Weekly Issue Number 822

March 26, 1979

Just about everything (and everyone) in New York is wild and crazy (that's what disco can do to you!). Here the unknown promotion man (and assistant) visit the unknown programming department of 99X-WXLO New York City. L-R: Rick Bisceglia, 99X music coordinator; Rob Sisco, 99X assistant PD; Steve Greenburg of Mercury Records; and 99X PD Bobby "I Also Wear A Mask At Orgies" Rich.

**WPFM Panama City, FL...**WPFM, WKXX Birmingham and WHHY Montgomery concluded what is believed to be the first ever tri-station, cross-state promotion. Panama City, Florida is a playground on the gulf for thousands of Alabamians so, leading up to Alabama Spring Break, John Shomby (KX 106) and Larry Stevens (WHHY) gave away official Panama City T-shirts and selected a pair of winners to spend the weekend with a station jock as the guests of WPFM. John Dantzer (WPFM) sent private planes to pick up the winners, treated them to a beach party and a wet T-shirt contest on the beach (estimated attendance 6,000), plus accommodations and free meals capped off by a Head East open-air concert that evening. The cross-state promotion resulted in a record crowd for Panama City Beaches over the weekend. Project originator and WPFM PD John Dantzer said, "The opportunity to work with the people I admire as much as John Shomby and Larry Stevens makes the incredible anxiety of putting this together certainly worth it. Special thanks to A&M artists, Head East, who got involved at the beach party and gave Panama City one helluva outdoor concert. More stations in markets with cross-city interests should work together...the long-distance reinforcement impact is unbelievable."

**WXQM-FM (98-Rock), Tampa..**Al Peterson has been appointed PD of WQXM, which is a Superstars station. Al was previously with WMJQ in Rochester.

**New Orleans..**Sambo Roberts has been relieved of the music director-ship at WRNO-FM. Mike Costello (PD) will be taking all of the music calls. Sambo will continue his afternoon drive show.

**"Hair" Celebrates Tenth Anniversary via Film, Disco..**This year is the tenth anniversary of "Hair". Ten years ago this Spring, the Cowsills had a big hit with the title song, the Fifth Dimension was singing "Aquarius" and "Let The Sunshine In", Oliver was out with "Good Morning Starshine," and Three Dog Night released "Easy To Be Hard." Now, "Hair" is back in the discos and on film. This year, Evelyn Champagne King, Vicki Sue Robinson, The New York Community Choir, Revelation, and Brothers disco-ize four of the songs from the musical: "Aquarius/Let The Sunshine In," "Where Do I Go," "Easy to Be Hard," and "Good Morning Starshine." They're all on an RCA disco disc due to be released before the end of the month. The director, Milos Foreman says, "I didn't think of directing it as a message of the sixties," he added, "I directed it in the spirit of the Sixties." Although the musical was considered scandalous when it opened in New York more than a decade ago, this year's "Hair", ironically, is strictly PG.

**Island Records..**Chris Blackwell, Chairman of Island Records, announced the appointment of Alex Masucci as Director of Special Projects. In making the appointment Blackwell stated, "I am pleased to have Alex at Island. In the several months he has been with us, Alex has been instrumental in our success with Third World. He picked the single and was the catalyst for its success in New York." As Director of Special Projects at Island, Masucci will handle a wide variety of responsibilities, including nationwide R&B and disco promotion, artist relations, A&R, and the development of promotional films. Masucci will report directly to Chris Blackwell on the implementation of these responsibilities. He will work closely with Island President Marshall Blonstein.

# New Singles—Out Of The Box

**Goodnight Tonight..Wings(Columbia)..**he always seems to have a handle on what's currently contemporary, and add some ingredients while maintaining his identifiable sound. A rare talent for cutting hit records.

**Old Time Rock And Roll..Bob Seger(Capitol)..**indeed it is—with contemporary lyric. He's hot and this should have a quick shot.

# The Announcement:

## Shannon To WPGC...

Bill Prettyman, Vice President and General Manager of WPGC Radio, has announced the appointment of Scott Shannon to the position of Program Director. Shannon began his career in radio in 1969 at WABB in Mobile, Alabama, with a 7-midnight show. Shannon's other radio experience includes positions with WMPS in Memphis as assistant program director and 7-midnight air personality; and National Program Director for the Mooney Broadcasting Corporation, overseeing programming for WERC AM & FM in Birmingham, WKGN in Knoxville, WBSR in Pensacola, WUNO in San Juan and WMAK in Nashville. In addition, Shannon was PD for WQXI in Atlanta.

## The Story:

### Scott Shannon, New PD of WPGC AM/FM, Washington...

**RMR:** Scott, what precipitated your move from a high level record position back to radio?

**Scott:** Basically, it was just something that I wanted to do. It wasn't that I had missed radio for such a long time, it's just that radio, I believe, is beginning to adjust to the needs and the legitimate requirements of programming talent and also air talent. It's changed quite a bit since I left radio.

**RMR:** Do you think the fact that so many radio people have jumped to the record industry because of salary being a primary consideration, that this has made radio react by paying better money?

**Scott:** It's bound to have had some effect, because you look at how many great programmers have left. Unfortunately, some of the lesser programmers can't command the salary or the respect that the good programmers do. I think it's changing, now.

**RMR:** Was the experience at Ariola a pleasant one for you?

**Scott:** The people are tremendous. I had the good fortune of working for Neil Bogart for quite some time at Casablanca and learned a tremendous amount over there. I have nothing but the greatest respect for those people. I'm leaving on a gold album and a gold single....the first ones for the label,

and we've got plenty of new product coming out. So the label is in fine shape and will continue to prosper and do even better. A lot of the decision had to do with Los Angeles as a location. I'm not particularly fond of the city. The other consideration was the organization and the opportunity to work with First Media, which at WPGC, is considered one of the better jobs in the country.

**RMR:** Who's going to take your place at Ariola?

**Scott:** We haven't really made a decision yet. We're in the process of working it out now. Bobby Hurt will stay and operate the promotion staff and probably augment the national staff, although there will be someone else coming in. But we haven't made a decision yet.

**RMR:** How many stations does First Media own?

**Scott:** They have a station in Salt Lake City, a station in Phoenix, a station in Atlanta and a station in Washington. They are also in the process of looking for new properties.

**RMR:** You've got a lot of years of programming background behind you, so you're not walking in as a medium shooter in the business. Do you think there's a possibility you might get into a national position with this organization?

**Scott:** Well, of course, it's a consideration, but right now my mind is on WPGC and the market in Washington. We've got Al Brady coming in from the # 1 station in Boston. He's taking over some very fine property (the ABC FM-er). He's no slouch. They're coming right at PGC, and PGC's got fine ratings. They're # 1 teens, 18-34, and 18-49 right now in the new book. It's a fine radio station. I've never taken over a radio station in my life that's been in fine shape.

radio station in my life that's been in such fine shape.

**RMR:** You say the station's doing well in the market. How do they sound?

**Scott:** The station sounds excellent. Most people, for a while, under-rated the talents of Dan Mason. But it's getting kind of hard to ignore after a while after the success he had at Z-93 and WPGC. Mason is, by far, one of the finer programmers in the country.

**RMR:** Was it a hard transition from radio to records for you?

**Scott:** It was difficult, but I had an awful lot of good help at Casablanca.

**RMR:** Do you think it will be a hard transition getting back into radio?

**Scott:** No, I don't think so. To me, it's like riding a bicycle... once you know how to do it, you never forget it. I enjoy it so much. I enjoy the record business and radio....it's music, let's face it. Of course, there have been some new developments and some changes in programming, but all you have to do is make sure you do your homework and get re-acquainted with the tools.

**RMR:** When you were in the record business, you traveled around the country. Did you take that opportunity to talk to programmers and get some input from various people around the country?

**Scott:** I stayed very much in touch with radio. Even if I hadn't been in the record business, I think I would have been just as much in touch. It's very difficult to have a hit record if you don't have it on the radio, and if you don't understand what makes radio tick or why programmers program the way they do, you've got some problems as a promotion man. I'm pretty much aware of what's going on. I just spent a weekend in Miami, listening to Y-100 and looked over the radio station which was awesome sounding. Bill Tanner has got a fine staff and I went over some of the techniques that they were using, because I feel that they are one of the best radio stations in the country.

Continued on next page...

**RMR:** Norm Wain, who owns Y-100, told me after he first bought the station that Tanner uses mounds and mounds of research to program his radio station. Are you going to be that involved in the research mechanisms?

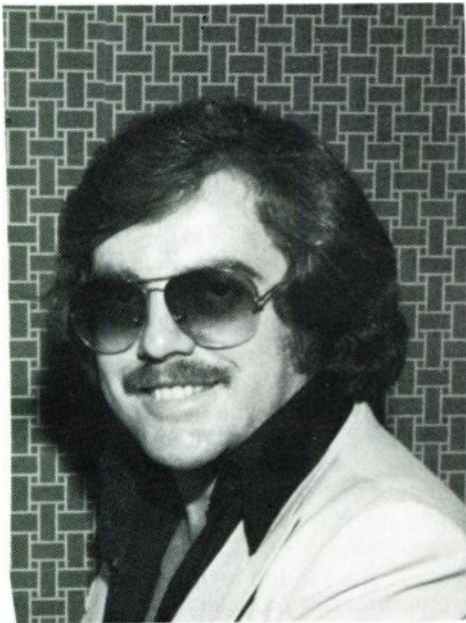

**Scott:** Quite frankly, everyone's got their own style. At this point, the First Media people do not utilize what's considered an awful lot of research, and it hasn't seemed to affect the ratings of the radio stations. I don't think Z-93 has any problems; WPGC certainly doesn't have any problems. They do research, but it's not as involved as Bill Tanner's and I'm not saying that we're right or he's not....I'm just saying that at this point, that's where it stands. I don't know where we're going to go from here. In my past history as a programmer, I more or less acted from gut feelings, but I also respect the use of research.

**RMR:** Have you analyzed the people on the air or is it too early to even comment about that?

**Scott:** All you really have to do is look at the book. They all had excellent books.

**RMR:** So, the old saying of "no changes anticipated" applies here?

**Scott:** First of all, you have to consider that one of the best radio guys in America is running the station right now...Jim Elliot. Jim and I have been friends for quite some time and I have an enormous amount of respect for him and he knows this market as well as anybody knows any market. I don't really think that there will be changes at all. I think it's ridiculous and I think a guy really has an ego problem if he goes in and takes a winning radio station and tries to make a lot of major changes.

## Jordan Exits EMI/UA...

**Los Angeles...**J.J. Jordan has resigned his position of National Promotion Director of EMI-America Records to pursue other interests in the music industry. Steve Reznick will assume the position of National Promotion Director at the EMI/UA combine. Charlie Minor, V.P. of Promotion, has told RMR, "the alignment of personnel is still being set." Mr. Minor further stated, "The promotion force being assembled for the EMI/UA operation will be structured to present full effectiveness for all product." Sharon White will be the company representative in Denver. By next week the company promotion force will be set in all categories. RMR will print the complete list.

