No. 13

Government to Spend Millions on Radio

SEVERAL million dollars will be spent by the United States Government on its various radio activities and projects during the fiscal year which begins July 1, next, it is disclosed by the annual budget submitted to Congress by President Hoover at the opening of the session. Increases are provided all along the line, in keeping with the policy of the Government to remain abreast of world radio development and adequately control broadcasting and other activities in the United States.

Operation of the Federal Radio Commission during the coming fiscal year is expected to cost \$466,820, the budget shows, an increase of \$16,820 over the funds so far appropriated for the current fiscal year, and more than \$160,000 over the actual expenditures of the fiscal year which ended June 30, last. Included in this sum is \$50,000 for the salaries of the five commissioners at \$10,000 a year, and salary provision for a contemplated force of 128 employees, a slight increase over the present number, estimated at \$367,820.

An increase of \$180,000 is to be provided for the radio division of the Department of Commerce, for which \$680,000 is asked. The increased funds will be used largely for expansion of the field service and for new equipment. The aeronautics branch of the department, among other funds, is to get an appropriation of \$9,000,000 for the expan-

sion and maintenance of air navigation facilities, including radio and other means of communication and aids to navigation; the current appropriation for this work is \$7,944,000. A third branch of the department, the Bureau of Standards, will receive \$85,700, the same as for this year, for its investigation and standardization of methods and instruments employed in radio communication.

A total of \$3,137,257 is provided for operation of the signal service of the Army, an increase of \$127,257, and \$300,830, an increase of \$830, is provided for maintenance of the Washington-Alaska Military Cable and Telegraph System, of which \$100,000 is for the completion of the installation of high-frequency radio stations. This activity was inaugurated last year with an initial appropriation of the same amount.

An appropriation of \$136,600, an increase of \$3,540 over this year's fund, is provided for salaries in the office of the director of naval communications of the Navy Department. The Naval Research Laboratory, which is engaged, among other things, in experimental work on radio, will get \$229,765, a decrease of \$235. The State Department is given its usual fund of \$7,527 to meet the share of the United States as a party to the international radiotelegraphic conventions.

MICROPHONE GOSSIP

Arthur Schwarzman, NBC pianist, is a Russian. He claims the distinction of being just about the only Russian refugee on record who was a private in the World War, instead of a general, or at least a prince.

* * *

Benay Venuta, popular blues singer, who has been appearing over KPO for some months on various programs has been added to the staff of KPO artists and will be heard regularly on the Variety Matinee, Wednesdays, in the "Sonologue Program," with Cotton Bond, the "Virginia Ham," Tuesday evening, and "Snap-Shots Programs in Miniature" every Saturday.

Miss Venuta is a product of the comic opera stage and her work has individuality and brilliance.

* * *

Jack Joy, KFWB, has a hobby. Yes sir, and a full fledged one, too. In his spare moments he works on an original opera, "Naadarna," with a Persian libretto. He has spent odd moments on it for the past two years, and expects to be finished writing in about five more. He beams from ear to ear when asked to play the score—and, incidentally, judging from the melodies, he has something to beam about.

* * *

Ted Maxwell and Charlie Marshall, who present the Vermont Lumberjacks, daily NBC feature, and enact a dozen or so characters of the New England woods, believe in realism.

Ted and Charlie both have country places on the peninsula below San Francisco. Their houses are only a quarter of a mile apart, and the two artists have been clearing their own land in traditional lumberjack fashion, even using the cross-saw. So they know what they're talking about when they come before the microphone every morning to portray "Jed" and "Toby," "Tim" and other characters in the series.

* * *

Clifton Howell and Tom Barbree have been added to the KHJ announcing staff. Howell was formerly at KFI and is known to the Pacific Coast as one of the Union Oil Quartet. Barbree was one year at KLZ, Denver, and was chief announcer at KDYL,

Salt Lake City, for two years, and the home towns are hearing his voice again every week on the MJB Demi-Tasse Revue.

