THE HISTORY OF RADIO ON CD-ROM

Radio Era Archives produced the QST-VIEW series of CD's for the American Radio Relay League (ARRL) and over 1/2 million CD's have been sold. QST Magazine has been continuously published since 1915. We are now proud to announce that this small mountain of CD's (about 35) is now available exclusively from REA (All Sets)! Every magazine published from 1915 to 1994, front cover to back cover, every article and column, all accessible with our database search engine.

QST-VIEW CD Edition truly captures the history of radio in 11 volumes. All CD's warranted to work on all Windows platforms from Windows 95 through XP. Each set is \$ 39.95 and we have all sets in stock. The sets are: 1915-1929, 1930-1939, 1940-1949, 1950-1959, 1960-1964, 1965-1969, 1970-1974, 1975-1979, 1980-1984, 1985-1989, 1990-1994. Each set of years is a self-contained set so you can operate one or all sets together. Now that large capacity hard drives are so inexpensive, the 36 CD's can be loaded on about 20Gb of hard disc space for instant searching and viewing without having to swap discs! Full information is provided with each purchase and QST-VIEW has on-line instructional help for operating the QST-VIEW browser!

EACH SET \$ 39.95 (specify the years)

ALL 11 SETS \$ 379

S&H USA for first set is \$ 5.00, add \$ 1.00 each set thereafter

S&H Export first set is \$ 15.00, add \$ 2.00 for each set thereafter

2009 1/2 PRICE SPECIAL (while supply lasts)

Don't forget, we have the entire John Rider's Perpetual Troubleshooters Manuals on a single DVD. All 23 Volumes of the Riders available at the click of a mouse! Over 120,000 different model radio schematics and related service information in an easy to use DVD. Thousands sold at \$ 199. SPECIAL \$ 99 + \$ 6.00 S&H in the USA, add \$12 for worldwide delivery. Order Now while supply lasts !

POSTMASTER: Send address changes to
Antique Radio Classified, PO Box 1558,
Port Washington, NY 11050.

Printed in U.S.A.

PURPOSE - Antique Radio Classified is published for people involved in the radio collecting hobby. Its purpose is to stimulate growth of the hobby through the buying, selling and trading of radios and related items, and to provide a monthly forum for the interchange of ideas and information.

Publisher: Jon Kummer, **Editor/Art Director:** Edith Lennon, **Publisher/Editor Emeritus:** John Terrey, **Founding Publisher/Editor:** Gary B. Schneider, **Contributing Editor:** John Terrey, **Contributing Writers & Consultants:** Mike Adams, Ray Bintliff, Ray Chase, Dave Crocker, Alan Douglas, Richard Foster, Daniel Schoo, John Vuolo.

CONTACTING ANTIQUE RADIO CLASSIFIED

All correspondence should be sent to:
A.R.C., PO Box 1558, Port Washington, NY 11050
Telephone: (866) 371-0512; Fax: (516) 883-1077
Email: ARC@antiqueradio.com
Web: www.antiqueradio.com

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However A.R.C. does solicit letters of interest from its readers and publishes them as space permits.

ADVERTISING. Display and Classified advertising rates and artwork specifications are available on the web site.

CHANGE OF ADDRESS. Please notify us in advance of a change of address. Send your new address, your old address, your SUB# and the effective date of the change.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, email, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

NOTICE. Subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

ATTENTION SUBSCRIBERS: All paid subscribers receive a FREE classified ad of up to 50 words in each issue.

Publisher's Comments

This month *A.R.C.* focuses on the many antique radio meets that have been taking place around the country.

Daniel Schoo writes about Radiofest XXXI, which was held in early August in Willowbrook, Illinois. Each year the Antique Radio Club of Illinois sponsors Radiofest, and once again they had an excellent turnout. Not only was there a flea market, but there were also many presentations and a very successful auction with total sales of nearly \$25,000.

