THE HISTORY OF RADIO ON CD-ROM

Radio Era Archives produced the *QST-VIEW* series of CD's for the American Radio Relay League (ARRL) and over 1/2 million CD's have been sold. *QST* Magazine has been continuously published since 1915. We are now proud to announce that this small mountain of CD's (about 35) is now available exclusively from REA (All Sets)! Every magazine published from 1915 to 1994, front cover to back cover, every article and column, all accessible with our database search engine.

QST-VIEW CD Edition truly captures the history of radio in 11 volumes. All CD's warranted to work on all Windows platforms from Windows 95 through XP. Each set is \$ 39.95 and we have all sets in stock. The sets are: 1915-1929, 1930-1939, 1940-1949, 1950-1959, 1960-1964, 1965-1969, 1970-1974, 1975-1979, 1980-1984, 1985-1989, 1990-1994. Each set of years is a self-contained set so you can operate one or all sets together. Now that large capacity hard drives are so inexpensive, the 36 CD's can be loaded on about 20Gb of hard disc space for instant searching and viewing without having to swap discs! Full information is provided with each purchase and *QST-VIEW* has on-line instructional help for operating the *QST-VIEW* browser!

EDITOR'S COMMENTS

Please don't do this to your radio! Looking at our cover, you might conclude that this is the message of the month. A.R.C. has always been in the business of encouraging preservation, and so we urge you to peruse all the pages in this "mostly ads" issue to find solutions to your problem radios. If you can't do it yourself, several repair people offer their services, just as the postcard on our cover from Michael's Repair Service did back in the 1930s.

On the other hand, if you love to solve your own repair problems, look for ads for parts, schematics, and instruction manuals, as well as for companies that furnish test equipment, etc. Look too at our book list which includes repair titles. Step back, take a deep breath, and save that radio!

We continue to take steps to save A.R.C. in this economy, which is especially difficult for print publications. We are expanding the subscriber-only portion of our website where subscribers will be able to read the entire magazine online. If this experiment proves successful, we will continue it. Also, on our homepage, there is a new search feature that allows everyone to search through the articles for informa-

OOPS!

Referring to the article, "Who Invented Television" in A.R.C.'s May 2008 issue, C. Macnab wrote: "A nice, interesting article; however, John Logie Baird was Scottish, not English." This error in the photo caption is entirely our fault! The fact that Baird did his television experimenting in England must have distracted your editor when writing the caption.

ON THE COVER

Our cover is from the postcard collection of Editor John Terrey. It was a 1930s advertising piece sent to prospective customers by Michael's Radio Service of 3005 Chatham Ave., Cleveand, Ohio, Phone: Woodbine 7325. The full text reads, "We know just how you feel. There's nothing so maddening as a Radio gone haywire, but instead of kicking the set around, save your temper and save your set by sending for our first-aid man right now. P.S. He's also an Economy Expert. Have us check your set today." The ad includes Michael's logo featuring Sylvania radio tubes. Perhaps an ad for an "Economy Expert" might have a lot of appeal today.
