★ HUGE 3-DAY AUCTION ★

Antique Phonographs, Radios, Music Boxes, Televisions, Juke Boxes, Etc.
To be held at 1025 S. Cochran Ave., Eaton County Fairgrounds, in Charlotte, Michigan on:
Auction - Thursday Nov. 17 @ 3:30 P.M. – Selling approximately 250 lots
Preview begins at 1:00 P.M. – Luncheon from 1:00 – 3:00 P.M.

Auction: Friday Nov. 18th & Saturday Nov. 19th @ 9:00 A.M. each day

A fantastic auction including large Estate collections, accumulations of rare, early and collectible machines of all types & lots more. We are in the beginning stages of assembling, photographing and cataloging items that will be sold, as well as still acquiring additional pieces from around the country and Canada. Call if you have questions or to be put on our list to receive our free catalog. Also go to our website at www.stantons-auctions.com for more information.

Rare early cylinder, disc and coin-operated phonographs, excellent and scarce music boxes including a Regina automatic changer, bell boxes, Reginaphones, etc., an excellent collection of antique radios including many rare Atwater Kent breadboards, Sparton Peach sleigh, Catalin, speakers, floor, the list goes on and on, a great collection of antique televisions including early mechanical, pre and post-war examples, table and floor and related items, many jukeboxes, a Cremona nickelodeon w/stained and leaded glass, and thousands of interesting and rare pieces from all fields. This is an excellent and diversified offering.

10% buyer's premium charged

THE HISTORY OF RADIO ON CD-ROM

Radio Era Archives produced the *QST-VIEW* series of CD's for the American Radio Relay League (ARRL) and over 1/2 million CD's have been sold. *QST* Magazine has been continuously published since 1915. We are now proud to announce that this small mountain of CD's (about 35) is now available exclusively from REA (All Sets) ! Every magazine published from 1915 to 1994, front cover to back cover, every article and column, all accessible with our database search engine.

QST-VIEW CD Edition truly captures the history of radio in 11 volumes. All CD's warranted to work on all Windows platforms from Windows 95 through XP. Each set is \$ 39.95 and we have all sets in stock. The sets are: 1915-1929, 1930-1939, 1940-1949, 1950-1959, 1960-1964, 1965-1969, 1970-1974, 1975-1979, 1980-1984, 1985-1989, 1990-1994. Each set of years is a self-contained set so you can operate one or all sets together. Now that large capacity hard drives are so inexpensive, the 36 CD's can be loaded on about 20Gb of hard disc space for instant searching and viewing without having to swap discs! Full information is provided with each purchase and *QST-VIEW* has on-line instructional help for operating the *QST-VIEW* browser!

EACH SET \$ 39.95 (specify the years)

ALL 11 SETS \$ 379

S&H USA for first set is \$ 5.00, add \$ 1.00 each set thereafter
S&H Export first set is \$ 15.00, add \$ 2.00 for each set thereafter

2009 1/2 PRICE SPECIAL (while supply lasts)

Don't forget, we have the entire John Rider's Perpetual Troubleshooters Manuals on a single DVD. All 23 Volumes of the Riders available at the click of a mouse! Over 120,000 different model radio schematics and related service information in an easy to use DVD. Thousands sold at \$ 199. **SPECIAL \$ 99 + \$ 6.00 S&H in the USA, add \$12 for worldwide delivery. Order Now while supply lasts !**

POSTMASTER: Send address changes to
Antique Radio Classified, PO Box 1558,
Port Washington, NY 11050.

Printed in U.S.A.

PURPOSE - Antique Radio Classified is published for people involved in the radio collecting hobby. Its purpose is to stimulate growth of the hobby through the buying, selling and trading of radios and related items, and to provide a monthly forum for the interchange of ideas and information.

Publisher/Editor: Jon Kummer, **Publisher/Editor Emeritus:** John Terrey, **Founding Publisher/Editor:** Gary B. Schneider, **Contributing Editor:** John Terrey, **Contributing Writers & Consultants:** Mike Adams, Richard L. Arnold, Richard Begbie, Ray Bintliff, Norman Braithwaite, Ray Chase, Dave Crocker, Alan Douglas, Richard Foster, Andrew Hayden, Jim Kreuzer, Phil MacArthur, Ron Ramirez, Gary Schneider, Daniel Schoo, Frank White.

CONTACTING ANTIQUE RADIO CLASSIFIED

All correspondence should be sent to:
A.R.C., PO Box 1558, Port Washington, NY 11050
Telephone: (866) 371-0512; Fax: (516) 883-1077
Email: ARC@antiqueradio.com

Web: www.antiqueradio.com

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However A.R.C. does solicit letters of interest from its readers and publishes them as space permits.

WEB. Antique Radio Classified issues are published on the web as PDF files for subscribers. Web-only subscriptions are available. One issue is available for viewing by all on the web as a sample.

ADVERTISING. Display and Classified advertising rates and artwork specifications are available on the web site.

