THE NEWSWEEKLY OF RADIO AND TV

Buy the Mid-Continent Station and you get the biggest audience in each of these 3 markets

OMAHA. 52.6% share of audience. The highest ratings of any station in a comparable market in America. KOWH commands every single daytime quarter hour. Wide coverage on 660 kc. KOWH is doing a job for its local and national advertisers. the for General Mantager Virgil harpe to tell you about it KANSAS CITY. Calling (by Hooper) or re-calling (with Pulse) it's unanimous— WHB dominates Kansas City. (June-July daytime H o op er 45.1%) W H B achieved dominance in less than a year under Mid-Continent management. 10,000 watts on 710 kc. Call John Blair or General Manager George W. Armstrong.

NEW ORLEANS. Some old New Orleans radio traditions have disappeared, and a new one is here. Mid-Continent has operated WTIX for two years now. It took only the first ten months for the station to move from last to first place—and it's been there ever since. Average July daytime Hooper: 20.2%. Second station: 11.9%. Chat with Adam J. Young, Jr. or General Manager Fred Berthelson.

KOWH, Omaha Represented by H-R Reps., Inc. WHB, Kansas City Represented by John Blair & Co. WTIX, New Orleans Represented by Adam J. Young, Jr.

If you're looking for a Fall TV series—and you can't decide among the many fine TV dramas and mysteries—don't you think it makes sense to investigate a completely different type of show? And don't you think that the public would gratefully respond to one that's fresh and entertaining?

Then you'll want to investigate "EDDY ARNOLD TIME," a beautiful, stimulating musical series imaginatively produced and lavishly staged featuring a splendid cast and America's favorite singer of songs, EDDY ARNOLD.

26 half-hours now in the can, all made in 1955—a quality production, realistically priced.

VOTED BEST 1955 SPORTS SERIES!

"CHAMPIONSHIP BOWLING" is the TV sports champ! The TV industry voted it first, as the best, new, non-network series, in BILLBOARD'S Annual Program and Talent Poll. And no wonder! "CHAMPIONSHIP BOWLING" is now racking up ratings that can only be described as astonishing. Not even baseball, fights or pro football can compete. Sounds almost unbelievable, but it's true!

Look over just a few of our typical ratings and bear in mind these are for "slots" in fringe times.

New York San Francisco

Representatives: MEEKER TV, INC.

TV RATE INQUIRY • FCC's Common Carrier Bureau has instituted investigation into reasonableness of coaxial and microwave rates of AT&T, as first phase of study of network rules as applied to tv. Under personal direction of Harold G. Cowgill, bureau chief and former operating head of uhf ch. 17 WTVP (TV) Decatur, Ill., staff in New York is accumulating factual data to be submitted to fourcommissioner committee working under Congressional mandate and with \$80,000 special fund. Committee is Chairman Mc-Connaughey and Comrs. Hyde, Bartley and Doerfer.

BeT

COMMON Carrier Bureau needed no special authorization since it is functioning under Docket No. 8963, instituted in 1947, which is still open as to rates. New York staff directed by Jack Buckley, chief of field staff. Bureau hopes to clean up its task before FCC gets into other phases of network study, to update 1941 chainmonopoly regulations, and which cover contentions made to Senate Committee that small market operators can't afford tv line or relay charges. Otherwise, FCC inquiry is in suspense, awaiting appointment of director in charge, who presumably will select his own staff of six or eight. Recruiting difficult, because of short tenure and low \$80,000 budget.

ЗөТ

AGENCY LIQUIDATION • Horace Hagedorn, president of Kiesewetter, Baker, Hagedorn & Smith, New York, is expected to join Sullivan, Stauffer, Colwell & Bayles, along with \$1.2 million La Rosa (foods) account, it was understood Friday as KBH&S, announced it will liquidate between now and end of current year. H. M. Kiesewetter, who founded firm 25 years ago, retires to devote himself to management of personal interests; Samm S. Baker has joined executive staff of Donahue & Coe, and H. B. Smith is withdrawing from advertising field to enter another business.

3•T

BOTH sides in toll tv issue are keeping their eyes on Friday, Sept. 9, date on which reply briefs are due before FCC. Original briefs, filed last June 9, brought unprecedented comments, with total count on documents received reaching nearly 12,000 —about equally divided between pros and cons, aside from those containing multiple signatures.

B+T

IN THE FAMILY • Despite recurrent reports last week that Anheuser-Busch (Budweiser) would leave D'Arcy Adv. Co. for another agency, you can probably make book account will stay. Here are facts: (1) Budweiser has heard pitches from N. W. Ayer & Son and J. Walter Thompson Co. and D'Arcy is slated to make its presentation Sept. 9. (2) Budweiser has signed for 1956 St. Louis Cards (owned by Anheuser-Busch) radiotv schedule of 100-plus radio stations and KTVI (TV) St. Louis for television. (3) P. J. Orthwein, D'Arcy president, is on board of brewery and is married to President August Busch's sister. Another Orthwein is an A-B vice president.

∃•T

REORGANIZATION of D'Arcy's St. Louis office is in offing within next month or so, to be pegged along departmentalization lines. Harry K. Renfro, who has been serving as radio-tv director and account executive on Budweiser-Cards baseball, is understood to be slated for new overall radio-tv director's post to be created.

в∙т

POLITICAL TARGET • Fact that former President Harry S. Truman is taking cracks at what GOP has done in way of using "influence" at FCC as well as among other government agencies may be harbinger of things to come in upcoming presidential campaign. FCC also has been singled out for criticism by other Democratic leaders in attacks upon Republican administration.

BeT

JOSEPH L. RAUH JR., national chairman of Americans for Democratic Action, who has figured in public eye in attacking administration, is expert in broadcast law and may barge into that field also. Mr. Rauh, native Cincinnatian, served as assistant general counsel of FCC in charge of broadcast matters from May 9, 1940 to May 27, 1941 under General Counsel Telford Taylor.

B.T

RADIO SPLASH • Lincoln-Mercury, Detvoit, planning giant spot announcement radio campaign in nearly 500 markets effective Sept. 19. Campaign will run for seven or eight weeks. Agency: Kenyon & Eckhardt, New York.

BOT

THEODORE 1. OBERFELDER, who resigned his ABC vice presidency after "20second" session with ABC President Robert E. Kintner, hopes to land berth on West Coast. He received what he regards as "most generous" severance pay from ABC, terminating 11 years with network organization, latterly as vice president in charge of WABC-TV New York.

В∙Т

RETREAT FOR AIR FORCE? What happens to existing government tv stations when commercial outlets are ready to serve same area? Test case will soon arise out of commercial application for ch. 8 at Presque Isle, Me., by engineer Thomas B. Friedman [B•T, Aug. 29]. At stake is ch. 8 operation of Limestone, Me., air

base. Although low-power operation, base station has program logs printed in Presque Isle newspaper and is reported serving 15,000 receivers [B•T, July 4].

closed circuit

BeT

KEY Defense Dept. and FCC officials expressed conviction that Air Force at Limestone would be obligated to relinquish station operation in face of commercial tv service. Gentleman's agreement to this effect exists under Interdepartmental Radio Advisory Committee. Defense Dept. official says this agreement is unenforcable, but that Defense policy would compel government station to bow out. Course of action apparently not so clear when commercial radio station claims unfair competition from government tv as in case of KUAM Guam threatened with proposed military tv outlet [B•T, July 4].

BeT

MANANA • Mexican communications authorities expected to notify U. S. government by about Sept. 15 on acceptance or rejection of bi-lateral agreement on am radio allocations [CLOSED CIRCUIT, Aug. 15]. While optimism generally has been expressed on an accord, reports trickling in are that Mexico's industry group, representing existing stations, favor plan but that some members of government delegation want additional concessions which U. S. delegation has insisted would not be considered.

BeT

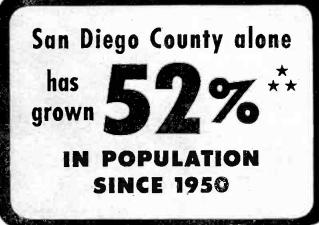

INDICATIVE of new line of thought on FCC in relation to uhf-vhf problem were comments last Friday of Comr. Robert E. Lee at West Virginia Assn. of Broadcasters meeting in White Sulphur Springs, W. Va. In off-the-cuff remarks, he viewed uhf as secondary service for foreseeable future and said he was predisposed toward dropins on vhf channels, reduction of separations and use of directionals, with existing uhf'ers to be given first crack at such assignments. He's also hopeful that number of vhf channels can be increased through trades with military and possibly with existing fm allocations, although he's disposed to handle latter rather gingerly. Comr. Lee is expected to expose his overall allocations philosophy on Sept. 20 at first of NARTB's area meetings in Chicago. (See Hyde comments, page 62).

BeT

TV HOME COUNT • Fund of new facts on U. S. tv homes due from U. S. Census Bureau in fortnight. Statisticians at weekend were nearing end of compilations showing for U. S. and four regions: Number of tv households with one set and with two or more; table of tv households by number of dwellers; nationwide tv ownership by size of urbanized areas, with five-way breakdown; ownership inside and outside standard metropolitan areas (will not show individual areas).

FCC Filing Signifies End Of DuMont Tv Network

OFFICIAL notice that Allen B. DuMont Labs Inc. is giving up network business was given Friday when firm filed application with FCC to transfer its two owned tv stations to subsidiary DuMont Broadcasing Corp. [B \bullet T, Aug. 15].

WABD (TV) New York and WTTG (TV) Washington will be under control of DuMont Broadcasting, wholly-owned subsidiary of Du-Mont Labs. Application for FCC approval noted there will be no change in control or management of stations.

It was stated that DuMont Labs "has been obliged to terminate and liquidate its tv broadcast network operations because they could not be operated profitably under the existing system of allocation and control of television broadcast stations and affiliations."

Statement asked "extensive readjustment" of operations of DuMont Labs, required by "substantial termination" of network operations, make it "necessary and desirable" that new subsidiary take over management at earliest practicable date.

DuMont Labs noted it will retain rights to Electronicam live-film system. Balance sheet of DuMont Broadcasting Corp. as of July 17 set total assets at \$2,732,416, with current assets of \$312,962. Stockholders' equity totaled \$2,732,416.

General Teleradio Acquires Rights to BBC War Series

EXCLUSIVE rights to U. S. distribution of British Broadcasting Corp.'s documentary series, *War in the Air*, has been acquired by film division of General Teleradio Inc., GT announced Friday. Series contains 15 half-hour films relating military air power's rise and impact on world in past 20 years.

Film footage—more than 6 million feet—had been contributed by U. S. Defense Dept.; NATO; British Air Ministry; British Commonwealth Air Ministries and French Air Ministry. Producer was BBC Television Service. Series based on outstanding World War II air campaigns with 90% drawn from actual combat material.

McLendon, Noe Organize NOEMAC Station Group

NEW radio-tv station group known as NOEMAC announced jointly by Gordon Mc-Lendon, president of Trinity Broadcasting Corp., and his father-in-law, former Gov. James A. Noe, president and head of Louisiana stations. Group will operate as advertising alliance and exchange information on electronics developments.

All five am stations in the group are independent. They include KLIF Dallas, WRIT Milwaukee, KELP El Paso, belonging to Trinity; WNOE New Orleans and KNOE Monroe, La., belonging to Gov. Noe. Two tv stations are in group—KNOE-TV Monroe, La., belonging to Gov. Noe and KOKE-TV El Paso, Texas, Trinity outlet scheduled to start in December on ch. 13. Trinity's key station, KLIF, is affiliated saleswise with KFJZ Fort Worth. Trinity plans to acquire other am and tv properties.

PONTIAC PACT

A. 6 (17)

PONTIAC MOTOR DIV. of General Motors Corp., through MacManus, John & Adams Inc., will sponsor See It Now series this fall on CBS-TV, William H. Hylan, vice president in charge of network sales, CBS-TV, announced Friday. Series will be made up of at least six broadcasts, varying in length during program season. Edward R. Murrow's program to be in 30-minute and 90-minute lengths depending on event treated. Pontiac's sponsorship is for first two programs slated for late October and mid-December. Auto firm has retained options on other four. First show to study office of vice-presidency and men elected to it; second tentatively slated to be on New York City with other planned to study Hollywood (with emphasis on tv's effect), report on Africa, studies of education and traffic problems.

RAB Clinic to Highspot Radio Success Stories

RADIO success stories will highlight agenda of Radio Advertising Bureau's national radio advertising clinic set for Oct. 13-14 at New York's Waldorf-Astoria. Some 21 radio advertisers will show how radio is used to solve problems in national or regional campaigns, RAB said Friday.

Speakers will include Walter Purdom, executive vice president, Brisacher, Wheeler & Staff, on behalf of Contandina tomato paste, and Arthur Magee, account executive, Rippey, Henderson, Kostka & Co., agency for Frontier Airlines (feeder airline operating in Rocky Mt. region). Also slated: panels on copy, marketing techniques and new research projects; case studies and other illustrations of techniques of use to national and regional advertisers, particularly in selective markets.

NBC Russian Pickups

NBC Radio to program what is described as first series of direct broadcasts from Moscow to U. S. by Irving R. Levine, network's news correspondent in Soviet Union, starting this Wednesday. Program, *This Is Moscow*, programmed 10:20 to 10:30 p.m. (EDT), will include feature reports on varied aspects of Russian life (arts, science and business) as well as interviews with Russians in these fields. Mr. Levine, recently granted permanent visa, already has been broadcasting daily from Moscow. Until last Wednesday, he was not not censored.

TOO HOT FOR HOME

KCOP (TV) Los Angeles announced Friday it had refused film spots for feature movie "I Am a Camera" on ground sexy scenes are not fit for home viewing. Station indicated action does not pass judgment on scenes or lines of film itself. Understood second Los Angeles outlet planned similar action. Movie itself has been refused production code seal.

BUSINESS BRIEFLY

FRIGIDAIRE DRAMA • Frigidaire Div. of General Motors Corp. will sponsor "My Favorite Husband" in CBS-TV's 10:30-11 p.m. Tues. spot following \$64,000 Question, effective Oct. 4. Kudner Agency, N. Y., handles.

CIBA DOCUMENTARY • Ciba Pharmaceutical Products Inc., Summit, N. J., in cooperation with American Medical Assn., will present new documentary series, *Medical Horizons*," on ABC-TV, Mon., 9:30-10 p.m. effective Sept. 12. Show for Ciba is packaged by J. Walter Thompson Co., N. Y., with Fred Carney as producer-director.

SERUTAN RADIO • Serutan, New York, through Edward Kletter Assoc., buying radio spot announcement campaign starting Sept. 6 for 52 weeks.

NUCOA BUYING TV • Best Foods (Nucoa margarine) expected to buy tv campaign in number of markets starting Sept. 12 for 32 weeks. Agency, Dancer-Fitzgerald-Sample, New York.

GLEEM PLANS • Procter & Gamble (Gleem toothpaste) through Compton Adv., New York, understood to be planning radio spot announcement campaign in number of markets effective Sept. 19. Usual until-forbid P&G contract will be placed.

AGENCY SWITCH • Personal Products, division of Johnson & Johnson, currently serviced by BBDO, New York, expected to name Gear-Marston as agency effective first of year.

TPA Acquires 104 Episodes Of 'Private Secretary' Series

PURCHASE OF 104 episodes of "Private Secretary" film series starring Ann Sothern, announced by Milton A. Gordon, president of Television Programs of America, called largest transaction of its kind in tv film distribution. TPA is paying Chertok Productions, producers of series, \$4 million for negatives of 104 pictures.

New productions in "Private Secretary" series will remain as Sunday evening network feature over CBS-TV, alternating with Jack Benny under sponsorship of American Tobacco Co., and will continue to be produced by Chertok organization. Episodes acquired by TPA, under agreement reached by Edward Small, TPA board chairman, and Paul McNamara, partuer and vice president of Chertok, will be distributed under title "Susie." TPA has bought its rights in perpetuity.

ABC-TV 'Festival' Contest

ABC-TV has invited some 500 members of agency media and research departments in New York and another 300 in Chicago to take part in contest that offers cash prizes of \$1,000, \$500 and \$250 for winning estimates of what Nielsen rating average will be for network's 90-minute feature film presentation, *Famous Film Festival*, Sun., 7:30-9 p.m. EDT starting Sept. 18. Contest will be based on Nielsen's two October reports. Estimates also being asked for individual separate week Nielsen ratings for period covered by reports and average number of homes reached per program over period. Latter estimates to be used in case of ties.

Farmers

MAL HANSEN!

BECAUSE he has broadcast on Radio WOW and WOW-TV daily for ten years.

BECAUSE he has intimate contacts with all midwestern farm organizations and agriculture schools.

BECAUSE he knows farmers personally. Each year he travels 15,000 miles to visit farmers and farm gatherings. He is the most sought after speaker in midwestern agriculture.

> BECAUSE he is nationally recognized. He is past president of the National Association of TV and Radio Farm Directors.

BECAUSE more than a thousand farm folk have followed his annual farm study trips, including two to Europe.

BECAUSE he has an expert staff, headed by Associate Farm Director Arnold Peterson. BECAUSE he is with a Meredith Publishing Co. station affiliated with "Successful Farming" magazine.

DEOPLE

GEORGE VAUGHAN, formerly with MCA-TV, joins Official Films this week as senior account executive in New York headquarters as contact on key agencies.

PAUL A. RYAN, formerly vice president of Product Presentation Inc., Cincinnati, appointed sales planning manager, Capehart-Farnsworth Co., Fort Wayne, Ind.

RICHARD W. BOWMAN, who recently joined Vorman, Craig & Kummel in tv copy supervisory capacity, named a vice president.

General Teleradio Contract Portends Selznick in Tv

SIGNING of David O. Selznick by General Teleradio's RKO Radio Pictures to produce unspecified number of major films may also mark introduction of Hollywood producer into that Mr. Selznick plans to produce to films series could not be confirmed by RKO Radio Friday, but Mr. Selznick was quoted as saying filast "television will be an integral part of the family Co.'s operations.

Mr. Selznick was further quoted as not having "formally committed" tv shows to General Teleradio but that "we do recognize a mutuality of interests." Also reported were scheduling of Charles L. Glett, executive vice president of RKO Radio, to talk about adapting tv film principles to movies, and gentlemen's understanding between RKO and Selznick that latter would enter overall operation of GT's tv and theatrical projects after RKO Radio is back in full film production.

Under terms of long-term contract between Mr. Selznick and RKO, latter will finance Selznick studio film operations with product set O'Neil, MBS and General Teleradio president, and Daniel T. O'Shea, president of RKO Radio, and A. Morgan Maree Jr., also RKO Radio, executive, took part in negotiations with Mr. Selznick, Also agreed upon was re-issue of previous Selznick features to be launched with previous Selznick features to be launched with saturation tv and other media campaigns.

In Death of Philip Loeb

AUTOPSY ordered Friday by New York City police in death of veteran actor-producer Philip Loeb, 61, caused by apparent overdose of sleeping pills. He was found dead Thursday night in his room at Hotel Taft.

Mr. Loeb was "Jake Goldberg" of tv series-The Goldbergs, then on NBC-TV-until few Channels, privately-published anti-Communist booklet dealing with entertainment industry. At time, Actors Equity had branded listing as "unfair" and Mr. Loeb was supported by Mrs. Gertrude Berg ("Molly"), creator of The Goldbergs. She had noted that Mr. Loeb "stated categorically that he is not and never has been a Communist . . . No evidence has been presented to the contrary."

Sacramento Case Appealed

McCLATCHEY Broadcasting Co. appealed Friday to U. S. Court of Appeals for D. C. from FCC decision granting KBET-TV Sacramento, right to move studios and transmitter. KBET-TV was favored over McClatchy in ch. 10 grant fast October and two months later filed for changes. FCC granted changes and denied probecause its own KFBK Sacramento serves same area as ch. 10 tv outlet. Question which Mc-Clatchy asked court to settle: Has McClatchy for sting to seek reconsideration of grant of grant of granting to seek reconsideration of grant of permit changes? FCC held that it didn't.

Sept. 8-9: NARTB Code Review Board, NARTB Hdars., Washington. Sept.]]-] 3: Seventh Dist. AFA Convention, Birmingham, Ala. (For other Upcomings see page 103)

Faces Possible Rehearing

RECOMMENDATION that FCC rehear ch. 11 grant at Pittsburgh to WWW Inc., if certain "infirmities" in merger agreement are not resolved, was made Friday by FCC's Broadcast Bureau.

Bureau held that merger agreement between ch. II applicants WWSW and WJAS that resulted in final grant raises "substantial questions" of long-established FCC policies. Substantive analysis of agreement was not made in examiner's initial decision or final grant, bureau stated.

Among questions raised by Broadcast Bureau are violations of duopoly rule in that tv station (WIIC [TV] due to start Nov. 15) will be operated "for a time" under licensees of two standard Pittsburgh stations; that WIAS makes no provision for divestment of WHJB Greensburg, Pa., which overlaps WWSW.

Unless these "infimities" are resolved by modification of agreement, bureau recommended commission grant ch. 16 WENS (TV) Pitts-burgh rehearing as latter station requested.

WJAS also asked Friday that WEMS petition be denied. Station said FCC is without jurisdiction to consider this petition in as much as WENS has sought judicial relief. Appeal against grant to WWSW Inc. is pending before U. S. Appeals Court in Washington.

RETMA Fall Agenda Covers Trade Rules, Excise Taxes

PROPOSALS to ask changes in trade practice rules governing radio-tv set manufacturing will be reviewed at fall conclave to be held Sept. 13-15 by Radio-Electronics-Tv Mfrs. Assn. at plaza Hotel, New York. Manufacturers object to required "used" label on tv pictures made of tv screens and rules governing advertising of tv screens and rules governing advertising of cabinets not made of solid woods.

Plans for National Radio & Television Week starting Sept. 18 (story page 91) will be reviewed along with Voice of Democracy contest plans and proposals to renew efforts to obtain relief from excise taxes. President H. Leslie Hoffman will preside at RETMA sessions. Schedule of sessions includes 29 separate meetings.

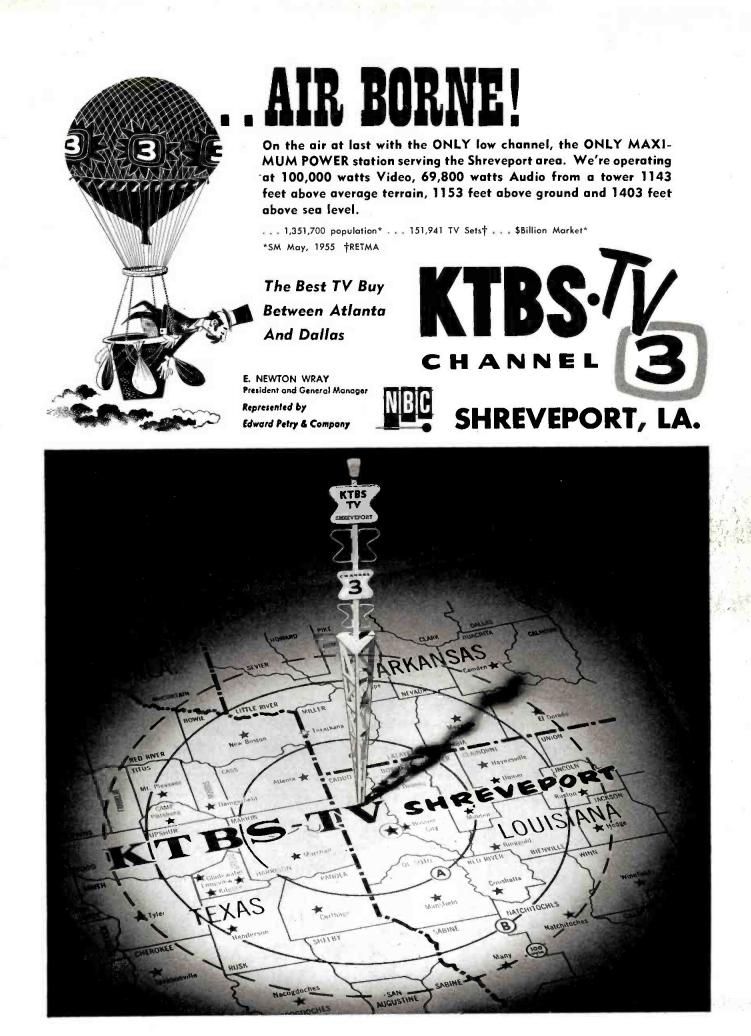

Timothy Buys KMBY Control

KMBY Monterey, Calif., sold by Mr. and Mrs. Fred Gwynn to B. P. (Tim) Timothy, one of founders of Avery-Knodel Co., station representatives. He purchased 75% of outstanding stock for \$50,000, subject to FCC approval. Transaction handled by Blackburn-Hamilton Co., broadcasting and newspaper brokerage firm. KMBY is a 250 w station on 1240 kc.

DuMont Names Bowker

BENJAMIN C. BOWKER, one-time general manager, WLIB New York, appointed public relations manager of Allen B. Du Mont Labs, succeeding J. H. Ruiter, who has become manager of advertising and sales promotion of Du Mont's Technical Products Div. (see story, page 98), Keeton Arnett, vice president for administration, has announced.

One of the most productive selling combinations in Northwest Alabama, Northeast Mississippi and Southern Tennessee is Big Johnnie Lott and WERH's Big. Powerful 5000 Watts at 970 KC.

Mid-South folks like the way Big Johnnie talks . . . and there're a lot of them in WERH's 33 county market of nearly 200,000 radio homes. If Big Johnnie says a product is good it's good!

Here's a personality backed by proven listener appeal (ask us for our latest Conlan) who does a whale of a job of selling for such national and regional advertisers as:

Royal Crown Cola Westinghouse Appliances Betsy Ross Bread Armstrong Tires SSS Tonic Pepsi-Cola Loveman's Dept. Store (Birmingham) Coca-Cola Gulf Refining Chevrolet-Oldsmobile Frigidaire Appliances General Electric Chrysler-DeSoto Ford Motor Co. Sherwin Williams Paints

Big Johnnie can sell for you too. Ask Hugh Fite at WERH or any of Hil F. Best Company representatives. They'll be pleased to tell you.

—IN REVIEW'-

DAVIS CUP MATCHES

NBC-TV's colorcast of the Davis Cup tennis matches from the West Side Tennis Club at Forest Hills, Long Island, was as exciting a spectacle as any viewer could wish for—any tennis-loving viewer, that is. The cast was superb, the action thrilling, the outcome uncertain right up to the end. Here was "immediacy" at its utmost.

True, the outcome could have been a happier one for the home team and for the home team fans who suffered with the players when the Australians swept the matches for a five-to-nothing victory and left no doubt that the Davis Cup properly belongs Down Under this year. But if the home team had to lose, it could not have had a more deserving conqueror. Tony Trabert and Vic Seixas are great tennis players. But on the weekend of Aug. 26-28 Lew Hoad and Rex Hartwig were greater.

The Saturday and Sunday matches came over exceedingly well in color. Unlike previous tennis telecasts in black-and-white, where the ball was hard to follow, the colorcasts showed the white ball distinctly against the green grass of the court, giving the televiewer as much opportunity and perhaps even more right to dispute the rulings of the linesmen on close ones than if he had been seated in the stadium. The long shots of the action seemed a little fuzzy, in contrast to the sharpness of the between-games closeups, and there was a difference in color values as if the two cameras had not been balanced to the same standard, but these were minor flaws in a major performance that proved conclusively that tv's color cameras will have as secure a place outdoors in the sunlit playing field as they have in the artificially lighted studio.

Production costs: \$38,750.

Telecast in color and black-and-white on NBC-TV, Aug. 26, 2-5 p.m.; Aug. 27, 2:30-5 p.m.; Aug. 28, 2-5 p.m., all EDT.

Overall supervisor: Tom Gallery, NBC director of sports; director: Harry Coule; production supervisor: Perry Smith; announcers: Jack Kramer, Bud Palmer, Lindsey Nelson.

FIRESIDE THEATRE

THE ADVANCE billing of Jane Wyman's new NBC-TV series gave no promise of its being any more than the average half-hour drama routine. The premiere performance lived up to its billing. Entitled "Technical Charge of Homicide,"

Entitled "Technical Charge of Homicide," it was the story of a young wife who was riding in a taxi when it struck and killed a 19-year-old pedestrian. She was called as a witness in the taxi driver's trial, and the plot indicated that she was to be torn in her testimony between sympathy for the father-of-three cabbie and the grief-stricken mother of the dead youth.

But this conflict never came to be. She hadn't seen the accident in the first place, and the only question she could answer was whether the cab was going fast, normal or slow. She said normal. The cabbie was acquitted and that was good. The mother won an out of court settlement from the insurance company and that too was good. And to top it all, the untilthen barren wife decided she should have children after all, and that was very good.

The show just didn't build up to any climax. Other than that it was competent. The acting and directing and producing were all that could be expected. The story just wasn't there. Given some scripts with meat in them, Miss Wyman et al appear able to turn out a good show. Let's hope they get those scripts.

Production cost: Approximately \$40,000. Sponsor: Procter & Gamble for Ivory Soap and Crisco through Compton Adv. Time: NBC-TV, Tuesdays, 9-9:30 p.m. EDT. Producer: William Asher

Director: Sidney Landfield

Cast: Jane Wyman, William Chinkg, John Harmon, Nan Boardman, Argentine Brunetti.

FLOOD

CBS-TV has found itself a capable, sensitive new documentary narrator in the person of its highest-priced comic, Jackie Gleason. Whether Mr. Gleason will continue to perform such extra-curricular activities for the network is problematical, but his work on "Flood" was in the best Edward R. Murrow tradition.

Most of the program was filmed in Winsted, Conn., with survivors of the Hurricane Diane aftermath relating their experiences on the night when flood waters shredded the city's main street, left shells where homes and businesses had stood the night before, and brought death to loved ones.

Some of Winsted's citizens almost burst into tears as they recounted their losses. Had Mr. Gleason not been as versatile as he apparently is (his dramatic debut was made last spring) he could well have made a shambles of the show. Mr. Gleason, in as uncomical a situation as one is likely to encounter, did a fine job. *Producer: Ernest Leiser.*

Film Supervisor: Joseph Zigman

Writers: John Sharnick and Ernest Leiser.

Director: Verne Diamond

Narrator: Jackie Gleason and townspeople of

Winsted, Conn.

KUKLA, FRAN & OLLIE

THE VERSATILE and veteran video show, *Kukla, Fran & Ollie,* is back with us for another season. Written and played with an imaginative spark primed to capture the curiosity of the young and the adult, the program hasn't changed over the years.

Returned were Ollie, the unpredictable, likable dragon who is more puff than fire; Kukla, the big hearted tiny tyke with the oversized nose, and Fran Allison, a human being with warmth that lights up in spirit and song.

Theme of last Monday's show on ABC-TV was that out of the summer doldrums come new tv programs, including the antics of Burr Tillstrom's Kuklapolitan Players. The principals on the show kidded a bit about summer being just about over and with it vacationing in hammock, at the barbecue pit and on the beach. A few things were said about ABC-TV's fall lineup, a few exchanges were had on just what day it was and lots of excitement when Kukla, Ollie and Miss Allison discovered they were already on the air.

Actually, with only 15 minutes to play around with, the Kuklapolitans get quite a bit into their program. Viewers who've always gone for this sort of relaxed, and at times tonguein-cheek, humor, ought to find Kukla, Fran & Ollie unspoilt, untarnished and still unspectacularly entertaining.

Sponsor: Gordon Baking Co. (Silvercup bread), Detroit, through D'Arcy Adv., New York.

- On ABC-TV, Monday (Aug. 29) at 7-7:15 p.m. EDT.
- Creator: Burr Tillstrom; producer: Beulah Zachary; director: Lewis Gomavitz; music by: Carolyn Gilbert; assistant to Mr. Tillstrom: Joseph Lockwood Jr.

Your Sales Message Deserves The Impact of Programming of Character

BASIC CBS-TV Network

talked

No trade secret is more jealously guarded by advertisers than the specific effectiveness of their television commercials.

The other day we succeeded in coaxing one of them into talking about a particular 90-second announcement which was broadcast one night at 8:26 on the CBS Television Network.

Immediately following the broadcast 29,972 people in the audience sat down and wrote to an address in New York City. The postmarks disclosed that each request had been mailed prior to 11 p.m. the same night.

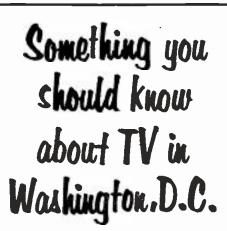

The fuse which touched off this explosion of letter-writing was an announcement offering free samples of Nescafé to anyone who wrote and asked for them. The offer was made by The Nestlé Company on its CBS Television program on the evening of September 19, 1953.

Over a period of eighteen months 15 similar announcements, each taking no more than a minute-and-a-half, yielded a total of 2,163,775 requests from the audience.

More than any words, these statistics speak volumes about the extraordinary impact of television—its power to activate swiftly and simultaneously vast numbers of people and the economic consequences of this power.

Although conspicuous for its dimensions, the Nestlé story is typical of what happens when an excellent product, effectively presented, receives the exposure of the largest single advertising medium in the world.

Tv's Day in Court

EDITOR:

Frank Beatty's story, "The Silent Witness" [B•T, Aug. 29], describes the success of our television demonstration before the American Bar Assn. in vivid and dramatic terms.

In fact, we think it tells the story so well we are arranging to have it reprinted, with your permission, for distribution to our membership and to some 3,000 opinion leaders throughout the country.

We certainly share the gratification expressed in your editorial about the ABA demonstration. It is a tribute to the NARTB Freedom of Information Committee which has been working on this cause so untiringly, and I know it will spur the group on to even greater efforts for the radio and television industry.

Harold E. Fellows, Pres. NARTB, Washington, D. C. [EDITOR'S NOTE: Permission granted.]

,

EDITOR:

I have just read your article ["The Silent Witness," $B \bullet T$, Aug. 29]. It is a beautiful job. I am particularly grateful to you for following up the demonstrations (of the operation of tv in a courtroom) by getting statements from the lawyers and judges present.

The comments which came to me, too, were equally convincing. While few would commit themselves concerning courtroom television, all agreed that the demonstrations had been done beautifully, without the disturbing lighting, confusion, noise, etc., which they had previously associated with televising. . . .

You are quite right in your conclusion that history was made and you can be happy in knowing that your good reporting contributed substantially to its meaning.

> Justin Miller NARTB Advisor and former President and Board Chairman

EDITOR:

HEARTIEST CONGRATULATIONS ON YOUR LUCID EDITORIAL IN AUG. 29 ISSUE ON COURTROOM TELECASTS AND FRANK BEATTY'S MAGNIFICENT COVERAGE OF TELECASTING ACTIVITIES AT ABA CONVENTION. SUBJECT MATTER OF UTMOST SIG-NIFICANCE TO ALL MEDIA. RADIO AND TELEVISION HAVE PARTICULAR AND IMMEDIATE INTEREST WHICH REQUIRES CONTINUOUS ATTENTION OF THE INDUSTRY ON THE THOUGHTFUL MANNER YOU ARE TREATING IT.

> Robert D. Swezey, Exec. V. P. WDSU-AM-TV New Orleans Chmn., Freedom of Information Committee, NARTB

Between Times

EDITOR:

Your editorial, "Time for Time Changes" [B•T, Aug. 15] was excellent—I hope it produces results.

Daylight time is illegal in Wisconsin and, as you may know, there was lengthy discussion of it in the state legislature this year but to no avail. Rockford, Ill., and Beloit, Wis., are 16 miles apart. Our transmitter is midway between and we have offices in each, but Rockford is on Central Daylight Time and Beloit is on Central Standard Time. You can see why I appreciated your editorial.

I'm afraid my outlook is pessimistic though, because I believe that most small stations, independent or network, will not take an editorial stand on anything really controversial for fear of stepping on someone's toes, no matter how enlightening it would be to the public, how it would ease confusion or how worthy the cause. Since, as your editorial states, the daylight vs. standard controversy is essentially local—

> Bob Scholz, News Dir. WBEL Beloit, Wis.

Telestatus Copies

EDITOR:

We note your offer [B•T, Aug. 1] to supply additional copies of the TELESTATUS section. Will you please supply me with four additional copies of your current TELESTATUS?

