## U.S. AM Radio Stations by Frequencies

### Hours of Operation—Key

CH—Critical hours.  
CR—Canadian restricted.  
D—Daytime operation.  
L—Limited time: operates night hours only when dominant station is operating in daylight.  
LS—Until local sunset.  
N—Nighttime operation.  
SH—Specified hours.  
ST—Shares time.  
Where no hours of operation are indicated, station is on unlimited time with the power shown.

### Other Abbreviations

CP—Construction permit.  
DA-D—directional antenna daytime only.  
DA-N—directional antenna nighttime only.  
DA-1—directional antenna day and night.  
DA-2—directional antenna with changing patterns, day and night.  
DA-3—same as DA-2, with an additional pattern change.

Class of station is shown in parentheses. For explanation of classes see FCC Rules, Section A.

English, Portuguese and Spanish to Mexico, Central America and South America; and in Japanese, Russian, Mandarin and English to U.S.S.R., China, Japan and Southeast Asia. Jim Bowman, mgr; Richard Perry, bus mgr; Jack Brooks, chief engr. Format: Relg.

Trans World Radio Pacific, Agana, Guam—CP for two transmitters broadcasting to Far East and Australia. Paul E. Freed, pres; Fred Wise, chief engr. Format: Relg.

World International Broadcasters Inc., Box 88, Red Lion, Pa.—WINB Red Lion, Pa., beams programs to North Africa. John H. Norris, gen mgr. & principal owner. Format: Relg.

## College or University Campus-Limited Radio

College or university campus-limited stations are operated principally by students enrolled in the schools. Their transmission is by carrier current, and reception is limited generally to on-campus listening. (College stations with 10 w or more power are listed in the Directory of AM and FM stations.)

The following directory is based largely on the membership list of the Intercollegiate Broadcasting System (IBS affiliates are so identified) and other information brought to the attention of the editors. Carrier current stations are not required to register with the FCC, and the directory therefore may not be comprehensive.

### Alabama

WVUS IBS Stamford Univ., Birmingham 35209.  
WHIL IBS Spring Hill College, Mobile 36608.  
WRSD IBS Univ. of Montevallo, Montevallo 35115.  
WSBR IBS Saint Bernard College, St. Bernard 35138.  
WUAL IBS Univ. of Ala., University 35486.

### Alaska

KMPS IBS U. of Alaska, College 99701.  
KUAK IBS U. of Alaska, Fairbanks 99702.

### Arizona

KNVU IBS Northern Arizona U., Flagstaff 86001.  
KSUA IBS U. of Ariz., Tucson 85721.  
KWKI IBS Cochise College, Douglas 85607.

### Arkansas

KHCA IBS Harding College, Searcy 72144.  
KJBU IBS John Brown, University, Siloam Springs 72761.

### California

KANG IBS Pacific Union College, Angwin 94508.  
KBC IBS Bakersfield Community College, Bakersfield 93304.  
KCSC IBS Chico State College, Chico 95927.  
KCMC IBS Claremont Men's College, Claremont 91716.  
KSPC Pomona College, Claremont 91711.  
KWEB IBS Webb School of California, Claremont 91711.  
KCD IBS U. of Calif., Davis 95616.  
KFSR IBS Fresno State College, Fresno 93725  
KLA IBS U. of Calif. Los Angeles 90024.  
KOXY IBS Occidental College, Los Angeles 90041.  
KSLA California State College, Los Angeles 90032.  
KUSC U. of Southern Calif. Los Angeles 90007.  
KRJC Modesto Junior College, Modesto 95350.

KACT IBS Ambassador College, Pasadena 91123.  
KUOR IBS U. of Redlands, Redlands 92373.  
KSMC St. Mary's College 94575.  
KUSF IBS U. of San Francisco 94117.  
KBBK IBS Bethany Bible College, Santa Cruz 95062.  
KZSU Sanford U., Sanford, 94305.  
KRHC Rio Hondo Junior College, Whittier 90608.  
KHCR IBS Los Angeles Harbor College, Wilmington 90744.

### Colorado

KAS IBS Adams State College, Alamosa 81101.  
KVDU IBS U. of Denver, Denver 80210.  
KWER Loretta Heights College, Denver 80236.  
KWSC IBS Western State College, Gunnison 81230.

### Connecticut

WPKN IBS U. of Bridgeport, Bridgeport 06602.  
WXCI Western Conn. State College, Danbury 06810.  
WYOF IBS Fairfield U., Fairfield 06430.  
WESU Wesleyan U., Middletown 06457.  
WCCS IBS Central Connecticut State College, New Britain 06050.

## U.S. International Radio

These stations, located in the U.S. but beaming overseas, operate on various frequencies depending on the seasons of the year. The frequencies (in the 6-25 mhz band): 6-6.200, 9.500-9.775, 11.700-11.975, 15.100-15.450, 17.700—17.900, 21.450-21.750, 25.850-26.100.

Family Stations, 290 Hegenberger Rd., Oakland, Calif. (94621)—WYFR Scituate, Mass. Three 100 and two 50 kw transmitters on various frequencies, broadcasting in English to Europe, Africa and the Americas (including Caribbean area), in Spanish to Central and South America, and in Russian to U.S.S.R. Harold Campung, pres; Hendrick Van Dyke, prog mgr; Robert A. Thompson, chief engr. Format: Relg.

Far East Broadcasting Co., Friendship Station, Redwood City, Calif. (94063). (415) 591-7374.—KGEI Redwood City, Calif. with 50 kw and 250 kw, broadcasting in

WNHU New Haven U., New Haven 06516.  
WNCI IBS Connecticut College, New London 06320.  
WRMC IBS Mitchell College, New London 06320.

**Broadcast Editorializing**

A nationwide survey for the *Broadcasting Yearbook* indicates that over 65% of AM, 44% of FM stations and 50% of TV stations are now editorializing at least occasionally. The editorializing survey data was obtained from the *Yearbook* questionnaire sent to all radio and TV stations. The results are shown in the table.

	U.S.			Canada	
	AM	FM**	TV	Radio	TV
Total stations responding	1911	651	428	79	13
Number editorializing	1258	290	220*	50*	3
Percent editorializing	65.8%	44.5%	51.4%	63.3%	23.0%
Of stations editorializing percent doing so . . .					
Daily	17.9%	15.2%	27.7%	72.0%	—
Weekly	14.3%	13.8%	15.9%	2.0%	—
Occasionally	67.7%	71.0%	53.6%	24.0%	—

\* Includes stations not specifying amount of editorializing.  
 \*\* Includes only FM's unaffiliated with AM's.

**Radio Billings 1935-1973**

Figures for the years 1935 through 1967 are net time sales by stations and networks after all frequency and promotional discounts but before deduction of commissions to agencies and representatives. Figures from 1969 on were computed under a new formula and represent total amounts paid by advertisers for the

use of broadcast facilities. They include commissions paid to advertising agencies and representatives and payments for broadcast time and programs, materials, facilities and services supplied by broadcast stations and networks in connection with the sale of time. Figures are based on FCC data.

<sup>1</sup> Estimated.  
 \*\* Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based on average value as published by the U. S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the U.S. and insurance.  
 1971 and years following data reflects products or purchased by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. Import statistics are adjusted to U.S. factory values, including U.S. import duties, freight charged from the foreign country to the U.S. and insurance.  
 Other imports reflect those products imported directly by distributors or dealers for resale.

## World Radio and Television

The following summarizes domestic radio and television broadcasting around the world. Not included are stations and transmitters used for international or armed forces programs. Transmitter counts for each country are for main transmitters and do not include low power relays, repeaters, satellites or translators. Where current information is not available, radio set counts have been estimated by *Broadcasting*.

**Note:** Domestic radio stations in foreign countries often use shortwave and longwave frequencies, as well as the medium wave frequencies corresponding with the standard AM broadcast band in the U.S. Longwave (lw) frequencies are below 500 khz and are generally used in Europe, Africa, the Middle East, and Asiatic U.S.S.R. Medium wave (mw) frequencies are between 500 and 1600 khz and are used on all continents. Shortwave (sw) frequencies are between 1600 and 30,000 khz and are used for domestic broadcasting on all continents, especially in tropical areas. On long, medium, and shortwave, the mode of transmission is amplitude modulation (AM). Most foreign frequency modulation (FM) radio broadcasting is on the same frequencies as those used in the U.S., although some countries use a band between 60 and 88 mhz.

Unless shown as commercial (coml), government broadcasting activity identified below is without advertising. Some independent broadcasting organizations, such as the BBC, operate under statutory authority, and are so identified. Statutory, nongovernmental broadcasting may be supported by receiver license fees, advertising, subsidies, or a combination.

### Afghanistan

**Radio:** 118,000 receivers. Govt bstg: Radio Afghanistan (Box 544, Kabul). 2 progms svcs using 2 mw & 3 sw freqs.

### Albania

**Television:** 5,000 receivers. One stn, system M, 625 lines. Govt bstg: Radiodiffusion-Television Albanaise (Rue Ismail Qemali, Tirana).  
**Radio:** 190,000 receivers. 5 stns using 6 mw & 2 sw freqs. Govt bstg: Same as television. Tirana plus four regional stns.

### Algeria

**Television:** 175,000 receivers. 7 stns, system B, 625 lines. Govt bstg: Radiodiffusion-Television de la Republique Algerienne Democratique et Populaire (21 Blvd. des Martyrs, Algiers).  
**Radio:** 800,000 receivers. 18 mw & 8 sw transmitters. Govt bstg: Same as television; 3 networks (French, Arabic & Kabyl).

### Andorra

**Radio:** 6,500 receivers. 1 mw stn. Coml bstg: Radio Andorra (Box 1, Andorra-la-Ville).

### Anguilla

**Radio:** 4,000 receivers. 1 mw stn. Govt bstg: Radio Anguilla, Anguilla.

### Antigua

**Television:** 12,500 receivers. 1 stn, system M, 525 lines. Coml

bstg: Leeward Island Television Svc Ltd (Box 159, St. John's).  
**Radio:** 15,000 receivers. 2 mw 1 FM transmitters. Govt bstg: Antigua Bstg Svc (Box 590, St. John's). 1 mw stn. Coml bstg: Radio ZDK, Box 1100, St. John's. 1 mw 1 FM stn.

### Argentina

**Television:** 4 million receivers. 35 transmitters, system N, 625 lines. Coml bstg: 34 ind stns.  
**Radio:** 7 million receivers. 143 mw stns, 15 sw stns. Govt bstg: Radio Nacional de Argentina, Ayacucho 151, Buenos Aires. 22 stns on 22 mw & 4 sw freqs. Also, 10 local stns on mw. Coml bstg: 107 privately-owned and 4 govt-owned stns using 111 mw & 11 sw transmitters.  
**Regulatory Agency:** Subsecretaria De Comunicaciones, Sarmiento 151, Buenos Aires.

### Australia

**Television:** 4 million receivers. 35 transmitters, system N, 625 lines. Color system PAL. Govt bstg: Australian Broadcasting Commission (Box 487, G.P.O., Sydney, N.S.W.); R.I. Downing, chmn; Peter Lucas, head of press & pub info; 1 noncoml network with 72 stations plus translators. Coml bstg: 43 stns. (Federation of Australian Commercial Television Stations, Caltex House, Sydney.)  
**Radio:** 9 million receivers. 195 mw & 8 sw transmitters. Govt bstg same as TV. 77 mw stns & 8 sw relay transmitters; 1 natl

noncoml network. Independent bstg: 108 stns using 118 transmitters (all but 4 stns are coml); 2 natl coml networks—Macquarie Broadcasting Service (364 Sussex St., Sydney, N.S.W. 2000); 23 member stns. Major Broadcasting Network of Australia (237 Miller St., North Sydney, N.S.W. 2060); 15 member or affiliated stns. Also, 2 interstate & 10 regional networks.

**Cable:** 8 CATV systems serving 431 subscribers.  
**Regulatory agency:** Australian Broadcasting Control Board (562-574 Bourke St., Melbourne 3000).

### Azores (Portuguese)

**Radio:** 65,000 receivers. 3 mw, 1 sw & 1 FM stn. Govt bstg: Emissor Regional dos Acores (Ponta Delgada, San Miguel). 1 mw, 1 sw & 1 FM transmitter. Coml bstg: Emissora do Clube Asas do Atlantico (Aeroporto de Santa Maria); 1 mw stn. Radio Clube de Angra (Angra do Heroismo, Terceira); 1 mw stn.

### Bahamas

(See Caribbean directory, Section C)  
**Radio:** 100,000 receivers, 3 mw & 2 FM transmitters. Govt bstg: Broadcasting Corporation of the Bahamas (Box 1347, Nassau).

### Bahrain

**Radio:** 82,000 receivers. 1 mw transmitter. Govt bstg: Bahrain Bstg Stn, Manama.

### Bangladesh

**Television:** 1 stn, system B, 625 lines. Govt bstg: Bangladesh Television, Dacca.  
**Radio:** 7 mw, 4 sw & 5 pm transmitters. Govt bstg: Radio Bangladesh, Dacca 5.

### Barbados

**Television:** 32,000 receivers (1,000 color). Receivers. 4 transmitters, system A, 405 lines. Color system NTSC. Govt bstg (coml): Caribbean Bstg Corp (Box 900, Barbados); 2 stns with 2 satellites.  
**Radio:** 84,000 receivers. 2 mw transmitters. Govt bstg (coml): same as television.

### Belgium

**Television:** 2,237,865 receivers (50,702 color). 14 transmitters, systems C & H. 625 lines. Color system PAL. Govt bstg: Radiodiffusion-Television Belge/Belgische Radio en Televisie

## World Radio-TV

(B-1050 Bruxelles); 2 French & 2 Dutch networks.

**Radio:** 4 million receivers. 8 mw & 17 FM transmitters. Govt bstg: same as TV.

### Belize

**Radio:** 70,000 receivers. 4 mw transmitters. Govt bstg (coml): Radio Belize (Box 89, Albert Catouse Bldg., Belize City). **Regulatory Agency:** Ministry of Home Affairs, Belize.

### Bermuda

(See separate listings, sections B and C.)

**Television:** 19,000 receivers (2,000 color). 2 stns system M, 525 lines. Color system NTSC. Coml bstg: Bermuda Radio & Television Co. Ltd. (Box 452, Hamilton). Capital Bstg Co. Ltd. (Box 652, Hamilton).

**Radio:** 40,000 receivers. 3 mw transmitters. Coml bstg: Bermuda Radio & Television Co. Ltd.; 2 mw transmitters. Capital Bstg Co. Ltd.; 1 mw transmitter.

### Bolivia

**Television:** 45,000 receivers. 2 transmitters, system N, 625 lines. Govt bstg (coml): Empresa Nacional de Television Boliviana, La Paz.

**Radio:** 450,000 receivers. 71 mw & approx 58 sw transmitters. Govt bstg: Radio Illimani (Box 1042, La Paz); 1 mw & 2 sw transmitters. Ind bstg: 85 stns using 70 mw & approx 56 sw transmitters (all but 3 are coml).

**Regulatory Agency:** Direccion General de Telecomunicaciones, La Paz.

### Botswana

**Radio:** 53,000 receivers. 1 mw, 4 sw & 1 FM transmitters. Govt bstg: Radio Botswana (Box 52, Gabarones).

### Brazil

**Television:** 8.8 million receivers (150,000 color). 61 transmitters, system M, 525 lines. Color system PAL. Coml bstg: 56 ind stns.

**Radio:** 7 million receivers. 386 mw (250 w. or more) & 68 sw transmitters. Govt bstg: Radio Nacional do Brasil (Box 1620, Brasilia); 2 mw & 2 sw freqs. Ind bstg: 392 stns on mw & sw. **Regulatory Agency:** Departamento Nacional De Telecomunicaciones (Brasilia, 70000, D.F.).

### British Virgin Islands

(See separate listings, sections B & C)

**Television:** 400 receivers. 1 transmitter, system B, 625 lines. Color system NTSC. Coml bstg: West Indies Television Network, Tortola.

**Radio:** 9,000 receivers. 1 mw stn. Coml bstg: Virgin Islands Bstg Ltd., Tortola.

### Brunei

**Television:** 3,000 receivers. 1 stn (begins 1975), system B, 625 lines. Color system PAL. Govt bstg: Department of Broadcasting & Information (Bandar Seri Begawan, Brunei, B.S.B. 3/111).

**Radio:** 15,000 receivers. 4 mw & 2 sw transmitters. Govt bstg: Radio Brunei, Bandar Seri Begawan.

### Bulgaria

**Television:** 1.5 million receivers. 8 transmitters plus repeaters,

system D, 625 lines. Color system SECAM. Govt bstg: Committee de Television et Radiodiffusion de la Republique Populaire de Bulgarie, Sofia.

**Radio:** 1.8 million receivers. 14 mw & 1 sw transmitters. Govt bstg: same as TV. 2 progmg svcs.

### Burma

**Radio:** 600,000 receivers. 1 mw, 3 sw & 4 FM transmitters. Govt bstg: Burma Broadcasting Service, Prome Road, Kamayut P.O. Rangoon.

### Burundi

**Radio:** 100,000 receivers. 2 mw, 4 sw & 1 FM transmitters. Govt bstg: La Voix de la Revolution, Bujumbura; 1 mw & 2 sw transmitters. Relg bstg: Radio Cordac, Bujumbura; 1 mw, 2 sw & 1 FM transmitters.

### Cameroun

**Radio:** 1,000,000 receivers. 3 mw & 7 sw transmitters. Govt bstg: Radiodiffusion de la Republique Unie du Cameroun (Box 281, Yaounde); stns at Yaounde, Buea, Douala, & Garoua.

### Canada

**Television:** 8 million receivers (5,000,000 color). 96 transmitters plus relays, system M, 525 lines. Color system NTSC. Govt bstg: Canadian Broadcasting Corporation (Box 8478, Ottawa, Ontario); English network with 14 owned stns & French network with 8 owned stns. Coml bstg: 74 stns plus relays. (For further information see listing of Canadian television in section B and Canadian networks in section D).

**Radio:** 21 million receivers. 344 mw, 8 sw & 87 FM stns. Govt bstg: same as TV; CBC-owned English network stns: 27 mw, 2 sw & 5 FM; CBC-owned French network stns: 11 mw & 3 FM. Ind bstg: 306 mw, 6 sw & 79 FM stns. (For further information see listing of Canadian radio stns in section C.)

**Cable:** 562 CATV systems serving 34.7% of all households. **Regulatory Agency:** Canadian Radio & Television Commission (Berger Bldg, 100 Metcalf St., Ottawa, Ontario); (613) 995-7949.

### Canary Islands

**Television:** 4,500 receivers. 4 stns, system B, 625 lines. Govt bstg: Television Española, Santa Cruz de Tenerife.

**Radio:** 200,000 receivers. 8 mw & 7 FM transmitters. Govt bstg: Radio Nacional de España, Santa Cruz de Tenerife; 1 mw & 1 FM stns. Ind bstg (incl coml): 8 stns on 7 mw & 6 FM freqs.

### Cape Verde Islands

**Radio:** 30,000 receivers. 4 sw & 1 FM transmitters. Ind bstg: 3 stns.

### Cayman Islands

**Radio:** 1 FM transmitter. Educl bstg: 1 stn.

### Central African Republic

**Radio:** 70,000 receivers. 1 mw, 2 sw & 1 FM transmitters. Govt bstg: Radiodiffusion Nationale Centrafricaine, Bangui.

### Chad

**Radio:** 75,000 receivers. 1 mw & 2 sw transmitters. Govt bstg: Radiodiffusion Nationale Tchadienne, Ndjamana.

### Chile

**Television:** 500,000 receivers. 18 transmitters plus relays, system M, 525 lines. Govt bstg: Television Nacional de Chile, Santiago; 1 network with 17 stns. Educl bstg: 2 stns.

**Radio:** 1.6 million receivers. 151 mw & 28 sw transmitters. Ind bstg: 150 stns.

**Regulatory Agency:** Superintendencia de Servicios Electricos, de Gas y de Telecomunicaciones, Santiago.

### China (People's Republic)

**Television:** 400,000 receivers. 9 transmitters plus relays & experimental stns. Govt bstg: Central People's Bstg Stn, Peking. **Radio:** Approx 52 mw & 100 sw transmitters. Govt bstg: same as TV; 2 progmg svcs, progs for national minorities, and regional stns.

### Colombia

**Television:** 900,000 receivers. 18 stns, system M, 525 lines. Govt bstg (coml): Instituto Nacional de Radio y Television, Bogota; 18 stns plus relays.

**Radio:** 3 million receivers. 306 mw & 51 sw transmitters. Govt bstg: Radio Nacional de Colombia, Bogota; 4 mw & 9 sw transmitters. Ind bstg: 8 coml networks; 302 mw & 42 sw transmitters.

**Regulatory Agency:** Ministerio de Comunicaciones, Bogota.

### Comoro Islands

**Radio:** 36,000 receivers. 2 sw & 1 FM transmitters. Govt bstg: Office de Radiodiffusion-Television Francaise, Moroni.

### Congo

**Television:** 3,000 receivers. 1 transmitter, system D, 625 lines. Govt bstg: Radiodiffusion Television Congolaise, Brazzaville.

**Radio:** 80,000 receivers. 2 mw & 10 sw transmitters. Govt bstg: same as TV; natl prog from Brazzaville, regional prog from Pointe Noire.

### Cook Islands

**Radio:** 8,000 receivers. 1 mw & 3 sw transmitters. Ind bstg: Cook Islands Bstg & Newspaper Corp., Rarotonga.

### Costa Rica

**Television:** 115,000 receivers (10,000 color). 5 transmitters plus relays, system M, 525 lines. Color system NTSC. Coml bstg: 4 ind stns in San Jose.

**Radio:** 145,000 receivers. 44 mw & 7 sw transmitters. Ind bstg: 24 stns (all but 4 are coml).

**Regulatory Agency:** Departamento Control Nacional de Radio, San Jose.

### Cuba

(See Caribbean directory, section C.)

**Television:** 390,000 receivers. 15 transmitters, system M, 525 lines. Govt bstg: Instituto Cubano de Telecomunicaciones, Havana; 2 networks.

**Radio:** 1.8 million receivers. 100 mw transmitters. Govt bstg: same as TV; 41 stns.

**Television:** 600,000 receivers. 27 transmitters, system B, 625

## Television System Characteristics

TV Systems are defined by the International Radio Consultative Committee (C.C.I.R.) 10th Plenary Assembly, Geneva, 1963. (The United States for example uses system M.)

System	No. of lines	Ch. width (mhz)	Vision bandwidth (mhz)	Vision/sound separation (mhz)	Vestigial sideband (mhz)	Vision modulation	Sound modulation
A	405	5	3	-3.5	0.75	Pos.	AM
B	625	7	5	+5.5	0.75	Neg.	FM
C	625	7	5	+5.5	0.75	Pos.	AM
D	625	8	6	+6.5	0.75	Neg.	FM
E	819	14	10	+11.15	2	Pos.	AM
F	819	7	5	+5.5	0.75	Pos.	AM
G	625	8	5	+5.5	0.75	Neg.	FM
H	625	8	5	+5.5	1.25	Neg.	FM
I	625	8	5.5	+6	1.25	Neg.	FM
K	625	8	6	+6.5	0.75	Neg.	FM
K'	625	8	6	+6.5	1.25	Neg.	FM
L	625	8	6	+6.5	1.25	Pos.	AM
M	525	6	4.2	+4.5	0.75	Neg.	FM
N	625	6	4.2	+4.5	0.75	Neg.	FM

Field frequency: System M, 60 cycles per second, all other systems 50 cycles per second.

Picture frequency: System M, 30 cycles per second, all other systems 25 cycles per second.

Line frequency: System A, 10.125 khz, systems E and F, 20.475 khz, system M, 15.75 khz, all other systems, 15.625 khz.

**Nepal**  
*Radio:* 75,000 receivers. 1 mw & 2 sw transmitters. Govt bstg: Radio Nepal, Kathmandu.

**Netherlands**  
*Television:* 4 million receivers. 20 transmitters, systems B & G, 625 lines. Color system PAL. Ind bstg (statutory): Nederlandse Omroep Stichting, Hilversum; 2 progms svcs, progs provided by 7 Dutch organizations; financed by license fees & advertising.

### Nauru

**Radio:** 4,000 receivers. 1 mw transmitter. Govt bstg: Nauru Broadcasting Service.

## National Call Sign Allocations, by Country

**Note:** Call sign prefixes are allocated by international agreement. They constitute the first character, or more often, the first two characters of a station's call sign, and thus indicate the country in which the station is located. Every nation in the world has been assigned one or more of these prefix codes. It should be noted, however, that stations are not required to use call signs, and most Eurasian and African nations do not make extensive use of them. In countries that do use calls, some prefixes may be reserved for services other than broadcasting, or not used at all. The United States, for instance, has been allocated exclusive use of "K", "N", and "W", as well as part of the "A" series, but only "K" and "W" are employed to identify broadcasting stations.