## Album Radio Pioneer, Dusty Street, Into Video

Veteran album radio personalities, producers and syndicators Dusty Street and Barry Everitt have launched their new radio/video production company, *The DB's*. Dusty and Barry are now acquiring releases to various rock concert footage, music for lasermation and other musical footage for distribution in the home video market. The video cassettes are marketed by Astronics of San Francisco, through nationwide retailers including JC Penney, Pickwick Records, Tower Records, Warehouse Records, and Astronic's own mail order company. Dusty, currently with KROQ, of KSAN, KSFX, and KTIM. Barry is a veteran of rock radio in Europe working on Radio Geronimo and Radio Caroline. In the US he worked at KSML, KDKB, and, with Dusty, produced Rock Around The World.

### Old Times, They Are Not Forgotten

**Chuck:** Billy, you were there in the very beginning days of WMMS and it has grown to be such a giant. What do you remember about the days when you were there?

**Billy:** *Competing with you mostly.*

**Chuck:** In every way, right?

**Billy:** *Right. What I do remember the most? I guess, you know it was such an anti-cultural thing at the time to be with WMMS. You know, like the anti- culture. It was the whole anti-war feeling. The whole spirit of the sixties is what I remember the most.*

**Chuck:** Do you ever look back on it now and remember those days as very pleasant and maybe not quite as exciting as it is today?

**Billy:** *I remember those days as being very meaningful. You know, you really felt like you were doing something..you were doing the right thing. You were really making a stand and doing it and, of course, we were very adventurous with that radio station so the people who listened always had a certain amount of loyalty. That kind of loyalty was more towards our attitudes than it was towards our music. That was rather rewarding.*

**Chuck:** Most of the people who were involved with the station in the beginning are still there. Why do you think that is? The station has gone through some changes.

**Billy:** *I think it's probably because it is most likely the best situation to be in. Denny Sanders, for example, who has been there from the time I was there till now; it's probably the best situation he's been in in his life. It's a great radio station that continues to grow, continues to get better. I'm sure, as far as his position there in Cleveland, Denny Sanders is well-known and is as well-respected as the mayor. Why shouldn't he stay?*

**Chuck:** A big turning point, it seems to me, was the time when WMMS broke a new major act..David Bowie. Would you say it would be a turning point in the stations prestige in the industry?

**Billy:** *It was the turning point in the station's prestige in the industry that goes without question. Even beyond that, it was a very critical turning point in the station's direction. Up until then we were very anti-establishment rock. We were looking for new ideas, new presentations of music, and it was David Bowie. When David Bowie actually came on, that was something new and adventurous and yet commercial. So we had to make a decision then and there whether we were going to play that much David Bowie and attract these new listeners and lose some old ones. So it was a turning point in a number of ways. First of all, it marked the end of the sixties. It was the beginning of the new era and it made the radio station a lot more commercial.*

**Chuck:** What is your fondest memory of the old days at WMMS?

**Billy:** *My fondest memory...I think it was when we put gay liberation on the air. This is very funny. WMMS always had a weird attitude. We presented student rights and gay liberation new as a public service. 'Student rights' was actually kids complaining about what's going on in their school system that they didn't like. I mean it was really from the point of view of a juvenile delinquent, almost. Still, it touched on some points where if we didn't go to that radical far left, we would never have exposed what was happening in the public schools. The same thing with the gay rights. Instead of the gay rights presentation, instead of it being some pompous philosophical attitude about gay rights, what we put on was the screamer. We actually talked about the fun and the night life and what people should be doing if they were of the gay persuasion. I remember the reaction of the audience and the reaction of the press. It just makes me laugh as I think about it. Those were fun times.*

## WQXI Raft Race Still Afloat...

### Don Benson, PD, WQXI...

**RMR:** Don, there's been another development in the great river raft race controversy...what happened?

**Don:** *Well, yesterday, we went and so did the representatives of the American Rafting Association before the Fulton County commissioners to seek permission to use the starting area for the race which is the Morgan Falls area. And the commissioner decided by a vote of 5 to 1 with one abstention that WQXI be allowed to use that area on race day which is set for May 9. Now there are other steps involved before a final decision is made tomorrow. Both WQXI and the American Rafting Association go before the States Department of Natural Resources to seek a permit for the use of the Chattahoochee itself...and then the Federal people have to give an umbrella-like ok to it. So there are two steps still left.*

**RMR:** So Z-93 does not officially have the great raft race nor does WQXI at this point?

**Don:** *That's correct. It's really not any kind of thing between Z-93 and WQXI...it's really between WQXI and the American Rafting Association. We just received the one and only permit to use the Morgan Falls area on race day which is set for May 19th.*

**RMR:** So the story will be concluded soon?

**Don:** *I certainly hope so.*

**Michael Jackson To Play Charlie Chaplin..** The Jacksons are planning an unusual project. Fascinated by the career of Charlie Chaplin, the group is readying a Broadway musical based on Chaplin's early life. They expect it to be completed in early 1981. The musical is to star Michael Jackson as Chaplin.

## Superstars Meeting '79—Supersuccess!

### Lee Abrams...

**RMR:** Lee, how did the Superstars Convention go this year?

**Lee:** *It was excellent, all the way around...very productive.*

**RMR:** What can you give us in terms of conclusions, with regard to where AOR is going?

**Lee:** *Well, generally, the whole purpose of the meetings is three-fold...for everybody to hear our findings on AOR and where we're headed, plus, for people like PD's and managers to mingle, and for people to get exposure from outside people. So I'd say the overall conclusion is that we're going to take more of a rock and roll stance and we're going to get behind some of the new artists such as The Cars, Meatloaf, Elvis Costello's, etc. which are starting to happen and bring us out of this musical lull a little bit. I would say the emphasis will be on face to face promotion, on the air promotion, and just a general review of what we've been through and some general thoughts on where we're going.*

**RMR:** Was the impression at your convention one which you feel that we are coming out of the lull period?

**Lee:** *Yes, definitely. I personally feel that.*

**RMR:** Does this mean that your stations will be playing more records in the near future?

**Lee:** *It may not be as much more records, as much as more current conscious. Getting behind some of the new, hotter artists faster, and giving them more exposure; and cutting out some of the older stuff....Trying to break out of the Linda Ronstadt, ELO image and get into some 1979, 1980's rock'n roll.*

**RMR:** Does that mean that they'll become looser as opposed to tighter?

**Lee:** *I'd say, as far as actual number of records, it's probably about the same. It's just emphasizing some of the new acts that are really starting to happen.*

**RMR:** Since the Superstars Conventions are closed to the general radio public, do they work pretty much like regular conventions do? Do you have panels and so forth?

**Lee:** *Well, it starts at 7:30 in the morning and then we go till about 5:30, break for a half hour. Then we usually have dinner and entertainment that evening till about 10 or 11. Then we just break into one-on-one's where individuals get together with each other in different rooms. So I would say it's a lot more intense than regular conventions. It's more like a boot camp than a party.*

**RMR:** I had heard that the Superstars had voted not to have two conventions per year, but just to have one because it's such a drain, physically.

**Lee:** *Right. It's a re-emphasis of your training. We get back into the basics and we update....where are we, where have we been, and now what?*

**RMR:** What is next?

**Lee:** *Well, I would just say that there's a new wave of music happening and making sure that we're in touch with that... Becoming more heavily concentrated on a good, solid state of the art, rock'n roll image, instead of trying to spread ourselves too thin.*

**RMR:** What about the presentation...Is that changing?

**Lee:** *Yes. That's moving more to the personality approach. However, the personality has to be defined by 1979 standards and so a lot of time has been spent defining what 1979 and personality have to do with each other. And we have no real firm conclusions but we're moving closer.*

**RMR:** You have personalities on your stations now, but you've pretty much put them in the morning situations?

**Lee:** *We're trying to open that up a lot more. The problem is finding the people.*

**RMR:** Is it pretty difficult to find talent?

**Lee:** *Yes, because a lot of the Top-40 guys came out of the whole Drake era, and a lot of the AOR guys came out of very safe, mid-70's type sounds, which I guess we were partially responsible for. But it's hard to find those Bruce Springsteen type characters.*

**RMR:** Is there any discouragement among some of the Superstar people, in terms of what's happened recently with the disco thing and disintegration of Top-40?

**Lee:** *I think so. A lot of people feel a little bit threatened by the whole disco thing, but we emphasized that, as long as we stay on our own turf, there's no problem. It's when we start expanding too heavily into disco and just sort of get off our turf, that's when problems happen. It's like in the early days when we went into the station in '74 or '75, the first thing the Top-40 would do was add album cuts, and that would just tend to dilute them more than anything else. So we don't want to get into that same thing of adding a lot of disco and diluting our rock'n roll roots.*

**RMR:** In other words, you're not reacting to any other form of radio...you're simply trying to re-emphasized the kind of radio you are?

**Lee:** *Yes, to make sure we are right on target for what we are.*

**RMR:** The Superstars conventions are attended by all of the program directors and some of the managers and MDs. If a station is not a Superstar Station, of course they can't come. Is there any way that a station can have access to some of the conclusion, without becoming a Superstar?

**Lee:** *No, not really.*

**RMR:** Do the PDs understand the importance of secrecy?

**Lee:** *Well, yes. You can tell just by the nature of the business that some of it is going to leak in just loose conversations. But generally, I think the real hard-core stuff is kept confidential.*

**RMR:** Can you leak any secrets to us that we can put before the world?

**Lee:** *Well, I guess I pretty much already did.*

**Rufus:** Quincy Jones has been set as the producer of what may prove to be the last Rufus album featuring vocalist Chaka Khan.

## Album Rock Promotion

Norm plays bartender as part of a station promotion.

### Norm Gregory KZOK PD Seattle

**RMR:** Norm, you've got one of the more promotion-conscious radio stations in the country. What are some of the things you guys have done recently?

**Norm:** Well, the big thing we did was at the end of the year...on New Year's Eve. We had a big concert that culminated our Peaches Sound Music Poll. We spread around close to 100,000 ballots on all the 7-Up bottles in the northwest and we had people vote for the best album, best group, five favorite songs, best new group, etc. And we culminated the whole thing by presenting the awards at the Heart concert on New Year's Eve. We also broadcast the whole thing over the air and it was a pretty big deal. We had David Lee Roth from Val Halen up to accept the award for the group. Van Halen won awards for Best Group and Best Album of the year.

**RMR:** You do a lot of live broadcasts there?

**Norm:** As many as we can, yes. We've done Springsteen, Heart, Todd Rundgren, Jackson Browne, Tanya Tucker. We do a lot of local stuff, too, in the studio and we try to get involved on the local music scene. We did the Grateful Dead also.

Heart's New Year's Eve show was broadcast live on KZOK.

**RMR:** How's the rating situation there?

**Norm:** It's real tight. It's actually a book to book situation. We've got a pretty good grip on the 18-24 year olds and as far as 18-34, it's like us and the Top 40's and KBL, which is the adult contemporary station.

**RMR:** How long have you been there?

**Norm:** I've been here since September of 1974.

**RMR:** In that length of time, has your structure taken a tighter posture?

**Norm:** No, not in terms of format. In terms of what we know and where we're going...we know more about what we want to do, so we're a little more critical maybe of the music we play and the things that we do. We focus a lot better on the sound of the station and the kind of promotions that we want to do and the kind of music that we want to play. Before, maybe we were a little shotgun-ish...just taking shots in all kinds of directions. Now we're focusing on a certain sound and we used to try to play a lot of different left-field things and now we're trying to maintain a consistent sound on the station.

