CONTAINS ITS OWN POWER—

The Sargent Short Wave Converter is a complete unit in itself. It contains its own transformer, rectifier, and filter which supply all of the power necessary to operate it. This is a tremendous advantage for three reasons. First, it is the only way in which the proper tube voltages can be maintained when operating with all kinds of receivers. Second, it eliminates the necessity for prying into the receiver power pack or tampering with the receiver voltages in any way. Third, it greatly simplifies the demonstration problem. The Sargent Short Wave Converter connects between the antenna and the set, the same method of connection being used on all receivers. There is no need for either a dealer or a service man to install your Converter, you can do it yourself in less than five minutes.

WHAT CAN YOU HEAR ON IT?

Used in connection with almost any screen grid receiver, the Sargent Short Wave Converter will bring in East Coast broadcasting stations with good loudspeaker volume. Many foreign stations can be heard when location and conditions are right. A list of over 75 broadcast and telephone stations, together with their dial settings, is furnished with each Converter. Every DX fan should have one and get acquainted with the newest phase of radio.

DEALERS—LOOK!

The Short Wave Converter opens up an entirely new field for the forward-looking dealer. Every DX fan is in the market for one. Everyone interested in the progress of radio wants to know what is happening on the Short Waves. Many of your present customers are interested. Put a demonstrator in your store, tune in the East Coast with loud speaker volume, and make your store headquarters for short wave equipment.

In Northern California, the Sargent Short Wave Converter is sold on the dealer franchise plan. We protect you in your own territory, and direct prospective customers to you. Write at once for details. Franchising of outlets is taking place right now.

Good Radio Reception Coming

RADIO reception conditions will be vastly improved next fall and winter if the predictions of astronomers who study the sun come true.

A close connection between sun-spot activity and radio reception exists, it has been found by scientists. It is believed that when sun-spot activity is at a minimum reception conditions are at their best, and vice versa. Observations over a period of several years have largely confirmed this opinion, and scientists expect to prove their observations by 1933, the intervening period being one of minimum activity.

The sun-spot activity waxes and wanes in a fairly regular cycle of about ten to eleven years, it is declared. These spots create magnetic disturbances not yet entirely understood, and it is these disturbances which affect radio reception. The magnetic "storms" are at a minimum during the period of least activity, and at the same time the height of the so-called Kennelly-Heaviside layer, which reflects radio waves back to the earth, also is at a minimum, permitting greater intensity of signals.

A period similar into which we are now entering occurred in 1920 and 1921. Reception conditions then were excellent, although broadcasting at that time was undeveloped and the general public knew little or nothing about the situation. During the ensuing years conditions became more difficult as the maximum of sun-spot activity was reached. This activity is now declining, and during the next season or two reception is expected to improve materially.

It is well known to scientists that the reflecting plane 100 miles or more above the earth's surface, known as the Kennelly-Heaviside layer, has been dropping steadily for several years, and that this has changed the transmission constants of radio waves. Prominent engineers have estimated that radio reception conditions during the past season have been decidedly better than a year ago, Dr. H. T. Stetson, an astronomer who has been measuring radio reception as a function of solar phenomena, reporting the strongest signals in years.

On the basis of this experience it is predicted that reception will be still better in 1931-32 and 1932-33.

PERSONAL PICKUPS

BY GYPSY

Mother B., San Francisco.—Michael Raffetto (NBC) does not indulge in biting sarcasm out of character unless the occasion truly warrants it. There is an intangible charm about him; a Beethoven-like quality; impenetrable; fascinating. He has moody brown eyes, plenty of black, wavy hair, strong features, fine gleaming-white teeth and broad, brooding shoulders. His height is 5 feet 8 inches and he weighs a deceiving 130 pounds.

A. S., Sacramento.—Seldy Roach (NBC) is like some beloved character out of a book with his winged collar and quaint cravat. Sixty-eight years old is he; a born trail breaker; straight as a sapling. Modest of mein and manner with gentle young-blue eyes and gray hair. He has devoted fifty-two years to the theater, is an honorary member of the Lambs' Club, has been starred and co-starred with many favorites of the stage and was engaged in production work until quite recently. "Pop" Roach, as he is affectionately called, is the father of eight grown sons and daughters and the grandfather of seventeen children.