* * *

Herman Reinberg, cellist in the KFRC concert orchestra often featured on Sundays in solo work, is a nephew of Joseph Lhevinne, who was heard over KFRC and the Columbia network recently as piano soloist with the New York Philharmonic Symphony. Reinberg has played with Europe's greatest symphonies, and has concertized throughout Germany, Holland and Switzerland. He taught at the Krefeld Conservatory of Music. KFRC has been fortunate in having him on the Don Lee staff for the past four years.

* * *

Many musicians have made their debuts under strange circumstances, but Phyllida Ashley, who plays before the NBC microphone in "Piano Paintings" with Aileen Fealy, made her "first appearance" in a railway car, at the age of five. Her audience was a small one, but distinguished—Ignace Paderewski.

The great pianist was visiting San Francisco on a concert tour, and it was in his private car that Phyllida played for him. He advised her parents to give her every musical advantage, declaring that she possessed unusual talent.

* * *

If you happen to see Les Hewitt, KFWB's head technician, looking like the last rose of summer, with circles under his eyes and a blank stare, don't blame Hollywood night life. When KFWB went on the UBC network, Les had to put in five new panels, and since then technicians have trailed in and out with bales of wire, funny looking gadgets and whatnots, and Les has followed them around, fussing and clucking like a mother hen. But those five panels are in, gosh darn it! And a good job made of them, too!

Due to the brisk demand for "What to Do 'Til the Doctor Comes," by Simpy Fitts and Pedro Gonzales, a new edition has been printed, containing a number of changes and additions.

AMATEURS— A Real "BAND-SPREADER"

In this receiver we have what we believe is the finest band spreader ever offered for amateur use. Our band spreader works ON THE LARGE VERNIER TUNING DIAL, and the 20, 40 and 80 meter bands are spread from 60 to 100 degrees. The spread is so great that even a weak, pure D.C. signal has a spread of one to two degrees. This, with the vernier ratio of the dial, completely eliminates tuning difficulties. Even the 80 meter phone band is spread out. The receiver is ideal for amateur needs.

Do You Want More DX News?

Congratulations on "The World Time Chart." Combined with the "Schedules of Distant Stations," it adds materially to the pleasure of DX fans. Would a DX page be possible or acceptable in the Weekly? As to organs, we in the southern part of the state enjoy the morning programs that come over KFWB from the Forum Theater in Los Angeles. This is the largest theatre organ in the West and is played by Wade Hamilton.

Harrison Says Voice Only Cools Soup

Noting the suggestions by "B. J." of Oakland that there be more vocal musical participation on my part over the air, I hasten to respond, not without regret, that various critics have been unanimous in their opinion that my singing voice is only good for cooling soup. Perhaps, however, I am unique in that I can sing further off key and with greater consistency than anyone I have ever heard—which is covering quite a bit of territory.

Therefore, barring strained relations with the neighbors, which are imminent, I am afraid I will have to confine my vocal efforts to my morning ablutions.

Harrison Holliway, KFRC, Dec. 11

really disapprove of. I dearly love the Jamboree as well as all other programs of that kind.

I thoroughly agree with L. H. K., Nov. 30-Dec. 6 issue.

I again say AMEN to W. R. of N. Sacto. Dec. 7-13 issue. What can't you give us more pictures like you used to, and not so many repetitions. And when an artist's picture is published why isn't it just as easy to print under it what the person does instead of saying Staff Artist? Why not say Staff Pianist, or what not, without making us listen from ten minutes to half an hour and be disappointed by it turning out to be a type of something we don't care for. And at the same time missing some other better program on some other station. Outside of the above squawks I think the Broadcast Weekly is one hundred per cent PLUS.

I am sorry to hear that you are going to raise the price after the first of the year and hope you will reconsider before you do so. But if you do I think you should give us more and still more pictures and not so many repetitions. With all best wishes for the magazine and the open circuit. Just one more past five years' subscriber.

L. R. B., Oakland, Calif., Dec. 8

How About the Independent Stations?

Being interested in just what people have to say about radio programs and artists, I read with a great deal of interest the letters in "The Open Circuit."

