

WALRUS!

A&R ROULETTE

Who signed these guys?" That's the time-honored response to much of the music that comes pouring out of the vinyl pipelines each month, and anyone who's ever received, say, a fresh-pressed Jobriath album in the mail can surely sympathize.

In an effort to throw some light on the artist & repertoire business — that process by which artists are sought out, signed, and ultimately marketed — Walrus conducted a survey of key major-label A&R personnel on both coasts. How do they perceive their job? What are their special problems in evaluating new talent? What does the public want? How does radio help — or hinder — them? The answers were illuminating, to say the least.

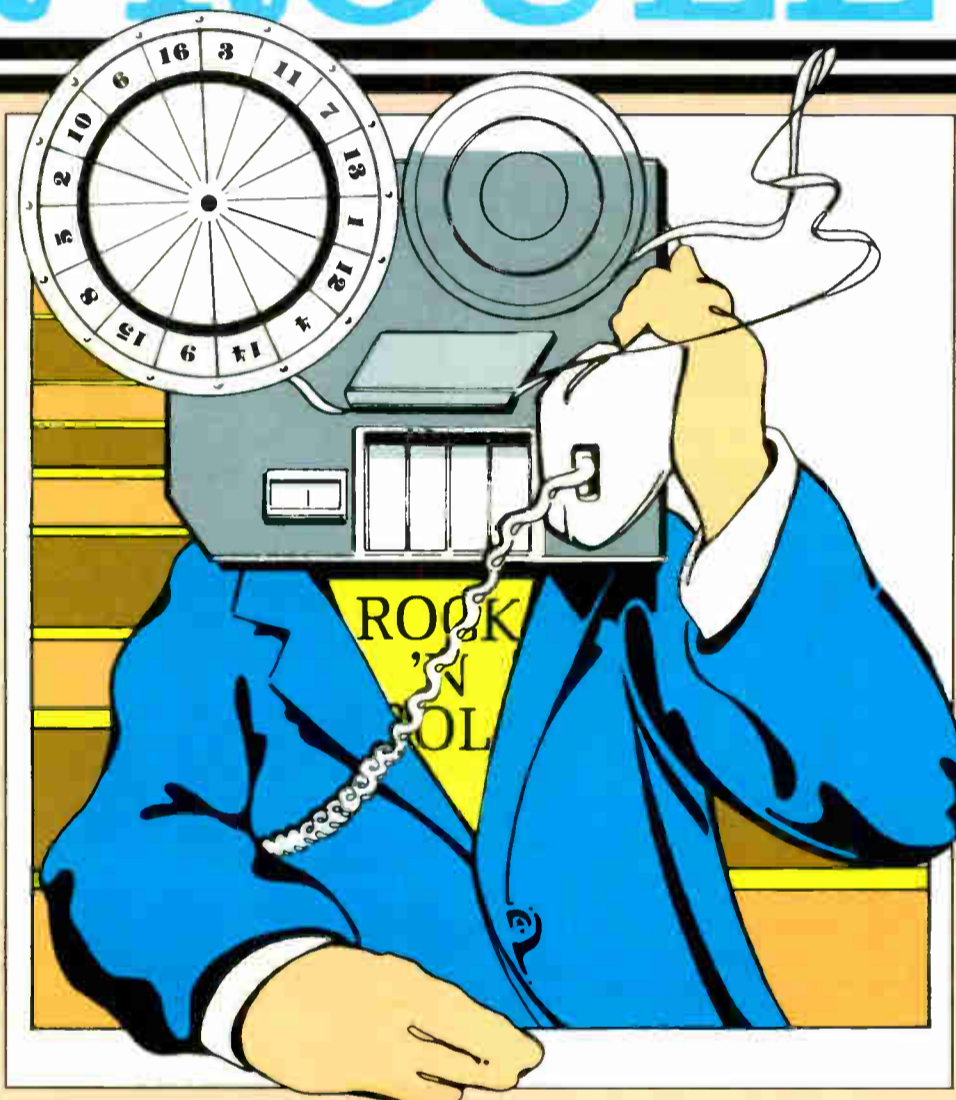

"Everybody knows how to make records today," says Jerry Wexler. "Getting a swinging track isn't shit anymore. Who can't do that? Production expertise is not the point. It's back to feeling. It's like all the horses are starting off at the starting gate together when the gun goes off — so what's the difference?"

At 62, the near-legendary Wexler — who entered the music business back in 1947, working for *Billboard*, and since 1953 has made "a couple of hundred albums and maybe a thousand singles" — knows his chosen biz backwards. And he has some strong, seasoned opinions about A&R policy and production — both of which come under his purview as senior VP at Warner Bros. in New York.

"If one endures," Wexler observes, "one learns what the components of a phonograph record are. There are three styles: There's the so-called documentary style, where you go and hear Muddy Waters playing in a bar on the South Side, and you bring him to the studio and do your best to duplicate exactly what you heard in the bar last night.

"Then there's the Phil Spector approach, which is studio confection, where you have a vision and you try to realize that in the studio, and the studio becomes your implement.

"Then there is the third way —

TOP A&R MEN ATTEMPT TO BALANCE ART AND COMMERCIALISM

BY KURT LODER

I call it serving the artist — which is my way: you try to bring out best — by whatever means necessary — the essence of that artist in ways which are neither documentary nor necessarily studio confections. I have dealt mainly in my life with people who could sing; the notion of *bel canto* enters into the picture, from Clyde McPhatter and the young LaVerne Baker right up through Ray Charles, Aretha Franklin or Dusty Springfield. I try to discern the essence of the artist

and elucidate that in the best possible manner."

Wexler has a producer's perspective, as you might imagine. And although he personally enjoys everything from hard-core Western Swing to Television, Talking Heads, and the nether limits of Fripp & Eno, his first love — after instrumental music — is soul singing. It's not surprising to hear that, after completing the second Dire Straits album in Nassau recently, he enthusiastically threw himself

into the production of erstwhile gospel singer Mavis Staples's solo album — which brings up a major A&R problem.

"If you're doing black music today and it's not disco," Wexler says, "you've got a hell of a problem on your hands. I mean, so many doors seem to be closing

Meaning radio? Exactly: "It's almost a cliché. Everything's so formularized; there's no more free-form, there's no place to go, there's no underground. And of course a very terrible thing to deal with is the virtual Coventry that black music has been put into by FM radio — by the world, I mean. Sure it's demographics, and its the advertisers and people playing safe. But if this isn't another reversion to racism — in a subtle way — I don't know what the hell it is."

Wexler sighs a very knowing sigh. "The dollar calls the shot, you know. Wherever the advertisers and the stockholders of the radio station perceive the dollars to be coming from, that's the way it'll go. Altruism will play no part in it. Nor will taste."