**RMR:** What makes KZOK different as an album station?

**Norm:** I guess the promotions are the most obvious things. We're promotion-minded and we try to do a lot of different things and get people buzzin' about the station. Musically, there are little differences but I think that to the average ear, it sounds pretty similar to a couple of other stations in the market. There are a lot of people trying to do the same we are. I think the image is the key here. We try to work on our image all the time and make people believe that we are some sort of rock authority and we know what's going on. I want people to worry that they might be missing something if they're not listening to the station.

**RMR:** What about your Halloween Party...how did that work?

**Norm:** Real well. We have an annual Halloween Party at a big club out here...it holds about 1500 people and everybody dresses up in weirdo costumes and the ingenuity and creativeness always amazes me. Every year people show up and we always have a good time.

**RMR:** What's the story about you becoming a bartender?

**Norm:** That was just a promotion with a bar here. They bought some time and they wanted to do a little promotion so I just put on an apron and went up there and we had a nice little crowd. It was a lot of fun and I had to drink all my mistakes so I ended up getting a little blurry-eyed. It was an education...if you want to find out about people just try getting behind a bar for a few hours. I don't know how they do it!

**RMR:** Do you have a promotion staff?

**Norm:** I have a promotion director who is a hell of a detail man and a kind of creative guy in his own right. We have weekly promotion meetings with the people from sales and the people from programming and with Al, the promotion director. We set up policy and formulate programs and promotions and that kind of thing. He takes the ball and runs with it and he does a hell of a job. He also handles all the sales and programming promotions and also the publicity.

# Albums-Dual Reviews by Radio

**Desolation Angels...Bad Company (Swan Song)...reviewed by Peter Parisi, PD, KADI-FM, St. Louis**

The newest Bad Company album was a very critical one for the group. Some of their previous albums were a disappointment as far as artistic merit and commercial success go. Well, they passed the test and this LP is a definite improvement over previous ones, in fact, many people say it's their best album since their very first one. I think there are several songs on it that could become Top Forty hits and the acceptance of their first single, *Rock 'N Roll Fantasy* is proof of that. It has already gained wide acceptance much faster than any previous single from any other album. The songs have real drive and they cook from start to finish. Some of the other cuts on the album worthy of airplay are, *Crazy Circles*, *Gone, Gone*, *Evil Wind* and *Rhythm Machine*. It should be the re-birth of the group and it should make them equal in popularity to their sound-alike group, Foreigner. This new Bad Company album should be very successful from all standpoints.

**Desolation Angels...Bad Company (Swan Song)...reviewed by Max Floyd, PD, KYYS-FM (KY102), Kansas City**

Bad Company really jumps on us this time. It's a tradition of the group to maintain their level of excellence on their albums. Bad Company just does not release albums with one hit cut, it's always four, five or six and *Desolation Angels* does not disappoint. *Crazy Circles* sounds like old Beatles. *She Brings Me Love* is excellent and *Oh Atlanta* gets better with each listen. Clean, crisp, clear rock and roll this time out from Bad Company should serve as a model for all such bands. *Desolation Angel* is controlled violence and in this day of changing music, we need it.

**Nigel...Nigel Olsson (Bang)...reviewed by Charlie West, MD, KMOD, Tulsa**

Starting with *A Little Bit Of Soap*, take two parts beat with one part keyboards and that adds up to the Doobie Brothers...with a little Eagles thrown in which overall, is not a bad recipe. *You Know I'll Always Love You* is a pretty song for a rainy Sunday and what can I say about old '55 or should I say, *Dancin' Shoes*...oh well, six to one, a half dozen to the other. The next cut is a nice filler and as far as *Say Goodbye To Hollywood*, I wouldn't scold anyone for doing a Billy Joel song. I'm still awake after side one, so let's continue with side two. I hear a little Todd Rundgren in Nigel's voice...*All It Takes* is a bit too involved with production and progressions. It's too much to retain, sort of like a Frankie Valli song. *Thinking of You* is Paul Davis all over. I feel that this album is aimed specifically at females...it seems to be getting a little syrupy as we travel through the *Cassey Blue*, in fact, I'm nodding out as the needle hits the paper...hang in there Nigel!

**Nigel...Nigel Olsson (Bang)...reviewed by Wayne Harrison, PD/MD, WZZQ, Jackson, Mississippi**

Having a soft spot in my vinyl hardened heart for Nigel Olsson, Paul Davis (the album's producer) and also Bang Records, this review is anything but objective. A Doobie Brothers keyboard sound prevails on the album, transforming the classic, *A Little Bit Of Soap* into a song that works well on the radio in 1979. *Dancin' Shoes* has already proven itself with Nigel turning a superior performance of this Faith Band song. This is an album chocked full of ballads but the songs aren't sticky sweet...they're believable! Other recommended cuts are *You Know I'll Always Love You* and *Part Of The Chosen Few*. Nigel Olsson has proven that the drummer can sing!

## Tosh at NYC's Bottom Line; WNEW-FM Broadcasts Live..

Rolling Stones Records artist Peter Tosh recently played a series of four sold-out/standing room only packed shows at New York City's Bottom Line. The dates came in the midst of the reggae superstar's six-week headlining cross-country U.S. tour. Radio station WNEW-FM broadcast one of the performances live, while Tosh was greeted with raves from the public and critics alike. In *The New York Times*, reviewer Robert Palmer noted: "Peter Tosh brought the tightest, most powerful reggae show that has yet played the United States into the Bottom Line...They were simply overwhelming." Peter Tosh and his band ("Word, Sound and Power") have been meeting with similar reaction throughout the tour. Peter Tosh's current album, "Bush Doctor," is his first LP to appear on the Rolling Stones Records label; it was produced by Tosh and Robert Shakespeare, with Mick Jagger and Keith Richards serving as Executive Producers.

# Disco...

## From The Beginning...

### Tom Hayden, National Independent Disco Promotion and Marketing.

**RMR:** Tom Hayden and Associates is based out of Los Angeles. Tom, how long have you been involved in the disco movement?

**Tom:** I've been involved with it now about five years. I originally started working for 20th Century Records about seven years ago and was involved with artist relations. About two years after I started with 20th, I branched off into national disco promotion and was doing both, artist relations and disco promotion. I started the in-house operation for 20th and was applying everything I knew in marketing and regional radio promotion. I was applying all those things to disco promotion, which, up until that point, was not really being done by some of the other promoters, because they had a background of being disco or came from another facet of the business (other than promotion). It was a little bit easier for me to try to put the systems into effect with disco, that I used in radio promotion.

**RMR:** That would probably be one of the first disco promotion arms of a record company in existence, wouldn't it?

**Tom:** It was probably one of the first in-house promotion positions that opened up of any company. Russ Reagan, who was president of the company, was probably ahead of his time when it came to disco. He was on top of it, he knew that there was a big disco market out there. Certainly Barry White was one of the first big disco artists. We nurtured those sales out of New York and realized that every time Barry White would release a record, we would sell 50 or 60 thousand records in New York before a radio station ever picked it up. So Russ was well aware of how strong the potential disco sales were, and because of that, he was able to capitalize on the market. He had the foresight to start an in-house disco promotion arm.

**RMR:** When did you decide to go independent and national?

**Tom:** I was always doing national, from the day I started in disco promotion; but I really went off and started my own company a couple of years ago when I just felt there was a void. At that time there was really only about two or three major independent companies, nation wide. I felt I could leave 20th and pick up enough accounts to keep me in business, and hopefully, as the name and reputation would get around I would be able to do better and better. So I decided on it two years ago, and that's when I left 20th and started my own company.

**RMR:** What accounts started with you in the beginning?

**Tom:** The first account I had was Westbound Records, which was also being distributed by 20th at the time. When I left 20th, Westbound was also leaving and going to Atlantic, so I picked up the account and worked "The Devil's Gun", which was my first record, by CJ and Company. That was a number one record, so I came out of the box with a pretty hot record.

**RMR:** Are you fairly selective in what you pick up now?

**Tom:** I'm very selective. As a matter of fact, we critique records. If we feel we can't get at least onto the disco charts and get some kind of substantial sales for the company, we won't accept the project. There has been a lot of projects we've turned down. That way, we can always have the highest possible stuff out there, and it keeps our credibility high.

**RMR:** What are some of the successes you've turned down?

**Tom:** There was really only one success that I turned down with my independent company, that was the Dolly Parton record. It was the only record that I turned down in the whole time I've been independent that went on to do something. Everything else that we've turned down pretty much never happened at the disco level. Sometimes I've turned down a record that I felt was a strong radio record, and it would go on to become a strong radio record, but never happened at the disco level.

**RMR:** With the advent of all the disco radio stations, have you adjusted your system, your methodology?

**Tom:** Definitely. I'm finding that I have to adjust our methodology just about every three or four months, certainly with the new disco stations and with the added amount of retailers who are starting to stock disco product now. It's a constant job just keeping those updated and working with the new areas of the country that are beginning to show signs of disco potential. Every few months we have to re-evaluate our lists and decide if it warrants somebody else on from another region.

**RMR:** Isn't the 12" pretty much a promotional item?

**Tom:** Pretty much so. There are still the companies that sell them commercially, but as far as the actual bottom line sales go, most companies are getting away from it. It's just not profitable enough for companies to market. Plus, they are not reported to the trades in any form. They are not reported as single sales, nor as lp sales, so it's a little defeating.

**RMR:** I understand there's maybe a nickel profit in a 12", and it's simply out there to showcase the album. It would behoove a company to have an album ready...

**Tom:** There are pros and cons to that, though. If you look at it there might be a nickel profit in some of the 12"s, but on the other hand, how much of those 12" are cutting into the album sales of a company? That hasn't been proven one way or another. If you've got two hot cuts on a 12" that's out there commercially, there might only be two hot cuts in the whole album that are really disco tracks. Naturally, more people are going to buy the 12" for a few dollars less than they will buy the album. Right there, you are cutting into your profit.

**RMR:** Do you see any changes in the business that people are not reacting to fast enough?

**Continued on next page...**

**Tom:** I really don't think they are reacting fast enough to the whole disco movement. Promotion people and record companies are still under the assumption that you've got to first nurture a record at the disco level and then it has to cross into R&B and then it has to cross into pop. This isn't the case we are finding right now. We are finding that the process is happening a lot faster. The minute you release a disco record there is no more waiting, you should go to the pop stations and work everybody at the same time and same level. Those records are breaking a lot faster and there is no longer the need of strong R&B base to get records played at the Top Forty level. We are finding that just from the records happening at the discos, that's enough ammunition right there to bring it into a lot of the Top Forty stations.

**RMR:** You just signed a major deal with Columbia Records, do you want to talk about that?

**Tom:** We have a production deal with CBS that calls for initially four albums over the course of next year to be delivered to CBS. All disco oriented albums, we're going to be handling the promotion and marketing of through my company at the disco level. We'll be co-ordinating all the information with CBS and hopefully with their clout in the market places, they are going to be able to merchandise the product and market it and promote it at the Top Forty level and the R&B level so we can have some hits together.