The *Mayflower* Model

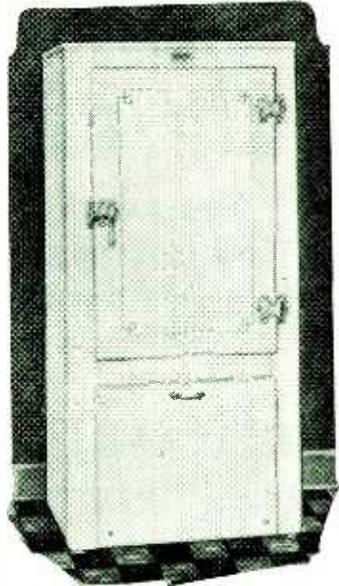

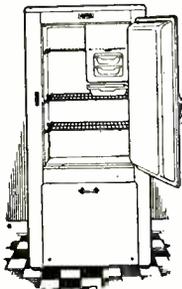

Strikes a New Note in Cabinet Beauty

Its trim aristocratic lines reflect style and character. The dignified satin silver hardware is inlaid in black enamel. Well rounded corners verify in appearance the staunchness of internal construction. On the door a soft grey border carries out the motif of simple beauty.

The Mayflower gives the same quiet, unflinching refrigeration you expect of any good electric refrigerator—but, beyond that, it has an advantage frequently overlooked—*low operating cost*. Size for size, it will cost you much less to enjoy.

From nameplate to base, this electric refrigerator is soundly built. Design, material and workmanship fall nothing short. Quality is evident by comparison—and comparison is urged with any refrigerator at any price.

The Unit is built along accepted, proved lines—but with refinements of design and attention to detail that in the end makes it outperform the ordinary. Because of its simplicity and accessibility, you need never fear the service problem—any refrigeration man can make any adjustments right in your home, quickly and at slight cost—if any such attention should be needed.

\$179.50

Outstanding value is measured only by what you get for what you pay. When you see the Mayflower and learn its extraordinarily low price—its outstanding value is apparent at once. Available in all sizes.

**ELECTRAD
 SUPER-TONATROL**

The Aristocrat of Volume Controls

DESIGNED for modern high-powered radios. Dissipates a full 5 watts. A new principle with resistance element fused to metal plate—and a pure silver floating contact. Provides stepless and noiseless control with unusually long life. 7 types for most volume control purposes including phonograph pickups. List \$2.40 to \$3.50.

*Choose ELECTRAD
 for PERFORMANCE*

Experienced fans and radio workers KNOW that the efficient performance of a modern receiver depends, in a large measure, on resistances. They insist on ELECTRAD Resistances and Voltage Controls—because they’re built to highest standards—and priced RIGHT through modern mass manufacturing.

PERSONAL PICKUPS

BY GYPSY

Lucile R., Los Angeles.—Billy Page (NBC) is a young hero in the eyes of his schoolmates yet he is utterly unaware of it. People who have seen his picture and recognize him on the street sometimes stop him to compliment his "Billy Smithers" portraits in Memory Lane and while he

thanks them, boyishly pleased in that modest manner of his, he wonders how they can make such a big fuss about something that is so natural to do. Billy has deep brown eyes, an expressive, sensitive face, a constructive mind. He likes to build things such as radios and airplanes and the future educational plans mapped out by this 12-year-old youngster are better organized and more sound than those of many an adult. He is not "bookish," not unusually precocious, but a genuine, lovable boy.

* * *

Mrs. C. F., Alameda.—Mr. Milholland's responsibilities as Program Manager at NBC leave him no time for broadcasting. Eva Garcia conducts the Rembrandt Trio, Parisian Quintet and the Recitalists. (Schedules to be found in program department, this issue.)

* * *

M. T., Sacramento.—The Pearce Brothers (KFRC) are realtors away from the microphone. They have no younger brother. Al's birthday falls on July 25. He was born in San Francisco. Comments to the Open Circuit are addressed under that heading in care of Broadcast Weekly. Bob Lee (KTAB) was christened William Gruver.

* * *

A. L. G., Sacramento.—Georgia Earl, formerly of KYA is reported living in Martinez since her marriage to Roy de Wolfe. Richard Le Grand, Imelda Montagne and Marjorie Primley are still at NBC, but have discontinued the Ole and the Girls sketch.

