the album's vivid centerpiece. 1993 issues in the band's excellent new offering "Creep Diets" (sure to benefit from the label marriage) and the first single, "Grey". A surprising (misleadingly) catchy power groove rides under a wall of distorted grit and grind (powerful and heavy) and scowled, growled, sometimes sung vocals. I admit being totally amazed upon hearing "Grey" for the first time and the masses are already chomping at the bit for it. A few stations jumped on the import early, but you've all got the pro now, so wait no more. This is Fudge Tunnel? You better believe it and the full album's even more aggressive and extremely great sounding. It's destined to surprise even the most stalwart objectors. It's very black & white and cut & dry actually... "Grey" is going to be huge.

**G** reta, "Fathom" CD5, Stardog/Mercury The set-up for Greta's Stardog/Mercury debut has actually been going on for some months now, as most of you are hopefully aware. The label has released two of the band's demos previously to establish the name in the mind's of all ye metal peoples. First they landed "Rocking Chair"/"Insomnia" and then the hard crush of "Love Is Dead". What this was tremendously successful at doing, was revealing the many sides and sounds of Greta. A band whose influ-

ences run the gamut from Frank Sinatra, Hank Williams Jr. and the Beatles to Jane's Addiction, Greta range freely amidst rock n'roll's cavernous past while rocketing straight into its blurry future. Not surprisingly, each and every song on their forthcoming "No Biting" album should prove a unique experience. We'll have to wait a bit for the full but, in the meantime, we're being treated to single #1, "Fathom". A blistering bite of cranked-to-10 guitars, distorted wicked vocals, and nice unsettling tempo/tone changes, "Fathom" is moody within itself. At one moment it's full throttle, only to flow seamlessly into a melodic chorus and solo — emotional and desperately swirling, yet still prone to furious bursts of speed and wired effects. And then the B-side, "Pennies From Heaven" (yes that one) swings gently into range and ya just gotta admit, this is not your average bunch of headbangers. If you haven't realized that yet, you will when the full CD clamors into your lives. For now, explore the depths of "Fathom" and remember, they too are appearing at the Forum this year. I don't think you want to miss these guys.

The Imago Recording Company 152 West 57th Street, New York, New York 10019 (212) 246-6644 Hard Rock/Heary Metal

**Contagion, "Turn Of The Screw", World Domination** This record was originally serviced to alternative radio, but since much of the industrial/techno influenced material has begun to crossover to metal, World Dom has singled out the song "Turn Of The Screw" to launch here. This is a new mix of what is actually a Low Pop Suicide song. Formed in 1988 primarily to open for friends, Frontline Assembly, Contagion are the collective talents of **Keith Arem** (vocals), **Mical Pedriana** (keyboards), **Jack Boughner** (percussion) and **David Smith** (vocals/percussion). The band formerly called themselves Biohazard PCB (which, yes, did cause confusion between them and our beloved Brooklyn pals), opening for other such established techno/industrial leaders as Nine Inch Naits, Front Line Assembly and Die Warzau. Combining a driving guitar style within the techno dance type assemblage, Contagion rev up the mix for more of a rock feel, giving them more in common with bands like NIN, than most others. "Turn Of The Screw" is highlighted by great little twist and turn guitar leads, a rhythmic, almost mechanical feeling beat and warped throughout by sampling noise effects. Vocally it carries a mixture of detached angry vocals, melodic harmonies and, of course, demented noise bites vocal sampling. The result is a song that, while not exceedingly heavy, has a definite groove and very upfront guitar presence. If you're one of the freer spirits out there who believes in mixing up your playlist (more power to ya), then "Turn" should fit quite nicely.

**B** ad Brains, "Rise", Epic Everyone seems to be catching the fresh and heavy vibe of the first Bad Brains single, "Rise" — as it debuted on the chart this week at 44\*, with 11 more adds (plus 10 on the full) and more airplay clocking in. Now the rest of the album is jostling its way to stations far and wide, offering up a bountiful quary of excellent bone-crushing, mosh-worthy grinders. Of course, scattered throughout are the more rastafarian influenced reggae songs that make this eclectic bunch all the more special. For the major label debut, the band packed together fistfuls of thick, guitar intensive songs that chip away at some serious topical issues, while still presenting a great listening experience. A body rocking, fist clenching power belter from start to finish, "Rise" (the album) should finally be the record that officially gives the Bad Brains their long awaited accolades and praise. It's heavier than most expected and that suits us metal types just fine, but we think even COR/AOR are gonna be able to slice into this one for some prime cuts. Here in the metal corner of Hard Headquarters, we are grooving easily to the gentle crush of "Hair" (a personal fave cause it just rocks like mad), "Free", "Unidentified" (the B-side to "Rise"), "Take Your Time" (with its funky little kick), "Coming In Numbers" and "Peace Of Mind" — an ultra crunchy and emotive tune. Of course, the title track is still one of the premiere tracks, so choose at will, and chartwise, we will all watch the Bad Brains "Rise" at long last.

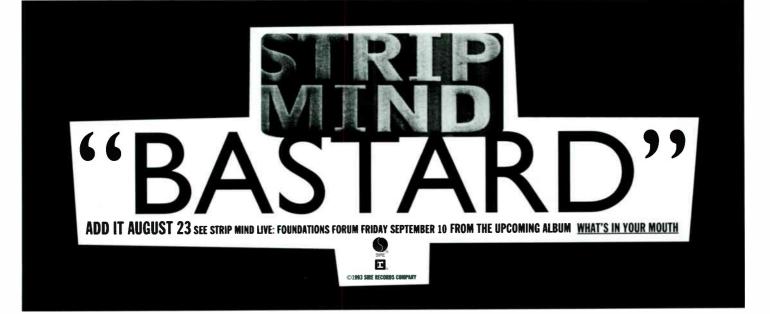

**Therapy?, "Hats Off To The Insane", A&M** It hasn't been long since the metal and alternative ranks were being rocked by this band's major label debut release, "Nurse". The record, of course, was extremely well received here and quickly made a Top 5 metal showing, not to mention quickly making them a fave new rave. Being of a prolific nature, we understand that Therapy? are always churning out a ton of material. Not too surprisingly then we find we are receiving the very cool new EP to jam to while we await a full record (which they will be heading into the studio to record in a couple of weeks). Actually the EP is a sort of compilation culled from two separate EPs that were released in England in March and June of this year. FYI the two EPs combined have sold over 90,000 units in the UK already and the video for "Screamager" has been in MTV Europe's Buzzbin for over eight weeks. So if that's any kind of indication, you'll know to expect some scorchingly great stuff. "Screamager" is catchy and grainy — an obvious radio track that virtually rumbles along Therapy?'s always strong guitar riffs. Also extremely worthy of your time are "Auto Surgery" (a low grinder), "Turn" (what a great song) and "Speedball" — they're actually all pretty cool. Enjoy.

FIST IN YOUR FACE

**rsinal, "Fist in Your Face", Glad Dog Records** We've been hearing lots of rumblings through the metal ranks over the last few weeks, as a handful of our stations were adding this record. Well, we finally got a copy from Glad Dog, an Arizona based indie label (where the band hails from), and with curiosity peaked, quickly decided to check it out. Arsinal are an extremely gritty five man (**Bobcat**-vocals, **Del Sherldan**-guitar, **John Remesnik**-guitar, **Dave Pevier**-bass and **Dusty Hetman**-drums) rock n'roll machine who, despite the gruff exterior, divine a deeper inspiration, or should I say a "higher" one. Musically, they cruise a style that seems to combine classic metal teaching (a la Judas Priest), with a slightly gothic imprint (a la King Diamond), and a touch of '80s era metal feel thrown in. In fact, the sound of the record, overall, tossed me back to my early days here at the Hard Report, when I spent a good deal of time writing about bands like Sword, Annihilator, Metal Church, Accept, Candlemass, Celtic Frost and the like. Bands who offered up thick, fastpaced and aggressive metallic bites. No wonder so many are latching onto Arsinal's "Fist In Your Face" — it has that same energy and attitude. If you haven't already, you might want to secure a copy to hear for yourselves. Call Dan at Glad Dog at 800-814-3347.

#### Special Note:

Much gratitude to Barry Lyons and all the fine folks at Chameleon, and Jessica Harley at Elektra for a wonderful weekend in (always lovely) Seattle. The kickoff party for My Sister's Machine was a great success and I appreciated the opportunity to attend. Their live show was also quite excellent and the new material from "Wallflower" sounds exceptionally killer on stage. The sail around Lake Washington, the Aerosmith show on Friday and the great "apartments" were incredible , as was the company. Thank you all for a great time. Hellos to all who attended! A special hi-ho to Jeff Gilbert (finally we meet in person), Rcckfish (you're a credit to Seattle thanks for showing us Hendrix), and lo and behold folks, I got to hang with the long lost, much loved Jackie Farry --- who looks healthy and happy, and will apparently be returning to the East Coast in October. She says "hi" to everyone.

**REM**'s **Peter Buck** has been in the studio recording solo tracks for a tribute to **Gram Parsons**, guitarist for the **Byrds** in the late 1960s. Buck's album is being put together by workers at an Italian radio station, with Parsons' daughter recording some vocals. The release date has yet to be set. Meanwhile, **Michael Stipe** of **REM** is co-producing an album for a group called **Trinket**.