At least Warner's is taking some risks in combating the current philistinism (after all, can the label that brought back Captain Beefheart be entirely timid?) But associate A&R director Karen Berg — who worked with Television and the Cars at Elektra/Asylum, and has been one of Wexler's most valued assistants since signing on with Warner's in December '77 — wishes other labels would follow their example.

"Other major companies do not seem to be taking as many risks as I think they should be taking," says Berg. "I think it's important for the industry, not just for each individual company, that we try to be taking some chances."

And of course radio, too. "Definitely. You have to try to break some rules. It's very hard to get through, sometimes, the deadlock and the 'safe airplay.' But you just have to try to find other ways to do it, then.

"The almost blacklist of punk and New Wave in the U.S. was really damaging, I think, to a lot of new artists," Berg contends. "Whether or not any band might have been better than others in

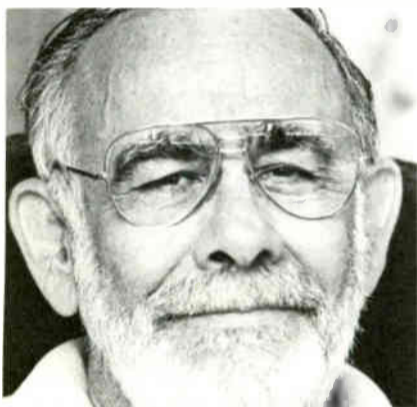

A&R ROULETTE

New Wave — a term that I dislike more than punk — there was no judgement made. Bands or artists weren't judged on the basis of whether they were good or bad; if they were New Wave or punk, they were

automatically bad — which I found infuriating, and patronizing, to just about all young musicians."

Not everyone shares these sentiments, of course. Take 29-year-old John David Kolodner, West Coast chief of A&R for Atlantic Records.

"Luckily, my taste is very adolescent rock and roll," says this onetime Philadelphia music writer. "For instance, I heard the Dire Straits record and I liked it, but I didn't think it was right for America at this time. I was wrong."

JERRY WEXLER

W.B.

Kolodner is Atlantic's British rock specialist (Foreigner, Yes), and he says of such groups that "as long as they make the hits they'll be stars . . . when they stop, they'll be a memory." Very pragmatic. As for New Wave, he considers it ugly and repulsive. Not so tight radio formats, however.

"It makes my job much harder," he admits, "but personally, I love tight-formatted FM radio, which I think is unusual for an A&R guy. I love KMET and WPLJ, I love Kent Burkhardt's formula — but you have to remember, it's an advantage to me. I make radio records."

Filling up those tight formats with commercial music is another problem altogether. "I work every day from nine to six or seven, and I go out every night, except maybe Saturday night. I also go out on the road. But I'd say you have to see a thousand acts before you see one good one."

Over at MCA's Los Angeles offices, A&R head Denny Rosencrantz has a decidedly

different outlook. Rosencrantz, after all, was instrumental in the early careers of such disparate artists as Rod Stewart, Uriah Heep, Graham Parker, Thin Lizzy . . . and the reviled New York Dolls.

"I've been involved in a lot that might have been ahead of its time," says this former Mercury promo chief. "New Wave scared everybody, and the only bands that made the impact were mainstream bands with punk overtones — Elvis Costello, or whatever."

"I thought the Dolls and the Runaways were gonna change the face of music — but it was the Ohio Players who went on to sell millions of records. That showed me right there — there's a lot of luck involved in A&R . . ."

Since he arrived at MCA a little over a year ago, Rosencrantz says he's "dropped a lot of acts. There's only so much energy and money a record company has — and this company has promised me that when someone is signed now, there'll be money behind them."

Roger Watson, head of U. S. A&R for Chrysalis, describes himself as a "public-school, fairly upper-middle-class Englishman" who's been in the music business since the halcyon days of 1965, when he first went to work for Decca in London.

"It was an incredible training ground," says the 32-year-old Watson, "because we had the Rolling Stones and the Who. I'd go down to see the Who at the Marquee, and I did the first test pressing of 'My Generation.' The first black people I ever met in

INDIES GO UNDER IN NEW YEAR'S PANIC: As of now, it looks something like this: A&M and Twentieth Century have gone over to RCA for distribution, and ABC has pacted with MCA. Of the remaining independents, rumors are running rampant around Arista (to Capitol/EMI?), Chrysalis (MCA?), Motown (talking with CBS, MCA and RCA) and Butterfly, (apparently meeting with everybody)... In other indie shake ups, Shelly Siegel's death gave Mushroom Records an understandably solemn set-back. Wink Vogel, Mushroom's Canadian-based president, will assume more of the label's day-to-day responsibilities, spending most of his time in Mushroom's L.A. headquarters....

FISHKIN & GOLDBERG TO MODERN: Paul Fishkin, previously V.P. with Bearsville, has left to form Modern Records with N.Y. based P.R. exec Danny Goldberg. Modern's first signing: Stevie Nicks, and a solo album forthcoming, needless to say. Nicks will continue her Fleetwood Mac/Warner Bros. relationship.

HEROES GO CELLULOID: If that's not enough, the sassy blond Nicks has signed a deal with United Artists to write, compose and possibly star in a movie adaptation of her hit homage to the Welsh witch, "Rhannon"... In other movie/music news, Michael Nesmith's Carmel, California-based Pacific Arts company has acquired the soundtrack rights to the surefire Academy Awards contender, DAYS OF HEAVEN. Ennio Morricone scored the pic, with additional pieces by guitarist Leo Kottke.... Jack Nitzsche, just finished with Graham Parker, goes on to score David Byrum's Jack Kerouac/Neil Cassidy nod, HEARTBEAT.... And Blues Brother John Belushi is being asked to reprise his ANIMAL HOUSE Bluto for the upcoming

POPEYE flick. This time he'd be playing the original Bluto opposite Robin Williams' Popeye and Shelley Duvall's Olive Oyl.

LAKE & KEANE GO TO WARNER PROMO POSTS:

Charley Lake, prior program director for KSLQ in St. Louis, WPEZ in Pittsburgh and Charter Broadcasting, has taken a National Promotion Directorship with Warners. Bert Keane — formerly Bugs' West Coast Regional Promo Manager — has also moved up to a National Director chair. Bruce Hix, another WB regional folk, will assume Keane's previous position. In an unrelated move, David Young, Warners' National Album Promotion Director, has departed the Burbank building.

DYLAN GOES TO ACCOMPLICE: After Bob Dylan's next LP (on which assigned producer Nick Venet has reportedly been dropped, with a possible replacement being Phil Spector), he'll be

putting out records on his own CBS-distributed custom label, Accomplish Records. Remember Mr. D.'s short-lived (10 days) Elektra/Asylum-distributed company, Ashes & Sand Records?

HEAD BOYS GO TO STIGWOOD-GET GREAT DEAL: RSO has picked up Head Boys, its first British signing in three years. Pete Ker (The Motors) will produce the Scottish lads' debut disc....