F. A. H., Berkeley.—Hazel Warner (KHJ) is 5 feet 4 inches tall, weighs 125 pounds, and is markedly fair. She gives off an impression of lighted vivacity, modulated by self-contained calm; a reposefulness suggesting bowls of fresh flowers and cleanness. You instinctively feel the urge to pour out your troubles, certain in the knowledge that her advice will be practical, that it will restore your jaded optimism with renewed strength and self-confidence. She is a student of philosophy, an enthusiastic motorist, a humorist and one of the sanest people of my acquaintance.

W. M., Provo.—Henry Starr (KPO) is a light-hued young negro, 6 feet tall, weighing 165 pounds. He has been in radio eight years, is a recording artist, has a sound musical foundation and plays eleven different instruments. He gives extraordinary care to the selection of his apparel, is partial to gardenias and goes in for poetry and golf. Yes, he is married. Hails from Washington, D. C. His mother was born in Kentucky and his father, who served for many years in the United States Army, came from Mexico.

L. E., Sacramento.—Constance Yates has been making personal concert appearances since last you heard her. Yes, you are to hear her again. She will resume broadcast activities very shortly. Watch the program section.

D. O., Los Angeles.—Sid Goodwin (NBC) is 5 feet 9½ inches tall, weighs 135 pounds, has blue eyes, and is, much to his annoyance, quite marvelously blond. He is 35 years old, looks much younger, and his ability to stow away ice

cream and chocolate bars simply is appalling. Hobbies—golf, ice hockey and more golf. Tschalkowski is his favorite composer; Ludwig, his author; blue, his color; biographies, his reading, and opera, his musical exaltation. Pet aversion—the exclamation point driver who changes his mind after signaling a left turn.

Daphne, Los Angeles.—Robert Olsen (KFRC) is of average height and weight, medium light as to coloring, with hair severely straight and a lean-cheeked face. He is of Swedish extraction, somewhere in his thirties; a devoted husband, an indulgent father, a clever business man.

H. M. W., Portland.—Irving Kennedy (NBC) has a line. Two lines, to be exact. The one runs something like this: "No, gee, lady! I'm not married. Say, do I look like—gosh, that's terrible! I'm single, no foolin'. Put me down as single for a long, long time." The other line is made of cord or whatever fishing paraphernalia is constructed of and is always conveniently handy. Irving will risk a cold any time wading in freezing waters after some poor, unsuspecting fish. He has a bewildering personality (Irving, I mean), generously equipped with bilthe insouciance, lightning-like witticisms tempered with a serious "note" all his own. He is 35 and was on the stage prior to joining the NBC staff.

Mrs. I. W. W., Wenatchee.—Amos 'n' Andy do appear in person before the microphone in each and every broadcast that you hear. Their schedule calls for two appearances nightly and three on Thursday. The third broadcast is given exclusively for stations on the west coast and KSL at Utah.

T. C., Sacramento.—Josephine Holub (Arion Trio, NBC) has luminously dark eyes, quiet features, long, almost-black hair and fine capable hands. She is 5 feet 5 inches in height, weighs 125 pounds or thereabouts, is of an unhurried temperament (usually) and wears black and red tones exceedingly well. She has played violin since she was a very little girl and joined the Arion Trio twelve years ago while a student in high school. Jo's father was born in Bohemia, her mother in Wisconsin, of Bohemian parents, and you should hear Jo speak the language of her forebears. See her, too; for at such times she is transformed from a sombre American girl, shy and reticent, into an intensely sparkling, vibrant creature of amazing capriciousness.

Miss C. D., Sacramento.—Ronald Graham (KFRC) is single, twenty, distinctly cosmopolitan and a thoroughbred. He was born in Edinburgh, Scotland, and lived in England and India as a youngster and came to California in 1920. He is an exceptionally good tennis player, loves being outdoors and has an aptitude for sketching. That reminds me, one of his brothers is a very successful commercial artist, and speaking of families—Ronald's father is a retired English Major, his mother's father was bandmaster of Britain's famous Black Watch during his day, and another relative is a celebrated opera singer in Europe.

MICROPHONE GOSSIP

A cartoon illustration of a man with a large nose, wearing a suit and tie, speaking into a vintage microphone. The microphone is on a stand with a circular base. The man's mouth is open as if he is speaking.

• • • Cookie, the Sunshine Girl, known over the NBC network as "the golden-voiced blues" singer, Cookie crooned her way to fame and fortune in New York, sang at Roxy's Theater, came west to be a staff soloist at the San Francisco studios of NBC, and now is winning KFWB listeners with her unusual voice.

• • • William H. Wright, of KFRC, enlisted in the regular army as a private in June, 1917, and served for the duration of the war. His first extended order drill was in a graveyard on Angel Island, which wasn't exactly an ideal place for an extended order drill in the minds of a bunch of raw recruits. Bill was promoted to a lieutenantcy before the war was over.