> James Adshead, Jr., Pub. Rel. Dept. E. I. Du Pont De Nemours & Co. Wilmington 98, Del.

[EDITOR'S NOTE: Additional copies of TELE-STATUS reports on tv stations, sets, published in first issue of B-T each month, are available on request.]

All Business Is Local

EDITOR:

I was very much interested in the editorial headed "Local Express" in your Aug. 22 issue. It contains the following statement:

"We can't think of a better slogan than one which the newspapers themselves once used, 'All Business Is Local'."

For the past nine years there has not been a piece of promotion material—including this letterhead—that has gone out from the Bureau of Advertising without this slogan. It is also used —with our permission—by quite a number of our member newspapers in their own promotion. . . .

Let me assure you that this is a very active slogan and I am sure that our high-minded friends in the radio business would not want to be guilty of plagiarism.

> Harold S. Barnes, Dir. Bureau of Advertising of the American Newspaper Publishers Assn. Inc. New York

[EDITOR'S NOTE: B-T had no intention to encourage plagiarism, has no fear any broadcaster would stoop to it, publishes Mr. Barnes' letter as a reminder that the slogan, "All Business Is Local," is still being used by the Bureau of Advertising, ANPA.]

Building Traffic, Chicago Style EDITOR:

Some months ago you ran an item about the downtown loop campaign on radio (and possibly television) in Chicago [B \bullet T, Apr. 25], which was highly successful in creating more downtown traffic and trade in the loop. I wonder if you could send me a print or two of the issue in which this appeared, or possibly just the article itself.

I need this just as soon as possible for a downtown business meeting of similar vein which we are planning in Monroe.

> Jack Ansell, Jr., Dir. of Tv Sales & Prom. KNOE-AM-TV Monroe, La.

[EDITOR'S NOTE: Tear sheets sent, as requested.]

New Call in Wilmington

EDITOR:

Is WPFH right (instead of WDEL-TV) in Wilmington, Del., on page 55 of the Aug. 1 issue of $B\bullet T$?

- Betty Stuart Smith
- J. Walter Thompson Co.

New York

[EDITOR'S NOTE: Yes. WDEL-TV became WPFH (TV) after its purchase by Paul F. Harron.]

The word is that everybody seems to be in a dither about daylight saving time keepin' on so long. All the big folks up in the east, and we are too.

But you can just betcha this . . . there are thousands of folks down here in Middle Georgia that just don't care what New York and all the big city people do about time, not where television is concerned.

Because whatever happens or when, whether their favorite shows come on at 6, 8 or 10, they'll just keep on watching Channel 13 here in Middle Georgia.

Yes sir, they LIKE what they see on WMAZ-TV. All our surveys have shown that. For nearly two years now (we're celebrating our second anniversary this month) WMAZ-TV has been programming what our viewers like and what they look at, almost religiously. And we're gonna keep on doing that, come time change.

So you smart advertisers who need another 102,000 television sets to get your message across ought to see the boys at Avery-Knodel. They'll tell you all about WMAZ-TV and the prosperous Middle Georgia market.

our respects

to EDGAR BLOOM STERN

ONE December day seven years ago Edgar B. Stern Jr. looked out over the spreading miles of metropolitan New Orleans and the twisted Mississippi River from the highest point in the Deep South, the top of Hibernia National Bank Bldg. Beside him was a batwing-topped tower and a smallish but highly functional penthouse—so small and so functional that two levels were needed to house \$350,000 worth of brand new WDSU-TV television gear and the excited crew that kept it operating.

Young Edgar Stern was realizing the first stage of a dream—a television dream that had developed out in the Gulf of Mexico after World War II as he fished with radar equipment for under-water petroleum reserves. As chief engineer of Offshore Navigation Inc. he was making practical use of the knowledge of electronics physics gained at Harvard (BS, 1943) and in several years in the Signal Corps.

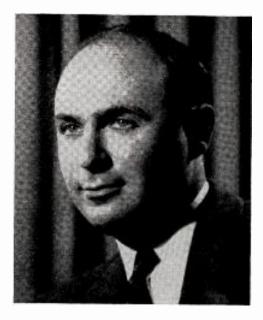

During long weeks spent gazing out over the Gulf Waters, and peering beneath them via radar beeps, he planned ahead for the day when he might humanize the magical electrons to provide a public service for his native New Orleans. Except for the first infant weeks (born in New York, Sept. 1, 1922), he spent his entire civilian life in the Crescent City.

Out of that Gulf venture came geographic knowledge that has played an important part in development of the Tidelands oil reserves. And out of the dreams came an important event in New Orleans history, the Dec. 18, 1949, debut of WDSU-TV. The temporary studios weren't much, but the 31 kw signal surprised everyone by bringing in viewer reports from more than a hundred miles out over the bayous and plantations.

The equipment was tops, Edgar Stern felt, but programming offered even more difficult problems. Kines, films and a room-and-a-half of top-story office space offered minimum facilities for the new station, but plans were buzzing in the orderly mind of the young WDSU-TV president. First he took a major step to strengthen the WDSU-AM-TV organization by bringing in Robert D. Swezey as executive vice president and board member. Mr. Swezey had just resigned as MBS vice president-general manager in a policy dispute.

The new team was operating, a month or so after WDSU-TV had opened, in the Monteleone Hotel quarters that housed WDSU-AM-FM studios. This Stern-Swezey combination soon became one of the industry's best-known management teams.

From the crowded hotel headquarters, right in the heart of the French quarter, Mr. Stern envisioned the day when the WDSU stations could operate from a completely equipped

studio and office structure that would combine the authentic flavor of old New Orleans with modern facilities.

This dream culminated in purchase of famed Brulatour Court Bldg., for nearly 150 years a center of art and commerce. The staff moved into this historic landmark and work was started on a set of studios that surrounded a balcony-flanked courtyard with subtropical vegetation, one of the nation's best examples of locally colored commercial enterprise. The plant reflects the traditions of the Stern family, which long has been a leading element in New Orleans business, social and cultural life. The elder Stern has been a trustee of Julius Rosenwald Fund (Mrs. Stern is the former Edith Rosenwald); director of Sears Roebuck & Co., and many other organizations.

More recently WDSU-TV has completed an enormous tv studio devoted exclusively to color telecasting. Here Mr. Stern's technical background is apparent in the extensive color experiments and programming, just as it is reflected in the special equipment he has developed personally and the contributions of the technical staff. He was among the first to see the need for central tv engineering control and separation of engineers' and directors' controls.

WDSU's president was educated at Metairie Park Country Day School, New Orleans; Hotchkiss School, Lakeville, Conn., and Harvard. He entered the Signal Corps right after graduation in June 1943, was commissioned a second lieutenant the next January and two years later was promoted to first lieutenant. After discharge in late 1946, he joined Offshore Navigation. Purchase of WDSU was negotiated in autumn of 1948.

Mr. Stern married the former Pauline Stewart in 1947. They have three children— Sandra, 6; Eric Allan, 5 and Monte Maurice, 3.

The civic activities in which Mr. Stern is a leading figure include United Fund for Greater New Orleans, past president, treasurer and board member; St. Mary's Dominican College, Lay Advisory Council; chairman, Prospect Selection & Evaluation Committee, Convent of the Good Shepherd Building Fund Campaign. He is a member of the boards of International Trade Mart, Urban League of Greater New Orleans, Council of Social Agencies, and past member of the boards of International House and New Orleans Philharmonic Symphony Society. He is a member of Chamber of Commerce committees.

Currently Mr. Stern is president of the Louisiana Assn. of Broadcasters and he has been active in the association since his entry into broadcasting. His hobbies include tennis and barbecuing.

HILDRED SANDERS

on all accounts

USED to dealing in hard fact and the specific, Hildred Sanders, vice president in charge of radio and television for Dan B. Miner Co., Los Angeles, allows one generality in her working world: "Both radio and television can do a terrific job for the advertiser on their own, but together they can do an even better job."

It's a generality for which she can offer specific proof. Annual radio-tv billings in the amount of \$2.5 million-still growing.

With Miner since 1948, Miss Sanders now supervises the radio-tv campaigns for national accounts like Bu-Tay Products, Kerr Glass and Interstate Bakeries and state and regional accounts such as Luer Packing Co., Thrifty Drug Stores, Santa Fe Wines and Buick Dealers Assn. of Los Angeles.

One product she handles is starting its second radio year this fall with a campaign in 197 NBC stations. It is Nutrilite food supplement, distributed by Mytinger & Casselberg.

Miss Sanders is a native of Benton, a small town in southern Illinois, and attended the U. of Illinois, majoring in advertising and selling. "Let's not be specific about my age, however," she says. "I've lied about it so much I don't recall just what it is any more."

From 1936-38 Miss Sanders sold space and time for the *Champaign*, (Ill.) News-Gazette and its radio station, WDWS there. She also served WDWS as continuity editor. In 1939 she moved on to H. W. Kastor & Sons Adv., Chicago, as copywriter on Procter & Gamble, Welch and various pharmaceutical accounts.

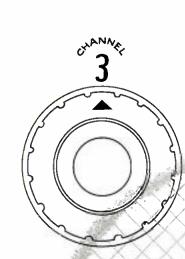

The following year her copywriting talents were employed by the former Mitchell Faust Adv. Co., Chicago, where she became radio copy chief in 1942. The next year she was promoted to associate radio director and in 1945 was elected vice president in charge of radio, the first woman to be so chosen at the time, she recalls.

In 1947 Miss Sanders left Mitchell Faust for Dancer-Fitzgerald-Sample, Chicago, as copy supervisor on various General Mills lines and claims credit for handling that advertiser's first television premium offer in that market. The next year marked her move to Dan B. Miner Co. as radio-tv director and in 1948 she was elected a director and vice president of the west coast agency. Miner's radio-tv billing has increased 1,500% since she took over, a Sanders' specific shows.

In personal life, Miss Sanders is Mrs. Fred Levings. Mr. Levings is a radio-tv producer and director. They have been married 15 years and have one daughter, Sandy, 13. Add to this family group three dogs and a horse, place them in a North Hollywood home with swimming pool, and the portrait is complete.

WGN Airs Safe-Driving Briefs

AN UNUSUAL approach for delivering safedriving messages to the youth of Chicago has been devised by WGN. Via its *Bandstand Matinee* program, the station has been airing weekly briefs on all phases of safe-driving practices, safety devices, and the handling of a car. The campaign was launched last month in cooperation with the Illinois Secretary of State, the National Safety Council, the Chicago Motor Club, and the Chicago Auto Trade Assn.

RTRA Forwards \$140,639.70

RTRA Charities Inc., Hollywood fund-raising organization for radio, television, recording and advertising industries and their allied fields, forwarded checks last week totaling \$140,639.70 to its eight beneficiaries.

RTRA President Thomas C. McCray handed a check for \$87,639.70 to the Los Angeles Community Chest, representing 164 agencies. Other checks went to the American Red Cross of Los Angeles, City of Hope, American Cancer Society of Los Angeles, Sister Kenny Foundation, Los Angeles County Heart Association, United Cerebral Palsy of Los Angeles County and YMCA of Los Angeles. The 1955-56 goal has been set for \$225,000.

Softball for Charity

WADC, WCUE, WAKR-TV, and WHKK Akron, Ohio diverted some of their personnel's talent from broadcasting to softball last week when the radio-press squared off against the public officials in Akron's 7th Annual Benefit Ball Game. The yearly game went before the public at Akron's Firestone Stadium, and fans paid the \$1.00 admission for charity. This year the proceeds from the game went to the city's Rehabilitation Center's special equipment fund.

WOW-TV Holds Blood Drive

WOW-TV Omaha observed its sixth anniversary Aug. 26 and 27 by turning its studios into an eight-bed "Blood Donor" center and raising 438 pints of blood for the Red Cross. At the project's windup, the Red Cross presented the station with a special plaque of appreciation.

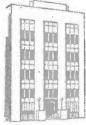

100 Answer Radio Blood Appeal

IN Cleveland last week, more than 100 donors responded to a WTAM and WNBK (TV) appeal for rare RH-negative "O" type blood.

Radio vs. Jets

IMMEDIACY of radio and its ability to meet public emergencies quickly is being demonstrated in Los Angeles suburbs where public wrath over destructive sonic booms by jet aircraft is mounting daily. San Fernando Valley police, plagued by flooded telephone switchboards every time some jet cracks the sonic barrier, are using all means to implore citizens to listen to their radios for factual information instead of jamming phones.

WASHINGTON, D. C.

CHICAGO

MEMORANDUM TO STATION RECEPTIONISTS

We know you are very busy — greeting visitors, making appointments. handling the switchboard, and frequently typing on the side. We don't want to add to your burdens, but we believe you'd be helping the industry of which you are a part if you'd keep in mind the Northwest Radio & Television School.

HOLLYWOOD

PORTLAND

This is a school which trains people for broadcasting: writers, technicians, cameramen, announcers, traffic managers,

etc. Probably you get all sorts of questions from the general public. No doubt one of them is: "I'd like to get into broadcasting. Where can I get some training?" Here's an easy answer — and you can depend upon it, a good one — "Write to the Northwest Radio and Television School." We have resident schools in the four locations

listed below:

1440 HIGHLAND HOLLYWOOD, CALIF. 1221 N. W. 21ST AVENUE PORTLAND, ORE.

540 N. MICHIGAN AVE. CHICAGO, ILL. 1627 K STREET, N. W. WASHINGTON, D. C.

We'll be grateful for the service—and we believe, in turn, you'll be helping in the overall objective of creating a pool of talent to fill the needs of the broadcasting industry.

NOW-NIGHTTIME PROGRAMMING IN THE DAYTIME

5 days a week at 1:00 p.m. on WPTZ. Now available for local sponsorship . . . first time in any market.

Terrific ratings at low cost! Look where MARGIE is scheduled! Every day, 1:00-1:30 p.m., Monday thru Friday, when WPTZ *out-rates the combined ratings* of the competition, month after month! This is the same time period in which Hollywood Playhouse gained the rating of the lowest cost-per-thousand feature film program in America.

Fit a show like "My Little Margie"-which has

maintained average national ratings of 30.4 over the past three years—into such a top-notch time period, and you have the most outstanding combination of audience-getting elements since WPTZ's FUN HOUSE.

Another WPTZ first: "Nighttime programming in the Daytime!" "My Little Margie" joins the long line of successful sales producers presented by WPTZ, such as: "Let Scott Do It," "Hollywood Playhouse," "Fun House," "Award Theatre," "Frontier Playhouse" and "Academy Theatre."

Four one-minute commercials will be accepted per half hour. The show is already 45% sold out, so let Alexander W. Dannenbaum, Jr., WPTZ Sales Manager, tell you about Margie right away! Call him at LOcust 4-5500, or Eldon Campbell, WBC National Sales Manager, at MUrray Hill 7-0808, New York.

ADVANCE TV NETWORK SALES HERALD MEDIUM'S BEST YEAR

- Nighttime business promises all-time high
- Network competition leaves DuMont behind
- But takes in ABC-TV as a power to be reckoned with
- Bigger station lineups mean more money, coverage ...
- Spot, too, looks good—maybe 30% ahead of last year

ON THE EVE of the fall season, the tv networks, already setting a torrid pace in billings, programs and station lineups, show evidence of reaching even greater heights in all three.

September 5, 1955

More national advertiser money also will channel into spot tv, perhaps as much as 30% more than last season. Local business can be expected to be up, too.

By conservative estimate, the fall will find tv grossing nearly \$80 million a month in time sales (figured at the one-time rate before deductions of commissions). A year ago, B•T estimated gross sales for the fall of 1954 would run \$60 million a month.

B•T's annual preview of the forthcoming season finds:

• Impressive advance sales of network tv time.

• Daytime business at the networks near the level of a year ago and nighttime network tv sponsorship destined to reach an all-time high.

• A new network business picture: three tv networks vying for ratings, billings and nighttime strength; DuMont Television Network completely out of the national competition; ABC-TV showing its first sign (via program hours) of batting in the tv majors.

• Bigger station lineups that will mean additional advertiser spending and more coverage.

• Star-studded and competitive programming surpassing previous years; more color, new and more selling concepts.

Top sales executives of the three networks reflect the optimism, aggressiveness and new maturity of the telecasting industry. In statements to BoT (see page 32), all agreed that top programs plus advertisers plus bigger station coverage point to a big year in network tv.

Slocum Chapin, vice president in charge of network sales at ABC-TV, summarized his network's rise this way: "With a bow to our hustling competitors, we can now make the simple statement that the day of two network dominance is past. Today it's a three-way race which is going to get even closer."

Said George H. Frey, NBC vice president in charge of television network sales: "Advertisers are planning their television campaigns much farther in advance than formerly, reflecting not only the increased competition for prime time periods, but also the maturity of the medium and the increasingly important part it is taking in overall advertising budgets."

William H. Hylan, CBS-TV vice president in

BROADCASTING • TELECASTING

charge of network sales, predicted that tv "will continue to increase its share of the total advertising dollar this year as well as in future years."

The three networks—ABC, CBS and NBC together are outselling their records of last August by some 6%. Individually, the three are strong.

ABC-TV already reports more weekly commercial hours signed for October than it pro-

NBC	48:47%	43:56	46:40
Totals	138:4314	130:45%	129:32%

* Average hours of network commercials per week reported as of October 1954 and as sold in August 1955 have been adjusted to reflect deletion of network buys of less than 20 stations. Since August 1954 (sold as of that date) figures are not so modified, the above columns will show a weighted comparison in favor of August 1954 as against August 1955 or October 1954. This is true particularly in the DuMont listing and to a lesser extent in other network totals.

** DuMant was not reporting as a "network" for the '55 season. grammed that month last year. Its daytime position, weakened somewhat by sponsorship loss of two of its Saturday shows (*Smilin' Ed McConnell* and *Space Patrol*) and of one-half of its *Super Circus* hour-long show, in addition to *Breakfast Club*, indicates an overall drop despite the addition of its new *Mickey Mouse Club*. NCAA football this year went to NBC-TV.

Nevertheless, ABC-TV has offset its temporary daytime decline by increasing its anticipated nighttime commercial hours by at least 10% over last October. Actually, the percentage will go higher because such sponsorships as Admiral Corp.'s *Life Is Worth Living* were reported too late to be included in the table.

CBS-TV, maintaining its advance selling schedule in the daytime hours despite some hours of time still on the block, has passed its nighttime mark of last October by an average 45 minutes commercial time per week.

The network still had outstanding and available seven quarter-hour periods of its daytime *Robert Q. Lewis;* 2½ hours of its afternoon *Jack Parr Show;* some of its *Garry Moore Show; Bob Crosby Show,* and all of its *Morning Show.* As late sales come in, the network can very well hit a mark in its daytime selling far above last October.

NBC-TV slid somewhat in its daytime totals. But late sales pushes for such shows as its new *Matinee* should overcome and pass this variance. Since the Aug. 15 cutoff for the tables on pages 28-32, NBC-TV has sold $1\frac{1}{2}$ hours of its *Matinee* (one hour and 15 minutes to Procter & Gamble and 15 minutes to Motorola).

The network's greatest advance strength was displayed in night hours where NBC-TV jumped to an all-time nighttime high for any network: 29 hours, 25 minutes of average time per week for next October, more than it programmed last October and nearly four hours above what it had sold in August of last year.

Placing these totals and gains by the network in still another light is the fact that for the first time, B•T has eliminated from the figures all network purchases by sponsors wherein the total stations are less than 20. Although the breakdown attempts to be inclusive in its listings and totals, also missing are one-time shots, such as the World Series.

This also precludes regional buys of 20 stations or less from being recorded in the tables' columns as well as one-shots already slated to be programmed in October (for example, NBC-TV's 1976, sponsored by American Petroleum Institute).

DuMont's fall business is not reported in the tables. By the middle of this month, DuMont will be down to one network program *Monday*-*Night Boxing*, a co-op feature. No known effort is being made to secure new network programs or network sponsors [BoT, Aug. 29, 15].

Spot tv, according to Lawrence Webb, managing director of Station Representatives Assn., will continue unabated this season largely because of new advertisers coming into tv for the first time (see page 32).

WHO'LL BE KINGPINS OF RATINGS THIS SEASON?

THE ANNUAL JOUST for coveted top program ratings—often the measure of a sponsor's love or disaffection—is under way. Perennial leaders face their most formidable opposition from new talent and shows, many slotted by rival networks in opposite time periods that could undermine the audience loyalty of these past leaders. Pressure will be heavy on consistent front runners such as Jackie Gleason, Ed Sullivan and Groucho Marx as it will be on sophomores George Gobel and Walt Disney. Returning also are Milton Berle and *Lucy*, who at one time monopolized top ratings with monotonous regularity. In tv the climb and decline is equally sudden.

Comedy, drama and variety have alternately ruled the roost in the past. But the emergence of such spectacular giveaways as *The \$64,000 Question* and *The Big Surprise* indicates another strong contender will be seeking top honors.

TELECASTING YEARBOOK IN THE MAILS

The 1955-56 TELECASHING YEARBOOK • MARKETBOOK issue is being mailed this week. Like its predecessors, this 448 page volume, compiled by a staff of 60, contains authoritative data on tv stations throughout the world, including information on U. S. stations equipped for cofor ty, statistics on population with retail sales and market data, plus other economic features on all U.S. tv areas. Comprehensively listed are advertising agencies and their clients using tv advertising. Included too are package program companies, tv film producers and distributors, tv equipment manufacturers and distributors, tv networks and other vital information. A limited supply of extra copies of this 448-page buyer's goide is available at \$3.00 each.

THE NETWORK, SRA STATEMENTS

ABC-TV

Mr. Chapin:

"Again this year, the facts and figures for the ABC-TV network speak for themselves.

"ABC-TV's gross time sales for the year through Aug. 26 reached a record total of \$69,737,937 with still more sales being negotiated. Of this total, 64.3% or \$44,835,995 represents new business, mainly from "blue chip" advertisers who are swinging to ABC-TV. The network's extremely high percentage of renewals amounts to \$24,901,942 in gross time sales.

"ABC-TV's achievements this year, measured by any of the other yardsticks-programming, advertisers, ratings, clearance and awards-emphasize the network's surge toward broadcast leadership.

"Some of the new season's most significant new programs will be on the ABC-TV network. The roster includes such new milestones in programing as the Mickey Mouse Club, Wyatt Earp, Warner Bros. Present, The M-G-M Parade, DuPont Cavalcade Theatre, Medical Horizons, and Crossroads, among others.

"These new programs together with such ABC-TV favorites as Danny Thomas, Disneyland, Rin - Tin - Tin.

The Lone Ranger,

Ozzie & Harriet and

Wednesday night

fights, will bring to

the network still

greater audiences

and accelerate the

tion

MR. CHAPIN

network evening program cleared 24% more stations than a year ago. Of ABC-TV's programs 21% had coverage factors of 90% or greater compared to only 5% a year ago.

"The growing list of awards presented to ABC-TV's programs this past season attests to the high calibre of the network's programming. With the new season's significant program additions, ABC-TV will be a strong contender for even more of the nation's top award honors.

"With a bow to our hustling competitors, we can now make the simple statement that the day

of two network dominance is past. Today it's a three way race which is going to get even closer.

"These achievements point up the wise choice made by astute advertisers in establishing and renewing franchises on the nation's fastest growing network-the ABC-TV network."

NBC-TV

Mr. Frey:

"The 1955-56 television season has been justly heralded as the year of 'special programming' as far as NBC is concerned. Spectaculars, telementaries, and other one-shot special programs, have been scheduled at irregular intervals throughout the year's schedule to add new excitement, sparkle and audience appeal to the pattern of television broadcasting.

"But special programming must necessarily mean special selling, too, and what is especially significant to us in NBC-TV sales is the amazing acceptance of, and enthusiasm for, these longer, more flexible program forms by advertisers and agencies.

"A fine example of this advertiser enthusiasm for 'The Big Show' concept is provided by color spread—90-minute color spectaculars which will be presented by NBC-TV on Sundays at approximately monthly intervals beginning Sept. 11. Here is the perfect mating of the spectacular and the magazine concept, combining the tremendous impact of the former with the flexibility of the latter. Within weeks after color spread was announced, it was virtually sold out for the season-sold to both large and small advertisers. As it stands now, color spread is S.R.O. through 1955, with only a few participations available through the end of next summer.

"Further evidence of sponsor interest in 'big programming' is the quick sales participations on NBC Matinee Theatre, the new hour-long daily dramatic program to be telecast in color. Announced just a few weeks ago and not scheduled to go on the air until Oct. 31, NBC Matinee Theatre already claims as clients Procter & Gamble and Motorola, with additional prospective sponsors showing keen interest.

"Other significant sales trends of the approaching season include:

"The increasing awareness on the part of advertisers of the values of daytime television (witness the continued sales success of NBC-TV's pioneering Today and Home programs,

and the more recent near S. R. O. status of the new Tennessee Ernie strip).

"The broadening use of the television medium

by advertisers for institutional or public relations campaigns. "The fact that advertisers are planning

their television campaigns much farther in advance than formerly, reflecting not only the increased competition for prime time periods, but also the maturity of the medium and the increasingly im-

portant part it is taking in overall advertising budgets.

"The rise of merchandising, not only of the product, but also of the advertising campaign. A good example of this is the cooperative efforts of the NBC merchandising department (the only one of its kind in the industry) with advertisers to stimulate dealer-distributor excitement.

"But the most important trend again, in my opinion, is the enthusiasm for the spectacular type of programming, the longer show, and the increased use of multiple sponsorship arrangements to support this type of programming."

CBS-TV

Mr. Hylan:

"It is logical, we think, to predict that television will continue to increase its share of the total advertising dollar this year as well as in future years, and CBS Television now goes into its second season as the world's biggest single advertising medium.

"As more and more advertisers become aware of the values of consistent year-round advertising, the start of the so-called 'broadcasting season' in the fall has assumed greater importance in terms of the new programs which will make their debut than as a spot on the calendar when the sponsorship of a given time period will change hands.

"In the course of its rapid growth, television has undergone many changes and modifications in the pattern of selling its facilities. Thus, the sharing of a program and time period between two advertisers on an alternate week basis has become almost standard practice. Whenever, in our opinion, such a change would increase

A MUST FOR YOUR PRODUCT

Because The Woman's Angle is a Baltimore institution it's a must for your product, too. Ann Mar not only delivers the audience, on a year-in, year-out basis. She also merchandises your advertising. For WMAR-TV runs regular ads in The Baltimore Sun on The Woman's Angle; and, through Ann's sponsors, puts out some 10,000 circulars a week, for grocery store distribution, promoting the program. And then there's Ann's homemaking bulletin, her regular personal appearances at new store openings, and her every-Thursday cooking column in The Sun.

It all adds up to a valuable extra sales help for participants in The Woman's Angle. To find out how you can become one of them, get in touch with The Katz Agency, Inc.

MAXIMUM POWER ... MAXIMUM TOWER HEIGHT ... IN THE RICH MARKET OF

RICHMOND PETERSBURG AND CENTRAL VIRGINIA

WXEX-TV covers all the rich heart of Central Virginia. Its tower is 1049 ft. above sea level—the maximum height allowed. It's 943 ft. above average terrain—more than 100 ft. higher than any station serving the Richmond market. And WXEX-TV has maximum power—316 KW.

So you just can't cover more land area or more TV families with any other station! You can get the whole exciting story of this new basic NBC-TV station for Richmond, Petersburg and Central Virginia from your Forjoe man.

Tom Tinsley, President

Irvin G. Abeloff, Vice-President

Represented by Forjoe & Co.

the effectiveness of television as a sales medium. we have incorporated it into our daily operation.

"Two such basic changes are new this year. "The first refers to the obvious desire of the

viewing audience for programs with overall family appeal in the earlier evening hours. As a result, we have made available programs

which will appeal to children as well as adults, in the halfhour strip from 7:30-8:00 p.m. Mondaythrough-Friday.

"The second modification involves feature programs of one hour and hour-anda-half, and greater duration. There are some programs which virtually demand exposure because of content.

MR. HYLAN

stature of the talent, as a matter of public information and interest, or because of a combination of all these elements. In cases where programs meet these criteria, CBS Television has made provision for scheduling and offering them for sale:

"As time goes on, there may be new opportunities and special situations which might suggest changes in the conventional pattern of television selling. If and when this occurs, CBS Television will exert every effort to be first with the proper solution. For the time being, however, no one has been able to suggest an effective substitute for the impact of a sales message delivered consistently and with weekly frequency to the buying public."

SRA

Mr. Webb:

"National spot advertising in television for the fall and winter season of 1955-56 promises to overshadow the '54-'55 season by an increase of as much as 30%. All the members of SRA report greatly increased activity on the part of the advertisers in spot buying, especially for the fall season.

"Again, as last season, this increase in spot business will be due to a large extent to the number of new advertisers using tv for the first time. Because of sales results obtained through the use of spot advertising last season, many of the constant users of television advertising are increasing their spot tv budgets this season, while others are getting out of network advertising to put their ad dollars into spot buys.

"lDs, both shared and full screen, which have become increasingly popular with a number of advertisers, as a result of all stations accepting the SRA standards for IDs, will account for a large share of the increase. Large saturation campaigns are comparatively easy to set up at greatly reduced costs to the advertiser, and such advertisers as Phillip Morris and a host of others are using this method of television advertising extensively.

"There are now 58 more commercially operating tv stations on the air this year as against

MR. WE88

the same time last year, which will account for a sizeable amount of the increase in spot revenue. Many of these new stations are located in markets which are very valuable to national advertisers, and they are increasing their budgets to buy television on these heretofore unavailable stations.

"Some of the advertisers who will be heading the list of spot buyers this season are Hazel Bishop, Phillip Morris, L & M cigarettes, Max Factor, Post Brand cereal, Scotts Emulsion, Japanese canned crab meat, Wildroot, Whitman chocolates, Trushay, Tootsie Rolls, Servel, Old Gold cigarettes, Mason mints, Nabisco and Beechnut Packing Company. A number of the above are new advertisers, while some have used television extensively and are back again this year with greatly increased budgets."

- ADVERTISERS & AGENCIES –

SPONSORS ARE DISCOVERING TV AUDIENCES DON'T TIRE

A special report in the B•T 'Yearbook' by the American Research Bureau explodes the myth that tv viewers tire of the medium after the novelty of ownership wears off. To the contrary, viewing increases.

by James W. Seiler

Director of ARB

THE longer they have tv, the more they watch it.

That conclusion, which we at American Research Bureau arrived at after extensive analysis of its audience data for March 1955, demolishes the oft expressed opinion that when the novelty of television wears off, the family curtails the time spent in watching the tv screen and returns, in part, at least, to its pre-tv leisure time activities.

In our extra-curricular sleuthing into the March statistics, we separated the over-all sample into four equal groups in accordance with the amount of time spent watching tv during the measured week. Group No. 1 watched the most, group No. 2 next most, and so on. For each group, ARB developed specific information as to amount of viewing by weekly and daily time segments, length of set ownership, family composition, and the number of stations within set range.

There is no battle for television's viewing crown. It rests jauntily, and firmly, on the heads of the 25% of the nation's television families who stay glued to their sets for over 40% of this country's total viewing time. The top half accounts for over 2/3 of the viewing.

This may help explain the strong impact of television as a sales medium. A dominant portion of the viewing audience is being re-

peatedly exposed to the advertising messages carried on the television screen. They have been so exposed for a number of years, since this top viewing group is no Johnny-comelately to the allure of television. Disproving

WHEN DO THEY WATCH?

the popularly held belief that prolonged set ownership is directly related to viewing satiation, families in the same top group that does the most viewing have had their sets the longest-43 months, on the average.

Also, and this might be expected, ARB figures show that members of the No. 1 group have the most children, an average per family of two under 20 years, and for every two families, three under 13 years. As an indication of how strongly the presence of children influences viewing, over half of the families in the No. 4 group (the one lowest in viewing), have no children at all.

The number of stations that a family could receive had no particular influence on the amount of viewing. The average home in the top viewing group could receive about four stations; the group lowest in viewing could do almost as well, with an average slightly under ADVERTISERS & AGENCIES

Under 19	1.95	1.52	1.12	.83	1.36

four. Age of viewers, however, did have considerable influence. Persons in the upper viewing brackets were younger, with the No. 1 group showing a larger proportion of youngmarrieds in the 20-39 age brackets than did any of the others. For every hundred homes, the No. 1 viewing group contained 70 women and 57 men in the 20-39 age category. As opposed to this, the lowest viewing group showed 47 women and 40 men in this age bracket.

When ARB started to break the entire television day into time segments, we ran into some specially significant material. From 7 a.m. to 5 p.m., Monday through Friday, the top viewing quarter accounted for some 55% of all viewing done; the top half for over 75%. Overall sets in use built gradually from 13.5% from 7 a.m. to noon, Monday through Friday, to 35.3% from 5 to 7 p.m. Came the 7 to 10 p.m. evening hours and usage rocketed to 67.4%, tapering to 32.6% from 10 p.m. to midnight, and fading to 3.7% from midnight to 2 a.m.

Man-hours may be the standard of measurement for most time studies. For the television audience, however, we found that woman-hours take over. Women dominate the viewing scene throughout the day. From 7 a.m. to 5 p.m. for every 1.90 man-hours put in before the tv set, women put in 6.66. In the busiest time segment, 7 p.m. through 10 p.m., for every 12 man-hours of viewing, the distaff side puts in a busy 16. The ladies even stay up later. In the midnight to 2 a.m. segment for every third of an hour put in by dad, mom puts in a half. Only in one period does any member of the family outdo her in screen time. That's from 5 to 7 p.m., when the set belongs to junior. During that period children put in some 42/3 hours of viewing a week to mother's two-plus and dad's 13/3.

Glancing back at all of our figures we come up with a pretty good composite of the nation's

Page 36 • September 5, 1955

No. 1 viewing families—those families that belong to the 25% that do over 40% of all viewing. They average a little better than four persons to the family, with both parents being between 20 and 39, have two children, have owned their tv set 43 months and keep it on a little better than 56 hours a week, with the lady of the house doing most of the looking.

There you have it—the tv-viewing family of the year. Man, woman and child, they represent a lot of television audience.

Whitney Predicts More Money for Advertising

DOUBLING of advertising expenditures within the next decade was predicted last week by Elwood Whitney, executive vice president of Foote, Cone & Belding. Mr. Whitney's look

into the future: Cash

outlay for advertis-

ing in all media

should reach \$15 bil-

lion by 1965 com-

pared to the \$8,164,-

000,000 spent in

"Most business-

men recognize that

we are in an era in

which prosperity is

keyed not to produc-

tion but to consump-

tion, so they'll con-

1954.

MR. WHITNEY

tinue to expand their investment in the stimulation of demand at an ever-increasing pace," he said.

Mr. Whitney, burrowing further into figures, said the population is growing at the rate of 220,000 per month and therefore businessmen must step up ad expenditures to reach bigger markets.

Also noted by Mr. Whitney was that with

great investment comes an obligation of advertising to eliminate wasteful and inefficient methods—"if advertising is to continue to make consumer price reductions possible, there can be no room for advertising concepts that are static misfits in today's dynamic economy, nor for research techniques that spend millions to find facts but only produce mirages."

Totals 100.0%

34.7

Although expenditures will go up, advertising, Mr. Whitney said, will be cheaper and more effective when both agencies and their clients understand the role of advertising in the total selling effort.

Concluded Mr. Whitney: "A 'good' or 'bad' ad has no meaning except in relation to a competitive product and to a concept of marketing strategy embracing coordinated selling, merchandising, sales promotion, public relations and research activities."

AD CHIEF URGES UNIFORM RATINGS

White King Soap Co. advertising manager charges that under present system advertiser does not know what he is getting for his money.

RADIO-TV audience rating services were raked over the coals Monday by Larry Nolte, advertising manager of the White King Soap Co., major west coast manufacturer which puts two-

thirds of its total advertising budget in radio and television. Speaking before

Speaking before the luncheon meeting of the Hollywood Advertising Club, Mr. Nolte called for a uniform rating standard similar to the ABC system used in printed media "so that the advertiser can have some idea of what he gets for his radio and tele-

MR. NOLTE

vision dollar. Now, we have nothing but confusion. It all depends on which rating service you buy whether a particular show is a good investment or a lousy one."