PAYMENT. Please include full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid. Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA, MasterCard, American Express, Discover or PayPal. Make check out to "A.R.C." Subscriptions will be prorated to amount sent if amount is incorrect. *For your protection, no credit cards by e-mail; use our secure website instead.*

CHANGE OF ADDRESS. Please notify us in advance of a change of address. Send your new address, your old address, your SUB# and the effective date of the change.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, email, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). Mailing dates change each month.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

NOTICE. Subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

SUBSCRIBERS: All paid subscribers receive a FREE classified ad of up to 50 words in each issue.

ANTIQUE RADIO CLASSIFIED

Publisher's Comments

By the time you read this, the Antique Wireless Association 2011 World Convention will be completed.

We will have a special report on the Convention with photographs, contest winners, the seminars, and the cool items in the flea market. We will also catch up on the other meets we've attended this year but have yet to make a report.

A MISTAKE

Over the past few months I've been after everyone to join a club and become active antique radio and equipment people.

Well I decided to take a close look at the Club Listings that we publish every month and found out that about a third of them had errors. They hadn't been updated in a long time and I should have thoroughly checked the club contacts, etc. We have made many updates to both the Regional and Foreign clubs over the past month. The corrections were immediately made on the web site and most are in this issue of the magazine. Again, please look over the listings and let me know about any changes to your club or any new clubs that may have sprouted. There is still more work to be done and expect additional changes in the next issue.

NEW COLUMN

I had some nice feedback on our new column *At Home With The Collector*. Last month we looked at someone who mainly collects and another who has the most organized shop I've ever seen.

This month we took a different angle. I went to an undisclosed location and took photographs of a collector whose basement "cave" needed organization. As shown in the photographs, many nice radios and televisions can't be displayed because of piles of tube boxes, service literature, and assorted parts. While we are not going to turn this into a monthly "makeover" situation, we will

revisit the collector in a few months to see the progress he has made with before and after pictures. All of us, including myself, have been guilty of letting things get out of hand once in a while.

NEW AUTHOR

An *ARC* welcome to our new author John Vuolo. John has been involved in collecting for 40 years and gives us an indepth report on the 2A3 Output TriodeTube.

ANOTHER NEW COLUMN

Starting with the September 2011 issue, we will have a monthly column focusing on a single radio club. Whether you have 10 members or 300, it will be interesting to see how a club organizes itself with tasks such as how to organize a radio meet, hold an auction, attract new members, and inexpensive ways to promote your event.

Are there any volunteers for the first month? Let me know.

That's all for now. As always send us your ideas to make the magazine better and more interesting. The new column focusing on a single radio club came from a subscriber's telephone call!

You can contact me by phone, email, and mail.

Thank you.

TUBE TECHNOLOGY

A Look at the 2A3 Output Triode Tube

BY JOHN VUOLO

The 2A3 was one of the most popular tubes of the 1930s and was perhaps the most frequently used output triode of all time. Today it's used more exclusively in hi-fi products and is noted for offering exceptional linearity and sound quality. This medium-power, direct-heated triode was designed and introduced by RCA circa 1932 and was intended to be a double-power version of the popular 45 (1929). The 2A3 could produce up to 3.5 watts in single-ended mode, which was sufficient to power the new better-sounding, but relatively inefficient, moving coil speakers of that

time. For powerful applications, the 2A3 was often used in push-pull (sometimes paralleled) products like disk-cutting lathes, early jukeboxes, cinema amplifiers, and electric organs and pianos by Hammond, Wurlitzer, and the like.

TUBE EVOLUTION

The initial version of the 2A3 was a mono valve/plate construction with a modest 15-watt plate dissipation, but RCA introduced a more powerful bi-plate design in the later 1930s. Roughly speaking, the bi-plate 2A3 was two 45 triodes in a single

2A3 RCA

2A3 RCA National Union,
single plate 1930s

tube that sometimes shared a single plate and was supposedly easier to manufacture. However, the earlier mono-plate (single valve) version is regarded as having superior sound quality and is highly sought after today, having only been in production for a few years (the VT-95 is the US military version of the valve). RCA seems to have been the most prolific manufacturer of the 2A3, but other American companies, like Sylvania, General Electric, Raytheon, and Tung-Sol, manufactured the 2A3 as well. Early mono-plate valves were also manufactured under the old Cunningham (RCA) and Arcturus names. It was manufactured in Europe by Brimar in England and Fivre in Italy. The USSR made a close copy of the 2A3 dubbed the 2S4S/2C4C.

The 2A3 and its variations were quite commonly used in the early part of the Golden Age of hi-fi from the late 1940s. Bigger output triodes, like the 300B, were hardly used., Perhaps some of the earliest commercial OTL (Output Transformer Less) amplifiers used 2A3's to drive high-impedance 500-ohm speakers, but its descendent, the 6AS7, would prove more suitable for this task. Due to the increased power efficiency offered by output pentodes and beam tetrodes they largely disappeared for commercial use by the mid 1950s, when companies like Brook Electronics ceased production. It seems the last NOS (new-old-stock) production of the 2A3 occurred some time in the 1960s.

2A3 OFFSPRING

The 2A3 is also notable for spawning many variations. The 6A3 is a standard-sized, 6.3-volt cathode heater version of the 2A3 valve, which uses a 2.5-volt heater. The 6A3 is a dual-plate design that came out a few years after the 2A3 (circa 1934/5). Long out of production, Sovtek is now manufacturing it again.