• • • Helen Stone, blues singer of KPO, who likes to don her flying togs and cavort among the clouds, has turned serious attention to earning a transport pilot's license. Miss Stone is already the possessor of a private pilot's license, but this does not satisfy her. She recalls the old adage, "Hitch your wagon to a star," but wagons went with the advent of the automobile, and not having a wagon Miss Stone is determined to become a "comet" of the airways. Experienced pilots who have seen her put her "crate" through its paces are united in the opinion that Helen is one of the country's leading aviatrixes. She is a pal of the famous Bobbie Trout, who, with Edna May Cooper, Hollywood movie actress, recently established the endurance flight record for women of 122 hours and 50 minutes.

• • • Mart Grauenhorst, NBC banjoist and guitarist, began his career when he was attending high school in Lincoln, Nebraska. The school gave a dance called "The Mixer" almost every afternoon, when the freshmen could meet the seniors. Mart played the banjo in the high school orchestra. The girl who played the piano is now Mrs. Grauenhorst.

• • • David Hartford, old-time director and favorite of the Belasco and Morosco

stock companies, comes to the microphone of KMTR every Monday and Thursday with his wife, Frances Nordstrom, actress and author of note, in a series of one-act plays, written by Miss Nordstrom. David Hartford will be remembered for bringing the original production of "Peg o' My Heart," also "The Country Boy" and "The Dollar Mark" to Los Angeles. He has directed such now famous celebrities as Lewis Stone, Florence Reed, Marjorie Rambeau, Florence Oakley and Richard Bennett. Recently he has been playing in talking pictures.

• • • Although diminutive Ann Leaf weighs only ninety pounds the programs she presents on the 1100-pound Estey organ over the Columbia Broadcasting System are heard all over the United States. Engineers have wired the expression pedals of the Turce Manual organ together so that one tiny foot can operate them as a unit.

• • • According to Ralph Brunton, general manager of KJBS, he is installing a special recording device exclusively for his staff. Under the new arrangement the announcers and artists will have an opportunity to hear their own auditions before going out over the air on regular broadcasts. The station is also enlarging its quarters to provide another studio to be used exclusively for auditions.

• • • Leo B. Tyson, for the past six years an advertising promotion executive of the Hearst organization, has joined the staff at radio station KHJ as director of public relations. Tyson began his newspaper experience in 1923 after serving five years as an officer in the United States Navy. Records show that he was one of the youngest officers ever to have command of a commissioned ship in the American Navy. In 1922 he was selected by the American Relief Administration, of which Herbert Hoover was president, to represent that organization in Danzig, Germany, in the shipment of foodstuffs into Russia.

• • • Fred Hartley, KHQ, is a modest, mild-mannered gentleman who draws sweet music from the xylophone. He plays several other instruments also, and has to his credit several delightful compositions. He has, too, great ability in arranging and as conductor. He is married and has one son.

• • • Tom Hanlon, announcer of KFI-KECA, Los Angeles, was called to the telephone recently after the conclusion of a symphony concert performed by a group of 100 instrumentalists, in which the string section numbered sixty-two men. "Excuse my bothering you," said the caller, "but would you mind telling me who was it playing the 'cello'?"

• • • Northwest listeners have requested the name of the author of the "Listen" series of essays on real sentiment. He is none other than Clay Osborne, KOIN's senior announcer and director of plays. Not long ago Osborne produced "Listen Son" and it became an overnight sensation. Perhaps this ability is derived from his avocation, the study of philosophy.

• • • Ann Holden, domestic science authority of the NBC's Woman's Magazine of the Air, has been caught looking sidewise at herself in mirrors lately. It isn't vanity, but puzzlement. Not long ago Ann spent a few days in Southern California. As she was walking along a Los Angeles street a woman rushed up and pumped her hand madly. "I just know you're Ann Holden of the radio!" she exclaimed. "I've seen your picture so often, and there's no mistaking the microphone tilt to your chin." Hence Ann's new interest in her profile. She is wondering if "microphone chin" is to be added to the list of occupational idiosyncrasies.

• • • Ray Nealan, second tenor in the KFRC Buccaneers, is a veteran in Bay District radio. He sang over the old Telegraph Hill station and was a member of the KFRC Cuckoo Club back in 1925. He has been actively and professionally engaged in musical work since his discharge from the army, following the World War.

Ray is not only a native son, he was born and raised in San Francisco, and has lived there all his life with the exception of the time spent in the army.