GO GO GO GO GO: The Rolling Stones are in Chris Blackwell's Nassau homed Compass Point Studios.... Gary Valentine, back from a winter jaunt in New York, getting hotter with every new performance. While no label has yet picked him up, the ex-Blondie popster just signed a hefty publishing deal with ATV.... Mike Chapman's production schedule for the next couple of months: Exile, Blondie and The Knack.... Charlene Tilton, the short, blond Lucy in TV's DALLAS, to do an MOR LP with Bruce Welch (Olivia Newton-John) producing.... Bonnie Raitt does Robert Palmer's "You're Gonna Get What's Comin'" on her soon-to-be-released Peter Asher produced Warner Bros. album.... Duncan (Metro) Browne's THE WILD PLACES on Sire in March.... Pure Prairie League's new one on RCA with the Fat Albert Brothers behind the boards.... Infinity has an Orleans LP due in March.... Carl Perkins is off the Elvis Costello tour. Look for

David Johanson as a possible opener?

LONDON

TEMP AND PRICES DIP IN U.K.: The first two months of 1979 have been relatively uneventful here in England, in the midst of the coldest winter in 15 years and a spate of strikes, both of which have added to the general post-holiday season slowdown. In order to spur sales and combat the expected slowdown in record sales during this period, record companies have actually begun to lower the suggested retail price on catalogue LP's, with Phonogram leading the way and others expected to follow suit. Pye, meanwhile, has cut the list price on their tape catalogue....

IT'S A BOY, MRS. WALKER! The Who's Pete Townshend, who recently signed a long-term solo contract with ATCO, is currently working as musical director for a stage version of the Who's Tommy, opening at the Queen's Theatre in the West End on February 6th. Townshend had been asked down to see the musical while it was in rehearsal and was impressed enough with the production to get personally involved.... Elvis Costello just finished a highly successful British tour with a jam-packed sold-out performance at Hammersmith Palais, a large, old-English-style dance hall in

West London. Joining Costello during his encores were guest guitarists Martin Belmont (the Rumour) and Dave Edmunds (Rockpile). Costello's "Armed Forces" is currently number 2 in the British LP charts and the single, "Oliver's Army" looks sure to be a hit here (it's backed by a straight rendition of "Funny Valentine").... If this week's singles charts are any indication, New Wave/Disco Fusion is the rage over here at the moment, with Blondie's "Heart of Glass" grabbing the top spot after selling over 1/4 million copies in its first week of release, and Ian Dury's "Hit Me With Your Rhythm Stick", last week's number 1 still riding high at Number 2....

IT'S A BOY, MRS. PLANT!... Congrats to Led Zep's Robert Plant and wife Maureen on the birth of a son on January 16th. The little fella's named Logan.... 10CC guitarist Eric

Stewart was injured recently in a bad car crash, sustaining a skull fracture when his car somersaulted off an icy road. The fracture is reportedly not a bad one and Stewart's condition has been improving steadily. He hopes to be better in time for 10CC's far Eastern tour, scheduled for March.... The Kinks have just completed their first major UK tour in three years and leave here soon for a short series of U.S. college dates, from which may be culled a live album....

FUEL FOR THE STARSHIP.... Jess Roden, the British singer who's done a handful of solo LP's for Island over the past five years, has become the second new member of Jefferson Starship in the past month (Aynsley Dunbar was the first), he steps into the spot vacated by the recent departure of Grace Slick. He's not as pretty, but he does sing rather well.... Joe Egan, Gerry Rafferty's former songwriter partner in Stealer's Wheel, has signed a world-wide deal with Ariola.... Both Virgin records and Radar records rumored to be near finalizing U.S. distribution deals.... Alan Price's "Baby of Mine" single is available over here in red-heart shaped vinyl, presumably intended as the perfect St. Valentine's gift.... American acts touring here during February include Cheap Trick, Chuck Mangione, Walter Egan, Moon Martin, McGuinn, Clark and Hillman and Herbie Hancock.... Graham Parker and the Rumour's new LP will be called "SQUEEZING OUT SPARKS," but Sparks' new one, recorded in Germany with Giorgio Moroder, will not be called "Squeezing Out The Rumour." It will be called "NO. 1 IN HEAVEN," though....

RADIO, RADIO!... Radio history was made this week when BBC 2 became the first BBC (non-commercial, government owned) radio station to go to a 24 hour broadcast schedule.

MERIT PLUS ALBUMS

Competent Lps with Some Special Element

THE BOOMTOWN RATS

A TONIC FOR THE TROOPS/Columbia JC 35750

The Boomtown Rats deliver top-rank songs by Bob Geldof. Between Sparks and Springsteen, they make a home for themselves. No let up.

BILLY BURNETTE

Polydor PD 1-6187

Without any flashy gimmicks Billy Burnette's easy flowing album might slide by the ear. But, an Lp built on such a smooth musical base and populated by such a consistent batch of organic melodies deserves more and better.

HOT CHOCOLATE

EVERY 1'S A WINNER/Infinity INF-9002

It's the combination of fine material, really appealing tunes, and creative arranging which makes Hot Chocolate hot. Since Herman's Hermits, Mickey Most hasn't been this effective. The title is close to being true.

TONIO K.

LIFE IN THE FOODCHAIN/Full Moon-Epic JE-35545

A man of words, Tonio K. rocks with an under-current of humor and intelligence. Sometimes the words overwhelm the melodies. Wisely, the best tunes are placed up front. Unwisely, side 2 seems to be stronger than 1.

REGGIE LUCAS

SURVIVAL THEMES/Inner City IC 6010

This three year old Reggie Lucas album reveals a superior guitar thinker. A jazz-fusionist, he demonstrates a creative use of his skills and a strong melodic sense. Plucked from Japan.

McGUINN, CLARK & HILLMAN

Capitol SW-11910

Remembering that the Byrds made their reputation as Dylan interpreters is important since these songs are largely self-generated. The old magic isn't there all the time, but when they get it right McGuinn, Clark & Hillman shake the trees. Roger's two contributions are outstanding.

CHARLES MINGUS

ME MYSELF AN EYE/Atlantic SD 8803

Bluesy "Devil Woman," with its Coryell lead, is an easy way to get to play Mingus in a rock context. His compositions otherwise stretch the jazz lexicon with their obvious originality. The big band takes on a new meaning behind his ideas. Side two is most accessible, but the whole Lp is a fitting note of departure for a lost legend.

FELIX PAPPALARDI

DON'T WORRY, MA/A&M SP-4729

A truly grooved set of tracks move these blues songs unmercifully. The tracks are alive. Felix's voice and singing just about get beyond the right intentions. They are passable in a better than average context.

THE POLICE

OUTLANDOS D'AMOUR/A&M SP-4753

"Roxanne" is the tip of the iceberg. More fine songs follow and that voice. Sting is a find. They take some getting used to, but the effort is rewarded. The evolution of new wave.