# Books for Broadcasters

- 301. 1975 BROADCASTING YEARBOOK**, the one-book library of radio and TV facts—the practically indispensable reference work of the broadcast business world. **\$17.50, or \$15.00 prepaid**
- 302. 1975 BROADCASTING CABLE SOURCEBOOK**, the most complete and comprehensive listing for every operating system in the U.S. and Canada. **\$10.00, or \$8.50 prepaid**
- 303. THE LIGHTER SIDE OF BROADCASTING**, a selection of 124 Sid Hix cartoons reprinted from BROADCASTING Magazine. An excellent gift item. **\$5.50**
- 304. AUDIO CONTROL HANDBOOK**—for radio and television broadcasting, 4th Edition, Revised and Expanded by Robert S. Oringel. Closely following the format of the three earlier editions, the fourth has been almost entirely rewritten. Reflects changes in equipment and techniques, while digging deeper into all technical and electronics aspects of audio operation. 192 pages, illustrated, index. **\$10.00**
- 305. BROADCAST JOURNALISM, An Introduction to News Writing** by Mark W. Hall. Covers all basics of radio-television news writing style, techniques—for student and practicing professional. 160 pages, 6 1/8" x 9 1/4". **\$6.95**
- 306. BROADCAST MANAGEMENT, Radio and Television** by Ward L. Quaal and Leo Martin. A comprehensive exploration of all of the management aspects of U.S. broadcast stations. 272 pages, 6 1/8" x 9 1/4", charts, index. **\$8.95**
- 306. THE WORK OF THE FILM DIRECTOR** by A. J. Reynertson. Gives the beginning film-maker the creative and technical knowledge and understanding he needs to carry out the director's function. Covers basics of editing, screenwriting, music, sound, camera movement and on-
- 308. COLOR FILM FOR COLOR TELEVISION** by Rodger J. Ross. Currently available color films and processes which enable television producers to meet different program requirements. 200 pages, 6 1/2" x 9 1/2", 75 diagrams, 7 photos. **\$12.50**
- 309. COLOR TELEVISION: The Business of Colorcasting** edited by Howard W. Coleman, A. C. Nielsen Co. Seventeen experts in the field give a thorough appraisal of this important medium emphasizing the business angle. 288 pages, 6" x 9", 2 color pages, illus., diagrams, charts. **\$9.95**
- 310. DOCUMENTARY FILM** by Paul Rotha, S. Road and R. Griffith. This reprint of the third (revised) edition again makes available the classic book on the world documentary film movement. 476 pages, 5 1/2" x 8 1/2", with 64 pages of photos. **\$12.50**
- 311. DOCUMENTARY IN AMERICAN TELEVISION: Form - Function - Method** by A. William Bluem. A critical examination of the documentary movement in American television. 312 pages, 6 1/8" x 9 1/4", illustrated, appendices, notes. **\$8.95**
- 312. THE TECHNIQUE OF TELEVISION PRODUCTION, 9th Revised Edition** by Gerald Millerson. Now revised and updated throughout to reflect the latest techniques and with a new chapter on color TV, this book consolidates its leadership as the standard in the field. 440 pages, 1,160 illustrations, bibliography. **\$14.50**
- 313. THE FOCAL ENCYCLOPEDIA OF FILM AND TELEVISION: Techniques** edited by Raymond Spottiswoode. Major reference work of 10,000 entries—will eventually comprise three or four volumes, 1,124 pages, 6 3/4" x 9 1/2", 1,000 diagrams, index. **\$37.50**
- 314. THE WORK OF THE MOTION PICTURE CAMERAMAN** by Freddie Young and Paul Petzold. Details the working environment, the day-to-day routine and equipment used by the film cameraman. Also covers—at length—the part played by the director of photography. 245 pages, 20 pages of diagrams, 32 pages of halftones, glossary. **\$15.00**
- 315. THE ANATOMY OF A TELEVISION COMMERCIAL** Edited by Lincoln Diamant. How Kodak's now classic two-minute commercial "Yesterdays" was created and produced. Explains and examines each phase of the commercial's complicated development covering market planning, agency creation and presentation, pre-production planning and casting, filming, editing, sound-track and music, printing and distribution. 192 pages, 8 1/2" x 10", 100 illustrations. **\$14.50**
- 316. RADIO BROADCASTING: An Introduction to the Sound Medium, Revised Edition** by Irving E. Fang. Reset, expanded and revised throughout, this new edition includes radio news, First Amendment problems and current techniques of electronic journalism. 478 pages, 100 illustrations, notes, bibliography, appendices, glossary. **\$10.95**
- 317. RELIGIOUS TELEVISION PROGRAMS: A Study of Relevance** by A. William Bluem. This study was commissioned by the Television Information Office and concentrates on the local level. 232 pages, 5 3/8" x 8", eight pages of illus. **\$4.95**
- 318. TV CAMERA OPERATION** by Gerald Millerson. Examines step by step the various principles that underlie the use of the television camera. "Clear, concise and an absolute 'must' for anyone aspiring to TV camera work, it surpasses anything I have seen on the subject."—Richard D. Hutto, Director of Broadcasting, St. Lawrence University. 160 pages, 5 1/2" x 8 1/2", 71 two-color diagrammatic illustrations, glossary. **\$10.95**
- 319. TELEVISION COMMERCIALS: How to Create Successful TV Advertising** by Charles Anthony Wainwright. The first comprehensive, down-to-earth book to give insight into the creative aspects of creating commercials. 320 pages, 6 1/8" x 9 1/4", 100 illustrations, index. **\$8.95**
- 320. TELEVISION: THE CREATIVE EXPERIENCE** edited by A. William Bluem and Roger Maxwell. Provocative essays and dialogues by leading writers, producers, directors, performers and technicians. 320 pages, 6" x 9", index. **\$9.95**
- 321. THE TECHNIQUE OF FILM EDITING, Enlarged Edition**, by Karel Reisz and Gavin Millar. Analyzes excerpts from many famous films. Avoids hard and fast rules but states the problems as they arise in practice and proceeds from there. "An excellent book which stands absolutely alone in the literature of film. No other book explains so precisely and cogently the methods of selecting and arranging shots."—Educational Broadcasting Review. 412 pages, 325 photos, 21 diagrams. **\$14.50**
- 322. THE TELEVISION DIRECTOR/INTERPRETER** by Colby Lewis. This book describes how the director is the interpreter of the program action to his audience. 256 pages, 6 1/8" x 9 1/4", illus., index. **\$8.95**
- 323. TELEVISION IN THE PUBLIC INTEREST: Planning, Production, Performance** by A. William Bluem, John F. Cox and Gene McPherson. Practical information and advice on a neglected area—how the layman may make better use of TV for public service causes and projects. 192 pages, 6 3/4" x 9 1/4", 88 illustrations, glossary, index. **\$8.95**
- 324. TELEVISION NEWS, 2nd Edition, Revised and Enlarged** by Irving E. Fang. Revised throughout and reset, including many new illustrations, expanded treatment of radio news, updated discussions on First Amendment problems related to electronic journalism. 384 pages, 6 1/8" x 9 1/4", about 100 illustrations. **\$12.50**
- 325. UNDERSTANDING TELEVISION: An Introduction to Broadcasting** edited by Robert L. Hilliard. Provides a basic understanding of the major areas of television broadcasting. Each of the 6 chapters is written by a well-known educator. 256 pages, 6 1/8" x 9 1/4", 75 illustrations, notes, bibliographies, index. **\$6.95**
- 327. THE WORK OF THE TELEVISION JOURNALIST** by R. W. Tyrell. Describes every job from writer and producer to that of cameraman, recordist, film editor and newscaster. Invaluable as a basic primer for all newcomers to television—student and professional. 176 pages, illustrated, glossary. **\$11.50**
- 328. WRITING FOR TELEVISION AND RADIO, 2nd Edition** by Robert L. Hilliard. Emphasizing the "bread-and-butter" aspects of the writer's craft in the mass media, this is also practical for home study. 320 pages, 6 3/8" x 9 3/4", with sample scripts and applications, index. **\$7.95**
- 330. THE TECHNIQUE OF FILM AND TELEVISION MAKE-UP: For Color and Black & White—Revised Edition** by Vincent J.R. Kehoe. "First in its field—a thorough-going study of actual techniques for both color and b/w."—Art Direction. 288 pages, 5 1/2" x 8 1/2", over 200 illustrations, appendices, bibliography, index. **\$18.50**
- 331. BROADCASTING: The Critical Challenges** edited with an introduction and notes by Charles S. Steinberg, Ph.D. This timely book presents the first comprehensive examination of many of the major challenges to broadcasting in the 1970's. A distillation of the significant discussions and findings of the Third Annual IRTS Faculty/Industry Seminar, the critical areas are considered by eminent figures in education, industry, government and the press. 315 pages, bibliography, index. **\$13.50**
- 332. THE TECHNIQUE OF THE SOUND STUDIO, Radio, Television, Recording, 3rd Revised Edition** by Alec Nisbett. The basic approach of this widely-used text and guidebook emphasizing general principles rather than rule-of-thumb, has the latest technological developments. 558 pages, 5 1/2" x 8 1/2", 234 diagrams, glossary. **\$14.50**
- 333. THE TECHNIQUE OF SPECIAL EFFECTS IN TELEVISION** by Bernard Wilkie. A unique, pioneering and astonishingly comprehensive book that covers everything one needs to know about "special effects" from popping champagne cork to bullet and bomb effects. 400 pages, 5 1/2" x 8 3/4", 200 halftones, 40 diagrams, appendix, index. **\$18.50**
- 334. FILM AND TV GRAPHICS.** Edited by Walter Herdeg; Text by John Halas. "Originally conceived for movies and TV shows, these examples offer an extraordinary wealth of pictorial invention in a wide diversity of personal styles, methods and media."—Film News. "A beautiful and inspiring book."—Art Direction. 200 pages, 9 1/2" x 12", 1079 illustrations, 122 in color. **\$26.00**
- 335. REBEL IN RADIO: The Story of WQXR** by Elliott M. Sanger. This is not a technical book about radio, but the story of the many memorable events and personalities that shaped the station's history and how, despite great odds, WQXR made a notable place for itself in the history of broadcasting. Filled with interesting and instructive details of day-to-day station operations. Gives a vivid picture of the development of broadcast techniques over more than three decades. 192 pages, illustrated. **\$7.50**

### ABC Radio Network Rates

Advertising rates on each of the four national network services of ABC Radio are based on 100% coverage of total U.S. retail sales (SRDS). Rates are adjusted to coverage of less than 100%. Fixed position and run of schedule 60-second and 30-second announcements are available on each of the four networks. The networks cannot be bought in combination for purposes of earning rate discounts. Advertisers may purchase time on one or more of the networks, but each network must be bought separately. Announcements purchased on the run of schedule plan are moveable and/or pre-emptible at any time without prior notice.

American Contemporary	One minute	Thirty seconds
<b>Radio Network</b>		
Fixed position	\$2,200	\$1,540
Run of schedule	1,760	1,230
<b>Information Network</b>		
Fixed position	1,330	930
Run of schedule	1,030	720
<b>Entertainment Network</b>		
Fixed position	1,200	840
Run of schedule	960	670
<b>FM Network</b>		
Fixed position	500	350
Run of schedule	350	245

The ABC Radio Network's rate card is issued for the convenient reference of advertisers, and should not be regarded as an offer by ABC. It is subject to change without notice. A commission of 15% on gross billing is allowed to recognized advertising agencies.

ABC Television

Frederick S. Pierce, pres; Charles M. Smith, VP; Leonard E. Maskin, VP, administration.

(1) WSVI-TV Christiansted, V. I. and ZFB-TV Hamilton, Bermuda, are subject to an additional charge for shipping and handling.

A listing for CBS stations will be made available by ABC on request.

Canadian stations are not subject to ABC discounts or rebate. Special frequency and group discounts allowed by CBC will be given on request. Rate classification and percentage of the hour are not the same as the ABC Television rates and percentages. All other charges (such as microwave, sales tax, distribution, telecine rehearsal, editing, importation, cutins, production and facilities services for commercial messages and billboards, etc.) will be billed to the agency by CBC. Canadian telecasts are payable in Canadian currency.

# PROGRESSIVE MOR™

RPM PROGRESSIVE MOR is an exciting complete format service for automated and live radio stations. Progressive MOR combines the greatest easy listening and soft rock hits of the day with the top hits of the past ten years. This package is brought to you in brilliant stereo and matrix quadraphonic.

CUSTOM INTRO'S say more than just title and artist . . . your call letters, dial position, and marketing phrases can be included too. At no extra cost.

**rpm** radio programming/management

15552 arbor place, southfield, michigan 48075 / (313) 557-3246

RPM PROGRESSIVE MOR includes music and updates, station production, promo's, graphic art, and even local spot production. As with all RPM services, actual speed duplication with the finest tape stock is standard.

Turn your market on with RPM PROGRESSIVE MOR. We have full information and demonstration tapes for you. Write us or call collect for Tom Krikorian. We'll show you why RPM delivers more where it counts, in on the air quality and personal service. Also ask about the other RPM Programming Services, Contemporary Beautiful Music, Rockin' Gold, and the Quadraphonic Concert.

## Beautiful Music

RPM Contemporary Beautiful Music is a truly exciting blend of contemporary tunes, performed by popular orchestras and groups. Selected vocals by soft MOR artists are also included. The result is a format that is hard to turn off.

As with all RPM services, complete flexibility is the rule. Contemporary Beautiful Music is blended at your station with a real to real sequencing system. Spot placement and news are regulated by the needs of your format and market situation. Your RPM format will be custom designed to make a dramatic competitive impact on your market.

RPM has more for you where it counts, on the air quality and continuing service at the fairest possible rate. We have full information and demonstration tapes for you. Write us or call collect for your copy. Also, ask about the other Automated Programming services, Progressive MOR, Rockin' Gold, and the Quadraphonic Concert.

and its ladies auxiliary with the cooperation of broadcasters and secondary school principals during the fall term of each school year. \$22,500 in national scholarship awards are made. The deadline for completion of school competition is Dec. 10. *Contact:* Voice of Democracy Program, VFW National Headquarters, Broadway at 34th St., Kansas City, Mo. 64111.

## NAB TV Code

# NAB Television Code

### Preamble

Television is seen and heard in nearly every American home. These homes include children and adults of all ages, embrace all races and all varieties of philosophic or religious conviction and reach those of every educational background. Television broadcasters must take this pluralistic audience into account in programming their stations. They are obligated to bring their positive responsibility for professionalism and reasoned judgment to bear upon all those involved in the development, production and selection of programs.

The free, competitive American system of broadcasting which offers programs of entertainment, news, general information, education and culture is supported and made possible by revenues from advertising. While television broadcasters are responsible for the programming and advertising on their stations, the advertisers who use television to convey their commercial messages also have a responsibility to the viewing audience. Their advertising messages should be presented in an honest, responsible and tasteful manner. Advertisers should also support the endeavors of broadcasters to offer a diversity of programs that meet the needs and expectations of the total viewing audience.

The viewer also has a responsibility to help broadcasters serve the public. All viewers should make their criticisms and positive suggestions about programming and advertising known to the broadcast licensee. Parents particularly should oversee the viewing habits of their children, encouraging them to watch programs that will enrich their experience and broaden their intellectual horizons.

### Program Standards

#### I. Principles Governing Program Content

It is in the interest of television as a vital medium to encourage programs that are innovative, reflect a high degree of creative skill, deal with significant moral and social issues and present challenging concepts and other subject matter that relate to the world in which the viewer lives.

Television programs should not only reflect the influence of the established institutions that shape our values and culture, but also expose the dynamics of social change which bear upon our lives.

To achieve these goals, television broadcasters should be conversant with the general and specific needs, interests and aspirations of all the segments of the communities they serve. They should affirmatively seek out responsible representatives of all parts of their communities so that they may structure a broad range of programs that will inform, enlighten and entertain the total audience.

Broadcasters should also develop programs directed toward advancing the cultural and educational aspects of their communities.

To assure that broadcasters have the freedom to program fully and responsibly, none of the provisions of this Code should be construed as preventing or impeding broadcast of the broad range of material necessary to help broadcasters fulfill their obligations to operate in the public interest.

The challenge to the broadcaster is to determine how suitably to present the complexities of human behavior. For television, this requires exceptional awareness of considerations peculiar to the medium.

Accordingly, in selecting program subjects and themes, great care must be exercised to be sure that treatment and presentation are made in good faith and not for the purpose of sensationalism or to shock or exploit the audience or appeal to prurient interests or morbid curiosity.

#### II. Responsibility Toward Children

Broadcasters have a special responsibility to children. Programs designed primarily for children should take into account the range of interests and needs of children, and should contribute to the sound, balanced development of children.

In the course of a child's development, numerous social factors and forces, including television, affect the ability of the child to make the transition to adult society.

The child's training and experience during the formative years should include positive sets of values which will allow the child to become a responsible adult, capable of coping with the challenges of maturity.

Children should also be exposed, at the appropriate times, to a reasonable range of the realities which exist in the world sufficient to help them make the transition to adulthood.

Because children are allowed to watch programs designed primarily for adults, broadcasters should take this practice into account in the presentation of material in such programs when children may constitute a substantial segment of the audience.

All the standards set forth in this section apply to both program and commercial material designed and intended for viewing by children.

#### III. Community Responsibility

1. Television broadcasters and their staffs occupy positions of unique responsibility in their communities and should conscientiously endeavor to be acquainted fully with the community's needs and characteristics in order better to serve the welfare of its citizens.

2. Requests for time for the placement of public service announcements or programs should be carefully reviewed with respect to the character and reputation of the group, campaign or organization involved, the public interest content of the message, and the manner of its presentation.

#### IV. Special Program Standards

1. Violence, physical or psychological, may only be projected in responsibly handled contexts, not used exploitatively. Programs involving violence should present the consequences of it to its victims and perpetrators.

Presentation of the details of violence should avoid the excessive, the gratuitous and the instructional.

The use of violence for its own sake and the detailed dwelling upon brutality or physical agony, by sight or by sound, are not permissible.

2. The treatment of criminal activities should always convey their social and human effects.

The presentation of techniques of crime in such detail as to be instructional or invite imitation shall be avoided.

3. Narcotic addiction shall not be presented except as a destructive habit. The use of illegal drugs or the abuse of legal drugs shall not be encouraged or shown as socially acceptable.

4. The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature.

5. Teletcasts of actual sports programs at which on-the-scene betting is permitted by law shall be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.

6. Special precautions must be taken to avoid demeaning or ridiculing members of the audience who suffer from physical or mental afflictions or deformities.

7. Special sensitivity is necessary in the use of material relating to sex, race, color, creed, religious functionaries or rites, or national or ethnic derivation.

8. Obscene, indecent or profane matter, as proscribed by law, is unacceptable.

9. The presentation of marriage, the family and similarly important human relationships, and material with sexual connotations, shall not be treated exploitatively or irresponsibly, but with sensitivity. Costuming and movements of all performers shall be handled in a similar fashion.

10. The use of liquor and the depiction of smoking in program content shall be deemphasized. When shown, they should be consistent with plot and character development.

11. The creation of a state of hypnosis by act or detailed demonstration on camera is prohibited and hypnosis as a form of "parlor game" antics to create humorous situations within a comedy setting is forbidden.

12. Program material pertaining to fortune-telling, occultism, astrology, phrenology, palm-reading, numerology, mind-reading, character-reading, and the like is unacceptable if it encourages people to regard such fields as providing commonly accepted appraisals of life.

13. Professional advice, diagnosis and treatment will be presented in conformity with law and recognized professional standards.

14. Any technique whereby an attempt is made to convey information to the viewer by transmitting

messages below the threshold of normal awareness is not permitted.

15. The use of animals, consistent with plot and character delineation, shall be in conformity with accepted standards of humane treatment.

16. Quiz and similar programs that are presented as contests of knowledge, information, skill or luck must, in fact, be genuine contests and the results must not be controlled by collusion with or between contestants, or by any other action which will favor one contestant against any other.

17. The broadcaster shall be constantly alert to prevent inclusion of elements within a program dictated by factors other than the requirements of the program itself. The acceptance of cash payments or other considerations in return for including scenic properties, the choice and identification of prizes, the selection of music and other creative program elements and inclusion of any identification of commercial products or services, their trade names or advertising slogan within the program are prohibited except in accordance with Sections 317 and 508 of the Communications Act.

18. Contests may not constitute a lottery.

19. No program shall be presented in a manner which through artifice or simulation would mislead the audience as to any material fact. Each broadcaster must exercise reasonable judgment to determine whether a particular method of presentation would constitute a material deception, or would be accepted by the audience as normal theatrical illusion.

20. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements, nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news.

21. The standards of this Code covering program content are also understood to include, wherever applicable, the standards contained in the advertising section of the Code.

#### V. Treatment of News and Public Events

##### General

Television Code standards relating to the treatment of news and public events are, because of constitutional considerations, intended to be exhortatory. The standards set forth hereunder encourage high standards of professionalism in broadcast journalism. They are not to be interpreted as turning over to others the broadcaster's responsibility as to judgments necessary in news and public events programming.

##### News

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

4. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

5. Good taste should prevail in the selection and handling of news.

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be telecast in such a manner as to avoid panic and unnecessary alarm.

6. Commentary and analysis should be clearly identified as such.

7. Pictorial material should be chosen with care and not presented in a misleading manner.

8. All news interview programs should be governed by accepted standards of ethical journalism, under which the interviewer selects the questions to be asked. Where there is advance agreement materially restricting an important or newsworthy area of questioning, the interviewer will state on the program that such limitation has been agreed upon. Such disclosure should be made if the person being interviewed requires that questions be submitted in advance or if he participates in editing a recording of the interview prior to its use on the air.

9. A television broadcaster should exercise due care in his supervision of content, format, and presentation of newscasts originated by his station, and in his selection of newscasters, commentators, and analysts.

##### Public Events

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. The treatment of such events by a television

## NAB TV Code

broadcaster should provide adequate and informed coverage.

### VI. Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. The television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to his fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

3. Programs devoted to the discussion of controversial public issues should be identified as such. They should not be presented in a manner which would mislead listeners or viewers to believe that the program is purely of an entertainment, news or other character.

4. Broadcasts in which stations express their own opinions about issues of general public interest should be clearly identified as editorials. They should be unmistakably identified as statements of station opinion and should be appropriately distinguished from news and other program material.

### VII. Political Telecasts

1. Political telecasts should be clearly identified as such. They should not be presented by a television broadcaster in a manner which would mislead listeners or viewers to believe that the programs is of any other character.

(Ref.: Communications Act of 1934, as amended, Secs. 315 and 317, and FCC Rules and Regulations, Secs. 3.654, 3.657, 3.663, as discussed in NAB's "Political Broadcast Catechism & The Fairness Doctrine.")

### VIII. Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community appropriate opportunity for religious presentations.

2. Programs reach audiences of all creeds simultaneously. Therefore, both the advocates of broad or ecumenical religious precepts, and the exponents of specific doctrines, are urged to present their positions in a manner conducive to viewer enlightenment on the role of religion in society.

3. In the allocation of time for telecasts of religious programs the television station should use its best efforts to apportion such time fairly among responsible individuals, groups and organizations.

### IX. General Advertising Standards

1. This code establishes basic standards for all television broadcasting. The principles of acceptability and good taste within the program standards section govern the presentation of advertising where applicable. In addition, the code establishes in this section special standards which apply to television advertising.

2. A commercial television broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements.

3. Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the rules and regulations of the Federal Communications Commission.

4. Representations which disregard normal safety precautions shall be avoided.

Children shall not be represented, except under proper adult supervision, as being in contact with, or demonstrating a product recognized as potentially dangerous to them.

5. In consideration of the customs and attitudes of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. These standards should be applied with judgment and flexibility, taking into consideration the characteristics of the medium, its home and family audience, and the form and content of the particular presentation.

6. The advertising of hard liquor (distilled spirits) is not acceptable.

7. The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable only subject to federal and local laws (See *Television Code Interpretation No. 4*).

8. Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.

9. The advertising of firearms/ammunition is acceptable provided it promotes the product only as sporting equipment and conforms to recognized standards of safety as well as all applicable laws and regulations. Advertisements of firearms/ammunition by mail order are unacceptable. The advertising of fireworks is acceptable subject to all applicable laws.

10. The advertising of fortune-telling, occultism, astrology, phrenology, palm-reading, numerology, mind-reading, character reading or subjects of a like nature is not permitted.

11. Because all products of a personal nature create special problems, acceptability of such products should be determined with special emphasis on ethics and the canons of good taste. Such advertising of personal products as is accepted must be presented in a restrained and obviously inoffensive manner.

12. The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is unacceptable.

13. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

14. "Bait-switch" advertising, whereby goods or services which the advertiser has no intention of selling are offered merely to lure the customer into purchasing higher-priced substitutes, is not acceptable.

15. Personal endorsements (testimonials) shall be genuine and reflect personal experience. They shall contain no statement that cannot be supported if presented in the advertiser's own words.

### X. Presentation of Advertising

1. Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.

2. The role and capability of television to market sponsors' products are well recognized. In turn, this fact dictates that great care be exercised by the broadcaster to prevent the presentation of false, misleading or deceptive advertising. While it is entirely appropriate to present a product in a favorable light and atmosphere, the presentation must not, by copy or demonstration, involve a material deception as to the characteristics, performance or appearance of the product.

Broadcast advertisers are responsible for making available, at the request of the Code Authority, documentation adequate to support the validity and truthfulness of claims, demonstrations and testimonials contained in their commercial messages.

3. The broadcaster and the advertiser should exercise special caution with the content and presentation of television commercials placed in or near programs designed for children. Exploitation of children should be avoided. Commercials directed to children should in no way mislead as to the product's performance and usefulness.

Commercials, whether live, film or tape, within programs initially designed primarily for children under 12 years of age shall be clearly separated from program material by an appropriate device. (Effective Jan. 1, 1975.)

Appeals involving matters of health which should be determined by physicians should not be directed primarily to children.

4. Children's program hosts or primary cartoon characters shall not be utilized to deliver commercial messages within or adjacent to the programs which feature such hosts or cartoon characters. This provision shall also apply to lead-ins to commercials when such lead-ins contain sell copy or imply endorsement of the product by program host or primary cartoon character.

5. Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes.

6. Commercials for services or over-the-counter products involving health considerations are of intimate and far-reaching importance to the consumer. The following principles should apply to such advertising:

a. Physicians, dentists or nurses or actors representing physicians, dentists or nurses, shall not be employed directly or by implication. These restrictions

also apply to persons professionally engaged in medical services (e.g., physical therapists, pharmacists, dental assistants, nurses' aides).

b. Visual representations of laboratory settings may be employed, provided they bear a direct relationship to bona fide research which has been conducted for the product or service. (See *Television Code, X, 11*) In such cases, laboratory technicians shall be identified as such and shall not be employed as spokesmen or in any other way speak on behalf of the product.

c. Institutional announcements not intended to sell a specific product or service to the consumer and public service announcements by non-profit organizations may be presented by accredited physicians, dentists or nurses, subject to approval by the broadcaster. An accredited professional is one who has met required qualifications and has been licensed in his resident state.

7. Advertising should offer a product or service on its positive merits and refrain from discrediting, disparaging or unfairly attacking competitors, competing products, other industries, professions or institutions.

8. A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called trailer or "hitch-hike" announcements). To this end, the program itself should be announced and clearly identified, both audio and video, before the sponsor's advertising material is first used, and should be signed off, both audio and video, after the sponsor's advertising material is last used.

9. Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.

10. A charge for television time to churches and religious bodies is not recommended.

11. Reference to the results of bona fide research, surveys or tests relating to the product to be advertised shall not be presented in a manner so as to create an impression of fact beyond that established by the work that has been conducted.

### Advertising Standards

#### XI. Advertising of Medical Products

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer because of the direct bearing on his health.

2. Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

3. A television broadcaster should not accept advertising material which in his opinion offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

#### XII. Contests

1. Contests shall be conducted with fairness to all entrants, and shall comply with all pertinent laws and regulations. Care should be taken to avoid the concurrent use of the three elements which together constitute a lottery—prize, chance and consideration.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown, or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of products, reasonable facsimiles thereof should be made acceptable unless the award is based upon skill and not upon chance.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (See *Television Code, XIV*)

#### XIII. Premiums and Offers

1. Full details of proposed offers should be required by the television broadcaster for investigation and approved before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the

monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of the viewers.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

**XIV. Time Standards for Non-Program Material.**

In order that the time for non-program material and its placement shall best serve the viewer, the following standards are set forth in accordance with sound television practice:

**1. Non-Program Material Definition:**

Non-program material, in both prime time and all other time, includes billboards, commercials, promotional announcements and all credits in excess of 30 seconds per program, except in feature films. In no event should credits exceed 40 seconds per program. The 40-second limitation on credits shall not apply, however, in any situation governed by a contract entered into before October 1, 1971. Public service announcements and promotional announcements for the same program are excluded from this definition.

**2. Allowable Time for Non-Program Material.**

a. In prime time on network affiliated stations, non-program material shall not exceed nine minutes 30 seconds in any 60-minute period.

In prime time on independent stations, non-program material shall not exceed 12 minutes in any 60-minute period.

In the event that news programming is included within the three and one-half hour prime time period, not more than one 30-minute segment of news programming may be governed by time standards applicable to all other time.

Prime time is a continuous period of not less than three and one-half consecutive hours per broadcast day as designated by the station between the hours of 6:00 PM and Midnight.

b. In all other time, non-program material shall not exceed 16 minutes in any 60-minute period.

c. Children's Programming Time—Defined as those hours other than prime time in which programs initially designed primarily for children under 12 years of age are scheduled.

Within this time period on Saturday and Sunday, non-program material shall not exceed 10 minutes in any 60-minute period after Dec. 31, 1974 and nine minutes 30 seconds in any 60-minute period after Dec. 31, 1975.

Within this time period on Monday through Friday, non-program material shall not exceed 14 minutes in any 60-minute period after Dec. 31, 1974 and 12 minutes in any 60-minute period after Dec. 31, 1975.

**3. Program Interruptions.**

a. Definition: A program interruption is any occurrence of non-program material within the main body of the program.

b. In prime time, the number of program interruptions shall not exceed two within any 30-minute program, or four within any 60-minute program.

Programs longer than 60 minutes shall be pro-rated at two interruptions per half-hour.

The number of interruptions in 60-minute variety shows shall not exceed five.

c. In all other time, the number of interruptions shall not exceed four within any 30-minute program period.

d. In children's weekend programming time, as above defined in 2c, the number of program interruptions shall not exceed two within any 30-minute program or four within any 60-minute program. (Effective Jan. 1, 1975).

e. In both prime time and all other time, the following interruption standard shall apply within programs of 15 minutes or less in length:

- 5-minute program—1 interruption;
- 10-minute program—2 interruptions;
- 15-minute program—2 interruptions.

f. News, weather, sports and special events programs are exempt from the interruption standard because of the nature of such programs.

4. No more than four non-program material announcements shall be scheduled consecutively within programs, and no more than three non-program material announcements shall be scheduled consecutively during station breaks. The consecutive non-program material limitation shall not apply to a single sponsor who wishes to further reduce the number of interruptions in the program.

5. A multiple product announcement is one in which two or more products or services are presented within the framework of a single announcement. A multiple product announcement shall not be scheduled in a unit of time less than 60 seconds, except where integrated so as to appear to the viewer as a single message. A multiple product announcement shall be considered integrated and counted as a single announcement if:

- a. the products or services are related and

interwoven within the framework of the announcement (related products or services shall be defined as those having a common character, purpose and use); and

b. the voice(s), setting, background and continuity are used consistently throughout so as to appear to the viewer as a single message.

Multiple product announcements of 60 seconds in length or longer not meeting this definition of integration shall be counted as two or more announcements under this section of the code. This provision shall not apply to retail or service establishments.

6. The use of billboards, in prime time and all other time, shall be confined to programs sponsored by a single or alternate week advertiser and shall be limited to the products advertised in the program.

7. Reasonable and limited identification of prizes and donors' names where the presentation of contest awards or prizes in a necessary part of program content shall not be included as non-program material as defined above.

8. Programs presenting women's service features, shopping guides, fashion shows, demonstrations and similar material provide a special service to the public in which certain material normally classified as non-program is an informative and necessary part of the program content. Because of this, the time standards may be waived by the Code Authority to a reasonable extent on a case-by-case basis.

9. Gratuitous references in a program to non-sponsor's product or service should be avoided except for normal guest identification.

10. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade-mark or slogan should be used only incidentally and should not obtrude on program interest or entertainment.

*Note: From time to time the code authority issues advertising guidelines and clarifications expanding on provisions of the code. Among areas covered are alcoholic beverages, acne products, arthritis and rheumatism remedies, bronchitis products, children's premiums and offers, disparagement, hallucinogens, hypnosis, men-in-white, non-prescription medications, personal products, testimonials, time standards, toys and weight reducing products. Copies may be obtained from any NAB Code Authority office.*

**Interpretations**

**Interpretation No. 1**

June 7, 1956, Revised June 9, 1958  
"Pitch" Programs

The "pitchman" technique of advertising on television is inconsistent with good broadcast practice and generally damages the reputation of the industry and the advertising profession.

Sponsored program-length segments consisting substantially of continuous demonstrations or sales presentation, violate not only the time standards established in the Code but the broad philosophy of improvement implicit in the voluntary Code operation and are not acceptable.

**Interpretation No. 2**

June 7, 1956  
Hollywood Film Promotion

The presentation of commentary or film excerpts from current theatrical releases in some instances may constitute commercial material under the Time Standards for Non-Program Material. Specifically, for example, when such presentation, directly or by inference, urges viewers to attend, it shall be counted against the commercial allowance for the program of which it is a part.

**Interpretation No. 3**

January 23, 1959  
Prize Identification

Aural and/or visual prize identification of up to ten seconds duration may be deemed "reasonable and limited" under the language of Paragraph 7 of the Time Standards for Non-Program Material. Where such identification is longer than ten seconds, the entire announcement or visual presentation will be charged against the total commercial time for the program period.

**Interpretation No. 4**

March 4, 1965  
Drinking on Camera

Paragraph 7, Section IX, General Advertising Standards, states that the "advertising of beer and wine is acceptable only when presented in the best of good taste and discretion." This requires that commercials involving beer and wine avoid any representation of on-camera drinking.

**Regulations and Procedures**

The following regulations and procedures shall obtain as an integral part of the Television Code of the National

Association of Broadcasters:

**I. Name**

The name of this code shall be *The Television Code of the National Association of Broadcasters.*

**II. Purpose of the Code**

The purpose of this code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural, economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

**III. Subscribers**

**Section 1. Eligibility**

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its dependencies, shall, subject to the approval of the television board of directors as hereinafter provided, be eligible to subscribe to the television code of the NAB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non-television member of NAB shall not become eligible via code subscription to receive any of the member services or to exercise any of the voting privileges of a member.

**Section 2. Certification of Subscription**

Upon subscribing to the code, subject to the approval of the television board, of directors, there shall be granted forthwith to each such subscribing station authority to use the "NAB Television Seal of Good Practice," a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or a film, signifying that the recipient thereof is a subscriber in good standing to the television code of the NAB. The seal and its significance shall be appropriately publicized by the NAB.

**Section 3. Duration of Subscription**

Subscription shall continue in full force and effect until thirty days after the first of the month following receipt of notice of written resignation. Subscription to the code shall be effective from the date of application subject to the approval of the television board of directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the television board of directors without the usual processes specified below.

**Section 4. Suspension of Subscription**

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided, revoked or temporarily suspended for television programming, including commercial copy, which, by theme, treatment or incident, in the judgment of the television board constitutes a continuing, willful or gross violation of any of the provisions of the television code, by an affirmative two-thirds vote of the television board of directors at a regular or special meeting; provided, however, that the following conditions and procedures shall apply:

**A. Preferring of Charges — Conditions Precedent:**

Prior to the preferring of charges to the television board of directors concerning violation of the Code by a subscriber, the television code review board (hereinafter provided for) (1) Shall have appropriately, and in good time, informed and advised such subscriber of any and all complaints and information coming to the attention of the television code review board and relating to the programming of said subscriber, (2) Shall have reported to, and advised, said subscriber by analysis, interpretation, recommendation or otherwise, of the possibility of a violation or breach of the television code by the subscriber, and (3) Shall have served upon the subscriber, by registered mail a notice of intent to prefer charges, at least twenty days prior to the filing of any such charges with the television board of directors. During this period the television code review board may, within its sole discretion, reconsider its proposed action based upon such written reply as the subscriber may care to make, or upon such action as the subscriber may care to take, or upon, in conformance with the analysis, interpretation, or recommendation of the television code review board.

**(i) Notice of intent**

The Notice of intent shall include a statement of the grounds and reasons for the proposed charges, including appropriate references to the television code.

**(ii) Time**

In the event that the nature of the program in question is such that time is of the essence, the television code review board may prefer charges within less than the twenty days above specified, provided that a time certain in which reply may be made is included in its notice of intent, and provided that its reasons therefor must be specified in its statement of charges preferred.

**B. Its Charges:**

The subscriber shall be advised in writing by registered

## NAB TV Code

mail of the charges preferred. The charges preferred by the television code review board to the television board of directors shall include the grounds and reasons therefor, together with specific references to the television code. The charges shall contain a statement that the conditions precedent, herein before described, have been met.

### C. Hearing:

The subscriber shall have the right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification.

### D. Waiver:

Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto.

### E. Designation:

If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the television board may specify.

### F. Confidential Status:

Hearings shall be closed; and all correspondence between a subscriber and the television code review board and/or the television board of directors concerning specific programming shall be confidential; provided, however, that the confidential status of these procedures may be waived by a subscriber.

### G. Presentation; Representation:

A subscriber against whom charges have been preferred, and who has exercised his right to a hearing, shall be entitled to effect presentation of his case personally, by agent, by attorney, or by deposition and interrogatory.

### H. Intervention:

Upon request by the subscriber-respondent or the television code review board, the television board of directors, in its discretion, may permit the intervention of one or more other subscribers as parties-in-interest.

### I. Transcript:

A stenographic transcript record shall be taken and shall be certified by the chairman of the television board of directors to the office of the secretary of the National Association of Broadcasters, where it shall be maintained. The transcript shall not be open to inspection unless otherwise provided by the party respondent in the proceeding.

### J. Television Code Review Board; Counsel:

The television code review board may, at its discretion, utilize the services of an attorney from the staff of the NAB for the purpose of effecting its presentation in a hearing matter.

### K. Order of Procedure:

All hearings the television code review board shall open and close.

### L. Cross-Examination:

The right of cross-examination shall specifically obtain. Where procedure has been by deposition or interrogatory, the use of cross-interrogatories shall satisfy this right.

### M. Presentation:

Oral and written evidence may be introduced by the subscriber and by the television code review board. Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the television code review board. The television board of directors may admit such evidence as it deems relevant, material and competent, and may determine the nature and length of the oral argument and the written argument or briefs.

### N. Authority of Presiding Officer; of Television Board of Directors:

The presiding officer shall rule upon all interlocutory matters, such as, but not limited to, the admissibility of evidence, the qualifications of witnesses, etc. On all other matters, authority to act shall be vested in a majority of the television board unless otherwise provided.

### O. Films, Transcriptions, etc.:

Films, kinescopes, records, transcriptions, or other mechanical reproductions of television programs, properly identified, shall be accepted into evidence when relevant.

### P. Continuances and Extensions:

Continuance and extension of any proceeding or for the time of filing or performing any act required or allowed to be done within a specific time may be granted upon request, for a good cause shown. The board or the presiding officer may recess or adjourn a hearing for such time as may be deemed necessary, and may change the place thereof.

### Q. Findings and Conclusions:

The television board of directors shall decide the case as expeditiously as possible and shall notify the subscriber and the television code review board, in writing, of the decision. The decision of the television board of directors shall contain findings of fact with conclusions, as well as the reasons or bases therefor. Findings of fact shall set out in detail and with particularity all basic evidentiary facts developed on the record (with appropriate citations to the transcript of record or exhibit relied on for each evidentiary fact) supporting the conclusion reached.

### R. Reconsideration or Rehearing:

A request for reconsideration or rehearing may be filed

by parties to the hearing. Requests for reconsideration or rehearing shall state with particularity in what respect the decision or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact shall specify the pages of record relied on. If the existence of any newly-discovered evidence is claimed, the request shall be accompanied by a verified statement of the facts together with the facts relied on to show that the party, with due diligence, could not have known or discovered such facts at the time of the hearing. The request for rehearing may seek:

- a. Reconsideration
  - b. Additional oral argument
  - c. Reopening of the proceedings
  - d. Amendment of any findings, or
  - e. Other relief.
- S. Time for Filing:

Requests for reconsideration or rehearing shall be filed within ten (10) days after receipt by the respondent of the decision. Opposition thereto may be filed within five (5) days after the filing of the request.

### T. Penalty, Suspension of:

At the discretion of the television board, application of any penalty provided for in the decision may be suspended until the board makes final disposition of the request for reconsideration or rehearing.

### U. Disqualification:

Any member of the television board may disqualify himself, or upon good cause shown by any interested party, may be disqualified by a majority vote of the television board.

### Section 5. Additional Procedures

When necessary to the proper administration of the code, additional rules of procedure will be established from time to time as authorized by the by-laws of the NAB; in keeping therewith, special consideration shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided that special consideration will be given to procedures insuring the confidential status of proceedings relating to code observance.

### Section 6. Amendment and Review

Because of the new and dynamic aspects inherent in television broadcast, the television code, as a living, flexible and continuing document, may be amended from time to time by the television board of directors; provided that said board is specifically charged with review and reconsideration of the entire code, its appendices and procedures, at least once each year.

### Section 7. Termination of Contracts

All subscribers on the air at the time of subscription to the code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the television code, provided, however, that in no event shall such period be longer than 52 weeks.

## IV. Affiliate Subscribers

### Section 1. Eligibility

Any individual, firm or corporation, which is engaged in the production or distribution, lease, or sale of recorded programs for television presentation, subject to the approval of the television code review board as hereinafter provided, shall be eligible to become an affiliate subscriber to the Television Code of the NAB.

### Section 2. Certification of Subscription

Upon becoming an affiliate subscriber to the code, subject to the approval of the television code review board, there shall be granted forthwith to each such affiliate subscriber authority to use a copyrighted and registered seal and declaration, in a manner approved by the television code review board, identifying the individual firm or corporation as an affiliate subscriber to the Television Code of the NAB. Such authority shall not constitute formal clearance or approval by the television code review board of specific programs or other recorded material.

### Section 3. Duration of Affiliate Subscription

The affiliate subscription shall continue in full force and effect until 30 days after the first of the month following receipt of a written notice of resignation. The affiliate subscription to the code shall be effective from the date of application subject to the approval of the television code review board.

### Section 4. Suspension of Affiliate Subscription

Any affiliate subscription and the authority to utilize and show the above-noted seal may be voided, revoked, or temporarily suspended for the sale or distribution for television presentation of any film or other recorded material which by theme, treatment, or incident, in the judgment of the television code review board, constitutes a continuing, willful or gross violation of any of the provisions of the television code, by a majority vote of the television code review board at any regular or special meeting. The conditions and procedures applicable to subscribers shall not apply to affiliate subscribers.

## Section 5. Representation of Affiliate Subscribers

Any affiliate subscriber or group of affiliate subscribers may authorize an individual or association to act for them in connection with their relations with the television code review board by filing a written notice of such representation with the board. Such representation, however, in no way will limit the right of the television code review board to suspend individual affiliate subscribers in accordance with the provisions of Section 4.

## V. Rates

Each subscriber and affiliate subscriber shall pay "administrative" rates in accordance with such schedule, at such time, and under such conditions as may be determined from time to time by the television board (see Article VI, section 8, C. Television Board [3] and [4], By-Laws of the NAB); provided, that appropriate credit shall be afforded to a television member of the NAB against the regular dues which he or it pays to NAB.

## VI. The Television Code Review Board

### Section 1. Composition

There shall be a continuing committee entitled the television code review board to be composed of not more than nine members, all of whom shall be from subscribers to the television code. They shall be appointed by the president of NAB, subject to confirmation by the television board, and may include one member from each of the subscribing nationwide television networks. Members of the television board shall not be eligible to serve on the review board. Due consideration shall be given, in making the appointments, to factors of diversification of geographical location, market size, company representation and network affiliation.

No person shall continue as a member of the television code review board if the station or entity he represents ceases to subscribe to the television code. In such case a vacancy occurs in the office immediately, and a successor may be appointed to serve out the unexpired term.

All terms shall be for two years, commencing at the close of the annual meeting of the membership following appointment.

### A. Limitation of Service:

No person shall serve for more than two terms of two years each, consecutively, as a member of the television code review board; provided, however, this limitation shall not apply to network representatives.

Serving out the unexpired term of a former member shall not constitute a term within the meaning of this section.

### B. Meetings:

The television code review board shall meet at least twice in each calendar year on a date to be determined by the chairman. The chairman, or the code authority director, may, at any time, on at least five days written notice, call a special meeting of the board.

### C. Quorum:

For all purposes, a majority of the members of the television code review board shall constitute a quorum.

### Section 2. Authority and Responsibilities

The television code review board is authorized and directed:

(1) To recommend to the television board of directors amendments to the television code; (2) to consider, in its discretion, any appeal from any decision made by the code authority director with respect to any matter which has arisen under the code, and to suspend, reverse, or modify any such decision; (3) to prefer formal charges, looking toward the suspension or revocation of the authority to show the code seal, to the television board of directors concerning violations and breaches of the television code by a subscriber; (4) to be available to the code authority director for consultation on any and all matters affecting the television code.

## VII. Code Authority Director

### Section 1. Director

There shall be a position designated as the code authority director. This position shall be filled by appointment of the president of NAB, subject to the approval of the board of directors.

### Section 2. Authority and Responsibilities.

The code authority director is authorized and directed: (1) To maintain a continuing review of all programming and advertising material presented over television, especially that of subscribers to the television code of NAB; (2) to receive, screen and clear complaints concerning television programming; (3) to define and interpret words and phrases in the television code; (4) to develop and maintain appropriate liaison with governmental agencies and with responsible and accountable organizations and institutions; (5) to inform, expeditiously and properly, a subscriber to the television code of complaints or commendations, as well as to advise all subscribers con-

cerning the attitudes and desires program-wise of accountable organizations and institutions, and of the American public in general; (6) to review and monitor, if necessary, any certain series of programs, daily programming, or any other program presentations of a subscriber, as well as to request recorded material, or script and copy, with regard to any certain program presented by a subscriber; (7) to reach conclusions and make recommendations to prefer charges to the tele-

vision code review board concerning violations and breaches of the television code by a subscriber; (8) to recommend to the code review board amendments to the television code.

**A. Delegation of Powers and Responsibilities:**  
The code authority director shall appoint such executive staff as is needed, consistent with resources, to carry out the above described functions, and may delegate to this staff such responsibilities as he may deem necessary.

would properly identify the nature and character of the broadcast.

3. Because of the unique character of political broadcasts and the necessity to retain broad freedoms of policy void of restrictive interference, it is incumbent upon all political candidates and all political parties to observe the canons of good taste and political ethics, keeping in mind the intimacy of broadcasting in the American home.

## NAB Radio Code

### E. Advancement of Education and Culture

1. Because radio is an integral part of American life, there is inherent in radio broadcasting a continuing opportunity to enrich the experience of living through the advancement of education and culture.

2. The radio broadcaster, in augmenting the educational and cultural influences of the home, the church, schools, institutions of higher learning, and other entities devoted to education and culture:

- (a) Should be thoroughly conversant with the educational and cultural needs and aspirations of the community served;
- (b) Should cooperate with the responsible and accountable educational and cultural entities of the community to provide enlightenment of listeners;
- (c) Should engage in experimental efforts designed to advance the community's cultural and educational interests.

### F. Religion and Religious Programs

1. Religious programs shall be presented by responsible individuals, groups or organizations.

2. Radio broadcasting, which reaches men of all creeds simultaneously, shall avoid attacks upon religious faiths.

3. Religious programs shall be presented respectfully and without prejudice or ridicule.

4. Religious programs shall place emphasis on religious doctrines of faith and worship.

### G. Dramatic Programs

1. In determining the acceptability of any dramatic program containing any element of crime, mystery, or horror, proper consideration should be given to the possible effect on all members of the family.

2. Radio should reflect realistically the experience of living, in both its pleasant and tragic aspects, if it is to serve the listener honestly. Nevertheless, it holds a concurrent obligation to provide programs which will encourage better adjustments to life.

3. This obligation is apparent in the area of dramatic programs particularly. Without sacrificing integrity of presentation, dramatic programs on radio shall avoid:

- (a) Techniques and methods of crime presented in such manner as to encourage imitation, or to make the commission of crime attractive, or to suggest that criminals can escape punishment;
- (b) Detailed presentation of brutal killings, torture or physical agony, horror, the use of supernatural or climactic incidents likely to terrify or excite unduly;
- (c) Sound effects calculated to mislead, shock, or unduly alarm the listener;
- (d) Disrespectful portrayal of law enforcement;
- (e) The portrayal of suicide as a satisfactory solution to any problem.

### H. Responsibility Toward Children

The education of children involves giving them a sense of the world at large. It is not enough that programs broadcast for children shall be suitable for the young and immature. In addition, programs which might reasonably be expected to hold the attention of children and which are broadcast during times when children may be normally expected to constitute a substantial part of the audience should be presented with due regard for their effect on children.

- 1. Programs specifically designed for listening by children shall be based upon sound social concepts and shall reflect respect for parents, law and order, clean living, high morals, fair play, and honorable behavior.
- 2. They shall convey the commonly accepted moral, social and ethical ideals characteristic of American life.
- 3. They should contribute to the healthy development of personality and character.
- 4. They should afford opportunities for cultural growth as well as for wholesome entertainment.
- 5. They should be consistent with integrity of realistic production, but they should avoid material of extreme nature which might create undesirable emotional reaction in children.
- 6. They shall avoid appeals urging children to purchase the product specifically for the purpose of keeping the program on the air or which, for any reason,

### Preamble

The radio broadcasters of the United States first adopted industry-wide standards of practice in 1937. The purpose of such standards, in this as in other professions, is to establish guideposts and to set forth minimum tenets for performance.

Standards for broadcasting can never be final or complete. Broadcasting is a creative art and it must always seek new ways to achieve greater advances. Therefore, any standards must be subject to change. In 1945, after two years devoted to reviewing and revising the 1937 document, new standards were promulgated. Further revisions were made in subsequent years when deemed necessary.

Through this process of self-examination broadcasters acknowledge their obligation to the American family.

The growth of broadcasting as a medium of entertainment, education and information has been made possible by its force as an instrument of commerce.

This philosophy of commercial broadcasting as it is known in the United States has enabled the industry to develop as a free medium in the tradition of American enterprise.

The extent of this freedom is implicit in the fact that no one censors broadcasting in the United States.

Those who own the nation's radio broadcasting stations operate them—pursuant to this self-adopted radio code—in recognition of the interest of the American people.

### The Radio Broadcaster's Creed

#### We Believe:

That radio broadcasting in the United States of America is a living symbol of democracy; a significant and necessary instrument for maintaining freedom of expression, as established by the First Amendment to the Constitution of the United States;

That its influence in the arts, in science, in education, in commerce, and upon the public welfare is of such magnitude that the only proper measure of its responsibility is the common good of the whole people;

That it is our obligation to serve the people in such manner as to reflect credit upon our profession and to encourage aspiration toward a better estate for all mankind; by making available to every person in America such programs as will perpetuate the traditional leadership of the United States in all phases of the broadcasting art;

That we should make full and ingenious use of man's store of knowledge, his talents, and his skills and exercise critical and discerning judgment concerning all broadcasting operations to the end that we may, intelligently and sympathetically:

Observe the proprieties and customs of civilized society;

Respect the rights and sensitivities of all people;

Honor the sanctity of marriage and the home;

Protect and uphold the dignity and brotherhood of all mankind;

Enrich the daily life of the people through the factual reporting and analysis of news, and through programs of education, entertainment, and information;

Provide for the fair discussion of matters of general public concern; engage in works directed toward the common good; and volunteer our aid and comfort in times of stress and emergency;

Contribute to the economic welfare of all by expanding the channels of trade, by encouraging the development and conservation of natural resources, and by bringing together the buyer and seller through the broadcasting of information pertaining to goods and services.

Toward the achievement of these purposes we agree to observe the following:

### I. PROGRAM STANDARDS

#### A. News

Radio is unique in its capacity to reach the largest number of people first with reports on current events. This competitive advantage bespeaks caution—being first is not as important as being right. The following standards are predicated upon that viewpoint.

1. News Sources. Those responsible for news on

radio should exercise constant professional care in the selection of sources—for the integrity of the news and the consequent good reputation of radio as a dominant news medium depend largely upon the reliability of such sources.

2. News Reporting. News reporting shall be factual and objective. Good taste shall prevail in the selection and handling of news. Morbid, sensational, or alarming details not essential to factual reporting should be avoided. News should be broadcast in such a manner as to avoid creation of panic and unnecessary alarm. Broadcasters shall be diligent in their supervision of content, format, and presentation of news broadcasts. Equal diligence should be exercised in selection of editors and reporters who direct news gathering and dissemination, since the station's performance in this vital informational field depends largely upon them.

3. Commentaries and Analyses. Special obligations devolve upon those who analyze and/or comment upon news developments, and management should be satisfied completely that the task is to be performed in the best interest of the listening public. Programs of news analysis and commentary shall be clearly identified as such, distinguishing them from straight news reporting.

4. Editorializing. Broadcasts in which stations express their own opinions about issues of general public interest should be clearly identified as editorials and should be clearly distinguished from news and other program material.

5. Coverage of News and Public Events. In the coverage of news and public events the broadcaster has the right to exercise his judgment consonant with the accepted standards of ethical journalism and especially the requirements for decency and decorum in the broadcast of public and court proceedings.

6. Placement of Advertising. A broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

### B. Controversial Public Issues

1. Radio provides a valuable forum for the expression of responsible views on public issues of a controversial nature. The broadcaster should develop programs relating to controversial public issues of importance to his fellow citizens; and give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. Requests by individuals, groups or organizations for time to discuss their views on controversial public issues should be considered on the basis of their individual merits, and in the light of the contributions which the use requested would make to the public interest.

3. Programs devoted to the discussion of controversial public issues should be identified as such. They should not be presented in a manner which would create the impression that the program is other than one dealing with a public issue.

### C. Community Responsibility

1. A broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted with its needs and characteristics in order to serve the welfare of its citizens.

2. Requests for time for the placement of public service announcements or programs should be carefully reviewed with respect to the character and reputation of the group, campaign or organization involved, the public interest content of the message, and the manner of its presentation.

### D. Political Broadcasts

1. Political broadcasts, or the dramatization of political issues designed to influence an election, shall be properly identified as such.

2. They should be presented in a manner which

## NAB Radio Code

encourage children to enter inappropriate places.

7. They should present such subjects as violence and sex without undue emphasis and only as required by plot development or character delineation. Crime should not be presented as attractive or as a solution to human problems, and the inevitable retribution should be made clear.

8. They should avoid reference to kidnapping or threats of kidnapping of children.

### I. General

1. The intimacy and confidence placed in radio demand of the broadcaster, the networks and other program sources that they be vigilant in protecting the audience from deceptive program practices.

2. Sound effects and expressions characteristically associated with news broadcasts (such as "bulletin," "flash," "we interrupt this program to bring you," etc.) shall be reserved for announcement of news, and the use of any deceptive techniques in connection with fictional events and non-news programs shall not be employed.

3. The acceptance of cash payments or other considerations for, including identification of commercial products or services, trade names or advertising slogans, including the identification of prizes, etc., must be disclosed in accordance with provisions of the Communications Act.

4. When plot development requires the use of material which depends upon physical or mental handicaps, care should be taken to spare the sensibilities of sufferers from similar defects.

5. Stations should avoid broadcasting program material which would tend to encourage illegal gambling or other violations of federal, state and local laws, ordinances, and regulations.

6. Simulation of court atmosphere or use of the term "court" in a program title should be done only in such manner as to eliminate the possibility of creating the false impression that the proceedings broadcast are vested with judicial or official authority.

7. Quiz and similar programs, that are presented as contests of knowledge, information, skill or luck must in fact, be genuine contests and the results must not be controlled by collusion with or between contestants, or any other action which will favor one contestant against any other.

8. No program shall be presented in a manner which through artifice or simulation would mislead the audience as to any material fact. Each broadcaster must exercise reasonable judgment to determine whether a particular method of presentation would constitute a material deception, or would be accepted by the audience as normal theatrical illusion.

9. Legal, medical and other professional advice will be permitted only in conformity with law and recognized ethical and professional standards.

10. Narcotic addiction shall not be presented except as a vicious habit. The misuse of hallucinogenic drugs shall not be presented or encouraged as desirable or socially acceptable.

11. Program material pertaining to fortune-telling, occultism, astrology, phrenology, palm-reading, numerology, mind-reading, character-reading, or subjects of a like nature, is unacceptable when presented for the purpose of fostering belief in these subjects.

12. The use of cigarettes shall not be presented in a manner to impress the youth of our country that it is a desirable habit worthy of imitation in that it contributes to health, individual achievement or social acceptance.

13. Profanity, obscenity, smut and vulgarity are forbidden. From time to time, words which have been acceptable, acquire undesirable meanings, and broadcasters should be alert to eliminate such words.

14. Words (especially slang) derivative of any sex, race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization, such as combating prejudice, are forbidden.

15. Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually as a solution for marital problems.

16. Broadcasts of actual sporting events at which on-the-scene betting is permitted should concentrate on the subject as a public sporting event and not on the aspects of gambling.

### II. ADVERTISING STANDARDS

Advertising is the principal source of revenue of the free, competitive American system of radio broadcasting. It makes possible the presentation to all American people of the finest programs of entertainment, education, and information.

Since the great strength of American radio broadcasting derives from the public respect for and the public approval of its programs, it must be the purpose of

each broadcaster to establish and maintain high standards of performance, not only in the selection and production of all programs, but also in the presentation of advertising.

This code establishes basic standards for all radio broadcasting. The principles of acceptability and good taste within the program standards section govern the presentation of advertising where applicable. In addition, the code establishes in this section special standards which apply to radio advertising.

#### A. General Advertising Standards

1. A commercial radio broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, he shall, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements.

2. In consideration of the customs and attitudes of the communities served, each radio broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. These standards should be applied with judgment and flexibility, taking into consideration the characteristics of the medium, its home and family audience, and the form and content of the particular presentation.

#### B. Presentation of Advertising

1. The advancing techniques of the broadcast art have shown that the quality and proper integration of advertising copy are just as important as measurement in time. The measure of a station's service to its audience is determined by its overall performance.

2. The final measurement of any commercial broadcast service is quality. To this, every broadcaster shall dedicate his best effort.

3. Great care shall be exercised by the broadcaster to prevent the presentation of false, misleading or deceptive advertising. While it is entirely appropriate to present a product in a favorable light and atmosphere, the presentation must not, by copy or demonstration, involve a material deception as to the characteristics or performance of a product.

4. The broadcaster and the advertiser should exercise special caution with the content and presentation of commercials placed in or near programs designed for children. Exploitation of children should be avoided. Commercials directed to children should in no way mislead as to the product's performance and usefulness. Appeals involving matters of health which should be determined by physicians should be avoided.

5. Reference to the results of research, surveys or tests relating to the product to be advertised shall not be presented in a manner so as to create an impression of fact beyond that established by the study. Surveys, tests or other research results upon which claims are based must be conducted under recognized research techniques and standards.

#### C. Acceptability of Advertisers and Products

In general, because radio broadcasting is designed for the home and the entire family, the following principles shall govern the business classifications:

1. The advertising of hard liquor shall not be accepted.

2. The advertising of beer and wines is acceptable when presented in the best of good taste and discretion.

3. The advertising of fortune-telling, occultism, astrology, phrenology, palm-reading, numerology, mind-reading, character-reading, or subjects of a like nature, is not acceptable.

4. Because the advertising of all products and services of a personal nature raises special problems, such advertising, when accepted, should be treated with emphasis on ethics and the canons of good taste, and presented in a restrained and inoffensive manner.

5. The advertising of lotteries is unacceptable. The advertising of tip sheets and other publications seeking to advertise for the purpose of giving odds or promoting betting is unacceptable.

The advertising of organizations, private or governmental, which conduct legalized betting on sporting contests is acceptable, provided it is limited to institutional type advertising which does not exhort the public to bet.

6. An advertiser who markets more than one product shall not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

7. Care should be taken to avoid presentation of "bait-switch" advertising whereby goods or services which the advertiser has no intention of selling are offered merely to lure the customer into purchasing higher-priced substitutes.

8. Advertising should offer a product or service on its positive merits and refrain from discrediting, disparaging or unfairly attacking competitors, competing products, other industries, professions or institutions.