A special police team went to the Miami Shores, Florida, home of guitarist **Yngwle Malmsteen** after the mother of his 19-year-old girlfriend called to police to say the teenager was being held hostage with a shotgun. But when Amber Landin emerged, she said she had not been held hostage and couldn't understand why her mother would have made such a claim. "He took out a shotgun and he took out a handgun and he said, 'If you think you're taking her anywhere you're not going to or you'll find out how these work'," the girl's mother, Elaine Potter, said. The woman says Malmsteen met her daughter at a concert in Phoenix and the two have been living together for about a year. Police did find guns in Malmsteen's house. They also say they've responded to numerous noise complaints and two domestic violence complaints at his home this year.

Trial has begun in Los Angeles in a lawsuit filed by former **Guns N' Roses** drummer **Steve Adler** whose attorney says he was tricked out of \$4 to \$10 million, his share of the band's profits. Adler was booted out of the band in 1990 because of his heroin addiction. "Nobody denies the band's right, after they tried to help him get clean, to leave Steve behind. That's not what this case is about," says Adler's attorney, David Chodos. But GNR's attorney, Howard King, says "Adler was deprived of nothing that he was entitled to. He was removed from the partnership for a valid reason which has now been admitted, his heroin addiction. He brought about his own demise." King says Adler was kept in Guns N' Roses as long as was possible.

Songwriter Gary Zimmerman has filed a \$10 million lawsuit against **Billy Joel** in federal court in New York City, claiming that "River Of Dreams," the title track of Joel's new album, is based on a song he sent to Joel in 1986. Zimmerman says the first two lines from his song "Nowhere Land" are used repeatedly in "River Of Dreams." He says "We Didn't Start The Fire" also infringed the copyright of the same song. "Billy Joel has said he is going to fight this case tooth and nail. He will never settle this case," says his attorney, Leonard Marks. "Billy has never met this fellow, never heard of him, never heard any song of his." "I regard my songs as my children and I will do what any self-respecting parent would do — guard them with my life," Joel says. "This is another example of why true, struggling songwriters can't get anybody, including me, to listen to their songs."

Author Salman Rushdie, who has been in hiding since 1989, joined **U2** on stage at their concert at London's Wembley Arena in front of 72,000 fans. Bono was dressed as a devil with horns when Rushdie took the stage, after Bono had spoken with Rushdie by telephone. "I'm not afraid of you," Rushdie told Bono. "Real devils don't wear horns." Rushdie told Bono he's been doing well but remains careful because, "I have even more trouble with the critics than you do."

**Mick Abrahams**, the original guitarist in **Jethro Tull**, has reformed his group **Blodwyn Pig**, which has completed work on a new album. The band's been playing concerts in Scandinavia, Germany and England. The LP is produced by **Pete Kerr**, who was the producer for the **Motors**, and co-wrote "Fire" with **Arthur Brown**. Blodwyn Pig released albums in 1969 and 1970 before breaking up. There was a short-lived attempt to reform the band in 1974 and Abrahams released a number of solo albums in the 1970s. The new Blodwyn Pig album should be out this fall (on Viceroy Records). The band's current line-up includes drummer **Graham Walker of Gary Moore's** band.

**Stevie Nicks** releases her next solo album, "Street Angel," in September (on Modern/Atlantic Records). The LP is produced by Glyn Johns, and features **Mike Campbell** and **Benmont Tench** of **Tom Petty's** Heartbreakers, **Andy Fairweather-Low** of **Eric Clapton's** band, **David Crosby** and **Eagles** cofounder **Bernie Leadon**. The first single from the LP will be "Unconditional Love."

**AI Stewart** releases his first studio album in five years next month (on Mesa/Rhino Records). "Famous Last Words" sees Stewart again working with guitarist **Peter White**, who co-produced the LP.

**Dave Mason** and **Bekka Bramlett**, the daughter of **Delaney & Bonnie**, are joining **Fleetwood Mac**. **Christine McVie** will remain in the band, despite speculation she might retire, but **Stevie Nicks** has left the group to concentrate on her solo career.

**Fudge Tunnel** release an album called "Creep Diets" later this month (on Earache/Columbia Records). The new album by the three-piece band from Nottingham, England, is produced by guitarist **Alex Newport**.

The new album from Seattle's **Fastbacks**, "Zucker," includes a cover of the **BeeGees**' "Please Read Me." "I think pop music in the true sense of the word is the most alternative music of the moment," says singer and bass player **Kim WarnIck**. "All these people think they're hard-core because they're into some horrible-sounding industrial band with a name that's supposed to be scary. In that kind of environment, the most radical thing you could ever do is write a really catchy pop song." The Fastbacks include **Kurt Bloch**, who is also in the **Young Fresh Fellows**. Bloch is also producing a new EP from **Mudhoney**.

The incoming police chief in Jamaica plans a crackdown on "slack," or sexist, lyrics used by ragamuffin musicians like **Shabba Ranks**. Trevor MacMillan, a retired army colonel, says he plans to investigate whether ragga musicians could be prosecuted for urging violence against homosexuals, police or any other groups. "I don't care if you are a Grammy winner, Emmy winner or any kind of international star," MacMillan says. "If you preach violence and it's against the law, you must be dealt with."

Butch Vig will produce the next album from **Freedy Johnston**, which will be released next year (on Elektra Records). "I know the songs are going to be superior, it's going to be well-produced, it's going to be distributed well," Johnston says. He's writing material for the LP this summer in Woodstock, New York. "It is sort of a goal, to be able to write songs that really work, that speak to people rather than just speak to you at the time you're writing it," he says. "You've got to be able to communicate with people. You've got to make the song come across."

**Jimmy Barnes** made a parachute jump in a park in downtown Sydney, Australia, to call attention to the city's bid to host the Olympics in the year 2000.

Guitarists Fellcla Collins and Sid McGinnls will join Paul Shaffer's band when the "Late Show With David Letterman" debuts on CBS-TV on August 30. That will make Shaffer's house band a six-piece that includes keyboardist Bernle Worrell. Collins has toured with Cyndl Lauper, Al Jarreau and the Thompson Twlns. She says Shaffer offered her the slot in July. "I told him I had to think about it," Collins says. "But then I thought the only thing it's going to keep me from is going back out on the road, which I was sick and tired of after six or seven years anyway. Then I started thinking about all the pluses, and I almost konked myself in the head for being so reluctant in the first place." The group, formerly the World's Most Dangerous Band, will now be called Paul Shaffer & The CBS Orchestra.

**Bruce Springsteen** has donated money for a new fire truck for the town of Freehold, New Jersey. But he asked Freehold officials to donate their old 1967 truck to Paint Bank, Virginia, where a friend lives.

Now that a legal dispute has been resolved, the **Beatles** so-called "red" and "blue" albums will be made available on compact disc on October 5 (on Capitol Records). "The Beatles 1962-1966" and "The Beatles 1967-1970" were originally released on vinyl in the early 1970s. The CD release will include a 24-page booklet that includes song lyrics and photographs. The double albums will also be released on cassettes.

About 40 people were injured at a **Bon Jovi** concert in Groton, Connecticut. Some were crushed near the stage, despite lead singer **Jon Bon Jovi**'s pleas to move back, while others were overcome by the heat. Of those injured, 12 were hospitalized.

**Cutty Ranks** will have a new album out in the first few months of next year (on Priority Records). The dancehall artist has already done well with "The Stopper," and his current single, "Limb By Limb," is on the charts in Jamaica.

**UB40** have just begun a two-year world tour in support of their new album, "Promises & Lies."

**Salgon Kick** are releasing a new album next month, their first following the departure of vocalist **Matt Kramer** and the addition of bass player **Chris McLernon**, who joined the band last year. Guitarist-vocalist **Jason Bleler** is now serving as front man for the group. The 14-track album (on Third Stone/Atlantic Records), as yet untitled, includes a version of **David Bowle**'s "Space Oddity."

**Bob Dylan** is said to be moving to a five-bedroom house in the north London suburb of Crouch End. The location is near the studio of his friend, **Dave Stewart**, formerly of **Eurythmics**. The suburb isn't close to London's underground system, making it more attractive to reclusive people like Dylan.

Spinal Tap, Melissa Etheridge, Shawn Colvin and Ann and Nancy Wilson of Heart are playing a benefit concert in Santa Monica, California, for Voters for Choice, an abortion-rights political committee. In a statement, Spinal Tap says they accepted the invitation to perform because "We heard women would be there."

Los Angeles band the **Homewreckers** have finished recording an album in Los Angeles (for Viceroy Records) with **Kim Simmonds** of **Savoy Brown** producing. Simmonds plays a blistering guitar solo on one track, "You Know It Ain't Right." The Homewreckers include British singer and harmonica player **Steve Consul**.

"The Very Best Of **Yes**" is released in September (on Atlantic Records). There are 12 songs on the CD version of the album and 11 on the cassette, including "Roundabout," "Going For The One" and "I've Seen All Good People."

