Policy: The Voice of America (VOA), the international bcstg service of the International Broadcasting Bureau (IBB), is governed by its Charter (Public Law 94-350) which stipulates VOA will: (1) serve as a consistently reliable & authoritative source of news & that its news will be accurate, objective & comprehensive; (2) represent America, not any single segment of American society & will therefore present a balanced & comprehensive projection of significant American thought & institutions; (3) present policies of the U. S. clearly & effectively, & will also present responsible discussion & opinion on these policies.

Facilities: VOA transmitters are located at 13 relay stns in the U.S. & abroad in Belize, Botswana, Germany, Greece (Kavalla & Rhodes), Kuwait, Morocco, the Philippines, Sao Tome, Sri Lanka & Thailand. Two other sites located in the U.S. are Delano, Calif., & Greenville, N.C. Programs originate in the Washington D.C. studios at VOA headquarters. A 150-channel master control panel is used to route them onto appropriate satellite circuits for delivery to the relay stns, & two centers to record reports from VOA correspondents around the world.

Programming: U.S. & world events are reported accurately & fully in VOA newscasts & news progs. Features, backgrounders, interviews, on-the-scene coverage of special events & documentaries provide listeners around the world with an accurate, comprehensive portrayal of American life & opinion. Information on U.S. policies is reflected in editorials.

Program Placement: A var of VOA progmg is also made available to, & extensively used by, foreign media worldwide. A total of 2,000 hrs progmg per week is available to affil loc stns via satellite. Radio stns in some countries simply relay VOA's direct bcsts or tape prog segments from them for rebroadcast

at prime local listening times. Satellite or high frequency feeds, dial-up systems, & airmailed tapes are also used to provide VOA progmg in 40 languages to stns throughout the world.

Program Hours & Languages: The 700 hours of progmg produced at VOA each week include three spec svcs: VOA TV, Radio Marti & TV Marti. VOA TV simulcasts some of the progmg of seven VOA language svcs (Albanian, Bosnian, Chinese-Mandarin, English, Farsi, Serbian & Sp) on radio & TV. Radio Formats Defined

Broadcasting & Cable Yearbook defines a radio format as programming broadcast over 20 hours weekly. Programming broadcast from one to 20 hours weekly is defined as special programming. This is not a hard and fast rule, however. Some stations may report programming unique to their main programming format(s) as "special" programming regardless of the number of broadcast hours.

Most stations broadcast one format, though some stations report having two or more formats. A station that lists four or more formats is categorized as "Variety/Diverse" or "Diverse." Formats that did not fit into a specific category are listed as "Other."

At present, *Broadcasting & Cable Yearbook* recognizes 91 different formats. These formats are listed below with appropriate definitions.

This listing is followed by a breakdown of formats by state and by province. The chart on page D-646 gives a breakdown of radio programming by AM/FM and commercial/noncommercial stations in the U.S. and Canada.

AAA (or Triple A)—Adult Album Alternative. Eclectic choice of music ranging from hard rock to folk music.

Adult Contemporary—Recent popular songs, with a few oldies. The songs tend to be upbeat and soft. News and talk segments are prominent during rush hour "drive times." Also known as **Light Rock**.

Agriculture & Farm—News, weather and features of interest to farmers and others involved in agriculture.

Albanian.

Album-Oriented Rock—Popular rock music from past and present rock albums. Also see **Rock/AOR**.

Alternative—Rock music first popularized in the late 80s and early 90s. Also known as **Progressive**.

American Indian—Programming for North American Indians; includes native language (i.e. Navajo) broadcasts.

Arabic.

Armenian.

Beautiful Music—Uninterrupted, instrumental soft music. There is usually very little talk and few commercials. Also known as **Easy Listening**.

Big Band—Popular music from the 30s and 40s. Primarily instrumental works by bands such as Glen Miller's Orchestra and Tommy Dorsey. Also see **Nostalgia**.

Black—Music, talk and news targeted at Black listeners. Music at these stations is similar to **Urban Contemporary** stations, but this format caters more directly to the interests and tastes of Black audiences.

Bluegrass—Related formats are **Country** and **Folk**.

Blues—Some **Jazz** and **Progressive** stations also program blues music.

Children—Programming for children, usually for educational purposes. Includes music, informational programming, and news presented for young people.

Chinese.

Christian.

U.S. Radio Markets

The following is the Arbitron population ranking for Fall 1999, based on market definitions at that time. It is based on the 1990 U.S. Bureau of Census estimates updated and projected to January 1, 2000.

The MSA number is the population of all persons aged 12 or older in the Metro Survey Area. The TSA number is the population total of all persons 12 or older in the Total Survey Area. Following that are the call letters of stations that fall within the market as defined by Arbitron.

Certain market population totals are also embedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.

Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based upon average value as published by the U.S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the United States, and insurance.
