Lafayette Radio

THE Lafayette 'VERI-OWN' RADIO

Dainty as millady's hand-bag—and just about as big—this unique Lafayette "Veri-Own" Radio is receiving remarkable acceptance from Americans "on the move" everywhere. This tiny set makes use of the very latest 1.4 volt "miniature" tubes to bring you a quality of entertainment that seems miraculous. No matter where you are, no matter where you place this amazing little personal radio, just turn it on and tune it—represent your stations come through with good volume, freedom from interference and excellent quality. Take it with you everywhere you go—to the office, to sports events, to the beach, to skating and skiing parties, even while walking along the street—and you shall have radio entertainment always. This beautiful little set is housed in a durable leatherette covered case (just about the size of a camera), measures 8 1/2" long, 4 3/4" wide and 3 3/4" deep. All operating controls are protected by a hinged door that locks over the front; you carry it by means of a sturdy handle at the top. (Weighs only 4 1/2 lbs.) Practically anyone on your Christmas list who is in line for something "special" will be highly grateful for a fine gift like this.

LATEST SUPERHET CIRCUIT: Only by making use of the very latest type exceptionally low drain tubes has the compact construction of the "Veri-Own" have been made possible. It employs 1R5, 1T4, 1S5 and 1S4 tube, in a well designed superhet circuit that provides good tone with sufficient power. A matched PM speaker of special design is housed directly behind the louvred front panel.

ECONOMICAL OPERATION: the receiver is powered by two flashlight cells (1 1/2 volts each) that cost but a few cents, and one 67 1/2 volt "B" battery that lasts approximately 40 hours. Batteries can be replaced in a jiffy by anyone.

BUILT-IN ANTENNAIRE: a special loop antenna built into the case acts as an efficient aerial. As soon as the front door is opened the receiver automatically turns "on"—ready to tune; when door is closed set automatically is turned "off". For facility of tuning, so essential in these small sets, the tuning knob is of the vernier type. The entire broadcast band from 535 to 1650 kc. is covered. Two panel controls govern all operations: a calibrated volume control and a calibrated tuning dial. Front panel is silvered and of highly attractive appearance.

MODEL E-191—Lafayette "Veri-Own" Radio, with tubes and batteries. Net weight only 4 1/2 lbs. Shpg. wt. 6 lbs.

CODE, EDIFY.
List Price \$25.00

Additional 2—K20622—1 1/2 volt cells. Each 6 1/2c

Batteries 1—K20183—67 1/2 volt "B" battery. Each \$1.75

Lafayette

"MINI-PORTABLE"

LOOKS LIKE A CAMERA
FEELS LIKE A CAMERA
SOUNDS LIKE A BIG RADIO

One of the Finest
of Personalized Radios

Whether you get one of these little Lafayette "Mini-Portables" for yourself or for someone especially favored on your Christmas list there's no doubt there'll be lots of pleasure for everyone concerned. You'll "go for" this tiny personalized radio the minute you see it and hear it—and "in a big way" too, because that's just how it performs. Small as a camera and just about as light to carry, this little miracle radio is actually a four-tube superhet of the latest type, covering the entire broadcast band. Its powerful 4-inch PM Dynamic speaker has a surprising amount of "sock". You'll be thrilled by its performance wherever you carry it—at home, in your office, at the beach, picnics, boating parties, etc. It's perfect for sports events where you can follow the expert running commentary of your favorite sports announcer while viewing the event itself. Adds immensely to your pleasure to know just what is going on every second. You'll find yourself the welcome center of attraction wherever you carry this smart-looking, fine sounding little radio.

The "Mini-Portable" tunes the entire broadcast band

from 540 kilocycles to 1650 kilocycles (555 to 182 meters) which also includes the state police calls. Tuning knob and volume control are located atop the set—easy to tune and control. Only two flashlight cells (obtainable everywhere) are used for "A" supply—last 12 to 15 hours. The "B" battery will supply at least 50 hours of service. Four 1.4 volt tubes are used: 1S4, 1S5, 1R5 and 1T4. Rich looking brown leatherette covered case with matching carrying handle. Total weight complete is only FOUR POUNDS.

MODEL S-161—Lafayette 4-tube Mini-Portable, as described. Complete with tubes and batteries (two 1 1/2 volt "A" batteries and one 67 1/2 volt "B" battery). Size: 9" wide, 4 3/4" high, 3 3/4" deep. Net weight 4 lbs. Shpg. wt. 7 lbs. Code, PADRE.
List Price \$19.50
Your Cost **\$13.45**
Additional 2—K20622—1 1/2 volt cells. Each 6 1/2c
Batteries 1—K20183—67 1/2 volt "B" battery. Each \$1.75

Lafayette 6-TUBE, 3-IN-1 PORTABLE SUPERHET

Good to look at—good to listen to—good to give! What an ideal gift where something "different" is what you're seeking. Beautiful styling and expert engineering have combined to make this tri-power portable a most desirable combination to accompany one on all one's travels. Plays anywhere on its self-contained batteries (NO CONNECTIONS TO MAKE), or from any 110 volt electric outlet, either A.C. or D.C. Check these features:

R. F. STAGE for increased sensitivity, extra power, a feature usually found on much higher priced sets. 3-Gang Condenser.

MAGIC ANTENNAIRE: Lafayette's station-pulling loop antenna.

8-TUBE PERFORMANCE is afforded through the use of multi-purpose tubes. Reception equal to many good home radios. Tubes used: 2-1N5GT, 1-1A7GT, 1-1H5GT, 1-3Q5GT and 1-3Z5GT rectifier.

BEAM-POWER OUTPUT: The 3Q5GT output stage is of the "beam-power" type to insure ample, distortionless reproduction.

EXTENDED TUNING RANGE includes all domestic programs plus state police-calls; range is from 540-1650 kc. (555-162 meters).

5-INCH PM SPEAKER; Automatic Volume Control and other features.

LOW BATTERY DRAIN: two 45 volt "B" and one 1½ volt "A" batteries are used. Low drain tubes give battery life of 200-250 hours.

Handsome leatherette covered cases with drop front, having lock and key. Size: 9¼" high, 12¾" wide, 6" deep. Shpg. wt. 19 lbs. Code, INEPT. All models complete with batteries and tubes.

MODEL JS-130: Brown and White

MODEL JS-130BL: Blue and White

Your Cost, Either Model.....

\$19.95

K20197—Extra kit of batteries, consisting of two 45 volt "B" and one 1½ volt "A". Wt. 7 lbs..... \$2.65

Lafayette 5-TUBE, 3-IN-1 PORTABLE SUPER

Here's a fine little receiver to accompany you wherever you may go. Why miss any of the fine radio entertainment always on the air when this light, easy-to-carry, inexpensive-to-use 3-in-1 portable superhet can bring you all of it? It will provide you with good quality entertainment at all times, and because of its self-contained batteries and built-in antennaire there are **NO CONNECTIONS TO MAKE**. When at home you merely plug in the line cord (concealed in case when not in use) to any 110 volt AC or DC line.

LOW DRAIN TUBES used in the sensitive superheterodyne circuit insure long battery life and performance equal to many 6 and 7 tube jobs. Tubes used include: 1-1A7GT converter; 1-1N5GT i.f. amplifier; 1-1H5GT detector, automatic volume control and a.f. amplifier; 1-3Q5GT "beam-power" output and 1-3Z5GT rectifier.

MAGIC ANTENNAIRE; loop antenna brings you all stations.

MATCHED P.M. SPEAKER reproduces voice and music with good fidelity. Speaker grille fronted by a neat dull gold cloth.

EXTENDED TUNING RANGE covers the entire American and Canadian broadcast band and upper police band; 540-1650 kc. (555-162 meters).

ADVANCED SUPERHET CIRCUIT utilizes iron core i.f. transformers and other late radio engineering advances.

BATTERIES OR 110 VOLT AC OR DC operation. Convenient panel switch for immediate changeover to any type of current. Batteries required are: two 4½-volt "A" and two 45-volt "B". Easily replaced.

AUTOMATIC VOLUME CONTROL minimizes fading.

ENCLOSED TYPE FRONT with lock and key for protection.

In neat leatherette cases, size: 13¼" wide, 9" high and 5¾" deep. Shpg. wt. 19 lbs. Code, GAVOT.

MODEL C-121: Brown and White.

MODEL C-121BL: Blue and White.

MODEL C-121BR: Solid Brown.

Lafayette 7-TUBE, 3 BAND 3-IN-1 SUPERHET

This amazingly versatile, deluxe 1941 Lafayette 3-in-1 portable Super brings you reception on **THREE** bands instead of just the usual one—and brings them to you with a quality that has never been surpassed in a portable. This quality of reception is so far above the average because it uses **SEVEN** multi-function tubes instead of the usual five or six. And you'll never have any "current" problems because the set operates either on its self-contained batteries or on any 110 volt line—A.C. or D.C. Just check these advantageous features:

THREE TUNING BANDS INCLUDING 60 METERS: Brings you not only all domestic programs, but police calls, amateur stations, Ship to Shore signals, two-way Aviation signals, short-wave stations from overseas and many others. Bands covered are: 16.2-51 meters; 47-133 meters; 171-556 meters. Radio entertainment always with this portable.

HEADPHONE JACK: Enables you to plug in headphones and hear the set without disturbing others. Automatically cuts out speaker.

MAGIC ANTENNAIRE: Special built-in loop aerials for all types of reception. Terminals for outside aerial for use where desired.

MULTI-FUNCTION TUBES: 1A7GT, 2-1N5GT, 1-1H5GT, 3Q5GT, 501.6GT and 3Z5GT rectifier. Uses a fine toned matched P.M. speaker.

MODEL C-125—Complete with tubes. Size: 11¼x11¼x7¼" deep. Shpg. wt. 20 lbs. Code, GENET. List Price \$45.00

Lafayette 5 TUBE AC-DC PORTABLE SUPER

Whether you give this set to someone, or buy one for your own use you'll get a real thrill out of the way this beautiful little Lafayette 5-tube AC-DC superhet performs. No matter where you carry this set, you simply plug it into the nearest 110-volt AC or DC outlet and the built-in Magic Antenna-Aire brings in your favorite programs better than you ever expected to hear them on a set selling at this sensationally low price. Available in rich walnut or gleaming Ivory plastic. Glance over these fine, modern, circuit features:

- MAGIC ANTENNAIRE:** No aerial or ground required; pulls in stations from near and far.
- LATEST TYPE SUPERHET:** Utilizes the most modern circuit design for extra sensitivity and selectivity.
- FULL-RESPONSE P.M. SPEAKER** for fine reproduction.
- EXTENDED TUNING RANGE** covers from 535 to 1720 kc. (560 to 174 meters) broadcast band and police calls.
- BEAM-POWER OUTPUT:** For quality and volume. Tubes: 12SA7GT, 12K7GT, 12SQ7GT, 50L6GT "beam-power" and 35Z5GT rectifier.
- AIRPLANE TYPE DIAL** with gold indicator.
- AUTOMATIC VOLUME CONTROL** assures constant volume level.

- PLASTIC CABINET AND CARRYING HANDLE.**
- MODEL JS-177**—Lafayette 5-tube AC-DC Superheterodyne in plastic Walnut cabinet with carrying handle. Complete with all tubes. Size: 6 1/2" high, 9" wide, 6 1/2" deep. Code, IMPEL. List \$15.95. Shpg. wt. 10 lbs. **Your Cost \$7.95**
- MODEL JS-178**—Similar to above, but in plastic Ivory cabinet, with handle. Code, IMPLY. List Price \$17.95. **Your Cost \$8.95**

Lafayette 5 TUBE AC-DC STREAMLINER

Want a real streamlined Christmas gift for someone who appreciates the really modern? Then give this attractive molded cabinet, 5-tube Lafayette AC-DC Superheterodyne with built-in Magic Antennaire. It is a real little performer that is an unbeatable value. Ideal as an "extra" set for the kitchen, children's room, den or anywhere about the house. Built with typical Lafayette precision, its "big-radio" tone and operating ease will be sure to delight. Features of interest are:

- SENSITIVE SUPERHET CIRCUIT:** Latest engineering developments in superhets incorporated. Sensitive for weak, distant stations, selective for crowded areas.
- MAGIC ANTENNAIRE:** No external antenna required; loop aerial built-in. Pulls in stations from near and far.
- HIGH-GAIN TUBES:** Five multi-purpose tubes provide 7-tube performance; includes: 12SA7, 12SK7, 12SQ7, 50L6GT "beam-power" output and a 35Z5GT rectifier.
- P.M. DYNAMIC SPEAKER** supplies excellent tonal reproduction of all programs. Big set tone.
- EXTENDED TUNING RANGE:** Broadcast and upper police band covered from 540 to 1730 kc (1173-556 meters).
- AIRPLANE TYPE DIAL:** Calibrated in kilocycles and meters. Easy to read. Indirect illumination.
- STREAMLINED MOLDED CABINET** in Walnut or Ivory.