• • • Pat Cullinan, English character actor, who has become known to KFVB first through "Musical Portraits," and recently as "Lord Eatenswallow" on the "Speed" program, plays the role of an English director in "The Butter and Egg Man," opening at the El Capitan theater. Good luck, Pat!

• • • Imelda Montagne, pretty, dark-haired little singer who is heard in the Coquettes, with Annette Hastings and Marjorie Primley, is less than five feet in height, but as long as she has her ten-year-old son with her, lack of inches doesn't matter. Dickie, the youngster, gravely escorts his mother to the studio every Saturday night in time for the Associated Spotlight Review in which she appears. Trim and serious in his military academy uniform, he watches intently for the moment when she is scheduled to sing, and he always manages to get a footstool placed before the microphone for her, just in time for Imelda to take her cue.

• • • Arnold Maguire, comedian, has returned to KPO, where his original wit and humor is playing a big part in the success of the "Who Cares" hour, a daily feature of KPO. Maguire is an old hand at the "funny" business, having been a headliner of vaudeville a few seasons back. He acquired considerable reputation as "Lafe," of the blackface team of "Lem and Lafe," which was a feature of KPO's former "Variety Hour" broadcast. He appears in the skits of "Rummy and Dummy," playing the role of "Dummy," as well as wisecracking throughout the programs.

• • • Unusual public interest was shown when Ruby Adams, well-known San Francisco show girl, who was seriously injured a few years ago in a local theater, made her radio debut last week over KJBS. Letters, telegrams and phone calls flooded the station. The enthusiasm was so great that Ralph Brunton, general manager of the station, offered Miss Adams a steady contract, which she is seriously considering. In private life Ruby Adams is Mrs. John Davis, the wife of "Coffee Dan."

• • • Walter Bunker, Jr., KFRC's chief announcer, is the only fraternity man on the staff. He is a Phi Delta Theta.

DICK RICKARD, Assistant Production Manager for KFRC, is a much traveled young man, in spite of his twenty-three years. He got the habit early. Born in Indianapolis in 1907, he was taken by his parents to Colorado two years later, and soon after that to Vancouver, B. C. Before settling for a time on Prince Edward Island, in the Gulf of St. Lawrence, he made four trans-

DICK RICKARD

continental trips across Canada with his father. Dick began school in Vancouver and then two years later the family moved to Seattle, where he completed his education in Seattle schools, getting his Bachelor of Arts degree from the University of Washington.

At the university he was very active in dramatics, writing and—yelling! He was the yell king of the school. He was student manager of dramatics, on the staff school annual for four years, and a member of the "Oval" Club—which corresponds to the "Skull and Keys" at Berkeley.

But during the summer months, Dick was doing considerable traveling. The habit engendered in early youth was still strong. It was his habit to ship out of Seattle for the Orient, Alaska or south to California. He shipped out in most any capacity, one trip he was a pantryman, another a bellboy, and several trips he signed on as a musician. He learned to play the drums just for that purpose. Dick says he is a good drummer, and took six or seven lessons from a qualified instructor.

After graduation he went to Los Angeles looking for adventure (travel again) and found it in the studios of KHJ, the Don Lee Los Angeles station. He was there until January, 1930, when he was sent north to KVI and KOL in Seattle. He was transferred to KFRC in November, 1930.

Dick is fond of the theater and good books. He reads a great deal and likes any book with sound intellectual or artistic value. He mentions H. M. Tomlinson and Cabell. His hobby is collecting books. He likes bridge, golf and dancing.

And at the tender age of 23 he is a "settled" family man. He is married to a red-headed girl and proud of it.

"DON'T go 'way, folks!" When that familiar appeal comes through the loudspeaker, NBC audiences know that Charlie Wellman is on the air.

This popular entertainer, known as "The Prince of Pep" to his radio followers, really doesn't have to ask them not to go away. For nine years they have been staying close to the radio as long as Charlie Wellman was singing or talking, as he does now, every Monday, Wednesday and Friday morning, from the San Francisco studios of the National Broadcasting Company.

Charlie is one of the well known radio artists of today who has been with radio through its babyhood. Born in Iowa, his family early moved to Illinois, and most of his boyhood was spent in Chicago. He majored in English and dramatics at the University of Chicago, and when he was graduated, he did not hesitate long in choosing his career.

While he was still in his early twenties, he was singing and dancing on vaudeville circuits. Jazz, like radio, was still young when he made his radio debut by crooning jazz tunes over Station WDAP in Chicago.