BONNIE TYLER

DIAMOND CUT/RCA AFL 1-3072

Bonnie's similarity to Rod Stewart is uncanny. Though her first Lp showed that clearly, its weakness was that it all hung on one great song. Diamond Cut has the advantage of a batch of Ronnie Scott - Steve Wolfe songs. They are uncanny too. They manage to find the ear and the pulse often.

MUDDY "MISSISSIPPI" WATERS

LIVE/Blue Sky JZ 357 12

Blues is rarely given this shot. Johnny Winter brings all of the sophistication of contemporary rock to the pure form. This recording has captured the presence of the moment. It is also supported by a collection of Morganfield classics.

TONY WILSON

CATCH ONE/Bearsville BRK 6985

Crossing all genre boundaries, this Tony Wilson Lp stands out because of its uniform quality. Tony's writing and his thoughtful vocals blend so well with the mellow instrumental flow. Enjoyable music.

WIRELESS

POSITIVELY HUMAN.../Mercury SRM 1-3750

Resting on talented shoulders, Wireless transmits a clear rock message. Songs are the point and the group seems to write them and perform them with uncommon resiliency. No Morse Code is needed.

MERIT ALBUMS

Thoroughly Competent Lps

THE AMAZING RHYTHM ACES

ABC AA-1123

Easy on the ear, The Amazing Rhythm Aces glide through some decent songs with feeling. Mild demeanor is a constant.

BARCLAY JAMES HARVEST

XII/Polydor PD 1-6173

Always crafted and always colorless, The Barclay James Harvest review tends to write itself. Their writing is easy to take, the sameness comes from their performance more than anything. A solid, but not historic, band.

BEE GEES

SPIRITS HAVING FLOWN/RSO RS 1-3041

A study in survival and craftsmanship. The Bee Gees' chameleon-like performances are amazing. Though Spirits Having FLOWN is sometimes a bit overdone, it is very creatively mounted and based in fundamentally solid songs, and one great one.

THE CARLA BLEY BAND

MUSIQUE MECANIQUE/Watt 9

At her sanest. Carla's band music only implies the weird places it could have explored. Still, it has the taint of originality so often avoided by others.

BOHANNON

CUT LOOSE/Mercury SRM 1-3762

Not just another disco copycat, Bohannon is an original. His rhythms are structured like no one else's; they are nailed down and hot. Then there is the highblown soloing which is set in the activated drone. Magnified intensity.

DON BOWMAN

STILL FIGHTING MENTAL HEALTH/Lone Star L-4605

Take the Lp's title as a warning. After the classic "East Virginia Blues" Don leaves the straight life behind. His Texas country music is fun.

MAX DEMIAN BAND

TAKE IT TO THE MAX/RCA AFL 1-3273

Grooved for high energy rock success. A storm surrounding quality songs is contrasted against a few more delicately mounted tracks. Best of all is "High School Star." In its way, it is truth.

JOHN DENVER

RCA AQL 1-3075

Denver's bid to come back into the fold. The media gamble is that he could offend his pop audience and still not find acceptance among his pre-Frank-is-my-friend fans. Except for the association with his name, there is nothing wrong with the album beyond some soft spots.

THE FARAGHER BROTHERS

OPEN YOUR EYES/Polydor PD 1-6167

Harmonized strength up front dissipates on the second side but not before the Faraghers lay down a potential classic. "Long Hard Road" sounds like a great song which went unrecognized in the production.

NARVEL FELTS

ONE RUN FOR THE ROSES/ABC AY-1115

Ties to the South in early rock 'n' roll run deep. Narvel Felts represents that lineage better than anyone. What a voice. His choice of songs always seems perfect too. Avoid the pop tracks.

GILBERTO GIL

NIGHTINGALE/Elektra 6E-167

If you like Afro-Cuban rhythm and its offshoots, you will be hooked by Gilberto's Lp. Movement is the watchword as a few nice melodies glide past. Cleanest presentation this side of perfection.

HILARY

JUST BEFORE AFTER HOURS/Columbia JC 35547

Hilary is the name, but this is a Wayne Henderson album. Ironically in the notes, Hilary professes admiration for the masters of jazz, 'Trane and Miles and such, all of whom made unique contributions. That is the antithesis of what this Lp represents. It's a good rhythm album if you're at home with Henderson's style.

HORSLIPS

THE MAN WHO BUILT AMERICA/DJM-20

Horslips has had a scattered career. Traditional folkies to rockers, great writing to terrible garble have combined to leave a confusing trail. Here they walk the line between power-folk and rock. Steve Katz's production has unified the sound and this time the band supplied the worthy material.

JOE JACKSON

LOOK SHARP!/A&M SP-4743

His odd-ball back beat reaches back to the roots of rock 'n' roll but Joe's attitude is contemporary. It's the same formulation, done the Jackson way, as used by Elvis Costello. Joe's songs need to be as strong as his style.

THE JAM

ALL MOD CONS/Polydor PD 1-6188

"All Mod Cons" tells an interesting story with a strong strain of truth in it. Like The Clash, The Jam noticeably lightens up on their brashness. They have become more musical though they seem unsure of their commitment. The next step should be more certain.

RICK JAMES

BUSTIN' OUT OF L SEVEN/Gordy G7-984R1

It's no accident that Rick James' Busting Out Of L Seven contains some superior music. Rick has put in his time with all of the right people and he is an enormous talent in his own right. Here you will find the snappiest, funky-rock around. Side one is more to the point.

SYL JOHNSON

UPTOWN SHAKEDOWN/Hi HLP 6010

Don't get totally frightened off by the disco inclinations. Basically, Syl Johnson is a solid rhythm and blues singer from the traditional school. That comes through, especially after you get beyond the opening track on each side.

KIM KARNES

ST. VINCENT'S COURT/EMI America SW - 17004

Enormous potential goes partially unrealized. A combination of Kim's good, but not great, original material and standard, but not innovative, arranging keeps her in a constant state of ready-to-break. Still, one must root for her.

TIM KREKEL

CRAZY ME/Capricorn CPN-0219

Tim's rock 'n' roll spirit is endearing. He finds a terrific old song like "Little Bitty Pretty One" to lubricate his own solid contributions. He reaches back to borrow liberally from the rock 'n' blues lexicon. Comfortable.

MAGNET

WORLDWIDE ATTRACTION/A&M SP 4740

Several of Magnet's songs attract positive polarity, especially the first two. Things tend to standardize after them. But, the performances remain potent. You don't want to lose "I Don't Want To Lose Your Love" which is stuck in the back.

MARSHALL-HAIN

DANCING IN THE CITY/Harvest ST-11914

Starting off with a dazzling instrumental show in the opening track and a killer hook in the following track, sets up Marshall-Hain well. The Lp falls back to mortal thereafter but the positive damage had been done.