Next came the 6B4G (1935/6), which is essentially a 6A3 using the then-newly

*2A3 Sylvania Philco,
single plate 1930s*

*2A3 Raytheon,
single plate 1930s*

2A3 RCA Westinghouse, manufactured in Canada

introduced octal 8 pin base. The 6B4G appears to have been a popular variant of the 2A3 used in amplification into the 1950s, but it is rarely used today, especially compared with the 2A3. The USSR made a copy of the 6A3, called the 4S4S, and a copy of the 6B4G, called the 6S4S/6C4C. Interestingly, Philips/Sylvania manufactured some modified 6AV5GA TV sweep pentodes that were triode connected internally to become plug-in 6B4G replacements for military use. More recently Sovtek made the 6B4G again, but has since stopped production.

On the heels of that design came the octal 6A5/6A5G (1936/7), which used an indirect heater. The 6B4G can be substituted with the 6A5 for low-noise applications. The 6A5 led to the 6AS7G, which came out in 1946, and the similar but smaller 6080. Both are lower-impedance double triodes that were primarily intended to be voltage regulators but have found popular use in OTL amps.

Perhaps the last in the 2A3 lineage is the smaller 12B4/12B4G 9-pin valve with a lower plate dissipation of approximately 6 watts.

NEW INTEREST IN AN OLD TUBE

In Japan interest in triodes like the 2A3 and Western Electric 300B increased in DIY circles from the late 1960s. However, in commercial terms, the story of the 2A3 resumes in the mid 1980s when Shuguang in China began production of the valve again (in bi-plate form). Around the same time, Audio Innovations brought out two high-end 2A3/6B4G amplifiers that gained positive reviews in the West. This in part helped lead to the reintroduction of triode amplification from the 1990s onward in the exclusive domain of hi-fi reproduction. The 300B triode has become more common since the 1990s thanks to the greater output power (2.5x) it offers. Nonetheless, the 2A3 has regained some of its old popularity today as a specialist low-power tube used principally in high-end amplification. A variety of good quality 2A3 valves are in continuous manufacture today by companies like Sovtek, JJ, and Shuguang. Some are modified designs, offering higher power mono-plates, mesh plates, etc.

RESTORATION REPORT

1934 Lyric Wurlitzer SA-120 Console 12-Tube Radio

BY RICHARD MAJESTIC

I purchased this handsome radio through eBay for \$342 on November 10, 2010. The console radio was manufactured and sold in 1934 under the Lyric brand name by Rudolf Wurlitzer and made by Mohawk Electric Corporation, Chicago, Illinois. The chassis is a SA-120 Wurlitzer; I am not sure if Lyric or Wurlitzer made the cabinet as there is not much information on the Lyric consoles.

INNER WORKINGS

The radio is MW AM only and built on a stamped aluminum chassis pan that's about 1" inches deep and has an aluminum bottom cover, providing good shielding to offer exceptional receiver performance and minimizing most out-of-band electrical noise. The radio uses a 58 pentode RF amplifier that is double tuned on the antenna side and single tuned on the plate. A 57 pentode is used as the mixer with a 56 triode local oscillator. The mixer feeds a single 58 pentode IF amplifier with a pair of 175 kHz Double-peak tuned IF transformers. A single 56 triode connected as a diode (plate and cathode connected together) is the second detector, feeding the AC-coupled volume control and the first DC-coupled 56 triode stages that drive a 57 sharp cutoff pentode that amplifies and mutes the audio. A pair of 56 triodes is in parallel and drives the interstage audio transformer; the secondary is split to drive the two push-pull grids of the 46 power tetrodes output tube. A single 80 rectifier provides the DC voltage to the radio with the speaker field acting as a filter choke in the B+ power supply.

ASSESSING AND RESTORING THE SA-120

This is a 12-tube radio (2-46, 1-80, 2-58, 5-56, and 2-57) set and uses a 10-inch electrodynamic speaker that needed reconing¹. Although the seller claimed the radio was restored and working, it required a lot of additional work as well. All the tubes tested good but two turned out to need the grid cap connection resoldered², and all the carbon resistors needed to be changed as did all the capacitors. The resistors were original 1933 "dogbone" carbon and way out of tolerance. The radio did have interstation muting that worked perfectly. I own a few other AM radios with muting that only works well on strong signals. Wurlitzer used two 46-power tetrodes that, with only 330-VDC, produce adequate power and sound level from the 10-inch speaker.

The previous owner had cleaned up the aluminum chassis with a Dremal buffer, but the cabinet

had extensive subterranean termite damage. The top was 50-percent eaten away, so it needed an extra board just to keep someone from putting a hand through the paper-thin top veneer; the base was 70-percent eaten away and the sides had tracks deep into the plywood. Fortunately the termites didn't do any damage to the front decorative veneers and solid wood trim pieces.