**RMR:** How important are the disco stations?

**Tom:** Very important. They are a major link now between disco and Top Forty radio. A lot of them are certainly racking up enough numbers in certain markets to get enough sales for those Top Forty stations to really take a serious look at whatever product they are playing, take a serious look at it as far as adding it to their playlist.

**RMR:** Back to your Columbia deal. Do you know what your first project will be?

**Tom:** Probably an album that is being produced by Ian Levine for us now in England. He's doing it at Trident Studios using Alex Constandina's musicians. He's got a hot arranger and the artist on it is Susan Wells who has been a backup singer for a long time around New York. We've already heard the songs when we were in London three weeks ago and they came out fantastic. He's just laying down the strings and horns so I think we are going to have a really hot record.

We're really taking a lot of concern in the product, if we find that there is anything on the album that possibly doesn't live up to the potential of being a hit single or a hot disco track we simply go back in to do it over to make sure every cut has as much impact as possible.

**RMR:** Since you signed a deal with Columbia Records, will you be also working a lot of their projects?

**Tom:** That really hasn't been talked about that much, we probably will handle a couple of things for them, we're handling currently the new Beach Boys record for Epic. We're talking about a couple of other projects together but the main important thing to me right now is delivering the hottest possible product I can get for my production company. That is the most important thing as far as CBS is concerned. As far as my other accounts are concerned, my independent company is still my baby and I love the company and I love dealing with all the companies I do deal with. I like having 9 or 10 or 12 records on the disco charts at one time and having the excitement of working a lot of product. So I think that independently, my company is still going to be as strong as ever. We are even taking further steps to making it stronger than it was before.

**RMR:** Like what?

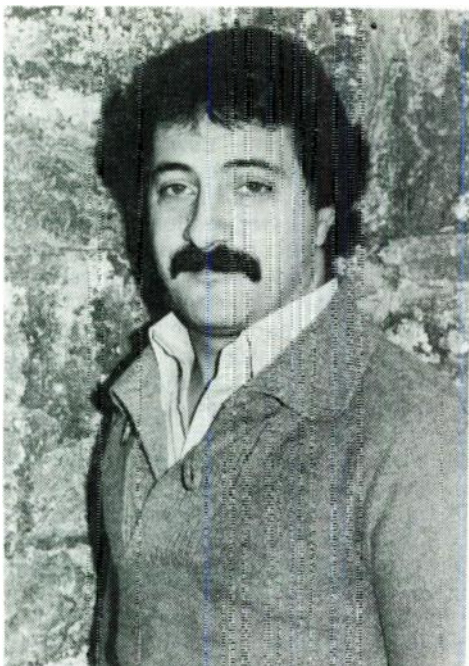

**Tom:** Well, we've got another person we've added to our staff, Jeff Baugh, who has been with us now for a couple of months. We just added a girl named Maria Bacharrat who was with 20th Century Records and she is going to be a promotion co-ordinator for us, Ralph, of course, is doing radio promotion and between all of us, we are co-ordinating the information better than we were in the past. I think we are getting our systems down a little bit more.

**RMR:** Do you think that you are growing fast enough to accommodate the disco boom or do you feel it's going so fast that no one can really stay up with it?

**Tom:** No, if I felt that we weren't growing fast enough, I would quickly remedy that. I think we're doing the job for our labels and that's the main thing I'm concerned with, where the disco boom goes, I don't know, it's going to continue to get bigger and bigger, it certainly hasn't peaked at this point. We are still on the upward crest of the disco movement but I'm not really going to make allowances for how big the disco movement gets, if it gets bigger and bigger, it doesn't mean that my company has to take steps to get bigger and bigger, I have to get bigger as I bring in more accounts.

## Ralph Tashjain, National Promotion Director Tom Hayden & Associates...

**RMR:** Ralph, when did you join Tom Hayden?

**Ralph:** I joined Tom Hayden at the first of the year. He wanted to expand into radio to broaden his company not only to do disco promotion, but radio as well. As you may well know, we have also formed a production deal with CBS on a three year commitment. We'll be supplying them with a large amount of their disco product.

**RMR:** Radio is a new promotion vehicle for the Hayden Organization, and you were brought in specifically for that reason...What had been your background up to that point?

**Ralph:** I was doing national promotion at Motown. Prior to that, I was doing national promotion for Island and prior to that I was with 20th Century. We feel that disco radio is becoming a dominant force in the music industry. We also feel that we, as an independent promotion and marketing company working with discotheques, have a tremendous advantage and a pulse on each individual market place in order to find out what's selling and what's happening in the discos to create and stimulate some disco airplay. Also, we are trying to bridge the gap...which seems to be a tremendous problem with record companies that can't cross records fast enough from a disco radio chart to an R&B chart to a pop chart. We're going to try to bridge those gaps.

**RMR:** We at RMR have noticed recently that this gap is being bridged a lot quicker than before. It seems to be more conducive for top-40 radio station to reach out for big disco hits...Do you find this to be true in your research?

**Ralph:** Yes. In our research we are finding it to be very true that top-40 radio is getting quicker on disco hits. I understand from talking with a lot of programmers that the minimum, I think, that a key top-40 station percentage-wise is playing around the country is about 33% disco music. There are some that are playing up to 75%. I also feel that the quality of the disco music is getting much more refined and much more sophisticated which is making it much more mass appeal. And the more mass appeal it is, the stronger it's going to be. We feel that disco is going to be around for an awfully long time.

**RMR:** Do you feel that the inclusion into the disco spectrum of people like Rod Stewart, The Doobie Bros., Nicolette Larson, etc. is going to help the movement become more mass appeal quicker, or do you think it will dilute it?

**Ralph:** I think it will make it more mass appeal quicker, when people see artists of that caliber doing disco records. They're really thinking twice, especially A&R people with major companies. The group that did open that door was the Rolling Stones with "Miss You". That was the one that was the key. Now I understand that quite a few other per sae "pop rock" artists are doing disco things. Cher, for instance, who didn't have a record for years, has got a disco, adult contemporary and pop hit.

**RMR:** Now we've just started making notations on our disco radio charts for records we feel are compatible from a loudness quotient standpoint for adult contemporary radio stations. This just about bridges every gap available on the radio dial with the exception of country. Does this make your job harder to distinguish where to promote what, or are you going to basically remain purists in terms of promoting disco radio stations?

**Ralph:** No. I will be promoting all phases of radio stations. As we nurture a record to a certain point with our staff of people, we will be able to promote all different types of radio stations. Primarily, what we'll do is work on crossing records the way you would cross an R&B record. When a record gets to a certain point in a market, then you know that it's ready for top-40 radio. We would work from a disco, R&B, pop angle. I think there are certain adult contemporaries that will play certain records, like an Alicia Bridges, which they can't get away from. But on the whole, I think A/C radio will not play as much as your top-40 will be playing.

**RMR:** Are you finding disco promotion to be unique...A big difference in what you did before?

**Ralph:** I'm finding that it's very refreshing. Disco promotion at a radio level is very refreshing because these people out there are coming from every different type of formatted radio and going into something that they're new at, as well. They can use a lot of help from all companies. I'm finding that they're more than cooperative to work with you in any way.

**RMR:** Do you do an grass roots, disco promotion, since Tom's company was built primarily on that at the club level and so forth?

**Ralph:** I do no club level promotion at all, no DJ promotion at all. All club contact is Tom's.

**RMR:** You guys recently won the award as number one independent promotion firm of the country at the Billboard Convention. What was the reaction there, was it expected or was it a surprise?

**Ralph:** Well, I've got to admit that I think it was expected, but at the same time, there is another independent disco promotion company that also does very well, and were just happy that we got it.

**RMR:** Are you finding your work load in terms of the new thing you're doing to be intensified by the fact that it's something brand new for you, or is it all just basic promotion anyway?

**Ralph:** It's basic promotion, that's all it is. The work load is a little heavier. But, when you're dealing with the type of product that we're dealing with and working with the major companies that we're working with, it's a little easier. We're really selective with the product we take on and choose to work. There's nothing for me to be promoting more than one record to a radio station because the record I'm carrying is a ball park record.

# NEW YORK... NEW YORK!

By Judy Weinstein & Mark Riley

## People

Mark Murphy replaces Rita Heyer at RFC/WB Records as the New York area promotion person. Rita has decided to take some time out to "regain her sanity". Good luck to both. Audrey Joseph, who was last seen wearing a "dance the night away—MK" t shirt will soon be donning a new logo as of April 2nd. Following the trend set by Warner Brothers/RFC, Arista will have a new claim to fame with this lady and her upcoming disco division.

With the black music associations (MBA) move towards integrating disco into its master plan, a committee made up of various notables in the industry will meet in Philadelphia on April 2nd. The initial committee will consist of Patty Labelle, Wayne Gestman, Ray Caviono, Kenneth Gamble, Judy Weinstein and a few other notables. The main objectives are to support the growth of black artists through disco while maintaining their R&B identity, and to keep record pools alive in spite of disco radio.

## Music, Music, Music

Tata Vega will remind you of Dee Dee Sharpe's first Philly LP with her new effort, *Try My Love* on Tamla (Mowtown). *Just Keep Thinking About You, Baby*, is the stand out cut...and speaking of Philly, Gamble & Huff's Philly International label is really hot, with McFadden & Whitehead's stunning, *Ain't No Stopping Us Now* leading the way. Edwin Birdsong's *Phiss*, *Phizz* and *Rock Your Baby* by the Force are also strong. A message for the folks over at Prelude Records who by the way, have another winner with the new Theo Vaneso..Please, please stop labeling your double 12" records, "contains two 12" disco 45's"...this tends to confuse because they are recorded at 33 1/3. Glad to see War back again and strong with the *Music Band* LP and the fabulous *Good, Good Feeling*. Here's the latest in the continuing saga of Chantel...she was floating around New York, in limited supply on the Trema label from France. There was early talk that a major label would buy her but now the word is *Get Another Love* will be released on a small US label after which, negotiations with the majors will start in earnest. For The Record member, Ed "the worm" Rothchild who tipped a lot of folks about Blondie's *Heart Of Glass* is high on *Superman* by the Kinks. When the worm talks, people listen. There's a lot of talk about the B side of Eugene Record's 12" on Warner Brothers and it's all good. With the Bombers crossing over heavy in pop, West End is going to have its hands full with response to Taana Gardner's "steamy" *Work That Body*. After all, it has the golden touch of Larry Lavan. Tasha Thomas will have to take the cut, *Hot Buttered Boogie* from her new LP back to the studio to change that "bad ass beat" lyric. We hope so because the tune certainly merits radio as well as disco attention. Can anyone figure out why Atlantic Records released a pair of 12"s with the same title (*Weekend*) by two different artists...Phreek and Mick Jackson at the same times?