French keyboardist Jean-Michel Jarre has just begun a European tour with an elaborate stage set-up that includes specially-adapted lasers producing up to 800 beams of light, 40 computer-controlled sky-track lights, 75-foot screens to create a city skyline, and over 3000 projection slides. "For me, the 1993 Europe In Concert is based on the idea of Europe and to try to find some symbolic places that mean something, vis a vis, not the Europe of Maastricht, but the Europe we like — the cultural Europe — the Europe of Mozart or Leonardo or Shakespeare. Going through places such as Mont Saint-Michel, Barcelona or Vienna or Rome or Wembley Stadium or Manchester - all those cities are familiar to the European community," Jarre says. "For Europe In Concert the idea is to create a kind of modular skyline, a kind of imaginary city made of various screens of various sizes, from a screen of 4 meters to an 8-story-building type of size - 25 meters high. So the actual performance in terms of vision and sound will be about 150 meters wide to 25 meters high. We can't say it's smaller, but it's a different project. It's a different concept .... The concert in Wembley will be different from the concert in Vienna or in Barcelona or in France." Jarre is touring in support of his new album, "Chronologie," his 12th LP. "I'm planning to go to America and Japan in 1994 and I've been asked by UNESCO to create a series of concerts for 1995," Jarre adds.

**Shotgun Messiah** releases a third album at the end of September (on Relativity Records). "Violent New Breed" was recorded in the band's native Sweden earlier this year.

**Dilion Fence** bass player **Chris Goode** says the band wanted to "illustrate in a tangible way our creative growth" with their new album "Outside In." "I think this album is a major leap forward for the band, particularly when you look back to the very beginning," Goode says. He believes that working with producer Lou Giordano helped the band capture its live sound. "Lou approaches making records from more of a live angle," Goode says. "He could tell from our demos what we were trying to capture with this album. We ended up with sweet music that rocks, so we are definitely satisfied with what he did." "Outside In" has already become the second best-selling record for the band's record label (Mammoth Records), and the next single from the LP will be "Blackeyed Susan."

Ireland's Arts Minister, Michael Higgins, says **U2**'s music should be studied by university students. "I would like to see U2's music and Neil Jordan's films and other powerful forms of popular culture included in the curriculum at Trinity and other Irish universities," Higgins says. "I would also like to see the language of rock videos studied in post-primary schools."

Surf guitarist **Dick Daie** is back with a new album called "Tribal Thunder." He's also touring for the first time. "I didn't really want to go anywhere," he explains. "Plus, I was surfing every day, and I was only playing on the weekends. So why would I want to go traveling all over the country?"

**Maria McKee** has put an advertisement in a free Los Angeles weekly newspaper looking for backing musicians to tour with her in the U.S. She's looking for a bass player, drummer and guitarist, because her regular band members are busy with other projects.

**Soui Asylum**'s "Grave Dancers Union" and **Rod Stewart**'s "Unplugged...And Seated" albums have both been certified platinum for sales of over a million copies.

**Umar Bin Hassan**, a founding member of the **Last Poets**, has released a solo album called "Be Bop Or Be Dead."

Fragrance-maker Lancaster Group USA will sponsor **James Brown**'s concerts in New York, Chicago and Los Angeles, and use Brown's song "It's A Man's Man's Man's World" in commercials for its Zino Davidoff fragance. Brown will not otherwise be featured in commercials or print ads for the men's cologne.

**Paui McCartney** has a home video called "Movin' On," coming out in late September. The cameras followed McCartney as he planned for his The New World Tour and recorded his "Off The Ground" album last year. The video, directed by Aubrey Powell, includes footage of private rehearsals and a tour of "The **Beaties**' Studio."

**Boyz II Men** has signed a multi-brand advertising endorsement deal with the Pepsi-Cola Company. The R&B group has already shot an ad for Pepsi's Slice flavor.

**Screaming Lord Sutch**, who released two albums in the early 1970s featuring **Jeff Beck, Keith Moon, Nicky Hopkins, Noel Redding** and **Jimmy Page**, has thrown a party in London to celebrate his 30 years as fringe political candidate in England. Sutch has unsuccessfully run for office 36 times. In his campaign

last year, Sutch proposed turning the House of Parliament into a musement park and putting crocodiles into the Thames River to boost tourism. "Some day I'll find a constituency where people are totally fed up with existing politicians and vote (for) the Monster Raving Loony Party," Sutch says. Thirty years ago, in his first by-election, Sutch drew 208 votes in Stratford-upon-Avon. At the time, his campaign platform included lowering the voting age to 18, ending the British Broadcasting Corporation's radio monopoly, and eliminating school selection tests at age 11. Sutch notes all of those things have now come to pass.

Despite **Garth Brooks'** claims that he wouldn't let his new album be sold in stores that sold used CDs, his record label is accepting orders from retailers regardless of whether or not they stock used CDs.

**5-8** go into the studio in September to begin work on a new EP (for Sky Records), to be produced by **Dave Barbe** at John Keane's studio in Athens, Georgia. **Sean Dunn**, formerly of Atlanta band the **Blood Poets** has joined the band on guilar.

Athens, Georgia, band the **Labrea Stompers** releases an album in September (on DB Records) called "Funzo's Knuckle Room."

Ai Jourgensen of Ministry has been getting onstage to jam with Anthrax at some of their recent concerts in the Midwest.

New York-based Easy Street Records has filed a \$2.2 million lawsuit against **Madonna** and several record companies claiming copyright infringement. The lawsuit contends that "substantial and important portions" of a 1985 record called "You Don't Know" were used by Madonna in "Fever" and "Deeper And Deeper." Easy Street president Michael Gusick says parts of "You Don't Know" were sampled in the Madonna records. "They should have come to us for clearance," Gusick says. "We could have worked something out. We weren't being unreasonable."

A woman in Portsmouth, New Hampshire, says she will continue calling her coffee shop The Elvis Room even though Graceland's licensing department has rejected her request to use the name. Dawn Winters says she's taken down a sign in front of the coffeehouse that used **Eivis Presley**'s likeness, but she will continue to keep Presley album covers and sketches on the rear wall of the coffeehouse. "The bottom line is we're not changing our name," Winters says. "We just opened 2 1/2 months ago, and we can't afford to change the name right now."

**Morphine**, a trio that describes its music as "implied grunge," releases an album called "Cure For Pain" (on Rykodisc) in September. "It started off as a fun kind of thing, just fooling around," says saxophonist **Dana Colley**. "We were amazed people liked it so much. We figured they'd just say, 'Have you taken a good look at this band? This guy's only got two strings on his bass and there's no guitar." Colley says the band was still developing when it released its self-produced debut LP, "Good," "The new CD is much more direct and shows what we've been up to for the last four years."

**Iron Maiden** plans a "farewell performance" in London on August 28 that will be broadcast on pay-per-view television. It will be the last concert before singer **Bruce Dickinson** leaves to go solo.

Trial has begun for **Rick James** on charges of torturing and sexually assaulting a woman at his home in Hollywood Hills in 1991. His girlfriend, Tanya Anne Hijazi, has pleaded guilty to assaulting Mary Sauger and other charges against her will be dropped. Hijazi is expected to be sentenced to four years in prison. A prosecutor described Hijazi as "a victim of physical and mental abuse by James." Sauger met the couple in a hotel room to talk to James about a record label he'd established. Even as James' criminal trial was proceeding, Sauger filed a civil lawsuit seeking unspecified damages.

**Michael Jackson** has requested a brand-new refrigerator be installed in the kitchen of his hotel suite in Taipei, Taiwan, for when he performs there next month. The Grand Formosa Regent says the refrigerator is intended for Jackson's chef. Jackson and his entourage will take an entire floor of the hotel. The Taiwanese concert is part of the new leg of his "Dangerous" tour which begins in Bangkok, Thailand, on August 24 and includes shows in Moscow, Turkey, Israel, Africa, South America and Mexico.

A federal court jury in Los Angeles has ruled in favor of **Paula Abdul** in a lawsuit filed against her by backing singer Yvette Marine. Marine contended she was entitled to credits and royalties for "co-lead vocals" on Abdul's debut album, "Forever Your Girl." Jurors deliberated just a few hours before finding against Marine to conclude a four-week trial.

Our London correspondent **JONATHAN WRIGHT** is a freelance journalist and broadcaster. 95 Coningham Road, London, W12 8BU, United Kingdom. Tel (011-44-81) 743 9665

**Bjork's** new single is 'Venus As A Boy' (One Little Indian), a track from her acclaimed 'Debut' album. Additional tracks available on different formats of the single are remixes of the lead song (including one from Mick Hucknall), 'There's More To Life Than This (Non Toilet Mix)', 'Violently Happy (Domestic Mix)', 'Stigdu Mig', 'Anchor Song (Black Dog Mix)' and 'I Remember You'. Bjork will play live dates in the UK during August and September.

**Bill Drummond**, formerly with **The KLP**, is reported to have recorded new material with the mysterious **The K-Foundation**. One track from Drummond's new project 'K Cera Cera (War Is Over If You Want It) was debuted over the PA at The Phoenix Festival. It seems Drummond offered other material to a charity event for the Manic Depressives Society in London.

**Hed's Atomic Dustbin** have been asked to write music for Sega's Christmas commercials. The band will write an instrumental which will be broadcast on both sides of the Atlantic. Elsewhere, **Carter The Unstoppable Sex Machine's** 'Shopper's Paradise' is being used as the soundtrack to a television commercial for KP Nuts.