Mr. Nolte claimed, "What we want is facts and not so many figures. The industry can't tolerate widely divergent ratings."

Asking for a united effort on the part of all sponsors, agencies and stations, Mr. Nolte urged that money be provided the Advertising Research Foundation to continue its "researching of the researchers" to uncover defects in present systems and find newer, more accurate methods of audience analysis. He commended ARF's study on the subject last year, "Recommended Standards for Radio and Television Program Audience Size Measurement" [B•T, Dec. 27, 1954].

The White King executive said in recent years he has placed \$25 million in radio and television advertising "and we don't know what we got." He was particularly critical of the way rating firms talk down their competitive services and observed that after one has listened to both sides, he doesn't know what is right.

Emphasizing that White King "believes in radio and television," Mr. Nolte pointed out

that not only are competitive rating reports confusing because of their disparity, but one report, which he cited, showed that a specific show on a regional network would deliver 90,000 listeners while data for three affiliates of the chain would deliver more than 100,000 for the same program.

NEW '55 AUTOS ADD 5.8 MILLION RADIOS

Radio Adv. Bureau cites study showing 83% of this year's new autos to be radioequipped.

AUTOMOBILES alone will create around 5.8 million new places in which to listen to radio this year, Radio Advertising Bureau estimated last week.

Announcing completion of a new study made for RAB by Fact Finders Assoc., bureau officials said it was found that 83% of all 1955 cars are radio-equipped when they leave the dealer—a finding which "takes on additional importance since an all-time high has been reached this year in the manufacture and sale of new cars."

As of July, it was pointed out, the total number of cars with a radio in working order stood at 31 million.

The FFA study involved interviews conducted during May and June with executives of 376 new car agencies throughout the nation, stratified by makes on the basis of each make's share of the 1954 new car market. In announcing results, RAB offered these quotes as typical comments by dealers as to why they felt car radio sales continue to increase:

"Radios are the No. 1 accessory. American people want entertainment and there's no substitute for radio." . . . "Demand for radios is 100% . . . because so many people almost live in their cars." . . . "More demand—people realize that the trade-in value is more if the car is equipped with radio."

RAB asserted that not only do car radios represent enough circulation units to be considered a major medium by itself, but also that their fast-increasing numbers are additional proof that radio, already with the greatest media penetration, is still the top growth medium.

Whirlpool Buys Heavy in Tv For Intensive Ad Campaign

THE "most concentrated and comprehensive advertising program in the history of the home laundry industry" has been launched by Whirlpool Corp., with tv and other advertising outlays slated to average over \$1 million monthly, it was announced last Monday.

Plans were announced by Roy Howard, merchandising manager of Whirlpool Corp., which this month is scheduled to become Whirlpool-Seeger Corp. Kenyon-Eckhardt Inc. will continue to handle the consumer account.

The big blows will be delivered by Whirlpool with its network tv debut on the Milton Berle and Martha Raye NBC-TV shows on staggered weeks starting Sept. 20, with a week's interval. Thus Whirlpool will appear on the two shows 26 weeks through June 5, 1955.

"Although the entire complement has not yet been completed, we expect to reach more than 150 tv stations with each of our shows," Mr. Howard reported.

Consumer advertising for the 1956 line will get underway with a spread in Life magazine Sept. 12 and others in succeeding issues. Newspapers and trade publications also will be utilized.

BROADCASTING • TELECASTING

SOME 50 timebuyers and others representing 38 New York advertising agencies were guests of WROW-AM-TV Albany on a flight to the Albany-Troy-Schenectady area and luncheon and afternoon at Saratoga Racetrack. Shown here at airport are, in fore-ground, commentator Lowell Thomas (c), with two other stockholders, U. S. Reps. Dean Taylor (I) and Leo O'Brien. In background (I to r): Jean Simpson, Doyle Dane Bernbach; John Owen, sales promotion manager, Avery-Knodel, which represents WROW; Dick Stone, Avery-Knodel; Sam Vitt, Biow-Beirn-Toigo; Lou Kennedy, Kenyon & Eckhardt, and Lionel Furst, Dancer-Fitzgerald-Sample. Largely obscured are Herb Gruber of Edward Kletter Assoc. (behind Mr. Stone), and Mary (Mickey) McMichael of BBDO and Larry Donino of Kenyon & Eckhardt (behind Messrs. Thomas and O'Brien). The WROW-AM-TV delegation included President Frank Smith; Thomas S. Murphy, general manager, and Harry L. Goldman, station manager. WROW-TV is represented by Harrington, Righter & Parsons.

CBS-Columbia Sets Campaign Of \$1.7 Million for '5600'

MORE than \$1.75 million will be spent in radio, tv, newspapers and in trade publications in the next four months in an advertising-promotion campaign on behalf of CBS-Columbia's new 5600 series of tv receivers and radios, Gerald Light, director of CBS-Columbia advertising and sales promotion, said last week.

CBS-Columbia, the tv and radio receiver manufacturing division of CBS Inc., returns to its regular Wednesday alternate sponsorship of *Arthur Godfrey & His Friends* on CBS-TV, starting Oct. 5. The manufacturing division also will begin participating sponsorship, starting Oct. 3, of CBS Radio's *Amos 'n' Andy Music Hall; Bing Crosby Show*, and *Tennessee Ernie Show*. Other on-the-air sponsorship includes spot radio and tv campaigns in New York, Chicago, Los Angeles, San Francisco, St. Louis, Boston and Milwaukee. Ted Bates & Co. is the agency.

Chrysler Corp. Takes Canadian Grid Slate

CANADIAN FOOTBALL games will be televised this year under sponsorship of Chrysler Corp. of Canada Ltd., which also will carry *Climax* and *Shower of Stars* on all Englishlanguage Canadian tv stations this fall. Agency is Ross Roy of Canada Ltd., Windsor, Ont.

J. A. Ouimet, general manager of Canadian Broadcasting Corp., stated that this year's coverage of the football games would be the most comprehensive program of football telecasts ever made on this continent. In eastern Canada 10 interconnected stations will telecast 20 to 26 games each, and three non-connected stations will televise 14 games. An estimated 4,500,000 people are expected to see the games in their homes. In western Canada seven tv stations will carry games of the Western Interprovincial Football Union, with two games being telecast most weeks. Stations will receive the most important game each week on a delayed basis as microwave network is not yet built in western Canada.

Eastern Canadian stations located in cities in which games are played are required to "black out" during the day of the game. In most instances they may carry a game on the following or other days.

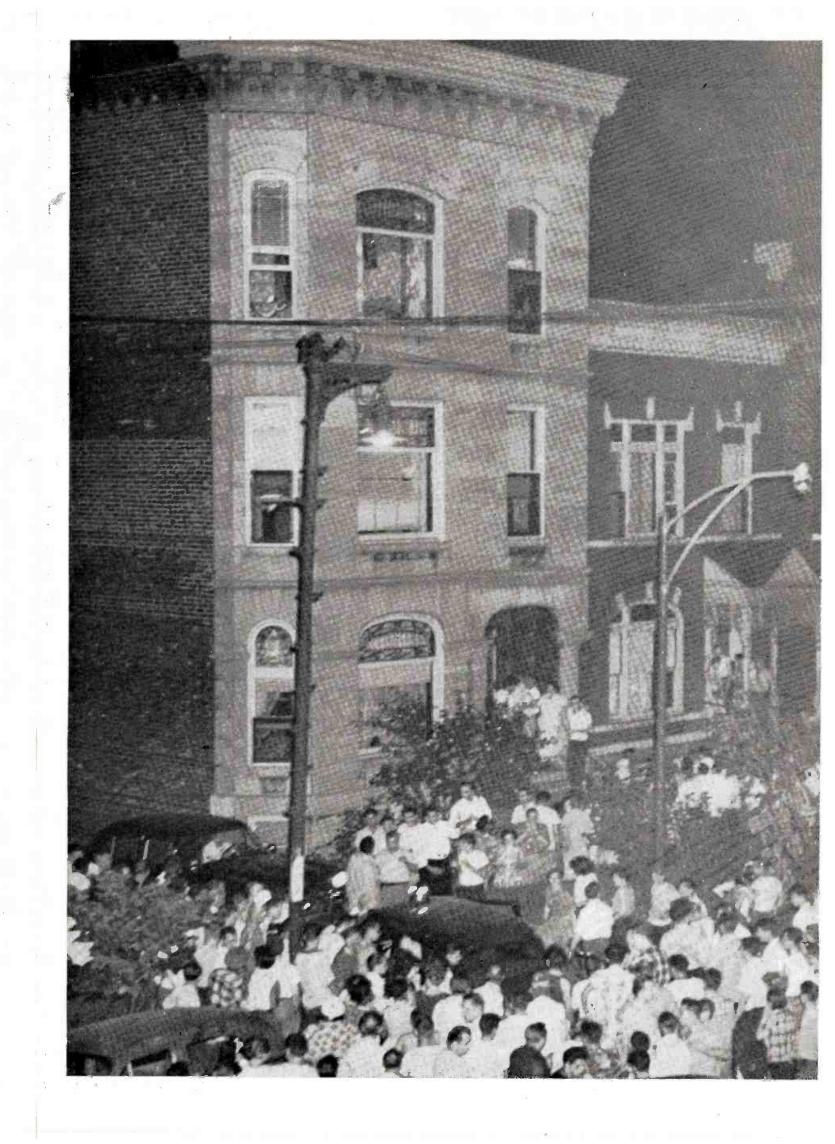

The Grey Cup final games, originating in Vancouver this year, will be carried live to eastern Canada by way of a microwave circuit through the United States from Vancouver to Buffalo, N. Y. Eastern play-off games will be seen live on most eastern Canadian stations, while western play-off games will be on a delayed basis.

M-G-M Buys Blair Plan To Promote New Movie

METRO-Goldwyn-Mayer, in its third purchase of the Blair National Saturation Group Plan, will tie in with the latest weather reports on the 42 radio stations represented by John Blair & Co. to promote its new motion picture release, "It's Always Fair Weather," Mort Bassett, Blair sales manager of the National Saturation Group, announced last week.

M-G-M also will use 30 additional radio markets throughout the country.

Idea of the tie-up between weather broadcasts and picture title was attributed to Howard Dietz, M-G-M vice president in charge of advertising, publicity and exploitation. The Blair group purchase involves 48 15-second announcements in three days, scheduled in early morning, late afternoon and late evening, coinciding with the release dates this month. Agency for M-G-M: Donahue & Coe.

Mid-America *always* gets news-making excitement from WMAQ's NIGHT DESK program, Monday through Friday from 10:00 to 10:30 p.m. But on August 18th, listeners really hit the jackpot.

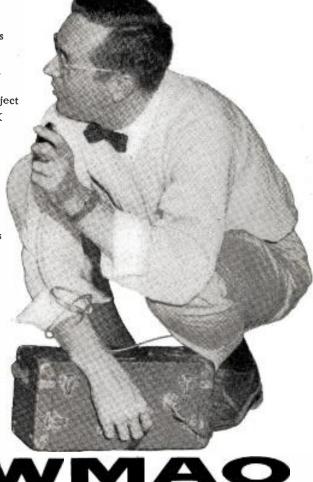

On that night, police were closing in on an accused cop-killer, object of the biggest manhunt in Chicago in two decades. NIGHT DESK reporter John Chancellor was right there — the only broadcaster who was at the scene to give listeners an exclusive description of the action as it developed.

Within minutes, bulletins informed the station's audience of the gunman's capture. They were the *first* to know of it. And at 10:00 p.m., WMAQ's NIGHT DESK listeners heard Chancellor's on-the-spot tape-recording.

The scoop didn't end there. Chancellor scored his second news beat of the evening when his microphone caught the interrogation of the wounded gunman by Chicago detectives.

VARIETY called NIGHT DESK's performance of August 18th "one of the top radio reporting jobs of this or any other year."

By keeping on top of events like this, as they're happening, NIGHT DESK has become one of the most listened-to and talked-about programs in Chicago. It's only one of the many reasons WMAQ is what it is – the station advertisers turn to for their strongest radio impact on America's second-richest market.

RADIO IN CHICAGO represented by NBC Spot Sales

VIEWERS LIKE, REMEMBER LUCKIES' ADVERTISEMENTS

Advertest Research survey shows commercials' impact for the second straight year. Likes and dislikes of viewers also listed.

LUCKY STRIKE for the second straight year was named as having the best remembered and best liked tv commercial, according to a survey just released by Advertest Research. The current survey is the 76th in the monthly series "The Television Audience of Today," and is based on a sample of 745 tv homes contacted during the month of June, covering specifically 11 product categories.

Lucky Strike was named as the best remembered commercial by 11%, while 10% named it as the best liked. Westinghouse edged out Chesterfield for second place in the best remembered category and holds second place, ahead of Kraft, in the best liked category.

The 745 respondents named more than 2,000 commercials, over 90% of which they could adequately describe. Best liked things about tv advertising were cartoons, information about new products and amusing commercials. Pet gripes were too frequent program interruptions, too much advertising and repetition.

In an effectiveness comparison of tv vs. other advertising media, over 75% of all respondents felt tv advertising was more effective and more than 40% reported having purchased products

week. The appointment is effective immediately. Mr. Haight formerly was radio production in the agency's New successor as manager of tv and ra-

MR. HAIGHT

Harris has been with McCann-Erickson for a year. Mr. Haight joined the agency in June 1954.

Mr. Haight, who will be responsible for all agency broadcast programming, will headquar-ter in Los Angeles and report to Terence Clyne, agency general executive and management supervisor of McCann-Erickson's tv-radio department in New York and Los Angeles.

Longines Buys Fall Tv Series Of 4 Monthly Shows on CBS

LONGINES-WITTNAUER Watch Co., New York, will sponsor a series of four monthly television shows, to be presented every fourth Saturday on CBS-TV, beginning Sept. 24, in the 11 p.m. to midnight slot, following the new "Jubilee" color spectacular, 9:30-11 p.m.

The series is entitled Conquest-Man's Fight for Progress and the watch firm, according to Alan Cartoun, vice president in charge of advertising, is now awaiting time clearance from CBS affiliates. The show will be a combination of film and live and will depict great achievements of mankind in aviation, medicine, communications, etc.

The series is planned in addition to the annual Longines Thanksgiving Day Festival of Music, which will be presented again this year. Victor A. Bennett Co., New York, is the agency.

Sarnoff Heads Ad Federation's Advertising Week Committee

ROBERT W. SARNOFF, executive vice president of NBC, has accepted the chairmanship of the Advertising Federation of America's committee for National Advertising Week, Feb. 19-25, it was announced last week by Ben R. Donaldson, director of institutional advertising for Ford Motor Co. and chairman of the Advertising Federation of America, which is cosponsoring National Advertising Week.

First meeting of the committee is Sept. 23 at the Advertising Club of New York to set the theme of the observance. Foote, Cone & Belding will again serve as the task force agency, with Roger Pryor, vice president in charge of radio and television for the agency, representing it on the committee.

Other members of the committee for National Advertising Week include: Ted Cott, general manager of DuMont owned and operated stations; Robert E. Kintner, ABC president; John Lacerda, John Lacerda Agency, Philadelphia; Tony Lasala, vice president, Geyer Adv.; John C. Ottinger, vice president, Bureau of Advertising-American Newspaper Publisher's Assn.: Mr. Pryor; Richard Scheidker, vice president, AAAA; Ralph Smith, vice president SSC&B; Kevin B. Sweeney, president, Radio Advertising Bureau, and J. L. Van Volkenburg, president, CBS-TV.

National Advertising week will be co-sponsored by AFA, the Advertising Assn. of the West and the U.S. Chamber of Commerce.

Empire Adv. Names Jaynes To Head All-Negro Dept.

EMPIRE ADV., Los Angeles, last week announced the opening of a Negro department, under the supervision of account executive William Jaynes, who formerly headed his own agency.

The Negro population in and around Los Angeles represents a \$600 million market, Empire said, adding that the newly-created department will be staffed entirely by Negroes.

Mr. Jaynes said several radio stations in the area are programming for the Negro, including KOWL Santa Monica, KALI Pasadena and KPOP and KGFJ Los Angeles. The agency executive said the Negro population in Los Angeles will reach 350,000 by 1956 and noted 40% are home owners. Statistics also show 1.9 cars per Negro family, he added

wherever particular timebuyers congregate...

Whether your preference is a vermouth cassis or a rollicking boiler-maker--that's your business. But so, too, is the successful placement of advertising messages where they'll get into the local bloodstream and elevate sales to gratifying heights.

This is why we commend to your attention some high-proof scuttlebutt that's going the rounds these days at such important timebuyers' caravansaries as Toots Shor's in the shadow of New York's Rockefeller Plaza. It deals with a greener pasture, seven counties wide in the State of Maine, with almost half a billion dollars of annual retail sales just waiting to be mowed. And nothing mows you a crop of it like the combination of WABI (radio) and WABI-TV. Ask some of the happy advertisers who are making themselves hay with this great team !

(As the aproned gentleman at left, above, puts it: "A spot schedule without WABI and WABI-TV is like a gibson without an onion." An upped-periscope comment, sir, if ever there was one!)

ADVERTISERS & AGENCIES -

Anderson & Cairns Announces Employe Profit-Sharing Plan

AN EMPLOYE stock distribution and profit sharing plan was announced last week by Anderson & Cairns Inc. It was described by its president, John A. Cairns, as one of the most liberal programs developed in the agency field.

Under the stock purchase program, employes with two or more years of service, can subscribe up to 5% of their income toward purchase of company stock. At the end of the calendar year, A & C will use 20% of its profits (before taxes) to match the individual's contribution. This sum then is applied toward the purchase of agency stock in his or her name at book value.

The profit sharing plan provides for the agency to distribute 30% of its net operating income, before taxes, to employes. Allotments will be prorated according to length of service and base salary.

According to Mr. Cairns, the plan will permit an orderly transfer of business control over a period of years from older to younger personnel. Other benefits already provided by Anderson & Cairns: Full cost of hospitalization and medical insurance group payments borne by the company, and a group life insurance operated entirely at the agency's expense.

B&B Elects John Morris V. P., Account Supervisor

A FORMER deputy police commissioner of New York City has

MR. MORRIS

been elected a vice president and account supervisor of Benton & Bowles Inc. The election of

John H. Morris was announced Tuesday by William R. Baker Jr., chairman of the B & B board. Mr. Morris, with Kelly Nason Inc. for the past nine years and a vice president of

that agency, also had been president of the Police Athletic League in New York.

Antell Names Tuers

APPOINTMENT of Harold Tuers as director of advertising for Charles Antell Inc. (hair products and cosmetics), Baltimore, was announced last week. In the past, Mr. Tuers has served as advertising manager for Harriet Hubbard Ayer, Erno Lazlo Co., Elizabeth Arden and Richard Hudnut, all cosmetic firms.

As director of advertising for Antell, Mr. Tuers will supervise all advertising activity for Antell products which include Formula 9, Super-Lanolin shampoo, Hair Spray and cosmetic products.

Grove Plans Radio Drive

RADIO will be used in 10 markets by Grove Labs to promote its Pazo pile suppositories and ointment. Sales vice president Russell A. Mac-Donnell announced last week that time had been cleared on 10 radio stations in 10 key markets for "the first major use of radio as a sales medium for a pile relief preparation." The spot campaign is in addition to a stepped-up newspaper and Sunday-supplement drive and is

Page 42 • September 5, 1955

part of the biggest campaign in the firm's history. Authorities said copy will stress the stainless quality of Pazo and take "a positive approach to relief" rather than emphasize the pain and discomfort of hemorrhoids.

McCarty Adds Kimball Agency

THE McCarty Co., Los Angeles agency, last week announced expansion of its midwest office with the acquisition of the facilities and personnel of Abbott Kimball Co., Chicago. T. T. McCarty, agent president, said the enlarged Chicago staff was to begin operating from offices in the McGraw-Hill Bldg., effective last Thursday. McCarty Co. also has branch offices in San Francisco, Seattle, Dallas and New York.

NETWORK NEW BUSINESS

General Electric Co., lamp div., Cleveland, has signed as alternate-week sponsor with Dow Chemical Co. of *Medic* on NBC-TV (Mondays, three weeks out of four, 9-9:30 p.m. EDT), effective Sept. 12. Agency: BBDO, N. Y.

Maison Blanche (department store), New Orleans, signs for 12 five-minute newscasts daily on WDSU there, effective Sept. 11.

General Foods Corp. (Instant Swansdown Cake Mixes), White Plains, N. Y., will kick-off eightweek spot radio campaign Oct. 13, using women's shows and local daytime personalities primarily in 35 markets. Agency: Young & Rubicam, N. Y.

Procter & Gamble Co. (Cheer soap), Cincinnati, is set to launch spot tv campaign shortly, using 20-second and one-minute announcements in 50 markets, mostly in East. Agency: Young & Rubicam, N. Y.

Campana Sales Co., Batavia, Ill., appoints Erwin, Wasey & Co., N. Y., for Italian Balm hand lotion. Company is using time on Arthur Godfrey morning programs (CBS Radio, Mon.-Fri., 9:45-11:15 a.m. EDT) and radio-tv spots are contemplated. Agency also handles Campana's Ayds (diet aids).

Murine Co. (eye wash), Chicago, appoints J. Walter Thompson Co., same city. Broadcast plans not set but firm has used radio and reportedly has overall advertising budget of \$220,000.

A&A FEOPLE

Roy J. Sandberg, Fred W. Pain and Thomas B. Gilhooley elected vice presidents, Western Adv. Agency, Chicago.

Walt E. Krueger, Mathisson & Assoc. Inc., Mil-

waukee, Wis., appointed executive administrator.

Robert P. Mountain, vice president, Young & Rubicam, N. Y., appointed radio-tv dept. director.

Michael K. Doherty, formerly with Pepsodent Div. of Lever Bros., N. Y., appointed advertising Bristol-Myers Co.,

COLORCASTING

[Note: This schedule will be corrected to press time of each issue of B.T.]

Frank Scharrer, account executive, Beaumont & Hohman, Hollywood, named office manager, succeeding Jim Staples, who resigns Sept. 10 with future plans unannounced.

Stella Lester, copywriter, marketing and sales development dept., Grey Adv., N. Y., promoted to dept. copy chief; Fred Greene, copywriter, McCann-Erickson, N. Y., to Grey copywriting and sales promotion staff.

Stanley Kakuno, salesman, to Larry Stevens Agency, same city, as account executive.

Bob A. Wolf, formerly advertising manager, Gate City Sash & Door Co., Ft. Lauderdale, Fla., to Hutchins Adv. Co., Rochester, N. Y., as assistant account executive.

Ralph Rende, formerly with Welch Grape Juice Co., Westfield, N. Y., to merchandising staff, Weightman Inc., Phila., as in-store operations director for some grocery clients, effective Oct. 3.

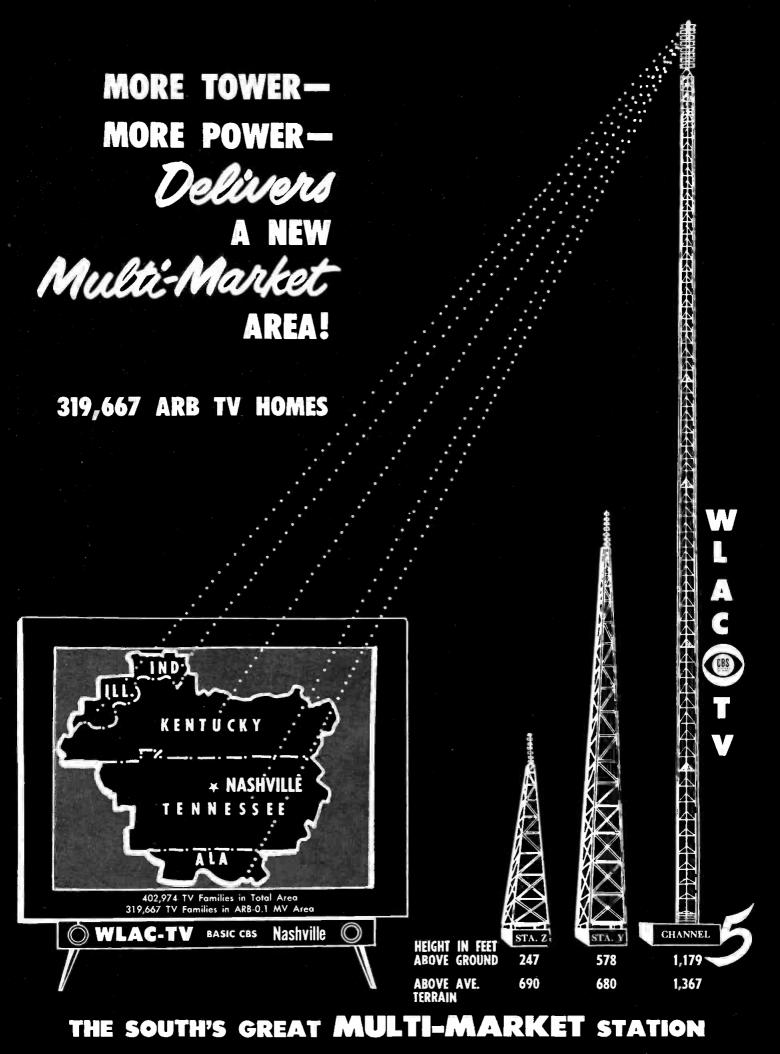

Robert A. Lundholm, formerly military service specialized equipment technical handbook writer, Power Generators Inc. (industrial consultants), Trenton, N. J., to copy dept., Gray & Rogers, Phila.

Martin Boss, manager, Seattle office of Pacific National Adv. Agency, elected a vice president.

MR. KRUEGER

manager, products div., N. Y.

NATIONAL REPRESENTATIVES: THE KATZ AGENCY

CUBA CLAIMS TV INTERFERENCE; WANTS ALL-UHF IN MIAMI

Goar Mestre, head of island's CMQ-TV Network, charges WTVJ (TV) comes in like a local signal there, interferes with CMUR-TV. He asks quick negotiation to prevent international ruckus.

A TELEVISION storm in the Florida Straits appeared in the making last week as Miami and Cuban stations became the center of allocations and interference charges and countercharges. Core of the controversy: Whether Miami should be partly or wholly de-intermixed. Three principal developments arose during the week:

• Goar Mestre, president of CMQ-TV Network in Cuba, said WTVJ (TV) Miami, ch. 4, is giving his competitor's Havana ch. 4 outlet (CMUR-TV) "a pretty bad time of it," with chs. 2, 7 and 10 interference troubles approaching (see letter this page). He suggested Miami be a uhf-only city.

• WGBS-TV Miami and WITV (TV) Fort Lauderdale, uhf outlets, jointly asked the U. S. Court of Appeals (D. C.) to upset FCC's denial of a request that the Commission hold up Miami chs. 7 and 10 final decisions pending adoption of a national uhf-vhf de-intermixture policy.

• Mitchell Wolfson, president of WTVJ (TV) Miami (ch. 4), said reports of Cuban interference to WTVJ's coverage are "highly exaggerated."

The controversy took a diplomatic aura when it became known that FCC, at Cuba's request, is investigating the matter at the staff level.

If Cuba's fears are realized, a separate television NARBA loomed as a possible way to work out the matter.

The WGBS-TV and WITV court action asks that FCC be enjoined from issuing final decisions in the two Miami vhf hearing cases involving chs. 7 and 10. WGBS-TV is operated by Storer Broadcasting Co., WITV by Gerico Investment Co.

Initial FCC examiners' decisions would grant ch. 7 in Miami to Biscayne Television Inc. (Cox and Knight newspapers and Niles Trammell, ex-NBC president) and ch. 10 to WKAT Miami.

Mr. Mestre wrote B•T that Cubans "are

deeply concerned" over interference and the "lack of proper planning and cooperation between our two countries."

He cited the NARBA situation (pertaining to am band allocations among North American nations), which he said "is hopelessly messed up" but claimed everything possible should be done to avoid a similar television situation.

"Another NARBA situation could be avoided by acting intelligently while there is still time to do so," Mr. Mestre wrote, citing a recent meeting of Cuban Assn. of Radio & Television Broadcasters. He submitted a blueprint showing that airline distances between Miami and Cuban cities range between 207 miles in the case of Matanzas to 238 miles for Havana. When the association sought government action, Dr. Antonio Marti met with FCC representatives. Dr. Marti conferred with Comr. Rosel Hyde June 24 as well as with other FCC executives. He was told that FCC would "study the matter."

It was learned that FCC has thus far not considered a report on Cuban interference, but Mr. Mestre notes that Dr. Marti felt convinced no further Miami decision would be handed down by FCC pending its study of the problem, but added this was an overly-optimistic view.

Mr. Wolfson told $B \bullet T$, "We have experienced no interference to any appreciable degree from CMUR-TV on ch. 4 Havana. Reports to that end are highly exaggerated."

He said offset carrier arrangements for the ch. 4 aural signal are in effect between WTVJ and CMUR-TV as well as WMBR-TV Jacksonville, Fla., also on ch. 4.

In going to federal court, WGBS-TV and WITV cited a letter sent to Storer Broadcasting Co. July 27 by FCC Acting Chairman E. M. Webster. This letter answering a Storer letter dated April 14, submitted by McKenna & Wilkinson, which asked that the request for uhfonly commercial assignments in Miami (later amended to partial vhf-uhf) become a part of the record in the ch. 7 and 10 proceedings and that final action in these vhf cases be deferred until a national de-intermixture policy evolved.

Acting Chairman Webster held the requests were not appropriate, and noted the chs. 7 and 10 grants were not final. He added the de-intermixture plea will be held in abeyance pending decision in de-intermixture cases affecting areas other than Miami-Fort Lauderdale.

The uhf stations told the court FCC had instituted five proceedings for de-intermixture (Hartford, Conn.; Evansville, Ind.; Peoria, Ill.; Albany-Schenectady-Troy, N. Y., and Madison, Wis.) and had announced it would adopt general policy on de-intermixture to be uniformly applied. They noted that FCC Chairman George C. McConnaughey had testified in July before the Senate Interstate & Foreign Commerce Committee that FCC was not making vhf grants in cities where uhf de-intermixture petitions had been filed. They alleged that in 13 other cities where de-intermixture petitions were pending, the FCC had not issued final decisions on vhf applications and had not indicated it would.

The Miami tv situation lines up like this: WGBS-TV ch. 23; WITV ch. 17 (Fort Lauderdale, 25 miles away); WMFL, ch. 33 (authorized, no target date set); WTHS-TV ch. 2 (non-commercial education, no target date set); WTVJ ch. 4; initial recommendation to Biscayne Television Inc. ch. 7; initial recommendation to WKAT Miami ch. 10.

Among Cuban stations involved in potential interference are Mestre stations CMBF-TV Havana and CMQ-TV Havana ch. 6 (CMQ-TV network includes CMJL-TV Camaguey ch. 6, CMGQ-TV Matanzas ch. 9, CMHQ-TV Santa Clara ch. 5, CMKU-TV Santiago de Cuba ch. 2 plus permits for Ciego de Avila ch. 2 and Holguin ch. 8); Amadeo Barletto group, including CMA-TV Havana ch. 2, CMUR-TV Havana ch. 4, CMG-TV Santa Clara ch. 3, (CMTV (TV) Havana ch. 11 suspended operation but is to resume on ch. 10, original CMTV equipment having been purchased in 1953 from George B. Storer who had originally planned to operate station); Barletto group holds permits for Santa Clara ch. 10, Camaguey ch. 4 and 11, Holguin ch. 3 and 12, and Santiago de Cuba ch. 5 and 13; permits pending for Ciego de Avila ch. 10 and Santiago de Cuba ch. 7.

TEXT OF THE GOAR MESTRE LETTER

DANGER of international haggling over interference between Cuban and Miami television stations is foreseen by Goar Mestre, president of the CMQ-TV tv network in Cuba (see Cuba-Miami story this page). He proposed that Miami be designated as a uhf-only market.

In a letter to $B \bullet T$, Mr. Mestre wrote: "I am taking the liberty of writing to you in the belief that your publication offers the best possible. means of focusing attention on a situation over which we are deeply concerned, here in Cuba, and which I consider is of sufficient importance to, perhaps, warrant editorial comment from you."

Referring to a June visit to the FCC by Dr. Antonio Marti, deputy of the Ministry of Communications, Mr. Mestre said Dr. Marti returned "confident that the FCC would not make another move" regarding Miami grants without "really investigating" the situation.

Text of Mr. Mestre's comments about the interference situation follows:

Page 44 • September 5, 1955

"The extent to which the broadcasting industries in the United States and Cuba have suffered in the past few years, due to lack of proper planning and cooperation between our two countries, has been tremendous, as I am sure you well know. The NARBA agreements have failed to solve the problem, either because we waited too long to sit around a table and discuss our mutual problems, or because our respective countries and industries have not attached to it all the importance that it deserves.

"The NARBA situation, however, is so hopelessly messed up at the present time that I wouldn't dare even venture an opinion on

THESE photos were submitted by Goar Mestre to show how well WTVJ (TV) Miami ch. 4 signals are received in Cuba. Photos were taken in Havana studios, according to Mr. Mestre.

WTMJ-TV SHOWS OWN-DESIGN COLOR BALOP

New unit bypasses need for slides, is said to be relatively inexpensive. It offers special advantages for the local or regional advertiser.

COLORBAL, a balop unit developed by WTMJ-TV Milwaukee engineers to transmit color art work from opaque cards, was demonstrated to advertisers and agencies of the Milwaukee area by the station Wednesday and Thursday at the ch. 4 outlet's Radio City studios there.

The Colorbal unit, which also transmits black-and-white art work from balop cards, is said to "completely bypass" the "expensive and uncertain" photographic techniques of color transparency slides. The WTMJ-TV color balop unit was developed over several months by the station's engineering department under the supervision of Chief Engineer Phillip B. Laeser.

Utilizing one scanning tube and three photoelectric cells, the Colorbal unit is said by station spokesmen to be relatively inexpensive

WTMJ-TV Milwaukee Chief Engineer Phillip Laeser (I) and Ed Stenzel, staff artist, stand by the new Colorbal unit developed by the station to transmit color from balops, thus by-passing the color slide method. The balop frames they are holding and those in the track under the Colorbal unit hold cards varying in size up to $7\frac{1}{2}x10$ inches, and may be larger if necessary.

compared to image orthicon or vidicon tubes. WTMJ-TV equipment already includes a live color camera, a 16mm color film camera and a 2x2-inch color slide unit.

The Colorbal card, to allow the artist more space for freedom of design, is increased over the regular balop size to $7\frac{1}{2} \times 10$ inches, with a half-inch safety area running around the card inside the frame leaving an area of $6\frac{1}{2} \times 9$ inches. Cards are mounted on the regular 12x12-inch balop frame.

Colorbal thus will offer the local or regional advertiser several advantages, WTMJ-TV spokesmen say. For the first time, point-ofsale art work as well as cut-outs and paste-ups from other media in color may be used with little preparation. Heretofore color messages had to be reduced to 2x2-inch transparent slides, with the color not always reproducing faithfully.

The new unit obviates the necessity of waiting a week or more for processing the artist's

Page 50 • September 5, 1955

work to a color transparency, the station said. The artist may even draw simple pictures with colored chalk and these may be transmitted the moment they are finished, according to WTMJ-TV.

Colorbal makes it possible to dissolve from a live studio shot to color balop, from a color film to color balop, or from a slide. Superimpositions of all types also are possible, and small products, packaged or unpackaged, may be transmitted by the Colorbal unit when placed against a black background to keep out colored shadows, station spokesmen say.

The 7.42×10 -inch color balop card size may be increased or decreased without difficulty for transmission on the Colorbal unit.

The track for the balops must be kept hooded since ambient incandescent light in the room generates a "flaky" noise in a color electronic system. For this reason "flopovers" cannot be used by the Colorbal unit as it is presently set up, according to Mr. Laeser.

WTMJ-TV spokesmen said the Colorbal unit can be made ready for operation in considerably less time than it takes to set up color film or a live color camera.

Mr. Laeser said WTMJ-TV as early as 18 months ago had asked outside research and manufacturing organizations to develop a suitable color balop unit but had been told it could not be done. The station then went ahead on its own.