Any identification or comparison of a competitive product or service, by name, or other means, should be confined to specific facts rather than generalized statements or conclusions, unless such statements or conclusions are not derogatory in nature.

9. Advertising testimonials should be genuine, and reflect an honest appraisal of personal experience.

10. Advertising by institutions or enterprises offering instruction with exaggerated claims for opportunities awaiting those who enroll, is unacceptable.

11. The advertising of firearms/ammunition is acceptable provided it promotes the product only as sporting equipment and conforms to recognized standards of safety as well as all applicable laws and regulations. Advertisements of firearms ammunition by mail order are unacceptable.

#### D. Advertising of Medical Products

Because advertising for over-the-counter products involving health considerations are of intimate and far-reaching importance to the consumer, the following principles should apply to such advertising:

1. When dramatized advertising material involves statements by doctors, dentists, nurses or other professional people, the material should be presented by members of such profession reciting actual experience, or it should be made apparent from the presentation itself that the portrayal is dramatized.

2. Because of the personal nature of the advertising of medical products, the indiscriminate use of such words as "safe," "without risk," "harmless," or other terms of similar meaning, either direct or implied, should not be expressed in the advertising of medical products.

3. Advertising material which offensively describes or dramatizes distress or morbid situations involving ailments is not acceptable.

#### E. Time Standards for Advertising Copy

1. The amount of time to be used for advertising should not exceed 18 minutes within any clock hour. The code authority, however, for good cause, may approve advertising exceeding the above standard for special circumstances.

2. Any reference to another's products or services under any trade name, or language sufficiently descriptive to identify it, shall, except for normal guest identification, be considered as advertising copy.

3. For the purpose of determining advertising limitations, such program types as "classified," "swap shop," "shopping guides," and "farm auction" programs, etc., shall be regarded as containing one and one-half minutes of advertising for each five-minute segment.

#### F. Contests

1. Contests shall be conducted with fairness to all entrants, and shall comply with all pertinent laws and regulations.

2. All contest details, including rules, eligibility requirements, opening and termination dates, should be clearly and completely announced or easily accessible to the listening public; and the winners' names should be released as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of products, reasonable facilities thereof should be made acceptable. However, when the award is based upon skill and not upon chance, evidence of purchase may be required.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time limitations heretofore provided. (See Time Standards for Advertising Copy.)

#### G. Premiums and Offers

1. The broadcaster should require that full details of proposed offers be submitted for investigation and approval before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. If a consideration is required, the advertiser should agree to honor complaints indicating dissatisfaction with the premium by returning the consideration.

4. There should be no misleading descriptions or comparisons of any premiums or gifts which will distort or enlarge their value in the minds of the listeners.

# Programming on Radio Stations in the United States

## Formats

Following, in alphabetical order, by city, state and call letter within each classification, is a listing of program formats and the radio stations that use them.

For convenience the editors have combined the format types indicated by the stations into logical groupings. A station using a combination of formats may appear under several classifications. Blocks of programming averaging less than some 20 hours per week are considered "special programming"; a list of stations by special programs is presented in a supplementary directory.

In many cases more specific information on format or special programming is given in individual listings in the C section station directory, including addresses for each station.

## Dynaphonic™ Audio-Recording Tape Cassettes

Standard output (Full Range) and low noise high output (Extended Range) magnetic oxide recording tapes housed in tough, warp resistant plastic cases. Manufactured to the strictest standards of cleanliness and quality workmanship to ensure longlasting, trouble-free service. Physical and recording characteristics conform to GSA spec FPNHO-R-55228-A-6-7-73; cassette dimensions and openings conform to spec IEC 94A. Playing time per side when running at 1.875" per second, as follows:

Designation	Normal	Minimum	Maximum
C-30	15 min. 22 sec.	15 min.	16 min. 10 sec.
C-60	30 min. 44 sec.	30 min.	32 min. 20 sec.
C-90	46 min. 6 sec.	45 min.	49 min. 30 sec.
C-120	61 min. 30 sec.	60 min.	64 min. 40 sec.

### FULL RANGE 910-SERIES DYNAPHONIC™ CASSETTES

Flat frequency response of 50 to 7500 cycles within 4 dB. Recording noise level of -55 dB. High quality welded cassette housing. **MINIMUM ORDER: 500 PER TYPE**

### EXTENDED RANGE 920-SERIES DYNAPHONIC™ CASSETTES

Output at 6300 cycles plus 2 dB relative to 910 Series recording tape. Frequency response of 25 to 11,000 cycles within 4 dB. Noise level of -58 dB. 5-screw, precision cassette housing. **MINIMUM ORDER: 500 PER TYPE**

# THE END OF HALF YOUR NEWS AND DOCUMENTARY PROBLEMS.

It's hard to think of any phase of motion pictures that depends as much upon its equipment as filming for television. With news or documentaries, the smallest mistake in choosing equipment can make you miss the biggest story; the smallest malfunction can leave you high and dry, without a second chance.

At Camera Mart, we understand. So we don't give problems a fighting chance. We start with the widest variety of equipment

especially designed for TV filming. Cameras, lenses and accessories. Tripods, shoulder braces and car mounts. Sun guns and lightweight lights. Even a complete mobile! No matter what you prefer, or how many in your crew, we have it off-the-shelf, and ready to go.

When you're cutting your footage against a tight deadline, you can rely on us, too. For the latest flatbed. Synchronizers. Viewers. Dubbers. Right down to splicing tape, leaders, markers and gloves.

## THE END OF THE OTHER HALF.

But having the right equipment, as you've probably heard us say, only puts you halfway home. The other half is people—helpful, knowledgeable, even dedicated. People like ours.

When you work with Camera Mart, you'll find our service isn't just lip service. Rent or lease, and you'll be taking out equipment

that's fanatically maintained—inspected and tested to factory standards before and after each use. Buy from us, and don't be surprised to find your carton open. Unless you instruct us otherwise, we'll fully inspect it and test it ourselves, to be sure you're getting the performance you deserve.

Whether you're looking for advice—or the most for your money—see the people who've put together more TV news and documentary packages than anyone else in the world. Write or call Shelly Brown or Herb Browning.

## DPTC-FM SERIES FM DRY LOADS

DPTC-10KFM

Model	Average Power	Connector	VSWR
DPTC-10KFM	10KW	3/8"	1.2:1
DPTC-20KFM	20KW	3/8"	1.2:1
DPTC-30KFM	30KW	3/8"	1.2:1
DPTC-40KFM	40KW	3/8"	1.2:1
DPTC-50KFM	50KW	6/8"	1.2:1
DPTC-75KFM	75KW	6/8"	1.25:1

### Specifications:

#### Model DPTC-10KFM

**Power Rating:** 10,000 watts

**Duty:** Continuous

**Frequency:** 85-110 MHz

**VSWR:** 1.2:1

**Weight:** 37 pounds

**Connector:** 3/8" standard

**Finish:** Light Grey

**Power Required:** 110VAC 50/60Hz Std.

**Ambient Temp. Range:** -40° to 52°C

**Dimensions:** 38 h x 11 d x 16" w.

The new Electro Impulse Dry FM Band Termination will save the costs of water or expensive installations for other types of Loads.

Consisting of a practically indestructible resistive element in a stream of forced ambient air, the DPTC-10KFM will operate silently for just a few pennies a year... and we guarantee it for 2!

#### APPLICATION:

Highly dependable Termination for FM Transmitters. Requires only 110 VAC, 30 watts power.

#### UNIQUE WARRANTY

"This Termination is Unconditionally Guaranteed against defects in parts or workmanship for a period of 25 months, provided it is operated within recommended parameters."

## Mike/Lite Bracket for CP-16 Reflex and Non-Reflex cameras.

An ideal accessory for the "one-man-band" TV-news/film documentary cameraman. The new Mike/Lite Bracket is easily mounted on all CP-16 camera models, and is supplied with interchangeable 1/2" and 5/8" studs for mounting microphones and lighting fixtures.

CP-16/A camera

A specially designed locking pivot-arm on the bracket permits maximum flexibility in positioning the microphone and light fixture in relation to each other.

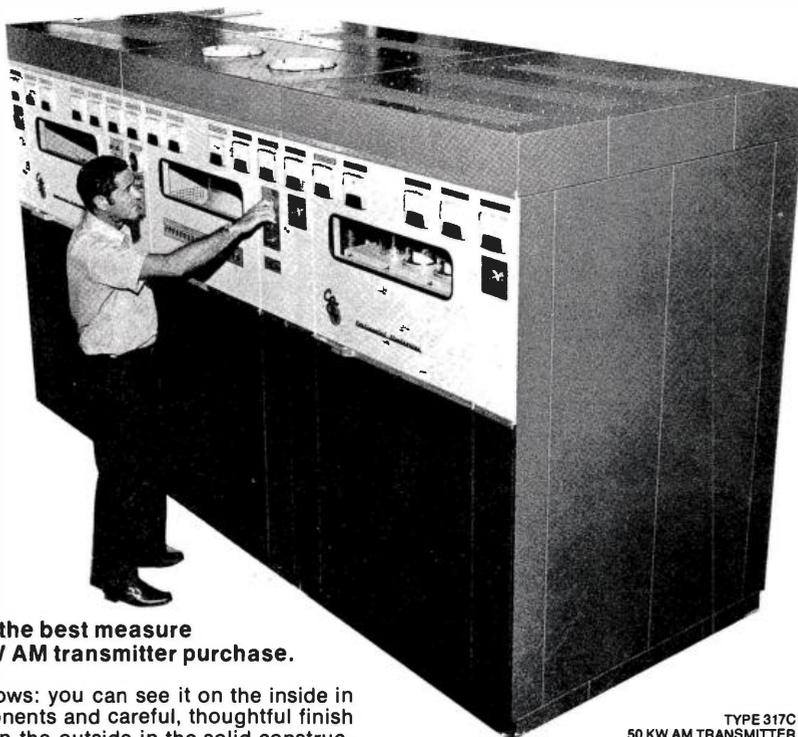

CP-16R/A camera is shown with Mike/Lite Bracket, RE50 microphone, and Cinema Products' new Sturdy-Lite quartz focusing spot (operating at 600 watt-120 volt AC/DC or 250 watt-30 volt DC).

# Quality shows & tells.

**Continental Quality: the best measure for any 5, 10 or 50 KW AM transmitter purchase.**

Continental Quality shows: you can see it on the inside in the selection of components and careful, thoughtful finish work. You can see it on the outside in the solid construction; the well thought out and easy to use control panels. Continental Quality tells: you can hear the difference on-the-air, and that's where it counts.

It adds up to Continental Quality performance: few tubes; 125% positive modulation; reserve power capabilities; efficient, reliable operation without the limitations of high power audio iron core components or the high voltages associated with series modulation.

# PERFECT MATCH!

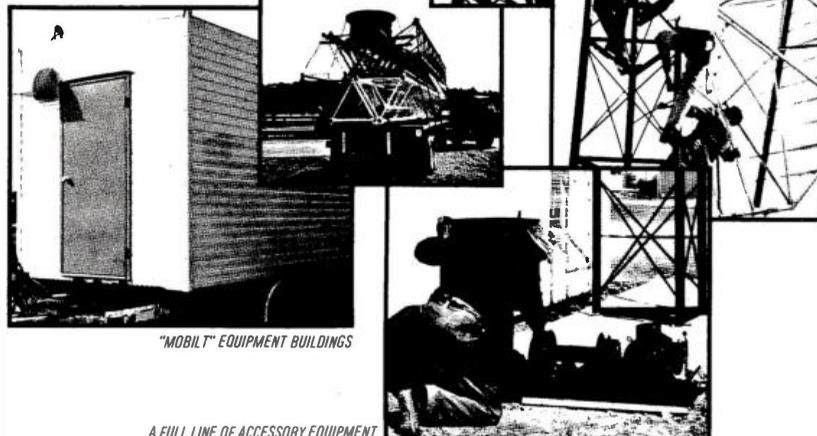

TOWERS AND REFLECTORS

EXPERIENCED CREWS

FAST DELIVERY!

"MOBILT" EQUIPMENT BUILDINGS

A FULL LINE OF ACCESSORY EQUIPMENT

Looking for BIG SYSTEM capability in your tower supplier? Fort Worth Tower Company has it. For two decades we've been building high quality communications towers, large and small. Towers for public utilities, railroads, public safety agencies, microwave firms, and the many other communications industries where big system reliability is essential. Towers individually engineered to fit each system's unique requirements.

Fort Worth Tower Co. also offers a complete array of support equip-

ment for your system including microwave reflectors, equipment lifts, and many other related items. You get top performance with a perfect match of equipment and accessories.

For maximum reliability, include a **FORT WORTH MOBILT EQUIPMENT BUILDING** in your specifications. Designed expressly to house communications electronic equipment, Fort Worth Mobilts withstand any climate or location problem...house electronic equipment according to the most rigid standards. Your building comes

with supporting l-beams. Simply drop on your site, connect the service inlet, and you're in business. Mobilts save you time and money because complete wiring is installed at the factory. Many options are available in size, outside finish, wiring and ventilation. You'll find a Mobilt exactly suited to your needs.

We'd like to put our products and experience to work in your system. For full information and a precise quote on your project, please contact us. We'd like the opportunity to serve you.

# ANTENNA MONITORING WITH A COMPLETE

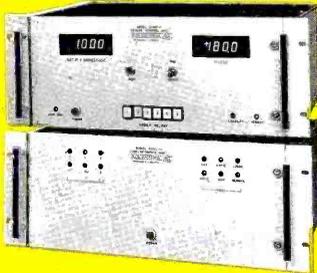

FCC TYPE APPROVAL NUMBER 3-218

# TRUE DIGITAL SYSTEM

The DAM-1 is a true digital antenna monitor designed specifically for measuring the parameters of broadcast frequency directional antenna systems. Digital data is not obtained by adding an A/D converter to the output of conventional analog circuitry; instead, the latest digital techniques and TTL components are applied to achieve a truly digital approach to phase and current ratio measurements. Data is displayed on front panel seven-segment digital readouts to minimize reading error. A simplified selection system reduces operation of the DAM-1 to a straightforward procedure.

- A true digital antenna monitor specifically designed for broadcast directional antenna systems.
- Complies with FCC monitor and remote reading specifications. DAM-1 has received FCC Type Approved Number 3-218.

## TWO WIRE TRANSMISSION REMOTE CONTROL UNITS DAML-1/DAMR-1

The DAML-1 and DAMR-1 provide for long distance remote control and readout of the DAM-1. Digital data is transmitted in both directions by integral FSK modems at 300 BPS.

## HARDWIRE REMOTE CONTROL UNIT DAMH-1

The DAMH-1 provides for remote control and readout of the DAM-1 at distances to 1,000 feet.

## TWELVE TOWER EXTENSION UNIT DAMX-1

The DAMX-1 permits the DAM-1 to be used for directional antenna systems with up to 12 towers.

## TOROIDAL CURRENT TRANSFORMERS TCT

The TCT-1 and TCT-2 are precision toroidal current transformers to provide RF sampling voltages for the DAM-1 or other metering applications.

## COMBINED DIGITAL TRANSMITTER REMOTE CONTROL AND MONITORING SYSTEM TMCS-1

The TMCS-1 provides full transmitter control and digital antenna monitoring. Includes integral FSK modems.

# Discover Single System Sound Super-8 Movies with the New Beaulieu "5008S"

For the last 10 years, Super-8 film has been "silent". Without sound, your Super-8 movies were "incomplete".

Today, there is "Ektasound" film, a revolutionary film which provides the means to record sound (directly on the film) as you're filming. You, therefore, can shoot "complete" movies.

With the new Beaulieu movie camera, you will go even further in Super-8. The "5008S" benefits from the advanced technology provided by Beaulieu: an image with a professional touch, and now sound with a high quality level.

## Professional Sound Quality

Pop in a new Super-8 sound ("Ektasound") film cartridge. Focus. Then, plug in the mike. That's all the preparation you need. With the Beaulieu "5008S", you're now ready to start filming professional quality Super-8 single system sound movies.

An amplifier is built into the camera which records the sound directly onto the magnetic stripe of your sound film. The camera records high fidelity sound, both in treble as well as bass (*frequency response*: 50-12,000 Hz  $\pm$  1.5 dB; *distortion*: less than 0.75%; *signal-to-noise ratio*: 57 dB; *wow and flutter*, attenuated peak: less than 0.4%).

The "5008S" modulates the single system sound recording automatically. However, there is also a "manual" setting so that you can modulate the sound as you are filming (by using the VU meter).

## "XL" (Existing Light) Filming Capability

The "5008S" has "XL" (Existing Light) filming capability which is provided by: a *super-fast* lens (f1.2, 6-80mm Angenieux zoom), a longer exposure time for the image (1/40 second), and a through-the-lens metering system that sends 100% of the available light to the film.

Since many of your sound movies will be filmed indoors, this feature will enable you to shoot films in the available light of your scene (whether that "light" is bright or not).

## From the "Widest" Wide Angle Shot . . . To the "Closest" Close-Up

For the lens, Beaulieu turned to the professional and technical "know how" of Angenieux (which supplies NASA for all their space missions).

Angenieux succeeded in creating a new zoom lens that covers all the focal lengths from 6-80mm (a 13.3 to 1 zoom ratio).

Imagine such a lens in 35mm still photography. It would go from a 35mm wide angle to a 500mm tele.

In addition, the lens opens to f1.2 (an *unprecedented feature* on a zoom lens with such a wide focal length range).

## New Dolly Shot Style

The power zoom of the Beaulieu "5008S" is continuously variable. You can travel the full focal length range in 4 seconds, or 12 seconds (*or any speed in between*).

## Macrocinematography – Without Touching the Subject

To film macrocinematography with the "5008S", just zoom to 80mm and focus. At the minimum focusing distance of 2 feet, 8 inches, you get all the light available since the lens doesn't actually touch the subject. For example, at this distance, a postage stamp

(1½" x 1-1/5" in size) completely fills the viewfinder (and consequently, the screen—when projecting).

## Forget the Exposure

With the "5008S", you can concentrate totally on framing and sound recording. The diaphragm operates automatically and stops instantly at the right aperture. (This feature has "Manual Override".)

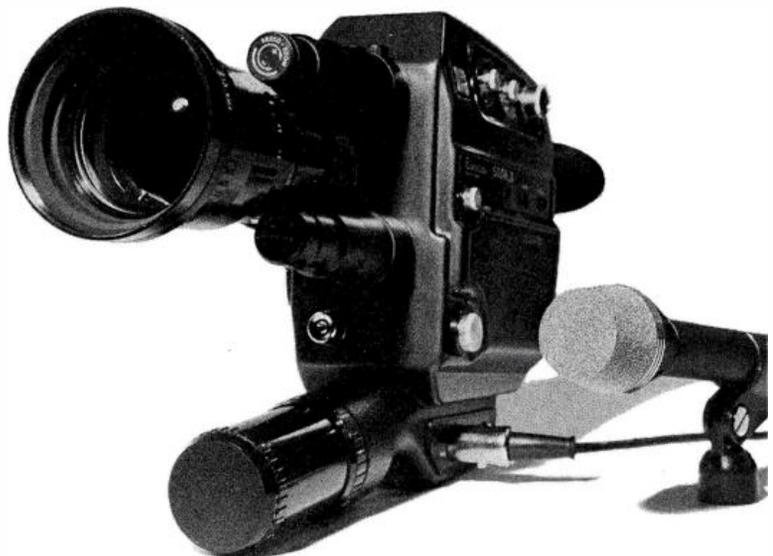

## Lens Interchangeability

The "5008S" is the only single system sound camera with an interchangeable lens. It accepts 35mm still photography lenses (by means of an adapter), as well as all 16mm "C" mount lenses.

The choice is yours. You can interchange an unlimited amount of different lenses in order to create a certain "feeling" or effect in your films.

For full information on the new Beaulieu "5008S" Super-8 Single System Sound Camera, please write to:

# Swiss performance at American prices has made the **ELECTRO SOUND 505** the new standard of the tape recording world.

It isn't surprising when you consider the Electro Sound tradition of excellence and high reliability that has made us the world's leading manufacturer of professional high-speed tape duplicators. It certainly isn't surprising when precision performance like that of the ES-505 comes at one half the price of the most expensive European and domestic machines.

Why has the ES-505 met with instant acceptance the world over? Because of modest price coupled with "operator engineered" features found nowhere else. Like a disappearing headgate for easy editing and cleaning. A built-in audio oscillator to speed alignment and testing. Optical motion sensing to prevent tape damage. Improved timing accuracy. Extremely low wow and flutter. And the time-proven reliability of disc brakes and a replaceable capstan idler, both developed originally for our tape duplicators.

Add to this an optional third reel to simplify tape handling and the world's only 1½ year extended parts warranty and you have reasons enough for the success of the Electro Sound ES-505.

Send for a brochure and all the specs. You'll like what you see.

# Freedom of choice!

**E7** Professional sound has entered a new era. It started with the Electro-Voice Model RE15. And now there are four E-V dynamic cardioid microphones that share its distinctive advantages — with some unique benefits of their own.

### Unaffected by Distance . . . Angle

Basic to all of these microphones is Exclusive Electro-Voice Continuously Variable-D\* construction. Now it offers something you've never heard before with any microphone: no matter what you do, microphone response never varies!

Whether performers almost swallow the microphone, wander far off-mike . . . or even move around to the back . . . you'll still get the same smooth response. Only the level changes.

Once you set equalization it remains constant. You have full assurance that tonal balance won't change between the dress rehearsal and the final performance, no matter what the talent does.

### Improved Cardioid Pattern

Only acoustics and noise can limit you. Yet even here these new E-V microphones gain an advantage from the super-cardioid pattern that provides better sound control than ordinary cardioids. With maximum rejection 150° off axis, it is easier to eliminate unwanted sound while maintaining normal stand or boom microphone positions. There's also an integral bass-tilt circuit to cut rumble below 100 Hz. when needed.

### Now Select from Four Models

In addition to the original RE15, we've added the RE16. The same fine microphone with an external "pop" filter to solve the problems of ultra-close miking.

The new RE10 is the economy version of the RE15. The same concept and quality, but for slightly less rigid requirements. And the RE11 is the lower cost twin to the RE16.

These four great cardioid microphones give you new freedom to head off sound problems before they start. Your E-V microphone headquarters has them waiting. Choose today.

## new LSC VEDETTE

### 16mm and 35mm PROFESSIONAL PROJECTORS

for fast, safe, high speed viewing and inspection of motion picture film

- The ideal machine for film quality control, timing and correction, and release print inspection. Handles negatives, fine grains and prints.
- Visual inspection of both picture and optical sound track. Solid state amplifier for simultaneous monitoring of picture and sound.
- Efficient revolving prism shutter and sharp optics produce bright, clear images without overheating film.

- Smooth, gentle film handling at up to 400 ft./min., without intermittent movement of usual claw or Geneva gear drive. Stable, positive focus. 2,000 foot film capacity.

Write for LSC Velette literature or request a "no obligation" demonstration.

## LIPSNER-SMITH CORPORATION

7334 No. Clark St., Chicago, Ill. 60626 • 312-338-3040

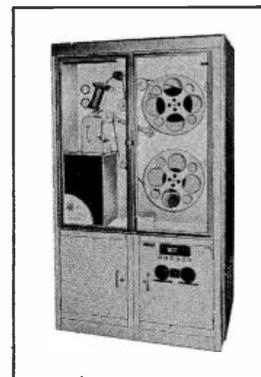

## CF<sub>2</sub> ULTRASONIC CLEANER

### for MOTION PICTURE FILM • MICROFILM • MAGNETIC TAPE

Presented The Academy of Motion Pictures Arts and Sciences Award of Merit for Outstanding Technical Achievement.

Ultrasonic energy is the most effective and economical way to completely clean motion picture film, microfilm and tape without mechanical scrubbing and wiping. Ultrasonic energy performs the entire cleaning operation.

- Restores clarity and sound to maximum quality.
- Enhances the entertainment value of motion picture film and improves commercials.
- Assures static free film with color balance undisturbed.
- Cuts projector maintenance costs... no dirt or dust carried into gates and orifices... less breakdowns.
- Completely automatic... requires only loading and unloading.

- Costs only 1/20 of a penny per running foot to operate.
- Used by every major motion picture lab in the world.

Descriptive brochure will be sent on request

# Cablewave Systems gives you a greater selection of coax construction.

If you're faced with the specifying or purchasing of coaxial cable, here's a complete single source for just about everything you need. We offer four different constructions, air and foam dielectric, smooth wall aluminum or copper corrugated sheathing, in sizes ranging from .180 inch to 3 inches. Continuous lengths are available up to 5,000 feet. Short custom cut lengths are no problem. We'll also pre-form coax to your specifications and terminate with connectors of your choice.

Look to the leaders in coaxial cable. Look to Cablewave Systems. Call or write for literature and prices: Cablewave Systems Inc., 60 Dodge Avenue, North Haven, Connecticut 06473, 203 239-3311.

# THE NEW STANDARD

## COVERS AM BAND PLUS HARMONICS TO 5 MHz

The Model FIM-41 Field Strength Meter has many more features —

- Measures Harmonics to -80 dB
- High Adjacent Channel Rejection
- Ganged Oscillator/Receiver Tuning
- Stable Operation over wide Temperature Range
- Low Battery Drain Circuits
- Front Panel Speaker
- Large illuminated Meter and Tuning Dial
- Indicates field strength accurately down to 10  $\mu$  volts/M
- RF input jack for tuned voltmeter applications

# FCC Rule 73.69 + \$1660 =

## AM-19(204)

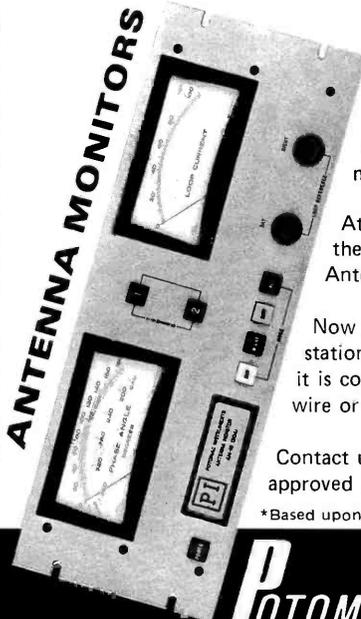

The FCC now says that you must have an approved Antenna Monitor. Since this is an added expense, consider carefully what is required of the monitor versus what it will cost.

At \$1660\*, the Model AM-19 (204) is the lowest priced, FCC type approved Antenna Monitor available.

Now after several years of use at many stations, it has proven its reliability. And, it is compatible with virtually every type of wire or wireless remote control system.

Contact us now on this and other FCC type approved Antenna Monitors.

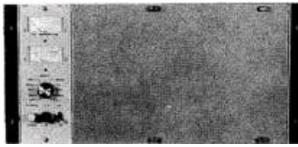

\*Based upon 2 tower, DA-2.

# MARTI... SELLS PROGRAM LINES

STL Transmitter

STL Receiver

Marti Electronics, Inc., has now been actively engaged in the design and manufacturing of Studio-Transmitter Link equipment for both AM and FM Broadcast, and Inter-City Relay Systems, for the past 9 years. Having well over 300 systems on the air and operating throughout the 50 United States and many more internationally, soundness of design, reliability and sound quality are a matter of record.

It is our earnest opinion that the only logical answer to increased telephone line costs, minimum "lost air" time, improved sound quality and a general reduction in operating costs lies in the use of STL, Remote Control and Telemetry equipment.

## AURAL STUDIO-TRANSMITTER LINK INTER-CITY RELAY AM - FM 950 MHZ MONO-STEREO

### FEATURES:

- \*All Solid-State
- \*Direct FM Modulator
- \*Field Proven Varactor Final
- \*Plug-in Modular Construction
- \*Solid-State Ovens
- \*Hi-Accuracy Crystals

### SYSTEM SPECIFICATIONS

Frequency Response: + or - .5 db. from 40 Hz to 15,000 Hz.  
Distortion: 0.6% or less, 50 Hz to 15,000 Hz.  
Signal To Noise: -65 db. or better. Ref. 400 Hz. Mod. 100%

## DIGITAL REMOTE CONTROL DRC-24

### FEATURES:

- \* SINGLE BUTTON, DIRECT CHANNEL SELECT
- \* EXCEEDS ALL FCC REQUIREMENTS FOR ACCURACY OF ANTENNA SYSTEM DATA
- \* STUDIO & TRANSMITTER UNITS PHASE LOCKED TO COMMON CLOCK
- \* TELEMETRY ACCURACY 0.1%
- \* BASIC 8-CHANNEL SYSTEM EXPANDABLE TO 16 OR 24 CHANNELS

- STATUS/TOLERANCE LIMIT ALARM
- FULLY DIGITAL FOR RADIO CIRCUIT OR WIRE-LINE OPERATION
- PLUG-IN MODULES FOR FSK FREQUENCY CHANGE
- ADAPTABLE TO MULTIPLE TRANSMITTER CONTROL FROM MULTIPLE CONTROL POINTS
- STATUS INDICATION (OPTIONAL)

### SPECIFICATIONS

COMMAND AND TELEMETRY FREQUENCIES:

#### Command

Wire Line—2 KHz.  
STL—22 KHz.