Charlie astonished his companions in the studio by moving his microphone from its accustomed place to the top of the piano, and singing and playing softly, directly into it, instead of from a distance, as most radio artists did at that time. He was new at broadcasting, but he had been a radio enthusiast from the technical side, long enough to have formulated some theories of his own. Some of the technical innovations he pioneered in Chicago are established as broadcasting methods now.

Among Charlie's treasured possessions is a little stub of a railway ticket. It is the return passage—never used—of a round trip which he bought when he came to California. He never went back to Chicago, but remained on the Pacific Coast, where he has been on the air almost continuously, at one station or another, ever since his arrival. He has been announcer, entertainer, studio manager, in turn; now, sponsored by Sussman and Wormser, he gives all his time to entertaining.

CHARLIE WELLMAN

ANNA KRISTINA, KPO's Swedish comedienne, who stars with Lee S. Roberts on the "Breakfast With Sperry" programs, Sunday mornings, 9 to 9:30, is just as funny off the air as when she is broadcasting.

Asked what was the funniest thing in her life, Anna with a rougish wink stated, "everting if you yust look," and that just about sums up her kindly humor.

Her father brought her to the United States when she was a tiny lass of five years. All the English he knew was "jah", so when he landed at New York he was asked if he was going to Minnesota, he answered "jah" not knowing what they said—with the result that he and his family were soon Minnesota bound.

Following is a summary of Anna's life as told by herself: "I vas educata part in Minnesoota—en part in state ov Vashington—but fur de most part in general experien out in de world. My piple vas wealthy up tu de time ve needed money—I never had tu vash dishes or be a vaiter no place—it vas more easy tu find scrubbing yob! But I soon graduated to actor—piple tot I vas funny—so I vas tinkin en tinkin on dat—en dat made me feel funny en I begin tu talk vit myself—en den von day sombody com en take me up in a elevator to big ruum vit glass vinduus all round en tick carpet—nutting else der—only a bisniss dey call 'mike.' Ofkors I tot I vas in yail bekors I talk tuu mursch—en I tot dat vas kinda svall luukin yail, jah, anyhoo. Val dey tell me if I talk quick I hunt have tu stay dar long. Val, it vas yust gude tu hav schanst tu talk vitout being boddered—so I yust talk, I tot nobody gontu stop me from tu do dat no. I like to talk so awful gude!

ANNA KRISTINA

"Val den it come a lady in dar en say I got de yob wid KPO—en dat vas awful funny bekors I vas vorkin dat time anahoo. Dat's de vay if you got something en yu is tankful den yu git plenty more. Val, anahoo, I got de yob en after dat all I done is go in svall ruum vot dunt need to be scrubbed de floor—en talk crasy en git money fur it!"

Asked if she had a hobby—Anna started to gible and retorted, "No, I never had no hubby—I am still single!"

And that is Anna Kristina of KPO.

GEORGE NYKLICEK, KPO's staff organist, is a Bohemian and was born south of Market Street in 1901 on a little street known as Barnard, of which, like many other streets and places well known before the fire, there is left no trace. Even the schools, the Haight Primary and the Crocker Grammar, where the embryo organist attended, have long since become but places of memory.

Nyklicek, like the rest of the clan who were born "south o' the slot," a pre-fire title for South of Market, is justly proud of the fact—and well he might be, for many of San Francisco's leading citizens, down through the years, have emerged from there.

GEORGE NYKLICEK

George's father, John A. Nyklicek, was a prominent musician of the French horn, viola and violin, and young Nyklicek first began his musical investigations when at the age of 5 years he used to attempt to pick out tunes on the piano after hearing his father practice them in the next room. At the age of 8 he was put to serious study of the piano under the tutelage of Hugo Mansfeldt, and at 15 made his first professional appearance at the old Papyrus Club.

At 19 Nyklicek turned to the study of the organ, studying with the late Emil Barth, studies which included the theoretical subjects of the instrument. In a short time he was featured organist with local theaters and then followed an engagement to tour the Pacific Coast as dedication organist for a manufacturer of organs. Returning to San Francisco in 1924, Nyklicek became associated with the California Theater as head organist. Last October he became staff organist for KPO and has been featured on various programs throughout every day since that time. His programs embodying emotional coloring, tasteful and artistic interpretations and technical proficiency have won a host of admirers for him among the radio auditors of KPO.

Aside from the organ, Nyklicek has two hobbies which are widely separated—one is raising toy fox terriers, the other is the study of music history and the development of the opera, which he has studied diligently since he was 12 years old. His only outdoor diversion is watching soccer football—his voice can be heard among the loudest cheerers.