Station spokesmen said they felt a color balop system would have to be developed, both as a quicker and less expensive way of transmitting color art work and because it was foreseen that the increasing size of tv pictures and the advent of color, together with the disadvantages of art work produced on a small scale and of color transparencies, made such a deveolpment a necessity.

The WTMJ-TV presentations last Wednesday and Thursday, titled "New Horizons," showed area advertisers and agencies what their own messages would look like in color through the use of Colorbal.

The three dozen balop demonstrations included clip-outs from magazines and the station's affiliated *Milwaukee Journal* and pointof-sale and studio-produced art work.

The advertisers were told that for "a limited time there will be no color charge whatsoever," and that:

"To help you get your clients started in color, WTMJ-TV will present your spots within and adjacent to NBC network and locally originated color programs at no additional charge this fall."

Fire Damage Repaired; WCOV-TV Returns to Air

WCOV-TV Montgomery, Ala., returned to the air Aug. 25 after an absence of 20 days due to a \$350,000 fire [B•T, Aug. 8]. The transmitter room, production booth, film room and one studio were completely destroyed, and every item of technical equipment had to be replaced, according to General Manager Hugh M. Smith.

RCA rushed a truckload of equipment to the ch. 20 outlet the day after the fire and also sent three specialists to help with the installation.

"Story of the Fire," a special telecast, was given the night the station returned to the air. Pictures of section of the building burned were shown, followed by pictures after reconstruction.

WCQV-TV operates with 200 kw and is affiliated with CBS and ABC.

SEVENTEEN members of Free & Peters Inc., new national sales representative for WWJ-AM-TV, Detroit, were guests of the stations for a one day television sales clinic and party. Enjoying the party, which followed a special closed-circuit tv show are: (I to r) H. Preston Peters, president of Free & Peters; Edwin K. Wheeler, WWJ general manager; Marie Fortier, hostess, and Lloyd Griffin, F&P tv vice president.

TV BOXING CONTROVERSY PROBED BY GRAND JURY

Investigation will determine whether managers guild is guilty of trade restraint in prohibiting members to take part in WEWS (TV) studio fights.

A FEDERAL grand jury in Cleveland will begin probing this week into the controversy over televised studio boxing matches. The investigation stems from a dispute between the International Boxing Managers Guild and professional fighters who have participated in matches staged live in WEWS (TV) Cleveland studios [B•T, April 25].

The probe is expected to focus on rules of the IBMG which reportedly prohibit members from matching their fighters in studio fights. The investigation will be aimed at possible violations of antitrust laws against restraint of trade. The Great Lakes office of the Justice Dept.'s antitrust division has had subpoenas issued for 17 Cleveland and Akron boxing figures, it is reported.

As a result of the controversy, 10 managers and trainers have been expelled from the IBMG, which instructed members to picket the WEWS shows. This has been done until lately. Most of the recent WEWS fights have been matched by a group of the IBMG expelled members who formed an independent organization in Akron.

Last April it was reported fighters who participated in the WEWS events were allegedly threatened with loss of outside engagements. At that time Rep. William Minshall (R-Ohio) asked the Justice Dept. and the FCC to look into the matter. The WEWS fights are staged under the official sanction of the Cleveland Boxing Commission.

Two possible results could come of the investigation. The grand jury could decide the IBMG rule and its picketing of WEWS fights does not warrant federal action or it could find the organization's actions violated antitrust laws. If criminal action were warranted, the grand jury could indict the principals.

The WEWS fights, sponsored by the P.O.C. Brewery, are produced by Herman Spero.

Commission (through Benton & Bowles, for Len O'Connor news, 26 weeks). Jewel Food Stores (through Christiansen Adv. agency for Dorsey Connors 18 weeks) and Harris Lumber Co. (through Olian & Bronner for *Paragon Play*house film 13 weeks) were new local accounts.

Among renewals at WNBQ were Emerson Drug Co. (for Bromo Seltzer, Lennen & Newell, Science Fiction Theatre 17 weeks); Sidney Wanzer & Son (for milk, through George Hartman Co. for The Weatherman 46 weeks), and First Federal Savings & Loan Assn. (through Campbell-Mithun Inc. for Dorsey Connors 13 weeks).

Earlier spot purchases and renewals were E. I. duPont deNemours & Co. (new, through BBDO, Frank Leahy show 10 weeks); Armour & Co. (renewed through Tatham-Laird for *The Weatherman* 52 weeks), and RCA (renewal of *Let's Look at Sports* 22 weeks).

WBKB reported renewal for 52 weeks (through Malcolm-Howard) of the Courtesy Hour variety show from Sept. 2. It also has announced new business in orders from North Grand Motors, Redi-Wip Co. (Roy S. Durstine Inc.), Motherwell Motors (Gray-Schwartz Adv.), Quaker City Chocolate Cc. (Adrian Bauer Adv.), Glenn Motors (Rocklin-Irving Assoc.), Kitchen Art Foods (Wright-Campbell) and George Roper Corp. (Cunningham & Walsh). All are for filmed or live shows.

WGN-TV reports flurry of new business too. In spot field new purchases have been recorded for Theodore Hamm Brewing Co. (through Campbell-Mithun for *Championship Bowling* 26 weeks), O'Cedar Corp. (through Turner Adv. agency for *City Detective*) and renewal by Koolvent Metal Awning Corp. (through Herbert S. Laufman Co. for St. Nicholas-Du-Mont fights). Mages sport stores renewed (Malcolm-Howard) feature film series, and Oklahoma Oil Co. bought a new two-hour film.

Other Accounts

Other national business includes Petri (Italian Swiss Colony Wine, through Honig-Cooper, for Racket Squad 39 weeks); Chicago Federal Savings & Loan Assoc. (Critchfield & Co. for Life With Father 26 weeks); Standard Oil Co. (through D'Arcy Adv. Co., for Chicago Bears Quarterback Club 13 weeks); Charmin Paper Mills (Campbell-Mithun for Badge 714 26 weeks), and Ward Baking Co. (J. Walter Thompson for children's show 13 weeks).

Among local accounts with new orders on WGN-TV are Howard Motors (through Robert A. Platt agency for news, sports; weather and wrestling 52 weeks); Coral Stone (through Malcolm-Howard for feature film 26 weeks); Keystone Chevrolet (through Rocklin Irving for feature films 52 weeks); National Credit Clothing Co. (through Gordon Best Co. for feature film 52 weeks); Peoples Pontiac (through Malcolm-Howard for film show 52 weeks); Libby Furniture Co. (through Schwimmer & Scott for feature film 52 weeks, a fifth-year renewal); Monarch Brewing Co. (through C. Wendel Muench for Badge 714 26 weeks), and Community Sales Corp., and Nortown Motors and Auto Sales (both through Rock-lin-Irving Assoc, for film shows).

Ryan Named to WTOP Post

EDWARD F. RYAN, award-winning reporter of the Washington Post & Times Herald (WTOP-AM-TV), has been named director of the station's newly created News & Public Affairs Div., John S. Hayes, president of WTOP Inc., announced last week. Mr. Ryan, who joined the Post in 1937 and is a two-time winner of Washington Newspaper Guild Front Page awards, will assume his new duties on Oct. 10. The new division will begin operation Oct. 30.

NATIONAL SPOT, LOCAL CHICAGO BUSINESS BOOMS

Increase is especially noticeable among WGN-TV and network o&o stations WNBQ (TV), WBKB (TV) and WBBM-TV.

NATIONAL spot and local business is booming for fall on the Chicago tv station front, particularly among network o&o's, on the basis of reports received by B•T the past fortnight.

New orders and renewals have been received by NBC o&o WNBQ (TV), ABC o&o WBKB (TV), CBS o&o WBBM-TV, and WGN-TV.

WBBM-TV reported it has completely sold out its live production, In Town Tonight, across the board after months of part sponsorship. New lineup includes, in addition to Magikist Cleaners (through D. A. Greenwood agency) on Mon.-Fri., these new accounts: Toastmaster Div. of McGraw Electric (Erwin, Wasey & Co.), Thurs., starting Sept. 15, and Hamilton Glass Co. (Herbert S. Laufman & Co.) and Holloway House Frozen Foods (Henri, Hurst & McDonald) on alternate Thurs., starting Sept. 27 and Oct. 11, respectively, and P. Lorillard Co. (Old Golds, through Lennen & Newell), on Fri., starting Aug. 26.

WNBQ (TV) announced the sale of a 30minute film and seven five-minute stanzas as new business, plus some renewals. Among spot advertisers for new programs were Canada Dry Ginger Ale Inc. (through J. M. Mathes for *The Weatherman*, 13 weeks) and Florida Citrus

work o&o stations WNBQ (IV), WBKB (TV) and WBBM-TV. NATIONAL spot and local business is booming Sept. 27 a

RED CROSS LAUDS INDUSTRY'S FLOOD HELP

Broadcasters paced the public response, relief agency says. Work by Ad Council, NARTB, networks, stations and agencies cited.

THE entire broadcasting industry "paced the magnificent response of the public to the special Red Cross appeal for flood relief funds," Kenneth Greenberg, director of the Red Cross Audio-Visual Division, told B•T Thursday.

"At the inception of the emergency various central bodies of the broadcast industry responded immediately to the request for help by the chairman of the American Red Cross, E. Roland Harriman," Mr. Greenberg said. "The Advertising Council promptly mailed a fact sheet on the situation to the advertising industry asking for cooperation of all mediums with special emphasis on radio and television.

"The NARTB, under the leadership of President Harold E. Fellows, alerted all its regional directors and membership stations to the extent of the disaster and urged the fullest cooperation with the Red Cross at the national and local level. All networks, radio and tv, similarly responded immediately, giving the fullest possible exposure of the Red Cross campaign needs on all programs.

"The combined effect of the Ad Council, NARTB and network and advertising agency efforts was to give the emergency campaign one of the speediest saturations in the history of the broadcast industry. The networks further contributed with specially arranged programs as public service features designed to help the campaign."

Mr. Greenberg singled out the special onehour documentary on ABC-TV done in association with the network's affiliate WNAC-TV which featured Quincy Howe as narrator and various theatrical stars, making appeals on behalf of the Red Cross campaign; the Jackie Gleason Show on CBS-TV, last Tuesday; NBC on various programs such as Monitor and many NBC shows presenting special features. ABC Radio gave two documentaries, one from Stroudsburg, Pa., and one from Connecticut. Mutual for the period of the campaign to date has maintained a peak saturation appeal.

On the local level, at least 10 stations led special campaigns in their communities on behalf of their Red Cross chapters. They have

Have you reserved your space in B•T's Sept. 19 Radio Resurgence Issue?

Final deadline Sept. 9 Publication Date Sept. 19

contributed as much as 16 hours at a stretch. The gross figure collected as of today by the Red Cross for this fund is $7\frac{1}{2}$ million, Mr. Greenberg said.

WABC New York, adopted the town of Ansonia, Conn., as a recipient of aid. According to Michael A. Renault, WABC general manager, the station will use all facilities, time and talent to appeal for money and equipment to assist the 21,000 people of the flood-stricken town. Idea to adopt Ansonia, which reported an industrial loss of \$10 million, a loss of \$2.9 million by retail stores and which reported five deaths, 323 injured and 63 hospitalized, was conceived and is being directed by Myrtle Tower, the station's program director. Temporary shelters in the town were housing 263 persons and some 1,000 persons were being fed by the town daily.

ABC-TV slotted a full hour telecast Aug. 28 (8-9 p.m.) on the problem of flood rehabilitation. Named "Flood Disaster Relief," the program, narrated by Quincy Howe, showed film shots of the devastation. Appeals were made for relief funds. Both ABC Radio and tv networks aired frequent spot announcements for aid to flood victims. Funds were to be sent to the Red Cross.

CBS Radio scheduled public service spots on regular news programs. A program, "The Terrible Rain," was on the network Thursday (8-8:25 p.m.) with news commentator Edward R. Murrow appealing for funds at the opening of the program. Also on the program: Len Cioffi, CBS newsman, and Jay McMullen, network's public affairs producer.

CBS-TV placed nine spot announcements last Tuesday, one on Monday and three on Sunday (Aug. 28) in pleas for flood relief. Jackie Gleason narrated a special program, "Flood," on Tuesday (10-10:30 p.m.) which appealed for funds. On the network's U. S. Steel Hour Wednesday (10-11 p.m.), the middle commercial was replaced by a special appeal by Federal Civil Defense Administrator Val Peterson.

Adopts Community

WPIX (TV) New York adopted the town of Winsted, Conn., where at least 400 persons were left homeless by the flood waters. WPIX on Aug. 25 cancelled all of its public service announcements and initiated a campaign asking viewers in the New York area to contribute cash. By early Monday, the station had collected more than \$1,000 and countless gifts including clothing and supplies. Another \$1,000 had been contributed by the station to start the fund going. On the morning of Aug. 28, WPIX reported that the Levittown, Long Island, fire commission chairman, and members of the department, delivered over 14 tons of clothing, lood and other supplies to Winsted officials as a result of the station's appeal.

WINS New York instituted a "Flood Relief Fund" in conjunction with WGTH Hartford and WVPO Stroudsburg, Pa. Monies collected were to be equally distributed among disaster areas. As part of its campaign, the station asked "friends and clients" to help out, requesting all contributions be sent to: Flood Fund, WINS New York 36, N. Y.

Stations all over the nation staged their own campaigns to raise funds for flood victims. WMUR-TV Manchester, N. H., put on a teletion, with Norman A. Gittleson, general mannger, opening the five-hour feature. WPRO-MM-TV Providence, R. I., staged appeals.

WTIC Hartford had raised \$260,255 in cash teposits up to noon Aug. 30. The campaign

Again, Two Decades Later

A VETERAN of one of the earliest radiothons teamed up with two-month old KOTA-TV Rapid City, S. D., to present a telethon that enabled that city to exceed by more than 400% its quota for the Red Cross fund for eastern flood victims. Glenn Rowell, who did a like stint on radio at WLS Chicago in the early '30s, conducted the Aug. 26-27 KOTA-TV telethon that not only reached the \$1,100 city quota, but raised over \$5,249 in less than eight hours.

was closed Aug. 26 at 11:30 p.m. by Paul W. Morency, WTIC president-general manager. WICC Bridgeport carried the all-star Connecticut Pops Concert as part of its service. A WBZ-AM-TV Boston marathon quickly brought in \$9,000 as it got under way.

WKNB-AM TV New Britain, Conn., took in \$160,000 in a telethon, conducted in cooperation with local civic organizations.

The Red Cross Flood Relief Fund Drive was given a boost by three Washington, D. C., stations, WOL, WTOP and WWDC. The three stations gave a major portion of their time Aug. 23 and 24 to broadcast appeals for the Red Cross. One station, WTOP, contributed \$1,000 in cash to the drive.

WOHO Accused of 'Pirating' Items From Local Newspapers

AN INJUNCTION to prevent the Midwestern Broadcasting Co., operators of WOHO Toledo, Ohio, from "pirating" news stories was filed last week by the Toledo Blade Co., which publishes the *Toledo Blade* and *Toledo Times*. The suit also asks damages of \$250,000.

The suit charged that the radio company has been regularly reading the most important news events occurring in the Toledo area. It added that the broadcasting firm's employes sometimes read news items verbatim as they were published in the papers.

Arthur W. Weber, WOHO executive vice president and general counselor, told B•T Thursday, "I can't see where they have any grounds for damages. We intend to fight them to the last ditch."

KNBC Boosts Rates

KNBC San Francisco has increased its rates for spot announcements, station breaks and participations on its morning *Doug Pledger Show*, NBC's *Monitor* and the weekday 5-6:30 p.m. time period, according to William K. Mc-Daniel, KNBC general manager.

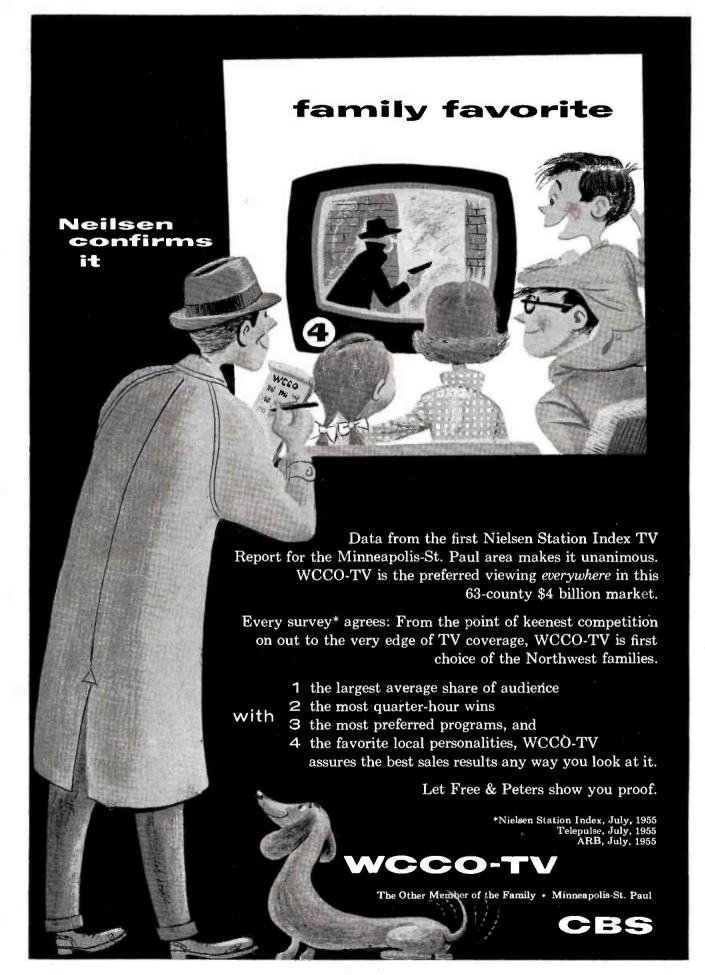

One minute spots on both shows go up from \$40 to \$50 gross, while 30, 20, 10 and 6 second spots have also been increased. There were no changes for other time periods.

WABD (TV) Promotes Adler

BILL ADLER, director of press, promotion and special events for WABD (TV) New York, has been promoted to director of programs for the station. Mr. Adler resigned as director of special projects for WRCA-AM-TV New York last month when he joined WABD.

WMTV (TV) Power 12.5 Kw

WMTV (TV) Madison, Wis. (ch. 33), last Tuesday increased its power from 1 to 12.5 kw. The station went on the air in July 1953.

PETRY EXPANDS STAFF, OFFICES

Representative firm voices confidence in future growth of radio-tv in announcing addition of six salesmen, radio, tv sales development departments and expansion of New York offices.

AN EXPANSION of the staff, operating departments, and office space of Edward Petry Co., station representation firm, was announced last week by the company.

"We are undertaking this carefully planned

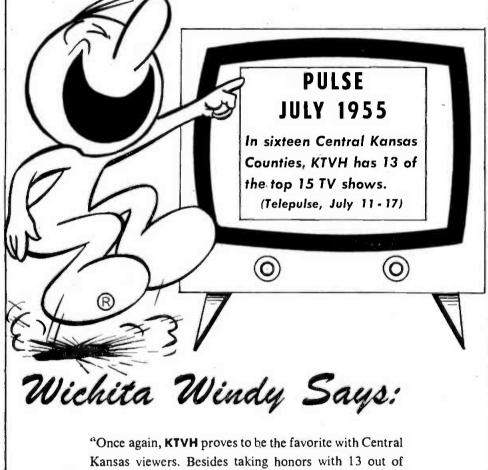

sion," Mr. Petry said. The moves, he said, are designed to provide best possible service to the growing list of important radio and television stations and regional networks represented by the Petry organization.

growth of televi-

Six salesmen have been added to the

firm's radio and tv staffs in New York, Chicago, and Los Angeles in recent weeks, Mr. Petry

Kansas viewers. Besides taking honors with 13 out of the top 15 network shows, **KTVH** has the greatest share of the audience for quarter hours from 6 to 10 p. m., seven nights a week. Yes, the *Pulse* rating gives **KTVH** credit for 100 quarter hours while the only competitor has but 11. It's conclusive proof of **KTVH's** dominance in Central Kansas. It proves, once more, that your advertising dollar reaches more people when it's placed on a winner. That's **KTVH!**

Page 56 • September 5, 1955

pointed out. Additionally, sales development departments have been formed for both radio and television; a special services division has been created in the television department, and specialized writers have been added to the radio and television promotion sections.

The company also has leased an entire floor in a new building currently under construction in New York to provide 50% more space.

Among the salesmen being added is Hugh O. Kerwin, who joined the firm as tv manager of the St. Louis office effective Aug. 22. Formerly with U. M. & M. Inc. as tv film account executive and before that with KTVI (TV) and KXOK St. Louis, Mr. Kerwin replaces George Stevens, who has headed Petry tv in St. Louis for the past year and now transfers to Chicago as an addition to the television sales staff there.

Other salesmen added include Bill Asip, Verne Behnke, Ed England, and Ted Smith in New York, and George Ledell in Los Angeles.

The new sales development departments are headed by Charles Philips, in television, and Jim Hirsch in radio.

Lee Redfield heads the television department's new special services division, which is designed to speed the exchange of vital buying information among Petry offices and stations, advertisers and agencies.

Josephine Maggio, traffic manager of CBS-TV Spot Sales, has been named head of the traffic division of the special services department in television. Jack Keiner and Jack Carter, respectively, are the additions to the radio and television promotion sections.

Landsman, Shepard Added To Katz N.Y. Tv Sales Staff

RICHARD C. LANDSMAN and Albert B. Shepard have been added to the tv sales staff in the New York office of the Kutz Agency Inc., national representatives.

Mr. Landsman, formerly with Harrington, Righter & Parsons, tv station representatives,

MR. LANDSMAN

MR. SHEPARD

and before that eight years with Edward Petry & Co., also has station experience as salesman with WNOC Norwich, Conn.; announcer and program director with WATR Waterbury, Conn., and WNAB Bridgeport, Conn.

Formerly with Forjoe-Tv where he was tv sales manager, Mr. Shepard has more than 10 years in the media field, with the New York office of the Empire Coil Co. on sales development for the company's tv properties, and timebuyer with advertising agencies.

New WBFD Appoints Two

WBFD Bedford, Pa., which went on the air July 1, has appointed Robert S. Harrison Jr. as station manager and Sherwood B. Hawley as program director.

Mr. Harrison was formerly with WAYZ Waynesboro and WCHA Chambersburg, both in Pennsylvania. Mr. Hawley also moves to WBDF from WCHA.

BROADCASTING . TELECASTING

... especially the merchandising staff of WRCA and WRCA-TV

Joe Murphy, Pegeen Fitzgerald, Sidney Matz and Max Buck know what motivates people on both sides of the counter. Together, they form broadcasting's most experienced merchandising unit – sales specialists whose talents help ensure the success of advertising campaigns on WRCA and WRCA-TV.

They know what it takes ... and they've got what it takes ... to move merchandise through super markets, drug stores and department stores. Exclusive service such as:

"CHANNEL 4 STORE" PLAN – a brand-new merchandising plan which promotes food and drug products advertised on WRCA-TV through 6,500 chain and independent super markets in Metropolitan New York.

CHAIN LIGHTNING — the most successful radio merchandising plan yet devised. Assures eligible food and drug advertisers on WRCA mass display in chains which control more than 1,600 super markets.

3-WAY DRUG PLAN - reaches into 5,000 retail drug stores affiliated with the New York State Pharmaceutical Association and wins selling floor support.

You'll sell more of your products faster with the help of the people who make the best salesmen in America's biggest market – persuasive people like the stars on WRCA and WRCA.TV, and retail-wise people like Max Buck and his staff of point-of-sale specialists.

KOZE⁻Sets Up Staff, **Readies for Oct. Start**

STAFF appointments for KOZE Lewiston, Idaho, which plans to go on the air early in October, were announced last week by Lewis Clark Broadcasting Co., station permittee. A. Thomas Decker, formerly commercial

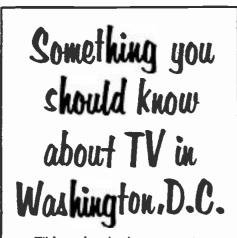

manager with KRLC Lewiston, was named station manager. Others appointed to the KOZE staff include Reginald Ross, assistant manager, formerly program director at KUGN Eugene, Ore., and Harry T. Howard, news and special events director, who moves from the same capacity at KIEM-AM-TV Eureka, Calif.

The daytime only station will follow a popular music and news format on 950 kc with 500 w. Lewis Clark owners are Boyd W. Cornelison, John H. Matlock and Eugene A. Hamblin.

George Booth, WTAG, **Dies at Summer Home**

GEORGE F. BOOTH, 84, president of WTAG Worcester and editor-publisher of the Worcester Telegram & Evening Gazette, died Thursday at his summer home in Bass Rock, Gloucester. Mass. He was vice president and trustee of Peoples Savings Bank and had been a delegate to four Republican National Conventions.

A Hartford native, Mr. Booth was a former member of the Associated Press board of directors. He held honorary degrees from several universities. His wife, the former Minnie L. Welles, died last December. They had been married 58 years. Surviving are three children: Robert W. Booth, vice president-general manager of WTAG; Howard M. Booth, general manager of the newspapers, and Mrs. Edwin C. Butler, of Worcester.

Without changing its current rates. WMAL-TV will boost its power to 252,000 watts this Fall and spark the new ABC-TV programs with the greatest promotion campaign ever conducted by a Washington TV station!

> Ask Katz about prime adjacencies for the Fall . . . at current rates on

Elliott Named to Post With CBS Tv Spot Sales

FRANK ELLIOTT Jr., formerly in sales at WCAU-TV Philadelphia, was named last week as director of sales development for CBS Television Spot Sales, effective tomorrow (Tuesday).

Clark George, general sales manager, announced that Mr. Elliott replaces Jack Mohler, recently named an account executive of the New York office. At WCAU-TV Mr. Elliott served in a similar sales development capacity for the past year and a half and prior to that was regional sales manager of WHUM-TV Reading, Pa.

At the same time, CBS Television Spot Sales' director of research, Al di Giovanni, announced the appointment as research assistant of E. James Hodgett, formerly market analyst for the Great Atlantic & Pacific Tea Co. and formerly account research manager, Sullivan, Stauffer, Colwell & Bayles Inc.

E. Lansing Ray Dies

E. LANSING RAY, editor and publisher of the St. Louis (Mo.) Globe-Democrat and former 23% owner of KWK-AM-TV St. Louis, died last week, on his 71st birthday, of a heart attack at his Rye Beach, N.H., summer home. Mr. Ray sold the Globe-Democrat and his broadcasting holdings to S. I. Newhouse last March [B•T, March 28].

REPRESENTATIVE APPOINTMENTS

KTVW (TV) Tacoma-Seattle, Wash., has appointed George P. Hollingbery Co., N. Y., as national representative.

REPRESENTATIVE PEOPLE

Joan Heverin, sales promotion dept., CBS Spot Sales, N. Y., to writing staff, sales promotion dept., Avery-Knodel Inc., N. Y.

Milton Weiss, formerly with research dept., Young & Rubicam, N. Y., to sales promotion and advertising dept., CBS Radio Spot Sales, N. Y., as copywriter.

L. J. (Pat) Campbell, teacher, Bloomsburg (Pa.)

High School, and parttime salesman, WHLM Bloomsburg, appointed WHLM commercial manager.

Don Jones, program director, WFEA Manchester, N. H., to WKAP Allentown, Pa., as commercial manager.

MR. CAMPBELL

director.

Ralph Polson, announcer and disc jockey, WJER Dover, Ohio, appointed program

Marianne Trello, secretary to program director, WICS (TV) Springfield, Ill., appointed traffic manager, succeeding Agnes Netznick, resigned.

Jack Shoemaker, disc m.c., WELL Battle Creek, Mich., appointed program director.

Jimm Seaney, continuity director, WDZ Decatur, 111., appointed program director; Dick Field and John Connor to station as news reporter and disc jockey, respectively.

Walter Koessler, formerly general manager,

WITV (TV) Ft. Lauderdale, Fla., appointed sales manager, WGBS - TV Miami.

Scott McLean, account executive, N. Y. office, Croslev Broadcasting Corp. (WLW-WLWT [TV] Cincinnati, WLWC [TV] Co-WLWD lumbus, [TV] Dayton, Ohio, WLWA [TV] At-

MR. KOESSLER

lanta, Ga.), appointed eastern sales manager of corporation.

Kenneth J. Reyhons, former news staff member. KCSJ-AM-TV Pueblo, Colo., appointed news director, KGHF Pueblo, succeeding Robert W. Billman.

Jack Warren, chief, mobile news unit, WRIT Milwaukee, Wis., appointed news director in absence of Peter W. Denzer, on leave to complete novel.

Allan Cox, film dept., KVOO-TV Tulsa, Okla., named film director; Bill Borthick and Bill Atcheson to production dept. as floormen.

Henry W. Lundquist, program supervisor, WBZ-WBZA Boston-Springfield, Mass., additionally appointed educational and public service director; Norman Prescott, formerly disc m.c., WNEW New York, to WBZ-WBZA as disc m.c. on daily three-hour and 15-minute programs.

Jay Kosick, chief engineer, WFEA Manchester, N. H., assumes additional duties as program coordinator; Al Rock, WFEA news editor, named production manager; Palmer Payne, WCAX Burlington, Vt., to WFEA.

Katherine Fox, special broadcast services di-rector since 1941, Crosley Broadcasting Corp., Cincinnati, resigns and expects to announce future plans shortly [B•T, Aug. 29].

Freddie Williams, 57, disc jockey, WAAF Chicago, died Aug. 21 in that city.

FCC COMR. ROSEL HYDE TELLS WHY

WE NEED ALL CHANNELS

MOST FCC Commissioners now acknowledge that the FCC's present television allocations won't work. Most think basic changes must be made to give uhf a chance for survival, create an opportunity for more than two networks to get comparable outlets, provide the public with a wider choice of service than will be available if the tv system continues to be hamstrung by present inequities between uhf and vhf. Last week, in a speech before the Lions Club of Washington, Comr. Rosel H. Hyde, former FCC chairman, called for a basic re-examination of tv allocations. His summary of events leading up to the present situation is the most complete to come recently from any official. Here, slightly condensed, is his speech:

THERE are two basic issues which I believe are of vital concern to the public and to the broadcast industry, as well as to the regulatory agency. The manner in which they are resolved will profoundly affect the future of television in this country in terms of the scope of the industry and character of service.

1. Should television in the United States be limited only to the number of stations which can be accommodated on 12 channels and should its future growth potential be restricted to such expansion as may be worked out through engineering compromises and subdivision of previously established services?

2. Should the great efforts which have already been made to encourage the development of a national competitive television service employing 70 additional channels now be abandoned through default, or through failure to take prompt and appropriate action to counteract trends now evident?

Television had begun to develop prior to the beginning of World War II. We had experimental stations in operation using the same basic standards as are applied to telecasting today. With the advent of Pearl Harbor, development along those lines stopped. We turned our attention to the problems of war. During this period, dramatic developments in communications were achieved. A myriad of new uses for radio were discovered and we learned that portions of the radio spectrum which had previously been regarded as useless could effectively be used.

To cope with these developments, the Commission in 1945 held an extensive allocation proceeding to determine how the radio spectrum could best be used. In that proceeding the Commission undertook to assign portions of the radio spectrum to the various uses. During this period it became apparent that even then there was not sufficient spectrum space available to accommodate all of the demands. At the conclusion of the allocation proceeding, 12 channels in the vhf portion of the spectrum were assigned for the immediate use of television and 440 megacycles of space in the uhf portion of the spectrum were reserved for the future development of tv. This additional space in the uhf was reserved because it was agreed by all that the vhf allocation alone could not provide sufficient facilities for the development of a nationwide competitive tv system.

The Commission was aware that equipment for television in the uhf band was still only in the experimental stage. The Commission concluded that to move all tv to these frequencies would indefinitely delay a general television service. So standards were issued and the initial rush to television was on.

Within a two-year period, the number of stations authorized had

grown to 108 in 63 cities. But knotty problems had already begun to develop. Interference between stations was becoming more annoying and each day it became clearer that the 12 channels available were not adequate to meet the needs for a competitive national tv system. Faced with this situation, the Commission suspended action on tv applications until the tv rules and standards could be revised to more adequately meet the public need. During this period, the Commission obtained the views of all interested parties, including manufacturers, networks, scientists, broadcasters and others. At the conclusion of this proceeding and after many weeks of careful consideration of all of the data, the Commission in April of 1952 issued a report which, among other things, set forth a national television station assignment plan.

The results obtained under this allocation plan have been in certain ways phenomenal.

Since the lifting of the freeze, the number of tv stations in operation has been increased fourfold, from 108 to 420 commercial stations. The distribution of receiving sets has skyrocketed from less than a million in 1948 to 36 million today. Approximately 75%of the families in the United States now have access to a tv set. It is estimated that some degree of tv reception is presently available to more than 90% of the population. Advertisers invested \$800 million in tv during 1954.

But let us not be deluded that all is perfection in the tv picture. Many and serious difficulties have arisen. Present trends in the allocation plan, if left unchanged, will impair and perhaps preclude the development of a healthy, free, competitive, nationwide tv service which can provide desirable local outlets for self-expression.

On the basis of such information as was available to the Commission at the time it adopted the allocation plan, we believed that intermixture of vhf and uhf stations would prove not only feasible but would provide the basic vehicle whereby the aims of the allocation plan would be carried out. We felt that we could count upon the good will and best efforts of the manufacturers of receivers and transmitters; the networks; the advertisers; and the station owners. We believed this would lead to the acceptance by the viewing public and would result in a general growth and acceptance of all television, regardless of the spectrum location of the signal source. It now turns out that certain factors did not develop as we envisaged. and that certain unforeseen roadblocks intervened. Let me be explicit. I blame no one segment or entity of the industry or of the government or of the public for the situation which now exists. But we must face present realities and examine the existing situationnot with a view to allocating blame but to see what can be done to correct trends which have developed, and to press for the proper development of a nationwide competitive television system in the American tradition.

The hard facts are that uhf is now suffering, and that without attention it will wither and die, and buried with it may be our hopes for a nationwide competitive tv system. Uhf is threatened by the tendency—where a choice is offered—of having the major networks affiliate with vhf outlets, and of having the national advertisers select the vhf outlets and virtually shun the uhf. The network programs attract viewers, and advertisers are in turn attracted. The revenues from the latter permit the staion to improve its local programs and enlarge its share of the audience. It spirals up—and up. The uhf,

without network or advertisers, is caught in a vicious circle and spirals down in revenues and viewers and revenues and viewers. Eventually it closes shop—52 have done so to date—and the public suffers.

But the picture is different in those limited areas where the uhf stations can obtain major network affiliations and their fair share of advertising revenue. The stations can then provide service of high order and with viewer acceptance. The station, the community, the industry, the network, the advertiser and the viewer all gain.

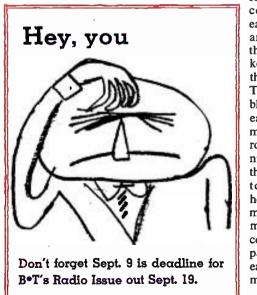

The present state of the uhf is most serious, not only because of the substantial losses caused to station owners and the economic waste involved, but primarily because of the impact a continuation of the present trend may have on the overall situation and on the public interest. Obviously, elimination from active use of 70 channels of the 82 assigned would drastically curtail the present and future scope of the industry. It would result in tv becoming a limited, protected and necessarily regulated service rather than the dynamic service contemplated by congressional policy.

The most significant competition affecting broadcasters is the competition among networks. This is not to underestimate the healthy struggle among stations to maintain and develop local accounts, or the competition of national spot representatives for national non-network spot business, or the very intense activity among the numerous suppliers of film or talent.

Nevertheless, the function of the networks and their competitive struggle for leadership is altogether unique in the industry. Historically, it has been the networks who have developed the mass audiences for radio and television. Most of the national networks have had command of large resources which they have been willing to risk in the broadcasting business. This has meant that they have attracted name writers, actors, producers, etc., from other arts to broadcasting or have developed new talent of their own. As a result of such investments, the networks have developed shows which have appealed to very sizeable audiences running into many millions each evening. The interest stimulated in this way in turn creates the demand for sets. Network business also profoundly affects other broadcast business. Thus, most intense efforts are exerted in the sale of national spot business to place the spot announcement or program as close as possible to popular network programs, in the expectation of reaching the largest audience.