The main sections of the cabinet are light walnut, with maple burl wood appliques, and the quarter round that surrounds the front book matched walnut is zebra wood. I'd searched all over the Web for an image of this particular radio and could find only one, of a similar model in an advertisement. The knobs on the radio when I got it were one Majestic large tuning knob, two EH Scott All Wave 12 Deluxe small knobs, and an unknown small knob. In the ad I found on

ANTIQUE RADIO CLASSIFIED

Volume 28

August 2011

Number 8

1934 Lyric Wurlitzer
Story on page 7

**A.R.C. - The National Publication For Buyers & Sellers
Of Old Radios & Related Items**

www.antiqueradio.com

the Internet, it looked like the radio might have originally had four Philco hex-shaped large wood knobs, so I installed new Philco knobs from AES³.

A good section of the original grill cloth was still glued to the front grill edge and I was able to remove it (with a little water) and luckily found that AES had the identical cloth in stock. NMRC Club member Mark Toppo did all the cabinet work and refinishing for me using some new wood and a lot of Bondo to repair and fill surface holes. The top now has a new piece of walnut plywood and sections of the base needed new wood, too. As you can see from the accompanying photos, Mark did a great job of repairing the termite damage and staining and refinishing the cabinet. In stripping the cabinet, Mark found the white accent strips might be ivory.

The radio today is a good performer with reasonable sensitivity, good selectivity, low noise and good sound quality, although it's not a wide bandwidth radio. The cabinet is a beautiful art nouveau design with unique woods.

NOTES:

- ¹ The Lyric 10-inch electrodynamic speaker was reconed by Ed Lebens of Northern Loudspeakers, Minneapolis. Ed had had enough of Minneapolis winters and retired in January 2011 to Mexico.
- ² Jim Stueber reminded Mark Toppo who reminded me about the grief radio restorers can experience because of failed solder connections on tubes with grid caps. The thing to do is set your soldering iron temperature to 840°F, quickly heat grid cap solder and using a solder sucker suck all the solder out, then using new 60/40 rosin solder (the old stuff with lead can be purchased at Radio Shack) resolder the grid wire and grid cap. Be quick with the heat and the old glue will stay intact.
- ³ AES (Antique Electronic Supply) has the Philco knobs and the exact grill cloth. Visit www.tubesandmore.com.

Richard Majestic, 5640 Superstition Drive, Las Cruces, NM 88011; 575-521-0018 email: rmajestic@msn.com, Web: www.majesticradios.com

MEET & AUCTION REPORT

“Live! At KRE 2011” California Historical Radio Society (CHRS) Berkeley, CA, Saturday July 16, 2011

BY JON KUMMER, PUBLISHER

A GREAT TIME WAS HAD BY ALL!

That is the very least I can say about the “Live! At KRE 2011” event organized by the California Historical Radio Society (CHRS) and held on Saturday July 16, 2011.

Every year the CHRS holds this annual event from 9 a.m. to 3 p.m. at the club's Berkeley, CA, headquarters in the San Francisco area. It features a fantastic auction, live band, live “old-time” radio show, tour of the radio museum, electronic flea market, and a tribute to famous local radio personalities.

The CHRS headquarters is the old KRE building, part of which has been converted into a museum and part of which still actively used as a functioning AM and FM radio station. Not only are radios and TV's on display, but there is also a library and workshop where members can bring in equipment to have other members help them diagnose problems and repair them.

At this club “everyone helps everyone.” The club members volunteered their time for the event and were seen running around in their club tee shirts.

THE AUCTION

The auction was held throughout the day and brought in about \$12,000! The auction results show only the items that were sold. Some nice high-end items were included, like a Scott All Wave 15 that sold for \$1,200 and an Emerson AX-238 Ingraham “Jewel Box” that brought in an amazing \$900. There was everything from battery sets, AC sets, TVs, audio equipment, speakers, foreign radios, general coverage receivers, tubes, and much more. Way too much to list!

The auctioneer ran at a professional pace and everyone was ready to bid with their paddles raised.

Top: CHRS Headquarters – the old KRE building.

Middle: The Auction begins

Bottom: Items lined up for inspection before the auction

FLEA MARKET

The flea market was held on the side of the building and all items were pre-priced with a colored dot system. Many of these items were not auction-worthy but were donated to help raise funds for the club.

Had I driven instead of flying to the west coast, I surely would have filled up my car with both auction and flea market items.

STILL MORE FUN

Adding to the fun of this fun-filled day was a silent auction, raffle, tables of baked goods for sale, and a Radio Magazine give-a-way.

One of the main events was a tribute given by local radio personalities another local—radio legend Carter B. Smith.

The live musical performance was by Frankye Kelly & The Radio Daze Band performing jazz standards and swing favorites. Also, a live radio play by The Broadcast Legends, presenting The Lone Ranger – “Trouble at the Rafter H,” was performed live on stage!

JOIN YOUR LOCAL CLUB

As I keep saying – join your local radio club! This was a fun, family-friendly morning and afternoon where everyone had a great time, and all the club asked for was a small \$5 donation.

I don't know anywhere else you can have a day of fun like this for so little!