MODEL D-139—Lafayette 5-tube, AC-DC Superhet in Walnut Plastic cabinet, with tubes. Size: 7 1/2" high, 12 1/2" wide, 7" deep. Shpg. wt. 13 lbs. Code, WINDY. List \$17.95. **Your Cost \$8.95**

Lafayette ECONOMY AC-DC SUPER

Here's an amazing value, at Christmas or any other time, and what an ideal solution it makes to your gift problem where you don't want to spend too much money and yet you still want a good radio. This little 4-tube Lafayette AC-DC Superhet performs as well as it looks and its visual beauty is readily apparent. But the "big-set" job of pulling in stations and reproducing programs with fine tone is what really makes this a rare buy. It has all the "extras" that make for enjoyable listening. Check these worthwhile 1941 circuit features:

- MULTI-PURPOSE TUBES:** 12SA7, 12SQ7, 50L6GT "beam-power" output and 35Z5GT rectifier. For 110 volts AC or DC. Provide six tube performance at four tube economy.
- LATEST SUPERHET CIRCUIT** utilizes multi-purpose tubes and brings in not only broadcast but upper police band.
- AUTOMATIC VOLUME CONTROL** for constant volume level.
- ANTENNA PLATE** eliminates need for aerial on local stations. Aerial hank for distant reception supplied.
- P.M. DYNAMIC SPEAKER** of unusual brilliance and volume. Provides full-range frequency response.
- COMPLETE BROADCAST COVERAGE;** tunes from 540 to 1750 kilocycles (171 to 556 meters).
- ATTRACTIVE PLASTIC CABINET** in Walnut or Ivory.

Lafayette 5 TUBE AC-DC SUPERHETERODYNE

Here's a handy set that can be carried with you wherever you go, just like a portable—then simply plug into an AC or DC line and tune in. Sounds and performs like a big radio because it is full size; yet it is light to carry, and light on your purse. Using five of the latest type tubes gives the equivalent of 7-tube performance over the entire broadcast and upper police bands. Its handsome case and distinctive styling, plus its variable tone control will give you "console-set" tone. Just glance over these distinctive features:

MAGIC ANTENN-AIRE: Lafayette's exclusive new loop—no aerial or ground required. Remarkably static-free reception.

BEAM-POWER OUTPUT: Provides more than ample volume and extra-fine quality on all stations.

MODERN SUPERHET CIRCUIT: Most advanced design. Plays perfectly from any 110-volt AC or DC outlet. Just plug in and tune.

HIGH GAIN TUBES include: 1-6SA7GT, 1-6SK7GT, 1-6SQ7GT, 1-25L6GT "beam-power" output, 1-25Z6GT rectifier and 115.78 ballast tube.

VARIABLE TONE CONTROL: This feature, usually found only on more expensive units permits you to adjust the tone to suit your own musical tastes. Brings out deep, rich basses or brilliant high trebles. Overcomes room acoustic conditions.

GOLDEN GLOW DIAL floodlighted for easy tuning, easy reading.

FULL RESPONSE DYNAMIC SPEAKER for wide-range tone.

AUTOMATIC VOLUME CONTROL minimizes fading on weak and distant stations. Maintains a constant volume level.

HANDSOME PLASTIC CABINET finished in either rich brown Walnut or gleaming Ivory, with matching carrying handle.

Lafayette 6-TUBE, 2-BAND AC-DC SUPERHET

This beautiful 6-tube, 2-band AC-DC Lafayette Superhet makes an ideal Christmas gift for anyone you're anxious to please. It performs as beautifully as it looks. Covers the major portion of the International short-wave as well as the American broadcast stations. Has a stage of r.f. amplification to pull in stations from everywhere. Available in rich Walnut or jewel-like Ivory-Onyx plastic case. Here are some of its outstanding features:

TWO TUNING BANDS cover short-wave stations, amateurs, aviation on 5.7 to 18.3 mc (16.4 to 52.7 meters) and broadcasts on 540 to 1600 kc (556 to 187 meters).

POWERFUL R.F. STAGE for greatly increased sensitivity and selectivity on short-wave and weak or distant broadcast stations.

MAGIC ANTENNAIRE enables you to play this superb little set anywhere without the use of an aerial or ground on broadcast stations. S.W. band requires aerial, for which leads are provided.

P.M. DYNAMIC SPEAKER for full-range response, volume and quality.

MULTI-PURPOSE TUBES used include: 2—2SK7s, 1—12SA7, 1—12SQ7, 1—50L6GT "beam-power" output tube and 1—35Z5GT rectifier.

AUTOMATIC VOLUME CONTROL reduces fading on weak or distant station, maintains volume level constant at all times.

ILLUMINATED AIRPLANE DIAL plainly calibrated for easy tuning and logging of broadcast and short-wave stations.

BEAM-POWER OUTPUT assures really exceptional volume of tone with fine fidelity of reproduction.

HANDSOME PLASTIC CASE available in Walnut or Ivory-Onyx.

Lafayette 6-TUBE, 2-BAND AC-DC SUPERHET

Looking for a table model radio with sleek, modern lines and a smooth, attractive finish? Then just glance at the illustration, at left, of the new Lafayette 6-tube, 2-band AC-DC Superheterodyne. And then realize that it sounds and performs as beautifully as it looks—smooth, rich-tone, with power and selectivity that you'd hardly expect to find in a table model unit. And it's a streamlined value, too, typical of Lafayette's traditional policy of much-more for much-less. You'll appreciate it still more when you check these fine features:

POWERFUL R.F. STAGE for more sensitivity, more selectivity.

MAGIC ANTENNAIRE: Lafayette's exclusive loop brings in all domestic broadcast stations, noise-free, without aerial or ground. For short-wave reception, terminals are provided for external antenna.

FOREIGN TUNING BAND covered on 5.7 to 18.3 mc (16.4-52.7 meters): broadcast band covered on 540 to 1600 kc (556 to 187 meters). **ADVANCED SUPERHET CIRCUIT** uses the following tubes: 2—12SK7s, 1—12SA7, 1—12SQ7, 1—50L6GT "beam-power" output and a 35Z5GT rectifier.

P.M. DYNAMIC SPEAKER provides full range frequency response and tone quality. "Beam-power" output for distortionless tone.

AUTOMATIC VOLUME CONTROL maintains constant volume level on all stations. Minimizes fading on weak and distant stations.

OPERATES ANYWHERE on 110 volts DC or AC 60 cycles. Just plug in.

ILLUMINATED AIRPLANE TYPE DIAL calibrated in kilocycles and megacycles for easy tuning. Large, easy-to-read numerals.

DUO-TONE WALNUT CABINET with contrasting shades worked into speaker grille design. Hand-rubbed satin finish.

MODEL E-188—Lafayette 6-tube, 2-band AC-DC Superheterodyne in two-tone Walnut table model cabinet, complete with all tubes. Size: 8 $\frac{1}{4}$ " high, 15 $\frac{1}{4}$ " wide, 6 $\frac{3}{4}$ " deep. Code, EASEL. Shpg. wt. 15 lbs. List \$27.50. **\$14.95**

Lafayette "LITTLE GIANT" PHONO-RADIO

What a charming gift this miniature phono-radio combination will make for small apartment dwellers, for a child's room, for the student's dormitory. Its advanced superheterodyne circuit and matched PM speaker provide good tone quality with ample volume. Plays both ten-inch and twelve-inch records. A modern tangent-type tone arm with crystal pick-up insures excellent reproduction. And this distinctive combination is offered at a price that you'd ordinarily expect to pay for a radio only! Take advantage of the extra enjoyment afforded by the record playing facilities by ordering this fine little model now.

BEAM-POWER OUTPUT provides more than ample volume with a high degree of fidelity. Brilliant tone is assured on both phono and radio.

MULTI-PURPOSE TUBES provide good reception on all American and Canadian broadcasts. Range covered is 550 to 1700 kc. (645-176 meters). Tubes used include: 12SA7, 12SQ7, 50L6GT "beam-power" output and a 35Z6GT rectifier tube. Airplane type tuning dial for easy tuning.

HANK ANTENNA furnished with the set provides satisfactory reception under all ordinary circumstances. An external aerial may be connected where located in poor reception areas or at considerable distance from stations.

MODERN ELECTRIC PHONOGRAPH makes use of a self-starting constant speed (78 r.p.m.) phono motor provided with a floored turntable.

CRYSTAL PICK-UP mounted in tangent type tone arm assures you faithful phonograph record reproduction with long record life.

PHONO-RADIO SWITCH on the motor board for instant changeover from phono to radio or vice-versa. Entire assembly is housed in a compact combination long-wearing brown leatherette covered case.

MODEL D-133—Lafayette "Little Giant" Phono-Radio Combination complete with tubes. For operation on 110 volts, 60 cycles AC only. In brown leatherette covered cabinet; 9" high, 11" wide, 11 1/4" deep. Shpg. wt. 15 lbs. Code, **WARDL**. List Price \$25.00. **Your Cost** **\$13.85**

Lafayette LOW-COST 3-BAND AC-DC SUPERHET

Here's a sterling triple value, 3-band Lafayette AC-DC Superhet with a "console" tone and tuning ability that make it one of our finest values. A really practical gift because its small size will fit almost anywhere. And its clarity and volume are truly amazing. Our 30-day home trial offer will easily convince anyone that its tone, quality, sensitivity and selectivity cannot be equalled at several times its really low cost. Just check these fine features and compare! **INVERSE FEEDBACK**: Assures you unusual volume and tone quality free from almost every trace of distortion.

MAGIC ANTENNAIRE: Lafayette's exclusive loop antenna for domestic broadcasts, remarkably static-free in all locations. Aerial terminals are provided for use on short wave.

BEAM-POWER OUTPUT: 25L6GT beam-power output for tone quality. Entire tube complement: 6SA7GT, 6SK7GT, 6SQ7GT, 25L6GT, 2-25Z6GT rectifiers and a 115.68 ballast tube.

3 TUNING BANDS cover: 540 to 1680 kc (555 to 178 meters) for American broadcasts; 2.25 to 7.0 mc (133 to 43 meters) and 7.5 to 24.0 mc (40 to 12.5 meters) for international short wave, police, amateurs and aviation signals.

VARIABLE TONE CONTROL: gives you continuous variation for any degree of tonal balance.

HANDSOME PLASTIC CABINET finished in Walnut or Ivory. **FULL-RESPONSE DYNAMIC SPEAKER**. Handy carrying handle.

MODEL JS-182—Same as above, but in Ivory Plastic cabinet. Code, **INNER**. List \$32.95. **Your Cost** **\$17.95**

Lafayette 6-TUBE, 2-BAND AC SUPERHET

You surely know someone who will be mighty grateful to get a fine 6-tube, 2-band AC Superheterodyne for that extra room, for the den, for the studio or for the office. And when you hear its "big set" tone, see its simple modern lines and realize that you'd pay several times more than Lafayette asks, for a set of equivalent quality—then you'll know that you've bought a "buy". Our 30-day home trial plan provides ample time to test it. Features: **MAGIC ANTENNAIRE**: Exclusive Lafayette loop enables you to hear the entire broadcast band using no aerial or ground. Just plug it in anywhere and you're ready to tune in. For short-wave reception aerial terminals are provided on the chassis. **FOREIGN SHORT WAVE RECEPTION** in the international short wave band is covered from 4.8 to 16 mc (62.5-18.7 meters). Domestic broadcasts received on 540 to 1700 kc (555 to 178 meters). This set covers the popular new South American 60 meter band. **BEAM POWER OUTPUT** assures fine tone with excellent volume. Tube complement includes: 6SA7GT, 6SK7GT, 6J5GT, 6SQ7GT, 6V6GT "beam-power" output and an 80 rectifier tube. **6 1/2-INCH ELECTRO-DYNAMIC SPEAKER** handles full output with exceptional quality. Automatic volume control maintains constant volume level; no blasting, no fading on weak, distant stations. **PHONO, TELEVISION SOUND OR P.M. INPUT** terminals enable you to use the beam-power audio section for all external sound inputs. **TONE CONTROL**: continuously variable for complete control over audio response. Compensates for acoustic conditions. **ILLUMINATED GOLD DIAL** fully calibrated; easy to tune. **ATTRACTIVE GRAIN WALNUT CABINET** of pleasing modern design.