#### Telemetry

Simplex Wire Line—2 KHz.  
Duplex Wire Line 800 Hz. & 2 KHz.  
SCA—2 Hz.  
SCA—800 Hz.  
SCA—25 Hz. Sub-Audible  
AM—25 Hz. Sub-Audible

#### COMMAND SPEED:

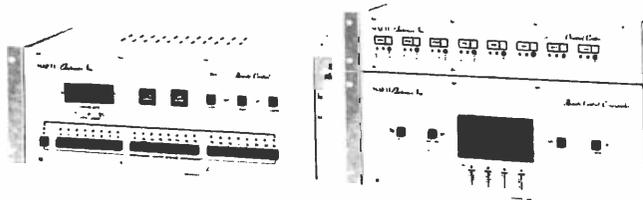

22 KHz.—40 milliseconds      2 KHz.—400 milliseconds

#### TELEMETRY UPDATE TIME:

22 KHz.—40 Msec.      800 KHz.—800 Msec.  
2 KHz.—400 Msec.      25 Hz. —6.1 seconds

#### CHANNEL CAPACITY:

<u>8 Channel</u>	<u>16 Channel</u>	<u>24 Channel</u>
16 Command	32 Command	48 Command
8 Telemetry	16 Telemetry	24 Telemetry

DRC-24 Studio Unit

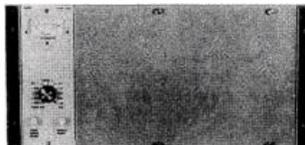

DRT-24 Transmitter Unit

The Marti DRC-24 is a completely Digital Remote Control, Telemetry and STATUS/ALARM\* system, providing the ULTIMATE IN ACCURACY, SIMPLICITY, AND SPEED OF OPERATION. Channel selection is accomplished simply by pressing a SINGLE button. The data for the selected channel is then read from the large digital panel display. Raise/Lower commands can be given for the selected channel by pressing the Raise or Lower button.

The integrity of the entire digital process is assured by validation of received data transmission by checking proper start, parity, and stop bits, A FEATURE FOUND IN THE MOST SOPHISTICATED DATA PROCESSING EQUIPMENT. THIS ADVANCED DESIGN FEATURE VIRTUALLY ELIMINATES THE POSSIBILITY OF ERROR IN CHANNEL SELECTION, COMMAND AND TELEMETRY DATA.

RPU Transmitter

RPU Receiver

Radio Remote Pickup Equipment is versatile, dependable and an entree to profitable radio broadcasting. That is the acclaim given to Marti RPU Equipment by American Radio Broadcasters. "How did we ever operate a radio station without it?", is the comment most often heard after equipment has been purchased and put into service.

The progressive minded, community spirited broadcaster, can find many uses for Remote Pickup Equipment. He will do many more remotes than he is presently doing, simply because the equipment is available at a moment's notice. To coin an old cliché, "It doesn't cost—it pays."

## RADIO REMOTE PICKUP

### 150 - 450 MHZ

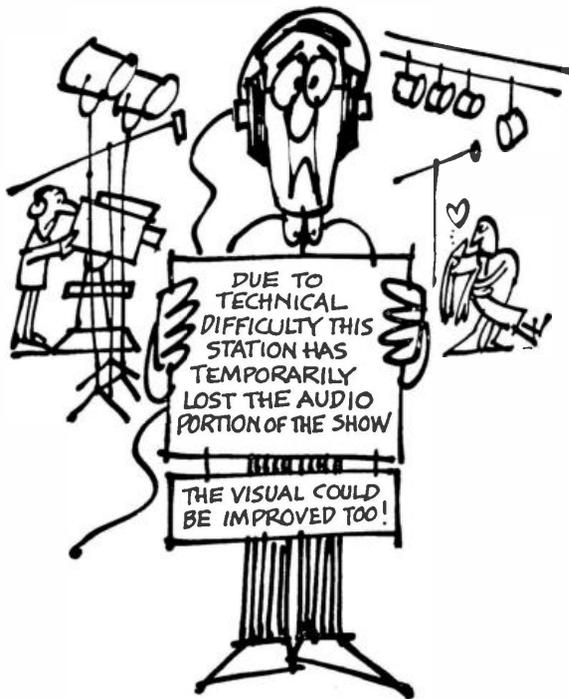

### FEATURES:

- \*All Solid-State
- \*Direct FM Modulator
- \*Broadcast Quality—Continuous Duty
- \*Four Audio Mixing Channels
- \*Plug-in Modular Construction
- \*1. F. Crystal Filter
- \*Taut Band Meters

If you're  
serious about cost,  
be serious about quality.

At Schafer, we've built a 21 year reputation of providing reliable equipment with more features for every dollar. With today's inflation, that's more important to you than ever before. So if you're serious about cost . . . now and in the years to come . . . be serious about quality.

Be Serious about Schafer. The people who invented automation.

# Silent Partners

If you are involved in the business of professional tape recording, we have an interesting proposition for you.

A couple of silent partners who will work day and night, assure excellent results, let you maintain full control and be unfailingly reliable.

They are the new Revox A700 tape recorder and the Beyer DT109 microphone/headphone combination and both of them come with excellent credentials.

The Revox A700 is the most recent addition to the Revox line which already includes the critically acclaimed A77, a machine which was described by the *Stereophile Magazine* as "unquestionably the best tape recorder we have ever tested."

Of the new Revox A700, "Tape Magazine" says, "We could find no fault with the Revox A700 and fully accept the maker's claim that it bridges the gap between the home and the recording studio." Listening to tapes made on the new Revox A700 is a revelatory experience. Tape hiss is virtually non-existent. The music seems to emerge from a background of velvety silence and at 3¾ ips the absence of extraneous noise is truly startling.

As for the Beyer DT109 microphone/headphones, they are in a class by themselves. Highly sensitive and capable of withstanding immensely high sound pressure without overload or distortion, they feature modular

construction with a unique multi-pin plug in lead allowing separate wiring of left and right headphone channels, independently of the microphone.

Add featherweight comfort and effective ear sealing together with a wide frequency, true cardioid, broadcast quality microphone specially designed to work under extremes of temperature and humidity, and it is easy to understand why the DT109 has become so popular for live remote broadcasting, studio, film, television, disc jockey and language laboratory applications.

Together or separately, our remarkable silent partners could open you ears to recording and broadcasting possibilities you never knew existed.

Your nearest Revox professional/Beyer dealer will be delighted to arrange an introduction.

We think once you have met them you will wonder how you ever did without them.

Illustrations may contain optional extras.

BS12 \*AS AND WHEN AVAILABLE FROM OUR DEALERS

**WTFM,  
known for its high  
quality signal, is first  
to convert to the new  
Calibration Standard...  
STANTON'S  
681 TRIPLE-E.**

Larry Strasser, Chief Engineer, WTFM, New York.

Good music stations need the best broadcast cartridges for auditioning original recordings and making transfers as well as for on-the-air use.

Larry Strasser, Chief Engineer of WTFM New York, states:

"I have been impressed for years with the quality and dependability of Stanton's broadcast cartridges. Naturally I wanted the improved version for our station just as soon as it became available."

Stanton's 681 Triple-E offers improved tracking at all frequencies. It achieves perfectly flat frequency response to beyond 20 Kc. It features a stylus assembly that possesses even greater durability than had been previously thought possible to achieve.

This came about because Stanton's engineers, who were deeply involved in the development of Stanton's superb discrete 4-channel cartridge, 780/4DQ, achieved certain intricate refinements and sophisticated new techniques that were equally applicable to stereo cartridge design and construction.

Each 681 Triple-E is guaranteed to meet its specifications within exacting limits, and each one boasts the most meaningful warranty possible: an individual calibration test result is packed with each unit.

Write today for further information to Stanton Magnetics Inc., Terminal Drive, Plainview, N.Y. 11803

All Stanton cartridges are designed for use with all two and four-channel matrix derived compatible systems.

 FM BROADCAST TRANSMITTER**

- FCC Type Accepted
- Direct FM Solid State Exciter
- Color Coded Wiring
- Designed for Stereo and Multiplex
- Silicon Rectifiers
- Grounded Grid Power Amplifier
- Designed for Remote Control
- No Neutralization Required
- Ultra Linear Wide Band
- Only Two Tubes

Sintronic Transmitters have been installed in over 27 countries. For over 10 years, they have performed optimally under severe environmental conditions. All Sintronic Transmitters are conservatively designed and constructed. Quality components are used throughout.

Sintronic manufactures a complete line of AM and FM broadcast transmitters to satisfy every broadcast requirement. Detailed information and comprehensive product brochures on request.

Sintronic Corporation is a subsidiary of Singer Products Co., Inc. Integrity and dependability since 1937.

# the tower of strength in the industry

How does a company get to be number one in its industry?

It must be strong—a “tower of strength” among its competitors.

Stainless, Inc. has achieved such a position by creating “towers of strength”—towers with the rugged dependability to withstand the fierce winds and other brutal whims of nature.

Towers by Stainless are a tribute to the dedication, engineering excellence and skilled craftsmanship of many people with a lot of experience.

Whether rising 200 or 2000 feet we know that every inch of our tower fabrication and assembly is critical.

We also know that a tower, like a chain, is no stronger than its weakest “link”.

And in broadcasting or communication systems, a tower by Stainless will never be a weak link.

# Going remote?

## Use the only monitors made for it, from TFT

If you're considering remote control, or upgrading existing operations, TFT frequency and modulation monitors give you performance no other monitor can match — in AM, FM, FM Stereo or TV.

One important reason is that you don't need an RF amplifier. This results in a much cleaner RF signal. Interference from intermodulation products of unwanted signals is virtually eliminated.

What's more, TFT monitors are easy to install. Just plug-in the antenna. You don't need several tuning stages. And they're stable. Once in operation, they don't need periodic maintenance or tuning.

TFT monitors also have wide-range AGC. So, signal strength variations at the remote location won't affect monitor performance.

Both analog and digital (BCD) outputs are available on TFT monitors

for use with remote logging equipment. You can also choose a number of alarm options: Carrier-Off; Loss-Of-Modulation; and Off-Frequency.

TFT remote-optimized monitors come in either frequency *and* modulation, or modulation-only models: for AM, FM, and TV (UHF or VHF). Every model also has high level inputs for direct connection at the transmitter.

All TFT monitors meet applicable FCC requirements and make FCC-required proof-of-performance measurements. Frequency models can be calibrated directly against NBS with the TFT Model 735 WWV receiver.

For a demonstration on *your* frequency, call or write TFT at the address below. In Canada: Glen-tronix, Ltd., Don Mills, Ontario, Canada.

# OFF PRESS!

1975 Broadcasting Cable Sourcebook. Complete . . . Comprehensive . . . Most Up-to-Date Cable Source Available Anywhere.

To order your own copy, fill in the coupon below. Your copy will be mailed shortly.

The 1975 Cable Sourcebook—contains complete systems information based on FCC data and BROADCASTING's own sources.

Here, for example, is comprehensive data you'll find on a typical system:

- Name of system, its address, telephone number, name of person who signed FCC Form 325, along with his address and telephone number. Name of attorney and address, if not located in Washington; parent company name.

- Area served, its population, number of subscribers, start date, homes passed, system length, franchise expiration date, franchise fee, charge per month.

- For TV stations carried: call letters and location, channel of broadcast and channel of carriage on cable,

- For radio stations carried: call letters and location; whether AM or FM.

- Number of channels used for TV; number of automated program-origination channels; number of automated program-origination channels with background music; number of channels used by cable TV operator or others for non-automated program origination; number of channels used for broadcast signals and number of channels unused.

- Programming during sample week: number of cable channels and hours used for time and weather reports, news ticker, sports ticker, stock-market ticker and such special services as burglar and fire alarms, facsimile, preference polling, meter reading.

- Also details on amount of local programming, CATV network programming, film programming, tape programming (with type of tapes used), news, sports, religion, instructional programming, entertainment—

plus channel usage by government and private groups.

- Also details on number and length of locally originated commercials.

- Explicit details of ownership of the system, with cross-references to other systems if multiply owned.

## A Complete Cable Guide—

In addition to the wealth of data listed

above, the 1975 Broadcasting Cable Sourcebook offers a complete guide to:

- Group Ownership of Cable Systems in the U.S. and Canada—with name and address of group, names of principal officers and ownership data including shares authorized, issued and unissued.

- Broadcasters in Cable—shows stations owned, systems owned, percent ownership and names and addresses of owners.

- State Statistics—in-

cludes communities served, number of subscribers, homes passed and miles covered.

To obtain your own copy of the most complete and comprehensive cable guide now available, fill in the coupon and mail it today.

## Microwave

**American Microwave & Co. Inc.** 105 Kent St., Iron Mountain, Mich. 49801 (906) 774-2923. James A. Klungness, pres; Charles R. Henry, exec VP & sec.

Serves Mich. with three TV networks and WKBD-TV Detroit.

**Cablecom-General Inc.** Subsidiary of General Tire & Rubber Co., Akron, Ohio. 4705 Kingston, Box 7251 Denver 80207, (303) 373-0280. Richard A. Forsling, chmn of bd; Robert J. Lewis, pres; Gerald Cahill, VP finance.

**MCI Telecommunications Corp.** Subsidiary of MCI Communications Corp., 1150 17th St. N.W. Washington (20036) (202) 872-1600. 1301 Avenue of the Americas, New York (10019), (212) 582-6520. William G. McGowan, bd chmn; John D. Goeken, pres; Kenneth A. Cox, Thomas L. Leming, Stanley B. Scheinman, Carl M. Vorder Bruegge, sr. VPS.

Customer-to-customer voice grade, data, teleprinter, and facsimile services in 17 cities.

**Microwave Service Co.** Box 163, Tupelo, Miss. 38801, (601) 842-7620. Frank K. Spain, owner. Serves three states, carrying ABC and NBC.

**Midwestern Relay Co.** Subsidiary of the Journal Co. and American Microwave & Co. Inc., 720 E. Capitol

Drive, Milwaukee 53201 (414) 332-9611. George Compe, pres & chief exec off; Sprague Vorrier, mktg mgr. Serves all of Wis. and Mich., east Iowa, and parts of Ill.

**Western Tele-Communications Inc.** Subsidiary of Tele-Communications Inc. Box 10727 University Park Station, Denver 80210. (303) 771-8200. Bob Magness, ch of the bd; George C. Hatch, VP and vice chmn; John C. Malone, pres and chief exec off; Donne F. Fisher, treas; J. W. Gallivan, second VP; Paul J. O'Brien, sec.

Microwave trunking system between Omaha, Denver and Salt Lake City, with fulltime video service to three major TV networks in those cities.

## Satellite Communications

Three companies offer domestic communication services by satellite. Two more systems are scheduled to begin operations during 1975.

In January 1974, RCA Globcom and RCA Alascom began services connecting New York, San Francisco and Alaska using Anik II, a Canadian satellite. Western Union Telegraph Co. launched two 12-channel satellites connecting company-owned earth stations in New York, Atlanta, Chicago, Los Angeles and Dallas, and plans to provide terrestrial connections for Washington and San Francisco. American Satellite, using one of the Western Union satellites, operates earth stations in New York, Los Angeles, Dallas, Chicago, San Francisco and Washington. During 1975, Comsat General plans to launch three satellites to serve AT&T and perhaps General Telephone & Electronics Co. Along with IBM, Comsat General also has pending before the FCC an application to operate a satellite system offering services to the public. By the end of 1975 RCA expects to have the first of its own 24-channel satellites ready for launching.

The International Telecommunications Satellite Organization currently has 5 satellites aloft, offering international service.

For information on FCC fees pertaining to satellite communications services, see "FCC Rules," section A.

### American Satellite Corp.

(A wholly-owned subsidiary of Fairchild Industries Inc.)

20030 Century Boulevard, Germantown, Maryland 20767. (301) 428-0100, TWX 710-828-0489. Emanuel Fihenakis, president; John G. Puente, exec VP-operations; Dennis T. Goddard, VP-marketing; John D. Jackson, VP, General Counsel.

American Satellite Corp. provides private line telephone and data telecommunications services to the business, industrial, and financial communities, and to government agencies.

### Communications Satellite Corp. (COMSAT)

950 L'Enfant Plaza, S.W., Washington 20024, (202) 554-6000. Joseph H. McConnell, chmn of the bd; Joseph V. Charyk, pres; George P. Sampson, senior VP-international system division; John V. Harrington, VP-rsch & engrg; James J. McTernan Jr., VP-finance; William H. Berman, asst VP & assoc gen counsel; Richard R. Colino, asst VP-Intelsat representation, international rel & corporate planning; Burton I. Edelson, asst VP & dir, Comsat laboratories; Matthew Gordon, asst VP for public info; Sidney Metzger, asst VP & chief scientist; Lewis C. Meyer, asst VP-admin svcs; Dennis V. Neill, asst VP-Intelsat systems, tech (international system division); Martin J. Votaw, asst VP-engrg; H. William Wood, asst VP for international system opns (international system division); Frederic M. Meud, treas; Robert B. Schwartz, sec & asst gen counsel-corporate matters.

See adv, section D divider.

**Comsat General Corp.** (a wholly owned subsidiary of Communications Satellite Corp.) John A. Johnson, pres; William D. English, VP & gen counsel; John L. Martin Jr., VP-satellite programs; Joseph H. O'Connor, VP & treas; Jerome W. Breslow, sec.

### International Telecommunications Satellite Organization (INTELSAT)

490 L'Enfant Plaza, S.W., Washington 20024. (202) 488-2300. Telex: 892707. Santiago Astrain, sec gen; A. Caruso, dir of admin and conference affrs; R. Westlake, dir of finance; E. Podraczky, dir of technology/opns; D. Leive, sr legal advisor.

INTELSAT provides in-space facilities required for international public telecommunications systems operating on commercial principles and available on a nondiscriminatory basis to all areas of the world. 87 member states.

### RCA Global Communications Inc.

(A wholly-owned subsidiary of RCA)

60 Broad St., New York, N.Y. 10004 (212) 363-3986 (East Coast); (213) 624-1961 (West Coast). Philip Schneider, exec VP, Satcom system; Harold Rice, VP, Satcom services; Walter Pioli, dir, mktg.

RCA Global Communications Inc. and RCA Alaska Communications Inc. own and operate the RCA Satcom domestic communications satellite system, which offers private line voice-grade circuits, television and CATV transmission, full transponder systems, and custom systems for government and industry.

### The Western Union Telegraph Co.

One Lake Street, Upper Saddle River, N.J. 07458 (201) 825-5000. Harold Johnson, VP, mktg & svcs.

# Buyer's Guide

Radio and television broadcast equipment and services are listed here at the special request of each company in an easy-to-use alphabetical directory. Each product or service appears in bold face type with the companies supplying that service following in alphabetical order.

To locate the headquarters, or nearest sales office, of any listed manufacturer or service, simply turn to the company's alphabetical listing in section E, the Broadcast Equipment Directory. That listing includes address, principal executives, branch offices and telephone numbers.

Firms preceded by an asterisk and appearing in capital letters are advertisers in the 1975 BROADCASTING YEARBOOK.

# Year after Year... Crown equipment pays

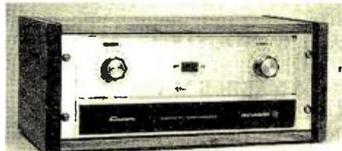

Reliable performance and superior audio quality give you years more valuable service, making that higher original investment a real bargain. Every piece of equipment is ruggedly constructed, rigorously tested and guaranteed to meet or exceed printed specifications. All circuits are outstanding for low noise and distortion, wide bandwidth and high frequency response. It's to your credit when you specify the manufacturer with 26 years experience in broadcast and professional studio equipment.

## STUDIO MONITOR AMPLIFIERS

All models have complete internal protection. IM distortion is better than 0.05% from 0.01 watt to full power. All units mount in a 19-inch rack. Three year warranties cover parts, labor and round trip shipping.

**D150** delivers 75 watts RMS per channel into 8 ohms; height 5½ inches.

**DC300A** delivers 150 watts RMS per channel into 8 ohms, or 600 watts output in monaural operation; height 7 inches.

**D60** delivers 30 watts RMS per channel into 8 ohms; height 1¾ inches.

## DISTORTION ANALYZER

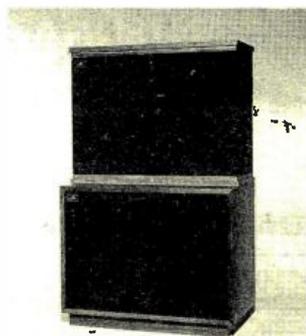

Model IMA tests audio equipment easily, quickly and accurately. Both intermodulation distortion analyzer and internal oscillators are enclosed in one compact unit. Even an inexperienced technician can take ten power level measurements in 5dB steps in just 60 seconds. The ranges are 100, 30, 10, 3, 1, 0.3, and 0.1%.

## ES212 STUDIO TRANSDUCER

These superior quality speaker systems have advanced-design electrostatic elements for midrange and treble, acoustic suspension base woofers, for finest possible reproduction for the professional recording studio.

## MAGNETIC TAPE EQUIPMENT . . . . .

All models are designed to work 18 hours a day, 7 days a week for 10 years with three head replacements. Modular construction and plug-in circuit boards mean fast, easy field servicing. These precision instruments will make clean, accurate recordings years after the economical semi-pro decks are retired. All models handle ¼-inch tape and 7-inch and 10½-inch reels. All mount in 19-inch racks. Standard speeds are 15, 7½ and 3¾ ips. There are individual record, erase and play heads for 1 to 4 channels. Over 40 standard models are available with numerous professional accessories.

## • • • IN THE CONTROL ROOM

### SP722 STUDIO PLAYER

simple tape transport system has only 9 moving parts ■ remote start/stop optional, automatic stop in play mode.

## • • • ON LOCATION

### SX822 RECORDER/MIXER

integral mixing facility simplifies setup ■ same tape transport system and meter monitoring as CX822 ■ two mic or line inputs per channel.

## • • • IN THE PRODUCTION STUDIO

### CX822 MASTER RECORDER

computer logic control for safe, rapid tape handling and editing ■ full remote control optional ■ TracSync available ■ each channel has two mixing inputs and individual bias adjust and equalizers ■ third-head monitor for meters or headphones with A/B switch.

# STOREEL CORP.

THE SPACE-SAVING ENGINEERS

presents

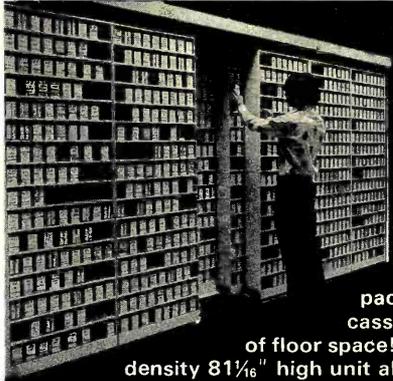

## THE ROOM STRETCHER

HERE IT IS! Storeel's space-age answer to your AMPEX ACR-25 storage problems. One high-impact ABS unit provides storage for 144 cassettes, yet requires only 7¼" x 24¼" of floor space! Gliding on ball bearings, each high-density 81½" high unit allows easy access to second, third, fourth or FIFTH bays (rear bay is stationary). Eze-Remove system facilitates handling of cassettes. Send your room dimensions for a NOW answer to your storage problems.

# CRYSTALINK Wireless Receiver for CP-16 Reflex and Non-Reflex Cameras.

Designed by  
Cinema Products  
in cooperation with  
Vega Electronics.

The extremely sensitive and powerful Crystalink wireless receiver unit features the use of *helical resonators*, a device which permits the frequency to which the receiver is tuned to pass freely while blocking any strong adjacent frequencies that would normally overload conventional front end amplifiers.

The Crystalink wireless receiver (Model CL-1) is mounted between the CP-16 camera body and the Crystasound amplifier, adding approximately 1" (25mm) to the width. The Crystalink wireless receiver is powered by the same NC-4 battery pack which powers the entire CP-16 camera system (including the Crystasound recording system).

The back panel of the fully professional Crystalink wireless receiver consists of an on-off switch, a volume control, and a field signal strength meter which indicates if there is sufficient RF signal strength to insure quality reception.

The Crystalink VHF wireless receiver can be used in conjunction with the Vega cordless transmitter (Model 55) and the Vega cordless microphone/transmitter (Model 54), as well as similar units. Receiver/transmitter frequency combinations can be specified for many of the popular radio/mike frequencies.

Crystalink Wireless Receiver — shown in use with interchangeable flexible spiral antennas.

# Fewer parts... fewer problems with **audiopak® A-2** broadcast cartridge

*Ribs are molded into the flange—  
no pencil leads  
to break and jam.*

*No top wire.  
Reloading's easier.*

*Tape guide is  
an integral part of  
the cartridge base  
—not glued in—  
to insure accurate azimuth control.*

## Try one free

In the broadcast cartridge world, the simpler the better. That's why the design of the audiopak A-2 eliminates parts that can give you trouble.

The lessons learned from our years of experience developing the world's leading 8-track cartridge have been applied to our audiopak A-2. The result is a more durable, more reliable broadcast cartridge. And because we manufacture the entire product—from tape to packaging—we can assure you of the highest possible quality control.

We're so sure we have the best product on the market, we want to prove it... at no cost to you. For

your free sample and more information on the audiopak A-2 broadcast cartridge, write on your company letterhead to: Capitol Magnetic Products, Division of Capitol Records, Inc., 1750 North Vine St., Los Angeles, Calif. 90028. Attention: Marketing Manager, Professional Products.

## ALL SOLID-STATE AURAL STUDIO-TRANSMITTER LINKS

### ■ MONAURAL AND COMPOSITE VERSIONS

### ■ OPERATION IN ALL STL BANDS—

- 148-174 MHz
- 200-240 MHz
- 300-340 MHz
- 450-470 MHz
- 890-960 MHz

All solid-state aural STL's to fulfill almost every requirement. Moseley Associates has pioneered many STL concepts — solid-state systems, true direct FM modulation, and composite operation (FM stereo on a single link)...just to name a few. Front-panel metering of all important parameters is included on all Moseley STL transmitters and receivers. Subcarrier capability enables wireless remote control, secondary program service, or intercom service.

## TRANSMITTER REMOTE CONTROL SYSTEMS

### — Analogue —

Fifteen telemetry and thirty command functions are provided by the TRC-15A. The **Model TRC-15AR**, when used in conjunction with a Moseley STL, or other radio link, will provide total wireless operation. The **Model TRC-15AW** is for use on leased telephone, or other wired circuits.

### — Digital —

Fully digital remote control of a remotely located transmitter point is provided by the **DCS-2 Digital Control System**. Multiple transmitter site operation—a standard option. **Command, telemetry, and status** provided in groups of thirty channels. **Automatic parameter logging** available. Computer-assisted operation of the DCS-2 is another standard option, and can provide **totally automated plant operation**. The **Model DRS-1 Digital Remote System** provides many of the features of the basic DCS-2 at an affordable price. Up to 30 telemetry functions and 24 status channels to a single transmitter site.

## REMOTE PICKUP LINKS

**Models RPL-3 and PRL-4 Remote Pickup Links** provide unsurpassed audio performance for remote broadcasts. Two full-time microphone and high-level line audio inputs are standard. The RPL-3 and RPL-4 Transmitters are only 4 inches high and weigh a mere 16 pounds—complete with audio mixing and AC/DC power supplies.

For 148 to 470 MHz operation

*We'll send you our catalogue of these ASI products*

Tele-alert Teletype Alarm  
Digital Master Station Clock  
Telephone Tone Decoder  
AM-FM Studio Switching System  
Transmitter Computer  
(automatic parameter corrector and transmitter switch-over system)

Just circle the number below on the reply card. You'll also receive a rundown on our unique Turn-key Installation and AM-FM Station Maintenance Services.

*We won't send you a catalogue of these ASI products*

Automated Equipment Control  
Automated Program Control  
Automated Switching  
Automated Tape Cart  
Automated Tape Reel  
Active Filters  
Clocks and Chronographs  
Counter-timers  
Custom Control Systems  
Jack Panel Assemblies  
Patch Panels  
Program Timers  
Remote Control Systems  
Tone Encoders  
Telephone Tone Receivers  
Telephone Tone Transmitters

The reason is simple. No two units of any one type have ever been alike enough to provide one set of common specifications. Each of these items is tailored to meet the specific needs of the station for which it is designed. So you don't pay for features you don't need. Nor do you have to "make do" with equipment that isn't really designed to perform the tasks you set out for it. Best of all, ASI quality built custom equipment is priced within your budget. So instead of us sending you information, we'd like you to send us some information. Just write or phone us your specifications for any equipment you may have in mind. In return you'll get an equipment design proposal and price quote at no obligation. We're sure both will pleasantly surprise you.