SAM MORRISON

DUNE/Inner City IC 6017

It is a shame that this sly, hip form of contemporary jazz had to get recorded originally in Japan. Sam is someone to be noted. Pleasing but defuse tunes work against the music's impact.

THE JAN PARK BAND

Columbia JC 35484

John Bartle is the other major force in this band. It is a safe rock band, aimed straight down the middle. Jan's vocals are a strong point coming out of the Grace Slick-Ann Wilson school.

COMMENTS:

We had Jean-Michel Jarre in as guest D.J. last week. He did an hour on the air playing his own records, some of his faves by other artists, and a world premiere of brand new U.K. album and a special French pressing of EQUINOXE. Special thanx to our good friend Jerry Jaffe and to local yokel Don Masters. And a big merci to Jean-Michel. We also had Andy Mendelson in the studios for a guest D.J. stint and we hope the good guy's gonna win. Thanx to Andy, Buzzy, and Lois Kennedy from Arista. Check out "Love and Happiness" from Amazing Rhythm Aces. It's a killer, with the recent success of an Al Green song by Talking Heads, this one is a natural. I'm standing on the corner listening to the new Jimmie Mack album. It's great.

'til next time,

John

COMMENTS:

The Stiff Sampler is a treat - who do I bribe for the Lps?!? Seriously both "Hallelujah Europa" and "Crying Waiting Hoping" could be AOR-to-pop crossovers, and put new wave progressive back at the head of the mainstream. Other personal faves: McGuinn & Co., Sally Oldfield, and Marshall Hain (forget the single.) Due to unbelievable response, D-103 had to add a 2nd show to our Sha Na Na presentation 2/8 at Hartford Jai-Alai. And you thought "Grease" was the only word...

The Police are chasing the Jona Lewie down the hall through the Eiffel Towers and Towers of Pizza (double cheese, please!)

ANALYSIS

BY GEORGE MEIER

It's the little things you notice which are intriguing. There's always a horse race going on at the top of the chart. Dire Straits relentlessly marches to the number one radio position, who would have guessed. They may have effectively cut off Elvis Costello's move to the top spot. Even with his 43% raise in last issue's chart and his 14% raise in this one, Elvis may never reach number one.

Regionally Elvis continues to show the standard street music pattern of relative sales weakness in the South and Midwest. That MW point of view also figures into Billy Joel's significantly weaker airplay there. Dire Straits, a new idea, struggles in conservative MW too.

The South contributes strong airplay for Toto, Cat Stevens, Styx, and Firefall. Meanwhile the Northeast does the trick for Steve Forbert, George Thorogood, and Robert Johnson, who is also finding air in the West. Queen gets out of proportion sales in the West while The Doobies sell poorly in the NE in spite of strong airplay there. The Doobies sales number is so out of wack that it looks wrong.

The Radio Action Chart, seen above, takes the albums on our graph pages and puts them in gain/loss order. It shows the speed they are moving and the direction (up or down the chart) of the movement for each record. Again, this week there are many fewer gainers than losers. We already know that Dire Straits is an important new group, but now we know that the Fabulous Poodles are too. It also shows us that The Good Rats have learned how to make records people like.

The Bee Gees star in both the radio and the retail Futures categories, though they don't overrun anyone. Marc Tanner Band, Max Demian Band, and McGuinn, Clark, Hillman start off best of the new configurations.

K.D.

On January 31, 1979 WGTB-FM Georgetown's non-commercial alternative media was shut down by the university. The loss of the station to the D.C. community is quite a cultural loss. With 20,000 names on file with the FCC and a battle over the transfer of the license there is still hope that WGTB may return. Many people have put in a lot of hard work at their own expense and they should be thanked. I hope the spirit of WGTB will continue and trust it will.

Bob Boilen

Warner's price increase on Rod Stewart was needless and also mishandled. I can hardly wait for Warner's \$14.98 Benson package. I hope they are boxed in 25's so I can use the record to hold up my stacks of THE WIZ.

COMMENTS:

Due to the fact that the U.S. is on hold with Iran for oil, it is inevitable that record prices will be soaring higher than ever. Not only will this be bad for the consumer, but also for the artists themselves. What's going to happen to those who do not have a "hit" on the charts. As it is now, the labels don't concern them with breaking all of their acts, which is understandable. And since radio keeps leaning more toward the hits, perhaps, it will be up to the retail stores to promote new artists. After all we can give more exposure to more artists from more labels than any radio stati

Wishful thinking dept.- an lp by Garland Jeffreys and Phoebe Snow. "Reelin'" off ONE EYED JACK shows the chemistry's there (without tapes).

Cars and Rolling Stones still consistent sellers.

Seems independent distributors may become an endangered species with label gobbling by majors (A & M the latest - Arista & ABC next?) That and the 3 price tiers endanger anything independent.

CONCERTIZING

WCUR/West Chester, Pa.

Artist(s): DERRINGER;
JOHNNY'S DANCE BAND; FANDANGO
Place & Date: Tower Theatre, Upper Darby,
Pa. - 2/3
Type of Place: Converted movie-vaudeville
house
Ticket Price: \$5.50 - \$6.50
Capacity: 3100
Attendance: Teenage - early 20's
Production Values: Derringer J.D.B. Fandango
Musicianship Good Excel. Good
Material Quality Fair Excel. Good
Showmanship Fair Excel. Fair
Sound Quality Fair Excel. Good
Lighting & Staging Good Excel. Good

Reviewer's Reaction: Opener, Fandango, from North Jersey served up a competent set of rock and roll, using material from their two RCA LPs. Next up, J.D.B., a Philly favorite for a number of years showed the home crowd that they are a group of the future. Led by the acrobatic-prancing of lead vocalist, Nannette Mancini and lead guitarist, Bobby Lenti, they put together a fine hour-long set of rock music, some new songs and some older material. Watch out for them to break nationally. For those who stayed for the headliners, Derringer, they received a loud barrage of worn-out riffs from the band led by the guitarist who wrote "Hang On Sloopy" and "Rock & Roll Hootchie Koo."

WMRA-FM/Harrisonburg, Va. - James Windsor

Artist(s): BOSTON; SAMMY HAGAR
Place & Date: Godwin Hall - 1/22
Ticket Price: \$7.50
Capacity: 5000
Attendance: Sold out
Audience Composition: Teenage, college age
Production Values: Headliner Opening Act
Musicianship Excellent Very good
Material Quality Great Good
Showmanship Good Excellent
Sound Quality Clear Clear
Lighting & Staging Professional Good

Reviewer's Reaction: "Just another band out of Boston." Boston proved Monday night that they are anything but just another group of boys on the bus to stardom. 12 year olds and college seniors alike stood by side playing their imaginary guitars as the familiar riffs echoed throughout the hall. Boston did an excellent job of mixing selections from their multi-million selling first album and their latest release, Don't Look Back. As Brad Delp sang the opening lines of "A Man I'll Never Be," Boston's current single, the crowd relaxed for a break from the driving rock which Boston had produced all night. The concert ended after 4 encores including one previously unreleased song entitled "Television Politician."