MODEL JS-135—Lafayette 6-tube, 2-band AC Superheterodyne in satin-finished Walnut cabinet, complete with tubes. For 110 volts, 60 cycles AC operation. Size: 9" high, 16" wide, 8 1/4" deep. Code, **INDUE**. Shpg. wt. 21 lbs. List Price \$29.95. **Your Cost** **\$17.95**
For 220-volt operation, add \$2.50

Lafayette 9 TUBE 3 BAND AC SUPER

Here's an unparalleled value in an automatic push-button tuning A.C. Superheterodyne that incorporates every worthwhile radio feature. Six feather-touch push buttons will tune in your favorite stations, perfectly, instantly. Simple to set or re-set. Tone that you'd expect of a big console, yet this set is perfect for small quarters because it takes so little room. Note these outstanding features:

THREE TUNING BANDS cover the domestic broadcast band from 535 to 1800 kc (560-187.5 meters) and short-wave stations, police, amateurs, aviation signals on the 2.2 to 7.6 mc (136-39.5 meters) and 7.5 to 24 mc (40-12.5 meters) band.

SIX PUSH BUTTONS set directly under* the slide-rule tuning dial. Easy to set or re-set.

MAGIC ANTENN-AIRE provides noise free reception on broadcast band without aerial or ground. Aerial terminals provided for short-wave use.

MULTI-PURPOSE TUBES used include: 1-6SJ7, 1-6SA7, 1-6SK7, 1-6SQ7, 1-6SF5, 2-6K6G power tubes, 1-6U5 tuning "eye" and a 5Y3G rectifier.

VARIABLE TONE CONTROL provides a means of selecting rich bass tones, clear high trebles.

PUSH-PULL POWER OUTPUT supplies great volume, with crystal clear tone quality.

ELECTRO-DYNAMIC SPEAKER capably handles the full 5-watt undistorted power output.

F.M., TELEVISION SOUND, PHONO, RECORDER input jack utilizes the audio section for any purpose requiring fidelity amplification.

MAGIC TUNING "EYE" enables you to tune all stations at their peak of reception efficiency, both on broadcast and short-wave.

AUTOMATIC VOLUME CONTROL maintains constant volume level as you set it. Minimizes fading on weak and distant stations.

HANDSOME DUO-TONE WALNUT CABINET of attractive proportions. Finished in rich walnut hand-rubbed to a glossy satin finish.

ALL LAFAYETTE Radios are RCA and Hazeltine Licensed

Lafayette 3-BAND SUPERHETERODYNES

Power, tone, quality and value—there in a nutshell is the story of these exceptional Lafayette 3-Band Superheterodynes. Tuning all the way down to 12½ meters and featuring the new Lafayette Adjustable Antenn-Aire that increase both sensitivity and selectivity many times you'll enjoy radio at its very best with these remarkable receivers. And you'll save too, for these are definitely Lafayette Super-Value priced at about what you'd expect to pay for inferior midget receivers. Use our 30-day home trial to convince yourself. Check these features: **ADVANCED SUPERHETERODYNE CIRCUIT** includes Automatic Volume Control and many other advantageous features. **ADJUSTABLE ANTENN-AIRE** for maximum fidelity and efficiency eliminates need for outside aerial on broadcast band. (Leads provided for antenna use on short wave bands.) Antenn-Aire controlled from front panel. **P.P. OUTPUT WITH INVERSE FEEDBACK** for high power with minimum distortion. Gives excellent tone quality and more than ample volume. A "quality set" feature. **VARIABLE TONE CONTROL** for complete adjustment from clear high treble to sonorous bass.

THREE TUNING RANGES: 540 to 1680 kc. (656-178 meters) covering all domestic broadcasts; 2.25 to 7 mc. (133-43 meters) and 7.5 to 24 mc. (40-12.5 meters) for thrilling foreign reception, police calls, "hams" and aviation signals. **8" FULL RESPONSE ELECTRO-DYNAMIC SPEAKER** for big console tone and power on all stations. Perfectly matched to the receiver and baffled in the cabinet. **F.M., TELEVISION SOUND, OR PHONO INPUT** terminals for using the high-fidelity audio system of the receiver for all external sound input reproduction. **TUNING EYE INDICATOR** assures precise control in tuning on short-wave and broadcast bands. **SEPARATE AC AND AC-DC MODELS.** Essentially the same in all respects except in the number and type of tubes used. If you live and expect to remain in an area where only AC is used then get the AC model. But if you live in a DC area or expect to move into an area where only DC is available even though you now have AC then take advantage of the AC-DC feature. Another example of Lafayette's ability to meet your every requirement efficiently and economically.

8-TUBE AC-DC MODEL

Designed expressly for use on 110-volt 60-cycle. Lafayette 8-TUBE AC FIDELITY SUPER

For those who want to enjoy the superiority of American broadcast stations at their best Lafayette offers this fidelity model 8-tube single band AC Superheterodyne. Featuring push-pull high power output for distortionless volume, an 8-inch full-response electrodynamic speaker and Lafayette's new Adjustable Antennaire, it is definitely one of the season's smartest buys. You'll appreciate all of these superfine features incorporated in this set: **AUTOMATIC BASS COMPENSATION** maintains bass tonal relationship constant at all volume levels for correct reproduction of the full musical scale. Perfect for low level listening. **C-R TUNING EYE INDICATOR** enables you to tune-in by eye as well as by ear for best possible results. Aids real fidelity reproduction. **A.V.C.** keeps volume level constant—minimizes fading on weak and distant stations.

ADJUSTABLE ANTENN-AIRE. Lafayette's exclusive front-panel controlled loop antenna provides maximum signal pickup and aids the overall selectivity. **HIGH-GAIN MULTI-PURPOSE TUBES** include: 1-6SK7, 1-6SA7, 2-6SQ7, 2-6K6GT push-pull power output tubes, 1-6U5 tuning eye and an 80 rectifier tube. **CONTINUOUSLY VARIABLE TONE CONTROL** permits adjustment for all variations of acoustic response. Enjoy musical reproduction with brilliant trebles, or deep rich basses as you wish. **BROADCAST COVERAGE** from 540 to 1780 kilocycles (178 to 546 meters) includes all domestic stations including the high-fidelity stations and the upper Police Band. **INVERSE FEEDBACK** for distortionless output with more than ample volume on all stations.

8" FULL RANGE ELECTRO-DYNAMIC SPEAKER. This speaker is carefully matched to the output of the receiver to provide maximum efficiency and to insure the finest tone quality. **PHONO, TELEVISION SOUND, OR F.M. INPUT** terminals for employment of the fine audio system for these services. **BETTER-SIGHT TUNING DIAL.** Correct design of the dial scale together with large legible numerals makes for a dial that is easy to see and attractive to look at.

MODEL JS-183—Lafayette 8-tube single band AC Superheterodyne with Adjustable Antenn-Aire in duo-tone Walnut table model cabinet. Complete with all tubes and instructions. Size 10¼" high, 22" wide and 10¼" deep. Code, INSET. Shpg. wt. 23 lbs. List Price \$39.95

Lafayette 8-TUBE 3-BAND AC CONSOLE SUPERHET

Here's Lafayette's value leader of the year! Search high and low—far and wide—nowhere will you be able to find a super-value that even comes close to this 8-tube 3-band AC Superhet with 12-inch speaker in its exquisite Walnut veneer console. And—think of it—for less than \$35.00! Only because we are sure this set will make thousands of additional brand new Lafayette friends and boosters can we offer so much for so amazingly little. Try one in your own home—see it, hear it—on our 30-day home trial plan. We know you'll be delighted with your purchase and we hope you'll tell your friends about it.

12-INCH CONCERT DYNAMIC SPEAKER for rich, full-bodied tone with splendid volume. Never before has it been possible to offer a quality speaker of this type in a receiver at this seasonally low price!

ADJUSTABLE ANTENN-AIRE with front-panel control knob permits rotating loop in any direction for maximum pickup sensitivity and selectivity on broadcast stations. Aerial required for reception of short-wave stations; leads for connecting one are provided at the rear of the chassis.

MODERN SUPERHET CIRCUIT utilizes the following tubes: 6SA7 converter; 6SK7 i.f. amplifier; 6SQ7 detector, AVC and first audio amplifier; 6SQ7 inverter; 2-6K0GT push-pull output amplifiers; 6U5 C-R tuning "eye" and an 80 rectifier tube. This circuit provides amazing volume which is ably handled by the matched 12-inch concert dynamic speaker.

THREE TUNING RANGES cover the broadcast range from 540 to 1680 kc (555-178 meters) and all international short-wave broadcasts, ships-at-sea, amateurs, aviation and police calls on 2.25 to 7 mc (133-43 meters) and 7.5 to 24 mc (40-12.5 meters).

AUTOMATIC BASS COMPENSATION prevents the loss of bass frequencies at low volume levels thus assuring perfect tonal balance at all volume control settings.

TUNING "EYE" INDICATOR is an invaluable aid to precise tuning on all bands. It provides a visual check on tuning accuracy.

VARIABLE TONE CONTROL for continuous variation of tone response from brilliant to deep sonorous bass. Choose any type of response that appeals to you—it is yours instantly at the touch of the knob.

WALNUT CONSOLE of rare beauty. Designed to please the most exacting and fashioned by master craftsmen from rare hardwood veneers this console is indeed a masterpiece. Carefully hand-rubbed to a satin smooth finish it lends distinction to any room. A specially designed acoustic chamber for the speaker insures the finest possible reproduction.

P.P. OUTPUT WITH INVERSE FEEDBACK provides maximum power output with an absolute minimum of distortion—a feature found only in the finest "quality" sets.

AUTOMATIC VOLUME CONTROL keeps the volume level constant and prevents blasting. It also minimizes fading.

MODEL JS 129 Illustrated above is one of the greatest values Lafayette has ever offered in a fine radio. It has everything—excellent tone—more than ample volume—grand selectivity—and a particularly handsome console cabinet. Yet, in spite of all these it is priced sensationally low—far lower than you would believe possible.

MODEL JS-129—Lafayette 8-tube 3-band AC Console Superhet as described at right complete with tubes, built-in Adjustable Antenn-Aire and INGLE. For 110-V., 50/60 cycles AC. Shipping weight 51 lbs. List Price \$59.95.

THE MOST COMPLETE ENTERTAINMENT INSTRUMENT EVER DEvised!

A GREAT SUPERHET RADIO
 A HIGH QUALITY
 ELECTRIC PHONOGRAPH
 A NEW IMPROVED
 HOME RECORDER
 A FINE P. A. UNIT
 IN ONE PORTABLE
 CARRYING
 CASE

Lafayette 7 TUBE PORTABLE RADIOCORDER

Here are four great instruments in one portable cabinet, a real Lafayette miracle value to add to your greater enjoyment of the modern science of sound reproduction. Never before has even Lafayette offered so much in one diversified instrument at so low a cost. Record your favorite radio program right "off the air" and repeat memorable broadcasts as often as you choose. Or record the voices, playing, singing of your friends, your family—make precious mementos for years to come. Our 30-day home trial will give you ample time to appreciate these great features:
7-TUBE SUPERHETERODYNE of superlative quality covering the broadcast band from 530 to 1700 kc (566 to 176 meters).
VARIABLE TONE CONTROL for perfect reception, reproduction and recording.

FIDELITY RECORD PLAYER: Utilizing a modern tangent-arm crystal pick-up the phono unit of this recorder provides superb reproduction of ALL Commercial records as well as of your own recordings. Plays both 10" and 12" records.
ULTRA-MODERN HOME RECORDER: This most advanced type of home recording mechanism makes it amazingly simple to record any broadcast radio program, talking, singing, playing of yourself, your friends, your family.
CRYSTAL CUTTING HEAD for wide-range recording. Arm moves "outside-in" so that recordings may be played back upon any record player. Pre-set bead for correct depth of cut.
CONSTANT SPEED HEAVY DUTY MOTOR with 10-inch turntable. Records blanks up to 10 inches; plays back all records up to 12 inches.
CRYSTAL MICROPHONE of latest type.