The OPEN CIRCUIT

This department is open to all. Send in your letters. Anonymous letters will not be published. Give full name and address.

Would Restrict "Third Rate" Stations

Why not restrict the low-powered, third-rate stations from broadcasting after 6 p. m.? These stations have a type and quality of program that is, I believe, unpopular with the majority of the listening public, and they do interfere with the distant and more desirable stations.

Among my acquaintances I have yet to find anyone who deliberately listens to these stations, and I should like to see the result of a census of popularity among various types of radio stations.

I feel grateful to the sponsors of a good program in which the advertising feature is kept well in the background, but am antagonistic toward the half advertising and half phonograph music of an inferior quality as put out by a multitude of haywire stations.

L. W. M., San Francisco, Feb. 26

Wouldn't Miss the Happy Go Lucky Hour

Although I am a new user and reader of BROADCAST WEEKLY, I am already a booster for it. I have tried other radio books, only to find that I care for yours much more than the rest. It is the biggest and best radio book that I have ever seen for ten cents. I like it because of the arrangement of the programs by the hour, the location of the stations, programs that are over networks, the pages of the artists' pictures, and the short writeups. I always make it an effort to get home from school as soon as possible to hear the Happy-Go-Lucky Hour. As some of the other "Open Circuit" radio fans have stated, I am sure a booster and satisfied listener of the Happy-Go-Lucky Hour and the Golden State Blue Monday Jamboree programs.

However, I miss part of the Happy-Go-Lucky Hour because I am not out of school at the time the program comes on the air. But what would the Happy-Go-Lucky Hour be without Norman Neilson, Charlie Cartier, Edna Fischer, Tommy Harris and good old Lord Bilgewater, and Al Pearce as the master of ceremonies. I enjoy Walter Kelsey's music as well as the humorous part of the program. I only wish that they could have their program on Saturdays as well

as the other weekdays. Mr. Harrison Holliway is sure a "crack" at announcing the Blue Monday Jamboree. In other words, I think KFRC ranks high in first-class radio entertainment. We hear most Don Lee-Columbia programs over KHJ, Los Angeles. The most outstanding stations, to my notion, are KHJ and KFRC. I think that KFOX, Long Beach, has very poor programs. I also believe that this continuous "dizzy" advertising of "fakes" will lose more listeners than they gain in the long run. We make it a special point to hear the Lucky Strike dance orchestra and the Paramount Publix program, as well as the Gold Medal Fast Freight and the Collier Radio Hour. Black and Blue detectives, Brick English and his orchestra and Jessie Crawford, Royal's Poet of the Organ, are also outstanding features.

In closing I want to wish the BROADCAST WEEKLY and its associates the best of luck. Hoping that you may continue your splendid radio book in the many years to come.

A Few Words About KGO

With my subscription slip I am sending in a few words for the Open Circuit. I have stood it as long as I can—all this praise of KFRC. It's a good station, yes, and I listen to some of their programs occasionally. I think it's about time, though, that somebody said something about KGO, and I've noticed a few loyal fans have come to the fore in their defense. I agree most heartily with B. E. R. of Novato, for if you want "good music, drama, interesting and instructive talks," KGO is the place to get them, and is unsurpassed. As for their announcers, they are, one and all, splendid fellows. Not only are they witty, but talented. As for the Spotlight Revue, it beats the Golden State Blue Monday Jamboree all hollow, especially since the Associated Oil Company has sponsored it. Most any time of day you'll find our radio tuned in on KGO, for it's our station.

I, too, have a radio scrap book and am glad to see more and better pictures of radio stars in the WEEKLY for that reason.

Mrs. H. D., Petaluma, Calif., Feb. 16

Enjoys Constructive Criticisms, But . . .

Quoting from Wm. E. H., San Francisco, "I am not usually given to writing letters to newspapers, magazines and the like, but I've got to get this off my chest."

Wm. E. H. thinks that BROADCAST WEEKLY is a great help. It certainly must be. He doesn't know that the Hallelujah Hour has been discontinued on KHJ. Why leap so viciously at KFRC? And another thing, if his BROADCAST WEEKLY is of such assistance to him, how did he ever happen to miss the picture of Dr. Cross, published in February 15-21, on page 59, first picture?

I enjoy your Open Circuit when the letters are interesting and contain good constructive criticism, but when they are full of nasty personal slams against the different stations and artists, I think they are totally unnecessary.