## Tracks

Bob Blank, over at Blank tapes has a host of heavyweights in the studio laying down tracks. Bunny Sigler is working on three projects...he is co-producing Curtis Mayfield's new LP while also working on the new Patti Brooks LP for Casablanca and the latest member of the Ohio Players to go solo, Dutch Robinson for RCA. Greg Carmichael is also at Blank working both Silver Convention and Carol Douglas for Midsong...And the producers of the Erotic Drum Band are doing and LP for TK...and finally, the hottest rumor in New York is that the legendary David Mancuso, who founded the nations first record pool and whose loft has been the talk of underground New York for years is working on a record with another early New York disc jockey legend, Steve D'Acquisto and Arthur Russell of Dinosaur fame. Over at Media Sound, John Luongo is keeping himself quite busy. He is working on the mighty clouds of joy with Frank Wilson for Epic while remixing some of Sly Stones hits from the past again for Epic. Ariola is also utilizing John's services on a remix *I Can Tell* from Chanson's last LP. Billboard award winning DJ, Tim Burgess is working on several projects at Sigma, included are Venus Dodson, who originally recorded *Shoot Me With Your Love* which Tasha Thomas road to the top of the charts. She is now on WB/RFC being produced by Patrick Anner. Gary Wright is another artist who received the Burgess treatment on a tune called *Stand* to be released on Warner Brothers. Casablanca will be calling on the services of FTR disc jockeys, Howard Merritt and Roy Thode on a yet unannounced venture. Richie Rivera is also working liquid gold LP along with Joe Long, also for that West Coast disco giant.

## Club News

Pharaoh's, the latest million dollar disco to be located at the sight of the Old Barn Clothing Store in Times Square, New York City, is set for a Fall opening. Design circuit and Richard Long Associates have been designated as interior and sound respectively. A gala press opening of the Fun House here in New York will feature, For The Record members, Jonathan Searing and Roy Thode, and two other notables, Jim Burgess and Bobby DJ. Word is the club will be extremely selective upon its official opening.

FTR member Ernie Dunda, formerly of Studio 54, will be alternating with FTR member Phil Smith at Emerald City in Cherry Hill, New Jersey. Emerald City is one of the first clubs to open a record store on its premises. The hours coincide with those of the club making it a potentially invaluable resource for record companies who want to break new product and receive instant feedback.

# Disco Reviews

by Tom Lewis  
& Keith Mann

## Pick Me Up, I'll Dance..Melba Moore (Epic 12")

I will preface this review by admitting my bias towards Melba Moore—she won my heart with both her vocal and her acting performance in the original Broadway production of "Hair." Much to my pleasure, she chose to pursue singing over the theater. Melba entered the disco scene in 1976, just as discotheques began multiplying faster than rabbits (has it stopped yet?). Her spirited "This Is It," a Van McCoy production, though achieving instant acceptance on dance floors just barely crept onto the radio Hot 100 chart. One of the reasons for the success of the discotheque phenomenon was that disco exposure alone could produce good record sales, even without radio play—such was the case with "This Is It" (now released on a Buddah 12", along with "Standing Right Here" remixed by Richie Rivera.) Now in 1979, I am looking for radio to join forces with the discotheque and put Ms. Moore's newest release "Pick Me Up, I'll Dance" on the top of both charts. From the same "Melba" album that gave us the exquisite "You Stepped Into My Life," that went top-5 disco and top-50 radio, this cut has also been remixed on a 12" by John Luongo. As with "You Stepped Into My Life," the multi-faceted Bostonian has again brought out the best in the Gene McFadden & John Whitehead production and given it viability on the dance floor as well as over the airwaves. The sound is alive and upbeat (128 BPM) from its onset with an immediately engaging melody which vibrantly supports Melba's inspiring and poised vocals. Interesting to note is the haunting siren-like effect made with a "hum-hum" (I'm not kidding) periodically interwoven into the construction, which is just one of the many hooks permeating this brilliant recording. This will crossover to all markets. Suggested mixes: *Shine On Silver Moon; Get Dancin'; Keep On Dancin'.*

## Work That Body..Taana Gardner (West End 12")

Having been privileged enough to catch Taana Gardner's debut performance of "Work That Body" at Billboard's recent Disc Forum, this is a record I take more than usual pleasure in reviewing. With an ultimately basic rhythm track hardly contained by its grooves, the listener will be lured and entranced by the sparse yet extremely effective production. The bass percolates with ever changing drums and conga patterns while Taana's exuberantly energetic vocals glide over her accompaniment. West End Records have always had a very good track record for producing only excellent disco product and this 12" is no exception. "Work That Body" (7:19 124-6 BPM) is expected to go from the disco to disco radio. Suggested mixes: *Pick Me Up, I'll Dance; I Don't Know If It's Right; Dancer.*

## My Baby's Baby..Liquid Gold (Parachute 12")

While the production is elegant, complete with swirling strings, strong bass and the essential breakdown and buildup, "My Baby's Baby" by Liquid Gold may be the kind of disco record that finds initial success on radio before the dance floor. Though it is certainly quite danceable, I feel that its beauty lies in the listening. The 12" single has an inescapable hook in "I'm my baby's baby, I'm my baby's love," alternating between female and male leads with combinations on the chorus. The pop sound here will find favor with all listeners, as this should be the first big disco record on Parachute (6:40, 132 BPM). Suggested mixes: *Night Time; Climb; Ultimate.*

## I (Who Have Nothing)..Sylvester (Fantasy 12")

Sylvester is back and sounds good as ever. His new 12" disco disc should further establish him as a major disco artist. It was just last month that Sylvester received three awards at Billboard's Disco V: Best Male Artist; Best 12" single, and Best Heavy Disco/Light Radio—putting him #2 to Donna Summer. This Lieber & Stoller classic ballad has been deftly handled by Sylvester with a style that only a few could do (and Lord knows a lot of people have tried), since Ben E. King. Opening with a Eurodisco kickdrum and various percussion, Sylvester's falsetto begins to build the momentum and intensity from 125 BPM to 131 BPM on the long version (10:40). I suspect that many DJs will begin programming the shorter side (6:31, 128-131 BPM) until after the initial effect has taken hold. Even though I don't feel that this record will reach the heights of his last hit, the following that Sylvester commands will give this good chart position. Suggested mixes: *Take Me Home; Voyage; Here Comes The Night.*

## Hot For You..Brainstorm (Tabu 12")

Peak Records would seem to be especially for Brainstorm, whose incredible "Lovin' Is Really My Game" has remained a staple in the repertoire of disco DJs even two years after its release; "Hot For You," Brainstorm's latest, carries on the tradition opening "hot" at 130 BPM and drives bot vocally and instrumentally until it virtually melts on the turntable at 137 BPM when it ends with one last dash of horns. Brainstorm has been beset of late with management and label problems, but this re-emergence is no less than a triumph. Ric Gianatos, formerly a disco DJ and now contributing the knowledge he gained in that capacity to the production of disco records, has been credited by the group with doing much to shape this particular release. The skill with which he has kept its any changes so smooth and also so invigorating is quite evident. Taken from the "Funky Entertainment" album, this 10:39 12" will re-introduce you to an exceptionally creative band, worth listening to and dancing to...Disco, Disco Radio and R&B. Suggested mixes: *Ain't That Enough For You; Peter Jacques Band; Wonder Band.*

## Disco Dirt & Other Meaningless Information..

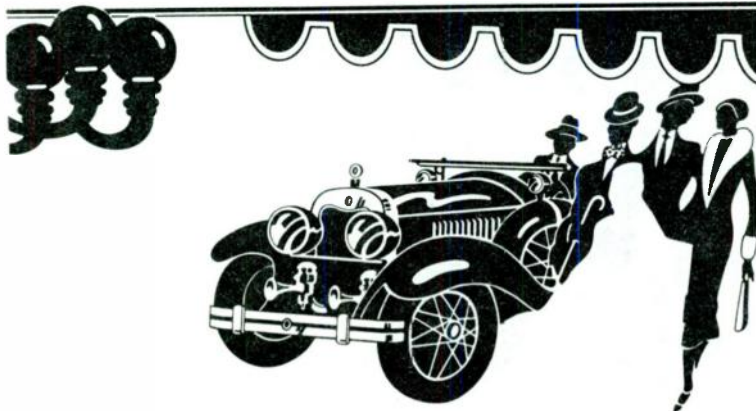

### by J.G. Knapp

Bobby D.J. now doing music programming for Soap Factory...New Space 12" simply outrageous....As if pools didn't have enough to do, it seems that more labels are starting to require questionnaires filled out by all the members to be given out and collected at the pool office. It may get to the point where each pool will be so busy filling out forms that there won't be enough time to listen to the music and promote disco in their individual area. Come on people, if a pool has proven their credibility, is there really a need to put them through constant changes? (I'm sure I'll get a few calls on this one)....Speaking of credibility, with all these new pools popping up all over the place, let's hope that the established organizations will not be lumped into the same category with these fledglings. This could mean a set back in the proven pools, having to reprove themselves.....New promotional item—Taana Gardner autographed casts with matching sling, contact Jim McDermott, West End Records..... ## Disco Hits The Road

**Eileen & Sid Berlin, Management For Grace Jones, First Choice, Loleatta Holloway, and Creatures Of The Night Disco Artists**

**RMR:** We understand that you're working on a production that will be a disco show.

**Eileen:** It's called 'Phantom Of The Disco'. These kids had done the Rocky Horror Disco Show but we have something that's ten times more exciting. We decided to tour with this show. It's much more exciting than the Rocky Horror Disco Show. The characters are very similar. What they did was create their own characters in 'Rocky Horror'...each character was really their own interpretation. They're using the same characters and they're putting it into the show. It's terribly exciting...incredible music and fabulous words.

**RMR:** Are you in production of 'Phantom' now?

**Eileen:** We are going into rehearsal now. We just have the lead sheets. We have somebody that's going to be doing the producing of the tape and the arrangement in order to get the true disco sound out of it. It's going to be produced by Jim Burgess. He's done Linda Clifford and Alicia Bridges and he did the re-mix on Rod Stewart. He's doing the Doobie Brothers right now. The show will be produced by him and arranged by Ray Martinez of Florida who has worked on a lot of TK product. They're going to be doing the background music.

**RMR:** Who's doing the original music?

**Eileen:** Jill Wisoff, who is one of the characters in *Creatures Of The Night*. She does the words and music.

**RMR:** Are you going to tour clubs or discos?

**Eileen:** We are going to tour both.

**RMR:** Any small music hall along the way?

**Eileen:** We hope to move into music halls very quickly, yes. It's a real advanced type of thing...very 1980's...what they call punk/rock/disco and it's a completely new concept. The sound is different. It's incredibly choreographed...they're all pro dancers and singers with beautiful voices. The lighting and sets are being worked on now. They will probably be ready to start traveling in March.

**RMR:** Have you got any cities booked on the tour yet?

**Si:** Actually, it would have to be the end of March at the earliest, because what's going to delay us is that we're going to do a whole record on it and we've first got to go into a studio which will take a while to do the recording of the music. All this is original music and we'll have to get a mix. Meantime, the group will be rehearsing. While we've had a tremendous number of feelers, people who are anxious to book it include some of the college tour organizers and discotheques are hearing about it. We're being bombarded by people who keep calling us asking about when they are going on the road. What's happening now is we are not accepting any offers as yet because we feel that what we want to do is get the show ready to go and we can get a lot more money as it begins to really start making some noise. When you start with something at the very beginning, as we did with Grace Jones, you don't get much money. As it gains momentum, you can get a decent price for it.