* * *

F. C., Seattle.—Bert Lown (CBS) is 5 feet 8 inches tall, weighs 165 pounds, has gray eyes, blond hair, and is 27 years old. His ancestry is Irish. He is admittedly superstitious "like all Irishmen" he puts it, and

his personality is the high-voltage-zest-for-life kind. His friends call him Whirlwind and aver he is never so happy as when dodging in and out of danger at break-neck speed. Did you know that he was one of the collaborators of Bye, Bye Blues?

* * *

H. W., Blaine.—Maurice Gunsby is at present making electrical transcription for broadcast purposes. He gives no definite date for resuming personal air activities but promises to be on hand as soon as the transcriptions are finished.

* * *

Sally, Oakland.—L. Scott Perkins (NBC producer) provokes interest wherever he goes. You know the type—good looking in a thin, positive way; deep set eyes, gray, intellectual forehead, determined chin, trim mustache. He speaks quietly, authoritively and his hand wanders frequently to his brow while he talks, giving an impression of weighty problems in the background. He is by turns moodily preoccupied or highly elated; smokes incessantly, has an aversion for dress snits, likes outdoor life and is happily married. Mr. Perkins' birthplace is Newbridge, Oregon, he came to San Francisco from Hollywood, has followed the newspaper game, written and directed innumerable plays and is working on a novel which is to be released next Spring.

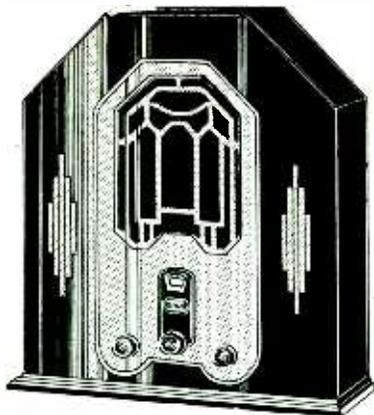

* * *

H. M., Sacramento.—Clair Morrison has gone into the radio advertising business. You may reach him by addressing a letter to 1182 Market Street, San Francisco.

* * *

M. E., Berkeley.—Hazel Warner (KFRC) is back from her South American tour. Of course, you have heard her by now. I wish you could see the lovely "souvenirs" she collected. Gorgeous shawls, exotic perfumes, yards and yards of moving pictures of quaint scenes and colorful natives, bridge and costume prizes won on the boat, and—oh! her impressions! Southern Cross, phosphorous waters, orange moon—all those things they have in songs, you know. On her return trip she came via New York, sang there at the CBS studios, survived the perils of crowded subways, stopped off at her home town in Iowa, where the mayor made a big ceremony of her visit and well—it was all just like something out of a book, thrillingly unreal.

THE
GIFT
THAT
GIVES

THROUGHOUT THE YEAR

Every day for months and years the Remler Cameo continues to give pleasure—a constant reminder of your discrimination in the selection of this the ideal Christmas gift.

Of compact size, the Cameo is a particularly appropriate present for those who live in an apartment, or for the son or daughter away at school.

Visit your dealer now in order to avoid delivery disappointments, and listen to the splendid tone clarity of the Cameo made by Remler engineers, who for eighteen years have been continuously identified with the radio industry.

R **EAD** what Mr. Glasby, Manager, Radio
Department of Schwabacher-Frey Company, has to say
about the Sterling Little Symphony:

SCHWABACHER-FREY COMPANY
SANBORN, VAIL & CO. SCHUSSLER BROS.

Davenport 1616
SAN FRANCISCO

December 11, 1930

MR. L. H. REYBURN, General Manager,
Pacific Wholesale Radio, Inc.,
Seventh and Folsom Streets,
San Francisco, Calif.

Dear Mr. Reyburn:

Last evening I had an opportunity to take out the little Sterling for a tryout. It seems to be generally known that the compact type of radio has been a hobby with me; that accounts for the number of sets that have come to me for inspection.

The majority are quite similar and are such good sets that I seldom express myself otherwise. This type of radio has developed and improved much faster than the larger types we have been used to.