PUBLIC-ADDRESS UNIT: Use the audio section of the Radiocorder as a P.A. system for home and club use; talk or sing through the mike.
FIVE-POSITION SWITCH makes it easy to select 1) Radio; 2) Phono; 3) Radio Recording; 4) Mike Recording; 5) P.A.

MULTI-PURPOSE TUBES are: 6SA7, 6SK7, 2-6SQ7, 6K6GT, 6US "eye", 6XSGT rectifier.
MAGIC ANTENN-AIRE eliminates aerial or ground connections in normal locations.
MODEL S-162—Lafayette 7-tube Portable Radiocorder, as described, in leatherette covered portable carrying case, complete with all tubes, six 6" recording disks, 2 steel recording needles, pack of playback needles, complete instructions. For 110 volts 60 cycles A.C. Size: 12" x 17 1/4" x 14" deep. Code, PA1LS. Net wt. 30 lbs. Shpg. wt. 41 lbs.
 List Price \$87.50.
YOUR COST, EACH, SPECIAL..... \$47.50

Lafayette ECONOMY PHONO-RADIO

A miniature in size, and price but there's nothing miniature about its quality and value! Brings you all the domestic radio programs PLUS your own selection of recorded music. Compact, beautifully finished, ideal for the small apartment, den, etc. Try one on our 30-day home trial offer. Look for these value-packed features:
5-TUBE SUPERHET: utilizes the latest multi-purpose tubes: 12A8GT, 12K7GT, 12Q7GT, 50L6GT, "beam-power" output tube and a 35Z5GT rectifier tube.
ASTATIC CRYSTAL PICK-UP arm for good fidelity, long record life on 10" and 12" records.
WALNUT VENEER CABINET, two-tone—hand-rubbed finish.
AUTOMATIC VOLUME CONTROL eliminates fading on weak or distant radio stations.

MAGIC-ANTENN-AIRE eliminates need for any aerial or ground connections, in most normal locations.
EXTENDED TUNING RANGE covers the entire broadcast and upper police band from 170-550 meters.
RIM-DRIVE MOTOR, self-starting type. 10" and 12" records may be played with lid of cabinet closed.
MODEL S-49 COMBINATION—Lafayette 5-tube Phono-Radio Combination complete with tubes. For 110 volts, 60 cycles a.c. only. Size: 14 1/4" wide, 10 1/4" high (with lid closed) 13" deep. Code, PINCH. Shpg. wt. 20 lbs.
 List Price \$34.50.
YOUR COST, EACH, ONLY \$18.95
 For 220-volt a.c. operation, add\$3.00

 The chassis and speaker used in the above console are available separately for mounting in your own cabinet. For prices and specifications please see listing on the page opposite.

In its constant endeavor to bring to the radio public the finest that modern radio engineering, modern production methods and modern merchandising can offer, Lafayette turns up another winner in this excellent custom-built 9-tube, 5-band AC Automatic Push-Button Tuning Superheterodyne. A great radio, such as this one, can only be produced by an organization such as Lafayette where every possible care is given to quality of material, design and craftsmanship. This Superheterodyne was designed with one prevailing idea—to keep the quality high enough, and the price low enough, so that those desiring custom-built radio at production-line price would naturally turn to Lafayette. Independent consumer test laboratories will find in this Lafayette Superheterodyne another fine radio to add to their list of current "Best Buys." We are more than willing to have you give it the most exacting test any set can have—actual trial in your own home. Our liberal 30-day home-trial plan will enable you to subject it to every test you wish. You'll find that it more than lives up to our claim for it. Check carefully, and note these outstanding features:

TUNED R.F. STAGE ON ALL BANDS: This feature usually found only on much higher priced radios, provides greatly increased sensitivity, better signal to noise ratio and improved automatic volume control action.

ADJUSTABLE ANTENN-AIRE: Lafayette's exclusive loop antenna is of a special high "Q" type for noise-free broadcast reception. A self-contained counterpoise antenna for short-wave reception is also contained in the cabinet so that the set may be placed anywhere and give excellent results in most locations without antenna or ground connections. Leads are provided for using an external aerial wherever necessary. (Further specifications will be found on opposite page.)

TABLE MODEL (Shown at left)

The Lafayette 9-tube, 5-band Automatic Push-Button Tuning Superheterodyne is also available in the table model cabinet shown at left. The specifications are identical with the set described above, with the exception of an 8-inch P.M. Dynamic Speaker to fit the smaller cabinet. It is complete with Magic Antenn-Aire.

MODEL B-103—9-tube 5-band push-button tuning Superheterodyne in Table Model Cabinet, complete with tubes. Size: 12 $\frac{1}{2}$ " high, 25 $\frac{1}{4}$ " wide, 11 $\frac{1}{2}$ " deep. Shpg. wt. 41 lbs. Code, BLACK.

List Price \$85.00.
YOUR COST, EACH..... \$44.95
 For 220-volt operation, add..... \$2.50

BUILD YOUR OWN PROGRAMS
ON THE Automatic RECORD CHANGER

AND Automatic PHONO-RADIO COMBINATION

AUTOMATIC PUSH-BUTTON TUNING provides your choice of six favorite broadcast stations. Pressing any button allows instantaneous and accurate tuning of any pre-determined station. Buttons may be easily reset at any time by a single screw adjustment. **FIVE-BAND TUNING** enables you to seek your radio entertainment from any place in the world. Extending from 568 meters down to 13.8 meters in five bands: 528 to 1730 kc (568 to 173 meters) for domestic broadcasts; 2.3 to 7.4 mc (130 to 40.5 meters); 8.7 to 12 mc (34.5 to 25 meters) 12 to 15.6 mc (25 to 19.2 meters) and 17.5 to 21.8 mc (17.1 to 13.8 meters) covering practically ALL foreign short-wave stations, exciting police calls, ships at sea, amateur, aviation and other short-wave signals. Wide band spread.

DUAL TUNING EYE INDICATOR: The modern 6AD6G cathode ray tube, mounted directly in the dial permits very precise tuning of all stations with utmost ease.

SLIDE RULE DIAL, edge lighted is 8 inches long, calibrated in kilocycles and megacycles for accurate logging, easy tuning.

12-INCH P.M. DYNAMIC SPEAKER in both the console model illustrated on page opposite and in the combination phono-radio shown above provides full-range response and excellent distortionless volume. (Table cabinet model on opposite page has an 8-inch P.M. speaker.)

F.M., TELEVISION SOUND OR PHONO jack input is provided on all models to permit use of the audio section for external sound input. **MULTI-PURPOSE TUBES** utilized in the modern superhet circuit include: 1—6SK7 r.f. amplifier; 1—6SK7 i.f. amplifier; 1—6SA7 oscillator, 1st detector; 1—6SQ7 2nd detector, AVC and 1st a.f. 1—6SQ7 driver; 2—6V6GT push-pull "beam-power" output; 1—6AD6G tuning indicator and 1—5Y3G rectifier tube.

AUTOMATIC BASS COMPENSATION is provided to supply fully balanced tone at all volume level settings.

FULL RANGE TONE CONTROL, continuously variable allows complete gradation of tone from rich, deep basses to brilliant trebles.

BEAM-POWER OUTPUT: Two 6V6GT tubes in push-pull provide an undistorted power output of 9 watts. Essentially flat frequency response from 100 to 6,000 cycles.

AUTOMATIC PHONO-RADIO COMBINATION (illustrated above) in addition to the fine 9-tube 5-band Automatic Push-Button Tuning Custom-Built Superhet just described also features a modern, fool-proof automatic record changer phonograph mechanism. Enjoy 24 to 35 minutes of perfectly reproduced recorded music of your choice without the bother of changing records or needles. Simply stock eight 10" or seven 12" records onto the changer and it smoothly and automatically plays them through without further adjustment on your part. Features of the phono are:

CONSTANT SPEED POWERFUL MOTOR, 78 r.p.m. with 10" flocked turntable.

TANGENT-ARM CRYSTAL PICK-UP for high fidelity response, minimum noise level and increased record life.

REJECT LEVER permits any record in the stock to be rejected without removing from the mechanism. Records may be played singly by manual operation if so desired. The Phono-Radio combination is housed in a beautifully styled, modern console cabinet constructed of selected matched-grain Walnut exquisitely finished.

MODEL B-102—Lafayette 9-tube, 5-band Automatic Push-Button Tuning Custom-Built Superheterodyne Combination with Automatic Changer Phonograph in duted Grained Walnut console, complete with all tubes. GARRARD Automatic RECORD CHANGER—WORLD'S FINEST

Lafayette THREE-WAY COMBINATION A.M.—F.M. & AUTOMATIC PHONO

Lafayette scoops the field again with this up-to-the-minute three-way combination incorporating the modern miracle of Frequency Modulation PLUS a high quality standard broadcast band superheterodyne PLUS an automatic mixer-changer phonograph ALL in one exceptionally beautiful modern console. With frequency modulation stations springing up like mushrooms all over the country, all sections will soon be able to enjoy this new full-fidelity, "stoticless" form of radio. Be among the first to enjoy this "radio of the future." But that is not all this superlative combination offers you. The entire broadcast band from 550 to 1600 kc (545-187.5 meters) is also covered by the Amplitude Modulation standard broadcast section of the tuner of this fine combination. This will permit you to enjoy all the notional network air-shows in addition to F.M. But this exceptional Lafayette value ALSO embodies a high-quality automatic mixer-changer phonograph which will supply 40 to 50 minutes of uninterrupted reproduction of your favorite recordings. Capable of playing ten 12-inch or twelve 10-inch records, or any combination of ten 10-inch and 12-inch records, intermixed in any order with no adjustments whatever on your part. Record player has a tangent arm crystal pick-up of the latest type, for minimum record wear and maximum reproduction qualities.

CUSTOM-BUILT HIGH-FIDELITY POWER AMPLIFIER

To assure really high-fidelity reproduction Lafayette has designed a special amplifier utilizing 2—6CBGs, 2—6L6G "beam-power" tubes and a separate 5U4G rectifier. This amplifier has an essentially flat frequency response from 30 to 15,000 cycles. To match this fine amplifier a dual speaker system incorporating one 8½-inch and one 12-inch P.M. Dynamic Speaker will handle the full 20 watts undistorted power output and give you a new understanding of the realism of higher fidelity reproduction. The amplifier features separate bass and treble equalization controls (mounted on the audio chassis and easily pre-set) which provides you with perfect acoustic control for both recordings and radio (A.M. and F.M.) Automatic bass compensation is also a built-in feature.

SPECIAL TUNING METER: a professional type tuning meter shows the signal strength directly. It operates on both A.M. and F.M. You merely tune till the pointer in the dial swings to the indicator line, and your station is brought in with maximum efficiency.

MODEL FM-13—Lafayette 14-tube Three-Way A.M.—F.M. Superheterodyne and Automatic Record Changer, as described above, complete with all tubes, in a Moderne Walnut console. For operation on 110 volts, 60 cycles A.C. Size: 34" high, 37½" wide, 18½" deep. Code, JELLO. Shpg. wt. 185 lbs. List Price \$325.00.

YOUR COST, EACH.....

\$184.75

MODEL FM-14—Similar to above, but with Garrard RC-30 mixer-changer, with permanent sapphire needle. One ounce needle pressure, in place of the mixer-changer described above. Add.....

Lafayette

F.M. AND BROADCAST BAND TUNER

The new Lafayette Frequency Modulation and Standard Broadcast band tuner incorporated in the combination console described at right is also available separately for installation in your own cabinet, in conjunction with any fine amplifier and speaker system. This two-way tuner permits reception of Frequency Modulation from 40 to 50 megacycles and, by simply switching over, of the broadcast (amplitude modulation) band from 550 to 1600 kilocycles. Frequency response 40 to 14,000 cycles (hi-fidelity) on F.M. and 40 to 5,500 cycles (standard) on the broadcast band. Tubes used include: 1—6SK7 r.f. amplifier, 1—6SA7 converter, 1—6SK7 A.M. i.f. amplifier, 2—1B53 F.M. i.f. amplifiers, 1—6SJ7 FM limiter, 1—6H6 FM detector, 1—6SR7 AM detector and audio amplifier and 1—80 rectifier. The assembly includes a large slide-rule tuning dial, tuning indicator, AM-FM band-switch, volume control, and tone control. High impedance output connection for feeding grid of local amplifier.