Also in August the Antique Wireless Association Convention was held in Henrietta, New York. It was well attended and had wonderful presentations. This issue we offer some photographs of the event, but next month we'll have a complete write-up of the activities.

The California Historical Radio Society has been in the news lately, too. They've been trying to save their club headquarters with various fundraisers. This month we have a report on their July "Radio Day by the Bay 2012" auction. Final auction prices are listed.

In addition to our look at radio meets around the country, we also have another installment of "At Home with the Collector." Bill is a collector in the Catskill Mountain region of New York. His collection, as you'll see here, includes many beautiful and rare consoles as well as battery sets and foreign sets.

Attention All Clubs

Please check the club listings in the back pages of *A.R.C.* to make sure all club contact information is correct. This includes the club name, address, contact person and website. We want *A.R.C.* to be as accurate as possible!

Also, the end of the year will be here before we know it, and we want to make sure we get your activity listings for 2013. Some clubs have already sent in their 2013 schedule. Get yours to us as soon as possible, so we can include you in the "Coming Events" section. And don't forget, you can also send us a write-up about it for coverage with an "A.R.C. Announces" page.

The A.R.C. Marketplace

Did you know that we offer approximately 60 different books on antique radios and phonographs?

A.R.C. sells books on antique radio repair, electronic theory, history of radio communications, tube manuals, schematics, mil-spec radio gear, price guides, speakers, telegraph equipment, radio identification guides, vintage and antique phonographs, shortwave and DX, and vintage audio equipment.

There's a book for every area of our hobby, but there's always more that we can include. If you've seen a book that you think the *A.R.C.* Marketplace should carry, please let us know. We want to help our readers learn as much as possible so they can fully enjoy their restoration, construction, and research of their favorite equipment.

The Marketplace also is where to go to renew your subscription, place classified ads, and to order back copies of the magazine. You'll find a link to it on our webpage, www.antiqueradio.com. Check it out.

New Printer

Starting with this issue we have a new printer. We hope this change will bring the magazine to you on a timelier basis. Thank you for standing by us!

Until next time, Happy Collecting.

Jon Kummer
Publisher

On The Cover

A happy tube collector in the flea market at the Antique Wireless Association Convention in Henrietta, New York. This month we have a brief write-up on the convention; next month we'll have a complete article on the event.

AUCTION REPORT

The California Historical Radio Society's Radio Day by the Bay 2012 Auction July 21, 2012

BY CHRS

The crowd enjoying the auction on a beautiful day.

We at California Historical Radio Society (CHRS) are delighted to report that Live! At KRE—"Radio Day by the Bay 2012" was tremendously successful thanks to all the hard work by our dedicated volunteers. And thanks to our generous attendees, this has been our best event ever.

By the Numbers

How good a day was it? Well, here are some of the preliminary figures:

- Almost 350 people in attendance
- 91 auction paddles sold
- 170 of 190 items sold
- \$3,195 in flea market sales

- \$15,945 in total auction sales
- Grand total for the day – \$26,062!(That's \$9,000 more than last year!)
- CHRS nets \$10,140!
- Attendees net a great day of radio fun and bargains!

Check out the following auction results list, which lays it all out. But most importantly, mark your calendars "Radio Day by the Bay 2013," July 20th, 2013...at KRE! Visit our website at www.californiahistoricalradio.com to learn more.

MEET REPORT

Antique Radio Club of Illinois Radiofest XXXI

Willowbrook, Illinois
August 2-4, 2012

BY DANIEL SCHOO

The Antique Radio Club of Illinois Radiofest was held at the Willowbrook Holiday Inn Conference Center on Kingery Highway in the southwest Chicago suburb of Willowbrook. This is the 31st annual Radiofest and the sixth year at this location. The Holiday Inn facilities and excellent support staff once again combined to enable us to deliver a quality event.