CHRS Contact Info: California Historical Radio Society www.californiahistoricalradio.com. 24 Hour hotline: 415-821-9800

From the top: Items for auction; Flea Market area; Jazz standards performed by Frankye Kelly & the Radio Daze Band entertain the crowd; Just a few of the radios on display in the Radio Museum

Items from the Radio Museum: Lone Star Beer Radio from the 1950s; Display of batteries; Garod model 542, circa 1945-7

AUCTION RESULTS

Scott All-wave 15, In Lido cabinet, chrome is excellent, in working order	1200
Emerson AX-238, Ingraham "Jewel Box" case, 1938, 5-tube.....	900
Emerson 520, Catalin case, 1946, 5-tube, restored by John Wentzel.....	300
Grundig Satellit 800 Millenium, AM/FM/VHF/Continuous SW, Dual Conversion, SSB	275
Truetone D-723, BC/SW, 1937, 7-tube, multi-colored dial to match pre-war broadcast network colors.....	240
Grebe MU-1 "Syncrophase," 1925, TRF, with chain, has tubes.....	240
Crosley 1014 Centurion, LW/BC/SW, 10-tube....	220
Scott Phantom, Has both the Receiver chassis and PS/Amp chassis.....	200
Tandberg Huldra 8-55, LW/MW/SW, 1965, mfd in Norway, includes pair or 112-7 speakers; tested in working order	180
Steinitz 990, TRF, 1927, Brass escutcheons, volt meter, has tubes.....	170
Philco 70 "Baby Grand" 1931, Cathedral radio, Superhet; 7-tube; prior owner says plays great.....	170

AT HOME WITH THE COLLECTOR

A Very Special Edition

Last month we started a new column called "At Home With The Collector."

Featured were two collectors – one person who collected televisions and another who mainly worked on radios. The TV collector had a well organized and nicely displayed collection and the other had a work shop that we all can envy.

This month I thought we would go in the opposite direction. This is the collection and work area of a person named Marshall who lives within 50 miles of New York City. He was against me taking the photos

and relented when I agreed to use only his first name and undisclosed his location.

Often when watching television I see a show where they help someone clean up a house or something along those lines. Sometimes they make it more dramatic and call it "A Very Special Edition...."

IS THERE ANYTHING WRONG IN THESE PHOTOS?

Well, yes and no.

While the rest of Marshall's house is organized, his radio/TV collection and work area are unorganized. In this case, he made too many purchases and many nice looking items cannot be displayed or when working on something he cannot easily find the needed parts to complete the project. He recently took in a radio to repair for a friend and it took him a day just to find it.

I was told stories of accidentally knocking over and breaking a radio cabinet and/or the dial glass of a valuable piece of audio equipment.

A couple of years ago he had the opportunity to purchase 5,000 tubes. As you can see, while they may have been somewhat organized by type, etc., some of the storage boxes have fallen over (and more items broken.)

There is an extensive collection of service literature and books that

are practically impossible to get close to.

He does sell items on eBay and at Meets – but not quickly enough.

HOW ARE WE GOING TO HELP HIM?

Over the next few months we are going to help Marshall organize and sell the items that he does not really want in his collection. He really doesn't need forty 5U4GB tubes, fifty 6AU6 tubes, numerous rolls of wire, mounds of hardware, etc. We will help him put his collection of Sam's back into their folders and numerical order.

If he had the space to display all the radios, televisions, and audio equipment it would be OK to keep everything. But there isn't enough space for all of it. By the way, about a year ago he sold about 20 turntables between eBay and various Meets!

BEFORE AND AFTER PHOTOS

In a couple of months we will revisit the collection and show before and after photos. All the pictures were taken in his basement.

We'll explain the reasons why he decided to keep or sell some radios and televisions as well as show the tubes and other items he decided to part with. His work bench will be organized and parts put in bins.

I think many of us have at one time or another fallen into this situation.

See you back in the basement in a few months!

DO YOU KNOW YOUR A.R.C. SUBSCRIBER BENEFITS?

Since becoming publisher I've asked many of our subscribers about the benefits that come with a subscription to *Antique Radio Classified*.

These have included both our print subscribers as well as our online edition subscribers. The only difference between the print and online subscribers is that the online subscribers pay a reduced subscription rate and don't receive the print magazine.

Many of the people I spoke with didn't know about our subscription benefits.

Let's take a look at them:

ABILITY TO LOOK AT THE MAGAZINE ONLINE

As a print or online subscriber you can look at the latest issue of the magazine online on our web site. This is the entire issue of the magazine and not an abbreviated edition. Subscribers can look at the last four issues of the magazine. Non-subscribers can look at earlier editions of the magazine at no cost.

One advantage of the online edition is that any photograph sent to us in color is posted in color!

ABILITY TO LOOK AT PAST AUCTION RESULTS

Almost every month we publish auction results in the magazine. Did you know that we have a database of the auction prices online on our web

site? Subscribers can look at the auction results and they are SEARCHABLE! If you want to see if a specific radio, piece of equipment, tube, magazine, etc. that has been sold, all you have to do is enter the item and see every time the item has been sold as well as the price, auction house, and date!

