# HOW HIGH ARE YOUR EMPLOYEES E.Qs.?

(Economics Quotients)

## COULD THEY ANSWER BASIC ECONOMIC QUESTIONS LIKE THESE?

True False

- (1.) Less than four per cent of the U.S. labor force are agricultural workers.
- (2.) Today, the U.S. ranks third in international trade.
- (3.) As productivity increases, our standard of living increases.
- (4.) When inflation occurs, each dollar we have buys more goods and services.

A recent national survey shows that many people would find these questions tough. In short, their Economics Quotients, their E.Qs, could probably stand improvement.

It's important. Not just because we all face some important decisions about our economic system. But because the more we know

about our system, the more we'll be able to make it work for us as producers, investors, and consumers.

A special booklet has been prepared on what makes our American Economic System tick. It's fact-filled, easy reading and free. It's also an easy way for anyone to raise their E.Q.. For your copy, just clip the coupon.

# Canada

**Note:** Unless indicated as French (Fr), programming is in English on Canadian stations in all provinces except Quebec. In Quebec, programming is in French unless shown as English (Eng).

Due to Canada's geographic expanse, several Canadian stations have affiliates on shortwave (sw) frequencies for domestic broadcasting. In all cases they duplicate the AM station programing 100%.