My wife Donna and I could not make it to the Thursday evening auction but my informants told me that there were 144 registered bidders. Of 194 lots, 143 of those sold

with total sales of \$25,300. Once again Ron Steinberg's Rent Com supplied a video camera/projection system to assist in the auction showing and for video recording of the event. The auction started about 6:30 p.m. and continued until close at 10:30, with the usual free pizza party for club members afterward. The three top selling bids were \$2,100 for a Sparto blue mirrored sled radio, \$1,800 for a McIntosh model 240 stereo power amplifier and \$1,050 for a Wireless Specialty Apparatus Triode-B amplifier.

Ray Ziegler (left) with a 1939 Zenith 7S323 and Sue Ziegler (right) with Crosley and Motorola radios.

Airline radio made by Tri-City and an Atwater Kent table lamp.

Fest Day Dawns

Early Friday morning we headed for Willowbrook, which is about an hour's drive from home. We arrived about 6:40 and things were busy. The official opening is 7 a.m., but a lot of sales had already been made. The day was sunny and already getting hot, eventually reaching the low 90s. We started making the rounds, taking pictures, and talking to our usual collector friends. The number of sellers in the Swap Meet area was down from previous years. Some of the old-timers that we always see didn't make it this year. Although the unusual heat and the economy did take its toll, we achieved a 75-percent occupancy rate in the sales area and provided a top-flight experience for those attending.

We saw several interesting pieces in the swap meet. There was another Leutz model C superhet for sale, and we saw a rare matched pair of DuKane Ionovac speakers in fully restored condition with new matched plasma cells. Unfortunately, we didn't see as many catalins this year. Also, I learned that many of the very special items sold early.

The KC9IPB vintage special event ham station began operation at 8 a.m. Jim Novak, W9FIH, Barry Nelson, K9YVT, Chris

Farley, KC9IEQ, Dale Svetanoff, WA9ENA, and Harry Blesy, N9CQX took turns at the controls. The station equipment was provided by Jim, W9FIH and Chris, KC9IEQ. An impressive 61 contacts were made this year. The scene was reminiscent of ARRL Field Days, in the 1950s, '60s, and '70s.

Lots to Do

Radiofest Program Coordinator, Greg Hnolt, set up an impressive series of informational presentations in the main ballroom. The first one started at 10 a.m. and covered the theme of vacuum tube audio. John Stone, Pete Nauseda, Terry Shaver, and Karl Johnson discussed tube audio issues and tips. John gave a technical lecture on measuring the output power of a tube audio amplifier using common test equipment and the importance of speaker impedance matching. He discussed why even though a tube tests "good" on a tube tester, or even if it's described as "strong" on an online auction, it may not deliver rated power due to the hours of service it has seen. Pete talked about early FM stereo multiplex decoders and the differences between them. Terry gave a humorous talk about the legendary baseball player Yogi Berra and his memorable quotes

as they apply to tube hi-fi. Karl gave an informative update on his recent write-up on tube amplifier improvements that you can do.

The second talk, at 11 a.m., showcased the Pavek Museum of Broadcasting in St. Louis Park, Minnesota. Curator Steve Raymer gave a presentation on the biography of Joseph R. Pavek, his early collecting, and how his collection evolved into the Pavek Museum. The museum houses the collection of Charles Bradley and also Jack Mullin's collection of equipment spanning 125 years of audio recording technology. Hands-on displays include a 1929 RCA Theremin that visitors can play, a 1960's radio broadcasting studio, and a state-of-the-art amateur radio station. For more information on the Pavek Museum of Broadcasting, visit its website at pavekmuseum.org.

At noon Donna and I attended the Ladies Luncheon, hosted by Janet LaVelle. We started with a tossed salad from the salad bar and the main meal was regular or vegetarian lasagna with garlic bread. Door prizes were distributed to all. The other alternatives were lunch in the restaurant dining room, or for those who couldn't bear to be away from the action, a table the hotel had set up near the hospitality

Merri-Lai "Man from Mars" Radio Hat, 1949.