**RMR:** When you get the tour set up will you keep us posted?

**Si:** I sure will. We are going to rehearsal immediately and the only thing that will take some time is going to be getting the album together. It will have an original album on it.

**RMR:** Do you have a label set for the album yet?

**Si:** No, because frankly, what we'd like to do is take one of the major labels and let them release it.

### "Studio Disco" Radio Special Brings Disco To More Markets..

Dallas, TX .Toby Arnold, president of the radio production and syndication firm bearing his name, announced today that the disco radio trend is sweeping into the secondary and smaller markets at a rate much faster than which had been predicted. Arnold announced new signings for the "Studio Disco", a 4-hour weekly radio special which he syndicates: "Latest additions to the "Studio Disco" network of stations include WKBO, Harrisburg, PA; WDAK, Columbus, GA; KUAD, Windsor, CO; and KNFM, Odessa, TX. As you can see, disco is spreading to the secondary markets at a much faster rate than predicted. And people like Phil Brewer, GM at KUAD in Windsor, Colorado, tell me that the sponsors and listeners are responding positively and enthusiastically. KUAD runs the special every Saturday from 8 to midnight using the name "Studio 99 Disco". They had the program sold out to four different sponsors before it ever went on the air. This is truly a sign of the growing influence of disco and the marketability of this audience segment to the advertising community."

## The Pool With A Difference

**Roy Freedom of the Yorkshire Entertainments Ltd.,  
Record Pool in Minneapolis, Minnesota.**

**RMR:** Roy, we understand you are doing more than just operating a record pool. You've got a lot of other facets to your organization. Could you explain some of those?

**Roy:** Besides running a record pool, we also program discotheques. I'm a DJ in a club five nights a week, called the Rickshaw. This is one of the hottest clubs in St. Paul. We also program the Oz, which just opened up. It's the ultra modern disco in town. Before that, the ultra modern one was Maxmillians and we're still programming that. That means we hire the DJ for it, we supply the music and tell them which way to go in different facets of their disco. One facet of our organization is a young lady, Deseree, who runs the mobile system. She's got three systems and that's called Star Cruiser. Then we also have Greg Gregory who is the head of Yorkshire and also runs a promotion firm Advance Man.

**RMR:** Is it a bit unusual for a disco pool to be involved in so many facets of the business?

**Roy:** Not entirely. We started out as a mobile system, then we moved into both the pool and to programming clubs. From there, Greg has picked up promotion. Now, we have not actually split the business, but divided it so that Deseree handles just the mobiles, I handle the pool, and Greg runs the whole business end and Advance Man Promotions.

**RMR:** It has gotten to be a big business in Minneapolis?

**Roy:** Very much so. Even once in a while, like last New Year's Eve we did a spot on the radio. KFMX is the disco station here. But we did a spot on another FM station New Year's Eve and did a tape for them. Sometimes we do that kind of stuff for radio stations too.

**RMR:** How is the supplying of background disco tapes to clubs (pre-recorded tapes) going?

**Roy:** There isn't much of that. We do supply the DJs with records. They have what they call 'cocktail hour' instead of running the tapes, they have a DJ come in and he plays quiet type music. Right now there aren't too many clubs that have pre-recorded tapes. My club doesn't even have a tape deck. I bring in my own cassette. I don't know why they didn't put one in, it's really a nice club.

**RMR:** How many members are in your pool?

**Roy:** Right now we've got 38. We are shooting for 50 because if we have the product then we can service more people. Right now we have to turn them down.

**RMR:** The programming service that you have. How does that work specifically?

**Roy:** I work for Yorkshire and we hire DJs who come in and give us their application. Then Greg will talk to the manager of a new club opening up about programming and supplying the DJ, the music and giving them direction.

**RMR:** Do you supply them with music sheets?

**Roy:** Well, we have a playlist for all the DJs who are in our pool. We offer a starter package for the new clubs so they can get all the old biggies at a special price.

**RMR:** In other words you offer an older service to get a club off the ground?

**Roy:** Yes we do. That's something I really like. We are thinking about possibly going nation wide with that.

**RMR:** How do you get your records for that?

**Roy:** We order them out of one-stop in Chicago.

**RMR:** And the one-stop has a big supply of 12" there?

**Roy:** Yes they do. A lot of times we can't get some of the old 12"s, but basically the biggest ones are no problem. There is something I've wanted to talk to you about. I'm really thrilled with your magazine.

**RMR:** Thank you.

## Disco Profile: Voyage

The recording group Voyage embodies all of the distinguishing traits that are the hallmark of an accomplished act. Though French by nationality, this talented group has received international acclaim through the success of their first album, *Voyage*.

Voyage is Pierre Alain Dahar who is regarded as the leading drummer in France. Also composer and arranger, Pierre Alain has "Pepperbox" and "Magic Fly" to his credit. Slim Pezin, who is recognized as the leading French guitarist and whose outstanding musicianship was displayed on the early Cerrone albums. The keyboard player is Marc Chantreau who also arranged most of the songs on the first Voyage album. In addition to playing keyboards, Marc is considered to be the leading percussionist in France and did the percussion work on the Santa Esmeralda "Don't Let Me Be Misunderstood" album. The newest addition to the group is the lead singer, Sylvia Mason, whose extensive studio work has made her well known among session singers. Her fluid vocals are pure energy and quite distinctive.

Guiding Voyage's artistic development is the producer Roger Tokarz. His music is truly the best sounding music coming out of France today. Highlighted by a melodic disco arrangement, Voyage's first album was a huge hit in the U.S.A., Canada, France, Italy, the U.K. and Brazil.

### The International Experience..

by Wayne Yee—DJ Shanghai Kelly.

Basically, an "import" is a recording manufactured outside of the United States with a fairly limited distribution. In 1973 Atlantic Records bought the rights to "Soul Makossa" by Manu Dibango, an African artist living in Paris, France. The song became the first disco import recording to have a good deal of impact on the domestic music industry, opening the door for future endeavors of this nature.

In 1975 the ever-growing movement of the European/Canadian sound re-entered the domestic scene with even more impact. In Europe, a number of young independent producers realized that the way to conquer the international music industry was to produce an "International" sound. This sound consisted of inventive electronic music utilizing the diversity of the synthesizer. The sound was mostly achieved by recording in Munich, Germany by producers like Giorgio Moroder and Pete Bellotte for artists like Donna Summer, Boney M. Silver Convention to mention a few. Also in that year French producers Henri Belolo and Jacques Moralli had success with the Ritchie Family, whose remake of "Brazil" started a new trend of re-making old hits. Internationally the disco scene had become a big success by 1976. Producers Belolo and Moralli followed up with the Ritchie Family with "The Best Disco In Town" and "Life Is Music". In that year there were also new performers breaking onto the scene, like D.C. LaRue and the Savannah Band, whose LP's became top sellers.

In 1977, disco-goers in the U.S. were dancing in a frenzy to European imports picked up by domestic labels, and there was no longer any doubt that the European sound was very much in demand. In the U.S. a gold record was awarded to the French group Santa Esmeralda for their release of "Don't Let Me Be Misunderstood", produced by Fauve. Another success was the Sheila B. Devotion release of "Singing In The Rain", crafted by French producer Claude Carrere. Cerrone also captured the U.S. market with his "Love In C Minor". These were just a few of the talented foreign artists who made their mark in 1977, further enhancing the growth of "Imports".

The European sound continued to grow in 1978. Some of the top artists from Europe or who recorded there were people like: Donna Summer, Voyage, Don Ray, Musique, Madleen Kane, Cerrone, Patrick Jevet, Boris Midney, The Rolling Stones, Alec Costandinos, Kongas, Bee Gees, USA/European Connection, Gary Criss, Love & Kisses and Carolyne Bernier, just to mention a few.

### Disco Profile: Gloria Gaynor

A lovely lady with a rich, powerful voice, Gloria Gaynor's trend-setting hit records and dynamic stage presence have established her as the #1 female entertainer in many parts of the world. Crowned "Queen of the Discos" in 1975, she thoroughly enjoys being credited with launching the disco trend that has been growing ever since, but she has always been aware that the growth of her career would require developing versatility in the full range of contemporary music.

Her hits, including "Never Can Say Goodbye," "Reach Out I'll Be There" and "Casanova Brown" have topped the charts in many countries. Gloria has toured all of Europe... she's especially popular in Italy, Spain, France, Germany, Belgium and England...as well as Mexico, South America, New Zealand and Australia. Constant demand has made her a world citizen who spends nearly half of her time touring the globe.

Whenever possible, Gloria learns the language of her host country before embarking on a tour. That is a fact that offers insight into a woman who cares deeply about people, about sharing not only her talent but her humanity as well. Whether it is through the lyrics of a song, just a few phrases, or conversational fluency, Gloria reaches out to her audience. For Gloria Gaynor, stardom is a privilege. That too, is part of her respect for the audience, her love of people.

A middle child surrounded by five brothers and a sister, Gloria (a Virgo) was born and raised in Newark, New Jersey. She was exposed to music virtually at birth - just about everyone in her family could sing well. "My brothers' voices were even better than mine. They could harmonize with waterpipes." But aside from her father, who sang for a short time in Vaudeville, Gloria is the only one to pursue a musical career.

"My voice was given to me, so I'm going to share it with others. My music is what I feel inside. When I reach out to people, I want to touch them and let them know I care about them and want to help them forget all their problems and just be alive," says Gloria. "My greatest compliment is to have my audience want to reach out and touch me."

Everywhere she goes, no matter what country and no matter what the language, people reach out for Gloria Gaynor. She's something special and the whole world knows it.

# HITDISCO!

## Sonny Joe White Is Wild About Disco...

Sonny Joe White, PD of WXKS, Boston.

**RMR:** Sonny, you've been PD there now for a little over two months. What changes have you installed?

**Sonny:** When we came in, it was a beautiful music station. Of course, with the arrival of yours truly and Kent Burkhart and his group, we are now total disco. We have a full staff. During the two month period, we've been hiring and putting together our staff. We are now at our full capacity, in regards to air staff. We've gotten together a combination of radio people as well as disco people...People with radio background and disco background, people who can mix, people who know the music they are playing and feel comfortable with it. We thought that it was important that we had people who knew what they were doing and knew how to put the music together and present it as closely as possible to what they hear in the discos.

**RMR:** Did you reach out for radio people or did you go into some of the clubs?

**Sonny:** We went to radio people, number one, because we are a radio station, even though we play disco and want to sound as close to an actual disco or keep some of the better elements of a disco that we can. We did seek some disco DJs and we do have two of them in our employ. What they do is some tape blends that we run throughout the day. We highlight these blends. They also work with our announcers on their blending and mixing skills. They also handle the Disco Party on the weekend, which is non-stop music.

**RMR:** What about outside advertising. Are you doing much of that?

**Sonny:** We are doing billboards, streetcars, buses, newspapers, and posters.

**RMR:** Most discos are hitting the air and letting word of mouth carry it, but you have some competition up there in Boston in BOS. Is this the reason for the extensive outside campaign?