ABILITY TO LOOK AT ONLY THE CLASSIFIED ADS

Subscribers can also look only at the classified ads without downloading the entire magazine. This is very useful for readers who just want to read the classified ads. Readers with dial up Internet service will save a lot of downloading time.

FREE MONTHLY CLASSIFIED AD

Each month a paid subscriber is entitled to place a free classified ad in the magazine. The classified ad can be up to 50 words. Additional words are 10 cents each. Classified ads can be submitted by email, fax, or mail. Typewritten preferred to reduce possible errors. Name, address and telephone number count as 6 words. Full name and address are required in all classified ads.

Of course the most important benefit to the subscribers of *Antique Radio Classified* are the articles containing information that will help you in increasing your knowledge of our hobby.

HOW DO I ACCESS THESE BENEFITS?

Your print subscriber user ID and password are on your mailing label. Online subscribers are emailed their user ID and password. Your user ID is the number after "SUB#" on your mailing label. Your password is the digits in brackets [xxxx] after your "SUB#".

Go to A.R.C.'s home page www.antiqueradio.com and click on Subscriber Only Page.

On the Subscriber-Only Access page you can click on the Full Issue you would like to view or click on the Classified Ads section from that issue.

Or you can click on the Auction Prices Data Base. Just enter the item that you are researching.

★ HUGE 3-DAY AUCTION ★

Antique Phonographs, Radios, Music Boxes, Televisions, Juke Boxes, Etc.
To be held at 1025 S. Cochran Ave., Eaton County Fairgrounds, in Charlotte, Michigan on:
Auction - Thursday Nov. 17 @ 3:30 P.M. – Selling approximately 250 lots
Preview begins at 1:00 P.M. – Luncheon from 1:00 – 3:00 P.M.

Auction: Friday Nov. 18th & Saturday Nov. 19th @ 9:00 A.M. each day

A fantastic auction including large Estate collections, accumulations of rare, early and collectible machines of all types & lots more. We are in the beginning stages of assembling, photographing and cataloging items that will be sold, as well as still acquiring additional pieces from around the country and Canada. Call if you have questions or to be put on our list to receive our free catalog. Also go to our website at www.stantons-auctions.com for more information.

Rare early cylinder, disc and coin-operated phonographs, excellent and scarce music boxes including a Regina automatic changer, bell boxes, Reginaphones, etc., an excellent collection of antique radios including many rare Atwater Kent breadboards, Sparto Peach sleigh, Catalin, speakers, floor, the list goes on and on, a great collection of antique televisions including early mechanical, pre and post-war examples, table and floor and related items, many jukeboxes, a Cremona nickelodeon w/stained and leaded glass, and thousands of interesting and rare pieces from all fields. This is an excellent and diversified offering.

A.R.C. RATES & POLICIES

PAYMENT. Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA, MasterCard, American Express or Discover. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or our secure website. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by credit card via our secure website or send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax. For your protection, please no credit cards by e-mail, use our secure website only.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the last day of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. Originals must be the artwork size listed below. Send all artwork via e-mail or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add \$18.00 per photo for screening unless part of an existing electronic ad. Do not cut or trim photos or glue photos to artwork; submit separately.

If you are confused by these requirements and terms, please

contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/16-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

Page	ARTWORK SIZE (SEND IN THIS SIZE)		As Printed (size in magazine)		Cost for 1-month	Cost for 3-months	Cost for 6-months	Cost for 12-months	One Time up Ad

E-mail: arc@antiqueradio.com

Web: www.antiqueradio.com

A.R.C. RATES & POLICIES

CLASSIFIED ADS • DETAILS AND RATES

ONE FREE 50-WORD AD for subscribers in each issue; additional words are 10¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when an ad is submitted. Free ads are OK via e-mail but for your protection, please use our secure website for longer, paid ads.

Faxed & e-mailed ads: Please see additional information on opposite page.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive months up to your subscription expiration; 12-months, maximum) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, l and I (the number one, the capital i and the small l.) Also: 0, O, o, Q and D; v, r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets] in ads.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Classified ads must have a standard heading such as **WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE.** This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address are **required** in all classified ads; we will add it if you forget.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade or radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 50 words may not be used for club activity ads. A discount on display advertising is available for clubs.

Classified Ad Rates per Month

Deadline: NOON ET—10th of the month!

Subscribers (First Ad):

First 50 words: **FREE!**
10¢ per word for words over 50

Subscribers (Ads after first ad):

10¢ per word for all words

Non-Subscribers:

30¢ per word

Please do not forget to send in the extra 10¢ per word when your classified ad runs over the free 50 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

PHOTO & DRAWING DETAILS

**Deadline: 1st of the month
for all ads with drawings or photos!**

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

\$10.00 per month for each photo or drawing
(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The standard headings: **WANTED, FOR SALE, etc.**, count as one word each time used in an ad. Name, address and (one) telephone number, count as 6 words, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address are required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

E-mail: arc@antiqueradio.com

Web: www.antiqueradio.com

PHOTO REVIEW

This column presents in pictorial form many of the more unusual radios, speakers, tubes, advertising, and other old radio-related items from our readers' collections. The photos are meant to help increase awareness of what's available in the radio collecting hobby. Send in any size photos from your collection. Photos must be sharp in detail, contain a single item, and preferably have a light-colored background. A short, descriptive paragraph **MUST** be included with each photo. Please note that receipt of photos is not acknowledged, publishing is not guaranteed, and photos are not returned.