# FIDELIPAC® ACCESSORIES & CARTRIDGES

## CART-A-ROUND CARTRIDGE STORAGE RACKS

Each WR-25 Modular Rack holds 25 Type A Cartridges . . . eight can be mounted on our Mobile Carousel Base to make up the MR-200.

WR-25 \$13.25  
MR-200 \$145.95

## TABLE TOP CARTRIDGE RACK

Model TR-96 holds 96 Type A cartridges,  
Model TR-48 holds 48.  
TR-96 \$73.85  
TR-48 \$38.55

## STUDIO ON AIR LIGHT

brilliant red lettering on jet black background can be seen even in the brightest ambient light conditions. \$29.95

## CART-E-RASE DEMAGNETIZER

can be used for erasing cartridges, reel-to-reel tape, film sound stripping, etc. \$34.50

## ALIGNMENT PROBLEM?

Keep your cart equipment in perfect working order with:

- 350 STA Alignment Cartridge \$38.50
- 350 STF Wow and Flutter Cartridge \$24.50
- 350 STQ Cue Test Cartridge \$35.00
- Head Insertion Gage \$3.35
- Height Gage \$12.95

## ANNOUNCING

# TOTAL SIGNAL PROCESSING

THE  
**EduTron™ TBC-110**

**ONLY \$2995**

The EduTron™ TBC-110 is more than a time base corrector. It is a total signal processing system consisting of:

- Time Base Corrector
- Video Processing Amplifier
- Digital EIA Sync Generator with Gen-lock
- Velocity Compensator
- Hetrodyne Color Corrector

**PERFORMANCE.** The EduTron TBC-110 delivers line-by-line correction of step and phase errors, line-by-line extrapolated velocity compensation and rephasing of hetrodyne processed color with all helical scan recorders. Try to find that in any other time base corrector!

**AC-DELAY™.** The TBC-110 employs the revolutionary Ac-Delay™ Active Delay line for correcting time base stability. The Ac-Delay™ Active Delay line uses digital ICs to delay video without expensive analog to digital and digital to analog conversion.

**GET THE FACTS!** For more information on the TBC-110, write or call EduTron™ Incorporated.

# Utility Tower Supports Your Profit Potential

From the base to the beacon, Utility Towers are engineered and erected to the exacting requirements of reliability and stability of the broadcast industry.

Utility Tower combines computer accuracy in the design and specification of towers with Utility Tower's own experienced erection crews to give you the best engineered and erected tower available.

Call Utility Tower for an estimate, let the tower of strength support your profit potential.

# Can anyone do what you do any better?

Probably not. All things considered you do what you do pretty doggone well. After all, no one has taken your job. And you're eating regularly. But...

But have you ever considered what doing your job just a little better might mean?

Money. Cold hard coin of the realm.

If each of us cared just a smidge more about what we do for a living, we could actually turn that inflationary spiral around. Better products, better service and better management would mean savings for all of us. Savings of much of the cash and frayed nerves it's costing us now for repairs and inefficiency.

Point two. By taking more pride in our work we'll more than likely see America regaining its strength in the competitive world trade arena. When the balance of payments swings our way again we'll all be better off economically.

So you see—the only person who can really do what you do any better is you.

**America. It only works  
as well as we do.**

The National Commission on Productivity, Washington, D.C.

## STE-100 STEREO PHASE ENHANCER

- Place after stereo sources or ahead of stereo generator.
- Also use for stereo head phase alignment. Remote controllable.
- Fail-safe bypass.

- Provides phase enhancement for discrete left and right stereo signals.
- Affects only phase—no signal degradation.
- Improves phase relationship of output signals.
- Improves mono-sum signal by minimizing phase nulling.

## Broadcast Services

The following directory is a service to those interested in particular types of programs or other services. It shows where to obtain desired services, and is made possible through the cooperation of companies who have asked to be spotlighted in this way. For further information on an individual program supplier see its alphabetical listing in the appropriate division of section D, under programing or advertising. For other services, refer to section F.

Suppliers whose names are in capitals and preceded by an asterisk are advertisers in the 1975 BROADCASTING YEARBOOK.

# What does it really cost to own Collins broadcast equipment?

Less because Collins' superior quality reduces cost of ownership.

Quality is traditional at Collins. It accounts for Collins being the prime name in space communications.\* It accounts for all those 25-year-old Collins transmitters still going strong. It enables Collins to give a two-year warranty. That kind of quality means lower cost of ownership.

Our field service engineers are on the job round-the-clock. They never walk away from a customer's

problem. That means faster return to normal — and that means lower cost of ownership.

But don't wait for long-term proof. Figure initial costs, too. Check Collins' prices. They're competitive.

You can afford Collins equipment. And you'll profit from it.

Contact Broadcast Marketing, Collins Radio Group, Rockwell International, Dallas, Texas 75207. Phone 214/690-5574.

\*Every American voice from space has been heard over Collins systems.

**Rockwell International**

## CLE-500 SOUND BRITENER

Spotmaster's Sound Britener is the automatic replacement for common two unit compression/limiting systems. They're only three adjustments — all behind the front panel — for initial set-up. Operation is fully automatic. It's ideal for all programming formats to increase talk power and fringe area coverage, with full protection against over modulation.

## NEW Spotmaster®

## SERIES 2000 CARTRIDGE MACHINES

Spotmaster's new Series 2000 Cartridge Machines are the most significant step forward in our 15 year history. Complete new design features simplicity and ease of operation, with plug in modules for recording and audition. Superb electrical and mechanical specs at a new low price.

18 MONTH WARRANTY

## BE TMS 200 TURNTABLE PRE-AMPS

Versatility is the perfect description for our new BE TMS turntable preamps. For example, phase reversal on one channel gives five modes of stereo/mono operation including independent dual channel mono and mono playback of stereo recordings. Transformer output.

Spotmaster®

## THE SPACESETTER THREE/70

Spotmaster's Three/70 features direct drive synchronous motor, plug-in deck and modular construction and control logic switching. Rack adapter permits 3 units in only 7" of rack height.

Spotmaster®

## AUDIO CONSOLES

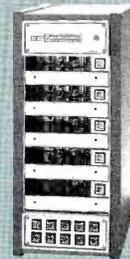

Spotmaster®

- Mono and stereo models, up to 8 mixers and 16 inputs
- Switchable high and low level inputs
- Quiet FET audio switching
- Modular construction, internal cue, headphone, and monitor amplifiers
- Plug-in muting relays
- Usable in remote control applications

## TAPE CARTRIDGE MACHINES

- Single and multiple deck machines, up to 15 decks per 16 inches (40 cm) of rack height
- Mono and stereo models with record, playback and delay functions
- PHASE-LOK II head brackets and precision tape guidance on stereo units
- Modular construction, logic switching and remote control capabilities
- Companion sequencers for automation systems

# ACTION

That's what you want, when you decide to move your broadcast property.

That's what you get, when you list with The Horton Company.

And when you're looking for an acquisition, you want meaningful action — complete information on properties that fulfill your requirements, and no "time-wasters."

Call on us for action . . . every member of our staff will work on your behalf with skill, discretion and dispatch.

# DIAL US!

## FOR MONEY

(Music to your ears)

Searching for radio facility financing? Stop here. You'll like our format.

It's a pleasant combination of expertise and easy-to-live-with extended payment plans.

We're professionals in broadcast financing. We've been financing broadcasting facilities since 1959. Accordingly, with all due modesty, we're quite good at it. If you need \$100,000 or more to finance a radio facility, phone us at (317) 638-1331 and ask Bill Van Huss to explain our individualized flexible financing, competitive rates and confidential analysis of your financing needs.

### Voice of America Fact Sheet

The Voice of America, a part of the U. S. Information Agency, has the following directive: "The long-range interests of the United States are served by communicating directly with the peoples of the world by radio. To be effective, the Voice of America must win the attention and respect of listeners. These principles will govern VOA broadcasts:

"1. VOA will establish itself as a consistently reliable and authoritative source of news. VOA news will be accurate, editorial and comprehensive.

"2. VOA will represent America, not any single segment of American society. It will therefore present a balanced and comprehensive projection of significant American thought and institutions.

"3. As an official radio, VOA will present the policies of the United States clearly and effectively. VOA also will present responsible discussion and opinion on these policies."

To implement this directive, these broadcasts present news and news-related items of American and world events, news analyses, commentaries, correspondents' reports, editorial roundups, and feature material such as documentaries, roundtable discussions, interviews and special events all of which provide overseas audiences with a balanced and accurate concept of the many facets of American life and clear information regarding U.S. policies.

### Facilities

The Voice has a network of 114 transmitters, of which 41 are in the continental United States. These are short and medium wave stations ranging in power from 35 kw to 1,000 kw. The largest transmitter complex is at Greenville, N.C. There, 18 transmitters feed programs received via microwave from the Washington studios to audiences and relay stations abroad over 73 directional antennas. Total power at Greenville is 4,800 kw. Other domestic facilities are at Bethany, Ohio; Marathon, Fla. (MW); Delano and Dixon, both California.

Overseas relay stations are at: Munich, Germany; Kavalas and Rhodes, Greece; Tangier, Morocco; Monrovia, Liberia; Okinawa; Tinang and Poro, The Philippines; Woolferton, England; Colombo, Sri Lanka; Bangkok, Thailand; Hue, South Vietnam. These include short and medium wave transmitters, among which are three megawatt transmitters.

In addition to its network of fixed transmitters, the Voice has seven transportable transmitters. These are all 50 kw, six shortwave and one medium wave, designed to be moved quickly. The medium wave transportable transmitter is on Marathon Key, Fla., broadcasting Spanish language programs. The six shortwave transportables are in The Philippines, where they augment existing facilities in relaying Voice programs to Southeast Asia and the Far East. VOA's total power is now 22,400 kw.

### Local Placement

Many VOA tapes, music recordings and script materials are furnished by U.S. Information Agency offices overseas for local distribution and broadcast. Other relays and rebroadcasts are made through arrangements with local broadcasters in West Europe, Africa, the Near East, South Asia, the Far East and Latin America. For example, VOA's Spanish-language correspondents feed of 90 minutes, Mondays-Fridays, is rebroadcast by 1,600 Latin American radio stations.

### RIAS

In West Berlin the USIA operates RIAS (Radio in the American Sector), which broadcasts an average of 240 hours per week in German over medium and short wave facilities as well as FM. Its main purpose is to reach the population of East Berlin and East Germany, but it also has a sizable audience in West Berlin.

### Audiences

The USIA estimates its current world radio audience is in the range of from 17 to 26 million on an average day, and about double that amount for an average week. During times of international crisis, or special events, the audience increases considerably.

### Jamming

USSR jamming of VOA vernacular language broadcasts to the USSR and East Europe began in 1948 and continued until 1963. Other East European countries began jamming in 1950. Except for Poland (which stopped jamming in 1956) and Bulgaria (which continued to jam until September 1974), Czechoslovakia, Hungary and Romania ceased jamming VOA broadcasts shortly

after the USSR stopped. Coincident with the invasion of Czechoslovakia (Aug. 21, 1968), the Soviet Union resumed jamming of VOA's broadcasts in Armenian, Georgian, Russian and Ukrainian. When VOA broadcasts in Uzbek began in September 1972, jamming also was instituted on these programs. In September 1973 all Soviet jamming of VOA broadcasts again was stopped without explanation.

The People's Republic of China began jamming the VOA Chinese-language broadcasts in 1956. At the present time (October 1974) it is the only country jamming VOA programs.

## Books

**Editor's Note:** This bibliography supplements other listings that have been published in **BROADCASTING YEARBOOKS**. The bibliography is representative of publications related to the broadcasting industry and does not pretend to be all inclusive.

### Directories and Dictionaries

**The Big Broadcast: 1920-1950**, by Frank Buxton and Bill Owen. Viking Press, New York. 301 pp. \$12.95, 1972.

An alphabetical listing of network radio programs providing program type, key personalities, program opening and closing and sometimes bits of scripts. Some include the network and year the program started and some description of the programs carried. There is also information on announcers, reporters, interviewers, comedy shows, soap operas, sound effects etc. About 150 photos of radio personalities are included as is an extensive index with more than 5,400 entries.

**Index to Characters in the Performing Arts—Part IV, Radio and Television**, by Harold S. Sharp and Marjorie Z. Sharp. Scarecrow Press, Metuchen, N.J. 700 pp. \$15, 1973.

The fourth and final work of a series, the index covers some 2,500 programs and about 20,000 characters. As a research aid it is invaluable since by knowing one character in a drama the researcher may trace down everyone else who took part. A guide to the characters, not to the actors who played each character.

**A Title Guide to the Talkies**, by Richard Bertrand. Scarecrow Press, New York. 2,133 pp. \$47.50, 1965.

This two-volume work covers 16,000 feature-length motion pictures in the period October 1927 to December 1963. It gives considerable background detail about each film.

**Guidebook to Film: An Eleven-in-One Reference**, by Ronald Gottesman and Harry Geduld. Holt, Rinehart & Winston, New York. 230 pp. \$6.95 cloth, \$3.95 paper. 1972.

Includes a bibliography of film history, production techniques, writing, periodicals etc. Lists of U.S. and world museums and their film holdings, film schools, equipment suppliers, film distributors, film books and film organizations.

**A Guide to Critical Reviews, Part IV: The Screenplay from The Jazz Singer to Dr. Strangelove**, by James M. Salem. Scarecrow Press, Metuchen, N. J. Two volumes, 1,420 pp. \$30, 1971.

Reviews of some 12,000 American and foreign films released from 1927 to 1963. The reviews are from U.S. and Canadian periodicals and the *New York Times*.

**The International Encyclopedia of Film**, edited by Roger Manvell and Lewis Jacobs. Crown, New York. 574 pp. \$17.95, 1972.

Illustrated with 1,000 black and white illustrations. 32 color pages and with over 1,000 biographies this volume offers 1,300 alphabetical entries stressing film content from 1890 through 1971. It includes a history of color film, articles on archives and film preservation, animation, censorship, design and art direction, documentaries, film posters and publicity. A valuable-one-volume reference.

**World Directory of Religious Radio and Television Broadcasting**. William Carey Library, 305 Pasadena Ave., South Pasadena, Calif. 91030. 808 pp. \$8.50, 1973.

A country-by-country survey by the International Christian Broadcasters of the present status of religious broadcasting over the world. A map, general data on the country and a detailed listing of stations is included.

**The World Encyclopedia of the Film**, edited by John M. Smith and Tim Cawkwell. World, 303 pp. \$25, 1972.

Biographical material on persons in film, including film makers and performers. More than 2,000 biographical entries, some 500 pictures. Some 20,000 films are listed by title with year, credits and length as well as whether color or wide-screen.

#### General

**About Television**, by Martin Mayer. Harper & Row, New York. 433 pp. \$10, 1972.

A readable and sympathetic survey of the industry including technical problems, ratings, selling time, prime time shows, daytime programing, sports, evening news-casts, politics and documentaries, examples of local television. A good introduction to the problems in the field.

**The Age of Television** by Leo Bogart. Frederick Ungar, New York. 549 pp. \$14.50, 1972.

Update of the 1956 and 1958 editions of the same name, with 125 pages of updated notes, keyed by letters to the pertinent portions of the original text. There is a new introduction, appendix on broadcast research and bibliography covering the 1958-1971 period. The entire book is indexed. One of the best early books on television the book deals with TV's role, programing, patterns of viewing, radio listening in the TV age TV's relationship to reading, movies, sports etc.

**Armstrong's Fight for FM Broadcasting: One Man vs Big Business and Bureaucracy**, by D. H. V. Erickson. U. of Alabama Press, University, Ala. \$7.75, 1973.

The title not only outlines the book but reveals the approach of the author—that the inventor was thwarted by almost the entire broadcasting industry, spearheaded by RCA and the FCC.

**Broadcasting: The Critical Challenges**, edited by Charles S. Steinberg. Hastings House, New York. 315 pp. \$13.50.

Dr. Steinberg, professor of communications for Hunter College and former vice president-information services for CBS-TV, offers an academic appraisal of eight media issues, including news, counteradvertising, children's TV, the esthetics of criticism and public and educational TV.

**Cavalcade of Broadcasting** by Curtis Mitchell. Follett, 254 pp. \$9.95/\$4.95, 1971.

This history of American radio and TV is about half pictorial, including some historic early photos of considerable merit.

**Children's Television: The Economics of Exploitation**, by William Melody. Yale University Press, New Haven, Conn. 139 pp. \$7.95 (cloth), \$1.95 (paper).

The book is an update of an Action for Children's Television report submitted as part of the FCC's inquiry into the subject of children's TV—an inquiry initiated largely by ACT itself. Mr. Melody is associate professor of communications at the Annenberg School of Communications at the University of Pennsylvania.

**Defamation and Public Officials: The Evolving Law of Libel**, by Clifton O. Lawhorne. Southern Illinois University Press, Carbondale. 356 pp. \$15, 1971.

An in-depth history of libel law from early English law to the present and some predictions for the future. Some 500 specific court cases are cited. The work is designed for journalists and others who discuss public affairs.

**The Deejays**, by Arnold Passman. Macmillan, New York 320 pp. \$7.95, 1971.

A history of music on radio from the beginning up to the present. The author has known many of his subjects

personally and this lends a lighter and more interesting touch to the subject.

**Economic Aspects of Television Regulation**, by Roger G. Noll, Merton J. Peck and John J. McGowan. Brookings Institution, Washington. \$8.95, 1973.

The study describes itself as a "comprehensive economic analysis of the television broadcasting industry, its interaction with the FCC, and the prospects for change."

**The Early Window: Effects of Television on Children and Youth**, by Robert M. Liebert. John M. Neale and Emily S. Davidson. Pergamon Press, Elmsford, N.Y. 193 pp. \$9.50/\$6.50, 1973.

The three authors were active on the surgeon-general's research program on TV and Social Behavior and much of what is reported comes from that massive research. The result is an attempt to explore all such research and chapters include the overall growth process, production and content in TV today, TV and aggressions, the prosocial effects of TV, the commercial interests, government and industry role and an overview.

**The Electric Mirror: Politics in an Age of Television**, by Sig Mickelson. Dodd, Mead, New York. 304 pp. \$8.95, 1972. The former head of CBS News reviews the past two decades' TV reporting and advertising and analyzes the medium's key problems in politics. A chapter deals with the use of TV abroad, one is on political debates, one on costs and one on the relations between government and television.

**Fear in the Air: Broadcasting and the First Amendment—the Anatomy of a Constitutional Crisis**, by Harry S. Ashmore. Norton, New York. 180pp. \$6.95, 1973.

A discussion of the major pressures on broadcasting, especially in news and special events programming. Mr. Ashmore believes the major problem is a public feeling that broadcasters are somehow to blame for many of the nation's problems.

**The Film Buff's Bible, of Motion Pictures (1915-1972)**, edited by the Hollywood Film Archive. 8344 Melrose Ave., Dept. BC, Hollywood, Calif. 90069. \$24, 1973.

Over 13,000 titles of the most popular films including year of release, running time, critical ratings from three sources, distributor or studio, country of origin.

**The Image Empire: A History of Broadcasting in the United States from 1953** by Erik Barnouw. Oxford University Press. 416 pp. \$9.75, 1970.

This third volume in Mr. Barnouw's history of American radio and television (following *A Tower in Babel*, 1966 and *The Golden Web*, 1968) concerns broadcasting's development following the rise of TV. Much of the book concerns programing trends. He discusses news control by the government in the 1960's and TV's intimate portrayal of assassinations, wars, rioting, man on the moon and other events.

**Jones Dictionary of CATV Terminology**. Jones International Ltd., 880 Continental Bank Bldg., Englewood, Colo. 80110. \$19.95, 1973.

Over 800 CATV definitions in both French and English.

**Libel: Rights, Risks, Responsibilities** by Robert H. Phelps and E. Douglas Hamilton. Macmillan, New York. 405 pp. \$7.95, 1966.

How to communicate the maximum of information with the minimum of risk. Includes case histories illustrating potential danger areas.

**Marconi**, by W. P. Jolly. Stein & Day. 293 pp. \$7.95, 1972.

A solid chronological approach and analysis of the inventor from his unhappy childhood to his death as an honored citizen.

**Maverick Inventor: My Turbulent Years at CBS**, by Peter C. Goldmark and Lee Edson. Saturday Review Press, with distribution by E. P. Dutton, New York. 278 pp. \$7.95, 1973.

Inventor-engineer Goldmark tells his story of the 36 years he spent at CBS, many years as head of CBS Labs. His story is that of CBS's losing battle to establish its color TV system, the pioneering of the long-playing phonograph record and, more recently his Electronic Video Recording system.

**NBC Handbook of Pronunciation**. Compiled by James F. Bender. Thomas Y. Crowell Company, 201 Park Ave., N.Y. 10003, Third Edition, \$4.95.

This well known handbook has been completely revised and enlarged. In it, you will find the correct way to say 20,000 words and proper names frequently mispronounced.

**News from Nowhere: Television and the News**, by Edward Jay Epstein. Random House, New York. 321 pp. \$7.95, 1973.

Mr. Epstein's book first made news as a 27-page article in the *New Yorker*. It's the result of a 1968-69 investigation of network news, with emphasis on how organization affects product.

**The \$100 Million Dollar Lunch**, by Sterling (Red) Quinlan. J. Phillip O'Hara Inc., Chicago. \$6.95.

A background account on the 25-year legal controversy that ended, ultimately, in the loss of license to WHDH-TV Boston—and the end of a major daily news-

paper. The author was once ABC's vice president for Chicago.

**The Politics of Broadcast Regulation**, by Erwin G. Krasnow and Lawrence D. Longley. St. Martin's Press, 175 Fifth Ave., New York. 160 pp. \$8.50 cloth; \$3.95 paper, 1972.

An examination of the regulation of broadcasting as a political process. It deals with the basic political questions of who gets what, when, and how and takes into account the importance of courts in broadcast regulation, development of the right of citizens' groups to enter into administrative review and the increasing influence of the presidency on regulatory activity. Part one examines basic characteristics of the regulatory process. Part two comprises four case studies of broadcast regulatory policies.

**Presidential Television**, by Newton Minow, John Bartlow Martin and Lee M. Mitchell. Basic Books, New York. 232 pp. \$8.95, 1973.

Dealing with the President's political, but mostly noncampaign, uses of television. The rise of the political use of television is reviewed, as is the law as it deals with the subject and the hopes of the congressional and judicial branches of government for as much opportunity to use the medium. Newton Minow is the former FCC chairman, Mr. Martin a writer and former ambassador and Mr. Mitchell a communications lawyer.

**Radio, Television and American Politics** by Edward W. Chester. Sheed & Ward, New York. \$7.50, 1969. paperback Sheed & Ward. \$3.95, 1971.

This volume examines the influence of the broadcast media on local and national politics from a historical viewpoint, starting with KDKA and Harding returns et seq.

**Rebel in Radio: The Story of WQXR**, by Elliott M. Sanger. Hastings House, New York. \$7.50.

The story of the New York fine-music station, told by the man who managed it for 29 years.

**David Sarnoff, a biography**. By David Lyons. Harper & Row, New York. \$6.95.

**Say It Safely** by Paul P. Ashley. University of Washington Press, Seattle. 180 pp. \$3.95, 1966.

Mr. Ashley, a Seattle attorney, has been interested in libel cases for 40 years. This is his third book on the subject.

**Television: The Business Behind the Box**, by Les Brown. Harcourt, Brace, Jovanovich, New York. 365 pp. \$8.95, 1971.

The role of network television as seen by the then radio-TV editor of *Variety* (now of the *New York Times*) with particular attention to programing and management.

**Television and Growing Up: The Impact of Televised Violence**, a report to the surgeon general from the surgeon general's scientific advisory committee on television and social behavior. Government Printing Office, Washington. 279 pp. \$2.25 paper, 1972.

The study includes both special reports done for the commission and the group's own findings about television and its possible effect on children, particularly in the area of violence on television.

**Television and Radio**, by Giraud Chester, Garnet Garrison, Edgar Willis. Appleton-Century-Crofts, New York. 613 pp. \$11.95, 1971.

A revision of the earlier editions with Part I devoted to a discussion of radio and TV in society and Part 2 covering studio operations. A new chapter on politics and broadcasting and revisions in studio discussions are the principal changes. Some third of the volume is reported as new material.

**Television and Presidential Politics**, by Robert E. Gilbert. Christopher Publishing House, Quincy, Mass. 335 pp. \$9.75, 1972.

An analysis of the role of TV in presidential policies. The book deals with the increasing role of television in making presidential elections a truly national effort. Chapters deal with the visual medium's function in obtaining a major political nomination, trends in campaign expenditures and giving more detailed information in particular campaigns concluding with the Nixon-Humphrey campaign in 1968. The author believes that since 1952 television has dominated the political scene.

**Television and the Public**, by Robert T. Bower. Holt, Rinehart & Winston, New York. 205 pp. \$7.95, 1973.

An updating of the 1963 Gary A. Steiner report, *The People Look at Television*, this report was backed by CBS research and is based on 1970 data. About a third of the same questions are used. The overall conclusion is that more people are watching more television. It is almost impossible to summarize but is a careful audience examination, probably the most important since the Steiner report.