WQBK-FM/Albany, N.Y. - John R. Cooper

Artist(s): STEVE FORBERT
Place & Date: Hullabaloo, Rens., N.Y.
Type of Place: Club
Ticket Price: \$5.00
Capacity: 500
Attendance: 400
Audience Composition: College age, 20's
Production Values: Headliner
Musicianship Very good
Material Quality Excellent
Showmanship Good
Sound Quality Very good
Lighting & Staging Good
Reviewer's Reaction: Steve Forbert's first show with a backing band proved to be quite an event for both Steve and the audience. By the end of the second set everyone was enjoying themselves. Forbert's shyness worked to his advantage in a smaller setting, but I don't think it would translate well to a big stage. Otherwise, he is an outstanding artist and one whose talent should be experienced by all.

WORT/Madison, Wisc. - Danny Kahn

Artist(s): NAT ADDERLEY; SAL NISTICO
Place & Date: Sheraton/Gateway Room,
Madison, Wisc.
Type of Place: Club type room
Ticket Price: \$6.00
Capacity: 200/per show
Attendance: 150/per show
Production Values: Headliner
Musicianship Excellent
Material Quality Jazz standards & blues
Showmanship Comical & educational
Sound Quality Good
Lighting & Staging Good

Reviewer's Reaction: Backed by a superb rhythm section from the Madison and Milwaukee area, Nat Adderley and Sal Nistico brought their hard driving be bop sounds to an enthusiastic jazz audience in Madison. Both shows consisted of different material, with a good deal of spontaneous creations taking place. Nat added some extra excitement with short comedy routines between tunes as well as some very tasty soloing. Sal Nistico, an alumnus of the Woody Herman band and the Mangione Bros. group in the early sixties proved that he is a highly underrated and underexposed saxophonist. His performance of the ballad "I Can't Get Started" was a classic. Be bop is alive and well in Madison.

WRPI/Troy, N.Y. - Michael DuBois

Artist(s): GEORGE THOROGOOD
Place & Date: Madison Theater, Albany,
N.Y. - 1/18
Ticket Price: \$7.50
Capacity: 1000
Attendance: 900
Audience Composition: College age & 20's
Production Values: Headliner
Musicianship Superb
Material Quality Improvement possible
Showmanship No one better!!!
Sound Quality Not quite up to par
Lighting & Staging Adequate
Reviewer's Reaction: There was no doubt left in my mind at the end of the evening that George Thorogood has the potential to become a superstar. In addition to being an extremely proficient guitarist, Thorogood's stage presence is extremely vibrant, reminiscent of a younger Bruce Springsteen. Two important criticisms of Thorogood's are 1) a lack of original material, and 2) a lack of pace in his sets. These faults though, will be corrected with the maturity he is sure to acquire over the next few years. Overall, one can only see a bright future for George Thorogood.

WICB-FM/Ithaca, N.Y. - Bill Rose

Artist(s): HEART; THE GOOD RATS
Place & Date: Barton Hall at Cornell
University - 1/28
Type of Place: Large gymnasium
Ticket Price: \$6.50
Capacity: 12,000
Attendance: 10,500
Audience Composition: High school - college age
Production Values: Headliner Opening Act
Musicianship Good Excellent
Material Quality Good Very good
Showmanship Very good Excellent
Sound Quality Excellent Good & loud
Lighting & Staging Impressive Good

Reviewer's Reaction: Concerning the Good Rats, I said jeez, why haven't I bothered to listen to them before. They were great! Performing material spanning their vast career, The Good Rats returned for a well earned and received encore. Heart's show started slowly with tunes from their new Lp, but with "Crazy On You" Barton Hall and Ithaca, N.Y. started rocking. For the most part Heart was very impressive although parts of the show dragged. The band's double encore highlighted the evening.

NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES.

MERIT ALBUMS CONTINUED

PIPEDREAM

ABC AA-1121

Passable hard rock. Movement and rock flash are exploited in lieu of really strong material. Still, they get through it riding on the power performance.

THE PLAYERS ASSOCIATION

TURN THE MUSIC UP!/Vanguard VSD-79421

Jazz meets disco. Though the Chris Hills aggregation leans heavy on its jazz base at strategic times, it leans into a big beat. The process blurs their image as they try to keep established fans and draw new ones from a different audience. A media balancing act.

RETURN TO FOREVER

LIVE/Columbia JC 35281

Dexterity and worthy effort still distinguish R.T.F. However, this looser musical style isn't as cogent a thought as the old band generated. Especially good recording quality enhances the experience.

RUFUS

NUMBERS/ABC AA-1098

Though the logo remains the same, Rufus has to be considered differently now. Instrumentally, the band is a mighty force. Vocally they are not sure which way they want to go. We get a mixture of rock and R&B and hybrid instrumentals. Decent tunes lag behind the sterling presentation.

JOE SAMPLE

CARMEL/ABC AA-1126

Be-bop with a kick. The thing most be-bop albums lack is a contemporary rhythm track. That's why they seem benign. Joe Sample's piano gets a hot-shot because of the crisp rhythm. Pleasing melodies help the appeal too.

MARILYN SCOTT

DREAMS OF TOMORROW/Atco SD 38-109

Jazz singers and those who work in that tradition, like Marilyn, tend to bend lyrics around melodies in unnatural ways. That is a vocal trick which, if misused, does damage, as in "Let's Be Friends." Otherwise, it is the presentation which elevates the package's quality.

SUN RA

LANQUIDITY/Philly Jazz PJ 666

Of Sun Ra's spacial excursions, Lanquidity is very much down to earth. Nice tunes fill the album, highlighted by a few marvelous ones called "That's How I Feel" and "Twin Stars Of Trance." Unfortunately few people take Sun Ra seriously. Write: Box 8167, Phila., Pa. 19101.

CHIP TAYLOR

SAINT SEBASTIAN/Capitol ST-11909

We associate country with the South. Well, in truth, there is rural life everywhere. Still, it is surprising to note that such a pure country singer/songwriter like Chip Taylor is from the State of New York. Warm and mellow music.

TKO

LET IT ROLL/Infinity INF-9005

Like Marciano they just keep coming. Not much finesse, but they come from both the right and left side with power. If you were to design the most efficient rock sound, TKO might well be the design. Consistency.

MAL WALDRON

MOODS/Inner City IC 3018-2

Starting with a strikingly beautiful cover helps to set the mood. It is a somber mood which pervades this two edged, two record set. Both the sextet and the solo piano records tend to be down and introspective. Quite nice.