MODEL FM-12—Lafayette Custom-Built A.M. and F.M. tuner as described above, complete with all tubes. For operation on 110 volts 60 cycles a.c. Size: 9" high, 16¾" wide, 15" deep. Code, JABOT. Shpg. wt. 37 lbs.

Lafayette 13-TUBE 4-BAND AC-DC PHONO-RADIO

This superlative Phono-Radio Combination represents the cumulative engineering and merchandising experience of Lafayette's 20 years of pioneering in the radio industry. All that is desirable in a fine radio and a fine phonograph is incorporated in this Lafayette model. Equipped with the world-famed Garrard record changer, operating on either AC or DC, you can enjoy the finest reproduction on both recordings or radio. Give yourself ample opportunity to try this superb combination in your own home. Our generous 30-day home trial plan will enable you to check these features:

13-TUBE AC-DC SUPERHET: This ultra-modern receiver covers the standard broadcast band on 540-1640 kc (556-183 meters); coverage of international short-wave, police, amateur and aviation signals on 2.35-7.6 mc (127-39.4 meters) and 7.3-22 mc (41-13.6 meters); and coverage of the long-wave band from 142-370 kc (815-2113 meters).

R.F. STAGE ON ALL BANDS provides extra sensitivity for all stations. This custom-built feature assures you of world-wide reception.

12-INCH ELECTRO-DYNAMIC SPEAKER easily handles the full output without distortion.

TWO-POSITION SELECTIVITY SWITCH in expanded position permits reception to 6500 cycles. In contracted position it greatly increases selectivity for tuning on all bands.

MAGIC ANTENN-AIRE, Lafayette's exclusive built-in loop for noise-free reception on broadcast band. Terminals are provided for best reception on all other bands.

MULTI-PURPOSE TUBES include: 6SK7 r.f. amp.; 6SA7 converter; 6J5 oscillator; 6SK7 i.f. amp.; 6SQ7 det., AVC and 1st a.f.; 6J5 inverter; 4-25L6 p.p. parallel beam-power output; 6U5 tuning "eye"; 2-25Z6 rectifiers and an 149DJ ballast tube. Ample reserve power is afforded.

TUNING "EYE" INDICATOR for precise tuning on all bands.

BAND ILLUMINATED DIAL. Multi-colored dial with clever bond-lighting shows range in use. **IRON CORE I.F. TRANSFORMERS** provide valuable high "Q" ratio on all reception.

VARIABLE TONE CONTROL, continuous, to suit individual tastes on radio and phono.

PHONO-RADIO TELEVISION SOUND SWITCH on front panel, coupled with volume control.

GARRARD RC-11 AUTOMATIC RECORD CHANGER permits playing of eight 10" or eight 12" records automatically. It features: **TANGENT ARM CRYSTAL PICK-UP** for optimum reproduction, maximum record life.

AUTOMATIC REJECTION KNOB.

MODEL C-126 — Lafayette 13-tube AC-DC Radio-Phono Combination with Garrard RC-11 Automatic Record Changer, complete with all tubes. Far operation on 110 volts DC or AC (60 cycles). Size: 35 3/4" high, 31" wide, 17" deep. Code, GHAUT. Shpg. wt. 110 lbs.

Lafayette TABLE MODEL

Illustrated at right is our Lafayette 13-tube, 4-band AC-DC Superheterodyne Table Model. Undoubtedly one of the most powerful table model receivers our engineers have ever offered, it incorporates the latest advancements in radio design. It is an ideal receiver for the compact apartment, and because of both its AC-DC features and its built-in Magic Antenn-Aire it will perform anywhere. Our liberal 30-day home trial will give you ample opportunity to check these fine features:

FOUR BAND TUNING: Includes the identical tuning ranges listed with its console counterpart listed directly above.

BUILT-IN ANTENN-AIRE provides noise-free loop reception on broadcast band. Aerial terminals are provided for extra sensitivity on all other bands.

8-INCH HEAVY DUTY SPEAKER supplies tone quality of unusual excellence with more than ample power. Tube complement and other technical specifications are identical with the radio section of the combination above.

MODEL C-127—Lafayette 13-tube, 4-band AC-DC Superheterodyne for operation on 110 volts DC or AC (60 cycles), in dual-tone Walnut Table Model cabinet. Complete with all tubes. Size: 12 1/2" high, 25 1/4" wide, 11 1/2" deep. Code, GLAIR. Shpg. wt. 44 lbs.

MORE AND MORE . . .

THOSE WHO APPRECIATE

Lafayette ELEVEN TUBE CONSOLE

Smooth flowing lines, graceful proportions, carefully matched grain and a deep lustrous finish make these new Lafayette 11-tube 5-band models the most beautiful radios we have ever seen. Both the straight console pictured above and the versatile automatic combination shown on the next page are radios that will add prestige to the appearance of any room. From the moment you see them you sense instinctively their fine quality.

When you turn them "on" you realize immediately that this quality is not just "skin deep". Inside of these handsome cabinets is the new Lafayette 11-tube 5-band Superheterodyne Chassis that brings you a new conception of how fine modern radio reception can be. Clarity of reproduction that enables you to hear every syllable, every note, just as clearly as though the artists were right there in the room with you. Sensitivity that enables you to easily receive stations you never even knew existed before. Selectivity that literally pulls the stations apart and picks out just the one station you want to hear. You soon realize that here at last is a radio that is different—different because it is better. You are sure that a great deal of time and effort was spent in designing it—and even more in building it. And you will be right—because Lafayette engineers did take infinite pains to give you a radio that is outstanding in both performance and appearance in this new 11-tube, 5-band Lafayette.

A SUPERB CHASSIS FOR YOUR OWN CONSOLE

Lafayette Model FE-148

The same fine 11-tube 5-band chassis together with its matching speaker is available separately for use in specially designed custom-built cabinets. Interior decorators, architects, and fine furniture makers will appreciate the ease with which this chassis can be installed. Chassis dimensions are: 17½" wide, 11" deep and 9½" high. Speaker dimensions: 12" diameter. This chassis can also be installed in many existing cabinets to replace old out-of-date radios. Why put up any longer with inferior reception merely because you like the cabinet? Replace that old chassis with this new Lafayette and find out just how good radio reception can be with a modern radio. A complete set of tubes, speaker, knobs, dial escutcheon and full instructions are furnished. For 110-120 volts 50/60 cycles a.c. operation. Shpg. wt. 45 lbs.

Code HALMA. List Price \$79.50. **\$44.50**

TRUE FIDELITY TURN TO *Lafayette*

5 BAND AC SUPERHET AND AUTOMATIC PHONO COMBINATION

Many technical refinements are incorporated in this new Lafayette 11-tube Superheterodyne. **BAND SPREAD TUNING** for the short wave stations greatly simplifies the tuning in of foreign stations direct. Each one of the four short wave bands has been given a scale of its own on the dial and spread to cover almost the complete length of the scale. No more crawling of one station practically on top of the other—no more "hair-trigger" tuning—now tuning short wave stations becomes just as simple as tuning regular broadcast stations! The ranges are as follows: 47M Band—5.9 to 6.1 mc.; 31M Band—9.1 to 10mc.; 25M Band—14.9 to 15.4mc.; and 19M Band—14.9 to 15.4mc. The fifth band is the regular broadcast band—540 to 1600kc.

SEPARATE BASS AND TREBLE CONTROLS permit individual emphasis or diminution. A separate push-button for each has Low—Medium and High positions. You can thus obtain a far greater control over tonal response than is possible with the usual single-knob type of control. It provides full tone compensation. **A LARGE 12" CONCERT DYNAMIC SPEAKER** is further assurance of the finest possible tone.

RF AMPLIFIER ON ALL BANDS guarantees maximum sensitivity and selectivity. The complete lineup: 6SK7 r.f. amp.; 6SA7 converter; 2-6SK7 i.f. amplifiers; 6SQ7 2nd det.; a.v.c.; 1st audio; 6SQ7 tone control amp.; 6J5GT inverter; 2-6V6GT p.p. power amplifiers; 6U5 tuning eye; 5Y3G rectifier; **Rated sensitivity**—3 microvolts average at 1/2 watt. Power output 10 watts undistorted.

PUSH BUTTON CONTROL for 5 pre-selected stations in addition to the bass control button, the treble control button and the phono-radio button. The station buttons are of a new clutch-type. Even a child can set them for any desired station—just pull out the button—tune by dial to the desired station—push back the button—and it's set!

BETTER-SIGHT SLIDE RULE DIAL. In keeping with today's demand for relief from eye-strain Lafayette has developed a new dial that is easier to see. Large legible figures, wide-spread short wave band scales, indirect illumination on dial and buttons.

THE MAGIC "ANTENN-AIRE" permits reception of local stations without an external aerial. A short wave antenna may be attached for reception of short wave and distant stations.

Combination Models: two phono-radio models are available, the Standard and the Garrard DeLuxe. Both of these employ the specially designed audio system of the receiver and the matched 12" Concert Dynamic Speaker.

The Standard MODEL FE-146 incorporates a fully automatic mixer-changer that will play 12-10" or 10-12" records intermixed, in any order, regardless of how they are stacked. A convenient reject lever permits you to reject any record if you should change your mind. The crystal pickup assures excellent fidelity, fine tone quality and long record life.

The Garrard DeLuxe MODEL FE-153 incorporates the new Garrard Model RC-30 Mixer-Changer with the new maximum-fidelity crystal pickup and permanent sapphire needle. This new improved changer will play eight 10" or 12" (all of the same size or inter-mixed) records in sequence automatically. The new maximum-fidelity crystal pickup provides the highest fidelity possible due to a new crystal element, exceptionally low needle pressure (only 1-ounce) and a permanently installed sapphire needle which does not require replacement! The low needle pressure almost eliminates record wear.

MODEL FE-146—Automatic Combination (illustrated above). Incorporates Lafayette 11-tube 5-band Superhet and Standard Automatic Mixer-Changer. Plays 10-12" or 12-10" records automatically. Hi-Fidelity crystal pickup. Dimensions: 33 1/2" high x 16" deep x 34 1/8" wide. For 110-120 V. 60 cycles a.c. Complete with tubes. Shpg. wt. 135 lbs. Code HALID. List Price \$175.00.

YOUR COST \$97.50

For 220 volts 40/60 cycles operation, add \$5.00

MODEL FE-146R—As above but with combination changer-recorder. Makes records up to 10". Can be used as P.A. system. Plays either 12-10" or 10-12" records. Includes mike, tubes, etc. List Price \$225.00.

YOUR COST \$125.00

MODEL FE-153—DeLuxe Automatic Combination. Incorporates the new Garrard Automatic Mixer-Changer Model RC-30 with the new maximum-fidelity crystal pickup employing a permanent sapphire needle. This is undoubtedly one of the finest combinations of its type. You can play eight 10" or 12" records (mixed if you wish) automatically. Same dimensions as at left. For 110-120 V. 50/60 cycles, a.c. Code HARRY.

List Price \$199.50. **\$114.75**

YOUR COST \$5.00

For 220 volts 40/60 cycles a.c. operation specify and add \$5.00

YOUR CHOICE OF THE WORLD'S
FINEST Automatic CHANGERS

Period Model Lafayette 11-TUBE COMBINATION

All the gracious charm of life in the eighteenth century is brought to mind when you see this new Lafayette Period Combination. The lilting strains of the Minuet, the powdered wigs, the gracious courtesy of ladies and gentlemen accustomed to a cultured, charming way of living. Unhurried, painstaking craftsmen fashioning things of beauty out of stone and wood. A little cabinetmaker in his shop putting pencil to paper to design furniture that will live after him and make his name revered forever as the master of them all, Thomas Chippendale, undoubtedly the master of all cabinetmakers, was an artist as well. An artist who knew how to put the charm of the eighteenth century into fine furniture.

Today Lafayette craftsmen have taken one of his finest examples of furniture design and reproduced it faithfully line for line. The rich, warm grain of mahogany carefully matched to produce an attractive natural design for the doors. Specially selected straight grained panels for the sides and top. Then hours of varnishing and rubbing and varnishing and rubbing, layer upon layer, until finally a deep lustrous finish brings out all the beauty of this fine hardwood. Consoles like this are not made in a hurry—it takes time and a great deal of skill.