**Paul Weller** is the subject of an August 28 BBC Radio One network documentary. 'The Paul Weller Story' traces the singer's career from his days in **The Jam** during the seventies, through his time fronting **The Style Council** and up to the present day as a solo artist. Recently, there have been rumors The Jam will reform for what would be a lucrative tour.

**The Manic Street Preachers** were bottled off a recent free festival appearance in Swindon, Wales. The band quit the stage after **Nicky Wire** was hit in the head with a bottle and another bottle smashed near one of the band's road crew. After a ten minute break, the Manic's finished their set. A spokesperson commented to the <u>New Musical Express</u>: "The reason they walked off was because they were concerned about the welfare of the road crew. But overall, I think they quite enjoyed it. They've been getting too much of an easy ride at their own shows."

Shaun Ryder and Intastella's single 'Can You Fly Like You Mean It (Gungadin)' has been confirmed for a September 13 release by Planet 3/EMI. Other tracks on the single are 'Drifter', 'El Drifto', 'Gungadin' and 'Gungadin (808 mix)'. Elsewhere, there are reports that other former members of **Happy Mondays - Bez, Paul Ryder, Paul** Davis and Gary Whelan - are all either unemployed or not making their living from music. Apart from Shaun, the only Monday currently working on music is guilarist Mark Day. He's been writing and playing with The Nice People From Straightsville, a band from Newcastle in the north-east of England.

**Pet Shop Boy, Chris Lowe** has worked with England soccer star **ian Wright** on a new single. The house influenced 'Do The Right Thing' is, surprisingly for this kind of release, actually not too bad!

**The Reading Festival's** bill is virtually complete, excluding any last minute surprises. Running from 27-29 of August on a site 50 miles west of London, bands playing on the main stage are as follows: 27 August: **Porno For Pyros, Rage Against The Machine, Neds Atomic Dustbin, Butthole Surfers, Babes in Toyland, Stone Temple Pilots, Bad Brains, Galion Drunk** and **Tooi**; 28 August: **The The, Siouxsie And The Banshees, Therapy?, Ozric Tentacies, Gary Ciali's On-U Sound System with Bim Sherman and Adrian Sherwood, Senseless Things, Kingmaker, Eat, Madder Rose and Gigolo Aunts**; and 29 August: **New Order, Dinosaur Jr., Lemonheads, Fishbone, The Breeders, Goats, Alice Donut, Primus, Jesus Lizard** and **Masters of Reality.** In addition, there will be a cornedy stage, a dance stage and the <u>Melody Maker</u> stage. The latter's highlights include **The Frank And Walters, Chumbawamba, Back To The Pianet, Blur, Radiohead, Swervedriver, Big Star, The Boo Radieys, Paul Westerberg, The Family Cat,** and **The Juliana Hatfield Three**.

**The Jim Rose Circus Sideshow**, who sprang to fame on the Lollapalooza tour, have run into controversy over their onstage antics at the Edinburgh Festival in Scotland (the largest arts festival in Europe). However, Rose has defended himself by commenting that the troup's somewhat stomach turning version of circus is what all subsequent circus' has been based on. Elsewhere, jazz singer and art critic **George Melly** defended Ross by saying: "Art of concerned with everything from the heavens to the sewer."

The first international **Pink Floyd** fan convention will take place at Wernbley Conference Centre on August 21. Hosted by the fanzine Brain Damage, the convention celebrates the twentieth anniversary of the release of 'Dark Side Of The Moon'.

Eastern Bloc, the Manchester indie and dance record shop, has gone into voluntary liquidation. The shop was co-founded by 808 State's **Martin Price** in 1905 and was hugely influential during the "Manchester" boom. However, co-founder **John Berry** now says: "Indie died in the early 1990's when the major retailers started to buy and distribute the records and the underground scene became commercial and effectively went overground." **Dave Lee Travis**, a DJ with the BBC Radio One network for 26 years, has walked out on the station. 46-year old Travis had been tipped as a DJ likely to be axed by the station which is currently trying for a younger audience. Travis announced his decision on the air, saying: "Changes are being made here which go against my principles and I just cannot agree with them."

**The Stone Roses** are rumored to be planning massive comeback shows at "special" venues in Glasgow and Manchester during October. Other rumors suggest the band stopped working with producer **John Leckie** and that they won't make a provisionally scheduled late October release date for their long awaited second album.

'By Any Means Necessary' is a new compilation which will be released on September 6. Money from the album which features **The Buzzcocks, Jamiroqual, Suede** and many others, will go to YRE, the Youth Against Racism In Europe Campaign. The organization says there are 70,000 racial attacks in the UK per year.

The fastest selling album of the year in the UK so far is **U2's** 'Zooropa'. It shifted 200,000 copies in the first week of release. Elsewhere, U2's 'Zoo TV' show has been receiving mixed reviews on its first visit to the UK. The <u>New Musical Express's</u> **John Mulvey** questioned whether the band should "stop toying with something as dangerous and obscene as fascist imagery, however ironic it may be." However, many of the daily newspapers were impressed by the sheer showmanship of the concerts.

**Suede's** next single will be 'Still Life', an acoustically based ballad that was debuted at the Glastonbury Festival this year. Released in October, the single looks likely to be backed with live tracks which the band have recently been mixing with producer **Ed Bueller**.

The **Beach Boys' Mike Love** has been speaking to Q's **Andy Gili** about his relationship with **Brian Wilson**: "He feels guilty because he cheated me out of millions of dollars and credit for things. His ego was so distorted at that time that he couldn't get to grips with the fact that there was a catalyst necessary to bring out the greatness in him. It was me with the concepts and Brian with the music and that's where the strength lay."

While many of the artists in the latest UK independent alburns Top 20 are "traditional" indie/alternative guitar bands (Smashing Pumpkins, The Pastels, Suede, Sugar, etc.), one interesting facet of the chart is the way dance/techno releases from the likes of CJ Bolland, Drbital and Spiral Tribe are beginning to make their way into the Top 20. Wiiija Records have two alburns in the Top 20 - from Blood Sausage and Cornershop - confirming their status as an emerging force.

**The Jesus And Mary Chain** will not be working with **Lee Hazelwood** on their forthcoming acoustic album as previously reported. The album was due in the stores before Christmas, but has now been put back until early next year. However, **Shane MacGowan** and **Mazzy Star** will both feature as guests on the project.

**Radiohead** are reissuing 'Creep', the single which intially brought them critical acclaim. Various bonus tracks available on different formats are 'Yes I Am', 'Blow Out (Remix)', 'Inside My Head (Live)', and 'Killer Cars (Live)'. All the live tracks were recorded at the Chicago Metro in June.

**Teenage Fanclub** have delayed the release of their forthcoming 'Thirteen' album (Creation) until early October. The band have had problems with the artwork and have been unhappy with the sound quality. A new single 'Norman 3' is due at the beginning of September.

#### J.D., WONE, Akron

Coming up this weekend, it's the third annual 97.5 WONE Beach Dig. 97 listeners will have the opportunity to dia in the sand for prizes including concert tickets CDs limo service. Cleveland Indians tickets. Cleveland Brown tickets, a trip for two to see Matthew Sweet in concert in Denver and the grand prize of our WONE/Sunkist Waverunner. There will be a special 50' x 50' beach especially constructed for this event with 97 petrie dished buried in the sand. These petrie dishes will include a slip of paper indicating the prize that the listener has won. This year's event will be held at the Riverfront Centre, site of our "Rockin' On The River" afterwork parties. This will be one big party as the WONE Beach Dig will be part of our very special "Rockin' On The River Appreciation Day" festivities, which will include food, fun and music. We wanted to stage one big blow-out toward the end of summer to "thank" everyone for coming out to help support our seventh season of "Rockin' On The River" and also to help participate in the WONE Beach Dig. Next weekend, WONE welcomes over 50 of the world's greatest golfers to Akron for the 32nd annual NEC World Series Of Golf at Firestone Country Club... Up and coming concerts include The Grateful Dead for a three night stand at the Richfield Coliseum, the W.O.M.A.D. festival featuring Peter Gabriel and Lenny Kravitz at Buckeye Lake Music Center and Rod Stewart at Blossom ... The Pick-Hit-To-Click-Of-The-Week is Counting Crows' "Round Here".

#### Cathy Faulkner, KISW, Seattle

It was a big weekend for KISW. First of all, Aerosmith rocked the Coliseum Friday. I heard that their show was recorded for their upcoming live album. Steven Tyler hit those high notes like never before. It was surely a day that many will not soon forget, I certainly won't. Though it was rainy and nipply (ah, I mean nippy) our 4th annual KISW Nudestock went off without a hitch Saturday Highbeams aside, everyone managed to stay warm enough to watch local bands, comics and play our yearly nudestock games. I'm sure Bob Rivers will have pictures in the trades soon. It was a perfect send off for the second release from Seattle's My Sister's Machine called "Wallflower". They performed an incredible set Saturday night. Don't take my word for it, ask Peg or Judy. "This Is Fear" and "Enemy" are two of the best on the album ... While all this was going on in the Emerald City, I was having a BLAST at the 15th Anniversary Party for Album Network. Thanks to Paul Brown, Dave Ross and Charlene (soon to be Mrs. Ross) for making it special ... Contrary to popular belief, Pam Edwards and I are not sisters. Though puzzled when questioned, I take it as a true compliment... Our music was Seattle focused yet again. Due to overwhelming demand, we added "You" early. It's the next single from Candlebox you know. We also added a second track from the yet unsigned band Bathtub Gin. Offers should be flying their way soon.