**The Television Commercial: Creativity and Craftsmanship** by Norman D. Cary. Decker. 150 pp. Paperback \$6.95, 1971.

# Books for Broadcasters

400. **1975 BROADCASTING YEARBOOK**, the one-book library of radio and TV facts—the practically indispensable reference work of the broadcast business world. \$17.50, or \$15.00 prepaid
401. **1975 BROADCASTING CABLE SOURCEBOOK**, the most complete and comprehensive listing for every operating system in the U.S. and Canada. \$10.00, or \$8.50 prepaid
402. **THE LIGHTER SIDE OF BROADCASTING**, a selection of 124 Sid Hix cartoons reprinted from *BROADCASTING Magazine*. An excellent gift item. \$5.50
403. **AM-FM BROADCAST STATION PLANNING GUIDE** by Harry A. Etkin. A comprehensive guide to planning, building, and operating a radio broadcast facility—AM, FM, or combined operation. Based on a lifetime of experience and intimate association in broadcasting. 8½ x 11", illustrated. \$12.95
404. **THE ANATOMY OF LOCAL RADIO-TV COPY** by William A. Peck. Leading station executives have called this book the one that sets the standard for radio-TV copy at the local level. Loaded with hundreds of ways to increase station billing with sales-proven copy. 104 pages. \$5.95
405. **BROADCAST STATION OPERATING GUIDE** by Sol Robinson. This comprehensive reference encompasses every level of broadcasting. The secret to success in broadcasting, as in any other business, is knowing what to do and how to do it. This book tells it like it is. 256 pages. \$12.95
406. **THE BUSINESS OF RADIO BROADCASTING** by Edd Routh. How to operate a station as a profitable business and serve the public interest as well. This is the first text to deal with broadcast station operation from beginning to end. Clearly explains proven techniques to follow, and cautions to observe. 400 pages, illustrated. \$12.95
407. **CATV OPERATOR'S HANDBOOK**, 2nd Ed. Here is the most extensive handbook on CATV ever published! Covers every aspect from basics of system planning and design to program origination and two-way cable operation. For anyone involved in any way with CATV, this valuable handbook is well worth many times its price. 352 pages, illustrated. \$9.95
408. **CATV SYSTEM ENGINEERING—3rd Edition** by Wm. A. Rheinfelder. The accepted technical standard of the CATV industry, an expanded and revised version of the first and only authoritative book on planning, designing, and operating a CATV plant. 256 pages. \$12.95
409. **CATV SYSTEM MAINTENANCE** by Robert B. Cooper, Jr. Devoted to maintenance from antennas through construction and complete troubleshooting. 192 pages. \$12.95
410. **CATV SYSTEM MANAGEMENT & OPERATION** by Robert B. Cooper, Jr. A complete guidebook to CATV. Guideposts learned the hard way by the author in his years of CATV experience. 256 pages. \$12.95
411. **COMMERCIAL FCC LICENSE HANDBOOK** by Harvey F. Swearer. A unique study guide and reference manual, combining theory and applications with up-to-date questions and answers for 1st, 2nd, and 3rd Class Radiotelephone license exams plus broadcast and radar endorsements. Complete detailed answers to questions on virtually any subject you may be asked when you take your exam, plus sample questions on each element (with answers in the back of the book). Also for practical reference in your profession. 444 pages, 150 illustrations. \$9.95
412. **A COMMON SENSE GUIDE TO ADVERTISING** by Arthur W. Lavidge. A practical, how-to guide that shows how successful advertising is created—from copy and design to TV commercials. 304 pages. \$9.95
413. **DESIGNING & MAINTAINING THE CATV & SMALL TV STUDIO** by Kenneth B. Knecht. A simplified, yet detailed guide on the installation and maintenance of production facilities for CATV, CCTV, and ITV and broadcast TV studios. 256 pages, over 100 illustrations. \$12.95
414. **DIMENSIONS OF BROADCAST EDITORIALIZING** by Edd Routh. A vital subject dealing with a task ignored by some and feared by others: It tells broadcasters why they should editorialize, how to establish an editorial policy, how to develop and write forceful and effective editorials (and how to present them), and how to avoid legal complications resulting from violations of the FCC "Fairness" rules. To ease the fear of legal entanglement, harbored by many who would editorialize, extensive coverage is devoted to the FCC's view and the rules governing "fairness." It examines rights covered by the First Amendment, fear of control, the much discussed "Fairness Doctrine," the personal attack rule, and amendments to Sections 312 and 315. The various types of editorials are examined, and the considerations involved in writing and delivering editorials are discussed in detail. 204 pages. \$8.95
415. **DON'T LOOK AT THE CAMERA: Shortcuts to TV Photography & Filmmaking** by Sam Ewing and R. W. Abolin. Explains the basic techniques of TV photography, including dozens of tried-and-proven shortcuts for getting pictures on the air quickly and economically. Emphasis is placed on low-cost production. Includes scores of case histories plus lighting, equipment, editing, simple animation, special effects, casting, etc. Describes fresh, exciting new techniques for filming low-cost commercials; continuity writing and production planning; the six important elements required in film production; the difficulties of filming on location (plus sure-fire techniques that overcome field problems); a seven-point plan to help produce a better commercial film; and how to develop tact in dealing with touchy advertisers. 224 pages, illustrated. \$9.95
416. **GUIDELINES FOR NEWS REPORTERS** by Sol Robinson. The author relates the techniques he has found successful during his many years as a part of management. Covers what is required of a broadcast journalist, the problems and the solutions. Appendix contains synonyms for over 2700 words, and also lists commonly mispronounced words. 192 pages, illustrated. \$9.95
417. **GUIDE TO PROFESSIONAL RADIO & TV NEWSCASTING** by Robert C. Siller. A practical, self study guide for those who want to get started or get ahead in broadcast journalism. 224 pages, illustrated. \$9.95
418. **HANDBOOK OF RADIO PUBLICITY & PROMOTION** by Jack Macdonald. This handbook is a virtual promotion encyclopedia—includes over 250,000 words, over 1500 on-air promo themes adaptable to any format; and over 350 contests, stunts, station and personality promos! One idea alone of the hundreds offered can be worth many times the small cost of this indispensable sourcebook. 372 pages, 8½ x 11" bound in long-life 3-ring binder. \$29.95
419. **HOW TO BECOME A RADIO DISC JOCKEY** by Hal Fisher. Essentially a course in showmanship, this book teaches all the techniques needed to become a successful broadcast announcer (or disc jockey). 256 pages, illustrated. \$7.95
420. **HOW TO PREPARE A PRODUCTION BUDGET FOR FILM & VIDEO TAPE** by Sylvia Allen Costa. A complete guide to determining finances for any video tape or film production, from TV commercials to feature-length films. Jammed with facts covering every aspect of estimating costs. Tells how to estimate every cost associated with any size production, including the production location, cameras and accessories, sound equipment, light gear, raw film stock or video and sound recording tape, lab developing, printing and processing fees, personnel—(creative, technical, and talent), scenic elements, location expenses, surveys of remote shooting locations, film and tape editing, optical effects and animation, plus a host of miscellaneous expenses such as writer fees, animals, special effects requirements, and insurance. Also included are typical rate listings and eight sample budgets, representing TV commercials, documentaries, and feature-length films. 192 pages. \$12.95
421. **HOW TO SELL RADIO ADVERTISING** by Si Willing. The right formula for sales depends on the individual and the prospective advertiser. Therein lies the secret as Si Willing illustrates it by theory and by practice. You'll hear all sorts of objections (including a few you haven't heard!) and how they've been successfully countered. From the dialog between salesman and prospect you'll learn the approaches and the clinchers, how to use available sales tools to the best advantage and how to deal with competition. You'll learn ways to sidestep objections, how to recognize the "opportune moment", and how to convert a "No" to a "Yes". 320 pages. \$12.95
422. **HOW TO WRITE NEWS FOR BROADCAST & PRINT MEDIA** by David Dary. A complete handbook on journalism for the student or practicing newsmen in both print and broadcast fields, this volume is a "very practical approach to the art of reporting and writing news," according to Dr. Del Brinkman, associate professor of journalism at the William Allen White School of Journalism, Univ. of Kansas. It's a compact course in the fascinating and challenging field of news reporting. The practicing newsmen, whether print or broadcast, will find this book of great value because it explains how to handle all types of stories. The concept of "news"—the meaning of the term and its nature—is thoroughly discussed, including the fine-line definitions of what is news and what is not. A reporter's qualifications are clearly defined as are the methods used to gather news. Also included at the end of many chapters are self-help exercises to aid in development of reporting skills. The forms required for newspaper, radio, and TV are illustrated and explained. 192 pages, illustrated. \$9.95

City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

A guide to selling, structure of ads, institutional ads, public service announcements, use of the storyboard, length factors, research and testing and production.

**The Television Years**, by Arthur Shulman and Roger Youman. Popular Library, New York. 320 pp. \$1.50 (paper), 1973.

Well-illustrated review of TV from 1948 through 1972 with heavy emphasis on network shows.

**To Kill a Messenger: Television News and The Real World** by William Small. 602 pp. \$8.95, 1970.

The CBS news chief in Washington covers in detail news problems from the television newsmen's point of view.

**The Universal Eye: The World of Television**, by Timothy Green. Stein & Day, New York. 276 pp. \$10, 1972.

A review of television around the world, the 21 chapters take up western Europe, the Communist world, the Arab countries and Israel, Asia, Australia, Africa and an overview of the whole. Timothy Green is the former head of Time magazine's London bureau.

**Vintage Radio: A Pictorial History of Wireless and Radio, 1887-1929**, by Morgan E. McMahon. McMahon's Vintage Radio, Box 2045, Palos Verdes Peninsula, Calif. 90274. 263 pp. \$6.95/\$4.95, 1973.

A well-illustrated guide to early radio receivers and parts thereof. The text deals with radio history, microphones and other broadcast equipment, a review of brands of radio receivers, the scanning disk TV and a directory of radio broadcast receivers.

#### Educational

**The Breakthrough Course of Radio Selling**, conceived by Bruce Johnson, edited by Art Mandelbaum. RKO General Radio, New York. \$250.

This is more than a book; it's a complete do-it-yourself kit in radio education, with the aim of creating salesmen who know the medium they're selling. The text is duplicated in 12 audio cassettes. Mr. Johnson is president of the RKO Radio division. Mr. Mandelbaum is vice president for advertising and promotion.

**Audio Control Handbook for Radio and Television Broadcasting**, by Robert S. Oringel. Hastings House, New York. 192 pp. \$10/\$6.50, 1972.

A revision of a book issued in 1956 and revised in 1963 and 1968. Although organization is nearly identical with earlier editions the format has changed as has the page size. Useful for beginners and experienced broadcasters alike.

**Broadcast Journalism: An Introduction to News Writing**, by Mark W. Hall. Hastings House, New York. 159 pp. \$6.95 cloth, \$4.95 paper, 1971.

Discussions of news writing, sources of news, police and criminal news, disaster and civil disturbance coverage, libel and slander, good taste. An appendix discusses style and writing errors.

**Broadcasting and Government: Responsibilities and Regulations**, by Walter Emery. Michigan State University Press, East Lansing. \$12.50, 1971.

A revision of the 1961 edition the book covers the scope of government controls, character, classification and utilization of radio frequencies, problems of going on the air etc. Appendices include many basic FCC papers including the Communications Act of 1934 plus revisions up to date, a study of FCC-FTC relations, regulations on fairness, a report on the 1960 programing inquiry and other pertinent matters.

**Broadcasting in America: A Survey of Television and Radio**, by Sydney W. Head. Houghton-Mifflin, Boston. \$9.95, 1972.

A revision of the classic first issued in 1956 this nearly complete rewrite deals with physical bases of broadcasting, its origin and growth, its economics, its regulation and an assessment of the influence broadcasting has on the nation.

**Commercial FCC License Handbook**, by Harvey F. Swearer. Tab Books, Blue Ridge Summit, Pa. 432 pp. \$8.95 cloth, \$5.95 paper, 1971.

A review of the elements necessary to taking examinations for the FCC's 1st, 2d and 3d phone licenses. It includes illustrations and sample questions.

**The Communicative Arts and Sciences of Speech**. Edited by Keith Brooks. Charles E. Merrill Books, Columbus, Ohio. 610 pp., indexes. \$7.95, 1967.

A good introduction to the many areas, including radio-TV, that make up most college and university departments of speech and dramatic art. Designed chiefly for undergraduate use in such a department.

**Documents of American Broadcasting**, edited by Frank J. Kahn. Appleton-Century-Crofts. 684 pp. \$11.95, 1973.

A revised format for an important reference work and classroom text. Five sections are included—regulation of broadcasting, regulation of programing, freedom of expression, broadcast journalism and public interest. There are updated reading lists for each major section.

**How to Get Into Show Business** by Merrill E. Joels. Hastings House, New York. 157 pp. \$5.95, 1970.

Business sense is an important talent, according to this expansion of an earlier work. *Acting Is a Business*.

**Introduction to Mass Communications** by Edwin Emery, Philip H. Ault and Warren K. Agee. Dodd, Mead and Co., New York. 444 pp. \$7.95, 1970.

This is the third edition of a work designed to acquaint students with all areas of media, including current issues and problems.

**The Medium Is the Message** by Marshall McLuhan with Quentin Fiore. Bantam Books Inc., New York. 160 pp. \$1.45.

This is the economy version of the \$10.95 Random House book that helped to popularize the medium-message dialogue still echoing through the land. Dr. McLuhan is professor of Humanities at Fordham University.

**Structures and Organization of Broadcasting in the Framework of Radiocommunications**, by Albert Namurois. European Broadcasting Union, Geneva, Switzerland, Centre International, 1 Rue de Varem, CH-1211 Geneva 20. 211 pp. 1972.

A review of the world legal system of telecommunications, radio and TV services, including a 20-page bibliography. Detailed information, presented in a highly organized fashion.

**Television and Radio Announcing** by Stuart W. Hyde. Houghton-Mifflin. \$9.95, 1971.

A revision of an old favorite with over 100 pages added since the old edition 13 years ago. Part I deals with announcing, Part II with practice assignments.

**Television News** by Irving E. Fang. Hastings House \$12.95/\$7.50, 1972.

An expanded and revised edition of a standard text first issued in 1968. Deals with the problems of TV news, how to handle them, editorials and fairness, election coverage, libel, access, section 315, privacy etc. New are a glossary, reference notes and a bibliography. Examples and illustrations throughout.

**Writing News for Broadcast**, by Edward Bliss Jr. and John M. Patterson. Columbia University Press, New York 298 pp., \$13.50, 1971.

A well-written analysis of all angles of writing news for radio and television. Many descriptive examples add to the value of the book. Included is a word and picture presentation of the evening newscasts of the three networks on March 19, 1971, an interesting study in comparative techniques.

#### Technical

**Communications Satellites for the 1970's: Technology**, edited by Nathaniel E. Feldman and Charles M. Kelly. MIT Press, Cambridge, Mass. 614 pp. \$18.50, 1971.

Volume 25 in the series "Progress in Astronautics and Aeronautics," this is a collection of technical papers selected from the AIAA Third Communications Satellite Systems conference held in 1970.

**How to Prepare a Production Budget for Film and Video Tape**, by Sylvia Allen Costa. Tab Books, Blue Ridge Summit, Pa. 192 pp. \$12.95, 1973.

Chapters on estimating, studio costs, equipment, raw stock, lab charges, sound, production personnel, talent, scenic elements, location expenses, etc.

**The Invisible Resource: Use and Regulation of the Radio Spectrum**, by Harvey J. Levin. Johns Hopkins Press, Baltimore. 432 pp. \$12, 1971.

The book is divided into four parts. One, the spectrum system—including the major users of the spectrum. Two, alternatives in the allocation and management of the spectrum. Three, the level of spectrum development. Four, examining the potential of competition as a means of preserving resources of the spectrum.

**The Radio Amateur's Handbook 1972** edited by Doug DeMaw. American Radio Relay League, Newington, Conn.

This is the 49th edition of the widely used guide.

**Radio Handbook** by William I. Orr, Editors and Engineers Ltd., Howard W. Sams & Co., New Augusta, Ind. 896 pp. \$13.50, 1970.

Though chiefly aimed at the radio amateur, this work would interest anyone dealing with shortwave communication. This is the 18th edition.

**The Spaghetti City Video Manual**, by Videofreex. Praeger Publishers, New York. 116 pp. \$7.95.

Considering that the authors specialize in non-establishment television, this is a relatively straight technical manual that's designed for those working their way up from the bottom in television, as opposed to working their way down from more sophisticated technology. The core of its wisdom is how to operate, and keep operating, half-inch videotape equipment.

**The Technique of Lighting for Television and Motion Pictures**, by Gerald Millerson. Hastings House, New York 366 pp. \$17.95, 1972.

Includes drawings and photos (8-pages in color) and chapters on lighting, the eye and the visual world, tools of lighting, portraiture, television techniques, effects and the like.

**The Technique of Special Effects Cinematography**, by Raymond Fielding. Hastings House, New York. 425 pp.

\$18.50, 1972.

Revision and expansion of 1965 encyclopedia is illustrated with 283 photos and 41 diagrams. Chapters deal with techniques available, camera equipment, glass-shots, mirror-shots, in the camera matte shots, printing, rear projection, front projection and miniatures.

#### Management, Production and Techniques

**Accounting Manual for Broadcasters**, edited by the Institute for Broadcasting Financial Management, Suite 308, 360 N. Michigan Ave., Chicago 60601. \$20, 1972.

Indexed heavy duty sheets in vinyl-covered hard binder. Prepared in cooperation with Ernst & Ernst. 50 pages text and guidelines, plus financial reporting forms. Covers depreciation and amortization, intangible assets, film contracting accounts, operating income accounts, accrued music license fees.

**An Alphabetical Guide to Motion Picture, Television and Videotape Production** by Eli L. Levitan. McGraw Hill Book Co., New York. \$24.50, 1970.

This all-inclusive practical source of information about every facet of film and tape production is an essential tool of the trade for everyone associated with communication. It should become a basic text as well for the student and teacher. Well illustrated.

**AM/FM Broadcast Station Planning Guide**, by Harry A. Etkin. Tab Books, Blue Ridge Summit, Pa. 192 pp. \$12.95, 1970.

Chapters are offered on planning, frequency search and channel allocation, preparing engineering data for Form 301, basic floor plans, transmitter plant, wire and power needs, towers and antenna systems, studio and monitoring equipment, program automation, mikes, preventive maintenance tips, proof-of-performance tests and description of some sample operations. Many diagrams accompany the text.

**Broadcast Management** by Ward L. Quaal and Leo A. Martin. Hastings House, New York. 251 pp. \$8.95, 1968.

A comprehensive study of the management of radio and television in America by two leading experts. Part of a series.

**Broadcasting and Bargaining: Labor Relations in Radio and Television**, edited by Allen E. Koenig. University of Wisconsin Press, Madison. 344 pp. \$8, 1970.

Total of 22 authors explore that aspect of broadcasting too long left only to personal conversation.

**Business of Radio Broadcasting**, by Edd Routt. Tab Books, Blue Ridge Summit, Pa. 400 pp. \$12.95, 1972.

Divided into six major divisions the book covers the role of the station in the community, sales, programing, administration, technical operations, legal aspects including licensing, fairness etc.

**Case Studies in Broadcast Management** by Howard W. Coleman. Hastings House, 95 pp. \$4.95, 1970.

Studies of 13 radio and television station management decisions taken from actual experience.

**Designing & Maintaining the CATV & Small TV Studio**, by Kenneth Kenech. Tab Books, Blue Ridge Summit, Pa. 252 pp. \$12.95, 1972.

Written in non-technical terms although dealing with technical subjects this is a helpful book for those entering this field with little experience. Chapters include study of the studio pulse system, switching systems and video effects, cameras and lighting equipment, RF and video monitors, video terminals, distribution systems, audio mixing consoles, audio program sources, maintenance shop etc.

**Guide to Understanding Broadcast License Applications and Other FCC Forms**, by Ralph M. Jennings. Office of Communication of United Church of Christ, 289 Park Ave., South, New York 10010.

An explanation of the basic tenets of license granting including special attention to Section IV, the program statement. Intended for both broadcasters and for those who file competing license applicants, it is a detailed simplification of a critical process.

**Modern Radio Station Practices**, by Joseph S. Johnson and Kenneth K. Jones. Wadsworth, Belmont, Calif. 268 pp. \$7.95, 1972.

Includes 14 station profiles which provide an in-depth analysis of different kinds of stations in varied markets as examples of lessons discussed in earlier portions of the books.

**The Technique of the Film Cutting Room** by Ernest Walter. Hastings House, New York. 282 pp. \$11.50, 1970.

A book for motion picture professionals by a professional.

**The TV Director/Interpreter** by Colby Lewis. Hastings House, New York. 225 pp. \$8.95, 1969.

The Michigan State University professor gives practical explanation of the role of the TV director.

## Books, Schools

**Video Tape Production and Communication Techniques** by Joel Lawrence Efrein. TAB Books, Blue Ridge Summit, Pa. 17214. 256 pp., 125 illus. \$12.95, 1971.

A TV tape production handbook covering lighting, graphics, sets and props, sound, direction, editing-dubbing-duplicating of tape copies, elements of program production etc.

### CATV

**CATV: A History of Community Antenna Television**, by Mary Alice Mayer Phillips. Northwestern University Press, Evanston, Ill. 209 pp. \$9.75, 1972.

Examines the regulatory aspects of cable on the national, state and municipal levels. Divided into three parts, the first offers an examination of a few selected cable systems in the 40's and 50's; the second traces federal regulation of cable, and the third examines the probable future of the CATV industry.

**Cable Television**, by Monroe Price and John Wickline. Pilgrim Press, United Church Press, 1505 Race St., Philadelphia 19102. \$5.95 cloth, \$2.95 paper, 1972.

A viewpoint on the future of cable as expressed by a cable expert and a broadcast newsman. Foreword is written by Everett C. Parker.

**Cable Television**, a 10-volume series published by the Rand Corp., 1700 Main St., Santa Monica, Calif. 90406. Titles are listed individually below. Each may be obtained from the Santa Monica address.

**Cable Television: Applications for Municipal Services**, by Robert K. Yin. Rand Corp. 43 pp., \$3, 1973.

Includes sections on operating a single municipal channel, cable characteristics relevant to municipal applications and a review of such applications.

**Cable Television: A Guide for Education Planners**. Rand Corp. 89 pp. \$4, 1973.

A more technical discussion than the volume by the same author listed above, this book has sections on cable as a means of distribution, overview of implementing a system using cable, planning an in-school and an out-of-school project and development and operation of each.

**Cable Television: A Guide to Federal Regulations**, by Steven R. Rivkin. Rand Corp. 1700 Main St., Santa Monica, Calif. 90406. 343 pp. \$6 paper, 1973.

An analysis of federal laws and regulations that apply to cable television. Includes explanation of the six key federal regulatory areas—carriage of television, program exclusivity and copyright, cablecasting and channel capacity, role of state and local authorities, technical standards and operating requirements. Also included are a number of important cable legal cases, key FCC forms etc.

**Cable Television: A Guide to the Technology**, by Carl Pilnick and Walter S. Baer. Rand Corp. 65 pp. \$3, 1973.

A discussion of the basic needs for a cable system, capacity of different types of systems, cablecasting, interconnection of systems, two-way communications, technology for new services and technical standards.

**Cable Television: Citizen Participation After the Franchise** by Monroe E. Price and Michael Botein. Rand Corp., 1700 Main St., Santa Monica, Calif. 90406. 34 pp. \$2 paper, 1973.

Certificates of compliance as a pressure point for citizens participation. FCC procedures are described.

**Cable Television: Citizen Participation in Planning** by Robert K. Yin. Rand Corp., 1700 Main St., Santa Monica, Calif. 90406. 37 pp. \$2, 1973.

A discussion of citizens interest and the actions they may take on proposed cable television.

**Cable Television: Making Public Access Effective**, by Richard C. Kletter. Rand Corp. 1700 Main St., Santa Monica, Calif. 90406. 74 pp. \$3, 1973.

Mr. Kletter deals with the promise of public access, limitations of FCC rules on the access issue, organizing for public access, models for access, programming costs and equipment and final summary suggestions.

**Cable Television: The Process of Franchising**, by Leland L. Johnson and Michael Botein. Rand Corp., 1700 Main St., Santa Monica, Calif. 90406. 97 pp. \$3.

Divides the process of franchising into ten steps with detail on terms and conditions of franchise.

**Cable Television: Technical Considerations in Franchising Major Market Systems**, by Carl Pilnick. Rand Corp., 1700 Main St., Santa Monica, Calif. 90406. 76 pp. \$3 paper, 1973.

Why technical factors are important to the franchising process.

**Cable Television: Uses in Education**, by Polly Carpenter. Rand Corp. 57 pp. \$3, 1973.

Discusses the potential of cable for education, barriers to the use of TV in education and the educator's stake in the cable franchise.

**Cable Television in the Cities: Community Control, Public Access, and Minority Ownership**, edited by Charles Tate. The Urban Institute, 2100 M St., N.W.,

Washington. 184 pp. \$3.95 paper, 1972.

Aimed at getting the community involved in operations and policies of cable this book tells about commercial control of CATV, local origination problems and prospects, municipal regulations, minority opportunities etc.

**Cable Television and the FCC: A Crisis in Media Control**. Temple University Press, Philadelphia. 289 pp. \$7.95, 1973.

A study of the development of cable and of the approaches to cable regulation.

**Cable Television U.S.A.: An Analysis of Government Policy**, by Martin H. Seiden. Praeger Special Studies. 253 pp. \$16.50, 1972.

The author of an economic analysis of cable published by the FCC in 1965 now criticizes its efforts in that field describing his study as "an analysis and detailed description of how the FCC has altered the concept of governmental regulation by involving itself unnecessarily in the innermost workings of a minor part of the communications industry." A detailed description of the FCC's steps toward CATV regulation presented from the partisan viewpoint of the writer.

**On the Cable, the Television of Abundance**. Report of the Sloan Commission on Cable Communications' 18-month study. McGraw-Hill Book Co., New York. 272 pp. \$7.95 cloth, \$2.95 paper, 1972.

The study analyzes cable TV and shows that it is much more than an extension of conventional TV—it is a brand new communications complex. The report compares cable's potential impact on the communications industry to the invention of the printing press and the telephone.

**The Wired Nation: The Electronic Communications Highway**, by Ralph Lee Smith. Harper Colophone Books, New York. 128 pp. \$1.95 paper, 1972.

Covers the definition of cable, rise of CATV, role of regulation, effect on and part played by AT&T and local community action.

## Schools Specializing in Radio-TV

(This list includes only those schools which specialize in professional or technical courses in broadcasting. Many colleges and universities also offer courses in radio and television. Current information on colleges and universities which offer degrees in radio-TV is covered in a separate listing.)

**Ron Bailie School of Broadcast**. 170 Denny Way, Seattle 98109. (206) 682-3696. Ronald L. Bailie, pres.  
Colorado Springs 80902: 323 S. Nevada Ave. (303) 473-2333.

Denver 80202: 1020 15th St., Suite 4-C. (303) 573-1040.

Phoenix 85004: 2303 N. Central. (602) 258-2930.  
Portland, Ore. 97205: 949 S.W. Oak St. (503) 222-1400.

Salt Lake City 84111: 364 S. State St. (801) 355-3632.  
San Diego 82112: Box 14. (714) 233-1170.  
San Francisco: 420 Taylor. (415) 441-0707.

Spokane, Wash. 99202: East 202 Sprague. (509) MA 4-6878.

Tucson, Ariz.: Station KCEF. (602) 622-1130.

Courses offered: Announcing-production-copywriting (6 mos.); 1st class FCC license and electronics theory (15 wks.); broadcast sales & management (13 wks.); TV production & film editing.

**Bell & Howell Schools** (Administrative offices for home study and resident schools) 209 West Jackson Blvd., Chicago 60606. (312) 939-8200. L. D. Dunlap, pres; W. C. Carson, exec VP, educ; T. L. Hammond, VP, student affairs; J. J. Gershon, senior VP, accreditation & state gov't relations; D. L. Walls, VP, dir resident school opns; S. Cohen, VP, sls; D. MacFarlane, natl dir of admissions; G. Dean, dir electronic prog develop & home study ed.

Chicago 60641: DeVry Institute of Technology (home study), 4141 W. Belmont Ave. W. C. Carson, EVP.

Chicago 60618: DeVry Institute of Technology (resident), 3300 N. Campbell. S. R. Edmonds, pres; R. Renor, dean of faculty; G. A. Murphy, dean of students; R. Allwood, dir of admissions.

Atlanta 30308: DeVry Institute of Technology, 828 W. Peachtree St. N.W. K. H. Breden, pres; H. B. Overton, dean of faculty; P. Shearer, dean of students; J. W. Hull, dir of admissions.

Dallas 75235: DeVry Institute of Technology, 5353 Maple Ave. D. A. Kerr, pres; J. R. Swann, dean of students; M. Schledorn, dir of admissions.

Phoenix 85016: DeVry Institute of Technology, 4702 N. 24th St. R. Hess, pres; D. H. Aughinbaugh, dean of students; A. L. Geiger, dir of admissions.

Woodbridge, N.J. 07095: DeVry Technical Institute, 479 Green Street. G. C. Kiesel, pres; R. Chrutinsky, dean of faculty; R. M. Bocchino, dean of students; G.

Vance, dir of admissions.

Columbus, Ohio 43209: Ohio Institute of Technology, 1350 Alum Creek Dr. R. A. Czerniak, pres; M. Forrest, dean of faculty; J. B. Ganz, dean of students; K. Suid, dir of admissions.

Kansas City, Mo. 64108: Missouri Institute of Technology, 1644 Wyandotte St. C. R. LeValley, pres; E. Wilson, dean of faculty; T. Davison, dean of students; J. Coon, dir of admissions.

Toronto 19: DeVry Institute of Technology, 970 Lawrence Ave. West. P. Dykstra, pres; D.P. Charran, dean of faculty; M. Maskowitz, dean of students; J. Williams, dir of admissions.

Courses offered: Resident school programs in radio, TV, communications, computer electronics and automation systems. Home study programs in electronic communications, digital industrial electronics, home entertainment electronics systems, audio technology.

**Broadcast Training Center, d/b as Announcer Training Studios**. 25 W. 43d St., New York 10036. (212) OXFORD 5-9245. Morris Brownstein, pres; Moya Phillips, dir.

Courses offered: Radio announcing, programing and production for newscasters, sportscasters, disk jockeys and staff announcers. FCC 1st class license preparation.

**Broadcasting Institute of America Inc.** 3230 Patterson Dr., New Orleans 70114. Box 6071. (504) 362-4624. Joseph M. Costella III, admin dir; Todd Bauer, instructor.

Courses offered: Professional radio and TV broadcasting, 390 hours of instruction, 30 hours per week, for 13 weeks, in music formats, programing, announcing, console operations, news, continuity and traffic. Third phone license preparation. Lifetime placement service for graduates. Subsidiary of WRNO New Orleans.

**Brown Institute** 3123 E. Lake St., Minneapolis 55406. (612) 721-2481. Richard C. Brown, dir; John MacKnight, dir of bstg division.

Courses offered: 1,000 hours of training in all phases of broadcasting including disk jockey, news, sports, sp events, sales, writing, stn mgt. Twelve sets of studios occupying two buildings. Complete TV training studios. First class FCC license. Lifetime placement service.

**Career Academy International Headquarters**. 611 E. Wells St., Milwaukee 53201. (414) 272-4822. Malcolm Houghton, pres.

Atlanta 30309: 2045 Peachtree Road. (404) 351-1550. Sandra Lockwood, administrator.

Boston 02215: 70 Brookline Ave. (617) 536-6662. Doug Springman, administrator.

Columbus, Ohio 43215: 71 S. High St. (614) 221-4481. C. J. Harris, administrator.