LARRY JON WILSON

SOJOURNER/Monument MG-7631

Bad times are etched in his face and find their way into his dark baritone. When he gets a hold of a special song he really steps on it, in that unique Larry Jon way.

FRANK ZAPPA

SLEEP DIRT/DiscReet DSK 2292

Always an original, Zappa leans into his own brand of fusion instrumentals. The tunes tend to be on the down side, but they are cut of a different cloth. At times, they stretch into the avant garde, i.e. "Time Is Money" and "The Ocean Is The Ultimate Solution."

DARTANYAN

INFLUENCES/Sularue

The major problem with Dartanyan is that their influences have not fully developed into a singular style of their own. Instead, the group is so diverse that it makes no statement. A little self-indulgence handcuffs these jazzy players. Freedom as bondage. Write: 2723 Columbia Street, Des Moines, Iowa 50313.

JAMES DURST

SONGSMITH/Phoenixsongs PX 01

Everything is fair. Melodies, lyrics and performances are all fair. Songsmith is, in one way, an overstatement given the quality of these tunes. Yet, to the extent that the word songsmith implies construction and work, the word is accurate. Instead of sounding natural, James' folk songs tend to be self-conscious.

DAN LAMBERT

FANCY GUITAR/Houndstooth HT 914

Dan is compared to Leo Kottke. He often plays in a similar bottleneck style but not as powerfully. Vocally, he resembles a cross between Wainwright and Bromberg, but he does not have their control. Finally, he does not possess any sense of humor which distinguishes his predecessors. Write: 615 Baltimore, El Paso, Tex. 79902.

LEGS DIAMOND

FIRE POWER/Cream CR-1010

Walter P. Marriner Jr. deserves the credit for whipping these guys into shape. Their performance pumps up barely passable songs. It is precise and powerful. Better songs and the same hard work would do it.

EVIE SANDS

SUSPENDED ANIMATION/RCA AFL 1-2943

Decent in most areas of concern yet Evie's album is lacking something in the undefineables. Many times the tunes seem energy drained. Either the performances or the mix rob the album of the extra snap every record tries for.

FRINGE ALBUMS

Competent Lps Of Secondary Interest

ARTHUR ADAMS

I LOVE.../A&M SP 4752

He may not have made much impact as an artist, but Arthur Adams has long been a fine R&B musician. Again, he proves it with a fine pop album. Some things apply.

BROOKLYN DREAMS

SLEEPLESS NIGHTS/Casablanca NBLP 7135

With this pop production texture, Brooklyn Dreams moves into their natural habitat. They reach back to a favored pop-R&B period for inspiration. Motown forever.

KENNY BURRELL

HANDCRAFTED/Muse MR 5144

Quiet and classy, Kenny Burrell's guitarwork is a beacon of subtlety in a sea of shiney sham. Articulate and melodious music is the rule.

JAKI BYARD

FAMILY MAN/Muse MR 5173

The best of both worlds are combined in the work of Jaki Byard. He is an educated musician who can feel. Therein, he bridges the schism which has always existed in music between those educated and those instinctual players. "Family Suite" is a sensitive, controlled statement. Skillful. A meritorious side 2.

CHARLIE EARLAND

MAMA ROOTS/Muse MR 5156

At times in the past Earland has shown vision. Here he grooves through a light session. His stuff is bluesy and funky and easy.

RON ESCHETE

TO LET YOU KNOW I CARE/Muse MR 5186

A latter day Pat Martino, Ron picks a mellow sounding jazz guitar with notable dexterity. Whether he has something new or powerful to say in his music is the hard question to answer. O.K.

JOE GOLDMARK

VERTIGO/Lo-Ball #2

Goldmark's steel playing can blaze, swing or croon with equal facility. His instrumentals move between country and rock feeling comfortable either way. Write: 5965-B Ocean View Dr., Oakland, Ca. 94618

SONNY PHILLIPS

I CONCENTRATE ON YOU/Muse MR 5157

Making himself a lounge act by virtue of his choice of material, Sonny places himself on the fringes. However, we shouldn't miss a swinging original like "Hard Times" because of it. Light.

SASKIA & SERGE

I BELIEVE IN LOVE/Hickory HB-44016

Lightly dusted country is the pleasing format used by the non-country looking Saskia & Serge. A major aspect of their quality is their collection of singable songs. A name change would help.

DUSTY SPRINGFIELD

LIVING WITHOUT YOUR LOVE/United Artists UA LA 936H

Her uniquely smokey voice laying over a Smokey tune like "You've Really Got A Hold On Me" is quite a grabber. Still, the thrust of the Lp pops out in a production sense.

JOE TURNER

EFFERVESCENT/Classic Jazz 138

Effervescent is the perfect word to describe Joe Turner's stride piano style. Completely fluid, you hear a master playing the style which has been a staple of background, nightclub music for years.

NARADA MICHAEL WALDEN

AWAKENING/Atlantic SD 19222

Awakening is more like a metamorphosis. An inspired fusionist converts to an orchestrated disco-nast. If you want a glimpse of the former Walden just taste "Awakening Suite Part 1." It features Santana and it soars.

ROBERT WATSON

ALL BECAUSE OF YOU/Roulette SR-5010

Here is a case where a real talent is squandered by the afternoon session syndrome. Watson's raw-edged tone and unrelenting intensity, best exemplified in "Pamela," needs a group context to develop. This jam only implies the possibilities. It's like a demo, in that sense, not a finished record. This guy is too good to lose to antiquated recording ideas.

SPECIAL PROGRAMMING

Spoken word, poetry, comedy and extraneous musics

BARRY ALTSCHUL

ANOTHER TUNE-ANOTHER PLACE/Muse MR 5176

Altschul's music stretches the imagination. It is out in the metronomic wilderness, at the frontiers of time. Group abstraction is an adventure for both participants and audiences.

BLACK ARTHUR BLYTHE

Toward experimental, Black Arthur's saxophone is accompanied, in its meanderings, by a tuba and a conga drum. Mildly abstract, it does not get zany. Controlled.

ANTHONY BRAXTON

Arista A3L 8900

Music for four, count 'em four, orchestras. To properly appreciate the event one needs a quadrophonic rig. The audience is supposed to be in the middle with the musicians in four corners. Braxton's orchestral writing is no less challenging than his obscure solo, duo, trio and combo writing. Abstract throughout.

THE LONDON SYMPHONY ORCHESTRA

CLASSIC ROCK/RSO RS 1-3043

These orchestral versions of classic rock tunes, like "Whiter Shade Of Pale," have some value in the production studio. Beyond that, they are instructive in that they demonstrate that a good tune should hold up in almost any musical context.

TOMITA

THE BERMUDA TRIANGLE/RCA ARL 1-2885

Obviously, the Tomita formula has topped out. He really has nothing new to say. Still, his electronic jesticulations are O.K. because they are built on fine classical music. The Bermuda Triangle could fill a need.