It is only a console of this quality, however, that is worthy of so fine a phono-radio combination as this new Lafayette 11-tube 5-band Superheterodyne with Automatic Mixer-Changer. You must hear as well as see this marvelous Combination to fully appreciate the tremendous improvements that engineers have made in modern radio reception. And you'll be thrilled by the equally great improvements made in the reproduction of fine recordings.

For a complete technical description of the Lafayette 11-tube 5-band Superheterodyne please refer to page 19. Note particularly the bond-spread tuning on the short wave bands. A separate scale for each of these bands is provided on the dial—no more crowding of stations on top of one another—no more "hair-trigger" tuning—now you can tune in short wave stations as easily as the regular broadcast stations. Also note the individual bass and treble response controls, the E-Z set push-buttons, the better-sight dial, the tuned r.f. stage on all bands, etc.

Two models of Mixer-Changers are available in the Lafayette Period Model Combination. The Standard model will play twelve 10" or ten 12" records all of which can be of the same size or intermixed. A Hi-Fidelity Crystal Pickup provides outstandingly fine tone quality and because of its light weight record wear is reduced to a minimum. Gravity feed mechanism prevents chipping of records or other damage.

The DeLuxe Mixer-Changer is Gorrard's new Model RC-30 incorporating their new Maximum-Fidelity Crystal Pickup. This marvelous new pickup has a built-in permanent sapphire needle that does not have to be changed. It is so light in weight that it infinitely prolongs the life of your records. And for quality of reproduction it cannot be excelled. You will be delightfully surprised when you hear how much better your favorite recordings sound when you play them on the DeLuxe 11-tube Lafayette Combination. You can load eight 10" or 12" records (all the same size or mixed together if you wish) onto the changer at a time and settle back for as long as 40 minutes of uninterrupted entertainment—record reproduction at its very best. Precision-built GARRARD automatic record changers are recognized as being the finest in the world.

MODEL PE-147—Lafayette 11-tube 5-band Combination with Standard Mixer-Changer in Mahogany Period Console. 35 1/4" wide x 35" high x 17 1/2" deep. Plays twelve 10" or ten 12" records all same size or mixed. For 110-125 V. 60 cycles a.c. Shpg. wt. 158 lbs. Code HALLO. List \$225.00.

YOUR COST

\$124.50

Available in Walnut at \$5.00 additional—Specify Model FE-147W. For 220 volts 40/60 cycles a.c. operation add..... \$5.00

TRUE HIGH FIDELITY TO EXQUISITE CABINETRY

WITH PRECISION BUILT
Automatic RECORD CHANGER

moderne model *Lafayette* 11-Tube CUSTOM-BUILT COMBINATION

Our present century has often been called the Century of Speed and the Century of Progress. This progressive state of mind is reflected in everything we do. We travel faster and farther. We telephone instead of writing. We let machinery do our monotonous tasks for us. All this has naturally also affected the furniture with which we live. Our impatience with non-essentials has eliminated the "ginger bread" and given it its clean-cut flat plaques. Good proportions and fine texture have taken the place of applied decoration. Simplicity has come to the forefront.

If you like modern furniture—good modern furniture—then you'll like this new Lafayette Model. The attractive natural grain of fine hardwood gives it a textured appearance yet when we run an inquisitive hand over its surface we find it polished as smooth as glass. Its carefully fitted divided top appears to be permanently fastened down but at the touch of a finger it raises to reveal both the radio control panel and the mixer-changer. Only the handles betray the presence of the carefully inset doors, at the front of the cabinet, which opens to reveal the fabric covered speaker baffle. Fine workmanship and fine materials have been happily combined to produce an outstandingly beautiful custom-built cabinet. You'll take pride in its ownership.

Modern too is the new Lafayette 11-tube 5-band Superheterodyne which is the heart of this beautiful combination. Here again impatience with non-essentials has resulted in a tremendous improvement. On the short wave bands all code, beacon and uninteresting transmissions have been eliminated and each of the important short wave bands given a scale of its own on the dial. Thus each short wave band is s-p-r-e-a-d over a complete scale.

This effectively overcomes the usual crowding of stations and the "hair-trigger" tuning experienced on most short wave receivers. It now becomes as easy to tune in a short wave station as a regular domestic broadcast station. Foreign reception direct becomes a simpler matter than ever before. For a complete description of this marvelous new Lafayette Superheterodyne please refer to page 18.

The mixer-changer is also a product of our modern way of life. This ingenious mechanism eliminates the need for your getting up out of your comfortable chair after each record is played. The Standard model can be loaded with up to twelve 10" or ten 12" records (all the same size or intermixed) at one time so that you can settle back in your chair for up to 50 minutes of entertainment without going near the Combination. The DeLuxe changer can be loaded with up to eight records of either size (or both intermixed) and in addition incorporates a new permanent sapphire needle which eliminates needle changing entirely! The Standard model incorporates a Hi-Fidelity Crystal Pickup—the DeLuxe Model the new Maximum-Fidelity Crystal Pickup which has the lightest needle pressure of any mixer-changer pickup yet used and which infinitely prolongs the life of your records.

In reproduction particularly you will find evidence of modern progress. The tone quality of both radio and phono is the finest. Fully controllable by means of separate treble and bass compensators instead of the usual single-knob tone control, almost any desired response can be obtained from a true-fidelity response to over-accentuated bass or treble or both. No matter what type of response you like you can get it with this new Lafayette.

Moderne MODEL FE-145 Lafayette 11-tube 5-band Superheterodyne Combination with Standard Mixer-Changer in genuine walnut veneer cabinet. Plays twelve 10" or ten 12" records (mixed if desired) at one loading. Hi-Fidelity Crystal pickup. Reject lever. Built-in Magic Antenn-Aire. Push-Button Control. Overall dimensions: 34" high, 37½" wide, 18½" deep. Complete with tubes. For 110 V, 60 cycles a.c. Shipping weight 158 lbs. Code HALFT.

Lafayette 11-Tube Period Hi-Boy AUTOMATIC COMBINATION

A little cottage by the side of the road and a modern apartment usually have one thing in common—small rooms. You who live in such cozy little homes will appreciate more than anyone else this new Lafayette Period Hi-Boy Combination. It is an authentic reproduction of a classic Period design in every detail. With its beautifully grained crotch mahogany panelled doors and its hand-rubbed lustrous finish it is a phono-radio combination you can be proud of. In performance it leaves nothing to be desired. Both radio and record reproduction are outstandingly fine. Yet all this is contained in a handsome compact cabinet measuring only 25" wide, 35 3/4" high and 18 1/2" deep. A cabinet so compact that it will fit practically anywhere yet so beautiful that it commands instant admiration.

The heart of this Phono-Radio Combination is the famous Lafayette 11-tube 5-band Superheterodyne which is fully described on page 19. When reading about this marvelous receiver note particularly the sensationally new band-spread feature. This feature, which has proven so valuable in communication receivers, has now been incorporated in a home-type radio. No more crowding of short wave stations one on top of the other, no more "hair trigger" tuning. Each one of the four bands now has a scale of its own as long as the regular broadcast band scale. Also note the individual bass and treble controls that enable you to accentuate or diminish either response at will. These are effective on both radio and record reproduction. Then there are the E-Z set push-buttons that even a child can set and the "better-sight" dial, etc. All in all a radio that is different because it is better—for better than any you have ever heard before.

The Standard Mixer-Changer which will play twelve 10" or ten 12" records (mixed if you wish) at one loading enables you to settle back in your chair for as long as 50 minutes of the grandest record reproduction you have ever heard.

Lafayette 11-Tube Moderne Hi-Boy AUTOMATIC COMBINATION

Those who appreciate good modern furniture will instantly fall in love with this new Lafayette Moderne Hi-Boy. Here is cabinet artistry at its best. Clean-cut lines, the grain of fine hardwoods and a lustrous hand-rubbed finish make this a true gem of the cabinet makers art. Custom-built it is available in both walnut and bleached mahogany finishes. Despite the fact that it houses the big powerful 11-tube 5-band Lafayette Superheterodyne and the Standard Mixer-Changer, it is unusually compact measuring only 36 3/4" high, 23 3/4" wide and 16" deep. An ideal size for the small apartment and cottage.

In tone, selectivity and sensitivity it is truly amazing. The heart of this model is the Lafayette 11-tube 5-band Superheterodyne which is fully described on page 19. This marvelous receiver is the culmination of 20 years of experience in building fine radios. It incorporates such sensationally new features as short wave band s-p-r-e-a-d-i-n-g, individual bass and treble response controls, E-Z set push-buttons, "better-sight" dial and many more. The short wave band s-p-r-e-a-d-i-n-g which was originally developed for communication receivers provides a separate scale for each of the four short wave bands and greatly simplifies tuning in of foreign stations. No more crowding of stations on top of one another—plenty of room between stations in comparison with present day radios. Push-buttons that are so easy to set a child can do it. And the individual bass and treble response controls permit you to have far greater control over tone than ever before. No single-knob control can even begin to compare.

The fine audio system together with the large 12" concert dynamic speaker and the crystal pickup on the Mixer-Changer provides a fidelity of record reproduction never approached before in sets at anywhere near the price of this one. In addition the unusually light weight of this pickup results in very little needle pressure and infinitely long record life. The changer can be loaded with twelve 10" or ten 12" records at a time. The records can be all of the same size or the sizes can be mixed together as desired. Up to 50 minutes of the most wonderful record reproduction you have ever heard at a single loading. A built-in reject lever permits you to reject any record if you should change your mind after loading the machine.

MODEL FE-151—Lafayette 11-tube 5-band Period Hi-Boy Automatic Combination. Superheterodyne Radio. Standard Mixer-Changer. Mahogany cabinet 25" x 18 1/2" x 35 3/4" high. For 110 V. 60 cycles a.c. operation. Plays twelve 10" or ten 12" records (mixed if you wish) at one loading. Shpg. wt. 165 lbs. Code HANSE.

Inspired DESIGN AND ENGINEERING BRING YOU

Lafayette 15 TUBE

A NEW BREADTH OF TONAL *Beauty*

This frequency chart presents graphically, what you hear when you listen to speakers, singers, instrumentalists and full orchestras in person AND through the Lafayette Overture on both radio and high-fidelity recordings. Send for illustrated brochure detailing full electronic characteristics and specifications making for the Overture's superiority.

TOUCH a switch . . . the portals of a new world of tonal beauty open! The enchantment of immortal music fills your soul; you thrill to a new adventure in musical reproduction . . . through the Lafayette Overture! This incredibly magnificent musical instrument has won wide acclaim as the master-work of higher fidelity reproducers. Eminent musicians and engineers who have heard the Lafayette Overture have been unanimous in their overwhelming praise of its exceptional ability to re-create ALL the music, all the artistry broadcast from modern high-fidelity stations, or captured in today's superfine recordings.

The Lafayette Overture has been designed, engineered and constructed to delight the most discriminating eye and ear. It is destined to become the standard by which all other fine custom-built radio-phonograph combinations will be judged for years to come. The purity of tone, the full bodied volume and the almost unbelievable degree of musical nuance of shading provided by this fine combination really must be heard to be appreciated.

The new Garrard Mixer-Changer used in these combinations plays eight 10" and 12" records in any assortment. The automatic mechanism requires no setting of any kind. Simply place the stack of records on the spindle and sit back and luxuriate in music perfectly reproduced. This new RC-30 Garrard features a permanent sapphire needle and a new low-pressure tangent tone arm with only one ounce needle pressure for better reproduction, increased record life.

To harmonize properly with the home beautiful two exceptionally handsome cabinet models house the Lafayette Overture. The modern cabinet (illustrated above) is available in a warm walnut finish or the ultra modern wheat finish. The luxurious period cabinet (illustrated on next page) is supplied in a rich grained mahogany. Master craftsmanship is apparent in every line; built to last a life-time.

Lafayette Overture, higher fidelity radio-phonograph combination with Garrard RC-30 Automatic Mixer-Changer with permanent sapphire needle and low-pressure tone arm. Complete with all tubes. Size: 34" high, 39" wide, 19" deep. Shpg. wt. 220 lbs. **LIST PRICE \$400.00.**

MODEL CC-35—In Walnut Modern Console. Code, GERRY.