The Marconi/Titanic display area.

Leutz model C superhet, 1924 with various speakers.

tent where they served beef or grilled chicken sandwiches, brats, and other hand-held food. We decided to cool off inside with Janet.

After lunch at 12:30, Bill Ross, W9WR, hosted the "Ham Radio Forum," with guests Jim, W9FIH, and Harry, N9CQX. Bill presented a video about the legendary WLW 500 kW commercial broadcast transmitter. Jim gave a talk about Clegg and some of their products. Their presence, microphone-in-hand, was reminiscent of the amateur radio conversations heard on the 75-meter phone band back in the 1950s.

At 1:30 Kent King's excellent presentation, "The E. H. Scott Company: History and Products," drew related restorers and collectors. Scott Company radios are renowned for their outstanding performance and stunning appearance, with chrome-plated chassis and classic layout. Detailed product descriptions were augmented with historical and tabular data tracing their radio production.

Radio set used by Albert Snow to listen to Titanic.

The final presentation of the day, at 2:30 p.m., featured Mike Adams, author of *Lee de Forest—King of Radio, Television and Film*, discussing de Forest's pioneering work in recording sound on motion picture film. Best known for his invention of the triode tube and various failed radio enterprises, de Forest was an active inventor all his life and developed a practical method of making sound movies. A book signing followed his presentation.

Gear Galore

The Old Equipment contest check-in opened at 10 a.m. and closed at noon for judging. This year the categories were: Radios Pre-1930, Radios Pre-WWII (1945), Radios Post WWII (1946 and up), Art Deco Radios, Catalin and Rare Plastic Radios, Speakers, Transistor and Novelty Radios, Vacuum Tube Audio, Radios Made in the Midwest, Ham/Military Radio, and Open Category.

Loads of radios in Robert Regez booth

Bruce Sorensen's contest-winning Walt Buffinton custom-built E.H. Scott miniature museum.

There were 30 entries this year. That's not as many as I have seen in past years, but there were several outstanding displays. The Muchow – Best of Show winner was a Leutz model C battery-operated superhet, powered up and playing on vintage battery eliminators, which was entered by Michael Feldt. The People's Choice and Best Historical Display awards both went to the Walt Buffinton custom-built E. H. Scott miniature radio museum, entered by Bruce Sorensen. The display included the years 1925 to 1940. By my count it showcased 34 consoles, chassis, and table-top radios, each meticulously reproduced in miniature. The Chairman's Award went to Bill Ross for an exceptional display of antique tube boxes.

The special theme display this year was a Marconi/Titanic commemoration of the 100th anniversary of the sinking of the Titanic. David Bart coordinated an incredible collection of equipment, memorabilia, and paper about Marconi, shipboard radio, and the *Titanic*. I was impressed at the number of high-quality rare items that were brought in by our members.

The Saturday morning donation auction had the best gross ever, with \$1,391 taken in. There were a few especially interesting pieces that I noted. For instance, there was a repwood/papier-mâché 1920's horn speaker with wood base and a near perfect 1950's Airline radio/phono console with owner's manual. I also saw a pair of working 1970's Altec transistorized PA mixer/amps and a couple of 1970's Sony U-Matic video recorders with several

boxes of tapes. There was an additional donation of school electronics lab equipment similar to the equipment that was donated to the club last December. Several 40-MHz solid-state oscilloscopes, old meters, and other equipment went for sale. The donation auction is a double benefit for the club members. They get to pick up some great treasures at reasonable prices, and the club uses the proceeds to offset the cost of Radiofest, which helps to hold registration fees down. The donation lot sells the donations flea-market-style on Friday and auctions the rest on Saturday morning.