Houston 77002: 1221 Pierce St. (713) 222-1224. Larry Nero, administrator.

Milwaukee 53201: 825 N. Jefferson St. (414) 271-0300. Seymour Koltin, administrator.

Washington 20007: 2233 Wisconsin Ave., N.W. (202) 965-5100. Fred Busch, administrator.

Toronto: 8 King St. E. (416) 363-6914. James McSweeney, administrator.

Courses offered: Training includes interpretive commercial announcing, newscasting, disc jockeying, sports-casting and play-by-play, diction, pronunciation, and vocabulary, programing and timing, interviews, speech, emceeing, panel shows, special events coverage, news and commercial writing, FCC third class license, radio code, international reporting, farm news. Complete home study course also available.

**Carolina School of Broadcasting** 516 Fenton Place, Charlotte, N.C. 28207. (704) 376-1619. William A. Vaughn, dir; Donald H. Krauss, asst dir; Kenneth G. Quick, dir of training.

Courses offered: Two eight-month courses: Broadcasting—non-technical; and combination broadcasting (in-station training in addition to classroom course). Announcing, production, programing, advertising, commercial production, sales; administration and management, job placement.

**Central Institute of Technology**. 1644 Wyandotte St., Kansas City, Mo. 64108. (816) 421-5852. F. R. Hess, pres; E. A. Wilson, dean of faculty; D. I. Mills, Sr., dean of students; H. D. Van Sickle, dean of financial affairs.

Courses offered: Assoc degree in electronic engineering technology, 108 weeks; bachelor of electronics engineering technology, 144 wks; electronics technician program, 72 wks.

**Cleveland Institute of Electronics**. 1776 E. 17th St., Cleveland 44114. (216) 781-9400. G. O. Allen, pres; Branko Pfeifer, exec VP; R. T. Siedlecki, ad mgr.

Courses offered: Electronics technology; electronics technology with laboratory; broadcast engineering; 1st class FCC license; electronic communications; industrial electronics and automation; electronics engineering; electronics technology and engineering with laboratory.

**Columbia College**. 925 N. LaBrea Ave., Hollywood 90038. (213) 851-0550. Ernest M. Baumeister, pres; Joseph Bluth, chmn of bd; Andre F. Stojka, dean, department of cinema; Bruce H. Shoemaker, dir, admissions. Board of trustees: Robert F. Lewine, Gail

Patrick Jackson, Dr. Frank Baxter, David Nowinson, Andre F. Stojka.

Courses offered: A four-year non-profit degree-granting institution. Undergraduate and graduate studies offered in all aspects of broadcasting. Courses include TV prod, TV camera operation, video-tape recording, FCC license, announcing, writing, acting, entertainment law, stn administration, cinematography, film editing, lighting, TV stn operation, film prod, TV directing, market rsch, news reporting, journalism, adv. PR, cable TV, video control, documentary film prod.

Television and  
Motion Picture Production  
**COLUMBIA COLLEGE**  
925 N. LaBrea Ave.  
Los Angeles, Calif. 90038  
Phone: (213) 851-0550

**Columbia School of Broadcasting**, 1902 Van Ness Ave., San Francisco 94109, (415) 441-5700. Sullivan Barnes, pres; Roy E. Gruenwald, Senior VP; Walter D. Rogers, VP financial; Richard Good, admin dir & placement dir; William S. Dodd, dir of instruction-radio announcing course; Ralph Holmstad, dir of instruction-radio-TV coml writing course.

Anchorage 99510: Box 1801, (907) 274-2222.  
Atlanta 30309: Peachtree Palisades West Bldg., 1800 Peachtree Road N.W., Suite 814, (404) 351-9100.  
Babylon, N.Y. 11704: WBAE Radio Bldg, Route 109, (516) 661-4000.

Carlsbad, Calif. 92008: c/o KARL-FM, Box 949, (714) 729-7955.  
Cincinnati 45203: Holiday Park Tower, Bldg C, 644 Linn St., Suite 127, (513) 721-0066.

Cleveland 44115: 3101 Euclid Ave., Suite 309, (216) 431-5750.

Colorado Springs 80906: 2860 S. Circle Drive, Suite 414, Garden Valley Center, (303) 576-1870.  
Dallas 75207: 311 Stemmons Tower South, (214) 634-9880.

Denver 80206: Box 6285, (303) 399-6400.  
Hollywood 90028: 6565 Sunset Blvd, (213) 469-1677.  
Honolulu 96813: 677 Ala Moana Blvd., Suite 605, (808) 521-1811.

Houston 77006: 3777 Kirby Drive, (713) 529-4711.  
Indianapolis 46205: 3969 Meadows Drive, Suite 103, (317) 542-1211.  
Jacksonville, Fla. 32202: 223 W. Adams St., Florida National Bank Bldg, (904) 356-8351.

Kansas City, Mo. 64111: 4140 Broadway, (816) 756-0777.  
Memphis 38117: 5050 Poplar Ave., Suite 1500, (901) 682-0606.

Minneapolis 55402: WCCO Bldg., Suite 103, 625 Second Ave. S., (612) 332-4441.  
Philadelphia: 6784 Market St., Upper Darby, Pa. 19082, (215) 734-1710.

Phoenix 85016: 5251 N. 16th St., Suite 311, (602) 264-9967.  
Pittsburgh 15220: Seven Parkway Center, Suite 105, (412) 922-8010.

Courses offered: Radio announcing and radio-TV commercial writing course.

**Connecticut School of Broadcasting Inc.** 750 Main St., Hartford, Conn. 06103, (203) 232-9988. Dick Robinson, pres; Jeff Menzel, asst dir.

Stratford, Conn. 06497: 2874 Main St. (203) 378-5155. Dick Robinson, pres; Mike Beringer, dir.

Courses offered: History of communications, copywriting, broadcast performance, broadcast management, control room procedures, FCC regulations, news, production, sales.

**Continental Broadcasting Academy**, 12 Irving St., Framingham, Mass. 01701, (617) 237-0568. Herbert A. Black II pres; Daniel Flynn, bursar and gen mgr. Courses offered: Radio-TV announcing.

**Elkins Institute**, 2727 Inwood Road, Dallas 75235, (214) 357-4001. Bill Elkins, chmn of bd; B.B. Elkins, pres; Charles Feistkorn, VP opns; Leonard Hancock, course dev & training supvr.

Atlanta 30309: 51 Tent St. at Spring, N.W., (404) 872-8844. Phil Eastabrooks.  
Dallas 75235: 2603 Inwood Road, (214) 350-1211. Frank Elkins.

Denver 80209: 420 S. Broadway, (303) 744-7311. Bill Berry.

Hartford 06118: 800 Silver Lane, (203) 568-1110. Ed Gleason.  
Houston 77002: 3518 Travis, (713) 526-7637. Ralph Cousins.

Memphis 38104: 1362 Union Avenue, (901) 726-9762. Gil Gilbert.  
Minneapolis 55406: 4103 East Lake Street, (612) 721-1687. Vic Kissal.

Nashville 37204: 2106-A Eighth Avenue, South, (615) 297-5396. Ed Gleason.  
New Orleans 70119: 2940 Canal, (504) 822-7510. Nick Alfonso.

Oklahoma City 73105: 501 N.E. 27th Street, (405) 521-1426. Rick Buttrum.  
San Antonio 78204: 503 South Main, (512) 223-1848. Clyde Wilson.

Courses offered: 8-week theory and laboratory training in radio, TV, electronics, terminated by acquisition of a 1st class radio telephone FCC license; 16-week course in fundamental broadcasting encompassing announcing, scriptwriting, sportscasting, newscasting, control room operation, recording, programming, production, voice training; 24-week course in radio and television repair with emphasis on color TV and solid state circuitry; 48-week electronic technician course covering theory and lab work in basic electricity, power control and servomechanisms, logic and computer circuits and communications; 25-week course in professional photography including basic black and white photography, color photography, news and accident photography, black and white and color lab work and industrial photography.

**Graham Junior College**, School of Communications, 632 Beacon St., Boston 02215, (617) 536-2050. Dr. Arthur M. Griffin, pres; Harry LeCours, treas; John Burke, dean of admissions; Dr. Barry Jay Cronin, dean of the school of communications; Lyle J. Cleverger, dean of students.

Courses offered: Two-year associate degree programs in: radio bcstg, TV prod; broadcast journalism; broadcast mgt (adv & sls); performance (acting for radio & TV); broadcast electronics.

**Electronics Institute**, 5884 Leesburg Pike, Falls Church, Va. 22041, (703) 820-4417. Donald J. Grantham, pres; Claude C. Miller, dir.

Courses offered: Communications electronics.  
**Grantham School of Engineering**, 2000 Stoner Ave., Los Angeles 90025, (213) 477-1901. Donald J. Grantham, pres; W.I. Denny, dean of students; John J. Dulin, dean of faculty.

Courses offered: Electronics engineering by home study, leading to A.S.E.T., B.S.E.T., and B.S.E.E. degrees. Communications Electronics (leading to FCC licenses) by home study.

**Institute of Broadcast Arts**, 75 E. Wacker Dr., Chicago 60601, (312) 236-8105. Arthur J. Mansavage, pres; Mary M. Mansavage, VP & treas; Terry L. Mansavage, sec; Arthur Jay, Chicago school dir; Daniel J. Baran, asst dir; Joe Edwards, educ dir; Redd Hall, asst educ dir; Barbara DuBois, admin dir.

Courses offered: Broadcasting I. All phases bcstg. On-the-air training, voice development, diction, console operation, writing, 300 course hours covered in 24 weeks. Broadcasting II. Preparation for passing FCC 1st class License exam. Broadcasting III. Comprehensive 10 month course leading to FCC 1st class license. Operation of TV equipment and on-air training. Includes course in sales and management. Nationwide placement service. State and VA approved.

**ICS School of Electronics**, ICS Division of INTEXT, Scranton, Pa. 18515, (717) 342-7701. Joseph A. Risse, dir of electronics curriculum; Edward A. Skies, asst dir; Robert Donovan, VP, education.

Courses offered: FCC licenses, practical radio and TV engineering, cable TV installer, telephone technology, communications technology, radio, TV hi-fi servicing; industrial electronics, writing, sales advertising, and accounting, special custom tailored courses for industry and bestg.

**J-R Radio Announcer School**, Box 356, Salem, Ohio 44460, (216) 337-7930. Roger H. Luscombe, owner, instructor.

Courses offered: Private and classroom in-person training in private studio. Correspondence course. 3rd class FCC license preparation, fundamentals of delivery, articulation, pronunciation, foreign pronunciation, ad libbing, interviewing, writing and editing of news, writing commercials, program log, commercial production, disk jockey practice.

**Kansas Midwestern School of Broadcasting**, 1726 South Seneca, Wichita, Kan. 67213, (316) 267-2891. Tony L. Creamer, owner, gen mgr; Bruce Bertsch, student dir.

Courses offered: Phase I, broadcast orientation; Phase IA, on-air station operation; phase II, news gathering, writing, editing and reporting; Phase III, sports play by play casting and reporting; Phase IV, FCC; Phase V, commercial writing and production. Lifetime placement assistance.

**Don Martin School of Communications**, 5th Floor, Muir Bldg., 7080 Hollywood Blvd., Los Angeles 90028, (213) 462-3281. Howard G. Townsend, pres & dir; Hester E. Martin, registrar.

Courses offered: Communications electronics (FCC 1st class license & practical transmitter & studio opns), radio & TV announcing & prod, script & coml writing, news & sportscasting, TV & cable prod planning, writing & direction.

**Midwestern Broadcasting School**, 228 S. Wabash Ave., Chicago 60604, (312) WAbash 2-0712. Fred Robbins, pres-dir; Alice Lane, registrar.

Courses offered: Announcing, timeselling, copywriting, console operation.

**National Academy of Broadcasting**, 1404 New York Ave. N.W., Washington 20005, (202) 347-2900. Robert K. Hughes, dir.

Courses offered: Phase I: broadcast history, speech & diction, broadcast sales, news writing, commercial writing, FCC third class license prep. Phase 2: Operation of actual broadcast equipment in an "on the air" environment.

**National Institute of Communication**, 11516 Oxnard St., North Hollywood, Calif. 91606, (213) 980-5212. Henry C. Kurn, dir.

Courses offered: Radio & television broadcast arts: FCC 1st phone license.

**National Radio Institute**, 3939 Wisconsin Ave., Washington 20016, (202) 244-1600.

**New School for Social Research**, 66 W. 12th St., New York 10011, (212) 741-5600. Dr. John R. Everett, pres; Dr. Harry D. Gideonse, chancellor; Allen Austill, dean; Dr. Joseph J. Greenbaum, dean, the graduate faculty; Howard L. Levine, dir PR.

Courses offered: TV writing workshop; writing for TV, films and radio; TV production workshop; voice and speech for theater and TV; seminars on TV commercials; and writing television commercials.

**Northwestern Electronics Institute**, 3800 Minnehaha Ave. S., Minneapolis 55406, (612) 721-2469. C. L. Larson, pres.

Courses offered: FCC license preparation, electronics technology, industrial electronics, computer technician, radio-television technician, communications.

**Northwest Schools**, 1221 N.W. 21st Ave., Portland, Ore. 97209, (503) 226-4811. W.A. Sawyer, pres.

Courses offered: Radio-TV announcing.

**Omega Services, Inc.** 333 E. Ontario, Suite 3913, Chicago 60611, (312) 649-0937. Eric Thurman, pres; James D. Ehrhart, educational dir.

Courses offered: FCC First Class License, laboratory training, basic studio operations. (All courses cover both radio and television.)

**Phoenix College**, 1202 W. Thomas Rd., Phoenix 85013, (602) 264-2492, ext 358-359. Charles E. Buzzard, professor of radio and television.

Courses offered: Fundamentals of radio-TV, radio-TV announcing, voice and diction, introduction to broadcast engineering, broadcast advertising and public relations, advanced broadcast production, radio news, radio survey, history of music, broadcast station management, radio programming, principles of sales, radio internship.

Coleman, dir; Tom Larson, dir of TV; Don Thomas, dir of radio; Richard C. Swan, dir of theatre; Maureen G. Bonin, registrar/dean.

Courses offered: Radio-TV announcing, writing, production, newscasting, sales, sports, speech, television acting, theatre, stage acting, make up, movement, directing, script writing.

**Radio Engineering Incorporated Schools**, 61 N. Pineapple Ave., Sarasota, Fla. 33577, (813) 955-6922. Dwain Glenn, pres; Raymond Gill, VP.

Courses offered: FCC license training, radio announcing, television broadcast technician.

**School of Broadcasting and Announcing**, 1697 Broadway, Suite 607, New York 10019, (212) Circle 5-2640. Michael Woloson dir.

Courses offered: Disk-jockey, newscasting, announcing, combo operation, TV commercials, TV news, TV weather.

**Signal Radio-TV Career School**, (also dba Signal Broadcasting) 2314 Broadway, Denver 80205, (303) 255-8667. William S. Pierson, pres; Roland Newman, registrar.

Courses offered: Radio-TV announcing/stn opns. Includes announcing, DJ, news editing & reporting, progmg, prod, sls, merchandising, radio & TV operation procedures, on-camera performance, video prod in studio & on remote location. Complete facilities for both radio & TV training.

**Sylvania TV Studio School**, 1600 Broadway, New York

## Schools. Colleges

10019. (212) 541-6238. M. Dick, dir.

Courses offered: TV production, directing, studio operations.

**Technical Career Institutes (formerly RCA Institutes).** 320 W. 31st St., New York 10001. (212) 594-4000. Samuel Steinman, pres; David Williams. VP; Herbert Friedman, sec; Salvatore Adelfio, Jr., treas; Nathan Buch, dir.

Courses offered: Electronics technology, electronics circuits and systems, electronics circuits, radio-television and electronics servicing, air conditioning and refrigeration, radio-television receivers, color TV, communications electronics and FCC license, home and auto air-conditioning and refrigeration.

**Valparaiso Technical Institute.** Center St., Valparaiso, Ind. 46383. (219) 462-2191. G. Edward Hershman, pres; Arthur L. Hershman, VP.

Courses offered: Electronic technology, electronic engineering technology, senior electronic engineering technology, B.S. electronic engineering. Fully accredited by the Indiana Private School Accrediting Commission.

**Bill Wade School of Radio and Television.** 7080 Hollywood Blvd., Suite 711, Hollywood 90028. (213) 463-5665. Owned and operated by Creative Broadcast Services Inc. Tom Schaefer, pres; Ed Wickey, VP; Gerald B. Hassman, admin dir.

Courses offered: Radio and television announcing, production and sales and FCC first-class license (through correspondence).

### Colleges Offering Degrees in Broadcasting

Schools are listed in alphabetical order by state.

#### Alabama—Illinois

Alabama, U. of; University. Ala. 35486. BA-MA.  
 Auburn U., Auburn, Ala. 36830. BA-MA.  
**Gadsden State Junior College;** Gadsden, Ala. 35903.  
 Alaska, U. of; College, Alaska 99701. BA.  
 Arizona State U.; Tempe, Ariz. 85281. BA.  
 Arizona U., Tucson, Ariz. 85721. BA.  
 Arkansas State U., State University, Ark. 72467. BA.  
 John Brown U.; Siloam Springs, Ark. 72761. BA.  
 California State U., Fullerton; Fullerton, Calif. 92631. BA.  
 California State U., Long Beach; Long Beach, Calif. 90804. BA.  
 California State U., Los Angeles; Los Angeles 90032. BA.  
 California State Polytechnic College; San Luis Obispo, Calif. 93401. BA.  
 California State U., Northridge, Calif. 91324. BA.  
 California State U., Chico; Chico, Calif. 95926. BA.  
 Columbia College; Los Angeles 90038.  
 Fresno State College; Fresno, Calif. 93710. BA-MA.  
 Los Angeles City College; Los Angeles, 90029.  
 California State U., Sacramento; Sacramento, Calif. 95819. BA.  
 California State U., San Diego; San Diego 92115. BA-MA.  
 San Fernando Valley State College; Northridge, Calif. 91324. BA.  
 San Francisco, City College of; San Francisco 94112.  
 California State U., San Francisco; San Francisco 94132. BA-MA.  
 California State U., San Jose; San Jose, Calif. 95114. BA-MA.  
 Southern California, U. of; Los Angeles 90007. BA-MA-PhD.  
 Stanford U.; Stanford, Calif. 94305. BA-MA-PhD.  
 UCLA; Los Angeles 90014. BA-MA.  
 Colorado State U.; Fort Collins, Colo. 80521. BA-MA.  
 Colorado, U. of; Boulder, Colo. 80302. BA-MA-PhD.  
 Denver, U. of; Denver 80210. BA-MA.  
 Southern Colorado State College; Pueblo, Colo. 81001. BA.  
 Bridgeport, U. of; Bridgeport, Conn. 06602. BA.  
 Delaware, U. of; Newark, Del. 19711. BA-MA.  
 American U.; Washington 20016. BA-MA.  
 Florida State U.; Tallahassee, Fla. 32306. BA-MA-PhD.  
 Florida Technological U.; Orlando, Fla. 32816. BA.  
 Florida, U. of; Gainesville, Fla. 32601. BA-MA.  
 Miami, U. of; Coral Gables, Fla. 33124. BA.  
 South Florida, U. of; Tampa, Fla. 33620. BA.  
 West Florida, U. of; Pensacola, Fla. 32504. BA.  
 Georgia, U. of; Athens, Ga. 30601. BA-MA.  
 Georgia State U., Atlanta 30303. BA.  
 Hawaii, U. of; Honolulu 96822. BA.  
 Idaho State U.; Pocatello, Idaho 83201. BA.  
 Idaho, U. of; Moscow, Idaho 83843. BA.  
 Eastern Illinois U.; Charleston, Ill. 61920. BA.  
 Illinois State U.; Normal, Ill. 61761. BA.  
 Illinois, U.; Urbana, Ill. 61801. BS-MS.  
 Northern Illinois U.; DeKalb, Ill. 60115. BA-MA.  
 Northwestern U.; Evanston, Ill. 60201. BA-MA-PhD.

Parkland College; Champaign, Ill. 61802.  
 Southern Illinois U.; Carbondale, Ill. 62901. BA.  
 Southern Illinois U.; Edwardsville, Ill. 62025. BA.  
 U of Illinois, Chicago Circle, Chicago 60680. BA.  
 Wabash Valley College; Mt. Carmel, Ill. 62863.  
 Western Illinois U.; Macomb, Ill. 61455. BA-MA.  
 Wheaton College; Wheaton, Ill. 60187. BA-MA.

#### Indiana—New Mexico

Ball State U.; Muncie, Ind. 47306. BA-MA.  
 Butler U.; Indianapolis 46208. BA-MA.  
 Evansville, U. of; Evansville, Ind. 47702. BA.  
 Indiana State U.; Terre Haute, Ind. 47809. BA-MA.  
 Indiana U.; Bloomington, Ind. 47401. BA-MA-PhD.  
 Notre Dame, U. of; Notre Dame, Ind. 46556.  
 Purdue U.; West Lafayette, Ind. 47907. BA-MA-PhD.  
 Drake I.; Des Moines, Iowa 50311. BA.  
 Iowa, State U. of; Ames, Iowa 50010. MA-BA.  
 Iowa, U. of; Iowa City, Iowa 52240. BA-MA-PhD.  
 Fort Hays Kansas State College; Hays, Kan. 67601. BA.  
 Kansas State U.; Manhattan, Kan. 66502.  
 Kansas, U. of; Lawrence, Kan. 66044. BA-MA.  
 Washburn U.; Topeka, Kan. 66621. BA.  
 Wichita State U.; Wichita, Kan. 67208. BA.  
 Ashland Community College; Ashland, Ky. 41101.  
 Eastern Kentucky University; Richmond, Ky. 40475. BA.  
 Kentucky, U. of; Lexington, Ky. 40506. BA-MA.  
 Morehead State U., Morehead, Ky. 40351. BA.  
 Murray State U.; Murray, Ky. 42071. BA-MA.  
 Western Kentucky U., Bowling Green, Ky. 42101. BA.  
 Grambling College, Grambling, La. 71245. BA.  
 Louisiana Polytechnic Institute; Ruston, La. 71270. BS.  
 Louisiana State U.; Baton Rouge 70803. BA.  
 Loyola U.; New Orleans 70118. BA.  
 Northeast Louisiana U.; Monroe, La. 71201. BA.  
 Southwestern Louisiana, U. of; Lafayette, La. 70501. BA.  
 Maine, U. of; Orono, Me. 04473. BA.  
 Community College of Baltimore; Baltimore, Md. 21215.  
 Maryland, U. of; College Park, Md. 20742. BA-MA.  
 Towson State College; Baltimore 21044. BA.  
 Boston U.; Boston 02215. BA-MA.  
 Emerson College; Boston 02116. BA-MA.  
 Endicott Junior College; Beverly, Mass. 01915.  
 Massachusetts, U. of; Amherst, Mass. 01002. BA-MA-PhD.  
 Mount Wachusett Community College; Gardner, Mass. 01440.  
 Central Michigan U.; Mt. Pleasant, Mich. 48858. BA-MA.  
 Detroit, U. of; Detroit 48221. BA.  
 Eastern Michigan U.; Ypsilanti, Mich. 48197. BA-MA.  
 Michigan State U.; East Lansing, Mich. 48823. BA-MA-PhD.  
 Michigan, U. of; Ann Arbor, Mich. 48104. BA-MA-PhD.  
 Northern Michigan U., Marquette, Mich. 49885. BA.  
 Northwood Institute; Midland, Mich. 48640.  
 St. Clair County Community College; Port Huron, Mich. 48060.  
 Wayne State U.; Detroit 48202. BA-MA-PhD.  
 Western Michigan U.; Kalamazoo, Mich. 49001. BA-MA.  
 Minnesota, U. of; Duluth, Minn. 55812. BA.  
 Minnesota, U. of; Minneapolis 55455. BA-MA-PhD.  
 St. John's U.; Collegeville, Minn. 56321.  
 Mississippi State U.; State College, Miss. 39762. BA.  
 Mississippi, U. of; University, Miss. 38677. BA-MA-EdD-PhD.  
 Southern Mississippi, U. of; Hattiesburg, Miss. 39401. BA-MA-PhD.  
 Central Missouri State College; Warrensburg, Mo. 64093. BA-MA.  
 Lindenwood College; St. Charles, Mo. 63301. BA.  
 Missouri, U. of; Columbia, Mo. 65201. BA-MA-PhD.  
 St. Louis U.; St. Louis 63103. BA.  
 Stephens College; Columbia, Mo. 65201. BA.  
 Eastern Montana College; Billings, Mont. 59101. BA.  
 Montana State U.; Bozeman, Mont. 59715. BA.  
 Montana, U. of; Missoula, Mont. 59801. BA-MA.  
 Creighton U.; Omaha 68131. BA.  
 Nebraska, U. of; Lincoln, Neb. 68508. BA.  
 Nebraska, U. of; Omaha 68101. BA.  
 Wayne State College; Wayne, Neb. 68787. BA.  
 Nevada, U. of; Reno 89507. BA.  
 Seton Hall U.; South Orange, N.J. 07079. BA.  
 William Paterson College; Wayne, N.J. 07470. BA-MA.  
 New Mexico State U.; Las Cruces, N.M. 88001. BA.

#### New York—Tennessee

Brooklyn College; Brooklyn, N.Y. 11210. BA-MA.  
 Cornell U.; Ithaca, N.Y. 14850. BA.  
 Fordham U.; Bronx, N.Y. 10458. BA.  
 Hofstra U.; Hempstead, N.Y. 11550. BA.  
 Ithaca College; Ithaca, N.Y. 14850. BA.  
 Herbert H. Lehman College; Bronx, N.Y. 10468. BA.  
 New York U.; New York 10003. BA.  
 Queens College; Flushing, N.Y. 11367. BA.  
 Rochester Institute of Technology; Rochester, N.Y. 14623.  
 St. John's U.; Jamaica, New York 11432. BA.  
 St. Lawrence U.; Canton, N.Y. 13617.  
 State U. College; Brockport, N.Y. 14420. BA.  
 State U. College at Geneseo; Geneseo, N.Y. 14454. BA-MA.

State U. College at Fredonia; Fredonia, N.Y. 14063. BA.  
 State U. College at Oswego; Oswego, N.Y. 13126. BA.  
 Syracuse U.; Syracuse, N.Y. 13210. BA-MA-PhD.  
 Duke U.; Durham, N.C. 27706.  
 North Carolina, U. of; Chapel Hill, N. C. 27514. BA-MA-PhD.  
 North Carolina State U., Raleigh, N.C. 27607. BA.  
 Shaw U.; Raleigh, N.C. 27602. BA.  
 North Dakota, U. of; Grand Forks, N.D. 58201. BA-MA.  
 Akron U., Akron, Ohio 44301. BA.  
 Bowling Green State U.; Bowling Green, Ohio 43402. BA-MA-PhD.  
 Capital U.; Columbus, Ohio 43209. BA.  
 Dayton, U. of; Dayton, Ohio 45409. BA.  
 Kent State U.; Kent, Ohio 44240. BA.  
 Marietta College; Marietta, Ohio 45750. BA.  
 Miami U.; Oxford, Ohio 45056. BA-MA.  
 Ohio State U., Columbus, Ohio 43210. BA-MA-PhD.  
 Ohio U.; Athens, Ohio 45701. BA-MA-PhD.  
 Toled, U. of; Toledo, Ohio 43606. BA.  
 Xavier U.; Cincinnati 45207. BA-MA.  
 Central State College, Edmond, Okla. 73034. BA.  
 Oklahoma City U.; Oklahoma City 73106. BA.  
 Oklahoma State U.; Stillwater, Okla. 74074. BA.  
 Oklahoma, U. of; Norman, Okla. 73069. BA-MA.  
 Tulsa, U. of; Tulsa, Okla. 74104. BA-MA.  
 Blue Mountain Community College; Pendleton, Oregon 97801.  
 Lewis and Clark College; Portland, Ore. 97219. BA.  
 Oregon State U.; Corvallis, Ore. 97331. BA.  
 Oregon, U. of; Eugene, Ore. 97403. BA-MA.  
 Pacific U.; Forest Grove, Ore. 97116. BA.  
 Southern Oregon College; Ashland, Ore. 97520. BA.  
 Southern Oregon College; Ashland, Ore. 97520.  
 Carnegie-Mellon U.; Pittsburgh 15213. MA.  
 Duquesne U.; Pittsburgh 15219.  
 Pennsylvania State U.; University Park, Pa. 16802. BA.  
 Point Dark College; Pittsburgh 16222. BA.  
 Temple U.; Philadelphia 19122. BA-MA-MFA-PhD.  
 Villanova U.; Villanova, Pa. 19085.