TV7/U Tube Tester – The famous military tube tester highly prized by tube collectors. This one was manufactured by Supreme, Greenwood, MS. – *Bob Harding – Orlando, FL*

Blaupunkt model Sultan 2623 – Nice German 1950s radio made for the U.S. market covering AM, FM, and the SW bands. *Bruce Sims – Watertown, NY*

PHOTO REVIEW

Ampex model 767 Reel To Reel Tape Recorder – This model weighs a ton and has 2 remote speakers stored in the rear that can be detached. *Adam LaCorte – Salinas, CA*

Raymer model 807-10 solid state receiver – made by Truetone in Hollywood, CA. Low power rarely seen model. *Elmer Burd, Pittsburgh, PA*

Westinghouse model RA DA battery set combination – The RA was the receiver tuner and the DA was the detector amplifier. Sometimes seen as the combined RC unit. *George Geiger – Sioux Falls, SD*

PHOTO REVIEW

DKE40 German Radio from the 1930s. Originally I thought this was a DKE38 but was identified as a DKE 40 by the people from www.radiomuseum.org *Heary Burgess - Buffalo, NY*

Royal Radio PolleRoyal battery radio from the mid 1920s. Uses five tubes. Nice graphics on the front panel. Also came in a console version. *John Addis, Oaks, MI*

PHOTO REVIEW

Roberts model R-200 portable radio - British made and mounted on a "lazy susan" to be turned for better reception. Included is the PP9 9-volt battery. *Andy Morris - Toronto, Ontario, Canada*

Lafayette model 236A stereo amplifier - Uses 4 EL84 output tubes. Note one of the output transformers is missing. *Robert Middleton, Nashville, TN*

American Bosch model 605C console radio - Manufactured in 1936, five tubes with a nice multi-colored dial. Nice mini console. *Barry Lodge - Wheeling, WV*

THE HISTORY OF RADIO ON CD-ROM

Radio Era Archives produced the QST-VIEW series of CD's for the American Radio Relay League (ARRL) and over 1/2 million CD's have been sold. QST Magazine has been continuously published since 1915. We are now proud to announce that this small mountain of CD's (about 35) is now available exclusively from REA (All Sets) ! Every magazine published from 1915 to 1994, front cover to back cover, every article and column, all accessible with our database search engine.

QST-VIEW CD Edition truly captures the history of radio in 11 volumes. All CD's warranted to work on all Windows platforms from Windows 95 through XP. Each set is \$ 39.95 and we have all sets in stock. The sets are: 1915-1929, 1930-1939, 1940-1949, 1950-1959, 1960-1964, 1965-1969, 1970-1974, 1975-1979, 1980-1984, 1985-1989, 1990-1994. Each set of years is a self-contained set so you can operate one or all sets together. Now that large capacity hard drives are so inexpensive, the 36 CD's can be loaded on about 20Gb of hard disc space for instant searching and viewing without having to swap discs! Full information is provided with each purchase and QST-VIEW has on-line instructional help for operating the QST-VIEW browser!

EACH SET \$ 39.95 (specify the years)

ALL 11 SETS \$ 379

S&H USA for first set is \$ 5.00, add \$ 1.00 each set thereafter
S&H Export first set is \$ 15.00, add \$ 2.00 for each set thereafter

2009 1/2 PRICE SPECIAL (while supply lasts)

Don't forget, we have the entire John Rider's Perpetual Troubleshooters Manuals on a single DVD. All 23 Volumes of the Riders available at the click of a mouse! Over 120,000 different model radio schematics and related service information in an easy to use DVD. Thousands sold at \$ 199. **SPECIAL \$ 99 + \$ 6.00 S&H in the USA, add \$12 for worldwide delivery. Order Now while supply lasts !**

OLD TECH
BOOKS
& THINGS

What am I doing after A.R.C.? I now have time to sort through the dozens (probably 100s) of boxes of duplicate items in my collection... books, catalogs, manuals, pamphlets, horn speakers, radios... and offer them via my long-dormant business: Old Tech - Books & Things. Old Tech handles more than just radio-related items... included are vintage television, wireless, skiing, computers, musical synthesizers, and more. For details on what's for sale, visit:

www.oldtech.com

or contact:

John Terrey

CRYSTAL CLEAR

By Maurice L. Sievers

Volume 1

750 Illustrations – 570 Crystal Sets
341 Detectors – 207 Crystals
Perfect for the beginning collector!
Useful for the experienced too!

Crystal Clear is the most comprehensive reference for collectors, historians and anyone interested in early radio. In addition to the many excellent photos and reproductions of ads, *Crystal Clear* includes lists showing all sets by manufacturer, set name, selling price and date of manufacture. 8 1/2" x 11", 282 pages.