Another Year, Another Good Day

We couldn't stay for the banquet at 6 p.m. on Friday because of other commitments, but as always it was a memorable day for us. Although all events like this seem to be suffering because of the weak economy and high gas prices, the Radiofest team still continues to deliver an excellent experience. Most sellers I talked to told me that they had a good day, and I met and spoke with a lot of happy buyers, too.

Daniel Schoo is a professional electronics design engineer at Fermilab in Batavia, Illinois. His interest in electronics started as a child growing up in the 1950s and 60s when he began fixing up radios and TV sets he found in the trash.

AT HOME WITH THE COLLECTOR

A Visit with Bill in New York State's Catskill Region

BY JON KUMMER

Bill Liers is dwarfed by the radio collection he started in earnest only in 2005.

When A.R.C. was invited to the monthly meeting of the Hudson Valley Antique Radio and Phonograph Society, I was delighted to attend. About a dozen members gathered for this event, held in a room of a local church. The members discussed what has been going on over the last month, participated in a "show and tell," and auctioned off some items.

At the meeting I had a chance to meet up with A.R.C. author Bill Liers ("Murphy's Station Master," December 2011) and chat about his extensive radio collection. Bill told me that the radios he looks for must be amazing and have great design.

He started his radio collecting at the age of five when he first became interested in radios and how they worked. At age 16 he inherited his grandmother's Philco 41-380 console, which he considers the set he "cut his teeth on"—and, yes, he still has it.

Like many of us, Bill has wandered in and out of the hobby over the years. In 2005, due to a heart condition, he spent a number of months confined to his home, which gave him lots of time to conduct Web research into radios. At that time he owned only a few radios, but his searches soon led him to a local collector named Art Kingsley. After Art invited him to the local club meeting, Bill was hooked!

What's in Bill's Collection?

Bill, who works as a satellite communications engineer, likes unusual radios, and you'll find some of the finest E.H. Scott consoles, Zenith shutter dial models, and foreign sets taking pride of place. He told me, "I consider the mid-1930s to be the Golden Age of radio design. They were amazing sets, with short-wave bands, tuning eyes, decorative cabinets, and the beginning of high-fidelity, all rolled into one."

"Scott was the Rolls Royce of radio design," he continued. "They may not be the fastest, but they are the finest in quality."

Bill's collection boasts the Scott Philharmonic in the Gothic Grande cabinet with the Philharmonic FM (1940) as well as the Philharmonic AM in the Revinia cabinet (1937). Other consoles include the McMurdo Masterpiece Six (1938) and a 1939 Philco Radiobar with the glassware. He also has battery sets such as a Federal 61 with original antenna and a rare Silvertone Neutrodyne with speaker top option. Bill's foreign radios include a Radiomarelli model 9A26 from Italy and numerous German radios.

The 1939 Philco Radiobar. Contains most of the glassware. This is the double-bulb version with the round dial.

E.H. Scott Philharmonic AM Console. Manufactured in 1937 in the Revinia cabinet. Shown with replacement turntable.

A 1940 E.H. Scott Philharmonic FM. Housed in the rare Gothic Grande cabinet.

A Federal 61 battery set.

A 1933 Croydon cathedral.

The business end of the Croydon cathedral.

A 1925 Silvertone Neutrodyne with optional speaker top.

A partial view of Bill's repair bench.

On Bill's Repair Bench

Bill says that for him the most satisfying finds are the basket cases. He does all his own repair work, including chassis replating and veneer replacement, as well as the usual parts replacement.

One of his favorite stories concerns a Croydon cathedral. It all started with the tomato crop he enjoys raising. One day he picked a basket for his neighbor. The grateful tomato recipient said, "I have something for you in the garage. It's a radio that belonged to my father. Naturally, Bill expected a 1950s clock radio or something similar, not really a collectable. Bill even told the neighbor not to be insulted if he couldn't really use it. But the generous soul gave Bill a box with that contained the remains of the Croydon. The cabinet was in pieces with no finish and a very rusty chassis, but it did have the knobs and grille cloth. Bill refinished the Croydon and sandblasted and replated the chassis. Today it's one of his favorites.