#### Beaver Brown, KDJK, Modesto

This started out to be a screaming tirade, but I have calmed down. You might call this more of a personal note to Stephen Pearcy of Arcade - Stephen, get a grip! You're not in Ratt anymore, you're not a superstar. You're in a beer and bar club band called Arcade. To say you're a rock artist gives all the other artists on the Epic label a black eye. Arcade was supposed to play a club in Modesto on 8/13/93. but because Stephen didn't want to play our town, it was cancelled. KDJK spent thousands of dollars on the show, the local club, Metros, also spent a great deal of time to get the show moving. Because of the stalling tactics of the road manager and his crew saying "the club wasn't good enough" they cancelled. We found out later from said road manager that Stephen had heard of the show a week and a half earlier and had vowed not to do the show, period. Rather than call the club and KDJK to inform us of this, they stalled all day the show was supposed to take place, to make it look like it was our fault that the show didn't

happen. So **Stephen**, thanks for showing that the word professional is not in your vocabulary. KDJK will not, as long as I am here, play anything from **Arcade** or any other band or solo project that you do. I wish you peace. A word of warning to other radio people, steer clear of **Stephen Pearcy**, when his kind is gone from the ranks of rock performers, it will be a good day.

#### Larry Mac, KZRX, Phoenix

First of all, I want to thank Mare and everyone at Chameleon for the great time in Seattle. My Sister's Machine kicked ass. Be looking for a big buzz on this band. "This is Fear" is already lighting up our phones day and night. If you get a chance to see 'em live, do so - they smoke ... My music call hours are this - Wednesday & Thursday afternoons from 3:00 till 4:30 Arizona time. We have a new music call line that you can leave messages on. The number is (602) 848-7735. You can call after 10 a.m. on Mondays to get the adds off the machine. Tim and I would like to thank everyone at the labels for helping and welcoming us... A ballad from Sacred Reich - hey, it works. Do check out "I Never Said Goodbye". Flots' latest tune, "Cradle Me Now", is also gonna be another monster! Both these bands show that Phoenix definitely has more to offer than just the Gin Blossoms ... Wait till you hear Rob Halford's new band Fight saw 'em live a couple weeks back - they kill - they sizzle - Pantera meets Priest. Phoenix is hot !... By the way, I will be taking over music calls for our ballistic metal show called "The Thrash Bash" - same call hours for that show as above. Until next time...

#### Dave Frisina, WAQX, Syracuse

This week I'll be celebrating my 15th year at 95X and I'd like to thank some of the PDs that have made this a better place to work - Ted Utz, Ed Levine, Jim Crowe, Jon Robbins, and currently Steve Brill, have all in different ways given me the opportunity to learn, improve and expand my responsibilities and they were all part of a radio station that has evolved from its inception in 1978 to our current status as number one in the market. Also, congratulations to the 95X staff - Dave and The Fatman, Roger McCue, Alexis, Mark Getsey, Mike Kramer, Scott Greene and the weekend staff for their hard work towards a common goal. Finally, thanks to owner Jim Leven, for providing 95X with the tools and resources to take us to the top. Keeping all this in mind, we will be celebrating 15 successful years of rock 'n roll with a large party around the third weekend of October. Any labels that can provide us with Artist ID's, and any acts to show up and/or perform would receive our undying gratitude and ungodly amounts of publicity and promotional support... Last, but not least, in retrospect Virgin probably could have sold vast quantities of logo-laden material in Denver last week to a very captive audience. Maybe even a photoop with the pope. Maybe next time.

#### Jim Jump, KXFX, Santa Rosa

Not the most exciting week in radio, but by no means does that mean boring! Adds this time around were **Coverdale/Page's** "Over Now" and **Blind Melon's** 'No Rain". Two songs I am very pleased to add to our playlist... Congrats to **Brother Cane**, such huge response got them an increase in rotation to Heavy!... Also thank yous to all the A&R people who called about our local heroes, **The Ring**. They are phenomenal. And safely sitting with a Medium rotation on KXFX! If you're interested in finding out more about my discovery, give me a 'Ring' and I'll give you one back! 707-543-0116... Here's an update on music call times - don't call Monday - don't call Tuesday other than that call me! Call me!

#### Michael Cross, KJKJ, Grand Forks

I am pleased to announce the promotion of Scott Andrews from MD of KJKJ to PD at KBQQ in Minot, ND. KBQQ is our sister FM and, as of 8/1, has returned to AOR from Rock 40. Scott has done a superb job since coming from Oklahoma City in December of '91 and I feel very confident that his knowledge and energy will be a great asset to KBQQ. While I am sorry to see Scott leave KJKJ, I am pleased to know that KBQQ is now in good hands. He will be in Minot beginning on September 7th. In addition, please be aware that I will be consulting KBQQ and along with Scott we have switched KBQQ back to AOR from a flirt with Rock 40. Scott and I will be working hand in hand to begin a winning tradition at KBQQ. Please call me with any questions you may have.

#### John Nagarya, WKDF, Nashville

I have heard the future of Motley Crue and it is mother fucking ferocious! Anyone who has doubts (a group I was in initially) can feel free to wake up! The music is trademark Motley, but this is not "Shout At The Devil" or "Dr. Feelgood" part II! The nineties have arrived and Motley Crue is going to be apart of it. Mark my words or kiss my ass! A very big thank you to Doug Thaler for coming to town and plaving it for me!... Those of you who have not seen Winger on this tour, you need to! If these guys were ever a hair band they're not anymore and radio needs to wise up to that fact!... Eight months after I first heard the album, Brother Cane has a Top 5 track. Of course that's 8 months after I told them and their manager that they were going to have a Top 5 track! God, It feels good to be right once in awhile. And if your in Biloxi, Tampa, Orlando, Fort Meyers, or Augusta I'll see you the week of the 23rd, on the road with Brother Cane, 'cause it's time for a vacation!

#### Sat Bisla, KKDJ, Fresno

It's another week gone by and I'm feeling like I'm actually back in America. It's nice to be back even though Brian Boyd didn't invite us to his party (I quess he's still blaming me for the burn-out on the Tijuana story - oh well, sorry mate!) ... This weekend we were graced by the presence of Interscope's Jeff Marks (my former co-worker at VON'S) and by "Tough Guy" Mark Chotiner from Mercury Records who got me laid that's right, Laid (that's the new album from James check it out it's a really groovy album. Heck, it really could get you laid!) ... Pet Shop Boys' new album, Very, is what it's name implies it's very good. This is the best LP they have put out since Please ... Added this week - Manic Street, Adorable, Pearl Jam and Haddaway (one of the biggest records in Europe this year)... British Alternative/Pop band Unation released their second single, "Do You Believe In Love", from their latest LP. Sounds a lot like **Annie** Lenox/EMF/10,000 Maniacs - it's a great sounding single (Sherry Trahan is supposedly on her heels. I know that may sound surprising-I LOVE YOU SHER-RY-anyway, Sherry at MCA may be signing this one). That's it for now. Till next time CHEERIO!

#### Peg Pollard, KIOZ, San Diego

Jackie Farry is alive and well and living in Seattle! Wow!! What a great weekend. Thanks to Bare and Mare at Chameleon for an awesome couple of days in Jet City, the vacht, the food, the party (the Seattlebrewed bitter beers I coulda lived without). My Sister's Machine fuckin' cranks!! "Empty Room" will be huge! (Well, it should be!) It was great to finally meet Jim McKeon and Judy McLate. Mare Jeffries is one of the coolest people in the world (like Kleenex girl, just blow 'em and throw 'em). Cool to hang with my buddy, Kooby, and get a chance to do shots with Michael Lee. Jack, you gotta get a raise for the cat suit thing. How's Yakima? I wonder if Jeff's figured out the blocks yet? If Jess likes her new green jacket? (Now I know why Cathy F's so damn white!) Hey Ray G., it smelled good, anyway! Entros was a trip, no? Thank you, Chameleon! Can't wait to see MSM again at Foundations Forum next month. They're the shit!

#### Dug, WRFC, Athens

Play **Screaming Jets** "Shivers". Now watch the phones... I want a cat... Motorcycles look odd sans engines.

#### Jamie McCulloch, WCHZ, Augusta

Friends, Frank sends his regards from Montana!

#### **Radio**Comments

Meanwhile back in Augusta, we've had a fabulous week of concerts! Starting on Tuesday we had the Flaming Lips, Butthole Surfers, STP show in Atlanta. On Thursday we had the Throes here in Augusta. The Throes are a band out of Fairfax VA on Glasshouse (they are a band to check out!). On Friday we had **Definition FX** play a benefit for the Red Cross and Flood Relief Victims. Thanks Thomas Westfall and Angela Borchetta for all the help. Also on Friday, in Atlanta, Porno for Pyros and Catherine Wheel played separate shows. On Saturday the H.O.R.D.E. tour took place in Atlanta. Gabe Fiermosea from IRS and Scott Davenport from Geffen stopped by this week... The new Kirsty MaColl and Nirvana sound pretty good (on the air, just kidding guys!) ... Congrats to the Chili Peppers for winning Shriek of the Week! Better luck next week to Stu's Pygmies. We had a John Wesley Harding Weekend to get everyone excited for the show tonight. Thanks Howie Klein, Steve Tipp, and Warren Hudson for all the support. Frank will be back next Monday with stories and photos. Until then, peace out!