Networking is, to be sure, a risky business. Between 1948 and 1950, for example, the tv networks and their stations reported losses of \$28 million. Willingness to invest heavily in program ideas and talent is a prerequisite to successful network operation.

I recognize the great contributions of the networks to the advancement of television. And I feel they have many more such contributions in store. But I feel strongly that effective national network competition should not be limited by inadequate facilities for more than two networks. And I'm sure that the added competition will benefit the industry and the advertisers, as well as the ultimate beneficiary—the viewer. And I'm convinced that such competition will greatly benefit the existing leaders as well. But it is essential

for effective network competition that each network have an affiliate in each of the first 50-75 markets, as an outlet for the network show. To the extent possible the affiliates in each of the major markets should have roughly equal technical facilities, or the potential ability to reach as many homes in each of the major markets. This means that if you could put four comparable stations in each of the major markets of the country, there would be the oportunity, at least, for four networks since each then would have the chance to obtain a full-time affiliate. Thus, network competition would be centered, as it should be, on selling the best show, rather than on some artificial scarcity of channels.

Examination of the assignment of tv channels to the first 100 markets so important to network operation discloses the following situation:

7	of	the	top	100	markets	have	4	or more	vhf	channels
26	of	the	top	100	markets	have	3	vhf		
32	of	the	top	100	markets	have	2	vhf		
18	of	the	top	100	markets	have	1	vhf		
17	\mathbf{of}	the	top	100	markets	have	uł	nf only		

This means that there are comparable facilities available for as many as three competing networks in only about half of the first 100 markets.

COMMISSION UNDER SIEGE

The Commission is being besieged with suggestions which, in general, propose to work out additional vhf assignments within the 12 vhf channels, or with some minor additions of channel space to be taken from other services. This approach contemplates use of such expedients as lower power, lower antennas, directional antennas employed in such a manner as to squeeze stations in particular places. There is no doubt that additional vhf assignments might be made in this manner, perhaps enough to relieve a few of the pressures of the moment. However, the squeeze-in or shoe-horn technique, if experience in other fields is to be relied upon, can be expected to cause interference in outlying areas, the cumulative effect being to provide additional services in population centers at the expense of outlying areas where it is most needed. Any such move would, of course, inevitably undermine present incentive to development of ultra-high channels. I feel strongly that any general course of action which looks toward the licensing of television stations under a system with a built-in low ceiling on future expansion, should not be adopted until we have at least made a thoroughgoing study of possible alternatives.

In hearings before a Senate Committee studying this subject, it was recommended that selective deintermixture of television channel assignments be considered. There have been a number of petitions submitted to the Commission requesting such action in particular cases. Deintermixture in this context means separating so far as possible the allocations of uhf and vhf channels into separate cities and market areas so that stations in the same competitive sphere would compete on comparable channels. There are a number of markets where a substantial degree of deintermixture could be accomplished without changing any presently operating stations. The more successful uhf operations, the greater the use of uhf channels, the greater incentive for improvement and manufacture of sets and transmitters for use in this part of the spectrum. Incidentally, as far as I am able to ascertain, engineers and manufacturers agree that given a demand or incentive, more and better equipment will be forthcoming. In areas where viewers have been able to obtain desired programs, they have been fully satisfied with uhf. I am also advised that advertisers are not concerned with whether their message is broadcast on uhf or vhf so long as they obtain viewers.

My suggestion is that a re-examination be made of the tv allocation in the light of experience since 1952. The objective of such a re-examination would be the establishment of conditions conducive to the growth and development of uhf in as many areas as possible and at the same time providing opportunity for network competition on as nearly equal transmission facilities as possible in as many markets as practicable. In considering possible adjustments of the allocation, I would suggest judicious application of less rigid separation standards than those of the Sixth Report, more emphasis on market areas and the use of such engineering techniques as directional antennas where such use would contribute to the objective of the overall re-examination. The ultimate purpose, of course, would be to encourage the larger and more effective use of available tv channels. The ultimate full development of television in this country should not be hamstrung by having been limited to 12 channels in its pioneer stages.

WSM FOLK STARS SCORE AGAIN AS SHOWMEN TO A NATION . .

What better proof could you find of WSM-TV's stature as one of America's top television stations?

The 29-year popularity record of WSM's Grand Ole Opry ... and the audience response to "Opry Matinee", "R. F.D. Nashville", and other WSM-TV shows featuring Opry Stars made a deep impression on several large television film companies. One of the largest of these, Flamingo Films, Inc., sent a camera crew to Nashville to film on the spot a complete 52-week series of half-hour Opry shows for television.

Although only recently released, "Stars of the Grand Ole Opry" has already been sold in 70 markets. Among the top-rank sponsors: Pillsbury Mills, Borden, J. I. Case Tractor Co., Martha White Mills, Ford dealers, Hotpoint dealers, and a division of Swift and Company.

For further proof that WSM-TV is "clearly Nashville's No. 1 TV station" contact WSM-TV's Irving Waugh or your nearest Petry Man.

G.E.'s packaged relay systems provide superior switching at the cost of conventional switching equipment

Your station-large, medium or small...monochrome or color-can benefit from a G-E packaged relay switching system...now available at an initial cost comparing favorably with conventional switching.

For small or medium stations, the G-E TS-1-A controls up to eight non-composite and two composite inputs, with outputs for full line monitoring. Laps, fades, dissolves are smoother, faster and positive.

For larger stations, G.E.'s TS-2-A offers exceptional quality of previews, switching, fading, and dissolves. Up to 12 non-composite inputs, with preview and switching facilities for two composite inputs.

For all stations regardless of size, General Electric relay switching means clean, transient-free switching, distortion-free pictures in either monochrome or color. It provides flexible by-pass for studio rehearsals and preview of superimpositions. Bounce and low-frequency distortion are eliminated by clamps in the mixing amplifier.

Find out how a G-E Packaged Relay System can provide your station with better, more economical switching. Contact your nearest G-E representative today. Or, write: General Electric Company, Section X295-5, Broadcast Equipment, Electronics Park, Syracuse, N.Y. In Canada, write: C.G.E. Electronics, 830 Lansdowne Ave., Toronto.

Only Relay Switching can give you these advantages:

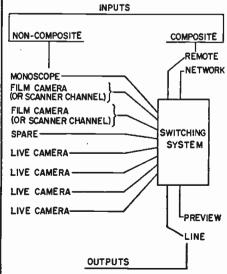

• Relays minimize cross talk.

• DC control of video signals gives noise-free manual laps and fades.

• Simplified installation and maintenance because all noncomposite coaxial connections are in the rack and not at the control panel.

• Removal of heat and microphonic problems by rackmounting those tubes and amplifiers usually found at the panel and in the console.

G-E TS-1-A SWITCHER. For up to 8 non-composite and 2 composite inputs.

ELECTR

GENERAL (973)

Will sponsored tv be a hit in England? A lot of people still have to be convinced, but not the advertisers. They're flocking to the medium in droves.

COMMERCIAL TELEVISION: THEY'RE BUYING IN BRITAIN

BRITISH commercial television, making its debut in the London area on Sept. 22, has yet to convince many peers, politicians and other public figures that it is a "good thing." But England's advertisers have already proved that they need no such convincing.

More than a month before T-Day the new station found its choice evening time spots sold out for the full first year, with demand running high for even the less favored hours. In spite of the taboo against program sponsorship and the restrictions on the type and length of commercials, the big advertisers have come in overwhelmingly. Top U. S. brand names are in particular evidence.

These definitely will be weekend advertisers: Lever Bros., Procter & Gamble, Colgate-Palmolive, Horlicks, General Foods, Gillette, Singer Sewing Machine, Revlon, Max Factor, Hoover, Kellogg and Ford.

On weekdays top companies include Lever Bros., Colgate, Hedley (Procter & Gamble), General Motors, all leading British auto manufacturers, Esso and "all the oil people."

The division between weekends and weekdays is stressed because two different companies will provide the station's programming for those periods. The Tv Act specifies that all commercial tv stations—the one in London now, two more next spring and eventually 40 or 50—are to be operated by Independent Television Authority, but the programming done by outside firms called program contractors. ITA has authorized Associated Broadcasting Co. (ABC) to program its London station Saturdays and Sundays and Associated-Rediffusion Ltd.

THE AUTHOR is a former BoT staffer now a free lance magazine writer whose work has appeared in such publications as Life, Town & Country, Reader's Digest, Vogue, This Week and Pageant. By Betty Reef

(ART/V) to provide the Monday-through-Friday programs. [For a detailed discussion of British commercial tv, see the INTERVIEW with Clair McCollough, B•T, July 25.]

It is the program contractor who sells time to the advertiser—announcements only, program sponsorship being banned by law. The advertiser cannot select his program, but he can choose the type of time—AA: 8-10 p.m. weekdays; 8-9:30 p.m. weekends; A: 3-6 p.m., 7-8 p.m., 10-11 p.m. weekdays; 7-8 p.m., 9:30-11 p.m. Saturdays; 2-6 p.m., 7:30-8 p.m., 9:30-10:30 p.m. Sundays; B: 2-6 p.m. Saturdays; all time other than AA and A weekdays, except test transmission hours; C: 10:30 a.m.-3 p.m. weekdays, 10 a.m.-12 noon Saturdays. No advertising is accepted Sunday, 7-7:30 p.m.

Weekend rates are: AA—\$1,260 for 15 seconds to \$2,800 for 1 minute; A: \$756 for 15 seconds to \$1,680 for 1 minute; B: \$448 for 15 seconds to \$980 for 1 minute; C: slightly more than half the B rate. Basic weekday rate is \$1,820 for a minute in A time. The peak AA rate is the basic rate plus 50%; the B rate is the basic rate minus 50%; the C rate is the basic rate minus 70%.

Both contractors indicate that these rates are provisional and will change. Both say that these prices apply only to the usual telecast; when there is a program of wide national interest, they can charge a special rate as much at 100% higher than the normal rate. ITA, incidentally, does not exercise control over the profits of any licensed contractor.

Both companies pay a 15% commission on gross time charges to recognized advertising agents. Top U. S. agencies who have already bought time for clients include: Foote, Cone & Belding: Young & Rubicam; J. Walter Thompson; McCann-Erickson; and such leading British firms as S. H. Benson Ltd.; W. S. Crawford Ltd.; Colman, Prentis & Varley; G. S. Royds, and London Press Exchange.

Slide film, motion picture film, and animated commercials are being readied by more than half a dozen companies, some of which have sprung up solely to supply the sudden tv market. One of the leaders is Perl & Dean, who has been in the business of making the commercials seen in British movie houses during intermission. Another is Theatre Publicity, also in this business and a part of the J. Arthur Rank Organization. Among the newcomers are Television Advertising Ltd. and Tv Commercials Ltd. which is now making a series of 109 commercials for Sterling Drug. It is worth noting that pharmaceuticals have been accepted for tv advertising 'very much subject to conditions," according to the contractors.

The contractors are making studio facilities available for live commercials, with charges based on camera hours for rehearsal and air times. Dry rehearsal facilities also are available. On the technical side, advertisers have had to note that British tv is transmitted with a frame frequency of 50 per second and a picture frequency of 25 per second. This means that films made at the usual 24 frames per second will have a slightly shorter running time and must be adjusted.

As for the commercials themselves, they are expected to be low key and low pressure. One of the admen making them, John Metcalfe, recently compared them with the U. S. type, in a newspaper interview, in these words: "The whole approach is different . . . we have to lower the pressure, so to speak, unscrew the stopper and let out the gas."

In general, advertising matter is limited to six minutes per hour, to be presented between programs or in a "natural break" such

Are you sure your child is ready for school?

Here they come ... America's youth ... ready to start or return to school!

Never before in our nation's history have we had such a bumper crop of school-age citizens. In fact, enrollment this year will soar to more than 33 million students, including almost 4 million who will be off to school for the first time.

Has anything been overlooked that might interfere with their physical and mental well-being . . . or that might handicap them in their studies or affect their attendance?

Fortunately, there is something that all parents can do to make sure that their children are ready for school. They can include a medical check-up on the list of ahead-of-school preparations.

A check-up...for both youngsters and teenagers...may be the means of correcting unsuspected defects of vision, hearing, posture or general health. Sometimes these defects are at least partially responsible for low grades or emotional troubles.

The physician who has known your child over the years is best qualified to give pre-school medical check-ups because he has a *complete* picture of the child's health. He will also be alert to troubles which parents might not notice, or might consider unimportant. Impairments that can be corrected

COPYRIGHT 1955-METROPOLITAN LIPE INSURANCE COMPANY

Metropolitan Life Insurance Company

1 MADISON AVENUE, NEW YORK 10, N.Y.

now may avoid more serious trouble later on.

For the child just starting school, it is important that his immunizations against communicable diseases are up to date. In addition to making your child immune to smallpox, diphtheria, whooping cough and tetanus, medical authorities now advise that vaccine lessens your child's chances of getting polio.

So, wouldn't it be wise to discuss a definite immunization program with your doctor . . . including "booster doses" to renew immunity . . . well before school opens?

During the teen years, when the growing-up process imposes considerable mental and physical stresses, health check-ups are especially needed. Many problems, including those associated with growth and emotional adjustment, often require expert attention. In addition, changes in diet or in habits of play, or sleep, or exercise may be made for the child's benefit.

If medical examinations are not a part of your youngster's preparation for school, why not start them now . . . and continue them throughout the school years? Parents who do so will have the satisfaction of knowing that their child has been given one of the best safeguards for health and happiness during this and future years in school.

This advertisement is one of a continuing series sponsored by Metropolitan in the interest of our national health and welfare. It is appearing in two colors in magazines with a total circulation in excess of 31,000,000 including Collier's, Time, Newsweek, Saturday Evening Post, Ladies' Home Journal, Good Housekeeping, McCall's, Woman's Home Companion, National Geographic. as theatre intermission or football half time. Number of ad periods may not exceed six per hour, averaged over the total broadcast day. The advertiser also can buy five-second on-the-hour time signals. The law further permits stations to transmit "Advertising Features," "Advertising Magazines," or "Shopper's Guides," which are sponsor-participation shows on the order of NBC's *Home* show, of 15 or 20 minutes duration and not subject to the six minute per hour limit as now planned.

Also permitted are "Advertising Documentaries," which can be described as commercial shorts—"A Trip Through the Ford Plant" perhaps, or "Whence Comes Your Morning Toast." Subject to ITA approval, these may be any length, may be produced by either advertiser or program contractor; they fall into the entertainment category and may contain advertising. According to Richard Meyer, ABC's director, spots on such programs may be sold and also fall outside the six-minute-per-hour regulation.

For the Advertising Magazines and Shopper's Guides, the rate is \$980 for two minutes or less of basic participation in B time, and \$1,680 in A time. Documentaries or Advertising Features, length ¹/₂ hour, in A time run \$5,600, and in B time, \$2,800. Saturday's time signals (5 seconds, on the hour) cost \$2,100 for a minimum of seven; on Sunday, the same runs to \$2,800.

The English are still quivering from the shock of discovering that one U. S. Coronation telecast was followed by a commercial for Lady Pepperel Sheets, "fit for a queen," and another interpolated Fred J. Muggs into these dignified proceedings. It has therefore been provided that in televising royal occasions there must be at least a two-minute interval between the program and ads before or after. Moreover, "any broadcast before or after a royal event must be of a tone and style suitable to the occasion."

Commercial copy has to be submitted to the company (program contractor) at least two weeks in advance, with material for live ads submitted six weeks ahead. Advertisers must prepare alternative acceptable copy, and the contractor has absolute right to alter or substitute, to delete by fading or cutting (advertiser still pays full price for time and/or studio facilities). Only if the contractor omits the commercial entirely, which he has the right to do for any reason whatsoever, does he refund payment.

The British feel that by eliminating sponsorship, "the filling of the programs with material supplied by advertisers," they are removing the crasser elements of U. S. tv and insuring that the medium retains its public service character. As Sir Robert Fraser, ITA director-general, puts it, he sees tv as "a good publisher sees his publishing house—a group of men and women doing a job . . . to which they apply their own standards of what is good and bad, which they see as a social instrument for the use of which they are responsible.

"It is not good enough or dignified enough that television programs should be an inconsequent derivative of an unrelated succession of advertising decisions, no matter how public spirited some of the advertisers may be," Sir Robert declares. "It is simply not the way to secure the best social use of the medium. This is a point of view first stated in this country by our own advertisers and agents."

Sir Robert further says that there will be no "sponsored" tv or even "commercial" tv in spite of the widespread use of these phrases in Britain. There will be "independent" or "free" tv. "We do not speak of the commercial press," he explains. "Unless a free community has lost its grasp of its own fundamental values, it is called a *free* press."

This, then, is the policy behind the fact that advertisers cannot choose the shows during which their commercials will be transmitted. It also helps to explain such portions of the Tv Act as regulation that nothing may be broadcast between six and seven p.m., traditionally British children's bedtime. The peers and seers who wrote the law envisaged bedtime difficulties which might disrupt the English household. Enough Englishmen and women had visited the U. S. in recent years to have decided that tv produces a bedtime problem.

Both London program companies have been busily lining up shows and talent, about which they give out frequent fanfare. Associated Broadcasting's weekend programs, announced as the "best and brightest in the world" by Prince Littler, company chairman,

MORE BBC AMMO

BBC has thrown an extra million pounds (\$2,800,000) into its fight against commercial tv, it was reported last week. BBC-TV plans to face its rivals with 50 hours of telecasting a week, aimed at holding the island's 12 million viewers faithful to the publicowned corporation. The list of attractions is topped by Britain's favorite sports events. Other aspects of BBC's new look include shearing its panel games to the single top-rated What's My Line?, according to Cecil Mc-Givern, program chief.

will present Bob Hope, Norman Wisdom, Gracie Fields, and all the "top-of-the-bill" names in show business on its Sunday night spectaculars from the Palladium. Associated Broadcasting also will broadcast *Theatre Royal* on Sunday eves, a series of filmed plays now being made by "high definition technique," with stars like Eric Portman, Ralph Richardson, Wendy Hiller, Flora Robson. Saturday night will feature a dramatic production with famous British stars, and late Saturday, British disc jockey Jack Jackson will interview, live and on film, various West End stage personalities.

Associated Broadcasting will use several U. S. imports: *Roy Rogers* is scheduled for Sunday afternoons, and *Col. March of Scotland Yard* will also be seen. The Advertising Magazines include a Sunday afternoon *Going Shopping* with visits to various stores to demonstrate branded merchandise, and two Saturday afternoon programs, a 15-minute *Do It Yourself*, using branded items, and a *Home* show run by actress Joy Shelton. These programs consist entirely of advertising, which is required to be "entertaining."

The weekday group, Associated-Rediffusion, has announced a series of 26 half-hour filmed programs—*Around the World with* Orson Welles, in which he will do offbeat interviews in farflung places. First in the series is "The Third Man Revisits Vienna." The drama division under Norman Marshall is producing one-hour plays at Shepperton Studios. There also will be a 1½ hour drama alternating weekly with concerts by the Halle Orchestra under John Barbirolli, once director of the New York Philharmonic, who has been appointed ART/V's advisor on music to "ensure that all music used in the program will conform to his musical taste and the high quality of entertainment the station intends to offer."

The weekday programs will present "specially devised entertainment for women . . . *with due respect for their intelligence*" half-hour transmissions every morning at 10:45 a.m., a period popularly called "elevenses," when most housewives sit down to a cup of tea and a rest before tackling the heavier housework. Three times weekly at 12:15 p.m., the "tinies"—children under five—will have a program.

The youngest set gets a 5 to 6 p.m. show called *Tea-V Hour*, because, as officials hasten to explain, no British child over age twelve will permit himself to be considered a child. A serial for girls is planned; boys will have *Hopalong Cassidy*.

Another U. S. show to be transmitted is *Dragnet*. The company has been considering the purchase of *Four Star Playhouse* and similar U. S. material, but is handicapped by the ITA ruling limiting non-British programs to one hour daily.

On the weekday transmissions, ART/V expects to allot 221/2% of the broadcast day to sports—racing, stock cars, boxing, soccer, swimming, etc. They have signed all five race tracks in the London area and also have contracted for exclusive rights on the only indoor pool with a built-in underwater window for photography.

Program time units are quarter hour, half hour, an hour, and an hour and a half on the London station. In general, both contractors feel that commercials longer than two minutes will lose audience, a possibility to which they are acutely sensitive, particularly in view of general public opinion about commercialism in television. In some instances, however, they are selling spots as long as three minutes, when the ad itself is considered interesting. Again, it is a matter of deep concern that tv be a "welcome visitor rather than an intruder in the home."

By law, the transmission day is only seven hours, so contractors have had to select the hours preferred. ART/V will transmit from 10:45 to 11:15 a.m., will broadcast music from 11:15 a.m. to 12:15 p.m., will resume transmission from 12:15 to 12:45 p.m., and will sign off for the afternoon until 5 p.m. The company decided against afternoon hours because of competition from the BBC's 2-3 p.m. women's programs. Telecasting begins again with children's material from 5 to 6 p.m., and signs off until 7 p.m. to clear the field of distractions during bedtime. From 7 to 11 p.m., the evening program is transmitted.

Weekend transmission hours by Associated Broadcasting are Saturday, 2 to 11 p.m., and Sunday, 2 to 10:30 p.m., with the usual bedtime break between 6 and 7 p.m.

Second major problem is the matter of converting tv sets. In Britain, there have

been three separate stages of receiver manufacture. From 1947 to 1950, sets were designed to receive only the BBC circuit, without provision for adaptation for other channels. These sets can, however, be adapted to get one additional specific frequency, at a cost of \$20 to \$25.

From 1950 to 1953, sets were made to receive only the BBC but had a built-in arrangement which could easily be adapted to receive 13 channels. To adjust this type costs \$14 to \$17. From 1953 on, all sets in Britain have been designed to receive 13 channels. Those which require adapting also need adjustment of the aerial, at additional cost. Average expense per family to adapt for the new tv is estimated at \$25, a considerable amount in a country of relatively low wages.

The two London contractors jointly have financed an advertising campaign to get set owners to convert in time for the September opening, with J. Walter Thompson handling the account. First campaign used evening papers to hit the big cities and saturate London, where the first telecasts begin.

Total number of tv subscribers today is 4½ million and has risen by a million per year since 1947, when the British tv boom began. Though television is old in Britain and was fairly well known even before the war, the field really opened about the same time as in the U. S. In 1947 there were 14,500 receivers extant.

Of the $1\frac{1}{2}$ million sets in London now, it is estimated that $\frac{1}{4}$ million will be ready to receive commercial telecasts in September, and the figure is expected to reach a million by six months after programs get underway.

The September London programs will be transmitted from a 60 kw temporary station built by Marconi at Croyden, 375 ft. above sea level. This arrangement will continue for about 18 months; there is talk of later sharing a mast with the BBC.

Even with all the excitement stirred up by the debut of commercial tv, it is still considered tentative and experimental by many people. The Television Act, for example, provides that ITA go out of existence 10 years after its creation, to give Parliament and the British people a chance for a serious review. If it turns out "a complete hash," as Britons put it, it can then be dropped completely.

The man at the top of ITA is a ministerial appointment, with emphasis on good taste

and respectability in the person of Sir Kenneth Clark, a brilliant administrator with a fine arts background. Sir Kenneth directed Britain's National Gallery at the tender age of 31. He became Director of the Ministry of Information's film division during the war, and later became controller of home publicity. He was Slade Professor of Fine Arts at Oxford from 1946 to 1950, and in 1953 became Chairman of the Arts Council —a kind of highbrow impresario job of awarding subsidies to operas and art exhibitions.

ITA's managing director Sir Robert Fraser, in a recent speech, explained his sanguine expectations. "If ever there was a country absolutely tailored for independent television, it is ours. Relatively short distances to cover with coaxial cables or microwave links, a high population density, vast numbers of people within the area of coverage of the main stations, a high standard of life, a buoyant demand for the kind of consumption goods suitable for television advertising, and powerful, responsible, lively and clever organizations ready to produce the programs. Unless we make howling blunders," he concluded, "it will surely be a success!"

BBC TAKES A FEW EXCEPTIONS TO McCOLLOUGH

EDITOR:

May I comment on Mr. Clair R. Mc-Collough's interview in your issue of July 25, which I enjoyed reading?

It is the clearest exposition that I have seen so far of how commercial television may work in Britain. British advertising men who have never heard of "splits" and "20-second spots" must have seemed rather naive to him, but on the whole Mr. McCollough is enthusiastic about commercial television in Britain, and that is only to be expected from the Chairman of the Television Board of the NARTB, which regulates a multi-billion dollar commercial television industry here. However, in his exposition he has been misguided in some of his conclusions about the BBC. The BBC is represented as rather dull and unenterprising. It is suggested that the reason why there are relatively so few television sets in Britain (4,676,432, roughly the equivalent of 16 million sets in the U.S.A.) is because BBC programmes do not have mass appeal. Remember that there was a Government Purchase Tax of 66% on television sets after the war. Two years ago it came down to 50%. The miracle is that under these conditions over four million sets have been sold. Would there be 36 million sets in use in the U.S.A. if there had been a 66% tax? Some say it is the high price of colour sets which caused Colour [tv] to move ahead more slowly than anticipated, and not poor programmes. Incidentally, a government in a country with five million war damaged homes to repair, and which had to export or starve, could quite reasonably maintain that television was a luxury, and divert by

taxation the country's resources into more productive channels.

It is also suggested that the BBC's Light programme network was derived from the requirements of several million GI's in England, but in fact it was derived from the General Forces Programme, which was an extension of the Forces Programme for the British Expeditionary Forces, started in the early days of the war, nearly two years before Pearl Harbour.

It will be no new thing for the British to hear or see American material. Has it been forgotten that the supposedly oldfashioned BBC had a television service before the war from 1936 to 1939, four hours every night? Among the American plays which were then televised at length by the BBC were: Eugene O'Neill's Ath Wilderness!, Emperor Jones, Marco Millions and Thornton Wilder's The Happy Journey to Trenton & Camden, Love and How to Cure It, Queens of France.

Writers such as James Thurber, John Van Druten, Dorothy Parker, Louis Bromfield, Robert Benchley, Ogden Nash appeared on programmes, or allowed their sketches to be televised. American stars at that time in BBC programmes were: Tyrone Power, Greer Garson, Charles Laughton, Sophie Tucker, Danny Kaye, Gene Autry and many others. We had American bubble dancers, knife throwers, acrobats and jugglers, and Hildegarde on television, all before the war.

It is suggested that the BBC's White City project has been triggered off by the advent of the ITA [Independent Television Authority]. The BBC first tried to secure a similar site in central London for a television city before the war. In January 1947 the first negotiations were made about the White City site, and in 1949 BBC was given permission to acquire the present 13 acres. The beautiful plan for its development illustrated in your article was made before the ITA was ever heard of. One block is already completed, another will be finished this year, and the main block of production studios will probably be ready in 1959, not 1966, as was reported.

The BBC has not been supplied by a repentant government with "everything to revitalise it." Its increased revenues are the natural consequences of the increased number of sets in use, from each of which the BBC receives \$9.00 per annum licensee fee, less almost 20% retained by the government for various purposes, including a small grant to the ITA. The number of sets is rising by about 1¼ million per annum.

Finally it is realized by the BBC that commercial television has largely, at the outset, been staffed from the BBC, until it can train its own people.

There is not the slightest possibility or wish to "establish a regulation or pass a law whereby the ITA will not be permitted to hire their best people at greatly increased compensation."

There is nothing strange about a corporation raising the salaries of some valuable key members to keep them. It is done here in the U. S. A. from time to time. True there were groans from some who were not included, and the grade system creaked, but there was never any suggestion of a strike.

HOW TO PROMOTE A BIG BIRTHDAY

KNX TURNS ITS 35TH ANNIVERSARY OBSERVANCE INTO A BOON FOR ALL OF SOUTHERN CALIFORNIA

THERE isn't much news any more in a radio station anniversary loaded with selfpraise programming, but when a station celebrates its 35th birthday with gifts for the listener and 18 hours of shows which promote the community instead, the story merits repeating. Especially when the event is sponsored.

CBS Radio's key outlet in Los Angeles, KNX, will be 35 this Saturday (Sept. 10). For 18 hours, in two and three-hour segments, the station will rove Southern California with its microphones, relating on the scene the story of the region's great growth and amplifying the pulse of its industry.

Except for news and sports shows, all other commercials will be cancelled to make way for the 18-hour feature, Birthday Bonanza, sponsored by Standard Federal Savings & Loan of Los Angeles. Even the commercials retained on the news and sports shows will tie in with the boost-Southern-California theme. The listener? He will have a chance to win autos, minks, radios, appliances, furniture, tools and other prizes, \$65,000-worth, if he has registered during the last two weeks at one of the stores of the Owl Drug Co., which is sharing in the promotion.

How does a radio station stage such a

promotion? When and where do you start? What does it cost?

Surprisingly enough, the out-of-pocket cash requirements are relatively low since a radio station can employ trade promotions to obtain perhaps the most costly item -prizes. KNX in this instance is swapping full value in broadcast advertising to those firms which supplied the items. The greatest expense, obviously, is the total extra manhours required of the staff in the advance planning and actual production of the event. Cash accounts include items such as newspaper advertising, banners, and displays.

For KNX, the work started last spring. William D. Shaw, general manager of the station and the Columbia Pacific Radio Network, met with his department chiefs. Realizing no western station has ever had a 35th anniversary, they concluded it should be observed impressively or not at all.

Their first policy decision was that the observance would not be a session of back slapping. Instead, the entire day of Sept. 10 would be a salute to Southern California. Decision number two was that no time during the day would entertainment be neglected.

At this point, Robert P. Sutton, KNX-Columbia Pacific Radio Network program

THE 35th year of radio broadcasting will be celebrated by pioneer enterprises in a number of areas during the autumn months.

KDKA Pittsburgh, WO1 Ames, Iowa, and others were active in various ways in 1920. KDKA, Westinghouse Broadcasting Co. station, will celebrate Nov. 2 the 35th anniversary of "the first regular, pre-planned, pre-advertised, pre-scheduled broadcast of any commercial station in the world, Nov. 2, 1920." The station had been operated in 1916 as 8XK and was listed by the U. S. Dept. of Commerce.

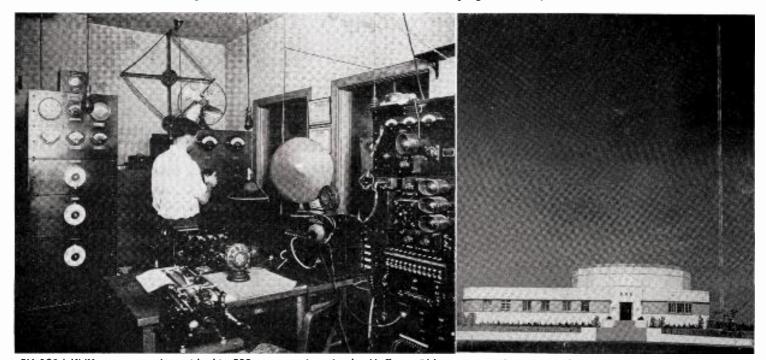

WOI and WWJ Detroit operated radio projects in 1920, the former having experimented for a long period. B•T is not umpiring the battle of claims, but reporting as pioneers celebrate their early efforts.

director, took the project to his staff. They began days of searching for ideas to carry out the major theme of promoting the land they live in. Soon the pattern of visits to different areas, industries, and people evolved, demonstrating radio's greatest assets, its flexibility and immediacy. Each segment of the 18-hour program acquired its own theme.

But the work was only begun. How would it be promoted?

Contests-permitting gifts for the listener -was the first suggestion of John M. Asher, KNX-CPRN director of sales promotion and advertising. He believes nothing excites the listening audience more than a chance to win something really worthwhile and the more prizes the more people would have a chance to win.

Prizes were solicited and obtained. Five automobiles, including two Buicks and a Pontiac; thousands of dollars worth of mink stoles and a \$10,000 blue mink coat; a complete kitchen; sets of auto tires; radios,

BY 1924 KNX was operating with this 500 w transmitter in the Hoffman Bldg. The technician is Paul O'Harra, now audio supervisor for KNX and CBS Radio.

scores of them; valuable sets of tools, etc. In all, \$65,000 worth of gifts.

The KNX executives decided the contests for prizes must be simple. All a listener need do is send in his name and telephone number on a special coupon or postcard. During the day, the names would be drawn, the listener called and asked a questionabout Southern California, of course.

Arrangements were made with the Owl Drug Co. to distribute a half-million con-. test entry forms through its 80 stores in the Los Angeles area. The Owl chain in addition is advertising the contests and coupons in some 60 newspapers in the area and is displaying counter cards, wire hangers and window banners promoting the KNX event.

KNX has been using 44 newspapers in metropolitan Los Angeles to advertise the anniversary and contests, some ads containing the coupon, others purely reminder or teaser copy.

Naturally KNX did not overlook its own facilities. Countless air promotions are being used. The radio promotion began several weeks ago with a preliminary contest to se-lect "Miss KNX," a girl with a perfect 35 figure to reign as official hostess in promotion events during the two weeks before Sept. 10.

KNX disc jockey personalities invited female listeners to send in their pin-up poses and from these 12 candidates were chosen. On Aug. 25, KNX invited the local radio-tv columnists, fan magazine editors and trade press to pick "Miss KNX" from the 12. They chose Jean Moorhead, a 20-year-old

MISS KNX-A PERFECT 35

Santa Monica girl, who was crowned by Gary Crosby, CBS Radio star.

During the two weeks before Sept. 10 she has been visiting luncheon clubs, was introduced during intermission at the ballpark, toured the city in a motorcade of the gift cars, is calling on advertising agency executives and is making guest appearances on KNX shows.

Even the choice of the title, Birthday Bonanza, for the Sept. 10 program was a promotion, an intra-mural cash prize contest among KNX employes.

On Saturday, the promotion will climax with full exterior decoration of the KNX building at Columbia Square in Hollywood. An airplane will fly for six hours over the Los Angeles area carrying a KNX banner seven feet high and 50 feet long. In the KNX lobby old radios and one of the station's first 5 w transmitters will be displayed. Coffee and doughnuts will be served.

Along with other civic and business leaders, Mayor Norris Poulson is participating by sending congratulations to the station. The city council and county board of supervisors are adopting resolutions commending KNX for its years of public service.

KNX remote teams about the city will be well armed with visual identification as they describe commerce at the harbor, fun at the ball park, football practice at various universities or their laboratory research.

By promoting its community instead of itself, KNX discovered late last week there was birthday gift for it, too. Mr. Shaw and Bert S. West, KNX-CPRN general sales manager, were told by George M. Eason, president of Standard Federal Savings & Loan, his firm would sponsor the 18-hour program and the copy, prepared by Heintz & Co., Los Angeles agency, would be in keeping with a salute to Southern California.

SEPTEMBER 1955

Total U. S. Stations on Air: 438 (Commercial: 424; Educational: 14) Total Cities With Tv Stations: 286 Total Tv Homes: 32,000,000 (U. S. Census Bureau, June 1955)

HOW TO READ THIS LISTING

Each station or grantee is listed in the city where licensed.

Triangle (►): station on air with regular programming. Date of grant is shown for permittees, followed by planned starting date.

Channel number is in parentheses, followed by national network affiliations and sales representatives, estimated sets in coverage area and station's highest one-time hourly rate.

Set figures are provided by stations. Queries on set figures should be directed to stations.

Asterisk (*): non-commercial outlet.

Dagger (†): not interconnected.

Data on station color equipment: N, equipped for network color; LS, local color slides; LF, local color film; LL, local live color.

CBS, GENERAL TELERADIO BUYS OPPOSED

CBS purchase of WGTH-AM-TV and General Teleradio's WEAT-AM-TV addition contested by local stations charging concentration of control. \$1 million involved in two deals.

TV STATION acquisitions by multiple owners CBS and General Teleradio Inc., totaling about \$1 million, were challenged before the FCC last week by local market stations that claimed the sales will result in concentration of control.

