U.S. Radio Markets: Arbitron Metro Survey Area Ranking

This chart ranks the 287 radio markets by Metro Survey Area population (see also the following chart of ranking by Total Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 2004. Data reflects the Spring 2004 Arbitron market definitions. A single asterisk (*) following a market name indicates that the market is embedded in a larger nearby market. See U.S. Radio Markets beginning on pg. D-760 for details. The double asterisk (**) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (***) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.