RADIO CITY

BY DEAN SCIARRA

WORKING WITHOUT A NET...

The following is a sampling of reactions from a number of people whose employment recently came to an abrupt end. These are random catches of thought, emotion, frustration...

Larry Miller has been in radio for 22 years. He is now 38. Reflecting back on the past 12 years in FM, he has this to say...

"Any young people who are entering this field should definitely train on the side in bartending or real estate — have some alternative career to fall back on. That's my basic advice, or else they should just go to law school in the first place. About the only way you can have job security in this business is if your father owns the station. Even that, I wouldn't depend on. Obviously, I'm a little cynical about the whole thing.

The PD decided that he wanted one of his old buddies to come to work for him. Since I was low man on the totem pole, I got offed. Half the people that work there have 'just cause' clauses in their contracts. I didn't. Just as a matter of lack of seniority I was considered to be expendable. Even though I'd been doing a good job, everyone was happy with the work I was doing, but in order to make a hole I was the guy who got the ax."

Gary Brown worked in concert promotion in southern Florida for 6 years. His feelings are...

"It is the most insecure business in the whole world. I left with a pat on the back and a boot in the ass at the same time.

"In 3½ years I went from being a week-end-late-night guy to the point where I ran the station in an interim period until the new PD got there, after which I became MD. Through all of this I picked up \$150.00 in pay raises. Then, when the new cats came in, they said I wasn't worth that much money to them. They replaced me with a \$125.00-a-week guy."

"There's absolutely nothing you can do to secure your position. You can't even do a good job to secure it. I was good enough to work my way up from the bottom to PD and still I got booted."

"From my experience all I can say is that rock 'n' roll radio has gone into the corporate boardroom. It is no longer an alternative, counter-culture type of radio. There's a saying that's getting older every day — 'Progressive radio is dead.' Well, it didn't die a natural death. It was killed by people in the trade, wanting more and more money."

"Core audience is gone. By trying to reach all the fringes, they've shot the core."

Michael Fox is 33 and has been working the west coast stations for the last 10 years...

"I was getting frustrated and I gave up on free-form for a while. I thought, hell, after ten years it's just not happening. I worked the consultant thing for two months and told them to go shove it. I think I'll go back to the insecurity before that. I felt like a fuckin' whore. So I came back to Seattle, doin' music. We really started to make waves in the market. It was lookin' real good. Then came management problems, along with a personal problem of one of the staff. I started buttin' heads and finally told them to fuck themselves. For what I was making and the hours I was working, it just wasn't worth it."

"So I backed off after ten years and decided to get out of radio for a while — semi-retirement. I'm going back into the record business, working for Licorice Pizza. I've worked a lot of retail outlets, managed some stores, worked in one-stops over the years, so it will be like getting back into the more secure aspect of the business. I wanna stay in the music business, but after 10 years, I'm just a little burnt out."

"I believe underground radio will resurge. The consultants can't rule the world forever."

Steve Johnson tells this story...

"In the 3 years the owner showed up once. That was a few weeks ago. The day after he arrived he said 'Who is this Johnson character?' He wanted me off the air immediately. In the middle of an ARB, out of the blue sky — I had no idea this was going to happen. In the 3 years I was there I had only received more and more responsibility as a reward for, what I thought was doing a good job"... "The only reason I got into this business was because of the music. I'm not too sure what I'll do next but it'll be in music."

Donna Halper (MD) and Tim Powell (PD) recently exited D.C.

Donna asks...

"Doesn't anybody want somebody who has a wide knowledge of radio and isn't afraid to play new records? The radio business is getting dirtier and dirtier. The money we were promised for promotion — never got it. We were promised new equipment — it was never delivered. We were off the air five times during the ARB. They never fixed it. The place was run like the Keystone Cops. They took a media trend survey — 70% of the listeners in the Washington D.C. area had no idea we were even on the air. We were the best kept secret in town. People would find us and they'd love us. Nobody found us — that was the problem. They wouldn't promote us. When we came we were told that there would be a massive promotional campaign; billboards, tee-shirts, concerts — let everybody know that this new station was going on the air. It never happened."

"Tim Powell and I didn't even have an office. We sat on boxes while the G.M. sat in a \$5,000.00 beautiful oak and teak office. Every promise that was made to us was broken. I realize this is not a unique story. This is an old familiar story."

"I'm 100% in favor of having some kind of format. I think there has to be some kind of control to guarantee that certain records are heard whether the D.J.'s personally like them or not. It's not fair to let everyone be at the mercy of the ego of the jock — because I have heard some really bad free-form radio. But a format doesn't have to be restrictive. We were playing about 5,000 albums."

"You can break new artists. We were told to take Little Feat out of the library because they were supposedly unimportant and that no one wanted to hear them. D.C. is the biggest area in the world for Little Feat."

"Management wants magic. They're totally impatient. They

want to see overnight ratings — success without investing time or energy or money. When it doesn't happen right away, they make scapegoats of the PD and MD. This is an old sad story that I've seen too many times. I have been fired before and I'll wager it will happen again."

Tim joins in...

"I was having problems picking up the station from my home, which is only 5 miles away from the transmitter. So, heaven only knows what was happening to people who were 20 miles away.

"Donna drove all the way around the Beltway one day and did a seat-of-the-pants monitor of the signal and found all these dead spots which they, of course, poo-pooed because what the management is looking for is instant gratification, instant gains, instant magic.

"There's no security. We work without nets. There was a great movie done in the 30's called 'Dawn Patrol,' which has a hell of a lot of relevance to radio. You go up in a very unstable craft every day and you're totally exposed, with no parachute, and that's it."

"I'm very tired of sales guys on one side and programming people on another side and the GM usually being with the sales guys and there's a tug of war. It's like the old Levi's ad. I don't like being the Levi's pulled apart by two horses. That's bullshit."

In the past month or so, 20 people (mostly management) were 'let go.' Former MD, Cynde Slater isn't as worried about her future as she is the future of the art.

"For most of the people who were in managerial positions we see it more as an end of the 10 or 11 year cycle of progressive radio.

Unfortunately, progressives are a small entity. I'm real sorry that certain people don't seem to want that kind of radio anymore. I don't really have sour grapes — I intend to continue somewhere. I'm a survivor"

"What really concerns me is, What will happen to artist development? What happens to the good quality artist who is not in the top ten? Instead of artists dictating the direction of radio, radio is affecting the direction of the artist. I see us heading into a musically stagnant era simply because no one will take a chance anymore. And that affects everything. What will happen to the record company's advertising dollar?"

"I hope that progressive radio people will be regarded as professionals because today's radio did come out of this era. Maybe some day we'll go back to progressive. Until then it'll be aggressive."

Anyone in management wishing equal time dial—(212) 677-4500. **GOO GOO GOO JOOB!**