I'm dumb, I admit it. Why, I even like advertising. But when I haven't intelligence enough to appreciate a program, thank the Lord, I still have the strength to get to the radio and tune in on something I like better.

Hazel L. S., Stratford, Calif., Feb. 25

If Only All Stations Would Follow KHQ's Example

Well, what a battlefield the Open Circuit page is turning out to be. It is too bad a few prisoners cannot be locked up for a while where they can't have a radio; maybe they would half way appreciate it when they got back to it.

I think it is a great injustice to blame BROADCAST WEEKLY, or the stations either, for the change in program schedules. I hardly imagine the stations make those changes for a mere pastime. There is undoubtedly a good reason every time. However, I do agree with J. B. of Fresno in that the announcer could state that the program had been discontinued or that it would come on at another hour. I'm sure this would help the matter a great deal. That is one of the many nice things about KHQ in Spokane. They usually make announcements in advance if the time of a program is to be changed, also if an artist who regularly appears on a certain program is not there they tell us why and when we may expect him back. This only takes a few words on the part of the announcer and it makes us all feel more satisfied.

I can't help commenting on these people who do so much crabbing about certain artists and programs. Why can't they remember that undoubtedly the very program they dislike so much their next door neighbor is enjoying immensely and vice versa. If they don't like a certain thing why not turn to

something they do like and keep still about it. Everyone has his own taste, naturally, but when there is such a wide variety of entertainment to choose from I can see no excuse for all this fussing.

I certainly did not like the letter F. J. B. wrote about KFRC artists and announcers (I think they are all fine), but then, by reading all the other letters you have been printing we can see that he is only one in a thousand. Maybe he does know a real artist when he hears one, but on the other hand maybe his idea of a real artist would not agree with some of the rest of our ideas at all.

In closing, I will say that I have been a subscriber for several years and eagerly look forward to each issue of your fine magazine. I was very glad to see an article by Monroe Upton back again in this week's issue and hope we may have more of them.

Miss H. H., Leavenworth, Wash., Feb. 6.

Suspects H. McK. Likes "The Peanut Vender"

I get a good deal of amusement, pleasure and information out of your magazine and wish it continued success. I want to have my little say in the "Open Circuit" and I am sure there are plenty of radio listeners who will agree with the following:

As a dyed-in-the-wool Hazel Warner fan I want to take exception to the remark of H. McK., San Anselmo, who seems prejudiced against "Springtime in the Rockies," one of the prettiest songs of recent years. Let us hope that H. McK. is not so lost to all sense of beauty as to object to the clearness, the appealing quality, the heart-stirring timbre of Miss Warner's voice. Let us be charitable and believe that he (or she) meant the song only. If this is true, did H. McK. ever stop to think that Hazel Warner must have received hundreds of requests to sing that song and that she was pleasing a vast audience by singing it often? The next best thing to hearing "Springtime in the Rockies" sung by Miss Warner is to hear her sing "Imagine." The addition of this well-loved artist to the KHJ staff makes, I think, that station the best on the air, as it already had a pleasing array of male talent, to say nothing of the merry Elvia Allman. If H. McK. wants to hear some good music let him listen to one of the fifteen-minute programs Miss Warner gives us with her songs and philosophy. If that does not convert him he is a hopeless case. I have a suspicion he likes "The Peanut Vender."

From "printer's devil" to the head of an enterprise which is part of the daily lives of hundreds of thousands of American citizens, Don E. Gilman, Vice President in charge of the Pacific Division, National Broadcasting Company, has traveled.

The man who sits at the helm of the western radio chain belongs to Ben Franklin's race—men to whom a printing press, painstakingly worked by hand, unrolled the horizon of a new world. Long associated with advertising and publication work, Mr. Gilman was known nationally before his name became an important one in the field of radio.

The NBC executive was born in

Indianapolis, the son of a newspaper man. He was still in high school when he became a printer, conducting a brisk juvenile business with his hand-press. Later he entered the employ of the Indianapolis Sentinel as printer's devil. He was superintendent of plant when he quit the printing office.

He was just 23 when he came West and embarked upon his career here. While he worked on various Pacific Coast newspapers he was studying electrical engineering and business administration, with the interest in new ideas and viewpoints which has been his life-long habit. He was superintendent of several Scripps-McRae publications

before he turned definitely to advertising.

As chairman of the Vigilance Committee of the Los Angeles Advertising Club, he was largely instrumental in securing the passage of California's Honest Advertising statute. Later, in San Francisco, he was president of the Pacific Advertising Clubs Association and Vice President of the Associated Advertising Clubs of the World. He was an officer in the World War.