**Sonny:** Well, we had just started the outside campaign on the 15th of February, and we were on the air from January 15th until the present. For a whole month, we didn't do any outside advertising, we just let word of mouth do it. The important thing that we relied on was that we were doing it right. We felt that we were doing some of the things that we capitalize on, some of the things that BOS had not done to capture that complete disco market. We went in a different direction than BOS. We consider ourselves a very cosmopolitan-oriented station, because disco is a cosmopolitan thing. We capitalized on that effect and tried to present ourselves that way. I think that's the thing that has got us over and made people take that initial note of us.

**RMR:** When did you first realize that disco was going to be a viable format?

**Sonny:** Disco has had a lot of influence on the soul market. I've been playing that type of music ever since I've been in radio. I have grown up on dance music, more or less. The early dance tunes of the 60's, the Mowtown classics and all of that stuff was dance music. What happened was in Philly in 1973...I went to probably the first disco, as we know it now, that I had ever gone to. They were playing the same music that they were playing on the radio, however, they weren't mixing a lot of the slow music. But it had a certain trait about it, and it was that early Kenny Gamble sound...real heavy, muffled base drum that was accented. The early O'Jays, Backstabbers, Harold Melvin and the Blue Notes...that early Philadelphia music. I noticed then that there was something new happening, but I really didn't get the whole scene until I came to Boston and really started to capitalize on disco when I went over to WILD. We were the only station in the city playing soul music. We were the only station that was even playing a good percentage of disco music.

**RMR:** At a disco radio station, we keep hearing that research is pretty much at the club level. Is that the way you do your research, or do you go deeper than that?

**Sonny:** We go much deeper. There are people who dance to a record that will not listen to a record. I'm sure you've been on a disco floor and the DJ played two records that maybe you didn't like, but you knew that a good record was coming up and you would continue to dance, because you were just dancing for the energy or whatever. You can't always go by dancefloor reaction. It's not something that you can put to a true test on the radio. People don't sit in their cars or in their homes and listen to something that they don't like. Dancing to something that they don't like is completely different. We take into consideration record sales, requests and we go a lot on our own judgment. We have the sources of Burkhart and Wanda Ramos and they have a national hook-up with so many stations across the country that it allows us to see what other areas are doing, and what records are successful in other markets. So we can also gauge from that.

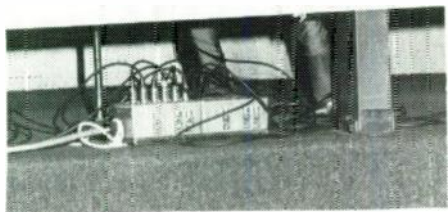

**RMR:** How do you feel you are going to do in the upcoming ARB?

**Sonny:** I don't know. I would, of course, hope that we will be #1. Everywhere I go, I hear the station. I hear it in all of the stores. I hear it in the boutiques. I hear it at the fast food restaurants...it's everywhere. I think that's a good judge in itself...that we are getting to the people that we want to reach and we're getting to a good percentage of Boston. I would hope, however, that we are covering all areas, demographically. It's hard to gauge the 25-49 demographic because it's hard to get those people to change from the stations that they have been listening to. I think with the proper exposure and the proper programming, we can do it. I think we will be a very significant factor in this ARB coming up.

**WNBC New York..**Can man now control his own evolution? "DNA— A Date With Destiny", a 20-part mini-documentary series will explore this possibility on WNBC Radio from March 12 through March 23 as part of the 6:25 am and 7:25 am weekday newscasts. After several months of detailed investigation, award-winning WNBC Radio news reporter Jim Eyer has put together a series of reports on new technological developments in DNA research that have yet to be made public. Mr. Eyer's research discloses the relatively new ability of molecular biologists to splice and engineer genes which might ultimately lead to man's ability to change his own evolution.

**Winston Salem..**Chris Angel of WTOB relates to RMR an incident that doesn't occur everyday in radio, but the more aware we can be...the better off we are. Seems that an ex-employee of another station in the market had signed during his employment at that station a "no-compete" contract. The kicker is that the jock had no regular employment contract. Last week the jock (now employed by WTOB) was served with a temporary restraining order plus a \$25,000 suit. He is now off the air and the case is in court. As Chris stated to RMR, "This can be a warning to other people who get into contract deals like this because we have a damn good lawyer who has really researched this thing. I know things are maybe different in other parts of the country, but getting into a situation like this, at least they will be aware that they can get out of this type thing—that non-compete law has to be in conjunction with the regular employment contract." RMR's advice is..before you sign anything, consult with a reliable attorney—it's well worth the bucks in the long run. As volatile as our business is, we would think more than twice about signing a three-year no-compete contract, as the person in Winston did. The best advice we ever had about employment contracts was—get only two things written in: 1)How much am I going to be paid, and 2) For how long. All else simply muddies the water.

**Waylon Jennings:** Waylon Jennings' new recording deal is reported to be the highest figure ever paid to a country star, with some estimates putting it in the ten-million-dollar range.

**Cody Exits Los Angeles..**Frank Cody has been appointed Program Manager of KBPI, Denver. Cody's appointment was announced Monday in New York by KBPI General Manager, Ken Spector. Cody returns to Colorado following a two year stint as Program Director at KLOS in Los Angeles. "What could be more natural than Cody in Colorado? Buffalo Bill was my great grandfather's cousin," Cody said. "Colorado is a great place to live and the people at KBPI are superb. Together we'll take KBPI to new heights." KBPI, a top Denver FM-AOR outlet, was recently purchased by Sandusky Broadcasting (pending FCC approval) for \$6.7 million, the highest price ever paid for an FM station in this country.

**WMYQ Newton, MS Larry O'Neil..**"Remember the good ol' days when all we had was 'rock'? It was relatively easy to program a radio station. We just played the hits and kept an eye (or ear) open for new ones. Occasionally we had a crossover, something like Charlie Rich, but that was not very often. When it happened we just played it like another hit. As I was typing up my new chart for this week, I noticed that the simplicity we used to have is now gone. Now we have rock, pop, pop-rock, disco, disco-rock, country, country-rock, and yes, even country-disco! What is this world coming to? How do we keep up with all this stuff? What records do we play? Do we chart them all together, or do we list the disco separate from the rest, or what? Maybe I can get somebody else to do this and I'll go out and fix the transmitter or something..."

### People Make The Difference..

**WAVA, Washington..**It takes three things to make a radio station a factor in any market.

...A competitive signal

...A valid programming concept

...And people.

WAVA has made some exciting moves in the area of people, and we want to share our enthusiasm with you.

Jim Herron, formerly with WWDC-AM, has been named Program Director of WAVA and leads off the list of WAVA's personalities in morning drive, Monday to Saturday, 6-10am. Jim's radio experience includes three years as assistant to the program director of WASH-FM.

Kelly Saunders comes to WAVA from DC 101 where she hosted afternoon drive and produced and directed "Conversation Piece", an award winning weekly public service program.

Gary Chase fills WAVA's afternoon drive slot and has been appointed music director. Gary also comes to WAVA from DC 101 where he did midday and maintained that station's highest quarter hour figures.

Cerphe is 7 to midnight. As a celebrated air personality at WHFS, Cerphe (pronounced "Surf") has been recognized as the authority on what is happening in music and rock culture.

He recently hosted and helped organize 'Solar Energy Day' at the Washington Monument, with Jackson Browne amidst an audience of 75,000.

The WAVA staff is rounded out with Michael Del Colliano on overnights. WAVA's weekend lineup includes Jerry Strider, also formerly of DC101, and the newest addition to WAVA, Maria Sperando.

WAVA is proud of its new lineup...young, dedicated, energetic people who reflect the music, culture and pace of Washington's affluent young adult market. Our people are broadcasters before jocks...and people before personalities.

**WKIX Raleigh, NC..**"Seventy-five of the mottliest-looking cars in Raleigh answered the WKIX search for the 'KIX Clunker' on Saturday, March 10. Models included such oddities as a 1948 Ford pick-up truck and a 1953 yellow Chevrolet, all vying for the cash prize of up to \$500 and the honor of being painted as a WKIX bumper sticker and used to track down KIX bumper sticker-bearing cars around town. The scene on the parking deck of North Hills Shopping Center had the flavor of a rock concert and a car enthusiasts rally as Top-40 music blaring from WKIX speakers blended with car horns and cranking engines. Spectators followed judges Bernard Mann of Mann Media, owner of WKIX/WYYD-FM; Bob Bolton, PD; Rich Reim, WKIX Sales Mgr.; Dan Smigrod, Promotion Dir.; and a local mechanic as they kicked tires and peered at rusty engines. The promotion attracted the attention and coverage of the Sunday Raleigh newspaper and the local ABC-TV affiliate. When the smoke had cleared, the winning car was a sleek 1967 white Cadillac sold to WKIX for \$300 by its original owner. Over 200 WKIX t-shirts and 1000 bumper stickers were given away to the sightseers."

**WDK Columbus, GA..**"Effective March 15, John Bodiford, weekend air personality will be handling some of the promotion calls from music people and will be here to give out numbers on the playlist and make calls concerning album giveaways, etc. John will be able to give the playlist numbers out Wednesdays from 12 noon to 4pm. This should help take some of the burden off our receptionist. John will also be assisting Charlie McCarthy (MD) and Steve Kelly in making contacts with companies we don't hear from regularly, and John will be calling concerning obtaining album product for giveaways and promotions."

# Anti & Muscolo

by Don Anti  
& Tony Muscolo

A great big congrats to one of our favorite people, Scott Shannon, who will become the new PD of WPGC in Washington, DC effective Monday, March 26. A more talented person you could not find. Congrats, and all the best, Scott.

Congrats to J.J. Walker who leaves KOPA in Phoenix doing the night shift to return home to Tampa, Florida with his lovely wife to do pm drive at Y-95. All the best, J.J.

Congrats to Tom Heeran, better known as Hurricane at Y-103 in Jacksonville, Florida who will cross the United States to the west coast and join the research department at KHJ and his old friend Chuck Martin. Congrats Tom; Chucker has got a real winner.

A great big congrats to one of the original members of the Southeast planning committee, who will become the new PD at KX-106. That's none other than Frank Lewis and it's nice to see Frank back in action again. Frank emphasized that Steve Davis will continue to do the music. All the best, Frank.

More goings on in Birmingham: Coyote Calhoun will become the new MD at WERC as Walt Brown has resigned that position and will announce his plans shortly. Also in Birmingham, Jay Michaels becomes the new PD at WSGN. Congrats to Harry Valentine, MD at WCOL in Columbus, Ohio who has just received his private pilot's license and now can fly Dave Bishop all over the state of Ohio. Congrats, Harry.

J.J. Jordan has resigned his National Promotion Director position at EMI-United Artists Records, and after a short vacation will announce his plans.

Happy Birthday to Dick Phillips at WEVA in Emporia, Virginia who becomes 31 on March 27. Happy Birthday to Paul Dengrove who celebrates his on March 31st.

Congrats to Dwayne Bonds who becomes the new PD at WCIR in Beckley, WV. Shane Randall has decided to give a try in management and will now move into the sales department. Good luck to both.