ALL LAFAYETTE Radios are R.C.A. and Hazeltine Licensed.

A REVELATION IN SUPREMELY BEAUTIFUL MUSICAL REPRODUCTION

HIGHER FIDELITY

High fidelity, an advertising term of dubious meaning to most radio manufacturers, is a high ideal with Lafayette. Impossible to achieve with production-line methods, Lafayette's higher fidelity radio-phono combinations are all custom-built, checked and rechecked in our laboratory so that their performance is never less than perfect when it reaches the music loving public to whom we cater. Every unit, every component is matched so that the whole is the sum of many perfectly complementary parts. Nothing but the finest in materials, design, engineering and craftsmanship is tolerated.

OVERTURE

HIGH FIDELITY RADIO TUNER

The product of radio's outstanding engineering genius this 9-tube Superheterodyne Tuner used in the Lafayette Overture reproduces the entire audio range of modern high-fidelity broadcast stations. Outstanding features:

VARIABLE I.F. EXPANSION utilizing two i.f. stages with 3-position switch for 1) Full expansion for high fidelity stations; 2) Semi-expansion for average stations; 3) Needle sharp selectivity for distance reception through local interference.

10 KILOCYCLE FILTER, low-pass cutoff for reception with good fidelity under the most severe conditions of inter-station interference. A switch is provided to cut out this filter when not needed.

FLAT FREQUENCY RESPONSE. The tuner output is FLAT within ± 3 db from 20 to 10,000 cycles per second.

SEPARATE BASS AND TREBLE EQUALIZATION. —16 db at maximum bass setting; +10 db at maximum treble setting. Permits any desired degree of tonal balance, bass and treble.

IRON CORE ANTENNA COIL for extremely high "Q".

OVERSIZE COMPONENTS provide a high factor of safety and performance.

COMPLETE BROADCAST BAND COVERAGE from 540 to 1720 kilocycles (556 to 174.5 meters) covering all domestic broadcast and high-fidelity stations in U.S. and Canada.

INDICATOR DIAL LIGHTS in exclusive dial design indicate degree of variable expansion.

NINE MULTI-PURPOSE TUBES used include: 1—6SK7 r.f. amplifier; 1—6SA7 converter; 2—6SK7 i.f. amplifiers; 1—6SQ7 detector, A.V.C. 1—6U5 tuning eye; 1—6J5 and 1—6C8G audio network amplifiers; 1—6X5GT rect.

AUDIO AMPLIFIER SECTION

Designed specifically to reproduce with utmost fidelity the full frequency range of the superlative tuner above, as well as the output of the Garrard Automatic Record Changer, this ultra-high quality audio amplifier matches in every way the superior performance of both units.

20 WATTS UNDISTORTED OUTPUT on both radio and phonograph; 26 watts peak.

INVERSE FEEDBACK from voice coil to the voltage amplifier, thus damping cone transients and assuring true high fidelity output.

PUSH-PULL BEAM POWER OUTPUT using a pair of 6L6 power amplifier tubes. Other tubes include 1—6J5 1st voltage amp.; 1—6J5 2nd volt. amp.; 1—6J5 phase inverter; 1—5U4G rect.

SEPARATE POWER SUPPLY, as in the tuner to eliminate any possibility of interaction and makes for stable performance.

OVERSIZE COMPONENTS for extra heavy duty are used throughout.

DUAL SPEAKER SYSTEM

To handle the wide frequency response of both radio and phonograph input a special high fidelity dual-speaker system perfectly matched as to frequency range and power handling ability has been devised. The frequency range of the audio amplifier and speaker system is essentially flat to 14,000 cycles which exceeds the limits of present day radio and recording studios. With the popularization of Frequency Modulation this audio amplifier and speaker system will form an ideal unit for use with an F.M. tuner (input terminals provided). Both speakers used are P.M. dynamics, one 12-inch diameter the other, 6-inch especially designed to complement each other.

Naturally with a tuner, amplifier and speaker system of such high caliber only the finest in Automatic Record Changers should be used. That is why the new Garrard, the world's finest precision changers, have been chosen for use in the Lafayette Overture.

MODEL C-122—Lafayette 15 tube Overture higher fidelity radio-phonograph combination with Garrard RC-30 Mixer Changer in Mahogany English Regency console, complete with tubes. Size: 34" high, 39" wide, 20 $\frac{3}{4}$ " deep. Shpg. wt. 220 lbs. Cide, GELID.

- ★ Sensational 7 Tube 2 Band A.C. Push-Button Superheterodyne
- ★ Ideal For Police and Fire Dep't. High Frequency Broadcasts

Originally made to sell for \$60.00, this exceptional Crosley 2 band, 7 tube Push-Button Superheterodyne is a sensational buy at this price, equal to a 75% discount! An amazingly versatile set that gives you not only the broadcast band with automatic push-button tuning on five of your favorite stations, but also the 7 to 10 meter high frequency band. This band covers police and fire department high frequency calls (including two-way systems), h.f. educational broadcasts and the ever-interesting 10 meter amateur band. Another interesting feature is a special switch to permit operation of extra speakers in other rooms. Just check these outstanding features—where could you buy half as much for less than \$15.00?

ADVANCED SUPERHETERODYNE CIRCUIT: utilizing modern high-gain tubes including the new 1852 "television" tubes. Complete tube complement includes: 1-6K8, 1-6SQ7, 1-6Q7, 1-6SK7, 1-1852, 1-6N6G and a 5Y3G rectifier. For use on 110 volts 60 cycles A.C.

TWO BAND TUNING covers the entire American broadcast band from 540 to 1570 Kc (555 to 191 meters) and 25 to 47 mc (7 to 10 meters) covering h.f. police and fire department calls (ideal for uniformed men who can thus keep in touch with stations while at home).

PUSH BUTTON TUNING. Tune in any one of your five favorite stations at the touch of a button. Easy to set or re-set. Enjoy luxury listening.

REMOTE SPEAKER SWITCH; where it is desired to use this set to operate an additional speaker located at a distance from the set.

ATTRACTIVE GRAINED WALNUT TABLE CABINET.

MODEL 758-A

Crosley 7-tube, 2-band (High Frequency and Broadcast Band) Automatic Push-Button Tuning Superheterodyne, complete with all tubes. In handsome grained walnut table model cabinet, 10" high, 15" wide, 15 1/2" deep. For operation on 110 volts 60 cycles A.C. Shpg. wt. 29 lbs. List Price \$60.00.

Moderne Crosley 5-Tube AC Superhet
Excels in Quality — Tone — Value

Here's a truly amazing bargain—a real 5 tube AC Superheterodyne that provides seven tube performance at a price that represents but a fraction of its regular cost. Lafayette has made a phenomenal buy in the fine Crosley radios listed on this page, and that saving is being passed along to you. Who on your Christmas list would not be delighted to receive a 1941 radio that performs and looks like a "big money" gift? You will favor not only the fortunate recipients, but your own pocketbook and satisfaction will reign supreme, as is appropriate for the holiday spirit.

Housed in a handsome grained duotone walnut veneer table model cabinet with chromium finish dial face and white plastic knobs, it is an ideal set for use in the dormitory, den, spare room or anywhere about the house. Capable of supplying fine tone with more than ample volume over the entire American and Canadian broadcast and upper State police bands. You'll be pleasantly surprised by the fine tone quality and superior volume, unbelievable in a set offered at this sensationally low price. Just glance over this list of exceptional features:

MULTI-PURPOSE TUBES provide equivalent of seven tube performance with the following tube complement: 1-6A8G oscillator-mixer; 1-6U7G intermediate-frequency amplifier; 1-6Q7 second detector, A.V.C. and first audio; 1-6K6G output and a 5Y3G rectifier. For operation on 110 volts 60 cycles A.C.

EXTENDED BAND TUNING covers the entire broadcast and upper police bands from 550 to 1800 kilocycles (545 to 166 meters).

AUTOMATIC VOLUME CONTROL to maintain volume at a constant level and to minimize fading from distant stations.

ELECTRO-DYNAMIC SPEAKER for fine tone quality and excellent volume.

ANTENNA HANK supplied. Outdoor antenna not necessary for normal locations.

HANDSOME GRAINED WALNUT CABINET superbly set off by the modern dial and speaker mounted directly behind the dial pointer.

MODEL 508

CROSLY 5 tube AC Superhet in table model Walnut cabinet, complete with all tubes. Size: 9" high, 15 1/2" wide, 6 1/2" deep. Shpg. wt. 21 lbs. Retail Value \$19.95.

PRACTICAL GIFTS

G.E. Automatic "Pop-Up" Toaster Set

What a wonderful gift for any woman—married or single! Made by General Electric (remember the Fair?). A gleaming "Pop-Up" Toaster with the "compensated timer" that automatically adjusts itself so that every slice is toasted exactly "right" no matter how long the toaster has been operating. A handsome 16x20" Walnut finished tray equipped with two bright chrome-plated bread racks, a hard maple bread board and four beautiful vari-colored pottery relish bowls. Removable panels keep the bowls in position when you carry the tray. You can toast both sides of two slices of bread at once to any pre-selected degree of brownness. When the toast is finished the rack holding it rises automatically and the current is shut off. Entire unit is finished in bright chrome-plate with black Textolite base and control knobs. Long-life nickel-chrome heating element. Approved 6-ft. cord and rubber plug.

NEW! Fluorescent Daylight Desk Lamp

Here is one of the grandest gifts you can give any student, business man or anyone else who spends long hours burning the "midnight oil." Employing the new fluorescent bulb that provides a light many times easier on the eyes than any bulb yet devised it is really a prescription for tired eyes. Gone is that headachy feeling due to eyestrain and up comes your efficiency and your ability to do your work. Most remarkable of all perhaps is the fact that this lamp costs less to operate than most desk lamps. Fluorescent bulbs turn almost all of the electrical energy into useful light and practically none into useless heat rays thus making possible a considerable saving in current. The bulb used consumes only 15 watts! The lamp itself is handsome in design, sturdy and substantial. In efficiency it is miraculously high. A parabolic shaped reflector concentrates the light forward to provide an even and useful light over the entire desk area. Reflector is finished in chip-proof white enamel. Overall finish in attractive durable light brown Morocco. Convenient pen trough. Stands 14 1/2" high, shade 18" long, base 10" long and 5 1/4" wide. For 110-125 V. 60 cycle AC only. Shipping weight 12 lbs. List Price \$5.95.

Streamline Juice King

Here is a quiet, highly efficient unit for extracting the last bit of drinkable juice from fruit. It is so efficient that it can actually be used for extracting the oil from peels! No loss from straining as with ordinary hand and electric juicers. A compact and powerful 16 to 1 rack and gear exerts tremendous pressure with a minimum of effort. Sturdy—die cast of Zamac metal and aluminum. Beautifully finished in ivory and polished chrome plate. Overall height is 9" —base is ¾" long by 5¼" wide. Tested and approved by Good Housekeeping Institute. A wonderful gift for anyone at a mighty reasonable price. Shipping weight 5 lbs. List Price \$2.95. Model S10. **\$2.15**
K25591—YOUR COST.....

RED SEAL Electric Mixer and Juicer

The gift that Mother has always wanted—an electric mixer—the biggest little helper she could ask for. RED SEAL Model 7271 is a splendid new mixer and juicer at a remarkably low price! It mixes, stirs, whips and beats with equal ease. It gets the last drop of juice out of your fruit. It is, in short, one of the most versatile kitchen machines. Technically it is truly outstanding. The motor is air-cooled, powerful and quiet. It whips thick batters as readily as it does thin. Three variable speeds take care of any mixing requirement. Stainless steel beaters firmly anchor in place yet are easily removed for cleaning. Correct design distributes the weight properly so that when used in the hand the beater is easy to manipulate. The mixer frame is unbreakable—die-cast from genuine ZAMAK. It is finished in cream eggshell—with red striping on handle. The unit comes to you complete with two bowls—one 9" and one 7½"—molded of fine glass. The juicer bowl is of the same fine material and the reamer is of sturdy molded bakelite in matching color. In operation the bowls revolve automatically for speedier more thorough mixing. Rubber feet are fitted to the bottom of the mixer to prevent skidding and jarring of the table top. The mixer is Underwriters' listed. It is fitted with an approved 6-foot cord. Designed to operate from 110-120 volts AC or DC. Current drain is 120 watts. Shipped complete with instructions. Shipping weight 14 lbs. **\$7.95**

**A RIOT OF FUN!
GENUINE STUDIO SOUND EFFECTS**

**RAIN
WIND
TRAINS
GUNS
WHISTLES
ETC.**

What loads of fun you can have with this genuine RCA Sound Control Studio! Make all the realistic sound effects you hear "on the air": Rain—Wind—Trains—Horses—Guns—Thunder—Forest Fires—those are just a few of the startlingly realistic sound effects you can make with this outfit, designed by NBC sound engineers. And it's so simple to think of new ones that children, old and young, will find hours and hours of amusement in working up new ones. Complete instructions are included to simulate sounds of wind, rain, surf, explosions, gun shots, thunder, police sirens, cow moos, cow bells, door slams, squeak of brakes and door hinges, train whistles, engine exhaust, telephone bell, fire bell, horses' hoof beats, frying eggs and the familiar NBC "station-break" chimes. With this outfit you can write your own skits—then play them with all the realistic sound effects.