\$29.95 – Softcover

Volume 2

Crystal Clear, Vol. 2 supplements the first volume. It identifies an additional 172 crystal radio sets, 91 crystal detectors and 26 crystals by manufacturer, model, year produced, description and original selling price. Further research on many of the crystal sets covered in Volume 1. Detailed history on the Philmore Manufacturing Company and the Western Manufacturing Company. 8 1/2" x 11", 252 pages.

\$29.95 – Softcover

Everything stocked and shipped promptly — Radio is our middle name.

A.R.C., PO Box 1558, Port Washington, NY 11050 – Toll Free: (866) 371-0512
Fax: (516) 883-1077 – E-mail: ARC@antiqueradio.com – Web: www.antiqueradio.com

U.S. orders \$3 for first book, \$1 per additional book (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Most orders shipped by next business day. Send payment with order. New York residents add sales tax. Non-U.S. orders, contact us for shipping costs. For your protection, if using a credit card, use our secure website. Do not send credit card information via e-mail.

POSTMASTER: Send address changes to
Antique Radio Classified, PO Box 1558,
Port Washington, NY 11050.

Printed in U.S.A.

PURPOSE - Antique Radio Classified is published for people involved in the radio collecting hobby. Its purpose is to stimulate growth of the hobby through the buying, selling and trading of radios and related items, and to provide a monthly forum for the interchange of ideas and information.

Publisher/Editor: Jon Kummer, **Publisher/Editor Emeritus:** John Terrey, **Founding Publisher/Editor:** Gary B. Schneider, **Contributing Editor:** John Terrey, **Contributing Writers & Consultants:** Mike Adams, Richard L. Arnold, Richard Begbie, Ray Bintliff, Norman Braithwaite, Ray Chase, Dave Crocker, Alan Douglas, Richard Foster, Andrew Hayden, Jim Kreuzer, Phil MacArthur, Ron Ramirez, Gary Schneider, Daniel Schoo, Frank White.

CONTACTING ANTIQUE RADIO CLASSIFIED

All correspondence should be sent to:
A.R.C., PO Box 1558, Port Washington, NY 11050
Telephone: (866) 371-0512; Fax: (516) 883-1077
Email: ARC@antiqueradio.com

Web: www.antiqueradio.com

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However A.R.C. does solicit letters of interest from its readers and publishes them as space permits.

WEB. Antique Radio Classified issues are published on the web as PDF files for subscribers. Web-only subscriptions are available. One issue is available for viewing by all on the web as a sample.

ADVERTISING. Display and Classified advertising rates and artwork specifications are available on the web site.

PAYMENT. Please include full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid. Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA, MasterCard, American Express, Discover or PayPal. Make check out to "A.R.C." Subscriptions will be prorated to amount sent if amount is incorrect. *For your protection, no credit cards by e-mail; use our secure website instead.*

CHANGE OF ADDRESS. Please notify us in advance of a change of address. Send your new address, your old address, your SUB# and the effective date of the change.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, email, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). Mailing dates change each month.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

NOTICE. Subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

SUBSCRIBERS: All paid subscribers receive a FREE classified ad of up to 50 words in each issue.

ANTIQUE RADIO CLASSIFIED

Publisher's Comments

By the time you read this, the Antique Wireless Association 2011 World Convention will be completed.

We will have a special report on the Convention with photographs, contest winners, the seminars, and the cool items in the flea market. We will also catch up on the other meets we've attended this year but have yet to make a report.

A MISTAKE

Over the past few months I've been after everyone to join a club and become active antique radio and equipment people.

Well I decided to take a close look at the Club Listings that we publish every month and found out that about a third of them had errors. They hadn't been updated in a long time and I should have thoroughly checked the club contacts, etc. We have made many updates to both the Regional and Foreign clubs over the past month. The corrections were immediately made on the web site and most are in this issue of the magazine. Again, please look over the listings and let me know about any changes to your club or any new clubs that may have sprouted. There is still more work to be done and expect additional changes in the next issue.

NEW COLUMN

I had some nice feedback on our new column *At Home With The Collector*. Last month we looked at someone who mainly collects and another who has the most organized shop I've ever seen.

This month we took a different angle. I went to an undisclosed location and took photographs of a collector whose basement "cave" needed organization. As shown in the photographs, many nice radios and televisions can't be displayed because of piles of tube boxes, service literature, and assorted parts. While we are not going to turn this into a monthly "makeover" situation, we will

revisit the collector in a few months to see the progress he has made with before and after pictures. All of us, including myself, have been guilty of letting things get out of hand once in a while.

NEW AUTHOR

An *ARC* welcome to our new author John Vuolo. John has been involved in collecting for 40 years and gives us an indepth report on the 2A3 Output TriodeTube.

ANOTHER NEW COLUMN

Starting with the September 2011 issue, we will have a monthly column focusing on a single radio club. Whether you have 10 members or 300, it will be interesting to see how a club organizes itself with tasks such as how to organize a radio meet, hold an auction, attract new members, and inexpensive ways to promote your event.

Are there any volunteers for the first month? Let me know.

That's all for now. As always send us your ideas to make the magazine better and more interesting. The new column focusing on a single radio club came from a subscriber's telephone call!

You can contact me by phone, email, and mail.

Thank you.