Bill doesn't sell his radios, but he invites everyone to check out his website (<http://billsradioden.shutterfly.com>) to see some of his collection. You can also contact him by email, at blers@gmail.com, to ask questions.

McMurdo Silver Masterpiece Six console with chrome chassis.

A.R.C. SNAPSHOTS

The 51st Antique Wireless Association World Convention

**Rochester, New York
August 21-25, 2012**

BY STAFF

The Antique Wireless Association (AWA) held its annual convention on August 21- 25, 2012, at the Rochester Institute of Technology Inn and Conference Center in Henrietta, New York, and once again, it was a blast! The convention is an annual highlight for radio collectors is always well attended. Offering many activities relating to the history of radio communications and restoration of collectibles, this year's convention had a dual theme: "The World of Collins and the 100th Anniversary of the *Titanic* Disaster. In addition, those who turned out got to enjoy:

- Flea Market
- Book Fair
- Member' Banquet
- AWA Members Forum
- Equipment Auction
- Old equipment contest

Here are some photographs to whet your appetite for the detailed coverage of the event coming up right here in the pages of *A.R.C.*

For more information, contact the Antique Wireless Association, PO Box 421, Bloomfield, NY 14469, ww.antiquewireless.org.

OLD TECH BOOKS & THINGS

A 2,000 sq. ft. museum is not enough space for my 1000+ set collection. And, hundreds of boxes await either space in the museum or sale. Some things must go! Choices must be made. As the late Dr. Muchow said, "As collectors, we truly are temporary caretakers of these historical artifacts."

Items for sale are either duplicates or the result of fine-tuning the scope of my collection.

For details on these items and much more, visit:

www.oldtech.com

PRACTICAL RADIO REPAIR

Volume II

A Handbook for Radio
Collectors

By Ray Binliff, W9VW

From the A.R.C. Bookstore...

Practical Radio Repair – Volume II

by Ray Binliff

\$22.95 - 126 pages, 315 illustrations, soft cover

Volume I of *Practical Radio Repair* by Ray Binliff is one of the hottest selling titles in the A.R.C. Bookstore.

Volume II complements the original volume and provides additional information regarding special tools, test adapters, supplies, chemicals, and shop set-up. An excellent book for both the experienced restorer as well as the novice learning repair.

A.R.C., PO Box 1558, Port Washington, NY 11050

Toll Free: (866) 371-0512 • Fax: (516) 883-1077

E-mail: ARC@antiqueradio.com

Web: www.antiqueradio.com

Order today. We gladly accept:

\$3.00 shipping & handling on all U.S. orders (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Non-U.S. orders, write for shipping costs, or use credit card. Most orders shipped by next business day. If using credit card, include name on card, card number and expiration date. Send payment with order. New York residents must add sales tax.

Everything stocked & shipped promptly. Radio is our middle name.

CRYSTAL CLEAR

By Maurice L. Sievers

Volume 1

750 Illustrations – 570 Crystal Sets
341 Detectors – 207 Crystals
Perfect for the beginning collector!
Useful for the experienced too!

Crystal Clear is the most comprehensive reference for collectors, historians and anyone interested in early radio. In addition to the many excellent photos and reproductions of ads, *Crystal Clear* includes lists showing all sets by manufacturer, set name, selling price and date of manufacture. 8 1/2" x 11", 282 pages.

\$29.95 – Softcover

Volume 2

Crystal Clear, Vol. 2 supplements the first volume. It identifies an additional 172 crystal radio sets, 91 crystal detectors and 26 crystals by manufacturer, model, year produced, description and original selling price. Further research on many of the crystal sets covered in Volume 1. Detailed history on the Philmore Manufacturing Company and the Western Manufacturing Company. 8 1/2" x 11", 252 pages.

\$29.95 – Softcover

Everything stocked and shipped promptly — Radio is our middle name.