The sales involved are CBS' purchase of WGTH-AM-TV Hartford, Conn., from General Teleradio for \$650,000 [B \bullet T, July 11] and General Teleradio's purchase of WEAT-AM-TV West Palm Beach, Fla., from James R. and June H. Meachem for an aggregate \$300,000 [B \bullet T, Aug. 1].

Purchase by CBS of its second uhf outlet, ch. 18 WGTH-TV Hartford, Conn., was challenged by ch. 8 WNHC-TV New Haven, which said its position would be "jeopardized" if the sale is approved.

WNHC-TV asked that the sale be set for hearing. It said for the first seven months of 1955 about 23% of its broadcast time has been devoted to CBS programs with a "substantial portion" of its income derived from such revenues. WNHC-TV declared its advertising would be "jeopardized" if it loses these programs.

The New Haven station contended CBS acquisition of WGTH-TV would not "materially assist" in the development of uhf in the Hartford area. Hartford already has been largely converted (80%) without the assistance of CBS ownership, WNHC-TV declared.

WNHC-TV also claimed the purchase would violate the FCC's duopoly rule because, it said, there is an overlap in Grade B coverage between WGTH-TV and CBS-owned WCBS-TV New York. This overlap covers 306,100 people, WNHC-TV said, adding that if FCC's new rule goes through (permitting Zone I vhf stations to increase antenna heights and power) this overlap would include 746,100 people. The latter overlap is based on the assumption uhf WGTH-TV also will increase power to maximum 1 million watts.

WNHC-TV asked the FCC to determine if the CBS purchase violates multiple ownership rules and Commission policy against concentration of media of mass communication. The New Haven outlet also claimed there is a "serious question" as to CBS' qualifications as a licensee because of certain past affiliation contracts and asked the FCC to look into an agreement whereby WGTH-TV is prohibited from entering into an affiliation agreement with other networks without CBS consent.

WNHC-TV said the purchase violates the "Charlotte" provision of the Chain Broadcasting Rules that prohibits licensing of a station to a network where competition would be substantially restrained.

CBS acquired its first uhf outlet, ch. 19 WXIX (TV) Milwaukee, last October.

Request that the FCC set aside the sale of

Paraguay Calling

THE U. S. State Dept. is taking applications for a radio expert on international circuits to be sent to Paraguay for six months. The applicant should have a thorough knowledge of Spanish and must apply not later than Sept. 20. Salary: \$6,000-\$8,500 yearly plus \$7.15 daily subsistence allowance. Address all inquiries to: Francis Colt de Wolf, chief, Telecommunications Division, Dept. of State, Washington, D. C.

WEAT-AM-TV West Palm Beach to General Teleradio was made by ch. 21 WIRK-TV that city. WIRK-TV asked that the sale be designated for hearing, claiming it will be adversely affected by the transfer.

General Teleradio has purchased the stations from the Meachems for \$101,000 plus another \$200,000 in additional considerations. The transfer already has been approved by the FCC [B•T, Aug. 1].

With the West Palm Beach acquisition, WIRK-TV said, General Teleradio will have a "significant concentration of control of the media of mass communication." This concentration, the station added, has a "definite impact" upon network affiliations, national spot and local advertising.

WIRK-TV also charged there is no showing in the sale application as to the extent to which GT will incorporate its experience in the operation. The ch. 21 outlet also questioned the contract between GT and Mr. Meachem, who will be retained as general manager and re-

ceive a percentage of net sales and 10% of annual net profits. WIRK-TV asked whether payment of net profits to Mr. Meachem does not constitute a. "reversionary interest" in the station to him.

General Teleradio, in addition to WEAT-AM-TV and the pending WGTH-AM-TV sale, owns WNAC-AM-FM-TV Boston, WOR-AM-FM-TV New York, KHJ-AM-FM-TV Los Angeles, WHBQ-AM-TV Memphis and KFRC San Francisco.

WLEV-TV OPPOSES PA. TOLL TV TEST

Joint Committee on Toll Tv joins Bethlehem uhf in asking FCC to deny WFMZ-TV Allentown request to resume operation as a proving ground for subscription television.

PROPOSAL submitted to the FCC by uhf WFMZ-TV Allentown, Pa., that it be permitted to resume operation as a pilot station to see if subscription tv can work met with opposition last week by WLEV-TV Bethlehem, Pa., and the Joint Committee on Toll Television (committee against pay-as-you-see tv).

WFMZ-TV (ch. 67), which suspended operation last April, asked the FCC in late July to allow it to become a proving ground for pay tv on a three-year basis, carrying such service 56% of the time with the remainder devoted to normal tv service [B•T, Aug. 1].

WLEV-TV (ch. 51), serving the Allentown-Bethlehem-Easton area, told the FCC the

Something you should know about TV in Washington.D.C.

Without changing its current rates, WMAL-TV will boost its power to 252,000 watts this Fall and spark the new ABC-TV programs with the greatest promotion campaign ever conducted by a Washington TV station!

> Ask Katz about prime adjacencies for the Fall . . . at current rates on

Page 84 • September 5, 1955

1

proposal violates Commission policy and will "result in economic hardship . . . without compensating benefits to the public." The station noted it is presently operating at a "substantial" loss.

Chief issue raised is that the pay-tv request does not comply with basic Commission law and regulation and therefore should be dismissed.

WLEV-TV said the Allentown station is authorized to operate as a television broadcast station whose transmissions are "to be received by the public." Under WFMZ-TV's plan, 56% of its time will be devoted to transmitting private messages to subscribers.

The WFMZ-TV plan cannot be considered a request for an experimental broadcast authorization, WLEV-TV said, because Commission rules specify that such a station transmit for "reception and reproduction by the general public." The three-year request also is inconsistent with licensing requirements for experimental stations, WLEV-TV declared. because FCC rules state that such authorization may be cancelled at any time without notice.

WLEV-TV said the proposal does not include "required basic facts" but rather "fanciful and unsupported hopes and projections."

Although WFMZ-TV cites the types of pay tv programs that will be available, there is "no showing as to the source or wherewithal of the program material," WLEV-TV charged. Similarly, WLEV-TV said, WFMZ-TV fails to establish the source of funds for this project, although it refers to the use of "risk capital" and securing financial help from pay-tv proponents. WLEV-TV asserted that the Commission requires all applicants to show how its anticipated costs are to be met and to detail the names, degrees of interest and other pertinent information with respect to each person supplying funds.

The request also is deficient, WLEV-TV said, because it fails to detail the method of operation to be pursued, personnel, equipment and similar data.

WFMZ-TV's argument that this will provide a proving ground for pay tv overlooks the basic argument against pay tv, WLEV-TV said. Namely, the very success of pay-tv, that it can work technically and will provide desirable program material, will mean the "destruction" of free tv, WLEV-TV asserted.

Finally, WLEV-TV pointed out, if this lone operation were successful to any degree, it will seriously injure competitive stations.

The WFMZ-TV proposal fails as an experiment because it is localized in scope and area, the Bethlehem station said.

The Joint Committee on Toll Television asked the Commission not to act on the plan while the overall problem of subscription tv is still pending. Action on this issue would be a "premature determination" of the problem, the committee said. The Allentown pay tv request is similar to last November's petition of Zenith Radio Corp. for immediate authorization of pay tv on broadcast frequencies, the committee declared. It said the FCC denied this request and instituted rule-making proceedings.

Final replies on the pay tv rule-making are due Friday.

California Passes Law To Prohibit 'Bait' Ads

BAIT ADVERTISING will be prohibited in California by specific state law effective Wednesday.

The legislature has amended Sec. 17500 of its Business & Professions Code to include a provision which makes it illegal "for any such person, firm or corporation to make or disseminate, or cause to be so made or disseminated, any such statement as part of a plan or scheme with intent not to sell such personal property or services, professional or otherwise, so advertised at the price stated therein, or as so advertised."

Formerly, the prosecution of bait advertising cases were brought under the general laws relating to false advertising. Massachusetts was the first state to outlaw bait advertising and several others have since followed suit.

ILLEGAL BOOSTERS RAPPED BY SHAPP

Urges FCC take action to close tv reradiators in Northwest, says community antenna systems are the answer for fringe area viewers.

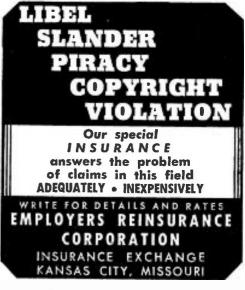

THE "continued operation of illegal reradiator transmitters in the Northwest is delaying the spread of television to fringe areas by legal means," Milton J. Shapp, president of Jerrold Electronics Corp., manufacturer of tv transmission equipment for fringe area reception, has warned in a letter to the FCC.

He asked the FCC to "take immediate action to close down 'illegal' television reradiators in the Northwest." Unless such operation is stopped, Mr. Shapp said, it will have a "chaotic effect upon the entire FCC allocation plan."

Mr. Shapp's letter, released Aug. 22, was mailed to FCC Chairman George C. McConnaughey and to Sen. Warren G. Magnuson (D-Wash.), chairman of the Senate Interstate & Foreign Commerce Committee. Sen Magnuson has asked the FCC for rule-making to extend tv to fringe areas and small communities. A number of the reflector systems have been erected in the senator's home state, Washington.

FCC monitors began picking up the reradiator operations last fall and issued notices. Boosters were padlocked, but the locks were broken and transmissions continued. In April, the FCC issued show cause orders to 23 persons in the Columbia River Valley in Washington State and hearings were held in May [B•T, June 6]. The defendants acknowledged the boosters were unlicensed, but said the FCC should in some way permit this kind of operation for communities without tv. The FCC has authorized certain types of boosters at Manson, Wash. [B•T, Jan. 17], and Coalinga, Calif. [B•T, June 6]. Mr. Shapp said in his letter that "eventually"

tv set owners in the areas where the reradiator

BROADCASTING • TELECASTING

systems are located will be "blackmailed" into financing the reradiators or the government will be asked to subsidize them. This "tv bootlegging," he said will "force to a halt the legitimate system of community antenna systems."

He said the FCC has expressed fear reradiators will cause interference with the station being boosted and with other tv stations on the same channel. He added that they can interfere with reception in neighboring communities and "cause havoc with aeronautical beacons."

Insisting he has "no business ax to grind," Mr. Shapp said community antenna systems are the only answer to proper fringe area reception because:

(1) Reradiators are financially unsound and deceptive: Although original construction cost is low, as maintenance and operating costs mount there is nothing to stop operators from making tv set owners contribute or do without tv, Mr. Shapp said.

(2) If the FCC tries to legalize reradiators, they would have to be converted to uhf so as not to interfere with other broadcasts. This would mean a heavy cost to tv set owners in conversions, he said.

(3) Community antenna systems are "properly financed." Mr. Shapp said \$4 million has been invested in 165 such systems in Washington, Idaho, Oregon and western Montana.

Sen. Henry Jackson (D-Wash.) has joined Sen, Magnuson in requests to the FCC to find a way to bring tv to fringe areas and small communities and Sen. Wayne Morse (D-Ore.) has praised Sen. Magnuson's efforts, calling present FCC rules a "stumbling block" to the type of stations needed in small communities in Oregon and elsewhere [B•T, Aug. 29].

WNDR Plans Appeal Of Court Decision

APPEAL from a federal district court decision dismissing a \$1,088,112 damage suit against the S. I. Newhouse electronic and newspaper interests in Syracuse (WSYR-AM-TV) will be filed, according to Arthur C. Kyle Jr., general manager of WNDR Syracuse, the plaintiff.

WNDR had sued the Newhouse interests in 1952, charging their Syracuse newspapers (*Herald-Journal, Post-Standard* and Sunday *Herald-American*) and the radio-tv stations had "unlawfully restrained and monopolized interstate commerce in the matter of dissemination of news and advertising." The suit charged the newspapers gave unfavorable publicity, or no publicity, to WNDR news while favoring WSYR. Package deals in advertising also were alleged.

Judge Stephen W. Brennan held that WNDR was not in direct competition with the newspapers, contending "the dissemination of news by a newspaper differs essentially from the news broadcast of a radio station. Likewise newspaper advertising differs from the advertising matters broadcast from a radio station."

The court found no monopoly in broadcasting during the time involved in the litigation, or any restraint of trade. As to the charge of "unfavorable publicity," the court doubted "if courts or juries would agree on a formula for the handling of news items. Editorial or news policy is not yet fashioned by the courts."

The competitive charges involving exchange of space and time within the Newhouse properties drew this comment from the court, "The allegations amount only to assertions that the three corporate defendants enjoy mutual advantages because of their relationship. That the same conditions exist in the case of many newspaper-owned stations is evident. That fact must be known to the federal licensing agency."

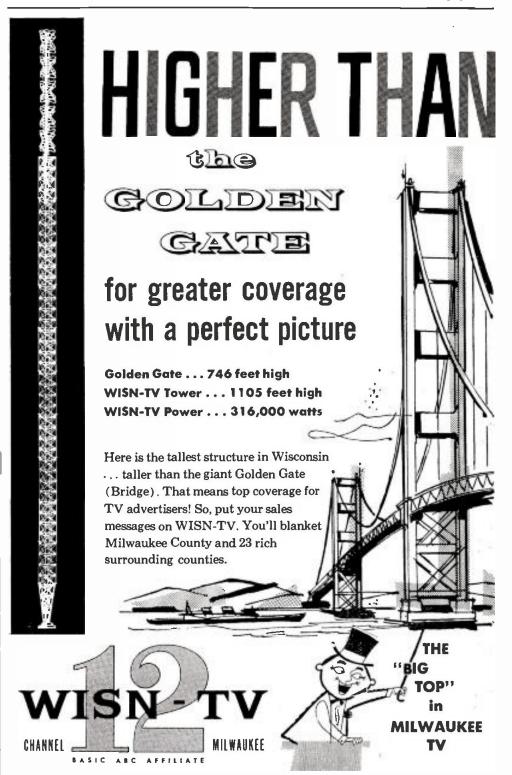

The court held the charge that advertisers were required to buy WSYR time to obtain newspaper space "has no basis in fact and cannot be supported by competent evidence."

WCHS-TV Application Protested by WHTN-TV

WHTN-TV Huntington, W. Va., last week opposed the application of ch. 8 WCHS-TV Charleston, W. Va., to move the latter's transmitter site closer to Huntington. Ch. 13 WHTN-TV, not yet on the air, also opposed the Charleston station's request for an increase in tower height to 1,218 ft. above average terrain.

WHTN-TV said it would be adversely affected by the grant because WCHS-TV allegedly seeks to establish itself as both a Huntington and Charleston station. The Huntington outlet requested that it be allowed to detail its objections before the Commission when the WCHS-TV application has been accepted.

WHTN-TV noted the application has not yet been accepted, presumably, it said, because the requested increase in tower height is in violation of existing Zone I requirements. The FCC has a new rule authorizing antenna heights of 1,250 ft. in Zone I, but this has been postponed until Oct. 1 (see story page 88).

Represented Nationally by Edward PETRY & Company, Inc.

ONLY FOUR REPLY TO 5,000 KW PLAN

A MEASURE proposed by the FCC to aid uhf —increase in maximum power from 1,000 kw to 5,000 kw—has evinced little enthusiasm from the industry with only three responses to the proposal up to Thursday, deadline for comments.

Those who answered were RCA, Zenith Radio Corp., Meredith Pub. Co. (KPHO-TV Phoenix, Ariz.; KCMO-TV Kansas City, Mo.; WHEN-TV Syracuse, N. Y.; WOW-TV Omaha, Neb.) and Jack Siegel, a radio engineer from Portsmouth, Va. RCA favored the proposal, Meredith and Mr. Siegel thought the proposal Meredith replied only to certain technical aspects of the plan.

RCA said it believes "the still higher power proposed by the Commission would result in improving coverage and service provided by uhf tv stations." The firm said it is continuing its intensive development work on higher power uhf tubes, circuits, filterplexers and antennas with a view to providing necessary equipment for uhfs to operate at higher power.

RCA added that early FCC approval of higher power and customer demand would accelerate the time when commercial models of such equipment would be available.

Efforts are being "pressed vigorously," RCA said, to develop a low-cost tube that will bring about an improved uhf tuner.

Meredith said that "until the Commission adopts an overall policy with respect to basic allocation problems, no uhf station will be

BMB "Meet the Artist"

BMI's series of program continuities, entitled "Meet the Artist," emphasizes the human side of our great music performers.

"Meet the Artist" comes to you as a 15-minute—threeper-week series of scripts highlighting behind the scenes glimpses into the music business... the stories of America's favorite musical personalities and their song hits. The material is factual, up-to-theminute and presented in an easy, informal style. Disc jockeys will enjoy using it listeners will appreciate hearing it.

"Meet the Artist" fills a special need in areas where such data is not easily available . . . highly commercial.

BROADCAST MUSIC, INC. 589 FIFTH AVE., NEW YORK 17, N.Y. HEW TORK - CHICAGO - HOLLTWOOD - TORDHTO - MONTREAL justified in embarking upon an expensive program looking toward increase in power above 1,000 kw."

Mr. Siegel said even though increased power may allow uhf to do the same job as vhf, increased power bills and tube costs will present difficult problems affecting competition. "In my opinion, a single band for television must be secured in order to correct the differences which now exist."

Zenith comments were submitted by J. E. Brown, assistant vice president and chief engineer. He said uhf continuous tuners tune about as easily as a radio receiver. Mr. Brown said the uhf channel strips provide "bulls-eye" tuning on uhf just as is accomplished in vhf. He added, "We do not expect that any increase in cost will be involved in improving receiver performance. We rather expect the cost will go down" in the light of improvements.

FCC Chairman George C. McConnaughey, in a letter to Mr. Siegel, said the power increase proposal "will not solve all uhf problems, but we hope it will add to a number of specific actions that we have taken which by their cumulative effect will be beneficial to the growth of tv within existing allocations system."

Opinions were expressed that the reason for the sparse comments on the power boost proposal was that it is too costly to do any good. One lawyer said uhf operators can't afford to eat bread and now they are expected to eat cake.

WALT, WINN File For Ownership Changes

WALT Tampa, Fla., WINN Louisville, Ky., and two other stations, filed for ownership changes with the FCC last Thursday. Sale of WVIM Vicksburg, Miss., for \$38,300, to John F. Shea also was announced last week, but this application has not yet been submitted to the Commission.

W. Walter Tison is selling WALT to Harold Kaye, who will own 511/3% of the station, and Emil J. Arnold, proposed 481/3% owner, for \$100,000. Sale of the station is in compliance with commitments Mr. Tison made before the FCC in hearings for ch. 13 WTVT (TV) Tampa, of which Mr. Tison is a 20% stockholder.

Mr. Kaye owns 50% of WMFJ Daytona Beach, Fla., 25% of WLOW Portsmouth, Va., and 25% of WORC Worcester, Mass. His wife also owns 25% of WORC. Mr. Arnold holds 50% of WMFJ and 25% of WLOW.

WINN Louisville, Ky., also is being sold to Mr. Kaye and associates for around \$100,000 [AT DEADLINE, July 4] by Kentucky Broadcasting Corp. of which Harry McTigue is president.

Sellers of WVIM, through station broker Paul H. Chapman, Atlanta, Ga., are J. Dige Bishop, Tracy B. Wilder, M. D. Taylor, Charles Dickson, and R. B. Anderson, all of Andalusia, Ala. Buyer Mr. Shea is chief engineer of WSGN Birmingham, Ala.

The other transfer applications filed were for KOLR Sterling, Colo., and WOND Pleasantville, N. J.

KLZ-FM Returns License

KLZ-FM Denver, on the air since 1945, has returned its license to FCC because of lack of audience. The fm station had gone off the air last June because of equipment difficulties. Since that time it has received only one inquiry concerning suspension. KLZ-FM conducted a survey and found complete lack of interest and virtually no audience. KLZ-AM-TV, owned by Time Inc., is affiliated with CBS.

TEMPERANCE GROUP AGAIN SCORES ADS

COMMITTEES of both the Senate and House will hold hearings on bills to outlaw alcoholic beverage advertising over radio and television, the 81st national convention of the Women's Christian Temperance Union was told last week at Long Beach, Calif.

Elizabeth A. Smart, of Washington, director of the WCTU legislation department, said the hearings have been promised by the Interstate and Foreign Commerce committees of both houses on the bills introduced in the first half of the current Congress by Sen. William Langer (R-N. D.) and Rep. Eugene Siler (R-Ky.).

Her report was followed by convention action adopting resolutions directing that steps be taken to outlaw alcoholic beverage advertising in interstate commerce.

Miss Smart reported to the convention that numerous national church, social and welfare organizations will again join in urging enactment of the Langer-Siler bills and she predicted that the congressional committees will be "more blunt and critical in their exploration of the advertising."

"Representatives of the alcoholic beverage industry have admitted frankly," Miss Smart said, "that consumption of liquor, wine, and beer would drop one-half were its advertising discontinued."

State WCTU presidents meeting during the convention voted to attend the hearings or send delegations to support the Langer and Siler bills.

Four New Am Stations, Three Fms Granted by FCC

FOUR NEW AM stations, three new fms and several facilities changes in existing stations were granted by the FCC last week.

Am grants made were:

• West Monroe, La., Howard E. Griffith, to operate on 1310 kc, 1 kw daytime. Mr. Griffith is 100% owner of KTLO Tallulah, La.

• Brunswick, Me., Westminster Broadcasting Co., to operate on 900 kc, 250 w daytime. Principals are Robert H. Strawbridge, Irene Strawbridge, Glenn H. Hilmer and Clifford Kemberling.

• Union City, Tenn., Obion County Broadcasting Co., to operate on 1580 kc, 250 w daytime. Fenner Heathcock, attorney, is sole owner.

• Welch, W. Va., Williamson Broadcasting Corp., to operate on 1340 kc, 100 w unlimited. Williamson owns WBTH Williamson, W. Va.

New fm grants made were:

• Claremont, Calif., Pomona College to operate on 90.7 mc with 10 w.

• Winchester, Mass., Winchester School Dept., to operate on 91.9 mc with 10 w.

• Portageville, Mo., The American Christian Broadcasting Co., to operate on 101.7 mc with 450 w and antenna height above average terrain of 66 ft. Principals are ministers W. A. Crim, L. A. Crim and A. M. Crim.

• WAJC (FM) Indianapolis, Ind., licensed to Butler U., was granted permission to change from a non-commercial educational fm station to a Class B station using 104.5 mc, 8.8 kw and an antenna 35 ft. above average terrain. Butler U. does not propose commercial operation.

Grants for changes in existing am facilities were made to:

• KXOA Sacramento, Calif.—change directional antenna day and night (DA-1) to directional antenna at night only (DA-N), from conB.T TELESTATUS

Color Tv Issue Hit In New Orleans Case

FCC's Broadcast Bureau last week held that color tv lacks "decisional significance" and therefore objected to the initial decision that recommended grant of ch. 4 at New Orleans to Times-Picayune (WTPS).

In submitting its exceptions to that decision, the Broadcast Bureau held that on the basis of the evidence in the proceeding any determination as to benefits to be accrued from WTPS' color programming proposals is "pure speculation."

The examiner favored WTPS over Loyola U. (WWL) and James A. Noe & Co. (WNOE New Orleans and KNOE-AM-TV Monroe, La.). Loyola and Noe, both questioning the color tv preference, already have submitted their objections [B•T, Aug. 29, 22].

WTPS was recommended on the basis of its color tv programming proposals and program proposals for outlying communities. The comparative hearing was between WTPS and Loyola. The examiner ruled out the Noe company because of failure to establish its financial qualifications. The Broadcast Bureau supported the latter finding.

The bureau asserted that there is no evidence in the record as to the number of color sets in New Orleans or any other evidence as to the economic basis of color production. In the light of this, the bureau said, there is no showing that color production would be feasible as an economically sound operation at any time in the "near future."

The bureau further held that "there is no showing as to the future of color set manufacture, as to when sets are likely to become available in quantity at a price which will permit a substantial demand."

As to the preference awarded WTPS for service to outlying communities, the Broadcast Bureau said "the significance of this difference is substantially reduced by the unreality of these programs from the standpoint of the communities involved."

The bureau also said the examiner "erred in her treatment of the issue of 'diversification of the media of mass communication'" and noted that Times-Picayune publishes two of the three daily papers in New Orleans, in addition to owning WTPS. Loyola, the bureau said, has interests in only one medium, WWL. WTPS a fortnight ago submitted a brief in favor of the examiner's decision [BoT, Aug. 19]. The Broadcast Bureau said it would participate in oral argument as requested by the parties to the proceeding.

Examiner William G. Butts Dies in Washington at 64

WILLIAM G. BUTTS, FCC hearing examiner since mid-August 1952, died last week at his Washington home. He was 64.

From 1929 to 1934 Mr. Butts was an examiner with the Interstate Commerce Commission and in 1933-34 was a member of the staff which investigated communication companies at the request of Congress. He was chief of the Rates & Tariffs Div. of the then Accounting Dept. from 1934 until 1950 when he was named chief of the Tariffs & Rate Classification Branch, Common Carrier Bureau Telephone Div. In 1938 Mr. Butts served as a technical adviser to the U. S. delegation to the International Radio Conference at Cairo, Egypt.

He is survived by his widow and a sister, Mrs. O. E. Lockart, St. Joseph, Mo. Services and burial were held in Dearborn, Mo., last Thursday.

Channel Shift Proposals Set for Oct. 7 Comments

COMMENTS on three proposals by stations to shift tv channel assignments were called for Oct. 7 last week by the FCC. At the same time, two other stations took actions involving channel moves.

Comments called for involved:

• WKST-TV New Castle, Pa., request that its ch. 45 assignment be designated a Youngstown, Ohio, channel, by three alternative methods. Affected stations are ordered to show why their authorizations should not be modified: WTVQ (TV) Pittsburgh from ch. 47 to ch. 22, and WLTV (TV) Wheeling, W. Va., from ch. 51 to ch. 22.

• Conflicting proposals by Aaron B. Robinson to shift ch. 6 from Clarksdale, Miss., to Indianola, Miss., and assign ch. 44 to Clarksdale; by WABG Greenwood, Miss., to move Clarksdale's ch. 6 to Greenwood, and by WLBT (TV) Jackson, Miss., to shift Clarksdale's ch. 6 to Cleveland-Ruleville, Miss. Mr. Robinson owns six am stations plus WDXI-TV Jackson, Tenn., and has pending before FCC the sale of WDXL Lexington, Tenn. [B•T, Aug. 22].

• Proposal by KSVP Artesia, N. M., to delete ch. 10 from Roswell and add it to Artesia.

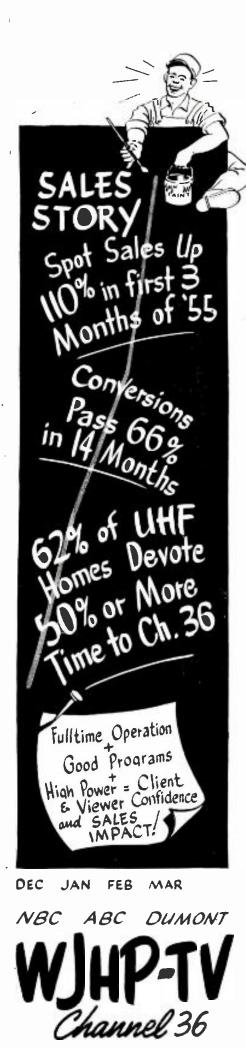

In other channel move actions, the Commission was notified that Eugene F. O'Fallon, former owner of KFEL-TV Denver, now has under preparation application for ch. 3 at Pueblo, Colo., and therefore he opposes request of KCSJ-TV Pueblo to shift ch. 3 to Alamosa, Colo.

WOBS-TV Jacksonville, Fla., supplemented an earlier channel shift petition by requesting that ch. 8 be assigned to Brunswick, Ga. The earlier petition asked partial de-intermixture of Jacksonville by changing educational reservation from ch. 7 to ch. 12, moving ch. 7 to Savannah, Ga., and allocating chs. 46, 52 and 58 to Jacksonville (see separate story, page 89). WOBS-TV has been assigned ch. 30 but is not yet on the air.

FCC Holds Up Rule On Vhf Tower Boosts

THE EFFECTIVE date of FCC's new rule increasing antenna heights of vhf stations in Zone I (middle and northeast Atlantic states) from 1,000 ft. to 1,250 ft., with maximum power, was postponed last week to Oct. 1. Commission action followed a series of objections that included a protest meeting in New York last week of small market tv stations [B \bullet T, Aug. 29].

The new rule was to become effective last Wednesday but the FCC asked for additional time to consider the recent filings.

Biggest development occurred in New York where it is reported a dozen stations met to take action against the rule. The group elected temporary officers and agreed to hold a second meeting there on Sept. 13. It also gave itself a name, Home Town Television.

Temporary officers are Philip Merryman, WICC-TV Bridgeport, Conn., chairman, and Edward Taddei, WNHC-TV New Haven, secretary. Other prime movers in the project are Aldo De Dominicus, WNHC-TV, and Harold Thomas, WATR-TV Waterbury, Conn.

Governors of Massachusetts, Connecticut, New Jersey and Pennsylvania are expected to be contacted prior to the next meeting.

The Zone \tilde{I} controversy also elicited further pro and con comments before the FCC last week.

Uhf stations in Massachusetts, Illinois, Pennsylvania and Connecticut asked the Commission to set aside the new rule last week and schedule oral argument. The stations are WMGT (TV) Pittsfield, and WWLP (TV) Springfield, Mass.; WICS (TV) Springfield, Ill.; WNOW-TV York and WCMB-TV Harrisburg, Pa., and WICC-TV Bridgeport, Conn.

The harmful effects of vhf-uhf intermixture would be greatly aggravated by the new rule, the uhf stations said, adding the new rule casts "serious doubt upon the sincerity" of the Commission's expressions favoring uhf.

Favoring the proposal and opposing the petition for reconsideration of WNHC-TV [B•T, Aug. 29] are Sarkes Tarzian Inc. (WTTV [TV] Bloomington, Ind.) and WBEN-TV Buffalo, N. Y. They contended that if co-channel interference from New York stations would result, as WNHC-TV has charged, the latter station can demand a hearing on the individual applications for power changes by the New York outlets. Tarzian said a general hearing would require much time and expense and the problems of the parties involved are not similar.

WBEN-TV also opposed requests for postponement of the rule by the Air Transportation Assn. and Thomas P. Pike, Assistant Secretary of Defense. The latter groups asked that the new rule be postponed until the recommendations of the Air Coordinating Committee, concerning hazards of tall towers, are submitted. WBEN-TV said these requests have the effect of postponing indefinitely the rendering of additional services to "many thousands" of people in Zone I to whom service can be improved.

Six Transfers of Control Involve \$990,000-Plus

SIX TRANSFERS of control, with a total monetary consideration of over \$990.000, were granted by the FCC last Wednesday. Grants were made to:

• WTRY Troy, N. Y. [B•T. July 25], for assignment of license to Tri-City Radio Inc. for \$500,000. Principals in Tri-City are C. George Taylor, who holds an option to buy 6.5% of WPRO-TV Providence, R. I.; Robert T. Engles, 25.5% owner of WORC Worcester, Mass., and holder of a similar WPRO-TV stock option; Kenneth M. Cooper WORC general manager, and Mowry Lowe, former WEAN Providence general manager.

• KALB-AM-FM-TV Alexandria, La., for transfer of control from W. H. Allen to T. B. Lanford who is buying 52% for \$200,000 and will own 99.2% of the stations.

• KHAS-TV Hastings, Neb., for assignment of permit to Nebraska Television Corp., of which Seaton Publishing Co., present station owner, holds 52.7% interest with the remainder to be sold to over 100 local residents for about \$125,000.

•WOIC Columbia, S. C., for assignment of license to Speidel-Fisher Broadcasting Corp. for \$100,000.

• WBHB Fitzgerald, Ga., for transfer of control from Otto Griner to H. C. Vaughn and Paul E. Reid for \$50,000. Mr. Reid is WBHB commercial manager.

• WMIN-AM-FM St. Paul, Minn., for acquisition of control by William F. Johns Sr., 19% stockholder before this grant, who is buying 61% of the station from Ralph R. Kriesel and Charles Anderson for \$15,250. Mr. John is 9% owner of WSPT Stevens Point, Wis., 70% owner of WSPT Stillwater, Minn., and controls 70% of WOSH Oshkosh, Wis., and 13% of KMNS Sioux City, Iowa.

Five Tv Applications Submitted to FCC

FIVE NEW TV applications were filed with the FCC last week. Three of them were submitted by Video Independent Theatres Inc. for lowpower vhf outlets. The other two were a uhf in Youngstown, Ohio, and a vhf in Puerto Rico.

Video, owner of 140 movie houses in Texas and Oklahoma, applied for:

• Hot Springs, Ark., ch. 9. Requested were 61 w visual effective radiated power and 30 w aural. Estimated construction cost was \$37,822.

• Santa Fe, N.M., ch. 2 with ERP of 178 w visual, 89 w aural and antenna height 208 ft. above average terrain. Video estimates the station will cost \$40,322 to build.

• Clovis, N.M., ch. 12 and ERP of 185 w visual, 92 w aural and an antenna 184.5 ft. above average terrain. Estimated construction cost was set at \$38,822.

Video has petitions pending to amend the tv allocations plan so that ch. 9 will be available in Hobbs, N.M., and ch. 8 in Elk City, Okla. [AT DEADLINE, Aug. 15]. The organization has 12½% interest in KWTV (TV) Oklahoma City, Okla. C. B. Akers, one of the company's principals, holds about 2% interest in KVOO-TV Tulsa, Okla., and is 5.267% owner of KGLC Miami, Okla.

In Youngstown, Ohio, Sanford A. Schafitz, owner of 500 w daytimer WFAR Farrell, Pa., and banker Guy W. Gully applied for ch. 73. ERP of 17.9 kw visual and 10.7 kw aural with the antenna 316.9 ft. above average terrain were asked. The applicants set initial cost at \$72,-500, the first year operating cost at \$100,000 and revenue for the first year also at \$100,000. Caribbean Broadcasting Corp., licensee of WCMN Arecibo, Puerto Rico, applied for ch. 13 there to operate with ERP of 10.2 kw visual, 6.1 kw aural and with antenna 74 ft. above average terrain. The applicant has estimated construction cost at \$79,000; first year operating cost at \$50,000, and first year revenue at \$75,000.

JACKSONVILLE.

FLORIDA

FCC Sets Hearings, **Considers Rule Making**

HEARINGS were designated, rule making finalized and proposed, and oral arguments sched-uled by the FCC last week in a number of pending am, fm, and tv cases.

WESH-TV Daytona Beach, Fla., is being advised its application to change transmitter location from one-half mile north of the city limits to a point about 22 miles southwest of Daytona Beach in the direction of Orlando, Fla., increase effective radiated power from 1.26 kw visual, 759 kw aural to 100 kw visual. 66.4 kw aural and increase antenna height from 320 ft. to 950.5 ft., indicates necessity of a hearing.

Designated for hearing were:

• Citizens Broadcasting Co., Terre Haute, Ind., applicant for a new am on 1350 kc, 500 w daytime. WIOU Kokomo, Ind., was made a party to the proceeding.

• Radio Broadcasting Service and Dana W. Adams, competing for daytime operation on 1330 kc in Tyler, Tex. Radio Broadcasting is seeking 1 kw and Mr. Adams 500 w. KAND Corsicana and KSWA Graham were made parties to the hearing.

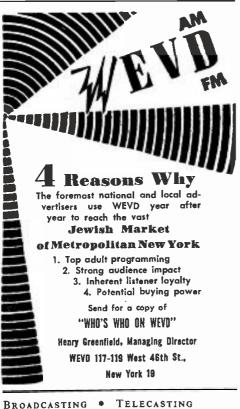

• WLAQ Rome, Ga., seeking renewal of license and transfer of control from Jane F. Mooney, B. H. Mooney Jr., and J. F. Mann, co-executors of the estate of the late B. H. Mooney, to Burgett H. Mooney Jr.

• American Colonial Broadcasting Corp. and Supreme Broadcasting Co., both Caguas, Puerto Rico, seeking tv ch. 11 there.

Oral arguments have been set for Sept. 26 in the following cases:

• KGUL-TV Galveston, Tex., ch. 11, to change its transmitter site to a point about 24 miles from Houston and 27 miles from Galveston, with effective radiated power of 261 kw visual, 131 kw aural, antenna height above average terrain of 1,185 ft.