**WWIT Canton, NC Robby Craddock.** "We recently ran a Mystery Music Scramble promotion in which twelve songs were scrambled together for fifteen seconds. Winners received albums containing the mystery songs. Response was great!"

**WAGQ Athens, GA Brady McGraw.** "New line-up: 6-10am Dan Murray, 10am-2pm Bill Holloway, 2-6 Brady McGraw, 6-10 Mark Howard, 10pm-2am John Summers, and 2-6am Cheryl."

**WCLA Claxton, GA Steve Jones.** "'Spring Excitement' starts in April. Steve Jones is now music director and head of promotions."

**WJPA Pittsburgh, PA Jim Frye.** "We are doing a live remote from a New York style disco night club, One Park Avenue, every Saturday night from 9pm till 12 midnight, hosted by Ellen Albert."

**WDRQ Detroit.** "We have a new morning man from WCAR, Bobby Sherman. A regular Friday morning feature will be disco celebrities doing a two-man show with Bobby Sherman. This Friday, KC (from KC & The Sunshine Band) will be on."

Another great big congrats to Gary Cannon who leaves his MD position at WZOO in Asheville, North Carolina to join the gang at WTOB in Winston-Salem. Good luck Gary.

Nice people department: Carmel White (WCOL and 92X in Columbus, Ohio) and Brenda Marshall (KLAZ-AM & FM in Little Rock, Arkansas.)

Nice to hear from Julio Aiello who will join the west coast staff of Salsoul Records.

Congrats to Jeff Lucifer who has been named assistant PD/MD at WNDE in Indianapolis, working for Mr. Nice Guy, Bill Garcia and we do mean "nice guy."

Sorry to hear that Al Moinet of A&M Records is hospitalized at Cedar Sinai Hospital in Los Angeles with an infection. Al should be out and on the phones real soon. We all send our love, Al. Get well soon.

Nice to hear that Jan Jeffries, PD at WLCY in Tampa has grabbed a winner as his new programming assistant. That is Lynn Lotkowitz, who leaves her MD position at Q105 to join Jan across the street. Congrats to both.

Congrats to Mr. Bill Gavin who has announced his engagement to Josette Horst in San Francisco last weekend. Our wishes to the new happy couple.

Congrats to Pam Long, assistant Production Director at WCOL in Columbus, Ohio who will move to Cleveland to join Pix Distributing as Advertising Director. Congrats Pammy.

Rick Harris becomes the new PD at WLAC and WKQB in Nashville, replacing the departing Marc Damon.

Nice guy department: Pat Martin, WSPT.

Nice to hear from Gary Major at WKLO in Louisville. Gary has just hired former morning man Jack Hood of WJR and WGN to the am shift at WKLO. Gary also has an afternoon drive slot open for a good adult contemporary sounding announcer. Contact Gary at (502) 589-4800.

WFLI & FM-94 extend sympathy in the death of the father of PD Jimmy Byrd.

Sorry to hear of the death of Bobby Poe's grandmother who died Wednesday, March 21st in Oklahoma. She was in her mid 80's and had been sick for quite a while. Our deepest sympathy to the family.

Happy Birthday to Brady McGraw (WAGQ) who celebrates his on March 31st.

**WOOF Dothan, AL Tom Pierce.** "I'm back from New Orleans, as the music director here. It's good to be home. I'll be accepting calls Monday thru Thursday, 9-12 noon."

**WMFJ Daytona Beach, FL John Scott.** "Recently held our Easter Seal 24-hour Dance-A-Thon in the area's largest mall, and danced from 6pm Friday till 6pm Saturday, raised over \$6,000. Response was so tremendous that we are making this an annual event."

**WLCY Tampa, FL.** "Lynn Lotkowitz moves from Q105 to WLCY to become personal programming assistant to Jan Jeffries. Prior to joining Southern Broadcasting, Lynn was MD at WABC in New York."

**WKMX Enterprise, AL Chuck Leonard.** "K W Keene is assistant MD and Dave Miller is music research analyst. We have expanded these positions so that we can save the promoters' dimes. Bill Morgan is now production manager and Hal Edward is assistant production manager. Soon to be into our 'Mining For Motorcycles' promotion in which listeners have 30 seconds to dig through a sandbox for the keys to two Yamaha motorcycles."

**WCIR Beckley, W VA Dwayne Bonds.** "Dwayne Bonds has been promoted to program director and will continue to do the music."

## Service

**WQDE Albany, GA Jaxon Rylee.** "WQDE raised \$3,000 in the Easter Seals Disco-Thon. Coming up, The March of Dimes Superwalk and the C.F. Bike-A-Thon. WQDE will have a five-hour disco during the Easter Seals Telethon at the Albany Mall. Please send disco 12" for use in the party."

## Open Mike

**WAZA Bainbridge, GA Jerry White.** "We had our 21st Birthday Party this weekend, giving the presents to our listeners. Bee Gees lps, Dr. Pepper T-shirts and McDonalds sundaes were just some of the presents given away."

**WQCM Hagerstown, MD.** "As of last week, Gary Michaels is the new Program/Music Director, formerly with WLPL Baltimore and WITH-FM Baltimore."

**KNCN Corpus Christi, TX.** "As of March 8, 1979, C101 has a new Music Director. Charlie Palmer, who has served as assistant Music Director for two years, moves into the job. He replaces Mando Camina. Debbie Lee Miller remains PD. Cheryl Peglow will be handling music trade correspondence. Our new air lineup is as follows: 2-6am Frank Wagner, 6-10am Charlie Palmer, 10am-2pm Bobby Reyes, 2pm-6pm Debbi Lee Miller, 6-10am Bob Fazio, and 10pm-2am Cheryl Peglow."

**WBSR Pensacola, FL Jim Golden.** "This past Saturday night was the premier of WBSR's Studio 14 from 2001, the largest disco in Pensacola. This is the first live broadcast from a disco in Pensacola and will be a continuing feature of BSR. It runs from 9-midnight on Saturday nights. It was a phenomenal success. The management of 2001 reported a larger crowd than was in attendance at their New Year's Eve party and that crowd was the biggest in memory."

**KOFM Oklahoma City, OK.** "Oklahoma City's first ever Indoor Fun Fair was enjoyed by thousands recently as winter-weary residents took advantage of the spring-like weather inside the Myriad Convention Center. The fair, with all the usual midway rides, games and attractions also featured KOFM's Mobile Music Machine which provided a lighted disco dance floor. Marvel Comic's "The Incredible Hulk" along with KOFM's "The Boogie Man" were on hand to greet fairgoers. KOFM also sent lucky listeners to see Billy Joel in concert in Oklahoma City and gave away 52nd Street albums to the ticket winners."

**WCGQ Columbus, GA. Jeff Blake.** "Held our Annual March of Dimes Superwalk '79, and over 700 people of all ages raised more than \$10,000. Also had an outdoor disco in one of the city's mall parking lots. The event featured album and T-shirt giveaways and a fashion show for young adults. 107-Q is giving away 50 15 minute phone calls to anywhere in the U.S. in our 'Hometown USA Preview' promotion."

**WKYX Paducah, KY Bryan Sargent.** "The 4th Annual 'WKYX High School Heart Fund Drive' is underway. Through March 31st, four area high schools are collecting for the Heart Fund. The school getting the most money wins the WKYX 'I Care' award and a free 'Kicks Disco Dance'."

**WRFC Athens, GA.** "WRFC is presenting disco product, on a regular basis in addition to our current list. Thanks to all the record companies who have provided us with product. We will continue to supply you with the most accurate information we can compile."

## The Pendulum Swings..

The Scott Shannon story inside this week's issue intrigues us. In an industry that promotes and thrives on personalities, Scott would certainly be a charter member. And he is going back to radio.

This is certainly not the first time such an event has occurred, but perhaps it is the first time this high up on the scale. Scott was a major market PD and air personality who changed hats for the VP chair at a very fine record company and is now reversing his role once again. And you can immediately squelch any rumors about his job at Ariola being in jeopardy. On the contrary, the company was growing steadily and Scott had time time remaining in his contract.

We do not choose to dwell on the "whys" of Scott's decision. We prefer our own version and that is that he simply liked radio as a career better. Sure we're biased...20 years in radio and none in records. And radio needs all the talent it can get.

Quite a few months ago on this page, we wrote of the increasing competitive situation in radio (and this was well before the disco revolution). There was a lot of street feeling (we won't call it bitching and moaning, for that is often misinterpreted) that with the increasing fragmentation of audience, additional signals and upgrading of older ones, the coming of age of the FM band, etc.....that radio was getting to be a mighty tough business.

And we said yes...maybe...if you look at it that way. But on the other hand...what about opportunity? For the hustler, the real competitor, the radio lover, won't there be more opportunity? Because of the very competition that we bemoan, would not talent in the medium be recognized as never before? We think now, some months later, that these thoughts were not too far off base. The cry in radio is for talent. Salaries and incentives, undreamed of a few years back, are being offered. But it is for the select few, the top of the line.

And now the record industry is going through a bit of a rough period, mergers, cutbacks, budget awareness...not like the old days. It's a mighty competitive career in records these days.

Not taking sides, for we love both and combined they make the total of our industry. But--hot damn! Maybe it's finally beginning to even up. Maybe the two sides of the industry will finally offer comparable benefits, monetary and otherwise.

This is no stroke for Scott, for his was a purely personal decision. But we're delighted.

Records 326...Radio I. Stay Tuned.

## Ain't This Fun..

We learned it from John Long who sez he learned it from Dave Sholin. We told it to Chuck Dunaway and he sez hell, it's been around for 20 years.

In any event, we have had a lot of fun with it, and thought we would share it with you. It's an absolutely simple little game (we are not aware of any name for it) that can be played anytime, anywhere, and seems especially suited for radio and records.

One person names a recording artist and the next person must name another artist whose name begins with the letter that the last person's artist name ended with. For example, Tommy Edwards, followed by Sam The Sham, followed by the Monkees. "The's" are not used—not "The Monkees." just "Monkees." And the kicker is that a particular artist cannot be used more than once.

If you get stumped and cannot come up with an artist when your turn, the same letter is passed to the next player and on around the table until back to the original guy who started it, who then begins with a new letter. Each time you're stumped you get a point against you...three points and you're out of the game.

And that's about all there is to it. 'Course as you get into it, you learn to look for names ending in tricky letters to hang the next guy up with. Like Trini Lopez...those Z's get scarce quickly. And how many artists do you know with names beginning with X?

John Long sez Dave Sholin played 11 hours without a pass. Get out those oldie moldie lists.

—Ron—

## New Survey Procedure...

Effective this week, the RMR Disco Club Chart is being done differently. We are now surveying 30 of the top spinners around the country, and are compiling our club charts from this information, weighted with the information supplied to us weekly by selected pools. For this reason, we feel the RMR Club Chart is now the most accurate to be found in any trade. Each spinner is given equal point value, with the weight given to the most disco-active regions of the country. We will print the names and clubs of our participating spinners in the Reporting section of RMR as we always do. The texture of the Club Chart will not change drastically, since we will not put all of our new sources of information into the computer at once to avoid any "future shock" for us all. As always, we are expanding and improving on our existing methodology to better serve our subscribers and the music industry in general.