#### Mike Luoma, WIZN, Burlington

A couple of housekeeping items first off: If you pledged per hole for Steve Cormier's American Cancer Society "Longest Day of Golf", please pay up! They have to have your money before August 31st! Also, well, if we bought Arbitron, I could tell ya we kicked ass in the book! But, since we didn't, you'll just have to guess for yourself how we did. Remember, new calling hours, too!... Okay, with housekeeping done, let me just put in a good word for the fine folks in a li'l ol' band known as Raging Slab! "Take A Hold", their latest, comes at you sonically with the power of the '90s, with slide and melody right out of the mid-'70s (before disco, 'course), cemented together with the gravelly vocals of Greg Strzempka and luscious harmonies from the rest of the troupe, which defy all time. This one kicks and caresses at the same time, reminding you that hard rock can be melodic and essential! Hallelujah for the Slab and their Dynamite Monster Boogie!

#### Michael Young, WRZX, Indianapolis

A huge thanks to Warren Christensen and the always lovely Karen Fernandes of Geffen for coming to town last week. I'd say let's do it again real soon, but I don't think my body can take it. And that ain't no lie brother!... Seeing that I haven't written in awhile I'll just mention a few of our huge records - **Sweet Water**'s "Head Down" is gonna be a monster - already Top 5 phones in three weeks!... Another great record is **Candlebox**'s "Change". Don't be caught with your pants down on this one unless you like showin' your ass. It rocks, it gets phones - A.K.A. It works! God bless you all!

#### Charlie Morriss, KTZN, Tucson

Sheryl Crow has an excellent new record out. After only one week, we're getting phones on this record... The big record for us right now, and the biggest surprise is Sonia Dada. If you had told me six weeks ago that this would be our most asked about record, I never would have believed it. We've had the record in Heavy rotation (up from Medium where it was for five weeks) for two weeks now, and we just added the new track, "You Ain't Thinking (About Me)" right into Heavy without any prior airplay.

## *Ron Michels "The Metal Maniac", WRZR, Colombus*

Well, The Party From Hell #5 is now history. Animal Bag raged, even though they had a really bad day. Their flight was late, their equipment was on it's way to Los Angeles and on and on and on. We here at Z-Rock in Colombus would like to thank Sharkman for one incredible weekend. Thanks Shark!... The Z-Rock Loud And Local CD has finally hit the streets of Colombus - the listening party will be August 26th. Wouldn't it be great if a record label finally realized that Colombus does have a music scene. Now a little something that I have to get off my chest. Don't you think it would be a good marketing strategy to make shows neutral or co-sponsorship? Just a thought. Till next week Z-Rock fuckin' rocks your world.

#### Mike Wilhide, WIZN, Burlington

Hello, Hooray! Wilhide here. I know, where the f\*\*k have I been? I just started in the biggest record store in Vermont 2 Sundays ago and its been Hell. To make matters worse, we just got a new Regional Manager and she'll be in for an inspection this week. Plus, I go out of town on business this morning at 4:00 a.m. for 2 days. Hence the early report. I should most definitely be "back on line" next Monday or Tuesday, so I will talk to you then. Thank you for your patience!

#### Jeffrey Naumann, Virgin, 310-288-2446

UNFKNBLVBL!!! A phenomenon is happening all around us right now. And I'm not talking about the meteor showers, either. The phenomenon is the Smashing Pumpkins. Virgin has been carefully and quietly preparing this band for the past three years for huge success. Currently, the Smashing Pumpkins' Virgin release, Siamese Dream, is already Top 10 at Alternative radio, #1 at College, Top 5 at Metal, the album debuted at #10 in Billboard, and just went gold. And the video is in Buzz Bin on MTV. I'd say this record's set up. Well, it's finally time to add "Cherub Rock", which couldn't be more set up. The Smashing Pumpkins will be a veritable monster, and check out the depth of hits on this one... Lenny Kravitz kicks off his U.S. tour in New York City September 7th, and will coincide with the next rock single, "Is There Any Love In Your Heart". Lenny will also be performing on the MTV Awards September 2 ... Brother Cane just continues to test through the roof all over the country with virtually no burn. They're still on the Endless Tour, and the CD is selling compoundly weekly. "Got No Shame" is by no means ready for recurrent airplay... Up next from Virgin comes the new Cracker CD, slated for adds September 13th. The cut is called "Low". What a great summer, but Ceaser must rest now.

#### Jim Del Balzo, Columbia, 310-449-2910

In October of 1992, perhaps the greatest assemblage of talent on one stage graced, and I do mean graced, Madison Square Garden. The result of that evening is one of the best sounding live records ever made. Bob Dylan, The 30th Anniversary Celebration is a great album. This CD contains some truly amazing performances. Eric Clapton's version of "Don't Think Twice" is a classic, as is Eddie Vedder and Mike McCready's version of "Masters of War", as is Neil Young's "All Along the Watchtower", as well as many other tracks on this amazing collaboration. Take this record and listen hard and often; you will fall in love with the record - I guarantee it ... There's a great new record coming very soon from the Manic Street Preachers called Scream To A Sigh. This band made a huge impact in the U.K. and they are ready to take on the U.S. This is a killer track and for you historians - Scream To A Sigh (French translation "La Tristesse Durera") were the last words uttered by Vincent Van Gogh before he took his own life. Please listen to this cut when you get it. I have a feeling you'll really like it ... The Alice In Chains record is beginning to kick in. With adds at WHJY, WKLS, KUFO, KEYJ and WVRK. We're also getting some great play increases and this appears to be a typical Alice Track. If you're not on it, pay attention!.. Midnight Oil continues to build and build every week. The band is currently on their biggest U.S. tour yet. If you haven't ever seen them, make sure you don't miss them. They may be one of the greatest bands in the world. See for yourself ... The next Soul Asylum track, "Without A Trace", will arrive in a week. Thanks for your support in making Soul Asylum's Grave Dancers Union a platinum album... Do yourself a favor, take a copy of JT's new double live album.

You look in a dictionary under "Singer/Songwriter"

and you see the name **John Hiatt**. For nearly two decades the man has penned literally thousands of songs to his credit and won the admiration of his peers as well as tens of thousands of fans. In fact, the magnitude of **John Hiatt** covers have graced albums by none other than **Bob Dylan**, **Bonnie Raitt**, **Iggy Pop**, **Three Dog Night** (remember them), **Rosanne Cash**, **Aaron Neytone** of the **Letter Bold**, **Conway** 

Twitty. The list goes on. Just recently, Hiatt broke through album radio with a trilogy of industry acclaimed albums - Bring The Family, Slow Turning and Stolen Moments, as well as teaming up with legends Ry Cooder, Nick Lowe and Jim Keltner (the line up of Bring The Family) to form the successful Little Village album and road show. Which brings us to the present with this project, Hiatt does a complete turn around and the result is Perfectly Good Guitar This undertaking teams him up with Matt Wallace (producer of Faith No More) and features Michael Ward from School Of Fish on lead, bassist John Pierce and drummer Brian Mcleod from Wire Train. The result is a sparse and edgy, raucous, guitar-crazy collection of songs whose underlying theme of turmoil and restlessness finds its appropriate echo in the racket he kicks up with the very band he plays with. But enough of the literary crap. Listen to Perfectly Good Guitar, it's nothing but fun!

Ian Moore's "How Does It Feel" is a hit! That fact has been verified by super strong chart moves and overwhelming response from the people who count the listeners. This is truly amazing, given the fact that just a few weeks ago lan was just another new artist vying for your attention and now he is at least Top 20 on whatever chart you choose to look at. Thanks for your tremendous support. We've created an AOR artist who will grace the format for many years to come. This is what it's all about!... Also, thanks to every station that helped make this summer's H.O.R.D.E. tour a success. You can now follow up on the energy generated by the tour by playing Widespread Panic's "Pleas" and Col. Bruce Hampton and The Aquarium Rescue Unit's "No Egos Underwater"... Next week, we are bringing you the first taste of a great new band from Boston, the Swinging Steaks. Please give "Beg, Steal Or Borrow" a serious listen, test it and add it. This is mature, mass appeal rock at its very best. Until next week, Peace.

#### Lea Pisacane, Atlantic, 212-275-2215

Much debauchery this weekend. Where were you? I missed ya. Lemme ask you a question. If you were held prisoner for 5 days in a 14 foot deep, 5 foot wide hole in the Bronx covered by steel sheeting and cinder block, kept alive by fruit and water lowered by a rope and were rescued by the cops only to find that your kidnappers were faithful long-standing employees of your tuxedo factory, would you be JOKING about it to the press when you emerged? Everyone has their fears; I guess claustrophobia isn't on e of Harvey Weinstein's... May I shout from the rooftops for a second about a great, great new band called Sweet Water? "Head Down" is the song (as in "Keep your...") and if you care about what's good (thanks, Lou), listen to it, love it and play it on your radio station. See them on tour with Sun 60 now! Just great music brought to you by the soon-to-be-hippest label extant. P.S.- Mottla & Jonathan, my heart warmeth over.