• Appalachian Broadcasting Corp. and Tri-Cities Television Corp. for a new tv to operate on ch. 5 in Bristol, Va., and Bristol, Tenn.,

respectively.

• Granite State Broadcasting Co. (WDNH) for a new am station to operate on 1270 kc, with 5 kw unlimited hours in Dover, N. H.

The Commission amended the fm allocation table by assigning ch. 234 to Mayfield, Ky., for use by the West Kentucky Broadcasting Co. which was granted a construction permit in June for a new Class B fm outlet there conditioned to finalizing this assignment.

A deadline of Sept. 30 was set for comments to the proposed rule making to amend the allocation table for Class B fm stations to delete ch. 270 from Clarksville, Tenn., and add it to Central City, Ky., and replace ch. 273 with ch. 291 in Evansville, Ind.

WHUM-TV Asks Hearing, Protests WLBR-TV Sale

THE PURCHASE of ch. 15 WLBR-TV Lebanon, Pa., by Triangle Publications Inc., under contention by uhf stations in Harrisburg [B•T, Aug. 22], last week was challenged by ch. 61 WHUM-TV Reading, Pa.

The Reading uhf asked the FCC to designate the sale for hearing, claiming if FCC approval is given "serious and perhaps fatal, economic injury" will result.

Although it has sustained heavy losses since start of operations in February 1953, WHUM-TV said, it has continued to improve facilities and render "excellent broadcast service."

WHUM-TV charged that the Grade B contour of Triangle's Philadelphia station, ch. 6 WFIL-TV, overlaps both the A and B contours of WLBR-TV and also encompasses Reading. The Reading station pointed out it will be direct competition with WLBR-TV, noting it has accounts in Lebanon which it said is less than 30 miles away.

If the sale is approved, WHUM-TV said, Tri-angle will be able to offer WLBR-TV as a bonus to WFIL-TV.

A question raised by WHUM-TV is whether grant of the sale application will encourage diverse ownership of all media of mass communication. WHUM-TV said Triangle has other media interests which are distributed in the Philadelphia, Reading and Lebanon area, noting that Triangle publishes the Philadelphia Inquirer, Seventeen magazine, Screen Guide, Official Detective Stories, the Morning Telegraph, Tv Guide and the Daily Racing Form.

WHUM-TV said the FCC should look into possible concentration of tv interests by Triangle. The Reading station said Triangle, in addition to WFIL-TV, owns ch. 12 WNBF-TV Binghamton, N. Y., and has applied for ch. 18 at Elmira, N. Y., to be used as a satellite of WNBF-TV. WHUM-TV also noted announcement of Triangle's purchase of ch. 10 WFBG-TV Altoona, Pa.

Educational Applicant Hits Jacksonville Switch Requests

EDUCATIONAL Television Inc., applicant for educational ch. 7 in Jacksonville, Fla., has opposed the requests by WJHP-TV that city and WLBE Leesburg to amend Jacksonville's educational reservation.

WJHP-TV, operating on ch. 36, has offered the Board of Public Instruction of Duval County facilities costing about \$550,000 if the board would agree to move to the higher channel and make ch. 7 available for commercial use. The board last month asked the FCC to approve this channel switch [BoT, Aug. 22].

To this proposal, Educational Television Inc. told the FCC the uhf channel is "no more desirable for educational than commercial" use,

Want a "sell-out" audience for your TV dollars? Then, it's time for a quick-change to WJAC-TV, the 7 station with a buyingminded audience in 3 Southwestern Pennsylvania markets! Hooper rates WJAC-TV:

> FIRST in Johnstown (a 2-station market)

SECOND in Pittsburgh (a 3-station market)

FIRST in Altoona (a 2-station market)

"Just the ticket" for sure sales is this 1 buy that covers 3 . . .

adding the Duval County board "unwittingly accepted" the WJHP-TV offer in spite of the fact all other educational and religious groups in the community through their membership in Educational Television Inc., have turned down the proposal.

WLBE Leesburg also has asked the FCC to switch the Jacksonville ch. 7 to Leesburg and make it available for commercial use. [B•T, Aug. 15]. Educational Television Inc. asserted it is an applicant for this assignment and that all it lacks to get a grant is "commitments for operating funds." It has enough to construct, the group said.

First Tv Permit Revoked; FCC Acts Against WSHA (TV)

IN THE FIRST action of its kind the FCC last week revoked the construction permit of a tv station. The station, WSHA (TV) Sharon, Pa., uhf ch. 39, whose cp had been granted in January 1954, was wholly owned by Leonard J. Shafitz and had never been on the air.

Last November [B•T, Nov. 8, 1954] the FCC requested additional financial data from Mr. Shafitz but he failed to respond and in January returned his permit to the Commission to be deleted [B•T, Jan. 10].

Almost simultaneously, his brother, Sanford A. Schafitz, filed for the same channel and transmitter site as 50% owner of Community Telecasting Co. This application was returned by the Commission in April because it was not in order since the ch. 39 deletion had not taken place before Sanford A. Schafitz filed.

In its decision last week the FCC revoked the WSHA (TV) permit even though it had been surrendered.

Leonard Shafitz has been commercial manager of WFAR Farrell, Pa., 100% owned by his brother, who is 50% owner of an applicant for a new am station in Lorain, Ohio, and a uhf station in Youngstown, Ohio.

Battle Creek Uhf Quits

WBCK-TV Battle Creek, Mich., ch. 58, surrendered its construction permit to the FCC last week, effective Sept. 1, when it expired. Robert H. Holmes, president of the permittee firm, Michigan Broadcasting Co., told the Commission, "Uhf appears totally impractical in our area," because of vhf competition. WBCK-TV is the 150th tv to be deleted and the 120th commercial uhf to quit.

KTVX (TV) License Granted Despite Tulsa Tv Protests

CHARGES that KTVX (TV) Muskogee, Okla., is misrepresenting itself as a Tulsa station were dismissed by the FCC last week and the station's application for license was granted.

In granting the license, however, the FCC said some question exists as to certain past violations of KTVX along with inaccurate claims as to facilities and coverage. Future operations of KTVX will be reviewed in the light of these practices, the FCC said.

Stations raising protests and asking for a cease-and-desist order directed against KTVX were KOTV (TV) and KVOO-TV Tulsa [B•T, April 4].

The FCC held that "while a station must obviously give primary consideration in its programming to the specific community it is licensed to serve, it must also give consideration to other listeners in the general area in which its signal is received. The preparation and distribution of advertising and promotional material geared to such service is not, in and of itself, objectionable."

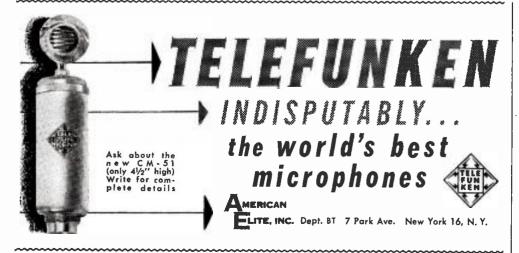

KTVX admitted that it failed to comply with the station identification rule, but has given the FCC assurance this practice has ceased. KOTV and KVOO-TV had charged that KTVX was emitting mention of its location in Muskogee in station identifications.

AB-PT Appeals Decision For KOB Use of 770 Kc

AMERICAN Broadcasting-Paramount Theatres Inc. (ABC) last week appealed to the U. S. Court of Appeals (D. C.) from an Aug. 1 FCC decision extending KOB Albuquerque's special authority to operate on 770 kc with 50 kw day and 25 kw night [B•T, Aug. 8].

ABC, which operates WABC New York, licensed for 770 kc with 50 kw unlimited, asked that the court review FCC proceedings upon which the Aug. 1 action was taken, adjudicate the action invalid and set it aside. ABC also asked that the court compel compliance with the court's own 1951 action remanding the longstanding case to the FCC, compel "agency action unlawfully withheld and unreasonably delayed," and order KOB returned from 770 kc to its "licensed frequency of 1030 kc."

The Aug. 1 FCC decision was made after a Commission hearing on ABC's Sec. 309 (c) "economic protest" against KOB's 1952 application for special authority to operate on 770 kc: KOB has operated on 770 kc since 1941 under

Page 90 • September 5, 1955

extensions of special authority, but has been regularly licensed on 1030 kc.

KOB originally was licensed on 1180 kc, but that frequency was deleted by the North American Regional Broadcasting Agreement in 1941, upon which the station was shifted to 1030 kc. This met objections from WBZ Boston, also on 1030 kc, and the FCC moved KOB to 770 kc. In its Aug. 1 decision, by a vote of 3-2, the FCC weighed theoretical KOB operation on each frequency and decided that fewer people would be deprived of primary service with KOB on 770 kc.

Among reasons cited by ABC for its appeal: The FCC's actions on Aug. 1 are "erroneous, arbitrary, capricious and unlawful," ignore the Communications Act, violate the court's 1951 mandate and contravene FCC rules and policies.

KNAC-TV Transfer Opposed On 'Trafficking' Charge

TRANSFER of control of ch. 5 KNAC-TV Fort Smith, Ark., should not be approved because of apparent trafficking in construction permit, FCC's Broadcast Bureau recommended last week.

The ch. 5 assignment was granted in July 1954 to American Television Co. (H. S. Nakdimen) after applicant George T. Heinreich agreed to withdraw following a merger agreement. The agreement to sell KNAC-TV to Donald W. Reynolds' Southwestern Publishing Co. involved payment of \$50,000 for the permit and payment of \$35,000 each to Messrs. Nakdimen and Heinreich over a period of seven years for an agreement not to re-enter broadcasting in the Fort Smith area.

Mr. Reynolds operates ch. 22 KFSA-TV Fort Smith. He will surrender this permit if the sale is approved.

The Broadcast Bureau concluded that the monetary consideration involved is excessive and constitutes "trafficking in permit."

KNAC-TV last week held that the consideration paid is a reasonable payment for the time and effort expended by Messrs. Nakdimen and Heinreich. The station concluded the consideration in no way implies an intention to derive a profit from the procurement of a permit rather than to use the permit in the public interest.

FCC Denies Protests To WMFJ Purchase

PROTESTS by Theodore Granik and William H. Cook against the sale of WMFJ Daytona Beach, Fla., by W. Wright Esch to Harold Kaye and Emile J. Arnold were denied last week by the FCC.

The sale was approved by the FCC last June $[B\bullet T, July 4]$.

Messrs. Granik and Cook had charged they had entered into an option agreement with Mr. Esch to buy WMFJ and permit for ch. 2 at Daytona Beach, but that the latter refused to consummate the agreement. The protestants also took the case to the Volusia County (Fla.) Circuit Court asking the court to force sale of the station to them. The court has denied the plea, maintaining the allegations were insufficient [B•T, Aug. 22].

The Commission ruled last week that Messrs. Granik and Cook are not "aggrieved" or "adversely affected" by the transaction as they have contended. The FCC also held that the Florida court has jurisdiction to determine the contractual rights of the parties.

Messrs. Granik and Cook are principals in ch. 5 WJNO-TV West Palm Beach.

INDUSTRY READIES FOR RADIO-TV WEEK

RETMA'S Secrest tells Franchised Appliance Dealers of Atlanta that momentum created by Sept. 18-24 observance will carry on through the fall and winter; predicts 1955 sales of 7.5 million tv sets, 12.3 million radios; sees no deterrent effect from color tv.

NEW radio and tv set sales records are possible as a result of intensive promotion during National Radio & Television Week, Sept. 18-24, according to James D. Secrest, executive vice president of Radio-Electronics-Tv Mfrs. Assn. Addressing the Franchised Appliance Dealers Assn. of Atlanta last week, he predicted possible 1955 sales of 7.5 million tv sets and 12.3 million radios.

Promotion plans for the annual radio-tv observance moved forward last week as American Women in Radio & Television enlisted its 1,150 members in the project. Jane Dalton, WSPA Spartanburg, S. C., AWRT president, said AWRT's industry information committee has sent out a kit of spot announcements to be used in sponsored and sustaining programs broadcast by association members in all parts of the nation. Fran Riley, assistant publicity-information manager of NARTB, is chairman of the AWRT committee.

Other cooperating associations are NARTB, National Appliance & Radio-Tv Dealers Assn., National Electrical Dealers Assn., Radio Advertising Bureau and Television Bureau of Advertising.

In his Atlanta address, Mr. Secrest said possible sale of 7.5 million tv sets would surpass the 7.4 million sold last year. "More radios may move into the hands of the consumer this year than during any of the past five or so years," he said, recalling the record year was 1947 when 20 million radios were sold.

Momentum Created

"No one expects that the benefits of National Radio & Television Week will all materialize and expire by Sept. 24," he added. "We believe that the momentum created will carry on through the fall and early winter." He said new merchandise with new sales appeals will be introduced, with many manufacturers having completely redesigned their tv receivers.

"One of every five tv sets sold this year has gone to a second-set customer. As this trend is rising, the ratio is expected to be one out of three by the end of the year. There are still 15 million families in the country who haven't bought their first television receiver. Most of these are in the range of one or more tv stations."

As to color tv, Mr. Secrest said, "I can tell you honestly that the industry is unanimous in the opinion that it will have little or no deterrent effect this year. I should in all honesty add that is about the only thing about color tv on which there is such a unanimity of opinion.

"You will hear a lot about color television this fall and winter. An increasing number of outstanding color television programs will be broadcast by the networks, and more color tv sets will be on display. The alert dealer will capitalize on these facts and use color tv as a drawing card. Despite the present high price in comparision with black-and-white sets there will be a market for color receivers once color broadcasts become a regular feature on tv."

RAB last week sent out a fact sheet for use by local radio station salesmen, listing current co-op policies of leading set manufacturers and their plans for radio week promotions. Every radio-appliance store is a business prospect during the week, it was explained.

"Surge of dealer-distributor demand" for radio-tv week display material has resulted in more than doubling the production schedule of *Life* magazine, preparing point-of-sale material, according to Julius Haber, RCA chairman of RETMA's radio-tv week committee. He said:

'Week' Spreads

"We have been surprised and delighted at the continuing demand for the display material and the newspaper supplement, and we have reason to believe National Radio & Television Week will be more widely observed this year by more dealers than at any time since this industry celebration was inaugurated jointly by RETMA and NARTB over a decade ago.

"Widespread interest throughout the nation indicates that millions of people will be made aware of the 1956 television, radio and phonograph lines as well as the new and better radio and tv programs during the observance of this all-industry week."

NARDA has formed regional committees in approximately 100 major market areas to assure success of the program. These committees, headed by local dealers, distributors or broadcasters, have scheduled more than a score of banquets to launch the week's observance.

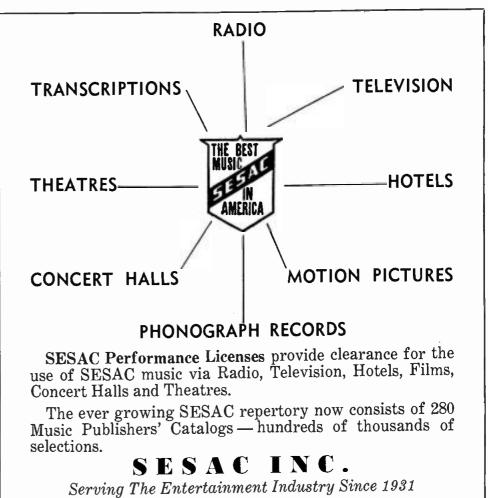

L. A. Stations Are Joiners

SOUTHERN California Broadcasters Assn. has announced the signing of KBLA Burbank, Calif., bringing the Los Angeles area membership to 100% with a total of 26 am stations and two fm stations. SCBA now has 52 stations in nine southern counties of the state and is working on a sales presentation, "Southern California, Unusual Radio Market," to be shown to eastern agencies in October.

Men's Wear Retailers Series Completely Sold Out by RAB

A MAIL SERIES to members on men's wear retailers has been completely sold out, Radio Advertising Bureau reported last week. The sixmailing series will be directed at men's wear retailers by radio outlets throughout the nation on the eve of the industry's efforts to widen its market through a national advertising effort, RAB said.

The series is the third of RAB-created direct mailing projects which were sold out, Warren Boorom, director of RAB's local promotion, said. The other two series, mailed last winter, were directed at supermarkets and auto dealers, and sold radio schedules to more than half of the retailers who received them, RAB asserted.

475 FIFTH AVENUE

NEW YORK 17

AP RADIO-TV UNIT ELECTS DIRECTORS

New organization takes over from original AP Radio Committee, encompasses television. Board to meet Sept. 19.

WINNERS in balloting for nine new directors of the Associated Press Radio & Television Assn. were announced last Thursday. They join the seven members of the original AP Radio Committee, forerunner of the APRTA, who were carried over as nucleus directors of the new nationwide organization.

First meeting of the 16-man board is slated Sept. 19 at the AP general office in New York. Les Mawhinney of KHJ Los Angeles, who headed the AP Radio Committee, is president pro tem.

With its membership completed in the elections announced last week, the board consists of four members from each of four geographical districts, and the four from each district represent four different categories of broadcasting. By category, the 1955-56 board is composed of the following (with winners in the elections listed first in each case and with carry-overs from the AP Radio Committee shown in parentheses):

Radio stations less than 1 kw—Albert Larson Jr., WALL Middletown, N. Y.; John A. Engelbrecht, WIKY Evansville, Ind.; H. J. Chandler, KFLW Klamath Falls, Ore.; (Matt Bonebrake, KOCY Oklahoma City).

Radio stations 1 kw through 10 kw—Duane Hatch, WSAV Savannah, Ga.; Lee Lindow, WFDF Flint, Mich.; (Les Mawhinney, KHJ,

Something you should know about TV in Washington.D.C.

Without changing its current rates. WMAL-TV will boost its power to 252,000 watts this Fall and spark the new ABC-TV programs with the greatest promotion campaign ever conducted by a Washington TV station!

> Ask Katz about prime adjacencies for the Fall . . . at current rates on

and Daniel W. Kops, WAVZ New Haven, Conn.).

Radio stations more than 10 kw—Jack Knell, WBT Charlotte, N. C.; James H. Connolly, KGO San Francisco; (Tom Eaton, WTIC Hartford, Conn.; Jack Shelley, WHO Des Moines).

Television stations—Ted Jaffee, WAAM (TV) Baltimore; Pat Cullen, KHQ-TV Spokane; (Joe H. Bryant, KCBD-TV Lubbock, Tex.; Jack Krueger, WTMJ-TV Milwaukee).

This will be the first full year of formal organization for APRTA. Accordingly, the new directors will serve for staggered terms; each district will elect one new director, beginning next year.

Voting for the candidates for the new directorships was conducted by mail among AP radio member stations. Balloting closed Aug. 28. Results were verified by a special elections committee composed of Ralph Weil, WOV New York; Anthony Marano, WCTC New Brunswick, N. J., and Lansing Christman, WGY Schenectady, N. Y.

Farm Radio Workshops Set For 8 NARTB Regional Meets

FARM radio workshops will be held during each of the eight NARTB Regional Conferences to be held starting Sept. 19 and winding up Nov. 17. The workshops will be a feature of the opening Radio Day portions of the conferences.

Farm directors speaking at the meetings follow: Sept. 19-21, Chicago, Jack Jackson, KCMO Kansas City; Sept. 22-24, Saranac Inn, N. Y., Bob Miller, WLW Cincinnati; Sept. 28-30, New Orleans, Frank Atwood, WTIC Hartford; Oct. 12-14, Roanoke, Va., Phil Alampi, WRCA New York; Oct. 24-26, San Francisco, Mal Hansen, WOW Omaha; Nov. 1-3, Colorado Springs, Jack Timmons, KWHK Hutchinson, Kan.; Nov. 7-9, Des Moines, John McDonald, WSM Nashville; Nov. 15-17, Dallas, Herb Plambeck, WHO Des Moines.

N. Y. State Broadcasters Schedule Sept. 23 Meet

ANNUAL MEETING of the New York State Assn. of Radio & Television Broadcasters will be held Sept. 23 at Saranac Inn, N. Y., starting at 3 p.m., Mike Hanna of WHCU Ithaca, president of the association, announced last week.

The agenda includes annual election of officers and a regular business session, followed by a short address by FCC Comr. Robert Bartley, who also will answer questions put by the broadcasters.

Mr. Hanna urged all association members to attend and invited non-member radio and tv stations to send representatives. Reservations may be made by contacting Mr. Hanna at WHCU.

Radio-Tv Women Start Drive

MEMBERSHIP drive designed to bring the rolls of American Women in Radio & Television from 1,150 to 1,300 by Nov. 1 has been started under direction of Edythe Fern Melrose, WXYZ-AM-TV Detroit, and Jane Dalton, WSPA Spartanburg, S. C., AWRT president. Miss Melrose is AWRT membership committee chairman.

Miss Dalton predicted AWRT membership will reach 2,000 in the not-too-distant future, in line with expansion of tv and radio. AWRT includes professional, creative women in all phases of radio-tv management and programming roles. AWRT was organized in 1951. It has its own code of ethics and subscribes to NARTB's radio and tv codes. There are 24 local chapters.

NARTB Tv Code Review Board To Discuss Kefauver Report

COMMENTS on tv programming and juvenile delinquency, presented in the special report of the Senate Juvenile Delinquency Subcommittee [BoT, Aug. 29] headed by Sen. Estes Kefauver (D-Tenn.), will be reviewed Thursday-Friday by the NARTB Television Code Review Board, meeting at NARTB Washington headquarters.

G. Richard Shafto, WIS-TV Columbia, S. C., will preside for the first time as chairman of the code board. Other problems to be considered by the board include films of programs involving potential violations of code provisions.

Attending the meeting, besides Chairman Shafto, will be the other four members: William B. Quarton, WMT-TV Cedar Rapids, Ia., vice chairman; Mrs. Hugh M. McClung, KHSL-TV Chico, Calif.; Roger W. Clipp, WFIL-TV Philadelphia, and Richard A. Borel, WBNS-TV Columbus, Ohio. John E. Fetzer, head of the Fetzer stations and former chairman of the board, will attend in his role as advisor.

Edward H. Bronson, director of tv code affairs, and Charles S. Cady, his assistant, will report on code promotion, field trips, monitoring and plans for participation in the approaching NARTB regional meetings starting Sept. 19. A code workshop session will be held at each of the eight regional sessions, conducted by Mr. Bronson.

Lee to Address Engineers

FCC COMR. ROBERT E. LEE is scheduled to address a banquet gathering of the sixth annual meeting of the Institute of Radio Engineers Professional Group on Vehicular Communications, meeting at the Multnomah Hotel, Portland, Ore., Sept. 26-27. Edward A. Allen, FCC chief engineer, will deliver a technical paper at the meeting.

N. Y. Women Elect Barton

JANE BARTON, program director, New York State Motion Picture Bureau, has been elected president of the newly-formed Capitol District Chapter of the American Women in Radio & Television. Also elected were Elaine Drooz, women's program director, WPTR Albany, N. Y., as vice president and Jeanette Eddy, women's editor WSPN Saratoga Springs, N. Y., as secretary-treasurer.

"Now that KRIZ Phoenix has announced a lay-away plan for undertakers, I'm about to croak."

MCA-TV Sales Expands; 3 New V.P.'s Named

A NEW sales expansion is underway at MCA-TV Ltd. Film Syndication Division. Three new vice presidents have been named; a regional sales office in Cleveland opened and a sales manager appointed there; a western sales manager appointed and a salesman added to the staff.

MCA-TV's Wynn Nathan, vice president in charge of sales, announced last week that the board has elected as vice presidents: Tom Mc-Manus, eastern sales manager for the past nine months and headquartered in New York; Ray Wild, southwest regional sales manager (Dallas office), and Hank Long, also newly appointed sales manager of the mid-eastern' regional sales office in Cleveland.

The new Cleveland office will supervise other MCA-TV sales offices in Cincinnati, Detroit, Buffalo and Pittsburgh. Mr. Nathan said the new territorial breakdown was necessary because of the "rapid growth and coming of age of syndicated tv."

Robert Greenberg, vice president in charge of western station sales for MCA TV, adds the western sales management to his duties succeeding Mr. Long. Mr. Greenberg will work out of the Beverly Hills office.

Mr. Long, who joins D'Arv G. Barton, MCA-TV's vice president in charge of station sales for the midwest in the Cleveland office, was western sales manager at Beverly Hills, Calif., and has been with MCA-TV for two years.

William Connelly is the new addition to the sales staff. He was one of the chief account executives at WENS (TV) Pittsburgh and will work out of MCA-TV's Pittsburgh office.

Stations, Sponsors Buy Guild's 'Confidential File'

IN ADDITION to Bardahl Oil Co., chief sponsor of *Confidential File*, Guild Films Co. series, a number of other advertisers and stations will carry the program, Erwin Ezzes, general sales manager, announced last week. Among automobile companies which have signed contracts to present the show are: Dodge-Plymouth for KING-TV Seattle, through S. L. Savidge Co.; Ford Dealers for WISN-TV Milwaukee, through Doren Ford Dealers and for KWK-TV St. Louis, through Ford Dealers Assn.

Other sponsors include Faygo Beverages on WWJ-TV Detroit; White King Soap on KGO-TV San Francisco; Hoffman & Son on WTVO (TV) Rockford, Ill.; Waterman-Waterbury Co. on WCCO-TV Minneapolis; Al Terrance Carpet Co. on WGR-TV Buffalo; Atiyeh Bros. on KOIN-TV Portland, and Tenilhist on WAFB-TV Baton Rouge, La.

The series also has been purchased by WPIX (TV) New York, KWTV (TV) Oklahoma City, KSFD-TV San Diego and KID-TV Idaho Falls. Stations will sell the program direct.

Ziv Dubs Shows in Spanish

SOME \$450,000 has been earmarked by Ziv Television Programs Inc. for dubbing Spanish into its various film programs. Ziv said last week its Mexico studios shortly will begin work on the Spanish version of *Highway Patrol*, the second year series of *Mr. District Attorney* and 26 more episodes of *Cisco Kid*. When the *Highway* series in Spanish is ready for telecast about Jan. 1, Ziv will have more than 500 individual subjects dubbed into Spanish, according to the firm. THE SERIES based on the stories of a former informant on Communist activity for the Federal Bureau of Investigation— *I Led Three Lives*—will be Ziv Television Programs color tv entry. According to Ziv, the tv series, since its inception three years ago, has been filmed in color. Although nearly all other Ziv shows also are filmed in color, Ziv's color standard bearer will be the vehicle starring Richard Carlson because it has been "a pacemaker for Ziv in many other ways—top-ping sales, rating and endurance records."

\$2,275,000 Contract Set Between Carlson-Ziv

TEN-YEAR contract was signed last week by Richard Carlson and Ziv Television Programs Inc., calling for the services of the actor-writerdirector on a non-exclusive basis permitting the star to continue his independent motion picture and theatrical work. The contract reportedly provided \$2,275,000 for Mr. Carlson, who stars in Ziv's *I Led Three Lives*. The sum also will be augmented by his interests in 117 segments of the series.

John L. Sinn, president of Ziv, said that the company and Mr. Carlson plan a new series as soon as the present *l Led Three Lives* ends its third year of filming in January.

Official Begins Expansion, Names Jaffe Executive V.P.

APPOINTMENT of Herb Jaffe, vice president of Official Films Inc., New York, to the newly created post of executive vice president was announced last week by Harold Hackett, chairman of the board and president. Mr. Hackett also announced that Herman Rush, vice president, has been named vice president in charge of sales. Both appointments are in line with

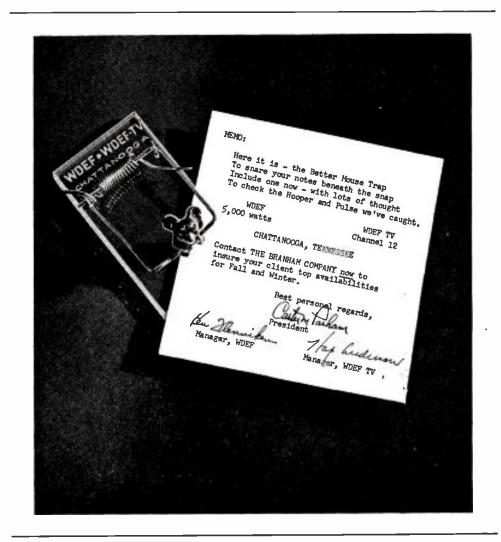

MR. JAFFE

the new Official expansion program, Mr. Hackett said.

MR. RUSH

Mr. Hackett said that under the new executive set-up, the company plans a major expansion in the national, regional and local sales divisions. Mr. Jaffe will handle special sales matters as well as his added executive management functions. Under Mr. Rush's direction, additional salesmen are being added to Official's sales force.

NBC EXPANSION OF 'MONITOR' EVOKES BLAST FROM REPRESENTATIVES' GROUP

SRA charges come as NBC readies for meeting with radio affiliates at which plan to extend 'Monitor' into weekdays will be proposed. Sarnoff terms SRA's stand an 'emotional campaign.'

A CHARGE that NBC "will make another try at killing" radio this week through its proposed expansion of the *Monitor* plan was raised by Station Representatives Assn. last Thursday.

NBC's Executive Vice President Robert W. Sarnoff replied Friday that SRA was waging an "emotional campaign" against *Monitor*, "one of radio's most promising and progressive developments." He said the "best factual answer" is "the phenomenal success of many NBC affiliates in selling out the local availabilities in *Monitor*—in weekend time formerly considered marginal" (see Sarnoff statement this page).

The SRA charge, levelled by Managing Director Lawrence Webb in a bulletin to members, came as NBC was preparing for a meeting Sept. 9 at which the network is expected to propose expansion of the concept of the *Monitor* weekend service into the 10 a.m.-to-6 p.m. periods Monday through Friday and, also, to ask its radio affiliates to take a cut in compensation for carrying network commercial shows.

SRA's blast capped a period of mounting opposition to the *Monitor* plan and left little doubt that the whole issue would be brought to a head at the meeting of NBC officials and affiliates, to be held at the Waldorf-Astoria in New York with 100 to 150 officials from approximately 100 NBC Radio affiliates expected to be on hand.

Mr. Webb's bulletin told SRA members that a national advertiser can buy radio via the *Monitor* concept "at between one-quarter and one-third of what he would have to pay on the station's rate card," and that "it behooves you to bring these facts to the attention of every radio station on your list."

By last Friday a number of NBC affiliates already had heard—in terms largely similar to those in the SRA Bulletin—from their individual representation firms.

At least some representatives, on the other hand, confided they did not regard the *Monitor* plan as a "threat" or death knell for radio. This view also was taken by some affiliates. One observer noted: "There are two camps, all right. Some think it's good; some think its horrible." Those who opposed it were clearly the more vocal.

If extended to weekdays, the Monitor plan probably would undergo some change in program format—primarily to slant it more towards women, it was understood. The weekend Monitor would be continued. according to current plans. Nor would there be any substantial change in the current sales format—i.e., selling participations—unless affiliates are able to sway

network officials.

In addition to the proposed extension of *Monitor*, the affiliates at Friday's meeting will be asked to approve a reduction in their rate of compensation from the network. NBC authorities confirmed that a new compensation plan would be presented, but details were not given. It was generally assumed, however, that the requested reduction would be on the order of that which already has been approved by CBS Radio affiliates, which was described as a 20% cut.

The SRA bulletin maintained that "if NBC is successful in selling the expansion of such programming as *Monitor*, it will unquestionably mean the most serious threat we have seen to *all radio*—network, national, and local."

SRA offered this summary of what it called "the cold facts," asserting that "the difference between *Monitor's* and individual stations' discounts are minor and would needlessly complicate the basic example we have tried to keep brief".

"The current SRDS lists 197 NBC stations with a total one-hour rate of \$26,020—an average of \$132 per station.

"An advertiser pays a base rate of \$1,000 for one one-minute announcement—an average of \$5.07 per station.

"The ratio between the station's hourly rate

NBC'S STATEMENT ANSWERING SRA'S CHARGES

NBC Executive Vice President Robert W. Sarnoff issued the following statement Friday in response to inquiries for NBC's position on the SRA attack.

"The current SRA bulletin is the latest illustration of the emotional campaign this organization has been conducting against *Monitor*, one of radio's most promising and progressive developments. The SRA seems to be devoting its full radio effort to this campaign—which consists of circulating distorted and misleading information—rather than to constructive steps which would help its members use the new opportunities created by *Monitor* to increase national spot sales on the stations they represent.

"It is apparently SRA's purpose to foment fear that *Monitor* is endangering station revenue in general, and national spot business in particular. The phenomenal success of many NBC affiliates in selling out the local availabilities in *Monitor*—in weekend time formerly considered marginal—is the best factual answer to this theory. And where a real selling effort has been made, a major portion of this increased station revenue has come from national spot sales.

"For example, our o & o stations, which are represented by NBC Spot Sales have *doubled* their sale of weekend availabilities because of *Monitor*—and more than half of these new sales are national spot. One of our major affiliates reported last week that it is going to network advertisers buying *Monitor* and getting them to supplement their network advertising by national spot buys in this new radio service!

"Monitor has generated an unprecedented fresh interest in radio on all levels. On the network level, it has already produced an impressive volume of sales to advertisers who want overall national circulation. It has created new business from local advertisers. It offers stations and their reps great opportunities for national spot sales in support of regional or selective-market campaigns. It is regrettable that the SRA, instead of using these new opportunities constructively, chooses to blind itself to the realities of present-day radio."

Page 94 • September 5, 1955

and \$132 can be applied to \$5.07 to arrive at the rate the advertiser is paying for the station. "For instance—if the station's base hour rate

is \$265, the advertiser is paying \$10.14 for the station.

"If the station's base hour rate is \$100, the advertiser is paying \$3.80 for the station.

"Station breaks are three-quarters of the above.

"If an NBC affiliate will only apply this simple arithmetic to its base NBC hourly rate —and then compare it with its own one-minute or station break base card rate—it will be found that the national advertiser is buying radio, via the *Monitor* concept, at between one-quarter and one-third of what he would have to pay on the station's rate card. If this practice continues and expands, not only NBC affiliates but every other radio station will suffer immeasurably from this depreciation of radio."

The Friday meeting of network officials and executives of NBC Radio affiliates, which is set to start at 10 a.m. in the Waldorf's Empire Room, will be preceded by a session of the affiliates' executive committee and affiliates' planning committee on Wednesday and by an agenda-planning meeting of these two groups with NBC authorities on Thursday. The radio affiliates are headed by Robert D. Swezey, WDSU New Orleans.

While *Monitor* and the probable request for a reduction in station compensation are expected to rank high on the Friday meeting agenda, the session will not necessarily be limited to those topics.

CBS Radio's recently announced plan of selling segments—"participations" is the word representatives have used—of three nighttime name-talent strips [BoT, Aug. 22], and possible ways in which NBC may counter it, also are prospects for discussion.

The "segmentation" plan of selling is also expected to come in for at least corridor conversation at CBS Radio's own affiliates meeting, to be held in Detroit at the Hotel Sheraton-Cadillac on Sept. 13-14 [B•T, Aug. 15].

This is the second annual meeting of CBS Radio affiliates with key executives of the network and is designed to give the stations a complete presentation on CBS Radio's sales, programming, and promotion plans for the coming season. CBS Radio President Arthur Hull Hayes and other key executives of the network will make the presentations. Dr. Frank Stanton, CBS Inc. president, will be principal speaker at the opening day luncheon session.

Additional plans for the entertainment program to be offered at the dinner on Sept. 13, as announced last week, call for comedian Jack Carson to appear as m.c. on a program that also will include Gary Crosby, the Tex Beneke Orchestra, the "Make Way for Youth" chorus organized by WJR Detroit, the Honey Brothers acrobatic act, and Somethin' Smith & the Redheads.

Papp to Succeed Fleming As 'Monitor' Producer

FRANK PAPP, verteran producer-director, was named last week to take over as executive producer of *Monitor*, NBC Radio's round-the-clock weekend service. He succeeds James Fleming, radio and tv newsman and producer, who has resigned effective Sept. 12 and reportedly plans to take a vacation before announcing future plans.

