WHO'S WHO

IN  
CANADIAN  
TALENT

RPM WEEKLY PART II  
June 29, 1974

...one thing in common.

Mention "Shure Microphones" anywhere on the Canadian music scene, and you'll get turned-on looks from such stars as: The Mercey Brothers, Edward Bear, Paul Anka . . . or Carpenters, The 5th Dimension, Loretta Lynn, Conway Twitty, Rolling Stones, Led Zeppelin, and just about everyone else who's together! They *all* use Shure microphones! For yourself or your group, get it on with your own *Shure Unisphere* or *Unidyne*. They both go great with any sound — including yours!

# CAN'T FIGHT FACTS

BMI Canada is this country's largest performing right organization, by far. We're proud of our more than 5,000 affiliated writers, composers and music publishers.

But why? Not just because they're affiliated with us, but because of their product. Music creators know where the action is. They can read the figures. They know the value of being with a team that is leading the world music industry. Look close to home, to begin with. The first place we looked to see how many tunes licensed by BMI Canada are included was in the pages of RPM Weekly.\*

## TUNES LICENSED BY BMI CANADA LIMITED

RPM 100 Singles charts	<b>59%</b>
RPM Pop Music Playlist	<b>62%</b>
RPM Country Playlist	<b>76%</b>

## CANADIAN-CONTENT TUNES LICENSED BY BMI CANADA, FROM THE SAME CHARTS

RPM 100 Singles charts	<b>68%</b>
RPM Pop Music Playlist	<b>70%</b>
RPM Country Playlist	<b>68%</b>

## BMI CANADA LIMITED

\*Royalties are paid quarterly by BMI Canada to its affiliates. For this reason the above figures were taken from a similar time period — July to September, 1973, the latest quarter available.

PRINTED IN CANADA

On page eight of the Who's Who In Canadian Talent is a piece about RPM that highlights our achievements over the years.

We can now add to that list, the first directory of talent in Canada for entertainers and recording artists.

Ten years ago, this book would not have been possible. One year ago, it started to look possible and finally RPM has created another landmark in the music industry in Canada.

But we too often overestimate the industry. Perhaps we were premature in attacking this project. It was one of the most difficult ventures to come our way in a long time.

From it we learned there is still a great deal to be done by Canada's talent and their managers and bookers to make the buying and selling of talent a business and an art.

This is not a big book and it really doesn't represent all the talent available in Canada, but it does represent the talent that is in the forefront.

Just as we have pioneered this project, the artists, managers and agents listed in this book are pioneering management and booking and the exposure of Canadian talent on a more professional basis.

To them we dedicate this first Who's Who In Canadian Talent and we can be sure that future editions will be bigger and better and even more useful to the industry.

So we have the opportunity to introduce another FIRST for RPM and we hasten to add . . . it won't be the last.

—Walt Grealis

# Reference facts the industry should know about CAPAC, Canada's first performing right society

CAPAC's most important job is the collection of licence fees for the public performance of music, and the distribution of that money to the composers, lyricists and publishers whose works have been played. CAPAC's been doing this since 1925.

The test of a performing right society is its performance on behalf of its members, and the members of affiliated societies it also serves. Here's how CAPAC's been doing over the past five years:

	1968	1969	1970	1971	1972
WHAT CAPAC RECEIVED	\$5,360,000	\$6,012,000	\$6,484,000	\$6,862,000	\$7,594,000
WHAT CAPAC WRITERS GOT	364,000	419,000	640,000	871,000	1,138,000
WHAT CAPAC PUBLISHERS GOT*	1,511,000	1,416,000	1,450,000	1,562,000	1,705,000
CAPAC'S OVERHEAD (as % of receipts)	13.0%	13.9%	12.9%	12.8%	12.6%

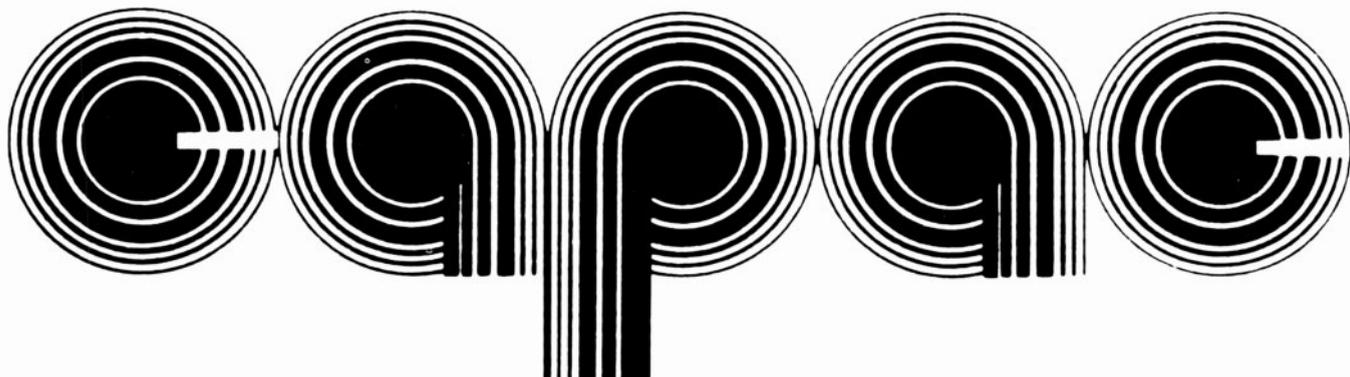

\*includes payments to CAPAC publishers who also act as agents for foreign publishers.