A.R.C., PO Box 1558, Port Washington, NY 11050 – Toll Free: (866) 371-0512
Fax: (516) 883-1077 – E-mail: ARC@antiqueradio.com – Web: www.antiqueradio.com

U.S. orders \$3 for first book, \$1 per additional book (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Most orders shipped by next business day. Send payment with order. New York residents add sales tax. Non-U.S. orders, contact us for shipping costs. For your protection, if using a credit card, use our secure website. Do not send credit card information via e-mail.

Order today. We gladly accept:

\$3.00 shipping & handling on all U.S. orders (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Non-U.S. orders, write for shipping costs, or use credit card. Most orders shipped by next business day. If using credit card, include name on card, card number and expiration date. Send payment with order. New York residents must add sales tax.

A.R.C. RATES & POLICIES

PAYMENT. Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA, MasterCard, American Express or Discover. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or our secure website. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by credit card via our secure website or send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax. For your protection, please no credit cards by e-mail, use our secure website only.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. *Antique Radio Classified* welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the last day of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see Payment paragraph above for details. Late ads will be run only if space and time permit. Originals must be the artwork size listed below. Send all artwork via e-mail or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add \$16.00 per photo for screening unless part of an existing electronic ad. Do not cut or trim photos or glue photos to artwork; submit separately.

If you are confused by these requirements and terms, please

Page	ARTWORK SIZE (SEND IN THIS SIZE)		As Printed (size in magazine)	
	H x W (inches)		H x W (inches)	
Full	7 3/4 x 4 3/4		7 3/4 x 4 3/4	
1/2 H	3 5/16 x 4 3/4		3 5/16 x 4 3/4	
1/2 V	7 3/4 x 2 1/4		7 3/4 x 2 1/4	
1/4	3 5/16 x 2 1/4		3 5/16 x 2 1/4	
1/8	1 5/8 x 2 1/4		1 5/8 x 2 1/4	
Business Card (1st)	2 x 3 3/4		1 1/4 x 2 3/8	
Business Card (2nd....)	2 x 3 3/4		1 1/4 x 2 3/8	

contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/16-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

Cost for 1-month	Cost for 3-months	Cost for 6-months	Cost for 12-months	One Time to make up Ad
\$289.00	\$769.00	\$1329.00*	\$2325.00**	\$69.00†

not avail.	53.00	90.00	159.00	7.00†
not avail.	68.00	118.00	205.00	7.00†

* Full & 1/2 page, 6-mos.: 1/2 due with order; 1/2 due in 3 mos. ** Full & 1/2 page, 12-mos.: 1/4 due with order; 1/4 due at 3, 6 & 9 mos.

† For 6 and 12 month ads, no ad make-up charge if no change is made to ad for entire run.

E-mail: arc@antiqueradio.com

Web: www.antiqueradio.com

CLASSIFIED ADS • DETAILS AND RATES

ONE FREE 50-WORD AD for subscribers in each issue; additional words are 10¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked) by Noon Eastern Time on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted. Free ads are OK via e-mail but for your protection, please use our secure website for longer, paid ads.

Faxed & e-mailed ads: Please see additional information on opposite page.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive months up to your subscription expiration; 12-months, maximum) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, l and I (the number one, the capital l and the small L.) Also: 0, O, o, Q and D; v, r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets] in ads.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and non-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Classified ads must have a standard heading such as WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE. This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address are **required** in all classified ads; we will add it if you forget.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 50 words may not be used for club activity ads. A discount on display advertising is available for clubs.

Classified Ad Rates per Month

Deadline: NOON ET- 10th of the month!

Subscribers (First Ad):

First 50 words: **FREE!**

10¢ per word for words over 50

Subscribers (Ads after first ad):

10¢ per word for all words

Non-Subscribers:

30¢ per word

Please do not forget to send in the extra 10¢ per word when your classified ad runs over the free 50 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

PHOTO & DRAWING DETAILS

Deadline: 1st of the month

for all ads with drawings or photos!