The entire RCA Sound Control Studio kit is shipped with a sturdy table constructed of heavy cardboard with attractively printed "dummy" meters, control knobs, etc., all in full color. Makes a highly realistic looking studio monitor board. The table measures 26 inches long, 17 inches deep, and 22 inches high. Each sound making device has its own specific place on the control table for immediate use. Any child can set it up in a few minutes and, with the simple instruction book provided, start his career as a radio sound effects man. More fun than any plaything has provided in years. At this sensational low price you'll have to order yours now—supply limited.
K25570—RCA Sound Control Studio complete as described, with instructions. Shpg. wt. 18 lbs.

R.C.A. ELECTRONIC LAB KIT

AT SPECIAL LOW PRICE

Looking for a gift for a boy who likes to experiment with radio and electrical gadgets? This RCA Electronic Lab kit is ideal for junior engineers and experimenters from ten to sixty. Code practice sets; electric relays for turning things on and off; a unit to enable you to play music through your radio; a microphone so that you can "broadcast" through your radio; an actual radio receiver and many other fascinating things can be made with the apparatus contained in this kit. A complete booklet of instruction explains fundamentals of electricity, radio, electro-magnetism, electronics. Learn how a radio tube and other parts of a radio work. Everything explained in clear, easy-to-follow fashion.

Complete instruction on the continental Morse code is also supplied so that would-be radio amateurs can use this kit to excellent advantage. You can also build an announcing system and learn the fundamentals of the field of Public Address. Complete kit consists of resistors, condensers, soldering iron, solder, microphone, earphone on head-band, relay, power transformer, an EK-100 tube and template for use in constructing the radio set described in the booklet. Our quantities are extremely limited. Send your order now and avoid disappointment.

R.C.A. ELECTRO-SYMPHONIC

PORTABLE RECORD PLAYER

- ★ **Crystal Pick-Up**
- ★ **Built-In Amplifier**
- ★ **P.M. Speaker**

Here's a Lafayette EXCLUSIVE value—one that can't be beaten. These genuine RCA, completely self-contained portable record players cost considerably more to manufacture than the price quoted, and they're built to the most exacting standards.
DOUBLE SPRING MOTOR: Heavy duty type with double spring. Provided with felt covered turntable. Winding handle folds into case. Plays 10" & 12" records.
CRYSTAL PICK-UP: Featherweight, and with latest streamline design. Chrome plated pick-up arm. Has wide-range response, minimum needle scratch, natural tone. All records may be played with lid completely closed. Volume control and on-off switch are located on side of case. Automatic stop switch also turns off amplifier.

3-TUBE AMPLIFIER uses low-drain, high power tubes: 1G6G, 1G4G and a 1G5G. A single convenient battery power pack, easily replaceable supplies all current.
P.M. SPEAKER in neat housing provides fine tone. Fully protected.
DE LUXE CASE: Constructed of durable aluminum with beautiful satin finish. Will withstand long and hard usage. Top cover contains a record compartment and file that will hold 8 records. Metal snap locks. Sturdy carrying handle. Overall dimensions: 15 1/2" x 18 1/2" x 15". Shpg. wt. 30 lbs.
K21870—RCA DEMONSTRATION MODELS: De Luxe Electro Symphonie Record Player, complete with tubes and battery.
Ready to use.

FAMOUS MAKE ENLARGER

Over 30% Off List!

Lafayette has offered many bargains in the past and will undoubtedly do so in the future but right now this is the greatest bargain we have ever heard of. Due to our tremendous volume of business we were able to buy up all of this model that the manufacturer had on hand. We had to promise however, not to mention his name when advertising these excellent enlargers (for obvious reasons). It is a comparatively new model but expensive to build—more expensive than the manufacturer originally estimated. It will take all negatives from 35 mm. to 2 1/4 x 3 1/4". Has a fine 3 1/2" f.6.3 enlarging anastigmat lens. A calibrated swivel head to permit horizontal projection as well as the usual vertical. The illumination system includes both ground glass diffusion and a condensing lens (either or both can be used as desired). A convertible glass or dustless metal plate negative carrier. Adjustable metal mask. The upright column is of heavy steel

securely mounted on a 16x22" finely finished baseboard. Focusing is accomplished by means of a large knurled ring that is easy to grip and provides smooth accurate adjustment. Once set it is easily locked into position. The lamphouse is large and well ventilated assuring a cool negative at all times. The cord is provided with a switch to turn the enlarger on and off. A standard 100 watt enlarging lamp is employed and included as is a well written and easily understood instruction booklet. In other words the enlarger comes to you complete and ready to use. Shipping weight 35 lbs.

Sensational Salon Enlarger!

Sensational is definitely the word for the new SALON enlarger! When we first heard the price we thought it was the wholesale quantity price—and low at that! So you can well imagine how we felt when we learned it was the list price. The body is of heavy machined steel castings. The lamphouse a full parabolic spun aluminum housing. Extra extension oversize bellows. Machined lens board and guides. Two guide rods. Micrometer focusing with one full turn of the knob moving the lens up or down only 1/500ths of an inch! Takes all negatives from 35 mm. to 2 1/4 x 3 1/4". The lens is a sharp SALONAR ACHROMATIC f:5.6 compound lens! Full size warp-proof laminated baseboard and 24" heavy gauge nickel-plated upright column. Employs a standard enlarging lamp and is beautifully finished in scratch-proof blue-gray with gleaming polished lamphouse and column. **And now for the biggest surprise of all!** The list price of the enlarger (alone) is \$8.95—but—Lafayette gives you the SALON Enlarger plus a No. 211 G.E. enlarging lamp, plus a Lafayette Spot Dodger, plus a Lafayette Vignetter, plus a Lafayette Focus Chart and plus a "Darkroom Handbook" for less than the list price of the enlarger alone! Sensational? You bet! But don't forget that it takes the tremendous purchasing power of an organization like Lafayette to make it possible. We expect our stock of these enlargers to go fast—they make such swell gifts—so get your order in today. Shpg. wt. 20 lbs.

BUY OR GIVE A CAMERA AND . . .

THE NEW UTILO AT A BARGAIN PRICE!

Yesireel You CAN believe your eyes! Lafayette is offering a popular sized roll film camera with genuine MEYER TRIOPLAN F:4.5 lens for only \$11.95! Here's an outstanding value if there ever was one. This UTILO camera is a sturdily built and attractively finished camera that has all the features you'd pay a whole lot more for elsewhere. It's simple enough for a child to handle, flexible enough for the experienced amateur to get the sort of pictures he wants, and sturdy enough to serve as a "knock-about" camera for vacation trips, etc., because it can take hard usage.

Takes 8 2 1/4 x 3 1/4 Inch Pictures

Using the ever popular 120 or 82 size roll film this Utilo takes 8 2 1/4 x 3 1/4" shots on a roll. Large enough to mount in your album as is, yet small enough to be in the economical "miniature" class. The speed and quality of the lens—the world-famous Meyer Trioplan f:4.5—permit flawless, clear and brilliant black and whites and full natural color shots as well (as with Dufoycolor, etc.) Lens diaphragm openings calibrated on the face of the shutter mount and on the upper rim so that it may be set from operating position, a great convenience.

The UTILO camera features: Two View Finders, brilliant reflecting waist level finder and direct-vision metal frame finder; sturdy camera body handsomely covered, leather carrying strap; tripod bushings; drop-bed foot.

PH1597—Utilo Camera with Meyer Trioplan f:4.5 lens in Vario shutter; speeds T & B, 1/25, 1/50, 1/100th sec. Shpg. wt. 4 lbs.

THE VOIGTLANDER BESSA ★ ONE OF A DISTINGUISHED FAMILY

These famous Voigtlander Bessa roll-film cameras are tops in their class. Equipped with the needle-sharp Voigtar lenses these cameras take 8 2 1/4 x 3 1/4" pictures or 16 1 1/2 x 2 1/4" pictures on standard 120 or 82 film. You actually have the use of two cameras for the price of one. A new design incorporates an ingenious shutter release on the under side of the baseboard in addition to the usual release—fine for those fast action candid shots. Optical view finder springs open automatically when camera is opened. Three-point focusing eliminates guess work in focusing. Waist level reflecting brilliant finder. All models have built-in self timers so that you may step into the picture. Camera bodies sturdily constructed, covered with fine grain pin seal leather. Back opens easily for loading and unloading. Overall streamline design enhances the appearance. Shpg. wt. 4 lbs. each.

PICTURE THE FUN THEY'LL HAVE!

A Sensational Buy! BALDAXETTE II

In view of the fact that these popular cameras are becoming scarcer than ever because of the foreign situation it is doubly amazing that Lafayette can offer them at such sensationally low prices. They are real precision cameras with built-in coupled split-field military type range finder, automatic parallax compensating view finder, automatic film transport, body type shutter release, fast sharp cutting f:2.9 Trioplan Anastigmat lens. Excellent for black and white and full natural color. Takes 12 pictures (11 when using automatic transport) 2 1/4 x 2 1/4" in size on a standard roll of No. 120 or 8-2 film.

Two models are available—with regular Compur Shutter and with Compur-Rapid Shutter. The regular Compur has speeds from 1 second to 1/250th second, the Compur-Rapid to 1/400th second. Both models have built-in self-timers operable at any one of the wide range of shutter speeds. Focusing is accomplished by a simple lever that advances the entire lens (not just a single element).

The coupled range finder provides a brilliant

image and an internal sighting guide assures accurate placement of the subject in the field.

VOIGTLANDER BRILLIANT Twin-Lens Reflex Cameras Take 12 2 1/4 x 2 1/4 Inch Pictures on No. 120 Roll Film

A glance into the brilliant view finder atop these excellent Voigtlander Brilliant cameras will tell you whether your picture is worth taking or not. These splendid cameras with fine Voigtlander anastigmat lenses take 12 album size 2 1/4 x 2 1/4" exposures on standard B2 (120) size roll film. The back of the camera opens easily for loading and unloading. An Automatic Winding Key prevents turning the film too far and an Automatic Film Counter shows you the number of exposures taken. Simple three-point focusing arrangement. Finder hood can be pressed back and you have a sports view finder for taking interesting fast action shots. Focusing hood folds down out of the way when not in use. The Brilliant V6 has a sturdily constructed, durable body that will withstand much hard usage—and give a life-time of service. A clever Hold-All compartment is fitted into one side of the camera body providing a handy space for accessory lenses. Sturdy shoulder strap is provided with the camera. Available with f:7.7, f:6.3 and f:4.5 lens.

Economy DARKROOM OUTFIT

A very reasonably priced outfit for both developing and printing that is especially designed for those desiring to start with just the necessary essentials. Each item has been carefully selected and is of excellent quality. The outfit is complete enough to enable you to do good work right at the start without resorting to any makeshift methods. It provides an excellent foundation for the beginner to which other items may be added as his skill increases in order to do more advanced work. It is an excellent gift for the youngster or grownup just beginning to get interested in photography.

COMPLETE.....

Standard DARKROOM OUTFIT

Priced only a little higher than our Economy outfit, the Junior Printing and Developing Outfit provides a much wider range of working facilities than does the former. It includes a larger graduate as well as "sure grip" film clips and a larger quantity of essential chemicals. The contact printing paper is larger, too, enabling you to print larger size negatives or to cut it up into a larger number of smaller size prints. Another feature is the inclusion of two stainless steel print tongs and a "Darkroom Handbook."