#### Phil Hardy, Rockworld, 212-861-0100

Dirty Looks' "Let It Rain" is a great song. A great song from a band that has toiled for the past five years in every shit hole in the United States. Why shit holes? In 1988 it was because they weren't pretty. Now in 1993 they are labeled a reject poseur band from the '80s. All of this, I know, is typical of the cynicism that permeates our business, but what else is new, you ask? What is new is that for the past couple years people on both sides of the aisle have been preaching "smart" promotion, which I would believe would be the opposite of the "stupid" approach (aka the "Monty Hall" variety). Okay, so Rockworld tries to be "smart". We put the band on tour in the right markets, get great parallel one stations to add the record, start retail programs and what do I begin to hear just a few weeks in? - "What kind of numbers do you have?" "What kind?", I ask. "I've got ten P1's, that's what kind." Isn't that enough of a start? Haven't we been preaching quality as a story? Does one need to be Felix the Cat with a bag of tricks today buying up real estate in order to interest people? "People need to stop talking out both sides of their mouths" is what someone said to me the other day. Maybe they're right (though far be it from me to claim to be the arbitrator of record promotion). But just the same, next week somewhere between 250,000 and 500,000 people will have heard Dirty Looks' "Let It Rain" and many will have liked it, just like a lot of programmers. But how many listeners will stop and wonder what kind of numbers it has on it? (I'm done now, everyone feel free to say "What an asshole Hardy is.")

#### Missi Callazzo, Megaforce & Crazed Mgmt., 908-972-3456

Please listen to "F Sharp" by **Nudeswirl**. This is not a typical or boring track, by any chance! It's an exciting song, but a new band who are receiving quite a bit of attention! "This is cool" is what MTV's Beavis and Butt-head had to say about the track. The band are currently on tour and the shows are doing very well. Listen!

#### Jeff Cook, Capricorn, 404-873-4796

Now that Ian Moore's "How Does It Feel" is Top 20 in all charts and Breaker in R&R with stations like, KDKB, KRXQ, WHCN, WPDH, KLBJ, KNCN, KLAQ, WRCQ, KMJX, WONE, WTUE, WGBF, KEZO, KJOT, KCLB, KATP, WKZQ, KJKJ already playing it in Heavy and over 15 new adds this week, you should be Moore-tified that you're not playing this record. But we'll forgive you, we'll take your add this week. lan Moore is getting ready to tour right across the country so look for him in your town soon!... On your desk now-the first single, "Beg, Steal Or Borrow" by the Boston band, the Swinging Steaks. Move it to the ton of your stack and listen now - this is a hit sono!... Going for adds this week. If you haven't listened to Widespread Panic's "Pleas", please do. Well over 100,000 people saw them on the H.O.R.D.E. tour this summer and with the press they're getting, your listeners want to hear Widespread Panic. Test it and see what we mean... Col. Bruce Hampton & the ARU, "No Egos Under Water" - you should be warming up to it. If you aren't you're all wet!... 311's on the road and if they come to your town, go see them!

#### Chris Woltman, Columbia, 310-449-2910

The full Bob Oylan 30th Anniversary Concert Celebration is on your desk as you read this. I know everyone has seen the show and/or listened to the CD and you know that it is filled with classic Dylan tracks like "Don't Think Twice, "It's All Right" performed by Clapton and an amazing version of "Masters of War" with Eddie Vedder and Mike McCready. "My Back Pages" has another week of solid growth with Top 10 airplay from Philadelphia to Toledo to Denver... The "pieces" of Cry of Love's "Peace Pipe" truly are coming together. The band is out on the road kicking ass everywhere they stop. The retail story is starting to develop with sales increases across the board and the airplay moves to Heavy at WFBQ, WIYY, WBZX (along with just about every other type of AOR listener... Midnight Dil is out headlining an amazing tour and "Outbreak of Love" is building every single day. If they are in your market you must see them - as many of you already know they truly are one of the most brilliant bands that you may ever see live ... Alice In Chains delivers once again with "What The Hell Have I". This track, like every track from Alice takes a little bit of time to develop, but once it does watch out! New stations this week include WKLS, WHJY and WVRK to name a few ... In closing news, two things: 1) Spend time with the entire Billy Joel

record and get ready for him to hit the road and 2) Keep your ears peeled for **Manic Street Preachers**' "Scream To A Sigh."

#### Mike Kondo, Sky, 404-263-7888 EXT. 106

Flat Duo Jets have been getting a great response from college radio for years now and it's no wonder. They have constantly put out great records and White Trees is no exception. "Love Can't Be Right" and "Old Soul" are two great tracks for commercial radio. Take a listen and give your listeners the alternative that they have been listening for. Flat Duo Jets are something truly to shake up your radio, and they will be shaking up the Midwest as they hit several cities over the next couple of weeks. Be sure to see them ... Soon you will have on your desk the second release from Seersucker, entitled Pushing Rope. If you know what this title means, then you truly are a sick camper. Early Pixies and Jesus Lizard guitar sounding, but with lots of melodies ... Also Five-Eight just finished recording an EP with an October release date. "My Sister's So Strange" is so full of hooks it will have you humming it all day.

Cornelia Hoskin, Taang!, 619-488-5950 Wow! Sam Black Church #41 debut! What a conquest! The band is gearing up, playing select weekend gigs before joining Slapshot September 22 in Buffalo for a three week plus stint as the In Your Face 'S' band extravaganza. Thanks to all the stations who have recognized the band's supreme prowess as a modern day hardcore jewel. "Infernal Machine" and "Big Barbeque" melting into "Disco Inferno" are the tracks that drive up the hormone levels and bring kids running back, begging for more... The debut EP from Spore is creating quite a buzz among hard, guitar grinding noise heads. This is a great fucking band, one of my personal favorites. Alternative Press enthusiastically dubbed the band the "bastard children of John Doe and Exene" and that only scratches the angry, melodic surface ... Swirlies are headed towards radio stardom with more and more stations spinning their latest EP, Brokedick Car. WBCN's Albert O loves this EP, "It brings the band to the next plane," he says. "House of Pancake" is a song with a different sound, and it is appreciated for that reason. Well I'm outta here, I'm going to enjoy this feeling while it lasts.

Derek Ault, Alligator, 312-973-7736 Today is so cool!! Warm wind is breathing heavy through my office window at the Alligator ranch and I'm listening to the awesome slide of Aussie Dave Hole. He is, I'm convinced, going to be a major player on the AOR charts in the coming months. It all has to start somewhere, though. Why not give an artist that is simply a natural at whipping things up into a rockin' frenzy a decent listen? Don't assume that Alligator is code for blues show music only. Your hard core rock listeners will drop their jaws after one listen to his slide work! This is definitely rock-n-roll with a touch of blues. Unless you are a big flabby loser, give this one a minute of your time. Don't short change your listeners! Check out "Nobody Hears Me Cryin'," "Workin' Overtime" and "Mean Old Airplane' for some of the most potent slide work since the last effort from Johnny Winter. I can't think of a better place to start for some great adult numbers... Attention AAA, A3, PAR, adults only types: See you at the Gavin Summit in Boulder on 8/27 and 8/28... Don't forget to listen to our re-serviced "Live From Austin" from Delbert McClinton. It's excellent. Thanks for reading! Buenas knockers!!!!

#### Jim Neill/Eric Kayser, Rhino/Forward, 310-474-4778

Between 500 & 800 people showed up at each of 15 in-stores across the country in July to see **Todd Rundgren/TR-I** discuss CD-I technology and his new album, <u>No World Order</u>. The tour proper starts in October. The single, "Property". Already Top 5 at Adult Alternative. AOR in our sites with WMMS & WBAB on it for a month already. The argument: Our dads can beat up your dads - no - I mean, **Todd** has always been a secret pleasure for so many of you yet you've grown accustomed to treating him as an outsider. You've dug his music and said, "Yeah, God that was a great album. In retrospect, I should have played that. I took it home instead." We'll send you an extra to take home. Play "Property" because it's a great song. Not because we asked you to. And really, how often do your generous product buddies at Rhino ask YOU for something? The Forward label will be offering up ample new music in the years ahead, so start thinking of us a little differently, OK? Cheers.

Michael J. Schnapp, Epic, 212-833-5987 Bad Brains "Rise!" "Rise!" Rising up the charts with "Rise!" Bad Brains rippin' it up... Full <u>Judgement</u> Night Soundtrack comes to you soon and Helmet/House Of Pain are here now with "Just Another Victim" ... Annihilator "Set The World On Fire" this week... Suicidal Tendencies continues to be "Cyco" and pull requests!... Rage Against The Machine - Do you dare to play "Killing In The Name" all the way through?... Dzzy is still Live & Loud!... Looking for a Fight? We've got the Fight! Cheryl Valentine, Mercury, 212-333-T/LT Greta's first fully produced, let's run with it single for "Fathom" is going for adds at your station on August 23 and 24. This is from the debut LP, No Biting, which will in-store on Sept. 21. Get off the slug and add my killer new band TODAY!... McGathy Promotions (Sudi, Corey) and I are on a mission from God! Yes! You will love Catherine Wheel or we will have to hunt you down and dismiss you of your duties! If you listen to the most current F CD with the Scorpions as the hosts, you'll fully realize how well Da Wheel fit into a Loud Rock format ... I figure you've got Mind Bomb's "Daisy Chain" in your Top 10. If you're a lame-oid and you have spaced on this, what are you waiting for? The cows to come home? Mind Bomb will be more huge than anything else on your playlist currently so don't even think about bailing on them now!... Folks in the Midwest now understand why I'm up their butt about the Mighty Mighty Bosstones. Once you've seen this updated Hardcore band with friends who play horns, you'll worship them for life!... Your very first Scorpions single, "Alien Nation," is just waiting for you to add it on August 30

Nation," is just waiting for you to add it on August 30 and 31. Their new album, <u>Face the Heat</u>, will be at your local record shop on Sept. 21, so don't delay your excitement - put the **Scorpions** into a super enormodome rotation from the onset (August 30). My bands RULE!!!!