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

\$10.00 per month for each photo or drawing

(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The standard headings: WANTED, FOR SALE, etc., count as one word each time used in an ad. Name, address and (one) telephone number, count as 6 words, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address are required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

E-mail: arc@antiqueradio.com

Web: www.antiqueradio.com

DO YOU KNOW YOUR A.R.C. SUBSCRIBER BENEFITS?

Since becoming publisher I've asked many of our subscribers about the benefits that come with a subscription to *Antique Radio Classified*.

These have included both our print subscribers as well as our online edition subscribers. The only difference between the print and online subscribers is that the online subscribers pay a reduced subscription rate and don't receive the print magazine.

Many of the people I spoke with didn't know about our subscription benefits.

Let's take a look at them:

ABILITY TO LOOK AT THE MAGAZINE ONLINE

As a print or online subscriber you can look at the latest issue of the magazine online on our web site. This is the entire issue of the magazine and not an abbreviated edition. Subscribers can look at the last four issues of the magazine. Non-subscribers can look at earlier editions of the magazine at no cost.

One advantage of the online edition is that any photograph sent to us in color is posted in color!

ABILITY TO LOOK AT PAST AUCTION RESULTS

Almost every month we publish auction results in the magazine. Did you know that we have a database of the auction prices online on our web

site? Subscribers can look at the auction results and they are SEARCHABLE! If you want to see if a specific radio, piece of equipment, tube, magazine, etc. that has been sold, all you have to do is enter the item and see every time the item has been sold as well as the price, auction house, and date!

ABILITY TO LOOK AT ONLY THE CLASSIFIED ADS

Subscribers can also look only at the classified ads without downloading the entire magazine. This is very useful for readers who just want to read the classified ads. Readers with dial up Internet service will save a lot of downloading time.

FREE MONTHLY CLASSIFIED AD

Each month a paid subscriber is entitled to place a free classified ad in the magazine. The classified ad can be up to 50 words. Additional words are 10 cents each. Classified ads can be submitted by email, fax, or mail. Typewritten preferred to reduce possible errors. Name, address and telephone number count as 6 words. Full name and address are required in all classified ads.

Of course the most important benefit to the subscribers of *Antique Radio Classified* are the articles containing information that will help you in increasing your knowledge of our hobby.

HOW DO I ACCESS THESE BENEFITS?

Your print subscriber user ID and password are on your mailing label. Online subscribers are emailed their user ID and password. Your user ID is the number after "SUB#" on your mailing label. Your password is the digits in brackets [xxxx] after your "SUB#".

On the *Subscriber-Only Access* page you can click on the *Full Issue* you would like to view or click on the *Classified Ads* section from that issue.

Go to A.R.C.'s home page www.antiqueradio.com and click on *Subscriber Only Page*.

Or you can click on the *Auction Prices Data Base*. Just enter the item that you are researching.

Stearns Duplet Telegraph System

Joseph B. Stearns Original Duplet Telegraph made in 1968 by Charles Williams Jr., Boston

Dr. Leonard P. Fuller's first multiple contact telegraph key - one of a kind experimental key - as Chief Engineer of the Federal Telegraph Co. in 1913. He used this key in his research and development of multiple contact solenoids used in Federal's first 100KW Poulsen system transmitter that installed in the U.S. Navy's Darien station in the Panama Canal zone in 1915.

Early crystal detector wireless receiver, 1914. Built by engineering students at Fordham University.

Manhattan Electrical Supply Company spark gap - belonged to Hugo Geranbeck.

Transmitting tube from 1939 World's Fair TV transmitter.

Deforet type 500 tube

RCA image Orthicon 5-481. This camera tube was used for the first television broadcast to originate from the White House when President Harry S. Truman addressed the nation on October 5, 1947.