Mr. Gilman entered radio in 1927, as manager of the Pacific Division, and in 1929 became Vice President in the corporation. His principal interests in life are his work and his family; his hobbies, golf, motoring and swimming.

When programs lag switch on your PHONOVOX

The new Master Phonovox Catalog No. 107. Contains 12 features that make it the greatest value in pick-ups today. List price \$15.00.

RADIO programs can't be of the highest quality at all times. Sometimes programs fail to hold your interest or someone wants to dance when there is nothing on the air. That's when the owner of a Phonovox appreciates the value of this instrument. Merely switch from radio to phonograph, put on your favorite record and your records are reproduced with all their original charm and quality—through the amplifier in your radio set.

Remember, too, that static does not interfere with the electric reproduction of phonograph records. With a storm raging outside when all radio programs are ruined by crashes and crackles, you can listen to your PHONOVOX reproduce music and song just as free from noise as it is on days of perfect radio reception.

You will also be interested in the Pacent Recordovox which enables you to make phonograph records at home with professional results and without the necessity of expensive apparatus. The Pacent Recordovox is designed to operate with the pre-grooved type of records which are available everywhere at small cost.

HENRY STARR

“The 16-40 Boy”

Every
Evening

except
Sunday

6:45

to

7:00

o'clock

!

KPO

Smile with him..
Laugh with him..
Sigh with him..

Reach across the whole world of radio entertainment and you'll find no one who can take the place of Henry Starr . . . singer of songs of today . . . pianist of haunting harmonies . . . entertainer extraordinary . . . he'll play upon your heart strings and make you laugh, and sigh, and cry. . . .

[We invite you to send in suggestions of songs for Henry Starr—who appears exclusively for Lloyd K. Hillman—to sing. We wish to make the Starr hour outstanding in your evening of radio enjoyment.]

THE ORIGIN OF THE "HAPPY GO LUCKY HOUR"

AL PEARCE of KFRC, the Master of Ceremonies of the celebrated "Happy Go Lucky Hour," heard daily from 2 to 3 over eight Pacific Coast stations, is the originator of the program.

A little less than two years ago Al was assigned to a Saturday morning program from 10 to 11 o'clock, with his guitar and a piano player. One day he received a letter from a listener asking if she could come to the studio and watch him broadcast.

"If you are not a bill collector and think you can stand it, why come right along, answered the genial Al, over the air.

The next broadcast saw at least a dozen individuals assembled in the studio. A month later larger quarters were needed and the program had to be moved to "A" studio, the largest of the group of KFRC studios.

By that time Al had enlisted the services of his brother Cal, and shortly after Norman Nielsen and "Mac" joined the gang.

There was never any program arranged beforehand, the idea being to put on the entertainment with complete spontaneity. With no worries about program building beforehand, Al thought he had a perfect right to call it "The Happy Go Lucky Hour"—an apostle of sincere friendliness and good cheer.

No one realized the phenomenal way in which the hour would grow, nor the unique place it would win for itself in the hearts of Pacific Coast radio fans.

The Christmas and Easter activities both this year and last, when thousands of toys and presents were distributed to the poor children and the crippled children in the hospitals, has proved tangible evidence of the sincere regard in which the program is held. Every single one of the gifts was sent in by a radio listener.

At the present time the Happy Go Lucky Hour includes, besides Al and his brother Cal, Norman Nielsen, "Mac," Tommy Harris, Edna O'Keefe, Edna Fischer, Cecil Wright Lord Bilgewater, Clark Sisters, Nita Mitchell, Charles Cartier, and the KFRC dance band under Walter Kelsey.

Moments from comic opera will be
 recalled in the half-hour of S and W
 Mellow'd Melodies. Franz Lehár's most
 popular work, "The Merry Widow," "The
 Belle of New York," "The Count of
 Luxembourg," "Eva" and "Gypsy Love"
 are the comic opera favorites of the past
 from which will be chosen the selections
 the vocal ensemble and the orchestra will
 present. The voices of Barbara Blanchard,
 soprano; Eva Gruningier Atkinson, con-
 tralto; Ben Klassen and Myron Niesley,
 tenors; Everett Foster, baritone, and Harry
 Stanton, basso, will be heard in the tunef-
 ul songs. Joseph Hornik, director, will
 introduce two numbers by the violin choir
 which will contrast to the comic opera
 melodies, "La Seduccion," a tango, and
 "Old Black Joe," played in a special ar-
 rangement.
