# Radio Formats Defined

*Broadcasting & Cable Yearbook* defines a radio format as programming broadcast over 20 hours weekly. Programming broadcast from one to 20 hours weekly is defined as special programming. This is not a hard and fast rule, however. Some stations may report programming unique to their main programming format(s) as “special” programming regardless of the number of broadcast hours.

Most stations broadcast one format, though some stations report having two or more formats. A station that lists four or more formats is categorized as “Variety/Diverse” or “Diverse.” Formats that did not fit into a specific category are listed as “Other.”

At present, *Broadcasting & Cable Yearbook* recognizes 90 different formats. These formats are listed below with appropriate definitions.

This listing is followed by a breakdown of formats by state and by province. The chart on page D-661 gives a breakdown of radio programming by AM/FM and commercial/noncommercial stations in the U.S. and Canada.

**AAA (or Triple A)**—Adult Album Alternative. Eclectic choice of music ranging from hard rock to folk music.

**Adult Contemporary**—Recent popular songs, with a few oldies. The songs tend to be upbeat and soft. News and talk segments are prominent during rush hour “drive times.” Also known as **Light Rock**.

**Agriculture & Farm**—News, weather and features of interest to farmers and others involved in agriculture.

**Albanian.**

**Album-Oriented Rock**—Popular rock music from past and present rock albums. Also see **Rock/AOR**.

**Alternative**—Rock music first popularized in the late 80s and early 90s. Also known as **Progressive**.

**American Indian**—Programming for North American Indians; includes native language (i.e. Navajo) broadcasts.

**Arabic.**

**Armenian.**

**Beautiful Music**—Uninterrupted, instrumental soft music. There is usually very little talk and few commercials. Also known as **Easy Listening**.

**Big Band**—Popular music from the 30s and 40s. Primarily instrumental works by bands such as Glen Miller’s Orchestra and Tommy Dorsey. Also see **Nostalgia**.

**Black**—Music, talk and news targeted at Black listeners. Music at these stations is similar to **Urban Contemporary** stations, but this format caters more directly to the interests and tastes of Black audiences.

**Bluegrass**—Related formats are **Country** and **Folk**.

**Blues**—Some **Jazz** and **Progressive** stations also program blues music.

**Children**—Programming for children, usually for educational purposes. Includes music, informational programming, and news presented for young people.

**Chinese.**

**Christian.**

**Classic Rock**—Popular rock music of the 60s, 70s and 80s. Also see **Rock/AOR**.

**Classical**—Classical music, often long pieces played without interruption. Announcers provide extended commentary and criticism on the pieces. Special features, such as live concerts, are common. Primarily a noncommercial FM format.

**Comedy**—Recorded stand-up comics and/or old radio comedy series. A rare format.

**Contemporary Hit/Top-40**—Current hot selling records. Usually a playlist of 20 to 40 songs continuously played throughout the day. DJs are often upbeat “personalities.” News and information are given light coverage.

**Country**—Country music, ranging from older traditional country and western to today’s “Hit Country” sounds. The amount of news and talk on country stations varies widely from station to station.

**Croatian.**

**Czech.**

**Disco**—High-energy dance music first popular in the 70s. Also see **Black** and **Urban Contemporary**.

**Discussion.**

**Diversified**—See **Variety/Diverse**.

**Drama/Literature**—Dramatic readings, poetry, and broadcasts of live dramatic performances. A rare format in the U.S. and Canada.

**Easy Listening**—Similar to **Beautiful Music**, but may include some soft rock.

**Educational**—Informative and instructional programming, such as over-the-air college courses. Primarily a noncommercial format.

**Eskimo.**

**Ethnic**—Programming for ethnic minorities, mostly in foreign languages.

# U.S. Radio Markets

The following is the Arbitron population ranking for Spring 2002, based on markets definitions at that time. It is based on the 1990 U.S. Bureau of Census estimates updated and projected to August 14, 2002.

The MSA number is the population of all persons aged 12 or older in the Metro Survey Area. The TSA number is the population total of all persons 12 or older in the Total Survey Area. Following that are the call letters of stations that fall within the market as defined by Arbitron.

Certain market population totals are also embedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.

Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based upon average value as published by the U.S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the United States, and insurance.