Mr. Papp has won more than 30 Ohio State U. awards for his work in broadcasting since he joined NBC in Chicago in 1939. He transferred to NBC in New York in 1942, producing and directing such radio series as *The World's Great Novels* and *Eternal Light*.

ABC FACES SUIT FOR \$7 MILLION

Commentator-columnist Walter Winchell reported readying breach-of-contract suit for filing this week. ABC denies misrepresentation.

A SEVEN-million-dollar breach of contract suit was launched against ABC last week by commentator-columnist Walter Winchell. ABC maintained "there is no basis of fact in Mr. Winchell's complaint."

The commentator—who some months ago was granted a release by ABC at his own request, according to his newspaper column at the time $[B \bullet T$, March 14]—meanwhile was reported last week to be set to start a Sunday news program on Mutual on Sept. 11 (probably at 6 p.m.).

Counsel for Mr. Winchell was understood to have indicated the \$7 million suit charging ABC with breach of contract would be formally filed this week. The network, in what it said was response to "inquiries concerning the complaint served on the company by Walter Winchell," issued a statement asserting "there was no misrepresentation concerning his contract for his radio and television programs with ABC." The statement continued:

"The facts are that he voluntarily requested a release from his contract. After letting sufficient time go by and at his urgent request, ABC acquiesced in Mr. Winchelle's request. At that time, it was our understanding from Mr. Winchell that he was in negotiation with two other networks.

"Subsequently Mr. Winchell asked that ABC reinstate his previous status. Since our contract had been treminated with Mr. Winchell and our relationship severed, it was the decision of the company not to renegotiate his services for radio and television.

"While ABC is making this statement in order that the facts may be clear, it is our belief that Mr. Winchell's claims should be settled in court and not in newspaper statements."

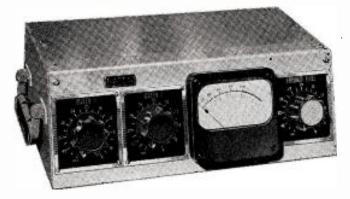

The contract with ABC had been described as a "lifetime contract," and his income from the network was said to be \$16,000 a week. At the time the contract termination was announced, the New York Daily Mirror, which publishes Mr. Winchell's syndicated column, quoted him as saying he had received an offer from NBC-TV to produce television shows.

CBS-TV Plans Oct. 3 Split of 'Morning Show'

CBS-TV effective Oct. 3 will divide its *The Morning Show*, currently running from 7-9 a.m. Monday through Friday, into two parts: an hour-long show featuring current host Dick Van Dyke with Charles Collingwood reporting the news, followed by a new children's program, *Captain Kangaroo*.

Latter program won out over four kinescopes that were made. Captain Kangaroo features Bob Keeshan as Capt. Kangaroo. Mr. Keeshan has been seen in Tinker's Workshop on WABC-TV New York, a program that has a very high local rating. Captain Kangaroo is produced by Keeshan-Miller Enterprises in association with CBS-TV.

The Gates "Biamote" includes high gain printed wiring amplifier, self-contained power supply, 4" VU meter, dual wiping contact mixer controls, Cannon receptacle, and weighs only $151/_4$ lbs. Size: 14" wide, $81/_2$ " deep, 5" high.

Mother of Two, and Newly Wed, Team up to Please Baltimore Audience

JEAN McLANE LY

LYNN CARROLL

Jean McLane and Lynn Carroll, WCAO's famous "Hi, Neighbor!" program team, brings Baltimore women a gossip show, featuring food, fashions, movie news, personal interviews. Monday thru Friday, 9:00-9:55 a.m. Ask any Raymer Man about "Hi, Neighbor!" or call Bob Richmond at WCAO, CBS for Baltimore, 5 kw on 600 kc.

CORRECTION

In the August 22 issue of Broadcasting • Telecasting, our ad on the Presto Pirouette turntables mistakenly listed the Pirouette T-68 turntable "with hysteresis motor". This should have applied to Model T-68H.

Presto Recording Corp. Paramus, New Jersey Marriage Bureau?

THE FIFTH couple from the Queen for a Day staff have joined hands in matrimony. Edward Kranyak, stage manager for the Mutual program and Queen model Barbara Luke became the latest couple to join the parade. Virginia Bingman, another model, was enlisted to sing the usual wedding songs . . just as she has done for the preceeding four marriages in the Queen for a Day family.

NBC-TV West Coast Studios Taxed by Switch of Shows

WEST COAST television studios of NBC are being taxed to the fullest, John K. West, the network's Pacific Div. vice president, said last week, indicating that facilities may be employed to capacity by the first of the year if more New York originations move to Hollywood.

He said the newest show that may move westward is *The World and Mr. Sweeney* because the program's star, Charlie Ruggles, wants the change. Mr. West estimated that about a third of the television network's live shows originate from Hollywood. Film originations would run the proportion much higher.

Rubin Heads CBS-TV Licensing

SYDNEY RUBIN, manager of the licensing division of NBC-TV, has been named director of the licensing department of CBS-TV, Merle Jones, vice president in charge of CES-owned stations and general services, announced last week. In his capacity as director of the newly created department, Mr. Rubin will be responsible for the licensing of all subsidiary program rights in network program properties, CBS Television Film Sales Inc. properties, and company-owned station properties.

Keystone Adds 12

TWELVE new stations in ten states have joined Keystone Broadcasting System, bringing its total of affiliates to 857, it was announced Tuesday. The additions, reported by Blanche Stein, KBS station relations director, are the following:

WGMA Hollywood, Fla.; WJAZ Albany, WJEM Valdosta, Ga.; WPEO Peoria, Ill.; WARU Peru, Ind.; WHIL Medford, Mass.; WTIK Durham, N. C.; WGSA Ephrata and WKMC Roaring Spring, Pa.; WSEV Sevierville, Tenn.; KRWS Post, Tex., and KTEL Walla Walla, Wash.

'Howdy Doody' Cast Expanded

ADDITIONS to the *Howdy Doody Show* returning to NBC-TV Monday through Friday, 5:30-6 p.m. effective Sept. 12 in color as well as black-and-white, have been announced by the network. Added attractions will include Heidi Doody, a newly created girl puppet; Alene Dalton, "The Story Princess"; Lowell Thomas Jr., cameraman, world traveler, lecturer and author, and a new animated Howdy Doody comic strip.

Show will emanate from a new color studio especially constructed for the program at Radio City, New York. Sponsors for the following products have already signed for the series: Colgate Dental Cream; Halo Shampoo; Royal gelatine and puddings, Hostess Cup Cakes, Wonderbread and French's Bird Seed.

NBC O&O Stations Report July Rise in Local Sales

LOCAL time sales on NBC's owned radio and television stations were 16% higher in July this year than in the same month a year ago, Charles R. Denny, NBC vice president in charge of owned stations and NBC Spot Sales, reported last week. The NBC-owned radio stations led the local sales gain with in increase of 27% over July, 1954. Television local sales were up 13% over a year ago.

WMAQ Chicago's local sales were up 59% to lead the radio stations in percentage gains; KRCA (TV) Los Angeles had the largest tv gain, 62%. In seven-month averages, WTAM Cleveland led the radio percentage increases with 42% and KRCA was high in tv with 22%. Other NBC-owned stations are WRCA-AM-TV New York, WRC-AM-TV Washington, WNBK (TV) Cleveland, WNBQ (TV) Chicago, and KNBC San Francisco.

Paramount Buys 'Climax' Show

PARAMOUNT PICTURES Corp. has purchased feature film rights to Mel Goldberg's "Fear Strikes Out" telecast on *Climax* on CBS-TV, it was reported last week. Price was around \$50,000. Second *Climax* script, "To Deal a Blow," telecast Aug. 25, also was being sought last week by the film major in talks with writer Robert Dozier. CBS-TV series is sponsored by Chrysler Corp. through McCann-Erickson.

CBS-TV Reports Two Sales

NEW SALES for the fall season were announced by CBS-TV last week. They included Lever Bros. (Lux liquid and Rinso Blue) purchase of a 15-minute segment Fridays (10:15-10:30 p.m. EDT) of *Garry Moore Show*, beginning Oct. 7 and placed through J. Walter Thompson Co.; Amana Refrigeration Inc., through Maury, Lee & Marshall, Cleveland, for half sponsorship of the network's top football games in the Big Ten and Pacific Conference areas, starting Sept. 24.

NETWORK PEOPLE

John H. Burnett, producer-director, MBS Gen-

eral Sports Time, appointed n et work sports director, succeeding **Paul Jonas** [AT DEADLINE, Aug. 29].

Ross Donaldson, literary rights and story divs. supervisor, NBC, appointed network writing services manager.

MR. BURNETT

Alvin Cooper, unit manager, NBC-TV Milton Berle program, named NBC-TV program sales manager.

Jerry Madden named manager NBC-TV Pacific Div. production services; Frank Gertz appointed business manager.

NETWORK SHORTS

CBS-TV's Toast of the Town (Sun. 8-9 p.m.) will change its name to The Ed Sullivan Show, Sept. 25.

MISSOURI CLINIC HIGHLIGHTS FARM TV

NBC's Heinemann, CBS' Wiebe speak at three-day U. of Missouri agricultural tv clinic.

SHARP division between programming for the farmer and city dwellers is no longer necessary as a result of modern communication, George Heinemann, NBC Chicago program director, told the first National Agricultural Television Clinic that opened Friday at the U. of Missouri, Columbia. The clinic was to close yesterday (Sunday).

Taking part in the clinic were such organizations as Agricultural Relations Council, American Assn. of Agricultural College Editors, Assn. of Land-Grant Colleges & Universities, National Assn. of Television & Radio Farm Directors, U. S. Dept. of Agriculture and the U. of Missouri agricultural communications project. Facilities of KOMU-TV, university station, were used for live demonstrations and recording.

Delegates from all parts of the country took part in the three-day event including 33 state colleges and universities. Tv farm directors attended from a dozen commercial stations and the advertising-public relations fields were well represented. Others participating were consultants from the tv industry, film specialists from the U. S. and Canada, and university personnel. Their basic aim is to build agricultural tv shows having more impact.

Mr. Heinemann told the clinic that "what interests the farmer also interests the metropolitan dweller, since one depends so much upon the other for existence. Program ideas can no longer be centralized for specific audience groups as once thought of by the advertiser." He demonstrated shooting techniques for film camera work outside the studio, including color film.

The importance of audience reaction in "instructional television" as well as in commercial tv was emphasized by Dr. Gerhart D. Wiebe, CBS Inc. research phychologist who appeared at the clinic in that capacity. (Dr. Wiebe was recently named assistant to Dr. Frank Stanton, CBS Inc. president [AT DEADLINE, Aug 15].) Speaking Friday on "Audience Is the Crite-

Speaking Friday on "Audience Is the Criterion," Dr. Wiebe warned that "in the turmoil of doing" telecasters should not "neglect to find out how you are doing."

Asserting that tv "should be thought of as a vehicle, not as a destination," Dr. Wiebe stressed that it was essential to know how the tv product was being received by the people—the audience. He noted also that tv, if correctly used, can "expand the scope of effective communication" by conveying a "sense of first-hand, vital reality."

BROADCASTING • TELECASTING

Dr. Wiebe said he was "amazed at the imagination and ingenuity demonstrated by instructional television people in creating programs and getting them televised on the one hand, and, on the other, the lack-lustre apathy in finding out how people respond to them. He continued: "Men and women will drive

He continued: "Men and women will drive themselves to the point of exhaustion in getting a station financed, built, equipped and staffed. Producers perform minor miracles of persistence, determination, initiative and creativeness in getting programs on the air. Men raise themselves from the status of neophytes to that of skilled craftsmen without professional guidance because such guidance is seldom available in this field that is scarcely 10 years old.

"But some of these same inspiring people exhibit little curiosity and less ingenuity in finding out how their product is received."

He said that educational and instructional telecasters, by being vague about the purpose of their shows or by having no idea about the audience that actually tuned them in, are "playing with very expensive toys."

Dr. Wiebe suggested mapping the area in which the station delivers a good picture; checking the farm homes covered; counting counties within the primary area with estimates of the farm population in each; contacting 200 families in proportion to this population (after having pinned the map at points nearly on the fringe of the counties as a guide for the calls).

NAEB Television Workshop Scheduled for Sept. 12-16

THE SECOND National Assn. of Educational Broadcasters educational tv engineering workshop will be held Sept. 12-16 at Michigan State College under sponsorship of NAEB and made possible by a grant from the Fund for Adult Education. The workshop is designed to present the latest developments and equipment in the tv field and give the 25 engineers who are expected to attend an opportunity to increase their technical knowledge and ability.

Networks, tv equipment manufacturers and allied fields will send representatives to the workshop. Also scheduled to participate in the program will be consultants in production, personnel relations, lighting and kinescope recording and an engineer from FCC.

Demonstrations, lab excercises and lectures will take place at WKAR-TV E. Lansing, Michigan State station. In all, 37 different sessions will be held.

Educ. Tv Outlets to Carry 'Town Meeting' Test Series

ARRANGEMENTS have been completed for production of an experimental television series of *America's Town Meeting* programs for use on educational tv stations throughout the U. S., according to an announcement being released this week by The Town Hall Inc., producers of the pioneer forum, and the Educational Television & Radio Center at Ann Arbor, Mich.

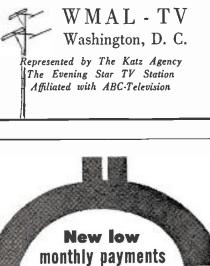

First program in the tv series, whose radio counterpart has been on the air since 1935, will originate Sept. 25 at 7-8 p.m. at WQED (TV) Pittsburgh and will be kinescoped for immediate release to the 15 other educational tv stations now on the air, officials reported. Labor Secretary James P. Mitchell will be guest on the lead-off program and Washington commentator Gunnar Back will be moderator.

Westinghouse to Make Image Orthicon Tube

WESTINGHOUSE Electric Corp. has begun production of the image orthicon transmitting tube. The product already has been installed at a number of television stations, it was announced last week by Richard T. Orth, Westinghouse vice president, in Elmira, N. Y.

Mr. Orth said this basic three-tube device is now being produced (price \$1,200) by his firm's electronic tube division and its operating efficiency at tv stations was described as "highly satisfactory."

"Television broadcasting stations were dependent upon one source of supply for this key televising tube," Mr. Orth pointed out, referring to RCA. "The fact that Westinghouse is now producing the image orthicon is significant because it fills in the competitive picture."

New packaging and shipping techniques were stressed by Westinghouse, which noted it was first shipped to California and then Boston during endurance tests. It is actually a three-tube unit in that it (1) converts the studio picture into an electronic charge pattern which (2) is converted into conventional tv signals and (3) then amplified by a scanning beam.

Great Advances in Tv Predicted by Halpin

PREDICTION that by 1965 there will be 85 million or more tv sets in use in over 50 million U. S. and Canadian homes as compared with 38 million sets in 43 million homes today, was made last week by Dan D. Halpin, general sales manager, television-radio division, Westinghouse Electric Corp. He spoke at the third Radio & Television Clinic & Electronics Fair in San Antonio, Tex., which was sponsored by the Texas Electronics Assn.

Mr. Halpin estimated that between 50 and 60% of all home sets will be color and that all feature programming except news and current events shows will be in color. He also asserted that in spite of the bright future of color tv, there will be a continuous prosperous market for black-and-white sets.

In the future, tv circuits may be tubeless, using advanced types of printed circuits. The tv set of 1965, he said, might even be a pictureon-wall set with controls and chassis placed on a small box at the side of a chair. He predicted that servicing a tv receiver a decade from now will be as simple as changing a light bulb today. Portable receivers will be powered by batteries and 21-inch color sets will be as light in weight as an executive case. Price at the consumer level, he said, will average about \$300.

Mr. Halpin said that more than 8 million tv receivers will be sold each year by 1965. The factory value of these units will reach about \$1.5 million or \$2.25 billion at the retail level. Servicing income will reach a peak of \$7.5 million, he said.

Auld Promoted by DuMont In 'Electronicam' System

JOHN S. AULD, with Allen B. DuMont Labs since 1948 and most recently in charge of DuMont's "Electronicam" (live-film camera) systems engineering, was named last week as

manager of technical operations for the "Electronicam" system.

James L. Caddigan, director of "Electronicam" marketing, said Mr. Auld's appointment was in line with expansion of DuMont's organization for the marketing of the new camera system.

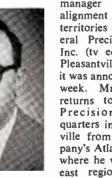

Mr. Caddigan also referred to activity

and "commitments" with "producers of major motion pictures, tv films, industrial, educational and government films." Mr. Auld will work with clients in the planning, laying out and installation of "Electronicam" systems in movie studios, tv film production centers, tv stations, and in educational, governmental and industrial

Manzo Promoted, Moved

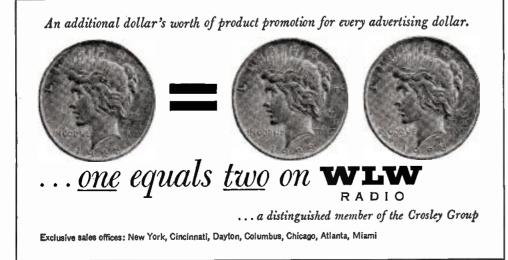

installations.

ED MANZO has been appointed eastern sales

MR. MANZO

manager in a realignment of sales territories by General Precision Lab. Inc. (tv equipment), Pleasantville, N. Y., it was announced last week. Mr. Manzo returns to General Precision's headquarters in Pleasantville from the company's Atlanta office, where he was southeast regional manager.

Emerson Promotes Kantrowitz

EDWARD KANTROWITZ, Emerson Radio & Phonograph Corp.'s advertising manager since 1952, was named last week as assistant

to Lester Krugman, vice president in charge of marketing. Mr. Kantrowitz' successor has not yet been announced.

Mr. Kantrowitz joined Emerson in 1949 as advertising production manager and in 1950 became assistant to the director of sales. Before joining Emerson, Mr. Kantrowitz was associated with

MR. KANTROWITZ

Foote, Cone & Belding where he was assistant to the vice president in charge of the motion picture department.

DuMont Appoints Ruiter

JACOB H. RUITER, public relations manager of Allen B. DuMont Labs Inc., has been appointed to direct all advertising and sales promotion of the technical products manufactured by the labs. He will supervise all promotion effort by the company's transmitter, mobile communications, and technical sales advertising departments.

Adm. Born Joins Collins

REAR ADM. Arthur S. Born, USN (Ret.), has been appointed assistant to the vice president, research and development, Collins Radio Co., Cedar Rapids, Iowa. Adm. Born graduated from the U. S. Naval Academy in 1927 and has served in various Navy posts including head of the Electronics Div. of the Bureau of Aeronautics. His latest assignment was in the Office of the Assistant Secretary of Defense (Applications Engineering).

ORRadio Develops New Tape

A MAGNETIC recording tape that will double the playing time over standard recording tape has been announced by ORRadio Industries (Irish brand magnetic recording tape), Opelika, Ala. Up to four hours can be recorded without a reel change at 1% speed, and eight hours dual track. The increase in playing time is made possible by placing 2,400 ft. of tape, instead of 1,200 ft., on the standard 7 in. reel. Price of the new double play tape is \$7.50 hi-fi net for the 2,400 ft. reel.

KTHV (TV) Gets Transmitter

RCA has reported shipment of a 50-kw transmitter to KTHV (TV) Little Rock (ch. 11).

MANUFACTURING PEOPLE

Richard B. Leng, formerly California operations manager, Sylvania Electric Products Inc., N. Y., elected to newly-created position, vice president in charge of technical products div., Packard-Bell Co. (receivers), L. A.

Norton Locke, general executive, Camera Vision Productions Inc. (film production system), Hollywood, appointed west coast operations director.

Ralph E. Endersby named manager of first office (70 Grenville St., Toronto) set up by Canadian div. of new wholly-owned subsidiary, Ampex American.

- PROGRAMS & PROMOTION -

'IDEA HOME OF THE YEAR'

MORE than 6,000 persons attended the Aug. 28 opening of the "Idea Home of the Year" project in Omaha, Neb., highlighted by three radio shows and an hour-long tv program by WOW-AM-TV there. The home is one of 100 being constructed around the country by *Better Homes & Gardens* magazine to show new ideas for building, decorating and remodeling.

KSL-TV BROCHURE

KSL-TV Salt Lake City has sent to advertisers and agencies a colorful brochure giving market and coverage data. The folder says KSL-TV's primary coverage area north to south is approximately the distance from New York to Pittsburgh and from east to west about the distance from Chicago to Detroit. The station says its market compared to city areas by population ranks sixth, between Detroit and Baltimore, based on *Consumer Markets*, 1955. A coverage map is included showing the station's primary and secondary areas reaching into Wyoming, Idaho and Nevada.

TIMEBUYER'S TIME GUIDE

BLAIR Tv, station representative, is distributing to timebuyers charts showing how time will be affected in the upcoming daylight changes. "And, because the time change is different again this time around, we know you'll find our new *Timebuyers' Time Change Guide* a right handy thing to have on deck," the firm says in an attached memo. Cities which do not follow the time patterns of their states also are listed.

WBEN CELEBRATES 25 YEARS

TO CELEBRATE its 25th anniversary Sept. 8, WBEN Buffalo, N. Y., is inviting all listeners born on that date in 1930 to be honored guests at a special edition of the *Hotel Statler Luncheon Club* program on the station's birthday. The 45-minute audience participation show, regularly aired from the station's Statler studios, will be broadcast that day from the hotel's larger Empire Room. Mike Mearian is m.c. of the daily show. WBEN also is asking listeners to write in 125 words or less, "Why I Have Enjoyed WBEN Radio During the Past 25 Years." A silver tea service is the prize and the winner also will be on the special show.

KPRC-TV AIRS ELECTION RETURNS

RETURNS of the city election in Houston, Tex., were telecast by KPRC-TV there from the city room of the *Houston Post*. The show was presented under the sponsorship of the Second National Bank of Houston.

'HOMETOWN AMERICA'

A PROJECT known as "Operation: Hometown America," sponsored by the Oak Park (Ill.) Chamber of Commerce and featuring the Cliff

WHISTLER'S GRANDFATHER

BILL SMALL, news director of WLS Chicago, can claim credit for the recognition of Whistler's grandfather. Two years back Mr. Small did a commentary on the founding of Ft. Dearborn, later to become Chicago, 150 years ago. At that time he discovered it had been founded by John Whistler, who was never historically recognized by the city. Mr. Small has been urging the mayor and city council to correct the oversight. Finally Mayor Richard Daley proclaimed Aug. 17 as John Whistler Day. In an interview he thanked WLS for calling it to his attention. The station also was commended by Paul Angle, director of the Chicago Historical Society, for "rescuing this historical figure from oblivion." John Whistler was the grandfather of James MacNeal Whistler, who painted 'Whistler's Mother."

Johnson family, is nearing completion on WGN Chicago. Mr. Johnson and his wife Louella and five children have been touring Europe the past two months, tape recording their impressions and flying them back to the station for use each morning at 8:15. Included in the series are interviews, folk music and visits to cultural and historic places of interest. During August the family toured Denmark and Germany.

SATELLITE SERIES

SERIES entitled Frontier to Space will be telecast by WGBH-TV Boston, educational tv outlet, starting Sept. 20 for 26 weeks. The quarterhour programs will deal with how the U. S. will proceed with a recently approved government project to establish an earth satellite. Working on the series are 25 rocket scientists, Dept. of Defense, personnel at White Sands (N. M.) proving grounds, Halloman Air Development Center, Alamogordo, N. M., and Guided Missile Training Center, Ft. Bliss, Tex.

OIL BLAST COVERAGE

FILM FOOTAGE of the Whiting, Ind., Standard Oil refinery blasts was secured by WSJV (TV) Elkart, Ind., when the station sped cameraman Bill Marrow to the scene. John F. Dille Jr., publisher-broadcaster (Truth Publishing Co., which operates the *Elkhart Truth* and WTRC-AM-FM-WSJV), flew to the disaster and fed news to the stations. WSJV interrupted coverage of a baseball game to show the films.

WPTZ (TV) MARKS OPENING

WPTZ (TV) Philadelphia last Thursday morning used the top of a ramp-type parking garage in the city's business section as locale for a special show to mark the opening of the National Air Show in Philadelphia last Saturday. A helicopter landed on the garage roof with Alan Scott, station personality, to open the 65-minute program that included aircraft exhibits, model plane demonstrations and other related activities. WPTZ used one camera with zoomar lens from its adjacent studio building and two other cameras on the garage roof. Last Friday morning the station also originated a pickup on the National Air Show from International Airport for NBC-TV's Today.

NOW AVAILABLE — THREE TOP MEN TV STUDIO TRAINING – EXCELLENT BACKGROUNDS

Married, one child, 25 years old, good student. He has both a sales and announcing background. He did radio announcing and administrative work throughout his six years in the army, handling, among other things, news, music and interviews. Since then he's been doing selling work. His instructor recommends him for either TV Sales or Announcing work. Good voice, excellent personality, has personal traits, eagerness and know-how to make a good sales or sales-service

B.A. degree, over three years of Public Relations work as officer in Navy — writing spot announcements, news releases, producing 15 minute radio series, editing tape. Daily show of his won Peabody Award for public service. Intelligent, good-natured, willing worker, superior personality. Diction, grammar, vocabulary excellent. Especially adapted for direction, writing, camera work. Would fit into sales, traffic or any category in Broadcasting. Highly recommended as outstanding employee.

Has 5½ years of college training including work in speech and production. He has been teaching speech, dramatics and production on the high school level for the past seven years. During his training he displayed skill and promise, especially in the announcing field. He did an outstanding job of both preparing and presenting news programs, as well as in all types of announcing work. He's 33 years old, has a good personality and an outstanding voice, married and family.

Each of these men has been thoroughly trained in all phases of TV production in one of our completely equipped studios under the instruction of a professional TV director. For IMMEDIATE resume and complete details, write, wire or call *collect*, JOHN BIRREL—BE 7246.

CANADA TV SET SALES RISE SHARPLY

Report on first seven months of '55 swell Dominion's total to nearly 1.5 million receivers.

SALES of tv sets in Canada showed a definite increase for the first seven months of 1955, according to a report of the Radio-Electronics-Television Manufacturers Assn. of Canada. There were 273,152 sets sold, valued at \$84,-165,739 during the period, compared to 202,724 for the January-July period of 1954. Most of the new sets sold were in the 21-inch group.

The association also announced a total of 1,455,556 sets in use in Canada at the end of June. By provinces Ontario has largest number of sets, 725,727, followed by Quebec with 420,815; British Columbia, 108,661; the three

CARTB Studies Tv Libel; General Guide Impractical

A GENERAL GUIDE for precautions to be taken by Canadian radio and television stations in connection with defamation, libel or slander, is not available in Canada, according to a report of T. J. Allard, executive vice president of the Canadian Assn. of Radio & Television Broadcasters. CARTB has been making a careful study of guides throughout the Englishspeaking world.

No general guide is available, Mr. Allard points out, because circumstances vary, the element of defamation may be affected by changing social conditions, the law affecting defamation varies by provinces across Canada, and the law is not a fixed body of rules but a flexible framework which can be affected by precedent, interpretation and circumstances.

Mr. Allard's report suggests that "when in doubt, leave it out" or "where any element of uncertainty exists, consult your local lawyer first."

CARTB has distributed to member stations for use of its executives and newsroom staff copies of a talk, "Dangerous Words," given by Alexander Stark, secretary-treasurer of the *Toronto Daily Star*, at the journalism school of Ryerson Institute of Technology, Toronto. In this talk Mr. Stark dealt with libel cases throughout Canada, United States and Great Britain and dealt with specific problems of newsroom writers. The report also contains a copy of the Ontario Libel & Slander Act of 1937.

Four Applicants Seeking Canadian Broadcast Permits

FOUR APPLICATIONS for new broadcast station licenses will be heard at the Sept. 15 meeting of the board of governors of the Canadian Broadcasting Corp. at the Chateau Frontenac Hotel, Quebec.

T. M. Fielder has applied for a 250 w station on 1560 kc at Simcoe, Ont. F. Vincent Regan is asking for a license for a 5 kw station on 1290 kc at London, Ont. Two applicants will be heard for a station at Swift Current, Sask., on 1400 kc with 250 w. Frontier City Broadcasting Co. Ltd. and Swift Current Broadcasting Co. Ltd. are applicants for the Swift Current license.

CKEN Kentville, N. S., is asking for an increase in power from 250 w to 1 kw and from 1490 to 1350 kc. CHWK Chilliwack, B. C., has an application in for transfer of control of the station from Fraser Valley Broadcasters Ltd. to Jack Pilling, manager of CHWK. CFCL Timmins, Ont., requests change of corporate name from J. Conrad Lavigne to J. Conrad Lavigne Enterprises Ltd. without affecting control of station.

Five stations are applying for permission to have standby transmitters and 18 stations are asking for share transfer permission.

Set Count

EXPERTS SAY the Russians are getting more and more radio and tv sets and bigger newspaper circulations. Statistics show an estimated 475,000 tv sets inside Russia at the end of 1954, compared to 150,000 in 1953. This is still a long way behind the 35 million sets in the U.S.

Soviet affairs specialists also revealed a record high 47 million newspaper distribution, an increase of six million since 1953. This was not a daily average but a high mark which amounted to one newspaper for four and one half persons. This is close to the U. S. average of one newspaper for every three persons.

Canadian Radio Set Sales Up

AN INCREASE in the sale of radio receivers in the first seven months of 1955 is reported by the Radio-Electronics-Television Mfrs. Assn. of Canada. The January-July period saw 247,-425 units, valued at \$18,117,610, sold as compared to 223,971 sets, valued at \$17,437,846, sold in the same period last year.

CKBC Names Representative

CKBC Bathurst, N. B., new 250 w station on 1400 kc in the recently opened copper mining area of New Brunswick, has announced the appointment of James L. Alexander Ltd., Toronto, as representative. J. Leo Hachey is president; W. J. Davis, manager; G. Royal is sales manager, and G. Christopher is chief announcer and newscaster.

CKRS-TV Target Date Nov. 15

CKRS-TV Jonquiere, Que., ch. 12, is expected to begin telecasting on Nov. 15, according to manager Tom Burham. The station will telecast in both French and English. It will be represented by Jos. A. Hardy & Co. Ltd., Montreal and Toronto.

INTERNATIONAL PEOPLE

W. Hugh Clark, senior sales representative, Canadian Broadcasting Corp., Toronto, appointed commercial sales supervisor; Gunnar Rugheimer, newsreel editor, CBLT (TV) Toronto, and manager, CBC national tv news service, named CBC senior sales representative.

MR. CLARK

MR. RUGHEIMER

Bob Monroe, formerly with National Broadcast Sales, Toronto, appointed radio sales manager, Radio Representatives Ltd., Toronto; Bill Stoeckel, formerly with All-Canada Radio Facilities, Toronto, named Radio Representatives tv sales manager.

editorials

Radio, Unbreakable Lifeline

I N THE floods that struck the Northeast a fortnight ago and in the aftermath of salvage, radio and television have done a heroic job.

The most conspicuous feature of broadcast service in that period has been the clear proof that the battery radio and the radio station are indispensable in contemporary America. When disaster strikes, central power lines break down. Only the broadcast station with its own generator and the receiver with its own power supply can provide dependable communication. Until central power is restored to service, most television sets are useless. It is ironic that the portables and car radios of Stroudsburg, Winsted, Waterbury, which were purchased for pleasure on the beach or the Sunday drive, turned out to be the only means of delivering life or death communication.

In the midst of disaster, radio was the communications giant. In the salvage beginning afterward, both radio and television were outstanding. Their effective appeals for aid were largely responsible for the remarkable response of the U. S. public in oversubscribing the Red Cross relief fund.

What's Past Could Be Prologue

T HIS era of "friendly coexistence" that appears to have evolved in the wake of the Geneva summit conference must have a phony ring to those dedicated people working their hearts out for Radio Free Europe and the Voice of America.

Despite all the sweetness and charm being generated from the West, the Soviets continue to spend more rubles in operating transmitters to jam our broadcasts than we spend, publicly and privately, for the long and shortwave broadcasts. There's ample evidence, nevertheless, that these broadcasts are getting through both ways, though perhaps more effectively via the uninhibited operations of RFE's 29 longwave transmitters on the ground in Europe.

In this new Alphonse-Gaston act, the Soviet has given full accreditation to a U. S. broadcast correspondent—Irving R. Levine of NBC. He is provided with studio facilities and a shortwave circuit to New York. Other newsmen have been accredited. The interchange of good-will delegations (except in the broadcast field) is in full bloom.

It could well be that these very broadcasts through the Iron Curtain spawned this "new era." We're sure, however, that thinking Americans are not being deluded; that Congress won't abandon USIA's Voice operations, and that organizations and individuals who have stood behind the hard-hitting, privately-endowed Crusade for Freedom will continue their support as it enters its sixth fruitful year. Broadcasters who gave unstintingly of their time in last year's all-out RFE campaign are in there pitching again, because they've seen the totalitarian chameleon perform before.

We, along with every good American, cherish the thought of peaceful coexistence. We fervently pray for the success of the peace offensive launched by President Eisenhower and picked up so avidly in the public utterances of the Soviet leadership.

If we appear querulous, it is because we are sensitive to the past deeds and words of the communist overlords. For example, this quote:

War to the hilt between communism and capitalism is inevitable. Today, of course, we are not strong enough to attack. Our time will come in 20 or 30 years. To win we shall need the element of surprise. The bourgeoisie will have to be put to sleep. So we shall begin by launching the most spectacular peace movement on record. There will be electrifying overtures and unheard of concessions. The capitalist countries, stupid and decadent, will rejoice to cooperate in their own destruction. They will leap at another chance to be friends. As soon as their guard is down, we shall smash them with our clenched fist.

These words were uttered in 1931—just 24 years ago. They are attributed to Dimitri Z. Manuilsky in a speech before the Lenin School of Political Warfare. Comrade Manuilsky was presiding officer of the United Nations Security Council in 1949. The quotation appeared most recently in an advertisement of the Gray Mfg.

Drawn for BROADCASTING . TELECASTING by Sid His

"Here come the Miss America contestants in their bathing suits. Sorry, we've lost our picture, but we'll continue the sound!"

Co., of Hartford, Conn., published in the Army-Navy-Air Force Journal, Aug. 20, 1955.

A prime objective of the upcoming Big Four foreign ministers conference, where the United States is concerned, is the removal of the jamming block. Another is freedom of access to news, and lifting of censorships. Outgoing broadcasts and other news dispatches are censored.

It seems to us that no credence can be given the Soviet "new look" until it proves good faith by removing the ether blockade. Until then we should fire away full tilt, backed by American broadcasting and American dollars.

Tv Holds Its Audience

THERE ARE a number of significant findings in the American Research Bureau study relating intensity of viewing to length of ownership of television sets. The ARB report, which appears in this issue as well as in the new TELECASTING YEARBOOK & MARKETBOOK, shows that the longer people have tv the more they watch it.

Basic though that finding may be, other features of the study are of almost equal importance. Chief among them is that the heavy viewing group includes a preponderance of young married people. For advertisers that fact is vital. Couples of the 20-39 age bracket are America's best customers for all kinds of consumer products.

The more research that is done in television, the more evident it becomes that tv is indeed, as the Television Bureau of Advertising puts it, the world's greatest "selling machine."

The Rate Cleaver

 $\mathbf{R}^{\text{EPORTS}}$ from broadcasters who have been solicited confirm our story of Aug. 15 that George A. Hormel & Co. (meat products) has started a campaign to obtain national advertising on radio-tv at local rates.

The Hormel company has instructed its distributors to try to buy time for the company's Flavor Seal products. The transparent argument is that the distributor is a local advertiser and hence eligible for local rates from those stations which have differing rate schedules for local and national accounts.

We are happy to announce that some stations have rejected the proposal. How many, if any, have gone along we do not know. The number of those which accede to this chisel corresponds to the number that are too hungry to uphold good standards.

Unfortunately, Hormel is not pioneering in this case. Many a national advertiser has tried to take advantage of lower rates available to local advertisers. A differential in rates for the two kinds of client is justified only if the station intends to be impartial in applying the rates. Where Hormel succeeds in this endeavor, it has succeeded in creating a single rate for both local and national accounts.