John Nardachone, Atlantic, 212-275-2135 Savatage, Sweet Water, Dverkill, Kix, Winger, Screaming Jets all on tour somewhere in this grand nation of ours. Interviews have been pumpin'. Call me with any need!... Speaking of Screaming Jets adds on Living In England EP This week! Do it up if you like your punk... Melvins are coming! You won't believe the heaviness! The first single from <u>Houdini</u> is "Honey Bucket", look for it next week...

#### E.J. Johantgen, Columbia, 212-833-4989

So, what do all you cats think of **Fudge Tunnel**'s <u>Grev</u>. Good. So today you should be adding it and cranking it. Their first ever US tour begins September 22 w/ Season To Risk and Pain Teens... Many, Many, many thanks to all those who have supported **Cathedral**. Please keep on cranking "Midnight Mountain" - it's a smash. Saw some live footage of the band as they slammed through Japan - can you say arena ready?... Fishbone is off to Europe and will be back to the states soon... Entombed.... Hollowman. 'Nuff said.

#### Rob Tarantino, Energy, 212-695-3000

There's still some stations out there who haven't added the **Souls At Zero** album yet. The record is Top 10 without you. With you, it will be a #1 record. Not only is it Top 10, it is also one of the Top 5 Most Requested metal records out there now. That means if you play it, they will call. It's in black and white. Just do it.

#### **Radio**Comments

much you love it. This record works all the way

Clarissa Garcia, Def American, 818-973-4545 Most of the weekend is a blur 'cause it was iampacked with activity. Friday afternoon was spent in traffic en route to San Bernardino for Danzig, Sacred Reich and Genitorturers... Saturday night was Album Network's Fifteenth Anniversary Party (can I mention another tip sheet?) at the Studio Restaurant in Universal City. Yes, it was a schmooze fest and ves, it was fun. On Sunday, I drove to San Diego for the Danzig show (same bill as above). Dinner conversation with Fitz and friends consisted of weirdlyshaped spoons, food for us poor (Spaghetti-O's, Rice-A-Roni, etc.), the ever-popular Rick Rubin, and Beavis & Butthead of course (ask Fitz to do his impersonation which is really a glimpse at his childhood). Sacred Reich ended their participation in the tour with a great set and a crowd of people in their dressing room all night long. Tom Araya introduced 'em and made mention to Genitorturers' set. Danzig were even more amazing than at San Bernardino. Fitz sang along to all the songs (great "Glenn" voice). I now know what a halter top is for (ask me, I'll explain), and an old woman in front of the stage did groupie-type things. I'm tired, but I had fun. Thank you to everyone!

#### Dyana Kass, Hollywood, 818-560-5670

What has eight legs, sixteen feet of hair, crushes everyone in front of them and whose current stomp song begs to break loose? Why it's Sacred Reich with their current single "Free", of course! The boys have just finished their tour with Danzig and are about to start a headlining tour across the country, so stay tuned to this Sacred channel for details!... It comes from Denver, rocks til it drops and all this with only "One Eye Out". It's the Fluid's next emphasis track, so make sure to give it that metal love ... Next up is something vaguely familiar, but with a special twist. Obviously, I'm referring to Die Krupps A Tribute To Metallica with the first track "Enter Sandman". This jammy will leave your listeners reeling!... Don't miss The Scream debuting their new lineup at Foundations Thursday night and get ready for the first track coming soon... Now open your ears and get prepared for Eleven because these guys are uncategorizable! It's dirging, dark, melodic grooves that can get over anywhere and this band features the distinctive drum styling of original RHCP skin man Jack Irons. Ooooohhh can't wait, can you?

## Steve Prue/Toxic Tommy, Concrete Marketing, 212-645-1360

My Sister's Machine - no sophomore jinx here, just pure devastation!... Lillian Axe is back! Get "Crucified" now!... There's more on the way, much more - Big Chief, Scorpions, Clutch. No excuses, no promises, just play it!

## Munsey Ricci, Skateboard Marketing Ltd., 516-825-5549

Ya know, I love the music industry. But I hate August. I dunno who's coming or going. But anyway, **I Mother Earth**. Yea boy, this record has your radio station all over it. So what's up, we must go #1. You know, top of the heap... **Smashing Pumpkins**, go to the record store. See how much they sell. See how around like a Playboy bunny... George Lynch liners are in your hands by now. He's still doing the interview thing. If we missed you call us... Simple Aggression just started the radio thing. This record is way hot, listen to it. You're guaranteed not to take it out of your CD player... Morbid Angel will have a EP coming in, well soon. We don't have the exact date yet. Airplay and sales are still climbing... Deep Purple is on your desk to, dig on it... Lillian Axe this record is going to break out. I hear it, your listeners hear it, do it... Check out Vendetta - let it grow on ya... Well anyway, the Motorhead show was great. I had a great time hanging with Rob and the band. Finally got a chance to meet Todd. And, as usual, the whole N.Y.C. crew. Till next week, Yo, C'ya.

#### Marc Schmidt, Megaforce & Crazed Mgmt., 908-972-3456

**Nudeswirl** is out on the road headlining a club tour as you read this. See them now! They are not to be missed! Call me to set up interviews... The band to be playing is **Tribe After Tribe**. You should have the special limited edition CD of <u>Love Under Will</u> in your hands right now. Pop it in your CD player, and truly love life. Play it so often that people think they are listening to South African radio! "Ice Below" and "Hold On" are two tracks that should definitely do your station justice, so play them often!... And I'd like to send out a very warm and big hug to Tara at WUVA, one of the grooviest sex kittens on the dial! Any questions call!

Michael Rittberg, Metal Blade, 805-552-9111 September 8th marks the kick off for the 'In The Shadows 1993 North American Tour" from Mercyful Fate. By now you should know that the opening acts will be Anacrusis, Flotsam And Jetsam and Cathedral. We are asking rock stations to support "Is That You Melissa" and metal stations to support "Bell Witch" as the follow up to the #1 metal track, "Egypt". Mercyful Fate continues to generate #1 phones and very strong sales. I'm looking forward to supporting every station that supports Mercyful Fate. As I have mentioned earlier, this tour will be a sell out and we (Metal Blade, MCA and Columbia) want you involved!... Mouth! Thanks to WHZL, WVCR and KZRK for their early support. Give a listen to "Wheel". If you need another copy of anything, please call me ... College football final starts next week. Now only if my alma mater, Florida State University, can win a national championship?

Maria (Mom) Abril, Relativity, 718-217-3636 Vai, Death, Vai, Death, Vai, Death - kinda like peanut butter in the chocolate, huh? They're on MTV's Headbanger's Ball and should be #1a and #1b on your playlist. "In Human Form" is the new Death track. I want my #1 record dammit! It's selling through in every market, so pick up the tip and run with it. NOW. I hear a rumor that Vai is playing Foundations and the full tour starts at the end of September. For all of you that are still scared (wimp) to play something called Death (woos), a message from Chuck Schuldiner of Death: "People just need to look at Death as a name, just like **Black Sabbath**. I named the band when I was 16, and you think a lot differently when you're 16. Now if I was naming the band, I would honestly not call it **Death**." Peace, Love and Death my children. Mom outtahere.

#### Steve McClure, Leviathan, 513-825-0612

Thanks go out to all of the stations who have added the incredible **Simple Aggression** Formulations In <u>Black</u>! The initial response has been excellent. The guys will be doing phone interviews/ID's etc. over the next few weeks, so give Munsey Ricci at Skateboard a call to line up the group - (516) 825-5549... **Joe Stump** will be playing the Strand Theater in Providence on August 25 if you're in the area... Simply said, **Simple Aggression** is simply the best new band out? Simple Enough!

#### Guy "G-Ster" Guiliano, Glad Dog Marketing, 1-800-814-3347

#### Greg Derbas, Red Light/Grind Core, 708-297-6538

Well, another joyous end of Summer season, when reports are frozen and everybody is preparing for their Fall release onslaught. Before you freeze your report, don't forget about Grind Core, especially **Morgue** -<u>Eroded Thoughts</u>. Kicking butt all over the country... And if that doesn't give you a tingle, then try a dose of **Afterlife** or **Paralysis**. Just like everybody else, I am preparing for the Fall, so if you have any changes, let me know... Due out this September is **V.O.I.D.** (**Victims Of Internal Decay**). A Portland based band displaying their own Pacific Coast (Death), sure to be an ear pleaser... And yes, the **Zoetrope** tour will happen. Tour dates are just around the corner... Also be on the lookout for the Grind Core <u>Death Row</u> compilation CD coming to a store near you.