CAPAC, of course, collects and distributes performing right royalties for foreign composers whose works are played in Canada - and that's where a share of the money we receive goes. On the other hand, CAPAC is receiving a growing income each year from foreign societies, in payment for our members' works being played abroad.

The figures above demonstrate two important things: 1) The benefits that result from the fact that CAPAC is the only performing right organization owned and run in Canada, by its own members, and 2) that CAPAC is always prepared to back up its claims with complete information.

If you want to know more about CAPAC, and how we work with Canadian composers and publishers, all you have to do is ask. We welcome your interest.

In 1964, RPM was the first Canadian trade paper. Consumer magazines had come and gone, but RPM was the first attempt at a weekly to the music and record trade. We have been here weekly for close to ten years. RPM was the first to compile a national listing of 100 singles and LPs. We were the first to show record numbers and distributor codes. RPM was first when we began our music poll in 1964. We asked the industry who the top people were and made them known to the trade internationally. Five years ago, we were first when we announced the Gold Leaf Awards which allowed companies to certify their outstanding record sellers with uniform figures, thereby eliminating the need for awards based on any figure the companies thought was an outstanding seller.

# RPM *the first*

Five years ago, we announced the Juno Awards, a yearly gathering of record people to honour the finest our industry could offer. The Juno Awards have brought a great deal of attention to the industry and have helped Canada build stars.

RPM was first in designing and making available to the industry the MAPL system for identifying Canadian content.

We published the first Canadian Music Industry Directory in 1965.

We were the first to coin the word Cancon which is now an internationally accepted expression.

Two years ago, RPM was the first to instigate a series of Communication meetings across Canada which gave the industry an opportunity to look at itself. The industry found itself negative and positive. We were the first to report that fact.

We aren't ashamed of the contribution we have made to the Canadian music and record industry. We are happy about the dialogue we have created among programmers.

As small as RPM is, we have contributed significantly to the music industry in Canada.

With our pulse on the industry, we will also be the first to come up with other imaginative and progressive ideas. We have three projects presently in the planning stages which will add prestige to the Canadian industry.

Now another first for RPM. This is the first time we have ever asked the industry to acknowledge . . . RPM . . . the first.

Next time you are talking about RPM, think of us as RPM . . . the first.

Chris Thompson

Pacific Salt

Alta Gray

**Four of Canada's Giant Talents**

Pacific Salt....."The most successful jazz-rock I have heard" (Vancouver Province) A powerful electric synthesis of musical ideas in the language of the seventies.

Alta Gray.....Possibly the finest female singer-songwriter to surface in Canada since Joni Mitchell.

Chris Thompson... Soul-brother to the world! The greatest funk-singer and tear-it-up showman in the West.

Marc Strange..... A universal talent: actor, singer, writer, painter, director — songs a specialty.

WD Management...Exclusive personal management for four of Canada's giant talents.

# The Second Oldest Profession in the World

For years (the story goes) historians have tried to find out the meaning of square heel marks left in the sands of an ancient city that was dug up. It was only recently that the answer was revealed. It seems that the ladies of the night (of their time) cut the heel of one sandal to leave a mark in the sand wherever they wandered. Their customers could find them by following the marks of the heel left in the sand. As a result of these findings, advertising became the second oldest profession in the world.

You don't have to notch your sandal to become part of the growing trend to make your services or your product known. We can now offer you a wider audience than those ladies of ancient times. Be it information or hyperbole, the pages of RPM Weekly reach out to every aspect of the trade and the media. Record stores, rack jobbers, programmers, disc jockeys, juke box operators and many or most of the companies and individuals listed in this Directory will see and read your ad. The value of trade advertising is unsurpassed when it comes to reaching the exposure media whether it be by airplay or room in the browser box.

We offer instant service and cooperation to get your ad into RPM and RPM out to the trade. There is nothing you can do that has such a national impact on the trade as an ad in RPM.

We aren't here to pressure you into advertising, but why not test the marketing potential of RPM Weekly as your new imaginative campaign to get to the trade. Next time you think of a mailing piece or a direct mailing to the trade - think of RPM as an alternative. One phone call to us with an ad reservation and put the copy in our hands (even in its rough stages) and the next thing you'll see is the ad that has gone out to the trade of two countries. No setup to approve, no printing, folding, packaging, postage or mailing. We do it all, on a weekly basis.

We're here to provide a service to the industry. We package news, information and your pitch to the industry. Try RPM. It's consistent, it's reliable (since 1964) and it's read.

We're proud to be part of the second oldest profession in the world (if you believe that story).