I must confess I liked the appearance of the Sterling at first sight, but other than that it was received with a casual interest.

To my surprise the performance was exceptional. The tone more nearly approaches that of the better class console sets than anything I have tried. Its selectivity is more than ordinary and it certainly reaches out for distance.

From my experience in merchandising this type of radio extensively I believe I am right in saying that the Sterling Company has hit upon the right idea for making midget sales easier and more profitable. You are fortunate to have the line for distribution.

Sincerely yours,

W. K. GLASBY,
Manager, Radio Department.
(Member, Institute Radio Engineers.)

beauty of SPARTON . .

GENUINE SPARTON designed by the very engineers whose musical wizardry thrilled millions of various SPARTONS . . the New Model SPARTON, an instrument such as only SPARTON can give you, at yet only \$77.50 complete with tubes. The marvellous power and distance that SPARTON owners enjoy, plus that sheer musical beauty and realism of that have given SPARTON world-wide fame. All in a handy table-size cabinet of breath-taking beauty. A glow of pride, what tremendous satisfaction you will feel Christmas morning when "they" behold this new SPARTON and realize you have given them the only one they can buy. What a subtle, wonderful way of giving a real affection. See and hear this new SPARTON *to-day*, at any authorized SPARTON dealer.

8 to 8:30 p.m.—S & W Mellow'd Melodies, KGO, KECA, KFSD, KTAR

From the opening number, "Christmas Charms," to the closing musical novelty, "The Woman in the Shoe," the S and W Forum of the Air is filled with the spirit of the holidays. In the first selection a mixed vocal sextet and string ensemble will be heard in an old German song which is now out of print.

8 to 8:30 p.m.—Let's Get Associated, KHQ, KOMO, KGW, KPO, KFI

"The End of the Cattle Rustlers' Regime in San Bernardino" is related in the Let's Get Associated play. The climax of the story is found in the call for all the Mormon men to return to Salt Lake City to prepare for war with United States troops who have been sent to Utah to stamp out Mormonism.

The local time, under the "Pacific" heading, corresponds to the time indicated on the same horizontal line in any other part of the world. In order to determine whether it is the same day, or the preceding or following day, follow this rule: Crossing from dark to light area at midnight, indicates the following day. Crossing from light to dark area, at midnight, indicates preceding day. As an example, 4 a.m. here is 9 p.m. in Tokio of the preceding day. Light face figures represent a.m. Black face figures represent p.m.

ALL radio receiving sets in France are to be made subject to government tax, under a proposal soon to be made to the French Parliament by the Minister of Posts, Telephones and Telegraphs, according to a report to the Department of Commerce. Considerable opposition to the tax is expected to be voiced by radio owners, but the amount of tax is to be small and the plan is to use the proceeds almost entirely for the purpose of improving programs.

THE Mexican government is installing a new short wave radio station at Guaymas, near Ensenada Bay, for the purpose of communicating with ships, with other stations in Lower California and later with Mexico City.

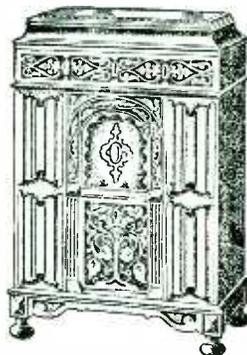

Even a Zenith can be inexpensive

For fifteen years the public has known that the initial cost of a Zenith was more than that of ordinary radios. That is still largely true, but there are new 1931 Zeniths which can be purchased for as low as \$158.

Better still, there is a surprise for you if you visit any one of our stores before Christmas

Zenith Radio-Phonograph Combination

A beautiful period cabinet containing a real Zenith radio. This is a sensational advancement in radio-phonograph combinations, featuring a revolutionary Automatic Record Changer that provides thirty minutes of continuous transcription. Housed in a magnificent console of authentic Tudor period. Handsome carvings and finess of detail enhance richly grained Walnut and Birch. The Panel is of Buff Walnut. Employs the new Zenith 70 screen-grid chassis and super size dynamic type speaker. 9 tubes with rectification.
